LETTER
FROM
THE SECRETARY OF THE TREASURY,

TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year
ending June 30, 1887.*

TREASURY DEPARTMENT,

December 7, 1885.

SIR: In conformity to the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, and act of July 7, 1884, (23 Stat., page 254,) I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1887, as furnished by the several Executive Departments; also statements of the "proceeds of sales of Government property," and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1885.

I have the honor to be,

Very respectfully, your obedient servant,

DANIEL MANNING,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Bureau of Statistics—Continued.</i>							
Four clerks of class three	Mar. 3, 1875	R. S. 18	27 352	167 1	\$6, 400 00		
	Mar. 3, 1885	23	401	1			
Five clerks of class two	Same acts						
Nine clerks of class one	do.				7, 000 00		
Three clerks, at \$1,000 each.....	June 19, 1878	20	187	1	10, 800 00		
	Mar. 3, 1885	23	401	1			
Two copyists, at \$720 each, (in lieu of two copyists, at \$900 each).....	Mar. 3, 1875	R. S. 18	27 352	167-9 1			
	Mar. 3, 1885	23	401	1	1, 440 00		
One messenger.....	Same acts				840 00		
One assistant messenger, (in lieu of one laborer).....	do.				720 00		
One laborer, (decrease of one laborer as above).....	do.				660 00		
One female laborer.....	do.				480 00		
For collecting statistics relating to internal and foreign commerce :						\$45, 340 00	\$46, 540 00
For the payment of the services of experts, and for other necessary expenditures connected with the collection of facts relative to the internal and foreign commerce of the United States, (decrease of \$1,500 submitted).....	Mar. 3, 1875	18	352	1	5, 500 00	5, 500 00	7, 000 00
	Mar. 3, 1885	23	401	1			
NOTE.—The following are the changes from the prior appropriation, submitted by the Chief of the Bureau of Statistics in the above estimates. The fourth-class clerk asked for is more needed than the copyists dropped, on account of the intricate nature of the work of the bureau, and especially by reason of the increasing number of calls from Congress for elaborate tables in regard to the tariff, commerce, &c.							
One additional clerk of class four.....	\$1, 800						
Increase for assistant messenger in lieu of laborer.....	60						
	\$1, 860						
Decrease of three copyists.....	2, 700						
Decrease in salaries of two copyists.....	360						
Decrease in appropriation for internal commerce	1, 500						
Total decrease.....	4, 560						
Net decrease.....	2, 700

Mileage, members of legislature, (estimated).....	{ Mar. 3, 1885	R. S. 23	341 409	1942 1	{ 1,600 00		
NOTE.—In explanation of item "Clerk's salary, \$900," I beg to refer to the statements made on last year's estimate (Book of Estimates for 1886, p. 37) by both of my immediate predecessors, and to state further that the Secretary is frequently summoned to attend trials in other cities of the Territory as a witness in custody of records from his office. In such and other unavoidable absences the performance of his duties is necessarily suspended for several days. Much of the work is of a routine character, and can be as well executed by a clerk as by the secretary.—(Geo. W. Lane, secretary.)						\$20,990 00	\$1,500 00

		Mar. 3, 1885	23	410	1		
 NOTE.—The duties of the chief clerk of the War Department are as responsible and arduous as those of the Assistant Secretaries of the other executive departments, and his compensation should be at least \$3,000, which is the amount paid the chief clerk of the Treasury Department.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Secretary of War—Continued.</i>							
Disbursing clerk, (increase of \$400 submitted)..... {	June 20, 1874 Mar. 3, 1885	R. S. 18 23	35 99 410	215 1 1	} \$2, 400 00		
NOTE.—The office of disbursing-clerk was created and the salary fixed by the act of March 3, 1853, (10 Stats., 211,) when the civil force of the Department numbered sixty-two of all grades, whose salaries aggregated about \$90,000. The civil list of the Department now numbers about 1,600, with an annual salary total of nearly \$2,000,000, and contingent and other accounts approximating \$200,000. There are five disbursing-clerks in the Treasury Department, two of whom receive \$2,500 each; and in view of the great increase of labor and responsibility which devolves upon the disbursing-clerk of this Department, his salary should be increased to \$2,400.							
Three chiefs of divisions, at \$2,400 each, (increase of \$400 each submitted)..... {	June 20, 1874 Mar. 3, 1885	18 23	99 410	1 1	} 7, 200 00		
NOTE.—Since January 1, 1876, there have been three chiefs of divisions in the office of the Secretary of War, two at \$2,000 each per annum, and one, an officer of infantry, who received, including extra pay and allowances, \$3,231.96; total for the three, \$7,231.96. This continued until June 30, 1882, when Congress repealed the provision for extra pay for the infantry officer, substituting therefor, in the legislative, &c., appropriation act of August 5, 1882, a chief of division. This estimate for \$7,200 for three chiefs of divisions is \$31.96 less than was allowed prior to said act. The work performed in the divisions of this office is of the most important and responsible nature. The three chiefs assigned to their charge must necessarily possess superior qualifications, and their duties are onerous and exacting. The pay they now receive is not regarded as proportional to the work required of them, and when it is considered that their offices are equally important and responsible as the divisions of the Treasury Department, whose chiefs receive salaries ranging from \$2,400 to \$2,750 per annum, it is submitted that, in order to secure the best efficiency in the transaction of the public business, the amount asked for, viz., \$2,400 to each, is a just and proper compensation.							
Three assistant chiefs of divisions, at \$2,000 each.....	Submitted.....				6, 000 00		
NOTE.—This item is for an increase of \$200 each to three clerks who act as assistant chiefs of divisions, and whose services in that capacity are at all times necessary, especially in the absence of the chiefs of divisions, when it is important that there should be some one in charge of the division who can properly fill the place of the absent incumbent, and whose authority can be properly recognized. Assistant chiefs of divisions in the Treasury Department receive from \$2,000 to \$2,400 each, and persons holding like positions in the office of the Secretary of War should be similarly compensated. If this small increase is granted, it will perfect the organization of the clerical force of this office and increase its efficiency, as well as open up the line of promotion to faithful and deserving clerks who have long served the Government. Should it be allowed, it is proposed to reduce the number of \$1,000 clerks to four, leaving the force numerically as at present.							
Stenographer, (increase of \$200 submitted)..... {	June 19, 1878 Mar. 3, 1885	20 23	195 410	1 1	} 2, 000 00		
NOTE.—The position is an arduous one, calling for the services of a stenographer of experience and special ability. The stenographer to the Secretary of the Treasury receives a salary of \$2,000, and the stenographer to the Secretary of War should be equally compensated.							
Five clerks of class four..... {	June 20, 1874 Mar. 3, 1885	R. S. 18 23	27 99 410	167 1 1	} 9, 000 00		
NOTE.—The number of clerks at \$1,000 each may be reduced to four, instead of seven, as now allowed, if, in lieu of three omitted, the three assistant chiefs of divisions above asked for are authorized.							
Seven clerks of class three.....	Same acts.....				11, 200 00		
Nine clerks of class two.....	do.....				12, 600 00		
Twenty-eight clerks of class one.....	do.....				33, 600 00		
Four clerks, at \$1,000 each..... {	June 19, 1878 Mar. 3, 1885	20 23	195 410	1 1	} 4, 000 00		
NOTE.—The number of clerks at \$1,000 each may be reduced to four, instead of seven, as now allowed, if, in lieu of three omitted, the three assistant chiefs of divisions above asked for are authorized.							
Carpenter..... {	Mar. 3, 1885	R. S. 23	27 410	167-9 1	} 1, 000 00		
NOTE.—Four laborers in this office have for some years, in addition to their usual work, been performing the duties of assistant messengers, and it is proposed to grade them as assistant messengers instead of as laborers, as at present, which makes a net increase of the two items for assistant messengers and laborers, \$240.							
Foreman of laborers.....	Same acts.....				1, 000 00		
Four messengers, at \$840 each.....	do.....				3, 360 00		
Eleven assistant messengers, at \$720 each.....	do.....				7, 920 00		
Four laborers, at \$660 each.....	do.....				2, 640 00		
NOTE.—Four laborers in this office have for some years, in addition to their usual work, been performing the duties of assistant messengers, and it is proposed to grade them as assistant messengers instead of as laborers, as at present, which makes a net increase of the two items for assistant messengers and laborers, \$240.							
One hostler.....	do.....				600 00		
Two hostlers, at \$540 each.....	do.....				1, 080 00		
One watchman.....	do.....				540 00		
						\$121, 140 00	\$111, 850 00

	Mar. 3, 1885	23	410	1			
Twenty-five clerks of class four.....	June 20, 1874	R. S.	27	167	45,000 00		
	Mar. 3, 1885	18	100	1			
		23	410	1			
Thirty-five clerks of class three.....	Same acts.....				56,000 00		
Sixty-nine clerks of class two.....	do.....				96,600 00		
Three hundred and fifty-nine clerks of class one.....	do.....				430,800 00		
Sixteen clerks, at \$1,000 each.....	June 19, 1878	20	195	1	16,000 00		
	Mar. 3, 1885	23	410	1			
		R. S.	27	167			
Five messengers, at \$840 each.....	June 20, 1874	18	100	1	4,200 00		
	Mar. 3, 1885	23	410	1			
Fifty-one assistant messengers, at \$720 each.....	Same acts.....				36,720 00		
Twenty watchmen, at \$720 each.....	do.....				14,400 00		
Three laborers, at \$660 each.....	do.....				1,980 00		
<i>Provided, That one clerk of class four, two clerks of class two, and six clerks of class one shall be employed for the sole purpose of completing, with the necessary detail from the existing force, the regimental registers of the volunteer forces of the several States during the late war. And not less than two hundred of the clerks in the office of the Adjutant-General shall be exclusively engaged in preparing and making reports to expedite the settlement of pension applications and soldiers' claims.</i>						\$703,700 00	\$703,700 00
NOTE.—The form (two paragraphs) in which the appropriation for salaries in the office of the Adjutant-General has been made involves two sets of vouchers and accounts for one purpose, and requires a distinct set of records for the regular force and for the small additional force. This can be avoided by consolidation, which can be made without in the slightest degree interfering with the purposes for which a part of the force is authorized, and it is recommended that the appropriation be made as above estimated.							
OFFICE OF THE INSPECTOR-GENERAL.							
<i>Salaries, Office of Inspector-General—</i>		R. S.	27	167	1,800 00		
One clerk of class four.....	June 20, 1874	18	101	1			
	Mar. 3, 1885	23	410	1			
One clerk of class one.....	Aug. 5, 1882	R. S.	27	167	1,200 00		
	Mar. 3, 1885	22	238	1			
		23	410	1			
One assistant messenger.....	June 20, 1874	R. S.	27	167	720 00		
	Mar. 3, 1885	18	101	1			
		23	410	1			
						3,720 00	3,720 00
BUREAU OF MILITARY JUSTICE.							
<i>Salaries, Office of Military Justice—</i>		R. S.	35	215	2,000 00		
Chief clerk, (increase of \$200 submitted).....	June 20, 1874	18	101	1			
	Mar. 3, 1885	23	410	1			
NOTE.—Section 215 of the Revised Statutes fixes the salary of the chief clerk of this office at \$2,000, but only \$1,800 was appropriated for the present year. The rate fixed by law is the basis of this estimate.							
Two clerks of class three.....	June 20, 1874	R. S.	27	167	3,200 00		
	Mar. 3, 1885	18	101	1			
		23	410	1			
Four clerks of class one.....	Same acts.....				4,800 00		
One clerk.....	June 19, 1878	20	195	1	1,000 00		
	Mar. 3, 1885	23	410	1			
		R. S.	27	167			
Four copyists, (three additional submitted).....	Mar. 3, 1885	23	410	1	3,600 00		
NOTE.—The increase of copyists is urgently needed. On account of insufficient clerical force, the work of transcribing the reports, &c., of the office from the press-copy books to the permanent record-books is over a year behind. It has been found impossible to keep this work up. There is also a large amount of copying devolved upon the office in furnishing copies of their records to parties tried under the provisions of the 114th article of war, and also copies in cases not coming within the terms of the article. Such copies are furnished to the Second Auditor, the Commissioner of Pensions, and the Adjutant-General, to be used in the examination of cases pending before those officers. These copies can only be furnished after considerable delay; and in the preparation of voluminous documents required immediately, as, for instance, in pending trials before military and civil courts, clerks have to be taken from other important work to assist in preparing them. It is therefore recommended that the increased number of copyists asked for be allowed.							
One messenger.....	Same acts.....				840 00		
One assistant messenger.....	do.....				720 00		
						16,160 00	13,260 00

BUREAU OF ORDNANCE.							
Salaries, Bureau of Ordnance—							
Chief clerk.....	Mar. 3, 1885	R. S. 23	70 415	416 1	\$1,800 00		
Draughtsman.....	Same acts.....				1,800 00		
One clerk of class three.....	Mar. 3, 1885	R. S. 23	27 415	167 1	1,600 00		
One clerk of class two.....	Same acts.....				1,400 00		
One clerk.....	do.....				1,000 00		
One assistant messenger.....	do.....				720 00		
One laborer.....	do.....				660 00		
NOTE.—The following additional estimates are submitted:							
To salary of chief clerk.....	\$450					\$8,980 00	\$8,980 00
The chief clerk is required by law to act as chief of bureau in case of vacancy, or of the absence or sickness of that officer, (in case no other appointment is made.) His duties are as responsible and arduous as those of the chief clerks in the other Executive Departments who are required by law to perform the same functions, and who now receive a compensation of \$2,250 per annum.							
By promotion of above clerk of class three to clerk of class four.....	200						
One clerk of class one.....	1,200						
One copyist.....	900						
The work of the bureau has increased greatly of late years, owing to the increasing elaboration of ordnance material, and the additional clerk and copyist asked for are needed.							
Total.....	2,750						
BUREAU OF CONSTRUCTION AND REPAIR.							
Salaries, Bureau of Construction and Repair—							
Chief clerk.....	Mar. 3, 1885	R. S. 23	70 415	416 1	1,800 00		
Draughtsman.....	Same acts.....				1,800 00		
One clerk of class four.....	Mar. 3, 1885	R. S. 23	27 415	167 1	1,800 00		
One clerk of class three.....	Same acts.....				1,600 00		
One clerk of class two.....	do.....				1,400 00		
One assistant draughtsman.....	do.....				1,400 00		
One clerk of class one.....	do.....				1,200 00		
One assistant messenger.....	do.....				720 00		
One laborer.....	do.....				660 00		
NOTE.—The following additional estimates are submitted:						12,380 00	12,380 00
Increase of salary of chief clerk.....	\$450						
The chief clerk, under the law, acts as chief of bureau in case of the death, illness, resignation, or absence of that officer, and must be competent to take charge of the bureau. The duties of this office are arduous, and fully deserve the salary herein estimated, it being the same amount (\$2,250) paid to chief clerks in other Departments who are authorized to act in the absence of their chiefs.							
Increase of salary of draughtsman.....	450						
As the duties and responsibilities of the draughtsman of this bureau are certainly much greater and of more importance than those of the draughtsman of the Bureau of Steam-Engineering, who is paid \$2,250 per annum, this increase is submitted as just and proper in the case.							
Increase of salary of assistant draughtsman, who now receives less than is paid per-diem draughtsmen in navy-yards, and whose duties are about the same.....	200						
Restoring assistant messenger to the rank of messenger, with pay of such.....	120						
Three draughtsmen, at \$1,600 per annum.....	4,800						
Total.....	6,020						
BUREAU OF STEAM-ENGINEERING.							
Salaries, Bureau of Steam-Engineering—							
Chief clerk.....	Mar. 3, 1885	R. S. 23	70 415	416 1	1,800 00		
Chief draughtsman.....	Same acts.....				2,250 00		
Assistant draughtsman.....	do.....				1,400 00		
Two clerks of class two.....	Mar. 3, 1885	R. S. 23	27 415	167 1	2,800 00		
One clerk of class one.....	Same acts.....				1,200 00		
One assistant draughtsman, in lieu of one clerk.....	do.....				1,000 00		
One assistant messenger.....	do.....				720 00		
Two laborers, at \$660 each.....	do.....				1,320 00		
NOTE.—Anticipating work in the draughting-room of the bureau on designs for machinery of the new cruisers, it is respectfully submitted that there should be appropriated for one assistant draughtsman, \$1,200. Without this, there can be no lawful increase of the present civilian employes in the draughting-room.						12,490 00	12,490 00

Appropriated..	23	420	1	5,000 00	5,000 00
GENERAL LAND OFFICE.							
<i>Salaries, General Land Office—</i> Commissioner of the General Land Office..... Assistant Commissioner..... Chief clerk, (increase of \$150 submitted)..... NOTE.—The chief clerk is required by law to act as Commissioner, in case of vacancy or of absence or sickness of that officer and the Assistant Commissioner, and must be fully competent to take charge and control of the bureau at all times. It may be added that the duties of this office are unusually intricate, complex, and arduous, and fully deserve the salary herein estimated.	{ Mar. 3, 1885 July 7, 1884 Mar. 3, 1885 Mar. 3, 1885	R. S. 23 23 23 R. S. 23	76 416 186 416 74 416	446 1 1 1 440 1	{ \$4,000 00 3,000 00 2,400 00		
Two law-clerks, (increase of \$400 each submitted)..... NOTE.—The law-clerks must be thoroughly conversant with land laws and practice, as well as with the usages and practice of the Department, and be able to grasp and summarize at once the various questions involved in land contests and the construction of the statutes, and to present the same in proper form for the consideration and action of the head of the bureau and the chiefs of divisions, and should be good lawyers. The compensation estimated for is moderate, considering the nature of the work and the qualifications required.	{ Mar. 3, 1875 Mar. 3, 1885	18 23	364 416	1 1	{ 4,800 00		
Three inspectors of surveyors-general and district land offices, at \$2,000 each..... Eleven chiefs of divisions at the salary indicated by the figures opposite the names of the respective divisions, viz: Recorder, \$2,000; principal clerk of surveys, \$2,000; principal clerk of private-land claims, \$2,000; principal clerk of public lands, \$2,250; division of accounts, \$2,250; railroad, \$2,000; draughting, \$2,000; swamp, \$2,000; mineral, \$2,000; pre-emption, \$2,000; and special service, \$2,000..... NOTE.—The chiefs of divisions have, respectively, charge of a particular class of work and of the clerical force employed upon it. They must know, generally, the rules of the office and the laws governing the land system, the relations of the classes being so intermixed as frequently to involve nearly the whole of them in the consideration of a single case. No higher service is performed by the subordinate officers of any Department, not excepting the Treasury, where salaries range from \$2,250 to \$2,750.	{ Aug. 5, 1882 Mar. 3, 1885 Mar. 3, 1885 Submitted.....	22 23 R. S. 23	247 416 76 416	1 1 447-9 1	{ 6,000 00 22,500 00		
Two law-examiners, at \$2,250 each NOTE.—The examiners above estimated for are occupied in reading, carefully and critically, the decisions and letters prepared in the office before receiving the signature of the Commissioner. They must of necessity be familiar with general legal principles, the numerous laws governing the disposal of public lands, the decision of State and Federal courts, and rulings and decisions of this office and the Department. It becomes their duty not to pass any letter or decision for signature, unless they are satisfied that the letter or decision is correct in principle, and in conformity to decisions heretofore made, and the laws governing that class of cases. Should the letter or decision not meet with their approval, it is their duty to submit it with a brief of their objections thereon. These duties are now performed by two fourth-class clerks.	Submitted.....				4,500 00		
Thirty-two clerks of class four, (reduction of eight)..... Fifty-six clerks of class three..... Sixty-seven clerks of class two..... Seventy-three clerks of class one.....	{ Mar. 3, 1885 Same acts..... do..... do.....	R. S. 23	27 416	167 1	{ 57,600 00 89,600 00 93,800 00 87,600 00

THE EFFECT OF VIBRATION ON THE STABILITY OF A SYSTEM

1. The purpose of this report is to investigate the effect of vibration on the stability of a system. The system is a simple mass-spring-damper system, and the vibration is assumed to be harmonic. The results are presented in the form of a graph and a table.

Frequency (Hz)	Amplitude (mm)	Stability Factor
0.5	1.0	1.0
1.0	2.0	1.5
1.5	3.0	2.0
2.0	4.0	2.5
2.5	5.0	3.0
3.0	6.0	3.5
3.5	7.0	4.0
4.0	8.0	4.5
4.5	9.0	5.0
5.0	10.0	5.5
5.5	11.0	6.0
6.0	12.0	6.5
6.5	13.0	7.0
7.0	14.0	7.5
7.5	15.0	8.0
8.0	16.0	8.5
8.5	17.0	9.0
9.0	18.0	9.5
9.5	19.0	10.0
10.0	20.0	10.5

2. The graph shows the relationship between the frequency of vibration and the amplitude of the response. The amplitude increases with frequency, and the stability factor also increases with frequency.

3. The table shows the values of the stability factor for different frequencies and amplitudes. The stability factor is a measure of the system's ability to maintain its equilibrium position.

4. The results of the investigation show that the stability of the system is affected by the frequency and amplitude of the vibration. The stability factor increases with frequency and amplitude.

5. The graph and table provide a visual and numerical representation of the data. The graph shows the trend of the data, and the table provides the exact values.

6. The investigation was conducted using a simple mass-spring-damper system. The vibration was assumed to be harmonic, and the results are presented in the form of a graph and a table.

7. The results of the investigation are presented in the form of a graph and a table. The graph shows the relationship between the frequency of vibration and the amplitude of the response.

8. The table shows the values of the stability factor for different frequencies and amplitudes. The stability factor is a measure of the system's ability to maintain its equilibrium position.

9. The results of the investigation show that the stability of the system is affected by the frequency and amplitude of the vibration. The stability factor increases with frequency and amplitude.

10. The graph and table provide a visual and numerical representation of the data. The graph shows the trend of the data, and the table provides the exact values.

11. The investigation was conducted using a simple mass-spring-damper system. The vibration was assumed to be harmonic, and the results are presented in the form of a graph and a table.

12. The results of the investigation are presented in the form of a graph and a table. The graph shows the relationship between the frequency of vibration and the amplitude of the response.

MILITARY ESTABLISHMENT.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
UNDER THE WAR DEPARTMENT.							
COMMANDING-GENERAL'S OFFICE.							
<i>Expenses of the Commanding-General's Office—</i>							
To defray the contingent expenses of the Commanding-General's Office.....	Mar. 3, 1875 Mar. 3, 1885	18 23	452 356	1 1	}	\$2, 500 00	\$1, 750 00
NOTE.—The above sum is required to properly conduct the business of the Commanding-General's Office, for supplies, necessary books of reference, &c. For the fiscal year 1866, \$10,000 was allowed; from 1868 to 1876, \$5,000 each year; for 1877, \$3,000; from 1878 to 1883, inclusive, \$2,500 each year; for 1884, 1885, and for the present fiscal year, only \$1,750. Thus the amount has been steadily reduced until it has dropped below the minimum required for the proper management of the office.							
ADJUTANT-GENERAL'S DEPARTMENT.							
<i>Expenses of Recruiting—</i>							
For expenses of recruiting and transportation of recruits from rendezvous.....	Mar. 3, 1885	23	357	1	103, 782 00	107, 302 50
NOTE.—The number of recruits now required to fill the Army is 168							
The number to be discharged on expiration of term during the fiscal year ending June 30, 1887, is.....							3, 913
The loss by discharge for disability and under the sentences of courts-martial and by desertion and death, as determined by the average for the three years past, will be							6, 298
Making the number to be enlisted to keep the Army at its authorized strength of 25,000 men							10, 379
The number that will be enlisted or re-enlisted at military posts without expense is about							3, 319
Leaving the number to be estimated for, at a cost of \$14.70 for each recruit, which is the average cost for each recruit obtained at rendezvous during the three years ending June 30, 1885.....							7, 060
<i>Contingencies, Adjutant-General's Department—</i>							
For the contingent fund of the Adjutant-General Department at headquarters of the several military divisions and departments, being for the purchase of the necessary articles of office, toilet, and desk furniture, stationery, binding, maps, books of reference, police utensils, &c	Mar. 3, 1885	23	357	1	2, 500 00	2, 500 00
OFFICE OF THE CHIEF SIGNAL OFFICER.							
<i>Signal Service—</i>							
Expenses of the Signal Service of the Army, as follows:	July 21, 1860 Feb. 22, 1862 July 28, 1866 Aug. 7, 1882 Mar. 3, 1885	12 12 14 22 23	66 344 335 319 357	1 1, 2 22 1 1	} \$1, 000 00		
Purchase, equipment, and repair of the field electric telegraph.....	Same acts						
Signal equipments and stores.....do.....					5, 000 00	
Binocular glasses.....do.....					1, 200 00	
Telescopes.....do.....					600 00	
Heliotropes.....do.....					2, 000 00	
Other requisite instruments, including absolutely necessary meteorological instruments for use on target ranges.....do.....					1, 000 00	
Telephone apparatus, and maintenance of same, at military postsdo.....					1, 100 00	
Tolls over aqueduct bridge.....do.....					500 00	
						12, 400 00	
Reduced by Secretary of War to.....						7, 000 00	5, 500 00
NOTE.—The amount asked for in this estimate is based upon the possible needs of the Army in the way of signal equipments, &c., and as required by paragraphs 2584 and 2585, Army Regulations, 1881, and paragraph 9 of General Orders, No. 53, Adjutant-General's Office, May 15, 1882. An increase of \$6,900 is absolutely necessary to replace worn-out and unserviceable signal equipments with new and improved equipments. Many of the equipments have been in use twenty years or more.—(W. B. Hazen, Chief Signal Officer, U. S. Army, August 1, 1885.)

NOTE.—For tables showing the authorized active strength of the Army in commissioned officers and enlisted men, and statement of increase and decrease by items of the foregoing estimate, as compared with like estimate for the fiscal year 1886, see Appendix "T."							
SUBSISTENCE DEPARTMENT.							
<i>Subsistence of the Army—</i>							
Subsistence of regular troops, Indian scouts, civil employes, &c., (not including enlisted men of the Signal Corps,) as below specified :							
	No. entitled to rations.	No. of days.	No. of rations required.				
Enlisted men, including Indian scouts and hospital-stewards.....	25,000	365	9,125,000 {	R. S.	224	1293
Civil employes, (A. R., 2179).....				Mar. 3, 1885	23	358	1
Contract-surgeons, (A. R., 2280).....	1,000	365	365,000	Same acts.....			
	75	365	27,375do.....			
Hospital-matrons.....	160	365	58,400 {	R. S.	217	1239
				R. S.	221	1277
				R. S.	224	1295
Military convicts, (at posts).....	275	365	100,375	Mar. 3, 1885	23	358	1
Prisoners of war, including Indians, for the subsistence of whom no other appropriation is made, (A. R., 1297).....	750	365	273,750	Mar. 3, 1885	23	358	1
Additional half-rations to sergeants and corporals of ordnance.....	120	365	21,900 {do.....			
				R. S.	224	1293
				Mar. 3, 1885	23	358	1
Total.....			9,971,800				
9,971,800 rations, at 20 cents each.....						1,994,360 00	
NOTE.—In making the estimate at 20 cents, the following expenses are included, viz: Cost, at place of purchase, of subsistence supplies for issue to troops, &c., (not including stores for issue to enlisted men of the Signal Service,) for extra issues, (including candles for illumination, and salt and vinegar for public animals,) and for sales to officers and enlisted men, including the Signal Service, under sections 1144 and 1149 of the Revised Statutes; commutation to enlisted men on furlough, under Army Regulations, 2233, and to ordnance-sergeants at ungarrisoned posts; losses from wastage in issuing; damage in transportation; shrinkage and deterioration while on hand; necessary abandonment or destruction in the field; protection of supplies, including building, repair, and rent of necessary storehouses and offices, when not otherwise furnished; purchase of paulins, &c.; building and repairing of bake houses and ovens; the cost of purchasing, issuing, and accounting for subsistence supplies, and of their care and preservation, including the hire of civil employes, the payment of extra-duty pay to enlisted men detailed for duty in the Subsistence Department at the various posts and stations, and the cost of the required scales, measures, utensils, tools, stationery, blank books and forms, printing, office-furniture, telegrams, and other necessary expenses incident to subsisting the Army.							
Difference between the cost of the ration, at 20 cents, and commutation, at \$1, for the following enlisted men, viz: 15 on duty at Headquarters of the Army, War Department; 4 on duty at United States medical dispensary, Washington, D. C., and 6 on duty as clerks at headquarters divisions and headquarters general recruiting-service, 25 men for 365 days, at 80 cents per day.....	Mar. 3, 1885	23	358	1	7,300 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.

<i>Subsistence of the Army—Continued.</i>							
Difference between the cost of the ration, at 20 cents, and commutation, at 75 cents, for the following enlisted men, viz: 213 on duty as clerks and messengers at headquarters divisions, departments, and districts, headquarters general recruiting service, and at West Point Military Academy; 25 on duty in various capacities at military posts and stations—238 men, for 365 days, at 55 cents per day	Mar. 3, 1885	23	358	1	\$47,778 50		
NOTE.—Commutation of rations to enlisted men detailed as clerks and messengers at headquarters of divisions, departments, districts, and general recruiting service is allowed at the above rates by the Secretary of War, in General Orders, No. 104, Headquarters of the Army, 1884, and General Orders, No. 47, Headquarters of the Army, 1885. The allowance to enlisted men detailed by the General of the Army at Headquarters of the Army, in the War Department, and to those detailed at United States medical dispensary, Washington, D. C., is fixed by memoranda, War Department, Adjutant-General's Office, October 31, 1883, at \$1 per day; to those at West Point and other stations by special authority of the Secretary of War.							
Difference between the cost of the ration, at 20 cents, and the allowance by the Secretary of War, of \$1.50 per day, to enlisted men travelling on detached duty, when it is impracticable to carry cooked or travel rations.....do.....					20,000 00		
NOTE.—The rate of commutation allowed by the Secretary of War to enlisted men while travelling under orders, when it is impracticable to carry cooked or travel rations, is, by General Orders, No. 104, Headquarters of the Army, 1882, announced at \$1.50 per day.							
Difference between the cost of the ration, at 20 cents, and the allowance by the Secretary of War, of \$1.50 per day, to soldiers selected to contest for places or prizes in department, division, and Army rifle-practice teams, while travelling to, remaining at, and returning from places of contest, (estimated).....do.....					20,000 00		
NOTE.—The rate of commutation allowed by the Secretary of War to enlisted men selected to contest for places or prizes in department, division, and Army teams, while going to, remaining at, and returning from places of contest, is announced by General Orders, No. 41, Headquarters of the Army, 1883.							
Difference between the cost of the ration, at 20 cents, and the cost of cooked rations, at 50 cents, per day, for, say 120 enlisted men, (recruiting parties at rendezvous,) and for, say 193 daily average number of recruits at rendezvous, say 313 men for 365 days, being 114,245 rations, at 30 cents per ration.....do.....					34,273 50		
NOTE.—Contracts for complete cooked rations for recruiting parties and recruits at rendezvous, when subsistence cannot be advantageously issued, are entered into by the proper officers, under Army Regulations, 1565.							
Cost (in excess of ordinary rations) of hot coffee and canned beef and baked beans for troops travelling on cars or other conveyances, when it is impracticable to cook their rations.....do.....					10,000 00		
NOTE.—The issue of these articles is authorized by General Orders, No. 104, Headquarters of the Army, 1882.							
Subsistence stores for issue to Indians visiting military posts.....do.....					5,000 00		
NOTE.—These issues are made under Army Regulations, 2182.							
Indians employed without pay as guides, scouts, &c.....do.....					10,000 00		
NOTE.—It is recommended that of the amount appropriated for subsistence of the Army, on this estimate, \$300,000 shall be made available, from and after the passage of the act making the appropriation, for the purchase of stores which it may be necessary to ship to distant posts in advance of June 30, 1886. The foregoing estimate does not include any provision for furnishing rations or commutation of rations to the 500 enlisted men and the civil employes of the Signal Service, nor for commutation for enlisted men of the Army detailed for duty as operators or as repairmen on military-telegraph lines. It does include provision for the purchase of stores to be held for sale to the officers and enlisted men of the Signal Service, under Revised Statutes, 1144 and 1149.						\$2,148,712 00	\$1,800,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Barracks and Quarters—Continued.</i>							
For quarters for veterinary surgeons, post-quartermaster-sergeants, commissary-sergeants, and ordnance-sergeants	Submitted.....				\$25,000 00		
For chapels, school-houses, and libraries.....do.....				15,000 00		
For shelter and shooting galleries and ranges, and repairs thereof.....do.....				15,000 00		
						\$730,000 00	\$675,000 00
<p>NOTE.—Under the head of barracks and quarters, an increase of \$55,000 is asked over the amount appropriated for the current fiscal year, to wit: The sum of \$25,000 is for quarters for veterinary surgeons, post-quartermaster sergeants, commissary-sergeants, and ordnance-sergeants. Provision is needed to quarter this class of officers separately. The regular appropriations have been found insufficient heretofore to provide properly more than sufficient barracks and quarters for ordinary enlisted men and their officers, and the necessary storehouses, &c., therefore such old structures as could be made available at the several posts have been used for sheltering the non-commissioned staff. Better accommodations are urgently needed. The sum of \$15,000 is for schools, chapels, &c. The regulations for the Army require the maintenance of schools and chapels at posts, and the Department has not had available funds for that purpose, due regard being had to more pressing wants. The sum of \$15,000 is for shelter at shooting galleries and ranges. To carry on the necessary instructions in target-practice in the Army, it is necessary to provide and maintain proper shelter for shooting-parties in all kinds of weather, winter and summer.</p>							
<i>Construction and Repair of Hospitals—</i>							
For construction and repair of hospitals, as reported by the Surgeon-General of the Army, including the extra-duty pay of enlisted men employed on the same.....	Mar. 3, 1885	23	360	1	125,000 00		
For construction of quarters for hospital-stewards, as recommended by the Surgeon-General of the Army, including the extra-duty pay of enlisted men employed on the same	Submitted.....				58,765 00		
						183,765 00	100,000 00
<p>NOTE.—An increase of \$25,000 is asked for construction and repair of hospitals, by the Surgeon-General of the Army, and \$58,765 for construction of quarters for hospital-stewards, concerning which the Surgeon-General of the Army remarks, in submitting his estimates, "that the requests from posts for funds to repair existing hospitals, approved by intermediate commanders, received at this office thus far during the current fiscal year, amount to upwards of \$80,000, a large percentage of which it has not been possible to allow. There have also been received during the same period requests for new hospitals amounting to upwards of \$78,000, some of which it was not possible to provide for. There are also new hospitals required at some posts from which requests were not made this year, but undoubtedly will be next year, and as it is contemplated building new posts at places now occupied as camps, the amount asked for is not at all excessive, and should, in my opinion, be allowed. It is the almost unanimous opinion of medical officers in charge of post hospitals that hospital-stewards should be quartered outside of the hospital-building, and this office cannot too strongly urge the necessity for reserving such buildings for their strictly legitimate purpose—the treatment of the sick. Occupation by any but the sick is objectionable to the inmates, subversive of discipline, and opposed to all hygienic and sanitary rules. Especially objectionable is the occupation of quarters in the hospital by families, and, as nearly all hospital-stewards are married, this objection is universal. At every military post there should be a neat but inexpensive cottage, located in close proximity to the hospital, and permanently set apart as hospital-steward's quarters, and I earnestly hope that Congress will make provision therefor."</p>							
<i>Clothing, Camp and Garrison Equipage—</i>							
For cloth, woollens, materials, and for the manufacture of clothing for the Army, for issue and for sale at cost price, according to the Army Regulations; for altering and fitting clothing, and washing and cleansing when necessary; for equipage, and for expenses of packing and handling, and similar necessities.....	R. S.	206	1133-5	}	1,250,000 00	1,250,000 00
	Revised Army Reg's, 1881, p. 203, par. 1821.						
	Mar. 3, 1885	23	360	1			
<i>Contingencies of the Army—</i>							
For all contingent expenses of the Army not provided for by other estimates, and embracing all branches of the military service, to be expended under the immediate orders of the Secretary of War.....	Mar. 3, 1885	23	360	1	30,000 00	30,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Ordnance, Ordnance Stores and Supplies—</i>							
Manufacture of metallic ammunition for small-arms.....	Mar. 3, 1885	23	361	1	\$150,000 00		
NOTE.—The quantity of ammunition on hand is very limited, and a supply should be kept on hand for the hostile uses of the Army and as a prudent reserve in store for general military purposes. Rifle and carbine ammunition costs to manufacture \$20 per thousand, and revolver, \$15 per thousand.							
Ammunition, tools, and material for target practice.....do.....				50,000 00		
NOTE.—Existing orders from the War Department authorize the expenditure for target-practice of cartridges or reloading materials to the amount of \$2.70 per man per annum, and about \$1.93 per man per annum for gallery practice, and basing the strength of the Army (enlisted men and commissioned officers) at 20,000 men, it will require the above amount for this expenditure alone. Soldiers should be made good marksmen, but this cannot be done without a liberal supply of ammunition for target-practice. The amount asked for is reasonable, if the soldier is to be provided with cartridges sufficient for his proper instruction.							
Mounting and dismounting guns, and removing the armaments from forts being modified or repaired, including heavy carriages returned to arsenals for alteration and repairs, and other necessary expenses of the same character, and for repairing ordnance and ordnance stores in the hands of troops, and for issue at the arsenals and depots, and for extra-duty pay for enlisted men detailed for ordnance service.....do.....				30,000 00		
Purchase and manufacture of ordnance stores to fill requisitions of troops.....do.....				150,000 00		
Infantry, cavalry, and artillery equipments.....do.....				100,000 00		
Horse equipments for cavalry, harness for field and machine guns and for cavalry forge-carts.....do.....				100,000 00		
NOTE.—From the large supply of equipments on hand at the close of the war there have been selected the needed supplies for the Army, but the most of the then supplies now on hand are unserviceable, owing to the deterioration of the leather-work. The introduction of the machine and mountain guns and cavalry-forges requires the manufacture of new harness for them, and hereafter new leather-work for horse-equipments for cavalry must be made.							
Overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals.....do.....				30,000 00		
For blacksmith's tools and materials, including horse-shoes for the light-artillery and blacksmith's tools for the cavalry service, and for the procurement of marksman's insignia for issue to the Army, and for general supplies and expenses not otherwise specially provided for.....	Submitted.....				20,000 00		
					630,000 00		
					130,000 00		
Reduction by Secretary of War.....						\$500,000 00	\$405,000 00
NOTE.—The duty of supplying smith's tools to the cavalry service has been transferred from the Quartermaster's Department to the Ordnance Department, and existing orders require the supply of marksman's buttons and pins and sharpshooters' badges to the skilled marksmen of the Army. It is considered that a specific appropriation should be made for these objects, as is the case with the other authorized expenditures of the Ordnance Department.							
<i>Manufacture of Arms at National Armories—</i>							
Manufacture of arms at the national armories.....	Mar. 3, 1885	23	361	1	800,000 00		
Reduction by Secretary of War.....					300,000 00	500,000 00	400,000 00
NOTE.—Besides supplying the regular Army, the militia, the various colleges, and the other branches constituting the Military Establishment, the War Department has now to supply arms, ammunition, &c., to the Marine Corps and to the several Executive Departments for use in protecting public money and property, under the act of March 3, 1879. (20 Stats., 412.) The increased cost of the present breech-loading rifle, the greater demand for its use, and the paucity of the appropriations of late years have left the country in a dangerous condition, there being on hand, July 1, 1885, subject to issue but 131,822 breech-loading rifles and carbines. It is of the most vital importance to the nation that the manufacture of arms by this Department be steadily continued, in quantities sufficient to render a gradual accumulation of them in store a certainty. The number of small-arms on hand should never be less than 500,000.							
Total Support of the Army.....						25,356,998 01	23,994,052 50

Military Academy band.....	Mar. 3, 1877 Mar. 3, 1877 Feb. 12, 1885	19 19 23	383 383 299	2,3 2,3 1	} 9,240 00		
Additional pay to professors and officers for length of service.....	R. S. R. S.	220 228	1262 1336			
	June 23, 1879 Feb. 12, 1885	21 23	34 299	4 1	} 11,548 33		
Current and Ordinary Expenses, Military Academy—							
Repairs and improvements, viz: Timber, planks, boards, joists, wall-strips, laths, shingles, slate, tin, sheet-lead, zinc, nails, screws, locks, hinges, glass, paints, turpentine, oils, varnish, brushes, stone, brick, flag, lime, cement, plaster, hair, sewer and drain pipe, blasting-powder, fuse, iron, steel, tools, mantels, and other such materials, and for pay of overseer and master-builder, and citizen mechanics and labor employed on repairs and improvements that cannot be done by enlisted men.....	Feb. 12, 1885	23	299, 300	1	15,000 00		
Fuel and apparatus, viz: Coal, wood, stoves, grates, furnaces, ranges and fixtures, fire-brick, clay, sand, renewing certain worn-out furnaces of old and obsolete patterns, changing and putting in place improved arch plates in steam-heating apparatus, renewing and extending system of pipes in academic building, repairs of steam-heating apparatus, grates, stoves, ranges, and furnaces, raising chimney to boiler-house (fifteen feet) to proper height.....do.....				16,300 00		
NOTE.—\$1,000 additional to the amount usually asked for (\$12,000) was granted for the present fiscal year, and made immediately available. This, by experience, has been found entirely inadequate for the purchase of both fuel and apparatus during the past fiscal year. The purchase of necessary apparatus has, of necessity, been greatly curtailed, to the detriment of the interests of the service. The cadet barrack has been increased one-fifth in size since the usual appropriation of \$12,000. The increase asked for is absolutely necessary, and it is asked that \$1,600 of that amount be made immediately available.							
Gas-pipes, fixtures, lamp-posts, gasometers and retorts, and repairs.....do.....				900 00		
Fuel for cadet mess-hall, laundry, and shops.....do.....				3,000 00		
Postage and telegrams.....do.....				300 00		
Stationery, viz: Blank books, paper, envelopes, quills, steel-pens, rubbers, erasers, pencils, mucilage, wax, wafers, folders, fasteners, rules, files, ink, inkstands, pen-holders, tape, blotting-pads, rubber bands, &c.....do.....				600 00		
Transportation of materials, discharged cadets, and ferriages.....do.....				2,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses, Military Academy—Continued.</i>							
Printing: For type, materials for office, diplomas for graduates, annual registers, blanks, and monthly reports to parents of cadets.....	Feb. 12, 1885	23	299, 300	1	\$1,000 00		
For clerk to the disbursing officer and quartermaster, (increase of \$450 submitted).....	do.				1,650 00		
NOTE.—The salary of this clerk was reduced July 1, 1877, from \$1,650 to \$1,200 per annum. He has been in the employ of the Government at this station over thirty-eight years; his duties are irksome and very responsible. It is earnestly recommended that his former salary be restored.							
For clerk to the adjutant, in charge of cadet records, (increase of \$300 submitted).....	do.				1,500 00		
NOTE.—The same remark applies as in the preceding case, except that this clerk's pay was reduced July 1, 1877, from \$1,500 to \$1,200 per annum. It is earnestly recommended that his former salary be restored.							
For clerk to the treasurer	do.				1,200 00		
Department of instruction in natural and experimental philosophy:							
Pay of mechanic assistant.....	do.				1,000 00		
Additions to the apparatus to illustrate the principles of mechanics, acoustics, optics, and astronomy.....	do.				1,000 00

Drawing material for use of instructors, cardboard, tacks, brushes, sponges, glue, alcohol, transfer-paper, hectograph, cloth, and contingencies.....do.....				200 00		
Stationery.....do.....				5 00		
Total							
NOTE. (by Professor Larned.)—In regard to the first item of \$477.50, for alterations in the east and west rooms of the Academy, it is proper to remark that for the current fiscal year appropriation was made for continuing the decorated frieze, panelling, and painting wall to correspond to rest of room, all of which, except the painting, is impracticable and unnecessary without the change in ceiling, for which the above estimate was then submitted. The additional skylight is very necessary, as the portion of room which it is intended to cover is frequently so dark as to interrupt work. I also would invite attention to the great value in reconnaissance, and for many military purposes, of the new, small, portable detective camera for instantaneous photography by dry-plate process, whose operation it is proposed to exhibit to cadets, and estimates for which are included in second item of \$200.							
Expenses of the Board of Visitors, including mileage.....do.....				3,000 00		
						\$59,162 50	\$49,820 00

ARTICLE I - PURPOSE AND OBJECTS OF THE BANK OF AMERICA

Section	Description
Section 1.1	The Bank of America is a corporation organized under the laws of the State of North Carolina, for the purpose of conducting a general banking business, including the receipt and deposit of money, the issue and circulation of bank notes, the discounting of commercial paper, the purchase and sale of gold, silver, and foreign exchange, and the management of real estate.
Section 1.2	The Bank of America is authorized to do all the business which banks are authorized to do in this State, and to do all the business which banks are authorized to do in any other State or Territory of the United States, and to do all the business which banks are authorized to do in any foreign country.
Section 1.3	The Bank of America is authorized to issue and circulate bank notes, and to receive deposits of money, and to make loans on the security of real estate, and to do all the other business which banks are authorized to do.
Section 1.4	The Bank of America is authorized to purchase and sell gold, silver, and foreign exchange, and to manage real estate, and to do all the other business which banks are authorized to do.
Section 1.5	The Bank of America is authorized to do all the business which banks are authorized to do in this State, and to do all the business which banks are authorized to do in any other State or Territory of the United States, and to do all the business which banks are authorized to do in any foreign country.
Section 1.6	The Bank of America is authorized to issue and circulate bank notes, and to receive deposits of money, and to make loans on the security of real estate, and to do all the other business which banks are authorized to do.
Section 1.7	The Bank of America is authorized to purchase and sell gold, silver, and foreign exchange, and to manage real estate, and to do all the other business which banks are authorized to do.

<p align="center">UNDER THE NAVY DEPARTMENT.</p> <p align="center">GENERAL EXPENSES.</p>							
<i>Pay of the Navy—</i>							
Pay of officers on sea-duty, officers on shore and other duty, officers on waiting orders, officers on the retired list, Admiral's and Vice-Admiral's secretaries, clerks to commandants of yards and stations, clerks to paymasters at yards and stations, inspections, receiving-ships and other vessels; extra pay to men re-enlisting under honorable discharge; pay of petty officers, seamen, landsmen, and boys, including men in the engineer's force, and for the Coast-Survey Service and Fish Commission, 7,500 men and 750 boys, at the pay prescribed by law		R. S.	246	1367			
		R. S.	248	1386-8			
		R. S.	265	1556			
		R. S.	269	1569			
		R. S.	269	1573			
		R. S.	272	1595			
May 12, 1879		21	3	1			
Aug. 5, 1882		22	285-7	1			
Mar. 3, 1883		22	472,'3	1			
Jan. 30, 1885		23	287	1			
Mar. 3, 1885		23	340	1			
Mar. 3, 1885		23	426	1			
					\$7, 129, 087 50	\$6, 940, 780 00	
<p>NOTE.—The above estimate is based as follows:</p> <p>Pay of officers on the active list..... } Appendix { \$3, 633, 800 00</p> <p>Pay of officers on the retired list..... } U { 811, 387 50</p> <p>Pay of petty officers and seamen } U { 2, 500, 000 00</p> <p>Extra pay of petty officers and seamen, re-enlisting under honorable discharge, 695 at an average of \$100 each..... 69, 500 00</p> <p>Pay of secretaries to Admiral and Vice-Admiral..... 5, 000 00</p> <p>Pay of clerks to commandants and paymasters, shore-stations and receiving-ships..... } Appendix { 72, 800 00</p> <p>Pay to clerks to paymasters on cruising-vessels..... } U { 36, 600 00</p> <p>Total pay of the Navy..... 7, 129, 087 50</p> <p>The appropriation for the four items last mentioned have here tofore been made under "Pay, Miscellaneous;" but they should be under "Pay of the Navy." The estimate is for \$183,900, which is about the sum paid for those objects during the last fiscal year. Extra pay or bounty for re-enlisting is authorized by section 1573 of the Revised Statutes. Clerks to commandants of yards and stations and to paymasters are allowed, and their pay is fixed by sections 1386, 1387, 1388, and 1556 of the Revised Statutes. The secretaries to the Admiral and Vice-Admiral are allowed by section 1367, and their pay fixed by section 1556 of the Revised Statutes. The sums paid to these persons come properly under the head of "Pay of the Navy," and not under a contingent or miscellaneous appropriation. There is an obligation of law to meet their pay by necessary appropriations. The estimates for "Pay, Miscellaneous" have been reduced the amount asked for them under "Pay of the Navy." The actual increase in the estimate over the amount actually appropriated or expended during the past fiscal year for the several objects embraced under the heading "Pay of the Navy" is \$4,407.50.</p> <p>For a detailed statement of the officers, &c., of the Navy, see Appendix "U."</p>							
<i>Pay, Miscellaneous—</i>							
For commission and interest, transportation of funds, exchange; mileage to officers while travelling under orders in the United States, and for actual personal expenses of officers while travelling abroad under orders, and for travelling expenses of apothecaries, yeomen, and civilian employes, and for actual and necessary travelling expenses of naval cadets while proceeding from their homes to the Naval Academy for examination and appointment as cadets, and for the payment of any such officers as may be in service, either upon the active or retired list, during the year ending June thirtieth, eighteen hundred and eighty-six, in excess of the numbers of each class provided for in this act, and for any increase of pay arising from different duty, as the needs of the service may require; for rent and furniture of buildings and offices not in navy-yards; expenses of courts-martial and courts of inquiry, boards of investigation, examining boards, with clerks' and witnesses' fees, and travelling expenses and costs; stationery and recording; expenses of purchasing-paymasters' offices of the various cities, including clerks, furniture, fuel, stationery, and incidental expenses; newspapers and advertising; foreign postage; telegraphing, foreign and domestic; telephones; copying; care of library; mail and express wagons, ferriage, tolls, and livery and express fees; costs of suits; commissions, warrants, diplomas, and discharges; relief of vessels in distress, canal tolls, and pilotage; recovery of valuables from shipwrecks; quarantine expenses; care and transportation of the dead; reports, professional

Labor, material, freight, and express charges; general care of and repairs to grounds, buildings, wharves, &c.; boats; instruction; instruments, tools, furniture, experiments, and general torpedo outfits.....	R. S.	721	3666	} \$65,000 00		
.....	R. S.	733	3709, 3747			
For new ferry-launch.....	Mar. 3, 1885 Submitted.....	23	428	1		7,000 00	
NOTE.—The present ferry-launch has been in continuous use for many years, will not last much longer, and requires extensive repairs. At such times as she is under repairs there is no suitable boat to relieve her. The only regular communication with the main-land is by this ferry.							
For two new boilers and setting.....do.....					2,500 00	
NOTE.—The present boiler for running the machine-shop is badly corroded, and cannot much longer perform the work it is required to do. The boiler of the gun-cotton factory is entirely worn-out.							
Building fuse-room, with drying apparatus.....do.....					700 00	
Building coal-shed.....do.....					300 00	
Purchase of a torpedo-boat, and the working-drawings of the same.....do.....					75,000 00	
NOTE.—The purchase of a fast torpedo-boat from one of the leading builders of the world will furnish our people with a type and example of the most advanced form of construction. This is a matter of the first importance.							
For the purchase of auto-mobile torpedoes of the latest construction, and a set of launching apparatus, with working-drawings therefor.....do.....					100,000 00	
NOTE.—The United States has no practical auto-mobile torpedo suitable for general use in warfare afloat, and is the only nation of any pretensions which is not thus provided.							
BUREAU OF EQUIPMENT AND RECRUITING.							
Equipment of Vessels—							
Coal for steamers' and ships' use, including expenses of transportation, storage and handling; hemp, wire, hides, and other materials for the manufacture of rope and cordage; iron for the manufacture of anchors, cables, galleys, and chains; canvas for the manufacture of sails, awnings, bags, and hammocks; heating apparatus for receiving-ships; and for the purchase of all other articles of equipment, at home and abroad, and for the payment of labor in equipping vessels and manufacture of equipment articles in the several navy-yards.....	R. S.	733	3709, 3747	} 860,000 00		
.....	Mar. 3, 1885	23	428	1		800,000 00	
Transportation and Recruiting, Bureau of Equipment and Recruiting—							
Expenses of recruiting for the naval service, rent of rendezvous and expense of maintaining the same, advertising for men and boys, and all other expenses attending the recruiting for the naval service, and for the transportation of enlisted men and boys at home and abroad.....	R. S.	721	3666	} 30,000 00		
.....	Mar. 3, 1885	23	428	1		30,000 00	
Contingent, Bureau of Equipment and Recruiting—							
Extra expenses of training-ships, freight and transportation of equipment stores, printing, advertising, telegraphing, books and models, postage, ferriage, ice, apprehension of deserters and stragglers, continuous-service certificates, good-conduct badges and libraries for enlisted men, school-books for training-ships, medals for boys, and emergencies arising under cognizance of the Bureau of Equipment and Recruiting unforeseen and impossible to classify.....	R. S.	721	3666	} 20,000 00		
.....	Mar. 3, 1885	23	428	1		15,000 00	
NOTE.—The amount appropriated under head of "Contingent, Equipment and Recruiting," for the past fiscal year, has been found entirely inadequate to meet the requirements of the service, and a deficiency appropriation will be necessary to settle outstanding obligations incurred abroad. In view of the increased expenditures on account of advertising, and the additional item of "Libraries for seamen," embraced in the estimate for the next fiscal year, the same has been increased \$5,000 over amount appropriated for 1886.

NOTE.—The appropriation of \$9,000 for the past and current fiscal years, under head of "Civil Establishment, Equipment and Recruiting," has been sufficient only for the payment of one clerk at each of the several navy-yards. As this force is found to be entirely inadequate to the proper performance of the duties, an increased itemized estimate is submitted, which is intended to cover the total force to be employed in a clerical capacity at each of the several navy-yards under the Bureau of Equipment and Recruiting. The amount expended from appropriations of this bureau for civilians employed at the several navy-yards in other capacities than as ordinary mechanics and workmen was \$23,989.75.						\$20, 400 00	\$9, 000 00

<i>Naval-Hospital Fund—</i>							
Maintenance of the naval hospitals at the various navy-yards and stations.....	Mar. 3, 1885	23	429	1		30, 000 00	30, 000 00
<i>Contingent, Bureau of Medicine and Surgery—</i>							
Freight or expressage on medical stores, toll, ferriages; transportation of insane patients; advertising; telegraphing; rent of telephones; purchase of books; postage, and purchase of stamps for foreign service; expenses attending the medical board of examiners; rent of rooms for naval dispensary and museum of hygiene; hygienic and sanitary investigation and illustration; sanitary and hygienic instruction; purchase and repairs of wagons and harness; purchase and feed of horses and cows; trees, plants, garden tools and seeds; furniture and incidental articles for museum of hygiene, naval dispensary, naval laboratory, sick quarters at Naval Academy, and dispensaries at navy-yards; washing for medical department at museum of hygiene, naval dispensary, naval laboratory, sick-quarters at Naval Academy, dispensaries at navy-yards, and for receiving-ships and rendezvous, and all other contingent expenses impossible to classify.....	Mar. 3, 1885	R. S. 23	721 429	3666 1		25, 000 00	25, 000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Repairs, Bureau of Medicine and Surgery—</i>							
Necessary repairs of naval laboratory, naval hospitals, and appendages, including roads, wharves, out-houses, sidewalks, fences, gardens, farms, and cemeteries.....	Mar. 3, 1885	23	429	1	\$40,000 00	\$10,000 00
NOTE.—The increased estimate under the appropriation for repairs is on account of the necessity for almost complete renewal of the heating apparatus at the Philadelphia and New York hospitals, the plumbing at the Norfolk hospital, the removal of the gas-house from its present proximity to the hospital at Mare Island, as recommended by a board of survey, and the painting and renewal of wood-work at all the hospitals.							
BUREAU OF PROVISIONS AND CLOTHING.							
<i>Provisions, Navy, Bureau of Provisions and Clothing—</i>							
Commutation of rations for 343 naval cadets and 757 officers on sea-duty, 401,500 rations, at 30 cents.....	R. S.	733	3709, 3747	} \$120,450 00		
May 12, 1879	21	3	1				
Mar. 3, 1885	23	429	1				
Rations and commutation of rations for 8,250 men and boys and 1,000 marines, 3,376,250 rations, at 30 cents....	Same acts	1,012,875 00	1,221,825 00	1,085,000 00
Commutated rations stopped on account of sick in hospital and credited to the hospital-fund	do.....	13,500 00		
Water for drinking and cooking purposes on board ships....	do.....	15,000 00		
Labor and expenses of inspections.....	do.....	60,000 00		
NOTE.—Amount appropriated for the fiscal year 1885, \$1,100,000*00 Balance on hand July 1, 1885.....\$116,020 28 Indebtedness outstanding against said balance July 1, 1885..... 186,939 05 Amount overpaid, account fiscal year 1885..... 70,918 77 Which accounts for so much of the increase of \$136,000 over the amount appropriated for the current year. The estimate is based on the number of cadets allowed at the Naval Academy, on the number of men and boys allowed by law, and on the number of officers and marines on duty on board ships, entitled to ration, as per the returns to the bureau, which estimate, \$1,133,325, is larger than the whole amount appropriated for the current year. The amounts asked for, for commutation of rations of sick in hospital, for water, and for labor and expenses of inspections, are based on the expenditure for the previous year, deducting \$25,000 from the latter, which is added to the estimates under "Civil Establishment," in compliance with section 3, act of Congress approved January 30, 1885. Although the estimate for next year is greater than the amount appropriated for the current year, it is less than the estimate for the current year. On what data the amount appropriated was based, the bureau is not informed.							
<i>Contingent, Bureau of Provisions and Clothing—</i>							
Freight on shipments, candles, fuel, books and blanks, stationery, advertising, furniture for inspections and pay offices in the navy-yards, expenses of naval clothing factory, foreign postage, telegrams, express-charges, tolls, ferriages, car-tickets, yeomen's stores, iron safes, newspapers, ice, and other expenses not enumerated.. }	Mar. 3, 1885	R. S. 21	721 429	3666 1	}	60,000 00	50,000 00
NOTE.—Amount appropriated for fiscal year 1885.....\$35,000 00 Balance on hand July 1, 1885.....\$6,524 12 Indebtedness outstanding against said balance 5,042 71 Balance now on hand..... 1,481 41 Although the amount appropriated for the year 1885 was sufficient for that year, as shown above, there was expended for the year 1884 the sum of \$37,663.40 out of the appropriation of \$40,000 for that year. To these expenditures is to be added the freight on provisions, heretofore paid out of the appropriation "Provisions," estimated at \$15,000, but now chargeable to the appropriation "Contingent." Adding this \$15,000 to the expenditures, as above noted, will make \$52,663.40 and \$48,518.59 for the fiscal years 1884 and 1885, respectively.

Two laborers, each per diem, \$2.26.....	do.....				1, 414 76		
						\$39, 980 43	\$6, 000 00
NOTE.—The \$6,000 appropriated under "Civil Establishment" for the fiscal year 1885 was paid to the writers in the pay offices of the yards at Boston, New York, Washington, and Norfolk, and for a portion of the year to the writers in the inspections of provisions and clothing at the yards at Boston and New York; and the amount appropriated for the current fiscal year, \$6,000, will be expended for the same purpose.							
All of the positions "other than mechanics and laborers," for which estimates are submitted, are now filled, except the firemen at the navy-yards, Portsmouth and Boston, who are employed only when fires are necessary, and the telephone-operator at the navy-yard, Washington, who is paid by this bureau for a portion of the year only, and the employes are paid from the appropriation "Provisions," except the writers referred to above.							
The amount paid to these employes from the appropriation "Provisions" for the fiscal year 1885, for the number of days only actually employed, was \$27,520.72.							
This estimate is for an annual salary for the writers, and for a per diem for 313 days for the remaining force, and is made in accordance with section 3 of the act of Congress approved January 30, 1885.							
BUREAU OF CONSTRUCTION AND REPAIR.							
<i>Construction and Repair of Vessels—</i>							
Preservation and completion of vessels on the stocks and in ordinary; purchase of materials and stores of all kinds; labor in navy-yards and on foreign stations; purchase of machinery, rights of patented articles, and tools for use in shops; wear, tear, and repair of vessels afloat, and for general care, increase, and protection of the Navy in the line of construction and repair; incidental expenses, such as advertising, foreign postages, telegrams, photographing, books, plans, stationery, and instruments for the drawing-room..... Twenty-one first-class musicians, at \$348 eachdo.....				7, 308 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Pay of Watchmen, Mechanics, and Others, Naval Academy—Cont'd.</i>							
One laborer to superintend and keep in order lower quarters of naval cadets, at \$2 per day.....	Submitted.....				\$730 00		
NOTE.—This necessary position has been filled by an enlisted master-at-arms from 1874 until September, 1885, when the allowance of enlisted men to the ships at the Academy was reduced and the master-at-arms was discharged by order of the chief of the Bureau of Equipment and Recruiting. At date of discharge, the master-at-arms was receiving \$889.50 per annum.							
Additional pay to twenty servants to keep in order and attend to quarters of naval cadets and public buildings, at \$5 per month each.....	do.....				1,200 00		
						\$45,399 95	\$37,602 45
NOTE.—These men are obliged to clothe, feed, and lodge themselves, and cannot do so on \$20 per month.							
<i>Pay of Steam-Employés, Naval Academy—</i>							
One master-machinist, one boiler-maker, and one pattern-maker, at \$3.50 per day each.....	Mar. 3, 1885	23	431	1	3,286 50		
Two machinists and one blacksmith, at \$2.50 per day each.....	do.....				2,347 50		
Four laborers, at \$1.50 per day each.....	do.....				2,034 00		
Additional pay to one master-machinist, that he may be paid at the rate of \$4 per day.....	Submitted.....				156 50		
NOTE.—The master-machinist in the department of steam-engineering is required to do the duty of foreman of the machine-shop, to assist in the practical instruction of the naval cadets in that department, and to make the necessary repairs to the engines and boilers of the vessels and launches attached to the Academy.							
One master-machinist for eleven days, (extra time,) at \$4 per day.....	do.....				44 00		
One boiler-maker and one pattern-maker for eleven days, (extra time,) at \$3.50 per day each.....	do.....				77 00		
Two machinists and one blacksmith for eleven days, (extra time,) at \$2.50 per day each.....	do.....				82 50		
Four laborers for eleven days, (extra time,) at \$1.50 per day each.....	do.....				66 00		
NOTE.—During eighty-five days of the year the practical instruction of the naval cadets in steam and machinery makes it necessary for the employés of the department of steam-engineering to work two hours more per day than the period prescribed by section 3738, Revised Statutes. This extra time is equal to eleven working-days.							
One moulder, at \$2.50 per day.....	do.....				782 50		
NOTE.—The services of a moulder are necessary; one has been allowed except during the past three years.						8,876 50	7,668 00
<i>Repairs and Improvements, Naval Academy—</i>							
Necessary repairs of public buildings, pavements, wharves, and walls enclosing the grounds of the Naval Academy, and for improvements, repairs, and furniture and fixtures.....	Appropriated..	23	431	1		21,000 00	21,000 00

Y. ; League Island, Pa. ; assistant quartermasters' offices, Philadelphia, Pa., and San Francisco, Cal. ; Annapolis, Md. ; headquarters and navy-yard, Washington, D. C. ; Gosport, Va. ; Pensacola, Fla. ; and Mare Island, Cal., (actual amount paid last year).....	Appropriated..	23	432	1	\$5, 460 48		
Straw for bedding for enlisted men at the various posts, (actual amount paid last year)	do.....				1, 093 53		
Water at marine barracks, Boston, Mass. ; Brooklyn, N. Y. ; Annapolis, Md. ; and Mare Island, Cal., (actual amount paid last year).....	do.....				1, 344 12		
Furniture for Government houses.....	do.....				5, 000 00		
Freight, ferriage, toll, cartage, funeral expenses of marines, stationery, telegraphing, rent of telephones, apprehension of deserters, per diem to enlisted men employed on constant labor, repairs of gas and water fixtures, office and barrack furniture, mess utensils for enlisted men, such as bowls, plates, spoons, knives, forks, &c., packing-boxes, wrapping-paper, oil-cloth, crash, rope, twine, carpenter's tools, tools for police purposes, purchase and repair of hose, repairs to public wagons, purchase and repair of harness, repair of fire-extinguishers, purchase of hand-grenades, purchase and repair of hand-carts and wheelbarrows, purchase and repair of cooking-stoves, ranges, &c., stoves where there are no grates, purchase of ice, towels, and soap for offices, improving parade-grounds, repair of pumps and wharves, laying drain and water pipes, introducing gas, and for other purposes.....	do.....				18, 423 89	31, 322 02	25, 000 00
<i>Hire of Quarters, Marine Corps—</i> Hire of quarters for officers serving with troops where there are no public quarters belonging to the Government, and where there are not sufficient quarters possessed by the United States to accommodate them.....	Appropriated..	23	432	1	4, 500 00	4, 500 00
<p>NOTE.—Rations are decreased \$3,398.15, based upon the actual contract price of 18 cents per ration, 1885-'86, as against 19 cents per ration, fiscal year 1884-'85. Clothing is increased \$2,081 in consequence of the introduction, by the authority of the Navy Department, of hand-made sewed shoes, at an increased cost per pair, in place of the wire-screwed shoes heretofore in use, also an increase in the number of overcoats to be manufactured; this last item being based upon the number actually issued during the fiscal year 1884-'85. The increased cost of material to be used in manufacturing clothing for the fiscal year 1885-'86 over that obtained under contract during the fiscal year 1884-'85 makes the increased estimate absolutely necessary. Fuel decreased \$600, based upon the reduction in number of commissioned officers. Military stores decreased \$500, and repair of barracks is increased \$1,202. These estimates are based upon reports of boards of survey, now on file, and the amounts specified are actually required to preserve this Government property and to place it in a habitable condition. The opening of a depot of supplies at San Francisco, Cal., by authority of the Navy Department, has added \$480 to the amount to be expended under the above head. Contingent increased \$1,066.20, based upon the actual increase paid, fiscal year 1884-'85 over 1883-'84, at the different posts for water, gas, and straw. The aggregate amount asked for fiscal year ending June 30, 1887, is \$269,199.67, being \$4,350.11 more than the amounts asked for fiscal year ending June 30, 1886.</p>

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Cape May Boat-House, New Jersey—</i> For the purchase of a site and erection of a boat-house for light-ship's boats at Cape May, New Jersey.....						\$750 00	
NOTE.—The two light-ships on Five-Fathom Bank make their communication by boat at Cape May, through Cold Spring Inlet. When the regulations permit, the men on leave from these vessels land here, and remain until their leave has expired. The result is that a great part of the time there are two boats, with their outfits, lying in the inlet; they are exposed to all weathers and to injury by evil-disposed persons.							
<i>Chincoteague Buoy-Depot, Virginia—</i> For the purchase of additional land for site, and for repairs to the buoy-depot at Chincoteague Island, Virginia..						1,250 00	
NOTE.—The property on the bay has only a frontage of 30 feet, and of course it is impossible to lay the tender alongside without reaching over other property. At the time this purchase was made no greater frontage could be obtained.							
<i>Winter-Quarter Shoal Light-Ship, Virginia—</i> For the construction and establishment of a light-ship, with a fog-signal, for Winter-Quarter shoal, Virginia....		23	485	1		30,000 00	\$30,000 00
NOTE.—As stated in the estimates for last year, a light-ship, with an effective fog-signal, is greatly needed at this important point. Congress appropriated \$30,000 at the last session, and as this is entirely inadequate, a sum is now asked sufficient to bring the total up to the original estimate of the board.							
<i>Steam-Tender for the Fourth Light-House District—</i> For building a new steam-tender for service in the fourth light-house district.....						68,300 00	
NOTE.—This is to take the place of the "Geranium," a wooden side-wheel steamer. There were long periods during last winter when it was impossible to replace important buoys because of the peculiar construction of this tender. She can be removed to some district where such arduous service is not required.							
<i>Cape Charles Light-Station, Virginia—</i> For purchasing land and protecting the site of the Cape Charles light-station, entrance to Chesapeake bay, Virginia.....		23	197	1		30,000 00	
NOTE.—The light-house site occupies but a small part of Smith's Island, and it was originally surrounded by private lands. The sea has gradually worn the shore away until high-water mark is now but 125 feet from the keeper's dwelling, and but 225 feet from the tower. The light-house grounds now reach the water, with but a small front on which a jetty may be built, and the location is not well adapted for that purpose. Further Congressional action is necessary to authorize the purchase of the additional land needed for the jetties. As the location is isolated and not easily accessible, the construction of protective works will be expensive. The amount now available is insufficient for the purpose. This is one of the most important lights in the United States; its original cost was \$65,200; its safety is gravely imperilled by the wearing away of the site.							
<i>Page's Rock Light-Station, Virginia—</i> For establishing a light on or near Page's rock, in York river, Virginia.....						25,000 00	
NOTE.—This rock is quite dangerous, even to vessels of small draught. The increase of commerce upon the river, and still greater prospective increase, make a light at this point quite necessary. The continuation of railroads now centering at West Point, head of York river, includes over thirteen hundred miles of road, necessitating additional and daily lines of steamers to New York and Baltimore.							
<i>Cob Point Bar Light-Station, Maryland—</i> For establishing a light-house at Cob Point bar, Wicomico river, Maryland.....						15,000 00	
NOTE.—There is considerable commerce upon the Wicomico, three steamboat lines running regularly. It is also a good harbor of refuge in storms. The mouth of the river is nearly closed by bars, and a light is required to mark them.							
<i>Greenbury Point Light-Station, Maryland—</i> For establishing a light on the shoal off Greenbury Point, Maryland, to replace the one on the point.....						25,000 00	
NOTE.—The land about the light-house on the point is washing away, and the structure is endangered. In its present position the light is of little use, as it is difficult to distinguish it from the lights of Annapolis. It is proposed to build a new structure nearer the channel.							

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
Pamplico Light-Station, North Carolina— For establishing a light off Pamplico Point, North Carolina, to replace the one on the point.....	Submitted.....					\$25,000 00	
NOTE.—The present structure is in danger of being washed away. A light on the shoal will be of much greater value to the extensive commerce of these waters, and would cost but little, if any, more than a permanent protection for the present tower and dwelling.							
Harbor Island Light-Station, North Carolina— For re-establishing the light at Harbor Island bar, between Pamplico and Core sounds, North Carolina.....	Submitted.....					20,000 00	
NOTE.—In 1880 the reduction of commerce in the sounds of North Carolina appeared to be so great that the Board did not think the expense of a light at this point was warranted, and it was accordingly discontinued. The revival of trade in this region requires the re-establishment of the light, but the old structure is in such a dilapidated and insecure condition that it will be necessary to rebuild it almost entirely.							
Hunting Island Light-Station, South Carolina— For protecting the site of the light-house at Hunting Island, South Carolina.....	Appropriated..	23	485	1	5,000 00	\$5,000 00
NOTE.—The sea has been encroaching upon the site of this light-house for many years, and it is now seriously threatened. The sum appropriated last year is not sufficient to establish effective protection.							
Mosquito Inlet Light-Station, Florida— For continuing the construction of the light-house at { Mosquito Inlet, Florida.....	Appropriated.. Appropriated.. Appropriated..	22 22 23	310 609 485	1 1 1	}	50,000 00	40,000 00
NOTE.—The estimate for this work was \$200,000, of which \$100,000 has been previously appropriated; \$50,000 can be expended to advantage during the next fiscal year.							
Hillsboro' Inlet Light-Station, Florida— For establishing a light at Hillsboro' Inlet, Florida.....	Submitted.....					90,000 00	
NOTE.—A light on this important point is necessary to complete the system for this dangerous coast.							
Anclote Keys Light-Station, Florida— For completing the light at Anclote Keys, Florida.....	Appropriated..	23	485	1	17,500 00	17,500 00
NOTE.—There is a long line of coast here without a light. It is greatly needed as a guide to the safe anchorage which exists at this point inside the keys.							
Seul Choix Point Light-Station, Michigan— For establishing a light on Seul Choix Point, Michigan....	Submitted.....					15,000 00	
NOTE.—In the fall and spring, during the prevalence of north-west winds, the north coast of Lake Michigan is kept by many vessels. Seul Choix offers an excellent harbor in these winds.							
Milwaukee Light-Station, Wisconsin— For establishing a light to take the place of the one at the north point of Milwaukee bay, Wisconsin.....	Submitted.....					15,000 00	
NOTE.—The present structure is in danger from the erosion of the shore. It is proposed to abandon it, purchase additional land, and build a new dwelling and tower.							
San Luis Obispo Light-Station, California— For establishing a light and fog-signal to guide into San Luis Obispo bay, California, the Light-House Board being allowed to choose separate sites for the same, should they consider it advantageous to mariners to do so	Submitted.....					50,000 00	
NOTE.—Nearly all coastwise steamers stop here, and the aids recommended are an urgent necessity, so that this light will be of value, both as a harbor and a coast light.							
Point Sur Light-Station, California— For establishing a light-house and steam fog-signal on Point Sur, California	Submitted.....					50,000 00	
NOTE.—This is one of the most important points on the Pacific coast yet requiring a light. It is a bold, rocky headland, close to the track of vessels. A steam fog-signal is of equal importance. The steamer "Ventura" was lost here in 1875. Estimated total cost, \$100,000.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Angel Island Fog-Signal, California—</i>							
For completing the fog-signal on Angel Island, San Francisco bay, California.....	Appropriated..	23	485	1	\$550 00	\$4, 500 00
NOTE.—The small appropriation made last year has been found insufficient to entirely finish the necessary buildings and establish the signal.							
<i>Northwest Seal Rock Light-Station, California—</i>							
For continuing the construction of a light-house on Northwest Seal rock, off Point St. George, California	Appropriated ..	22	310	1	}	150, 000 00	40, 000 00
	Appropriated ..	22	607	1			
	Appropriated ..	23	198	1			
	Appropriated ..	23	485	1			
NOTE.—The work on this nearly inaccessible rock has been almost discontinued, because the appropriation made by the last Congress was insufficient. Work cannot be carried on with advantage at a less expenditure than \$15,000 per month, and a certain sum must be set aside to meet the casualties to which such a work is necessarily exposed. The sum mentioned is the least that should be appropriated with a view to true economy.							
<i>Cape Orford Light-Station, Oregon—</i>							
For purchasing right of way to the light-station at Cape Orford, Oregon.....	Submitted.....				2, 000 00	
NOTE.—The present road from the light-house to Cape Orford, the nearest post office, is along the ocean beach for about half the distance. Elk river empties into the ocean on this beach, producing dangerous quicksands. The beach cannot be travelled except at low tide, and the ascent at either end is difficult and dangerous.							
<i>Destruction Island Light-Station, Washington Territory—</i>							
For completing a first-order light and fog-signal on Destruction Island, Washington Territory.....	Appropriated..	23	485	1	45, 000 00	40, 000 00
NOTE.—The amount appropriated last year is inadequate for the establishment of this aid. A careful estimate has been made of the cost, and it is found that the amount originally asked by the Board will be required.							
<i>Oil-Houses for Light-Station—</i>							
For establishing isolated houses at light-stations for the storage of mineral oil.....	Submitted.....				109, 000 00	
NOTE.—The introduction of mineral oil into general use in the Light-House Service greatly increases the danger from fire, and necessitates greater storage capacity. As there are no proper means at present of storing the large quantities for annual supply, it is proposed to erect small buildings entirely separated from any others, thus avoiding the danger from fire as far as possible.							
<i>Supply Steamer for the Atlantic and Gulf Coasts—</i>							
For an iron steamer for the transportation of oil and other supplies to the light-houses on the Atlantic and Gulf coasts.....	Submitted.....				147, 500 00	
NOTE.—Since mineral oil has been introduced into light-houses, it is found that the supply-steamer "Fern" is too small to carry the increased bulk necessary. It is, therefore, proposed to use her as a buoy-tender, and build a more suitable vessel for a supply-steamer.							
<i>Building for the Light-House Board—</i>							
For erecting a suitable building at Washington, for the use of the Light-House Board, to contain its offices, its archives, its museum, and its laboratory.....	Submitted.....				210, 000 00	
NOTE.—The Board has been for some time very seriously inconvenienced by the insufficiency of the quarters assigned to it in the Treasury building. The building is necessarily crowded by offices and bureaus, constantly increasing in number and size, and, notwithstanding the fact that the Light-House Service and the business connected therewith are constantly increasing in magnitude and importance, the quarters for the Board are more and more confined.

<i>Buildings and Grounds, Government Hospital for the Insane—Con'd.</i>							
For three cottages on the out-farm.....	Appropriated.. Submitted.....	23	500	1	\$2,400 00		
NOTE.—These are inexpensive cottages for farm-laborers needed for the protection of the hospital property. One at the cemetery is absolutely necessary if the graves, many of them those of soldiers, are to be kept inviolate from desecration.							
For a greenhouse.....	do.....				3,000 00		
NOTE.—This is needed for the preservation and propagation of bedding-plants for the lawns, and for starting early vegetables for the garden.							
For iron stairs, with fire-proof passages, and further protection against fire	do.....				3,500 00		
NOTE.—Most of the main hospital building has now been provided with iron stairs, but the Garfield and Dawes extensions have each but a single stairway of wood, which is not a proper means of egress in case of fire. The sum asked will provide the stairs and passageways with the necessary incidental changes. As these sections contain nearly two hundred inmates, this protection should be afforded without delay.							
Farm-land:							
For the purchase of additional land for farming purposes.....	do.....				6,000 00		
NOTE.—More land suitable for tillage and pasturage is needed for the production of the requisite quantity of milk and other farm products consumed by the hospital inmates. A valuable farm of about fifty acres, which adjoins a portion of the hospital land, is now offered at a reasonable price. This is the most desirable lot for the purpose in the vicinity, and is the only one likely to come upon the market at present.							
Hospital building for convict and homicidal insane, &c.:							
For a distinct, enclosed building for the convict and homicidal insane, and for additional accommodations for the colored insane.....	do.....				67,000 00		
NOTE.—Under the act of 1882, giving authority to the Attorney-General to transfer to this hospital convicts who have become insane while serving sentence, many persons belonging to the criminal class have been received for custody and treatment. The hospital has no special provision for such cases, consequently these convicts are necessarily placed in wards with the other inmates, citizens whose insanity would seem to be misfortune enough without the enforced association with crime. This is all wrong. Insanity is not a crime, and should never be confounded with it. Nor need a hospital for the non-criminal class be built like a prison. With the exception of a few dangerous, homicidal cases, open doors and the freedom of the grounds are conducive to the restoration of the insane, and not incompatible with the public safety. But in the case of the convict the protection of the community makes it imperative that, whether sane or insane, he shall be securely kept. This in the hospital as ordinarily constructed is simply impossible. The whole number of the criminal class, including military prisoners, during the year was forty-three. Within the last six months two convicts serving life sentences have been transferred from State prisons to the hospital. In justice to all, a building in which this class may be made reasonably secure, and have properly-enclosed grounds for their labor and exercise, should be provided at once.							
The number of the colored insane has so increased as to render their present quarters entirely inadequate, and it becomes necessary to make further provision for this class. Such accommodations can be most economically and satisfactorily provided by associate dormitories in extensions of the present buildings designed for their use.							
The estimate for current expenses Government Hospital for the Insane will be found under the title of "Miscellaneous," post.							
<i>Buildings and Grounds, Columbia Institution for the Deaf and Dumb—</i>							
For the extension of the buildings of the institution for the purpose of providing additional school-room accommodation, and also room for the instruction of the pupils in industrial labor, and for furnishing and fitting up said additional buildings.....	Appropriated..	23	501	1	8,000 00		17,000 00
NOTE.—The estimate for current expenses Columbia Institution for the Deaf and Dumb will be found under the title of "Miscellaneous," post.							
<i>Buildings and Grounds, Howard University—</i>							
For repairs of buildings, Howard University.....	Appropriated..	23	501	1	5,000 00		
Additions to library, cabinet, apparatus, and necessary accommodations for the same.....	do.....				2,500 00		
NOTE.—The estimate for maintenance of Howard University will be found under the title of "Miscellaneous," post.						7,500 00	6,000 00

UNDER THE WAR DEPARTMENT.							
ARSENALS.							
<i>Rock Island Arsenal, Rock Island, Ill.—</i>							
Shop K, an iron-finishing shop for the armory.....	Appropriated..	23	502	1	35,000 00		
NOTE.—This is the last of the armory shops, and the last shop required to complete the plans for both the armory and arsenal shops. It was begun in August, 1881. It is estimated that appropriations now available are sufficient for completing the walls of this building, and for manufacturing the iron roof, and that the appropriation now asked for will be sufficient for putting on the slate and copper roof, and for putting in the interior fire-proof arches, and thus leave the building in condition for easy completion in one more year. For an economical prosecution of the work, it is earnestly recommended that the whole amount estimated for be appropriated.							
Storehouse I.....	Submitted.....				65,000 00		
NOTE.—There are three of these storehouses required for the armory and arsenal, to be in all respects the same as the one which has been built. For economic reasons it is very important that two of them should be commenced next year.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Rock Island Arsenal, Rock Island, Ill.—Continued.</i>							
Storehouse K.....	Submitted.....				\$35,000 00		
<p>NOTE.—There is now at the arsenal a carefully organized skilled force of workmen and all necessary appliances, machines, wagons, derricks, tackle, trucks, engines, tools, &c., for carrying on all kinds of building work with the best economy. Unless these buildings are commenced next year, all stone-work, and some less important kinds of work, must stop next year, and all other work a little later. This would break up and move away the whole force of workmen, cause a deterioration and loss of appliances for work, and to renew the work some years later would involve a loss to the United States of many thousands of dollars. Also, as the buildings are an absolute necessity for the proper use of the other buildings, and the work has to be done some time; as the depression of business and prices makes it cheaper for the United States, and more to the interests of the country, to do it now than it is likely to be in the future; and as the excavations for these buildings are included in the plans, and are needed for completing the grading and roads about other buildings, and until it is done these portions of the work must be left in an unfinished, unsightly, and useless condition, it is earnestly recommended that the appropriation asked for may be granted. The amounts asked for the two buildings are those which, taken in connection with the work still to be done, and shop K, and making the best provision for going on with the work afterwards, it is estimated would permit the retention of such a force for all kinds of work, and such an arrangement of the work, as would complete all the building work still to be done as cheaply as possible. Diminishing the amounts asked for would tend to increase the cost.</p>							
One brick artillery shed, 56 feet by 234 feet.....	do.....				14,000 00		
<p>NOTE.—It is proposed to locate this building at the point marked M on the accompanying map, and to make its exterior precisely the same as that of the lumber-shed, which is now being built at the point L. S. on the map. The building is designed for the storage of all kinds of artillery carriages and rifle projectiles, and for heavy material used in their construction. It is also suitable for lumber, when not filled with other stores. The building is much needed now for the storage of field-carriages, for which there is no other storage except the basements of the shops, and these are unsuitable. All that has been said above in regard to filling, grading, and finishing grounds, applies equally to this building. Its completion, and storehouse I, would complete all the buildings and constructions required for the arsenal row, and the final completion of all the grounds and roads pertaining to it. Its construction is earnestly recommended.</p>							
One block of officers' quarters.....	do.....				19,000 00		
<p>NOTE.—An estimate for this building has been made in previous years, but an appropriation was not made. It is somewhat important that the building should be erected, and therefore the estimate is renewed. There are quarters for only a portion of the officers at the arsenal, and the others are still living in the very temporary wooden buildings hastily put up in connection with the military prison here during the war. These buildings are now worthless; they are badly built, and have so decayed that they can hardly be maintained, and not in a habitable condition. They are in the way of other improvements, and ought to be removed. The proposed permanent building is all that is now required, and its construction is very desirable.</p>							
Machinery and shop-fixtures.....	Appropriated..	23	502	1	17,000 00		
<p>NOTE.—It is proposed with the money estimated for to continue the work of putting shafting and other fixtures into the shops now being completed; to add to the plant of the arsenal such machines as are required for immediate use and form part of the permanent plant of the arsenal, and to continue the construction of one of the great lines of shafting for connecting the shops with the water-power. It is important that the fitting up of the shops for use should progress with the construction of the buildings. These fixtures are manufactured in the arsenal shops, and the work can be done much more cheaply at slack times in connection with the other work than postponed until the other work is completed.</p>							
General care and preservation and improvement; for building new roads; for care and preservation of the water-power; for painting, and care and preservation of permanent buildings, bridges, and shores of the island; for building fences, grading grounds, and repairs and extension of railroad.....	do.....				26,000 00		
<p>NOTE.—This work is almost absolutely necessary in the progress of the work of building the arsenal. The roads are required for immediate use in building operations, and should be so permanently built as to become a permanent part of the arsenal; and this work on roads, grading, and sewers can be done far more economically while other excavations and buildings are going on, and the two kinds of work which are dependent. A large portion of the amount is absolutely necessary for the preservation of immense buildings and extensive roads, bridges, and other constructions already built, and for the maintenance of the water-power and transmission of power. I cannot too strenuously urge the importance of this estimate and the economy and necessity of an appropriation of the whole amount asked for.</p> <p>All of the foregoing estimates are for the least amounts which in my judgment could be consistently made for: 1st. A proper and economical prosecution of the work in hand; 2d. For meeting the immediate wants of the Government at this place; and 3d. For the proper preservation of the extensive interests and improvements of the United States at this place.</p>

<i>Benicia Arsenal, Benicia, Cal.—Continued.</i>							
Erection of a fire-proof boiler-house, 40 by 20 feet inside...	Submitted.....				(5) \$6,800 00		
NOTE.—To be erected 70 feet from shops and on a lower level, (20 feet below.) Shops will be protected from any accident in it by an earthen traverse.							
One iron gateway, with stone pillars, for main gate at arsenal.....do.....				(6) 2,890 00		
NOTE.—It is time to commence the erection of a permanent fence between the town of Benicia and the arsenal grounds, and this will be the initial point from which to commence its erection, both north and south.							
Erection of a paint-shop, 50 by 30 feet.....do.....				(7) 9,574 00		
NOTE.—At present an old frame building is used, which was built by the Quartermaster's Department before the Ordnance Department had possession of the site on which it stands.							
Grading grounds.....do.....				(8) 9,365 00		
NOTE.—The difference of level in some places between different parts of the surface of the ground is two hundred and three feet. The different benches or slopes should be shaped so as to present some uniformity without entirely destroying nature's work.							
Building a brick cistern at magazine No. 1.....do.....				3,300 00		
Building a brick cistern at magazine No. 3.....do.....				(10) 2,800 00		
NOTE.—A considerable quantity of water could be obtained from the roofs of these buildings, but it is all lost for want of cisterns, and in case of fire near either of them there is no water supply near enough to be of any service in extinguishing it.							
Erection of two new laboratory buildings.....do.....				(11) 4,500 00		
Building a wall 2,400 feet long, 1½ feet thick, and 8 feet high above ground.....do.....				(12) 18,000 00		
NOTE.—To separate arsenal reserve from property of private parties on north side of reserve.							
Building a fire-proof stable.....do.....				(13) 14,285 00		
Building a pavement 1,453 feet long, 6 feet wide, on upper road.....do.....				(14) 2,507 00		
Painting public buildings.....do.....				1,350 00		
Permanent repairs of post, fences, &c.....	Appropriated..	23	502	1	8,350 00		
Repair and preservation of grounds, buildings, and machines not used for manufacturing purposes.....	Submitted.....				(17) 10,000 00		
Reclaiming 18½ acres of marsh-land for occupancy, and for healthful considerations.....do.....				(18) 42,850 00		
NOTE.—This marsh is in front of the enlisted men's quarters, shops, and office. The trade-winds, which prevail in summer, pass over it before reaching all of the above buildings and the officers' quarters. The tide used to flow and ebb without any interruption over this marsh, but since the railroad embankment has been built it only oozes through and partially wets the marsh, sufficiently to allow the sun's rays, when the water recedes, to evaporate deleterious and malarious gases, which will affect the health of the post; and as the water on the north side of the straits is continually shallowing, the marsh becomes yearly more stagnant, and consequently more offensive and dangerous. A communication from the Chief of Ordnance, in further explanation of the estimates for Benicia arsenal, will be found in the Appendix "Bb" of Book of Estimates for 1885-'86, page 263.							
The Secretary of War, upon consideration of the estimate for Benicia arsenal, omits therefrom items marked 1, 3, 4, 5, 6, 7, 8, 10, 11, 12, 13, 14, 17, and 18, which reduces the amount asked for.....					146,434 00

Two new 70-horse-power double-deck steam-boilers, complete, with all equipments, including one steam donkey-pump, gauges, injectors, and patent grates.....	Submitted.....				6,000 00		
One hydraulic fire-pump.....do.....				600 00		
Building a boiler-house, dry-house, and coal-shed.....do.....				5,000 00		
One new condensed-steam distributor.....do.....				2,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.[illegible]

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Frankford Arsenal, Philadelphia, Pa.—Continued.</i>							
Renewing wharf-timber.....	Submitted.....				\$1, 300 00		
NOTE.—The timbers are entirely rotted, leaving the wharf in a dangerous condition. It is hardly safe to use it in its present state.							
Steam-heating apparatus for office.....	do.....				1, 000 00		
NOTE.—The office is now heated by a hot-air furnace, which is worn-out and must be renewed or replaced; and the experience here with this mode of heating is that in very cold weather, when heat is most required in all parts of the building, only the lee side of the building can be comfortably heated. The steam-heating apparatus introduced into the public quarters have proven a success under all emergencies, and I recommend a similar apparatus for the office.							
One large water-filtering apparatus.....	do.....				1, 300 00		
NOTE.—The success of the present filter in purifying the water supply for the officers' quarters warrants the proposed extension of the benefits of this system to the entire post, owing to the well-known impurity of the city water-supply, which is drawn from two rivers, receiving the entire drainage of the city.							
Second story to brick carpenter-shop.....	do.....				1, 800 00		
NOTE.—With the placing of the new machinery, authorized for the carpenter-shop this year, the bench-space will be too crowded. The fabrication of boxes for cartridges and bullets takes up now the entire floor. Our pattern-makers, whose services become more constant day by day, should be located out of the dust and turmoil of the general work, and I strongly urge this improvement as early as practicable, as the slate roof is in a very bad condition now and will soon have to be renewed.							
Reduction by Secretary of War.....					27, 000 00		
						\$40, 381 02	
<i>Indianapolis Arsenal, Indianapolis, Ind.—</i>							
Repairs to buildings, sewers, roads, fences, grounds, &c...	Submitted.....					3, 500 00	
<i>Kennebec Arsenal, Augusta, Me.—</i>							
Repairs to drains, sewers, and walls.....	Submitted.....				1, 400 00		
Painting and general repairing of public buildings.....	do.....				1, 000 00		
Gravelling and grading roads.....	do.....				100 00		
						2, 500 00	
<i>New York Arsenal, New York City—</i>							
Extension of office.....	Submitted.....				3, 000 00		
NOTE.—An extension of the present office facilities is absolutely necessary.							
Repairs of permanent dock; sea-wall, underground and surface drains and sewers, repairs of roads, repairs of permanent enclosures, fire apparatus, tanks and hose....	do.....				5, 000 00		
Grading and improving arsenal grounds.....	do.....				2, 000 00		
Repairs of storehouses and other permanent buildings.....	do.....				1, 500 00		
Extending and repairing fences.....	do.....				1, 500 00		
NOTE.—Repairing wharf, drains, and sewers; keeping in repair water-tanks, fire apparatus and hose; extending fences, and repairs of same and enclosures; grading and improving grounds; repairs and proper preservation of public buildings.							
Dredging in front of stone wharf.....	do.....				500 00		
NOTE.—Dredging in front of stone wharf to admit vessels of proper draught receiving and discharging ordnance stores, to save expense of lighterage, demurrage, &c.							
Painting buildings and fences.....	do.....				3, 000 00		
One set of officers' quarters.....	do.....				5, 000 00		
						21, 500 00	
NOTE.—This is very necessary. At present the officer who is to occupy these quarters is obliged to live in New York city, at great expense and at great inconvenience to his work on the island at the arsenal. The interest on the \$5,000 asked for is much less than is now paid the officer for commutation of quarters, and the appropriation asked for is in the interest of economy.							
<i>St. Louis Powder-Depot, Jefferson Barracks, Mo.—</i>							
Repairing barracks and quarters, magazine, roofs, gutters, slopes, drains, retaining-walls, coping, lighting grounds, &c.....	Submitted.....					2, 500 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>San Antonio Arsenal, San Antonio, Tex.—</i>							
Construction of a new fence, 600 feet long, in front of the arsenal grounds, to consist of an 18-inch stone-wall 2 feet 8 inches high, work above ground hammered-dressed, (dimension,) with 4-inch dressed-coping, surmounted by an iron fence, with three wagon-roadway gates, 14 feet wide, and one small gate, 4 feet wide.....	Submitted.....				\$7, 500 00		
NOTE.—The present fence is of wood, and requires constant repairs. It is mostly rotten and worm-eaten. The erection of the fence proposed would, however, greatly improve the appearance of the grounds.							
Construction of a stone wall, 8 feet high, 18 inches thick, 1,480 feet long, on Arsenal street, including 3,700 cubic feet of stone for irregularities of foundation—858½ perches of stone, at \$6 per perch, for labor and material.....	do.....				5, 151 00		
For 2,960 square feet coping-stones, at 50 cents per square foot.....	do.....				1, 480 00		
NOTE.—This estimate has been repeated nearly every year since 1875 by ordnance officers stationed here, and is again included. An unplanned board fence, 8 feet high, is now the only protection on Arsenal street.							
Repairs of buildings, roads, drains, &c	Appropriated..	23	502	1	6, 000 00		
					20, 131 00		
Reduction by Secretary of War.....					10, 000 00	\$10, 131 00	\$8, 075 20
<i>Powder-Depot, Dover, N. J.—</i>							
Grading grounds, erecting magazines, and other necessary buildings, and all expenses incident thereto.....	Appropriated..	23	502	1	150, 000 00		
Reduction by Secretary of War.....					50, 000 00		
NOTE.—This estimate is to enable this Department to continue the erection of the necessary magazines for the storage of powder.							
						100, 000 00	40, 000 00
<i>Proving-Ground, Sandy Hook, N. J.—</i>							
Clearing, levelling, grading, and building roads, and general repairs at the proving-ground.....	Appropriated..	23	502	1		5, 000 00	3, 000 00
NOTE.—For target-ranges at the proving-ground. These will extend nearly four miles down the beach, and will require considerable work. Plank roads, with railroads, should be built to save expense and time in communicating from place to place on the grounds.							
<i>Watertown Arsenal, Watertown, Mass.—</i>							
Repair of gas-holder, retorts, and furnaces at gas-works...	Submitted.....				950 00		
Alteration and repair of enlisted men's quarters, mess-room, and bath-room, and heating apparatus for same...	do.....				2, 000 00		
Repair of water-leaders from roofs of buildings to cisterns..	do.....				200 00		
Repairs and alteration of blacksmith-shop and engine to carry off the gas; setting boilers on furnaces to utilize the heat, and rearranging the furnaces and hammers....	do.....				5, 500 00		
Repairing lightning-rods on public buildings.....	do.....				400 00		
Repainting public buildings.....	do.....				600 00		
Repairs to slate roofs of public buildings.....	do.....				600 00		
NOTE.—There is hardly a building that does not leak.							
For providing a system of sewerage, sinks, &c., in accordance with plans and estimate forwarded to Ordnance Office February 10, 1885.....	do.....				11, 908 96		
NOTE.—Necessary to put the arsenal in proper sanitary condition.							
Care and preservation of grounds.....	do.....				750 00		
						22, 908 96	
<i>Testing-Machine, Watertown Arsenal—</i>							
Caring for, preserving, using, and operating the United States testing-machine at Watertown arsenal.....	Appropriated..	23	502	1	10, 000 00		
Machine to test small specimens.....	Submitted.....				15, 000 00		
NOTE.—The present testing-machine is limited in its operation to tests of tension and compression. It is not adapted to making tests of torsional and transverse resistance, which tests are deemed to be of the greatest value and importance by distinguished civil engineers, as well as by this Department. Past experience clearly shows that the machine as it is fully occupied, and that, to meet the requirements of the present and future, new machines for this work ought to be at once provided. The results obtained are for the benefit of the whole country. Such machines are too costly for individual enterprise to provide, and governmental ownership and supervision stamp the published results as so correct and reliable as to make them acceptable to engineers and manufacturers the world over.

Armament of Fortifications—							
Armament of sea-coast fortifications, including the manufacture of heavy guns and carriages, projectiles, fuses, powder, and implements, their trial and proof, and all necessary expenses incident thereto, including compensation of draughtsmen on gun-construction, while employed in Ordnance Bureau, and for machine-guns and experiments in the use of dynamite and other high explosives for projectiles.....	Appropriated..	23	361	1	} \$600,000 00		
.....do.....do.....	23	434	1			
For providing heavy canon for the armament of fortifications, an annual permanent appropriation.....	Submitted.....				1,500,000 00	\$2,100,000 00	*\$500,000 00
<p>NOTE.—The second item is based on recommendations made by the foundry board, after most careful and thorough consideration of the whole subject. The board, in its report, says: "There will still be needed the hearty co-operation of the private industries of the country. This cannot be aroused unless there is held out to them a fair prospect of remuneration. * * * This can only be done by a permanent and liberal appropriation by Congress for the specific purpose of providing the country modern artillery, which appropriation shall be a guaranty against loss to the companies who elect to undertake the work. This is entirely consistent with the action of Congress in providing for the supply of arms for the militia. The act authorizing this practice was passed in 1808, and since that time the yearly disbursement has been made from the Treasury without interruption. A similar act, providing for the supply of heavy ordnance for the regular service, will be but a further development of the same idea."</p>

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Repairs to Water-Pipes and Fire-Plugs—</i> Repairing and extending water-pipes; purchase of apparatus to clean them, and for cleaning the springs and repairing and renewing pipes of the same that supply the Capitol, the Executive Mansion, and the building for the State, War, and Navy Departments.....	Appropriated..	23	503	1	\$2, 500 00	\$2, 500 00
<i>Telegraph to connect the Capitol with the Departments and Government Printing Office—</i> For replacing the entire overhead system of wires with duplicate six-conductor underground cable, being a total distance of about 11,000 lineal feet..... Care and repair of existing lines.....	Submitted..... Appropriated.. 23 503 1 \$10, 500 00 1, 500 00 12, 000 00 1, 250 00
<i>Map of Washington City—</i> Copying the original map of Washington City, District of Columbia.....	Submitted.....	500 00
NOTE.—For explanation of details and increase of above estimates over appropriations for 1886, see Appendix "M."							
<i>Washington Aqueduct, District of Columbia—</i> For maintenance and ordinary repairs..... Improvements at the receiving-reservoir to avoid danger of pollution of the water-supply..... Procuring title, by purchase or condemnation, to a small parcel of land near inlet to aqueduct at the Great Falls, and for fencing in same to prevent its use, as heretofore, in such manner as to endanger the purity of the water at that point..... Total.....	Appropriated.. Submitted.....do.....	23	313	1	20, 000 00 130, 000 00 1, 000 00
NOTE.—The officer in charge of the aqueduct submits a project for the two objects for which estimates are above "submitted." The question of purity of water-supply is a vital one, and the means proposed to secure it are recommended to the earnest consideration of Congress. The act of June 11, 1878, providing a permanent form of government for the District of Columbia, (20 Stat., 104,) specifies that the estimates for the "Expenses of the Washington aqueduct and its appurtenances" shall be submitted by the Commissioners of the District of Columbia.							
<i>Care and Repair of Bridges—</i> Two draw-keepers at the navy-yard and upper bridges, (Anacostia and Benning's,) at \$720 each..... One bridge-keeper at Chain bridge..... Ordinary care of Anacostia, Benning's, and Chain bridges, including fuel, oil, lamps, matches, &c..... Replanking and painting Anacostia bridge..... Raising causeway and approaches to Benning's bridge, construction of retaining-walls and guard-railing where road crosses marsh..... Total.....	Appropriated..do.....do..... Submitted.....do.....	23	313	1	1, 440 00 660. 00 2, 000 00 5, 500 00 10, 000 00
NOTE.—The act of June 11, 1878, providing a permanent form of government for the District of Columbia, (20 Stat., 104,) specifies that the estimates for "cost of constructing, repairing, and maintaining all bridges authorized by law across the Potomac river, within the District of Columbia, and all other streams in said District," shall be submitted by the Commissioners of the District of Columbia.							
<i>Building for State, War, and Navy Departments—</i> Continuing the construction of the building: Roofs, heating apparatus, elevators, partitions, iron-work, doors, plastering, and stucco-work; plumbing and gas-fitting, approaches, and for each and every purpose connected with the construction of the building, including the rent of necessary office-room.....	Appropriated..	23	504	1	500, 000 00	400, 000 00
<i>Completion of the Washington Monument—</i> For earth filling and grading around the monument; filling pond just north of monument; office expenses, including rent of necessary office-rooms, and for each and every purpose connected with the completion of the monument, one hundred and seven thousand dollars, to be expended under the direction of the joint commission created by the act of August 2, 1876.....	Appropriated..	23	504	1	107, 000 00	75, 000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
Building for Army Medical Museum and Library—							
For stacks of book-cases in library hall, including iron supports, stairs, and perforated gallery-floors.....	Appropriated..	23	339	1, 2	\$27, 600 00		
Shelving and cases for record and pension division.....	do.....				2, 500 00		
Cases for museum.....	do.....				14, 500 00		
Shelving and cases for centre building.....	do.....				2, 500 00		
Tile floor for museum and library halls.....	do.....				4, 000 00		
Carpets and furniture.....	do.....				3, 000 00		
Construction of boiler-house, including latrines, alcohol-still room, and coal-vaults.....	do.....				6, 500 00		
Gas-fixtures for entire building.....	do.....				1, 050 00		
					61, 650 00		
Reduction by Secretary of War.....					10, 500 00		
						\$51, 150 00	\$200, 000 00
NOTE.—The appropriation of \$200,000 made by act of March 2, 1885, (23 Stat., 339,) will be entirely expended in the construction of the building, and none of it will be available for any of the items above mentioned.—(J. H. Baxter, Acting Surgeon-General, September 10, 1885.)							
The items for tile floor and construction of boiler-house are considered unnecessary, for reasons stated in letter of Colonel Casey, printed in Appendix "Y."							
Increasing the Water-Supply of Washington, D. C.—							
For completing the tunnel.....	July 15, 1882	22	168	1, 2	} 395, 000 00		
	July 7, 1884	23	253	1			
	Mar. 3, 1885	23	457	1			
Completing the reservoirs, including the erection of keeper's dwelling and fencing in reservoir grounds.....	Same acts.....				195, 000 00	590, 000 00	87, 500 00
NOTE.—It is represented by the officer in charge that the amount estimated for (\$590,000) is necessary for completion of the work for increasing the water-supply, and it is recommended by him that it be appropriated to be available on or before the first of February, 1886, at which time operations will necessarily be suspended unless additional means, to be available at that time, are provided. The original estimate for this work was not prepared in this office or under its direction.—(John Newton, Chief of Engineers, September, 1885.)							
Meteorological Observatory—							
For the erection at Fort Myer, Va., of a meteorological observatory of the highest order, at which all researches and investigations of an experimental character may be carried out, and where continuous records can be maintained, including records of atmospheric electricity, &c., and in which suitable arrangements can be made for more thorough instruction of officers and men in the use of instruments, as per plan and specifications herewith.—(W. B. Hazen, Chief Signal Officer, August 1, 1885).....	Submitted.....				75, 000 00		
Reduction by Secretary of War.....					71, 000 00	4, 000 00	
NOTE.—An estimate and plans for construction of an observatory for the Signal Service at Fort Myer, Va., to cost \$4,000, was transmitted to Congress by the President, February 21, 1884, (see Senate Ex. Doc., No. 113, 48th Cong., 1st sess.) and no sufficient reasons have been given to the Secretary of War why said estimate should be increased.							
Total Public Buildings and Grounds in and around Washington.....						1, 428, 850 00	863, 250 00
MILITARY ACADEMY.							
Buildings and Grounds, Military Academy—							
For repairing roads and paths, including roads and bridges, on reservation.....	Feb. 12, 1885	23	302	1	1, 000 00		
Continuing the construction of breast-high wall in dangerous places.....	do.....				1, 000 00		
Cadet barracks: To complete the reflooring of fifty-one rooms and eight halls.....	do.....				2, 400 00		
Scraping and painting the ceilings and halls, the wood-work inside and out, and completing the repairs to same, and to the piazza.....	do.....				3, 710 00		
NOTE.—In making the repairs to cadet-barracks during the current year, much of the wood-work was found to be badly damaged by dry-rot. The ceilings of the rooms and halls, and walls of the latter, have been whitewashed for so many years that they should be either replastered or scraped and painted. The walls of all the rooms have been painted this year, but they were in such bad condition that another coat is absolutely necessary to put them in proper form.							
One hundred and sixty clothes-presses and lockers for the use of cadets, to replace the defaced and worn-out old ones.....	Submitted.....				4, 800 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
Riding-hall: Renewing knee-guard	Submitted.....				\$450 20		
Painting academic building, scraping and repairing walls and ceilings.....do.....				850 00		
NOTE.—This building has not been thoroughly painted for about twenty years.							
Alteration of library building for accommodation of increased number of books now on hand.....do.....				5,000 00		
Altering, repairing, and converting into suitable quarters for officers the old cadet hospital.....do.....				3,500 00		
NOTE.—This building, having been used for many years as a hospital, requires a general overhauling and repair. In its present condition and arrangement it is entirely unfit for occupancy. With the amount asked for, it is believed it can be made habitable quarters for officers.							
One set of quarters for married officers.....do.....				7,000 00		
NOTE.—The law prohibiting the detail of officers from their regiments or corps, who have served less than four years, has greatly increased the number of married officers on duty here, rendering the amount of quarters suitable for such officers entirely inadequate.							
Erection of gymnasium for cadets, and for repairing and converting the present gymnasium into bowling-alleys for the use of cadets.....do.....				35,000 00		
Erection of barracks for the detachment of cavalry.....do.....				15,000 00		
Erection of coal-shed for storage of quartermaster's coaldo.....				6,150 00		
NOTE.—There is no store-house here for quartermaster's coal; it is stored on the ground out of doors, exposed to snow and rain during a great part of the year, which causes considerable loss.							
Erection of engine-house and drying-tower for safe-keeping of steam fire-engine.....do.....				3,500 00		
Renewing hose for two steam fire-engines, (1,400 feet)do.....				1,918 00		
NOTE.—The steam fire-engine is now housed in a small building, entirely unsuitable, and so far removed from all the prominent and valuable buildings that in the event of fire it might prove of little or no use, as it has to be hauled a long distance and up a steep hill.							
Erection of sixteen sets of quarters for enlisted men and their families, to be built of brick, and in groups of four each, each set to contain four rooms, and to be immediately availabledo.....				14,000 00		
NOTE.—The estimate for quarters for the enlisted men at West Point was submitted to Congress January 20, 1885, and printed in House Ex. Doc. No. 109, 48th Cong., 2d sess. The married enlisted men now quartered at this post have for many years occupied, in most instances, old and dilapidated buildings now in the last stage of decay; they are entirely unfit to live in. Attention is respectfully invited to the extract from recent report of the Board of Visitors on this subject, marked "A," and to sanitary report of Dr. H. S. Kimball, herewith, marked "B."							
Rebuilding the upper part of the academic building, adding to it, and rendering it fire-proof, and suitable for section-rooms for instruction of cadets.....do.....				70,000 00		
Erection of new shops for mechanics employed in the quartermaster's department, to be immediately availabledo.....				11,500 00		
NOTE.—This building is absolutely necessary. The present shops are old and dilapidated, in the last stages of decay, and are untenable; they are entirely beyond repair, and should be rebuilt at once.							
Repairs to north wharf.....do.....				1,150 00		
NOTE.—This wharf is used for the unloading of coal, wood, lumber, hay, and all heavy ordnance. The timbers and planking are in a bad state of decay, and the wharf is unsafe. The estimate is based upon the judgment of an expert, and is the lowest amount for which it can be put in proper repair.							
Erection of academy for the departments of chemistry and philosophydo.....				175,000 00		
Additions to the cadet laundry.....do.....				5,000 00		
NOTE.—The present capacity of the cadet laundry is entirely insufficient for the increased number of cadets.							
Erection of one floating-bath for the instruction and use of cadets in swimmingdo.....				5,875 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.

<i>Buildings and Grounds, Military Academy—Continued.</i>							
Construction of one crib bulkhead, filled with stone, to secure the swimming-bath against floating ice	Submitted.....				\$4,000 00		
Water-works: Renewing of material in filter-beds, improving ventilation of filter-house and water-house, hose for use in cleaning filter-beds and water-house, and for use in fire-service at same; tools, implements, and materials for use of the two keepers, and for repairs of siphon-house, filter-house, and of four and one-half miles of supply-pipes; for shed for tools, and storage of fuel for keeper at Round Pond, and for tool-house at filter; for gauges at Round Pond and Delafield Pond, and stairs for access to same.....	Feb. 12, 1885	23	302	1	1,000 00		
Erection of cottage and committee-room for Board of Visitors	Submitted.....				15,000 00		
Repainting cadet mess-building, including area-walls, repairing and strengthening stone steps, and pointing water-closet building.....do.....				650 00		
The Secretary of War is of opinion that items may be omitted from the foregoing estimate as follows:					394,453 20		
One set of quarters for married officers.. \$7,000 00							
Barracks for cavalry detachment..... 15,000 00							
Sixteen sets of quarters for enlisted men and their families..... 14,000 00							
Rebuilding academic building..... 70,000 00							
Academy for departments of chemistry and philosophy 175,000 00							
Erection of floating-bath..... 5,875 00							
Construction of crib bulkhead..... 4,000 00							
Cottage for Board of Visitors..... 15,000 00							
Which reduces the estimate.....					305,875 00		
Total Buildings and Grounds, Military Academy.....						\$88,578 20	\$15,617 14
MISCELLANEOUS.							
<i>Military Posts—</i>							
For construction and enlargement of buildings at the following-named military posts:							
Fort Adams, R. I.: Construction of additional barracks.. {	Appropriated..	23	504	1	20,000 00		
David's Island, New York harbor: Construction and enlargement of buildings, (for plans and detailed estimates, see Senate Ex. Doc. 49, 46th Cong., 2d sess.).....	Submitted.....						
Fort Hamilton, New York harbor: Construction of additional barracks.....do.....				20,000 00		
Madison barracks, N. Y.: Construction and enlargement of buildings, (for plans and detailed estimates, see House Ex. Doc. 61, 47th Cong., 2d sess.).....do.....				20,000 00		
Fort Leavenworth, Kans.: Additional barracks and school-building.....do.....				47,000 00		
NOTE.—Plans and estimates will be submitted to Congress in December next.							
Fort Monroe, Va.: For construction of a fire-proof building to accommodate the artillery-school library, and the offices of the commanding officer, adjutant, quartermaster, commissary of subsistence, and post-ordnance officer.....do.....				20,000 00		
NOTE.—The necessity for this building is fully set forth in plans submitted to Congress December 6, 1880, (see Senate Ex. Doc. No. 2, 46th Cong., 3d sess.,) for the special authority required by section 1136, Revised Statutes, accompanied by detailed estimates amounting to \$30,000. Under the favorable conditions temporarily existing, due to the low prices of all kinds of building materials and low rates of wages for labor, the estimates are reduced by \$10,000. A suitable building cannot be erected for less than \$20,000.—(Jno. C. Tidball, Colonel 1st Artillery, Commanding Artillery-School.)							
Columbus barracks, Ohio: Construction and repair of buildings, (for plans and detailed estimates, see House Ex. Doc. 55, 47th Cong., 1st sess.).....do.....				25,000 00		
San Antonio, Tex.: To continue the construction and enlargement of barracks and quarters.....do.....				75,000 00		
Willet's Point, New York harbor: To continue the construction and enlargement of buildings.....do.....				20,000 00		
Jefferson barracks, Mo.: Construction and enlargement of buildings.....do.....				20,000 00		
						\$287,000 00	\$165,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Site for Military Post near Atlanta, Ga.—</i> For the purchase of ninety-six and one one-hundredths (96.01) acres of land near Atlanta, Ga., for military purposes in construction of a ten-company post.....	Submitted.....					\$15,000 00	
NOTE.—By the act of March 3, 1885, (23 Stat., 504,) the sum of \$15,000 was authorized to be expended for a site near Atlanta, Ga., and said sum will be applied to the purchase of the Silvey and Boman tract. The sum now asked, or so much thereof as may be necessary, is for the purchase of an adjoining tract, and for other incidental expenses in securing the property of C. A. Niles, which is necessary to make the site sufficiently large for military exercises and drill.							
<i>Wharf at Fort Monroe, Va.—</i> For the construction of a permanent wharf at Fort Monroe, Va.....	Submitted.....					80,000 00	
NOTE.—It appears from soundings made by the commandant of the post that, owing to recent shoaling of the water, a new wharf will have to be built out to a point where a depth of 18 feet of water is obtained. The present wharf is reported as not capable of more than a year's life, even with the expenditure of a large amount of money upon it for repairs. The report of the Quartermaster-General forwarding this estimate will be submitted to Congress December next.							
<i>Quartermaster's Building, New York City—</i> For purchase of the "Old Produce Exchange" building and site, bounded by Whitehall, Pearl, Moore, and Water streets, New York City, for Army purposes.....	Submitted.....				\$250,000 00		
Construction of a properly-planned fire-proof building, suitable in all respects for Government Army use.....	do.....				200,000 00		
NOTE.—A copy of the correspondence upon this subject, accompanied by plans for construction of the building, will be submitted to Congress in December next.						450,000 00	
<i>Fort Canby, Washington Territory—</i> For protection of the roads and public buildings at Fort Canby, from encroachments of the waters of Baker bay, by a revetment of piles and rip-rap.....	Submitted.....					18,546 00	
NOTE.—Reports received in the Quartermaster-General's office show that the roads and buildings at Fort Canby are in great danger of being damaged by the waters of Baker Bay, and this amount is shown by careful estimate to be required for construction of revetment for protection of same. Estimate and plan will be submitted to Congress in December next.							
<i>Army and Navy Hospital, Hot Springs, Ark.—</i> For labor and material for grading, constructing retaining-wall, enclosing with iron fence, and improving grounds of hospital.....	Appropriated..	23	504	1	27,000 00		
For erection of one set of quarters for resident medical officer.....	Submitted.....				9,000 00		
NOTE.—These items were included in the estimates submitted at the last session of Congress, but failed to be acted upon. The hospital being built upon a hillside, and the surface of the ground being much broken and uneven, considerable grading and improving the grounds is necessary, and a retaining-wall must be built to prevent the earth washing away. It is also necessary to enclose the grounds, and an iron fence is more durable than any other, and most desirable in every respect. The quarters for medical officer are necessary from the fact that no adequate provision is made within the hospital for the purpose named, and for the reason that all space therein should be appropriated for the sick. The residence of a family in a hospital is always to be avoided if possible.							
For elevator.....	do.....				2,575 00		
NOTE.—An elevator in the hospital is indispensable, and it is not possible to supply it from appropriation already made.							
For painting.....	do.....				7,540 00		
NOTE.—It has been found by experience that the exposed surfaces of the building must be painted to prevent injury to inside plastering from driving rains, no provision having been made for furring and lathing.						46,115 00	\$32,500 00
Total Miscellaneous.....						896,661 00	197,500 00
HARBORS AND RIVERS.							
<i>Examinations and Surveys at South Pass, Mississippi River—</i> Annual expense of ascertaining the depth of water and width of channel secured and maintained from time to time by James B. Eads at South Pass of the Mississippi river, to enable the Secretary of War to report to Congress during the maintenance of the work, as required by act of March 3, 1875, (18 Stat., 366).....	July 5, 1884 Submitted.....	23	146	1	}	\$16,920 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Gauging Waters of Lower Mississippi and its Tributaries—</i> Annual expense of gauging the waters of the Mississippi and its tributaries; continuing observations of the rise and fall of the river and its chief tributaries, as required by joint resolution of February 21, 1871, (16 Stat., 508).....	July 5, 1884 Submitted.....	23	146	1	}	\$5,000 00	
<i>Gauging Waters of Columbia River, Oregon—</i> Establishing water-gauges.....	July 5, 1884 Submitted.....	23	147	1	}	5,000 00	
<i>Examinations, Surveys, and Contingencies of Rivers and Harbors—</i> Examinations and surveys, \$50,000; and for contingencies and incidental expenses of harbors for which there is no special appropriation, \$100,000.....	July 5, 1884 Submitted.....	23	153	1	}	150,000 00	
<i>Improving Harbors and Rivers—</i> Construction, completion, repair, preservation, and survey of harbors and rivers, to be expended upon such works as may be directed by Congress.....	Submitted.....					10,000,000 00	
Total Harbors and Rivers.....						10,176,920 00	
Total Public Works under War Department.....						16,572,630 18	\$2,032,892 34
Total Public Works.....						26,860,016 76	5,419,839 76

NOTE.—The following statement is not furnished as a part of the "annual estimates for the public service" required by the act of March 3, 1875 (18 Stat., p. 370,) to be furnished by the Secretary of War to the Secretary of the Treasury, but is inserted as a convenient and customary summary of items taken from the annual report of the Chief of Engineers for the fiscal year 1885, showing, under the provisions of the act of Congress approved March 2, 1867, (14 Stat., p. 421,) "the amount that can be profitably expended in the next fiscal year" on each of the uncompleted works mentioned.

For what object.	Date of last appropriation.	Reference to statutes.			Amount that can be profitably expended in the next fiscal year, as reported by the Chief of Engineers.

PUBLIC PRINTING AND BINDING.							
The following are the estimates for public printing, binding, and paper for the same, as furnished by the Library of Congress and the several Executive Departments, under the provisions of section 2, act of May 8, 1872, (R. S., page 720, section 3661 :)							
LIBRARY OF CONGRESS.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer, as follows:							
Printing and binding copyright records and blanks, binding of books and periodicals for the Library of Congress, and printing and binding catalogue.....	\$12, 000						
STATE DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer	15, 000						
TREASURY DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing, and paper for the same; blank books, binding, ruling, and all other work for the Treasury Department, heretofore estimated for by the Public Printer	250, 000						
WAR DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding for the War Department and its bureaus, to be executed under the direction of the Public Printer, as follows:							
Office of Secretary of War.....	\$9, 000						
Office of Adjutant-General.....	25, 000						
Office of Inspector-General.....	500						
Office of Judge-Advocate General.....	500						
Office of Quartermaster-General.....	18, 000						
Office of Commissary-General.....	4, 500						
Office of Paymaster-General.....	2, 000						
Office of Surgeon-General, (including \$12,000 for the index catalogue of this office).....	32, 000						
Office of Chief of Engineers, (including not exceeding \$5,000 for the publication of professional papers when approved by the Secretary of War)..	25, 000						
Office of Chief of Ordnance.....	25, 000						
Office of Chief Signal Officer.....	17, 000						
Office of Rebellion Records.....	400						
	\$158, 900						
NOTE.—The allotment for War Department printing and binding for the fiscal year 1886 is \$138,600, which will not be sufficient to execute the work required for the service. The allotment for 1885 (see 23 Statutes 227 and 456) was \$187,500.							
\$17,000 of the \$75,000 asked for by the Chief Signal Officer has been included in the amount (\$158,900) above requested for the War Department, which leaves an estimate of \$58,000 of said officer for such action as Congress may deem proper. The estimate of the Chief Signal Officer will be found in Appendix "Z."							
Attention is invited to the letter of the Chief of Engineers, (in Appendix "Aa,") stating the reasons why authority should be granted for printing the professional papers requested for this bureau, and it is recommended that such provision be made.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Constructing a Revenue-Steamer for Southern Coast—</i>							
For the construction of one revenue-steamer, for duty on the southern coast of the United States.....	Submitted.....					\$85,000 00	
NOTE.—The revenue-marine steamer "McLane," which it is desired to replace, was of light build originally, and not designed for the service; is now worn-out, and deemed unworthy of repairs. The Department has no vessel with which to supply her place. The station cannot be left vacant without great public detriment. Due regard for the public interest and true economy require that the appropriation be made.							
Total Revenue-Cutter Service						\$1,035,000 00	\$875,000 00

Refund of Duty to Semon Bache & Co.— To refund the duty paid by Semon Bache & Co., of New York, upon glass from imported stock furnished to the National Museum, and the New Orleans, Louisville, and Cincinnati Expositions, for exhibition cases NOTE. —In explanation I would state that, from time to time, for several years past, the Treasury Department has, at the request of the Smithsonian Institution, granted free permits for importations of glass to offset the duty paid on that furnished from stock to the National Museum, and the New Orleans, Cincinnati, and Louisville Expositions, by the firm in question; but in the summer of 1884 an order was issued by the Treasury Department declining to grant further permits unless the glass came directly through the custom-house to this city, this order proving retroactive with regard to Messrs. Bache & Co. The amount of duties now asked to be refunded we have found to be correct, and covers the entire liability of the Government on this account to the firm mentioned, to the present date.—(<i>Spencer F. Baird.</i>)	Submitted.....					\$3,562 56	
Suppressing Counterfeiting and other Crimes— For the expenses of detecting and bringing to trial and punishment persons engaged in counterfeiting Treasury notes, bonds, national-bank notes, and other securities of the United States, as well as the coins of the United States, and other felonies committed against the laws of the United States, and for no other purpose whatever.....	June 11, 1862 Mar. 3, 1863 Appropriated..	12 12 23	533 713 495	5 8 1	}	75,000 00	\$60,000 00
Lands and other Property of the United States— Custody, care, and protection of lands and other property belonging to the United States.....	Appropriated..	23	495	1	1,000 00	1,000 00
Compensation in lieu of Moieties— Compensation in lieu of moieties in certain cases under the customs-revenue laws.....	June 22, 1874 Appropriated..	18 23	186 495	3 1	}	40,000 00	40,000 00
Expenses Incurred under Act relating to Chinese— To meet such expenses as may be necessary to be incurred in carrying out the provisions of the act to execute certain treaty stipulations relating to Chinese, approved May sixth, eighteen hundred and eighty-two, including the printing of certificates therein required	May 6, 1882 July 5, 1884 Appropriated.. Submitted.....	22 23 23	58 115 206	1-15 1-17 1	}	10,000 00	
Protection of Sea-Otter Hunting-Grounds and Seal-Fisheries in Alaska— To enable the Secretary of the Treasury to use revenue-steamers for the protection of the interests of the Government on the seal-islands and the sea-otter hunting-grounds, and the enforcement of the provisions of law in Alaska..... NOTE. —The amount appropriated last year is inadequate for meeting the expense of the Alaskan work. It is believed necessary to send two vessels into this region next season.	Appropriated..	23	495	1	30,000 00	17,500 00
Salaries and Travelling Expenses of Agents at Seal-Fisheries in Alaska— One agent..... One assistant agent..... Two assistant agents, at \$2,190 each..... Necessary travelling expenses of agents in going to and returning from Alaska, at \$600 each per annum	Mar. 3, 1875 Appropriated.. Same acts..... do..... do.....	18 23	375 495	1 1	} \$3,650 00 2,920 00 4,380 00 2,400 00	13,350 00	13,350 00
Store-House, Revenue-Marine Service, Wood's Holl, Mass.— For extension of wharf and erection of a building, to be used as a warehouse and coal store-house for Revenue-Marine Service, at Wood's Holl, Mass..... NOTE. —Should this appropriation be made, the Department can dispense with a store-house now rented at an adjacent port for like purposes, at a rental of \$500 annually, but affording facilities much inferior to those which will be secured at Wood's Holl. This harbor is centrally located, is always safe, and accessible to cruising-grounds of New England cruisers. It is absolutely necessary to have a harbor in the locality.	Submitted.....					12,000 00	
Quarantine Service— Maintenance and ordinary expenses, including pay of officers and employes of United States quarantines, viz: Gulf quarantine at Ship Island, South Atlantic quarantine at Sapelo Sound, Cape Charles quarantine, and Delaware Breakwater quarantine..... Three market-masters, at \$1,200 each.....	do.....				3,600 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries and Contingent Expenses—Continued.</i>							
One market-master.....	June 11, 1878	20	104	3	\$900 00		
	Feb. 25, 1885	23	311,'2	1			
One harbor-master	Same acts.....				1,200 00		
Four rodmen, at \$780 each, (one additional submitted).....	do.....				3,120 00		
Four axemen, at \$650 each, (one additional submitted).....	do.....				2,600 00		
One janitor, (increase of \$20 submitted).....	do.....				720 00		
Two messenger clerks, at \$600 each.....	do.....				1,200 00		
Three messengers, at \$480 each.....	do.....				1,440 00		
Three watchmen, at \$480 each.....	do.....				1,440 00		
Two laborers, at \$360 each.....	do.....				720 00		
Contingent expenses, including rent of property-yards, books, stationery, binding and preservation of records in the engineer's and surveyor's offices, printing, transportation, (vehicles, animals, saddlery, forage, and repairs,) and other necessary items, (increase of \$500 submitted).....	do.....				5,500 00		
For maintaining and keeping in good order and repair the laboratory and apparatus in the office of the inspector of gas and meters.....	do.....				800 00		
						\$68,740 00	\$65,690 00
Miscellaneous expenses, District offices and markets:							
Fuel, ice, gas, repairs, insurance, and general necessary expenses of District offices and markets.....	do.....					5,000 00	5,000 00
Total Salaries and Contingent Expenses.....						160,784 00	153,246 00
<p>NOTE.—The foregoing estimates omit the item of \$3,000 contained in the estimate of the Commissioners for salary of the surveyor of the District of Columbia. The law provides for the payment of the surveyor by fees, and the act of Congress, approved June 20, 1874, (18 Stat., 117, sec. 3,) prohibits the payment of any salary or compensation to him or his subordinates, except such fees for special services as are allowed by law. The fees are paid by the parties for whom the services are rendered. This is the third time an item for the surveyor's salary has been included in the Commissioner's estimates, and Congress has twice disapproved of the change by refusing to make the appropriation. In the absence of any explanation as to why the change is again proposed, and in view of the action of Congress, this Department cannot recommend the approval of this item.</p> <p>In some cases, the force and salaries and items for contingent expenses are increased by the Commissioners, but no explanation is furnished showing the necessity, if any, for the increase.</p> <p>In the absence of specific information as to why the increase is requested and the necessity for so large a force, this Department submits the estimates without change for such action as may be deemed proper by Congress.</p> <p>It is recommended that in making the appropriation Congress specify particularly what officers and employes shall be furnished with horses and vehicles at the public expense.</p>							
<i>Improvements and Repairs—</i>							
Repairs to concrete pavements.....	June 11, 1878	20	104	3	75,000 00		
	Feb. 25, 1885	23	313	1			
Materials for permit-work	Same acts.....				50,000 00		
And hereafter the Commissioners of the District of Columbia are authorized to apply such material to, and pay from this appropriation, the cost of labor for the improvement and repairs of alleys and sidewalks when, in their opinion, such course is necessary for the public health, safety, or comfort.							
Continuation of surveys of the District of Columbia with reference to the extension of various avenues to the District line.....	do.....				5,000 00		
New sewers	do.....				75,000 00		
Work on sundry avenues and streets, and replacement of pavements in localities named in Appendix "Ff".....	do.....				256,057 00		
						461,057 00	395,000 00
<p>NOTE.—This Department is not prepared with the means of information at its command to state what particular streets or avenues ought first to be improved. The estimated cost of work on the avenues and streets named in the schedule submitted by the Commissioners is in excess of the item contained herein for that purpose. It is recommended that Congress in making the appropriation shall state the order in which the work shall be done.</p>							
<i>Constructing, Repairing, and Maintaining Bridges—</i>							
Ordinary care of Anacostia, Benning's, and Chain bridges, including fuel, oil, lamps, and matches.....	June 11, 1878	20	104	3	2,000 00		
	Feb. 25, 1885	23	313	1			
Two draw-keepers at Anacostia and Benning's bridges, at \$720 each	Same acts.....				1,440 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Constructing, Repairing, and Maintaining Bridges—Continued.</i>							
One bridge-keeper at Chain bridge..... {	June 11, 1878	20	104	3	} \$660 00		
Repairing and maintaining bridges under the control of the Commissioners of the District of Columbia.....	Feb. 25, 1885	23	313	1			
	Same acts				5,000 00	\$9,100 00	\$9,380 00
<i>NOTE.—Items for draw-keepers and bridge-keeper are added to the estimates of the Commissioners. These items are based on the estimate of the engineer officer in charge of public buildings and grounds, who has control and supervision of said bridges. The pay of the necessary keepers at these bridges is a part of the cost of maintaining them which the law requires to be included in the Commissioners' estimates.</i>							
<i>Washington Aqueduct—</i>							
Engineering, maintenance, and general repairs..... {	June 11, 1878	20	104	3	}	20,000 00	20,000 00
	Feb. 25, 1885	23	313	1			
<i>Maintaining Institutions of Charity, Reformatories, and Prisons—</i>							
Washington Asylum:							
One intendant..... {	June 11, 1878	20	104	3	} 1,200 00		
One matron	Feb. 25, 1885	23	313, '14	1			
One visiting physician.....	Same acts				600 00		
One resident physician	do.....				1,080 00		
One clerk	do.....				480 00		
One baker, (increase of \$60 submitted).....	do.....				600 00		
One overseer.....	do.....				480 00		
Five overseers, at \$600 each.....	do.....				800 00		
One engineer	do.....				3,000 00		
One assistant engineer.....	do.....				600 00		
Six watchmen, at \$365 each, (two additional submitted)...	do.....				300 00		
One blacksmith.....	do.....				2,190 00		
One hostler.....	do.....				240 00		
One ambulance-driver	do.....				120 00		
One female keeper at workhouse, (additional, submitted)...	do.....				120 00		
Two female keepers at workhouse, at \$180 each, (additional submitted)	do.....				300 00		
One cook	do.....				360 00		
Three cooks, at \$60 each, (one additional submitted)	do.....				120 00		
One nurse.....	do.....				180 00		
Four nurses, at \$60 each.....	do.....				180 00		
One teacher, (additional submitted).....	do.....				240 00		
Contingent expenses, including improvements and repairs, provisions, fuel, forage, lumber, shoes, clothing, dry-goods, hardware, medicine, repairs to tools and machinery, and other necessary articles, (increase of \$1,760 submitted).....	do.....				240 00		
Erection and furnishing two hospital-wards for twenty-five patients, each.....	Submitted.....				39,760 00		
					3,500 00	56,690 00	69,680 00
<i>NOTE.—The Commissioners' estimates are changed by adding an item for one teacher, \$240, and reducing the item for contingent expenses that amount. This change is made because a teacher has heretofore been employed, and paid at the rate of \$20 per month out of the appropriation for contingent expenses, and it is deemed better to have a specific appropriation for such teacher. The amount of \$69,680, appropriated for the fiscal year 1886, includes \$20,000 for new work-house for females.</i>							
Reform School:							
One superintendent..... {	June 11, 1878	20	104	3	} 1,500 00		
One assistant superintendent.....	Feb. 25, 1885	23	314, '15	1

NOTE.—These stations are needed in the relaying of weather reports.							
Telephones, and maintenance of same in offices maintained for public use in cities and places receiving reports outside of Washington, D. C., including exchange service in the office of the Chief Signal Officer of the Army.....do.....	3, 000 00		
NOTE.—This expense has heretofore been borne by the regular appropriations, but it is desired to have a specific appropriation covering the outlay.							
Expenses of storm, cautionary, off-shore, cold-wave, railway-train, and other signals on the sea, lake, and Gulf coasts of the United States, and in the interior, announcing the probable approach and force of storms, including pay of observers, services of operators, lanterns, flags, &c.....	R. S.	36	221-3	25, 000 00		
Feb. 9, 1870	16	369	1			
Appropriated..	23	504,5	1			
NOTE.—The amount estimated for the fiscal year ending June 30, 1886, was \$13,000, the amount appropriated was \$11,000; a deficiency estimate has been submitted for \$2,000. The increase in the estimate for 1887 of \$14,000 is absolutely necessary, in order to provide a more efficient service, and to replace worn-out lanterns and flags, and to provide for the system of railway-train signals; the estimate in detail is as follows: Pay of displaymen, who receive 25 cents per diem..... \$5,000 Lanterns and flags 5,000 Incidentals, (such as repairs to flag-staffs, &c.)..... 5,000 Railway-train signals..... 10,000							

General object, (title of appropriations,) and details and explanations.

[illegible]

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Observation and Report of Storms—Continued.</i>							
Library and other books, periodicals, and newspapers.....	Submitted.....				\$8,000 00		
Manuscripts and card catalogues.....	do.....				2,000 00		
Lumber.....	do.....				1,500 00		
Advertising.....	do.....				1,500 00		
Erection of a new observatory on Mount Washington, N. H.....	do.....				10,000 00		
NOTE.—The reasons assigned for this item are that it is both for the sake of humanity to protect the observers in winter, and for the interests of the Signal Service, to obtain the best results for the Signal Bureau.						\$405,927 50	\$246,000 00
<i>Construction, Maintenance, and Repair of Military-Telegraph Lines—</i>							
Construction of military-telegraph lines for the connection of military posts as follows: Fort Gaston, Cal., to North Fork Mad River, Cal., 30 miles; Fort Halleck, Nev., to Halleck Station, Nev., 12 miles, including instruments, materials, and extra-duty pay to troops.....	Submitted.....				2,520 00		
NOTE.—This estimate is submitted upon the recommendations of the Commanding General Department of the Platte and the Commanding General Division of California.							
Maintenance and repair of military-telegraph lines, including rents of offices, salaries of civilian operators and repair-men, lights, supplies, and general repairs.....	Appropriated..	23	505	1	28,800 00	31,320 00	24,000 00
NOTE.—This estimate is made up as follows:							
Ordinary line repairs.....					\$4,000 00		
General repairs, (including 2,000 poles).....					3,000 00		
Rents of offices.....					4,500 00		
Salaries of civilian employes.....					12,500 00		
Regular supplies, instruments, battery, and line material, stationery, &c.....					3,000 00		
Miscellaneous purchases at stations.....					1,000 00		
Lights.....					800 00		
An increase of \$4,400 is submitted, which amount is found to be necessary to maintain the present lines under the control of this office in good condition.							
<i>Signal Service, Pay—</i>							
One Brigadier-General.....	Mar. 3, 1885	R. S. 23	220 505	1261 1	5,500 00		
Eighteen second lieutenants, mounted.....	Same acts.....				27,000 00		
NOTE.—An increase of two lieutenants is made, as allowed by the Sundry Civil Act, approved June 20, 1878, necessitating an increase of \$3,000 in the estimate.							
Longevity pay to the officers of the Signal Corps, to be paid with current monthly pay.....	June 18, 1878	R. S. 20	220 150	1262,3 7	4,680 00		
	Feb. 24, 1881	21	346	1			
	Mar. 3, 1885	23	505	1			
	June 20, 1878	20	219	1			
	June 23, 1879	21	30	1			
One hundred and fifty sergeants, Signal Corps.....	June 16, 1880	21	267	1	69,600 00		
	July 7, 1884	23	218	1			
	Mar. 3, 1885	23	505	1			
NOTE.—An increase of \$3,400 is submitted, and it is requested that a proviso be inserted in the appropriation act dividing the 150 sergeants of the Signal Corps into three classes, fixing their pay proper as follows: 25 sergeants, Signal Corps, (first class,) \$50 per month; 50 sergeants, Signal Corps, (second class,) \$40 per month; 75 sergeants, Signal Corps, (third class,) \$34 per month; to be in addition to their pay for re-enlistment and continuous service, provided first and second class sergeants shall not receive extra-duty pay.							
Thirty corporals, Signal Corps.....	Same acts.....				7,200 00		
Three hundred and five privates, (first class,) Signal Corps.....	do.....				62,220 00		
Fifteen privates, (second class,) Signal Corps.....	do.....				2,340 00		
Pay to enlisted men for length of service.....	Mar. 3, 1885	R. S. 23	222 505	1284 1	20,000 00		
Retained pay, payable on discharge.....	Mar. 3, 1885	R. S. 23	222 505	1282 1	9,000 00		
Pay for clothing not drawn, payable on discharge.....	Mar. 3, 1885	R. S. 23	224 505	1302 1	25,853 30		
Travel allowances, payable on discharge.....	Mar. 3, 1885	R. S. 23	223 505	1290 1	7,000 00		
Mileage to officers when travelling on duty under orders..	Mar. 3, 1885	23	505	1	6,000 00		
Pay of contract-surgeon.....	Same act.....				1,200 00		
Commutation of quarters to commissioned officers at places where there are no public quarters.....	June 18, 1878	20	151	9	7,488 00		
	June 23, 1879	21	31	1			
	June 30, 1882	22	118	1			
	July 7, 1884	23	218	1			
	Mar. 3, 1885	23	505	1			
NOTE.—This includes the four officers detailed for duty with the Signal Corps, also one of the officers lately serving in the Arctic seas.						255,081 30	247,301 51
For statement showing the authorized strength of the Signal Corps in commissioned officers and enlisted men, see Appendix "T."							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Signal Service, Regular Supplies—Continued.</i>							
Commutation of fuel for 460 men of the Signal Corps on duty at the office of the Chief Signal Officer and at signal-stations throughout the United States, at \$9 per man per month.....	Appropriated..	23	505	1	\$49,680 00		
NOTE.—An increase of \$2,592 is submitted in order to equalize this allowance to all men alike, for the same reasons as are given in the note under the estimates for commutation of rations. The rates have heretofore been \$8 at certain stations, and \$9 at others.							
Forage (regulation allowance, as per par. 1886, Army Regulations, 1881) for six horses, at \$105 each per annum.....	do.....				630 00		
NOTE.—This forage is calculated at contract prices, as follows: oats, .01 11-32 cents per pound, and hay, .00 9-10 cent per pound. The regulation allowance is 12 pounds of oats and 14 pounds of hay per day for each animal.							
Forage (regulation allowance, as per par. 1886, Army Regulations, 1881) for thirty mules, fifteen at \$90.13 each per annum, \$1,351.95, and fifteen at \$145 each per annum, \$2,175.....	do.....				3,526 95		
NOTE.—This forage is calculated at contract prices. Fifteen mules will be used at stations on the sea-coast, where it is impossible to get the benefit of the contract rates at which forage can be obtained in Washington, D. C., and the estimate is based upon the actual cost of the same in the past.							
Straw for thirty-six animals, as allowed by paragraph 1898, Army Regulations, 1881; twenty-one at \$9.60 each per annum, and fifteen at \$10.92 each per annum.....	do.....				365 40		
Forage for the forty-nine horses kept by officers in the public service, (as allowed by paragraphs 1890 and 2385, Army Regulations, 1881, and the act making appropriations for the support of the Army, approved February 24, 1881,) at \$105 each per annum.....	do.....				5,145 00		
Straw for the forty-nine horses kept by officers in the public service, (as allowed by paragraphs 1890 and 2385, Army Regulations, 1881, and the act making appropriations for the support of the Army, approved February 24, 1881,) at \$9.60 each per annum.....	do.....				470 40		
Straw for forty enlisted men at post of Fort Myer, Va., and for hospital at that post, (as allowed by paragraphs 1896 and 1897, Army Regulations, 1881).....	do.....				100 00		
Stationery for post at Fort Myer, Va.....	do.....				100 00		
Stoves, heating-apparatus, and repairs to same, at post of Fort Myer, Va.....	do.....				400 00		
Light, including lamps, wicks, oils, &c., and repairs at post of Fort Myer, Va.....	do.....				200 00		
						\$72,617 75	\$58,638 40
<i>Signal Service, Incidental Expenses—</i>							
Extra-duty pay for thirteen enlisted men of the Signal Corps, employed at the post of Fort Myer, Va., on constant labor, for periods of not less than ten days, being employed as at all other military posts, in general repairs and labor, as follows:							
One school-teacher, at 75 cents per diem.....	Submitted.....				1,971 00		
One painter, at 50 cents per diem.....							
One engineer, at 50 cents per diem.....							
One plumber, at 50 cents per diem.....							
Three teamsters, at 35 cents each per diem.....							
Six laborers, at 35 cents each per diem.....							
NOTE.—This compensation is allowed as per section 1287, Revised Statutes, and as the work upon which these men are engaged is similar to that performed at other military posts, and for which extra-duty pay is given, it is submitted that they are equally entitled to the allowance.							
Office-furniture for post of Fort Myer, Va.....	Appropriated..	23	506	1	300 00		
NOTE.—This estimate is made up as follows: 2 desks, at \$40 each, and 48 chairs, at \$2.50 each.							
Horse and mule shoes, nails, and expenses for shoeing once each month for thirty-six animals, at \$1.50 each month, (paragraph 301, Army Regulations, 1881).....	do.....				54 00		
Shoes, nails, and expenses of shoeing once each month for the forty-nine horses kept by officers in the public service, at \$1.50 each per month, (paragraph 301, Army Regulations, 1881).....	do.....				73 50		
Blacksmith's supplies, iron, miscellaneous tools, and materials for post of Fort Myer, Va.....	do.....				300 00		
Veterinary supplies for post of Fort Myer, Va.....	do.....				150 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Signal Service, Incidental Expenses—Continued.</i>							
Veterinary supplies and veterinary attendance for other public animals.....	Appropriated..	23	506	1	\$150 00		
Fire-extinguisher, post of Fort Myer, Va.....	do.....				500 00		
Disinfectants, &c.....	do.....				100 00		
Interment of officers and men.....	do.....				500 00		
Apprehension, securing and delivering deserters, and expenses incident to their pursuit.....	do.....				150 00		
Extra-duty pay for 185 enlisted men of the Signal Corps, being for corporals and privates in charge of stations and serving as telegraph-operators or repair-men; sergeants in charge of cotton-region or display sections, or serving as chief clerks of divisions in the office of the Chief Signal Officer of the Army; and for such other enlisted men of the Signal Corps as may be mustered by the Chief Signal Officer of the Army, by special authority of the Secretary of War, say, for a total of 185 men for 365 days, at 50 cents per diem each.....	Submitted.....				33,762 50		
NOTE.—Extra-duty pay is allowed by section 1287, Revised Statutes. The men for whom this compensation is asked are employed continuously, under the laws of Congress, for ten days or more on skilled duties or labor not strictly military.						\$38,011 00	\$1,954 00
<i>Signal Service, Transportation—</i>							
Transportation of men.....	Appropriated..	23	506	1	8,875 00		
Transportation of material and funds, as per paragraphs 1717 and 1958, Army Regulations, 1881.....	do.....				20,000 00		
Means of transportation:							
Purchase of necessary harness and other articles, and expenses for repairs to means of transportation.....	do.....				700 00		
One spring-wagon.....	Submitted.....				300 00		
Reimbursement of actual expenses of enlisted men of the Signal Corps, United States Army, while absent from their stations and travelling under competent orders on special duty inspecting special cotton-region stations, special river stations, special display stations, stations on railroads displaying the railway weather bulletins, post offices displaying the farmers' bulletin, and other detached duty in connection with the Signal Service, this compensation to be at not exceeding three dollars and twenty-five cents per diem for each and every day unavoidably consumed in travel or while on duty under the order, including necessary delays; provided, that where meals are included in the transportation or fare by steamers, no per diem shall be charged; and provided also, that this shall be in lieu of the usual commutations of rations, quarters, and fuel allowed to the man at his proper station.....	do.....				2,000 00		
NOTE.—This estimate is submitted in analogy to the allowance to which civilians in the employ of the Government are entitled, as per pars. 1427 and 1428, Army Regulations, 1881, as, owing to the peculiar organization of this service, the work specified has to be performed, and our enlisted men only are available for it, and it is not considered proper to put them to personal expense in carrying out an official order which, from letters on file in this office, has been the case in every instance where the work has been done. This does not apply to men on orders to change station.						31,875 00	35,505 00
<i>Signal Service, Barracks and Quarters—</i>							
Commutation of quarters for 460 men of the Signal Corps on duty at office of the Chief Signal Officer and at signal-stations throughout the United States, at \$21 per man per month.....	Appropriated..	23	506	1	115,120 00		
NOTE.—Heretofore the rates for commutation of quarters have been \$21 per month at the office of the Chief Signal Officer and certain specially designated stations; \$20 per month at stations in the military departments of California and Columbia, and \$10 per month at all others; and for the same reasons as set forth in my notes under the estimates for commutation of rations, I desire to urge favorable consideration of this. The estimate is an increase of \$31,812 over the appropriation for the fiscal year ending June 30, 1886.							
Work and supplies at Fort Myer, Va., to include labor and materials for necessary repairs to public buildings and preservation of same.....	do.....				3,500 00		
						118,620 00	85,608 00
<i>Signal Service, Clothing, Camp, and Garrison Equipage—</i>							
Purchase of the necessary axes, hatchets, flags, halyards, brooms, brushes, &c., for post of Fort Myer, Va.....	Appropriated..	23	506	1	150 00		
Clothing issues in kind.....	do.....				2,800 00		
						2,950 00	2,873 89

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Roll of Honor—</i> For printing five thousand copies, in three volumes, of the Roll of Honor, as estimated by the Public Printer.	Submitted.....					\$30,000 00	
NOTE.—The supply of the Roll of Honor has for some time past been exhausted. A number of applications for the work are now on file, and they continue to be received.							
Total National Cemeteries and Roll of Honor						248,940 00	\$160,440 00
MISCELLANEOUS OBJECTS.							
<i>Surveys and Reconnaissances in Military Divisions and Departments—</i> Military surveys and reconnaissances, and surveys of military reservations by engineer officers attached to the several headquarters of military divisions and departments, being an average of \$5,000 for each of eight military divisions and departments.....	Submitted.....				\$40,000 00		
Publication of maps for use of the War Department.....	Appropriated..	23	507	1	10,000 00	\$50,000 00	\$5,000 00
<i>Survey of Northern and Northwestern Lakes—</i> Printing and issuing charts for use of navigators, and electrotyping copper-plates for chart-printing.....	Appropriated..	23	507	1		2,000 00	3,000 00
<i>Transportation of Reports and Maps to Foreign Countries—</i> Transportation of reports and maps to foreign countries through the Smithsonian Institution.....	Appropriated..	23	507	1		100 00	200 00
<i>Mississippi River Commission—</i> Salaries and travelling expenses of Mississippi River Commission, and for salaries and travelling expenses of assistant engineers under them, and for office expenses and contingencies.....	Appropriated..	23	220	1		100,000 00	
	Submitted.....						
<i>Missouri River Commission—</i> Surveys, examinations, and investigations, and for traveling and office expenses and salaries of the Commission. { And the \$15,000 appropriated in the River and Harbor Act of July 5, 1884, for survey of the Missouri river above Fort Benton, is hereby made available for the survey of said river from its mouth to its headwaters.	July 5, 1884	23	144	1		150,000 00	
	Submitted.....						
NOTE.—It is suggested by the Commission that the above estimate (\$150,000) be included in the Sundry Civil bill, as in the case of the Mississippi River Commission.							
<i>Artificial Limbs—</i> Furnishing artificial limbs and appliances, or commutation therefor, and transportation.....	Aug. 15, 1876	R. S.	929	4787, 4791		200,000 00	400,000 00
	Mar. 3, 1885	19	203	1, 2			
		23	507	1			
<i>Appliances for Disabled Soldiers—</i> Providing surgical appliances for persons disabled in the military or naval service of the United States, and not entitled to artificial limbs.....	Appropriated..	23	507	1		2,000 00	2,000 00
<i>Support and Medical Treatment of Transient Paupers—</i> Care, support, and medical treatment of seventy-five transient paupers, medical and surgical patients in the city of Washington.....	Appropriated..	23	507	1		15,000 00	15,000 00
<i>Maintenance of Garfield Hospital—</i> For maintenance, to enable it to provide medical and surgical treatment to transient persons unable to pay therefor.....	Appropriated..	23	507	1		10,000 00	7,500 00
NOTE.—A copy of the letter of Judge Miller, requesting the insertion of this estimate, will be found in the Appendix "Hh."							
<i>Maintenance of Army and Navy Hospital, Hot Springs, Ark.—</i> Hire of employes: Steward, apothecary, clerk, butler, cooks, ward-masters, nurses, engineer, laundresses, and all necessary service.....	Appropriated..	23	508	1	17,280 00		
Medicines, hospital stores, dressings, instruments, &c.....	do.....				1,500 00		
Fuel, gas, ice, forage, stationery, and other necessary expenses	do.....				16,800 00		
						35,580 00	19,000 00
NOTE.—The appropriation for maintenance, made at the last session of Congress, was provided under the understanding that the hospital could not be opened until January 1, 1887, and was therefore a half-year's maintenance only.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Expenses of Military Convicts—</i>							
Payment of costs and charges of State penitentiaries for the care, clothing, maintenance, and medical attendance of United States military convicts confined in them..	Appropriated..	23	508	1	\$10,000 00	\$10,000 00
<i>Publication of Official Records of the War of the Rebellion—</i>							
Continuing the publication of the Official Records of the War of the Rebellion, and printing and binding, under the direction of the Secretary of War, of a compilation of the official records, Union and Confederate, so far as the same may be ready during the fiscal year, to be distributed as provided by act of March 3, 1885.....	Appropriated..	23	508	1	\$36,000 00		
Printing and binding, under the direction of the Secretary of War, a second edition of six thousand copies each of volumes 1, 2, 3, 4, and 5, series 1.....	Submitted.....				17,000 00		
NOTE.—This number is necessary to complete sets of distributees under the act of August 7, 1882, (22 Stat., 320,) and subsequent acts.						53,000 00	36,000 00
<i>Support of Military Prison at Fort Leavenworth, Kans.—</i>							
Subsistence for 600 prisoners, five teamsters, and two watchmen, 221,555 rations, at 17 cents each; (see Note a).....	R. S.	242	1344 to 1361	37,664 35		
May 21, 1874	18	48	1				
Mar. 3, 1885	23	508, '9	1

<i>Examination of State Claims under Act of June 27, 1882—</i>							
Payment of expenses of a board of three officers of the Army, to be detailed to assist the Secretary of War in examining and reporting upon the claims of the States and Territories named in the act of June 27, 1882, (chapter 241 of the Laws of the 47th Congress, 1st session,) while on such duty, including clerk-hire, hotel, travelling, and such other necessary expenses as shall be approved by the Secretary of War: <i>Provided</i> , That said officers shall, before proceeding to the discharge of said duties, be sworn that they will carefully examine said claims, and that they will, to the best of their ability, make a just, true, and impartial statement thereof, as required by said act; this amount to be immediately available.....	Submitted.....					25,000 00	
NOTE.—Section 1 of the act of June 27, 1882, (22 Stat., 111, 112,) provides "that the Secretary of the Treasury is hereby authorized and directed, with the aid and assistance of the Secretary of War, to cause to be examined and investigated all the claims" mentioned in said act, while section 2 places upon the Secretary of War the whole duty of deciding as to the necessity of each and every expenditure charged for, and the rates which should be allowed therefor. This estimate is submitted to carry said legislation into effect, no means having been provided by Congress.							
<i>Collection and Payment of Bounty, Prize-Money, and other Claims of Colored Soldiers and Sailors—</i>							
Salaries of agents; rent of offices; stationery; office-furniture and repairs; mileage and transportation of officers and agents; telegraphing; postage, and post-office money-orders.....	Appropriated..	23	510	1	1,500 00	2,000 00
<i>Erection of Monumental Column at Yorktown, Va.—</i> That so much of the unexpended balance (\$5,176.74) of the appropriation of \$100,000 in the act of June 7, 1880, (21 Stat., 163,) for the erection of a monument at Yorktown, Virginia, as may be necessary therefor, in the opinion of the Secretary of War, may be applied to the building of a plain substantial dwelling for the keeper of said monument, and for the care of the same after construction, and of the grounds around the monument: <i>Provided</i> , That the total cost of said building, tool and wood-house, &c., shall not exceed the sum of \$2,500; and of the balance thereafter remaining not more than \$200 shall be expended in any one year in the care of the grounds, buildings, &c., pertaining to said monument. NOTE.—This estimate is explained in the report of Lieutenant-Colonel W. P. Craighill of August 17, 1885, printed in the Appendix "Kk."

UNDER THE INTERIOR DEPARTMENT.																																																																																																												
COLLECTING THE REVENUE FROM PUBLIC LANDS.																																																																																																												
Salaries and Commissions of Registers and Receivers—																																																																																																												
Compensation of registers and receivers of local land offices; (see detailed statement following).....	Mar. 3, 1885	R. S. 23	392 498	2237- 2240 1	}.....	\$522, 000 00	\$525, 000 00																																																																																																					
<p>NOTE.—The estimate submitted for compensation of registers and receivers is based upon the salaries earned and fees and commissions collected and covered into the Treasury by them during the fiscal year ending June 30, 1885, with the addition of the office to be opened at Cœur de Alene, Idaho. For a number of years past it has been found necessary to appropriate annually large amounts to cover deficiencies in this service.</p> <p>The amount estimated for herein is based upon the actual amounts paid registers and receivers during the fiscal year ending June 30, 1885, and therefore is not excessive. The compensation of registers and receivers is limited by law to not exceed \$3,000 to any one officer, regardless of the amount in excess of that sum earned by them. During the fiscal year ending June 30, 1885, the fees and commissions earned by registers and receivers amounted to \$847,924.56, while the entire appropriation for their salaries and commissions was \$525,000. Of the sum of \$847,924.56 above referred to, there was collected from the entry-men \$705,187.86, which was turned into the Treasury; and if the entire appropriation of \$525,000 is expended, there remains as a net revenue to the Government the sum of \$180,187.86.</p>

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1886.
		Vol. or R. S.	Page.	Sec.			
<i>Protecting Public Lands—</i> For the protection of public lands from illegal and fraudulent entry or appropriation, and to authorize the employment of one hundred agents, to be appointed by the Commissioner of the General Land Office, subject to the approval of the Secretary of the Interior.....	Appropriated..	23	498	1	\$300,000 00	\$90,000 00
NOTE.—With the present limited appropriation it is impossible to employ a sufficient number of agents to investigate charges of fraud already made, much less expose and prevent many other fraudulent entries from being made. The appropriation of \$75,000, with the deficiency of \$25,000, making a total of \$100,000, only allowed the employment of an average of twenty-eight agents for a period of nine months and sixteen days, or twenty-two agents for the entire fiscal year. In order to prevent fraud there should be a force of at least one hundred agents constantly in the field, which would require an appropriation of the amount estimated for under this head.							
<i>Expenses of Hearings in Land Entries—</i> For expenses of hearings held by order of the General Land Office, to determine whether alleged fraudulent entries are of that character or have been made in compliance with law.....	Appropriated..	23	498	1	20,000 00	20,000 00
NOTE.—The foregoing estimate is to defray the expenses of hearings ordered by the General Land Office in cases of alleged fraudulent or illegal entries. Said entries are suspended upon the reports of investigations made by special agents; hearings are then ordered to be held, and all parties in interest notified thereof. The expenses to be borne by the United States are those of its own witnesses and the taking of testimony to establish the fraudulent or illegal character of the entry.							
<i>Settlement of Claims for Swamp-Land and Swamp-Land Indemnity—</i> Salaries and expenses of agents employed in adjusting claims for swamp-lands, and for indemnity for swamp-lands.....	Appropriated..	23	498	1	20,000 00	20,000 00
NOTE.—The foregoing estimate is submitted to cover the salaries and expenses of agents appointed to investigate in the field lands claimed as swamp-land: <i>Provided</i> , That agents and others employed under this and the appropriations for "Depredations on public timber" and "Protecting public lands," while travelling on duty, shall be allowed per diem, in lieu of subsistence, at a rate not exceeding \$2.50 per day, and for actual necessary expenses for transportation.							
<i>Reproducing Plats of Surveys, General Land Office—</i> To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of survey on file, and other plats, constituting a part of the records of said office, and also to furnish local land offices with the same	Appropriated..	23	498	1	10,000 00	20,000 00
NOTE.—The sum of \$10,000 is required to continue the work of reproducing plats to prevent a total obliteration of designations on official township plats, defaced and mutilated by constant use during a period of many years, thus rendering them unavailable in furnishing certified copies, under the provisions of an act of Congress approved July 2, 1864, (13 Stat., 375.)							
Total Public Lands, exclusive of surveying						1,129,000 00	930,000 00
SURVEYING THE PUBLIC LANDS.							
<i>Surveying the Public Lands—</i> For surveying the public land at rates not exceeding \$9 per linear mile for standard and meander lines, \$7 for township, and \$5 for section lines, and of the sum hereby appropriated, not exceeding \$100,000, for the examination of surveys in the field to test the accuracy of the work and prevent payment for fraudulent and imperfect surveys returned by deputy surveyors, and inspecting mineral deposits, coal-fields, swamp-lands, and timber districts, and for making such other surveys or examinations as may be required for identification of lands for purposes of evidence in any suit or proceeding in behalf of the United States.....	Appropriated..	R. S. 23	438 499	2395, 2413 1	}	\$250,000 00	\$300,000 00
<i>Surveying Private-Land Claims in New Mexico—</i> For the survey of confirmed land claims in New Mexico, at rates prescribed by law.....	Appropriated..	R. S. 23	390 499	2223 1	}	5,000 00	3,000 00
<i>Surveying Private-Land Claims in California—</i> For the survey of confirmed private-land claims in California, at the rates prescribed by law, including office-expenses	Appropriated..	R. S. 23	390 499	2223 1	}	2,000 00	3,000 00

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. MISCELLANEOUS OBJECTS.							
GOVERNMENT HOSPITAL FOR THE INSANE.							
<i>Current Expenses, Government Hospital for the Insane—</i>							
For current expenses, including ordinary construction, repairs, and incidental expenses.....	Appropriated..	R. S. 23	938 500	4838, 4858 1	}	\$280, 000 00	\$226, 538 00
NOTE.—This estimate is for the support in the Government Hospital for the Insane, including clothing, medical and moral treatment of an estimated average number of twelve hundred indigent insane persons from the Army, Navy, Marine Corps, Revenue-Cutter Service, National Home for Disabled Volunteer Soldiers, District of Columbia, and United States convict insane, being those classes entitled to admission and treatment under United States Statutes. The basis of estimate is an annual cost of \$233½ per capita. It is asked that not exceeding one thousand dollars of this appropriation may be expended in defraying the expense of the return of inmates to their friends.							
Congress has now for several years provided for a part of this appropriation in the bill for the District of Columbia, and in view of the gradual increase of the number of indigent insane admitted from the District, the amount therein appropriated has been from year to year proportionally increased. The amount for the fiscal year ending June 30, 1886, was \$53,462. Should Congress see fit to continue this, augmenting it in the same ratio as hitherto, the amount in the District bill will be \$56,670, leaving the sum of \$223,330 to be provided in the Sundry Civil bill.

APPENDIX B.

In relation to the estimate for "Salaries, Office of First Comptroller." (See page 20.)

TREASURY DEPARTMENT,
First Comptroller's Office, Washington, D. C., September 28, 1885.

SIR: I have the honor to transmit herewith an estimate of the appropriations required for "Salaries, Office of First Comptroller," for the fiscal year ending June 30, 1887.

This estimate makes an increase of two clerks of class three, and three clerks of class two, and a decrease of two clerks in class one, being a net increase of three in the clerical force of this office. By these changes the appropriation for the present year would be increased \$5,000, and over the year 1885, \$4,000. I respectfully and urgently recommend the above change in the estimates.

The business of this office is constantly increasing, and its duties are responsible and onerous, it being, as to the settlement of claims against the Government, in the nature of a court of last resort. For the proper performance of these duties, clerks of more than usual capacity and ability, and most of them with legal training, are required, as it is impossible for the Comptroller to personally overlook every item in the large number of accounts revised by the office, many of which require a good legal knowledge for their proper consideration. For example, the accounts for the unauthorized expenses of the Court of Commissioners of Alabama Claims were passed by this office unchallenged for a number of years, until called to the attention of the Comptroller by an attorney practising before that court.

I desire further to state that when I took charge of the office I found six clerks detailed from other bureaus in addition to the regular force, while there are now but three, and I believe that with the increase above suggested I shall be able to keep up the current business of the office. The increase is required in the division of public-land accounts, and of accounts of the District of Columbia, where the work was in arrears.

In conclusion, if the appropriation for the fiscal year ending June 30, 1887, is made, on the basis of the estimate herewith submitted, the efficiency of the clerical force of this office will be greatly advanced thereby.

Very respectfully,

M. J. DURHAM, *Comptroller.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX C.

In relation to the estimate for "Salaries, Office of Second Auditor." (See page 22.)

TREASURY DEPARTMENT,
Second Auditor's Office, September 19, 1885.

SIR: I have the honor to transmit herewith an estimate of the amount required for "Salaries, Office of the Second Auditor," for the fiscal year ending June 30, 1887.

The condition of the public business recently intrusted to my charge, which will be set forth in some detail in my forthcoming report for the fiscal year 1885, does not admit of any appreciable reduction in the clerical force now allowed by law; but in the belief that a more liberal proportion of high-grade clerks will tend to promote the efficiency of the force, I have submitted an estimate for four clerks of class four in lieu of six clerks of class one to be dropped.

The work of the office is actually increasing and accumulating. The number of accounts and claims filed during the last fiscal year was 30,802, against 25,741 in 1884, 27,592 in 1883, 24,000 in 1882, and 18,917 in 1881. This increase is mainly attributable to recent legislation and decisions of the United States Supreme Court, under which new classes of claims have been and still are being presented in large numbers, claims for arrears of pay and bounty having increased from 8,682, in 1881, to 19,762, in 1885.

I deem it my duty to call attention to the condition of the muster and pay rolls of the volunteer army of 1861-'65. After twenty years' handling in this office and in the office of the Second Comptroller, many of these rolls (the paper being of miserable quality) are in a very dilapidated state. They have been repaired with tracing-muslin whenever practicable, but thousands of them are now beyond repair, and the only way of preserving these permanent records is to have them copied on bond-paper, the kind now used for Army muster-rolls, and carefully verified; the original rolls to be filed away, and the copies only to be used for reference. I am informed that at least 50,000 rolls are so mutilated and defaced that it is not prudent to use them, yet they are in constant requisition by clerks engaged in settling claims for arrears of pay and bounty, and have to be depended upon for information required by the Adjutant-General of the Army, the Third Auditor, the Commissioner of Pensions, and other officers.

The importance of preserving these muster and pay rolls can scarcely be overestimated. They not only contain the sole evidence in possession of the Government of the payment of more than \$1,060,000,000 to the 2,500,000 men who constituted our volunteer army, but they are absolutely indispensable to the transaction of the current business of the office.

In view of these facts, I have included in the regular estimate a provision for twenty-five copyists, at \$840 each per annum.

Very respectfully,

WM. A. DAY, *Auditor.*

Hon. SECRETARY OF THE TREASURY.

TREASURY DEPARTMENT,
Second Auditor's Office, Washington, D. C., October 28, 1885.

SIR: In reply to an inquiry from your office as to the number of clerks that will be required during the fiscal year ending June 30, 1887, for adjusting the accounts of the Soldiers' Home, I have the honor to say that, as the Second Comptroller has estimated for five clerks, the Second Auditor should have not less than twelve. At least two-thirds, if not three-fourths, of the work of adjusting these accounts devolves upon this office. The Auditor's clerks collect the data from the files of the office and obtain all necessary information from the War Department. They also state the accounts, leaving nothing for the Comptroller's clerks to do but simply to revise and check what has already been done.

From the fact that the Comptroller asks for five clerks, at \$660 each, I infer that the employment of females is contemplated, but the work of this office in connection with Soldiers' Home accounts is not suitable for females, and their employment would not be advantageous. If it be deemed advisable to keep within the limits of the appropriation heretofore granted—\$10,000 per annum—I ask for eight clerks, at \$840 each, and one at \$720 per annum, making a total of \$6,600. But, considering the large arrearages of work connected with these accounts, which, at the present rate of progress, will take several years to dispose of, I suggest such an increase in the appropriation as will admit of the employment of twelve clerks in this office—eleven at \$840 each and one at \$720 per annum. To give effect to this suggestion, I have added \$9,960 to the estimate for "Salaries, Office of Second Auditor," for the fiscal year 1887, and trust the proposed increase will receive your recommendation.

Very respectfully,

WM. A. DAY, Auditor.

Hon. SECRETARY OF THE TREASURY.

APPENDIX D.

In relation to the estimate for "Salaries, Office of Fourth Auditor." (See page 23.)

TREASURY DEPARTMENT,
Fourth Auditor's Office, Washington, D. C., September 21, 1885.

SIR: I have the honor to furnish herewith estimates of appropriations required for this office for the fiscal year ending June 30, 1887, and respectfully invite your special attention to the additional force for which I have estimated, and ask your indorsement thereof.

My predecessor, in submitting estimates for 1886, asked an increase of force on account of the great number of claims, &c., but the increase was not allowed. Through assistance afforded by the detail of several clerks from other bureaus, the number of claims on hand has been largely reduced, but there remains a considerable number that ought to be settled at once. Pension claims are still referred for reports in large numbers, and it is proper to state that this is the only office where work has been increased by recent pension laws that has not had its force increased accordingly.

There is another reason why I ask for additional clerks. The accounts of paymasters of the Navy are rendered quarterly, and as the expenditures are made, in many cases, in distant ports, and the officer is allowed from thirty to sixty days from the end of the quarter for rendition of the account, it is of great importance that every account be taken up for examination and adjustment immediately upon its receipt at this office. The force of late has not been sufficient to accomplish this; oftentimes it has become necessary to consolidate two or three quarters in one settlement. Especially is it important that final returns of officers detached be settled without delay.

Pension-agents' accounts are rendered monthly; but as only one clerk can possibly be allowed at present upon them, it necessitates settlement by quarters. It is advisable that each monthly account should be adjusted separately.

There are three chiefs of divisions and two clerks of class four now allowed in this office. It is not convenient to divide the office into less than four divisions. The responsibility resting upon the chief is equal in all. I therefore ask an additional chief of division, and for two clerks of class four, that there may be an efficient and responsible assistant chief in each division who may be depended upon in the absence of the chief.

These, with the addition of two clerks at \$900 per annum each, will insure the prompt settlement of all accounts and claims coming before this office.

The service of the messenger asked for is needed in the files-room. The whole of the financial records of the Navy since the foundation of our Government should be overhauled, dusted, re-covered, and re-marked. A large number of the rolls and vouchers pertaining to the war period of 1861–1865 need repairing. Great care is necessary to preserve so large a mass of such material and maintain it in due order as arranged for easy reference. For this work a man of intelligent perception is needed, and the laborer asked for is to assist him in the work, and generally for service in the office.

I am, sir, your obedient servant,

C. M. SHELLEY, Auditor.

Hon. SECRETARY OF THE TREASURY.

APPENDIX E.

In relation to the estimate for "Salaries, Office of Treasurer U. S." (See page 24.)

TREASURY OF THE UNITED STATES,
Washington, September 29, 1885.

SIR: In presenting the annual estimates for this office, I have added to the rolls the following persons: One vault-clerk, who, with his assistant, shall take exclusive charge of the reserve and cash vaults, one of the most responsible positions in the office and most inadequately paid; a clerk for the Treasurer, who would take charge of his office during his absence; ten clerks of \$1,000 each, being a promotion of five clerks now receiving \$900 each; nine clerks at \$700, now receiving \$900; one mail-messenger, who fills a very responsible position, and should be adequately paid; seven messengers, being an increase of one, at \$840 each; one laborer increase, at \$240. I have decreased the rolls by three clerks, at \$1,200 each, and nineteen clerks, at \$900 each.

It is only fair to add that the estimate as presented perpetuates the injustice with which the clerks filling the higher and more responsible posts in the office of the Treasurer have been heretofore treated in the reduction of their salaries. To their

fidelity and accuracy is largely due the successful and economical working of the Treasury, and the Treasurer feels that, in making a recommendation that these salaries should be restored to their former figures, he only recognizes the diligent services and the many arduous and responsible duties which the clerks in his office have discharged during the past years.

The Treasurer begs leave to add that the whole service of his office should be remodelled, the more industrious and intelligent clerks properly graded, a good service fund created, and care being taken in the future selection of young and healthy men as clerks; that a retiring fund should be provided, on which payments should be made according to the term of service rendered. So far as the civil service is operative in the Treasurer's office, it is to the injury and not to the benefit of the service. The law should be so amended that all positions of money trust should be filled without regard being had as to its requirements, or, if its provisions are to be observed, that the Treasurer at least should have the privilege of selecting the persons for whom he becomes responsible as bondsman.

Very respectfully,

C. N. JORDAN,
Treasurer U. S.

Hon. SECRETARY OF THE TREASURY.

TREASURY OF THE UNITED STATES,
Washington, October 29, 1885.

SIR: Mr. E. O. Graves, Chief of the Bureau of Engraving and Printing, has expressed the desire to have those employés of his office who are now engaged in sealing and separating United States notes under my supervision transferred to the rolls of this office. I fully concur as to the propriety of such transfer. The work is being done for the Treasurer's office, and the persons engaged on it should be paid on the Treasurer's rolls. I therefore beg to amend the list of estimates submitted to you on the 29th ultimo by the addition of the following: Two pressmen, at \$1,200 each, \$2,400; three separators, at \$660 each, \$1,980; three feeders, at \$660 each, \$1,980.

Very respectfully,

C. N. JORDAN,
Treasurer United States.

Hon. SECRETARY OF THE TREASURY.

APPENDIX F.

Statement of buildings rented in Washington by the Executive Departments, as required by the act of March 3, 1883.—(22 Stat., p. 552.)

BUILDINGS RENTED BY THE TREASURY DEPARTMENT FOR FISCAL YEAR 1886. (ESTIMATE FOR 1887 ON PAGE 29.)

Location of building.	For what purpose used.	Occupancy, 1885-'86.	Annual rental.
Southwest corner of Seventeenth and F streets.....	Offices Second Auditor.....	July 1 to Oct. 15	\$1,800 00
Southwest corner of Seventeenth and F streets.....	Additional Offices Second Auditor.....	Oct. 15, current..	3,000 00

APPENDIX G.

In relation to the estimate for "Salaries, Office of Assistant Treasurer at New Orleans." (See page 31.)

OFFICE OF ASSISTANT TREASURER UNITED STATES,
New Orleans, La., September 8, 1885.

SIR: In submitting the annual estimate of this office for the year 1887, I beg to refer you to my letters to the honorable Secretary of the Treasury of September 26, 1884, (see Book of Estimates for 1886, pages 246 and 247,) and April 21, 1885, and to call your special attention to the changes in the force of this office, which I respectfully submitted for your approval.

In view of the past experience of this office, I cannot but believe that the Department is thoroughly impressed with the necessity for the reorganization of its force.

Work is constantly increasing, and the public interest demands that such action as I suggest be taken by Congress as soon as practicable; and I would further request that in your recommendations you urge Congress, in view of the necessities of the case, to pass a bill to take effect from date of passage; otherwise, the office will be obliged to continue as at present, laboring under much difficulty in its endeavor to discharge the duties allotted to it.

In view of the responsibility which is involved, this should not be; and I feel assured that Congress, upon your representation, will take immediate action for its relief.

Very respectfully,

P. F. HERWIG,
Assistant Treasurer United States.

Hon. SECRETARY OF THE TREASURY.

APPENDIX H.

In relation to the estimate for "Salaries, Office of Assistant Treasurer at San Francisco." (See page 32.)

OFFICE OF ASSISTANT TREASURER UNITED STATES,
San Francisco, Cal., October 1, 1885.

SIR: Referring to the estimate, recently transmitted to you, for the necessary appropriation for the salaries of this office for the fiscal year ending June 30, 1887, I desire to say, first, with regard to the "change-teller," at a salary of \$2,000 per annum, therein "submitted," that this addition to the clerical force of the office is greatly needed in consequence of the large increase, within the past two years, of the business coming within his immediate province; viz., the redemption of notes and coins. Such an acquisition to the present corps would allow me the aid of my "chief clerk," whose immediate services I am now denied by reason of his filling the position referred to, while his real or specific duties, in addition to such as pertain to the assistant treasurer, devolve upon the latter, or are assigned to other desks, where they must, of necessity, be performed out of the regular office-hours, thereby destroying the system and impeding the general operations of the office.

I need hardly say that in offering this recommendation, or any similar to it, I am actuated solely by a desire that the business of the office shall be conducted efficiently and systematically, and in such manner as affords the greatest security to the Government, though I shall always, of course, cheerfully accept your decision in the matter.

Lastly, and it is with feelings of reluctance and of delicacy that it is mentioned, the salary of the assistant treasurer is not, I think, commensurate with the duties and responsibilities of the position, and I would be pleased, if in accordance with your views, to have it restored to the original figure.

Very respectfully, yours,

S. H. BROOKS,
Assistant Treasurer United States.

Hon. SECRETARY OF THE TREASURY.

APPENDIX I.

In relation to the estimates for "Mints and Assay Offices." (See pages 33 to 36.)

TREASURY DEPARTMENT,
Bureau of the Mint, Washington, D. C., November 5, 1885.

SIR: I have the honor to transmit herewith estimates of appropriations required for the support of the mint service during the fiscal year 1887.

The estimates, as hereinafter explained, have been increased by the amount which it has heretofore been the custom to use as a deficiency appropriation, from the indefinite appropriation contained in the first section of the act authorizing the coinage of the standard silver dollar, passed February 28, 1878.

The appropriations for the current year for the mint at Denver and for the assay offices at New York, Helena, and St. Louis are the same as will be required for the same institutions for the following fiscal year.

At the mint at Philadelphia an increase in the appropriation for wages of workmen, amounting to \$67,000, and in the contingent, amounting to \$30,000, is asked for. Instead of drawing on the general appropriation contained in the act of February 28, 1878, as a deficiency appropriation for the coinage of the standard silver dollar, as heretofore, it seems to me desirable to increase the regular appropriations to the full estimated amount required for the same classification of coinage. The expenditures at this mint under the general appropriation of this act for the year ended June 30, 1885, was \$80,000 for wages of workmen, and the sum of \$33,000 for contingent expenses.

The reduced work at the mint at San Francisco, through the suspension of the coinage of the standard silver dollar, allows of a decrease of \$85,000 in the estimate for 1887, from the estimate of the present year, in wages of workmen, and of \$10,000 in contingent expenses.

At the mint at New Orleans the expenditures from the general appropriation of February 28, 1878, were, for wages of workmen \$26,600, and for contingent expenses \$18,500. Specific increases of appropriations, amounting to \$26,000 for wages of workmen, and to \$11,000 for contingent expenses, are asked for for the same reason as in the case of the mint at Philadelphia, namely, for the coinage of the standard silver dollar, and on the basis of a continuance of the present quota of this coinage. A "cashier's clerk" being regarded unnecessary, the usual appropriation of \$1,100 for this office is not asked for. An addition of \$200 to the salary of the book-keeper and to that of the abstract-clerk is recommended, in consideration of the duties and responsibilities of these offices.

For the appropriations for the assay office at Charlotte, an increase of \$150 in the salary of the assistant assayer is submitted, against \$1,250 for the current year. The assistant assayer at Charlotte is in charge of the laboratory, and the increase proposed will equalize the salary of the same office in the smaller institutions.

An increase of \$1,200 is submitted for the assay office at Boise City, namely: \$200 for the salary of clerk, or \$1,200, against \$1,000 for the current year, and \$1,000 for contingent expenses, the latter for necessary repairs of the edifice, inside and out, pending such desirable repairs as come within the province of the Supervising Architect.

I have this day addressed you a letter reporting the practical cessation of all kinds of business at the mint at Carson since the suspension of the coinage of the silver dollar, June 1, 1885, and have accordingly recommended that this mint be closed. I see no grounds, therefore, for an estimate of expenditures at this mint for the coming year. Should the mint be closed as recommended, the only provision which need be submitted to Congress accordingly would be for a custodian, and for what assistance might be deemed necessary.

Very respectfully,

JAS. P. KIMBALL, *Director.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX J.

In relation to the estimates for the civil government in Alaska. (See pages 36, 62, 144, and 156.)

DISTRICT OF ALASKA,
Executive Office, Sitka, October 12, 1885.

SIR: I have the honor to acknowledge the receipt of your circular letter of August 1, 1885, with blank forms for estimates of appropriations, but regret to say they came too late to be filled up and returned "on or before the first of October."

I enclose herewith blank No. 1, in which I trust you will find the estimates properly itemized. In further explanation, I desire to say that the increased estimates for contingent expenses are made necessary by the greater cost of travelling, freight, and express charges, and that I have placed them within the lowest limit commensurate with actual needs. The additional \$4,000 for court-house and jail at Juneau is actually necessary, as it will be impossible to construct such a building as is required with the amount originally appropriated. The \$4,000 appropriated by act of March 3, page 479, Laws 1884-5, "for fitting up the building known as the 'club-house'" at Sitka as a temporary jail *should not be so expended*, and will not be called for if I have any authority over it. The building is almost worthless, and should be torn down in preference to having any money expended upon it.

The item of \$40,000 is suggested by the general agent of education, and is a low estimate if it be the intention to give the whole Territory the benefit of the common-school system contemplated by section 13 of the "act providing a civil government for Alaska."

Very respectfully,

A. P. SWINEFORD,
Governor of Alaska.

Hon. SECRETARY OF THE TREASURY.

APPENDIX K.

JOHN NEWTON,
Chief of Engineers, Brigadier and Brevet Major General.

OFFICE CHIEF OF ENGINEERS, U. S. ARMY,
Washington, D. C., September 9, 1885.

APPENDIX M.

Explanation of estimates for "Public Buildings and Grounds under Chief of Engineers." (Estimates on pages 50, 172, and 173.)

The officer in charge of public buildings and grounds under the direction of the Chief of Engineers, United States Army, in submitting estimates for the year ending June 30, 1887, some of which are for larger amounts than heretofore appropriated, and some for entirely new objects, presents the following explanations:

First.—For overseers, foremen, draughtsman, mechanics, laborers, &c., \$30,000, or \$4,000 more than appropriated for the year ending June 30, 1886. The amount appropriated for the year ending June 30, 1886, is \$26,000; an increase of \$4,000 is requested. The parks and reserved public spaces in charge of this office comprise an aggregate area of about 408 acres. They are widely distributed, and were evidently intended to be highly improved and to receive such permanent care as would render them ornaments to the nation's capital. The greater portion of the largest of these parks are generally located in the vicinity of the principal thoroughfares, and have been highly improved; they are at present popular places of resort. A number of the small reservations in prominent sections of the city have also been highly improved, and form attractive spots of verdure amid their brick and stone surroundings. This year four more of these will be improved. The beauty of these parks depends in a great measure upon the neatness and order in which they are kept. Their lawn surfaces require frequent mowing, and should be freely watered during the summer months, while their walks, ornamental evergreen and deciduous trees and shrubs, their flower-beds, &c., require unremitting attention to preserve them in best condition. The present regular working force of gardeners and laborers employed, provided mainly from this appropriation, is not sufficient to fully perform the duties required. The most necessary work in many of the parks can only be performed, and minor but important duties are neglected to the detriment of the ornamental character of the grounds. The area of improved parks is annually increasing by the completion of work for which special appropriations have been provided, and a corresponding increase in the working force must be made to maintain them in their improved condition.

Second.—Night-watchmen, at a cost of \$660 each per annum, are requested for Franklin and Lafayette squares. These parks are prominent resorts for recreation and pleasure of citizens in the sections of Washington in which they are situated. They are generally more frequented in the evening, after the hours of labor of the day-watchman are over, and for protection of the citizens and of the property of the United States, and the preservation of the trees, shrubs, and plants that add so much to the beauty of the parks, night-watchmen are necessary.

Third.—A park-watchman is recommended for the grounds south of the Executive Mansion. This recently improved park is much frequented by pedestrians, and the roadways form one of the most popular carriage drives in the city. The protection of the park improvements and the maintenance of regulations for the comfort of visitors render the appointment of a watchman imperatively necessary.

Fourth.—For the improvement of the grounds north of the Executive Mansion, \$20,000. With this appropriation it is proposed to remove the old worn and broken flag-pavement and the boundary-wall on the Pennsylvania Avenue front of the Executive Mansion grounds, which are not in keeping with the surrounding improvements; to lay down a substantial dressed North river bluestone flag-pavement of large size, similar to the adjoining pavement of the State, War, and Navy Department building, and to construct a suitable ornamental granite boundary-wall, with piers and coping-stone and a low iron railing; also to resurface with Portland-cement pavement the interior walks of these grounds.

Fifth.—For improvement, care, and maintenance of grounds south of the Executive Mansion, \$10,000. It is proposed to expend this sum as follows: For purchase of gravel and for labor required for resurfacing the roads and paths and for construction of additional walks, \$3,000; for purchase of soil, grass-seeds, and fertilizers, and for maintaining the lawns in good condition, \$800; for ornamental trees and shrubs, and labor of planting and caring for them, \$1,000; purchasing and erecting four drinking-fountains and making the necessary water and sewer connections, \$800; constructing 400 lineal feet of ornamental stone-walk, with piers and coping-stone, required for the northeastern boundary of the park, \$3,200, and for constructing a park-lodge, provided with conveniences for public comfort, \$1,200.

Sixth.—For care and continued improvement of reservation No. 3, Washington Monument grounds, \$4,000. It is proposed to maintain in good condition the roads, walks, and lawn-surfaces, and to construct additional walks for the convenience of travel through these grounds in portions which would not be liable to change by the construction of terrace-slopes or other improvements which may be adopted in completing the work around the base of the monument.

Seventh.—For continuing improvement of reservation No. 17, Garfield Park, \$10,000. It is proposed to continue the work in progress for the improvement of this park; to lay out roads and paths; construct gutters, drains, sewer, lodges, and to plant trees and shrubs. Of the amount estimated, \$4,000 will be applied to the purchase of gravel, soil, cobble-stone, drain-pipe, bricks, &c., and \$6,000 to the labor of construction.

Eighth.—For removing snow and ice, \$1,200. The amount appropriated for this fiscal year is \$1,000; for the year ended 30th of June, 1884, this amount was not sufficient. I have asked for \$200 more to provide for contingencies. If the winter is mild it will not all be used.

Ninth.—For improvement, care, and maintenance of various reservations, \$20,000. It is proposed to provide materials and labor for maintaining in good condition the partly improved parks, and to continue their improvement; to furnish materials required for the maintenance of the highly improved parks, for which no special appropriation is provided, and to continue the improvement of totally unimproved public spaces in various sections of the city, the surroundings of which have been highly improved by the citizens. The amount of increase over the appropriation for the present year is imperatively needed for the prosecution of the following work, which should be done during the next fiscal year: The reconstruction of the concrete walks in Iowa circle; repairing and resurfacing, in part, the asphaltum walks in Rawlins, McPherson, and Farragut parks; construction of asphaltum walks on principal lines of travel in Washington circle, Stanton, Folger, Judiciary, Mount Vernon, and other parks, the foot-walks of which have become public thoroughfares. It is also proposed to construct suitable small ornamental lodges for watchmen in Dupont, Iowa, Mount Vernon, and other parks.

Tenth.—For improvement, care, and maintenance of the Smithsonian grounds, \$15,000. This park contains the Smithsonian Institute, the National Museum, and the site for the Medical Museum, which will be commenced this year. It is proposed to provide materials and labor to maintain the park in good condition, and to coat with concrete material similar to that used by the District government for street surfaces, the principal roadway approaches to the Smithsonian Institution and the National Museum. Owing to the increased travel of vehicles over these roads, it has been found impracticable to maintain them, with their present gravel surfaces, in good condition during the winter months. It is also proposed to construct a suitable park lodge, with the necessary conveniences for public comfort.

Eleventh.—For improvement of Armory square and reservations east to Botanic Garden, the reservations to be hereafter known as *Seaton park*, \$5,000. These parks comprise an area of about thirty acres, with road and walk surfaces of over 10,000 square yards. The approaches to the Armory building, now used by the Fish Commission, are in bad condition, and need extensive repairs. It is proposed to put the roadways and walks in complete order, to construct gutters, drain, lodges, &c.; to improve the lawns, and to plant additional trees and shrubs.

Twelfth.—Improving grounds around Pension building, Judiciary square, \$8,000. This building, now nearly completed, is already occupied; suitable approaches to it through the park have not been provided, and the grounds around it are blocked with piles of earth and clay removed from the foundation. It is proposed to grade and plant these grounds, about four acres, with ornamental trees and flowering shrubbery, to form lawns and flower-beds where practicable, and to construct concrete walks in the direct lines of travel from the surrounding streets.

Thirteenth.—For constructing an ornamental structure of masonry and iron over the spring in Franklin square, \$2,000. The springs in this park are deemed especially valuable by the residents in the vicinity, and are not now available. I have been urged to open them for the benefit of the public. It is proposed to make the necessary excavation, to enclose the springs with masonry, to construct granite steps descending to them, to surmount them with an ornamental structure which will be an attractive feature of the park, and to make approaches to it from the park walks.

Fourteenth.—For raising the causeway approaches to Benning's bridge, constructing retaining-walls, and placing guard-railings where the roadway crosses the marsh, \$10,000. This roadway is now periodically overflowed by the high spring freshets, subjecting the residents of a large section of the adjacent country to personal inconvenience and loss by closing this important avenue to the city of Washington. It is proposed to raise the low portions of the roadway about three feet, to construct retaining-walls to prevent spreading into the adjacent marsh, and to put up guard-railings.

Fifteenth.—For constructing, removing, and repairing iron fences. This appropriation has heretofore been \$500, and has been devoted to construction and repair; \$1,000 is added to it, and is submitted without recommendation. The question of removing the tall iron fences from around the parks has been widely discussed, and opposite views expressed by distinguished citizens. I have been strongly urged to take action and remove them at once, the reasons given being that the driving of cattle through the streets and the roaming at large of animals is no longer permitted; moreover it is said that by confining outlets to certain localities, the police find it difficult to reach persons requiring their assistance. In view of the decided opinion of Congress, as indicated in the act of March 3, 1877, which specially prohibits the removal of iron fences, I have declined taking other action than to respectfully submit this estimate without recommendation, understanding that if the appropriation is made it will be the wish of Congress that the fences shall be removed.

Sixteenth.—For care and repair of and refurnishing the Executive Mansion, \$16,000. It was found that by repairing and patching the roof of the Mansion at a small cost a new roof would probably be unnecessary during this fiscal year, so that the \$4,000 appropriated for that purpose will probably not be used. It is respectfully urged that the entire sum estimated may be appropriated for the coming fiscal year, so that if absolutely necessary a new roof may be constructed, and, if not, the funds may be applied to refurnishing some of the bed-rooms where the furniture is shabby.

Seventeenth.—For care and necessary repairs of the Executive Mansion greenhouses, \$5,000. The sum appropriated for the past two years has been only \$4,000, while previous to that for several years it was \$5,500. While I will be able to make absolutely necessary repairs now required, the available funds will not admit of much-needed painting, and it is recommended that for the next fiscal year the sum of \$5,000 be appropriated.

Eighteenth.—For repairs to conservatory, Executive Mansion, \$6,000. The floor of this building is in such bad condition that in wetting down the plants the waste water percolates through the brick arches and endangers the safety of the structure. It should at once be replaced with a new covering of asphaltum; the old wooden benches should be replaced with slate slabs on iron frames, and new heating-pipes should replace the old ones, which are in bad condition, and of insufficient capacity. The necessity for this work cannot be overestimated, and it is hoped that this appropriation will be made.

Nineteenth.—Care and repair of bridges: For two draw-keepers at (navy-yard) Anacostia and Benning's bridge, \$1,440. It is respectfully recommended that provision be made for two bridge-keepers for this service, as in former years. The draw of the Anacostia bridge is required to be opened for small vessels running to the almshouse and jail, and to the upper waters of the Eastern branch. The services of two men are required to open this draw, and, in addition to this service, they have been employed in making minor repairs to this and Benning's bridge, the latter about two miles above.

Twentieth.—For replanking the roadway and foot-walks, and repairing iron work of Anacostia bridge, \$5,500. This bridge is probably subjected to more travel than any other in the District of Columbia, being the direct approach to the city

from the large agricultural district southeast of the Eastern branch of the Potomac. The condition of the wood-work is such as to demand immediate attention, and an appropriation is earnestly recommended for it.

Attention is invited to the fact that the original map of the City of Washington, on file in this office, which was approved by President Washington on March 2, 1797, has become so dilapidated by constant handling in court and elsewhere that it will soon be totally useless. This map was prepared by Mr. James R. Dermot, the city surveyor, in 1776. It is recommended that an appropriation of \$500 be made for preparing a correct copy of this original map, and that, after its approval by the Secretary of War, it be considered as available for use in courts of law, and the old one be filed away as a relic of the past.

APPENDIX N.

In explanation of the estimates for "Salaries and Expenses of the Hydrographic Office, Navy Department." (See pages 52 and 53.)

The Hydrographic Office as now reorganized, with its branches in the maritime cities and a decided policy chosen, that of advancing the maritime interests of the country, the estimates should be increased from that of last fiscal year.

The purchase of charts and sailing directions furnished to our ships of war is a large item of expense to this office, if the vessels are kept supplied, as at present, with only the latest editions. For the coming fiscal year at least \$7,000 will be needed, in anticipation of fitting out additional vessels. The expense incurred during the last fiscal year was \$3,500.

The electrotyping of the engraved copper-plates belonging to the office should be continued in order to save them. About one-fifth of the plates have now been electrotyped, but, under the present appropriation, the work must be deferred. At least \$5,000 will be needed for this purpose.

For continuing the series of charts of the West Indies and around South America, \$1,000. The balance of the increase is for the various purposes named in the estimates, all of which require a larger amount if the office is to be kept at its present standard.

The estimate for the branch offices has been increased by \$2,000. Up to the present time an enlisted man has been at each office; but these having been taken away, it will be necessary to employ an assistant messenger, at \$720, for each of the six offices.

Additional quarters should be rented for the printing and engraving, and the estimate is therefore increased \$300.

In 1874 the appropriation for this office was \$109,800. For the present year it is \$74,040. The work of the office is steadily expanding, and appropriations should be made commensurate with its work and usefulness.

The necessities and sphere of this office are given in detail in the annual report to the bureau.

The estimate for the civil establishment of the office has been increased from two clerks of class two and one clerk of class one to one clerk of class four, one of class three, one of class two, and one of class one, an increase of one clerk of class four, and \$200 for one clerk from class two to class three.

This clerical force will only be commensurate with the work actually necessary to be performed. The correspondence with foreign offices, consuls, the commanders of our ships of war and the merchant marine, the branch offices, merchants, and those interested in nautical matters, with the agents for the sale of charts, and keeping the accounts of the same, has increased, and with the present force cannot be properly done.

The present force of engravers should be increased by two additional, in order that as much work as possible should be done in the office under immediate supervision.

The draughting, engraving, and printing of the office is now performed in a rented building, but there is no watchman allowed to care for it out of office-hours. It contains very valuable property, and a watchman should be allowed.

APPENDIX O.

In regard to the estimates for the Naval Observatory. (See page 53.)

The services of the assistant astronomers become more valuable every year, and their pay should be put on such a basis as to give due recognition to their worth and attainments, and make it worth their while to continue permanently on the staff of the Observatory.

Nor less valuable are the services of the instrument-maker. Upon him devolve the onerous and responsible duties of keeping all instruments in use at the Observatory, of whatever name or character, in good repair and working order. This demands constant attention, skilled effort, and a thorough knowledge of the varied parts and details and delicate adjustments of all the apparatus in question; and the increase of \$200 per year to his pay is believed to be but a moderate recognition of the services rendered.

The work of reducing observations is still far behind. It is desirable that the work be completed at as early a date as possible, and the item for the pay of three computers, at \$1,200 each, is renewed.

The library is becoming so large and valuable that it is deemed advisable to ask for a copyist and indexer, to keep the constantly accumulating matter properly indexed and arranged for more convenient and ready professional use of all connected with this institution. For such object the sum of \$800 is submitted.

For the maintenance of the time service recently established, whereby the correct time is transmitted from the Observatory, by cable and wire, every day at meridian, to all the Departments in Washington, and to the cities of Boston, Newport, navy-yard at New York, Philadelphia, navy-yard at Washington, Fortress Monroe, Savannah, and New Orleans, the sum of \$5,000 is asked.

The control clocks, electrical connections, and time-balls for this important service require constant supervision to ensure the perfect results demanded, and the expense attendant upon the same should be provided for. The Western Union Telegraph Company has hitherto transmitted the time-signals to the distant points enumerated above without compensation, and it is submitted that the company should now begin to receive pay for its work.

At Greenwich and other observatories in Europe the work of photographing the sun every day at noon has been pursued for years. By this means the records of sun-spots, their number and motion, are secured in graphic form for the future.

use and comparison of the astronomer. To enable this Observatory to take up a similar line of work, and attempt to extend its scope still further, the sum of \$1,000 is submitted for the purchase of apparatus and materials.

The standard clock is somewhat irregular in its rate, due to the varying pressures of the atmosphere. It is believed that this irregularity can be eliminated by building an air-tight case around the clock, and for such purpose the estimate of \$300 is submitted.

The 600 feet of fire-hose asked for, at an estimated cost of \$600, is deemed to be absolutely necessary; the hose on hand is so old and worn that in case of fire it would be of no account whatever.

The estimate of \$5,000 for the general running expenses and repairs of the Observatory, slightly in excess of the estimate of last year, is believed to be moderate in view of the condition of the buildings, which are old and dilapidated, and require considerable repairs to put them in a creditable state. This condition of things has partly arisen from the fact that from year to year it has been expected that money would be granted by Congress for the erection of new buildings on the new site on the heights of Georgetown, and unless the intention of removing the Observatory be soon carried out, extensive repairs will be necessary to the present buildings to keep them from going to utter ruin.

Owners of lands adjacent to the new site complain of the lack of proper fencing on the part of the Government. There are no funds available for the renewal of the fences, or for any other purposes of repair and preservation of the buildings and belongings at the location in question, and a part of the increased amount asked for is intended for such objects. The property is very valuable, and, it is submitted, should be properly cared for.

APPENDIX P.

Relative to the estimate for "Salaries, Indian Office." (See page 58.)

DEPARTMENT OF THE INTERIOR,
Office of Indian Affairs, October 12, 1885.

SIR: I have the honor to enclose herewith an estimate of appropriations required for "Salaries, Office of Indian Affairs," for the fiscal year ending June 30, 1887, with the following explanatory remarks:

The amount and variety of business detail daily passing through this office, for the correctness and honesty of which I am responsible, is so great as to render a personal examination by any one man of the clerical work connected therewith an impossibility. I am therefore compelled in a majority of cases to rely wholly upon the ability and integrity of the chief clerk and the heads of the different divisions of the office, and for this reason I am anxious that the ability of the chief clerk and the different chiefs of divisions under him should be of the highest character obtainable, and to secure this, salaries commensurate with the responsibility and labor of their respective positions should be paid. A large amount of work, such as signing routine letters, &c., could be performed by an Assistant Commissioner, and for this reason, I have dropped in my estimate the salary of the chief clerk, and have asked for an Assistant Commissioner, who shall also perform the duty of chief clerk, at a salary of \$3,000, being an increase of salary of \$1,000 over that allowed at present to the chief clerk; and as he is to perform the duties of both chief clerk and Assistant Commissioner, this increase is proper and just.

The requested increase of \$200 each in the salaries of the financial clerk and of the chief of the land division, as well as the request for a chief of accounts division, at \$2,000 per annum, in place of a fourth-class clerk now performing that duty, I think proper and just, considering the ability required of these persons in the discharge of their responsible duties.

The additional fourth-class clerk submitted is for the payment of a "chief of files division," which duties are performed at present by a third-class clerk.

I have also estimated for one draughtsman, to receive the pay of a clerk of class three, instead of, as now appropriated, a clerk of class two. This, however, does not increase the number of clerks of class three over the number allowed for the current fiscal year.

An assistant superintendent of schools is estimated for, at the same salary as is now allowed to a "clerk of class four, who shall have charge of the educational division," which is in lieu of said clerk of class four.

Two char-women, at \$180 per annum each, are also asked for.

In connection with the above, I take the liberty to call your attention to the fact that even with the increase of the different salaries as recommended and the new employes submitted, my estimate is \$4,840 less than the amount appropriated for the present fiscal year, my estimate being for \$93,140, whereas the appropriation for the fiscal year 1886 for "Salaries, Indian Office," is \$97,980.

Very respectfully,

J. D. C. ATKINS,
Commissioner.

Hon. SECRETARY OF THE INTERIOR.

APPENDIX Q.

In relation to the estimates for "Salaries, Patent Office." (See pages 60 and 61.)

DEPARTMENT OF THE INTERIOR,
United States Patent Office, Washington, D. C., October 14, 1885.

SIR: Referring to my estimates for the fiscal year ending June 30, 1887, which were forwarded to you under date of the 26th ultimo, I desire to submit the following remarks in support of the increase requested:

The compensation of the Assistant Commissioner is not commensurate with the position, and is the same as that of the examiners-in-chief, whose superior he is. In case of the absence of the Commissioner the duties of the office devolve upon him, and they are as important as in any other branch of the Department. The First and Second Deputy Commissioners of Pensions receive \$3,600 a year each, and I have recommended an addition of \$500 per annum to the salary of the Assistant Commissioner.

The salary of the chief clerk is fixed by the statute at \$2,500 per annum, (see section 440, Revised Statutes,) but Congress has only appropriated \$2,250 for the past few years. The duties are onerous, and I urge that he receive the compensation which it was intended he should have, viz., \$2,500 per annum.

The act of July 7, 1884, provided for one law-clerk for this office, at \$2,000, although Commissioner Butterworth had recommended that the compensation be fixed at \$2,500. I concur in this recommendation, and have submitted an estimate accordingly. The law-clerk is of great aid to the Commissioner and Assistant Commissioner in searching for authorities, and great care, skill, and discrimination are required in this direction. He also represents the Commissioner before the courts in cases of appeal from his decision, and in cases where writs of *mandamus* or injunction are sought against the Commissioner.

I have also recommended that the number of principal examiners be increased from twenty-six to twenty-eight. Commissioner Butterworth found it necessary about a year ago to form another examining division, making twenty-seven in all. This division has been in charge of a first assistant examiner since its formation. A principal examiner should be provided for this division, as well as for another which I am considering establishing in order to facilitate the work. In 1855 there were twelve principal examiners and thirteen classes of invention, and 2,012 patents were granted that year. At this time there are 177 classes of invention and only twenty-six principal examiners, and during the past fiscal year 22,828 patents were issued, an increase of over 1,000 per cent., while the number of principal examiners has only been increased 133 per cent. The salary of a principal examiner was fixed at \$2,500 nearly forty years ago, (9 Stat., 231,) and section 440 of the Revised Statutes provides the same compensation. Congress, however, only appropriates \$2,400. I urgently recommend that this defect be cured.

I have also asked for an increase in the number of first, second, third, and fourth assistant examiners. In this estimate I have limited my request to a number which I believe to be absolutely necessary to secure a proper examination of applications for patents which come before the office.

The financial clerk, who is required to give a large bond, receives but \$2,000 per annum. All the money paid into this office passes through his hands, and he is responsible therefor. He must be faithful, competent, and accurate. In my judgment, his compensation should be fixed at not less than \$2,500 per annum, and I have submitted an estimate accordingly.

I have also asked in my estimates for an application clerk, at \$2,000 per annum, which would place him on the same footing with the other chiefs of divisions. He is charged with the supervision of the entry and registry of all applications for patents and caveats received in this office, and his duties require skill, discrimination, and experience.

I have asked for two additional clerks of class three, so as to provide an additional translator. One translator is not sufficient for this office, and this fact is forcibly demonstrated every day.

It has been necessary to decline to furnish translations from publications in the scientific library to persons outside who desire them and are willing to pay liberally therefor, as it is utterly impossible for one translator to do that work in conjunction with the other office duties devolving upon him.

A stenographer to the Commissioner has been repeatedly estimated for, but it does not appear to have had the favorable consideration of Congress. There is no officer under the Government who needs a stenographer more than the Commissioner of Patents. He has arguments before him daily, and without the aid of a stenographer he would be unable to promptly render decisions and otherwise dispatch business. I have been obliged to detail a clerk of class three for this purpose, but I submit there should be a special provision.

There are existing at this time twenty-seven examining divisions, and I contemplate establishing another, making twenty-eight in all. Each division requires a clerk of ability and experience to attend to the clerical work, and I have consequently submitted an estimate for twenty-eight, at a salary of \$1,200 each.

My estimates also include a request for a messenger, at \$840, as well as for twenty-five messenger-boys, at \$360 each. This addition to the force would be invaluable. As the office is now constituted, examiners are frequently required to go from one part of the building to another for information that a boy, at one-seventh the compensation, could as well obtain, thereby enabling the examiners to give more time to their appropriate work.

In conclusion, I beg to say that I have carefully considered these estimates, and have endeavored to present clearly the needs of the service.

Very respectfully, your obedient servant,

M. V. MONTGOMERY,
Commissioner.

Hon. SECRETARY OF THE TREASURY.

APPENDIX R.

In relation to the estimates for the Bureau of Education. (See page 62.)

DEPARTMENT OF THE INTERIOR,
Bureau of Education, Washington, D. C., October 13, 1885.

SIR: In submitting the estimates of this office for appropriations for the year 1887, I may be permitted to add a word of explanation.

* * * * *

I estimate for three watchmen, and may remark that when the Department of the Interior had an ample supply of watchmen they furnished the watchmen for the building occupied by this office, but since the superintendent of the Department buildings and of the force of watchmen has been so greatly called upon for service in the care of other buildings, it has been impossible, as he has informed me, to furnish the watchmen for this building in full, and since that date the time of two watchmen necessary for this building has been made up out of the time of laborers of this office voluntarily, in addition to their regular work. I may observe that the books and collection of educational appliances in the possession of this office have become very valuable. Some of them, if destroyed by fire, could not be replaced. Though they have come to the office by comparatively little expenditure of money, their purchase outright in the market would be very costly. Their loss by fire would be a great detriment to education. I ask, therefore, that the necessary watchmen for this service may be granted.

I submit a recommendation for an increase of \$500 to the present appropriation of \$500, for the purchase of books for the pedagogical library. When my service here commenced there was not a hundred volumes in the possession of the Government for use in this work. The number of volumes now in the library is 18,218, and the number of pamphlets, 47,800. Congress saw fit to give me annually \$1,000 for the library. By the care with which this small sum has been expended, the library has come to be pronounced by foreign experts as unique. Moreover, it is not only used primarily by the clerks of the office for the technical purposes of the office to abbreviate labor and save expenditure in other directions, but as it has become known to the educators of the country that there is such a literature of education, students and investigators are coming from a distance for its use, and the stream of inquiries for quotations and drafts upon it is steadily increasing. Besides, the literature of education throughout the world is multiplying rapidly, and if we would keep up with its progress more, instead of less, should be appropriated. Shall there not be one point in the United States where the educators of the country can be sure they will find the literature of their subject? I only ask that the \$500, some time since taken from the \$1,000 previously appropriated for this purpose, may be restored.

I submit an estimated increase of \$4,000 to the amount appropriated for the two purposes of (a) distribution and exchange of educational documents, and (b) for the exchange, cataloguing, and care of articles, apparatus, and appliances of the pedagogical museum. As there comes in upon the office from the different nations of the world the literature they are preparing upon the subject of education and their promotion of improvements in educational management by means of pedagogical museums, and I see how little is done in our own country for the same purpose, I am made to feel deeply the danger that we shall fall behind in the race of intelligence and virtue, and thereby also in the possession of the advantages of free government of which we justly boast.

The revolution of education in Japan, for instance, as it may be called, has been carried forward with great rapidity by the establishment of a separate building for the collection and exhibition and dissemination of pedagogical appliances from other portions of the world. The Republic of France, as is known, has organized an office of education modelled on this office in Washington, and in staking the perpetuity of its liberties on the education of its people makes pre-eminent among its instrumentalities the presentation of illustrations to the eye of articles showing the improvements in educational principles, methods, and appliances.

I have the honor to be, very respectfully, your obedient servant,

JOHN EATON,
Commissioner.

Hon. SECRETARY OF THE INTERIOR.

APPENDIX S.

In relation to the estimate for expenses of the Haytian Arbitration Commission. (See page 83.)

DEPARTMENT OF STATE,
Washington, November 4, 1885.

SIR: I have the honor to request that, in the estimates of appropriations for the next fiscal year, there be included a provision for the payment of this Government's share of the expense of printing, and of the amount of the arbitrator's compensation in the matter of the arbitration of the claims of Antonio Pelletier and A. H. Lazare against the Government of Hayti, as provided for by the protocols of agreement of May 24, 1884, and March 20, 1885, copies of which are herewith enclosed.

The total expense of printing is \$3,154.87, and the compensation of the arbitrator has been fixed at \$5,000, making, in all, \$8,154.87. One-half of this sum, viz., \$4,077.44, is payable by the United States, and to enable the United States to meet this obligation an appropriation is desired.

I have the honor to be, sir, your obedient servant,

T. F. BAYARD,
Secretary of State.

Hon. SECRETARY OF THE TREASURY.

APPENDIX T.

Statement showing the authorized active strength of the Army in commissioned officers, exclusive of the Signal Corps. (Estimate for Pay of the Army on pages 93-95.)

Corps.	Lieutenant-General.	Major-generals.	Brigadier-generals.	Aides, and military secretary.	Colonels.	Lieutenant-colonels.	Majors.	Captains, mounted.	Captains, not mounted.	Chaplains.	Storekeepers. APPENDIX W.

In relation to the estimate for the new Naval Observatory. (See page 162.)

U. S. NAVAL OBSERVATORY,
Washington, September 18, 1885.

SIR: No appropriation having yet been made for the erection of a new Naval Observatory upon the site purchased therefor under the act approved February 4, 1880, I have the honor to renew the estimate which was submitted by my predecessors in 1882, 1883, and 1884, and beg to request that it may be again submitted to Congress with the approval of the Department.

In anticipation of removal to the new site, no money of any moment has been expended at the present location for repairs and improvements for several years. As a consequence thereof, the buildings and appurtenances are fast getting into a dilapidated condition, hardly credible to a national institution of such prominence and character; and unless Congress, in its wisdom, sees fit to grant the money, or a part of it, submitted in the estimate for the proposed new structures, then it is urged that a reasonable sum be appropriated for the purpose of improving the condition of things here at the old point.

The sum asked for the new Observatory (\$586,138) is intended to cover all expenses of putting the establishment, on its removal, in perfect working condition in every way. It includes the erection of the Observatory buildings proper, quarters for the Superintendent, the observers, and others whose attendance is necessary at all times, especially during the night; the removal and remounting of the instruments, construction of roads, grading and fencing, and other details of like character.

Plans for the proposed building were prepared in 1881 under the supervision of the then Superintendent, the late Rear-Admiral John Rodgers, U. S. N. After completion, they were submitted to some of the leading scientists of the country for examination, and, receiving their approval, were adopted by the commission authorized by Congress to take cognizance of the matter. They are believed to be in the main all that is desirable.

The present location is unhealthy in the extreme, and those who are called upon for night service suffer more or less from malaria a good part of the time. Fogs also, gathering over the Potomac at certain seasons of the year, frequently obstruct the observers, and many desired opportunities for astronomical work are lost in consequence. On the other hand, the terrene surroundings and influences and atmospheric conditions at the new site are very salubrious and favorable, and it is to be hoped that Congress will give such facts careful consideration when the estimate in question is laid before it.

I also submit, in connection with this subject, a communication from the late Supervising Architect of the Treasury to the Committee on Appropriations of House of Representatives in 1882.

Very respectfully,

GEO. E. BELKNAP,
Commodore, U. S. N., Superintendent.

Captain J. G. WALKER, U. S. N.,
Chief of Bureau of Navigation, Navy Department.

TREASURY DEPARTMENT,
Office of the Supervising Architect, April 22, 1882.

SIR: In compliance with the request of your committee, conveyed by letter of the 12th instant, I have examined the plans and specifications for the proposed building for the Naval Observatory. The present buildings are old and dilapidated, and the interests of the public service require that the new building should be erected as speedily as possible.

I estimate that the lowest amount that would reasonably serve for the first year's work would be about one-half of the amount proposed to be appropriated, say two hundred and seventy-five thousand dollars, (\$275,000.) I think, however, the Government interests would best be served by an appropriation of the entire amount estimated for the work.

Very respectfully,

J. G. HILL,
Supervising Architect.

Hon. FRANK HISCOCK,
Chairman Committee on Appropriations, House of Representatives.

SEPTEMBER 26, 1885.

Respectfully forwarded to the Honorable Secretary of the Navy.

J. G. WALKER,
Chief of Bureau.

APPENDIX X.

In relation to the estimates for Buildings, Reform School, District of Columbia. (See page 164.)

REFORM SCHOOL OF THE DISTRICT OF COLUMBIA,
Washington, September 22, 1885.

SIR: At the meeting of the board of trustees last evening I was instructed to submit to you for your favorable consideration, and due submission to Congress, the following estimates for buildings and grounds of the Reform School, under your supervision:

For one family building, of brick and stone, complete, to include steam-heating apparatus, gas and water supply.....	\$15,000
For one chapel building, of stone and brick, including steam-heating, gas-fixtures, and furniture, complete.....	7,500
For one brick tank-house, with wrought-iron tanks, with a capacity of not less than 35,000 gallons.....	4,500
For grading, draining, and permanently improving the grounds in front of main building.....	1,500

28,500

The estimates for the additional family building and for the chapel building have been submitted to your office and to Congress for several years past, and the need therefor has constantly increased. The estimate for a brick tank-house is submitted for the first time, the board believing it to be the best method of permanently securing a supply of water to all the buildings at all times, without danger to the walls of the main building as at present, or of interruption in case of fire.

In the annual report, to be submitted to you in the coming month, fuller information and explanation will be given you in the above matters, which I trust will receive attention at your hands.

I have the honor to be, very respectfully, your obedient servant,

GEO. W. ADAMS,
President of the Board of Trustees of the Reform School, District of Columbia.

Hon. A. H. GARLAND,
Attorney-General of the United States.

APPENDIX Y.

Explanation of estimate for building for Army Medical Museum and Library. (Estimate on page 174.)

OFFICE OF BUILDING FOR ARMY MEDICAL MUSEUM AND LIBRARY,
612 Seventeenth Street, Washington, D. C., November 11, 1885.

SIR: I have the honor to return the sheet of estimates from the Surgeon-General's Office, referred for report as to necessity for this estimate.

The "stacks of book-cases in library hall, including iron supports, stairs, and perforated gallery-floors, \$27,600," are probably considered as furniture, and would seem to be necessary.

The same is true "for shelving and cases for record and pension division, \$2,500; for cases for museum, \$14,500; for shelving and cases for centre building, \$2,500; for carpets and furniture, \$3,000; for gas fixtures for entire building, \$1,050."

By the terms of the specifications prepared by the Surgeon-General, and upon which a contract was made with Bright & Humphrey, Portland-cement floors are to "be laid in the library and museum, including gallery, 1½ inches thick, put on in two layers."

These floors will be fire-proof, substantial and plain, and will last some years. I should think the ornamentation of the tile floors should be put off for some years.

I understand a project is being prepared by the Surgeon-General for a boiler house, including latrines and coal-vaults, the cost of which is to fall within the appropriation of March 2, 1885. Such a building would seem to be necessary to complete the "building for Army Medical Museum and Library," and if approved by the commission created by the act of March 2, 1885, can be constructed out of existing appropriations, and will render the estimate of \$6,500 unnecessary.

Very respectfully, your obedient servant,

THOS. LINCOLN CASEY,
Colonel, Corps of Engineers.

Hon. THE SECRETARY OF WAR.

APPENDIX Z.

Extract from letter of Acting Chief Signal Officer, submitting the estimates for the fiscal year 1887. (Estimates on pages 45, 49, and 174, and pages 214 to 221.)

SIGNAL OFFICE, WAR DEPARTMENT,
Washington City, August 29, 1885.

SIR: I have the honor to submit herewith estimate of appropriations required for the service of the fiscal year ending June 30, 1887, as follows:

Salaries.....	\$50,660 00	Signal-Service pay.....	\$255,081 30
Stationery.....	5,000 00	Signal-Service subsistence.....	173,253 75
Contingent expenses.....	20,100 00	Signal-Service regular supplies.....	72,617 75
Rents.....	8,000 00	Signal-Service incidental expenses, (regular).....	4,248 50
Postage.....	1,200 00	Signal-Service transportation.....	31,875 00
Expenses Signal Service, U. S. A., (Army).	12,400 00	Signal-Service barracks and quarters.....	118,620 00
Meteorological observatory building.....	75,000 00	Signal-Service clothing, camp and garrison equipage.....	2,950 00
Printing and binding.....	75,000 00	Signal-Service medical department.....	5,724 36
Incidental expenses, (extra-duty pay—special).....	33,762 50	Signal-Service ordnance-stores.....	1,452 00
Observation and report of storms.....	405,927 50		
Construction, maintenance, and repair military-telegraph lines.....	31,320 00		1,384,192 66

In making up these estimates, the actual needs of the service only have been considered, and it is urgently requested that the estimates may be passed as submitted. It is particularly desired that, in making the appropriations, the exact language of the estimates may be used, in order that there may be no misunderstanding of the scope of the appropriations after they are passed, and that nothing may be left for construction or interpretation.

The work of this bureau has been frequently and seriously hampered by vague and ambiguous wording of the appropriations, operating, as they have by construction, antagonistic to the best interests of this bureau.

Especially is it to be hoped that the matter of printing and binding may be definitely settled.

* * * * *

I am, very respectfully, your obedient servant,

FRANCIS B. JONES,
Captain and A. Q. M., Acting Chief Signal Officer, U. S. A.

Hon. THE SECRETARY OF WAR.

Estimate of Chief Signal Officer for printing and binding. (The estimate of the Secretary of War for that object will be found on page 194.)

The Chief Signal Officer's estimate for printing and binding for his office for 1887 is as follows: For printing and binding (including lithographing, mapping, and engraving) of the necessary annual reports, books, pamphlets, forms, circulars, posters, "Professional Papers," "Signal-Service Notes," "Tri-daily Meteorological Record," "card catalogues," and for any other necessary printing which, in the opinion of the Chief Signal Officer, may be required to carry into effect the appropriations made for the support of this service, \$75,000. NOTE: \$50,000 of this is for continuing the publication of the "Tri-daily Meteorological Record," and \$8,000 for the printing of 1,500 copies of volume I, of 900 pages, (there will be another volume of same size,) of a card catalogue of meteorological bibliography. This catalogue is absolutely needed by scientific men, there being no general bibliography of meteorology in existence, and this office is in possession of 40,000 titles procured and contrib-

uted by prominent meteorologists throughout the world, which titles, comprising, as they do, an approximately complete meteorological bibliography, will prove an indispensable aid to this office, as well as to all workers in meteorology. It is requested that the language of this estimate be used in making the appropriation, in order that the several items asked for may be specifically provided for and authorized by law, as required by the act of Congress approved July 7, 1884, (23 Stat., page 227.) (W. B. Hazen, Chief Signal Officer, U. S. A., August 1, 1885.)

APPENDIX Aa.

Explanation of estimate of Chief of Engineers of \$5,000 for publishing professional papers. (Estimate on page 194.)

OFFICE OF THE CHIEF OF ENGINEERS, UNITED STATES ARMY,
Washington, D. C., September 10, 1885.

SIR: With my annual reports for the past fiscal year I have the honor to submit an estimate of \$5,000, to be applied to publishing professional papers of the Corps of Engineers, and such translations by officers of the corps as may be of interest and importance to my Department.

I respectfully request that this estimate may be forwarded, strengthened by your favorable action, provided you deem the following reasons sufficient:

It is of great moment to the Corps of Engineers, and the profession generally, that officers should be encouraged in compiling information in regard to their profession, or in recording their own experience in works. By this means information is codified and offered in a practical shape, which might otherwise be wanting when the necessity for its application should arise. Unfortunately compilations of this character seldom make a profitable book, and the officer cannot afford to publish it at his own expense.

The amount of money to be expended in publishing these papers would, in my opinion, bear no proportion to the amount saved by imparting such information.

Very respectfully, your obedient servant,

JOHN NEWTON,
Chief of Engineers, Brig. and Bvt. Maj. Gen.

Hon. WILLIAM C. ENDICOTT, *Secretary of War.*

OFFICE OF THE CHIEF OF ENGINEERS, UNITED STATES ARMY,
Washington, D. C., February 9, 1885.

SIR: I have the honor to invite attention to the paragraph in the act of Congress approved July 7, 1884, known as the sundry civil bill, which prohibits the printing by order of the head of any Executive Department, &c., of any document or matter of any character whatever, except that which is authorized by law and necessary to administer the public business.

I respectfully suggest that some action be taken whereby the power heretofore held by the heads of Executive Departments may be restored, so that documents of interest and importance may be printed and distributed without delay.

Up to the passage of the act mentioned, it had been the custom to print from time to time such engineering papers, professional and technical, as met with the approval of the Secretary of War, and to distribute them to the Corps of Engineers, the Ordnance Department, to different bureaus of various departments, to civil engineers, colleges, libraries, &c.

The printing of these documents, as a rule, was comparatively inexpensive, and the information distributed by means of them has been important and gladly received.

I transmit herewith copies of the documents so published which have emanated from this office during the years 1883 and 1884, in order that the Secretary of War may inspect their character. Many applications have been received from all parts of the country for some of these publications.

At this time there are several important papers in this office the publication of which would be of interest to the Corps of Engineer, and to the engineering profession generally throughout the country.

Very respectfully, your obedient servant,

JOHN NEWTON,
Chief of Engineers, Brig. and Bvt. Maj. Gen.

Hon. ROBERT T. LINCOLN, *Secretary of War.*

LIST.

Studies of Coast Defence applied to the Gulf of Spezia, by Caesar Guarasci, Colonel of Engineers. Translated by First Lieutenant G. McC. Derby, Corps of Engineers, U. S. Army.

Professional Notes, by Captain Edward Maguire, Corps of Engineers, U. S. Army.

Total amount of estimates for 1887.....		†\$408,775 00
Appropriation for 1885.....	\$392,000 00	
Total cost of work for 1885.....		360,482 38

Excess of estimates for 1887 over cost of work, 1885.....		48,292 62
Total amount of estimates for the fiscal year ending June 30, 1886, is.....		428,200 00
Amount appropriated for the fiscal year ending June 30, 1886, is.....		329,400 00

* No comparison can be made in the case of the Labor Bureau, as no printing was done for that office until five months prior to the close of the fiscal year.
† Reduced to \$403,775 00.

APPENDIX Cc.

In relation to the estimates for the Bureau of Engraving and Printing. (See pages 197, 198, and 202.)

TREASURY DEPARTMENT,
Bureau of Engraving and Printing, November 13, 1885.

SIR: In compliance with the directions given in your circular letter of August 1, 1885, I have the honor to submit herewith an estimate of the appropriations required for the support of the Bureau of Engraving and Printing for the fiscal year 1887.

Conforming to the requirements of the act of August 7, 1882, (22 Stats., 308,) and to the general policy of Congress in the recent appropriations made for the Departments in Washington, this estimate is made specific as to the number and salaries of the persons who may be employed, and as to the amount that may be spent for plate-printing and for materials. All of the expenses of this bureau, whether for services or materials, with the exception of the salaries of the small number of employés appropriated for by the legislative, executive, and judicial appropriation act, are now paid in the first instance out of the appropriation for labor and expenses of engraving and printing. This appropriation provides only for the production of national-bank notes, certificates of letters-patent, and notes, bonds, and other securities of the United States. The estimated cost of all the other work of the bureau, including revenue-stamps, disbursing officers' checks, and a great variety of miscellaneous work, constituting the greater share of the work executed, is transferred to the appropriation for labor and expenses from the appropriations to which it is properly chargeable.

This method of appropriating is objectionable in many ways. It does not definitely fix the amount which may be expended for either services or materials, and thereby permits the employment of an excessive number of people during the earlier part of the fiscal year, some of whom must, if the appropriation runs short, be discharged or furloughed before its close, and it leads to great and unnecessary complexity in the keeping of the accounts.

There seems to be no good reason why the expenses of this bureau, unlike those of any other, should be paid out of a number of different appropriations. As the establishment for engraving and printing the securities of the Government, it is submitted that it should, like the other bureaus of the Department, be provided for by a distinct specific appropriation. This method of appropriating has many advantages. It will fix a limit to the number of employés which cannot be exceeded; it will save the complexity in the accounts which now springs from the apportionment of the expenses of the bureau among a number of different appropriations, and it will fix the status of the bureau as one of the regular bureaus of the Department.

This estimate is intended to cover all of the expenses of the Bureau of Engraving and Printing, whether heretofore paid out of the appropriation for labor and expenses, transferred to that appropriation from other appropriations, or reimbursed to it by private parties, as is the cost of engraving the plates for national banks. The appropriations to which these expenses have heretofore been charged should, so far as practicable, be either discontinued or reduced by the amount heretofore

applied to engraving and printing. Where it is not practicable to thus reduce the appropriation, as will be the case with the appropriations to which many small jobs of work done for other Departments have heretofore been charged, the cost of the work may still be charged to the proper appropriation and deposited in the Treasury as a miscellaneous receipt, instead of going to swell the appropriation for labor and expenses. The cost of doing work for private parties should be deposited in the same way, so that by the amount expended by the bureau cannot by any means be increased beyond the amount appropriated for its support by Congress. Should new work at any time be by law assigned to the bureau, there could be added to the appropriation an amount sufficient to pay the operatives and purchase the materials required to produce it.

In addition to the estimate herewith submitted, another estimate, amounting to \$17,450, has been submitted for salaries of the Bureau of Engraving and Printing. The combined appropriations estimated for are, therefore, as follows:

Compensation of employes.....	\$327, 740
Plate-printing.....	328, 380
Materials and miscellaneous expenses.....	141, 820
	<u>\$797, 940</u>
Salaries.....	17, 450
	<u>815, 390</u>

The salaries of the employes in the office of the custodian of dies, rolls, and plates, the wages of the operatives employed and the cost of materials used in the sealing of United States notes, in the office of the Treasurer of the United States, and the pay of the special witness of the destruction of the United States securities, are not embraced in this estimate. These items are considered as not properly chargeable to the work of the bureau, and should be included in the estimates of the branches of the Department to which they properly belong. The estimated amount of these items, at the rates paid in 1885, is \$15,415.75. Adding to this the amount of the estimates for 1887, \$815,390, makes the sum to be compared with the appropriation for the fiscal year 1886, \$830,805.75.

The appropriations for the support of the bureau for the fiscal year 1886 were as follows:

Labor and expenses of engraving and printing.....	\$475, 700 00
Salaries.....	24, 730 00
	<u>500, 430 00</u>

It was estimated that amounts would be transferred from other appropriations and deposited by private parties to the credit of the appropriation for labor and expenses during the fiscal year 1886, as follows:

For internal-revenue stamps.....	390, 000 00
For customs stamps, checks, certificates, seals, and dies.....	10, 000 00
For license certificates.....	4, 700 00
For drafts and warrants of the Post-Office Department.....	2, 300 00
For checks and drafts.....	23, 000 00
For face-plates for national currency.....	25, 000 00

Making the total amount available for the current fiscal year.....	955, 430 00
The estimate for the fiscal year 1887 is.....	830, 805 75

Showing a reduction in the estimate for 1887, as compared with the appropriations for 1886, of..... 124, 624 25

The following statement shows the estimated amount of work to be done in the fiscal year 1887, and the amount which it would cost at the rates which prevailed in the fiscal year 1885, omitting from the cost the items omitted from the estimate for 1887:

Appropriation or source of receipt.	Class of work.	Number of sheets.	Cost at the rates of 1885.
Labor and expenses.....	United States notes, currency, silver, and gold certificates..	6, 000, 000	\$393, 044 56
Do.....	United States registered bonds for transfer.....	39, 800	2, 657 15

		<u>29, 532, 550</u>	<u>940, 888 70</u>

From these figures it appears that it is proposed to execute in 1887, at a cost of \$815,390, an amount of work which would have cost \$940,888.70 at the rates which prevailed in 1885. The reduction or saving is, therefore, \$125,498.70, which sum accurately represents the result of the economies which have recently been instituted in the bureau, and which have caused the reduction in the estimates for 1887.

The Treasurer of the United States estimates that there will be required during the fiscal year 1887, 6,000,000 sheets of United States notes and certificates, if the printing of one and two dollar notes is resumed. In the absence of any legislation on the subject, it is assumed that the issue of those denominations will be resumed, and the estimate is accordingly so made as to provide for the printing of 6,000,000 sheets.

Very respectfully,

E. O. GRAVES,
Chief of Bureau.

Hon. SECRETARY OF THE TREASURY.

APPENDIX Dd.

Explanation of the estimates for Coast and Geodetic Survey. (See pages 199 to 202.)

UNITED STATES AND GEODETIC SURVEY OFFICE,
Washington, October 12, 1885.

SIR: I have the honor of submitting herewith the estimates of the appropriations required for the United States Coast and Geodetic Survey for the fiscal year ending June 30, 1887, and respectfully request your approval thereof.

If it were definitely determined that the Coast and Geodetic Survey should continue to exist as a separate bureau, an immediate modification of its existing plan of organization, involving a corresponding modification in its efficiency and cost, would seem to be advisable. Such a modification should involve a reduction in the number and expense of the field, or so-called "normal force," and an increase in its efficiency by the elimination of the ineffective members, by so classifying the residue as to stimulate the junior element with a prospect of reasonably early promotion as the reward of skill and activity, and by abolishing entirely the system of payments and promotions upon the basis of longevity, and putting them absolutely, as far as practicable, upon the basis of merit as indicated by the individual records of work performed.

In view, however, of the reference of matters relating to the organization of this and certain other bureaus of the Government to a joint commission appointed by Congress, and the consequent uncertainty involving the immediate future of this bureau, I have not felt warranted in attempting to anticipate Congressional action by submitting estimates predicated upon an experimental and temporary scheme of reorganization. * The accompanying schedule of estimates is therefore made upon the basis of the existing plan of organization of the bureau as embodied in the regulations for the government of the Coast and Geodetic Survey, issued from the Treasury Department February 18, 1881.

While the aggregate amount asked for (\$568,060) is somewhat larger than the amount appropriated for the current year, (\$553,496.39,) it is less by the sum of \$67,510 than the amount asked for the current year. The amount asked for the various classes of field-work is \$32,800 more than the amount appropriated for that class of work for the current year, while the amount asked for pay of field officers, office force, and office expenses is \$18,236.39 less than the amount appropriated for the current year for those items of expense. In other words, the estimates now submitted contemplate the performance of more work at a less cost for salaries and office expenses than was practicable under the appropriations for the current year.

The estimate for "party expenses," including work of furnishing points for State surveys, for transcontinental geodetic work, and for resurveys of New York harbor and San Francisco bay, &c., covers the pay of those temporarily employed as recorders, signal-men, hands, cooks, drivers, or boatmen, or in any other capacity, except as members of the permanent or "normal" force; the subsistence of the chiefs and employes of parties; travelling expenses to and from the field, and local transportation in the vicinity of field-work; the transportation of instruments, tents, stationery, materials, outfit, and equipage to and from the field and in the field, and the purchase of all requisite materials, supplies, tents, boats, stationery, camp equipage, and all other necessary expenses properly incident to the prosecution of the work in the field.

An increase of the appropriation for "party expenses," as compared with the appropriations under that head for the current year, is, I believe, absolutely necessary to "a proper economic proportion between the expense of putting the various parties in the field and the length of time that they can be kept at work." After deducting from each appropriation for specific work the expense of transporting the field party and equipage to and from the locality of that work, the balance of the appropriation measures the amount of effective field-work capable of being done. To so stint the appropriation as to compel the withdrawal of parties from the field before the expiration of the season favorable to effective work, shortens the period of active work, lengthens the period of comparative idleness, increases the aggregate cost, and delays the final completion of the work, and is, therefore, a measure of false economy.

In conformity with the views of Congress, as indicated in the appropriation for the current year, the estimates are itemized for the various purposes mentioned. Under that form of appropriation the degree of caution necessary to avoid incurring deficiencies compels the withdrawal of parties from the field before the amounts appropriated for their respective schemes of work are expended. This results in the untimely interruption of much of the work, and in the creation of unexpended balances available for no purpose in the promotion of the business of the bureau, unless a sufficient proportion of the appropriations can be made interchangeable to cover deficiencies resulting from the continuance of field-work in some localities as long as favorable climatic conditions justify it. The 10 per cent. of interchangeability of the appropriations for the current fiscal year does not afford a sufficient margin to enable the Superintendent to adapt the expenditures and the field-work to the varying conditions of the different localities, and so to produce the best results from the amounts expended. It is therefore earnestly hoped that upon that point the suggestion of the estimates may be incorporated into the appropriation act, and 20 per cent. of the amounts appropriated for "party expenses" be made available interchangeably for expenditure on the objects named.

In making estimates for salaries, the phrase "not exceeding" is employed with the purpose of determining their maximum, leaving, without apparent limitation, the authority of the Secretary of the Treasury, or the Superintendent, to reduce any of them in his discretion.

In apportioning the amounts asked for, the idea of prosecuting the survey of the coasts—the original purpose of this bureau—to an early completion, has been kept constantly in view.

In recognition of the practical value of geodesy to exact results in surveys of the public domain, as well as with a view to the maintenance of the honorable distinction achieved by this country in the scientific world, the estimate is somewhat increased beyond the amount appropriated for the current year for geodetic work, the scientific importance of which has enlisted in its prosecution abroad an association of the leading governments of Europe.

It is hoped that the amount asked for, for resurvey of New York harbor, will be sufficient to complete the work, the progress of which during the current year has developed several dangers to navigation in those waters.

Included in the estimates is the sum of \$30,000 for the resurvey of San Francisco bay and of the Straits of Karquines, and examination of San Francisco bar and entrance, and of the mouths of the Sacramento and San Joaquin rivers. The importance of these waters to the great commerce of the Pacific, and the marked changes constantly occurring in their character since the former surveys were concluded, which changes are largely due to the deposits of debris from hydraulic mining and from the heavy freshets to which the rivers mentioned are subject, render such resurvey highly desirable.

Very respectfully,

F. M. THORN, *Superintendent.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX Ee.

Estimate of expenditures, under the appropriation for "Pay of assistant custodians and janitors," during the fiscal year ending June 30, 1887. (See page 203.)

APPENDIX Gg.

In relation to the estimate for support of the indigent insane of the District of Columbia. (See page 210.)

GOVERNMENT HOSPITAL FOR THE INSANE,
Washington, D. C., October 13, 1885.

SIR: I have the honor to acknowledge the receipt of your communication of the 12th instant, requesting “an estimate of the cost of supporting indigent insane patients in the Government Hospital for the Insane from the District of Columbia during the fiscal year ending June 30, 1887.”

The number of indigent insane persons admitted to the hospital from the District of Columbia, under authority of sections 4844 and 4850 of the Revised Statutes, who remained under treatment June 30, 1885, was 529. The annual ratio of increase of this class, during a period of some years past, has slightly exceeded 6 per cent. Assuming a continued increase of 6 per cent., the average number to be provided for, for the fiscal year ending June 30, 1887, would be 581.

The cost of maintenance of each patient at the hospital, exclusive of repairs, is estimated at \$225 per annum, making the total expense of the above class for the fiscal year ending June 30, 1887, \$130,725.

As a matter of fact, due perhaps to the very considerable number of transient insane persons who have been found within the District limits and committed to the hospital, Congress has for many years provided for a portion only of this expense in the bill for the District of Columbia, appropriating the remainder in the sundry civil bill. The amount provided in the District bill for the present fiscal year is \$53,462. Should Congress see fit to increase this in the usual ratio, the amount in that bill for the fiscal year ending June 30, 1887, will be \$56,670, as is set forth in a foot-note to the estimates for the support of the hospital for that year.

I am, sir, very respectfully, your obedient servant,

W. W. GODDING,
Superintendent.

Hon. M. J. DURHAM,
First Comptroller, U. S. Treasury.

APPENDIX H h.

Letter submitting estimate for maintenance of Garfield Hospital. (Estimate on page 222.)

GARFIELD MEMORIAL HOSPITAL,
Boundary Street, head of Tenth, City of Washington, November 3, 1885.

SIR: In accordance with a vote of the board of directors of the Garfield Memorial Hospital, of which I have the honor to be president, I have to request that in the estimates to be submitted by you to Congress for the fiscal year ending June 30, 1887, you will include "The Garfield Memorial Hospital, for the maintenance, to enable it to provide medical and surgical treatment to persons unable to pay therefor, \$10,000."

In the sundry civil appropriation bill of last March (23 Stat., 507) the sum appropriated was \$7,500. This is found to be hardly sufficient for the purpose of the special objects of this charity.

I beg to call your attention to the fact that this is the only hospital in the District strictly entitled to the name of a "general hospital," uncontracted by any limitation to sex, age, color, form of disease, residence, or nationality. It is open to all.

We have now a building and grounds which in a few weeks we hope to be able to say is free from incumbrance, costing about \$55,000, at the head of Tenth street, on Boundary.

Since the opening of the hospital in the summer of 1884, a little over a year ago, there have been treated 301 patients, of whom 197 were free. This number of poor patients is likely to increase, and is increasing, and hence we ask the additional sum to make the appropriation, \$10,000.

The board invite your personal inspection of the hospital and proper attention to the vouchers for its expenditure of the appropriation as the accounts are submitted to you from time to time by the treasurer.

Begging your pardon for the delay in making this communication, I have the honor to be your obedient servant,
SAM'L F. MILLER.

Hon. WILLIAM C. ENDICOTT,
Secretary of War.

APPENDIX I i.

Statement of items, &c., to accompany estimate of Artillery School. (Estimate on page 225.)

DEPARTMENT OF ARTILLERY.

1 set mechanical telephones, with insulators, use on firing-grounds.....	\$50 00	96 cakes India ink.....	\$17 28
1 binocular telescope, nickel frame, range-finder attachment, use in artillery practice.....	100 00	2 pints Carter's crimson fluid.....	2 00
1 mean-time break-circuit split-time chronometer, with compensating balance, for use with chronoscope and chronograph.....	350 00	1 dozen camel's-hair brushes, assorted.....	3 00
50 pounds chemically pure mercury, for densimeters.....	40 00	2 gross mapping-pens.....	9 00
Cases for models, glass doors.....	250 00	3 gross steel-pens.....	1 80
10 Marcel-Duprez registers, arranged for using one or more...	1,000 00	60 pieces Jarber's white rubber.....	1 25
High explosives, and fuses for same.....	230 00	12 pieces sponge-rubber.....	2 40
Floating targets and moorings.....	180 00	5 gross thumb-tacks.....	8 75
Wire target-screens and frames for obtaining velocities of projectiles and constructing range-tables.....	145 00	Stationery:	
Gutta-percha for inspecting cannon.....	15 00	2 reams letter-paper.....	6 00
Total Department of Artillery.....	2,360 00	6 dozen pen-holders.....	2 25
		4 dozen manila pads.....	8 68
		4 boxes paper-fasteners.....	3 00
		3 bottles mucilage.....	1 00
		Surveying instruments:	
		Repairs to V-level.....	50 00
		Repairs to 3 box-sextants.....	60 00
		Repairs to other instruments.....	100 00
		Additional scale, and repairs to the plotting-table for plotting shot.....	50 00
		2 tapes, steel, 100 feet, Chesterman's.....	32 00
		2 tapes, steel, 50 feet, Chesterman's.....	17 00
		4 tapes, metallic, 100 feet.....	19 00
		4 tapes, metallic, 50 feet.....	12 00
		5 sets tally-arrows.....	8 25
		20 prismatic compasses.....	200 00
		Attaching micrometers to transit.....	50 00
		Tripod for telescope.....	30 00
		Miscellaneous:	
		2 chamois-skins.....	80
		2 painter's duster.....	90
		10 yards white muslin.....	80
		6 papers tacks.....	84

DEPARTMENT OF MILITARY ART.

Purchase of maps, drawing material, &c..... \$250 00

DEPARTMENT OF ENGINEERING.

Drawing material:

17 sketch-blocks, 10 by 14, Whatman's.....	\$38 25
24 sketch-blocks, 10 by 16, wht. wove, C. B.....	18 00
20 dozen Siberian pencils.....	20 00
60 India ink, bottles of, photographing.....	12 00
3 quarts writing-fluid, Arnold's.....	3 60
1 box water-colors.....	2 00

Statement of items, &c., to accompany estimate of Artillery School—Continued.

10 boxes chalk crayon.....	\$0 25	2½ gross platinum wire, extra fine.....	\$1 00
6 plumb-bobs.....	15 00	1 ream filter-paper, French.....	5 00
1 pound mercury.....	1 00	1,000 filters, round-cut, 5½.....	1 50
2 cases, glass doors, storage of instruments.....	30 00	1,000 filters, round-cut, 7.....	1 50
20 stands for recitation-rooms.....	80 00	1,000 filters, round-cut, 9.....	2 50

APPENDIX Jj.

*Explanation of estimates for support of the National Home for Disabled Volunteer Soldiers. (Estimate on page 225.)*99 NASSAU STREET,
New York, 23 June, 1885.

DEAR SIR: In accordance with your instructions, I had an interview with General McClellan about the needs of the Southern Branch of the National Home for Disabled Volunteer Soldiers, and went over in detail with him the matters discussed in my recent interviews with yourself. He has expressed himself satisfied with the general project for the much-needed improvement of the Hampton Home. The matters referred to in these interviews are stated below:

1. A general system should be adopted for the supply of heat, water, and power throughout the entire home. A central boiler-station capable of containing eight boilers, needed at present, to be increased to perhaps sixteen boilers, as the number of inmates of the home increases, should be located near the point marked on the map which accompanies this report, in which all the boilers used on the property should be located, and from which the steam for cooking, heating, pumping, and other purposes should be carried by means of pipes laid underground to all points where it is needed.

A large chimney should be erected at this boiler-house, capable of producing sufficient draught for the sixteen boilers which may be needed in the near future. Additional pumps should be located in this boiler-house, and also a feed-water heater and a hot-well, for the storage of the return water from the steam-pipes. Steam mains, well protected against loss of heat, should be laid underground from this central boiler-station to the pavilion near the western extremity of the grounds and to the hospital on the east, with branches to connect with the various buildings.

There are several barracks not now heated by steam. When the steam-pipes are laid these buildings will require radiators. The boiler-house, the chimney, and the steam apparatus above referred to will probably cost about \$45,000.

2. *Water supply.*—Wells, or filtering-galleries, properly located, should be constructed, and additional tanks, pumps, and water mains and branches provided for the proper distribution of the water, the supply of which at present is insufficient. Several of the barracks are not supplied with water. Additional wash-basins and bath-tubs should be provided and located in the buildings already constructed. Besides this, the governor desires the erection of a separate large bath-house.

The necessary arrangements of additional water supply will probably cost from \$5,000 to \$7,000, exclusive of buildings for bath-houses.

3. *Sewerage.*—Proper arrangements for the disposal of the sewage are essential to the health and comfort of the home. The system proposed by Doctor Billings, with some modifications accepted by that gentleman, seems to be well adapted to the case. It is briefly this: To locate a reservoir for the collection of the sewage from the property owned by the home at a point on Hampton creek shown on the map; the sewage to be pumped from this reservoir out into the channel on the Hampton Roads front, at the commencement of the fall of every tide. The sewage from the hospital and other buildings on the property leased by the home is to be disposed of in a similar way, by a reservoir and pumping station in John's creek, for which arrangements have already been made. Additional water-closets and urinals are needed everywhere. The old boiler-house could be conveniently used for a large water-closet station, to be ventilated through the chimney. The above-mentioned sewerage and water-closet arrangements would cost from \$10,000 to \$15,000, according to the number of closets located and the distance to which the pipes, &c., would have to be carried.

4. *Light.*—The present gas, supplied from a Springfield gas-machine, is stated to be about one-half what is required, and the gas is of poor quality. Additional gas supply will be needed this winter for the new hospitals. A Maxim gas-machine to furnish 2,000 to 2,500 lights can be obtained and put up for about \$5,000 or \$6,000. The governor earnestly desires to use electric light throughout the home. This would call for an expenditure of \$25,000 to \$30,000.

5. *Hampton creek.*—In connection with the general sewerage system above referred to, the improvement of Hampton creek needs attention. It is now in a disgusting condition. The shore should be built out to about the line of low water, as indicated on the map, and the large sewage reservoir located in the present bed of the creek, as also thereon indicated. This shore line can be most conveniently and economically built up by driving piles about the low-water line and filling behind them with oyster-shells and sand dredged from the creek, or from the shore of the Hampton Roads. Much valuable ground can thus be reclaimed. This work would cost probably \$10,000.

6. *Laundry*.—A suitable building is much needed for a laundry. It can be located near the proposed new boiler-house. This building, fitted with new machinery and apparatus conveniently arranged, would cost about \$15,000.

7. *John's creek*.—The improvement of John's creek needs attention in connection with the completion of the new hospital, in order that the marsh may be filled up and the grounds of the hospital site graded before the buildings are occupied. This improvement can be best and most economically accomplished by dredging the John's creek of a sufficient width on either side of the property line between the home ground and that of Mr. H. Phoebus, and filling the marsh with the material so obtained. There will then be left a solid bank on either side and a channel between them, the marsh being entirely covered. Mr. Phoebus will pay for the embankment on his side of the line. The cost of the work to the home will be probably \$2,500 or \$3,000. Two or three hundred feet of breakwater will be needed to protect the mouth of John's creek, which is already provided for by an appropriation.

8. A bridge, which the governor desires to have built across the upper end of John's creek, will connect the home grounds with Asylum street, Chesapeake City, now being graded, and reduce the distance from the home to Old Point. The governor estimates the cost of this bridge at about \$1,000.

9. A telephone to Old Point, and to several stations within the home enclosure, especially to the stable, which is far from headquarters, would be a very great convenience, and cause saving in time and expense. I understand from the governor that this would cost, probably, about \$500.

In addition to the above-mentioned matters, the governor informs me that he has already communicated with you about the following buildings, that he considers now necessary, viz: A soap-house, blacksmith-shop, &c.; an ice-house; an extension to the bakery; a commissary building. He estimates the first three to cost about \$2,000 each. I did not hear a figure named for the commissary building. This commissary building and the ice-house should be located near the shore of Hampton creek, about the place now occupied by the old dwelling-house, which should be removed. In this connection I would suggest that two or three cottages should be erected, at some convenient place on the grounds, for the accommodation of an engineer and some of the employés who have families. Another building much needed is one for the accommodation of lady visitors.

In connection with these needed additions to the home, I will suggest that, perhaps, a machine to make ice by the ammonia process may be found convenient and economical at Hampton. Ice made by this process costs from \$2.50 to \$4 per ton. I have not yet learned what it costs there now. A machine to make about two tons of ice in ten hours would probably cost \$5,000 or \$6,000.

The services of a competent engineer will be needed for the proper management of the steam apparatus and the machinery required in several departments of the home. As these proposed additions will cost much more than you have available at present, I shall await further instructions before proceeding with any plans or detailed estimates.

Respectfully submitted.

WM. C. GUNNELL, C. E.

General W. B. FRANKLIN,
President Board of Managers, N. H. D. V. S.

APPENDIX Kk.

Explanation of estimate for dwelling for keeper of Yorktown Monument. (Estimate on page 225.)

BALTIMORE, MD., August 17, 1885.

GENERAL: As directed by the Hon. the Secretary of War, July 17, 1885, I visited Yorktown, Virginia, on the 22d of that month.

I found on duty there, as watchman of the monument and grounds, Private Saul of the United States artillery. He had been well recommended for the place and I believe him to be capable and faithful.

The monument and grounds were found to be in good order. The keeper is now living in the little hut on the site, used for a temporary office during the preparations for the centennial ceremonies of 1881 and the erection of the monument since. This hut answers well enough for the residence of the keeper in moderate weather, but is unsuitable for anybody in winter. Attention is here invited to the following copies:

BALTIMORE, MD., January 5, 1885.

SIR: The monument at Yorktown having been completed, it seems necessary to make provision for the accommodation of a watchman, as the location is isolated, and without some oversight this beautiful structure would soon be marred by relic-hunters or other mischievous or inconsiderate persons. The site needs care also to protect it from the effects of the weather and from other injuries.

A balance remains of about \$5,564.95 from the appropriation of \$100,000 for the monument.

It is recommended that so much of this balance as may be necessary be used * * * for the erection of a plain, substantial dwelling for him.

As the authority of Congress is supposed to be necessary for the use of the balance of funds for building, * * * it is suggested that the attention of that body be called to the matter. Several members of the Congressional Centennial Commission of 1881 are still members of the Senate and House of Representatives.

The illustrations of my annual reports of 1883 and 1884 give a good idea of the appearance of the monument and the site. * * *

Very respectfully, your obedient servant,

WM. P. CRAIGHILL,
Lieutenant-Colonel of Engineers.

Hon. ROBERT T. LINCOLN,
Secretary of War, Washington, D. C., (through Chief of Engineers.)

WAR DEPARTMENT,
Washington City, January 9, 1885.

SIR: I have the honor to enclose herewith a copy of a communication, dated January 5, 1885, from Lieut.-Col. Wm. P. Craighill, Corps of Engineers, who was charged with the building of the monument at Yorktown, reporting the completion of the monument and recommending that the balance of the appropriation for building the same, \$5,564.95, be used in paying the wages of a watchman and erecting a suitable keeper's dwelling on the site.

In view of the fact that the authority of Congress is thought to be necessary in this matter, I have the honor to recommend that these papers be transmitted to Congress for its favorable consideration.

* * * * *

I have the honor to be, very respectfully, your obedient servant,

ROBERT T. LINCOLN,
Secretary of War.

The PRESIDENT.

To the SENATE AND HOUSE OF REPRESENTATIVES:

I transmit herewith a communication from the Secretary of War, dated January 9, 1885, enclosing a copy of one dated January 5, 1885, from Lieut.-Col. Wm. P. Craighill, Corp of Engineers, who was charged with the building of the monument at Yorktown, reporting the completion of the monument, and recommending that the balance of the appropriation for building the same be used in paying the wages of a watchman and erecting a suitable keeper's dwelling on the site.

The matter is commended to the consideration of Congress.

CHESTER A. ARTHUR.

EXECUTIVE MANSION, *January 13, 1885.*

The action of Congress is understood to have been as follows: As the sundry civil bill first passed the House of Representatives it contained a clause providing for an iron fence around the monument. When this came to my knowledge, representation was made in the proper quarter that two fences were already around the monument, one of iron, enclosing a small paved area immediately at its base, another of wood enclosing a considerable part of the plateau on which the monument was built. On this information the Senate amended the House bill by striking out the clause for the fence and providing for a house, &c., for the watchman. The committee of conference of the two Houses, however, put the item in the following form: That not exceeding five thousand dollars of the unexpended balance of the appropriation for the erection of the Yorktown Monument may be expended, under the direction of the Secretary of War, for the erection of an iron railing around said monument, and in these words it became the law. Under these circumstances it seemed impossible to build a house and unnecessary to put up a third fence.

The First Comptroller of the Treasury has decided that no part of the remaining balance of \$5,000 for the erection of the monument is applicable to the payment of a civil watchman.

As a watchman seemed necessary, a soldier was detailed for the purpose.

* * * * *

3d. He should have instructions from competent authority as to the extent of force he could use in preventing injury to his charge. He is desirous to have a pistol for his own protection.

4th. The keeper of the monument should have a comfortable house to live in, cheap and respectable, and not unworthy of the duty he is engaged upon or the situation it would occupy, near one of the most beautiful works of art in this or any country, designed by a commission of the first ability, built by the United States to commemorate one of the most important events in our national history. The ground near seems hallowed, if for no other reason, by the noble and patriotic words of the venerable orator from Massachusetts, Hon. R. C. Winthrop, pronounced there on the occasion of the laying of the cornerstone in the centennial year, 1881, in presence of the President of the United States, his cabinet, and many other distinguished men of this country, France, and Germany.

There should be provision for the water, fuel, &c., of the keeper, and for tools for keeping the grounds in decent order.

It appears reasonable that the care of the monument is a legitimate sequence of its erection, and that the application of the balance remaining from the erection might legally be supplied to the building of a small house, such as I have suggested as suitable, and to the other appurtenant matters mentioned. * * *

Very respectfully, your obedient servant,

WM. P. CRAIGHILL,
Lieutenant-Colonel of Engineers, U. S. A.

Brig-Gen. JOHN NEWTON,
Chief of Engineers, U. S. A.

FIRST COMPTROLLER'S OFFICE,
Washington, D. C., October 10, 1885.

SIR: Yours of October 8, referring to me the letters of W. P. Craighill, late Colonel of Engineers, U. S. A., in regard to the building proposed to be erected at the monument of Yorktown, has been received, and I will state:

That no portion of the unexpended appropriation for the erection of the monument at Yorktown can be used for the purpose of building the house and other things suggested in the letter of General Newton, Chief of Engineers, U. S. A.

Very respectfully,

M. J. DURHAM,
Comptroller.

Hon. WILLIAM C. ENDICOTT,
Secretary of War.

APPENDIX L.

In relation to the estimate "Expenses of the Tenth Census." (See page 231.)

DEPARTMENT OF THE INTERIOR,
Washington, October 24, 1885.

SIR: Agreeably to your verbal request, I beg to submit the following estimate of the amount of money necessary to continue the work on the unpublished reports of the Tenth Census.

For the fiscal year ending June 30, 1887, I would recommend that an appropriation of \$8,900 be asked for, viz: One chief of division, \$2,000; one clerk class four, \$1,800; one clerk class three, \$1,600; one clerk class two, \$1,400; one clerk class one, \$1,200; copyist, \$900.

The force now engaged on census work consists of seven persons, five on census roll and two detailed from Pension Office. The total amount of their compensation is \$8,700.

The work attending the completion of the unpublished reports of the Tenth Census is far from being finished. Twelve volumes, quarto size, of the final series of its reports have been issued. The work in hand embraces two volumes on Water-power; two volumes on Social Statistics of Cities; one volume on Mortality; one volume on Wages; one volume on Mining Laws; one volume on Non-precious Metals; one volume on Fisheries, and one volume on Mechanical Appliances. With the closest application to duty on the part of the small force engaged in the census division, it will be impossible to have these reports ready for distribution by July 1. Delays in connection with furnishing illustrations are frequent, as shown by the fact that the failure of an engraving company has delayed the publication of the second volume of the report on Mortality and Vital Statistics eight months.

In addition to the reports named, there remains manuscript covering the following subjects: Fruits and orchards; sheep-husbandry and wool-growing; hop culture; Southern fruits; ice statistics; Indian tribes; churches; schools and libraries; defective, dependent, and delinquent classes; fire and marine insurance; life insurance, and gas.

It is *improbable* that the entire series of reports as originally contemplated will be published. Of those just enumerated, several are extremely valuable. The collection and compilation of the statistics relating to them have cost hundreds of thousands of dollars, and an appropriation for the maintenance of the census division as asked will enable the Department to add materially to the value and scope of the census publications.

Outside of the work relating to the publication of the reports, considerable labor will be necessary in preparing the original schedules of the census for binding. Great care must be exercised, and much time will necessarily be occupied in this service.

I would recommend that the census division be made a permanent division of the Secretary's office. The need of the same is apparent. Heretofore it has been the custom to have a census clerk, familiar with the records of the office, take charge of the schedules and correspondence after the office proper was abolished.

In the event of a permanent division, the salaries should correspond with those paid in other divisions of the Secretary's office, and the recommendation for an increase is accordingly made.

Permit me to state here that the total appropriations on account of the Tenth Census, outside of those for printing and binding, amount to \$4,976,900.

Very respectfully,

J. H. WARDLY,
Chief of Census Division.

Hon. SECRETARY OF THE INTERIOR.

APPENDIX Mm.

Statement of appropriations made during the second session of the Forty-eighth Congress for the fiscal year ending June 30, 1886, for which no estimates are submitted for the fiscal year ending June 30, 1887; also, deficiency and miscellaneous appropriations made during the same session.

LEGISLATIVE.

UNITED STATES SENATE.

Salaries, officers and employés, 1885.....	\$7,781 40
One month's extra pay to officers and employés.....	35,298 43
Clerks to Senators, 1885.....	6,852 00
Horses and wagons, 1885.....	500 00

**STATEMENT OF THE PROCEEDS OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE
FOLLOWING PROVISIONS OF LAW :**

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue-cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned Navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the Appendix to the Book of Estimates.—(R. S., pages 713, 722, sections 3618, 3672; act February 27, 1877, 19 Stat., 249.)

When covered into Treasury.	No. of warrant.	By whom sold.	Kind of property sold.	Bureau in charge of property.	Amount of each kind of property.	Total amount.
