The Journal of the Senate for the meeting of April 26 was approved as published and distributed to the members of the faculty.

It was suggested that something should be done to get the salary and class load for the members of the summer school faculty in line with the salary and class load during the regular 9-months session. The matter was referred to the committee on Faculty Personnel.

There was considerable discussion the question of whether there should, or should not be, a pre-enrollment, or a pre-advising period sometime shortly after the 8-weeks grades are out. The matter was referred to the committee on "Curriculum and University Standards."

The following resolution was approved: "Resolved that the Senate recommend to the President of the University that any restrictions due to race in the participation of athletics at the University of Oklahoma be removed."

A report from the Committee on Committees on nominations for the Senate Committees for the coming year was approved. A copy of this report is attached to this issue of the Journal of the Senate.

A report from a special committee appointed by President Cross to plan our University calendar for the next five years was approved as attached.

Respectfully submitted,  
E. E. Hatfield, Secretary,  
University Senate.

## NOMINATING COMMITTEE REPORT

The Senate Nominating Committee met on May 11, all members being present, and prepared the report appended below. The names appearing above the line in each committee are those of hold-over members; those below the line, of the committee's nominees. Three places have not been filled because of vacancies created by the resignation of R. J. Dangerfield and Arnold E. Joyal, and a leave of absence granted Dr. Fritz Frauchiger, all three representing the general faculty.

THE UNIVERSITY OF OKLAHOMA

Norman, Oklahoma

May 17, 1948

To the University Senate:

The special committee, appointed to plan a university calendar for a five-year period, herewith submits calendars for the academic years, 1948-49, 1949-50, 1950-51, 1951-52, and 1952-53.

The committee recommends:

1. That a date fixed in accordance with the 80% attendance rule be listed on the University Calendar as the latest possible date for enrollment during the semester. (This does not apply to adjustments in the course of students already enrolled).
2. That home-coming be a holiday. The specific Saturday in 1951 and in 1952 is not named because the football schedules for these years are not available.
3. That a Thanksgiving recess of three class days; and Easter recess of four class days; and a semester examination period of seven days be scheduled.
4. That a study be made to determine whether we should, or should not, have a pre-advisement period.
5. That approximately the middle of April be designated as the "Final date for filing application for degree and paying diploma fee."

Respectfully submitted,

L. N. Morgan  
J. E. Fellows  
A. E. Joyal
