on every
count
SUPERIOR

Superior flavor

Exceptionally pleasant tasting... leave no unpleasant after-taste... readily accepted without coaxing.

Superior stability

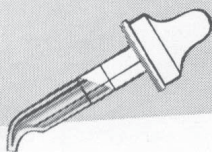

Require no refrigeration; no expiration date on labels. May be safely autoclaved with formula.

Superior miscibility

Disperse instantly in formula, fruit juice or water... mix well with Pablum and other solid foods.

Superior convenience

In ready-to-use form... no mixing necessary. Calibrated dropper assures easy, accurate dosage. For young infants, drop directly into mouth or mix with other foods. For older infants, measure into a spoon.

Superior vitamin supplements for infants

POLY-VI-SOL

SIX ESSENTIAL VITAMINS FOR DROP DOSAGE

TRI-VI-SOL

VITAMINS A, D AND C FOR DROP DOSAGE

MEAD JOHNSON & COMPANY
Evansville, Indiana, U.S.A.

Each 0.6 cc. of Poly-Vi-Sol supplies:

Vitamin A	5000 units
Vitamin D	1000 units
Ascorbic acid	50 mg.
Thiamine	1 mg.
Riboflavin	0.8 mg.
Niacinamide	6 mg.

Each 0.6 cc. of Tri-Vi-Sol supplies:

Vitamin A	5000 units
Vitamin D	1000 units
Ascorbic acid	50 mg.

All vitamins are in synthetic, hypoallergenic form.

Available in 15 cc. and 50 cc. bottles, with calibrated droppers.

No. 2

TULSA MEDICAL POPULATION REACHES 322

Thirty-Three New Doctors Enter Practice
In Tulsa County During 1954. General
Practice and Surgery Attract Greatest
Numbers of Newcomers.

Tulsa's medical population continued to take a sharp upswing as 33 medical doctors entered practice here in 1954. The number was seven more than for 1953 and represented a new annual record. During the past 24 months newcomers to the Tulsa profession have totalled 47.

Of the 33 additions in 1954, five had formerly been in practice in Tulsa and returned after a tour of active duty with the United States Armed Forces. The remainder were completely new to Tulsa. Of this group only three had been in private practice elsewhere. Most had just completed internships, residencies, or military service.

In a breakdown by specialties the 1954 newcomers are grouped as follows: general surgery, 6; pediatrics, 2; obstetrics and gynecology, 4; internal medicine, 2; anesthesiology, 2; general practice, 8; ophthalmology, 1; radiology, 1; orthopedic surgery, 3; pathology, 1; neurosurgery, 1; and otolaryngology, 1.

For the 24 months period from January 1, 1953 to December 31, 1954, the specialty grouping is as follows: general surgery, 9; pediatrics, 3; obstetrics and gynecology, 6; internal medicine, 7; anesthesiology, 3; general practice, 12; ophthalmology, 1; radiology 2; orthopedic surgery, 5; pathology, 1; neurosurgery, 2; otolaryngology, 1; industrial medicine and miscellaneous, 5.

As an offset to influx of new doctors, three doctors moved to new locations in 1954, three were called to military duty

(but will presumably return to Tulsa in two to three years), and one passed away. (Three others, all retired, also died in 1954).

The year previous, 1953, saw two physicians leave Tulsa for other locations, four called to military service, and three deaths.

Membership in the Tulsa County Medical Society at the end of 1954 stood at a record of 322 members. Of this number, 285 were in active full-time practice, 28 were retired or semi-retired, and nine were in military service. The Society also carries six others on its rolls who are away on postgraduate medical training programs; at least half of these men are expected to return to practice in Tulsa. It is anticipated that all of the nine military members will resume practice here after their discharge.

The growth in membership of the Tulsa County Medical Society is reflected in a study of membership records of the past fifteen years. In 1940, the Society had 204 active members, two in military service, and five retired; in 1945 at the height of World War II, there were 161 in active practice, 50 in military service, and eight retired. By 1950 the medical population had grown to 259 active members, five in military service, and fourteen retired.

The total membership figures for these years were: 1940, 211; 1945, 219; 1950, 278; and 1954, 322.

New members admitted to the Tulsa

COMMITTEE PERSONNEL NAMED FOR ANNUAL WORK PROGRAM

Dr. Frank J. Nelson, President of the Tulsa County Medical Society, last month announced the personnel of 22 standing and special committees for 1955. A complete list appears in this issue of *The Bulletin*, beginning on page 8.

A number of doctors were reappointed as committee chairmen due to excellent work in 1954 and previous years. Dr. Felix R. Park was named to his seventh consecutive term as Chairman of the Red Cross Blood Center, while Dr. Hugh Perry began a third term as Chairman of the Public Policy Committee. Other reappointees include Dr. Lucien M. Pascucci, Cancer; Dr. Herbert J. Forrest, Clinic; Dr. Paul N. Atkins, Jr., Golf;

(Continued On Page 34)

PRESIDENT'S PAGE

February is the month in which we celebrate the birthdays of two great Americans—George Washington and Abraham Lincoln. In bringing to mind their contribution to our country, we cannot help but feel poorly inadequate for our own small effort in making America the finest nation on earth. What is more serious to contemplate is the utter lack of concern which many of us have for our responsibilities as participants in our community life and civic progress. Doctors, unfortunately, have been prone to remain away from this obligation, not so much from a lack of citizenship perhaps as from an inherent single-mindedness which limits their interest to things medical. I believe doctors must make a conscious effort to overcome this failing. The respect which has long been accorded the medical profession demands not only our participation but our leadership in community affairs. Aside from the paramount responsibility to do our part, doctors will profit by improved public relations, a more specialized supervision of medico-civic affairs, and a greater awareness of the practical workings of community progress.

A good place to begin, in my opinion, is our Tulsa Chamber of Commerce. While most doctors are members, a sizeable number are not. The payment of the annual membership fee is but a beginning to this activity. Actual participation in the Chamber's affairs, through its many committees and advisory groups, would be welcomed by the Chamber's officials. Attendance at the weekly luncheons each Thursday should be encouraged; few are the doctors who are seen at these events. The Tulsa Chamber of Commerce has been largely responsible for the progress of this City; what is good for Tulsa is good for Tulsa doctors. I hope that each member of the Tulsa County Medical Society will give the Chamber his active and interested support. It is a good investment of time and money, payable in dividends of good living.

Sincerely,

President

PROMINENT GENETICIST TO SPEAK HERE FEBRUARY 14TH

Dr. Laurence H. Snyder, Dean of the Graduate School of the University of Oklahoma, Norman, Oklahoma, will be guest speaker for the Tulsa County Medical Society on Monday, February 14, 1955, at 8:00 P.M. His subject will be "Medicine and Genetics—With Special Reference to Transfusion Reactions."

The meeting will again be at the Auditorium of the Blue Cross-Blue Shield Building, 1215 South Boulder, Tulsa. Telephone service is available by calling 5-9149.

Dr. Snyder is repeating a widely acclaimed lecture presented before the regional meeting of the American College of Physicians in Oklahoma City last October. Tulsa doctors who heard the lecture described it as fascinating in its medical and genetic aspects, and numerous requests were received by the Program Committee to arrange for its repetition in Tulsa.

A student of human genetics for over 31 years, Dr. Snyder is the author of four books and more than 100 articles on various phases of human heredity. He was instrumental in developing the modern statistical methods for the study of human inheritance, and he has done extensive research work in the inheritance and racial distribution of the blood

groups, human anomalies and diseases, and the linkings of the human genes.

Dr. Snyder is a graduate of Rutgers University, Class of 1922, and holds a Master's and Sc.D. degree from Harvard University, and an honorary Sc.D. from Rutgers. For many years he was Chairman of the Department of Zoology and Entomology at Ohio State University. Since 1947 he has been associated with the University of Oklahoma as Dean of the Graduate School. He was formerly special advisor to the Surgeon General of the United States Army and the Surgeon General of the United States Public Health Service. Dr. Snyder was President of the Genetics Society of America in 1948, President of the American Society of Human Genetics in 1950, and a past officer and member of numerous similar organizations. He is presently National President of Phi Sigma and a member of the Board of Directors of the American Association for the Advancement of Science.

Dr. Snyder developed the first course in medical genetics to be required in a medical school in the United States while at Ohio State University and has inaugurated similar courses in other medical schools. He has lectured widely all over the world and has surveyed many graduate schools in foreign countries and in the United States at the request of those institutions. He has given nineteen endowed lectures in this country, Alaska, and Puerto Rico. More recently, Dr. Snyder has been a member of the Council of the Oak Ridge Institute of Nuclear Studies and Chairman of its Committee on Medical Problems.

"Dr. Snyder has a splendid lecture of unusual interest," said Dr. Frank J. Nelson, President of the Tulsa Medical Society, "and I hope that every member of the Society will avail himself of the opportunity to hear it."

DR. EMANUEL N. LUBIN has taken new professional quarters at 416 Medical Arts Building, Tulsa.

DR. DIXON N. BURNS was speaker at the December meeting of the Staff of St. John's Hospital. His subject was "Endometrial Biopsy."

FEBRUARY MEDICAL CALENDAR

TUESDAY, February 1st:

St. John's Tumor Clinic, 8:00 A.M.

Postgraduate Course in Medicine, Hillcrest Medical Center, 5:30 P.M. Subject: "Chronic Pulmonary Disease." Speaker, Dr. Craig S. Jones.

Members of the Tulsa County Medical Society are reminded that 1955 annual membership dues are due and payable on this date. Please pay in accordance with statement mailed in January.

Final date to pay quarterly premiums, Blue Cross hospital insurance, Medical Assistants Group. Make payments direct to Blue Cross-Blue Shield Plans, 1215 South Boulder, Tulsa.

WEDNESDAY, February 2nd:

St. John's Isotope Clinic, St. John's Hospital, 8:30 A.M.

Postgraduate Course in Surgery, Hillcrest Medical Center, 12:30 P.M. Subject: "Compound Fractures." Speaker, Dr. Myra A. Peters.

THURSDAY, February 3rd:

Interns and Residents Lecture, St. John's Hospital, 12:00 Noon. Subject:

"Ectopic Pregnancy." Speaker, Dr. William F. Thomas, Jr.

FRIDAY, February 4th:

St. John's Tumor Clinic, Clinical Conference, 8:30 A.M.

St. John's Isotope Committee Meeting, St. John's Hospital, 8:30 A.M.

X-Ray Conference, Hillcrest Medical Center, 3:00 P.M.

MONDAY, February 7th:

St. John's Tumor Clinic, 8:00 A.M.

Postgraduate Course in Medicine, Hillcrest Medical Center, 5:30 P.M. Subject: "Practical Endocrinology." Speaker, Dr. Henry A. Brocksmith.

TUESDAY, February 8th:

Hillcrest Medical Center, Staff Meeting, 8:00 P.M.

WEDNESDAY, February 9th:

St. John's Isotope Clinic, St. John's Hospital, 8:30 A.M.

Clinical Pathological Conference, Hillcrest Medical Center, 7:00 P.M.

Postgraduate Course in Surgery, Hillcrest Medical Center, 12:30 P.M. Subject: "Congenital Deformities." Speaker, Dr. Alfred H. Bungardt.

Board of Trustees Meeting, Tulsa County Medical Society, Glass-Nelson Clinic, 2020 South Xanthus, 1:00 P.M.

THURSDAY, February 10th:

Interns and Residents Lecture, St. John's Hospital, 12:00 Noon. Subject:

"Common Disturbances in Electrolyte Balance in Pediatrics". Speaker, Dr. H. J. Rubin.

FRIDAY, February 11th:

St. John's Tumor Clinic, Clinical Conference, 8:30 A.M.

St. John's Isotope Committee Meeting, St. John's Hospital, 8:30 A.M.

X-Ray Conference, Hillcrest Medical Center, 3:00 P.M.

SATURDAY, February 12th:

Copy deadline for the March issue of The Bulletin.

MONDAY, February 14th:

Scientific Meeting, Tulsa County Medical Society, Blue Cross-Blue Shield Building, 1215 South Boulder, 8:00 P.M. Subject: "Genetics and Medicine—With Special Reference to Transfusion Reactions." Speaker, Dr. Laurence H. Snyder, Dean, Graduate School, University of Oklahoma, Norman, Oklahoma.

1955 Annual Meeting, Oklahoma Academy of General Practice, opens at the Biltmore Hotel, Oklahoma City. Continues through February 15, 1955. For program details see separate story, this issue of The Bulletin.

Also featured are pictures of the exhibits of the Tulsa County Medical Society and Oklahoma State Medical Association at the Tulsa State Fair, October 2-8, 1954.
- The Journal of the American Medical Association**, 156:1530 (December) 1954, features a review of the motion picture, *The Rizzoli-Stone Operation for Correction of Atrelis Ani Vaginalis*, prepared and produced by Dr. John G. Matt of Tulsa. The film is 16 mm, sound and color, and has a running time of eighteen minutes.

NEW MEDICAL JOURNALS—:

- Antibiotic Medicine.** A monthly journal of clinical studies and practice of antibiotic therapy. It begins with the January, 1955, issue, and is under the editorship of Henry Welch, Ph.D. The journal is published by M.D. Publications, Inc., New York, N. Y. Subscription, \$7.50 per year.
- Journal of Chronic Diseases.** It begins in January, 1955, with Dr. Joseph Edward Earle as Editor. The publishers are C. V. Mosby and Company, Inc., New York, N. Y. Subscription, \$12.50 per year. A sample copy is in the Medical Library.

The Library of the Tulsa Medical Society is in need of some of the early volumes of the Journal of the Oklahoma State Medical Association in order to complete its file. If any physician has any of the following issues and cares to contribute them to the Library, they will be most gratefully received:

Volumes 1, 2, 6, 7, 8, 9, 11, and Volume 12, Nos. 1-7 inclusive, 1908-1919.

TULSA SURGEON HONORED FOR HUMANITARIAN WORK

Dr. F. L. Flack, President-Elect of the Tulsa County Medical Society, was the recipient of an Award of Merit for Humanitarian Service conferred by the Daughters of the American Revolution in ceremonies at Philbrook Art Center on January 5, 1955.

The award was made in recognition of Dr. Flack's service to Moton Memorial Hospital, where he has performed over 2,000 gratuitous operations for colored indigent patients within the past eleven years. He has also assisted in a training program in the surgical sciences for colored physicians at Moton and has been a regular consultant and advisor to the Hospital since 1943.

Dr. Flack received a scroll, presented by Mrs. Logan A. Spann, Chairman of the National Defense Committee of the Tulsa Chapter of the D.A.R. The awards are given annually in recognition of some outstanding contribution or service to the community.

A similar award was also given to Mr. Theodore H. Steffans, Chairman of the Sand Springs Home Interests, for his guidance of the widows and orphans colony at the Charles H. Page Home in Sand Springs.

DR. FLACK

TUMOR CLINIC FINDS 200 NEW CANCER CASES IN YEAR

Slightly more than 200 new cases of cancer were discovered by the St. John's Tumor Clinic of Tulsa in 1954, a report issued late in December by Dr. Ralph A. McGill, Medical Director, indicates.

The report, covering the first eleven months of the year, reflects the continued progress of the outpatient department for indigent cancer patients of Northeast Oklahoma. Patients were accepted in 1954 from 24 Oklahoma counties, all referred by private physicians or county health officers.

Since its opening on March 2, 1948, nearly seven years ago, the Tumor Clinic accepted 2,267 patients up to November 30, 1954. A total of 12,224 patient visits were recorded in the same period.

The first eleven months of 1954 saw 352 new patients accepted and a total of 2,457 patient visits seen. The patients were cared for by the Clinic's volunteer staff of eighty specialists and general practitioners.

One hundred eighty four old and new patients were hospitalized at St. John's Hospital for further diagnosis and treatment. They spent a total of 1,960 patient days in the Hospital.

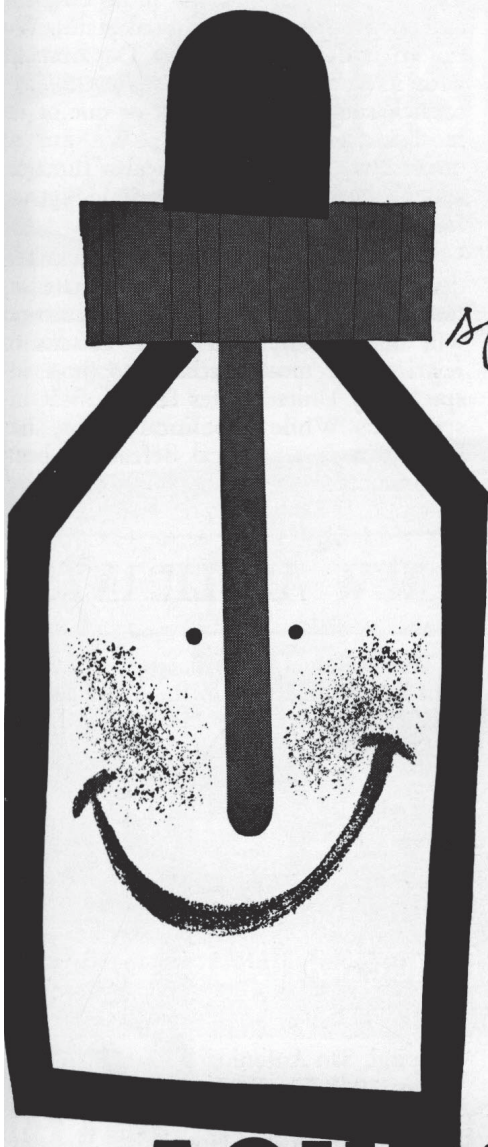

Patients or their families paid for 765 of these days at charity rate, while 180 were on a complete charity basis. The Oklahoma Crippled Children's Commission paid for 120 days, and health insurance covered 196. The remainder were financed by charity funds paid by the various counties.

The report noted that St. John's Hospital contributed \$16,775 in x-ray therapy for 183 patients, as well as \$6,039 for diagnostic x-rays. The Hospital also contributed several thousand dollars worth of charity hospitalization for certain patients.

The Clinic is financed largely by annual grants from the Oklahoma Division of the American Cancer Society. The staff includes Miss Helen Hawkins, social worker, and Mrs. Hope Hauskins, secretary. Nursing personnel is provided as needed by St. John's Hospital, which also contributes the physical quarters and use of x-ray equipment and other materials.

NOTE OF THANKS: I would like to thank all of the doctors and their assistants for their many kindnesses to me after the recent passing of my husband. Your thoughtfulness is most appreciated. *Marge McCrary.*

DR. OTIS S. LEE was discharged from the Army Medical Corps last month and resumed his private practice with new offices at 311 Utica Square Medical Center. He will continue to specialize in Ophthalmology.

special for children

ACHROMYCIN PEDIATRIC DROPS TETRACYCLINE

Youngsters take their medicine like little men and women—when the medicine is ACHROMYCIN Pediatric Drops! Their candy-like cherry flavor goes over big even with fussy moppets. Mothers find these drops are easy to administer accurately, too, because of the clearly-etched graduated dropper.

When modern broad-spectrum therapy is indicated, and palatability is important—specify ACHROMYCIN Pediatric Drops!

ACHROMYCIN, a modern broad-spectrum antibiotic, is well tolerated by persons of all ages. It has proved effective against more than a score of infections, including those caused by Gram-positive and Gram-negative bacteria, rickettsia, certain viruses and protozoa.

Pediatric Drops (Cherry Flavor): 100 mg. per cc. (approx. 5 mg. per drop), 10 cc. bottles

EDITORIAL

An unfortunate action taken by the Tulsa City Commission last month removed the administration of the City's meat inspection program from the Tulsa City-County Health Department. In creating a separate office to handle this important public health function, the Mayor and the City Commissioners have not only saddled the taxpayers with the burden of additional expense but have established a dangerous precedent. On the basis of this action, it is not unreasonable to think that the milk inspection program could next be removed, then the examination of food handlers, the restaurant inspection, food market inspection, and so on. The net result could be an uncoordinated group of autonomous units without proper supervision or control.

Other than the fact that certain influential interests apparently wanted the meat inspection program away from the City-County Health Department, there appears to be no justification for the precipitate action of the Commission. The reasons for it remaining within the jurisdiction of the Department are several, all of the considered merit. These reasons are:

1. The meat inspection program is properly a public health function and should be under the administration of persons qualified by education and experience in public health. This will give greater assurance that no infectious disease is transmitted to man through the dissemination and use of meat.

2. Proper safeguards under the most effective operation of the program will be attained if the program is under a supervisory board rather than one person. This will insure that the intent of the ordinance will be carried out in the most effective manner.

3. The continued administration of the meat inspection program by the Tulsa City-County Health Department would be the most economical, inasmuch as the present Department facilities, personnel and equipment would be used.

Our Tulsa City-County Health Depart-

ment has come to be recognized in recent years as one of the most efficient and progressive in the United States. We fail to understand why the Department, with its competent and experienced personnel, should be ruled out of one of its most important functions. We fail to understand why a public health function should be vested in a separate agency lacking supervisory board control.

Rather than increasing public confidence in local meat, the unfortunate action of the Mayor and City Commission will undoubtedly lead many Tulsans to restrict their meat purchases to those inspected by United States federal meat inspectors. While a political victory has been gained, a practical defeat has been experienced.

NEW APPLICANTS

The following physician is an applicant for membership in the Tulsa County Medical Society:

Desiderio Leo Galindo, M.D. Department of Pathology, St. John's Hospital, 1923 South Utica, Tulsa. Medical Degree, Baylor University College of Medicine, 1947. Interned Santa Rosa Hospital, San Antonio, 1947-48. Resident in Pathology, Santa Rosa Hospital, San Antonio, Texas, 1948-49. Resident in Pathology, Baylor University Hospitals, Houston, Texas, 1949-51. United States Army Medical Corps, 1951-53, discharged with rank of First Lieutenant. Private practice, Temple, Texas, 1953-54. Diplomate, American Board of Pathology. Member, American Society of Clinical Pathologists, College of American Pathologists. Specialty, Pathology. Recommended by Dr. Emil E. Palik and Dr. Iron H. Nelson.

DR. GLADYS K. DOLAN has joined the medical staff of Children's Medical Center of Tulsa.

Measles Season!

	INDICATIONS	BASIC DOSAGE	DEGREE OF PROTECTION
MEASLES	For modification or prevention of measles.	For modification: 0.02 cc. per pound of bodyweight given intramuscularly. For prevention: increase dosage 5 times (0.1 cc.).	For modification, administer within 6 days after exposure; for prevention, administer increased dosage early in incubation period.

CUTTER Polio Immune Globulin
Gamma Globulin
 Prepared from Human Venous Blood

Additional copies of this chart available on request

	INDICATIONS	BASIC DOSAGE	DEGREE OF PROTECTION
POLIO	For passive protection against paralytic poliomyelitis.	0.14 cc. to 0.20 cc. per pound of bodyweight given intramuscularly. When dosage is greater than 10 cc., give in separate sites to reduce trauma.	Protection appears greatest beginning with second week after injection and decreases by end of fifth week.
MEASLES	For modification or prevention of measles.	For modification: 0.02 cc. per pound of bodyweight given intramuscularly. For prevention: increase dosage 5 times (0.1 cc.).	For modification, administer within 6 days after exposure; for prevention, administer increased dosage early in incubation period.
INFECTIOUS HEPATITIS	For protection against a clinical attack of infectious hepatitis.	0.02 cc. to 0.06 cc. or more per pound of bodyweight given intramuscularly.	Gives protection against clinical attack when administered soon after exposure. Will modify attack when given later in incubation period.

Each vial of Cutter Polio Immune Globulin is derived from human venous immunoprecipitate blood. It has been tested in accordance with U.S. Public Health Service specifications for poliomyelitis antibody content.

...for the modification or prevention of measles...

Cutter Polio Immune Globulin

- Derived from human venous blood—crystal clear.
- Produced by Cutter Laboratories, first to offer gamma globulin commercially.
- Tested in accordance with U. S. Public Health Service specifications for poliomyelitis antibody content.
- For measles, polio, infectious hepatitis, and agammaglobulinemia.

For copies of the dosage chart illustrated above,

G. P. ACADEMY ANNOUNCES STATE MEETING

General Practitioners To Meet in Oklahoma City, February 14-15. Six Distinguished Guest Speakers Headline Two-Day Program.

Six nationally known medical personalities will be visiting distinguished guest speakers for the 1955 Annual Meeting of the Oklahoma Academy of General Practice to be held February 14-15 at Oklahoma City.

Scheduled to appear as speakers are: *Dr. Fred T. Harper*, Chairman of the Department of Thoracic Surgery, University of Colorado School of Medicine, Denver, Colorado.

Dr. Andrew L. Banyai, Associate Professor of Medicine, University of Wisconsin Medical School, Milwaukee, Wisconsin.

Dr. James W. Burks, Jr., Assistant Professor of Dermatology, Tulane University School of Medicine, New Orleans, Louisiana.

Dr. Robert M. Myers, Surgeon, Kansas City, Missouri.

Dr. Daniel C. Moore, Director of Anesthesiology, Virginia Mason Hospital, Seattle, Washington.

Dr. Paul C. Laybourne, Assistant Professor of Psychiatry, University of Kansas Medical Center, Kansas City, Kansas.

All sessions of the Meeting will be at the Biltmore Hotel. Commercial exhibits by pharmaceutical manufacturers, surgical supply firms, medical book publishers, and other firms catering to physicians will be featured.

The annual dinner of the Academy will be held on Monday evening, February 14, at the Biltmore. *Dr. W. B. Hildebrand* of Menasha, Wisconsin, President of the American Academy of General Practice, will be the principal guest speaker.

The convention will be open to all medical doctors wishing to attend.

The scientific program is as follows:

Monday, February 14, 1955

9:30 A.M. "Pointers on the Diagnostic Significance and Treatment of Cough." *Dr. Andrew L. Banyai*, Milwaukee, Wisconsin.

10:00 A.M. Intermission to visit com-

mercial exhibits.

10:15 A.M. "Regional Block in Obstetrics." *Dr. Daniel C. Moore*, Seattle, Washington.

10:45 A.M. Intermission to visit commercial exhibits.

11:15 A.M. "Dermatoses of the Hands." *Dr. James W. Burks, Jr.*, New Orleans, Louisiana.

11:45 A.M. Intermission to visit commercial exhibits.

12:00 Noon. Roundtable Luncheon.

1:15 P.M. Intermission to visit commercial exhibits.

1:30 P.M. Symposium on Rehabilitation. Guest speakers participating.

3:15 P.M. Intermission to visit commercial exhibits.

3:30 P.M. "Emergency Treatment of Chest Injuries." *Dr. Fred R. Harper*, Denver, Colorado.

4:00 P.M. "Infertility." *Dr. Robert M. Myers*, Kansas City, Missouri.

4:30 P.M. "Treatment of Common Emotional Problems of Children." *Dr. Paul C. Laybourne*, Kansas City, Kansas.

6:30 P.M. Annual Banquet, The Biltmore. Speaker, *Dr. W. B. Hildebrand*, President, American Academy of General Practice, Menasha, Wisconsin.

Tuesday, February 15, 1955

7:30 A.M. Annual Convention Breakfast, The Biltmore.

9:00 A.M. Annual Business Meeting.

10:00 A.M. "Preventive Child Psychiatry." *Dr. Paul C. Laybourne*, Kansas City, Kansas.

10:30 A.M. "The Etiology and Treatment of Pulmonary Hemorrhage." *Dr. Andrew L. Banyai*, Milwaukee, Wisconsin.

11:00 A.M. "The Treatment of Nerve Block of Pain Associated with Every Day Curable Diseases." *Dr. Daniel C. Moore*, Seattle, Washington.

11:30 A.M. Intermission to visit commercial exhibits.

12:00 Noon. Roundtable Luncheon.

1:30 P.M. Intermission to visit com-

mercial exhibits.

1:45 P.M. "What's New In Dermatology." Dr. James W. Burks, Jr., New Orleans, Louisiana.

2:15 P.M. Intermission to visit commercial exhibits.

2:30 P.M. "Differential Diagnosis of Lung Tumors." Dr. Fred R. Harper, Denver, Colorado.

3:00 P.M. Intermission to visit commercial exhibits.

3:15 P.M. "The Routine Pultipara." Dr. Robert M. Myers, Kansas City, Missouri.

3:45 P.M. Motion Picture. "Scar Removal by Abrasion." Prepared by Dr. James W. Burks, Jr., New Orleans, Louisiana.

4:00 P.M. Adjournment.

Dr. Earl M. Lusk of Tulsa will be inaugurated as President of the Oklahoma Academy of General Practice at the annual banquet on Monday evening, February 14th.

GENERAL PRACTITIONERS SET NATIONAL MEETING

The American Academy of General Practice has announced its Seventh Annual Scientific Assembly for March 28-31, 1955, at Los Angeles, California. Thirty-two prominent medical personalities will be featured in a program to be presented in Shrine Auditorium.

Among the speakers scheduled to ap-

REGISTER AT MUNICIPAL THEATER

Tulsa doctors attending social events at Tulsa Municipal Theater (Convention Hall) may now register their seat location in the Manager's office upon arrival. This will enable ushers to locate physicians without the necessity of a public page. A special register for this purpose has been set up in the office of Mr. Rube Leekley, Manager, just to the right of the Boulder Avenue entrance. "It will take doctors only a few minutes to register," Mr. Leekley said, "and it will save time, trouble and embarrassment if they are needed."

pear are Dr. W. Alton Oschner, Chairman of the Department of Surgery, Tulane University Medical School, New Orleans, Louisiana; Dr. Digby Leigh, Childrens Hospital, Los Angeles, California; Dr. William A. Sodeman, Dean of the School of Medicine, University of Missouri, Columbia, Missouri; and Dr. Hugh H. Hussey, Medical Editor of G.P., Washington, D.C.

Panel discussions have also been arranged on diabetes, childhood disasters, peripheral vascular diseases, neurology, athletic injuries, and endocrinology.

Several Tulsa physicians are expected to attend.

MOBILE X-RAY SCHEDULED

The schedule of locations for the Mobile X-Ray Unit of the Tulsa County Public Health Association for February, 1955, will be as follows:

February 1-2, Jones & Laughlin Company; February 3-8, 15th and Peoria; February 9-12, 11th and Harvard; February 14-19, Admiral and Harvard; February 21-26, Sheridan Road and Admiral; February 28, American Airlines Depot. The Unit does not operate on Sundays.

STAFF OFFICERS NAMED

The organized medical staffs of Tulsa's two accredited hospitals last month elected the following officers to serve in 1955:

Hillcrest Medical Center: Dr. George M. Adams, Chief of Staff; Dr. Safety R. First, Vice Chief of Staff; and Dr. Henry A. Brocksmith, Secretary-Treasurer.

St. John's Hospital: Dr. William Orlando Smith, President; Dr. Charles G. Stuard, Vice-President; and Dr. Hays R. Yandell, Secretary-Treasurer. Dr. E. G. Hyatt was named President-Elect and will serve as President in 1956.

DR. JOHN E. McDONALD has been appointed a member of Legislative Committee of the Oklahoma State Medical Association.

DR. A. B. CARNEY has been appointed to the Board of Directors of the Tulsa Chamber of Commerce for 1955.

ORTHOPEDIC SURGEON SET FOR GENERAL PRACTICE ACADEMY

Dr. Oscar P. Hampton, Assistant Clinical Professor of Orthopedic Surgery at Washington University School of Medicine, St. Louis, Missouri, will be guest speaker for the Tulsa Academy of General Practice on Monday, February 28, 1955. His subject will be "Emergency Treatment of Casualties With Major Open Wounds, Blast and Crash Injuries."

The meeting will be in the Junior Ballroom of Hotel Tulsa with dinner at 6:30 P.M. Reservations are necessary for dinner and may be made by telephoning 2-5904. The program will be at 8:00 P.M. All medical doctors are invited to attend.

Dr. Hampton is a graduate of the University of Tennessee School of Medicine, Class of 1928. He is now a member of the staff of St. Louis County Hospital and St. Luke's Hospital, as well as Barnes Hospital of St. Louis. Dr. Hampton is a fellow of the American College of Surgeons, member of the American Association for Surgery of Trauma, and the Southern Surgical Association. His many papers on orthopedic subjects have appeared in national and regional medical publications.

OKLAHOMA BLUE SHIELD PLAN SPONSORING ESSAY CONTEST

The Oklahoma Blue Shield Plan and the Oklahoma Chapter of the Student American Medical Association are co-sponsoring an essay contest to students at the University of Oklahoma School of Medicine. The subject will be "A Medical Student Looks at Blue Shield."

Winners of the local contest will receive an expense paid trip to Chicago for the 1955 Annual S.A.M.A. convention in May. The contest is designed to educate the physicians to have a greater understanding of medical economics, pre-payment methods, etc.

Dr. A. N. Taylor, Associate Dean at OU, is coordinating various phases of the contest. Entries must be received by March 1, 1955. The local winner will be entered in a national competition with the opportunity of winning one of several grand prizes.

DR. J. W. CHILDS was awarded a gold key by the Oklahoma A. and M. College last month for his services to Oklahoma horticulture. The presentation was made at a banquet given by the A. and M. Horticulture Club. Dr. Childs has long been a leader in Oklahoma gardening circles.

DR. WALTER S. LARRABEE has announced the association of DR. LEON H. STUART in the practice of Radiology with offices at 411 Medical Arts Building, Tulsa.

DR. HUGH C. GRAHAM has taken attractive new offices at 326 Utica Square Medical Center.

DR. FRANK A. WAPPLER has been elected to membership in the American Society of Anesthesiologists.

DR. HUGH B. NICHOLAS, Tulsa physician now serving with the United States Army, has been assigned overseas to the 98th General Hospital at New Breucke, Germany.

DR. J. J. BILLINGTON, former Tulsa physician now in practice at Stigler, Oklahoma, was slightly injured in an automobile accident in Tulsa on New Year's Eve. He was discharged after several days of hospitalization.

MIAMI PEDIATRICIAN SET FOR ANNUAL MEETING PROGRAM

Dr. Robert B. Lawson, Chairman of the Department of Pediatrics at the University of Miami School of Medicine, Miami, Florida, is the newest addition to the panel of visiting distinguished speakers for the 62nd Annual Meeting of the Oklahoma State Medical Association in Tulsa, May 9-11, 1955.

Dr. Walter E. Brown, Chairman of the Scientific Works Committee, said the addition of Dr. Lawson completed the scientific program for the 1955 convention. A total of 28 papers will be presented in the three-day session by ten visiting guest speakers and by members of the Oklahoma State Medical Association. Tulsans appearing on the program include Dr. H. J. Rubin, Dr. Sol Wilner, and Dr. Robert M. Shepard, Jr.

One of America's best known pediatricians, Dr. Lawson was formerly Chairman of the Department of Pediatrics at Bowman-Gray College of Medicine, Winston-Salem, North Carolina. Earlier this year he was engaged to head and develop the Department of Pediatrics at the new University of Miami School of Medicine, which plans to take its first class in 1955-56. Dr. Lawson was recently the subject of a lengthy study by Time Magazine and is widely known for his pediatric research and writings.

Dr. James G. Hughes of Memphis, Tennessee, previously announced as the speaker in Pediatrics, has had to relinquish the invitation due to an assignment for the United States government which will take him out of the country for the Spring months.

Plans for a scientific exhibit at the convention have also been completed. Space for this purpose has been allocated in a separate section adjacent to the commercial exhibit. Exhibits are planned by several Tulsa physicians and organizations, as well as by other groups and individuals over the State.

On the sick list at Tulsa hospitals last month were DR. R. K. GODDARD, SR., DR. H. J. RUBIN, DR. JOHN C. DAGUE, and DR. WALTER H. CALHOUN.

Totals	984	537	54.5%

The Tulsa County Red Cross Blood Center observed its sixth anniversary on January 12, 1955, as a joint project of the Tulsa County Chapter of the American Red Cross and the Tulsa County Medical Society. Since its opening in 1949 more than 55,000 pints of whole blood have been given without charge to patients of Tulsa County hospitals.

On the first day of operation of the Center, ten donors appeared to give blood, of which eight did not meet the medical qualifications. Today, the Center averages forty acceptable donors daily. The output of blood has risen from 6,000 pints in 1949 to 12,098 pints in 1954. The estimated need for 1955 is 13,500 pints.

Mr. Dale T. Bartlett, Director of the Tulsa County Chapter of the American Red Cross, paid tribute to the Center and its value to the community. "We have no way of knowing in exact figures, but doubtless many lives have been saved through the blood program," he said. "While no price can be placed on the value of the blood provided by the Center, it is estimated that Tulsa County patients have been saved well over a million dollars in the six years the blood program has been in operation."

The Tulsa Center is one of 20 operating throughout the United States in cooperation with local medical societies, providing blood on a "free of charge" basis. In addition, the Red Cross operates 45 regional center programs throughout the United States.

COMMITTEE APPOINTMENTS

(Continued From Page 9)

Dr. Marshall O. Hart, Fraudulent Practices; Dr. I. H. Nelson, Medical Credit Bureau; Dr. Walter B. Sanger, Sub-Committee on Legislation; Dr. R. M. Wadsworth, Sub-Committee on Health Education and Schools; Dr. G. R. Russell, Sub-Committee on Speakers Bureau; Dr. Dave B. Lhevine, Sub-Committee on Labor Relations; Dr. Thomas J. Hardman, Library; Dr. Jack O. Akins, Military Affairs; and Dr. F. L. Flack, Industrial Medicine. For his fine organizational work on the Annual Founders Day Clinic in 1953 and 1954, Dr. Earl I. Mulmed was named Chairman of the Postgraduate Study Committee for a third term. Dr. Fred E. Woodson is again heading a special advisory group to the Insurance Committee.

More important new assignments were Dr. Wilkie D. Hoover, Insurance; Dr. Edward L. Moore, Program; and Dr. Hugh C. Graham, Public Health. Dr. John G. Matt was named Chairman of the Bulletin Committee and Editor-in-Chief of The Bulletin.

Representing the Tulsa County Medical Society on the liaison committee of the Tulsa Council of Social Agencies to study medical problems of Moton Memorial Hospital are DR. HOMER A. RUPRECHT, Chairman, Dr. F. L. FLACK, DR. EMIL E. PALIK, and DR. HAYS R. YANDELL.

DR. KENNETH LLOYD WRIGHT has completed a residency in Anesthesiology at the Oschner Clinic, New Orleans, Louisiana, and will announce his new plans after a short vacation. Dr. Wright was formerly in general practice in Tulsa before his call to active duty with the Army Medical Corps in 1949.

DR. BERGET H. BLOCKSOM has been vacationing in Mexico.

DR. WALTER E. BROWN has been named Chairman of a liaison committee with the Tulsa Council of Social Agencies to study the problem of medical indigency in Tulsa. Other members of the Committee are DR. EARL I. MULMED and DR. MARCELLA R. STEEL.

The Emblem Of Approval

Owned and operated by the Tulsa County Medical Society, the Medical Credit Bureau offers an efficient reliable collection service at cost. More than 135 Tulsa doctors and dentists attest to its discreet collection abilities.
