STLR is an award winning-concept, developed here at UCO and recognized by the U.S. Department of Education with a \$7.8 million grant. The program has gained national and international recognition for its ability to document student success with transformative learning that parallels an academic transcript, showing mastery in employability and citizenship skills through the Central tenets shown below. These areas are identified as needed in today's workforce and communities beyond mastering a particular discipline.

Students build their record through submitting STLR-tagged assignments, attending STLR-tagged campus events, serving in STLR-tagged student groups, and/or participating in outside-of-class projects. Their levels of achievements are assessed and validated by a UCO faculty or professional staff member.
