WE REPORT TO THE NATION

We herewith submit a bird's-eye view report of our
SCHOOLS AT WAR Program. It includes factual and pictorial
accounts of our War Savings Program and other outstanding
war activities. It is tangible proof of the resourcefulness, skills,
activities and the will to win of every student, teacher and
parent enlisted in our SCHOOLS AT WAR Program.

High School Activities

The high school classes were all encouraged to buy War Stamps and Bonds by weekly calls by the rural postman and a chart was kept showing the participation of the four classes in terms of per cent participating and largest amount invested. Through different periods of effort and until the fiscal date, January 25, 1943 the same two classes were consistently winners in the two fields. The class having largest investment was the Freshman class including twenty one pupils enrolled. The class having the highest per cent of participants was the junior with enrollment of twelve and that per cent was 100. One class sponsor used war stamps as a Christmas remembrance to her pupils.

Pictures of the winning classes are shown below:

The shield for the display of the standings of the classes is shown below.

Grade School Takes Part.

The seventh and eighth grade Bond and Stamp Drive was in the form of a contest between the pupils of the two grades. A party was to be given by the side which lost the contest. The room bought the equivalent of \$250.00 in bonds. The seventh grade won the contest and were entertained by the eighth grade at the home of their teacher.

Seventh Grade

In September after our school had been started only a short time, it had been suggested that we enter into a contest between the three grades for the buying of War Stamps and Bonds. Also they wanted to enter in the scrap drive.

The sixth grade was to compete with the fourth and fifth grades. The winning side was to be given a party by the losers in the last month of school.

The average amount of stamps bought per week is \$4.⁰⁰. Our total is \$12.93 in stamps. We have three bonds, (1) \$25.⁰⁰, (2) \$75.⁰⁰, and (3) \$25.⁰⁰.

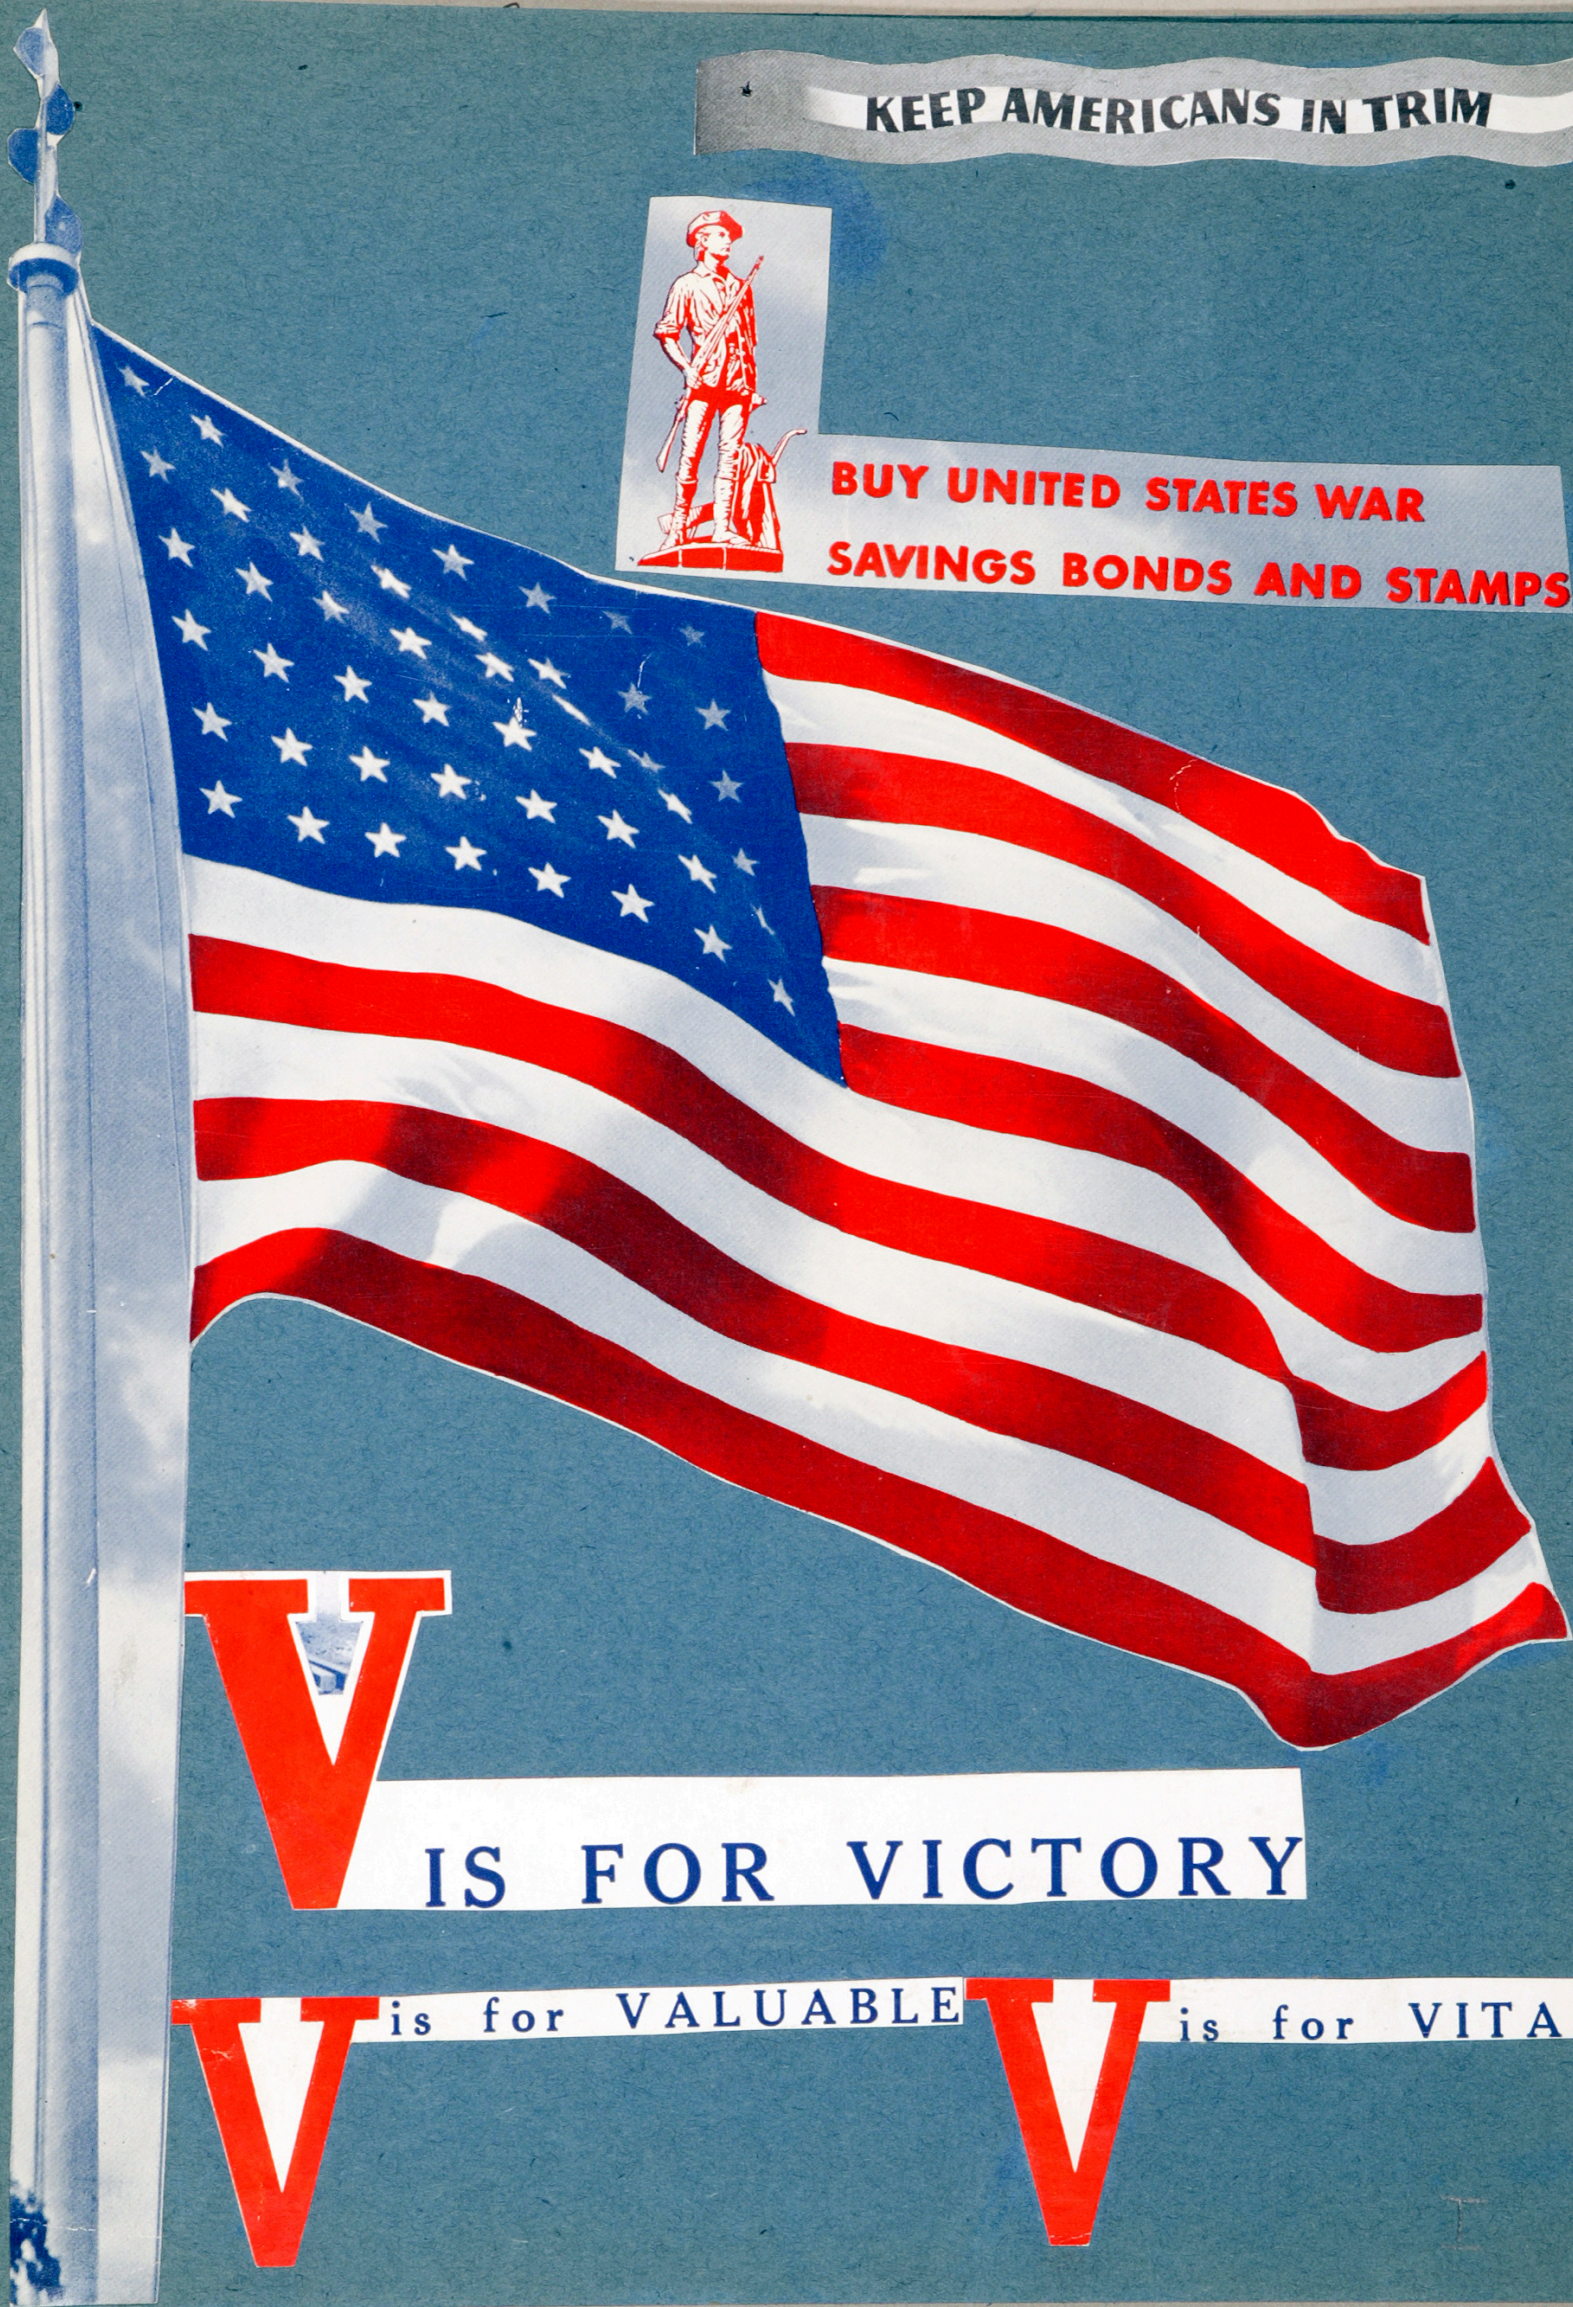

The sixth grade has \$37.85 and the fourth and fifth grades have \$35.08 on January 27, 1943.

Good Record on Bond Sales

WHAT HAS BEEN the total sales of war stamps and bonds through school activities and facilities for 1941-42? Apparently the public schools of the nation were directly responsible for nearly \$81,000,000.

The nation was divided into nine groups for study purpose. The group in which Oklahoma was put, West South Central, composed of Arkansas, Louisiana, Oklahoma and Texas, ranked third in per capita sales for the total population, with 75 cents. Southern Atlantic states were first with 97 cents and the Mountain States with 78 cents.

Conserve

In December 1942 the ninth grade entered a poster contest presenting the meaning of the Schools at War program. Prizes of War Stamps were presented to the three who were judged to have the best posters. The pupils receiving the prizes of two (2) 25¢ stamps for first place; one (1) 25¢ stamp for second place; and (2) two 10¢ stamps for third place were Tom Gates, James Smoot, and Bobbie Stephenson respectively. The posters are included in this scrapbook.

Serve

The three intermediate grades have worked very hard in gathering scrap iron. Each morning every pupil brought a small piece of iron to contribute to our iron pile.

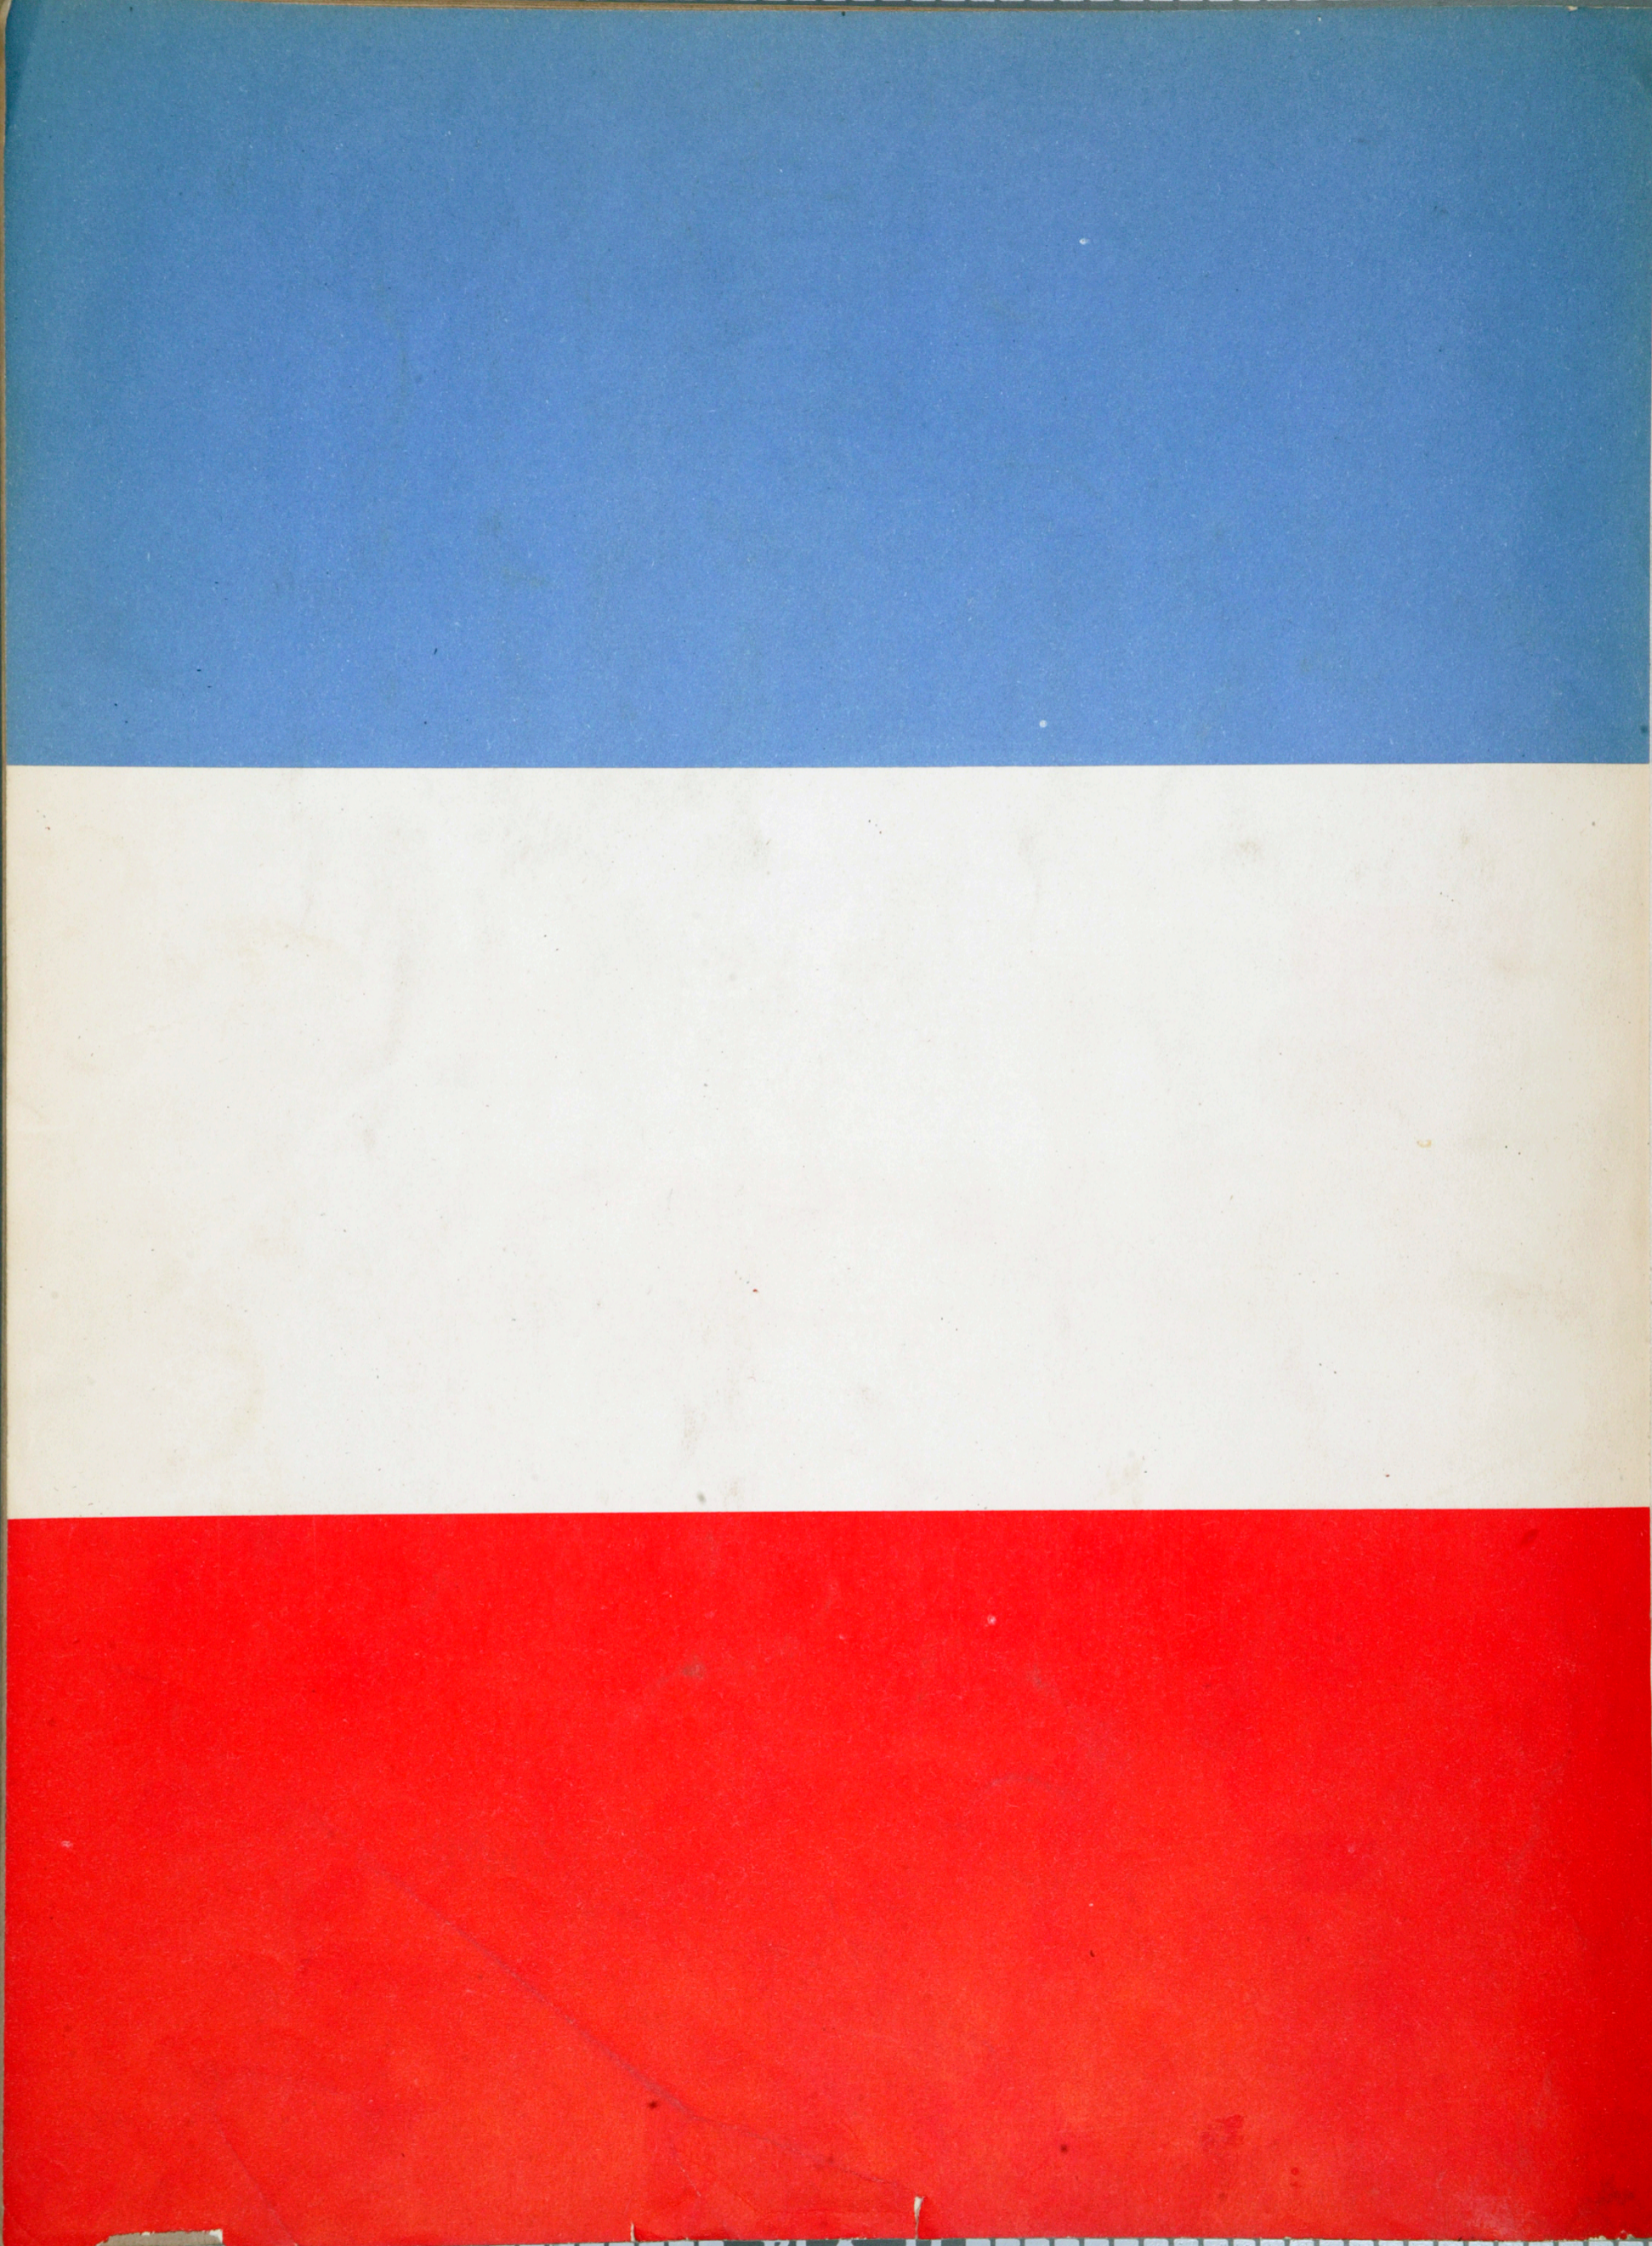

The boys found a junk heap and went out at noons and carried in iron scraps to our collection.

We, also, have a nice stack of cans bent and ready to dispose of when they are called for.

When we get rid of our iron and scrap tin, the proceeds will go into our library for new reading material.
