Treasury Department,
Register's Office, Nuvember 23, 1867.

## AGRICULTURAL DEPARTMENT.

## Department of Agriculture, Washington, D. C., November 21, 1867.

SIR : I have the honor to enclose herewith a schenule of sundry unpaid bills, claims for seed and other materials, contracted for and used by this department during the administration of the late Commissioner, honorable Isaac Newton, during the last fiscal year, amounting to $\$ 35,39233$, beyond the appropriations to the department for that period, the payment of which should be provided for by Congress, and I respectfully request that you will submit in the estimates of your department an item sufficient to cover this deficiency.

In addition to the above, it appears from a report of the Comptroller of the Treasury, honorable R. W. Tayler, to this department, dated the 7th of November, 1867 , in the settlement of Mr. Newton's accounts, that drafts were made by him upon certain items of appropriations, and paid out upon others, in amounts beyond the appropriations to those objects, and in order to a proper adjustment of those balances upon the books of your department an appropriation to the amount of $\$ 8,60642$ should also be made for that purpose.
For experimental garden on reservation No. 2................... \$7, 88134
Purchase of library and laboratory . . . . . . . . . . . . . . . . . . . . . . . . . 64418
Rent of suitable rooms for accommodation of the office........... 8090
I have the honor to be, very respectfully, your obedient servant, J. W. STOKES,

Acting Commissioner.
Hon. Hugh McCulloch, Secretary of the Treasury, Washington, D. C.

Unpaid bills due by Department of Agriculture:-Continued.

## WAR DEPARTMENT.

## War Department, Washington City, November 21, 1867.

Sir : I have the honor to transmit herewith for your information a copy of a letter from the Paymaster General, stating that the deficiency in the appropriations for the execution of the "reconstruction" laws amounts to $\$ 1,152,25412$, for which an early appropriation is necessary.

Very respectfully, your obedient servant,

Hon. Hugh McCulloch, Secretary of the Treasury.
U. S. GRANT,

Secretary of War ad interim.

## War Defartment, Paymaster General's Office, <br> Washington, November 20, 1867.

General: In my annual report, dated 20th October last, I had the honor to state the amount of appropriations made by Congress ( $\$ 1,500,000$ ) for the execution of the "reconstruction" laws, the distribution thereof, \&c., and to add in conclusion :
"The unsatisfied estimates received from several of the districts show a deficiency in the amount appropriated to meet the actual expense incurred. I shall at the proper time, and when the needed additional amount required shall be ascertained, submit to you a special communication on this subject."

From statements and estimates since received from the several district paymasters, approved by the district commanders, I am now able to make the following statement of deficiencies, amounting to $\$ 1,152,254 \quad 12$, for which an early appropriation should be asked of Congress :
First district required.......................................... Nothing.
Second district required $\$ 199,68925$
Third district required. 47, 16299
Fourth district required
383, 82200
Fifth district required 521, 57988
$1,152,25412$

I have the honor to be, very respectfully, your obedient servant, B. W. BRICE, Paymaster General.
General U. S. Grant,
Secretary of War ad interim.

War Department, Washington City, November 7, 1867.

SIR : I have the honor to submit to you an estimate of additional appropriations required for the service of the War Department for the present fiscal year ending 30th June, 1868.

This estimate is necessitated by a deficiency arising in consequence of no appropriations having been asked for or made on account of the quartermasters' department for the fiscal year ending 30th June, 1868, and in consequence of large expenditures growing out of the Indian disturbances on the western and northwestern frontier.

Very respectfully, your obedient servant,
U. S. GRANT, Secretary of War ad interim.

Hon. Hugh McCulloch, Secretary of the Treasury.

Estimate of additional appropriations required for the service of the War Department for the present fiscal year ending June 30, 1868.
qUartermasters' Department.

Remarks.-This deficiency arises in consequence of no appropriation having been asked for or made on account of the quartermasters' department for the present fiscal year ending June 30,1868 , and from the large expenditures growing out of the Indian disturbances on the western and northwestern frontier.
U. S. GRANT, Secretary of War ad interim.
War Department, November 7, 1867.

> Quartermaster General's Office, Washington, D. C., September 4, 1867.

Sir : I have the honor to submit herewith an estimate of the deficiency in the appropriation for the service of the quartermasters' department for the fiscal year ending June 30,1868. This deficiency is a consequence of no appropriation having been asked for or made on account of the quartermasters" department for that fiscal year, and of the large expenditure growing out of the Indian disturbances on the western and northwestern frontiers.

I am, sir, with great respect, your obedient servant,
D. H. RUCKER,

Brevet Major General U. S. A., Acting Quartermaster General. The Secretary of War.

> Estimate of funds required to supply' 'a deficiency in the appropriation for thequaitermasters' department for the fiscal year ending June 30, 1868.

Remarks.-This deficiency arises in consequence of no appropriation having been asked for or made on account of the quartermasters' department for the fiscal year ending June 30, 1868, and in consequence of the large expenditures growing out of the Indian disturbanees on the western and northwestern frontier.
D. H. RUCKER,

Brevet Mujor General U. S. Army, and Acting Quartermaster General.
Quartermaster Genfralis Office,
Washington, D. C., September 4, 1867.

## War Department, Washington City, November 7, 1867

Sir: I have the honor to submit to you an estimate of additional appropriations required for the contingencies of the office of the Chief of Engineers and government building, corner of F and Seventeenth streets, for the fiscal years ending 30th June, 1867, and 30th June, 1868.

Very respectfully, your obedient servant,
U. S. GRANT, Secretary of War ad interim.

Hon. Hugh McCulloch, Secretary of the Treasury.

Estimate of additional appropriations required for the contingencies of the office of the Chief of Engineers and government building corner of $F$ and Seventeenth streets, for the fiscal years ending June 30, 1867, and June 30, 1868.

## OFFICE OF THE CHIEF OF ENGINEERS.

To supply deficiency for the fiscal years ending June 30,1867 , and June 30,1868 , for contingent expenses in the office of the Chief of Engineers, under appropriation :
For blank books, stationery, binding, and miscellaneous items
BUILDING CORNER OF F AND SEVENTEENTH STREETS.
To supply deficiency for the fiscal years ending June 30, 1867, and June 30, 1868, including $\$ 3,920$ for three new steam boilers, under appropriation :
For fuel, compensation of firemen, and miscellaneous items
10,478

War Department, November 7, 1867.

## Headquarters Corps of Engineers, Washington, D. C., September 12, 1867.

General : I have the honor to submit herewith an estimate of amount required to be appropriated to supply deficiency in appropriations for years ending 30 th of June, 1867, and 30th of June, 1868, for contingent expenses of office of the Chief of Engineers, amounting to $\$ 2,251$.

Very respectfully, your obedient servant,
A. A. HUMPHREYS, Brigadier General of Engineers, Commanding.
General U. S. Grant, Secretary of War ad interim.

Estimate of amount required to supply deficiency in appropriations heretofore made for contingent expenses of the office of Chief of Engineers.

Designation of the appropriation.

$\$ 2,25100$

Headquarters Corps of Engineers,
Washington, September 12, 1867.
The foregoing deficiency has arisen from expenditures authorized by the late Chief of Engineers for painting, papering, whitewashing, and fitting up with file cases, desks, tables, and other furniture, additional rooms required for the increase of business, and from the increase in price of all articles necessary for office use.

Respectfully submitted,

General U. S. Grant. Secretary of War ad interim

# Headquarters Corps of Engineers, Washington, September $12,1867$. 

General: I have the honor to submit herewith an estimate of amount required to be appropriated to supply deficiency in appropriations heretofore made for the government building at the corner of $F$ and 17 th streets, amounting to $\$ 8,227$.

Very respectfully, your obedient servant,
JAMES EVELETH, Superintendent.

## General U. S. Grant, <br> Secretary of War ad interim.

Estimate of amount required to supply deficiency in appropriations heretofore made for government building at corner of $\boldsymbol{F}$ and Seventeenth streets.

Designation of the appropriation.

To supply deficiency in appropriations for the fiscal years ending on the 30th of June, 1867, and 30th of June, 1868, inclading $\$ 3,920$ for three new steam boilers

Washington, September 12, 1867.
Note.-The foregoing deficiency has arisen from the necessity of altering and removing a large portion of the plumber's work connected with the water-closets and warming and ventilating apparatus; from the unusual wear and tear of mattings and oil-cloths of halls, \&cc, during the last years of the rebellion and since; from the necessity of providing new steam boilers to replace the old ones, which have been in use for over ten years, and from the great increase of cost of all necessary supplies.
Respectfully submitted:
JAMES EVELETH, Superintendent.
General U. S. Grant, Secrelary of War ad interim.

No. 2.

## N. L. JEFFRIES, Register.

## Treasury Department Register's Office, November 23, 1867.

## GENERAL ESTIMATES.

## No. 3.

Treasury Department, December $2,1867$.
Sir : Agreeably to a joint resolution of Congress, of January 7, 1846, I have the honor to transmit for the information of the House of Representatives, printed statements of the estimates furnished by the respective heads of departments of the appropriatious required for the service of the fiscal year ending June 30, 1869, as follows, viz:
For civil service, including the expenses
of foreign intercourse, courts, loans, pub-
fic domain, and all other expenditures,
except for pensions, Indian, and the War
and Navy Departments
\$37, 860, 40003
For pensions 30, 330, 00000
For Indian department.
For army proper.
3,240,152 86
For Military Ácademy
51, 039, 13420
For firtifications, armories, \&c ......... 335, 01200
3,778, 08400
For harbor and river improvements, pul-
lic buildings, \&c
8, 283, 76988
For naval establishment................ 47, 317, 18395

To the estimates are added statements, showing-

1. The appropriations estimated for the service of the fiscal year ending June 30, 1869, made by former acts of Congress, of a specific and indefinite character, as follows, viz :
For miscellaneous objects, including expenses of collecting the revenue from customs

$$
\$ 9,059 \quad 000 \quad 00
$$

For compensation to the Post Office Department for mail services.

$$
700,00000
$$

For civilization of Indians
10, 00000
For arming and equipping the militia....
For bounties, per acts of July 26 and 28, 1866

200, 00000

For interest on the public debt........ 129, 678, 07850
$\$ 165,147,07850$
2. The estimated balances of existing appropriations which
will be unexpended on June 30,1868 , part of which are required for the payment of the liabilities of the present fiscal year, but which will not be drawu from the treasury until after $J$ une 30, 1868, as follows, viz:
For the civil service, 8cc. \$7, 502, 20220
For pensions and In-
dians................ 14, 413, 40061
For War Department.. 106, 400, 57800
For Navy Department. 16, 462, 29144
$\$ 144,778,47225$
It is estimated that of this sum there will not be required for the service of the fiscal year ending June 30, 1869 120, 109, 28767

$$
24,669,18458
$$

Total estimated expenditures for year ending June 30, 1869
$372,000,00000$
It appears by the statement of the estimated balances of existing appropriations which will be unezpended on June 30,1868 , that the sum of $\$ 1,870,15585$ may be carried to the surplus fund.

Aecompanying the estimates are sundry explanatory letters and statements furnished by the several departments, showing the detail.

I also transmit herewith estimates furnished by the Postmaster General of the money required for the service of the Post Office Department for the fiscal year ending June 30, 1869, payable out of the revenues of that department, agreeably to 4 th section of the act of May 18,$1866 ; 14$ Laws, page 49.

Very respectfully, your obedient servant,

> H. McCULLOCH,
> Secretary of the Treasury.

Hon. Schuyler Colpax, Speaker of the House of Representatives, \&c.

## POST OFFICE DEPARTMENT.

## Post Office Department, November 11, 1867.

SIR: The expenses of this department for the fiscal year ending June 30 , 1869, including the overland mail service, for which a special appropriation is requested, are estimated at.......................................... $\$ 22,100,000$ The receipts are estimated at. . ................... $\$ 16,000,000$
To which add the standing appropriation for conveying free mail matter, under acts of March
3, 1847 , and March 3, 1851
700, 000
And the special appropriation for overland mail transportation and marine service between New York and San Francisco

900,000
$17,600,000$
Making an excess of expenditures of. .............................. $4,500,000$
Relying upon the unexpended balances of appropriations, still remaining to the credit of the department, an appropriation of but $\$ 2,500,000$ will be needed to meet this deficiency.

In addition to this, the following special appropriations are requested for the year ending June 30, 1869 :
For overland mail transportation and marine service between New
York and San Francisco
$\$ 900,000$
For mail steamship service between San Francisco, Japan, and China 500, 000
For mail steamship service between the United States and Brazil... 150,000
For deficiency on account of mail steamship service between the
United States and Brazil, in fiscal year ended June 30, $1866 \ldots$.
12,500
I have the honor to be, sir, very respectfully, \&cc., \&c.,

> ALEX. W. RANDALL,
> Postmaster General.

## Hon. Hugh McCulloch, Sccretary of the Treasury, Washington.

## CONGRESSIONAL PRINTER.

> Office of the Congressional Printer, Washington, September $16,1867$.

SIR : In compliance with the provisions of the ninth section of the resolution of the 23d of June, 1860, I have the honor to transmit herewith estimates of appropriations required for the service of this office for the year ending on the 30th of June, 1869.

The estimate for salaries in this office is in excess of the estimate for the same purpose for the present fiscal year, but only a sufficient sum (\$1,344 44) to pay the increased salary of the Congressional Printer authorized by the act entitled "An act providing for the election of a Congressional Printer," approved on the 23d of February, 1867.
The estimate "for lithographing and engraving for the Senate and House of Representatives" is increased by the sum of $\$ 20,000$. This is rendered necessary by the, great increase in the number of engraved illustrations of machinery,
\&c., required for the Annual Patent Office Report. These alone, for the next fiscal year, will cost not less than $\$ 80,000$.The other estimates are not in excess of those for the present fiscal year, andthe aggregate estimates are considerably less.
Very respectfully, your obedient servant,

JOHN D. DEFREES, Congressional Printer.

Hon. S. B. Colby, Register of the Treasury.

Estimates of appropriations required by the Congressional Printer for the ser-- vice of the year ending on the 30th of June, 1869.-(See estimates in detail.)
For compensation of the Congressional Printer and the clerks and messenger in his office, (act of March 3, 1853, resolution of February 10, 1854, acts of March 3, 1855, of June 23, 1860, of April 26, 1866, and of February 22, 1867)
For contingent expenses of the office of the Congressional Printer ..... \$13,858 44
For the public printing ..... 2, 00000
For paper for the public printing. ..... 443,802 74
For lithographing and engraving for the Senate and House of Representatives For mapping in cases pending in the Supreme Court of the United States. ..... 351, 35591 ..... 95,00000

$$
3,00000

JNO. D. DEFREES, Congressional Printer.
Office of the Congressional Printer, Washington, September 16, 1867.

## DEPARTMENT OF AGRICULTURE.

Department of Agriculture,<br>Washington Cıty, D. C., November 1, 1867.

SIR: I have the honor to submit the following estimates of appropriations for this department for the fiscal year ending June 30, 1869:
For the collection and publication of agricultural statistics, investigations for promoting agriculture and rural economy, the procurement, propagation, and dissemination of new and valuable seeds and cuttings, for experiments in testing and propagating new and valuable plants, and for heating apparatus, gas fixtures, painting and furniture for new building, laying out and grading grounds around department, buildings, \&c., $\$ 287,285$.

For the authority to ask for this appropriation, I respectfully refer to the "Act to establish a Department of Agriculture," approved May 15, 1862,'to first section of said act, and to the first clause of the third and of the fourth sections, respectively, of said act.

## Salary of officers.

Agricultural statistics.For collecting agricultural statistics and information for reports.$\$ 20,00000$Contingencies.
For stationery, freight, and incidentals ..... $\$ 5,00000$
For purchase for library, laboratory, and additions to museum .... 5,000 00 For fuel, light, and miscellaneous expenses ..... 2, 00000
For purchase of new and valuable seeds, plants, cuttings, trees, shrubs, vines, \&c., and labor, bags, bagging, paper, gum, and twine in putting up seeds.
Propagating garden.
For labor and repairs in propagating garden. ..... 10,000 00
Experimental farm.
For laborers, horse feed, fertilizers, and farming implements on experimentalfarm
For boiler, pipes, and heating apparatus for new building15,00000
Gas fixtures.

All of which is respectfully submitted:
J. W. STOKES, Acting Commissioner.

## TREASURY DEPAR'TMENT.

## UNITED STATES MINT.

## Mint of the United States, Philadelphia, October 24, 1867.

Sir: I have this day forwarded to the Register of the Treasury the estimates of appropriations required for the support of the mint and its branches for the fiscal year ending June 30, 1869, and transmit herewith, for your information, a copy of the same.

The amount asked to be appropriated for the mint at Philadelphia is fifteen thousand dollars ( $\$ 15,000$ ) more than was appropriated for the current fiscal year. The increase occurs in the item of "incidental and contingent expenses, including new machinery and repairs." The small increase estimated for under this head will be required to keep the mint edifice, machinery, apparatus, \&c., in proper condition. The amount asked to be appropriated for the branch mints at San Francisco and Denver, and the assay office, New York, are based on the estimates received from those institutions, respectively, and do not call for any special remark.

The amount estimated for the branch mints at New Orleans and Charlotte will be necessary to place those institutions in condition for the operations which the department design having carried on at these points respectively, viz: assaying of gold and silver, and casting the same into unparted bars, and coinage of nickel copper at New Orleans, and the assaying of gold at the branch mint at Charlotte, North Carolina.

I have the honor to be, sir, your most obedient servant,
H. R. LINDERMAN, Director.
Hon. Hugh McCulloch,
Secretary of the Treasury.

Subdivision of estimates for appropriations for support of the United States branch mint at San Francisco, California, for the fiscal year ending June 30, 1869.

Respectfully submitted:
United States Branch Mint,
Superintendent's Office, San Francisco, Cal., August 21, 1867.

## SUMMARY.

Estimates of expenses of the United States branch mint, San Francisco, Cali-fornia, and the amount of appropriation required for the fiscal year end-ing June 30, 1869.
Salaries of officers and clerks ..... $\$ 30,50000$
General and treasurer's department, including wages of workmen, incidental and contingent expenses, \&c., same as last year ..... 39,450 00
Assayer's department. including wages and contingent expenses ..... 110,945 00
Coiner's department, inciuding wages and contingent expenses................
Melter and refiner's department, including wages and contingent expenses ..... 133, 00000
Total amount asked for ..... 361, 49500
Less probable profits for fiscal year ending June 30, 1868, as per treasurer's estimate, available for contingent expenses ..... 70,000 00
Amount of appropriation required ..... 291,495 00
Respectfully submitted:
ROBT. B. SWAIN, Superintendent.
United States Branch Mint,
Superintendent's Office, San Francisco, Cal., August 21, 1867.
Abstract of estimates for Uniled States branch mint, Denver, Colorado.
For salaries of officers and clerks. ..... $\$ 13,00000$
Wages of workmen, in addition to unexpended balance of appropriation made for the fiscal year ending June 30, 1869 ..... 14,86250
Incidental and contingent expenses in addition to unexpended balance of appro- priation made for the fiscal year ending June 30, 1869 ..... 1,945 18

I am, very respectfully, your obedient servant,
GEORGE M. LANE, Superintendent.
Hon. H. R. Linderman, Director United States Mint, Philadelphin.
The amount required for the support of the United States branch mint, Denver, Colorado, for the fiscal year ending June 30, 1869.
For salary of superintendent ..... \$2,000 00
For salary of three clerks ..... 5,600 00
For salary of coiner, acting as weigher ..... 1,800 00
For wages of two watchmen ..... 3,285 00
For wages of two messengers ..... 2,504 00
For wages of one leborer ..... 1,252 00
For fuel, lights, postage, stationery, lumber, repairs, \&c ..... 3,000 00
For salary of assayer, a; per his estimate ..... 1,800 00
For wages of two assistants and one laborer ..... 5,000 00
For charcoal, acids, lead, bone ash, glassware, stationery, and re- pairs. ..... 1,500 00
For salary of melter and refiner, as per his estimate ..... 1,800 00
For wages of three assistants ..... 5, 16450
For crucibles, fluxes, freight, charcoal, repairs, \&c. ..... 6,500 00
Unexpended balance of appropriation for the fiscal year ending June 30, 1868, are of incidental and contingent expenses ..... 9,054 82
Wages of workmen ..... 2,843 00

Total amount of appropriation required in addition to unexpended balance of appropriation made for the fiscal year ending Juue 30, 1869

## United Staths Assay Office,

New York, October 21, 1867.
Sir : I send berewith a schedule of the appiopriation, which will, in my judgment, be required to meet the expenses of this office for the fiscal year ending June 30, 1869.
I. The amount asked for salaries of officers and clerks is just sufficient to cover the existing salaries, and corresponds also to the amount appropriated for this purpose by the last Congress.
II. For wages of workmen at the rate now paid, we require at least per quarter $\$ 10,000$; I accordingly ask for $\$ 40,000$.
III. For incidental and contingent expenses, I estimate that we shall require at least $\$ 20,000$ per quarter, or for the year $\$ 80,000$.

From this may be deducted a probable surplus derived from deductions from deposits of at least $\$ 30,000$, leaving to be asked for $\$ 50,000$. We shall require, therefore, for salaries of officers and clerks, $\$ 25,700$; for wages of workmen, $\$ 40,000$. Incidental and contingent expenses, in addition to balance of former appropriations, $\$ 50,000$; total, $\$ 115,000$.

This is less by $\$ 20,000$ than the amount appropriated for the current fiscal year.

In submitting these estimates, I have made no provision for any increased compensation to the employés of this office. Unless the cust of living shall be peedily reduced, some increase of salaries and wages will be inevitable.

Very respectfully, your obedient servant,
GEORGE F. DUNNING.
Superintendent.

Dr. H. R. Linderman,<br>Director of the Mint, Philadelphia.

Appropriations required for the support of the United States assay office, New York, for the fiscal year ending June 30, 1869.

1. For salaries of officers and clerks:

| Superintendent | \$4,500 00 |
| :---: | :---: |
| Assayer. | 3,000 00 |
| Melter and refine | 3,000 00 |
| Deputy treasurer | 3,000 00 |
| Assistant assayer | 2,000 00 |
| Clerks, two, at \$2,500 each | 5,000 00 |
| Clerks, two. at \$1,800 each | 3, 60000 |
| Clerks, one, at \$1,600 | 1,600 00 |

$\$ 15,50000$
Clerks, two. at $\$ 1,800$ each
5, 60000
1,600 00
10,20000
Total.................................................................... 25,70000

3. For incidental and contingent expenses in addition to available
balances of former appropriation ................................................... 50,00000
Total amount needed ....................................................... 115,70000
GEORGE F. DUNNING, Superintendent.
United States Assay Office,
New York, October 21, 1867.

## COAST SURVEY.

## Coast Survey Office, <br> Washington, D. C., November 4, 1867.

Sır: I have the honor to submit estimates for expenditures in the survey of the coast of the United States during the fiscal year 1868-'69. The operations proposed are stated in a form which shows the very wide distribution of the means appropriated for the service. To subserve the interests of commerce and navigation, the present scale of the work must be retained. The estimates are, however, moderately increased, for reasons which will be given after a brief review of the operations of the year ending with the 1st of November.

In accordance with citstom, I here recite merely the localities in which progress has been made in the course of the past year, either in triangulation, topography, or hydrography, making special mention only of the less usual operations. These are, on the coast of Maine, the St. Croix river, Winter harbor, Penobscot bay, and Penobscot river, near Hampden; Medomak river, the navigable passages between the Sheepscot and Kennebec rivers; the last named river in the vicinity of Hallowell; the shores of Quohog bay, Portland harbor, and the approaches to Casco bay and Saco river; on the coast of New Hampshire, above Portsmouth ; on the coast of Massachusetts, the Merrimac river, Boston harbor; longitude determinations between Cambridge, Albany, and the Naval Observatory at Washington city; latitude determinations at Manomet and Nantucket; magnetic observations at these stations, and at Hartford, Connecticut; general progress at Duxbury harbor and near West Sandwich, and a special survey at Provincetown harbor; on the coast of Rhode Island, surveys in the vicinity of Providence and Fall river, and in the western part of Narragansett bay; in New York harbor, a special survey of the battery ; on the coast of New Jersey, general progress at Sandy Hook, near Long branch; near Shark river ; at Barnegat entrance, and at Little Egg harbor, in Delaware bay at two localities; in Chesapeagke bay, at the mouth of the Susquehanna, and at Patapsco entrance; in the Potomac river at two localities; on the coast of Virginia below Cape Henry; in North Carolina, on Neuse river; in Pamlico sound, and on the shores of Bogue sound; in South Carolina, on the islands and estuaries adjacent to St. Helena sound ; on the coast of Georgia, the water communication between Wassaw sound and Savannah river, and St. Catharine's sound, including its approaches ; on the coast of Florida, below St. Augustine, at the north end of Key Biscayne bay; across the channel, between Key West and Havana; in Charlotte harbor, in the vicinity of Cape St. Blas, and east and west of Perdido entrance; in the several passes of the Mississippi Delta, and on the coast of Texas ; at Galveston entrance; in West bay; on the shores of Corpus Christi bay, and on the shores of the Laguna Madre.

On the Pacific coast of the United States the operations of the survey have been in progress near Santa Barbara; at Point Sal, and at three localitics near San Francisco bay, in California; at Tillamook entrance in Oregon; and at Puget sound, in Washington Territory.

A party, fully equipped for reconnoissance surveys, is now engaged on the shores of Alaska Territory, and the results of their observations in regard to the maritime resources of the newly ceded territory may be expected in the course of the month of November.

In twelve of the localities recited, the work done, though directly available for the main ends of the survey of the coast, was undertaken at the request of the engineer department, the results, at the time, being specially needed in the operations of that branch of the public service.

Progress in the office in the several divisions of computing, drawing, engraving, and other adjunct branches of the service has kept up with the field-work.

The increase in the sums estimated for continuing work in the several sections
does not arise from any augmentation of the scale of the work. No new centre of operations is proposed, nor an increase in the number and outfit of the parties. It is proposed merely to keep the parties in the field during the entire working season, as had always been done by the former superintendent, and thus to preserve the economy which has marked the prévious direction of the Coast Survey. During the war, many of the parties were with the armies and squadrons. At that period, therefore, the effect of the increased cost of labor and supplies was but partially felt. Now, even with larger appropriations, it operates as an embarrassment in every quarter of the coast to which the parties may be assigned. It is well known that the energy of our people is constantly seeking for every point and all the channels along the coast susceptible of development. Thus has arisen the present scale of the work, in strict obedience to public demand. The number of parties has been adjusted with reference to steady progress from the several working centres, and the estimates are intended merely to conform to the circumstances now incident to the continuance of the various branches of the service. When work has been commenced in any quarter it cannot be abandoned without heavy loss until the topography and hydrography are completed. The withdrawal of a party from the field before its season's work is finished is an unfortunate sacrifice of means and a waste of outfit which should not be incurred. Hence, it is respectfully submitted, as the wise and economical policy, to increase the appropriation to that least amount which will enable the parties to keep the field as long as the season favors the progress of their operations. This is no more than has hitherto been asked and provided for, and is the least appropriation which will enable the survey to preserve its justly acquired reputation for the strictest economy in its administration.

## ESTIMATES IN DETAIL:

For general expenses of all the sections, namely : rent, fuel, materials for drawing, engraving, and printing, and for transportation of instruments, maps, and charts ; for miscellantous office expenses, and for the purchase of new instruments, books, maps, and charts. Section 1. Coast of Maine, New Hampshire, Massachusetts, and Rhode Island.- Freld-work.-To continue the triangulation and topography of Passamaquoddy bay and its estuaries, and to extend the work so as to include the northeastern boundary along the Sc. Croix river : to coutinue the topography of Frenchman's bay; that of the islands and shores of Penobscot bay; and that of saco bay; to complete that of the ocean shore of Cape Cod; and to continue the detailed survey of the shores and islands of Narragansetl bay; to continue off-shore soundings along the coart of Maine ; and the hydrography of Frenchmen's bay, Goldsborough bay, Penobscot bay, and Isle au Haut bay; to continue tidal and magnetic observations. Office-work.-To make the computations required for and computations from the field observations; to commence the engraving of general chart of the coast. No. 1, from Seal island to Cape Cod, and continue that of No. 2, from Cape Cod to Gay Head; to commence the drawing and engraving of coast chart No. 4, (Naskeag Point to White Head light, including Penobscot bay;) to continue that of coast charts No. 5 and No. 6, (White Head light to Wood island light; ) that of No. 7 and No. 8, (Seguin light to Cape Porpoise light;) and to complete that of No. 9 and No. 10, which include Massachusetts bay and Cape Cod bay; and to continue the drawing and engraving of the harbor and river charts of the coast of Maine, and of Narragansett bay, will require.

Section II. Coast of Connecticut, New York, New Jersey, Pennsylvania, and part. of Delaware.-Field-work.-'To make supplementary astronomical observations; to continue verification work on the coast of New Jersey; to continue the topography of the shores of the Hudson river; to execute such supplementary hydrography as may be required in New York bay and Delaware bay; to continue the tidal observations. Office-work.-To make the computations and reductions; to continue the drawing and engraving of a chart of New York harbor on a large scale, and of coast chart No. 21, (from Sandy Hook to Barnegat,) and to commence No. 22, from Barnegat bay to Absecom inlet, will require.
Secrion III. Coust of part of Delaware and that of Maryland, and part of Virginia.-Field-work.-To continue astronomical and magnetic observations in this section; to continue the primary triangulation parallel to the coast from Washington city southward along the Blue ridge; to complete the topography of the eastern shore of Virginia, and of the shores of the Potomac and James rivers, and the triangulation requisite therefor; to make the hydrographic survey of estuaries and inlets remaining unsurveyed in this section; to continue tidal observations, and to make the observations for determining the longitude of the $P a$ cific coast. Office-work.-To make the computations from fieldwork; to continue the drawing and engraving of coast charts No. 29 and No. 30, (from Chincoteague inlet to Cape Henry,) and of general coast chart No. 4, (approaches to Delaware and Chesapeake bays,) and to make supplementary work on the charts heretofore published, will require
Section IV. Coast of part of Virginia, and part nf North Car-olina.-Field-work.-To complete, if practicable, the primary triangulation of Pamlico sound, and to make the requisite astronomical and magnetic observations; to continue the triangulation and topography of the western shores and estuaries of Pamlico sound; to complete the topography of the outer coast of North Carolina between Bogue sound and New river inlet; to continue the in-shore and off-shore hydrography between Cape Henry and Cape Hatteras; to continue soundings in Currituck and Pamlico sounds and their estuaries, and to make observations on the tides and currents. Office-uork.-To make the computations and reductions; to continue the drawing and engraving of general coast chart No. V, (from Cape Henry to Cape Lookout,) of coast charts No. 38 and No. 39, (coast from Currituck banks to Cape Hatteras;) of No. 42, No. 43, and No. 44, Pamlicn sound and estuaries; of No. 45 and No. 46, coast from Cape Hatteras to Cape Lookout, and of charts of Neuse river and Pamlico river, will require
Section V. Coast of South Carolina and Georgia.-Field-work.-To make the requisite astronomical and magnetic observations on the coast of Georgia; to extend the topography from Winyah bay to Cape Romain; to continue the topography from St. Simon's sound southward to the St. Mary's river, and to sound the interior water passages among the sea islands from Sapelo sound southward, and continue the off-shore hydrography and the tidal observations. Office-work.-To make the computations; to continue the drawing and engraving of the general chart of the coast, No. VII, (from Cape Romain to St. Mary's
river;) of coast charts No. 56 and No. 57, (from Savannah river to St. Mary's river;) and of charts of St. Catharine's sounid, Doboy sound, and the inland tide water communication on the coast of Georgia, will require
$\$ 43,000$
Section VI. Coast, keys and reefs of Florida.-(See estimates of appropriation for those special objects.)
Section VII. Western coast of Florida peninsula, north of Tampa bay, and coast of West Florida.-Ficld-work.-To continue the triangulation from Cedar Keys to the Suwanee river; from St. Andrew's bay towards Chattahoochee bay; and to make such astronomical and magnetic observations as may be required; to continue the topography to the northward of Cape San Blas, and to the westward of St. Andrew's bay, and that of the Gulf coast adjacent to Santa Rosa sound; to survey and sound the entrance to the Suwanee river; to complete the hydrography of St. George's sound, and to make soundings off Cape san Blas, and continue the tidal observations.-Office-work.-To make the computation from field-work; to continue the drawing and engraving of coast charts No. 82 and No. 83, (from Orilla river to Cape San Blas;) and of No. 89, (from Pensacola to Mobile Point; ) and to prepare a chart of the approaches and entrance to the Suwanee river, will require
Section VIII. Coast of Alabama, Mississippi, and part of Lou-isiana.- Field-wor九.-To continue the triangulation from the Mississippi delta westward, and to make the astronomical and magnetic observations required in this section; to extend westward from former limits and complete the survey of the shores of Isle au Breton sound, including the adjacent banks of the Mississippi river; to continue the hydrography within the same limits, and complete that of Lakes Borgne and Pontchartrarn, and to make tidal obser-vations.-Office-work.-'Io make the computations pertaining to field work; to continue the drawing and engraving of the general chart No. 14, (Fulf coast between Mohrle Point and Vermillion bay ;) of coast charts No. 91, (Lake Borgne and Lake Pontchartrain; ) No. 92 and No.93, (Chandeleur islands to Southwest Pass,) and No.94, (Mississippi Delıa,) will require
Section IX. Coast part of Louisiana and coast of Texas.-Freld-work.-To measure a primary base line; to continue the triangalation and topography of Madre lagoon from Brazos santiago northward; to complete the hydrography of Aransas, Copano and Espiritu Santo bays; to continue the off-shore hydrography, and to make the requisite tidal observations.-Ofice-work.-To make the office computations; to complete the engraving of coast chart No. 107, (Matagorda and Lavaca bays; ) to continue the drawingand engraving of No. 108 and No. 109, (Gulf coast from Matagorda to Corpus Christi bay;) to engrave the re-survey of Galveston entrance, and to continue the drawing and commence the engraving of general chart No. 16, (Gulf coast from Galveston to the Rio Grande,) will require.

Total for the Atlantic coast and Gulf of Mexico
330, 000
The estimates for the Florida coast, keys and reefs, and for the western coast of the United States, are intended to provide for the following progress in the survey:
Section VI. Coast, keys, and reefs of Florida.-Field-work.-To
determine the longitude of several points on the west coast of Florida; to continue the triangulation and topography from Cape Florida northward towards Jupiter inlet; and from Cape Sable northward to Shark river; and to commence the survey of Tampa bay; to continue the hydrography of the Florida reefs between the Marquesas and the Tortugas and that of the strait of Florida; to complete the hydrography of the bay of Florida, and to make tidal and magnetic observations. Office-work.-For computing the observations made in the field; to continue the drawing and engraving of the off-shore chart No. XI, (Western part of Floreda reefs, including the Tortugas; ) and of coast charts No. 75 and No. 76, (from Caloosa entrancc to Tampa entrance; ) and to commence coast charts No. 70 and No. 71, (Key West to Tortugas,) will require
Secrion X. Coast of California.-Field-work.-To make the required observations for latitude, longitude, and azimuth at stations of the primary triangulation, and to make magnetic observations; to counect the islands of Santa Cruz, Santa Rosa, and San Miguel with the coast triangulation, and to execute the topography of the same, and continue the topography of the coast from Buenaventura to Santa Barbara; to continue the off-shore hydrography of the coast of California and the tidal observations. Office-work:-To continue the drawing and engraving of a chart of San Francisco and San Pablo bays in one sheet; to complete that of Suisun bay; to continue that of a general chart of the coast from San Diego to Point Conception; and to make additions of the recent surveys on the charts heretofore published; also for the operations in-
Section XI. Coast of Oregon and of Washington Territory.-Field-work.-'Io continue the astronomical and magnetic observations in this section, and the trial gulation, topography, and hydrography in Washington sound and in Puget sound; to continue the survey of the mouth of Columbia river; and to make such special surveys as may be called for by public interests on the coast, of Oregon and of Washington Territory, including those of Yaquinnah river, Port Discocery, and Possession sound; and to continue the drawing and engraving required by the field and hydrographic work, will require
For publishing the observations made in the progress of the survey of the coast of the United States, per act of March 3, 1843....
For repairs and maintenance of the complement of vessels used in the survey of the coast, including the purchase of two vessels to replace the schooners Petrel and Twilight, lost during the war, per act of March 2, 1853
For pay and rations of engineers for the steamers used in the hydrography of the coast survey, no longer supplied by the Navy Department, per act of June 12, 1858.
The item for publishing the observations made in the progress of the survey of the coast has been for several years placed at the small sum of $\$ 5,000$, which provided chiefly for the preparation of the manuscript matter and of the plates required for illustration. In order to proceed with the printing of a volume the estimate is now increased.

The hydrography has been much cramped during the past two years by the want of a sufficient number of vessels suitable for the service. Many of the vessels belonging to the survey have been in service so long as to require either very expensive repairs or to be regarded as unsafe for the voyages requisite in their transfer from the northern sections to the Gulf coast, while still quite ser-
viceable if allowed to remain in the bays and sounds of one part of the coast. It is evident that they must gradually be replaced, and more especially is it necessary to replace the schooners Petrel and Twilight, which at the beginning of the war were seized by the rebels and have since disappeared. To provide for two vessels in their place the sum of $\$ 30,000$ is included in the estimate for "repairs and maintenance of the complement of vessels used in the survey of the coast."

The annexed table exhibits, in parallel columns, the appropriations made for the fiscal year 1867-'68, and the estimates now submitted for the fiscal year 1868-'69 :

| Object. |  |  |
| :---: | :---: | :---: |
| For survey of the Atlantic and Gulf coasts of the United States, including eompensation of civilians engaged in the work, per act of March 3, 1843. | \$330,000 | \$250,000 |
| For continuing the survey of the western coast of the United States, inoluding compensation of civilians engaged in the work, per act of September 30, 1850 | 175,000 | 130,000 |
| For continuing the survey of the reefs, shoals, keys, and coast of South Florida, including compensation of civilians engaged in the work, per act of March 3, 1849 | 40,000 | 25,000 |
| For publishing the observations made in the progress of the survey of the coast of the United States, including compensation of civilians engaged in the work, per act of March $3,1843$. | 10,000 | 5, 000 |
| For the repairs and maintenance of the complement of vessels used in the survey of the coast, per act of March 2, 1853. | 60,000 | 30,000 |
| For pay and rations of engineers for the steamers used in the hydrography of the coast survey, no longer supplied by the Navy Department, per act of June 12, 1858. | 10,000 | 10,000 |
| Total. | 625, 000 | 450, 000 |

Respectfully submitted:

## Hon. Hugh McCulloch, Secretary of the Treasury.

## LIGHT-HOUSE BOARD.

## Treasury Department, Office Light-house Board, Washington, November $2,1867$.

Sir: I have the honor, under instructions from this board, to submit the accompanying estimates of funds required for the support of the light-house establishment for the fiscal year ending June 30, 1869.

These estimates are exhibited in tabular form from number 1 to number 3, inclusive, and are accompanied by explanatory statements marked $\mathrm{A}, \mathrm{B}$, and C .

The very extensive renovations and repairs made necessary by the acts of the rebels have called for liberal appropriations, which, it is believed, may be much reduced after this year, but the necessary current expenses must be expected to increase as the opening of new channels to commerce and the vigorous enterprise of a rapidly growing population shall call for increased aids to navigation.

It may be remarked in this connection that the last winter was one of unusual severity on our coast, occasioning commensurate injury to light-vessels, lighthouses, and buoys.

An item of increase of expense is to be also found in the increased allowance of compensation by act of Congress to light-keepers, from an average of four hundred dollars to one of six hundred dollars per annum-the number of keepers having at the same time increased.

Every means within the control of the board has been and will be used to keep down the expenses of the establishment as far as may be consistent with the requirements of commerce.

Very respectfully,
W. B. SHUBRICK, Rear-Admiral and Chairman.

Hon. Hugh McCulloch,<br>Secretary of the Treasury.

No. 1.-Estimates of appropriations under the control of the Treasury Department, required for the service of the fiscal year ending June 30, 1869.

For a light-house at St. Joseph's bay, Florida.
20, 00000
For increased storage room and facilities at the light-house depot, head of passes, Mississippi river.

12,00000
To reimburse the keepers of Timbalier light-house for the loss of their private property, destroyed with the light-house

40000
For repairs and renovations at Matagorda light-station, Texas
12,000 00
For a light-house at or near Grand Grozier, gulf of Mexico
50,000 00
F'or a light-house and pier of protection at Cleveland, Ohio. 60, 00000
For range lights at Bayley's harbor, Wisconsin
6,000 00
For repairs and renovations at Beaver Island light-station, Michigan.
For renovating and relighting the light-house on Michigan island, Lake Superior

5, 00000
6,00000
For a range of lights for Copper Harbor, Lake Superior, with a fog-bell, or such other ear-signal as the Secretary of the Treasury, on the recommendation of the Light-house Board, may adopt, in addition to former appropriations

5,00000
For a light-house to mark the channel between the island of Mackinac and Round island, Michigan.

12,000 00
For a light-house and fog-signal on Poverty island, entrance to Green bay...
For a lake-coast light between Whitefish Point and Grand island, Lake Superior
For a light-house at St. Helena island, Lake Michigan
20,00000
40, 00000
14, 00000
90,000 00
For a steam light-house tender for the twelfth district, to replace the one wrecked on the coast of California

90,000 00
For a steam tender for the thirteenth light-houso district
90,00000
For two buoy and light-house tenders for service on the Atlantic and Gulf coasts.

80,00000
For two first-class light-ships for relief vessels for outside stations..............
To enable the Light-house Board to experiment with new illuminating apparatus and fog-signals, in addition to former appropriations

4,000 00
To enable the Light-honse Board to re-establish lights and other aids to navigation on the southern coast, in addition to former appropriations

100,000 00
And be it further enacted, That the Light-house Board be and hereby is authorized to apply the amount heretofore appropriated "for building a light-house on a proper site at Trowbridge Point, in Thunder bay, in the State of Michigan," to building a light-house upon a more eligible sight, if such can be found in the immediate vicinity.

And be it further enacted, That the Light-house Board be, and hereby is authorized, in re-es tablishing lights and other aids to navigation on the southern coast; to change the site to any aid to navigation which, by reason of changes in the chanuel it was designed to mark, or from any other cause, no longer serves the purpose intended; and to re-establish it in the position where the requirements of commerce will be best fulfilled.

And be it further enacted, That the Light-house Board be and hereby is authorized to apply any unexpended balance which may remain after the completion of a light-house work, to construction of any other similar work, which has been or may be authorized by act of Congress, but for which the amount appropriated may prove insufficient.

And be it further enacted, That the privilege of receiving and sending free of postage, under proper frank, all official communications, is hereby gratted to the chairman and secretaries of the Light-house Board.

And be it further enacted, That the laws now anthorizing, fixing, and regulating the commissions to be paid to collectors of customs, acting as superintendents of lights for disbursements under the light-house establishment, shall apply to all other persons disbursing money under the same establishment: Provided, That hereafter commissions shall be charged to the appropriation from which the disbursement is made.

## DEPARTMENT OF THE INTERIOR.

## Department of the Interior, Washington, D. C., November 6, 1867.

SIr: I herewith transmit the estimates of appropriations for this department for the fiscal year ending June 30, 1869.

I am, sir, very respectfully, your obedient servant,
O. H. BROWNING,

Secretary of the Interior.

## Hon. Hugh McCulloch, <br> Secretary of the Treasury.

## office of indian affairs.

## Drpartment of the Interior, Office of Indian Affairs, Washington, D. C., October 18, 1867.

SIR: In compliance with your request of the 2d of August last, I have the honor to transmit herewith the estimates for this office for the fiscal year ending June 30, 1869.

It will be observed that, in several instances, the estimates are larger than the appropriations made for the present fiscal year for the same objects. In these cases the amounts asked for are based upon treaty stipulations and communications received from officers of the department, copies of which communications, marked from A to $\mathbf{R}$, inclusive, accompany the estimates and are referred to therein.

It is thought that the explanations under the head of remarks, together with said copies, are sufficiently explicit to show the reasons why the increased amounts, as well as those for new objects, should be appropriated by Congress.

Very respectfully, your obedient servant,
CHARLES E. MIX, Acting Commissioner.
Hon. O. H. Browning, Secretury of the Interior.

Estimate of funds required for the fiscal year commencing on the first day of July，1868，and terminating on the 30th day of June， 1869，to wit：Office expenses，compensation to the Commissioner of Indian Affairs，and to clerlis，messengers，watchmen，and laborers in the office of the Commissioner，and for contingencies of the Indian Office．

For miscellaneous purposes.

## Amounts appropriated in 1868 which are not embraced in the estimate for 1869.

For the Chasta, Scoton, and Umpquas-for pay of physician, purchase of medicines, and expense of care of the sick-dropped by the terms of the treaty..
For the Chippewas of Saginaw, Swan creek, and Black river, under treaty of August 2, 1855, which has expired.
For the Cherokees, under treaty of July 19, 1866, to be paid upon the ratification of the treaty, and for specific objects designated in said treaty
For the Delawares, under treaty of July 4, 1866, for certain stipulations in said treaty which have been fulfilled.
For the Menomonees, under treaty of May 12, 1854, ceased by the terms of the treaty
For the Nez Perces, under treaty of June 9, 1863, for certain stipulations which have been fulfilled
For the Omahas, under treaty of March 16,1854 , for certain stipulations which have been fulfilled.
For the Otoes and Missourias, under treaty of March 15, 1854, for certain stipulations which have been fulfilled.
For the Woll-pah-pe tribe of Snake Indians, under treaty of August 12, 1865; for certain stipulations which have been fulfilled.

Amounts embraced in the estimate for 1869 , which were not included in the estimate for 1868.

Fur the salary of agent for the Sissiton and Wah-pe-ton bands of Dakota or Sioux Indians.
For the salary of agent for the bands of Sacs and Foxes of the Mississippi, now in Tamar county, Iowa.
For increase of salary of clerk to the superintendent for California
For the salary of interpretor for the Sissiton and Wah-pe-ton bands of Dakota or Sioux Indians.
For the salary of interpreter for the bands of Sacs and Foxes of the Mississippi, now in Tamar countr, Iowa.
For the Assinaboines.
For the Arickarees, Gros Ventres, and Mandans
For the Chippewas of Saginaw, Swan creek, and Black river, under treaty of October 18, 1864, being the first estimate made under said treaty
For the Cheyennes of the Upper Platte river
For the Cbippewas of the Mississippi, under treaty of March 19, 1867, being the first estimate made under said treaty
For the Chippewas of Red Lake and Pembina tribe of Chippewas, over and above the appropriation for 1868.
For the confederated tribes and bands in middle Oregon, under treaty of November 15,1865 , being the first estimate
For the Crows
For the Nisqually, Puyallups, and other tribes and bands of Indians
For the Ottowas and Chippewas of Michigan
For the Poncas under treaty of March 10, 1865, being the first estimate under said treaty.
For the Sioux of Dakota, Lower Brule band
For the Sioux of Dakota, Sans Ares band.
For the Sioux of Dakota, Two Kettle band
For the Sioux of Daketa, Yanctonan band.
For the Yakamas
For the general incidental expenses of the Indian service in Colorado, being over and above the amount appropriated for 1868
For the general incidental expenses of the Indian service in Nevada, being over and above the amount appropriated for 1868.
For the amount to carry out the action contemplated by act of Congress, approved May 5, 1864, to vacate and sell the Indian reservations in Utah Territory, \&c.
For the purchase of cattle for beef and milk, together with clothing and feed, farming tools for Indians in California, over and above the amount for 1868.
For the pay of physician, blacksmith, assistant farmer, carpenter, \&cc., upon the four reservations in California, over and above the amount for 1868
For the purchase of a grist and saw mill for the Round Valley reservation

Office Indian Affairs, October 18, 1867.

Estimate of funds required for deficiencies for the fiscal year ending June 30, 1869.

* The accounts of the commissioners appointed by the President, per 49th and 50th articles treaty of April 28, 1866, \&c., have been adjusted by the department, and the amount found due exceeds the appropriation $\$ 1,53847$, which sum should be appropriated in order that said accounts may be settled in full.

The expenses of the commissionera appointed to investigate the losses of the loysal Serninoles have already exceeded the amount of the appropriation. The commissioners have not completed their labors, and it will require the amount asked for to defray their necessary expenses until they have finished the duties assigned them.
$\ddagger$ At the time the gum of $\$ 40,362$ was uppropriated it was expected that that amount stornd be ample to subsist the Seminoles until they should raise a crop. Owing to sickness, the great destitution existing among them, and the time they removed, the appropriation was found entirely too small. The amount abked for is required to pay for subsistence that was urnished them, and was actuslly necessary to prevent starvition. See copies marked $P$ and $Q$.

## A. <br> Office of Indian Affairs, San Francisco, Cal., July 25, 1867.

Sir: On the 17th of June last I had the honor of submitting a requisition for funds to defray the expenses of the Indian service in California for the first and second quarters of the fiscal year ending June 30, 1868. Included in that requisition was the "Pay of clerk to the superintendent of Indian affairs for California." I would here respectfully state that I consider the amount paid to my clerk wholly inadequate to the services performed. Mr. H. F. W. Hoffman was appointed as clerk in the office of the superintendent of Indian affairs six years ago the coining 12th of September, and I would say, (from the testimony of my predecessors, ) has served the department during this long period faithfully and honestly, and most of the time, as you are aware, the national currency was at a very low figure. Mr. Hoffman's duties are very arduous, and for the amount of labor performed he receives less compensation than any clerk in the service of the government on the Pacific coast. - He is writing in the office, on an average, fourteen hours a day for at least five days in the week, when not absent from the city, at which time he visits some one of the reservations to unravel the complications made in the accounts of the resident agent:

It was the intention of my immediate predecessor, Charles Maltby, esq., to have called the attention of the department at Washington to this matter, and now, while I add my testimony to the very able manner in which Mr. Hoffman discharges the onerous and perplexing duties of his position, I would, in justice to him, most respectfully urge on the department that his salary be increased to $\$ 2,500$ per year, the same to commence on the 1st day of July, 1867, the commencement of the present fiscal year.

Very respectfully, your obedient servant,

## B. C. WHITING,

Superintendent of indian Affairs for Califormia.
Hon. N. G. Taylor, Commissioner of Indian Affairs, Washington, D. C.

## B. <br> Office Indian Áffairs, San Francisco, August 9, 1867.

Sir : I have the honor to submit the following estimate for funds to defray the expenses of the Indian service in California for the fiscal year commencing July 1, 1868, and ending June 30, 1869, viz:
Purchase of cattle, clothing, teams, farming implements, \&c., for Indians in California
$\$ 75,000$
Incidental expenses of the Indian service, including travelling experrses of the superintendent, \&c

7, 500
Pay of four agents on the four reservations in California,
at $\$ 1,800$ per year each............................... $\$ 7,200$
Pay of one special agent for the Mission Indians of California, per year

1, 200
8, 400
Pay of four physicians, at $\$ 1,200$ per year............ 4, 800
Four blacksmiths, four assistant blacksmiths, four carpenters, and four farmers, on each of the reservations in California, at $\$ 780$ per year each 12,480
Pay of one herdsman each on the Round Valley and Hoopa Valley reservations, at $\$ 780$ per year each ..... 1, 560

# Pay of one miller each on the Round Valley and Hoopa Valley reservations, at $\$ 960$ per year each <br> $\$ 1,920$ 

$\$ 3,480$

Purchase of saw and grist mill, with improvements at Round Valley reserve, additional. 5, 000
Pay of superintendent of Indian affairs for California ..... 3, 600
Pay of clerk to superintendent of Indian affairs for Cali-fornia, from July 1, 1867, to June 30, 1868, additional.

Pay of clerk to superintendent Indian affairs for California,
year ending June 30, 1869
$\$ 700$
year ending tune $30,1869 \ldots . .$. ......................... 2,500
Pay of clerk at Round Valley Indian reservation, at $\$ 780$ per year.

$$
3,200
$$

Pay of clerk at the Hoopa Valley Indian reservation, at \$780 per year.

In submitting the above estimate, you will observe I have asked for an increase of $\$ 20,000$ (in the purchase of cattle fund) over that of last year; this is rendered positively necessary to enable me to supply the Hoopa reservation with a new and complete outfit of farming, agricultural implements, teams, and seeds; the latter has not been renewed, apparently, for many years, and produces inferior crops, while the former are worn out, and used only to the great detriment of the reservation. I have also asked for an inerease in the pay of physicians on the four reservations; this is rendered necessary, as I find it an impossibility to procure proper medical attendance at less compensation, and the present sanitary condition of the Indiaus requires competent and skilful treatment. The employment of two herdsmen and two millers for Hoopa and Round Valley reservations, for which I ask an appropriation, I deem of the utmost importance to the future benefit and welfare of the Indians there located; in fact, those reservations cannot be properly maintained without them, and the salaries asked for are less than those paid for the same labor by private individuals.

I have estimated for four teachers, one on each of the four reservations, and, I trust, Congress will not fail to make an appropriation for this purpose, and thereby provide for the moral and intellectual improvement of the Indian children. It would materially add to the efficiency of the service to have a clerk appointed at the Round Valley and Hoopa Valley reservations; I have, therefore, asked for a small appropriation for that purpose, and would refer the department to my letter of the 9th of August, 1867, on this subject. There is also a positive need of a special agent to look after the interests of the Mission Indians, of southern California; said duty has been performed for the past few years by J. Q. A. Stanley, of Los Angeles, who has rendered valuable service, as his very able reports, on file in your office, will testify, and unless some provision is made to pay him more liberally than in the past, the department will lose a very efficient officer.

For the purchase of the saw and grist mill at Round valley, I have asked an additional appropriation of $\$ 5,000$; this has been rendered necessary owing to the additional improvements which have been made to the same since the first appropriation of $\$ 5,000$. For information on this subject, I would respectfully refer the department to my letter of May 28, 1867. I have asked for, and would now urge upon the department, the justness and propriety of an increase in the salary of my clerk, whose compensation is less, for the amount of labor performed and the responsibility attached to his position, than that of any clerk on the Pacific coast ; in this connection, I would refer the honorable Commissioner to my letter of the 25 th of July, 1867. In conclusion, I would respectfully state that in making up this estimate, I have been governed solely by an earnest desire to
promote the interest of the service, and I trust the department at Washington will co-operate with me in urging the appropriation asked for.

I have now the honor to submit the following additional estimate for funds to defray expenses pertaining to the Indian service (based upon a coin valuation) in the State of California for the fiscal year commencing July 1, 1868, and ending June 30, 1869, viz :
To pay the settlers of Hoopa valley for their personal property.... \$4, 26725
For amount necessary for the purchase of the Tule River Indian
farm, containing 1,280 acres of land, with all improvements thereon,
at the rate of $\$ 10$ per acre, in United States gold coin
12,800
17,06725
In submitting the estimate to pay the settlers at Hoopa valley for their personal property, I would simply refer the department to the fact that government has had possession of this property since February, 1865, at which time the appraisement was made ; that the property is now mostly.worn out, and that the long delay in settling these accounts has worked great hardships upon the settlers, and I would now most. respectfully urge an early settlement. For information in regard to these claims I would refer the honorable Commissioner to the letter of Charles Maltby, ex-superintendent of Indian affairs, under date of September 9, 1865. I have also submitted an estimate for the purchase of the Tule River Indian farm, to which I would most respectfully invite your attention. I consider this purchase an existing necessity, both for the interest of the government and Indians, and without entering into an elaborate detail, I would refer the department to the letters of Charles Maltby, late superintendent of Indian affairs, dated May 11, 1866, and reply of Thomas P. Madden thereto, dated May 16, 1866, enclosing letters from late Superintendents Wentworth and Wiley therewith, which were forwarded to the department April 20, 1866, by Superintendent Maltby ; also letters of late Superintendent Maltby, of April 20, 1866, with enclosures from late Superintendents T. J. Henley and E. F. Beule, all of which recommend the purchase, and certify the price asked to be a fair valuation of the premises, and to which I would add my own indorsement.

Very respectfully, your obedient servant,
B. C. WHITING, Superintendent Indian Affairs, California.
Hon. N. G. Taylor,
Commissioner Indian Affairs, Washington, D. C.

## C.

Office Superintendent Indian Affairs, Olympia, Washington Territory, August 5, 1867.
Sir: I have the honor herewith to transmit copy of letter from Agent Wilbur in relation to the necessity of an increase in the appropriation for payment of employés in bis agency. There being no stipulation in the treaty for payment of millers, I presume a special appropriation by Congress would be necessary to meet the exigency of the ase.

It is very manifest that millers are essential to the service, and that without them mills can be of no use. On this subject I place implicit confidence in the judgment of Agent Wilbur, and I most heartily second his request for money to maintain such employés as the business in the mills requires.

Very respectfully, your obedient servant,

> T. J. McKENNY, Superintendent of Indian Affairs, Washington Territory.
Hon. N. G. Taylor,
Commissioner Indian Affairs, Washington, D. C.

Yakama Indian Agency, Fort Simcoe,<br>Washington Territory, July 24, 1867.

Sir: Permit me to call your attention, and through you the attention of the Commissioner of Indian Affairs, to a deficiency in the pay and subsistence of treaty and other necessary employés upon this agency.

The treaty provides for the erection of one saw-mill and one flouring mill, keeping the same in repair, and furnished with the necessary tools and fixtures. There is no pay for millers or their subsistence; it has to be taken from the money appropriated to pay treaty employés. There is a positive necessity for two millers, and their pay could be less than eighteen hundred dollars, and four hundred dollars for subsistence. I ask that this amounヶ may be appropriated to meet the necessity of this work.

The whole amount of money passed over to this agency to pay treaty employés per annum is $\$ 14,000$; of this, $\$ 1,400$ is for the pay and subsistence of a phyaician, which appropriation meets the case : pay, $\$ 1,200$; subsistence, $\$ 200$; total, $\$ 1,400$. This leaves $\$ 12,600$ to pay and subsist twelve treaty employés. Eight of these are paid $\$ 1,000$ per annum, and four at rate of $\$ 800$, making $\$ 11,200$, leaving a balance of $\$ 1,400$ to subsist twelve treaty employés, one clerk, one interpreter, and one herder, in all fifteen, besides those who are hired for a short time to work the roads, teaming, haying and harvesting, cutting and hauling saw-logs to the mill, \&c. These all are to be subsisted out of the $\$ 1,400$, or we are to dispense with the services of some in order that we may have means to pay and subsist the remainder.

This has been done, in times past, to the detriment of the Indians. The government agrees to provide them so many treaty employés. If the services of one-third of them are dispensed with for lack of means, but two-thirds of what the government is obligated to do for them can be done. To keep the spirit of the treaty, we need more men, and to have the men we must have more means. I therefore ask, in addition to the present appropriation, $\$ 2000$, to pay and subsist employés. Hoping the above will find favor with you, and a hasty indorsement to the Commissioner,

I subscribe myself, your obedient servant,
JAMES H. WILBUR, United States Indian Agent, Washington Territory. General T. J. McKenny, Superintendent Indian Affairs, Washington Territury.

## D.

Portland, Oregon, August 13, 1867.
You will receive a communication from James H. Wilbur, Indian agent of the Yakama Indian agency, through General T. J. McKenny, superinteudent Indian affairs for Washington Territory, asking an additional appropriation for "treaty employés," or contingent fund, in order to pay a saw-mill man and a miller for the grist-mill. The government agrees to keep these mills in repair; this cannot be done without millers; he therefore asks that $\$ 2,000$ per year shall be added to the annual appropriations for his agency. I think this right, and trust it will be done.

Yours truly,
H. W. CORBETT,
U. S. Senator.

Commissioner of Indian Affairs,
Washington, D. C.
E.

## Office Indian Affairs,

 San Francisco, Cal., August 9, 1867.Sir: Your communication of May 24, 1867, relative to the letter of Thomas J. Henley, late superintendent of Indian affairs for California, suggesting the necessity of employing a clerk at Round valley, is received.

I fully concur with Colonel Henley in his opinion as to the necessity of such a clerk, and you will allow me to suggest that, as Round Valley and Hoopa Valley reservations may now be considered permanently fixed, I believe that enlarged operations can and ought to be carried on which will add greatly to the comfort and benefit of the Indians, and ultimately result in a material curtailment of public expenses in the Indian service of this State. There should unquestionably be a clerk who writes a quick and easy hand at each of the above-named reservations. Hoopa valley covers an extent of eight miles on each side of the Trinity river. Indian rancherias are dotted along the whole extent of the valley on both sides. It is by no means an easy task for the agent to get around among them, as necessity requires, to enable him to exercise a wholesome influence over the Indians, and give suitable direction to their labors and instructions to the employés.

To accomplish this object, and at the same time attend to all the clerical duties of his office, is practically impossible. I would therefore recommend that a clerk be allowed at each of these reservations, at the same salary as other employés. I have recommended an additional appropriation to meet the expense for the fiscal year ending June 30, 1869, and as no other provision is made for the present fiscal year, I hope I may be allowed to employ such clerical assistance and pay the expense out of the proceeds of surplus produce of those reservations.

Most respectfully yours,

> B. C. WHITING, Superintendent Indian Affairs, California.

Hon. N. G. Taylor, Commissioner of Indian Affairs, Washington, D. C.

## F. <br> Office Indian Affairs, San Franciscu, Cal., May 28, 1867.

Sir : I have the honor to inform the department that the grist and saw-mill at Round valley cannot be purchased for $\$ 5,000$ in legal-tenders. Last year the owners offered the mill for $\$ 5,000$ in coin. Since that time a new blacksmith shop has been built and stocked with suitable tools; a new barn has also been built, and a chest of carpenter's tools purchased for the use of the mills. A garden fence has been built and a quantity of fruit trees set out. All these improvements cost about $\$ 1,500$. The land is paid for, ( 160 acres.) The owners offer to sell the entire property with improvements, three yoke of heavy oxen for logging, and a truck-all for $\$ 7,000$ coin.

The mill, land and improvemente are very much needed for the reservation. We are obliged to pay a toll of one-quarter for all the grinding we have done. It is said the mill earns twenty dollars per day over and above expenses. If so, the price is reasonable. I can buy the mill and real estate, without the personal property, for $\$ 5,000$ in coin. I should have stated that the $\$ 7,000$ offer includes some logs and lumber on hand at the mill, worth about $\$ 1,000$

If you think best to direct the purchase, I can pay the excess over the appropriation out of net earnings of the mill or the surplus products of the reservation.

Now we have no market for the surplus grain of the reservation. If we had
the mill we could supply the military post, Camp Wright, with flour and bacon. These supplies have been heretofore chiefly sent from this city.

Please direct me what to do with reference to the purchase of the mill.
Respectfully yours,

> B. C. WHITING, Superintendent Indian Affairs, California.

Hon. N. G. Taylor,<br>Commissioner of Indian Affairs, Washington, D. C.

## G.

## Office Indian Affairs, California, San Francisco, September 9, 1865.

SIR : I have the honor to enclose the report of the board of appraisers, appointed by the act of Congress approved March 3,1865, to appraise the improvements of the settlers on the Indian reservation in Hoopa valley, in accordance with letter of instructions received from late Commissioner Dole, of date June 12, 1865.

The value of the improvements, as appraised, amounts to the sum of fiftynine thousand nine hundred and fifty-nine dollars and fifty-five cents, $(\$ 59,95955$, ) which appraisement includes the improvements of Campbell and Garrett, not included in the appraisement made under instructions of the late superintendent Wiley.

The reasons assigned by Superintendent Wiley for not including the improvements of Campbell and Garrett in the appraisal made under his instructions were not satisfactory to the late board of appraisers, as they were unanimous in the opinion that said improvements constituted a part of the improvements of the settlers in Hoopa valley, and, acting under the act of Congress aforesaid, and the instructions of the commissioners, were agreed that said improvements should be appraised and included in their report.

The appraisement of the improvements, as now reported, is much less in amount than under Superintendent Wiley's appraisal. This is owing in part to the increased value of the currency compared with gold, and to the high valuation of the improvements made by the former appraisers.

I am satisfied that the valuation of the improvements as enclosed is at their full value; and the settlers, in receiving from the government the several amounts to which they will be entitled by the appraisement, will have a fair and just compensation for their improvements.

As directed in Commissioner Dole's letter, of date aforesaid, the board of appraisers proceeded to make a separate valuation of the personal property of the settlers, "which property has been in possession of the agent of the reservation since February last." The appraisement is made at coin rate, or its equivalent in currency, and amounts to the sum of four thousand two hundred and sixty-seven dollars and twenty-five cents.

The valuation of the personal property would be high if made at places where transportation was carried in the usual way; but to this valley transportation is carried on mules a distance of forty miles over mountains, at an expense of from four to six cents per pound for agricultural implements and property of that kind, which is difficult to transport in that way. From these considerations I think the valuation of the personal property is made at fair rates, and at less prices than the Indian department could purchase the same articles and transport them into the valley. Enclosed please find the report of the appraisers of the personal property aforesaid.

I may be permitted in this connection to say that if the report of the board of appraisers is approved, it is very important that the money appropriated should be paid to the settlers as soon as possible. All the improvements excent
those of Campbell and Garrett, and the personal property appraised, has been in the possession and use of the government since February last. Most of the settlers are in the valley, awaiting the action of the department, not having means to go into business, desiring and hoping for an early settlement of their claims.

The Indian service would also be promoted by an early settlement of this matter, relieving the valley of a number of citizens whose absence would promote the prosperity and good order of the reservation.

Very respectfully, your obedient servant,
CHARLES MALTBY, Superintendent Indian Affairs, California.

Hon. D. N. Cooley, Commissioner Indian Affairs, Washington.

Hoopa Valley Indian Reservation, California, August 26, 1866.

Sir: We have the honor to report the following appraisement containing our estimate of the value of improvements made by settlers upon public lands in Hoopa valley, which has been set aside for an Indian reservation in compliance with the act of Congress approved March 3, 1865, an act to amend an act entitled "An act to provide for the better organization of Indian affairs in California," and your letter of instructions of date June 12, 1865 :

1. Improvements of William Scott, consisting of ninety acres of cultivated land enclosed with rail fence, on which are one log dwelling-house, one log storehouse, one $\log$ house used as a granary, one barn, out-houses, well, \&c.; also, an orchard containing one hundred and seventeen fruit trees, one hundred and fifty yards of water ditch for irrigation purposes, and one granary and one storehouse at grist mill; valued at
\$2,938 80 (Paid October 1, 1866.)
2. Improvements of A. Norton, consisting of one hundred and eighty-seven acres of cultivated land enclosed with rail fence, on which are one frame dwellinghouse, one $\log$ barn, one frame building used as a granary, out-buildings, well, \&c.; also, an orchard containing one hundred and twenty-one bearing fruit trees, fruit trees in nursery, grape vines, currant and gooseberry bushes; also, six hundred and seventy-nine rods of water ditch and flume ; valued at...... 5, 728 24 (Paid September 29, 1866.)
3. Improvements of Messrs. J. Newkirk and A. Norton, consisting of one grist-mill, well built and in good order, with mill-dam, mill-race and flume four hundred and eighty yards in length, with stockade enclosing mill and storehouses ; valued at
$\$ 6,51000$ (Paid September 29, 1866.)
Also, one huudred acres of cultivated land enclosed with rail fence, on which are one dwelling-house, one barn, one blacksmith shop, outbuildings, \&cc., an orchard of seventy-one bearing fruit trees, grape vines, currant and gooseberry bushes and locust trees; valued at.. (Paid September 29, 1866.)
Also, one hundred and twenty acres of land enclosed with rail fence, on which are one dwelling-house, one barn, out-buildings, \&cc., an orchard of eighty-four bearing fruit trees, grape vines, gooseberry and currant bushes, two hundred rods of water ditch, and three storehouses at grist-mill ; valued at $\qquad$
4. Improvements of R. J. Walker, consisting of one dwelling-house built of heavy sawed timber, with frame kitchen aitached, twelve fruit trees, all enclosed by a stockade fence built of sawed lumber; valued at (Paid October 1 , 1866.)
5. Improvements of A. B. Lacks, consisting of one hundred and fifty acres of cultivated land enclosed with ruil fence, on which are one dwelling-house built of sawed lumber, one barn, one house built of sawed lumber, one and a half story high, smoke-house, one storehouse, out-buildings, \&c.; orchard con-
taining one hundred and fourteen bearing fruit trees; also, thirty-one smaller fruit trees, fruit trees in nursery, and gooseberry bushes; also, six hundred feet of board fence and seven hundred and thirty-four rods of water ditch for mining and irrigation purposes; valued at (Paid October 16, 1866.)
6. Improvements of James A. Kidd, consisting of sixty acres of cultivated land enclosed by rail fence, on which are one log dwelling-house with frame kitchen attached, one barn built of sawed lumber, one chicken-house, one log house, out-buildings, \&cc.; also three hundred and eighty rods of water ditch for mining and irrigation purposes ; valued at.

2,719 69 (Paid October 16, 1866.)
7. Improvements of T. B. Kelley, consisting of eighty acres of improved land, enclosed by rail fence, on which are one frame dwelling-house, one and a half story high, one barn, twenty-one by thirty-six feet, with shed attached, main building built of logs, shed built of sawed lumber, one barn with shed on each side, chicken-house, picket fence, dic., orchard containing seventy-five fruit trees, three hundred and ten feet of flume and fifty rods of ditching, built for irrigation purposes; valued at
( Paid October 1, 1866.)
8. Improvements of J. S. W. R. Yocom, consisting of fifty-seven acres of cultivated land on which are one dwelling-house built of hewed logs, wings attached on each side, containing six rooms, log barn with sheds on two sides, one stock shed, one barn with shed on three sides, blacksmith shop, out-buildings, \&c., orchard containing one hundred and forty-four fruit trees, goosebery bushes, \&cc., six hundred feet of picket fence, fifteen hundred yards of flume and ditch for mining and irrigation parposes; valued at. (Paid October 1, 1866.)
9. Improvements of Thomas C. Campbell, consisting of one saw-mill, of waterpower, running one saw, frame building with wheel-house attached; also thirteen hundred and five feet of fluming, containing sixteen thousand one hundred and twenty-nine feet of lumber ; also one dwelling-house, frame building, with kitchen attached, one dwelling-house, one smoke-house, one house used for granary at grist-mill, out-buildings, \&c.; also thirty-five acres of cultivated land, enclosed with rail fence; valued at

3, $067 \quad 14$ (Paid October 16, 1866.)
10. Improvements of Messrs. Thomas G. Campbell and James Johnson, consisting of one hundred and twelve acres of cultivated land, enclosed with rail fence, on which are one dwelling-house built of hewed logs, with shed attached, one barn,

- forty by forty feet, built of logs, one smoke-house, two chicken-houses, outbuildings, \&c., five hundred and forty-three yards of picket fence, and three hundred and sixty feet of board fence; also four hundred and eight feet of fluming, containing one hundred and fifty-three bearing fruit trees, grape vines and currant bushes ; valued at
(Paid October 16, 1866.)

11. Improyements of Messrs. Thomas G. Camphell and J. P. Garrett, consisting of two hundred acres of land in cultivation and one hundred in pasture, all enclosed with rail fence, on which are one log dwelling-house with frame kitchen attached, one log barn, twenty by sixteen feet, with sheds of twelve feet on each side, one $\log$ barn with sheds on three sides, built of sawed lumber, one $\log$ : building used for a granary, one blacksmith shop, frame, one smoke-house, one tool-house, two small log-houses, out-houses, \&c., seven hundred yards of picket fence, one water ditch for irrigation purposes, an orchard of one hundred and thirty-one peach and apple trees and one hundred grape vines; valued at.
(Paid October 16, 1866.)
12. Improvements of H. W. Lake, consisting of one hundred and thirteen acres of cultivated land, partly enclosed with rail fence, on which is one hotel with outbuildings; also one frame two-story building used as a store, all enclosed with stockade; one dwelling-house, frame building, two stories high, with kitchen attached, one barn built of logs with sheds on four sides; one barn, forty-four by thirty-two feet one, granary built of logs, one log smoke-house, one blacksmith shop, one $\log$ shoe-shop, two $\log$ stables, out-buildings, \&c., eighteen hundred and fifty-seven yards of board fence, containing thirteen thonsand nine hundred and twenty-seven feet of lumber and seven hundred and seventy-four redwood posts, six hundred and sixty-eight yards of picket fence, three hundred yards of lead pipe leading water to house, and eighty rods of water for irrigation purposes; also an orchard containing eighty bearing fruit trees, also gooseberry and currant bushes; ferry-boat, ropes, block, \&c.; valued at
13. Improvements of J. Latham, consisting of three acres of cultivated land inclosed with slab fence, one log-house, one slab-house, one chicken-house, and one mule shed; valued at ..... $\$ 2920$ (Paid October 15, 1866.)
14. Improvements of $H$. Gassman, consisting of one frame dwelling-house, valued at ..... 9300

H.

Office Indian Affairs, California, Nan Francisco, April 16, 1866.

SIR: I have the honor to enclose, in answer to your letter of January 31, ultimo, relative to the price of lands at Tule River reservation which it would be necessary to purchase to accommodate and sustain the Indians there, copy of a letter I addressed to Thomas P. Madden, esq., the lessor of the lands now occupied as the Indian farm at Tule river, and his letter in answer thereunto, with letters which he enclosed to this office from late superintendents of Indian affairs, Messrs. Wentworth and Wiley, which he refers to in his letter.

The number of acres of land leased of Mr. Madden for reservation purposes is twelve hundred and eighty, the price of which he estimates and values at ten dollars per acre ; amounts to $\$ 12,800$, which price, I think, is a high valuation: Seven dollars per acre, I think, would be a liberal and tair price for the lands, and would give Mr. Madden a liberal compensation for them.

This farm, in connection with government lands adjoining, in. townships Nos. .21 and 22, range 28 east of Mount Diablo meridian, would be sufficient for, and would make, an excellent reservation, of capacity and extent necessary for the present and prospective wants of the Indians which would be required in
this part of the State. It is well adapted, on account of its fertility and the facilities for emigration, for the purposes of its present use; and, in connection with the adjoining public lands, is, and would be, more valuable to the government for reservation purposes than it would be to individuals for private use.

The removal of the Indians and public property to a new location, and the delay and expense of improvements and bringing into cultivation uncultivated lands, would be attended with considerable expense, and would, no doubt, exceed the difference in what I believe is a fair and liberal price for the land and the price asked by Mr. Madden; and I can say that on the score of economy and advantage to the Indian service the purchase of the lands in question, at the price asked by Mr. Madden, on account of the foregoing considerations, might be advisable.

I would respectfully refer the honorable Commissioner to Hon. William Higby, one of the Committee on Indian Affairs, who, in company with me, visited this reservation last July, und who has, no doubt, formed an opinion of its advantages and of the value of the lands now occupied and leased for reservation purposes.

Very respectfully, your obedient servant,
CHARLES MALTBY, Superintendent Indian Affairs, California.
Hon. D. N. Cooley, Commissioner Indian Affairs, Washington, D. C.

## San Francisco, Aprll 2, 1866.

Dear Sir: In reply to your note of even date, inquiring of me as to the value of the Tule river Indian farm per acre, I would say that, in my judgment, said farm, with improvements thereon, is worth from ten to twelve dollars per acre, as a whole, in gold coin. My knowledge in the premises arises from personal observation, having visited the farm some twenty times during my superintendency of Indian affairs. I would further state that it is cheap at the abovenamed price, and, in my opinion, the government should secure it at almost any price, as it is very rich soil and well watered, and a cherished home by the Indians of that section of California.

I have the honor to be, very respectfully, your obedient servant, JNO. P. H. WENTWORTH, Late Sup'g Agent Indian Affairs, Southern Dist. of California. Thos. P. Madden, Esq., San Francisco.

## Office Indian Affairs, California, San Francisco, April 11, 1866.

Dear Sir: I am instructed to ascertain and report to the honorable Commissioner of Indian Affairs at what price lands cau be purchased sufficient to accommodate and sustain the Indians at Tule River reservation.

Should you desire to sell the lands at Tule river, now leased of you by the Iudian department for reservation purposes, will you advise this office at what price per acre, " in gold coin or its equivalent," said lands can be purchased by the government for the use and purposes above mentioned.

Very respectfully,
CHARLES MALTBY, Superintendent Indian Afjairs, California.
Thos. P. Madden, Esq.

Dear Sir: In answer to your note as to the value of the Tule river farm per acre, I have to say that I am not sufficiently acquainted with the estimate value of lands in that section of the State to give an intelligent opinion. Without any reservation, however, I can say that it is by far the best tract of land I have ever been on in Tulare county. Aside from its being well improved, the soil is rich and well watered. During the short space of time allotted me as superintendent of Indian affairs in this State, I found your farm well adapted for the purpose of an Indian reservation. In fact, by reason of its peculiar geographical position and adaptation to the wants of the Indians, I consider it indispensable for the use of Indians in the southern part of this State.

Very respectfully, your obedient servant,
AUSTIN WILEY, Late Superintendent Indian Affairs, California.
Thos. P. Madnen, Esq., San Francisco.

San Francisco, April 16, 1866.
Dear Sir: Your letter of the 11th instant, relative to the sale of my land on Tule river to the government for the purposes of an Indian reservation, and requesting me to set a price thereon per acre, "payable in gold coin," is received.

I am willing to sell the premises to the government, for the object stated, at the rate of ten dollars ( $\$ 10$ ) per acre, gold coin, which is about what the place has cost me.

In this connection, permit me to draw your attention to the enclosed letters on the subject from your immediate predecessors in office, Superintendents Wentworth and Wiley.

Very respectfully, your obedient servant,
THOS. P. MADDEN.
Charles Maltby, Esq.,
Superintendent Indian Affairs, California.

## 1.

## Office Superintendent Indian Affairs,

 La Paz, A. T., August 5, 1867.Sir : I have the honor to forward herewith estimate of funds for the Arizona superintendency for the fiscal year commencing July 1, 1868, the same being itemized and detailed as far as practicable.

Referring to the estimate of $\$ 84,000$ for completing the irrigating canal of the Colorado reservation, I again invite your attention to the insufficiency of the appropriation of $\$ 50,000$ current this year to accomplish the whole work.

The amount above stated, in addition, I think will complete the ditch, buildings, \&cc. I trust that you will concur in this sum, and effect its being appropriated.

Item No. 7, relating to the sum of $\$ 20 ; 000$ for maintaining Indians on the reservation that may be turned over by the military, I regard as very important. There can be no reasonable doubt but that the considerable force now engaged against the hostiles will conquer bands or tribes during the coming year, and it is highly proper that they should be immediately brought on the ieservation, kept there by force, if necessary, and maintained until they can be made self-sustaining.

In the event of such happening this superintendency would be greatly embarrassed if it was without funds so available.

I believe the other items are sufficiently clear without further explanation. Very respectfully, your obedient servant,

> GEO. W. DENT,

Superintendent Indian Affairs, Arizona Territory.

Hon. N. G. Taylor, Commissioner Indian Affairs, Washington, D. C.

## J.

Office of Superintendent Indian Afrairs, Boisé City, I. T., August 26, 1867.
Sir : I have the honor to enclose herewith estimate in duplicate for the funds which will probably be required for removing the Indians of southern Idaho to the Shoshone and Bannock reservation at Fort Hall and subsisting them for one year.

I am, sir, very respectfully, your obedient servant,
D. W. BALLARD,

Governor and ex officio Sup't Indian Affairs.
Hon. N. G. Taylor,
Commissioner Indian Affairs, Washington, D. C.
K.

Office Superintendent Indian Affairs, Boisé City, I. T., August 14, $186 \%$.
Sir : I have the honor to enclose herewith an estimate for funds necessary to the establishing of the Bannock and Shoshone reservation, and putting it into good working order, and carrying it on for one year.

Very respectfully, your obedient servant,
D. W. BALLARD,

Governor and ex officio Supt. Indian Affairs.
Hon. N. G. Taylor,
Commissioner Indian Affairs, Washington, D. C.
P. S.-In view of the fact that our overland mails are so uncertain, I transmit one copy of this and the estimate via San Francisco and Panama, and one via Salt Lake, \&c.

## L.

Flathead Indian Agency, Montana Territory, August 14, 1867.
Sir: I have the honor most respectfally to state, (as an appendix to my official report, which I am striving to complete, to be transmitted of even date herewith,) that since the 15th day of July last, the grist and saw-mill of this agency has been out of order.

I have been compelled to purchase flour for the subsistence of the employés ; and in extending the mill flumes, (which has been onerous and expensive,) I hope by day after to-morrow to find the solution of all my mill difficulties in its successful operation. Since the date above mentioned, I have been compelled to send the grists of the Indians to St. Ignatius mission (sixteen miles distart) to be ground, in order to avert complaints; for the Indians, how much soever 12 E
enlightened, do not seem to know why the mill has stopped working, or rather why their grist cannot be ground. As to the efficiency of this mill, small as it is, I have worked night and day upon it to avoid the necessity of purchasing flour. The dam, with but two inches of fall, is always out of order, which is owing to its location ; and Mr. Chapman (now in, or who told me he was going to Washington) will tell you that he devoted two months of the last summer in repairs upon it, at a heavy expense to the government; a source of vexation to the Indians that they cannot have their grist ground when they come here to the agency, and unless I have a new Burline mill, (such for example as Mr. Barnhart's, at Umatilla, which is one of the finest I ever saw,) it will be impossible for me to discharge my whole duty as the agent to the Indians. I have, therefore, the honor respectfolly to request that there may be forwarded to me, with the annuity goods next fall, a new grist and saw mill, with the approved patent for saw teeth used in California, at work now at the Siletz, Bensoll's depot, (near Siletz, ) and on the Umatilla agency. As my flour is esteemed the whitest and best in the Territory, I could use the two smut machines I now have in the new mill to advantage, for the reason that they are said to be the best to be fuund in any mill hereabouts.

I have, therefore, the honor to request that the estimate herewith annexed may be embodied in the estimates of the Interior Department for action at the ensuing session of Congress ; and that $\$ 10,000$ may be appropriated for a new grist and saw mill at this reserve. The present one is a continuous expense; has been in operation five years and over, and is almost constantly inoperative by reason of breakages from overflows of the violent current of the Jocko river.

I will make this agency self-sustaining, and hope to subject you to no further expense than the requisition for this, and the requisitions which I have already had the honor to make for other expressed purposes.

I have the honor to be, very respectfully, your obedient servant, JOHN W. WELLS, United States Indian Agent.

## Hon. N. G. Taylor,

Com'r of Ind. Aff's, Dep't of the Interior, Washington, D. C.
Estimote.-For one new "Burline" grist and saw mill, to be erected on the Jocko river, two miles east of the Flathead agency proper, viz: in United States currency, $\$ 10,000$ : Provided that the agent be allowed to sell the present mill for the bighest sum he can get, and to the best advantage; the proceeds thereof to be devoted to the cost of the erection of the new mill.

I have the honor to be, most truly and respectfully, your humble and obedient servant,

JOHN W. WELLS,<br>United States Indian Agent.

## M.

Washington, D. C., July 12, 1867.
Sir : Last January government sent special commissioners to us, and to many other tribes in Kansas, to ask us to come to Washington and make treaties, with a view to removing to the Indian territory. In good faith we all came, with all assurances on the part of government that every expense incident thereto should be defrayed by government. On examination of our tribal accounts with the department, we find that $\$ 88251$ of our annuity money has been taken for the specific object against which we were positively and repeatedly assured. We, therefore, in good faith, again ask that the amount be refunded to us, and sent to our people with the payment that is to be sent to us immediately. We need it
very much to pay our debts. We also askt hat $\$ 36779$ be refunded, which was used by the department in investigating a difficulty between government and C . C. Hutchinson. We sincerely believe that that kind of expense ought not to fall on us. We also respectfully ask that $\$ 15,000$ be sent to us next fall out of the proceeds of the sale of our trust lands, for the payment of our tribal debts as provided in the fifth article of our treaty, 1862.

We also ask that our agent be instructed to issue to us our fatents as also provided in the same treaty, seventh article.

We respectfully submit these things for your favorable consideration.
Very respectfully, your friends,

Hon. N. G. Taylor,
Commissioner Indian Affairs.
N.

July 5, 1867.
Dear Sir: The expenses of the Choctaw delegation, incurred on their visit to Washington which resulted in the negotiating of the treaty of 1866, and which were deducted from their annuity funds, have not, as you are aware, been refunded to them, although it was decided by the Secretary of the Interior that the same were chargeable to the United states under the provisions of the treaty. May I, therefore, request most respectfully on behalf of the Choctaw nation that you will cause such an estimate to be made as shall provide for the payment of these expenses in the appropriation bills to be passed by Congress, and their transmission to the national Treasurer.

With much consideration, your most obedient servant,
JOHN H. B. LATROBE,
Attorney for Choctaw Nation.

> Hon. N. G. TAYlor,
> Commissioner of Indian Affairs.

## Office Indian Afrairs, California, San Francisco, April 20, $1866^{\circ}$

Sir : I have the honor to enclose letters from late superintendents of Indian affairs in this State, Messrs. Henly and Beale, handed me by Mr. Thomas P. Madden, with the request that I forward them to the honorable Commissioner of Indian Affairs, as a part of and having reference to his communication to this office as to the price and value of his land now under lease from him and occupied as an Indian reservation at Tule river, and which communication above referred to was forwarded from this office to the department under date of 16 th instant.

Very respectfully, your obedient servant,
CHARLES MALTBY, Superintendent of Indian Affairs, California.
Hon. D. N. Cooley,
Commissioner of Indian Affairs, Washington, D. C.

Dear Sir : In reply to your request for a statement of my opinions in regard to the value of the lands embraced in the Tule river Indian farm, I would state that the lands and location in question are well worth, for any purpose, the price you have named, $\$ 10$ per acre, and would sell, I think, at any time for that price at private sale.

Yours, \&c.,

$$

## T. P. Madden, Esq.

## San Francisco, April 26, 1866.

Dear Sir: In reply to your letter in relation to your land and its value on on Tule river, I reply : Its least value I should think $\$ 12$ per acre. The peculiar situation of the tract, its fine agricultural quality, and abundance of water render it the most desirable in all that section of country. These are enhanced by its proximity to market, lying as it does near the high-road to the most important southern mines. That portion of the State is so rapidly settling with farms that I should think it would readily command that price, offering as it does so many attractions to the agriculturist. I have declined to accept that price for land of the same quality, and considerably further to the southward, and consequently more remote from market.

I have the honor to be, yours truly,

E. H. BEALE.

Thomas P. Madden, Esq.

## P.

Washington, D. C., September 5, 1867.
I have the honor to transmit you letter of honorable William Byers, late superintendent Indian affairs, southern superintendency, relating to the issue of vouchers by George A. Reynolds, and by us filed in your department, amounting in the aggregate to about $\$ 31,000$, asking your early action on the same.

We remain jour obedient servants,
Hon. Oharles E. Mix, Acting Commissioner of Indian Affairs.

Washington, D. C., September 5, 1867.
Gentlemen : Your note of this morning asking me if the wants of the Seminole Indians were such as to require the subsistence mentioned in a voucher issued by Major George A Reynolds, United States Indian agent for the Seminoles, of the 7th of January, 1867, has been received.

In answer thereto I have to say that on the 31st of December, 1866, I transferred to him $\$ 10,000$, and on the 12th of January, $1867, \$ 10,000$, to purchase subsistence for those Indians until I could advertise and let a contract for the subsistence of these Indians, and instructed him to go into open market and purchase at the lowest price, and to distribute the same according to the necessities of those Indians. I advertised and let the contract to Marshall Grimes, esq., of Fort Smith, and forwarded the contract, with all papers in anywise connected therewith, to the Commissioner of Indian Affairs for approval or rejection. This contract was let on the 9 th of February, 1867.

On the 5th of March, 1867, I was at the Seminole agency, and Major Reynolds informed me that the funds which I had placed in hands were exhausted, and that he had been purchasing subsistence for those Indians from Mr. Brown, \&c. Those Indians having been removed to a new country in the fall of 1866 , without any means of subsistence save that which they might receive from the government, their necessities were of that character which made it absolutely indispensable that they should be fed, and I, as superintendent, verbally instructed him to continue to purchase subsistence and feed them until we could hear whether the department had approved the Grimes contract, which I suppose he did.

From some cause unknown to me, I never did get any information from the department relative to the Grimes contract, and I suppose he (Major Reynolds) continued to purchase and feed; under my verbal instructions given on the 5th of March. I do not know anything relative to the correctness of the voucher you refer to, but I do know that it was absolutely necessary to feed those Indians until they could make a crop to prevent them from starving. I have written the above from my recollection of dates.

Yours, respectfully,

> W. BYERS, Late Superintendent of Indian Affairs.

Perry, Fuller \& Co.

Lawrence, August 24, 1867.
Sir : Enclosed please find order of Superintendent Byers relative to the purchase of supplies for Seminoles, sent in complinnce with telegraphic order dated August 23, 1867. I made the indorsement on the vouchers at Fort Smith, from memory, the order being at my agency at the time. You will see that the order is dated December 31, instead of January 7, 1867. My subsequent action, reports, \&c., from time to time to Superintendent Byers, and also his further instructions, written and verbal, the condition of the Indians, and the action of the superintendent relative to advertising a contract, \&c., are at the service of the department if required at any time.

Very respectfully, your obedient servant,

# GEORGE A. REYNOLDS, United States Indian Agent. 

Hon. Charles E. Mix, Acting Commissiuner of Indian Affairs, Washington, D. C.
$\qquad$
Q.

Office Superintendent Indian Affairs, Fort Smith, Arkansas, December 31, 1866.
Sir : Your letter of the 26th instant has just been received, in which you set forth the very destitute condition of the Seminole Indians, and an estimate of what it will cost to supply them per month.

I had twenty thousand dollars ( $\$ 20,000$ ) placed in my hands for subsisting the Seminoles. The Commissioner of Indian Affairs, in his letter of the 9th of November, 1866, gives the following instructions relative to said funds, to wit:
"The item of $\$ 20,000$, for the subsistence of the Seminoles, should be carefully used for that purpose, discriminating in favor of the destitute. Should you find that any articles of subsistence are required for immediate use, you will purchase in open market, on the best terms attainable, a sufficient quantity to last until such time as will enable you to advertise for and receive proposals as provided in the act of March 2, 1861."

The necessities of the Seminoles being so urgent, and it being necessary that purchases should at once be made in upen market of a sufficient quantity of provisions to supply them until such time as will enable me to advertise and receive proposals, as provided in the act aforesaid, I have transferred to you ten thousand dollars, a portion of the twenty thousand dollars aforesaid, for which you will be liable to the United States under your bond, and you will be careful to disburse the same in strict accordance with the instructions given as above stated by the honorable Commissioner of Indian Affairs, by purchasing in open market at the lowest attainable prices, \&c.; reporting your action in this matter immediately to this office.

Very respectfully, your obedient servant, '

W. BYERS, Superintendent Indian Affairs.

Major George A. Reynolds,
U. S. Agent Seminole Indians.

## R.

## Washington, D. C., February 23, 1867.

SIR: I respectfully recommend that an appropriation be made to cover the expenses of appraising the value of permanent improvements made by purchasers on confiscated places restored to their former owners by the third article of the Cherokee treaty of 1866 . It will take not less, perhaps, than three months to perform the duty assigned, which is to be done by one commissioner on the part of the United States, and one on the part of the Cherokee nation, with the right to appoint a third in case of a disagreement. The per diem allowance to be made to the commissioners is left to the determination of the honorable Commissioner.

I have the honor to be, very respectfully, your obedient servant, JOHN J. HUMPHREYS, United States Agent for the Cherokees.
Hon. L. V. Bogy,
Commissioner of Indian Affairs.

GENERAL LAND OFFICE.

## Department of the Interior, General Land Office, September 2, 1867.

Sir: I have the honor to transmit to the department the enclosed estimates for the surveying service :

1. For the compensation of surveyors general, their clerks, and incidental expenses of the offices for the fiscal year ending June 30, 1869
\$108, 90272
2. For surveying the public lands in twelve different surveying districts, including the surveys of boundary lines between several States and Territories, and exclusive of the survey of Indian reservations under treaty stipulations.

417, 54500

$$
\text { Total........................................................... . . } 5 \text { 526,44772 }
$$

The estimates of appropriations required for this office and to meet the expenses of collecting the revenue from the sales of public lands for the same fiscal year, will be shortly presented to the department in a separate communication.

I have the honor to be, very respectfully, your obedient servant, JOS. S. WILSON, Commissioner.

## Department of the Interior, General Land Office,

September 9, 1867.
Sir: I have the honor to submit herewith estimates of the appropriations required by this branch of the public service for the fiscal year ending June 30, 1869:

1. The estimates of salaries for this office include the number of clerks and employés authorized by the several acts of Congress, the amount estimated being the same as that called for and appropriated last year.
2. Estimates of contingent expenses of this office, which include the sum of $\$ 600$ for the purchase of a horse and carriage for official uses.
3. Estimates of salaries and commissions of district land officers, and incidental expenses of district land offices. On account of the general increase of business and the opening of additional land offices in pursuance of the act of Congress approved July 26, 1866, it will be perceived that an excess of $\$ 3,800$ is shown over the estimates and appropriations for the fiscal year ending June 30, 1868.

Estimates for the surveying service are submitted in a separate communication. I am, with great respect, your obedient servant,

JOS. S. WILSON, Commissioner.

Hon. O. H. Browning, Secretary bf the Interior.

Estimates of appropriations required for the office of the Commissioner of the Generàl Land Office for the fiscal year ending June 30, 1869.

## EXPLANATION OF THE FOREGOING ESTIMATES.

15. $\$ 2,50272$ is estimated fer the reason of unexpended balance of $\$ 49728$, which will exist on the 30 th June, 1868, cansed by there being no surveyor general appointed and qualifed from July 1 to December 1, 1866, and by non-payment of W. B. Thornburgh's salary as surveyor general from March 5 to May 18 , 1867 , whose appointment was not confirmed by the United States Senate which adjourned on the 4th of March, 1867, the 4th section of "An act regulating the tenure of certain civil offices," approved March 2, 1867, inhibiting the pay ment-Vide United'States Laws 1866-67, page 430.

10 and 29 . No estimates are submitted for the reason that existing balances of former appropriations for those purposes will be more than sufficient for the service,
$26,27,28,31,32,33,34,35$, and 36 . The organic acts of Congress provide for the respective surveying districts $\$ 1,000$ for incidental expenses of the surveyors general's offices. The amount having proved insufficient, estimates have been submitted from year to year and appropriations made according to the actual necessities.

GENERAL LAND OFFICE, September 2, 1867.

## EXPLANATION OF THE FOREGOING ESTIMATES.

1. $⿻ \begin{gathered}20 \\ 2\end{gathered} 000$ here estimated is to be spplied to the survey of pine lands on the Upper Mississippi river, and other public lands, in the western and southwestern portions of the State, required for immedıate settlements. for actual settlements.
2. $\$ 25,000$ is estimated for the survey of standard and township lines in the mineral regions, and for the subdivision of agricultural iands to meet the actual demand of gettlers.
3. $\$ 50,000$ is estimated for surveys along the Platte river, in view of the obligations on the part of the government along the line of the Union Pacific railroad from Omaha to the

Pacific ocean, and for the survey of other parts of the State needed for settlement.
$5 . \$ 40,000$ is estimated for the survey of public lands up the Smoky Hill fork, along and contiguous to the Union Pacific railroad, and such other portions of the State already settled upon and awaiting the extension of the lines of public surveys.
6. $\$ 40,000 \mathrm{~h}$ mein estimated is to be applied to the extension of the standard lines to the Parks within the Rocky mountains, for surveying township and section lines therein, and for the subdivision of townships falling within the railroad grant along the northern boundary of Colorado,
7. \$50, within the 0200 ments,
nning township and subdivisional lines in different valleys affording agricul-
9. $\$ 5,000$ is estimated for continuing the suryey of base, meridian, township, and section lines in such portions of the Territory as will be found demanding public lands for actual settlements.
10. $\$ 5,000$ is estimated for the extension of the base, meridiar; and standard parallels to the mineral districts, and for the survey of township and section lines in localities comprising agricultural lands.

1. $\$ 50,000$ is estimated for the survey of the public lands situated within the limits of the Central Pacific railroad grant, and other grants for similar purposes in the State, and to meet demands of settlers in different portions thereof.
2. $\$ 25,000$ is estimated for the extension of the lines of public surveys along the railroad routes from Eugene City to the eastern boundary of the State; Corvallis to the Aequina bay, on the Pacific, and from Albany to Cañon City, and for the survey of other parts of the State requiring the surveys.
lis. \$1. 0 or 14 \$5 000 is cstimeted for
fetracing and re-establishing obliterated lines of former surveys, and thereby enable surveys of cities and towns on boundaries to be adjusted with the lines of public surveys.
face of the earth, in order to afford the ne estimated for determining the boundaries of states and Territories involving astronomical work, and marking the same conspicuously on hem. Mining interests and their adjudication by the respective courts of law, as well as political and civil jurisdictions, imperatively demand the ascertainment and perpetuation of those boundaries.

Note.-By the act of Congress approved May 30, 1862, the power of fixing the rates per mile for surveys is expressly delegated to the Commissioner, but "in no case to exceed the naximum established by law, It is hence his duty to reduce the rates under the maximum stipulated in the estimates, according as circumstances may allow, and therefore the maximum, in said estimates, are by no means to be considered the controlling rates,

REMARK.-No estimates are here submitted for the survey of Indian and other reservations contemplated by the 6th section of the act of Congress approved April 8, 1864, (Statutes, vol. 13, page 41,) as such estimates should more appropriately emanate from the Office of Indian Affairs, whose province it is to determine the localities and extent of such reservations, as the lndian office was advised by letter of the 31st August lapt from the Commissioner of the General Land Office.

## General Land Office, September 2, 1867.

## CO:UMBIA INSTITUTION FOR THE DEAF AND DUMB.

Columbia Institution for the Deaf and Dumb, Washington, September 14, 1867.

Sir : I have the honor herewith to transmit estimates of expenditures in this institution for the year ending June 30, 1869.

On comparing these with the appropriations for the current year it will be seen that the amount required for the support of the institution remains unchanged, while the sums for the continuation of the work on our buildings and grounds are somewhat less than those asked for last year.

In our annual report, soon to be forwarded to the department, will be found the usual detailed explanations in regard to these estimates.

Very respectfully, your obedient servant,

LEWELLYN PRATT, Acting President.

Hon. O. H. Browning,<br>Secretary of the Interior.

# Estimates of appropriations required for the Columbia Institution for the Deaf and Dumb for the year ending June 30, 1869. 

For the support of the institution, including one thousand dollars for books and illustrative apparatus, twenty-five thousand dollars
For the erection, furnishing, and fitting up of additions to the buildings of the institution, to furnish additional accommodations for the increased number of pupils, and for the resident officers, fifty-three thousand two hundred and fifty dollars.

53, 25000
For the enlargement and improvement of the grounds of the institution, five thousand six hundred dollars

Washington, D. C., September 14, 1867.

## Columbia Institution for the Deaf and Dumb, Washington, October 29, 1867.

Sir : I would beg leave to ask your special attention to the closing portion of the anrual report of this institution, which I had the honor of submitting to you yesterday.

It will be observed that the board of directors instructed me to ask for the insertion of two items in your estimates for the deficiency bill.

As stated in the report, our need of the sums thus asked for does not arise from any inaccuracy in our last year's estimates, nor yet from the undertaking on our part of any work not already authorized by Congress.

An unexpected increase in our numbers, resulting from an act passed on the 2 d of March last, and the speedy further increase likely to flow from this legislation, compels us to ask for the means of advancing the work on our buildings at a more rapid rate than we had supposed would be necessary when our last year's estimates were handed in.

The existing appropriations for building purposes will be exhausted by the 1st of December, and the next regular appropriations will not be available until the 1st of July, 1868.

The portions of our buildings now complete and habitable are designed for the accommodation of about eighty pupils, while the number actually in the institution at the present time is one hundred and four, being an excess of twenty-five per cent. above the proper maximum.

We anticipate that by next fall room will be required for one hundred and thirty; hence our desire to resume building operations on the sections now in progress at as early a day as possible in the spring.

The plans and drawings submitted last year in our report are designed to meet the requirements of two hundred and twenty-five pupils. It has been always our policy to extend our buildings only so fast as to meet the actual wants of the institution in its advance towards final completion.

The appropriation now asked for involves no outlay jaot previously contemplated and estimated, and will not affect the aggregate final cost of our work. The effect of its passage by Congress will simply be to bring two years' work into one, a course rendered necessary by the sudden increase in our numbers incident to the unexpected action of Congress in extending the range of admissions by the act of March last, already referred to.

The item of $\$ 3,000$ for support is also required to meet the increased expenseof receiving and maintaining the pupils admitted under the above act.

I trust, therefore, that the accompanying estimates may meet your sanction, and may be inserted in the schedule of deficiencies forwarded to Congress by the department.

I have the honor to be, very respectfully, your obedient servant, E. M. GALLAUDET, President.

Hon. O. H. Browning,<br>Secretary of the Interior.

Estimates of additional appropriations required for the Columbia Institution for the Delaf and Dumb, to meet deficiencies during the year ending June 30,. 1868.

For deficiencies in the appropriation for the support of the institution, three thousand dollars
$\$ 3,00000$
For the erection, furnishing, and fitting up of additions to the buildings, to provide increased accommodations for the male and female pupils, and for the resident officers, forty-eight thousand dollars.
$48,000 \quad 003$

## GOVERNMENT HOSPITAL FOR THE INSANE.

## Government Hospital for the Insane, Near Washington, D. C., Octuber $1 \overline{0}, 1867$.

Sir : I have the honor to present herewith estimates of the sums respectively required to support the institution during the fiscal year ending June 30 , 1869, to complete, furnish, light, and heat the eastern sections of the hospital edifice, and to purchase a tract of one hundred and forty-eight (148) acres of land lying east of the present grounds of the hospital, and separated from them by the public road.

The sum asked for the support of the hospital during the fiscal year 1868-'69 is the same that has been annually appropriated by Uongress for the same purpose for four years past, and will be sufficient, I think, for the year in question. The expectation expressed in the letter which accompanied my estimates a year ago, that the extension, by act of Congress, of the privileges of the institution to certain classes of ex-soldiers would materially increase the number of inmates and the cost of the support of the establishment, has been realized; but the regular annual increase, both of the products of the farm and of paypatients, from whom a revenue is derived somewhat in excess of the actual cost of their treatment, will, it is thought, render it unnecessary to ask for any increase of this appropriation.

It will be recollected that a general army hospital was established and conducted in connection with the institution during most of the period of the late war. Most of the sick and wounded men occupied the eastern sections of the east wing of the hospital edifice, which were unfinished at the breaking out of the war. Upon the breaking up of this temporary hospital, the finishing, furnishing, lighting, and heating the vacated wards were resumed and have been prosecuted as rapidly as the work could be well and economically done, and it is now believed that the appropriation asked for this purpose will be sufficient to complete the main edifice of the institution.

The land for the purchase of which the third (3d) item of the accompanying estimates is submitted, and the present grounds of the institution, formerly constituted one tract, and reunited they would form a symmetrical farm in the form of a parallelogram, with sufficient land and variety of soil, surface, and exposure, and water supply for the somewhat extended agricultural operations needed, both for the most economical support and for the most favorable sanitary treatment of a large collection of the insane. In order to supply the institution with meats and butter of the most healthful qualities, at reasonable cost, it is necessary to buy store cattle and sheep, and graze and feed them for a greater or less length of time, according to their condition at time of purchase, and slaughter them as they reach a proper condition and are needed for immediate consumption, and to make in our own dairy all the butter used by our household. The present area of land possessed by the hospital affords, besides the grounds occupied by the buildings and the large parks devoted to the recreation of the patients, the pasturage, mowing, and tillage necessary to supply the inmates with pure and wholesome milk, vegetables, and fruit in sufficient quantities, but nothing more. In view of the economical and sanitary considerations stated I have long thought it very desirable that the hospital should have the use of this tract of land; but fearing that the department would regard the price at which it has heretofore been held as unreasonably high, I have hitherto been deterred from submitting an estimate for its purchase. It can now, however, be bought for the sum I respectfully recommend you to ask for that purpose, including all expenses of survey, examination of title, and conveyance to the United States, which is a considerably less rate per acre, considering the difference in the value of currency and gold, than that paid for the grounds originally acquired for the uses of the institution; and in the first case all expenses of survey, examination of title, and conveyance were borne by the government. It being my earnest conviction that the prosperity and usefulness of this institntion will be greatly subserved by the purchase, for its use, of this tract of land, and being of the opinion that no contingency in the future history of the hospital is likely to render any further addition of land either necessary or particularly desirable, I hope this estimate will meet your approval and be voted by Congress.

An estimate of the sum that has been appropriated for several years for enclosing the grounds of the hospital with a brick and stone wall is omitted this year, partly on account of the estimate just submitted for the purchase of land, and partly with the hope that the sums already appropriated will prove sufficient to nearly or quite complete the wall, which is now being built rapidly and well, and at a very reasonable cost.

I am, sir, very reespectinlly, your obedient servant,
C. H. NICHOLS, Superintendent.

Hon. O. H. Browning, Secretary of the Iaterior.

1. For the support, clothing, and medical and moral treatment of the insane of the army and navy and revenue cutter service, and of the indigent insane of the District of Columbia, in the government hospital for the insane, during the year ending June 30, 1869, including five hundred dollars (\$500) for books, stationery, and incidental expenses, ninety thousand five hundred dollars ( $\$ 90,500$.)
2. For finishing, furnishing, lighting, and heating the unfinished part of the east wing of the main hospital edifice, seven thousand dollars $(\$ 7,000$.)
3. For the purchase by the Secretary of the Interior, for the agricultural purposes of the institution, one hundred and forty-eight acres, more or less, of land lying directly east of the present grounds of the hospital, and separated from them by the public road, twenty-three thousand dollars (\$23,000.)

## CAPITOL EXTENSION.

Architect's Office, Capitol Extension, Washington, August 26, 1867.

Sir: In compliance with your directions of the 2d instant, I have the honor to submit herewith the estimate of the expenditures of this office for the next fiscal year, ending June 30, 1869.

I am, very respectfully, your obedient servant,
EDWARD CLARK,
Archrtect Caprtol Extension.
Hon. O. H. Browning, Secretary of the Interior.
Estimates of appropriations necessary to continue the public works, under the
supervision of the architect of the Capitol extension, for the next fiscal year,
ending June 30, 1869, and for payment for balances found due.

CAPITOL EXTENSION.
For continuing the work of the Capitol extension. $\$ 125,00000$

Contingent expenses ..... 1,500 00
Total ..... 37,34700

The estimate for pay of officers and laborers is based upon the namber actually employed at present. It is considerably larger than preceding expenditures under this head, but the number of guards now employed is actually necessary, in view of the insecurity of the building and the desperate character of the prisoners frequently confined therein. The duties of a messenge:, apart from the number of guards employed, are sufficiently onerous to warrant the constant employment of one.

WILLIAM H. HUESTIS, Warden.

## SMITHSONIAN INSTITUTION.

Smithsonian Institution, Washington, July 20, 1867.

Sir: I have the honor, herewith, to submit the following estimate of the appropriation required for the preservation and care of the government collections
of natural history, \&c., deposited in this institution, for the year ending June 30, 1869.

The amount required is the same as that appropriated for the last fiscal year.
For the preservation of the collection of the exploring and surveying expeditions of the government, ten thousand dollars.

I have the honor to be, your obedient servant,
JOSEPH HENRY, Secretary Smithsonian Institution.
Hon. O. H. Browning, Secretary of the Interior.

## WAR DEPARTMENT.

War Department, Washington, November 7, 1867.
Sir : I have the honor to transmit herewith the estimates of this department for the military service, and for public buildings and grounds, and Washington aqueduct, for the fiscal year ending June 30, 1869.

Ihe estimates for the army proper are based upon the maximum strength of the army authorized by law.

Should the Iudian difficulties in the west be settled, as it is confidently expected they will be, by the treaties now being made with them, then the army will be gradually decreased to its minimum strength, and the expenditures for recruiting and for the pay and quartermaster departments will be materially reduced below the amounts estimated for, probably ten millions of dollars.

The amount asked for fortifications is $\$ 2,245,000$. Whether that sum will be expended, if appropriated, depends upon the question, not yet determined, of changing the present system of defence to one better calculated to resist modern projectiles.

The amounts estimated for rivers and harbors are only what is actually required for the improvements needed at the different points named; but it is not anticipated that the full amount will be given.

Very respectfully, your obedient servant,

## U. S. GRANT, Secretary of War ad interim.

## Hon. H. McCulloch, <br> Secretary of the Treasury.

ADJUTANT GENERAL'S OFFICE.

## Adjutant General's Office, Washingtom, September 10, 1867.

SIR: In compliance with circular letter from the Register of the Treasury, dated August 14, 1867, received at this office from the War Department August 20, 1867, I have the honor to submit herewith estimates of appropriations required for the service of the Adjutant General's department for the fiscal year ending June 30, 1869.

I have the honor to be, sir, very respectfully, your obedient servant,

> E. D. TOWNSEND, Assistant Adjutant General.

General U. S. Grant,
Secretary of: War ad interim, Washington, D. C.

## QUARTERMASTER GENERAL'S OFFICE.

## Quartermaster Generae's Office, Washington, D. C., September 4, 1867.

Sir: I have the honor to submit herewith certain estimates required from this office for the fiscal year commencing July 1, 1868, and ending June 30, 1869. They are-

Estimate for the ordinary expenditures of the quartermasters' department proper, marked $\mathbf{A}$.
Estimate of contingencies of the army, marked 0 .
These estimates are based upon a force of 55,635 men, comprising 10 regiments of cavalry; 5 regiments of artillery, including 10 batteries; 45 regiments of infantry, and 1,000 Indian scouts.

The amount estimated for the ordinary expenditures of the quartermasters' department (A) is $\$ 28,180,06620$, and is nade up under six different headings, thus: "regular supplies," "ineidental expenses," "mounts and remounts," " mileage," "army transportation," and "barracks and quarters." If the whole amount could be appropriated under one general head, say for the service of the quartermasters' department, instead of dividing it among the six different headings above mentioned, there would be a great saving of labor now required, from the necessity of analyzing all the expenditures under their appropriate headings, and would avoid the frequent transfer of funds from one heading to another.

I am, sir, with great respect, your obedient servant,

## D. H. RUCKER,

## Brevet Major General U. S. A., Acting Q. M. General.

The Secretary of War.

## A.

Annwal estimate of the qwartermasters' department for the year 1868-1869.
Estimates of appropriations under the control of the quartermasters' department required for the service of the fiscal year ending June 30, 1869, in accordance with the following acts of Congress, and the regulations of the War Department suthorized by those acts, viz : The second section of an act to establish a quartermasters' department, approved March 28, 1812 ; Laws 2, page 696.

The third section of an act to amend the above, approved May 22, 1812; Laws 2, page 743.
The fifth section of the act of March 3, 1813, for the better organization of the general staff of the army of the United States; Laws 2, page 819.

The act of March 2, 1819, to regulate the pay of the army when employed on fatigue duty; Laws 3, page 488.

The ninth section of the act of April 24, 1816, organizing the general staff, \&c.; Laws 3, page 298.

The act of March 2, 1821, to reduce and fix the military peace establishment of the United States; Laws 3, page 615.

The tenth section of the act of July 5, 1838, to increase the present military establishment, \&c. ; Laws 5, 257.

The eighth and eleventh sections of the act of June 18, 1846, supplemental to an act providing for the prosecution of the war with Mexico; Laws 9, page 18.

The third and fourth sections of the act of February 11, 1847, to raise for a limited time an additional military force, and for other purposes : Laws 9, pages 124, 126.

The act of September 26, 1850, to increase the commissariat of the United States army; Laws 9 , page 469.

The sixth section of the act of August 4, 1854, to increase the pay of the rank and file of the army, and to encourage enlistments; Laws 10, page 576.

The act of August 16, 1856, providing for a necessary increase and better organization of the medical and hospital department of the army ; Laws 11, page 51.

The act of July 29,1861 , to increase the present military establishment of the United States; Laws 12, pages 279, 281.

The act of August 3, 1861, providing for the better organization of the military establishment ; Laws 12, pages 287, 290.

The act of August 6, 1861, to promote the efficiency of the engineer and topographical engineer corps, and for other purposes; Laws 12, pages 317, 318.
The act of August 6,1861 ; to inerease the pay of the privates in the regular army, and in the volunteers in the service of the United States, and for other purposes ; Laws 12, page 326, section 3.
The first section of the act of February*22, 1862, making appropriations for the signal service of the United States army ; Laws 12, page 344.
The first. second, and twelfth sections of the act of July 17, 1862, to define the pay and emoluments of certain officers of the armyं, and for other purposes; Laws 12, pages 594, 596.

And the regulations of the War Department in accordance with the above recited acts and sections of acts of Congress.

Heads of appropriations.

## I. REGULAR SUPPLIES

For the regular supplies of the quartermasters' department, consisting of fuel for officers, enlisted men, guards, hospitals, storehouses, and offices: of forage in kind for the horses, mules, and oxen of the quartermasters' department at the several posts and stations, and with the armies in the field, for the horses of the several regiments of cavalry, the batteries of artillery, and such companies of infantry as may be mounted, and for the authorized number of officers' horses when serving in the field and at the outposts, including bedding for the animals; of straw for soldiers' bedding; and of stationery, including blank books for the quartermasters' department, certificates for discharged soldiers, blank forms for the pay and quartermasters' departments, and for printing of division and department orders and reports-

II. INCIDENTAL EXPENSES.

For the incidental expenses of the quartermasters' department, consisting of postage on letters and packets received and sent by officers of the army on public service ; expenses of courts-martial, military commissions, and courts of inquiry, including the additional compensation of judge advocates, recorders, members, and witnesses while on that service, under the act of March 16, 1802; extra pay to soldiers employed under the direction of the quartermasters' department in the erection of barracks, quarters, storehouses, and hospitals, in the construction of roads, and other constant labor for periods of not less than ten days, under the acts of March 2, 1819, and August 4, 1854, including those employed as clerks at division and department headquarters; expenses of expresses

to and from the frontier posts and armies in the field; of escorts to prymasters and other disbursing officers, and to trains where military escorts cannot be furnished; expenses of the interment of officers killed in action, or who die when on duty in the field, or at posts on the frontiers, or at posts and other places when ordered by the Secretary of War, and of non-commissioned officers and soldiers; authorized office furniture; hire of laborers in the quartermasters' department, including the hire of interpreters, spies, and guides for the army; compensation of clerks to officers of the quartermasters' department; compensation of forage aud wagon-masters authorized by the act of July 5, 1838; for the apprehension of deserters and the expenses incident to their pursuit; and for the following expenditures required for the several regiments of cavalry, the batteries of light artillery, and such companies of infantry as may be mounted, viz: the purchase of travelling forges, blacksmith's and shoeing tools, horse and mule shoes and nails, iron and steel for shoeing, hire of veterinary surgeons, medicines for horses and mules, picket ropes, and for shoeing the horses of the corps named; also, generally, the proper and authorized expenses for the movement and operations of an army, not expressly assigned to any other department.
III. MOUNTS AND REMOUNTS.

For the purchase of cavalry and artillery horses, and horses for Indian scouts
iv. MILEAGE TO OFFICERS OF THE ARMY.

For mileage, or the allowances made to officers of the army, for the transportation of themselves and their baggage, when travelling on duty without troops, escorts, or supplies
v. TRANSPORTATION OF TROOPS AND SUPPLIES.

For transportation of the army, including baggage of the troops when moving either by land or water, of clothing, camp and garrison equipage, from the depots of Philadelphia, Cincinnati, and New York to the several posts and army depots, and from those depots to the troops in the field, and of subsistence stores from the places of purchase, and from the places of delivery under contract, to such places as the circumstances of the service may require them to be sent; of ordnance, ordnance stores, and small-arms from the foundries and armories to the arsenals, fortifications, frontier posts and army depots; freights, wharfage, tolls, and ferriages; the purchase and hire of horses, mules, oxen, and harness, and the purchase and repair of wagons, carts, and drays, and of ships and other sea-going vessels and boats required fur the transportation of supplies, and for garrison purposes ; for drayage and cartage at the several posts; hire of teamsters; transportation of funds for the pay and other disbursing departments; the expense of suiling public transports on the various rivers, the gulf of Mexico, and the Atlantic and Pacific; for procuring water at such posts as from their situation require it to be brought from a distance; and for clearing roads and removing obstructions from roads, harbors, and rivers to the extent which may be required for the actual operations of the troops in the field. $\qquad$

## SURGEON GENERAL＇S OFFICE．

## Washington City，September 5， 1867.

SIR：In accordance with the request contained in a circular letter from the Register of the Treasury，dated August 14，1867，I have the honor to submit the accompanying estimate of funds for the medical and hospital department during the fiscal year ending June 30， 1869.

The balance remaiaing from the proceeds of the sales of surplus hospital property will be sufficient for the ordinary wants of the medical department for the period in question；but it is desirable that a distinct authorization be given for the items of expenditure embraced in the estimate．

Very respectfully，your obedient servant，

> J. K. BARNES, Surgeon General United States Army.

## EXPLANATIONS AND DETAILS OF THE FOREGOING ESTIMATE．

Ordnance service．－The amount estimated for under this head is required to defray the ex－ peuses at the arsenals of receiving stores and issuing arms and other ordnance supplies；of police and office duties；of rents，tolls，fuel and lights；of stationery and office furuiture；of tools and instruments for use；of public animals，forage，and vehicles；incidental expenses of the ordnance service，including those attending practical trials and tests of ordnance， small－arms，and other ordnance supplies．

Ordnance，ordnance stores，and supplies．－The amount that may be available under this head will be applicable to the payment of all expenses for the purchase，manuftcture，and repair of field，siege，and heavy cannon，carriages，implements，equipments，ammunition， small－arms，accoutrements，and equipinents for infantry，cavalry，and artillery，with the ap－ pendages and parts pertaining thereto，including packing boxes and saddles and armorers＇ tools for repairs in the field and at depots．

Manufacture of arms．－The amount that may be available under this head will be applica－ ble to the manufacture of new breech－loading arms，and to the alteration of muzzle－Joaders to breech－loaders．

Purchase of land at Springfield armory．－The object of this purchase is to secure a very， fine spring of pure water which runs from fifty to seventy－five gallons per minute．There
are times when this water is necessary for the operations of the armory, and in case of an extension of these operations it may be essential.

## REPAIRS AND IMPROVEMENTS AT ARMORIES AND ARSENALS, VIZ:

Rock Island armory and arsenal.
First. For completion of two of the principal workshops required for this armory and arsenal.
$\$ 200,00000$
Second. Towards the construction of other permanent buildings and shops required for this armory and arsenal

300,00000
Third. For magazine for powder and ammunition, including excavation and material.

30,000 00

Fifth. For cleaning up grounds and making permanentroads, gutters, \&c., \&c 20,000 00
Sixth. For raising up and repairing saw-mill
5, 00000
Seventh. For repairing wagon road bridge at Moline.
$3,000 \quad 00$

## Total

$\$ 758,00000$
Remarlcs.-First. Owing to the excess in cost of material and the excavations of foundations, \&e., beyond what was anticipated when the former estimate was made, it is believed that this will not be more than, if so much as, will be required to finish these buildings on the plan proposed.
Second. To carry out the provisions of the law for the establishment of an arsenal and an armory at Rock island; this sum is to be applied to the erection of barracks and guard-houes, offices for the post, and quarters for subaltern officers.
Third. There is quite a large amount of ammunition now stored in temporary wooden buildiugs, which buildings are located on the site of permanent shops for armory purposes, and should be removed as soon as practicable.
Fourth. This shop should be erected before commencidg to build on location of present site of temporary machine and blacksmith shops, as the present smith shop would have to be removed and tenpporarily erected elsewhere.
Fifth. There is a large amount of work of this kind still to be done here, and it should be prosecuted yearly until completed.
Sixth. This mill is greatly out of repair, is needed for sawing lumber, and is so low down that the main driving belts are under water at anything above ordinary stages.
Seventh. This bridge is old and out of repair, and is needed for communicating with the town of Moline, opposite the head of Rock island.

## Alleghany arsenal, Pittsburg, Penn.

For repairs of buildings and fences and new skidding for cannon.............. $\$ 8,35000$
Remarks.-To keep the public buildings and enclosures in good order, and to provide for receiving, delivering, and preserving cannon.

## Augusta arsenal, Augusta, Ga.

Remarks.-First. There is a want of room here for the storage of powder, and there is a good and safe site for such a building on the public land.
Second. The enlisted men at the arsenal are much crowded in their quarters, and there are no proper accommodations for married men.
Third. The storehouse requires a new floor and rail track, and there are other miscellaneous expenditures necessary to keep the post in good order.

## Baton Rouge arsenal, Baton Rouge, La

## Remarks.-First. A stable is necessary for the pnblic horses at this post.

Second. The public buildings at this arsenal have not been painted or repaired for a long time.
Benicia arsenal, Benicia, Cal.
First. For permanent barracks for one hundred enlisted men, with cistern forthe same$\$ 53,00000$
Second. For guard house and fire engine house under one roof ..... 11,500 00
Third. For brick stables ..... 000
Fourth. For office building ..... 11,500 00
Fifth. For officers' quarters ..... 18, 00000
Total ..... 101,000 00

Remarks.-First. There are no permanent barracks now at this arsenal, and the enlisted men are quartered in an`old wooden building, not plastered or lined, with a decayed shingle roof and decayed weather-boarding. There is also not sufficient space in this building for the proper accommodation of the men. The cistern is necessary, as all the rain water that can be obtained is needed for the use of the post.
Second, third, and fourth. The guard house, office, and stable, now in use, are old buildings put up for temporary service and always requiring repair. Instead of constant expenditures for patching up these buildings, it is better to erect permanent structures.

Fifth. Another set of quarters is required for the accommodation of additional officers at this post

> Fort Mcnroe arsenal, Old Point Comfort, Va.

For the erection of a stable
$\$ 4,50000$
Remarks.-The present stable is not large enough for the public animals necessarily in use, and is also quite an old building and very much decayed.

Frankford ars'nal, Bridesburg, Penn.
For new slate roof for soldiers' quarters $\uparrow$......................................... $\$ 88200$
Remarks.-This building is now covered with a shingle roof in a leaky condition and requires re-covering.

## Kennebec arsenal, Augusta, Me.

For repairs and preservation of public buildings, culverts, and fences......... $\$ 2,30000$
Remarks.-Frequent repairs are required in this climate to keep the buildings, culverts, and fences in good order.

## Leavenworth arsenal, Leavenworth, Kan.

For repairs and preservation of public buildings, sewers, and drains, and for improving public grounds
Remarks.-To preserve and keep in good order the buildings and grounds of this post.

## Mount Vernon arsenal, Mount Vernon, Ala.

For repairing and keeping in good order public buildings, sewers, wharf, and grounds
$\$ 5,00000$
Remarks.-To put and keep in good order the public buildings and post.
New York arsenal, Governor's island, N. Y.
First, For erecting a fire engine house ............................................ $\$ 2,67400$
Second. For repairs of office and quarters, and draining grounds................ 2, 10000
Total
4,774 00
Remarks. - First. To shelter and preserve the fire engine of the post.
Second. For furnaces and air flues for heating office and quarters, and for covered gutters to drain grounds.

## Pikesville arsenal, Pikesville, Md.

Fpr repairs of public buildings and a new flag-staff
$\$ 80000$
Remarks.-To keep the public buildings in good order; the present flag-staff, put up in 1843, is decayed and rotten and requires renewing.

## St. Louis arsenal, St. Louis, Mo.

For repairs and improvements of public buildings and grounds, and for roads to and enclosing and grading magazine grounds on the Jefferson barracks reservation
Remarks.-To keep the public buildings and grounds of the arsenal in good order and to have ready access to the magazines on the reservation.

## Tancouver arsenal, Vancouver, W. T.

For erecting one set of officers' quarters
$\$ 10,00000$
Remurks. - To replace the only set of officers' quarters at this arsenal, which bave been destroyed by fire.

## Washington arsenal, Washington, D. C.

For the erection of new workshops on the arsenal extension $\$ 100,00000$
Remarks - All the jresent shops are old, decayed and out of position. It is necessary, in order to make this arsenal a proper public establishment of the kind at the seat of government, to erect new and suitable workshops on the arsenal extension which has been purchased and prepared for the purpose.

## Watertown arsenal, Waterforon, Mass.

First. For an iron railing to enclose the entire arsenal grounds
$\$ 98,50000$
Second. For the erection of a magazine for fixed ammunition, two hundred feet long

$$
21,500 \quad 00
$$

Third. For additional barracks for enlisted men 10,000 00
Fourth. For removal of laboratory buildings. 2,882 00
Fifth. For additions to and repairs of machinery and the post
8,00000

## Total

140, 88200
Remarks.-First. This is required for the security and protection of the public property and for the preservation and maintenance of military discipline.
Second. The ammunition is now insecurely stored in a wooden building, which requires two night watchmen, and which from its close proximity to private dwellings; the laboratory and shops, constantly endangers life and property.

Third. The present quarters for enlisted men were erected for a much smaller force than is now required for the post, and are wholly inadequate to the wants of the company. The addition is necossary for the health and comfort of the men.
Fourth. The recent addition to the arsenal grounds provides a good site for these buildings, where they may be located without endangering the lives of the operatives in the workshops; the underpinning is being destroyed by dry rot, and the whole pile must be elevated atid repaired at considerable expense, if not removed.
Fifth. To provide suitable machinery required for the operations of this arsenal of construction and to keep the post in good order.

## Watervliet arsenal, West Troy, N. Y.

First. To complete the removal and rebuilding of the present river wall and to complete the wharf extension eight hundred and seventy-five feet
$\$ 20,00000$
Second. For grading and draining the grounds recently purchased and the swamp west of the artillery storehouse

6,00000
Total
26,00000
Remarks.-First. Ten thousand dollars were appropriated last year for commencing this improvement, with the expectation that the work could be done advantageously in sections ; but upon more careful examination of the bed of the river at low water this year, it was found to be best to undertake the whole length at once, completing it during the season. The amount appropriated has not, therefore, been expended, and that now asked for will, with it, be sufficient to complete the improvement. The plan proposed will give a greatly improved river front with ample wharfage, having about eight feet of water at the low stage of the river and a good height of wall for use in all stages except the highest freshets. We shall regain about ninety thousand superficial feet of valuable land and increase greatly our facilities for receiving and issuing promptly and safely military stores as required at this arsenal. The improvement, thus important in a military point of view, is deemed by the citizens of the neighborhood proper and necessary, such as the government as a land owner should make, and is recommended by the engineers in charge of the river improvements as likely to be advantageous in its effects upon the navigation.

Second. Necessary to make these grounds suitable for the public purposes of the arsetal.
Contingencies of arsenals
$\$ 20,00000$
Remarks.-To meet such unforeseen expenditures for repars at arsenals as accidents or other contingencies during the year may render necessary.
A. B. DYER,

Brevet Major General, Chief of Ordnance.

## Ordnance Office, War Department, Washington, September 10, 1867.

Sir : I have the honor to submit herewith an estimate of funds required for clerks and messengers and for contingent expenses of the ordnance office for the year ending June 30, 1869.

Very respectfully, your obedient servant,
WM. MAYNADIER, Brevet Brig. Gen., Acting Chief of Ordnance.

## FOR INCIDENTAL AND CONTINGENT EXPENSES.

For stationery, office furniture, and other miscellaneous expenses
WILLIAM MAYNADIER, Brevet Brigadier General, Acting Chief of Ordnance.

Ordnance Office, September 10, 1867.

## MILITARY ACADEMY.

## War Department, Office of Inspectior of the Military Academy, Washington, October 15, 1867.

Sir: I have the honor to submit herewith an estimate of funds required for the service of the United States Military Academy during the fiscal year ending June 30,1869 , accompanied by a detailed statement of the items of the estimate for "current and ordinary expenses."

Very respectfully, sir, your obedient servant,
ED. SCHRIVER, Inspector.
The Secretary of War.

## United States Military Academy, West Point, N. Y., '̀eptember 30, 1867.

General: I have the honor to transmit herewith estimate of funds for the United States Military Academy for the fiscal year ending June 30, 1869, and beg to submit the following remarks in explanation of the varions items:

1. Current and ordinary expenses.-The amount asked for for these purposes exceeds the amount appropriated for the present year by the sum of six thonsand three hundred and thirty-eight,dollars, and this amount is required to meet the greatly increased value of lumber, hardware, and building materials necessary for repairs, as well as to provide a salary for an experienced engineer to take charge of the new steam-heating apparatus for warming the public buildings. The difficulty in enlisting competent mechanics compels me to hire skilled workmen to aid in carrying on the necessary repairs and improvements, whose services are also to be paid from this fund. 'The increase thus referred to will further permit the salaries of the disbursing clerk, the adjutant's and treasurer's clerks to be raised, should the reoommendations so urgently pressed heretofore meet with approval.
2. Increase and expense of library.-An increase of one thousand dollars over the amount usually appropriated is asked to provide an annual salary for a citizen employé who will act as the assistant librarian. This duty has been for more than twenty years performed by a soldier, who justly regards his experienced term of service as worthy of a higher compensation. Under existing laws he cannot be adequately paid, and his services are so valuable that the best interests of the academy demand that he should be retained. A discharge from the army, and the small salary referred to, will secure one whose services cannot be replaced.
3. Forage for artillery and cavalry horses.-The sum asked for is less by four thousand dollars than the amount called for last year, in consequence of the probable amount available at the expiration of the current year.
4. Expenses of the board of visitors.-The amount required is reduced one thousand dollars below the appropriation for the present year, for the cause just stated.
5. Gas.pipes, gasometers, and retorts.-The usual sum is required until by an enlargement of the works they can be rendered self-sustaining.
6. Furniture for hospital for cadets.-Is the usual appropriation.
7. Targets and batteries for artillery exercise.-The sum is reduced from last year's estimate four hundred dollars, for reason as for item three.
8. Supplying horses for cavalry and artillery practice.-Many of our horses were purchased in 1861, and their age renders them unsuitable. To replace them, the sum is increased above the amount usually required by three thousand dollars.
9. Repairs to officers' quarters.-Same amount as granted this year.
10. Materials for quarters for subaltern offirers -Same as above.
11. Purchase of fuel for radet mess-hall, shoe and tailor shops and laun$d r y$.-Same as grauted for this year.
12. Furniture for soldiers' $n o s p i t a l .-S a m e ~ a s ~ g r a n t e d ~ f o r ~ t h i s ~ y e a r . ~$
13. Fire-proof building for public offices.-The sum appropriated last year is inadequate to erect a building bearing such relationship as exists among the public buildings near which it must stand. A stone edifice in keeping with the surrounding ones will requise an additional fifteen thousand dollars, and belng made fire-proof in its construction will relieve us from all anxiety in regard to the destruction, a second time, by fire of our valuable archives and public treasure.
14. Stable and forage house for government working animals.-The want of a proper stable for the fifty or sixty public animals, and storage for their forage during our long winters, is a pressing one. At present they are lodged in a common wooden structure of the most temporary character.
15. Rebuilding north wharf.-The north wharf is much required to receive all our stores of fuel, forage, lumber, ordnance, \&c., \&c. 'Ihe present one was constructed nearly thirty years ago, and is so much decayed as to be unsafeso much so, that I deemed it inexpedient to erect upon it the permanent derrick, authorized this year.
16. Reflooring academic building and barracks.-The amount asked for is chiefly for southern pine, the expense of which excludes the purchase from our fund for ordinary repairs, and is required to complete the work commenced under a former appropriation.
17. Breast-height wall of water battery.-The work on this must be partially suspended for want of the additional five thousand dollars here asked for; the sum $(\$ 5,000)$ formerly appropriated was based upon an erroneous estimate of the engineer officer in charge, and without the additional aid asked for, it cannot be carried to completion.
18. Addition to soldiers' hospital.-This hospital was erected when the number of enlisted men was very much smaller than we now employ. The building is not large enough to contain the patients, attendants, and steward. A wing may be added which will furnish the needful requirements, pand a suitable structure can be made for the accommodation of the steward in the immediate vicinity.
19. Opening road to Cornwall.-A road along the Hudson to Cornwall and Newburgh has long been contemplated as a means for increasing our facilities for obtaining supplies and labor during the winter months. The sum named will construct the road as far as the United States lines, and there is reason to believe that State or private enterprise will accomplish the rest.

The entire amount granted under my estimate for the present fizcal year was $\$ 208,867$, while the one now submitted amounts to but $\$ 171,305$, exhibiting a reduction of $\$ 37,562$, and disclosing the fact that every possible effort has been made to exclude everything not indispensable to our successful progress.

I am, general, very respectfully, your obedient servant,

> T. G. PiTCHER,

Colonel and Brevet Brigadier General, Superintendent.

## Brevet Major General Edmund Schriver, Inspector of the Military Academy, Washington, D. C.

Estimate of funds for the service of the United States Military Acndemy during the fiscal year ending June 30, 1869, being for current and ordinary expenses, comprising general repairs and improvements of academic buildings, barracks, mess-rooms, stables, roads, fences, parade and drill yrounds, miscellaneous and incidental expenses, fuel, forage, clerks, and dcpartments of instruction; also for additional buildings, \&c., \& c., required for the improve ment of the estublishment.

1. For current and ordinary expenses ..... $\$ 72,805$
2. For increase and expense of library, including pay of assistant librarian ..... 3, 000
3. For forage for artillery and cavalry horses ..... 15,000
Less probable amount on hand June 30, 1868. ..... 10,000
5, 000
4. For expenses of the Board of Visitors ..... 4, 000
5. For gas-pipes, gasometers, and retorts, (annual repairs, ..... 600
6. For furniture for hospital for cadets ..... 200
7. For targets and batteries for artillery exercise ..... 100
8. For supplying horses for cavalry and artillery practice ..... 4, 000
9. For repairs and additions to officers' quarters ..... 5,000
10. Materials for quarters for subaltern officers ..... 5, 000
11. Purchase of fuel for cadet mess-hall, shoe and tailors' shops, and laundry ..... 3, 000
12. Furniture for soldiers' hospital ..... 100
13. For fire-proof building for public offices, in addition to amount granted ..... 15, 000
14. For stable and forage-house for government working animals ..... 10,000
15. For rebuilding north wharf ..... 5,000
16. For reflooring academic building and barracks ..... \$1,500
17. For breast-height wall of water battery ..... 5, 000
18. For additinn to soldiers' hospital ..... 2,000
19. Fur opening road to Cornwall, New York ..... 5, 000
Total ..... 146̈, 305
Respectfully submitted:
T. G. PITCHER,
Colonel and Brevet Brigadier General, Superintendent.
United States Military Academy,
West Point, New Yorl, September 30, 1867.

## CORPS OF ENGINEERS.

> Headquarters Corps of Engineers, Wdshington, October $12,1867$.

General: I have the honor to submit herewith estimates of amounts required to be appropriated for the fiscal year ending on the 30th of June, 1869, as follows:
For fortifications. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . \$2, 245, 00000
For river and harbor irnprovements, \&c.. ....................... 6, 857, 00000
For public buildings and grounds, and for compensation of per-
sons employed upon them, and for continuing the construc-
tion of the Washington aqueduct, and for supervision and repair of existing portions of the same
$1,426,76988$

$$
\text { Amounting in all to . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 10, 528, } 76988
$$

The items in the annual estimate of last year from this office (see pages 205, 206 and 207 of Executive Document No. 2, 39th Congress, 2d session) were separated into classes after it left this office, (see pages 85 and 86 of same document,) and one of these classes was headed "additional works not estimated for last year."

This designation led to misapprehension upon the part of the Committee of Appropriations in the House of Representatives, as it conveyed the erroneous impression that all the works under that heading were new, and had not been sanctioned by Congress.

To avoid a like result it is thought proper to ask special attention to the fact that the estimate now submitled contains no application for money for any works for which appropriations have not hitherto and within a short period been made, although for some of them no appropriations were made at the last session of Congress.

Very respectfully, your obedient servant,
A. A. HUMPHREYS, Brig. Gen. Engineers, Com'dg.

General U. S. Grant, secretary of War ad interim.

Estimate of amounts required to be appropriated for fortifications, and for barracks for engineer troops, during the fiscal year commencing on the 1st of July, 1868, and ending on the 30th of June, 1869.

Mar. 2,1867 Mar. 2, 1867 Mar. 2,1867

Headquarters Corps of Engineers, Washington, October 12, 1867.
NOEE. The items in the annual estimate of last year from this office (see pages 205, 206, and 20\%, of Ex. Doc. No. 2, Thirty-ninth Congress, Second session) were separated into classes after it left this office, (see pages 85 and 86 of same document,) and one of these classes was headed "additional works not estimated for last year." This designation led to misapprebension upon the part of the Committee on Appropriations in the House of Representatives, as it conveyed the erroneous impression that all the works under that heading wation for money for any work for which appropriations haye not hitherto and within a ghort period been mecial although for some of them no appropriations were made at the last session of Congress.

General U, S. Grant, Secretary of War ad interim

Head or title of the appropriation.

$\$ 8,690,000$

## RECAPITULATION.

Estimate of appropriations under the cognizance of the Bureau of Construction and Repair, Navy Department, required for the service of the fiscal year ending June 30, 1869.

|  |  |  |
| :---: | :---: | :---: |
| Civil and contingent expenses of the bureau. $\qquad$ <br> Pay of civil officers. <br> Maintenence of the navy $\qquad$ | $\begin{array}{r} \$ 19,720 \\ 77,120 \\ 8,690,000 \end{array}$ | $\begin{array}{r} \$ 18,820 \\ 63,000 \end{array}$ |
| Total | 8,786, 840 | ........... |

[^5]The increase in the expenses of the bureau arises from the estimated addition to the pay of the chief clerk and to the contingent expenses of the bureau.

The increase in the pay of the civil officers arises from the necessity for the employment of two additional assistant naval constructors ; also from a slight increase in the pay of the draughtsmen, store, and time clerks.

Very respectfully, your obedient servant,

JOHN LENTHALL, Chief of Bureau.

Hon. Gideon Welles, Secretary of the Nary.

## MARINE CORPS.

Headquarters Marine Corps, Washington, September 26, 1867.
Sir : I respectfully euclose to the department estimates in triplicate, marked A, from the paymaster's department, for pay and subsistence of officers, pay of non-commissioued officers, musicians, and privates, of the United States marine corps, for the fiscal year ending June 30, 1869. Also, in triplicate, marked B, estimates for the support of the quartermaster's department of the marine corps, for one year, commencing July 1, 1868 ; and an abstract for the offers for furnishing fuel, rations, and supplies, for the current year.

I also enclose a letter from the quartermaster in explanation of these estimates, which I respectfully submit.

I am, very respectfully, your obedient servant,

J. ZEILIN,<br>Brigadier General and Commandant.

Hon Gideon Wells,
Secretary of the Navy, Wastington, D. C.

## Headquarters Marine Corps, <br> Paymaster's Office, September 24, 1867.

Sir : I submit herewith estimates for pay and subsistence of officers and pay of non-commissioned efficers, musicians, privates, \&c., of the United States marine corps for the fiscal year ending June 30, 1869. These estimates are $\$ 40,47650$ more in the aggregate than those presented last year, being an addition of $\$ 35,000$ for the payment of the third instalment of bounty due men for enlistment, and $\$ 5,47650$ for payment of increase of pay to mounted officers, and longevity rations to retired officers, authorized by an act approved March 2, 1867.

I am, very respectfully, your obedient servant,
J. C. CASH, Paymaster Marine Corps.
Brigadier General Jacob Zeilin, Commandant United States Marine Corps, Headquarters.

Detail estimate of pay and subsistence of officers, and pay of non-commissioned. officers, musicians, privates, \&c., of the United States marine corps, from July 1, 1868, to June 30, 1869.

Respectfully submitted:
J. C. CASH, Paymaster Marine Corps.

Headquarters Marine Corps,
Paymaster's Office, September 24, 1867.

## Headq'rs Marine Corps, Quartermas'ter's Office, <br> Washington, September 25, 1867.

Sir: I have the honor to transmit herewith triplicate estimates for the support of the quartermaster department of the marine corps, for one year from 1st July, 1868, to 30th June, 1869, amounting in the aggregate to $\$ 607,500$ 88, being $\$ 20,71046$ less than those submitted for fiscal year ending 30th June, 1868.

These estimates vary from those of the current fiscal year in the following: particulars, viz:

Clothing has been reduced from $\$ 292,18684$ to $\$ 202,16988$, and is caused by the decline in the price of material, as per contracts of last fall.

Fuel has been reduced from $\$ 30,117$ to $\$ 10,156$, it being supposed that at the close of the current fiscal year there will be $\$ 20,000$ of that appropriation unexpended, and hence that amount has been deducted from the usual estimate for fuel.

Contingencies has been increased from $\$ 80,000$ to $\$ 100,000$. This increase is made necessary by the increase in the cost of all articles paid for out of this appropriation, and the fact that this office has not during the past five years asked for a proportionate increase, thus leaving a deficit at the close of the last fiscal year, and to meet the payment of accounts for commutation of quarters on board ships.
$\$ 69,450$ is asked to rebuild one-half of the marine barracks, Washington, D. C. These buildings have been condemned by a board of survey as entirely unsuited for quartering masses of men, and an estimate of the cost of rebuilding, amounting to $\$ 138,900$, has been submitted by a competent architect; but as only one-half of the barracks can conveniently be constructed at a time, only half the entire appropriation is asked for at this time. In connection with this estimate, the report of the board of survey, and the estimate of the architect, are submitted. It will be noticed that notwithstanding $\$ 20,000$ has been asked as an increase to the contingent appropriation, and $\$ 69,450$ for rebuilding one-half of the barracks, yet the entire estimates are $\$ 20,71046$ less than called for last year.

I also transmit triplicate abstracts of proposals received for fuel, rations, and supplies to close of fiscal year, 30th June, 1868.

I am, sir, very respectfully, your obedient servant,

## W. B. SLACK, Quartermaster Marine Corps.

Brigadier General Jacob Zeilin, Commandant Marine Corps, Headquarters, Washington, D. C.

## Estimate of the expenses of the quartermaster's department of the marine corps for one year from July 1, 1868, to June 30, 1869.

There will be required for the support of the quartermaster's department of the marine corps for one year, commencing on the 1st July, 1868, in addition to the balances then remaining on hand, the sum of $\$ 607,50088$.
For provisions
For clothing. 202, J69 88
For fuel.
10,156 00
For military stores, viz: Pay of mechanics, repair of arms, purchase of accoutrements, ordnance stores, flags, drums, fifes, and other instruments.....
For transportation of officers, their servants, troops, and for expenses of recruiting

16, 00000
For repair of barracks, and rent of offices where there are no public buildings
For contingencies, viz: Freight, ferriage, toll, cartage, wharfage, purchase and repair of boats, compensation to judge advocates, per diem for attending courts-martial, courts of inquiry, and for constant labor, house rent in lieu of quarters, and commutation for quarters to officers on ship-board, burial of deccased marines, printing, stationery, postage, telegraphing, apprehension of deserters, oil, candles, gas, repairs of gas and water fixtures water rent, forage, straw, barrack furniture, furniture for officers' quarters, bedsacks, wrapping paper, oil-cloth, crash, rope, twine, spades, shovels, axes, picks, carpenters' tools, keep of a horse for the messenger, repairs to fire-engine, purchase and repair of engine hose, purchase of lumber for benches, mess tables, bunks, \&c., repairs to public carryall, purchase and repair of harness, purchase and repair of handcarts and wheelbarrows, scavengering, purchase and repair of gaileys, cooking stoves, ranges, \&c., stoves where there are no grates, gravel, \&c., for parade grounds, repair of pumps, furniture for staff and commanding officer's offices, brushes, brooms, buckets, paving, and for other purposes

100,00000
For rebuilding marine barracks, headquarters, Washington, D. C., as recommended by report of board of survey hereto annexed ; cost of same as per estimate of architect hereto appended, $\$ 138,900$.
For building one-half of the above contemplated work, that being all that could conveniently be done in one season

Total amount required
607,500 88

# [Orders.] <br> Headquarters Marine Corps, Washington, September 20, 1867. 

A board of survey, consisting of Major G. R. Graham, First Lieutenant R. S. Collum, and First Lieutenant and Brevet Captain William Wallace, will convene at 10 a. m., on Friday, September 6, 1867, for the purpose of making a thorough examination of the marine barracks, Washington, D. C., as to its actual condition and suitableness for quartering masses of men, and recommending what, in their opinion, is best to be done with these buildings in view of the wants of the service, and the health and comfort of the troops. The board will be assisted in their examination by a practical carpenter and mason, to be designated by the quartermaster.

## J. ZEILIN, <br> Brigadier General and Commandant.

## Marine Barracks, Friday, September 18, 1867.

The board met in compliance to foregoing order, and were assisted by Mr. F. A. Stratton, civil engineer, navy yard, Messrs. John E. Herrell, master mason, and J. M. Downing, master carpenter, all of the navy yard. They made a thorough examination of the barracks, and beg leave to report that they found as follows:

The buildings in an old and dilapidated condition, both from age and the very bad material of which they were originally constructed, they having been built of salmon bricks of very inferior quality, covered with rough-cast. The quarters are badly constructed, being damp, insufficiently lighted and ventilated, all of which materially affect the health and comfort of the men quartered in them.

The roof being entirely rotten is not susceptible of repair, and the floorings are mostly gone from age and dampness; the only place we find fit to quarter the troops being the old hospital building, which is more modern in its construction, and built of better material, but of very small capacity.

The board have delayed their report until this date, (September 18,) in consequence of waiting for the report of the gentlemen assisting in the survey, which is herein enclosed, (marked A,) and with which report the board have the honor to state they fully concur.

GEORGE R. GRAHAM, Major United States Marine Corps. RICHARD S. OOLLUM, First Lieutenant United States Marine Corps. WILLIAM WALLACE, First Lieutenant and Brevet Captain United States Marine Corps.

## A.

## United States Navy Yard, <br> Washington, September 16, 1867.

Gentlemen : Having, in accordance with your request, made a thorough examination of the marine barracks, Washington, D. C., as to their actual condition and, suitableness for quartering masses of men, and what, in our opinion, is best to be done with those buildings in view of the wants of the service, and the health and comfort of the troops, we beg leave to present the following report :

The buildings occupied by the men, constructed at a very early date in an indifferent manner, have, through long use and insufficient repairs, become very much dilapidated and decayed, and cannot longer be considered as being in any
manner suitable for quartering troops. The dormitories and other apartments are low, gloomy rooms, badly lighted and badly ventilated; the ceilings are leaky and the floors decayed from dampness. These ill-constructed and inconvenient buildings being of only one story, the floors nearly on a level with the ground, and damp, dark, and close, as stated, must be very uncomfortable and unhealthy for the occupancy of any human beings, and especially so for "quartering masses of men" as rendered necessary by the wants of the service, and in our opinion will become a disgrace to the goverument if longer retained in their present condition.

The central building, occupied as officers' quarters, is better constructed and in better repair, but is, notwithstanding, wholly unfit for its purposes without extensive alterations and repairs, and its capacity is too small to properly accommodate the number of officers usually in garrison at this post.

Taking these facts into consideration it is our opinion that the best and the only proper course to be pursued in regard to these buildings "in view of the wants of the service, and the health and comfort of the troops," ${ }^{\circ}$ is to remove them altogether and replace them with buildings suitable for their object.

The plans already prepared for this purpose by the architect we believe, upon examination, to be generally well designed, and if carried out would make buildings convenient and suitable for their contemplated use. The only alterations we would suggest in the plans are the following: First, the removal of the guardrooms and prison cells from the main central building, designed for officers' quarters, to a separate building to be constructed for the purpose on the opposite side of the grounds. Second, the entire, instead of partial, reconstruction of the central building; it being unadvisable in our opinion to attempt to include it within the walls of a new building. Third, the substitution of pressed brick and iron for the principal front, and common brick fur the inner front, in place of the proposed rough-cast work, which is not as durable as brick.

We have examined the estimates of the architect and believe them to be correct.
Very respectfully, your obedient servants,

# FRANKIIN A. STRATTON, Civil Engineer. JOHN E. HERRELL, 

 Master Mason.J. M. DOWNING,

Master Carpenter.
