Coming (and Going) Out

In the gay 90's many of us have finally begun to celebrate who we are: men and women who enjoy life, have children, pay taxes, go to church, work, play, and yes, love individuals of the same sex.

A part of our celebration includes a certain level of coming out. Whether we participate in gay pride activities or read gay/lesbian novels in the comfort (and safety) of our own homes is largely a personal decision.

Many of us have reason to fear coming (and going) out. ***But today is a different day.*** Lesbianism is chic - the "in thing" as movies, television shows, and entertainers celebrate womyn loving womyn. AIDS have pushed the gay community to the forefront as we continue to fight what is no longer considered just a gay man's disease.

About the town, we are beginning to fly rainbow flags on our car windows, our front porches, our storefronts, and even on the clothes we wear.

We talk about **GAY PRIDE** and **HUMAN RIGHTS**, but do we really know what they mean? **PRIDE** results when we have a positive sense of self and community. **RIGHTS** happen more quickly when we join as one.

Get involved with YOUR community, today!

Great things are coming to Tulsa. As 1995 comes to an end, **expect** to see something very special happening in our community. You'll want to be a part of the excitement!

Make plans now to attend the CommUNITY meeting on November 7th at 7:00 PM (Alan Chapman Activity Center - Choteau Room, Tulsa University).

Meet leaders from the many organizations dedicated to providing services for Tulsa's gay, lesbian, bisexual, and transgendered communities. Cast your vote for next year's tohr leadership, and participate in round table discussions designed to bring UNITY to our Community.

Together we can make Tulsa a great place to come (and go) out. ☐

Family to Family is a one Day, national toll free help line for people who have recently learned that their child, family member or friend is, or might be gay. Family to Family puts callers in one on one confidential contact with parents, families and friends of lesbian and gay men and select professional counselors. The date is Thursday, September 28, 1995

The Quilt Returns to Tulsa

The Tulsa Chapter, Names Project, announces that a major display of the Quilt will be in Tulsa on October 13 through the 15, 1995. The display of the Quilt will be at a new location, the Expo Square Pavilion on the Tulsa State Fairgrounds. There will be approximately 800 panels on display. PFLAG will participate in the unfolding of the Quilt. If you would like to be a member of the team, please call Nancy at 742-8565.

Project Open Mind

Tulsa, OK, has been chosen as one of three cities (along with Atlanta, GA, and Houston, TX) to pilot Project Open Mind. This project, designed and supported by PFLAG's National Organization, will focus on addressing the homophobia that exists in a community. Through a multimedia (radio, TV, print, forums, speaking engagements, etc.) educational program we hope to reach Tulsa's "mushy middle" on gay/lesbian/bi issues. Tulsa's PFLAG chapter can look forward to special media training, materials for TV and radio, and access to national staff support.

Urgent Responses Needed on Legislative Activity!!

Congress has returned from its August recess and is planning to consider several pieces of legislation of critical importance to our community. We cannot pinpoint when they will do so, but we can prepare you to respond. Please read this Action Alert carefully and take action using the information the Human Rights Campaign Fund has provided.

Issue #1:

Critical AIDS Care, Prevention and Education Programs At Risk!!

During the week of September 11-15, the Senate Appropriations Committee and its Labor, Health and Human Services Subcommittee will take up the L/HHS/Ed appropriations bill which determines FY '96 funding levels for most federal HIV/AIDS, health and education programs including: The Ryan White CARE Act, HIV Prevention, and the Office of AIDS Research (OAR). Thereafter, the full Senate will consider the bill on the Senate floor and vote on any amendments.

In the past years, Senator Jesse Helms (R-NC) has introduced amendments to the L/HHS/Ed bill which attempt to restrict the content of HIV prevention messages and youth's access to contraceptives. And, just last month, Helms introduced an amendment to the Ryan White CARE Act to deny funds to community-based organizations that "Promote Homosexuality." Such amendments single out the gay and lesbian community for discrimination by denying them life-saving HIV/AIDS medical care, prevention information and counseling.

Urge your Senators to Oppose any Anti-gay Amendments!

Call your Senators through the Senate switchboard at 202-224-3121 and urge them to oppose all amendments to the L/HHS/Ed bill offered by Helms or others that single out the gay and lesbian community for discrimination. Ask your Senator to speak out on the Senate floor in support of life-saving HIV/AIDS programs.

Issue #2

Ryan White CARE Act Expires on September 30!

The Ryan White CARE Act provides essential life-sustaining medical and support services to more than 350,000 women, men and children living with HIV and AIDS in communities across America. It empowers local communities to decide how dollars should be spent and is cost-effective, reducing costly hospitalizations and emergency room care. AIDS is now the number one killer of all Americans age 25-44. Now, more than ever, we need the CARE Act, but it will expire at the end of September unless it is renewed or reauthorized!

HR 1872, the CARE Act reauthorization bill was reported to the House floor by a unanimous, bipartisan vote in the Commerce Committee. However, we are now concerned that Representative Bob Dornan (R-CA) and

others may introduce amendments to the bill that would deny critical HIV/AIDS medical care to the gay and lesbian community.

Urge your Senators to Oppose any Anti-gay Amendments!

Call your Representative through the House switchboard at 202-225-3121 and urge them to oppose all amendments offered to HR 1872 that would deny critical HIV/AIDS medical care to the gay and lesbian community. Ask your Representative to speak out on the House floor in support of this life-saving program.

Issue #3

Anti-gay Hearings on School Programs Planned!!

Anti-gay extremist Lou Sheldon, the head of the Traditional Values Coalition, has succeeded in pressuring Congress to hold hearings on public school programs which deal with issues of sexual orientation. Sheldon will use this forum to attack programs that he claims "promote" homosexuality but which, in fact, are modest programs, adopted by local communities, to respond to an epidemic of violence and discrimination that affect all students.

The issue of the "homosexual agenda in schools" will be part of a hearing entitled "Parental Involvement in Social Issues in Education" to be held by Rep. Peter Hoekstra (R-MI), Chair of the House Oversight and Investigations subcommittee of the Economic and Educational Opportunities Committee. The hearings were originally scheduled for September 12, but have been postponed, to the end of September or early October.

Urge Chairman Hoekstra to cancel the hearing!!

Please call Chairman Hoekstra at 202-225-4401 to urge him to cancel these inflammatory hearings!

tohr and HIV

Many may wonder why a human rights organization manages the only anonymous HIV testing clinic in northeastern Oklahoma. Perhaps a visit to the past and a look at the present might explain.

In the mid-to-late 80's when AIDS was first becoming a regular part of our Oklahoma vocabulary, **tohr** was one of the few organizations already positioned to provide HIV prevention activities. The first Testing/Counseling program was developed in response to what **tohr** believed was a fundamental human right - the right to be tested for the HIV virus in an anonymous fashion. Who better to protect the rights and anonymity of Tulsa's gay, lesbian, and bisexual community than the city's oldest gay and lesbian organization?

Today, the work of the clinic is greatly expanded. Testing and counseling continue on an anonymous basis while outreach workers provide prevention information to gay men, youth, and women. Although many organizations now provide HIV/AIDS services, **tohr** remains steadfast in its goal of providing some HIV services **by and for, (but not exclusively for) the gay, lesbian, and bisexual community.**

Programs like the newly established **Positively Negative** continue to provide prevention services specifically designed to meet the needs of the gay and bisexual men. **Positively Negative** is one of the first programs in the Nation to explore a new method for promoting the prevention of HIV.

tohr was originally chartered to: (1) *bring an end to discrimination and oppression against all persons based on sexual or affectional orientation or preference;* (2) *to encourage freedom of expression of affectional orientation or preference;* (3) *to obtain equal treatment under the law for all persons regardless of sexual orientation or preference;* (4) *to discourage prejudice or stereotypical treatment by officials and news media on account of sexual*

orientation or preference; (5) *to educate the general public about human rights;* (6) *to provide a forum for the discussion of human rights issues, and;* (7) *to disseminate information on such issues to its members and to the general public.*

Some may argue that our mission is not in line with our two HIV programs (prevention and anonymous testing). Prevention for the members of our community benefits all of us. Secondly, many of the battles fought on behalf of individuals living with HIV or AIDS have also been battles related to discrimination based on sexual orientation. No matter how much we would like to separate the disease from the reality of our sexuality - a primary mode of transmission is through sexual activity. The very nature of exposure often leads to many individuals being "outed." Discriminatory treatment related to HIV is largely based on fear. It is also based on the fact that until recently, AIDS was considered a "gay disease."

Past comments from leaders of the religious right have forced us to address the human rights of persons who were not only HIV+ but who were also gay. "AIDS is God's way of destroying homosexuals" becomes a battle cry for the gay, lesbian, and bisexual community, as well as for all those working in the area of HIV/AIDS.

Gay, lesbian, and bisexual communities across the Nation are now credited as being the protectors of rights, the providers of hope, and the promoters of services for persons living with HIV or AIDS, regardless of their sexual orientation.

With all this behind us and so much more before us, the real question may be: **"How can *tohr* NOT have a visible presence in the area of HIV/AIDS?"** [2]

Say No to Hate

A week of "Say No to Hate" activities are currently being planned for October 16 -20, 1995. Friday October 20 has been dedicated to Say No to Racism and Hate Crimes. Activities (tentatively scheduled) include an 11:30 AM "march" from the north side of the Martin Luther King bridge to the Cultural Center on Greenwood. This is a chance for the gay and lesbian community of Tulsa to join with others and have a presence in saying no to hate crimes. Complete details will be available by calling the Helpline at 743-GAYS after October 5th.
