LETTER

FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year
ending June 30, 1876.*

TREASURY DEPARTMENT,

December 7, 1874.

SIR: In conformity to the requirements of the joint resolution of January 7, 1846, (9 Statutes, 108,) the eighth section of the act approved May 1, 1820, (3 Statutes, 568,) and the fifth section of the act of May 8, 1872, (17 Statutes, 83,) I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1876, as furnished by the several Executive Departments; statements showing the balances of appropriations unexpended on the 30th of June, 1874; the amounts appropriated for the service of the fiscal year ending June 30, 1875; the net expenditures for the quarter ended September 30, 1874; the estimated amounts that may be required to complete the service of the year, or of prior years, or that may be carried to the surplus fund; and a detailed statement of the "proceeds of Government property;" also, a statement of the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1874, by acts of Congress, approved March 3, 1873, and June 22, 1874.

I have the honor to be,

Very respectfully, your obedient servant,

B. H. BRISTOW,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

LETTER

THE SECRETARY OF THE TREASURY

Estimate of appropriations required for the service of the fiscal year ending June 30, 1876

Treasury Department

Washington, D.C.

Dear Sir: In compliance with the requirements of the joint resolution of January 7, 1875 (19 Statutes, 105), the report of the Secretary of the Treasury for the year ending June 30, 1875, and the fifth section of the act of July 2, 1872 (17 Statutes, 85), I have the honor to transmit for the information of Congress, the estimate of appropriations required for the service of the fiscal year ending June 30, 1876, as furnished by the several Executive Departments. Statements showing the balance of appropriations unexpended on June 30, 1875, the amounts appropriated for the service of the fiscal year ending June 30, 1876, the net expenditures for the quarter ended September 30, 1875, the amount of unexpended appropriations for the quarter ending September 30, 1875, and a statement of the expenditures of the several departments of the Government for the quarter ending September 30, 1875, are also transmitted for your information. The several departments of the Government have also transmitted for the quarter ending September 30, 1875, the amount of unexpended appropriations for the quarter ending September 30, 1875, and a statement of the expenditures of the several departments of the Government for the quarter ending September 30, 1875, are also transmitted for your information. The several departments of the Government have also transmitted for the quarter ending September 30, 1875, the amount of unexpended appropriations for the quarter ending September 30, 1875, and a statement of the expenditures of the several departments of the Government for the quarter ending September 30, 1875, are also transmitted for your information.

I have the honor to be,
Very respectfully, your obedient servant,

R. H. BRISTOW

						\$91,620 00	\$84,900 00
<i>Contingent Expenses, Office of Secretary of War—</i>							
Blank books, stationery, labor, books, maps, and miscellaneous items.....	Appropriated.....	18	99	1		12,000 00	12,000 00
<p>NOTE.—The increase in the number of messengers for the office of the Secretary of War is made for the reason that the messengers now employed (general-service enlisted men) will go out of service on June 30, 1875, and Congress in its last legislation failed to make any provision for messengers for the Secretary's office except for the two required for his own immediate rooms. The eight divisions of his office will be left without a messenger if these are not appropriated for in the next legislative appropriation act.</p>

One fireman	do.				720 00		
Five watchmen, at \$720 each	do.				3,600 00		
Two draughtsmen, at \$1,800 each	Submitted				3,600 00		
						\$175,680 00	\$172,080 00
NOTE.—The Quartermaster General, having the expenditure of several hundred thousand dollars annually, in connection with buildings, new and old, and the charge of plans and records of military reservations and cantonments, needs in his office the services of draughtsmen, all of whom, under act of June 20, 1874, he was compelled to discharge. He therefore submits an estimate for the hire of two draughtsmen in his office, and recommends that the law be so amended as to provide for and authorize their employment. He is now obliged, when a plan or copy of a drawing on file is called for, to send it out of the office to be made.

	Appropriated.	18	211	1			7,000 00	7,000 00
<p>NOTE.—The organic act of this surveying district provides \$11,000 per annum for clerk-hire, and for incidental expenses not exceeding \$10,000. The intricate business under numerous laws of Congress requires a much larger appropriation for clerks in the surveyor general's office than the maximum of \$11,000, allowed by the organic act; hence, the estimate of \$20,000 is submitted as absolutely required for the transaction of the current work of the office, and the bringing up of arrears in the preparation of descriptive notes of surveys for the local land office.</p>								
OFFICE OF SURVEYOR GENERAL OF IDAHO.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.
		Vol.	Page.	Sec.			
<i>Expenses of Depositing Public Moneys—</i>							
Expenses of depositing public moneys, as required by the act of March 3, 1849, entitled "An act requiring all moneys receivable from customs, and from all other sources, to be paid immediately into the Treasury, without abatement or reduction, and for other purposes".....	Appropriated.	18	213	1	\$15,000 00	\$13,000 00
NOTE.—The increase in this item is owing to the opening of six additional land offices.							
<i>Depredations on Public Timber—</i>							
To meet the expenses of suppressing depredations upon the timber on the public lands	Appropriated.	18	213	1	8,000 00	5,000 00
Total Public Lands						830,090 00	768,740 00
INTERIOR MISCELLANEOUS.							
GOVERNMENT HOSPITAL FOR THE INSANE.							
<i>Current Expenses, Government Hospital for the Insane—</i>							
Support, clothing, and medical and moral treatment of the insane of the Army and Navy and revenue-cutter service, and of all persons who have become insane since their entrance into the military or naval service of the United States, and who are indigent, and of the indigent insane of the District of Columbia, in the Government Hospital for the Insane	Appropriated.	18	215	1	\$150,171 00	\$140,785 00
NOTE.—At the close of the fiscal year ending June 30, 1874, there were under treatment in the hospital 682 patients, 50 of whom paid the average cost of their support, leaving 632 who were supported wholly by the Government. The increase in the number of such patients in the course of the last year was 52, and should an equal increase occur this year, the average number during the year to be provided for will be 684; but, as the present extreme maximum capacity of the hospital is 700, from 50 to 60 of whom will be pay patients, it follows that the institution cannot properly accommodate exceeding 640 dependent or Government patients, and the estimate for the support of the hospital is based upon that capacity, and upon the usual rate for several years of \$4 50 per week for all expenses of board and clothing and medical and general attendance. It should be borne in mind that it is the interest of the Government to receive most of the pay patients admitted, as under existing provisions of law they would be sent to the hospital as free patients if the proffered payment for their board and treatment was declined. The number of dependent patients has exceeded rather than fallen short of the number estimated for last year. The estimate of the superintendent for repairs and improvement of building and grounds will be found under the title of "Public Works," <i>post</i> .							
COLUMBIA HOSPITAL FOR WOMEN AND LYING-IN ASYLUM.							
<i>Current Expenses, Columbia Hospital for Women and Lying-in Asylum—</i>							
Subsistence stores, drugs, and medicines	Appropriated.	18	215	1	\$20,000 00

One and a half rations to ordnance men.....	Feb. 8, 1815	3	204	11			
Women to companies.....	Mar. 16, 1802	2	133	5			
The data upon which this estimate is made is as follows:							
	<i>No. of persons.</i>	<i>No. of rations.</i>					
Battalion of engineers.....	200	200					
Ten regiments of cavalry.....	8,450	8,450					
Five regiments of artillery.....	2,600	2,600					
Twenty-five regiments of infantry.....	12,085	12,085					
Ordnance men, (one and one-half rations per day).....	120	180					
Ordnance men.....	280	280					
Ordnance sergeants.....	115	115					
Commissary sergeants.....	148	148					
Hospital stewards.....	79	79					
Military Academy band.....	24	24					
West Point detachments.....	223	223					
Recruiting parties.....	400	400					
Sergeants, general service.....	30	30					
Indian scouts.....	300	300					
Women to companies, (laundresses).....	1,740	1,740					
Employés, Quartermaster's department.....	1,900	1,900					
Acting assistant surgeons.....	75	75					
Signal service.....	450	450					
Total.....	29,219	29,279					
One ration per day is allowed each person, except one hundred and twenty ordnance men, who receive one and one-half rations per day, and three hundred signal-service men, whose rations are commuted at 75 cents per day; 29,279 rations per day, for 365 days, amount to 10,687,835 rations, which, at 23 cents each, amount to.....					2,458,202 05		
Difference between the ration at 23 cents and commutation of rations at 75 cents, being 52 cents per day, for 300 signal-service men, (being sergeants making observations who cannot receive rations in kind,) for 365 days, would be.....					60,035 00		
Probable amount required to replace condemned supplies, sold at auction, (the proceeds of which are required to be covered into the Treasury, by section 5 of the Legislative, Judicial, and Executive Appropriation Act of May 8, 1872).....					51,762 95		
						2,570,000 00	2,409,000 00
<p>NOTE.—In estimating the price of the ration at 23 cents, the following expenses are included: Cost at place of purchase; losses from ordinary wastage in issuing; from wrecks and damage in transportation, and from deterioration at southern and remote posts, and in the field; preserving provisions; erecting and repairing ovens for baking bread; and the necessarily increased cost of the subsistence of enlisted men, when travelling or detached, under circumstances rendering it impracticable to issue their rations in kind. Instead of 22 cents for the last fiscal year, the price per ration is fixed at 23 cents, because of the probable shortness of the corn crop and consequent increase of the price of pork.</p>

Ordnance Service—							
Current expenses of the ordnance service.....	Appropriated.	18	74	1	200,000 00	125,000 00
<p>Note.—The amount estimated for under this head is required to pay the expenses at the arsenals of receiving stores and issuing arms and other ordnance supplies; of police and office duties; of rents, tolls, fuel, and light; of stationery and office furniture; of tools and instruments for use; of public animals, forage, and vehicles; incidental expenses of the ordnance service, including those attending practical trials and tests of ordnance, small-arms, and other ordnance supplies not otherwise specially provided for. This amount cannot be reduced without embarrassment to the public service.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.
		Vol.	Page.	Sec.			
<i>Tests of Iron and Steel—</i>							
Continuing tests of American iron and steel.....	Submitted					\$10,000 00	
NOTE.—An appropriation of \$25,000 for the above object for the fiscal year ending June 30, 1874, was made by the act approved March 3, 1873, (17 Stats., 547.)							
<i>Ordnance, Ordnance Stores, and Supplies—</i>							
Manufacture of metallic ammunition for small-arms.....	Appropriated.	18	75	1	\$150,000 00		
NOTE.—This will manufacture six millions of cartridges for the arm recently adopted, being about two hundred rounds per man.							
Overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals	do				60,000 00		
Dismounting guns and removing the armaments, &c., from forts being repaired, modified, &c., including heavy carriages returned to arsenals for alterations and repairs, and overhauling and removing obsolete or surplus stores at permanent forts	Submitted				20,000 00		
Repairing, preserving, overhauling, painting, &c., the armament, &c., in sea-coast forts, and for payment of labor and enlisted men detailed on extra duty	do				25,000 00		
Saddlers' tools and materials; smiths' tools and materials; tool bags; cavalry forges with their tools and materials for the cavalry service, as directed in General Order No. 2, Adjutant General's office, 1873, heretofore supplied by the Quartermaster's department	Appropriated.	18	75	1	20,000 00		
Repairing ordnance and ordnance stores in the hands of troops	do				25,000 00		
Repairing ordnance and ordnance stores for issue at the arsenals and depots	do				25,000 00		
NOTE.—These amounts are absolutely necessary for the proper preservation and repairs of stores.							
Purchase and manufacture of ordnance stores to fill requisitions of troops	do				100,000 00		
Alteration of carriages now in use in sea-coast forts	do				200,000 00		
NOTE.—Pneumatic buffers have to be provided and other alterations made to enable them to withstand the strain brought upon them by using increased battering charges with the guns.							
Infantry, cavalry, and artillery equipments, consisting of valises, haversacks, canteens, greatcoat straps, &c	do				100,000 00		
NOTE.—These stores have heretofore been supplied by the Quartermaster's department; but on the recommendation of the Quartermaster General, and to secure for the Army the best quality of stores, the Secretary of War transferred the duty of supplying them to the Ordnance department. The knapsacks left from the war have been all condemned as entirely worthless; 20,000 of a new pattern have been made for trial in the field. It is absolutely necessary to manufacture a sufficient supply to meet the urgent demands and present wants of the troops in the field.							
Recovering cavalry saddles with leather, manufacture of saddle-bags, &c., and overhauling horse-equipments for cavalry troops	Appropriated.	18	75	1	75,000 00		
Manufacture of depressing and other carriages for fortifications	Submitted				100,000 00		
Continuing tests of heavy ordnance, including the purchase and preparation of a proof and trial ground	do				50,000 00		
NOTE.—Provided the Secretary of War may, at his discretion, exchange condemned iron guns and projectiles for new projectiles.							
Purchase of a site for powder depot, and its preparation for the erection of suitable magazines	do				50,000 00		
						1,000,000 00	\$370,000 00
<i>Manufacture of Arms at National Armories—</i>							
Manufacture of the new model breech-loading musket and carbine, adopted for the military service on recommendation of the board of officers convened under act of Congress approved June 6, 1872.....	Appropriated.	18	75	1	300,000 00		100,000 00
MILITARY ACADEMY.							
<i>Current and Ordinary Expenses, Military Academy—</i>							
Repairs and improvements, timber, planks, boards, joists, wall-strips, laths, shingles, slate, tin, sheet lead, nails, screws, locks, butts, hinges, glass, paints, oils, turpentine, varnish, stone, brick, lime, cement, plaster, hair, drain-pipe, blasting powder, fuse, iron, steel, tools, mantels, and other similar material	Appropriated.	18	59	1	14,500 00		
Pay of citizen mechanics and labor employed upon repairs and improvements that cannot be done by enlisted men.....	do				8,000 00		

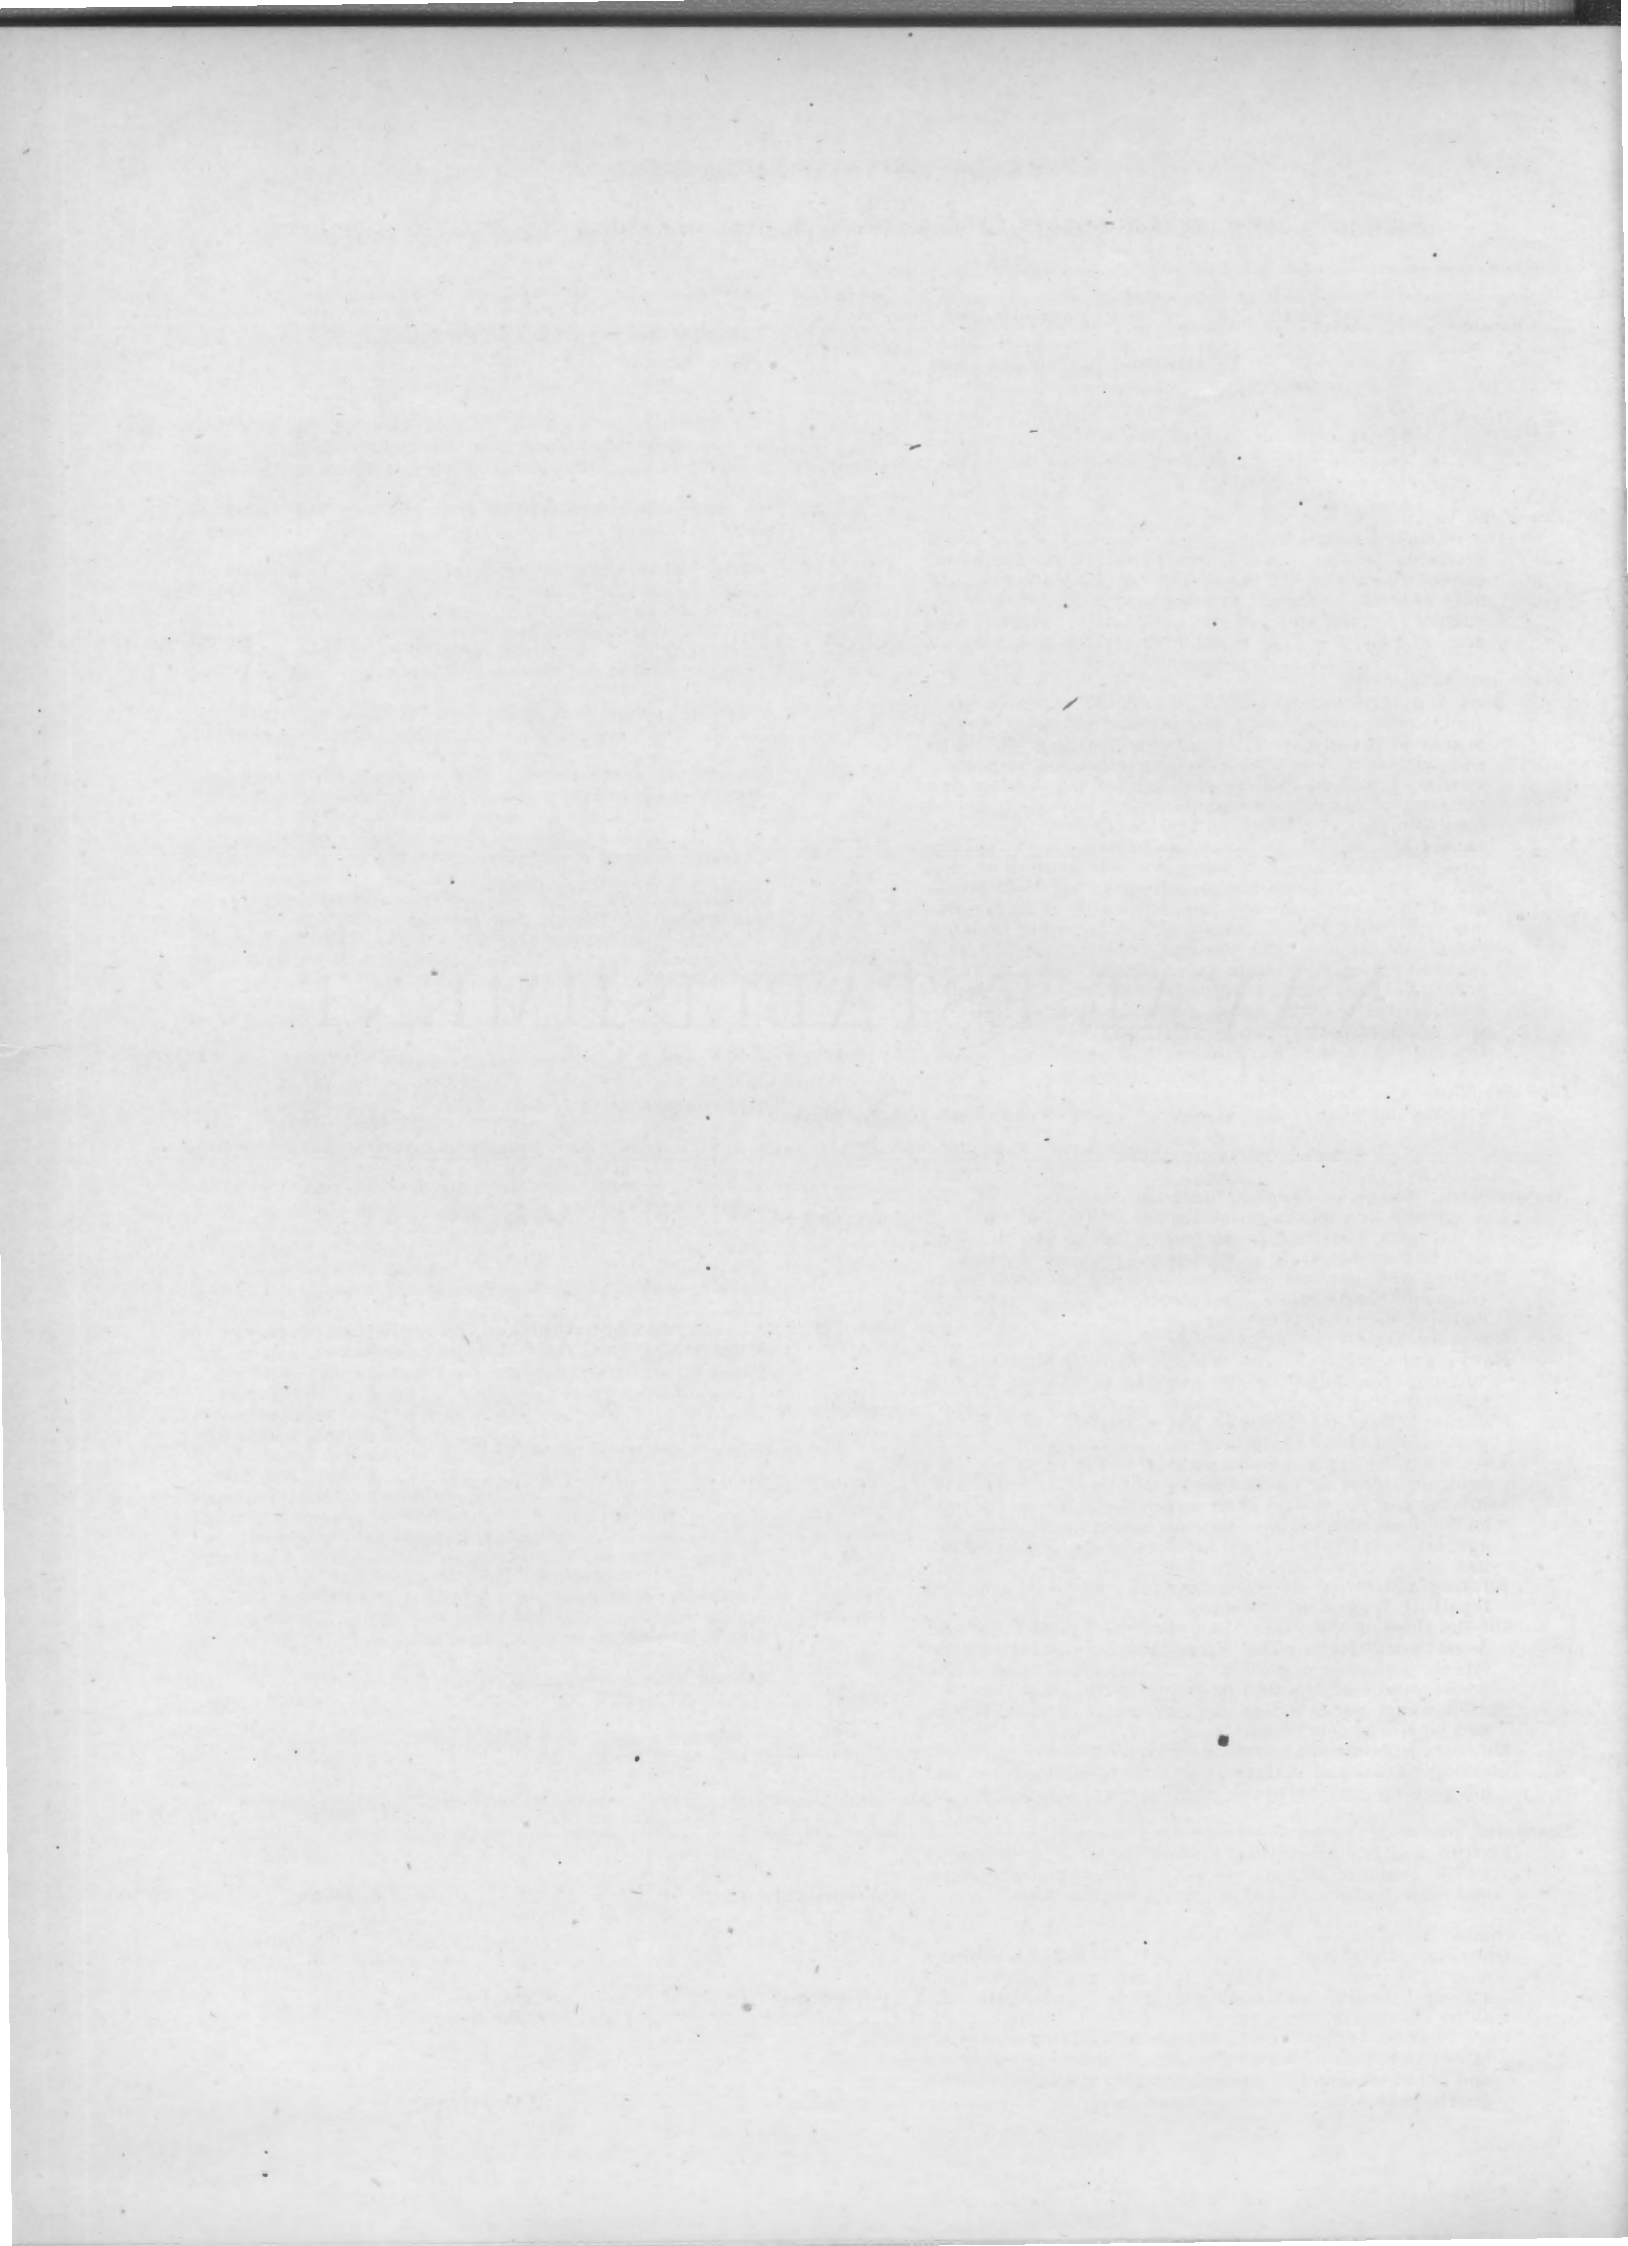

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.
		Vol.	Page.	Sec.			
<i>Current and Ordinary Expenses, Military Academy—Continued.</i>							
Pay of principal citizen mechanic for supervision of work by citizen mechanics and labor on repairs.....	Appropriated.	18	59	1	\$1,800 00		
NOTE.—This is a new item, but for an object that is very necessary, as there is constant necessity for the services of a man competent for the inspection of buildings, and capable of directing all kinds of mechanical labor, pertaining to construction and repair of buildings.							
Fuel and apparatus, viz: Coal, wood, stoves, grates, furnaces, ranges, fire-brick, repairs of steam-heating apparatus, &c.	do				14,000 00		
Gas-pipes, fixtures, lamp-posts, gas-lamps, gasometers, and retorts, annual repairs	do				600 00		
Fuel for cadets' mess-hall, shops, and laundry	do				3,500 00		
Postage and telegrams	do				300 00		
Stationery, viz: Blank books, paper, envelopes, quills, steel pens, pencils, erasers, wax, ink, mucilage, &c.	do				600 00		
Transportation of materials, discharged cadets, and ferriages	do				1,800 00		
Printing-type, materials for office, diplomas for graduates, registers, and blanks	do				900 00		
NOTE.—An increase of \$200 is asked for in consequence of the requirement of a greater number of blank forms for examinations than formerly.							
Compensation to pressman and lithographer, \$50 each	do				100 00		
Clerk to disbursing officer and quartermaster	do				1,650 00		
Clerk to adjutant	do				1,500 00		
Clerk to treasurer	do				1,500 00		
Department of instruction in mathematics: Repairs of instruments	do				50 00		
Text-books and stationery for use of instructors	do				30 00		
Department of artillery, cavalry, and infantry tactics, viz:							
Tan-bark for riding-hall and gymnasium	do				300 00		
Repairing camp stools and camp furniture	do				100 00		
Clothes' racks for cadets' tents	do				200 00		
Repairing gymnasium, \$100; embroidering stand of colors, U. S. corps of cadets, \$50	do				150 00		
Furniture for office and reception room for visitors	do				100 00		
Stationery for use of instructor and assistants, \$100; books, \$20	do				120 00		
Department of civil and military engineering, viz: Models, maps, purchase and repair of instruments, text-books, books of reference, stationery for use of instructors, and contingencies	do				500 00		
Compensation to draughtsman, in addition to pay and extra-duty pay as a soldier. (This man has charge of the models, maps, &c.)	do				100 00		
Engraving plates, printing and binding text-books prepared for the special instruction of the cadets	do				2,500 00		
Department of chemistry, mineralogy, and geology, viz:							
Chemicals, including chemical apparatus, glass and porcelain ware, paper, wire, and sheet metals, ores, and photographic material	do				675 00		
Rough specimens, files, alcohol, lamps, blow-pipes, pencils, and mortars for practical instruction in mineralogy; and for gradual increase of the cabinet	do				625 00		
Repairs and additions to electric, galvanic, magnetic, electro-magnetic, magneto-electric, pneumatic, and thermic apparatus, and apparatus illustrating optical properties of substances	do				900 00		
Carpenters' and metal work, and painting, including material	do				150 00		
Pay of mechanic to be employed in chemical and geological section rooms, and in the lecture room	do				1,050 00		
Models and diagrams	do				60 00		
Books of reference, text-books, and stationery for instructors, and contingencies	do				350 00		
Compensation to attendant	do				50 00		
Department of natural and experimental philosophy, viz:							
Additions to the optical and mechanical apparatus of the laboratory	do				3,000 00		
Spectroscope and photographic apparatus for the observatory	do				1,500 00		
Materials and repairs	do				400 00		
Compensation to mechanic	do				1,000 00		
Compensation to attendant	do				50 00		
Department of practical military engineering, viz: Mining materials, profiling, stationery, drawing materials, and repairs of instruments	do				100 00		
Telegraphing material	do				100 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.

<i>Current and Ordinary Expenses, Military Academy—Continued.</i>							
Department of French, viz: Text-books and stationery for instructors, and for examination blanks.....	Appropriated.	18	59	1	\$200 00		
Department of Spanish, viz: Text-books and stationery for use of instructors.....	do.....				50 00		
Department of drawing, viz: Topographical models for use of third class.....	do.....				150 00		
Models for use of second class.....	do.....				100 00		
Tables, benches, and frames for resting models on.....	do.....				100 00		
Fifty rulers and fifty triangles.....	do.....				50 00		
Colors, pencils, paper, and brushes for use of instructors.....	do.....				20 00		
Department of law, viz: Stationery, text-books, and books of reference.....	do.....				100 00		
Department of ordnance and gunnery, viz: Models and drawings illustrating practical working of materials employed in ordnance construction.....	do.....				175 00		
Instrument house for field service.....	do.....				150 00		
Target-recording house, with camera and appurtenances for rifle practice.....	do.....				75 00		
Iron targets for rifle practice.....	do.....				30 00		
Wire and electrical batteries and targets for instruments for determining initial velocity of projectiles.....	do.....				100 00		
Text-books for use of instructors.....	do.....				25 00		
Plane table for determining ranges, and for instrument for measuring distances.....	do.....				45 00		
Expenses of the board of visitors.....	do.....				4,200 00		
						\$70,480 00	\$62,035 00
<i>Miscellaneous Items and Incidental Expenses, Military Academy—</i>							
Gas-coal, oil, candles, wicking, and matches for lighting the academy, cadet barracks, mess-hall, hospital, offices, stables, and sidewalks.....	Appropriated.	18	60	1	4,000 00		
Water-pipes, plumbing, and repairs.....	do.....				2,000 00		
Cleaning public buildings, not quarters.....	do.....				560 00		
Brooms, brushes, tubs, pails, soap, and cloths.....	do.....				200 00		
Chalk, crayons, sponge, slates, and rubbers for recitation rooms.....	do.....				100 00		
Compensation of chapel organist.....	do.....				200 00		
Compensation of librarian.....	do.....				120 00		
Compensation of non-commissioned officer in charge of mechanics, &c.....	do.....				50 00		
Compensation of soldier writing in adjutant's office.....	do.....				50 00		
Pay of engineer of heating and ventilating apparatus for the cadet barracks, chapel, and philosophical academy, including the library.....	do.....				1,500 00		
Pay of assistant engineer of same.....	do.....				840 00		
Pay of five firemen.....	do.....				2,200 00		
Increase and expense of library, books, magazines, periodicals, and binding.....	do.....				2,000 00		
Pay of librarian's assistant.....	do.....				1,000 00		
Contingencies for superintendent of the Academy.....	do.....				1,000 00		
Furniture for cadet hospital, and repairs.....	do.....				100 00		
Printing catalogue for library, in addition to amount granted, which is not sufficient to complete the work.....	do.....				700 00		
Renewing furniture in academic section-rooms and offices.....	do.....				1,000 00		
Papers and periodicals for cadet hospital.....	do.....				60 00		
Hire of school-teacher for instruction of children of enlisted men at the post.....	do.....				1,200 00		
Carpeting and repairs to chapel for cadets, officers' families, and visitors.....	do.....				1,000 00		
						19,880 00	16,300 00
Notz.—For explanations of the estimates for Military Academy, see Appendix, marked "E."

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.
		Vol.	Page.	Sec.			
UNDER THE NAVY DEPARTMENT.							
GENERAL SERVICE.							
<i>Pay of the Navy—</i>							
Pay of commissioned and warrant officers at sea, on shore, on special service, and of those on the retired list, and unemployed, and for the pay of petty officers, seamen, ordinary seamen, landsmen, and boys, including men of the engineers' force, and for the coast-survey service, 8,500 men, at an average pay of \$300 per annum.....	July 15, 1870	16	330	3-17		\$6,600,000 00	\$6,250,000 00
<i>Contingent, Navy—</i>							
Rent and furniture of buildings and offices not in navy yards; expenses of courts-martial and courts of inquiry, boards of investigation, examining boards, with clerks' and witnesses' fees, and travelling expenses and costs; stationery and recording; expenses of purchasing paymasters' offices at the various cities, including clerks, furniture, fuel, stationery, and incidental expenses; newspapers and advertising; foreign postage; telegraphing, foreign and domestic; copying; mail and express wagons, and livery and express fees, and freight; all books for the use of the Navy; experts' fees, and costs of suits; commissions, warrants, diplomas, and discharges; relief of vessels in distress, and pilotage; recovery of valuables from shipwrecks; quarantine expenses; care and transportation of the dead; reports, professional investigation, and information from abroad; and all other emergencies and extraordinary expenses arising at home or abroad, but impossible to be anticipated or classified.....	Appropriated.	18	53	1		125,000 00	100,000 00
<i>Civil Establishment at Navy Yards—</i>							
Civil establishment at the various navy yards and stations..	Appropriated.	18	53	1		175,000 00	157,738 80
BUREAU OF NAVIGATION.							
<i>Navigation and Navigation Supplies, Bureau of Navigation—</i>							
Foreign and local pilotage and towage of ships-of-war.....	Appropriated.	18	51	1	\$50,000 00		
Services and materials in correcting compasses on board ship, and for adjusting and testing compasses on shore.....	do.....				3,000 00		
Nautical and astronomical instruments, nautical books, maps and charts, and sailing directions, and for repairs of nautical instruments for ships-of-war.....	do.....				10,000 00		
Books for libraries of ships-of-war.....	do.....				3,000 00		
Navy signals and apparatus, namely: Rockets, signal lights, and lanterns, including running lights, and for drawing and engraving for signal books.....	do.....				6,000 00		
Compass fittings, including binnacles, tripods, and other appendages of ships' compasses.....	do.....				5,000 00		
Logs and other appliances for measuring the ship's way; for leads and other appliances for sounding.....	do.....				5,000 00		
Lanterns and lamps and their appendages, for general use on board ship, including those for cabin, wardroom, steerage, holds, spirit room, and for deck and quartermaster's use.....	do.....				5,000 00		
Bunting and other materials for flags, and for making and repairing flags of all kinds.....	do.....				5,000 00		
Oil for ships-of-war other than that used in the engineer department; for candles when used as a substitute for oils in binnacles and running lights; for chimneys and wicks; and for soap used in the navigation department.....	do.....				20,000 00		
Stationery for commanders and navigators of ships-of-war, and for use of courts-martial.....	do.....				2,000 00		
Musical instruments and music for ships-of-war.....	do.....				1,000 00		
Steering signals and indicators, and for speaking-tubes and gongs, for signal communication on board ships-of-war.....	do.....				2,500 00		
						117,500 00	115,500 00
<i>Contingent, Bureau of Navigation—</i>							
Freight and transportation, postage and telegraphing on public business, advertising for proposals, packing-boxes and materials, and all other contingent expenses.....	Appropriated.	18	54	1		4,000 00	4,000 00
<i>Hydrographic Work, Bureau of Navigation—</i>							
Drawing, engraving, printing, and photo-lithographing charts; correcting old plates; preparing and publishing sailing directions, and other hydrographic information....	Appropriated.	18	54	1	30,000 00		
Making charts, including those of the Pacific coast.....	do.....				30,000 00		
Fuel, light, and office furniture; care of building and other labor; purchase of books for library; drawing materials and other stationery; postage, freight, and other contingent expenses.....	do.....				5,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.		
		Vol.	Page.	Sec.					
<i>Hydrographic Work, Bureau of Navigation—Continued.</i>									
Rent and repair of building	Appropriated.	18	54	1	\$2,800 00	\$111,300 00	\$57,800 00		
Continuing the survey in the Pacific ocean	do				40,000 00				
Engraving great circle and wind and current chart of the North Atlantic ocean	do				3,500 00				
<i>Naval Observatory, Bureau of Navigation—</i>									
Three assistants, at \$1,500 each	Mar. 3, 1855 } Appropriated.	10 } 10	670 } 10	4,500 00	27,500 00	18,050 00			
One clerk	do	18 } 54		1,800 00					
Wages of one instrument maker, three watchmen, one messenger, and one porter; keeping grounds in order, and for repairs of building and enclosures; fuel, light, and office furniture; purchase of books for library and chemicals for batteries; stationery, freight, and all other incidental expenses	do			13,500 00					
NOTE.—The usual appropriation of \$13,500 was reduced by Congress for the current year by the sum of \$3,500. The reduced sum has proved entirely inadequate for the maintenance of the Observatory and the preservation of buildings.									
Continuing special investigations of the motions of the moon	do			2,000 00					
Reducing and transcribing astronomical observations for publication	do			2,700 00					
Reducing the observations of the transit of Venus	Submitted			3,000 00					
<i>Nautical Almanac, Bureau of Navigation—</i>									
Pay of computers and clerk, for preparing for publication the American Ephemeris and Nautical Almanac	Appropriated.	18	55	1			20,000 00	24,500 00	21,500 00
Continuance of work on new planets discovered by American astronomers	do						3,000 00		
Rent, fuel, labor, stationery, boxes, expresses, and miscellaneous items	do				1,500 00				
BUREAU OF ORDNANCE.									
<i>Ordnance and Ordnance Stores, Bureau of Ordnance—</i>									
Fuel, tools, and material of all kinds necessary in carrying on the mechanical branches of the ordnance department of the several navy yards, magazines, and stations	Appropriated.	18	55	1	122,026 00	524,431 00	340,000 00		
Labor at the several navy yards, magazines, and stations	do				300,145 00				
Necessary repairs to ordnance buildings, magazines, gun-parks, boats, lighters, wharves, machinery, and appendages	do				44,483 00				
Miscellaneous items, to wit: Freight to foreign and home stations; advertising and auctioneers' fees; cartage and express charges; repairs to fire-engines; gas and water-pipes; gas and water tax at magazines; toll, ferriage, foreign postage, telegrams, &c.	do				8,152 00				
Improvements, as follows, viz:									
Navy yard, Boston, Mass.—At magazine, Chelsea: General repairs, grading, and improving the grounds at magazine, Chelsea	Submitted				1,500 00				
Navy yard, Brooklyn, N. Y.—At the ordnance dock: To the crib-work on the east and southeast faces of the ordnance dock: Filling in, grading, and improving said dock; planking face of the dock; laying iron shot-beds; laying rail-track between the avenues of gun-park, to facilitate moving of guns, &c.	do				25,000 00				
Navy yard, Philadelphia, Pa.—At magazine, Fort Mifflin: Brick cook-house, 10 by 12 feet, to take the place of present wooden one	do				300 00				
Brick kitchen adjoining gunner's residence, to take the place of present wooden one	do				2,000 00				
Shed on wharf, for loading and unloading shells	do				850 00				
Navy yard, Norfolk, Va.—At magazine: Powder-boat for transportation of powder to and from the magazine	do				6,000 00				
Force and lift-pump necessary for use at St. Helena	do				42 00				
Fire-engine	do				750 00				
At magazine, Mare Island:									
Fitting up racks in new magazine for storage of powder	do				2,275 00				
Fence enclosure of new magazine	do				1,600 00				
Grading, gravelling, and brick drains for new and old magazines	do				2,558 00				
Small magazine for receiving on storage filled powder-tanks for ships in commission	do				5,250 00				
Completing windows, doors, shutters, &c., at new magazine	do				1,500 00				

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large. 		Vol.	Page.	Sec.			
<i>Torpedo Corps, Bureau of Ordnance—</i>							
Purchase, manufacture, and preservation of gunpowder, nitro-glycerine, gun-cotton, &c	Appropriated.	18	55	1	\$12,000 00		
Purchase and manufacture of electrical apparatus, galvanic batteries, and insulated wire	do				15,000 00		
Purchase of copper, iron, wood, and other materials necessary for the manufacture of torpedoes and for work on the same	do				27,000 00		
Construction of torpedo-boats, purchase of copper work, hulks, and contingent expenses	do				28,500 00		
Labor, including one chemist, pyrotechnist, electrician, one foreman machinist, and one writer	do				15,000 00		
Repairs to buildings and wharves, and material and labor for sea-wall	do				2,500 00		
						\$100,000 00	\$98,000 00
<i>Contingent, Bureau of Ordnance—</i>							
Contingent expenses of the ordnance service of the Navy	Appropriated.	18	55	1		1,000 00	1,000 00
BUREAU OF EQUIPMENT AND RECRUITING.							
<i>Equipment of Vessels, Bureau of Equipment and Recruiting—</i>							
Coal for steamers' and ships' use, including expenses of transportation, storage, and labor; hemp, wire, hides, and other materials for the manufacture of rope; cordage, canvas, leather, and wood; iron for the manufacture of cables, anchors, and galleys; furniture, hose, bake-ovens, cooking and heating-stoves; life-rafts for monitors, tools, condensing and boat-detaching apparatus; heating apparatus for receiving ships; and for the payment of labor in equipping vessels and manufacture of articles in the several navy yards	Appropriated	18	55	1		1,500,000 00	1,065,000 00
<i>Contingent, Bureau of Equipment and Recruiting—</i>							
Expenses of recruiting, freight, and transportation of stores; transportation of enlisted men; printing, advertising, telegraphing, books, and models; stationery, express charges, internal alterations, fixtures, and appliances in equipment buildings at navy yards; foreign postage, ferriage, and car tickets; ice, apprehension of deserters, assistance to vessels in distress, and good-conduct badges for enlisted men	Appropriated.	18	55	1		125,000 00	75,000 00
BUREAU OF YARDS AND DOCKS.							
<i>Maintenance of Yards and Docks, Bureau of Yards and Docks—</i>							
General maintenance of yards and docks: Freights and transportation of materials and stores; printing, stationery, and advertising, including the commandant's office; books, maps, models, and drawings; purchase and repair of fire-engines; machinery and patent-right to use the same; repairs of steam-engines and attendance on the same; purchase and maintenance of oxen, horses, and driving-teams; carts and timber wheels for navy-yard purposes; tools and repairs of the same; postage on letters and other mailable matter on public service, and telegrams; furniture for Government houses and offices in navy yards; coal and other fuel; candles, oil, and gas; cleaning and clearing up of yards, and care of public buildings; attendance on fires, lights, fire-engines, and apparatus; incidental labor at navy yards; water tax; tolls and ferriages; pay of watchmen in navy yards; awnings and packing-boxes for Bureau of Yards and Docks' purposes	Appropriated.	18	56	1		860,000 00	760,000 00
<i>Contingent, Bureau of Yards and Docks—</i>							
For contingent expenses that may arise at navy yards and stations	Appropriated.	18	56	1		50,000 00	40,000 00
<i>Naval Asylum, Philadelphia, Bureau of Yards and Docks—</i>							
Superintendent	Appropriated.	18	56	1	600 00		
Steward	do				480 00		
Matron	do				360 00		
Cook	do				240 00		
Assistant cook	do				168 00		
Chief laundress	do				192 00		
Three laundresses, at \$168 each	do				504 00		
Eight scrubbers and waiters, at \$168 each	do				1,344 00		
Six laborers, at \$240 each	do				1,440 00		
Stable-keeper and driver	do				360 00		
Master-at-arms	do				480 00		
Corporal	do				300 00		
Barber	do				360 00		
Carpenter	do				845 00		
Furnaces, grates, and ranges	do				300 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object. (title of appropriation.) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large. One master laborer to keep public grounds in order, at \$2 28 per diem ..				832 20			
Fourteen laborers to assist in same; three at \$2 and eleven at \$1 75 per diem each ..				9,216 25			
One laborer to superintend quarters of cadet midshipmen, public grounds, &c., at \$2 28 per diem ..				832 20			
Four attendants at recitation rooms, library, chapel, and offices, at \$20 per month each ..				960 00			
Twenty servants to keep in order and attend to quarters of cadet midshipmen, public buildings, &c., at \$20 per month each ..				4,800 00			
	do				17,461 90		
Pay in department of steam enginery:							
One machinist, at \$3 50 per diem ..				1,277 50			
One machinist, at \$3 per diem ..				1,095 00			
One blacksmith, at \$3 50 per diem ..				1,277 50			
One boiler-maker, at \$3 50 per diem ..				1,277 50			
One pattern-maker, at \$3 50 per diem ..				1,277 50			
One moulder, at \$3 50 per diem ..				1,277 50			
Two laborers, at \$1 75 per diem each ..				1,277 50			
	do				8,760 00		
					\$113,817 40		\$115,707 90

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.
		Vol.	Page.	Sec.			
<i>Repairs and Improvements, Naval Academy—</i>							
Necessary repairs of public buildings, pavements, wharves, and walls enclosing the grounds of the academy; for improvements of the same, and for furniture, fixtures, &c...	Appropriated.	18	58	1	\$14,000 00	\$14,000 00
<i>Heating and Lighting, Naval Academy—</i>							
Fuel for heating and lighting the academy, and school ships.	Submitted	15,000 00	
NOTE.—This estimate for "fuel" has heretofore been included under the head of "Contingent Expenses;" but, as the amount is indispensably necessary for the proper heating and lighting of the academy, &c., a separation of it from the items of "Contingent Expenses" is deemed desirable, and is therefore made.							
<i>Contingent Expenses, Naval Academy—</i>							
For the purchase of books for the library.....	Appropriated.	18	58	1	\$2,000 00		
For stationery, blank books, models, maps, &c., and for text-books for the use of instructors.....	do	2,000 00		
For the expenses of the board of visitors.....	do	2,600 00		
For printing and binding.....	do	2,000 00		
For postage on public service.....	do	750 00		
For the purchase and repair of instruments and for the purchase of chemicals in the department of physics and chemistry.....	do	2,000 00		
For the purchase of gas and steam machinery, steam pipe and fixtures, rent of buildings for use of the academy, freight, cartage, water, music, musical and astronomical instruments, uniforms for bandmen, telegraphing, and for the current expenses and repairs of all kinds, and for incidental labor and expenses not applicable to any other appropriation.....	do	33,450 00		
For stores in the department of steam engineery.....	do	800 00		
For materials for repairs of steam machinery.....	do	1,000 00		
NOTE.—The excess in the amount for contingent expenses asked for the fiscal year ending June 30, 1876, including the amount submitted for heating and lighting the academy, over that appropriated for the fiscal year ending June 30, 1875, is occasioned by the reduction made by Congress of \$17,750 in the estimate submitted under this head, and the appropriation made for the year ending June 30, 1875.						46,600 00	46,600 00
MARINE CORPS.

<i>Piedras Blancas Light-station, Cal.—</i> Completing station and establishing fog-signal at Piedras Blancas, California.....	Submitted					15,000 00	
Total Light-houses, Beacons, and Fog-signals.....						768,400 00	\$310,000 00
Total Public Works under Treasury Department.....						6,640,233 91	4,504,686 65
UNDER THE WAR DEPARTMENT.							
ARMORIES AND ARSENALS.							
<i>Rock Island Arsenal, Rock Island, Ill.—</i> Shop A: A wood-working and gun-carriage shop for arsenal.	Appropriated.	18	221	1	\$178,000 00		
NOTE.—This estimate is for a continuance of work in building the arsenal in accordance with the general plan adopted by the Government. This building is now in process of erection. This is the estimated amount required for the completion of the building.							
Shop F: A rolling-mill and forging-shop for the armory.....	do.....				150 000 00		
NOTE.—This estimate is for a continuance of work in building the armory in accordance with the general plan adopted by the Government for the armory. The second of the large finishing shops for the armory will be completed during the present year, but these are not available for use in manufacturing arms until the rolling-mill and forging-shop is completed. This building is now commenced, and this estimate is for a continuance of the work.							
One block of subaltern officers' quarters	Submitted				27,700 00		
NOTE.—It is proposed to locate this building at the point marked D on the accompanying map. This building would complete the immediate and urgent wants of the post for officers' quarters, and is to take the place of temporary wooden buildings now in use for the same purpose. These temporary buildings were badly built, are much destroyed by rot, and cannot be used without expensive repairs. They are unhealthy, cannot be well warmed, and endanger the arsenal by fire. They are buildings that were originally built for the temporary prison that was located here during the war.							
A stone fire-proof building for offices.....	do.....				78,000 00		
NOTE.—It is proposed to locate this building at a point marked F on the accompanying map. This building is intended as a general office for both the armory and arsenal, and for all the business of the post. It is to be fire proof throughout, and to contain vaults for the books, records, and funds of the arsenal. No office has ever been built for his arsenal. For the present use, rooms have been temporarily partitioned off in the north end of west wing of shop B, (one of the finishing shops for the armory.) This furnishes sufficient office room, but the partitions are of wood, very temporary, and with only temporary nesting arrangements. The office is not comfortable in winter, and there is some danger of fire, endangering the loss of a very costly building and the records of the arsenal. As the office must be built sometime, there are economical reasons for building it now.							
Furnishing power to the shops already built	do.....				18,500 00		
NOTE.—This amount is required for putting in water-wheels at the water-power dam already built, for iron penstocks, and for machinery at the dam for the transmission of the power.							
Care and preservation of the Rock Island bridge	Appropriated.	18	221	1	13,000 00		
NOTE.—This estimate for care and preservation includes all ordinary repairs and guards, but is mainly for operating the draw. This work requires two sets of hands, each containing an engineer, fireman, and tender, and they must be the best men that can be procured. The work is difficult and the responsibility great. It also includes an estimate for painting a portion of the iron superstructure of the bridge to prevent them from rusting, and for renewing parts of the plank floors of the wagonways, and repairs of the roadway on the arsenal grounds which connects the bridges. These wagonways and the road are rapidly wearing out in their use by the public.							
Sewers, for building new roads, for care and preservation of water-power, for painting, and care and preservation of permanent buildings and bridges, for building fences and grading grounds, and repairs and extension of railroad....	do.....				22,000 00		
NOTE.—This work is almost absolutely necessary in the progress of the work of building the arsenal. The roads are required for immediate use in building operations, and should be so permanently built as to become a permanent part of the arsenal, and this work on roads, grading, and sewers can be done far more economically while other excavations and building are going on, as the two kinds of work are dependent.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.
		Vol.	Page.	Sec.			
<i>Rock Island Arsenal, Rock Island, Ill.—Continued.</i>							
Removing the old railroad embankment of the Chicago, Rock Island, and Pacific Railroad track across the island, and in the south channel of the river, and the piers from the same channel	Appropriated	18	221	1	\$19,500 00		
<p><small>NOTE.—The removal of this embankment is necessary, and was one of the principal objects in view in getting the railroad track of this company removed from its position across a central part of the island. The piers and embankment in the south channel or Sylvan Water, taken in connection with the embankments and piers of the two other bridges below, are a serious obstruction to the channel upon which the water power is dependent. If it is the intention of Congress that the railroad company should remove these piers and embankments, some action by the Government is required to force the railroad company to remove them.</small></p>							
For new machinery, shop fixtures for shops	do				16,000 00	\$522,700 00	\$400,150 00
<p><small>NOTE.—It is proposed to put in the new shops such machinery and shop fixtures as can be used with considerable economy in saving cost of building, and will at the same time form a part of the permanent machinery of the shops for manufacturing purposes hereafter.</small></p>							
<i>Springfield Armory, Springfield, Mass.—</i>							
Repairs and preservation of grounds, buildings, and machinery not used for manufacturing purposes	Appropriated.	18	221	1	20,000 00	20,000 00
<i>Benicia Arsenal, Benicia, Cal.—</i>							
To build a steam-engine room and a boiler-room under one roof, and a chimney 75 feet high	Submitted.....				5,465 00		
<p><small>NOTE.—Required for the new shops.</small></p>							
To purchase one steam-engine with two vertical cylinders and fly-wheel on top of frame which acts as a driving-wheel to main shop, to be obtained in Boston	do				8,670 00		
<p><small>NOTE.—Required for the new shops.</small></p>							
One machine shop	do				65,000 00		
One carpenter's shop	do				35,000 00		
<p><small>NOTE.—The present shops are too small and are to be used for a storehouse. The money for blacksmith shop was appropriated last year by Congress. It is necessary to build these shops near the new blacksmith shop.</small></p>							
Transferring machinery from machine and carpenter's shops to new shops	do				3,678 00		
To add a second story to present blacksmith shop and put on a slate roof, and to put on iron shutters to all of the present shop-building windows, in order to make them available as a storehouse	do				7,560 00		
<p><small>NOTE.—These buildings are required as storehouses; if they are not occupied as such a new storehouse will have to be built at this post.</small></p>							
Continuing boring artesian well, or, if artesian water is procured, for putting down permanent iron pipe and turbine wheel to be run by flow of water to pump up water to reservoir	Appropriated.	18	221	1	5,665 00		
Repairing roads, building sewers and drains	do				5,000 00		
Grading grounds	do				5,000 00		
<p><small>NOTE.—These amounts are required to reduce the surface of the grounds into a more comely shape, as nature has left it in a very rough state, the difference of level in some places between different parts being two hundred and three feet.</small></p>							
Permanent repairs of post, machinery for shops, and for fences	do				5,905 00	146,943 00	57,307 00
<i>Repairs of Arsenals—</i>							
Repairs of the other arsenals, and to meet such unforeseen expenditures at arsenals as accidents or other contingencies during the year may render necessary	Appropriated.	18	222	1	100,000 00	50,000 00
Total Armories and Arsenals						789,643 00	527,457 00
FORTIFICATIONS AND OTHER WORKS OF DEFENCE.							
<i>Fort Preble, Portland Harbor, Maine—</i>							
Completing the work	Appropriated.	18	25	1	\$40,000 00	\$20,000 00
<i>Fort Scammel, Portland Harbor, Maine—</i>							
Continuing operations	Appropriated.	18	25	1	50,000 00	30,000 00

Care of and necessary repairs to the greenhouses	do				5,000 00		
						30,000 00	25,000 00
<i>Lighting, &c., Capitol, Executive Mansion, &c.—</i>							
Gas	Appropriated	18	225	1	35,000 00		
Pay of lamplighters, gas-fitters, plumbers, plumbing, lamps, lamp-posts, matches, material for electrical battery, and repairs of all sorts	do				15,000 00		
Fuel for watchmen's lodges and for the greenhouse at propagating garden	do				1,000 00		
New chandeliers for corridors and passages of House of Representatives, to correspond with those in the Senate	Submitted				5,000 00		
						56,000 00	51,000 00
<i>Navy-Yard and Upper Bridges—</i>							
Annual repairs of the same	Appropriated	18	225	1		7,000 00	7,000 00
<i>Repairs of Water-pipes and Fire-plugs—</i>							
Repairing and extending water-pipes, purchase of apparatus to clean them; and for cleaning the springs that supply the Capitol, Executive Mansion, and War and Navy Departments	Appropriated	18	225	1		10,000 00	10,000 00
<i>Washington Aqueduct—</i>							
Engineering, maintenance, and general repairs	Appropriated	18	226	1	15,000 00		
Building an iron truss roof and for furnishing and setting galvanized-iron cornice on the gate-house at Great Falls	Submitted				3,000 00		
Building a stone dam across the Virginia channel of the Potomac river, from the end of the present dam to the Virginia shore	do				200,000 00		
Building dwelling and office for gate-keeper at the receiving reservoir	do				3,000 00		
Building a wooden fence around the receiving reservoir, 12,704 feet	do				9,528 00		
Continuing, widening, and macadamizing roadway between distributing reservoir and Great Falls	Appropriated	18	226	1	10,000 00		
Soiling and seeding embankment slopes of the distributing reservoir	Submitted				13,000 00		
Soiling and seeding slopes of the conduit embankment from Great Falls to the distributing reservoir	do				27,050 00		
						280,578 00	36,400 00
<i>Building, Corner of Seventeenth and F Streets—</i>							
Removing embankment and opening an alley along the west end of the building, viz:							
Digging and carting away 380 cubic yards of earth, at 40 cents	Submitted				152 00		
134 lineal feet of 12-inch sewer pipe and laying, at 80 cents	do				99 20		
140 lineal feet of 4-inch drain pipe and laying, at 20 cents	do				28 00		
10 4-inch bends, at 65 cents	do				6 50		
114 lineal feet of 4-inch bluestone curbing and setting, at 95 cents	do				108 30		
120 lineal feet of brick gutter laid in cement, at 50 cents	do				60 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

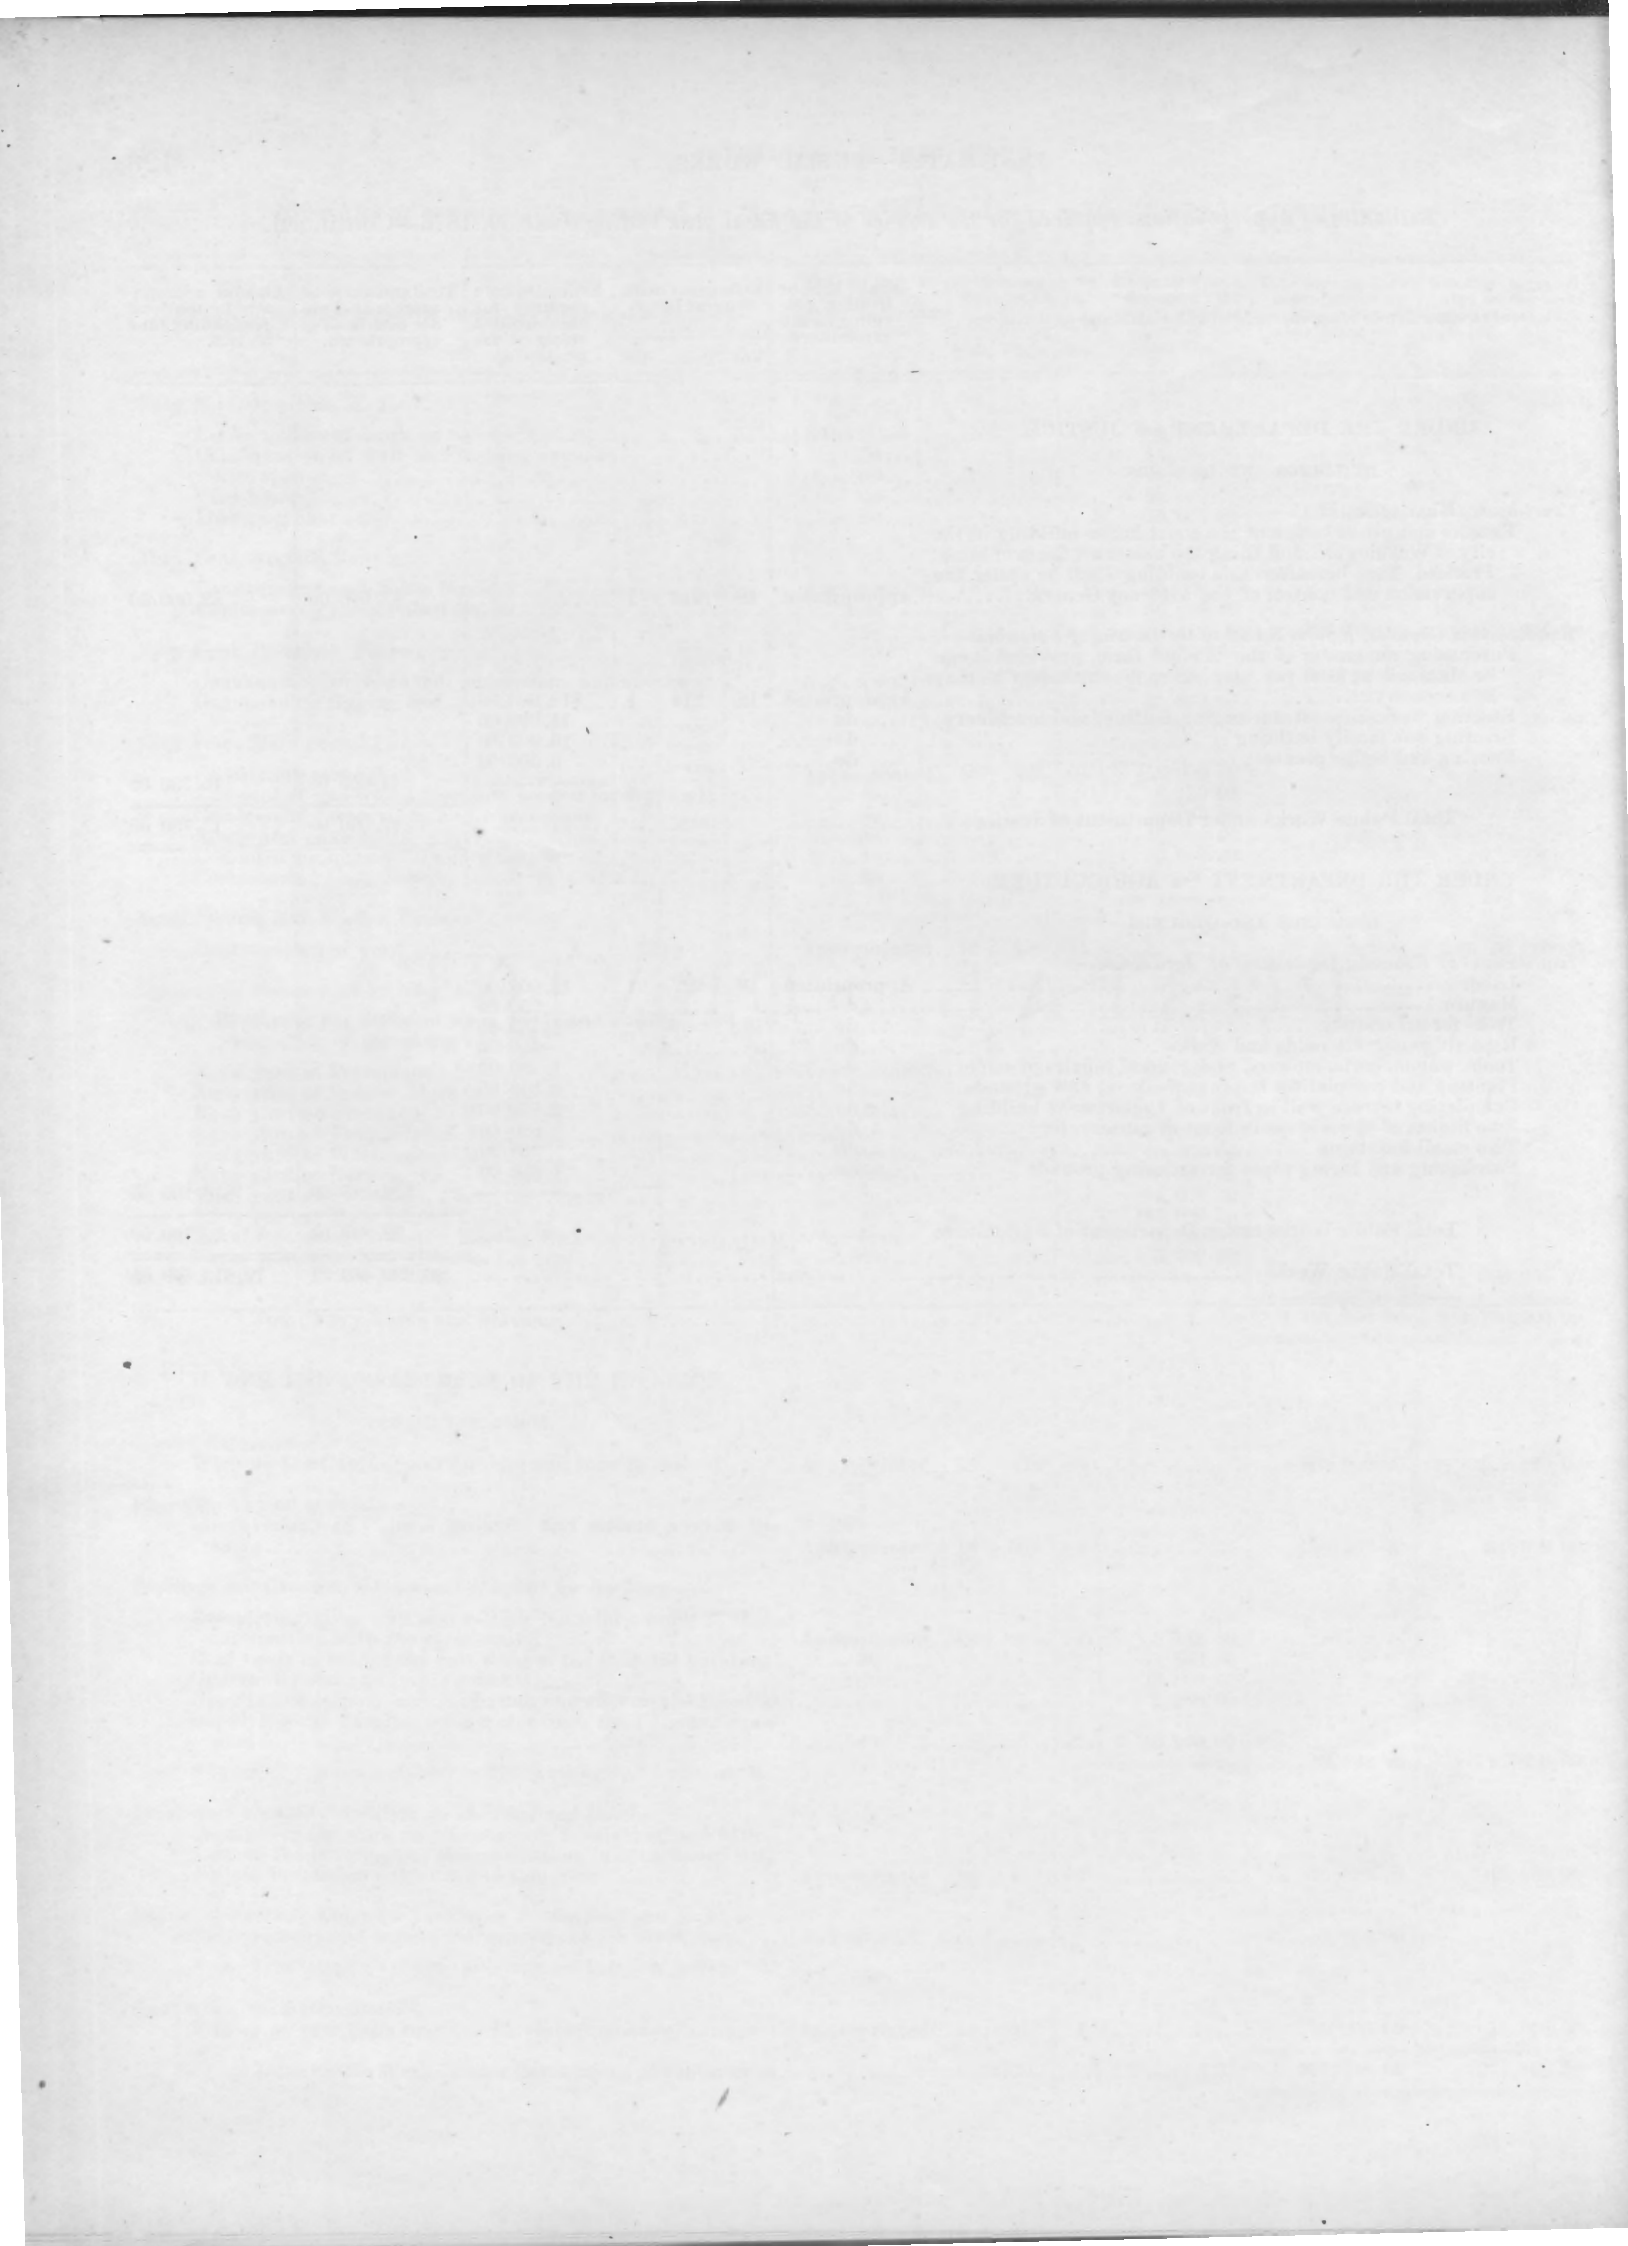

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.
		Vol.	Page.	Sec.			
<i>Building, Corner of Seventeenth and F Streets—Continued.</i>							
114 square yards of concrete roadway, at \$2 50	Submitted				\$285 00		
160 square yards of sodding, at 75 cents	do				120 00		
Unforeseen expenses	do				41 00		
						\$900 00	
NOTE.—The stability of the west end of the building is endangered, and one of the basement rooms rendered useless by drainage through and under the foundation of the wall from the adjoining premises belonging to the United States. To remedy this there seems to be no effectual means other than to remove the embankment resting against the building and making an alley with concrete pavement with which to conduct the drainage into the sewer on F street.							
Total Buildings and Grounds in and around Washington						624,294 50	\$260,750 00
MILITARY ACADEMY.							
<i>Buildings and Grounds, Military Academy—</i>							
Repairing and opening roads and walks	Appropriated	18	60	1	800 00		
Continuing superstructure of the new hospital for cadets	do				30,000 00		
NOTE.—The sum asked for will complete, or very nearly so, the main building and one wing, which will provide hospital accommodation for all probable necessities under the present organization of the Military Academy.							
Continuing construction of sewerage from barracks and quarters	do				3,000 00		
Repairs to reservoirs and increasing capacities	do				500 00		
Construction of school-house for soldiers' children and furniture for same	Submitted				8,000 00		
NOTE.—There is, at present, no adequate provision for the instruction of the children at the post, either as to building or teacher, and no suitable provision can be made without an appropriation.							
Parapet wall on road leading along cliff to south wharf	do				500 00		
Laying foundation for, and beginning superstructure of, building for a military museum, section-room, and examination hall	do				15,000 00		
NOTE.—For explanations of the estimates for Military Academy, see Appendix, marked "E."							
Total Military Academy						\$57,800 00	\$24,500 00
						57,800 00	24,500 00
UNDER QUARTERMASTER GENERAL.							
<i>New Buildings at Military Posts—</i>							
Completion of barracks and quarters in Pensacola harbor, and for extension of the site thereof	Submitted				100,000 00		
Protecting site of Yuma depot, Arizona, from encroachments of the Colorado river	do				40,000 00		
Protecting site of Fort Brown, Texas, from encroachments of the Rio Grande river	do				10,000 00		
						\$150,000 00	
<i>Construction of Road—</i>							
Improvement of the military wagon-road from Scottsburgh, Oregon, to Camp Stewart, Oregon	Submitted					15,000 00	
NOTE.—Full explanations of this estimate, together with a tracing of the map showing the country through which the road passes, will be submitted to the Committee on Appropriations.							
Total under Quartermaster General						165,000 00

PUBLIC PRINTING AND BINDING.							
The following are the estimates for public printing, binding, and paper for the same, as furnished by the several Executive Departments, under the provisions of section 2, act of May 8, 1872, (17 Stats., 82:)							
STATE DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer					\$25,000		
TREASURY DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and paper for the same, blank books, binding, ruling, and all other work for the Treasury Department heretofore estimated for by the Public Printer					325,000		
WAR DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding for the War Department and its bureaus, to be executed under the direction of the Public Printer, as follows:							
Secretary of War					\$7,500		
Adjutant General					25,000		
Quartermaster General					18,000		
Commissary General					6,750		
Paymaster General					4,000		
Surgeon General					15,000		
Chief of Engineers					25,000		
Chief of Ordnance					16,000		
Chief Signal Officer					70,000		
Bureau of Military Justice					100		
					187,350		
Note.—The increase in this estimate is caused mainly by the amount required for the office of the Chief Signal Officer, who has not heretofore submitted an estimate for his office, but who considers that the amount asked for will be needed during the ensuing fiscal year.							
INTERIOR DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding for the Interior Department and its bureaus, to be executed under the direction of the Public Printer, as follows:							
Secretary of Interior					\$23,000		
Commissioner of Indian Affairs					10,000		
Commissioner of Patents					125,000		
Commissioner of Pensions					40,000

<i>Publication of Official Records of the War of the Rebellion—</i>									
Publication of the official records of the war of the rebellion, both of the Union and of the Confederate armies	Appropriated.	18	222	1	}			15,000 00	15,000 00
<i>Expenses of Military Convicts—</i>									
Payment of costs and charges of State penitentiaries for the care, clothing, maintenance, and medical attendance of United States military convicts confined in them	Appropriated.	18	224	1	}			60,000 00	65,000 00
<i>Transportation for Insane Volunteer Soldiers—</i>									
This estimate is made necessary by the opinion of the Attorney General that all men who have been in the volunteer army of the late war, and become insane after their discharge, are entitled to admission to the Government Hospital for the Insane at Washington, D. C. Congress appropriated, in act approved May 18, 1872, one thousand dollars for transportation of such insane volunteers from their homes to the Government Hospital, which appropriation was exhausted within the first few months of the fiscal year for which it was made	Submitted				}			3,000 00	
<i>Construction, Maintenance, and Repair of Military Telegraph Lines—</i>									
Construction, continuing the construction, maintenance, and use of military telegraph lines on the Indian and Mexican frontiers, and for the connection of military posts and stations, for the better protection of immigration and the frontier settlements from depredations, especially in the State of Texas, the Territories of New Mexico and Arizona, and the Indian Territory	Appropriated. Appropriated.	18 18	51 223	1 1	}			55,000 00	104,000 00
<small>NOTE.—For explanation of this estimate, see Appendix, marked "K."</small>									
<i>Refunding to States Expenses incurred in raising Volunteers—</i>									
To indemnify the States for expenses incurred by them in enrolling, equipping, and transporting troops for the defence of the United States during the late insurrection	July 27, 1861 Appropriated.	12 18	276 224	1 1	}			500,000 00	250,000 00
<i>Horses and other Property lost in the Military Service—</i>									
To provide for the payment, under existing laws, for horses and other property lost or destroyed in the military service of the United States: Payment of claims for lost horses	Mar. 3, 1849	9	414	1-7	} 100,000 00				

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

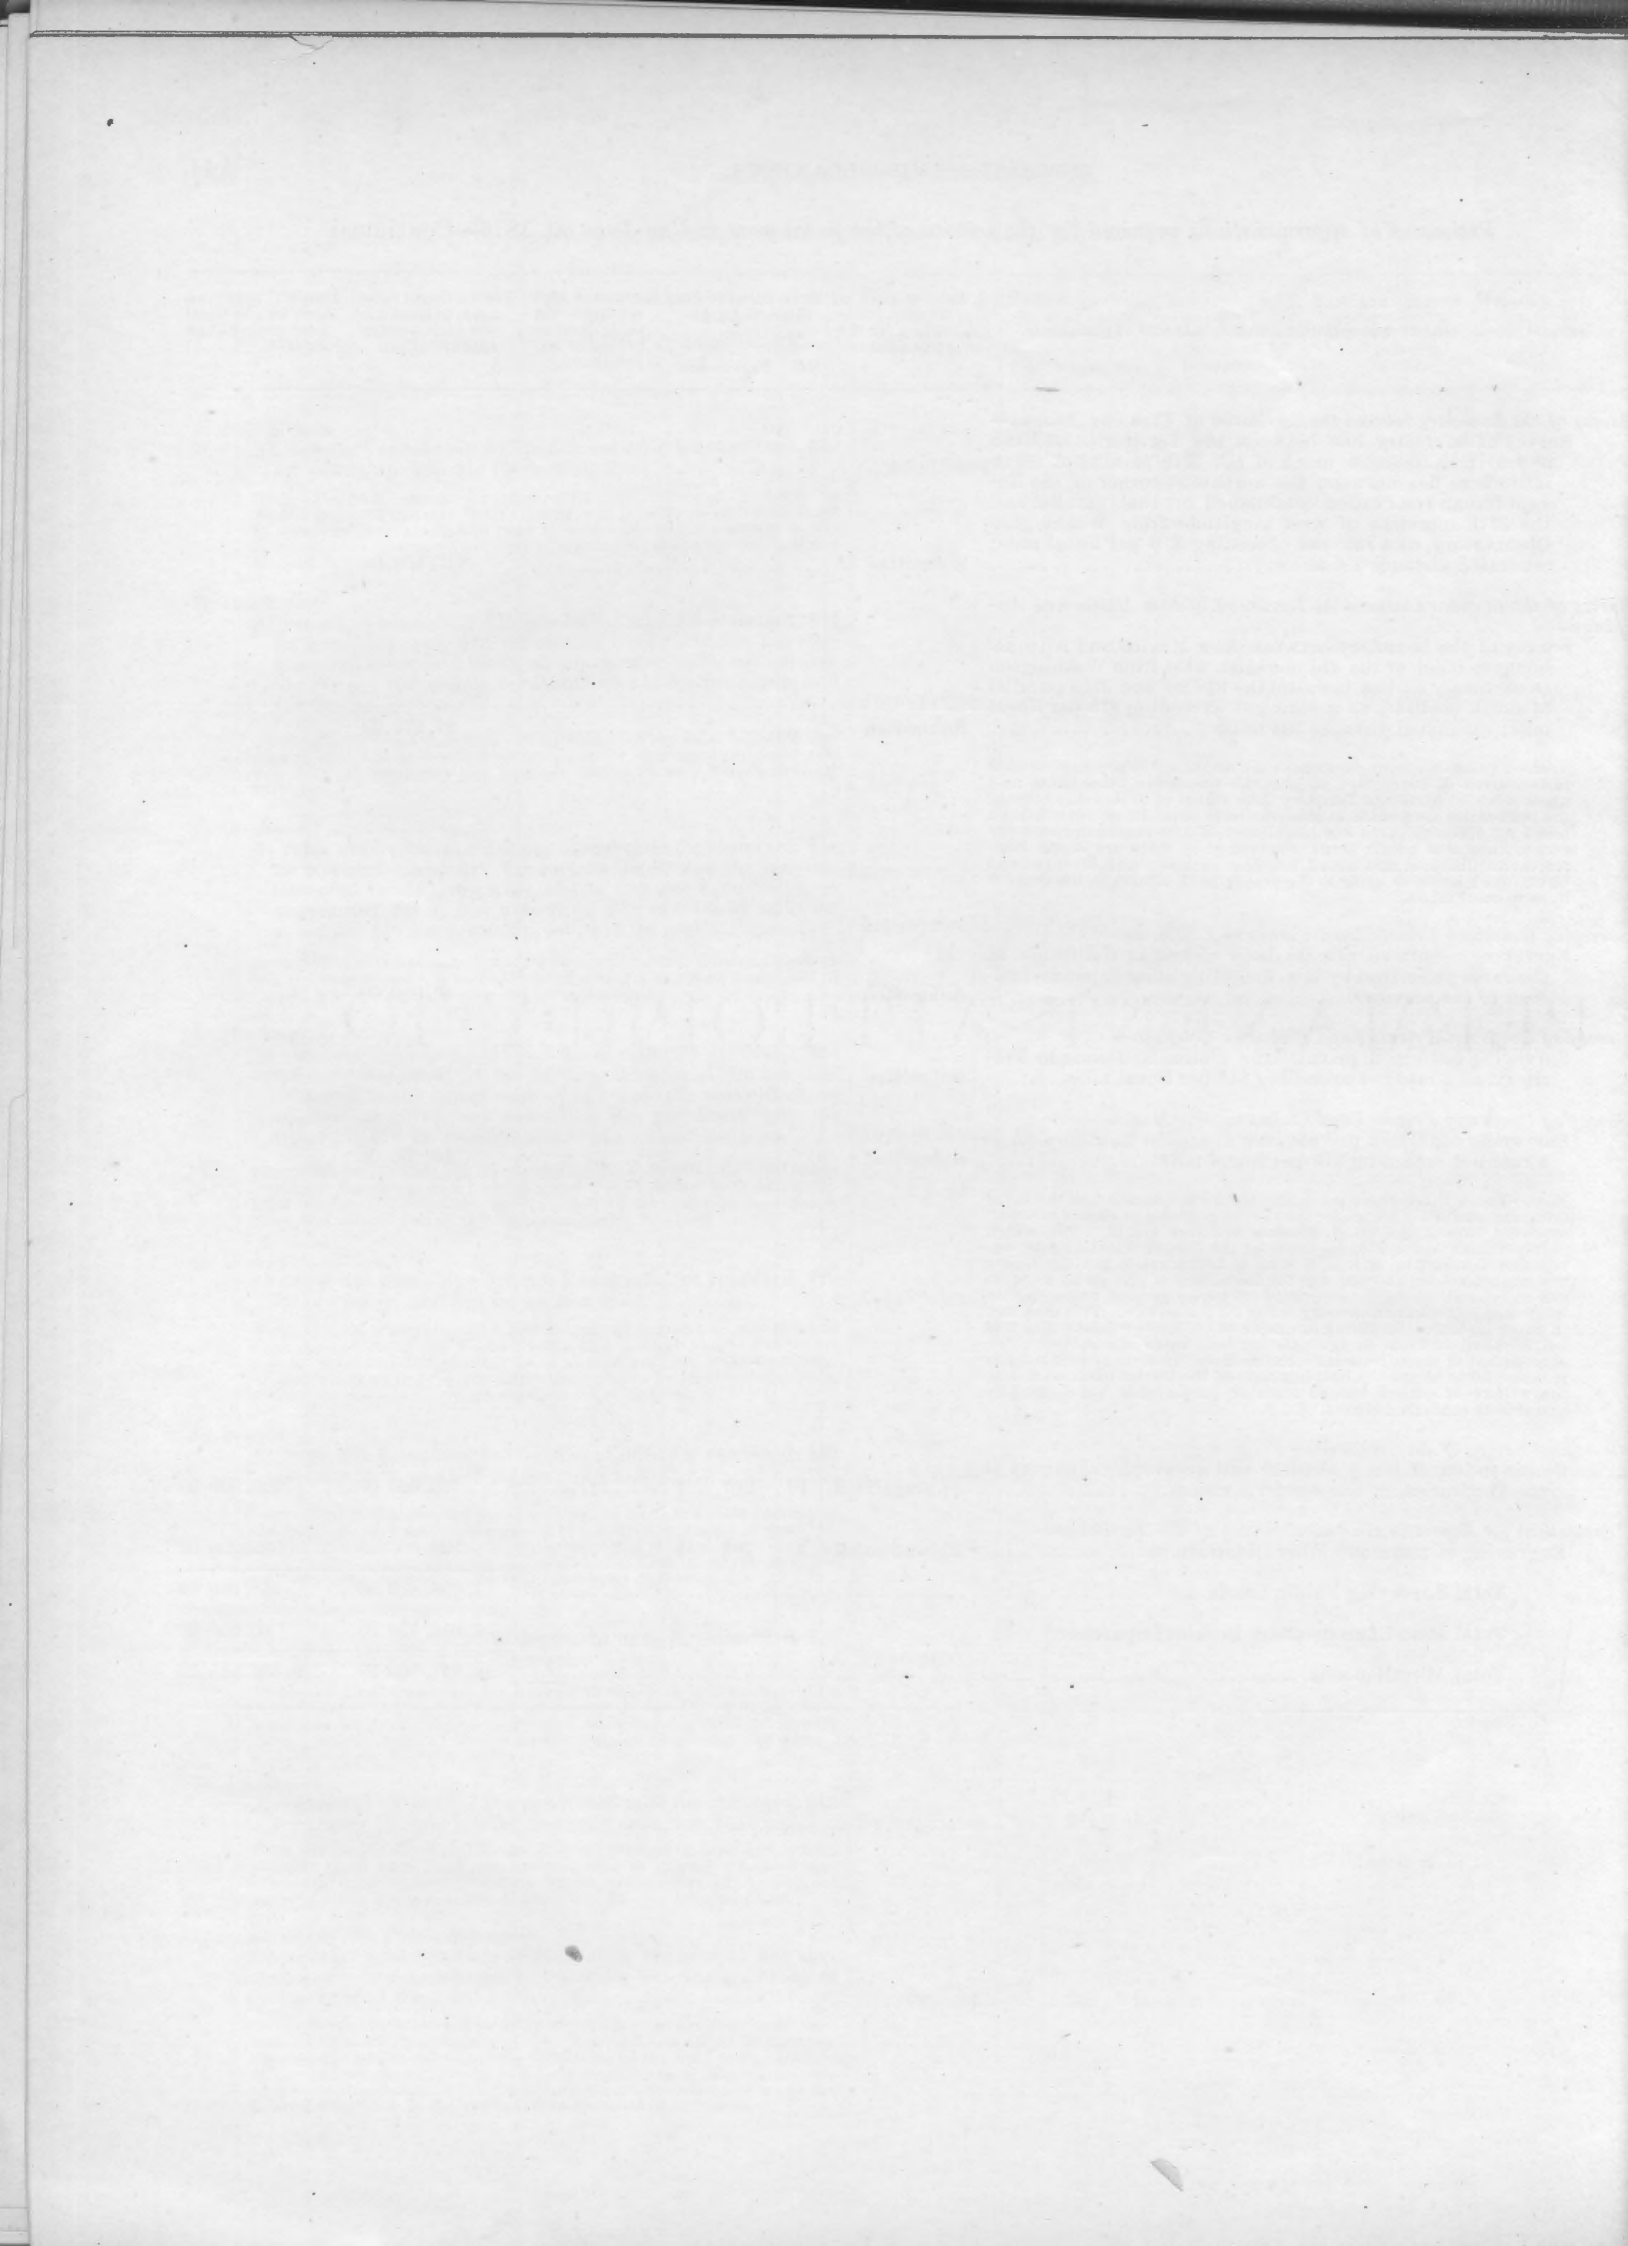

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.
		Vol.	Page.	Sec.			
<i>Horses and other Property lost in the Military Service—Continued.</i>							
Payment of claims for steamboats and other vessels, and railroad engines and cars.....	Mar. 3, 1863 Appropriated.	12 18	743 224	5 1	\$200,000 00	\$300,000 00	\$50,000 00
NOTE.—For explanation of the estimates for "Refunding to States Expenses incurred in raising Volunteers," and "Horses and other Property lost in the Military Service," see Appendix, marked "L."							
<i>Salary of Superintendent, Building on Tenth Street—</i>							
Salary of superintendent of building occupied by the Surgeon General.....	June 20, 1874	18	101	1		250 00	250 00
NOTE.—This estimate was not received in time to be inserted in its proper place in the "Civil Establishment."							
Total Miscellaneous Objects.....						1,128,250 00	594,250 00
Total Miscellaneous under War Department.....						1,503,250 00	949,575 00
UNDER THE DEPARTMENT OF THE INTERIOR.							
SURVEYING THE PUBLIC LANDS.							
<i>In Louisiana—</i>							
At rates not exceeding \$12 per lineal mile for township and \$10 for section lines, including \$3,000 for the salary and expenses of a surveyor to locate private land claims.....	Appropriated.	18	212	1		\$19,000 00	\$15,000 00
NOTE.—\$19,000 is estimated for the survey of public lands in the southwestern, southeastern, and northwestern districts, including compensation of \$1,800 per annum and expenses of surveyor to locate and survey confirmed private land claims, and to examine and correct old erroneous locations, to complete detached and unfinished surveys, and to prepare the necessary office-work and search for information requisite to properly locate the claims, and to work on the exhibit of private land claims.							
<i>In Florida—</i>							
At rates not exceeding \$12 per lineal mile for standard, \$12 for township, and \$10 for section lines.....	Appropriated.	18	212	1		10,000 00	10,000 00
NOTE.—\$10,000 is estimated for surveying township and section lines in the southern peninsula of Florida and closing the lines of survey on the Georgia and Florida boundary line, in order to carry out the provisions of an act of Congress to settle and quiet the titles to lands along the boundary line between the States of Georgia and Florida.							
<i>In Minnesota—</i>							
At rates not exceeding \$15 per lineal mile for standard, \$12 for township, and \$10 for section lines.....	Appropriated.	18	212	1		50,000 00	30,000 00
NOTE.—\$50,000 is estimated for surveys of guide meridians, standard parallels, township and section lines required by actual settlers and miners in the northwest of Lake Superior, and also for pine lands.							
<i>In Dakota—</i>							
At rates not exceeding \$12 per lineal mile for standard, \$9 for township, and \$8 for section lines.....	Appropriated.	18	212	1		80,000 00	50,000 00
NOTE.—\$80,000 is estimated for the extension of the lines of survey along the Northern Pacific Railroad required by settlers along the route, and for surveys within the bounds of the late Sisseton and Wahpeton Sioux Indian reservation, and in the valleys of the Red River of the North and Missouri river.							
<i>In Montana—</i>							
At rates not exceeding \$15 per lineal mile for standard, \$12 for township, and \$10 for section lines.....	Appropriated.	18	212	1		60,000 00	40,000 00
NOTE.—\$60,000 is estimated for the extension of public surveys along the Northern Pacific Railroad and in mineral districts, as well as other portions of the Territory where actual settlements have been made, and are awaiting subdivisional survey.							
<i>In Nebraska—</i>							
At rates not exceeding \$15 per lineal mile for standard, \$12 for township, and \$10 for section lines.....	Appropriated.	18	212	1		60,000 00	60,000 00
NOTE.—\$60,000 is estimated for the extension of standard, township, and section lines, to meet the wants of the settlers.							
<i>In Colorado—</i>							
At rates not exceeding \$15 per lineal mile for standard, \$12 for township, and \$10 for section lines.....	Appropriated.	18	212	1		80,000 00	50,000 00
NOTE.—\$80,000 is estimated for surveys along the line of actual and projected railroads along the Platte and Arkansas, in the Wet Mountain valley, and to accommodate colonies along the Snake and Bear rivers.							
<i>In Idaho—</i>							
At rates not exceeding \$15 per lineal mile for standard, \$12 for township, and \$10 for section lines.....	Appropriated.	18	212	1		40,000 00	30,000 00
NOTE.—\$40,000 is estimated for the survey of public lands required for settlement, and for the extension of township and section lines to mineral regions, in order to enable miners to locate their claims specifically, and to accommodate settlers along the line of the Northern Pacific Railroad route.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1875.
		Vol.	Page.	Sec.			
<p><i>In New Mexico—</i> At rates not exceeding \$15 per lineal mile for standard, \$12 for township, and \$10 for section lines</p> <p>NOTE.—\$50,000 is estimated in view of the construction of the Southern Pacific Railroad through the Territory, and in order to afford facilities to actual settlers along the road to select lands not enuring to the railroad; also, to extend the lines of public surveys to agricultural and mineral lands.</p>	Appropriated.	18	212	1	\$50,000 00	\$30,000 00	
<p><i>In California—</i> At rates not exceeding \$15 per lineal mile for standard, \$14 for township, and \$12 for section lines; and for heavily-timbered mountain lands, at augmented rates, not exceeding \$18 per lineal mile for standard, \$16 for township, and \$14 for section lines</p> <p>NOTE.—\$70,000 is estimated for the extension of the lines of public surveys to accommodate actual settlers, and for closing the lines of survey upon the boundary line between California and Nevada recently surveyed.</p>	Appropriated.	18	212	1	70,000 00	90,000 00	
<p><i>In Oregon—</i> At rates not exceeding \$15 per lineal mile for standard, \$14 for township, and \$12 for section lines; and for heavily-timbered lands lying west of the Cascade mountains, at augmented rates, not exceeding \$18 per lineal mile for standard, \$16 for township, and \$14 for section lines</p> <p>NOTE.—\$70,000 is estimated for surveys within the limits of various rail and wagon-roads, grants which have long since been made, and in localities where lands are needed for settlement.</p>	Appropriated.	18	213	1	70,000 00	60,000 00	
<p><i>In Washington—</i> At rates not exceeding \$15 per lineal mile for standard, \$14 for township, and \$12 for section lines; and for heavily-timbered lands lying west of the Cascade mountains, at augmented rates, not exceeding \$18 per lineal mile for standard, \$16 for township, and \$14 for section lines</p> <p>NOTE.—\$70,000 is estimated for the survey of lands along the line of the Northern Pacific Railroad and around Puget Sound and Admiralty Inlet, and to complete the surveys east of the Cascade mountains, along the located line of the Northern Pacific Railroad.</p>	Appropriated.	18	213	1	70,000 00	40,000 00	
<p><i>In Utah—</i> At rates not exceeding \$15 per lineal mile for standard, \$12 for township, and \$10 for section lines</p> <p>NOTE.—\$30,000 is estimated for continuing the surveys of public lands along the route of the Union Pacific and Central Pacific Railroads; also for the extension of the lines to mineral regions of the Territory, to enable miners to properly locate their claims by legal subdivisions, and for the survey of valleys required for settlement.</p>	Appropriated.	18	213	1	30,000 00	20,000 00	
<p><i>In Nevada—</i> At rates not exceeding \$15 per lineal mile for standard, \$12 for township, and \$10 for section lines</p> <p>NOTE.—\$60,000 is estimated for extending the lines of public surveys in the southern and eastern portion of the district consequent upon the rapidly increasing settlements on agricultural lands and the development of new mining regions, and to close the lines of survey upon the California and Nevada boundary line recently surveyed.</p>	Appropriated.	18	213	1	60,000 00	40,000 00	
<p><i>In Wyoming—</i> At rates not exceeding \$15 per lineal mile for standard, \$12 for township, and \$10 for section lines</p> <p>NOTE.—\$60,000 is estimated for extending the standard and meridian lines to cover the limits of the land grant of the Union Pacific Railroad, and for surveying township and subdivisional lines of agricultural, grazing, coal, and timber lands within and adjoining the same.</p>	Appropriated.	18	213	1	60,000 00	40,000 00	
<p><i>In Arizona—</i> At rates not exceeding \$15 per lineal mile for standard, \$12 for township, and \$10 for section lines</p> <p>NOTE.—\$30,000 is estimated to continue the present lines of survey consequent upon increasing settlements, and to extend standard and township lines to distant valleys where settlements exist; also, for surveys along the line of the Atlantic and Pacific Railroad route.</p>	Appropriated.	18	212	1	30,000 00	20,000 00	
<p><i>Examinations of the Public Surveys—</i> Occasional examinations of the public surveys in the several surveying districts, in order to test the accuracy of the work in the field</p> <p>NOTE.—\$15,000 is estimated to cover expenses of examiners to be designated by the Commissioner of the General Land Office or surveyor general, to test the fidelity of the execution of the field work; also, to enable the surveyors general to satisfy themselves of the correctness of the returns made of the field work where doubts exist as to the faithful execution of the work, before approval of the same.</p>	Appropriated.	18	213	1	15,000 00	10,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1876—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to the Stats. at Large.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1876.
		Vol.	Page.	Sec.			
<i>Survey of the Boundary between the Territories of Utah and Arizona—</i> Survey of boundary line between the Territories of Utah and Arizona, being so much of the 37th parallel of north latitude as lies between the northwest corner of the Navajo Indian reservation established on that parallel and the 37th meridian of west longitude from Washington Observatory, at a rate not exceeding \$70 per lineal mile; estimated distance 250 miles.....	Submitted					\$17,500 00	
<i>Survey of the Boundary between the Territories of New Mexico and Arizona—</i> Survey of the boundary between New Mexico and Arizona, being so much of the 32d meridian west from Washington Observatory as lies between the 31° 20' and 37th parallel of north latitude, at a rate not exceeding \$70 per lineal mile; estimated distance 391 miles.....	Submitted					27,370 00	
<p><i>NOTE.</i>—The two preceding estimates are necessary to separate several jurisdictions of Territories, so that the respective inhabitants may know to which particular Territory their rights of citizenship belong; the boundaries are needed to close the lines of public surveys thereon based on different bases and meridians; also, to enable the land officers to know that public lands disposed of by them are within their respective districts, and afford facilities to settlers on surveyed and unsurveyed lands to apply to the proper land officers to file declarations to enter lands.</p>							
<i>Surveying Confirmed Private Land Claims in California—</i> Surveying confirmed private land claims in California, at the rates prescribed by law, including office expenses incident to the service.....	Submitted					40,000 00	
<i>Surveying Confirmed Private Land Claims in Colorado—</i> Surveying confirmed private land claims in Colorado Territory, at a rate not exceeding \$15 per lineal mile.....	Submitted					10,000 00	
<i>Surveying Confirmed Private Land Claims in New Mexico—</i> Surveying confirmed private land claims in New Mexico, at a rate not exceeding \$15 per lineal mile.....	Submitted					10,000 00	
<p><i>NOTE.</i>—These three sums are estimated for the reason that the act of Congress entitled "An act for the survey of grants or claims of land," approved June 2, 1862, (U. S. Statutes at Large, vol. 12, p. 410), which required such surveys to be made at the cost of the claimants, was repealed February 18, 1871, (U. S. Stats. at Large, vol. 16, p. 416.) Under the circumstances, no contracts for the survey of private land claims can be entered into by the respective surveyors general, unless parties interested deposit the necessary funds for the service. This they are, in some instances, unwilling or unable to do, for the reason that it is not required of them by the existing laws upon the subject. The segregation of the private land claims from the mass of public lands is called for to secure the best interests of the Government, as well as the welfare of settlers located often on public lands, but claimed by grantees as confirmed claims.</p>							
<i>Geological Survey of the Territories—</i> Continuation of the geological and geographical survey of the Territories, by the second division	Appropriated.	18	207	1	75,000 00	\$90,000 00
<i>Illustrations for Report on Geological Survey of the Territories—</i> Engraving of maps and other illustrations.....	Appropriated.	18	207	1	25,000 00	35,000 00
Total Surveying Public Lands.....						1,058,870 00	760,000 00
Total Miscellaneous under Interior Department.....						1,058,870 00	760,000 00
Total Miscellaneous.....						12,591,169 58	9,496,115 16

PERMANENT APPROPRIATIONS.

APPENDIX.

APPENDIX

APPENDIX.

APPENDIX A.

Explanations of the estimates for United States Mints and Assay Offices. (See pages 21 to 23.)

I have the honor to submit herewith the annual estimates of appropriations required for the support of this office and the mints and assay offices for the fiscal year ending June 30, 1876:

OFFICE DIRECTOR OF THE MINT.

In the estimates for the office of the Director of the Mint at Washington an item of seven thousand dollars is embraced for continuing the collection of mining statistics. Prior to the current fiscal year an appropriation of fifteen thousand dollars per annum was made for that purpose. For the current year the appropriation is ten thousand dollars.

The compensation of the commissioner of mining statistics is at the rate of five thousand dollars per annum, and of his assistant three thousand dollars. These rates of compensation were fixed by the Secretary of the Treasury some years ago.

The appropriations available for the current fiscal year will be sufficient to complete the work for the calendar year 1874 on the scale covered in the reports of the commissioner for the last four years, and which embraced a full account of gold and silver mines, methods of working the same, reducing ores, description of machinery and apparatus employed, and of the geology and mineralogy of the States and Territories west of the Mississippi river, and illustrated by maps and drawings.

By the first of January the appropriation will be exhausted, and, as the law prohibits the incurring of liabilities in excess of the appropriations, the services of the commissioner, and all others now engaged under this appropriation, will cease; also, the commissioner's office rent in New York.

The collection of the statistics on a modified scale will thereafter devolve on the Mint Bureau, in accordance with your instructions of July 3, 1874, placing this business under the direction and control of the Director of the Mint.

If Congress should desire to have prepared and printed annually a large book on the subject of the mining interests of the country west of the Mississippi, the appropriation should be increased rather than reduced. The subject has, however, been so fully covered during the last six years that anything more than the procuring of all useful information in relation to the general condition of our gold and silver-mining interests and amount of gold and silver, respectively, produced annually from the mines of the United States, appears to be unnecessary. It is believed that the sum of seven thousand dollars will be sufficient for the purpose, and that amount has therefore been estimated as necessary for the next fiscal year; and one-half of the amount should be appropriated to cover the expenses of collecting the statistics during the last six months of the current fiscal year.

The report of the commissioner of mining statistics is made for the calendar year. After the present calendar year the statistical and general information respecting the gold and silver-mining industry of the United States will be collected for each fiscal year, and incorporated in the annual report of the Director of the Mint.

Under the head of the same office the sum of five thousand dollars is estimated for recoinage of gold and silver coins in the Treasury. Small sums of coins, which are not in a condition to pay out again, occasionally find their way into the Treasury of the United States or some of its offices, and have to be recoined, and, as the Treasurer of the United States has to account for such coins at their tale value, an appropriation to cover the difference between their bullion and denominational value is necessary.

WAGES OF WORKMEN AND CONTINGENT EXPENSES.

In reference to the estimates under the respective heads of "Wages of workmen" and "Contingent expenses," I respectfully submit the following observations:

For the mints at Philadelphia and Denver, and the assay offices at Boise and Charlotte, no increase under these heads is estimated for.

MINT OF THE UNITED STATES AT PHILADELPHIA.

For freight on bullion the same amount is asked for as has been appropriated annually for several years past, viz., five thousand dollars; and the sum of one hundred dollars is embraced for the purchase of specimens of ores and coins to be deposited in the cabinet of the mint. Formerly three hundred dollars was annually appropriated for this purpose. The collection being an extensive one, the amount estimated will, it is believed, be sufficient for the purchase of such desirable specimens as are not in the cabinet. Under the head of "Annealing furnaces," twenty thousand dollars is estimated for the purpose of constructing two large furnaces for annealing strips and blanks, and which are necessary for the proper despatch of business at that institution.

In reference to the item last mentioned, your attention is invited to the following extract from the letter of Mr. Pollock, the superintendent:

"The appropriation for two new annealing furnaces is a necessity. They have been needed for several years, but, from motives of economy, we have endeavored to get along without incurring this additional expense. We cannot profitably do so any longer, nor without impairing the efficiency of the mint and continued embarrassment to its operations. The amount asked will be sufficient for the purpose, and will be judiciously expended."

MINT OF THE UNITED STATES AT SAN FRANCISCO.

Separate items, of twenty-five thousand dollars each, for "Wages of workmen" and for "Contingent expenses," are submitted to meet the expenses which will be incurred should the operations of refining and parting (which have been done by private enterprise since 1870) be undertaken at the new mint at the commencement of the next fiscal year. As soon as coining operations shall have been commenced at the new mint, the necessary apparatus for refining and parting by the sulphuric-acid process will be put up therein, and the refinery kept in readiness for use whenever it shall become necessary or desirable for the Government to resume refining operations at San Francisco.

Independent of the two items just referred to, an increase of twelve thousand dollars under the head of "Wages of workmen," and eleven thousand five hundred dollars under that of "Contingent expenses," is estimated for. It is expected that coining operations will be commenced in the new mint in about two months, and that a large increase of business will follow, particularly in the coinage of trade-dollars, the demand for which we have not been able to meet with the limited capacity of the old mint. Attention is invited to the following extract from the letter of Superintendent LaGrange, submitting his estimates:

"It will be observed that this estimate is in excess of that allowed for the current year. This increase is necessitated by the following considerations: It is not to be expected that less than \$7,000,000 in trade-dollars will be required to meet the constantly increasing demand for that coin. The increased labor and material required for such a coinage would cost almost the entire amount asked in excess of this year's appropriation, but it is hoped that the superior facilities afforded by the new building will enable us to economize sufficiently to carry on the work of refining during the next year, and thus increase by about \$50,000 gold the amount paid into the Treasury as earnings of the mint, which sum would otherwise be paid to outside parties for performing the work of refining. In view of the steady increase of business at this mint, which appears likely to continue, a liberal policy in regard to appropriations would appear to be the highest prudence, for the reason that, under the existing organization of the service, it is impossible for a superintendent to expend more than is absolutely necessary to do the work required, whatever sum be appropriated; and any attempt to economize by spending less than is necessary could only result in failing in such proportion to meet the requirements of the public. These estimates are based upon carefully calculated reports of the operative officers, and in no particular exceed their figures. For the year 1876 this mint, at present charges, will probably earn \$200,000."

MINT OF THE UNITED STATES AT CARSON.

An increase of eighteen thousand dollars over the regular appropriation for the current fiscal year is asked for under the head of "Wages of workmen," and an increase of forty-six thousand eight hundred and fifty dollars under the head of "Contingent expenses." The amount estimated for "Wages of workmen" is ten thousand dollars less than the superintendent estimated to be necessary, and for "Contingent expenses" I have reduced his estimate twenty-three thousand two hundred and fifty dollars, bringing the amounts respectively in correspondence with the present rate of expenditure.

The superintendent of the Carson mint says: "For wages, I have also estimated for a small increase, as I anticipated an increased business, and consequently will require a larger operative force to handle it properly. I am also compelled to estimate for an increased appropriation for ordinary and incidental expenses, in view of the larger quantity of supplies that will be consumed with the working of the expected increased amount of deposits. New developments are constantly being made on the Comstock lode, and a part of the bullion extracted from the mines that are being so developed will surely find its way to this mint, to be manufactured into bars or coin."

UNITED STATES ASSAY OFFICE, NEW YORK.

An increase of fifteen thousand dollars under the head of "Contingent expenses," and the same amount under that of "Wages of workmen," is estimated for, the necessity for which is explained by Superintendent Acton, as follows:

"I submit the following in explanation of the increased amount over the appropriation for the present year desired:

1. *Incidental and contingent expenses.*

Amount appropriated, fiscal year ending June 30, 1875.....	\$45,000 00
Amount expended, fiscal year ending June 30, 1874.....	55,000 00
Amount estimated for fiscal year ending June 30, 1876.....	60,000 00

The increase of fifteen thousand dollars over the present year's appropriation is based upon the continually increasing business of this office, more particularly in silver, necessitating a larger supply of material of every description, principally coal, acid, copper, lead, crucibles, borax, &c. In addition to these, we are liable at any time to be compelled to construct new condensers, tanks, &c., and also to repair engine, boilers, and elevator, and make the necessary alterations for additional facilities in melting and refining bullion.

2. *Wages of workmen.*

Amount appropriated, fiscal year ending June 30, 1875.....	\$65,000 00
Amount expended, fiscal year ending June 30, 1874.....	85,305 00
Amount estimated, fiscal year ending June 30, 1876.....	80,000 00

Increase of fifteen thousand dollars over the appropriation for the present year, is thus explained: As the business of the office increases, rendering a larger appropriation for contingent expenses necessary, it is apparent that more labor must be required in the melter and refiner's operations to properly execute the work, and the appointment of additional workmen will become necessary."

The compensation of the assistant melter and refiner, eight dollars per diem, and that of the book-keeper at the same rate, is paid out of the wages appropriation. I earnestly recommend that a salary of \$2,500 per annum in each case be appropriated and made permanent. The positions are important and responsible ones, and properly qualified persons to fill them cannot be obtained at less rates.

An appropriation for "reopening the branch mint at New Orleans, to be conducted as a mint subject to the provisions and conditions of the coinage act of 1873," having been made for the current fiscal year, the amount necessary to put that establishment in condition for coinage operations is embraced in the estimates.

It is proper to state that the expenditures, except as to salaries, of the mints and assay offices, vary according to the amount of bullion deposited, and the particular operations to which the same is to be subjected, and this fact has necessarily been kept in view in estimating the amount required for "Wages of workmen," and especially that for "Contingent expenses," the latter, embracing acids, copper, lead, coal, lights, crucibles, borax, nitre, and other fluxes, repairs of machinery, fixtures, and apparatus. A part of the wastage is also defrayed out of the contingent appropriation.

It is important that the amounts estimated for "Wages of workmen" and for "Contingent expenses" should be appropriated. The estimates for the same are based on the present and expected state of business; and if any reduction be made, it may subject the public to serious inconvenience. The law forbids the incurring of any expense in excess of the appropriations; and if the amounts appropriated should prove insufficient, the coinage would have to be intermitted until additional appropriations could be procured. The increase of business at the coinage mints and assay office at New York, since the coinage act of 1873 went into operation, has been very large, and necessarily required an increase of appropriations over those of former years.

With the exception of the recoinage of light gold coins, which is about completed, the business of these institutions is more likely to increase than diminish during the next fiscal year. If, however, there should, from any cause, be a reduction in the amount of bullion deposited and operated upon, the expenses will be correspondingly reduced, and the unexpended balances of appropriations covered into the Treasury of the United States.

At the Carson mint the operations prior to the last fiscal year were confined mainly to the melting and stamping of mixed bullion, which did not require much outlay for materials; latterly, however, that mint has been engaged in separating gold and silver bullion, coining the gold, and manufacturing the silver into trade-dollars and *fine* bars. A large increase in the expenses has necessarily followed.

It should be remembered that the amount appropriated for the support of the mint service is not expended without return to the Treasury. Charges corresponding as nearly as possible to the actual expenses of the respective operations on bullion are required to be deducted from the deposits and paid into the Treasury of the United States; and the Government also realizes the gain arising from the issue of subsidiary silver and the minor coins. The statements required to enable the amount accruing to the Treasury during the last fiscal year from the gold-coinage charge, and the deductions and gains referred to, have not yet all been received. It may be stated, however, that the sum will approximate to eight hundred thousand dollars.

With the foregoing explanations, the estimates of appropriations for the support of the mint service of the United States are presented, and with the hope that they will receive your approval. I cannot close the subject, however, without earnestly calling your attention to the fact that the salaries, so far as the mints and assay offices are concerned, are, in many instances, too low, and I respectfully request your consideration as to the propriety of procuring an increase of the same.

In this connection your attention is invited to the views of the superintendents of the coinage mints, and of the assay office at New York, as contained in the following extracts from their letters to me, submitting their annual estimates, and which are worthy of careful consideration.

The superintendent of the Philadelphia mint says: "I cannot refrain from again calling attention to the inadequate compensation of the officers and clerks of this institution. Leaving the salaries as appropriated in the estimates proper, I reserve for this communication an earnest appeal for justice. The estimate of the salary of the superintendent is the amount now fixed by law, which is at least one thousand dollars too low. Under the coinage act of 1873, the duties and responsibilities that had been previously devolved upon two persons, at an aggregate salary of eight thousand dollars, are now imposed upon the superintendent, at a salary of only four thousand five hundred dollars. Formerly there was a director, at four thousand five hundred dollars, and a treasurer, at three thousand five hundred dollars. Now the superintendent is charged with all the duties and liabilities of the treasurer, in addition to his own responsibilities, but without any increase of compensation. It is respectfully submitted that the superintendent's salary ought to be not less than five thousand five hundred dollars, and six thousand dollars would be more in keeping with the peculiarly delicate and responsible duties of the position. I earnestly recommend increase in the salaries of the respective heads of the operative departments of this mint; they ought not to be less than four thousand dollars each. I very much regret the unwelcome and unnecessary reduction made at the last session of Congress in the salaries of my cashier and five clerks, below the amounts fixed under the coinage act of 1873. They should, on the contrary, have been increased to the amounts very properly appropriated for the corresponding subordinates at the New York assay office. * * * I may be pardoned for adding that, in the opinion of all experienced mint officers, the salary of the Director of the Mint at Washington is greatly disproportioned to the responsible duties of the position."

Superintendent LaGrange, of the San Francisco mint, says: "It will be observed that the estimate for salaries of clerks is increased by the sum of eighteen hundred dollars over the appropriation for the current year. It is believed, as heretofore expressed in the correspondence of this office, that the talent and experience required to fill the positions of chief clerk and cashier of this mint ought to command at least three thousand dollars per annum even in the service of the Government, which, as a rule, pays in all departments not more than two-thirds as much as like services command in private business. Positions relative to these in the customs, the internal revenue, and the post office in this city are paid for at rates varying from three thousand dollars to three thousand seven hundred dollars per annum, though they require no greater labor and skill, and involve much less responsibility. The clerks allowed eighteen hundred dollars for the current year receive less than workmen of ordinary skill, and the tendency of reducing salaries below a just and living rate is to drive all competent men to seek other employment, and thus embarrass, demoralize, and degrade the public service. The four clerks allowed this mint ought, in consideration of the amount of work and the degree of accuracy required of them, to receive not less than two thousand dollars per annum, which it is to be hoped Congress will allow for the next fiscal year."

Superintendent Acton, of the New York assay office, says: "The amount of increase submitted is no more than a just compensation to tried and faithful men, some of whom have devoted twenty years to the best interests of this office, who are perfectly familiar with all the operations calculated to add to its reputation and promote the welfare of its depositors, and it is with the hope that the services of these gentlemen may be retained that this increase is asked, a contingency doubtful under the present rate of salaries. The discrepancy between the expenditures of the fiscal year June, 1874, and the estimates for fiscal year June, 1876, on account of salaries of officers and clerks and wages of workmen, is explained by the transfer of employes from the pay-roll of the latter to that of the former."

When, in 1873, the mint laws were revised, it was generally conceded, by those conversant with the subject, that the salaries of the mint officers were not sufficient, but it was thought best not to embarrass the measure with any question of their increase, and they accordingly remained as fixed several years ago.

After a careful consideration of the subject, I am of the opinion that true policy, not less than justice to competent and faithful officers and clerks who are intrusted with very responsible duties, require that the mint salaries should be moderately increased.

I am, sir, very respectfully, your ob'd't servant,

H. R. LINDERMAN, *Director.*

To the Honorable SECRETARY OF THE TREASURY.

APPENDIX B.

Explanations of the estimate for office of Commissioner of Patents. (See page 35.)

I have the honor herewith to transmit the estimates for this bureau for the fiscal year ending June 30, 1876.

It will be necessary only to call attention to those points in the estimate differing from the appropriations heretofore made. You will notice that I have asked that the librarian's salary shall be increased from \$2,000 to \$2,500. You understand that our library is not a circulating library. It contains about twenty thousand volumes of books pertaining to the practical arts, and is designed for the use of the examining corps, and for parties who are making improvements in the practical arts. To make the library available for these purposes the librarian must be thoroughly conversant with the wants and duties of the examiners in the Patent Office, and must be familiar with the various arts as represented in the office. Experience has demonstrated the fact that it is impossible to find persons competent to fill this important position, except they have served a considerable time in the position of an examiner. An examiner's salary is \$2,500; the consequence has been that we have either been under the necessity of detailing an examiner to the position of librarian at a salary of \$2,000, allowing him to fill professorships in some of the colleges of the District to make up the balance of his salary, or to leave the position vacant and fill the place by detailing an examiner to it. At the present time one of the examiners in the office is serving as librarian by detail; yet the examining corps is sadly in want of his services. Again, I have asked, as you will see, for six clerks of class four, instead of seven, as appropriated for heretofore, and in place of the seventh, have asked for a financial clerk at a salary of \$2,000.

The receipts of the Patent Office amount to about three-fourths of a million of dollars per annum, all received in small fees, ranging from ten cents to thirty dollars. This amount must be collected, banked, and transferred to the Treasury by a clerk detailed for the purpose without bonds or pecuniary responsibility. The Commissioner becomes personally responsible with his bondsmen for the faithful performance of the duties of this clerk. I think his salary should be that of other financial clerks, (\$2,000,) and then he should be required to give bail in the sum of \$10,000, for the faithful performance of his duties. I have also asked an increase of fifteen clerks at \$900 each, and fifteen at \$720 each. This increase becomes absolutely necessary to properly execute the work of the office. At the present time, and for a year and a half past, I have been doing the work of the office in a manner of doubtful propriety and legality. I have been obliged to retain about fifteen vacancies in the first-class clerkships, from six to eight in the second class, and a few others of higher salaries, and use the funds thus saved in the employment of clerks at \$720 and \$900 a year, to do the work of the office, and yet the force is inadequate for such duty.

Very respectfully,

M. D. LEGGETT,
Commissioner of Patents.

To the Honorable SECRETARY OF THE INTERIOR.

APPENDIX C.

Explanations of the estimate for Columbia Institution for the Deaf and Dumb. (See pages 42 and 122.)

I have the honor to submit herewith the usual estimates of appropriations needed for the service of this institution for the fiscal year ending June 30, 1876.

The estimate for current expenses has been made larger than the appropriation for the current year, by the amount of one thousand dollars, to enable the institution to purchase a very valuable collection of books relating to the education and treatment of the deaf and dumb, recently offered for sale in England. This library has been gathered by one of the most distinguished instructors of the deaf and dumb in England, Dr. Charles Baker, for forty years head master of the Yorkshire Institution, at Dorchester, and contains many volumes long since out of print and out of the market.

The estimate for building purposes is intended to provide, *very nearly*, for the completion of our entire group of buildings, in accordance with a plan submitted to Congress eight years ago, in our Ninth Annual Report. No essential change has been made in this plan, and the cost of its execution will fall considerably within the estimate of eight years ago. I am not able at this time to present an estimate that shall exactly provide for the completion of the building, but I have every reason to believe that a small sum, to be appropriated by the next Congress, will finish the work.

The amount asked for the improvement and care of the grounds is needed to provide for the laying out of the ground immediately adjoining the buildings now in process of construction, and for the general improvement of the tract known as Kendall Green, now fully paid for and made over to the Government by act of Congress of June, 1872.

All of which is respectfully submitted.

E. M. GALLAUDET,
President and Disbursing Agent.

To the Honorable the SECRETARY OF THE INTERIOR.

APPENDIX D.

APPENDIX E.

Explanations of the estimate for Military Academy. (See pages 66 and 121.)

I have the honor to forward herewith estimate for the Military Academy for the fiscal year beginning July 1, 1875. I would respectfully state, in explanation of certain items, as follows:

1. Item under head of department of civil and military engineering, "Engraving plates, printing and binding text-books prepared for the special instruction of cadets, \$2,500." Formerly it was the practice to prepare and print on the lithographic press here such books, compilations, abridgments, and original preparations of the professor of this department of instruction as were necessary to the suitable instruction of cadets, and not to be had of publishers, or the publication of which, owing to the limited number required each year, and the little, if any, demand likely to ensue from other quarters, could not be procured, except at such cost per copy as to render it inexpedient to procure printing. The books printed by the lithographic press then in use were necessarily issued to cadets at a much greater cost than printed books of equal amount of matter obtained in the usual way. Owing to changes resulting from the introduction of new elements and conditions developed in the course of events since former publications, and particularly in recent years, it is now necessary to make such material changes in text-books as to require new publications. The method by lithograph, besides being expensive, is objectionable on other grounds. Such books pertaining to military science as are provided for instruction of cadets should be sold to them for retention for reference after graduation. I would suggest that, if practicable, an appropriation be procured that necessary books may be provided, which shall be sold to cadets at cost price from year to year, and the amount received thereby be covered into the Treasury from year to year until the original appropriation shall be replaced. The necessary supply can thereafter be kept up from stereotyped plates in the usual manner.

2. Item for the "Laying foundation for and beginning superstructure of building for a military museum, lecture-room, and examination hall, \$15,000," plans and detailed estimates for which will be forwarded as soon as ready. There is no military museum in the country. It is proposed to collect from the Engineer's department, the Ordnance department, the Quartermaster's department, and other branches of the service, and from sources otherwise, such arms and other means and appliances pertaining to the military service as may be had without cost, except that necessary for transportation to this place, as shall, when arranged, illustrate chronologically as to our own country the history of the appliances of war. Such a collection as can be now made would be of great interest and likewise of great benefit to the military student. (The collection would also embrace trophies and relics.) There will be a large amount of suitable material collected at the approaching Centennial Exhibition at Philadelphia, which can be sent here after the exhibition, upon the order of the Secretary of War, and so favorable an opportunity for laying the foundation of a museum, which will become of great value and interest, may not soon again occur. It is proposed to construct the building with a view, in part, to the future, and make it embrace meanwhile, in addition to its main purpose, provision for a lecture-room and examination hall. The examinations are now held in the library-room, which is thus diverted from its proper use for about a month of each year. There is no lecture-room or hall where all the cadets can be assembled. Such a place of meeting is very necessary. By the erection of a two-story building, the double purpose of present provision for very desirable objects herein specified, a place for a military museum, and a lecture-room and examination hall would be effected. The ultimate cost of a suitable building would be about sixty to seventy thousand dollars, according to materials used.

Very respectfully, your obedient servant,

THOS. H. RUGER,
Colonel 18th Infantry, Superintendent.

To the Honorable SECRETARY OF WAR.

APPENDIX F.

Explanations of the estimate for Trust Fund due Chickasaw National Fund. (See page 98.)

DEPARTMENT OF THE INTERIOR,
Washington, D. C., April 13, 1872.

SIR: I have the honor to submit herewith an estimate of appropriation required to pay the Chickasaw nation of Indians the balance remaining due and unpaid on certain Arkansas and Tennessee State bonds, held in trust by this Department for the benefit of said Indians, amounting, in all, to the sum of \$297,890 25. The accompanying copies of the report of the Commissioner of Indian Affairs, and other papers, it is believed, furnish full information on the subject.

By the 10th article of the treaty concluded April 28, 1866, with the Choctaws and Chickasaws, (Stats. at Large, vol. 14, p. 769,) it appears that the United States reaffirmed "all obligations arising out of treaty stipulations or acts of legislation with regard to the Choctaw and Chickasaw nations entered into prior to the late rebellion." * *

In my opinion, the provisions of the above article cover this case, and I therefore respectfully request the favorable action of Congress upon the estimate.

I am, sir, very respectfully, your obedient servant,

B. R. COWAN,
Acting Secretary.

Hon. JAMES G. BLAINE,
Speaker of the House of Representatives.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., April 23, 1874.

SIR: I have the honor to enclose herewith a copy of a report, dated the 20th instant, from the Commissioner of Indian Affairs, inviting my attention to a bill now before the House of Representatives "for the relief of the Chickasaw nation of Indians," which authorizes and directs the Secretary of the Treasury to turn over to the Secretary of the Interior for payment to the treasurer of the Chickasaw nation, through the agent for the Choctaws and Chickasaws, the sum o

\$297,890 25, being the balance due and unpaid prior to July 1, 1866, on certain Arkansas and Tennessee State bonds, held in trust by the Department of the Interior for the benefit of said Indians.

I also enclose a copy of a communication addressed to the President by delegates of the Chickasaw nation, in relation this subject, with his endorsement thereon, and respectfully request, in view of the indigent condition and circumstances of certain members of the Chickasaw nation, that the bill in question may receive early and favorable consideration, in order that the relief asked for may be afforded.

Very respectfully, your obedient servant,

C. DELANO, *Secretary.*

Hon. JOHN T. AVERILL,
Chairman Committee on Indian Affairs.

APPENDIX G.

Recapitulation of estimates for Indian Service, as furnished by the Indian Office. (See pages 79 to 99.)

APPROPRIATED FOR THE YEAR ENDING JUNE 30, 1875.

Current expenses, salaries, &c.....	\$298,680 00
Fulfilling treaties with Indian tribes.....	3,479,298 69
General incidental expenses.....	345,000 00
Miscellaneous expenses, including subsistence, &c.....	1,214,500 00
Interest on non-paying stocks.....	103,898 00
	5,441,376 69

ESTIMATES FOR THE YEAR ENDING JUNE 30, 1876.

Current expenses, salaries, &c.....	\$426,320 00
Fulfilling treaties with Indian tribes.....	3,725,492 50
General incidental expenses.....	639,851 21
Miscellaneous expenses, including subsistence, &c.....	1,748,500 00
Interest on non-paying stocks.....	395,038 25
	6,935,201 96

AMOUNTS APPROPRIATED IN 1875, NOT EMBRACED IN THE ESTIMATES FOR 1876.

Dropped on the appropriation: Pay of superintendents and agents.....	\$1,500 00
Dropped on the appropriation: Pay of interpreters, one for New Mexico at \$500, and one for Minnesota at \$400.....	900 00
Dropped by terms of treaty with Calapooias, Molallas, and Clackamas of Willamette Valley; being last of five instalments of fourth series.....	5,500 00
Dropped by terms of treaty with Chippewas of Lake Superior.....	27,362 00
Dropped by terms of treaty with the Chippewas of the Mississippi, \$20,000, and \$1,000 deficiency instalment for Chief Hole-in-the-day..	21,000 00
Dropped by terms of treaty with Chippewas, Pillagers, and Lake Winnebagoishish bands.....	3,000 00
Dropped by terms of treaty with confederated tribes and bands of Indians in Middle Oregon.....	5,500 00
Dropped by terms of treaty with Crows, for seeds, &c.....	1,250 00
Dropped by terms of treaty with D'Wamish and other allied tribes in Washington Territory.....	1,750 00
Being amount appropriated last year for removal of Kickapoos, and not embraced in estimate.....	65,000 00
Dropped by terms of treaty with Nez Percés.....	2,000 00
Dropped by terms of treaty with Nisqually, Puyallup, and other tribes and bands of Indians.....	9,200 00
Dropped by terms of treaty with Northern Cheyennes and Arapahoes, for flour and meat.....	45,000 00
Dropped: Estimate for interest on \$720,749, at five per cent. per annum, due Osages. (Special estimate will be made for this item). ..	36,037 45
Dropped by terms of treaty with Qui-nai-elt and Quil-leh-ute Indians.....	300 00
Dropped by terms of treaty with Rogue Rivers.....	3,000 00
Dropped amount appropriated last year for erection of houses for Sacs and Foxes of Missouri.....	1,000 00
Dropped by terms of treaty with Senecas, Shawnees, Quapaws, Peorias, Kaskaskias, Ottawas, Wyandottes, and others, for pay of blacksmith, &c.....	1,123 29
Dropped by terms of treaty with S'Klallams.....	800 00
Dropped by terms of treaty with Umpquas and Calapooias of Umpqua Valley, Oregon.....	2,450 00
Dropped by terms of treaty with Walla-Walla, Cayuse, and Umatilla tribes.....	2,000 00
Dropped from estimate for Winnebagoes, interest on \$30,868 87; amount paid Omaha Indians in Nebraska for lands, \$1,543 45; amount appropriated last year on account of error in interest, \$5,000; for breaking and fencing lands, \$3,400; and for purchase of land from Omahas of Nebraska, \$82,000—aggregating.....	91,943 45
Dropped by terms of treaty with Yakamas.....	2,000 00
	329,616 19

AMOUNTS EMBRACED IN THE ESTIMATES FOR 1876, NOT APPROPRIATED IN 1875.

Increase of four clerks, class one, \$4,800; four copyists, \$3,600; and two laborers, \$1,440.....	\$9,840 00
Increase, estimate for pay of interpreters, as follows: \$900 for Indian Territory, \$400 for Michigan, and \$400 for Arizona.....	1,700 00
Increase for travelling expenses of five Indian inspectors.....	7,500 00
Increase for buildings at agencies and repairs.....	10,000 00
Increase for vaccination of Indians.....	1,000 00
Increase for presents and provisions for Indians.....	5,000 00
Increase for "Contingencies, Indian Department".....	20,000 00
For civilization of Indians and educational purposes.....	75,000 00
Increase for transportation of goods, supplies, &c., to the Apaches, Kiowas, and Comanches.....	1,000 00
Increase for subsistence and civilization of Arickarees, Gros Ventres, and Mandans.....	40,000 00
Increase for collecting and subsisting Apaches of Arizona and New Mexico.....	250,000 00
Increase for transportation of goods and supplies to Cheyennes and Arapahoes.....	2,500 00
Increase for transportation of goods and supplies to Chippewas, Boise Fort band.....	500 00
Increase for transportation of goods and supplies to Chippewas of the Mississippi.....	1,000 00
Increase of instalment to confederated tribes and bands of Indians in Middle Oregon, for employes.....	500 00
Increase, fulfilling treaty with Creeks: For blacksmith, assistant, shops, &c., \$840; iron and steel, \$370; wagon-maker, \$600; and agricultural assistant, \$2,000—aggregate.....	3,810 00
Increase for Crows: For pay of teacher and stationery, \$1,000; employes, \$700; and for transportation of goods, &c.—total.....	3,700 00
Increase for D'Wamish and other allied tribes in Washington Territory: For pay of blacksmith, carpenter, farmer, and physician.....	400 00

Increase for transportation of goods and supplies to Flathead and other confederated tribes.....	\$500 00
Increase for Mixed Shoshones, Bannocks, and Sheepaters, on account of removal, &c.....	5,000 00
Increase for Navajoes: For pay of teacher, \$500; and for transportation of goods and supplies, \$7,000.....	7,500 00
Increase for Nez Percés, as follows: For one superintendent of farming and two farmers, \$500; for one superintendent of teaching and two teachers, two millers, two blacksmiths, one tinner, one gunsmith, one carpenter, and one wagon and plow-maker, \$3,000; for physician, \$400; for two matrons, two teachers, one farmer, one carpenter, and two millers, \$3,100; and for repairs of houses, mills, and tools, \$2,500—total.....	9,500 00
Increase for Northern Cheyennes and Arapahoes, as follows: For pay of employes, \$1,000; for transportation, \$3,000.....	4,000 00
Increase for transportation of goods and supplies to Pawnees.....	500 00
Increase for Poncas, as follows: For agriculture and education, \$2,500; and for civilization, \$5,000.....	7,500 00
Increase of estimate for Sacs and Foxes of the Mississippi: For support of a physician, and for the purchase of medicine.....	1,500 00
Increase for Shoshones and Bannocks, as follows: Shoshones—for persons engaged in agriculture, \$5,000; for employes, \$3,800; for seeds, \$1,500; for blacksmith, iron and steel, \$1,000. Bannocks—for purchase of articles for persons roaming, \$2,000; for employes, \$3,800; for seeds, \$1,700; and for transportation, \$2,000.....	19,800 00
Increase for settlement, subsistence, and support of Shoshones, Bannocks, and other bands of Indians in Idaho and Southeastern Oregon, viz: To assist roving bands of Indians in Idaho to locate on the Fort Hall reservation, in Idaho, \$10,000; and to assist roving bands of Indians in Southeastern Oregon to locate on some proper reservation in Oregon, \$10,000.....	20,000 00
Increase for Sioux of different tribes, including Santee Sioux of Nebraska, as follows: To purchase articles for persons roaming and for persons engaged in agriculture, \$36,000; for the purchase of beef, flour, bacon, and sugar, \$400,000; and for transportation, \$25,000.....	461,000 00
Increase for transportation of goods, &c., Sioux, Yankton tribe.....	300 00
Increase for support of Sioux at the Fort Peck agency.....	150,000 00
Increase for Tabeguache, Muache, Capote, Weeminuche, Yampa, Grand River, and Uintah bands of Utes, viz: For employes, \$3,000; for subsistence for 1876, \$30,000; for two teachers, \$200; for blankets, \$5,000; and for transportation, \$2,000.....	40,200 00
Increase for Walla-Walla, Cayuse, and Umatilla tribes, viz: For subsistence and pay of employes.....	2,200 00
Increase for transportation of goods and supplies to Winnebagoes.....	500 00
Increase for incidental expenses, Indian service in Arizona.....	10,000 00
Increase for incidental expenses, Indian service in California, \$30,000; and for the erection of buildings, &c., on the Tule River reservation, \$20,000.....	50,000 00
Increase for incidental expenses, Indian service in Colorado, \$5,000; and amount necessary in the adjustment of Gov. E. M. McCook's accounts, \$7,851 21.....	12,851 21
Increase for incidental expenses, Indian service in Idaho.....	10,000 00
Increase for incidental expenses, Indian service in Montana.....	15,000 00
Increase for incidental expenses, Indian service in Nevada.....	35,000 00
Increase for incidental expenses, Indian service in New Mexico.....	35,000 00
Increase for incidental expenses, Indian service in Oregon.....	35,000 00
Increase for incidental expenses, Indian service in Washington Territory.....	50,000 00
Increase for incidental expenses, Indian service in Utah.....	20,000 00
Amount submitted for incidental expenses, Indian service, Central Superintendency.....	6,000 00
Amount submitted for incidental expenses, Indian service, Northern Superintendency.....	2,000 00
Amount submitted for incidental expenses, Indian service, Indian Territory.....	3,000 00
Amount submitted for incidental expenses, Indian service in Minnesota.....	5,000 00
Amount submitted for incidental expenses, Indian service in Michigan.....	3,000 00
Amount submitted for incidental expenses, Indian service in Wisconsin.....	3,000 00
Increase for transportation, &c., of annuities, &c., to Indians in Minnesota and Michigan.....	4,000 00
Increase for expenses of Indian delegations visiting Washington.....	20,000 00
Increase for civilization and subsistence of Indians on the Malheur reservation.....	5,000 00
Increase for civilization and subsistence of Indians of Central Superintendency.....	10,000 00
Amount submitted for the civilization of the Chippewa Indians in Minnesota.....	35,000 00
Amount submitted for "Cherokee National Fund:" Interest on \$11,000 Louisiana State bonds, \$660; deficiency, arrears of interest on same, \$330.....	990 00
Amount submitted for "Cherokee School Fund;" Interest on \$2,000 Louisiana State bonds, \$120; deficiency, arrears of interest on same, \$60.....	180 00
Increase of interest for "Chickasaw National Fund".....	287,810 25
Amount submitted for Iowas: Interest on \$9,000 Louisiana State bonds, \$540; deficiency, arrears of interest on same, \$270.....	810 00
Amount submitted for Kaskaskias, Peorias, Weas, and Piankeshaws, namely: Interest on \$15,000 Louisiana State bonds, \$900, and deficiency, arrears of interest on same, \$470.....	1,350 00
	<hr/>
	1,823,441 46
Amount of present estimate for year 1876.....	\$6,935,201 96
Amount appropriated for the year 1875.....	5,441,376 69
Difference.....	<hr/> 1,493,825 27 <hr/>

Agreeing with the difference between the amounts appropriated for 1875 and these estimates.....	<hr/> 1,493,825 27 <hr/>

APPENDIX H.

Explanations of estimate for the Government Hospital for the Insane. (See page 122.)

For completing the river wall and raising the boundary walls at their intersection with the river wall: The iron wall has been built on just one-half of the extent of the river front, at a cost of \$10,000; but, as the average depth of water is less along the line of the remainder of the river front, it is estimated that this part of the work can be completed for \$7,788, and the cost of raising those portions of the boundary walls that were originally extended into the river and water fences, and now intersect the front wall, so that the former cannot be scaled from the latter or from the filling of earth behind it, will be \$960—the two amounts making the sum of \$8,748.

For a coal-vault in rear of the east wing of the hospital edifice: The demand for increased accommodations has rendered it necessary to fit up two of the original coal-rooms for dining-rooms, and to use the remaining two as workshops; and it has, for several years, been necessary to deposit most of the coal used for heating the house in a huge, unsightly pile a short distance outside of the windows of patients' rooms. By using the foundation walls of the house for two sides of the vault, it is estimated that convenient storage room for five hundred tons of coal can be secured for the moderate amount of this estimate.

This and the preceding estimate were submitted last year and struck out in the general revision of the estimates of all the departments ordered by Congress soon after it met in December, 1873.

For general repairs and improvements: The amount asked under this head will be required for the painting and repairs necessary to preserve the extensive buildings of the hospital on account of ordinary wear; for such repairs and additions to the furniture, bedding, fittings, and conveniences of the wards as are constantly necessary on account of the destructive habits of the class of patients treated in institutions of this character, and for such additional means and facilities for the medical and moral treatment of the inmates as are suggested by experience and the progress of this branch of the healing art.

For the repairs and improvement of the main entrance to the hospital: The main door of entrance to the hospital opens to the north upon an eminence of ground 170 feet above tide, and by it all patients are admitted to the institution and take their final departure—their friends and the general public go and come.

Entering the house in cold and stormy weather, as the entrance is now constructed, is found to be an injurious exposure to many patients and other delicate persons, and it is deemed a necessary sanitary measure to reconstruct the main doorway with such means of protection, in inclement weather, as will avoid the evil of the present arrangement. In connection with this improvement, it is intended to construct such a window over the main entrance as will give the room over the front corridor the light and cheerfulness that are necessary to make it healthful and practically useful.

For supplying the hospital with water from the Potomac Aqueduct: This estimate embraces the following items: 6-inch pipe across the river, \$3,960; pump and setting, \$1,500; boiler and setting, \$1,200; pump-house, \$1,500; reservoir to hold 100,000 gallons, \$1,840; total, \$10,000. The extension of the hospital and outbuildings, all of which are supplied with water by artificial means, and the large number of patients for whose treatment Congress has here provided, render a larger and more reliable supply of water urgently necessary to the protection of the property of the institution against destruction by fire, and an improvement of the quality of the water supply a necessary sanitary measure; and it is deemed fortunate that both necessities can be fully and permanently met by the moderate expenditure proposed for this purpose. From one-fourth to one-third of the present water supply is obtained from springs near the hospital buildings; the remaining three-fourths or two-thirds is raised directly from the Anacostia river, the water of which is abominably dirty. To keep the spring water, which is excellent, separate from the river water, would necessitate two entire sets of pumps, main and service pipes, and reservoirs and tanks. This is, of course, impracticable. The water is often so low at low tide that, with our present means, it is not practicable to pump from the river, the channel of which is on the side opposite the hospital; and if a fire should occur at such time, it might not only prove impossible to preserve these costly buildings from destruction, but the lives of hundreds of helpless persons would be put in jeopardy. When the hospital is adequately supplied with water from the Potomac aqueduct—to which the institution is supposed to be entitled in common with the other Government buildings—the principal defect in its economy will be removed. The means to raise and store water are rendered necessary by the fact that the Potomac water will not rise to the hospital by nearly 100 vertical feet.

APPENDIX I.

Explanation of estimates for Coast-Survey Service. (See page 136.)

UNITED STATES COAST SURVEY OFFICE,
Washington, D. C., November 2, 1874.

SIR: In accordance with your directions to reduce, for reasons you have elsewhere stated, the estimates for the Coast Survey for the fiscal year ending June 30, 1876, I have the honor herewith to submit estimates for that service, reduced to the lowest practicable limits consistent with any degree of efficiency and economy.

For the support and maintenance of the Coast Survey, the amount has been reduced from \$893,000 to \$825,000, the amount estimated by my predecessor for the present fiscal year, a reduction of \$68,000. For the construction of vessels, so necessary for the work, the estimate has been reduced from \$696,000 to \$450,000, a reduction of \$246,000, equal to 35½ per cent., a total reduction of \$314,000.

I respectfully beg to state, however, that these reductions will more than proportionately lessen the results of the year and increase their particular cost.

I respectfully request that the full report and statements submitted September 15 with the original estimates, together with this letter, may be printed in the Appendix of the published estimates.

Very respectfully,

C. P. PATTERSON,
Superintendent United States Coast Survey.

Hon. B. H. BRISTOW, *Secretary of the Treasury.*

UNITED STATES COAST SURVEY OFFICE,
Washington, September 15, 1874.

SIR: I have the honor to forward herewith the usual preliminary report on the operations of the Coast Survey for the year ending June 30, 1874, and submit detailed estimates for the work of the Coast Survey for the year ending June 30, 1876. The accompanying report contains—

1. A general statement of the operations of the Coast Survey during the year ending June 30, 1874.
2. A general statement of the proposed operations of the Coast Survey and estimates in detail for the work of the year ending June 30, 1876.
3. General statement of reasons for submitting and asking for the amount of the estimates.

GENERAL STATEMENT OF THE OPERATIONS OF THE COAST SURVEY FOR THE YEAR ENDING JUNE 30, 1874.

In the detailed estimates the work for the fiscal year ending June 30, 1876, will be stated in geographical order, beginning on the Atlantic coast of the United States at the northeastern boundary and terminating on the coast of Texas. On the Pacific coast the sites will be named in the reverse order, beginning at San Diego and terminating with the coast of Alaska.

As a practical illustration of the estimates, an abstract is here presented showing the sites in which the field work and hydrography are now in progress, and including mention also of the sites in which the same parties worked during last winter and spring in the southern sections of the Atlantic and Pacific coasts and on the Gulf coast of the United States. The recapitulation includes, as the operations now in hand, deep-sea soundings in the Gulf of Maine, between Nova Scotia and Cape Cod; topography of Mt. Desert Island, and soundings in its vicinity; detailed survey of the shores of Eggemoggin Reach; of islands east and west of Deer Isle and Isle au Haut; of the eastern shore of the Penobscot between Castine and Bucksport; hydrography at the head of Penobscot Bay; determinations of height, and of the co-efficient of refraction at the primary station near Camden, Maine; tidal observations at North Haven, Penobscot Bay; hydrography of the vicinity of Jeffrey's Ledge, Cashe's Ledge, and Jeffrey's Bank, including surface and deep-sea temperatures; determination of geographical points by triangulation in New Hampshire; tidal observations at Boston navy yard; special observations and topographical survey near North Adams, Mass., for determining differences in the intensity of gravitation; hydrography of the vicinity of Monomoy, coast of Massachusetts; special test of sailing courses in Narragansett Bay, for the Coast Pilot; detailed survey of the shores and soundings in Taunton River, Mass.; shore-line survey and soundings, with observations on tides and currents in Providence Harbor, R. I.; detailed survey and soundings in Thames River, Conn., above the navy station at New London; topography of the shores of New Haven Harbor; positions of light-houses determined at the eastern entrance of Long Island Sound, N. Y.; hydrographic development of the channel westward of Plum Island; special observations on tides and currents in the waters of New York Bay and Harbor; development of a shoal in the Swash channel off Sandy Hook; shore-line survey and soundings at Port Jefferson, Long Island; tidal observations continued at the station on Governor's Island, near New York city; reconnaissance for determining points eastward of Hudson River, and between Albany and Lake Champlain; shore-line survey and hydrography of Lake Champlain from previous limits of work southward to Whitehall; latitude and azimuth determined at Rouse's Point, Crown Point, and Hudson, N. Y.; shore-line survey and soundings continued in Great South Bay, Long Island; magnetic declination, dip, and intensity determined at Ithaca and Oxford, N. Y.; at Bethlehem, Pa., and at Cape May, N. J.; detailed survey of the shores of Barnegat Bay and soundings in its southern branch; hydrography of the bar at Little Egg Harbor, N. J.; latitude and azimuth at Keyport and Barnegat, N. J.; positions of light-houses to be determined at Cape May, and in Delaware Bay at Maurice River, Mispillion Creek, and Hereford Inlet.

Earlier in the year, the same parties made progress by surveys on the southern coast and its waters, and these include examinations of sailing courses in the harbors of Chesapeake Bay, and compilation of notes for the Coast Pilot; the topography of Marbury Point, District of Columbia, including site of the U. S. Naval Magazine; supplementary plane-table work along the east side of the Potomac at Washington and Bladensburg; determination of the magnetic elements at Washington City; local triangulation of the Upper Potomac, connected at Sugar-loaf Mountain, Maryland, with primary triangulation in Virginia; determination of points by triangulation (yet in progress) along the Blue Ridge, in Virginia; reconnaissance (yet in progress) for stations between Staunton, Va., and the Ohio River; detailed survey of the shores and soundings in James River, Virginia, from Warwick River entrance upward to Sandy Point, including the lower part of the Chickahominy; topography of Norfolk, Portsmouth, and Gosport; shore-line survey and hydrography of Nansemond River, Virginia; development of the channel between Craney Island and the main land; inspection of plane-table operations in the field; tidal observations at Fortress Monroe; sailing-courses south of Cape Henry, Virginia, determined for passing the Lookout and Frying-pan Shoals, and additional notes for the Atlantic Coast Pilot; triangulation (yet in progress) in Pamlico Sound; triangulation, plane-table survey, and hydrography of Chowan River, Albemarle Sound, North Carolina; detailed survey of the north shore of Pamlico Sound in the vicinity of Swan Quarter Bay; hydrography of Pamlico Sound westward of Gull Shoal Rock; soundings in Pungo River; inspection of the plane-table operations; hydrography of Beaufort Bar, North Carolina, including the approaches, the harbor, North River, and Newport River; soundings in the western channel of Cape Fear River, and development of changes in that vicinity; detailed survey of the coast of South Carolina near Cape Roman, including Oyster Bay; harbor entrances between Winyah Bay and Savannah River, examined for sailing courses, and notes for the Coast Pilot; shore-line survey, hydrography, and special observations on the currents of Savannah River, Georgia; astronomical observations at Savannah for determinations of longitude by the telegraphic exchange of clock-signals; inspection of plane-table operations in this section, north and south of Charleston, S. C.; hydrography of Fernandina Bar and its approaches, and of the Atlantic coast below St. John's River entrance; detailed survey of Halifax and Hillsboro' Rivers, including Mosquito Inlet and the adjacent coast of Florida; astronomical observations at Key West for determining longitude by clock-signals; determination of longitude at the entrance to Charlotte Harbor, Florida; triangulation and topography advanced on the east side of Tampa Bay, including Manatee River; hydrography of Tampa Bay from the Gulf entrance upward to Mangrove Point; inspection of the plane-table operations in the same quarter; longitude determined at Cedar Keys, Fla.; and at a station near Atlanta, Ga.; azimuth at Cedar Keys, and triangulation from thence to St. Mark's, along the Gulf coast; development by soundings, of a shoal off Point St. George; soundings in the Gulf approach to West Pass, (St. George's Sound, Florida,) and hydrographic survey of St. Vincent's Sound; height of the Atlanta base above sea-level determined, and triangulation (yet in progress) continued northeast and northwest of the base line; reconnaissance for stations in the vicinity of Lookout Mountain, and for triangulation points near the course of the Ohio River; triangulation and hydrography of the Mississippi River between English Turn and Carrollton, La.; triangulation (yet in progress) for determining points in Missouri westward of St. Louis; reconnaissance for points of triangulation in Wisconsin; measurement of base, triangulation, and shore-line survey of Sabine Pass, Texas; hydrography of Pass Cavallo, including the bar, and of San Antonio Bay, Texas; and tidal observations continued at St. Thomas, (West Indies.) On the Pacific coast of the United States the operations of the present year include the development of a sunken rock off Point Loma, near San Diego, Cal.; plane-table survey of the coast of Santa Barbara Channel from Newport Slough northward and westward to Bolsas River, including part of the course of Santa Ana River; the topography of Santa Cruz Island; soundings between that island and Santa Rosa; survey of the coast of California between Point Conception and Point Arguello—also in the vicinity of Point Sal, and northward of Piedras Blancas, and near San Simeon; off-shore soundings between the Santa Barbara Islands and Monterey Bay; the addition of topographical details on the shores of Monterey Bay and Half-Moon Bay; determination of the positions of light-houses between Santa Cruz and Point Reyes; hydrography and current observations on the bar and inside of San Francisco Bay; discovery and development of a rock near the Middle Farallon; tidal observations at Fort Point, near San Francisco; latitude, azimuth, and triangulation (yet in progress) to pass northward of San Francisco to Helena; and, as yet in progress, hydrography between Point Reyes and Cape Mendocino; coast topography near Noyo River entrance; soundings south of Mendocino Bay and south of Trinidad; coast topography between Rocky Point and Klamath River entrance; reconnaissance south of Point St. George; in-shore and off-shore hydrography near Port Orford, coast of Oregon; survey of the shores

and soundings in Umpqua River, and selection of site for a base line near that entrance; topography of the coast south of Columbia River towards Tillamook; tidal observations in the vicinity; hydrography of the principal channels and survey of the banks of Columbia River above previous limits; tidal observations continued at the permanent station at Astoria, and at Port Townshend, W. T.; hydrography of Budd's Inlet from Tumwater northward to Dana's Passage; survey of the shores and soundings in Duwamish Bay southward of West Point; hydrography of Puget Sound, W. T.; and development of facilities for navigation on the coast of Alaska Territory.

The office work has been kept fully up to the field-work of the preceding season. The computations of the current geodetic, trigonometrical, and tidal observations have made due progress, including the preparation of records and results for publication; tide tables for all seaports of the United States, for the year 1875, have been published; the drawing of thirty-five charts has been in progress, and that of seventeen has been completed. Ten new copperplate charts have been commenced, forty-six have received additions, and eleven have been completed. Three new charts have been engraved on stone, and ten have been published by photo-lithography. An aggregate of 20,500 copies of charts has been issued in the course of the year. The first volume of the Coast Pilot, or Sailing Directions for the Atlantic Coast from Eastport to Boston, is now passing through the press.

Within the present year ninety-two manuscript charts have been traced on special call, either for the use of the Government or for applicants who refunded the cost of copying.

The estimate for the survey of the Atlantic and Gulf Coasts of the United States is intended to provide for the following:

Field Work.—To continue the topography of the western shores and islands of Passamaquoddy Bay and its estuaries, and the coast and islands between Castine and Mount Desert, and the shores of the Penobscot River between Castine and Bangor; to continue the determination of the heights of some of the principal trigonometrical points between Boston and the St. Croix, with the co-efficients of refraction; to complete the hydrography of Penobscot Bay and River, and continue the soundings to the eastward of Mount Desert; to make a hydrographic and topographical survey of Portsmouth Harbor; to make such additional triangulation as may be required for the topographical and hydrographic surveys, and the determination of the positions of new light-houses from Cape Cod to the eastward; to continue the resurvey of Monomoy and Nantucket Shoals, and the off-shore hydrography; to continue the off-shore hydrography between Cape Cod and Grand Manan, and special examination for the sailing lines for charts; to continue the tidal observations, and to make such astronomical and magnetic observations as may be required; to continue such topographical and hydrographic surveys of the coast between Cape Cod and New York as may be found necessary; to make a survey of the Connecticut River from its mouth to Hartford; to make such examinations as may be required in New York Harbor, with such other surveys in its vicinity as may be required; to continue the observations on tides and currents; to extend, if practicable, the plane-table survey of the Hudson River above Haverstraw; to make the requisite astronomical observations; to continue the triangulation between the Hudson River and Lake Champlain; to complete the survey of Lake Champlain; to continue the topographical and hydrographic surveys of the coast of New Jersey; to continue the resurvey of the hydrography of the Delaware Bay and River; to connect the Atlantic triangulation with that of the Chesapeake Bay, near the boundary line between Maryland and Virginia; to continue the detailed survey of the James River, Virginia, including the hydrography, and continue the plane-table survey of the Potomac River; to continue the supplementary hydrography between Delaware Bay, from Cape Henlopen to Cape Henry, and in the Chesapeake Bay, and to continue tidal observations; to continue the triangulation of Pamlico Sound and the topography of its western shores between the Roanoke Marshes and Swan Quarter; to measure a base of verification and determine azimuth for the coast triangulation south of Cape Lookout; to make the astronomical and magnetic observations requisite; to continue the off-shore hydrography between Cape Henry and Cape Fear, that of Pamlico Sound and its rivers, and that of Core and Bogue Sounds, and of the entrance to Cape Fear River; to extend northward the primary triangulation along the Blue Ridge; to continue the topographical survey southward of Cape Roman; to determine azimuth for the triangulation of the coast of South Carolina and Georgia; to complete the detailed survey of the sea islands and water passages between Charleston and Savannah, and to make tidal observations; to make a hydrographic resurvey of Georgetown (S. C.) Harbor and approaches, and to continue the off-shore hydrography between Cape Fear (N. C.) and the St. John's River, Florida; to continue southward, from Mosquito Inlet, the triangulation, topography, and hydrography of the sea-water channels adjacent to the eastern coast of the Florida peninsula; to make the requisite astronomical observations; to continue the off-shore hydrography of the Florida peninsula, and to complete soundings in the vicinity of the reefs and keys; to continue the soundings, observations for sea temperatures, and dredgings in such portions of the Gulf Stream as may be deemed advisable between the west end of Cuba and Nova Scotia; to continue dredging along the coast within the same limits, in conjunction with the United States Commissioner of Fisheries; to continue the astronomical and magnetic observations requisite between Cape Florida and Pensacola, and the triangulation, topography, and hydrography of the western coast of Florida, south of Tampa Bay, and in Charlotte Harbor, and of the coast of the peninsula between Cedar Keys and Appalachee Bay, and between Appalachee Bay and St. Andrew's Bay; to run lines of soundings and make observations of sea temperature in the Gulf of Mexico, and develop the hydrography of the Gulf coast included in the field operations; to connect the trigonometrical survey of Mississippi River at New Orleans with that of Lakes Borgne and Pontchartrain; to determine geographical positions and make astronomical and magnetic observations required; to extend the triangulation, topography, and hydrography westward of the Mississippi delta, and continue the hydrography of the Gulf of Mexico between the mouth of the Mississippi and Galveston, Texas; to extend the triangulation, topography, and hydrography of the coast of Texas westward from Sabine Pass and south of Corpus Christi; to measure a base of verification and make the astronomical and magnetic observations requisite between Sabine Pass and the Rio Grande; to continue the hydrography of the approaches to the coast and of the bays and passes.

Office Work.—To compute results from the field observations made along the Atlantic and Gulf Coasts, including astronomical, geodetic, geographical, magnetic, and tidal work; to continue the reproduction of the original topographical charts and to plot the hydrographic charts; to continue the drawing of the general chart of the coast from Quoddy Head to Cape Cod, and of charts No. 1 and No. 2, showing the coast of Maine, between St. Croix River and Petit Manan Light-house; to continue drawing and engraving of charts No. 3 and No. 4, which include Frenchman's Bay, Blue Hill Bay, Isle au Haut Bay, Penobscot Bay, and their approaches, also of local charts of Moose-a-bec Reach, Mount Desert Island, Egge-moggin Reach, Penobscot Bay East, Penobscot River, the vicinity of Monomoy Shoals, and to begin the drawing and engraving of a chart of Portsmouth Harbor, N. H.; to begin the drawing and engraving of charts of the Thames River, of Connecticut River to the head of navigation, and of Port Jefferson, and complete the drawing and engraving of a chart

of New Haven Harbor, and to commence a new chart of Long Island Sound; to continue the engraving of chart No. 21, showing the coast between Sandy Hook and Barnegat Inlet; the drawing and engraving of No. 22 and No. 23, between Barnegat and Cape May, to make additions to the charts and sketches between New York and Cape Henry; to begin the drawing and engraving of a new chart of Delaware Bay and River, and to complete that of James River, below City Point; to continue the drawing and engraving of the general chart of the coast between Cape Henry and Cape Lookout, and of charts No. 37, No. 39, No. 42, No. 43, No. 44, No. 45, No. 46, and No. 47, showing parts of the Atlantic coast between Cape Henry and Cape Lookout, including Pamlico Sound; to commence engraving the general chart of the coast between Cape Hatteras and Cape Roman, and to continue the drawing and engraving of that of the coast between Cape Roman and the St. Mary's River, and of charts No. 51 and No. 52, between Cape Fear and Winyah Bay; to begin the drawing and engraving of a new chart of Georgetown Harbor, S. C., and to make additions to the charts and sketches between Cape Henry and the St. Mary's River; to continue the drawing and engraving of the general chart of the coast from St. Mary's River to Cape Canaveral, and of charts No. 58, No. 59, and No. 60, from Cumberland Sound to Cape Canaveral, and to make additions to the charts of the coast between St. Mary's River and Cape Florida; to continue the drawing and engraving of charts No. 79, No. 82, No. 83, No. 86, and No. 87, showing parts of the Gulf coast between Chassahowitska River and Pensacola entrance, and of the chart of Tampa Bay; to begin the drawing and engraving of the chart of St. Joseph's Bay, and continue the chart of St. Andrew's Bay; to continue the drawing and engraving of charts No. 91, No. 92, No. 93, No. 94, and No. 95, showing Lake Borgne, Lake Pontchartrain, Isle au Breton Sound, and the Mississippi River between New Orleans and the Gulf of Mexico, and of the general chart showing the sea approaches to the Mississippi River; to begin the drawing and engraving of the chart of Barataria Bay, and of the general chart of the coast of Louisiana and Texas from Atchafalaya Bay to Galveston; to continue the drawing and engraving of that between Galveston and the Rio Grande, and of charts No. 109 and No. 110, showing Aransas Bay, Copano Bay, and Corpus Christi Bay; for materials for drawing, engraving, map printing, for electrotyping, photographing, for instruments and apparatus. Total for the Atlantic and Gulf coasts, involving work on the coasts of the following States, viz: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, and Texas, will require \$415,000.

The estimate for the survey of the Pacific Coast of the United States is intended to provide for the following progress:

Field Work.—To make the requisite observations for latitude, longitude, azimuth, and the magnetic elements at stations along the Pacific Coast of the United States; to continue off-shore soundings on the coast of California, Oregon, and Washington Territory, and tidal observations at San Diego, San Francisco, Astoria, and such other localities as may be necessary; to continue the primary triangulations from Monterey Bay to the southward; from Point Conception to the northward, or to the Santa Barbara Islands; and from San Pablo Bay to the northward; to continue the reconnaissance for primary triangulation from San Buenaventura to San Diego, from Russian River to the northward, and from Columbia River north to Puget Sound, and south up the Willamette Valley; to continue the coast triangulation and topography from Point Lasuen toward San Luis Rey and that of Santa Barbara Islands; to continue the detailed survey of the coast north and south of Point Conception; to continue the secondary triangulation and topography between Point Buchon and San Simeon; to continue hydrography between San Diego and Point Conception, between Point Conception and Monterey Bay, the hydrographic changes in San Francisco Bay and its approaches, the hydrography between Cape Mendocino and the Klamath River, between Cape Sebastian and Port Orford, north and south of and in the approaches to the Columbia River, and the hydrography of Puget Sound, Washington Sound, and adjacent waters; to observe currents along the coast and take soundings and temperature observations in the California branch of the Kuro Siwo current, and to execute such other hydrography as local demands may require; to continue the tidal observations at the Golden Gate, and observations on the ocean currents along the coast of California; to continue hydrographic work within the limits of field operations; to continue triangulations and topography between Bodega Bay and Point Arena; between Cape Sebastian and Orford, southward from Tillamook Head, and from Shoalwater Bay northward; to complete the detailed survey between Cape Sebastian and Crescent City, and off-shore hydrography at Crescent City Reef; to measure a base line and continue the triangulation, topography, and hydrography of the Strait of Fuca, Puget Sound, and Washington Sound; to continue the reconnaissance of the coasts and islands of Alaska, with observations for tides and currents; to make the requisite astronomical and magnetic observations, and to continue hydrographic explorations in the vicinity of the Aleutian Islands, the Shumagin Islands, and the Kadiak group, with observations on tides and currents.

Office Work.—To make the computation from the observations made in the field, including astronomical, geodetic, geographical, magnetic, and tidal observations; to continue the reproduction of the original topographical sheets, and to plot the hydrographic charts; to draw and engrave the additions on the general chart of the Pacific Coast of the United States; to continue the drawing and engraving of the charts of the coast from San Diego to Point Conception, No. 1, No. 2, and No. 3; to engrave local charts of Catalina Harbor and Isthmus Cove, of San Pedro Harbor, of Araheim and Hueneme Landings, and of San Luis Obispo; to complete the engraving of a new chart of San Francisco entrance and Harbor, from resurveys; to continue the drawing and commence the engraving of charts of the coast from Point Arena to Cape Mendocino, No. 8, of that from Cape Mendocino to St. George's Reef, No. 9, and of that from St. George's Reef to the Umpquah River, No. 10; to complete the engraving of a chart of Humboldt Bay; and to make additions to the charts of Columbia River, Shoalwater Bay, Puget and Washington Sounds, and to the Charts of the northwestern coast. Total Western Coast, will require \$290,000.

For extending the triangulation of the Coast Survey to form a connection between the Atlantic and Pacific Coasts of the United States, and assisting in the State surveys, involving work in ten States, will require \$85,000.

For repairs and maintenance of the complement of vessels used in the Coast Survey, will require \$55,000.

For continuing the publication of the observations made in the progress of the Coast Survey, will require \$10,000.

For general expenses of all the work, viz: Rent, fuel, for transportation of instruments, maps and charts, for miscellaneous office expenses, and for the purchase of new instruments, books, maps, and charts, will require \$38,100.

The annexed table shows, in parallel columns, the appropriation for the fiscal year 1874-'75, the amount estimated for that year, and the estimate herein submitted for the fiscal year 1875-'76.

Objects.	Appropriated for fiscal year 1874-'75.	Estimated for fiscal year 1874-'75.	Estimated for fiscal year 1875-'76.	Amended estimates for 1875-'76.
For continuing the survey of the Atlantic and Gulf coasts of the United States, including compensation of civilians engaged in the work, and pay and rations of engineers for steamers used in the coast survey, per acts of March 3, 1843, and June 12, 1858	\$375,000 00	\$425,000 00	\$415,000 00	\$400,000 00
For continuing the survey of the western coast of the United States, including compensation of civilians, and pay and rations of engineers for the steamers used in the work, per act of September 30, 1850	231,000 00	275,000 00	290,000 00	260,000 00
For extending the triangulation to join the survey of the Atlantic and Pacific coasts of the United States, and assisting in the State survey, including compensation of civilians engaged in the work, per act of March 3, 1871	50,000 00	65,000 00	85,000 00	70,000 00
For repairs and maintenance of the complement of vessels used in the coast survey, per act of August 18, 1856	41,000 00	50,000 00	55,000 00	50,000 00
For continuing the publication of observations made in the progress of the coast survey, including compensation of civilians engaged in the work, the publication to be made at the Government Printing Office, per act of March 3, 1869	9,000 00	10,000 00	10,000 00	8,000 00
For general expenses of all the work, viz: Rent, fuel, transportation of instruments, maps, and charts, for miscellaneous office expenses, and for the purchase of new instruments, books, maps, and charts			38,100 00	37,000 00
Total	706,000 00	825,000 00	893,100 00	825,000 00

In explanation of the estimates submitted for the Coast Survey, both in relation to the annual expenditures and the vessels required, I have the honor to state that when placed in charge of the Coast Survey, in February last, I found my predecessor had submitted estimates for the present fiscal year based upon the strictest principles of the relations between economy of expenditures and largeness of results, and predicated upon a policy endorsed by Congress through a series of years.

These estimates, in the aggregate \$825,000, were reduced by Congress, in the general policy, (at that time so needful,) in its appropriations, to but \$706,000 for the regular work of the Coast Survey, a decrease of \$119,000, or 14½ per cent. below the amount of the estimates.

This reduction has necessarily restrained me from the execution of much work greatly wanted, but now postponed to the next fiscal year. All the omitted work of this year, as well as the work due to the next, must be executed in the coming year to place the Coast Survey in the position it would have occupied had the appropriations of this year equalled the estimates submitted, and so carefully prepared by my predecessor.

One of my first duties after being appointed was to make a careful investigation and estimate of the amount of work yet to be done to complete the survey of our now actual coasts; to compare this amount with that already executed, as well as the time consumed in the latter and that estimated to be necessary in the former.

A comparison of the actual spaces covered by the various classes of work now finished and those to be done, would not yield a true ratio of their respective times. For at first the Coast Survey had, from the necessity of the case, to be commenced on a very limited scale, and many years had to elapse before a full organization could obtain and the work be carried forward, from many centres, in the several sections of both coasts, by trained officers. In fact, the organization, the methods, and the officers, had to be created by the eminent men who have preceded me. The splendid results justify their works.

In 1832, when the Coast Survey really made a beginning, Texas and California, with 1,500 miles of sea-coast, and more than four times that number in harbor lines and island shores, as also Alaska, with its enormous length of ocean shores, were foreign territories. For ten years the work necessarily advanced tentatively and slowly, and subsequently, having received the endorsement of the highest scientific and practical authorities in both this country and Europe, was fully approved by Congress, which, during the years 1856, 1857, 1858, 1859, and 1860, made such increased appropriations as utility and economy demanded.

In 1842 the work of the Coast Survey was being executed in four States. In 1874 the Coast Survey, thoroughly organized, is working in twenty-six States and two Territories, and capable of producing, with its present constants of expense, the largest amount of and most economical results. In face of the difference in the value of money, the average salaries of assistants and sub-assistants in 1874 is no greater than in 1842.

The experience of the Coast Survey enables a very close estimate to be made of the time and cost required to complete the survey of our now actual coast. I have carefully gone over the finished and unfinished work of the Coast Survey, compared cost and time, and find the Coast Survey has been at work for forty-two years, and that two-thirds of the coast has been surveyed, exclusive of Alaska. I conclude, after making due allowance for unforeseen delays, that the survey of the now actual sea-coast of the United States remaining unsurveyed, can be completed in twelve years, if the moderate means asked for are supplied. These means are but the restoration of the *value* of the annual appropriation to that of the average of the years 1856-'57, 1857-'58, 1858-'59, and 1859-'60, with two more vessels than were at that time in the Coast Survey. A comparison of the actual cost, in number of dollars, of any class of works in 1858 and 1874, is no measure of relative economy.

The following statistics give the cost of articles and rates of wages and compensation between the periods 1854-'58 and 1869-'74, as taken from official printed documents:

ESTIMATES—APPENDIX.

PRICES OF SEVERAL ARTICLES IN NEW YORK.

	In the year 1858.	In the year 1873.	Increase.
Wheat flour, per bbl	\$3 80	\$4 95	30 per cent.
Coffee, Rio, per lb	10	19	80 per cent.
Cotton, middling, per lb	12	21	75 per cent.
Copper bolts, per lb	22	40	80 per cent.
Codfish, dry, per cwt	2 93	6 25	113 per cent.
Iron, common English, per ton	45 75	97 50	113 per cent.
Iron, Scotch pig, per ton	23 00	47 48	108 per cent.
Molasses, New Orleans, per gallon	39	68	74 per cent.
Tea, Young Hyson, per lb	36	57	58 per cent.
Rice, per cwt	3 30	8 12	146 per cent.
Salt, per sack	74	2 40	210 per cent.

Average increase of these articles, including beef and pork as the same, 83 per cent.

Beef and pork fluctuates greatly in price, from month to month, but averages about the same. The average increase of cost of material and labor for dwelling-houses suitable for workmen, 80 per cent.

WEEKLY WAGES IN NEW YORK.

	In the year 1860.	In the year 1869.	Increase.
Blacksmith	\$12 00	\$20 00	66 per cent.
Boiler makers	10 00	18 00	80 per cent.
Brass founders	14 00	21 00	50 per cent.
Carpenters	13 50	24 00	78 per cent.
Cartmen	9 50	16 50	52 per cent.
Coopers	10 50	22 00	109 per cent.
Engineers	12 00	24 00	100 per cent.
Laborers	6 50	12 50	92 per cent.
Iron moulders	10 00	18 00	80 per cent.
Machinists	12 00	16 50	37 per cent.
Painters	12 00	22 50	87 per cent.
Plumbers	13 50	21 00	55 per cent.

Seamen.—Navy wages of seamen have been increased from time to time from \$12 per month in 1854, to \$21 50 per month in 1874, 79 per cent. Average increase of seven other classes of wages in five States, 71 per cent. Average cost, per ton, in Baltimore, of merchant vessels, hull and spars, in 1858, \$24 50; in 1874, \$53; an increase of 116 per cent.

From these data it is quite evident that money (gold as well as notes) has depreciated greatly in value, and that the present currency has not more than three-fifths the power of getting work accomplished, or the purchasing value of the currency of 1858. The average appropriation for the Coast Survey for the years 1856-'57, 1857-'58, 1858-'59, and 1859-'60 was \$537,000, equal in value to \$895,000 in 1874. The appropriation for 1874-'75 is, for the regular work, but \$706,000; equal in value to about \$423,600 in 1858, or about 27 per cent. less in value than the average appropriations for the years above named.

To the work of the Coast Survey in its earlier years, others, its natural outgrowth, have been added, for which appropriations have been made, and are now estimated for, in addition to the classes of work for which appropriations were made in 1858. Deducting those portions of the appropriation from the total, the aggregate amount estimated for the years 1875-'76 would be less in value than the average appropriations for the years 1856-'57, 1858-'59, 1859-'60, by \$140,000, or more than 16 per cent. less than the estimates submitted. With an increase of 25 per cent. the results can be increased 65 per cent., for, as the constants of expense for the work remain nearly the same, almost the entire additional amount can be applied directly to field work and to the production of charts and maps.

VESSELS.

In the years 1856-'57, 1857-'58, 1858-'59, and 1859-'60, the Coast Survey, by the genius of Hassler and Bache, had become developed into a fixed organization, for the support of which Congress made almost constant equal appropriations, averaging for these former years \$537,000 per annum. The war, by withdrawing the naval officers who had by law, when they could be supplied by the Navy Department, the execution of the hydrography, added to which, many of the civil assistants of the work were employed as topographical officers to several corps of the Army operating in different parts of the country, disarranged this organization. Although the system of the organization was thus materially interfered with, the work continued upon its old basis, in spite of the various efforts made by my predecessor since the close of the war to restore the conditions of the organization as it existed in the years referred to before the war; but from the want of sufficient appropriations to supply the deficiencies in the number of vessels, the inability of the Navy Department to furnish the required number of officers, and other causes, the restoration of the conditions referred to has not been possible. The law requires that the hydrography of the Coast Survey shall be executed by the officers and men of the Navy when they can be furnished. It is my duty, and I am most anxious to carry this law fully into effect, and the Navy Department now stands ready to supply the required complements, but there is a great deficiency of vessels for the purpose, and estimates are submitted for but two more than Congress deemed necessary in 1858. From the accompanying copies of letters from the Secretaries of the Navy and the Treasury, it will be seen that no vessels of the classes required for Coast Survey work can be supplied from the Navy or the revenue marine.

The absolute necessity for more vessels for the rapid execution of the work is evident from the following comparison, but two more than obtained in 1858 being estimated for: In 1858 the Coast Survey had five sea-going steamers on the

Atlantic and Gulf Coasts; in 1874 there are but two, with one building. Estimates for two more are submitted, to raise the number to that of 1858. In 1858 the Coast Survey had twenty-five schooners and small steamers on the Atlantic and Gulf Coasts; in 1874 there are twenty-four. In 1858, before the work was fully organized there, the Coast Survey had on the Pacific Coast one sea-going steamer and three schooners, quite sufficient for the then scale of work upon that coast; in 1874 there are one sea-going steamer and three schooners, two of them too old and decayed to be trusted at sea. In the last few years, under the direction of my immediate predecessor, the land portion of this coast has rapidly progressed, but from want of vessels the shore work has advanced greatly beyond the hydrography, and now over three hundred miles of the land work of the coast is finished, awaiting the completion of the hydrography to enable maps and charts to be issued. This hydrography can, of course, only be accomplished by vessels, which the Coast Survey has not, nor the means to obtain them.

In 1858, all the vessels were comparatively new, none being over eight or nine years old. In 1874, there are twelve from eighteen to twenty-five years old, rotten, worn out, and worthless, utterly valueless for any use, reducing the available number to nineteen, compared to thirty-four in 1858. With the number of vessels estimated for and the sale of the twelve useless ones, the total number of vessels in the Coast Survey would be thirty-six, the total in 1858 having been thirty-four. The number of vessels on the Atlantic and Gulf Coasts will be decreased, the number on the Pacific Coast will be increased, but the total number for all coasts will be but two more than in 1858. Without some unexpected casualties, no more special appropriations for the construction of vessels will be required to complete the survey of the present limits of the coasts of the United States, and appropriations for those for which estimates are submitted are urged from the positive necessities of the work, and besides, it must be considered that a full year must elapse after the appropriation becomes available before the vessels can be ready for use.

The average receipts from the customs for the years 1857, 1858, 1859, and 1860, were \$52,106,740 56. In 1873, these receipts were \$188,089,522 70, or 261 per cent. increase, gold. The increase of Coast Survey appropriations reduced to gold is but 11 per cent. Although these relative amounts are not entirely logical as bearing on the appropriation for the Coast Survey, yet they tend to show with what rapidity our external commerce has increased and is increasing, amassing, with the coastwise trade, figures which but a few years ago would have been deemed incredible; and they also tend to show the imperative necessity of completing the survey of our coast in the shortest possible time, consistent with proper economy and due accuracy of work. The same ratio of appropriation for the Coast Survey to the customs receipts in 1874 and 1875, as obtained in 1858, would give \$1,938,570, or more than 100 per cent. over the amount for which estimates are submitted. The enormous extent of the coasting trade along the coasts of the United States, now estimated to exceed 40,000,000 tons transported per annum, demands for its greater security the speediest completion of the work, as is evident from the constant calls upon the office for detailed charts and sailing directions of those parts of the coasts not yet surveyed.

The estimates submitted are based upon the actual necessities of the work, the constantly increasing demands for charts of the unfinished parts of the coast, and the value of the average appropriations made by Congress in the years 1856-'57, 1857-'58, 1858-'59, and 1859-'60, after years of trial, deliberate investigation, full discussion, and mature judgment. The work is essentially temporary in character—the number of miles of coast known, the cost and time for completion a mere question of arithmetic.

The present purchasing value of currency is not more than three-fifths that in the years above named. The average of appropriations for these years was \$537,000, an amount equal to three-fifths of \$895,000, for work of the classes executed in 1858. To this add \$140,000 for work since added and required, and we have a total of \$1,035,000. The total amount estimated for, is \$893,000—less by \$142,000, or 14 per cent.

The work cannot proceed with just economy and speed without a proper supply of vessels, and estimates for but two more are submitted than are required to restore the efficient number actually in the Coast Survey in 1858. With all the vessels completed for which estimates are submitted there will be required in addition to the regular estimates submitted for the years 1875 and 1876, about \$75,000, or a total of \$968,000, with which annual appropriation the whole survey of the coast can be completed in twelve years, leaving no further work to be executed except the publishing of charts, results of the work, and the resurveying of the changeable harbors and portions of the coast, which would involve no great expense.

Good charts, light-houses, and buoys, by rendering navigation safe, reduce expenses of insurance, detention, pilotage, &c., and thus cheapen transportation. In the coasting trade alone of 40,000,000 tons, valued at only \$20 per ton, equal to \$800,000,000, if the expenses of transportation are reduced by one per cent. upon its value, we have a sum of \$8,000,000 per annum saved, or double the annual cost of the Coast Survey and Light-house system combined, or over eight times the cost of the Coast Survey, if its annual cost was to be ceaseless, instead of ending in twelve years.

Feeling confident that Congress wishes the speedy termination of this work, as a measure of necessity to our enormous and constantly increasing commerce, as well as a matter of general utility and economy, and trusting they may receive its approval, I have deemed it my duty to submit these estimates for the most rapid and economical completion of the survey of the coasts of the United States.

Respectfully submitted:

C. P. PATTERSON,
Superintendent U. S. Coast Survey.

Hon. B. H. BRISTOW,
Secretary of the Treasury.

TREASURY DEPARTMENT,
Washington, D. C., August 20, 1874.

SIR: I acknowledge the receipt of your letter of the 17th instant, stating that the Coast Survey is in great want of additional vessels, and asking that inquiry be made of the honorable the Secretary of the Navy as to whether suitable vessels could be transferred by the Navy Department for your service; also, asking whether vessels could be afforded from the revenue marine for service in the Coast Survey.

In reply, you are informed that inquiry has been made, by letter of this date, of the honorable the Secretary of the Navy upon the matter referred to in your letter above mentioned, and when a reply shall have been received you will be duly informed in the premises.

I have also to state that there is no vessel belonging to the revenue marine, of the description referred to in your letter, that can be spared from her regular duties without detriment to the service.

I am, very respectfully,

CHAS. F. CONANT,
Assistant Secretary.

C. P. PATTERSON, Esq.,
Superintendent of the U. S. Coast Survey, Washington, D. C.

NAVY DEPARTMENT,
Washington, August 24, 1874.

SIR: The Department has received your communication of the 20th instant, enclosing extracts from a letter of the Superintendent of the Coast Survey in relation to the desired transfer of certain naval vessels to that service, and, in reply, regrets to state that it has no vessels to spare, or which would be suitable for the purpose.

Very respectfully,

WM. C. REYNOLDS,
Acting Secretary of the Navy.

Hon. B. H. BRISTOW,
Secretary of the Treasury, Washington, D. C.

APPENDIX J.

Explanation of estimates for Fisheries. (See page 137.)

SIR: I beg leave to enclose the estimates for the continuance of the United States Fish Commission for the next year.

For some years past the special appropriation for the propagation of shad has been made as a deficiency item, in view of the fact that the service was generally performed at the end of the fiscal year, and the amount left from the regular appropriation in the "Sundry civil expenses" bill was found insufficient to permit the work to be done on the desired scale.

As there are many objections to the continuance of this procedure, I have combined both in the regular estimates for the coming year; and I have ventured to ask for an increase in the amount for shad-hatching over that of last year, as, if the item be sanctioned and the appropriation made available on the passage of the act, I shall be able to do twice as much as during any previous season, especially in the Southern and Southwestern States, which have hitherto been excluded from the benefit of the appropriations, in consequence of the lateness of the date at which they have become available.

I have also included an estimate for the preparation of a series of illustrations of the American fisheries and their products for exhibition at the Centennial Exposition at Philadelphia in 1876. The object is one of great interest and practical importance, and a proper presentation can only be made by Government aid.

It is proposed to furnish a complete series of illustrations or models of all the different kinds of vessels and boats of every grade used in the various fisheries on the coast and in the interior, together with the apparatus employed, of whatever kind, including not only what relates to the fishes properly so-called, but also to the whales, seals, oysters, lobsters, sponges, etc.

Such an exhibition has always constituted an important feature in the national displays at foreign exhibitions; and unless steps are taken immediately by the Government towards that object, there is no probability that anything of the kind will be prepared for the particular occasion in question.

The collection will also embrace specimens of the various products of the fisheries, both in their crude and manufactured condition, with illustrations of the objects themselves, including plaster casts, carefully colored, of life-size of such fishes as cannot be otherwise properly exhibited. This collection will finally form, appropriately, a portion of the National Museum at Washington.

Very respectfully,

SPENCER F. BAIRD, *Commissioner.*

To the Honorable the SECRETARY OF THE TREASURY.

APPENDIX K.

Explanation of the estimate for Construction of Military Telegraph Lines. (See page 138.)

SIR: I have the honor to submit herewith estimates for the construction, and continuing the construction, maintenance, and use of military telegraph lines for the connection of military posts and stations, for the better protection of immigration, the frontiers and settlements from depredation. These lines are intended to be constructed and worked by enlisted men. I cannot too highly recommend their use as a measure of economy for the Army, while greatly increasing its powers, and as one of the most efficient means for developing the country, now dangerous, by rendering it safe. Aside from these benefits, it seems probable, from experience already had, that they will become in some sections, at least in part, self-supporting.

I am, very respectfully, your obedient servant,

ALBERT J. MEYER,
Chief Signal Officer of the Army.

To the Honorable the SECRETARY OF WAR.

APPENDIX L.

Explanation of the estimates for "Refunding to States expenses incurred in raising Volunteers," and "Horses and other property lost in the military service." (See pages 138 and 139.)

SIR: I have the honor to acknowledge the receipt of your letter of the 20th instant asking what amounts will probably be required to meet claims settled in this office during the fiscal year ending June 30, 1876, payable from the appropriations "Refunding to States expenses incurred in raising volunteers," and "Payment for horses and other property lost in the military service." In reply, I have to state that the probable amounts required will be as follows, viz: For payment of claims refunding to States expenses incurred in raising volunteers, five hundred thousand dollars, (\$500,000,) and for payment for horses and other property lost in the military service, three hundred thousand dollars, (\$300,000)—*i. e.*, the amount required for claims for lost horses will be one hundred thousand dollars, (\$100,000,) and for steamboats and other vessels, railroad engines and cars destroyed, two hundred thousand dollars, (\$200,000,) making a total of three hundred thousand dollars, (\$300,000,) as above stated.

Very respectfully,

A. M. GANGEWER,
Acting Auditor.

To the Honorable the SECRETARY OF WAR.

APPENDIX M.

Pay Table of the United States Navy, under act of July 15, 1870. (See page 69.)

STATEMENT OF THE PROCEEDS OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE FOLLOWING PROVISIONS OF LAW:

SEC. 5. That all proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, shall hereafter be deposited and covered into the Treasury as miscellaneous receipts, on account of "proceeds of Government property," and shall not be withdrawn or applied except in consequence of a subsequent appropriation made by law; and a detailed statement of all such proceeds of sales shall be included in the Appendix to the Book of Estimates. But this section shall not be held to repeal the existing authority of law in relation to marine hospitals, revenue-cutters, the clothing fund of the Navy, or the sale of commissary stores to the officers of the Army. And it shall be the duty of the Register of the Treasury to furnish to the proper accounting officers copies of all warrants covering such proceeds, where the same may be necessary in the settlement of accounts in their respective offices. (Act of May 8, 1872, 17 Statutes, 83.)

SEC. 1. That the fifth section of the act approved May eighth, eighteen hundred and seventy-two, making appropriations for the legislative, executive, and judicial expenses of the Government for the year ending June thirtieth, eighteen hundred and seventy-three, shall not be held to apply to materials, stores, or supplies sold to officers and soldiers of the Army, or to exploring or surveying expeditions authorized by law; and that said section shall not be held to repeal such part of paragraph 1032, Revised Army Regulations of eighteen hundred and sixty-three, as provides that expenses of sales of military stores or supplies regularly condemned will be paid from their proceeds. (Act of June 8, 1872, 17 Statutes, 337.)

When covered into Treasury.	No. of warrant.	By whom sold.	Kind of property sold.	Bureau in charge of property.	Amount of each kind of property.	Total amount.
