

SISSETON AND WAHPETON SIOUX INDIANS.

LETTER

FROM

THE SECRETARY OF THE INTERIOR,

TRANSMITTING

The draught of a bill providing for a modification of the requirements of the fifth article of the treaty of February 19, 1837, with the Sisseton and Wahpeton bands of the Sioux Indians, and recommending the same to the consideration of Congress.

JANUARY 5, 1876.—Referred to the Committee on Indian Affairs and ordered to be printed.

DEPARTMENT OF THE INTERIOR,
Washington, December 23, 1875.

SIR: A treaty with the Sisseton and Wahpeton bands of Sioux Indians, concluded February 19, 1867, makes provision for an allotment of lands in severalty to heads of families or single persons over twenty-one years of age.

Under authority of this Department, instructions were issued, under date of 14th of May last, by the Commissioner of Indian Affairs, to Mr. C. C. Royce, as a special agent, to proceed to the Sisseton agency, in Dakota, and make allotments of land to each member of said bands who should be entitled thereto, in the manner and upon the conditions stipulated in the fifth article of said treaty, one of which is as follows:

And every person to whom lands may be allotted under the provisions of this article who shall occupy and cultivate a portion thereof for five consecutive years, shall thereafter be entitled to receive a patent for the same so soon as he shall have fifty acres of said tract fenced, plowed, and in crop: *Provided*, That said patent shall not authorize any transfer of said lands, or portion thereof, except to the United States, but said lands and the improvements thereon shall descend to the proper heirs of the persons obtaining a patent.

A copy of the report of Mr. Royce, presented by letter of the Commissioner of Indian Affairs, under date of 21st instant, (copy also herewith,) is inclosed, wherein the special agent gives his views of the effect of that portion of the article (5) hereinbefore recited, which makes it a condition-precedent to the issuance of the patent that fifty acres of land should first be properly placed under cultivation, and states that, in his judgment, the amount of land thus required to be improved is unnecessarily large, and discourages the Indians in their efforts.

I therefore have the honor to present herewith the draught of a bill providing for a modification of the requirement of the fifth article of the treaty of February 19, 1867, to the effect that the amount of fifty acres of improvement be reduced to twenty-five, and, in accordance with the

recommendation contained in the letter of the Commissioner of Indian Affairs, recommend the subject to the favorable consideration of Congress.

Very respectfully, your obedient servant,

Z. CHANDLER,

Secretary.

The SPEAKER, *House of Representatives.*

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, D. C., December 21, 1875.

SIR: Referring to Department letter of the 14th instant, returning, with approval, the amended draught of a bill providing for a reduction in the quantity of land required to be cultivated by allottees, under the provisions of the treaty with the Sisseton and Wahpeton Sioux, concluded February 19, 1867, as a condition precedent to the issue of patents for such allotments, I now have the honor to submit herewith two copies of said bill, accompanied by copies of the report of Special Agent C. C. Royce, who made the allotments, and respectfully recommend that the same be laid before Congress for favorable action by that body.

Very respectfully, your obedient servant,

J. Q. SMITH,

Commissioner.

The Hon. SECRETARY OF THE INTERIOR.

Whereas the fifth article of a treaty concluded February 19, 1867, between the United States and the Sisseton and Wahpeton bands of Dakota or Sioux Indians provides for an allotment of 160 acres of land upon the reservations therein set apart, to each head of a family or single person over twenty-one years of age belonging to said bands and entitled to locate thereon, and further provides that every person to whom lands may be allotted under the provisions of this article, who shall occupy and cultivate a portion thereof for five consecutive years, shall thereafter be entitled to receive a patent for the same so soon as he shall have fifty acres of said tract fenced, plowed, and in crop: *Provided*, That said patent shall not authorize any transfer of said lands or portions thereof except to the United States, but said lands and the improvements thereon shall descend to the proper heirs of the persons obtaining a patent; and whereas it is believed the quantity of fifty acres aforesaid, required to be in fence and under cultivation as a condition-precedent to the issue of patents, is excessive: Therefore,

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That whenever it shall be made to appear to the satisfaction of the Secretary of the Interior, under such regulations as he may prescribe, that any person to whom lands may have been or shall hereafter be allotted under the provisions of the fifth article of said treaty has occupied and cultivated a portion of the land so allotted to him for five consecutive years, and has also caused not less than twenty-five acres of such allotment to be fenced, plowed, and put in crop, it shall thereupon be the duty of the Secretary of the Interior to cause a patent to be issued to such person for the land so allotted to him, but the title conveyed by such patent shall not be transferable except to the United States, and the land, with the improvements thereon, shall descend to the heirs of the patentee.

WASHINGTON, D. C., September 25, 1875.

SIR: I have the honor to submit the following report:

Acting under office instructions of the 14th of May last, I proceeded to the Sisseton agency in Dakota, for the purpose of making allotments of land in severalty to such members of the Sisseton and Wahpeton bands of Sioux as should be entitled thereto under the provisions of the fifth article of the treaty with those bands, concluded February 19, 1867.

Arriving at Saint Paul, *en route* to the agency, on the morning of June 2, I found Agent Hamilton, who informed me that he would be unable to leave for his agency until the 7th, and that the agency team which was to meet him at Morris and transport us to the agency, sixty-five miles distant from the railroad, would not be there

until that day. Accordingly I remained in Saint Paul and Minneapolis until the 7th, and, accompanied by Agent Hamilton, reached Morris, Minn., on the morning of the 8th. The agency team, however, did not arrive at Morris until the evening of the 9th, and we left for the agency on the morning of the 10th.

I soon ascertained that the Indians were all anxious to have the boundaries of their respective allotments clearly pointed out to them, most of them having already selected the spot where they were desirous of having their claims located, and in numerous instances being in such proximity to each other that two or three of them would lay claim to the same forty or eighty acre tract. Many vexatious disputes were thus brought about, which in some instances I found much difficulty in adjusting to the satisfaction of all parties, owing to the tenacity with which each claimant would adhere to the assertion of the priority and superiority of his own claim.

As stated in my letter of the 14th of June, I found a large proportion of the surveyor's stakes had been destroyed; in some instances by the Indians themselves, but generally by the annual prairie-fires that sweep over the reservation. Occasionally I also found that the surveyor had in the first place neglected to set the proper stakes, and in several instances the stakes standing were incorrectly marked. Under these circumstances I deemed it necessary, in order to insure accuracy in all cases, to secure the services of a practical surveyor. The services of the regular interpreter being in almost constant demand at the agency, it became necessary that I should employ some one to accompany me regularly in that capacity. Authority having been given me in Office letter of the 21st of June to employ both a surveyor and interpreter, I secured the services of a competent and experienced man to perform the duties first mentioned, at a compensation of \$3 per day, and also employed an interpreter at the rate of \$45 per month.

The nature of the country was such as to render it impossible, except in a few instances, to give each Indian his entire allotment in one body. The "coteaus" or hills of the prairie extended almost the entire length of the reservation from northwest to southeast. These coteaus are intersected by numerous deep ravines, which are filled in most instances with a heavy growth of timber, constituting the only supply of wood to be found on the reserve, except a slight fringe of trees that skirts the margin of some of the numerous small lakes with which the country abounds. As a rule the land in the immediate vicinity of these ravines is rough, stony, and unfit for cultivation, and accordingly in making the allotments I allowed each allottee to select either forty or eighty acres along the ravines, and the remainder of his claim at some other most convenient and desirable spot upon the "flat" or bottom prairie, in order that he might have agricultural land of good quality sufficient to enable him to bring the "fifty acres" mentioned in the treaty under cultivation, with a view to securing his patent.

Speaking of this quantity of fifty acres, required by the treaty to be brought under cultivation before the allottee can secure a patent for his allotment, I have the honor to represent that, in my judgment, the requirement is unnecessarily and, to an Indian, discouragingly large. Some few members of the tribe will undoubtedly in a few years have more than fifty acres each in crop, but to a large proportion of these the quantity specified in the treaty seems so great as to discourage all effort on their part to achieve the task. In view of this fact, I deem it appropriate to suggest that legislation be asked of Congress at its next session reducing by one-half the number of acres, required by the treaty as aforesaid to be brought under cultivation as a condition precedent to the issuance of patents; or, it might be deemed a more advisable plan to issue to each allottee a patent for forty acres of his allotment for each ten acres that he shall bring under cultivation, until he shall have received patents for the entire allotment. Many of the Indians already have from five to twenty-five acres well fenced and under cultivation. Gabriel Renville, the head chief, has now inclosed within a substantial wire fence and under cultivation the full quantity of fifty acres, and is therefore entitled to his patent. I earnestly recommend that measures be taken for the issue of a patent in his name for the land allotted to him at the earliest day practicable. It will serve as a strong incentive to others to emulate his example of industry and thrift.

The number of allotments made to individuals is two hundred and sixty-four; in addition to which I set apart and reserved for the manual-labor boarding-school farm three hundred and twenty acres; for agency-purposes, one hundred and sixty acres, upon which the agency-buildings are located, in addition to one hundred and twenty acres of timber; also several forty-acre tracts, upon which are located churches and school-houses.

I submit herewith, as a part of this report, a schedule exhibiting the names of the allottees, together with the descriptions of the various tracts of land allotted to each, and respectfully ask that the same may receive the approval of the Department, and that certificates of allotment be issued at an early day to each allottee.

Very respectfully, your obedient servant,

C. C. ROYCE,
Special Agent Interior Department.

Hon. E. P. SMITH,
Commissioner Indian Affairs, Washington, D. C.

Schedule of allotments of land in severalty assigned to members of the Sisseton and Wahpeton bands of Sioux Indians residing upon the Lake Traverse Indian reservation, in Dakota, by C. C. Royce, special agent of the Interior Department, in accordance with the provisions of the fifth article of the treaty with the aforesaid bands, concluded February 19, 1867, and instructions of the Commissioner of Indian Affairs bearing date May 14, 1875.

WASHINGTON, D. C., *September 25, 1875.*

I hereby certify that the foregoing schedule comprises a complete list of the allotments of land in severalty made by me to heads of families and single persons over twenty-one years of age belonging to the Sisseton and Wahpeton bands of Sioux Indians residing upon the Lake Traverse Indian reservation, in Dakota Territory; said allotments having been made in pursuance of the provisions of the fifth article of the treaty with the aforesaid bands, concluded February 19, 1867, and instructions from the Commissioner of Indian Affairs, bearing date May 14, 1875.

C. C. ROYCE,
Special Agent Interior Department.

DEPARTMENT OF THE INTERIOR,
Office of Indian Affairs, September 30, 1875.

The foregoing schedule, comprising a list of the allotments of land in severalty assigned to members of the Sisseton and Wahpeton bands of Sioux Indians residing upon the Lake Traverse Indian reservation, in Dakota, made by C. C. Royce, special agent of the Interior Department, under instructions from the Office bearing date May 14 and June 21, 1875, is respectfully submitted, with the recommendation that the same be approved, and that certificates of allotment be issued to each allottee for the lands assigned to him or her respectively.

E. P. SMITH, *Commissioner.*

DEPARTMENT OF THE INTERIOR, *October 1, 1875.*

The foregoing schedule of allotments is hereby approved, and the Commissioner of Indian Affairs will cause a certificate of allotment to be issued to each allottee for the lands assigned to him or her respectively.

B. R. COWEN, *Acting Secretary.*
