

MINUTES OF A REGULAR MEETING
BOARD OF REGENTS OF THE UNIVERSITY OF OKLAHOMA
THURSDAY, MAY 10, 1962 - 9:00 A.M.

The regular May meeting of the Board of Regents of the University of Oklahoma was held in Room 117, University of Oklahoma School of Medicine Building, Oklahoma City, at 9:00 a.m. on Thursday, May 10, 1962.

The following were present: Regent Dave Morgan, President, presiding; Regents Northcutt, Monroe, Johnson, Davidson, and Savage.

ABSENT: Regent Rothbaum.

The minutes of the meeting held on April 5, 1962, in Tulsa were approved.

Regent Morgan thanked Mr. Savage for the use of his offices in Tulsa for the April meeting.

At the request of President Cross, it was voted to hold the June meeting in Norman instead of at the Biological Station on June 14, at which time the five retiring professors will be honored guests at the Regents' luncheon. It was agreed that the July meeting be held at the Biological Station on Tuesday, July 10, and that the policy of not having a meeting in August be continued.

President Cross reported that W. H. Carson, Dean of the College of Engineering since 1937, has expressed his desire to retire whenever the University can find a successor. He stated a committee is working on this matter and from time to time candidates for this position will be on the campus and Dr. Cross hopes that a representative of the Board can be present for some of the interviews.

President Cross reported we have received word from Washington that enrollment in freshman military for the fall of 1962 will be restricted to 85% of the number of enrollees in 1961. If this restriction is not removed, the University will no longer be able to require military for all freshmen and sophomores. We are awaiting further word of clarification.

In addition, advance information received by a personal visit of Colonel Rupp to Washington, D. C., discloses that the Army has definitely settled on a new program which would streamline the present college ROTC program and would allow transfers from junior colleges where no military training is offered to compete for commissions. The basic points of the program are as follows:

May 10, 1962

7062

1. The Army program is a two-year program designed to go into effect in September of 1963. However, the Army has a savings clause and will maintain and support a four-year program for those institutions which desire it.
2. The Army will pay the civilian institutions \$400 for each ROTC graduate commissioned. Based on our present rate of commissioning, this would result in \$48,000 additional revenue to the University of Oklahoma each year.
3. Students who did not take the basic course could attend a four week summer training camp between their sophomore and junior years which would substitute for the basic course requirements.
4. a. The advanced course would consist of two years on-campus classroom instruction with an eight week summer camp between the junior and senior years.
b. It is assumed that under this program there would be no requirement for a drill.
5. The present system of commutation of uniform will be maintained, which allows \$100 per student for the purchase of a uniform which is given to the student upon graduation.
6. The pay of the Army cadet during summer training will be based on the pay of the West Point cadet, i.e., \$111 per month. The pay of the cadet during school would be increased from the present \$27 per month to approximately \$50 per month.

The Army and Air Force are in agreement on all phases of this program with the exception that the Air Force desires only a two year program at all institutions. This will result in the Air Force conducting a two year program at some institutions where the Army maintains a four year program.

The details as to just how the student at the junior college would be contacted, physically examined and qualified to attend the summer training prior to enrollment in his junior year at the University of Oklahoma have not been determined.

President Cross emphasized the fact that nothing definite has been decided on the above. He stated that if the Army persists in restricting enrollment this fall it will force the University to adopt the optional plan for ROTC and this will be an expense to the University because it will be necessary to provide some instruction to take the place of ROTC.

No action.

President Cross reported he attended the meeting of the Association of State Universities in New York on Monday and Tuesday of this week.

Regent Davidson asked that the discussion of the purchase of power for the North Campus be included as an item in the agenda of the next meeting of the Regents.

Regent Johnson moved that the Regents send a letter to the State Regents for Higher Education requesting the necessary authority to transfer funds from the funds available on the Norman Campus to the Medical Center for the purpose of providing initial financing for the Board of Unexplained Deaths which it is understood would be temporary and partial.

The motion was seconded by Regent Monroe and unanimously passed without recommendation or advice from the President of the University.

Regent Rothbaum, Chairman of the Regents' Investment Committee, had previously reported that the Committee concurred in the following recommendation of J. & W. Seligman & Co. for investments in the Florence T. Daniel Estate:

<u>Sell:</u>	<u>Approx. Value</u>	<u>Current Yield</u>

The above recommendation was approved on motion by Regent Davidson.

President Cross recommended that the Regents authorize the sale of securities in order to have funds available for student loans:

Murray Case Sells Foundation

Sell \$7,599.20 U. S. Treasury Notes, Murray Case Sells Foundation, maturities February 15, 1963, on or after August 15, 1962, in order to have funds available for matching in National Defense Student Loan Program for 1962-63.

Buy a 90-day Treasury bill in the approximate amount of \$1,000.00 in order to have funds available for matching in National Defense Student Loan Program for 1962-63.

Sallie B. Clark Loan Fund

Sell \$3,500.00 of U. S. Treasury Note, November 15, 1962 maturity, Sallie B. Clark Loan Fund, in order to have funds available for loans approved for women students in the summer term of 1962. Liberty National Bank on Safe Keeping Receipt No. 55814.

Approved on motion by Regent Northcutt.

President Cross reported that plans have been completed on the following modernization projects:

1. Modernization and Repair Project No. MR-2 (Monnet Hall), as proposed by the Associate Architects, Brauer and Wood, and as approved by the University Architect and the Director of Physical Plant.
2. Modernization and Repair Project No. MR-6, School of Architecture (north end of Stadium), as proposed by the Associate Architect, Hugh Humphrey, and as approved by the University Architect and the Director of Physical Plant.
3. Modernization and Repair Project No. MR-1 (Adams Hall), as proposed by the Associate Engineer, Carnahan and Thompson, and as approved by the University Architect and the Director of Physical Plant.

May 10, 1962

7065

4. Kitchen-Dining Room Expansion and Modernization, Residential Halls, as proposed by the Associate Architect, Chapin Howard, and as approved by the University Architect and the Director of Physical Plant.

President Cross recommended approval of these plans and that the Regents authorize a call for construction bids on these four projects.

Approved on motion by Regent Monroe.

President Cross stated a letter has been received from Mr. Joe Shobert, 752 First National Bank Building, Oklahoma City, stating that he would like to purchase an oil and gas lease upon:

The East One-half (1/2) of Section Twenty-three (23), Township Nine (9) North, Range Three (3) West, and the Southwest Quarter of Section Twenty-four (24), Township Nine (9) North, Range Three (3) West, except the North One Thousand Three Hundred and Twenty (1320) feet thereof, all being located in Cleveland County, State of Oklahoma.

This property, which was described as Tract "C" when the oil and gas leases were sold in February 1960, was released by the Pure Oil Company on April 5, 1961, and the lease is available for resale.

President Cross recommended that the Regents authorize advertising for sale an oil and gas lease on the above described property in the public press as prescribed by law and that the advertisement be the same as that which was released on the same property prior to the last sale.

He further recommended that Mr. Shobert be notified that he will be expected to cover the cost of advertising regardless of whether he receives the lease or not, with the understanding that if a bid higher than his is accepted, he will be released from responsibility for the advertising expense.

Approved on motion by Regent Savage.

President Cross reported the Refrigeration Plant for the Oklahoma Center for Continuing Education has been substantially completed. The air conditioning system has not been completely balanced and cannot be balanced until warm weather.

May 10, 1962

7066

The University Architect, the Associate Architects, the Director of Physical Plant, the Business Manager, and the Vice President for Business and Finance have recommended that the building be accepted as substantially complete and that \$5,000.00 be retained from the total amount due the contractor until the air conditioning system has been balanced. This would provide for an immediate payment of \$30,234.78 to the contractor. All required certificates regarding the completion of the project have been submitted to the University by the contractor, and all paper work has been completed by the contractor and the architects.

President Cross recommended that the Refrigeration Plant for the Center for Continuing Education be accepted as substantially complete pending the balancing of the air conditioning system and that \$5,000.00 from the total amount due be retained until the air conditioning system is satisfactorily balanced. He further recommended that the amount of \$30,234.78 be paid to the contractor.

On motion by Regent Savage, the above recommendations were approved.

President Cross stated he concurred in the recommendations as presented by Earl Sneed, Chairman of the Athletic Council, as per the copy of a letter which follows:

"26 April 1962

"Re: Naming of Baseball Park and Track Facilities

"President G. L. Cross
Faculty Exchange

"Dear Sir:

"At the meeting of the Athletic Council held on 24 April 1962, the Council voted to recommend to you that the baseball park southwest of the football stadium be called "Haskell Park" in honor of Jap Haskell who served as baseball coach at OU from 1927 through 1941 and was Athletic Director from 1941 to 1947.

"Our investigation disclosed that the baseball park has been called Haskell Park since 1930. John Clevidence, Sports Editor of the Oklahoma Daily, first called the park Haskell Park in the early 30's. For reference purposes, Harold Keith has kept the name going although there has been no official action on the part of the University naming the park after Mr. Haskell.

May 10, 1962

7067

"Our recommendation includes the statement that we would desire that the park be appropriately marked with the name 'Haskell Park'.

"The Council also voted to recommend to you that the present track facilities be named 'Jacobs Field' in honor of Mr. John Jacobs who served as head track coach at CU from 1922 to 1959, and has been Associate Track Coach since 1959 to the present time. Here again, the Council feels that the field should be appropriately marked with the designation 'Jacobs Field'.

Respectfully,

/s/ Earl Sneed

Earl Sneed
Chairman
Athletic Council"

Regent Monroe moved the recommendations be approved and that appropriate signs be installed on each field. Approved.

It was noted that in both instances this is a deviation from the policy of the Regents not to name a building or facility after a living person and that this action is not to be regarded as a change in the permanent policy adopted some years ago.

On October 12, 1960 (p. 6670), the Regents approved a grant agreement with the Federal Aviation Agency in the amount of \$25,000.00 to construct a parallel taxiway from the apron to southwest end of the NE/SW runway of the Max Westheimer Flying Field. The grant required \$25,000.00 matching funds which were available in the Max Westheimer Field Sales and Services Account.

Due to an under-estimation of the asphalt needed to stabilize the base course in the original proposal, the contract was over run and the University requested the Federal Aviation Agency to provide an additional \$1,544.98 as its share of the increased cost of construction. Funds are available in the Westheimer Field Sales and Services Account to pay the University's share of the cost.

The Federal Aviation Agency has agreed to the above increase in the grant and has submitted the following Resolution accepting Amendment No. 1 to the Grant Agreement No. FA2-1808 for approval of the Regents:

R E S O L U T I O N
ACCEPTING AMENDMENT NO. 1
TO GRANT AGREEMENT NO. FA2-1808

BE IT RESOLVED by the President and The Board of Regents of the University of Oklahoma, Norman, Oklahoma.

May 10, 1962

7068

Section 1. That the President and The Board of Regents of the University of Oklahoma, Norman, Oklahoma, shall and they do hereby accept Amendment No. 1 to Grant Agreement No. FA2-1808, accepted on the 12th day of October, 1960, and by their acceptance of same do hereby acknowledge this Amendment as a part of the Grant Agreement heretofore entered into, and that such Amendment No. 1 shall be as set forth hereinbelow.

Section 2. That the President ^{of the University of Oklahoma and the President of} The Board of Regents of the University of Oklahoma, Norman, Oklahoma, are hereby authorized and directed to evidence said University's agreement by affixing their signatures to such agreement amendment, which is hereby executed in sextuple, and the Secretary of the Board of Regents is hereby authorized and directed to impress the official seal of the University of Oklahoma thereon and to attest said execution.

Section 3. That the Amendment No. 1 to the Grant Agreement referred to hereinabove shall be as follows:

Contract No. FA2-1808
Max Westheimer Field
Norman, Oklahoma
Project No. 9-34-042-6103

AMENDMENT NO. 1 TO GRANT AGREEMENT

WHEREAS, the Assistant Administrator, Southwest Region of the Federal Aviation Agency has determined it to be in the interest of the United States of America that the Grant Agreement between the Chief, Facilities and Materiel Field Division No. 2 of the Federal Aviation Agency, acting by and on behalf of the United States, and the University of Oklahoma, Norman, Oklahoma (hereinafter referred to as "Sponsor"), accepted by said Sponsor on the 12th day of October, 1960, relating to Max Westheimer Field, Project No. 9-34-042-6103 be amended as hereinafter provided:

NOW THEREFORE, WITNESSETH:

That in consideration of the benefits to accrue to the parties hereto, the United States of America on the one part, and the Sponsor, on the other part, do hereby mutually agree that the maximum amount of the obligation of the United States payable under the said Grant Agreement as stated in Paragraph 1, Page 2 thereof, is hereby increased from \$25,000.00 to \$26,544.98.

It is further understood and agreed that the terms Chief of the Facilities and Materiel Field Division No. 2 of the Federal Aviation Agency and the Chief, Facilities and Materiel Field Division No. 2, wherever they may appear in the Grant Agreement or any other document constituting a part thereof, are deemed to mean the Assistant Administrator, Southwest Region of the Federal Aviation Agency, or Assistant Administrator, Southwest Region, as the case may be.

May 10, 1962

7069

IN WITNESS WHEREOF, the parties hereto have caused this Amendment to the said Grant Agreement to be duly executed as of the _____ day of _____, 1962.

UNITED STATES OF AMERICA
FEDERAL AVIATION AGENCY

By _____
Assistant Administrator
Southwest Region

PASSED AND APPROVED by a majority vote of the Board of Regents and approved by me this _____ day of _____, 1962.

PRESIDENT, BOARD OF REGENTS
UNIVERSITY OF OKLAHOMA

President Cross recommended approval of the above Resolution.

On motion by Regent Northcutt, the above Resolution was unanimously approved.

President Cross presented the following memorandum from Dr. Lloyd E. Swearingen concerning an agreement for Water Well Location to provide for a more adequate supply of water for use in the Fisheries Research Center being operated by Dr. Howard Clemens:

"Dr. Howard Clemens, in charge of the University's Fisheries Research Center, located on the South Canadian River west of Noble, Oklahoma, desires to obtain a more adequate supply of water for use in the Fisheries Research Center.

"The Trice Production Company, Longview, Texas, is the owner of approximately two acres of land in the river bottom in McClain County suitable for use as a site for water wells.

"The agreement grants to the Regents the right to drill water wells, construct a pump house and so forth, on the two acre tract.

"The Fisheries Research Center is located on a University-owned twelve acre tract which is separated from the Trice tract by approximately 175 feet at the most narrow point. To convey water from a well on the Trice tract to the Center will require an easement to cross this narrow strip with a water line and electrical cable.

May 10, 1962

7070

"I recommend approval and acceptance of the agreement as proposed by the Trice Production Company, so that Dr. Clemens can proceed with his project as soon as he has obtained the necessary easement across the intervening strip of land."

President Cross recommended that the President of the Board of Regents be authorized to sign the agreement.

Approved on motion by Regent Savage.

In considering the recommendation for the purchase of pipe and connections, it was noted that some vendors submitted bids "subject to price at time of shipment". At the time the call for bids was circulated the market on steel was somewhat indefinite and the Regents felt that that was the reason for failure on the part of some vendors to submit firm bids.

On motion by Regent Davidson, it was voted that the Purchasing Department make an effort to ascertain at this time if all vendors might submit firm bids, and authorized awarding the contract for purchases to the low bidders.

President Cross reported that the Oklahoma State Regents for Higher Education approved a curriculum leading to the degree of Master of Arts in Modern Languages with a major in Russian. Undergraduate instruction in Russian has been building with phenomenal speed in recent years and the University has responded to this demand by establishing an undergraduate major. We are now staffed to go on to a master's program which also, it appears, is coming into heavy demand.

President Cross also reported that the State Regents approved the request to change the name of the Master of Science degree in Sanitary Science to the Master of Science degree in Sanitary Science and Public Health. (see page 7032)

President Cross recommended the appointment of the following department chairmen for terms as indicated, effective September 1, 1962:

Psychology	Maurice K. Tamerlin	four years
Architecture	John G. York	four years
Business Law	Gaylord A. Jantz	one year
Engineering Physics	Robert M. St. John	four years
History	John S. Ezell	four years

May 10, 1962

7071

Metallurgical Engineering	Raymond G. Daniels	four years
Government	Walter F. Scheffer	four years
Art	John F. O'Neil (reappointment)	four years
General Engineering	C. M. Sliepcevich (reappointment)	four years
Mechanical Engineering	D. Barton Turkington (reappointment)	four years

Approved on motion by Regent Savage.

President Cross reported that five professors will have reached the statutory retirement age or have requested optional retirement by July 1, 1962. The total length of service for the five is 168 years. Those who plan to retire are:

<u>Name</u>	<u>Title</u>	<u>Age</u>	<u>Years of Service</u>
W. A. Willibrand	Professor	70	38
Herbert G. Allphin	Associate Professor	70	21
R. V. James	Professor	70	43
Johannes Malthaner	Professor	70	31
Susan E. Millier	Associate Professor	69	35

President Cross recommended that effective with their retirement, the title of Emeritus be added to each of the titles shown above.

On motion by Regent Davidson, the above recommendation was approved.
