By Zelma Louise Hayden:

The school children of Council Valley collected and brought to school, more than ten thousand pounds of scrap. This included rubber, iron, brass, tin and steel.

This scrap was collected and loaded on trucks and taken to Stillwater where it was weighed and sorted.

The money obtained from the scrap was spent for Star Stamps, these were given the children in payment for their scrap. This drive has been an inspiration for the entire school is now collecting different materials and putting the money in stamps.
