TREASURY DEPARTMENT,
Register's office, November 23, 1865.

S. B. COLBY, Register.

TREASURY DEPARTMENT, *December 4, 1865.*

SIR: Agreeably to a joint resolution of Congress of January 7, 1846, I have the honor to transmit, for the information of the House of Representatives, printed statements of the estimates furnished by the respective heads of departments of the appropriations required for the fiscal year ending June 30, 1867, as follows, viz:

For the civil service, including the expenses of foreign intercourse, courts, loans, public domain, and all other expenditures except for pensions, Indian, and the War and Navy Departments	\$31,934,639 33	
For pensions	15,440,000 00	
For Indian department	2,159,640 23	
For army proper	31,359,504 83	
For Military Academy	239,957 00	
For fortifications, armories, &c.	2,215,000 00	
For naval establishment	23,982,457 50	
		\$107,331,198 89

To the estimates are added statements showing—

1. The appropriations estimated for the service of the fiscal year ending June 30, 1867, made by former acts of Congress of a specific and indefinite character, as follows, viz:

For miscellaneous objects, including expenses of collecting the revenue from customs	\$9,530,910 14	
For compensation to the General Post Office for mail services	700,000 00	
For civilization of Indians	10,000 00	
For arming and equipping the militia	200,000 00	
For interest on the public debt	141,542,068 50	
		151,982,978 64

2. The estimated balances of existing appropriations which will be unexpended on June 30, 1866, part of which are required for the payment of the liabilities of the present year, but which will not be drawn from the treasury until after June 30, 1866, as follows, viz:

For the civil service	\$1,443,382 77	
For War Department	34,199,643 08	
For Navy Department	79,585,231 08	
	\$115,228,256 93	
Of which sum it is estimated there will not be required for the service of the fiscal year ending June 30, 1867 ...	90,225,252 58	
		25,003,004 35
Total estimated expenditures for the year ending June 30, 1867		\$284,317,181 88

It appears by the statement of the estimated balances of existing appropriations which will be unexpended on June 30, 1866, that the sum of \$1,927,136 07, may be carried to the surplus fund.

Accompanying the estimates are sundry letters and statements furnished by the several departments, containing explanations in regard to them.

Very respectfully, your obedient servant,

H. McCULLOCH,
Secretary of the Treasury.

Hon. SPEAKER of the House of Representatives of the United States.

TREASURY DEPARTMENT, *Register's Office, November 23, 1865.*

S. B. COLBY, *Register.*

PUBLIC PRINTING.

OFFICE SUPERINTENDENT PUBLIC PRINTING,

Washington, September 30, 1865.

SIR: In compliance with the request contained in your letter of the 9th instant, I have the honor to transmit herewith the usual estimates of appropriations required for the service of this office for the fiscal year ending on the 30th day of June, 1867.

In submitting these estimates, I have only to remark, that whilst the estimate for labor is increased to correspond with the advanced price demanded for it, these estimates are materially less, in the aggregate, than the appropriations made for the service of the present fiscal year.

Very respectfully, your obedient servant,

JOHN D. DEFREES.

Superintendent.

Hon. S. B. COLBY,

Register of the Treasury.

TREASURY DEPARTMENT.

TREASURY DEPARTMENT,
Comptroller's Office, September 6, 1865.

SIR: To-day I transmit to the Register of the Treasury the estimate of appropriations required by this office for the fiscal year ending June 30, 1867, under existing laws. The appropriations thus estimated will not, in my judgment, prove to be sufficient for the force required to transact the largely increased and increasing business of the office, and an additional appropriation sufficient for the employment of three clerks should be made. As the increase may not be required permanently, I do not recommend a permanent addition to the force of the office, but an appropriation for the temporary employment of such clerks as may be found necessary in the office, which I estimate at \$4,600.

I also recommend an additional appropriation for the like purpose for the current fiscal year of \$2,500.

My impression is that these sums will be necessary to a prompt and satisfactory settlement of accounts and the transaction of the business of the office.

I am, very respectfully,

R. W. TAYLOR, *Comptroller.*

Hon. HUGH McCULLOCH,
Secretary of the Treasury.

MINT OF THE UNITED STATES,
Philadelphia, September 30, 1865.

SIR: I transmit herewith a copy of the estimates of appropriations required to be made for the United States mint, and branches at Denver and San Francisco, and the United States assay office, New York, for the fiscal year ending June 30, 1867, forwarded this day to the Register of the Treasury; I also transmit certain papers exhibiting the grounds upon which the estimates are based. The estimates for the United States mint at Philadelphia are, in the aggregate, four thousand seven hundred (4,700) dollars less than the amount appropriated for the current fiscal year. No appropriation is required for incidental and contingent expenses, the unexpended balance of former appropriations on hand being considered sufficient for the next year.

For freight on coin and bullion five thousand (5,000) dollars will be required, this fund being nearly exhausted.

I have estimated six hundred (600) dollars as the sum necessary for the purchase of specimens of ores and coins for the fiscal year ending June 30, 1867. Three hundred (300) dollars has been the sum for several years past appropriated for this purpose. It has proved entirely too small, and for a great national institution like the mint a more generous appropriation is demanded. Six hundred (600) dollars is certainly not a large sum, and I hope that Congress will see fit to allow it. The amounts estimated for under the other heads are the same as appropriated for the current fiscal year.—(See grounds of estimates, marked A.) The estimates of the branch mint at San Francisco are, in the aggregate, one hundred and twenty-three thousand seven hundred and fifty six (123,756) dollars greater than the amount appropriated for the current fiscal year for the use of that institution. A deficiency appropriation approximating to this amount has been required for several years past; considering that gold is the circulating medium in California, and the high prices existing there, I do not consider these estimates too high. You are respectfully referred to the letter of the superintendent, marked B. The estimates for the assay office, New

York, are, in the aggregate, seven thousand eight hundred (7,800) dollars greater than the amount appropriated for the current fiscal year. The letter of the superintendent, enclosed herewith, marked C, will clearly explain the cause of this increase. The amount estimated for the service of the branch mint at Denver is aggregate five thousand five hundred and forty-six dollars and fifty cents (\$5,546 50) greater than that appropriated for the current fiscal year. I do not consider the amount asked for too high, as prices of everything in our western Territories are much higher than in the States. I respectfully refer you to the letter of the superintendent, a copy of which is enclosed, marked D.

I respectfully again call your attention to the subject of an increase of the salaries of the officers of the mint. Most of us are entirely dependent on our salaries, and these remaining the same, whilst the prices of all the necessaries of life have so greatly advanced, we cannot, with all the economy that can be used, meet the current and ordinary expenses of living. The salaries here have always been below those of all other national institutions of equal grade and responsibility.

The director's salary is \$3,500, including travelling expenses; deducting these and the national tax, it will not exceed \$3,000. The same is true of all the other officers in the establishment. I speak knowingly when I say that the compensation is below the point of actual expenses, social and official position being considered. The following increase of salaries is respectfully suggested, viz:

Director of the mint from \$3,500 to \$5,000 per annum; treasurer, melter and refiner, engraver, chief coiner and assayer, each from \$2,000 to \$3,000 per annum; assistant assayer from \$1,500 to \$2,250 per annum; the salaries of the clerks now receiving \$1,800 to be increased to \$2,250, and that of those receiving \$1,500 be increased to \$1,800 per annum.

This increase would still leave the compensation lower than corresponding salaries elsewhere.

I am, sir, your obedient servant,

JAMES POLLOCK, *Director.*

Secretary of the Treasury.

A.—Grounds of the estimates of the mint of the United States at Philadelphia for the fiscal year ending June 30, 1867.

1. Salaries of officers and clerks :

The amount appropriated under this head for the current fiscal year was \$26,400.

The same amount will be required for the year ending June 30, 1867 \$26, 400

2. Wages of workmen and adjusters :

No addition to the working force or increase of wages being contemplated, the same amount as was appropriated for the current fiscal year, viz., \$125,000, will be asked for the next year..... 125, 000

3. Incidental and contingent expenses :

There being an unexpended balance of former appropriations on hand under this head, which, it is estimated, will be sufficient for our purposes for the next fiscal year, no appropriation will be asked for.

4. Specimens of ores and coins :

An annual appropriation of \$300 has been made for several years past, for the purchase of specimens of ores and coins for the cabinet of the mint. Considering the importance of the mint as one of our great representative institutions, and the necessity of having a first-class collection of ores and coins there, the above amount is far too small. Many fine specimens are lost to us on this account. Six hundred dollars is estimated to be the amount sufficient for the year ending June 30, 1867 600

5. Freight on coin and bullion :

No appropriation was required under this head for the current fiscal year, the unexpended balance of former appropriations having been sufficient. This balance having been almost entirely exhausted, an appropriation of five thousand (5,000) dollars will be required for the fiscal year ending June 30, 1867..... 5, 000

SUPERINTENDENT'S OFFICE,
U. S. Branch Mint, San Francisco, August 2, 1865.

SIR: I have the honor to enclose to you herein the usual annual estimates of the appropriation for the support of this branch for the fiscal year ending June 30, 1867. The estimates have been prepared with reference to the same valuation for currency as last year, viz: 50 per cent. Although I have materially reduced the wages of workmen, and although the currency may rule much higher during the year, I have not thought it expedient to cut down the estimates to too low a figure for fear that the operations of the branch may be embarrassed possibly by a deficiency of funds. I trust that the amount called for will not be reduced by Congress.

It is quite proper that I should add here that if the parting charge and the charge of one-half of one per cent. for coinage were paid into the mint treasury as they are received, in gold, this institution would be nearly self-supporting.

I am, yours, very respectfully,

ROBERT B. SWAIN, *Superintendent.*

HON. JAMES POLLOCK,

Director of the Mint, Philadelphia.

C.

UNITED STATES ASSAY OFFICE,
New York, September 26, 1865.

SIR: The estimates for this office for the fiscal year ending June 30, 1867, which I sent you on the 22d instant, require a word of explanation.

1. The appropriation asked for salaries of officers and clerks exceeds that for the current year by \$800. This increase is occasioned by certain changes of salary authorized by the Secretary of the Treasury under date of February 11 and March 17, 1865, as follows:

Treasurer's chief clerk appointed deputy treasurer and salary increased	\$500 00
Treasurer's accountant, salary increased.....	500 00
Treasurer's weigh clerk, salary increased.....	700 00
Treasurer's assistant weigh clerk, salary increased.....	200 00
Treasurer's bar clerk, salary increased.....	100 00
	<hr/>
Total increase.....	2,000 00
Deduct salary of melter and refiner's clerk, resigned and vacancy not filled	1,200 00
	<hr/>
Net increase of appropriation.....	800 00
	<hr/> <hr/>

2. For wages of workmen, at current rates, we require about \$3,500 per month, or \$42,000 per year. If additional workmen should not be required for the current year, a surplus of a few thousand dollars will exist in this appropriation. I have, therefore, asked an appropriation of \$40,000.

3. Anticipating the necessity of repairs to building and machinery, I estimate our incidental and contingent expenses for the year 1866-'67 to be about

\$70,000. I also estimate that at the close of the current fiscal year there will be an unexpended balance of former appropriations, under this head, of \$15,000. I estimate the deductions from deposits for the year ending June 30, 1867, at \$20,000. Appropriation required \$35,000.

To recapitulate: the appropriations required by this office for the fiscal year ending June 30, 1867, are:

1. For salaries of officers and clerks.....	\$24, 700 00
2. For wages of workmen.....	40, 000 00
3. For incidental and contingent expenses.....	35, 000 00
Total.....	<u>99, 700 00</u>

Very respectfully, your obedient servant,

GEORGE F. DUNNING, *Superintendent.*

Hon. JAMES POLLOCK,
Director of the Mint.

D.

UNITED STATES BRANCH MINT,
Denver, August 3, 1865.

SIR: The amount required for the support of this branch mint for the fiscal year ending June 30, 1867, is estimated to be as follows, to wit:

Abstract of estimates.

For salaries of officers and clerks.....	\$13, 000 00
For wages of assistants and laborers.....	20, 301 50
For incidental and contingent expenses.....	12, 000 00
Total appropriation.....	<u>45, 301 50</u>

The same causes exist for the increase of pay of the officers of this branch mint as set forth in our estimate for the fiscal year ending June 30, 1866. Should the next session of Congress do us the justice to increase the pay as asked for, there will be required, in addition to amount above estimated for salaries of officers and clerks, the sum of (\$3,100) three thousand one hundred dollars.

Hoping that you will do us the favor to renew your recommendation for such increase,

I am, very respectfully, your obedient servant.

GEORGE W. LANE,
Superintendent U. S. Branch Mint.

Hon. JAMES POLLOCK,
Director U. S. Mint, Philadelphia.

UNITED STATES COAST SURVEY OFFICE,
Washington, D. C., October 10, 1865.

SIR: The estimates for the deficiency in appropriations for the survey of the coast for the fiscal year 1865-'66, together with those for the fiscal year 1866-'67, are herewith respectfully submitted, and I have the honor to request that if approved, they may be included in your estimates for appropriations.

In regard to the deficiency it is only necessary to state that the late Congress failed to pass the general appropriation bill, in which the items for the coast survey were included. No appropriation, therefore, was made for the fiscal year 1865-'66. The work has been continued with the unexpended balance of previous appropriations, and some aid afforded by the Treasury Department. During the progress of the bill in the late Congress, the estimates for the work of the survey had been approved by both houses, and the amounts now estimated for are intended to meet the expenditures for the remainder of the present fiscal year, upon the same scale of appropriation.

The following is a brief sketch of the progress made during the past year. While the war continued, a number of parties were connected with government commands, and rendered efficient aid in naval and military operations, as during the preceding years.

Four parties were attached to the South Atlantic blockading squadron, so as to be available also for service in the military department of the south. The labors of these comprise a complete resurvey of the bar and channels leading into Charleston harbor; a survey of the inside water passages between St. Helena and Port Royal sounds, and a survey of Broad river and the Whale branch to Port Royal ferry; of the Wilmington and Thunderbolt rivers, and other communications between the Savannah river and Ossabaw sound, including among them the dependencies of Wassaw sound; a survey of the rebel defences of Charleston and Savannah, the latter embraced within an extended reconnoissance of all the approaches to that city. In this same district, and under instructions of the Light-house Board, the parties have replaced lights, beacons, and buoy, as their places were re-occupied by the national forces. The entrance to Darien was examined and buoyed, for the transportation of released Union prisoners.

Four topographers of the coast survey accompanied General Sherman's army in the march from Savannah to Goldsboro', and rendered effective aid in making reconnoissances.

Two parties were connected with the North Atlantic blockading squadron. One of these, after assisting in the operations against the rebel defences of Wilmington, North Carolina, made a complete resurvey of both entrances to the Cape Fear river. The other relighted and buoyed the channels of that river, as also those leading into Beaufort, North Carolina, which was then important as the rendezvous of the squadron for supplies. After the close of hostilities the same party completed the hydrographic survey of the Cape Lookout shoals, and continued off-shore soundings along the coast of North Carolina.

A topographical survey of the banks of the Potomac river, from the vicinity of Washington to Harper's Ferry, has been made by a party attached to the middle military department; and two other parties have extended the detailed surveys of the approaches to Washington and Baltimore. One topographer was continued on service with the army operating in the valley of Virginia, and furnished the results of reconnoissances at Flint Hill and Cedar creek, after serving in battle at both places. Another remained on duty with the army of the Tennessee, and has mapped the defensive ground and approaches to Lookout mountain, and extended the survey of the battle-field of Chickamauga.

In connexion with the Mississippi squadron, a party of coast survey officers have made a valuable reconnoissance map of over two hundred miles of the Tennessee river, or from its mouth to the Muscle shoals; a map of the lower

Ohio from Paducah to Cairo; and a map of about ninety miles of the course of the Mississippi river from Cairo up to St. Mary's. This work necessarily ceased when, owing to the reduction of the squadron in the western waters, a vessel was no longer available for the uses of the party. It may be hoped, however, that the great and obvious usefulness, in a national point of view, of a reliable map of the Mississippi river may lead Congress to make a special appropriation for the further prosecution of that work. A stretch of forty-five miles of the river was mapped last year above and below Vicksburg, and thus an important part of the Mississippi has already been surveyed without involving any public expenditure that would not otherwise have been incurred.

In the regular progress of the survey of the Atlantic coast, parties have been at work on the coast of Maine during the summer and autumn, in Passamaquoddy, Gouldsborough, Frenchman's and Penobscot bays, in Muscongus sound, and in the Medomak, Damariscotta, and New Meadow rivers; on the shores of Narragansett bay and its dependencies, in Rhode Island; and on the coast of New Jersey. The connexion of the primary triangulation in Sections I and II has been completed by the Superintendent's party.

On the western coast, the triangulation between San Francisco and Monterey bays has been completed; that of Suisun bay has been continued; the topography between Point Año Nuevo and Point San Pedro, and the off-shore hydrography south of San Francisco entrance have been continued, and the topography and hydrography of Koos bay have been completed.

An early resumption of the work on the coast of the southern States is contemplated, and is provided for on a moderate scale in the estimates herewith presented.

The table appended gives the amounts estimated to supply the deficiency for the fiscal year 1865-'66, in parallel columns, with the estimates which were originally submitted for the whole fiscal year, and which, though approved by both houses of Congress at the last session, failed to become a law before the expiration of that session.

Object.	Estimate for fiscal year 1865-'66 but not ap- propriated.	Estimate for deficiency.
For survey of the Atlantic and Gulf coasts of the United States, including compensation of civilians engaged in the work, per act of March 3, 1843	\$181,000	\$120,000
For continuing the survey of the western coast of the United States, including compensation of civilians engaged in the work, per act of September 30, 1850	100,000	75,000
For continuing the survey of the reefs, shoals, keys, and coast of south Florida, including compensation of civilians engaged in the work, per act of March 3, 1849	11,000	11,000
For publishing the observations made in the progress of the survey of the coast of the United States, including compensation of civilians engaged in the work, per act of March 3, 1843	4,000	4,000
For repairs of steamers and sailing schooners used in the survey, per act of March 2, 1853	20,000	20,000
For pay and rations of engineers for three steamers used in the hydrography of the coast survey, no longer supplied by the Navy Department	6,000	6,000
Total	322,000	236,000

During the rebellion the usual field operations of the coast survey were necessarily somewhat restricted. In the southern sections they were carried on only as far as requisite and practicable in connexion with the operations of the naval forces. In most cases when the assistants and aids have served with military or naval commands, the working parties have been furnished from the command, and only the pay and subsistence of the officers of the survey have been chargeable to the coast survey appropriations. So also the vessels of the survey, when serving with squadrons, have been supplied with coal and kept in repair by the Navy Department.

Under these circumstances a corresponding reduction in the estimates for the work of the coast survey was made, which, from considerations of economy, was extended to the work on the western coast. The appropriations, amounting to over four hundred and fifty thousand dollars in 1860, were reduced, in accordance with the estimates submitted, to about three hundred thousand dollars during the several years of the war.

The estimates herewith presented for the fiscal year 1866-'67 approach more nearly to the scale of expenditure before the war. They contemplate the continuance of work in the southern sections, which, besides being called for to aid in the development of the resources of that part of our country, will be conducive to economy, since it will, as formerly, enable the same parties to push the work on the southern coast during winter, after closing work for the season at the north. Without any material increase in the salaries and office expenses, the amount of field-work accomplished will be far more than proportionably augmented.

Owing to the great increase in the price of labor and supplies of every kind, the appropriations asked for, although the same in amount of the two principal items as those for 1860-'61, will not be equivalent to the latter, yet they are as low as is consistent with an economical prosecution of the work in the several localities where it has been commenced.

The item providing for the continuation of the survey of the Florida reefs and keys has been diminished from forty to twenty-five thousand dollars, because that important work is proportionally far advanced towards completion. The item providing for repairs of vessels, on the contrary, is unavoidably increased by reason of the great increase in the cost of such repairs, and because a larger amount of refitting is at present necessary, on account of the greater wear and tear during the war.

The estimates for progress on the Atlantic, Gulf coast, Florida reefs, and western coast of the United States are given, as usual, in separate items, and are preceded by a detailed statement of the progress contemplated in the several sections of the work.

Estimates in detail.

For general expenses of all the sections, namely: rent, fuel, materials for drawing, engraving and printing, and for transportation of instruments, maps and charts; for miscellaneous office expenses, and for the purchase of new instruments, books, maps and charts.....

\$21,000

SECTION I. *Coast of Maine, New Hampshire, Massachusetts and Rhode Island. Field-work.*—To continue the triangulation of *Passamaquoddy bay*, and extend it so as to include the north-eastern boundary along the *St. Croix river*; to complete the secondary triangulation of the coast of Maine, west of *Mount Desert island*; to continue the topography of *Passamaquoddy bay* and its dependencies; to continue that of *Gouldsborough bay*, that of the islands at the entrance of *Penobscot bay*, and the western shore

of the bay above *Camden*; that of the adjacent shores of *Muscongus sound* and *Medomak river*; to complete the topography of the *Damariscotta river*, and the survey of the eastern shores of *Casco bay*; to continue that of the coast of *New Hampshire*, between *Great Boar's Head* and *Portsmouth*, and to complete that of the shores of *Massachusetts bay* between *Sandwich* and *Plymouth*; to continue the detailed survey of the shores and islands of *Narragansett bay*; to continue off-shore soundings along the coast of *Maine*, and the hydrography of *Passamaquoddy bay*, *Frenchman's bay*, *Gouldsborough bay*, *Prospect and Winter harbors*, and the approaches to *Penobscot bay*; to continue tidal and magnetic observations at *Portland*, and tidal observations in the progress of the hydrography.

Respectfully submitted,

A. D. BACHE,
Superintendent United States Coast Survey.
 Per J. E. HILGARD,
Assistant, in charge of office.

Hon. HUGH McCULLOCH,
Secretary of the Treasury.

TREASURY DEPARTMENT,
Office Light-house Board, Washington City, Oct. 30, 1865.

SIR: I have the honor to submit the accompanying estimates of funds required for the support of the light-house establishment for the fiscal year ending June 30, 1867.

The estimates are exhibited in tabular form, from No. 1 to No. 3, inclusive, and are accompanied by explanatory tables, marked from A to J, inclusive.

The sums asked for are based upon the assumption that before June 30, 1867, (the date covered by the estimates,) the light-house system of the United States will be as it was in 1860, when an unbroken system of aids to our common commerce extended from St. Croix river to Rio Grande; and inasmuch as any speculations as to a decrease in cost of labor and materials for a period so remote are at best but conjectural, it has been deemed but ordinary prudence to estimate upon the basis of present prices.

Very respectfully,

W. B. SHUBRICK, *Chairman.*

Hon. H. McCULLOCH,
Secretary of the Treasury.

Estimates of special appropriations for fiscal year ending June 30, 1867.

POST OFFICE DEPARTMENT.

POST OFFICE DEPARTMENT, *October 28, 1865.*

SIR: The expenses of all kinds for the fiscal year ending June 30, 1867, are estimated at.....	\$18,678,000
The gross revenue is estimated at an increase of 10 per cent. on the amount accrued last year, [and 50 per cent. on revenue of 1860 in late insurrectionary States,] making.....	\$16,770,543
Earnings of the department for conveying free mail matter under acts of March 3, 1847, and March 3, 1851.....	700,000
	<u>17,470,543</u>
Excess of expenditure.....	<u>1,207,457</u>

For this deficiency no special appropriation will be required, as the standing appropriations for the last three years under acts of Congress of March 3, 1847, and March 3, 1851, amounting to \$2,100,000, remain unexpended. It will, however, be necessary to make special appropriations for mail steamship service

between San Francisco, Japan, and China, authorized by act of February 17, 1865, for six months, from January 1 to June 30, 1867	\$250,000
Also, for mail steamship service between the United States and Brazil, under act of May 28, 1864, for eight months of the current year, commencing November 1	100,000
And the whole of next year	100,000
	500,000

I also enclose estimate for salaries and contingent expenses of this department for the next fiscal year. Application will be made to Congress for the proposed additional allowance of \$5,000 to the clerks, mostly females, employed under act of January 21, 1862, in order to place them on an equality with those in other departments, and for doubling the appropriation for temporary clerks.

Respectfully, yours,

W. DENNISON, *Postmaster General.*

Hon. S. B. COLBY, *Register of the Treasury.*

POST OFFICE DEPARTMENT, *November 7, 1865.*

SIR: The estimates submitted to you on the 28th ultimo had no reference to revenues from the late insurrectionary States. Allowing fifty per cent. of the revenues of 1860, or \$758,770, on that account, the excess of expenditure for the next fiscal year will be reduced from \$1,966,227 to \$1,207,457.

Please make this correction.

Respectfully, yours,

W. DENNISON, *Postmaster General.*

Hon. S. B. COLBY, *Register of the Treasury.*

ATTORNEY GENERAL'S OFFICE.

ATTORNEY GENERAL'S OFFICE,

Washington, November 4, 1865.

SIR: I have the honor to submit herewith estimates of appropriations which will be required for the service of this office for the fiscal year ending June 30, 1867.

It will be noticed that these estimates exceed the sums appropriated for 1865-'66 in two respects only. This is rendered necessary for the following reasons:

1st. After the appropriation for 1865-'66 had been made, "An act amendatory of the acts relative to the Attorney General's office, and to fix the compensation of his assistant and clerks," was passed, under the provisions of which the salary of the Assistant Attorney General was increased \$500 per annum, and the annual aggregate for the salaries of clerks was increased \$2,800, making an increase, in all, under that law, of \$3,300.

2d. The estimate for contingent expenses is double the amount appropriated for 1865-'66. The necessity for this is set forth in a letter to you of this date, explaining why provision should be made to supply deficiencies in the appropriations for the current fiscal year, arising from the increased cost of labor, furniture, and stationery, and especially from the largely increased quantity of stationery required in conducting the pardon business arising under the President's proclamation of amnesty of May 29, 1865.

I am, sir, very respectfully, your obedient servant,

JAMES SPEED, *Attorney General.*

Hon. S. B. COLBY, *Register of the Treasury.*

INTERIOR DEPARTMENT.

DEPARTMENT OF THE INTERIOR, *General Land Office, September 25, 1865.*

SIR: I have the honor herewith to submit estimates of appropriations required for this branch of the public service for the fiscal year ending June 30, 1867.

1. Estimates of salaries in this office. We have included in this estimate the whole number of employés authorized by the several acts of Congress, and the amount estimated is the same as that called for and appropriated last year, less \$3,000 by limitation of the provisions of the act of Congress of June 25, 1864, (Laws, p. 160.)

2. Estimates of salaries and commissions of district land officers. We have not asked for appropriations for this particular branch of the service since the year 1853, having depended on unexpended balances of former appropriations; but such balances are now so much reduced, that we deem it necessary to make the estimates herewith submitted.

3. The estimates of appropriations for contingent expenses of this office, for expenses of depositing the public moneys, for refunding purchase-money for lands illegally sold, and for claims of certain States for the two, three, and five per cents., are omitted, existing balances being thought amply sufficient to meet the requirements of such service for the fiscal year ending June 30, 1867.

Estimates for the surveying service are submitted in a separate report.

I am, very respectfully, your obedient servant,

JO. S. WILSON, *Acting Commissioner.*

EXPLANATION OF THE FOREGOING ESTIMATES.

12. No estimate is submitted for the reason that existing balances of former appropriations will be sufficient for that purpose.
 20 and 24. No estimate is submitted for the reason that existing balances of former appropriations will be sufficient for that purpose.
 21, 22, 23, 26, and 27. The organic acts of the respective districts provide \$1,000. The amount having proved insufficient, special estimates have been submitted from year to year, and appropriations made accordingly.

	339,000 00

EXPLANATION OF THE FOREGOING ESTIMATES.

1. The \$20,000 herein estimated is to be applied to the survey of pine lands and other public lands required for immediate settlement.
2. The \$15,000 is estimated for the extension of the lines of public surveys to Pembina settlement, on the Red river of the North; along the Big Sioux river and Missouri river, west of the Yancton reserve; and such other localities as shall be required for actual settlement.
3. \$25,000 is estimated for the survey of public lands already settled upon, and likely to be required for agricultural purposes, in the vicinity of mining regions.
4. \$20,000 } is estimated for the survey of public lands along the Republican and Platte rivers. The surveys are chiefly necessitated by the obligations on the part of the govern-
5. \$20,000 } ment along the line of the Pacific railroad, preparatory to the allotment of lands to that improvement, the progress of which is stimulated by the vast mineral discov-
6. \$20,000 } eries in the territories traversed by its contemplated line; also on Arkansas river and Smoky Hill fork, along the overlaid mail and express route.
7. \$25,000 is estimated for the survey of public lands on the South fork of the Platte river; in the Middle and South Parks on the headwaters of the South Platte and Green rivers; and on those of the Rio Grande already occupied, or likely to be required for settlement.
8. \$25,000 is estimated for the survey of public lands on the Truckee river. (For explanation of No. 7, see those numbered 4 and 5.)
9. \$10,000 only is submitted for surveys in Idaho Territory, there existing \$10,000 of former appropriation, which will be adequate for the service.
10. No estimate is submitted for the extension of the lines of public surveys in New Mexico, there existing an unexpended balance of former appropriations, \$10,703, which may be used in case any surveys will be required in addition to those already made, embracing lands not yet disposed of.
11. No estimate is submitted for the extension of the lines of public surveys in Arizona, there existing an unexpended balance of former appropriations, \$14,500, which is deemed sufficient for the establishment of standard lands on Rio Gila, Santa Cruz, Salinas, San Francisco, and Williams rivers.
12. \$25,000 is estimated for the surveys along the Pacific railroad and other localities where actual settlements require the surveys.
13. \$15,000 is estimated for the surveys in the eastern and southeastern portions of Oregon, where a large increase of population, induced by the rich mineral discoveries, requires additional surveys.
14. \$10,000 is estimated for the surveys east and west of the Cascade mountains in Washington Territory, on the Columbia river, and on the Admiralty inlet; also on Shoalwater bay, and other places actually required for settlement.
15. No estimate is submitted for surveys in Utah Territory, as it is deemed that none will be required during the fiscal year ending June 30, 1867.
16. \$100,000 is estimated to meet the requirements contemplated by the 6th section of the act of Congress approved April 8, 1864—U. S. Laws 1863-'64, page 41—there existing sundry Indian and other reservations which may be required to be surveyed, in order to close the lines of the public surveys thereon. Such portion of this sum as may be found indispensable to use in necessary office-work in any of the States and Territories it is proposed so to apply, and, unless otherwise ordered by law, the appropriation will be so understood and dealt with by the department.
17. \$15,000 is estimated to establish the northern boundary of the State of California, so as to enable the surveyors general of California and Oregon to close the lines of public surveys on the boundary, and fix the respective jurisdictions of those States.
18. \$19,000 is estimated for surveying the northern boundary of New Mexico, so as to ascertain whether the adjudication of the claims under treaty of Guadalupe Hidalgo, situated on the upper waters of the Rio Grande, belong to the surveyor general of New Mexico or that of Colorado, the latter Territory having formed portion of the present New Mexico.

REMARKS.—By the act of Congress approved May 30, 1862, the power of fixing the rates per mile for surveys is expressly delegated to the Commissioner, but in "no case to exceed the maximum established by law." It is hence his duty to reduce the rates under maximum stipulated in the estimates, according as circumstances may allow, and therefore the maximum in said estimates are by no means to be considered as the controlling rates.

JOS. H. BARRETT, *Commissioner.*

OFFICE OF THE COMMISSIONER OF PUBLIC BUILDINGS,
CAPITOL OF THE UNITED STATES,
Washington City, October 14, 1865.

SIR: I have the honor to submit herewith my annual estimates for the fiscal year ending June 30, 1867.

With high respect, your obedient servant,

B. B. FRENCH,
Commissioner of Public Buildings.

Hon. JAMES HARLAN,
Secretary of the Interior.

Annual estimates of the Commissioner of Public Buildings for the year ending June 30, 1867.

Compensation of public gardener, (10 Laws, pages 92 and 276, and vol. 13, page 459).....	1,400 00	1,400 00
Compensation of foreman and twenty-one laborers in the public grounds, (Laws, vol. 13, page 459).....	16,080 00	16,080 00
Compensation of keeper of the western gate, Capitol square, (Laws, vol. 13, page 459).....	1,000 00	1,000 00
Compensation of two day watchmen in Capitol square, (Laws, vol. 13, page 459).....	1,440 00	1,440 00
Compensation of two night watchmen at the President's House, per acts August 31, 1852, and April 22, 1854, (Laws, vol. 12, page 694).....	*1,440 00
Deficiency.—Compensation for same, for year ending June 30, 1856, (accidentally omitted in appropriation for that year).....	1,440 00
Compensation of doorkeeper at President's House, (13 Laws, page 459).....	720 00	720 00
Compensation of assistant doorkeeper at President's House, (13 Laws, page 459).....	720 00	720 00
Compensation of one night watchman at the public stables and carpenters' shops south of the Capitol, (same act).....	1,000 00	1,000 00
Compensation of watchman in reservation No. 2, (same act).....	720 00	720 00
Compensation of a second watchman in reservation No. 2, which was authorized in the miscellaneous bill of March, 1865, that failed between the two houses.....	720 00	720 00
Compensation of eight draw-keepers at the Potomac bridge, and for fuel, oil, and lamps, (13 Laws, page 459).....	7,553 60	7,553 60
Compensation of two draw-keepers at the two bridges across the Eastern Branch of the Potomac, and for fuel, oil, and lamps, (13 Laws, page 459).....	1,396 00	1,396 00

Purchase of coal and pay of fireman to warm library of Congress, (Laws, vol. 12, pages 582 and 583).....	2,280 00
[In reference to this appropriation, it is proper to say that the miscellaneous bill, which was lost, contains an appropriation of \$1,500. The library, before another season, will be more than twice the size that it is now, and the fuel will at least be doubled. One furnace-keeper will be sufficient. I have, therefore, doubled the amount for fuel.]		
For care, support, medical and surgical treatment of forty transient paupers, medical and surgical patients, in some proper medical institution in the city of Washington, to be selected by the Commissioner of Public Buildings.....	12,000 00	12,000 00
[In my annual report I have recommended an increase of the number of patients to sixty.]		
Hire of carts on the public grounds, (12 Laws, page 746).....	2,000 00	2,000 00
Purchase and repair of tools used in the public grounds, (12 Laws, page 746).....	400 00	400 00
For purchase of trees and tree-boxes, to replace, where necessary, such as have been planted by the United States; to whitewash tree-boxes and fences, and to repair pavements in front of public grounds, (12 Laws, page 746).....	3,000 00	3,000 00
For annual repairs of the Capitol, water-closets, public stables, water pipes, pavements, and other walks within the Capitol square, broken glass and locks, for protection of the building and keeping the approaches to it unincumbered, in addition to the avails of any old material that may be sold by the Commissioner.....	8,000 00	18,000 00

*This appropriation accidentally omitted last year.

† In miscellaneous bill, which failed.

Annual estimates of the Commissioner of Public Buildings, &c.—Continued.

Object of appropriation.	Estimate for the year ending June 30, 1867.	Appropriation for the year 1865-'66.
For lighting the Capitol and President's House, and public grounds around them, and around the executive offices, and Pennsylvania avenue, Maryland avenue west, Sixth street south, Four-and-a-half, Seventh, and Twelfth streets, across the mall, in Washington, and Bridge and High streets, in Georgetown.....	\$100,000 00	\$85,000 00
[\$100,000 was asked for last year, but the bill which failed contained but \$85,000. The lighting fund has been in arrears for several months past, and the additional consumption of gas when the new dome is lighted, as it will be during the next session, will add very materially to the expense. I hope Congress will see fit to increase the appropriation, as above asked.]		
For casual repairs of the Potomac, Navy Yard, and Upper bridges.....	6,000 00	6,000 00
For putting the Potomac bridge in repair, made necessary by the constant use of it by the War Department, for military purposes, for the past four years.....	10,000 00	
For erecting a new draw in the Navy Yard bridge.....	5,000 00	
For a deficiency due the Navy Department for use of pile-driver, men, oil, engine, &c., while repairing said bridge, (see A).....	2,959 66	
For fuel, in part, for President's House, (Laws, vol. 12, page 746).....	5,000 00	5,000 00
For repairs of Pennsylvania avenue.....	10,000 00	8,000 00
For public reservation No. 2 and Lafayette square.....		
For a deficiency in consequence of relaying and repaving all the crossings of the streets intersecting Pennsylvania avenue on the north side, from the Capitol to the Treasury Department.....	10,000 00	
For commencing a repavement of Pennsylvania avenue with the Belgian or Nicholson pavement, as the Secretary of the Interior and Commissioner of Public Buildings may elect.....	100,000 00	
For a renewal of the hydrants on Pennsylvania avenue.....	25,000 00	
For taking care of public reservation No. 2 and Lafayette square, in addition to the sale of hay which may be raised on the former.....	3,000 00	2,000 00
For taking care of the Circle on Pennsylvania avenue.....	1,000 00	
For taking care of the grounds south of the President's House, and improving them.....	3,000 00	3,000 00

For purchase of fuel for the centre building of the Capitol.....	1,500 00	1,500 00
For paving in front of public squares, reservations, and buildings, under the third section of the act of May 5, 1864, in the following words, viz: "That in all cases in which the streets, avenues, or alleys of the said city [Washington] pass through or by any of the property of the United States, the Commissioner of Public Buildings shall pay to the duly authorized officer of the corporation the just proportion of the expense incurred in improving such avenue, street, or alley which the said property bears to the whole cost thereof, to be ascertained in the same manner as the same is apportioned among the individual proprietors of the property improved thereby," (Laws, vol. 13, page 69,) in conformity with a verbal estimate of the mayor of Washington.....	100,000 00	
For the removal of nuisances, under the thirteenth section of the act of May 17, 1848, "to continue, alter, and amend the charter of the city of Washington," (Laws, vol. 9, page 229, and vol. 4, page 77).....	10,000 00	
For grading and repairing Virginia avenue.....	10,000 00	
For keeping the spring and water-pipes, which supply all the drinking-water to the Capitol, in repair, and erecting a substantial wooden fence around the ground, owned by the United States, on which the spring at Smith's farm is situated.....	1,000 00	
For the Capitol extension.....	200,000 00	
For the necessary expenses to be incurred in consequence of opening Sixth street west, across the mall, in making fences, &c.....	2,000 00	

SMITHSONIAN INSTITUTION,
Washington, D. C., July 27, 1865.

SIR: I have the honor herewith to submit the following estimate of the appropriation required for the preservation and care of the government collections of natural history, &c., deposited in this institution, for the year ending June 30, 1867.

The amount is two thousand dollars more than the appropriations annually made for this purpose; but this increase is necessary on account of the great advance in the cost of alcohol, benzine, camphor, arsenic, &c., used daily for the preservation of the specimens and the necessity of renewing paper trays, boxes, bottles, &c., injured or destroyed at the time of the fire at the institution.

I am, very respectfully, your obedient servant,

JOSEPH HENRY,
Secretary Smithsonian Institution.

Hon. JAMES HARLAN,
Secretary of the Interior.

Estimate for the preservation of the collections of the exploring and surveying expeditions of the government, (six thousand dollars).. \$6,000

GOVERNMENT HOSPITAL FOR THE INSANE,
St. Elizabeth, D. C., October 18, 1865.

SIR: I have the honor to present herewith estimates to supply deficiencies in the sums required to support the hospital, and for sundry repairs and improvements, during the current fiscal year; also estimates for the support of the institution, the continuation of sundry improvements, and for the purchase of fifty-six and one-half ($56\frac{1}{2}$) acres of meadow land needed for the culture of grass for grazing and hay.

The reasons assigned for the estimates for the current fiscal year, both in my letter originally submitting them, dated this day one year ago, and in the 9th annual report of the board of visitors subsequently submitted, hold good at the present moment, and are the grounds upon which they are now presented as deficiencies in consequence of the failure of Congress, at the close of its last session, to pass the appropriation bill in which these items were included. As is well known at the department, the hospital is now being supported with money borrowed, upon the faith of the party loaning it that Congress will very early in the approaching session enable the Hon. Secretary of the Interior to authorize the replacement of the amount advanced.

The estimate for the support of the hospital during the next fiscal year is the same as that asked for the same purpose for the current year, and is the product of the multiplication of the estimated average number of insane (360) that will be under treatment during that period, at the expense of the United States under existing laws, and of the average cost (\$250) of the proper support and treatment of one insane person for one year.

The third estimate for the year 1866-67 is sufficiently explained, it is thought, by the language in which that item is expressed.

The fourth estimate is for the continuation of a most important work for which a small sum is annually asked, in order that the government may least feel the expenditure necessary for the whole work.

The last (5th) estimate is for the purchase of an excellent piece of land which

can be obtained at a very moderate price, and which will save to the hospital, in the grazing and hay it will furnish for its stock, the whole amount of this item in three years.

In conclusion, I very respectfully ask that the estimates of this hospital be taken from the class of "sundry civil expenses of the government," which are appropriated in what is known as the miscellaneous or omnibus bill, and placed in the class which is embraced in the annual "Act making appropriations for the legislative, executive, and judicial expenses of the government." This hospital was organized by act of Congress approved March 3, 1855, by which the United States most solemnly pledged themselves to afford the uninterrupted benefits of the institution to certain classes of insane persons. That organic act has since been recognized by two important amendments of it, by repeated appropriations for the completion and support of the establishment, and by no less than four different extensions by Congress of its benefits; and I think I do not go too far in claiming that the hospital is as much an established institution of the government which it is bound to maintain, as any bureau of the department, and that its appropriations should not be made in that bill which embraces all occasional or temporary expenditures of the government, and is most likely to be delayed or defeated by what are known in the legislation of the country as "riders" and extraordinary provisos.

I am, sir, very respectfully, your obedient servant,

C. H. NICHOLS, *Superintendent.*

Hon. JAMES HARLAN, *Secretary of the Interior.*

Estimates for the fiscal year ending June 30, 1857.

1. To supply deficiencies occasioned by the non-appropriation of the following estimates for the fiscal year ending June 30, 1866:

1st. For the support, clothing, and medical treatment of the insane of the army and navy, and of the revenue cutter service, and of the indigent insane of the District of Columbia, in the Government Hospital for the Insane, during the fiscal year ending June 30, 1866, including five hundred dollars (\$500) for books, stationery and incidental expenses, ninety thousand five hundred dollars, (\$90,500.)

2d. For finishing, furnishing, and lighting additional accommodations in the east wing, for new bedding for the west wing, and for the extension and replanking of the coal wharf, ten thousand dollars, (\$10,000.)

3d. For continuation of the wall enclosing the grounds of the hospital, ten thousand dollars, (\$10,000.)

4th. For moving and repairing three old frame-houses, and building two new cottages for the occupation of the employés of the hospital having families, six thousand dollars, (\$6,000.)

Regular estimate for 1867.

2. For support, clothing and medical treatment of the insane of the army and navy, and revenue cutter service, and of the indigent insane of the District of Columbia, in the Government Hospital for the Insane, during the year ending June 30, 1867, including five hundred dollars (\$500) for books, stationery and incidental expenses, ninety thousand five hundred dollars, (\$90,500.)

3. For finishing, furnishing, and lighting additional accommodations in east wing, (occupied by sick and wounded soldiers during the war, and in part unfinished,) five thousand dollars, (\$5,000.)

4. For continuation of the wall enclosing the grounds, ten thousand dollars, (\$10,000.)

5. For the purchase and fencing of fifty-six and one half-acres of meadow land lying near the hospital, provided the Secretary of the Interior shall approve of the purchase in view of the price and quality of the land and the necessity of adding it to the hospital farm, six thousand dollars, (\$6,000.)

	<hr/> <hr/>

In addition to the above, \$15,000 appropriation is necessary to pay for the police telegraph which has been erected and in use for over twelve months.

I venture to express the wish that the items in the appropriation bill, as heretofore, be voted in the aggregate, thus:

For the construction of a police telegraph, fifteen thousand dollars; and for salaries and other necessary expenses of the Metropolitan Police for the District of Columbia, one hundred and twenty thousand dollars; and the compensation of the said police force, officers, clerks and magistrates of the Metropolitan Police, be, and the same is hereby, increased fifty per centum upon the amount hereby appropriated, commencing on the first day of July, 1866; said increase to be borne by the cities of Washington and Georgetown, and the county of Washington, in the proportion equal to the number of patrolmen allotted severally to the cities of Washington and Georgetown, and the county beyond the limits of said

cities; and the corporate authorities of said cities of Washington and Georgetown, and the levy court of said county, be, and they are hereby, authorized and empowered to levy a special tax, not exceeding one-quarter of one per centum, for the purpose aforesaid.

Very respectfully, your obedient servant,

W. H. TENNEY,

Treasurer Metropolitan Police.

COLUMBIA INSTITUTION FOR THE DEAF AND DUMB,
Washington, October 19, 1865.

SIR: I have the honor to transmit herewith estimates of expenditures for this institution for the year ending June 30, 1867.

I send them in thus in advance of my annual report that they may be in ample time to be included in the estimates of the department.

The objects of the several estimates, which perhaps explain themselves sufficiently well, will be fully detailed for the information of Congress in my report.

Very respectfully, your obedient servant,

E. M. GALLAUDET, *President.*

Hon. JAMES HARLAN,

Secretary of the Interior, Washington, D. C.

Estimates of expenditures for the year ending June 30, 1867.

UNITED STATES PATENT OFFICE,
Washington, October 13, 1865.

SIR: I have the honor to submit the following estimates for the usual special appropriations for this office during the fiscal year ending the 30th of June, 1867, viz:

For preparing descriptions and illustrations for the annual report of the Commissioner of Patents, six thousand dollars.

For expenses of receiving, arranging, and taking care of copyright books, charts, and other copyright matter, eighteen hundred dollars.

I have the honor to be, &c., &c.,

T. C. THEAKER, *Commissioner.*

HON. JAMES HARLAN, *Secretary of the Interior.*

DEPARTMENT OF THE INTERIOR, OFFICE INDIAN AFFAIRS,
Washington, D. C., November 1, 1865.

SIR: I have the honor to transmit herewith estimates of funds required to fulfil treaty stipulations with Indian tribes, and for the current and contingent expenses of the Indian department, for the fiscal year ending June 30, 1867; and, appended thereto, an estimate for deficiencies for the fiscal year ending June 30, 1866.

The treaty of 1855 with the Chippewas, Pillager and Lake Winnebagoishish bands, and the treaties with the Miamies of Indiana, Pawnees, Poncas, Omahas, Kickapoos, Ottoes and Missouriias, and the Yancton tribe of Sioux, contemplate appropriations by the calendar year. Making appropriations by the fiscal year has always left these six months behind, and the department has been compelled to anticipate the appropriations for them each year. This is not only improper and inconvenient, but, in those years when the long sessions occur, it has caused serious embarrassment to the service. I have, therefore, embodied the estimates for the next instalments for these Indians in an estimate for deficiencies, and in the regular estimate have included one instalment in advance, deeming it much better for the Indians, and not less conducive to economy in the service, to have the appropriations made six months in advance than six months too late.

The deficiency for the Pottawatomies is explained by letter of Agent Palmer, dated September 13, 1865, a copy of which is herewith. For the same reason

I have increased the estimate for "permanent provision of fifty barrels of salt" for the Pottawatomies from \$250 to \$437 50.

In the estimate for deficiencies the items for expenses of negotiating treaties with various Indian tribes are rendered necessary, from the fact that such treaties are now being negotiated under instructions from the Department of the Interior, and the funds necessary to open negotiations have been drawn from appropriations for other objects. The appropriation by the last Congress of \$20,000, for negotiating a treaty with the hostile Indians of Dakota has proved entirely insufficient; funds for this object have been drawn from other appropriations, and there are claims in this office for transporting goods to be used in this negotiation which cannot be settled till a further appropriation is made.

The item of \$504 to reimburse late Agent Ross for premium paid by him on coin to pay the annuities to the Pottawatomies in 1862 is explained by letters of late Agent Ross, dated April 21, 1862, May 11, 1865, and June 20, 1865, and office letter of June 19, 1863, copies of which are herewith. Under existing laws the Second Auditor of the Treasury has disallowed the account; but as the annuities were by treaty stipulation payable in coin, and the agent actually paid the premium, I think the circumstances warrant a recommendation that this appropriation be made for his relief.

The growing necessities of the Indian service in many of the western Territories, resulting from encroachments by miners and settlers on their ancient hunting-grounds, will cause the expenditures in some cases to exceed the appropriations for the current fiscal year; and I have, therefore, in estimating for deficiencies, included the items for incidental expenses of the Indian service in the State of Nevada and the Territories of Arizona and Utah. In the case of Nevada, I may state that a large portion of the amount asked for will be necessary to enable the department to settle the accounts of late Superintendent Nye.

The last Congress, by act of March 3, 1865, set apart a reservation for the Indians in Arizona, but made no appropriation to defray the expenses of placing them upon it. I have, therefore, deemed it proper to estimate for this as a deficiency.

Very respectfully, your obedient servant,

D. N. COOLEY, *Commissioner.*

Hon. JAMES HARLAN,

Secretary of the Interior.

POTTAWATOMIE AGENCY,

St. Mary's Mission, September 13, 1865.

SIR: Referring to a letter of the Commissioner of the 20th ultimo, in relation to a deficiency in the appropriation for 50 barrels of salt for the Pottawatomies, I have to report:

In 1862 there were delivered to the Pottawatomies—

49	bbls. salt, at \$5 30 $\frac{3}{4}$	per bbl.....	\$260 00
1863, 42	" " " 5 95 $\frac{1}{4}$	" "	250 00
1864, 36	" " " 8 25	" "	297 00
1865, 32	" " " 7 90	" "	252 80

Showing a deficiency in the four years of 41 barrels. The present price of salt at Leavenworth, from information just received, is \$5 per barrel. Expense of delivering, \$3 75. Necessary cost to the Indians, \$8 75 per barrel.

Very respectfully, your obedient servant,

L. R. PALMER,

United States Indian Agent.

Hon. T. MURPHY, *Sup't Indian Affairs, Atchison, Kansas.*

OFFICE SUPERINTENDENT INDIAN AFFAIRS,
Atchison, September 15, 1865.

SIR: I have the honor herewith to transmit a letter from Agent Palmer, of the 13th instant, reporting, in compliance with your request of the 21st ultimo, relative to the deficiency in the appropriation for 50 barrels of salt for the Pottawatomies.

Very respectfully, your obedient servant,

THOS. MURPHY,
Superintendent of Indian Affairs.

Hon. R. B. VAN VALKENBURGH,
Acting Commissioner, Washington, D. C.

WASHINGTON CITY, D. C., *April 21, 1862.*

SIR: Enclosed you will please find the voucher of Thomas Carney & Co. for five hundred and four dollars (\$504) premium paid for gold and silver to make the Pottawatomie annuity payment in January, 1862. I received the government draft just at the time the treasury had suspended specie payment, and being unable to make the payment without the small proportion of gold and silver that I have bought, it was deemed advisable, in order to carry out faithfully the treaty stipulations with the Pottawatomies, to make the purchase.

Having done so, and paid out my own money, it is hoped that the department will see that I am reimbursed at as early a day as possible.

Very respectfully, your obedient servant,

W. W. ROSS,
Indian Agent.

The United States to Thomas Carney & Co., Dr.

January 19, 1862.	For premium paid on \$10,000 gold at $4\frac{1}{2}$ per cent.	\$450 00
	For premium paid on \$2,000 silver at $2\frac{1}{2}$ per cent.	50 00
	For packing and cartage of same.....	4 00
	Total.....	<u>504 00</u>

(By referring to letter from Commissioner Dole, dated June 19, 1863, it will be seen that the above bill has been allowed.)

Received at Leavenworth, July 20, 1863, of W. W. Ross, United States agent Pottawatomie Indians, five hundred and four dollars, in full of the above account.

THOMAS CARNEY & CO.

I certify, on honor, that the above account is correct and just, and that I have actually, this 20th day of July, 1863, paid the amount thereof.

W. W. ROSS,
U. S. Agent for Pottawatomie Indians.

DEPARTMENT OF THE INTERIOR,
Office Indian Affairs, Washington, D. C., June 19, 1863.

SIR: Referring to your letter of the 21st of April, 1862, enclosing voucher for premium paid by you for gold and silver to make the annuity payment to the Pottawatomes in June, 1862, I have to state that this office has decided to allow the same, and a requisition has been issued for \$504 to be remitted to you at St. Mary's Mission, Kansas, for that purpose, from the appropriation "contingencies Indian department."

The vouchers returned herewith, and you will embrace it in your account, referring to this letter as your authority therefor.

Very respectfully, your obedient servant,

W. P. DOLE,
Commissioner.

W. W. ROSS, Esq.,
Indian Agent, St. Mary's Mission, Kansas.

TOPEKA, KANSAS, *May 11, 1865.*

SIR: I am notified by the Second Auditor that the amount of a little over \$500, which was ordered paid by you on premium for gold to make the Pottawatomes Indian payment in 1861, has been disallowed. It was not paid by you until some time in 1863, when you had the requisition issued. Now, what am I to do? I am not able to lose it. It is true that it is a small amount; but small as it is, it would break me up in business to have to draw that amount from my legitimate business; but even this I would not mind or hesitate a moment at if it was right for me to pay it; but I paid the money out under orders, and it was necessary that the expenditure should be made in order to appease a restless disposition that then existed among the Indian tribes.

Please write me at your earliest convenience, and oblige

W. W. ROSS.

Hon. WILLIAM P. DOLE.

TOPEKA, KANSAS, *June 20, 1865.*

SIR: About the 10th of May I wrote you stating that the Second Auditor had disallowed an account of \$504 paid by me, in accordance with your instruction of June 19, 1863, for premium on gold for the Pottawatomie payment. In your favor of May 20 you had the kindness to state that a "copy of your instructions had been forwarded to the Second Auditor," which were considered sufficient to authorize him to give me credit for the amount. Upon the receipt of your letter I rested contented until to-day, when I received another statement from the Second Auditor, dated June 3, 1865, in which I find the same amount disallowed, with a statement in connexion, "prohibited by law." Will you please have the kindness to see that the matter is righted at your earliest convenience, and very much oblige

Your humble servant,

W. W. ROSS.

Hon. W. P. DOLE,
Commissioner Indian Affairs.

NAVIGATION No. 4.

Estimate of the sums which will be required for the United States Naval Observatory and Hydrographical Office during the fiscal year ending June 30, 1867.

The sums asked for are the same as those granted by Congress for the fiscal year 1865-'66, with the following exception: The estimate under the head of Naval Observatory is \$2,000 less than the sum granted last year. The object for which this sum was then specially appropriated, not requiring an annual expenditure, is omitted from the estimates, and the sum asked for is deemed sufficient to meet the requirements of the Observatory during the year.

NAVY DEPARTMENT, BUREAU OF STEAM ENGINEERING,
October 3, 1865.

SIR: In compliance with your instructions of the 18th August, I have the honor to transmit herewith the estimates of amounts required for this bureau for the fiscal year ending June 30, 1867.

Owing to the cessation of the war, and the consequent contraction of the operations of the bureau to the utmost limit warranted by a judicious economy, the unexpended balance of last year's appropriation—which was large in anticipation of a vigorous prosecution of the war—will be sufficient to cover the estimates for the coming fiscal year for the work under construction, and for the wear and tear of the machinery of vessels in commission; estimates for the civil expenses of the bureau are therefore alone submitted.

No new work has been commenced since some previous to the termination of the war; and the unfinished work is being executed slowly, and with every precaution for economy.

Had the work contracted to be completed during the last fiscal year been finished, and had the war continued, the appropriation for that year would have been exhausted; the large balance now remaining is due to the fact, that the work which was to have been executed in that year will be extended over two years or more.

Very respectfully, your obedient servant,

B. F. ISHERWOOD, *Chief of Bureau.*

Secretary of the Navy.

HEADQUARTERS MARINE CORPS,

Washington, September 30, 1865.

SIR: I have the honor to transmit herewith estimates, in triplicate, from the paymaster's department for pay and subsistence of officers, pay of non-commissioned officers, musicians, and privates, of the United States marine corps, for the fiscal year ending June 30, 1867.

I am very respectfully, your obedient servant,

J. ZEILIN, *Colonel Commanding.*

Hon. GIDEON WELLS, *Secretary of the Navy.*

HEADQUARTERS MARINE CORPS,

Paymaster's Office, September 30, 1865.

SIR: I enclose herewith estimates, in triplicate, for pay and subsistence of officers, and pay of non-commissioned officers, musicians, privates, &c., of the United States marine corps, for the fiscal year ending June 30, 1867.

These estimates exhibit an increase of \$66,201 50 over the sum appropriated for the present fiscal year, of which amount \$51,201 50 will be required for payment of the increase in commutation for officers' rations, and servant allowance, authorized by an act approved March 3, 1865; and \$15,000 for undrawn clothing, rendered necessary by the advance in the price of clothing.

I am, very respectfully, your obedient servant.

HEADQUARTERS MARINE CORPS,
Paymaster's Office, September 30, 1865.

No. 84.

HEADQUARTERS MARINE CORPS,
Washington, October 3, 1865.

SIR: I have the honor to enclose, in triplicate, estimates for the support of the quartermaster's department of the marine corps, for one year, commencing July 1, 1866.

I also enclose a letter from the quartermaster in explanation of these estimates, which I respectfully submit.

Very respectfully, your obedient servant,

J. ZEILIN, *Colonel Commanding.*

Hon. GIDEON WELLS,

Secretary of the Navy, Washington, D. C.

No. 28.

HEADQUARTERS MARINE CORPS,
Quartermaster's Office, Washington, October 3, 1865.

SIR: I have the honor to transmit triplicate estimates for the support of the quartermaster's department, marine corps, from July 1, 1866, to June 30, 1867.

These estimates vary from the appropriations for the fiscal year ending June 30, 1866, as follows:

Contingencies have been increased.....	\$20,000 00
Clothing has been reduced.....	13,848 95
And fuel has been reduced.....	2,509 75

The increase in contingencies is made necessary by the high prices of everything chargeable to that appropriation, and the heavy expenditures under that head during the present and past fiscal years. The reduction in clothing is believed to be justified by a decrease in the cost of material, and in fuel by the present condition of that appropriation.

The aggregate amount asked for exceeds the appropriation of last year \$3,578 30.

I am, very respectfully, your obedient servant,

W. B. SLACK,

Quartermaster Marine Corps.

Colonel JACOB ZEILIN,

Commandant Marine Corps, Headquarters.

Estimate of the expenses of the quartermaster's department of the marine corps for one year, from July 1, 1866, to June 30, 1867.

There will be required for the support of the quartermaster's department of the marine corps for one year, commencing on the 1st of July, 1866, in addition to the balances then remaining on hand, the sum of six hundred and fifty thousand six hundred and eighty-seven dollars and fifty-five cents.

For provisions.....	\$169,907 50
For clothing.....	314,663 05
For fuel.....	30,117 00
For military stores, viz: Pay of mechanics, repair of arms, purchase of accoutrements, ordnance stores, flags, drums, fifes, and other instruments.....	16,000 00

For transportation of officers, their servants, troops, and for expense of recruiting	\$25,000 00
For repair of barracks and rent of offices where there are no public buildings..	15,000 00
For contingencies, viz: Freight, ferriage, toll, cartage, wharfrage, purchase and repair of boats, compensation to judge advocates, per diem for attending courts-martial, courts of inquiry, and for constant labor, house rent in lieu of quarters, burial of deceased marines, printing, stationery, postage, telegraphing, apprehension of deserters, oil, candles, gas, repair of gas and water fixtures, water rent, forage, straw, barrack furniture, furniture for officers' quarters, bed-sacks, wrapping-paper, oil-cloth, crash, rope, twine, spades, shovels, axes, picks, carpenters' tools, keep of a horse for messenger, pay of matron, washerwomen and porter at hospital headquarters, repairs to fire-engine, purchase and repair of engine-hose, purchase of lumber for benches, mess tables, bunks, &c., repairs to public carryall, purchase and repair of harness, purchase and repair of hand-carts and wheel-barrows, scavengering, purchase and repair of galleys, cooking stoves, ranges, &c., stoves where there are no grates, gravel, &c., for parade grounds, repair of pumps, furniture for staff and commanding officers' offices, brushes, brooms, buckets, paving, and for other purposes.....	80,000 00
Amount required	650,687 55

Respectfully submitted:

W. B. SLACK,
Quartermaster Marine Corps.

REMARKS.—The reduction is due to the fact that with the reduction of the army the necessity for officers travelling on special duty is diminished in a corresponding degree.

V.—TRANSPORTATION OF TROOPS AND SUPPLIES.

For transportation of the army, including the baggage of the troops, when moving either by land or water; of clothing, camp and garrison equipage, from the depots of Philadelphia, Cincinnati, and New York, to the several posts and army depots, and from those depots to the troops in the field, and of subsistence stores from the places of purchase, and from the places of delivery under contract, to such places as the circumstances of the service may require them to be sent; of ordnance, ordnance stores, and small arms, from the foundries and armories to the arsenals, fortifications, frontier posts, and army depots; freights, wharfage, tolls, and ferriages; the purchase and hire of horses, mules, oxen, and harness, and the purchase and repair of wagons, carts, and drays, and of ships and other sea-going vessels and boats required for the transportation of supplies, and for garrison purposes; for drayage and cartage at the several posts; hire of teamsters; transportation of funds for the pay and other disbursing departments; the expense of sailing public transports on the various rivers, the Gulf of Mexico, and the Atlantic and Pacific; for procuring water at such posts as, from their situation, require it to be brought from a distance; and for clearing roads and removing obstructions from roads, harbors, and rivers, to the extent which may be required for the actual operations of the troops in the field.....

REMARKS.—The reduction is due to the reduced force to be supplied with transportation, the depreciation in prices, and the supplies on hand available for the next fiscal year.

VI.—BARRACKS AND QUARTERS.

For hire or commutation of quarters for officers on military duty; hire of quarters for troops, of storehouses for the safe-keeping of military stores, of grounds for summer cantonments; for the construction of temporary huts, hospitals, and stables, and for repairing public buildings at established posts.....

For heating and cooking stoves.....

For constructing and extending the telegraph for military purposes, and for expenses in operating the same.....

For supplies, transportation, and care of prisoners of war.....

REMARKS.—The reduction is due to the reduced force to be provided for, the depreciation in prices, and the supplies on hand available for the next fiscal year.

Estimate of appropriations under the control of the War Department required for the ordnance service during the fiscal year ending June 30, 1867.

Heads of appropriations.	Amount required to be appropriated for the fiscal year ending June 30, 1867.	Estimate of balances of appropriations unexpended on June 30, 1866, which may be applied to the service of the next fiscal year.	Appropriations for the service of the fiscal year ending June 30, 1866.
For the armament of fortifications			\$3,500,000
For the current expenses of the ordnance service		\$600,000	1,250,000
For ordnance, ordnance stores, and supplies		8,000,000	20,000,000
For purchase of gunpowder and lead			2,500,000
For manufacture of arms at the national armory		1,500,000	3,500,000

For repairs and improvement at arsenals	50,000	1,000,000	500,000
For the purchase of site and erection of magazine for storing gunpowder	200,000		
For the purchase of land for enlarging the Water-vliet arsenal	30,000		
Amount	580,000	11,100,000	31,350,000

EXPLANATIONS AND DETAILS OF THE FOREGOING ESTIMATE.

Repairs, improvements, and new machinery at the national armories.—To keep up the present machines, and to make such alterations thereof and finish such new ones as may be necessary in consequence of the adoption of the new model breech-loading arms instead of the present style of muzzle-loaders.

Repairs and improvements at arsenals.—Under this head the estimate includes all expenses for erecting new and enlarging or repairing old buildings at the arsenals; for making and repairing enclosures, wharves, drains, and sewers; for grading and paving grounds, and roads, and walks; for purchase and repair of machines, engines, shafts, and belting, and for all other permanent repairs and improvements at the arsenals.

Magazines for storing gunpowder.—The danger of keeping large supplies of gunpowder at our arsenals, which are generally in the vicinity of closely populated districts, makes it a matter of importance, if not of necessity, to provide for an ample depository of this article in some safe place, which should be in a dry climate sufficiently remote from a city or dense population to avoid destruction of life or property by accidental explosion, and of easy access, or susceptible of being made so, for the transportation of powder to and from it.

Purchase of land for enlarging Water-vliet arsenal.—The land proposed to be purchased is on the south side of the arsenal grounds, and between the present buildings and the road, and is necessary for the convenient operations of the arsenal, and the safety of the large and valuable amount of public property thereat.

Brigadier General, Chief of Ordnance.

ORDNANCE OFFICE, October 5, 1865.

DETAILS OF DEFICIENCY ESTIMATES.

TREASURY DEPARTMENT.

TREASURY DEPARTMENT,
Office Light-house Board, October 28, 1865.

SIR: I have the honor to submit herewith the accompanying estimates of funds for the support and maintenance of the light-house establishment for the fiscal year ending June 30, 1866; the necessity for which arises from the failure of Congress to act upon the estimates submitted for the same service last year.

In addition to the funds asked for last year and now again requested, the board has found it necessary to add to certain sums to cover deficiencies found to exist, which deficiencies are readily explained.

The estimate of last year was based upon the assumption that the rebellion which was then in existence would continue to a greater or less extent, subsiding gradually during the period which the estimates were designed to cover; but the presumption has been proved to be erroneous, the rebellion having suddenly collapsed, throwing upon the board the unexpected labor of providing for the restoration of a much larger number of lights and other aids to navigation than was anticipated, and that, too, during a condition of augmented prices for labor and materials.

These estimates are exhibited in tabular form, and accompanied by explanatory tables in detail, marked

The board would most earnestly invite the attention of Congress to its recommendation of last year, that the average pay of light-keepers, now limited by law to \$400 per annum, be increased to \$500 per annum.

The list of special works submitted with the last estimate is herewith repeated, with the further remark that whereas the works were then divided into two lists, one embracing those considered indispensable, and the other comprising those of great importance but whose execution might without actual hazard be deferred, the board is now of opinion that the interests of commerce require that these works be no longer postponed, and they are therefore submitted in one list and recommended to immediate attention.

Very respectfully,

W. B. SHUBRICK,
Chairman Light-house Board.

Hon. H. McCULLOCH,
Secretary of the Treasury.

UNITED STATES PATENT OFFICE,
Washington, D. C, November 8, 1865.

SIR: An appropriation of \$15,000 was asked from Congress at the last session for the purpose of finishing the north saloon of the Patent Office building, and that sum was approved by the committees of both houses and inserted in a miscellaneous appropriation bill, which failed through the disagreeing votes upon certain amendments.

In my judgment, to finish that saloon in a style similar to those in the east and west wings and to provide for certain necessary repairs and improvements in the other saloons, the sum of \$30,000 should be appropriated at the ensuing session.

I have the honor to be, your obedient servant,

T. C. THEAKER, *Commissioner.*

Hon. JAMES HARLAN,
Secretary of the Interior.

DEPARTMENT OF THE INTERIOR,
General Land Office, October 31, 1865.

SIR: In view of the non-appropriation, at the last session of Congress, for the census, and of the assignment to this office of the superintendence of that work on 7th June last, the commissioner, pursuant to orders from the department, placed on the general land official list the actual and experienced employés who, previous to and at that period, had been engaged in the census branch of the service, and they have accordingly been paid since the 1st June last as clerks of this office. We had, however, not the grades of salaries at command wherewith to continue to these experienced officials the several rates of compensation at which they had been employed.

The paper A, herewith, indicates the compensation of each employé before the assignment was made, and in corresponding column their present salaries respectively.

To make good the aggregate difference between the old rates and the present from 1st June last to 31st December, 1865, I now submit, as a deficiency estimate, the sum of \$2,450 31.

I further submit the sum of \$6,460 to pay the salaries, at the census rates, of a principal clerk and other clerks from January 1, 1866, to the 30th June, 1866, the end of the present fiscal year. Also the sum of \$1,500 for incidentals for the current fiscal year ending June 30, 1866.

I further submit, as estimate for the fiscal year ending June 30, 1867, in the service of the census, the sum of \$35,000.

With this amount it is proposed to employ for that year a force of seven experienced persons to prepare for publication an exhibit, by States, of the num-

ber of families in the United States; number of operatives in the country, with ages and sex; the operatives; exhibit to be used in comparison with the next census and with similar reports by Great Britain and European continental powers, thus affording information useful to statesmen, and of interest to our people.

The clerical force proposed to be employed will render service in furnishing data on calls from Congress, from other departments of the government and citizens, in arranging and classifying eighth census returns, and in closing the census financial business with United States marshals for services remaining unliquidated; this estimate being submitted with the understanding, if appropriated, that it will be expended at the discretion of the Secretary of the Interior, for the purposes indicated, and also in gathering statistics of internal commerce, mining, and manufacturing; in making compilation from State census returns of 1865, and in the publication of a supplemental volume prior to the second session of the thirty-ninth Congress.

I also submit, as a deficiency estimate, the sum of \$230,360 21 due to United States marshals and their assistants in the late insurgent States.

The sums which may be adjusted and found due severally to such officers will, of course, only be paid where the loyalty of the parties shall be satisfactorily shown. The progress of the census work, with considerations pertinent to the matter, will form the subject of a separate communication which it is proposed to submit when the present service shall have been advanced to completion.

With great respect, your obedient servant,

J. M. EDMUNDS,

Commissioner, and in charge of the Census.

Hon. JAMES HARLAN,

Secretary of the Interior.

GENERAL LAND OFFICE, *October, 31, 1865.*

OFFICE OF THE COMMISSIONER OF PUBLIC BUILDINGS,
CAPITOL OF THE UNITED STATES,
Washington City, October 16, 1865.

SIR: I have the honor to enclose an estimate of the deficiencies of appropriation required for the use of this office, and of the Capitol extension, for the remainder of the present fiscal year.

I am, with high respect, your obedient servant,

B. B. FRENCH,
Commissioner of Public Buildings.

HON. JAMES HARLAN,
Secretary of the Interior.

DEFICIENCIES.

Deficiencies estimated by the Commissioner of Public Buildings for the fiscal year ending June 30, 1866.

Object of appropriation.	Estimate for the year ending June 30, 1866.	Amount contained in miscellaneous bill, lost at last session.
For purchase of coal and pay of fireman to warm library of Congress ; (12 Laws, page 694)	\$1,500	\$1,500
For care, support, medical and surgical treatment for forty transient paupers, medical and surgical patients, in some proper medical institution in the city of Washington, to be selected by the Commissioner of Public Buildings ; (12 Laws, page 746)	12,000	12,000
Hire of carts on public grounds ; same reference	2,000	2,000
Purchase and repair of tools used in the public grounds ; same reference	400	400
For purchase of trees and tree boxes to replace, where necessary, such as have been planted by the United States ; to whitewash tree boxes and fences, and to repair pavements in front of public grounds ; same reference	3,000	3,000
For annual repairs of Capitol, water-closets, public stables, water-pipes, pavements, and other walks within the Capitol square, broken glass and locks, and for protection of the building and keeping the main approaches to it unincumbered, in addition to the avails of old material sold ; same reference	8,000	8,000
For fitting up rooms in the basement under the court-room of the Supreme Court, for a consultation room for the court	5,000	5,000
For annual repairs of the President's house and furniture, improving the grounds, purchase of plants, &c., and contingent expenses incident thereto ; (12 Laws, page 746)	6,000	6,000
For fuel in part for the President's house ; (Laws, vol. 12, page 746)	5,000	5,000
Lighting the Capitol and President's house, and public grounds around them, and around the Executive offices, and Pennsylvania avenue, Bridge and High streets in Georgetown, Four-and-a-half, Seventh, and Twelfth streets across the mall, and Maryland avenue west, and Sixth street south ; (12 Laws, pages 746 and 750)	85,000	85,000
For repair of Potomac and upper bridges	6,000	6,000
For repairs of Pennsylvania avenue, and keeping it clean and free from dust ; (12 Laws, pages 350 and 746)	10,000	10,000
For public reservation No. 2, and Lafayette square ; (12 Laws, page 746)	2,000	2,000
[I respectfully ask that this appropriation may be increased to the actual requirement, \$3,000.]		
For taking care of the grounds south of the President's house and continuing the improvements of the same ; same reference	3,000	3,000
For repair of water-pipes ; same reference	500	500
For cleaning and repairing sewer traps on Pennsylvania avenue ; same reference	300	300
Casual repair of all the furnaces under the Capitol ; same reference ..	500	500
Additional watchman in reservation No. 2	720	720
Underdraining the President's garden	1,000	1,000
Refurnishing the President's house, and repairing the same, in addition to avails of old furniture sold	30,000	30,000
[In my regular estimates I have asked an addition to this sum of \$20,000. The peculiar circumstances under which the present President came into its occupancy, render an additional sum absolutely necessary, and it is hoped it may be added here.]		
For casing with stone the north basement of the old part of the Capitol to correspond with the south basement already done	4,300	4,300

Deficiencies estimated by the Commissioner of Public Buildings, &c.—Continued.

Object of appropriation.	Estimate for the year ending June 30, 1866.	Amount contained in miscellaneous bill, lost at last session.
For the completion of the sewer through the Botanic garden	\$20,505	\$20,505
For paving in front of the War and Navy Departments, on Seventeenth street west	3,000	3,000
For stone crossings on Pennsylvania avenue	5,000	5,000
For repairing the greenhouses at the President's	2,500	5,000
[Upon examining the old structure it was found to be so entirely rotten at the foundation that very much more extensive repairs than were anticipated were necessary, and an expenditure of \$7,500, in addition to the above, has been made, and I have asked for the same in my regular estimates. If it could be added here it would relieve this office of embarrassment.]		
For repairing the roof of the old portion of the Capitol	5,450	5,450
For arrears in illuminating the Capitol	250	300
For shovelling snow	500	500
For hauling manure	500	500
For improving Franklin square and taking care of it	1,720	1,720
For painting the President's House inside and out	8,000	8,000

For fuel for the centre building of the Capitol	1,500	1,500
For completing the dome of the Capitol	50,000	50,000
To supply deficiency in the appropriation for lighting the Capitol and President's House and public grounds around them, around the executive offices, and Pennsylvania avenue, Bridge and High streets, Georgetown, Four-and-a-half, Seventh, and Twelfth streets across the mall, and Maryland avenue west, and Sixth street south, per act of March 3, 1863	13,000	
To supply a deficiency in the appropriation for fuel for the President's House and Capitol	6,000	
NEW DEFICIENCIES.		
For continuing the work on the Capitol extension	175,000	
Amount expended on the United States Capitol extension, from November 1, 1864, to June 30, 1865, (eight months,) \$197,064.09.

COLUMBIA INSTITUTION FOR THE DEAF AND DUMB,
Washington, October 17, 1865.

SIR: I have the honor to transmit the estimates of expenditures for this institution during the current fiscal year.

These estimates are precisely as they were submitted last year, and as they received the approval of both houses of Congress last session, in the bill which, as you know, failed to become a law.

I would therefore respectfully ask that they be presented to Congress in a deficiency bill, and very early action be asked thereon.

Very respectfully, your obedient servant,

E. M. GALLAUDET,
President.

Hon. JAMES HARLAN,
Secretary of the Interior.

The following estimates of expenditures for the *Columbia Institution for the Deaf and Dumb* for the year ending June 30, 1866, were in the "civil and miscellaneous bill" which failed to pass Congress last March, and are now presented that they may be inserted in the deficiency bill of the ensuing session of Congress.

For salaries and incidental expenses, including five hundred dollars for the purchase of books and illustrative apparatus, twelve thousand five hundred dollars, (\$12,500.)

For the erection, furnishing, and fitting up of the two extensions to the buildings to provide enlarged accommodations for the male department, and to furnish rooms for the instruction of the pupils in useful labor, thirty-nine thousand four hundred and forty-five dollars and eighty seven cents, (\$39,445 87.)

For the proper enclosure, grading, and improvement of the grounds of the institution, three thousand five hundred dollars, (\$3,500.)

NOTE.—Attention is called to the fact that the words "and the blind" have been dropped from the corporate name of the institution, as directed by an act of the last Congress.

UNITED STATES JAIL,
Washington, October 31, 1865.

DEAR SIR: Your communication of this date, asking for an estimate of the expenses of the United States jail for the fiscal year ending June 30, 1867, and if an increase over the amount asked for the previous year is required, to state the reasons therefor, has been received, and, in reply, I would state:

The estimate for expenses of the jail for the fiscal year ending June 30, 1867, is fifty thousand dollars, which is an increase of twenty thousand dollars over previous year.

My reasons for this estimate are, that thirty thousand dollars was estimated to be appropriated for the past year, when the average number of prisoners was one hundred. Now, the average number of prisoners will reach two hundred, and will require, I think, at least this amount.

Very respectfully, your obedient servant,

T. B. BROWN, *Warden.*

GEO. C. WHITING, Esq.,
Acting Chief Clerk, &c.

ATTORNEY GENERAL'S OFFICE,

November 4, 1865.

SIR: I have this day transmitted to you an estimate of the appropriations required for the service of this office for the fiscal year ending June 30, 1867. I now beg leave to submit an estimate of appropriations; and a draught for legislative enactment, which are rendered necessary to meet deficiencies in this office for the current fiscal year, arising out of unanticipated, unusual, and extraordinary expenses, and the largely increased amount of clerical labor which has been devolved upon this office since the passage of the last appropriation bill, together with a statement of the reasons therefor.

1.—FOR SALARIES.

The appropriation for salaries made for this office at the last session of Congress for the now current fiscal year were made in accordance with estimates based upon laws in existence at the time those estimates were submitted. Since that time, the act (approved March 3, 1865, 13 Laws, p. 516) entitled "An act amendatory of the acts relative to the Attorney General's office, and to fix the compensation of his assistant and clerks," has been passed, under the provisions of which the salary of the Assistant Attorney General has been increased \$500 per annum, and the annual aggregate for salaries of clerks is increased \$2,800, making in all under that law a deficiency for salaries for the current year of \$3,300, for the supply of which I have now to ask that provision be made.

2.—FOR CONTINGENT EXPENSES.

Since the estimate was submitted and the appropriation made for the contingent expenses of this office for the current year, a then unlooked-for and extraordinary expenditure from that fund has been thrown upon this office in consequence of the *pardon business* arising under the President's proclamation of amnesty of May 29, 1865, especially for the increased quantity of stationery required in transacting that business. In the letter of Mr. Attorney General Bates, of September 16, 1864, transmitting the estimate for contingent expenses for the now current year, an increased appropriation was asked because "the office will very soon require new carpets and other new furniture, and cannot procure them with so small an appropriation." The increase thus asked for was granted by Congress; but when the commencement of the current year had arrived, it was found that the unusual and extraordinary contingent expenditures arising under the President's proclamation, just referred to, had become so great as to make it advisable not to use any of this appropriation for carpets, but to reserve and apply it to the more immediate and pressing necessities of the public service. In the mean time the carpets and furniture have been subjected to a largely increased amount of wear and tear from usage by the large number of applicants for pardon who from day to day frequent the office, so that much of the carpeting is tattered and worn into shreds, and new carpeting is needed now more than ever. It is estimated that \$3,500 additional for contingent expenses may be sufficient to carry the office through the current year, an appropriation of which sum to supply deficiencies for that time is respectfully asked.

3.—TEMPORARY CLERKS.

Under the operation of the President's proclamation, above referred to, the amount of clerical labor devolved upon the pardon division of this office has been greatly increased beyond the usual current work required in attending to pardon applications under ordinary criminal convictions. The large increase of this business has rendered a reorganization of the pardon division necessary, thus devolving greatly increased labor on the "pardon clerk," and making it neces-

sary, in addition to his increased duties, that one of the other regular clerks in the office should be taken from his usual duties and assigned to the pardon division. This, as is evident, throws an increased amount of labor upon the remainder of the regular clerical force of the office. But besides the amount of labor performed by the able pardon clerk and his efficient assistant, there is an amount of work to be done in that division which has thus far required the employment of two temporary clerks; but in the law of March 3, 1865, above referred to, it is provided that the allowances for "temporary clerks shall in no one year exceed \$1,000." This sum is entirely inadequate to pay for the additional clerical labor that has been thrown upon the office. This labor still continues, with no present prospect of diminution, and the amount of it that will be required, or how long it will continue, is very uncertain, so that I find it impossible to make any accurate estimate of the probable sum that will be required for this service. I therefore have to request that a provision be made for the wants of this office, in this respect, similar to that which was made for compensation of temporary clerks and additional compensation to clerks in the Treasury Department at the last session of Congress.—(Laws, 1864-'65, p. 450.) I respectfully submit the following draught of a provision for that purpose:

"And there is hereby appropriated, out of any money in the treasury not otherwise appropriated, such sum, not exceeding ten thousand dollars, as shall be necessary to enable the Attorney General to employ a sufficient number of temporary clerks to discharge the duties devolved upon his department under the operation of the President's proclamation of amnesty of May 29, 1865, and to enable him to award such additional compensation to clerks in his office as may be deemed just and in accordance with the service rendered by them, and to pay any other necessary expenses of his office, not otherwise provided for, arising under said proclamation."

The passage by Congress of the foregoing provision will, I believe, enable me to discharge satisfactorily the additional clerical and other duties that have been devolved upon this office.

Very respectfully, your obedient servant,

JAMES SPEED, *Attorney General.*
