Our War Program

Some of the many ways we can help in the "School at Was Program" are Save, Serve, and Conserve. We serve our country by sutting our money to work for Victory. We can save our own personal security by buying War Bonds and stamps. He can conserve money and materials for the war effort by not spending. I tampound bonds can be prizes at parties. We should buy bonds and stamps regularly. We should try to sell bonds and stamps in our community. The Upper grades of Buck treek School have had training in First aid and have learned many helpful things. It is necessary to know about First Every pupil in our school belongs to the Junior Red Cross. We joined last year and again this year. Some of the boys are building air plane models and the gul are learning to knit and sew for the Junior Red Cross. rags This year we collected rubber and metal which amounted to 5585 pounds. We also raffled a turkey at Thankegiving and made sixteen dollars. We are going a twenty-fine dollar bond this month. Our teacher is going to try to get some bonds and stamps for us to sell throughout the duration.

"ALX "TT

In our school we have a health chart. at the end of a month certificates are given to the ones who have perfect scares Our mothers also put the right kind of food in our lunches. Many of us are wearing old clothed and are proud to do this, if it helps our war program. Our school has signed up for 4-H Club work and each family is going to plant a buck Greek 66 is planning to have this "School at War Program" for the Suration. Patricia James
7 th Grade

What The Can Ala To Have Victory Somethings we can do to have victory is. serve, save, and conserve. The serve our country by buying Than Bands and stange. The save for our own personal security. The conserve by not spending our money on factishness and saving our money to buy Than Bonds and stamps. school have joined the Red Cross The upper grades took first aid last year and are taking it again this year. The also have a chart on dental care The Buck Creek Boys are making airplane models and the girls are making things for the Red Cross. This year we gathered 5, 585 lbs. of scrap metal and subber. Last year we gathered old low we are wearing old clothes instead of new ones and some of us will make a Victory garden this spring. Aflaf the pupils of Buck Ceek 66 have some war stamps and some have Bonds. If we want peace and goodwill Mow, not tomarrow or the next year, start buying Har stamps and Hondy, saving scrap, saving paper, and hundreds of other things we must do to have Victory.

U. S. Sub Gets Believed Ge Eight Vessels Off Jap Shore

PEARL HARBOR, T. H., Nov. 30—(A)—Eight enemy ships totaling 70,000 tons were sunk by an American submarine, most of them only a short distance from the Japanese shore, Lieut. Commander Thomas Burton Klakring said to-

Four other ships aggregating 20,000 to 25,000 tons were damaged, he told interviewers. Lieut. Commander Klakring, 37, whose wife resides at San Mateo, Calif., is to receive the Navy Cross from Admiral Chester W. Nimitz, Pacific fleet commander.

The sinkings, he related, occurred for the most part in full view of the inhabitants of large Japanese cities. One transport was sunk in a harbor entrance. The dates were not specified.

Asked just how close his sub-marine approached the Japanese shoreline, Lieut. Commander Klak-

ring replied with a smile:
"Well, one Sunday we watched
the pony races for an hour."

Four big ships were sent to the bottom in one hour, Klakring related.

Here is his account of the ad-

"Our biggest bag was the day we sank four big ships in one hour. The enemy convoy force was nine or ten ships, six big cargo ships and three or four combat escorts.

"We were running on the surface early in the morning when we saw the masts of a couple of ships appear over the horizon. We were close to land, and we got between the land and the ships and stalk-

Carried Message to Giraud

WASHINGTON, Nov. 12—(P)—A daring under-cover trip to French north Africa by submarine, during which a commando-escorted party of American officers prepared the way for the occupation of that strategic arear, won Major General Mark W. Clark a promotion to lieutenant general today and a place in history alongside the bearer of the "message to Garcia."

Three weeks before the north African campaign opened, Gen. Clark and his party landed there from a submarine. He opened negotiations with representatives of the French general, Henri Giraud, which led to his rallying French forces to the United Nations cause. He obtained invaluable military information. He appraised the sentiment of Frenchmen in the area and found it favorable to the Americans.

All this was disclosed today, with a war department announcement that the tall, lanky, resourceful Clark, who later returned to Africa as second in command of the expeditionary force, had been promoted.

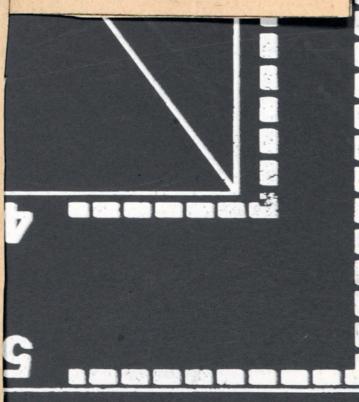

Meanwhile, dispatches from Allied headquarters in north Africa pieced together the details of his amazing exploit, a long tour which used almost every conceivable means of transportation, included a narrow escape from capture by the axis-controlled Vichy police, and an upset boat which resulted in the loss of most of the party's clothing and \$18,000 in gold.

The details came from Clark himself, and from Lieut. Gen. Dwight D. Eisenhower, commander-in-chief of the north African offensive. It was cabled by Wes Gallagher, Associated Press correspondent in north Africa.

It was evident, Eisenhower told Gallagher, that a large group of Frenchmen in north Africa was anxious to cooperate and that it would be desirable to send a group of officers there to contact them

Lieut. Gen. Mark W. Clark

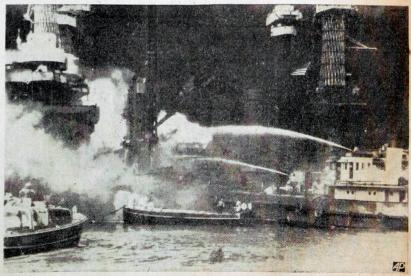

The masses of wreckage in this graphic official U. S. navy photo are the U. S. destroyers, Downes (left) and Cassin (right), in Pearl Harbor drydock, where they were caught by the Jap attack Dec. 7, 1941. In the background is the battleship USS Pennsylvania, 33,100-ton flagship of the Pacific fleet, which suffered relatively minor damage and soon was repaired. Machinery from the destroyers is being transferred to new hulls.

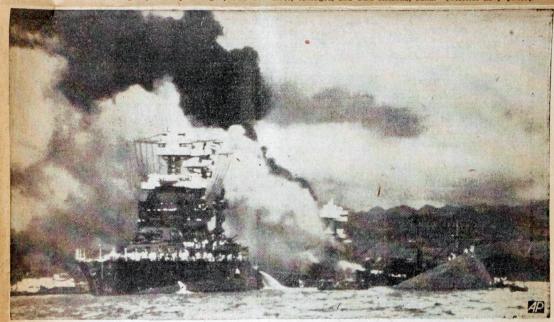

An explosion sends flames and smoke high into the air in this dramatic official U. S. navy photo of the wreckage strewn navy air station at Pearl Harbor after one of the Japanese sneak attacks on Dec. 7, 1941.

Despite the danger of explosions, U. S. sailors man a hose from boats at the side of the burning battleship, USS West Virginia, and fight flames started by Japanese torpedoes and bombs during the attack on Pearl Harbor, Dec. 7, 1941. Note the Stars and Stripes against the smoke-blackened background. (U. S. Navy photo)

Testifying to the extent of the Japanese attack on Pearl Harbor Dec. 7, 1941, are these three U. S. battleships hit from the air. Left to right are the USS West Virginia, severely damaged; USS Tennessee, damaged, and USS Arizona, sunk.—(Official navy photo)

A pall of smoke filled the sky over Pearl Harbor after the Japs attacked. In the foreground is the capsized minelayer, USS Ogala and to the left is the USS Helena, 10,000 ton cruiser, hit by an aerial torpedo. Beyond is the superstructure of the USS Pennsylvania, and at the right is the USS Maryland. At right center the destroyer Shaw is ablaze in drydock.—(U. S. navy photo)

The 31,500-ton USS Maryland, battleship moored inboard of the USS Oklahoma, which capsized (right), was damaged slightly in the Jap attack on Pearl Harbor and was one of the first ships to rejoin the fleet.—(U. S. navy photo)
