President Bizzell requested approval of the organization of the University of Oklahoma Research Institute and made the following explanation:

It is proposed that there be established the University of Oklahoma Research Institute for the purpose of promoting and fostering scientific investigations and all types of research, including industrial research, at the University. The Institute is to be a non-profit corporation, serving as a liason agency between all departments and divisions of the University on the one hand, and industry and the public on the other.

Under the plan proposed, the Board of Regents, acting through the officials of the University, would constitute the agency with which the Institute would contract for the setting up of fellowship and research projects and the use of equipment. On the other hand, the Institute

would enter into arrangements with industrial companies and with private individuals for securing funds for research which would be beneficial to industry, the public, and the University.

The membership of the Institute would be made up of the Board of Regents of the University, officials of the University, and representatives of the general public and of industry. It would at all times be controlled by persons deeply interested in the University, and its purpose would be to facilitate and promote the research work of the University in its relation to the broad interests of the State.

Since it appears advisable that the President of the University and the Dean of the Graduate School proceed with the incorporation of this Institute, the authorization of the Board of Regents to proceed is requested.

On motion by Regent Hopper, seconded by Regent Looney, it was voted to indorse the general principles for the establishment of the Oklahoma Research Institute.

President Bizzell called attention to the Inventory Law, adopted by the Seventeenth Legislature, House Bill No. 575, and discussed complications resulting from this law. He stated that no provision was made for funds to carry out the provisions of the law, but that it would require considerable expense, both as to salaries and supplies. Following a discussion of the matter, President Bizzell was authorized to work out the details with Mr. R. R. Owen, State Budget Officer, John Rogers, State Examiner, and J. L. Lindsey, University Comptroller.

President Bizzell called attention to the letter of Dr. Homer L. Dodge, Dean of the Graduate School, under date of May 10, a copy of which was sent to each member of the Board, concerning the establishment of "Fellows by Courtesy".

Following a further explanation by President Bizzell, and general discussion, it was voted to approve the recommendation for the creation of "Fellows by Courtesy" as outlined.

President Bizzell requested approval by the Board that Dr. M. L. Wardell, Assistant to the President be paid a salary of \$250.00 for the month of August. He stated Dr. Wardell's salary of \$3,600.00 was for the nine month's school term, and that he would receive \$250.00 per month for the two months of the summer school, making a total of \$4,100.00 for the eleven months; that the \$250.00 for August would make his total salary \$4,350.00. He stated that Dr. Wardell was doing part time teaching in the Department of History.

Dr. Bizzell stated he would prefer to have Dr. Wardell on a twelve months' basis, to cover both teaching and administrative work.

Following a discussion of the matter, Regent Ledbetter made the motion that Dr. Wardell be placed on a twelve months' basis at a salary of \$4,200.00 per year, effective July 1, 1940, and that he do regular teaching during the summer school.

Motion carried.

Regent Noble stated that through the cooperation of Joe Smay, Professor of Architecture, he had sponsored a contest among the students in Architecture for plans for a cottage on his farm north of Ardmore, and that the judges had made the awards of \$50.00 first prize, \$35.00 second prize, and \$15.00 for third prize, the students winning the awards being as follows:

1. Joe N. Boaz
2. Frank Binckley
3. John Knight

He asked that Joe Smay, who was waiting in the outer office, present the drawings for inspection by the Board. Professor Smay explained the merits of the several drawings and stated that the students had entered the contest with a great deal of interest and enthusiasm.

The members of the Board expressed their pleasure over the project sponsored by Regent Noble, and the excellent work done by the students.

The members of the Board were unanimous in the feeling that Regent Noble proceed immediately with construction of the cottage, and that he extend an invitation to have a meeting of the Board there at the earliest possible date, and that he provide "plenty of food".

Regent Chambers extended an invitation to hold a meeting of the Board at his home in Seminole during the summer, the time to be arranged at the convenience of members. Dr. Chambers stated he has a barbecue pit, and that there would be "plenty of food". Dr. Chambers requested that "you let me know a few days in advance".

Inquiry was made by Regent Noble concerning the appointment to replace Mr. Mayfield in the Short Course Work, and the position as Dean of Men. President Bizzell stated he was not yet ready to make a recommendation for a Dean of Men, that he had a number of applications but desired to make further investigations concerning two or three men who have had training and experience that seem to qualify them for such a position. Regent Noble stated it was his opinion the Board should personally interview candidates whom Dr. Bizzell would recommend.

Dr. Bizzell stated that he had arranged with Boyd Gunning, Assistant Director of the Extension Division, to take over the work in connection with the Short Course program in addition to his duties with the Visual Education Division, and that he could do this with some additional clerical help.

Regent Chambers reported that he had discussed with the members of the Oklahoma State Medical Association at its recent meeting, the needs of the University and Crippled Children's Hospitals, and that the association pledged cooperation. He stated Regent Noble attended a session of the meeting, and that the Association was pleased that the medical profession was represented on the Board of Regents.

There being no further business, it was voted to adjourn, and that the next meeting of the Board be held subject to the call of the President of the Board.

 Emil R. Kraettli, Secretary.
