LETTER

FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year  
ending June 30, 1882.*

---

TREASURY DEPARTMENT,

*December 6, 1880.*

SIR: In conformity to the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1882, as furnished by the several Executive Departments; also, statements of the "proceeds of sales of Government property," and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1880.

I have the honor to be,

Very respectfully, your obedient servant,

JOHN SHERMAN,

*Secretary.*

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

	June 15, 1880	21	226	1				
	June 20, 1874	18	99	1				
NOTE.—The chiefs of divisions in the office of the Secretary of War have similar duties and responsibilities as the chiefs of divisions in the other Executive Departments, and should have equal pay. In the office of the Secretary of the Treasury this grade is paid at the rate of from two thousand five hundred dollars (\$2,500) to two thousand seven hundred and fifty dollars (\$2,750) per annum, with an assistant at from two thousand dollars (\$2,000) to two thousand four hundred dollars, (\$2,400.) In justice to these two clerks they should be placed on an equal footing with the same grade in the other Executive Departments.								
Five clerks of class four.....	.....	R. S.	27	167	}.....	9,000 00

	June 15, 1880	21	226	1,3				
	Same acts.....							4,620 00
Seven laborers, at \$660 each.....	do.....				}.....	4,320 00		
Six watchmen for War-Department building, at \$720 each.				7,500 00				
To enable the Secretary of War to have the rebel archives examined, and copies furnished for the Government, (increase submitted).....	Appropriated.	21	226	1				
NOTE.—The business of the archives office, in which is kept such records as have been obtained of the Southern armies, has become well known, and its usefulness is acknowledged. The necessity for keeping it up is unimpaired. Hitherto the expense of providing stationery and other essential matters has been met without drawing on the appropriation, which is all devoted to salaries of clerks. That is now no longer possible. It is, therefore, respectfully recommended that the appropriation found in the legislative, executive, and judicial appropriation bill under the head "For the purpose of examining the rebel archives and having copies furnished for the Government," be increased to \$7,500, from \$6,600 appropriated this year.

PUBLIC LANDS.							
OFFICE OF THE SURVEYOR-GENERAL OF LOUISIANA.							
<i>Salaries, Office of Surveyor-General of Louisiana—</i>							
Surveyor-general, (increase of \$200 submitted) .....	June 15, 1880	R. S. 21	388 233	2208 1	2,000 00		
Clerks in his office .....	Appropriated.	R. S. 21	391 233	2226 1	18,800 00		
						\$20,800 00	\$9,800 00
NOTE.—The \$18,800 is estimated for compensation of clerk-hire, consisting of three regular clerks and draughtsmen, calling for \$4,800, and fourteen \$1,000 clerks to bring up the arrears in office-work of many years standing, viz: To prepare duplicate patent-plats of confirmed private-land claims, of which there are about six thousand entitled to patents, and which cannot be patented until such plats are made; also to transcribe field-notes of surveys of about seven hundred townships, for a long while in arrears, and requiring one month of time to copy the notes of six townships by one clerk. Very limited appropriations for office-work in former years caused so extensive arrears.							
OFFICE OF THE SURVEYOR-GENERAL OF FLORIDA.							
<i>Salaries, Office of Surveyor-General of Florida—</i>							
Surveyor-general, (increase of \$200 submitted) .....	June 15, 1880	R. S. 21	388 233	2208 1	2,000 00		
Clerks in his office .....	Appropriated.	R. S. 21	391 233	2226 1	3,000 00		
						5,000 00	5,800 00
NOTE.—The \$3,000 for clerk-hire is submitted, it being actually required to transact the current work and to bring up the arrears in office-work retarded by former inadequate appropriations for the same. The arrears consist of fifty townships of descriptive notes of surveys for register's offices; index diagrams to original field-notes and original township-plats, and the completion of the condensed history of the private-land claims of volume 4.							
OFFICE OF THE SURVEYOR-GENERAL OF MINNESOTA.							
<i>Salaries, Office of Surveyor-General of Minnesota—</i>							
Surveyor-general .....	June 15, 1880	R. S. 21	388 233	2208 1	2,000 00		
Clerks in his office .....	Appropriated.	R. S. 21	391 233	2226 1	8,500 00		
						10,500 00	7,000 00
NOTE.—The \$8,500 is estimated for seven clerks to enable the surveyor-general to employ them to attend properly to the current office-work as well as to the bringing up of the work remaining in arrears on account of heretofore restricted appropriations for the purpose.							
OFFICE OF THE SURVEYOR-GENERAL OF DAKOTA.							
<i>Salaries, Office of Surveyor-General of Dakota—</i>							
Surveyor-general .....	June 15, 1880	R. S. 21	388 233	2208 1	2,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Surveyor-General of Dakota—Continued.</i>							
Clerks in his office .....	Appropriated.	R. S.	391	2226	} \$6,500 00	\$8,500 00	\$8,000 00
		21	233	1			
NOTE.—The sum of \$6,500 is estimated for compensation of five employes in the surveyor-general's office, consisting of a chief clerk, two draughtsmen, and two transcribing-clerks, actually necessary to keep pace with the field-work and avoid any arrears in the office-work.							
OFFICE OF THE SURVEYOR-GENERAL OF COLORADO.							
<i>Salaries, Office of Surveyor-General of Colorado—</i>							
Surveyor-general, (increase of \$500 submitted) .....	June 15, 1880	R. S.	389	2210	} 3,000 00		
		21	233	1			
Clerks in his office .....	Appropriated.	R. S.	391	2226	} 7,800 00	10,800 00	6,000 00
		21	233	1			
NOTE.—The \$7,800 is estimated for the compensation of five clerks and draughtsmen in the surveyor-general's office, to attend to the office-work consequent on surveys of public lands; arrears of six years are reported by the surveyor-general.							
OFFICE OF THE SURVEYOR-GENERAL OF NEW MEXICO.							
<i>Salaries, Office of Surveyor-General of New Mexico—</i>							
Surveyor-general, (increase of \$500 submitted) .....	June 15, 1880	R. S.	389	2210	} 3,000 00		
		21	233	1			
Clerks in his office .....	Appropriated.	R. S.	391	2226	} 12,100 00	15,100 00	8,500 00
		21	233	1			
NOTE.—The \$12,100 is submitted for compensation of chief-clerk and translator of Spanish language in the adjudication of private-land claims in New Mexico, \$2,000 per annum; three draughtsmen, at \$1,500 each; and five clerks, at \$1,400 each. This force is deemed necessary in view of the diminished appropriation for the like service of the current fiscal year, and also of the arrears existing in the preparation of diagrams of private-land claims for the registers, showing the surveyed limits of the same and descriptive notes of public surveys for fourteen years past.							
OFFICE OF THE SURVEYOR-GENERAL OF CALIFORNIA.							
<i>Salaries, Office of Surveyor-General of California—</i>							
Surveyor-general, (increase of \$250 submitted) .....	June 15, 1880	R. S.	389	2210	} 3,000 00		
		21	234	1			
Clerks in his office, including those completing, translating, copying, and indexing original Spanish archives, and preserving from destruction originals greatly defaced in the office of the surveyor-general of California. ....	Appropriated.	R. S.	391	2226	} 39,000 00	42,000 00	30,000 00
		21	234	1			
NOTE.—The \$39,000 estimated for clerk-hire, to enable surveyor-general to attend to a very diversified office-work under numerous acts of Congress, and to bring up great arrears in the preparation of descriptive notes of surveys of eighteen hundred townships for the local land offices, two hundred lists of swamp-lands, and two hundred and seventy copies of township plats; also, for completing the reproduction and translation of obliterated Spanish and Mexican archives, the present condition of them being very imperfect, wanting index of chronological arrangement for ready reference to records of cases. The plan consists of making copies of greatly obliterated originals and translations of the same, a digest and index, and to record them in well-bound books, on the preservation of which many important land-titles depend.							
OFFICE OF THE SURVEYOR-GENERAL OF IDAHO.							
<i>Salaries, Office of Surveyor-General of Idaho—</i>							
Surveyor-general, (increase of \$500 submitted) .....	June 15, 1880	R. S.	389	2210	} 3,000 00		
		21	234	1			
Clerks in his office .....	Appropriated.	R. S.	391	2226	} 4,700 00	7,700 00	5,000 00
		21	234	1			
NOTE.—The \$4,700 estimated for the compensation of clerks in the surveyor-general's office covers the pay of three clerks for the whole fiscal year.							
OFFICE OF THE SURVEYOR-GENERAL OF NEVADA.							
<i>Salaries, Office of Surveyor-General of Nevada—</i>							
Surveyor-general, (increase of \$500 submitted) .....	June 15, 1880	R. S.	389	2210	} 3,000 00		
		21	234	1			
Clerks in his office .....	Appropriated.	R. S.	391	2226	} 5,000 00	8,000 00	5,500 00
		21	234	1			
NOTE.—The \$5,000 is estimated for clerk-hire in the office of surveyor-general of Nevada, to cover the compensation of clerks and draughtsmen to attend to the service of the pressing public concerns necessitated by the agricultural, mineral, and other surveys, the extended mineral-land surveys demanding considerable labor in order to expedite the returns of numerous surveys and constructing maps of mineral district.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
OFFICE OF THE SURVEYOR-GENERAL OF OREGON.							
<i>Salaries, Office of Surveyor-General of Oregon—</i>							
Surveyor-general .....	June 15, 1880	R. S.	388	2209	\$2,500 00		
		21	234	1			
Clerks in his office .....	Appropriated.	R. S.	391	2226	7,000 00		
		21	234	1			
NOTE.—The \$7,000 is submitted for the compensation of five clerks in the surveyor-general's office, at usual rates per annum, actually needed to attend to the current official business, especially in regard to the swamp-land business, and the transcription of donation-claim field-notes of survey, the original being in dilapidated condition.						\$9,500 00	\$7,000 00
OFFICE OF THE SURVEYOR-GENERAL OF WASHINGTON.							
<i>Salaries, Office of Surveyor-General of Washington—</i>							
Surveyor-general .....	June 15, 1880	R. S.	388	2209	2,500 00		
		21	234	1			
Clerks in his office .....	Appropriated.	R. S.	391	2226	7,500 00		
		21	234	1			
NOTE.—The \$7,500 is submitted for the compensation of clerks in the office of surveyor-general of Washington, required for the purpose not only to expedite the current office-work, but to bring up considerable arrears in the transcription of the former surveys of the public lands and donation claims, and recording the same as required by law, the accumulation of this kind of work having taken place during ten years, in consequence of insufficient means provided for that purpose. As the original field-notes are in a very dilapidated condition, further delay in transcribing them in proper books will cause great loss, and embarrass not only the public interests but those of individual owners of lands.						10,000 00	6,500 00
OFFICE OF THE SURVEYOR-GENERAL OF NEBRASKA AND IOWA.							
<i>Salaries, Office of Surveyor-General of Nebraska and Iowa—</i>							
Surveyor-general .....	June 15, 1880	R. S.	388	2208	2,000 00		
		21	234	1			
Clerks in his office .....	Appropriated.	R. S.	391	2226	6,300 00		
		21	234	1			
NOTE.—The \$6,300 estimated for clerk-hire is to cover the pay of five clerks actually needed for the transaction of the ordinary business of the office, and which amount is allowed by law.						8,300 00	5,000 00
OFFICE OF THE SURVEYOR-GENERAL OF MONTANA.							
<i>Salaries, Office of Surveyor-General of Montana—</i>							
Surveyor-general, (increase of \$500 submitted) .....	June 15, 1880	R. S.	389	2210	3,000 00		
		21	234	1			
Clerks in his office .....	June 15, 1880	R. S.	391	2226	7,500 00		
		21	234	1			
NOTE.—The \$7,500 is estimated for the pay of clerks in the surveyor-general's office to transact the official business consequent on the survey of agricultural and mineral lands in Montana; especially the latter surveys, being on an increase, will demand constant work in the examination of complicated claims, protraction of numerous plats, recording the same, transcribing field-notes, and other duties devolving on clerks too numerous to state, and to bring up arrears in the office-work caused by inadequate appropriations in previous years for the purpose.						10,500 00	5,500 00
OFFICE OF THE SURVEYOR-GENERAL OF UTAH.							
<i>Salaries, Office of Surveyor-General of Utah—</i>							
Surveyor-general, (increase of \$500 submitted) .....	June 15, 1880	R. S.	389	2210	3,000 00		
		21	234	1			
Clerks in his office .....	Appropriated.	R. S.	391	2226	4,500 00		
		21	234	1			
NOTE.—The \$4,500 is submitted for the compensation of clerks in the office of surveyor-general of Utah, indispensably needed to attend to extensive surveys of mineral claims, preparation of maps and field-notes of the twenty-nine mining districts, and to transact the usual regular business in the office, which has been delayed on account of small appropriations made for the service during the past fiscal years.						7,500 00	5,500 00
OFFICE OF THE SURVEYOR-GENERAL OF WYOMING.							
<i>Salaries, Office of Surveyor-General of Wyoming—</i>							
Surveyor-general, (increase of \$500 submitted) .....	June 15, 1880	R. S.	389	2210	3,000 00		
		21	234	1			
Clerks in his office .....	Appropriated.	R. S.	391	2226	4,700 00		
		21	234	1			
NOTE.—The \$4,700 is estimated for clerk-hire in the office of surveyor-general of Wyoming Territory, of three clerks necessary to transact the business devolving on the office.						7,700 00	6,000 00

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.*

Three clerks of class one .....	June 15, 1880	R. S. 21	27 234	167 1	3,600 00		
One messenger .....	Same acts				1,200 00		
One assistant messenger .....	do				720 00		
One assistant messenger, (additional) .....	Submitted				720 00		
Temporary employes .....	June 15, 1880	21	234	1	14,000 00		
Additional .....	Submitted				4,000 00		
One clerk of class four, as superintendent of files and records, (additional) .....	do				1,800 00		
One clerk of class three, (additional) .....	do				1,600 00		
One clerk of class two, (additional) .....	do				1,400 00		
One clerk .....	do				1,000 00		
Total .....					\$48,890		
NOTE.—The additional amount asked for temporary employes is to enable the Postmaster-General to appoint suitable persons in the topographer's office, to compute a new table of distances to be used in settling telegraphic and mileage accounts for all officers of the Government. No such table has been published since 1873, and the increase of railroad and telegraph lines since that time has been so great that those tables are grossly inaccurate, and a new computation is required to ascertain all distances except in the most densely populated sections of the country. Of the additional force asked for last year, for the purpose of organizing a division of files and records in the office of the Postmaster-General, only two clerks of class one were granted at the last session of Congress, and they alone are unable to keep up with the current work of entering the orders, and recording the letters of the Postmaster-General, so that a part of this duty still devolves upon clerks in the contract office, who can ill be spared from their own work. Until these additional clerks are granted, it will be impossible to index the current work, much less to index the orders and letters of previous years, which, for the past twelve years, have remained unindexed for want of a proper clerical force to do the work. The importance of a correct and complete index to the orders and letters of the Postmaster-General is too obvious to need argument in its favor, and it is hoped that Congress will give the Department at once the necessary clerical force to do this much-needed work. The intelligence and knowledge which the superintendent of files and records must possess to enable him to organize and superintend the new division which it is proposed to establish, entitle him at least to the pay of a fourth-class clerk, and the gradation of the other clerks is in accordance with the responsibility of the duties which will be assigned to them.							
<b>Office of First Assistant Postmaster-General:</b>							
First Assistant Postmaster-General .....	June 15, 1880	R. S. 21	65 234	389 1	3,500 00

<i>Salaries, Post-Office Department—Continued.</i>							
Three clerks of class four .....	June 15, 1880	R. S. 21	27 234	167 1	\$5,400 00		
Twelve clerks of class three .....	Same acts						
Six clerks of class two .....	do.				19,200 00		
Twelve clerks of class one .....	do.				8,400 00		
Four clerks, at \$1,000 each .....	June 19, 1878	20	202	1	14,400 00		
	June 15, 1880	21	234	1			
Three assistant messengers, at \$720 each .....	June 15, 1880	R. S. 21	27 234	167 1	4,000 00		
One clerk of class four, to act as stenographer and Department telegraph-operator, (additional) .....	Submitted				2,160 00		
Five clerks of class three, (additional) .....	do.				1,800 00		
<p>NOTE.—The necessity of a stenographer to prepare, from dictation, the innumerable papers emanating in this office in connection with its correspondence, its legal papers, and its telegraph operations with other Departments and the outside world, is becoming more apparent every day. To meet this want, the office has heretofore had great difficulty in finding qualified persons who could be temporarily employed as clerks, and detailed to this work. It is believed that \$1,800 per annum is as small a sum as will command the services of a competent person. The five clerks of class three, additional, are asked for to enable this office to make the pay of its corresponding clerks uniform. Most of them receive \$1,600 per annum each—the others are upon lower pay. They have full charge of the records of appointments in their respective sections, and, generally, of all the correspondence relating thereto, including instructions to postmasters, attention to complaints against them, and an infinite variety of matters connected therewith. A clerk who is qualified to properly perform the important duties of such a position is surely entitled to the pay of a third-class clerk; and it leads to complaints, jealousies, and ill-feelings to discriminate between them, as this office is obliged to do, for the want of appropriations to make their pay fair and uniform.</p>							
Superintendent of blank agency .....	June 15, 1880	R. S. 21	65 234	393 1	1,800 00		
Assistant superintendent of blank agency .....	Same acts				1,600 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanation.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Post-Office Department—Continued.</i>							
Seven clerks of class one, (additional).....	Submitted.....				\$8,400 00		
Four clerks, at \$1,000 each, (additional).....	do.....				4,000 00		
One laborer, (additional).....	do.....				660 00		
Total.....						\$137,050	
<p>NOTE.—Of the additional clerks asked for of the third class, five are required to take charge of corresponding-sections for the care of "star service," and one for a corresponding-desk in the division of railway adjustment. These duties are now performed by clerks of class two, while all others employed in similar work are receiving not less than \$1,600 per annum. Of the four additional clerks asked for of class two, two are needed as book-keepers on railroad and star routes, and two for such duty in the mail-equipment division. Of the seven additional clerks of class one, three are needed as helpers to route registrars, and four for duty in the mail-equipment division. Of the four additional clerks at a salary of \$1,000 each, two are required as copyists on reports called for by Congress, and to aid in the work of the letting of contracts for star service, and other miscellaneous and important work, and two are required for duty in the mail-equipment division. The additional force asked for is absolutely necessary in order to the orderly, prompt, and accurate transaction of the business of this office. The amount and character of the labor required of a clerk in charge of a corresponding-section requires thoughtful application, and more than ordinary executive capacity. The law recognizing sub-contracts, while most just and salutary in its effect, has of itself almost doubled the work of corresponding-clerks, while the growth of the service has also added largely to the current work. This work should not be disposed of without deliberate and careful investigation, and to do it in any other manner would be detrimental to the interests of all concerned. In this estimate the salary of the chief of the division of inspection and the superintendent of railway adjustment is placed at \$2,250. This, too, was recommended by the Postmaster-General in letters to the Committee on Appropriations, for the reason that the chiefs of the other divisions in this Department receive \$2,250 per annum, and there is no reason why there should be unfavorable discrimination in the case of these important divisions. In this estimate provision is also made for a chief of the division of mail equipment, at a salary of \$2,250 per annum. The intelligence, care, and responsibility required of the officer in charge of this division render a less salary inadequate compensation for the service received by the Government. The following special reasons are submitted for the eight additional clerks asked for in the mail-equipment division: From want of adequate clerical force, this division is already overburdened with regular current business, continually augmenting, and there will be no diminution of it, aside from the extraordinary work of changing the locks and keys. Therefore, it will be physically impossible to effect the change of locks and keys without an additional number of clerks for that work alone. It will require the assignment, temporarily, of eight clerks—two for eighteen months, from the 1st of January next, and six more for twelve months from the 1st of July next, viz: Two clerks as book-keepers, (having ten large books of six hundred pages each,) to keep the records of issue; two clerks to write up blank instructions and insert therein the exact number stamped on the key to be enveloped therewith; two clerks, (good and rapid penmen, to keep up with working-gang,) to write the address on the envelopes and packages, and numbering the same; two clerks to check and duly file the receipts returned, to check the number of each key enveloped, and examine locks and keys before issue, besides to assist in folding and packing, and to prepare corrected lists of post offices, &amp;c. It is assumed, also, that a laborer will be specifically assigned to this division, as his service for portage of boxes and heavy weights will be in constant requisition.</p>

<i>Salaries, Post-Office Department—Continued.</i>							
One laborer, (additional).....	Submitted .....				\$660 00		
Chief clerk to Third Assistant Postmaster-General, (additional).....	do .....				500 00		
Total .....					\$210, 160		
<p>NOTE.—The estimate for salary of chief of division of finance is the same as was made in the estimates of appropriations for the present fiscal year, but Congress did not see proper to make any provision for it. The duties of the office, now performed by a clerk of the fourth class, are of a very responsible character, involving a supervision of the accounts of receipts and expenditures of the Department, and are sufficient to justify the compensation for which estimate is made. In regard to the increase in the estimates for the clerical force, there is an urgent necessity for it. The work in nearly every branch of the office has greatly increased, and will, of course, continue to increase with the growth of population and business throughout the country. In the issues of ordinary postage-stamps, stamped envelopes, and postal-cards, for instance, there has been an aggregate increase during the past year of over 12 per cent. In the business of registration there has been even a greater increase, reaching nearly 30 per cent. Both of the divisions of this office having charge of these branches of work require an increase of force. In the division of finance, however, the greatest need is felt. By reason of a change in the manner of collecting the revenues of the Department, which it was sometime since found necessary to make, the labors of the finance division have been very materially increased. Formerly, a majority of the postmasters were required to pay over their quarterly balances to mail-contractors upon collection orders issued by the auditor; now, postmasters are required to deposit their surplus funds with some Government depository. The records of these deposits, and of the accounts of depositories, being kept in this office, the necessary consequence of the change, it will be seen at once, was to greatly increase the work. When it is stated that the number of depositing offices has increased from 14,000 to over 40,000, the necessity for the additional force will be apparent. It is found to be impossible to intelligently perform the work with the present force, and therefore this increase is urgently recommended.</p>							
Office of superintendent of foreign mails:

## Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Post-Office Department—Continued.</i>							
One clerk of class one, (storekeeper).....	June 15, 1880	R. S. 21	27 235	167 1	\$1,200 00		
Engineer.....	June 15, 1880	R. S. 21	27 393	169 1			
Additional.....	Submitted				200 00		
Assistant engineer.....	June 15, 1880	R. S. 21	27 393	169 1	1,000 00		
One fireman, who shall be a blacksmith.....	Same acts						
One fireman, who shall be a steam-fitter.....	do.				900 00		
One fireman.....	do.				900 00		
One carpenter.....	do.				720 00		
Additional.....	Submitted				1,200 00		
One assistant carpenter.....	June 15, 1880	R. S. 21	27 393	169 1	1,000 00		
Captain of the watch.....	Same acts						
Sixteen watchmen, at \$720 each.....	do.				1,000 00		
Twenty-six laborers, at \$660 each.....	do.				11,520 00		
Two watchmen, at \$720 each, (additional).....	Submitted				17,160 00		
Two laborers, at \$660 each, (additional).....	do.				1,440 00		
Total.....					1,320 00	\$605,142 00	\$528,680 00
NOTE.—The proposed increase in the salaries of the chief clerk of the Postmaster-General and the chief clerk of each of the assistants is believed to be but just to employes who are required to have sufficient knowledge of their duties to take entire charge of their respective bureaus in the absence of their chiefs. In fact, the chief clerks of the assistants quite frequently have such responsibility imposed on them. Their work is always arduous, their labor great, and the increase in salary is not disproportionate to the trusts confided to them.							
<i>Contingent Expenses, Post-Office Department—</i>							
Stationery.....	Appropriated.	21	235	1	9,000 00		9,000 00
Fuel, and for repairs to engine, boilers, and heating apparatus for the general post-office building, including the auditor's office.....	do.				4,400 00		4,400 00
Gas.....	do.				5,000 00		5,000 00
Additional.....	Submitted				1,000 00		
Plumbing and gas-fixtures.....	Appropriated.	21	235	1	4,000 00		4,000 00
Telegraphing.....	do.				4,000 00		4,000 00
Additional.....	Submitted				1,000 00		
Painting.....	Appropriated.	21	235	1	4,000 00		4,000 00
Carpets.....	do.				5,000 00		5,000 00
Additional.....	Submitted				2,000 00		
Furniture.....	Appropriated.	21	235	1	5,000 00		5,000 00
Additional.....	Submitted				2,000 00		
Keeping of horses and repair of wagons and harness.....	Appropriated.	21	235	1	1,200 00		1,200 00
Additional.....	Submitted				300 00		
Hardware.....	Appropriated.	21	235	1	1,500 00		1,500 00
Rent of house numbered 915 E street, northwest.....	do.				1,500 00		1,500 00
NOTE.—It is respectfully submitted that this appropriation be made to read "Rent for topographer's office," as it is desired to change the locality.							
Publication of copies of Official Postal Guide.....	do.				20,000 00		20,000 00
Additional.....	Submitted				5,000 00		
Directories of the principal cities of the United States.....	Appropriated.	21	235	1	200 00		200 00
Additional.....	Submitted				100 00		
Miscellaneous items.....					\$8,000 00		
Ice, (additional,) submitted.....					2,000 00		
Washing towels, (additional,) submitted.....					800 00		
Soap, (additional,) submitted.....					1,000 00		
Water-closet paper, (additional,) submitted.....					500 00		
Use of telephones, (additional).....	Submitted				1,150 00		
File-holders for the newly-constructed division of files in the Post-Office-Department building, (additional).....	do.				3,000 00		
NOTE.—The increase in the appropriation for "Publication of copies of Official Postal Guides" is submitted for the following reasons: The appropriations for 1879-'80 were, regular, \$20,000, and deficiency, \$1,800. Only \$20,000 was appropriated for the present fiscal year, and a deficiency appropriation will have to be asked for of probably \$3,000, so that if the present rate of increase in the service is to continue, less than \$25,000 would not insure against the necessity for another deficiency next year.							
The estimate for "Printing and binding," submitted by the Postmaster-General, under section 2, act May 8, 1872, (R. S., 720, sec. 3661,) will be found under the title of "Miscellaneous," <i>post</i> .							
Total Post-Office Department.....						697,792 00	601,480 00

MILITARY ESTABLISHMENT

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.			
		Vol. or R. S.	Page.	Sec.						
<b>UNDER THE WAR DEPARTMENT.</b>										
<b>COMMANDING-GENERAL'S OFFICE.</b>										
<i>Expenses of Commanding-General's Office—</i>										
To defray the contingent expenses of the Commanding-General's office.....	Aug. 30, 1856 Mar. 3, 1875 July 24, 1876 May 4, 1880	11 18 19 21	149 452 97 110	1 1 1 1	}-----	\$2,500 00	\$2,500 00			
<b>ADJUTANT-GENERAL'S OFFICE.</b>										
<i>Expenses of Recruiting—</i>										
Expenses of recruiting and transportation of recruits, being the estimated cost which will be incurred in the enlistment and transportation from rendezvous to depot of eight thousand and eighty-nine (8,089) recruits, the number which it is estimated will be required to keep the Army at its authorized strength during the fiscal year ending June 30, 1882.....	May 4, 1880	21	110	1				-----	97,068 00	75,000 00
<p><small>NOTE.—The actual number of men whose term of service will expire during the year 1881-'82 is 4,460. The ranks are now more than 1,000 below the legal strength, and it is assumed that the number of enlistments and re-enlistments at posts will about offset the deficiency. The average loss by deaths, discharges for disability, by courts-martial, &amp;c., for the past two years is 3,629. The actual cost of enlistment per man for the years 1875, 1876, and 1877 gives an average of \$11 93.</small></p>										
<i>Contingencies, Adjutant-General's Department—</i>										
For the contingent fund of the Adjutant-General's department at the headquarters of the several military divisions and departments, being for the purchase of necessary articles of furniture, stationery, police utensils, &c., during the fiscal year ending June 30, 1882.....	May 4, 1880	21	110	1	-----	3,500 00	3,000 00			
<b>OFFICE OF THE CHIEF SIGNAL OFFICER.</b>										
<i>Signal Service—</i>										
For the expenses of the signal service of the Army, the purchase, equipment, and repair of the field electric telegraph, signal equipments, and stores, &c.....	July 21, 1860 Feb. 22, 1862 July 23, 1866 May 4, 1880	12 12 14 21	66 344 335 110	1 1, 2 22 1	}-----	12,500 00	10,500 00			
<b>PAY DEPARTMENT.</b>										
<i>Pay of the Army—</i>										
1 General.....		R. S.	220	1261					\$13,500 00

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
				Vol. or R. S.	Page.	Sec.			
<i>Subsistence of the Army—Continued.</i>									
<i>Subsistence of regular troops, Indian scouts, civil employes, &amp;c.—Continued.</i>									
	No. entitled to rations.	No. of days.	No. of rations required.						
Civil employes, (Rev. Regs., 1863, par. 1201).....	2,065	365	753,725	Appropriated.	21	111	1		
Contract surgeons, (Rev. Regs., 1863, par. 1201, G. O. No. 48, A. G. O., 1868)...	125	365	45,625	Appropriated.	21	111	1		
Hospital-matrons.....	200	365	73,000	Appropriated.	R. S. 221	1277			
Military convicts, (at posts).....	75	365	27,375	Appropriated.	R. S. 224	1295			
Prisoners of war, including Indians, for the subsistence of whom no other appropriation is made, (Rev. Regs., 1863, par. 746).....	500	365	182,500	Appropriated.	21	111	1		
Total.....			10,668,220						
10,668,220 rations, at 20 cents each.....								\$2,133,644 00	
NOTE.—In making this estimate at 20 cents per ration, the following expenses are included: Cost at place of purchase of subsistence supplies for issue to troops, &c., for extra issues, including candles and oil for illumination, and salt for public animals, and for sales to officers and enlisted men, under sections 1144 and 1149 of the Revised Statutes; commutation to enlisted men on furlough, under paragraph 1243, Revised Regulations, 1863; losses from wastage in issuing; damage in transportation; shrinkage and deterioration while on hand; necessary abandonment or destruction in the field; protection of supplies, including building, repair, and rent of necessary store-houses and offices, when not otherwise furnished; purchase of paulins, &c.; building and repairing of bake-houses and ovens; the cost of purchasing, issuing, and accounting for subsistence supplies, and of their care and preservation, including the cost of the required scales, measures, utensils, tools, stationery, blank books and forms, printing, office-furniture, telegrams, and other necessary expenses incident to subsisting the Army.									
Difference between the cost of the ration, at 20 cents, and commutation, at \$1, for the following enlisted men, viz: 241 on duty as clerks, messengers, watchmen, &c., in the War Department and its bureaus, Headquarters of the Army, Adjutant-General's Office, and elsewhere in Washington, D. C.; 5 on duty as clerks at Headquarters Military Divisions and Headquarters General Recruiting Service; 12 signal-service observers, on duty at Mount Washington, Pike's Peak, Jacksonville, Shreveport, Galveston, and Indianola; 125 signal-service men, on duty in the office of the Chief Signal Officer, at Washington, D. C.—383 men, for 365 days, at 80 cents per day.....				Appropriated.	21	111	1	111,836 00	
Difference between the cost of the ration, at 20 cents, and commutation, at 75 cents, for the following enlisted men, viz: 161 on duty as clerks at Headquarters Military Divisions, Departments, and Districts, and Headquarters General Recruiting Service; 14 on duty, in various capacities, at military posts and stations; 302 signal-service men, on duty at signal-stations throughout the United States; 60 (estimated) enlisted men detailed as repair-men, &c., on the United States telegraph-lines in Arizona, New Mexico, and other sections; 75 (estimated) travelling on detached duty—612 men, for 365 days, at 55 cents per day.....				do				122,859 00	
Difference between the cost of the ration, at 20 cents, and commutation, at 50 cents, for the following enlisted men, viz: 68 on duty as messengers at Headquarters Military Divisions, Departments, and Districts, and Headquarters General Recruiting Service; 1 on duty at Sandy Hook, N. J.—69 men, for 365 days, at 30 cents per day.....				do				7,555 50	
NOTE.—Commutation of rations to the above enlisted men, in lieu of rations in kind, is authorized by Memo., War Department, A. G. O., October 31, 1863; G. O. No. 44, Headquarters of the Army, A. G. O., 1880; par. 1244, Rev. Regs. of the Army, 1863; and by special authority of the Secretary of War.									

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.*

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.			References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
	Vol. or R. S.	Page.	Sec.	Vol. or R. S.	Page.	Sec.			
<i>Subsistence of the Army—Continued.</i>									
Difference between the cost of the ration, at 20 cents, and commutation, at \$1 50, for the following enlisted men, while travelling, viz: 38 men assembled from the several Military Divisions, for participation in the annual rifle contests at Creedmoor, Long Island, whose period of travel is estimated to average 10 days each, at \$1 30 per day .....	Submitted						\$494 00		
Difference between the cost of the ration, at 20 cents, and the cost of cooked rations, at 60 cents per day, for the following enlisted men, viz: 52 men assembled at Creedmoor, as above, for practice-firing and participation in the rifle contest, for an average period of say 22 days each, at 40 cents per day .....	do						457 60		
NOTE.—Commutation of rations to enlisted men travelling to and from Creedmoor, in connection with the rifle contests at that place, and complete cooked rations to the men assembled there, are allowed by authority of the Secretary of War.									
Difference between the cost of the ration, at 20 cents, and the cost of cooked rations, at 50 cents per day, for say 75 enlisted men, (recruiting parties at rendezvous,) and for say 222 daily average number of recruits at rendezvous, for 365 days, being 108,405 rations, at 30 cents per ration .....	Appropriated.	21	111		1		32,521 50		
NOTE.—Contracts for complete cooked rations for recruiting parties and recruits at rendezvous, when subsistence cannot be advantageously issued, are entered into by the proper officers under par. 1236, Rev. Regs., 1863.									
Cost (in excess of ordinary rations) of hot coffee and canned beef, baked beans and cheese, for troops travelling on cars or other conveyances, when it is impracticable to cook their rations .....	do						10,000 00		
NOTE.—The issue of these articles is authorized by G. O. No. 86, A. G. O., 1877; and G. O. No. 59, A. G. O., 1878; and G. O. No. 101, A. G. O., 1879.									
Subsistence stores for issue to Indians visiting military posts .....	Appropriated.	R. S. 21	369 111	2110 1			10,000 00		
NOTE.—These issues are made under par. 1202, Rev. Regs., 1863.									
Indians employed without pay as guides, scouts, &c.....	Appropriated.	21	111		1		10,000 00		
From the aggregate of the foregoing estimate should be deducted the amount (of say \$40,000) which will be collected from officers and men in excess of the cost of all stores and other articles sold them, as required by the proviso to the "Act making appropriations for the support of the Army for the fiscal year ending June 30, 1881, and for other purposes," approved May 4, 1880.....							2,439,367 60		
NOTE.—It is recommended that of the amount appropriated for subsistence of the Army, on this estimate, \$300,000 shall be made available from and after the passage of the act making the appropriation for the purchase of stores necessary to be shipped for distant posts in advance of June 30, 1881.							40,000 00		
								\$2,399,367 60	\$2,250,000 00
QUARTERMASTER'S DEPARTMENT.									
<i>Regular Supplies—</i>									
Regular supplies of the Quartermaster's department, consisting of stoves for heating and cooking; of fuel and lights for officers and enlisted men, guards, hospitals, storehouses, and offices; of forage in kind for the horses, mules, and oxen of the Quartermaster's department at the several posts and stations, and with the armies in the field; for the horses of the several regiments of cavalry, the batteries of artillery, mounted men of the Signal Service, and such companies of infantry and scouts as may be mounted, and for the authorized number of officers' horses, including bedding for the animals; of straw for soldiers' bedding; and of stationery, including blank books for the Quartermaster's department, certificates for discharged soldiers, blank forms for the Pay and Quartermaster's departments, and for printing of division and departmental orders and reports .....	Appropriated.	R. S. 21	206 111	1133 1270, 1			3,700,000 00	3,600,000 00	
NOTE.—It is contemplated by the War Department, pursuing the policy of improving the moral and intellectual condition of the army by establishing schools and providing for study, to improve the lighting of quarters, schools, chapels, &c., so that men may be able to read and study after dark, and as the Quartermaster's department is expected to supply lamps and oil for this purpose, which has not heretofore been its duty, this estimate is somewhat increased, and its title is changed by introducing the word lights.

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
	Vol. or R. S.	Page.	Sec.	Vol. or R. S.	Page.	Sec.			
<i>Horses for Cavalry and Artillery—</i>									
Purchase of horses for the cavalry and artillery, and for the Indian scouts, and for such infantry as may be mounted .....				R. S.	206	1133	}	\$234,000 00	\$200,000 00
			Revised Army Reg's, 1863, p. 159, par. 1064.						
			Appropriated.	21	112	1			
<i>Incidental Expenses—</i>									
Postage and telegrams or despatches; extra pay to soldiers employed under the direction of the Quartermaster's department in the erection of barracks, quarters, storehouses, and hospitals, in the construction of roads, and other constant labor for periods of not less than ten days, including those employed as clerks at division and department headquarters and signal-service sergeants; expenses of expresses to and from the frontier posts and armies in the field; of escorts to paymasters and other disbursing officers, and to trains where military escorts cannot be furnished; expenses of the interment of officers killed in action or who die when on duty in the field, or at posts on the frontiers, or when travelling on orders, and of non-commissioned officers and soldiers; authorized office-furniture; hire of laborers in the Quartermaster's department, including the hire of interpreters, spies, and guides for the Army; compensation of clerks to officers of the Quartermaster's department; compensation of forage and wagon-masters authorized by act of July 5, 1838; for the apprehension, securing, and delivering of deserters, and the expenses incident to their pursuit; and for the following expenditures required for the several regiments of cavalry, the batteries of light artillery, and such companies of infantry and scouts as may be mounted; and for the trains, to wit: Hire of veterinary surgeons, medicine for horses and mules, picket-ropes, and for shoeing horses and mules; also, generally, the proper and authorized expenses for the movement and operations of the Army not expressly assigned to any other department .....				R. S.	207	1137	}	1,240,158 00	1,000,000 00
			Revised Army Reg's, 1863, p. 159, par. 1065.	R. S.	223	1237			
			July 5, 1838	5	257	10			
			Appropriated.	21	111	1			
NOTE.—The accumulation of claims for quartermaster's stores, in consequence of the statute of limitation, has caused an increase in the clerks and agents employed in the endeavor to investigate them before claimants, and witnesses are all removed by death, and swells the cost beyond previous years. The Signal Corps has also been increased.									
<i>Army Transportation—</i>									
Transportation of the Army, including baggage of the troops when moving either by land or water; of clothing, camp and garrison equipage from the depots of Philadelphia and Jeffersonville to the several posts and Army depots, and from those depots to the troops in the field; of horse-equipments, and of subsistence stores from the places of purchase, and from the places of delivery, under contract, to such places as the circumstances of the service may require them to be sent; of ordnance, ordnance stores, and small-arms from the founderies and armories to the arsenals, fortifications, frontier posts, and Army depots; freights, wharfage, tolls, and ferriages; the purchase and hire of horses, mules, oxen, and harness, and the purchase and repair of wagons, carts, and drays, and of ships and other sea-going vessels and boats required for the transportation of supplies, and for garrison purposes; for drayage and cartage at the several posts; hire of teamsters; transportation of funds for the pay and other disbursing departments; the expense of sailing public transports on the various rivers, the Gulf of Mexico, and the Atlantic and Pacific; for procuring water at such posts as, from their situation, require it to be brought from a distance; and for clearing roads, and for removing obstructions from roads, harbors, and rivers, to the extent which may be required for the actual operations of the troops in the field .....				R. S.	36	220	}	\$4,200,000 00	
			Revised Army Reg's, 1863, p. 159, par. 1064, and p. 163, par. 1096.	R. S.	206	1133-5			
To pay land-grant railroads fifty per cent. of what the Quartermaster's department finds justly due them for transportation, and for which \$300,000, for previous services, was appropriated by act of March 3, 1879 .....			Appropriated.	21	112	1			
								125,000 00	
NOTE.—This estimate is submitted for the reason that the Government is now running into debt to these railroads, which, in the meantime, have been and are faithfully performing important service for the War Department, in the transportation of troops and supplies.								4,325,000 00	4,000,000 00

<b>Clothing, Camp and Garrison Equipage—</b>																			
Purchase and manufacture of clothing, camp and garrison equipage .....	.....	R. S.	206	1133-5	} .....	1,271,000 00	1,000,000 00												
	.....	Revised Army Reg's, 1863, p. 159, par. 1064.	Appropriated.	21				112	1										
<p>NOTE.—The price of clothing and equipage, as determined by the result of advertisement and public letting of contracts since July 1, 1880, has advanced beyond last year's, on the average of 13 per cent., and the estimate of last year, \$1,000,000, is increased this year by that percentage to meet this year's advance in prices. The manufacture of canvas-lined overcoats, and the supply of dark-blue flannel shirts, part of the recommendations of the board on army equipment, which have been sanctioned by the General of the Army and the Secretary of War, have not heretofore, for want of money, been completed. It is estimated that these supplies will add to the cost of clothing and equipage \$141,000, and that sum is added to last year's estimate for these purposes.</p> <table border="0" style="width: 100%;"> <tr> <td>Last year's estimate.....</td> <td>\$1,000,000 00</td> </tr> <tr> <td>For advance in prices, as shown by advertised contracts and lettings since July 1, 1880, 13 per cent.....</td> <td>130,000 00</td> </tr> <tr> <td>For canvas-lined overcoats.....</td> <td>\$30,000 00</td> </tr> <tr> <td>For blue flannel shirts.....</td> <td>111,000 00</td> </tr> <tr> <td></td> <td>141,000 00</td> </tr> <tr> <td><b>Total .....</b></td> <td><b>1,271,000 00</b></td> </tr> </table> <p>Needed for the fiscal year 1882.</p>								Last year's estimate.....	\$1,000,000 00	For advance in prices, as shown by advertised contracts and lettings since July 1, 1880, 13 per cent.....	130,000 00	For canvas-lined overcoats.....	\$30,000 00	For blue flannel shirts.....	111,000 00		141,000 00	<b>Total .....</b>	<b>1,271,000 00</b>

<b>Contingencies of the Army—</b>																			
This estimate is made to meet such expenses as are not provided for by other estimates, and embraces all branches of the military service. The appropriation is disbursed under the immediate orders of the Secretary of War .....	.....	Appropriated.	21	112	1	\$100,000 00													
Reduction by Secretary of War.....	.....					50,000 00	40,000 00												
<p>NOTE.—The amount asked for, \$50,000, is absolutely necessary to meet the actual contingencies of the Army.</p> <p style="text-align: center;">MEDICAL DEPARTMENT.</p>																			
<b>Medical and Hospital Department—</b>																			
Purchase of medical and hospital supplies, medical care and treatment of officers and soldiers on detached duty, expenses of purveying-depots, and other miscellaneous expenses of the Medical department .....	May 4, 1880	21	112	1		250,000 00	200,000 00												
<b>Medical Museum and Library—</b>																			
For the Army Medical Museum, and for medical and other works for the library of the Surgeon-General's Office .....	May 4, 1880	21	113	1		10,000 00	10,000 00												
ENGINEER DEPARTMENT.																			
<b>Engineer Depot at Willet's Point, New York—</b>																			
Purchase of engineer materials to continue the present course of instruction of the engineer battalion in field engineering .....	.....	Appropriated.	21	113	1	1,000 00													
Incidental expenses of the depot, such as remodelling ponton trains, repairing instruments, purchasing fuel, forage, stationery, and chemicals; extra-duty pay to soldiers engaged in special skilled labor, such as wheelwright work, printing, photographing, and lithographing engineer documents .....	.....	do				4,000 00													
Constructing a building for instruction of officers and men in the various processes of military map reproduction in the field .....	.....	Submitted				5,000 00													
						10,000 00	5,000 00												
<p>NOTE.—Practical instruction to officers and men of the Corps of Engineers in the field-work of military map-making, and in the use of means of rapidly reproducing maps for armies in the field, is deemed of the highest importance, especially in our service, where campaigns are usually conducted in districts less known than are the theaters of the great wars in Europe, and it is hoped the construction of a building in which to afford such instruction, herein estimated for, will be authorized. A plain, well-built building suitable for this branch of instruction can be built for \$5,000.</p>																			

## Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Surveys and Reconnoissances in Military Divisions and Departments—</i>							
Military surveys and reconnoissances, and surveys of military reservations by the engineer officers attached to the various headquarters of military divisions and departments, being an average of \$5,000 for each of the nine (9) military divisions and departments west of the Mississippi river, and \$5,000 for publication of maps; this sum to be immediately available .....	Appropriated.	21	268	1	.....	\$50,000 00	\$12,500 00
ORDNANCE DEPARTMENT.							
<i>Ordnance Service—</i>							
Current expenses of the Ordnance service .....	Appropriated.	21	113	1	.....	150,000 00	110,000 00
NOTE.—The amount estimated for under this head is required to pay the expenses at the arsenals of receiving stores and issuing arms, and other ordnance supplies; of police and office-duties; of rents, tolls, fuel, and lights; of stationery and office-furniture; of tools and instruments for use; of public animals, forage, and vehicles; incidental expenses of the ordnance service, including compensation of workmen in the armory and museum-building connected with the ordnance office, and expenses attending practical trials and tests of ordnance, small-arms, and other ordnance supplies not otherwise specially provided for. This amount cannot be reduced without embarrassment to the public service. The amount appropriated for several years has been found insufficient.							
<i>Ordnance, Ordnance Stores and Supplies—</i>							
Manufacture of metallic ammunition for small-arms .....	Appropriated.	21	113	1	\$150,000 00		
NOTE.—This amount of money will manufacture the ammunition for the rifles, carbines, and revolvers now in actual use, and ought not to be reduced. Rifle and carbine ammunition costs to manufacture \$25 per thousand, and revolver, \$18 per thousand. For target-practice at the present small allowance for drills, guards, instruction of recruits, funerals, and occasions of ceremony, at least four million rounds of ball and blank cartridge are needed yearly, or are actually expended. The surplus which the amount asked for will produce above the amount needed for these purposes, is required for the hostile uses of the Army, and as a prudent reserve in store for general military purposes. The unusual interest in rifle-firing manifested throughout the Army during the past year will soon exhaust the small reserve supply of ammunition on hand. Soldiers should be made good marksmen, and this cannot be done without a liberal supply of ammunition for target-practice. The amount asked for is reasonable, if the soldier is to be provided with cartridges sufficient for his proper instruction.							
Overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals .....	do.				20,000 00		
Mounting and dismounting guns, and removing the armament from forts being modified or repaired, including heavy carriages returned to arsenals for alteration and repairs, and other necessary expenses of the same character, and for repairing ordnance and ordnance stores in the hands of troops, and for issue at the arsenals and depots, and for extra-duty pay for enlisted men detailed for ordnance service .....	do.				30,000 00		
Purchase and manufacture of ordnance stores to fill requisitions of troops .....	do.				150,000 00		
Infantry, cavalry, and artillery equipments .....	do.				75,000 00		
						425,000 00	310,000 00
<i>Powder-Depot—</i>							
Grading grounds, erecting magazines, and other necessary buildings, and all expenses incident thereto .....	Appropriated.	21	113	1	.....	50,000 00	50,000 00
NOTE.—This estimate is to enable this Department to continue the erection of the necessary magazines for the storage of powder.							
<i>Manufacture of Arms at National Armories—</i>							
Manufacture of arms at the National Armory .....	Appropriated.	21	113	1	.....	800,000 00	300,000 00
NOTE.—Besides supplying the regular Army, the militia, the various colleges, and the other branches constituting the military establishment, the War Department has now to supply arms, ammunition, &c., to the Marine Corps, and to the several Executive Departments, for use in the protection of public money and property, under the law of March 3, 1879. During the ten years preceding the war of the rebellion, from 1852 to 1861, there was appropriated annually, on an average, \$251,000 for the manufacture of arms at the national armories, and with this sum the wants of a smaller army and of a smaller population permitted the gradual increase of them in store. The increased cost of the present breech-loading rifle, the greater demand for its use, and the paucity of the appropriations of late years, have left the country in a dangerous condition, there being on hand July 31, 1880, subject to issue, but 22,979 breech-loading rifles and carbines. It is of the most vital importance to the nation that the manufacture of arms by this Department be steadily continued in quantities sufficient to render a gradual accumulation of them in store a certainty. The number of small-arms on hand should never be less than 500,000.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<b>Armament of Fortifications—</b>							
Conversion and manufacture of breech-loading heavy ordnance .....	Appropriated.	21	109	1	\$500,000 00		
NOTE.—The object of this estimate is to continue the manufacture of 12-inch breech-loading rifles, and the conversion of smooth-bore guns into breech-loading rifles of eight inches and higher calibres. Our experiments prove that this is the most economical and sure method of providing efficient guns, indispensably necessary for our fortifications.							
Carriages, projectiles, and powder for heavy ordnance .....	do .....				250,000 00		
NOTE.—This estimate is made to enable the Department to provide a supply of carriages, projectiles, and powder for the guns.							
Proving-ground and proving cannon, carriages, projectiles, fuses, gunpowder, and other ordnance materials and stores, and all expenses, of every kind, incident thereto .....	Appropriated.	21	267	1	20,000 00		
For the further and complete tests of the experimental cannon procured under the act of June 6, 1872 .....	Appropriated.	21	113	1	117,600 00		
						\$887,600 00	\$405,000 00
NOTE.—These guns were prepared several years ago, upon the recommendation of a board, and under a specific provision of law. On the 20th of January, 1875, the President sent a special message to Congress on the subject of armament of fortifications, enclosing a special report from the Chief of Ordnance, and recommending \$250,000 "for proving-ground and experiments and tests of heavy ordnance." In that report I stated that the guns "designated by a board of officers appointed by the Secretary of War * * * will probably be ready for trial in the early spring. Funds necessary for this purpose should be appropriated." When the sundry-civil bill was under discussion in the House, the President's message and my report were quoted from in favor of an appropriation for testing these guns, but the House refused to make an appropriation. In my annual report of 1876, I again called special attention to this subject. During the last session another effort was made. This matter is again brought to the attention of Congress, in the hope that the necessary funds will be given for these very important trials.—(Chief of Ordnance.)							
<b>Testing-Machine—</b>							
Caring for, preserving, using, and manipulating the United States testing-machine at Watertown Arsenal. }	Appropriated.	21	269	1	} .....	20,000 00	15,000 00
	Appropriated.	21	113	1			
NOTE.—This machine is too valuable to be permitted to stand idle. The determination that may be made by it will be of value to the different Departments of the Government, as well as to the public generally. A much larger amount might be expended to great advantage.

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses, Military Academy—Continued.</i>							
Thirty new desks .....	Submitted .....				\$150 00		
Exchange of drawings with foreign military schools, purchase of foreign manuals, and books of instruction in military drawing, models, &c .....	do .....				50 00		
Repairs on desks, stretchers, and models .....	do .....				25 00		
Lantern and slides for illustrating lectures .....	do .....				250 00		
Department of ordnance and gunnery: Additions to models and drawings used in course of instruction, repairs of electro-ballistic machines and galvanic batteries, and for addition to firing-house .....	Appropriated .....	21	153	1	260 00		
Text-books, books of reference, and stationery for instructors .....	do .....				40 00		
Department of practical military engineering: Pontooning materials .....	do .....				30 00		
Mining and profiling materials .....	do .....				25 00		
Telegraphing and signalling materials .....	do .....				25 00		
Stationery, text-books, and books of reference .....	do .....				25 00		
Repairs of instruments .....	do .....				20 00		
Department of artillery, cavalry, and infantry tactics: Tan-bark for riding-hall and gymnasium .....	do .....				300 00		
Repairing camp-stools and camp-furniture .....	do .....				100 00		
Furniture for offices and reception-room for visitors .....	do .....				150 00		
Stationery for use of instructor and assistants .....	do .....				125 00		
Books and maps .....	do .....				50 00		
Repairing gymnasium .....	do .....				100 00		
Foils, masks, gloves, jackets, and repairs; wooden muskets .....	do .....				100 00		
Expenses of the board of visitors, including mileage .....	do .....				3,000 00	\$48,160 00	\$46,750 00
<i>Miscellaneous Items and Incidental Expenses, Military Academy—</i>							
Gas-coal, oil, candles, lanterns, matches, and wicking, for lighting the academy, cadet-barracks, mess-hall, shops, hospital, offices, stables, sidewalks, and wharves .....	Appropriated .....	21	153	1	3,500 00		
Water-pipes, plumbing, and repairs .....	do .....				1,500 00		
Cleaning public buildings, (not quarters) .....	do .....				500 00		
Brooms, brushes, pails, tubs, soap, and cloths .....	do .....				200 00		
Chalk, crayons, sponge, slates, and rubbers for recitation-rooms .....	do .....				300 00		
Compensation of chapel-organist .....	do .....				200 00		
Compensation of librarian .....	Apr. 23, 1856 June 1, 1880	11 21	5 153	2 1	120 00		
Pay of engineer of heating and ventilating apparatus for the academic building, the cadet-barracks and office-building, chapel, and philosophical building, including the library .....	Appropriated .....	21	153	1	1,200 00		
Pay of assistant engineer of same .....	do .....				720 00		
Pay of five firemen .....	do .....				2,200 00		
Increase and expense of library, viz: Periodicals, \$300; binding, \$500; completing and binding catalogue, \$400; new books—scientific, historical, biographical, general literature, &c., \$1,000; in all .....	do .....				2,200 00		
Matting for library-floor, 250 yards at 70 cents per yard .....	Submitted .....				175 00		
Pay of librarian's assistant .....	Feb. 18, 1871 June 1, 1880	16 21	414 153	1 1	1,000 00		
Furniture for cadet-hospital, and repairs of same .....	Appropriated .....	21	153	1	100 00		
Purchase of bedding and necessary articles for the use of candidates previous to their admission into the academy .....	do .....				500 00		
First equipment of cadets on their admission to the academy, to make good the deficiency in their deposits with the treasurer .....	Submitted .....				5,000 00		
Office and section-room furniture .....	do .....				300 00		
						19,715 00	12,890 00
NOTE.—The item of \$5,000 for "First equipment of cadets" is designed to cover the deficiency arising from the failure of a large proportion of the candidates to make the necessary deposits with the treasurer to pay the cost of their equipment. Including this equipment, the average necessary expenses of a new cadet for the first two months are about \$170, or \$80 in excess of his pay for the two months. Some of the candidates are very poor, not only without money, but even destitute of necessary underclothing. They must be fitted out at the expense of the treasury of the academy, and if the cadet is discharged for any cause before the treasury is reimbursed from his pay, the treasury must suffer the loss. It is respectfully suggested that the necessary amount should be appropriated for the equipment of new cadets, or else that they should be required by law to make the necessary deposit on their admission to the academy, in the discretion of Congress.							
The estimate submitted for "Buildings and grounds, Military Academy," will be found under the title of "Public Works," post.							
Total Military Establishment .....						30,240,790 04	27,132,534 28

<b>UNDER THE NAVY DEPARTMENT.</b>							
<b>GENERAL SERVICE.</b>							
<i>Pay of the Navy—</i>							
Officers on sea-duty, officers on shore and other duty, officers on waiting orders, officers on retired list; secretaries, pay of petty officers, seamen, ordinary seamen, landsmen, and boys, including men in the Engineer's force, and for the Coast Survey Service, 7,500 men and 750 boys, at the pay prescribed by law	..... ..... ..... May 12, 1879 May 3, 1880	R. S. R. S. R. S. 21 21	265 269 272 3 82	1556 1569 1595 1 1	} }.....	\$7,083,650 00	\$6,965,000 00
<i>Pay, Miscellaneous—</i>							
Clerks; extra pay to enlisted men; exchange, commission, and interest; transportation of funds; mileage; officers in excess of present list, and changes of duty, &c.	Appropriated.	21	83	1	.....	481,725 00	475,000 00
<i>Contingent, Navy—</i>							
Rent and furniture of buildings and offices not in navy-yards; expenses of courts-martial and courts of inquiry, boards of investigation, examining-boards, with clerks' and witness-fees, and travelling expenses and costs; stationery and recording; expenses of purchasing-paymasters' offices at the various cities, including clerks, furniture, fuel, stationery, and incidental expenses; newspapers and advertising; foreign postage; telegraphing, foreign and domestic; copying; care of library, mail, and express-wagons, and livery and express-fees, and costs of suits; commissions, warrants, diplomas, and discharges; relief of vessels in distress, and pilotage; recovery of valuables from shipwrecks; quarantine expenses; care and transportation of the dead; reports, professional investigation, and information from abroad; and all other emergencies and extraordinary expenses, arising at home or abroad, but impossible to be anticipated or classified	Appropriated.	21	83	1	.....	100,000 00	100,000 00
<b>BUREAU OF NAVIGATION.</b>							
<i>Navigation and Supplies—</i>							
Foreign and local pilotage and towage of ships-of-war	..... Appropriated.	R. S. 21	733 83	3709, 3747 1	} }.....	\$45,000 00	
Services and materials in correcting compasses on board ship, and for adjusting and testing compasses on shore	Same acts.					3,000 00	
Nautical and astronomical instruments, nautical books, maps, charts, and sailing directions, and repairs of nautical instruments for ships-of-war	.....					10,000 00	
Books for libraries for ships-of-war	.....					2,000 00	
Navy signals and apparatus, namely: Signal-lights, lanterns, rockets, running-lights, drawings, and engravings for signal-books	.....					6,000 00	
Compass-fittings, including binnacles, tripods, and other appendages of ship's compasses	.....					3,000 00	
Logs and other appliances for measuring the ship's way, and leads and other appliances for sounding	.....					5,000 00	
Lanterns and lamps and their appendages for general use on board ship, including those for the cabin, ward-room, and steerage, for the holds and spirit-room, for decks and quartermasters' use	.....					5,000 00	
Bunting and other materials for flags, and making and repairing flags of all kinds	.....					8,000 00	
Oil for ships-of-war other than that used in the engineer department; candles, when used as a substitute for oil in binnacles and running-lights; for chimneys and wicks; and soap used in the navigation department	.....					25,000 00	
Stationery for commanders and navigators of vessels-of-war, and for use of courts-martial	.....					3,000 00	
Musical instruments and music for vessels-of-war	.....					1,500 00	
Steering-signals and indicators, and for speaking-tubes and gongs for signal communication on board vessels-of-war	.....					2,000 00	
Labor at the different navy-yards	Submitted					12,000 00	
						130,500 00	104,500 00
<i>Contingent, Bureau of Navigation—</i>							
Contingent expenses of the Bureau of Navigation, namely: Freight and transportation of navigation materials; postage and telegraphing on public business; advertising for proposals; packing-boxes and materials; and all other contingent expenses	Appropriated.	R. S. 21	721 84	3666 1	} }.....	4,000 00	2,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<b>Civil Establishment, Bureau of Navigation—</b>							
Civil establishment in the navigation department of the several navy-yards, namely:							
Portsmouth .....	Appropriated.	21	84	1	\$1,300 00		
Boston .....	do				1,400 00		
New York .....	do				1,400 00		
League Island .....	do				1,300 00		
Washington .....	do				1,400 00		
Norfolk .....	do				1,300 00		
Pensacola .....	do				1,017 25		
Mare Island .....	do				1,300 00		
						\$10,417 25	\$10,417 25
<b>Hydrographic Work, Bureau of Navigation—</b>							
Drawing, engraving, purchase of chart-paper, printing and photo-lithographing charts, correcting old plates, preparing and publishing sailing-directions, and other hydrographic information .....	Appropriated.	R. S. 21	72 84	431-3 1	50,000 00		
Purchase of books for library; office-furniture; drawing material and other stationery; postage, freight, incidental labor, and other contingent expenses .....	Same acts				5,000 00		
Continuing the survey of the Pacific Ocean and of the reported dangers to navigation .....	Submitted				20,000 00		
						75,000 00	44,000 00
<b>Naval Observatory—</b>							
Pay of three assistant astronomers, four thousand nine hundred dollars: <i>Provided</i> , That any assistant astronomer who has not served four years continuously shall receive only one thousand five hundred dollars per annum .....	Appropriated.	R. S. 21	721 84	3666 1	4,900 00		
One clerk .....	Same acts				1,800 00		
Wages of one instrument-maker, three watchmen, one messenger, and one porter; for keeping grounds in order, and for repairs to buildings and enclosures; for fuel, light, and office-furniture; chemicals for batteries; and for stationery, freight, and all contingent expenses .....	do				13,500 00		
NOTE.—Previous to 1875, the sum of \$13,500 was allowed under this head. The scope of the Observatory has increased rather than diminished since that period. Under the allowance since 1874, the condition of the <i>material</i> has steadily deteriorated for lack of means.							
Reducing and transcribing astronomical and meteorological observations for publication .....	do				2,200 00		
Professional books and periodicals for library .....	do				1,000 00		
Solar and stellar photography .....	do				1,000 00		
Payment to Smithsonian Institution for freight on Observatory publications to be shipped to foreign countries during the year 1881-'2 .....	do				336 25		
NOTE.—A larger number of publications will be sent abroad in 1881-'2, notably among them the Solar Eclipse Report, which will be of great interest.							
Photographic apparatus .....	do				500 00		
Computing .....	Submitted				4,000 00		
NOTE.—The observations have for a series of years outrun the computations necessary to make them available. After this year, half the sum asked for will keep the work of computing even with the observations.							
Illustrations to accompany observations of the planets Venus, Mars, Jupiter, and Saturn, made with the large equatorial, from 1874 to 1880 .....	do				400 00		
Repairs to dome of large telescope .....	do				500 00		
Refrigerator for testing chronometers .....	do				600 00		
NOTE.—There are no proper means of subjecting the chronometers tested to the necessary variations of temperature, to enable the examiner to determine how they will act under the fluctuations of temperature incident to extensive bruising.							
Time-ball and iron staff for same .....	do				300 00		
NOTE.—The time-ball now used is smaller than it should be, and its position on a movable dome restricts its size. It is proposed to put a wrought-iron staff on one corner of the Observatory, and to enlarge the ball and improve its plan.						31,036 25	24,536 25
<b>Nautical Almanac—</b>							
Pay of computers and clerks for preparing for publication the American Ephemeris and Nautical Almanac .....	Appropriated.	R. S. 21	73 84	436 3666 1	19,000 00		
Rent, fuel, labor, stationery, boxes, expressage, books, and miscellaneous items .....	Same acts				1,500 00		
Improving the tables of the planets .....	do				3,000 00		
NOTE.—An increase of \$1,000 is recommended under the last head, owing to the urgent need of improved tables for the general purposes of astronomical prediction.						23,500 00	22,500 00

<i>Court-house and Post Office, Topeka, Kan.—</i> Continuation of building.....	June 20, 1878 Appropriated.	20 21	210 259	1 1	}-----	\$90,000 00	\$50,000 00
<i>Court-house and Post Office, Utica, N. Y.—</i> Approaches, (grading, fencing, and paving) .....	May 31, 1872 Mar. 3, 1877 Appropriated.	17 19 21	194 351 259	1 1 1			
<i>Building for Bureau of Engraving and Printing, Washington, D. C.—</i> Out-building for office, wagon-house, &c.....	June 20, 1878 Appropriated.	20 21	211 260	1 1	}-----	5,000 00	35,732 70
<i>Custom-house and Court-house, Toledo, Ohio—</i> Continuation of building.....	June 16, 1880	21	282	1			
<i>Court-house and Post Office, Montgomery, Ala.—</i> Continuation of building.....	May 26, 1880	21	142	1,2	-----	40,000 00	40,000 00
<i>Treasury Building, Washington, D. C.—</i> Annual repairs to Treasury building, and general repairs to roof .....	Appropriated.	21	260	1	-----	40,000 00	40,000 00
<i>Repairs of Marine-Hospitals—</i> Repairs to buildings and grounds as per estimate of Supervising Surgeon-General of September 14, 1880.....	Submitted .....				-----	62,022 56	
<i>Repairs and Preservation of Public Buildings—</i> Repairs and preservation of custom-houses, court-houses, post offices, and other public buildings under control of Treasury Department.....	Appropriated.	21	260	1	-----	150,000 00	100,000 00
<i>Marine Hospital, Port Townsend, Washington Territory—</i> Purchase or erection of a United States marine hospital at Port Townsend, Washington Territory.....	Submitted .....				-----	18,000 00	
NOTE.—The purchase of the private hospital at Port Townsend was recommended by a board consisting of the collector of customs, the medical officer on duty, and the special agent of the Treasury Department. The report was transmitted to the Speaker of the House of Representatives, with the recommendation that the necessary appropriation be made, by a letter of the Secretary of the Treasury, dated April 5, 1880.							
<b>Total Public Buildings under Treasury Department.....</b>						<b>3,339,022 56</b>	<b>3,121,732 70</b>
LIGHT-HOUSES AND FOG-SIGNALS.							
<i>Fog-signals on Light-ships—</i> Substituting steam fog-signal machinery for the caloric engines now in use on light-ships, Nos. 41 and 42.....	Submitted .....				-----	\$15,000 00	
NOTE.—It is found that the dry heat resulting from the use of the caloric engines seriously injures the vessels.							
<i>Steam-tender for Service on the Atlantic Coast—</i> Building a steam-tender for general use on the Atlantic coast .....	Submitted .....				-----	55,000 00	
NOTE.—To take the place of a vessel entirely worn-out and unfit for repairs.							
<i>Stamford Harbor Light-station, Connecticut—</i> Completing the light-house in Stamford Harbor, Connecticut. The appropriation made by the act of June 16, 1880, for the establishment of a light on Forked Rock, Stamford Harbor, Connecticut, being hereby made available for establishing a light on such point in Stamford Harbor as the Light-house Board may select .....	Appropriated.	21	263	1	-----	23,000 00	\$7,000 00
NOTE.—\$7,000 was appropriated for a light on Forked Rock, Stamford Harbor, Connecticut, by act approved June 16, 1880. The amount is insufficient, as the establishment of an efficient light will cost \$30,000. On examination and consultation with those most interested, it is found that the light should be placed on Harbor Ledge, on west side of entrance to the harbor.							
<i>Staten Island Depot, New York—</i> Repairs to the wharf and dredging of the basin at the general depot of the light-house establishment on Staten Island, New York .....	Appropriated.	21	262	1	-----	5,000 00	21,000 00
<i>Stannard's Rock Light-station, Michigan—</i> Completing the erection of a light-house on Stannard's Rock, Lake Superior, Michigan .....	Appropriated.	21	263	1	-----	73,000 00	50,000 00
NOTE.—This important work has been carried up to fourteen feet above the level of the lake. The above sum is required to finish it during the coming season.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Point Conception Light-station, California—</i> Rebuilding station and purchasing land for site of light-house at Point Conception, California .....	Submitted .....					\$48,000 00	
NOTE.—The structures are in a state of dilapidation, due to age and exposure to earthquakes. It has lately been decided that the United States has no title to the site, it being included in an old Mexican land-grant.							
<i>Tillamook Head Light-station, Oregon—</i> Completing the erection of a first-order light-house and steam fog-signal on the rock off Tillamook Head, Oregon .....	Appropriated .....	21	263	1		25,000 00	\$50,000 00
Total Light-houses and Fog-signals .....						244,000 00	128,000 00
Total Public Works under Treasury Department .....						3,583,022 56	3,249,732 70
UNDER THE WAR DEPARTMENT.							
ARMORIES AND ARSENALS.							
<i>Rock Island Arsenal, Rock Island, Illinois—</i> Completion of shop I, a wood-working and leather-working shop for the arsenal .....	Appropriated .....	21	267	1	\$138,500 00		
NOTE.—This is the last one of the arsenal shops. It was begun in July, 1878. It is believed that the appropriation now available for this shop will be sufficient to complete the second story, and purchase and cut all the stone required to complete the walls of the building. The amount asked for would finish the building and the last of the arsenal shops. The work to be done with this appropriation is to purchase and put in all the iron-work for the third floor; set the third-story walls; put up the iron-roof frame, and put on the roof; put in the fire-proof arches for the floors; finish all the interior; put in the area-walls, steps, and platforms, and pave the basement-floors and court, grade grounds, &c. It is very desirable for economy and the interests of the work, putting in power and shop-fixtures, and getting the whole row of arsenal shops in condition for use, that the amount asked for should be appropriated and the work completed during the year.							
Shop H, an iron-finishing shop for the armory .....	do .....				117,000 00		
NOTE.—This is the last but one of the armory shops. It was begun in September, 1878. It is believed that the present appropriation is sufficient to complete the first story above the basement, and purchase and cut about two-thirds of the stone for the second story. It is designed with the appropriation asked for to entirely complete the walls of the building, to manufacture and put in all the iron columns and iron-work for the floors, and to purchase and stack for seasoning the lumber required to finish the building. The amount asked for is only important for an economical and wise prosecution of the work.							
Armory shop K .....	Submitted .....				55,000 00		
NOTE.—This is the last of the armory shops, and the last shop required to complete the plans both for the armory and arsenal. It is designed with the appropriation asked for to complete the excavations for foundations and the basement story, put in the foundations, and progress as far as possible with the basement-story walls. The difficulties and delays which are sometimes encountered in getting perfectly secure foundations, and the consequent uncertainty both of cost and time required for the work, make it highly important that a whole year should be allowed for this work; and an economical prosecution of the work thereafter demands that these foundations should be put in and completed during the year. It is earnestly recommended that the whole amount asked for should be appropriated.							
One fire-proof stone building for offices for the arsenal and armory .....	do .....				46,000 00		
NOTE.—This building is intended as a general office for both the arsenal and armory and for all the business of the post. It should be fire-proof throughout and contain vaults for the books, records, and funds of the arsenal, and it should coincide somewhat in its architectural appearance and stone used with the other buildings of the arsenal. The amount asked for is deemed sufficient for procuring foundations, building the walls with suitable architecture, and putting in the iron beams for fire-proof floors, and other iron-work. The important reasons for making this estimate are that an office is required for immediate use; it has to be built some time, and the work can be done much cheaper and better by doing it slowly in connection with other work than after the other work is completed. There is now no office at the arsenal. For present use rooms have been temporarily partitioned off in the north end of the west wing of shop "B," (one of the finishing-shops of the armory.) This furnishes sufficient office-room, but the partitions are of wood, very temporary, and the rooms are badly heated with stoves. The office is not comfortable in winter, and there is some risk of fire, endangering the loss or damage of a very costly building and the loss of the records of the arsenal.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Rock Island Arsenal, Rock Island, Illinois—Continued.</i>							
For one block of officers' quarters, (stone).....	Submitted .....				\$18,000 00		
<p>NOTE.—An estimate for these buildings has been made in preceding years, but an appropriation was not made. It is somewhat important that the buildings should be erected, and therefore the estimate is renewed. There are quarters for only a portion of the officers at the arsenal, and the others are still living in the very temporary wooden buildings hastily put up in connection with the military prison here during the war. These buildings are now nearly worthless; they were badly built and have so decayed that they can hardly be maintained, and are not in a habitable condition. They are in the way of other improvements and ought to be removed.</p>							
Machinery and shop-fixtures .....	do .....				20,000 00		
<p>NOTE.—It is proposed with this amount to put in the shafting and shop-fixtures in shop "D," (one of the iron-finishing shops of the armory;) to finish some fixtures in other shops; to add to the plant of the arsenal such machines as are required for immediate use, and to put in as much as possible of the great main line of shafting for the whole row of arsenal shops, to be connected with the water-power. It is important that the fitting up of the shops for use should progress with the construction of the buildings. These fixtures are manufactured in the arsenal shops, and the work can be done much more cheaply at slack times, in connection with other work, than if postponed till the other work is completed.</p>							
General care, preservation, and improvement: For building new roads; care and preservation of the water-power; painting and care and preservation of permanent buildings, bridges, and shores of the island; building fences, grading grounds, and repairs and extension of railroad.....	Appropriated.	21	267	1	22,000 00		
<p>NOTE.—This work is almost absolutely necessary in the progress of the work of building the arsenal. The roads are required for immediate use in building operations, and should be so durably built as to become a permanent part of the arsenal; and this work on roads, grading, and sewers can be done far more economically whilst other excavations and buildings are going on, and the two kinds of work which are dependent. A portion of the amount is absolutely necessary for the preservation of buildings, roads, bridges, other constructions already built, and for the maintenance of the water-power and transmission of power.</p>							
Completing the improvement of the water-power pool.....	do .....				107,350 00		
<p>NOTE.—The estimate for this work was first made on February 4, 1876, and, after receiving the approval of the Chief of Ordnance and Secretary of War, was submitted to Congress by the Secretary of War on February 19, 1876. It is supposed that the estimate, together with the report which accompanied it, and the report of the commission appointed to examine into the water-power by authority of a joint resolution of Congress, approved March 3, 1877, and other papers pertaining to the matter, are still before Congress. At its last session, Congress appropriated \$50,000 for a portion of this work, and this estimate is for completing the work.</p>							
Reduction by Secretary of War .....					150,000 00	\$373,850 00	\$262,000 00
<i>Rock Island Bridge—</i>							
Care and preservation of the Rock Island bridge, and expense of maintaining and operating the draw .....	Appropriated.	21	267	1	9,000 00		
Protecting piers of bridge by sheer-booms.....	Appropriated.	21	192	1	600 00	9,600 00	10,000 00
<p>NOTE.—This estimate is for the care and preservation of the bridges between Davenport, Rock Island, and the island, and the road and causeway on the island connecting the bridges. It includes all ordinary repairs, but is mainly for expense of operating the draw, for which two sets of hands, consisting of engineer, fireman, and tender, are required. This work is difficult, and excellent men must be employed, and guards for maintaining order on the long bridges in their large use by the public. This extensive use also causes considerable wear and necessity for repairs.</p>							
<i>Augusta Arsenal, Augusta, Ga.—</i>							
Repairs of storehouses, magazines, quarters, barracks, hospital, fences, walks, roads, cisterns, well, &c.....	Submitted .....					3,000 00	
<i>Benicia Arsenal, Benicia, Cal.—</i>							
Machine and armorer's shop .....	Submitted .....				69,789 00		
<p>NOTE.—The carpenter's and blacksmith-shops are already completed. This shop is required to complete most of the work commenced in them. All repairs of arms, gun-carriages, and ordnance stores, &amp;c., for the States of California, Nevada, and Oregon, and for the Territories of Alaska, Arizona, Idaho, and Washington, are made here, and most of the ordnance supplies for the above-named divisions of our country, which contain an area of 1,235,974 square miles—in a word, more than one-third of the area of the whole territory of the United States—are issued from this arsenal.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Benicia Arsenal, Benicia, Cal.—Continued.</i>							
Two cisterns, to be filled from roofs of blacksmith's and carpenter's shops, each to hold 46,750 gallons	Submitted				\$5,539 00		
NOTE.—Water for use of post.							
One timber-shed, to be erected near new shops, for storing timber	do				2,500 00		
NOTE.—The old timber-shed is fully half a mile distant, and very much out of repair.							
Three new laboratory buildings	do				4,500 00		
NOTE.—The present ones are falling to pieces.							
Continuing repairs on present wharf, which were commenced last year	Appropriated	21	267	1	2,000 00		
NOTE.—The appropriation asked for last year for this purpose was \$7,000, and only \$5,000 was appropriated, so that we will only have funds to replace the most decayed portions of this wharf, and the above amount is asked for to complete it.							
Dredging in front of dock so that vessels can land	Submitted				2,500 00		
NOTE.—The sediment from hydraulic and alluvial washings from the valleys of the Sacramento and San Joaquin rivers has filled up the dock and the wharf. This wharf was extended out twenty-five feet only six years ago, and now there is as little depth of water at its terminus as there was before it was built out.							
Purchasing machinery for new machine-shop, shafting, pulleys, lathes, planers, slotting-machines, &c	do				5,600 00		
NOTE.—This machinery, shafting, pulleys, lathes, and planers are necessary for the work of this arsenal.							
To build a freight-house along the side-track of the railroad on arsenal grounds, for shipping and receiving ordnance stores	do				1,000 00		
NOTE.—The Northern Railroad has built a side-track for the use of the Government on the arsenal grounds, and this freight-house is for shipping and receiving freight on the cars. The necessity for this will be apparent to all.							
Continuing boring the artesian well; or, if artesian water is procured, for putting down permanent iron pipe and turbine-wheel, to be run by flow of water, to pump up water to reservoir	Appropriated	21	267	1	9,800 00		
NOTE.—This well is 1,407 feet deep, and three streams of water have been struck at different depths. The water obtained from the lowest stream has been analyzed and found unfit for food. This stream should be shut off entirely, and the Government should use the stream obtained at the depth of 960 feet from the surface, or the well should be deepened until a pure stream of water is obtained, one which will run some feet above the surface of the ground. Whatever appropriation is made for this object should be excepted from the action of the law which compels disbursing officers to turn into the Treasury all unexpended balances of the different appropriations on hand at the close of the fiscal year. In this peculiar work, when people are working 1,407 feet from the point of the application of power, accidents are of frequent occurrence; care, time, and skill are required to repair their effects. In some instances a new tool has to be designed, proved, and manufactured to rectify an accident. The appropriation should be continuous until it is expended.							
Grading grounds	Submitted				10,600 00		
NOTE.—The difference of level in some places between different parts of the surface of the ground is 203 feet. The different benches or slopes should be shaped so as to present some uniformity without entirely destroying nature's work.							
Permanent repairs of post, repairing roads and buildings, sewers and drains, machinery, and fences, &c	do				5,000 00		
NOTE.—This is necessary at a new arsenal, and one destined to become an important one, to facilitate transportation and to secure the health of its residents.					118,828 00		
Reduction by Secretary of War					43,828 00	\$75,000 00	\$10,000 00
<i>Frankford Arsenal, Philadelphia, Pa.—</i>							
Repairs to buildings, fences, creek-wall, &c	Submitted				6,000 00		
New boilers and boiler-house	do				5,400 00		
NOTE.—The boilers at this arsenal have been in constant use since 1864, and are badly worn and defective. The public interest requires their replacement.						11,400 00	

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.*

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Indianapolis Arsenal, Indianapolis, Ind.—</i>							
Repairing and care and preservation of public buildings, fixtures therein; sewers, roads, and fences; and painting public buildings and enclosing fences .....	Submitted .....				\$2,750 00		
NOTE.—This expenditure is necessary for keeping in order the public buildings, fences, sewers, gas and water-fixtures, roads, grounds, &c.							
Building small blacksmith-shop .....	do .....				1,200 00		
NOTE.—This building is badly needed at the post for a smith's shop. The frame and log-shed now used for the purpose is unsightly, leaky, &c., and ought to be taken down and removed.							
Building sewer through arsenal grounds .....	do .....				2,500 00		
NOTE.—The building of this sewer is an absolute necessity. Sewerage from the Woodruff Place enters a small stream crossing the arsenal grounds near the N. C. O. quarters, situated near the northeast corner of the arsenal grounds, and during the heated term the stench rising therefrom is very offensive.							
<i>Kennebec Arsenal, Augusta, Maine—</i>							
Enlarging reservoir, laying supply and drain-pipes, and otherwise improving water-supply for post .....	Submitted .....				2,000 00		
General repairs of public buildings, grounds, sea-wall, &c. ....	do .....				2,000 00		4,000 00
<i>New York Arsenal, New York Harbor—</i>							
Taking up sea-wall and relaying it at low-water mark ...	Submitted .....				5,000 00		
NOTE.—Relaying the wing-wall of stone dock so as to permit roadway to wharf, and additional ground for skidding heavy ordnance and completing the arsenal front on this side.							
Painting buildings and fences .....	do .....				3,500 00		
NOTE.—The public buildings are sadly in want of paint.							
<i>Saint Louis Powder-Depot, Jefferson Barracks, Missouri—</i>							
Repairing barracks and quarters, magazines, roofs, gutters, slopes, drains, retaining-walls, coping, lighting grounds, &c .....	Submitted .....						5,000 00
<i>San Antonio Arsenal, San Antonio, Texas—</i>							
Constructing a new fence, 600 feet long, in front of the arsenal grounds, to consist of an 18-inch stone wall, 2 feet 8 inches high; work above ground, hammered-dressed, (dimension,) with 4-inch dressed coping, surmounted by an iron fence, with three wagon-roadway gates 14 feet wide, and one small gate 4 feet wide .....	Submitted .....				7,500 00		
NOTE.—The present fence is of wood, and requires constant repairs. True economy would be best observed in the construction of a permanent iron fence, and the appearance of the arsenal grounds would be greatly improved thereby.							
Purchase of about four acres of land, lying between the south side of the arsenal grounds and Arsenal street, a distance of about 125 feet .....	do .....				14,000 00		
NOTE.—In this connection attention is respectfully invited to previous recommendations for the purchase of this land, and to the recommendations as given in Executive Document No. 48, House of Representatives, Forty-second Congress, Third Session. The early acquirement of this property cannot be too strongly urged. The city is growing quite rapidly in this direction, and if the land is not soon purchased, at the price (\$14,000) named by the owner, it will most probably pass into the hands of various private purchasers, receive improvements, and its cost to the Government at some future time largely increased.							
Repairing and painting roofs, gutters, &c., of public buildings, fences, roads, walks, &c.; purchase of trees and shrubbery; and general repairs of the post .....	do .....				1,500 00		
NOTE.—In this hot, dry climate all buildings and dressed fencing require frequent repainting to insure their proper preservation. It is not thought a less sum than that asked for will be sufficient to keep the post in proper repair.							
Construction of a two-story stone warehouse, 43 feet by 155 feet .....	do .....				14,000 00		
NOTE.—The present storehouses are one-story wooden structures and of insufficient capacity—two of them (built by the Confederates during the war) are so rotten that they should be torn down. A commodious and fire-proof building for the storage of the valuable property kept here should be at once provided.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
<i>San Antonio Arsenal, San Antonio, Texas—Continued.</i>							
Construction of a shed for artillery carriages .....	Submitted .....				\$2,455 00		
NOTE.—The artillery carriages, caissons, &c., are at present parked out of doors, there being no building suitable or available for their shelter.							
Construction of one set of officers' quarters .....	do .....				8,000 00		
NOTE.—The only quarters for officers is a building built thirty years ago, originally poorly built and of poor material. It is very much out of repair and should be torn down and a new one built in its place. The commanding officer of this arsenal, being also chief ordnance officer of the department, should have an assistant to relieve him of the responsibility of money and property, so that he could be at liberty to make inspections at posts in the department at all times. A second set of quarters should therefore be provided.							
Reduction by Secretary of War .....					22,455 00		
						\$25,000 00	
<i>Vancouver Arsenal, Vancouver, Washington Territory—</i>							
Repairing and painting public storehouses, quarters, barracks, erecting temporary sheds, &c .....	Submitted .....					3,500 00	
<i>Watertown Arsenal, Watertown, Mass.—</i>							
Repair of roof to laboratory-building .....	Submitted .....				2,000 00		
4,500 feet of enclosing-fence, 50 cents per foot .....	do .....				2,250 00		
Repairing buildings, roads, drains, grounds, sea-wall, &c .....	do .....				5,000 00		
NOTE.—This amount is absolutely necessary to protect the public grounds and preserve the buildings, &c., from rapid decay.							
						9,250 00	
<i>Watervliet Arsenal, West Troy, N. Y.—</i>							
Preservation and repair of enclosing-wall, roads, buildings, and bridges, and repainting metal roof .....	Submitted .....					6,500 00	
NOTE.—The wall needs extensive repairs, a number of places requiring to be taken down and rebuilt. The buildings for some years past have had very little expended on them, therefore the whole of this sum will be required.							
<i>Sandy Hook Proving-Ground, Sandy Hook, N. J.—</i>							
Powder-magazine, to accommodate 2,500 barrels of powder, 60 feet by 30 feet, with drainage, embankments, exterior pavements, &c .....	Submitted .....				10,000 00		
NOTE.—It may be said that we are comparatively destitute at the proving-ground of storage facilities for powder, only a small extemporized storeroom being available. The habit has been to send to the proving-ground small supplies from time to time, as necessity demanded, from the small fort-magazines at Governor's Island. These latter have since been vacated by order of the War Department, and the only receptacles now at our command are the wooden extemporized shelters at Fort Lafayette. There are now stored at that place about 1,000 barrels of good powder, and 4,300 barrels of damaged and unsuitable powder, for sale. The same grave causes which led to the removal of the powders from Governor's Island demand the removal of our powder from Fort Lafayette, to wit, the dangers to the inhabitants in that locality contingent on the storage of large quantities of explosive materials in their midst. These dangers cannot be over-rated, and sound policy and good judgment should dictate the removal of our powders from Fort Lafayette as soon as storage can be provided elsewhere in the harbor of New York. Sandy Hook is our only resource. It is open to the objection of being a damp location, but no more so than Fort Lafayette; and it is not obnoxious to the prime necessity of keeping powder away from thickly-inhabited locations. The storage of powder to some extent in New York harbor, is a necessity for temporary wants and for proving-ground purposes; and \$10,000 will be well expended in providing for what has been felt as a necessity since the proving-ground was established.							
Building for storage purposes at the proving-ground .....	do .....				2,500 00		
NOTE.—A building for the storage of field-cannon and gun-carriages, tools, and other stores, required for use at the proving-ground, is requisite and should be provided. No provision whatever is now made for storage purposes.							
Clearing, levelling, grading, and building roads and walks at the proving-ground .....	Appropriated .....	21	267	1	5,000 00		
NOTE.—For target-ranges at the proving-ground. These will extend nearly four miles down the beach and will require considerable work. Plank-roads, with railroads, should be built to save expense and time in communicating from place to place on the grounds.							
Erecting small shed on wharf, and for necessary repairs to wharf, targets, butts, bomb-proofs, &c., telegraphic appliances, &c .....	Submitted .....				5,000 00		
Expenses of repairs and alterations of buildings .....	do .....				2,000 00		
						24,500 00	
NOTE.—\$5,000 was appropriated by the act of June 16, 1880, (21 Statutes, page 267.) for "cleaning, levelling, grading, and building roads and walks at the proving-ground;" and the item is included in the sum appropriated, \$405,000, under the title "Armament of Fortifications," in the estimates for the Military Establishment, on page 80.							

## Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Washington Aqueduct—Continued.</i>							
Building an overfall over the connecting conduit for the waste-channel of the receiving-reservoir.....	Submitted				\$2,000 00		
Continuing the macadamizing of the conduit road.....	Appropriated.	18	404	1	10,000 00		
Total .....							\$116,000
NOTE.—The construction of a dam at Great Falls, for commencement of which the above estimate for \$50,000 is submitted, is indispensable to the increase of supply of water, which is already insufficient, and may be expected to be more and more inadequate in the near future. The other five "submitted" items, amounting in all to \$36,000, are necessary to the good condition of the aqueduct, and the last item, \$10,000, is necessary for continuing work heretofore appropriated for. The act of June 11, 1878, providing a permanent form of government for the District of Columbia, (20 Stats., page 104,) specifies that the estimates for the "Expenses of the Washington aqueduct and its appurtenances" be submitted by the Commissioners of the District of Columbia.							
<i>Building for State, War, and Navy Departments—</i>							
Continuing the construction of the north wing, to cover inside iron-work; plumbing and gas-fitting; granite stairs; heating apparatus; plastering and stucco-work; materials for approaches; lumber for doors, sash, and flooring; labor and contingencies.....	Appropriated.	21	268	1	450,000 00

Compensation of one hundred and ninety-six keepers of life-saving and life-boat stations and houses of refuge, at \$400 each .....	do .....					78,400 00	
Pay of crews of experienced surfmen employed at the life-saving and life-boat stations, during the period of actual employment; compensation of volunteers at life-saving and life-boat stations for actual and deserving service, rendered upon each occasion of disaster, at such rate, not to exceed \$10 for each person, as the Secretary of the Treasury may determine; pay of volunteer crews for drill and exercise; fuel for stations and houses of refuge; repairs and outfits for same; supplies and provisions for houses of refuge and for shipwrecked persons succored at stations; for purchase, hire, and keep of horses at stations where necessary; travelling expenses of officers under orders from the Treasury Department; and contingent expenses, including freight, storage, repairs to apparatus, medals, labor, stationery, advertising, and miscellaneous expenses that cannot be included under any other head of life-saving stations on the coast of the United States .....	do .....					509,000 00	
						\$599,900 00	\$537,860 00
<i>Establishing Life-Saving Stations—</i>							
Establishing new life-saving and life-boat stations on the sea and lake coasts of the United States .....	June 18, 1878 Appropriated.	20 21	163 261	1 1	} .....	20,000 00	20,000 00
Total Life-Saving Stations .....						619,900 00	557,860 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<b>REVENUE-CUTTER SERVICE.</b>							
<i>Expenses of Revenue-Cutler Service—</i>							
Pay of captains, lieutenants, engineers, cadets, and pilots employed, and for rations for the same; and for pay of petty officers, seamen, cooks, stewards, boys, coal-passers, and firemen, and for rations for the same; and for fuel for vessels; repairs and outfits for the same; ship-chandlery and engineers' stores for same; traveling expenses of officers travelling on duty under orders from the Treasury Department; instruction of cadets; commutation of quarters; and contingent expenses, including wharfage, towage, dockage, freight, advertising, surveys, labor, and miscellaneous expenses which cannot be included under special heads.....		R. S.	534	2749	}	\$875,000 00	\$850,000 00
		R. S.	534	2753-6			
Appropriated.	21	261	1				
NOTE.—Since the appropriation of last year was made there has been an increase of from fifteen to twenty per cent. in the cost of ship-chandlery, engineers' stores, rations, fuel, and other articles necessary to the vessels of the Revenue-Marine Service, making a greater increase in the expenditures for these items alone than the difference of \$25,000, named in the above estimate, over the amount appropriated for 1881. The current appropriation will be inadequate for the expenses of the service for the present fiscal year.							
<i>Constructing two Revenue-Steamers—</i>							
Construction of two revenue-steamers for duty on the southern coast of the United States.....	Submitted					150,000 00	
<i>Rebuilding Revenue-Steamer "William P. Fessenden"—</i>							
Rebuilding the revenue-steamer "William P. Fessenden" with iron hull.....	Submitted					75,000 00	
NOTE.—For explanation of the estimates for revenue-steamers, see Appendix, marked "P."							
Total Revenue-Cutter Service.....						1,100,000 00	850,000 00
<b>ENGRAVING AND PRINTING.</b>							
<i>Labor and Expenses of Engraving and Printing—</i>							
Labor and expenses of engraving and printing, namely: For labor, (by the day, piece, or contract,) including labor of workmen skilled in engraving, transferring, plate-printing, and other specialties necessary for carrying on the work of engraving and printing notes, bonds, and other securities of the United States, the pay for such labor to be fixed by the Secretary of the Treasury at rates not exceeding the rates usually paid for such work; and for other expenses of engraving and printing notes, bonds, and other securities of the United States; for materials other than paper required in the work of engraving and printing; for the purchase of engravers' tools, dies, rolls, and plates; for machinery and repairs to the same; and for expenses of operating macerating-machines for the destruction of the United States notes, bonds, national-bank notes, and other obligations of the United States authorized to be destroyed.....		R. S.	706	3575-7	}	\$425,000 00	\$375,000 00
		R. S.	706	3575-7			
Appropriated.	21	261	1				
NOTE.—The appropriation of \$375,000 for this object for the fiscal year 1881, includes the appropriation for distinctive paper. (For explanation of the above estimate, see Appendix, marked "Q.")							
Total Engraving and Printing.....						425,000 00	375,000 00
<b>LIGHT-HOUSE ESTABLISHMENT.</b>							
<i>Salaries of Keepers of Light-houses—</i>							
Salaries, fuel, rations, rent of quarters where necessary, and similar incidental expenses of one thousand and fifteen light-keepers and fog-signal keepers.....		R. S.	908	4673	}	\$585,000 00	\$565,000 00
		R. S.	908	4673			
Appropriated.	21	261	1				
NOTE.—Increase of \$20,000, made necessary by increased number of lights established by law. (See Appendix, marked "R.")							
<i>Expenses of Light-vessels—</i>							
Seamen's wages, rations, repairs, salaries, supplies, and incidental expenses of thirty-one light-ships.....	Appropriated.	21	262	1		240,000 00	240,000 00
NOTE.—The Light-house Board submits an increase of \$10,000 for this object for the fiscal year 1882. (See Appendix, marked "R.")							
<i>Expenses of Buoyage—</i>							
Expenses of raising, cleaning, painting, repairing, removing, and supplying losses of buoys, spindles, and day-beacons, and for chains, sinkers, and similar necessities.....	Appropriated.	21	262	1		325,000 00	325,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Expenses of Fog-signals—</i>							
Repairs and incidental expenses in establishing, renewing, duplicating, and improving fog-signals and buildings connected therewith .....	Appropriated.	21	262	1	.....	\$60,000 00	\$50,000 00
NOTE.—Increase of \$10,000, required on account of the establishment of additional fog-signals by authority of Congress. (See Appendix, marked "R.")							
<i>Inspecting Lights—</i>							
Expenses of visiting and inspecting lights and other aids to navigation, including rewards paid for information as to collisions .....	Appropriated.	21	262	1	.....	4,000 00	4,000 00
<i>Supplies of Light-houses—</i>							
Supplying the light-houses, beacon-lights, and fog-signals on the Atlantic, Gulf, Lake, and Pacific coasts with illuminating and cleansing materials, and such other materials as may be required for annual consumption, including the expenses of inspection and delivery of the same; for books and furniture for stations, and other incidental and necessary expenses .....	Appropriated.	21	262	1	.....	375,000 00	375,000 00
<i>Repairs of Light-houses—</i>							
Repairs and incidental expenses of light-houses and stations, for rebuilding, renovating, and improving the same, and buildings connected therewith; for the establishing and repairing of pier-head lights; and for the purchase and repair of illuminating apparatus and machinery .....	Appropriated.	21	262	1	.....	310,000 00	310,000 00
NOTE.—The Light-house Board submits an increase of \$90,000 for this object for the fiscal year 1882. (See Appendix, marked "R.")							
<i>Lighting and Buoyage of the Mississippi, Missouri, and Ohio Rivers—</i>							
Maintenance of lights and buoys on the Mississippi, Missouri, and Ohio rivers .....	Appropriated.	21	262	1	.....	140,000 00	140,000 00
NOTE.—The Light-house Board submits an increase of \$10,000 for this object for the fiscal year 1882. (See Appendix, marked "R.")							
<i>Survey of Light-house Sites—</i>							
Examination and survey of sites for proposed light-houses, and preparing plans for proposed structures .....	Appropriated.	21	263	1	.....	10,000 00	10,000 00
<i>Experiments with Illuminants—</i>							
Experimenting as to the relative merits of the electric light and other illuminants .....	Submitted				.....	50,000 00	
NOTE.—The Light-house Board desires to thoroughly test the question of the adaptation of the electric light to light-house illumination. To give practical results the experiments must be made in some light-house, and on a large scale. There are many machines for generating electricity, several of them of American invention, and it is desired to fully test the principal ones.							
<i>Expenses of Day-beacons—</i>							
Establishing, repairing, and supplying losses of day or unlighted beacons, (heretofore estimated for under the head of "Expenses of buoyage.") Submitted..\$25,000							
NOTE.—For explanation of estimates for the Light-house Establishment, see Appendix, marked "R."							
Total Light-house Establishment .....						2,099,000 00	2,019,000 00
COAST AND GEODETIC SURVEY.							
<i>Survey of the Atlantic and Gulf Coasts, Eastern Division—</i>							
For every purpose and object necessary for and incident to the continuation of the survey of the Atlantic and Gulf coasts of the United States, of the Mississippi and other rivers to the head of either tidal influence or of ship-navigation; soundings, deep-sea temperatures, dredgings, and current observations along the above-named coasts; in the Gulf of Mexico and Gulf stream, including its entrance into the Gulf, its course through the Caribbean and into and around the Sargasso Sea; the triangulation towards the Western coast and furnishing points for State surveys; the preparation and publication of charts, the Coast Pilot, the Magnetic Map of Eastern North America, and other results of the work, with the purchase of materials therefor, including compensation of civilians engaged in the work. )							
		R. S.	910	4681,	} \$300,000 00		
	Mar. 3, 1871	16	508	4691			
Appropriated.		21	263-4	1			
NOTE.—The Superintendent of the Coast Survey submits an increase of \$71,000 for this object for the fiscal year 1882. (See Appendix, marked "S.")							
Continuation of the resurvey of Delaware bay and river.	Appropriated.	21	264	1	10,000 00	\$310,000 00	\$310,000 00

July 11, 1862 Mar. 3, 1863 Appropriated	12 12 21	533 713 265	5 8 1	} 100,000 00		80,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Compensation in Lieu of Moieties—</i> Compensation in lieu of moieties in certain cases under the customs-revenue laws	June 22, 1874 June 16, 1880	18 21	186 265	3 1		\$50,000 00	\$50,000 00
<i>Salaries and Travelling Expenses of Agents at Seal-Fisheries in Alaska—</i>							
One agent	Mar. 3, 1875 Appropriated.	18 21	375 265	1 1	\$3,650 00		
One assistant agent	Same acts				2,920 00		
Two assistant agents, at \$2,190 each	Mar. 3, 1875 Submitted	18	375	1	4,380 00		
Necessary travelling expenses of agents in going to and returning from Alaska, at \$600 each per annum	Mar. 3, 1875 Appropriated. Submitted	18 21	375 265	1 1	2,400 00		
						13,350 00	7,770 00
<i>Protection of Sea-Otter Hunting-Grounds and Seal-Fisheries in Alaska—</i> To enable the Secretary of the Treasury to use revenue-steamers for the protection of the interests of the Government on the Seal islands, the sea-otter hunting-grounds, and the enforcement of the provisions of law in Alaska	Appropriated.	21	261	1		30,000 00	20,000 00
NOTE.—It appears from the reports of officers in command of revenue-steamers cruising to Alaska, among the Aleutian islands, and to the Arctic ocean, that the presence of a revenue-steamer in these waters is necessary to stop illicit traffic in fire-arms and spirituous liquors, and to prevent the extermination of the sea-otters and other animals which furnish subsistence to the natives. The amounts appropriated for these purposes hitherto have been found insufficient to meet necessary expenditures, and the sum now estimated for is believed to be no more than will be required for the purposes named for the fiscal year ending June 30, 1882.							
<i>Examination of Rebel Archives and Records of Captured Property—</i> To enable the Secretary of the Treasury to have the records of captured and abandoned property examined, and information furnished therefrom for the use and protection of the Government	Appropriated.	21	266	1		5,000 00	5,000 00
<i>Lands and other Property of the United States—</i> Custody, care, and protection of lands and other property belonging to the United States	Appropriated.	21	266	1		5,000 00	5,000 00
<i>Library of the Treasury Department—</i> Purchase of law-books and suitable books of reference for the library of the Treasury Department	Appropriated.	21	266	1		1,000 00	1,000 00
<i>Preparation of Receipts, Expenditures, and Appropriations of the Government—</i> To enable the Secretary of the Treasury to carry out the resolutions of the Senate of October sixteenth, eighteen hundred and seventy-seven, and January sixteenth, eighteen hundred and seventy-nine, in preparing for publication consolidated statements of the appropriations and expenditures of the War Department from March fourth, seventeen hundred and eighty-nine, to June thirtieth, eighteen hundred and seventy-six, and of the Indian Department from July sixteenth, seventeen hundred and ninety, to June thirtieth, eighteen hundred and seventy-eight; and for the work, in the office of the Secretary of the Treasury, pertaining generally to the preparation for publication of the receipts and expenditures and appropriations of the Government, for the use of Congress and the several Departments, to be immediately available	Appropriated.	21	243	1		5,000 00	5,000 00
<i>Distinctive Paper for United States Notes—</i> Paper, including mill expenses, transportation, examination, counting, and delivery	Submitted					81,000 00	
NOTE.—This amount is based upon an estimate that ten million sheets of paper will be required during the next fiscal year to replace worn-out, redeemed, and destroyed notes, and to bring up the reserve of notes to the amount required by the Treasurer of the United States.							
<i>North American Ethnology, Smithsonian Institution—</i> For the purpose of continuing ethnological researches among the North American Indians, under the direction of the Secretary of the Smithsonian Institution	Appropriated.	21	275	1		50,000 00	20,000 00
Total Miscellaneous Objects						1,493,280 00	1,291,370 00
Total Miscellaneous under Treasury Department						6,294,080 00	5,647,630 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

<b>Artillery School at Fortress Monroe, Va.—</b> To provide for text-books, drawing-materials, models, and material necessary in the science of engineering, and of artillery, stationery, and miscellaneous necessaries for the use of the school.....	Appropriated.	21	270	1	.....	\$9,359 20	\$5,000 00
NOTE.—For details of this estimate, see Appendix, marked "T."							
<b>Support of Military Prison at Fort Leavenworth, Kan.—</b>							
Subsistence stores for 375 prisoners, 365 days; 136,875 rations, at 15 cents per ration .....	May 21, 1874 June 16, 1880	R. S. 18 21	242 48 269,770	1344 to 1361 1 1	} \$20,531 25		
1,800 gallons lard-oil, at 70 cents per gallon, for illuminating purposes, 100 pounds of wicking, at 30 cents per pound, and for lamps and lanterns, (\$100).....						Same acts.....	
Tobacco for issue to prisoners on special and excessive hard labor.....	do.....					400 00	
Hay for prisoners' bedding, 40 tons, at \$8 per ton.....	do.....					320 00	
1,500 cords hard wood, at \$6 25 per cord, for making steam for heating and cooking purposes and running machinery.....	do.....					9,375 00	
Hose for fire-engine and water-tanks; for belting, machine-oil, and cotton-waste; and for extension and repair of steam circulation.....	do.....					1,200 00	
Stoves, stove-pipe, &c., in buildings not heated by steam.....	do.....					100 00	
Stationery and blank books for offices of governor, adjutant, and quartermaster.....	do.....					400 00	
Material for 300 suits citizens' clothing, at \$3 each; 300 citizens' hats, at 75 cents each; and for donations of \$5 each to 300 prisoners on discharge.....	do.....					2,625 00	
200 straw hats, at 25 cents each, and material for prisoners' clothing in summer.....	do.....					1,050 00	
Medical supplies.....	do.....					1,000 00	
20,000 paving-bricks, at \$10 per thousand, for lining cisterns and repaving walks, and for stone coping for prison-wall, none suitable being found on Government reservation.....	do.....					2,200 00	
Tools and materials in shops: Carpenter's, \$1,000; farrier's and blacksmith's, \$600; painter's, \$500; tinner's, \$100; harness, \$100; tailor's, \$100; shoe, \$100; wheelwright's, \$150; in laundry, \$150; brooms, scrub-brushes, &c., \$200; miscellaneous stores, drainage of grounds, disinfectants, &c., \$1,000.....	do.....					4,000 00	
Expenses in pursuit of and for apprehension and delivery of escaped prisoners.....	do.....					240 00	
Pay of two clerks—one in office of governor and disbursing officer, at \$150 per month, and one in office of prison quartermaster, at \$116 66 per month; two night-watchmen, at \$30 each per month, guarding grounds and property adjacent to prison; and five teamsters, at \$30 per month each, driving prison-teams.....	do.....					5,719 92	
Extra-duty pay to eight members of the prison-guard, at 20 cents per day each, in charge of working parties, and to one as clerk in office of prison adjutant, at \$10 50 per month.....	do.....					710 00	
Hire of foremen: One carpenter, one blacksmith, one engineer in charge of stationary engine and steam-heating apparatus, one engineer in charge of portable engine and machinery in shops, one quarryman, and one stone-mason, (six in all,) at \$100 per month each.....	do.....					7,200 00	
Construction and repair of prison-buildings.....	do.....					4,000 00	
NOTE.—It will be seen that the estimate calls for \$6,550 37 more than the amount appropriated for the current fiscal year. To explain this it may be stated that there will be a slight increase in the number of prisoners, and there is already, by the extension of the prison-buildings and shops, an increased demand upon the funds to supply tools and material. In the matter of hay and hard wood alone there has been an advance in price, so that the lowest bids obtained were at prices which will require \$1,075 more than was estimated for last year. An increased quantity will be required next year. The clothing for the prisoners is the old army clothing obtained from the Quartermaster's department. This has been found entirely unsuitable for the use of prisoners working in shops during hot weather. Lighter material will have to be purchased, and the clothing made at the prison. A slight increase in a number of other items makes up the difference stated, and the sum named for each item is based upon careful calculation by the officers of the prison of the amount which will be actually required for use during the year.						62,461 17	55,910 80
<b>Support of Transient Paupers—</b> Care, support, and medical treatment of seventy-five transient paupers, medical and surgical patients in the city of Washington.....	Appropriated.	21	270	1	.....	15,000 00	15,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Artificial Limbs—</i>							
Furnishing artificial limbs and appliances, or commutation therefor, and transportation	Aug. 15, 1876 Appropriated.	R. S. 19	929 203 270	4787, 4791 1, 2 1	}	\$200,000 00	\$250,000 00
<i>Appliances for Disabled Soldiers—</i>							
Providing surgical appliances for persons disabled in the military or naval service of the United States, and not otherwise specially provided for	Appropriated.	21	270	1		3,000 00	3,000 00
<i>Support of National Home for Disabled Volunteer Soldiers—</i>							
Current expenses, including construction and repairs at the Central branch, Dayton, Ohio	Mar. 3, 1875 Appropriated.	R. S. 21	937 18 360 20 270	4830 1 390 1	}	\$678,463 88	
Current expenses, including construction and repairs at the Eastern branch, near Augusta, Maine	Same acts						
Current expenses, including construction and repairs at the Northwestern branch, at Milwaukee, Wis.	do					136,408 00	
Current expenses, including construction and repairs at the Southern branch, at Hampton, Va.	do					126,722 00	
Out-door relief and incidental expenses	Mar. 3, 1879 Appropriated.	R. S. 21	937 20 270	4828 4833 1 1	}	15,000 00	
						1,119,205 13	1,033,560 83
NOTE.—The estimate for the fiscal year ending June 30, 1882, is larger than that for the fiscal year ending June 30, 1881: 1st. Because the number of beneficiaries to be supported by the appropriation in the first-mentioned year will be greater than that in the current year; and 2d. Because clothing of the beneficiaries was not included in the estimate for the current year, and is included in that for the year ending June 30, 1882.							
<i>Road from Fort Scott to the National Cemetery, Kansas—</i>							
Completion of roadway from Fort Scott, Kansas, to the national cemetery near that city, authorized by the act making appropriations for the sundry civil expenses for the fiscal year ending June 30, 1881, approved June 16, 1880	Appropriated.	21	267	1		5,500 00	5,500 00
<i>Military Road from Scottsburgh to Camp Stewart, Oregon—</i>							
Completion of permanent improvement of the road from Roseburgh to Jump-off-Joe creek, Oregon	Appropriated.	20	390	1		15,000 00

<b>Contingent Expenses of Land Offices—</b>							
Incidental expenses of the several land offices .....	June 16, 1880	21	273	1	\$100,000 00	\$93,500 00	
<small>NOTE.—The amount asked for under this head is intended to cover allowances for office-rent, clerk-hire, &amp;c., as well as for fees heretofore retained by the district officers, collected under sections 2238 and 2239, Revised Statutes, and not properly accounted for. Under the corrected practice all such fees must be covered into the Treasury, and will stand as an offset to this appropriation, which will be disbursed by proper account and requisition according to law, upon allowances for clerk-hire, rent, &amp;c., under the express authority of the Secretary of the Interior, previously obtained. There are nearly one hundred district offices already established by law, and others are liable to be created from time to time. The amount submitted will barely suffice to cover the proper and necessary allowances.</small>

Protection of timber on the public lands .....	June 16, 1880	21	273	1	75,000 00	40,000 00	
<b>Settlement of Claims for Swamp-Lands and Swamp-Land Indemnity—</b>							
Settlement of claims for swamp-land and swamp-land indemnity .....	June 16, 1880	21	273	1	20,000 00	15,000 00	
<b>Total Public Lands .....</b>					<b>825,500 00</b>	<b>571,300 00</b>	
<b>SURVEYING THE PUBLIC LANDS.</b>							
<small>NOTE.—The estimates for surveying the public lands in the several States and Territories for the fiscal year 1882, are submitted in detail. The appropriation for this service for the fiscal year 1881, was made in one amount of \$300,000.</small>							
<b>Surveying Public Lands in Louisiana—</b>							
At rates not exceeding \$12 per linear mile for township and meander lines, and \$10 for section lines .....	Appropriated.	R. S. 21	438 273	2395, 2413 1	\$20,000 00		
<small>NOTE.—\$20,000 is estimated for surveys and resurveys of public lands and private-land claims, the larger part of which is estimated for original township surveys in the southwestern district, and a part for resurveys where the original surveys of sixty years standing have become obliterated in the field, and the lands cannot be disposed of for want of corners, and consequent inability of settlers and others to describe the land desired to be entered.</small>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<i>Surveying Public Lands in Florida—</i>							
At rates not exceeding \$10 per linear mile for township, and \$8 for section lines.....	.....	R. S.	438	2395, 2413	} .....	\$5,000 00	
NOTE.—The \$5,000 is estimated for the completion of the public-land surveys in Florida.	Appropriated.	21	273	1			
<i>Surveying Public Lands in Minnesota—</i>							
At rates not exceeding \$12 per linear mile for standard and meander lines, \$10 for township, and \$8 for section lines.....	.....	R. S.	438	2395, 2413	} .....	25,000 00	
NOTE.—The \$25,000 is estimated for the extension of the public surveys in Minnesota over lands containing settlements and timber and for the extension of standard and exterior lines to reach settlements.	Appropriated.	21	273	1			
<i>Surveying Public Lands in Dakota—</i>							
At rates not exceeding \$12 per linear mile for standard and meander lines, \$10 for township, and \$8 for section lines.....	.....	R. S.	438	2395, 2413	} .....	40,000 00	
NOTE.—The \$40,000 is estimated for the survey of lands east of the Missouri river recently opened to market, also for surveys in the Black Hills, James and Red river recently opened to market, also for surveys in the Black Hills, James and Red River valleys, and along the line of the Northern Pacific railroad.	Appropriated.	21	273	1			
<i>Surveying Public Lands in Montana—</i>							
At rates not exceeding \$12 per linear mile for standard and meander lines, \$10 for township, and \$8 for section lines; and for heavily-timbered mountain-lands, at augmented rates, not exceeding \$16 for standard, \$14 for township, and \$10 for section lines.....	.....	R. S.	438	2395, 2413	} .....	25,000 00	
NOTE.—The \$25,000 is estimated as necessary principally to accommodate actual settlers.	Appropriated.	21	273	1			
<i>Surveying Public Lands in Nebraska and Iowa—</i>							
At rates not exceeding \$12 per linear mile for standard, \$10 for township, and \$8 for section lines.....	.....	R. S.	438	2395, 2413	} .....	35,000 00	
NOTE.—The \$35,000 is estimated for continuing the survey of standard lines, township exteriors, and subdivision lines over arable and timber-lands principally to accommodate actual settlers and others seeking homes in the northwestern part of the State.	Appropriated.	21	273	1			
<i>Surveying Public Lands in Colorado—</i>							
At rates not exceeding \$12 per linear mile for standard, \$10 for township, and \$8 for section lines; and for heavily-timbered lands, at augmented rates, not exceeding \$16 for standard, \$14 for township, and \$10 for section lines.....	.....	R. S.	438	2395, 2413	} .....	30,000 00	
NOTE.—The \$30,000 is submitted for the survey of arable, mineral, and timber-lands.	Appropriated.	21	273	1			
<i>Surveying Public Lands in Idaho—</i>							
At rates not exceeding \$12 per linear mile for standard and meander lines, \$10 for township, and \$8 for section lines; and for heavily-timbered lands, at augmented rates, not exceeding \$16 per linear mile for standard, \$14 for township, and \$10 for section lines.....	.....	R. S.	438	2395, 2413	} .....	20,000 00	
NOTE.—The \$20,000 is estimated for continuing the surveys to accommodate actual settlers.	Appropriated.	21	273	1			
<i>Surveying Public Lands in New Mexico—</i>							
At rates not exceeding \$12 per linear mile for standard, \$10 for township, and \$8 for section lines.....	.....	R. S.	438	2395, 2413	} .....	30,000 00	
NOTE.—The \$30,000 is estimated for the survey of agricultural and timber-lands needed for settlements by actual settlers.	Appropriated.	21	273	1			
<i>Surveying Public Lands in California—</i>							
At rates not exceeding \$12 per linear mile for standard and meander lines, \$10 for township, and \$8 for section lines; and for heavily-timbered mountain-lands, at augmented rates, not exceeding \$18 per linear mile for standard, \$16 for township, and \$14 for section lines..	.....	R. S.	438	2395, 2413	} .....	50,000 00	
NOTE.—The \$50,000 is chiefly estimated for surveys of standard lines, township exteriors, and subdivisions of lands settled upon, and of timber-lands.	Appropriated.	21	273	1			

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1881.
		Vol. or R. S.	Page.	Sec.			
<b>Establishment of Monuments for Mineral Surveys—</b> Establishing permanent monuments on unurveyable public lands in mineral districts, to connect them together and with the corners of mineral claims.....	Submitted.....				\$6,000 00		
NOTE.—The \$6,000 is estimated for the erection of permanent initial monuments in the mineral regions of the country, in order to secure accuracy of surveys of mineral claims, prevent conflicts in the surveys, and to construct connected diagrams of mining districts and lay them down on the maps of the respective surveying-districts.							
<b>Retracing and Reproduction of Worn and Defaced Official Township-Plats—</b> To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of surveys now on file and constituting a part of the records of said office, and also to furnish local land offices with same.	Appropriated.....	21	273	1	20,000 00	\$10,000 00	
NOTE.—The sum of \$20,000 is required to prevent a total obliteration of designations on official township-plats defaced and mutilated by constant use during a period of eighty years, thus rendering them unreliable in furnishing certified copies under the provisions of an act of Congress approved July 2, 1864, (Stats., vol. 13, page 375; R. S., sec. 461.)							
<b>United States Geological Survey—</b> Expenses of the geological survey and the classification of the public lands and examination of the geological structure, mineral resources, and products of the national domain, including pay of civilian employes.....	Mar. 3, 1879 June 16, 1880	20 21	394 274	1 1	400,000 00	156,000 00	
NOTE.—This estimate is made for a general amount which is intended to cover every purpose and object necessary for and incident to the continuation of the survey, including compensation of the Director, assistants, and other employes.							
<b>Total Surveying Public Lands.....</b>					<b>917,000 00</b>	<b>498,000 00</b>	
<b>MISCELLANEOUS OBJECTS.</b>							
<b>TENTH CENSUS.</b>							
<b>Expenses of Tenth Census—</b> Printing and engraving.....	Mar. 3, 1879 June 16, 1880	20 21	480 275	20 1	\$125,000 00	\$125,000 00	
NOTE.—For the salary of a deputy superintendent of census, \$3,000; for the salary of the chief clerk of the Census Office, \$2,500; for the salaries of nine chiefs of divisions, \$21,600. The same to be paid out of moneys already appropriated for the expenses of the Tenth Census by the act of June 16, 1880.							
<b>GOVERNMENT HOSPITAL FOR THE INSANE.</b>							
<b>Current Expenses, Government Hospital for the Insane—</b> Support, clothing, and treatment in the Government Hospital for the Insane, of the insane of the Army and Navy, Marine Corps, and Revenue-Cutter Service, and of all persons who have become insane since their entry into the military or naval service of the United States, and who are indigent, and of the indigent insane of the District of Columbia.....	Appropriated.....	R. S. 21	938 275	4838, 4858 1	196,875 00	143,000 00	
NOTE.—For explanation of this estimate, see Appendix, marked "N."							
<b>COLUMBIA INSTITUTION FOR THE DEAF AND DUMB.</b>							
<b>Current Expenses, Columbia Institution for the Deaf and Dumb—</b> Support of the institution, including salaries and incidental expenses, and five hundred dollars for books and illustrative apparatus, and two thousand five hundred dollars for general repairs, fifty-three thousand five hundred dollars.....	Appropriated.....	21	275	1	53,500 00	53,500 00	
NOTE.—For explanation of this estimate, see Appendix, marked "O."							
<b>FREEDMEN'S HOSPITAL AND ASYLUM.</b>							
<b>Freedmen's Hospital and Asylum, Washington, D. C.—</b> Subsistence..... Salaries and compensation..... Fuel and light..... Clothing, bedding, forage, transportation, and miscellaneous expenses..... Rent of hospital-buildings and grounds..... Medicines and medical supplies..... Repairs and furniture..... <b>SMITHSONIAN INSTITUTION.</b>							
<i>Preservation of Collections, Smithsonian Institution—</i>							
Preservation and care of the collections of the surveying and exploring expeditions of the Government.....	Appropriated.	21	276	1	.....	\$55,000 00	\$45,000 00
<i>Preservation of Collections, Armory Building—</i>							
Watching, care and storage of duplicate Government collections, and of property of the United States Fish Commission, Armory building .....	Appropriated.	21	276	1	.....	2,500 00	2,500 00
Total Miscellaneous Objects.....						474,675 00	410,800 00
Total Miscellaneous under Interior Department .....						2,217,175 00	1,480,100 00
<b>UNDER THE DEPARTMENT OF JUSTICE.</b>							
<b>MISCELLANEOUS.</b>							
<i>Expenses of Territorial Courts of Utah Territory—</i>							
Defraying the contingent expenses of the courts, including fees of United States district attorney and his assistants; the fees and per diems of United States commissioners and clerks of the courts, and the fees, per diem, and travelling expenses of the United States marshal for the Territory of Utah, with the expenses of summoning jurors, subpoenaing witnesses; of arresting, guarding, and transporting prisoners; of hiring and feeding guards; of supplying and caring for the penitentiary, arising under act of June 23, 1874, in relation to the courts and judicial officers in the Territory of Utah, for the fiscal year ending June 30, 1882; to be paid under the direction and order of the Attorney-General, upon accounts duly verified and certified .....	Appropriated.	21	278	1	.....	\$26,000 00	\$20,000 00
NOTE.—The sum of \$20,000 has been formerly appropriated and found inadequate; and the further sum of \$6,000 has been reappropriated to meet the deficiency.							
<i>Defending Suits in Claims against the United States—</i>							
Defraying the necessary expenses incurred in the examination of witnesses and procuring of evidence in the matter of claims against the United States and the District of Columbia pending in any Department, and for necessary expenses incurred in defending suits in the Court of Claims; to be expended under the direction of the Attorney-General .....	Appropriated.	21	277	1	.....	30,000 00	25,000 00
NOTE.—Owing to the increase of business resulting from claims against the District of Columbia, referred to the court by act of June 16, 1880, an increase of the appropriation of last year is deemed essential.							
<i>Prosecution and Collection of Claims—</i>							
Expenses to be incurred in the prosecution and collection of claims due to the United States, to be expended under the direction of the Attorney-General.....	Appropriated.	21	277	1	.....	3,500 00	2,500 00
NOTE.—Increase over last year's appropriation of \$1,000 is asked for, in consequence of probable heavy expenses in cases now pending.							
<i>Punishing Violations of Intercourse Acts, and Frauds—</i>							
Detecting and punishing violations of the intercourse acts of Congress, and frauds committed in the Indian service; the same to be expended by the Attorney-General in allowing such fees and compensation of witnesses, jurors, marshals, and agents, and in defraying such other expenses as may be necessary for this purpose.....	Appropriated.	21	277	1	.....	8,500 00	5,000 00
NOTE.—An addition of \$3,500 is asked for, because of the increased claims that are presented under this appropriation, arising from violations of intercourse acts with the various tribes of Indians.							
<i>Prosecution of Crimes—</i>							
Detection and prosecution of crimes against the United States; investigation of official acts, records, and accounts, and necessary clerical service incident thereto; to be disbursed under the direction of the Attorney-General .....	Appropriated.	21	277	1	.....	25,000 00	20,000 00
NOTE.—A more thorough investigation into accounts of officers of this Department being necessary, an additional estimate of \$5,000 to meet such expenses is needed.							
Total Miscellaneous under Department of Justice.....						93,000 00	72,500 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1882—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. Apr. 17, 1876	R. S.	725	3689	} 20,806,134 86	21,204,153 71	} 73,904,617 41
		19	33	2			
Indefinite appropriation of an amount equal to the interest on all bonds belonging to the sinking-fund, to be applied, as the Secretary of the Treasury shall from time to time direct, to the purchase or payment of the public debt .....	Apr. 17, 1876	R. S.	724	3688	} 20,833,705 34	18,597,730 77	}
		19	33	2			
NOTE.—The amount actually required for the sinking-fund cannot be accurately determined at the time the estimate is made, as it depends upon what the principal of the debt may be seven months subsequently. Changes are liable to occur in the outstanding amount represented by coin-certificates, certificates of deposit, and fractional currency—which are considered as a part of the debt—as also in the accrued interest which may be due on the bonds obtained for the fund.

APPENDIX

APPENDIX

# APPENDIX.

## APPENDIX A.

*Explanation of the estimates for Mints and Assay Offices. (See pages 25 to 27.)*

TREASURY DEPARTMENT,  
*Office of the Director of the Mint, Washington, D. C., October 1, 1880.*

SIR: I have the honor to transmit herewith estimates of appropriations for the support of this office, and the mints and assay offices of the United States, for the fiscal year ending June 30, 1882. I submit the following explanations in relation to certain increased appropriations asked for, viz:

### MINT AT PHILADELPHIA.

I have asked for this mint larger appropriations for wages of workmen and contingent expenses than the amount specifically appropriated for those purposes for the present year, but the sums I have named are less than the expenditures during the last fiscal year from the general appropriation, and appropriation for the coinage of standard silver dollars, and will be required should the coinage of gold and silver be continued at the present rate.

### MINT AT NEW ORLEANS.

The estimate for wages of workmen is \$5,000 above the amount appropriated for the current year, and will be required if the monthly coinage at that mint continues at the present rate.

### MINT AT DENVER.

The present and probable future increased deposits, and work at the Denver mint, in view of the expense of living in the mining regions, will require, in my judgment, the \$2,000 increase of the appropriation for wages of workmen I have estimated for.

### ASSAY OFFICE, NEW YORK.

I have submitted the restoration of the salary of the weigh-clerk to the compensation paid him prior to the reduction of \$250 in the last appropriation act. I have also asked for an increase of \$2,500 in the appropriation for wages of workmen. The large receipts of foreign coin and bullion deposited and exchanged for United States coin at New York entail additional labor and expense, and the importation of gold coin and bullion continues.

### ASSAY OFFICE AT CHARLOTTE, N. C.

The deposits of bullion at this office were last year four-fold greater than in recent previous years, and it is probable the expenses for labor and incidentals will require \$1,000 additional appropriation for those purposes.

Very respectfully,

HORATIO C. BURCHARD,  
*Director.*

Hon. JOHN SHERMAN,  
*Secretary of the Treasury.*

## APPENDIX B.

*Explanation of estimates for the Territory of New Mexico. (See page 29.)*

SIR: I hand you herewith estimates for legislative expenses for the year ending June 30, 1882. \* \* \* \* \*  
As a translator of the laws and journals has been annually paid ever since the organization of the Territory by appropriation for deficiency, if not out of the regular appropriation, I would suggest an appropriation of the usual amount paid therefor, to wit, \$800.

For interpreters, one to each house, sometimes allowed in the past, \$480.

In Territories where printing must needs be in both Spanish and English it would seem just that a discrimination be made in favor of said Territories by at least doubling the amount of the appropriation for printing. Such printing being indispensably necessary in New Mexico, I recommend an increase by adding thereto the sum of \$2,500.

It is also proper to add, as a fact, that where the proceedings of the legislatures are in mixed Spanish and English, as is the case in this Territory, the duties of the chief clerk are specially taxing and render the services of an additional clerk indispensable. I therefore earnestly recommend that an additional clerk be provided for each house over those provided in the act of June 19, 1878.

W. G. RITCH,  
*Secretary.*

Hon. SECRETARY OF THE TREASURY.

## APPENDIX C.

*In relation to the estimate for Printing Code of Washington Territory. (See page 30.)*

TERRITORY OF WASHINGTON,  
*Secretary's Office, Olympia, October 1, 1880.*

SIR: I have the honor herewith to enclose estimates for legislative expenses for the Territory of Washington for the fiscal year ending 30th June, 1882.

I would respectfully call your attention to the enclosed copy of letter from Gov. E. P. Ferry, and the certified copy of the act attached thereto.

Very respectfully, your obedient servant,

N. H. OWINGS,  
*Secretary.*

Hon. JOHN SHERMAN,  
*Secretary of the Treasury.*

TERRITORY OF WASHINGTON,  
*Executive Department, Olympia, September 20, 1880.*

SIR: The last legislative assembly having made provision for a codification of the laws of the Territory, I have the honor to request you to include, in your estimate of appropriations for the Territory for the fiscal year ending June 30, 1882, an amount sufficient to cover the cost of printing and binding the codes.

You are aware that the laws now in force governing our people are embraced in twenty-one volumes of session laws, many of them so scarce that an exorbitant price is asked for a single volume; that there has never been a codification or compilation of our laws; and that the codification provided for is indispensably necessary.

I have the honor to be, very respectfully, your obedient servant,

ELISHA P. FERRY,  
*Governor.*

Hon. N. H. OWINGS,  
*Secretary of the Territory of Washington, Olympia.*

AN ACT TO PROVIDE FOR THE CODIFICATION OF THE LAWS OF WASHINGTON TERRITORY.

SECTION 1. *Be it enacted by the Legislative Assembly of the Territory of Washington,* That Elisha P. Ferry is hereby appointed code commissioner of Washington Territory.

SEC. 2. The said code commissioner, herein appointed, is hereby authorized and required to collect and thoroughly revise and codify all the statute laws of the Territory of Washington, which are, or may be, in force at the close of the present session of the legislature. For this purpose it is hereby made the duty of said code commissioner so to group together all correlative and similar statutes, classifying and arranging the various subjects under appropriate titles, to bring together and correctly incorporate the various amendments into the original acts, rejecting all repealed, redundant, inoperative, and obsolete sections, laws, or parts of laws; and, furthermore, to make such alterations and amendments as shall reconcile all contradictions, correct and supply omissions in figures, letters, words, and sentences, and to do and perform all other needful acts as shall enable the said code commissioner effectually to reduce and bring into a written, intelligible, and systematic form, the statute laws of this Territory, and to make such additions as may be thought necessary for a complete and perfect code for the Territory of Washington.

SEC. 3. That it shall be the duty of the said code commissioner, in codifying and arranging the laws under proper parts, titles, divisions, and subdivisions, under the provisions of this act, to complete and perfect the same that such code of law shall be made to cover and embrace the whole body of substantive law of the Territory of Washington. The said code shall be arranged and presented by the said code commissioner under four general parts or divisions, substantially as follows:

1. The political code of Washington.
2. The civil code of Washington.
3. The code of civil procedure.
4. The penal code, embracing the code of criminal procedure.

SEC. 4. The said code commissioner is hereby authorized and empowered to prepare a brief syllabus to each of the several laws and subdivisional titles of laws in said codification, together with such concise and appropriate marginal notes for and to the various sections, as shall afford easy and ready reference to all distinctive points and subjects embraced therein; and, furthermore, to prepare such annotations or "foot-notes," furnishing references to decisions, and correcting seeming contradictions in the laws as shall be deemed useful and expedient.

SEC. 5. The laws so revised, codified, and arranged, shall, when published, be embraced in one or more volumes of convenient style, and shall be known as the "Washington Code," and no other title by legal reference shall be necessary for their designation.

SEC. 6. The said code commissioner shall, during the first ten days of the next biennial session of the legislature, A. D. 1881, submit to that body said code of laws in printed form. The said code commissioner shall receive such compensation for his services and other expenses incident to his labors and duties as such commissioner as the legislative assembly shall hereafter fix upon, to be paid out of the general fund of the Territory.

SEC. 7. Said code commissioner shall have power to employ a clerk, for a period not longer than twelve months, at a salary not exceeding seventy-five dollars per month, and the territorial auditor is hereby authorized to draw a warrant on the territorial treasury for the amount which the said commissioner may certify as due to said clerk for the service hereinbefore mentioned.

SEC. 8. Before entering upon his duties as provided in this act, the code commissioner shall take and subscribe to an oath, before the secretary, faithfully to perform the duties and obligations of said code commissioner. Should any vacancy occur in the office of commissioner from any cause, and before the commissioner shall have completed his labors, the governor of this territory is hereby authorized to fill such vacancy by appointment, and the person so appointed shall have full power and authority to act in fulfilment of the provisions of this act, and shall be subject to all the obligations and requirements herein imposed.

SEC. 9. This act to take effect and be in force from and after its passage.

Approved November 14, 1879.

#### APPENDIX D.

*Explanation of estimates for the Internal-Revenue Service. (See pages 30 to 34.)*

TREASURY DEPARTMENT,  
Office of Internal Revenue, Washington, November 5, 1880.

SIR: I respectfully call your attention to the subjoined explanation why the estimated expenses of the Internal-Revenue Service for the next fiscal year exceed the appropriations for the current fiscal year, namely:

##### SALARIES AND EXPENSES OF COLLECTORS AND DEPUTY COLLECTORS OF INTERNAL REVENUE.

The increase of distilling and other branches of industry, from which the internal revenue is derived, has largely augmented the revenues, and there is a corresponding increase of labor in the collection districts of the United States, which requires an additional force of deputy collectors and clerks, and which will necessarily increase the expenses of this branch of the service. To provide for this increase the estimate for the appropriation for next year is made \$100,000 greater than the appropriation for the current year.

##### SALARIES AND EXPENSES OF SUBORDINATE OFFICERS OF INTERNAL REVENUE.

The amount expended under this appropriation depends largely upon the number of distilleries that are operated in the country. This is a matter over which the Government cannot exercise control.

The appropriation for the year ending June 30, 1880, was \$1,500,000, and at the time the estimate for the year ending June 30, 1881, was made it was believed that \$1,700,000 would be sufficient, but in the latter part of the year ending June 30, 1880, there was a large number of new distilleries started in the South and West, which greatly increased the expenditure from this appropriation for the pay of storekeepers and gaugers.

This increase raised the expenses for the year 1880 to not less than \$1,958,221, which will render necessary deficiency appropriations for that year amounting to \$458,221.

The continued operation of said distilleries, with the natural increase in the same, will raise the expenses for the year ending June 30, 1881, to \$2,050,000, which will require a deficiency appropriation for the current year of \$350,000.

It is estimated that the natural increase in business will necessitate an appropriation for the coming year of \$2,100,000.

##### PUNISHMENT FOR VIOLATIONS OF THE INTERNAL-REVENUE LAWS.

This appropriation is used for the suppression of illicit manufacture of, and traffic in, spirits and tobacco, and in payment of rewards for information leading to the detection of other violations of internal-revenue laws.

For the last four years the appropriation has been \$75,000 each year.

There were deficiencies in the years 1878 and 1879, for which Congress has appropriated about \$25,000 for each year, and there is an existing deficiency for the year ending June 30, 1880, of several thousand dollars, for which a deficiency appropriation will be asked.

It is thought that the necessities of the service demand that \$100,000 should be placed at the disposal of the Department for the suppression of frauds. Exigencies may arise, especially in the Southern States, when it may become necessary to resort to this appropriation for the purpose of using extraordinary measures, and if the sum appropriated is inadequate, the revenue suffers and violators of the law go unpunished.

So much has been accomplished by what is believed to have been a judicious use of this appropriation, that it is earnestly hoped that the sum above named may be appropriated.

##### APPROPRIATION FOR DIES, PAPER, AND STAMPS.

The appropriation for the year ending June 30, 1880, was \$375,000. This was insufficient for the expenses of that year, and had to be supplemented by a deficiency appropriation of \$51,283 10, making an expenditure for that year of \$426,283 10.

The appropriation for the year ending June 30, 1881, was \$375,000, but it is now apparent that there will be a larger deficiency this year than there was last year, owing to the increased issue of stamps, requiring an increase in the expense for paper and printing.

The estimate for the year ending June 30, 1882, was intended to cover all the expenses, so far as they could be anticipated with calculations based upon the expenditure for the year 1880, and the increase in the issue of stamps, so as to avoid a deficiency, and it is believed that if the estimate is cut down a deficiency appropriation will be necessary.

Very respectfully,

H. C. ROGERS,  
Acting Commissioner.

Hon. JOHN SHERMAN,  
Secretary of the Treasury.

## APPENDIX E.

*Explanation of estimate for Land-Title Division, Office of Secretary of War. (See page 34.)*

WAR DEPARTMENT,  
Washington City, April 23, 1880.

The Secretary of War has the honor to transmit to the United States Senate a copy of a report prepared in compliance with his instructions by the chief of the correspondence division of this Department, relative to the subject of public lands, forts, arsenals, &c., in the custody of the War Department.

This report presents succinctly and with clearness the laws, decisions, and regulations governing the subject, and points to the inconvenience, delay, and error which, under the existing regulations, are liable to occur in the determining of questions that are constantly arising in regard to titles and other matters connected with these lands, forts, &c.

When it is considered that the lands occupied for military purposes, including forts, arsenals, armories, &c., and in the custody of the War Department, represent an estimated value of about \$200,000,000, it becomes clearly obvious that the public interests require that the transfer deeds and all other papers affecting the question of title, which are now scattered through several of the Department-bureau offices, should be collected, recorded, and filed, for safe and permanent preservation, in the office of the Secretary of War, and that there should be provided a system of record, exhibiting in detail all known facts connected with each piece or parcel of property, and of the action had by the Department, from time to time, in relation thereto, in order that all questions, as they arise, may be promptly and intelligently determined.

The Secretary of War, in the absence of legislation, is unable to inaugurate the desired measures, and, viewing the subject as one involving considerations of great import, respectfully and urgently recommends that legislation be had during the present session of Congress, creating in his office a division to be designated and known as the "Land-Title Division," and that provision be made for employés therein as follows, viz:

One chief of division, at an annual salary of .....	\$2, 500
One assistant chief of division, at an annual salary of .....	2, 000
One clerk of class four, at an annual salary of .....	1, 800
One draughtsman, at an annual salary of .....	1, 800
One clerk of class three, at an annual salary of .....	1, 600
One clerk of class one, at an annual salary of .....	1, 200
One assistant messenger, at an annual salary of .....	720

ALEX. RAMSEY,  
Secretary of War.

THE PRESIDENT OF THE UNITED STATES SENATE.

WAR DEPARTMENT,  
Correspondence Division, April 19, 1880.

MR. SECRETARY: In compliance with your instructions, I have the honor to report on the subject of the real estate in the custody of the War Department.

The law, decisions, and Army Regulations on this subject are, in part, as follows:

## LAW AND DECISIONS.

"No land shall be purchased on account of the United States, except under a law authorizing such purchase." (*Revised Statutes, section 3736; also paragraph 1058, Army Regulations, edition of 1863.*)

"No public money shall be expended upon any site or land purchased by the United States for the purpose of erecting thereon any armory, arsenal, fort, fortification, navy-yard, custom-house, light-house, or other public building, of any kind whatever, until the written opinion of the Attorney-General shall be had in favor of the validity of the title, nor until the consent of the legislature of the State in which the land or site may be to such purchase has been given," &c. (*Revised Statutes, section 355; paragraph 1059, Army Regulations, 1863, almost identical.*)

"From an early period of the history of the Government it has been the practice for the President to order, from time to time, as the exigencies of the public service required, parcels of land belonging to the United States to be reserved from sale and set apart for public uses, and the authority of the President is recognized in numerous acts of Congress." (*Grisar v. McDowell, 6 Wall., 381.*)

Reservations for forts, &c., in Oregon (including Washington and Idaho Territories) limited to 640 acres. (*Acts September 27, 1850, section 14, 9 Statutes, 500; and February 14, 1853, section 9, 10 Statutes, 159.*)

Once properly declared by the President, military reservations cannot be relinquished or otherwise disposed of without the sanction of Congress. (*Wilcox v. Jackson, 13 Peters, 513; 10 Opin., 365.*)

*Exception:* Military reservations in Florida set apart prior to August 18, 1856, when no longer required, can be relinquished by the Secretary of War to the Interior Department for disposition by the General Land Office. (*Act June 12, 1858, ch. 156, section 6, 11 Statutes, 336.*)

## ARMY REGULATIONS.

PARAGRAPH 1061. "Complete title papers, with full and exact maps, plans, and drawings of the public lands purchased, appropriated, or designed for permanent military fortifications, will be collected, recorded, and filed in the Bureau of the Corps of Engineers; of the public lands appropriated or designated for armories, arsenals, and ordnance depots, will be collected, recorded, and filed in the Ordnance bureau; of all other land belonging to the United States, and under the charge of the War Department, for barracks, posts, cantonments, or other military uses, will be collected, recorded, and filed in the office of the Quartermaster-General of the Army."

PARAGRAPH 1062. "A copy of the survey of the land at each post, fort, arsenal, and depot, furnished from the proper bureau, will be carefully preserved in the office of the commanding officer."

## RECAPITULATION.

From the foregoing it will be seen that lands are acquired by the War Department either by purchase or reservation of public land. When acquired they can be disposed of only with the consent of Congress, except lands in Florida set apart prior to August 18, 1856.

That the quantity of land that may be reserved for military sites is unlimited, except in the State of Oregon, and in Washington and Idaho Territories.

The regulations require title-papers, maps, plans, and drawings to be collected, recorded, and filed as follows:

For permanent military fortifications, Bureau of the Chief of Engineers.

For armories, arsenals, and ordnance depots, in the Ordnance Bureau.

All other lands for barracks, posts, cantonments, or other military uses, in the office of the Quartermaster-General.

Copy of the survey, in the office of the commanding officer.

The following statement shows the number of military posts, &c., at various periods of the Government:

Number of posts in 1802.....	27	} See letter of Secretary Calhoun, of December 11, 1818.
Number of posts in 1818.....	73	
Number of posts in 1860.....	154	} Memoranda, page 480, Burnside report on the reorganization of the Army.
Number of posts in 1878.....	212	
Number of posts occupied by troops in 1860.....	77	
Number of posts occupied by troops in 1878.....	146	
Number of arsenals in 1860.....	23	} Army Register for 1880.
Number of arsenals in 1878.....	18	
Number of posts occupied by troops in 1880.....	140	
Number of posts in charge of ordnance-sergeant in 1880.....	47	
Number of arsenals in 1880.....	18	
Number of recruiting-depots in 1880.....	3	
Number of Engineer depots in 1880.....	1	
Number of national cemeteries in 1880.....	78	
Total posts, &c.....	287	

This statement does not include a number of reservations for fortifications, a number of "abandoned" military posts now in charge of agents of the Quartermaster's department, also some property which has probably been lost sight of, as in the accompanying list of real estate purchased by the United States since July 4, 1776, and in the custody of the War Department, on the 14th of February, 1825, (House Ex. Doc. No. 92, 19th Congress, 1st session,) there are 198 pieces of property mentioned.

It is almost impossible to form an estimate of the value of this property. It probably aggregates more than \$200,000,000. General Benét, in a statement dated April 5, 1872, reported the value of arsenals and armories in 1821 as \$2,420,084, and the value of arsenals and armories on June 30, 1871, as \$11,301,621 78; and this includes but one-sixteenth of the posts reported in the present Army Register, without considering abandoned military posts and other real property.

There are a number of military reservations which are of no further use for military purposes, and every year the number increases.

It is the custom of the Secretary of War to report such cases to Congress as soon as they are brought to his notice, and ask for authority to transfer the reservations to the custody of the Secretary of the Interior for sale or disposition under the general land laws. As a rule, several years elapse before such authority is granted, and in the meantime trespassers come upon the reserves as soon as the troops leave, and when ejected they appeal to the Department to reinstate them in possession of land to which oftentimes they have no shadow of claim.

These claims are a source of constant annoyance, and in addition there is the expense of an agent to take care of each "abandoned" reservation. It would be a benefit to the public service if a general law were passed authorizing the Secretary of War to dispose of useless military reservations, either by sale or by transfer to the custody of the Department of the Interior for disposition under the general land laws, or in such other manner as Congress may provide.

The regulations for the preservation of the title-papers, &c., of reservations (Par. 1061, quoted above) should be amended so as to provide for a central office under the chief clerk of the War Department, where all such papers should be recorded, and preserved when completed. The present regulations provide that certain title-papers shall be filed in the bureaus, but it is often found necessary, when a question of title occurs, to search in several of the bureaus of the Department in order to collect the papers. Many of the original deeds are on file or of record in the office of the Secretary of War. Time, which is sometimes of vital importance, is thus consumed, and occasionally it happens that important papers are overlooked, as was the case in the Presidio Reservation, when, but for Mr. Crosby's memory, a very important survey would have been overlooked, and the title to the property been jeopardized.

Where such valuable property is concerned every precaution should be taken to guard against the loss of papers and to provide for their being duly recorded and preserved; and for this purpose there should be in the office of the Secretary of War a division of land records in which should be filed the title-papers, &c., of all lands in the custody of the War Department, as well as all other papers relating thereto. It should be the business of this division to see that all deeds are duly recorded, that the opinion of the Attorney-General as to the validity of title is obtained, that cession of jurisdiction is obtained when necessary, and that a plat of the site is filed. As rapidly as possible a history of each piece of property should be prepared, giving—

1st. Location.

2d. Description by metes and bounds; number of acres. If any changes, their character, and the authority therefor.

3d. Buildings—number, kind, condition, and what other improvements.

4th. A plat of the site.

5th. How and when acquired; whether by purchase or reservation of public lands.

6th. Whether or not such possession has been continuous, giving facts.

7th. If reserved public land, whether prior to occupancy by War Department there were settlements on the land, and, if so, what action has been taken relative thereto.

8th. If located within a State, has jurisdiction been ceded to the United States; give date of act of cession, and see that a duly certified copy of the act is on file. In cases where there is a general land law of a State ceding jurisdiction over land purchased for military purposes, cite the act.

9th. If purchased, give date of opinion of Attorney-General as to validity of title.

10th. Whether the land is still required by the War Department.

Such a division should have a chief whose pay should equal the pay of a chief of division in the office of the Secretary of the Treasury. As it will be necessary for the chief to be absent at times investigating cases, there should be an assistant chief. There should also be a draughtsman, and, say, one clerk of the fourth class, one third-class clerk, one first-class clerk, and one messenger. This force would be needed at first to bring up the records to date; then probably the force could be diminished.

Very respectfully, your obedient servant,

JOHN TWEEDALE,  
*Chief of Division.*

The Hon. SECRETARY OF WAR.

#### APPENDIX F.

*Explanation of the estimates of the Commissioner of Pensions. (See page 46.)*

DEPARTMENT OF THE INTERIOR,  
*Pension Office, Washington, D. C., October 6, 1880.*

SIR: I have the honor to transmit herewith the estimates for the clerical force and contingent expenses of the Pension Office for the year ending June 30, 1882. It will be observed that I have recommended a slight increase in the total amount of the salary fund over that for the year ending June 30, 1881. The business of the office is much greater than can be promptly transacted with the force provided for the current year, or that estimated for 1882, but the number of clerks employed under the current appropriation is as great as can be accommodated in the building now occupied by the bureau, having proper regard for the health and comfort of the persons employed. Any considerable increase in the number would involve the necessity of dividing the office-force and locating a portion elsewhere, and this again would involve the necessity of dividing the records and files, which, at present, is impracticable. Upon the completion of the new record, which is being prepared, it may then be practicable to divide the force and the records and files, and largely increase the number of persons employed. I have recommended that the number of higher-grade clerks be considerably increased, because the higher salaries will enable the Secretary of the Interior to employ a class of clerks better qualified for the important duties pertaining to the settlement of cases.

The duties devolving upon the chiefs of divisions, appeal-clerk, chief clerk, and Deputy Commissioner of Pensions, are very arduous and responsible, and it is recommended that their salaries be increased to make them equal with the salaries of officers of similar rank in other Departments, and whose duties are neither more arduous nor more important and responsible. The increase recommended for the office of the Commissioner of Pensions, when the character and responsibilities of the duties are considered, is, in my opinion, proper. It is certain that no civil officer of rank below that of a Cabinet minister is charged with greater responsibility or more delicate and important duties, or who is compelled to devote more hours to their performance.

The increased amount recommended for contingent expenses was made necessary by the great increase in the business of the office, and by the additional item included for the engraving and printing of pension-checks, this alone requiring an addition of about (\$9,000) nine thousand dollars.

Very respectfully,

J. A. BENTLEY,  
*Commissioner.*

Hon. ALONZO BELL,  
*Acting Secretary of the Interior.*

#### APPENDIX G.

*Explanation of the estimates of the Commissioner of Patents. (See pages 46 to 48.)*

DEPARTMENT OF THE INTERIOR,  
*United States Patent Office, Washington, D. C., September 30, 1880.*

SIR: I have the honor to transmit herewith the usual estimates in duplicate for this office for the year commencing July 1, 1881, and ending June 30, 1882. In doing so, I have the honor to append the following statement in explanation of certain changes proposed, involving an increase in the aggregate expenditures over the appropriations for the present fiscal year:

In estimating for the examining force, I have taken the number provided for in the second edition of the Revised Statutes, to wit, twenty-six principal examiners, twenty-four first, twenty-four second, and twenty-four third assistant examiners, as the number authorized by law. This, however, is one more of each of the class of examiners than was provided for in the appropriation bill of June 15, 1880, which is for the present fiscal year. I have also submitted estimates for two additional assistant examiners of each grade, which makes an aggregate increase of ten persons over the number now provided for. This increase is made necessary by reason of the natural growth of the patent business, and accumulation of the material which enlarges the field of examination in a given case.

I have also submitted estimates for three chiefs of divisions, which will enable me to consolidate a large number of independent divisions, and thereby simplify the transaction of business within the office and with the public, as well as secure dispatch of business and obviate the liability of the propagation of errors. With these chiefs and the consolidation proposed, the same amount of work can be done at less expense than it is done under the present system, because a number of those now in charge of small divisions, whose time is principally taken up in directing, may be relieved or put to work in executing that which, under the present system, is ordered by themselves. By having these chiefs of divisions, one of the fourth-class clerks now provided for by law may be dispensed with.

There are a number of important places in this office which require superior clerks, and those of considerable experience, and in order to give them proper compensation for their services, and to provide for them, I have submitted an estimate for two additional third-class clerks.

I find, upon careful consideration, that a revision of salaries would be advantageous, and would enable me to pay clerks more in accordance with the character and amount of work performed. I have, therefore, submitted estimates for nine clerks of class two, instead of nineteen, as now provided by law, and for fifteen clerks of class one, beyond what is now provided for. I have also provided, in the estimate submitted, for three draughtsmen at \$1,000, one draughtsman at \$900, and three tracers at \$720, an apparent increase over the force provided for in the appropriations for the present fiscal year. These persons, however, are actually employed, and are being paid out of the appropriation of \$30,000 for "photo-lithographing, or otherwise reproducing copies of drawings destroyed or damaged by fire or otherwise exhausted, including pay of temporary draughtsmen."

In furtherance of readjusting the salaries, and by reason in part of the increase of clerks of class one, I have estimated for sixty copyists at \$900 each, instead of eighty-five now provided by law.

Under the Revised Statutes this office is entitled to eight model attendants at \$1,000, and eight at \$900 each. The last appropriation bill, however, provided for ten only at \$800 each. By reason of the fact that the new halls (north and west) are about completed, the service will require an increase in the number of model attendants, and I have submitted estimates for five model attendants at \$1,000 each, and ten at \$800. This is an increase of five over the present force, and the increase in salary will enable me to give to the more valuable attendants a remuneration adequate to the duties they perform.

I have submitted estimates for thirty laborers at \$720 each, whose duties will be principally that of copyists.

I have also submitted estimates for an increase of fifteen laborers at \$660 each, and for an increase of twenty laborers at \$480 each.

By reducing the estimates in some of the higher grades and increasing them in the lower grades, it will provide for an increase in the aggregate number of persons employed at this time of 17, the number now on our rolls being 409.

The appropriation for the present fiscal year provides directly for only 369 employes for this office. The requirements of this office have been such that it has been necessary to appoint a much larger number in order to be able to conduct and dispatch the business. In order to do this and remain within the aggregate of the appropriation, a large number of persons have been employed on very low salaries. In the estimates which I have submitted, I have contemplated the employment of just that number of persons which are actually needed for the proper and effective discharge of the business of the office, and for such compensation as I think should be given to the persons so employed.

The natural increase in the amount of labor required to transact the business of this office is much greater than the proposed increase of force, but by providing for reorganization and readjustment of salaries, I believe that the estimates are sufficient to provide all the necessary force.

The estimate for the Official Gazette is \$5,000 greater than was provided in this year's appropriation, but is believed to be necessary to secure the best work practicable.

The appropriation for photo-lithographing the current issues, which has been \$35,000 annually for some years past, has always fallen short of the required amount. I have, therefore, estimated for \$40,000 for this purpose.

Very respectfully, your obedient servant,

E. M. MARBLE,  
*Commissioner of Patents.*

Hon. C. SCHURZ,  
*Secretary of the Interior.*

#### APPENDIX H.

*Statement of Disbursements for Salaries, Department of Agriculture, for the fiscal year ending June 30, 1880. (See page 57.)*

DEPARTMENT OF AGRICULTURE,  
*September 30, 1880.*

In compliance with an act of Congress, approved June 19, 1878, I present herewith a detailed statement of the manner of the expenditure of the sum of sixty-six thousand nine hundred dollars appropriated for salaries in the Department of Agriculture for the fiscal year ending June 30, 1880:

Name.	Amount.	Name.	Amount.
Wm. G. Le Duc	\$3,000 00	Edward G. Randall	\$165 00
A. E. Carman	1,900 00	T. B. McFalls	480 00
J. Henry Comstock	1,900 00	John Dugan	599 80
Peter Collier	1,900 00	Frank W. Hunt	300 00

WM. G. LE DUC,  
U. S. Commissioner of Agriculture.

APPENDIX I.

Statement of the Purchase and Distribution of Seeds, Plants, &c. (See page 58.)

The annexed report exhibits the place, quantity, and price of seeds, plants, &c., purchased, and the date of purchase, as provided in the act of June 21, 1879, making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1880, and for other purposes:

Date.	Name.	Residence.	Article.	Variety.	Quantity.	Cost.	Amount.	Voucher.
1880—Feb. 18	S. M. Tracy	University of Missouri.	Artichokes		268 bushels	75 cts. per bu.	\$201 00	45
June 30	N. W. Burchell	Washington, D. C.	Almonds	California	111 pounds	28 cts. per lb.	31 08	37
1879—Dec. 10	B. K. Bliss & Sons	New York City	Asparagus-roots	Defiance	1 package		20 00	52
Dec. 10	Peter Henderson & Co.	do.	do.	do.	5,400		162 00	54
Dec. 10	do.	do.	Asparagus-seed	do.	20 pounds	\$10 per lb.	200 00	54
Dec. 26	B. K. Bliss & Sons	do.	do.	do.	10 pounds	\$8 50 per lb.	85 00	75
Oct. 21	Hiram Sibley & Co.	Rochester, N. Y.	Beans	Golden wax	100 bushels	\$4 50 per bush.	450 00	23
Nov. 12	George S. Haskell & Co.	Rockford, Ill.	do.	Black wax, dwarf	25 bushels	\$3 25 per bush.	81 25	28
Nov. 12	do.	do.	do.	Golden	25 bushels	\$4 25 per bush.	106 25	28
Dec. 10	David Landreth & Sons	Philadelphia, Pa.	do.	White valentine	20 bushels	\$5 per bush.	100 00	53
Dec. 10	do.	do.	do.	South prolific	10 bushels	\$12 per bush.	120 00	53
Dec. 26	B. K. Bliss & Sons	New York City	do.	Crystal wax	6 bushels	\$8 per bush.	48 00	75
Dec. 31	David Landreth & Sons	Philadelphia, Pa.	do.	Sweet	10 bushels	\$6 per bush.	60 00	92
1880—April 15	John E. F. Carlin	Washington, D. C.	do.	do.	20 quarts	12½ cts. per qt.	2 50	10
1879—Sept. 30	David Landreth & Sons	Philadelphia, Pa.	Beet.	Egyptian, dark red	100 pounds	30 cts. per lb.	55 00	10
Sept. 30	do.	do.	do.	Half-long blood	100 pounds	30 cts. per lb.	30 00	10
Sept. 30	do.	do.	do.	Silesian sugar	100 pounds	25 cts. per lb.	25 00	10
Sept. 30	do.	do.	do.	Imperial	100 pounds	35 cts. per lb.	35 00	10
Nov. 12	George S. Haskell & Co.	Rockford, Ill.	do.	During's blood, extra	100 pounds	35 cts. per lb.	35 00	28
Dec. 10	Peter Henderson & Co.	New York City	do.	Blood turnip	100 pounds	30 cts. per lb.	30 00	54
Dec. 26	James J. H. Gregory	Marblehead, Mass.	do.	Bast's early turnip	100 pounds	65 cts. per lb.	65 00	77
1880—Mar. 20	M. Clark	New York City	do.	Golden ovid mangel	110 pounds	15 cts. per lb.	16 50	72
1879—Dec. 30	George F. Drew	Tallahassee, Fla.	Beggar-seed		150 bushels	\$1 25 per bush.	187 50	84
Dec. 12	H. M. Wood	Live Oak, Fla.	do.		90½ bushels	\$1 50 per bush.	135 75	58
Dec. 19	do.	do.	do.		100 bushels	\$1 50 per bush.	150 00	65
Dec. 30	Samuel Wilson	Mechanicsville, Pa.	Broom-corn	California	60 bushels	\$3 per bush.	180 00	83
Dec. 10	Peter Henderson & Co.	New York City	Bulbs	Miscellaneous	1,200		425 00	54
Sept. 30	David Landreth & Sons	Philadelphia, Pa.	Cabbage	Bloomdale early market	100 pounds	\$2 per lb.	200 00	10
Sept. 30	do.	do.	do.	Early dwarf flat Dutch	100 pounds	\$2 20 per lb.	220 00	10
Sept. 30	do.	do.	do.	Early drumhead	20 pounds	\$3 per lb.	60 00	10
Nov. 12	George S. Haskell & Co.	Rockford, Ill.	do.	Jersey Wakefield	50 pounds	\$3 per lb.	150 00	28
Dec. 10	David Landreth & Sons	Philadelphia, Pa.	do.	Landreth's large York	50 pounds	\$1 40 per lb.	70 00	53
Dec. 10	do.	do.	do.	Curled Savoy	50 pounds	\$2 per lb.	100 00	53
Dec. 10	Peter Henderson & Co.	New York City	do.	Early Jersey Wakefield	100 pounds	\$2 50 per lb.	250 00	54

Statement of the Purchase and Distribution of Seeds, Plants, &c.—Continued.

Date.	Name.	Residence.	Article.	Variety.	Quantity.	Cost.	Amount.	Voucher.

## APPENDIX L.

Recapitulation of the estimates for Indian Service, as furnished by the Indian Office. (See pages 99–115.)

## APPROPRIATED FOR THE FISCAL YEAR ENDING JUNE 30, 1881.

Current expenses, salaries, &c .....	\$203,500 00
Fulfilling treaties with and support of Indian tribes .....	2,489,720 76
General incidental expenses, Indian service .....	182,500 00
Trust-funds .....	99,218 00
Miscellaneous supports .....	1,160,100 00
Miscellaneous .....	400,500 00
	<hr/>
	4,535,538 76

## ESTIMATES FOR THE FISCAL YEAR ENDING JUNE 30, 1882.

Current expenses, salaries, &c .....	\$243,500 00
Fulfilling treaties with and support of Indian tribes .....	2,525,348 80
General incidental expenses, Indian service .....	204,000 00
Trust-funds .....	99,218 00
Miscellaneous supports .....	1,281,300 00
Miscellaneous .....	505,500 00
	<hr/>
	4,858,866 80

## AMOUNTS APPROPRIATED FOR 1881, NOT EMBRACED IN ESTIMATES FOR 1882.

Amount dropped: estimate for pay of agent at White River, Colorado .....	\$1,400 00
Amount dropped: estimate for pay of interpreter at White River, Colorado .....	300 00
Amount dropped: under fulfilling treaty with Klamaths and Modocs, on account of expiration of treaty stipulations .....	8,600 00
Amount dropped: under fulfilling treaty with Menomonees, on account of expiration of treaty stipulations .....	16,179 06
Amount dropped: under fulfilling treaty with Shoshones and Bannocks, on account of expiration of treaty stipulations .....	20,000 00
Amount dropped: estimate in part under support of Flatheads, &c .....	500 00
	<hr/>
	46,979 06

## AMOUNTS EMBRACED IN THE ESTIMATES FOR 1882, NOT APPROPRIATED FOR 1881.

Increase submitted for pay of Indian agents .....	\$11,200 00
Increase submitted for pay of seventy-five interpreters, at \$200 each per annum .....	15,000 00
Increase submitted for additional payment to said interpreters .....	1,000 00
Amount submitted for pay of special interpreters .....	1,000 00
Increase submitted for travelling expenses of Indian inspectors .....	1,000 00
Increase submitted under buildings at agencies, and repairs .....	10,000 00
Increase submitted under contingencies, Indian Department .....	2,500 00
Increase submitted for support of Kickapoo Indians .....	3,000 00
Increase submitted under support of Sioux of different tribes, including Santee Sioux of Nebraska .....	65,000 00
Increase submitted under support of Sioux, Yankton tribe .....	12,407 10
Increase submitted for support of Arapahoes, Cheyennes, Apaches, &c .....	45,000 00
Increase submitted for support of Arickarees, Gros Ventres, and Mandans .....	10,000 00
Increase submitted for support of Chippewas of Lake Superior .....	3,200 00
Increase submitted for support of Chippewas on White Earth reservation .....	5,000 00
Increase submitted for support of Indians of Central Superintendency .....	2,000 00
Increase submitted for support of Indians in Idaho .....	10,000 00
Increase submitted for support of Kansas Indians .....	2,000 00
Amount submitted for support of Klamaths and Modocs .....	7,500 00
Amount submitted for support of Menomonee Indians .....	10,000 00
Increase submitted for support of Modocs in Indian Territory .....	2,000 00
Increase submitted for support of Nez Percés of Joseph's band .....	5,000 00
Amount submitted for support of Shoshones in Wyoming .....	20,000 00
Increase submitted for incidental expenses Indian service in Arizona .....	4,000 00
Increase submitted for incidental expenses Indian service in California .....	3,000 00
Increase submitted for incidental expenses Indian service in Idaho .....	1,000 00
Increase submitted for incidental expenses Indian service in Nevada .....	1,500 00
Increase submitted for incidental expenses Indian service in New Mexico .....	2,000 00
Increase submitted for incidental expenses Indian service in Oregon .....	4,000 00
Increase submitted for incidental expenses Indian service in Utah .....	1,000 00
Increase submitted for incidental expenses Indian service in Washington .....	5,000 00
Increase submitted for pay of Indian police .....	30,000 00
Increase submitted for support of schools not otherwise provided for .....	25,000 00
Increase submitted for transportation of Indian supplies .....	50 000 00
	<hr/>
	370,307 10

Amount of present estimate for 1882 .....	\$4, 858, 866 80
Amount appropriated for 1881 .....	4, 535, 538 76
Difference .....	323, 328 04
Amount embraced in the present estimate, not appropriated for 1881 .....	\$370, 307 10
Amount appropriated for 1881, and not embraced in the present estimate .....	46, 979 06
Agreeing with the difference between the amounts appropriated for 1881, and these estimates .....	323, 328 04

APPENDIX M.

*Explanation of the estimate for Sea-wall around Governor's Island, New York. (See page 131.)*

EXTRACTS FROM LETTER FROM MAJOR-GENERAL W. S. HANCOCK, COMMANDING MILITARY DIVISION OF THE ATLANTIC, TO THE ADJUTANT-GENERAL, UNITED STATES ARMY, DATED AUGUST 20, 1878.

SIR: I have the honor to recommend a suitable appropriation for the completion of sea-wall around Governor's Island. Colonel Benham, the engineer officer in charge, has, I am informed, made estimates for the purpose. I cannot too strongly urge the necessity for the early prosecution and completion of this important work. Governor's Island is within the greatest city of this continent, New York, and in immediate proximity to the great city of Brooklyn, and on these as well as on the sanitary grounds fully set forth in the within communication, to which I invite special attention, its bounds should be permanently fixed by a suitable sea-wall. The shore between high and low tides is shelving and interspersed with rocks which serve to retain at the fall of the tide the refuse brought up at high-water. As an illustration of the evil from this source, I would state that official reports of observations carefully made in the six months from July, 1873, to January, 1874, show that the following carcasses of dead animals floating in the bay were thrown upon the island during that period, viz., July, 1873, 369; August, 1873, 205; September, 1873, 121; October, 1873, 58; November, 1873, 75; December, 1873, 75—total for six months of 1873, 903.

Although these carcasses are offensive and injurious, they are probably not so dangerous to health as the clothing, bedding, &c., infected with disease thrown upon the shore of the island by the tide and which lodges for want of a sea-wall. Yellow fever on the island was, in one instance, at least, traced directly to the latter cause.

\* \* \* \* \*  
 It is true that the management of the general police of the harbor by the city is not so bad now as it was during the time to which the statistics above given relate, but still, although in a somewhat smaller degree, the nuisance remains, and can only be properly dealt with, for this island, through the aid of a sea-wall.  
 \* \* \* \* \*

Hoping the subject may receive the favorable consideration of the War Department and Congress,  
 I am, sir, very respectfully, your obedient servant,

WINFIELD S. HANCOCK,  
*Major-General Commanding.*

Endorsement by commanding officer at Fort Columbus, dated August 8, 1878, on report by Assistant Surgeon J. P. Kimball on sanitary condition of the post, the substance of which is stated in the above extracts from General Hancock's letter; and endorsement of Surgeon and Medical Director J. M. Cuyler, U. S. A.

HEADQUARTERS, FORT COLUMBUS, August 8, 1878.

The facts stated by Assistant Surgeon Kimball are well known to any one who has resided on Governor's Island for any length of time. The sanitary condition of this island will never be good until its shores are protected from filth by a suitable sea-wall, and with the view of bringing this subject to the notice of the Commanding-General, this report is respectfully referred to department headquarters.

J. P. SANGER,  
*Captain First Artillery, Commanding Post.*

HEADQUARTERS DIVISION ATLANTIC AND DEPARTMENT EAST, MEDICAL DIRECTOR'S OFFICE,  
*Governor's Island, New York Harbor, August 13, 1878.*

As a sanitary measure, the completion of the sea-wall around the entire island is unquestionably of the greatest importance, and I most earnestly recommend that the work be done at as early a period as possible.

JNO. M. CUYLER,  
*Colonel and Surgeon U. S. A., Medical Director.*

EXTRACT FROM ANNUAL REPORT OF COLONEL H. W. BENHAM, CORPS OF ENGINEERS, DATED JULY 11, 1878.

\* \* \* \* \*  
 I would also respectfully represent the condition of the shores and shoals upon the southeast part of this island, back of the range of officers' quarters, between the south battery and the main wharves.

The shore-line along the reach named is without protection, and is irregularly broken down by the wash of the waves in storms, while in front, or outward from the shore, a shoal extends, bare at low-water, to the distance of 100 to 200 feet, which, from its position, in the eddy between the Buttermilk Channel and the Hudson River, receives the drift and carrion offal of the river, making it often very offensive to the residents on the island.

The best remedy for this, and a necessity, I consider to be a sea-wall, of rounded or convex line of short faces, running out upon this shoal, which, without indentations, would give a regular current and direction to the water, thus tending to carry off all such offensive matter, while the space in rear, filled up, as it might be without great cost, in part perhaps by the garrison, would add some acres to the area of the island where every yard of land is so valuable.

Very respectfully, your obedient servant,

H. W. BENHAM,  
Colonel of Engineers, Bvt. Maj.-General.

REPORT UPON THE SUBJECT OF A SEA-WALL AROUND GOVERNOR'S ISLAND, NEW YORK HARBOR, BY LIEUTENANT EUGENE GRIFFIN, CORPS OF ENGINEERS, DATED JANUARY 26, 1880.

*Governor's Island, New York Harbor, January 26, 1880.*

SIR: In accordance with instructions from these headquarters, I have the honor to submit the following report upon the construction of a sea-wall around this island:

The necessity of this wall has already been settled in the affirmative. It is not for the benefit of Governor's Island alone; the cities of New York and Brooklyn are also largely interested. The island does not lay so far from either as to render them safe from any contagious disease which may rage thereon. That they escaped from the epidemics of 1856 and 1870, is true, but that they would again be as fortunate is extremely problematical.

The object to be attained by the wall must, of course, influence its location and construction, and therefore requires careful consideration.

Its construction is necessary, principally as a sanitary measure, for the following reasons:

During the summer months, on account of its exposed position, Governor's Island is subject to epidemics and diseases from several exterior causes. In a report on the sanitary condition of the island, made by Assistant Surgeon J. P. Kimball, U. S. A., to the medical director of this division, June 26, 1879, he argues that the yellow-fever epidemics of 1856 and 1870, which caused such suffering on this island, and which did not extend to New York City, were due, wholly or in part, to the proximity of the Atlantic docks in Brooklyn, where, as a general rule, vessels from infected ports were discharged either directly or by lighters. The exposed flats on the southeast of the island are an excellent place of lodgement for the germs of this disease, which might easily be wafted across the narrow Buttermilk Channel. Dr. Kimball thinks it highly probable that this was the manner in which the fever was introduced; it originated and raged with the greatest severity among the families residing on this portion of the island. That this may occur again is more than likely, and the only effectual preventive would seem to be a sea-wall at or beyond low-water mark, so as to afford no foothold to this terrible scourge.

Again, diseases and disorders are generated by the putrefying bodies of animals left stranded on the shores of the island by the receding tide. The reports of the Commander of Fort Columbus show that, during the months of May, June, July, August, and September, 1879, the following enormous aggregate was reached: 1,221 dead animals and pieces of carrion; 3 corpses, 2 men and 1 infant; and that, in addition, 73 bed-sacks, pillows, blankets, &c., were found on the shore and burned; the latter, perhaps, being even more injurious than the animals. The deleterious effect of this frightful showing can be easily imagined. Unceasing vigilance on the part of the island police alone prevents the more dire results.

The post commander indicates four points as particularly liable to these visitations, viz., directly south of and adjoining the coal-dock, near the post hospital, just south of Castle Williams, and the strip of beach between the engineer boat-house and the arsenal.

The results of my own observations agree with this, and these points are where eddies exist, and such results would consequently be expected due to the directions of the currents. The proper remedy for this evil is evidently a sea-wall at or near the low-water line.

Due to the proximity of the large cities of New York and Brooklyn, and the immense amount of filth and refuse hourly passing from them to the waters of the bay, these waters are carried past the island saturated with organic matter.

At low tide the exposed flats are covered with this, and decay results at once from the powerful effect of the summer sun. At present, this evil is unavoidable. These flats should evidently be excluded from the action of the water.

This brief resumé shows that, as a sanitary measure, it is of prime importance that the wall be built at or as near as possible to the low-water line.

Detached portions of walls are already constructed as follows: From the stone wharf a straight reach of 607 feet towards the northwest, thence 300 feet towards Castle Williams, terminating at this point by a wall running at right angles some 39 feet to the bank. This wall is between the high and low-water lines. Around Castle Williams there are 354 feet of wall, completed, built at the low-water line. This was probably built at the same date as the castle itself, but is in good condition.

Between the castle and the post hospital (the old isolation ward, used temporarily as a post hospital) there are three reaches of 259, 551, and 204 feet, respectively; but this wall is but partially completed, is above the high-water line, and is, therefore, of little value. From the hospital towards the south battery there are two reaches of 272 and 458 feet, respectively, in nearly a right line, just above mean low-water, and from the extremity of the last line a partially-completed wall, 135 feet in length, extends in a curve around the south battery. This wall was built in 1866-7.

To recapitulate: there are 1,991 feet of sea-wall completed, in proper position, and in good condition; there are 39 feet in like condition, but of no value should the wall be extended; finally, there are 1,149 feet partially completed, in a useless position, and of no value to the general plan, except so far as it may furnish material. These walls are all built of several courses of granite blocks, about one and a half feet in thickness, and of varying length, backed with concrete, and having a coping of dressed stone three feet in width.

It is not considered that this report is to fix any line of wall, but simply to recommend an approximate line, suitable to accomplish the desired results, and to give general data bearing on the subject. I have considered it simply from a sanitary point of view. The wall will probably be built under the direction of an engineer officer, and as Governor's Island is a fortified position, and part of the interior line of defence of New York Harbor, other considerations may come in to modify the proposed line, and more detailed data than I have had the time to obtain will be used to fix the final location. I have based my recommendations on careful consideration of available data and personal knowledge of the local peculiari-

ties derived from several months' work on a survey of the island and the proposed line, and reclaimed land consequent thereon will not only not be detrimental to the commercial interests by injuring the channels, but will, I think, be a positive benefit, by increasing (slightly, to be sure) the scour, which has made Buttermilk Channel a commercial highway, where, formerly, cows could pass at low water.

Governor's Island lies directly in the *tract* of the East River, at its mouth, so to speak. The powerful current from this river at ebb tide, broken somewhat by Diamond Reef, strikes the northeast point of the island, divides and swells the current of the Hudson, or North River, on the west, and sweeps through Buttermilk Channel on the east; the latter portion is deflected by the shore-line, and the docks towards the Atlantic basin, and docks on the Brooklyn side, which, in turn, deflect it westward. (The directions of the currents are shown on the accompanying map, marked "A.)\* The rapid shoaling south of the entrance to the Atlantic basin is due to the westward deflection of the current by the dock above.) The flood current has a very peculiar direction around the shores of the island. Setting directly upon the wall around Castle Williams, from an almost northerly direction, it divides and flows gently along the west and northeast shores; the first or west current follows the line of the shore to the south battery, and then continues on directly towards Brooklyn until near the buoy, when it turns up the East River; the second current continues to follow the shore to the docks.

Between the docks and the south battery the waters are thus undisturbed at all stages of the tide, and the shoal along this line is the natural result. The swift current of Buttermilk Channel would soon wear this shoal away, if it lay within the sphere of its action.

The conditions governing these currents are nearly permanent, the farther works at Diamond Reef will not be of such extent as to produce any material effect, and there is no reason to suppose that any shoaling will take place along the line of the Brooklyn docks, necessitating their further extension. The sea-wall, then, should be made to follow approximately the bottom contours, from the docks to the south battery, in order to obtain a state of permanence, and to produce no effect, or as little as possible, on the tide-way and surrounding shores, a result, of course, desirable to obtain. All re-entering angles, however, should be strictly avoided, and all salient angles made as obtuse as possible. A re-entering-angle would only form a place of deposit, and in a short time an exposed beach would be the result. The amount of ground thus reclaimed, and consequent contraction of the water-way, would not affect the currents to any appreciable extent. As before stated, this portion of the water-way lies beyond the action of the current, and the waters at this point are always more or less quiescent.

The North and East Rivers unite southwest of the island, and, as would be expected, a shoal extends to this point. The wall by the hospital should be extended 142 feet in the same direction, and from thence directly to the castle, thus bringing it at about low water.

On the north, if the wall now completed in the ordnance grounds be extended 301 feet on the same line, thence 510 feet towards the castle dock, and thence to the boat-house and shore, the action of the current will keep the small amount of exposed beach clear. A short wall, 79 feet in length, will be necessary to connect the castle wall with the dock.

The wall, as thus completed, would extend around the entire island, except between the three docks, and for various reasons it may be desirable to have an exposed beach in these intervals. If, however, it is deemed advisable to complete the wall between the stone dock and the main dock it may be done on the line indicated. (On the accompanying map, marked "B," these additional walls will be found indicated by broken red lines, and located in accordance with the above recommendations.) Their lengths are as follows: From the arsenal to the castle, 1,092 feet; from the castle to the hospital, 1,515 feet; from the south battery to the docks, 1,766 feet; and between the docks, 138 feet—total, 4,511 feet. General H. W. Benham, Corps of Engineers, in his annual report to the Chief of Engineers for 1879, estimates for 1,800 feet of sea-wall, in rear of the line of officers' quarters, at twenty dollars (\$20) per foot. Taking this estimate, the cost of the entire wall would be ninety thousand two hundred and twenty dollars, (\$90,220.)

The amount of land reclaimed and added to the area of the island would be, between the docks and the south battery, about 4.3 acres; between the hospital and Castle Williams, 2.1 acres; between the castle and the arsenal, 1.4 acres; and between the docks, 0.2 acres; making a total of about 8 acres—an increase of about one-eighth in the area of the island. It is impossible to accurately estimate the value of this land, but, from the position of Governor's Island, it is evident that every acre gained in this way, without detriment to the commercial interests, is extremely valuable. Over half this amount, it will be noticed, is gained between the docks and the south battery. This land would be of no direct use for the erection of military defenses for the harbor, but would be extremely valuable for the erection of shops and other buildings, which might otherwise encroach upon the defensive lines of the island.

To fill in this area to a proper level, would require a mean depth of about five or six feet, and this would require sixty or seventy thousand cubic yards of material. The west side might be filled entirely by cutting the bank down to the level of the wall, and, doubtless, a vast amount of material might be obtained at no expense that is now dumped beyond the narrows. The amount of filling in and the question of obtaining material therefor are serious considerations, and, with others mentioned before, may make certain changes in the location of the wall desirable or even necessary.

I have not considered it necessary to connect the extremities of the wall by the coal and main docks with the shore. These docks are built of heavy crib-work, and would almost of themselves retain the filling and exclude the water sufficiently to prevent all outward wash. Heavy planking, however, would make them perfectly secure.

I would state, in concluding, that any changes which may be made in the location of the wall will not greatly affect its length, and, on the basis of General Benham's estimate, ninety thousand dollars (\$90,000) will be the probable expense, though, as any change would probably tend to shorten the wall, this amount may be taken as the maximum limit.

Very respectfully, your obedient servant,

EUGENE GRIFFIN,  
*First Lieutenant of Engineers.*

ASSISTANT ADJUTANT-GENERAL,  
*Headquarters Military Division of the Atlantic, Governor's Island.*

\* A copy of this map is on file in the Engineer Department.

(First endorsement.)

HEADQUARTERS MILITARY DIVISION ATLANTIC,  
*Governor's Island, New York Harbor, January 30, 1880.*

Respectfully forwarded to the Adjutant-General of the Army.

The necessity for the early completion of the sea-wall around Governor's Island, with a view not only to the better preservation of the island itself, and the health of its inhabitants, but to the general improvement of the harbor of New York, and the sanitary condition of New York City and Brooklyn, has been heretofore represented by me to higher authority, especially in my report on the subject, dated August 20, 1878. The project is also understood to have received the recommendation of the Engineer Bureau of the War Department, and of the Secretary of War to Congress, and to have had, already, partial consideration by that body. The within report of First Lieutenant Eugene Griffin, Corps of Engineers, with accompanying map, not only shows the importance of the subject in its general aspect, but also sets it forth in detail, and it is commended to the attention and consideration of higher authority in connection with the papers previously submitted.

If any information in addition to that contained in the within report, and in previous reports, is deemed necessary, I shall be glad to furnish it, if practicable, and trust that the matter may receive early consideration.

W. S. HANCOCK,  
*Major-General Commanding.*

## APPENDIX N.

*Explanation of the estimates for the Government Hospital for the Insane. (See pages 149 and 177.)*

## BUILDINGS AND GROUNDS.

*For general repairs and improvements.*—Anything like an economical administration of a hospital for the insane renders it imperative that all parts of the establishment should be kept in complete repair, and it is important that every want in this direction should be met as soon as it occurs. When it is remembered that, in addition to the repairs to the building, there are roads extending over four hundred acres of land, with ornamental grounds requiring almost constant care and expenditure for improvements, it may fairly be a question whether a distinct appropriation should not be asked for the care of gardens and lawns in addition to the amount of the estimate under this head.

*For special improvements.*—The following special improvements are asked, viz: A supply of pure water; additional accommodations for stock, hay, and farming implements; a detached kitchen and scullery; a mortuary building; a greenhouse—in all, forty thousand dollars.

A hospital of 900 patients, with more than 1,100 persons dependent upon it for so vital a necessity as water, ought not to have that supply so at the mercy of the elements that every storm changes it to mud. The Anacostia grows dirtier every year. The United States has munificently supplied the city of Washington with a river of pure water for its daily use, and leaves its own hospital for the insane, just beyond the Anacostia, to pump up that muddy stream, and filter or settle it as best they may, when a six-inch water main from the United States arsenal laid in the river-bed to the hospital ground, a distance of about three-fourths of a mile, mostly in shallow water, would settle the question of an abundant supply of most excellent water. The expense would probably be about twenty-five thousand dollars to bring the aqueduct water to the present pumps, which are ample for all requirements. This is surer than any system of filtration of the present supply or any possible supply to be drawn from artesian wells to be sunk on what is at best an uncertainty. In view of the urgency of the need, it is asked that the appropriation of \$25,000 for a pure water supply be made immediately available.

Another pressing want of the hospital is additional room for the housing of stock and storing of hay and farming implements. At present the insufficient accommodations render it necessary to stack a considerable portion of the hay crop, thereby exposing it to liability of injury from the weather. More room for stock is an imperative need; the milk product of the hospital-farm has increased from 15,920 gallons in 1875, to 35,556 gallons in 1880, without any new buildings for sheltering the greatly enlarged herd, except a few sheds which afford very indifferent winter protection. It is asked that \$5,000 may be made immediately available for these very necessary farm-buildings.

The kitchen, now situated in the basement of the hospital directly under the offices, should be transferred to a detached one-story building, erected for the purpose, whereby the heat and discomforts, as well as the odor of cooking now so generously dispensed throughout the centre building, would be removed, and a more light and comfortable provision made for the culinary and domestic department.

The hospital is deficient in those facilities for pathological research that a suitable mortuary building would afford, and which the interests of medical science demand.

As more attention is paid to the ornamentation of the grounds, looking to the out-door treatment of the inmates, the economy of a greenhouse of sufficient dimensions for the propagation of such bedding-plants as are required every spring, becomes apparent; something more liberal than this, that should give our inmates cut flowers for their rooms, and a winter garden for their recreation, would surely not be amiss. Their lot is not an enviable one, even when you have done all this.

*For the erection of a distinct hospital-building for the female insane, for expenditure in the fiscal year ending June 30, 1882.*—The importance of a separate building and enclosed grounds for the female insane is nowhere more clearly shown than at the Government Hospital for the Insane. The male patients being largely in excess in point of numbers, in all matters of privilege of grounds and freedom of life, the weaker party, as usual in such cases, goes to the wall. It is simply impossible to do full justice to either sex in the matter of freedom from restraint and abundant out-door exercise, so long as both are kept in the same buildings and share the same grounds. With the present hospital edifice and surrounding buildings devoted exclusively to the care of the male patients, and a new building, placed on the extensive plateau that lies directly south of the present hospital, built with all the modern improvements, for the female insane, the United States would have as complete and satisfactory provision for the care of her unfortunate insane as, speaking from the standpoint of our present knowledge, could be desired. The number of females under treatment on the 30th of June, 1880, in the Government Hospital for the Insane, was 206. This number will gradually increase, but it is thought that buildings designed for 250 patients

will be an ample provision for the present, especially as the plan would admit of being hereafter extended to accommodate 350, without marring the architectural effect or impairing its efficiency as a hospital. While the grounds are naturally separated from the site of the present hospital by a deep ravine, they are easily accessible from it for supervision, and the same laundry, bakery, water and steam-supply could be made available for both departments. It is believed that such a hospital, complete in all its appliances, can be built of brick in the most substantial manner for \$250,000. As the best results in building will be attained by occupying three years in its completion, only a portion of the whole amount, \$75,000, is asked for the year 1881-'2, to be made immediately available.

## CURRENT EXPENSES.

The number of patients under treatment in the hospital on the 30th of June, 1880, was 897, and on the 31st of August it was 900. While it is to be hoped that, under the law as it now stands, in relation to the admission of patients, no great increase of numbers will occur, there is no probability of any diminution, and it will not be safe to estimate for a less average than 875 of the class of indigent patients to be provided for during the fiscal year of 1881-'2. Estimating the cost, *per capita*, at \$225 per annum, which, as it includes all the hospital expenditures, except those for repairs and new buildings, is certainly moderate, the amount required to be appropriated by Congress will be one hundred and ninety-six thousand eight hundred and seventy-five dollars.

I am, sir, very respectfully, your obedient servant,

W. W. GODDING,  
*Superintendent.*

Hon. CARL SCHURZ,  
*Secretary of the Interior.*

## APPENDIX O.

*Explanation of estimates for Columbia Institution for the Deaf and Dumb. (See pages 149 and 177.)*

COLUMBIA INSTITUTION FOR THE DEAF AND DUMB,  
*Kendall Green, near Washington, D. C., July 13, 1880.*

SIR: I have the honor to transmit herewith estimates for the service of this Institution for the fiscal year ending June 30, 1882.

The estimate for current expenses is of the same amount as has been appropriated for the current fiscal year.

The estimate for the completion of the gymnasium has been made with great care, and is believed to be sufficient to cover all expenses necessary to perfect the work now in process of construction, as authorized by Congress at its last session.

The estimate for a farm-barn, cow-house, &c., is for an improvement very greatly needed. The buildings now in use for farm purposes are mere sheds, wholly insufficient, old and falling to decay.

The estimate for the improvement and enclosure of the grounds is needed for the prosecution of work, the importance of which has been fully set forth in the recent annual reports of the Institution.

In view of the importance of completing the gymnasium at the earliest possible date, I would respectfully suggest that the item for that object be made immediately available.

These estimates are submitted by order of the board of directors, and, speaking in their behalf, I venture to express the hope that they will receive the favorable consideration of Congress.

Very respectfully, your obedient servant,

E. M. GALLAUDET,  
*President.*

Hon. C. SCHURZ,  
*Secretary of the Interior.*

## APPENDIX P.

*Explanation of estimates for the Construction of two Revenue-Steamers, \$150,000, and rebuilding Revenue-Steamer "William P. Fessenden," \$75,000. (See page 163.)*

UNITED STATES REVENUE MARINE,  
*Treasury Department, October 11, 1880.*

SIR: In transmitting the estimates for the support of the Revenue-Marine Service, I have the honor to submit special estimates for the building of two new steam revenue-vessels for duty on the Southern coast, in the sum of \$150,000, and for rebuilding, with iron, the hull of the revenue-steamer "Fessenden," and providing a new boiler for said vessel, in the sum of \$75,000.

In the annual report of the Secretary of the Treasury for 1879, it was stated that some of the older vessels of the Revenue-Marine Service, which would soon need extensive repairs, are fitted with machinery of old types, and are expensive in the consumption of fuel, and it was recommended that appropriate legislation be had providing for at least two new steamers for service on the Atlantic and Gulf coasts. Two of the steamers of the Revenue Marine, now stationed in Southern waters, are reported as unseaworthy and needing extensive repairs. It will be necessary soon to withdraw them from commission; and, accordingly, it is recommended that Congress be asked to appropriate the necessary sum for the construction of two new vessels. It is believed that the new vessels may be designed with such increased economy in the consumption of fuel, over those to be replaced, as in a few years to save to the Government the cost of their construction.

A careful inspection, during the past season, of the revenue-steamer "Fessenden," stationed at Detroit, Mich., shows that her frames and planking are badly decayed. Her commanding officer, Captain George R. Slicer, reports her as unseaworthy, and recommends that she be put out of commission at once. The "Fessenden" is of superior model, light draught, great

speed, and is provided with excellent machinery. While in good condition she has always proved to be admirably adapted for the particular duty required on that station. It is proposed to preserve her present fine model in a new hull of iron, as this material has been found by experience to be the most durable and economical for ships' bottoms in the fresh-water of the Great Lakes. The necessity of rebuilding the "Fessenden" without delay is best attested by the fact that the value of the services rendered by her in a single season is greater than the cost of her reconstruction. The aggregate number of vessels seized or reported by this revenue-steamer during the season of 1879, for violation of law in some particular, is 323, and the aggregate of the fines, penalties, and forfeitures assessable against said vessels is eighty-five thousand two hundred and ninety-eight dollars, (\$85,298.) This statement does not take into account the value of her services as a preventive force against smuggling upon the lakes. While no specific estimate can be placed upon such services, they are certainly of very great importance.

Respectfully, your obedient servant,

E. W. CLARK,  
*Chief of Revenue-Marine Division.*

Hon. JOHN SHERMAN,  
*Secretary of the Treasury.*

#### APPENDIX Q.

*Explanation of the estimate for Labor and Expenses of Engraving and Printing. (See page 163.)*

TREASURY DEPARTMENT,  
*Bureau of Engraving and Printing, November 9, 1880.*

SIR: I have the honor to submit the estimate for the work of this bureau for the fiscal year ending June 30, 1882. As usual, this estimate does not include the supply of distinctive paper for the year which it covers, inasmuch as all matters relating to distinctive paper are controlled by your office, in accordance with the system of checks now in operation in the Department.

The estimate submitted for the work of this bureau for the present fiscal year amounted to \$400,000, and there was an additional item in the estimates submitted by your office, for distinctive paper, amounting to \$61,249 69, making a total for the two objects of \$461,249 69. These estimates were based upon the production of 7,000,000 sheets (of four notes to each sheet) of United States notes, of 3,500 sheets of currency certificates, 50,000 sheets of silver certificates, and 100,000 sheets of registered bonds for transfers.

Congress consolidated the two objects, *i. e.*, the expenses of engraving and printing and the purchase of distinctive paper, into one item in the appropriation act, and provided but \$375,000 for both. This was a reduction from the estimates of \$86,249 69, or very nearly twenty per cent. As a consequence, but a proportionate amount of distinctive paper estimated for can be purchased during the year, and the bureau can deliver but a corresponding amount of finished notes to the Treasurer. Again, the estimate for silver certificates for the present year was for but 50,000 sheets; but, owing to the operations of the Department, the demand for these certificates has largely increased, and the Treasurer has already, this year, asked for 478,000 sheets of certificates, and has estimated that he will require next year 500,000 sheets. He further estimates that there will be required for issue during the next fiscal year 5,500,000 sheets of United States notes, 3,500 sheets of currency certificates, and the Register estimates that he will require 131,000 sheets of registered bonds for transfers. To this should be added 2,000,000 sheets of United States notes, which are required to bring the reserve in the Treasurer's office to a proper standard, and which will enable the bureau to execute the various processes on these notes with that degree of care and deliberation that is necessary to keep the work thereon up to the standard of excellence established for the protection of the public against counterfeiting. This makes a total requirement of 8,134,500 sheets of notes, certificates, and securities, upon which the estimate for the fiscal year 1882 is based.

No estimate for a reserve of silver certificates is included, for the reason that it is expected that an additional and special appropriation for this purpose will be made during the present year, and that the amount estimated by the Treasurer for the next year will be sufficient to meet his current demands during the year.

The ratio of expenditures, exclusive of the cost of the distinctive paper, during the fiscal year ended June 30, 1880, to each one thousand sheets of work finished and delivered, was \$54 65; the ratio of expenditures estimated for the next fiscal year, for each one thousand sheets of work estimated for, is \$52 25—a reduction of nearly five per cent.

Very respectfully,

O. H. IRISH,  
*Chief of Bureau.*

Hon. JOHN SHERMAN,  
*Secretary of the Treasury.*

#### APPENDIX R.

*Explanation of estimates for the Light-house Establishment. (See pages 163 and 164.)*

TREASURY DEPARTMENT,  
*Office of the Light-house Board, Washington, D. C., November 5, 1880.*

SIR: I have the honor to transmit herewith, for your consideration, estimates of funds required for the Light-house Establishment for the fiscal year ending June 30, 1882.

These estimates were approved by the board at its meeting on the 8th of October last.

The estimates for supplies of light-houses, inspecting lights, and for the survey of light-house sites, are the same as last year.

For salaries of keepers of light-houses the estimate is \$585,000—\$20,000 more than was appropriated for the present fiscal year. The increase is made necessary by the increased number of lights established by law, and by the increased number of keepers—1,015 as against 995 last year—thereby rendered necessary.

The estimate made last year for the expenses of light-ships was \$250,000; but only \$240,000 was appropriated for the purpose, and as a consequence the board has been forced to delay some intended repairs, which are now more than ever necessary. In addition, the board has to provide for the maintenance of the new light-ship on Trinity Shoal, off the coast of Louisiana, the building of which Congress authorized at its last session. The board has therefore estimated for \$250,000, for expenses of light-vessels for next year, as against the appropriation of \$240,000 for this year.

The amount appropriated for repairs and incidental expenses of light-houses and pier-head lights has not been commensurate with the needs of the establishment, and, in spite of the economy and vigilance exercised by the board, many structures have fallen into a state of dilapidation. The estimate for the necessary repairs of light-houses and pier-head lights for the present fiscal year amounted to \$400,000, but the amount appropriated to make these repairs was only \$310,000. From this sum \$11,000 will be required to replace the superstructure of Thimble Shoal light-house, which was destroyed by fire within the past few days. The proposed increase is absolutely necessary to put and keep the light-houses in a proper condition for the safe exhibition of the lights which Congress has authorized.

The estimate for expenses of fog-signals for the present fiscal year was \$50,000; that for the next is \$60,000. This increase of \$10,000 is made necessary by the addition of a number of fog-signals during the past year, the establishment of which had been previously authorized by Congress.

The estimate for expenses of buoyage is not increased, although the number of buoys is larger than heretofore. This is because a new estimate of \$25,000 is submitted separately, for the expenses of establishing, repairing, and supplying losses of day or unlighted beacons, heretofore estimated for under the head of "Expenses of buoyage." This estimate is made necessary not only by the number of new beacons in contemplation, but by the necessity for the repair of those now maintained, and which are rapidly approaching dilapidation, as the board is without funds for their proper repair.

The estimate herewith submitted for the lighting and buoyage of the Mississippi, Missouri, and Ohio rivers is \$150,000; that of last year was \$140,000. This increase of \$10,000 is made necessary not only by the increased number of lights, which is now 819 as against 737 last year, but by the further increase which it is evident that the immediate wants of river commerce will make necessary.

The estimates above referred to are for the maintenance of aids to navigation already established under due authority of law, most of which cannot now be discontinued or neglected with safety to commerce and navigation.

Very respectfully,

JOHN RODGERS,  
*Rear-Admiral U. S. N., Chairman.*

The Honorable THE SECRETARY OF THE TREASURY.

#### APPENDIX S.

*Explanation of estimates for Coast and Geodetic Survey. (See pages 164 and 165.)*

U. S. COAST AND GEODETIC SURVEY OFFICE,  
*Washington, D. C., October 16, 1880.*

SIR: I have the honor to submit estimates for continuing the work of the coast and geodetic survey, and also of the standard weights and measures of the United States.

The estimates in detail for the work of the coast and geodetic survey during the fiscal year ending June 30, 1882, are preceded by a synopsis descriptive of the work done in the course of the fiscal year ending June 30, 1880.

Further experience confirms the view heretofore submitted in regard to the cost of separate results. It is plain that in geodetic operations the cost of a single item will greatly exceed the average cost of a similar class, if provision is made for obtaining a considerable number of items in a given period of time. As before stated, the appropriations of recent years are below the amount needful to secure results at the least cost.

In addition to the appropriation for the regular progress of the work along the coast, and for determining geographical points in the interior, an amount is greatly needed for resurveys of important localities, as parts of Nantucket and Long Island Sound, New York Bay and approaches, San Francisco Bay, and Columbia River entrance, in which, from natural causes, great changes have taken place by the action of the sea since the original surveys were made.

I earnestly hope that these estimates may be approved, as continued experience has demonstrated to me their necessity for the due and economical progress of the coast and geodetic survey.

The following synopsis of the field and office operations of the year ending June 30, 1880, corresponds in character with items included in the detailed estimates now submitted for the work of the fiscal year ending June 30, 1882. As heretofore, the work done will be recapitulated in geographical order, beginning with the coast of Maine, and closing with the coast of Alaska and points in the geodetic survey. My annual report will show in detail the prosecution of topography at the head of Frenchman's Bay, coast of Maine; hydrography of Union River and Morgan's Bay; also of Blue Hill Bay and of the southeastern approaches to Mount Desert Island; soundings in Frenchman's Bay and Flanders' Bay; development of the vicinity of Johnston's Rock, in Casco Bay, and of outer Green Island Ledge soundings on Morris Rock, near the coast of New Hampshire; tidal observations at North Haven, in Penobscot entrance; triangulation for the geodetic connection in northern New Hampshire; reconnoissance for geodetic work in Vermont; triangulation in that State; magnetic declination, dip, and intensity determined at Eastport and Bangor, Maine; at Portsmouth and Hanover, New Hampshire; at Cambridge and Nantucket, Massachusetts; at Rutland, Vermont; at Halifax, (Nova Scotia;) and at Quebec and Montreal, in Canada; examination and securing marks at stations of the primary triangulation along the shores of Buzzard's Bay and Martha's Vineyard Sound; and tidal observations at Providence, Rhode Island; sea currents observed at stations between Nantucket and the entrance of Delaware Bay; tidal observations at the Block Island Breakwater; ground marks renewed at stations of the primary triangulation in New York, Connecticut, and Delaware; topography and hydrography of the coast of Long Island, eastward of Rockaway, New York; detailed survey of the shores of Hudson River, below West Point; magnetic declination, dip, and intensity determined at Rouse's Point and at Albany, New York; at Sandy Hook, New Jersey; and at Hartford, Connecticut; reconnoissance for geodetic work in northern New York; pendulum observations at Brooklyn, New York, and at stations in Pennsylvania; tidal observations at Sandy Hook; coast

topography of the vicinity of Cape May; geodetic operations in Northern New Jersey; determinations of latitude at stations along the northern boundary of Pennsylvania; triangulation of the Delaware River from League Island downward to Tonkin's Island; life-saving stations determined in position on the coast of Delaware, Maryland, and Virginia; geodetic operations continued west of the Blue Ridge in West Virginia; hydrographic survey of Patapsco River, Maryland, from Lazaretto Point to Hawkins' Point; special hydrographic examination of the vicinity of oyster-beds in Chesapeake Bay; deep-sea soundings, dredgings, and records of temperature on sections across the Gulf stream, at intervals between George's Bank and Charleston, South Carolina; magnetic declination, dip, and intensity determined at Beaufort, North Carolina; hydrography of the coast of North Carolina from Ocracoke Inlet to Cape Lookout, and from Barren Inlet to New Inlet; magnetic declination, dip, and intensity determined at Charleston, South Carolina; astronomical observations and exchange of telegraphic signals there, for determining the longitude of Atlanta, Georgia; determinations of the latitude of Atlanta; magnetic declination, dip, and intensity determined at Jacksonville, St. Augustine, Enterprise, Eau Gallie, Saint Lucie, and Fort Jupiter, Florida; hydrography of Charlotte Harbor and approaches, Florida; astronomical observations and exchange of telegraphic signals at New Orleans, for determining longitude at Baton Rouge, Louisiana; observations for latitude at the last named station; topography of the vicinity, and measurement of base-line; magnetic declination, dip, and intensity determined at New Orleans, and line of levels from that city upward to Fort Adams; triangulation of the Mississippi River from Donaldsonville upward to Baton Rouge, and from Bayou Sara upward to stations above Milliken's Bend; topography of the vicinity of Donaldsonville, Baton Rouge, and Grand Gulf; soundings in the Mississippi at Grand Gulf, and lines of level from the last-named point upward to Milliken's Bend; secondary base-lines measured at Lum's Point and Lake Providence; hydrography of the coast of Texas southward and westward of Matagorda Island; triangulation of the southern part of Laguna Madre, and adjacent coast of Texas; magnetic declination, dip, and intensity at Tortugas, Alacran Reef, Cay Arenas, Vera Cruz, Coatzacoalcos, Lagunas, Campeche, and Progressa, in the Gulf of Mexico; deep-sea soundings, dredgings, and record of temperatures in the eastern part of the Caribbean Sea, and adjacent waters; detailed survey of San Nicolas Island, off the coast of California; hydrography of that vicinity, and soundings near San Clemente Island and Santa Barbara Island; also along the coast south of San Luis Obispo, and north of Point Sal; tidal observations inside of San Francisco Bay, at Sancelito; geodetic operations at primary stations on Mount Lola and Round Top, for extending the main triangulation eastward across the State of California; reconnoissance from the same points for additional stations to the southward; development of topographical peculiarities in the region adjacent to Fallen Leaf Lake, Eastern California; triangulation and topography between Walalla and Point Arena; and coast hydrography between Point Arena and Bodega Head; topography of the shores of Columbia River, Oregon, extended from Kalama to Columbia City; reconnoissance for connecting the survey of that river with Puget Sound; soundings in the southern part; and topography of the shores of Puget Sound in the vicinity of Hammersley's Inlet; triangulation of the shores of that inlet; astronomical and magnetic observations at points between Chilkah and Sitka, and tidal observations commenced at Kodiak, coast of Alaska; tidal observations at Mazatlan, west coast of Mexico; and at the entrance of the harbor of Honolulu, Sandwich Islands; measurement of base-line near Louisville, and triangulation for the geodetic survey of Kentucky; similar work extended westward to Nashville, Tennessee, from the Lebanon base-line, and stations occupied northward and eastward of Lebanon; longitude determined by exchange of telegraphic signals at Louisville, Kentucky, and Nashville, Tennessee, and observations for latitude at Louisville; geodetic levels run from Athens, in Ohio, to Mitchell, in Indiana; triangulation continued in the last-named State, and in Wisconsin; reconnoissance for geodetic work westward of Jefferson City, Missouri, and eastward from stations in Colorado, and stations occupied for the geodetic connection eastward from points in Nevada.

Progress commensurate with that of the field-work has been made in the course of the fiscal year in the Coast and Geodetic Survey Office. Details comprise the reduction and discussion of all observations, including the arrangement for publication of the records and results; the drawing of hydrographic charts from the original note-books; reductions to various scales of original topographical and hydrographic maps for publication; the engraving, electrotyping, printing, photo-lithographing and issue of the same, and maintenance of instruments used in the survey. Tide tables of the principal ports of the United States, for the year 1881, have been computed and published; the drawings of sixty-three charts have been in progress, and of this number twenty-five have been completed, including ten charts for publication by photo-lithography; fourteen small harbor charts were also drawn for the Alaska Coast Pilot. Six copper-plate engravings of charts have been begun; one hundred and sixty-eight engraved plates have received additions, and twenty plates have been finished.

An aggregate of twenty-seven thousand eight hundred and sixty-six copies of charts has been issued to sale agents and others; upwards of four hundred copies of the annual reports, and one thousand and ninety-two copies of the Coast Pilot have been distributed, including the several subdivisions descriptive of the coast between Eastport and New York, and a third volume of the work is now in hand for publication.

#### ESTIMATES IN DETAIL.

The estimates for continuing work in the eastern division of the coast and geodetic survey during the year ending June 30, 1882, are intended to provide for the following progress:

*Field-work.*—To continue the topography of the coast of Maine, east of Mount Desert; to determine heights at geodetic points between Boston and the St. Croix; and co-efficient of refraction; to complete the hydrography between Penobscot Bay and Narraguagus Bay, and continue soundings in the coast approaches eastward of Petit Manan Island; to continue a topographical and hydrographic survey of Portsmouth Harbor, and make such additional triangulation as may be requisite for that and other surveys on the eastern coast; to continue the triangulation of New Hampshire; determine the position of new light-houses between Eastport, Maine, and New York; to continue the triangulation of Vermont; to continue soundings along the coast of Maine, and other off-shore hydrography between Cape Cod and Manan, and make special examination for the sailing-lines for charts; to continue the observations of sea and tidal currents in the Gulf of Maine; to continue tidal observations, and to make such astronomical and magnetic observations as may be required; to continue the survey of the Connecticut River from its mouth to Hartford; to make such examinations as may be required in New York Harbor, and such surveys in its vicinity as may be necessary, including the continuation of the topographical and hydrographic survey of the south coast of Long Island; to make along this part of the coast observations on tides and currents; to continue the plane-table survey of the west shore of Hudson River above Haverstraw; to continue triangu-

lation between Hudson River and the north end of Lake Champlain, and between Lake Champlain and Lake Ontario; to make the requisite astronomical observations; to continue the topographical and hydrographic surveys of the coast of New Jersey; to continue the triangulation of New Jersey and Pennsylvania; to connect the Atlantic-Coast triangulation with that of the Chesapeake Bay near the boundary-line between Maryland and Virginia; to complete the detailed survey of James River, Virginia, including the hydrography; and continue the plane-table survey of the Potomac River; to continue westward the main triangulation from the Atlanta base to the Mississippi River at or near Memphis, including astronomical and magnetic observations; to continue the supplementary hydrography between Cape Henlopen and Cape Henry, and the tidal observations, including also such as may be required in Chesapeake Bay; to continue westward the triangulation in West Virginia along the 39th parallel; to measure base-lines of verification and determine azimuths for the coast triangulation south of Cape Lookout, to make the astronomical and magnetic observations requisite; to continue the off-shore hydrography between Cape Henry and Cape Fear; to complete the hydrography of Pamlico Sound and its rivers; to sound the entrance to Cape Fear River, to continue the topographical and hydrographic survey of rivers on the coast of South Carolina and Georgia; to determine azimuths for the triangulation of the coast of South Carolina and Georgia; to continue the detailed survey of sea islands and water passages north and south of Savannah River entrance, and make tidal observations; to continue the off-shore hydrography between Cape Fear and the St. John's River, Florida; to continue southward from Cape Malabar, near latitude 28° north, the triangulation, topography, and hydrography of the eastern coast of Florida, including Indian River; to continue the triangulation, topography, and hydrography of St. John's River; to make the requisite astronomical observations; to continue hydrography off the eastern coast of Florida from Cape Cañaveral to the southward; to continue soundings and observations for deep-sea temperatures, currents, and dredgings in such parts of the Gulf stream, northward of the latitude and eastward of the meridian of Cape Florida, as may be deemed advisable, and also in the Caribbean Sea; and, within the same limits, such as may be considered advantageous in conjunction with the United States Commission on Fish and Fisheries; to continue the astronomical and magnetic observations requisite throughout the Gulf of Mexico; to complete the hydrography of Charlotte Harbor, Florida, and continue the triangulation, topography, and hydrography of the western coast of Florida between Cedar Keys and Tampa Bay, and between Tampa Bay and Charlotte Harbor; to continue the same classes of work to the southward of Charlotte Harbor; to run lines of soundings and dredging and make observations of sea temperatures in the Gulf of Mexico, and develop the hydrography of the Gulf coast, included in field operations; to connect the trigonometrical survey of the Mississippi River at New Orleans with that of Lake Borgne, Lake Pontchartrain, and Maurepas; to continue the triangulation, topography, and hydrography of the Mississippi River above New Orleans to the head of ship-navigation; to determine geographical positions, and make the astronomical and magnetic observations requisite; to extend the triangulation, topography, and hydrography of the coast of Louisiana westward of the Mississippi delta, and continue the hydrography of the Gulf of Mexico between the mouths of the Mississippi and Galveston, Texas; to continue the triangulation, topography, and hydrography of the coast of Texas westward between Sabine Pass and Galveston, and between Corpus Christi and the Rio Grande; to measure a base-line of verification and make the astronomical and magnetic observations requisite between Sabine Pass and the Rio Grande; to continue the hydrography of the approaches to the coast of Texas; and triangulation across the States of Ohio, Indiana, Illinois, Missouri, and Kansas, to connect the surveys of the Atlantic and Pacific coasts; and continue triangulation in Kentucky, Tennessee, and Wisconsin, to furnish points for State surveys; to continue the determination of the positions of new light-houses and life-saving stations along the coast between New York and the Rio Grande; to continue field-work for the verification of data for the Coast Pilot; to continue the organized system of magnetic observations required for a complete magnetic survey, and to run lines of levels connecting points in the main triangulation with the sea-level.

*Office-work.*—To continue the deduction of results by computation from the field operations along the Atlantic and Gulf Coasts, and in connection with interior geodetic surveys, including astronomical, geographic, magnetic, hypsometric, and tidal work; to advance the publication of the Coast Pilot for the Atlantic and Gulf Coasts, and to complete tidal predictions for the year 1882 for those coasts; to continue the publication of topographical and hydrographic maps and charts and reductions thereof, and to plot the hydrographic surveys; to continue the drawings of Sailing Chart A, Cape Sable to Cape Hatteras, and of No. 1 and No. 2, Cape Sable to Sandy Hook, and Nantucket to Cape Hatteras; to continue the drawing and engraving of the general chart of the Atlantic Coast from Quoddy Head to Cape Cod; to begin the drawing and engraving of Coast Chart No. 2, Machias Bay to Prospect Harbor, and to continue that of Coast Chart No. 3, Frenchman's and Blue Hill Bays; to finish the engraving of the harbor charts of Frenchman's Bay and Somes Sound, Blue Hill and Union River Bays, and approaches to Blue Hill Bay and Eggemoggin Reach, and the engraving of the chart of Carver's Harbor; to begin the drawing of the chart of Burnt-Coat Harbor; to continue the drawing of the coast chart of Great South Bay, Fire Island, and Long Beaches, (new edition;) to begin the engraving of the new edition of the chart of Hudson River, from Haverstraw to Poughkeepsie, and the drawing and engraving of new topography for Coast Chart No. 23, Absecom Inlet to Cape May; to commence the drawings of new hydrography for Coast Charts Nos. 24 and 25, Delaware Bay and River; to begin the drawing of the chart of James River, from City Point to Richmond, and to complete the engraving of the charts of James River, Nos. 1, 2, and 3, from Newport News to City Point; to continue the drawing of Sailing-Chart B, from Cape Hatteras to Key West, and the drawings of Sailing-Charts Nos. 3 and 4, Cape Hatteras to Mosquito Inlet, and Mosquito Inlet to Key West; to continue the drawing and engraving of Coast Chart No. 45, Cape Hatteras to Ocracoke Inlet; to continue the drawings of Coast Charts Nos. 46, 47, 48, and 49, Ocracoke Inlet to Cape Lookout, Cape Lookout to Bogue Inlet, Bogue Inlet to New Topsail Inlet, and New Topsail Inlet to Cape Clear, and to begin the engraving of these charts; to continue the drawing and engraving of Coast Chart No. 50, Cape Fear River and approaches; to begin the drawing of the new edition of the chart of Cape Fear River; to complete the drawing and to commence the engraving of Coast Chart No. 51, Port of Long Bay, including Little River Inlet; to complete the drawing and engraving of Coast Chart No. 52, Winyah Bay, Cape Romain, &c.; to finish the engraving of Coast Chart No. 53, Winyah Bay to Long Island; to complete the drawing of general coast chart, from St. Mary's River to Cape Cañaveral, and to continue that of the chart of St. John's River south of Jacksonville; to continue the drawing and engraving of the general chart of the coast from Cape Cañaveral to Cape Florida, and to begin the drawing of the chart of Cape Cañaveral Shoals; to commence the drawing and engraving of the general chart of the coast from Key West to Tampa Bay, and to continue the drawing and engraving of the general coast chart from Tampa Bay to Cape San Blas; to complete the engraving of the coast chart, Charlotte Harbor; to begin the drawings of Coast Charts Nos. 76 and 78, Sarasota Bay, and Bayport to Anclote Keys; to continue the engraving of the coast chart, Chassahowitzka River to Cedar Keys; to begin the engraving of the chart of St. Mark's River, (new edition,) and the drawing of the chart of Crooked River; to complete the engraving of the coast charts, Apa-

lachee Bay, and Apalachee Bay to Apalachicola Bay; to continue the engraving of coast chart, St. Joseph's Bay to St. Andrew's Bay, and to complete that of coast chart, St. Andrew's Bay to Choctawhatchee Inlet; to begin the drawing of the harbor chart, St. Andrew's Bay; to complete the engraving of the general chart of the coast, Cape San Blas to the Mississippi Passes; to continue the drawing and to begin the engraving of general chart of the coast, Mobile Bay to Atchafalaya Bay; to continue the drawing and engraving of Coast Chart No. 92, Chandeleur and Breton Sounds, and to complete the engraving of Coast Chart No. 93, approaches to Mississippi Delta; to begin the drawing of Coast Chart No. 96, Barataria Bay, &c., and to continue the engraving of Coast Chart No. 99, Point au Fer to Cote Blanche, including Atchafalaya Bay; to commence the drawing and engraving of the general chart of the coast, Atchafalaya Bay to Galveston; to finish the engraving of Coast Chart No. 108, Pass Cavallo and San Antonio Bays, and to continue that of Coast Chart No. 109, Aransas and Copano Bays; to continue the drawing and engraving of the general chart of the coast, Galveston to the Rio Grande, and to commence that of Coast Chart No. 112, Rio Grande, Brazos Santiago, and part of Laguna Madre; for material for drawing, engraving, map-printing, for electrotyping and photographing, and for instruments and apparatus.

Total for the Eastern Division, including the Atlantic and Gulf Coasts and involving work in thirty-two States and three Territories, will require \$371,000.

For the continuation of the resurvey of Delaware Bay and River, \$10,000.

The estimates for continuing work in the western division of the coast and geodetic survey of the United States are intended to provide for the following progress:

*Field-work.*—To make the requisite observations for latitude, longitude, azimuth, and the magnetic elements at stations along the Pacific Coast of the United States; to continue off-shore soundings along the coast of California, Oregon, and Washington Territory, and tidal observations at San Francisco and such other localities as may be necessary; to continue the main-coast triangulation from Monterey Bay to the southward, and from Point Conception to the northward, and from San Pedro towards San Diego; to continue the main triangulation of the coast from San Pedro to Point Conception; from Cape Mendocino to the northward; from Columbia River north to Puget Sound, and south up the Willamette Valley; to continue the main triangulation through the Sacramento and San Joaquin Valleys, and measure base-lines in the western division of the survey; to continue the coast triangulation and topography from Newport, Los Angeles County, Cal., towards San Diego; to continue the tertiary triangulation and topography from Point Buchon towards San Simeon, and hydrography between San Diego and Monterey Bay; to develop hydrographic changes in San Francisco Bay and its approaches; to continue triangulation across the States of California, Nevada, Colorado, and the Territory of Utah, along the 39th parallel, to connect the survey of the Pacific Coast with that of the Atlantic, and furnish points for the survey of the States named; to complete the secondary and tertiary triangulation and topography of the coast between Bodega Bay and Point Arena; to continue soundings between Cape Mendocino and the Klamath River, and between Cape Sebastian and Point Orford; to observe currents along the coast, and take soundings and temperature observations in the California branch of the Kuro Siwo current, and execute such other hydrographic work as local demands may require; to continue tidal and current observations at the Golden Gate, and observations on ocean currents along the coast of California; to continue the triangulation, topography, and hydrography of the Columbia River; to complete the detailed survey between Cape Sebastian and Crescent City, and off-shore hydrography at Crescent City Reef; to measure a base-line and continue the triangulation of the Strait of Fuca, and the topography and hydrography of Puget Sound and the adjacent waters; to continue the reconnoissance survey of the coast and islands of Alaska, with observations of the tides and currents, and the requisite astronomical and magnetic observations; to continue field-work, for description of the coast and verification of the Coast Pilot, of the coasts of California, Oregon, Washington Territory, and Alaska Territory; to continue the organized system of magnetic observations required for a complete magnetic survey, and to run lines of levels connecting points in the main triangulation with the sea-level.

*Office-work.*—To make computations of the field observations, including astronomical, geodetic, magnetic, and tidal work; to continue the compilation of the Coast Pilot of the coasts of California, Oregon, Washington Territory, and Alaska Territory; to prepare tidal predictions for the year 1882; to continue the publication of topographic and hydrographic maps and charts and the reductions thereof, and to plot the hydrographic surveys; to continue the drawing and engraving of the general chart of the coast, San Diego to Santa Monica; to continue the engraving of the general chart of the coast, Point Vincente to Point Conception; to continue the drawing and to begin the engraving of the general chart of the coast, Point Conception to San Louis Obispo; to begin the drawing of the chart of Wilmington Harbor, and to complete the engraving of the chart of San Louis Obispo Bay and approaches, and the engraving of the chart of San Francisco Bay entrance, (new edition;) to continue the drawing and to begin the engraving of the general chart of the coast, Point Reyes to Mendocino City; to continue the drawing and engraving of the general chart of the coast, Point Arena to Cape Mendocino; to begin the drawings and engravings of charts of the harbors of Puget Sound; for materials for drawing, engraving, and map-printing, for electrotyping and photographing, and for instruments and apparatus.

Total for the western division, including the Pacific Coasts, and involving work in four States and eight Territories, will require \$246,000.

For repairs and maintenance of the complement of vessels used in the coast and geodetic survey, will require \$44,000.

For continuing the publication of observations made in the progress of the coast and geodetic survey, will require \$8,000.

For general expenses of all the work, rent, fuel, for transportation of instruments, maps, and charts, miscellaneous office expenses, and for the purchase of books, maps, and charts, will require \$30,900.

Respectfully submitted:

C. P. PATTERSON,  
Superintendent U. S. Coast and Geodetic Survey.

Hon. JOHN SHERMAN,  
Secretary of the Treasury;

## APPENDIX T.

Estimate of Funds required by the United States Artillery School for fiscal year ending June 30, 1882. (See page 169.)

## DEPARTMENT OF ARTILLERY SCIENCE.

One (1) electrical lamp, for use in the lecture-room, for experiment, and to light up part of the harbor for night-practice .....	\$500 00
One hundred (100) cells of Le Clenché firing battery, for all general firing purposes by electricity of guns and torpedoes .....	400 00
Two (2) miles of No. 8 telegraphic wire, for firing and telegraphic lines for practical use and instruction at the school .....	25 00
One (1) Boulenger chronograph, for the purpose of obtaining the velocity of a projectile in connection with the science of gunnery .....	250 00
One (1) set of electrical apparatus, for statical electricity, to be used for instruction purposes in connection with applied electricity .....	250 00
Two hundred (200) pounds of insulated-copper wire, for use with batteries, machines, &c .....	200 00
Fifty (50) dozen binding-screws, connectors, &c., to be used as name implies .....	12 00
Two (2) anemometers, to determine the force of the wind during firing .....	60 00
Twenty-four (24) modified Smees' batteries, to replace old ones .....	48 00
Wood-screws, nails, &c., \$25; tacks, \$2; sheet-zinc, \$5; lead, \$5; copper, \$20; bichromate of potash, \$20; sulphate of copper, \$20; bar-zinc, \$25; for current supplies of apparatus .....	122 00
Thirty-four (34) zincs for Bunsen's battery, \$34; thirty-four (34) porous cups, same, \$13 00; zincs for gravity, same, \$37 40; coppers for gravity, same, \$20 40; to replace old ones .....	105 40
Assorted lumber, \$25; telegraphic poles, \$50; for repairs and to replace old .....	75 00
Repairs of apparatus .....	150 00
Chemicals for the analysis of gunpowder, gun-metals, and laboratory-work in connection with the science of gunnery, together with such additional apparatus as may be required .....	250 00
One (1) dynamo machine, for use in connection with the firing of guns and torpedoes .....	100 00
One (1) carboy of nitric acid, \$5; one (1) carboy of sulphuric acid, \$5 .....	10 00
One (1) Rhum Kirf coil, for use in firing guns and torpedoes by electricity .....	500 00
One (1) large foot-lathe, for use in repair-shop .....	150 00
Three (3) 12-inch flat bastard files, \$3; six (6) 6-inch flat bastard files, \$2 20; six (6) 6-inch flat bastard files, smooth, \$2 70; twenty-four (24) 4-inch three-square flat bastard files, \$3 84—tools .....	11 74
One (1) Morse twist drill, $\frac{1}{8}$ -inch, 9 cents; one (1) Morse twist drill, $\frac{1}{4}$ -inch, 13 cents; one Morse twist drill, $\frac{5}{8}$ -inch, 16 cents; one (1) Morse twist drill, $\frac{3}{16}$ -inch, 18 cents—tools .....	56
Five (5) pounds brass-spring wire, No. 24, Stubs' gauge, \$3; thirty (30) pounds assorted sheet-brass, \$18 ..	21 00
One (1) pair 6-inch cutting-nippers, \$1; one (1) pair 3-inch cutting-nippers, 40 cents; one (1) pair 4-inch round-nosed pliers, 60 cents .....	2 00
One (1) steam-engine to run lathe and dynamo machine .....	500 00
	3,742 70

## DEPARTMENT OF ENGINEERING.

For instruction of officers in engineering—	
One (1) portable astronomical transit, complete .....	\$500 00
One (1) small camera, for triangulation .....	150 00
Four (4) measuring-tapes, corded linen, 100 feet .....	7 00
Two (2) surveyor's chains, 100 feet .....	18 00
Twelve (12) aneroid barometers .....	360 00
Two (2) steel tapes, 50 feet .....	18 00
Six (6) proportional dividers .....	88 50
For engineering and military drawing—	
Four (4) circular protractors, (Crozet) .....	140 00
Twenty-four (24) steel rules, nickel-plated, 50 inches long .....	120 00
Twenty-four (24) steel triangles, nickel-plated, 10 inches long .....	50 00
One (1) pantagraph, 36 inches .....	30 00
Six (6) drawing-boards and frames .....	20 00
Instruction of officers and men—	
For current supplies of chemicals for military photography, including bromides, chlorides, iodides, cyanides, nitrate of silver, &c .....	1,000 00
For drawing-paper and materials, for use as name implies .....	150 00
For lumber, nails, &c., for models, and for practical instruction in profiling field defences and construction of magazines .....	145 00
For hire of horses for instruction of officers in practical reconnoissance .....	680 00
For books of reference, current periodicals, and literature of engineering .....	60 00
Four (4) cases for hanging and displaying large maps for instruction .....	130 00
Miscellaneous expenditure, contingencies, and repairs of instruments .....	150 00
	3,816 50

## DEPARTMENT OF MILITARY HISTORY, GEOGRAPHY, AND GRAND TACTICS.

For books of reference, blank books, maps, paper, and drawing-material.....	\$200 00
---	----------

## DEPARTMENT OF LAW AND MILITARY ADMINISTRATION.

For books of reference and text-books.....	\$100 00
--	----------

## MISCELLANEOUS AT HEADQUARTERS.

Type, paper, and printing-material, for current memoranda and school documents.....	\$300 00
Cutting-machine for bindery and repair-shop.....	300 00
Extra-duty pay for clerks, mechanics, messengers, (enlisted men).....	900 00

1,500 00
----------

Grand Total.....	\$9,359 20
------------------	------------

## APPENDIX U.

*Explanation of the estimates for the Expenses of the Mississippi River Commission. (See page 170.)*

OFFICE OF THE MISSISSIPPI RIVER COMMISSION,  
Detroit, Mich., August 11, 1880.

SIR: By direction of the Mississippi River Commission, I have the honor to submit the following estimate for surveys, and examinations, and the necessary salaries and other expenses of the Commission for the fiscal year ending June 30, 1882, as follows:

To continue the "surveys of the Mississippi river, between the head of the passes, near its mouth, and its headwaters, now in progress;" to make "additional surveys and examinations of said river and its tributaries;" to make such additional examinations and investigations, topographical, hydrographical, and hydrometrical, as are necessary for maturing a plan for the permanent improvement of the entire river; for salaries and expenses of Commission in travelling, mileage, and inspection; for office expenses, computing, draughting, &c., and for publication of maps and results, \$220,000.

## DETAILS OF ESTIMATE AS FOLLOWS:

Salaries and travelling expenses of Commission, office expenses, and reduction of work..	\$40,000 00
Continuation of surveys and gaugings of Mississippi river and its tributaries.....	160,000 00
Permanent gauge-stations and borings.....	10,000 00
Publication of maps and results.....	10,000 00

Very respectfully, your obedient servant,

Q. A. GILLMORE,  
Lieut. Col. of Engineers and Bvt. Maj. Gen., U. S. A.  
President of the Commission.

Hon. ALEX. RAMSEY,  
Secretary of War, Washington, D. C.

## APPENDIX V.

*Statement of appropriations made during the Second Session of the Forty-sixth Congress for the fiscal year ending June 30, 1881, for which no estimates are submitted for the fiscal year ending June 30, 1882; also, deficiency and miscellaneous appropriations made during the same session.*

## LEGISLATIVE.

## UNITED STATES SENATE.

Salaries, officers and employés, 1880.....	\$4,618 73
Salaries, officers and employés, 1879.....	105 45
One month's compensation to certain employés.....	8,035 00
One month's pay to discharged employés.....	415 00
Clerks to committees, and pages, 1880.....	342 50
Clerks to committees, and pages, 1879.....	319 30
Stationery and newspapers, 1879.....	9,500 00
Furniture and repairs, 1879.....	12 00
Pay of folders, 1880.....	1,000 00
Pay of folders, 1879.....	90 00
Miscellaneous items, 1880.....	50,000 00
Salaries of Capitol police, 1880.....	56 25
Capitol police, contingent fund, 1881.....	50 00
Payment to Chester R. Faulkner.....	360 00

Total Senate.....	74,904 23
-------------------	-----------

## HOUSE OF REPRESENTATIVES.

Salaries, officers and employes, 1880.....	\$1,672 64
Salaries, officers and employes, 1879.....	836 00
Salaries, officers and employes, 1878.....	2,144 93
One month's compensation to certain employes.....	13,048 48
Clerks to committees, 1879 and 1880.....	1,242 00
Clerks to committees, 1878.....	1,434 00
Pages, 1878.....	87 00
Materials for folding, 1880.....	3,000 00
Stationery and newspapers, 1879.....	37,750 00
Fuel for heating apparatus, 1880.....	16 00
Furniture and repairs, 1880.....	5,500 00
Miscellaneous items, 1880.....	580 00
Miscellaneous items, 1878.....	858 00
Capitol police, contingent fund, 1881.....	50 00
Cleaning Statuary Hall, 1879-'80.....	400 00
Summary reports of Commissioners of Claims, 1881.....	2,000 00
Relief of M. M. Herr.....	605 00
<b>Total House of Representatives.....</b>	<b>71,224 05</b>

## LEGISLATIVE MISCELLANEOUS.

Furniture for Library of Congress.....	\$1,500 00
Works of art for the Capitol.....	10,000 00
Salaries, Botanic Garden, 1880.....	850 00
Salaries, Southern Claims Commission, 1881.....	1,200 00
Salaries and expenses, agents Southern Claims Commission.....	24 60
<b>Total Miscellaneous.....</b>	<b>13,574 60</b>
<b>Total Legislative Establishment.....</b>	<b>\$159,702 88</b>

## EXECUTIVE.

## EXECUTIVE PROPER.

Contingent expenses, Executive Office, 1880.....	\$1,000 00
--	------------

## STATE DEPARTMENT.

Salaries, Department of State, 1880.....	\$2,000 00
Publication of Supplement to Revised Statutes.....	5,000 00
Postage, Department of State, 1877.....	9 68
<b>Total Department of State.....</b>	<b>7,009 68</b>

## TREASURY DEPARTMENT.

Salaries, Office of Second Auditor, 1880.....	\$4,233 00
Salaries, Office of Third Auditor, 1877 and prior years.....	210 00
Contingent expenses, binding, newspapers, &c., 1880.....	2,000 00
Contingent expenses, freight, telegrams, &c., 1877 and prior years.....	101 40
Contingent expenses, ice, &c., 1880.....	1,200 00
Contingent expenses, fuel, &c., 1880.....	1,250 00
Contingent expenses, gas, &c., 1880.....	5,000 00
Contingent expenses, furniture, &c., 1880.....	5,000 00
Contingent expenses, miscellaneous items, 1880.....	5,000 00
<b>Total Treasury Department proper.....</b>	<b>23,994 40</b>

## INDEPENDENT TREASURY.

Checks and certificates of deposit, 1880.....	\$6,000 00
Checks and certificates of deposit, 1879.....	248 15
<b>Total Independent Treasury.....</b>	<b>6,248 15</b>

## MINTS AND ASSAY OFFICES.

Assay laboratory, Office of Director of the Mint, 1880.....	\$480 50
Collecting mining statistics, 1881.....	5,000 00
Recoinage of gold and silver coins, 1880.....	499 49
Recoinage of gold and silver coins, 1877 and prior years.....	90 94
Contingent expenses, Mint at Philadelphia, 1880.....	15,000 00
Wages of workmen, Mint at Philadelphia, 1880.....	15,000 00

Contingent expenses, Mint at Carson, 1877 .....	\$15 42
Wages of workmen, Mint at New Orleans, 1880 .....	5,000 00
Contingent expenses, Assay Office at Helena, 1878 .....	10 93
Wages and contingent expenses, Assay Office at Charlotte, 1880 .....	500 00
<b>Total Mints and Assay Offices .....</b>	<b>41,597 28</b>

## TERRITORIAL GOVERNMENTS.

Contingent expenses, Territory of Idaho, 1877 and prior years .....	\$60 00
Legislative expenses, Territory of Montana, 1880 .....	8,640 31
Legislative expenses, Territory of Montana, 1877 and prior years .....	3,676 94
Legislative expenses, Territory of New Mexico, 1880 .....	4,800 00
Legislative expenses, Territory of Utah, 1880 .....	4,800 00
Legislative expenses, Territory of Washington, 1880 .....	4,800 00
Legislative expenses, Territory of Wyoming, 1880 .....	3,360 00
Legislative expenses, Territory of Idaho, 1881 .....	18,305 41
<b>Total Territorial Governments .....</b>	<b>48,442 66</b>

## INTERNAL REVENUE.

Salaries and expenses of collectors of internal revenue, 1880 .....	\$25,000 00
Salaries and expenses of collectors of internal revenue, 1877 and prior years .....	1,019 88
Salaries and expenses of agents and subordinate officers of internal revenue, 1880 .....	320,000 00
Salaries and expenses of agents and subordinate officers of internal revenue, 1877 and prior years .....	763 94
Expenses of assessing and collecting internal revenue, 1875 and prior years .....	2,186 73
Stamps, paper, and dies, 1880 .....	51,283 10
Punishment for violation of internal-revenue laws, 1878 .....	7,547 35
Punishment for violation of internal-revenue laws, 1877 and prior years .....	9,481 58
<b>Total Internal Revenue .....</b>	<b>417,282 58</b>

## WAR DEPARTMENT.

Salaries, Office of Adjutant-General, 1880 .....	\$10,582 50
Contingent expenses, Office of Adjutant-General, old Navy-Department building, 1880 .....	500 00
Salaries, Office of Surgeon-General, 1880 .....	11,758 40
Contingent expenses, Office of Surgeon-General, 1880 .....	1,000 00
Contingent expenses, War-Department building, 1880 .....	2,000 00
<b>Total War Department .....</b>	<b>25,840 90</b>

## NAVY DEPARTMENT.

Contingent expenses, Navy-Department building, 1880 .....	\$2,000 00
---	------------

## INTERIOR DEPARTMENT.

Stationery, 1880 .....	\$5,000 00
Rent of buildings, 1880 .....	4,900 00
Contingent expenses, General Land Office, 1877 and prior years .....	77 50

Grand Total ..... 25,970,704 76

STATEMENT OF THE PROCEEDS OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE FOLLOWING PROVISIONS OF LAW:

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue-cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the Appendix to the Book of Estimates.—(R. S., pages 713, 722, sections 3618, 3672, act February 27, 1877, 19 Stats., 249.)

LETTER  
OF THE  
SECRETARY OF THE TREASURY  
RETURNING THE  
ESTIMATES OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA  
FOR THE  
FISCAL YEAR ENDING JUNE 30, 1882,  
WITH A  
STATEMENT OF THE AMOUNT APPROVED BY HIM, AND THE FUND OR PURPOSE TO WHICH EACH ITEM BELONGS.

---

J. M. T. H. M.

SECRETARY OF THE TREASURY

OFFICE OF THE COMMISSIONER OF THE DISTRICT OF COLUMBIA

FISCAL YEAR ENDING JUNE 30, 1922

TABLE

STATEMENT OF THE AMOUNT RECEIVED BY HIM, AND THE FUND OR FUNDS TO WHICH EACH SUCH RECEIPT

# LETTER OF THE SECRETARY OF THE TREASURY.

TREASURY DEPARTMENT,  
Washington, D. C., November 30, 1880.

GENTLEMEN: By section 3 of "An act providing a permanent form of government for the District of Columbia," approved June 11, 1878, it is made the duty of the Secretary of the Treasury to carefully consider all estimates submitted to him for the expenses of the District of Columbia, and to approve, disapprove, or suggest such changes in the same, or any item thereof, as he may think the public interest demands; and, after such consideration, to cause to be made a statement of the amount approved by him, and the fund or purpose to which each item belongs, which shall be certified by him and delivered, together with the estimates as originally submitted, to the Commissioners of the District of Columbia, who shall transmit the same to Congress.

Pursuant to this duty, the Secretary returns herewith the estimates submitted by you for the expenses of the District of Columbia for the fiscal year ending June 30, 1882, with his approval, as follows:

*For Improvements and Repairs.*—Repairs to concrete pavements, \$75,000; completion of New York Avenue intercepting sewer, \$12,000; repairs to macadam roadways, \$10,000; materials for permit-work, \$20,000; continuation of surveys of the District of Columbia with reference to the extension of various avenues to the District line, \$5,000; Boundary Street auxiliary sewer, \$100,000; lateral sewers, \$20,000; dredging James Creek canal, \$10,000; work on sundry avenues and streets and replacement of pavements, \$169,049 84—in all, \$421,049 84.

*For Constructing, Repairing, and Maintaining Bridges.*—Ordinary care of Benning's, Anacostia, and Chain bridges, \$2,000; maintenance and repairs of bridges under the control of the Commissioners of the District of Columbia, \$500—in all, \$2,500.

*For Washington Aqueduct.*—Engineering, maintenance, and general repairs, \$20,000.

*For Maintaining Institutions of Charity, Reformatories, and Prisons.*—Washington Asylum, \$45,000; new work-house at Washington Asylum, \$4,500; almshouse, Washington Asylum, \$3,700; Georgetown almshouse, \$1,800; Government Hospital for the Insane, \$89,550; transportation of paupers and conveying prisoners from the police court to the work-house, \$3,500; Reform School, \$31,254 19; maintaining the jail, \$60,000; relief of the poor, \$15,000; Columbia Hospital for Women and Lying-in Asylum, \$15,000; Children's Hospital, \$5,000; Saint Ann's Infant Asylum, \$5,000; Industrial Home School, \$5,000—in all, \$284,304 19.

*For General Expenses.*—Executive office, \$17,040; auditor and comptroller's office, \$12,400; old records division, \$2,100; special assessment division, \$4,200; treasurer and assessor's office, \$20,200; collector's office, \$11,400; sinking-fund office, \$2,400; coroner's office, \$2,500; attorney's office, \$8,012; office of inspector of buildings, \$5,580; property division, \$11,015; division of streets, alleys, and county roads, \$5,600; office of inspector of gas and meters, \$3,000; harbor-master, Georgetown, \$80; sealer of weights and measures, \$80; engineer's office, \$28,850; miscellaneous and contingent expenses of the foregoing offices, including rent, repairs, insurance, fuel, gas, ice, printing, books, stationery, car-fare, postage, detection of fraud on the revenue of the district, forage, repairs to wagons, furniture and miscellaneous items, \$22,238—in all, \$156,695.

*For Streets and Lamps.*—Sweeping, cleaning, and sprinkling streets and avenues; cleaning alleys; current repairs to streets; cleaning and repairing lateral sewers and basins; and current repairs to county roads, \$126,500; parking commission, \$20,000; illuminating material, lighting, extinguishing, repairing, erection, and superintendence of street-lamps, \$129,900—in all, \$276,400.

*For Metropolitan Police,* \$299,085.

*For Fire Department,* \$105,240.

*For Courts and Judicial Expenses,* \$16,818.

*For Public Schools,* \$422,600.

*For Markets,* \$7,400.

*For Miscellaneous Expenses.*—Repairs to hay-scales, \$500; general advertising, \$7,000; books for register of wills, printing checks, damages, and miscellaneous items, \$5,000; repairs of police-court building, pound-stables, and other buildings for which no provision has been made, \$2,000—in all, \$14,500.

*For Health Department.*—Health officer, inspectors, clerks, and other assistants to health officer, \$17,200; contingent expenses, \$3,860; removal of garbage, \$17,000—in all, \$38,060.

*For Judgments.*—Payment of judgments against the District of Columbia, \$6,000.

*For Interest and Sinking-fund.*—Interest and sinking-fund on the funded debt, exclusive of water-bonds, \$1,213,947 97; payment of the Linthicum loan, \$40,000; interest on Linthicum loan, \$2,400—in all, \$1,256,347 97.

*For General Contingent Expenses.*—General contingent expenses, to be expended only in case of emergencies, such as riot, pestilence, calamity by flood or fire, &c., \$17,500; pay of temporary employes, \$7,500—in all, \$25,000; making an aggregate total of \$3,352,000, one-half of which will be provided for from the revenues to be derived by the District.

These estimates differ from those submitted by the Commissioners in respect to the following items:

*Increase—*

Government Hospital for the Insane.....	\$52,550 00
Reform School.....	6,254 19
Expenses of the jail.....	60,000 00
Linthicum loan.....	40,000 00

Total increase..... \$158,804 19

*Decrease—*

Miscellaneous expenses of offices .....	\$350 00	
Street lamps .....	1,000 00	
Health department .....	6,140 00	
Work on sundry avenues and streets .....	151,314 19	
		\$158,804 19
Total decrease .....		

The reasons for the foregoing changes in the estimates submitted by the Commissioners may be stated as follows:

The increase of \$52,550 in the estimate for the Government Hospital for the Insane is based upon a report made by the superintendent of the hospital, which is transmitted herewith, as an appendix to the estimates. The increase of \$6,254 19 in the estimate for the Reform School is based upon a report made by the president of the board of trustees, which also accompanies the estimates as an appendix. The estimate of \$60,000, for expenses of the District jail, is based upon the cost of maintaining said institution during the past fiscal year, and is included in these estimates for the reason that the act establishing a permanent form of government for the District of Columbia clearly requires that the cost of maintaining the jail shall be included in the estimates submitted by the Commissioners for the maintenance of all public institutions of charity, reformatories, and prisons belonging to or controlled, wholly or in part, by the District of Columbia, and which are now by law supported, wholly or in part, by the United States or the District of Columbia. An estimate of \$40,000, for payment of the Linthicum loan, has been added to the estimates submitted by the Commissioners. Bonds issued by the District at a lower rate of interest than is paid on this loan are now selling in the market at a premium, and it is believed that the best interests of the District will be subserved by the prompt payment of this debt.

The reduction of \$350 in the estimate for miscellaneous expenses of the District offices is made so that the estimate may conform to the amount appropriated for the same purpose for the current fiscal year. Congress, in making appropriations for lighting the Executive Mansion and public grounds for the fiscal year 1880, provided that no more than twenty-five dollars shall be paid per lamp for gas, and that, in case a contract cannot be made at that rate, authority is given to substitute other illuminating material. It is believed that if a like provision is adopted for the District of Columbia, a saving of at least \$1,000 can be effected in the cost of street-lamps. The estimate for this object has accordingly been reduced to that extent. The estimates for the health department are reduced in the sum of \$6,140, in order that the estimate for employes under the health officer may not exceed the amount which the act of June 11, 1878, authorizes to be expended for that purpose.

The remaining reduction of \$151,314 19 in the estimates for improvements of sundry avenues and streets is rendered necessary to enable the Secretary to limit the total of the estimates to an amount which will equal the revenue it is estimated by the Commissioners will be derived by the District from all sources during the year, and a like amount to be appropriated by Congress as the proportionate share of the United States towards defraying the general expenses of the District. Should Congress, however, decide that the expenses of maintaining the District jail are not a proper charge against the District, or that the increase recommended for the Government Hospital for Insane and Reform School is not advisable, the amount to be applied to the improvement of streets would remain substantially the same as recommended by the Commissioners, and would meet the approval of this Department. This recommendation is in accordance with the views heretofore expressed by the Secretary, that the true method to be adopted in regard to improvements in the District is to apply to that purpose the surplus revenue available after all necessary objects of expenditure are provided for.

It is the purpose of the Secretary, in accordance with the recommendation of the First Comptroller, to call the attention of Congress to the manner in which the assessment and collection of taxes and other revenues are at present made in the District, and to the duties required of the treasurer and assessor and of the collector in connection therewith.

It appears that the treasurer and assessor, as assessor, does not turn over his books to the collector upon the completion of the assessment, but retains them in his possession, making out the bills for taxes as they are called for by the taxpayers, who present them to the collector, and pay the amount thereof to him. The collector pays over daily to the treasurer and assessor, as treasurer, the amounts thus collected, taking his receipt for the same.

The treasurer himself, it would appear, also collects a portion of the revenues, such as those received for building-permits, market-rents, fines in the police court, &c., and deposits the same, together with the sums received from the collector, with the Treasurer of the United States, as required by law.

It would thus seem that the office of treasurer of the District is an unnecessary one, and that the collector should make all collections, and deposit them daily with the Treasurer of the United States; that the assessment books should be made up by the assessor and delivered to the collector before the first half of the yearly taxes becomes due; that the collector should be required to receipt for the amount of taxes shown by the books of the assessor, and should be charged therewith in his account; that all tax-bills should be made out in the collector's office, and that he should be held responsible, under his bond, for all taxes except such as he may not have been able to collect after fully complying with the requirements of law.

These changes would necessarily involve a redistribution of the force allowed for the offices of the assessor and collector, and it is believed that a reduction in the number of those employed under the present system could be accomplished.

Very respectfully,

JOHN SHERMAN,  
*Secretary.*

The Honorable COMMISSIONERS OF THE DISTRICT OF COLUMBIA.
