

JAPS QUIT GUADALCANAL.

Axis Radio Announces Abandonment of Island in Solomons After Bitter, Six Months' Struggle.

THE Japs have had enough of Guadalcanal. The Axis radio Tuesday carried an announcement of Japan's imperial headquarters that Japanese forces have vacated the island in the Solomons group, and in Washington Secretary Knox said all enemy resistance on the key island "has apparently ceased."

Thus Tokyo admitted defeat of its six months' effort to prevent complete American occupation of Guadalcanal. It was Japan's first admission in this war of the abandonment of vital territory. Secretary Knox said at best only a few Japanese survivors re-

JAF WITHDRAWAL FROM GUADALCANAL (AMERICAN FLAG SYMBOL) WILL MAKE POSSIBLE THIS 2-WAY ASSAULT (DOTTED LINES) ON THE IMPORTANT ENEMY BASE AT RABAUL. POSITIONS WON FROM THE JAPA-NESE AT BUNA AND AT GUADALCANAL WOULD BE THE SPRINGBOARDS.

HANDS ACROSS THE PRESIDENT—General Henri Honore Giraud (left), North African high commissioner, and General Charles de Gaulle, leader of the Fighting French, clasp hands at a climactic moment of the Casablanca conference. The face largely obscured by their hands is that of President Roosevelt. The Frenchmen are agreed on their objective to smash the Axis, but the elements of French politics involved find them still uncommitted to complete ac cord.

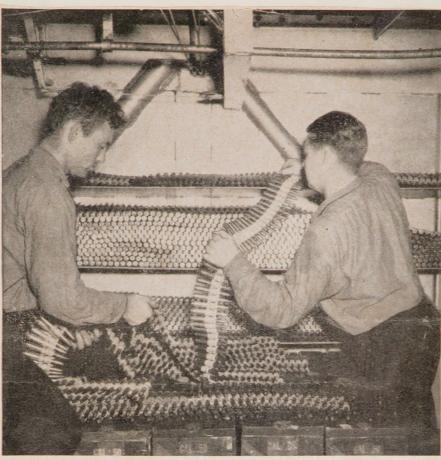

PRESIDENT REVIEWS A TANK UNIT—With Sergt. Oran Lass of Kansas City at the wheel and President Roosevelt seated beside him in an army jeep, an American armored unit undergoes inspection in Northwest Africa. Behind and on either side of the President in the jeep are Maj. Gen. Ernest Harmon (left) and Lieut. Gen. Mark Clark (right). The latter's adventurous mission preceded the Allied occupation of Africa and won him promotion.

J. S. tanks rumble through Jap-infested jungle of Guadalcanal to meet an attack.

'ANNA THE RIVETER'

Everybody knows her as "Anna the Riveter" since she became the champion woman riveter in the Canadian shipyard that is turning out 5,000-ton ships. Her full name is Anna Mae Mackey.

ADMIRAL KEEPS FIT

GH

X SUGN

Helping himself keep in physical trim, Admiral William Halsey, U.S. Navy commander in the South Pacific, takes regular dips in the Pacific Ocean. The admiral is optimistic about the war situation and predicts the Allies will win this year.

....

Ready with aerial camera Lieut. Col. Elliott Roosevelt is about to start on a photographic flight over North Africa for the U.S. Army Air Corps of which he is a member. The President's son recently was awarded the Distinguished Flying Cross for dangerous aerial reconnaissance work.

FLORIDA TO CANADA

A long ways from home is Corp. William Stallworth of Pensacola, Fla., now a bugler at an Army camp far up in Northwest Canada on the Alcan Highway, shortcut route to Alaska and the Aleutians recently opened for travel. Next big construction job will be to build supply bases along the highway where tempertures of 50 and 60 degrees below zero are common.

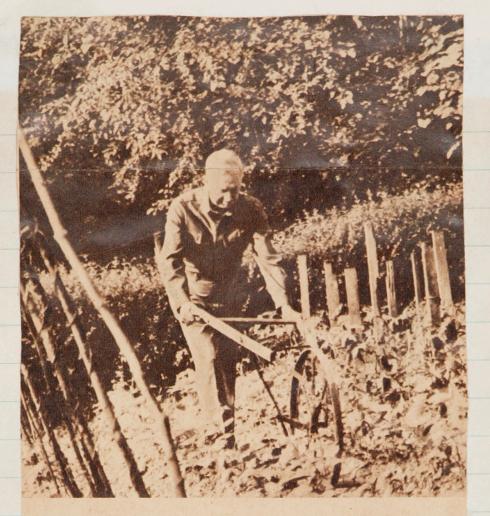

AMERICAN SOLDIERS with bared heads, and a color guard stand outside a church in Leopoldville, Belgian Congo. They have gathered to attend the funeral of the first American nurse to die in service on the African continent, Lieutenant Gertrude Edwin.

Captured Jap Submarine Shown in U.S.A.

Mounted on a truck-trailer this two-man submarine captured from the Japs during the attack on Pearl Harbor has been brought to the United States and is now being exhibited in various cities to help boost sales of war bonds.

Home gardening offered a form of release for the General while organizing the military camp at Indiantown Gap, now one of the nation's foremost cantonments.

Let Old Boreas Do His Worst

Navy men must have appropriated some ideas from American farm buildings in the huts put up for U.S. Navy air patrol squadrons in the Aleutian Islands. They are all the more cozy for having snow drifts cover them completely, thus making them warmer inside.

Horse Pools Next

It's back to horse-and-buggy days for workers of the Oklahoma Ordnance Works, says Transportation Supt. F. O. Hayes, and he isn't joking.

That horses will provide a major means of intra-plant transportation for this and other Ordnance plants is an absolute prediction by Superintendent Hayes. He will begin as soon as possible to make his own trips into the field by horse and buggy. Other plant executives, it is expected, will follow his example soon.

Movable Home of Tomorrow

Among homes of the future will be one made of plastics in sections so as to be movable. You move it in a van along with the furniture and set it up ready for occupancy in eight hours. No basement is needed because heating units are built into walls as are many other features. The one shown above is known as the "T-Formation" home.

Soviet government in 1937 flew four Russian scientists to the North Pole to study weather conditions. Their ice-floe home, on which they stayed for eight months, drifted to the Atlantic off the east coast of Greenland, began to break up. So the ice-breaker Taimyr was sent out. The Taimyr's planes (above) picked them up.
