Oklahoma Research Day Files

Inclusive dates: 1991-2018
Bulk dates: 1999-2016
Volume: 4.67 linear feet (10 boxes)

Provenance

These materials were given to the UCO Archives & Special Collections in 2018 by Dr. Greg Wilson, the Assistant Vice President over the Office of Research & Sponsored Programs at the University of Central Oklahoma. Dr. Wilson and Dr. John Barthell, UCO's Provost, have been involved with Oklahoma Research Day since its inception. As the 20th anniversary of the conference approached, Dr. Wilson and Dr. Barthell recognized the importance of collecting and preserving materials that documented the history of Oklahoma Research Day. This collection consists of the materials related to Oklahoma Research Day that Dr. Wilson and Dr. Barthell were able to gather from their files in 2018.

Biographical/Background Content Note

Oklahoma Research Day is an annual conference that celebrates the scholarly and creative achievements of students and faculty members from Oklahoma's institutions of higher education. According to its mission statement, "Oklahoma Research Day promotes cross-campus and cross-disciplinary research among all institutions of higher learning in the State of Oklahoma. The event seeks to encourage networking among researchers and interchange of ideas among those studying and researching in their respective academic disciplines" (oklahomaresearchday.com).

The conference consists of two components: a poster session during which participating scholars discuss their projects, and a banquet featuring a keynote speaker. Since Oklahoma Research Day's inception, the number of participants and the profile of the event have both increased dramatically. Thousands of students from every institution of higher education in Oklahoma have participated. The event has also featured the involvement and

collaboration of former Nobel Laureates, representatives from the National Science Foundation, and organizations and educational institutions from other states and countries.

The Council on Research for Regional Universities, backed by the Oklahoma State Regents for Higher Education, coordinated the first annual Oklahoma Research Day (then Research Day for Regional Universities) in 1999. The conference was an outgrowth of the University of Central Oklahoma's annual Research Colloquium, an event that highlighted the scholarly achievements of the University's faculty and students.

The University of Central Oklahoma hosted Oklahoma Research Day every year from 1999 until 2008. Since then, the host site has rotated between Oklahoma's regional universities. The host institution is responsible for planning and coordinating the event. Oklahoma Research Day is supported and funded by Oklahoma's regional universities in concert with various statewide organizations.

Scope and Content

This collection documents the history of the Oklahoma Research Day conference. The materials include publications regarding research at UCO, Oklahoma Research Day publications, files related to the planning and coordination of the 2007 and 2013 Oklahoma Research Day conferences, and Oklahoma Research Day memorabilia.

Organization and Arrangement

The collection is organized into 4 series, the first of which contains 3 subseries. The series are: I. Related Research Publications, 1991-2018 (Subseries 1: General, 1991-2018; Subseries 2: OK-LSAMP STEM, 1999-2016; Subseries 3: Grant Reports & Opportunities, 2010-2017); II. Oklahoma Research Day Publications, 1999-2016; III: Oklahoma Research Day Planning Files, 2005-2014; IV: Oklahoma Research Day Memorabilia, 2007-2011.

Series Descriptions

I. Related Research Publications, 1991-2018.

57 folders

This series contains publications that document the University of Central Oklahoma's development as a research institution. The materials provide context for the establishment and growth of Oklahoma Research Day. The series is organized into three subseries:

Subseries 1: General, 1991-2018

31 folders

This subseries contains various publications that document the research endeavors and scholarly achievements of UCO's faculty and students. The materials include abstract books, copies of "The Central Researcher" newsletter, the Jackson College of Graduate Studies and Research's 50th anniversary publication, studies conducted by teachers in the M.Ed. in Secondary Education Capstone Experience, copies of the UCO McNair Scholars Program Research Journal, summaries of projects funded by the UCO Community Partnership Matching Grant Program, and other miscellaneous UCO publications. The subseries also contains a summary of the results of the first five years of the Oklahoma A+ schools initiative, programs from the Oklahoma State Regents for Higher Education's Promoting Undergraduate Research Conference, and publications regarding the 2018 National Conference on Undergraduate Research, which UCO hosted. The series also includes the Summer 2012 issue of *CUR Quarterly*. The issue contains a study examining the history and impact of Oklahoma Research Day. The materials are arranged in chronological order.

Subseries 2: OK-LSAMP STEM, 1999-2016

12 folders

This subseries contains publications that relate to the Oklahoma Louis Stokes Alliance for Minority Participation in Science, Technology, Engineering, and Mathematics (OK-LSAMP STEM) Scholarship Program. The program, in which UCO is a participating institution, is sponsored by the National Science Foundation. The materials in the subseries include a summary of Phase I of UCO's LSAMP STEM program, LSAMP STEM periodicals published by the National Science Foundation, Performance Effectiveness Review reports, newsletters, scholar profiles, programs from the OK-LSAMP STEM Annual Research Symposium, and other miscellaneous publications. The materials are arranged in chronological

order according to the earliest date in each folder or group of materials. For example, the National Science Foundation LSAMP STEM Publications (1 folder, dated 2005-2011) are filed before the OK-LSAMP STEM Performance Effectiveness Review Reports (5 folders, dated from 2006-2016). The reports are followed by the Newsletters, Scholar Profiles, and Years of Impact Publications (1 folder, dated 2007-2016).

Subseries 3: Grant Reports & Opportunities, 2010-2017

14 folders

This subseries contains publications from UCO's Office of Research and Sponsored Programs that discuss grant opportunities and the use of grant funds at UCO from 2010-2017. The materials include annual reports that document the number of grants and the amount of grant funds awarded to members of the UCO community. The subseries also contains the office's annual "Opportunities" publications that describe available grants and list previous grant recipients. The annual reports are filed first and are arranged in chronological order. They are followed by the "Opportunities" publications, which are also arranged in chronological order.

II. Oklahoma Research Day Publications, 1999-2016.

15 folders

This series consists of publications distributed to Oklahoma Research Day participants between 1999 and 2016. The materials include lists of participants, program and abstract guidebooks, campus maps, event programs, digital abstract books and participant directories, participation certificates, and other miscellaneous materials. The guidebooks compose the bulk of the materials in the series. The materials are arranged in chronological order.

III. Oklahoma Research Day Planning Files, 2005-2014.

54 folders

This series includes materials related to the planning and coordination of the Oklahoma Research Day conferences hosted by the University of Central Oklahoma in 2007 and 2013. The series contains a considerable number of financial records, including budgets, bid requests, quotes from vendors and contractors, invoices, funding requests, requisitions, purchase orders, receipts, and pay authorizations. The files also include room reservations, work orders, floor diagrams, event schedules, volunteer schedules, arrangements for keynote speakers, lists of participants and guests, and the event planners' e-mail correspondence. Other materials in the series include abstract evaluation procedures, event evaluation reports, banquet preparations, digital photographs, digital abstract books, parking maps, invitations, programs, certificate templates, guidebooks, logo designs, and documents regarding the functionality of the event website.

The files for the 2007 event are labeled "Oklahoma Research Day Planning Files, 2007." There are two separate sets of files for the 2013 event. They are labeled "Oklahoma Research Day Planning File I, 2013" and "Oklahoma Research Day Planning File II, 2013." Each individual file is also labeled with a more specific subtitle. The subtitles were taken from the original file labels. All of the unlabeled files were assigned subtitles during processing.

There are two arrangement patterns in this series. Overall, the materials are arranged in chronological order as the 2007 files precede both sets of files from 2013. Each set of files is further arranged alphabetically (A-Z) by subtitle. The files that were assigned subtitles during processing deviate from the alphabetical arrangement pattern in some cases.

IV. Oklahoma Research Day Memorabilia, 2007-2011.

6 items

This series consists of promotional items distributed at Oklahoma Research Day conferences. The materials include souvenir notebook covers (2009-2011), nametag lanyards, and a pen with "UCO Jackson College of Graduate Studies and Research" printed on it. The materials are stored in a flat, oversize box. The notebook covers are arranged in chronological order.

Preferred citation

Subseries title, Series title: Oklahoma Research Day Files. University of Central Oklahoma Archives & Special Collections.
