TABLE 6.—Statement of the public debt of the United States from 1791 to 1836, embracing the issue and redemption of the bonded indebtedness of the United States for the payment of the Revolutionary debt (foreign and domestic), Mississippi stock, Louisiana purchase, United States Bank stock, and six per cent. Navy stock.

[The public debt, as stated in the table, page 146, Register's Report, 1885, for the 1791 *et sequitur*, is the unfunded amount of the indebtedness of the Government, and will therefore exhibit large discrepancies, year by year, with this table, which is the funded amount issued and paid of the obligations of the Government. Both statements, however, arrive at the same result in 1836, viz, \$336,957.83, being the amount of the debt then outstanding.]
