

MINUTES OF A REGULAR MEETING  
BOARD OF REGENTS OF THE UNIVERSITY OF OKLAHOMA  
WEDNESDAY, MAY 10, 1961 - 10:00 A.M.

A regular meeting of the Board of Regents of the University of Oklahoma was held in the office of the President of the University, Norman, on Wednesday, May 10, 1961, at 10:00 a.m.

The following were present: Regent Leonard Savage, President, presiding; Regents Northcutt, Monroe, Rothbaum, Johnson, Benedum.

ABSENT: Regent Morgan.

Lieutenant Governor George Nigh was also present for a part of the meeting.

The minutes of the meeting held on April 13, 1961, were approved.

Since the June Regents' meeting will be at the Biological Station and the Regents would like to meet after the summer session there has started, President Cross suggested the June meeting be held during the second week. It was agreed that the meeting at the Biological Station, Lake Texoma, be held beginning at 9:00 a.m. on Thursday, June 15.

Regent Northcutt moved the regular time for meetings be changed from the first Wednesday to the first Thursday of each month. Approved.

President Cross reported the death of Dr. James O. Hood, former Director of the Student Health Service, on May 5. He also reported the passing of Mrs. Esther Witcher, Librarian, on May 8. It was agreed Regent Savage would write a letter of condolence to Mrs. Hood and to Lee Witcher, son of Mrs. Witcher, on behalf of the Board.

Regent Benedum reported a Mr. Ed Prier, an independent oil operator of Norman, has requested the Regents to consider advertising for sale an oil and gas lease on all or part of the tract known as the Oliver Wildlife Refuge. On motion by Regent Benedum, it was unanimously voted to offer this land for sale of an oil and gas lease pursuant to statutory provisions required in such type sale.

Regent Benedum reported also that an interest has been expressed in leasing approximately three acres of land east of the Parkview Apartments. Regent Benedum moved and it was voted to explore the feasibility of advertising

for the sale of an oil and gas lease on the above property and any other Regent owned property in that vicinity.

President Cross reported we have been advised by Mr. A. H. Richards, Exploration Manager of the Oklahoma Division of the Union Texas Natural Gas Corporation, formerly Anderson-Prichard Oil Company, that pursuant to the terms of the lease and purchase of the minerals underlying the University property on the South Base, it is their intention to commence drilling operations on well No. 5 Navy to be located 990 feet south and 100 feet west of the Northeast Corner of the Southeast Quarter of Section 6-8N-2W, said operation to commence on or before July 1, 1961. He stated that at the present time there are no plans to drill on the golf course, although this company holds leases on all land owned by the University.

Inasmuch as the University owns only the surface interest in this property, legally this company can drill their well where they choose subject only to paying reasonable damages for the surface utilized in the drilling operation. This particular area is presently undeveloped farm land and the amount of damages which would be sustained by the University as "surface damage" would be quite nominal.

As a result of a conference between University officials and Mr. Richards, the Union Texas Natural Gas Corporation has agreed to drill the well in question at a site approved by the University, to enclose the drilling area when completed with a cyclone fence and surround same by appropriate shrubbery and otherwise beautify it, to equip all wells on University property with electric pumps and to construct no storage tanks on University property. In addition, in the event of a dry hole the Company agrees to plug the well at the base of the surface casing and transfer same to the University for the University's use as a water well should we desire in the future, and pay \$250.00 for surface damages caused by the drilling of this well.

President Cross recommended that this matter be studied by a committee of the Regents and the committee be authorized to poll the Regents by telephone for approval after a recommendation is prepared. Approved on motion by Regent Benadum.

Regent Savage appointed Regent Benadum as a committee of one to study this matter.

President Cross announced that commencement exercises will be held on Sunday, May 21, at 7:30 p.m. in the Stadium. He stated the five Distinguished Service Citations will be presented at this ceremony and he and Mrs. Cross are giving a supper at 5:30 that evening honoring the recipients of these citations and the Regents are invited to attend the supper and then proceed on to commencement.

May 10, 1961

6806

He stated that Governor Edmondson, Lieutenant Governor Nigh, Chancellor M. A. Nash, Wharton Mathies, Chairman of the State Regents for Higher Education, and Dr. E. T. Dunlap, have also been invited to the supper and commencement.

President Cross reminded the Regents that the Medical School is having separate commencement exercises on the same evening in Oklahoma City and asked if the Board wished to have representation there. Regent Johnson agreed to represent the Regents at the Medical School Commencement Exercises.

President Cross noted that the reports of the Endowment and Loan Funds now issued on a quarterly basis are expensive and time-consuming to prepare. Mr. Q. M. Spradling, Controller, and Dr. Horace Brown, Vice President for Business and Finance, recommend that they be issued twice a year, effective July 1, 1961, and President Cross concurred in this recommendation.

Approved on motion by Regent Monroe.

President Cross stated Mr. Rothbaum had inquired about progress of the University's building program. The House and the Senate have now passed the vitalizing legislation for the 30.5 million dollar bond issue for higher education capital improvements. At the September 1960 meeting the Regents approved University capital improvements for a ten year period, 1960-70, and the first four priorities were the Engineering Center, Biological Sciences Building, Fine Arts Center, and Business Administration Addition. The fifth item would be a large classroom and faculty office building if funds permit. It is estimated that from our portion of this bond issue we can build the four items. Plans are being prepared for these buildings and when we have a little better idea what actual costs will be then a recommendation will be made to the Regents concerning the use of our share of funds from the bond issue.

Regent Savage suggested that when this is developed a little further the Regents' committee on building be consulted before it is submitted to the full Board.

President Cross reported that Coston-Frankfurt-Short, Architects for the Library Addition, had insurance coverage which paid completely for the damages to and repair of the Library when the floor collapsed last December. He recommended to the Regents that in the future when architects are employed one of the contract requirements be that they have "Errors and Omissions Insurance." Approved.

At the March 1 meeting the Regents requested a study be made of the advantages and disadvantages of the quarter and trimester systems at the University. Matters of this kind are referred to the Faculty Senate. President Cross stated he had asked Dr. Eugene Springer, David Ross Boyd Professor of Mathematics and Chairman of the Faculty Senate committee appointed to study this program, to come to the meeting and present the committee's progress report.

Dr. Springer was invited to the meeting and made the following comments on the systems under consideration by the committee:

Trimester plan - three 16 week semesters. Pittsburgh is the only University that has the trimester plan. This could be effective here only if a full enrollment in the summer session is assured.

Three quarters plus summer session - this was discussed rather briefly by the committee because of added cost for administration and admissions without any advantages over the present system.

Four quarter plan - some of the advantages are that it gives more flexibility to students who want to change their major, assuming a full offering of courses is made each quarter, and it is more flexible for the faculty member in that he can choose the one quarter he wishes to be out of residence. Students take fewer courses and are able to concentrate on them for a shorter period. Relatively few institutions are on the quarter system and a check of colleges and universities in the southwest shows that no major institution in Texas, Arkansas, Kansas, or New Mexico is presently on the quarter system. Colorado is preparing to change to the semester system from the quarter system because of the difficulty students have in transferring. There would be a cost of \$1,200 for the extra enrollment period, plus additional cost for mailing grades, etc.

According to a study made by the Admissions and Records Office on the present use of classroom space, 20% more students could be accommodated with present facilities by starting classes at 7:30 in the morning and having more classes during the noon hour and between the hours of 3 and 5 in the afternoon.

The committee feels that the summer session could be expanded by offering more scholarships, fellowships, and other financial aids; also, with better course offerings.

Regent Monroe suggested the committee get some actual reports from schools that are presently operating under the quarter system.

The Regents thanked Dr. Springer for the report and he retired from the meeting.

Dr. William J. Mayer-Oakes, Director of the University's Stovall Museum, was invited to the meeting and presented the model of a proposed Museum of Natural Science building which was prepared by the University Architect's Office. Present plans call for the building to be located in the Northeast (Jenkins Street) corner of the recently acquired property on the South Base. Total cost of the project would be approximately 3½ million dollars - 2 million dollars for the building and an additional 1½ million dollars for furnishing and equipping, putting exhibits in order, and the first three years of operation.

Dr. Mayer-Oakes stated the University's museum is the only natural history museum in the state and we now have over 6½ million dollars worth of collections which are improperly housed and cared for because of lack of space. He stated the trend in this country now is toward more museums and he feels it might be possible to raise money to build a new museum on this campus.

After some discussion Dr. Mayer-Oakes retired from the meeting.

President Cross recommended that this matter along with other matters pertaining to fund raising be referred to a committee of the Regents for immediate attention to means of raising funds and the building priorities when funds are raised. Also, that the Regents request the University of Oklahoma Foundation to sponsor the campaign for raising funds for the museum project.

Regent Savage requested the Regents' Committee on Coordination with Other Groups (Regent Monroe, Chairman, and Regents Northcutt and Johnson) to study this matter.

Regent Rothbaum reported the Investment Committee recommends the funds available in the Murray Case Sells Loan Fund, \$4,700 in cash and \$4,200 in U. S. Treasury Notes which will mature on May 15, 1961, be invested in 90 day Treasury Bills that mature on or about August 15, 1961. He also reported that \$3,700 in cash will be available in the Murray Case Sells Building Fund upon maturity of U. S. Treasury Notes that are due on May 15, 1961, and the Committee recommends this cash be invested in a longer term Treasury Note.

On motion by Regent Rothbaum the above recommendations were approved.

Regent Rothbaum suggested that in regard to the other Regent controlled funds the recommendations of the Seligman Company be carried out.

Regent Johnson reported for the committee appointed to consider the recommendation to require certificate nursing students in the School of Nursing to pay for room and board and stated the committee recommends approval of Dean Helen Patterson's letter. This will become effective with the incoming class of freshmen certificate students in 1961 and with each succeeding class thereafter.

Approved.

President Cross recommended that the Regents confirm the telephone vote on confirmation of the entire list of tenure appointments as submitted at the April 13 meeting (p. 6781).

Approved on motion by Regent Monroe.

The REVIEW OF RUSH DEVELOPMENTS - Summary of Regents' Action was mailed to each Regent, and each Regent indicated approval of the statement by telephone. In order to have a permanent record of the vote by the Regents, President Cross asked that the following statement be confirmed as the official action by the Regents:

1. Approved the report of the University Rush Committee, establishing an Orientation period which would include fraternity and sorority rush. The University Rush Committee's recommendations would be fully implemented by 1962.
2. Recognizing the difficulty of the required transition, the Regents' Committee approved an Orientation period for 1961 which will begin September 6 and continue through enrollment September 11-15.
3. From September 6 through 10, rush will be conducted by fraternities and sororities. Other Orientation activities will begin September 11.
4. Modifications for rush which have been recommended by the Panhellenic Association and the University Rush Committee will be effective for 1961.
5. The Interfraternity Council, the Panhellenic Association and the proper University officials will be responsible for developing the details of the Orientation period.

Approved on motion by Regent Monroe.

President Cross reported that the State Regents for Higher Education approved the course changes and increases in fees for Aviation as approved by the University Regents at the February meeting (pp. 6741-43), and the changes in fees approved at the April meeting (p. 6787).

President Cross presented the following resolution and recommended its adoption:

#### RESOLUTION

WHEREAS, prior to June 1, 1961, there will be in the sinking fund of the Regents of the University of Oklahoma Music Building Bonds of 1947 an amount sufficient to meet the principal and interest payments due on that date plus a cash surplus sufficient to redeem two bonds prior to maturity; and

WHEREAS, bonds numbered 138 and 139 of the 1969 maturity are eligible for retirement prior to maturity on June 1, 1961, at par;

BE IT RESOLVED BY THE BOARD OF REGENTS of the University of Oklahoma that bonds numbered 138 and 139 of the 1969 maturity of the Regents of the University of Oklahoma Music Building Bonds of 1947 be called for redemption at par and accrued interest on June 1, 1961, and that Mr. William A. Burkhart, State Treasurer, be directed to redeem the said bonds on June 1, 1961, at par and accrued interest and provided further that upon receipt of said bonds called for redemption the State Treasurer shall cancel the said bonds and remaining interest coupons and give the Controller of the University of Oklahoma evidence of such cancellation.

On motion by Regent Johnson the above resolution was unanimously adopted.

With the concurrence of the faculty members of the two departments and of all others concerned, President Cross recommended that the present Department of Physical Education for Men and Department of Physical Education for Women be merged into a single Department of Physical Education, effective September 1, 1961, with the details of accomplishing the merger to be worked out by the administrative people concerned.

Approved on motion by Regent Johnson.

President Cross reported the faculty of the College of Arts and Sciences has recommended that the Combined Curricula with Medicine and Dentistry be extended to include approved Colleges of Osteopathy.

May 10, 1961

6811

This recommendation was made after the subject had been given lengthy study by the regular Pre-Medical Committee and also by the Executive Committee of the College of Arts and Sciences. Their attention was given especially to the courses required in the first year of Osteopathy and their suitability for application toward a Bachelor of Science degree from the University of Oklahoma.

It was agreed this matter be referred to a committee of the Regents to be appointed by the President of the Board.

President Cross reported bids were circulated to 41 prospective bidders on the sale of 66 single pre-fabs. The following 11 bids were received:

President Cross recommended that the above bids be accepted at a total of \$17,413.80 for the 66 units. The average per unit is \$263.85.

Approved on motion by Regent Northcutt.

President Cross reported the University has had considerable difficulty finding acceptable asbestos fibered roof coating. Bids were circulated about a month ago and only one acceptable reply was received. Specifications were lowered as much as would be safe and bids were recirculated. This time only 2 acceptable products were bid of 7 bids received. The acceptable bids for 3,000 gallons of asphalt, asbestos fibered roof coating are:

Less 1% 10 days; fob Norman \$5,140.00
2. The Zone Company, Fort Worth, Texas  
Net; fob Norman \$6,545.00

The Director of Purchasing and the Business Manager recommend that the award be made to the low bidder on an acceptable product, Colonial Refining & Chemical Company at a total price of \$5,140.00, less 1% 10 days, fob Norman, for a net bid of \$5,088.60. President Cross concurred in this recommendation. Approved on motion by Regent Northcutt.

President Cross presented the following memo from Mr. Garner Collins, Director of Housing:

"For several years I have considered making a recommendation that the summer board contract be placed on a 5-day week basis (Monday thru Friday). We require at the present time that people in the dormitories be required to pay for 7 days meals in the cafeteria.

"Our summer school enrollment is composed largely of graduate men and women who are doing graduate work to apply on higher degrees. A large part of them have families who are left at home. They are here for only 5 days and return to their homes for the week-ends. We miss having these people in our University dormitories, since we have required that they pay for 7 days meals.

"We now believe that if we offered a 5-day compulsory meal contract we would have many more staying in the dormitories. The cafeteria would be open on week-ends (Saturdays and Sundays) on a cash basis for those who want to eat there.

"We are also of the opinion that it will be quite an improvement in public relations--the knowledge that a dormitory resident is paying for only the meals while he or she is in Norman. We think that the Student Affairs Office will be able to administer the program in that they will not have to excuse students from meal service for week-end absenteeism.

It will be necessary to charge on the basis of \$1.80 a day instead of \$1.50 a day...\$9.00 a week instead of \$10.50. This will amount to a 10% discount over the \$2.00 cash price for the same number of units. Absenteeism will be considerably reduced which would add to the cost of meals actually served. We believe this rate is equitable.

Accordingly, we recommend a 5-day contract ticket for the summer session for \$81.00 which is arrived at by charging \$1.80 a day for the 45 days of Monday thru Friday of the session.

Mrs. Kellerhals, Dr. Truex and Dr. Smith concur with me in making this recommendation."

May 10, 1961

6814

President Cross stated that he concurred with the recommendation of the Business Manager and the Vice President for Business and Finance that the summer meal rates at Cate Center be changed to include meals for Monday through Friday (15 meals) at a rate of \$81 for the summer session with the understanding that meals will be available on a cash basis on Saturday and Sunday. Approved on motion by Regent Northcutt.

President Cross presented the following memorandum from Dr. Donald F. Robinson, Acting Director of the Student Health Service:

In accordance with the recommendations of the "Edmondson Report" and Vice President Brown's memo of June 20, 1960 to Dean Clifford Craven, the following revised fee schedule (effective July 1, 1961) is submitted for your consideration.

1. Hospital room and board

Since the food service cost alone amounts to about \$3.00 - \$4.00 per patient per day, the present rates are unrealistic. The present estimated cost per hospital bed per day in Oklahoma is \$26.00. An estimated 75% of the student body have some form of voluntary hospitalization insurance; and since policies pay only on usual charges, the Student Health Service, in essence, is underwriting the insurance companies. On this basis I feel justified in making the recommended rate change. It is further proposed that no differentiation be made between student and standard rates.

2. Laboratory

These charges have been adjusted to a standard rate prevalent in this area. The student discount has been changed from 50% to 25% of standard.

3. X-Ray

These charges have been completely changed as far as method of determining the charge. For this reason it is impossible to make an accurate comparison between present and proposed charges. The method and amount charged for diagnostic X-ray have been established to conform with both the method and amount prevalent in this area. Again, as in Laboratory, the student discount has been changed from 50% to 25% of standard.

Clifford J. Craven, Dean of Students, and Vice President Horace B. Brown recommended approval of the above rates and President Cross concurred in their recommendation.

On motion by Regent Northcutt the above rates for the Student Health Service were approved, effective July 1, 1961.

President Cross reported the deaths of the following members of the faculty:

Kenneth Baker Horning, Professor of Business Communication on April 21, 1961. He came to the University in 1946.

Dr. Fayette Copeland, Professor of Journalism, Director of the School of Journalism, on May 1, 1961. Dr. Copeland came to the University in 1921.

It was agreed the President of the Board would write appropriate letters to Mrs. Horning and Mrs. Copeland on behalf of the Regents.

Regent Benedum moved and it was voted to approve the Athletic Department Budget for 1961-62 as presented.

President Cross stated the Department of Communication Disorders, University of Oklahoma School of Medicine, has requested authorization to offer a non-thesis program leading to the degree of Master of Communication Disorders.

In contrast to the existing Master of Science degree program, which requires a research-based thesis, this program is designed for students interested in the field of communication disorders as a profession, i.e. those interested in the direct treatment of communication-handicapped children and adults in the setting of public schools, hospitals, clinics, rehabilitation centers, or those interested in assuming administrative positions in any one of these settings. The primary objective is to provide a program for advanced clinical training.

No increase in the present staff or course offerings is necessary.

President Cross joined with the Graduate Council, the Graduate Faculty, and the Council on Instruction in recommending approval of the program and the degree.

Approved on motion by Regent Johnson.

The following are full-time members of the faculty of the School of Medicine who are eligible for tenure this spring. Dean Mark R. Everett has recommended they be given tenure and in each instance the recommendation has been approved by the chairman or head of the corresponding department.

Dr. Glen G. Cayler, Assistant Professor of Pediatrics  
Dr. Floyd S. Cornelison, Associate Professor of Psychiatry, Neurology  
and Behavioral Sciences  
Dr. John Gogerty, Assistant Professor of Pharmacology  
Dr. James A. Hagans, Assistant Professor of Medicine and Associate  
Professor of Preventive Medicine and Public Health  
Dr. Walter H. Massion, Assistant Professor of Anesthesiology  
Dr. O. A. Parsons, Professor of Medical Psychology in Psychiatry,  
Neurology and Behavioral Sciences  
Dr. John R. Sokatch, Assistant Professor of Microbiology  
Dr. G. Rainey Williams, Assistant Professor of Surgery

President Cross recommended that tenures be approved for the above School of Medicine faculty members, effective July 1, 1961.

Approved on motion by Regent Rothbaum.

<b>Total Expenditure for Research</b>	<b>\$288,892.30</b>	<b>\$73,786.00</b>

This report was submitted by Dr. Mark R. Everett, Dean and Director of the University Medical Center.

Regents Northcutt and Rothbaum gave a report on the combined meeting of the Association of Governing Boards and Southern Regional Education Board held in Chapel Hill, North Carolina, in March. They stated they were very much impressed with the preparations made for the meeting and in the speakers that were present. They strongly recommended that the Regents attend these meetings when they can. Mr. Rothbaum and Mr. Northcutt were appointed to the Executive Committee by the President of the Association.

The meeting was adjourned for luncheon in the Union with retiring members of the faculty and staff as honor guests.

Emil R. Kraettli, Secretary
