

ESTIMATES OF APPROPRIATIONS.

LETTER

FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

Estimates of appropriations required for the service of the fiscal year ending June 30, 1855.

DECEMBER 6, 1853.

JOINT RESOLUTION relative to the printing and distribution of the annual estimates.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That it shall be the duty of the Secretary of the Treasury to cause the estimates of appropriations, which he is by law required to prepare and submit to Congress, to be printed, and copies of the same to be delivered to the Clerk of the House of Representatives in time for distribution at the commencement of each session; and that the Clerk distribute the said estimates in the manner in which documents printed by Congress are directed to be distributed.

Approved January 7, 1846.

TREASURY DEPARTMENT,

November 23, 1853.

SIR: Agreeably to the joint resolution of Congress of the 7th January, 1846, I have the honor to transmit, for the information of the House of Representatives, printed estimates of additional appropriations required to complete the service of the present fiscal year and previous years, viz:

Amounting in all to.....	<u>\$45,750 00</u>

DEPARTMENT OF STATE,
Washington, October 31, 1853.

SIR: From a statement lately made to me, by the Fifth Auditor, I find that balances were due on the 30th of June last to the bankers of the United States in London, to meet which there were then no existing balances in the treasury; or if any, that they were not sufficient to extinguish the indebtedness. I am, therefore, under the necessity of requesting that to the estimate made by this department to supply deficiencies for the year ending on the 30th of June, 1854, there may be added the following items, viz:

For outfits of chargés d'affaires.....	\$2,439 02
For salary of the dragoman to Turkey.....	122 83
For salary of the assistant dragoman to Turkey.....	599 13

*Secretary of the Treasury.*POST OFFICE DEPARTMENT,
November 14, 1853.

SIR: The accounts of this department for the fiscal year ending June 30, 1853, having been made up and stated to me by the Auditor, it appears that there will be required to supply deficiencies in the

revenue of the year an appropriation of the further sum of \$545,445 63, according to the accompanying estimate.

As sufficient time has not elapsed to enable the Auditor to settle the revenue and expenditure accounts for the first quarter of the present fiscal year, I deem it expedient to defer any estimate of deficiencies called for in your letter of the 10th instant, until the general estimates for the service of the year to commence 1st July next shall be submitted to Congress, in accordance with the requirements of the act of 2d July, 1836, changing the organization of this department.

An appropriation is necessary for the compensation of two temporary clerks who were employed for the periods stated below :

One clerk from 1st April to June 30, 1853, at \$1,200.....	\$300 00
One clerk from 19th May to June 30, 1853, at \$1,000.	\$118 13

J. MARRON, *Third Asst. P. M. G.*

An estimate of the amount of funds that will probably be required for paying the pensions of invalids who were wounded on board of private armed vessels during the last war with Great Britain, from the 1st of July, 1851, to the close of the fiscal year ending June 30, 1855.

For this class of pensioners no appropriation has been made for the fiscal years ending 30th June, 1852, 30th June, 1853, or 30th June, 1854, although my predecessor submitted an estimate for the last two fiscal years. There are now twenty-eight privateer pensioners on the rolls, which, at an average of \$100 per annum for each pensioner, from the 1st July, 1851, to the 30th June, 1855, (four years,) will require the sum of.....

NAVY DEPARTMENT,
November 18, 1853.

SIR: I have the honor to transmit herewith an estimate for sums required to supply deficiencies in the appropriations for objects under the cognizance of this department for the current fiscal year; together with copies of letters from the Chief of the Bureau of Ordnance and Hydrography of this date, and from the Chief of the Bureau of Yards and Docks; dated the 15th instant, which will explain the causes of the deficiency in the items therein named.

Of the other sums estimated for, that for "contingent expenses of the navy" is the difference between the amount appropriated by act of March 3, 1853, and that embraced in the estimates submitted to Congress at the commencement of the last session. The amount appropriated under this head, for some years, has not been equal to that required for the various objects embraced in it, in consequence of the omission, on the part of some of the bureaux of the department, to estimate for them.

The items under the head of "Southwest Executive Building" have become necessary, in part, by the increased expense for light, caused by the introduction of gas into the building; and in part by the dilapidated condition of the building requiring larger expenditures than heretofore for fuel and miscellaneous items.

I am, very respectfully, your obedient servant,

J. C. DOBBIN.

SIR: I enclose copy of a letter received from the superintendent of the Naval Observatory with an estimate of the amount required to meet a deficiency under certain items of the appropriation for 1853-4, and a statement of the causes which produced them, for such direction as may be deemed advisable.

I have the honor to be, very respectfully, your obedient servant,
C. MORRIS,
Chief of the Bureau.

Hon. J. C. DOBBIN,
Secretary of the Navy.

NATIONAL OBSERVATORY,
Washington, November 15, 1853.

SIR: I have the honor to enclose, herewith, an estimate, (marked A) which I have to request may be included among the estimates for the "deficiency bill."

The necessity for this item arises from a deficiency in the appropriation of the present year for "continuing the publication of the wind and current charts," and for "printing and publishing sailing directions and hydrographical surveys."

This deficiency is caused, in part, by the bills on account of the publications above named, which were contracted during the fiscal year ending 30th of June, 1853, being met to a considerable extent out of the appropriations for the current year; but it is chiefly caused by the increased demands for these publications on the one hand, and by the increased number of the publications requiring to be made on the other.

There are two surveying expeditions now abroad, from both of which we may probably expect, during the year, charts and surveys which will demand immediate publication.

The appropriation for this item during the current year will be quite absorbed by the publications which have already been authorized to be made; so, also, is the appropriation for the current year for the publication of wind and current charts in a fair way to fall short. The requirements of the public service call for more of these publications, and the balance remaining in the treasury under this item is not sufficient to satisfy those requirements.

Respectfully,

M. F. MAURY, *Lieutenant U. S. Navy.*

Com. C. MORRIS,

Chief of Bureau of Ordnance and Hydrography.

A.

DEFICIENCY—"BOOKS, MAPS AND CHARTS."

For continuing the publication of the wind and current charts, and for printing and publishing sailing directions, hydrographical surveys, &c., &c..... \$10,000 00

BUREAU OF YARDS AND DOCKS,

November 15, 1853.

SIR: I had the honor to address you on the 17th September last submitting the question whether certain sums belonging to appropriations under the cognizance of this Bureau had not been carried to the surplus fund in mistake, inasmuch as they had been appropriated, for improvements partly under contract and not completed, and partly for improvements under operation or contemplated, when the transfers were said to have been made.

In case the sums reported in my letter of the 17th September shall not be restored to the appropriations to which they respectively belong, on the books of the treasury, I respectfully recommend that they be submitted to Congress in a deficiency bill for re-appropriation. They are as follows:

Dry dock, Kittery.....	\$2,900 85
Dry dock, Pensacola.....	11,119 13
Magazine at Norfolk.....	2,068 42
Magazine at Boston.....	480 63
Magazine at New York.....	631 32
Magazine at Washington.....	1,600 00
Hospital at Philadelphia.....	2,442 42

The amount to the credit of the Washington hospital [\$333] on the 30th June last will not be required, and can be properly transferred to the surplus fund.

I have the honor to be, with great respect, your obedient servant,
JOS. SMITH.

Hon. J. C. DOBBIN, *Secretary of the Navy.*

TREASURY DEPARTMENT, *November 23, 1853.*

SIR: Agreeably to the joint resolution of Congress of the 7th January, 1846, I have the honor to transmit, for the information of the House of Representatives, printed estimates of the appropriations proposed to be made for the fiscal year ending 30th June, 1855, as follows, viz:

		6,865,126 44

\$51,060,277 12

There is also added to the estimates a statement of the several appropriations which may be carried to the surplus fund, amounting to \$690,497 16.

Accompanying the estimates, there are sundry papers furnished by the several departments, containing explanations in regard to them.

I am, very respectfully, your obedient servant,

JAMES GUTHRIE,

Secretary of the Treasury.

Hon. SPEAKER of the *House of Representatives.*

ESTIMATES—Continued.

Appropriations for the fiscal year ending June 30, 1854.

For the general purposes of the Southwest Executive Building.

Superintendent at \$250, and four watchmen at \$500 each, per act of August 26, 1842; vol. 5, page 524; and act of September 30, 1850; vol. 9, page 543.....

\$2,250 00

\$2,250 00

Contingent expenses, viz:

For labor, fuel and lights, and miscellaneous items.....

3,865 00

\$6,115 00

NOTE.—The difference between estimates for 1854-'55 and the amount appropriated for 1853-'54 is caused by an increased estimate for *fuel and lights*, and *miscellaneous items*, the dilapidated condition of the building requiring an increased expenditure every year to keep it warm and in proper repair. The appropriations for the present fiscal year are inadequate to meet the absolutely necessary expenses under these heads.

POST OFFICE DEPARTMENT.

Postmaster General, per act of March 3, 1853; 2d session 32d Congress, section 4, page 212.....

NOTE.—This sum of \$6,865,126 44, although estimated as not to be drawn in the present fiscal year, yet the amount is required to meet the liabilities of the present and previous years, the accounts for which may not be presented or adjusted until after the close of the year. The estimates for the next year are based upon the expectation that all these balances will be available.

TREASURY DEPARTMENT,

Register's Office, November 23, 1853.

F. BIGGER,
Register.

APPENDIX.

No. 1. The Treasurer estimates for contingent expenses, viz: for blank books, binding, &c., \$1,500, and states that "this sum may be sufficient in view of our increased and increasing business, if the appropriation asked for a second messenger is allowed; otherwise that sum will be required in addition, as the service must, in that case, be employed under the designation of labor."

No. 2. The Postmaster General states that "the estimate and the appropriation for the contingent expenses of this department for the year ending June 30, 1853, were for the sum of \$12,500; but for the current year the sum appropriated is only \$11,800, although the estimate was made for \$12,500, the sum granted for the year preceding. This reduction was made by the Committee of Ways and Means, under the erroneous impression that the printing of the department would be executed by the public printer, under the act of 26th August, 1852; whereas, in pursuance of law, it had been let to contract, after public advertisement, on the 30th June, 1851, to expire June 30, 1855; so that the original estimate of \$12,500 should still be granted, with the further sum of \$700 to restore the amount reduced."

The Postmaster General also states in regard to the estimate of \$2,500 for repairs of the General Post Office building, &c., that "an increase of \$1,000 is asked because a number of letter and book cases, and other permanent fixtures, are needed, which the regular appropriation of \$1,500 is insufficient to supply after defraying the expenses usually charged upon it."

No. 3. The Chief of the Bureau of Construction, Equipment, and Repair, "respectfully submits for an increase of the salary of the chief clerk from \$1,400 to \$1,700, for the two last fiscal years, for which time the salaries of the chief clerks for the Bureaus of Provisions and Clothing and Yards and Docks were increased, and to equalize his salary with that of the chief clerks of the bureaus of other departments of the government."

MINT OF THE UNITED STATES.

MINT OF THE UNITED STATES,
Philadelphia, October 29, 1853.

SIR: I have the honor herewith to transmit a copy of the estimates for the mint and branch mints, and assay office at New York, as sent to the Register of the Treasury, and also the grounds upon which these estimates are based.

The estimates and specifications embrace the current fiscal year for the branch mint at San Francisco and the assay office at New York—the former created by the act of March 3, 1853, c. 96, § 7; the latter by the act of March 4, 1853, c. 97. The creation of these new branches of the mint greatly increases the difficulty of making proper estimates. We cannot state the amount of business which may be done in San Francisco, nor in New York; but I have given the subject the most careful consideration and examination, the result of which I now present to you. We will have the actual operation of the various mints developed before the adjournment of the next Congress; and if our estimates should prove inaccurate, it can be made the subject of a special communication from the department.

The estimate from the New Orleans branch I received to-day. It appears to me to require some reduction; in reference to which I will probably address you hereafter, when I have heard from the superintendent; but I could not longer delay sending these estimates.

I have the honor to be, with great respect, your faithful servant,
JAMES ROSS SNOWDEN, *Director.*

Hon. JAMES GUTHRIE,
Secretary of the Treasury, Washington City.

Grounds of the estimates for the Mint of the United States, Philadelphia, for the fiscal year 1854-5.

The available funds in the treasury of the mint, October 1, 1853, were.....	\$27,570 82
The available appropriations undrawn, were.....	136,000 00
The legal deductions on bullion during the remainder of the current fiscal year, from October 1, 1853, to June 30, 1854, may be set down at.....	72,899 18
Total estimated means to June 30, 1854.....	<u>\$236,650 00</u>
The amount payable for wages of workmen during the remaining three quarters of the fiscal year, may be estimated at.....	\$80,000 00
The amount payable for salaries of officers and clerks, during the same period, may be estimated at.....	16,650 00

The amount payable for ordinary expenses, including waste, during the same time, may be estimated at . . .	\$140,000 00
	<u>\$236,650 00</u>

The act of March 4, 1853, c. 97, having made it the duty of the Director of the Mint to cause to be paid annually into the treasury of the United States the profits of the mint, most of the income available for the ordinary expenses of the mint has thus been cut off, leaving only those deductions from deposits which are not of the nature of profits, but simply a repayment of expenses incident to preparing the bullion for coinage.

These deductions available for ordinary expenses, for the fiscal year 1854-5, may be estimated at	\$54,000
The amount payable for wages of workmen during the year 1854-5, may be estimated at	\$72,000
The amount for salaries of officers and clerks, same time	23,400
The amount payable for ordinary expenses, including waste, may be estimated at	110,000
The amount for ores and coins to be reserved at the mint	300
The cost of transportation from New York to Philadelphia, for coinage, of gold and silver bullion, melted and assayed at the New York assay office, [act March 4, 1853, c. 97, sect. 11,]	18,750
Total estimated expenses for the year	<u>\$224,450</u>
The difference between the estimated expenses and means shows the estimated amount required for the expenses of the mint to be met by appropriation	<u>\$170,450</u>

MINT OF THE UNITED STATES,
Philadelphia, October 29, 1853.

Grounds of the estimates for the branch mint at New Orleans, for the fiscal year ending 30th June, 1855.

ESTIMATED MEANS AND EXPENSES FOR THE FOURTH QUARTER OF 1853,
AND THE FIRST AND SECOND QUARTERS OF 1854.

Probable means.

1. Available balance in hands of the treasurer, 30th September, 1853	\$8,723 65
2. Appropriations undrawn and still available.	113,750 00
3. Legal deductions from deposits	5,000 00
Total means	<u>127,473 65</u>

Probable expenses.

1. Salaries of officers and clerks	\$12,975 00
2. Wages of workmen	29,000 00
3. Wastage for the whole year 1853	12,800 00
4. Incidental and contingent expenses, including fuel, water rent, repairs, &c.	47,591 91
5. New machinery	19,724 19
Total expenses	<u>122,091 10</u>

Difference, being the probable excess of means over expenditures, and must be deducted from the appropriations for the next fiscal year \$5,382 55

The aforementioned balance of \$5,382 55 is the estimated surplus after paying the wages of workmen, and is available therefor, and the

appropriation for which must be diminished by that amount for the next fiscal year.

All the expenses of the current year, (final,) ending 30th June, 1854, may be set down at about \$150,000, with a coinage of about eight millions.

Assuming that an equal amount of coinage will be effected on the next year following, we must estimate the expenses of the year ending 30th June, 1854, at..... \$131,382 55
Therefrom subtracting—

Legal deductions..... \$6,000 00
Surplus above paying wages of workmen 5,382 55

Total deductions 11,382 55

There will remain to be asked for, to cover the expenses of the fiscal year ending 30th June, 1854, viz:

For the half year ending December 31, 1854,
which includes the wastage of the whole
year 1854 \$68,000 00
For the half year ending June 30, 1855..... 52,000 00

LIGHT-HOUSE ESTABLISHMENT.

TREASURY DEPARTMENT,
Office Light-house Board, October 29, 1853.

SIR: In compliance with your directions, I have the honor to submit the accompanying estimates of moneys which will be required for the support and maintenance of the light-houses, light-vessels, beacons, buoys, &c., &c., on the Atlantic, Lake, Gulf, and Pacific coasts of the United States, for the fiscal year ending 30th June, 1855.

These estimates are based upon the estimates and appropriations for the support of all objects authorized by law, under the light-house establishment, for the two last years, with the addition, pro rata, for light-houses, light-vessels, beacons, buoys, &c., which were authorized by the act approved March 3, 1853.

The aggregate estimate for the fiscal year ending 30th June, 1855, is \$845,575 18; for the year ending 30th June, 1854, was \$841,798 42, for the Atlantic, Gulf, and Lake coasts.

The aggregate estimate for the fiscal year ending 30th June, 1855, for the Pacific coast, is \$60,586 25; and that for 1853-54 was \$48,235.

The accompanying statements and tables will, it is believed, explain fully every detail that may be required.

In preparing the estimates for oil and other supplies, (the prices of which depend upon a fluctuating market,) the rates of 1851-52 for the fiscal year ending June 30, 1853, have been assumed, disregarding the present high prices for those articles and their tendency to increase.

Very respectfully, your obedient servant,

W. B. SHUBRICK,

Chairman Light-house Board.

THORNTON A. JENKINS,

Naval Secretary Light-house Board.

HON. JAMES GUTHRIE,

Secretary of the Treasury, Washington, D. C.

The excess of this estimate over that of the last year arises mainly from the increased quantity and price of oil used on board of light-vessels to render them more efficient, and which item has not heretofore been specifically stated, and also from the fact of there being two additional light-vessels included in this estimate. These averages are for oil purchased in large quantities by public contract. An additional quantity is purchased annually at retail, and consequently at much higher rates, by superintendents, to meet cases of emergency arising out of casualties and unavoidable delays, which frequently occur to the sailing vessels charged with delivering the supplies.

It will be seen from this table that the price of oil has increased about 25 per cent. in the last five years; and it is believed, from the best information that can be obtained, that by the time the oil will be required for which estimates are now submitted, (1854-'55,) the increase will be in a much greater ratio.

No average can be made for the present year (1854) until the higher-priced winter-strained oil is procured.

An estimate of the amount of funds that will probably be required for the fiscal year ending on the 30th of June, 1855, for paying invalid pensioners; revolutionary pensioners, under the act of the 18th of March, 1818, and the laws supplementary thereto; also widows and orphans, under the various acts of Congress granting pensions and half-pay on account of service in the army, militia, and volunteer corps.

INVALID PENSIONERS.

Five thousand three hundred and forty-seven names are reported as now on the invalid rolls, but only 4,503 have been paid during the first and second quarters of the present calendar year, making a difference between the number now on the rolls and those who have been paid their stipends, of 844—probably one-half of whom are now living.

This number, 422, added to 4,503, will make 4,925; and these, at an average of \$100 per annum for each pensioner, would require the sum of \$492,500; but, as there will be an increase of at least 200 during the fiscal year ending 30th June, 1855, making due allowances for deaths, we may estimate \$100 for each pensioner, making \$20,000, and producing an aggregate of \$512,500.

But as there will be an unexpended balance in the treasury for the fiscal year ending 30th June, 1854, of probably \$200,000, an appropriation will be required of only.....

\$312,500 00

REVOLUTIONARY PENSIONERS UNDER ACT OF MARCH 18, 1818.

As the number now on the rolls, under the above act, very considerably exceeds the number paid during the first and second quarters of the present calendar year, it is probable that many are yet living who have failed to apply for their pensions; some of the number, however, are probably dead, although we have no official accounts of their deaths. This remark also applies to other classes of pensioners.

In the course of the fiscal year ending June 30, 1854, the number of pensioners under this law will probably be reduced, by deaths, to 275; taking \$100 per annum for each pensioner as the basis of the calculation, \$27,500 will be required to pay them for the fiscal year ending June 30, 1855.

But as an unexpended balance of more than that amount will remain in the treasury on the 30th June, 1854, no appropriation will be required for the fiscal year ending June 30, 1855.	

WIDOWS' AND ORPHANS' PENSIONS, UNDER ACTS
4TH JULY, 1836, AND 21ST JULY, 1848.

To pay widows of revolutionary men, under the third section of the act of 4th July, 1836, who will probably be on the rolls in 1855, there will be required, for 400 widows, at an average of \$100 per annum for each pensioner, the sum of \$40,000; and for 50 more, who will probably be added to the rolls, and to whom there will be arrears due from one to twenty-four years, at an average of \$1,000 for each pensioner, making \$50,000, and producing a total of \$90,000.

The act of 21st of July, 1848, (vide chap. 108, page 77, of the pamphlet edition of the United States laws, 1st session of the 30th Congress,) gives five years' half-pay to the widows or orphans, as the case may be, of all officers and soldiers, whether of the regular army or of volunteers, who died of wounds or of disease originating in the line of their duty, in the war with Mexico; and the act of 22d February, 1849, and the joint resolution of the 28th September, 1850, extending the provisions of the act of 21st July, 1848, to the cases of the widows or children of those officers and soldiers who have died, or may hereafter die, from like causes, after reaching their homes.

One hundred and seventy are now on the rolls, under this act, (the five years' half-pay of 1830 having already expired,) and at the close of the present fiscal year not more than one hundred will remain on the rolls; these, at an average of \$60 per annum for each, for the fiscal year ending 30th June, 1855, will amount to \$6,000; and before the close of that year one hundred more will probably be added to the rolls, to whom there will be arrears due for five years, at an average of \$300 each, which will amount to \$30,000; making an aggregate, under the act of 4th July, 1836, and 21st July, 1848, of \$126,000.

WIDOWS' PENSIONS, UNDER THE ACTS OF 7TH JULY, 1838, 3D MARCH, 1843, AND 17TH JUNE, 1844.	
A large number of claims under the above acts remain unsatisfied, as the proofs of service, evidence of marriage, &c., have not been furnished as required by the regulations of this office, but in the course of the ensuing fiscal year probably not less than one hundred of these claims will be perfected, the pensions ranging from one to ten years, which, at an average of \$600 for each pensioner, will require the sum of \$60,000; but, as there will probably be an unexpended balance remaining in the treasury, on the 30th June, 1854, of at least \$50,000, there will be required the sum of only...	10,000 00
WIDOWS' PENSIONS, UNDER THE ACTS OF 2D FEBRUARY, 1848, AND 29TH JULY, 1848.	
The first section of the act of February 2, 1848, entitled "An act making further provisions for surviving widows of the officers and soldiers of the Revolution," gives a pension during life to widows of revolutionary officers and soldiers who served six months or more, provided they were married prior to the 1st of January, 1774. It also embraces all surviving widows who have heretofore been pensioned under the acts of 7th July, 1838, 3d March, 1843, or 17th June, 1844.	
No appropriation, therefore, is necessary to pay, under the three last-mentioned acts, any widow who is now on the rolls under the act of 2d February, 1848, as they are all merged in the latter act. During the ensuing fiscal year 2,800 will probably receive the benefits of this act; these, at an average of \$80 per annum each, for one year, will require the sum of \$224,000; and of this number 100 at least will be entitled to arrears averaging \$480 for each pensioner, amounting to \$48,000, producing a total of \$272,000.

The act of 29th July, 1848, gives a pension for life, of equal amount per annum, that their husbands received, or would have been entitled to if living, to all widows of revolutionary officers and soldiers, provided they were married prior to the 2d January, A. D. 1800.	
Under this act 1,054 have been granted pensions; and, allowing for deaths, there will probably be 700 of this number on the rolls for the fiscal year ending 30th June, 1855; these, at an average of \$80 per annum for each pensioner, will require \$56,000. Add to this number 50 more who will probably be allowed the ensuing fiscal year, and whose pensions will commence on the 4th March, 1848, at an average of \$560 for each pensioner, which will amount to \$28,000; making an aggregate, under the acts of 2d February, 1848, and 29th July, 1848, of \$356,000.	
But as an unexpended balance of \$300,000 will probably remain in the treasury on the 30th June, 1854, we shall require only.....	56,000 00
WIDOWS' AND ORPHANS' PENSIONS AND HALF PAY, UNDER THE ACT OF 3D FEBRUARY, 1853.	
The act of 3d February, 1853, (vide chap. 41, page 154, of the pamphlet edition of the United States laws, second session of the 32d Congress.) grants a continuance of half-pay for five years to all widows and orphans who were allowed five years' half-pay by the provisions of the act approved the 21st July, 1848, entitled "An act amending the act granting half-pay to widows and orphans, where their husbands or fathers have died of wounds received in the military service of the United States, in case of deceased officers and soldiers of the militia and volunteers," passed July 4, 1836, &c., also extends the provisions of the act of 22d February, 1849, to the widows and minor heirs of the officers, non-commissioned officers, musicians and privates of the regulars; militia, and volunteers of the war of 1812, and the Indian wars since 1790; and by the 2d section of said act, pensions for life are allowed to the widows of all officers, non-commissioned officers, musi-

cians, and privates of the revolutionary army, who were married subsequent to January, A. D. 1800, provided their husbands served six months. Under the 1st section of the act of 3d of February, 1853, 1,270 claims have been allowed, which, at an average of \$60 per annum for each, for the fiscal year ending 30th June, 1855, amount to \$76,200; and, before the close of that year, 1,000 more will probably be added to the rolls, which, at \$60 per annum for each, will amount to \$60,000. Under the 2d section, granting pensions to the widows of revolutionary men, 1,450 names are now inscribed on the rolls; these, at an average of \$80 per annum for each pensioner, will require, for the fiscal year ending June 30, 1855, (allowing for deaths,) \$112,000. Add to this number 1,600 more, who will probably be allowed during the present fiscal year, and the first two quarters of the ensuing fiscal year, whose pensions will commence on the 3d of February, 1853, at an average of \$80 per annum for each pensioner, which will amount to \$128,000, making an aggregate for the fiscal year ending 30th June, 1855, of.....	240,000 00

* Agent Gilbert reports that it will require \$1,170 to purchase 6,500 lbs. of tobacco of fair quality. The tobacco furnished in some previous years has been of so poor a quality that the Indians were offended, and many refused to accept any.

† For several years, \$1,000 has been appropriated for agricultural implements for the Pawnees (vol. 7, 448-4.) The money is not needed for agriculture, but is needed for the support of a smith shop. There is now a smith shop in operation, having been supported for some time by an unexpended balance of old appropriations, which balance is now exhausted.

CHARLES E. MIX,
Acting Commissioner

OFFICE INDIAN AFFAIRS, *October 12, 1853*

GENERAL LAND OFFICE, *February 25, 1841.*

I hereby certify that Joseph S. Wilson, of this office, has performed the duties assigned to him, as the clerk designated "to take charge of the surveys, township plats, and other documents, returns and accounts of the surveys," &c., [see my letter of the 9th August, 1837, to the Commissioner of Indian Affairs, and the reply of the 11th of the same month,] under the 7th article of the general regulations for the survey and sale of the lands ceded by the Chickasaw treaty of the 20th and 22d days of October, 1832, which were approved by the President on the 23d March, 1833.

I further certify that, since he entered on those duties, he has had in charge the adjustment of the accounts of the principal surveyor of lands in Mississippi ceded by the Chickasaws; and that since William S. Smith left this office [31st May, 1838,] who formerly had charge of the adjustment of the receiver's accounts for sales in the Chickasaw cession, Mr. Wilson has also had in charge the adjustment of the said accounts of the receiver.

Extract from special estimate of funds required for the service of the Indian department within the fiscal year ending 30th June, 1853.

"41. For payment to Joseph S. Wilson for services on Chickasaw Indian business, in the office of the Commissioner of the General Land Office, from 23d May, 1837, to 28th February, 1851, at \$250 per annum.....\$3,437 50."

"Explanation.

"As explanatory of this item, copies of sundry communications are herewith submitted, marked C."

GENERAL LAND OFFICE, *August 9, 1837.*

SIR: As Mr. Joseph Wilson, since his appointment as principal clerk of private land claims in this office, has had in charge the surveys, township plats, returns, accounts of the surveys of the lands ceded by the Chickasaws under the treaties of the 20th and 22d of October, 1832, and of the 24th of May, 1834, with the other documents and the necessary correspondence connected therewith in execution of said treaties, I hereby designate him a suitable person to be continued in charge of said business, and also of superintending the preparation and recording of patents now rendered necessary in the progress of the business under those treaties, at a salary of two hun-

dred and fifty dollars *per annum*; and also recommend that he be allowed for his services on the same branch of business, commencing with the expiration of his predecessor's term of service, a salary at the rate of two hundred and fifty dollars *per annum*. I further designate Mr. William S. Smith, to whom has been heretofore assigned another portion of the business arising under those treaties, as proper to be continued in charge of the same, as also of adjusting and certifying the accounts of the writers and recorders of the said patents for compensation, as also of aiding in the writing and recording said patents when thereto requested by Mr. Wilson; Mr. Smith to receive, for all his said services, a salary of two hundred and fifty dollars *per annum*. All which is submitted subject to your approval.

Very respectfully, I have the honor to be your obedient servant,
 JAMES WHITCOMB, *Commissioner*.
 C. A. HARRIS, Esq., *Commissioner of Indian Affairs*.

WAR DEPARTMENT,
Office Indian Affairs, August 11, 1837.

SIR: I have the honor to inform you that the several propositions contained in your letter of the 9th instant, respecting the employment of Messrs. Wilson and Smith in the execution of certain duties under the Chickasaw treaties of 1832 and 1834, have received the approval of the Secretary of War.

Very respectfully, your most obedient servant,
 C. A. HARRIS,
Commissioner.

JAMES WHITCOMB, Esq.,
Commissioner of the General Land Office.

The Secretary of War has the honor to submit to the President of the United States the following project for carrying into effect the treaty concluded with the Chickasaw Indians on the 20th and 22d days of October, 1832:

1. That the lands ceded by the said treaty be surveyed, under the direction of the Commissioner of the General Land Office, in the same manner as the public lands of the United States are surveyed; and that, in the execution of this duty, the said Commissioner be governed by the acts of Congress, and by the rules and regulations of the Treasury Department, respecting the survey of the public lands, so far as the same shall be applicable, and not inconsistent with the provisions of said treaty.

2. The said lands shall in like manner be sold in the same mode as is now provided by law and treasury regulations for the public lands of the United States, subject to the treaty limitations before mentioned.

3. All the necessary accounts, records, documents, and files of papers, shall be kept separate and apart from all other papers in the office of

the said Commissioner; and the said Commissioner shall audit and adjust the accounts thereof quarterly, and shall submit the same to the First Comptroller of the Treasury for his approbation and decision.

4. In the performance of the duties hereby required, the Commissioner of the General Land Office will be governed by such instructions as he may, from time to time, receive from the President of the United States, through the Secretary of War.

5. All moneys received from the sales of the said land shall be deposited by the receiver to the credit of the Treasurer of the United States, and a special account thereof shall be opened and kept on the books of the Treasury; and all such funds shall be paid by the said Treasurer, on the warrant of the Secretary of the Treasury, in pursuance of the requisition from the Secretary of War.

6. Accurate accounts shall be kept in the War Department of the receipts and disbursements under the said treaty; and all appropriations made by Congress to carry the said treaty into effect shall be charged to the proceeds of said treaty, and refunded therefrom.

7. The Commissioner of the General Land Office is authorized to allow the sum of \$250 per annum to such clerk as he shall designate to take charge of the surveys, township plats, and other documents, returns, and accounts of the survey of the said land; and the sum of \$250 to such other clerk as he shall designate, to superintend the accounts of the lands sold, and the adjustment of the same, which sums shall commence as soon as the respective duties of said clerks commence.

8. Such other contingent expenditures as may be necessary in the execution of the duties hereby enjoined, such as the purchase of books, papers, parchment, stationery, printing, furniture, &c., will be allowed by the Secretary of War to be charged to the proceeds of said lands.

9. Should the prosecution of these duties require other clerks, provision therefor will be made, when necessary, by the Secretary of War.

10. Semi-annual statements of the receipts and expenditures of the said fund, and of all proceedings under the said treaty, will be submitted by the War Department to the President of the United States for his consideration, and likewise for transmission to the said Chickasaw tribe for their information and satisfaction.

11. These regulations are founded upon the duty of the Executive to carry into effect the treaty with the Chickasaws. The United States having undertaken to receive the funds arising from the sale of the lands ceded thereby, and to vest a portion of the same in some productive stock, for their use, are responsible for the safety and application of the money. So far, therefore, as respects its receipt, accountability, and disbursement, it may be considered in the same light as other funds of the government, and temporarily subject to the same management. It follows, that no officer executing any duty prescribed by these regulations will be entitled to, or receive, any per centage, or other emolument, or compensation therefor, with the exception of such clerks as may be necessarily thus employed, and whose allowance will be previously fixed by the Secretary of War.

12. Such other regulations as may from time to time be found necessary in order to carry into execution the said treaty, and to insure the faithful application of the funds created by it, shall be submitted by the

Secretary of War to the President of the United States for his consideration and approval.

LEWIS CASS.

DEPARTMENT OF WAR, *March 23, 1833.*

Approved March 23, 1833.

ANDREW JACKSON.

TREASURY DEPARTMENT,

March 28, 1833.

SIR: I transmit a copy of a regulation of the President, dated 23d instant, for carrying into effect the treaty concluded with the Chickasaw Indians on the 20th and 22d October, 1832, and have to request that you will give the instructions necessary to the officers under your direction.

I am, respectfully, sir, your obedient servant,

LOUIS McLANE,

Secretary of the Treasury.

COMMISSIONER OF THE GENERAL LAND OFFICE.

DEPARTMENT OF THE INTERIOR,

Washington, February 15, 1853.

SIR: In compliance with the request contained in your letter of the 11th inst., I have examined the papers submitted therewith, having reference to your claim to compensation, at the rate of \$250 per annum, for services rendered in the office of the 2d Comptroller of the Treasury, on Chickasaw business, since the compensation authorized by the Executive resolutions of 1833 were discontinued by the President's order in 1842, and am clearly of opinion, as I was in the analogous case of Mr. Joseph S. Wilson, of the General Land Office, that the claim is just and equitable, and ought to be paid; but, for the reason assigned in that case, viz., the want of a special appropriation to meet it, it cannot be liquidated and paid.

I am, sir, respectfully, your obedient servant,

ALEX. H. H. STUART, *Secretary.*

J. M. CUTTS, Esq., *present.*

GEO. GIBSON,

Commissary General of Subsistence.

OFFICE OF COMMISSARY GENERAL OF SUBSISTENCE,
Washington, October 19, 1853.

ADJUTANT GENERAL'S OFFICE,
Washington, October 17, 1853.

SIR: I respectfully submit the following estimate for moneys to be expended under the direction of the Adjutant General's department, for the year commencing July 1, 1854:

For the recruiting service of the army, viz:	
Three months' extra pay, allowed by the act of July 5, 1838, to each non-commissioned officer, musician, or private soldier who may re-enlist in his company or regiment, to wit: for 400 re-enlisted soldiers.....	\$10,000 00
Expenses of recruiting, including quarters, fuel, stationery, straw, postage, bunks, compensation to citizen surgeons for medical attendance, magistrates' fees for administering the oath of allegiance, transportation from rendezvous to depôts, and all other expenses on account of recruits until put in march to join regiments, for 4,600 recruits, at \$12 per man.....	55,200 00
For contingent expenses of the Adjutant General's department, at division and department headquarters, to be applied to the purchase of such articles of office furniture, stationery, and other necessaries, as are indispensable for the transaction of the public business, not to exceed \$50 at any of those headquarters.....	400 00
Total amount to be appropriated.....	<u>65,600 00</u>

Respectfully submitted:

S. COOPER,
Adjutant General.

HON. JEFFERSON DAVIS,
Secretary of War, Washington.

Estimate of funds required for the service of the Ordnance Department for the fiscal year commencing 1st July, 1854, and ending 30th June, 1855.

Objects.	Amount.
1. For the armament of fortifications, (see remarks).....	\$150,000
2. For the purchase of ordnance, ordnance stores, and supplies, (see remarks).....	100,000
3. For the current expenses of the ordnance service, (see remarks).....	100,000
4. For the manufacture of arms at the national armories, (see remarks).....	250,000
5. For repairs and improvements and new machinery at Harper's Ferry armory, (see remarks).....	39,200

ESTIMATE—Continued.

Objects.	Amount.
And it is respectfully requested that the following clause be inserted in the appropriation for this object, viz: <i>And the moneys derived from the recent sale of lots at Harper's Ferry, and turned into the treasury, are also hereby appropriated for the purpose of improving the property retained by the United States at that place, and the Secretary of War is authorized to apply the remaining instalments, as they become due, to the same object.</i>	
6. For arsenals, (see remarks)	\$83,310
7. For the completion of the magazines for powder on the public lands reserved for military purposes at Jefferson Barracks, Mo., (see remarks)	25,000
Total	747,510

Explanations and details of the foregoing estimate.

I.—ARMAMENT OF FORTIFICATIONS.

The object of this item of the estimate is to provide the means of arming new fortifications, and keeping in repair the armament of those at present constructed. The appropriation will be applicable to the purchase of heavy artillery and projectiles, of timber and other materials for the manufacture of seacoast and garrison carriages, with their implements and equipments, and to the payment of mechanics employed in their manufacture at the arsenals of construction. The supply of timber, to which it is proposed to apply a great portion of the appropriation, should always be sufficient to meet any emergency that may arise. In the event of a war, and a consequent demand for a large supply, it would be difficult to procure timber in a proper condition to be wrought into gun-carriages, requiring, as it does, at least eight years' seasoning before it is fit for use. Should a war occur eight years hence, the timber now on hand would probably not be sufficient to meet its demands; and timber purchased under an appropriation made at the next session of Congress, or subsequently, would not be suitable for carriages required in that war. It is therefore deemed prudent to provide a larger supply at this time, and, taking into consideration the extent of our seacoast, and the new fortifications that will probably be constructed during the next eight years, the amount estimated will certainly not be more than sufficient to accomplish the object proposed.

II.—ORDNANCE, ORDNANCE STORES, AND SUPPLIES.

The amount embraced in the estimate for this object is intended to provide siege and field cannon, timber, and other materials for siege

and field gun-carriages, with their implements, equipments, and harness, and to defray the expenses of fabricating the same; to provide side-arms and accoutrements for the different species of troops composing the army, and the materials and labor for the preparation of ammunition. It is considered to be a proper amount for a year's service.

III.—ORDNANCE SERVICE.

The amount of this item is applicable to the purchase of ordinary supplies of fuel, stationery, and forage, and to the expenses attending the receiving, issuing, and keeping in order the arms, ordnance stores, and other public property at the different arsenals and depôts. It is the amount usually appropriated, and is found, by the experience of past years, not to exceed the expenses to which it is applicable.

IV.—NATIONAL ARMORIES.

The amount of this item is required to carry on the operations of the national armories at Harper's Ferry, Virginia, and Springfield, Massachusetts. A larger appropriation, similar to those made in former years, might be expended with advantage, but in view of the stock of muskets on hand, the amount estimated is deemed sufficient.

V.—REPAIRS AND IMPROVEMENTS AT HARPER'S FERRY ARMORY.

The details and explanations of this part of the estimate are as follows, viz :

1. For one heavy tilt-hammer	\$1,300
2. For building a new stock-house.....	8,000
3. For a stone wall and iron railing along south side of armory canal	5,000
4. For iron railing between railroad bridge and armory canal	1,000
5. For a wall and railing on north side of main gate, on the lot purchased of N. H. Swayne.....	1,000
6. For a magazine, and a road to it.....	1,000
7. For a post-and-rail fence to enclose arsenal grounds...	400
8. For building a cistern.....	1,000
9. For drains and culverts	400
10. For repairs to bell-shop and boring-mill.....	1,800
11. For general repairs of buildings and for moving machinery	1,700
12. For a pavement (stone-flag) in front of tilt-shop and boring-mill	700
13. For a driving-wheel and a small wheel for blast.....	2,800
14. For a lumber shed and yard.....	6,000
15. For purchase of new machinery	7,000
Amount.....	\$39,200

Remarks.

1. This tilt-hammer is to be placed in the rolling-mill, and will be required for drawing barrel plates and other heavy work.

2. The cellar and first floor of the present stock-house was covered by water during the last flood, in 1852. A large number of stocks have been collected for seasoning, and a suitable building is required to keep them secure. The plan of the building will be furnished before the meeting of Congress.

3. To secure the canal bank it is necessary to build a permanent wall, which, with an iron railing, would enclose the works on that side.

4. To enclose the west end of armory yard.

5. To correspond with the present wall and railing on the south side of entrance.

6. The magazine now in use has to be removed, as the ground adjacent has been sold for building-lots. The new one is to be placed on ground adjacent to the new arsenal; and to place it in a secure position, requires heavy work to make a road on the side of the cliff. The plan will be furnished before the meeting of Congress.

7. This is necessary to preserve the drains and slopes, which are liable to be injured by cattle.

8. To supply the workshops with drinking-water, which has now to be brought from a distance.

9. To conduct water from the slopes and hill-sides, above the canal, to prevent wash, and to pass the water from the foundations of the new arsenal and proposed stock-house.

10. The lower stories of these buildings require re-flooring.

11. For the preservation of the buildings at this armory, and making a better disposition of machinery.

12. This pavement is required for dry communication with these works in wet weather.

13. Required for the rolling-mill.

14. The removal of the shanties heretofore used as dwellings on the upper end of Hall's island will give a good position for a lumber yard, and the only one that is accessible and not liable to be overflowed. The flood of 1852 swept away the former lumber yard, and a great deal was lost. The plan of the lumber shed will be furnished before the meeting of Congress.

15. To preserve in good order the present machinery, and to introduce new improvements.

VI.—ARSENALS.

The amount estimated for under this head is made up from the estimates of the commanding officers of arsenals, revised and modified at the Ordnance Office. In the revision of their estimates, every object not regarded as necessary, or the execution of which may be conve-

niently postponed, has been thrown out. The details and explanations are as follows, viz:

ALLEGHENY ARSENAL.

1. For completing smithy and machine shop	\$4,214
2. For steam-engine for the new smithy	3,675
3. For building stone wall, gate piers, corner piers and sewers, erecting iron gates, filling in and grading on the northwest front of the arsenal grounds.....	4,746
4. For building a bake-house, 40 by 16 feet and 13 feet high	400
5. For rebuilding gate piers, and putting up new gate at the intersection of the railroad wall with the southwest wall	335
6. For the annual current repairs of the post	1,000
	14,370

Remarks.

1. The amount embraced in the last estimate for this object was \$7,564, but in consequence of the reduction in the appropriation, the sum of \$3,350 could only be applied.

2. Required to drive the machinery.

3. It is very desirable to close in the railroad front of this arsenal by a protection wall, the cost of which will be reduced by using in its construction materials from an old stone warehouse, which is not worth the expense necessary to put it in repair, and which occupies the space that will be required for the receiving and issuing of stores.

4. The old bake-house being very combustible, was discontinued from fear of fire, and the building was taken down. A new one is much required.

5. The present gateway is entirely too narrow.

6. Required for the preservation of the buildings, walls, &c., at the post.

APPALACHICOLA ARSENAL.

1. For painting arsenal buildings, fences, &c.....	\$1,000
2. For repairs of buildings, fences, &c.....	500
	1,500

Remarks.

• 1 and 2. Required for the preservation of the post.

AUGUSTA ARSENAL.

1. For raising roofs of workshops and re-covering them with tin.....	700
--	-----

STATEMENT—Continued.

2. For one large cistern in centre of arsenal yard	\$825	
3. For renewing with copper all the old tin conductors.....	540	
4. For painting public buildings.....	800	
		\$2,865
		18,735

Remarks.

1. To bring the eaves of these shops on a level with the enclosing wall.

2. Required for protection against fire.

3 and 4. For the repair and preservation of the post.

BATON ROUGE ARSENAL.

1. For a brick building for engine, 61 $\frac{3}{4}$ +30 feet..	\$2,200	
2. For renewing fences and repairing and painting the buildings and fences at the arsenal...	1,000	
		3,200

Remarks.

1. Required for an engine of 6-horse power to drive a planing machine, circular saw and turning-lathe.

The plan of the building will be furnished before the meeting of Congress.

2. Required for the preservation of the post.

CHAMPLAIN ARSENAL.

1. For repairs to storehouse.....	\$800	
2. For repairs to officers' quarters.....	200	
3. For new roof to gun-house.....	100	
4. For raising new wharf.....	300	
5. For gutters and spouts to storehouse and officers' quarters.....	250	
6. For grading public grounds.....	100	
		1,750

Remarks.

1 and 2. The roofs and cornices of these buildings are broken and decayed, and the stone-work requires pointing.

3. The shingles on this roof are decaying.

4. This wharf, built in 1845, is submerged during freshets.

STATEMENT—Continued.

5 and 6. Required for the preservation of the buildings and grounds at the post.

CHARLESTON ARSENAL.

1. For completing repairs of old arsenal building by substituting a slate roof for the present tile roof.....	\$2,600	
2. For repainting and repairs of arsenal buildings, fences, &c.	400	
		\$3,000

Remarks.

1. This item contemplates no change in the size or shape of the old building, but merely putting it in a serviceable condition to receive and preserve the public property.

2. To keep the post in good order.

DETROIT ARSENAL.

For repairs of public buildings, enclosures, and grounds... 800

Remarks.

Required for the preservation of the post.

FORT MONROE ARSENAL.

Repainting and repairs to public buildings and fences..... 1,500

Remarks.

Required for the preservation of the post.

FRANKFORD ARSENAL.

1. For enlarging and repairing barn.....	\$750	
2. For grading and paving, and laying curb along the front wall of the arsenal, and repairing the culvert.....	1,000	
3. For repairs of old buildings.....	1,500	
4. For paving foot-paths, improving grounds, and general repairs of buildings.....	1,500	
		4,750

STATEMENT—Continued.

Remarks.

1. This is a stone building, with strong walls, on the land last purchased for Frankford arsenal. By repairing and enlarging it, it will be made very useful to store provender and to shelter carts, wagons, and implements. This object was embraced in the last annual estimate, but was not accomplished in consequence of the reduction in the appropriation.

2. Required in consequence of alteration of grades and improvements in the neighborhood.

3. The present gutters are unsuitable ; they get choked with leaves, causing the water to overflow and ruin the stucco, which must be also renewed.

4. Required for the preservation of the post.

KENNEBEC ARSENAL.

- | | |
|---|---------|
| 1. For removing two buildings from top of hill to the lower grounds | \$3,000 |
| 2. For repairs of drains, culverts, fences, &c..... | 500 |
| 3. For repairs of public buildings | 500 |

\$4,000

Remarks.

1. These buildings, one of which was never finished, were intended for carriage makers' and armorers' shops, but they are so inconveniently located at the top of a steep hill as to be comparatively useless. It is proposed to remove them to a lower and more convenient position.

2. The fences require painting, and the drains and culverts occasional repairs.

3. Required for the preservation of the post.

LITTLE ROCK ARSENAL.

- | | |
|---|-------|
| 1. For piazza in front of officers' quarters..... | \$400 |
| 2. For repairing roof of tower of arsenal..... | 200 |
| 3. For a new flag-staff | 300 |
| 4. For completing the re-painting of buildings.... | 200 |
| 5. For shade trees, and for improving public grounds..... | 100 |

1,200

Remarks.

1. This is indispensable to the comfort of the quarters, in consequence of the heat and length of the summer season.

STATEMENT—Continued.

2. The flag-staff has occasioned a leak, which has rotted some of the timbers.

3. The present flag-staff injures the building, and the flag is rapidly worn by the roof.

4 and 5. Required for the preservation of the post.

NEW YORK ARSENAL.

1. For extending sea-wall fifty-six feet.....	\$840
2. For grading grounds.....	150
3. For painting exterior walls of buildings.....	875
4. For 350 feet of sewer.....	175
5. For a stationary fire-engine.....	100
6. For 300 feet of hose.....	225
7. For removing old shop and repairs of buildings.....	1,000

\$3,365

Remarks.

1. To finish north front of ordnance yard.

2. Backing to sea-wall in its extension.

3. The old paint is peeling off, and the walls require re-painting.

4. Draining privies, and discharging surplus water into cisterns.

5 and 6. Protection of buildings against fire.

7. The removal of this shop is necessary to render the stationary fire-engine available for all the buildings, and the site proposed will be more convenient in other respects. This item includes also the amount necessary to keep the buildings in proper repair.

NORTH CAROLINA ARSENAL.

1. For enclosing wall of large magazine.....	\$2,500
2. For grading and draining square.....	600
3. For completion of enclosing wall of east front...	1,600
4. For completion of officers' quarters, No. 2.....	1,000
5. For pavements.....	550
6. For repairs of finished buildings.....	500

6,75

Remarks.

1. Necessary for completion of magazine.

2. To drain the rain-water from the entrance front.

3 and 4. The funds heretofore assigned for these objects were insufficient to accomplish them.

STATEMENT—Continued.

- 5. Necessary for dry communication in wet weather.
- 6. Required for the preservation of the post.

ROME ARSENAL.

Repairs of public buildings, fences, &c \$500

Remarks.

Required for the preservation of the post.

ST. LOUIS ARSENAL.

- 1. For erecting a one-story brick mess-room and kitchen for enlisted men of ordnance, 38 by 22 feet, (see plan No. 2, accompanying)..... \$1,500
- 2. For erecting a brick office, 49 by 42 feet, one story high, and containing four rooms, (see plan No. 3, accompanying)..... 3,000
- 3. For erecting a brick casting-room, 30 by 30 feet, one story high, with kettles for melting lead, and case-hardening furnace, (see plan No. 4, accompanying)..... 3,500
- 4. For building a new supporting wall opposite north gate, to widen the space between gateway and proposed guard-house..... 1,000
- 5. For lighting arsenal grounds and buildings with gas..... 1,000
- 6. For general repairs and improvements..... 2,000

12,000

Remarks.

- 1. To separate the eating-room and kitchen from the sitting and sleeping rooms, which is very desirable.
- 2. A convenient building for an office is very necessary for the transaction of the public business.
- 3. A casting-room would be of great importance in time of war, by affording facilities for the rapid manufacture of bullets. The case-hardening furnace would always be useful.
- 4. This is necessary before the guard-house, for which the funds are already assigned, can be built.
- 5. Gas can be readily introduced into the grounds and buildings, and in the latter would greatly conduce to the comfort of the officers and men. The sum asked for is for pipe, brackets, posts, lamps, tubes, sockets, cocks, burners, and labor.

STATEMENT—Continued.

6. Required for the preservation of the post.

WATERTOWN ARSENAL.

1. For an engine-house, 25 by 16 feet.....	\$1,000	
2. For a new brick shed, with slated roof.....	2,500	
3. For repairs of barracks, quarters and storehouses, and for completing painting of walls and exterior of storehouses.....	1,250	
4 For cross-fences for enclosing grounds.....	250	
5 For lightning-rods on west timber storehouse, stable, barracks, and office.....	400	
		\$5,400

Remarks.

1. To protect the fire-engines, and to have them convenient and available.

2. The present wood-shed is old and useless, and long since condemned. The plan of this building and of the engine-house will be furnished before the meeting of Congress.

3. New floors are required in the barracks, office, kitchen, &c., and the funds previously assigned were not sufficient.

4. The present fences are old and decayed, and not worth repairing.

5. Protection against lightning.

WATERVLIET ARSENAL.

1. For cast-iron posts, to be set along the east front of the arsenal grounds.....	\$1,280	
2. For filling in timber and carriage stores with slate rock, making and repairing roads, and fill- ing low grounds.....	700	
3. For painting and repairing buildings at the post.....	2,380	
		4,360

Remarks.

1. The present wooden posts were set about ten years since, at an expense of about \$2 each; they are now so much decayed as to require renewing, which it is proposed to do by substituting cast-iron.

2. To render the floors of these buildings dry and solid, and to improve the roads and grounds.

STATEMENT—Continued.

3. Required for the preservation of the post.	
Contingencies for arsenals.....	\$12,000
Total for arsenals.....	83,310
<i>Remarks.</i>	
To provide for such unforeseen expenditures as may become necessary for repairs and preservation during the year.	

VII.—COMPLETION OF MAGAZINES AT JEFFERSON BARRACKS.

An appropriation for the erection of proper magazines on the public land reserved for military purposes at Jefferson Barracks, some miles below St. Louis, was made in March, 1851, but it was insufficient, and the buildings have remained unfinished for want of funds to complete them. The powder, therefore, which has been a source of so much anxiety to the people of south St. Louis, still remains in the old magazine building, the site of which has been given up for a marine hospital. Apart from the danger to the inhabitants of St. Louis, these magazines are very necessary in consequence of the increase of our supplies of powder during the Mexican war, of which but comparatively little was expended, and the return of the rest has filled our magazines, and rendered it necessary, at this place, to hire, for a time, private storage for powder. It is proposed to recommence work upon them, and to complete them as soon as the means are available.

H. K. CRAIG,
Colonel of Ordnance.

ORDNANCE OFFICE, *October 20, 1853.*

[See supplemental estimate, appended.]

Supplemental estimate of funds required for the service of the Ordnance department during the fiscal year commencing 1st July, 1854, and ending 30th June, 1855.

Objects.	Amount.
1. For the purchase of a site and construction of an arsenal at Benicia, California, (see remarks).....	\$93,485
2. For the purchase of a site and construction of an arsenal in New Mexico, (see remarks).....	32,500
3. For the purchase of a site and construction of an arsenal in Texas, (see remarks).....	32,500
4. For an arsenal in Oregon, (see remarks).....	42,189
Total.....	\$200,674

I.—ARSENAL AT BENICIA, CALIFORNIA.

The details of this item are :

For the purchase of a site.....	\$5,000
For the erection of a permanent fire-proof magazine.....	28,900
“ “ barracks.....	16,050
“ “ quarters for commanding officer.....	13,540
“ “ quarters for two subalterns.....	14,525
“ “ guard-house.....	1,570
“ “ laboratory.....	1,000
“ “ wharf.....	12,900
Total.....	\$93,485

Remarks.

The land upon which the present buildings are erected was given to the United States by an individual, and if the title should be found, upon examination, to be valid, the amount embraced in this item for the site will not be required. As the plans of the new buildings will depend in a great measure upon the site, they cannot be properly prepared until after it is determined upon.

To supply the pressing demand for an arsenal in this section of the country, for which no special appropriation has yet been made, the department has only been enabled, in consequence of the limited means afforded by the contingent fund for arsenals, to erect temporary wooden structures, which are liable to destruction in dry seasons, from the dead grass taking fire, as from other accidents. A letter from the ordnance

officer at that place, received a short time since, reports that the grass took fire during the dry season, and, in spite of the exertions of all his men and the whole infantry force at the barracks, the fire ran to within one hundred yards of the wooden buildings, in which he had stored more than fifty tons of gunpowder. It is proposed to use in the erection of these buildings and wharf a yellow freestone, of excellent quality, which is found in abundance, and easily quarried, on the arsenal grounds.

II. & III.—ARSENALS IN NEW MEXICO AND TEXAS.

Remarks.

Permanent arsenals should be established in New Mexico and Texas, to replace the temporary depôts at Fort Union and San Antonio. The proper site for that in Texas is, according to the latest and best information which I have been enabled to obtain, at San Antonio; for that in New Mexico, probably the vicinity of Albuquerque, or some other point on the Rio Grande, would be preferable to the present location. Should there be suitable sites for these arsenals on government reservations in this State and Territory, the amount embraced in these items for sites (\$2,500 each) would not be required. The plans of the buildings have not been prepared, for the same reason as that stated in the remarks under the head of Benicia arsenal.

IV.—ARSENAL IN OREGON.

The details of this item are:

The erection of a powder magazine.....	\$16,615
The erection of a storehouse.....	16,245
The erection of quarters.....	9,329
	<hr/>
	\$42,189
	<hr/> <hr/>

Remarks.

These buildings are necessary for the proper preservation of the quantity of ordnance stores which should always be kept on hand in a territory having the number of Indians that Oregon has within its borders, and when erected they will not only enable the department to supply present necessities, but also, at its convenience, to deposit, means of defence in that country, to be ready in case of emergency.

The isolated position of Oregon, and the impracticability of supplying it in time of war with a maritime power, make it the policy of the government to keep a reasonably large supply of ordnance and ordnance stores on hand there. No appropriation is asked for to purchase a site for this arsenal, because it is believed that the reservation of land for military purposes on the Willamette river will afford a suitable one. The plans of the buildings have been deferred until the site is determined upon.

H. K. CRAIG,
Colonel of Ordnance.

QUARTERMASTER GENERAL'S OFFICE,
Washington City, October 31, 1853.

SIR: I have the honor to submit, in obedience to your instructions, the estimates due from this office for the fiscal year commencing the 1st of July, 1854, and terminating the 30th June, 1855.

Paper marked A is the estimate for the Quartermaster's department proper, in all its various branches, the accounts for the expenditures of which are settled in the office of the Third Auditor of the Treasury.

The items for fuel, forage, straw, and stationery, which constitute what are known in the service as the "regular supplies" of the department, are one hundred thousand dollars less, by the reduction of the item for forage, than the estimate and appropriation for the present year. In the present state of the country it would be attended with some hazard to attempt a further reduction.

The item for incidental expenses is the same in amount as the appropriation for the present year. The expenditures under this head are entirely contingent in their nature, and are controlled by the circumstances of the service more than by the department, or by the officers in command.

The item for mounting dragoons, light artillery, and riflemen, is thirty thousand dollars below the appropriation for the present year. The sum estimated is believed to be sufficient, unless there should be a greater loss of horses than usual; but it would not be safe to ask for less.

The item for the mileage of officers is the same as the appropriation for this year; it will probably all be required.

For the transportation of the army, including that of clothing, subsistence, medical supplies, ordnance, and troops, I have estimated, it will be seen, for three hundred thousand dollars less than the appropriation for those objects in the present year. To make it sufficient, the greatest economy and efficiency will be required.

For barracks and quarters the estimate is, for rents one hundred and twenty thousand dollars, and for constructing, repairing, altering, and enlarging barracks, quarters, and other buildings, five hundred thousand dollars. If the Engineer department construct the works, including the barracks for the troops, on the line of the Rio Grande above Fort Brown and below the Great Bend, this sum will probably be sufficient.

Paper marked B is an estimate in detail of the clothing and equipage required for the army in the next fiscal year, amounting to \$825,184 45, which, with the estimate for the contingencies of the clothing arsenal at Philadelphia of \$30,543 25, makes the whole amount \$855,727 70 From which may be deducted stock on hand which

may be made available during the year, amounting to	300,000 00
---	------------

Leaving to be appropriated.....	<u>555,727 70</u>
---------------------------------	-------------------

Paper marked C is an estimate for army contingencies of \$6,000. To this appropriation are charged the expenses of suits against the public, and other small expenditures which do not properly come under any of the general heads of appropriation.

The accounts arising under this appropriation, as well as those for clothing and equipage, are settled by the Second Auditor of the Treasury.

Paper marked D is the estimate for the salaries of the clerks and messengers in this office and the office of purchase at Philadelphia, with the contingencies of both offices, amounting to \$19,790, the accounts for which are settled by the First Auditor of the Treasury.

The following is a recapitulation of the several estimates above referred to, viz :

1st. A, being the sums required for the regular supplies and expenses of the army, provided and paid through the Quartermaster's department, the accounts arising under which are settled by the Third Auditor, amounting to	\$3,340,000 00
2d. B, being for clothing and equipage for the army, also provided by the Quartermaster's department, the accounts for which are settled by the Second Auditor, amounting, after deducting stock on hand, to ..	555,727 70
3d. C, being the amount required for army contingencies, the accounts for which are settled by the Second Auditor, amounting to	6,000 00
4th. D, being the amount for salaries and contingencies of the offices here and in Philadelphia, the accounts for which are settled by the First Auditor, amounting to ..	19,790 00

Making the total amount required for the Quartermaster's department, for all objects confided to its administration	<u>3,921,517 70</u>

I have the honor to be, sir, your obedient servant,

TH. S. JESUP,

Quartermaster General.

HON. JEFFERSON DAVIS,

Secretary of War, Washington city.

A.

Estimate of funds required for the service of the Quartermaster's department of the army of the United States, for the fiscal year commencing on the 1st day of July, 1854, and ending on the 30th day of June, 1855, made in accordance with the following acts, and the regulations of the War Department, made in conformity with those acts, viz :

The act to regulate the pay of the army, when employed on fatigue duty, approved March 2, 1819. Laws of the United States, vol. 6, page 378.

The act to reduce and fix the military peace establishment of the United States, approved March 22, 1821. Laws of the United States, vol. 6, page 553.

The 3d section of an act to establish a Quartermaster's department, approved the 28th of March, 1812. Laws of the United States, vol. 4, page 396.

The 3d section of an act to amend the above, approved the 22d of May, 1812. Laws of the United States, vol. 4, page 437.

The 5th section of an act of the 3d March, 1813, the better to provide for the supplies of the army, &c. Laws of the United States, vol. 4, page 520.

The 9th section of an act organizing the general staff, &c., approved 24th of April, 1816. Laws of the United States, vol. 6, page 91.

The 10th section of an act to increase the present military establishment, approved July 5, 1838. Laws of the United States, vol. 9, page 824.

The act for the organization of a company of sappers, miners, and pontoniers, approved May 15, 1846. Pamphlet laws, 1st session 29th Congress, page 19.

The act for raising a regiment of mounted riflemen, approved May 19, 1846. Pamphlet laws, 1st session 29th Congress, page 20.

The 6th, 8th, and 11th sections of an act supplemental to the act providing for the prosecution of the war with Mexico, approved June 18, 1846. Pamphlet laws, 1st session 29th Congress, page 24.

The act making additions in the Pay department of the army, approved June 17, 1846. Pamphlet laws, 1st session 29th Congress, page 27.

The 3d, 4th, 8th, and 10th sections of the act to raise, for a limited time, an additional military force, and for other purposes, approved February 11, 1847. Pamphlet laws, 2d session 29th Congress, page 12.

The 2d, 12th, 16th, 17th, and 18th sections of the act making provision for an additional number of general officers, and for other purposes, approved March 2, 1847. Pamphlet laws, 29th Congress, 2d session, page 109.

The 1st and 2d sections of an act to increase the rank and file of the army, and to encourage enlistments, approved June 17, 1850.

The act to increase the commissariat of the United States army, approved September 26, 1850.

And the regulations of the War Department made in obedience to those acts.

1.—*Regular supplies.*

For the regular supplies of the Quartermaster's department, consisting of fuel, forage in kind for the horses, mules, and oxen of the quartermaster's department at the several military posts and stations, and with the armies in the field; for the horses of the first and second regiments of dragoons, the companies of light artillery, the regiment of mounted riflemen, and such companies of infantry as may be mounted; and also for the authorized number of officers'

horses when serving in the field and at the outposts; of straw for soldiers' bedding; and of stationery, including company and other blank-books for the army, certificates for discharged soldiers, blank forms for the Pay and Quartermaster's departments, and for the printing of division and department orders, army regulations, and reports.

Fuel.....	\$120,000 00	
Forage.....	800,000 00	
Straw	10,000 00	
Stationery.....	20,000 00	
	<hr/>	\$950,000 00

Remarks.

In regard to fuel, it is ascertained that the cost, calculated at the prices paid at the several posts throughout our territories, would be over \$153,000. My estimate for the next year is thirty-three thousand dollars less than the estimated cost if the full allowance were purchased at every post, but at some of the outposts it is provided by the troops; this will warrant a small reduction, and I have reduced the estimate to the sum actually appropriated for the present year. With economy it may be sufficient, but without a favorable change in regard to prices, it will not be more than sufficient.

The item for forage I have reduced one hundred thousand dollars below the appropriation for the present year. By the last reports there were seven thousand five hundred and seventy-eight animals being foraged at the several posts scattered over our extensive territories. The calculation has been made of the cost of forage for animals at every post in the Union; and if full forage were allowed to all, the aggregate cost for the animals on the last reports which have reached the office, at the prices of forage at those posts at the dates of those reports, would amount to one million one hundred and fifty-two thousand four hundred and fifty-five dollars. The reduction which I have made of this item, it is manifest, is as much as can be safely made.

For straw and stationery the estimates are the same as for the present year; both are small items, and neither will bear reduction.

Amount carried forward	<hr/>	950,000 00

Amount brought forward \$950,000 00

2.—*Incidental expenses.*

For the incidental expenses of the Quartermaster's department, consisting of postage on letters and packets received and sent by officers of the army on public service; expenses of courts-martial and courts of inquiry, including the additional compensation to judge advocates, recorders, members and witnesses, while on that service, under the act of March 16, 1802; extra pay to soldiers employed under the direction of the Quartermaster's department, in the erection of barracks, quarters, storehouses and hospitals; in the construction of roads, and on other constant labor, for periods of not less than ten days, under the act of 2d of March, 1819, including those employed as clerks at division and department headquarters; expenses of expresses to and from the frontier posts and armies in the field; of escorts to paymasters, other disbursing officers and trains where military escorts cannot be furnished; expense of the interment of non-commissioned officers and soldiers; authorized office furniture; hire of laborers in the Quartermaster's department, including hire of interpreters, spies and guides for the army; compensation of clerks to officers of the Quartermaster's department; compensation of forage and wagon masters, authorized by the act of July, 1838; for the apprehension of deserters and the expenses incident to their pursuit; the various expenditures required for the first and second regiments of dragoons, the companies of light artillery, the regiment of mounted riflemen, and such companies of infantry as may be mounted, viz: the purchase of travelling forges, blacksmiths' and shoeing tools, horse and mule shoes, iron and steel for shoeing, hire of veterinary surgeons, purchase of medicines for horses and mules, shoeing horses of mounted corps, and repairing dragoon and rifle equipments..

300,000 00

Remarks.

The item for incidental expenses is the same as last year. This item comprehends a variety of expenditures, all more or less contingent in their character, depending upon the nature of the service. They may not amount, in the aggregate, to the sum estimated, but the chance is equal that they will exceed it.

Amount carried forward..... 1,250,000 00

Amount brought forward..... \$1,250,000 00

3.—*For mounts and re-mounts.*

For the purchase of horses required for the first and second regiments of dragoons, the companies of light artillery, the regiment of mounted riflemen..... 150,000 00

Remarks in regard to mounts and re-mounts.—The service of the mounted troops on the frontiers is so severe that from a fourth to a third of the whole number of horses must be renewed every year. It is estimated that at least a thousand will have to be purchased annually, to replace horses that may die, or be rendered unfit for service. It would not, therefore, be safe to reduce the amount which I have estimated.

4.—*For mileage to officers of the army.*

For mileage, or allowance, made to officers for the transportation of themselves and baggage, when travelling on duty without troops 120,000 00

Remark.

This is the same as the appropriation for the present year; it will not bear reduction.

5.—*For transportation of troops and supplies.*

For transportation of the army, including the baggage of the troops, when moving either by land or water; of clothing, camp and garrison equipage, and horse equipments, from the depôt at Philadelphia to the several posts and army depôts; of subsistence from the places of purchase, and from the places of delivery under contract, to such places as the circumstances of the service may require it to be sent; of ordnance, ordnance stores and small-arms, from the foundries and armories to the arsenals, fortifications, frontier posts, and army depôts; freights, tolls, and ferriages; for the purchase and hire of horses, mules, and oxen, and the purchase and repair of wagons, carts, drays, ships, and other sea-going vessels and boats, for the transportation of supplies, and for garrison purposes; for drayage and cartage at the several posts; hire of teamsters; transportation of funds for the pay and other disbursing departments; the expense of sailing public transports on the various rivers, the Gulf of Mexico, and the Atlantic and Pacific; and for procuring water at such posts as, from their situation, require that it be brought from a distance

1,200,000 00

Amount carried forward..... 2,720,000 00

Amount brought forward..... \$2,720,000 00

Remark in regard to the transportation of troops and supplies.—This item is three hundred thousand dollars less than the appropriation for the present year. The amount estimated, with good administration on the part of generals and other officers in command, and energy, care, and economy, on the part of the officers of the Quartermaster's department, will, it is believed, be sufficient, unless extraordinary and unforeseen movements become necessary during the year.

6.—*Barracks and quarters.*

1. *Rents*—including hire or commutation of quarters for officers, hire of quarters for troops, of storehouses for the safe-keeping of military stores, and of grounds for summer cantonments, for encampments and temporary frontier stations..... \$120,000 00

2. *Construction, alteration and repairs.*—

TH. S. JESUP,
Quartermaster General.

QUARTERMASTER GENERAL'S OFFICE,
Washington City, October 31, 1853.

Estimate of the expenses of the Medical and Hospital department of the army for the fiscal year commencing the 1st of July, 1854, and ending 30th June, 1855, per act of March 2, 1799, (Laws of the United States, Little & Brown's edition, volume 1, page 721.)

For medicines, instruments, dressings, &c.....	\$12,000
For hospital stores, bedding, &c.....	10,240
For furniture for hospitals and equipments for the field.....	4,000
For medical books, stationery, and printing.....	2,000
For private physicians, and medicine furnished by them....	20,000
For hire of clerks, laborers, &c., in purveying departments..	3,000
	<hr/>
	\$51,240
	<hr/>

In obedience to the requirements of the joint resolution of Congress, approved February 7, 1846, I have to state that the estimates for the medical and hospital department of the army, for some years past, have been made upon the basis of five dollars per man per annum. Experience having demonstrated that this estimate approximates very closely to the actual expenditures of the department, it is adhered to in the present instance.

The minimum fixed organization of the army being 10,248 officers and men, the sum required, at \$5 per man per year, is \$51,240, which has been subdivided above into the usual items of expenditure.

TH. LAWSON, *Surgeon General*

SURGEON GENERAL'S OFFICE,
October 21, 1853.

Estimate of the expenses of the Surgeon General's office for the fiscal year commencing 1st of July, 1854, and ending on the 30th June, 1855.

For salary of one clerk, per appropriation act of March 3, 1853, pamphlet laws, page 209, sec. 3.....	\$1,800
For salary of one clerk, per appropriation act of March 3, 1853, pamphlet laws, page 209, sec. 3.....	1,200
For salary of one clerk, per appropriation act of March 3, 1853, pamphlet laws, page 209, sec. 3.....	900
For salary of messenger, per act of Congress approved March 3, 1847, Laws United States, volume 9, page 158.....	500
	<hr/>
	<u>\$4,400</u>

Contingencies, per act of Congress approved 26th of August, 1842, (Laws United States, vol. 5, page 529, sec. 22, No. 14.)

For blank-books, binding, and stationery.....	\$200
For miscellaneous items.....	225
	<hr/>
	<u>\$425</u>

N. B.—It will be observed that the estimate for “miscellaneous items,” “contingencies of the Surgeon General's office,” for the ensuing fiscal year exceeds that for the present year by seventy-five dollars. This additional sum is required for the purchase of a carpet and chairs for the Surgeon General's office, those in use being now very old and nearly worn out.

Total estimate for fiscal year 1854-'55.....	6,115 00
Appropriated for fiscal year 1853-'54.....\$5,275 00	

NOTE.—The difference between the estimates for 1854-'55 and the amount appropriated for 1853-'54, is caused by an increased estimate for "fuel and lights" and "miscellaneous items," the dilapidated condition of the building requiring an increased expenditure every year to keep it warm and in proper repair. The appropriations for the present fiscal year are inadequate to meet the absolutely necessary expenses under these heads.

For transportation of the mails from New York to Liverpool and back, per acts of March 3, 1847, section 2, Statutes at Large, volume 9, page 187, and of July 21, 1852, section 1, pamphlet ed. Laws, page 21....	\$858,000

Estimates for the "American Ephemeris and Nautical Almanac" for the fiscal year 1854-55.

For salaries of computers.....	\$16,250
For purchase of paper, printing, &c., in order to publish in the year 1855 the American Ephemeris for the year 1858, and for occasional printing, stationery, books, binding, &c.	3,630
For clerk.....	500
For contingent, including rent of offices, fuel, servants' hire, &c.	500
Total.....	20,880

The above estimate for the Nautical Almanac exceeds the estimate of last year by the sum of \$1,480, for the following reasons:

The cost of printing and stereotyping the first volume, which is the volume for 1855, actually exceeded the estimated cost in the estimates of last year by the following items, viz:

For printing, stereotyping, and press-work.....	\$700
For paper.....	650
For binding.....	80
To which add, for a slight increase of salaries.....	50
	\$1,480

But, in accordance with the views expressed in my report, I have the honor to submit a further estimate for printing extra editions of the Almanac when the demand in the market exceeds the supply, and for theoretical work, as follows:

For extra editions of the American Ephemeris.....	\$800
For theoretical work, and for printing new planetary tables.....	1,000
	<hr/>
Total.....	<u>\$1,800</u>

This additional estimate, added to the regular current work of the office, makes a sum total of \$22,680.

BUREAU OF ORDNANCE AND HYDROGRAPHY,
September 12, 1853.

SIR: I have the honor to forward, herewith, estimates of the amounts which it is supposed will be required for the fiscal year ending June 30, 1855, for ordnance and ordnance stores, for the Naval Academy, and for the Naval Observatory, and for different objects connected with them.

The letters from the superintendents of the Naval Academy and of the Naval Observatory, and the special explanations which are given in connection with the several detailed estimates, show the causes of

difference between the amounts proposed and those which were appropriated for similar objects for the present year.

The amounts asked for "ordnance and ordnance stores" are calculated for the usual current expenses, and for providing an armament for the "Franklin," recently ordered to be prepared for the use of sails and an auxiliary steam-power. Should any new vessels of war be authorized, additional amounts will probably be required to complete their armaments and ordnance equipments.

By reference to document E for the present and past years, the amount of labor at the different navy yards, and its increased cost for the past year, will account for the increased amount which is proposed in the present estimates under the item of labor.

The machine-shop at the Naval Academy, for which a special estimate is presented, is wanted for the instructor in the use of steam-power, to enable him to give to the students a practical knowledge in fitting up and repairing steam-engines, and of the connections and uses of their different parts.

If the department should adopt the recommendation of the last Board of Examiners at the Naval Academy, and substitute for the present school-ship a vessel with auxiliary steam-power, the additional instruction which could be afforded by the steam arrangements of that vessel, and by the proposed machine-shop, would probably qualify the graduates from the academy to determine upon and direct repairs in case of need when at sea, and to exercise a judicious supervision over the management of the engines and their dependencies, in case of the absence or disability of the regular engineers.

The gateway and guard-house are desired for reasons assigned by the superintendent of the Academy.

The reasons given by the superintendent of the Naval Observatory for the proposed addition to the present observatory building, and for a new fence in front of it, for which "special estimates" are presented, are deemed satisfactory by the Bureau.

Among other objects under the immediate direction of this Bureau which have received attention during the past fiscal year, the preparation of boat and field guns, of cannon-locks, sights, and primers, of fuzes for shells, percussion caps, and fixed ammunition for small-arms, and the experiments for ascertaining the relative ranges, accuracy, and other properties of different classes of guns, have been continued at the navy yard, Washington, under the immediate direction of Lieutenant Dahlgren.

The experiments to test the endurance and strength of the different classes of guns, gun-carriages, and other ordnance implements used in the navy, have also been continued under the superintendence of Commander Farragut, and are nearly completed. Although a full report has not yet been received from him, enough has been done to show that the endurance and strength of the guns and the carriages may be considered highly satisfactory. None of the guns that have been tried have failed to bear four hundred rounds with distant firing charges of powder and one projectile, and one hundred rounds with the prescribed charges of powder and two projectiles. After this proof, their strength was tested by firing them with increased charges of

powder and a greater number or weight of projectiles. All of them have exhibited satisfactory powers of resistance, and some have shown a strength which has seldom been equalled.

The great importance of some provision for giving more careful instruction to officers and others in practical gunnery, than can be conveniently given in cruising vessels for general service, has frequently been brought to the notice of the department. The proposed substitution of a larger vessel for the present practice-ship now assigned to the Naval Academy, would furnish the means for giving this instruction about six months in the year, without injurious interference with use of the vessel for the students of the Academy, and at a comparatively small additional expense.

The reports from the board which attended the examination of the students at the Naval Academy in June last, show that the course of study and the state of discipline which are established there have produced very satisfactory results, and warrant the expectation of increasing future usefulness.

At the Naval Observatory the ordinary duties have been duly performed. A fifth edition of Sailing Directions has been published, and many of them issued by the superintendent; and wind and current charts for new portions of the ocean have been prepared for the use of navigators. More than 2,500 copies of Sailing Directions, and upwards of 30,000 copies, or about 3,300 sets, of wind and current charts, have been distributed during the last fiscal year. The requests for both, from masters of vessels, are rapidly increasing in number.

Lieutenant Gilliss is still engaged in preparing a full report, in relation to the observations and collections made by him and by his direction, when he was employed in Chili, under orders from the Navy Department.

Very respectfully, your obedient servant,

C. MORRIS,
Chief of the Bureau.

Hon. J. C. DOBBIN,
Secretary of the Navy, Washington.

NATIONAL OBSERVATORY,
Washington, July 12, 1853.

SIR: I have the honor to submit herewith estimates for the support of this office, for the year ending June 30, 1855.

You will observe that the estimates for the support of the office, exclusive of the cost of the additional buildings proposed, exceed the estimates for the year current. This excess arises chiefly in the estimates for publishing wind and current charts, hydrographical surveys, &c.

It is supposed that the expedition to the La Plata, and the expedition for the survey of the North Pacific and China seas, will send home their surveys for publication as fast as they are made; and that the increase in this item will not more than satisfy the demands from that source upon it.

The increasing numbers of, and demands for, the wind and current charts, call for the increase in this item.

I send, herewith, plans and detailed estimates for the extension of the west wing, the erection of a fire-proof building, &c.

This building is intended to correspond, in its exterior, to the superintendent's dwelling, and is wanted for the accommodation of the business of the office, as well as for the protection against liabilities to fire of the records of the office, and of the nautical instruments on deposit here for the navy; both of which are valuable, and either of which it would be difficult to replace or restore, if lost by fire.

The estimate for an iron fence along the north front of the grounds is submitted at this time, because the enclosure on that side—a picket fence of wood, on a brick wall one and a half feet high—requires extensive repairs. The wall is tumbling down, and the fence requires painting, besides the continual necessity of keeping it in repair. I have, therefore, judged it more economical, instead of asking for an appropriation to put this part of the enclosure in repair, to ask for an appropriation for an iron fence.

A fence of cast-iron would be cheaper, but a cast-iron fence would, I am sure, be subject to continual repair, on account of the wantonness of the same class of persons from whose depredations I have found it impossible to protect the picket fence.

I have therefore submitted estimates for a wrought-iron fence, like that by which Lafayette square is enclosed.

Respectfully, &c.,

M. F. MAURY,
Lieutenant United States Navy

Com. C. MORRIS,
Chief of Bureau of Ordnance and Hydrography.

BUREAU OF ORDNANCE AND HYDROGRAPHY,
September 12, 1853.

U. S. NAVAL ACADEMY,
Annapolis, Md., July 30, 1853.

SIR: In compliance with your instructions of the 18th of May, I submit estimates for the Naval Academy for the fiscal year ending June 30, 1855.

The estimate for a work-shop and complete set of tools for repairing engines, is founded upon the approval by the Board of Examiners, of my suggestion to them, of the importance of such a shop, with the necessary tools, to enable the instructors to teach the students, more thoroughly than could otherwise be done, the use, construction, and management of the steam-engine.

The guard-house, to be used as a place of confinement, I deem

necessary as a means of discipline. Cases frequently arise where no other lawful mode of punishment would be effectual.

The estimate for completing the gas-works, &c., is occasioned by the increased price of iron, wages, and materials, since the original estimate was made.

The estimate for a telescope is submitted upon the recommendation of Professor Chauvenet. Such an instrument will be necessary, if we desire the higher classes to be instructed in astronomy: without it they cannot be taught fully how to use such instruments.

I have included in the estimate for wages, one for an assistant librarian. This I consider necessary, as there is no member of the academic staff who can devote sufficient time to it, without neglecting other duties.

I have also submitted estimates for attendants for the gas and heating apparatus. Their services will be required when those works are in operation. There is no person estimated for whose services can, in my judgment, be dispensed with.

"Pay of the Navy." These estimates embrace some persons in addition to those estimated for the present fiscal year, and an increase of compensation for others: all authorized by the Secretary of the Navy.

These additions are, a professor and musicians, and the increase of pay to naval assistant professors.

The increase of pay to the executive officer and commander of the "school ship," is occasioned by his promotion.

I have the honor to be, very respectfully, your obedient servant,
C. K. STRIBLING, *Superintendent.*

Com. C. MORRIS,
Chief of the Bureau of Ordnance, &c., Washington.

Offers opened July 14, 1852, in presence of

J P. McCORKLE,
E. M. TIDBALL.

The proposals enumerated in this abstract are all that were received under the advertisement dated June 4, 1852; they were opened in our presence, and duly numbered, and the terms of each entered upon this abstract on the 14th July, 1852.

The offer of S. G. Bogert, numbered 1, being the lowest for the white oak timber to be delivered at Charlestown, Mass., is accepted.

The offer of S. G. Bogert, numbered 7, being the lowest for the white oak timber to be delivered at the navy yard, Brooklyn, New York, and equal with the offer of John Petty, numbered 6, for the handspikes, and this having fallen to S. G. Bogert by lot, the offer of S. G. Bogert is accepted for the white oak timber and for the handspikes for that yard.

The offers of John Petty, numbered 13, being the lowest for both the white oak timber and the handspikes to be delivered at the navy yard, Gosport, Va., they are severally accepted for that yard; and his offer, No. 4, for handspikes to be delivered at the navy yard, Charlestown, Mass., being the lowest offer for that yard, is also accepted.

The offer of Wm. Lang, No. 5, is considered informal.

HEADQUARTERS OF THE U. S. MARINE CORPS,
Washington, October 7th, 1853.

SIR: I enclose estimates from the office of the paymaster of the corps for the year ending 30th June, 1853.

I remain, most respectfully, yours,

ARCH. HENDERSON,

Brevet Brigadier General Commandant.

HON. J. C. DOBBIN, *Secretary of the Navy.*

HEADQUARTERS MARINE CORPS,
Paymaster's Office, October 7, 1853.

SIR: I have the honor to enclose estimates in triplicate for pay and subsistence, and pay for undrawn clothing for the United States marine corps, for the year ending 30th June, 1852.

The estimate for the pay of captains, first lieutenants commanding, and second lieutenants, is thirty-five hundred and thirty-six dollars less than that of the preceding year, on account of deaths, &c, in those grades, and the consequent reduction of them to the original number. The estimate for longevity rations, and rations and clothing for officers' servants, is also reduced fourteen hundred and thirty dollars, from the same cause.

There is an increase of eighteen thousand five hundred and fifty-two dollars on account of pay of non-commissioned officers and privates—the President having ordered the enlistment of two hundred additional men, agreeably to the provision of the 1st section of the act making appropriations for the naval service, approved March 3, 1849, authorizing him to substitute marines for landsmen, as far as he may deem it expedient to promote the efficiency of the service.

In the estimate for pay of clerks to brigadier general and staff, I have included the twenty per cent., (which was a separate item in my last estimate,) and also a small increase to the pay of the two clerks in this office, authorized by the honorable Secretary of the Navy, August 8, 1853—the actual increase being only two hundred and thirty-seven $\frac{50}{100}$ dollars.

The late Secretary, in November last, authorized an increase to the pay of hospital steward and nurse at hospital; the estimate for them is therefore three hundred and fifty-one dollars more than the last.

The other items are the same as for the year ending June 30, 1854.

Increase in pay of non-commissioned officers and privates.....	\$18,552 00	
Increase in pay of clerks, hospital steward, and nurse	578 50	
		<u>\$19,130 50</u>
Increase in pay of captains, first lieutenants commanding, and second lieutenants.....	3,536 00	
Increase in pay of officers' servants and longevity rations	1,430 00	
		<u>4,966 00</u>
Actual increase.....		<u><u>14,164 50</u></u>

I am, sir, very respectfully, your obedient servant,

WM. W. RUSSELL,
Paymaster U. S. Marine Corps.

Gen. A. HENDERSON,
Commandant Marine Corps, headquarters.
