LETTER
FROM
THE SECRETARY OF THE TREASURY,
TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year
ending June 30, 1881.*

TREASURY DEPARTMENT,
December 1, 1879.

SIR: In conformity to the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1881, as furnished by the several Executive Departments; also, statements of the "proceeds of sales of Government property," and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1879.

I have the honor to be,

Very respectfully, your obedient servant,

JOHN SHERMAN,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

OFFICE OF THE FIRST COMPTROLLER.								
<i>Salaries, Office of First Comptroller—</i>								
Comptroller	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	44 396 184 23	268 2 1 1	\$5,000 00			
Deputy Comptroller	Same acts					2,700 00		
Four chiefs of divisions, at \$2,100 each	do					8,400 00		
Five clerks of class four	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	27 396 184 23, 26	167 2 1 1, 2	9,000 00			
Ten clerks of class three	Same acts					16,000 00		
Six clerks of class two	do					8,400 00		
Four clerks of class one	do				4,800 00			
Two clerks, at \$1,000 each	June 19, 1878 June 21, 1879	20 21	184 23	1 1	2,000 00			
Six clerks, at \$900 each	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	27 396 184 23, 30	167 2 1 1, 4		5,400 00		
One assistant messenger	Same acts				720 00			
Three laborers, at \$660 each	do				1,980 00			
						\$64,400 00	\$64,400 00	
NOTE.—The work of this office is steadily increasing, and can no longer be properly performed without an increase of clerical force. Being a revising office, the examining-clerks should not be of the lower grades of salaries. It is earnestly requested that application be made for authority to add two clerks of the fourth class and two of the second class to the regular force of the office. This will be an economical measure, as a more thorough examination of public accounts can be made with a sufficient force than is now possible.—(First Comptroller.)								
OFFICE OF THE SECOND COMPTROLLER.								
<i>Salaries, Office of Second Comptroller—</i>								
Comptroller	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	44 396 184 23	268 2 1 1	5,000 00			
Deputy Comptroller	Same acts					2,700 00		
Five chiefs of divisions, at \$2,100 each	do					10,500 00		
Five clerks of class four	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	27 396 185 23	167 2 1 1	9,000 00			
Twelve clerks of class three	Same acts					19,200 00		
Thirteen clerks of class two	do					18,200 00		
Eight clerks of class one	do				9,600 00			
Three clerks, at \$1,000 each	June 19, 1878 June 21, 1879	20 21	185 23	1 1	3,000 00			
Nine clerks, at \$900 each	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	27 396 185 23, 30	167 2 1 1, 4		8,100 00		
One assistant messenger	Same acts				720 00			
Three laborers, at \$660 each	do				1,980 00			
						88,000 00	88,000 00	
NOTE.—In the estimates of appropriations for the clerical service of this office for the fiscal year ending June 30, 1879, an increase in the higher grades of the force was asked for. Congress did not provide for additional clerks of the higher grades, but gave an increase of three clerks, having a salary of \$1,000 each. This addition does not meet the necessities of the work. This office is charged, in addition to the current work, with the revision of a large number of claims, many of which are of long standing and involve difficult questions of law and fact, and the business of the office requires the services of clerks of the higher grades. I therefore recommend a change as follows, to wit, six chiefs of divisions, six clerks of class four, fourteen clerks of class three, and four at \$900 each, and that the other grades remain as above set forth.—(Second Comptroller.)								
OFFICE OF THE COMMISSIONER OF CUSTOMS.								
<i>Salaries, Office of Commissioner of Customs—</i>								
Commissioner	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	53 397 185 23	316 2 1 1	4,000 00			
Deputy Commissioner	Same acts					2,250 00		
Two chiefs of divisions, at \$2,100 each	do					4,200 00		
Two clerks of class four	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	27 397 185 23	167 2 1 1	3,600 00			
Four clerks of class three	Same acts					6,400 00		
Ten clerks of class two	do					14,000 00		
Nine clerks of class one	do				10,800 00

NOTE.—By the First Auditor.—Appropriations are requested for the following employes, under the above title:							
Two clerks of class one, at \$1,200 each.....					\$2,400		
Three copyists, at \$900 each.....					2,700		
Three counters, at \$900 each.....					2,700		
This appropriation is as asked for in order to dispense with the necessity of having transfers of employes from other offices, and to bring all the working-force of this office upon its own rolls. The service will be benefited by this, for a transferred clerk is ever liable to be returned to the office where he is enrolled, and this often happens when he has become acquainted with the duties of his desk, and has thus become of great value. In further explanation, I would state, that all redeemed bonds, all cancelled coupons, all cancelled gold, silver, and currency certificates of the United States, and all redeemed bonds and cancelled coupons of the District of Columbia, pass through this office; and yet no "counter" has ever been on the office-rolls.							
I also request that a messenger be allowed this office, at \$840..... \$840							
In place of one laborer, at \$660..... 660							
						180	
Increase.....						7,980	
OFFICE OF THE SECOND AUDITOR.							
<i>Salaries, Office of Second Auditor—</i>							
Auditor.....	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	46 397 185 23	276 2 1 1	3,600 00		
	Deputy Auditor.....						
Five chiefs of divisions, at \$2,000 each.....	Same acts.....				2,250 00		
	do.....				10,000 00		
Six clerks of class four.....	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	27 397 185 23	167 2 1 1	10,800 00		
	Same acts.....						
Twenty-five clerks of class three.....	do.....				40,000 00		
Fifty-five clerks of class two.....	do.....				77,000 00		
Thirty-five clerks of class one.....	do.....				42,000 00		
Eight clerks, at \$1,000 each.....	June 19, 1878 June 21, 1879	20 21	185 23	1 1	8,000 00		
		R. S.	27	167			
Two assistant messengers, at \$720 each.....	Mar. 3, 1875 June 19, 1878 June 21, 1879	18 20 21	397 185 23, 30	2 1 1, 4	1,440 00		
	Same acts.....						
Eight laborers, at \$660 each.....	Same acts.....				5,280 00		
						200,370 00	200,370 00
NOTE.—The Second Auditor asks for \$200 additional for one clerk of class four as disbursing agent..... \$200							
And four additional laborers, at \$660 each..... 2,640							
He states that the present force of eight laborers is utterly inadequate—in addition to the work required of it during office-hours—to keep in even proper sanitary condition the eighty rooms in the three separate buildings occupied by the office.

<i>Salaries, Office of Sixth Auditor—Continued.</i>										
Eight chiefs of divisions, at \$2,000 each	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	46 397 185 23	276 2 1 1	\$16,000 00					
Seven clerks of class four	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	27 397 185 23	167 2 1 1				12,600 00		
Additional to one clerk of class four as disbursing clerk ..	Same acts									
Fifty-two clerks of class three	do				83,200 00					
Sixty-nine clerks of class two	do				96,600 00					
Forty-five clerks of class one	do				54,000 00					
Twenty-five clerks, at \$1,000 each, (twenty now designated as assorters)	Mar. 3, 1875 June 19, 1878 June 21, 1879	R. S. 18 20 21	27 397 185 23, 30	167-9 2 1 1, 4	25,000 00					
One assistant messenger	Same acts							720 00		
One skilled laborer	do							1,000 00		
Nineteen laborers, at \$660 each	do				12,540 00					
Fifteen female assorters of money-orders, at \$900 each	do				13,500 00					
Ten charwomen, at \$180 each	do				1,800 00					\$323,010 00
NOTE.—The Sixth Auditor submits an increase of force of—										
Eight additional clerks of class four					\$14,400					
Eight additional clerks of class three					12,800					
Four additional female assorters, at \$900 each					3,600					
For the following reasons: "The additional force of clerks and assorters, for which an estimate is submitted, is absolutely necessary for the prompt and accurate settlement of the accounts of the Post-Office Department. The very large and unprecedented increase in the number of post offices and post-routes during the past five years, and the additional work thrown upon the office in consequence of the changes in the law regulating the manner of adjusting the compensation of postmasters, and of paying sub-contractors, taken in connection with the steady growth of the money-order business, make the additional force a necessity. Attention is respectfully called to the annual report of this office for the fiscal year ended June 30, 1879, in which the reasons for submitting the estimate for additional force are given in detail."										
OFFICE OF THE TREASURER.

Watchman.....	do.....				720 00		
						15,760 00	15,760 00
<p>NOTE.—The assistant treasurer at Chicago recommends an increase of force, as follows:</p> <p>Additional for assistant treasurer..... \$500 Additional for paying-teller..... 200 Additional for one clerk, (now \$1,200)..... 300 One assistant book-keeper..... 1,200 One additional watchman..... 720</p> <p style="text-align: right;">Increase..... 2,920</p> <p>The following explanation is given in a letter of the assistant treasurer: "While I regard each item as clearly and perfectly defensible upon business principles, I desire to say that the increase asked for the senior clerk is, in my judgment, the most deserving of consideration. He is in effect receiving-teller, and, as such, runs the double risk of loss by counterfeits and by error in count. This letter is prompted solely by a sense of justice to a public servant, whose pay, it seems to me, is out of all proportion to his expertness and risks." He further states that he has estimated his own salary at \$5,000, simply to follow the Revised Statutes of the United States.</p>

							2,000 00
<i>NOTE.—The secretary of the Territory states that the estimate for mileage for members of the legislative assembly is much larger than ever before, owing to the large settlement in the Black Hills and in other distant portions of the Territory, which were given representation by the last legislative assembly. In regard to the item of \$540 for new desks for members of the legislative assembly, the secretary of the Territory states that heretofore tables have been used, and the only ones now on hand are those purchased over seventeen years ago, at the organization of the Territory, and that they have been repaired from time to time until they have almost lost their identity, and new desks or tables are very much needed. That, in case the appropriation for this item is made, not over \$75 of the item for "repairs and purchase of furniture" will be required.</i>

Fuel and lights	{	R. S.	341	1940	150 00		
Furniture, repairs, telegraphing, &c.	{ June 19, 1878 20 194 1 June 21, 1879 21 23 1				300 00		
						\$19,710 00	\$2,000 00
NOTE.—In regard to the item of \$3,000, submitted for additional printing, the secretary of the Territory of Montana reports as follows: "By the act of June 19, 1878, the amount that may be expended in any one year for printing is limited to \$3,500. That amount is inadequate during a session year, as the journals of the Montana legislature are kept. In addition, the eleventh regular session passed a law authorizing the codification of all the general and permanent laws of Montana. It will probably make a volume of one thousand pages, and will be turned over to the secretary to print under the appropriation I am now estimating for. I have therefore estimated for \$3,000 additional printing-fund. The entire amount will be barely adequate to publish the one thousand copies required."							
<i>Contingent Expenses, Territory of Montana—</i>							
Contingent expenses of the Territory, to be expended by the governor	{ June 19, 1878 20 194 1 June 21, 1879 21 23 1	R. S.	340	1935	500 00		500 00
NEW MEXICO.

Two chief clerks of divisions, at \$2,250 each, (increase submitted).....	June 19, 1878	20	195	1	4,500 00		
	June 21, 1879	21	23	1			
<p>NOTE.—The chiefs of divisions in the office of the Secretary of War have similar duties and responsibilities as the chiefs of divisions in the other Executive Departments and should have equal pay. They were paid at the rate of \$2,000 per annum until by the appropriation act of August 15, 1876, their pay was reduced to \$1,800. In the office of the Secretary of the Treasury this grade is paid at the rate of from two thousand five hundred dollars (\$2,500) to two thousand seven hundred and fifty dollars (\$2,750) per annum, with an assistant at from two thousand dollars (\$2,000) to two thousand four hundred dollars, (\$2,400,) and in the bureaus of the Treasury Department the chiefs of divisions are paid from two thousand (\$2,000) to two thousand five hundred dollars, (\$2,500.) In the State Department chiefs of divisions receive two thousand one hundred dollars per annum, (\$2,100;) in the Interior Department, from two thousand dollars (\$2,000) to two thousand five hundred dollars, (\$2,500;) in the Post-Office Department, from two thousand dollars (\$2,000) to two thousand two hundred and fifty dollars, (\$2,250.) In justice to these two clerks they should be placed on an equal footing with the same grade in the other Executive Departments.</p>

		Vol. or R. S.	Page.	Sec.			
<i>Contingent Expenses, Office of Adjutant-General—</i>							
Stationery, printing, &c., and for office-furniture and repairs.....	Appropriated. Appropriated.	20 21	195 23	1 1	}-----	\$12,000 00	\$8,000 00
<p>NOTE.—The estimate of last year was for \$9,000. In the extra session of Congress last spring the amount was reduced to \$8,000 for the current year. The contract for stationery was remarkably low last year, and this enabled the Adjutant-General to bear the increased expense consequent upon a move from the old War-Department building, (entirely independent of the special appropriation for furnishing the new building.) In the rearrangement of the records in the old Navy-Department building, and in condensing the records in the buildings occupied outside so as to vacate as many of these as possible, to save rents, new shelving and cases are required. In those outside offices, also, the desks and chairs, in many cases, absolutely require renewing. They are not fit for any office. Added to this is the increase in the stationery contract, which this year is in accord with market rates.</p>							
OFFICE OF THE INSPECTOR-GENERAL.							
<i>Salaries, Office of Inspector-General—</i>							
One clerk of class four.....	{ June 20, 1874 June 19, 1878 June 21, 1879	R. S. 18 20 21	27 100 195 23	167 1 1 1	} \$1,800 00		
One assistant messenger.....	{ June 19, 1878 June 21, 1879	R. S. 20 21	27 195 23, 30	167 1 1, 4	} 720 00		
						2,520 00	2,520 00
BUREAU OF MILITARY JUSTICE.							
<i>Salaries, Bureau of Military Justice—</i>							
Chief clerk, (increase submitted).....	{ June 20, 1874 June 19, 1878 June 21, 1879	R. S. 18 20 21	35 101 195 23	215 1 1 1	} 2,000 00		
One clerk of class three.....	{ June 20, 1874 June 19, 1878 June 21, 1879	R. S. 18 20 21	27 101 195 23, 30	167 1 1 1, 4	} 1,600 00

One assistant messenger.....	do.....				720 00		
						5,520 00	5,320 00
<i>Contingent Expenses, Bureau of Military Justice—</i>							
Office-furniture, stationery, law-books, &c.....	{ Appropriated. Appropriated.	20 21	195 23	1 1	}-----	500 00	250 00
<p>NOTE.—By some mistake, only \$1,800 was last year appropriated for the pay of the chief clerk. The existing law (sec. 215, R. S.) fixes his compensation at the same sum as that of other chief clerks of bureaus of the War Department, \$2,000. This amount was last year appropriated for all the other chief clerks, and it would be both at variance with the statute and an unjust discrimination to continue to appropriate less for the chief clerk of this bureau than for other officials of precisely the same grade and office.</p> <p>The amount appropriated for the contingent expenses of the bureau during the past year, \$250, is very much too small for its wants. Heretofore the appropriation has been \$500, and this sum is little enough to supply the necessary furniture, books, stationery, repairs, &c. It is urged that at least this last amount be appropriated for the coming fiscal year as being no more than reasonable, and, indeed, the lowest sum adequate to meet the ordinary and proper expenses of the bureau.</p>

						199,000 00	198,640 00

NOTE.—The number of messengers, assistant messengers, watchmen, and laborers herein estimated for, does not exceed the number of persons now employed as assistant messengers, watchmen, and laborers. The above arrangement only changes the designation of some of these employes, and at a slight addition in the expense, viz., \$360 per annum; and the services have been rendered for several years past agreeably to the proposed designation in this estimate.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

<i>Contingent Expenses, Office of Adjutant-General, (old Navy-Department Building)—</i>							
Fuel, light, heating apparatus, matting, cleaning, labor, and incidental items of care of two floors of the old Navy-Department building occupied by Adjutant-General's office	Appropriated.	21	28	1	2,000 00	2,000 00	
<i>Contingent Expenses, Office of Adjutant-General, (Building on F Street)—</i>							
Repairs, fuel, gas, matting, and oil-cloth for the building on F street, above Seventeenth street, owned by the United States, and occupied as a part of the Adjutant-General's office, and for iron shutters to secure against fire from neighboring buildings	Submitted				800 00		
<p>NOTE.—This building is used for office purposes by the "Colored Troops Division" of the Adjutant-General's office. The appropriations for the building have heretofore been made on estimates for the "Freedmen's Branch," A. G. O., under the act of June 10, 1872, abolishing the Bureau of Refugees, Freedmen, and Abandoned Lands, and transferring its records and duties to the Adjutant-General. The "Freedmen's Branch," under which name the work of the old "bureau" was continued, was, in its turn, abolished January 1, 1879, under the act of December 15, 1877, but the records, (exclusive of those relating to unpaid claims,) to which have been added those of the volunteer colored troops, still remain, and are subject to constant reference. For the protection of these valuable records, iron shutters are necessary as a security against fire from an adjacent row of buildings. The estimated cost is based upon proper inquiry. Fuel, gas, and carpets, (or mattings,) are necessary to the comfort of the clerks employed in the building. The estimate is itemized as follows:</p> <p>Coal, 30 tons, at \$5 \$150 00 Wood, 3 cords, at \$6 18 00 Storing fuel 10 00 Carpets, 148 yards, at \$1 85 273 80 Gas 35 00 Repairs, glazing, &c 20 00 Plumbing 20 00 Ice 25 00 Iron shutters for ten windows 250 00</p> <p>Total 801 80</p>							
<i>Salary of Superintendent, Building corner of Fifteenth Street and Pennsylvania Avenue—</i>

		Vol. or R. S.	Page.	Sec.			
<i>Salaries of Employés, Public Buildings and Grounds under Chief of Engineers—Continued.</i>							
One watchman for Fourteenth-street circle and neighboring reservations.....	Submitted.....				\$720 00		
One bridge-keeper at Chain bridge.....	June 19, 1878.....	R. S.	319	1799	} 660 00	\$41,700 00	\$34,560 00
	June 19, 1878.....	20	197	1			
	June 21, 1879.....	21	23	1			
<p>NOTE.—The necessity of additional watchmen upon the public reservations is rendered more apparent, from year to year, as these spots become greater resorts for the people. As stated by the officer in charge, in former reports, "Each reservation, containing either a piece of statuary, a lodge, a fountain, ornamental vases, and drinking-fountains, requires a watchman, not only to preserve this property from injury, but to make minor repairs of the walks and sodding, to keep the paths and lawns free of papers and shavings, and other rubbish dropped or blown upon the grass and shrubbery, and also to preserve order among and protect those who may chance to visit the squares for their personal pleasure and comfort;" and for such purposes the six additional watchmen herein estimated for are much needed.</p>

Three clerks, at \$2,000 each	June 21, 1879	21	23	1			
One clerk of class one	June 21, 1879	21	28	1			
	do				1,200 00		
						\$9,450 00	\$9,450 00
GENERAL LAND OFFICE.							
<i>Salaries, General Land Office—</i>							
Commissioner of the General Land Office	Mar. 3, 1875	R. S. 18	76 364	446 1	} 4,000 00		
	June 19, 1878	20	199	1			
	June 21, 1879	21	23	1			
Assistant Commissioner	Submitted				3,000 00		
NOTE.—This estimate is submitted in view of the magnitude of the business devolved upon this office, and the complicated character of the duties of the Commissioner under the various laws now constituting the public-land system, and the additional duties imposed upon him by the late act of Congress, approved March 3, 1879, as a member of the commission created by said act to classify the public lands, codify the public-land laws, &c., which, since the date said act took effect, to wit, July 1, 1879, has occupied the greater portion of his time, and will continue to until the labors of said commission are completed. The office should be created with a view of dividing the labors and responsibilities of the office of the Commissioner as it now exists.							
Chief clerk, (increase submitted)	Mar. 3, 1853	R. S. 10	74 211	440 3	} 2,250 00		
	Mar. 3, 1875	18	364	1			
	June 19, 1878	20	199	1			
	June 21, 1879	21	23	1			
NOTE.—The chief clerk is required by law to act as Commissioner in case of vacancy or of the absence or sickness of that officer, and must be fully competent to take charge and control of the bureau at all times. When no deputy is provided for, he should receive the usual salary of a deputy bureau officer. It may be added that the duties of this office are unusually intricate, complex, and arduous, and fully deserve the salary herein estimated.							
Law-clerk, (increase submitted)	Mar. 3, 1875	18	364	1	} 2,250 00		
	June 19, 1878	20	199	1			
	June 21, 1879	21	23	1			
NOTE.—The law-clerk must be thoroughly conversant with land-law and practice, as well as with the usages and practice of the Department, and must be able to grasp and summarize at once the various questions involved in land contests and the construction of the statutes, and to present the same in proper form for the consideration and action of the head of the bureau and the chiefs of divisions. The compensation estimated for is very moderate, considering the nature of the work and the qualifications required. Few attorneys competent to perform the duties could be found willing to do so for the amount named.							
Recorder	Mar. 3, 1875	R. S. 18	76 364	447 1	} 2,000 00		
	June 19, 1878	20	199	1			
	June 21, 1879	21	23	1			
Three principal clerks as chiefs of divisions of public lands, of private land claims, and of surveys, at \$2,000 each	Mar. 3, 1875	R. S. 18	76 364	448, 9 1	} 6,000 00		
	June 19, 1878	20	199	1			
	June 21, 1879	21	23	1			
Seven additional chiefs of divisions, at \$2,000 each	Submitted				14,000 00		
Ten clerks of class four	Mar. 3, 1853	R. S. 10	27 211	167 3	} 18,000 00		
	Mar. 3, 1875	18	364	1			
	June 19, 1878	20	199	1			
	June 21, 1879	21	23, 25	1			
NOTE.—The recorder, in addition to his statutory duties, with the principal clerks and chiefs of divisions, have, respectively, exclusive charge of a particular class of work and of the clerical force employed upon it. They must know the rules of the whole office and the laws governing the whole land system, the relations of the classes being so intermixed as frequently to involve nearly the whole of them in the consideration of a single case. No higher service is performed by the subordinate officers of any Department, not excepting the Treasury, where the salaries range from twenty-seven hundred to thirty-five hundred dollars. Until this aid is given to the bureau no Commissioner can perform with satisfaction or justice to the people or to Congress the responsible labors of the land service. The salaries submitted are far below the measure of desert required in return. The number of chiefs asked for corresponds to the necessary division of work in the office.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.

	June 21, 1879	21	23, 25	1			
	Submitted.....						
Forty clerks of class two.....	Same acts.....				56,000 00		
NOTE.—The number of clerks of classes two and three estimated for is far below the actual requirements of the work of this bureau. The duties devolved upon clerks in these grades cannot be performed by those in the lower grades; and in justice to the settlers on the public domain, who have complied with the requirements of law in making their claims, and are awaiting final adjudication by this office, the number should be increased.							
One hundred clerks of class one.....	do.....				120,000 00		
	Submitted.....						
	July 4, 1836	5	112	10			
Draughtsman, at \$2,000; one assistant draughtsman, at \$1,600; and ten assistant draughtsmen, at \$1,200 each.	April 22, 1854	10	276	1	15,600 00		
	Mar. 3, 1875	18	364	1			
	June 19, 1878	20	199	1			
	June 21, 1879	21	23	1			
	Submitted.....						
NOTE.—The estimates for draughtsmen are based upon the ascertained wants and needs of the office. Heretofore the work has been done by detailed clerks possessing some qualifications therefor, but not always in the best manner, and usually after great and inconvenient delay. There should be ample provision for this work, and it is believed that the estimate made will be within the absolute requirements of the service.							
Ten clerks, at \$1,000 each, (twenty clerks of this class dropped).....	June 19, 1878	20	199	1	10,000 00		
	June 21, 1879	21	23, 25	1

Six packers, at \$720 each.....	June 21, 1879	21	23, 30	1, 4	4,320 00		
	Same acts.....						
Twelve laborers, at \$660 each.....	do.....				7,920 00		
<p><i>Provided, That the Secretary of the Interior, at his discretion, shall be, and he is hereby authorized to use any portion of the said appropriation for piece-work, or by the day, month, or year, at such rate or rates as he may deem just and fair, not exceeding a salary of \$1,200.</i></p> <p>NOTE.—The estimates for service in the lower grades, messengers and laborers included, are less than the needs of the office require, but are submitted as the very lowest possible to secure proper efficiency and dispatch. The lack of help in these positions has up to this time greatly impaired the morale of the bureau in compelling clerks and chiefs of divisions to leave their proper work and occupy their time in performing service really pertaining to messengers and copyists. It is hoped the full number herewith estimated for may be authorized.</p>

PUBLIC LANDS.							
OFFICE OF SURVEYOR-GENERAL OF LOUISIANA.							
<i>Salaries, Office of Surveyor-General of Louisiana—</i>							
Surveyor-general	June 19, 1878	R. S. 20	388 201	2208 1	2,000 00		
	June 21, 1879	21	23	1			
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	18,800 00		
	Appropriated.	21	23	1			
						\$20,800 00	\$5,800 00
NOTE.—The \$18,800 is estimated for compensation of clerk-hire, consisting of three regular clerks and draughtsmen, calling for \$4,800, and fourteen \$1,000 clerks, to bring up the arrears in office-work of many years standing, viz: To prepare duplicate patent plats of confirmed private-land claims, of which there are about 6,000 entitled to patents, and which cannot be patented until such plats are made; also to transcribe field-notes of surveys of about 780 townships, for a long while in arrears, and requiring one month of time to copy the notes of six townships by one clerk. Very limited appropriations for office-work in former years caused so extensive arrears.							
OFFICE OF SURVEYOR-GENERAL OF FLORIDA.							
<i>Salaries, Office of Surveyor-General of Florida—</i>							
Surveyor-general	June 19, 1878	R. S. 20	388 201	2208 1	2,000 00		
	June 21, 1879	21	23	1			
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	4,200 00		
	Appropriated.	21	23	1			
						6,200 00	3,800 00
NOTE.—The \$4,200 for clerk-hire is estimated as necessary to transact the current work and bring up the arrears, consisting of descriptive notes of sixty-three townships to be furnished to the register's office, necessary indexes to swamp-land selections, and field-notes of surveys of public lands and private-land claims, also to complete a "Condensed History" of private-land claims.							
OFFICE OF SURVEYOR-GENERAL OF MINNESOTA.							
<i>Salaries, Office of Surveyor-General of Minnesota—</i>							
Surveyor-general	June 19, 1878	R. S. 20	388 201	2208 1	2,000 00		
	June 21, 1879	21	23	1			

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Surveyor-General of Minnesota—Continued.</i>							
Clerks in his office	} Appropriated. } Appropriated.	R. S.	391	2226	} \$8,500 00	\$10,500 00	\$7,000 00
		20	201	1			
NOTE.—The \$8,500 for clerk-hire is estimated for seven clerks, to enable the surveyor-general to employ them to attend properly to the current office-work, as well as to the bringing up of the work in arrears on account of former limited appropriations for the purpose.							
OFFICE OF SURVEYOR-GENERAL OF DAKOTA.							
<i>Salaries, Office of Surveyor-General of Dakota—</i>							
Surveyor-general	} June 19, 1878 } June 21, 1879	R. S.	388	2208	} 2,000 00		
		20	201	1			
Clerks in his office	} Appropriated. } Appropriated.	R. S.	391	2226	} 6,500 00	8,500 00	6,500 00
		20	201	1			
NOTE.—The \$6,500 is estimated for compensation of five employes in the surveyor-general's office, consisting of a chief clerk, two draughtsmen, and two other clerks, actually necessary to keep pace with the field-work and avoid any arrears in the office-work.							
OFFICE OF SURVEYOR-GENERAL OF COLORADO.							
<i>Salaries, Office of Surveyor-General of Colorado—</i>							
Surveyor-general	} June 19, 1878 } June 21, 1879	R. S.	389	2210	} 3,000 00		
		20	201	1			
Clerks in his office	} Appropriated. } Appropriated.	R. S.	391	2226	} 7,800 00	10,800 00	6,000 00
		20	201	1			
NOTE.—The \$7,800 estimated for clerk-hire, is for the compensation of three clerks and two draughtsmen to attend to the office-work consequent on surveys of public lands and mineral surveys; arrears of office-work for five years are reported by the surveyor-general in the descriptive lists of public surveys, and the necessity for a map of mineral surveys of an extensive range.							
OFFICE OF SURVEYOR-GENERAL OF NEW MEXICO.							
<i>Salaries, Office of Surveyor-General of New Mexico—</i>							
Surveyor-general	} June 19, 1878 } June 21, 1879	R. S.	389	2210	} 3,000 00		
		20	201	1			
Clerks in his office	} Appropriated. } Appropriated.	R. S.	391	2226	} 10,000 00	13,000 00	8,500 00
		20	201	1			
NOTE.—The \$10,000 estimated for compensation of translator and chief clerk, two draughtsmen and four clerks, the clerical force unavoidably requisite for the transaction of the public business connected with the survey of private-land claims in examining Spanish and Mexican titles to lands and adjudicating them; also in attending to the surveys of the public lands.							
OFFICE OF SURVEYOR-GENERAL OF CALIFORNIA.							
<i>Salaries, Office of Surveyor-General of California—</i>							
Surveyor-general	} June 19, 1878 } June 21, 1879	R. S.	389	2210	} 3,000 00		
		20	201	1			
Clerks in his office	} Appropriated. } Appropriated.	R. S.	391	2226	} 30,000 00		
		20	201	1			
Clerks in his office, for completing, translating, copying, and indexing original Spanish archives, and preserving from destruction originals greatly defaced in the office of the surveyor-general of California	Appropriated.	20	393	1	6,000 00	39,000 00	22,750 00
NOTE.—The \$30,000 is estimated for compensation of regular clerks and draughtsmen in the surveyor-general's office, to meet the extensive demands of the public service, and also to bring up greatly accumulated arrears in office-work during fifteen years last past, owing to restricted appropriations in former years. The arrears consist of 50 original maps of swamp-lands claimed by the State; 200 lists of swamp-lands and copies of same; emendation of township-plats in triplicate, caused by final surveys of mineral and private claims; reproduction of old plats worn out by constant use; 270 township-plats for registers and receivers; 1,800 descriptive lists of as many townships surveyed and not yet furnished to the registers and receivers as the law requires, and many other items for the enumeration of which reference is made to the truthful description of the surveyor-general's statement thereof, as an additional explanation, to be found in the Appendix to these estimates, marked "H."							
The archives are reported by surveyor-general to comprise, in addition to the original grants and expedientes, about 300 bound volumes of papers relating to the land-titles and early history of the State. The arrangement of them is very imperfect, the volumes designated as "Provincial State Papers," "Departmental State Papers," "Juzgados," &c., are without index or chronological arrangement. It being more difficult to find the records of cases among these papers than it was when they were in their loose state, the plan is to make translations of some, a digest and index, and to record them in well-bound books.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
OFFICE OF SURVEYOR-GENERAL OF IDAHO.							
<i>Salaries, Office of Surveyor-General of Idaho—</i>							
Surveyor-general.....	June 19, 1878	R. S. 20	389 201	2210 1	\$3,000 00		
	June 21, 1879	21	23	1			
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	4,000 00		
	Appropriated.	21	23	1			
NOTE.—The \$4,000 estimated for clerk-hire covers scarcely the pay of three clerks for the whole fiscal year; the third clerk, at \$700, for a part of the year only.							
OFFICE OF SURVEYOR-GENERAL OF NEVADA.							
<i>Salaries, Office of Surveyor-General of Nevada—</i>							
Surveyor-general.....	June 19, 1878	R. S. 20	389 201	2210 1	3,000 00		
	June 21, 1879	21	23	1			
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	5,000 00		
	Appropriated.	21	23	1			
NOTE.—The \$5,000 is estimated for clerk-hire in the office of surveyor-general of Nevada, to cover the pay of clerks and draughtsmen to attend to the current office-work on agricultural, mineral, and other surveys.							
OFFICE OF SURVEYOR-GENERAL OF OREGON.							
<i>Salaries, Office of Surveyor-General of Oregon—</i>							
Surveyor-general.....	June 19, 1878	R. S. 20	388 201	2209 1	2,500 00		
	June 21, 1879	21	23	1			
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	7,000 00		
	Appropriated.	21	23	1			
NOTE.—The \$7,000 is estimated for clerk-hire to cover the pay of regular clerks for current office-work, and to bring up arrears of work, consisting of the transcribing of field-notes of public surveys, and also to bring up accumulated arrears in office-work since 1862, in the transcribing of the field-notes of survey of donation-claims. The original notes, being in a dilapidated condition, should be preserved from destruction.							
OFFICE OF SURVEYOR-GENERAL OF WASHINGTON.							
<i>Salaries, Office of Surveyor-General of Washington—</i>							
Surveyor-general.....	June 19, 1878	R. S. 20	388 201	2209 1	2,500 00		
	June 21, 1879	21	23	1			
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	7,500 00		
	Appropriated.	21	23	1			
NOTE.—The \$7,500 is submitted for clerk-hire to carry on the current work and bring up the arrears, consisting of the transcribing of field-notes of former surveys of public lands and donation-claims, there being arrears of ten years' standing. As the original field-notes are in a very dilapidated condition, further delay in transcribing them may cause great loss, and embarrass not only the public interests but those of individual owners of lands.							
OFFICE OF SURVEYOR-GENERAL OF NEBRASKA AND IOWA.							
<i>Salaries, Office of Surveyor-General of Nebraska and Iowa—</i>							
Surveyor-general.....	June 19, 1878	R. S. 20	388 201	2208 1	2,000 00		
	June 21, 1879	21	23	1			
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	6,300 00		
	Appropriated.	21	23	1			
NOTE.—The \$6,300 is estimated for clerk-hire required for the transaction of the ordinary public business of the office, and which sum is allowed by the organic law.							
OFFICE OF SURVEYOR-GENERAL OF MONTANA.							
<i>Salaries, Office of Surveyor-General of Montana—</i>							
Surveyor-general.....	June 19, 1878	R. S. 20	389 201	2210 1	3,000 00		
	June 21, 1879	21	23	1			

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Surveyor-General of Montana—Continued.</i>							
Clerks in his office	Appropriated. 20 Appropriated. 21	R. S. 20 21	391 201 23	2226 1 1	\$6,000 00	\$9,000 00	\$5,750 00
<p>NOTE.—The \$6,000 estimated for clerks in the surveyor-general's office is considered as absolutely necessary for the transaction of the current office-work on agricultural surveys, which are on the increase, and to bring up arrears of office-work in the extensive platting and mapping of the mineral claims and emendation of plats.</p>							
OFFICE OF SURVEYOR-GENERAL OF UTAH.							
<i>Salaries, Office of Surveyor-General of Utah—</i>							
Surveyor-general	June 19, 1878 June 21, 1879	R. S. 20 21	389 201 23	2210 1 1	3,000 00	8,000 00	5,750 00
Clerks in his office	Appropriated. 20 Appropriated. 21	R. S. 20 21	391 201 23	2226 1 1	5,000 00		
<p>NOTE.—The \$5,000 is estimated for the compensation of clerks in the surveyor-general's office, indispensably needed to attend to extensive surveys of public lands and mineral-claims, and preparation of maps and field-notes of the twenty-nine mining districts, the latter work being in arrears and should be brought up to date.</p>							
OFFICE OF SURVEYOR-GENERAL OF WYOMING.							
<i>Salaries, Office of Surveyor-General of Wyoming—</i>							
Surveyor-general	June 19, 1878 June 21, 1879	R. S. 20 21	389 201 23	2210 1 1	3,000 00	7,000 00	6,250 00
Clerks in his office	Appropriated. 20 Appropriated. 21	R. S. 20 21	391 201 23	2226 1 1	4,000 00		
<p>NOTE.—The \$4,000 is estimated for compensation of clerks to attend to the official business of the office.</p>							
OFFICE OF SURVEYOR-GENERAL OF ARIZONA.							
<i>Salaries, Office of Surveyor-General of Arizona—</i>							
Surveyor-general	June 19, 1878 June 21, 1879	R. S. 20 21	389 201 23	2210 1 1	3,000 00	8,500 00	5,750 00
Clerks in his office	Appropriated. 20 Appropriated. 21	R. S. 20 21	391 201 23	2226 1 1	5,500 00		
<p>NOTE.—The \$5,500 for clerk-hire in the surveyor-general's office is estimated as the least sum to include the pay of one clerk at \$2,500 per annum, who is versed in the English and Spanish languages, to assist in examining and reporting upon titles to private-land claims, which duties were devolved upon the surveyor-general by the proviso to the appropriation act of July 15, 1870, (Statutes, vol. 16, page 304.) The cost of living in Arizona is also reported as higher than in any other surveying district.</p> <p>See letter of the Commissioner of the General Land Office in reference to the foregoing estimates for compensation of surveyors-general and their clerks, in Appendix, marked "D."</p>

Two clerks of class one, additional	do				2,400 00		
One clerk, additional	do				1,000 00		
Total					\$43,070 00		
NOTE.—This increase is submitted for the following reasons, viz: The official journal and order-books of the Department are at present in charge of clerks in the contract office who devote to them only such time as can be spared from other duties. The result is delay in entering up the orders, letters, &c., upon the books, and the lack of a proper index. To properly do this work, there should be for the ensuing year at least two clerks who can give it their entire time. The other three clerks are much needed to classify and arrange the files of the Department. Heretofore there has been no general system of arrangement; each bureau of the Department keeping its own files so long as they were necessary for reference, and afterwards storing them in the attic or basement wherever room could be found. The result has been much delay and confusion in the examination of records and the actual loss of important documents. It is now proposed to classify and arrange the files and place them in charge of a competent person, so that any document desired can be produced without delay.

Two clerks, at \$1,000 each, additional	do				2,000 00		
Total					\$120,540 00		
NOTE.—This additional force is necessary because of the fact that the business of the office has so much increased as to render the present force incapable of transacting the same in a prompt and satisfactory manner. In 1875, the service in operation was 70,083 miles of railroad and 208,000 miles of star; in 1879, 80,000 miles of railroad and over 230,000 miles of star, while the laws prescribing the rates of compensation to railroads have been so amended as to largely increase the work to be done in connection with that branch of the service. And the laws which have been enacted for the protection of the Government and the parties actually carrying the mails on other than railroad routes, while most salutary in effect, have added very largely to the clerical work of this office; and yet the clerical force of this office is less than it was in 1875. With the present arrangement of States in corresponding sections there are not enough third-class clerks to take charge of them, so clerks of the first and second classes are detailed to do that work. Again, some of the sections, particularly in the West, are altogether too large to be taken care of by one clerk, so that these will have to be divided at an early day, in order to the proper transacting of the current business.

Civilian employes, (Rev. Regs., 1863, par. 1201).....	2,000	365	730,000	Appropriated.	21	31	1		
Contract surgeons, (Rev. Regs., 1863, par. 1201).....	125	365	45,625	do.....					
Hospital-matrons.....	200	365	73,000	Appropriated.	R. S. 221	1277			
Military convicts, (at posts).....	81	365	29,565	Appropriated.	R. S. 223	1295			
Prisoners of war, including Indians, for the subsistence of whom no other appropriation is made, (Rev. Regs., 1863, par. 746).....	500	365	182,500	Appropriated.	21	31	1		
Total.....			10,755,820						
10,755,820 rations, at 20 cents each.....							\$2,151,164 00		
NOTE.—In making this estimate at 20 cents per ration the following expenses are included: Cost, at place of purchase, of subsistence supplies for issued troops, &c.; for extra issues, including candles and oil for illumination, and salt for public animals; and for sales to officers and enlisted men, under sections 1144 and 1149 of the Revised Statutes; commutation to enlisted men on furlough, under par. 1243, Rev. Regs., 1863; losses from wastage in issuing; damage in transportation; shrinkage and deterioration while on hand; necessary abandonment or destruction in the field; protection of supplies, including building, repair, and rent of necessary storehouses and offices, when not otherwise furnished; purchase of paulins, &c.; building and repairing of bake-houses and ovens; the cost of purchasing, issuing, and accounting for subsistence supplies, and of their care and preservation, including the cost of the required scales, measures, utensils, tools, stationery, office-furniture, and other necessary expenses incident to subsisting the Army, including telegrams.									
Difference between the cost of the ration, at 20 cents, and commutation, at \$1, for 352 enlisted men employed as clerks, messengers, watchmen, &c., in the War Department and bureaus, headquarters of the Army, United States Signal Service, and headquarters military divisions, for 365 days, being 128,480 rations, at 80 cents per ration.....				Appropriated.	21	32	1	102,784 00	
NOTE.—Commutation, in lieu of rations in kind, at the rate of \$1 per day, to the above enlisted men, is authorized by Memo. War Dept., A. G. O., October 31, 1863; letters of the Adjutant-General, dated November 25, 1872, July 25, 1874, and February 13, 1879, to the Commanding Generals of the Military Division of the Missouri, the Military Division of the Atlantic, and the Military Division of the Pacific, respectively, and by other special authority of Secretary of War.									
Difference between the cost of the ration, at 20 cents, and commutation, at 75 cents, for, say 500 enlisted men employed as clerks, messengers, watchmen, &c., in the United States Signal Service, headquarters of military divisions, departments, and districts, and headquarters general recruiting service, and enlisted men travelling on detached service, for 365 days, being 182,500 rations, at 55 cents per ration.....				do.....				100,375 00	
NOTE.—Commutation in lieu of rations in kind, at the rate of 75 cents per day, to the above enlisted men, is authorized by par. 1243, Rev. Regs., 1863; G. O. No. 92, A. G. O., 1868; G. O. No. 30, A. G. O., 1869; Circular A. G. O., August 23, 1869; authority of Secretary of War, February 27, 1872, and January 2, 1874; G. O. No. 62, A. G. O., 1877; authority of Secretary of War, June, 1878, and by other special authority of Secretary of War.									

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Subsistence of the Army—Continued.</i>							
Difference between the cost of the ration, at 20 cents, and the cost of cooked rations, at 50 cents per day, for say 75 enlisted men (recruiting-parties at rendezvous) for 365 days, being 27,375 rations, at 30 cents per ration.	Appropriated.	21	32	1	\$8,212 50		
NOTE.—Contracts for complete cooked rations for recruiting-parties at rendezvous, when subsistence cannot be advantageously issued, are entered into by the proper officers under par. 1236, Rev. Regs., 1863.							
Difference between the cost of the ration, at 20 cents, and the cost of cooked rations, at 50 cents per day, furnished to each of say 6,480 recruits while at rendezvous, for ten days, being 64,800 rations, at 30 cents per ration	do				19,440 00		
NOTE.—Complete cooked rations are furnished to recruits while awaiting transportation to depots, (as to recruiting-parties above,) per par. 1236, Rev. Regs., 1863.							
Cost (in excess of cost of ordinary rations) of hot coffee, and canned beef, baked beans, and cheese, for troops travelling in cars and other conveyances, when it is impracticable to cook their rations	do				10,000 00		
NOTE.—These issues are authorized by G. O. No. 86, A. G. O., 1877, and G. O. No. 59, A. G. O., 1878.							
Subsistence stores for issue to Indians visiting military posts	Appropriated.	R. S. 21	369 32	2110 1	10,000 00		
NOTE.—These issues are made under par. 1202, Rev. Regs., 1863.							
Indians employed without pay as guides, scouts, &c	Appropriated	21	32	1	10,000 00		
					2,411,975 50		
From the aggregate of the foregoing estimate should be deducted one-half of the amount (of say \$80,000) which will be collected from officers and men in excess of the cost of all stores and other articles sold them, as required by the proviso to the "act making appropriations for the support of the Army for the fiscal year ending June 30, 1880, and for other purposes," approved June 23, 1879.					40,000 00		
NOTE.—It has been recommended to the Secretary of War that one-half of the amount received on the above account shall be transferred to the Quartermaster's department on account of transportation.						\$2,371,975 50	\$2,300,000 00
It is respectfully recommended that the appropriations for subsistence of the Army be made available from the passage of the act making the appropriation. For several years a portion of the appropriation (\$300,000) has been made available prior to the commencement of the fiscal year, for the purchase of supplies intended for remote posts. Should the appropriation for the year be made available from the passage of the act making it, it will, it is believed, be in the interest of economy, by enabling the purchase and shipment not only of all stores for remote posts, which can be more economically shipped in the spring than after the 30th of June, but of those which should be shipped early in the spring, instead of the heat of summer, to avoid loss in transportation. In the act making appropriation for expenses for the Indian Department for the year ending June 30, 1880, it was provided "that so much of the appropriation * * * made as may be required to pay for goods and supplies * * * shall be immediately available."							
QUARTERMASTER'S DEPARTMENT.							
<i>Regular Supplies—</i>							
Regular supplies of the Quartermaster's department, consisting of stoves for heating and cooking; of fuel for officers and enlisted men; guards, hospitals, storehouses, and offices; of forage in kind for the horses, mules, and oxen of the Quartermaster's department at the several posts and stations, and with the armies in the field; for the horses of the several regiments of cavalry, the batteries of artillery, mounted men of the Signal Service, and such companies of infantry and scouts as may be mounted, and for the authorized number of officers' horses, including bedding for the animals; of straw for soldiers' bedding; and of stationery, including blank books for the Quartermaster's department; certificates for discharged soldiers, blank forms for the Pay and Quartermaster's departments, and for printing of division and department orders and reports.	Revised Army Reg's, 1863, p. 159, par. 1064. Appropriated.	R. S. 21	206 221	1133 1270,1		3,600,000 00	3,600,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.			References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
	Vol. or R. S.	Page.	Sec.	Vol. or R. S.	Page.	Sec.			
Horses for Cavalry and Artillery—									
Purchase of horses for the cavalry and artillery, and for the Indian scouts, and for such infantry as may be mounted	Revised Army Reg's, 1863, p. 159, par. 1064.	21	32	1	R. S.	206	1133	\$225,000 00	\$200,000 00
	Appropriated.								
Incidental Expenses—									
For postage and telegrams or despatches; extra pay to soldiers employed under the direction of the Quartermaster's department in the erection of barracks, quarters, storehouses, and hospitals, in the construction of roads and other constant labor, for periods of not less than ten days, including those employed as clerks at division and department headquarters, and Signal-Service sergeants; expenses of expresses to and from the frontier posts and armies in the field; of escorts to paymasters and other disbursing officers, and to trains where military escorts cannot be furnished; expenses of the interment of officers killed in action, or who die when on duty in the field, or at posts on the frontiers, or when travelling on orders, and of non-commissioned officers and soldiers; authorized office-furniture; hire of laborers in the Quartermaster's department, including the hire of interpreters, spies, and guides for the Army; compensation of clerks to officers of the Quartermaster's department; compensation of forage and wagon-masters authorized by act of July 5, 1838; for the apprehension, securing, and delivering of deserters, and the expenses incident to their pursuit; and for the following expenditures required for the several regiments of cavalry, the batteries of light artillery, and such companies of infantry and scouts as may be mounted, and for the trains, to wit: Hire of veterinary surgeons, medicine for horses and mules, picket-ropes, and for shoeing horses and mules; also, generally, the proper and authorized expenses for the movement and operations of the Army not expressly assigned to any other department	Revised Army Reg's, 1863, p. 159, par. 1065.	5	257	10	R. S.	207	1137	1,000,000 00	1,000,000 00
	July 5, 1838	21	32	1	R. S.	223	1287		
	Appropriated.								
Army Transportation—									
Transportation of the Army, including baggage of the troops when moving either by land or water; of clothing, camp, and garrison equipage from the depots of Philadelphia and Jeffersonville to the several posts and Army depots, and from those depots to the troops in the field; of horse-equipments, and of subsistence stores from the places of purchase, and from the places of delivery, under contract, to such places as the circumstances of the service may require them to be sent; of ordnance, ordnance stores, and small-arms from the founderies and armories to the arsenals, fortifications, frontier posts, and army depots; freights, wharfage, tolls, and ferriages; the purchase and hire of horses, mules, oxen, and harness, and the purchase and repair of wagons, carts, and drays, and of ships and other sea-going vessels and boats required for the transportation of supplies and for garrison purposes; for drayage and cartage at the several posts; hire of teamsters; transportation of funds for the pay and other disbursing departments; the expense of sailing public transports on the various rivers, the Gulf of Mexico, and the Atlantic and Pacific; for procuring water at such posts as, from their situation, require it to be brought from a distance; and for clearing roads, and for removing obstructions from roads, harbors, and rivers, to the extent which may be required for the actual operations of the troops in the field	Revised Army Reg's, 1863, p. 159, par. 1064, and p. 163, par. 1096.	21	33	1	R. S.	36	220	4,200,000 00	4,200,000 00
	Appropriated.				R. S.	206	1133,75		
Barracks and Quarters—									
Hire of quarters for troops, of storehouses for the safe-keeping of military stores, of offices, and of grounds for camp and summer cantonments, and for temporary frontier stations; for the construction of temporary huts and stables; and for repairing public buildings at established posts	Revised Army Reg's, 1863, p. 159, par. 1066.	21	33	1	R. S.	206	1136	900,000 00	880,000 00
	Appropriated.				R. S.	221	1270		
Construction and Repair of Hospitals—									
Construction and repair of hospitals, as reported by the Surgeon-General of the Army	Appropriated.	21	33	1				100,000 00	75,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Clothing, Camp and Garrison Equipage—</i>							
Purchase and manufacture of clothing, camp and garrison equipage, and for preserving and repacking stock of clothing, camp and garrison equipage and materials on hand at the Philadelphia, Jeffersonville, and other depots of the Quartermaster's department.....	R. S.	206	1133,5	\$1,036,754 16		
Reduction by Secretary of War.....	21	33	1			
NOTE.—The increase of the estimate for clothing and equipage of the Army for the next fiscal year over and above the amount appropriated for 1880 is due to the changes made in the clothing and equipage of the Army by G. O. No. 76, of 1879, upon the recommendation of a board on equipments.						\$1,000,000 00	\$900,000 00
<i>Contingencies of the Army—</i>							
This estimate is made to meet such expenses as are not provided for by other estimates, and embraces all branches of the military service. The appropriation is disbursed under the immediate orders of the Secretary of War.....	21	33	1	100,000 00		
Reduction by Secretary of War.....				50,000 00	50,000 00	40,000 00
MEDICAL DEPARTMENT.							
<i>Medical and Hospital Department—</i>							
Purchase of medical and hospital supplies; medical care and treatment of officers and soldiers on detached duty; expenses of purveying-depots; and other miscellaneous expenses of the medical department.....	June 23, 1879	21	33	1		250,000 00	200,000 00
<i>Medical Museum and Library—</i>							
Army and Medical Museum, and for medical and other works for the library of the Surgeon-General's office....	June 23, 1879	21	33	1		10,000 00	10,000 00
ENGINEER DEPARTMENT.							
<i>Engineer Depot at Willet's Point, New York—</i>							
Purchase of engineer materials to continue the present course of instruction of the engineer battalion in field engineering.....	21	33	1	1,500 00		
Incidental expenses of the depot, such as remodelling ponton-trains, repairing instruments, purchasing fuel, forage, stationery, and chemicals; extra-duty pay to soldiers engaged in special skilled labor, such as wheelwright-work, printing, photographing, and lithographing engineer documents, &c.....	21	33	1	4,000 00		
Purchase of a five-inch telescope, equatorially mounted for use, in the field observatory; needed not only for the ordinary use of the observatory, but also observation of the approaching transit of Venus.....				1,500 00	7,000 00	5,000 00
<i>Military Surveys and Reconnoissances in Military Divisions and Departments—</i>							
Military surveys, reconnoissances, and surveys of military reservations by the engineer officers attached to the various headquarters of military divisions and departments, being an average of \$5,000 for each of the nine (9) military divisions and departments west of the Mississippi river, and \$5,000 for publication of maps; this sum to be immediately available.....	19	358	1		50,000 00	
ORDNANCE DEPARTMENT.							
<i>Ordnance Service—</i>							
Current expenses of the Ordnance service.....	21	34	1	200,000 00		
Reduction by Secretary of War.....				50,000 00	150,000 00	110,000 00
NOTE.—The amount estimated for under this head is required to pay the expenses at the arsenals of receiving stores and issuing arms and other ordnance supplies; of police and office-duties; of rents, tolls, fuel, and lights; of stationery and office-furniture; of tools and instruments for use; of public animals, forage, and vehicles; incidental expenses of the Ordnance service, including compensation of workmen in the armory and museum-building connected with the Ordnance office, and expenses attending practical trials and tests of ordnance, small-arms, and other ordnance supplies, not otherwise specially provided for. This amount cannot be reduced without embarrassment to the public service. The amount appropriated for several years has been found insufficient.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt' required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Ordnance, Ordnance Stores and Supplies—</i>							
Manufacture of metallic ammunition for small-arms	Appropriated.	21	34	1	\$200,000 00		
NOTE.—This amount of money will manufacture the ammunition for the rifles, carbines, and revolvers now in actual use, and ought not to be reduced. Rifle and carbine ammunition costs to manufacture \$25 per thousand, and revolver \$18 per thousand. For target-practice, at the present small allowance, for drills, guards, instruction of recruits, funerals, and occasions of ceremony, at least four million rounds of ball and blank cartridges are needed yearly, or are actually expended. The surplus which the amount asked for will produce above the amount needed for these purposes is required for the hostile uses of the Army, and as a prudent reserve in store for general military purposes. The unusual interest in rifle-firing manifested throughout the Army during the past year will soon exhaust the small reserve supply of ammunition on hand. Soldiers should be made good marksmen, and this cannot be done without a liberal supply of ammunition for target practice. The amount asked for is reasonable, if the soldier is to be provided with cartridges sufficient for his proper instruction.							
Overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals	do.				25,000 00		
Mounting and dismounting guns, and removing the armament from forts being modified or repaired, including heavy carriages returned to arsenals for alteration and repairs, and other necessary expenses of the same character, and for repairing ordnance and ordnance stores in the hands of troops, and for issue at the arsenals and depots, and for extra-duty pay for enlisted men detailed for ordnance service	do.				30,000 00		
Purchase and manufacture of ordnance stores to fill requisitions of troops	do.				250,000 00		
Infantry, cavalry, and artillery equipments	do.				150,000 00		
					655,000 00		
Reduction by Secretary of War					55,000 00	\$600,000 00	\$320,000 00
<i>Powder-Depot—</i>							
Erection of magazines and other necessary buildings	Appropriated.	21	34	1		50,000 00	50,000 00
NOTE.—Last year Congress appropriated \$50,000 for purchase of site, &c., for powder-magazine. This estimate is to enable this Department to continue the erection of the necessary magazines for the storage of powder.							
<i>Manufacture of Arms at National Armories—</i>							
Manufacture of arms at the national armory	Appropriated.	21	34	1	900,000 00		
Reduction by Secretary of War					100,000 00	800,000 00	250,000 00
NOTE.—Besides supplying the regular Army, the militia, the various colleges, and the other branches constituting the military establishment, the War Department has now to supply arms, ammunition, &c., to the Marine Corps, and to the several Executive Departments, for use in the protection of public money and property under the law of March 3, 1879. During the ten years preceding the war of the rebellion, from 1852 to 1861, there was appropriated annually, on an average, \$251,000 for the manufacture of arms at the national armories, and with this sum the wants of a smaller Army and of a smaller population permitted the gradual increase of them in store. The increased cost of the present breech-loading rifle, the greater demand for its use, and the paucity of the appropriations of late years, have left the country in a dangerous condition, there being on hand July 31, 1879, subject to issue but 27,435 breech-loading rifles and carbines. It is of the most vital importance to the nation that the manufacture of arms by this Department be steadily continued in quantities sufficient to render a gradual accumulation of them in store a certainty. The number of small-arms on hand should never be less than 500,000.							
<i>Armament of Fortifications—</i>							
Conversion and manufacture of heavy ordnance	Appropriated.	21	34	1	500,000 00		
NOTE.—The object of this estimate is to continue the conversion of smooth-bore guns into rifles of eight inches and higher calibres. Our experiments prove that this is the most economical and sure method of providing efficient guns, indispensably necessary for our fortifications.							
Projectiles for heavy ordnance	Appropriated.	20	467	1	200,000 00		
NOTE.—This estimate is made to enable the Department to provide a supply of projectiles for the guns, not less than one hundred rounds for each gun.							
Carriages for heavy guns	do.				200,000 00		
NOTE.—This is to provide new carriages, and to improve, by alteration, those now in our forts. The constant improvement in gun-carriages is rendered necessary by the change in character and increase in power of our guns, the position where placed, and the quantity of work required of them.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
Armament of Fortifications—Continued.							
Proving-ground and proving cannon, carriages, projectiles, fuzes, gunpowder, and other ordnance materials and stores, and all expenses, of every kind, incident thereto. For the further and complete tests of the experimental cannon procured under the act of June 6, 1872.....	Appropriated.	21	34	1	\$50,000 00		
	Appropriated.	20	467	1	117,600 00		
					1,067,600 00		
					567,600 00		
Reduction by Secretary of War.....						\$500,000 00	\$182,500 00
<p>NOTE.—These guns were prepared several years ago, upon the recommendation of a board, and under a specific provision of law. On the 20th of January, 1875, the President sent a special message to Congress on the subject of armament of fortifications, enclosing a special report from the chief of Ordnance, and recommending \$250,000 "for proving-ground and experiments and tests of heavy ordnance." In that report I stated that the guns "designated by a board of officers appointed by the Secretary of War * * * will probably be ready for trial in the early spring. Funds necessary for this purpose should be appropriated." When the sundry civil bill was under discussion in the House, the President's message and my report were quoted from in favor of an appropriation for testing these guns, but the House refused to make an appropriation. In my annual report of 1876, I again called special attention to this subject. During the last session another effort was made. This matter is again brought to the attention of Congress, in the hope that the necessary funds will be given for these very important trials.—(Chief of Ordnance.)</p>							
United States Testing-Machine—							
Caring for, preserving, using, and manipulating the United States testing-machine at Watertown Arsenal.....	Submitted					20,000 00	
<p>NOTE.—This machine is too valuable to be permitted to stand idle. The determinations that may be made by it will be of value to the different departments of the Government, as well as to the public generally. A much larger amount might be expended to great advantage.</p>							
MILITARY ACADEMY.							
Pay of the Military Academy—							
9 Professors.....		R. S.	225	1309			
		R. S.	228	1336			
		June 16, 1874	18	59	1	28,190 28	
		June 23, 1879	21	34	4		
1 Instructor of practical military engineering, (major,) in addition to pay as first lieutenant.....		R. S.	228	1336		900 00	
1 Instructor of ordnance and science of gunnery, (major,) in addition to pay as first lieutenant.....		R. S.	228	1336		900 00

Additional pay to professors for length of service.....		R. S.	228	1336		7,500 00	
		June 23, 1879	21	34	4		
						227,949 28	206,792 33
Current and Ordinary Expenses—							
Repairs and improvements: Timber, planks, boards, joists, wall-strips, lath, shingles, slate, tin, sheet-lead, zinc, nails, screws, locks, hinges, glass, paints, oils, turpentine, varnish, stone, brick, flag, lime, cement, plaster, hair, sewer and drain-pipe, blasting-powder, fuse, iron, steel, tools, mantels, and such other materials; and for pay of citizen mechanics and labor employed on repairs and improvements that cannot be done by enlisted men	Appropriated.	20	261	1	12,000 00		
Fuel and apparatus: Coal, wood, stoves, grates, furnaces, ranges, fire-brick, repairs of steam-heating apparatus, furnaces, ranges, and stoves.....	do				12,000 00		
Gas-pipes, fixtures, lamp-posts, gas-lamps, gasometers, and retorts, and annual repairs.....	do				600 00		
Fuel for cadets' mess-hall, laundry, and shops.....	do				3,000 00		
Postage and telegrams.....	do				300 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Stationery, viz: Blank books, paper, envelopes, quills, steel pens, pencils, erasers, rubber, folders, rulers, wax, wafers, mucilage, ink, fasteners, files, &c.	Appropriated.	20	261	1	\$600 00		
Transportation of materials, discharged cadets, and ferriages	do				1,750 00		
Printing: Type, materials for office, diplomas for graduates, registers, and blanks	do				1,000 00		
NOTE.—The amount asked for is necessary.							
Clerk to the disbursing officer and quartermaster	do				1,500 00		
Clerk to the adjutant, in charge of records	do				1,500 00		
Clerk to the treasurer	do				1,200 00		
Department of instruction in mathematics:							
Repairs and material for preservation of models and instruments	do				25 00		
Text-books, books of reference, and stationery for instructors	do				175 00		
One theodolite	do				300 00		
Department of artillery, cavalry, and infantry tactics:							
Tan-bark for riding-hall	do				300 00		
Repairing camp-stools and camp-furniture	do				100 00		
Furniture for offices and reception-room for visitors	do				150 00		
Repairing gymnasium	do				100 00		
Stationery for use of instructor and assistants	do				150 00		
Books, maps, &c	do				50 00		
Foils, masks, gloves, fencing-jackets, and repairs	Submitted				100 00		
Department of civil and military engineering:							
Models, maps, purchase and repairs of instruments, text-books, books of reference, and stationery for use of instructors, and contingencies	Appropriated	20	261	1	500 00		
Continuing preparation of text-books for special instruction of cadets	do				500 00		
Additional compensation to an enlisted man for services as draughtsman	Submitted				100 00		
NOTE.—The last item has been estimated for by the superintendent for several years, but has been stricken out by Congress in the appropriations. It is a small sum and is fairly earned by the soldier charged with this duty.							
Department of chemistry, mineralogy, and geology:							
Chemicals, chemical apparatus, glass and porcelain-ware, paper, wire, sheet-metal, ores, photographic and other material	Appropriated	20	261	1	550 00		
Rough specimens, fossils, files, alcohol-lamps, blow-pipes, pencils, and paper, for practical instruction in mineralogy and geology, and for the gradual increase of the cabinet	do				500 00		
Repairs and additions to electric, galvanic, magnetic, pneumatic, and thermic apparatus, and apparatus illustrating optical properties of substances	do				650 00		
Additions to apparatus for illustrating the science of electricity as applied to the useful arts	do				500 00		
Pay of mechanic employed in chemical and geological section-rooms, and in lecture-room	do				1,000 00		
Models and diagrams, books of reference, text-books, and stationery for instructors	do				70 00		
Repairing, reflooring, and painting section-rooms and the cabinet	Submitted				305 00		
Department of practical military engineering:							
Pontooning materials	Submitted				50 00		
Mining and profiling-materials	Appropriated	20	262	1	50 00		
Telegraphing and signalling-materials	do				25 00		
Stationery, text-books, and books of reference	do				50 00		
Repairs of instruments	do				25 00		
Department of French and English studies:							
Text-books and books of reference, and stationery for the use of instructors, and for printing examination-papers	do				250 00		
NOTE.—The amount heretofore appropriated for the department of French has been insufficient to admit of purchasing books of reference of great value to the department, and too expensive to be purchased for the library out of the present annual appropriation. There are now two branches of instruction. The amount asked for is indispensably necessary.							
Department of drawing:							
Reflooring drawing academy, (5,356 feet)	Submitted				350 00		
Repairs of desks, racks, models throughout; construction of chest of drawers for sheets of maps and drawings; brushes, tacks, &c	do				150 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Two prismatic compasses for course of topographical drawing and field-sketching	Submitted				\$75 00		
One aneroid barometer	do				50 00		
One electric pen and press	do				50 00		
Lithographing and printing models	do				50 00		
Maps and text-books	do				75 00		
Rulers and triangles for course in geometrical and prospective drawing	do				100 00		
Course in mechanical and constructive drawing, viz: Models, \$100; stretchers and boards, \$50; screens and shades, \$50; plates and tumblers, \$25; rulers and triangles, \$10	do				235 00		
Plaster casts for course of free-hand drawing	do				40 00		
For use of instructors and in course of lectures, viz:							
General drawing material	Appropriated	20	262	1	50 00		
Lantern and illuminating attachments	Submitted				250 00		
Photographic slides	do				75 00		
Screens and appliances	do				25 00		
NOTE.—The above are greatly needed for proper instruction in the various branches of this course, and the amounts set down are the results of careful estimates. The material of the academy is very old, much worn, and largely unserviceable, and the floor of the academy is in very bad condition.							
Department of law:							
Text-books, books of reference, and stationery for use of instructors	Appropriated	20	262	1	300 00		
NOTE.—Of this amount \$25 would be sufficient to cover the item of stationery, and none of it would be required for text-books for instructors, unless a change should be made in the course. This leaves \$275 for books of reference, such as new volumes of the United States Supreme Court and American Law Reports, and such other works of as it may be deemed advisable from time to time to add to the law library.							
Department of ordnance and gunnery:							
Addition to models and drawings illustrating course of instruction; for additions to, and repairs of, electric ballistic machines and electric batteries, and for keeping in repair instrument and firing-houses	do				260 00		
Books of reference and text-books for instructors	do				40 00		
Open shed, 100 feet long by 24 feet wide, with tin roof, for protection of field batteries when not required for instruction of cadets	Submitted				1,200 00		
Department of natural and experimental philosophy:							
Apparatus to illustrate the laws of acoustics and optics, mechanics and astronomy	Appropriated	20	262	1	1,000 00		
Text-books, books of reference, repairs, and materials	do				400 00		
Pay of mechanic	do				1,000 00		
Department of Spanish:							
Text-books and stationery for use of instructors	Submitted				30 00		
Expenses of the board of visitors, including mileage	Appropriated	20	262	1	3,000 00		
<i>Miscellaneous Items and Incidental Expenses—</i>						\$50,830 00	\$45,915 00
Gas-coal, oil, candles, lanterns, matches, and wicking for lighting the academy, cadet-barracks, mess-hall, shops, hospital, offices, stable, sidewalks, and wharves	Appropriated	20	262	1	3,500 00		
Water-pipes, plumbing, and repairs	do				2,000 00		
Cleaning public buildings, (not quarters)	do				500 00		
Brooms, brushes, pails, tubs, soap, and cloths	do				200 00		
Chalk, crayons, sponge, slates, and rubbers, for recitation-rooms	do				300 00		
Compensation of chapel-organist	do				200 00		
Compensation of librarian	{ Apr. 23, 1856 11 5 2 } { Jan. 20, 1879 20 262 1 }				120 00		
Pay of engineer of heating and ventilating apparatus for the academic building, the cadet-barracks, office-building, chapel, and philosophical building, including the library	Appropriated	20	262	1	1,200 00		
Pay of assistant engineer of same	do				720 00		
Pay of five firemen of same	do				2,200 00		
Increase and expense of library, books, magazines, and binding	do				1,000 00		
Pay of librarian's assistant	{ Feb. 18, 1871 16 414 1 } { Jan. 20, 1879 20 262 1 }				1,000 00		
Furniture for cadet-hospital and repairs of the same	Appropriated	20	262	1	100 00		
Purchase of bedding and necessary articles for the use of candidates previous to their admission into the academy	do				500 00		
NOTE.—The estimate submitted for "Buildings and grounds for the Military Academy" will be found under the title of "Public Works," <i>post.</i>						13,540 00	12,840 00
Total Military Establishment						29,319,794 78	26,978,847 33

NAVAL ESTABLISHMENT.

THE UNIVERSITY OF CHICAGO

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
UNDER THE NAVY DEPARTMENT.							
GENERAL SERVICE.							
<i>Pay of the Navy—</i>							
Officers on sea-duty, officers on shore and other duty, officers on waiting orders, officers on retired list; secretaries' clerks; extra pay to enlisted men; officers in excess of present list, and changes of duty, &c.; pay of petty officers, seamen, ordinary seamen, landsmen, and boys, including men in the Engineer's force, and for the Coast-Survey Service, 7,500 men and 750 boys, at the pay prescribed by law.....	R. S.	265	1556	} \$7,271,725 00		
	R. S.	269	1569			
	R. S.	272	1595			
	R. S.	284	1			
Exchange, mileage, and transportation of funds.....	Appropriated	20	284	1	275,000 00	\$7,546,725 00	\$7,243,275 00
<p>NOTE.—The estimate for the above purpose, for the current fiscal year, was \$2,400,000, being for 7,500 men, at an average pay of \$320 per man, although but \$2,300,000 was appropriated; the estimate for the next fiscal year is increased \$90,000, being for pay of 750 boys, authorized to be enlisted by the act of May 12, 1879.</p>							
<i>Contingent, Navy—</i>							
Rent and furniture of buildings and offices not in navy-yards; expenses of courts-martial and courts of inquiry, boards of investigation, examining-boards, with clerks' and witness-fees, and travelling expenses and costs; stationery and recording; expenses of purchasing-paymasters' offices at the various cities, including clerks, furniture, fuel, stationery, and incidental expenses; newspapers and advertising; foreign postage; telegraphing, foreign and domestic; copying; mail and express-wagons, and livery and express-fees, and costs of suits; commissions, warrants, diplomas, and discharges; relief of vessels in distress, and pilotage; recovery of valuables from shipwrecks; quarantine expenses; care and transportation of the dead; reports, professional investigation, and information from abroad; and all other emergencies and extraordinary expenses, arising at home or abroad, but impossible to be anticipated or classified.....	Appropriated.	20	285	1	100,000 00		80,000 00
BUREAU OF NAVIGATION.							
<i>Navigation and Supplies—</i>							
Foreign and local pilotage and towage of ships-of-war.....	Appropriated.	20	285	1	45,000 00		
Services and materials in correcting compasses on board ship, and for adjusting and testing compasses on shore.....	Same acts.....				3,000 00		
Nautical and astronomical instruments, nautical books, maps, charts, and sailing-directions, and repairs of nautical instruments for ships-of-war.....	do.....				9,000 00		
Books for libraries for ships-of-war.....	do.....				2,000 00		
Navy signals and apparatus, namely: Signal-lights, lanterns, rockets, running-lights, drawings, and engravings for signal-books.....	do.....				6,000 00		
Compass-fittings, including binnacles, tripods, and other appendages of ships' compasses.....	do.....				3,000 00		
Logs and other appliances for measuring the ship's way, leads and other appliances for sounding.....	do.....				3,000 00		
Lanterns and lamps and their appendages for general use on board ship, including those for the cabin, wardroom, and steerage, for the holds and spirit-room, for decks, and quartermaster's use.....	do.....				5,000 00		
Bunting and other materials for flags, and making and repairing flags of all kinds.....	do.....				4,000 00		
Oil for ships-of-war other than that used for the Engineer department; candles, when used as a substitute for oil in binnacles and running-lights; for chimneys and wicks, and soap used in Navigation department.....	do.....				20,000 00		
Stationery for commanders and navigators of vessels-of-war, and for use of courts-martial.....	do.....				1,500 00		
Musical instruments and music for vessels-of-war.....	do.....				1,000 00		
Steering-signals and indicators, and for speaking-tubes and gongs for signal communication on board vessels-of-war.....	do.....				2,000 00		
						104,500 00	104,500 00
<i>Contingent, Bureau of Navigation—</i>							
Contingent expenses of the Bureau of Navigation, namely: For freight and transportation of navigation materials, postage, and telegraphing on public business; advertising for proposals; packing-boxes and materials, and all other contingent expenses.....	Appropriated.	R. S.	721	3666	} 2,000 00	2,000 00	2,000 00
		20	286	1			

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Civil Establishment, Bureau of Navigation—</i>							
Civil establishment in the navigation departments of the several navy-yards, namely:							
Portsmouth.....	Appropriated.	20	286	1	\$1,300 00	\$10,417 25	\$10,417 25
Boston.....	do.....				1,400 00		
New York.....	do.....				1,400 00		
League Island.....	do.....				1,300 00		
Washington.....	do.....				1,400 00		
Norfolk.....	do.....				1,300 00		
Pensacola.....	do.....				1,017 25		
Mare Island.....	do.....				1,300 00		
<i>Hydrographic Work, Bureau of Navigation—</i>							
Drawing, engraving, printing and photo-lithographing charts, purchase of chart-paper, correcting old plates, preparing and publishing sailing-directions and other hydrographic information.....	Appropriated.	R. S. 20	72 286	431-3 1	40,000 00	46,000 00	46,000 00
Fuel and office-furniture, care of building and other labor, purchase of books for library, drawing-materials and other stationery, postage, freight, and other contingent expenses.....	Same acts.....				6,000 00		
<i>Naval Observatory—</i>							
Pay of three assistant astronomers, at \$1,500 each.....	Appropriated.	R. S. 20	721 286	3666 1	4,500 00	22,300 00	23,100 00
Pay of one clerk.....	Same acts.....				1,600 00		
One instrument-maker, three watchmen, one messenger, and one porter; for keeping grounds in order; repairs of buildings and enclosures; fuel, light, and office-furniture; chemicals for batteries, stationery, freight, and all contingent expenses.....	do.....				12,000 00		
NOTE.—Previous to 1875, the sum of \$13,500 was allowed under this head. The scope of the Observatory has rather increased since that period than diminished. Under the allowance since 1874, the condition of the <i>matériel</i> has steadily deteriorated for lack of means.							
Reducing and transcribing astronomical and meteorological observations for publication.....	do.....				2,200 00		
Purchase and care of professional books and periodicals for library.....	do.....				1,000 00		
NOTE.—The library of the Observatory consists of about 7,000 special works on astronomy, mathematics, and physics; it is now the best in the United States, and its excellence should be maintained.							
Solar and stellar photography.....	Appropriated.	20	391	1	1,000 00		
<i>Nautical Almanac—</i>							
Pay of computers and clerks for preparing for publication the American Ephemeris, and Nautical Almanac.....	Appropriated.	R. S. 20	721 286	3666 1	19,000 00	22,500 00	22,500 00
Rent, fuel, labor, stationery, boxes, expressage, books, and miscellaneous expenses.....	Same acts.....				1,500 00		
Ephemeris of new planets discovered by American astronomers.....	do.....				2,000 00		
BUREAU OF ORDNANCE.							
<i>Ordnance and Ordnance Material—</i>							
Fuel, tools, and materials of all kinds necessary in carrying on the current daily work of the mechanical branches of the Ordnance department of the several navy-yards, magazines, and stations; for labor at all the navy-yards, magazines, and stations, in fitting ships for sea and in preserving ordnance-material; for necessary repairs to ordnance-buildings, magazines, gun-parks, boats, lighters, wharves, machinery, and other necessaries of the like character.....	Appropriated.	R. S. 20	721 733 286	3666 3709 1	225,000 00	225,000 00	225,000 00
NOTE.—The Ordnance department of the Navy is organized into three divisions: the Ordnance Department, the Ordnance Material Department, and the Ordnance Stores Department.							
<i>Contingent, Bureau of Ordnance—</i>							
Freight to foreign and home stations, advertising, and auctioneers' fees, cartage and express-charges; repairs to fire-engines, gas and water-pipes; gas and water-tax at magazines, toll, ferriage, foreign postage, and telegrams.....	Appropriated.	20	287	1	3,000 00	3,000 00	3,000 00
<i>Civil Establishment, Bureau of Ordnance—</i>							
At navy-yard, Portsmouth, N. H.:							
One clerk.....	Appropriated.	20	287	1	1,300 00		
At navy-yard, Boston, Mass.:							
One clerk.....	do.....				1,400 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. Continuation of building	June 20, 1878	20	210	1	100,000 00	40,000 00	
	Appropriated.	20	377	1			
<i>Court-house and Post Office, Utica, N. Y.—</i>							
Completion of building	May 31, 1872	17	194	1	61,000 00	25,000 00	
	Mar. 3, 1877	19	351	1			
	Appropriated.	20	378	1			

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Treasury Building, Washington, D. C.—</i> Annual repairs of Treasury building, and fitting rooms to be vacated by Bureau of Engraving and Printing for offices and files-rooms.....	Appropriated.	20	378	1	\$60,000 00	\$25,000 00	
<i>Building for Bureau Engraving and Printing Washington, D. C.—</i> Fencing, paving, grading, and approaches.....	June 20, 1878	20	211	1	20,000 00	.	
<i>Repairs and Preservation of Public Buildings—</i> Repairs and preservation of public buildings under control of Treasury Department.....	Appropriated.	20	378	1	150,000 00	100,000 00	
Total Public Buildings under Treasury Department					2,447,000 00	2,155,000 00	
NOTE.—\$2,993,686 87 was appropriated for public buildings under Treasury Department, for the fiscal year 1880.							
LIGHT-HOUSES, BEACONS, AND FOG-SIGNALS.							
<i>Ten-pound Island Light-station, Massachusetts—</i> Rebuilding tower and dwelling at Ten-pound Island light-station, Gloucester harbor, Massachusetts.....	Submitted				\$6,000 00		
<i>Long Island Head Light-station, Massachusetts—</i> Rebuilding tower and keeper's dwelling at Long Island Head light-station, Boston harbor, Massachusetts.....	Submitted				12,000 00		
NOTE.—One of the most important lights on this part of the coast. The keeper's dwelling is in a dilapidated condition. It is proposed to increase the efficiency of the station by rebuilding the tower and establishing a third-order light.							
<i>Mayo's Beach Light-station, Massachusetts—</i> Rebuilding tower and keeper's dwelling at Mayo's beach, Massachusetts.....	Submitted				8,000 00		
NOTE.—The keeper's dwelling has been undermined by the sea, and with the tower, should be rebuilt.							
<i>Sandy Neck Light-station, Massachusetts—</i> Rebuilding keeper's dwelling at Sandy Neck light-station, Barnstable harbor, Massachusetts.....	Submitted				3,000 00		
<i>Bishop and Clerk's Light-station, Massachusetts—</i> Protecting foundation of the tower at Bishop and Clerk's light-station, Vineyard sound, Massachusetts.....	Submitted				5,000 00		
NOTE.—The foundation of the tower has been exposed by the action of the sea. An enrockment of heavy stone is required for its protection.							
<i>Ned's Point Light-station, Massachusetts—</i> Rebuilding tower and repairing keeper's dwelling at Ned's Point, entrance to Mattapoissett harbor, Massachusetts.....	Submitted				5,000 00		
<i>Bird Island Light-station, Massachusetts—</i> Rebuilding dwelling for two keepers at Bird Island light-station, entrance to Sippican harbor, Buzzard's bay, Massachusetts.....	Submitted				5,000 00		
<i>Wing's Neck Light-station, Massachusetts—</i> Rebuilding tower and repairing dwelling at Wing's Neck entrance to Sandwich harbor, Massachusetts.....	Submitted				5,000 00		
NOTE.—The lantern is on the top of the dwelling, the roof of which is crushed by the weight.							
<i>Conimicut Light-station, Rhode Island—</i> Rebuilding tower and keeper's dwelling for the Conimicut light-station, entrance to Providence river, Rhode Island.....	Submitted				10,000 00		
NOTE.—The tower at this place is very leaky, and otherwise greatly out of repair.							
<i>Fuller's Rock and Sassafras Point Light-stations, Rhode Island—</i> For replacing the wooden towers used for the beacon-lights at Fuller's Rock and Sassafras Point light-stations, Providence river, Rhode Island, with cast-iron structures.....	Submitted				1,000 00		
NOTE.—The wooden structures, now existing, show considerable evidence of decay.							
<i>Montauk Point Light-station, New York—</i> Rebuilding barn and renewing fencing at Montauk Point light-station, eastern end of Long Island, New York.....	Submitted				800 00		
NOTE.—It is essential for the keeper of this isolated station to keep a horse and wagon. The barn now in use is nearly gone.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Stratford Point Light-station, Connecticut—</i> Rebuilding tower and keeper's dwelling at Stratford Point light-station, entrance to Stratford river, Connecticut. <i>NOTE.</i> —The structures at this station are in a dilapidated condition, and past economical repair.	Submitted	-			\$10,000 00		
<i>Old Field Point Light-station, New York—</i> Rebuilding barn at Old Field Point light-station, Long Island, New York. <i>NOTE.</i> —This is another station where a barn is absolutely necessary. The structure now in use is not worth repairing.	Submitted				500 00		
<i>Sandy Hook Light-vessel, New Jersey—</i> Building a first-class light-ship, fitted with a powerful steam fog-signal, to take the place of the light-ship now off Sandy Hook, entrance to New York harbor. <i>NOTE.</i> —This is regarded as one of the most important stations on our coast, and, as an immense commerce flows past it, it should be marked by a vessel having all the modern improvements. The present light-ship can then be removed to a less important station.	Submitted				50,000 00		
<i>Elm Tree Light-station, New York—</i> Protecting the site of the Elm Tree beacon, of the Swash Channel range, entrance to New York harbor. <i>NOTE.</i> —During severe gales the sea threatens to destroy this station' water reaching the base of the dwelling. It is proposed to enlarge and extend the jetty now existing.	Submitted				2,500 00		
<i>Prince's Bay Light-station, New York—</i> Protecting the site of the Prince's Bay light-station, Staten Island, New York. <i>NOTE.</i> —The sea-wall built some eight years since has given way in several places.	Submitted				3,500 00		
<i>Rondout Creek Light-station, New York—</i> Establishing stake-lights on the dykes at the entrance to Rondout creek, Hudson river, New York. <i>NOTE.</i> —It is proposed to establish three lights—one on the end of the north dyke, one on the south dyke, and one at the bend or angle of the north dyke, at a short distance from the mouth of the creek.	Submitted				1,000 00		
<i>Four-mile Point Light-station, New York—</i> Rebuilding the tower at Four-mile Point light-station, Hudson river, New York. <i>NOTE.</i> —The tower at this station was struck by lightning last summer, and is now in a tottering condition.	Submitted				4,350 00		
<i>Staten Island Depot, New York—</i> Purchase of additional strip of land, erection of new storehouse, repairs to wharf, and dredging of basin at Staten Island depot, New York. <i>NOTE.</i> —A street is about to be opened about 100 feet west of the boundary line of the depot grounds. By purchasing a strip of land, a proper exit from the grounds can be had—a privilege not now possessed. This will also afford space for the erection of much-needed buildings. A new storehouse is required, and the repairs to wharf, and dredging of basin, should be completed.	Appropriated.	20	381	1	31,000 00	\$10,000 00	
<i>Cape May Light-station, New Jersey—</i> Enlarging one of the keeper's dwellings at Cape May light-station, New Jersey, entrance to Delaware bay. <i>NOTE.</i> —The keepers' dwellings consist of two small cottages which are inadequate for the families of the three keepers at this station.	Submitted				2,000 00		
<i>Brandywine Shoal Light-station, Delaware—</i> Repairing the light-house at Brandywine Shoal, Delaware bay. <i>NOTE.</i> —This is an old and very important light-house on screw-piles. The whole structure should be thoroughly overhauled and repaired.	Submitted				5,000 00		
<i>Lights on the Delaware River—</i> Establishing lights on the Delaware river, in addition to existing appropriations. <i>NOTE.</i> —The appropriation of last year was made without previous surveys or estimates. Careful surveys have since been made, and it is found that four sets of range-lights are necessary, the erection of which will involve the additional sum asked for.	Appropriated.	20	381	1	15,000 00	60,000 00	
<i>Fenwick's Island Light-station, Delaware—</i> Enlarging dwelling at Fenwick's Island light-station, Delaware. <i>NOTE.</i> —The dwelling at this station was built for one keeper. As two keepers are now employed, the accommodations are insufficient.	Submitted				5,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Cape Henry Light-station, Virginia—</i> Continuing the construction of the light-house at Cape Henry, Virginia.....	Appropriated.	20	215	1	\$25,000 00	
NOTE.—This important light should be completed with as little delay as practicable.							
<i>Lazaretto Depot, Maryland—</i> Enlarging pier accommodation at Lazaretto depot, near Baltimore, Md.....	Submitted.....					4,000 00	
NOTE.—The pier accommodation is now insufficient, as only one vessel can lie there at a time.							
<i>Portsmouth Depot, Virginia—</i> Rebuilding wharf at the buoy and supply-depot, Portsmouth, Va.....	Submitted.....					4,500 00	
NOTE.—This wharf must soon be rebuilt. Nearly all the piles are worm-eaten, and are not strong enough to support the weight of the heavy buoys, sinkers, &c., being liable to give way at any time.							
<i>Tybee Light-station, Georgia—</i> Rebuilding the keeper's dwelling at Tybee Island, entrance to Savannah river, Georgia.....	Submitted.....					6,000 00	
NOTE.—The keeper's dwellings are entirely inadequate to the wants of the station.							
<i>Florida Reef Beacons—</i> Establishing and repairing day-beacons on the Florida Reefs.....	Appropriated.	18	381	1	10,000 00	
NOTE.—The appropriation made by the act of March 3, 1875, is now exhausted. These beacons are of the utmost importance to navigation, and the appropriation asked for is required to keep them in order and replace such as may be destroyed by hurricanes.							
<i>Dog River Bar and Choctaw Pass Channel Light-stations, Alabama—</i> Establishing a series of lights to guide into Mobile harbor, Alabama.....	Submitted.....					6,000 00	
NOTE.—A cut has been made through the bar below Mobile. This cut, executed by the United States for the city of Mobile, at a cost of over a quarter of a million of dollars, loses a great portion of its value from a failure to properly mark the channel.							
<i>Pass Christian Light-station, Mississippi—</i> Raising tower at Pass Christian light-station, Mississippi sound, Mississippi.....	Submitted.....					3,000 00	
NOTE.—It is necessary to increase the height of the tower about ten feet to raise the light above surrounding trees and houses.							
<i>Bayou Saint John Light-station, Louisiana—</i> Rebuilding the light-station at Bayou Saint John, Louisiana, on a new site.....	Submitted.....					4,000 00	
NOTE.—The Orleans Navigation Company having cut a new entrance to their canal, at some distance from the present light-house, the light is of no service as a guide into the canal. It is proposed to discontinue it and to erect two small lights placed so as to mark both openings.							
<i>Southwest Reef Light-station, Louisiana—</i> Renewing some of the principal parts of the iron-work of the light-house at Southwest Reef, entrance to Atchafalaya bay, Louisiana.....	Submitted.....					5,000 00	
NOTE.—The older portion of this structure is badly corroded, the girders in some places being entirely eaten through by the action of the water.							
<i>Matagorda Bay Range-Lights, Texas—</i> It is recommended that the appropriation of \$20,000, made by the act of July 31, 1876, for rebuilding and repairing light-houses on the coast of Texas, be made available for the erection of range-lights to guide into Matagorda bay.....	Appropriated.	19	112	1		
<i>Point Isabel Light-station, Texas—</i> Renewing the lantern and gallery at Point Isabel light-station, Brazos de Santiago, Texas.....	Submitted.....					7,000 00	
NOTE.—The lantern is now in a condition beyond repair. During rain it is impossible to keep the lens and lamps dry.							
<i>Cross-over Island Light-station, New York—</i> Rebuilding light-house at Cross-over Island, Saint Lawrence river, New York.....	Submitted.....					5,000 00	
NOTE.—This light is an important one. The house and tower leak badly, and are past repair.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Sunken Rock Light-station, New York—</i> Rebuilding the tower at Sunken Rock light-station, St. Lawrence river, New York.....	Submitted.....				\$5,000 00		
NOTE.—The tower is in a dilapidated condition and past economical repair.							
<i>Tibbitt's Point Light-station, New York—</i> Rebuilding light-house at Tibbitt's Point, New York.....	Submitted.....				10,000 00		
NOTE.—This light is on Lake Ontario, at the entrance to St. Lawrence river, and must always be an important aid. The house is past repair, and too small for the keeper.							
<i>Sacket's Harbor Light-station, New York—</i> Building a causeway to the main land and erection of a boat-house at Sacket's Harbor light-station, Lake Ontario, New York.....	Submitted.....				2,000 00		
<i>Thirty-mile Point Light-station, New York—</i> Protecting the site of Thirty-mile Point light-house, Lake Ontario, New York.....	Appropriated.....	20	214	1	5,000 00		
NOTE.—It is found on preparing plans for works to protect this site that this sum will be required in addition to the appropriation made by the act of June 20, 1878.							
<i>Presque Isle Light-station, Pennsylvania—</i> Building an additional boat-house at Presque Isle light-station, Lake Erie, Pennsylvania.....	Submitted.....				500 00		
<i>Marblehead Light-station, Ohio—</i> Rebuilding tower and dwelling at Marblehead, Sandusky bay, Ohio.....	Submitted.....				20,000 00		
NOTE.—This station is in a very bad condition. The dwellings are old and leaky. In the winter the keeper's family is compelled to live in the wood-house and summer-kitchen. This is one of the most important lights on Lake Erie.							
<i>Green Island Light-station, Ohio—</i> Building a stone cistern of large capacity for the supply of Green Island light-station, Lake Erie, Ohio.....	Submitted.....				500 00		
<i>Grassy Island Light-station, Michigan—</i> Rebuilding the light-house at Grassy Island, Detroit river, Michigan.....	Submitted.....				15,000 00		
NOTE.—It is necessary to rebuild this important light on a new foundation.							
<i>Belle Isle Light-station, Michigan—</i> Establishing a light on the northern end of Belle Isle, Detroit river, Michigan.....	Submitted.....				10,000 00		
NOTE.—Required to guide into the south channel, which is almost exclusively used. It is extremely difficult to find this channel on dark nights, and every year many vessels get aground.							
<i>Stannard's Rock Light-station, Michigan—</i> Continuing the erection of a light-house on Stannard's Rock, Lake Superior, Michigan.....	Appropriated.....	20	381	1	50,000 00	\$50,000 00	
NOTE.—This additional appropriation of \$50,000 is required to continue this important work.							
<i>Portage River Light-station, Michigan—</i> Purchasing a site for the light-station at Portage river, Lake Superior, Michigan.....	Submitted.....				1,000 00		
NOTE.—A resurvey of the site has shown that the station is situated on land not owned by the United States.							
<i>Pier-head Lights—</i> Erection, removal, and repair of lights on pier-heads on the lakes, rivers, and seaboard of the United States; and the Light-house Board is hereby authorized to establish such aids to navigation as may be requisite upon any piers or jetties which are now or may become the property of the United States.....	Appropriated.....	21	381	1	40,000 00	25,000 00	
<i>Sand Island Light-station, Wisconsin—</i> Establishing a light on Sand island, the most westerly of the Apostle group, Lake Superior, Wisconsin.....	Submitted.....				18,000 00		
NOTE.—Commerce, to and from the western end of Lake Superior, passes outside the Apostle Islands. There is no coast-light for eighty miles, and this light is of as great necessity as any new station on the lakes.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Steam Fog-signals on the Lakes—</i> Establishing steam-fog signals at such stations on the northern and northwestern lakes as the needs of navigation may require.....	Submitted.....				\$25,000 00		
<i>Farallon Fog-signal, California—</i> Completing the steam fog-signal at Farallon Island, California, and establishing a duplicate	Appropriated.	20	381	1	7,000 00	\$12,000 00	
NOTE.—The scarcity of water on this rocky islet makes it necessary to construct extensive water-sheds. A duplicate signal is required, as at all important stations.							
<i>Tillamook Head Light-station, Oregon—</i> Continuing the erection of a first-class light-house and steam fog-signal on Tillamook Head, Oregon	Appropriated.	20	214	1	50,000 00		
NOTE.—It is intended to erect this light on an isolated rock at some distance from shore. The great advantages which will thus result to navigation will more than balance the cost.							
<i>Point-no-Point Light-station, Washington Territory—</i> Completing the light-house and establishing a fog-signal at Point-no-Point, Admiralty Inlet, Washington Territory.....	Appropriated.	17	522	1	5,000 00		
NOTE.—The fogs which prevail in the inlet during the autumn, winter, and spring are so dense that they will obscure the light, and the station can only be made efficient by means of a fog-signal.							
<i>Foulweather Bluff Fog-signal, Washington Territory—</i> Establishing a fog-signal on Foulweather Bluff, on the east side of the entrance to Hood's Canal, Washington Territory	Submitted				8,000 00		
NOTE.—The canal is an important sheet of deep water along which there is a constantly growing trade.							
<i>West Point Fog-signal, Washington Territory—</i> Establishing a fog-signal on West Point Admiralty Head, Washington Territory.....	Submitted ..				10,000 00		
NOTE.—This is the first prominent point or sand-spit north of Seattle.							
<i>Robinson's Point Fog-signal, Washington Territory—</i> Establishing a fog-signal on Robinson's Point, Manry Island, Puget Sound, Washington Territory	Submitted ..				7,000 00		
NOTE.—This is a prominent point about 12 miles north of New Tacoma, the prospective terminus of the Northern Pacific Railroad, and the present terminus of the branch of that road connecting Puget Sound with the Columbia river at Kalma.							
<i>Fog-signals on Light-ships—</i> Substituting steam fog-signal machinery for the caloric engines now in use on light-ships Nos. 41 and 42.....	Submitted ..				15,000 00		
NOTE.—It is found that the dry heat, resulting from the use of the caloric engines, seriously injures the vessels.							
<i>Steam-tenders for Atlantic Coast—</i> Building two steam-tenders for general service on the Atlantic coast	Submitted ..				90,000 00		
NOTE.—These are required to take the place of vessels now worn out and unfit for service.							
<i>Surveys of Light-house Sites—</i> Examination and survey of sites for proposed light-houses, and preparing plans for proposed structures	Submitted ..				10,000 00		
NOTE.—Under the existing laws the Light-house Board cannot make detailed surveys of proposed light-house sites. These are absolutely necessary for the preparation of accurate plans and estimates for proposed structures before Congress has appropriated money for the establishment of the station.							
Total Light-houses, Beacons, and Fog-signals					674,150 00	157,000 00	
NOTE.—\$554,058 17 was appropriated for light-houses, &c., for the fiscal year 1880.							
Total Public Works under Treasury Department.....					3,121,150 00	2,312,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
UNDER THE WAR DEPARTMENT.							
ARMORIES AND ARSENALS.							
<i>Springfield Armory, Springfield, Mass.—</i>							
Repairs and preservation of grounds, buildings, and machinery not used for manufacturing purposes.....	Appropriated.	20	386	1	\$20,000 00	\$24,000 00	\$15,000 00
Erecting guard-house	Submitted				4,000 00		
<i>Rock Island Arsenal, Rock Island, Ill.—</i>							
To finish shop G: An iron-working and finishing-shop for the arsenal.....	Appropriated.	20	386	1	95,000 00		
NOTE.—This shop was begun in the fall of 1876. The very small appropriation made for it, from year to year, has permitted only slow progress in the work, and has increased somewhat the cost of the building. It is important, for an economical prosecution of the work, that the whole amount asked for this building should be appropriated, and that the building should be finished next year.							
Shop I: A wood-working and leather-working shop for the arsenal.....	do.....				110,000 00		
NOTE.—This is the last one of the arsenal-shops. It was begun in July, 1878. It is believed that the appropriation, now available for this shop, will be sufficient to complete entirely the second story, (the first story above the basement;) put in all the columns and iron-work for this story; the iron beams for one-half of the second floor, and build rather more than one-half of the third story. The amount asked for would be sufficient to complete the third story and iron-work of the second floor; put in all the iron-work of the third story and third floor; build the fourth story; put on the iron-roof frame and purchase the lumber for wood-work and floors and stack it for seasoning. It is very important, for an economical arrangement and prosecution of the work of constructing the arsenal, that the amount asked for should be granted. An important part of the plans of the work included in this estimate is to construct, in the arsenal-shops during the winter, of 1880 and 1881, the iron-roof required for this shop. This is an important work, requiring time and careful tests of the metal and materials used, and it can be done much better in winter when other work is slack. It is desirable to get the building covered in during the following summer and have it in condition for finishing during the next winter.							
Shop H: An iron-finishing shop for the armory.....	do.....				90,000 00		
NOTE.—This is the last but one of the armory-shops. It was begun in September, 1878. It is estimated that the amount asked for would be sufficient to complete the third story, (the second above the basement,) including all iron columns and iron beams for fire-proof arches in first and second floors. The amount estimated for is made the least amount consistent with a wise and economical construction of the armory. As has been explained in previous years, there are now at this arsenal very complete facilities for manufacturing nearly all the articles used in the construction of the buildings, and a carefully selected, organized, and trained force of workmen for doing the work. A very great saving to the United States is effected by the use of these facilities. The estimates are made with a view of having the progress made on the buildings in such condition that a fair amount of each kind of work, viz., of wood, stone, iron, brick, and other kinds of work can be done in each year. Cutting down the estimates generally so interferes with the work as to leave little or none of some kinds of work for particular years, makes it necessary to discharge valuable workmen, and in the end increases the cost of the work. The expense of discharging and rehiring special skilled workmen without promise of permanent work is well understood. As the appropriations for constructing the shops during the past few years have been each year considerably less than the amounts estimated for, it is understood that it is the intention of Congress that the work of construction shall be prosecuted as slowly as fair economy in doing the work will allow. Therefore, in making the above estimates for going on with the construction of the three shops now in progress, the estimates are reduced to the least amount that a full knowledge and experience of the work show is consistent with the best economy in going on with the work, considering only the interests or necessities of the work itself.							
For one fire-proof stone building for offices for the arsenal and armory.....	Submitted				46,000 00		
NOTE.—This building is intended as a general office for both the arsenal and armory and for all the business of the post. It should be fire-proof throughout, and contain vaults for the books, records, and funds of the arsenal, and it should coincide somewhat in its architecture, appearance, and stone used with the other buildings of the arsenal. The amount estimated for is deemed sufficient for procuring foundations, building the walls with suitable architecture, and putting in the iron beams for fire-proof floors and other iron-work. The important reasons for making this estimate are that an office is required for immediate use. It has to be built sometime, and the work can be done much cheaper and better by doing it slowly in connection with other work than after the other work is completed. There is now no office at the arsenal. For present use, rooms have been temporarily partitioned off in the north end of the west wing of shop "B," (one of the finishing-shops of the armory.) This furnishes sufficient office-room, but the partitions are of wood, very temporary, and the rooms are badly heated with stoves. The office is not comfortable in winter, and there is some danger of fire, endangering the loss or damage of a very costly building and the loss of the records of the arsenal.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Rock Island Arsenal, Rock Island, Ill.—Continued.</i>							
For one block of officers' quarters.....	Submitted				\$15,000 00		
NOTE.—There are quarters for only a portion of the officers at the arsenal, and the others are still living in the very temporary wooden buildings hastily put up for use in connection with the military prison here during the war. These buildings are now nearly worthless; they were badly built, and have so decayed that they can hardly be maintained, and are not in a habitable condition. They are in the way of other improvements, and ought to be removed. The proposed permanent building is now required, and its construction is very desirable.							
Elevated iron water-tank, 100,000 gallons capacity, for fire protection and general water supply of the arsenal..	Submitted				5,000 00		
NOTE.—The walls of the old stone reservoir now in use at the arsenal have deteriorated so much from leakage and frost that they can be retained only with frequent repairs and much difficulty, and there is danger that they may suddenly give way and leave the arsenal without any water supply. Moreover, the elevation furnishes no fire protection; is only sufficient for supplying water to the basements and first floors of the shops. All the other shop-floors and the other buildings have to be supplied by repumping. The proposed tank would have sufficient elevation for fire protection, and for supplying the upper floors of all buildings. As the water-power is now in operation, and the water supply is pumped by it, the increased power required for pumping to a high elevation involves no expense. The construction of this tank is very important, and is urgently recommended.							
Machinery and shop-fixtures	Submitted				20,000 00		
NOTE.—It is proposed with this amount to put in the shafting and shop-fixtures in shop D, (one of the iron-finishing shops of the armory,) to finish some fixtures in other shops, and to add to the plant of the arsenal such machines as are required for immediate use. It is important that fitting up of the shops for use should progress with the construction of the buildings. These fixtures are manufactured in the arsenal-shops, and the work can be done much more cheaply at slack times, in connection with the other work, than if postponed till the other work is completed.							
General care, preservation, and improvement; for building new roads; care and preservation of the water-power; painting and care and preservation of permanent buildings, bridges, and shores of the Island; building fences, grading-grounds, and repairs and extension of railroad..	Appropriated.	20	386	1	22,000 00		
NOTE.—This work is almost absolutely necessary in the progress of the work of building the arsenal. The roads are required for immediate use in building operations, and should become so permanently built as to become a permanent part of the arsenal; and this work on roads, grading, and sewers can be done far more economically whilst other excavations and building are going on, and the two kinds of work which are dependent. A portion of the amount is absolutely necessary for the preservation of buildings, roads, bridges, other constructions already built, and for the maintenance of the water-power and transmission of power.					403,000 00		
Reduction by Secretary of War.....					50,000 00	\$353,000 00	\$212,000 00
<i>Rock Island Bridge—</i>							
Care and preservation of the Rock Island bridge, and expense of maintaining and operating the draw.....	Appropriated.	20	386	1	9,000 00		15,000 00
NOTE.—This estimate is for care and preservation of the bridges between Davenport, Rock Island, and the Island, and the road and causeway on the island connecting the bridges. It includes all ordinary repairs, but is mainly for expense of operating the draw, for which two sets of hands, consisting of engineer, fireman, and tender, are required. This work is difficult, and excellent men must be employed, and guards for maintaining order on the long bridges, in their large use by the public. This extensive use also causes considerable wear and necessity for repairs.							
<i>Allegheny Arsenal, Pittsburgh, Pa.—</i>							
Grading, curbing, and paving, with Miller's wood pavement, Penn avenue, on arsenal front, between Thirtieth and Fortieth streets.....	Submitted				5,821 20		
Interest on \$5,821 20, at 7 per cent., from October 1, 1871, to October 1, 1881, ten years, at \$407 48 per annum.....	do.....				4,074 80		
Grading, curbing, and paving with cobble-stones, Thirtieth street, on arsenal boundary, between Butler street and Penn avenue.....	do.....				5,168 00		
Grading, curbing, and paving with cobble-stones, to centre of Main street, a strip of United States land nine feet wide, connecting Allegheny arsenal and spring.....	do.....				22 71		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Allegheny Arsenal, Pittsburgh, Pa.—Continued.</i>							
Interest on \$22 71, at 7 per cent., from October 1, 1871, to October 1, 1881, ten years, at \$1 59 per annum	Submitted				\$15 90		
Removing old zinc from roof of wings of officers' quarters and workshops, and covering with slate.....do.....				1,650 00		
NOTE.—Items 1, 2, 3, and 4 are for work done on the streets by the city of Pittsburgh without consultation with or authority from the United States Government, and the improvements were made with money raised on city bonds, bearing 7 per cent. interest and running ten years; payable, principal and interest to date of payment, at any time. Item 5: the roofs of these buildings were covered with zinc many years ago; the metal, from oxidation, no longer protects them from water and decay.						\$16,752 61	
<i>Augusta Arsenal, Augusta, Ga.—</i>							
Repairs of storehouses, magazines, quarters, barracks, hospital, fences, walks, roads, cisterns, well, &c.....	Submitted					3,000 00	
<i>Benicia Arsenal, Benicia, Cal.—</i>							
Machine and armorers' shop.....	Submitted				69,789 00		
NOTE.—The carpenters' and blacksmiths' shops are already completed; this one is required to complete most of the work commenced in them. All repairs of arms, gun-carriages, and ordnance stores, &c., for the States of California, Nevada, and Oregon, and for the Territories of Arizona, Alaska, Idaho, and Washington, are made here; and most of the ordnance supplies for the above-named divisions of our country, which contain an area of 1,235,974 square miles—in a word, more than one-third of the area of the whole territory of the United States—are issued from this arsenal.							
To build a freight-house along the side-track of the railroad on arsenal grounds, for shipping and receiving ordnance stores.....do.....				1,500 00		
NOTE.—The Northern railway has built a side-track for the use of the Government on the arsenal ground, and this freight-house is for shipping and receiving freight on the cars. The necessity for this will be apparent to all.							
Purchasing machinery for new machine-shop, shafting, pulleys, lathes, planers, slotting-machines, &c.....do.....				6,900 00		
NOTE.—This machinery, shafting, pulleys, lathes, and planers are necessary for the work of this arsenal.							
To complete repairs on the present wharf, which were commenced this year.....	Appropriated.	20	387	1	7,000 00		
NOTE.—The appropriation asked for last year for this purpose was \$12,000, and only \$5,000 was appropriated, so that we will have only funds to replace the most decayed portions of this wharf; and the above amount is asked to complete it.							
Continuing boring the artesian well; or, if artesian water is procured, for putting down permanent iron pipe and turbine-wheel, to be run by flow of water, to pump up water to reservoir.....do.....				9,800 00		
NOTE.—This well is 1,407 feet deep, and three streams of water have been met. The water obtained from the lowest stream has been analyzed and found unfit for use. This stream should be shut off entirely, and the Government should use the stream obtained at the depth of 960 feet from the surface, or the well should be deepened until a purer stream of water is obtained, one which will run some feet above the surface of the ground. Whatever appropriation is made for this object should be excepted from the action of the law, which compels disbursing officers to turn into the Treasury all unexpended balances of the different appropriations on hand at the close of the fiscal year. In this peculiar work, when people are working 1,407 feet from the point of the application of power, accidents are of frequent occurrence; care, time, and skill are required to repair their effects. In some instances a new tool has to be designed, manufactured, and proved, to rectify an accident. The appropriation should be continuous until it is expended.							
Grading grounds, permanent repairs of post, repairing roads and buildings, sewers and drains, machinery and fences, grading, &c.....	Submitted				10,000 00		
NOTE.—The difference of level in some places, between different parts of the surface of the ground, is two hundred and three feet. The different benches or slopes should be shaped so as to present some uniformity, without entirely destroying nature's work					104,989 00		
Reduction by Secretary of War.....					29,989 00		
						75,000 00	\$5,000 00
<i>Frankford Arsenal, Philadelphia, Pa.—</i>							
Repairs to buildings, fences, creek-wall, &c.....	Submitted					6,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Indianapolis Arsenal, Indianapolis, Ind.—</i>							
Repairing and care and preservation of public buildings, fixtures therein; sewers, roads, and fences; and painting public buildings and enclosing-fences	Submitted				\$2,750 00		
NOTE.—This expenditure is necessary for keeping in order the public buildings, fences, sewers, gas and water-fixtures, roads, grounds, &c.							
Building small blacksmith-shop	do				1,200 00		
NOTE.—This building is badly needed at the post for a smith's shop. The frame and log-shed now used for the purpose is unsightly, leaky, &c., and ought to be taken down and removed.							
Building sewer through arsenal grounds	do				2,500 00		
NOTE.—The building of this sewer is an absolute necessity. Sewerage from the Woodruff Place enters a small stream crossing the arsenal grounds near the N. C. O. quarters, situated near the northeast corner of the arsenal grounds, and during the heated term the stench rising therefrom is very offensive.							
Grading, curbing, and bouldering 1,176.7 feet of the sidewalk on Clifford avenue along the line of the arsenal grounds	do				1,118 43		
NOTE.—This work was done in 1876 by the city authorities of Indianapolis, in accordance with a law passed by the city councils, providing for the grading, &c., of Clifford avenue, approved June 12, 1876.							
<i>Kennebec Arsenal, Augusta, Maine—</i>							
Enlarging reservoir, laying supply and drain-pipes, and otherwise improving water supply for post	Submitted				2,000 00		
General repairs of public buildings, grounds, sea-wall, &c.	do				2,000 00		4,000 00
<i>New York Arsenal, New York Harbor—</i>							
Repairs of dock, sea-walls, storehouses, quarters, fences, underground and surface-drains and sewers, roads, permanent enclosures, fire-apparatus, and tanks, engine, and hose	Submitted				5,000 00		
Painting buildings, fences, &c.	do				2,000 00		7,000 00
<i>Saint Louis Powder-Depot, Jefferson Barracks, Missouri—</i>							
Repairing barracks and quarters, magazines, roofs, gutters, slopes, drains, retaining-walls, coping, lighting grounds, &c.	Submitted						5,000 00
<i>San Antonio Arsenal, San Antonio, Texas—</i>							
Constructing a new fence, 600 feet long, in front of the arsenal grounds, to consist of an 18-inch stone wall, 2 feet 8 inches high; work above ground hammer-dressed (dimension) with 4-inch dressed coping, surmounted by an iron fence, with three wagon-roadway gates 14 feet wide, and one small gate 4 feet wide	Submitted				7,500 00		
NOTE.—The present fence is of wood, and requires constant repairs. True economy would be best observed in the construction of a permanent iron fence, and the appearance of the arsenal grounds would be greatly improved thereby.							
Purchase of about four acres of land, lying between the south side of the arsenal grounds and Arsenal street, a distance of about 125 feet	do				14,000 00		
NOTE.—In this connection attention is respectfully invited to previous recommendations for the purchase of this land, and to the recommendations as given in Executive Document No. 48, House of Representatives, Forty-second Congress, Third Session. The early acquisition of this property cannot be too strongly urged. The city is growing quite rapidly in this direction, and if the land is not soon purchased, at the price (\$14,000) named by the owner, it will most probably pass into the hands of various private purchasers, receive improvements, and its cost to the Government at some future time largely increased.							
Repairing and painting roofs, gutters, &c., of public buildings, fences, roads, walks, &c.; purchase of trees and shrubbery; and general repairs of the post	do				1,500 00		23,000 00
NOTE.—In this hot, dry climate, all buildings and dressed fencing require frequent repainting to insure their proper preservation. It is not thought a less sum than that asked for will be sufficient to keep the post in proper repair.							
<i>Vancouver Arsenal, Vancouver, Wash. Ter.—</i>							
Repairing and painting public storehouses, quarters, barracks, erecting temporary sheds, &c.	Submitted						3,500 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
<i>Washington Arsenal, Washington, D. C.—</i>							
Repairing storehouses, workshops, quarters, barracks, roads, sewers, &c.....	Submitted.....				\$5,000 00		
Building new wharf at southwest corner of the grounds, in place of the present one, which is so badly decayed that it cannot be used.....	do.....				3,650 00	\$8,650 00	
<i>Watertown Arsenal, Watertown, Mass.—</i>							
Repair of roof to laboratory-building.....	Submitted.....				2,000 00		
4,500 feet of enclosing-fence, at 50 cents per foot.....	do.....				2,250 00		
Repairing buildings, roads, drains, grounds, sea-wall, &c.....	do.....				5,000 00	9,250 00	
NOTE.—This amount is absolutely necessary to protect the public grounds and preserve the buildings, &c., from rapid decay.							
<i>Watervliet Arsenal, West Troy, N. Y.—</i>							
Preservation and repair of enclosing-wall, roads, buildings, and bridges, and repainting metal roof.....	Submitted.....				6,500 00		
NOTE.—The wall needs extensive repairs, a number of places requiring to be taken down and rebuilt. The buildings for some years past have had very little expended upon them; therefore the whole of this sum will be required.							
Removing old brick arsenal, now subject to overflow during freshets, in addition to value of old material, and extending the iron fence over the space occupied by it.....	Submitted.....				1,000 00	7,500 00	
NOTE.—This building can be spared, and should be removed as prescribed in the permanent plan adopted for this arsenal. It is becoming much dilapidated, and must be repaired if not removed. It is out of position, the last of the original arsenal-buildings, and it is not advisable, therefore, to expend money in repairs.							
<i>Sandy Hook Proving-Ground, Sandy Hook, N. J.—</i>							
Expenses of repairs and alterations of buildings.....	Submitted.....				2,000 00		
Powder-magazine, to accommodate 2,500 barrels of powder, 60 feet by 30 feet, with drainage, embankments, exterior pavements, &c.....	do.....				10,000 00		
NOTE.—It may be said that we are comparatively destitute at the proving-ground of storage facilities for powder, only a small extemporized storeroom being available. The habit has been to send to the proving-ground small supplies from time to time, as necessity demanded, from the small fort magazines at Governor's Island. These latter have since been vacated by order of the War Department, and the only receptacles now at our command are the wooden extemporized shelters at Fort Lafayette. There are now stored at that place about 1,000 barrels of good powder, and 4,300 barrels of damaged and unsuitable powder, for sale. The same grave causes which led to the removal of the powders from Governor's Island demand the removal of our powder from Fort Lafayette, to wit, the dangers to the inhabitants in that locality contingent on the storage of large quantities of explosive materials in their midst. These dangers cannot be overrated, and sound policy and good judgment should dictate the removal of our powders from Fort Lafayette as soon as storage can be provided elsewhere in the harbor of New York. Sandy Hook is our only resource. It is open to the objection of being a damp location, but no more so than Fort Lafayette; and it is not obnoxious to the prime necessity of keeping powder away from thickly-inhabited locations. The storage of powder to some extent in New York harbor, is a necessity for temporary wants and for proving-ground purposes; and \$10,000 will be well expended in providing for what has been felt as a necessity since the proving-ground was established.							
Quarters and accommodations for sixty men, mechanics, and laborers at the proving-ground.....	do.....				15,000 00		
NOTE.—The mechanics and laborers at Sandy Hook are now accommodated in old, dilapidated wooden buildings belonging to the Engineer department. The rooms are uncomfortable in cold or inclement weather. No sitting or wash-rooms are provided; no conveniences for subsisting exist, provision for cooking and eating being made in a separate and somewhat distant structure. In addition, the buildings being the property of the Engineer department, the Ordnance department is liable at any time to be deprived of their use. Repairs, to make them comfortable, would be costly, and, in fact, injudicious, owing to their decayed and dilapidated condition. A new structure of wood, sufficient to accommodate say sixty men, should be erected.							
Building for storage purposes at the proving-ground.....	do.....				2,500 00		
NOTE.—A building for the storage of field-cannon and gun-carriages, tools, and other stores, required for use at the proving-ground, is requisite, and should be provided. No provision whatever is now made for storage purposes.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Sandy Hook Proving-Ground, Sandy Hook, N. J.—Continued.</i>							
For clearing, levelling, grading, and building roads and walks at the proving-ground	Appropriated.	21	34	1	\$5,000 00		
NOTE.—For target-ranges at the proving-ground. These will extend nearly four miles down the beach and will require considerable work. Plank-roads, with railroads, should be built to save expense and time in communicating from place to place on the grounds.							
Erecting small shed on wharf, and for necessary repairs to wharf, targets, butts, bomb-proofs, &c., telegraphic appliances, &c	do				5,000 00		
					39,500 00		
NOTE.—A shed on the dock, for temporary storage purposes, in rough weather, of small supplies, is also needed. Seven thousand five hundred dollars was appropriated by the act of June 23, 1879, (21 Stat., 34,) "for levelling, clearing, and grading range-ground at Sandy Hook common, building plank-roads, targets, cranes, and similar necessaries, and for telegraph-poles and wires for ballistic instruments," and "for quarters for superintendent of the proving-ground at Sandy Hook," and the items are included in the sum appropriated, \$182,500, under the title "Armament of Fortifications," in the estimates for the Military Establishment.

Construction of iron conservatory at Executive Mansion.....	do.....				17,500 00		
						\$112,500 00	\$42,500 00
NOTE.—The necessity of putting in order many of the unimproved reservations, particularly those on Capitol Hill, in the vicinity of the extensive private improvements made in that section of the city, is strongly urged by the officer in charge of the public grounds. The points he deems to require immediate attention are Seward Place, at intersection of Pennsylvania and North Carolina avenues; reservation on South Carolina avenue, between Fourth and Sixth streets, east; reservation on North Carolina avenue, between Second and Third streets, east; reservation on New Jersey avenue, northwest; and commencing improvement of reservation No. 17, and the grounds to the northwest of it, reclaimed by filling in the old canal. As to this last the officer in charge is of opinion that it can be rendered not only an attractive park, connecting with the stretch of park terminating at the Botanical Gardens, but it is believed a row of forest trees in this locality would act as a screen to the Capitol for the miasmatic vapors approaching that building from the southwest and the Potomac flats. Estimates for these improvements are accordingly submitted.							
<i>Repair, Fuel, &c., Executive Mansion—</i>							
Care and repair of Executive Mansion.....	Appropriated.	20	388	1	10,000 00		
Refurnishing Executive Mansion.....	do.....				30,000 00

		Vol. or R. S.	Page.	Sec.						
Construction, Maintenance, and Repairs of Military-Telegraph Lines— For the construction and continuing the construction, maintenance, and use of military-telegraph lines on the Indian and Mexican frontiers, and in the Northwest; for the connection of military posts and stations, and for the better protection of immigration and the frontier settlements from depredations, especially in the State of Texas, and the Territories of New Mexico, Arizona, Dakota, Washington, and Wyoming, and the Indian Territory, under the provisions of the acts approved March 3, 1875, and June 20, 1878	June 3, 1874 June 23, 1874 Appropriated.	18 18 20	51, 2 223 336	1 1 1	} -----	\$75,000 00	\$90,000 00			
NOTE.—The \$90,000 appropriated for the fiscal year 1880 includes \$20,000 for extension of the military-telegraph lines from Fort Buford to Helena, Dakota [Montana] Territory, and \$20,000 for extension of the military-telegraph lines from Fort Elliott, Texas, westward.										
Total Signal Office								450,000 00	465,000 00	
MISCELLANEOUS OBJECTS.										
National Cemeteries— Maintaining and improving national cemeteries	} ----- Appropriated.	R. S. R. S.	943 944	4870 4879	} -----	\$100,000 00	\$100,000 00			
Superintendents of National Cemeteries— Pay of seventy-one superintendents of national cemeteries		21	33	1				59,720 00	59,000 00	
Survey of Northern and Northwestern Lakes— Reduction of the field-work of the lake survey; for preparation and publication of the final report; for printing charts for the use of navigators; for continuance of water-level observations; for aid to State surveys, and miscellaneous	Appropriated.	20	388	1	44,800 00	85,000 00				
NOTE.—Five charts remain to be completed in the office, and engraved on copper. About six thousand charts are now printed and issued each year for use of navigators.										
Transportation of Reports and Maps to Foreign Countries— Transportation of reports and maps to foreign countries through the Smithsonian Institution	Submitted				500 00					
NOTE.—Publications as donations or exchanges sent to foreign countries were formerly transported free of charge through the Smithsonian Institution. On the 1st of January, 1879, the Institution issued a circular giving notice that a charge for such transportation would thereafter be made at the rate of five cents per pound. The Smithsonian Institution is the most convenient and advantageous medium for transmitting publications to institutions, scientists, &c., abroad, as donations or exchanges. In nearly all cases the books and maps exceed the weight and dimensions allowed in the foreign mails. Express-charges are greatly in excess of five cents per pound.										
Publication of Official Records of the War of the Rebellion— Compensation of temporary clerks and other employes; the collection of such confederate records as may be placed, by gift or loan, at the disposal of the Government; the rent of necessary offices; and for fuel, stationery, and incidental expenses, viz: Compensation of clerks and other employes Travelling expenses of agent Rent of offices, fuel, stationery, and incidental expenses Extra compensation to two clerks in Adjutant General's office Composition, stereotyping, and printing of proof copies, under the direction of the Secretary of War, of a compilation of the military records both of the Union and confederate armies (other than maps) for the period ending on or about December 31, 1861	Mar. 3, 1879 do do Submitted do	20 do do do do	388 do do do do	1 do do do do	\$35,880 00 1,200 00 3,400 00 400 00 9,000 00	49,880 00	40,490 00			
Expenses of Military Convicts— Payment of costs and charges of State penitentiaries for the care, clothing, maintenance, and medical attendance of United States military convicts confined in them	Appropriated.	20	388	1	16,000 00	16,000 00				
Postage to Postal-Union Countries— For postage-stamps for the War Department and its bureaus, as required under the Postal Union, to prepay postage on matter addressed to Postal-Union countries	Appropriated.	20	389	1	5,000 00	2,600 00				
NOTE.—Ten thousand dollars was appropriated by the act of March 3, 1879, for official postage-stamps for the Executive Departments to prepay postage on matter addressed to Postal-Union countries, of which sum \$2,600 was allotted to the War Department by Treasury Department, letter dated March 21, 1879.

Providing surgical appliances for persons disabled in the military or naval service of the United States, and not otherwise specially provided for.....	Appropriated.....	20	389	1	3,000 00	1,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1881—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1880.
		Vol. or R. S.	Page.	Sec.			
<i>Artificial Limbs—</i>							
Furnishing artificial limbs and appliances, or commutation, therefor, and transportation.....	----- Aug. 15, 1876 Appropriated.	R. S. 19 20	929 203 389	4787, 4791 1,2 1	-----	\$350,000 00	\$100,000 00
NOTE.—Under Revised Statutes, 4787, and the act of August 15, 1876, artificial limbs are furnished once in five years. The third period of five years begins June 17, 1880, and the greater part of the claimants may be expected to apply during the year following. The amount required in 1875 is estimated to have been greater than that now asked for.							
<i>Support of National Home for Disabled Volunteer Soldiers—</i>							
Current expenses, including construction and repairs at the Central branch, Dayton, Ohio.....	Mar. 3, 1875 Appropriated.	R. S. 18 20	937 360 390	4830 1 1	\$611,330 29		
Current expenses, including construction and repairs at the Eastern branch, near Augusta, Maine.....	Same acts.....				146,802 75

<i>Contingent Expenses of Land Offices—</i> Incidental expenses of the several land offices	June 23, 1874 Mar. 3, 1875 Mar. 3, 1879	18 18 20	213 384 392	1 1 1	}	\$100,000 00	\$100,000 00		
NOTE.—The amount asked for under this head is intended to cover allowances for office-rent, clerk-hire, &c., as well as for fees heretofore retained by the district officers, collected under sections 2238 and 2239, Revised Statutes, and not properly accounted for. Under the corrected practice all such fees must be covered into the Treasury, and will stand as an offset to this appropriation, which will be disbursed by proper account and requisition according to law, upon allowances for rent, clerk-hire, &c., under the express authority of the Secretary of the Interior, previously obtained. There are nearly one hundred district offices already established by law, and others are liable to be created from time to time. The amount submitted will barely suffice to cover the proper and necessary allowances. See Appendix, marked "D."									
<i>Expenses of Depositing Public Moneys—</i> Expense of depositing money received from the sale of public lands	June 23, 1874 Mar. 3, 1875 Mar. 3, 1879	R. S. 18 18 20	713 213 384 392	3617 1 1 1				}	13,000 00

For the settlement of claims for swamp-lands and swamp-land indemnity	June 28, 1879	21	41	1	40,000 00	15,000 00
Total Public Lands						823,900 00	575,500 00
SURVEYING THE PUBLIC LANDS.							
<i>Surveying Public Lands—</i>							
At rates not exceeding \$12 per linear mile for standard and meander lines, \$10 for township, and \$8 for section lines, except that the Commissioner of the General Land Office may allow for the survey of standard and meander lines through lands heavily timbered, mountainous, and covered with dense undergrowth, a sum not exceeding \$16 per linear mile for standard lines, \$14 for township, and \$10 for section lines	R. S.	438	2395	}	\$400,000 00	\$300,000 00
Appropriated		20	392	1			
<i>Surveying Private-Land Claims in California—</i>							
Surveying confirmed private-land claims in California at the rates per mile prescribed by law, and office-expenses	R. S.	390	2223	}	10,000 00	7,500 00
Appropriated		20	392	1			
<i>Surveying Private-Land Claims in New Mexico—</i>							
For the preliminary survey of unconfirmed and survey of confirmed private-land claims in New Mexico at a rate not exceeding \$16 per linear mile, and office-expenses	R. S.	390	2223	}	6,000 00	10,000 00
Appropriated		20	392	1			
<i>Surveying Private-Land Claims in Arizona—</i>							
For the preliminary survey of unconfirmed and survey of confirmed private-land claims in Arizona at a rate not exceeding \$16 per linear mile, and office-expenses	R. S.	390	2223	}	8,000 00	15,000 00
Appropriated		20	392	1			
<i>Examination of Public Surveys—</i>							
Occasional examination of public surveys in the several surveying-districts, in order to test the accuracy of the work in the field, inspect mineral deposits, coal-fields, timber districts, &c.	R. S.	390	2223	}	15,000 00	8,000 00
Appropriated		20	392	1			
NOTE.—\$15,000 is estimated to cover expenses of examiners, to be designated by the Commissioner of the General Land Office or surveyors-general, to test the fidelity of the execution of the field-work; also to enable surveyors-general to satisfy themselves of the correctness of surveys returned to them for their examination and approval, and to secure thereby a faithful execution of the work by deputy surveyors.							
<i>Survey of Boundary between the Territories of Montana and Dakota—</i>							
Survey of the boundary line between the Territories of Montana and Dakota, being so much of the 27th meridian of west longitude from Washington Observatory as is included between the 45th and 49th parallels of north latitude, at the rate of \$70 per linear mile, estimated distance, two hundred and seventy-eight miles	Submitted			19,460 00	
NOTE.—The \$19,460 is submitted for the purpose of establishing the boundary, in order to define the political jurisdiction of the Territories of Montana and Dakota, so that the respective inhabitants may know to which particular Territory their rights of citizenship belong. The boundary is needed in order that the lines of public surveys projected from different bases and meridians may be closed thereon; also to enable settlers to apply to the proper land offices to secure their claims.							
<i>Survey of Boundary between the Territories of Arizona and Utah—</i>							
Survey of the boundary line between the Territories of Arizona and Utah, being so much of the 37th parallel of north latitude as is included between the 32d and 37th meridians of west longitude from Washington Observatory, at the rate of \$75 per linear mile—estimated distance, two hundred and seventy-seven miles	Submitted			20,775 00	
NOTE.—The \$20,775 is submitted for the purpose of establishing the boundary, in order to define the political jurisdiction of the Territories of Arizona and Utah, so that the respective inhabitants may know to which particular Territory their rights of citizenship belong. The boundary is needed, in order that the lines of public surveys projected from different bases and meridians may be closed thereon; also to enable settlers to apply to the proper land offices to secure their claims.

		Vol. or R. S.	Page.	Sec.			
<i>Appraisalment and Sale of Fort Dalles Military Reservation in Oregon, and other Abandoned Military Reservations—</i>							
Appraisalment of the lands and buildings erected by the United States, and sale of the same to the highest bidder, per act of March 3, 1877, (19 Statutes, page 406,) and act of February 24, 1871, (16 Statutes, page 430).....	Submitted				\$5,000 00		
<i>Reconnoissance of Surveying-Districts—</i>							
Preliminary examination of the surveying-districts by surveyors-general, to enable them to let contracts for the survey of public lands of the classes allowed by law	Submitted				15,000 00		
NOTE.—The sum of \$15,000 is needed to cover expenses of examinations in the field by surveyors-general, to enable them to ascertain where public surveys are most needed by settlers, and what lands are of a surveyable character, so that they may avoid expending appropriations in surveying sterile and waste lands.							
<i>Retracing and Reproduction of Worn and Defaced Official Township-Plats—</i>							
To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of surveys now on file, and constituting a part of the records of said office.....	Appropriated.	20	393	1	20,000 00	\$12,000 00	
NOTE.—The sum of \$15,000 is required to prevent a total obliteration of designations on official township-plats, defaced and mutilated by constant use during a period of eighty years, thus rendering them unreliable in furnishing certified copies under the provisions of an act of Congress, approved July 2, 1864. (Statutes, vol. 13, page 375, Revised Statutes, section 461.) In reference to the estimates for surveying the public lands, see Appendix, marked "D."

		Vol. or R. S.	Page.	Sec.			
ENTOMOLOGICAL COMMISSION.							
<i>Current Expenses, United States Entomological Commission—</i>							
Current expenses of the United States Entomological Commission in the investigation into the habits of the Rocky-Mountain locust, the cotton-worm, and other insects injurious to the cotton-plant and to agriculture, with a view of ascertaining how best to prevent their injuries; and for office-rent in the city of Washington, D. C., not to exceed \$500 per annum, the sum of \$25,000, to be immediately available	Appropriated.	20	397	1	}	\$25,000 00	\$15,000 00
	Appropriated.	21	29	2			
<p>NOTE.—\$10,000 of this sum is required for continuing investigations in the States and Territories of the northwest, and in British America, where lie the permanent breeding-grounds of the Rocky-Mountain locust, in order to still further perfect our knowledge thereof, and thus the better to prevent the disastrous migrations therefrom; also to enable the commission to make timely reports to the farmers of the Mississippi valley as to the prospects, and forewarn them when there is or is not danger of injury. The remaining \$15,000 is for continuing and completing the investigation into the insects injurious to the cotton-plant, and of other insects injurious to agriculture, with a view of ascertaining the best means of preventing their injuries. The losses sustained by the planters of the south from the ravages of the cotton-worm, amount in some years to thirty millions of dollars. The subject is of such importance that a full and thorough investigation is desirable. As may be gathered from Bulletin No. 3 of the Commission, the work already done has given correct knowledge where before there was nothing but conflicting theory, and has materially reduced the cost of protecting the crop; but there is so much yet to be done, that the sum estimated is required to enable the Commission to do complete and exhaustive work that shall prove of value for all time to come.</p>							
TENTH CENSUS.							
<i>Expenses of Tenth Census—</i>							
Expenses of enumeration and compilation	Mar. 3, 1879	20	480	20	2,750,000 00	250,000 00
Printing and engraving, \$125,000.							
<p>NOTE.—The act of March 3, 1879, by its 20th section, provides as follows: "The sum of three millions of dollars is hereby fixed and limited as the maximum cost of the census herein provided for, exclusive of printing and engraving; and it shall not be lawful for the Secretary of the Interior or the Superintendent of Census to incur any expense or obligation whatever, in respect to said census, in excess of that sum. And the sum of two hundred and fifty thousand dollars for printing and other preliminary expenses is hereby appropriated out of any money in the Treasury not otherwise appropriated, which sum shall form part of the three millions fixed as the cost of the census."</p> <p>The appropriation of \$2,750,000, asked for above, covers the balance of the sum of \$3,000,000, the expenditure of which is thus contemplated by law.</p> <p>The appropriation of \$125,000 is for expenses of printing the statistical tables, and engraving and printing the statistical charts of the census.</p>							
GOVERNMENT HOSPITAL FOR THE INSANE.							
<i>Current Expenses, Government Hospital for the Insane—</i>							
Support, clothing, and treatment in the Government Hospital for the Insane, of the insane of the Army and Navy, Marine Corps, and Revenue-cutter Service, and of all persons who have become insane since their entry into the military or naval service of the United States and who are indigent, and of the indigent insane of the District of Columbia	R. INDEFINITE.							
EXECUTIVE.							
UNDER THE TREASURY DEPARTMENT.							
<i>Return of Proceeds of Captured and Abandoned Property—</i>							
Indefinite appropriation for the return of proceeds from the sale of captured and abandoned property to the owners thereof, who may, to the satisfaction of the Court of Claims, prove their right to and ownership of said property.....		R. S.	724	3689	\$50,000 00	\$50,000 00	\$42,057 93
<i>Refunding Taxes Illegally Collected—</i>							
Indefinite appropriation to refund to persons money collected from them without warrant of law, as in payment of dues under the direct-tax laws.....		R. S.	724	3689	200 00	200 00	
<i>Refunding the National Debt—</i>							
Indefinite appropriation of one-half of one per cent. of the amount of bonds authorized under this act, to pay the expenses of preparing, issuing, and disposing of the same.....		R. S.	725	3689	500,000 00	500,000 00	1,915,975 11
<i>Sinking-Fund—</i>							
Indefinite appropriation of one per cent. of the entire debt of the United States, to be set apart as a sinking-fund for the purchase or payment of the public debt in such manner as the Secretary of the Treasury shall from time to time direct.....	April 17, 1876	R. S.	725	3689	} 23,116,358 38	23,495,674 82	} 36,955,604 63
		19	33	2			
Indefinite appropriation of an amount equal to the interest on all bonds belonging to the sinking-fund, to be applied, as the Secretary of the Treasury shall from time to time direct, to the purchase or payment of the public debt.....	April 17, 1876	R. S.	724	3688	} 16,711,867 34	14,435,968 73	
		19	33	2			
NOTE.—The amount actually required for the sinking-fund cannot be accurately determined at the time the estimate is made, as it depends upon what the principal of the debt may be seven months subsequently. Changes are liable to occur in the outstanding amount represented by coin-certificates, certificates of deposit, and fractional currency—which are considered as a part of the debt—as also in the accrued interest which may be due on the bonds obtained for the fund.

APPENDIX.

APPENDIX

APPENDIX.

APPENDIX A.

In reference to the Estimate for Salaries, Office of the Secretary of the Treasury, and the consolidation of the force of the Secretary's Office, the Register's Office, and the First Auditor's Office. (See pages 15, 17, and 20.)

TREASURY DEPARTMENT, October 1, 1879.

SIR: In preparing the estimates for the fiscal year ending June 30, 1881, a consolidation of the loan and other force in each of the offices of the Secretary of the Treasury, the Register of the Treasury, and the First Auditor, has been made. Such consolidation was favorably considered by the appropriation committees of both Houses and incorporated in the legislative bill of last year, but owing to the failure of that bill the law still requires the division of force in those offices. It may be added that a consolidation of the force of the United States Treasurer's office, in the manner above recommended, was authorized by the act of June 19, 1878.

In connection with the estimates submitted for the salaries of the Secretary's office, attention is called to the statement, herewith, showing the force provided for and the amounts appropriated for each of the fiscal years from 1876 to 1880, inclusive. By comparing 1876 with 1880, a marked reduction will be observed, not only in the number of employes, but in the aggregate sum appropriated. In 1876 there were four hundred and eighty-one persons borne upon the rolls of the Secretary's office, while for the present year the number is but three hundred and sixty-nine—a reduction of more than 23 per cent. in the last three years, and of \$123,691 in the amount appropriated. In addition to the foregoing reduction, the appropriation for temporary clerks, which has averaged \$60,000 for the past four years, and which was largely used in this office, has been discontinued.

No corresponding reduction appears in the work of the Secretary's office; but, on the contrary, the business appears to have increased. The number of letters sent in 1876 was 70,595; in 1878, 82,072; and in 1879, 84,304. The division of special agents since 1876 has been transferred to this office, requiring a force of four clerks. In 1876 there were employed in the Secretary's office seventeen clerks belonging to other offices, and thirty-four temporary employes. At present there are only ten from other offices, and no temporary clerks; and the general reduction of force throughout the Department renders it difficult to obtain from other offices the additional clerical force necessary to properly perform the increasing work of this office. It is thought that to properly perform the duties of the office there should be provided, in addition to the force estimated for, one clerk at \$2,000, nine clerks at \$1,800, three clerks at \$1,600, and two clerks at \$1,400 each, per annum. There is already a sufficient force to do the copying and routine work, but it is essential that a portion of the higher grades of clerks should be restored as suggested.

In reference to the watchmen and laborers employed, attention is called to the fact that the number now provided for is insufficient to properly care for and protect the building.

Very respectfully, your obedient servant,

Hon. JOHN SHERMAN,
Secretary of the Treasury.

J. K. UPTON,
Chief Clerk.

Statement showing the Reduction by law in the Clerical and other force in the Office of the Secretary of the Treasury, from 1876 to 1880.

* Increase.

APPENDIX B.

Explaining Estimates of the Assistant Treasurer at New York. (See page 25.)

OFFICE OF ASSISTANT TREASURER U. S.,
New York, October 10, 1879.

SIR: I have the honor to transmit herewith our estimates for salaries for this office for the fiscal year commencing July 1, 1880. The total amount asked for is, as you will notice, \$16,360 in excess of the appropriation for the present fiscal year. This is a large increase, but it is rendered necessary by the steady growth of the business of the office, which, for the past nine months, shows a total of receipts and disbursements greater than for any complete year within my knowledge.

This result is due to a variety of causes, amongst which may be mentioned the redemption of minor silver coin; the payment of interest on the public debt by quarterly-interest checks; the opening of new accounts with pension agents and other disbursing officers; and the general tendency in the public business of every kind, involving the receipt and payment of the public moneys, to gravitate to this city. We were entirely unable to get through with so much additional work with our usual force, and were compelled sometime since to ask the Department to increase it.

I beg leave to add that these estimates are based on the present business of the office, and the belief that, through the operation of the causes already mentioned, it will increase rather than diminish in the future. It is hardly necessary to remark that, with transactions constantly expanding in amount and variety, it is neither safe nor expedient to restrict an office like this to a fixed number of clerks. The number required to perform the labor must be in proportion to the labor to be performed, or the safety of the public moneys must be put at hazard in the hurry, confusion, and mistakes that must ensue from attempting to manage them with an insufficient force.

Very respectfully,

THOS. HILLHOUSE,
Assistant Treasurer U. S.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

OFFICE OF ASSISTANT TREASURER U. S.,
New York, October 1, 1879.

MEMORANDUM.

Estimate for year ending June 30, 1881.....	\$165,430
Appropriation for year ending June 30, 1880	149,070
Increase.....	16,360
Say—	
Two additional clerks, at \$1,800 each.....	\$3,600
Two additional clerks, at \$1,600 each.....	3,200
Two additional clerks, at \$1,500 each	3,000
Two additional clerks, at \$1,400 each.....	2,800
Chief of minor-coin division.....	2,400
Additional pay to keeper of building.....	200
Additional pay to engineer.....	200
Additional pay to six watchmen, \$10 each	60
One additional porter, at.....	900
	16,360

OFFICE OF ASSISTANT TREASURER U. S.,
New York, October 17, 1879.

SIR: I have the honor to acknowledge the receipt of your letter of October 16, with reference to increasing the appropriations of this office for the next fiscal year. Estimates therefor, together with an explanatory letter, were submitted to the Department on the 10th instant, to which I beg leave to refer you. It will be seen, from the memorandum accompanying the estimates, that there are eight additional clerks asked for, namely, two at \$1,800; two at \$1,600; two at \$1,500, and two at \$1,400. In addition to these, I have included a chief for the minor-coin and fractional-currency division, at a salary of \$2,400. The appropriation for the salary of this officer was left out of the bill for the fiscal year 1877-78, but inserted in that for the present fiscal year, which failed to pass. I have also asked for an additional compensation of \$200 for the superintendent of the building and the engineer, and for an additional porter, at \$900. The total increase over the appropriations for the present fiscal year amounts to \$16,360.

The necessity for this addition to our clerical force, and, as a consequence, to the cost of conducting the office, was briefly explained in my previous letter accompanying the estimates. At first view it may seem inexpedient, but a careful consideration of the business of the office during the past year will, I hope, lead to the opposite conclusion. Indeed, if the cost of conducting this office is reduced to its percentage on the annual receipts and disbursements, it will be, to say the least, no greater with the increase asked for than it has been heretofore. I base this conclusion on the fact that our total transactions for the nine months, from January 1 to October 1, exceed those for any previous complete year, and this is exclusive of our refunding operations.

Of course, in estimating for any period in the future, we are forced to reason somewhat on probabilities. It is possible that this year may prove an exceptional one, and that our transactions may remain stationary, or perhaps even

diminish in volume; but with the present tendency of public business to seek this point, it would hardly be safe to act on such an inference. The total credits to pension agents on our books in 1870 was \$1,749,000. For the nine months from January to October, this year, they were \$29,015,000. These facts, and others pointing to the same conclusion, it seemed to me, should not be overlooked, and consequently they were taken into account in preparing our estimates just submitted.

Very respectfully,

THOS. HILLHOUSE,
Assistant Treasurer U. S.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

APPENDIX C.

Explanation of the Estimates for Mints and Assay Offices. (See pages 27 to 29.)

TREASURY DEPARTMENT,
Office of Director of the Mint, Washington, D. C., October 1, 1879.

SIR: I have the honor to transmit herewith estimates of appropriations for the support of this office and the mints and assay offices of the United States for the fiscal year ending June 30, 1881.

The amounts asked for to be appropriated are based upon the present coinage under existing law.

I have recommended in some cases increases over the present appropriations, but the aggregate amount of the estimates is \$6,970 less than the appropriations for the current fiscal year.

I submit the following explanations in relation to certain increased and new appropriations asked for, viz:

OFFICE OF THE DIRECTOR.

I have recommended an increase of \$100 in the salary of the examiner. The responsible duties of the position entitle this officer to the salary requested, \$2,400, which was also recommended by my predecessor.

I have estimated for one clerk, at a salary of \$1,000 per annum, in the place of an "assistant messenger," for the reason that I have been compelled to employ the person occupying the latter position at clerical duties, and the compensation should correspond with the duties performed.

I have estimated for an "assayer," at a salary of \$2,200 per annum, and \$500 for chemicals, &c., for an assay laboratory, an appropriation for fitting up which was asked in the deficiency estimates for the current fiscal year, and the necessity for the same stated in the letter of this date transmitting those estimates.

If the deficiency appropriation for fitting up the assay laboratory is made, the importance of a skilled and competent person to have charge of the same is apparent.

I have asked an increased appropriation for freight on bullion and coin between the mints and assay offices for the reason that it has usually required the amount asked for and will probably require it during the next fiscal year.

MINT AT PHILADELPHIA.

An increase of \$250 is submitted in the salary of the chief clerk, which, if granted, will make the salary of that officer the same as paid similar positions in the San Francisco mint and the New York assay office. The increase is strongly urged by the Superintendent and I think should be made.

The amount estimated for wages of workmen and that for contingent and incidental expenses at the Philadelphia mint are each \$10,000 in excess of the appropriations for the same purposes for the current fiscal year. The estimates are based upon the present rate of expenditure at that institution, and the probability that the coinage and other work will continue, during the next fiscal year, to require the mint to be run to its full capacity.

As will be seen, the estimates for the same purposes at San Francisco and Carson have been correspondingly reduced.

An increase of \$5,000 in the appropriation for wages at New Orleans is asked, being about the rate of the present expenditure for that purpose, which it is estimated the coinage that mint will be required to perform during the next fiscal year will render necessary.

An increase of \$200 in the salary of the chief clerk at Denver is submitted.

At present there are two clerks provided for at \$1,600 per annum at that mint, one of whom performs the duties of chief clerk and has charge of the mint in the absence of the assayer.

I have estimated for one clerk at \$1,600, and a chief clerk at \$1,800, the latter being the salary formerly attached to the position and which it would seem proper the chief clerk should receive.

An increase of \$500 is asked for in the appropriation for labor and incidental expenses at the Charlotte assay office, for the reason that the business of that office has largely increased and the amount appropriated for this purpose for the current fiscal year is considered inadequate.

Very respectfully,

HORATIO C. BURCHARD,
Director.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

APPENDIX D.

Explanation of the Estimates of the Commissioner of the General Land Office. (See pages 48, 53, and 169.)

DEPARTMENT OF THE INTERIOR,
General Land Office, Washington, D. C., October 10, 1879.

SIR: I have the honor to submit herewith the estimates, in duplicate, for appropriations for this office, and the public service under the supervision of this office, for the fiscal year ending June 30, 1881, as follows:

First. For salaries of the employés of the General Land Office, \$327,920.

Second. For contingent expenses, connected and separate United States and other maps, printing and binding, salaries and commissions of registers and receivers of district land offices, expenses of depositing public moneys, and for protection of timber on public lands, \$862,000.

Third. For compensation of surveyors-general and the clerks in their offices, \$184,100.

Fourth. For contingent expenses of the offices of surveyors-general, \$37,900.

Fifth. For surveying the public lands, private-land claims, boundary surveys between Territories, appraisement and sale of lands and buildings of abandoned military reservations; reconnaissance of the surveying districts, examination of public surveys in the field, retracing and reproduction by photo-lithography of worn and defaced official township-plats, \$519,235.

Sixth. Estimates of deficiencies in the appropriations for the years 1869 to 1879, \$21,412 18—making a total sum of \$1,952,567 18.

In submitting these estimates for appropriations, I desire to say that every dollar estimated for is, in my opinion, actually necessary, under existing laws, for the survey and sale of the public lands and the adjudication of private-land claims; they conform substantially to those submitted last year, which you will remember, at your suggestion, were placed at the very lowest amounts possible to conduct the business devolved upon this and the various local land offices and surveyors-general offices by existing laws, with the exception of the item for the office of Assistant Commissioner.

In support of this item, I desire to say that the large increase of business from year to year, the enactment of new laws and modification of those in force, rendering the duties of the office of Commissioner more complicated and difficult to perform, and the additional duties imposed upon the Commissioner by the late act of March 3, 1879, as a member of the public-land commission, combine to render the office of Assistant Commissioner, as estimated for, an imperative necessity.

The business of this office has increased from year to year, from 1875 up to the present time, as follows: During the year 1875, there were disposed of by the United States, under the various settlement laws, 3,565,989 acres; 1876, 4,124,586 acres; 1877, 3,439,538 acres; 1878, 7,166,334 acres; and in 1879, 8,650,000 acres. This statement does not include lands disposed of by grants to States or private corporations, but land actually taken by actual settlers in tracts ranging from 80 to 160 acres to each settler, involving a critical examination of the proofs required in each case before final disposition.

The estimates for local land officers do not represent the actual amount of money required to pay the salaries of these officers; they conform to the law which provides that each of the district land officers shall receive a salary of \$500 per annum, and fees and commissions not to exceed \$3,000 each; therefore, as stated in my letter transmitting last year's estimates, the appropriation when made is subject only to the amounts actually earned, based upon the business done by the local officers.

In this connection, I desire to invite your attention to the fact that the salaries earned by the local land officers during the past year, aggregated \$374,406 06, and that the total amount received by said officers as fees and commissions, and turned into the Treasury of the United States pursuant to law, aggregated \$980,319 90; this sum is independent of the proceeds of the sales of public lands for cash. This item, in my judgment, should be taken into consideration when the appropriation for the clerical force of this office and for contingent expenses of local offices is made, as the difference between the \$374,406 06 paid out to the local officers and the aggregate amount of \$980,319 90 by them turned into the Treasury, is in the nature of money paid to the Government for services rendered by the clerical force of this and the local offices in the examination and adjudication of cases.

Very respectfully, your obedient servant,

J. M. ARMSTRONG,
Acting Commissioner.

Hon. C. SCHURZ,
Secretary of the Interior.

APPENDIX E.

Explaining Estimate for Salaries, Office of Commissioner of Indian Affairs. (See page 49.)

DEPARTMENT OF THE INTERIOR,
Office of Indian Affairs, Washington, September 30, 1879.

SIR: In connection with the "estimates" for Indian service for the fiscal year ending June 30, 1881, I have the honor to submit the following explanations relative to such items as ask for an increase of appropriation over amounts appropriated for the current fiscal year:

Salaries, Office of Indian Affairs.—Salary of Commissioner, estimate submitted, \$5,000; increase, \$2,000.

The large and increasing amount of routine business connected with the administration of Indian affairs, renders the position of Commissioner at all times laborious, and for services so exacting and responsible, not less than the amount estimated for should be allowed.

Salary of chief clerk, estimate submitted, \$2,500, increase, \$500. In the absence of the Commissioner, the whole administration of the business of the bureau devolves, by law, upon the chief clerk. For reasons above stated, the salary of chief clerk should not be less than \$2,500 per annum.

Solicitor for the Indian Bureau.—Estimated, \$3,000.

The numerous contracts and bonds, and other instruments relating to the disbursement of the large sums of money intrusted to this office for expenditure, should be made under the careful scrutiny of an able lawyer. Inaccurate drawing of papers, by clerks who are deficient in legal training, is certain to result in financial loss to the office and the Indians. Questions growing out of the relations between Indians and citizens, both of civil and criminal nature, are continually arising, in respect to which this office must advise and direct agents. Defaulting and fraudulent contractors escape the law for the want of a competent solicitor in the bureau to follow them up. Large sums of money could be saved to the Government annually, compared with which the salary of a solicitor would be a trifle. In short, nearly every imaginable question in civil and criminal law, from a simple contract to the construction of treaties, from a mere assault to homicide, and from a simple deed of transfer to the adjustment of the gravest complications in land matters, this office is called upon for decision, opinion, or recommendation. Unsettled matters of great importance are still pending in the office.

To properly protect the large public interests thus involved, pertaining to both whites and Indians, will require all the time of an able officer, whose services, to be commensurate with the labor and responsibility involved, should not be rated at less than the salary recommended.

Three Chiefs of Divisions.—Estimate submitted, \$6,000; increase of \$200 for each.

Chiefs of divisions in the Indian bureau are under great responsibility, while on their executive ability mainly depends the efficiency of the clerical force of the office which is placed under their immediate direction. Services of a like character in the Treasury Department are paid for at the rate of \$2,250 and \$2,500.

Principal Book-keeper, Finance Division.—Estimate submitted, \$1,800; increase, \$200.

The salary of the book-keeper of the Indian Office is not fixed by law, and is at present but \$1,600 per annum. It is hardly necessary to state that this sum is inadequate compensation to procure the services of an experienced accountant, who is expected to keep a strict account, ready of reference, under the many heads and sub-heads of appropriations, of the receipts and disbursements by this office, and its seventy-six agents and superintendants, of six million dollars annually.

Clerks of class three.—Estimate submitted, \$12,800; increase, \$3,200. *Clerks of class two.*—Estimate submitted, \$19,600; increase, \$4,200. *Clerks of class one.*—Estimate submitted, \$15,600; increase, \$3,600.

The large and increasing amount of business in the Indian bureau, occasioned by legislation of Congress, and improved methods adopted by the bureau in the settlement of claims and accounts, render an increase of the force in the higher grades absolutely necessary.

One Messenger.—Estimate submitted, \$840.

The law provides for only two assistant messengers and one laborer. This force is not sufficient to prepare fuel, attend fires, and keep in order twelve rooms, besides performing the strictly messenger service required to carry on the business of the office.

Very respectfully, your obedient servant,

E. A. HAYT,
Commissioner.

The Honorable THE SECRETARY OF THE INTERIOR.

APPENDIX F.

Explaining Estimates of the Commissioner of Patents. (See page 51.)

DEPARTMENT OF THE INTERIOR,
United States Patent Office, Washington D. C., October 17, 1879.

SIR: In submitting my estimate of appropriations for this office for the fiscal year ending June 30, 1881, I have the honor to append the following statement, in explanation of certain changes proposed, involving in some cases increased expenditure.

It has been the practice in this office for many years to employ a considerable force besides that regularly authorized by law, paying them out of the appropriations for contingent expenses and other specific objects; such force, though originally considered temporary, has, through the increase of business, become actually permanent, and the appropriations for it, with special provisions for its payment, have been continued year after year.

In view of the various disadvantages arising from this arrangement, I recommend that in future all persons employed in the office may be paid from one salary appropriation, and my estimates have been prepared with that in view, the estimate for salaries being increased by transferring to it all amounts heretofore estimated for as a part of the contingent appropriation, and other appropriations and the estimates for those objects being reduced accordingly to the actual amounts required to perform the specific duties indicated under the respective heads, without diverting any portion to the employment of clerical or other force.

These changes add to the roll of employes payable out of the appropriation for salaries not less than forty-seven persons of all grades.

The necessity for increasing the examining-corps is apparent to all who are familiar with the office. I propose to make this increase by creating an examiner of designs and increasing the number of assistant examiners to the extent of two for each grade. This recommendation is based upon the supposition that Congress may still disapprove the more extensive increase which I have heretofore recommended, and which, in my report soon to be presented to the Secretary, I shall again recommend. At present applications for design-patents are sent to the different examiners according to the nature of the design. The law for this class of patents, of which about six hundred are annually issued, is special, and both it and the convenience of the office, as well as the decisions of the courts, suggest strong reasons for their separation from all other work of the office. The work of the office would be facilitated and the practice improved by such an arrangement.

The proposed increase in assistant examiners would enable me to assign additional assistants to the examiner of interferences and trade-marks, by whom they are greatly needed, without reducing the force of other divisions.

I propose that the number of clerks of class three be increased to seven by taking two from the clerks of class two. This is a change much to be desired for the proper organization of the clerical force. A similar recommendation is made with respect to clerks of class one and those at \$1,000. Four skilled draughtsmen, at \$1,000, are asked for in place of the same number now employed as temporary draughtsmen, payable on another roll. This force is indispensable. The localities where draughtsmen can be found competent to make good mechanical drawings suitable for the requirements of photo-lithography, are comparatively few, and the demand for such drawings from the office is increasing.

The twenty-six additional copyists are now all employed on the work of the office. Some, however, are employed under different appropriations, and some, though working as copyists, are rated as laborers at the lowest grade of pay. The number of copyists required can hardly be reduced until the specifications of patents issued prior to November, 1866, have been printed.

Five copyists of drawings are required, being the same persons now employed as tracers under another appropriation.

The force of assistant messengers and laborers of different grades is adjusted to the different requirements of the office. A reduction of number is proposed in some grades, and an increase in others; but in the aggregate the number proposed is greater than that now authorized or employed.

The estimates for contingent expenses for the scientific library and for the Official Gazette explain themselves, but attention is again called to the fact that it is proposed to pay no salaries out of either of these.

It is found that the appropriation for photo-lithographing the current issues, which is the same for the current that it was for the previous year, is not quite sufficient to cover the designs and trade-marks, and their reproduction has been unavoidably omitted. I recommend the increase of this appropriation to \$40,000, the amount formerly appropriated for five years in succession. The rule of the office, made to conform with the practice in patent cases, permits the applicant for registration of trade-mark to file a line-drawing of his device, the office undertaking to furnish duplicates without cost. The fees paid in trade-mark cases clearly justify the expenditure, and appropriations should be adequate to cover it.

The estimate for photo-lithographing the burnt and exhausted copies is made for the amount thought to be necessary to complete that work. Congress having determined that it should be done, true economy seems to require, in view of the steady and increasing demand for these copies, that it should be completed as soon as possible. It should not be forgotten that this is work which, prior to the fire of September, 1877, was completed, and the office advertised that copies could be furnished. The failure to furnish them is often a source of embarrassment to the office and its correspondents, while the appropriations hitherto made have been so burdened by provisions for salaries that less has been accomplished than might seem reasonable to have expected.

An annual appropriation of some amount will in future be necessary to reproduce copies exhausted by sale, but it is hardly possible at present to estimate the amount that will be required.

The annual report of the Commissioner for the year 1870 is incomplete for want of the illustrations which should accompany it. The amount estimated is that suggested by the parties who did the same work for the years 1869 and 1871, and appears to be reasonable. There is a great demand for this portion of that report, and I trust that Congress may see fit to authorize its completion.

Very respectfully, your obedient servant,

H. E. PAINE,
Commissioner of Patents.

Hon. CARL SCHURZ,
Secretary of the Interior.

APPENDIX G.

Explanation of the Estimates of the Commissioner of Education. (See pages 52 and 174.)

DEPARTMENT OF THE INTERIOR,
Bureau of Education, Washington, D. C., October 1, 1879.

SIR: I beg to submit a statement in regard to the appropriations asked for the Bureau of Education for the fiscal year ending June 30, 1881.

The clerical force of the office is now hardly sufficient to meet the daily routine of the ordinary official duties, if no reports were made. But the communication of information by reports and otherwise is as much a part of the duty of the office as the collection and preparation of that information; indeed, without the publication of that information, the office wholly fails to meet the educational demands in answer to which the office was created. The requirement to make reports and give information is, moreover, positive—the printing is ordered; but there never was, till the present year, any provision for the large branch of labor and expense involved in their packing, directing, and mailing. This work, therefore, of wrapping, directing, packing, and mailing has, till the present fiscal year, drawn upon the clerical force of the office, and has interfered with its other duties. If the office meet the demands upon it for the ensuing year, the documents distributed will outnumber those of any previous year.

The library of the office demands attention. It should be stated that in 1870 there were not one hundred volumes belonging to it; that it has never had a librarian; that the library is of a purely technical character, intended to contain only those works relating to the subject of education, and useful in preparing reports; and that, while absolutely essential to the efficient administration of the office, it affords the only opportunity of the kind in the country for comprehensive research on this subject. It is now without a catalogue and without an index. Its proper care and its efficient use, either by the office or by special students of the subject of education, require both cataloguing and indexing. A hasty enumeration of its contents last July, showed that it possessed about twenty-eight thousand pamphlets and eleven thousand books, as well as many thousand duplicates. The increase—all that could be expected under the circumstances—I am sure would be much more rapid if persons in different portions of the country interested in it could be assured of a catalogue of what it contains for their use.

The office has also an educational museum, for the care of which no provision is made by law. The articles it contains illustrate educational methods, apparatus, text-books, furniture, buildings, and statistics, both domestic and foreign. These

articles have been furnished partly by different foreign governments, who desire similar articles from this country for their information and guidance. Nearly every civilized country has in some form a museum of this kind for the preservation and display of such articles. I need only mention the South Kensington Museum of Great Britain as an example of the better sort. I have been able, with the co-operation of the Department, to bring the collection of educational appliances into the same building with the rest of the office. The library and museum can now be used together with great advantage to the use of each.

This office has had no means of making any return for donations of articles from foreign nations, and has not been able to accede to their requests in this respect. The usefulness of a distribution of such articles, in limited number, among our State educators, also, cannot be doubted.

Very respectfully, your obedient servant,

JOHN EATON,
Commissioner.

To the Honorable THE SECRETARY OF THE INTERIOR.

APPENDIX H.

Explanation of Estimate for Salaries, Office of Surveyor-General of California. (See page 54.)

SURVEYOR-GENERAL'S OFFICE, CALIFORNIA,
San Francisco, June 18, 1879.

SIR: * * * For compensation of clerks and draughtsmen, \$20,000.

This amount is really necessary for a proper performance of the duties of the office, which include the very large correspondence; the explanation of difficult points in surveying, often requiring the examination of authorities and previously-executed surveys; making out contracts, instructions, copies of field-notes; copies of notes and sketches for deputy surveyors; the examination of field-notes of surveys made under appropriation; the platting of about 200 original maps, most of which are very complicated, owing to the mountainous character of the country; the closing of the subdivision lines upon the irregular boundaries of private-land grants and mining claims, and errors discovered in former surveys; preparing duplicate copies of maps and field-notes; making amendments to maps and notes; keeping the accounts of special deposits by individuals during the year, and preparing and keeping the accounts of employes on work done under the appropriation.

Much of the time of the employes is consumed in properly taking care of the large number of maps, records, and public documents which under the law are subject to public inspection by any citizen, thereby requiring at least one competent and trustworthy person to attend to the daily applications for access to them.

The foregoing enumerates but a portion of the regular work of the office, which by reason of insufficient appropriations in the past, is largely in arrears, while the surveys in this State are approaching that stage of completion which not only enormously increases it, but renders it much more difficult as well.

For bringing up arrears of office-work, \$20,000.

This estimate is based upon the following facts:

(a.) There are to be compiled fifty original maps of swamp and overflowed lands claimed by the State of California under the act of July 23, 1866.

(b.) There are to be made two hundred lists of swamp-lands besides.

(c.) Copies of swamp-land maps.

The clearing of title to much valuable land should be a sufficient incentive to the early completion of this work. Like the private-land claims in this State, the swamp-lands have aided many men in wrongfully holding lands which in right and justice are the property of the United States.

(d.) There are to be amended a large number of township-maps on account of final surveys of mines which change the arrears of the adjacent agricultural lands; this embraces about one thousand mines.

(e.) Descriptive notes and diagrams should be prepared, showing suspensions of public lands on account of private-land claims.

(f.) Old maps of public surveys, worn out by frequent use and reference, to be reproduced.

(g.) There are two hundred and seventy copies of township-maps to be made for the local land offices, as required by paragraph 4, section 2223 of the Revised Statutes.

(h.) Field-notes of eighteen hundred subdivisions of townships to be copied for the several local land offices, in accordance with section 2223 of the Revised Statutes.

It is very desirable that this work be done as expeditiously as possible, as county surveyors in distant parts of the State can then have easy access to the notes, farmers and settlers can apply to their local land offices for the notes of the section in which they are located, and much business may thus be thrown to the land offices which now comes to this, taking up its time with searching for notes, answering letters relative to corners, &c.

As the work in arrears cannot be done in a year economically, I have placed the estimate at \$20,000, in order that the work may be proceeded with steadily until completed.

Very respectfully, your obedient servant,

THEO. WAGNER,
United States Surveyor-General.

Hon. J. A. WILLIAMSON,
Commissioner General Land Office, Washington, D. C.

APPENDIX I.

Statement of Expenditures under Salaries, Department of Agriculture, for the fiscal year ending June 30, 1879. (See page 61.)

DEPARTMENT OF AGRICULTURE,
October 1, 1879.

In compliance with an act of Congress approved June 19, 1878, I present herewith a detailed statement of the manner of the expenditure of the sum of sixty-six thousand nine hundred dollars appropriated for salaries in the Department of Agriculture for the fiscal year ending June 30, 1879:

Name.	Amount.	Name.	Amount.
Wm. G. Le Duc	\$3,000 00	John W. Hall	\$740 80
E. A. Carman	1,900 00	Samuel Reed	705 00
Townsend Glover	1,200 00	I. R. Dodge	475 00
Wm. Saunders	1,900 00	Frederick Watts, Jr.	151 60
B. F. Fuller	1,600 00	John A. McDowell	65 22
Andrew Glass	1,600 00	John W. Stahl	48 91
Geo. Vasey	1,800 00	A. S. Caldwell	26 09
Thomas Taylor	1,800 00	M. Williams	60 60
F. Andrews	1,800 00	R. Middleton	29 35
W. I. Cowing	1,800 00	M. M. Yates	121 20
Chas. Wellington	1,400 00	John H. Dougherty	350 00
A. T. Longley	1,600 00	F. T. Richardson	121 20
C. D. Campbell	1,400 00	K. I. O'Toole	121 20
I. N. Budlong	1,400 00	F. M. Walker	60 60
Samuel M. Findley	1,101 10	M. H. Burr	58 00
Libbie Swank	1,200 00	Wm. Crawford	305 76
Peter Collier	1,900 00	James I. Crothy	24 00
John A. Harvey	1,098 90	R. E. Gilchrist	15 00
Charles Worthington	1,690 20	John F. Bailey	198 00
C. V. Riley	1,581 60	John Dugan	234 00
O. D. La Dow	1,600 00	Ernst Weber	16 50
Jno. M. Hiltz	1,200 00	Wm. Rutherford	18 00
Jno. L. Bailey	1,200 00	W. L. Prentis	5 50
E. H. Stevens	1,400 00	H. A. Hullfish	7 50
C. C. Moulton	720 00	George Schultz	3 00
James Halley	960 00	B. S. Robinson	144 43
E. A. Koonen	900 00	Louis Allen	108 79
Lizzie Eccleston	500 00	A. de Frouville	349 99
John Shippen	720 00	Marion D. Adams	284 00
R. H. Cook	720 00	B. F. Furner	115 00
Henry Johnson	705 00	Frank Helmick	115 00
James Roberts	705 00	I. Benton Stahl	115 00
Wm. Halley	574 45	Clarence Key	20 00
Henry Kellum	705 00	D. S. Curtiss	115 40
A. H. Holmes	705 00	B. F. Packard	165 38
Wm. Alexander	705 00	C. H. Harvey	54 00
Thos. B. Hunt	1,101 10	H. B. Parsons	250 00
Emily F. Duke	900 00	Clifford Richardson	250 00
A. C. Jones	991 62	I. Henry Comstock	318 40
James Murphy	720 00	Geo. Marx	260 00
M. C. Jones	921 21	Frank Hunt	98 90
W. W. Finney	1,467 20	L. O. Howard	98 90
E. C. Merrick	1,800 00	Theo. Pergande	82 40
James P. Stabler	1,600 00		
R. E. Smith	1,400 00		
L. C. F. Hugo	1,400 00		
F. L. Evans	900 00		
			66,900 00

WM. G. LE DUC,
Commissioner of Agriculture.

APPENDIX J.

Statement of the Purchase and Distribution of Seeds, Plants, &c. (See page 6.)

The annexed report exhibits the place, quantity, and price of seeds, plants, &c., purchased, and the date of purchase, as provided in the act of June nineteenth, A. D. one thousand eight hundred and seventy-eight, making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1879, and for other purposes:

Date.	Name.	Residence.	Article.	Variety.	Quantity.	Cost.	Amount.	Voucher.
1878—Nov. 22	E. F. Brockway	Ainsworth, Iowa	Artichokes		400 bushels	\$1 50 per bush.	\$600 00	69
Oct. 3	Geo. S. Haskell & Co.	Rockford, Ill.	Asparagus	Colossal	25 pounds	30 cts. per lb.	7 50	20
Nov. 1	Peter Henderson & Co.	New York City	do.	do	10 pounds	30 cts. per lb.	3 00	46
Nov. 30	B. K. Bliss & Sons	do.	do.	do	10 pounds	20 cts. per lb.	2 00	44
Dec. 9	David Landreth & Sons	Philadelphia, Pa.	do.	do	25 pounds	20 cts. per lb.	5 00	74
1879—Jan. 24	I. G. Peterson	Morgantown, N. C.	Apple-grafts		930		30 00	67
1878—Oct. 16	John Bidwell	Chico, Cal.	Barley	Napal.	6,630 pounds	2 cts. per lb.	136 60	13
Oct. 3	Geo. S. Haskell & Co.	Rockford, Ill.	Beans	Pole	10 bushels	\$4 50 per bush.	45 00	20
Oct. 29	David Landreth & Sons	Philadelphia, Pa.	do.	Carolina	10 bushels	\$5 50 per bush.	55 00	37
Nov. 16	do.	do.	do.	German wax	20 bushels	\$4 60 per bush.	92 00	49
Nov. 16	do.	do.	do.	S. prolific pole	10 bushels	\$8 per bush.	80 00	49
Nov. 18	Geo. S. Haskell & Co.	Rockford, Ill.	do.	Golden wax	20 bushels	\$5 50 per bush.	110 00	50
Dec. 30	David Landreth & Sons	Philadelphia, Pa.	do.	White valentine	10 bushels	\$4 25 per bush.	42 50	11
Dec. 21	B. K. Bliss & Sons	New York City	do.	Early Lima	8 bushels	\$10 per bush.	80 00	44
Nov. 30	do.	do.	do.	Crystal white wax	64 quarts	80 cts. per qt.	51 20	44
Dec. 26	Peter Henderson & Co.	do.	do.	New valentine.	30 bushels	\$4 per bush.	120 00	45
Dec. 26	do.	do.	do.	Dwarf black wax	8 bushels	\$4 50 per bush.	36 00	45
Nov. 12	do.	do.	do.	Black wax	12 bushels	\$4 50 per bush.	54 00	46
1879—Jan. 14	James I. H. Gregory	Marblehead, Mass.	do.	Dun color	14 bushels	\$3 50 per bush.	49 00	47
Jan. 29	do.	do.	do.	Cranberry	14 bushels	\$3 50 per bush.	49 00	48
Jan. 29	do.	do.	do.	Kentucky wonder	4 bushels	\$10 per bush.	40 00	48
Jan. 29	do.	do.	do.	Lamler Sons' pole	5 bushels	\$10 per bush.	50 00	48
Jan. 29	James M. Thorburn & Co.	New York City	do.	Dwarf scimitar	10 bushels	\$4 50 per bush.	45 00	50
1878—Oct. 3	Geo. S. Haskell & Co.	Rockford, Ill.	Beet	Demming's blood	100 pounds	35 cts. per lb.	35 00	20
Oct. 29	David Landreth & Sons	Philadelphia, Pa.	do.	Early turnip	100 pounds	20 cts. per lb.	20 00	37
Oct. 29	do.	do.	do.	Blood	100 pounds	25 cts. per lb.	25 00	37
Nov. 4	Geo. S. Haskell & Co.	Rockford, Ill.	do.	Egyptian	250 pounds	60 cts. per lb.	150 00	50
Dec. 16	T. D. Curtis	Charlton, N. Y.	do.	Sugar	1 barrel		2 00	84

APPENDIX N.

Explanation of the Estimate for Sea-wall at Governor's Island, New York. (See page 135.)

EXTRACTS from letter from Major-General W. S. Hancock, Commanding Military Division of the Atlantic, to the Adjutant-General United States Army, dated August 20, 1878.

SIR: I have the honor to recommend a suitable appropriation for the completion of the sea-wall around Governor's Island. Colonel Benham, the engineer officer in charge, has, I am informed, made estimates for the purpose. I cannot too strongly urge the necessity of the early prosecution and completion of this important work. Governor's Island is within

the greatest city of this continent, New York, and in immediate proximity to the great city of Brooklyn, and on these, as well as on the sanitary grounds fully set forth in the within communication, to which I invite special attention, its bounds should be permanently fixed by a suitable sea-wall. The shore between high and low tides is shelving and interspersed with rocks, which serve to retain, at the fall of the tide, the refuse brought up at high water. As an illustration of the evil from this source, I would state that official reports of observations carefully made in the six months from July, 1873, to January, 1874, show that the following carcasses of dead animals floating in the bay were thrown upon the island during that period, viz: July, 1873, 369; August, 1873, 205; September, 1873, 121; October, 1873, 58; November, 1873, 75; and December, 1873, 75. Total for six months of 1873, 903.

Although these carcasses are offensive and injurious, they are probably not so dangerous to health as the clothing, bedding, &c., infected with disease thrown upon the shore of the island by the tide, and which lodges for want of a sea-wall. Yellow-fever on the island was, in one instance at least, traced directly to the latter cause.

It is true that the management of the general police of the harbor by the city is not so bad now as it was during the time to which the statistics above given relate, but still, although in a somewhat smaller degree, the nuisance remains, and can only be properly dealt with, for this island, through the aid of a sea-wall.

Hoping the subject may receive the favorable consideration of the War Department and Congress, I am, sir, very respectfully, your obedient servant,

WINFIELD S. HANCOCK,
Major-General Commanding.

COPY OF ENDORSEMENT by commanding officer at Fort Columbus, dated August 8, 1878, on report by Assistant Surgeon J. P. Kimball on sanitary condition of the post, the substance of which is stated in the above extracts from General Hancock's letter, and copy of endorsement of Surgeon and Medical Director J. M. Cuyler, U. S. Army.

HEADQUARTERS, FORT COLUMBUS, *August 8, 1878.*

The facts stated by Assistant Surgeon Kimball are well known to any one who has resided on Governor's Island for any length of time. The sanitary condition of this island will never be good until its shores are protected from filth by a suitable sea-wall, and with the view of bringing this subject to the notice of the Commanding General, this report is respectfully referred to Department Headquarters.

J. P. SANGER,
Captain First Artillery, Commanding Post.

HEADQUARTERS DIVISION ATLANTIC AND DEPARTMENT EAST,
Medical Director's Office, Governor's Island, New York Harbor, August 13, 1878.

As a sanitary measure, the completion of the sea-wall around the entire island is unquestionably of the greatest importance, and I most earnestly recommend that the work be done at as early a period as possible.

JNO. M. CUYLER,
Colonel and Surgeon U. S. A., Medical Director.

EXTRACT from Annual Report dated July 11, 1878, from Col. H. W. Benham, Corps of Engineers, to the Chief of Engineers.

I would also respectfully represent the condition of the shores and shoals upon the southeast part of this island, back of the range of officers' quarters, between the south battery and the main wharves.

The shore-line along the reach named is without protection, and is irregularly broken down by the wash of the waves in storms, while in front or outward from the shore a shoal extends, bare at low water, to the distance of one hundred to two hundred feet, which, from its position in the eddy between the Buttermilk Channel and the Hudson River, receives the drift and carrion offal of the river, making it often very offensive to the residents on the island.

The best remedy for this, and a necessity, I consider to be a sea-wall, of rounded or convex line of short faces, running out upon this shoal, which, without indentations, would give a regular current and direction to the water, thus tending to carry off all such offensive matter, while the space in rear, filled up as it might be without great cost, in part perhaps by the garrison, would add some acres to the area of the island, where every yard of land is so valuable.

Very respectfully, your obedient servant,

H. W. BENHAM,
Colonel of Engineers, Bvt. Maj.-General.

APPENDIX O.

Explanation of Estimates for Fort at Sandy Hook, N. J., and Defences on Delaware River. (See page 135.)

OFFICE OF THE CHIEF OF ENGINEERS,
Washington, D. C., January 11, 1879.

SIR: I have the honor to transmit herewith a copy of a letter from Captain William Ludlow, Corps of Engineers, (in charge of the fortifications of Delaware River in the absence of Colonel Macomb, Corps of Engineers, temporarily on duty as a member of a Board of Engineers at the mouth of the Mississippi River,) submitting estimates amounting to \$47,000 for increasing the height of the dikes for the protection from overflow of the sites of Fort Delaware, Fort Mifflin, and other batteries on the Delaware River, and for repairs of damage rendered necessary by the destruction caused by

the great storm of the 23d of October last. The same storm damaged the works of protection against the sea at Sandy Hook, New Jersey, as was reported to you on the 5th of December, 1878, the estimated cost of repairs at the latter place amounting to \$25,000. Total amount required, \$72,000.

I have respectfully to suggest that a copy of this communication, with Captain Ludlow's letter, be sent to the Speaker of the House of Representatives, and to the President of the Senate.

Very respectfully, your obedient servant,

A. A. HUMPHREYS,
Brigadier-General, Chief of Engineers.

Hon. GEORGE W. McCRARY,
Secretary of War.

UNITED STATES ENGINEER OFFICE,
Philadelphia, Pa., January 2, 1879.

GENERAL: In accordance with the instructions from Colonel J. N. Macomb, Corps of Engineers, in the letter a copy of which is enclosed, I have the honor to submit the following recommendations and estimates for increasing the height of the dikes required for the protection from overflow of the sites of Forts Delaware and Mifflin and the contiguous batteries

The storm of October 23, ultimo, though fortunately of brief duration, was very severe, and its greatest strength seems to have been developed in the valley of the Delaware River, where it was accompanied by an unprecedented rise of the water surface. The tide surmounted all the dikes enclosing the low and reclaimed lands bordering on the river, caused immense damage to all the owners and occupants of such lands by the destruction of their crops and costly dikes, and exaggerated the disasters to shipping by sweeping inland many of the smaller class to distances from the river ranging from a few yards to one and a half miles.

The reports to the Chief of Engineers by Colonel Macomb, of November 6 and 15, supply many of the details of the damage done to the Government property, but the estimates submitted therewith were partial only, and contemplated merely making such repairs as were absolutely necessary. The total public and private losses at the forts and batteries could not be repaired for less than double these estimates.

At Fort Mifflin the tide attained its maximum of 11 feet and 3 inches above mean low-water at 10 a. m., and was maintained at this height until 12.45 p. m., when it began to recede.

At Fort Delaware many of the people living on the island barely escaped with their lives, the water rising five feet in an hour and a half, and reaching a height of 11 feet and 8 inches above mean low-water.

At both forts the outlying buildings most exposed to the storm were either gutted or destroyed, and the magazines, storehouses, and quarters flooded to a depth of from two to four feet. Had they been garrisoned at the time, the destruction of property would have been much greater.

It is manifest that the present dikes can no longer be considered sufficient to protect the sites of these works, and the sole remedy against a tide that pours the river into the magazines and quarters is to raise the dikes to a height sufficient to exclude it. This necessity presents itself at a time when the gradual filling up of the moats and ditches has reached a point that makes it desirable to clean them out. The unwholesome influences generated by the exposure of these moist and foul surfaces to the sun and air have been especially felt during the past season at Fort Delaware, in which connection attention is respectfully invited to the letter of November 6, ultimo, from this office, with enclosures. At Fort Mifflin fewer persons are living, and the special effects due to this cause are merged in the general unhealthfulness of the locality.

I therefore respectfully make the following recommendations:

I.—AT FORT MIFFLIN.

1. To raise the dikes enclosing the fort, its adjacent batteries and the area north of the fort; to include the site of the naval magazine, as shown on the accompanying tracings, to a height of 13 feet above mean low-water. No estimate is made for raising the dikes around the remainder of the United States property, (hitherto leased to Mr. Black,) for the reasons that a proposition is pending to re-lease them under conditions favorable to the United States, and because any tide that would inundate this excepted area would cut off communication for miles beyond the United States boundaries.

2. To clean out the moat and draining-ditches within the area occupied by the United States, using the material upon the dikes.

3. To repair and put in good order the main sluice from the moat to the river.

4. To erect in proximity to the fort-keepers' quarters a self-adjusting windmill pump, which shall keep the ditches dry independently of the moat, in which it is desirable to maintain and occasionally renew a water surface.

The effect of the pump will be to render the drainage of the area in question independent of the failing exit through Back Channel, or of the varying level of the river surface, and to keep the water-level in the ground about two feet lower than at present or than would be practicable by any other method, thereby greatly modifying the unhealthy conditions that now exist.

The sections given on the Mifflin tracing show the proposed method of making the additions to the dikes at different points, having in view the most economical construction that would be effective. Only the dikes on the river-front need be protected with stone, and the two feet of additional masonry it is proposed to lay vertically in mortar, after repairing the wall beneath.

The estimated cost of these repairs and modifications is as follows:

1. To raise the dikes to ref. (13.0):	
9,000 cubic yards of mud in place, at 50 cents	\$4,500 00
465 cubic yards of masonry, at \$2 50	1,162 00
Repairs to existing walls	100 00
	5,762 00

2. To clean out the moat and ditches (included in item 1:)	
Its separate cost would be	\$1,720 00
3. To repair the main sluice	\$150 00
4. To erect pump complete	688 00
	<hr/>
Total for Fort Mifflin	6,600 00
	<hr/> <hr/>

II.—AT FORT DELAWARE.

It is proposed:

1. To raise the dike enclosing the island to ref. (13.0.)
2. To clean out the moat and ditches.
3. To repair and put in good order the main sluice from the moat, and the sluices draining the ditches, all discharging into the slip between the east wharves. The main sluice is now in an entirely unserviceable condition, and can neither be closed nor opened. In consequence the river-water enters with every tide, making daily deposits.

4. To clean out the slip between the east wharves, in order to allow a free discharge from moat and ditches, and make a harbor for boats and small vessels.

The estimated cost is as follows:

1. To raise the dikes to ref. (13.0.) as shown upon the Fort Delaware tracing herewith:	
6,666 cubic yards of mud in place, at 60 cents	\$4,000 00
5,000 cubic yards of bank-stone, at \$1 50	7,500 00
	<hr/>
	11,500 00
2. To clean out moat, ditches, and slip, (included in above item,) the separate cost would be \$2,900, \$500, and \$650; total, \$4,050.	
3. Repairs to sluices	350 00
	<hr/>
Total for Fort Delaware	11,850 00
	<hr/> <hr/>

With regard to the batteries at Finn's Point and on the Delaware shore opposite, the existing conditions differ somewhat from those at the forts. It is proposed only to protect these expensive and perishable earthworks against the destructive action of the tides and waves in front, without attempting, at the present time, to enclose them or the flanks and rear. An extraordinary tide will overflow the sites of the batteries without effecting much damage, but the washing along the river-front rapidly destroys them where unprotected.

The estimates submitted are based upon these considerations, and contemplate raising the protective works to ref. (12.0) in front of the batteries, and to ref. (10.0) where this height will be sufficient.

III.—BATTERY AT FINN'S POINT.

The great development of river-front at this work, and the imperfect condition of the present sea-walls and dike make the expense of protecting it much greater than at other points.

The letters refer to corresponding points on the tracing herewith.

1. A laid-up stone sea-wall exists from the south boundary to the wharf. To repair this wall and raise it from ref. (10.0) to ref. (12.0) will cost	\$1,200 00
2. From the wharf to A, a dry rubble wall exists. To repair this and raise it from (9.0) to (12.0)	635 00
3. To construct a new wall similar to preceding, between A and C, 940 linear feet, at \$7 50	7,050 00
4. A masonry wall now exists between C and D. To repair this and raise it from (9.0) to (12.0)	2,000 00
5. To continue this masonry wall to E, at same ref., 110 linear feet, at \$15	1,650 00

The construction in the two items above is rendered necessary by the slopes of the battery resting on this wall.

6. To construct a dike to ref., (10.0,) from E to southwest angle of the cemetery, and from the northwest angle of cemetery to the north boundary:	
3,000 linear feet	\$3,500 00
Stone facing for dike	3,000 00
	<hr/>
	6,500 00
7. To construct three sluices at G, H, and K, respectively:	
For drainage of enclosed area	525 00
	<hr/>
Total for Finn's Point	19,560 00
	<hr/> <hr/>

The Quartermaster's department, which has charge of the cemetery, has proposed to construct a roadway leading thereto through the battery reservation.

I have no information as to the proposed location of this road nor its probable cost, but I would respectfully suggest that no better site for it can be found than the top of the dike herein estimated for. If it should be determined to construct the road on the dike, the estimates could be combined, and a large saving in the cost of both effected.

IV.—AT BATTERY ON DELAWARE SHORE.

It is proposed only to raise the existing dike to ref. (12.0,) as shown on the accompanying tracing, and to insert a sluice for drainage. Cost, \$5,030.

RECAPITULATION.

Fort Mifflin.....	\$6,600 00
Fort Delaware.....	11,850 00
Battery at Finn's Point.....	19,560 00
Battery on Delaware shore.....	5,030 00
Total.....	43,040 00
Add for engineering, superintendence, &c., 10 per cent. of above.....	4,360 00
Total estimate.....	47,400 00

These sums are in addition to any now available, and presuppose the application of the allotment of \$4,500, of which this office was advised in letter from Chief of Engineers of November 21, ultimo.

No estimate is herein made for raising the dikes partly enclosing the Government property at Red Bank, N. J., opposite Fort Mifflin, for the reason that the dikes are now, or will be when the repairs in progress shall have been completed, of equal strength with those on the adjacent lands, and, in case of overflow, no damage can be done to any Government property other than that to the dikes themselves.

A table of observed high tides at Fort Delaware since 1871, is appended. No corresponding record for Fort Mifflin is available.

Very respectfully, your obedient servant,

WILLIAM LUDLOW,
Captain of Engineers.

Brig. Gen. A. A. HUMPHREYS,
Chief of Engineers, U. S. A., Washington, D. C.

Record of occasional full tides.

Date.	Time.	Place.	Height.	Direction and force of wind.
1871—Nov. 14	1 p. m.	Fort Delaware	8.2	Severe E. to S. E. storm.
1872—Feb. 10	1 p. m.	Fort Delaware	8.4	Calm. Had been easterly wind for two days.

Oct. 23	8 to 9 a. m.	Battery, Finn's Point	11.5	

APPENDIX P.

Explanation of the Estimates for Buildings and Grounds, Military Academy. (See page 148.)

HEADQUARTERS, DEPARTMENT OF WEST POINT,
United States Military Academy, West Point, N. Y., September 5, 1879.

SIR: I have the honor to submit herewith, for the action of the Secretary of War, the estimates for the Military Academy for the year ending June 30, 1881, and to explain the necessity for those items which are in addition to the ordinary annual expenditures:

First. The item for completion of the main building and one wing of the cadets' hospital is the balance of the original estimate yet needed for the purpose named. The work has progressed, and is progressing satisfactorily, under the appropriations made by Congress for the last and present years, and it may advantageously be finished next year if the necessary sum be provided.

Second. The item next in importance is that for an addition to the cadets' barracks. A special estimate and plans for this work were submitted by me in 1876, and its necessity has become yearly more manifest. The number of rooms in the present barracks available for the use of cadets is less than the number required for the average strength of the corps, and much less than that required for all the cadets who are here during a portion of each year. The result is that three young men must live in a small room, designed for only two occupants, greatly to the detriment of their health, comfort, and facilities for study. Besides, this crowding makes it necessary for the officers in command of cadet companies to live apart from the cadets, where they cannot exercise that constant supervision which proper discipline and military instruction require. This addition to the barracks is indispensable to the welfare of the cadets,

Third. The next in importance is the item for barracks for the detachment of cavalry. Its necessity arises from the fact that the quarters now occupied by the cavalry detachment is more than half a mile from the stable and riding-hall, where the services of the men are required several times each day. They are thus under the necessity, at all seasons and in all kinds of weather, to travel from four to five miles every day in simply going to and from their duties—a great and useless waste of time and labor. Even if this necessity did not exist, the quarters now provided for enlisted men are not sufficient; some of them are very old wooden structures which should be removed or replaced for sanitary reasons. Estimates for this work were submitted by me last year.

Fourth. The quarters for the officers have never been sufficient at West Point. Some officers with families have poorer accommodations than those provided at most stations on the frontier, and much poorer than those which the prosperous mechanics of New England think necessary for their families. I hope Congress will make liberal provision for the ordinary comfort alike of the cadets and the young officers on duty at West Point.

Fifth. The small sum required to complete the wall along the road leading from the plain to the south dock should be given as a matter of common humanity. The portion of that wall already built has but recently been effective in preventing a disaster which must otherwise have been fatal to life. A similar accident is liable to occur at any time on that portion of the road which is not thus protected.

All the estimates above referred to, as well as those for the current expenses of the Academy, have been made with care, and the sums asked for are believed to be absolutely necessary. The liberal appropriations made by Congress for the last and present years for the important improvements in sewerage and supply of water are and will be of inestimable benefit to the Academy, and it is earnestly hoped that the necessary additional appropriations will be made.

Of the sum required for the proposed addition to cadets' barracks, only about one-half could be advantageously used during the next fiscal year. The other improvements might all be made and completed within the year.

Very respectfully, your obedient servant,

J. M. SCHOFIELD,

Major-General United States Army, Superintendent Military Academy, Commanding.

The ADJUTANT-GENERAL UNITED STATES ARMY,
Washington, D. C.

APPENDIX Q.

Explanation of Estimate for Repairs, Department of the Interior. (See page 149.)

DEPARTMENT OF THE INTERIOR,
Washington, October 17, 1879.

Heating Apparatus.—The heating apparatus in the north portion of the west wing of this building is in a very bad condition, the pipes being worn out from rust, and have broken down several times during the past winter; on one occasion requiring the removal of fifty or sixty tons of coal in order to make repairs.

The pipes are so reduced in strength as to render it unsafe to put sufficient pressure on them to properly heat the building in cold weather. The old pipes should be torn out and new ones replaced in their stead at an estimated cost of six thousand five hundred dollars.

Sewer and Drain-Pipes.—The sewer and drain-pipes in the east and south wings are also out of order, having become corroded and eaten through in places by rust, and require replacing by new ones, the estimated cost of which is fifteen hundred dollars.

Water-Closets.—In the south wing there are twenty-nine water-closets that are of the old style, and are worn and rusted out, their replacement by new and more improved kinds is a necessity, as in their present state it is almost impossible to keep them in good sanitary condition. The estimated cost is two thousand dollars.

Attention is invited to the following extract from the report of the health officer of the District:

“The entire system of sewerage and the plumbing of the building needs revision, under careful and competent supervision, and the introduction of more approved appliances than those now in use.”

C. SCHURZ, *Secretary.*

APPENDIX R.

Explanation of the Estimates for the Government Hospital for the Insane. (See pages 149 and 175.)

BUILDINGS AND GROUNDS.

The proper care of the buildings and grounds, to prevent deterioration and decay, requires a very considerable annual expenditure, and when it is remembered that the United States has more than half a million of dollars invested in this hospital property, it may fairly be questioned if the sum asked is not too small for its proper care and preservation, to say nothing of improvements. Hitherto, instead of asking a special appropriation for the care of the roads and grounds, as is the case with other public buildings, everything of this kind has been included under the general head of repairs and improvements. The appropriation of five thousand dollars for the present fiscal year will prove quite inadequate for the purpose; and but for the fact that several improvements have received special appropriations, it would be necessary to ask for a deficiency to accomplish all that really ought to be done in the present year.

More than one thousand people are dependent upon the water supply of the hospital; the daily consumption is never less than one hundred thousand gallons, and usually exceeds that amount, the pumps running without stopping, the speed only being somewhat reduced at night. With the exception of a limited supply of spring-water, which is barely sufficient for drinking purposes, all the water consumed is raised from the Anacostia river. This stream is reasonably free from organic matter, and, with a moderate outlay for filtering-works and depositing-reservoirs, can be rendered sufficiently

pure for all domestic purposes. As it is, every storm leaves it for days unfit for any use unless as a fertilizer. This state of things cannot be remedied too soon.

In the necessary increase of our milch-cows, that the supply of milk may keep pace with the growth of population, we have found our accommodations for stock too limited and have been obliged to care for a considerable portion of our young cattle in sheds.

For years the hay crops have far exceeded our barn-room for storage, and some fifty tons are now standing out exposed to the weather. The Government cannot afford to stack its hay, and leave its animals and farm-implements without proper shelter when a trifling expenditure will remedy it.

The removal of the bakery from the basement of the hospital to a suitable building, provided under an appropriation made by the last Congress, has proved a great improvement, the female wards no longer having the heat of the baker's oven added to the summer's glow. The same necessity exists, even in a greater degree, for a detached building for use as a kitchen and scullery. This department of domestic work is now carried on in the basement of the centre building at considerable disadvantage and greatly to the discomfort of the general office, situated directly over the kitchen, where the heat at times becomes more than equatorial, and the odor of cooking received is sufficient to supply the whole building.

A suitable mortuary building is still wanting, and the necessity for so indispensable a structure hardly calls for any explanation.

A greenhouse is required to enable us to propagate such bedding plants as are needed for the embellishment of the gardens and grounds, and is in the interest of economy; it should be more than this—it should give us a winter garden for the recreation of the inmates and fresh roses for their rooms when the lawns are no longer bright.

It is thought these special improvements may all be provided for the sum of twenty-five thousand dollars, and it is recommended that such part of this as is deemed necessary for the provision for pure water, should be made immediately available.

Congress, at the last regular session, appropriated thirty thousand dollars, immediately available, for the relief of our over-crowded wards, by the erection of barracks, or associate accommodations, for such of our inmates as might safely be provided for with a somewhat less liberal provision than that afforded by the main hospital edifice. The relief-buildings, on which the brick-work was commenced the first day of May last, are now, in September, being placed under roof. They consist of a central building of four stories and a basement sixty feet long by forty-five feet wide; to this are connected by short corridors two wings of three stories and a basement, each seventy-five feet long by thirty-two feet wide; also a wing of the same height and width running back thirty-two feet from each building. These buildings are thoroughly built of impressed brick in a plain but substantial manner, and, when finished, will furnish good present accommodations for more than two hundred cases of a mild type of insanity. When the sum expended is taken into account, the appearance of the buildings is very creditable. It will be better economy to finish off a portion of the rooms in the most thorough manner, rather than to occupy the whole structure as a barrack, with whitewashed walls and rough floors. It is now thought that one wing may be ready for occupation by the 1st of May, 1880, or one year from the date of its commencement. No effort will be spared to have it ready at even an earlier date if possible, and, in order that there may be no delay in this, we ask that the appropriation of fifteen thousand dollars for the heating apparatus and furnishing the entire building ready for occupants, together with the finishing of the rooms in the upper story, may be made at once available.

While realizing the great relief that will be temporarily afforded when the new buildings that are now being erected are occupied—a relief that can hardly be over-estimated—it is idle to claim that anything more than the present necessity for immediate provision for our great excess of numbers has been met. It is impossible that full justice can be done to these unfortunate wards of the nation, or that "most humane and enlightened care" rendered, which the organic act establishing the hospital requires at our hands, so long as no separate building and pleasure-grounds are provided for the female inmates. This is now the great want of the Government Hospital for the Insane—the hospital that, from its position and national character, should illustrate the American idea of a most complete public provision for the insane. Such hospital should contain in itself all that experience has shown to be of avail in the treatment of the insane, or that sanitary science has demonstrated to be of importance in making provision for congregated invalids, or of value in prolonging human life.

If another temporary makeshift, to be shortly succeeded by still another, is to be avoided, the hospital for the females should be commenced at once. Only a third of the estimated amount is needed for expenditure in the fiscal year for which this appropriation is asked. The foundation of the entire building, including air-ducts, sewers, and all underground work, should first be laid, and then time allowed for the work to become firm and consolidated before the superstructure is commenced. Three years may properly be taken in building it, and, with our constantly increasing numbers, it cannot be commenced too soon. If any further argument were needed in support of such an appropriation, it may be found in the following resolutions, passed by the American Association of Medical Superintendents of Institutions for the Insane, at their annual meeting held in Washington in May, 1878:

"That this association has had great satisfaction in visiting and carefully inspecting the Government Hospital for the Insane, giving, as it does, renewed evidence of the liberality and humanity of the public authorities in their generous provision for the unfortunate wards of the nation, and especially as showing very strikingly the fidelity, economy, and ability with which appropriations heretofore made for its buildings and support have been used on all occasions.

"That while recognizing the high position thus far deservedly held by this hospital, which ought ever to be in all respects the model institution to which the different States could look for a safe example when making provision for their insane, the association is reluctantly compelled to refer to an existing and obvious deficiency, which is sure to seriously impair its usefulness and lower the high standard of character which it has heretofore maintained; that the defect just alluded to consists in its greatly crowded condition, rendering impracticable the best-matured plans of treatment, and certain to show in the future, in a still higher degree the great and serious losses that must be sustained by this unfortunate condition of its wards.

"That this association firmly believes that all these deficiencies and defects can be remedied by the prompt provision of additional accommodations, which no plea of expediency could justify being made anything below the highest standard long since adopted by this association; and it would, therefore, most respectfully commend the subject to the earnest consideration of the representatives of the people for whose benefit this noble hospital has been established, as one demanded by the strongest claims of an enlightened humanity and a true economy."

This is the opinion of experts in those matters drawn from almost every State in the Union and the British Provinces, and men who know that whereof they affirm.

Is it too much to ask that the United States should make the best known provision for those who, being under the care of the Government, have not the mind to care for themselves? It is a little thing for the Nation to grant—it is no little thing for the unfortunate ones for whom she gives it.

CURRENT EXPENSES.

The number of inmates of the hospital, June 30, 1879, was 818, and at the date of this writing, (September 20, 1879,) is 835. There is a gradual increase of numbers admitted over and above those discharged, although many have been sent to friends with a view to relieve the crowded condition of the hospital. It will not be safe to estimate the number to be provided for by the 1st of July, 1880, at less than 850, and it will probably exceed that number—\$225 per annum exclusive of the farm products, is not an extravagant estimate for the support of each patient, including clothing and all other necessary expenditures. On that basis \$191,250 will be required for the support of the hospital for the fiscal year ending June 30, 1881. If, as for some years past, the authorities of the District are required to pay one-half the expenses of the indigent insane of the District, admitted since July 1, 1876, that sum will not vary much from \$16,000, leaving, in round numbers, \$175,000 to be appropriated by Congress.

Very respectfully, your obedient servant,

W. W. GODDING,
Superintendent.

Hon. SECRETARY OF THE INTERIOR.

APPENDIX S.

Explaining Estimates for Columbia Institution for the Deaf and Dumb. (See pages 149 and 175.)

COLUMBIA INSTITUTION FOR THE DEAF AND DUMB,
Kendall Green, near Washington, D. C., September 15, 1879.

SIR: I have the honor to transmit herewith estimates of expenditures which it is desirable should be made for the support and care of this institution, for the year ending June 30, 1881.

The amount asked for current expenses is the same as was appropriated for last year, with the addition of two thousand five hundred dollars for general repairs.

This last-named sum is very greatly needed to keep our buildings in proper order, and the demand is made the more pressing by the fact that for several past no special appropriation has been made for this object, and we have been restricted to such absolutely necessary repairs as could be paid for out of our current-expense fund.

The importance of having suitable provision for physical training in an institution where children and youth are educated can scarcely be over-estimated; and the need for this in an establishment for deaf mutes is even greater than in ordinary schools and colleges; for, in many cases, the causes which have operated to produce deafness, such as disease, accidents, or inherited taints, exert a depressing effect on the system generally, rendering it of great importance that every possible advantage should be afforded for strengthening the physical powers.

That we have no gymnasium must certainly be regarded as a serious deficiency—one which we trust will be promptly recognized by Congress.

The amount asked for the improvement and enclosure of our grounds may be urged as of equal importance, though from another point of view, with the estimate for a gymnasium.

Along the front-line of our grounds there is no protection, save a low, slight fence of pine wood, unsightly and inefficient as a barrier.

Much work in paving and laying out of paths in the immediate vicinity of our buildings is needed to be done, and the amount asked for these objects will not be more than sufficient to provide for what ought to be completed next year.

The estimates are submitted by order of the board, with the concurrence of the directors on the part of the Senate and House of Representatives.

Very respectfully, your obedient servant,

E. M. GALLAUDET,
President.

Hon. C. SCHURZ,
Secretary of the Interior.

APPENDIX T.

Explanation of the Estimates for the Reform School, District of Columbia. (See pages 150 and 177.)

DEPARTMENT OF JUSTICE,
Washington, September 30, 1879.

SIR: I have the honor to transmit with this letter an estimate of the appropriations desired for the support and maintenance of the Reform School of the District of Columbia for the fiscal year ending June 30, 1881.

In explanation of the estimate, I enclose a copy of a letter of the 19th instant, addressed to the Attorney-General by the President of the Board of Trustees, setting forth the reasons for the amounts asked for in the estimate.

Very respectfully,

CHAS. DEVENS,
Attorney-General.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

WASHINGTON, *September 19, 1879.*

SIR: I have the honor to submit an estimate of the appropriations required by the Reform School of this District for the next fiscal year. In submitting these estimates, I desire to invite your attention to the necessity of each item therein embraced. The estimates are similar in every respect to those submitted through you to Congress at its last session, and as to their need I can but repeat what I said upon the subject when I had the honor to submit the estimates for the present fiscal year.

The first item is for the salaries of the superintendent, teachers, employés, and for the current expenses of the school. We ask for these purposes the sum of \$12,200. For the years previous to the last fiscal year, for these purposes, \$10,000 has only been appropriated. We now ask in addition the sum of \$2,200 for additional teachers, salaries to secretary, treasurer, &c. It is of much importance to the school that the number of teachers be increased, as the classes, as now organized, are too large for the officers to give them their personal attention and the supervision which they require. With the addition of two more teachers, the discipline of the school will be better enforced, and the education of the boys brought to a higher standard. The treasurer and secretary should have salaries fixed by law, and paid out of regular appropriations. And on behalf of the board of trustees, I have the honor to request that in submitting these estimates to Congress you will invite special attention to them.

The second item is for the erection of one family-building, a new barn, and for repairing and painting the buildings. These items in the aggregate amount to \$18,000. The greatest need exists for an additional building, that the usefulness of the school may be enlarged. The present buildings are now full, and in a short time it may be my duty to notify the police court that we have no more accommodations for boys who may be convicted in that court for misdemeanors, and, then, instead of being sent to a place where they will be educated and taught to lead useful and honest lives, they will be sent to the common jail or work-house, where with their association with older and hardened offenders they will come out ready to enter upon a career of crime. A few thousand dollars spent for the enlargement of our school would not only be economy in a pecuniary point of view, but will be the saving possibly of a life of crime and shame to many boys who would be diverted from that course by being placed under the restraining influences of the school. We have for years past been urging upon Congress our wants, but so far with little success; and knowing the interest that you feel in the welfare and prosperity of our school, we trust and believe that you will aid us in our exertions in this respect. A new barn is also required, as the present one is of little use, being in a dilapidated and worthless condition.

In making up the estimates, I have not carried out into the column "for amount appropriated for the current fiscal year," as no specific or definite appropriations were made for the service of this year. By the act approved March 3, 1879, making appropriations for the sundry civil expenses of the Government for the fiscal year ending June 30, 1880, there is appropriated \$20,000 for fuel, incidentals, repairs, and improvements, and it is further provided that section 13 of the act entitled "An act revising and amending the various acts establishing and relating to the Reform School of the District of Columbia, approved May 3, 1876, is hereby continued in full force." Said section 13 of the act of May 3, 1876, requires the District of Columbia to pay to the school the sum of \$2 per week for each boy therein. But it is held by the Commissioners of the District of Columbia that although said act is re-enacted and in force the failure of Congress to make a specific appropriation under it renders them unable to carry it out and pay to the school the \$2 per week; and they held that all the school could receive was the appropriation of \$20,000. As this appropriation made no provision for the maintenance of the boys, Congress provided in the act approved June 28, 1879, entitled "An act making additional appropriations for the service of the Post-Office Department for the fiscal years ending June 30, 1879, and June 30, 1880, and for other purposes," that the paragraph relating to the Reform School, in section 3 of an act entitled "An act making appropriations for the sundry civil expenses of the Government for the fiscal year ending June 30, 1880, and for other purposes, is hereby amended by inserting after the word *improvements* in said paragraph the words *and support of the boys sent to said school.*" Therefore, the school has for the present fiscal year the sum of \$20,000 for all purposes, which will not suffice, and a deficiency will have to be asked for of Congress early in the session.

I am, very respectfully,

A. J. FALLS,
President of the Board of Trustees.

To the Honorable THE ATTORNEY GENERAL.

APPENDIX U.

Explaining Estimate for Labor and Expenses of Engraving and Printing. (See page 163.)

TREASURY DEPARTMENT,
Bureau of Engraving and Printing, October 30, 1879.

SIR: I have the honor to submit the estimate for the work of this bureau for the fiscal year ending June 30, 1881. This estimate does not cover the supply of distinctive paper which will be required during the fiscal year for which it is submitted, inasmuch as all matters pertaining to distinctive paper have been transferred to your office, in accordance with the system of independent checks now in operation in the Department.

It will be noticed that the estimate is \$50,000 in excess of the amount estimated and appropriated for the present year, and is so made to enable the bureau to meet the requirements of the Treasurer's office. The estimate of the Treasurer for the present year was 5,265,000 sheets, four notes to each sheet, of United States notes. According to his orders and estimates for the next fiscal year, there will be required 7,000,000 sheets, four notes to each sheet, of United States notes. This is an increase of 33+ per cent., while the increased appropriation asked for is but 14+ per cent.

Very respectfully,

O. H. IRISH,
Chief of Bureau.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

APPENDIX V.

Explanation of Estimates for Coast and Geodetic Survey. (See page 164.)

U. S. COAST AND GEODETIC SURVEY OFFICE,
Washington, D. C., October 27, 1879.

SIR: I have the honor to submit herewith estimates for continuing the work of the coast and geodetic survey, and also of the standard weights and measures of the United States. The papers submitted contain—

I. Estimates in detail for the work of the coast and geodetic survey during the fiscal year ending June 30, 1881, preceded by a synopsis of work done in the course of the fiscal year ending June 30, 1879.

II. Estimates for continuing the construction of United States standards of weights and measures for the fiscal year ending June 30, 1881.

The aggregate of estimates now submitted is greater than the appropriation for the present fiscal year, as continued experience verifies the statement made in submitting estimates for the present year in regard to the cost of separate results. To secure economy, the yearly aggregation of results should be larger than the reduced appropriations of the present and past years will permit. The work of the coast and geodetic survey depends on the aggregation of certain varieties of facts, formulated to obtain unity of results. It is plain that in such work, the cost of obtaining a single fact by itself will greatly exceed the average cost of a similar class, if provision is made for obtaining a considerable number of facts in the same period of time. It is also plain that there is a limit beyond which an enlarged scale for such work will not lessen the average cost of separate facts. As between the extremes here adverted to, and with close reference to the most productive scale of operations, the estimates for continuing the work are presented. The appropriations of the present and recent years are below the amount necessary to secure individual results at the least cost; hence, estimates are submitted larger in amount, but in respect of the results to be obtained, less in proportion than the more costly but reduced appropriation for the current fiscal year. Public interests as to time and means could not be fully realized without an appropriation twenty per cent. larger than the estimates now submitted, to permit the early completion of the coastwise work, and the prosecution of geodetic measurements in immediate demand.

In addition to the appropriation for the regular progress of the work along the coast, and for determining geographical points in the interior, an amount is greatly needed for resurveys of important localities, as parts of Nantucket and Long Island Sound, New York Bay and approaches, Delaware Bay, San Francisco Bay, Columbia River entrance, &c.; in which, from natural causes, serious changes have taken place since the original surveys were made.

I earnestly hope that the estimates now presented may be approved, as mature consideration of the interests concerned have constrained me to regard them requisite for the due and economical progress of the coast and geodetic survey.

A synopsis, showing the localities of work done in the year ending June 30, 1879, is here appended. Prospective work, to be mentioned in detailed estimates for the fiscal year ending June 30, 1881, will be stated in the usual order, corresponding with the geographical arrangement observed in stating the progress made in the survey. The operations of the year ending June 30, 1879, include hydrography of the coast of Maine, from Petit Manan light, southward and westward, to completed limits, and soundings in the eastern approaches to Mount Desert Island; drawings of prominent features of that island; soundings in Frenchman's Bay, near the Porcupine Islands; topography of those islands and of the shores of Skilling River, and of the shores of Union River Bay, near Ellsworth, Maine; topographical surveys of Long Island and Bartlett's Island; soundings in the approaches to Deer Isle, including parts of Jericho Bay and Placentia Bay; and in the approaches to Isle-au-Haut, developing there numerous ledges, and also a ledge in Muscougus Bay; tidal observations at North Haven, in Penobscot Bay; geodetic observations at Gunstock Mount; Starr King Mount; and Mount Monadnock, in New Hampshire; light-houses at Portsmouth, New Hampshire, and at Newburyport and Cape Ann, Massachusetts, determined in position; reconnaissance for geodetic stations in Vermont; hydrography of the entrance and bar of Merrimac River, Massachusetts; inspection and verification of the Harbor Commissioner's survey of the upper harbor of Boston; sea current observed and recorded at stations in the Gulf of Maine; examination for positions of aids to navigation along the coasts of Massachusetts and Rhode Island; tidal observations in Buzzard's Bay, and at Providence, Rhode Island; geodetic observations at Mount Prospect, New York; hydrography of the vicinity of Block Island, including development of southwest ledge; positions examined of the aids to navigation along the coast of Connecticut, and in Long Island Sound and Hudson River; the eastern part of Jamaica Bay surveyed and sounded; tidal observations at Sandy Hook, New Jersey, and at Governor's Island, New York Harbor; topography of the shores of the Hudson, near Peekskill; examination of the ground-marks at triangulation points on the coast of New Jersey; geodetic observations at Pickle's Mount and at Mount Horeb, in New Jersey; triangulation topography and hydrography, with special observations on the tides and currents of Delaware River, at Philadelphia, for the Board of Trade; hydrographic survey of the Delaware, from Marcus Hook to New Castle, for the Light-house Board; geodetic observations connecting stations in Eastern Pennsylvania with points in Maryland; pendulum observations at stations in Pennsylvania; astronomical observations at Washington for determining the longitude of southern stations; magnetic declination, dip, and intensity determined as usual at Washington, District of Columbia; investigation of the oyster reefs in Tangier Sound, Pocomoke Sound, and James River, Virginia; tidal observations at Old Point Comfort; detailed survey of the shores of James River continued in the vicinity of Richmond, Virginia; geodetic observations at stations in West Virginia; geodetic level determined at points between Hagerstown, Maryland, and Athens, in Ohio; positions determined of life-saving stations on the coast of Virginia and North Carolina, for entry on engraved charts; in Albemarle and Pamlico Sounds, compilation of notes for the Coast Pilot; development of a harbor of refuge inside of Cape Lookout; coast of North Carolina sounded from Barren Inlet, southward and westward, to Cape Fear; topography of Smith's Island, in the vicinity of that cape; longitude determined at a station in Statesville, North Carolina; hydrography of the coast of South Carolina, from Murrell's Inlet, southward, to the approaches of Winyah Bay, and soundings of the Sampit River, above Georgetown, South Carolina; topography of the shores of parts of Stone River and Wappoo Creek, near Charleston, South Carolina; longitude determined at a station in Atlanta, Georgia; tidal observations at Fernandina, Florida; triangulation and topography of Indian River, Florida, extending southward to Malabar, first, including the adjacent beach of the Atlantic; triangulation of the Gulf Coast, between Charlotte Harbor and Sarasota Bay; inshore hydrography of that vicinity; magnetic elements determined at Fernandina and Key West, Florida, at Nassau, New Providence, at South Bemini, Salt Key Bank, Matanzas Bahia Honda, Havana, and Cape San Antonio, Cuba; at Belize, in British Honduras; and at Cozumel and Mujeres, off Yucatan; geodetic observations at stations in Northern Alabama; currents observed and recorded at stations in the Gulf of Mexico, off the mouth of the Mississippi; at New Orleans, records

of the water-level; triangulation of the Mississippi, between Donaldsonville and Iberville, between Natchez and Grand Gulf, between Vicksburg and Milliken's Bend, and from Bennett's Landing to Memphis; hydrography of the Mississippi River, between Grand View Reach and Point Houmas; soundings in the mouths of Red River and the Atchafalaya, and also of the Bonnet Carré, Morganzia, Glascock, and Diamond Island Crevasse; inshore hydrography of the coast of Texas, abreast of Matagorda peninsula; triangulation of Laguna Madre, near the Rio Grande boundary; deep-sea soundings, serial temperature observations, and dredging in the waters of the Caribbean Sea, and in passages between the Windward Islands; magnetic declination, dip, and intensity determined at San Antonio, Fort Worth, and Sherman, in Texas, and at Atoka and Eufaula, in Indian Territory.

On the Pacific Coast of the United States the work of the year includes the geodetic connection, giving true positions of the Santa Barbara Islands off the coast of California, and the detailed survey of Santa Catalina Island and San Clemente Island, also the hydrography of the approaches to those islands, inshore hydrography of the coast from Newport Bay to Point Vicente, and soundings in the southern approach to Santa Barbara channel; coast triangulation from Point Arguello northward to Point Sal, and topography of the coast of California in the vicinity of Point Purissima; hydrography of part of Suisun Bay and part of San Pablo Bay; soundings at the mouths of the Sacramento and San Joaquin Rivers; tidal observations at Saucelito in San Francisco Bay; geodetic observations at Mt. Lola, California; detailed survey of the coast from Fisherman's Bay northward and westward to Haven's Anchorage; extension northward, of the main triangulation of the coast of California to the vicinity of Point Cabrillo; tidal records from the self-registering gauge at Honolulu, Sandwich Islands; triangulation of Columbia River, Oregon, extended upward to Willamette Slough; triangulation across the waters of Washington Sound in the vicinity of Point Partridge, Washington Territory; hydrography of the southern part of Puget Sound from Battery Point to Henderson's Inlet; survey of the shores of Hood's Canal between Port Gamble and Hazel's Point; triangulation of Case's Inlet, Pickering Passage, Peale's Passage, Eld Inlet, and Totten's Inlet, connecting with Puget Sound; and topography of the shores of Carr's Inlet, Washington Territory. Further material has been compiled for the Coast Pilot of Alaska, and illustrative of the meteorology of that territory.

In localities between the Atlantic Coast and the Pacific Coast, geodetic work has been advanced by marking a base-line near Louisville, Kentucky, and selecting adjacent points for triangulation, by geodetic observations near Lebanon, in Tennessee; selection of geodetic points between Athens and Columbus, Ohio; and in Indiana between Indianapolis and New Albany; in Illinois, points have been selected to connect with the base line on American Bottom, and observations were recorded at Springfield for the magnetic declination, dip, and intensity; further westward the operations of the year include magnetic observations at Madison, Wisconsin, and geodetic work between that city and the Mississippi River; also, in Missouri, beyond completed stations near the Gasconade River; magnetic observations at Great Bend, Sargent, Humboldt, Emporia, and Dodge City, in Kansas; geodetic observations in Nevada, and in Colorado; magnetic observations at Denver and North Pueblo, Fort Lyon, Colorado Springs, and Greely, in Colorado; and at Salt Lake City, Castle Rock, and Ogden, in Utah; at Laramie City, Rock Creek, Creston, Point of Rock, Cheyenne, Fort Steel, Green River, and Carter Station, in Wyoming Territory.

Office operations of the year include the reduction and discussion of all the field observations, preparation for issue of the records and results; the drawing of hydrographic charts from the original note-books; and of topographical and hydrographic maps on the several scales of reduction from originals for publication; engraving, electrotyping, and printing of the same; and repairs of instruments used in the survey. Tide-tables of the principal ports of the United States, for the year 1880 have been published; drawings for fifty-nine charts have been in progress, and of these twenty-eight were completed within the year, nine of which were photo-lithographed. In engraving, one hundred and forty-five plates have received additions, twelve chart-plates have been completed, and engraving is in progress on ten others begun within the year.

An aggregate of twenty-three thousand two hundred and thirteen copies of charts has been issued, and returns show by threefold increase in sales a large demand for them; nine hundred and sixty-three copies of the annual reports have been distributed; calls have been met as heretofore for information relating to local topography, hydrography, tides, magnetic variation, geographical positions, heights, distances, directions, and other particulars contained in the office records.

The second volume of the Atlantic Coast Pilot (for navigation between Boston and New York) has been published, and also a second edition of part of the Coast Pilot for the Gulf of Maine.

The third volume, nearly ready for the printer, will complete descriptions of the coast, and sailing directions for navigating between Passamaquoddy Bay and Chesapeake entrance, and notes are now in hand for a fourth volume, to include the coast south of Cape Henry.

ESTIMATES.

The estimates for continuing work in the Eastern Division of the Coast and the Geodetic Survey during the year ending June 30, 1881, are intended to provide for the following progress:

Field-work.—To continue the topography of the western shore and islands of Passamaquoddy Bay and its estuaries; to complete the topography between Penobscot Bay and Narraguagus Bay, and that of the shores of the Penobscot near Bangor; to determine heights at geodetic points between Boston and the St. Croix, and co-efficients of refraction; to complete the hydrography between Penobscot Bay and Narraguagus Bay, and continue soundings in the coast approaches eastward of Petit Manan Island; to continue a topographical and hydrographic survey of Portsmouth harbor, and make such additional triangulation as may be requisite for that and other surveys on the eastern coast; to continue the triangulation of New Hampshire; determine the position of new light-houses between Eastport, Maine, and New York; to continue the triangulation of Vermont; to continue soundings along the coast of Maine, and other off-shore hydrography between Cape Cod and Manan, and make special examination for the sailing-lines for charts; to continue the observations of sea and tidal currents in the Gulf of Maine; to continue tidal observations, and to make such astronomical and magnetic observations as may be required; to continue such topographical and hydrographic resurveys of the coast between Cape Cod and New York as may be found necessary; to continue the survey of the Connecticut River from its mouth to Hartford; to make such examinations as may be required in New York Harbor, and such surveys in its vicinity as may be necessary, including the continuation of the topographical and hydrographic resurvey of the south coast of Long Island; to make along this part of the coast observations on tides and currents; to extend the plane-table survey of the

west shore of Hudson River above Haverstraw; to continue triangulation between Hudson River and Lake Champlain, and between Lake Champlain and Lake Ontario; to make the requisite astronomical observations; to continue the topographical and hydrographic resurveys of the coast of New Jersey, and of Delaware Bay and River; to continue the triangulation of New Jersey and Pennsylvania; to connect the Atlantic Coast triangulation with that of Chesapeake Bay, near the boundary line between Maryland and Virginia; to complete the detailed survey of James River, Virginia, including the hydrography, and continue the plane-table survey of the Potomac River; to continue westward the main triangulation from the Atlanta base to the Mississippi River at or near Memphis, including astronomical and magnetic observations; to continue the supplementary hydrography between Cape Henlopen and Cape Henry, and the tidal observations, including also such as may be required in Chesapeake Bay; to continue westward the triangulation in West Virginia along the thirty-ninth parallel; to measure base-lines of verification and determine azimuths for the coast triangulation south of Cape Lookout; to make the astronomical and magnetic observations requisite; to continue the off-shore hydrography between Cape Henry and Cape Fear; to complete the hydrography of Pamlico Sound and its rivers; to sound the entrance to Cape Fear River; to continue the topographical and hydrographic survey of rivers near the coast of South Carolina and Georgia; to determine azimuths for the triangulation of the coast of South Carolina and Georgia; to continue the detailed survey of sea islands and water passages north and south of Savannah River entrance, and make tidal observations; to continue the off-shore hydrography between Cape Fear and the St. John's River, Florida; to continue southward from Cape Malibar near latitude 28° north, the triangulation, topography, and hydrography of the eastern coast of Florida, including Indian River; to continue the triangulation, topography, and hydrography of St. John's River; to make the requisite astronomical observations; to continue hydrography off the eastern coast of Florida from Cape Cañaveral to the southward; to continue soundings and observations for deep-sea temperatures, currents, and dredgings in such parts of the Gulf stream northward of the latitude and eastward of the meridian of Cape Florida as may be deemed advisable, and also in the Caribbean Sea; and, within the same limits, such as may be considered advantageous in conjunction with the United States Commission on Fish and Fisheries; to continue the astronomical and magnetic observations requisite throughout the Gulf of Mexico; to complete the hydrography of Charlotte Harbor, Florida, and continue the triangulation, topography, and hydrography of the western coast of Florida between Cedar Keys and Tampa Bay, and between Tampa Bay and Charlotte Harbor; to continue the same classes of work to the southward of Charlotte Harbor; to run lines of soundings and dredging, and make observations of sea temperatures in the Gulf of Mexico, and develop the hydrography of the Gulf Coast included in field operations; to connect the trigonometrical survey of the Mississippi River at New Orleans with that of Lake Borgne, Lake Pontchartrain, and Maurepas; to continue the triangulation of the Mississippi River above New Orleans to the head of ship-navigation; to determine geographical positions, and make the astronomical and magnetic observations requisite; to extend the triangulation, topography, and hydrography of the coast of Louisiana westward of the Mississippi delta, and continue the hydrography of the Gulf of Mexico between the mouths of the Mississippi and Galveston, Texas; to continue the triangulation, topography, and hydrography of the coast of Texas westward between Sabine Pass and Galveston, and between Corpus Christi and the Rio Grande; to measure a base-line of verification, and make the astronomical and magnetic observations requisite between Sabine Pass and the Rio Grande; to continue the hydrography of the approaches to the coast of Texas; and triangulation across the States of Ohio, Indiana, Illinois, Missouri, and Kansas; to connect the surveys of the Atlantic and Pacific Coasts, and continue triangulation in Kentucky, Tennessee, and Wisconsin; to furnish points for State surveys; to continue the determination of the positions of new light-houses and life-saving stations along the coast between New York and the Rio Grande; to continue field-work for the verification of data for the Coast Pilot; to continue the organized system of magnetic observations required for a complete magnetic survey, and to run lines of levels connecting points in the main triangulation with the sea-level.

Office-work.—To continue the deduction of results by computation from the field operations along the Atlantic and Gulf Coasts, and in connection with interior geodetic surveys, including astronomical, geographical, magnetic, hypsometric, and tidal work; to advance the publication of the Coast Pilot for the Atlantic and Gulf Coasts; and complete tidal predictions for the year 1881 for those coasts; to continue the publication of original topographical maps and reductions thereof, and to plot the hydrographic surveys; to make additions to the drawings of Sailing-Charts A, from Cape Sable to Cape Hatteras, and of No. 1 and No. 2, Cape Sable to Sandy Hook, and Nantucket to Cape Hatteras; to continue the drawing and engraving of the general chart of the Atlantic Coast from Quoddy Head to Cape Cod; and of Coast Chart No. 3, Frenchman's Bay and Blue Hill Bay; to begin the engraving of coast charts, Passamaquoddy Bay to Seal Island Light, and from thence to Petit Manan, and of harbor charts of parts of Passamaquoddy Bay, Machias Bay and approaches, Englishman's Bay, Moose-a-bec Reach, and Pleasant Bay; to begin the drawings of harbor charts of Deer Island Thoroughfare, and complete those of Frenchman's Bay, Somes Sound, Blue Hill Bay, and Union River Bay; to begin the engraving of a new edition of the chart of Newburyport Harbor, also of Lynn Harbor; to complete drawings of the charts of Thames River and of the harbors of New London and Norwich, of Great South Bay and the adjacent coast of Long Island, and of a new edition of the chart of New York Harbor and Hudson River; to continue the drawing of a chart of the coast of New Jersey, and of the harbor of Philadelphia; to continue the drawing of a chart of Delaware River in the vicinity of Philadelphia; complete engraving of the chart of James River, Virginia; continue drawings of sailing-charts from Cape Hatteras to Key West; and drawing and engraving of local charts between the same limits; to begin drawings of charts of the Inside Passage from Charleston to North Edisto River, South Carolina, and of St. John's River, south of Jacksonville; to finish the engraving of the chart of Halifax River to Mosquito Inlet, Florida; begin drawing of the general coast chart, Cape Cañaveral to Cape Florida; complete the chart of the coast of Florida between Chassahowitzka River and Cedar Keys, and begin engraving of that from Cedar Keys to Steinhatchee River; to begin engraving for charts of St. Joseph's Bay and St. Andrew's Bay, Florida; to begin the engraving of a chart of the Gulf Coast from Mobile Bay to Atchafalaya Bay; to continue drawings and begin engraving charts of Chandeleur Sound, Breton Sound, and the approaches to the Mississippi delta; to finish the engraving of Gulf coast-chart from Point au Fer to Côté Blanche, including Atchafalaya Bay; to continue the engraving of charts of the coast of Texas between Galveston and the Rio Grande; for material for drawing, engraving, map-printing, for electrotyping and photographing, and for instruments and apparatus.

Total for the Atlantic and Gulf Coasts, and involving work in thirty-four States and two Territories, will require \$371,000.

The estimates for continuing work in the western division of the Coast and Geodetic Survey of the United States are intended to provide for the following progress:

Field-work.—To make the requisite observations for latitude, longitude, azimuth, and the magnetic elements at stations along the Pacific coast of the United States; to continue off-shore soundings along the coast of California, Oregon, and Washington Territory, and tidal observations at San Francisco, and such other localities as may be necessary; to continue the main-coast triangulation from Monterey Bay to the southward, and from Point Conception to the northward, and from San Pedro towards San Diego; to continue reconnaissance for the main triangulation of the coast from San Pedro to Point Conception, from Russian River to the northward, from Columbia River north to Puget Sound, and south up the Willamette Valley; to continue the primary triangulation through the Sacramento and San Joaquin Valleys, and measure base-lines in the western division of the survey; to continue the coast triangulation and topography from Newport, Los Angeles county, California, towards San Diego; to continue the tertiary triangulation and topography from Point Buchon towards San Simeon, and hydrography between San Diego and Monterey Bay; to develop hydrographic changes in San Francisco Bay and its approaches; to continue triangulation across the States of California, Nevada, Colorado, and the Territory of Utah, along the thirty-ninth parallel, to connect the survey of the Pacific coast with that of the Atlantic, and furnish points for the survey of the States named; to complete the secondary and tertiary triangulation and topography of the coast between Bodega Bay and Point Arena; to continue soundings between Cape Mendocino and the Klamath River, and between Cape Sebastian and Point Orford; to observe currents along the coast, and take soundings and temperature observations in the California branch of the Kuro Siwo current, and execute such other hydrographic work as local demands may require; to continue tidal and current observations at the Golden Gate, and observations on ocean currents along the coast of California; to continue the triangulation, topography, and hydrography of the Columbia River; to complete the detailed survey between Cape Sebastian and Crescent City, and off-shore hydrography at Crescent City Reef; to measure a base-line and continue the triangulation of the Strait of Fuca and the topography and hydrography of Puget Sound, and the adjacent waters; to continue reconnaissance of the coast and islands of Alaska with observations of the tides and currents, and the requisite astronomical and magnetic observations; to continue field-work for description of the coast and verification of the Coast Pilot of the coasts of California, Oregon, Washington Territory, and Alaska Territory; to continue the organized system of magnetic observations required for a complete magnetic survey; and to run lines of levels connecting points in the main triangulation with the sea-level.

Office-work.—To make computations of the field observations, including astronomical, geodetic, magnetic, and tidal-work; to continue the compilation of the Coast Pilot of the coasts of California, Oregon, Washington Territory, and Alaska Territory; to prepare tidal predictions for the year 1881; to continue the publication of the original topographical maps and reductions of them, and to plot the hydrographic surveys; to continue drawing and begin engraving of a chart of the Coast of California between San Diego and Santa Monica, and complete the drawing of that between Santa Monica and Point Conception; to begin the drawing of a new edition of the chart of San Diego Bay, and of Coast Charts between Point Conception and Cape Mendocino; to begin engraving for a chart of the vicinity of Shoalwater Bay, and of sheet No. 4 of Columbia River; to execute local harbor charts for the waters of Puget Sound, and complete engraving for the general Coast Chart of that Sound, including Admiralty Inlet; for materials for drawing, engraving, and map-printing, for electrotyping and photographing, and for instruments and apparatus.

Total for the Pacific Coast, and involving work in four States and seven Territories, will require \$246,000.

For repairs and maintenance of the complement of vessels used in the Coast and Geodetic Survey will require \$44,000.

For continuing the publication of observations made in the progress of the Coast and Geodetic Survey will require \$8,000.

For general expenses of all the work, rent, fuel, for transportation of instruments, maps, and charts, miscellaneous office-expenses, and for the purchase of books, maps, and charts, will require \$36,000.

Respectfully submitted:

C. P. PATTERSON,
Superintendent United States Coast and Geodetic Survey.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

APPENDIX W.

Estimate of funds required for the United States Artillery School for the fiscal year ending June 30, 1881. (See page 168.)

Department of artillery:

One cable to "Rip-Raps," to be used in connection with practical firing, torpedoes, and telegraphy, for the instruction of officers.....	\$2,000 00
One electrical lamp, for the purpose of experiment and practice in lighting up harbor at night.....	500 00
One densimeter, for the purpose of obtaining the density of powder and for practical instruction of officers.....	500 00
One Boulenge chronograph, for the purpose of obtaining the velocity given to a projectile, to be used as above.....	250 00
One Holtz electrical machine, for electrical purposes and for instruction of officers.....	300 00
One set electrical apparatus, as above.....	200 00
One roll of zinc, for purposes as above.....	100 00
Books of reference.....	75 00
Two cabinets for apparatus.....	150 00
Lumber, assorted, for shelves, cases, &c., in rooms—electrical and chemical.....	25 00
Chemicals for analysis of powder and laboratory-work and such additional apparatus as may be needed.....	250 00

\$4,350 00

Department of engineering :		
One portable astronomical transit complete, for instruction of officers	\$500 00	
Twelve aneroid barometers, small, for reconnaissance	360 00	
Books of reference, engineering	60 00	
Models of permanent works, and topographical	300 00	
Tools and material for repair of instruments, &c.	90 00	
Lumber for bridge and engineering-models	80 00	
Lumber for magazine frames and sheetings, for instruction of officers in construction	30 00	
Lumber for profiling, for instruction of officers in construction	30 00	
Nails, brads, &c., for use in practical engineering and making models	10 00	
Making models	100 00	
Oil-shellac and alcohol, for finishing wood-work of models	25 00	
Material for gabions and fascines	30 00	
Miscellaneous expenses of instruction	100 00	
Lumber for shelving in instrument and photographic-rooms	15 00	
Fourteen horses for instruction, mounted reconnaissance	1,750 00	
Erection of building at end of working base-line, for protection of instruments and increased accuracy of observation during the target-practice with heavy guns	150 00	
Apparatus for teaching use of veniers, for instruction of officers and men	20 00	
		\$3,650 00
Drawing :		
Four circular protractors, Crozet's	140 00	
Six proportional dividers	88 50	
Twenty-four steel straight-edges, nickel-plated, draughtsman, 30 inches long	75 60	
Twenty-four steel triangles, nickel-plated, 10 inches long	108 00	
Half dozen drawing-boards and frames, medium	20 00	
Drawing-paper	60 00	
Pencils, pens, rubbers, and fastening-tacks	20 00	
India-ink, liquid	16 00	
India-ink, solid	10 00	
Water colors	10 00	
		548 10
Military photography:		
One small camera, for triangulation, complete, for instruction of officers	150 00	
Photographic material	500 00	
		650 00
Department of military history and strategy, &c. :		
For paper and drawing-material	100 00	
For books and maps, for reference	200 00	
For book-case, instructor's library	50 00	
		350 00
Department of law and military administration :		
Books of reference	50 00	
		50 00
Miscellaneous :		
For tape, printing-paper, &c.	100 00	
For extra-duty pay of clerks, mechanics, &c.	820 00	
		920 00
Total amount required		\$10,518 10

Approved :

GEO. W. GETTY,
Colonel Third Artillery, Brevet Major-General U. S. A., Commanding.

APPENDIX X.

Statement of appropriations made during the Third Session of the Forty-Fifth Congress, and First Session of the Forty-Sixth Congress, for the fiscal year ending June 30, 1880, for which no estimates are submitted for the fiscal year ending June 30, 1881; also, deficiency and miscellaneous appropriations made during the same sessions.

LEGISLATIVE.

UNITED STATES SENATE.

Salaries, officers and employés, 1879	\$6,102 10
One month's compensation to certain employés	8,215 90
One month's pay to discharged employés	9,000 00
Clerks to committees and pages, 1879	904 81
Clerks to committees and pages, 1878	60 00
Clerks to committees and pages, 1877	468 00
Horses and wagons, 1879	1,600 00
Furniture and repairs, 1879	5,000 00
Pay of folders, 1879	1,400 00
Packing-boxes, 1879	170 00
Cartage, 1880	600 00
Miscellaneous items, 1879	32,729 50
Capitol police, contingent fund, 1880	50 00
Total Senate	66,300 31

HOUSE OF REPRESENTATIVES.

Salaries, officers and employés, 1879	\$5,871 81
Salaries, officers and employés, 1878	416 66
Salaries, officers and employés, 1877	2,327 60
Salaries, officers and employés, 1876 and 1877	1,800 00
One month's compensation to certain employés	13,922 32
One month's extra compensation to annual employés	19,382 16
Clerks to committees, 1879	480 00
Clerks to committees, 1878 and 1879	264 00
Clerks to committees, 1877	715 60
Clerks to committees, 1876	184 00
Pages, 1878	222 50
Stationery and newspapers, 1879	800 00
Miscellaneous items, 1879	62,440 20
Miscellaneous items, 1878 and prior years	1,500 00
Capitol-police contingent fund, 1880	50 00
Reporting testimony before committees, 1879	3,700 00
Payment to the heirs or representatives of the late John E. Leonard	4,828 57
Relief of the widow of Alpheus S. Williams	1,007 88
Relief of the widow of Frank Welch	2,500 00
Relief of the children of B. B. Douglas	994 43
Relief of the widow of Julian Hartridge	765 75
Relief of the widow of Terrence J. Quinn	3,525 95
Payment to J. C. Kondrup	250 00
Reimbursing N. G. Ordway, late sergeant-at-arms	1,305 58
Cleaning statutory hall	1,440 00
Total House of Representatives	130,695 01

LEGISLATIVE MISCELLANEOUS.

Salaries, Library of Congress, 1879	\$474 72
Works of art for the Capitol	5,000 00
Salaries, Southern Claims Commission, 1880	17,169 21
Salaries, Southern Claims Commission, 1879	6,477 74
Salaries and expenses of agents, Southern Claims Commission, 1880	6,000 00
Contingent expenses of Southern Claims Commission, 1880	4,000 00
Improving buildings, Botanic Garden	5,495 00
Total Miscellaneous	44,616 67
Total Legislative Establishment	241,611 99

EXECUTIVE.

STATE DEPARTMENT.

Postage, Postal-Union countries	\$2,650 00
---------------------------------------	------------

TREASURY DEPARTMENT.

One month's pay to discharged Treasury employes, 1880	\$1,275 00
Contingent expenses, binding, newspapers, &c., 1879	2,000 00
Contingent expenses, binding, newspapers, &c., 1878	33 30
Contingent expenses, binding, newspapers, &c., 1877	18 83
Contingent expenses, freight, telegrams, &c., 1877	2 64
Contingent expenses, gas, &c., 1879	4,000 00
Total Treasury Department Proper	7,329 77

INDEPENDENT TREASURY.

Salaries, office of Assistant Treasurer at New York, 1879	\$1,376 61
Checks and certificates of deposit, 1879	2,000 00
Contingent expenses, 1877	334 87
Total Independent Treasury	3,711 48

MINTS AND ASSAY OFFICES.

Contingent expenses, Mint at Philadelphia, 1879	\$10,000 00
Wages of workmen, Mint at Denver, 1879	800 00
Contingent expenses, Mint at Denver, 1879	700 00
Wages of workmen, Assay Office at Helena, 1879	2,000 00
Contingent expenses, Assay Office at Helena, 1879	3,000 00
Wages and expenses, Assay Office at Boise City, 1879	2,000 00
Wages and expenses, Assay Office at Charlotte, 1879	375 00
Total Mints and Assay Offices	18,875 00

TERRITORIAL GOVERNMENTS.

Legislative expenses, Territory of Arizona, 1879	\$4,220 00
Salaries, governor, &c., Territory of Dakota, 1879	680 00
Legislative expenses, Territory of Dakota, 1879	5,680 00
Legislative expenses, Territory of Dakota, 1877	1,399 90
Legislative expenses, Territory of Idaho, 1879	10,538 00
Legislative expenses, Territory of Idaho, 1877	1,727 14
Contingent expenses, Territory of Idaho, 1878	250 00
Legislative expenses, Territory of Montana, 1879	8,138 00
Legislative expenses, Territory of New Mexico, 1878	800 00
Legislative expenses, Territory of Wyoming, 1878	3,359 54
Legislative expenses, Territory of Wyoming, 1877	446 33.
Total Territorial Governments	37,238 91

INTERNAL REVENUE.

Salaries and expenses of collectors of internal revenue, 1879	\$25,000 00
Salaries and expenses of agents and subordinate officers of internal revenue, 1879	150,000 00
Salaries and expenses of agents and subordinate officers of internal revenue, 1877	277 78
Salaries and expenses of agents and subordinate officers of internal revenue, 1876 and prior years	3,125 36
Expenses of assessing and collecting internal revenue, 1875 and prior years	15,003 61
Punishment for violations of internal-revenue laws, 1879	25,000 00
Alteration of dies and stamps	15,000 00
Total Internal Revenue	233,406 75

WAR DEPARTMENT.

Furniture, new War-Department building	\$50,000 00
--	-------------

NAVY DEPARTMENT.

Salaries, superintendent, &c., Navy-Department building, 1879	\$1,227 42
Furniture, new Navy-Department building	50,000 00
Postage, Postal-Union countries	5,000 00
Total Navy Department	56,227 42

INTERIOR DEPARTMENT.

Stationery, 1879	\$5,000 00
Temporary clerks, office of Commissioner of Pensions, 1879 and 1880	48,700 00
Furniture, contingencies, and rent, office of Commissioner of Pensions, 1879 and 1880	3,500 00
Contingent expenses, office of Commissioner of Pensions, 1879	3,000 00

Tracings of drawings, office of Commissioner of Patents, 1880	\$5,000 00
Salaries and expenses, office of Auditor of Railroad Accounts, 1879	2,400 00
Distributing documents, Bureau of Education, 1880	1,000 00
Postage, Postal-Union countries	2,100 00
Total Interior Department.....	70,700 00

PUBLIC-LAND OFFICES.

Salaries, office of surveyor-general of California, 1879	\$3,000 00
--	------------

POST-OFFICE DEPARTMENT.

Contingent expenses, telegraphing, 1879	\$2,000 00
Contingent expenses, miscellaneous items, 1879	4,000 00
Postage-stamps, Postal-Union countries	250 00
Total Post-Office Department.....	6,250 00

DEPARTMENT OF JUSTICE.

Purchase of law-books, Attorney-General's Office, 1871	\$22 00
Postage, Postal-Union countries	50 00
Total Department of Justice.....	72 00
Total Executive.....	\$489,461 33

JUDICIAL.

Salaries, district marshals, 1877	\$185 18
Salaries, district marshals, 1875	38 89
Salaries, supreme court, District of Columbia, 1879	1,122 22
Total Judicial.....	1,346 29
Total Civil Establishment.....	\$732,419 61

FOREIGN INTERCOURSE.

Salaries of ministers, 1872 and prior years	\$1,186 12
Salaries, secretaries of legation, 1879	6,000 00
Salaries, consular service, 1878	2,283 81
Salaries, consular service, 1876	373 51
Salaries, consular service, 1875	508 17
Salaries, consular service, 1874	488 34
Salaries, consular service, 1872	270 91
Salaries, consular service, 1871 and prior years	105 14
Relief and protection of American seamen, 1873	55 30
Revising and editing consular regulations	3,000 00
Total Foreign Intercourse.....	14,271 30

MILITARY ESTABLISHMENT.

Expenses of recruiting, 1876	\$34 30
Contingencies of the Army, 1871 and prior years	341 50
Incidental expenses, Quartermaster's Department, 1878	3,102 05
Incidental expenses, Quartermaster's Department, 1877	3,078 07
Fifty per centum of arrears of Army transportation due certain land-grant railroads	300,000 00
Miscellaneous claims, audited by Third Auditor, under section 4, act June 14, 1878	97,497 40
Barracks and quarters, 1879	2,391 67
Pay, and travelling, and general expenses of the Army, 1879	700,000 00
Pay, &c., of the Army, 1876 and prior years	15,123 40
Subsistence of the Army, 1871 and prior years	869 47
Medical and Hospital Department, 1877 and prior years	2,678 96
Ordnance service, 1878	230 00
Ordnance, ordnance stores, and supplies, 1871 and prior years	311 30
Pay of Military Academy, 1879	7,500 00
Water supply, Military Academy	40,000 00
Geographical survey of the territory of the United States west of 100th meridian, 1879 and 1880	20,000 00
Total Military Establishment.....	1,193,158 12

NAVAL ESTABLISHMENT.

Contingent, Navy, 1876	\$479 56
Pay-clerks, Marine Corps, 1879	5,714 47
Pay, clothing undrawn, Marine Corps, 1879	3,000 00
Military stores, Marine Corps, 1879	1,500 00
Illustrations for Report on Solar Eclipse, Naval Observatory	1,500 00
Observations of the California eclipse, Naval Observatory	600 00
Wood-cuts of nebula in Orion, Naval Observatory	350 00
Velocity of light, Nautical Almanac, 1880	5,000 00
Provisions for the Navy, 1877	15,375 40
Small stores, Bureau of Provisions and Clothing	100,000 00
Contingent, Bureau of Provisions and Clothing, 1878	2,505 27
Construction and repair, 1877	7,830 51
Construction and repair, 1875	12,353 41
Increase and repair, 1871 and prior years	748 10
Machine for testing iron, Bureau of Steam-Engineering, 1880	3,000 00
Total Naval Establishment	159,956 72

INDIAN AFFAIRS:

Pay of superintendents and agents, 1876	\$588 31
Pay of interpreters, 1876	42 12
Fulfilling treaties with Crows, 1875-1876	9,416 11
Fulfilling treaties with Gros Ventres, 1873-1874	15 50
Removal of the Utes in Colorado, 1880	20,000 00
Support of Indians in Idaho, 1879	10,000 00
Support of Indians at Fort Peck agency, 1879	25,000 00
Support of Sioux at Fort Peck agency, 1875	150 00
Support of Teton Sioux, 1873-1874	239 72
Support of Arapahoes, Cheyennes, Apaches, Kiowas, Comanches, and Wichitas, 1879	30,000 00
Civilization of Indians of Central superintendency, 1873 and prior years	4 86
Support of Assinaboines of Montana, 1879	10,000 00
Support of roving bands of Kickapoos and other Indians of Texas and New Mexico, 1873 and prior years	565 66
Incidental expenses, Indian service in Arizona, 1875-1876	164 85
Incidental expenses, Indian service in Montana, 1875	24 65
Incidental expenses, Indian service in New Mexico, 1875-1876	72 00

STATEMENT OF THE PROCEEDS OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE FOLLOWING PROVISIONS OF LAW :

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue-cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the Appendix to the Book of Estimates.—(R. S., pages 713, 722, sections 3618, 3672, act February 27, 1877, 19 Stats., 249.)
