Document No. 1564.
Secretary—W., E., and A.

LETTER
FROM
THE SECRETARY OF THE TREASURY,
TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year
ending June 30, 1894.*

TREASURY DEPARTMENT,

December 5, 1892.

SIR: In conformity with the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, and act of July 7, 1884 (23 Stat., page 254), I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1894, as furnished by the several Executive Departments; also, statements of the proceeds of sales of Government property, and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1892.

I have the honor to be,

Very respectfully, your obedient servant,

CHARLES FOSTER,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

ESTIMATES FOR 1894.

<i>Contingent Expenses, Library of Congress—</i>							
Contingent expenses of the Library.....	July 16, 1892	27	189	1	1,000 00		
Expenses of the copyright business.....	do.....				500 00		
						1,500 00	1,500 00
NOTE 1.—One assistant librarian at \$2,500 is estimated for, in lieu of one of the two at \$1,800, because of the greatly increased labor and responsibility thrown upon the office by the international copyright act of 1891.							
NOTE 2.—Two additional assistants at \$1,200 each are indispensably necessary to meet the heavy increase of clerical labor in the business of copyrights, which is more than 25 per cent, while no increase whatever of the library force has been made.							
NOTE 3.—Two laborers of long service, paid only \$600 each, are estimated for at \$720, a very small advance due for experienced service.							
NOTE 4.—An addition of \$2,000 for purchase of books and of \$500 for law books is rendered necessary to enable the library to supply the constantly growing demands of Congress for the widest information.							
BOTANIC GARDEN.

Three clerks of class two.....	do.....				4, 200 00		
Three clerks of class one.....	do.....				3, 600 00		
Three clerks, at \$1,000 each.....	do.....				3, 000 00		
Three clerks, at \$900 each (one additional submitted).....	do.....				2, 700 00		
One messenger.....	do.....				840 00		
One assistant messenger.....	Submitted.....				720 00		
One laborer.....	{ Jan. 16, 1883 July 16, 1892	R. S. 22	27 403, '4	167 1-3	660 00		
Four clerks of class four, as examiners.....	Submitted.....				7, 200 00	\$46, 920 00	\$36, 400 00
Four clerks of class three, as examiners.....	do.....				6, 400 00		
Four clerks of class two, as examiners.....	do.....				5, 600 00		
					19, 200 00		
<p>NOTE.—Heretofore the work of examiners has been performed by clerks selected and detailed from the Executive Departments, under the provision of section 3 of the civil-service act, which requires that boards of examiners shall be constituted of persons in the official service of the United States, no provision having been made by direct appropriation for this class of service. If these twelve additional clerks are appropriated for they will take the place of those now detailed from the Departments, and if the Departmental appropriations are cut down to that extent there will be little or no increased expenditure. The constitution of the board of examiners in this way will, it is believed, be a decided improvement upon the present methods and greatly increase the efficiency of the Commission's force.</p>							
<i>Compensation of Examiners, Civil Service Commission—</i>							
To enable the Commission to pay to secretaries of postal and customs boards of examiners a reasonable compensation for extra services.....	Submitted.....					6, 000 00	
<i>Traveling Expenses, Civil Service Commission—</i>							
Necessary traveling expenses, including those of examiners acting under the direction of the Commission, and for expenses of examinations and investigations held elsewhere than at Washington.....	Appropriated..	27	190	1		7, 000 00	5, 250 00
<p>NOTE.—An increase of \$1,750 is asked for in this appropriation to meet the increased expenses of examinations held elsewhere than in Washington, arising from the necessity of renting rooms and furniture and paying for janitor service at points where there are no public buildings, and where those buildings are not adequate for the steadily increasing number of applicants since the classification of the Railway Mail Service, the Indian Service, and the Fish Commission, and the increased travel required by the growth and extension of the service, and the proper supervision of the work at classified post-offices and custom-houses.</p>

						591,340 00	558,590 00

NOTE.—The Auditor of the Treasury for the Post-Office Department performs the duties of comptroller as well as auditor, and should, in my judgment, be given the same compensation as is now paid to the comptrollers of the Treasury. The other officers of his Bureau should also be placed on an equal footing with similar positions in the Comptrollers' offices.—Charles Foster, Secretary.
See letter of the Auditor, in Appendix C.

One assistant messenger.....	do.....							720 00
One laborer.....	do.....				660 00	\$39,580 00	\$37,780 00	
<p>NOTE.—The duties of the civil engineer are of the most important character, covering a wide range of professional skill. He must possess superior professional ability to successfully deal with the difficult problems frequently presented in the service. Besides he must be a competent architect, able to prepare plans and specifications for life-saving stations, and have the experimental knowledge of hydrography and topography necessary to enable him to adapt the stations to peculiarly difficult local conditions. He must also have expert knowledge of the use of lifeboats, surfboats, and other life-saving appliances, and of the principles involved in their construction. All these qualifications and the incident branches of knowledge essential to them are among the attainments of the present civil engineer, who is also a man of untiring industry, sound judgment, and large practical experience in the details of the various subjects mentioned above. The fact that his service at sea has been considerable, largely contributes to his usefulness in this Bureau. The salary now allowed is by no means adequate to the service he renders.</p>								
BUREAU OF NAVIGATION.

						\$12,040 00	\$9,320 00
<p>NOTE.—More assistance is really required than is asked herein. The routine work of the office alone comprises nearly 2,000 inspection reports annually, which must be entered, indexed, analyzed, extracted, and otherwise manipulated. This, however, is only a small portion of the work that must be done. The letters, etc., sent and received will aggregate about 14,000 a year, and numerous important memoranda are prepared; as well as voluminous tabulated statements embodying the cream of the reports received, are compiled for the information of the Secretary of War and officers of the Army, which involve a vast amount of clerical skill and patient, intelligent labor. The character of the work requires a more than ordinarily high grade of clerical ability in its proper performance, and men fitted to perform it should, of course, receive correspondingly high grades of pay. All the important work now performed by this office, and much more, can be properly and more successfully performed if a sufficient force be granted so that the work can be classified and the force separated into divisions, as is usual, and indeed necessary, in all the other bureaus of the War Department. The organization of divisions is not possible with the present clerical force. It will be possible, however, if the additional force desired should be granted; and two clerks of class 4 are desired so that they may be placed in charge of the divisions into which it seems necessary to divide the work of the office.</p> <p>The other bureaus of the War Department also all have chief clerks at \$2,000 per annum; and it is but just that the chief clerk of the Inspector-General's Office should have as much, as his duties are as fully arduous and responsible as those of the chief clerk of any other bureau in the Department.</p> <p>The additional messenger asked for is very badly needed. At present there is only one messenger (assistant) allowed this office, where three officers are on duty, and five rooms are to be looked after and cared for. Plainly, this involves more work than can properly be performed by any one messenger. Really, it is more than can be done by two; and not less than three will suffice to do it properly.—H. W. Lawton, Lieutenant-Colonel, Inspector-General U. S. Army, in charge.</p>							
JUDGE-ADVOCATE-GENERAL'S DEPARTMENT.

	Aug. 5, 1882	22	245	1			
	July 16, 1892	27	211	1			
Two charwomen, at \$240 each.....	Submitted.....				480 00		
						41,600 00	36,440 00
<p>NOTE.—Assistant engineers and firemen.—Work at the Naval Observatory is carried on at night in addition to the regular office hours. There are two boilers for heating purposes, and one boiler, two engines, two dynamos, which, together with the extensive system of lighting, heating, and waterworks, require 3 engineers and 3 firemen for the twenty-four hours, 1 engineer and fireman being on duty eight hours.</p> <p>Assistant messengers.—One assistant messenger to superintendent and one for mail-carrier. All mail for the Observatory is delivered at the Navy Department, which is distant from the Observatory about 2½ miles via Tennallytown road.</p> <p>Elevator conductor.—The number of visitors to the Naval Observatory at night is about 2,500 per annum, the majority of whom are women, and an expert elevator conductor is essential to prevent accident.</p>							
<i>Contingent and Miscellaneous Expenses, Naval Observatory—</i>							
Miscellaneous computations.....	{ Aug. 5, 1882	22	245	1	} 1,200 00		
	July 16, 1892	27	211	1			
Professional and scientific books, periodicals, engravings, photographs, fixtures, and supplies for the library, and binding for the same.....	Same acts.....				1,000 00		
<p>NOTE.—An increase of \$2,000 for the library is requested to complete imperfect sets of important scientific transactions and periodicals, and to bring and keep up to date the binding for the library. Besides being the most complete library in the United States in astronomy, the Observatory library is especially rich in the serial publications of the oldest scientific bodies of Europe, and in scientific journals reaching back through the greater part of the century. But in a few of these serious gaps occur, and it is important to fill them before the books become more rare, costly, and hard to find. The binding for the library is two years in arrears. More than 1,000 unbound volumes are on hand, and the annual accessions of unbound books and periodicals amount to 400 or 500 volumes.</p>							
Apparatus and instruments, and repairs of the same.....	do.....				2,500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

<i>Contingent and Miscellaneous Expenses, Naval Observatory.—Con'd.</i>							
Repairs to buildings, fixtures, and fences; furniture, gas, chemicals, and stationery; freight (including transmission of public documents through the Smithsonian exchange), foreign postage, and expressage; plants, fertilizers, and all contingent expenses (increase of \$2,050 submitted, to equal the amount approved March 3, 1891, for 1891-'92).....	Aug. 5, 1882	22	245	1	} \$4,550 00		
	July 16, 1892	27	211	1			
Fuel, oil, grease, tools, pipe, wire, and other materials needed for the maintenance and repair of boilers, engines, heating apparatus, electric lighting and power plant, and water-supply system; purchase and maintenance of teams; material for boxing nautical instruments for transportation; paints, telegraph and telephone service, and incidental labor.....	Same acts.....				7,500 00		
NOTE.—Repairs and all contingent expenses.—The amount asked for (\$4,550) is the same appropriated for the year 1892. The amount granted for 1893 is inadequate to meet all the unforeseen contingencies occurring in connection with the occupation of a new establishment incomplete in minor details.

NOTE.—The Department recommends that the salaries of the chief clerks of the bureaus and office of the Judge-Advocate-General be increased \$200 in each, in order to conform to the scale of salaries of chief clerks of bureaus generally prevailing in the other Executive Departments. In view, however, of the important duties devolving upon the chief clerks of the Bureaus of Construction and Provisions and Clothing, the Department recommends that the salaries in the case of these two offices be increased \$700 each.							
In compliance with the act approved July 11, 1890 (section 2), the Department states that the reports from the various bureaus and offices show that there are no clerks below a fair standard of efficiency.

<i>Scientific Library and Foreign Exchanges, Patent Office—</i>							
Purchase of books and expenses of transporting publications of patents issued by the Patent Office to foreign governments.....	July 16, 1892	R. S. 27	81 215	486 1	2,500 00		2,500 00
NOTE—The act of July 16, 1892, reduced the appropriation for the scientific library \$500. The amount annually appropriated for the library since March 3, 1885 was \$3,000. Prior thereto \$5,000 had been appropriated since the act of June 21, 1879. The necessity of providing this office with scientific publications and books of reference pertaining to all the arts and sciences so rapidly developing was never more apparent than now. The office is compelled to decline valuable foreign exchanges because of insufficient money to pay the expenses incident to the transportation of copies of patents called for by foreign governments in exchange for their publications. It is earnestly recommended that the amount herein submitted may be allowed, in order that the library may complete imperfect sets of technical journals and have the means of obtaining scientific works necessary and important to the examination of applications for patents.							
<i>Official Gazette, Patent Office—</i>

						5,500 00	5,500 00
<p>NOTE.—The estimate of \$3,000 for clerk hire is submitted as necessary for the prompt and proper transaction of official business pertaining to the surveys of public lands and of the work devolving upon the office by reason of the passage of the act (March 3, 1891) providing for the establishment of a court of private land claims.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Offices of Surveyors-General—Continued.</i>							
Office of surveyor-general of California : Surveyor-general.....	July 16, 1892	R. S.	389	2210	\$2,750 00		
		R. S.	391	2226			
Clerks in his office.....	Same acts	27	217	1	14,500 00		
NOTE.—The estimate of \$14,500 for clerk hire is deemed as low as is compatible with the public interest, dependent on a proper and vigorous prosecution of the work required. This estimate includes \$1,800 for a keeper of Spanish archives. It is important and necessary that a competent translator of these archives should be continually in their immediate charge, for the purpose of continuing the compilation and indexing of the valuable papers and documents and for the purpose of attendance upon and explaining the same to parties desiring official knowledge of papers of record in the archive department. The large sums of accumulated special deposits, heretofore found sufficient to tide over any deficiency in the appropriation for clerk hire, are now virtually exhausted; hence the necessity for increased appropriation.							
Office of surveyor-general of Colorado : Surveyor-general.....	July 16, 1892	R. S.	389	2210	2,500 00		
		R. S.	391	2226			
Clerks in his office.....	Same acts	27	217	1	7,500 00		
NOTE.—The estimate of \$7,500 for clerk hire is submitted as necessary for the employment of a force of clerks sufficient for the examination and platting of surveys, copying township plats, and transcribing field notes.							
Office of surveyor-general of Florida : Surveyor-general.....	July 16, 1892	R. S.	388	2208	1,800 00		
		R. S.	391	2226			
Clerks in his office.....	Same acts	27	217	1	1,800 00		
NOTE.—The estimate of \$1,800 for clerk hire is submitted as necessary for the current work of the office and for the reproduction of worn and mutilated plats, a portion of those now in use having become defaced.							
Office of surveyor-general of Idaho : Surveyor-general.....	July 16, 1892	R. S.	389	2210	2,500 00		
		R. S.	391	2226			
Clerks in his office.....	Same acts	27	217	1	5,000 00		
NOTE.—The estimate of \$5,000 for clerk hire is submitted as actually necessary for the service. There are now contracts outstanding and being executed in this district amounting to some \$70,000. All of these contracts will be completed before the commencement of the fiscal year and the returns filed in the surveyor-general's office. A very large portion of the office work on the surveys embraced in the said contracts must of necessity be performed during the year, for which this estimate is submitted, and without the appropriation asked for great injustice will be done the United States deputy surveyors executing said contracts, most of them having to borrow money at a large rate of interest to carry on their work, none of which they can repay until the returns of surveys are worked up in the surveyor-general's office and approved. An inadequate appropriation for clerk hire will likewise result in great delay in filing the plats in the United States local land offices, and consequent inconvenience to settlers, many of whom have been living for years upon unsurveyed lands, and no relief can be given them unless the means are provided for promptly disposing of the returns of the surveys embracing their claims.							
Office of surveyor-general of Louisiana : Surveyor-general.....	July 16, 1892	R. S.	388	2208	1,800 00		
		R. S.	391	2226			
Clerks in his office.....	Same acts	27	217	1	6,000 00		
NOTE.—The estimate of \$6,000 for clerk hire is submitted as necessary for the transaction of current business; continuing and completing the exhibit of private land claims; preparation of patent plats in duplicate for 5,880 private land claims; reproduction of worn and defaced township plats; examinations and researches to prepare confirmed private land claims for survey and location; recording field notes for preservation, and indexing records.							
Office of surveyor-general of Minnesota : Surveyor-general.....	July 16, 1892	R. S.	388	2208	1,800 00		
		R. S.	391	2226			
Clerks in his office.....	Same acts	27	217	1	3,000 00		
NOTE.—The estimate of \$3,000 for clerk hire is submitted as necessary for the prompt transaction of the current business of the office. Until the past year the greater portion of the drafting has been done by the chief clerk; but the great amount of additional work to be done in connection with the letting of contracts for surveys of ceded Indian lands makes it impossible for the chief clerk to do any drafting, and the increased appropriation asked for is absolutely necessary.							
						\$17,250 00	\$17,250 00
						10,000 00	10,000 00
						3,600 00	3,600 00
						7,500 00	7,500 00

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Offices of Surveyors-General—Continued.</i>							
Office of surveyor-general of Montana :		R. S.	389	2210	} \$2, 500 00		
Surveyor-general		R. S.	391	2226			
	July 16, 1892	27	217	1			
Clerks in his office	Same acts				10, 000 00	\$12, 500 00	\$12, 500 00
<p>NOTE.—The estimate of \$10,000 for clerk hire is submitted as necessary for the proper transaction of the business of the office. The surveyor-general estimates (assuming that the present office force is neither increased nor diminished in the meantime) that there will be at the beginning of the fiscal year ending June 30, 1894, field notes representing surveys to the extent of \$65,000 awaiting examination and plating. The amount estimated is therefore absolutely necessary in order that the returns of said surveys may be properly disposed of, the deputy surveyors compensated for their work, and the plats filed in the United States local land offices for the accommodation of settlers and to enable the State to make selections of lands granted by the act of February 22, 1889.</p>							
Office of surveyor-general of Nevada :		R. S.	389	2210	} 1, 800 00		
Surveyor-general		R. S.	391	2226			
	July 16, 1892	27	217	1			
Clerks in his office	Same acts				2, 500 00	4, 300 00	4, 300 00
<p>NOTE.—The estimate of \$2,500 is submitted as necessary for the prompt and proper performance of the current official work.</p>							
Office of surveyor-general of New Mexico :		R. S.	389	2210	} 2, 500 00		
Surveyor-general		R. S.	391	2226			
	July 16, 1892	27	217	1			
Clerks in his office	Same acts				6, 000 00	8, 500 00	8, 500 00
<p>NOTE.—The estimate of \$6,000 for clerk hire is submitted as necessary for the proper transaction of current official work pertaining to the survey of public lands and to insure prompt attention to the demands of the court of private land claims established by the act of March 3, 1891, and the inquiries of claimants and other interested parties. The surveyor-general reports that the past allowances for clerk hire were entirely inadequate and that it has been impossible to keep the work up with the force that could be employed, thus working great injustice to settlers as well as to deputy surveyors, who have to wait from one to two years before getting their pay, and in the meantime they are paying 1 per cent a month on money they have expended in doing Government work.</p>							
Office of surveyor-general of North Dakota :		R. S.	391	2226	} 2, 000 00		
Surveyor-general	Apr. 10, 1890	26	53	2			
	July 16, 1892	27	217	1			
Clerks in his office	Same acts				6, 000 00	8, 000 00	8, 000 00
<p>NOTE.—The estimate of \$6,000 for clerk hire is submitted as necessary for the current work of the office during the year and to bring up arrears of work. The surveyor-general reports arrears of office work upon surveys under the appropriation for the fiscal year 1891 amounting to \$12,844, and that under the apportionment of \$25,000 for the fiscal year 1892, but six townships have been returned, which leaves all of the office work in connection with the surveys executed during the last-named year to be done during the fiscal year 1893. A portion of the surveys under the appropriation for the fiscal year 1893 will be returned during the year, and the result will be a large increase in the arrears of work, rendering the appropriation of the sum estimated herein absolutely necessary, otherwise there will be great delay in the examination of returns and approval of the surveys and consequent injustice to the deputy surveyors, who, having executed their surveys in good faith, are entitled to a prompt adjustment of their accounts.</p>							
Office of surveyor-general of Oregon :		R. S.	388	2209	} 2, 000 00		
Surveyor-general		R. S.	391	2226			
	July 16, 1892	27	218	1			
Clerks in his office	Same acts				3, 000 00	5, 000 00	5, 000 00
<p>NOTE.—The sum of \$3,000 for clerk hire is submitted as necessary for the completion of the office work in connection with a portion of the surveys now under contract and which will not be returned in time to have such work performed during the current fiscal year, and for office work upon such surveys as may be returned during the fiscal year for which this estimate is made.</p> <p>The increased apportionments to Oregon under the large appropriations for surveys render an increase in the clerical force in the Surveyor General's office absolutely necessary. In submitting his estimates for the surveying service for the fiscal year ending June 30, 1894, the surveyor-general of Oregon states:</p> <p>"The appropriation for office work in this office has been greatly insufficient to make plats and transcripts of the surveys made during the past year, without allowing anything for the regular business routine work of the office. I do therefore most earnestly and respectfully urge Congress to grant this office the full amount of my estimates (\$6,300) for clerical aid."</p>

<i>Salaries, Offices of Surveyors-General—Continued.</i>							
Office of surveyor-general of South Dakota:		R. S.	391	2226	} \$2,000 00		
Surveyor-general.....	Apr. 10, 1890	26	53	1			
	July 16, 1892	27	218	1			
Clerks in his office.....	Same acts.....				9,000 00	\$11,000 00	\$11,000 00
<p>NOTE.—The estimate of \$9,000 for clerk hire is submitted as necessary for the proper performance of the current official business and to bring up arrears of work. The surveyor-general, in submitting his annual estimates, states as follows:</p> <p>"Owing to appropriations heretofore made being inadequate for necessary clerical service, the work of the office is at present in arrears, as follows, namely:</p> <p>"Proper filing and indexing of circulars, papers relating to Indian and military reservations, and miscellaneous papers.</p> <p>"Proper filing and indexing of letters to this office which have accumulated from the date of its establishment to the present time, present indexing being incomplete and inconvenient.</p> <p>"Proper indexing for convenient reference of the record of letters from this office.</p> <p>"Proper annotation of archives, formerly of this office, recently surrendered to the surveyor-general of North Dakota and to the State of Nebraska.</p> <p>"Proper indexing of field notes of surveys executed during the last three seasons, amounting to over 31,000 miles; also of field notes of a large mass of mineral surveys.</p> <p>"Preparation of a new contract and index diagram, the one prepared over twelve years ago having become unserviceable.</p> <p>"Platting and transcribing field notes of surveys under appropriations of former years to the amount of \$37,000.</p> <p>"As all the efforts of the clerical service have been expended solely in expediting the preparation and transmission of returns to the General Land Office, it has been impossible to accord to the records the attention proper for their conservation and ready reference. The possibility of loss of records in their present detached and unindexed condition is a source of constant anxiety; and the arrearages mentioned have operated and still operate to seriously retard the proper functions of the office."</p>							
Office of surveyor-general of Utah:		R. S.	389	2210	} 2,500 00		
Surveyor-general.....	July 16, 1892	27	218	1

Surveyor-general.....	July 16, 1892	27	218	1			
Clerks in his office.....	Same acts.....						
<p>NOTE.—The estimate of \$7,500 for clerk hire is submitted as actually necessary for the proper transaction of office work in connection with the public surveys, for the current work of the office, which is constantly increasing, and for bringing up arrears of office work.</p>							
Office of surveyor-general of Wyoming:		R. S.	389	2210	} 2,500 00		
Surveyor-general.....	July 16, 1892	27	218	1			
Clerks in his office.....	Same acts.....						
<p>NOTE.—The estimate of \$5,500 for clerk hire is submitted as necessary for the proper transaction of office work in connection with the surveys returned during the fiscal year ending June 30, 1894, and upon surveys contracted for during the current fiscal year, but which will not be returned in time to have the office work performed prior to the close of the fiscal year. The surveyor-general, referring to the inadequate appropriations for clerk hire during the past three years, states (June 24, 1892) that "deputies of this office are now in the field engaged upon surveys aggregating \$23,700, the field notes of which will not reach this office until after the close of the fiscal year, and these notes, taken in connection with the unfinished work upon notes already filed, will start this office into the next fiscal year with a deficiency of clerk-hire funds of not less than \$7,000."</p>							
<i>Contingent Expenses, Offices of Surveyors-General—</i>							
Office of ex-officio surveyor-general of Alaska:		R. S.	391	2227	} 1,000 00		
Books, stationery, office furniture, and other incidental expenses.....	Submitted.....						
<p>NOTE.—Under the provisions of section 8 of the act of May 17, 1884, entitled "An act providing a civil government for Alaska," the United States marshal for said Territory is made the ex-officio surveyor-general. Sections 11, 12, 13, 14, and 15 of the act of March 3, 1891, entitled "An act to repeal timber-culture laws and for other purposes" provide for the disposal of public land in Alaska for townsite purposes and for the use and necessities of trade and manufactures. Under the last-named act regulations have been prescribed and surveying operations have commenced. The estimate of \$1,000 is submitted to cover the contingent expenses connected with the surveying service and to provide the necessary record books and office furniture.</p>

MISCELLANEOUS.							
<i>Collecting Agricultural Statistics—</i> Division of statistics: Collecting domestic and foreign agricultural statistics, expenses of local investigations and compilations, and necessary traveling expenses; statistical publications furnishing data for permanent comparative records; compiling, writing, and illustrating statistical matter for monthly, annual, and special reports, and the necessary expenses of the same, including paper and envelopes, postal cards, and postage stamps.....	Appropriated..	27	76	1	\$100,000 00		
<i>Provided, That fifteen thousand dollars of this sum, or so much thereof as may be necessary, may be expended for the preparation and printing of maps and charts, illustrating the progress of rural production and crop distribution of the United States, and for special investigation of the agricultural statistics of the States and Territories of the Rocky Mountain region, with traveling and other necessary expenses connected therewith: And provided further, That the monthly crop report issued on the tenth day of each month shall embrace only a statement of the condition of the crops by States and in the United States, with such explanations and comparisons with other months and years as may be useful for illustrating the above matter, and that it shall be submitted to the Secretary of Agriculture, who shall officially approve the report before it is issued or published.</i> <i>To enable the Secretary of Agriculture to continue investigations concerning the feasibility of extending the demands of foreign markets for agricultural products of the United States.....</i>	do.....				10,000 00	\$110,000 00	\$110,000 00
<i>Botanical Investigations and Experiments—</i> Division of botany: Purchasing specimens, paper, and all necessary materials for the herbarium, and for labor in preparing the same; and for investigations and experiments with grasses, forage, economic, and medicinal plants, and for the establishment and maintenance of experimental grass stations, and cost of reports and illustrations thereof, and for traveling and other necessary expenses connected therewith, and for employing local botanists in the field for exploration and collection of plants in little-known districts.....	Appropriated..	26	76	1	32,500 00	27,500 00
<i>Investigating the History and Habits of Insects—</i> Division of entomology: Promotion of economic entomology; investigating the history and habits of insects injurious and beneficial to agriculture, arboriculture, and horticulture; experiments in ascertaining the best means of destroying them; publishing reports thereon; and for illustrations, chemicals, and other expenses in the practical work of the division of entomology.....	Appropriated..	27	77	1	22,800 00	17,800 00
<i>Provided, That two thousand five hundred dollars, or so much thereof as may be necessary, may be expended for an investigation into the natural history of and remedies for the cotton-boll worm; for compensation of additional temporary agents of the division of entomology; for traveling expenses, chemicals, insecticide apparatus, and other necessary expenses in this investigation.</i>							
<i>Investigations in Ornithology and Mammalogy—</i> Division of ornithology and mammalogy: Biological investigation and the geographic distribution and migrations of animals and plants, and for the promotion of economic ornithology and mammalogy; an investigation of the food habits of North American birds and mammals in relation to agriculture, horticulture, and forestry; for publishing reports thereon, and for illustrations, field-work, traveling, and other expenses in the practical work of the division.....	Appropriated..	27	77	1	25,000 00	15,000 00
<i>Pomological Information—</i> Division of pomology: Traveling and other necessary expenses in investigating, collecting, and disseminating pomological information, and the collection and distribution of trees, seeds, shrubs, and specimens.....	Appropriated..	27	77	1	5,000 00	5,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Microscopical Investigations—</i> Division of microscopy: Microscopical apparatus, chemicals, photographic illustrations and drawings, and other necessary supplies; traveling expenses; the purchase of food samples and condiments in the investigation of the adulteration of food; the purchase of textile fibers, and ascertaining their relative strength and forms.....	Appropriated..	27	77	1	\$2,000 00	\$2,000 00
<i>Vegetable Pathological Investigations and Experiments—</i> Division of vegetable pathology: Investigating the nature of diseases injurious to fruits, fruit trees, grain, cotton, and other useful plants, experiments in the treatment of the same, chemicals and apparatus required in the field and laboratory, necessary traveling expenses, the preparation of drawings and illustrations, and for other expenses connected with the practical work of the division..... Of which five thousand dollars, or so much thereof as may be directed by the Secretary, may be applied to the investigation of peach yellows, cotton blight, the diseases of the orange and other fruits and vegetables, and the remedies therefor.	Appropriated..	27	77	1	20,000 00	20,000 00
<i>Laboratory—</i> Division of chemistry: Chemical apparatus, chemicals, laboratory fixtures, supplies, and office furniture, purchase of samples, and necessary expenses in conducting special investigations, including necessary traveling expenses, labor, and expert work in such investigations, \$6,000; for rent of laboratory building, \$900..... To enable the Secretary of Agriculture to extend and continue the investigation of the adulteration of food, drugs, and liquors, including the purchase of samples, transportation, traveling expenses, stationery, return postage, printing and illustrations, analyzing, investigating, and examining samples purchased in the open markets, the sum of \$12,500; and for these purposes the Secretary of Agriculture is authorized to employ such assistants, clerks, and other persons as he may deem necessary: <i>Provided</i> , That the Secretary is hereby required to make a separate report to Congress as to where and when the samples of food, liquors, and drugs were purchased, when and where analyzed, and the result of such analysis, together with the name of the manufacturer and the brand or label on the package or article..... For special soil investigations.....	Appropriated.. Submitted	27 	77 	1 	 12,500 00 5,000 00	 24,400 00	 19,400 00
<i>Fiber Investigations—</i> To enable the Secretary of Agriculture to continue the investigations relating to textile fibers indigenous in or adapted to the United States, including their economic growth, cleansing, and decorticating preparatory to manufacture; the testing of machines and processes for said cleaning and decorticating; for the purchase of the material for said tests; for the purchase of fiber plants and seeds for distribution, propagation, and experiment; and for the labor and expenses incident thereto, and for traveling expenses in connection with said duties.....	Appropriated..	27	78	1	5,000 00	5,000 00
<i>Report on Forestry—</i> Division of forestry: To enable the Secretary of Agriculture to experiment and continue an investigation and report upon the subject of forestry, and for traveling and other necessary expenses in the investigation, and the collection and distribution of valuable economic forest-tree seeds and plants..	Appropriated..	27	78	1	20,000 00	12,000 00
<i>Illustrations and Engravings—</i> Division of illustrations: Tools, instruments, paper, ink, paints, pencils, and other necessary materials, printing proofs, and necessary traveling expenses	Appropriated..	27	78	1	2,000 00	2,000 00
<i>Purchase and Distribution of Valuable Seeds—</i> Division of seeds: Purchase, propagation, and distribution, as required by law, of seeds, bulbs, trees, shrubs, vines, cuttings, and plants, and expense of labor, transportation, paper,							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

<i>Purchase and Distribution of Valuable Seeds—Continued.</i>							
Division of seeds—Continued.							
twine, gum, printing, postal cards, and all necessary material and repairs for putting up and distributing the same, and to be distributed in localities adapted to their culture, \$130,000. An equal proportion of two-thirds of all seeds, trees, shrubs, vines, cuttings, and plants shall, upon their request, be supplied to Senators, Representatives, and Delegates in Congress for distribution among their constituents; and the person receiving such seeds shall be requested to inform the Department of results of the experiments therewith.....	Appropriated..	27	78	1	\$130,000 00		
<i>Provided</i> , That all seeds, plants, and cuttings herein allotted to Senators, Representatives, and Delegates to Congress for distribution remaining uncalled for at the end of the fiscal year shall be distributed by the Secretary of Agriculture: <i>And provided also</i> , That the Secretary shall report, as provided in this act, the place, quantity, and price of seeds purchased and the date of purchase. But nothing in this paragraph shall be construed to prevent the Secretary of Agriculture from sending flower, garden, and other seeds to those who apply for the same. And the amount herein appropriated shall not be diverted or used for any other purpose but for the purchase, propagation, and distribution of improved and valuable seeds, bulbs, trees, shrubs, vines, cuttings, and plants: <i>Provided, however</i> , That the Secretary shall not distribute to any Senator, Representative, or Delegate seeds entirely unfit for the climate and locality he represents, but shall distribute the same so that each member may have seeds of equal value, as near as may be, and the best adapted to the locality he represents.							
Printing seed pockets, labels, postal-cards, circulars, etc., labor, paper, ink, type, and other necessary material for printing, and for purchasing and repairing printing presses, \$5,400do.....				5,400 00	\$135,400 00	\$135,400 00
<i>Materials, Document and Folding Room—</i>							
Paper, gum, twine, and other necessary materials.....	Appropriated..	27	78	1	2,000 00	2,000 00
<i>Experimental Gardens and Grounds—</i>							
Labor in experimental gardens and grounds, the care of conservatories, plant and fruit propagating and seed-testing houses, and the keep of the reservation, lawns, trees, roadways, and walks, \$18,500; blacksmithing, the purchase of tools, wagons, carts, harness, horses, lawn-mowers, heating apparatus, and machinery, and the necessary labor and material for repairing the same; the purchase of new and rare kinds of seeds, plants, and bulbs for propagating purposes; expense of material and labor in labeling and packing plants for distribution and transportation; traveling expenses; the purchase of necessary pots, tubs, watering-cans, and hose; the purchase of material for the destruction of insects, and other necessary items for the cultivation and improvement of the grounds and arboretum; the purchase of material for making and repairing roads and walks; the purchase of glass, paints, lumber, tin for roofing and spouting, and hardware, and for carpenters, painters, and all other mechanics, and the necessary material for keeping the conservatories and other structures in good repair, \$10,000; resurfacing roads and walks with concrete, \$3,000.....	Appropriated..	27	78	1	31,500 00	28,500 00
<i>Museum—</i>							
To enable the Secretary of Agriculture to completely reorganize and systematize the present agricultural museum attached to the Department; for collecting, classifying, and naming cereals; collecting and modeling fruits, vegetables, and other plants; and for labor and material in preparing the same for the museum, and other necessary expenses and supplies.....	Appropriated..	27	79	1	4,000 00	4,000 00
<i>Furniture, Cases, and Repairs—</i>							
Repairing buildings, heating apparatus, furniture, carpeting, matting, water and gas pipes, new furniture, and all necessary material and labor for the same, including lumber, hardware, glass, and paints.....	Appropriated..	27	79	1	12,000 00	10,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

NOTE.—The disbursing clerk of this Department is the only disbursing clerk in the city of Washington who receives less than \$2,000 per annum as his compensation. The disbursing clerk of the Department of Labor performs all the duties of a disbursing clerk, financial clerk, and appointment clerk, and has charge of the building occupied by the Department. By Revised Statutes, page 28, section 176, it is contemplated that a disbursing clerk shall be an \$1,800 clerk and have \$200 additional. It is therefore submitted as a fitting and proper thing to pay the disbursing clerk of this Department a salary equal to that paid to the lowest-paid disbursing clerks in other offices.							
<i>Miscellaneous Expenses, Department of Labor—</i>							
Per diem, in lieu of subsistence, of special agents and experts while traveling on duty away from home and outside of the District of Columbia, at a rate not to exceed \$3 per day, and for their transportation, and for employment of experts and temporary assistance, and for traveling expenses of officers and employes.... NOTE.—For statement showing wherein the foregoing estimate varies from the appropriations for the current fiscal year, and tables showing the authorized active strength of the Army in commissioned officers and enlisted men, see Appendix L.

SUBSISTENCE DEPARTMENT.

Subsistence of the Army—

Purchase of subsistence supplies: For issue, as rations to troops, civil employes when entitled thereto, hospital matrons, military convicts at posts, prisoners of war (including Indians held by the Army as prisoners, but for whose subsistence appropriation is not otherwise made), estimated for the fiscal year on the basis of ten million seventeen thousand four hundred and twenty-five rations; for sales to officers and enlisted men of the Army; for authorized extra issues of candles, and salt and vinegar for public animals; for issues to Indians visiting military posts, and to Indians employed with the Army, without pay, as guides and scouts. For payments: For cooked rations for recruiting parties and recruits; for hot coffee, canned beef, and baked beans for troops traveling, when it is impracticable to cook their rations; for scales, weights, measures, utensils, tools, stationery, blank books and forms, printing, advertising, commercial newspapers, use of telephones, office furniture; for temporary buildings, cellars, and other means of protecting subsistence supplies (when not provided by the Quartermaster's Department); for bake-ovens at posts and in the field, and repairs thereof; for extra pay to enlisted men employed on extra duty in the Subsistence Department for periods of not less than ten days, at rates fixed by law; for compensation of civilians employed in the Subsistence Department, and for other necessary expenses incident to the purchase, care, preservation, issue, sale, and accounting for subsistence supplies for the Army. For the payment of the regulation allowances for commutation in lieu of rations: To enlisted men on furlough, to ordnance-sergeants on duty at un-garrisoned posts, to enlisted men stationed at places where rations in kind can not be economically issued, to enlisted men traveling on detached duty when it is impracticable to carry rations of any kind, to enlisted men selected to contest for places or prizes in department and Army rifle competitions while traveling to and from places of contest; to be expended under the direction of the Secretary of War; in all.....

<i>Transportation of the Army and its Supplies—Continued.</i>							
for such Government transportation, having claims against the United States for transportation of troops and munitions of war and military supplies and property over such aided railroads, shall be paid out of the moneys appropriated by the foregoing provision only on the basis of such rate for the transportation of such troops and munitions of war and military supplies and property, as the Secretary of War shall deem just and reasonable under the foregoing provisions, such rate not to exceed fifty per centum of the compensation for such Government transportation as shall at the time be charged to and paid by private parties to any such company for like and similar transportation; and the amount so fixed to be paid shall be accepted as in full for all demands for such service.....							
NOTE.—The amount called for, while \$30,000 in excess of the amount appropriated for the current fiscal year, is believed to be not in excess of actual requirements.— <i>E. N. Batchelder, Quartermaster-General.</i>							
<i>Clothing, Camp and Garrison Equipage—</i>							
Cloth, woolens, material, and for the manufacture of clothing for the Army, for issue and for sale at cost price according to the Army Regulations; for altering and fitting clothing, and washing and cleaning when necessary; for equipage, and for expenses of packing and handling, and similar necessaries: <i>Provided</i> , That out of the money hereby appropriated for clothing and equipage of the Army, there shall not be expended at the military prison at Fort Leavenworth a sum in excess of one hundred and twenty-five thousand dollars.....		R. S.	206	1133-5	}	\$1,300,000 00	\$1,200,000 00
	Revised Army Reg's, 1889, p. 113, par. 1063.						
	July 16, 1892	27	181	1			
NOTE.—The amount now called for, though \$100,000 in excess of the amount appropriated for the current fiscal year, is not more than is actually needed.— <i>E. N. Batchelder, Quartermaster-General.</i>							
<i>Construction and Repair of Hospitals—</i>							
Construction and repairs of hospitals at military posts already established and occupied, including extra-duty pay of enlisted men employed on the same, and including also all expenditures for construction and repairs required at the Army and Navy Hospital at Hot Springs, Ark., except quarters for the officers.....	July 16, 1892	27	180	1		80,000 00	50,000 00
NOTE.—The amount now estimated for is \$30,000 in excess of the amount appropriated for the current fiscal year. The Surgeon-General of the Army reports that the increase of \$30,000 is needed for the construction of hospital at Davids Island, New York Harbor.— <i>E. N. Batchelder, Quartermaster-General.</i>							
<i>Shooting Galleries and Ranges—</i>							
Shelter, shooting galleries, ranges, repairs and expenses incident thereto.....	July 16, 1892	27	181	1		8,000 00	8,000 00
<i>Quarters for Hospital Stewards—</i>							
Construction of quarters for hospital stewards at military posts already established and occupied, including the extra-duty pay of enlisted men employed on the same: <i>Provided</i> , That the posts at which such quarters shall be constructed shall be designated by the Secretary of War, and such quarters shall be built by contract, after legal advertisement, whenever the same is practicable..	July 16, 1892	27	181	1		7,000 00	7,000 00
<i>Contingencies of the Army—</i>							
All contingent expenses of the Army not provided for by other estimates, and embracing all branches of the military service, to be expended under the immediate orders of the Secretary of War.....	July 16, 1892	27	181	1		18,640 00	15,000 00
NOTE.—The increase of \$3,640 over the amount appropriated for the current fiscal year is asked by the Adjutant-General of the Army for contingent expenses of the military attachés at United States legations abroad. He says: "This amount will enable the Military Information Division to provide the sum of \$10 per week for each of the seven military attachés at London, Paris, Berlin, Vienna, St. Petersburg, Rome, and Brussels, for the purpose of procuring books, plans, maps, photographs, etc., desired by the division, and to pay necessary expenses for carriage hire, copying, messenger service, etc., pertaining to the duties of their office. This appropriation is very essential, and the amount asked for is much less than that allowed by foreign governments for the purpose."— <i>E. N. Batchelder, Quartermaster-General.</i>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
MEDICAL DEPARTMENT.							
<i>Medical and Hospital Department—</i>							
Purchase of medical and hospital supplies, including disinfectants for general post sanitation, expenses of medical-supply depots, pay of employes, medical care and treatment of officers and enlisted men of the Army and Signal Corps on duty at posts and stations for which no other provision is made; for the proper care and treatment of cases in the Army suffering from contagious or epidemic diseases, and the supply of the Army and Navy General Hospital at Hot Springs, Ark.; advertising and other miscellaneous expenses of the Medical Department, the amount to be expended for pay of civilian employes not to exceed forty thousand dollars	July 16, 1892	27	181	1	\$185,000 00		
NOTE.—The last appropriation has been found insufficient to meet the requirements of the service, particularly in paying for medical attendance upon officers and enlisted men on duty. No provision was made by the last Congress for contract surgeons, and much of the expense for their service heretofore borne by the Pay Department has unexpectedly and of necessity been paid from this appropriation.							
Experimental cooking.....	Submitted.....				500 00	\$185,500 00	\$170,000 00
NOTE.—The art of cookery is now taught to enlisted men in the two companies of the Hospital Corps, and funds are required for the purchase of needful material.							
<i>Army Medical Museum and Library—</i>

ORDNANCE DEPARTMENT.							
<i>Ordnance Service—</i>							
Current expenses of the ordnance service required to defray the current expenses at the arsenals; of receiving stores and issuing arms and other ordnance supplies; of police and office duties; of rents, tolls, fuel, and lights; of stationery and office furniture; of tools and instruments for use; incidental expenses of the ordnance service and those attending practical trials and tests of ordnance, small arms, and other ordnance supplies, including payment for mechanical labor in the office of the Chief of Ordnance.....	July 16, 1892	27	182	1	125,000 00	80,000 00
NOTE.—The sum of \$80,000, which has been appropriated since 1888, is wholly inadequate to meet the actual indispensably necessary expenses under this head; \$200,000 was the amount appropriated for this purpose from 1868 to 1874. From 1874 to 1886 the amount varied from \$125,000 to \$100,000. The necessary expenses for labor alone, in connection with the receipt and issue of ordnance and ordnance stores, and for the police and care of arsenals, not manufacturing, amounts to nearly \$100,000. The amount asked for is considered necessary, but only what is absolutely necessary for the public service will be expended.

		Vol. or R. S.	Page.	Sec.			
<i>Ordnance, Ordnance Stores and Supplies—</i>							
Manufacture of metallic ammunition for small arms and ammunition for reloading cartridges, and tools for the same, including the cost of targets and material for target practice and marksmen's medals and insignia for all arms of the service	July 16, 1892	27	182	1	\$200,000 00		
<p>NOTE.—The reserve supply of rifle ammunition on hand in our arsenals on July 1, 1892, was only 6,902,520 cartridges. A supply should be kept on hand for the hostile uses of the Army. Rifle and carbine ammunition costs to manufacture \$18.50 per thousand, and revolver \$10 per thousand. Existing orders from the War Department authorize the expenditure for target practice of cartridges or reloading material to the amount of \$1 per man per annum, and about \$1.93 per man per annum for gallery practice, and officers represent that a large increase in the allowance of blank cartridges is absolutely necessary for the proper training of both recruits and horses. Soldiers should be made good marksmen, but this can not be done without a liberal supply of ammunition for target practice. The amount asked for is reasonable if the soldier is to be provided with cartridges sufficient for his proper instruction. To enable the Ordnance Department to carry out these orders, the reserve supply has been well nigh exhausted. Unless the appropriation asked for is granted, the supply for target practice will have to be reduced, greatly to the detriment of the efficiency of the Army, and leave nothing on hand for emergencies and hostile purposes. All these arguments are much emphasized at the present time by the necessary expenses and increased demands attending the change in ammunition to accompany the change in small arms, which is now being made.</p>							
Repairing and preserving ordnance and ordnance stores in the hands of troops and for issue at the arsenals and depots.....	do.....				10,000 00		
<p>NOTE.—This appropriation will be applicable to the repairs, painting, and general preservation of guns, gun carriages, projectiles, and general ordnance stores at forts and other military posts, and this money is absolutely necessary for the purpose.</p>							
Purchase and manufacture of ordnance stores to fill requisitions of troops.....	do.....				125,000 00		
<p>NOTE.—The \$100,000 appropriated the past few years has not been sufficient to meet the actual needs of the troops in the field, and to furnish the material necessary for the instruction of troops and preservation of the ordnance, etc., at military stations.</p>							
Infantry, cavalry, and artillery equipments, including horse equipments for cavalry and artillery.....	do.....				215,000 00		
<p>NOTE.—The amount asked for is required to meet the wants of the service. This appropriation will also be applicable to the procurement of artillery harness for the new breech-loading steel field-guns. The current appropriations under this head are not as large as were made twenty years ago, at a time when fully 30 per cent. of the supplies issued was made from materials on hand from the civil war. All these materials have been used up, and the material for all stores now made has to be purchased from the appropriations annually made for the procurement of these stores. It follows therefore that the appropriations for these objects should be fully 30 per cent. more now than twenty years ago. The public interests require at least \$150,000 under this head.</p>							
Overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals.....	do.....				5,000 00		
Replacing the ordnance and ordnance stores taken from army supplies and issued to the militia of the District of Columbia, from July 30, 1888, to June 30, 1892, under the provisions of the joint resolution approved July 23, 1888, and the act approved March 1, 1889.....	Submitted.....				43,793 21		
<p>NOTE.—Attention is invited to the fact that the property issued as provided for in the act quoted must be taken from the supplies for the Army—that is, from the appropriations for these supplies—and also the fact that these appropriations are now insufficient for the needs of the Army, and that the rigid economy in the expenditure and preservation of these supplies which is enforced in the Army can not probably be extended to these issues. These additional issues made under the act of March 1, 1889, have amounted since that date to \$43,793.21, a large percentage of the already insufficient appropriation for the Army, and there is no provision of law to meet this expenditure. In my judgment, it would be wise to have a permanent appropriation of a fixed amount for each year to provide for these issues to the District militia, or a specific appropriation for each year.</p>							
Supplying ordnance and ordnance stores to equip and maintain the National Guard of the District of Columbia, under section 31 of the act of Congress approved March 1, 1889.....	do.....				5,000 00		
Harness and equipments for horses and enlisted men of the Signal Corps, in accordance with the provisions of the act approved October 1, 1890.....	do.....				10,000 00		
						\$613,793 21	\$390,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Morning and Evening Gun—</i>							
Firing the morning and evening gun at military posts, prescribed by General Orders No. 70, Headquarters of the Army, dated July 23, 1867, including material for cartridge bags, etc.....	July 16, 1892	27	182	1	\$35,000 00	\$20,600 00	
NOTE.—It will require about 1,700 barrels of powder, which, at 18 cents per pound, amounts to \$30,600.							
<i>Targets for Artillery Practice—</i>							
Targets for artillery practice and implements for mechanical maneuvers	July 16, 1892	27	182	1	10,000 00	5,000 00	
NOTE.—At our forts we are obliged to make floating targets and anchor them in the roadsteads for artillery practice-firing, which is necessary for the instruction of the troops. The Secretary of War decided (Circular No. 1, A. G. O., 1886) that these targets, and the material and labor for their construction, shall be furnished by the Ordnance Department.							
<i>Manufacture of Arms—</i>							
Manufacturing, repairing, procuring, and issuing arms at the national armories.....	July 16, 1892	27	182	1	400,000 00	400,000 00	
Provided, That this appropriation shall be applicable to the manufacture of the magazine arm recommended for trial by the board recently in session and approved by the Secretary of War.							
NOTE.—Besides supplying the regular Army, the militia, the various colleges, and the other branches constituting the military establishment, the War Department has now to supply arms, ammunition, etc., to the Marine Corps and to the several Executive Departments for use in protecting public money and property, under the act of March 3, 1879 (20 Stats., 412).—D. W. Flagler, Brigadier-General, Chief of Ordnance.							
Total Support of the Army.....					25,922,955 43	24,288,499 82	
MILITARY ACADEMY.							
<i>Pay of the Military Academy—</i>

<i>Pay of the Military Academy—Continued.</i>							
<i>Pay of field musicians—Continued.</i>							
Additional pay for length of service.....	May 1, 1888 July 14, 1892	25 27	108 168	1 1	\$288 00	\$264, 655 08	\$230, 890 08
Retained pay on discharge.....					288 00		
Clothing on discharge.....					281 08		
NOTE.—The difference between the amount of this estimate and the amount appropriated for the current fiscal year is accounted for as follows:							
Amount of estimate.....					\$264, 655 08		
Amount appropriated.....					230, 890 08		
					33, 765 00		
Estimated for 371 cadets, at \$540 each.....					\$200, 310 00		
Appropriated for current year.....					166, 000 00		
					34, 340 00		
Deduct on account of decreased estimate for additional pay to professors and officers, and officers on increased rank for length of service					575 00		
					33, 765 00		
<i>Current and Ordinary Expenses—</i>							
Repairs and improvements, namely: Timber, planks, boards, joists, wall-strips, laths, shingles, slate, tin, sheet-lead, zinc, nails, screws, locks, hinges, glass, paints, turpentine, oils, varnish, brushes, stone, brick, flag, lime, cement, plaster, hair, sewer and drain pipe, blasting powder, fuse, iron, steel, tools, machinery, mantels, and other similar materials, renewing roofs, and for pay of overseer and master-builder and citizen mechanics, and labor employed upon repairs and improvements that can not be done by enlisted men.....	July 14, 1892	27	168	1	16, 000 00		
Fuel and apparatus, namely: Coal, wood, charcoal, stoves, grates, heaters, furnaces, ranges and fixtures, fire-bricks, clay, sand, repairs of steam-heating apparatus, grates, stoves, heaters, ranges, furnaces, and mica.....	July 14, 1892	27	169	1	20, 000 00		
NOTE.—The amount called for herein—\$5,000 in excess of the current year's appropriation—is deemed necessary for the purchase of fuel; to defray the legitimate and necessary expense for repairing the steam-heating plant of the academy; and for repairing and replacing heaters, furnaces, ranges, and fixtures for heating the public buildings of the post. Upon the completion of the south wing of the new academy; and with the new gymnasium and the addition recently made to the cadet quartermaster's department store, the steam-heating plant will be called upon to heat about 4,000,000 additional feet of air space. As this year's contract for the purchase of coal shows an increase of more than 15 per cent over last year's prices, and as the present appropriation of \$15,000 is barely sufficient for the purchase of coal needed to properly heat the public buildings other than the south wing of the new academic building, I respectfully urge the granting of the increase asked for.—Capt. W. H. Miller, A. Q. M., U. S. Army.							
Gas-pipes, fixtures, lamp-posts, gasometers and retorts, and annual repairs of the same.....	do.				1, 500 00		
Fuel for cadets' mess-hall, shops, and laundry.....	do.				3, 000 00		
Postage and telegrams.....	do.				250 00		
Stationery, namely: Blank-books, paper, envelopes, quills, steel pens, rubbers, erasers, pencils, mucilage, wax, wafers, folders, fasteners, rules, files, ink, inkstands, typewriting supplies, penholders, tape, desk-knives, blotting-pads, and rubber bands.....	do.				800 00		
Transportation of materials, discharged cadets, and ferriages	do.				1, 750 00		
Printing: Printing and binding, type, materials for office, including repairs to motor, diplomas for graduates, annual registers, blanks, and monthly reports to parents of cadets.....	do.				1, 000 00		
Clerk to the disbursing officer and quartermaster.....	do.				1, 500 00		
Clerk to adjutant in charge of cadet records.....	do.				1, 500 00		
Clerk to treasurer.....	do.				1, 500 00		
One clerk to adjutant.....	do.				1, 200 00		
NOTE.—An increase of \$300 each is submitted for the clerk to the disbursing officer and quartermaster, clerk to the adjutant in charge of cadet records, and clerk to the treasurer, with a view of restoring their salaries to \$1,500 each per year, from which it was reduced in the appropriation act approved July 14, 1892. I do not consider their present pay commensurate with their duties, and even with the increase recommended their salaries will not equal that of many persons holding like positions in other branches of the public service.							
In the case of the clerk to the adjutant the increase (\$200) is asked for in order to restore his salary to \$1,200 per year from which it was reduced in the appropriation act referred to above. The employes filling the above positions are old and faithful servants of the Government, and I strongly recommend the restoration of their salaries as estimated for herein.—Capt. W. H. Miller, A. Q. M., U. S. Army.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Clerk to the quartermaster.....	Submitted.....				\$1,000 00		
<p>NOTE.—I beg leave respectfully to represent that the clerical force pertaining to the office of the disbursing quartermaster, U. S. Military Academy, is entirely inadequate to the proper performance of the duties imposed. Since my assumption of office, nearly two years ago, my clerks have been industriously occupied more than the customary hours daily, and sometimes on Sundays. And yet, with their willing devotion to duty, the business of the office can barely be transacted with that prompt dispatch which is both desirable and necessary in an institution of this character, notwithstanding that my chief clerk and the clerk provided annually in the act making appropriations for the support of the academy are efficient employes and fully conversant with their duties.</p> <p>During the fiscal year ending June 30, 1892, an additional clerk was allowed in my office for the purpose of practically retiring from further service an old and faithful clerk (now dead), who was connected with the disbursing office of the Military Academy for more than forty-two years. In acting upon the estimate for the support of the academy during the current fiscal year Congress failed to again provide for the additional clerk. Now, as the work of this office is steadily increasing, and having a due regard for my own liability and the higher concern for the safety of the Government funds in my charge and the proper rendition of accounts pertaining to disbursements on account of the Military Academy, I am impelled to ask that an additional clerk be allowed for my office.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
Department of cavalry, artillery, and infantry tactics:							
Tanbark or other proper cover for riding-hall, to be immediately available, and to be purchased in open market upon written order of the superintendent.....	July 14, 1892	27	169	1	600 00		
Repairing camp stools and camp furniture.....	do.....				100 00		
Furniture for offices and reception-room for visitors.....	do.....				100 00		
Stationery for use of instructors and assistant instructors of tactics.....	do.....				150 00		
Books and maps, binding books and mounting maps.....	do.....				75 00		
Foils, masks, belts, fencing gloves and fencing jackets, gaiters and repairs.....	do.....				250 00		
<p>NOTE.—A slight change has been made in the wording of this estimate in order that the Department may obtain the exact articles needed.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
Plumes for cadet officers of the first class.....	do.....				75 00		
Silk sashes for privates of the first class acting as officer of the day or officer of the guard, and for cadet first sergeants and color-bearer.....	do.....				220 00		
Soap for scrubbing cadet barracks.....	do.....				50 00		
Pay of one chief policeman in charge of employes in and around cadet barracks.....	Submitted.....				720 00		
Pay of nine barrack policemen, employed exclusively for cadets in scrubbing floors and windows, sweeping and whitewashing cadet barracks, cleaning bath tubs and sinks, blacking boots and shoes for cadets, and general policing of grounds.....	do.....				4,860 00		
<p>NOTE.—With regard to the items concerning pay for chief policeman and nine assistants, I would state that before steam was used in heating barracks, extra-duty men were employed, looking after the furnaces, and they were paid out of cadet funds, as were also the firemen in the boiler-house until 1871, as far as I can learn, when funds were appropriated for their pay. At that time policemen and firemen at the boiler-house were boarded by the cadet mess, receiving \$25 per month in addition. Since then the pay of the cadets has been reduced \$5 per month, and it is a considerable tax upon them to have to defray the expense of general cleaning of barracks, etc.—<i>Lieut. Col. H. S. Hawkins, 23d Infantry, Commandant of Cadets.</i></p>							
Department of civil and military engineering:							
Models, maps, purchase and repair of instruments, text-books, books of reference, and stationery for the use of instructors, and contingencies.....	July 14, 1892	27	169	1	1,500 00		
Extra pay of one enlisted man employed as draftsman.....	do.....	27	170	1	256 00		
<p>NOTE.—This estimate exceeds that of previous year by \$1,000, owing to the necessity of repairing all old models, purchasing a number of new ones and fitting up the model room in the new academic building.—<i>Prof. James Mercur, U. S. M. A.</i></p>							
Department of natural and experimental philosophy:							
Additions to apparatus to illustrate the principles of mechanics, acoustics, optics, and astronomy.....	do.....				1,000 00		
Books of reference, text-books, stationery, materials, and repairs.....	do.....				400 00		
<p>NOTE.—A slight change is made in the wording of this estimate in order that the Department may obtain the exact supplies needed.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>Current and Ordinary Expenses—Continued.</i>							
Department of natural and experimental philosophy—Cont'd.							
Pay of mechanic assistant.....	July 14, 1892	27	170	1	\$1,000 00		
Repairs to the observatory building and clocks.....	do.....				450 00		
Fitting up as far as it will permit, the new lecture room and section rooms provided for the department of philosophy in the new academic building.....	Submitted.....				1,000 00		
NOTE.—The professor of philosophy, Prof. P. S. Michie, U. S. M. A., submits the following remarks in connection with this item: "The application for the appropriation of \$1,000 asked for in this estimate for the next fiscal year for the department of philosophy was made to provide means for fitting up the section rooms with experimental tables, and for cases and instruments and experimental tables in the lecture room. I do not anticipate that this sum will be sufficient, but only that it will suffice for the next fiscal year."—Capt. W. H. Miller, A. Q. M., U. S. Army.							
Department of instruction in mathematics:							
Repairs and materials for preservation of models and instruments.....	July 14, 1892	27	170	1	25 00		
Text-books, books of reference, binding, and stationery for instructors.....	do.....				125 00		
Three Gunter's chains.....	Submitted.....				25 00		
Three sets of marking pins.....	do.....				10 00		
Two Vernier compasses, 6-inch needles, and tripods.....	do.....				100 00		
Two surveying transits, with stadio micrometers.....	do.....				400 00		
Three T squares and two 10-inch triangles.....	do.....				7 50		
One Jacob staff.....	do.....				5 00		
One Y level, with tripod.....	do.....				125 00		
Three New York leveling rods.....	do.....				60 00		
Five plumb-bobs.....	do.....				15 00		
Three stadio rods.....	do.....				40 00		
Five pocket magnifying glasses.....	do.....				6 00		
Contingencies.....	July 14, 1892	27	170	1	25 00		
NOTE.—The instruments above named are for the practical instruction of the cadets in surveying. Due to the reconstruction of the academic building, I have delayed requisitions for instruments really necessary until this time.—Prof. E. W. Bass, U. S. M. A.							
Department of history, geography, and ethics:							
Text-books, books of reference, maps and globes, and stationery for use of instructors, and repairs.....	do.....				150 00		
Department of chemistry, mineralogy, and geology:							
Chemicals, chemical apparatus, glass and porcelain ware, paper, wire, sheet-metal, ores, photographic apparatus and material.....	do.....				500 00		
Rough specimens, fossils, and for apparatus and material to be used in the practical determination of mineralogical and geological specimens, pencils, and paper for the practical instruction in the same branches, and for the gradual increase and improvement of the cabinet.....	do.....				500 00		
Repairs and additions to electric, magnetic, pneumatic, thermic, and optical apparatus.....	do.....				650 00		
Pay of mechanic employed in chemical and geological section rooms and in lecture rooms.....	do.....				1,000 00		
Models, maps, and diagrams, books of reference, text-books, and stationery for the use of instructors.....	do.....				180 00		
Contingencies.....	do.....				100 00		
<i>Provided, That any unexpended balances from the sums above appropriated may be used in securing fittings for the laboratories and lecture room of the new chemical academy.</i>							
Department of drawing:							
Books and periodicals on art and technology.....	do.....				100 00		
One copy of Century Dictionary, six volumes, at \$15 per volume.....	Submitted.....				90 00		
Models in flat and relief for second and third classes.....	July 14, 1892	27	170	1	100 00		
Repairs to desks, models, stretchers, and material.....	do.....				75 00		
Drawing material for use of instructors, sponges, wash brushes, tacks, alcohol, turpentine, paint, tumblers, saucers, and contingencies.....	do.....				250 00		
Frames for retained drawings of cadets with glass and mats.....	do.....				50 00		
Fifteen new drawing boards, at \$2.50.....	Submitted.....				37 50		
Binding periodicals.....	July 14, 1892	27	170	1	30 00		
Forty new steel triangles, at \$2.50.....	Submitted.....				100 00		
Two surveying transits with tripods complete for contouring and topographical work, at \$200.....	do.....				400 00		
Three steel chains, at \$8.....	do.....				24 00

Extra pay of one enlisted man, employed in the department of drawing, at 50 cents per day, in lieu of all extra pay now paid him.....	do.....				156 50		
<p>NOTE.—The foregoing estimates have been made with care and as closely calculated as circumstances will permit. Nothing has been asked for which is not needed to place the new rooms in economical working order. Estimates are based upon personal visits to manufacturers and correspondence in important items.</p> <p>It has been found necessary in occupying new rooms to replace some of the old furniture, such as stands and stools, which have been in use for forty or fifty years, and which, besides being worn, are not adapted to the new accommodations. As far as possible, however, the old material is retained, and can be replaced gradually in the future. The lecture room is admirably adapted for many uses other than those of this department.—<i>Prof. Chas. W. Larned, U. S. M. A.</i></p>							
<i>Department of modern languages:</i>							
Stationery, text-books, and books of reference for the use of instructors, for repairs of books, apparatus, and office furniture, and for printing examination papers.....	July 14, 1892	27	170	1	200 00		
<p>NOTE.—A slight change is made in the wording of this estimate in order that the department may obtain the exact supplies needed.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
<i>Department of law:</i>							
Stationery, text-books, and books for use of instructors, and for repairing and rebinding same, and furniture for office.....	do.....				250 00		
Blackboards, double scholar desks, instructors' desks, and chairs and book shelving for use in section rooms in new academic building.....	Submitted.....				300 00		
<p>NOTE.—The first item is the same as heretofore appropriated for. The second item is necessary for the reason that the department of law has heretofore occupied, and does now occupy, section rooms of other departments; in the new building it will have separate rooms for its uses, which will have to be properly furnished.—<i>Prof. J. W. Clous, U. S. M. A.</i></p>							
<i>Department of practical military engineering:</i>							
<p>Purchase and repair of instruments; transportation; purchase of tools, implements, and materials, and for extra-duty pay of engineer soldiers, as follows, namely: instruments for use in instructing cadets in making reconnaissances; photographic apparatus and material for field photography; drawing instruments and material for platting reconnaissances; surveying instruments; instruments and material for signaling and field telegraphy; transportation of field parties; tools and material for the preservation, augmentation, and repair of one wooden pontoon, and one canvas pontoon-bridge train; sapping and mining tools and</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Department of practical military engineering—Continued. material; rope; cordage; material for rafts and for spar and trestle bridges; intrenching tools; tools and material for the repair of Fort Clinton and the batteries at the academy, and extra-duty pay of engineer soldiers, at fifty cents per day each, when performing special skilled mechanical labor in the department of practical military engineering, for models, books of reference, and stationery.....	July 14, 1892	27	171	1	\$1,200 00		
Department of ordnance and gunnery: Purchase and repairs of instruments, models, and apparatus, and purchase of necessary materials; for the purchase of samples of arms and accouterments other than those supplied to the military service; for books of reference, text-books, stationery, and lithographic printing materials.....	do.....				450 00		
Extra pay of one ordnance soldier, as draftsman and lithographic printer, at fifty cents per day.....	do.....				143 50		
Extra pay of one ordnance soldier, as machinist, at fifty cents per day.....	do.....				143 50		
Purchase of one Maxim or Nordenfelt 3-pounder quick-fire gun, mounted on nonrecoil field carriage complete, with spare parts and appendages, and ammunition therefor, including custom dues.....	Submitted.....				5,000 00		
NOTE.—The description of this gun is given, and the principles upon which it works are taught in the course of Ordnance and Gunnery, but there is no gun available for practical illustration, as the arm is not supplied by the Ordnance Department, and can be procured only in England. As this gun differs from all other quick-fire guns in its operation, its working should be thoroughly understood, and this can only be accomplished by the use of the gun itself.—Capt. L. L. Bruff, Ordnance Department, U. S. Army.							
Manufacture or purchase of models of the new steel guns and carriages for field, siege, and seacoast, with breech mechanism complete.....	do.....				1,500 00		
NOTE.—These models are to be used in the recitation room for the instruction of cadets.—Capt. L. L. Bruff, Ordnance Department, U. S. Army.							
Purchase of one Pratt & Whitney lathe with chuck, pulleys, belting, and attachments, complete, to replace old worn-out machines.....	do.....				650 00		
Purchase of one Pratt & Whitney pillar shaper, with pulleys, belting, and attachments, complete, to replace old worn-out machines.....	do.....				500 00		
NOTE.—These machines are to be used for instruction and also for repairs of models, and of batteries. The increasing complexity of the modern breech-loading gun and carriage requires facilities for repair which were not formerly needed.—Capt. L. L. Bruff, Ordnance Department, U. S. Army.							
Stationery for office of the treasurer, United States Military Academy, namely: Blank-books, paper, envelopes, steel pens, mucilage, typewriting supplies, blotting-pads, rubber bands, and other items of stationery necessary.....	July 14, 1892	27	171	1	50 00		
Extra pay of two enlisted men, employed as clerks in the offices of the adjutant, United States Military Academy, and commandant of cadets, at fifty cents and thirty-five cents per day.....	do.....				284 25		
Extra pay of four enlisted men as printers, at headquarters United States Military Academy, at fifty cents each per day.....	do.....				626 00		
Extra pay of one enlisted man, employed as watchman, at thirty-five cents per day.....	do.....				159 60		
NOTE.—For the current fiscal year the sum of \$127.75 is appropriated for extra pay of one enlisted man employed as watchman which, for the length of time he is employed daily, is not deemed sufficient. As the soldier is employed daily at least ten hours, and as eight hours constitute a legal working day, it is deemed just and proper to pay him for the extra hours in question, and it is so provided for in A. R. 1881, paragraph 413. The necessity for the employment of this watchman is as great now as ever. It is his duty to see that the police regulations, so far as relates to suspicious characters, tramps, etc., are carried out, and that the roads, walks, forts, slopes, and batteries are not injured by the various parties of pleasure-seekers daily visiting the post during the summer. His duties call him forth early and late, in all kinds of weather, Sundays and holidays, and are of such a nature as to preclude the possibility of their being performed by an ordinary sentinel.—Capt. W. H. Miller, A. Q. M., U. S. Army.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Department of ordnance and gunnery—Continued.							
Extra pay of one enlisted man as trumpeter, at the cadet barracks, at thirty-five cents per day.....	July 14, 1892	27	171	1	\$127 75		
Extra pay of one enlisted man, employed in the philosophical department, observatory, as mechanic, at fifty cents per day.....	do.....				156 50		
Extra pay of one enlisted man, employed in the chemical department, at fifty cents per day.....	do.....				156 50		
Extra pay of two enlisted men (cavalrymen), when performing special skilled mechanical labor, at fifty cents each per day.....	do.....				313 00		
Extra pay of one enlisted man employed as saddler, at fifty cents per day.....	do.....				156 50		
<i>Provided, That the extra pay provided for by the eight preceding paragraphs shall not be paid to any enlisted man who receives extra-duty pay under existing laws or Army Regulations.</i>							
Expenses of the Board of Visitors, including mileage.....	do.....				3,000 00		
						\$86,347 85	\$65,511 25
<i>Miscellaneous and Incidental Expenses—</i>							
Gas-coal, oil, candles, lanterns, matches, chimneys, and wicking for lighting the academy, chapel, library, cadet barracks, mess-hall, shops, hospital, offices, stables and riding-hall, sidewalks, camp, and wharves....	July 14, 1892	27	172	1	5,000 00		
Water-pipe, plumbing, and repairs.....	do.....				2,000 00		
Cleaning public buildings (not quarters).....	do.....				600 00		
Brooms, brushes, pails, tubs, soap, and cloths.....	do.....				200 00		
Chalk, crayons, sponges, slate, rubbers, and card for recitation rooms.....	do.....				300 00		
Compensation of chapel organist.....	do.....				200 00		
Compensation of librarian.....	do.....				120 00		
Pay of engineer of heating and ventilating apparatus for the academic building, the cadet barracks, and office building, cadet hospital, chapel, and philosophical building, including the library.....	do.....				1,500 00		
<i>NOTE.—The pay of this engineer should be restored to \$1,500 per year from which it was reduced in the appropriation act approved July 14, 1892. He is efficient and trustworthy, in addition to being an old servant of the Government, and I strongly recommend the granting of the small increase asked for herein.—Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Pay of assistant engineer of same.....	do.....				1,000 00		
Pay of eight firemen.....	do.....				5,760 00		
<i>NOTE.—The increase of three firemen for the steam-heating plant of the academy will be necessary to comply with the provisions of the recently enacted eight-hour law governing the hours of labor of mechanics, laborers, etc., employed in the public service. During the time the steam-heating plant is in operation—about eight months in the year—each of the five firemen will be called upon to render services daily covering a period of nearly twelve hours.</i>							
<i>I recommend that the pay of the eight firemen be placed at \$60 per month each. That is the rate allowed firemen in the Executive Departments in Washington, and there appears to be no reason why the firemen at this institution should receive less.—Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Pay of librarian's assistant.....	do.....				1,000 00		
Pay of one gardener in charge of cemetery and general care of public grounds, for such period as his services may be necessary.....	do.....				500 00		
Pay of one superintendent of gas works.....	do.....				1,500 00		
<i>NOTE.—The increase (\$700), asked for in this estimate is recommended for the reason that the sum appropriated for the payment of the superintendent of the gas works during the current fiscal year is not deemed a sufficient remuneration for his services. Previous to the present year there has been no provision in any of the appropriation bills for the payment of this man's services although he has been constantly employed for many years.</i>							
<i>His pay has come out of the proceeds of gas sold to officers and other persons, which constitutes a fund known as the "gas fund." The draft on this fund for absolutely necessary repairs and additions to apparatus renders it necessary that his pay should be provided for otherwise.—Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Pay of one civilian plumber.....	do.....				900 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Miscellaneous and Incidental Expenses—Continued.</i>							
Pay of two scavengers, at \$50 per month each.....	Submitted.....				\$1,200 00		
<p>NOTE.—This estimate is respectfully submitted with a view of obtaining the services necessary for keeping in a proper sanitary condition the many earth closets, some fifty in number, in use here by the families of married enlisted men. The present manner of caring for the earth closets, that is, by the detail of an enlisted man for the purpose, is unsatisfactory and objectionable, and it is deemed best for the interest of all concerned that the services of two civilians should be secured. I would also state that the number of earth closets has been largely increased during the past year, and that others will be added from time to time to replace the present open-pit privies.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Increase and expense of library:							
Periodicals, stationery, binding books, and scientific, historical, biographical, and general literature; to be purchased in open market on the written order of the superintendent.....	July 14, 1892	27	172	1	2,000 00		
Repairing books; for furniture and contingent repairs of library rooms.....	do.....				200 00		
<p>NOTE.—Slight changes are made in this estimate in order that the Library may obtain the exact articles needed.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Furniture for cadet hospital and repairs of the same.....	do.....				100 00		
Contingencies for superintendent of the academy.....	do.....				1,000 00		
Renewing furniture in section rooms, and repairing the same.....	do.....				500 00		
Repairs, upholstering, and carpeting the academy chapel.....	do.....				150 00		
Contingent funds to be expended under the direction of the academic board: For instruments, books, repairs to apparatus, and other incidental expenses not otherwise provided for.....	do.....				1,000 00		
<p>Provided, That all technical and scientific supplies for the departments of instruction of the Military Academy shall be purchased by contract or otherwise, as the Secretary of War may deem best.</p>							
Purchase of instruments for band.....	do.....				867 50		
Purchase of music for band, to be purchased in open market on the order of the superintendent.....	do.....				200 00		
Purchase of strings, pads, springs, etc., for band instruments.....	Submitted.....				100 00		
						\$27,897 50	\$22,020 00
<p>NOTE.—The officer in charge of the U. S. M. A. Band, First Lieut. S. W. Dunning, Sixteenth Infantry, in submitting this estimate states that many of the instruments belonging to the band are worn-out and worthless, and that several of those now in use are the private property of the players.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>

UNDER THE NAVY DEPARTMENT.							
GENERAL EXPENSES.							
<i>Pay of the Navy—</i>							
Pay of officers on sea duty ; officers on shore and other duty ; officers on waiting-orders ; officers on the retired list ; clerks to commandants of yards and stations ; clerks to paymasters at yards and stations ; general storekeepers ; receiving-ships and other vessels ; extra pay to men reenlisting under honorable discharge ; interest on deposits by men ; pay of petty officers, seamen, landsmen, and boys, including men in the engineers' force, and for the Coast-Survey service and Fish Commission, seven thousand five hundred men and seven hundred and fifty boys, at the pay prescribed by law.....		R. S.	246	1367	}	\$7,300,000 00	\$7,300,000 00
		R. S.	248	1386-8			
		R. S.	265	1556			
		R. S.	269	1569			
		R. S.	269	1573			
		R. S.	272	1595			
May 12, 1879	21	3	1				
Aug. 5, 1882	22	285-7	1				
Mar. 3, 1883	22	472,'3	1				
Mar. 3, 1885	23	340	1				
Mar. 2, 1889	25	809	1				
July 19, 1892	27	236	1				
NOTE.—The foregoing estimate is made up as follows: Pay of 1,496 officers on the active list..... \$3,435,000 Pay of 289 naval cadets under instruction..... 144,500 Pay of 391 officers on the retired list..... 862,442 Pay of 89 clerks..... 113,000 Pay of petty officers, seamen, landsmen, and boys (7,500 men and 750 boys)..... 2,593,869 Extra pay of petty officers and seamen reenlisting under honorable discharge..... 141,189 To pay interest on deposits by men, act February 9, 1889..... 10,000 Total..... 7,300,000 NOTE.—Although the detailed calculation of the amount required for pay of officers, seamen, etc., of the Navy gives a total of \$7,451,131, yet as the appropriation of the past two years, namely, \$7,300,000 has been sufficient for the purpose, it is believed by the Department that the average gains from vacancies, etc., not taken into account in the above calculation, are sufficient to reduce the required sum to that amount, which is therefore herein estimated for. For a detailed statement of the officers, &c., of the Navy, see Appendix M.							
<i>Pay, Miscellaneous—</i>							
Commissions and interest ; transportation of funds ; exchange ; mileage to officers while traveling under orders in the United States, and for actual personal expenses of officers while traveling abroad under orders, and for traveling expenses of apothecaries, yeomen, and civilian employes, and for actual and necessary traveling expenses of naval cadets while proceeding from their homes to the Naval Academy for examination and appointment as cadets ; for rent and furniture of buildings and offices not in navy-yards ; expenses of courts-martial, prisoners and prisons, and courts of inquiry, boards of investigation, examining boards, with clerks' and witnesses' fees, and traveling expenses and costs ; stationery and recording ; expenses of purchasing paymasters' offices of the various cities, including clerks, furniture, fuel, stationery, and incidental expenses ; newspapers and advertising ; foreign postage ; telegraphing, foreign and domestic ; telephones ; copying ; care of library, including purchase of books, photographs, prints, manuscripts, and periodicals ; ferrriage, tolls, and express fees ; costs of suits ; commissions, warrants, diplomas, and discharges ; relief of vessels in distress ; canal tolls and pilotage ; recovery of valuables from shipwrecks ; quarantine expenses ; reports, professional investigation, cost of special instruction at home or abroad in maintenance of students and attachés, and information from abroad and the collection and classification thereof, and other necessary incidental expenses.....	July 19, 1892	27	236	1	240,000 00	240,000 00
<i>Contingent, Navy—</i>							
All emergencies and extraordinary expenses arising at home or abroad, but impossible to be anticipated or classified, exclusive of personal services in the Navy Department or any of its subordinate bureaus or offices at Washington, D. C.....	July 19, 1892	27	237	1	7,000 00	7,000 00
BUREAU OF NAVIGATION.							
<i>Gunnery Exercises—</i>							
Prizes for excellence in gunnery exercises and target practice ; diagrams and reports of target practice for the establishment and maintenance of targets and ranges ; for hiring established ranges, and for transporting to and from ranges.....	July 19, 1892	27	237	1	6,000 00	6,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Ocean and Lake Surveys—</i>							
Ocean and lake surveys, the publication and care of the results thereof; the purchase of nautical books, charts, and sailing directions, and freight and express charges on same; preparing and engraving on copperplates the surveys of the Mexican coasts, and the publication of a series of charts of the coasts of Central and South America.....	July 19, 1892	27	237	1	\$14,000 00	\$14,000 00
<i>Outfits for Naval Apprentices—</i>							
Bounties for outfits of seven hundred and fifty Naval apprentices, at \$45 each.....	Mar. 1, 1889 July 19, 1892	25 27	789 237	1 1	}.....	33,750 00	30,000 00
<i>Transportation, Recruiting, and Contingent, Bureau of Navigation—</i>							
Expenses of recruiting for the naval service; rent of rendezvous and expenses of maintaining the same; advertising for men and boys; printing and all other expenses attending the naval service, and for the transportation of enlisted men and boys at home and abroad; for heating apparatus for receiving and training ships, and extra expenses thereof; for freight, telegraphing on public business, postage on letters sent abroad, ferriage, ice, apprehension of deserters and stragglers, continuous-service certificates, discharges, good-conduct badges and medals for boys; books, stationery, educational appliances and musical instruments for trainingships; packing boxes and materials, and other contingent expenses and emergencies arising under cognizance of the Bureau of Navigation unforeseen and impossible to classify.....	July 19, 1892	27	237	1	56,000 00	40,000 00
NOTE.—This increase of appropriation is asked in order that enlisted men in the Navy may be transported to and from the Pacific Coast by rail. The Pacific Mail Steamship Company frequently refuses to carry enlisted men from New York to San Francisco. On the 17th of August, 1892, the treasurer of the company at New York informed the Department that the company carried men only as a favor to the Government.							
<i>Naval Training Station—</i>							
Dredging channels, repairs to main causeway, roads, and grounds, extending sea wall, and the employment of such labor as may be necessary for the proper care and preservation of the same; for repairs to wharf and sea wall; for repairs and improvements on buildings; heating, lighting, and furniture for same; books and stationery, freight, and other contingent expenses; purchase of food and maintenance of live stock, and mail wagon and attendance on same.....	July 19, 1892	27	237	1	\$30,000 00		
Building the retaining wall, from material on the island, at \$3 per foot, and foundation.....	Submitted				2,500 00		
Two boilers, and extension of boiler house, with water tank and feed water tank.....do.....				7,000 00		
Purchase of one dynamo, 50 horse power, and extension of electric plant for Training Station and War College and Torpedo School.....do.....				4,500 00		
						44,000 00	18,000 00
<i>Naval War College and Torpedo School—</i>							
For maintenance of the Naval War College and Torpedo School on Coaster Harbor Island, and care of grounds for same.....	July 19, 1892	27	237	1	10,000 00	8,000 00
BUREAU OF ORDNANCE.							
<i>Ordnance and Ordnance Stores—</i>							
Procuring, producing, preserving, and handling ordnance material; for the armament of ships; for fuel, tools, and material, and labor to be used in the general work of the Ordnance Department; for furniture at magazines, at the ordnance dock, New York, and at the naval proving ground. (See note).....	July 19, 1892	27	237'8	1	220,000 00		
Expenses of target practice.....do.....				15,000 00		
Maintenance of naval proving-ground.....do.....				5,000 00		
Proof of naval armaments.....do.....				10,000 00		
						250,000 00	160,000 00
NOTE.—This increase is necessary for the reason that, besides keeping up the supply of ordnance stores of the old vessels, the ordnance outfits of the new vessels, after the latter are commissioned and receive their original allowance, have to be replenished from this appropriation.							
<i>Arming and Equipping Naval Militia—</i>							
Arms and equipments connected therewith for naval militia of various States, under such regulations as the Secretary of the Navy may prescribe.....	July 19, 1892	27	238	1	50,000 00	25,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

Six attendants at recitation rooms, library, store, chapel, and offices, at \$300 each.....	do.....				1, 800 00		
One bandmaster.....	do.....				528 00		
Twenty-one first-class musicians, at \$348 each.....	do.....				7, 308 00		
Seven second-class musicians, at \$300 each.....	do.....				2, 100 00		
Services of organist at chapel.....	do.....				300 00		
a. Increase of pay of one clerk in superintendent's office by law.....	Submitted.....				200 00		
b. Increase of pay of quarter-gunner to amount allowed by law.....	do.....				36 00		
c. Increase of 20 per cent on \$528, pay of bandmaster.....	do.....				105 60		
d. Increase of 20 per cent on \$348 each, pay of twenty-one first-class musicians (\$69.60 each).....	do.....				1, 461 60		
e. Increase of 20 per cent on \$300 each, pay of seven second-class musicians (\$60 each).....	do.....				420 00		
f. One bookbinder for Naval Academy.....	do.....				600 00		
g. Pay of electrician at Naval Academy.....	do.....				900 00		
h. One printer at Naval Academy.....	do.....				700 00		
						56, 794 20	52, 371 00
<i>Special Course, Naval Academy—</i>							
Special course of study and training of naval cadets, as authorized by act of Congress approved August 5, 1882. {	Aug. 5, 1882	22	285	1	}.....	5, 000 00	5, 000 00
	July 19, 1892	27	247	1			

a. Increase of pay asked for because his present rate of pay is not believed to be commensurate with the duties of his office, which are arduous and important.
 b. Increase asked in order that his pay may be made equal to that of a quarter-gunner in general service. His present pay was that given to such quarter-gunner before the last increase.
 c, d, e. An increase of pay for all bandsmen is asked, because it is believed that good men can earn more elsewhere than the present rate of pay, and as much as is asked for. If continued on the present rate of pay it is feared that the best will go, leaving only the indifferent musicians.
 f. The amount of bookbinding done at the Academy justifies the establishment of this position.
 g. The position of electrician, at \$900 is recommended because of the amount of work necessary to keep electrical apparatus in the several departments in proper working condition. The nature of the work requires a skilled mechanic, whose services are fully worth the amount asked for.
 h. The amount of printing done at the Academy justifies the establishment of this position.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>San Francisco Quarantine Station—</i> Completion of station, including naphtha launch, small boats, electric-light plant, adjunct buildings, cremation furnace, artesian wells, and grading reservation..	Aug. 1, 1888 Aug. 30, 1890 Aug. 5, 1892	25 26 27	356 387 367	1-3 1 1	23,000 00	18,500 00
<i>South Atlantic Quarantine Station—</i> Completion of wharves, cremation furnace, and for telephone line	Aug. 1, 1888 Mar. 3, 1891 Aug. 5, 1892	25 26 27	356 969 367	1-3 1 1	9,000 00	6,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1893—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<p>NOTE.—The governor of Alaska submits the following estimates for public buildings in Alaska:</p>							
<p><i>Public Buildings in Alaska—</i></p>							
To be occupied as court-house, jail, offices of United States commissioner, and United States marshal at Kadiak	Submitted.....				\$10,000 00		
To be occupied as court-house, jail, offices of United States commissioner, and United States marshal at Unalaska	Submitted.....				10,000 00		
					20,000 00		
<p>NOTE.—List of " * * * the number of persons employed outside of the District of Columbia, as superintendents, clerks, watchmen, and otherwise, and paid from appropriations for the construction of public buildings * * * " in accordance with the sundry civil act, approved March 3, 1887 (24 Stat., p. 512), will be found in Appendix Q.</p> <p>A statement of the expenditure of the appropriation for repairs and preservation of public buildings, in accordance with the sundry civil act approved August 30, 1890 (26 Stat., p. 374), will be found in Appendix R.</p>							
Total Public Buildings under Treasury Department.....						\$4,203,148 00	\$1,921,500 00
<p>LIGHT-HOUSES, BEACONS, AND FOG SIGNALS.</p> <p style="text-align: center;"><i>Indispensable.</i></p> <p>In the list of items classified as indispensable there are only included items which are urgently required for the protection, care, and efficiency of existing aids to navigation, or for carrying out the expressed will of Congress, and for which partial appropriation may have been made.</p> <p>Prices of labor and material have appreciated so much since these estimates were made, mainly by reason of the eight-hour law, that each of the following estimates should be increased 25 per cent to enable the Light-House Board to construct these works.</p>							
<p><i>Big Bay Point Light and Fog-Signal Station, Michigan—</i></p>							
Establishing a light and fog signal at or near Big Bay Point, Lake Superior, Michigan.....	Submitted.....					25,000 00	
<p>NOTE.—Quite a number of vessels have been wrecked on this point in past years.</p>							
<p><i>Cape Mendocino Light Station, California—</i></p>							
Construction of a roadway to the county road, additional...	Aug. 5, 1892	27	352	1		500 00	500 00
<p>NOTE.—The board asked \$1,000 for this purpose. An appropriation of \$500 was made last year. It is not sufficient. A further appropriation of \$500 is indispensable to do the work.</p>							
<p><i>Cedar Point Light Station, Maryland—</i></p>							
Establishing a light and fog signal on or near Cedar Point, mouth of Patuxent River, Chesapeake Bay.....	Submitted.....					25,000 00	
<p>NOTE.—The harbor at the mouth of the Patuxent River is the best on the western side of the bay. The light is needed to guide into this harbor, and also for the general navigation of the bay.</p>							
<p><i>Chicago Fair Bouyage, Illinois—</i></p>							
Establishing proper bouyage on the water front of Chicago, Lake Michigan, Illinois.....	Submitted.....					29,500 00	
<p>NOTE.—The presence of the Columbian Exposition at Chicago makes it needful to so buoy the water front at that city as to make it safe for the immense traffic in that locality during the World's Fair and which the general appropriations are not sufficient to provide.</p>							
<p><i>Chicago Breakwater Light Station, Illinois—</i></p>							
Completing the construction of a light-house and fog signal on the easterly end of the outer breakwater at Chicago, Lake Michigan, Illinois	Aug. 30, 1890 Submitted.....	26	375	1		15,500 00	
<p>NOTE.—The prevailing extreme low water has exposed the foundations of the tower. It is needful to reinforce it with at least 400 cords of riprap stone. Iron work which could be had when the estimates were made at 4¼ cents per pound now costs 6½ cents. The quantity of labor needed will, under the effect of the eight-hour act, cost now one-fifth more than then. The cost of the illuminating apparatus, \$5,600, was not included in the original estimate, as it was hoped that one in stock might be used, but which had to be used elsewhere.</p>							
<p><i>Escanaba Fog Signal, Michigan—</i></p>							
Establishing a fog bell at Escanaba Light Station, on or near Sand Point, Lake Michigan, Michigan	Submitted.....					1,100 00	
<p>NOTE.—A fog bell, struck by machinery, at this station would be a valuable aid to navigation.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<p><i>Fourteen-Mile Point Light and Fog-Signal Station, Michigan—</i> Establishing a light and fog signal at or near Fourteen-Mile Point, Lake Superior, Michigan</p> <p>NOTE.—All the commerce to and from Keweenaw Point passes directly by Fourteen-Mile Point. A new coast light is needed here.</p>	Submitted.....				\$20,000 00		
<p><i>Grassy Point Range Lights, Ohio—</i> Establishing a range-light station at Grassy Point for the Straight Channel, Maumee Bay, Ohio</p> <p>NOTE.—The Government is cutting this channel, which when completed will be 8 miles long. These range lights will be needed to make it navigable at night.</p>	Submitted.....				8,000 00		
<p><i>Grays Harbor Light and Fog-Signal Station, Washington—</i> Establishing a first-order light and fog-signal station at Grays Harbor, Washington, in addition to the \$15,500 already appropriated, which amount may be used therefor</p> <p>NOTE.—An appropriation of \$15,500 was made by the act approved on July 7, 1884, for a small harbor light here. Further examination and larger developments of trade showed that it would be inadequate to the needs of commerce at this point. Five years ago it was estimated that a proper station could be erected here for \$60,000 in addition to what had been previously appropriated.</p>	July 7, 1884 Submitted.....	23	198	1	60,000 00		
<p><i>Key West Light Station, Florida—</i> Increasing the height of the tower of the Key West light station, Florida.....</p> <p>NOTE.—The Board estimated that \$4,500 was needed to raise this tower 20 feet, that its light might be seen over obstructions. An appropriation of \$3,000 was made last year for this purpose, but it is insufficient. A further appropriation of \$1,500 is needed to do the work.</p>	Aug. 5, 1892	27	352	1	1,500 00	\$3,000 00	
<p><i>Marrowstone Point Fog Signal, Washington—</i> Establishing a fog bell at Marrowstone Point, Puget Sound, Washington</p> <p>NOTE.—A sharp turn is made at Marrowstone Point by vessels entering or leaving Puget Sound. A fog signal is much needed there in thick weather. If a Daboll trumpet is established at Point No Point the great bell now there can be utilized at Marrowstone Point for the sum named.</p>	Submitted.....				3,500 00		
<p><i>Oil Houses for Light Stations—</i> Establishing isolated oil houses for the storage of mineral oil</p> <p>NOTE.—The introduction of mineral oil into general use in the Light-House Service greatly increases the danger from fire and necessitates greater storage capacity. As there are no proper means at present of storing the large quantities for annual supply, it is proposed to erect small buildings entirely separated from any others, thus avoiding the danger from fire as far as possible.</p>	Oct. 2, 1888 Aug. 30, 1890 Aug. 5, 1892	25 26 27	509 375 352	1 1 1	15,000 00	10,000 00	
<p><i>Old Orchard Shoal Light Station, New York—</i> For finishing Old Orchard Shoal light station, New York.....</p> <p>NOTE.—The duty on the lens apparatus for this station was not estimated for or included in the appropriation for this light station.</p>	Mar. 3, 1891 Submitted.....	26	954	1	300 00		
<p><i>Oswego Fog Signal, New York—</i> Establishing a steam fog signal at Oswego light station, Lake Ontario, New York</p> <p>NOTE.—There is a bell at this station. Captains report failure to hear it when within half a mile. This uncertainty of a bell as a fog signal is generally admitted. The substitution of a steam fog signal for the bell is called for by commercial interests.</p>	Submitted.....				4,300 00		
<p><i>Patrol Steamer for St. Marys River, Michigan—</i> Hiring a patrol steamer for use on St. Marys River, Michigan</p> <p>NOTE.—An appropriation was made of this same amount for this same purpose by the last Congress. The patrol steamer is replacing the buoys which mark the channel lines in the river, immediately after their displacement by rafts and the like, and doing the work promptly and effectually. It is deemed necessary to continue this work.</p>	Aug. 5, 1892	27	352	1	4,000 00	4,000 00	
<p><i>Pere Marquette Fog Signal, Michigan—</i> Establishing a steam fog signal at or near Pere Marquette light station, Ludington, Lake Michigan, Michigan.....</p> <p>NOTE.—The extension of the pier on which the light stands is progressing rapidly and will soon be finished. A steam fog signal has long been needed, and its establishment is now practicable.</p>	Submitted.....				5,500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Point No Point Light Station, Maryland—</i> Establishing a light station on or near the shoal off Point No Point, Chesapeake Bay, Maryland.....	Submitted.....				\$35,000 00		
NOTE.—A deviation from their sailing course might carry vessels of heavy draft on to dangerous shoals. A light on this shoal is needed.							
<i>Quarry Point Fog Signal Station, California—</i> Establishing a steam fog bell or other fog signal at or near Quarry Point, Angel Island, San Francisco Bay, California.....	Submitted.....				6,000 00		
NOTE.—A fog signal at this point would be of great use to mariners. During foggy weather, especially since most of the wheat shipped from San Francisco is loaded at Port Costa, and the deep-water ships are towed there for cargo, a number of vessels have gone ashore near Quarry Point.							
<i>Rockland Lake Light Station, New York—</i> Establishment of a light-house and fog signal at or near Oyster Bed Shoal, Hudson River, opposite Rockland Lake Dock.....	Mar. 2, 1889 Submitted.....	25	889	1	} 35,000 00		
NOTE.—Steamers lay their course close by Rockland Lake Landing, making near there an important turning point. By placing a light and fog signal on the shoal off the landing much greater security will be given, especially as many of the new steamers are propellers of such draft as to make the shoal dangerous. This was authorized by the act of March 2, 1889, but no appropriation was made to do the work.							
<i>St. Catharine Sound Light Station, Georgia—</i> Establishment of a light station near the entrance to St. Catharine Sound, Georgia.....	Mar. 2, 1889 Submitted.....	25	1017	1	} 20,000 00		
NOTE.—An unlighted gap exists here between Tybee and Sapelo lights. A large number of vessels sight land for the first time in this locality. This was authorized by the act of March 2, 1889, but no appropriation was made to do the work.							
<i>St. Marys River Lights, Michigan—</i> For the further and more complete lighting of St. Marys River, Michigan, including the necessary light-vessels and patrol steamers and the maintenance of the whole for one year.....	Mar. 3, 1891 Submitted.....	26	954	1	} 145,562 00		
NOTE.—It was found impracticable in 1892 to complete the work made on the estimates of 1885, owing to the increased cost of labor and material. A light is now displayed from a temporary tower erected last year, which tower should be replaced by a permanent structure as soon as may.							
<i>Suel Choix Pointe Light Station, Michigan—</i> Completing the structures at Suel Choix Pointe, Lake Michigan, Michigan.....	Submitted.....				3,500 00		
NOTE.—It was found impracticable in 1892 to complete the work made on the estimates of 1885, owing to the increased cost of labor and material. A light is now displayed from a temporary tower erected last year, which tower should be replaced by a permanent structure as soon as may.							
<i>Staten Island Light-House Depot, New York—</i> Continuing the construction of the sea wall, rebuilding the south wharf, and dredging the basin at the general light-house depot at Tompkinsville, Staten Island.....	Aug. 5, 1892	27	352	1	75,000 00	\$25,000 00	
NOTE.—This sea wall, which is necessary for the protection of the wharves and vessels of the Light-House Establishment, is partially builded; the south wharf must be rebuilt because of the wall, and the basin made by the wall and the wharf must, to be made useful, be dredged out to a proper depth to float the vessels it is to protect.							
<i>Tender for the Third Light-House District—</i> Constructing, equipping, and outfitting, complete for service, a new steam tender for buoyage, supply, and inspection in the Third Light-House District, New York; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the light-house vessels, for which appropriation may be made during the Fifty-second Congress; such draftsmen to be paid from the appropriation for building said vessels; such employment to cease and determine on or before the date when, the plans for such vessels being finished, proposals for building said vessels are invited by advertisement.....	Submitted.....				95,000 00		
NOTE.—This tender is to take the place of an old side-wheel steamer which has been nearly worn out by service in Long Island Sound and on the sea coast of New York, which steamer is too small to properly do the largely increased work of the district, and is so slow that it takes a great deal of time unnecessarily to do her work, all of which can be more economically done by a faster modern-built steamer.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Tender for the Ninth Light-House District—</i>							
Constructing, equipping, and outfitting complete for service a new steam tender for use in the Ninth Light-House District; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the light-house vessels for which appropriation may be made during the Fifty-second Congress; such draftsmen to be paid from the appropriation for building said vessels; such employment to cease and determine on or before the date when, the plans for such vessels being finished, proposals for building said vessels are invited by advertisement.....	Submitted.....				\$95,000 00		
NOTE.—The <i>Dahlia</i> , which was built in 1873, is nearly worn out. A larger and faster vessel is needed, one strong enough to keep at work in the young ice while merchant vessels are running and which shall embody all the improvements made of late in lake vessels. As her headquarters will be at Chicago, and as she will be much visited during the Columbian Exposition, she should be a model light-house steam tender.							
<i>Waackaack Light Station, New Jersey—</i>							
Finishing Waackaack Light Station, New Jersey.....	Submitted.....				3,730 00		
NOTE.—The duty on the lens apparatus will be \$1,000. The increased cost on account of the eight-hour law will be \$600. The increased cost of superintendence will be \$1,630. A contingent expense fund of \$500 is needed to meet further unforeseen emergencies. None of these matters were included in the estimate or in the appropriation made for this work.							
<i>Willamette River Light and Fog-Signal Station, Oregon—</i>							
Establishing a light and fog-signal station at or near the mouth of the Willamette River, Oregon.....	Submitted.....				6,000 00		
NOTE.—The entrance to the Willamette River from the Columbia River is narrow, and vessels find it difficult in thick weather to locate that entrance. A light and fog-signal there would obviate that difficulty.							
<i>Yaquina Bay Lights, Oregon—</i>							
Establishing inexpensive lights at or near Yaquina Bay, Oregon.....	Submitted.....				300 00		
NOTE.—The growing commerce of this region makes night passage in and out of the bay necessary. The lights are required for the safety of the vessels going in and out at night.							
Total Indispensable.....					738,792 00	\$42,500 00	
<i>Necessary.</i>							
In the list classified as necessary are included, first, those items which have already been approved by acts of Congress, but for which no appropriations have been made; second, those items which, in the opinion of the Board, are urgently necessary for the safe and convenient navigation of the waters of the various localities.							
Prices of labor and material have appreciated so much since these estimates were made, mainly by reason of the eight-hour law, that each of the following estimates should be increased 25 per cent to enable the Light House Board to construct these works.							
<i>Ames Ledge Light Station, Maine—</i>							
Establishing a light at Ames Ledge, Kennebec River, Maine.....	Submitted.....				\$75 00		
NOTE.—The need of this light is shown by the fact that a private light is shown there now after a fashion. It is proposed to replace it by a red lens lantern beacon light mounted on a wooden spindle, to be maintained there during the season of navigation only.							
<i>Ballards Reef Light and Fog-Signal Station, Michigan—</i>							
Establishing a light-house and steam fog signal on or near Ballards Reef, Detroit River, Michigan.....	Submitted.....				100,000 00		
NOTE.—The private lights now kept after a fashion on this reef should be replaced by a Government light kept up to the Government standard.							
<i>Big Oyster Beds Light Station, New Jersey—</i>							
Establishing a light and fog signal at or near Big Oyster Beds Shoal, mouth of Maurice River, Delaware Bay....	Submitted.....				25,000 00		
NOTE.—It would be greatly to the interest of the small fishing craft navigating this river to establish a light at or near the southern edge of the shoal above mentioned.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.			References to Stats. at Large, or to Revised Statutes.	Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
	Vol. or R. S.	Page.	Sec.				
<p><i>Boston Harbor Light-Ship, Massachusetts—</i> Constructing, equipping and outfitting, complete for service a first-class steam light-vessel with a steam fog signal; and the Light-House Board is authorized to employ temporarily at Washington 3 draftsmen, to be paid at current rates, to prepare the plans for the light-house vessels for which appropriation may be made during the Fifty-second Congress; such draftsmen to be paid from the appropriation for building said vessels; such employment to cease and determine on or before the date when, the plans for such vessels being finished, proposals for building said vessels are invited by advertisement.....</p> <p>NOTE.—A vessel at the entrance to Boston Harbor about 6 nautical miles east by south of Boston light would be of great value to incoming vessels. During thick weather in approaching the harbor it is difficult to determine the location of the Boston light, and the bell at Minots Ledge is of doubtful utility.</p>	Submitted.....				\$70,000 00		
<p><i>Bridgeport Light Station, Connecticut—</i> Establishing a light station at or near the east end of the breakwater at Bridgeport, Conn.....</p> <p>NOTE.—The establishment of a light at the breakwater recently built at Bridgeport will make it available at night. Without a light it may act as an obstruction or danger to vessels entering the harbor on very dark nights.</p>	Submitted.....				2,000 00		
<p><i>Butler Flats Light Station, Massachusetts—</i> Establishing a light and fog signal on or near Butler Flats, entrance to the lower harbor of New Bedford, to take the place of Clarks Point and Fairhaven Bridge lights.....</p> <p>NOTE.—The entrance to the lower harbor of New Bedford, at Butler Flats, where vessels alter course, is narrow, and in fog and at night is obscure, difficult, and hard to find. If a light and fog signal were placed on Butler Flats vessels inward bound could run straight for it into the narrow entrance, and outward bound could run directly for it through the lower reach of channel. Vessels making the port in rough weather would be guided to good anchorage. The lights at Clarks Point and Fairhaven Bridge would no longer be needed, and could be discontinued.</p>	Submitted.....				45,000 00		
<p><i>Cape Flattery Light and Fog-Signal Station, Washington—</i> Reestablishing the fog signal at Cape Flattery Light Station upon a new site.....</p> <p>NOTE.—It is found that the fog signal at this important station will be much more effective as an aid to mariners if removed to West Island. The change would make it necessary to build new structures for accommodation of the signal and a new dwelling for the keeper.</p>	Submitted.....				17,000 00		
<p><i>Cheboygan River Front Range Light Station, Michigan—</i> Authorizing the purchase of additional land for the Cheboygan River Front Range light station, Straits of Mackinac, Michigan.....</p> <p>NOTE.—The light-house lot is narrow, and its entire front is occupied by the light-house buildings. The cellar is often inundated, and there is no drainage, or means of any, except over private land to the river. It is proposed to purchase an adjoining lot at the side of the light-house lot, which runs down to the river.</p>	Submitted.....				1,750 00		
<p><i>Deadman Island, San Pedro Harbor Light Station, California—</i> Establishing a light and fog-signal station at or near Deadman Island, to mark the entrance to San Pedro Harbor.....</p> <p>NOTE.—This is the seaport for Los Angeles, and large quantities of coal, lumber, and general freight are brought here.</p>	Submitted.....				5,000 00		
<p><i>Deer Point Light Station, Florida—</i> Establishing a light station on or near Deer Point, entrance to Santa Rosa Sound, Pensacola Bay, Florida....</p> <p>NOTE.—A small, inexpensive beacon light would be of decided benefit to the commerce of these waters.</p>	Submitted.....				1,000 00		
<p><i>Depot for the Ninth and Eleventh Light-House Districts, Michigan—</i> Establishing a supply and buoy depot at Scammons Harbor, Lake Huron, Michigan.....</p> <p>NOTE.—The depot for the Ninth Light-House District is at the southern end of Lake Michigan, at St. Joseph, while the depot for the Eleventh Light-House District is at Detroit, near the southern end of Lake Huron. A depot is needed near the northern end of the two lakes for the storage of coal, buoys, and other heavy supplies needed for use in the many light-houses in the upper parts of the two lakes.</p>	Submitted.....				15,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<p><i>Doboy Sound Range Lights, Georgia—</i> Establishing additional range lights to guide vessels from the present Sapelo Island Range to a safe anchorage.....</p> <p>NOTE.—The two present ranges guide vessels to the intersection of the Wolf Island and Sapelo Ranges, and leaves them there without guidance in a dangerous position if they anchor, and with the Knuckles and the Chimney Spit Shoal on either side if they proceed.</p>	Submitted.....				\$1,500 00		
<p><i>Doller Point Range Lights, Virginia—</i> Establishing range lights between Doller Point and Hog Island Wharf, James River, Virginia.....</p> <p>NOTE.—Lights are needed on James River, between Doller Point and Hog Island Wharf, to guide vessels through the narrow and shallow channel known as Goose Hill Slough, between Hog Island and Jamestown Island, and to guide through another difficult channel from Deep-Water Shoals light to Hog Island, where a sharp turn is made to enter Goose Hill Slough. The need is shown by the fact that lights have been maintained for several years at these points by private enterprise.</p>	Submitted.....				2,500 00		
<p><i>Doubling Point Light and Fog Signal Station, Maine—</i> Establishing a light, range lights, and a fog signal at or near Doubling Point, Kennebec River, Maine.....</p> <p>NOTE.—The need of these lights is shown by the fact that private lights have been shown there for some time after a fashion. It is proposed to replace them by a red lens-lantern light at the Point, showing up and down the river, and a fog bell, and by white range lights, not less than 500 feet apart, to mark the channel from Ram Island to Fiddlers Reach.</p>	Submitted.....				6,300 00		
<p><i>Eagle Harbor Fog Signal, Michigan—</i> Establishing a steam fog signal at Eagle Harbor light station, Lake Superior, Michigan.....</p> <p>NOTE.—A steam fog signal at this station would be a valuable aid to navigation.</p>	Submitted.....				5,500 00		
<p><i>Fort Wadsworth Light and Fog Signal Station, New York—</i> Moving the light now at Fort Tompkins to Fort Wadsworth, both in the Narrows, New York Harbor, New York, and establishing a fog signal at Fort Wadsworth..</p> <p>NOTE.—This change is needed because this light is now back of the point it is intended to mark. If placed as proposed it would better serve as a mark to the channel leading directly into New York Harbor. The proposed fog signal would be of special service to the large commerce going through the Narrows in thick weather.</p>	Submitted.....				1,500 00		
<p><i>Galloo Island Fog Signal, New York—</i> Establishing a steam fog signal at Galloo Island light station, Lake Ontario, New York.....</p> <p>NOTE.—Vessels need to locate this light as soon as possible. Fog and thick weather often prevail, especially in the fall. At such times the position of the station can only be made known by a fog signal.</p>	Submitted.....				5,700 00		
<p><i>Gas Buoys—</i> For purchase of gas buoys.....</p> <p>NOTE.—Gas buoys are needed to take the place temporarily of light-ships when under repair, to mark wrecks by night, and warn shipping from ledges, shoals, and other hidden dangers.</p>	Mar. 3, 1891 Submitted.....	26	956	1	30,000 00		
<p><i>Maumee Bay Range Lights, Ohio—</i> Establishing range lights on or near Grassy Point, Maumee Bay, Lake Erie, Ohio, and rebuilding the east beacon in the New Straight Channel, Maumee Bay, Lake Erie, Ohio.....</p> <p>NOTE.—The new Straight Channel in Maumee Bay is practically completed. This makes changes in the beacons necessary that the new channel may be used at night. When the above-named ranges are lighted both the Outer and Middle Maumee range lights can be discontinued.</p>	Submitted.....				4,100 00		
<p><i>Menasha Range Lights, Wisconsin—</i> Establishing range lights on Menasha River, a tributary to Lake Michigan, Wisconsin.....</p> <p>NOTE.—The reestablishment of the light which was discontinued and the establishment of another small light will guide vessels through the earth-cut and the rock-cut, which are quite intricate.</p>	Submitted.....				500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<p><i>Mobile Ship-Channel Lights, Alabama—</i> Establishing additional lights in the Mobile Ship Channel, Alabama.....</p> <p>NOTE.—This channel was cut by the Government at great expense. The lights already established are found to be insufficient for the growing commerce. Five additional light stations are required to make the channel fairly navigable at night.</p>	Submitted.....				\$60,000 00		
<p><i>New York Slough Light and Fog-Signal Station, California—</i> Establishing a light and fog-signal station at New York Slough, entrance to the San Joaquin River from Suisun Bay</p> <p>NOTE.—This slough constitutes a short and deep passage from Suisun Bay into the San Joaquin River, and is used by the steamers, sailing craft, barges, etc., engaged in the great river traffic of California. Accidents have been frequent and unavoidable at night and in fog. The Board has placed post lights here as a temporary expedient, but they are insufficient.</p>	Submitted.....				10,000 00		
<p><i>Old Mackinac Point Light Station, Michigan—</i> Providing additional land for the light-house site at Old Mackinac Point, Straits of Mackinac, Michigan.....</p> <p>NOTE.—It is necessary to add to the light-house site. The land needed will cost \$800 and the legal expenses may amount to \$200.</p>	Mar. 3, 1891 Submitted	26	954	1	1,000 00		
<p><i>Perkins Island Light Station, Maine—</i> Establishing a light at or near the southwest point of Perkins Island, Kennebec River, Maine.....</p> <p>NOTE.—The need of this light is shown by the fact that a private light has for some time been maintained there after a fashion. It is proposed to replace it by a fixed red lens-lantern beacon light with a white sector to the northward and a fog bell struck by machinery.</p>	Submitted				5,700 00		
<p><i>Peshigo Shoal Light and Fog-Signal Station, Wisconsin—</i> Establishing a light and fog signal at or near Peshigo Shoal, Green Bay, Lake Michigan, Wisconsin.....</p> <p>NOTE.—The large and important commerce of the vicinity is seriously incommoded by the lack of reliable marking of Peshigo Shoal which projects for a long distance into Green Bay.</p>	Submitted				10,000 00		
<p><i>Poes Reef Light-Ship, Straits of Mackinac, Michigan—</i> Constructing, equipping, and outfitting, complete for service, a steam light-vessel with steam fog signal.....</p> <p>NOTE.—The entire commerce of the Straits of Mackinac, said in 1890 to amount to 11,222,000 tons of freight, passes dangerously near this reef. It will cost much less to place a light-ship here, which can be removed at the close of navigation.</p>	Submitted				25,000 00		
<p><i>Point Hueneme Light Station, California—</i> Purchase of additional land for right of way between Point Hueneme light station and the county road.....</p> <p>NOTE.—An appropriation of \$250 was made for this purpose by the act approved on August 30, 1890, but it was found to be inadequate.</p>	Aug. 30, 1890 Submitted	26	375	1	1,000 00		
<p><i>Puget Sound Beacon Lights, Washington—</i> Establishing beacon lights and maintaining them for a year in or near Puget Sound and adjacent or tributary waters.....</p> <p>NOTE.—The demand for these lights is increasing with the growing commerce of these waters. Now that night passages are being attempted, beacon lights are necessary to safety.</p>	Submitted.....				10,000 00		
<p><i>South Boston Range Lights, Massachusetts—</i> Establishing range lights at or near Marine Park Pier and City Point, Boston Harbor, Massachusetts.....</p> <p>NOTE.—This range is needed to guide vessels coming up from Mix Mate to State Ledge turn.</p>	Submitted.....				1,000 00		
<p><i>South Fox Island Fog Signal, Michigan—</i> Establishing a steam fog signal at South Fox Island light station, Lake Michigan, Michigan.....</p> <p>NOTE.—The passage between South Fox and North Manitow Islands is much used by vessels. A steam fog signal here would make the passage available in thick weather.</p>	Submitted.....				5,500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Spectacle Island Range Lights, Massachusetts—</i> Establishing range lights on Spectacle Island, Boston Harbor, Massachusetts	Submitted.....				\$9,350 00		
NOTE.—These range lights are needed to mark the turning point into the channel for vessels coming up from Mix Mate.							
<i>Spring Point Ledge Light and Fog-Signal Station, Maine—</i> Establishing a light and fog signal on Spring Point Ledge, Portland Harbor, Maine.....	Submitted.....				45,000 00		
NOTE.—With a bell and a small light on Spring Point Ledge vessels could always change their course there in thick weather by day and by night at this dangerous point. More than half a million of passengers were carried by this ledge last year, and it is expected that the number will increase year by year.							
<i>Squirrel Point Light Station, Maine—</i> Establishing a light at or near Squirrel Point, Kennebec River, Maine	Submitted.....				4,650 00		
NOTE.—The need of this light is shown by the fact that a private light has been shown there for some time after a fashion. It is proposed to replace it with a fixed red beacon light from a lens lantern with a white sector to the southward.							
<i>Tibbett Point Light Station, New York—</i> Establishing a steam fog signal at Tibbett Point Light Station, Lake Ontario, New York.....	Submitted.....				4,300 00		
NOTE.—This light is at the entrance to the St. Lawrence River. Fogs largely prevail there. It is especially important that its location be made known in thick weather. This can only be done by a steam fog signal.							
<i>Two Bush Island Light and Fog-Signal Station, Maine—</i> Establishing a light and fog-signal station at Two Bush Island, west entrance to Penobscot Bay, Maine	Submitted.....				19,000 00		
NOTE.—Two Bush Channel leads into Penobscot Bay. Lighting it will make it available at night. This will relieve Muscle Ridge Channel, which is now much crowded by passing vessels.							
<i>Warwick Fog Signal, Rhode Island—</i> Establishing a steam fog signal at Warwick Light Station, Rhode Island.....	Submitted.....				5,000 00		
NOTE.—A steam fog signal is much needed at this point.							
<i>Wilson Harbor Light Station, New York—</i> Establishing a light station at or near Wilson Harbor, Lake Ontario, New York.....	Submitted.....				2,500 00		
NOTE.—In thick and foggy weather and after nightfall it is difficult for vessels to make this harbor. A light will make it much safer than it is now.							
Total Necessary.....						\$558,425 00	
<i>Desirable.</i>							
In the list classified as desirable there are included items which, in the opinion of the Board, are necessary to carry out the general scheme for the lighting of our coasts, and which would be of great service to navigation.							
Prices of labor and material have appreciated so much since these estimates were made, mainly by reason of the eight-hour law, that each of the following estimates should be increased 25 per cent to enable the Light-House Board to construct these works.							
<i>Absecon Buoy Depot, New Jersey—</i> Completion of the purchase of a site and the erection of a buoy depot at Absecon Inlet, New Jersey	Submitted.....				2,000 00		
NOTE.—An appropriation of \$1,500 for the purchase of a site and the erection of a buoy depot at Absecon Inlet, New Jersey, was made by act approved on October 2, 1888, but it was found that the amount was insufficient, and a further appropriation is needed.							
<i>Alligator River Light Station, North Carolina—</i> Establishing a light and fog-signal station at or near Great Shoal, at the mouth of the Alligator River, Albemarle Sound, North Carolina.....	Submitted.....				20,000 00		
NOTE.—Alligator River furnishes the only harbor for the 30 miles of coast between Croatan and Laurel Point Light-Houses in Albemarle Sound. This light is needed to make that harbor available at night.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
Baltimore Light and Fog-Signal Station, Maryland— Establishing a light and fog-signal station at or near the junction of New Cut-Off Channel and Craighill Channel, Baltimore Harbor, Maryland.....	Submitted.....				\$60,000 00		
<small>NOTE.—The Government has spent large sums in dredging out these two channels. This light is needed to make them available at night for large vessels. Owing to the push of moving ice at this point, a very strong and consequently expensive foundation for the light is needed.</small>							
Bayfield Light Station, Wisconsin— Establishing a light station at Bayfield, Lake Superior, Wisconsin.....	Submitted.....				5,000 00		
<small>NOTE.—This is said to be the best harbor of refuge on that coast. The commerce of the place also is increasing. To make the harbor available at night a light is needed.</small>							
Bay State Shoal and Oak Point Shoal Light Stations, New York— Establishing temporary floating lights on Bay State Shoal and Oak Point Shoal, Lake Ontario, New York.....	Submitted.....				800 00		
<small>NOTE.—These shoals are well marked with buoys, which serve for crossing by daylight. The need for vessels to cross at night is increasing each year. Two small flats with lantern lights will make the crossing safe at night.</small>							
Beaufort Harbor Range Lights, North Carolina— Establishing range lights at the entrance to Beaufort Harbor, North Carolina.....	Submitted.....				10,000 00		
<small>NOTE.—This is the only harbor of importance between Chesapeake Bay and Wilmington, a distance of some 200 miles. The channel across the bar is narrow but straight, and if properly marked by range lights would lead into the safest and easiest harbor to enter at night between Hampton Roads and Savannah.</small>							
Big Sable Fog Signal, Michigan— Establishing a steam fog signal at Big Sable light station, Michigan.....	Submitted.....				5,500 00		
<small>NOTE.—A steam fog signal is needed to complete this important light station. The entire traffic of Marquette, claimed in 1890 to be some 1,772,400 tons, passes close to this station. During southerly gales the whole commerce of Lake Superior is forced to hug the southern shore.</small>							
Black Ledge Light Station, Connecticut— Establishing a light and fog signal at or near Black Ledge, New London Harbor, Long Island Sound, Connecticut.....	Submitted.....				45,000 00		
<small>NOTE.—The numerous outlying shoals and ledges surrounding the entrance to this harbor make the approach to it dangerous in thick weather. The present light station is so far inside the obstruction that it is partially ineffective. The commerce of the harbor has greatly increased, and a naval station has been established in this harbor since the establishment of the old light.</small>							
Black River or Lorain Light Station, Ohio— Establishing a steam fog signal at Lorain, Lake Erie, Ohio.....	Submitted.....				4,300 00		
<small>NOTE.—A steam fog signal at this place would be of great local value.</small>							
Bodega Head Light and Fog Signal Station, California— Establishing a light and fog signal at or near Bodega Head, California.....	Submitted.....				30,000 00		
<small>NOTE.—The stretch of coast between Point Reyes light station and Bodega Head has become notorious as the scene of many wrecks, due to foggy weather and uncertain currents. It is believed that the establishment of a powerful fog signal and a small light will do away with its peculiar danger.</small>							
Boon Island Light Station, Maine— Construction of a keeper's dwelling.....	Submitted.....				3,400 00		
<small>NOTE.—Three keepers are employed at this station. There are but two sets of quarters. Another set of quarters is needed.</small>							
Cape Elizabeth Light Station, Maine— Construction of a keeper's dwelling.....	Submitted.....				3,300 00		
<small>NOTE.—Four keepers are employed at this station. There are now but three sets of quarters. Another set of quarters is needed.</small>							
Cape Fear Light Station, North Carolina— Establishment of a first-order light station at or near the pitch of Cape Fear, North Carolina.....	Submitted.....				150,000 00		
<small>NOTE.—The present Cape Fear (Bald Head) light, because of its inland location and lack of height, is inadequate as a proper aid to navigation. The interests of commerce require that a first-order light be established, on or near the pitch of Cape Fear, at the earliest date practicable.</small>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<p><i>Cape Fear River Range Lights, North Carolina—</i> Establishing range lights on the Cape Fear River in addition to those now there to guide through newly dredged channels.....</p> <p>NOTE.—The channels which the Government has dredged in Cape Fear River at large expense will be of little use at night until these lights are established.</p>	Submitted.....				\$3,105 00		
<p><i>Cape Lookout Shoals Light-Ship, North Carolina—</i> Constructing, equipping, and outfitting, complete for service, a first-class steam light-vessel with a steam fog signal; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the light-house vessels for which appropriation may be made during the Fifty-second Congress; such draftsmen to be paid from the appropriation for building said vessels; such employment to cease and determine on or before the date when, the plans for such vessels being finished, proposals for building said vessels are invited by advertisement.....</p> <p>NOTE.—A more powerful light is needed to warn vessels off these shoals, which extend 12 statute miles out from the pitch of the cape. It is impracticable to extend the light from the light-house much further, as the tower is now 150 feet high. The establishment of a light-ship with a steam fog signal off the outer end of the shoals is now deemed a necessity.</p>	Submitted.....				70,000 00		
<p><i>Cape May Boathouse, New Jersey—</i> To complete the purchase of a site and the erection of a boathouse for light-ships' boats at Cape May, N. J.....</p> <p>NOTE.—An appropriation of \$750 was made for this purpose by the act approved on October 2, 1888. The cost of the land and the legal expenses of obtaining it about exhausted the appropriation. The further appropriation is needed for the erection of a suitable building.</p>	Submitted.....				800 00		
<p><i>Carlton Island Light Station, New York—</i> Establishing a light station at or near Carlton Island, Lake Ontario, New York.....</p> <p>NOTE.—The channel for large vessels near Carlton Island, which crosses from the American to the Canadian side, is both dark and obscure. A small light would make it available at night to heavy tonnage.</p>	Submitted.....				8,600 00		
<p><i>Chequamegon Point Light and Fog-Signal Station, Wisconsin—</i> Moving and rebuilding the main La Pointe light and establishing a harbor bell and light at or near Chequamegon Point, Lake Superior, Wisconsin.....</p> <p>NOTE.—By the act of March 2, 1889, the steam fog signal was authorized and appropriated for. The present light at La Pointe should be nearer to the inner point, that it may be a great help to vessels to clear it. A harbor light and a fog bell should be placed on the inner point towards Houghton.</p>	Oct. 1, 1888 Mar. 2, 1889 Submitted.....	25 25	499 943	1 1	10,000 00		
<p><i>Clarks Ledge Light Station, Maine—</i> Establishing a light and fog-signal station on or near Clarks Ledge, entrance to St. Croix River, Maine.....</p> <p>NOTE.—A light and fog signal are needed here to guide vessels to the entrance to the river clear of the whirlpools off Deer Point and of the eddy above Dog Island, both of which are very powerful. Also needed to keep vessels off ledges above and below Dog Island, submerged at high water.</p>	Submitted.....				30,000 00		
<p><i>Devils Island Light and Fog-Signal Station, Wisconsin—</i> Constructing a permanent tower.....</p> <p>NOTE.—The light is now shown from a temporary skeleton frame tower. A permanent tower is needed.</p>	Mar. 3, 1891 Submitted.....	26	954	1	22,000 00		
<p><i>Dog River Bar Light Station, Alabama—</i> Establishing a permanent light station to mark the Dog River Bar Channel, Mobile Bay.....</p> <p>NOTE.—The present system of lights is inadequate for running vessels up to Mobile during the night.</p>	Submitted.....				20,000 00		
<p><i>Eagle River Light Station, Michigan—</i> Moving the light from Eagle River to Sand Hills.....</p> <p>NOTE.—This light has outlived its usefulness. If moved to Sand Hills it would be of great service as a coast light. Vessels bound east from the head of Lake Superior first make the land and commence to turn in rounding Keewenaw Point, at Sand Hills, 12 miles west of Eagle River.</p>	Submitted.....				20,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<p><i>Fairport Light and Fog-Signal Station, Ohio—</i> Establishing a steam fog signal at Fairport Harbor, Lake Erie, Ohio.....</p> <p>NOTE.—The bell used as a fog signal at this station is inefficient, and should be replaced by a steam fog signal.</p>	Submitted.....				\$4,700 00		
<p><i>Forty-Mile Point Light and Fog-Signal Station, Michigan—</i> Establishing a light and steam fog signal in the vicinity of Hammond's Bay, about half-way between Cheboygan and Presqu'ile Lights, Lake Huron, Michigan.....</p> <p>NOTE.—There is no light on the 50 miles of coast between Cheboygan and Presqu'ile lights. The commerce of the vicinity is of great magnitude and value, and due regard for its safety makes it requisite that a light and steam fog signal should be placed somewhere about midway between the two named.</p>	Submitted.....				25,000 00		
<p><i>Gladstone Light Station, Michigan—</i> Establishment of a light-station to guide into Gladstone Harbor, Little Bay de Noquette.....</p> <p>NOTE.—It is stated that the Minneapolis, Sault St. Marie and Atlantic Railroad will make this an important shipping port. Last year over 300 vessels entered the harbor, and it is expected that next year the number will exceed 1,000.</p>	Submitted.....				10,000 00		
<p><i>Grand Marais Light and Fog Bell, Michigan—</i> Establishing a light and fog-signal station at or near Grand Marais, harbor of refuge, Lake Superior, Michigan.....</p> <p>NOTE.—Grand Marais has been for some time under improvement by the United States as a harbor of refuge, and the work is now so far advanced that, if lighted, it can be used at night.</p>	Submitted.....				15,000 00		
<p><i>Green Island Light Station, Maine—</i> Establishing a light station on Green Island, near the entrance to Burnt Coat Harbor.....</p> <p>NOTE.—Burnt Coat Harbor is an excellent and capacious harbor of refuge. The range lights which guided to the harbor were unsatisfactory, and a vessel was wrecked in 1883, while trying to make the harbor by their aid. One of them was accordingly discontinued, and it is proposed to erect in its stead a light-house on Green Island, about 1 mile to the southward of the entrance.</p>	Submitted.....				12,000 00		
<p><i>Heron Neck Light Station, Maine—</i> Construction of a keeper's dwelling.....</p> <p>NOTE.—The keeper's dwelling, which was built in 1853, was built by contract. The joints in its walls do not exclude moisture. The building is very damp. The site is of saturated soil. The dwelling is so unhealthy that 5 deaths have occurred in it.</p>	Submitted.....				3,300 00		
<p><i>Hillsboro Inlet Light Station, Florida—</i> Establishing a light-station at or near Hillsboro Inlet, seacoast of Florida.....</p> <p>NOTE.—A light on this important point is necessary to complete the system for this dangerous coast.</p>	Submitted.....				90,000 00		
<p><i>Hog Island Shoal Light-Vessel, Rhode Island—</i> Constructing, equipping, and outfitting, complete for service, a first-class steam light-vessel, with steam fog signal; and the Light-House Board is authorized to employ temporarily at Washington 3 draftsmen, to be paid at current rates, to prepare the plans for the light-house vessels, for which appropriation may be made during the Fifty-second Congress; such draftsmen to be paid from the appropriation for building said vessels; such employment to cease and determine on or before the date when, the plans for such vessels being finished, proposals for building said vessels are invited by advertisement.....</p> <p>NOTE.—The vessel now on this station is old, obsolete in fittings, structurally weak, and will hardly more than last until a proper vessel is built to take her place.</p>	Submitted.....				70,000 00		
<p><i>Hog Island Light Station, Virginia—</i> Establishing a first-order light to take the place of the fourth-order one now at Hog Island, south side of Great Machipongo Inlet, seacoast of Virginia.....</p> <p>NOTE.—The light now on Hog Island does not illuminate the entire interval between Assateague and Cape Charles. It is considered important to commerce that this dangerous coast should be fully lighted, and it is therefore proposed to place a first-order light on a tower 150 feet high.</p>	Mar. 3, 1891 Submitted.....	26	955	1	125,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Inside Passage Beacon Lights, Georgia and Florida—</i> Establishing beacon lights in the Inside Passage from Savannah, Georgia, to Fernandina, Florida.....	Submitted.....				\$4,000 00		
NOTE.—This passage, which runs nearly parallel with the ocean, is largely used in daylight by river steamers and small craft not strong enough to go to sea. The establishment of some 25 post lights would make it almost equally navigable by night.							
<i>Lazaretto Point Light-House Depot, Maryland—</i> Construction of a dwelling for the accommodation of the keeper of the Lazaretto Point Light-House depot	Submitted.....				2,500 00		
NOTE.—The quarters now occupied by the keeper are in the warehouse; they are unsuitable and uncomforable. It would cost nearly as much to make the present quarters habitable as it would to build a new dwelling, even if the room thus occupied was not required for other purposes. The depot-keeper must be constantly on the spot, and therefore can not live away from the premises.							
<i>Libby Island Light Station, Maine—</i> Construction of a keeper's dwelling.....	Submitted.....				3,200 00		
NOTE.—There are three keepers employed at this station. There are but two sets of quarters. Another set of quarters is needed.							
<i>Little Gull Island Light and Fog-Signal Station, Michigan—</i> Establishing a light and fog-signal station on or near Little Gull Island, St. Martins Passage, entrance to Green Bay, Lake Michigan, Michigan.....	Submitted.....				20,000 00		
NOTE.—St. Martins Passage, though relatively narrow, is deep and clear, and can be made, by a light and fog signal on Little Gull Island, and another on the northwest end of St. Martins, which has been recommended elsewhere, a very excellent passage.							
<i>Little River Fog Signal, Maine—</i> Establishing a steam fog signal in place of the bell now at the Little River light station, Cutler Harbor, Maine.....	Submitted.....				10,500 00		
NOTE.—Cutler Harbor is a station of the Eastport, St. Johns, and Bay of Fundy pilots. It is rapidly growing as a summer resort. Vessels entering the Bay of Fundy first make Libby Island, and then try to make Little River light. Steamers of the International Line wish to make this harbor a stopping place. They carry much freight and many passengers. It is the only near harbor of refuge, and is used as such by vessels when they can get in; but this is impossible in a fog without a fog signal. On July 21, 1889, the Spanish steamer Eduardo, bound for St. Johns, struck on Old Man Ledge, 2 miles south of Cutler Harbor, during a dense fog. The crew of 40 persons was saved, but the ship, valued at \$285,000, was a total loss.							
<i>Ludington Pierhead Light and Fog-Signal Station, Michigan—</i> Construction of a light-keeper's dwelling at or near Ludington Pierhead light and fog-signal station, Lake Michigan, Michigan.....	Submitted.....				4,500 00		
NOTE.—There is no dwelling for the light and fog-signal keepers at this station. One is needed.							
<i>Manistique Light-House and Fog Signal, Michigan—</i> Establishing a light-house and fog signal on or near Pointe aux Barques, Lake Michigan, Michigan.....	Submitted.....				32,000 00		
NOTE.—There is a space of 13¾ miles off Pointe aux Barques not covered by any light.							
<i>Manitowoc Light Station, Wisconsin—</i> Establishing a steam fog signal at Manitowoc Pierhead light station, Lake Michigan, Wisconsin.....	do.....				5,500 00		
NOTE.—The establishment of a steam fog signal at this light station would promote the interests of an important and growing trade.							
<i>Mary Island Light Station, Alaska—</i> Establishing a beacon light at or near Mary Island, Alaska, and maintaining it for one year.....	Submitted.....				800 00		
NOTE.—The establishment of an inexpensive light at Mary Island, Alaska—say a lens-lantern beacon—would assist vessels to make the place during the night and hold on. A custom-house has been established here, and hence many vessels have to make it a place of call.							
<i>Matinicus Rock Light Station, Maine—</i> Construction of a keeper's dwelling.....	Submitted.....				3,200 00		
NOTE.—Four keepers are employed at this station. They and their families are the only inhabitants of this rock. There are now but three sets of quarters for the four keepers. Another set is needed.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<p><i>Mendota Light Station, Michigan—</i> Reestablishing the light station at or near Mendota, Bete Grise Bay, entrance to Lac la Belle, Lake Superior, Michigan.....</p> <p>NOTE.—This light was discontinued in 1870, because of the failure of local business. The tower was taken away, but the keeper's dwelling remains. With the increase of shipping on Lake Superior Bete Grise Bay is being largely used by day as a harbor of refuge. A light will make it equally useful at night.</p>	Submitted.....				\$7,500 00		
<p><i>Mermenteau River Light Station, Louisiana—</i> Establishing a light station at or near the mouth of the Mermenteau River, Louisiana.....</p> <p>NOTE.—A small inexpensive light here would be of great benefit to vessels trading between Mermenteau and Galveston.</p>	Submitted.....				7,000 00		
<p><i>Mount Cornelia Light Station, Florida—</i> Establishment of a first-order light station on or near Mount Cornelia, north side of the mouth of the St. Johns River, Florida.....</p> <p>NOTE.—The light now maintained at the mouth of the St. Johns River is of the third order. For years there have been complaints of its inefficiency as a seacoast light. A first-order light on Mount Cornelia would answer the requirements of commerce.</p>	Submitted.....				175,000 00		
<p><i>North Head Light Station, Washington—</i> Establishment of a first-order light on North Head, Cape Disappointment, seacoast of Washington.....</p> <p>NOTE.—The present light at Cape Disappointment is inadequate. It is proposed to establish a first-order light at North Head and reduce that at Cape Disappointment to the fourth order. When the proposed lights which are being constructed at Grays Harbor and Destruction Island are completed it will only need the proposed light at North Head to finish the lighting of the coast from Cape Flattery to Tillamook Rock with first-order lights.</p>	Submitted.....				50,000 00		
<p><i>North Manitou Light and Fog-Signal Station, Michigan—</i> Establishing a light and fog signal station on the north end of North Manitou Island, Lake Michigan, Michigan..</p> <p>NOTE.—The passage between North Manitou Island and South Fox Island is one of the three passages between the Straits of Mackinac and Green Bay. There is a large traffic through this passage which is virtually unmarked. A light and fog signal here will be a valuable aid to lake navigation.</p>	Submitted.....				20,000 00		
<p><i>Hat (or Pats) Point Light and Fog-Signal Station, Minnesota—</i> Establishing a light and fog signal station at or near Hat (or Pats) Point near Grand Portage, Lake Superior, Minnesota.....</p> <p>NOTE.—This would serve as a coast light and guide into two excellent harbors, one on each side, viz. Grand Portage Bay and Wausaugoning Bay. The harbor of Refuge near this point is the only one on the north side of Lake Superior. There is none on the Canadian side.</p>	Submitted.....				15,000 00		
<p><i>Plum Beach Light and Fog-Signal Station, Rhode Island—</i> Establishing a light and fog signal station at or near Plum Beach, Narragansett Bay, Rhode Island.....</p> <p>NOTE.—The great Sound steamers plying between New York City and Providence are in extreme hazard while running between Warwick Neck and Dutch Island, as, while trying to avoid Dutch Island, they may run on to Plum Beach, as is shown by the recent grounding of the steamer <i>Pegot</i>.</p>	Submitted.....				60,000 00		
<p><i>Point Arguello Light and Fog Signal Station, California—</i> Establishing a light and fog-signal station at or near Point Arguello, seacoast of California.....</p> <p>NOTE.—This is a prominent point about 12 miles north of Point Conception, and one of the foggiest regions of the Pacific coast. A sharp bend in the coast here makes it particularly desirable that proper aids should be established.</p>	Submitted.....				35,000 00		
<p><i>Point Buchon Light and Fog-Signal Station, California—</i> Establishing a light and fog-signal station at or near Point Buchon, near San Luis Obispo.....</p> <p>NOTE.—This is a prominent and dangerous point, where vessels going to and from Port Harford make a sharp turn.</p>	Submitted.....				33,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<p><i>Point Pinos Light Station, California—</i> Purchase of land for landing supplies at Point Pinos light station, entrance to Monterey Harbor.....</p> <p>NOTE.—There is at present no sea front to the light-house site. For convenience of landing stores and supplies it is essential that the United States should own a strip between the light-house and the seacoast.</p>	Submitted.....				\$2,000 00		
<p><i>Pork Point Light Station, North Carolina—</i> Establishing a light and fog-signal station off Pork Point, Roanoke Island, Croatan Sound.....</p> <p>NOTE.—A large inland commerce navigates these waters and many serious accidents have occurred at this place for want of a light. It is also a turning point for vessels navigating the sound.</p>	Submitted.....				20,000 00		
<p><i>Port Clinton Light Station, Ohio—</i> Reestablishing the light station at Port Clinton, Lake Erie, Ohio.....</p> <p>NOTE.—The eight or ten fishing tugs belonging to this port need the light to enable them to get in at night. The old light-house, which still stands on the pier, can be refitted for the sum named.</p>	Submitted.....				1,500 00		
<p><i>Portage Lake Ship Canal Pierhead Fog Signal, Michigan—</i> Establishing a fog signal at Portage Lake Ship Canal Pierhead light station, Lake Superior, Michigan.....</p> <p>NOTE.—The United States Government within the last year has bought, at a cost of \$350,000, these canals. The fog signal is needed to supplement the light now there to make the canals accessible during thick and foggy weather.</p>	Submitted.....				5,500 00		
<p><i>Portage Lake Light Station, Michigan—</i> Constructing a keeper's dwelling at or near Portage Lake Pierhead Range, Portage Lake Harbor, Lake Michigan..</p> <p>NOTE.—A dwelling for the keeper of this new light should be erected, as there are but few houses in this vicinity which can be used as quarters.</p>	Submitted.....				3,500 00		
<p><i>Porte des Morts Range Lights and Fog-Signal Station, Michigan—</i> Establishing range lights and a steam fog signal on or near Plum Island in the Porte des Morts (Death's Door) passage, entrance to Green Bay, Lake Michigan, Michigan...</p> <p>NOTE.—These aids to navigation would be invaluable to vessels going through this passage at night or in thick weather.</p>	Submitted.....				21,000 00		
<p><i>Presqu'île Pierhead Fog Signal, Pennsylvania—</i> Establishing a steam fog signal at Presqu'île Pierhead light station, entrance to Presqu'île Bay, Erie Harbor, Lake Erie, Pennsylvania.....</p> <p>NOTE.—The bell used here is ineffective and should be replaced by a steam fog signal.</p>	Submitted.....				4,300 00		
<p><i>Punta Gorda Light and Fog-Signal Station, California—</i> Establishing a light and fog-signal station at or near Punta Gorda, between Shelter Cove and Cape Mendocino, California.....</p> <p>NOTE.—There are here several dangerous sunken rocks that add to the hazards of navigation, and in dark nights the overhanging mountains keep the shore line in dark shadows, so as to confuse even the most experienced.</p>	Submitted.....				40,000 00		
<p><i>Round Island Light and Fog-Signal Station, Michigan—</i> Authorizing the establishment of a light and steam fog signal at Round Island, Lake Huron, Michigan.....</p> <p>NOTE.—This light and fog-signal are needed to enable vessels to hold a safe and close course through the narrow strait between Mackinac and Round islands. As Round Island is owned by the Government a site can be provided without expense.</p>	Submitted.....				15,000 00		
<p><i>St. Joseph Pierhead Fog Signal, Michigan—</i> Establishing a steam fog signal on or near the north pier of St. Joseph Harbor, Lake Michigan, Michigan.....</p> <p>NOTE.—The fog bell at the light tower is ineffective and should be replaced by a steam fog signal.</p>	Submitted.....				5,000 00		
<p><i>St. Joseph Point Light Station, Florida—</i> Establishing a light station at or near St. Joseph Point, in St. Joseph Bay, west coast of Florida.....</p> <p>NOTE.—This light is needed to guide into St. Joseph Bay, the only harbor of refuge for some 60 miles. It would be of great advantage to the numerous fishing vessels on this coast.</p>	Submitted.....				25,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.			References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
	Vol. or R. S.	Page.	Sec.	Vol. or R. S.	Page.	Sec.			
<i>St. Martin Island Light-Station, Michigan—</i> Establishing a light and fog-signal station on or near St. Martin Island, entrance to Green Bay, Lake Michigan, Michigan.....	Submitted.....						\$15,000 00		
NOTE.—The passage between St. Martin Island and Little Gull Island, if marked by lights and fog signals, would be much safer than the Poverty Island Passage, as the entrance is capacious and unobstructed.									
<i>Salem Creek Light Station, New Jersey—</i> Establishing a light station at or near the mouth of Salem Creek, southern side New Jersey	Submitted.....						800 00		
NOTE.—The mouth of the creek is hard to find at night. The quantity of commerce to and from Salem will amply justify the establishment of a small, inexpensive light which will prevent vessels from grounding in trying to get in or from lying off the creek all night waiting for lights to see to get in.									
<i>Seul Choix Pointe Light and Fog Signal, Michigan—</i> Increasing the appropriation for establishing a light and fog-signal station at or near Pointe Seul Choix, Lake Michigan, Michigan.....	May 1, 1886 Aug. 4, 1886 Submitted.....	24 24	19 225	1 1			5,500 00		
NOTE.—An appropriation of \$15,000 was made by act of August 4, 1886. It has been found insufficient; \$3,500 more is needed to establish the light, and \$5,500 more is also needed to place a steam fog signal here.									
<i>Sheboygan Pierhead Light Station, Wisconsin—</i> Establishing a steam fog signal at Sheboygan Pierhead light station, entrance to Sheboygan Harbor, Wisconsin.....	Submitted.....						5,500 00		
NOTE.—The establishment of a steam fog signal on this pier would be an aid both to general navigation and to the commerce of the port.									
<i>Sheffield Harbor Light Station, Connecticut—</i> Establishment of a light station in Sheffield Harbor, Connecticut.....	Submitted.....						10,000 00		
NOTE.—A large and increasing commerce is now centering here. Last year nearly 100,000 tons of coal and more than that quantity of general merchandise were landed, and in view of new railway connections it is said that the tonnage will be double. A light is needed at this point to make more certain the safety of life and property.									
<i>South Bass Light Station, Ohio—</i> Establishing a light station on or near South Bass Island, Lake Erie, Ohio.....	Submitted.....						8,600 00		
NOTE.—This light would aid vessels to clear the shoals in the south passage, which is much used by vessels bound to and from Sandusky and Marblehead, or to Toledo from the east, or during heavy blows from the northeast. The dangerous shoals in it are buoyed, and so are practicable for daylight passages. The light is needed to make these passages practicable by night.									
<i>State Ledge Light Station, Massachusetts—</i> Establishing a light-house and fog signal at or near State Ledge, Boston Harbor	Submitted.....						42,000 00		
NOTE.—Required to mark an important turning point in the main ship channel, Boston Harbor. Large steamers are obliged to anchor in thick weather because they have no guide between Mix's Mate and the wharves.									
<i>Statue of Liberty Light Station, New York—</i> Completing the pedestal of the Statue of Liberty Enlightening the World, Bedloe Island, New York Harbor.....	Mar. 3, 1887 Submitted.....	24	516	1			50,000 00		
NOTE.—Congress having placed this statue under the care of the Light-House Board, it is found that the above sum is required to complete the structure.									
<i>Sturgeon Bay Canal Light Station, Michigan—</i> Establishing a light station at or near the entrance to the Sturgeon Bay Ship Canal, Lake Michigan, Michigan.....	Submitted.....						20,000 00		
NOTE.—A large and increasing commerce passes the canal, both up and down the lake and in and out of the canal. A coast light is requisite for its safety.									
<i>Swan Point Bar Light Station, Maryland—</i> Establishing a light and fog-signal station on or near Swan Point Bar, opposite Bodkin Point, Chesapeake Bay, Maryland	Submitted.....						50,000 00		
NOTE.—This is an important turning point for vessels navigating Chesapeake Bay. It is proposed to place a light-house in 12 feet of water on the extreme point of the bar. It must be strong enough to withstand ice.									

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.

NAVAL ACADEMY.							
<i>Buildings and Grounds—</i>							
One new boiler house and fittings (to be immediately available).....	Submitted.....				\$26,000 00		
<p>NOTE.—At no time have the quarters been adequate for the accommodation of all the officers attached to the academy, and the hardship of renting comes upon the juniors, who can least afford the expense.</p> <p>The heating arrangements are inadequate for the present needs, and are inconveniently located. At present there are two boiler houses, widely separated, each one requiring the attendance which would suffice for one, and thereby causing additional expense of maintenance. The boilers have been in use from twenty to twenty-four years, and must soon be replaced. The buildings in which they are set up would require material alterations and additions if modern boilers were put into them. It would be true economy to provide a suitable building now.</p>							
Total Naval Academy.....					26,000 00		
NEW NAVAL OBSERVATORY.							
<i>Grounds and Roads—</i>							
For continuing grading, extending roads and paths, clearing grounds of New Naval Observatory and filling ravine contiguous to boiler house.....	July 19, 1892 Submitted.....	27	242, 3	1	12,000 00		
<p>NOTE.—The new observatory grounds contain 70 acres of land much of which is rough wooded with wild undergrowth and intersected by ravines. The heavy grading, filling, curbing, and roads have been completed in the immediate vicinity of the main building. The ravine behind the boiler-house requires immediate filling to prevent the foundations of the building being undermined and washed out in heavy rains. The system of roadways and paths to connect the various buildings has been commenced.</p>							
<i>Stationary Fire Engine—</i>							
For one stationery fire engine with pipes, connections, and frame shelter.....	Submitted.....				4,500 00		
<p>NOTE.—The capacity of the present pumping engines and stand-pipe is not adequate for the extinction of any extensive fire. It is proposed therefore to utilize the pond in the Industrial Home grounds, adjoining the Observatory grounds, as a reserve.</p>

<i>Annual Repairs of the Capitol—</i> Work at the Capitol and for general repairs thereof, including wages of mechanics, laborers, and fresco painters.....	Aug. 5, 1892	27	367	1	\$20,000 00	\$20,000 00
<i>Improving the Capitol Grounds—</i> Continuing work of improvement of the Capitol grounds, and for the care of the grounds, one clerk, and the pay of mechanics, gardeners, and laborers, and for artificial stone pavement.....	Aug. 5, 1892	27	368	1	15,000 00	15,000 00
<i>Lighting the Capitol and Grounds—</i> Lighting the Capitol and grounds about the same, including the Botanic Garden and the Senate and House stables; for gas and electric lighting; for use of electric-lighting plants in Senate and House wings, at not exceeding \$200 per month during the sessions of Congress; pay of superintendent of meters, lamp-lighters, gas-fitters, and for materials and labor for gas and electric lighting, and for general repairs.....	Aug. 5, 1892	27	368	1	24,000 00	24,000 00
<i>Electric lighting plant, Senate—</i> Towards the purchase and for the extension and repair of the electric lighting plant of the Senate wing, \$10,000, and the Architect of the Capitol is authorized to purchase the present plant when the same shall have been changed to a direct current; and for this purpose the balance of the appropriation "for introducing the electric light into the entire Senate wing of the Capitol," approved August 4, 1886, and so much of the amount above appropriated as may be necessary shall be available for the purpose above named.....	Submitted.....				10,000 00	
<i>Electric lighting plant, House—</i> Purchase of the electric lighting plant of the House wing. Repairs and extension of the same to meet the present requirements of the service.....	Submitted.....do.....				10,392 63 5,000 00	
<i>Buildings and Grounds, Government Hospital for the Insane—</i> General repairs and improvements.....	Aug. 5, 1892	27	372	1	\$16,000 00		
NOTE.—The amount is the same as that appropriated for the present year. It will be required to keep the very extensive assemblage of buildings and their grounds in good condition, and at the same time provide for such changes and appliances as the progress in the care of the insane has shown to be desirable.							
Additional accommodations, viz: Pavilions for the epileptic insane..... Farm cottages for inmates at new farm.....do.....do.....				75,000 00 4,480 00		
NOTE.—The sum asked for distinct pavilions for the epileptic is intended to provide for one hundred and fifty of this class of the insane. It includes in the estimate heating apparatus and furnishing. The epileptic insane are a class who, by reason of their infirmities and peculiarities, are best cared for in distinct wards, and, preferably, whenever their numbers are sufficient to justify the outlay, in distinct buildings with grounds set apart for their use. Their number, already more than 125 in the hospital, is increasing. They are difficult to properly provide for, and their association in the wards with other classes of the insane is a detriment to those whose sensibilities are shocked in witnessing their convulsions. The necessity for additional accommodations is shown by the fact that the buildings at present erected, which afford good accommodations for thirteen hundred, are now crowded by well-nigh sixteen hundred inmates; in other words, three hundred of the insane must each night lie down on beds placed in corridors or dormitories crowded beyond their proper capacity. This is a dangerous condition of things, with a wrong done to the insane, and a risk that the hospital authorities ought not to be required to take. The urgent need requires that the appropriation be made immediately available. The additional accommodation which can be most advantageously and economically made is that of farm cottages for inmates on the land lately purchased for the use of the hospital. These, if built of wood, should be constructed on the slow-burning plan and thoroughly treated with a fire-proofing compound. Thus constructed, their cost would not greatly exceed that of the ordinary farm cottage. These buildings will form the nucleus for an agricultural colony of the workingmen, and be a recognition of the dignity and rewards of labor among the insane. Quite a number of selected workmen will thus be provided for, who will there have the liberty and comforts of a home.							
Special repairs and improvements, viz: Detached kitchen for the Toner building..... Rebuilding machine shop.....do.....do.....				2,240 00 7,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>Buildings and Grounds, Government Hospital for the Insane—Cont'd.</i>							
Rebuilding and enlarging plant house.....	Aug. 5, 1892	27	372	1	\$2, 175 00	\$106, 895 00	\$41, 000 00
<p>NOTE.—The experience of the past excessively hot summer has shown the need of having a detached kitchen for the Toner building. This building is the infirmary for the sick and feeble male patients, and it has proved in other respects a most satisfactory and liberal provision for one hundred of that class. But the kitchen, located in the basement, proves objectionable during the summer months to the wards of the sick above by reason of the heat, and at all times by reason of the permeating odors from the cooking. A one-story building with basement, a little to the rear of the infirmary and connected to it by a passage below, will remedy this and give light and comfortable rooms for the preparation of special dishes for the sick. Seven thousand dollars will be required to rebuild the machine shop, which is unsafe by reason of a gradual settling of the foundations, the building having been built partly over filled ground and having been for more than thirty-five years subject to deterioration from the constant jar of machinery. There is daily use for its saws, planers, and molding machines, and the building should be at once rebuilt on an enlarged and secure foundation. By the gradual decay of the woodwork, the propagating house is falling to pieces and will have to be restored. This should be by replacing the present temporary structure with a permanent iron and glass house. All the bedding plants used in decorating the extensive grounds of the hospital are brought forward in this house during the winter for spring planting. They add an element of beauty to the summer landscape, enter into the moral treatment of the insane, and so become a medicine to the mind. The work is an essential one.</p> <p>The estimate for the current expenses, Government Hospital for the Insane, will be found under the title of "Miscellaneous," post.</p>							
<i>Buildings and Grounds, Columbia Institution for the Deaf and Dumb—</i>							
Inclosure and improvement of the grounds and special repairs on the buildings.....	Aug. 5, 1892	27	372	1		3, 000 00	2, 000 00
<p>NOTE.—The estimate for current expenses, Columbia Institution for the Deaf and Dumb, will be found under the title of "Miscellaneous," post.</p> <p>In explanation of the estimate, see Appendix S.</p>

UNDER THE WAR DEPARTMENT.							
ARSENALS.							
<i>Rock Island Arsenal, Rock Island, Ill.—</i>							
Artillery shed.....	Submitted.....				16, 000 00		
NOTE.—This amount is asked for to erect a building on the south side of the shops, opposite shop "G." Although this building has the same dimensions as the lumber shed, already built, the nature of the ground is such that there will be a considerable amount more of filling for this building. The foundation walls will be more expensive, and a flooring of concrete will make it cost more than that of the lumber shed. By commencing this building at the same time as storehouse "I," material obtained in excavating for the foundation of the storehouse can be used in filling in for the foundation of this building, and this estimate is made under that supposition.							
Coal dumps.....	do.....				10, 000 00		
NOTE.—This building is intended to hold all the coal of different varieties in use at the arsenal, in sufficient quantities to last at least one quarter, and being covered, will protect the coal from disintegrating, and should be built.							
Two laboratories.....	do.....				4, 000 00		
NOTE.—These laboratories are part of the permanent plan of ten laboratory buildings designed for the arsenal. The two here estimated for are needed for immediate use in preparing the artillery ammunition now prepared at this arsenal and issued to the Army.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Rock Island Arsenal, Rock Island, Ill.—Continued.</i>							
Grading, paving, and flagging streets and grounds about storehouse K.....	Submitted.....				\$2,000 00		
NOTE.—It is very essential to grade and pave the grounds around this storehouse, which will be finished this season with the funds on hand, if it is to be placed in a condition for use. With the immense quantity of stores received and issued at this arsenal, the need of this storehouse is very apparent, and it should be placed in a condition for use as at as early a date as possible.							
Machinery and shop fixtures	Aug. 5, 1892	27	373	1	15,000 00		
General care, preservation and improvement, etc., for painting and care and preservation of permanent buildings, and shores of the island; for building fences and sewers, grading grounds, etc., new floor for Moline bridge and painting and repairing all bridges.....do.....				15,000 00		
NOTE.—This sum is absolutely necessary for the ordinary care and preservation of the extensive buildings, roads, fences, grounds, shores of the island, water power, bridges, railroads, etc.							
Electrical plant for lighting shops and other buildings and grounds.....	Submitted.....				8,563 90		
NOTE.—No provision has yet been made for supplying this arsenal with light for the shops and surrounding grounds. During the recent Indian troubles it was necessary to run the shops after sunset, and the only method of affording light to the men was by means of candles and lanterns. This offered a very poor light, and was to a certain extent dangerous.							
Vitrified-brick and iron pavement for Shops E and F.....	Submitted.....				15,307 00		
NOTE.—These shops are without pavement, which is necessary for work to be done in them. Around machines and furnaces pavement to be cast-iron plates. The rest of floor space to be paved with vitrified brick.							
Removing the present unserviceable floor and paving basement of Shop C, the present combined carpenter, harness, and machine shops, with vitrified brick.....	Submitted.....				9,355 00	\$95,225 90	\$16,000 00
NOTE.—The basement floor is now in a condition of finely pulverized dust, caused by the constant passage of horses and heavy teams used in the present current work. This dust rises up through the hatch and stairways and settles over everything—stores and machinery—in every part of the building, to the great detriment of the building, work going on, and stores in it, and the machinery.							
<i>Rock Island Bridge, Rock Island, Ill.—</i>							
Operating and care and preservation of Rock Island bridges and viaduct.....	Aug. 5, 1892	27	373	1	5,000 00		
NOTE.—This estimate is for the care and preservation of the bridge between Davenport, Iowa, and Rock Island, Ill., and the island and the road and causeway connecting the bridges. It includes the ordinary repairs, but is mainly for the expense and maintenance and operating the draw, for which three sets of hands, consisting of engineer, fireman, and tender, are required, and guards for maintaining order on the long bridges in their large use by the public. This large use also causes considerable wear and tear and necessity for repairs.							
Protecting Rock Island Bridge by means of sheer booms.....do.....				250 00	5,250 00	60,250 00
NOTE.—This sum is required for taking the boom into winter quarters to prevent its destruction by ice, for replacing it in position again in the spring, and for necessary repairs.							
<i>Springfield Arsenal, Springfield, Mass.—</i>							
Repairs and preservation of grounds and of buildings and machinery not used for manufacturing purposes.....	Aug. 5, 1892	27	374	1	10,000 00	10,000 00	10,000 00
<i>Allegheny Arsenal, Pittsburg, Pa.—</i>							
Grading sidewalks and putting down a brick pavement on Thirty-ninth and Fortieth streets, adjoining arsenal wall.....	Submitted.....				7,500 00		
NOTE.—A brick pavement is necessary to accommodate the constant foot travel along the streets surrounding the arsenal. From the curb-stone to the arsenal wall there is nothing but earth; the opposite sides of these streets—private property—are built up and well paved. There is a population of at least about 40,000 people living about the arsenal, and the travel from this population is constantly passing along these streets that are not paved on the Government side.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ended June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Benicia Arsenal, Benicia, Cal.—</i>							
Construction, repairing, and preservation of roads, walks, and fences, grading grounds, and repairs of permanent buildings.....	Aug. 5, 1892 Submitted.....	27	374	1	\$5,000 00		
NOTE.—The roads about the arsenal should be thoroughly repaired and macadamized. They are now very poor, and during the rainy season some are almost impassable. Many of the buildings have had but few repairs since their erection.							
Establishing a complete and proper system of sewerage, and to perfect the plumbing system at officers' quarters Nos. 1, 2, 3, and 4.....	Submitted.....				10,000 00		
NOTE.—There are no such things that can rightly be designated main sewers existing at this arsenal. Attention is invited to letter to the Chief of Ordnance, dated November 29, 1890, and the report of the attending surgeon and estimate which accompanied it (see House Ex. Doc. 83, 51st Cong., 2d sess.). The difference in the amount called for in this estimate and the estimate submitted November 29, 1890, is required on account of additional pipe and excavation found necessary.							
One steam pumping engine for artesian well	do.....				1,000 00		
NOTE.—The present engine is old, single-acting, and requires constant overhauling. The supply of artesian well water, although limited, is of considerable importance as an additional water supply for this post.							
Repairs of wharf and dredging around same.....	do.....				2,000 00		
NOTE.—The wharf needs replanking throughout and many piles are loose and will have to be replaced by longer ones. The slip between the two parts of the wharf has filled in so much that it is now impracticable to unload freight schooners at the inner wharf.							
						\$18,000 00	\$2,050 00
<i>Columbia Arsenal, Columbia, Tenn.—</i>							
One set of officers' quarters (assistants').....	Aug. 5, 1892 Submitted.....	27	374	1	10,000 00		
NOTE.—An additional set of quarters is required for an assistant.							
Constructing roads	Submitted				2,000 00		
NOTE.—This amount will be required in order to thoroughly construct the roads laid down on the plans.							
Constructing walks	do.....				2,000 00		
NOTE.—Walks of some kind, affording means of communication between the different buildings, are an absolute necessity, and it is proposed to construct for this purpose suitable walks along the side of the roads shown in plan on plate LIV.							
Construction of a cistern of about 120,000 gallons' capacity	do.....				2,500 00		
NOTE.—A cistern of the above capacity, to be located between the storehouse and shop, is necessary in case of an emergency. No water is taken from the springs for any purpose, as they can not be relied upon. The Columbia Improvement Company has a 4-inch water main connecting with the one already laid on the arsenal grounds. There is no other source of supply, and the Department can not fix the price at which they will deliver water. The water in this main is taken from Duck River, a stream that is always very muddy. It is not, to say the least, desirable for drinking or household purposes otherwise than for use in bathrooms and water-closets. A large cistern, to collect and hold the water that falls on the roofs of the storehouse and shop, would be an unfailling supply and in a measure render the arsenal independent of the water company. I believe the best interest of the service requires the construction of such a cistern.							
Engine, boiler, iron tanks, steam pump, pipes, valves, couplings, etc.....	do.....				3,500 00		
NOTE.—The engine and boiler are needed for use in the repair shop, also for use in pumping water from the proposed reservoir into tanks to be located on the upper story of the storehouse, from which water can be forced to all of the buildings for ordinary use and as a protection against fire. At present the Department is paying \$400 per annum for the use of water, and is dependent for a supply upon the Columbia Improvement Co., who have no competitors and control the cost of delivery. The steam pump, tanks, pipes, valves, etc., are needed for use in connection with the proposed reservoir to secure an independent supply of water for all uses at this arsenal.							
Purchase and setting up of shade trees.....	do.....				500 00		
NOTE.—It is proposed to plant three rows of trees, one row on each side of the walk, and the other on the far side of the roadway. The trees should be about 16 feet apart, quick and slow growth alternating, as recommended in Colonel Flagler's report.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Columbia Arsenal, Columbia, Tenn.—Continued.</i>							
One 6-ton wagon scale.....	Submitted.....				\$600 00	\$21, 100 00	\$11, 500 00
<p>NOTE.—The wagon scale is for use in receiving and issuing such stores as hay, coal, straw, etc., is absolutely necessary for this purpose, and should be provided. Provision is made in the amount asked for for the erection of a shed over the scale to protect it from the inclemency of the weather.</p>							
<i>Frankford Arsenal, Philadelphia, Pa.—</i>							
Taking down and rebuilding a portion of the stone wall on Frankford Creek and along the dike on the east side of the arsenal, and for making better provision for the drainage of and reclaiming the lands below the tide level.....	Submitted.....				6, 800 00		
<p>NOTE.—The retaining for earth dike along the creek is a vertical dry stone wall with large open joints of insufficient strength and stability and without good foundation. Tide water, especially when the wind blows, works out the earth through the joints into the creek, and involves labor and expense in renewing it. This and the insecurity of the wall causes frequent breaks in the latter and endangers breaks in the earth dike and the flooding of a large part of the arsenal grounds. It is proposed to replace portions of the wall with a better wall, on suitable foundations, laying portions of it in cement mortar, and at the same time and in connection with the wall work to provide better drainage for the low grounds and to strengthen the dike. The amount asked for is deemed sufficient for immediate necessities and will accomplish as much as can be done with the best advantage in a single year. The foregoing estimate and remarks have been in the annual estimate for nineteen years. The condition of the wall is getting worse each year (some portions are in imminent danger of falling down), and while repairs may patch it up for a time, the interests of economy will be better subserved by substantial relaying.</p>							
Procuring six new-pattern draw presses and one automatic compound double-acting press for use in making cartridges.....	do.....				5, 200 00		
Machines for manufacture of artillery ammunition.....	Aug. 5, 1892	27	374	1	6, 000 00		
<p>NOTE.—The sum of \$6,000 is to complete the original estimate of the last year, when only \$5,000 was appropriated (act of August 5, 1892). With funds now available the Department will be enabled during the present year to make some provisions for the manufacture of fixed ammunition, and 3.2-inch shrapnel for field guns in limited quantity. Samples of 3.6-inch shrapnel will also be prepared. The present estimate is required to provide for the manufacture of 3.6-inch, 5-inch, and 7-inch shrapnel.</p>							
Steam-heating apparatus for office.....	Submitted.....				810 00		
<p>NOTE.—The office is now heated by a hot-air furnace which is worn out and must be renewed or replaced, and the experience here is that in very cold weather, when heat is most needed in all parts of the building, only one side can be comfortably heated. The steam-heating apparatus introduced into the public quarters has proven successful.</p>							
Preparation of the rolling-mill building for the reception of the present cartridge plant, including the purchase and fitting up of the power plant and other appliances necessary for the present requirements of the Ordnance Department, and to meet the demands of an increased cartridge output in case of emergency, such as boilers, boiler house, engines and stack, annealing furnaces, dry house for cartridge primers, elevators, heating appliances, water closets, etc.....	do.....				52, 500 00	71, 310 00	5, 000 00
<p>NOTE.—The accommodations for manufacture of cartridges are limited and very inconveniently arranged. The various operations are of necessity conducted in four different detached buildings, not suited by reason of location or size for the most economical manufacture of even the present output. The average annual production is at the rate of about 24,000 per day of eight hours, which can be increased to 36,000 per day of eight hours. All the room is occupied, giving no space for further extension of any description. The proposed building offers space enough under one roof for convenient arrangement of all the successive operations (impracticable at present), and makes possible an expansion of the output to 250,000 cartridges per day of eight hours, besides giving room for the manufacture of cartridges of other descriptions for revolving cannon, etc., should such be desired. The room made available by this transfer will greatly relieve the crowded machine shop, besides giving needed room for miscellaneous work, the fuze plant, as well as affording accommodation for draftsman and shop stores. These latter now occupy two rooms in the barracks, which will be much needed when the detachment is recruited to its full strength.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Indianapolis Arsenal, Indianapolis, Ind.—</i> Construction of a general workshop, with boiler, engine, shafting, and fittings.....	Submitted.....				\$11,000 00		
<p>NOTE.—A shop of this kind was contemplated in the original plans of the arsenal, but never built. It is much needed. For the present, the north end of the artillery storehouse is temporarily occupied for shop purposes. It is not at all suited to the purpose, is but a makeshift, and occupies room intended for storage only. With the amount estimated for, a general shop suited to the present wants of the post can be erected, and that upon a plan admitting of extension should such in the future become necessary.</p>							
One-half the expense of paving with asphaltum—or such other material as may be adopted—Michigan street along the south front of arsenal, 1,260 linear feet, at \$4 per foot.....	Submitted.....				5,040 00		
One-half the expense of paving with asphaltum—or such other material as may be adopted—Clifford avenue, along north front of arsenal, 1,260 linear feet, at \$4 per foot.....	do.....				5,040 00		
<p>NOTE.—Michigan street and Clifford avenue have been at times during the recent wet weather almost impassable for ordinary vehicles. It is understood that the city of Indianapolis contemplates paving these streets, and this appropriation is asked as the Government's portion of the expense. This estimate is made to cover cost of asphaltum, which is the most expensive pavement used in Indianapolis; but only so much as may be necessary to meet actual cost of such pavement as may be adopted need be used.</p>							
<i>Proving Ground, Sandy Hook, New Jersey—</i> Building and repairing roads and walks, and for general repairs to shops, storehouses and quarters.....	July 23, 1892 Aug. 5, 1892 Submitted.....	27 27	259, 260 374	1 1		3,000 00	\$91,376 00
<p>NOTE.—Congress made no appropriation last year for these items, and if no appropriation is made at its next session the efficient working of the proving ground will be seriously crippled. The amount asked for is urgently needed.</p>							
<i>Powder Depot, St. Louis, Mo.—</i> New roofs on buildings.....	Submitted.....					853 50	
<p>NOTE.—None of the above-mentioned roofs have been re-shingled since their construction, fourteen years ago and over. During the last two years considerable patching was done, but now they are all leaky and in such deplorable condition that patching can not be undertaken.</p>							
<i>San Antonio Arsenal, San Antonio, Tex.—</i> Repairing and painting buildings, fences, etc., repairing roads, walks, and ditches, replacing guttering and spouting, repairing water pipes, machinery, etc.....	Submitted.....					5,000 00	
<p>NOTE.—In this climate all buildings require frequent painting to insure their preservation.</p>							
<i>Powder Depot, Dover, N. J.—</i> One brick shed, 300 by 50 feet, with iron roof trusses, for niter and other storage.....	Submitted.....					15,000 00	
<p>NOTE.—The niter at this post (about 6,000,000 pounds) is now temporarily stored in the magazines. These buildings are too valuable for its permanent storage and will eventually be needed for powder and high explosives. The niter can not be economically stored in the magazines, owing to the limited weight which the floor beams will safely bear. By building the niter shed with a concrete floor or platform the packages can be piled to any height desired and thus not only accommodate all of the niter now on hand in the Department, but leave considerable floor surface available for other storage.</p>							
Clearing and draining land, making roads, building bridges and fences, making new and repairing old roads to magazines, etc.....	do.....					10,000 00	
<p>NOTE.—The land that was cleared some years ago has now a large undergrowth upon it, and much more land remains to be cleared to exempt the magazines from danger from forest fires. New roads are needed in every direction on the post, particularly to and around the magazines, some of which have not even common driveways to them. There is no road at all to the upper part of the reservation except by going around and outside of it. The swampy lands on either bank of the stream should be drained, as it lies between the magazines, and its moist exhalations are detrimental to powder and injurious to the health and comfort of the post. There is no exterior and very little useful interior fence to the post. The old wooden bridges now in place over the creek should be replaced by permanent structures.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

<i>Powder Depot, Dover, N. J.—Continued.</i>							
Erecting one set of quarters for the commanding officer...	Submitted.....				\$12,000 00		
NOTE.—There are no quarters for officers at the post.							
Constructing water-works and laying main over the post, with fire hydrants and necessary connections.....do.....				10,000 00	\$47,000 00	
NOTE.—There is no adequate protection from fire at the post. The steam fire engine is out of order, and if in perfect condition it could not be used for want of water and a sufficient force to handle it. There should be hydrants for playing upon the buildings erected, with a sufficient head of water to throw over them. This head can be obtained from springs and streams on the neighboring hills by methods suggested by previous commanding officers, which methods, I believe, are the most efficient and economical.							
<i>Watervliet Arsenal, West Troy, N. Y.</i>							
Alteration of barracks.....	{ July 23, 1892 Aug. 5, 1892 Submitted.....	{ 27 27	{ 259 374	{ 1 1	{ 6,000 00		
NOTE.—The present barrack building has not been enlarged since the increase of the detachment, and is at present greatly lacking in proper facilities for messing. The squad rooms are not sufficiently commodious and some are difficult to ventilate. It is proposed to erect an addition to this building, to be used as a mess hall and kitchen, to enlarge the squad rooms by removing partitions, to replace the stoves now in use with a furnace, to renovate the interior and woodwork, and also to improve the water closet.							
General repairs of public buildings, inclosing wall, and grounds	Submitted.....				3,000 00	9,000 00	\$25,000 00
<i>Testing Machine—</i>							
Purchase of, labor, and material in caring for, preserving, and operating the United States testing machine, including such new tools and appliances as may be required.....	Aug. 5, 1892	27	374	1	10,000 00		
Hire of chemist and maintenance of chemical laboratory ..	Submitted.....				1,875 00	11,875 00	10,000 00
<i>Watertown Arsenal, Watertown, Mass.—</i>							
One magazine for the storage of explosives.....	{ Aug. 5, 1892 Submitted.....	{ 27	{ 374	{ 1	{ 15,000 00		
NOTE.—There at present two magazines here, one costing \$24,500 and the other \$1,750. They should both be removed, as they are in dangerous proximity to the shops; in fact, the larger one is right in the way of the extension of the shops. Both should be torn down and a single one built in the eastern portion of the reservation, far away from the shops and residences. A good portion of the amount will be required for the removal and reerection of the traverses.							
One set of noncommissioned officers' quarters for the orderly sergeant.....	Submitted.....				1,800 00		
NOTE.—The orderly sergeant should have a neat and comfortable cottage near the barracks. The structure he at present occupies is old and dilapidated, and is too far from the barracks, which ought to be under his personal supervision at all times.							
Purchasing and setting up one 100-ton testing machinedo.....				12,500 00	29,300 00	160,400 00
NOTE.—A machine of small capacity is needed to relieve the large testing machine of work on small specimens. The large machine has more work than it can perform. We would also be enabled to extend the scope of our experimental work, which is now limited by the great amount of other work in hand.							
<i>Repairs of Arsenals—</i>							
For repairs at arsenals, of buildings, grounds, roads, bridges, fences, machinery, fixtures, etc., and to meet all unforeseen expenditures necessitated by accidents, etc.....	Aug. 5, 1892	27	374	1	125,000 00	125,000 00	50,000 00
NOTE.—The \$50,000 which has been the annual appropriation for some years is found to be totally inadequate to preserve and keep in repair the extensive buildings, grounds, roadways, and fences at the various ordnance establishments.—D. W. Flagler, Brigadier-General, Chief of Ordnance.							
Total arsenals.....						480,494 40	441,576 00

<i>Armament of Fortifications—</i>							
Finishing and assembling 8-inch, 10-inch, and 12-inch seacoast guns at the Army Gun Factory	July 23, 1892	27	258	1	228,000 00		
NOTE.—It is estimated that the following guns will be completed at the Army Gun Factory by June 30, 1894, viz: Thirty 8-inch, twenty-seven 10-inch, twelve 12-inch guns, the cost of which, including that of work done on parts of unfinished guns will be..... \$528,000 For finishing and assembling these guns there has been appropriated under previous appropriation acts..... 300,000 Leaving a balance to be appropriated of..... 228,000 This sum will be needed during the next fiscal year and it is the minimum amount that will keep the gun factory in economical operation, inasmuch as the forgings will be on hand ready for machinery.							
Eight, 10, and 12 inch guns manufactured by contract under the provisions of the fortifications act, approve August 18, 1890, and February 24, 1891.....	do.....	17,242 00		
NOTE.—Under its contract of November 7, 1891, the Bethlehem Iron Co., should deliver two 8-inch guns, and one 10-inch gun, the cost of which, with ammunition for proof will be..... \$70,242 Of this there has been appropriated: By fortifications act of July 23, 1892..... 53,000 Leaving a balance to be appropriated of..... 17,242							
Steel field guns of 3.2-inch caliber.....	do.....	25,000 00		
NOTE.—To manufacture about twenty-five guns including the steel forgings therefor. One hundred and twenty-five of these guns have been completed, and twenty-five more, for which an appropriation was made by the fortifications act of July 23, 1892, are under manufacture. This estimate is submitted in pursuance of the Department's policy to provide for the manufacture of a limited number of field guns each year, in order that a reserve supply may be thus gradually accumulated, to be available in case of hostilities or emergency.							
Carriages for field-gun batteries.....	do.....	61,000 00		
NOTE.—To provide about twenty-five carriages, complete with limbers and caissons each, and six combined battery wagons and forges with tools, for the equipment of the twenty-five 3.2-inch guns under the preceding item. The appropriation made for field carriages by the fortifications act of July 23, 1892, was sufficient to procure only about half the number of carriages required for the guns provided for by the same act, thus leaving a deficiency of thirteen carriages and caissons each, and three combined battery wagons and forges.							
Steel breech-loading rifles, siege, of 5-inch caliber.....	do.....	33,000 00		
NOTE.—To manufacture ten 5-inch siege guns, including forgings therefor. Ten guns of this type have been completed, and ten more, provided for by the fortifications act of July 23, 1892, are under manufacture at the Army Gun Factory. The Department desires to provide a sufficient number of these guns to supply the Military Academy, the Artillery School, and the several posts of artillery instruction, and also to provide for a small reserve supply.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.

<i>Armament of Fortifications—Continued.</i>							
Steel breech-loading rifled howitzers, siege, of 7-inch caliber	July 23, 1892	27	258	1	\$34,000 00		
NOTE.—To manufacture about ten 7-inch siege howitzers, including the forgings therefor. Ten pieces of this type have been manufactured at the Army Gun Factory, and ten more, provided for by the fortifications act of July 23, 1892, are now under manufacture. The reasons for procuring these pieces of ordnance are the same as for procuring the 5-inch siege guns.							
Carriages for steel breech-loading rifles, siege, of 5-inch caliber.....	do.....				30,000 00		
Carriages for steel breech-loading rifled howitzers of 7-inch caliber.....	do.....				35,000 00		
NOTE.—These carriages are required for the guns and howitzers stated in the preceding items.							
Siege B. L. mortars, steel, of 7-inch caliber.....	Submitted.....				16,000 00		
Carriages and platforms for siege B. L. mortars, steel.....	do.....				14,000 00		
NOTE.—This sum is estimated to procure about ten of these mortars with carriages, platforms, and the necessary equipments therefor. One type mortar of this description is now under manufacture. These mortars constitute an essential part of the armament for siege purposes, being designed to deliver a high-angled fire of heavy rifled projectiles against strong entrenchments or covered positions. We have at present none of these mortars on hand, or any cannon which can fill their place in siege operations.							
Alteration of existing carriages for 10-inch and 15-inch smoothbore guns, to adapt them to present service conditions.....	July 23, 1892	27	258	1	50,000 00		
NOTE.—To provide for the alteration of about nine 10-inch bar-bette carriages for service with the 8-inch B. L. rifle converted, and nine 15-inch carriages for service with the 15-inch gun using increased powder charges. Thus far there have been altered one hundred and twenty-seven 10-inch carriages and fifty-one 15-inch carriages, while nine 10-inch and nine 15-inch carriages are now undergoing alteration, under the provisions of the fortifications act of July 23, 1892. The number of guns on hand is as follows, viz: Two hundred and ten 8-inch M. L. rifles, converted; three hundred 15-inch S. B. guns. There is also a large number of carriages for each caliber of piece on hand and available for alteration. These old cannon, mounted on their altered carriages, even when replaced by the new steel high-power guns, will be useful for the defense of secondary positions.							
Sights for cannon, and for fuses.....	do.....				11,000 00		
NOTE.—To provide about two thousand combination time and percussion fuses for the field service and five hundred sea-coast fuses. Twenty-five sets of 3.2-inch gun sights; ten sets of 5-inch gun sights; ten sets of 7-inch howitzer sights; forty-five sets of sea-coast gun sights. The field and siege sights are for the new cannon embraced in these estimates; the sea-coast sights are to complete the number required for the eighty-one 8, 10, and 12 inch guns that will be finished at the Army Gun Factory and by contract, by the end of the next fiscal year.							
Inspecting instruments, gauges, and templets, for the manufacture of cannon.....	do.....				3,000 00		
NOTE.—These instruments are for the use of the inspectors of ordnance in connection with the manufacture of cannon at the Army Gun Factory. The estimate covers the new instruments, etc., required and the repair of those already in use.							
Powder for issue to the service	do.....				42,700 00		
NOTE.—This estimate is made to cover the following quantities: Field gun powders: Sixty 3.2-inch guns, 100 rounds per gun; twenty-four 3.6-inch guns, 50 rounds per gun; sixteen 3.6-inch mortars, 200 rounds per gun. Total cost, about \$7,300. Siege gun powders: Ten 5-inch guns, 50 rounds per gun; ten 7-inch howitzers, 50 rounds per gun. Total cost, about \$2,812. Sea-coast gun powders: Eight-inch guns, total 100 rounds; 10-inch guns, total 100 rounds; 12-inch guns, total 100 rounds; 12-inch mortars, total 200 rounds. Total cost, about \$32,588. The Department has practically no powders on hand for issue to the service for use with the new steel sea-coast cannon, and but a very limited supply for issue with the field and siege cannon. Considerable numbers of siege and sea-coast guns, with their carriages, will be ready for issue by the end of the fiscal year 1894, and ammunition for their service will be required for instructing the artillery troops in the use of the new material for target practice, etc.

Steel deck-piercing shell for 12-inch B. L. mortars	July 23, 1892	27	258	1	54,000 00																														
<p>NOTE.—Estimated to purchase about two hundred shell. The act of July 23, 1892, provided for the purchase of about one hundred and ten of these steel shell, and that is all the deck-piercing shell the Department will have available until a further appropriation is made. As a number of the 12-inch B. L. mortars will soon be in service, their carriages and emplacements being nearly completed, a limited supply of sufficient deck-piercing shell should be provided for use, to be held in reserve for emergencies.</p>																																			
Purchase and erection of steel plates for the test of deck-piercing shell.....	do.....				8,000 00																														
<p>NOTE.—Estimated to cover the purchase and erection of about three plates required for testing the deck-piercing shell under the preceding item, prior to their acceptance.</p>																																			
Steel armor-piercing shot, for seacoast B. L. guns.....	do.....				100,000 00																														
<p>NOTE.—Estimated to purchase about two hundred 12-inch shot. Under the appropriations thus far made, and amounting to \$250,000, the Department has placed contracts with the Midvale Steel Works for the following quantities of these armor-piercing shot, viz: 8-inch shot, 318; 10-inch shot, 422; 12-inch shot, 145. Projectiles of this type must possess great resistance and hardness to penetrate modern armor, are difficult to make, and a great deal of time is required for their manufacture and test—lots being not infrequently rejected in testing. It is deemed of great importance, therefore, to make timely provision for a sufficient supply to meet emergencies that may unexpectedly arise. The armor-piercing shot manufactured by the Midvale Steel Company are made by the Holtzler process, which experiments have shown to be one of the best in use.</p>

<i>Armament of Fortifications—Continued.</i>							
Purchase and erection of armor plates for testing armor-piercing shot.....	July 23, 1892	27	258	1	\$28, 000 00		
<p>NOTE.—These plates are for proving the armor-piercing shot provided for under the preceding item. The estimate is sufficient to procure about three plates, including their backing and cost of erection.</p>							
To provide for payments that may become due in the purchase or manufacture of machine tools and fixtures to complete the equipment of the south wing of the Army Gun Factory, Watervliet Arsenal, West Troy, N. Y.; steel breech-loading rifled seacoast mortars of 12-inch caliber; oil tempered and annealed steel for high-power coast-defense guns of 8, 10, and 12 inch caliber; carriages for breech-loading rifled mortars of 12-inch caliber, and carriages for mounting new steel breech-loading 8, 10, and 12 inch guns, procured under the provisions of the fortifications act approved July 23, 1892, said payments being in excess of the money therein appropriated for these objects.....	do.....				1, 006, 600 00		
<p>Provided, That the total amount expended for each of these said objects shall not exceed the amount specified therefor in the said act.</p>							
<p>NOTE.—The fortifications act of July 23, 1892, provides as follows: "The Secretary of War is hereby authorized and directed to procure, by purchase or manufacture, the following, namely: Machine tools and fixtures adapted to the manufacture of steel seacoast cannon, to complete the equipment of the south wing of the Army Gun Factory, Watervliet Arsenal, West Troy, N. Y., the cost of which shall not exceed the sum of three hundred and forty-six thousand six hundred dollars; steel breech-loading rifled seacoast mortars of twelve-inch caliber, the cost of which shall not exceed one hundred thousand dollars; oil tempered and annealed steel for high-power coast-defense guns of eight-inch, ten-inch, and twelve-inch caliber, in quality and dimensions conforming to specifications, subject to inspection at each stage of the manufacture, and including all the parts of each caliber, the cost of which shall not exceed eight hundred thousand dollars; carriages for breech-loading rifled mortars of twelve-inch caliber, two hundred thousand dollars; carriages for mounting new steel breech-loading eight, ten, and twelve inch guns, three hundred thousand dollars, amounting in all to one million seven hundred and forty-six thousand six hundred dollars; Provided, That not more than five hundred and seventy thousand dollars of this amount shall be expended for these objects during the fiscal year ending June thirtieth, eighteen hundred and ninety-three, which sum of five hundred and seventy thousand dollars is hereby appropriated out of any moneys in the Treasury not otherwise appropriated."</p>							
<p>The estimate above submitted is to cover the obligations incurred under these provisions of the act for which no funds have been appropriated, and the entire amount will be required for the fiscal year. This leaves a balance of \$170,000 still due under the provisions of the act as above cited. It would save the trouble of submitting a further estimate if Congress would include this additional sum in the appropriation for the next fiscal year, making the total amount \$1,176,600, and it is very desirable that this be done.</p>							
Steel breech-loading rifled mortars of 12-inch caliber.....	do.....				500, 000 00		
<p>NOTE.—Estimated to procure about thirty-five mortars, including the forgings therefor. About eight hundred 12-inch mortars are required for the armament of all the ports of the country. Thus far appropriations have been made for seventy-three 12-inch cast-iron mortars, hooped with steel, and seven all-steel mortars, as provided for by the act of July 23, 1892, thus making a total of eighty mortars. This leaves seven hundred and twenty mortars still required, and they should be produced at the rate of fifty per annum in order to complete their manufacture in fifteen years. It is designed to manufacture only thirty-five next year and to increase the rate of production hereafter. The mortar is a comparatively cheap and very effective piece. It is readily produced, and its carriage and emplacement, the details of which have been settled, are under construction. The manufacture of this piece should, therefore, be vigorously prosecuted while awaiting the slower production of high-power guns with their carriages and emplacements.</p>							
Oil tempered and annealed steel, for high-power coast-defense guns of 8, 10, 12, 16 inch caliber, in quality and dimensions conforming to specifications, subject to inspection at each stage of the manufacture, and including all the parts of each caliber.....	do.....				1, 180, 000 00		
<p>NOTE.—The fortifications act of July 23, 1892, authorizes an expenditure of \$800,000 for the purchase of oil tempered and annealed steel for 8, 10, and 12 inch guns. This sum was less than the amount submitted in the annual estimates as necessary to supply the wants of the Army Gun Factory. The sum appropriated is sufficient to purchase about ten sets of 8-inch forgings, twelve sets of 10-inch forgings, ten sets of 12-inch forgings, leav-</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation. <i>Armament of Fortifications—Continued.</i>																																									
<p>ing a deficiency of two sets of 8-inch gun forgings, two sets of 12-inch gun forgings, in the number of sets for which an appropriation was required at the last session of Congress, in order to keep the Army Gun Factory in operation to its full capacity. The total amount, including provision for the above deficient sets, to keep the Army Gun Factory in full operation is the amount above stated, viz: \$1,180,000. The above estimate contains a provision enabling the Department to procure the forgings for one type 16-inch gun. This is urged on the grounds that in the plans of the War Department for a system of coast defense the proposed armament includes a number of 16-inch guns for the principal ports of the country. The manufacture and test of the type guns should precede their manufacture in quantity, and this first step should be taken without further delay. If an appropriation be made available by June 30, 1893, the type gun could hardly be completed and tested before June 30, 1896, while the first three 16-inch guns for issue to the service could not be completed before the end of 1899. By the act of July 23, 1892, Congress made provision for procuring the large lathes and other machinery required for the manufacture of 16-inch guns. From published information it appears that there were afloat in European navies in the year 1890 about forty guns of 16-inch caliber and upward, mounted on armored seagoing ships, and it is indisputable that the land defenses should possess guns, not only equal in power to any that the attack can bring forward, but that it should endeavor to hold the superiority in this respect over the attack. The necessity for guns of this caliber is becoming daily more and more emphasized by reason of the improvements made in the processes for treating armor plates, and by means of which their hardness and resistance to penetration is vastly increased, so that a corresponding increase in the size and power of the gun is required to overcome them. The power of a gun increases very rapidly with an increase in caliber, being proportional to the cube of the caliber.</p>																																									
Carriages for breech-loading rifled mortars of 12-inch caliber.....	July 23, 1892	27	258	1	\$289,000 00																																				
<p>NOTE.—By June 30, 1894, there will be completed, under contract, sixty-nine 12-inch B. L. mortars, cast iron, hooped with steel, and at the Army Gun Factory, seven all steel mortars, making a total of seventy-six mortars completed by that date. The total cost of carriages for these mortars will be about \$814,000. The following sums have been appropriated or authorized to be expended for mortar carriages:</p> <table border="0"> <tr> <td>Fortifications act of March 2, 1889.....</td> <td>\$100,000</td> </tr> <tr> <td>Fortifications act of August 12, 1890.....</td> <td>225,000</td> </tr> <tr> <td>Fortifications act of July 23, 1892.....</td> <td>200,000</td> </tr> <tr> <td>Total.....</td> <td>525,000</td> </tr> </table> <p>Leaving a balance to be appropriated of..... 289,000</p> <p>The Department has a number of mortar carriages under manufacture by contract, and the results of recent tests show the type adopted to be in every respect a satisfactory construction. The engineer department has under construction and nearing completion several batteries for the emplacement of these mortars.</p>								Fortifications act of March 2, 1889.....	\$100,000	Fortifications act of August 12, 1890.....	225,000	Fortifications act of July 23, 1892.....	200,000	Total.....	525,000

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title or appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.																													
		Vol. or R. S.	Page.	Sec.																																
<i>Armament of Fortifications—Continued.</i>																																				
For Sandy Hook proving-ground, Sandy Hook, N. J., as follows:																																				
Current expenses and maintenance of the ordnance proving-ground, Sandy Hook, N. J., including general repairs and alterations and accessories incidental to testing and proving ordnance, including hire of assistants for the Ordnance Board, skilled mechanical labor, purchase of instruments and other supplies, building and repairing butts and targets, clearing and grading ranges.....	July 23, 1892	27	258	1	\$22,000 00																															
Necessary expenses of ordnance officers while temporarily employed at the proving-ground and absent from their proper stations, at the rate of \$2.50 per diem while so employed, and the compensation of draftsmen while employed in the Army Ordnance Bureau on ordnance construction.....	do.....				9,500 00																															
NOTE.—The work included under these estimates is of the most important character as respects the development, trial, and proof of guns, carriages, and other material for coast defense, and the investigation of all questions pertaining thereto. It is of the utmost importance that the work at the proving-ground should not be hampered through want of sufficient appropriations, as any delay in the experimental or testing work causes delays in all branches of the Department.																																				
One locomotive engine.....	Submitted.....				3,500 00																															
NOTE.—The receipt of guns, carriages, projectiles, etc., for test is constantly increasing, and in order that these heavy weights may be delivered promptly and economically at the testing batteries, a small locomotive engine is an absolute necessity. A railway track is already laid from the wharf to the testing battery.																																				
For Watertown Arsenal, Watertown, Mass., as follows:																																				
Enlargement and improvement of the heavy gun carriage plant at Watertown Arsenal, Watertown, Mass....	July 23, 1892	27	260	1	96,650 00																															
NOTE.—Under the provisions of the fortifications act of July 23, 1892, which appropriates \$151,000 for the above object, the erection of a new shop has been commenced and bids have been invited for supplying a partial list of the tools and machines required for the manufacture of seacoast carriages. The above estimate is to complete provisionally the equipment of tools and machines for this plant, as explained below. In preparing the estimates, the Department has been governed by the considerations that the Government should have a carriage factory of its own sufficient for the manufacture of a limited number of carriages, when reasonable offers can not be secured; for the manufacture of new and experimental carriages of different types, which are certain to be proposed and of which it is difficult to foretell the cost and determine all the details at the outset. As a matter of economy, also, it is always expedient for the Government to manufacture part of its finished material in its own shops. There are, besides, some types of carriages of which the number required is so small as to offer insufficient inducements to manufacturers to make them cheaply, and these should be made exclusively in the Government shops. With these objects in view it has been decided to establish a plant of sufficient capacity to give an annual output about as follows:																																				
<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th colspan="2">8-inch.</th> <th colspan="2">10-inch.</th> <th colspan="3">12-inch.</th> <th colspan="2">Converted.</th> </tr> <tr> <th>Barbette.</th> <th>Disappearing.</th> <th>Barbette.</th> <th>Disappearing.</th> <th>Barbette.</th> <th>Gun lift.</th> <th>Casemate.</th> <th>Mortar.</th> <th>15-inch.</th> <th>8-inch.</th> </tr> </thead> <tbody> <tr> <td>4</td> <td>5</td> <td>2</td> <td>5</td> <td>2</td> <td>3</td> <td>2</td> <td>5</td> <td>15</td> <td>10</td> </tr> </tbody> </table>								8-inch.		10-inch.		12-inch.			Converted.		Barbette.	Disappearing.	Barbette.	Disappearing.	Barbette.	Gun lift.	Casemate.	Mortar.	15-inch.	8-inch.	4	5	2	5	2	3	2	5	15	10
8-inch.		10-inch.		12-inch.			Converted.																													
Barbette.	Disappearing.	Barbette.	Disappearing.	Barbette.	Gun lift.	Casemate.	Mortar.	15-inch.	8-inch.																											
4	5	2	5	2	3	2	5	15	10																											
The estimated cost of the tools and machines alone for the equipment of this plant is \$346,175, exclusive of machinery on hand. By including tools and machines on hand, not permanently serviceable, but which can be made to answer until replaced by others to be procured from funds that may be obtained hereafter, this amount can be reduced to \$182,445. From the item of \$151,000 appropriated by the fortifications act of July 23, 1892, for this carriage plant, the sum of \$55,205 is required for buildings, leaving \$95,795 to be supplied on tools and machines; which, deducted from the amount stated above for tools and machines, leaves to be appropriated \$96,650. As the production of carriages is very much behind that of the guns, the appropriation asked for is urgently needed.																																				
For Watervliet Arsenal, West Troy, N. Y., as follows:																																				
Electric-lighting plant, including a new turbine station for driving dynamos.....	Submitted.....				\$28,450 00																															
NOTE.—The estimated cost of the electric-light plant, incandescent system inclusive, is \$16,000; and that of the turbine station, \$12,450; total, \$28,450. The present system of illuminating by gas has been a source of annoyance for many years.																																				
						\$5,689,305 00	\$1,194,500 00																													

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>Armament of Fortifications—Continued.</i>							
<p>The pipe lines are in very bad condition and require almost daily excavations and repairs during the winter months especially, and if an electric plant can not be established, it will be necessary to spend almost as much as that plant would cost for laying new pipes, and supplying all shops and quarters, which are at present not fitted up for gas lighting with pipes and fittings. As nearly as can be estimated there is a loss per annum of about 100,000 cubic feet of gas by leakage into the ground. There are so many breaks in the pipes admitting water, that when the temperature is below freezing point, gas is stopped and for about six weeks during the last winter none could be had on account of the ice in the pipes. The village authorities of West Troy have discontinued the use of gas for street lighting by introducing electric lights. The gas company may stop the supply of gas at some future time and then this important establishment would be without light. To make this establishment what it should be on account of its future importance, independent as regards lighting, and to supply it with that kind of light which is best adapted for the important work to be done here on account of its uniformity and facility for changing the position of an incandescent light without difficulty to any place or concentrate several lamps temporarily at one place, not too much importance can be attached to the request for an appropriation for this purpose. It is intended to have the plant arranged so as to furnish motive power by steam or water. During the longest part of the year motive power can be supplied from the new proposed turbine station, thus reducing the cost of lighting the arsenal to a very low amount. In case of repairing turbines or using the water power temporarily for other purposes, or in case the Erie Canal should be emptied for its annual cleaning, the motive power will be furnished by the 150 horse-power steam engine, situated in the engine room of the shops below the canal. The water power furnished by the new plant would compensate for the outlay by the great saving of coal. The electric cranes in the gun shop could be run by the water power as well as the electric lighting.</p>

MILITARY ACADEMY.							
<i>Buildings and Grounds, Military Academy—</i>							
Buildings and grounds: Repairing roads and paths, including roads and bridges on reservation.....	July 14, 1892	27	172,'4	1	\$500 00		
Continuing construction of breast-high wall in dangerous places.....	do.....				500 00		
Waterworks: Renewal of material in filter beds; improving ventilation of filter house and water house; hose for use in cleaning filter beds and water house, and for use in fire-service at same; tools, implements, and materials for use of the two keepers and for repairs of siphon house, filter house, and of four and one-half miles of supply pipes; for shed for tools and storage of fuel for keeper at Round Pond, and for tool house at filter; for gauges at Round Pond and Delafield Pond, and stairs for access to same.....	do.....				500 00		
Broken stone and gravel for roads.....	do.....				2,000 00		
Maintaining and improving the grounds of the post cemetery, including the purchase of trees, plants, tools, and materials, to be immediately available.....	do.....				1,500 00		
<p>NOTE.—The sum asked for herein is absolutely necessary in order that the grounds of the cemetery may be kept in proper condition. The cemetery has been more than doubled in size within the past three years, and no funds are available for beautifying it.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
Repairs of cooking utensils, and the replacement of worn-out cooking utensils in the cadet subsistence department, to be expended without advertising.....	do.....				326 00		
Repairs of chairs, tables, and other furniture in cadet subsistence department, to be expended without advertising.....	do.....				50 00		
<p>NOTE.—A slight change is made in this estimate in order that the officer in charge of the cadet subsistence department may obtain the exact services needed.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
Painting, kalsoming, whitewashing, and repairing interior walls of cadet mess building, kitchen, dish pantry, bakery, dormitories, and storerooms, and for incidental repairs about same, to be expended without advertising.....	do.....				150 00		
General repairs to the cadet laundry, painting, renewing machinery, and incidental repairs to machinery, to be expended without advertising.....	do.....				300 00		
Plastering the unfinished parts of the double building occupied by the cadet quartermaster's department, for painting, and for general and incidental repairs and improvements to said building, the same to be expended without advertising.....	Submitted.....				500 00		
<p>NOTE.—The entire third story of this building and a portion of the basement story is unplastered, and is in an unfinished state. The object of the appropriation is to finish said unfinished portions, so as to render them suitable for workshops and storerooms. The general and incidental repairs and improvements are such as are required constantly in and about a building used, as is the cadet quartermaster's department building, for storerooms, office, tailor shops, sewing rooms, shoe shops, etc.—<i>Capt. W. F. Spurgin, 21st Infantry, Treasurer U. S. M. A., Quartermaster and Commissary of Cadets.</i></p>							
Machines, mattresses, and apparatus for equipment of new gymnasium.....	do.....				1,500 00		
<p>NOTE.—This sum is required to fully equip the new gymnasium, the articles being necessary for use in the physical development of cadets. It is earnestly urged that the estimate shall receive favorable consideration.—<i>Col. J. M. Wilson, Engineers, Superintendent.</i></p>							
Repairs to cadet barracks:							
Kalsoming ceilings in cadet rooms.....	do.....				1,200 00		
New roof on porch.....	do.....				480 00		
Painting walls and woodwork.....	do.....				1,800 00		
<p>NOTE.—The need of the repairs noted above is apparent when one inspects the interior of these barracks. The ceilings of cadet rooms should be kalsomined, and the walls and woodwork of same require painting, while the present tin roof of the porch is rotten and leaky. In view of the condition of the interior of this building, and the urgent need of a new roof for the porch, I respectfully recommend that the sum asked for herein be granted.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
Retubing and repairing four 80-horse-power horizontal tubular boilers used for heating with steam the academic building, cadet barracks, commandant's office, mess-hall, hospital, and cadet sinks.....	Submitted.....				\$1,500 00		
<p>NOTE.—The tubing and repairing of these boilers next season will be absolutely necessary, in view of the statement made to me by the firm who last inspected the boilers—American Casualty Insurance and Security Company—that “the tubes are pitted and thin,” and that the boilers show “external corrosion at hand-holes.”—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Heating and supplying river water for swimming tank in new gymnasium, including building for apparatus.....	do.....				6,000 00		
<p>NOTE.—With this sum it is proposed to erect a pumping station, with all necessary appliances for heating water, and to lay a 3-inch pipe line for conducting hot water to the swimming tank. At present there are no means at hand for satisfactorily supplying and heating water for this tank. It may be well to state that in view of the low temperature of the river water here during the greater part of the year, it is probable that the swimming tank can only be used during the summer months unless the water used in it is heated.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Enlargement of the steam-heating plant of the academy.....	do.....				9,500 00		
<p>NOTE.—This estimate is submitted for the reason that the capacity of the present steam-heating plant will not be sufficient for the requirements of the Department next year. Upon the completion of the south wing of the new academic building and with the addition recently made to the cadet quartermaster's department store, the steam-heating plant will be called upon to heat about 4,000,000 additional cubic feet of air space. With the addition of another 80 horse-power boiler to the present plant, and with the increased amount asked for the purchase of fuel, under the estimate “For fuel and apparatus,” it is thought that the public buildings here can be properly heated.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
One steam-heating apparatus, complete for quarters No. 27.....	do.....				450 00		
<p>NOTE.—Assistant Surg. H. S. Kilbourne, U. S. Army, the occupant of the above quarters, reports, under date of April 18, 1892, that the furnace in his quarters “is inadequate to a proper warming of the house; it is old, and in my opinion not quite safe, as it requires constant care to prevent overheating and consequent danger of fire.”—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
New 10-inch water main from corner of cadet barracks to south gate.....	do.....				6,840 00		
<p>NOTE.—At present the water supply of this part of the post is dependent upon an old 7-inch water main, which extends about one-half the distance, the other half being composed of 4 and 2 inch pipes. This supply is inadequate to the present and growing wants of the post, and a new 10-inch water-main is urgently needed.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Hot water heating apparatus, complete for quarters No. 41.....	do.....				325 00		
<p>NOTE.—I request that there be put in the front basement room of my quarters a No. 21, “Perfect,” hot-water heating apparatus, of the Richardson & Boynton pattern, the same to be connected with five radiators, to be placed as follows: One in the servants' bathroom (basement); one in the hall immediately above; one in the bathroom directly above hall just mentioned; one in front bedroom upstairs; one in front attic room.</p> <p>In explanation of this request I have to state that the servants' bathroom has no means of heating, except by the general circulation in the basement, which requires that the door of room should be left open. The heating thus obtained is not at all sufficient in cold weather, and besides it is very undesirable to leave the door open, as the bathroom is also the servants' closet, and offensive odors have been frequently noticeable above under such circumstances. The hall immediately above this room is unheated, except by the general heat of the house; and during the coldest weather of last winter the front part of this hall was frequently below 50° when our best efforts to keep the house warm were being made. The bathroom upstairs and the front bedroom (referred to above) have no arrangement for heating except a register each, both of which open from a common air pipe only 9 by 6 inches. This pipe runs 35 feet horizontally after leaving furnace before beginning to ascend. The consequence is that it is almost useless for the purpose intended. The bathroom can not be used at all in even moderately cold weather, and the bedroom has to have a fire whenever occupied in cold weather. The attic room is the north one of the house, and has no direct means of heating. It is too cold for a servants' room when the temperature is low. It will be observed that the rooms referred to (and hall) are all on the north side of house, and with the prevailing north winds of our coldest weather I do not believe that it will be possible to make the space at all comfortable even with a much larger furnace than is now in the house, unless the position of the furnace can be changed; such change can not be made without</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
<p>much work and considerable expense, and even then the warming of the north rooms of the house by hot air is very doubtful; for the effect of the prevailing winds in winter is to cause all the warm and heated air to crowd to the other side of the house. The furnace as at present located is a little over 40 feet from the front of the house, and, as above stated, there is no other practicable location without much work and expense. I have stated above that the hall, first floor, is not heated directly. I should add that there is a register in this hall at a distance of 30 feet from front end, but this register stands under the well of the stairs, and is efficient for heating above, but does little toward warming the front of hall. I will add that I habitually, in winter, run two fires in my house to keep the remainder of the house (not above mentioned) in proper condition as to temperature. I am therefore of opinion that the addition suggested is the most economical method of properly heating the house.—<i>Prof. S. E. Tillman, U. S. M. A.</i></p>							
<p>Completing the modernization and improvement of the plumbing and sewerage of the post.....</p>	Submitted.....				\$5,000 00		
<p>NOTE.—The plumbing and sewerage of the post is now being modernized and improved, but the sum appropriated for the current fiscal year will not complete the work. It is estimated, however, that the sum asked for herein will be sufficient to place the plumbing and sewerage of the post in a sanitary condition.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
<p>Repairs to cadet hospital, as follows:</p>							
Repainting inside walls and ceilings of hospital throughout.....	do.....				364 74		
Repainting inside woodwork of hospital.....	do.....				64 00		
Repairing and relacquering mantelpieces.....	do.....				21 00		
Repairing plastering where needed.....	do.....				19 00		
Repainting balustrades of inside front stairway.....	do.....				4 00		
Restaining rims of bath tubs.....	do.....				1 50		
One gallon of ready-mixed cherry color.....	do.....				75		
Two sash tools.....	do.....				90		
Two varnish brushes.....	do.....				1 80		
Whitewashing sides of elevator shaft.....	do.....				3 50		
Repairs to elevator.....	do.....				60 00		
Painting and japanning iron water pipes in cellar.....	do.....				6 50		
Nineteen sash locks for windows in cellar.....	do.....				4 30		
Repairs to door of storeroom in cellar.....	do.....				2 00		
New bath tub and ventilating trap of wash-basin, first floor.....	do.....				115 00		
New wooden covering for outside steps, for use in winter.....	do.....				21 00		
Placing faucets for drawing water in bathrooms on second and third floors.....	do.....				16 00		
Keys for locks of three small drug closets.....	do.....				2 00		
Recoiling and relacquering hard-wood floors of hospital throughout.....	do.....				140 00		
Material for rejapanning iron work about fireplaces of hospital throughout.....	do.....				3 00		
Material for rebronzing radiators throughout hospital.....	do.....				10 00		
Glass for reglazing windows throughout hospital.....	do.....				10 00		
<p>NOTE.—The post surgeon, Dr. McElderry, submits this estimate for the reason that the Surgeon-General of the Army has decided, March 7, 1891, "that the expenses of making repairs at the cadet hospital should not be borne by the general appropriation for construction and repair of hospitals."—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
<p>Material necessary to keep the polished floors of the soldiers' hospital in condition during the fiscal year ending June 30, 1894:</p>							
Floor waxing and polishing brushes, No. 2, iron weighted, with carpet-covered edges and sides, weight of brush 50 pounds.....	do.....				20 00		
Rubbing felt, pieces 2, No. 4, American, 18 by 18, 1½ inches thick.....	do.....				5 00		
Butchers' Boston polish, for floors, liq. gals. 5.....	do.....				10 00		
<p>Improvements and additions required for soldiers' hospital at West Point, N. Y., during the fiscal year ending June 30, 1894:</p>							
Seeding 2 acres of ground in lawn grass.....	do.....				2 50		
Constructing 300 yards of walk and filling same with half-inch stones.....	do.....				196 00		
Two gas-lamps and lamp-posts and connections with hospital main, one at main gate and one at main entrance.....	do.....				70 00		
Covered way from the cavalry stables to riding hall, namely: framed shedding, built in sections, to be put together and taken apart as desired, 2,100 square feet of lumber, at 6 cents per foot, including cost of labor.....	do.....				126 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
<i>Improvements, etc., at West Point, etc.—Continued.</i>							
Whitewash and brushes, scaffolding, and cost of labor for cleaning the interior of riding hall, which has had no attention for years, necessary paint for covering cavalry stables throughout	Submitted				\$450 00		
<p>NOTE.—The covered way from the cavalry stable to riding hall, about 50 feet in length, is, in my opinion, necessary during the winter months for the welfare of the public animals used in the instruction of the cadet in riding. During the exercises in the riding hall the horses become very much heated, and in a climate like this are liable to contract colds through being exposed to chilly blasts while being led to the stables.</p> <p>The cleansing of the interior of the riding hall and necessary paint for the cavalry stable are absolutely necessary for placing the buildings in a presentable condition. The riding hall has not been whitewashed for years, while the stable is very much in need of painting. In view of the condition of these buildings, the granting of the sum asked for herein is strongly recommended.—<i>Capt. L. A. Craig, 6th Cavalry.</i></p>							
Repairing road from south gate to the southern boundary line of the reservation, and for laying a board walk along same	do				2,000 00		
<p>NOTE.—Until the purchase by the United States of the Kinsley estate, this road was cared for by the village of Highland Falls, but since the purchase it has become considerably worn, because there has not been means at hand to keep it in repair. The walk is required for foot travel between the post and the southern edge of the reservation.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
New sewer from Logtown	do				1,300 00		
<p>NOTE.—This sewer is absolutely necessary for draining six sets of married enlisted men's quarters located under the hill below the cemetery. The need of this sewer has been reported several times by the medical department, and I strongly recommend the granting of the necessary funds for its construction.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
Asphalt road and walk in front of and around the new gymnasium	do				2,000 00		
<p>NOTE.—This estimate is respectfully submitted with a view providing a proper approach to the new gymnasium, which will be, when finished, one of the finest buildings on the post. In view of the muddy condition of the roads and gravel paths here during the late fall, winter, and early spring, I respectfully recommend that the sum called for herein be granted.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
Painting the inside of the new cavalry barracks	do				1,800 00		
<p>NOTE.—In view of the evident need of painting this building throughout in order that it may conform in appearance and cleanliness with the barracks of Company E, Engineers, and the barracks of the detailed Army Service men, Quartermaster's Department, I respectfully recommend favorable action on this estimate.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
For repairs to ordnance laboratory :							
New floor in barrack room	do				75 00		
New spouting on all buildings	do				150 00		
Repairs of north building: for walls, plastering, flooring, etc.	do				250 00		
Tin roof for instrument shed	do				50 00		
Increase of water supply in laboratory yard	do				150 00		
New wash-basins in barrack room for use of enlisted men	do				50 00		
<p>NOTE.—No repairs have been made on these buildings for many years; the floor of barrack room is rotten in places; the spouting has broken from some of the buildings and is in bad condition on all of them, and the consequence is a leakage of rain and damage to buildings; the present roof of shed leaks; the present water supply is from an old 1-inch lead pipe; and the new basins are required to give proper facilities to the enlisted men for washing, and in the interests of health.—<i>Capt. L. L. Bruff, Ordnance Department, U. S. Army.</i></p>							
Repair of instrument house :							
Relining acid trough for batteries	do				25 00		
Repair of water faucets	do				15 00		
<p>NOTE.—This is used in the practical instruction of cadets. The trough linings and faucets are worn-out and useless.—<i>Capt. L. L. Bruff, Ordnance Department, U. S. Army.</i></p>							
Repair of firing house :							
Reshingling roof	do				50 00		
<p>NOTE.—The roof is old and leaky, and the instruments are exposed to damage.—<i>Capt. L. L. Bruff, Ordnance Department, U. S. Army.</i></p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
Constructing a porch around the east end of the West Point army mess building, and for repairs and improvements of the mess building.....	Submitted.....				\$1,500 00		
<p>NOTE.—A wide and roomy piazza would be a great convenience to the bachelor officers of the post at all times, and would probably be used extensively as a place of assembly before meals during fine weather, the present little front sitting-room being uncomfortable when crowded. In addition to this the landing at the front entrance to the mess, a few feet square, does not admit of a storm-breaker, but with the proposed piazza the entrance could be protected from the inclement weather prevailing here during the late fall, winter, and early spring.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Addition to house of master mechanic.....	do.....				800 00		
<p>NOTE.—I respectfully recommend the granting of the small sum asked for herein. The master mechanic is a valuable man, and should, in my opinion, have quarters sufficiently large to accommodate his family.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
One blacksmith shop near the cavalry stable and riding hall.....	do.....				400 00		
<p>NOTE.—At present there is no shop at the cavalry stable or riding hall for shoeing horses. The shop at which the horses are shod is located nearly a mile from the cavalry stable, necessitating the taking of the horses, regardless of the weather, to and from the blacksmith shop. No argument is necessary to establish the inconvenience and positive loss of time in continuing the present arrangement.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Repairs to quarters of married enlisted men.....	do.....				5,000 00		
<p>NOTE.—The above sum is needed to place the old buildings occupied by married enlisted men in a fairly comfortable condition, and I respectfully recommend that it be granted.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Repairs and improvements to barracks of Company E, Battalion of Engineers, and steam plant for heating same.....	do.....				3,800 00		
<p>NOTE.—This barrack needs painting, pointing, etc., in order to place it in good condition. With the sum asked for it is proposed, in addition to making the repairs needed, to introduce into the building a system of steam heating. The present system of heating is costly, and it is thought that the sum saved by heating by steam will, in a few years, pay for the plant asked for.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
One set of officers' quarters.....	do.....				7,000 00		
<p>NOTE.—I respectfully recommend favorable action on this estimate, in view of the fact that there are at the present writing four families occupying quarters here which were originally intended for one family in each. It is probable, however, that with the erection of the set of quarters called for herein the wants of the department in the matter of quartering officers will be met for many years to come.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Quarters, in one building, for unmarried officers.....	do.....				15,000 00		
<p>NOTE.—I deem the erection of this building of the utmost importance, in view of the crowded condition of the cadet barracks, in which a large number of the unmarried officers on duty here are quartered. During the past year it has been found necessary to quarter eleven unmarried officers in this building, and it is probable that a like number will occupy quarters in it next year. At the present writing, owing to the erection of the new academic building, all the departments of instruction, with the exception of the philosophical department, occupy rooms in the cadet barracks. In view of the possible increase in the strength of the corps of cadets, I respectfully recommend favorable action on this estimate.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
One set of hospital steward's quarters at soldiers' hospital, West Point, N. Y., in accordance with modifications made by Assistant Surg. Kilbourne in plan of plates "P" and "Q," Appendix to Circular No. 10, W. D., S. G. O., 1887, during fiscal year ending June 30, 1894: Material to be of brick, instead of wood as in plan, and to have a cemented cellar under kitchen. Bathroom to have a bath tub, water-closet, and requisite plumbing. House drain to be connected with hospital sewer. Set washtubs in kitchen, with necessary plumbing. Kitchen sink, with requisite plumbing. Gas fixtures and connection with hospital main. Range and boiler in kitchen, and necessary plumbing to supply bathroom, kitchen sink, and washtubs. Coal grate in par-

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
lor and in front chamber. Dining-room walls to be pierced for stovepipe leading from stove in lobby. Space between chimney and wall in front chamber to be inclosed and finished as a closet opening into this and the 11 by 14 foot chamber. Detached coal and wood shed in rear of quarters.....	Submitted.....				\$2,645 20		
NOTE.—Attention is invited to the fact that the new hospital is remote (estimated one-half mile). The quarters now occupied could not well be used by the steward on duty at that hospital. The necessity for a set of quarters adjacent to the new building is respectfully urged.— <i>Capt. H. S. Kibourne, Assistant Surgeon, U. S. Army.</i>							
One soldiers' bath house.....	do.....				4,450 00		
NOTE.—The bathing facilities here are of the poorest description, and are entirely inadequate for the number of enlisted men at this station. In order to insure the health of the command, a suitable building, well equipped for the purpose, should be provided.— <i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
One 1-story brick building, 15 by 20 feet, for housing the engine and dynamo used in electric lighting of the riding hall.....	do.....				300 00		
NOTE.—The present brick building, 20 by 14 feet, one story high, in which the engine and dynamo used in lighting the riding hall are situated, was erected by the West Shore R. R. Co. as a pumping station, and upon completion of the observatory was turned over to the United States in payment for use of water privileges. Its proximity to the south wing of the new academic building (a few yards only intervening) requires it should be rebuilt at a point near the riding hall.— <i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
One new reservoir.....	do.....				16,000 00		
NOTE.—Attention is respectfully invited to the annual report of the Superintendent of the U. S. Military Academy, wherein the necessities for this reservoir is fully set forth. The large number of new buildings recently erected and the introduction of modern sanitary plumbing renders an additional reservoir absolutely necessary. During the summer and autumn of 1891 there was imminent danger of a water famine at West Point.— <i>Col. J. M. Wilson, Engineers, Superintendent.</i>							
One platform for new 8-inch rifle, and one platform for 12-inch B. L. mortar, as follows:							
Platform for the 8-inch rifle.....	do.....				550 00		
Platform for 12-inch B. L. mortar.....	do.....				600 00		
NOTE.—The platforms for these pieces are needed as soon as practicable in order that the guns may be mounted without delay. The 12-inch B. L. mortar is on hand and the new 8-inch rifle is soon expected.— <i>Col. J. M. Wilson, Engineers, Superintendent.</i>							
Replacing three granite center pintle platforms for 8-inch converted rifles in the seacoast battery with front pintle granite platforms (at \$600 each).....	do.....				1,800 00		
NOTE.—This is rendered necessary from the fact that the carriages on these platforms are of very old pattern and new front pintle carriages are expected at an early day.— <i>Col. J. M. Wilson, Engineers, Superintendent.</i>

<i>Improvement of Yellowstone National Park—</i>							
Completing road between Grand Cañon, Yancey, and Mammoth Hot Springs, repair and maintenance of, and graveling roads.....	Aug. 5, 1892	27	376	1	\$150,000 00	\$45,000 00
<p><i>NOTE.</i>—The work of road construction is of such a nature that it is impossible to accurately describe it without expensive preliminary surveys. For the repairs the Government possesses an equipment of working implements, tents, and outfit, enabling it to do this work more economically and satisfactorily than by contract. The working season averages about from the middle of June to the middle of October; while appropriations in alternate years are generally made late in the session of Congress. It is, therefore, recommended that authority be given to carry on this work by contract or otherwise, as may be most economical and advantageous to the Government; and that the funds hereafter appropriated for this work be made available until expended.—Thos. Lincoln Casey, Brigadier-General, Chief of Engineers.</p>

NOTE.—See letter of Chief of Bureau in Appendix U.							
LIGHT-HOUSE ESTABLISHMENT.							
<i>Supplies of Light-Houses—</i>							
Supplying fog signals, light-houses, and other lights with illuminating, cleaning, preservative, and such other materials as may be required for annual consumption; for books, boats, and furniture for stations, and not exceeding three hundred dollars for purchase of technical and professional books and periodicals for the use of the Light-House Board, and other incidental expenses; and the Light-House Board is authorized to make such changes in the location of any of the vessels of the Light-House Service from time to time as, in its judgment, will be for the best interests of the public service..	Aug. 5, 1892	27	353	1	408,000 00	370,000 00
NOTE.—The amount estimated as needed for last year was \$408,000; the amount appropriated for use was \$370,000. The number of light stations authorized by recent acts of Congress which are being built and made ready for lighting during the fiscal year estimated for will require \$408,000, especially as articles of light-house supply not manufactured in this country were formerly imported duty free, and now duties must be paid on them. The appropriation of the present year will not keep the lights supplied. The reserve store of supplies kept on hand to meet emergencies is largely depleted, and during 1892 it has been necessary to cut down to a marked degree the articles of supply absolutely essential for the efficient maintenance of the lights. The operation of the eight-hour law is to increase the expense considerably of all articles of supply manufactured by the Light-House Establishment and paid for from this appropriation.							
<i>Repairs of Light-Houses—</i>							
Repairing, rebuilding, and improving light-houses and buildings; for improvements to grounds connected therewith; for establishing and repairing pierhead and other beacon-lights; for illuminating apparatus and machinery to replace that already in use; and for incidental expenses relating to these various objects.....	Aug. 5, 1892	27	353	1	710,427 99	345,000 00
<i>Salaries of Keepers of Light-Houses—</i>							
Salaries, fuel, rations, rent of quarters, where necessary, and similar incidental expenses of not exceeding 1,250 light-house and fog-signal keepers and laborers attending other lights.....	Aug. 5, 1892	R. S. 27	908 353	4673 1	680,000 00	660,000 00
NOTE.—There will be needed to pay the salaries of keepers of existing lights and those authorized by law which are to be soon put into operation, together with rations, fuel, rent of quarters, and similar incidental expenses, the sum of \$680,000. The increase over the sum appropriated last year is necessary because of the increased number of lights authorized by Congress which have been or are now being built and made ready for lighting.							
<i>Expenses of Light-Vessels—</i>							
Seamen's wages, rations, repairs, salaries, supplies, and temporary employment and incidental expenses of light-vessels.....	Aug. 5, 1892	27	353	1	300,000 00	250,000 00
NOTE.—There were on June 30, 1892, thirty-seven light-vessels on duty. Before December 31, 1892, four of the old vessels will be replaced by newly built vessels, each of which will have a steam fog signal, and each of which will cost much more to maintain than did each of the old vessels. The last appropriation, \$280,000, will not maintain the light-ships and keep them in condition of repair warranting their use in exposed positions, as nearly all of them are.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ended June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Expenses of Buoyage—</i>							
Expenses of establishing, replacing, and maintaining buoys, spindles, and day beacons, and for incidental expenses relating thereto.....	Aug. 5, 1892	27	353	1	\$425,000 00	\$330,000 00
<p>NOTE.—There were, on June 30, 1892, in place 7 electric buoys, 62 whistling buoys, 89 bell-buoys, and 4,288 iron and wooden buoys; making in all 4,446 buoys. These, with 420 spindles and day or unlighted beacons, make a total of 4,966, as against 4,740 of last year, showing an increase of 126. Beacons and day marks, being placed in exposed positions, are extremely liable to injury and destruction. Many of them are now sadly in need of repairs, which will cost \$35,000. For the electric buoys of the Gedney Channel, \$35,000 is required to purchase cables and keep up the system. For the whistling and bell buoys and to keep up the reserve stock of buoys and appurtenances, \$25,000 will be required. Therefore \$425,000 will be required for the expenses of buoyage during the next fiscal year.</p>							
<i>Expenses of Fog Signals—</i>							
Establishing, replacing, duplicating, and improving fog signals and buildings connected therewith, and for repairs and incidental expenses of the same	Aug. 5, 1892	27	353	1	110,774 83	70,000 00
<i>Inspecting Lights—</i>							
Mileage or traveling expenses of members of the Light-House Board, including rewards paid for information as to collisions, and for the apprehension of those who damage light-house property	Aug. 5, 1892	27	353	1	5,000 00	3,000 00
<p>NOTE.—The theory is that light-house inspectors and engineers inspect the light-houses, light-ships, light-house and buoy depots, and other appurtenances, and that the members of the Light-House Board inspect the work of the inspectors and engineers. Proper inspection by members of the board is, however, limited by the fact that their mileage or traveling expenses can be paid only from this appropriation, which is burdened by the provision that from it must be paid the rewards offered for information as to collisions and for the apprehension of those who damage light-house property. It is therefore recommended that this amount be increased to \$5,000 for the coming year, or that the board be authorized to pay its members mileage or traveling expenses from the several general and special appropriations to which the travel may pertain.</p>							
<i>Lighting of Rivers—</i>							
Establishing, supplying, and maintaining post-lights on the Hudson and East rivers, New York; the Raritan River, New Jersey; Connecticut River, Thames River, between Norwich and New London, Conn.; the Delaware River, between Philadelphia and Bordentown, N. J.; the Elk River, Maryland; the Cape Fear River, North Carolina; Savannah River, Georgia; St. Johns and Indian rivers, Florida; at Chicot Pass, and to mark the navigable channel along Grand Lake, Louisiana; at the mouth of Red River, Louisiana; on the Mississippi, Missouri, Ohio, Tennessee, Illinois, and Great Kanawha rivers; Sacramento and San Joaquin rivers, California; on the Columbia and Willamette rivers, Oregon; and on Puget Sound, Washington Sound, and adjacent waters, Washington; and the channels in St. Louis and Superior bays at the head of Lake Superior; the Light-House Board being hereby authorized to lease the necessary ground for all such lights and beacons as are for temporary use or are used to point out changeable channels, and which, in consequence, can not be made permanent.....	Aug. 5, 1892	27	353	1	350,000 00	280,000 00
<p>NOTE.—The appropriation to support river lights during the year ending June 30, 1892, was \$280,000. The increase in the number of lights during the last fiscal year was much less than river commerce required, but it was all the appropriation would support. If the lights asked for on the rivers already named in the appropriation act are all provided there will be at least 1,900 of them. But it will be practically impossible to greatly increase the present number of lights from this appropriation, as the board, because of lack of funds, has had not only to refuse to establish many lights asked for, but it has had, actually, to discontinue certain lights previously established. In 1888 but 18 rivers were lighted; in 1889 that number was increased to 22; in 1890 to 25; in 1891 to 25; in 1892 to 26. If a proportionate increase is made in the special appropriation asked for in 1893 the number of rivers to be lighted will be some 30 at least, and there will be some 1,900 lights to be maintained. As the rivers which are to be lighted are mainly in the East, where the expense of establishing and maintaining river lights is the greatest, it is estimated that for the lights that will then have to be provided for \$350,000 will be required.</p>

<i>Survey of Light-House Sites—</i>							
Preliminary examinations, surveys, and plans for determining the proper sites and cost of light-houses and structures for which estimates are to be made to Congress.....	Aug. 5, 1892	27	353	1	\$1,000 00	\$1,000 00
Total Light-House Establishment.....						2,990,202 82	2,309,000 00
UNITED STATES COAST AND GEODETIC SURVEY.							
<i>Coast and Geodetic Survey—</i>							
Every expenditure requisite for and incident to the survey of the Atlantic, Gulf, and Pacific coasts of the United States and the coast of the Territory of Alaska, including the survey of rivers to the head of tide water or ship navigation; deep-sea soundings, temperature, and current observations along the coasts and throughout the Gulf Stream and Japan Stream, flowing off the said coasts; tidal observations; the necessary resurveys; the preparation of the Coast Pilot; continuing researches and other work relating to terrestrial magnetism and the magnetic maps of the United States and adjacent waters, and the tables of magnetic declination, dip, and intensity usually accompanying them; and including compensation not otherwise appropriated for; of persons employed on the fieldwork, in conformity with the regulations for the government of the Coast and Geodetic Survey adopted by the Secretary of the Treasury; for special examinations that may be required by the Light-House Board or other proper authority, and including traveling expenses of officers and men of the Navy on duty; for commutation to officers of the field force while on field duty, at a rate to be fixed by the Secretary of the Treasury, not exceeding two dollars and fifty cents per day each; outfit, equipment, and care of vessels used in the Survey, and also the repairs and maintenance of the complement of vessels, to be expended in accordance with the regulations relating to the Coast and Geodetic Survey from time to time prescribed by the Secretary of the Treasury, and under the following heads: <i>Provided</i> , That no advance of money to chiefs of field parties under this appropriation shall be made unless to a commissioned officer, or to a civilian officer, who shall give bond in such sum as the Secretary of the Treasury may direct.							
<i>Party Expenses, Coast and Geodetic Survey—</i>							
Party expenses:							
Survey of unfinished portions of the Atlantic coast from Maine to Florida, including the eastern boundary of Maine to the International Boundary Monument; coast of New Brunswick eastward to Point Lepreau; Grand Manan Island, Portsmouth Harbor, and Piscataqua River; Newburyport Harbor and Merrimac River to Haverhill; Connecticut River to Hartford; Hudson River to Troy; Delaware River from Philadelphia to Trenton; Bogue Inlet and interior waters along the coast of North Carolina, and Cooper and Ashley Rivers, South Carolina; and for necessary resurveys, including Boston Harbor, Buzzards Bay, Nantucket Sound, Chesapeake Bay and tributaries, coast of New Jersey from Sandy Hook to Cape May, St. Johns River to Jacksonville, and Fort George Inlet. UNDER SMITHSONIAN INSTITUTION.							
<i>Preservation of Collections, National Museum—</i>							
Continuing the preservation, exhibition, and increase of the collections from the surveying and exploring expeditions of the Government, and from other sources, including salaries or compensation of all necessary employes	Aug. 5, 1892	27	360	1	\$180,000 00	\$132,500 00
<p>NOTE.—The growth of the collections, the increase in the number of visitors, and in the number and variety of the demands of educational institutions and the public, render it extremely desirable that the appropriations for the Museum should be larger. The appropriations for 1893 were not only less than for the preceding year, but scarcely exceeded those for 1887, although the collections have increased, chiefly through donations, by nearly a million specimens since that time. On account of the reduction in the appropriations for 1893, it is impossible to meet the increased demands of the year, and no attention can be given to many important matters lying over from preceding years. For these reasons, and others of equal moment, it is greatly to be hoped that the entire sum of \$180,000, which has twice been estimated for, but not received, may now be granted. For the welfare of the Museum, it is desirable that an increase should be made in the number of paid assistants on the scientific staff. Much work is performed by volunteers, without compensation, but this system has only a limited usefulness. Even with this assistance, it is impossible in many departments to keep pace with the growth of the collections, and the constantly increasing demands of educational establishments and the public for information and aid. Many of the salaries are too low to secure efficient service. The compensation of the members of the scientific staff is less than that of teachers in the higher public schools, although the service rendered is of a very special character. The clerical employes are paid less than in the Executive Departments; hence, many leave after a short period of service, to the serious detriment of the Museum, which is constantly compelled to train new employes. For the safekeeping of the collections, which have greatly increased in intrinsic value as well as extent, a larger number of watchmen is necessary. The force is now so small that it is difficult to grant the usual leaves of absence without exposing the collections to danger. It is also with difficulty that the cleanliness of the floors and cases is maintained, on account of the limited number of laborers and cleaners which the present appropriation will permit the Museum to employ.</p>							
<i>Furniture and Fixtures, National Museum—</i>							
Cases, furniture, fixtures, and appliances required for the exhibition and safekeeping of the collections of the National Museum, including salaries or compensation of all necessary employes	Aug. 5, 1892	27	360	1	30,000 00	15,000 00
<p>NOTE.—Although the Museum halls are already in a crowded condition, it is necessary, without regard to the width of aisles and the established arrangement of exhibits, to find room for the collections which are constantly received by donation. Many valuable objects are still exposed to dust and vandalism from the lack of sufficient money to procure the necessary cases. Collections, such as the great Laclede collection of fossil plants (received in 1892), are frequently offered, with the condition that suitable cases be provided.</p> <p>Judging by the experience of the Museum in connection with the Philadelphia, London, New Orleans, and Cincinnati exhibitions, it will be necessary during 1893 to make provision for the large number of collections which will be presented to the Government at the close of the World's Columbian Exposition. For the safekeeping of these objects numerous storage and exhibition cases will be required, and it is therefore hoped that the sum of \$30,000 will be appropriated.</p>							
<i>Heating and Lighting, National Museum—</i>							
Expense of heating, lighting, electrical, telegraphic and telephonic service for the National Museum, including salaries or compensation of all necessary employes.....	Aug. 5, 1892	27	360	1	15,000 00	11,000 00
<p>NOTE.—The larger part of this appropriation is expended for fuel and gas. As has been explained in connection with the estimates for previous years, it is necessary for the safety of the collections that the buildings should be kept at a nearly even temperature day and night throughout the winter. The reduction of this appropriation in 1893, below the minimum of \$12,000, makes a deficiency for that year necessary. From lack of fuel required to maintain the proper temperature, some of the offices had to be abandoned on several occasions during the winter of 1892.</p> <p>The longer the heating apparatus is used the less effective it becomes, and of late it has been necessary each successive year to expend a larger sum for replacing wornout parts.</p> <p>The wires of the burglar alarms, watchmen's call-boxes, and other electrical apparatus have deteriorated from long use. Some of these have already been renewed and others need immediate attention.</p>							
<i>Galleries, National Museum—</i>							
The erection of two galleries, one in the southwest court, the other in the southeast range, National Museum building; said galleries to be constructed of iron beams,							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>Galleries, National Museum—Continued.</i>							
supported by iron pillars, and protected by iron railings, and provided with suitable staircases; the work to be done under the direction of the Architect of the Capitol, and in accordance with the approval of the Secretary of the Smithsonian Institution.....	Submitted.....					\$8,000 00	
NOTE.—The erection of these galleries will add materially to the area available in the present Museum building for exhibition purposes. Such galleries were provided for in the original plans of the building. They can be supported in such a manner as not to detract from the appearance of the halls, or to interfere with the present installation of the collections.							
<i>Postage, Smithsonian Institution and National Museum—</i>							
Postage-stamps and foreign postal-cards and postage for the Smithsonian Institution, National Museum, Bureau of International Exchanges, Bureau of Ethnology, and National Zoological Park.....	Aug. 5, 1892	27	360	1		500 00	\$500 00
<i>International Exchanges, Smithsonian Institution—</i>							
Expenses of the system of international exchanges between the United States and foreign countries, under the direction of the Smithsonian Institution, including salaries or compensation of all necessary employes.....	Aug. 5, 1892	27	360	1		23,000 00	12,000 00
NOTE.—For 1891-'92, \$17,000 were appropriated directly to the Institution, and \$2,561.31 were received from different Government bureaus, leaving a deficiency of \$563.79. The service has been curtailed on account of the reduced appropriation for 1892-'93, but to continue the work throughout the year a deficiency of about \$4,000 is inevitable. The aggregate of \$23,000 is intended to cover the expenses of carrying out a treaty for the immediate exchange of parliamentary documents, to which no effect has yet been given, and even this amount will not meet the entire expense of transportation; the Government still being under obligations to many steamship companies for the privilege of free freight.							
<i>North American Ethnology, Smithsonian Institution—</i>							
Continuing ethnologic researches among the American Indians, under the direction of the Smithsonian Institution, including salaries or compensation of all necessary employes, and office rent.....	Aug. 5, 1892	27	360	1		50,000 00	40,000 00
<i>Astrophysical Observatory, Smithsonian Institution—</i>							
Maintenance of astrophysical observatory, under the direction of the Smithsonian Institution, including salaries of assistants, apparatus, and miscellaneous expenses.....	Aug. 5, 1892	27	360	1		10,000 00	10,000 00
NOTE.—An astrophysical observatory has been established under the Smithsonian Institution, in part from the Smithsonian fund and in part by subscriptions of private individuals. Its maintenance was provided for by an appropriation of \$10,000 for the year ending June 30, 1893. Researches of great scientific and economic value are carried on by every considerable civilized government at well-equipped astrophysical observatories. The investigations here contemplated are not provided for at any other observatory. They conflict in no way with the work carried on by or proposed for the U. S. Naval Observatory.							
<i>Building, Smithsonian Institution—</i>							
Continuing the repairs upon the Smithsonian building needed to protect the building from further deterioration, and to place it in proper sanitary condition; it being provided that any unexpended balance remaining to the credit of the appropriation for fireproofing, etc., shall be available for the purposes above stated; this work to be done under the direction of the Architect of the Capitol, and in accordance with the approval of the Regents of the Smithsonian Institution.....	Submitted.....					5,000 00	
<i>National Zoological Park, Smithsonian Institution—</i>							
Continuing the construction of roads, walks, bridges, water supply, sewerage, and drainage, and for grading, planting, and otherwise improving the grounds; for erecting and repairing buildings and inclosures; and for care, subsistence, transportation, and purchase of animals, including salaries or compensation of all nec-

UNDER THE WAR DEPARTMENT.							
NATIONAL CEMETERIES.							
<i>National Cemeteries—</i>					}	100,000 00	100,000 00
Maintaining and improving national cemeteries, including fuel for superintendents of national cemeteries, pay of laborers and other employes, and purchase of tools and materials.....	R. S.	943	4870				
	R. S.	944	4879				
	Aug. 5, 1892	27	377	1			
<i>Pay of Superintendents of National Cemeteries—</i>					}	61,880 00	61,880 00
Pay of seventy-four superintendents of national cemeteries.....	R. S.	943	4873				
	Aug. 5, 1892	27	377	1			
<i>Headstones for Graves of Soldiers—</i>					}	40,000 00	10,000 00
Continuing the work of furnishing headstones for unmarked graves of Union soldiers, sailors, and marines in national, post, city, town, and village cemeteries, naval cemeteries at navy-yards and stations of the United States, and other burial-places.....	Aug. 5, 1892	27	377	1			
NOTE.—The fulfillment of existing contracts which will be completed within the current fiscal year will consume the balance of the appropriation for headstones now in the Treasury. About 10,000 headstones are used yearly, costing \$4 each (including transportation) making \$40,000 now estimated for.—E. N. Batchelder, Quartermaster General, U. S. Army.							
<i>Repairing Roads to National Cemeteries—</i>					}	10,000 00	10,000 00
Repairs to roadways to national cemeteries which have been constructed by special authority of Congress or of the War Department.....	Aug. 5, 1892	27	377	1			
<i>Burial of Indigent Soldiers—</i>					}	2,000 00	2,000 00
Expenses of burying in the Arlington National Cemetery, or in the cemeteries of the District of Columbia, indigent ex-Union soldiers, sailors, and marines of the late civil war who die in the District of Columbia, to be disbursed by the Secretary of War at a cost not exceeding \$50 for such burial expenses in each case, exclusive of cost of grave.....	July 28, 1892	27	291	1			
	Aug. 5, 1892	27	377	1			
<i>Road to National Cemetery, Presidio of San Francisco, Cal.—</i>					}	25,000 00	10,000 00
Continuing the work of improving the reservation at the Presidio of San Francisco, Cal., by developing and perfecting the water supply, the reclaiming of sand dunes, the planting of trees and shrubs and construction of new roads, the erection of a permanent fence or wall on the south and east lines of the reservation, the erection of permanent gateways, the reclamation of the marsh, and other general and much needed improvements.....	June 4, 1888	25	167	1			
	Mar. 2, 1889	25	966	1			
	Mar. 3, 1891	26	978	1			
	Aug. 5, 1892	27	377	1			
NOTE.—The sum now called for is the same as was asked last year, and \$15,000 more than was appropriated. The work is of great importance and the amount estimated can be advantageously expended in making much-needed improvements.—E. N. Batchelder, Quartermaster-General, U. S. Army.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
<i>Monuments or Tablets at Gettysburg :</i>							
For the erection of monuments or tablets for the proper marking of the position of each of the commands of the regular Army engaged at Gettysburg ; for the purchase of land for sites for these monuments, and for driveways thereto and for the construction and repair of such driveways, as authorized and provided by the acts of March 3, 1887, October 2, 1888, and March 2, 1889 (act March 3, 1887, vol. 24, page 535, sec 1 : act October 2, 1888, vol. 25, page 538, sec. 1 : act March 2, 1889, vol. 25, page 970, sec. 1).....	Submitted.....					\$55, 373 36	
NOTE.—For full explanation of this estimate attention is respectfully invited to House Ex. Doc. No. 195, Fifty-first Congress, first session.— <i>R. N. Batchelder, Quartermaster-General, U. S. Army.</i>							
Total National Cemeteries						294, 253 36	\$193, 880 00
MISCELLANEOUS OBJECTS.							
<i>Surveys and Reconnoissances in Military Departments—</i>							
Military surveys and reconnoissances and surveys of military reservations by the engineer officers attached to the several headquarters of military departments, being an average of \$2,142.86 for each of seven military departments west of the Mississippi River.....	Submitted.....				\$15, 000 00		
Publication of maps for use of the War Department, inclusive of war maps.....	do.....				10, 000 00		
						25, 000 00	
<i>Survey of Northern and Northwestern Lakes—</i>							
Surveys, additions to and correcting engraved plates (see note)	Aug. 5, 1892	27	378	1	50, 000 00		
Printing and issuing charts for use of navigators, and electrotyping plates for chart-printing.....	do.....				3, 000 00		
						53, 000 00	7, 000 00
NOTE.—This increased appropriation is asked for in order that certain special areas may be reexamined for the benefit of the enormous commerce now upon the lakes. The draft and size of vessels carrying the commerce has considerably increased in the last few years, and will again be increased when the new lock in St. Marys River, now under construction, is completed. Localities deemed perfectly safe for navigation when the maximum draft of vessels was 12 feet, are regarded with suspicion when the draft is one-half or more greater. Consequently certain special reexaminations should be made.— <i>Thos. Lincoln Casey, Brigadier-General, Chief of Engineers.</i>							
<i>Transportation of Reports and Maps to Foreign Countries—</i>							
Transportation of reports and maps to foreign countries through the Smithsonian Institution.....	Aug. 5, 1892	27	378	1		100 00	100 00
<i>Artificial Limbs—</i>							
Furnishing artificial limbs and apparatus, or commutation therefor, and transportation.....	Aug. 15, 1876 Aug. 5, 1892	R. S. 19 27	929 203 378	4787- 4791 1, 2 1		650, 000 00	175, 000 00
NOTE.—The actual count of cases on file in this office shows that there will become payable between July 1, 1893, and June 30, 1894, 7,147 claims of \$50 each, amounting to \$357,350, and 3,564 claims of \$75 each, amounting to \$267,300; total, \$624,650. It is believed that the number of deaths among the persons to whom these claims will be payable will be more than offset by new claimants whose increasing disabilities will then entitle them to the benefit of laws relating to artificial limbs. The number of claims which will become payable during the fiscal year ending June 30, 1894, is very largely increased by the amendment approved March 3, 1891, changing the term of payment from five to three years.							
<i>Appliances for Disabled Soldiers—</i>							
Furnishing surgical appliances to persons disabled in the military or naval service of the United States, and not entitled to artificial limbs or trusses for the same disabilities.....	Aug. 5, 1892	27	378	1		3, 000 00	2, 000 00
<i>Support and Medical Treatment of Destitute Patients—</i>							
Support and medical treatment of ninety-five medical and surgical patients who are destitute, in the city of Washington, under a contract to be made with the Providence Hospital by the Surgeon-General of the Army.....	Aug. 5, 1892	27	378	1		19, 000 00	19, 000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1894—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1893.
		Vol. or R. S.	Page.	Sec.			
Maintenance of Garfield Hospital— Garfield Memorial Hospital: For maintenance, to enable it to provide medical and surgical treatment to persons unable to provide therefor.....	Aug. 5, 1892	27	378	1	\$25,000 00	\$15,000 00
NOTE.—The communication of Mr. Justice Harlan, president of the hospital, requesting the insertion of this estimate, and explaining the necessity for the increased amount asked for, will be found in Appendix Z.							
Expenses of Military Convicts— Payment of costs and charges of State penitentiaries for the care, clothing, maintenance, and medical attendance of United States convicts confined in them.....	Aug. 5, 1892	27	378	1	3,000 00	5,000 00
Prevention of Obstructive and Injurious Deposits within the Harbor and Adjacent Waters of New York City— Pay of inspectors, deputy inspectors, office force, and expenses of office.....	June 29, 1888	25	209	1-6	} \$20,000 00		
Pay of crew and maintenance of steamer <i>Nimrod</i>	Aug. 5, 1892	27	379	1			
Pay of crew and maintenance of steamer <i>Argus</i>	Same acts.....					10,000 00	
Purchase or construction of one steam tug.....	Submitted.....					10,000 00	
Pay of crew and maintenance of two steam tugs to be purchased or constructed.....do.....					45,000 00

<i>Bounty under Act of July 28, 1866 (Certified Claims)—</i>							
Payment of amounts for bounty under the act of July 28, 1866, that may be certified to be due by the accounting officers of the Treasury during the fiscal year 1894.....	July 28, 1866 Aug. 5, 1892	14 27	322 384	12, 13 1		40,000 00	35,000 00
<i>Commutation of Rations to Prisoners of War in Rebel States, and to Soldiers on Furlough (Certified Claims)—</i>							
Payment of amounts for commutation of rations to prisoners of war in rebel States, and to soldiers on furlough, that may be certified to be due by the accounting officers of the Treasury during the fiscal year 1894.....	Aug. 5, 1892	27	384	1		35,000 00	30,000 00
NOTE.—Estimated amounts that will be certified by the accounting officers for these objects during the fiscal year 1893 are as follows:							
Pay of two and three year volunteers.....					\$650,000 00		
Bounty to volunteers, etc.....					375,000 00		
Bounty under act of July 28, 1866.....					50,000 00		
Commutation of rations, etc.....					35,000 00		
					1,110,000 00		
The amounts expended during the fiscal year 1892 were as follows:							
Pay of two and three year volunteers.....					\$687,446 56		
Bounty to volunteers, etc.....					218,620 68		
Bounty under act of July 28, 1866.....					45,518 77		
Commutation of rations, etc.....					26,602 75		
					978,188 74		
Total Miscellaneous Objects.....						5,287,951 41	4,495,356 34
Total Miscellaneous under War Department.....						5,582,204 77	4,689,236 34
UNDER THE INTERIOR DEPARTMENT.							
COLLECTING THE REVENUE FROM PUBLIC LANDS.							
<i>Salaries and Commissions of Registers and Receivers—</i>							
Compensation of registers and receivers of local land offices, at not exceeding \$3,000 each. (See Appendix C c.).....	Aug. 5, 1892	R. S. 27	392 368	2237, 2240 1		550,000 00	550,000 00
NOTE.—The estimate submitted is based upon the actual earnings of registers and receivers of fees and commissions collected and turned into the Treasury by them during the fiscal year ending June 30, 1892. (See detailed statement herewith, marked Exhibit A.)							
During the year ending June 30, 1892, the fees and commissions earned by registers and receivers amounted to \$752,961.01, while the entire appropriation for their salaries and commissions was \$600,000, which, if all expended, will leave a net revenue to the United States of \$152,961.01.

To pay the reporter of decisions of the Supreme Court of the United States for seventy-six copies each of volumes 150 to 154, inclusive, of the United States Reports, at a rate not exceeding \$2 per volume.....	Aug. 5, 1892	27	371	1	760 00	1,368 00
<i>Current Expenses, Government Hospital for the Insane—</i>							
For support, clothing, and treatment, in the Government Hospital for the Insane, of the insane from the Army and Navy, Marine Corps, Revenue-Cutter Service, and inmates of the National Home for Disabled Volunteer Soldiers, persons charged with or convicted of crimes against the United States who are insane, all persons who have become insane since their entry into the military or naval service of the United States, who have been admitted to the hospital and who are indigent, and for the indigent insane of the District of Columbia..		R. S.	938	4838-	266,786 00	268,300 00
	Appropriated..	27	372	4858 1			
<p>NOTE.—This estimate is based on a probable average number of 1,650 of the above classes at a per capita cost of \$220 per annum. Congress has for many years divided the amount of this appropriation between the sundry civil and the District bill. Following the ratio of previous years, the increase in the District appropriation being based on the increase in the number of District patients during the last year, the amount in that bill will be \$96,214, leaving \$266,786 to be provided in the sundry civil bill. Of this sum it is asked that not exceeding \$1,500 may be used for defraying the expense of the return of patients to their friends.</p>

						29,800 00	27,500 00
<p>NOTE.— HOWARD UNIVERSITY, Washington, D. C., Sept. 15, 1892. SIR: In compliance with the action of Congress in relation to the appropriation for the salaries, etc., for the Howard University, I have the honor to transmit herewith to your Department a revised estimate in accordance with the requirements, and desire to say that the appropriation for the salaries of the officers, etc., does not include the entire salary of any officer. It has been the custom of the university to use the Government appropriation in such amounts as to supplement other resources applicable for the same purpose. In making this estimate it is proposed to use the amounts designated in nine equal payments commencing September 30, 1893. In the case of the law department, the money will be paid in eight equal payments, commencing October 31. Any other division of the money will embarrass the University. J. B. JOHNSON, Secretary and Treasurer. Hon. JOHN W. NOBLE, Secretary of the Interior.</p>							
<i>Education of Children in Alaska—</i>							
Industrial and elementary education of children of school age in Alaska, without reference to race.....	Aug. 5, 1892	27	372	1	40,000 00		
Increase.....	Submitted.....				20,000 00		
						60,000 00	40,000 00
<p>NOTE.—The appropriation under this head for the present year is but \$40,000, a reduction of \$10,000 below the amount allowed annually for the last three years. But the requirements of the school work in Alaska have made it necessary to ask that said sum of \$10,000 be yet granted for this year in a deficiency bill, to prevent the closing of the schools before the end of the term. For next year the regular growth of the schools, the building of a few much-needed houses and the opening of several new schools at long-neglected points will necessitate the allowance of \$60,000.</p>							
<i>Education of Feeble-minded Children in District of Columbia—</i>							
To enable the Secretary of the Interior to provide for the education of feeble-minded children in the District of Columbia.....	July 14, 1892	27	165	1	4,300 00	4,300 00
Total Miscellaneous Objects.....						1,194,146 00	1,401,968 00
Total Miscellaneous under Interior Department.....						3,158,466 00	3,049,000 88

One engineer for harbor boat	Submitted				900 00		
One deckhand for harbor boat	do				480 00		
One watchman for harbor boat	do				480 00		
						\$49,603 00	\$45,641 00
Pay of inspectors to superintend the construction and repair of new buildings and enlargement of existing buildings, to be respectively paid out of the appropriations made for the structures upon which they shall be employed, as follows:							
New workhouse			\$800				
One family building for Reform School			600				
Three eight-room public schools			each.. 600				
Two new fire-engine houses			each.. 600				
Municipal building			1,200				
<p>NOTE.—It is at least doubtful whether it is best to provide specific compensation for inspectors to superintend the construction of the above-named buildings. Under the above provision one man might be employed to superintend the construction of all said buildings and receive the pay.—First Comptroller.</p>							
Assessor's office:							
One assessor	June 11, 1878 July 14, 1892	20 27	102 151	2, 3 1	3,000 00		
Two assistant assessors, at \$1,800 each (increase of \$200 each submitted)	Same acts				3,600 00		
One special assessment clerk	do				1,700 00		
Three clerks, at \$1,400 each (one additional submitted)	do				4,200 00		
Three clerks, at \$1,200 each (one additional submitted)	do				3,600 00		
One clerk and draftsman	do				1,200 00		
Three clerks, at \$1,000 each	do				3,000 00

Five foremen, at \$950 each.....	do.....				4, 750 00		
NOTE.—It is not practicable to specify the periods for which these additional employes would be required. It would depend very much upon the method of doing the work, and especially upon the number of sewers under construction at any one time. It is believed that the employment of all these additional employes could best be covered by continuing in force the following provision of the appropriation bill for the current fiscal year:							
That overseers, inspectors, and other employes temporarily required in connection with sewer, street, or road work, or the construction and repair of buildings and bridges, or any work authorized by appropriations and all expenses incidental to or necessary for the proper execution of said work, shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners of the District in their annual report to Congress shall report the number of such overseers, inspectors, and other employes and their work and the sums paid to each and out of what appropriation.

Plats of Subdivisions of Lands—							
To pay the expenses of such surveys as may be necessary to enable the Commissioners of the District of Columbia to determine if plats of subdivisions of land within the District offered for record have been made in conformity to the "Act to regulate the subdivision of land within the District of Columbia," approved August 27, 1888..	Aug. 27, 1888 } Jan. 24, 1891 } July 14, 1892 }	25 } 26 } 27 }	451 } 728 } 155 }	1 } 1, 2 } 1 }	5,000 00	4,000 00
Permit Work—							
Paving and curbing the roadway of any street in the District of Columbia, ordered by the District Commissioners upon payment in advance by the owners of abutting property of one-half the estimated cost of said work... <i>Provided, That said pavement shall join, abut upon, or connect with some existing pavement, and that the work so done shall be complete for the entire width of roadway, and shall in length be at least one square.</i> This appropriation shall be available for removing and repaving parking on New York avenue, between Ninth and Tenth streets, under the provisions of the compulsory permit system.	June 11, 1878 } July 14, 1892 }	20 } 27 }	104 } 154 }	3 } 1 }	\$25,000 00		
Improvement and repair of alleys and sidewalks and the construction of sewers and sidewalks of such form and materials as the Commissioners may determine under the permit system.....	Same acts.....				165,000 00		
						190,000 00	165,000 00
Improvements and Repairs—							
Work on sundry streets and avenues named in the schedules attached hereto, marked "A" (see Appendix Dd). To be expended in the discretion of the Commissioners of the District of Columbia upon streets and avenues specified in the schedules hereto attached, and in the aggregate for each schedule as follows, viz: Georgetown, \$42,500; northwest-section schedule, \$190,000; southwest-section schedule, \$65,000; southeast-section schedule, \$95,000; northeast-section schedule, \$107,500. <i>Provided, That the streets and avenues shall be completed as nearly as practicable in the order in which they appear in said schedules.</i> That under appropriations contained in this act no contract shall be made for making or repairing concrete or asphalt pavement at a higher price than \$2 per square yard for a quality equal to the best laid in the District of Columbia prior to July 1, 1892, and with same depth of base: <i>Provided, That these conditions as to price and depth of base shall not apply to those streets on which, in the judgment of the Commissioners, by reason of heavy traffic, poor foundation, or other causes, a pavement of more than ordinary strength is required, in which case the limit of price may be increased to \$2.25 per square yard.</i>	June 11, 1878 } July 14, 1892 }	20 } 27 }	104 } 154, 5 }	3 } 1 }	500,000 00

		Vol. or R. S.	Page.	Sec.			
<p><i>Expenses of Treasury Notes, Act July 14, 1890—</i> That the Secretary of the Treasury is hereby directed to purchase, from time to time, silver bullion to the aggregate amount of four million five hundred thousand ounces, or so much thereof as may be offered in each month, at the market price thereof, not exceeding one dollar for three hundred and seventy-one and twenty-five hundredths grains of pure silver, and to issue in payment for such purchases of silver bullion Treasury notes of the United States to be prepared by the Secretary of the Treasury, in such form and of such denominations, not less than one dollar nor more than one thousand dollars, as he may prescribe; and a sum sufficient to carry into effect the provisions of this act is hereby appropriated out of any money in the Treasury not otherwise appropriated. That the Treasury notes issued in accordance with the provisions of this act shall be redeemable on demand, in coin, at the Treasury of the United States, or at the office of any assistant treasurer of the United States, and when so redeemed may be reissued; but no greater or less amount of such notes shall be outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom then held in the Treasury purchased by such notes; and such Treasury notes shall be a legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract, and shall be receivable for customs, taxes, and all public dues, and when so received may be reissued; and such notes, when held by any national banking association, may be counted as a part of its lawful reserve. That upon demand of the holder of any of the Treasury notes herein provided for the Secretary of the Treasury shall, under such regulations as he may prescribe, redeem such notes in gold or silver coin, at his discretion, it being the established policy of the United States to maintain the two metals on a parity with each other upon the present legal ratio, or such ratio as may be provided by law.....</p>	July 14, 1890	26	289	1-2	\$210,000 00	\$138,000 00	\$249,467 50
<p><i>Coinage of Silver Bullion—</i> That the Secretary of the Treasury shall each month coin two million ounces of the silver bullion purchased under the provisions of this act into standard silver dollars until the first day of July, eighteen hundred and ninety-one, and after that time he shall coin of the silver bullion purchased under the provisions of this act as much as may be necessary to provide for the redemption of the Treasury notes herein provided for, and any gain or seigniorage arising from such coinage shall be accounted for and paid into the Treasury. That the silver bullion purchased under the provisions of this act shall be subject to the requirements of existing law and the regulations of the mint service governing the methods of determining the amount of pure silver contained, and the amount of charges or deductions, if any, to be made. That so much of the act of February twenty-eighth, eighteen hundred and seventy-eight, entitled "An act to authorize the coinage of the standard silver dollar and to restore its legal-tender character," as requires the monthly purchase and coinage of the same into silver dollars of not less than two million dollars, nor more than four million dollars' worth of silver bullion, is hereby repealed.....</p>	July 14, 1890	26	289	3-5		50,000 00	34,579 27
<p><i>Allowance or Drawback (Internal Revenue)—</i> Indefinite appropriation to pay allowance or drawback on articles on which any internal duty or tax shall have been paid when said articles are exported.....</p>		R. S.	725	3689	30,000 00	20,000 00	21,500 30
<p><i>Rebate of Tax on Tobacco—</i> That on all original and unbroken factory packages of smoking and manufactured tobacco and snuff held by manufacturers or dealers at the time the reduced tax, as provided for in "An act to reduce the revenue and equalize duties on imports, and for other purposes," approved October first, eighteen hundred and ninety, shall take effect, upon which the tax has been paid, there shall be allowed a drawback or rebate of the full</p>

APPENDIX.

APPENDIX.

APPENDIX A.

In relation to the estimate for books and maps, State Department. (See page 17).

DEPARTMENT OF STATE, Washington, October 26, 1892.

SIR: I have the honor herewith to inclose copy of a report to the Secretary of State from the chief of the Bureau of Rolls and Library of this Department in explanation and support of the estimate for books and maps for the Department of State submitted in the estimates of appropriations for 1893-'94 for submission to the appropriate committees of Congress.

I have the honor to be, sir, your obedient servant,

WILLIAM F. WHARTON,
Acting Secretary.

Hon. SECRETARY OF THE TREASURY.

DEPARTMENT OF STATE,
Bureau of Rolls and Library, October 26, 1892.

SIR: It would seem proper that this Bureau should submit to your consideration, by a brief written statement, the facts and motives impelling an estimate of \$1,000 additional for the contemplated appropriation for books and maps for the Department of State.

As long ago as 1870 the fund appropriated for the purchase of books and maps for this Department was \$2,500. A like sum continued to be appropriated annually for the same purpose until 1878, when the appropriation was reduced to \$2,000. It was, however, the following year increased to \$3,000, and \$3,000 was appropriated annually for the same purpose until 1885, when, upon the Department's estimate of \$3,000, the appropriation was reduced to \$2,000, at which figure it has since continued. The largest sum appropriated, \$3,000, was not in any case found to be in excess of the needs of the Department. The smallest sum, \$2,000, has always been found to be inadequate, so far as I am able to ascertain, for actual necessities. It is true that nearly \$500 of the appropriation for 1887-'88 was covered into the Treasury, but the failure to use that sum was, as I am informed, due to the cancellation of orders accompanying a change in the incumbency of this Bureau, and in no wise due to the absence of requirements or to the inattention of either the retiring or incoming chief of the Bureau, for neither of those gentlemen appears to have left unexpended any appreciable balance of the appropriation at any other time.

Technical books for the use of the Department are bought upon the following lines, stated in the order of their importance: International law and the laws of foreign nations; diplomacy; political history and political science; general history and geography; biography and memoirs, and miscellaneous books of kindred and collateral descriptions.

Besides technical books, the appropriation is drawn upon for that class of manuals and reference books indispensable to the several bureaus of the Department, as to all public offices—books which are uniformly as expensive as they are necessary.

Another and fruitful source of expense from this appropriation is the official library (largely composed of American text-books, reports, and digests) of the Solicitor of the Department, assigned here by law in behalf of the Department of Justice.

The chapter of the laws of foreign nations in the Department library is in serious and urgent need of amendment. The needs of the chapters of international law and diplomacy are current, and the books are all of an expensive class. They are, moreover, books which the Department is obliged to put upon its own shelves, owing to the fact of their inaccessibility otherwise; for such books, for the greater part in foreign languages, are not supplied to the Library of Congress by copyright laws to any appreciable extent, and are not by any means always to be had of the other great libraries of the country. Their place, of all places, is in this Department. And that the Department should be unable to secure all such works as are of practical and special value to this Government would seem to be nothing less than deplorable, in the consciousness of the place assigned to the technical library of the Department of State of the United States as one of the first three or four in the world. This position, even if not already lost, can not be maintained upon the library's share of the \$2,000 appropriation for books and maps for the whole Department.

I submit to you, sir, that while I was writing the preceding paragraph an Assistant Secretary of State came to the library in search of a certain law of 1865 of one of the principal European nations, and that it was not to be found in the library. Such a situation, by no means infrequent, is almost an absurdity. It has been more than once intelligently asserted in the Department that the absence of the texts of the laws of foreign nations from the library was due entirely to the expense involved in securing them, not to any other cause. I may say, perhaps without impropriety, that the absence of foreign codes and similar works from the shelves of the library is a constant cause of expense and delay within the personal knowledge of several of the officers of the Department.

A full set of the French codes and reports was ordered and secured last June, but the appropriation will not permit of the purchase of similar sets from other countries in any number.

There are other lines of literature in which the library's deficiencies are so familiar to you that no special mention need be made of them here further than a reference to the delay, annoyance, and expense frequently caused by them in some of the most important diplomatic correspondence of the Government. It would seem to be quite enough to complain of inability to meet current needs, and leave other and special requirements to be separately considered.

In that view, a few words in recapitulation may conclude this statement:

Twenty years ago the amount appropriated for the purchase of books and maps for the Department of State was \$500 more than that appropriated for the past seven years, and thirteen years ago the amount appropriated was \$1,000 more than that appropriated for the past seven years and still appropriated. But during the past twenty years the advance in those classes of literature in which this Department is concerned has been rapid and constant—more rapid and constant in the past seven than in the preceding thirteen years—from causes which it would be a presumption to recite here. No so-called "light literature" comes to this library by purchase. The books bought have permanent values, and they are carefully guarded, and must, in the very nature of the Department's work, be constantly used. There is always, therefore, palpable "value received" for the fund thus given by Congress. The sum now asked in the estimates for the fiscal year to

end June 30, 1894, is a close and economical estimate. It is the restoration of a former amount in the appropriation, not an unprecedented increase, that is sought. Among the many drafts upon the Treasury required by the magnitude of the Government it is hoped that this item may not be regarded as immodest or disproportionate.

Respectfully submitted.

The SECRETARY OF STATE.

ANDREW H. ALLEN,
Chief of the Bureau of Rolls and Library.

APPENDIX B.

In relation to the estimates for "Salaries, Office of Supervising Architect." (See page 21.)

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., November 16, 1892.

List of employes in office of Supervising Architect, Treasury Department, and amounts paid each, from appropriations for public buildings, furnished under requirements of the act of Congress approved March 3, 1891, 26 Statutes, p. 918. (See estimate for 1894, on page 21.)

APPENDIX C.

In relation to the estimate for "Salaries, Office of Sixth Auditor." (See page 24.)

TREASURY DEPARTMENT, OFFICE AUDITOR OF THE TREASURY FOR THE POST-OFFICE DEPARTMENT,
Washington, D. C. October 29, 1892.

SIR: Under the provisions contained in Department circular letter of August 15, 1892, I have the honor to transmit herewith the estimates of appropriations required for the service of this office for the fiscal year ending June 30, 1894.

It will be noticed that I have submitted an item for ten clerks at \$1,000 per annum. This increase is made absolutely necessary by the increase in the number of post-offices, whereby the labors of each of the several divisions of this office have been largely increased. The money-order system has been largely extended within the last two or three years, and particularly so at the beginning of the present fiscal year, whereby money-order accounts, with a large number of money-order offices, are required to be opened and maintained. The present force of the money-order registrars, or bookkeepers, is taxed to its utmost capacity in keeping up the current work without reference to the increase in the number of offices July 1, 1892.

It is contemplated to assign a portion of the ten clerks at \$1,000 to this branch of the clerical work.

Reference has already been made in numerous communications to your office heretofore, and in the annual reports of this Bureau, to the urgent need for additional force to be employed in assorting money orders and postal notes. This necessity is imperative, and the required increase in the force can not longer be delayed without serious embarrassment to the money-order system.

I have therefore submitted an estimate for twenty female laborers at \$660 per annum, and ten male laborers at the same rate of pay, to meet these demands. These salaries are the lowest on the roll of this office.

After a careful estimate, I am fully justified in stating that thirty persons additional to the present force are absolutely necessary to bring up the arrears of assorting and keep the current work up to the requirements of the Department in future.

In submitting the estimates of this office for the fiscal year ending June 30, 1893, the following language was used :

"In connection with the items of increase of salaries for the Auditor, deputy auditor, chief clerk, disbursing clerk, and chiefs of divisions, I inclose herewith a copy of my letter of September 26, 1890, accompanying the estimates of this office for the present fiscal year. The magnitude of the business of this office and the importance of the duties of the officers named fully justify, in my opinion, the estimated increase in salaries, and I strongly urge your approval thereto and earnestly urge your favorable consideration thereof and your recommendation of the same to Congress."

This statement applies with equal force at this time. The propriety and necessity for the increase of the salaries referred to seems to me apparent, and I do not feel that I should fully discharge my duties to the office unless I again urged the matter upon your attention and asked your coöperation in securing a favorable consideration of the same.

Respectfully,

T. B. COULTER,
Auditor.

Hon. CHARLES FOSTER,
Secretary of the Treasury.

APPENDIX D.

In relation to the estimate for "Salaries, Office of Supervising Surgeon-General Marine-Hospital Service." (See page 29.)

TREASURY DEPARTMENT,
OFFICE OF THE SUPERVISING SURGEON-GENERAL MARINE-HOSPITAL SERVICE,
Washington, D. C., November 3, 1892.

SIR: I have the honor to transmit herewith the estimates of appropriation required for the Marine-Hospital Service for the fiscal year ending June 30, 1894.

Referring to the item of three clerks at \$1,800 each (increase of two submitted), I beg leave to invite your attention to the fact that the salaries of all clerks in the Bureau are paid from the Marine-Hospital fund, and that the increase of two clerks at \$1,800 each is absolutely necessary by reason of the greatly increased amount of work which is done in the Bureau compared with the work of the Bureau at the time the present allotment of clerks was originally made, ten years ago.

With regard to the messenger and labor service, I have to state that there is one laborer on the rolls of the Bureau who receives but \$30 per month, that this is not a living salary, and that in consequence of this small pay the laborer, who has also to act as messenger, no sooner becomes familiar with his duties than he obtains a better position in some other Bureau or Department. The change called for is absolutely necessary for the proper messenger service of this Bureau.

I have the honor to remain, very respectfully, yours,

WALTER WYMAN,
Supervising Surgeon-General Marine-Hospital Service.

The SECRETARY OF THE TREASURY.

TREASURY DEPARTMENT,
OFFICE OF THE SUPERVISING SURGEON-GENERAL MARINE-HOSPITAL SERVICE,
Washington, D. C., November 21, 1892.

SIR: I beg leave, respectfully, to refer to the estimates submitted by myself for the clerical help required in this Bureau during the coming fiscal year, in which estimates I have included an addition of two clerks at \$1,800 each. In explanation of this addition I have to state that there has been but one addition to the clerical force of this Bureau within the last four-teen years, and, during that period the business of the Bureau has increased both in the number of patients treated in hospitals and in the scope and function of the service to a remarkable degree. For a number of months past there has been

continual and urgent necessity for more clerical aid, and this even for the ordinary transaction of business, but when, as during the past fall and summer, a great emergency arises, like the threatened invasion of cholera, the work thrown on the Bureau is so excessive that it can not be efficiently performed without distress.

One of the clerks called for is intended for the quarantine division, which now has but one clerk attached to it, to whom is delegated the correspondence, the examination of bills, and the editing and preparation of the weekly publication known as the Weekly Abstract of Sanitary Reports. The work of this division within the last two years has greatly increased by reason of the extension of the quarantine service. The complete conduct of quarantine stations heretofore not completed, the care of the fleet of six steamers attached to these quarantines, with their necessary repairs, officers and crew lists, property returns, etc., and the work of construction of additions to the quarantine stations, such as barracks, disinfecting apparatus, bath houses, etc., besides the construction of one or two not yet completed, have all made this division one requiring great executive labor. The other clerk is desired for service to assist in the above work, and, particularly the preparation of the sanitary statistics, compilation of sanitary records, and the weekly edition of the sanitary reports, including the correspondence with the health officers throughout the United States, all of which is required under the law of 1878. This work is particularly valuable and appreciated by the health authorities of the country, who rely upon this official publication for accurate knowledge of the sanitary condition of foreign and domestic cities and places.

I may add that this Bureau has but one clerk of the \$1,800 class and repeat that the additional two are absolutely necessary, not only for the ordinary transactions of the Bureau, but to meet special emergencies which are liable to arise at any moment, and which do frequently occur. Should cholera become prevalent in the United States, it will be the duty of the Bureau under the law of 1891, known as the interstate quarantine act, to assume the duty of its suppression, and a sufficiently equipped bureau at such a time is absolutely essential for the performance of the work thrown upon it.

I have the honor to remain, very respectfully, yours,

WALTER WYMAN,
Supervising Surgeon-General Marine-Hospital Service.

The SECRETARY OF THE TREASURY.

APPENDIX E.

In relation to the estimate for "Rent of Buildings, Treasury Department." (See page 30.)

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., May 27, 1892.

SIR: I have the honor to invite your attention to the urgent necessity for immediate action toward providing additional space for certain officials and employes of this Department for whom it is impossible to provide suitable accommodations in the Treasury building, owing to its crowded condition.

The two upper stories of the Citizens' National Bank, of this city, situated at No. 615 Fifteenth street, opposite to the Treasury building, are sufficiently commodious to meet the wants referred to, and are offered to the Department at a monthly rental of \$400, a price which, in view of their location and room offered, is not excessive.

Among the officials for whom it is desired to provide quarters are the Supervising Inspector-General Steamboat-Inspection Service and his employes, who now occupy rooms on one of the upper floors of the Maltby building, located near the United States Capitol, and under the jurisdiction of the Sergeant-at-Arms of the United States Senate. This building is so remote from the Treasury building, and the rooms therein so difficult of access when Congress is not in session, owing to the discontinuance of the elevator service, that its continued occupancy will seriously inconvenience a prompt transaction of the business pertaining to that office. As the rooms in the Citizens' National Bank building are most advantageous and sufficiently ample to relieve the pressing wants of the Department, it is recommended that an appropriation be made for their rental at an annual rate of \$4,800.

Respectfully, yours,

CHARLES FOSTER,
Secretary.

Hon. CHARLES F. CRISP,
Speaker of the House of Representatives.

APPENDIX F.

Statement of buildings rented within the District of Columbia for the use of the Government, as required by the act of July 16, 1892 (27 Stat., p. 199).

Buildings rented by the State Department in Washington for the fiscal year ending June 30, 1893.

Location of building.	For what purpose used.	Annual rental.

APPENDIX G.

In relation to the estimates for "Salaries, Office of Assistant Treasurer at New York." (See page 32.)

OFFICE OF ASSISTANT TREASURER UNITED STATES,
New York City, September 28, 1892.

SIR: In accordance with the instructions contained in the circular letter of the Department, under date of August 15, 1892, the estimate of the appropriation necessary for this office for the fiscal year ending June 30, 1894, is herewith submitted.

The provisions of existing law are adopted for this estimate with three exceptions, although it is quite desirable that an addition should be made to the number of clerks in at least two of the divisions in this office. The first exception which I beg to urge is that already made in my communication to the Department, under date of September 29, 1890, and repeated under date of September 22, 1891. It relates to the salary of the assistant cashier, which should be raised from \$3,200 to \$3,400, an increase of \$200. The responsibilities of that officer are very heavy, far beyond those of like officers in private institutions, or indeed in the public service in this city, and his labors are very exacting, relating to the oversight of the receipts of the office, which amounted last year to \$980,729,671.34. The advance which is asked for is very slight, in view of the experience and capacity of the gentleman who now occupies this position and of the qualities which are called for in performance of the duties.

The engineer who has charge of the heating of the building is also a skillful mechanic and is able to do many of the repairs which otherwise would have to be separately paid for. His salary now is only \$1,050, and he certainly should receive \$1,200, on account of the work which he performs and his long and faithful service.

No obligation can be greater than proper care for the vast treasures which are held in this office in the midst of a great city, in view of all the contingencies of disturbance and violence. With proper discretion, my predecessors have for a number of years deemed it necessary to divert two persons, carried on the rolls as janitors, from their proper work to serve as watchmen, and I have not thought it prudent to change their practice. Yet the number of janitors as it now

stands is not too much for the care and cleaning of the building and the piling of silver in the vaults, which they are required to do and which often takes much of their time. The necessity of the situation is that all the janitors borne on the roll should be permitted to perform the service which their title indicates. At least two additional watchmen are required for the proper protection of the building and its contents. Now all the watchmen, including the two on the roll as janitors, are kept on duty at night and other employés are diverted for service as watchmen during the day.

I beg very earnestly, therefore, to renew the recommendations which I have heretofore made in accordance with the wise precedent set by my predecessors, that at least an appropriation for an addition of two watchmen (\$1,440 a year) should be made as a reasonable precaution. If harm should come by neglect to provide a sufficient defense for the Government treasures held here, the lack of such an appropriation would be proved to be inexcusable.

By these changes the estimate calls for a total appropriation of \$194,680, an increase of \$1,790 over that for the present year.

Very respectfully,

E. H. ROBERTS,
Assistant Treasurer United States, New York.

The SECRETARY OF THE TREASURY.

APPENDIX H.

In relation to the estimate for "Salaries, Office of Assistant Treasurer at St. Louis." (See page 33.)

OFFICE OF ASSISTANT TREASURER UNITED STATES,
St. Louis, Mo., September 14, 1892.

SIR: In accordance with instructions contained in Department circular letter dated August 15, 1892, I have the honor to hand you herewith estimate of appropriation required by this office for the fiscal year ending June 30, 1894.

The addition of two to the clerical force, designated as receiving teller and assistant bookkeeper, at a compensation of \$1,800 and \$1,200 per annum, respectively, you will find repeated from last year's estimate, which was not allowed. During the fiscal year 1892 there have been paid here 371,595 pension checks, an increase of 138,000 over the preceding year. The number of post-office warrants and checks of other kinds is also increasing rapidly, so that it is only by working the present force many hours' overtime that the necessary clerical work can be properly done. I have, therefore, no hesitation in asking for an additional teller and an additional bookkeeper. The very large proportion of soiled and mutilated paper currency in circulation here is often remarked. This could in large measure be corrected if the clerical force of this office were sufficient to make a careful assortment of all money presented, and forward to the Treasurer that unfit for reissue. It is impossible to do this with the present force.

The increase in salaries attached to three positions, submitted last year, has been repeated in this estimate, and I would urge upon the Department the justice of increase asked for in each case, as the salaries mentioned are certainly not excessive or greater than those ordinarily paid by banks and business houses for work of like character.

The estimate of \$600, for the salary of a janitor and porter, is submitted for the reason that it is thought to be very desirable that all persons connected in any way with the office should be under bond, and of known integrity. At present the duties of janitor are performed, with very poor satisfaction to this office, by various persons under the supervision of the custodian of this building.

I would beg to call your attention to the following table, showing cost to the Government per million of business transacted at the subtreasuries in cities named:

Cities.	Pay roll.	Business transacted.	Cost per \$1,000,000.
San Francisco.....	\$27,120 00	\$68,000,000 00	\$405 00
Cincinnati.....	16,560 00	41,000,000 00	404 00
Baltimore.....	21,600 00	59,000,000 00	366 00
New Orleans.....	18,090 00	67,000,000 00	270 00
Boston.....	37,900 00	143,000,000 00	265 00
Chicago.....	25,900 00	131,000,000 00	198 00
Philadelphia.....	36,540 00	198,000,000 00	185 00
St. Louis.....	17,860 00	101,000,000 00	177 00

These figures are taken from the published reports of the various offices for fiscal year 1891. Later reports would probably make a showing even more favorable to this office, but are not in my possession. In the year 1892 the cost of business was \$124 per million, and the present fiscal year will probably be about \$100. If all the increase in pay roll submitted is approved by you and granted by Congress, the cost of this office to the Government compared with business transacted will still be much less than any other subtreasury except New York.

I have the honor to be, very respectfully, yours,

B. G. FARRAR,
Assistant Treasurer United States.

The SECRETARY OF THE TREASURY.

APPENDIX I.

Statement showing the number of persons employed in the office of the Chief of Engineers and paid from the various appropriations for rivers and harbors, fortifications, and surveys for military defenses, and the amount paid to each during the fiscal year ended June 30, 1892, prepared in accordance with the requirements of the act of July 16, 1892. (Estimate for 1894 on page 46.)

Number, designation, and time employed.	Rate per annum.	Amounts paid.	Total.	Number, designation, and time employed.	Rate per annum.	Amounts paid.	Total.

OFFICE CHIEF OF ENGINEERS, UNITED STATES ARMY,
Washington, D. C., September 26, 1892.

Respectfully submitted to the Secretary of War.

THOS. LINCOLN CASEY,
Brigadier-General, Chief of Engineers.

APPENDIX J.

Explanation of estimates for "Public Buildings and Grounds" for the fiscal year ending June 30, 1894. (Estimates on pages 47, 48, and 198 and 199.)

As some of the foregoing estimates are larger than the amounts heretofore appropriated, and as others are for new work, it is deemed advisable to submit the following brief explanation in reference thereto:

1. One public gardener, \$2,000. I have asked for an increase in the salary of the public gardener, a position now so satisfactorily filled by Mr. George H. Brown. The duties of the office require that the gentleman who fills it shall be thoroughly skilled in the culture of trees, shrubs, and plants, and shall have a practical knowledge of civil engineering as applied to landscape gardening. Mr. Brown combines these attributes, to which he adds taste, industry, and integrity. His duties take him from one end of the city to the other. He is directly responsible for the care of the valuable collection of plants in the propagating garden, and superintends the propagation of plants that are annually raised for the public grounds, which this year numbered about 486,000.

2. One clerk in charge of old public records of Washington City, \$1,500. These records include maps, deeds, record books, letters, etc., from the organization of the original Board of Commissioners, near the close of the last century, up to 1867, when the duties were turned over to the Chief of Engineers; they are constantly examined by attorneys and others interested in lands in Washington, and the person in charge of them is frequently required to produce them in courts; to index them properly, to be able to turn at once to the details of any question raised, requires familiarity with every paper. This work has for the last few years been intrusted to the only draftsman allowed this office, and during the past year at least one-fourth of his time has been actually employed on this duty. It is desirable that this appropriation be made in order that the draftsman may be permitted to attend to the necessary and legitimate duties of his office.

3. One clerk, \$1,400. Of late years the office work has increased to such an extent that to properly perform it has required continuous work at night and on Sundays and holidays. This is a hardship, and, as a remedy, an appropriation for an additional clerk is recommended.

4. For one telegraph lineman, \$1,000. The telegraph system under charge of this office includes about 8 miles of overhead wire and 2.6 miles of underground cable; there are eighteen offices connected with these lines, the main battery being at this office; the lineman is constantly engaged in the care of the main and local batteries, and such necessary repairs and extensions as a system of wires of this kind requires; he is industrious, efficient, and capable, and has won the confidence of all with whom he has come in contact by faithful attention to his duties.

5. An estimate for a captain of the watch is submitted and recommended. Such an officer is much needed in order that the park watchmen may be under proper supervision.

6. Estimates for a day watchman for Marion and Folger Squares and adjacent reservations, and for a day watchman for Garfield Park, are submitted and recommended. Marion and Folger Squares contain an aggregate area of about 3 acres, and Garfield Park contains an area of about 24 acres. They are highly improved, and the necessity for providing watchmen for their care is apparent.

7. For the care and improvement of the Monument Grounds, \$10,000. It is desirable that this important improvement should progress more rapidly than heretofore. The amount (\$2,500) appropriated for 1893 will be sufficient merely to maintain the park in its present condition, and will not admit of any improvement in the unfinished portions of the grounds.

8. For trees, tree and plant stakes, etc., and stock for nursery, \$3,000 is asked in place of the \$2,000 last granted. The larger sum is the amount appropriated annually for more than twelve years ending June 30, 1892.
9. For removing snow and ice, the sum of \$1,500 is asked. The sum usually granted, viz, \$1,200, is generally sufficient, but sometimes is not. The latter was the case during the last fiscal year, as mentioned in my annual report.
10. Twenty thousand dollars is asked for improvement, care, and maintenance of various reservations in place of the \$12,000 granted this year. It is proposed to improve as many as possible of the two hundred unimproved reservations. Each year from one to five are added to the list of improved reservations, and if the funds now requested become available eight or ten can be added during the fiscal year ending June 30, 1894. As reservations are thus improved the expense of the care of the whole is slightly increased, for the improvements must be maintained.
11. For the Smithsonian Grounds \$8,000 is asked, and for Judiciary Square \$7,000, in place of \$5,000 and \$3,000 granted this year. The increased amounts can be profitably expended during the fiscal year ending June 30, 1894, in the improvement of those parks.
12. For placing granite curbing about Franklin Square \$5,000 is asked. The beauty of this handsome park will be greatly enhanced by placing around it a granite curbing similar to those used around parks of the same style in the larger cities elsewhere.
13. For laying asphalt walks in various reservations, \$5,000. It is proposed to replace with first-class asphalt walks the gravel paths in Washington Circle, Mount Vernon Square, Executive Mansion Grounds (south side), Lincoln Square, Stanton Square, Folger Square, Marion Square, Henry and Seaton Parks, and to renew those in Farragut Square. In the late fall, winter, and early spring these walks are muddy and pedestrians seek the lawns, which are thus destroyed by trespassers. The amount of these paths which it is proposed to lay this year is about 3,500 square yards. Each autumn it becomes necessary to put down plank walks, which must again be removed in the spring. If asphalt walks are laid the annual expense incident to plank walks will be avoided.
14. For improvement, care, and maintenance of Henry (Armory) and Seaton Parks, \$5,000. These reservations, extending from Seventh street to the Botanic Gardens, cover an area of 34 acres, with road and walk surfaces of over 10,000 square yards. They are in an advanced state of improvement. Their beauty has been marred by the depot and tracks of the Baltimore and Potomac Railroad. A mound has been constructed around the depot, upon which it is intended to plant trees and shrubs, so that in time the depot will be hidden partially from view. The materials for this mound have thus far been obtained free of expense to the United States, and it is now proposed to grade the mound and to seed and plant it. The funds requested are needed for this purpose, and for the care of roads, lawns, gutters, etc., and laying out additional paths.
15. For constructing an ornamental fountain in Lafayette Square upon the site originally selected for the Lafayette Statue, \$4,000. This space is on the Pennsylvania-avenue side of the square, directly opposite the Executive Mansion. The old foundation made for the pedestal of the statue can not be removed without considerable expense, but can be utilized for the foundation of a basin for an ornamental fountain, for the erection of which this estimate is submitted.
16. For replacing the old flagging pavement of the sidewalks in the grounds north of the Executive Mansion by a granolithic pavement, \$2,500. These sidewalks lead from the entrance gates on Pennsylvania avenue to the north front of the Executive Mansion. The old flagging at present composing them is in bad condition, and should be replaced by a granolithic pavement.
17. An estimate amounting to \$6,000 is also submitted for constructing a large greenhouse at the propagating gardens for palms and subtropical plants. The greenhouse structures now existing at the gardens are of small size and not of sufficient capacity to accommodate that class of plants.
18. An estimate amounting to \$5,000 is submitted for improving reservation No. 246, known as Howard University Park. This park contains an area of about 11½ acres and is unimproved.
19. An estimate amounting to \$15,000 is submitted for laying an asphalt pavement upon the roadway east and south of the State, War, and Navy Department building. The present gravel roadway is objectionable both in wet and dry weather.
20. The sum of \$1,500 is requested for renewing the superstructure of one of the greenhouses connected with the Executive Mansion. The present structure is weak and should be rebuilt at the earliest opportunity.
21. An estimate of \$2,000 for repairing the conservatory of the Executive Mansion is submitted. The structure is old and in bad condition and requires extensive patching to preserve the plants which it contains.
22. The estimate for the item for "gas, pay of lamplighters," etc., under the title "Lighting the Executive Mansion and the public grounds," has been increased from \$14,000 to \$15,000. In the appropriation act for the fiscal year ending June 30, 1892, the amount to be paid per annum for lighting, etc., each gas lamp in the public grounds was increased from \$20 to \$21.50, and to provide for this increase, and for the additional amount that it is estimated will be required for the care and maintenance of the electric lamps and wires recently introduced into the Executive Mansion, and for the purchase of new gas lanterns to replace old lanterns in the public grounds as they become unserviceable, the additional \$1,000 is asked.
23. An estimate of \$2,000 is submitted for erecting eight iron posts in the Monument Grounds, connecting them with underground wires for electric lights, and supplying electric lights for the same. Since the introduction of electric lights in the grounds south of the Executive Mansion the travel after nightfall through that park has increased. Much of this travel passes through the Monument Grounds, which are not now provided with any system of illumination.
24. The estimate for "Repairs to water pipes and fire plugs" has been increased from \$2,500 to \$5,000. The sources of the spring which supplies the United States Capitol with water were much impaired by the excavations made in connection with the construction of the large reservoir near the Howard University for the increase of the city's supply of Potomac water, which has resulted in diminishing the pressure at the Capitol. It is proposed to use the additional amount requested in making connection with the strongest springs in the vicinity, and in overhauling and repairing the old pipe line, and renewing such portions of it as may be found unserviceable.
25. An estimate is again submitted for replacing the overhead wires between the Capitol and the Departments with a duplicate underground six-wire cable. The growth of the trees on the sidewalks renders it absolutely necessary, in order to maintain telegraphic communication over these wires, either to erect at once taller poles, at a cost of about \$1,600, or to lay an underground cable, at a cost of \$31,000. It appears to be the will of Congress that no more overhead wires shall be placed in this city. (See District of Columbia appropriation act of July 18, 1888.) Otherwise I should recommend the appropriation of the smaller amount.

26. I recommend that the salaries of the two steam engineers at the Washington Monument be increased from \$80 and \$60 to \$90 and \$70 per month, respectively. The duties of these two men are of great importance; upon their efficiency and intelligence depend, to a great extent, the lives of those who use the elevator. The increase asked is small and the men deserve it. I also recommend that the pay of the two firemen be placed at \$60 per month each. That is the rate allowed firemen in the Executive Departments, and there appears to be no reason why the firemen at the Monument should receive less.

The item for fuel, lights, oil, waste, repairs, etc., should be increased from \$3,000 to \$3,600, for the purpose of painting the ironwork in the interior of the Monument.

APPENDIX K.

In relation to the estimates for the Diplomatic Service. (See page 87.)

DEPARTMENT OF STATE, *Washington, November 14, 1892.*

SIR: I have the honor to invite your attention to the estimates transmitted from this Department and the explanations made with regard to several items submitted therewith, as follows:

The mission to Greece, Roumania, and Servia has been changed to the plenipotentiary grade without, however, any increase in the salary. This change the Department feels is not only due to the governments concerned, but in view of the higher rank, will be beneficial to our minister and our interests in those countries.

Rent of legation in China:

The Act of Congress approved March 3, 1875 (United States Statutes at Large, 43d Congress, 1873-'75, volume 18, page 377), provides as follows: "That the Secretary of State be, and he is hereby, authorized to rent, furnish, and keep suitable buildings, with grounds appurtenant, at Peking for the use of the legation in China, at an annual cost not exceeding five thousand dollars; that the period of such lease shall be for two or more years, and with renewals, as the Secretary of State shall determine; and that the sum of five thousand dollars is hereby appropriated, out of any money in the Treasury not otherwise appropriated, therefor."

The United States minister at Peking represented to the Department that extensive repairs and additions to the present legation premises at Peking were necessary in order to make them habitable and afford adequate security to our valuable archives there. In consequence of Mr. Denby's statements the Department entered into negotiations with the agents and owners of the premises, who were made acquainted with the pressing needs of the public service in this regard, and a new lease, which will expire June 30, 1893, was entered into by my predecessor representing the United States and the lessors, by which it is agreed that the necessary alterations shall be perfected before the expiration of this lease. The owners are consequently entitled to this increased rental, and in fact entered into the new agreement on condition that should the changes be made, an equitable increase should be granted. Congress should, therefore, make the necessary appropriation in this case, which involves an increase of but \$1,900. The contemplated repairs include the erection of a fireproof building and other extensive alterations in the legation compound to make it more habitable and serviceable for legation purposes. When these proposed improvements have been made, and they will be begun in the early spring, the valuable records of the United States in the legation will be properly and securely housed, something that can not now be done with the present premises. The plans have been agreed upon between the interested parties.

Mexican Boundary (water) Commission:

This appropriation is needed to enable the Government of the United States to defray the expenses of an international boundary commission provided for by the treaty of March 1, 1889, which was negotiated to give effect to the treaty of November 12, 1884.

This Commission has power to definitely decide all questions affecting the water boundary between the two countries as fixed and determined by Article v of the treaty of February 2, 1848, and by Article i of that of December 30, 1853. The Mexican Government has communicated the names of its commissioners.

Balance due from the United States to Messrs. Villanova Hermanos y Cia, of Barcelona:

This firm was charged with the work of taking down and removing the American section of the exhibition held in Barcelona in 1888. The cost of this work was \$2,939.14. The sale of old material amounted to only \$123, thus leaving due to Messrs. Villanova, Hermanos & Co. the sum of \$2,816.14. They were, however, intrusted by certain of the American exhibitors with the sale of their goods, and the net proceeds of such sale, amounting to \$2,890.49, are being withheld from the various exhibitors by this firm as a set-off against its claim upon the United States.

For the marking of the Boundary Line in Passamaquoddy Bay, near Eastport, Me.:

The appropriation asked is \$5,000, and is to enable this Government to fulfill the second article of its treaty with Great Britain concluded July 22, 1892, by which it is provided that the Governments of the United States and of Her Britannic Majesty in behalf of the Dominion of Canada, shall, with as little delay as possible, appoint two commissioners, one to be named by each party, to determine upon a method of more accurately marking the boundary line between the two countries in the waters of Passamaquoddy Bay, in front of and adjacent to Eastport, in the State of Maine, and to place buoys or fix such other boundary marks as they may determine to be necessary.

This Government has named its commissioner and so also has the Canadian Government, and it is in the interest of both that the appropriation on the part of the United States should be at once granted in order that no delay in carrying out the treaty provision may be encountered. The Dominion authorities have already made their appropriation under the treaty.

In relation to the estimate for Diplomatic History of the United States, I may best explain the reason of the estimate by inclosing, as I do, a copy of my predecessor's letter of November 20, 1891.

I have the honor to be, sir, your obedient servant,

JOHN W. FOSTER.

Hon. SECRETARY OF THE TREASURY.

Inclosures:

1. From Mr. Blaine, November 20, 1891. Copy.
2. Alaskan boundary and Passamaquoddy Bay treaty, July 22, 1892. Printed copy.

In relation to the estimate for Diplomatic History of the United States. (See page 90.)

DEPARTMENT OF STATE, Washington, November 20, 1891.

SIR: I have the honor to request that in the estimate for appropriations for foreign intercourse, to be submitted to Congress at its next session, there may be included an item asking for an appropriation of fifteen thousand (\$15,000) dollars, to provide for the purchase from Mr. B. F. Stevens of transcripts of a very large number of unpublished state papers in the archives of several European governments relating to the early diplomatic and political history of the American Colonies and of the United States.

It is a curious fact that, after over a century of political independence, there is nowhere to be found within the United States the records (or copies of them) showing many of the most important acts by which that independence was acquired and maintained. The archives of the Continental Congress, carefully preserved in this Department, contain the records of the transactions to which that Government was a party, but there were many negotiations of the first importance before the Continental Congress came into existence, or which were not directly with it or its representatives. Mr. Stevens has devoted more than twenty years to searching for and copying these foreign records. Even for official purposes they would be a valuable supplement to our own archives. It would also seem to be a worthy object of national pride for the United States Government to open up this wide field to American scholars and to make it possible for them to prosecute their researches in their own country.

I desire, therefore, to express my hearty concurrence in the recommendations heretofore made on this subject by my two immediate predecessors in the office of Secretary of State, which were supported by an urgent memorial from a large number of our well-known historians and historical societies, as shown by the accompanying document, Senate Executive Document, No. 133, Fiftieth Congress, first session.

I have the honor to be, sir, your obedient servant,

JAMES G. BLAINE.

Hon. SECRETARY OF THE TREASURY.

GREAT BRITAIN—ALASKAN BOUNDARY AND PASSAMAQUODDY BAY.

Convention between the United States of America and the United Kingdom of Great Britain and Ireland for a joint survey of the territory adjacent to the boundary line of the United States of America and the Dominion of Canada dividing the Territory of Alaska from the Province of British Columbia and the Northwest Territory of Canada.

Concluded at Washington July 22, 1892.

Ratification advised by the Senate July 25, 1892.

Ratified by the President of the United States July 29, 1892.

Ratified by the Queen of Great Britain and Ireland August 5, 1892.

Ratifications exchanged at Washington August 23, 1892.

Proclaimed August 26, 1892.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

Whereas a Convention between the United States of America and Great Britain providing for the delimitation of the existing boundary between the United States and Her Majesty's possessions in North America in respect to such portions of said boundary as may not in fact have been permanently marked in virtue of treaties heretofore concluded, was signed by their respective Plenipotentiaries at the City of Washington, on the twenty-second day of July, one thousand eight hundred and ninety-two, the original of which Convention, being in the English language, is word for word as follows:

The United States of America and Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, being equally desirous to provide for the removal of all possible cause of difference between their respective governments hereafter in regard to the delimitation of the existing boundary between the United States and Her Majesty's possessions in North America in respect to such portions of said boundary as may not in fact have been permanently marked in virtue of treaties heretofore concluded; have resolved to conclude a Convention in furtherance of these ends, and for that purpose have appointed as their respective Plenipotentiaries;

The President of the United States, John W. Foster, Secretary of State of the United States, and

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, The Honorable Michael H. Herbert, Chargé d'Affaires *ad interim* of Great Britain,

Who, after having communicated to each other their respective full powers, which were found to be in due and proper form, have agreed to and concluded the following Articles:

ARTICLE I.

The High Contracting Parties agree that a coincident or joint survey (as may be found in practice most convenient) shall be made of the territory adjacent to that part of the boundary line of the United States of America and the Dominion of Canada dividing the Territory of Alaska from the Province of British Columbia and the Northwest Territory of Canada, from the latitude of 54° 40' North to the point where the said boundary line encounters the 141st degree of longitude westward from the meridian of Greenwich, by Commissions to be appointed severally by the High Contracting Parties, with a view to the ascertainment of the facts and data necessary to the permanent delimitation of said boundary line in accordance with the spirit and intent of the existing treaties in regard to it between Great Britain and Russia and between the United States and Russia.

Application will be made without delay to the respective legislative bodies for the appropriations necessary for the prosecution of the survey, and the Commissions to be appointed by the two governments shall meet at Ottawa within two months after said appropriation shall have been made, and shall proceed as soon as practicable thereafter to the active discharge of their duties.

The respective Commissions shall complete the survey and submit their final reports thereof within two years from the date of their first meeting.

The Commissions shall, so far as they may be able to agree, make a joint report to each of the two governments, and they shall also report, either jointly or severally, to each government on any points upon which they may be unable to agree.

Each government shall pay the expenses of the Commission appointed by it.

Each government engages to facilitate in every possible way any operations which, in pursuance of the plan to be agreed upon by the Commissions, may be conducted within its territory by the Commission of the other.

The High Contracting Parties agree that, as soon as practicable after the report or reports of the Commissions shall have been received, they will proceed to consider and establish the boundary line in question.

ARTICLE II.

The High Contracting Parties agree that the Governments of the United States and of Her Britannic Majesty in behalf of the Dominion of Canada shall, with as little delay as possible, appoint two Commissioners, one to be named by each party, to determine upon a method of more accurately marking the boundary line between the two countries in the waters of Passamaquoddy Bay in front of and adjacent to Eastport, in the State of Maine, and to place buoys or fix such other boundary marks as they may determine to be necessary.

Each government shall pay the expenses of its own Commissioner, and cost of marking the boundary in such manner as shall be determined upon shall be defrayed by the High Contracting Parties in equal moieties.

ARTICLE III.

The present Convention shall be duly ratified by the President of the United States of America, by and with the advice and consent of the Senate thereof, and by Her Britannic Majesty; and the ratifications shall be exchanged at Washington within twelve months from the date hereof, or earlier if possible.

In faith whereof we, the respective Plenipotentiaries, have signed this Convention and have hereunto affixed our seals.

Done in duplicate at Washington the 22d day of July one thousand eight hundred and ninety-two.

JOHN W. FOSTER. [SEAL.]
MICHAEL H. HERBERT [SEAL.]

And Whereas the said Convention has been duly ratified on both parts, and the ratifications of the two Governments were exchanged in the City of Washington, on the twenty-third day of August, one thousand eight hundred and ninety two;

Now, therefore, be it known that I, BENJAMIN HARRISON, President of the United States of America, have caused the said Convention to be made public, to the end that the same, and every article and clause thereof, may be observed and fulfilled with good faith by the United States and the citizens thereof.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this twenty-sixth day of August in the year of our Lord one thousand eight hundred and ninety-two and of the Independence of the United States the one hundred and seventeenth.

[SEAL.]

BENJ. HARRISON.

By the President:

JOHN W. FOSTER,
Secretary of State.

APPENDIX L.

Statement showing wherein the estimates for pay, etc., of the Army for the fiscal year ending June 30, 1894, vary from the amounts appropriated for like purposes for the fiscal year ending June 30, 1893. (Estimates for 1894 on pages 100 to 103.)

Items.	Estimate for 1894.	Appropriation, 1893.	Increase.	Decrease.	Remarks.
Pay of officers of the line.....	\$2,857,000 00	\$2,800,000 00	\$57,000 00		Estimate based upon present organization.
Pay to officers for length of service, to be paid with monthly pay.	822,670 00	890,000 00		\$67,330 00	Estimate based upon longevity record.
Aids-de-camp.....	4,100 00		4,100 00		Authorized by law, but omitted from appropriation for 1893.
Additional pay to officers of foot regiments when mounted by proper authority.	4,752 87		4,752 87		Do.
Pay of enlisted men.....	4,360,144 64	4,100,000 00	260,144 64		Estimate made for 25,000 men, present organization.
Pay of Hospital Corps.....	229,800 00	190,000 00	39,800 00		Estimate based on letter from Surgeon-General, pay of privates, Hospital Corps, increased from \$13 to \$18 per month.
Pay of enlisted men, Signal Corps.....	21,720 00		21,720 00		Authorized by law in addition to the 25,000 enlisted men, omitted from appropriation for 1893.
Pay of enlisted men for length of service in addition to monthly pay.	475,130 00	472,025 00	3,105 00		Estimate based upon amount expended last year, and information from Adjutant-General, U. S. Army.
Additional pay for length of service, Engineer Corps.....	77,000 00	75,850 00	1,150 00		Increase in length of service.
Pay of officers, Ordnance Department.....	132,700 00	131,500 00	1,200 00		Three lieutenants become captains in 1894 by virtue of 14 years' service.
Additional for length of service, Ordnance Department.....	44,080 00	44,760 00		680 00	Decrease in length of service of officers.
Additional for length of service, Quartermaster's Department.	51,000 00	50,806 00		200 00	Increase in length of service of officers.
Additional for length of service, Subsistence Department....	21,400 00	21,800 00		400 00	Decrease in length of service of officers.
Pay of officers, Medical Department.....	422,700 00	422,300 00	400 00		One lieutenant becomes captain in 1894 by virtue of 5 years' service.
Additional pay for length of service, Medical Department ...	108,850 00	107,610 00	1,240 00		Increase in length of service of officers.
Pay of officers, Pay Department.....	86,500 00	96,500 00		10,000 00	Four paymasters retired during fiscal year 1893.
Additional for length of service, Pay Department.....	27,000 00	30,250 00		3,250 00	Decrease in length of service of officers.
Pay of officers of the Signal Corps.....	22,800 00	22,400 00	400 00		One lieutenant promoted to captain by virtue of 14 years' service.
Additional for length of service, Signal Corps.....	6,280 00	5,960 00	320 00		Increase in length of service of officers.
Pay of Chief of Record and Pension Office.....	3,500 00		3,500 00		Additional officer created by act of May 9, 1892.
Additional pay for length of service of Chief of Record and Pension Office.	1,000 00		1,000 00		Increase in length of service of officers.
Pay of retired officers.....	1,144,872 24	1,122,491 35	22,380 89		Estimate based on number of retired officers.
Additional pay for length of service to retired officers.....	339,943 90	334,111 90	5,832 00		Increase in aggregate service.
Pay of enlisted men on the retired list.....	336,756 40	287,611 79	49,144 61		Estimate based upon present list.
Pay of civilian physicians employed by the Surgeon-General.	25,000 00	15,000 00	10,000 00		Estimate based upon letter from Surgeon-General.
Pay of hospital matrons.....	15,000 00	12,000 00	3,000 00		Do.
Pay, etc., paymasters' clerks, paymasters' messengers, traveling expenses of same, and accountant, Inspector-General's Department.	85,430 79	84,200 00	1,230 79		Estimate based upon expenditures last year.
For expenses of courts-martial and courts of inquiry.....	9,353 36	7,279 78	2,073 58		Do.
Commutation of quarters to commissioned officers, etc.....	210,680 87	170,000 00	40,680 87		Do.
Travel pay, retained pay, clothing not drawn, interest on deposits payable to enlisted men on discharge.	957,178 42	875,000 00	82,178 42		Do.
Mileage to officers when authorized by law.....	200,000 00	155,000 00	45,000 00		Do.
Traveling expenses and commutation of quarters for civilian physicians employed by Surgeon-General, U. S. Army.	1,000 00		1,000 00		Estimate based upon letter from Surgeon-General.
	13,105,343 49	12,524,449 82	662,553 67	81,660 00	
	12,524,449 82		81,660 00		
	580,893 67		580,893 67

Total pay for 89 clerks.....	118,000 00
Total.....	4,554,942 00

APPENDIX N.

In relation to the estimates for the Marine Corps. (See pages 131 to 133.)

HEADQUARTERS U. S. MARINE CORPS,
Washington, D. C., September 3, 1892.

SIR: I inclose herewith for your approval the usual estimates for the support of the U. S. Marine Corps for the fiscal year ending June 30, 1894.

In addition to the usual estimates I have asked, in those of the quartermaster, for the sum of \$2,600 necessary to erect the barracks authorized to be built at the naval station, Port Royal, S. C., and for which \$3,000 has already been appropriated. Also \$15,000 for quarters at the naval training station at Newport, R. I. This item is a very urgent one, and I request that the appropriation be made immediately available. The guard of the *Richmond*, now there, is stationed on shore in tents, and the men are subject to many hardships during the cold winter weather of that climate. The need for these barracks is fully set forth in the quartermaster's letter, and I trust the Department will urgently recommend that the appropriation be made. The quartermaster's letter, which I inclose, explains the necessity for the other items of his estimates.

I have included in those of the paymaster an increase of pay for the chief clerks of the quartermaster's, adjutant and inspector's, and my own office, to correspond with that allowed the chief clerk of the paymaster; also for the clerk of the assistant quartermaster in Philadelphia, Pa., to correspond with that of the one in Washington. The amounts are very small, and I trust they may be granted, as the men who occupy these positions are very deserving. I also inclose a letter from the paymaster in relation to his estimates.

These estimates were prepared on the 1st instant, as directed by the Department in its instructions of July 19 last, but owing to the sickness of the quartermaster they could not be signed until to-day.

Very respectfully, your obedient servant,

CHARLES HEYWOOD,
Colonel Commandant.

Hon. B. F. TRACY,
Secretary of the Navy.

HEADQUARTERS U. S. MARINE CORPS, PAYMASTER'S OFFICE,
Washington, D. C., September 1, 1892.

SIR: I respectfully submit herewith estimates for the pay of officers, noncommissioned officers, musicians, and privates, and civil force of the U. S. Marine Corps for the fiscal year ending June 30, 1894.

These estimates show an increase of \$16,844.63 over the estimates for the present fiscal year, viz :

Pay of officers on the retired list, increase.....	\$14,880.00
Pay of retired enlisted men, increase.....	4,894.63
Commutation of quarters, increase.....	550.00
	20,324.63
Pay of officers on active list, decrease.....	\$1,980
Undrawn clothing, decrease.....	1,500
	3,480.00
	16,844.63

Very respectfully,

GREEN CLAY GOODLOE,
Major and Quartermaster, U. S. Marine Corps.

[Indorsement.]

HEADQUARTERS U. S. MARINE CORPS,
Washington, D. C., September 3, 1892.

Respectfully referred to the Hon. Secretary of the Navy, in connection with the estimates of the paymaster, U. S. Marine Corps.

CHARLES HEYWOOD,
Colonel Commandant, U. S. Marine Corps.

HEADQUARTERS U. S. MARINE CORPS, QUARTERMASTER'S OFFICE,
Washington, D. C., September 3, 1892.

SIR: In submitting the annual estimates for the support of the Quartermaster's Department, U. S. Marine Corps, fiscal year ending June 30, 1894, I respectfully call your attention to the following changes in the amounts asked for, being for the same objects, as compared with the amounts appropriated by an act of Congress approved July 19, 1892 (for the same purpose), for the fiscal year ending June 30, 1893; also stating my reasons why the changes are deemed necessary :

Provisions (increased).....	\$22,470.13
Clothing same).....	
Fuel (same).....	
Forage (increased).....	200.00
Military stores (increased).....	714.00
Transportation and recruiting (increased).....	1,000.00
Repair of barracks, including construction of barracks at Port Royal, S. C., and Newport, R. I. (increased).....	10,088.00
Hire of quarters (same).....	
Contingent (increased).....	2,500.00

Provisions.—The increase in the amount as estimated for under the head of "Provisions," as compared with the sum appropriated for the same purpose, fiscal year 1892-'93, is made necessary in order to provide for the command at Sitka, Alaska (recently established), and to enable this office to subsist the guard of 50 enlisted men while on special duty at the Columbian Exposition, Chicago, for a period of six months.

I have taken the prices of rations as they obtain at all of the different posts for the present fiscal year as my basis in formulating the estimate.

Military stores.—The increase in the amount for this item is caused by the proposed establishment and maintenance of target ranges and the hiring of ranges.

Transportation and recruiting.—The increase asked for under this head is necessary to meet the expenses connected with several additional recruiting rendezvous which it is proposed to establish.

Repair of barracks.—In the naval appropriation bill, approved July 19, 1892, the sum of \$3,000 was included "for the erection of a marine barracks at the naval station at Port Royal, S. C."

Under the auspices of the Bureau of Yards and Docks, Navy Department, plans and specifications were prepared upon which to erect a suitable building at the above-named station. These having received the approval of this office, the commandant of the Marine Corps, and the Navy Department, advertisements in the newspapers were published, and on the 22d of August, 1892, bids were publicly opened for the erection of said barracks, the lowest regular bid received being for the sum of \$5,600.

As the plans and specifications adopted are not too large for a building suitable for the purpose, I have included the sum of \$2,600 as an additional amount required to be appropriated before re-advertising for proposals.

The enlisted men now on duty at Port Royal are not suitably quartered, and I trust this additional sum may be made available at once.

The item of \$15,000 "for the erection of a marine barracks on Coaster Harbor Island, Newport, R. I.," is made imperative if marines are to be continued on the duty they have been performing there during the last few years.

Your attention is respectfully called to the appended letter (marked A) from the chief of the Bureau of Navigation, U. S. Navy, and the one of Lieut. Randolph Dickens, the officer commanding marines on board the U. S. S. *Richmond*, and those serving on shore at Coaster Harbor Island (marked B), the latter approved by Capt. Bunce, U. S. Navy, both referring to this subject. The appropriation should be made available at the earliest possible moment.

The gas and water pipes at all the barracks (save Norfolk, Va.) must be taken up and new ones laid; they have been in use for thirty years, and have become so rusted and leaky as to cause such an increase in gas and water bills that the sum of \$9,000 is required annually to meet this expense.

This amount is one-third larger than it should or would be if new pipes were laid; it will cost about \$4,000 to renew these pipes.

Forage.—The rates at which forage was contracted for, present fiscal year, are slightly in advance of those of the previous year. I have taken this year's prices as my basis in the estimate for 1893-'94.

Contingencies.—The increase of \$2,500 under the above head is imperative.

Out of the amount appropriated for "Contingent," fiscal year ending June 30, 1892, namely, \$27,000, the sum of \$15,853.47 was expended for advertising, packing boxes, newspapers, books and periodicals, gas, water, straw, per diem, laundry work, stationery, freight and cartage, post-office boxes and toll, and \$3,144 was consumed in procuring articles under contract, but chargeable to said appropriation, leaving but \$8,502.44 to meet all and every emergency that may arise at eleven posts, as well as certain expenses in connection with the different guards at sea.

These are regular annual expenses that are created with a degree of certainty that can not be doubted.

The sums heretofore appropriated have never met the proper demands made upon them, and only by the most parsimonious economy have we been able to get along, and even under these circumstances deficiencies have annually been created and additional appropriations been asked from Congress to meet them.

Very respectfully, your obedient servant,

H. B. LOWRY,
Major and Quartermaster, U. S. Marine Corps.

The COLONEL COMMANDANT, *U. S. Marine Corps.*

BUREAU OF NAVIGATION, NAVY DEPARTMENT,
Washington, August 17, 1892.

SIR: Replying to your letter of the 16th instant, the following is an extract from the report of the commanding officer of the training station, Newport, R. I., recommending the construction of barracks for the marine guard at that station:

"The marine guard maintains with its small number (40) more posts than are maintained at the navy-yard at Portsmouth, Boston, Washington, or the Naval Academy. For lack of quarters a part of this guard has for nearly three years lived in tents, the only body of troops that has been obliged to endure the rigors of a New England winter in camp. The pressing needs of the station will force the whole guard to remain in tents during the coming winter. I renew my estimate of last year for quarters for these men."

The Bureau hopes that you will be successful in obtaining the appropriation for this purpose.

Very respectfully,

F. M. RAMSAY,
Chief of Bureau.

MAJOR AND QUARTERMASTER, U. S. MARINE CORPS,
Headquarters U. S. Marine Corps, Washington, D. C.
(COMMANDANT MARINE CORPS.)

HEADQUARTERS U. S. MARINE CORPS, COMMANDANT'S OFFICE,
August 18, 1892.

Forwarded.

AUG. NICHOLSON,
Major and Adjutant and Inspector, Acting Commandant.

U. S. S. RICHMOND,
Newport, R. I., August 12, 1892.

SIR: I would respectfully call your attention to the necessity of building barracks for the marines stationed on Coaster Harbor Island, Newport, R. I. The marines here are only considered as part of the guard of the U. S. S. *Richmond*, and no adequate provisions for quarters has been made for them, and for the past three years they have been living upon the island in tents. As nearly all the apprentices live on the island, the necessity of having more marines there than on the ship is very apparent and is shown by the distribution of the small force here. There is but one post kept up on the ship, the duties of which are combined in those of the orderly at the cabin door and corporal of the guard.

On the island there are 7, and even that number is insufficient to guard the large water front and maintain discipline among the hundreds of apprentice boys there.

The distribution is as follows:

Post No. 1, corporal of the guard, stationed at main gate and causeway leading to the city. His duties are those of a regular corporal of the guard at a navy-yard, seeing that no unauthorized persons or things leave the island or are brought upon it. As there is no sentry on that post with him the music cover the post while he is posting sentinels, etc. Post No. 2 is the captain's orderly, and attends to telephone. Post No. 3 is on the brig. Post No. 4 is on a narrow neck of land leading to the gymnasium, where the boys are berthed, to see that none of them are leaving the building by that side after hours, or no unauthorized person enters it. No. 5 is on the upper floor of the gymnasium, to see that the bags and hammocks are not disturbed and maintain order there. No. 6 is on the lower floor of the gymnasium to maintain order there and see that nothing wrong goes on in the water-closet. No. 7 is a patrol on the dock at the east side of the gymnasium to see that no one disturbs the boats and that no unauthorized persons leave the station or land upon it from that point. It is not practicable for the marines to live and mess on the ship, and do duty on the island, as the ship is moored half a mile from the island and at times, during the winter, it is impossible for boats to land alongside of the ship owing to the rough weather. In view of these facts, I would respectfully urge the need of having suitable quarters erected on the island for the accommodation of the men.

I am, sir, very respectfully, your obedient servant,

RANDOLPH DICKENS,
First Lieutenant, U. S. Marine Corps, Commanding Guard.

Maj. H. B. LOWRY,
Quartermaster, U. S. Marine Corps, Headquarters, Washington, D. C.

COMMANDANT'S OFFICE, U. S. NAVAL TRAINING STATION,
Newport, R. I.

Approved and forwarded. A report and estimate for marine barracks to cost \$15,000 has been recently forwarded by me to the Bureau of Navigation, Navy Department, the report stating the necessity of the case.

F. M. BUNCE,
Captain, U. S. Navy, Commandant.

HEADQUARTERS U. S. MARINE CORPS, QUARTERMASTER'S OFFICE,
Washington, D. C., October 11, 1892.

SIR: In obedience to your order of the 10th instant I inclose a triplicate copy of the estimates submitted to you, accompanied by a letter from this office, under date of September 3, 1892.

In preparing the estimates for the support of the additional 974 enlisted men, I have taken as my basis the prices of articles, so far as may be possible, as established by contracts or by open purchases made, present fiscal year.

The annual cost of clothing (first year of enlistment) per capita is \$38.16; 974 men, at \$38.16, is \$37,167.84.

As about one-half of the additional number of men will be at sea, I have estimated for 487 men at the average cost of rations as obtained under contract, *i. e.*, 21.53 per capita (487 men, at 21.53 cents, is \$38,270.65). Fuel is estimated for under the same conditions as for provisions—1,119 cords of wood, at \$7.46 per cord, is \$5,449.53.

An additional quantity of military stores, such as knapsacks, blanket bags, gun slings, and ammunition will be required, the cost of which I estimate to be about \$4,967.40.

The additional demands upon the contingent appropriation for the items enumerated under the head of "Contingencies" will not be less than \$5,000.

Very respectfully, your obedient servant,

H. B. LOWRY,
Major and Quartermaster, U. S. Marine Corps.

The COLONEL COMMANDANT,
U. S. Marine Corps.

[Indorsement.]

HEADQUARTERS U. S. MARINE CORPS,
Washington, D. C., October 15, 1892.

Respectfully referred to the Honorable Secretary of the Navy in connection with estimates inclosed herewith.

CHARLES HEYWOOD,
Colonel Commandant, U. S. Marine Corps.

APPENDIX O.

Recapitulation of the estimates of "Indian Service," as furnished by the Indian Office. (See pages 137 to 157.)

Appropriations for the fiscal year ending June 30, 1893.		Amounts embraced in estimates for 1894 not appropriated for 1893—Cont'd.	
Current expenses, salaries, etc.....	\$202,500 00	Increase submitted under "Support of Indian school, Fort Shaw, Mont.".....	\$55,000 00
Fulfilling treaties with, and support of, Indian tribes.....	3,200,057 76	Increase submitted under "Support of Indian school, Genoa, Nebr.".....	11,389 63
Miscellaneous supports, gratuities.....	683,030 00	Increase submitted under "Support of Indian school, Grand Junction, Colo.".....	4,335 00
Incidental expenses, Indian Service.....	104,000 00	Increase submitted under "Support of Indian school, Lawrence, Kans.".....	19,500 00
Miscellaneous.....	908,540 00	Increase submitted under "Support of Indian school, Mount Pleasant, Mich.".....	12,700 00
Indian schools.....	2,318,560 00	Increase submitted under "Support of Indian school, Ferris, Cal.".....	25,140 00
Trust funds.....	80,390 00	Increase submitted under "Support of Indian school, Phoenix, Ariz.".....	18,125 00
Total.....	7,497,047 76	Increase submitted under "Support of Indian school, Pierre, S. Dak.".....	1,800 00
Estimates for the fiscal year ending June 30, 1894.		Increase submitted under "Support of Indian school, Pipestone, Minn.".....	8,160 00
Current expenses, salaries, etc.....	208,800 00	Increase submitted under "Support of Indian school, Salem, Oregon".....	6,142 00
Fulfilling treaties with, and support of, Indian tribes.....	3,387,366 44	Increase submitted under "Support of Indian school, Santa Fe, N. Mex.".....	7,520 00
Miscellaneous supports, gratuities.....	738,500 00	Increase submitted under "Support of Indian school, Shoshone Reservation, Wyo.".....	10,780 00
Incidental expenses, Indian Service.....	104,000 00	Increase submitted under "Support of Indian school, Tomah, Wis.".....	14,200 00
Miscellaneous.....	901,540 00	Total.....	718,364 87
Indian schools.....	2,737,614 87	Amounts appropriated for 1893 not embraced in estimates for 1894.	
Trust funds.....	80,390 00	Amount dropped under "Fulfilling treaties with Chippewas of Mississippi".....	1,000 00
Total.....	8,103,211 31	Amount dropped under "Fulfilling treaties with Kickapoo".....	1,351 32
Amounts embraced in estimates for 1894 not appropriated for 1893.		Amount dropped under "Fulfilling treaties with Sissetons and Wahpetons".....	33,800 00
Increase for pay of Indian agents.....	1,300 00	Amount dropped under "Fulfilling treaties with Spokanes".....	2,500 00

Amount submitted under "Substation, Shoshone Agency, Wyo.".....	2,500 00	Amount dropped under "Support of Indian school, Cherokee, N. C.".....	3,800 00
Increase submitted under "Allotments, under act of February 8, 1887".....	10,000 00	Total.....	112,201 32
Amount submitted under "Costs incurred by Indians, etc.".....	5,000 00	Amount of estimates for 1894.....	8,103,211 31
Increase submitted under "Telegraphing and purchase of Indian supplies".....	10,000 00	Amount appropriated for 1893.....	7,497,047 76
Increase submitted under "Transportation of Indian supplies".....	25,000 00	Difference.....	606,163 55
Increase submitted under "Support of Indian schools".....	105,000 00	Amount embraced in estimates not appropriated for 1893.....	718,364 87
Increase submitted under "Support of Indian school, Albuquerque, N. Mex.".....	38,500 00	Amount appropriated for 1893 not embraced in estimates.....	112,201 32
Increase submitted under "Support of Indian school, Carlisle, Pa.".....	12,000 00	Agreeing with the difference between the amount of these estimates and the amount appropriated for 1893.....	606,163 55
Increase submitted under "Support of Indian school, Carson, Nev.".....	11,103 24		
Increase submitted under "Support of Indian school, Chillico, Ind. T.".....	9,185 00		
Increase submitted under "Support of Indian school, Flandreau, S. Dak.".....	10,750 00		
Increase submitted under "Support of Indian school, Fort Lewis, Colo.".....	42,000 00		
Increase submitted under "Support of Indian school, Fort Mojave, Ariz.".....	3,275 00		

APPENDIX P.

In relation to the estimate for an "Outbuilding, Bureau of Engraving and Printing." (See page 165.)

TREASURY DEPARTMENT, BUREAU OF ENGRAVING AND PRINTING.

November 15, 1892.

SIR: I have the honor to submit herewith an estimate of appropriation for \$50,000 for an outbuilding on the premises of this Bureau.

The attention of the Department and of Congress has repeatedly been called to the urgent necessity for the erection of an outbuilding for this Bureau, and to the fact that the temporary frame structures now used are a menace not only to the Bureau building, but to the entire neighborhood, on account of their combustible character. The extent of this danger was fully seen on the morning of June 25 last, after what came very nearly being a serious fire in the rag laundry. The laundry building was badly damaged and the scorched side of the large frame structure used by the Commissary Department indicates how very near the neighborhood was to a serious conflagration. It was only the vigilance of the employes of the Bureau and the exertion of the District fire department that prevented it. During the year the work of the Bureau increased to such an extent that I was obliged to erect additional frame structures for the accommodation of the mixing and grinding of inks, which had formerly been done in the main building. The branches of the Bureau's work now accommodated in the frame structures are the ink mills, the laundry, the carpenter shop, the stables, the paint shop, the waste-paper room, and storage. An item of \$30,000 for this purpose was submitted last year, but it is felt that this is an insufficient sum, and, as the business of the Bureau is increasing year by year, I am convinced that nothing less than the sum now asked for will provide a building sufficiently large to allow proper space for all the branches of our work which it is necessary to accommodate therein. With an experience of over three years' service here, I do not know of any item of appropriation that is more demanded by the necessities of the service than the one for this purpose.

Very respectfully,

WM. M. MEREDITH,
Chief of Bureau.

The SECRETARY OF THE TREASURY.

APPENDIX Q.

Statement (prepared in accordance with Statutes at Large, vol. 24, page 512) of persons employed on contingent force at public buildings in course of construction, etc., showing names, occupation, time of service, rates of compensation, and total amount of compensation during the fiscal year ended June 30, 1892.

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,

Washington, D. C., November 18, 1892.

SIR: In accordance with the requirements of act of Congress, approved March 3, 1887 (ch. 362, p. 512, vol. 24, U. S. Statutes at Large), I have the honor to inclose herewith a statement of the persons employed outside of the District of Columbia as superintendents, clerks, watchmen, and otherwise, and paid from appropriations for the construction of public buildings, showing where said persons are employed, in what capacity, the length of time, and at what rate of compensation, during the fiscal year ended June 30, 1892, for transmission to Congress with the Estimates of Appropriations.

I have the honor to be, respectfully, yours,

DANIEL MACAULEY,
Chief of Appointment Division.

Hon. CHARLES FOSTER,
Secretary of the Treasury.

APPENDIX S.

In relation to the estimates for "Columbia Institution for the Deaf and Dumb." (See pages 186 and 250.)

THE COLUMBIA INSTITUTION FOR THE DEAF AND DUMB,
Kendall Green, Washington, D. C., September 29, 1892.

SIR: I have the honor to transmit herewith estimates of expenditures required for the service of this institution during the fiscal year ending June 30, 1894.

The estimate for current expenses is greater by \$2,000 than the amount appropriated for last year.

This increase will be needed to meet the expense of caring for the steadily increasing number of students admitted under the provisions of the clause of the sundry civil appropriation bill approved August 30, 1890.

The estimate of \$3,000 for the improvement and inclosure of the grounds and for the repair of the buildings is to provide for certain repairs and improvements, the need for which has been urged on former occasions, but for which no provision has as yet been made by Congress. The item of greatest importance is the erection of a substantial fence on the west, north, and east sides of the grounds of the institution.

The existing fence is in ruins, having been erected about twenty years ago, and affords no protection whatever against trespassers. A portion of the grounds lying along the line of the Baltimore and Ohio Railroad is entirely uninclosed.

All of which is respectfully submitted, by order of the board of directors.

E. M. GALLAUDET,
President.

Hon. JOHN W. NOBLE,
Secretary of the Interior.

APPENDIX T.

In relation to the estimates for Revenue-Cutter Service. (See page 222.)

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., September 3, 1892.

SIR: I have the honor to transmit herewith an estimate of an appropriation required for the Revenue-Cutter Service during the fiscal year ending June 30, 1894, in detail, showing, separately, the amount required for pay of officers, rations for officers, pay of crews, rations for crews, clothing for crews, fuel, repairs, and outfits, ship chandlery, and engineers' stores, and for traveling and contingent expenses, pay of pilots, and commutation of quarters, as required by chapter 410 of the public acts of the Fiftieth Congress of the United States, passed at the second session (25 Stat., 907), and also, in accordance with the same act, herein include a statement showing the authorized number of officers in the Revenue-Cutter Service, their rank, and pay, as follows:

36 Captains, at \$2,500 per annum.....	\$90,000
36 First lieutenants, at \$1,800 per annum.....	64,800
36 Second lieutenants, at \$1,500 per annum.....	54,000
36 Third lieutenants, at \$1,200 per annum.....	43,200
26 Chief engineers, at \$1,800 per annum.....	46,800
26 First assistant engineers, at \$1,500 per annum.....	39,000
26 Second assistant engineers at \$1,200 per annum.....	31,200
222 Officers—annual pay.....	369,000

I also report the number of men constituting the crews of the vessels in the Revenue-Cutter Service:

	Annual wages.		Annual wages.
On vessels on the Atlantic, Pacific, and Gulf coasts:		On vessels on the Atlantic, Pacific, and Gulf coasts—Continued.	
9 Petty officers, at \$50 per month.....	\$5,400	1 Steward, at \$40 per month.....	\$480
1 Petty officer, at \$45 per month.....	540	60 Cooks and stewards, at \$35 per month.....	25,200
4 Petty officers at \$40 per month.....	1,920	On vessels on the Great Lakes, calculated as in commission	
45 Petty officers, at \$35 per month.....	18,900	eight months in the year:	
48 Petty officers, at \$30 per month.....	17,280	8 Petty officers, at \$35 per month.....	2,240
2 Seamen, at \$65 per month.....	1,560	12 Petty officers, at \$30 per month.....	2,880
16 Seamen, at \$45 per month.....	8,640	4 Seamen, at \$45 per month.....	1,440
5 Seamen, at \$40 per month.....	2,400	7 Seamen, at \$29 per month.....	1,624
2 Seamen, at \$35 per month.....	840	37 Seamen, at \$28 per month.....	8,288
8 Seamen, at \$32 per month.....	3,072	7 Boys, at \$15 per month.....	840
52 Seamen, at \$30 per month.....	16,560	8 Boys, at \$12 per month.....	768
6 Seamen, at \$28 per month.....	2,016	2 Firemen, at \$50 per month.....	800
32 Seamen, at \$26 per month.....	9,984	16 Firemen, at \$35 per month.....	4,480
151 Seamen, at \$25 per month.....	45,300	8 Coal-passers, at \$28 per month.....	1,792
6 Seamen, at \$20 per month.....	1,440	14 Cooks and stewards, at \$35 per month.....	3,920
8 Boys, at \$17 per month.....	1,632		
40 Boys, at \$15 per month.....	7,200	815 Men—total annual pay.....	270,860
36 Boys, at \$12 per month.....	5,184		
2 Firemen, at \$75 per month.....	1,800	Pilots employed on vessels of the Revenue-Cutter Service:	
8 Firemen, at \$50 per month.....	4,800	8 Pilots, at \$109.12½ per month.....	10,476
23 Firemen, at \$45 per month.....	12,420	8 Pilots, at \$100 per month.....	9,600
6 Firemen, at \$35 per month.....	2,520	3 Pilots, at \$100 per month, for eight months.....	2,400
65 Firemen, at \$30 per month.....	23,400	6 Pilots, at \$84.12½ per month.....	6,057
2 Coal-passers, at \$40 per month.....	960	1 Pilot, at \$80 per month.....	960
9 Coal-passers, at \$30 per month.....	3,240	2 Pilots, at \$69.12½ per month.....	1,659
33 Coal-passers, at \$25 per month.....	9,900		
12 Cooks and stewards, at \$50 per month.....	7,200	28 Pilots—total annual pay.....	31,152

The estimate herewith inclosed contains the amounts required for pay of officers, etc., resulting from a calculation based upon the total number authorized at full rates. In the ordinary course of business somewhat less would be required to defray these expenses, as vacancies and difference in pay when officers are on leave or waiting orders would make a considerable reduction, but this amount is so variable that it can not be accurately calculated, and, therefore, the full amounts stated should be appropriated if separate appropriations are to be made for each particular object of expenditure for the support of this service. The same is true as to the other items which have been separately estimated for when only a reasonable margin for contingencies has been added to the average amount expended in former years.

If but one appropriation is made for the Revenue-Cutter Service, as in former years, it need not be so large as the aggregate of a number of separate ones would be. The usual course of business is such that almost invariably when one class of expenditures is increased another is diminished. When much is done in the way of repairing vessels and large drafts are made on the general appropriation for this purpose, the pay of crews, consumption of fuel, rations, etc., is diminished by the enforced inaction of the vessels, and when comparatively little is required for repairs, the ability of the vessels to perform constant duty will require increased sums for fuel, pay of crews, and general supplies. These changes can not be calculated in advance, but the entire amount required can be quite fairly estimated by comparison with the actual expenditures of previous years. It is therefore respectfully suggested that the appropriation be made as formerly, to wit:

"*Expenses of Revenue-Cutter Service, 1894.*—For expenses of the Revenue-Cutter service: For pay of captains, lieutenants, engineers, and pilots employed, and for rations for the same; for the pay of petty officers, seamen, cooks, stewards, boys, coal-passers, and firemen, and for rations for the same; for clothing, to be resold to the enlisted men; for fuel for vessels and repairs and outfits for the same; ship-chandlery and engineers' stores for the same; traveling expenses of officers traveling on duty under orders from the Treasury Department; commutation of quarters; for protection of the seal fisheries in Bering Sea and the other waters of Alaska and the interests of the Government on the seal islands and the sea-otter hunting grounds, and the enforcement of the provisions of law in Alaska; for the enforcement of an act entitled "An act to provide for the protection of the salmon fisheries of Alaska," approved March 2, 1889; to carry into effect the provisions of "An act relating to the anchorage of vessels in the port of New York," approved May 16, 1888; contingent expenses, including wharfage, tonnage, dockage, freight, advertising, surveys, labor, and miscellaneous expenses which can not be included under special heads."

If this is done it is believed that \$985,000 would be sufficient for the fiscal year ending June 30, 1894, in lieu of the aggregate sum of \$1,081,014 as shown in the estimate as transmitted, in which the principal items are separately stated.

Such a separation would greatly increase the clerical labor of accurately keeping the multiplicity of accounts which would be thus created in the authorization and settlement of these expenditures. The increase of labor would occur not only in the office of the Secretary and the accounting divisions of the Treasury, but at every custom-house where the collector is now a disbursing officer for this service. Collectors of customs are required to render monthly accounts of disbursements under seven different heads, "Revenue-Cutter Service" being one. If the amount required for the proper maintenance of this service be divided into nine separate appropriations, monthly accounts being required for each, it is not believed that the advantage gained would be at all commensurate to the augmented labor in various localities, and consequent increase in clerical force rendered necessary thereby.

Respectfully, yours,

L. C. SHEPARD,
Chief, Revenue Marine Division.

Hon. CHARLES FOSTER,
Secretary of the Treasury.

APPENDIX U.

In relation to the estimates for Engraving and Printing." (See pages 222, 223.)

TREASURY DEPARTMENT, BUREAU OF ENGRAVING AND PRINTING, Washington, November 15, 1892.

SIR: I have the honor to submit herewith an estimate of the appropriations required for labor and expenses of engraving and printing for the fiscal year 1894. The work required to be done, according to the estimates submitted by the heads of the several bureaus, shows that there will be needed in the fiscal year 1894 54,904,645 sheets of securities, stamps, and miscellaneous work, requiring 74,166,272 printings. Of this amount the Treasurer of the United States estimates that 3,725,000 sheets of Treasury notes will be needed, requiring 7,636,250 printings, the cost of which will be paid from the appropriation for the purchase of silver and the issue of Treasury notes under act of July 14, 1890, leaving 51,179,645 sheets, requiring 66,530,022 printings, to be provided for by specific appropriations for this Bureau. It is estimated that the cost of the aggregate amount of work which will be required will be as follows:

Compensation of employes.....	\$494,260 32
Plate printing.....	606,123 25
Materials and miscellaneous expenses.....	263,430 16
Total.....	1,363,813 73

The estimated cost of the 3,725,000 sheets of Treasury notes which will be charged against the permanent appropriation for the work is \$171,513.73. The amounts which will have to be provided for by specific appropriations are as follows:

Compensation of employes.....	\$425,000 00
Plate printing.....	538,500 00
Materials and miscellaneous expenses.....	228,800 00
Total.....	1,192,300 00

The aggregate amount of work to be done in 1894, on the basis of the number of printings required, which gives the proper comparison, exceeds the amount proposed to be executed in 1893 a little over 14 per cent, and the estimated aggregate cost in 1894 exceeds the estimated cost for 1893 about 16 per cent. The increase in the estimated cost of the work in 1894 is owing to an estimate of \$27,800 for a new boiler plant, and an estimate of \$7,000 for alterations of building, making a total of \$34,800, or about 3 per cent increase on the estimated cost of the work for 1893. Exclusive of these items the increase in the cost of the work for 1894 over that of 1893 is only 13 per cent. The estimate for the new boiler plant is submitted in view of the report of the local inspector of steam boilers for this District, a copy of which is forwarded herewith, in which he states that these boilers have been in continuous use for a period of twelve years, day and night, and he considers them unfit for use after the expiration of one year from June 7, last. I also submit a copy of a letter from the Babcock & Wilcox Company, giving their estimate of the cost of the work. The estimate for the alteration of the building is submitted on the report of the Supervising Architect as to the cost thereof, a copy of which is forwarded herewith, and is for the purpose of giving additional space and increased light and ventilation to the binding division of this Bureau, which is located in the basement, in which the employés now suffer serious inconvenience.

Very respectfully,

Hon. CHARLES FOSTER,
Secretary of the Treasury.

WM. M. MEREDITH,
Chief of Bureau.

OFFICE OF U. S. LOCAL INSPECTOR OF STEAM VESSELS,
Baltimore, Md., June 7, 1892.

SIR: In compliance with the request made in your letter to the honorable Secretary of the Treasury, dated April 21, 1892, transmitted to me through the Supervising Inspector-General of Steam Vessels, I have inspected the boilers and macerators of the Bureau of Engraving and Printing. I find No. 8 boiler unfit for further use. The macerators are safe to carry 30 pounds of steam. Nos. 1, 2, 3, 4, 5, 6, and 7 boiler tubes were leaking at the back heads, but have since been repaired and are safe to carry 65 pounds of steam for a period of one year. As these boilers have been in continuous use for a period of twelve years, day and night, I consider them unfit for use after the expiration of one year.

Respectfully, yours,

Hon. WILLIAM M. MEREDITH,
Chief of Bureau of Engraving and Printing, Washington, D. C.

WILLIAM O. SAVILLE,
Local Inspector of Boilers.

THE BABCOCK AND WILCOX COMPANY,
Washington, D. C., November 12, 1892.

SIR: We estimate that the cost of supplying three batteries of boilers, 218 horse-power each (figuring 11.5 square feet of heating surface to horse-power), with Stoker's automatic feed, damper regulators, new line of steam pipe, removal of old boilers and material, with construction of flues and railway, at \$27,800.

Very respectfully, yours,

Capt. WILLIAM M. MEREDITH,
Chief of Bureau of Engraving and Printing.

BABCOCK AND WILCOX CO.,
Per P. B. SMITH.

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., November 4, 1892.

SIR: This office is in receipt of your letter of the 14th ultimo, relative to change, *i. e.*, removing partition walls in the rooms on the basement floor in the Fourteenth street wing of the Bureau of Engraving and Printing building, this city, occupied by the binding division, in order to afford additional space, and to increase the light and ventilation in said part of the building.

In reply, I have to state that your request has received the attention of this office, and, after interviews with representatives of your office, the scheme is thought to be practicable, and the probable cost of the work is estimated to be \$7,000.

Respectfully, yours,

Hon. WILLIAM M. MEREDITH,
Chief of Bureau of Engraving and Printing.

JAMES S. LOW,
Acting Supervising Architect.

APPENDIX V.

In relation to the estimates for "Coast and Geodetic Survey." (See pages 225 to 228.)

U. S. COAST AND GEODETIC SURVEY, OFFICE OF THE SUPERINTENDENT,
Washington, D. C., September 30, 1892.

SIR: In transmitting herewith estimates of the sums required for the maintenance of the operations of the Coast and Geodetic Survey for the fiscal year ending June 30, 1894, I beg to submit a few statements relative thereto. The amount asked for under the head of party expenses is considerably less than that in the estimates for the current year, the difference being about equal to the sum required for the prosecution of the Alaska boundary survey.

In view of the treaty recently made with the government of the Dominion of Canada upon this subject the survey of this boundary line must be vigorously pushed during the next two or three years. This will demand the services of several of the most experienced field officers, as persons competent to do this class of work can not be obtained from other sources.

We are, therefore, compelled to postpone for the present year several important operations upon both the Atlantic and Pacific coasts, those most urgent being included in the estimates.

An increase in the amount for the repairs of vessels has been several times requested but not granted by Congress. It is again submitted and urged as an absolute necessity. Many of the vessels of the Survey are becoming old and demands for repairs are constantly increasing. Some of them are now absolutely unseaworthy and are no longer of service. Additional schooners are imperatively demanded for the execution of work on the Atlantic and Gulf coasts, and it is hoped, with the aid of the increased amount asked for, that one new vessel of this type may be purchased this year.

The estimates for pay of field officers are precisely as estimated and appropriated for the past two years. In the pay of the office force a few changes have been made, recommended by the assistant in charge of the office and suggested by the experience of the past few years, during which the office force has remained essentially the same. The total sum required is somewhat less than the appropriation for the current year. In the way of furnishing the information regarding persons employed in the field and in the office, called for in the act making this appropriation, I submit the following:

The appropriations made at the first session of the Fifty-second Congress for the support of this Bureau during the fiscal year 1893, including the amount specially appropriated for the Alaska boundary survey, were less than the amounts estimated for by about \$23,000. Of this, \$17,500 was taken from the estimates for "party expenses." Out of this fund the expenses of the field operations are paid, except the salaries of the field officers, which are appropriated for in detail. A field party consists generally of from three to ten or more persons, only one of which, the chief of the party, is one of the regularly employed field officers. The others are, in the interest of economy, employed temporarily during the period in which their services are actually required in the field. As the larger part of the party expenses arises out of this temporary employment, such employment has necessarily been dispensed with during the current year about in proportion to the reduction of the amount appropriated. The number of field officers has also been somewhat less than before, not, however, on account of lack of opportunity for their useful employment, but by reason of an actual diminution of their number through resignations and the extreme difficulty of filling their places. There has been a deficiency in the number available of both civilian and naval officers during the year, which it is hoped will prove to be but temporary. Several of the most experienced of the civilian experts have been called upon by other departments of the Government, and by State and municipal authorities, for service along lines for which their experience and training have especially fitted them. In this way the Mississippi River Commission, the Mexican Boundary Commission, one or two interstate boundary commissions, and other national and State authorities have been able to avail themselves of a technical skill which, it is safe to say, can not elsewhere be found. It is proper to remark that in all cases where such details have been made it has been upon the order of the President or that of the honorable Secretary of the Treasury upon the request of the proper authorities. The expansion in the U. S. Navy during the past few years has made it continually more difficult to procure the detail of the proper number of officers for duty on the vessels of the Survey, and the number actually thus in our service has decreased considerably within the past year or two, although it is proper to add that the honorable Secretary of the Navy has always endeavored to supply the demands of this service as far as it appeared to be possible for him to do so.

Some of our most valuable civilian experts have been lost during the year by their voluntary withdrawal from the service, owing to the much greater rewards for the present and promises for future professional advancement which they have found outside of Government employ.

Owing to the difficulty of filling the places thus made vacant this tendency can not but cause anxiety to all who have the best interests of the Government in mind. The corps of field officers is one almost unique in its training and experience. With a maximum continuous service of fifty-four years and an average of about twenty-seven years, it can safely challenge comparison with any other in the Government. Promotions are not rapid, and the compensation of the officers of the Survey, relative to that of any other profession in which a comparable amount of technical skill, training, and education is required, is very low. The important and responsible work which they are called upon to perform is such that the Government could not afford to intrust it to any body of men lacking the skill which they have acquired through their long experience and special training. A single serious blunder might be more costly than the maintenance of the whole corps for several years.

The same remarks may be justly applied to the office force, where skilled computers, clerks trained to the performance of special duties, and technical experts of various kinds receive much less compensation than the rarity and value of their accomplishments entitle them to. It would be unjust to allow this opportunity to pass without bearing witness to the generally faithful and conscientious manner in which they discharge the duties which devolve upon them.

In the estimates for office expenses a few changes have been made in the sums asked for in the several paragraphs, involving both reduction and increase. They are such as experience has shown to be in the direction of a wiser distribution of the sum total, which is not increased thereby.

In conclusion, I desire to invite attention to the fact that these estimates are lower than any made during the past twenty-five years, as a result of a careful scrutiny of every item and a desire to conform strictly to the policy which I adopted in the beginning, of asking Congress for the minimum sum absolutely required for the execution of the important operations intrusted to this Bureau.

The amount estimated for the Office of Weights and Measures is identical with that appropriated for the current year except two additional sums, one for the purchase of an instrument and the other to provide a suitable room for the balance of precision.

During the past year or two the office has been called upon by the Department of Agriculture and the Bureau of Internal Revenue of the Treasury Department for the standardizing of the quartz plates used in the classification of sugars. The important interests involved and the high accuracy demanded render necessary the purchase of an instrument of the highest degree of precision.

There is at present no place in the office suitable for the mounting of the most accurate balance belonging to the Government. The number of weights received for standardizing is increasing rapidly and the degree of accuracy required is constantly becoming higher. A suitable balance room can be had at comparatively small cost by utilizing the space between the Butler building and the Coast Survey building, the erection of two walls only being demanded.

It is of the utmost importance that this should be done, and the amount asked for is necessary and sufficient for the purpose.

Respectfully, yours,

T. C. MENDENHALL,
Superintendent.

The SECRETARY OF THE TREASURY.

APPENDIX W.

Detailed estimate for "Pay of assistant custodians and janitors." (Estimate for 1894 on page 236.)

Amount estimated to be required for the "Pay of Assistant Custodians and Janitors, 1894," for the following-named buildings, completed and to be completed prior to June 30, 1894, under the control of the Treasury Department.

APPENDIX Y.

In relation to the estimates for "Expenses, Government Board of Control, World's Columbian Exposition." (See page 237.)

WORLD'S COLUMBIAN EXPOSITION, Washington, November 19, 1892.

SIR: I have the honor to state that the estimated expenditures of the Board of Control and Management of the United States Government Exhibit, World's Columbian Exposition, for the fiscal year ending June 30, 1894, aggregate \$201,750;

and to request that this sum be submitted to Congress with the regular annual estimates for appropriation, together with the following draft of a provision, which it is desired shall be incorporated in the law :

GOVERNMENT EXHIBIT.—For the selection, purchase, preparation, transportation, installation, care and custody, and return of such articles and materials as the heads of the several Executive Departments, the Smithsonian Institution and National Museum, and the United States Fish Commission may decide shall be embraced in the Government exhibit, and such additional articles as the President may designate for said Exposition, and for the employment of proper persons as officers and assistants to the Board of Control and Management of the Government Exhibit, appointed by the President, of which not exceeding ten thousand dollars may be expended by said board for clerical services, two hundred and one thousand seven hundred and fifty dollars, of which sum fifty thousand dollars is immediately available: *Provided*, That all expenditures for the purposes and from the appropriations specified herein shall be subject to the approval of the said Board of Control and Management and of the Secretary of the Treasury, as now provided by law.

In explanation, I have the honor to state that the plans of the board were based upon an aggregate expenditure of \$1,000,000 for the Government exhibit. These plans have been explained to the committees of Congress, and appropriations to carry them into effect, aggregating \$798,250 (including \$40,000 set apart from the appropriation carried in section 18 of the act of April 25, 1890), have been made up to this time. The sum herein asked for is, therefore, the amount necessary to bring the aggregate up to \$1,000,000. While every other branch of the enterprise has enlarged its scope and its expenditures far beyond original anticipations, this board has been engaged in cutting down and eliminating features which departmental and bureau officials have earnestly pressed upon its attention in order to keep within the limit.

The means at present available are likely to be exhausted before the opening of the Exposition on the 1st day of next May, leaving us without means for the administrative expenses of May and June. For this reason it is desired that \$50,000 of the amount herein asked for be made available during the present fiscal year. The remainder will be required for the administration of the exhibit during the remaining four months, and for its repacking and return, as required by existing law.

In the last and the preceding appropriations for the board, provisions have been included, limiting the expenditure for clerical service to \$5,000. Under this provision the board has depended, except in its central office, upon the clerical forces of the several Departments for service. With the gradual transfer of our field of operations to Chicago, the departmental clerks will be no longer available; and for this reason, it is desired that the limit for clerical service, in the law to be enacted at the coming session, be fixed at \$10,000.

By authority of the board, very respectfully,

F. T. BICKFORD,
Secretary.

The SECRETARY OF THE TREASURY.

APPENDIX Z.

In relation to the estimate for "Maintenance of Garfield Hospital." (See page 240.)

THE GARFIELD MEMORIAL HOSPITAL,
Washington, D. C., October 8, 1892.

SIR: In behalf of the management of the Garfield Memorial Hospital, I have the honor to request that you will include in your estimates to be submitted to Congress for the fiscal year ending June 30, 1894, the following item:

"*The Garfield Memorial Hospital.*—For maintenance, to enable it to provide medical and surgical treatment to persons unable to pay therefor, \$25,000."

The increase in the amount over that appropriated by Congress for said purpose for each of several years last passed is necessary, because during the last year the demands upon the hospital for this class of patients so largely increased that a new building, doubling the capacity of the hospital, was erected, finished, and completely equipped shortly before the annual encampment of the Grand Army of the Republic, held in this city during the past month. On this occasion the hospital was enabled to contribute its share to the care of the veterans by placing at the disposal of the committee in charge 100 beds, including all hospital service, free of charge.

The whole expense of maintenance is double the amount asked, the difference being made up by voluntary contributions and by payments by a few patients who are able to bear a part of the expense of their care and treatment.

This is a *General Hospital*, untrammelled by limitations as to sex, age, color, form of disease, residence, or nationality. It is open to all.

During the twelve calendar months ending September 30, 1892, the number of hospital days were 13,601, the patients coming from twenty-nine different States of the Union and from sixteen different countries, and including a large proportion of clerks, mechanics, housewives, etc., who are not paupers, but who are, nevertheless, too poor to pay for hospital relief when unable to pursue their occupations by reason of disease or injury.

The entire plant of the hospital, including grounds, buildings, machinery, furniture, and equipment, has been paid for without the aid of any appropriation by Congress.

The board of directors, through its executive committee, and the Ladies' Aid, by its visiting committees, keep constant supervision of every detail of the hospital work, and in every expenditure the closest economy is exercised. Accounts for all expenditures under this appropriation, with proper vouchers, have been submitted to you, and these are finally audited and settled by the accounting officers of the Treasury. These vouchers show the absolute need of the aid requested, and the manner in which the money appropriated has been applied.

The fullest inspection of the hospital by you is cordially and earnestly invited.

I have the honor to be, your obedient servant,

JOHN M. HARLAN,
President.

Hon. STEPHEN B. ELKINS,
Secretary of War.

APPENDIX Aa.

In relation to the estimate for "Artillery School, Fort Monroe, Va." (See page 240.)

Department of Artillery :	
Purchase of books, periodicals, works of reference, etc.....	\$150 00
Chemical Laboratory :	
Purchase of chemical apparatus	100 00
Purchase of chemicals.....	200 00
Total.....	300 00
Electrical Department :	
Electrical instruments and material needed for instruction purposes.....	800 00
Maintenance of lines and batteries, and material for repairs and operations of same.....	125 00
Total.....	925 00
Department of Steam and Mechanism :	
Purchase of text and reference books, plates, etc.....	225 00
Purchase of machinery and machine tools for instruction purposes.....	350 00
Total.....	575 00
Repair shops :	
Purchase of material and necessary tools, for metal and carpenter work, for the repair and preservation of engineering, electrical, and artillery apparatus in use in the several departments of the school, etc.....	380 00
Department of Engineering :	
Purchase and repair of instruments, for the purchase of drawing material, text and reference books, maps and plans, for the instruction of officers in military engineering, and for current expenses.....	150 00
Artillery School Library :	
Purchase of professional and scientific works for the instruction of student-officers, and for professional and scientific papers, periodicals, etc..	500 00
Department of Military Science :	
Purchase of text-books and pamphlets, occasional publications, maps and books of reference, etc.....	240 00
Secretary of staff of Artillery School :	
Printing current papers and instruction manuals, including papers, inks, and printing material, etc.....	350 00
Lithographic material, etc.....	100 00
Bookbinding, current papers, instruction manuals, and preservation of professional library, such as leathers, pasteboards, cloth for covers, and mounting maps, gilding, thread, and bookbinding material, etc.....	210 00
Total.....	660 00
Division for Noncommissioned Officers :	
Purchase of thirty sets of text-books in mathematics, surveying, mechanical engineering, and electricity, for instruction purposes.....	150 00
To enlisted men for extra-duty pay in scientific departments at 50 cents per day :	
One printer in charge of printing office, lithographic office, bookbindery, and Artillery School records, one clerk, two printers, one book-binder, one lithographer, one machinist, one engineer, one fireman, one carpenter, two laborers in electrical department, one assistant in charge of surveying and engineering instruments, one chemist, one photographer, one assistant librarian, and one janitor, at \$5 per month.....	2,293 50

RECAPITULATION.

Department of Artillery.....	\$150 00
Chemical Laboratory.....	300 00
Electrical Department.....	925 00
Department of Steam and Mechanism.....	575 00
Repair shop.....	380 00
Department of Engineering.....	150 00

Department of Military Science.....	240 00
Secretary of staff of Artillery School (printing, lithographing, and binding).....	660 00
Division for Noncommissioned Officers.....	150 00
Extra-duty pay, etc.....	2,293 50
Total.....	6,323 50

ROYAL T. FRANK,
Lieutenant-Colonel Second Artillery, Commanding.

APPENDIX Bb.

In relation to the estimates for "Support of National Home for Disabled Volunteer Soldiers." (See pages 241-244.)

HARTFORD, CONN., September 8, 1892.

SIR: In obedience to the Revised Statutes of the United States (Supplement, p. 155, par. 41), the sundry civil act, "Provided further, That it shall be the duty of the managers of said home, on or before the first day of October in each year, to furnish the Secretary of War estimates, in detail, for the support of said home for the fiscal year commencing the first day of July thereafter, and the Secretary of War shall annually include such estimates in his estimates for his Department," approved March 2, 1889, and the sundry civil act, "Provided, That hereafter the statement of expenses of the Board of Managers of the National Home for Disabled Volunteer Soldiers shall each year be submitted in the annual Book of Estimates, and shall be made to show the amount of salary or compensation paid to each of the officers and employes of said Board, and there shall also be submitted therewith a statement showing the number of officers appointed at each of the branch homes under section four thousand eight hundred and twenty-nine of the Revised Statutes, the amount of salary or compensation paid to each, and the amount of allowance to each, if any, for contingent or other expenses," approved August 5, 1892, I inclose herewith the estimate of the Board of Managers of the National Home for Disabled Volunteer Soldiers for

the support of the National Home for Disabled Volunteer Soldiers, and for the payment of \$100 per annum for each man kept one year at the State homes, for the fiscal year ending June 30, 1894, with the papers required to comply with the terms of the proviso of the act of August 5, 1892, above mentioned.

Respectfully, yours,

Hon. STEPHEN B. ELKINS,
Secretary of War.

W. B. FRANKLIN,
President Board of Managers National Home for Disabled Volunteer Soldiers.

Explanation of the estimate of the National Home for Disabled Volunteer Soldiers for the year ending June 30, 1894.

HARTFORD, CONN., September 8, 1892.

Central Branch.—The estimate for the support of this branch is \$706,116.20, less by \$10,616.85 than the appropriation for the current year. To this amount is added \$16,100 for a brick barrack to replace a dangerous and unwholesome wooden structure which ought not to be occupied longer.

The estimate is based on a membership of 4,600 for the next fiscal year. The annual cost of maintenance per man, not including construction and repairs, is \$136.80, and the daily ration costs 19½ cents.

Northwestern Branch.—The estimate for support of this branch is \$321,539.15, greater by \$14,256.40 than the appropriation for the current year. The excess is accounted for as follows:

Hospital, increase.....	\$5,194 40
On account of necessity for furnishing the increased hospital accommodations appropriated for the current year.....	
Construction, increase.....	6,692 00
Appropriation for current year too small, on account of the necessity of remodeling heating apparatus in barracks.....	
Farm, increase.....	1,500 00
Recommended on account of removal of fences of home grounds required.....	
Transportation, increase.....	1,000 00
The appropriation for the current year insufficient.....	
	14,386 40
Subsistence, diminution.....	130 00
Net increase.....	14,256 40

The Board recommends the following appropriations for the objects indicated. They have been estimated for for several successive years, and their construction will increase the economy, capacity, and safety of the branch:

Boiler house and coal shed.....	\$12,000 00
Smokestack.....	2,500 00
Boilers.....	7,000 00
Tunnel.....	400 00
Headquarters building.....	15,000 00
	36,900 00

The annual cost of maintenance per man is \$140.13, and the daily ration costs 18 cents. The estimate is based on a membership of 2,200.

Eastern Branch.—The estimate for the support of this branch is \$276,679.18, less than the appropriation for the current year by \$1,188.25. During the past year the average number present fell off 74 members. This is due to a depletion caused by the pension act of 1890, but the falling off is not permanent. It increased the annual cost of maintenance to \$161.66, but the increase is accounted for by increase of electric lights and cost of furnishing, due to the new hospital and to goods on hand at the end of the fiscal year. The daily ration cost 20½ cents, and the number estimated for is 1,800.

Southern Branch.—The estimate for the support of this branch is \$411,618.40, an excess of \$13,864.15 over the appropriation for the current year. The excess is due to increased membership of the branch, and is made up as follows:

Current expenses, increase.....	\$306 15
Subsistence, increase.....	2,350 00
Household, increase.....	4,541 75
Hospital, increase.....	2,322 00
Construction and repairs, increase.....	1,840 75
Farm, increase.....	2,503 50
	13,864 15

The estimate is based on a membership of 2,850 for the next fiscal year. The annual cost of maintenance per man is \$124.72, and the daily ration costs 19 cents.

The very low cost of annual maintenance is due to the fact that about 175 men were cared for in tents during the year, avoiding the cost of the usual barrack accommodations.

Western Branch.—The estimate for this branch is \$343,451.99, which is the same amount as that appropriated for the current year for the same object.

The average number of members present during the past year was 2,044, and that estimated for the next fiscal is 2,350. The annual cost of maintenance per man is \$145.65, and the daily ration costs 18½ cents.

Pacific Branch.—The estimate for the support of this branch is \$223,692.67, an excess of \$43,076.65 above the appropriation for the current year. The excess is due to the large growth of this branch, which is fed by an enormous area, and which must continue large for an unknown period. Besides, the various items of the last year's appropriations, upon which those for the current year are based, were insufficient. The excess is made up as follows:

Current expenses, increase.....	\$4,772 86
Subsistence, increase.....	12,125 00
Clothing, increase.....	3,000 00
Household, increase.....	12,760 59
Hospital, increase.....	5,301 35
Transportation, increase.....	1,800 00
Farm, increase.....	3,316 85
	43,076 65

The Board has estimated for an electric-light plant to replace the present insufficient and dangerous system, which consists of kerosene lamps, \$20,000, and for quarters for the treasurer, \$5,000; total, \$25,000; and it respectfully recommends that the above sum be appropriated. Both of these expenditures are necessary.

The estimate is based on a membership of 1,000 for the next fiscal year. The annual cost of maintenance per man is \$195.72, and the cost of the daily ration is 23½ cents.

Marion Branch.—The estimate for the support of this branch is \$195,430.42, exceeding the appropriation for the current year \$38,655.04, an increase made necessary by the increasing size and capacity of this branch. It is made up as follows:

Current expenses, increase.....	\$2,088 52
Subsistence, increase.....	14,454 00
Clothing, increase.....	2,200 00
Household, increase.....	3,857 97
Hospital (\$4,000 for furnishing new hospital).....	4,417 15
Construction and repairs, increase.....	10,134 05
Transportation, increase.....	800 00
Farm.....	703 35
	38,655 04

The Board also recommends the following additional appropriations for this branch :

One brick barrack.....	\$23,000 00
Surgeon's quarters.....	4,000 00
Chapel.....	7,000 00
	34,000 00

These recommendations are based upon the necessity for more accommodation at the branch for the men. The surgeon now lives in quarters which should be occupied by the members, and the religious services are held in a cellar. The estimate is based on a membership of 1,150 for the next fiscal year. The annual cost of maintenance per man was \$157.36, and the daily cost of the ration is 20¼ cents.

Outdoor relief and incidental expenses.—For outdoor relief and incidental expenses, \$40,000. This amount is the same as that appropriated for the current year, and it is proper and necessary.

Aid to State homes.—The amount appropriated for this purpose for the last fiscal year was \$500,000. The amount which became due during the year was \$532,558.93. As these homes continue to increase, the Board estimates \$600,000 as the amount that should be appropriated for the next fiscal year.

RECAPITULATION.

Central Branch, 4,600 members.....	\$706,116 20
Northwestern Branch, 2,200 members.....	321,539 15
Eastern Branch, 1,800 members.....	276,679 18
Southern Branch, 2,850 members.....	406,438 80
Western Branch, 2,350 members.....	343,451 99
Pacific Branch, 1,000 members.....	223,692 67
Marion Branch, 1,150 members.....	195,430 42
Outdoor relief and incidental expenses.....	35,000 00
Central Branch, submitted.....	16,100 00

Statement made in obedience to the following proviso in the sundry civil act, approved August 5, 1892:

“*Provided*, That hereafter the statement of expenses of the Board of Managers of the National Home for Disabled Volunteer Soldiers shall each year be submitted in the annual Book of Estimates, and shall be made to show the amount of salary or compensation paid to each of the officers and employes of said Board, and there shall also be submitted therewith a statement showing the number of officers appointed at each of the branch homes under section 4829 of the Revised Statutes, the amount of compensation paid to each, and the amount of allowance to each, if any, for contingent or other expenses.”

The following is section 4829 of the Revised Statutes:

“The officers of the National Home shall consist of a governor, a deputy governor, a secretary, a treasurer, and such other officers as the managers may deem necessary. They shall be appointed from honorably discharged soldiers who served as mentioned in the following section; and they may be appointed and removed, from time to time, as the interests of the Institution may require, by the Board of Managers.”

Compensation, per annum, of the officers and employes of the Board of Managers.

President, traveling and other actual expenses incurred while upon the business of the home.
 First vice-president, traveling and other actual expenses incurred while upon business of the home.
 Second vice-president, traveling and other actual expenses incurred while upon business of the home.
 Treasurer, who is also president of the Board, \$4,000 and expenses as above.
 Secretary, a member of the Board, \$2,000 and expenses as above.
 Managers are allowed traveling and other actual expenses, and, at request, are allowed clerks, pay not to exceed \$400 per annum.
 Inspector-general, \$3,000 and traveling and other actual expenses incurred while upon business of the home.
 Medical director and inspector, \$5,000, and traveling and other actual expenses incurred while upon business of the home.
 Assistant inspector-general (financial), \$2,500, and traveling and other actual expenses incurred while upon business of the home.
 Assistant inspector-general (State homes), \$2,500, and traveling and other actual expenses incurred while upon business of the home.
 Consulting engineer (temporary), per month, \$250, and traveling and other actual expenses incurred while upon business of the home.
 One clerk, office of president, \$1,500.
 Three clerks, office of president, \$1,000.
 Messenger, office of president, \$144.

Managers' Clerks.

APPENDIX D d.

In relation to the estimates for the District of Columbia. (See pages 225 to 270.)

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
Washington, October 18, 1892.

SIR: The Commissioners of the District of Columbia herewith transmit their estimates of appropriations for the support of the government of said District for the fiscal year to end June 30, 1894.

Accompanying these estimates of expenditures are statements of estimated receipts of the District government, exclusive of the receipts of the water department, for said period; a memorandum of the reasons for submitting new or changed items compared with the appropriations for the support of the said government for the current fiscal year; schedules of proposed work on sundry streets, avenues, roads, main and pipe sewers, embraced in these estimates, and the report of a superintendent of charities.

Following the custom observed in submitting the annual estimates for District expenditures since the establishment of the present form of government for the District, the Commissioners have confined the estimate of expenditures within the amount of estimated receipts. They are not aware of any law which requires them to so limit their estimate of expenditures, but they have thought it advisable to conform to the usage in the premises.

The estimates herewith so submitted do not, in the judgment of the Commissioners, embrace all the items necessary for the proper administration of the District government for the period they are intended to cover, but they deem it their duty, while adhering to precedent, to add to these estimates a supplemental statement regarding certain public works whose execution can not further be delayed without serious prejudice to the public interests, and they earnestly desire these supplemental statements to be considered by Congress for the fiscal year under consideration.

Very respectfully,

J. W. DOUGLASS,
President Board of Commissioners District of Columbia.

Hon. CHARLES FOSTER, Secretary of the Treasury.

Memorandum of estimated receipts of the government of the District of Columbia for the fiscal year to end June 30, 1894, and reasons for recommended changes in the estimates for appropriations herewith submitted.

ESTIMATED RECEIPTS.

The Commissioners of the District of Columbia estimate that the receipts of the government of said District from sources other than the proportionate contribution by the United States and the revenues of the water department, will be \$3,216,282.82. The estimate of the receipts from sources other than the United States is based upon the estimate of the assessor herewith inclosed. The assessor's estimate is based upon his judgment of the results of the general assessment of real property in the District now in progress, which, in his opinion, will increase the present assessment by at least 50 per cent in the aggregate on the land in the cities of Washington and Georgetown, and 60 per cent on land in the District outside of said cities. The estimate of \$75,000 of increase in receipts from taxes on account of new buildings is based upon the records of the inspector of buildings as to the number of new buildings that will be subject to taxation for the first time during the fiscal year embraced in these estimates.

CHANGES IN APPROPRIATIONS.

Executive office.—The increase of \$300 in two clerks in the executive office to make the salaries \$1,600, is to promote two officials who have been in the District service for many years, and whose present salary is disproportionate to the character of service they perform. The office of one messenger clerk is designed to provide for an official who now renders the service of a clerk, but who is paid as a messenger. The service rendered by the incumbent of this office is equal in quantity and quality to that of any \$1,200 clerk in the District employ. The increase of \$200 estimated for a clerk and architect in the office of the inspector of buildings is to recognize in part the qualifications and industry required to fill that office. This officer designs and supervises all plans for District buildings and issues all building permits. The increase of \$300 recommended for the clerk in the property office is to suitably pay an officer whose work and responsibility entitle him to the promotion recommended. The increase of \$500 for the inspector of plumbing is inserted in pursuance of the additional appropriation of that amount in the sundry civil appropriation law approved August 5, 1892, which that law states is for additional labor imposed by the act of April 23, 1892, increasing the extent of the duties of that office. The additional assistant inspector of plumbing is rendered necessary by the growth of the service, and especially by the law of April 23, 1892, referred to, which requires that old houses may be inspected in addition to those undergoing construction. The items for engineer, deckhand, and watchman for harbor boat, and inspectors to superintend the construction and repair of new buildings are specified in compliance with the provision in the District appropriation act approved July 14, 1892, which requires the Commissioners to specifically estimate for all employes except laborers. This class of employes is now paid by the day or month.

Assessor's office.—The recommended increase in favor of two assistant assessors, and the increase of \$200 for one license clerk is to recognize the value and fidelity of three gentlemen who have been in the service for many years, and whose present compensation is inadequate. The additional clerk at \$1,400 and one at \$1,200 is to meet the growing needs of the office. The recommended increase of \$100 in the pay of one assistant clerk is recommended as a measure of justice to an officer whose services are extremely laborious and of great value in the enforcement of the personal tax and license laws. The two clerks at \$1,000, four clerks at \$1,200, and two bill-servers at \$2.50 per diem are now per diem employes who are not specifically appropriated for.

Collector's office.—The item for deputy collector of taxes is submitted as a feature rendered necessary by the growth of business, and responsibility in the office. The bailiff is now a per diem employe not specifically provided for. The bank messenger is submitted to provide the collector with an employe to attend to his official bank business.

Auditor's office.—The increase of \$100 submitted for disbursing clerk is to compensate that officer for additional incidental expenses imposed upon him by the nature of his duties.

Attorney's office.—The increase of \$500 submitted for salary of assistant attorney is a reasonable advancement, in view of the professional ability and labor that officer has to perform.

Market masters.—The increase of \$600 submitted for hire of laborers is in pursuance of the recommendation of the market masters, and of the observation of the Commissioners, that the present service of that class of employes is insufficient to keep the markets in good sanitary condition.

Engineer's office.—The increase in the regular force of the engineer department is submitted as proper in view of the growth of the service. A list of items is also submitted for specific appropriation for employes now on per diem rolls.

Contingent and miscellaneous expenses.—An increase of \$6,000 in this item is submitted to meet the growing needs of the administration.

Rent and improvement of property yards.—The \$700 submitted is to provide a platform scale with which to weigh the material received and issued from said yards.

Rent of District offices.—The increase of \$400 in this item is submitted in pursuance of an agreement of the predecessors of the present Board of Commissioners with the lessor of the municipal building, that the Commissioners would ask for \$4,000 rent for the building.

General advertising.—An increase of \$100 is submitted to meet the growing needs on that account.

Advertising notices of taxes in arrears.—The increase of \$3,000 submitted is based on the cost of the advertisement for last year, which is reported by the auditor to be \$9,787.24, and an allowance for a normal increase.

Public schools.—The increases under this head are based upon recommendations of the board of school trustees.

Militia.—The estimates for the militia are submitted as rendered by the commanding officer of that branch, the Commissioners having no authority to revise them.

Metropolitan police.—The increases submitted in this department are to meet the growing necessities of this branch of the municipal administration.

Fire department.—The addition of one fireman for the present force is submitted to provide for an inadvertent omission in previous estimates for appropriations. The estimate for a new engine company and accommodations and appointments therefor is to afford additional protection to the northeastern section of the city. The item for pensions in excess of the amount received from the monthly tax is to enable the Commissioners to retire on pensions six disabled men who are now

on the force, and whose places should be filled by men capable of more active service, but whose retirement the fund derived from the monthly contribution from the pay of members of the force will not justify.

Telegraph and telephone service.—The submitted increases in the estimates of this department are intended as a recognition of faithful and competent service, and to increase the efficiency of the department.

Health office.—The recommendations for increase in the office force are to meet the growing necessities of this department. The item for laborers, inspectors, and force for the enforcement of the provisions of an act to prevent the spread of contagious diseases are specific provisions for persons now on the per diem roll.

Police court.—The additional clerical force for this office is to meet the demands of the growing business, and the heater man submitted is to provide for the proper care of the heating apparatus of the enlarged accommodations as recently reconstructed.

Emergency fund.—The increase of \$10,000 recommended for this fund is to enable the authorities to meet the demands that may be imposed upon them by the existence or imminent danger of pestilence.

Washington Asylum.—The increase in the estimate for this institution is to meet the normal necessities of growth. The estimate for herdsman, gardener, stableman, driver, and carpenter are for per diem employes who are not specifically appropriated for. This institution is required to provide coffins and burial for deceased paupers from other eleemosynary institutions in the District, as well as its own dead.

Reform School.—The increase in the estimates for this institution are based upon recommendations of its board of trustees.

Hospital for the Insane.—The increase in the estimates for this institution is in pursuance of the recommendation of the superintendent in charge.

Support of convicts.—The increase in the estimates on this account is based on the estimates of the Attorney-General.

The municipal building and the World's Columbian Exposition.—The reasons for these estimates are fully given in the Commissioners' reports for the two preceding years.

Charities.—The estimates under this head are based upon the recommendations of the superintendent of charities, whose report is herewith submitted.

Supplemental estimates. (See page 270.)

The Commissioners have been compelled to omit from their regular estimates several important items, which they deem proper to submit in the form of an appendix. The sole reason for the omission lies in the fact that the total estimated revenues of the District for the fiscal year ending June 30, 1894, were not sufficient to provide for the items in question. In the order of importance these items are as follows:

First. Main intercepting sewers, \$573,500.

This item includes the estimated additional appropriation necessary for completing the main intercepting sewer from near Easby's Point to near the intersection of Fifteenth and E streets NW. Under existing law the Commissioners are authorized to enter into contract for the whole of this sewer at a total cost of not to exceed \$225,000, to be paid for as appropriations are from time to time made by law. The actual appropriation thus far made is only \$90,000. Since that appropriation was made, the enactment of the compulsory eight-hour law has rendered it necessary to increase the estimates for all kinds of work, and the estimated additional appropriation necessary for the sewer in question is \$157,500. The second main intercepting sewer is intended to rescue and preserve Rock Creek from pollution below the P street bridge. The estimated cost of this sewer is \$251,000. The third sewer of this class is intended to intercept and carry to deep water the dry-weather flow of the large east boundary sewer. This is necessary to avoid extremely bad sanitary conditions in the near future. The estimated cost of this sewer is \$165,000. If the above-named main intercepting sewers are provided for by appropriations, there will be needed a special additional force to supervise their construction.

Second. The second in importance of the items of the appendix is based upon the special needs of the Washington Aqueduct. In order to afford suitable provision against a water famine due to a possible accident to the conduit between Georgetown and Great Falls, the receiving reservoir should be brought into use with the least possible delay. The necessary expenditure is estimated at \$290,625. The officer in charge of the aqueduct believes this work to be one of great urgency, and the Commissioners concur in his views. Additional items recommended by the same officer as urgent are also concurred in by the Commissioners as follows: Repairing, \$5,000; reserving the accumulation of deposits, \$14,000.

Third. The third item in the appendix relates to the improvement of streets. Very important work of street improvement and repair has necessarily been omitted from the regular estimates, for the reason heretofore stated. The work referred to embraces expenditures for repairs to concrete pavements, to cost \$20,000, and work on sundry streets and avenues, to cost \$230,000. The Commissioners are of the opinion that the improvement of all the streets in Schedule A, submitted by the engineer department, are necessary to the best interests of the city, and are demanded by the improvements already made along said streets by the abutting property-owners.

A report was submitted to Congress at its last session showing the importance of increasing the appropriation for repairs to concrete pavements to at least \$200,000 a year. The Commissioners concur in the opinions expressed in said report.

APPENDIX E e.

REFORM SCHOOL FOR GIRLS, DISTRICT OF COLUMBIA.

Estimate of the Secretary of the Board of Trustees. (See page 269.)

WASHINGTON, D. C., October 8, 1892.

DEAR SIRS: I respectfully request that you include in your estimates for the next fiscal year the following for the Girls' Reform School:

Furniture, beds, bedding, sewing machines, fixtures, books, stationery, etc.....	\$8,000 00
One horse.....	150 00
One wagon.....	125 00
Harness.....	40 00

REFORM SCHOOL FOR GIRLS, DISTRICT OF COLUMBIA—Continued.

Four cows, at \$50 each.....	\$200 00
Stable and wagon shed.....	400 00
Cow shed.....	100 00
Repairs on fence.....	400 00
Salaries for March, April, May, and June, 1893:	
Superintendent.....	500 00
Matron.....	200 00
Two teachers.....	400 00
One day watchman, who shall also drive market wagon.....	300 00
One night watchman.....	200 00
One laborer.....	160 00
Salaries for year ending June 30, 1894:	
Superintendent.....	1,500 00
Matron.....	600 00
Two teachers, at \$600 each.....	1,200 00
One day watchman, who shall also drive market wagon.....	900 00
One night watchman.....	600 00
One laborer.....	480 00
Maintenance:	
For groceries, provisions, fuel, soap, oil, lamps, candles, clothing, shoes, forage, repairs on machines and supplies for same, for thirty girls, and board for seven officers and employés, for March, April, May, and June, 1893.....	1,883 33
For same, for year ending June 30, 1894.....	5,650 00
For horse feed for March, April, May, and June, 1893.....	60 00
For same, for year ending June 30, 1894.....	180 00
For feed for cows for March, April, May, and June, 1893.....	96 00
For same, for year ending June 30, 1894.....	288 00
Contingent expenses, such as horseshoeing, repairs on wagon, harness, medicines, medical attendance, freight, hack hire, etc.....	600 00
Total.....	25,212 33

Yours, respectfully,

MILLS DEAN,
Secretary Board of Trustees, Girls' Reform School.

To the COMMISSIONERS OF THE DISTRICT OF COLUMBIA.

APPENDIX Ff.

Statement of appropriations made during the first session of the Fifty-second Congress for the fiscal year ending June 30, 1893, for which no estimates are submitted for the fiscal year ending June 30, 1894; also deficiency and miscellaneous appropriations made during the same session.

LEGISLATIVE.

UNITED STATES SENATE.	
Salaries, officers and employés, Senate, 1892.....	\$48 00

STATEMENT OF THE PROCEEDS OF SALES OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE FOLLOWING PROVISIONS OF LAW.

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned Navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "Proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the appendix to the Book of Estimates.—(Revised Statutes, pages 713, 722; sections 3618, 3672; act February 27, 1877, 19 Stat., 249.)

When covered into Treasury.	No. of warrant.	By whom sold.	Kind of property sold.	Bureau in charge of property.	Amount of each kind of property.	Total amount.
