

CONTRACTS, PURCHASES, AND EXPENDITURES FOR THE
INDIAN SERVICE.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

RELATIVE TO

*The extent and nature of the contracts, purchases, and expenditures for the
Indian service made since July 1, 1873.*

FEBRUARY 10, 1874.—Referred to the Committee on Indian Affairs and ordered to be
printed.

To the House of Representatives :

I have the honor to transmit herewith the report of the Secretary of the Department of the Interior, to whom was referred the resolution of the House of Representatives of January 7, requesting "a statement of the extent and nature of the contracts, purchases, and expenditures for the Indian service made since July 1, 1873, setting forth which, if any, of them were made or entered into without conference with the board of Indian commissioners appointed by the President, and the extent and description of contracts and vouchers objected to by said board, stating to what extent payments have been made thereon against their remonstrance."

U. S. GRANT.

EXECUTIVE MANSION, February 9, 1874.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., February 5, 1874.

SIR: I have the honor to acknowledge the receipt, by reference from you, of a resolution of the House of Representatives, in the following words, viz:

Resolved, That the President of the United States be, and he is hereby, requested to cause to be furnished to this House, at as early a day as practicable, a statement of the extent and nature of the contracts, purchases, and expenditures for the Indian service made since July 1, 1873, setting forth which, if any, of them were made or entered into without conference with the board of Indian commissioners appointed by the President; and the extent and description of contracts and vouchers objected to by said board, stating to what extent payments have been made thereon against their remonstrance.

In response to said resolution, I have the honor to transmit herewith a copy of a Communication from the Commissioner of Indian Affairs, dated 26th ultimo, accompanied by schedules containing the information requested, as follows:

1st. A statement showing the extent and nature of contracts entered into for the Indian service since July 1st, 1873, showing which were made without conference with the board of Indian commissioners appointed by the President.

2d. Statement of the expenditures of the Indian service since July 1, 1873, showing what vouchers were not approved by the board of Indian commissioners, and to what extent payments have been made thereon.

In this connection I desire to submit some observations in relation to the workings of the present system of auditing accounts by a committee of the board of Indian commissioners.

The board of Indian commissioners were appointed by you under authority of an act of Congress approved April 10, 1869, (Statutes, vol. 16, p. 40.) The board was authorized by said act to "exercise joint control with the Secretary of the Interior over the disbursement of the appropriations made by this act, or any part thereof that the President may designate."

By an act of Congress approved July 15, 1870, (Statutes, vol. 16, p. 360,) it was made "the duty of said commissioners to supervise all expenditures of money appropriated for the benefit of Indians in the United States, and to inspect all goods purchased for said Indians in connection with the Commissioner of Indian Affairs, whose duty it shall be to consult said commissioners in making purchases of such goods."

The act of Congress approved March 3, 1871, (Statutes, vol. 16, p. 568,) provides: "that hereafter no payments shall be made by any officer of the United States to contractors for goods or supplies of any sort furnished to the Indians, or for the transportation thereon, or for any buildings or machinery erected or placed on their reservations under or by virtue of any contract entered into with the Interior Department, or any branch thereof, on the receipts or certificates of the Indian agents or superintendents of such supplies, goods, transportation, buildings, or machinery beyond fifty per cent. of the amount due, until the accounts and vouchers shall have been submitted to the executive committee of the board of commissioners appointed by the President of the United States, and organized under the provisions of the fourth section of the act of April tenth, eighteen hundred and sixty-nine, and the third section of the act approved April [July] fifteenth, eighteen hundred and seventy, for examination, revisal, and approval; and it shall be the duty of said board of commissioners, without unnecessary delay, to forward said accounts and vouchers so submitted to them to the Secretary of the Interior, with the reasons for their approval or disapproval of the same, in whole or in part, attached thereto; and said Secretary shall have power to sustain, set aside, or modify the action of said board, and cause payment to be made or withheld as he may determine."

Under the provisions of the act of Congress of May 29, 1872, (Statutes, vol. 17, p. 186,) with powers and duties already provided, it is therein provided: "That any member of the board of Indian commissioners is hereby empowered to investigate all contracts, expenditures, and accounts in connection with the Indian service, and shall have access to all books and papers relating thereto in any Government office; but the examination of vouchers and accounts by the executive committee of said board shall not be a prerequisite of payment."

By the act approved February 14, 1873, (Statutes, vol. 17, p. 461,) the board was continued with the same powers and duties.

It will be observed that by the act of May 29, 1872, the examination of accounts and vouchers by the board of commissioners was not to be longer deemed a *prerequisite of payment*. In view of the legislation in that behalf which had been previously enacted, and was still unrepealed, and the peculiarity of the language of the act of 1872, I deemed it best, for prudential reasons for the time being, to continue the practice of sending all accounts to the board for examination prior to the final action of the Department thereon.

The examination of accounts by the board is made by an executive committee, consisting of three members, one of whom resides in New York, one in Philadelphia, and one in Boston, and, under existing regulations, accounts are required to be transmitted to one or more of those cities for the convenience of the members of said committee. It has been customary, however, to obtain the signature of but one member of the executive committee, who signs for the committee.

It is well known that, under the ordinary rules of auditing and passing upon accounts in all other branches of the governmental business, the system of checks in the auditing of accounts and vouchers by the several officers through whose hands they pass, and whose approval is necessary to their allowance and payment, great delay necessarily occurs in the payment of the most meritorious claims, oftentimes to the serious injury of honorable and worthy claimants. The additional delay in the business of the Indian Office consequent on the transmission of these accounts to the members of the executive committee, materially increases the existing and unavoidable delays above referred to. At the time of the recent financial stringency throughout the country there were any accounts suspended by the executive committee, involving a large amount of money, the continued withholding of which must have soon proved disastrous to individual claimants, besides adding to the monetary distress in certain localities.

A careful examination of the reasons assigned by said committee for the disallowance of said claims showed them to be for the most part technical, or based upon information in possession of the committee, and not known to the Indian Office. Some of the claims thus disapproved were returned to the committee with additional information concerning them, which seemed sufficient to modify, if not entirely change, the attitude of the committee in regard to them. In all cases, however, it has been the rule of the Department to refer all accounts that have been disallowed by the executive committee to the Indian Office, with the reasons of the committee, if any were reported, for withholding its approval, and to request of the commissioner of Indian affairs a report thereon. On receipt of such report from the commissioner, the claims and papers have been referred to the Assistant Attorney-General, assigned to duty in the Interior Department, for his opinion as to the validity of the claims, and as to the duty of the Secretary of the Interior, which opinion has governed my action in the final disposition of the claims.

The duty of examining these accounts is vexatious, embarrassing, and difficult, owing to their multiplicity and variety, and the magnitude of the sums involved. In pressing emergencies, which frequently arise, delays, either in the procurement of, or payment for supplies, may prove disastrous to the service, as well as to the honest and conscientious contractors, and it seems to be imperatively demanded that some modifications of existing regulations should be made.

The committee, I am informed, is sometimes approached by outside parties, and thus placed in possession of statements in relation to the character of vouchers of which the Indian Office and the Department have no knowledge when called upon to act.

For instance, the following indorsement was made by the executive committee on account No. 1853, G. M. Dodge, \$19,264.96 :

Examined and approved, in consideration of the letter of the Commissioner of Indian Affairs to the Hon. Secretary of the Interior, dated January 22, 1874. As the Commissioner's letter states that "the cattle in question were in accordance with the requirements of the contract," I take this *official* statement as the basis of my action on this account, though *information from other sources* does not confirm the Commissioner's assertion.

NATHAN BISHOP,
Executive Committee.

This indorsement was answered by the Commissioner of Indian Affairs, under date of 4th instant, as follows :

DEPARTMENT OF THE INTERIOR, OFFICE OF INDIAN AFFAIRS,
Washington, D. C., February 4, 1874.

SIR : Referring to the indorsement of Hon. Nathan Bishop, executive committee, board of Indian commissioners, on the account of G. M. Dodge, for cattle delivered at the Cheyenne River agency, amounting to \$19,264.96, wherein he states that the account is approved, "in consideration of the letter of the Commissioner of Indian Affairs to the Hon. Secretary of the Interior, dated January 22, 1874. As the Commissioner's letter states that 'the cattle in question were in accordance with the requirements of the contract,' I take this official statement as the basis of my action in this account, though information from other sources does not confirm the Commissioner's assertion," I desire to state, for the information of the Department, as to the evidence upon which the office-letter referred to by Mr. Bishop was based, that there have been presented to this office original invoices for 11,789 head of cattle that were wintered north, together with an affidavit to the effect that, of the cattle referred to in said invoices, a sufficient number were delivered on the Missouri River for the six months' supply of northern cattle called for by the contracts, and that the cattle for freezing were embraced in such delivery. These invoices and the affidavits accompanying them were considered sufficient evidence by this office to show that the cattle delivered at the Cheyenne River agency as per said account were wintered North, and consequently that the contract in that particular had been carried out. But if the board of Indian commissioners has information from other sources that will tend to show that this affidavit is not in accordance with facts, such information may be of value to this office.

Mr. Bishop has this day been requested to furnish whatever reliable information may be in his possession on the subject.

Very respectfully, your obedient servant,

EDWD. P. SMITH,
Commissioner.

HON. SECRETARY OF THE INTERIOR,

Thus it not infrequently occurs that the Indian Office is called upon to act upon a claim, concerning which information is in the hands of the executive committee, but unknown to the Indian Office or to the Department. This condition of things should not exist. It is not likely to subserve the ends of justice, and is not calculated to produce harmonious conclusions.

I also transmit, herewith, a list of accounts, not approved by the executive committee and now before me for final action. These accounts will be examined in accordance with the policy above indicated, and the opinion of the Assistant Attorney-General will no doubt govern my action, as it has done heretofore.

The responsibility of finally acting upon these accounts being placed upon me by law, cannot be transferred or avoided. I shall, therefore, continue in the future as in the past, to exercise the most rigid scrutiny into his character, and shall act in accordance with my judgment and

sense of duty in all cases, until Congress sees fit to provide some other method for their adjudication.

It will be exceedingly gratifying to me if Congress will make the action of the executive committee in regard to said claims final, and relieve this Department from any responsibility in the matter. If Congress is unwilling to make this alteration, however, I have the honor to recommend that authority be conferred upon the Secretary of the Interior to direct the board to conduct its examination of accounts in the Indian Office, where it may have all the facts known to the office, and the office will have all the facts known to the board. This course will certainly tend to produce greater unanimity of conclusion among the various parties who are required to examine and pass upon such claims.

Should Congress fail to modify the existing regulations as above indicated, I shall feel myself justified in requesting the board to conduct their examination of accounts in the Indian Office.

In all cases where the Assistant Attorney-General has considered the question of approving an account not approved by the executive committee, he has furnished the Department with a written opinion giving his conclusions, a copy of which has uniformly been filed with the papers in the case and forwarded with the account to the accounting officers of the Treasury, for their information before auditing the same.

Copies of those opinions are transmitted herewith.

The resolution is herewith returned.

I have the honor to be, very respectfully, your obedient servant,

C. DELANO,
Secretary.

The PRESIDENT.

Statement showing the extent and nature of contracts entered into for the Indian service since July 1, 1873, showing in addition which, if any of them, were made without conference with the board of Indian commissioners appointed by the President.

Names of contractors.	Date.	Names of officers making contract.	Articles and prices.	Amount.	Approved or disapproved by board of Indian commissioners.	Remarks.
Lawrence & Edgar	1873. July 8	H. F. Livingstone, Indian agent, Crow Creek agency.	For cutting 350 cords of wood from Indian reservation at Crow Creek agency, Dakota Territory, for War Department, for which they pay Indian Office 50 cents per cord.	\$175 00	Approved

A.

DEPARTMENT OF THE INTERIOR,
Washington, October 11, 1873.

SIR: The accompanying accounts of G. M. Dodge, for \$17,095.45 and \$4,243.44, respectively, have been returned to the Department with the following indorsement, viz:

"Examined and suspended for the reasons stated in letter to the Commissioner of Indian Affairs, dated September 20, 1873, and in letter to the honorable Secretary of the Interior, dated September 26, 1873."

This indorsement was doubtless intended to be signed by a member of the executive committee of the board of Indian commissioners, and I have treated it as though it was, in fact, signed, although the signature is omitted.

The accounts are rendered for beef-cattle delivered to the Red Cloud and Green River Indian agencies, and were approved and allowed by the Indian Office on the 19th of July last.

After due consideration of the facts, I fail to perceive that the accounts in question can be properly included in the class of vouchers presented for supplies furnished to the Whetstone agency.

It is not shown that the cattle for which Agents Daniels and Palmer receipted were not all delivered by the contractor in good faith, or that they were not, in fact, called for by the agent.

In this critical financial period, when business men certainly need their money, I do not think it right to refuse payment of what appears to be an honest demand, simply because a wrong has probably been done at some other agency.

I think that the accounts should be paid, and, under the authority conferred upon the Secretary of the Interior by the first section of the act of Congress approved March 3, 1871, the action of the executive committee suspending said accounts is set aside, and they are hereby allowed.

Very respectfully, your obedient servant,

W. H. SMITH,
Acting Secretary.

B.

DEPARTMENT OF JUSTICE,
Washington, October 28, 1873.

SIR: I have examined the account of A. H. Wilder, No. 1431, for \$80,685.56, for beef-cattle delivered at the Red Cloud and Whetstone Indian agencies. The board of Indian commissioners allowed \$33,999.45 of the same, and suspended the remainder, and expressed the opinion that such balance would be payable "in installments, October 15, November 1, 15, and 30, provided that the last installment be not paid until the agent's certificate shows on the 30th November that none of these cattle have been lost by death, stampede, theft, or otherwise."

The board also expressed the opinion that the receiving of the cattle under the contract and at the times stated in the account was an unlawful act, and declined to be a party to "any such transaction."

It seems to be conceded that all the cattle were, in fact, delivered as stated in the account. The only objection urged is that they were delivered in advance of the times called for by the contract.

The proposals, which made a part of the contract, called for 5,000,000 pounds for each of the agencies at Red Cloud and Whetstone, to be delivered in equal proportions on the 1st and 15th of each month of the fiscal year. The Commissioner, however, reserved "the right to increase or diminish the quantity of any of the articles which the bidder or bidders propose to furnish."

The contract stipulated that such increase or decrease should not exceed 25 per cent.

The deliveries that were made exceeded the 25 per cent. somewhat. They were made in accordance with a custom that has prevailed at Indian agencies, especially in the summer months, of delivering and receiving more than the exact quota. This custom is alleged to be beneficial to the Government, inasmuch as pasture is then generally abundant, and the cattle thrive and increase in weight at comparatively no expense. Whether this be so or no, I am unable to say. The question of time in contracts is not, in general, of the essence of the contract. It may be, and very often is, waived by the parties, and when waived the contract cannot properly be said to have been violated. In the case now under consideration I do not think there has been any

violation of the contract, or that the conduct of the contractor has been such as to justify withholding his compensation from him.

In view of the former practice, if it is thought best to stand on the letter of the contract, and require delivery strictly in accordance with contract stipulations, I would recommend that the contractors and agents be notified that such will be the rule, and that they will be required in future to govern themselves accordingly.

I have the honor to be, very respectfully, your obedient servant,

W. H. SMITH,
Assistant Attorney-General.

Hon. B. R. COWEN,
Acting Secretary of the Interior.

B 1.

DEPARTMENT OF JUSTICE,
Washington, D. C., January 3, 1874.

SIR: I have examined the account of G. M. Dodge, No. 1741, for the sum of \$10,266.80, and for beef-cattle delivered at the Yankton Indian agency.

I am of opinion that the same should be allowed, and for my reasons therefor refer to my letter of the 28th of October last, relating to account No. 1431 of A. H. Wilder.

Very respectfully,

W. H. SMITH,
Assistant Attorney-General.

Hon. B. R. COWEN,
Acting Secretary Interior.

C.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., October 11, 1873.

SIR: I return herewith the account of J. Q. Shirley for \$700, being the amount due him for ten horses, purchased by Agent Saville for immediate use at Red Cloud agency.

The voucher in this case is indorsed by the executive committee, "Examined and suspended, because this purchase of horses was unnecessary, while the cattle were delivered according to contract."

The horses referred to appear to have been purchased by the Indian agent, by order of Indian inspector J. W. Daniels, to whom instructions had been given for their purchase, and as their sale by Mr. Shirley was made in good faith, and they were required for "immediate use," and as some discretion must be allowed to the agent, I am of opinion that he should be paid for them.

The action of the executive committee is, therefore, set aside, and the account hereby approved.

Very respectfully, your obedient servant,

W. H. SMITH,
Acting Secretary.

The COMMISSIONER OF INDIAN AFFAIRS.

D.

DEPARTMENT OF JUSTICE,
Washington, D. C., October 30, 1873.

SIR: I have examined the account of D. J. McCann, No. 1559, for \$11,658.93, for transporting supplies and goods for the Indian Bureau from Cheyenne to the new Red Cloud agency. It seems to be made out in due form, and is strictly in accordance with the terms of a contract entered into by the Commissioner of Indian Affairs and the said McCann, on the 20th instant, and approved by the Acting Secretary of the Interior on the 25th instant.

The Board of Indian Commissioners have approved of \$9,377.43 only of said account. They object to the balance for reasons which induced them to disapprove of the said contract when submitted to them for approval, or otherwise before it had been acted

upon by the Secretary of the Interior. It was entirely proper for them to submit their reasons for disapproval to the Secretary of the Interior for his consideration when he should act upon the matter; but the Secretary of the Interior is by law authorized to overrule the objections of the board, and having done so, and approved the contract, it seems to me that the only questions that could properly arise thereafter are those relating to a compliance with the contract, and not those which relate to the expediency or propriety of having entered into it.

I find that the account presented is justly due to McCann according to his contract, and I advise that the objections of the board be overruled, and that his entire claim be allowed.

Very respectfully,

W. H. SMITH,
Assistant Attorney-General.

The Hon. SECRETARY OF THE INTERIOR.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
October 29, 1873.

SIR: I have the honor to be in receipt, by reference from your Department, of a communication from Hon. Nathan Bishop, dated the 27th instant, returning an account in favor of D. J. McCann, amounting to \$11,658.93, the same being for transportation of Indian goods and supplies, from Cheyenne, Wyoming Territory, to the new Red Cloud agency, approving said account for \$9,377.43, and giving his reasons for disallowing the balance.

The matter having been referred to this office for a report and statement of the facts in the case, I have respectfully to state, referring to office report of the 25th instant, that the account in question is correct and just, and strictly in accordance with the contract made by this office with Mr. McCann on the 20th instant, and approved by your Department on the 25th of the present month.

The papers in the case are herewith returned.

Very respectfully, your obedient servant,

E. P. SMITH,
Commissioner.

Hon. C. DELANO,
Secretary of the Interior.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., October 25, 1873.

SIR: I have received your communication of to-day, returning to this Department with explanations the contract entered into with Mr. D. J. McCann, of Nebraska, by the Indian Office for the transportation of freight to the Red Cloud agency, under date of 20th instant; also accompanying papers, which were referred to you for report on the 20th and 24th instants, in relation to the same subject.

For the reasons stated by you in your communication above referred to, I have approved and return, herewith, the contract of Mr. McCann.

The letter of Mr. McCann, which was inclosed with the papers, is also herewith returned.

Very respectfully, your obedient servant,

B. R. COWEN,
Acting Secretary.

The COMMISSIONER OF INDIAN AFFAIRS.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, D. C., October 25, 1873.

SIR: I have the honor to acknowledge receipt, through Department reference, of a communication of Hon. Nathan Bishop, of Board of Indian Commissioners, returning the contract made by this Office with D. J. McCann, of Nebraska, for transportation of freight to Red Cloud agency, disapproving of the same; and, in reply, have the honor to say that this new contract is rendered necessary by the removal of the agency from the point to which the previous contract carries the freight, and also because the additional distance to be traveled over is a more difficult road for freighting, and, therefore, cannot be carried at an increase of compensation proportional only to the increased distance.

Mr. Bishop objects to this contract that it increases the rates over the distance already contracted for, and to obviate this objection he suggests that the contract be at the increased rate only from the old agency to the new.

This objection seems to be founded on the supposition that it is practicable to load a train from Cheyenne to the old agency and there have the goods receipted for and reloaded upon another train in such quantities as can be carried over the difficult roads.

But the facts are that there is no storage and no person to receipt for goods at the old agency, so that there can be no change of freight on the train from the time it leaves Cheyenne until it is delivered at the present agency.

This necessitates, according to Mr. McCann's statement, a lighter loading for the train over the whole distance, and therefore fairly increases the compensation for the whole distance per 100 pounds.

The present agency of Red Cloud is near the old Spotted Tail agency. We have, therefore, a basis of computation upon which a judgment may be formed as to reasonable rates for this freighting. Owing to their sandy character, the road-beds become worse by use. The actual cost of the contractor freighting over these roads will be greater this year than at any previous time; but, by the proposed contract, the cost is less than that which freight has ever been carried for the Government over this road.

The delay in this transportation up to this time has been occasioned by uncertainty as to the location, for which neither the contractor nor this Office is in any way responsible, the Indians having prevented its removal for several months by force.

The season is now far advanced. Winter freights will be 50 per cent. higher than summer, and will be attended with uncertainty as to delivery.

For this reason I respectfully request that Mr. McCann's contract may be approved. Letter of Hon. Nathan Bishop is herewith returned, and a copy of the letter of the contractor setting forth the facts in the case is furnished.

Very respectfully, your obedient servant,

EDWD. P. SMITH,
Commissioner.

HON. SECRETARY OF THE INTERIOR.

D.

WASHINGTON, D. C., October 13, 1873.

DEAR SIR: I have the honor to state that on May 28, 1873, I entered into a contract with the honorable Commissioner of Indian Affairs for the transportation of Indian annuity goods and supplies from Cheyenne to the Red Cloud Indian agency, a distance of 132 miles, at \$1.20 per 100 pounds for one hundred miles, said contract extending from July 1, 1873, to July 1, 1874. On the 27th day of July, 1873, the Red Cloud agency was removed from the location on the Platte River to a point 80 miles farther north on the White River. The route from the old agency to the new lies over a barren divide, dry and sandy. The distance actually traveled is over 100 miles, trains having to vary from a direct line to avoid heavy sand and obtain water for animals. The road is heavy, and teams carrying 7,000 pounds to the old agency carry but 5,500 to 6,000 pounds to the new. Sub-contractors demand 25 per cent. advance for transportation the increased distance.

During the years 1871 and 1872 the Department paid me \$1.75 per 100 pounds for 100 miles over this route when carrying supplies to the Whetstone Indian agency, I therefore respectfully request that I be allowed the same rate per 100 pounds per 100 miles under my existing contract, for the reasons herein set forth.

Very respectfully, your obedient servant,

D. J. MCCANN.

Hon. H. R. CLUM,
Acting Commissioner of Indian Affairs.

E.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., October 11, 1873.

SIR: The account of J. W. Slavens, in the sum of \$6,388.20 for beef-cattle delivered to the Crow Creek Indian agency, D. T., has been returned to the Department with the following indorsement thereon: "Examined and suspended on the ground that the cattle were not delivered according to contract."

The executive committee of the Board of Indian Commissioners decline to approve this voucher on the ground that the quantity of beef is in excess of that stipulated in the contracts to be delivered at one time.

Mr. Slavens's contract requires him to deliver cattle on the 1st and middle of each

month. The Government reserved the right to increase or diminish the quantity stated in the advertisement.

As the quantity delivered was not very much in excess of what would be required per month to fill the contract, taking the quantity stated in the advertisement as what would be needed, and as there is no pretence that the cattle were not called for by the agent, or actually delivered by the contractor, and as there is nothing to show any bad faith on the part of the contractor, I am of opinion that the suspension should be removed and the account paid.

The action of the executive committee is therefore set aside, and the account approved.

Very respectfully, your obedient servant,

W. H. SMITH,
Acting Secretary.

The COMMISSIONER OF INDIAN AFFAIRS.

F

DEPARTMENT OF THE INTERIOR,
Washington, D. C., November 15, 1873.

SIR: I have examined the account of P. H. Kelly, (voucher No. 1459) for \$18,800, being for corn furnished September 29, 1873, to the Indian agent at the Milk River Indian agency in Montana.

The corn was delivered, as the voucher indicates, and under the following circumstances:

Kelly had, at a former date, made a contract with the Commissioner of Indian Affairs, by which he was to deliver a certain amount of flour at said agency. The Commissioner, upon the representations of Mr. Cree, secretary of the board of Indian commissioners, and others, and upon personal knowledge on the subject, became convinced that it would be for the interest of the Indians to receive corn in lieu of some portion of the flour contracted for. He thereupon requested Mr. Kelly to deliver corn instead of a portion of the flour which he had agreed to deliver.

The price for the corn was the lowest market price in the Sioux City market, with the freight to agency added.

This arrangement was made late in the season, and with the approval of the Secretary of the Interior.

The Commissioner, having determined that the good of the service required the substitution of corn for flour, as above set forth, was of opinion that the "public exigency" was such as to require the purchase of the corn without advertisement, (12 Stat., 220, sec. 10.) His reasons were—

1st. That the rate of transportation on the Upper Mississippi was rapidly increasing.

2d. That immediate shipment should be made, or the corn would not reach the agency before the close of navigation; and,

3d. That the contractor was purchasing and shipping flour to satisfy his contract, and that it became necessary to give him immediate notice, or it would be too late to procure corn instead of flour.

In this view, I understand, the Secretary of the Interior concurred.

Mr. Kelly's account has been approved by the Commissioner of Indian Affairs, but disapproved by the board of Indian commissioners.

The board disapprove of it because the change from flour to corn was made without the formality, accompanying the original contract, of submitting the same to the board for its approval, and without advertisement.

Conceding that ordinary contracts should be submitted to the board for their approval, or otherwise, I am of opinion that "when immediate or performance is required by the public exigency," contracts may be made without such submission and without advertisement, and that the officers authorized to make such contracts are the judges of the question whether such "public exigency" exist, and that their decision thereon is conclusive, provided they act in good faith.

The foregoing views are applicable to the following accounts, to wit: P. H. Kelly, No. 1447, for \$4,025; ditto, No. 1543, for \$6,037.46; ditto, No. 1518, for \$1,905.12, and James E. Booge, No. 1503, for \$33,854.37, all of which, together with the one first herein named, I recommend for approval.

Very respectfully,

W. H. SMITH,
Assistant Attorney-General.

Hon. C. DELANO,
Secretary of the Interior.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, D. C., November 8, 1873.

SIR: Referring to office report of the 3d instant, relative to certain accounts in favor of P. H. Kelly for corn furnished by him for the Indian service, I have the honor to state further, for the information of the Department, that having determined that the good of the service demanded that the corn should be furnished in lieu of some of the flour contracted for, the exigencies of the case were considered sufficient to require the purchase to be made in open market for the following reasons, viz:

1st. The rate of transportation on the Upper Missouri was increasing monthly, and the quantity needed for Fort Peck had to be shipped without delay that it might reach its destination before the close of navigation.

2d. The flour contractors were purchasing and shipping flour under their contracts, and the change, if made at all, had to be made at once, in order that the corn might be received and issued as a part ration with the flour.

In conclusion, I would say that making the purchase from such contractors was not a favor to them; on the contrary, their consent to furnish corn in lieu of flour was a favor to this office, and procured upon its solicitation.

Very respectfully, your obedient servant,

EDWD. P. SMITH,
Commissioner.

The Hon. SECRETARY OF THE INTERIOR.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
November 3, 1873.

SIR: I have the honor to be in receipt, by reference from the Department, of a communication from the Hon. Nathan Bishop, acting chairman of the executive committee of the board of Indian commissioners, dated the 18th ultimo, returning, disapproved, for reasons stated, accounts in favor of P. H. Kelly—\$4,025 and \$18,800; in all, \$22,825—the same being for corn furnished, under authority of this office, for the Indian service at the Cheyenne and Milk River agencies.

The facts regarding the purchase of the corn in question are these: Mr. Cree, secretary of the board of Indian commissioners, advised me that he knew from personal observation that the Indians belonging to the Red Cloud agency desired corn with their subsistence stores, in lieu of some of the flour usually furnished them; that he had known them to trade flour for corn at a sacrifice, and he was satisfied it was the same at other agencies. The Office thereupon directed the flour-contractors to reduce the quantity of flour stipulated in their contract to be delivered at the respective Sioux agencies, and at the Milk River agency, and also submitted the question to the agents at those agencies as to whether corn would be preferred and in lieu of some of the flour contracted to be delivered for the Indians in their charge. Some of these agents advised the Office that the change would be desirable, and others informed me personally, when at their agencies last summer, to the same effect. It is true that some of them reported to the office that corn was not required. This was owing, however, to the fact that at that time there were no mills at their agencies for manufacturing the corn into meal. Being satisfied that the best interests of the Indians, and of the service, demanded that some corn should be furnished to certain agencies, I made arrangements with the flour-contractors to furnish the same in lieu of a portion of the flour contracted to be delivered by them. The price to be allowed for the corn so furnished was as low as corn could be delivered at the agencies, and was, in fact, the lowest market price at Sioux City, with freight from that point to the respective agencies added.

This Office does not consider that Mr. Kelly's contract has been changed, except as far as the quantity of flour to be delivered under it is concerned; and in this respect, I respectfully submit that the Office has the right to modify any contract for Indian supplies, should the interests of the service demand. The corn was not purchased under that or any other contract, but was, in fact, bought in open market at a fair price; and the only reason why the purchase was made from the flour-contractors, was because they were entitled to some consideration, on account of having the quantity of flour contracted to be delivered by them reduced sufficiently to enable the Department to pay for the corn purchased.

The papers in the case, inclosed with Department reference of the 21st ultimo, are herewith returned.

Very respectfully, your obedient servant,

E. P. SMITH,
Commissioner.

Hon. C. DELANO,
Secretary of the Interior.

F 1.

DEPARTMENT OF JUSTICE,
Washington November 22, 1873.

SIR: I have examined the accompanying account of G. M. Dodge, No. 1636, referred to me on the 20th instant, for corn furnished for delivery at the Whetstone Indian agency, Dakota Territory, amounting to \$7,551.79, and am of opinion that said account should be approved, in accordance with the views expressed in my letter of the 15th instant in relation to the similar accounts of P. H. Kelly, a copy of which is herewith inclosed.

Very respectfully, your obedient servant,

W. H. SMITH,
Assistant Attorney-General.

Hon. C. DELANO,
Secretary of the Interior.

F 2.

DEPARTMENT OF JUSTICE,
Washington, December 9, 1873.

SIR: I have examined the account of G. M. Dodge, No. 1709, for \$4,430.38, being for transporting corn delivered at the Whetstone agency, and am of opinion that the same should be allowed, and for reasons therefor refer to my letter of the 22d November last, relating to an account of the said Dodge, No. 1636.

Very respectfully,

W. H. SMITH,
Assistant Attorney-General.

Hon. C. DELANO,
Secretary of the Interior.

G.

DEPARTMENT OF JUSTICE,
Washington, December 3, 1873.

SIR: I have examined the account of D. J. McCann, No. 1647, for \$7,472.57, for transporting supplies and goods for the Indian Bureau, from Cheyenne to the new Red Cloud agency, under his contract made with the Commissioner of Indian Affairs on the 20th of October last, and approved by the Acting Secretary of the Interior on the 25th of the same month.

The board of Indian commissioners rejected the account because the distance charged for (212 miles) is greater than the actual distance, and it submitted the affidavits of several persons tending to show that the actual distance does not exceed 183 miles.

The distance never having been measured, it is more or less conjectural. The contracting parties, for the purpose doubtless of avoiding the uncertainty that would arise from leaving the subject open, have fixed the distance in the contract at 212 miles. This, in my opinion, is conclusive, and payment should be made upon that basis. I advise an allowance of the account, and in this connection refer to my letter of the 30th of October ultimo, relating to the account of said McCann, No. 1559, growing out of said contract.

Very respectfully,

W. H. SMITH,
Assistant Attorney-General.

Hon. C. DELANO,
Secretary of the Interior.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, D. C., November 26, 1873.

SIR: I have the honor to be in receipt, by reference from the Department, of a communication from Hon. Nathan Bishop, of the executive committee of the board of Indian commissioners, dated the 21st instant, returning suspended, for reasons stated, the account of D. J. McCann for transporting Indian goods and supplies from Cheyenne, Wyoming Territory, to the new Red Cloud agency, under his contract of October 18, 1873, amounting to \$7,472.57. Mr. Bishop also incloses the affidavits of certain parties

relative to the distance between Cheyenne and said agency, tending to show that it is not so great as that fixed in Mr. McCann's contract.

The matter having been referred for the views of this Office, I would respectfully state that the distance from Cheyenne to the old Red Cloud agency has, since the establishment of that agency in 1871, been understood to be 132 miles, it having been so reported by the agent in charge when the agency was established, and all transportation since that time has been paid for on that basis. The distance from the old to the new agency was estimated by late agent Daniels to be 80 miles, but Mr. McCann claims that it is considerably more than that, owing to the fact that loaded teams are obliged to travel a more circuitous route than the one traveled by the late agent. These two distances, however, were taken as a basis for the entire distance, which was fixed in the contract at 212 miles, and this distance, in the opinion of this Office, is as near correct as can be determined without actual measurement.

It should be borne in mind, in considering this question, that the distances referred to are estimated only; that different persons would naturally have different views regarding them; that the actual distance between Cheyenne and the present Red Cloud agency may be more and it may be less than that designated in the contract; and that parties who submitted bids for transportation to the old agency did so with the understanding that the distance was 132 miles.

I inclose herewith a communication from Mr. McCann in regard to this matter, and respectfully invite attention to the fact therein stated relative to the price paid by late Commissioner Walker, who had traveled the entire distance, for transportation to the old Whetstone agency, which is near the location of the new Red Cloud agency, and also to the statement that the parties taking affidavits of other persons—freighters—who have made the distance greater than of those presented, and that all action in the matter has been *ex parte*, and designedly so.

The papers inclosed with Department reference of the 24th instant are herewith returned.

Very respectfully, your obedient servant,

EDWARD P. SMITH,
Commissioner.

The Hon. SECRETARY OF THE INTERIOR.

G 1.

DEPARTMENT OF JUSTICE,
Washington, December 9, 1873.

SIR: I have examined the account of D. J. McCann, No. 1694, for \$3,366.62, being for transporting supplies from Cheyenne to the new Red Cloud agency. I advise allowance of said claim, and for reasons therefor refer to my letter of the 3d instant.

Very respectfully,

W. H. SMITH,
Assistant Attorney-General.

Hon. C. DELANO,
Secretary of the Interior.

G 2.

DEPARTMENT OF JUSTICE,
Washington, December 31, 1873.

SIR: I have examined the account of D. J. McCann, No. 1749, for \$4,283.86, for transporting supplies from Cheyenne to the new Red Cloud agency. I advise allowance of said claim, and for reasons therefor refer to my letter of the 3d instant.

Very respectfully,

W. H. SMITH,
Assistant Attorney-General.

Hon. B. R. COWEN,
Acting Secretary of the Interior.

H.

DEPARTMENT OF JUSTICE,
Washington, December 4, 1873.

SIR: I have examined the account of A. H. Wilder, rejected by the board of Indian commissioners, and for the sum of \$77,910, and numbered 1629. This account is for

cows, oxen, &c., furnished to sundry agencies of the Sioux Indians. The explanation and answer to the objections of the board, by the Commissioner of Indian Affairs, is satisfactory to my mind, and I advise an allowance of the claim.

Very respectfully,

W. H. SMITH,
Assistant Attorney-General.

Hon. C. DELANO,
Secretary of the Interior.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, D. C., November 28, 1873.

SIR: I have the honor to acknowledge the receipt, by Department reference of November 24, of letter of November 22 from Geo. H. Stuart, chairman of executive committee of board of Indian commissioners, returning the account of A. H. Wilder for stock delivered to the different agencies in Dakota.

Mr. Stuart declines to allow this account, for eleven (11) reasons.

"First. That I do not consider the contract a legal one, having been made without consulting the board of Indian commissioners, while the law expressly requires that they be consulted in all purchases for Indians."

In reply I have to say that at the time of making the contract I did not understand the law to require consultation to such an extent as to render it *unlawful* on my part to make a purchase without such consultation, but supposed that whatever purchase I made without such consultation was at my own risk, for future justification before the board examining the accounts.

Since the creation of the board, purchases have been continually made by this Office without consultation, (such consultation, by the practice of the Office and the board, having been required only on the purchase of annuity goods and supplies,) and, so far as I know, this has been done without protest on the part of the board. Accounts are now, almost daily, being approved by the board to pay for articles in the purchase of which it has had no consultation, and, in many cases, could not have had without great damage to the service by delay.

Mr. Stuart's second reason for disallowing the account is as follows: "I do not see that any exigency of the public service required its purchase, either by private contract (without advertising and competition) or by purchase in the open market."

To this I have to say that the exigency was, to my mind, very clear. The Indians have had this promise of the Government before them for the last six years, and have been insisting that the failure to furnish them with cows and oxen was a violation of treaty-stipulations on the part of the Government. This was one of the first matters of importance presented to me in urgent letters from agents on my entering upon the duties of Commissioner, but I found no proper data in the Office on which to proceed to procure the stock. Further inquiry from agents was needed, and in some cases these inquiries, for want of positive answers, were made a second time. Further delay was occasioned by the doubt of the Department as to whether the treaty-fund for the purchase was not applicable. From these causes it was past midsummer (July 19) before this contract could be made. It was very desirable that the Indians should be stimulated to cut hay for these cattle by seeing them actually upon the ground, as no promise of the agent that they were coming would be sufficient after being disappointed so many seasons in their expectations. My purpose was to have these cattle delivered at once, but I found in the attempt that this was impracticable. They were to be gathered from farmers in Minnesota, one or two at a place, there being no large market for cattle in the State. They were also to be driven a long distance, making ten or twelve miles a day; and, though the contractor set about procuring the cattle immediately on receiving the order, and used all reasonable diligence, as I have reason to believe, he was not able to make the final delivery until October 11. Events show that, if I had taken time to consult the board and advertise before purchasing, the cattle could not have been taken across the Missouri River nor driven over the country this season.

Mr. Stuart's third objection is: "I do not think the intent of the law was to permit private contract or purchase in the open market of large sums, which in this case amounts to \$77,900."

In reply, I respectfully suggest that the question of exigency is not to be decided by the amount of expenditure. If there was not an exigency to justify a purchase to this amount without advertising, then a smaller expenditure would have been alike unlawful.

The fourth objection is, "That an exigency of the public service that would permit of so large a purchase must be an unquestionable one."

To this I reply that I believe the exigency, as stated above, was unquestionable.

Mr. Stuart objects, fifthly: "The treaty under which I am informed this purchase of

stock was made was that of 1867, and if the Indians and the public service have gotten along for so many years without this stock, I do not think the brief period necessary for advertising and receiving proposals would have been detrimental to the Indians or the Indian service." This objection has already been considered with the second. I will only add further, that to have consulted the board and advertised for proposals, and awarded the contract, according to office experience, would have taken at least two months, which would entirely have prevented the delivery of the cattle this season, as events have shown. The fact that the Indians have got along without the stock promised them by treaty, for six years, is no reason at all why they should not have them this year, according to the treaty, if it was practicable.

Mr. Stuart objects, sixthly: "I have been informed that one of the agents who received a large quantity of stock at the contract price (but not certified as delivered on the contract) will not take any of the cows, oxen, or bulls to his agency before spring." To this I reply that the Whetstone agency is the one here referred to. The cattle for this agency were purchased on Agent Howard's special and urgent request to me by letter and personally; but at that time he was making arrangements to remove his agency from the barren tract of country in which it still continues to a grass country nearer the Missouri River. All arrangements for freight for the erection of a mill and other improvements were made on the expectation of removal; but when the time came, Spotted Tail peremptorily refused to remove, or to allow the agent to do so, and the good intentions for this agency were frustrated for the present by the action of the Indians. But this was a matter that could not have been foreseen, and for which no one is accountable but the Indians themselves. The cows are being herded for the winter, and their increase in the spring, if no harm comes to them, will more than repay the cost of keeping; the oxen will be on hand for spring-work, which could not have been the case except that they were purchased last summer.

Mr. Stuart, seventhly: "I am informed that a Government official who saw the stock said the price paid for stallions and bulls is far above their actual value." This objection is too indefinite to admit of a specific reply. I only add that I saw a portion of the stock, as also did the honorable Secretary of the Interior, and I have reason to think that said Government official is mistaken in his judgment. It should be further stated that, in the selection of stock of this kind, there will necessarily be considerable diversity of actual value, and that in a contract covering so many animals, there may be some delivered at one or more of the agencies that are not equal to the prices given on the average, while there will be others that are worth more.

Mr. Stuart's eighth objection is: "I question the propriety of receiving so large a quantity of stock so late in the season, involving the expense of wintering and danger of loss." To this I have to say that while the delivery of stock was much later than I anticipated, yet I am satisfied that it was made at the earliest date practicable after the order of purchase was given, and that if the contract had not been in this manner, it could not have been executed at all this year. The expense and danger of loss in wintering is not increased by the late delivery of cattle. That expense and danger belong only to the number and severity of the winter months.

Mr. Stuart's ninth objection is: "The order for the stock having been given some three or four months prior to its delivery, I think there was abundance of time for advertising and competition."

This objection seems to be answered by my statements on the eighth. If the delivery was found too late on a contract made without waiting to advertise, how could there be abundance of time to make the delivery after taking a month or six weeks for advertising?

Mr. Stuart objects tenthly: "None of the agents certified as to the kind and quality of the stock delivered, and there is no evidence before me that any of the requirements of the contract were complied with."

In reply I have to say that some of the agents do certify to the kind and quality of the stock delivered, and in all they certify to the number and condition of those delivered, and there is no reasonable doubt as to the honest fulfillment of the contract on the part of Mr. Wilder.

My answer to the eleventh objection, viz: "I find, in some cases, the agent receipts for saddles, bridles, blankets, &c.; in others, these articles are included in the price of the animal," is, that each stallion was delivered with a halter, bridle, and blanket, and, no charge being made for them, the agents have not receipted for them. For two agencies, viz: Ponca and Whetstone, additional bridles and blankets were delivered for the use of the agencies, and for them the agents have given receipts, and Mr. Wilder has made a reasonable charge.

Very respectfully, your obedient servant,

EDW. P. SMITH,
Commissioner.

The Hon. SECRETARY OF THE INTERIOR.

I.

DEPARTMENT OF JUSTICE,
Washington, December 10, 1873.

SIR: I have examined account No. 1685, of G. M. Dodge, for beef-cattle delivered at the Yankton Indian agency, and amounting to \$9,701.49.

The objection urged by the board of Indian commissioners is identical with that made to the account of A. H. Wilder, referred to in my letter of the 23th of October, to the Acting Secretary of the Interior. I call attention to that communication, and, for the reasons therein stated, advise that the claim now under consideration be allowed.

Very respectfully,

W. H. SMITH,
Assistant Attorney-General.

Hon. C. DELANO,
Secretary of the Interior.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
December 9, 1873.

SIR: I have the honor to acknowledge the receipt, by reference from the Department, of a communication from the Hon. Nathan Bishop, of the executive committee board of Indian commissioners, dated the 2d instant, returning, for reasons stated, an account, No. 1685, in favor of G. M. Dodge, for beef-cattle delivered at the Yankton Indian agency, amounting to \$9,701.49.

The matter having been referred to this Office for a report, I respectfully return the account and accompanying papers, and invite attention to a former decision of the honorable Assistant Attorney-General, dated October 28, 1873, regarding similar accounts, and to recommend that the account be approved in full.

Very respectfully, your obedient servant,

H. R. CLUM,
Acting Commissioner.

Hon. C. DELANO,
Secretary of the Interior.

O
