BEFORE ME, the undersigned authority, on this day personally appeared _____

WITNESSED my hand and seal of office this _____ day of _____ 1870.

LETTER

FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year
ending June 30, 1880.*

TREASURY DEPARTMENT,

December 2, 1878.

SIR: In conformity to the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1880, as furnished by the several Executive Departments; also, statements of the "proceeds of sales of Government property;" the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1878; and the receipts and disbursements of the Government for the fiscal year ended June 30, 1878.

I have the honor to be,

Very respectfully, your obedient servant,

JOHN SHERMAN,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

						88,000 00	88,000 00
NOTE.—In the estimates of appropriations for the clerical service of this office for the fiscal year ending June 30, 1879, an increase in the higher grades of the force was asked for. Congress did not provide for additional clerks of the higher grades, but gave an increase of three clerks, having a salary of \$1,000 each. This addition does not meet the necessities of the work. This office is charged, in addition to the current work, with the revision of a large number of claims, many of which are of long standing and involve difficult questions of law and fact, and the business of the office requires the services of clerks of the higher grades. I therefore recommend a change as follows, to wit, six chiefs of divisions, six clerks of class four, fourteen clerks of class three, and four at \$900 each, and that the other grades remain as above set forth.—(Second Comptroller.)							
OFFICE OF THE COMMISSIONER OF CUSTOMS.							
<i>Salaries, Office of Commissioner of Customs—</i>							
Commissioner.....	Mar. 3, 1875	R. S. 18	53 397	316 2	4,000 00

AMERICAN LIBRARY

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of First Auditor—Continued.</i>							
Two assistant messengers, at \$720 each.....	Mar. 3, 1875	R. S. 18	27 397	167 2	\$1,440 00		
	June 19, 1878	20	185	1			
Two laborers, at \$660 each	Same acts.....				1,320 00		
						\$53,610 00	\$53,610 00
NOTE.—By the First Auditor.—Appropriations are requested for the following employes, under the above title:							
Two clerks of class one, at \$1,200 each.....					\$2,400		
Three copyists, at \$900 each					2,700		
Three counters, at \$900 each.....					2,700		
In explanation I would state that the above does not increase the actual working-force of this office. For many years it has been found necessary to ask for additional force by a transfer of employes from other offices to accomplish the work required of this office. The above force is now employed, and is necessary for the proper performance of the duties of this office. The service would be greatly benefited by having these employes upon the regular roll of the office, and for many reasons. A transferred clerk is ever liable to be returned to the office where he is enrolled, and this often happens when he has become acquainted with the duties of his desk, and thus become of the greatest value.							
I also request that a messenger be allowed this office, at \$840					\$840		
In place of one laborer, at \$660.....					660		
					180		
Increase					7,980

						14,760 00	14,760 00
<i>NOTE.—The assistant treasurer at Cincinnati submits an increase of \$300 per annum in the salary of "interest-clerk" for the following reasons: "By reason of the increase in the quantity of bonds held and the payment of interest thereon, quarterly, instead of semi-annually, the duties and responsibilities of that desk are very largely increased. In addition to these regular duties, there is also assigned to that desk the labor and care of receiving subscriptions to the new bonds as they are issued, and that of itself is a work of great importance and responsibility, which should be recognized at least to the extent asked for in this increase." He also submits an increase of \$120 in the salary of messenger, and asks consideration of the changes suggested in titles of some of the clerkships, to make them conform more nearly to the duties respectively devolved upon them.</i>

OFFICE OF ASSISTANT TREASURER AT NEW ORLEANS.							
<i>Salaries, Office of Assistant Treasurer at New Orleans—</i>							
Assistant treasurer	June 19, 1878	R. S. 20	710 190	3595,76 1	\$4,000 00		
Cashier	June 19, 1878	R. S. 20	712 190	3609 1	2,250 00		
Receiving-teller	Same acts				2,000 00		
Book-keeper	do				1,500 00		
Clerk	do				1,000 00		
Porter, (change to "counter" requested)	do				900 00		
Day-watchman	do				720 00		
Night-watchman	do				720 00		
						\$13,090 00	
NOTE.—The assistant treasurer at New Orleans submits an increase for the force of his office with the following remarks: "The office appears to be provided with a 'porter,' but for a long while the person so designated has been occupied in counting the mutilated money presented for redemption, and preparing the same for shipment to the Department. I have found him to be a rapid and correct counter, and an excellent counterfeit detector, which makes him of considerable value to the office. I would suggest that his title be changed from 'porter' to 'counter,' and that an increase of \$100 per annum be granted him. For greater security at night there should be another watchman, at \$720 per annum, which I recommend."

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Assistant Treasurer at Philadelphia—Continued.</i>							
Two counters, at \$900 each	June 19, 1878	R. S.	712	3605	} \$1,800 00		
Five watchmen, at \$720 each		20	189	1			
	Same acts					\$33,700 00	\$33,700 00
<p>NOTE.—The assistant treasurer at Philadelphia submits the following in relation to his estimates for 1880: "The position heretofore designated superintendent of building, I have changed to superintendent, messenger, and chief watchman, a title more fully expressing the several duties performed by the incumbent. The position heretofore designated fractional-currency clerk has been changed to redemption-clerk, inasmuch as the duties now include the receipt, storage, and custody of redeemed minor coins, besides the weighing and counting of silver coin preparatory to payment. I recommend the creation of a new position, to be called assistant to the cashier, at \$1,400 per annum, in place of the second assistant registered-interest clerk, not provided for in the last appropriation. This clerk is necessary and cannot well be spared. Besides performing duties in the interest department when necessary, he had been occupied for a long time in directly assisting the cashier and chief clerk, by whom he was also assigned to duties in one department and another as the press of business required. I have designated two of the female counters as clerks and counters, in view of the fact that, owing to their qualifications and the necessity for their services, they are used at times in clerical duty. The remaining two female counters I have designated counters, dropping the word female as unnecessary. The salaries of the assistant treasurer and the cashier and chief clerk are estimated for at \$5,000 and \$2,700, respectively, the amounts at which they stood for years until July 1, 1877. These sums, in my judgment, are only a fair salary for the important and responsible duties performed." The total increase submitted by the assistant treasurer is \$2,100.</p>							
OFFICE OF ASSISTANT TREASURER AT ST. LOUIS.

<p>NOTE.—The assistant treasurer at San Francisco asks that his salary be restored to \$6,000 per annum; requests an increase of salary of cashier \$600 per annum in excess of the appropriation of last year, and an increase of \$180 per annum each for four watchmen in excess of last year's appropriation. He also asks for an additional clerk, designated coin-teller, at a salary of \$1,500 per annum, and requests that the title of stamp-clerk may be changed to chief clerk, which accords with his duties better than the designation now given. Total increase asked, \$3,320.</p>							
OFFICE OF DEPOSITARY AT TUCSON.							
<i>Salaries, Office of Depositary at Tucson—</i>							
Depositary, in addition to his pay as postmaster	March 3, 1877	R. S.	617	3211	} 1,500 00		
Night-watchman		19	306	1			
	Submitted					2,220 00	
<p>NOTE.—The appropriation for the depositary at Tucson was omitted from the legislative bill of last year, and a deficiency estimate on this account will have to be presented to Congress at this session. The depositary reports that since the commencement of the mining excitement in the southern portion of the Territory there has been a large influx of desperate characters, outlaws, and robbers, who are making Tucson their rendezvous; and he has been informed by a large number of citizens that an attempt would be made to rob the depositary. That under these circumstances he hired a night-watchman for the safe protection of the public funds; and it is found necessary that a permanent night-watchman should be attached to the office. An estimate for a night-watchman at \$720 per annum is therefore presented, and a deficiency to cover the employment of the watchman in the emergency named by the depositary will be submitted with the usual deficiency estimates.</p>

	June 19, 1878	20	195	1		
		

NOTE.—The chief clerks of divisions in the office of the Secretary of War have similar duties and responsibilities as the chiefs of divisions in the other Executive Departments and should have equal pay. They were paid at the rate of \$2,000 per annum until by the appropriation act of August 15, 1876, their pay was reduced to \$1,800. In the Treasury Department this grade is paid at the rate of from two thousand five hundred dollars (\$2,500) to two thousand seven hundred and fifty dollars (\$2,750) per annum, with an assistant at from two thousand dollars (\$2,000) to two thousand four hundred dollars, and in the bureaus of the Treasury Department the chiefs of divisions are paid from two thousand dollars (\$2,000) to two thousand five hundred dollars, (\$2,500.) In the State Department chiefs of divisions receive two thousand one hundred dollars per annum; in the Interior Department, from two thousand dollars (\$2,000) to two thousand five hundred dollars, (\$2,500); in the Post Office Department, from two thousand dollars (\$2,000) to two thousand two hundred and fifty dollars, (\$2,250.) In none of the Departments except this is the grade paid less than two thousand dollars (\$2,000) per annum, and in justice to these two clerks they should be placed on an equal footing with the same grade in the other Executive Departments.

		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Secretary of War—Continued.</i>							
One clerk of class four	Submitted				\$1,800 00		
NOTE.—In addition to the present force allowed to the Secretary's office, at least one clerk of class four is necessary to the proper management and discharge of such current business of the office as requires especial experience, skill, and diligence. In order to promptly pay Congressional awards on claims of loyal citizens, claims under the act of July 4, 1864, relief acts, and on awards in view of deficiencies in former appropriations, the whole force of the division of requisitions and accounts, has been compelled to perform extra duty on these matters since the second session of the present Congress. As no substantial consideration can accrue to the clerks who render such extra service, and who must sooner or later tire of simple "thanks" for such service, this practice cannot long continue after these remarks shall be duly considered.							
Four clerks of class three	June 20, 1874	R. S. 18	27 99	167 1	6,400 00		
Four clerks of class two	June 19, 1878	20	195	1	5,600 00		
Twelve clerks of class one	Same acts				14,400 00		
One clerk	Appropriated	20	195	1	1,000 00		
Eight assistant messengers, at \$720 each	June 19, 1878	R. S. 20	27 195	167 1	5,760 00		
Seven laborers, at \$660 each	do				4,620 00		
Six watchmen for northwest Executive building, at \$660 each	do				3,960 00		
To enable the Secretary of War to have the rebel archives examined and copies furnished for the Government	Appropriated	20	195	1	6,600 00	\$77,440 00	\$75,240 00
<i>Contingent Expenses, Office of Secretary of War—</i>							
Blank books, stationery, labor, books, maps, and miscellaneous items	Appropriated	20	195	1		10,000 00	8,000 00
NOTE.—This estimate for \$10,000 is based upon actual necessities, which embrace the purchase of blank books, stationery, pamphlets, newspapers, car-tickets, soap, towels, brooms, &c., and the expenses of carriage-hire, telegrams, &c., for the office. Less than \$10,000 will be insufficient to meet current and increased expenses under this head. The increased expenses will be actually necessary in occupying the new building, and will arise in various ways, especially in adjusting furniture, fixtures, and other matters coincident to the satisfactory arrangement of offices and of labor-saving contrivances.

Chief clerk	June 20, 1874	R. S. 18	35 101	215 1	1,800 00		
	June 19, 1878	20	195	1			
One clerk of class three	June 20, 1874	R. S. 18	27 101	167 1	1,600 00		
	June 19, 1878	20	195	1			
One clerk of class one	Same acts				1,200 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Bureau of Military Justice—Continued.</i>							
One clerk of class one	Submitted				\$1,200 00		
One assistant messenger	June 19, 1878	R. S. 20	27 195	167 1	720 00		
						\$6,520 00	\$5,320 00
NOTE.—No reason exists why this bureau should not be provided with the same clerical force allowed it by the act of March 3, 1877, (19 Stat., 310.) Its business has increased rather than diminished during the past year, and the four clerks estimated for are necessary for the proper performance of its official business.							
<i>Contingent Expenses, Bureau of Military Justice—</i>							
For office-furniture, stationery, law-books, &c	Appropriated	20	195	1		1,500 00	250 00
NOTE.—In the estimates submitted last year, an increase in the contingent fund was asked for that year mainly for the purchase of law-books for the bureau, for necessary office-furniture, and also to enable the bureau to furnish the judge advocates of the Army stationed at the headquarters of military departments with law-books greatly needed by them in the discharge of their official duties. The sum proposed, a very moderate one in view of the objects intended, was, however, not allowed, and the contingent fund heretofore appropriated for the bureau (\$500) was reduced to \$250—a sum totally inadequate to meet its ordinary contingent expenses. It is believed that the appropriation desired will be most beneficial to the public service, and the same is accordingly recommended for the fiscal year ending June 30, 1880.

One assistant messenger	June 19, 1878	R. S. 27	167	1	720 00		
	June 19, 1878	20 195	1	1			
Two laborers, at \$660 each	Submitted	20 195	1	1	1,320 00		
One laborer	Submitted	20 195	1	1	660 00		
Two watchmen, at \$660 each	June 19, 1878	20 195	1	1	1,320 00		
Two clerks, temporary, to be employed for six months during the sessions of Congress, at \$100 per month	Submitted				1,200 00		
NOTE.—The above estimate conforms in numbers to those recommended in the estimate for the last fiscal year, and it is urgently requested that the full number estimated for may be authorized. The necessity for an additional number of clerks of higher grades to perform the more important clerical work of this office will be apparent to any one who has had experience in conducting such work. The numbers of clerks, messengers, and laborers recommended are not equal to those now employed in this office—five general-service enlisted men and one messenger detailed from the War Department, being employed as clerks, and one assistant messenger from the War Department as laborer. If clerks and laborers should be allowed as asked for by this estimate, the work of the bureau will be much better performed with the reduced number than with the present force, and at little, if any, increased expense. During the past year no less than eleven detailed general-service (enlisted) men have been on duty in this office—five being the greatest number at any one time allowed. As the best ones, as soon as permanent positions are found for them in other bureaus or Departments, are appointed thereto, this bureau has to commence the education of a new clerk with the probability that it will soon lose his services. The salary of a thousand-dollar clerk does not, it is understood, exceed the pay and allowances of an enlisted general-service man, and it is urgently recommended that the number of clerks and other employes for this office may be appropriated for as recommended, and thus the necessity for employing any general-service men or messengers appropriated for in other Departments may be avoided. As the services of all the clerks estimated for will be required in performing the ordinary current work of the office, two temporary clerks for six months, at \$100 per month, have been included in the estimate, to be employed when necessary to enable this office to answer the many demands for information made upon it during the session of Congress.							
<i>Contingent Expenses, Office of Commissary General—</i>							
Rent of suitable building for use as office of the Commissary General of Subsistence	Appropriated.	20	195	1	3,000 00		
Purchase of blank books, stationery, fuel, gas, office-furniture, carpets and matting, repairs, and miscellaneous and incidental expenses, including purchase of books for library, pamphlets, and newspapers	do.				3,000 00

One laborer.....	June 19, 1878	20	196	1	660 00		
						29,380 00	20,380 00
NOTE.—The present clerical force is insufficient to transact the business which by law is devolved on this office. Over four thousand property returns remain unsettled. This delay in the examination and adjustment of the proper accountability of officers of the Army is often the cause of injustice to the officers and of pecuniary loss to the United States. Other important office-work is also delayed. This office is divided into three divisions, each requiring a clerk of great experience and knowledge in charge. These chiefs of divisions were, and should be now, graded and paid as fourth-class clerks.							
<i>Contingent Expenses, Office of Chief of Ordnance—</i>							
Stationery, envelopes, wrapping-paper for sending blanks to the arsenals, forts, permanent batteries, and troops in the field; telegrams, express-charges, and incidentals of a similar nature; furniture, matting, carpets, oil-cloth, professional books for Ordnance-department library, pamphlets, and newspapers..... <i>Salaries, Office of Chief Engineer—Continued.</i>							
One clerk of class four.....	Submitted				\$1,800 00		
Two clerks of class three.....	June 20, 1874	R. S.	27	167	3,200 00		
	June 19, 1878	18	100	1			
Two clerks of class three.....	Submitted				3,200 00		
	June 20, 1874	R. S.	27	167	4,200 00		
June 19, 1878	18	100	1				
Three clerks of class two.....	Submitted				1,400 00		
	June 20, 1874	R. S.	27	167	3,600 00		
June 19, 1878	18	100	1				
One clerk of class two.....	Submitted				1,200 00		
	June 20, 1874	R. S.	27	167	1,000 00		
June 19, 1878	18	100	1				
One clerk.....	Submitted				840 00		
One messenger.....	Submitted				720 00		
One assistant messenger.....	June 20, 1874	R. S.	27	167	1,320 00		
	June 19, 1878	18	100	1			
Two laborers, at \$660 each.....	June 20, 1874	R. S.	27	167	1,320 00		
	June 19, 1878	18	100	1			
					\$31,680 00	\$23,240 00	
NOTE.—This estimate is for the same force as was provided for by the act of June 20, 1874, with the addition of one clerk of the new grade of \$1,000, appropriated for in the act of June 19, 1878. The recommendation heretofore made that the clerical force of the office be restored to the organization under the appropriation act of June 20, 1874, is respectfully renewed. Experience has shown the necessity of a force not less than that under the said organization for the prompt and intelligent transaction of the business of the office.							
<i>Contingent Expenses, Office of Chief Engineer—</i>							
Stationery, office-furniture, and miscellaneous and incidental expenses; purchase of professional books, maps, and two Washington newspapers.....	Appropriated.	20	196	1	3,500 00	2,500 00	
NOTE.—The amount of this estimate is increased over the appropriation for the current fiscal year to provide for the purchase of professional books and maps; the amount of the present appropriation being barely sufficient for stationery, office-furniture, and miscellaneous incidental expenses. Three thousand five hundred dollars was appropriated for the year ending June 30, 1874, and \$3,000 since for each year up to and including fiscal year 1876-'77.							
MISCELLANEOUS.							
<i>Salaries, Superintendent, &c., War-Department Building—</i>							
Superintendent.....	June 20, 1874	R. S.	35	215	250 00		
	June 19, 1878	18	101	1			
Engineer in charge of heating the building.....	June 20, 1874	R. S.	18	101	1,200 00		
	June 19, 1878	20	196	1			
One conductor of the elevator.....	Submitted				720 00		
Four watchmen, at \$660 each.....	June 20, 1874	R. S.	18	101	2,640 00		
	June 19, 1878	20	196	1			
Two laborers, at \$660 each.....	Same acts.				1,320 00		
					6,130 00	5,410 00	
<i>Contingent Expenses, War-Department Building—</i>							
Labor, fuel, light, and miscellaneous items.....	Appropriated.	20	196	1	8,000 00	6,000 00	
NOTE.—Under this head at least \$2,000 per annum more than has been required for the old building will be necessary for additional material and labor in the new building. The rooms and halls in two more floors are to be heated, lighted, and cleaned. Some portions of the building, especially the hall-floors, must be scrubbed, and this work alone will necessitate the employment of labor additional to that heretofore necessary for this Department. In this connection, it may be noticed, seventy-five charwomen are required for such work in the Treasury Department and ten in the Department of State.							
<i>Salary of Superintendent, Building corner of Fifteenth Street and Pennsylvania Avenue—</i>							
Superintendent of the building occupied as the Quartermaster General's office.....	June 20, 1874	R. S.	35	215	250 00	250 00	
	June 19, 1878	18	101	1

<i>Postage, Department of the Interior—</i>							
Postage for the Department of the Interior and its several bureaus and offices.....	Appropriated.	20	206	2		30,000 00	36,000 00
NOTE.—The estimate of the Secretary of the Interior for "Printing and binding," under section 2, act of May 8, 1872, (R. S., 720, section 3661,) will be found under the title of "Miscellaneous," <i>post</i> .							
OFFICE OF ASSISTANT ATTORNEY GENERAL.							
<i>Salaries, Office of Assistant Attorney General, Interior Department—</i>							
One clerk	June 19, 1878	20	198	1	2,500 00	9,700 00	2,250 00
Three clerks, at \$2,000 each	Submitted				6,000 00		
One clerkdo.....				1,200 00		
NOTE.—For explanation of this estimate, see Appendix, marked "C."							
GENERAL LAND OFFICE.							
<i>Salaries, General Land Office—</i>							
Commissioner of the General Land Office	Mar. 3, 1875	R. S. 18	76 364	446 1	}	4,000 00	
.....	June 19, 1878	20	199	1			
Chief clerk, (increase submitted).....	Mar. 3, 1853	R. S. 10	74 211	440 3	}	2,250 00	
.....	Mar. 3, 1875	18	364	1			
.....	June 19, 1878	20	199	1			
NOTE.—The chief clerk is required by law to act as commissioner in case of vacancy or of the absence or sickness of that officer, and must be fully competent to take charge and control of the bureau at all times. He should receive the usual salary of a deputy bureau officer. It may be added that the proper duties of this office are unusually intricate, complex, and arduous, and fully deserve the salary herein estimated.							
Law-clerk, (increase submitted).....	Mar. 3, 1875	18	364	1	}	2,250 00	
.....	June 19, 1878	20	199	1			
NOTE.—The law-clerk must be thoroughly conversant with land-law and practice, as well as with the usages and practice of the Department, and be able to grasp and summarize at once the various questions involved in land-contests and the construction of statutes, and to present the same in proper form for the consideration and action of the head of the bureau and the chiefs of divisions. The compensation estimated for is very moderate, considering the nature of the work and the qualifications required. Few attorneys competent to perform the duties could be found willing to do so for the amount named.							
Recorder	Mar. 3, 1875	R. S. 18	76 364	447 1	}	2,000 00	
.....	June 19, 1878	20	199	1			
Three principal clerks as chiefs of divisions of Public Lands, of Private Land Claims, and of Surveys, at \$2,000 each	Mar. 3, 1875	R. S. 18	76 364	448 1	}	6,000 00	
.....	June 19, 1878	20	199	1			
Six additional chiefs of divisions, at \$2,000 each.....	Submitted				}	12,000 00	
.....	Mar. 3, 1853	10	211	3			
.....	Mar. 3, 1875	18	364	1			
.....	June 19, 1878	20	199	1			
NOTE.—The recorder, in addition to his statutory duties, with the principal clerks and chiefs of divisions, occupy the relation of staff officers to the Commissioner. Each has exclusive charge of a particular class of work and of the clerical force employed upon it. They must know the rules of the whole office and the laws governing the whole land system, the relations of the classes being so intermixed as frequently to involve nearly the whole of them in the consideration of a single case. No higher service is performed by the subordinate officers of any Department, not excepting the Treasury, where the salaries range from twenty-seven hundred to thirty-five hundred dollars. Until this aid is given to the bureau no Commissioner can perform with satisfaction or justice to the people or to Congress the responsible labors of the land service. The salaries submitted are far below the measure of desert required in return. The number of chiefs asked for corresponds to the necessary division of work in the office.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.			References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
	Vol. or R. S.	Page.	Sec.	Vol. or R. S.	Page.	Sec.			
<i>Salaries, General Land Office—Continued.</i>									
Twenty-two clerks of class three	Mar. 3, 1853	R. S.	27	167	} \$35,200 00				
	Mar. 3, 1855	10	211	3					
	July 20, 1868	10	664	1					
	Mar. 3, 1875	15	100	1					
	June 19, 1878	18	364	1					
Forty clerks of class two.....	Same acts					56,000 00			
NOTE.—The number of clerks of classes two and three estimated for is far below the actual requirements of the work of this bureau. The duties devolved upon clerks in these grades cannot be performed by those in the lower grades; and in justice to the settlers on the public domain, who have complied with the requirements of law in making their claims, and are awaiting final adjudication by this office, the number should be increased.									
One hundred and twenty-six clerks of class one	do.					151,200 00			
One draughtsman, at \$2,000; one assistant draughtsman, at \$1,600; and ten assistant draughtsmen, at \$1,200 each.	Submitted				} 15,600 00				
	July 4, 1836	5	112	10					
	April 22, 1854	10	276	1					
	Mar. 3, 1875	18	364	1					
NOTE.—The estimates for draughtsmen are based upon the ascertained wants and needs of the office. Heretofore the work has been done by detailed clerks, possessing some qualifications therefor, but not always in the best manner, and usually after great and inconvenient delay. There should be ample provision for this work, and it is believed that the estimate made will be within the absolute requirements of the service.									
Four messengers, at \$840 each; and ten assistant messengers, at \$720 each	July 4, 1836	R. S.	27	167	} 10,560 00				
	Mar. 3, 1869	5	112	10					
	Mar. 3, 1875	15	287	1					
	June 19, 1878	18	364	1					
Two packers, at \$720 each	Submitted				} 1,440 00				
	July 4, 1836	5	112	10					
	Mar. 3, 1869	15	287	1					
	Mar. 3, 1875	18	364	1					
Twelve laborers, at \$720 each	Mar. 3, 1869	15	287	1	} 8,640 00				
	Mar. 3, 1869	15	291	1					
	Mar. 3, 1875	18	364	1					
	June 19, 1878	20	199	1					
							\$307,140 00	\$220,360 00	
<p><i>Provided</i>, That the Secretary of the Interior, at his discretion, shall be, and he is hereby authorized to use any portion of the said appropriation for piece-work, or by the day, month, or year, at such rate or rates as he may deem just and fair, not exceeding a salary of \$1,200.</p> <p>NOTES.—The estimates for service in the lower grades, messengers and laborers included, are less than the needs of the office require, but are submitted as the very lowest possible to secure proper efficiency and dispatch. The lack of help in these positions has up to this time greatly impaired the morale of the bureau in compelling clerks and chiefs of divisions to leave their proper work and occupy their time in performing service really pertaining to messengers and copyists. It is hoped the full number herewith estimated for may be authorized.</p>									
<i>Contingent Expenses, General Land Office—</i>									
Stationery, diagrams, parchment paper for land-patents, furniture and repairs of the same, miscellaneous items for the actual expenses of clerks detailed to investigate fraudulent land-entries, trespasses on the public lands, and cases of official misconduct, and for advertising and telegraphing	May 8, 1872	17	75	1	} 40,000 00

Chief clerk.....	June 19, 1878	R. S. 20	74 199	440 1	2,500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page	Sec.			
<i>Salaries, Office of Commissioner of Patents—Continued.</i>							
Three examiners-in-chief, at \$3,000 each	June 19, 1878	R. S. 20	80 199	476-7 1	\$9,000 00		
Examiner of interferences	June 19, 1878	R. S. 20	74 199	440 1	2,500 00		
Examiner of trade-marks	Same acts				2,500 00		
Twenty-three principal examiners, at \$2,500 each	do				57,500 00		
Twenty-three first assistant examiners, at \$1,800 each	do				41,400 00		
Twenty-three second assistant examiners, at \$1,600 each	do				36,800 00		
Twenty-three third assistant examiners, at \$1,400 each	do				32,200 00		
One librarian	do				2,000 00		
One machinist	do				1,600 00		
One financial clerk	June 19, 1878	20	199	1	2,000 00		
Four clerks of class four	June 19, 1878	R. S. 20	27 199	167 1	7,200 00		
Five clerks of class three	Same acts				8,000 00		
Nineteen clerks of class two	do				26,600 00		
Forty clerks of class one	do				48,000 00		
Thirty-two clerks, at \$1,000 each	do				32,000 00		
Sixty copyists, at \$900 each	June 19, 1878	R. S. 20	27 199	167 1	54,000 00		
Three skilled draughtsmen, at \$1,200 each	June 19, 1878	R. S. 20	74 199	440 1	3,600 00		
One messenger and purchasing-clerk	Same acts				1,000 00		
One skilled laborer	do				1,200 00		
Six model-room attendants, at \$1,000 each	do				6,000 00		
Four model-room attendants, at \$900 each	do				3,600 00		
Forty laborers, at \$660 each	June 19, 1878	R. S. 20	27 199	167-9 1	26,400 00		
Six laborers, at \$600 each	Same acts				3,600 00		
Ten pasters and folders, at \$480 each	do				4,800 00		
						\$423,500 00	\$396,690 00
<i>Contingent Expenses, Office of Commissioner of Patents—</i>							
Contingent and miscellaneous expenses, as follows: Construction and repair of model-cases, stationary portfolios for drawings, furniture and labor connected therewith, repairing, papering, painting, plumbing, gas-fitting, carpets, ice, advertising, moneys refunded, printing engraved patent-heads, international exchanges, temporary clerks and extra labor on Digest of American Patents, indices and abstracts for annual reports, and other contingencies; and no money appropriated by this paragraph shall be expended for advertising in newspapers in the city of Washington, other than the Patent-Office Official Gazette	Appropriated.	20	200	1	95,000 00		40,000 00
<i>Scientific Library, Office of Commissioner of Patents—</i>							
Purchase of books for scientific library	Appropriated.	R. S. 20	81 200	486 1	10,000 00		10,000 00
<i>Copies of Drawings, Office of Commissioner of Patents—</i>							
Photo-lithographing or otherwise reproducing copies of drawings damaged or destroyed by fire, including pay of temporary draughtsmen	Appropriated.	20	200	1	25,000 00		25,000 00
<i>Plates for Patent-Office Official Gazette—</i>							
Photo-lithographing or otherwise producing plates for the Official Gazette, including pay of employes engaged on the Gazette, and for making similar plates	Appropriated.	20	200	1	35,000 00		32,000 00
<i>Photo-lithographing, Office of Commissioner of Patents—</i>							
Photo-lithographing copies of the weekly issues of drawings, including such exhausted and other drawings as may be specially ordered; the work of said photo-lithographing or otherwise producing plates and copies, referred to in this and the two preceding paragraphs, to be done under the supervision of the Commissioner of Patents, and in the city of Washington, if it can be there done at reasonable rates; and the Commissioner of Patents, under the direction of the Secretary of the Interior, is authorized to make contracts therefor	Appropriated.	20	200	1	50,000 00		35,000 00
<i>Tracings of Drawings, Office of Commissioner of Patents—</i>							
Tracings of drawings	Appropriated.	20	200	1	5,000 00		5,000 00

NOTE.—For explanation of the foregoing estimates of the Commissioner of Patents, see Appendix, marked "F."

OFFICE OF COMMISSIONER OF EDUCATION.							
<i>Salaries, Office of Commissioner of Education—</i>							
Commissioner.....	June 19, 1878	R. S. 20	85 200	517 1	\$3,000 00		
Chief clerk.....	June 19, 1878	R. S. 20	74 200	440 1	1,800 00		
Increase.....	Submitted				200 00		
One clerk of class four.....	June 19, 1878	R. S. 20	27 200	167-9 1	1,800 00		
One additional clerk of class four.....	Submitted				1,800 00		
One statistician.....	June 19, 1878	R. S. 20	74 200	440 1	1,800 00		
One translator.....	Same acts				1,600 00		
One clerk of class three.....	June 19, 1878	R. S. 20	27 200	167-9 1	1,600 00		
One clerk of class two.....	Same acts				1,400 00		
One additional clerk of class two.....	Submitted				1,400 00		
Two clerks of class one.....	do				2,400 00		
Four copyists, at \$900 each.....	June 19, 1878	R. S. 20	27 200	167-9 1	3,600 00		
Two copyists, at \$900 each.....	Submitted				1,800 00		
One assistant messenger.....	June 19, 1878	R. S. 20	27 200	167-9 1	720 00		
One laborer.....	Submitted				720 00		
						\$25,640 00	\$17,320 00
NOTE.—The chief clerk of this office is the only one in the Department whose salary is less than \$2,000 per annum. From July 1, 1872, to October 1, 1876, he was paid \$2,000 per annum. An appropriation was made to pay one laborer during the fiscal year ending June 30, 1877, but the office not being designated in the appropriation act, the money was not available.							
<i>Contingent Expenses, Office of Commissioner of Education—</i>							
Cases for library.....	Appropriated.	20	200	1	500 00		
Library.....	do				1,000 00		
Current educational periodicals.....	do				250 00		
Other current publications.....	do				225 00		
Completing valuable sets of periodicals and publications in the library.....	do				200 00		
Telegraphing and expressage.....	do				200 00		
Collecting statistics and writing and compiling matter for annual and special reports, and editing and publishing circulars of information.....	do				8,000 00		
Additional for the same purpose*.....	Submitted				7,000 00		
Fuel and lights.....	Appropriated.	20	200-1	1	275 00		
Additional for the same purpose†.....	Submitted				125 00		
Office-furniture.....	Appropriated.	20	201	1	250 00		
Contingencies.....	do				500 00		
Additional for the same purpose.....	Submitted				575 00		
						19,100 00	11,400 00
NOTE.—For explanation of the foregoing estimates of the Commissioner of Education, see Appendix, marked "G."							
OFFICE OF AUDITOR OF RAILROAD ACCOUNTS.							
<i>Salaries and Expenses, Office of Auditor of Railroad Accounts—</i>							
Auditor.....	June 19, 1878	20	169-70	2	5,000 00		
Book-keeper.....	do				2,400 00		
Assistant book-keeper.....	do				2,000 00		
One clerk.....	Submitted				1,600 00		
One clerk.....	June 19, 1878	20	170	2	1,400 00		
One copyist.....	do				900 00		
One messenger.....	Submitted				600 00		
Travelling and other expenses.....	Appropriated.	20	170	2	2,000 00		
Incidental expenses.....	do				500 00		
						16,400 00	12,000 00
NOTE.—The Auditor suggests that it may be well to have a competent railroad engineer attached to the bureau, in order that railroad properties may be thoroughly examined and reported upon.							
UNDER ARCHITECT OF THE CAPITOL.							
<i>Salaries of Employes under Architect of the Capitol—</i>							
For person in charge of heating apparatus of the Congressional Library and Supreme Court.....	June 20, 1878	20	226	1	864 00		
One laborer in charge of water-closet in central portion of the Capitol.....	do				720 00		

* The amount annually appropriated for this essential item was, for several years, \$13,000; the reduction has severely crippled the usefulness of the office; the addition asked for is estimated on the increase of proper demands made by educators upon this branch of the work of the office.
 † The increased estimate is based on the actual experience of the current fiscal year.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries of Employés under Architect of the Capitol—Continued.</i>							
For three laborers for cleaning rotunda, corridors, and dome.....	June 20, 1878	20	226	1	\$1,800 00		
For the pay of six watchmen employed on the Capitol grounds, at \$660 each.....	June 20, 1878	20	237	1	3,960 00	\$7,344 00	\$7,344 00
Total Department of the Interior.....						1,937,354 00	1,658,734 00
PUBLIC LANDS.							
OFFICE OF SURVEYOR GENERAL OF LOUISIANA.							
<i>Salaries, Office of Surveyor General of Louisiana—</i>							
Surveyor general.....	June 19, 1878	R. S. 20	388 201	2208 1	1,800 00		
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	18,800 00	\$20,600 00	\$5,800 00
<p>NOTE.—The \$18,800 is estimated for compensation of clerk-hire, consisting of three regular clerks and draughtsmen, calling for \$4,800, and fourteen \$1,000 clerks, to bring up the arrears in office-work of many years standing, viz., to prepare duplicate patent-plats of confirmed private land claims, of which there are about 6,000 entitled to patents, and which cannot be patented until such plats are made; also to transcribe field-notes of surveys of about 780 townships, for a long while in arrears, and requiring one month of time to copy the notes of six townships by one clerk. Very limited appropriations for office-work in former years caused so extensive arrears.</p>							
OFFICE OF SURVEYOR GENERAL OF FLORIDA.							
<i>Salaries, Office of Surveyor General of Florida—</i>							
Surveyor general.....	June 19, 1878	R. S. 20	388 201	2208 1	1,800 00		
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	4,200 00	6,000 00	3,800 00
<p>NOTE.—The \$4,200 for clerk-hire is submitted, it being actually required to transact the current work and to bring up the arrears in office-work retarded by former inadequate appropriations for the same. The arrears consist of 163 townships of descriptive notes of surveys for register's offices; index diagrams to original field-notes and original township plats, and the completion of the condensed history of the private land claims of volume 4.</p>							
OFFICE OF SURVEYOR GENERAL OF MINNESOTA.							
<i>Salaries, Office of Surveyor General of Minnesota—</i>							
Surveyor general.....	June 19, 1878	R. S. 20	388 201	2208 1	2,000 00		
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	8,500 00	10,500 00	7,000 00
<p>NOTE.—The \$8,500 is estimated for seven clerks, to enable the surveyor general to employ them to attend properly to the current office-work, as well as to the bringing up of the work remaining in arrears on account of heretofore restricted appropriations for the purpose.</p>							
OFFICE OF SURVEYOR GENERAL OF DAKOTA.							
<i>Salaries, Office of Surveyor General of Dakota—</i>							
Surveyor general.....	June 19, 1878	R. S. 20	388 201	2208 1	2,000 00		
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	6,500 00	8,500 00	6,500 00
<p>NOTE.—The sum of \$6,500 is estimated for compensation of five employés in the surveyor general's office, consisting of a chief clerk, two draughtsmen, and two transcribing-clerks, actually necessary to keep pace with the field-work and avoid any arrears in the office-work.</p>							
OFFICE OF SURVEYOR GENERAL OF COLORADO.							
<i>Salaries, Office of Surveyor General of Colorado—</i>							
Surveyor general.....	June 19, 1878	R. S. 20	389 201	2210 1	2,500 00		
Clerks in his office.....	Appropriated.	R. S. 20	391 201	2226 1	7,500 00	10,000 00	6,000 00
<p>NOTE.—The \$7,500 is estimated for the compensation of five clerks and draughtsmen in the surveyor general's office, to attend to the office-work consequent on surveys of public lands and mineral surveys, which latter are sensibly increasing in Colorado and involve considerable labor in the preparation of the requisite office-work; arrears of four years are reported by the surveyor general. From the necessity of binding the field-notes of surveys, and from the fact that the appropriation for the current year has been reduced to less than one-half the amount estimated, the present estimate will be actually needed for the service.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
OFFICE OF SURVEYOR GENERAL OF NEW MEXICO.							
<i>Salaries, Office of Surveyor General of New Mexico—</i>							
Surveyor general	June 19, 1878	R. S.	389	2210	\$2,500 00		
		20	201	1			
Clerks in his office	Appropriated.	R. S.	391	2226	12,000 00		
		20	201	1			
NOTE.—The \$12,000 is submitted for compensation of chief clerk and translator of Spanish language in the adjudication of private land claims in New Mexico, \$2,000 per annum; two draughtsmen, at \$1,500 each; and five clerks, at \$1,400 each. This force is deemed necessary in view of the diminished appropriation for the like service of the current fiscal year; and also of the arrears existing in the preparation of diagrams of private land claims for the registers, showing the surveyed limits of the same.						\$14,500 00	\$8,500 00
OFFICE OF SURVEYOR GENERAL OF CALIFORNIA.							
<i>Salaries, Office of Surveyor General of California—</i>							
Surveyor general	June 19, 1878	R. S.	389	2210	2,750 00		
		20	201	1			
Clerks in his office	Appropriated.	R. S.	391	2226	27,000 00		
		20	201	1			
NOTE.—The \$27,000 estimated for clerk-hire in the office of surveyor general of California is to enable him to successfully cope with a very diversified office-work called for by numerous acts of Congress. The maximum allowance by the organic law of \$11,000 per annum having been found inadequate for several years past, appropriations were made of larger sums for the service, but not sufficient for bringing up the great arrears in the preparation of descriptive notes for the local land officers as required by law.						29,750 00	13,750 00
OFFICE OF SURVEYOR GENERAL OF IDAHO.							
<i>Salaries, Office of Surveyor General of Idaho—</i>							
Surveyor general	June 19, 1878	R. S.	389	2210	2,500 00		
		20	201	1			
Clerks in his office	Appropriated.	R. S.	391	2226	4,000 00		
		20	201	1			
NOTE.—The \$4,000 estimated for the compensation of clerks in the surveyor general's office covers scarcely the pay of three clerks for the whole fiscal year; the third clerk, \$700, for a part of the year.						6,500 00	5,000 00
OFFICE OF SURVEYOR GENERAL OF NEVADA.							
<i>Salaries, Office of Surveyor General of Nevada—</i>							
Surveyor general	June 19, 1878	R. S.	389	2210	2,500 00		
		20	201	1			
Clerks in his office	Appropriated.	R. S.	391	2226	6,500 00		
		20	201	1			
NOTE.—The \$6,500 is estimated for clerk-hire in the office of surveyor general of Nevada, to cover the compensation of clerks and draughtsman to attend to the service of the pressing public concerns necessitated by the agricultural, mineral, and other surveys, the extended mineral land surveys demanding considerable labor in order to expedite the returns of numerous surveys.						9,000 00	5,500 00
OFFICE OF SURVEYOR GENERAL OF OREGON.							
<i>Salaries, Office of Surveyor General of Oregon—</i>							
Surveyor general	June 19, 1878	R. S.	388	2209	2,500 00		
		20	201	1			
Clerks in his office	Appropriated.	R. S.	391	2226	7,000 00		
		20	201	1			
NOTE.—The \$7,000 is submitted for the compensation of five clerks in the surveyor general's office, at usual rates per annum, actually needed to attend to the current official business and to bring up the accumulated arrears in office-work since 1862, especially in regard to the swamp-land business, and the transcription of donation-claim field-notes of survey, the original being in dilapidated condition.						9,500 00	7,000 00
OFFICE OF SURVEYOR GENERAL OF WASHINGTON.							
<i>Salaries, Office of Surveyor General of Washington—</i>							
Surveyor general	June 19, 1878	R. S.	388	2209	2,500 00		
		20	201	1			
Clerks in his office	Appropriated	R. S.	391	2226	6,500 00		
		20	201	1			
NOTE.—The \$6,500 is submitted for the compensation of clerks in the office of surveyor general of Washington Territory, required for the purpose not only to expedite the current office-work, but to bring up considerable arrears in the transcription of the field-notes of former surveys of the public lands and donation claims, and recording the same as required by law, the accumulation of this kind of work having taken place during ten years, in consequence of insufficient means provided for that purpose. As the original field-notes are in a very dilapidated condition, further delay in transcribing them in proper books will cause great loss, and embarrass not only the public interests but those of individual owners of lands.						9,000 00	6,500 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
OFFICE OF SURVEYOR GENERAL OF NEBRASKA AND IOWA.							
<i>Salaries, Office of Surveyor General of Nebraska and Iowa—</i>							
Surveyor general	June 19, 1878	R. S.	388	2208	\$2,000 00		
		20	201	1			
Clerks in his office	Appropriated.	R. S.	391	2226	6,300 00		
		20	201	1			
					\$8,300 00	\$5,000 00	
NOTE.—The \$6,300 estimated for clerk-hire is to cover the pay of five clerks actually needed for the transaction of the ordinary business of the office, and which amount is allowed by law.							
OFFICE OF SURVEYOR GENERAL OF MONTANA.							
<i>Salaries, Office of Surveyor General of Montana—</i>							
Surveyor general	June 19, 1878	R. S.	389	2210	2,750 00		
		20	201	1			
Clerks in his office	Appropriated.	R. S.	391	2226	4,800 00		
		20	201	1			
					7,550 00	5,750 00	
NOTE.—The \$4,800 is estimated for the pay of clerks in the surveyor general's office to transact the official business consequent on the survey of agricultural and mineral lands in Montana, especially the latter surveys, being on an increase, will demand constant work in the examination of complicated claims, protraction of numerous plats, recording the same, transcribing field-notes, and other duties devolving on clerks too numerous to state.							
OFFICE OF SURVEYOR GENERAL OF UTAH.							
<i>Salaries, Office of Surveyor General of Utah—</i>							
Surveyor general	June 19, 1878	R. S.	389	2210	2,750 00		
		20	201	1			
Clerks in his office	Appropriated.	R. S.	391	2226	7,000 00		
		20	201	1			
					9,750 00	5,750 00	
NOTE.—The \$7,000 is submitted for the compensation of clerks in the office of surveyor general of Utah, indispensably needed to attend to extensive surveys of mineral claims, preparation of maps and field-notes of the twenty-nine mining districts, and to transact the usual regular business in the office, which will have been delayed on account of small appropriation made for the service during the present fiscal year.							
OFFICE OF SURVEYOR GENERAL OF WYOMING.							
<i>Salaries, Office of Surveyor General of Wyoming—</i>							
Surveyor general	June 19, 1878	R. S.	389	2210	2,750 00		
		20	201	1			
Clerks in his office	Appropriated.	R. S.	391	2226	7,500 00		
		20	201	1			
					10,250 00	6,250 00	
NOTE.—The \$7,500 is submitted for compensation of four clerks in the office of surveyor general of Wyoming Territory, required to transact the official business devolving on it and to bring up the arrears, consisting of the preparation of descriptive lists of corner boundaries of public lands, quality of soil and timber of 118 townships, 236 lists for the local land offices, and for the record in the surveyor general's office.							
OFFICE OF SURVEYOR GENERAL OF ARIZONA.							
<i>Salaries, Office of Surveyor General of Arizona—</i>							
Surveyor general	June 19, 1878	R. S.	389	2210	2,750 00		
		20	201	1			
Clerks in his office	Appropriated.	R. S.	391	2226	5,500 00		
		20	201	1			
					8,250 00	5,750 00	
NOTES.—The \$5,500 is estimated for clerk-hire in the office of surveyor general of Arizona Territory. This amount is actually required to pay clerks in his office, including one versed in the English and Spanish languages, to assist in the duties of examining and reporting upon titles to private land claims, the duty devolved on the surveyor general by the proviso to the appropriation act of July 15, 1870, (Statutes, vol. 16, page 304.) The surveyor general reports the cost of living in Arizona as being twenty-five per cent. higher than in any other surveying district. See letter of the Commissioner of the General Land Office, containing remarks as to the compensation of surveyors general and their clerks, in Appendix, marked "D."							
Total Public Lands					177,950 00	103,850 00	
Total Interior Department					2,115,304 00	1,762,584 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.

To the consul general at Rio de Janeiro, a sum not to exceed two thousand dollars for any one year; to the consul general at Kanagawa, a sum not to exceed fifteen hundred dollars for any one year; to the consul general at Melbourne, and the consuls at Bordeaux, Barmen, Calcutta, and Hong Kong, each a sum not to exceed one thousand dollars for any one year; and to the consuls at Dundee and Glasgow, each a sum not to exceed eight hundred dollars for any one year	Submitted				10,100 00		
						62,600 00	52,500 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Interpreters to Consulates in China, Japan, and Siam—</i>							
Interpreters to the consulates at Shanghai, \$2,000, and at Tien-Tsin, Foo-Chow, and Kanagawa, at \$1,500 each.	June 11, 1874 June 4, 1878	18 20	70 97	3 1	\$6,500 00		
Additional to Tien-Tsin, Foo-Chow, and Kanagawa, \$500 each.	Submitted				1,500 00		
Interpreters to the consulates at Hankow, Amoy, Canton, and Hong Kong, at \$750 each.	June 11, 1874 June 4, 1878	18 20	70 97	3 1	3,000 00		
Interpreters to twelve other consulates in China, Japan, and Siam, at \$500 each.	Same acts.				6,000 00		
						\$17,000 00	\$15,500 00
<i>Salaries of Consular Officers not Citizens—</i>							
Payment of consular officers not citizens of the United States.	Appropriated.	20	97	1	3,000 00		
Additional.	Submitted.				2,000 00		
						5,000 00	3,000 00
<i>Salaries, Marshals of Consular Courts—</i>							
Marshals of consular courts in Japan, China, Siam, and Turkey, including loss by exchange.	June 4, 1878	R. S. 20	796 97	4111 1	7,000 00		
Marshal for the consular court at Nagasaki.	Submitted.				1,000 00		
						8,000 00	7,000 00
<i>Expenses for Interpreters, Guards, &c., in the Turkish Dominions—</i>							
Interpreters, guards, and other expenses at the consulates at Constantinople, Smyrna, Cairo, Jerusalem, Beirut, in the Turkish Dominions.	Appropriated.	20	98	1		3,000 00	3,000 00
<i>Loss on Bills of Exchange, Consular Service—</i>							
Loss by exchange on consular service.	Appropriated.	20	98	1		8,000 00	8,000 00
<i>Contingent Expenses, United States Consulates—</i>							
Contingent expenses of United States consulates, such as stationery, book-cases, arms of the United States, seals, presses, flags, rent, freight, postage, and other necessary miscellaneous matters, including loss by exchange.	Appropriated.	R. S. 20	311 98	1748 1	115,000 00		
Additional.	Submitted.				15,000 00		
						130,000 00	115,000 00
NOTE.—An appropriation of \$15,000 additional to the amount appropriated for the current year for contingent expenses of consulates is suggested in order to avoid the necessity of asking for a deficiency appropriation on this account. It is estimated that the deficiency for this year will amount to the above sum.							
<i>Revising and Editing Consular Regulations—</i>							
For expenses of revising and editing the Consular Regulations, five thousand dollars, or so much thereof as may be necessary, to be available immediately.	Submitted.					5,000 00	
NOTE.—The existing diplomatic and consular regulations having been rendered inaccurate by reason of subsequent legislation, decisions of the Departments, and changes in treaties, it is deemed very desirable that a new edition should be published at once.							
UNITED STATES AND SPANISH CLAIMS COMMISSION.

Indians employed without pay as guides, scouts, &c.....	Submitted						10,000 00		
							2,641,736 75		
							41,736 75		
Reduction by the Secretary of War.....								\$2,600,000 00	\$2,015,000 00
<p>NOTE.—In making up this estimate the following expenses are included: Cost, at place of purchase, of subsistence supplies for issue to troops, &c.; for extra issues and for sales to officers and enlisted men, under sections 1144 and 1149 of the Revised Statutes; losses from wastage in issuing; damage in transportation; deterioration while on hand; necessary abandonment or destruction in the field; protection of supplies, including building, repair, and rent of necessary storehouses and offices; purchase of paulins, &c.; building and repairing bake-houses and ovens; the increased cost of subsistence of enlisted men when travelling under orders or when upon detached service, under circumstances which render it impracticable to issue rations to them in kind or to cook them if issued; the cost of purchasing, issuing, and accounting for subsistence supplies and of their care and preservation, including the cost of the required scales, measures, utensils, tools, stationery, office-furniture, and other necessary expenses incident to subsisting the Army, including telegrams.</p> <p>It is respectfully recommended that the appropriation for subsistence of the Army be made available from the passage of the act making the appropriation. For several years a portion of the appropriation (\$300,000) has been made available prior to the commencement of the fiscal year. If the appropriation for the year be made available from the passage of the act, it will, it is believed, be in the interest of economy, by enabling the purchase and shipment of all stores for remote posts, which can be more economically shipped in the spring than after the 30th of June, as well as those which should be shipped early in the spring instead of the heat of summer, to avoid loss in transportation.</p>									
QUARTERMASTER'S DEPARTMENT.									
<i>Regular Supplies—</i>									
Regular supplies of the Quartermaster's department, consisting of stoves for heating and cooking; of fuel for officers and enlisted men, guards, hospitals, storehouses, and offices; of forage in kind for the horses, mules, and oxen of the Quartermaster's department, at the several posts and stations, and with the armies in the field; for the horses of the several regiments of cavalry, the batteries of artillery, mounted men of the Signal Service, and such companies of infantry and scouts as may be mounted, and for the authorized number of officers' horses, including bedding for the animals; of straw for soldiers' bedding, and of stationery, including blank books for the Quartermaster's department; certificates for discharged soldiers, blank forms for the Pay and Quartermaster's departments, and for printing of division and department orders and reports..... <i>Engineer Depot at Willet's Point, N. Y.—</i>							
Purchase of engineer materials to continue the present course of instruction of the engineer battalion in field engineering	Appropriated.	20	148	1	1,000 00	5,000 00	5,000 00
Incidental expenses of the depot, such as remodelling ponton trains, repairing instruments, purchasing fuel, forage, stationery, and chemicals; extra-duty pay for soldiers engaged in special skilled labor, such as wheelwright-work, printing, binding, photographing, and lithographing engineer documents, &c	do				4,000 00		
<i>Military and Geographical Surveys of Territories of the United States West of the One-Hundredth Meridian—</i>							
For continuing the geographical survey of such portions of the territory of the United States west of the one-hundredth meridian as the Secretary of War shall direct, such surveys being hereby authorized, and the supply branches of the War Department assisting as heretofore, being for field and office-work, for the preparation and printing of maps and other illustrations, (the maps to be drawn to a scale suitable for geological representation,) for purchase of locations for connecting stations, and for the payment of such limited number of scientists and assistants as may be required in addition to the officers of the Corps of Engineers, and of other branches of the Army, as may be detailed for the purpose, to be available from the date of the appropriation	Appropriated.	20	221	1	120,000 00	75,000 00	50,000 00
Reduction by the Secretary of War					45,000 00		
<i>Military Surveys and Reconnoissances in Military Divisions and Departments—</i>							
For military surveys and reconnoissances by the engineer officers attached to the various headquarters of military divisions and departments, and for the extra-duty pay of their enlisted topographical assistants; for other military surveys, and for the construction and publication of maps for use of the War Department and the Army, to be available from the date of the appropriation	Appropriated.	19	358	1	50,000 00	40,000 00	
Reduction by the Secretary of War					10,000 00		
NOTE.—It is respectfully requested that the appropriations here estimated for may be included in the act making appropriations for the support of the Army, and, for reasons stated in the appended copies of two letters, dated June 29, 1878, from Lieut. George M. Wheeler, Corps of Engineers, who is charged with execution of the geographical survey of the territory of the United States west of the one-hundredth meridian. It is further requested that the amounts appropriated for that survey may be made available immediately after the passage of the act, as was done by the act of June 20, 1878, (vol. 20, page 221,) in order that the work may be entered upon as early in the season as practicable before commencement of the fiscal year. (See Appendix, marked "L.")							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
ORDNANCE DEPARTMENT.							
<i>Ordnance Service—</i>							
Current expenses of the Ordnance service.....	Appropriated.	20	149	1	\$200,000 00	\$150,000 00	\$100,000 00
Reduction by the Secretary of War.....	50,000 00		
<p>NOTE.—The amount estimated for under this head is required to pay the expenses at the arsenals of receiving stores and issuing arms and other ordnance supplies; of police and office duties; of rents, tolls, fuel, and lights; of stationery and office-furniture; of tools and instruments for use; of public animals, forage, and vehicles; incidental expenses of the Ordnance service, including compensation of workmen in the armory and museum building connected with the Ordnance office, and expenses attending practical trials and tests of ordnance, small-arms, and other ordnance supplies, not otherwise specially provided for. This amount cannot be reduced without embarrassment to the public service.</p>							
<i>Ordnance, Ordnance Stores and Supplies—</i>							
Manufacture of metallic ammunition for small-arms.....	Appropriated.	20	149	1	200,000 00		
<p>NOTE.—This amount of money will manufacture the ammunition for the rifles, carbines, and revolvers now in actual use, and ought not to be reduced. Rifle and carbine-ammunition costs, to manufacture, \$25 per thousand, and revolver, \$18 per thousand. For target-practice, at the present small allowance for drills, guards, instruction of recruits, funerals, and occasions of ceremony, at least four million rounds of ball and blank cartridges are needed yearly, or are actually expended. The surplus which the amount asked for will produce above the amount needed for these purposes is required for the hostile uses of the Army, and as a prudent reserve in store for general military purposes.</p>							
Overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals.....	Appropriated.	20	149	1	50,000 00		
Dismounting guns and removing the armaments, &c., from forts being repaired, modified, &c., including heavy carriages returned to arsenals for alterations and repairs, and overhauling and removing obsolete or surplus stores at permanent forts, and painting, repairing, &c.....	Submitted.....				25,000 00		
Repairing ordnance and ordnance stores in the hands of troops, and for issue at the arsenals and depots.....	Appropriated.	20	149	1	50,000 00		
Purchase and manufacture of ordnance stores to fill requisition of troops.....do.....				250,000 00		
Infantry, cavalry, and artillery equipments, consisting of clothing-bags, haversacks, canteens, great-coat straps, horse-equipments for cavalry, &c.....do.....				200,000 00		
Purchase of site for powder-depot and mills, and commencing the erection of suitable buildings.....	Submitted.....				100,000 00		
					875,000 00		
					275,000 00		
Reduction by the Secretary of War.....		600,000 00	315,000 00
<p>NOTE.—Congress has frequently been asked to appropriate money for the establishment of a powder-magazine on the Atlantic coast. Such a magazine is imperatively needed, and its construction should not be delayed. The deterioration of powder, now kept through necessity in the magazines of the sea-coast fortifications, is large—at least twelve per cent. yearly becoming unserviceable. Powder must be kept on hand, and it is economy to so place it that it can be kept in a serviceable condition. From the amount of powder now on hand it is known that the money lost by its annual deterioration, if saved, in five years will repay the Government for any money expended in the construction of proper storage facilities.</p>							
<i>Manufacture of Arms at National Armories—</i>							
Manufacture of arms at the national armory; and should a board of ordnance officers recommend a suitable magazine-gun for the military service, the Secretary of War is authorized to expend not more than \$25,000 of this amount in its manufacture.....	Appropriated.	20	149	1	900,000 00	800,000 00	150,000 00
Reduction by the Secretary of War.....	100,000 00		
<p>NOTE.—During the ten years preceding the war of the rebellion, from 1852 to 1861, there was appropriated annually, on an average, \$251,000 for the manufacture of arms at the national armories, and with this sum the wants of a smaller Army and of a smaller population permitted the gradual increase of them in store. The increased cost of the present breech-loading rifle, the greater demand for its use, and the paucity of the appropriations of late years, have left the country in a dangerous condition, there being on hand July 31, 1878, subject to issue but 19,000 rifles and carbines. It is of the most vital importance to the nation that the manufacture of arms by this Department be steadily continued in quantities sufficient to render a gradual accumulation of them in store a certainty. The number of small-arms on hand should never be less than 500,000.</p>							
<i>Armament of Fortifications—</i>							
Conversion and manufacture of heavy ordnance.....	Appropriated.	20	31	1	500,000 00		
.....do.....do.....	20	149	1			
<p>NOTE.—The object of this estimate is to continue the conversion of smooth-bore 10-inch guns into rifles of eight inches and higher calibres. Our experiments prove that this is the most economical and sure method of providing efficient guns, indispensably necessary for our fortifications.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

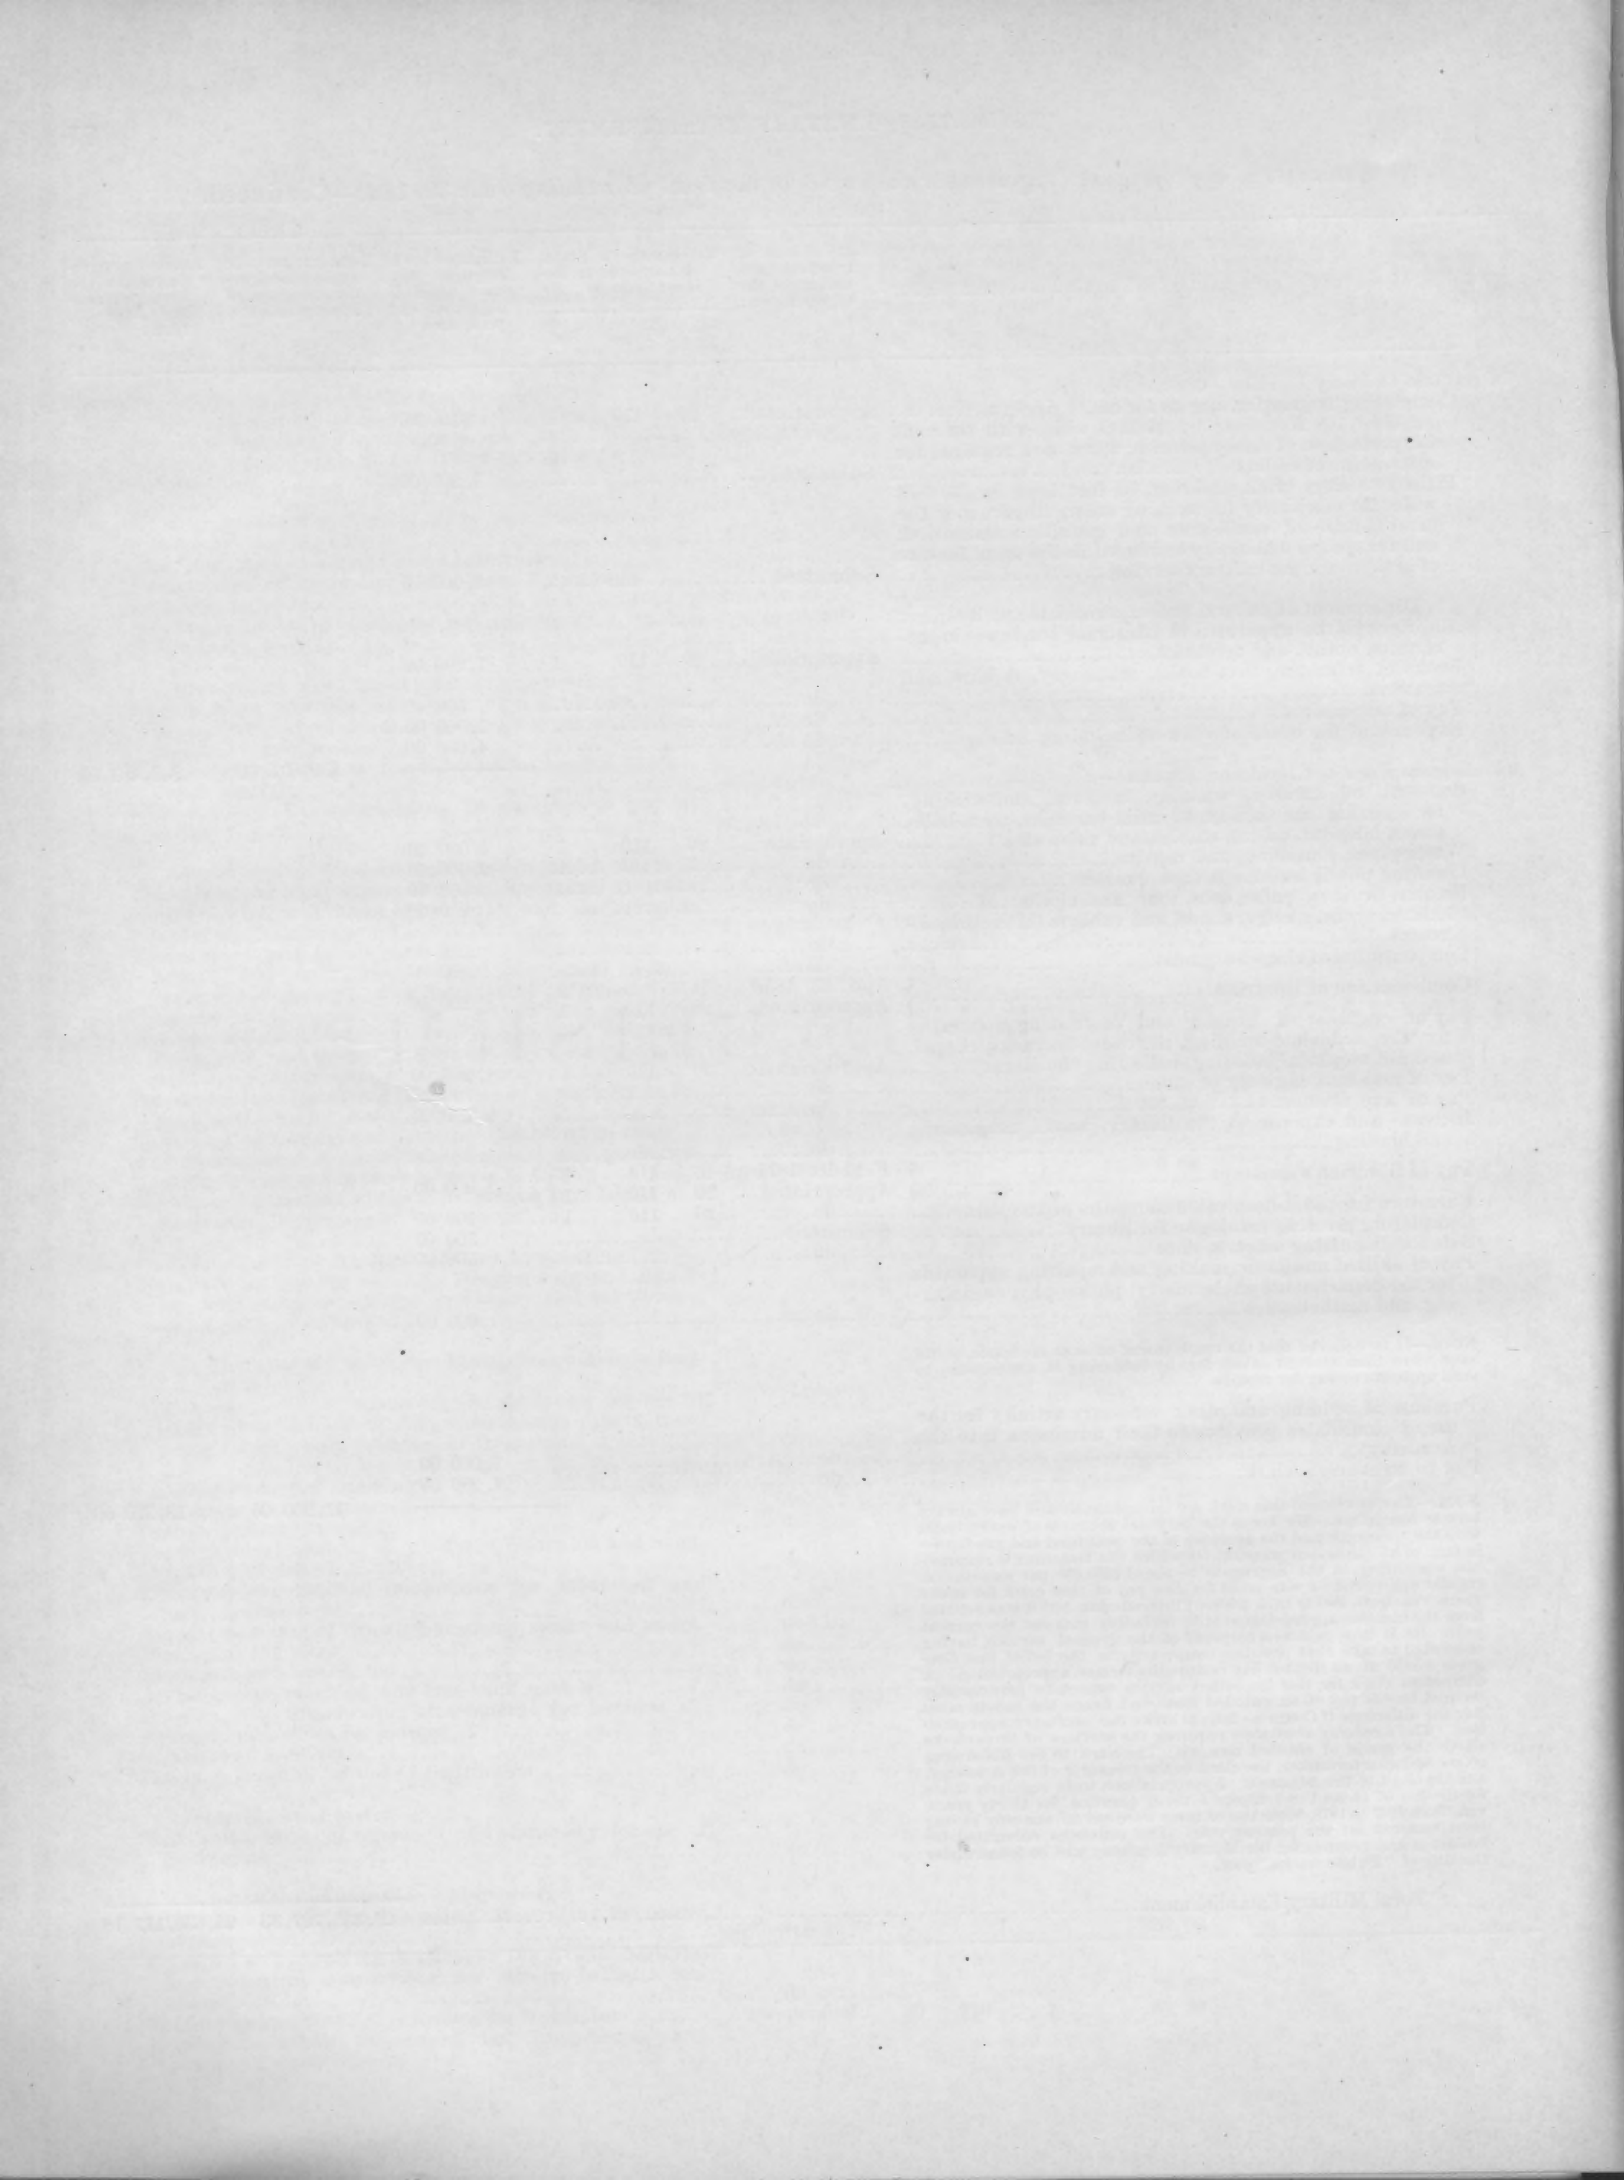

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.

Department of French; (including instruction in English studies:)							
Text-books, books of reference, and stationery for use of instructors, and for printing examination-papers, there being two separate branches of instruction.....	do.....				250 00		
Department of drawing:							
Two prismatic compasses.....	do.....				75 00		
One aneroid barometer.....	do.....				50 00		
Topographical models, in plaster, (Woolwich and Sandherst patterns).....	do.....				75 00		
Lithographing models, implements for mounting and hanging drawings.....	do.....				30 00		
Repairs to rooms of drawing-academy, desks, and racks.....	do.....				100 00		
Plates and tumblers.....	do.....				20 00		
Stretchers and boards.....	do.....				50 00		
Architectural, machine, and free-hand models.....	do.....				100 00		
Lantern, with illuminating attachments, for lectures.....	do.....				250 00		
Photographic-slides for lantern.....	do.....				75 00		
Screens and appliances.....	do.....				30 00		
Drawing material for use of instructors.....	do.....				30 00		
Department of law:							
Text-books, books of reference, and stationery for use of instructors.....	do.....				100 00		
Department of ordnance and gunnery:							
Additions to models and drawing, illustrating the course of instruction.....	Submitted.....				250 00		
Repairing and supplying deficiencies in galvanic batteries and electrical connections for electro-ballistic machine.....	do.....				50 00		
Text-books and books of reference for instructors.....	Appropriated.	20	110	1	60 00		
Keeping in repair instrument and firing-houses, and pump and water-pipe for same.....	do.....				90 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Completing frames for targets for cadet rifle-practice.....	Appropriated.	20	110	1	\$100 00		
Open shed, 100 feet long by 24 feet wide, with tin roof, for protection of field-batteries, when not required for instruction of cadets.....	Submitted				1,200 00		
Plain two-story brick building, 75 feet long by 35 feet wide, for machinery in working order, illustrating the manufacture of small-arms and metallic ammunition, and for special machinery employed in the manufacture of articles for the military service.....	Submitted				6,000 00		
Department of natural and experimental philosophy: Additions to the apparatus to illustrate the laws in mechanics, optics, and acoustics.....	Appropriated.	20	110	1	1,200 00		
Books of reference, text-books, stationery, repairs, and material.....	do				400 00		
Pay of mechanic.....	do				1,000 00		
Expenses of the board of visitors, including mileage.....	do				4,000 00		
						\$59,075 00	\$46,481 00
<i>Miscellaneous Items and Incidental Expenses—</i>							
Gas-coal, oil, candles, wicking, lanterns, and wicking, for lighting the academy, cadet-barracks, mess-halls, shops, hospital, offices, stables, and sidewalks.....	Appropriated.	20	110	1	4,000 00		
Water-pipes, plumbing, and repairs.....	do				2,000 00		
Cleaning public buildings, (not quarters).....	do				560 00		
Brooms, brushes, pails, tubs, soap, and cloths.....	do				200 00		
Chalk, crayons, sponge, slates, and rubbers for recitation-rooms.....	do				200 00		
Compensation of chapel-organist.....	do				200 00		
Compensation of librarian.....	April 23, 1856 Appropriated.	11	5	2	120 00		
Pay of engineer of heating and ventilating apparatus for the academic building, the cadet-barracks, chapel, and philosophical building, including the library.....	Appropriated.	20	110	1	1,200 00		
Pay of assistant engineer of same.....	do				720 00		
Pay of five firemen.....	do				2,200 00		
Increase and expense of the library, books, magazines, and binding.....	do				1,000 00		
Pay of librarian's assistant.....	Feb. 18, 1871 Appropriated.	16	414	1	1,000 00		
Furniture for cadet-hospital, and repairs of the same.....	do	20	110	1	100 00		
Completing printing catalogue for library.....	Submitted				500 00		
Safe for disbursing officer's office.....	do				500 00		
Pay of skilled mechanic, making and repairing apparatus for the departments of chemistry, philosophy, engineering, and mathematics.....	do				1,200 00		
NOTE.—It is believed that the employment of such mechanic would save more than amount asked for, by rendering it unnecessary to send apparatus away for repairs.							
Purchase of bedding and other necessary articles for the use of candidates previous to their admission into the Academy.....	do				1,000 00		
Pay to treasurer's clerk.....	do				1,200 00		
NOTE.—The services of this clerk are indispensable and have always been so recognized. He keeps the personal accounts of every cadet with the treasurer, and the accounts of the post-fund and gas-fund—in fact, of all funds and property for which the treasurer is responsible, amounting in the aggregate to about \$200,000 per annum. A regular appropriation was made for the pay of this clerk for many years, viz., from 1847 to 1878, without intermission, but it was omitted from the last two appropriation bills, including that for the current year. He is now paid as a corporal of the general service, having consented to take that position temporarily in the belief that Congress would at no distant day restore the former appropriation. A competent clerk for this important service cannot be permanently secured for the pay of an enlisted man, and hence the cadets must pay the difference if Congress fails to make the necessary appropriation. The Academy absolutely requires the services of three clerks above the grade of enlisted men, viz: The clerk to the disbursing officer and quartermaster, the clerk to the treasurer of the Academy, and the clerk to the adjutant. Appropriations were regularly made for the pay of these three clerks without question for thirty years, viz., from 1847 to 1878, when two of them were cut off, one only having been restored for the present year. The estimates submitted for buildings and grounds for the Military Academy will be found under the title of "Public works," <i>post.</i>							
						17,900 00	13,370 00
Total Military Establishment.....						29,335,727 33	25,636,117 18

UNDER THE NAVY DEPARTMENT.							
GENERAL SERVICE.							
<i>Pay of the Navy—</i>							
Officers on sea-duty, officers on shore and other duty, officers on waiting orders, officers on retired list; clerks; extra pay to enlisted men; exchange and mileage; officers in excess of present list, and changes of duty, &c.; pay of petty officers, seamen, ordinary seamen, landsmen, and boys, including men in the engineers' force, and for the Coast-Survey Service, 7,500 men, at the pay prescribed by law	May 4, 1878	R. S. 20	265 48-50	1556, 1595 1	}	\$7,350,000 00	\$7,350,000 00
<i>Contingent, Navy—</i>							
Rent and furniture of buildings and offices not in navy yards; expenses of courts-martial and courts of inquiry, boards of investigation, examining-boards, with clerks and witness-fees, and travelling expenses and costs; stationery and recording; expenses of purchasing-paymasters' offices at the various cities, including clerks, furniture, fuel, stationery, and incidental expenses; newspapers and advertising; foreign postage; telegraphing, foreign and domestic; copying; mail and express-wagons, and livery and express-fees, and freight; all books for the use of the Navy; care of library; experts' fees, and costs of suits; commissions, warrants, diplomas, and discharges; relief of vessels in distress, and pilotage; recovery of valuables from shipwrecks; quarantine expenses; care and transportation of the dead; reports, professional investigation, and information from abroad; and all other emergencies and extraordinary expenses, arising at home or abroad, but impossible to be anticipated or classified	Appropriated.	20	50	1	83,000 00	83,000 00
BUREAU OF NAVIGATION.							
<i>Navigation and Supplies—</i>							
Foreign and local pilotage and towage of ships-of-war..	Appropriated.	R. S. 20	733 50	3709, 3747 1	} \$45,000 00		
Services and materials in correcting compasses on board ship, and for adjusting and testing compasses on shore	Same acts					3,000 00	
Nautical and astronomical instruments, nautical books, maps, charts, and sailing directions, and repairs of nautical instruments for ships-of-war	do					9,000 00	
Books for libraries of ships-of-war	do					2,000 00	
Navy signals and apparatus, namely: Signal-lights, lanterns, rockets, running-lights, drawings, and engravings for signal-books	do					6,000 00	
Compass-fittings, including binnacles, tripods, and other appendages of ship's compasses	do					3,000 00	
Logs and other appliances for measuring the ship's way, leads and other appliances for sounding	do					3,000 00	
Lanterns and lamps and their appendages for general use on board ship, including those for the cabin, ward-room, and steerage for the holds and spirit-room, for decks and quartermasters' use	do					5,000 00	
Bunting and other materials for flags, and making and repairing flags of all kinds	do					4,000 00	
Oil for ships-of-war, other than that used for the engineer department; candles when used as a substitute for oil in binnacles and running-lights; for chimneys and wicks, and soap used in the navigation department	do					20,000 00	
Stationery for commanders and navigators of vessels-of-war, and for use of courts-martial	do					1,500 00	
Musical instruments and music for vessels-of-war	do					1,000 00	
Steering-signals and indicators, and speaking-tubes and gongs for signal communication on board vessels-of-war	do					2,000 00	
						104,500 00	104,500 00
<i>Contingent, Bureau of Navigation—</i>							
Freight and transportation, postage and telegraphing on public business; advertising for proposals; packing-boxes and materials, and all other contingent expenses. }	Appropriated.	R. S. 20	721 51	3666 1	}	2,000 00	2,000 00
<i>Civil Establishment, Bureau of Navigation—</i>							
Civil establishment in the navigation departments of the several navy yards, namely:

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Pay of Watchmen and others, Naval Academy—</i>							
Captain of the watch and weigher, at \$2 50 per diem					\$912 50		
Four watchmen, at \$2 per diem each					2,920 00		
Foreman of the gas and steam-heating works of the Academy, at \$5 per diem					1,825 00		
Ten attendants at gas and steam-heating works, one at \$3, one at \$2 50, and eight at \$2 per diem each					7,847 50		
One steam-pipe fitter, at \$2 per diem					730 00		
One foreman of joiners, one foreman of painters, and one foreman of masons, at \$3 50 per diem each					3,832 50		
Two joiners, one painter, and one mason, at \$2 50 per diem each					3,650 00		
One tinner, one gas-fitter, and one blacksmith, at \$2 50 per diem each					2,737 50		
	Appropriated.	20	54	1		\$24,455 00	\$24,180 75
NOTE.—This excess of \$274 25 is occasioned by an increase of twenty-five (25) cents per day to the "captain of the watch," who also performs the responsible duty of weigher; and an increase of about fifty (50) cents per day to the steam-pipe fitter, whose services are constant and laborious.							
<i>Pay of Mechanics and others, Naval Academy—</i>							
One mechanic at workshop, at \$2 25 per diem					\$821 25		
One master-laborer, to keep public grounds in order, at \$2 28 per diem					832 20		
Fourteen laborers to assist in the same, three at \$2 and eleven at \$1 50 per diem each					8,212 50		
One laborer to superintend quarters of cadets, public grounds, &c., at \$2 per diem					730 00		
Six attendants, one at chapel, one at recitation-hall, one at offices, one at library, one at paymaster's, and one at store, at \$20 per month each					1,440 00		
Twenty servants to keep in order and attend to cadets' quarters, public buildings, &c., at \$20 per month each					4,800 00		
	Appropriated.	20	54	1		16,835 95	16,835 95
<i>Pay in Department of Steam-Engineering, Naval Academy—</i>							
One master-machinist, at \$3 50 per diem					\$1,277 50		
One boiler-maker, at \$3 50 per diem					1,277 50		
One pattern-maker, at \$3 50 per diem					1,277 50		
Two machinists, at \$2 50 per diem each					1,825 00		
One blacksmith, at \$2 50 per diem					912 50		
One moulder, at \$2 50 per diem					912 50		
Two laborers, at \$1 50 per diem each					1,095 00		
	Appropriated.	20	55	1		8,577 50	7,665 00
<i>Repairs and Improvements, Naval Academy—</i>							
Necessary repairs of public buildings, pavements, wharves, and walls enclosing the grounds of the Naval Academy, for improvements of the same, and for furniture, fixtures, &c							
	Appropriated.	20	55	1		21,000 00	21,000 00
<i>Heating and Lighting Naval Academy—</i>							
Fuel for heating and lighting the academy and schoolships							
	Appropriated.	20	55	1		17,000 00	17,000 00
<i>Contingent Expenses, Naval Academy—</i>							
Purchase of books for the library						\$2,000 00	
Stationery, blank books, models, maps, &c., and for textbooks for the use of instructors					do	2,000 00	
Expenses of the board of visitors					do	3,000 00	
Purchase of chemicals, apparatus, and instruments in the department of physics and chemistry, and for the repairs of the same					do	2,500 00	
Purchase of gas and steam-machinery, steam-pipe and fixtures, rent of buildings for the use of the academy, freight, cartage, water, music, musical and astronomical instruments, uniforms for the bandsmen, telegraphing, and for the feed and maintenance of teams, and for the current expenses and repairs of all kinds, and for incidental labor and expenses not applicable to any other appropriation					do	34,600 00	
Stores in the department of steam-engineering					do	800 00	
Materials for repairs in steam-machinery					do	1,000 00	
						45,900 00	45,500 00
NOTE.—This increase of \$400 for the expenses of the board of visitors is deemed necessary to cover the allowance of eight (8) cents per mile prescribed by law for each member of the board, instead of actual and necessary travelling expenses, as heretofore.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

LIGHT-HOUSES, BEACONS, AND FOG-SIGNALS.							
<i>Ipswich Light-station, Massachusetts—</i> Rebuilding tower, repairing dwelling, and purchasing site for beacon, at Ipswich light-station, Massachusetts.....	Submitted.....					\$10,000 00	
NOTE.—The light-house tower is very badly cracked, and will not hold out another year. The house requires extensive repairs. The beacon-light is on land which does not belong to the United States.							
<i>Marblehead Light-station, Massachusetts—</i> Rebuilding keeper's dwelling, repairing tower, and furnishing a new lantern, at Marblehead light-station, Massachusetts.....	Submitted.....					5,000 00	
NOTE.—The keeper's house is in bad condition and should be rebuilt.							
<i>Cape Poge Light-station, Massachusetts—</i> Building a double set of quarters for the two keepers at Cape Poge, northeast point of Martha's Vineyard, Massachusetts.....	Submitted.....					5,000 00	
NOTE.—It is probable that the keeper's dwelling will fall into the sea within two years if the cliff is worn away at the present rate.							
<i>Ned's Point Light-station, Massachusetts—</i> Rebuilding tower and repairing keeper's dwelling at Ned's Point, entrance to Mattapoisett harbor, Massachusetts..	Submitted.....					5,000 00	
<i>Wing's Neck Light-station, Massachusetts—</i> Building tower and repairing dwelling at Wing's Neck, entrance to Sandwich harbor, Massachusetts.....	Submitted.....					5,000 00	
NOTE.—The lantern is on the top of the dwelling, the roof of which is crushed by the weight.							
<i>Day-Beacons, Maine, New Hampshire, and Massachusetts—</i> Establishing and repairing day-beacons on the coasts of Maine, New Hampshire, and Massachusetts.....	Appropriated.	19	352	1		10,000 00	
<i>Reimbursement of the Master of the "Verbena"—</i> Reimbursement of Charles J. Gibbs, master of the light-house tender "Verbena," for amount paid by him in accordance with the judgment of court, in the case of the suit for damages occasioned by the collision of the "Verbena" with the schooner "Adell," including attorney's fees and costs.....	Submitted.....					800 00	
NOTE.—This collision took place in 1869 with the "Adell," which was, contrary to posted notice, lying at wharf of light-house depot, Wood's Holl, Mass. Suit was brought eight years after, and verdict obtained for plaintiff. The Light-house Board considered the master of the "Verbena" blameless. The First Comptroller considers that there is no existing appropriation from which the judgment of the court can be paid; but that the facts in the case are such as justify an application to Congress for relief.							
<i>Conimicut Light-station, Rhode Island—</i> Reimbursing H. W. Arnold, keeper of Conimicut light-station, for losses sustained at the time of the destruction of the keeper's dwelling by ice.....	Submitted.....					319 00	
NOTE.—The keeper lost all his furniture and narrowly escaped with his life, when the dwelling attached to the tower was destroyed by ice in March, 1875.							
<i>Falkner's Island Fog-signal, New York—</i> Steam fog-signal at Falkner's Island light-station, New York.....	Submitted.....					5,000 00	
NOTE.—Dangerous rocks lie off the island, which is quite distant from any harbor of refuge, and have caused the loss of many vessels and lives. The fog-bell now in use is inadequate to the wants of navigation.							
<i>East Beacon, Sandy Hook Light-station, New Jersey—</i> Protecting the site of the East beacon, Sandy Hook, New Jersey, from encroachments of the sea.....	Submitted.....					5,000 00	
NOTE.—During a recent high tide and storm the site was seriously damaged. Immediate precautions against further damage were taken; but the most permanent system of protection against the sea-encroachments at the point is that of jetties, for which an appropriation will be required.							
<i>Stony Point Light-station, New York—</i> Rebuilding the station at Stony Point, Hudson river, New York.....	Submitted.....					6,000 00	
NOTE.—This station is in a very bad condition; the floors, floor-beams, and all other wood-work of the dwelling-house are in an advanced state of decay, and liable to give way at any time.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Rondout Pier Light-station, New York—</i> Establishing light to mark pier at Rondout, Hudson river, New York	Submitted				\$3,200 00		
NOTE.—This pier, which has been erected by the Engineer department of the Army, should be marked by a light.							
<i>Steam-mill Point Light-station, New York—</i> Purchasing site at Steam-mill Point, Whitehall Narrows, New York	Submitted				300 00		
NOTE.—The title to the site upon which this beacon was built does not belong to the United States. The owner has for several years presented a claim for rent, and now threatens ejectment.							
<i>Cumberland Head Light-station, Lake Champlain, New York—</i> Purchase of additional land at Cumberland Head light-station, New York	Submitted				250 00		
NOTE.—Trees on land to the north of the light-house obstruct the light. As it is necessary to keep them cut down, it will be cheaper to buy the land and cut down the trees than to make a contract for keeping them cut.							
<i>Isle La Motte Light-station, Vermont—</i> Establishing a better light and building a keeper's dwelling at Isle La Motte, Lake Champlain, Vermont	Submitted				5,000 00		
NOTE.—This is one of the most important lights on Lake Champlain. It consists of a stone pier on which an ordinary lantern is placed. There is no house for the keeper, consequently he is absent from the station almost the entire night.							
<i>Staten Island Depot, New York—</i> General repairs and improvements at the general light-house and buoy-depot at Staten Island, New York	Submitted				10,000 00		
NOTE.—The wharves require extensive repairs the space south of the south wharf should be dredged to accommodate light-house vessels; new holsting-derricks are needed.							
<i>Tucker's Beach Light-station, New Jersey—</i> Rebuilding dwelling at Tucker's Beach, entrance to Little Egg Harbor, New Jersey	Submitted				8,000 00		
NOTE.—The present dwelling is much too small for the families of two keepers, (the number required,) and is badly out of repair. If the appropriation is not made, it will be necessary to expend not less than \$1,500, which will only serve to put off for a year or two the expenditure of a larger sum.							
<i>Absecom Light-station, New Jersey—</i> Protecting the site of Absecom light-house, Atlantic City, New Jersey	Appropriated	20	214	1	35,000 00	\$15,000 00	
NOTE.—The works for the protection of the site at this station were built on the water-front of the light-house lot; they have been effectual in checking the abrasion at this point, but an accretion of the beach has taken place below the site. Above the site, however, the abrasion still continues; if it is not checked it will eventually work around and destroy the light-house, as well as a large amount of valuable property in Atlantic City. Nothing can be more uncertain than an estimate for works which must resist the action of the ocean and yet be founded on sand; and, considering the interest of the light-house establishment only, it would probably be economy to rebuild the light-house on a new site, though this would cost \$100,000.							
<i>Cherry Island Flats Range-lights, Delaware River, Delaware—</i> Range-lights to guide past Cherry Island flats, Delaware river, Delaware	Appropriated	20	215	1	30,000 00	10,000 00	
NOTE.—The appropriation approved June 24, 1878, will not do more than to enable the board to decide whether it is best to build range-lights or a light on the shoal. If compelled to build on the shoal, the structure will not cost less than \$100,000; possibly more. If range-lights can be used they will probably not exceed \$50,000, exclusive of the sites.							
<i>Fenwick's Island Light-station, Delaware—</i> Enlarging dwelling at Fenwick's Island light-station, Delaware	Submitted				5,000 00		
NOTE.—The dwelling at this station was built for one keeper. As two keepers are now employed, the accommodations are insufficient.							
<i>Cape Henry Light-station, Virginia—</i> Continuing the construction of the light-house at Cape Henry, Virginia	Appropriated	20	215	1	25,000 00	75,000 00	
NOTE.—This important light should be completed with as little delay as practicable.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.			References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
	Vol. or R. S.	Page.	Sec.	Vol. or R. S.	Page.	Sec.			
<p><i>Paris Island Light-station, South Carolina—</i> It is recommended that the balance of the appropriation made by the act of July 31, 1876, for the establishment of range-lights at Hilton Head and Bay Point, entrance to Port Royal harbor, South Carolina, be made available for the construction of a range-light on Paris Island, in the same harbor.</p> <p>NOTE.—Range-lights at this point are established in connection with those on Hilton Head for entering this harbor at night. There will be a small balance left of the appropriation for Hilton Head. An appropriation for the Paris Island light was made last year, but the balance of the Hilton Head appropriation was not made available for the same range, as recommended by the board. Either this balance should be made available or an additional appropriation of \$15,000 made.</p>									
<p><i>Fig Island Light-station, Georgia—</i> Changing position of light on Fig Island, Savannah river, Georgia, and establishing a range-light on the tower of the Exchange building, Savannah; and the Light-house Board is authorized to establish said range-light without cession of jurisdiction, provided the Government shall be at no expense for rent.</p> <p>NOTE.—A shifting of the channel in Savannah river has rendered the Fig Island light of but little use in its present situation. It is intended to re-establish it at another point on Fig Island, on the line of the new-dredged channel, and to place a reflector-light in the rear, on the tower of the Exchange building, Savannah city. The city authorities will grant permission to do this.</p>	Submitted.						\$3,000 00		
<p><i>Depot for the Sixth District—</i> Establishing a depot for buoys and supplies in the sixth light-house district.</p> <p>NOTE.—The need of a proper depot for the district is urgent, and it will be necessary to purchase land upon which to establish it.</p>	Submitted.						10,000 00		
<p><i>American Shoal Light-station, Florida—</i> Continuing the construction of a light-house at or near American Shoal, Florida Reefs, Florida.</p> <p>NOTE.—This work being commenced, it is economy to prosecute it with the least possible delay.</p>	Appropriated.	20	214	1			50,000 00	\$75,000 00	
<p><i>Northwest Passage Light-station, Florida—</i> Repairing the light-house at Northwest Passage, entrance to Key West harbor, Florida.</p> <p>NOTE.—This structure is in a very unsatisfactory condition, and requires immediate repair. It is feared that it would not stand a hurricane.</p>	Submitted.						6,000 00		
<p><i>Reimbursement of Keepers of Dog Island and St. Mark's Light-stations, Florida—</i> Reimbursing keepers of Dog Island and St. Mark's light-stations, Florida, for private property destroyed by a hurricane.</p> <p>NOTE.—The light-house tower and dwelling at Dog Island were destroyed during the hurricane of the 18th and 19th of September, 1873. During the same hurricane the site of the Saint Mark's station was completely flooded, the water standing over six feet in depth on a level. The keepers at these stations lost all their private property.</p>	Submitted.						970 65		
<p><i>Dog River Bar and Choctaw Pass Channel Light-station, Alabama—</i> Establishing a series of lights to guide into Mobile harbor, Alabama.</p> <p>NOTE.—A cut has been made through the bar, below Mobile. This cut, executed by the United States, at a cost of over a quarter of a million of dollars, for the city of Mobile, loses a great portion of its value from a failure to properly mark the channel.</p>	Submitted.						6,000 00		
<p><i>East Rigolets Light-station, Louisiana—</i> For re-establishing light at East Rigolets, entrance to Lake Pontchartrain, Louisiana, and establishment of day-beacon on Sandy Point.</p> <p>NOTE.—Great difficulty is experienced at night in finding the east entrance to the Rigolets, through which all vessels plying from the port of New Orleans to the numerous towns and ports on the sound, Mobile bay, and Pensacola bay, are compelled to pass.</p>	Submitted.						6,000 00		
<p><i>South Pass Light-station, Louisiana—</i> Rebuilding tower at South Pass, entrance to Mississippi river, Louisiana.</p> <p>NOTE.—The tower at this station is built of wood, on top of the keeper's dwelling. It is about fifty years old. The lantern, of the old pattern, glazed with small panes of glass, obstructs a large portion of the light. The deepening of this pass has increased the importance of this light, and it should be made of the first order. This will require the erection of a new tower.</p>	Submitted.						50,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<p><i>Southwest Reef Light-station, Louisiana—</i> Renewing some of the principal parts of the iron-work of the lower portion of the light-house at Southwest Reef, entrance to Atchafalaya bay, Louisiana.....</p> <p>NOTE.—The older portion of this structure has decayed considerably, and portions of the iron should be renewed.</p>	Submitted.....				\$3,000 00		
<p><i>Trinity Shoal Light-station, Louisiana—</i> Reimbursing employes for the loss of their private property destroyed at Trinity Shoal, Louisiana.....</p> <p>NOTE.—On the 17th of November, 1873, during a terrific storm, the platform erected for the construction of a light-house at Trinity Shoal, Louisiana, was destroyed, and all the property thereon, public and private, was lost. The working party and the crew of the "Guthrie," numbering seventeen persons, lost all their private property.</p>	Submitted.....				2,000 00		
<p><i>Calcasieu Range-light, Louisiana—</i> Establishing a small beacon-light to form a range with the larger-light, to guide into the mouth of the Calcasieu river, Louisiana.....</p> <p>NOTE.—A small light is now maintained by private persons interested in the navigation of the river. It is found necessary for entering the river at night.</p>	Submitted.....				1,500 00		
<p><i>Matagorda Bay Range-lights, Texas—</i> It is recommended that the appropriation of \$20,000, made by the act of July 31, 1876, for rebuilding and repairing light-houses on the coast of Texas, be made available for the erection of range-lights to guide into Matagorda bay.</p>							
<p><i>Brazos Island Light-station, Texas—</i> Reimbursing Francis Hamilton, keeper of the Brazos Island light, Texas, for personal loss sustained in the discharge of his duty when the light-house was destroyed by hurricane.....</p> <p>NOTE.—In September, 1874, this station was completely swept away, the keeper's wife killed, and his furniture destroyed. He should be reimbursed.</p>	Submitted.....				207 00		
<p><i>Steam-tender for General Service—</i> Building a steam-tender for general service on the Atlantic coast.....</p> <p>NOTE.—To take the place of an old and worn out vessel in the service.</p>	Submitted.....				50,000 00		
<p><i>Marblehead Light-station, Ohio—</i> Rebuilding tower and dwelling at Marblehead, Sandusky bay, Ohio.....</p> <p>NOTE.—This station is in a very bad condition. The dwellings are old and leaky. In winter the keeper's family is compelled to live in the wood-house and summer-kitchen. This is one of the most important lights on Lake Erie.</p>	Submitted.....				20,000 00		
<p><i>Waugoshance Light-station, Michigan—</i> Establishing a steam fog-signal at Waugoshance, Lake Michigan, Michigan.....</p> <p>NOTE.—A powerful signal is much needed at this point. The small bell now in use is of but little service.</p>	Submitted.....				6,000 00		
<p><i>Stannard's Rock Light-station, Michigan—</i> Continuing the erection of a light-house on Stannard's rock, Lake Superior, Michigan.....</p> <p>NOTE.—This additional appropriation of \$50,000 is required to continue this important work.</p>	Appropriated..... do.....	19 20	352 214	1 1	50,000 00	\$100,000 00	
<p><i>Sand Island Light-station, Wisconsin—</i> Establishing a light on Sand island, the most westerly of the Apostle group, Lake Superior, Wisconsin.....</p> <p>NOTE.—Commerce to and from the western end of Lake Superior passes outside the Apostle Islands. There is no coast light for eighty miles, and this light is of as great necessity as any new station on the lakes.</p>	Submitted.....				18,000 00		
<p><i>Pier-head Lights on the Lakes—</i> Erection, removal, and repair of pier-head lights, on the northern and northwestern lakes.....</p> <p>NOTE.—There are a large number of these lights established on piers built by the Government, and when the latter are extended the light-houses have to be moved. Besides, there are many old and dilapidated that need rebuilding.</p>	Appropriated.....	20	214	1	25,000 00	15,000 00

		Vol. or R. S.	Page.	Sec.			
<i>Farallon Fog-signal, California—</i> Establishing a first-class steam fog-signal at the light-station on South Farallon Island, California.....	Submitted.....					\$12,000 00	
NOTE.—There is a very important outside station near the entrance to San Francisco bay. On account of the prevalence of fogs in this section a fog-signal is desirable.							
<i>Oakland Harbor Light-station, California—</i> Establishing a light-house and fog-bell to mark the entrance to Oakland Harbor, California.....	Submitted.....					5,000 00	
NOTE.—A large amount of money has been expended in constructing two parallel training-dykes, between which there is a channel leading into the harbor. The light and fog-bell will be required to mark the entrance.							
<i>Depot for the Twelfth District—</i> Establishing a depot for buoys and supplies in the twelfth district.....	Submitted.....					10,000 00	
NOTE.—Additional depot facilities are needed on account of the extent of the western coast.							
<i>Tillamook Head Light-station, Oregon—</i> Continuing the erection of a first-class light-house and steam fog-signal on Tillamook Head, Oregon.....	Appropriated.	20	214	1		50,000 00	\$50,000 00
<i>Point Wilson Light-station, Washington Territory—</i> Completing the light-house and fog-signal to be established at Point Wilson, Puget Sound, Washington Territory.....	Appropriated.	20	215	1		12,000 00	8,000 00
<i>Duplicate Fog-signals for the Coasts of the United States—</i> Establishing duplicate steam fog-signals on the coasts of the United States.....	Submitted.....					20,000 00	
NOTE.—A fog-signal, to be of value, should be certain in its action. This requires that the apparatus should be in duplicate, so that when one gets out of order the other is ready for service. There are a number of stations where there is only a single apparatus.							
<i>Sailing-tender for General Service—</i> Building a sailing-tender for general service on the Atlantic coast.....	Submitted.....					15,000 00	
NOTE.—To take the place of an old vessel damaged beyond repair.							
<i>Steam-tender for Western-River Lights—</i> Building a steamer for service on the Mississippi and Ohio rivers.....	Submitted.....					30,000 00	
NOTE.—This vessel is needed for use in tending the great number of small lights recently established on the western rivers.							
<i>Light-ship for General Service—</i> Building a light-ship for general service on the Atlantic coast.....	Submitted.....					40,000 00	
NOTE.—Several of the light-ships now in the service are in a very bad condition, and it will be more economical to build a new one than to undertake the extensive repairs that would be required.							
<i>Laboratory of the Light-house Board—</i> Additions to the laboratory used by the Light-house Board for experiments with illuminating apparatus and materials.....	Submitted.....					8,000 00	
NOTE.—The extent and character of the experiments required to test the various improvements in light-house apparatus suggested by the advance of sciences and arts, make it necessary to have a larger building, or at least an addition to the present one.							
Total Light-houses, Beacons, and Fog-signals						688,546 65	348,000 00

		Vol. or R. S.	Page.	Sec.			
<p><i>Rock Island Arsenal, Rock Island, Ill.—</i> Shop I: A wood-working and leather-working shop for the arsenal.....</p> <p>NOTE.—This is the last one of the arsenal-shops, and was begun in July of this year. With the present appropriation the Chief of Ordnance expects to be able to make all the excavations, put in foundations, complete the basement-story, and put in the iron-work for the first floor. This estimate is for going on with the stone and iron-work; and the remarks made below, as to shop "G," in regard to an economical prosecution of the work, apply also to this building.</p>	Appropriated.	20	220	1	\$100,000 00		
<p>Shop G: An iron-working and finishing-shop for the arsenal.....</p> <p>NOTE.—The appropriations for this building have been so small that the work has progressed very slowly. If the appropriation asked for can be made, it is believed that it will be sufficient to complete the walls of the building; put in all the iron beams for fire-proof floors; put in the iron columns; make the iron roof, set it up, and cover in the building, and make a portion of the wood-work. As has been frequently explained, there are now at this arsenal very complete facilities for manufacturing nearly all the articles used in the construction of the buildings, and a carefully-selected, organized, and trained force of workmen for doing the work. A very great saving to the United States is effected by the use of these facilities. The estimates are made with the view of having the progress made on the buildings in such condition that a fair amount of each kind of work, viz., of wood, stone, iron, brick, and other kinds of work, can be done in each year. Cutting down the estimates generally so interferes with the work as to leave little or none of some kinds of work for particular years; makes it necessary to discharge valuable workmen, and in the end increases the cost of the work. The expense of discharging and retiring special skilled workmen without promise of permanent work is well understood. It is proposed, with the amount estimated for, to manufacture the iron-roof frame—which is a large work—during the winter of 1879 and 1880, when there would be little other work of the same kind in hand.</p>	Appropriated.	20	220	1	185,000 00		
<p>Shop H: An iron-finishing shop for the armory.....</p> <p>NOTE.—This shop was also commenced in July of this year. The small appropriation now available will probably complete the excavations and put in the foundations. This estimate is for going on with the stone and iron-work, and the remarks made above apply also to this building. The amount of work estimated for on the three shops is, in my opinion, the least amount that could be done in the ensuing year with the greatest economy to the United States in prosecuting the construction of the arsenal.</p>	Appropriated.	20	220	1	75,000 00		
<p>Elevated iron water-tank, 100,000 gallons capacity.....</p> <p>NOTE.—The stone reservoir from which the water supply for the arsenal is now derived has not an elevation which will give a pressure for fire purposes, and it can be used in case of fire only with an engine, and it supplies only a portion of the arsenal-buildings without pumping. It is proposed to retain the old reservoir, and from it supply the shops, steam-engines, and the principal part of the water required for the arsenal. The proposed location of the reservoir furnishes a simple method of turning the supply-pipe from the pump at the water-power to either reservoir at pleasure, for filling them, and of turning the water from the elevated tank to the large water-main in case of fire. The elevated tank would be at all times in connection with the small main that runs to barracks, quarters, and other post-buildings, and supply all parts of these buildings without pumping. The masonry of the old reservoir is not in good condition, and the reservoir must eventually be repaired, if not renewed. I would urge the importance of building this elevated tank now, both for its economy for present use and to avoid the probability that the arsenal be left sometime without a water supply, particularly in case of fire.</p>	Submitted.....				5,000 00		
<p>For recovering Fort Armstrong avenue and the causeway to the Rock Island wagon-bridge with macadam, and for putting a new floor on the Rock Island wagon-bridge..</p> <p>NOTE.—The extensive traffic across the bridges and island, in connection with their free use by the public, has worn out the avenue and bridge-floor, and they will require renewing next year to make them passable. The avenue is eighteen hundred feet long and sixty feet wide, and requires a covering of twelve inches of rock. The bridge-floor is six hundred feet by twenty feet, and requires a four-inch oak floor.</p>	Submitted.....				6,690 00		
<p>For reflooring the wagon-bridge to Moline.....</p> <p>NOTE.—The floor of this bridge is worn out, and it will be difficult to keep the bridge in passable condition another year by patching. An estimate for the last two items was made last year, but no appropriation was made for them.</p>	Submitted.....				1,920 00		
<p>Care and preservation of the Rock Island bridge, and expense of maintaining and operating the draw.....</p> <p>NOTE.—This estimate is for care and preservation of the bridges between Davenport, Rock Island, and the island, and the road and causeway on the island connecting the bridges. It includes all ordinary repairs, but is mainly for the expense of operating the draw, for which two sets of hands—consisting of engineer, fireman, and tender—are required; this work is difficult, and excellent men must be employed, and guards for maintaining order on the long bridges in their large use by the public. This extensive use also causes considerable wear and necessity for repairs.</p>	Appropriated.	20	220	1	9,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Rock Island Arsenal, Rock Island, Ill.—Continued.</i>							
General care, preservation, and improvement; building new roads; care and preservation of the water-power; painting and care and preservation of permanent buildings and bridges and shores of the Island; building fences and grading grounds; and repairs of and extension of railroad.....	Appropriated.	20	220	1	\$17,000 00	\$399,610 00	\$290,400 00
<p>NOTE.—This work is almost absolutely necessary in the progress of the work of building the arsenal. The roads are required for immediate use in building operations, and should be so permanently built as to become a permanent part of the arsenal; and this work on roads, grading, and sewers can be done far more economically whilst other excavations and buildings are going on and the two kinds of work which are dependent. Attention is earnestly asked to this estimate. The amount under each item has been carefully estimated, and such care of public property and such discharge of the duties required, as the best economy and interests of the service demand, make these sums necessary. It is believed that a careful consideration of the large extent of grounds to be taken care of—about two and a half miles by five-eighths of a mile, including about eleven miles of roads and their extensive use by the public, making them approximate to a public park—should show, as has been stated, that the amounts asked for under each item are as small as the interests of the service will permit. No estimate is made for funds for completing the development of the water-power, as it is understood that the estimate made three years ago for this purpose, and matters pertaining thereto, are still before Congress. It is believed to be for the interest of the United States to complete this work at an early day. Attention is respectfully invited to explanations and arguments given with the annual estimate of last year, (Appendix "O," page 211.) showing the economy and other advantages of making now an appropriation of the whole amount required for the completion of the arsenal.</p>							
<i>Allegheny Arsenal, Pittsburgh, Pa.—</i>							
Grading, curbing, and paving, with Miller's wood pavement, Pennsylvania avenue, on arsenal front, between Thirty-ninth and Fortieth streets.....	Submitted.....				5,821 20		
For interest on \$5,821 20, at 7 per cent., from October 1, 1871, to October 1, 1880, nine years, at \$407 48 per annum.....	do.....				3,667 32		
Grading, curbing, and paving with cobble-stones, Thirty-ninth street, on arsenal boundary, between Butler street and Pennsylvania avenue.....	do.....				5,168 00		
Grading, curbing, and paving with cobble-stones, to centre of Main street, a strip of United States land nine feet wide, connecting Allegheny arsenal and spring.....	do.....				22 71		
Interest on \$22 71, at 7 per cent., from October 1, 1871, to October 1, 1880, nine years, at \$1 59 per annum.....	do.....				14 31		
Removing old zinc from roof of building containing machines, armorer's, saddler's, and tin-shops, and engine, grinding, and polishing rooms, and covering with slate.....	do.....				1,600 00		
						16,293 54	
<p>NOTE.—Items 1, 2, and 3 are for work done on the streets by the city of Pittsburgh, without consultation with or authority from the United States Government, and the improvements were made with money raised on city bonds bearing seven per cent. interest and running ten years; payable, principal and interest, to date of payment at any time. Item 4: The roof of this building was covered with zinc many years ago; the metal, from oxidation, no longer protects it from water and decay.</p>							
<i>Augusta Arsenal, Augusta, Ga.—</i>							
Repairs of storehouses, magazines, quarters, barracks, hospital, fences, walks, roads, cisterns, well, &c.....	Submitted.....					3,000 00	
<i>Benicia Arsenal, Benicia, Cal.—</i>							
Machine and armorer's shop.....	Submitted.....				65,000 00		
<p>NOTE.—The carpenter's and blacksmith's shops are already completed; this one is required to complete most of the work commenced in them. All repairs of arms for California, Nevada, Arizona, Oregon, Washington Territory, and Alaska are made here. The two shops finished cannot be used unless this machine-shop is built.</p>							
Continuing boring the artesian well; or, if artesian water is procured, for putting down permanent iron pipe and turbine-wheel, to be run by flow of water, to pump up water to reservoir.....	Appropriated.	20	220	1	9,800 00		
<p>NOTE.—This well is 1,407 feet deep, and three streams of water have been met. This induces the belief that if deepened it will become a flowing well. It should not be left incomplete.</p>							
To rebuild the present wharf.....	Submitted.....				12,000 00		
<p>NOTE.—A portion of the present wharf is twenty-four years old; it is becoming decayed, and it will not be safe to use the roadway to the T at end of it much longer. This roadway is three hundred and forty feet long, and requires new piles, caps, string-pieces, joists, and flooring. As all the supplies coming to or going from Benicia arsenal or Benicia barracks, and all the ordnance stores for the division of the Pacific are landed at or shipped from this wharf, the necessity of rebuilding it will be apparent to all.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Benicia Arsenal, Benicia, Cal.—Continued.</i>							
To build one freight-house along the side track of the railroad on arsenal grounds, for shipping and receiving ordnance and ordnance stores.....	Submitted.....				\$4,500 00		
For purchasing machinery for new machine-shop, shafting, pulleys, lathes, planers, slotting-machines, &c.....	do.....				4,800 00		
Repairing roads and buildings, sewers and drains, machinery and fences, grading, &c.....	do.....				20,965 00		
						\$117,065 00	\$19,000 00
<i>Fort Monroe Arsenal, Old Point Comfort, Virginia—</i>							
One set of brick quarters outside of the fort.....	Submitted.....				15,000 00		
Painting and repairing public buildings.....	do.....				2,000 00		
						17,000 00	
<i>Frankford Arsenal, Philadelphia, Pa.—</i>							
Repairs to buildings and fences.....	Submitted.....				6,000 00		
Repairing creek-wall.....	do.....				2,000 00		
						8,000 00	
<i>Indianapolis Arsenal, Indianapolis, Ind.—</i>							
Repairing and care and preservation of public buildings, fixtures therein; sewers, roads, and fences; and painting public buildings and enclosing-fences.....	Submitted.....				2,750 00		
NOTE.—This expenditure is necessary for keeping in order the public buildings, fences, sewers, gas and water-fixtures, roads, grounds, &c.							
Building small blacksmith-shop.....	do.....				1,200 00		
NOTE.—This building is badly needed at the post for a smith-shop. The frame and log-shed now used for the purpose is unsightly, leaky, &c., and ought to be taken down and removed.							
Building sewer through arsenal grounds.....	do.....				2,500 00		
NOTE.—The building of this sewer is an absolute necessity. Sewerage from the Woodruff place enters a small stream crossing the arsenal grounds near the N. C. O. quarters, situated near the northeast corner of the arsenal grounds, and during the heated term the stench rising therefrom is very offensive.							
<i>Kennebec Arsenal, Augusta, Maine—</i>							
Enlarging reservoir, laying supply and drain-pipes, and otherwise improving water-supply for post.....	Submitted.....				2,000 00		
Pointing, slating, and completing two reconstructed stone buildings.....	do.....				1,000 00		
Slating engine-house and granite building in rear of No. 1 quarters.....	do.....				500 00		
Restoring floors of main arsenal building to level, and bracing same.....	do.....				500 00		
Repairing sustaining-wall on river front.....	do.....				500 00		
Painting and repairing public buildings.....	do.....				1,000 00		
Building sustaining-wall around engine-pond.....	do.....				800 00		
Grading and gravelling roads.....	do.....				500 00		
						6,800 00	
<i>New York Arsenal, New York Harbor—</i>							
Repairs of dock, sea-walls, storehouses, quarters, fences, underground and surface-drains and sewers, roads, permanent enclosures, fire-apparatus, and tanks, engine, and hose.....	Submitted.....					5,000 00	
<i>St. Louis Powder Depot, Jefferson Barracks, Missouri—</i>							
Repairing barracks and quarters, magazines, roofs, gutters, slopes, drains, retaining-walls, coping, &c.....	Submitted.....					3,000 00	
<i>San Antonio Arsenal, San Antonio, Texas—</i>							
Constructing a new fence, 600 feet long, in front of the arsenal grounds, to consist of an 18-inch stone wall, 2 feet 8 inches high; work above ground hammer-dressed (dimension) with 4-inch dressed coping, surmounted by an iron fence, with three wagon-roadway gates 14 feet wide, and one small gate 4 feet wide.....	Submitted.....				7,500 00		
NOTE.—The present fence is of wood, and requires constant repairs. True economy would be best observed in the construction of a permanent iron fence, and the appearance of the arsenal grounds would be greatly improved thereby.							
Purchase of about four acres of land, lying between the south side of the arsenal grounds and Arsenal street, a distance of about 125 feet.....	do.....				12,000 00		
NOTE.—In this connection attention is respectfully invited to previous recommendations for the purchase of this land, and to the recommendations as given in Executive Document No. 4, House of Representatives, Forty-second Congress, Third Session. The early acquirement of this property cannot be too strongly urged. The city is growing quite rapidly in this direction, and if the land is not soon purchased, at the price (\$12,000) named by the owner, it will most probably pass into the hands of various private purchasers, receive improvements, and its cost to the Government at some future time largely increased.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>San Antonio Arsenal, San Antonio, Texas—Continued.</i>							
Repairing and painting roofs, gutters, &c., of public buildings, fences, roads, walks, &c.; purchase of trees and shrubbery; and general repairs of the post.....	Submitted				\$1,500 00	\$21,000 00	
NOTE.—In this hot, dry climate, all buildings and dressed fencing require frequent repainting to insure their proper preservation. It is not thought a less sum than that asked for will be sufficient to keep the post in proper repair.							
<i>Vancouver Arsenal, Vancouver, Washington Territory—</i>							
Repairing and painting public storehouses, quarters, barracks, erecting temporary sheds, &c.....	Submitted					3,500 00	
<i>Washington Arsenal, Washington, D. C.—</i>							
Repairing storehouses, workshops, quarters, barracks, roads, sewers, and wharf.....	Submitted					5,000 00	
<i>Watertown Arsenal, Watertown, Mass.—</i>							
For magazine for fixed ammunition, repairing buildings, fences, roads, drains, grounds, sea-wall, painting, &c.....	Submitted					10,000 00	
<i>Watervliet Arsenal, West Troy, N. Y.—</i>							
Preservation and repair of enclosing-wall, roads, buildings, and bridges, and repainting metal roof.....	Submitted				6,500 00		
NOTE.—The wall needs extensive repairs, a number of places requiring to be taken down and rebuilt. The buildings for some years past have had very little expended upon them; therefore the whole of this sum will be required.							
Removing old brick arsenal, now subject to overflow during freshets, in addition to value of old material, and extending the iron fence over the space occupied by it.....	do				1,000 00	7,500 00	
NOTE.—This building can be spared, and should be removed as prescribed in the permanent plan adopted for this arsenal. It is becoming much dilapidated, and must be repaired if not removed. It is out of position, the last of the original arsenal buildings, and it is not advisable therefore to expend money in repairs.							
<i>Repairs of Arsenals—</i>							
Repairs of smaller arsenals, and to meet such unforeseen expenditures at arsenals as accident or other contingencies during the year may render necessary.....	Appropriated	20	220	1		50,000 00	\$50,000 00
Reduction made by the Secretary of War.....						703,218 54

Contingent Expenses of Land Offices—									
Incidental expenses of the several land offices	June 23, 1874 Mar. 3, 1875 June 20, 1878	18 18 20	213 384 229	1 1 1	} ----- \$100,000 00	} ----- \$40,175 00			
<p>NOTE.—The amount asked for under this head is intended to cover allowances for office-rent, fuel, clerk-hire, &c., as well as for fees heretofore retained by the district officers, collected under sections 2238 and 2239, Revised Statutes, and not properly accounted for. Under the corrected practice, all such fees must be covered into the Treasury, and will stand as an offset to this appropriation, which will be disbursed by proper account and requisition according to law, upon allowances for rent, fuel, clerk-hire, &c., under the express authority of the Secretary of the Interior, previously obtained. There are nearly one hundred district offices already established by law, and others are liable to be created from time to time. The amount submitted will barely suffice to cover the proper and necessary allowances. (See Appendix, marked "D.")</p>									
Expenses of Depositing Public Moneys—									
Expenses of depositing money received from the sale of public lands	June 23, 1874 Mar. 3, 1875 June 20, 1878	R. S. 18 18 20	713 213 384 229	3617 1 1 1	} ----- 13,000 00	} ----- 10,000 00

<p>NOTE.—See Appendix, marked "D."</p>									
Total Public Lands					799,500 00	479,675 00			
SURVEYING THE PUBLIC LANDS.									
Surveying Public Lands—									
At rates not exceeding \$15 per linear mile for standard lines, \$12 for township, and \$10 for section lines, except that the Commissioner of the General Land Office may allow for the survey of standard lines through lands heavily timbered, mountainous, and covered with dense undergrowth, a sum not exceeding \$18 per linear mile for standard lines, \$16 for township, and \$12 for section lines	Appropriated.	R. S. 20	438 229	2395 1	} ----- \$300,000 00	} ----- \$300,000 00			
For Survey of Timbered Lands exclusively—									
At rates not exceeding \$18 per linear mile for standard lines, \$16 for township, and \$12 for section lines	Appropriated.	R. S. 20	438 229	2395 1	} ----- 50,000 00	} ----- 30,000 00			
Surveying Private Land Claims in California—									
Surveying confirmed private land claims in California at the rates per mile prescribed by law, and office expenses	Appropriated.	R. S. 20	390 229	2223 1	} ----- 7,500 00	} ----- 7,500 00			

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1879.
		Vol. or R. S.	Page.	Sec.			
<i>Surveying Private Land Claims in New Mexico—</i> For the preliminary survey of unconfirmed and survey of confirmed private land claims in New Mexico at a rate not exceeding \$16 per linear mile, and office expenses. } Appropriated.		R. S. 20	390 229	2223 1	} -----	\$10,000 00	
<i>Surveying Private Land Claims in Arizona—</i> For the preliminary survey of unconfirmed and survey of confirmed private land claims in Arizona at a rate not exceeding \$16 per linear mile, and office expenses. } Appropriated.		R. S. 20	390 229	2223 1	} -----	15,000 00	
<i>Examination of Public Surveys—</i> Occasional examinations of public surveys in the several surveying districts, in order to test the accuracy of the work in the field, inspect mineral deposits, coal fields, timber districts, &c. } Appropriated.		R. S. 20	390 229	2223 1	} -----	10,000 00	
<p>NOTE.—\$10,000 is estimated to cover expenses of examiners, to be designated by the Commissioner of the General Land Office or surveyors general to test the fidelity of the execution of the field-work; also to enable surveyors general to satisfy themselves of the correctness of surveys returned to them for their examination and approval, and to secure thereby a faithful execution of the work by deputy surveyors. There has been apportioned by the Secretary of the Interior, under the proviso in the clause for surveying public lands for the fiscal year 1879, for the preceding four estimates, the following sums, namely: Surveying private land claims in California, \$4,000; surveying private land claims in New Mexico, \$8,000; surveying private land claims in Arizona, \$2,000; and examination of the public surveys, \$30,000.</p>							
<i>Survey of Boundary between Territories of Arizona and Utah—</i> Survey of the boundary line between the Territories of Arizona and Utah, being so much of the 37th parallel of north latitude as is included between the 32d and 37th meridians of west longitude from Washington Observatory, at a rate not exceeding \$75 per linear mile—estimated distance, two hundred and seventy-seven miles. } Submitted.					} -----	20,775 00	
<p>NOTE.—The \$20,775 is submitted for the purpose of establishing the boundary, in order to define the political jurisdiction of the Territories of Arizona and Utah, so that the respective inhabitants may know to which particular Territory their rights of citizenship belong. The boundary is needed in order that the lines of public surveys projected from different bases and meridians may be closed thereon; also to enable settlers to apply to the proper land offices to secure their claims.</p>							
<i>Survey of Northern Boundary of Wyoming Territory—</i> Survey of the northern boundary of Wyoming Territory, being that part of the 45th parallel of north latitude included between the 27th and 34th meridians of west longitude from Washington Observatory, at a rate not exceeding \$75 per linear mile—estimated distance, three hundred and thirty-four miles. } Submitted.					} -----	25,050 00	
<p>NOTE.—The \$25,050 is estimated for the establishment and marking the northern boundary of Wyoming Territory, in order to segregate the River Crow Indian reservation, in Montana, from the Territory of Wyoming, the south boundary of the reservation being coincident with the north boundary of Wyoming for a distance of one hundred and eighty miles. The boundary is also required to be marked in the field, in order that the lines of the public surveys in Montana may be closed thereon.</p>							
<i>Appraisalment and Sale of Fort Reynolds Military Reservation, in Colorado, and other Abandoned Military Reservations—</i> Appraisalment of lands and the buildings erected by the United States, and sale of the same to the highest bidders, per act of June 19, 1874, (18 Statutes, page 85,) and act of February 24, 1871, (16 Statutes, page 430) } Submitted.					} -----	6,000 00	
<p>NOTE.—The lines of public surveys have been extended over the reservation as provided by law, but no disposal thereof has yet taken place for want of means necessary to cover the expenses of the appraisalment, advertisement, and sale.</p>							
<i>Retracing and Reproduction by Photo-lithography of Worn and Defaced Official Township Plats—</i> To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of surveys now on file, and constituting a part of the records of said office. } Appropriated.		20	229	1	} -----	15,000 00	\$10,000 00
<p>NOTE.—The sum of \$15,000 is required to prevent a total obliteration of designations on official township plats defaced and mutilated by constant use during a period of eighty years, thus rendering them unreliable in furnishing certified copies under the provisions of an act of Congress approved July 2, 1864, Statutes, vol. 13, page 375, Revised Statutes, section 461.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

<i>Recovery of an Iron Monument from the Colorado River of the West—</i> Recovering, and restoring in the proper place, one of the iron monuments marking the boundary between the States of California and Nevada.....	Submitted...				\$205 28		
NOTE.—The \$205 28 is submitted to pay W. H. Salsbury for his personal services, hire and board of Indians, and hire of team in removing from the Colorado river a large iron monument which, by an overflow of the river, was undermined and washed away, and replaced by his affidavit and corroborated by statement of Captain I. I. Van Horn, Eighth Infantry, commanding Camp Mojave, Arizona Territory. The services of Mr. Salsbury having been recognized by this office as of importance to the Government, and there being no funds applicable to payment therefor this sum is submitted for the purpose. (For explanation of the estimate for surveying public lands, see Appendix, marked "D.")

Specific appropriation of \$39,000 to pay for the erection of buildings and expenses of the Smithsonian Institution, being six per cent. on the fund derived from the bequest of James Smithson		R. S.	724	3689	\$39,000 00	\$39,000 00	\$39,060 00
<i>Collecting Revenue from Customs—</i>							
Specific appropriation of \$2,750,000 for the expenses of collecting the revenue from customs for each half-year, in addition to such sums as may be received from fines, penalties, and forfeitures connected with the customs, and from fees paid into the Treasury by customs officers, and from storage, cartage, drayage, labor, and services		R. S.	724	3687	5,500,000 00	5,500,000 00	5,500,000 00
UNDER THE WAR DEPARTMENT.							
<i>Arming and Equipping the Militia—</i>							
Specific appropriation of \$200,000 annually for the purpose of providing arms and military equipments for the whole body of the militia of the United States		R. S.	290	1661	200,000 00	200,000 00	200,000 00
Total Permanent Specific Appropriations					5,739,000 00	5,739,000 00	5,739,060 00
INDEFINITE.							
EXECUTIVE.							
UNDER THE TREASURY DEPARTMENT.							
<i>Return of Proceeds of Captured and Abandoned Property—</i>							
Indefinite appropriation for the return of proceeds from the sale of captured and abandoned property to the owners thereof, who may, to the satisfaction of the Court of Claims, prove their right to and ownership of said property		R. S.	724	3689	\$50,000 00	\$50,000 00	\$36,640 25
<i>Refunding Taxes Illegally Collected—</i>							
Indefinite appropriation to refund to persons money collected from them without warrant of law, as in payment of dues under the direct-tax laws		R. S.	724	3689	200 00	200 00	
<i>Refunding the National Debt—</i>							
Indefinite appropriation of one-half of one per cent. of the amount of bonds authorized under this act, to pay the expenses of preparing, issuing, and disposing of the same		R. S.	725	3689	500,000 00	500,000 00	412,566 75
<i>Sinking-Fund—</i>							
Indefinite appropriation of one per cent. of the entire debt of the United States, to be set apart as a sinking-fund for the purchase or payment of the public debt in such manner as the Secretary of the Treasury shall from time to time direct	April 17, 1876	R. S.	19	725 33 2	22,192,512 84	22,562,058 92	} 35,429,001 80
Indefinite appropriation of an amount equal to the interest on all bonds belonging to the sinking-fund, to be applied, as the Secretary of the Treasury shall from time to time direct, to the purchase or payment of the public debt	April 17, 1876	R. S.	19	724 33 2	16,609,825 42	14,392,548 95	
NOTE.—The amount actually required for the sinking-fund cannot be accurately determined at the time the estimate is made, as it depends upon what the principal of the debt may be seven months subsequently. Changes are liable to occur in the outstanding amount represented by coin-certificates, certificates of deposit, and fractional currency—which are considered as a part of the debt—as also in the accrued interest which may be due on the bonds obtained for the fund.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1880—Continued.

APPENDIX A.

Explanation of estimate for Salaries, Office of Quartermaster General. (See page 36.)

WAR DEPARTMENT,
Quartermaster General's Office, Washington, D. C., September 28, 1878.

SIR: I have the honor to report that the estimate for the clerical force for the Quartermaster General's office, for the fiscal year ending June 30, 1880, is based on the law of June 20, 1874, (vol. 18, page 100, sec. 1,) which it was understood, and it was so construed by the Treasury Department in the preparation of estimates, fixed the clerical organization of the War Department.

For sometime to come the force of the Quartermaster General's office should be kept up to this allowance.

The increase asked for is only the difference between the number allowed by the law above referred to and the acts making the appropriations for the clerical force of this office.

The act of June 20, 1874, fixes the force at—

One chief clerk	\$2,000
Eight clerks of class four	14,400
Ten clerks of class three	16,000
Thirty clerks of class two	42,000
Fifty clerks of class one	60,000
Twenty-eight copyists	25,200
One female messenger	360
One messenger	840
Eight laborers	5,760
One engineer	1,200
One fireman	720
Five watchmen	3,600
Total	172,080

The act of June 19, 1878, (vol. 20, page 195,) appropriates for—

One chief clerk	\$2,000
Seven clerks of class four	12,600
Nine clerks of class three	14,400
Twenty-four clerks of class two	33,600
Forty-eight clerks of class one	57,600
Twenty copyists	18,000
One female messenger	360
One messenger	840
Two assistant messengers	1,440
Six laborers	3,960
One engineer	1,200
One fireman	720
Five watchmen	3,300
One draughtsman	1,800
Total	151,820

The difference between the amount appropriated by the act of June 20, 1874, viz., \$172,080, and the sum estimated for the year ending June 30, 1880, viz., \$174,540, or \$2,460 more, is occasioned by the addition to the force, since the passage of the act, of one draughtsman, at \$1,800, and two assistant messengers, at \$720 each, and the reduction in the estimate for pay of eight laborers and five watchmen from \$720 to \$660 each per annum, in accordance with the appropriation act of June 19, 1878.

It is found that the work of this office has fallen in arrears, particularly in the accounts branch, and it is but just to the disbursing officers of the Department that their accounts and returns be examined promptly and sent to the Treasury for settlement.

I am, very respectfully, your obedient servant,

M. C. MEIGS,
Quartermaster General, Bvt. Maj. Gen. U. S. A.

Honorable SECRETARY OF WAR.

APPENDIX B.

Explanation of the estimate for Foremen and Laborers employed on the Public Grounds. (See page 40.)

OFFICE PUBLIC BUILDINGS AND GROUNDS,
Washington, D. C., July 1, 1878.

GENERAL: The following is a detailed statement upon which is based my estimate "for foremen and laborers employed on the Public Grounds," \$26,000:

DIVISION I.—ALL RESERVATIONS EAST OF CAPITOL.

Principal squares—	Acres.	SUMMER—March 1 to November 1.		
Lincoln Square	6	1 sub-foreman, 8 months, at \$60	\$480 00	
Stanton Place	3½	4 men, 210 days each, equal 840 days, at \$1 25	1,050 00	
Seward Place	3¼	1 horse and cart, 210 days, at \$2	420 00	
Pennsylvania Avenue and South Carolina Avenue	2			
North Carolina Avenue, below Second and Third Sts.	1½			
	16			\$1,950 00
		WINTER—November 1 to March 1.		
		None.		

DIVISION II.—WEST OF CAPITOL AND SOUTH OF B STREET, NORTH.

Principal squares—	Acres.	SUMMER.		
Smithsonian	52	1 foreman, 8 months, \$75	600 00	
Monument	44	20 laborers, 210 days each, equal 4,200 days, at \$1 25	5,250 00	
Armory, and other squares east of Seventh Street	21	3 horses and carts, 210 days, equal 630 days, at \$2	1,260 00	
	117		7,110 00	8,002 25
		WINTER.		
		1 foreman, 4 months, at \$75	300 00	
		3 laborers, 103 days each, equal 309 days, at \$1 25	386 25	
		1 horse and cart, 103 days, at \$2	206 00	
			892 25	
Nurseries and greenhouses—six houses		SUMMER.		
		1 head gardener, 8 months, at \$75	600 00	
		4 gardeners, 8 months, at \$65	2,080 00	
		2 laborers, 8 months, at \$45	720 00	
			3,400 00	
		WINTER.		
		1 head gardener, 4 months, at \$75	300 00	
		4 gardeners, 4 months, at \$65	1,040 00	
		1 fireman, 4 months, at \$50	200 00	
		1 laborer, 4 months, at \$45	180 00	
			1,720 00	5,120 00

DIVISION III.—EXECUTIVE—MANSION GROUNDS.

Eighteen acres—six greenhouses		SUMMER.		
		1 head gardener, 8 months, at \$100	800 00	
		4 gardeners, 8 months, at \$60	1,920 00	
		4 laborers, 8 months, at \$45	1,440 00	
		1 horse and cart, 210 days, at \$2	420 00	
			4,580 00	6,506 00
		WINTER.		
		1 head gardener, 4 months, at \$100	400 00	
		4 gardeners, 4 months, at \$60	960 00	
		2 laborers, 4 months, at \$45	360 00	
		1 horse and cart, 103 days, at \$2	206 00	
			1,926 00	

DIVISION IV.—WEST OF CAPITOL AND NORTH OF B STREET, NORTH.—(ABOUT 40 ACRES.)

Principal squares—	Acres.	SUMMER.		
Judiciary	19	1 sub-foreman, 8 months, at \$75	600 00	
Franklin	4	10 men, 210 days each, equal 2,100 days, at \$1 25	2,625 00	
Lafayette	6	2 horses and carts, 210 days each, at \$2	840 00	
Scott and Farragut	2			
Rawlins	2¼			
Rhode Island Avenue and Vermont Avenue	½			
New Hampshire and Connecticut Avenues	½			
New Hampshire and Pennsylvania Avenues	½			
			4,065 00	4,622 50
		WINTER.		
		1 foreman, 4 months, at \$75	300 00	
		2 men, 103 days each, equal 206 days, at \$1 25	257 50	
			557 50	

26,200 75

Say 26,000 00

Very respectfully, your obedient servant,

THOS. LINCOLN CASEY,
Lieutenant Colonel Corps of Engineers.

Brigadier General A. A. HUMPHREYS,
Chief of Engineers U. S. A., Washington, D. C.

APPENDIX C.

Explanation of the estimate for Salaries, Office of the Assistant Attorney General for the Interior Department. (See page 44.)

DEPARTMENT OF THE INTERIOR,
Washington, October 1, 1878.

SIR: I have the honor to call your attention to the necessity for an appropriation for the clerical force employed in this office, under the immediate control of the Assistant Attorney General, assigned to duty in this Department.

The duties of this office have steadily increased during the past few years, and are now numerous and varied.

By law an appeal is allowed from the decision of the Commissioner of the General Land Office to this Department in all matters pertaining to the sale and disposal of the public lands, and in many of the important cases such an appeal is taken.

A proper consideration of these cases requires a correct interpretation of the various laws pertaining to the disposal of the public domain, the adjustment of land-grants, public and private, and a determination of the conflicting questions and claims which arise in the administration of our public-land system. The decision of this Department on such questions is final, at least in a court of law.

All these cases are referred to the Assistant Attorney General for examination, and a preparation of decisions therein; and, as may readily be seen, his duties are of a judicial character, requiring a thorough knowledge of the land laws, careful and patient investigation and industry, and sound judgment, in order to properly protect the interests of the Government as well as the rights of purchasers and grantees therefrom.

In addition to the examination and decision of the cases regularly appealed from the General Land Office, the lists of all lands patented under railroad, swamp, internal-improvement, salt-spring, and school land-grants, are examined before the approval by the Secretary of the Interior.

There are also many questions connected with the administration of the Indian bureau and the Patent and Pension Offices, requiring legal investigation and examination; and while the questions presented from the latter bureaus are not so numerous as those from the General Land Office, still they are often quite as difficult of solution, and require a most thorough investigation.

The official bonds of all officers connected with this Department are also examined by the Assistant Attorney General, and not approved until they are found to have been executed in accordance with the law and the rules and regulations of this Department.

A considerable portion of the time of this officer is occupied in the examination of questions upon which his advice is solicited by the officers of this Department, in relation to matters of which no record is made in his office, and in such official correspondence as it is considered proper that the law officer should have charge of.

In view of the varied and complex nature of these duties, as well as the importance of their being thoroughly and carefully performed, I think it is evident that the clerks who are employed to assist this officer in the performance of his duties should not only be men of high character and learned in the law, but that they should also be men thoroughly acquainted with the particular branches of the law under which the questions to be decided arise.

Heretofore no appropriation has been made specifically for the employment of clerks in the office of the Assistant Attorney General, although it has been usual to assign to duty in his office two of the highest grade of clerks provided for in the appropriation for the Secretary's office. This number has been found inadequate for the proper performance of the work required to be done therein, and it has been found necessary to assign to duty in said office clerks detailed from some of the bureaus of the Department, or those carried upon the temporary roll.

I think that the appropriation for the office of the Assistant Attorney General of this Department should be specific and definite, fixing both the number of persons to be employed therein and the salaries to be paid them; and in view of

past experience, I feel justified in saying that a larger number of clerks should be employed therein than has hitherto been thus employed, and would therefore recommend that an appropriation be made for the employment of the following number of clerks, at the salaries hereinafter named: One clerk at a salary of \$2,500, three clerks at a salary of \$2,000 each, and one clerk at a salary of \$1,200.

In this connection I desire to call your attention to the appropriation made for the office of the Solicitor of the Treasury for the present fiscal year, amounting to \$20,300, exclusive of the salary of the Solicitor.

In view of the fact that the questions to be decided involve the title of millions of acres of land, as well as the rights of thousands of settlers, and the finality of the decisions when made, I am of opinion that the salaries to be paid should be sufficient to employ men of such character and ability as will fully protect the interests of the Government and the rights of purchasers therefrom.

In my opinion the appropriation requested is very necessary, and I therefore earnestly recommend that it receive your favorable consideration.

Very respectfully,

E. M. MARBLE,
Assistant Attorney General.

Hon. CARL SCHURZ, *Secretary of the Interior.*

APPENDIX D.

Explaining the estimates of the Commissioner of the General Land Office. (See pages 45, 49, and 161.)

DEPARTMENT OF THE INTERIOR,
General Land Office, Washington, D. C., October 21, 1878.

SIR: In obedience to your verbal orders, communicated by the chief clerk of the Department, I have the honor herewith to transmit revised and reduced estimates for appropriations for the public service under the superintendence of this office for the fiscal year ending June 30, 1880:

1st. For salaries of the employes of the General Land Office, \$307,140, being an excess over the amount appropriated last year of \$86,780. As explanatory of this estimate, and why it is an increase over the amount appropriated last year, I desire to state that there is not more than one-half enough of clerical force, nor more than one-half enough of room for the performance of the business of this bureau in a manner satisfactory to the country, yourself, or myself. The estimate only approximates the amount which should be appropriated for the purpose.

2d. For contingent expenses, maps, printing, and binding for the General Land Office, for salaries of registers and receivers of local or district land offices, depositing public moneys, and for the protection of timber on the public lands, aggregating \$828,000. I wish to say, generally, of all these items that the amounts estimated for are absolutely necessary for the proper transaction of the business of the office. Of the larger item, for salaries of registers and receivers, I desire to say, specifically, that it is in a great measure a hypothetical appropriation, and, when made, takes but a small sum out of the Treasury. There are ninety-four land offices, each having a register and a receiver, making one hundred and eighty-eight (188) officers, to each of whom a fixed salary of \$500 is paid by law, making a total of \$94,000; and each of these officers may receive, in addition to the \$500, a further sum of \$2,500, provided the fees and commissions which the officers earn amount to that sum at their respective offices. The additional sum of \$2,500 that each officer may receive, upon the contingency above named, amounts to \$470,000. All fees and commissions are, by law, required to be turned into the Treasury, and cannot be withdrawn to pay the officers unless provided for by law. It is possible for each officer to be entitled, by existing laws, to receive the full sum of \$3,000 per annum, and hence the necessity of the appropriation. If the money is not earned by the officers, and turned into the Treasury, it is not drawn out by them.

I would speak specifically of one other item named, viz., incidental expenses of the local land offices, \$100,000. The reason for the increase is quite fully explained by the explanatory note following the estimate, to the effect that fees arising under sections 2238 and 2239, heretofore withheld by registers and receivers, but under recent orders turned into the Treasury, will offset this item to a large extent. The sum estimated for is the very lowest that will enable this office to make allowance for rents of offices and contingent expenses under the departmental ruling that office-rent should be paid, the correctness of which decision is manifest.

In regard to the item of \$75,000, to suppress and prevent depredations upon the timber on the public lands, I have only to say that a less sum than that estimated for will not meet the requirements of the service.

3d. For compensation of surveyors general and their clerks. In regard to this estimate I have to say that the salaries of the surveyors general are fixed by law, and very low, and the estimate is for amounts so fixed. The estimate for clerical force is, in my opinion, absolutely necessary to enable the several surveyors general to bring up the work in their offices. Insufficient appropriation for this purpose for several years past has caused great arrearages in the work, and, consequently, great confusion in the offices.

4th. For contingent expenses of the offices of surveyors general. In reference to this estimate I do not see how it can be reduced. The fact that less has heretofore been appropriated does not prove anything with reference to present wants.

5th. For surveying public lands and private land claims, boundary-lines between Territories, appraisement and sale of lands and buildings of abandoned military reservations, examination of public surveys in the field, retracing and reproducing, by photo-lithography or otherwise, of worn and defaced official township plats, &c.

Referring to the above-enumerated estimates, I wish to say that there is no known method of designating the exact sum that should be appropriated for public surveys. The machinery for conducting the public surveys costs as much when idle as when employed. The estimates for the offices of surveyors general amount to more than \$200,000, and no less sum than that will suffice to keep these offices in efficient working-order. Under these circumstances it would seem but fully not to employ them.

The survey of the boundary-lines between the Territories seems to be necessary, as does also the appropriation for defraying the expenses of selling abandoned military reservations, and the improvements thereon. In the case of several reservations, the appraisement and sale of which has been provided for by law, all action has been suspended for want of

appropriation to defray the expenses. The sale of these reservations would put large sums of money into the Treasury if consummated.

Referring to the estimate for appropriation for survey of private land claims, I desire to state that the neglect on the part of the Government to provide for the survey and adjudication of said claims in the territory acquired by the treaty of Gaudalupe Hidalgo, and the treaty commonly known as the Gadsden purchase, has cost the Government millions of acres of land and very large sums of money, and has been the immediate cause of the loss of many lives, and much lawlessness. Every year's and every day's delay make the settlement of these claims more difficult and expensive.

The treaties provided for their settlement the courts of the United States sustain, and award to the grantees of *bona fide* claims the quantity granted, according to the laws of the nation making the grant.

Why should not the initiative be taken for settling those claims in Arizona, where nothing has been done, and the work which has already been commenced in other States and Territories in regard to these claims, consummated at the earliest practicable day? I estimated for the appropriation for that purpose with that end in view.

An appropriation of money to enable the surveyors general to examine surveys in the field is necessary beyond all doubt or cavil, and the amount asked for is very small.

The importance of reproducing, in whole or in part, the mutilated records of this office cannot be overestimated. Age and constant use have rendered the restoration and preservation imperatively necessary.

6th. The estimate for appropriations to cover deficiencies in the years from 1868 to 1878, inclusive, is, in my opinion, a proper one to be submitted.

In conclusion, I would respectfully state that I have carefully examined each item asked for, and if all cannot be appropriated I am unable to say with certainty where the reduction should be made. I would, however, express the opinion that the appropriations most imperatively demanded are those that will enable this office to bring up the arrearages of work now on hand, and also enable the surveyors-general to bring up their office-work. Public surveys can be better dispensed with than any other branch of the public-land business.

Very respectfully, your obedient servant,

J. A. WILLIAMSON,
Commissioner.

Hon. C. SCHURZ, *Secretary of the Interior.*

APPENDIX E.

Explaining estimate for Salaries, Office of Commissioner of Indian Affairs. (See page 46.)

DEPARTMENT OF THE INTERIOR,
Office of Indian Affairs, Washington, September 30, 1878.

SIR: In connection with the "estimates" for the Indian service for the fiscal year ending June 30, 1880, I have the honor to submit the following explanations relative to such items as ask for an increase of appropriation over amounts appropriated for the current fiscal year:

Salaries, Office of Indian Affairs.—Salary of Commissioner, estimate submitted, \$5,000; increase, \$2,000.

The large and increasing amount of routine business connected with the administration of Indian affairs, renders the position of Commissioner at all times laborious, and for services so exacting and responsible, not less than the amount estimated for should be allowed.

Salary of chief clerk, estimate submitted, \$2,500, increase, \$500. In the absence of the Commissioner, the whole administration of the business of the bureau devolves, by law, upon the chief clerk. For reasons above stated, the salary of chief clerk should not be less than \$2,500 per annum.

Solicitor for the Indian Bureau.—Estimated, \$3,000.

The numerous contracts and bonds, and other instruments relating to the disbursement of the large sums of money intrusted to this office for expenditure, should be made under the careful scrutiny of an able lawyer. Inaccurate drawing of papers, by clerks who are deficient in legal training, is certain to result in financial loss to the office and the Indians. Questions growing out of the relations between Indians and citizens, both of civil and criminal nature, are continually arising, in respect to which this office must advise and direct agents. Defaulting and fraudulent contractors escape the law for the want of a competent solicitor in the bureau to follow them up. Large sums of money could be saved to the Government annually, compared with which the salary of a solicitor would be a trifle.

In short, nearly every imaginable question in civil and criminal law, from a simple contract to the construction of treaties, from a mere assault to homicide, and from a simple deed of transfer to the adjustment of the gravest complications in land matters, this office is called upon for decision, opinion, or recommendation. Unsettled matters of great importance are still pending in the office.

To properly protect the large public interests thus involved, pertaining to both whites and Indians, will require all the time of an able officer, whose services, to be commensurate with the labor and responsibility involved, should not be rated at less than the salary recommended.

Three Chiefs of Divisions.—Estimate submitted, \$2,250 for one, and \$2,100 each for two; increase, \$450 for one, and \$300 each for two = \$1,050.

Chiefs of divisions in the Indian bureau are under great responsibility, while on their executive ability mainly depends the efficiency of the clerical force of the office which is placed under their immediate direction. Services of a like character in the Treasury Department are paid for at the rate of \$2,250 and \$2,500.

Book-keeper, Finance Division.—Estimate submitted, \$1,800; increase, \$200.

The salary of the book-keeper of the Indian Office is not fixed by law, and is at present but \$1,600 per annum. It is hardly necessary to state that this sum is inadequate compensation to procure the services of an experienced accountant, who is expected to keep a strict account, ready of reference, under the many heads and sub-heads of appropriations, of the receipts and disbursements by this office, and its seventy-six agents and superintendents, of six million dollars annually.

Clerks of class three.—Estimate submitted, \$12,800; increase, \$1,600. *Clerks of class two.*—Estimate submitted, \$19,800; increase, \$4,200. *Clerks of class one.*—Estimate submitted, \$15,600; increase, \$3,600. *Clerks at \$1,000.*—Estimate submitted, \$9,000; increase, \$3,000.

The large and increasing amount of business in the Indian bureau, occasioned by legislation of Congress, and improved methods adopted by the bureau in the settlement of claims and accounts, render an increase of the force absolutely necessary.

One Messenger.—Estimate submitted, \$840.

The law provides for only two assistant messengers and one laborer. This force is not sufficient to prepare fuel, attend fires, and keep in order twelve rooms, besides performing the strictly messenger service required to carry on the business of the office.

Very respectfully, your obedient servant,

E. A. HAYT, *Commissioner.*

The Honorable THE SECRETARY OF THE INTERIOR.

APPENDIX F.

Explaining estimates of the Commissioner of Patents. (See page 47.)

DEPARTMENT OF THE INTERIOR,
United States Patent Office, Washington, D. C., October 12, 1878.

SIR: Herewith I have the honor to transmit estimates for appropriations for this office for the year ending June 30, 1880, and also an estimate for an additional appropriation for the current fiscal year for continuing the work of reproducing copies of drawings destroyed by the fire of September 24, 1877, [which will be presented in the deficiency estimates.]

In explanation of the latter item, and the appropriation of \$25,000 asked for, for like purposes for the ensuing year, I have the honor to state, that the number of patents of which the drawings were destroyed or damaged by the fire, as found by the Commissioner in making up his estimates last year, and which I have verified by an investigation by a commission, is about 47,000, which, with the extra sheets of such as have two pages of drawings, make an aggregate of over 52,000 sheets, requiring reproduction, 154 copies of each.

At the time of making his estimate last year, the Commissioner hoped to secure the reproduction of these at a cost of ten mills per copy, and asked for an appropriation on that basis. He also expected to preserve about one-third of the number, such as were least damaged, by a process of cutting down the burnt and defaced margins. This has been tried, but the number found serviceable, after cutting, is only about 12,000, leaving 40,000 sheets to be reproduced.

The estimated cost was too low. A commission appointed to consider the proposals offered for reproducing these drawings, having found it necessary, in consequence of the relining and retouching requisite, to prepare a sheet of the drawings for photo-lithography, when tracings did not exist, to award the contract at seventeen mills per copy. This award covering five-eighths of the whole number. The remainder, tracings of which exist, are furnished at eight mills per copy.

The whole cost of the work, estimated from the above data, is about \$86,000, of which \$6,149 04 was paid for from the appropriation of 1877-'78; and after providing for the necessary employes, there remained about \$20,000 of the appropriation for the current year for photo-lithographing, leaving \$60,000 to be provided by future appropriations. Hoping that more of the work can be reproduced at the lesser rate of eight mills, I have asked for \$50,000 only—\$25,000 as a deficiency for the current year, and \$25,000 for the coming year. As orders for copies of these drawings are daily coming in, it is desirable that the reproductions should be made as speedily as possible.

For photo-lithographing the drawings of the current issues of patents, I have asked for \$40,000, the same as was asked for last year, though an appropriation of but \$35,000 was made. Unless the weekly issues decrease, it will be necessary to ask for the appropriation of the additional \$5,000, to meet the deficiency this year.

The estimate for contingent expenses is based upon the expenses of the office in years past, and on the supposition that the building will be, at least a portion of it, repaired and ready for occupancy before the expiration of the coming fiscal year.

The present model-room is already overcrowded, there being enough models now on hand to fill, if properly arranged, another entire hall. The erection of permanent cases for these is a matter of great expense, which must be provided for in this appropriation. The item also of repairing, papering, painting, &c., is based on the same supposition. Many of the rooms in the north and west halls are in almost untenable condition, and the repairs on them are necessarily postponed until there is a permanent roof on those wings. The repair of furniture and cases, and replacing of carpets, &c., damaged by the fire of 1877, is also a heavy item, towards which something has been accomplished, but which, unavoidably, extends through a term of years. While the exigencies of the office, growing out of the receipt and distribution of a complete duplicate set of drawings of English patents, and the completion of the reproduction of our own old patents, require large additions to the present capacity of cases in the examiners' rooms, the repair of the building also involve large expenditure in plumbing and gas-fitting.

The present clerical force, including the temporary clerks allowed under the present appropriation, is inadequate to do the work of the office in a way to meet the reasonable demands of the public. The labor required for the proper preparation and care of printed matter, photo-lithographs, and copies of foreign patents for reference, increases yearly. Many clerks are inadequately paid, by the standards always recognized in this and other Departments, and the difficulty of obtaining promotion as a reward for faithful services acts as a continual detriment to the working-force. I am of opinion that the amount for temporary clerks and laborers ought to be increased to not less than \$40,000.

The other items of the estimate for contingent expenses are the ordinary expenses of the office, which vary little from year to year, but are indispensable to its proper management.

On my estimate for salaries, I have asked for twenty-three principal examiners, instead of twenty-two now appropriated for. My reason for asking this increase is this: The position of law-clerk, whose duties are to assist the Commissioner in the examination of references, &c., cited in appeals, and to prepare his decisions, and those of the United States courts in patent causes, for publication in the Official Gazette, is one requiring qualifications equal to those of a principal

examiner. It has heretofore been filled by detail from the principal and first assistant examiners. With the present arrangement of classes it is impossible to relieve any principal examiner from his regular duties, to even temporarily fill the position. I ask for an additional principal examiner, rather than suggest the creation of the office of law-clerk, as in case of sickness, absence, or other emergency he could be temporarily assigned to the examining corps in his regular *grade*.

The work in the class of trade-marks has so increased that it appears necessary to provide the examiner with a regular corps of assistants, instead of the clerks now temporarily assigned to him. I have therefore asked for an additional first, second, and third assistant examiner, to complete the regular force in this class.

I have estimated for ten pasters and folders at \$480 per annum, an increase of seven over the number regularly appropriated for this year. This is less than the number of persons that are actually employed, and which will be required for this duty as long as the weekly issues of patents are as large as at present, and there is no reason to expect a diminution. I believe it better to have a minimum force regularly provided for in the appropriation, at uniform pay, than to depend so largely upon details from the temporary force.

Very respectfully, your obedient servant,

W. H. DOOLITTLE,
Acting Commissioner.

To the Honorable SECRETARY OF THE INTERIOR.

DEPARTMENT OF THE INTERIOR,
United States Patent Office, Washington, D. C., October 21, 1878.

SIR: I have carefully revised my estimates for the coming fiscal year with a view to reducing them, if possible, consistently with the interests of the service.

I am unable to recommend any reduction from my former estimate, except in the estimate for printing and binding.

The Public Printer's bills against this office, for the year 1877-'78, now amount to \$95,000. There are bills not yet rendered to the amount of about \$7,000, making a total for that year of \$102,000.

It is not safe to estimate for the coming year for a less sum for the current work of the office. In addition to this, provision must be made for 5,000 reprints, at an average cost of \$2 26 each, making \$11,300. These reprints are greatly in arrears on account of the suspension of printing during last winter and spring while waiting for appropriations.

The Alphabetical Index of Patents, which has been some years in preparation, and is urgently demanded, both by the public and for office use, should also be provided for, the estimated cost of printing and binding it being \$9,000.

These two items bring my estimate up to \$122,300, the sum I consider actually necessary for the printing and binding of the office for the fiscal year 1879-'80.

Very respectfully, your obedient servant,

W. H. DOOLITTLE,
Acting Commissioner of Patents.

Hon. CARL SCHUEZ, *Secretary of the Interior.*

APPENDIX G.

Explanation of the estimates of the Commissioner of Education. (See pages 48 and 167.)

DEPARTMENT OF THE INTERIOR,
Bureau of Education, Washington, D. C., October 1, 1878.

SIR: I beg to submit a statement in regard to the appropriations asked for the Bureau of Education for the fiscal year ending June 30, 1880.

This office was established on the petition and at the request of the educators of the country, a few years since, "for the purpose," as detailed in the law, "of collecting such statistics and facts as shall show the condition and progress of education in the several States and Territories, and of diffusing such information respecting the organization and management of schools and school systems, and methods of teaching, as shall aid the people of the United States in the establishment and maintenance of efficient school systems, and otherwise promote the cause of education throughout the country."

The diversity of educational methods among us arises from the nature of our institutions, and is a great advantage. It has, however, this embarrassment to the student of education, namely, the fact that the information given by the educational officials of the several States and municipalities, and by the authorities of the different educational institutions throughout the country, in regard to their systems, methods, and statistics, shows equal if not greater diversity, and affords no opportunity for a just comparison.

This office affords the only agency for summarizing these diverse but valuable statements. It is admitted by all investigators that, by a brief examination of the statistical tables appended to the annual reports, fuller and more accurate information in regard to the educational systems in the different States can be obtained than could otherwise be got, with much pains, from a study of the many official reports of the numerous educational officials and school authorities in the United States.

The methods designed and adopted, so far as the inadequate means at his disposal permit, by the Commissioner for carrying out the provisions of the law are—

1st. The systematic collection of the statistics of all public schools in the several States, cities, and towns in the United States, of all other private or public institutions of learning, elementary, secondary, or superior, in the United States, and, in addition, of all information, either relating to the public-school systems or to the public or private institutions, that bears upon the general interests of education.

2d. The preparation of annual reports, in which the official reports of all the public-school authorities of the several States are condensed, and in which, in addition, the special statistics which have been so carefully collected by this bureau are all arranged and tabulated, so that the whole forms a compact but comprehensive summary of the actual facts of the educational condition of the whole country.

3d. The preparation and publication of special reports, containing historical, statistical, and practical material in reference to special instrumentalities of education: as, for example, the special reports upon public libraries and on medical education in the United States, recently published, and the forthcoming special reports upon industrial-art education and other similar subjects, for information in reference to which constant application is made to this bureau. These reports are designed, and will be prepared and published whenever the means furnished the bureau will permit.

4th. The preparation and publication of circulars of information on topics of special technical value to educators, but not requiring the elaborate treatment of a special report.

In addition to all these imperative duties, there devolves of necessity upon this office the essential routine duties common to all public offices, namely:

A large correspondence, which, in this office, is both domestic and *foreign*, embracing an unusually wide range of topics; the keeping of files and records of such correspondence; the collection and care of a library; the packing and distribution of reports and other documents; the reception of visitors, &c.

In reference to the sum of fifteen thousand dollars (\$15,000) asked for "collecting statistics," &c., it is perhaps proper to say that this amount was inserted in one sum by the Committee on Appropriations, in lieu of an itemized statement in the estimates furnished by the Commissioner when entering upon the duties of the office. Experience has shown that it was a wise change, as he has thus been enabled to procure desirable information, on special subjects, from the different sections of our own country and from foreign countries, and to employ persons of special fitness on special topics, and in this way has been able to secure far greater, more varied, and more valuable results *than* (even with a much larger sum) *would have been otherwise possible*.

The tabulated statistics at the end of the annual report are made up from replies sent by each institution in answer to inquiries sent out by this bureau, and *are to be found in no other publication*. To any person at all familiar with statistical work, no explanation will be needed to convey an adequate idea of the labor of annually collecting and tabulating such an array of facts.

The reading-matter preceding these statistics is annually abstracted from some sixty thousand (60,000) pages of State, city, and local official reports, as well as from material furnished directly to the office.

The Commissioner's personal statement, which forms the first portion of the volume, summarizes and tabulates in condensed form the principal facts contained in the abstracts and statistical tables of the report. That a great deal of conscientious labor has been expended upon the production of the annual reports, will be evident to any one who examines them. That the result has been approved by the educators of the country, has been demonstrated by their voluntary testimony at their various conventions, by the demand for these reports, which is far larger than can be supplied, and also by numerous and gratifying assurances, personally and by letter. The clerical force of the office is now hardly sufficient to meet the daily routine of the ordinary official duties, if no reports were made. But the communication of information by reports and otherwise is as much a part of the duty of the office as the collection and preparation of that information; indeed, without the publication of that information, the office wholly fails to meet the educational demands in answer to which the office was created. The requirement to make reports and give information is, moreover, positive—the printing is ordered; but there never was, till the present year, any provision for the large branch of labor and expense involved in their packing, directing, and mailing. This work, therefore, of wrapping, directing, packing, and mailing has, so far, drawn upon the clerical force of the office, and interferes with its other duties. If the office meet the demands upon it for the ensuing year, the documents distributed will outnumber those of any previous year.

The library of the office demands attention. It should be stated that, in 1870, there were not one hundred volumes belonging to it; that it has never had a librarian; that the library is of a purely technical character, intended to contain only those works relating to the subject of education, and useful in preparing reports; and that, while absolutely essential to the efficient administration of the office, it affords the only opportunity of the kind in the country for comprehensive research on this subject. It is now without catalogue and without index. Its proper care and its efficient use, either by the office or by special students, of the subject of education, require both cataloguing and indexing. A hasty enumeration of its contents last July, showed that it possessed about twenty-five thousand pamphlets and ten thousand books, as well as ten thousand duplicates. The increase—all that could be expected under the circumstances—I am sure would be much more rapid if persons in different portions of the country interested in it could be assured of a catalogue of what it contains for their use.

The office has also an educational museum, for the care of which no provision is made by law. The articles it contains illustrate educational methods, apparatus, text-books, furniture, buildings, and statistics, both domestic and foreign. These articles have been furnished partly by different foreign governments, who desire similar articles from this country for their information and guidance. Nearly every civilized country has in some form a museum of this kind for the preservation and display of such articles. I need only mention the South Kensington Museum of Great Britain as an example of the better sort. I have been able, with the co-operation of the Department, to bring the collection of educational appliances into the same building with the rest of the office. The library and museum can now be used together with great advantage to the use of each.

This office has had no means of making any return for donations of articles from foreign nations, and has not been able to accede to their requests in this respect. The usefulness of a distribution of such articles, in limited number, among our State educators, also, cannot be doubted.

It is due that I should add that this office, established at the request of State and other educational officers, who would naturally be most jealous and sensitive of any mistake in its management, has grown only with the growth of their approval and co-operation. The amount of money appropriated for it annually would not pay for a tenth of the work required in the gathering and preparation of the statistics and other information published by it. Having done this much by their own voluntary action, they are naturally not satisfied that Congress does not, year after year, appropriate means necessary to do the limited clerical work their demands upon it require.

Very respectfully, your obedient servant,

JOHN EATON, *Commissioner*.

To the Honorable THE SECRETARY OF THE INTERIOR.

APPENDIX H.

Statement of Expenditures under Salaries, Department of Agriculture, for the first quarter of the fiscal year, 1879. (See page 55.)

ABSTRACT.

Statement of money paid by Wm. G. Le Duc, Commissioner of Agriculture, for salaries during the quarter ending the 30th day of September, 1878:

Name.	Amount.	Name.	Amount.
Wm. G. Le Duc	\$750 00	Lizzie Eccleston	250 00
E. A. Carman	475 00	James Halley	240 00

APPENDIX K.

Explanation of the estimates for the Quartermaster's Department. (See pages 71 to 73.)

WAR DEPARTMENT,
Quartermaster General's Office, Washington, D. C., October 4, 1878.

SIR: I have the honor to acknowledge the receipt of your letter of the 1st instant, relative to the estimates for the Quartermaster's department for 1880, and submit the following remarks relative to each head of appropriation and the reduction in the estimate for each, which can possibly be made without too great embarrassment to the service:

Regular Supplies.—Appropriation of 1877-'78 was \$3,700,000. There remains unspent \$100,000.

I think the appropriation of current year, \$3,350,000, is too small, but I reduce the estimate to \$3,600,000.

Incidental Expenses.—Appropriation 1877-'78, \$800,000. Appropriation 1876-'77, \$850,000. Appropriation 1878-'79, \$1,000,000.

The appropriations 1876-'77, 1877-'78 compelled reductions in salaries and the forcing soldiers to labor as on daily duty instead of on extra duty not less than ten days, and thus deprived soldiers of compensation for labor allowed by law, but not provided for by sufficient appropriation. The appropriation of 1878-'79 will probably be made to last through the year with less difficulty and injustice than in 1876-'77. I reduce the estimate therefor to \$1,000,000, same as last year's appropriation.

Estimate for Cavalry and Artillery Horses, \$252,000.—In the year 1876-'77, including mounts for 2,500-men added to the cavalry during that year, 3,991 horses were bought at an average of \$125. The number of horses in service is now 11,800.

Last year there were bought as remount 2,251 horses, costing \$265,019; average \$117 73. Less than this will not meet the probable necessity of the next year. I cannot, therefore, reduce the estimate below \$252,000.

Barracks and Quarters.—Estimate, \$1,300,000; appropriation 1878-'9, \$880,000. This estimate may, I think, be reduced to \$900,000. Less than that will cripple the service.

The expenditures in current year for moving department and division headquarters to military posts, has been great, and less than usual can be applied from this appropriation to repairs of the five thousand buildings in charge of the Quartermaster's department.

Army Transportation.—Appropriation 1876-'7 was, including deficiency appropriation, \$4,934,800; appropriation 1877-'8 was \$4,200,000. There is a deficiency due Pacific Railroad for service of that year of \$825,000; total cost of service of year \$5,025,000. A reduction in the number of troops enforced great activity in transportation, long journeys and increased expenditures for transportation.

Estimate for 1879-'80, as prepared in this office: Transportation, \$4,397,000. I am of opinion that \$4,400,000 will be necessary to pay for the movements which, though ordered by the War Department and military commanders, are controlled by circumstances, *Indian outbreaks* not under *their control*, and which require troops to be brought from long distances to scene of hostilities.

Clothing and Equipage.—Last year's appropriation, \$900,000. As then reported, this appropriation has compelled us to strip our depots of material, and it has been difficult to keep up the supplies, but there is no deficiency in last year's service, and I reduce this estimate to \$900,000, the sum appropriated for each of the past two years.

National Cemeteries.—I reduce this estimate to \$100,000.

Hospitals.—This is founded on the estimate of the Surgeon General.

Pay of Superintendents.—Fixed by law, \$59,000.

RECAPITULATION.

Regular supplies	\$3, 600, 000 00
Pay of superintendents	59, 000 00
National cemeteries	100, 000 00
Clothing and equipage	900, 000 00
Hospitals	100, 000 00
Barracks and quarters	900, 000 00
Incidental expenses	1, 000, 000 00
Army transportation	4, 400, 000 00
Cavalry and artillery horses	252, 000 00
	<hr/>
Appropriation 1878-'79	11, 311, 000 00
	<hr/>
Increase of	547, 000 00
	<hr/>
Decrease:	
Estimate for 1879-'80	\$12, 940, 473 29
Estimate as modified	11, 311, 000 00
	<hr/>
Showing decrease of	1, 629, 473 29
	<hr/>

I return the original estimate and enclose one made to conform to these notes.

Very respectfully, your obedient servant,

M. C. MEIGS,
Quartermaster General, Brevet Major General U. S. A.

To the Honorable SECRETARY OF WAR.

APPENDIX L.

Geographical Surveys West of the One-hundredth Meridian. (See page 73.)

UNITED STATES ENGINEER OFFICE,
Geographical Surveys West of the One-hundredth Meridian,
Washington, D. C., June 29, 1878.

GENERAL: Referring to the estimates submitted with annual report of this date, I have the honor to suggest that any appropriation made in their fulfilment be rendered available immediately upon the passage of the act, and for the reason stated in my letter of June 30, 1877, appearing in book of estimates for the year 1878-'79, p. 210.

The disadvantage of having but a limited amount of time in preparation for taking the field can only be too apparent.

The funds already appropriated will admit of the necessary reductions from the field records of 1878, and for continuing office-work until the 1st of July, 1879, but admit of no new field enterprises, unless subsequent amounts are appropriated.

The division of the work into Colorado, Utah, and California sections still continues, there being a corresponding number of points of supply from which parties can move in either direction, and it is advantageous to the vigorous prosecution of the work that parties should be employed in field-work during both the summer and winter seasons.

Very respectfully, your obedient servant,

GEO. M. WHEELER,
Lieutenant of Engineers.

Brig. Gen. A. A. HUMPHREYS,
Chief of Engineers, U. S. Army, Washington, D. C.

UNITED STATES ENGINEER OFFICE,
Geographical Surveys West of the One-hundredth Meridian,
Washington, D. C., June 29, 1878.

GENERAL: I have the honor again to suggest that the amounts asked for the continuation of "geographical surveys west of the one-hundredth meridian," may be estimated for upon the army appropriation bill, and to respectfully refer to my letter of June 30, 1877, found in the book of estimates for the year 1878-9, on page 220.

I am more than ever impressed with the advantage of having this appropriation upon the army act, as the work of survey, year by year, in the prosecution towards completion of the geodetic and topographical survey of the entire territory west of the one-hundredth meridian, brings more and more practical information to the War Department, advantageous in its extended and multiple operations over this great area; and, when the connected topographical survey itself is made, there will still be work to be done in resurveys of routes of communication and other changes made by settlement, data regarding which will be required by this and other branches of the Government.

Congress has since the year 1803, by various acts and resolutions, authorized the prosecution of topographical surveys in the interior, both east and west of the Mississippi River, through the officers of the Army, of the topographical engineers and corps of engineers, and approved in a large number of instances the publications of the results from the same, and, as a usual item, included appropriations in the army bills for such purpose.

Although these surveys were interrupted at the commencement of the late war, still, at its close, the surplus of the appropriations of surveys for military defences was by the act of March 2, 1867, made available for western surveys in addition to the regular appropriation for military and geographical surveys west of the Mississippi River, then in existence; and geographical surveys, with the exception of the interruption mentioned, have continued steadily from the time of the first Pacific Railroad survey, in 1851, to the present day.

Very respectfully, your obedient servant,

GEO. M. WHEELER,
Lieutenant of Engineers in charge.

Brigadier General A. A. HUMPHREYS,
Chief of Engineers, United States Army.

APPENDIX M.

Recapitulation of the estimates for Indian Service, as furnished by the Indian Office. (See pages 93 to 111.)

APPROPRIATED FOR THE FISCAL YEAR ENDING JUNE 30, 1879.

Current expenses, salaries, &c	\$191,400 00
Fulfilling treaties with Indian tribes	3,052,067 72

APPENDIX N.

Explanation of the estimate for Sea-wall at Governor's Island, New York. (See page 129.)

EXTRACTS from letter from Major General W. S. Hancock, Commanding Military Division of the Atlantic, to the Adjutant General United States Army, dated August 20, 1878.

SIR: I have the honor to recommend a suitable appropriation for the completion of the sea-wall around Governor's Island. Colonel Benham, the engineer officer in charge, has, I am informed made estimates for the purpose. I cannot too strongly urge the necessity for the early prosecution and completion of this important work. Governor's Island is within the greatest city of this continent, New York, and in immediate proximity to the great city of Brooklyn, and on these, as well as on the sanitary grounds fully set forth in the within communication, to which I invite special attention, its bounds should be permanently fixed by a suitable sea-wall. The shore between high and low tides is shelving and interspersed

with rocks, which serve to retain, at the fall of the tide, the refuse brought up at high water. As an illustration of the evil from this source, I would state that official reports of observations carefully made in the six months from July, 1873, to January, 1874, show that the following carcasses of dead animals floating in the bay were thrown upon the island during that period, viz: July, 1873, 369; August, 1873, 205; September, 1873, 121; October, 1873, 58; November, 1873, 75; and December, 1873, 75. Total for six months of 1873, 903.

Although these carcasses are offensive and injurious, they are probably not so dangerous to health as the clothing, bedding, &c., infected with disease thrown upon the shore of the island by the tide, and which lodges for want of a sea-wall. Yellow fever on the island was, in one instance at least, traced directly to the latter cause.

It is true that the management of the general police of the harbor by the city is not so bad now as it was during the time to which the statistics above given relate, but still, although in a somewhat smaller degree, the nuisance remains, and can only be properly dealt with, for this island, through the aid of a sea-wall.

Hoping the subject may receive the favorable consideration of the War Department and Congress, I am, sir, very respectfully, your obedient servant,

WINFIELD S. HANCOCK,
Major General Commanding.

COPY OF ENDORSEMENT by commanding officer at Fort Columbus, dated August 8, 1878, on report by Assistant Surgeon J. P. Kimball on sanitary condition of the post, the substance of which is stated in the above extracts from General Hancock's letter, and copy of endorsement of Surgeon and Medical Director J. M. Cuyler, U. S. Army.

HEADQUARTERS, FORT COLUMBUS, August 8, 1878.

The facts stated by Assistant Surgeon Kimball are well known to any one who has resided on Governor's Island for any length of time. The sanitary condition of this island will never be good until its shores are protected from filth by a suitable sea-wall, and with the view of bringing this subject to the notice of the commanding general, this report is respectfully referred to Department Headquarters.

J. P. SANGER,
Captain First Artillery, Commanding Post.

HEADQUARTERS DIVISION ATLANTIC AND DEPARTMENT EAST,
Medical Director's Office, Governor's Island, New York Harbor, August 13, 1878.

As a sanitary measure, the completion of the sea-wall around the entire island is unquestionably of the greatest importance, and I most earnestly recommend that the work be done at as early a period as possible.

JNO. M. CUYLER,
Colonel and Surgeon U. S. A., Medical Director.

EXTRACT from Annual Report dated July 11, 1878, from Col. H. W. Benham, Corps of Engineers, to the Chief of Engineers.

I would also respectfully represent the condition of the shores and shoals upon the southeast part of this island, back of the range of officers' quarters, between the south battery and the main wharves.

The shore-line along the reach named is without protection, and is irregularly broken down by the wash of the waves in storms, while in front, or outward from the shore, a shoal extends, bare at low water, to the distance of one hundred to two hundred feet, which, from its position, in the eddy between the Buttermilk Channel and the Hudson River, receives the drift and carrion offal of the river, making it often very offensive to the residents on the island.

The best remedy for this, and a necessity, I consider to be a sea-wall, of rounded or convex line of short faces, running out upon this shoal, which, without indentations, would give a regular current and direction to the water, thus tending to carry off all such offensive matter, while the space in rear, filled up, as it might be without great cost, in part perhaps by the garrison, would add some acres to the area of the island, where every yard of land is so valuable.

Very respectfully, your obedient servant,
H. W. BENHAM,
Colonel of Engineers, Bvt. Maj. General.

APPENDIX O.

Explanation of the estimates for Government Hospital for the Insane. (See pages 141 and 167.)

BUILDINGS AND GROUNDS.

The best economy in the care of the extensive buildings and grounds of the hospital requires the annual expenditure of at least ten thousand dollars (less than two per cent. of their original cost) for the preservation of the buildings and the gradual development and improvement of the grounds.

The battlements and roofs, especially of the sections nearest the centre building, are showing signs of decay, and require to be renewed. It is thought that this is a most favorable opportunity by changing to a Mansard roof, at a trifling expense above that needed for the repairs of the old, to provide suitable accommodations for the female domestics, a provision that has become imperatively necessary. A little expense for partitions and plaster in the second story of the bakery will furnish a number of rooms for the farm-laborers, whose present quarters seriously encroach on room originally

designed, and now much needed, for the accommodation of patients. Enlarged airing-courts are required for the west wing; also one to enable that class of female patients whose condition does not admit of their walking about the public grounds to enjoy themselves in the open air and sunlight.

The increasing productiveness of the hospital-farm renders necessary an enlarged provision for the storage of the crops. We should have a hay-barrack large enough to contain all the hay that is now stacked and liable to be injured or stolen; also a tool-house for the wagons and agricultural implements now exposed to the weather.

It is believed that the comparatively small sum asked for will enable us to complete these very important works.

To neglect to provide, for these unfortunate wards of the nation, suitable and complete protection in case of fire, would be nothing less than a crime. The limited appropriation made at the last session of Congress has been faithfully expended for the objects named in the appropriation bill, but is quite inadequate to the complete arrangement of stand-pipe and hose that the protection of the buildings require, and which was contemplated when the original estimate of \$5,000 was made.

An unlimited supply of pure water throughout the entire hospital is a prime necessity.

There are three springs of excellent water on the hospital grounds from which (by the somewhat primitive method of a procession of inmates with buckets) the water for table use is now obtained; the water used in the hospital for all other purposes is pumped from the Anacostia river. The Board of Visitors, in their report for 1874, call attention to the fact that this water is often "abominably dirty." They have not overstated the fact. By sinking a well near the river-bank, some of the most palpable impurities have been eliminated, but before the water supply can be made at all satisfactory for laundry and cooking-purposes, it will be necessary to construct, on the hospital plateau, a series of depositing reservoirs with intervening filters. By this means an ample supply of water, in case of fire, will be stored in the immediate vicinity of the hospital, and at a very moderate outlay wholesome water, purified and cooled by passing through gravel and sand filters for a considerable distance under ground, can be most advantageously substituted for that now in use.

The American Association of Medical Superintendents of Institutions for the Insane, comprising the leading alienists in the United States and the British Provinces, at their annual meeting held in Washington in May, 1878, passed, among others, the following resolutions:

"That this Association has had great satisfaction in visiting and carefully inspecting the Government Hospital for the Insane, giving, as it does, renewed evidence of the liberality and humanity of the public authorities in their generous provision for these unfortunate wards of the nation, and especially as showing very strikingly the fidelity, economy, and ability with which appropriations, heretofore made for its buildings and support, have been used on all occasions.

"That while recognizing the high position thus far deservedly held by this hospital, which ought ever to be in all respects the model institution, to which the different States could look for a safe example when making provision for their insane, the association is reluctantly compelled to refer to an existing and obvious deficiency, which is sure to seriously impair its usefulness and lower the high standard of character which it has heretofore maintained.

"That the defect just alluded to consists in its greatly crowded condition, rendering impracticable the best matured plans of treatment, and certain to show in the future, in a still higher degree, the great and serious losses that must be sustained by this unfortunate condition of its wards.

"That this association firmly believes that all these deficiencies and defects can be remedied by the prompt provision of additional accommodations, which no plea of expediency could justify being made anything below the highest standard, long since adopted by this association, and it would, therefore, most respectfully commend the subject to the earnest consideration of the representatives of the people, for whose benefit this noble hospital has been established, as one demanded by the strongest claims of an enlightened humanity and a true economy."

The opinion of such a body of men, in a matter in which they are experts, is entitled to great weight.

This is the fourth year that an appropriation has been asked for the relief of our overcrowded hospital, by providing a distinct building for the female patients—a plan that has been successfully adopted in New York and Philadelphia, and also by the State of Michigan. The plan has been fully discussed in the estimates of previous years, and if it has lost something of the charm of novelty it has certainly lost nothing of the urgency of its need by the delay. As it will require three years for its completion, only one-third of the estimated cost of erection is asked for expenditure in the fiscal year 1879-'80.

In the present overcrowded state of the hospital, it is, in one sense, a question of minor importance what enlarged provision for the insane of the Army and Navy can be perfected three years hence, but it is of the utmost importance that something be done at once. In response to our urgent appeal, Congress, at its last session, appropriated \$5,000 for a barrack, to make temporary provision for fifty patients. This was an experiment; the result is a building that will probably be ready for occupation by the 1st of December proximo, that will furnish entirely comfortable quarters for fifty of our inmates who are able to assist about the grounds. While the design is that the occupation of this building for the lodging of patients shall only be temporary, until more complete and permanent provision can be made in suitably-appointed hospital buildings, the structure itself will be a permanent one, and can, with very little alteration, be used as a workshop for the employment of a large number of patients. It is possible, with an appropriation of \$125 per patient, or \$30,000 in all, made immediately available on its passage, to provide, between the final adjournment of this Congress and the time of assembling of the next, equally satisfactory temporary accommodations for two hundred and fifty patients in permanent structures, not unsightly in their character, and which, when no longer needed for occupation as dormitories, can still be made available in demonstrating the great advantage of varied occupation in the treatment of the insane.

This much-needed relief attained, the Government hospital will take the position to which it is entitled, as the national hospital for the insane.

CURRENT EXPENSES.

The number of patients under treatment in the hospital, June 30, 1878, was 792. Since that date the number of admissions has been unusually large, and though the number of discharges has also been large, it has been found impossible to prevent a gradual rise in the number of inmates in the hospital, so that on the 1st of September, 1878, the whole number in the house was 805. We shall probably be called upon to provide for 850 inmates before the 1st of July, 1879, the commencement of the fiscal year for which this appropriation is asked. Estimating the cost of support of each patient at \$225 per annum, exclusive of the value of the products of the farm and garden above the cost of their production, the total cost for 850 patients for one year is \$191,250.

The act of Congress making appropriations for the hospital for the year 1877-'78, provides that hereafter the authorities of the District of Columbia shall pay one-half of the expense of supporting the indigent insane of the District admitted after July 1, 1876. It is estimated that one-half the cost of supporting that class for the year 1879-'80 will be \$12,500, which, deducted from \$191,250, leaves \$178,750 to be appropriated by Congress.

In the act making the appropriation for the hospital for the year 1878-'79, provision is made that not exceeding one thousand dollars of the appropriation for support may be expended to defray the expense of removal of patients to their friends. The result of this has already been so satisfactory that it is recommended that this provision be continued in future appropriations.

Very respectfully, your obedient servant,

W. W. GODDING,
Superintendent.

Hon. SECRETARY OF THE INTERIOR.

APPENDIX P.

Explanation of the estimates for the Reform School, District of Columbia. (See pages 141 and 168.)

DEPARTMENT OF JUSTICE,
Washington, November 4, 1878.

SIR: I have the honor to enclose with this an estimate of the appropriations desired for the support and maintenance of the Reform School of the District of Columbia, for the fiscal year ending June 30, 1880.

In this are included estimates for several objects for which appropriations were not made for the present fiscal year. The amounts asked for these new objects are less than it is thought the needs of the institution demand.

In explanation of these several items, I enclose extracts from a letter addressed to the Attorney-General by the president of the board of trustees, which show more particularly the reasons in support of the several subjects contained in the estimate.

Very respectfully,

S. F. PHILLIPS,
Acting Attorney General.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

REFORM SCHOOL OF THE DISTRICT OF COLUMBIA,
Washington, November 2, 1878.

SIR: * * * The first item is for the salaries of the superintendent, teachers, and other employes. Owing to the increased number of boys, and to meet the requirement of the school, we have asked that two thousand dollars (\$2,000) be appropriated on this account beyond what has heretofore been appropriated by Congress. The amount heretofore appropriated has been ten thousand dollars (\$10,000) only. If the additional sum of two thousand dollars (\$2,000,) be given, it will enable the board to employ two additional teachers, and enable them also to arrange the families so that each family shall contain fifty (50) boys, which is a maximum number that should constitute a family, and it will also enable us to pay to the treasurer and secretary of the board salaries fixed by law. The two additional teachers asked for are much wanted, and the benefit which shall be derived from their employment cannot be too highly estimated. The duties of the secretary and treasurer involve much labor and responsibility. The treasurer is a bonded officer, and is held in the sum of twenty thousand dollars (\$20,000) for the strict and honest performance of his duty.

The school is now filled to its utmost capacity, and unless further accommodation is provided, we will have to request the judges of the courts to commit no more boys, and I, as president of the board, will have to decline to receive boys at the request of their parents. I am satisfied, from experience, and from a conversation with Judge Snell of the police court, that if we had the additional buildings asked for, they would be filled within a short time. If these accommodations are not provided, boys who should be sent to the school will be committed to the common jail or workhouse, where, by association with evil companions and hardened criminals, they soon become adepts in vice, and when discharged therefrom they are ready for a career of crime. Money, therefore, spent in the prevention of crime, is better spent than for its prosecution. By enlarging our school, crime in the District will be prevented, and youthful offenders saved from their downward career. The outlay asked for will be small in comparison with the good that will arise therefrom. It may be proper for me to add, that since I have been president of this school, I have been obliged to refuse many applications made to me by parents, owing to the want of room for the accommodation of their boys. * * *

The present barn is almost useless and the foundation is crumbling, and in a short time the whole structure will be a wreck, and fall to the ground. There is not, at present, adequate means for the protection and housing of stock on the farm. * * *

The sixth item is for annual repairs to the buildings. The buildings require more or less repairs yearly, and the board ask for this purpose, for the next fiscal year, the moderate sum of \$1,000. * * *

The buildings should be painted some suitable color. The outer wood-work of the buildings also are greatly in need of paint, for their preservation and protection.

With the exception of the annual appropriation of salaries, no appropriation has been made for our school by Congress for a number of years, with a single exception, when an appropriation of five thousand dollars (\$5,000) was made for certain improvements to the buildings and grounds. * * *

Very respectfully, your obedient servant,

A. J. FALLS,
President of the Board of Trustees.

To the Honorable THE ATTORNEY-GENERAL.

APPENDIX Q.

Explanation of the estimates of the Bureau of Engraving and Printing. (See page 155.)

TREASURY DEPARTMENT,
Bureau of Engraving and Printing, November 1, 1878.

SIR: I have the honor to submit the estimate for the work of this bureau for the fiscal year ending June 30, 1880.

I beg to call your attention to the fact that the estimate for labor and other expenses is one hundred and fifty thousand dollars (\$150,000) greater, exclusive of any estimate for distinctive paper, than the amount appropriated for the current fiscal year. This is explained by the fact that the Treasurer has estimated that, during the next fiscal year, he will require five million two hundred and sixty-five thousand (5,265,000) sheets—four notes to each sheet—of United States notes. This is more than double the amount delivered during the fiscal year ended June 30, 1878, and largely in excess of the amount on which the estimate for the present year was based. In this connection it should be remembered also that there was on hand, when the estimate for the present year was made, a quantity of distinctive paper sufficient to last until June 30, 1879, and stores and material for printing to the value of sixty thousand dollars in excess of the then demands, which is really an addition to the amount of money appropriated.

The stock of distinctive paper for United States notes will need to be replaced during the next fiscal year. As furnishing paper to this bureau is a matter which properly belongs to your office, in accordance with the system of independent checks now in operation, and inasmuch as the question of a distinctive paper is now being considered by you, and that the proposals for supplying it are to be opened December 4, next, I have not made an estimate of the amount which it will be necessary to appropriate for this purpose.

It is expected that the building, now in course of erection for this bureau, will be completed, and that the effects of the bureau will have to be removed thereto, during the next fiscal year. I have, therefore, made an estimate of the cost of this removal and have inserted an item therefor, and for such additional machinery and fixtures as will be necessary, amounting to fifty thousand dollars.

Very respectfully,

O. H. IRISH,
Chief of Bureau.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

APPENDIX R.

Explanation of estimates for Coast-Survey Service. (See pages 156 and 157.)

U. S. COAST SURVEY OFFICE,
Washington, October 21, 1878.

SIR: I have the honor to submit herewith estimates for continuing the work of the coast and geodetic survey, and also of standard weights and measures of the United States. The annexed papers contain—

I. Estimates in detail for the work of the coast and geodetic survey during the fiscal year ending June 30, 1880, preceded by a brief statement of the progress effected during the fiscal year ending June 30, 1878.

II. Estimates of deficiencies in the appropriation required to continue the work of the survey throughout the fiscal year ending June 30, 1879, on a properly efficient and economical basis.

III. Estimates for continuing the construction of United States standards of weights and measures for the fiscal year ending June 30, 1880.

The amounts submitted in these estimates have been most carefully considered, and are the least in amount that a due consideration of the best interests of the Government demands.

The aggregate of estimates now submitted, although greater than the appropriation of the current fiscal year, is much less than those first submitted in October last. In consequence of the reduced appropriation during the past two years and the present year to an amount insufficient for the due progress of the survey over new ground, entirely prevents any attempt to revise the surveys of most important localities, as Long Island Sound, New York Bay, Delaware Bay and River, the Mississippi River delta, San Francisco Bay, Columbia River entrance, and many other localities where changes have taken place. The amounts now submitted will barely make such advances in the work as the immensely increasing business of the country demands.

To illustrate the nature of the work proposed in the detailed estimates, a synopsis will first be given, showing the operations of the past fiscal year. It will be observed that the work has been advanced in upwards of one hundred localities on the Atlantic Coast, Gulf of Mexico, and Pacific Coast of the United States, including geodetic stations intermediate between the eastern and western coasts. For convenience, the work of the field and hydrographic parties will be recapitulated in the usual geographical order. The work afloat, and the geodetic and other operations of the fiscal year ending June 30, 1878, include soundings in the seaward approaches of Mt. Desert Island, off the coast of Maine; and, in the same vicinity, topographical surveys at the head of Frenchman's Bay and Blue Hill Bay; hydrography of the vicinity of Deer Isle and Isle au Haut, and tidal observations in Penobscot entrance; geodetic work at Gunstock Mount, and at Gilford, for determining geographical points in New Hampshire; triangulation for the harbor commissioner's survey of Boston upper harbor; determination of the positions of light-houses on the coast of Massachusetts; development of the action of sea-currents as affecting navigation across the Gulf of Maine; tidal observations at Providence, Rhode Island; shore-line survey and soundings in Duck Island Harbor, Connecticut; detailed topographical survey of the north and west approaches to New Haven, Connecticut; and of the western shore of Jamaica Bay, including Rockaway Inlet; survey of Coney Island, and of the shores of Sheepshead Bay and Gravesend Bay, Long Island, New York; hydrography of Rockaway Inlet, and of the adjacent parts of Jamaica Bay; pendulum observations at New York City; tidal observations at Governor's Island, and at Sandy Hook; topography of the shores of Hudson River, near Peekskill, New York; tidal bench-marks at Stuyve-

sant and Albany, established by lines of level; primary triangulation connected with geodetic stations in New Hampshire, Vermont, and Massachusetts; latitudes and longitudes determined for State commissioners in adjustment of boundary-line between New York and Pennsylvania; geodetic points determined in the northern part of New Jersey, and in eastern Pennsylvania; latitude, longitude, and the magnetic elements at Harrisburg in that State; points determined, and special observations of tides and currents in the Delaware River at and near Philadelphia; triangulation for light-house positions in Delaware Bay; topographical survey continued eastward of Norfolk, Virginia; tidal observations at Fort Monroe; special observations in the waters of Chesapeake Bay in regard to salinity and density; bench-marks along the Potomac, near Washington, District of Columbia, for comparing flood-levels; magnetic declination, dip, and intensity, determined at Washington; lines, with spirit-level, run between Hagerstown and Cumberland, Maryland; primary triangulation at stations on the Blue Ridge, Virginia; marine notes derived from examinations between Cape Henry and Cape Fear for the Atlantic Coast Pilot; positions of Life-saving Stations between Cape Henry and Cape Hatteras, determined and marked on sheets of the survey; topography of the shores of Cape Fear River below Wilmington, North Carolina; primary triangulation between Kent Island base-line, Maryland, and the base near Atlanta, Georgia, closed at stations in North Carolina; hydrography of the coast of South Carolina above Murrell's Inlet, including Little River; coast examinations between Fernandina, Florida, and the Dry Tortugas, and marine notes, compiled for publication; tidal observations at Fernandina; hydrography of the eastern coast of Florida, from Mosquito Inlet, southward, to Cape Cañaveral; survey of the St. John's River, Florida, extended southward to the vicinity of Tocoi; and of Indian River, to the neighborhood of Cape Malabar; hydrography of Charlotte Harbor, and triangulation of Sarasota Bay, on the Gulf coast of Florida; survey of Crooked River, adjacent to St. George's Sound, and supplementary soundings in Duer's Channel, and off Light-house Point; deep-sea soundings, with observations for temperature and density, in the waters of the Gulf of Mexico; triangulation, topography, and hydrography of Baratavia Bay, Louisiana, nearly completed; continuous record of the water-level of the Mississippi at New Orleans; survey of the river continued at Donaldsonville, Natchez, Vicksburg, Greenville, and Helena; latitude and longitude determined at the same places; triangulation continued in northern Alabama, and stations for geodetic work selected in northern Mississippi; reconnoissance along the coast of Louisiana and Texas for triangulation between Vermilion Bay and Galveston Bay; triangulation of Laguna Madre, Texas, extended southward of Baffin's Bay; magnetic declination, dip, and intensity determined at Dollar Point, San Antonio, Hempstead, and Groesbeck, Texas, and at Vinita, in Indian Territory.

On the Pacific Coast of the United States, and at points intermediate between the eastern coast and western coast, the operations of the fiscal year include hydrography of the bar and of parts of the harbor of San Diego, California; triangulation for determining the geographical positions of San Clemente Island and Santa Barbara Island; soundings and approaches to the coast of California from Point Dume westward to Santa Cruz Island; topographical survey continued on Catalina Island; soundings in its western approaches, and between Santa Rosa Island and Point Conception; topography of the coast in the vicinity of Point Arguello; and from Ynez River northward towards Point Sal, and of the coast north and south of Point Sur; tidal observations at Sancelito in San Francisco Bay; supplementary observations on the horizontal angles recorded at the primary stations on Mount Helena and Mount Diablo, California; selection of points for primary triangulation along the coast between Point Arenas and Cape Blanco; hydrography of the approaches to Columbia River, Oregon, and detailed survey of the shores and channel between Mount Coffin and Kalama; selection of points for primary triangulation on the shores of Washington Sound and across the Strait of Fuca; sites for base-lines in the Willamette Valley, Oregon, and on Whidbey Island, Washington Territory; hydrography of Admiralty Inlet; survey of the shores of Puget Sound from Commencement Bay to Budd's Inlet, and of the northern part of Hood's Canal; inspection of topography in the field in this section; compilation of the titles of charts, &c., illustrating the coast-features and hydrography of Alaska.

At stations of the geodetic connection between the Atlantic-Coast triangulation and that of the Pacific Coast, and at others occupied for the determination of latitude, longitude, and the magnetic declination or variation of the compass; the operations include observations for latitude and longitude at Memphis and Nashville, Tennessee; at Cairo, Illinois; at Hickman and Paducah, Kentucky; and telegraphic exchanges by signals, at Nashville, for the longitude of places along the Mississippi River, as already recited; determination of the magnetic elements at Nashville, and of latitude and azimuth near Lebanon, Tennessee; stations selected in Kentucky for the triangulation between Cumberland Gap and the Ohio River, and in Ohio for geographical positions between Athens and Columbus; also in southern Illinois, and near Madison, in Wisconsin; the magnetic elements determined at the last-mentioned place, and also at La Crosse; at Minneapolis, in Minnesota; at Sibley, Des Moines, Davenport, and Keokuk, in Iowa; at Omaha, in Nebraska; and at Lawrence, in Kansas; latitude and longitude determinations at Summit Station, in Nevada.

Progress commensurate with the field-work has been made in the Coast Survey Office, in which the work done comprises the reduction and discussion of all observations; the preparation for publication of the records and results; the drawing of hydrographic charts from the original note-books; and of topographical and hydrographic sheets for publication; the engraving, electrotyping, printing, and issue of the same; and the repairs of instruments used in the survey.

Tide-tables for the principal ports of the United States for the year 1879 have been published; the drawing of seventy-eight charts has been in progress—forty-two have been completed, and of that number twenty-one have been issued by photo-lithography. Seven copperplate engraved charts have been completed and six others are in hand, exclusive of one hundred and thirty-five plates on which additions have been engraved. Twenty-one thousand six hundred and twenty-three copies of charts have been issued within the year, and upwards of one thousand copies of the annual reports from the office. The second volume of the Atlantic Coast Pilot is now in course of publication.

ESTIMATES.

The estimates for continuing the survey of the Atlantic and Gulf Coasts of the United States during the year ending June 30, 1880, are intended to provide for the following progress:

Field-work.—To continue the topography of the western shore and islands of Passamaquoddy Bay and its estuaries; to complete the topography between Penobscot Bay and Narraguagus Bay, and that of the shores of the Penobscot near Bangor; for the determination of heights at some of the principal trigonometrical points between Boston and the St. Croix, and of coefficients of refraction; to complete the hydrography between Penobscot Bay and Narraguagus Bay, and continue soundings in the coast approaches eastward of Petit Manan Island; to continue a topographical and hydrographic survey of Portsmouth Harbor; to make such additional triangulation as may be requisite for that and other surveys on the eastern coast, and determine the position of new light-houses between Eastport, Maine, and New York; to

continue soundings along the coast of Maine, and other off-shore hydrography between Cape Cod and Manah, and make special examination for the sailing-lines for charts; to continue the observations of sea and tidal currents in the Gulf of Maine; to continue tidal observations and to make such astronomical and magnetic observations as may be required; to continue such topographical and hydrographic resurveys of the coast between Cape Cod and New York as may be found necessary; to continue the survey of the Connecticut River from its mouth to Hartford; to make such examination as may be required in New York Harbor, and such surveys in its vicinity as may be found necessary, including the continuation of the topographical and hydrographic resurvey of the south coast of Long Island; to make along this part of the coast observations on tides and currents; to extend the plane-table survey of the Hudson River above Peekskill; to continue the triangulation between the Hudson River and Lake Champlain; to make the requisite astronomical observations; to continue the topographical and hydrographic resurveys of the coast of New Jersey, and of Delaware Bay and River; to connect the Atlantic-Coast triangulation with that of Chesapeake Bay, near the boundary line between Maryland and Virginia; to complete the detailed survey of James River, Virginia, including the hydrography, and continue the plane-table survey of the Potomac River; to continue southward the main triangulation from the Atlanta base to the Mississippi River at or near Memphis; including astronomical and magnetic observations; to continue the supplementary hydrography between Cape Henlopen, Delaware, and Cape Henry, Virginia, and in Chesapeake Bay, and also the tidal observations; to measure base-lines of verification and determine azimuths for the coast triangulation south of Cape Lookout; to make the astronomical and magnetic observations requisite; to continue the off-shore hydrography between Cape Henry and Cape Fear; to complete the hydrography of Pamlico Sound, and its rivers, and that of Bogue Sound, and sound the entrance to Cape Fear River and continue the adjacent topography; to continue the topographical and hydrographic survey of rivers near the coast of South Carolina and Georgia; to determine azimuths for the triangulation of the coast of South Carolina and Georgia; to continue the detailed survey of the sea islands and water-passages between Charleston and Savannah, and to make tidal observations; to continue the off-shore hydrography between Cape Fear, North Carolina, and the St. John's River, Florida; to continue southward from Cape Malabar, near latitude 28° north, the triangulation, topography, and hydrography of the eastern coast of Florida, including Indian River; to continue the triangulation, topography, and hydrography of the St. John's River; to make the requisite astronomical observations; to continue hydrography off the eastern coast of Florida, from Cape Cañaveral to the southward; to continue soundings and observations for deep-sea temperatures, currents, and dredgings in such parts of the Gulf stream, northward of the latitude and eastward of the meridian of Cape Florida, as may be deemed advisable, and also in the Caribbean Sea, and, within the same limits, such as may be considered advantageous in conjunction with the United States Commission on Fish and Fisheries; to continue the astronomical and magnetic observations requisite between Cape Florida and Pensacola; to complete the hydrography of Charlotte Harbor, and continue the triangulation, topography, and hydrography of the western coast of Florida, between Cedar Keys and Tampa Bay, and between Tampa Bay and Charlotte Harbor; to continue the same classes of work to the southward of Charlotte Harbor; to run lines of soundings and dredging and make observations of sea temperatures in the Gulf of Mexico, and develop the hydrography of the Gulf coast included in field operations; to connect the trigonometrical survey of the Mississippi River at New Orleans with that of Lake Borgne and Lake Ponchartrain, and continue the trigonometrical, topographical, and hydrographic survey of Lake Pontchartrain and Maurepas, and of the Mississippi River above New Orleans to the head of ship-navigation; to determine geographical positions and make the astronomical and magnetic observations requisite; to extend the triangulation, topography, and hydrography of the coast of Louisiana westward of the Mississippi delta, and continue the hydrography of the Gulf of Mexico between the mouth of the Mississippi and Galveston, Texas; to continue the triangulation, topography, and hydrography of the coast of Texas westward between Sabine Pass and Galveston, and between Corpus Christi and the Rio Grande; to measure a base-line of verification and make the astronomical and magnetic observations requisite between Sabine Pass and the Rio Grande; to continue the hydrography of the approaches to the coast of Texas; to continue the triangulation connecting the surveys of the Atlantic and Pacific Coasts, and to furnish points for State surveys; to continue the determination of the positions of new light-houses and life-saving stations along the coast between New York and the Rio Grande; to continue the field-work for the verification of data for the Coast Pilot; to continue the organized system of magnetic observations required for a complete magnetic survey, and to run lines of levels connecting points in the main triangulations with the sea-level.

Office-work.—To continue the deduction of results by computation from the field operations along the Atlantic and Gulf Coasts, and in connection with interior geodetic surveys, including astronomical, geographical, magnetic, spirit-levellings, and tidal-work; to advance the publication of the Coast Pilot for the Atlantic and Gulf Coasts; to prepare the predictions of tides for 1880 for the same; to continue the publication of the original topographic maps and reductions thereof, and to plot the hydrographic surveys; to make additions to the drawings of Sailing-Charts A, from Cape Sable to Cape Hatteras, and of Nos. I and II, Cape Sable to Sandy Hook and Nantucket to Cape Hatteras; to continue the drawing and engraving of the general chart of the coast from Quoddy Head to Cape Cod, and to complete the engraving of the western part of this chart; to begin the drawing of Coast Charts Nos. 1 and 2, from Saint Croix River to Petit Manan light-house; to continue the drawing and engraving of Coast Charts Nos. 3 and 4, including Frenchman's Bay and Penobscot Bay, and to finish the drawing of the first-named of these charts; to begin the engraving of the harbor charts of Passamaquoddy Bay and of Machias and Englishman's Bays; to continue that of Eastport Harbor and Cobscook Bay; to complete the drawing and continue the engraving of the harbor charts of Frenchman's Bay and Somes' Sound, and of the charts of Blue Hill and Union River Bays; to complete the drawing of the harbor charts of Eggemoggin Reach, Head Harbor, and Swan Island Harbor; to begin the drawing and engraving of the chart of Newburyport Harbor, (new issue,) and the drawings of the charts of Thames River, New London, and Norwich; to begin the drawing and engraving of the charts of the Hudson River (new issue) from New York to Troy; to complete the drawings and engravings of the charts of Rockaway Inlet, Jamaica Bay, and Fire Island Inlet, New York, and of Barnegat Inlet, New Jersey, and the drawing and engraving of the chart of Delaware River, showing the hydrographic resurveys; to continue the drawing and engraving of Coast Chart No. 23, from Absecom Inlet to Cape May; to complete the engraving of the chart of James River from the entrance to City Point, (in three plates,) and the drawing and engraving of the chart of the same river from City Point to Richmond; to continue the drawing and engraving of Sailing-Chart B from Cape Hatteras to Key West; to continue the drawing and to begin the engraving of Coast Charts Nos. 45 and 46 from Cape Hatteras to Cape Lookout; to continue the drawing of Coast Charts Nos. 49 and 50, Cape Fear River and approaches; to begin the engraving of Coast Charts Nos. 47 to 53, inclusive, showing the coast from Cape Lookout to Charleston; to begin the engraving of the General Coast Charts Nos. 8 and 9, from Saint Mary's River to Cape Florida; to continue the engraving of the chart of St. John's River, (in three plates;) to complete the drawing and begin the engraving of Coast Charts Nos. 60 and 61, from Halifax River to Cape Cañaveral; to finish the drawing of the preliminary charts of the inside passage Indian River to Indian River Inlet;

to begin the engraving of the General Coast Charts Nos. 11, 12, 14, 15, embracing parts of the coast between Key West and Galveston; to complete the drawing and engraving of the chart of Tortugas Harbor, and to continue those of Coast Chart No. 75, Charlotte Harbor; to complete the drawing and engraving of Coast Chart No. 77, Tampa Bay and approaches, and the engraving of the harbor chart of Tampa Bay; to make additions of hydrography to the drawings of the sailing-chart of the Gulf of Mexico; to complete the engraving of Coast Chart No. 79, Cedar Keys and vicinity; to begin the drawing and engraving of Coast Chart No. 80, Cedar Keys to Apalachee Bay; to continue the drawing and engraving of Coast Charts No. 81 and 82, Apalachee Bay to Apalachicola Bay; to begin the drawing of the harbor chart of approaches and entrance to Suwanee River, and to complete the chart of Saint Mark's River, (new issue;) to make additions to the drawing of Coast Chart No. 83, St. George's Sound to St. Joseph's Bay, and to continue the engraving of the chart of St. George's Sound, (new issue;) to complete the drawing of the chart of St. Andrew's Bay, (new issue;) to begin the engraving of Coast Charts Nos. 84 and 85, Cape San Blas to Santa Rosa Island; to complete the engraving of Coast Chart No. 91, Lakes Borgne and Pontchartrain, and to begin that of Coast Charts Nos. 92 and 93, Mississippi Sound to entrance to Mississippi River; to complete the drawing and engraving of the charts of Barataria Bay entrance and of Barataria Bay and approaches; to make such additions of hydrography and topography as may be required to the drawings of the general charts of the Gulf Coast; to begin the engraving of Coast Chart 96, Mississippi River, to Barataria Bay, and to complete that of Coast Chart No. 99, Point au Fer to Atchafalaya Bay; to continue the engraving of the General Coast Chart No. 16, from Galveston to the Rio Grande, and of Coast Chart No. 104, Galveston Bay, and Coast Charts Nos. 108, 109, 110, Matagorda Bay to Corpus Christi Bay; for material for drawing, engraving, map-printing, for electrotyping and photographing, and for instruments and apparatus.

Total for the Atlantic and Gulf Coasts, involving work in thirty-two States and four Territories, will require \$395,000.

The estimates for continuing the survey of the Pacific Coast of the United States are intended to provide for the following progress:

Field-work.—To make the requisite observations for latitude, longitude, azimuth, and the magnetic elements at stations along the Pacific Coast of the United States; to continue off-shore soundings along the coast of California, Oregon, and Washington Territory, and tidal observations at San Francisco, Port Townshend, and such other localities as may be necessary; to continue the main coast triangulation from Monterey Bay to the southward, or from Point Conception to the northward, and from San Pedro towards San Diego, including the islands off that part of the coast; to continue reconnaissance for the main triangulation of the coast from San Pedro to Port Conception, from Russian River to the northward, from Columbia River north to Puget Sound, and south up the Willamette Valley; to continue the primary triangulation through the Sacramento and San Joaquin Valleys and measure a base-line; to continue the coast-triangulation and topography from Newport, Los Angeles County, towards San Diego, and that of the islands off that coast; to measure a base-line and continue the tertiary triangulation and topography of the coast north of Point Arguello toward Point Sal, and the tertiary triangulation and topography from Point Buchon towards San Simeon; to continue the hydrography between San Diego and Monterey Bay; to develop the hydrographic changes in San Francisco Bay and its approaches; continue the triangulation and topography of the coast between Bodega Bay and Point Arena; complete hydrography between Cape Mendocino and the Klamath River, and continue that between Cape Sebastian and Point Orford; to observe currents along the coast and take soundings and temperature observations in the California branch of the Kuro Simo current, and execute such other hydrographic work as local demands may require; to continue tidal and current observations at the Golden Gate, and observations on the ocean currents along the coast of California; to continue the triangulation, topography, and hydrography of the Columbia River; to complete the detailed survey between Cape Sebastian and Crescent City, and off-shore hydrography at Crescent City reef; to measure a base-line and continue the triangulation of the Strait of Fuca and the topography and hydrography of Puget Sound and adjacent waters; to continue the triangulation eastward to connect the surveys of the Pacific and Atlantic Coasts; to furnish points for State surveys and measure a base-line; to continue the reconnaissance of the coasts and islands of Alaska, with observations for tides and currents, and to make the requisite astronomical and magnetic observations; to continue the field-work for the description of the coast and verification of the Coast Pilot of the coasts of California, Oregon, and Washington Territory; to continue the organized system of magnetic observations required for a complete magnetic survey; and to run lines of levels connecting points in the main triangulation with the sea-level.

Office-work.—To make the computations of the field-observations, including astronomical, geodetic, geographical, magnetic, and tidal-work; to continue the compilation of the Coast Pilot of the coasts of California, Oregon, and Washington Territory, and continue the compilation and publication of the Coast Pilot of Alaska; to prepare tidal predictions for 1880; to continue the publication of the original topographic maps and the reductions thereof, and to plot the hydrographic surveys; to continue the drawing and engraving of the General Coast Chart No. 1, from San Diego to Santa Monica, and to continue the drawing and engraving of No. 2, from Santa Monica to Point Conception; to complete the drawings of the local harbor charts within these limits as the material becomes available; to continue the drawing and engraving of the General Coast Chart No. 7, Point Arena to Cape Mendocino; to continue the engraving of No. 8, Point Arena to St. George's Reef, and to begin that of No. 9, St. George's Reef to Koo Bay; to begin the drawing of General Coast Chart No. 11, Cascade Head to Shoalwater Bay; to continue the drawing and engraving of the charts of Columbia River, of Puget and Washington Sounds, with their adjacent waters; to continue the drawing and engraving of the chart of the northwestern coast from the forty-ninth parallel to and including the Alaska coast and islands in Bering Sea; for materials for drawing, engraving, and map-printing; for electrotyping and photographing, and for instruments and apparatus.

Total for the Pacific Coast, involving work in five States and one Territory, will require \$255,000.

For repairs and maintenance of the complement of vessels used in the Coast Survey will require \$50,000.

For continuing the publication of the observations made in the progress of the Coast Survey will require \$10,000.

For general expenses of all the work, rent, fuel, for transportation of instruments, maps and charts, miscellaneous office expenses, and for the purchase of new instruments, books, maps, and charts, will require \$38,600.

Respectfully submitted:

C. P. PATTERSON,
Superintendent United States Coast Survey.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

APPENDIX S.

Explanation of the estimate for the Construction of a Steam-vessel for the United States Fish Commission. (See page 157.)

UNITED STATES COMMISSION, FISH AND FISHERIES,
Washington, D. C., October 14, 1878.

SIR: In presenting the estimates for the service of the United States Fish Commission during the coming fiscal year, I beg to say, in explanation of the item for the construction of a steamer, that the very great success of the new and wholesale methods of propagating shad brought into use by the commission along the middle and southern Atlantic coast of the United States during the early part of 1878, suggested the idea of applying the same general principles to the multiplication of cod, sea-herring, mackerel, &c. Temporary apparatus was accordingly set up at Gloucester, Mass., during the summer, and the experiment fully tried with codfish and herring, with such success as to indicate that the best interests of the country will be served by entering upon this work on a large and comprehensive scale. As the stations where the fish and their eggs can be found vary with the season from Florida to Maine, and off the coast to a distance of several hundred miles, the multiplication in question can best be prosecuted on a sea-going steamer which must be constructed especially for the purpose, as there is no one fitted for it belonging now to the United States. With a vessel of the kind contemplated, there is every reason to believe that hundreds of millions of cod, mackerel, and the other fishes mentioned, can be produced, and an enormous increase effected in the numbers of the fish on our coast, and in the extent of the industries associated therewith, at a comparatively trifling cost.

Respectfully, yours,

SPENCER F. BAIRD,
Commissioner.

Hon. JOHN SHERMAN,
Secretary of the Treasury.

APPENDIX T.

Explanation of the estimate for Pay of Custodians and Janitors. (See page 158.)

TREASURY DEPARTMENT,
Washington, D. C., October 8, 1878.

SIR: I have respectfully to request that there be included in the estimates to Congress, for the service of the fiscal year ending June 30, 1880, an appropriation in the sum of \$90,000 for the pay of custodians and janitors of all public buildings under control of the Treasury Department.

An increase of this appropriation is requested on the following grounds:

By the act of July 31, 1876, it was reduced from \$100,000 to \$75,000 for the fiscal year ended June 30, 1877, and the same sum has been appropriated for the service of 1878 and 1879. The reduction in 1876 made it necessary to reduce the salaries of custodians and janitors twenty-five per centum in the aggregate, and in many cases it fell with extreme hardship upon employes who were before but poorly paid, and the service was injuriously affected by the want of a sufficient force to properly care for the public buildings and property. As new buildings have been completed, and it has become necessary to appoint additional janitors for their care, the Department was without a fund from which to pay their salaries, and to provide one the pay of those employes then in service was still further reduced.

Since July, 1876, when the reduction took effect, it has been found necessary to appoint thirteen janitors (new offices) for new buildings completed and for old ones reoccupied and extended, with aggregate salaries amounting to \$7,660, (an average of less than \$600 per annum each;) and buildings are now in course of construction in eight cities, some of which will be occupied during the present, and all of them during the next fiscal year, for which the services of at least twelve janitors will be required, at an expense of \$7,200 per annum. Many reports have been received during the past two years showing that the Government has suffered loss by reason of insufficient help to properly care for buildings and property, and that discredit was thrown upon the service; but to all appeals the Department was compelled to answer that it was unable to afford relief, by reason of a want of appropriation.

Very respectfully,

WILSON J. VANCE,
Chief of Appointment Division.

Hon. SECRETARY OF THE TREASURY.

APPENDIX U.

Explanation of the estimate for Publication of Official Records of the War of the Rebellion. (See page 159.)

WAR DEPARTMENT, September 7, 1878.

SIR: I have the honor to submit an estimate of funds for the work of my office in the fiscal year 1879-'80, amounting in all to \$46,490.

The Brady war-views, however interesting they might prove in a pictorial history of the late war, are mostly, if not altogether, useless to an official publication of the records of that war; but the negatives of those views have cost the Government \$25,000, and are fast going to destruction for want of a care that, for lack of the proper means, cannot be bestowed upon them. At present there is not even space for their proper storage.

Many of the records can be printed directly from the original manuscript, provided such work can be done under the immediate direction of the War Department, and without allowing the originals to pass from the custody of its officers.

Obviously, this copy in print is more convenient for compilation, and is more likely to be accurately duplicated in publication than copy in manuscript, hence my estimate for printers.

It is absolutely necessary that my office should be moved to a much larger building than that now occupied, and that it should remain within reasonable distance of the record-rooms on Seventeenth street, and on New York avenue. A building, answering the necessary conditions, can hardly be rented for less than the amount indicated in my estimate.

Very respectfully, your obedient servant,

ROBT N. SCOTT,
Captain Third Artillery, Bvt. Lieut. Col. U. S. A.,
In charge War Records, 1861-'65.

To the Honorable THE SECRETARY OF WAR.

APPENDIX V.

Estimate of funds required for the United States Artillery School, for the fiscal year ending June 30, 1880. (See page 160.)

DEPARTMENT OF ARTILLERY.

One Boulenge chronograph	\$221 00
One electro-ballistic machine	105 00
One mercury densimeter	150 00
One anemometer	35 00
One barometer	36 00
One thermometer	5 00
One hygrometer	8 00
One Rumhkorf coil	300 00
One frictional-electric machine	50 00
Two electric clocks	60 00
One Bendley's apparatus for electric measurement	120 00
For manufacture of artillery models	500 00
For electric fuses and primers	10 00
Five hundred feet Kerite wire (under water)	40 00
Six Boulenge telemeters	120 00
Four box chronometers	120 00
Five hundred feet Kerite wire (on ground)	40 00
Books of reference	75 00
Sulphate of copper	15 00
Zinc	15 00
Copper-wire	20 00
Telegraph-wire	200 00
Six portfolios (large)	30 00
Total	2,275 00

DEPARTMENT OF ENGINEERING.

One transit, with solar attachment	\$241 00
Six circular protractors, 8 feet to 10 inches	100 00
Four sector scales, 12 inches	10 00
One 20-inch level	135 00

STATEMENT OF THE PROCEEDS OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE FOLLOWING PROVISIONS OF LAW:

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue-cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the Appendix to the Book of Estimates.—(R. S., pages 713, 722, sections 3618, 3672, act February 27, 1877, 19 Stat., 249.)

When covered into Treasury.	No. of warrant.	By whom sold.	Kind of property sold.	Bureau in charge of property.	Amount of each kind of property.	Total amount.

ESTIMATES OF APPROPRIATIONS

REQUIRED FOR THE SERVICE OF THE

GOVERNMENT OF THE DISTRICT OF COLUMBIA

FOR THE

FISCAL YEARS ENDING JUNE 30, 1879, AND JUNE 30, 1880,

SHOWING THE

APPROVAL, DISAPPROVAL, OR CHANGES SUGGESTED BY THE
SECRETARY OF THE TREASURY.

ESTIMATES OF APPROPRIATIONS

FOR THE YEAR 1900

GOVERNMENT OF THE DISTRICT OF COLUMBIA

1900

PRINTED BY THE GOVERNMENT PRINTING OFFICE

1900

APPROVED BY THE HOUSE OF REPRESENTATIVES
SECRETARY OF THE TREASURY

LETTER OF THE SECRETARY OF THE TREASURY.

TREASURY DEPARTMENT,
Washington, D. C., November 29, 1878.

GENTLEMEN: I am in receipt of your estimates for the support of the Government of the District of Columbia for the fiscal years ending June 30, 1879, and June 30, 1880, which are submitted under the act of Congress of June 11, 1878, "providing a permanent form of government for the District of Columbia," requiring the Commissioners of the District of Columbia to submit to the Secretary of the Treasury, for each fiscal year, for his examination and approval, a statement showing in detail:

1. The proposed work to be undertaken by them during the fiscal year next ensuing, and the estimated cost thereof.
2. The cost of constructing, repairing, and maintaining all bridges authorized by law across the Potomac River within the District of Columbia, and also, all other streams in said District.
3. The cost of maintaining all public institutions of charity, reformatories, and prisons belonging to, or controlled wholly or in part by the District of Columbia, which are now by law supported wholly or in part by the United States or District of Columbia.
4. The expenses of the Washington aqueduct and its appurtenances.
5. An itemized statement and estimate of the amount necessary to defray the expenses of the Government of the District of Columbia for the next fiscal year.

The act requires that the Secretary of the Treasury shall carefully consider all estimates so submitted to him, and shall approve, disapprove, or suggest such changes in the same, or any item thereof, as he may think the public interest demands; and after he shall have considered and passed upon such estimates submitted to him, he shall cause to be made a statement of the amount approved by him, and the fund or purpose to which each item belongs, which statement shall be certified by him and delivered, together with the estimates as originally submitted, to the Commissioners of the District, who shall transmit the same to Congress.

This Department at present has not at its command the means to judge accurately of the amounts necessary for particular objects of expenditure, nor of the propriety or necessity of the various items for which estimates are submitted. After the law which requires accountability to the Treasury has been in operation for a few years, this Department will be in possession of the necessary data to exercise supervision of the estimates in this respect by comparison with similar expenses in former years; but in the absence of this information, I do not consider that the law requires the Secretary of the Treasury to assume the duties of an administrative officer of the District, and judge of the necessity of particular estimates. Relying upon the judgment of the Commissioners as to details, I will for the present confine myself to such approval, disapproval, or change, in particular items as will provide for all expenditures required by law, and keep the aggregate within the revenues of the District as fixed by Congress, and apply to improvements only the excess of revenue over the necessary expenditure.

I have therefore to return herewith your estimates with my approval, as follows:

FISCAL YEAR 1879.

For completion of work upon sundry avenues and streets, replacement of pavements, repairs of concrete pavements, and materials issued for permit-work, so much of the revenue of the District for the fiscal year, including an equal amount appropriated by the United States, as may remain unappropriated or unexpended, estimated at.....	\$664, 802 00
For maintaining Benning's, Anacostia, and Chain bridges, including expense for lighting, replanking Chain bridge, repairs of Benning's bridge, and embankment of Anacostia bridge, and riprap for piers and abutments of same.....	9, 200 00
For maintaining the Washington Asylum, including salaries of commissioner, intendant, matron, physicians, clerk, and other employes, contingent expenses, and new hospital-building, \$45,000; for Georgetown Almshouse, \$1,800; for Hospital for the Insane, \$17,000; for transportation of paupers and prisoners, \$2,500; for the Reform School, \$20,000; and for the relief of the poor, \$15,000—in all	101, 300 00
For engineering, maintenance, and general repairs of the Washington aqueduct and its appurtenances...	20, 000 00
For general expenses of the District of Columbia:—For salaries and contingent expenses in the offices of the commissioners, auditor and comptroller, sinking-fund, coroner, collector, attorney, treasurer, inspector of buildings, superintendent of assessments and taxes, inspector of gas and meters, assessor, harbor-master, sealer of weights and measures, and engineer, \$177,306; for support of public schools, including salaries of superintendents, secretary, clerks, teachers, and janitors, for rent of school-buildings, for fuel, repairs, and contingent expenses, \$380,000; for salaries of superintendents, captains, clerks, surgeons, detectives, lieutenants, sergeants, privates, station-keepers, laborers, telegraph-operators, and messengers of the Metropolitan police, including increased pay for continuous service, and for rent, fuel, repairs of station-houses, and miscellaneous items, \$300,000; for salaries of commissioner, secretary, engineers, telegraph-operators, superintendent, firemen, and other employes of the fire department, and for contingent expenses, including purchase of horses and repairs to apparatus, \$105,000; for salaries of judge, clerks, bailiffs, messenger, doorkeeper, and justice of the peace acting as judge of the police court, and marshal's fees, rent and contingent and judicial expenses, \$18,500; for street-lights, and gas for same, repairs and erection of street-lamps, and salaries of superintendent and lamp-lighters; for removal of garbage; for salaries of superintendent and assistant, and for contingent expenses of the parking-commission; for salaries of overseer of repairs, clerk, supervisors, and for labor, and materials for repairs of streets, alleys,	

county roads, &c.; for sweeping, cleaning, and sprinkling streets and avenues, cleaning alleys and for repairs to pumps, \$272,137; for miscellaneous expenditures, including salaries of market-masters and contingent expenses of markets, rent, hay-scales, advertising, and miscellaneous items, \$29,439; for salaries of health-officer, inspector, clerks, pound-master, and for contingent expenses of the health department, \$22,000; for interest on funded debt, \$1,018,965 70; for workhouse, (appropriated for in the act of June 20, 1878,) \$7,500; for refunding school and other taxes, \$35,000; for workingmen, (as appropriated by the act of June 20, 1878,) \$75,000; for purchasing fire-engines, \$48,000; for judgments rendered against the District, \$25,000; for payment of bonds falling due January 1 and March 1, 1879, \$281,500—in all..... \$2,795,347 70

This estimate, as approved, is \$37,500 in excess of the amount submitted by the Commissioners, that being half of the amount appropriated by Congress by the act of June 20, 1878, for the workingmen of the District.

At the last session of Congress, the Commissioners were authorized "to issue properly-prepared bonds of the District of Columbia to the amount of two hundred and eighty-one thousand seven hundred and fifty dollars, for the redemption of the ten-year bonds issued by the Corporation of Washington under an act of Congress approved February twenty-seventh, eighteen hundred and sixty-eight, amounting to two hundred and seventy-nine thousand two hundred and fifty dollars; also, to redeem the Georgetown steam-force-pump bonds, amounting to two thousand five hundred dollars, issued under the act of the General Assembly of June twenty-sixth, eighteen hundred and seventy-three; said bonds to be payable thirty years after date in sums of one thousand dollars each, and bearing such rate of interest, not exceeding — per centum, as shall be approved by the Secretary of the Treasury."

The Commissioners thought it not expedient to advertise these bonds, and the Secretary recommends that the amount of the debt accruing as aforesaid be paid, and held and accounted for as a part of the sinking-fund; that the five per cent. bonds, authorized by that act, be issued to the Treasurer of the United States as a part of the sinking-fund; and, that the Treasurer be authorized not only to purchase bonds due, but to purchase bonds accruing, with such funds as may be appropriated for the sinking-fund or with the interest accruing thereon.

From this estimate the Commissioners have omitted the appropriations made by the act of June 20, 1878, for Columbia Hospital and Children's Hospital, on the ground that those hospitals are not such charitable institutions as the law contemplates shall be supported by the District of Columbia; but inasmuch as that act directs these appropriations to be charged against the District, they are submitted for the further consideration of Congress.

FISCAL YEAR 1880.

For the support of the government of the District of Columbia for the fiscal year ending June 30, 1880:

For completion of work upon sundry avenues and streets, replacement of pavements, repairs of concrete pavements, and materials issued for permit-work, so much of the revenue of the District for the fiscal year, including an equal amount appropriated by the United States, as may remain unappropriated or unexpended, estimated at	\$710,000 00
For maintaining Benning's, Anacostia, and Chain bridges, including expense for lighting, replanking Chain bridge, repairs of Benning's bridge, and embankment of Anacostia bridge, and riprap for piers and abutments of same	9,200 00
For maintaining the Washington Asylum, including salaries of commissioner, intendant, matron, physicians, clerk, and other employes, contingent expenses and new hospital-building, \$45,000; for Georgetown Almshouse, \$1,800; for Hospital for the Insane, \$17,000; for transportation of paupers and prisoners, \$2,500; for the Reform School, \$20,000; and for the relief of the poor, \$15,000—in all	101,300 00
For engineering, maintenance, and general repairs of the Washington aqueduct and its appurtenances ...	20,000 00

For general expenses of the District of Columbia:

For salaries and contingent expenses in the offices of the Commissioners, auditor and comptroller, sinking-fund, coroner, collector, attorney, treasurer, inspector of buildings, superintendent of assessments and taxes, inspector of gas and meters, assessor, harbor-master, sealer of weights and measures, and engineer, \$163,740; for support of public schools, including salaries of superintendent, secretary, clerks, teachers, and printers, for rent of school-buildings, for fuel, repairs, and contingent expenses, \$400,000; for salaries of superintendent, captains, clerks, surgeons, detectives, lieutenants, sergeants, privates, station-keepers, laborers, telegraph-operators, and messengers of the Metropolitan police, including increased pay for continuous service, and for rent, fuel, repairs of station-houses, and contingent items, \$300,000; for salaries of commissioner, secretary, engineers, telegraph-operators, superintendent, firemen, and other employes of the fire department, and for contingent expenses, including purchase of horses and repairs to apparatus, \$115,000; for salaries of judge, clerks, bailiffs, messenger, doorkeeper, and justice of the peace acting in absence of judge of the police court, marshal's fees, rent, and contingent and judicial expenses, \$18,500; for street-lights and gas for same, repairs and erection of street-lamps, for salaries of superintendent and lamp-lighters, and for removal of garbage; for salaries of superintendent and assistant, and for contingent expenses of the parking-commission; for salaries of overseer of repairs, clerk, supervisors, labor, and materials for repairs of streets, alleys, county roads, &c., for sweeping, clearing, and sprinkling the streets and avenues, cleaning alleys, and repairs to pumps, \$293,455; for miscellaneous expenditures, including salaries of market-masters, and contingent expenses of markets, rent, hay-scales, advertising, and miscellaneous items, \$30,375; for salaries of health-officer, inspectors, clerks, pound-master, and for contingent expenses of the health department, \$22,000; for interest on funded debt, \$1,016,124 12; and for sinking-fund, \$256,221 25—in all.....	2,615,415 37
--	--------------

The estimate of the Commissioners for the sinking-fund is increased \$56,221 25, to meet its requirements, as stated by the Treasurer of the United States, who is the commissioner of this fund. The sinking-fund of the District is a part of the contract made with the creditors of the District, and should be maintained inviolate, as far as the executive

officers are concerned. The Secretary feels that he has no right to approve an estimate for a less amount than the law requires for this purpose. If Congress should see fit to legislate upon the subject, and reduce the aggregate annual contribution to this fund in a way not to impair the credit of the District, and at the same time provide a certain specific fund which will redeem the debt of the District within a reasonable period, not to extend beyond the date of the maturity of the three-sixty-five bonds, such a proposition would have his cordial support; but, until the law is so modified, the annual appropriation to the sinking-fund should be maintained.

SUPPLEMENTAL ESTIMATE.

The Secretary, after careful consideration, is not able to approve the supplemental estimate of the Commissioners, of \$1,339,886 84, for replacing the wooden pavements and for other improvements during the fiscal year ending June 30, 1880. This estimate contemplates a very extensive system of improvements, including the replacing of all the present wooden pavements of the city and the construction of auxiliary sewers, involving an expensive modification in the plan of the sewerage of a large section of the city. The greater part of this work is to supply defects in the improvements made by the Board of Public Works, which have been completed within a period of five years.

Congress has provided a very liberal fund for the support of the District by the assessment of a tax of one and one-half per cent. upon the real and personal property in the District, supplemented by license and other taxes, and by an appropriation of an equal amount from the Treasury of the United States; but in doing so has enacted that "there shall be no increase of the present amount of the total indebtedness of the District of Columbia," and has imposed severe penalties for violations of this enactment, (section 13, act June 16, 1878.)

The policy is thus clearly indicated, that under no circumstances is the debt of the District to be increased; and it would appear from the experience of the past few years that this is a safeguard which should be adhered to without qualification or condition. I cannot, by approving such an estimate, recommend to Congress the abandonment of a policy it has wisely prescribed, or permit it to be defeated by approving estimates for improvements to be made in advance of the receipt of the necessary revenue. No circumstances are stated which would justify an expenditure larger than the revenues provided, or authorize an increase of the burdens now resting upon the people of the United States, by either advancing money to, or paying a larger sum for, the government of the District than the liberal allowance made by law.

The improvements proposed are, no doubt, proper, and may be demanded by the convenience and comfort of the citizens, and would be beneficial to the city; but by extending their construction over a period of three or four years, the whole can be executed in a more judicious and economical manner than if forced into a single year. No great injury can result from this delay. Those improvements which are, for any reason, most urgently demanded, will, no doubt, be executed first, and those of a less urgent character be postponed until subsequent years.

It is believed that the streets of this city, as a general thing, are now in a better condition than the streets of any other city in the United States, and the large sum that may be annually set apart for their gradual repair will soon place them in as good condition as can be desired.

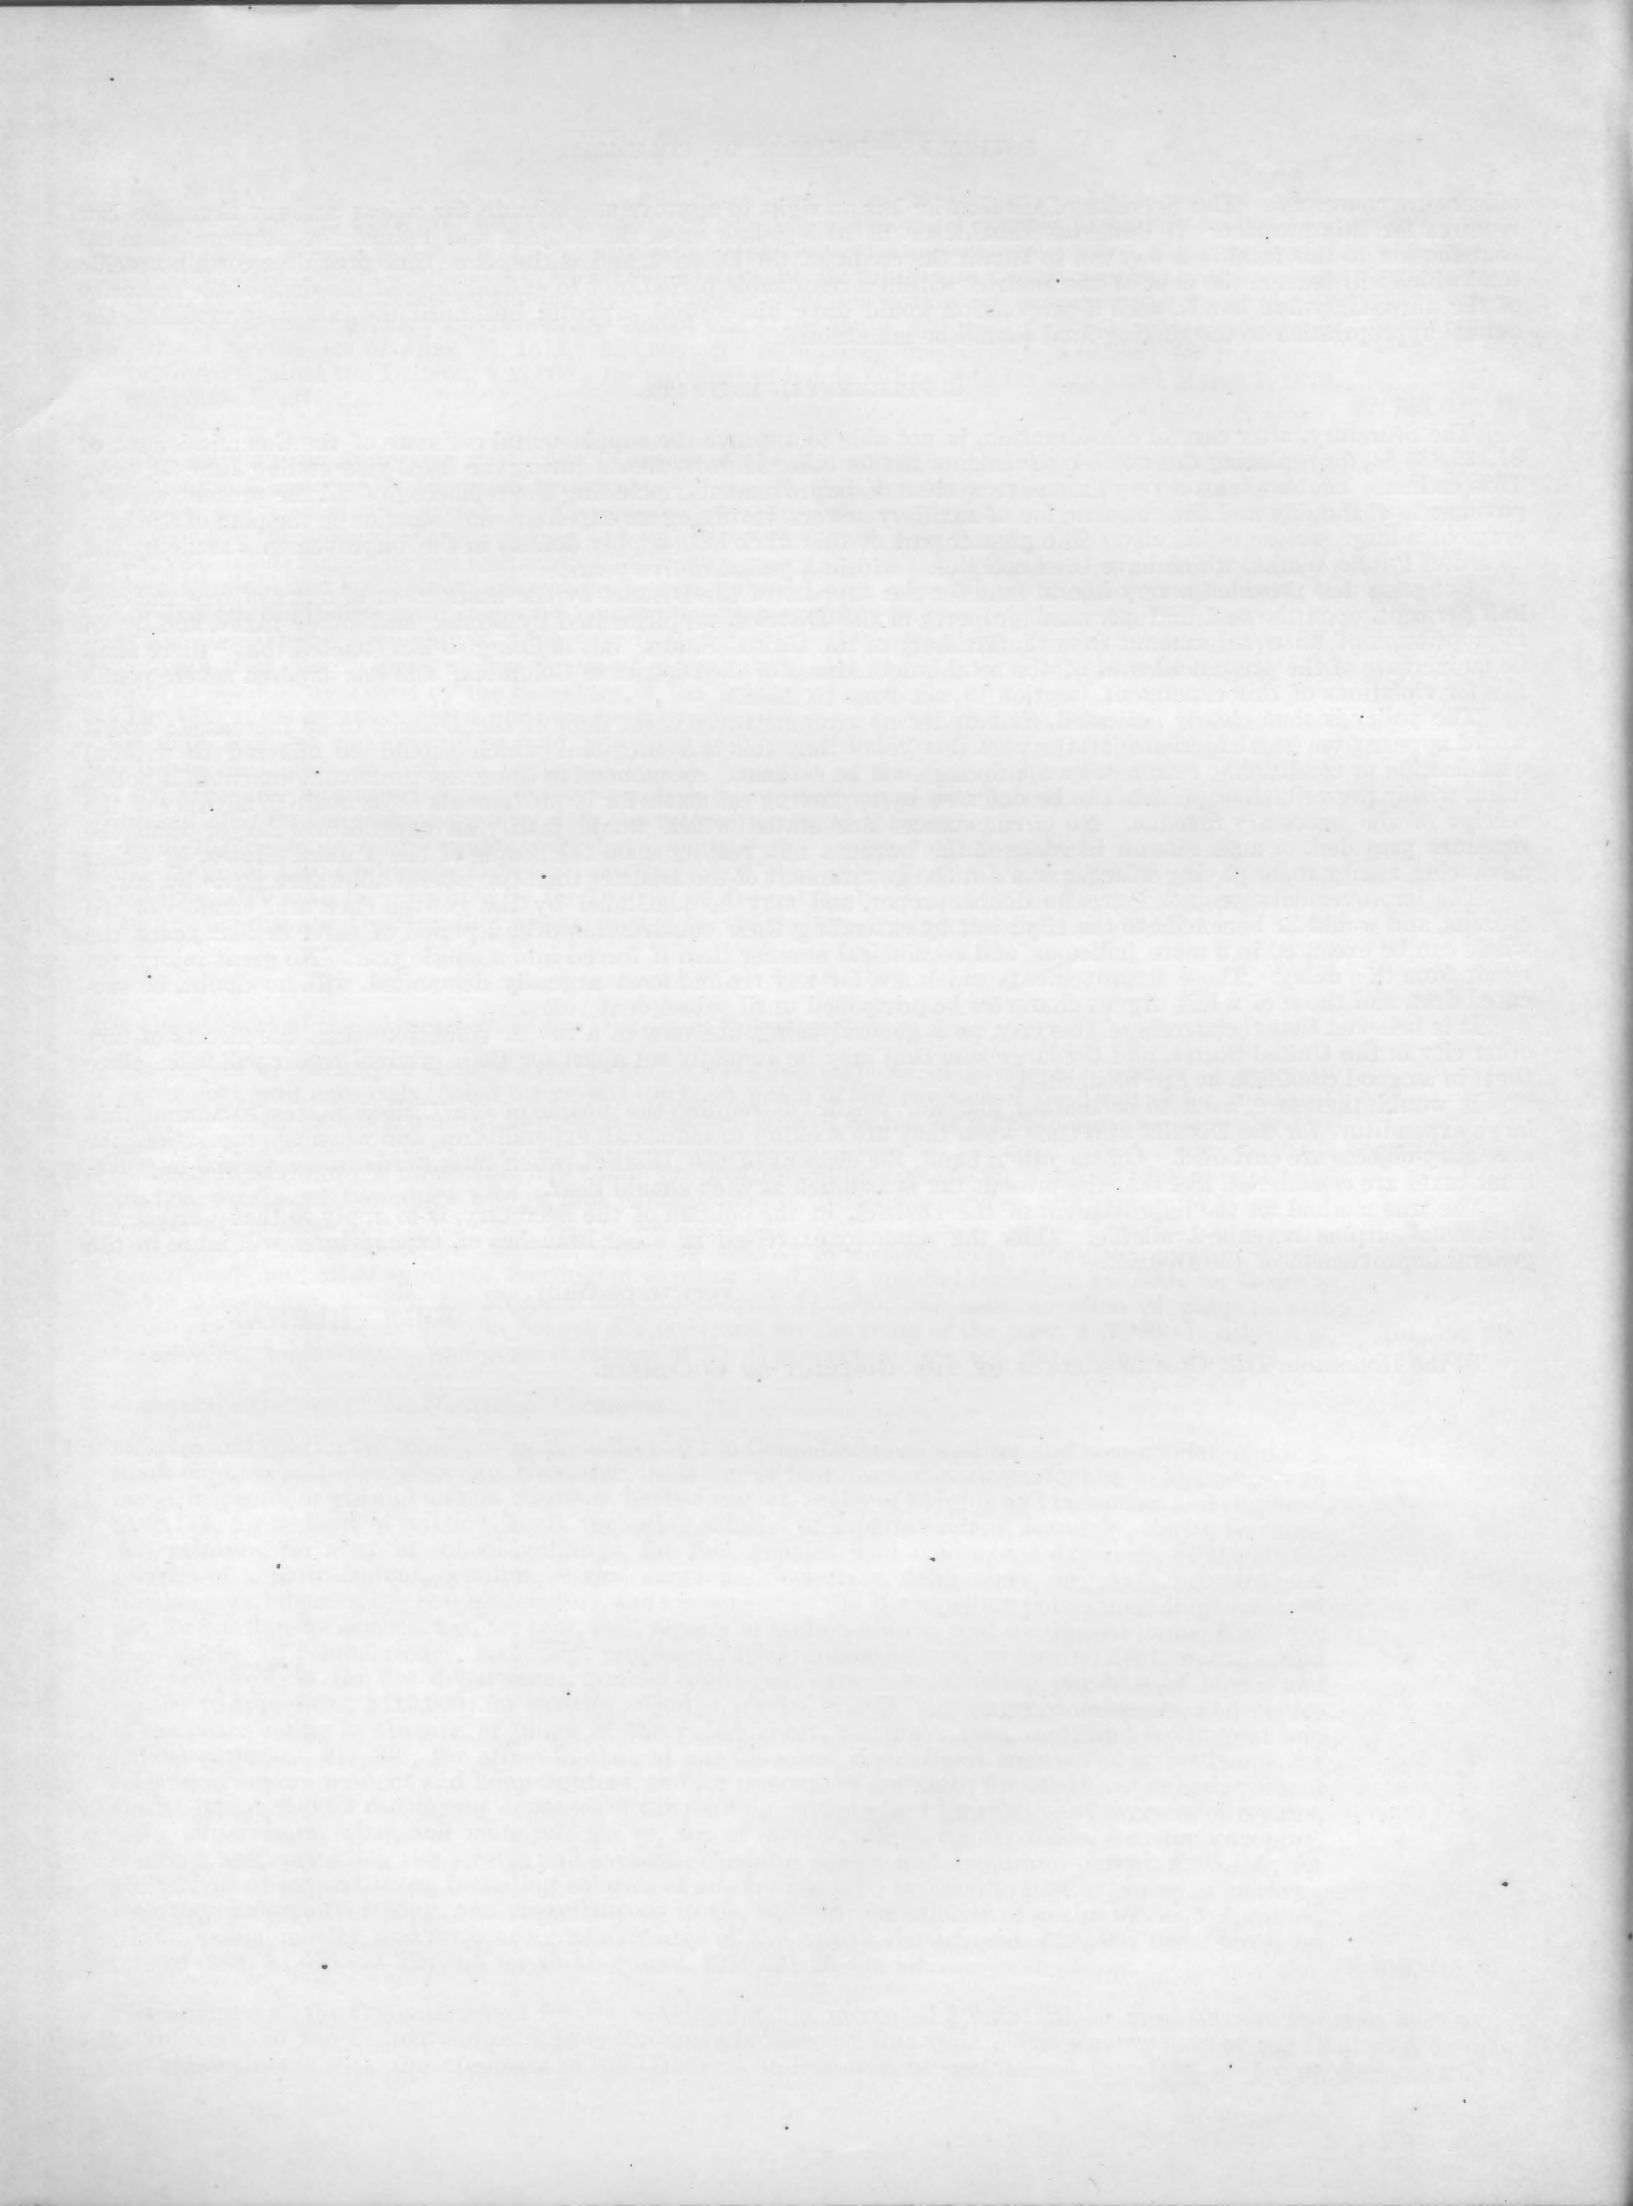

It would, therefore, seem to be neither just nor politic to require the people of the United States to assume this large expenditure for the District at a time when they are seeking to reduce all expenditures, and when appropriations for necessary objects are curtailed. On the other hand, the citizens of the District, when their burdensome special-improvement taxes are considered, feel that the present tax is as much as they should bear.

The true method for the improvement of the District, in the opinion of the Secretary, is to apply to that purpose all the annual surplus revenue available. Thus the economy exercised in other branches of expenditures will inure to the general improvement of the District.

Very respectfully,

JOHN SHERMAN,
Secretary.

To the Honorable THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA.

APPENDIX.

APPENDIX A.

Explanation of the estimates of the Commissioners of the District of Columbia for the fiscal years ending June 30, 1879, and June 30, 1880.

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
Washington, November 15, 1878.

SIR: We have the honor to submit estimates for expenditures of the District of Columbia for the fiscal year ending June 30, 1879, under the following five heads, as prescribed in the act approved June 11, 1878, entitled "An act providing a permanent form of government for the District of Columbia:"

First....Proposed work of improvement and repair.....	\$664,802 00
Second..Constructing, repairing, and maintaining bridges.....	9,200 00
Third...Maintaining institutions of charity, reformatories, and prisons.....	101,300 00
Fourth..Expenses of Washington aqueduct and appurtenances.....	20,000 00
Fifth....Expenses of the government of the District of Columbia.....	2,757,847 70
Total.....	3,553,149 70

For more detailed statements, see accompanying estimates of expenditures and receipts, and engineer's tables Nos. 5 and 6, relating to work of improvement and repairs; but those two tables include the work of improvement and repairs proposed to be done both for the current fiscal year, as estimated above, and for the fiscal year ending June 30, 1880.

By order of the Board:

S. L. PHELPS, *President.*

Hon. JOHN SHERMAN,
Secretary of the Treasury.

Estimated expenditures for the fiscal year ending June 30, 1879, under the five heads enumerated in the act of Congress approved June 11, 1878, providing a permanent form of government for the District of Columbia.

First....Expenditures for improvements and repairs.....	\$65,781 00
Replacement of pavements.....	569,000 00
Repairs of concrete pavements.....	18,500 00
Material issued for permit-work.....	11,521 00
Total.....	664,802 00
Second..Constructing, repairing, and maintaining bridges within the District of Columbia, as per estimate of Colonel T. L. Casey, United States Engineers, in charge. Total.....	\$9,200 00
Third...Maintaining institutions of charity, reformatories, and prisons:	
Washington Asylum.....	\$45,000 00
Georgetown Almshouse.....	1,800 00
Hospital for the Insane.....	17,000 00
Transportation of paupers, and conveying prisoners to workhouse.....	2,500 00
Reform School.....	20,000 00
Relief of the poor.....	15,000 00
Total.....	101,300 00
Fourth..Washington aqueduct and appurtenances:	
Maintenance and general repairs, as per estimate of Colonel T. L. Casey, U. S. Engineers, in charge. Total.....	\$20,000 00
Fifth...General expenses of the government of the District of Columbia:	
Salaries and contingent expenses.....	\$177,306 00
Public schools.....	380,000 00
Metropolitan police.....	300,000 00
Fire department and alarm-telegraph.....	105,000 00
Courts.....	18,500 00
Streets.....	272,137 00
Health department.....	22,000 00
Debt—Interest.....	1,018,965 70

Fifth ... General expenses of the government of the District of Columbia— <i>Continued.</i>		
Miscellaneous		\$29,439 00
Workhouse		7,500 00
Refunds		35,000 00
Workingmen		37,500 00
Purchase of fire-engines		48,000 00
Judgments		25,000 00
Bonds falling due		281,500 00
Total:		2,757,847 70
Estimated receipts from taxes, and revenues of the District, other than appropriations, for the fiscal year ending June 30, 1879		\$1,777,174 00
Appropriations for the general expenses of the District of Columbia by act approved June 20, 1878		\$1,250,000 00
Deduct payments made as required in the appropriation, and <i>not</i> provided for in the act approved June 11, 1878, as part of the expenditures to be equally borne by the United States and the District of Columbia, as follows: On account of—		
Columbia Hospital for Women	\$12,000 00	
Children's Hospital	5,000 00	
Children's Hospital	10,000 00	
St. Ann's Infant Asylum	5,000 00	
Industrial Home School	5,000 00	
National Association for Relief of Colored Women, &c.	5,000 00	
		<u>42,000 00</u>
Amount remaining to the credit of the United States as its proportion of the expenses of the District of Columbia for the fiscal year ending June 30, 1879, under the act approved June 11, 1878		1,208,000 00
Total estimated receipts and appropriations		2,985,174 00
Estimated receipts from taxation	\$1,777,174 00	
Appropriated by the United States, as above	1,208,000 00	
		<u>569,174 00</u>
Amount due from the United States, on basis of payment of 50 per cent. of expenses of District ..		569,174 00
Total estimated revenue, including deficiency in the appropriation by Congress		3,554,348 00

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
Washington, November 15, 1878.

SIR: We have the honor to submit estimates for expenditures of the District of Columbia for the fiscal year ending June 30, 1880, under the following five heads, as prescribed in the act approved June 11, 1878, entitled "An act providing a permanent form of government for the District of Columbia:

First.... Proposed work of improvement and repair	\$710,000 00
Second... Constructing, repairing, and maintaining bridges	9,200 00
Third... Maintaining institutions of charity, reformatories, and prisons	101,300 00
Fourth... Expenses of Washington aqueduct and appertenances	20,000 00
Fifth.... Expenses of the government of the District of Columbia	2,559,194 12
Total	\$3,399,694 12

For more detailed statements, see accompanying estimates of expenditures and receipts, and engineer's tables No. 5 and 6, relating to work of improvement and repairs, also referred to in our letter of this date, transmitting estimates for the fiscal year ending June 30, 1879; but, we repeat, those two tables include work of improvement and repairs proposed to be done both for the current fiscal year, as estimated above, and for the fiscal year ending June 30, 1879.

We submit a supplemental estimate of expenditures for this year, *i. e.*, 1880, independent of our regular estimate in excess of estimated receipts for the same period by \$1,339,886 84, which excess is due to the large amount of work on sewers and street pavements imperatively required, the cost of which we do not feel justified in omitting from our estimates, which for the two fiscal years (ending June 30, 1879-'80) together embrace the outlay necessary to replace all rotten-wood pavements in the two cities in the District; to build the auxiliary sewers necessary to prevent overflow in them, and relieve over-taxed sewers; to resurface concrete pavements now badly worn, and, in addition, to expend \$200,000 for new improvements, as much needed as any of the other work.

By order of the Board:

S. L. PHELPS, *President.*

HON. JOHN SHEERMAN,
Secretary of the Treasury.

Estimated expenditures for the fiscal year ending June 30, 1880, under the five heads enumerated in the act of Congress, approved June 11, 1878, providing a permanent form of government for the District of Columbia.

First...	Improvement and repairs	\$100,000 00
	Replacement of pavements	460,000 00
	Repairs to concrete pavements	135,000 00
	Material issued for permit-work	15,000 00
	Total	710,000 00
Second..	Constructing, repairing, and maintaining bridges within the District of Columbia, across the Potomac river and other streams, as per estimate of Col. T. L. Casey, United States Engineer in charge	\$9,200 00
Third...	Maintaining institutions of charity, reformatories, and prisons:	
	Washington Asylum	\$45,000 00
	Georgetown Almshouse	1,800 00
	Hospital for the Insane	17,000 00
	Transportation of paupers, and conveying prisoners to the workhouse	2,500 00
	Reform School	20,000 00
	Relief of the poor	15,000 00
	Total	101,300 00
Fourth..	Washington aqueduct and appurtenances:	
	Engineering, maintenance, and general repairs, as per estimate of Col. T. L. Casey, United States Engineers, in charge	\$20,000 00
Fifth....	General expenses of the government of the District of Columbia:	
	Salaries and contingent expenses	\$163,740 00
	Public schools	400,000 00
	Metropolitan police	300,000 00
	Fire department and alarm-telegraph	115,000 00
	Courts	18,500 00
	Streets	293,455 00
	Health department	22,000 00
	Debt—Interest	1,016,124 12
	Sinking-fund	200,000 00
	Miscellaneous	30,375 00
	Total	2,559,194 12
Estimated receipts from taxes and revenues of the District of Columbia, other than appropriations, for the fiscal year ending June 30, 1880	\$1,700,000 00	
Assumed appropriation by the United States	1,700,000 00	
Total estimated receipts from both sources	3,400,000 00	

Supplemental estimate of expenditures for the fiscal year ending June 30, 1880, under the first head enumerated in the act of Congress approved June 11, 1878, providing a permanent form of government for the District of Columbia.

Replacing wooden pavements	\$676,886 84
Replacing blue-stone pavements	50,000 00
Additional work of improvements	200,000 00
Auxiliary sewers	413,000 00
Total	1,339,886 84

TABLE NO. 5.—Schedule of Streets paved with wood and now requiring repair.

Street.	Limits.	No. of square yards.	Remarks.
1st Street, East	From B St., South, to C St., South	2, 093. 32	Rectangular block; in bad condition.
1st Street, East	From B St., North, to C St., North	2, 125. 13	Rectangular block; in bad condition.
