‡ Prior to the fiscal year 1877 the expense of advertising for proposals was charged to the appropriations from which the supplies were paid for. If this claim were so treated it would be divided among probably twenty appropriations, the unexpended balances of which were carried to the surplus fund under section 5 of the act of June 20, 1874. To simplify the account, it has been certified under the head of "Telegraphing and purchase of Indian supplies."
