The total sum appropriated is \$4,065,618.99, not including indefinite appropriations which are principally for bounty to soldiers.

The appropriation for bounty and back-pay of volunteer soldiers covers a probable expenditure of about (and not more than) \$314,000.

Land-grant railroads, \$275,000.

The increasing business of the country, adding largely to the revenue in the Internal Revenue Department and the Post-Office Department, has added over \$1,000,000 to their bill.

Many claims of every shade and degree of equity and inequity have been presented to the committee for allowance, for employes of the House, as well as for other persons. But the committee has allowed nothing that is not in some definite shape an audited and allowed claim. All accounts against the present House audited and allowed by Committee on Accounts, are regarded as finally adjusted under the practice of the House.
