TECHNICAL REPORT STANDARD TITLE PAGE

1. REPORT NO. FHWA/OK 93(01)	2. GOVERNMENT ACCESSION NO.	3. RECIPIENT'S CATALOG NO. TL45, EX62 1993	
4. TITLE AND SUBTITLE EXPERIMENTAL PRODUCTS AND EQUIPMENT FOR HIGHWAY CONSTRUCTION AND MAINTENANCE.		5. REPORT DATE JANUARY, 1993	
		6. PERFORMING ORGANIZATION CODE ITEM NUMBER 2700.	
7. AUTHOR(S) GARY G. WILLIAMS		8. PERFORMING ORGANIZATION REPORT	
		10. WORK UNIT NO.	
9. PERFORMING ORGANIZATION ADDRESS RESEARCH AND DEVELOPMENT DIVISION, ODOT 200 NE 21st STREET, ROOM 2A2 OKLAHOMA CITY, OKLAHOMA 73105		11. CONTRACT OR GRANT NO.	
		13. TYPE OF REPORT AND PERIOD COVERED ANNUAL REPORT JAN. 1992 - JAN. 1993.	
12. SPONSORING AGENCY NAME AND ADDRESS FEDERAL HIGHWAY ADMINISTRATION 200 NW 5th STREET, ROOM 454 OKLAHOMA CITY, OKLAHOMA 73102		14. SPONSORING AGENCY CODE	
		15. SUPPLEMENTARY NOTES	
16. ABSTRACT THIS PUBLICATION CONSTITUTES A LISTING OF EXPERIMENTAL PRODUCTS AND EQUIPMENT THAT ARE BEING CONSIDERED OR EVALUATED BY THE OKLAHOMA DEPARTMENT OF TRANSPORTATION, OTHER TRANSPORTATION DEPARTMENTS, OR OTHER AGENCIES. THE LISTING IS CONTINUOUSLY UPDATED AS NEW INFORMATION IS RECEIVED. A STATUS OF THE EVALUATION IS INDICATED FOR EACH ITEM, SHOWING THE PROGRESS OR RESULT OF THE EVALUATION.			
17. KEY WORDS EXPERIMENTAL PRODUCTS AND EQUIPMENT.		18. DISTRIBUTION STATEMENT NO RESTRICTIONS.	
19. SECURITY CLASSIF. (OF THIS REPORT) UNCLASSIFIED	20. SECURITY CLASSIF. (OF THIS PAGE) UNCLASSIFIED	21. NO. OF PAGES 36	22. PRICE \$0.70

The contents of this report reflect the views of the authors who are responsible for the facts and the accuracy of the data presented herein. The contents do not necessarily reflect the official views of the Oklahoma Department of Transportation or the Federal Highway Administration. This report does not constitute a standard, specification, or regulation. While contractor names are used in this report, it is not intended as an endorsement of any machine, contractor, or product.

Table of Contents

Adhesives	1
Barriers, Fencing and Roadside Structures.	1
Bituminous Materials and Additives.	3
Culverts and Drainage Structures.	6
Deicing Chemicals.	7
Joint Sealers and Fillers.	7
Miscellaneous.	11
Mulch and Erosion Control.	12
Patching Materials.	15
Paving Fabrics.	20
PCC Admixtures.	21
PCC Curing Materials.	22
PCC Finishing Products.	22
Rust Passivators.	22
Soil Sterilization and Weed Control Materials.	23
Soil Treatments.	26
Structural Paints.	27
Testing and Construction Equipment.	28
Traffic Marking Materials.	29
Waterproof Membranes and Materials.	30

PREFACE

This publication constitutes a listing of experimental products and equipment that are being considered or evaluated by the Oklahoma Department of Transportation (ODOT), other transportation departments, or other agencies. The listing is continuously updated as new information is received.

A status of the evaluation is indicated for each item, showing the progress or result of the evaluation.

PENDING: The evaluation has been delayed.

UNDER EVALUATION: The evaluation is underway.

ACCEPTED: The evaluation has been completed and the item met the criteria under which it was evaluated. This does not necessarily mean that the item has been approved by ODOT or the FHWA for general use.

NOT ACCEPTED: The evaluation has been completed and the item did not meet the criteria under which it was evaluated.

No general conclusions should be drawn as to the overall suitability or acceptability of a product for its intended use based on this listing alone.

Interested parties should obtain further information from those agencies making the evaluation as a basis for determining the suitability for their own purposes. Consult the Research and Development Division, Oklahoma Department of Transportation for additional information. The address and telephone number is as follows:

Research and Development Division
Oklahoma Department of Transportation
200 N.E. 21st Street, Room 2A2
Oklahoma City, Oklahoma 73105
Telephone Number: (405)521-2671

GENERAL INFORMATION ON ODOT'S PRODUCT EVALUATION PROCESS

How Does the Product Evaluation Work at ODOT?

New products are evaluated in several different ways. A vendor may approach a Maintenance Engineer or Design Engineer with a new material. The engineer may try (or arrange to try) some. Often, vendors will give ODOT a free sample, or sell the product to ODOT at reduced cost, when it is to be used in an evaluation. The person trying the product may observe the performance and decide if using the new product is worthwhile. In other cases, the evaluation may be done by the ODOT Research Development Division, and the the evaluation and results are summarized in a written report.

Is This a Problem?

This is good. All staff should have the ability to try new things in an effort to improve their jobs. The trial application, however, needs a thorough, systematic evaluation, where findings can then be distributed throughout the Department.

How is This Done?

When someone tries a new product, we ask that they inform the Research Division of the trial. Research will assist in making arrangements for the evaluation. This can involve various activities. In some cases, it may be just receiving information, where field personnel do the evaluation. In other situations, it may be advantageous for Research Division personnel to conduct the evaluation and report the results.

Doesn't This Cut Out the Field Personnel?

Field personnel can participate in the process to any degree that they wish. This can be anything from forgetting about the product after installation, to helping with the evaluation, to conducting the evaluation and reporting on the results.

How Does the Materials Division Fit Into This?

Many new products already meet the requirements of our current Specifications book. In this case, an evaluation will not be necessary, but the vendor will still have to submit the samples required for testing. Also, the Materials Division maintains a list of products they have tested that have been

accepted. If a Special Provision has to be written to allow the use of a new product, the Materials Division is usually involved in this.

In any case, the vendor should complete a "Preliminary Information for Product Evaluation" form (available from the Research Division). This form shows tests, specifications, etc. that the product passes and is useful for comparing to ODOT's requirements.

Is This Mandatory?

When a new product (one that is not covered by existing specifications) is used on a Federal Aid Highway Project, the FHWA requires that it be evaluated as an experimental feature. On projects with no Federal participation, it is not required, although ODOT's current specifications apply.

Since It's Not Required, Why Should Evaluations be Done?

Results of evaluations are useful to others across the state. Many products, which were new to ODOT when evaluated, have been proven to perform better than those in general use at the time. New products may benefit ODOT by lasting longer, improving structural characteristics, or requiring less time or labor. All of these things can result in lowered costs, on a life-cycle basis. Some evaluations demonstrate that a product fails, or has limited benefit compared to its extra cost. This information is useful to others who may be considering its use.

	10-27-93	WATERPROOFING MEMBRANES AND MATERIALS	CP-500B	CHEMICAL PRODUCTS DEVELOPMENT CORPORATION	RD-2328	NOT ACCEPTED	MATERIALS DIV. ODOT	ODOT MATERIALS DIVISION
FAILS ODOT SPEC. 701.12. EXCEEDS MOISTURE ABSORPTION LIMITS. ODOT LAB. REPORT #1-4350-47554 6-28-84 REPORTS 3.4% MOISTURE ABSORPTION WITHIN 50 DAY PERIOD.								
	10-27-93	WATERPROOFING MEMBRANES AND MATERIALS	AMWAY SURFACE SEALER	AMWAY	RD-2330	NOT ACCEPTED	R&D DIV. ODOT	OKLAHOMA
FAILS ODOT SPEC. 701.12. ODOT LAB. REPORT #2-4350-48571, 9-4-80, REPORTS 4.17%, 4.25%, 3.95%, 3.76% MOISTURE ABSORPTION WITHIN 24 HRS.. REDUCES SKID RESISTANCE.								
	10-01-93	WATERPROOFING MEMBRANES AND MATERIALS	BITUTHENE	W.R. GRACE CO.	RD-2014	UNDER EVALUATION	R&D DIV. ODOT	OKLAHOMA
PREFORMED WATERPROOFING POLYETHYLENE & RUBBERIZED ASPHALT FORMS A CONTINUOUS BOND WITH CONCRETE & OTHER CONSTRUCTION SURFACES								
	10-27-93	WATERPROOFING MEMBRANES AND MATERIALS	CP-1000	CHEMICAL PRODUCTS DEVELOPMENT CORPORATION	RD-2328	NOT ACCEPTED	MATERIALS DIV. ODOT	ODOT MATERIALS DIVISION
FAILS ODOT SPEC. 701.12. ODOT LAB. REPORT #3-4350-64195 6-8-81, REPORTS 2.26% AND 1.13% MOISTURE ABSORPTION WITHIN 48 HOUR PERIOD.
