FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year  
ending June 30, 1888.*

---

TREASURY DEPARTMENT,

*December 6, 1886.*

SIR: In conformity to the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, and act of July 7, 1884, (23 Stat., page 254,) I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1888, as furnished by the several Executive Departments; also statements of the "proceeds of sales of Government property," and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1886.

I have the honor to be,

Very respectfully, your obedient servant,

DANIEL MANNING,

*Secretary.*

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

One laborer.....	do.....									
								24,800 00		24,511 23
<i>Travelling Expenses, Civil-Service Commission—</i>										
Necessary travelling expenses, including those of examiners acting under the direction of the commission, (increase of \$1,000 submitted).....	Appropriated..	24	178	1	5,000 00		4,000 00			
NOTE.—The Civil-Service act requires that boards of examiners shall be so located as to make it reasonably convenient and inexpensive for applicants to attend before them; and to carry out this provision of the act the commission has found it necessary to hold a greater number and more frequent examinations, and an increase in the expenses is unavoidable. The complaint has been justly made that those who would otherwise apply for examination are prevented by the expense of reaching the places designated therefor, if only one or two are named in a State or Territory. Hence, the commission has arranged for examinations which will more effectually carry out the law.										
<i>Contingent Expenses, Civil-Service Commission—</i>										
For furniture and repairs of furniture, file-cases and file-boxes, books, type-writers, stationery, printing, advertising, telegraphing, telephone service, type-writing, ice, and other absolutely necessary expenses, including heating, lighting, and altering rooms, and care of same, (increase of \$2,000 submitted).....	Appropriated..	24	178	1	5,000 00		3,000 00			
NOTE.—The removal of the office of the commission into new quarters in the District court building necessarily increases expenses for furniture and repairs, and materially adds to the cost of heating, lighting, and general care; and the increase in the number of examinations, and the reports and proceedings connected therewith, make a large appropriation for printing necessary.

<i>Historical Register of the Department of State—</i>							
To enable the Secretary of State to purchase from John H. Haswell, chief of the Bureau of Indexes and Archives, in the Department of State, the manuscript prepared by him of a historical register of the Department of State and of the foreign service of the Government, from September 5, 1774, to July 1, 1885, containing, among other things, a list of the names, dates of appointment, and terms of service of the following: Presiding officers of the Colonial Congress; committees having charge of Foreign Affairs; Presidents of the United States; Secretaries of State, and all subordinate officers of the Department of State, including clerks and messengers; all the diplomatic and consular officers of the United States, including special and secret agents; all foreign ministers accredited to this Government; also, briefs of all powers conferred upon the Secretaries of State and United States Ministers to conclude treaties, and synopses of all the treaties concluded with foreign powers; also, a list of the numbers of international tribunals, boundary, and claims commissions, &c., six thousand dollars. And the Public Printer is hereby authorized, upon the requisition of the Secretary of State, to cause to be printed and bound in cloth, for the use of the Department of State, five thousand copies of the above-mentioned work.....	Submitted.....				\$6,000 00		
NOTE.—See letter of Secretary of State in relation to the foregoing estimates, in Appendix "A."

Two clerks, at \$900 each.....	do.....				1,800 00		
Total.....					\$4,200		
NOTE.—The salary of the stenographer to the Secretary of the Treasury is fixed by the act of March 3, 1875, (18 Stats., 396,) at \$2,400 per annum. The duties devolving upon the present incumbent of this office, whose designation has been changed to "Clerk to the Secretary," besides being of an important nature, are now more arduous than at any previous time, and in recommending a restoration of his salary the Secretary feels that he is doing only partial justice to a faithful and competent official.

<b>MISCELLANEOUS.</b>							
<i>Stationery, War Department—</i>							
Stationery for the War Department and its bureaus.....	Appropriated..	24	195	1		25,000 00	
NOTE.—The estimates of the chiefs of bureaus are as follows:							
Secretary of War.....					\$2,700		
Adjutant-General.....					7,000		
Inspector-General.....					250		
Acting Judge-Advocate General.....					400		
Chief Signal Officer.....					5,000		
Quartermaster-General.....					4,000		
Commissary-General.....					700		
Surgeon-General.....					6,500		
Chief of Ordnance.....					1,000		
Paymaster-General.....					1,200		
Chief of Engineers.....					1,200		
Officer in charge of Rebellion Records.....					700		
Total.....					30,650		
Reduced by Secretary of War to.....					25,000		
<i>Contingent Expenses, War Department—</i>							
For contingent expenses of the office of the Secretary of War and the bureaus (except the War-Department building) and offices of the War Department; purchase of professional and scientific books, card catalogues, blank books, pamphlets, newspapers, maps, furniture, carpets, matting, oil-cloth, file-cases, towels, ice, brooms, soap, sponges, fuel, gas, and heating apparatus; telegraphing, freight and express charges, repairs to buildings and furniture, and other absolutely necessary expenses.....	Appropriated..	24	195	1		60,000 00	
NOTE.—The estimates of the chiefs of bureaus are as follows:							
Secretary of War.....					\$5,000		
Adjutant-General.....					13,450		
Inspector-General.....					300		
Acting Judge-Advocate General.....					2,000		
Chief Signal Officer.....					10,000		
Quartermaster-General.....					9,000		
Commissary-General.....					3,000		
Surgeon-General.....					16,500		
Chief of Ordnance.....					1,500		
Paymaster-General.....					3,000		
Chief of Engineers.....					2,200		
Officer in charge of Rebellion Records.....					2,680		
Officer in charge of building corner 17th and F streets....					6,000		
Total.....					74,630		
Reduced by Secretary of War to.....					60,000		
NOTE.—The Surgeon-General estimates that an increased amount will be required to meet the expenses of moving portions of the Surgeon-General's Office, library, and the museum upon the completion of the new building now being erected, and which will probably be ready for occupancy July 1, 1887. An increased amount will also be required for fuel, gas, &c., for the new building.							
<i>Furniture, State, War, and Navy Department Building—</i>							
For furniture, carpets, file-cases, and shelving for the west and centre wings of the State, War, and Navy Department building.....	Submitted.....					130,000 00	
NOTE.—It is expected that the west and centre wings of the State, War, and Navy Department building will be ready for occupancy about January 1, 1888. The sum of \$50,000 was appropriated by the act of August 7, 1882, (22 Stats., 318,) for furniture, &c., for the north wing, and in addition thereto \$15,000 was appropriated by the act of August 5, 1882, (22 Stats., 238,) for purchase of additional file-cases, office-furniture, &c., for the office of the Adjutant-General—total, \$65,000. The west and centre wings are a little smaller than two buildings of the size of the north wing, but, there being less corridor space in the west and centre wings, there will be the same number of rooms, and the same amount of furniture will be required for them as would have been needed for two north wings.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
<i>Rent of Buildings, War Department—</i>							
For rent of buildings for use of the War Department, as follows:							
Adjutant-General's Office.....							
Quartermaster-General's Office .....							
Commissary-General's Office .....							
Signal Office.....	Appropriated..	24	343	1	} .....	\$41,300 00	\$40,427 39
Surgeon-General's Office.....	Appropriated..	24	345	1			
Paymaster-General's Office.....	Appropriated..	24	195	1			
Chief of Engineer's Office.....							
Rebellion Record's Office.....							
<p>NOTE.—If there is purchased the building for the Signal Office, as estimated, the item for rent of Signal Office need not be appropriated. In regard to the hire of buildings occupied by the record and pension division of the Surgeon-General's office on F street, the amount therefor (\$5,500) is asked, to avoid any embarrassment which might ensue should there be any unexpected delay in completing the new record building at the time fixed by the contract. It is the intention to vacate these buildings immediately upon the completion of the new building, and any money appropriated for their hire for the next fiscal year is provisional, and would, of course, remain unused after vacating them.</p> <p>A list of the buildings rented in Washington for use of the bureaus of the War Department, with the annual rent of the same, reported as required by the act of March 3, 1883, (22 Stats., 552,) will be found in Appendix "D."</p>							
<i>Postage to Postal-Union Countries—</i>							
Postage-stamps for the War Department and its bureaus, as required under the Postal Union, to prepay postage on matter addressed to Postal-Union countries .....	Appropriated..	24	195	1	.....	2,500 00	2,500 00

NOTE.—The files and records of the Secretary's office (embracing a portion of those of the Judge-Advocate General's office) are rapidly increasing, and to keep and put them in proper condition for present and future reference, requires the constant attention of at least two clerks. The dispatch of public work will be facilitated by having an assistant. As it is now, one of the recording clerks has to be constantly interrupted in the performance of his regular duties to assist the clerk in charge of the files and records.

Apparatus and material for experiments in solar and stellar photography.....	do.....					2,000 00				
Extension and maintenance of time service.....	do.....					5,000 00				
							16,161 00	9,336 00		
<b>BUREAU OF ORDNANCE.</b>										
<i>Salaries, Bureau of Ordnance—</i>										
Chief clerk.....	July 31, 1886	R. S. 24	70 198	416 1	}	1,800 00				
Draughtsman.....	Same acts.....							1,800 00		
One clerk of class three.....	July 31, 1886	R. S. 24	27 198	167 1	}	1,600 00				
One clerk of class two.....	Same acts.....							1,400 00		
One clerk.....	do.....					1,000 00				
One assistant messenger.....	do.....					720 00				
One laborer.....	do.....					660 00				
							8,980 00	8,980 00		
Increases submitted:										
To salary of chief clerk.....						\$450 00.				
NOTE.—The chief clerk is required by law to act as chief of bureau in case of vacancy, or of the absence or sickness of that officer, (in case no other appointment is made.) His duties are as responsible and arduous as those of the chief clerks in the other Executive Departments who are required by law to perform the same functions, and who now receive a like compensation, viz., \$2,250 per annum.										
One assistant draughtsman.....						\$1,400 00				
Two clerks of class one.....						2,400 00				
One copyist.....						900 00				
						5,150 00				
NOTE.—Owing to the present extensive elaboration of ordnance material, and the largely increased appropriations for the fitting of new ships, it is physically impossible for the limited force now allowed to properly perform the clerical work of the bureau, and the increase asked for is urgently recommended.										
<b>BUREAU OF CONSTRUCTION AND REPAIR.</b>										
<i>Salaries, Bureau of Construction and Repair—</i>										
Chief clerk.....	July 31, 1886	R. S. 24	70 198	416 1	}	1,800 00				
One draughtsman.....	Same acts.....							1,800 00		
One assistant draughtsman.....	July 31, 1886	24	198	1		1,600 00

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Bureau of Construction and Repair—Continued.</i>							
One assistant draughtsman.....	July 31, 1886	24	198	1	\$1,400 00		
One clerk of class four.....	July 31, 1886	R. S. 24	198	167 1	1,800 00		
One clerk of class three.....	Same acts.....				1,600 00		
One clerk of class two.....	do.....				1,400 00		
One clerk of class one.....	do.....				1,200 00		
One assistant messenger.....	do.....				720 00		
One laborer.....	do.....				660 00		
One chief draughtsman.....	Submitted.....				2,500 00		
Four assistant draughtsmen, at \$1,600.....	do.....				6,400 00		
One messenger.....	do.....				840 00		
Increase of salary of chief clerk.....	do.....				450 00		
						\$24,170 00	\$13,844 11
<p>NOTE.—The chief clerk, under the law, acts as chief of the bureau in case of the death, illness, resignation, or absence of that officer, and must be competent to take charge of the bureau.</p> <p>The duties of this office are arduous, and fully deserve the salary herein estimated, it being the same amount (\$2,250) paid to chief clerks in other departments who are authorized to act in the absence of their chiefs.</p>							
BUREAU OF STEAM-ENGINEERING.							
<i>Salaries, Bureau of Steam-Engineering—</i>							
Chief clerk.....	July 31, 1886	R. S. 24	70	416 1	\$1,800 00		
Two clerks of class two.....	Same acts.....				2,800 00		
To promote a clerk of class two to class three.....	Submitted.....				200 00		
<p>NOTE.—This submission is eminently just and proper, and should be allowed, as the clerk whose salary it is hereby proposed to raise to \$1,600 per annum performs faithfully and well the clerical duties which in other bureaus and departments receive a salary of from \$1,600 to \$1,800 per annum.</p>							
One clerk of class one.....	July 31, 1886	R. S. 24	27	167 1	1,200 00		
One assistant messenger.....	Same acts.....				720 00		
Two laborers, at \$660 each.....	do.....				1,320 00		
Draughting-room :							
Chief draughtsman.....	July 31, 1886	R. S. 24	70	416 1	2,250 00		
One draughtsman.....	Same acts.....				1,400 00		
One draughtsman.....	do.....				1,000 00		
One draughtsman.....	Submitted.....				1,800 00		
One draughtsman.....	do.....				1,600 00		
One draughtsman.....	do.....				1,400 00		
						17,490 00	12,490 00
<p>NOTE.—Without the additional draughtsmen herein requested, the bureau must be seriously embarrassed in preparing the necessary plans and drawings for the machinery of the new vessels.</p>							
BUREAU OF PROVISIONS AND CLOTHING.							
<i>Salaries, Bureau of Provisions and Clothing—</i>							
Chief clerk.....	July 31, 1886	R. S. 24	70	416 1	1,800 00		
One clerk of class four.....	July 31, 1886	R. S. 24	27	167 1	1,800 00		
Two clerks of class three.....	Same acts.....				3,200 00		
Two clerks of class two.....	do.....				2,800 00		
Four clerks of class one.....	do.....				4,800 00		
Two copyists.....	do.....				1,800 00		
One messenger.....	do.....				720 00		
One laborer.....	do.....				660 00		
Increase of salary of chief clerk.....	do.....				450 00		
						18,030 00	17,580 00
<p>NOTE.—The duties of chief clerk of this bureau are of a character quite as arduous, and in many cases more responsible than those performed by the chief clerks in other Executive Departments whose salary is fixed at \$2,250 per annum.</p>							
<i>Contingent Expenses, Bureau of Provisions and Clothing—</i>							
For blanks, books, stationery, and miscellaneous items.....	Submitted.....				500 00		
For furniture, books, and file-cases, and books for reference.....	do.....				400 00		
						900 00	
<p>NOTE.—The amount allowed (\$500) from the appropriation for the Navy Department for the contingent expenses of the bureau has been insufficient to supply most pressing requirements, and it is urgently recommended that the amount asked for herein be allowed.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

<i>Biennial Register, Department of the Interior—</i>							
For the preparation of the Official Register for 1887.....	{	R. S.	84	508,	} .....	4,000 00	
	Mar. 3, 1885	23	420	510 1			
NOTE.—The estimate of the Secretary of the Interior for "Printing and binding," under section 2, act of May 8, 1872, (R. S., 720, sec. 3661,) will be found under the title of "Miscellaneous," <i>post</i> .							
GENERAL LAND OFFICE.							
<i>Salaries, General Land Office—</i>							
Commissioner of the General Land Office.....	{	R. S.	76	446	} \$4,000 00		
	July 31, 1886	24	199	1			
Assistant Commissioner.....	{	July 7, 1884	23	186	} 3,000 00		
	July 31, 1886	24	199	1			
Chief clerk, (increase of \$150 submitted).....	{	R. S.	74	440	} 2,400 00		
	July 31, 1886	24	199	1			
NOTE.—The chief clerk is required by law to act as Commissioner in case of a vacancy, of sickness, or absence of that officer and the Assistant Commissioner, and must be fully competent to take charge and control of the bureau at all times. It may be added that the duties of this office are unusually intricate, complex, and arduous, and fully deserve the salary herein estimated.							
Two law-clerks, at \$2,400 each, (increase of \$200 each submitted).....	{	Mar. 3, 1875	18	364	} 4,800 00		
	July 31, 1886	24	199	1			
NOTE.—The law-clerks must be thoroughly conversant with land laws and practice, as well as with usages and practice of the Department, and be able to grasp and summarize at once the various questions involved in land contests and the construction of the statutes, and to present the same in proper form for the consideration and action of the head of the bureau and the chiefs of divisions, and should be good lawyers.							
Three inspectors of surveyors-general and district land offices, at an annual compensation of \$2,000 each.....	{	Aug. 5, 1882	22	247	} 6,000 00		
	July 31, 1886	24	199	1			
Eleven chiefs of divisions, at the salary indicated by the figures opposite the names of the respective divisions: Recorder, \$2,000; principal clerk of surveys, \$2,000; principal clerk of private-land claims, \$2,000; principal clerk of public lands, \$2,000; chief of division of accounts, \$2,000; chief of railroad division, \$2,000; chief of swamp-land division, \$2,000; chief of draughting division, \$2,000; chief of mineral division, \$2,000; chief of pre-emption division, \$2,000; and chief of special service division, \$2,000.....	{	R. S.	76	447-9	} 22,000 00		
	July 31, 1886	24	199	1			
	Submitted.....						
NOTE.—The chiefs of divisions have respectively charge of a particular class of work, and of the clerical force employed upon it. They must know generally the rules of the office and the laws governing the land system, the relations of the classes being so intermixed as to frequently involve nearly the whole of them in the consideration of a single case. No higher service is performed by the subordinate officers of any Department, not excepting the Treasury, where salaries range from \$2,250 to \$2,750.							
Two law-examiners, at salaries of \$2,000 each.....	{	July 31, 1886	24	199	} 4,000 00		
NOTE.—The examiners above estimated for are occupied in reading carefully and critically the decisions and letters prepared in the office before receiving the signature of the Commissioner. They must of necessity be familiar with general legal principles, the numerous laws governing the disposal of public lands, the decisions of State and Federal courts, and rulings and decisions of this office and the Department. It becomes their duty not to pass any letter or decision for signature unless satisfied that the same is correct in principle and in conformity with decisions heretofore made and the laws governing that class of cases. Should the letter or decision not meet with their approval, it is their duty to submit it with a brief, giving their views thereon.							
Thirty-three clerks of class four, (reduction of six).....	{	R. S.	27	167	} 59,400 00		
	July 31, 1886	24	199	1			
Fifty-six clerks of class three.....	{	Same acts.....			} 89,600 00		
Sixty-seven clerks of class two.....	{	do.....					
Seventy-three clerks of class one.....	{	do.....			} 87,600 00		
Fifty clerks, at \$1,000 each.....	{	Aug. 5, 1882	22	247	} 50,000 00		
	July 31, 1886	24	199	1			
Fifty copyists, at \$900 each, (reduction of two).....	{	R. S.	27	167	} 45,000 00		
	July 31, 1886	24	199	1			

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 						18, 364 00	18, 364 00
Total Department of the Interior proper.....						4, 607, 339 00	4, 613, 529 81
PUBLIC LANDS.							
OFFICES OF SURVEYORS-GENERAL.							
<i>Salaries, Office of Surveyor-General of Arizona—</i>							
Surveyor-general.....		R. S.	389	2210	} 2, 500 00		
	July 31, 1886	R. S.	391	2226			
Clerks in his office.....	Same acts	24	203	1	3, 500 00		
						\$6, 000 00	\$4, 000 00
NOTE.—The estimate of \$3,500 for clerk-hire in the surveyor-general's office is made for the reason that the appropriation of \$1,500 for clerk-hire for the present year is so small that it will result in arrears of office-work on surveys already under contract out of last year's appropriation.							
<i>Salaries, Office of Surveyor-General of California—</i>							
Surveyor-general.....		R. S.	389	2210	} 2, 750 00		
	July 31, 1886	R. S.	391	2226			
Clerks in his office.....	Same acts	24	204	1	12, 000 00		
						14, 750 00	8, 710 20
NOTE.—The estimate of \$12,000 for clerk-hire is made for the reason that this amount is necessary for the regular office-work on public surveys, including pay of keeper of Spanish archives, the appropriation of \$5,000 for clerk-hire for the current fiscal year being entirely inadequate for the surveying service.							
<i>Salaries, Office of Surveyor-General of Colorado—</i>							
Surveyor-general.....		R. S.	389	2210	} 2, 500 00		
	July 31, 1886	R. S.	391	2226			
Clerks in his office.....	Same acts	24	204	1	5, 000 00		
						7, 500 00	5, 500 00
NOTE.—The estimate of \$5,000 for clerk-hire is considered necessary for the performance of the regular office-work upon public surveys, the amount appropriated for that purpose for the year ending June 30, 1887, being very inadequate for the service.							
<i>Salaries, Office of Surveyor-General of Dakota and Minnesota—</i>							
Surveyor-general.....		R. S.	388	2208	} 2, 500 00		
	July 31, 1886	R. S.	391	2226			
Clerks in his office.....	Same acts	24	204	1	10, 000 00		
						12, 500 00	8, 800 00
<p><i>Provided</i>, That it shall be the duty of the Secretary of the Interior, as soon after the passage of this act as may be, to cause the office of surveyor-general of Minnesota to be removed to Huron, Dakota, and when so removed the duties and jurisdiction of the surveyor-general of Dakota and Minnesota shall be coextensive with the limits of the Territory of Dakota and the State of Minnesota, and the same shall constitute a surveying district: <i>And be it further provided</i>, That all acts and parts of acts inconsistent with the provisions of this act be, and the same are hereby, repealed.</p> <p>NOTE.—The estimate of \$10,000 for clerk-hire is based upon the fact that surveys are already under contract in Dakota, and not returned to surveyor-general's office, to the amount of over \$23,000, and the small amount of \$3,000 appropriated for clerk-hire for the current year must result in arrears of office-work at the end of the fiscal year.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Surveyor-General of Florida—</i>							
Surveyor-general.....	.....	R. S.	388	2208	} \$1,800 00		
	.....	R. S.	391	2226			
Clerks in his office.....	July 31, 1886	24	204	1	3,000 00		
	Same acts.....					\$4,800 00	\$3,600 00
NOTE.—The estimate of \$3,000 for clerk-hire is for pay of clerk at \$1,600, and one draughtsman at \$1,400, and the work to be done includes the indexing of the Spanish archives in surveyor-general's office, and making Spanish copies or proper translations of the same, several volumes of which, the surveyor-general reports, will soon be useless for reference, owing to constant handling for many years.							
<i>Salaries, Office of Surveyor-General of Idaho—</i>							
Surveyor-general.....	.....	R. S.	389	2210	} 2,500 00		
	.....	R. S.	391	2226			
Clerks in his office.....	July 31, 1886	24	204	1	3,000 00		
	Same acts.....					5,500 00	4,000 00
NOTE.—The estimate of \$3,000 for clerk-hire is regarded as actually required to perform current office-work on public surveys, to index the original field-notes preparatory to binding, and to construct maps or working diagrams for surveyor-general's office, showing accurately the surveys already executed.							
<i>Salaries, Office of Surveyor-General of Louisiana—</i>							
Surveyor-general.....	.....	R. S.	388	2208	} 1,800 00		
	.....	R. S.	391	2226			
Clerks in his office.....	July 31, 1886	24	204	1	6,000 00		
	Same acts.....					7,800 00	4,800 00
NOTE.—The estimate of \$6,000 for clerk-hire is made to cover the expense of bringing up the arrears of office-work, including the preparation of patent-plats, of private-land claims, certificates of location under act of June 2, 1858, continuing and completing the exhibit of private-land claims, and the necessary examination and research to confirm private-land claims for survey and location.							
<i>Salaries, Office of Surveyor-General of Montana—</i>							
Surveyor-general.....	.....	R. S.	389	2210	} 2,500 00		
	.....	R. S.	391	2226			
Clerks in his office.....	July 31, 1886	24	204	1	8,000 00		
	Same acts.....					10,500 00	5,500 00
NOTE.—The estimate for clerk-hire is based upon the fact that surveys are already under contract, and not returned to the surveyor-general's office, to the amount of \$23,330, and the small sum appropriated for clerk-hire for the current year (\$3,000) must result in large arrears of office-work at the end of this fiscal year.							
<i>Salaries, Office of Surveyor-General of Nevada—</i>							
Surveyor-general.....	.....	R. S.	389	2210	} 1,800 00		
	.....	R. S.	391	2226			
Clerks in his office.....	July 31, 1886	24	204	1	3,000 00		
	Same acts.....					4,800 00	3,300 00
NOTE.—The estimate of \$3,000 for clerk-hire is made to cover expenses of office-work consequent upon an increased amount of appropriation for surveys in Nevada for the current year. The principal part of the office-work on surveys under said appropriation must necessarily be done during the next fiscal year.							
<i>Salaries, Office of Surveyor-General of New Mexico—</i>							
Surveyor-general.....	.....	R. S.	389	2210	} 2,500 00		
	.....	R. S.	391	2226			
Clerks in his office.....	July 31, 1886	24	204	1	10,500 00		
	Same acts.....					13,000 00	5,500 00
NOTE.—The estimate of \$10,500 for clerk-hire is based upon the fact that surveys are already under contract in New Mexico, and not returned to this office, to the extent of \$24,350, and the small amount appropriated for clerk-hire for the current fiscal year (\$3,000) must result in arrears of office-work at the end of this year. The estimate also includes the compensation of a keeper of archives, to take charge of the translation, classification, and indexing of the great number of documents pertaining to private-land claims now on file in the surveyor-general's office.							
<i>Salaries, Office of Surveyor-General of Oregon—</i>							
Surveyor-general.....	.....	R. S.	388	2209	} 1,800 00		
	.....	R. S.	391	2226			
Clerks in his office.....	July 31, 1886	24	204	1	3,000 00		
	Same acts.....					4,800 00	3,300 00
NOTE.—The estimate of \$3,000 for clerk-hire is to include pay for some arrears of office-work, expected to result from the small appropriation of \$1,500 for clerk-hire during the present fiscal year, on surveys now under contract.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Surveyor-General of Utah—</i>							
Surveyor-general.....	.....	R. S.	389	2210	} \$2, 500 00		
	.....	R. S.	391	2226			
	July 31, 1886	24	205	1			
Clerks in his office .....	Same acts .....				4, 500 00		
						\$7, 000 00	\$3, 500 00
NOTE.—The estimate of \$4,500 for clerk-hire is based upon the fact that surveys are now under contract in Utah, and not returned, to the amount of over \$17,000, and the small appropriation of \$1,000 for clerk-hire for the current fiscal year must result in much arrears of office-work at the end of the year.							
<i>Salaries, Office of Surveyor-General of Washington Territory—</i>							
Surveyor-general.....	.....	R. S.	388	2209	} 2, 500 00		
	.....	R. S.	391	2226			
	July 31, 1886	24	205	1			
Clerks in his office.....	Same acts.....				5, 000 00		
						7, 500 00	5, 500 00
NOTE.—The estimate of \$5,000 for clerk-hire is made to cover arrears of office-work already existing and which will be increased at the end of the present year, owing to the inadequacy of the appropriation for clerk-hire for the present year. The present arrears in the work of the office includes recording and indexing the past official correspondence, furnishing the United States local land offices in Washington Territory with descriptive-lists of corners, soil, and timber, &c., as required by section 2395, Revised Statutes. Contracts for surveys to the amount of \$9,675 in that Territory have been entered into by the surveyor-general, and are before the office for approval.							
<i>Salaries, Office of Surveyor-General of Wyoming—</i>							
Surveyor-general.....	.....	R. S.	389	2210	} 2, 500 00

<p>NOTE.—Considering the large increase in the appropriations for this Department in recent years, the extension of its operations and consequent diversity of accounts, and the increased labor and responsibility required in auditing, adjusting, paying, and keeping the accounts, I deem an increase in the salary of the chief of that division equitable and proper. As the salary of the disbursing officer was fixed in 1862, when the Department was organized and its operation very limited, I earnestly request that the increase submitted be allowed.—(Commissioner of Agriculture.)</p>							
<i>Botanical division :</i>							
One botanist.....	June 30, 1886	R. S. 24	87 100	522,'3 1	2,000 00

	Vol. or R. S.	Page.	Sec.				
<i>Seed Division, Department of Agriculture—</i>							
For the purchase, propagation, and distribution, as required by law, of seeds, bulbs, trees, shrubs, vines, cuttings, and plants, and expenses of labor, transportation, paper, twine, gum, printing, postal cards, and all necessary material and repairs for putting up and distributing the same, and to be distributed in localities adapted to their culture.....	Appropriated..	R. S. 24	88 102	527 1	.....	\$100,000 00	\$100,000 00
An equal proportion of two-thirds of all seeds, trees, shrubs, vines, cuttings, and plants shall, upon their request, be supplied to Senators, Representatives, and Delegates in Congress, for distribution among their constituents; and the person receiving such seeds shall inform the Department of the results of the experiments therewith: <i>Provided</i> , That all seeds, plants, and cuttings herein allotted to Senators, Representatives, and Delegates to Congress for distribution remaining uncalled for at the end of the fiscal year shall be distributed by the Commissioner of Agriculture: <i>And provided also</i> , That the Commissioner shall report, as provided in this act, the place, quantity, and price of seeds purchased, and the date of purchase. But nothing in this paragraph shall be construed to prevent the Commissioner of Agriculture from sending flower, garden, and other seeds to those who apply for the same. And the amount herein appropriated shall not be diverted or used for any other purpose but for the purchase, propagation, and distribution of improved and valuable seeds, bulbs, trees, shrubs, vines, cuttings, and plants: <i>But provided, however</i> , That the Commissioner shall not distribute to any Senator, Representative, or Delegate seeds entirely unfit for the climate and locality he represents, but shall distribute the same so that each member may have seeds of equal value, as may be, and the best adapted to the locality he represents.							
Printing seed-pockets, labels, postal cards, circulars, &c.:							
For printing-press.....	Submitted.....				\$350 00		
Labor, paper, ink, type, and other necessary material for printing, and for repairing press.....	.....do.....				2,500 00		
						2,850 00

<b>UNDER THE WAR DEPARTMENT.</b>							
<b>COMMANDING-GENERAL'S OFFICE.</b>							
<i>Expenses of the Commanding-General's Office—</i>							
To defray the contingent expenses of the Commanding-General's Office.....	Mar. 3, 1875 June 30, 1886	18 24	452 99	1 1	}.....	\$1,750 00	\$1,200 00
NOTE.—The amount estimated for in excess of the appropriation for the current year is deemed necessary to defray the legitimate and necessary expenses of the office, the present appropriation being inadequate therefor. For the fiscal year ending June 30, 1866, \$10,000 was allowed; from 1868 to 1876, \$5,000 each year; for 1877, \$3,000; from 1878 to 1883, \$2,500 each year; for 1884, 1885, and 1886, \$1,750 each year; and for the present fiscal year only \$1,200—a sum not sufficient to purchase the necessary supplies and books of reference required for the office.							
<b>ADJUTANT-GENERAL'S DEPARTMENT.</b>

NOTE.—For table showing the authorized active strength of the Army in commissioned officers and enlisted men, and statement of increase and decrease by items of the foregoing estimate, as compared with like estimate for the fiscal year 1887, see Appendix "S."

SUBSISTENCE DEPARTMENT.

*Subsistence of the Army—*

For the purchase of subsistence supplies: For issue, as rations to troops, civil employes when entitled thereto, contract-surgeons, hospital-matrons, military convicts at posts, prisoners of war, (including Indians held by the Army as prisoners, but for whose subsistence appropriation is not otherwise made,) estimated for the fiscal year on the basis of ten million twenty-six thousand five hundred and seventy rations; for sales to officers and enlisted men of the Army; for authorized extra issues of candles, and salt and vinegar for public animals; for issues to Indians visiting military posts, and to Indians employed with the Army, without pay, as guides and scouts. For payments: For cooked rations for recruiting parties and recruits; for hot coffee, canned beef and baked beans for troops travelling, when it is impracticable to cook their rations; for scales, weights, measures, utensils, tools, stationery, blank books and forms, printing, advertising, commercial newspapers, use of telephones, office furniture; for temporary buildings, cellars, and other means of protecting subsistence supplies, (when not provided by the Quartermaster's Department;) for bake-ovens at posts and in the field, and repairs thereof; for extra pay to enlisted men employed on extra duty in the Subsistence Department for periods of not less than ten days, at rates fixed by law; for compensation of civilians employed in the Subsistence Department; and for other necessary expenses incident to the purchase, care, preservation, issue, sale, and accounting for subsistence supplies for the Army. For the payment of the regulation allowances for commutation in lieu of rations: To enlisted men on furlough, to ordnance-sergeants on duty at un-garrisoned posts, to enlisted men stationed at places where rations in kind cannot be economically issued, to enlisted men travelling on detached duty when it is impracticable to carry rations of any kind, to enlisted men selected to contest for places or prizes in department, division, and Army rifle competitions while travelling to and from places of contest; to be expended under the direction of the Secretary of War; in all.....

Additional half-rations to sergeants and corporals of ordnance.....	120	366	43,920	.....	R. S.	224	1293		
				June 30, 1886	24	96	1		
<b>Total.....</b>			<b>10,026,570</b>						

Estimated at 20 cents each.

In making the estimate at 20 cents, the losses from wastage in issuing, damage in transportation, shrinkage and deterioration while on hand, necessary abandonment or destruction in the field, and all expenses indicated in the appropriation for subsistence of the Army for the fiscal year ending June 30, 1887, have been considered and are included, and it is made on the basis of the average cost of the components of the ration for a number of years. It is impossible to know in advance the cost of any one of these components. It is not known at this date, October 25, 1886, whether or not the amount, \$1,745,000, appropriated for the present fiscal year will be sufficient to meet the disbursements for the year, the balance on hand unexpended being \$172,000 less than it was at same date last year.

QUARTERMASTER'S DEPARTMENT.

Regular Supplies—

For the regular supplies of the Quartermaster's Department, consisting of stoves and heating apparatus, and repair and maintenance of the same; for heating barracks and quarters; of ranges and stoves for cooking; for fuel and lights for enlisted men, guards, hospitals, storehouses, and offices, and for sale to officers; of forage in kind for the horses, mules, and oxen of the Quartermaster's Department at the several posts and stations and with the armies in the field, including its care and protection; for forage and straw for the horses of the several regiments of cavalry, the batteries of artillery, and such companies of infantry and scouts as may be mounted, and for the authorized number of officers' horses, including bedding for the animals; of straw for soldiers' bedding; and of stationery, including blank books for the Quartermaster's Department, certificates for discharged soldiers, blank forms for the Pay and Quartermaster's Departments, and for printing of division and department orders and reports.....

<b>Fifty per centum of Arrears of Army Transportation due certain Land-Grant Railroads—</b> For the payment of Army transportation lawfully due such land-grant railroads as have not received aid in Government bonds, to be adjusted by the proper accounting officers in accordance with the decisions of the Supreme Court in cases decided under such land-grant acts; but in no case shall more than fifty per centum of the full amount of the service be paid: <i>Provided</i> , That such compensation shall be computed upon the basis of the tariff-rates for like transportation performed for the public at large, and shall be accepted as in full for all demands for such services.....	June 30, 1886	24	97	1		\$100,000 00	\$85,000 00
NOTE.—The experience of the Quartermaster's Department for several years past shows that the sum of \$100,000 is a close estimate to meet the requirements of the service in payment for the transportation referred to, all the accounts for which are, under existing laws, settled by the accounting officers of the Treasury Department.							
<b>Army Transportation over non-aided portions of Bonded Pacific Railroads—</b> For payment for Army transportation over the non-aided portions of the Southern Pacific Railroad Company, (lessee Central Pacific Railroad Company,) Union Pacific Railway Company, (including the Kansas division,) and the Sioux City and Pacific Railroad Company.....	Submitted.....					250,000 00	
NOTE.—The authority for such payments is the decision of the Supreme Court of the United States, No. 1291, October term, 1885, The United States, appellants, vs. The Central Pacific Railroad Company, dated May 10, 1886. All these accounts to be settled by the accounting officers of the Treasury.							
<b>Barracks and Quarters—</b> For barracks and quarters for troops, storehouses for the safe-keeping of military stores, for offices, and for the hire of buildings and of grounds for summer cantonments, and for temporary buildings at frontier stations; for the construction of temporary buildings and stables; for shelter and shooting galleries and ranges, and for repairing public buildings at established posts.....		R. S. R. S.	206 221	1136 1270		700,000 00	620,000 00
	June 30, 1886	24	97	1			
<b>Construction and Repair of Hospitals—</b> For construction and repair of hospitals, as reported by the Surgeon-General of the Army, including the extra-duty pay of enlisted men employed on the same..... Reduced by Secretary of War to.....	June 30, 1886	24	98	1	\$125,000 00	100,000 00	100,000 00
<b>Army and Navy Hospital, Hot Springs, Ark.—</b> For one hydraulic passenger-elevator for central hospital building..... Two sets of quarters for officers attached to hospital..... Stable and wagon-shed..... Finishing in hard-oil the inside wood-work of all buildings, painting verandahs, and for painting exterior brick-work of all buildings..... For general purposes, including shelving, closets, and necessary miscellaneous work.....		Appropriated.. Appropriated.. Submitted..... do..... do..... do..... do.....	24 24	265 245	1 1	2,300 00 15,000 00 1,175 00 7,500 00 2,000 00	
NOTE.—In the plan of the hospital space was left for a passenger-elevator, but no provision was made for it in the contract. It is considered indispensable, and was included in the estimate submitted to Congress last session, but was not acted upon favorably. The original contract for erecting the hospital required all the inside wood-work to be finished in hard-oil. This has not been done, in consequence of failure of contractor and his sureties, and is necessary for the preservation of the wood. It is also imperatively necessary that the brick walls be painted outside, to prevent dampness from the driving rains frequently experienced here. The dampness has already penetrated the walls in several places, discoloring the plastering, no provision having been made for furring or lathing. The quarters for officers are necessary, as there are no proper accommodations for the purpose in the hospital without encroaching on the rooms intended for sick officers, for whom there is only very limited provision. There are other serious objections to the residence of families in the hospital.							
For stationery, fuel, means of transportation, forage, gas, ice, and all other necessary miscellaneous expenses.....	do.....				9,400 00	37,375 00	35,952 00
NOTE.—The sundry civil appropriation act of March 3, 1885, (23 Stats. 508,) provided "for means of transportation, *** fuel, gas, ice, stationery, and other necessary expenses" for the fiscal year 1886, but no provision has yet been made for this service for the fiscal year 1887. The appropriation for the medical and hospital department is not sufficient to meet these necessary expenses.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Construction of Quarters for Hospital-Stewards—</i> For construction and repair of quarters for hospital-stewards, including the extra-duty pay of enlisted men employed on the same; the posts at which such quarters may be constructed, to be designated by the Secretary of War; the quarters to be built by contract, after legal advertisement, whenever the same is practicable, and the cost of construction of quarters at any one post in no case to exceed eight hundred dollars.....	June 30, 1886	24	98	1	.....	\$10,000 00	\$12,500 00
<i>Clothing and Equipage—</i> For cloth, woollens, material, and for the manufacture of clothing for the Army for issue and for sale at cost price, according to the Army Regulations; for altering and fitting clothing, and washing and cleansing when necessary; for equipage, and for expenses of packing and handling, and similar necessities.....	..... Revised Army Reg's, 1881, p. 203, par. 1821. June 30, 1886	R. S. 24	206 98	1133-5 1	} .....	1,250,000 00	1,250,000 00
<i>Contingencies of the Army—</i> For all contingent expenses of the Army not provided for by other estimates, and embracing all branches of the military service, to be expended under the immediate orders of the Secretary of War.....  NOTE.—The disbursements for the actual requirements of this service during the fiscal year 1886, were \$21,527.19, and there are many bills yet to be paid for expenses incurred during that year. It is not believed that \$15,000 will be sufficient for the present fiscal year.	June 30, 1886	24	99	1	.....	30,000 00	15,000 00
MEDICAL DEPARTMENT.							
<i>Medical and Hospital Department—</i> For the purchase of medical and hospital supplies, expenses of purveying-depots, pay of employes, medical care and treatment of officers and enlisted men of the Army on duty at posts and stations for which no other provision is made, for the proper care and treatment of cases in the Army suffering from contagious epidemic diseases, advertising and other miscellaneous expenses of the Medical Department; the amount to be expended for pay of employes not to exceed forty-six thousand dollars.....	June 30, 1886	24	98	1	\$225,000 00		
For the purchase of disinfectants for general post sanitation .....	Submitted.....				10,000 00		
For medical and hospital supplies for the Army and Navy General Hospital, Hot Springs, Ark.....	do.....				4,000 00		
For service of the Army and Navy General Hospital, Hot Springs, Ark., including clerk, stewards, cooks, attendants, engineer, laundresses, laborers, watchmen, and other necessary employes.....	July 1, 15,'86 Aug. 4, 1886	24 24	343-5 245	1 1	} 14,620 00		
						253,620 00	214,992 00
NOTE.—The estimated amounts will, it is believed, be necessary to meet the wants of the Medical Department for the ensuing fiscal year. It becomes necessary from time to time to add to the standard supply-table new remedies, new instruments, and new standard medical books, and to provide them for use by the medical officers of the Army in the proper diagnosis and treatment of disease. By direction of the Secretary of War, disinfectants for general use in the Army are estimated for by the Medical Department, heretofore supplied by the Quartermaster's Department. The limited number of contract-surgeons allowed by law necessitates the temporary employment of private physicians, under existing regulations, to furnish medical attendance to officers and enlisted men at stations where there is no medical officer of the Army. These physicians are paid by the visit, from the medical and hospital appropriation. Added to this is the necessary expenditure for the employment of skilled nurses for the proper care and treatment of epidemic contagious diseases. The sundry civil appropriation act of August 4, 1886, (24 Stat., 246,) directs that the estimates for the Army and Navy Hospital service "shall hereafter be submitted as a part of the Military Establishment." Two hundred and twenty-five thousand dollars was appropriated for the service of the fiscal year 1886, which did not include disinfectants for general post sanitation and supplies for the Army and Navy Hospital. The whole amount will be required to meet outstanding liabilities incurred during the fiscal year 1886. The estimate for 1888 (\$253,620) is not considered excessive.							
<i>Medical Museum and Library—</i> For Army Medical Museum, including ordinary repairs of the museum hall, preservation of specimens, and the preparation or purchase of new specimens.....	June 30, 1886	24	98	1	5,000 00		
For the library of the Surgeon-General's Office.....	do.....				10,000 00		
						15,000 00	15,000 00
NOTE.—This amount (\$10,000) is necessary to enable the library to obtain all new medical works of all countries as soon as published, and thus meet the demands now being made upon it by physicians in all parts of the United States.

ENGINEER DEPARTMENT.							
<i>Engineer Depot at Willet's Point, New York—</i>							
Incidental expenses of the depot, including fuel, lights, chemicals, stationery, extra-duty pay of soldiers necessarily employed as artisans on work in addition to, and not strictly in the line of, their military duties, such as carpentry, smithing, draughting, printing, photographing, lithographing, engine-driving, &c., and for repairs to public buildings and machinery, and unforeseen expenses .....	June 30, 1886	24	98	1	\$7,000 00		
Purchase of materials for instruction of engineer troops at Willet's Point in their special duties of sappers, miners, and pontoniers, torpedo-drill, and signalling.....	.....do.....				1,500 00		
Purchase and repair of instruments to be issued to officers of the Corps of Engineers for use on public works, surveys, &c .....	.....do.....				2,500 00		
NOTE.—The instruments in depot are gradual accumulations of those that have been purchased by many different officers at widely different times and places, and are, therefore, of a miscellaneous character, many out of date and obsolete, which will not admit of interchange of parts for repairs by taking from un-serviceable ones, and the general repairs when made are done by proposals from the lowest bidder, and it is difficult to detect faults which become apparent when they are subject to test in the field. If some standard instruments could be decided on, to which all purchases for depot or field should conform, the usefulness of the depot to the general purpose for which it is intended—for storage, repair, and issue of instruments—would be much increased, and better satisfaction given to those receiving them, and greatly increase the economy in service. The number of really useful instruments cannot be judged from the returns, and is very much less.							
Purchase for the engineer school of application, of books, instruments, stationery, clerk-hire, or extra-duty pay to enlisted men employed as clerks, and miscellaneous.....	.....do.....				1,000 00		
An additional building for storing and preserving the collection of engineer models and war relics, either by an addition to the officers' laboratory building, or a separate building in immediate vicinity of the torpedo laboratory.....	Submitted.....				8,000 00		
NOTE.—There is a valuable collection of models and war relics, which, for want of a better place, is stored in an old frame building, at such a distance from the torpedo laboratory that it is quite inconvenient for purposes of illustration and instruction, and it is recommended that a suitable fire-proof room, say 1,200 square feet of floor-space, be provided.							
Water-supply, provided \$5,000 may be paid to the town of Flushing therefor.....	.....do.....				17,000 00		
NOTE.—The water-supply of the post is inadequate, being obtained from wells and cisterns. This makes any general system of sewerage impracticable, and the need of both sewers and an ample water-supply should at once be met. In case of fire, with the present water-supply, there would be much danger of a great conflagration. The town of Flushing has constructed water-works, and its water authorities have made proposition in reference to laying pipes to the Willet's Point reservation to supply 600 persons for \$5,000 for the first year and an annual rental of \$3,000 thereafter. The board on the water-supply and sewerage of Willet's Point, constituted by Special Orders, No. 187, Adjutant-General's Office, August 17, 1885, objected to the Flushing water-supply on the score of its being derived from surface-drainage. Flushing now obtains its water from wells sunk in the sand, and the water is of good quality. This board, composed of officers of rank in the quartermaster's, medical, and engineer departments, report that the present water-supply is entirely inadequate to the comfort of the garrison for sanitary purposes, and for protection against fire. The board recommended an artesian well, which has been tried and has failed, and the Flushing supply seems now the only resource. The estimate of the board for water-supply was \$30,000, but, as the reservoir and pumping-engine, their plan contemplated, would be unnecessary if water were obtained from Flushing, this estimate is reduced to \$17,000 as the amount needed for next year.							
Sewerage and plumbing.....	.....do.....				12,000 00		
NOTE.—The same board state that there is no system of sewerage on the post, and estimate the cost thereof, including necessary plumbing, at \$12,000.							
One double building, for officers' quarters .....	.....do.....				12,000 00		
NOTE.—During the past winter the lack of quarters has been partially relieved by several officers occupying but a single room, instead of the two to which they are entitled. The number of officers the coming winter will probably be two to four more than last winter, and the two sets of quarters in the old mess-hall are so bad that they should be abandoned. There is needed a new double house, with quarters for four lieutenants, costing \$12,000.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Engineer Depot at Willet's Point, New York—Continued.</i>							
One brick barrack for 150 men, provided that any available material at Willet's Point may be used .....	Submitted.....				\$35,000 00	\$96,000 00	\$16,500 00
<p>NOTE.—The Board of Visitors has recommended that permanent barracks be gradually constructed for the companies here. There is a large amount of stone, belonging to the fort, on hand, and a large amount of ponton material, which is deteriorating. So far as practicable, this material should be used in constructing new buildings, thus reducing their cost.</p>							
ORDNANCE DEPARTMENT.							
<i>Ordnance Service—</i>							
For current expenses of the ordnance service required to defray the current expenses at the arsenals; of receiving stores and issuing arms and other ordnance supplies; of police and office duties; of rents, tolls, fuel, and lights; of stationery and office-furniture; of tools and instruments for use; incidental expenses of the ordnance service, including the workshop and museum in the Ordnance Bureau at Washington, and those attending practical trials and tests of ordnance, small-arms, and other ordnance supplies.....	June 30, 1886	24	99	1		100,000 00	90,000 00
<i>Ordnance, Ordnance Stores and Supplies—</i>							
Manufacture of metallic ammunition for small-arms....	June 30, 1886	24	99	1	100,000 00		
Ammunition, tools, and material for target-practice.....	.....do.....				50,000 00		
Mounting and dismounting guns and removing the armaments from forts being modified or repaired, including heavy carriages returned to arsenals for alteration and repairs, and other necessary expenses of the same character, and for repairing ordnance and ordnance stores in the hands of troops and for issue at the arsenals and depots, and for extra-duty pay for enlisted men detailed for ordnance service .....	.....do.....				30,000 00		
Purchase and manufacture of ordnance stores to fill requisitions of troops.....	.....do.....				150,000 00		
Infantry, cavalry, and artillery equipments.....	.....do.....				100,000 00		
Horse-equipments for cavalry; harness for field and machine guns, and for cavalry forge-carts.....	Mar. 3, 1885	23	361	1	100,000 00		
Overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals.....	Submitted.....						
	June 30, 1886	24	99	1	20,000 00	550,000 00	255,000 00
<p>NOTE.—The amount appropriated for ordnance and ordnance stores during the fiscal year ended June 30, 1886, was \$400,000, and for the present fiscal year only \$255,000. The appropriation for the past year was barely sufficient to meet the actual wants of the service; the appropriation for the present year is wholly inadequate. The equipments for the cavalry service, prescribed by War Department, General Orders, No. 73, of 1885, cannot be supplied as required, and the supplies and labor for the repair and preservation of the armament of our fortifications cannot be made. The operations of the arsenals have been crippled, and the only arsenal on the Pacific coast has been practically closed. The quantity of ammunition on hand is very limited, and a supply should be kept on hand for the hostile uses of the Army and as a prudent reserve in store for general military purposes. Rifle and carbine ammunition costs to manufacture \$18.50 per thousand, and revolver, \$10 per thousand. Existing orders from the War Department authorize the expenditure for target-practice of cartridges or reloading materials to the amount of \$7.50 per man per annum, and about \$1.93 per man per annum for gallery-practice, and basing the strength of the Army (enlisted men and commissioned officers) at 20,000 men, it will require the above amount for this expenditure alone. Soldiers should be made good marksmen, but this cannot be done without a liberal supply of ammunition for target-practice. The amount asked for is reasonable, if the soldier is to be provided with cartridges sufficient for his proper instruction.</p>							
<i>Manufacture of Arms at National Armories—</i>							
Manufacture of arms at the national armories.....	June 30, 1886	24	99	1		500,000 00	400,000 00
<p>NOTE.—Besides supplying the regular Army, the militia, the various colleges, and the other branches constituting the Military Establishment, the War Department has now to supply arms, ammunition, &amp;c., to the Marine Corps and to the several Executive Departments, for use in protecting public money and property, under the act of March 3, 1879, (20 stats. 412.) The increased cost of the present breech-loading rifle, the greater demand for its use, and the paucity of the appropriations of late years, have left the country in a dangerous condition, there being on hand, July 1, 1886, subject to issue, but 150,127 breech-loading rifles and carbines. It is of the most vital importance to the nation that the manufacture of arms by this Department be steadily continued, in quantities sufficient to render a gradual accumulation of them in store a certainty. The number of small-arms on hand should never be less than 500,000.</p>							
Total Support of the Army.....						25,524,587 64	23,794,001 21

<i>Current and Ordinary Expenses, Military Academy—Continued.</i>							
Clerk to the adjutant, in charge of cadet-records, (increase of \$300 submitted).....	June 29, 1886	24	88	1	\$1,500 00		
NOTE.—The same remark applies as in the preceding case, except that this clerk's pay was reduced from \$1,500 to \$1,200 per annum.							
Clerk to the treasurer .....	do.....				1,200 00		
Department of cavalry, infantry, and artillery tactics:							
Tan-bark or other proper covering for riding-hall floor.....	do.....				450 00		
Repairing camp-stools and camp-furniture.....	do.....				100 00		
Furniture for offices and reception-room.....	do.....				100 00		
Stationery for use of instructor and assistant instructors of tactics.....	do.....				150 00		
Repairs of gymnasium and gymnasium supplies.....	do.....				250 00		
Gloves, foils, fencing-jackets, &c.....	do.....				250 00		
Books, maps, &c.....	do.....				75 00		
Plumes for cadet-officers of the first class.....	Feb. 12, 1885 Submitted.....	23	300	1	75 00		
Total.....					\$1,450		
Department of civil and military engineering:							
Models, maps, purchase and repairs of instruments, text-books, books of reference, and stationery for the use of instructors, and contingencies.....	June 29, 1886	24	89	1	500 00		
Extra pay of enlisted man employed as draughtsman .....	do.....				100 00		
Total.....					\$600		
Department of natural and experimental philosophy:							
Pay of mechanic assistant.....	do.....				1,000 00		
Apparatus to illustrate the laws of mechanics, optics, acoustics, and astronomy .....	do.....				1,000 00		
Text-books, books of reference, scientific periodicals, and materials .....	do.....				400 00		
Repairs of observatory building, clocks, and scientific apparatus .....	do.....				750 00		
Total.....					\$3,150		
Department of mathematics:							
Repairs and material for preservation of models and instruments .....	do.....				25 00		
Text-books, books of reference, stationery for use of instructors, and binding.....	do.....				75 00		
Tables of logarithms for use in section-rooms.....	Submitted.....				100 00		
Rules and triangles for use in section-rooms.....	do.....				100 00		
Total.....					\$300		
NOTE.—The tables of logarithms on hand are very nearly worn-out; others are required for proper instruction in that important subject. Rulers and triangles are required for making constructions in descriptive geometry in section-rooms.—(Professor of Mathematics.)							
Department of history, geography, and ethics:							
Text-books, books of reference and stationery for use of instructors, maps, and repairs, (increase asked for, \$150).....	June 29, 1886	24	89	1	300 00		
NOTE.—I have asked for the amount allowed for the year ending June 30, 1886, (\$300,) and not for the amount as reduced in the present fiscal year, (\$150.) The former amount is much needed.—(Professor of History, &c.)							
Department of chemistry, mineralogy, and geology:							
Chemicals, chemical apparatus, glass and porcelain ware, paper, wire, sheet-metal, ores, photographic apparatus, and materials.....	do.....				500 00		
Rough specimens, fossils, files, alcohol, lamps, blow-pipes, pencils, and paper for practical instruction in mineralogy and geology, and for gradual increase and improvement of the cabinet .....	do.....				400 00		
Repairs and additions to electric, magnetic, pneumatic, and thermic apparatus, and apparatus for illustrating optical properties of substances.....	do.....				750 00		
Pay of mechanic employed in chemical and geological section-rooms, and in lecture-rooms.....	do.....				1,000 00		
Models, maps, and diagrams, books of reference, text-books, and stationery for the use of instructors.....	do.....				180 00		
Purchase of gas-engine for driving electric generators.....	Submitted.....				1,000 00		
Contingencies .....	do.....				100 00		
Total.....					\$3,930

<i>Current and Ordinary Expenses, Military Academy—Continued.</i>							
Department of drawing :							
Books of reference, periodicals in art and technology.....	June 29, 1886	24	90	1	\$150 00		
Models for topographical, mechanical, and free-hand drawing.....	do.....				250 00		
Rules and triangles.....	do.....				30 00		
Repairs to desks, models, racks, stools, stretchers, and additional racks and stretchers.....	do.....				100 00		
Drawing material for use of instructors, cardboard, tacks, brushes, sponges, glue, alcohol, transfer-paper, hektograph, cloth for screens, color-diagrams, and contingent expenses.....	do.....				250 00		
Photographic slides for use in lectures.....	Feb. 12, 1885 Submitted.....	23	300	1	50 00		
Binding periodicals and pamphlets on hand.....						Submitted.....	
Framing retained drawings on hand.....	do.....				50 00		
Photographic outfit.....	do.....				200 00		
Completion of map and relief-model of Government reservation, West Point.....	do.....				150 00		
Total.....					\$1,280		
Department of modern languages :							
Stationery, text-books, and books of reference for the use of instructors, and for printing examination-papers.....	June 29, 1886	24	88	1	275 00		
Department of law :							
Stationery, text-books, and books of reference for use of instructors, and for rebinding and repairing the same.....	do.....				250 00		
Furniture and shelving for room to contain the law-reference library.....	Submitted.....				125 00		
Total.....					\$375		
Department of practical military engineering :							
Purchase and repair of instruments; transportation; purchase of tools, implements, and materials, and for extra-duty pay of engineer soldiers, as follows, viz: Astronomical and meteorological instruments and lights for use in instructing cadets in practical astronomy; reconnoitring instruments for use in their practical instruction in making reconnoissances; photographic apparatus and material for field photography; drawing instruments and material for plotting reconnoissances; surveying instruments and material for signalling and field telegraphy; transportation of field parties; tools and material for the preservation and repair of one wooden ponton and one canvas ponton bridge train; sapping and mining tools and material; profiling material; rope, cordage, and material for rafts and for spar and trestle bridges; intrenching-tools; tools and material for the repair of Fort Clinton and the batteries at the Academy, and extra-duty pay of engineer soldiers employed upon the same; extra pay of two engineer soldiers, at 50 cents per day each, when performing special skilled mechanical labor in the department of practical military engineering; for models; books of reference and stationery.....	June 29, 1886	24	89	1	1,200 00		
Department of ordnance and gunnery :							
Additional models, drawings, apparatus illustrating course of instruction, repairs of electro-ballistic machines, galvanic batteries and models, and for addition to firing-house and practical-instruction room, books of reference, text-books, and stationery for use of instructors.....	do.....				300 00		
Two hundred yards of linoleum for floor of ordnance museum.....	Submitted.....				250 00		
Total.....					\$550		
Expenses of the Board of Visitors, including mileage.....	June 29, 1886	24	90	1	3,000 00		
						\$59,310 00	\$50,830 00
<i>Miscellaneous Items and Incidental Expenses, Military Academy—</i>							
Gas-coal, oil, candles, lanterns, matches, chimneys, and wicking for lighting the academy, chapel, library, cadet-barracks, mess-hall, shops, hospital, offices, stable, and riding-hall, sidewalks, camp, and wharves.....	June 29, 1886	24	90	1	3,500 00		
Water-pipe, plumbing and repairs.....	do.....				2,500 00		
Cleaning public buildings, (not quarters).....	do.....				600 00		
Brooms, brushes, pails, tubs, soap, and cloths.....	do.....				200 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. BUREAU OF MEDICINE AND SURGERY.						16,800 00	16,800 00
<i>Medical Department—</i>							
For surgeons' necessaries for vessels in commission, navy-yards, naval stations, Marine Corps, and Coast Survey, and for the civil establishment at the several naval hospitals, navy-yards, naval laboratory, museum of hygiene, and Naval Academy.....	July 26, 1886	R. S. 24	733 152	3709, 3747 1		60,000 00	55,000 00
<i>Naval-Hospital Fund—</i>							
For maintenance of the naval hospitals at the various navy-yards and stations.....	July 26, 1886	24	153	1		30,000 00	30,000 00
<i>Contingent, Bureau of Medicine and Surgery—</i>							
For freight or expressage on medical stores, toll, ferridges, transportation of insane patients; advertising; telegraphing; rent of telephones; purchase of books and stationery; postage and purchase of stamps for foreign service; expenses attending the medical board of examiners; rent of rooms for naval dispensary and museum of hygiene; hygienic and sanitary investigation and illustration; sanitary and hygienic instruction; purchase and repairs of wagons and harness; purchase and feed of horses and cows; trees, plants, garden tools and seeds; furniture and incidental articles for museum of hygiene; naval dispensary, Washington; naval laboratory, sick-quarters at Naval Academy, and dispensaries at navy-yards; washing for medical department at museum of hygiene, naval dispensary, Washington, naval laboratory, sick-quarters at Naval Academy, dispensaries at navy-yards, and ships and rendezvous, and all other necessary contingent expenses.....	July 26, 1886	R. S. 24	721 153	3666 1		25,000 00	20,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Repairs, Bureau of Medicine and Surgery—</i>							
For necessary repairs of naval laboratory, naval hospitals, and appendages, including roads, wharves, out-houses, sidewalks, fences, gardens, farms, and cemeteries.....	July 26, 1886	24	153	1	.....	\$25,000 00	\$15,000 00
NOTE.—The increased estimate under the appropriation for repairs is on account of the necessity for almost complete renewal of the heating apparatus at the Philadelphia and New York hospitals, the removal of the gas-house from its present proximity to the hospital at Mare Island, as recommended by a board of survey, and the painting and renewal of wood-work at all the hospitals.							
BUREAU OF STEAM-ENGINEERING.							
<i>Steam-Machinery—</i>							
For completion, repairs, and preservation of machinery and boilers of naval vessels, including cost of new boilers, steam-steerers, pneumatic steerers, steam-capstans, steam-windlasses, and other steam auxiliaries.....	July 26, 1886	R. S. 24	721 154	3666 3709, 3747 1	} \$450,000 00		
For preservation of, and small repairs to, machinery and boilers in vessels in ordinary, receiving, and training vessels; repair and care of machinery of yard tugs and launches.....	Same acts				40,000 00		
For purchase, handling, and preservation of all materials and stores.....	do.				200,000 00		
For purchase, fitting, repair, and preservation of machinery and tools in the navy-yards and stations, running yard-engines.....	do.				100,000 00		
For incidental expenses for naval vessels, yards, and the bureau, such as foreign postages, telegrams, advertising, freight, photographing, books, stationery, and instruments.....	do.				10,000 00

NAVAL ACADEMY.							
<i>Pay of Professors and others, Naval Academy—</i>							
One professor of mathematics and one of physics, at \$2,500 each.....	July 26, 1886	24	154	1	5,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Pay of Professors and others, Naval Academy—Continued.</i>							
Three professors, (assistants,) viz: One of chemistry, one of French and Spanish, and one of English studies, history, and law, at \$2,200 each.....	July 26, 1886	24	154	1	\$6,600 00		
Five assistant professors, viz: One of English studies, history, and law, three of French, and one of drawing, at \$1,800 each.....	do.....				9,000 00		
One sword-master, at \$1,500, and two assistants, at \$1,000 each.....	do.....				3,500 00		
One boxing-master and gymnast.....	do.....				1,200 00		
One assistant librarian.....	do.....				1,400 00		
One secretary of the Naval Academy.....	do.....				1,800 00		
Three clerks to the superintendent, at \$1,200, \$1,000, and \$800, respectively.....	do.....				3,000 00		
One clerk to commandant of cadets.....	do.....				1,200 00		
One clerk to paymaster.....	do.....				1,000 00		
One dentist.....	do.....				1,600 00		
One baker.....	do.....				600 00		
One mechanic in department of physics and chemistry.....	do.....				730 00		
One cook.....	do.....				325 50		
One messenger to superintendent.....	do.....				600 00		
One armorer.....	do.....				529 50		
One gunner's mate.....	do.....				469 50		
One quarter-gunner.....	do.....				409 50		
One cockswain.....	do.....				469 50		
One seaman in department of seamanship.....	do.....				349 50		
One attendant in the department of astronomy, and one in the department of physics and chemistry, at \$300 each.....	do.....				600 00		
Six attendants at recitation-rooms, library, store, chapel, and offices, at \$300 each.....	do.....				1,800 00		
One band-master.....	do.....				528 00		
Twenty-one first-class musicians, at \$348 each.....	do.....				7,308 00		
Seven second-class musicians, at \$300 each.....	do.....				2,100 00		
Additional pay to second and third clerks to superintendent, at \$200 each.....	Submitted.....				400 00		
NOTE.—This recommendation is made that the second and third clerks to the superintendent may receive pay commensurate with their duties.							
One assistant in library.....	do.....				900 00		
NOTE.—The increased size of the library and its annual increase requires the daily services of another assistant. An assistant has heretofore been paid under the head of "Incidental labor and expenses not applicable to any other appropriation." The appropriation under this head was reduced at the last session of Congress \$2,600.							
Additional pay to mechanic in the department of physics and chemistry, that he may be paid at the rate of \$3 per day.....	do.....				212 00		
NOTE.—The man filling this position must be a skilled mechanic and instrument-maker.							
One letter-carrier, at \$2 per day.....	do.....				732 00		
NOTE.—There is no free delivery in Annapolis. It requires the daily services of one man to obtain, post, and deliver the mail-matter of the officers, instructors, cadets, and enlisted men at the academy. This service has been performed for the past thirty years by a laborer.							
One messenger to the commandant of cadets, at \$25 per month.....	do.....				300 00		
						\$54,663 00	\$52,119 00
<i>Pay of Watchmen, Mechanics, and others, Naval Academy—</i>							
Captain of the watch and weigher, at \$2.50 per day.....	July 26, 1886	24	154	1	915 00		
Four watchmen, at \$2 per day each.....	do.....				2,928 00		
Foreman of gas and steam-heating works of the academy, at \$5 per day.....	do.....				1,830 00		
Labor at gas-works and steam-buildings; for masons, carpenters, and other mechanics, and laborers for care of buildings, grounds, wharves, boats, &c.....	do.....				37,864 95		
One yeoman.....	do.....				600 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Pay of Watchmen, Mechanics, and others, Naval Academy—Continued.</i>							
One attendant in the purifying-house of the gas-house, at \$1.50 per day.....	Submitted.....				\$549 00		
NOTE.—This position has been filled by an enlisted man for some years, until September, 1885, when the allowance of enlisted men to the ships at the academy was reduced and this attendant was discharged.							
One laborer to superintend and keep in order lower quarters of cadets, at \$2 per day.....	do.....				732 00	\$45,418 95	\$44,122 45
NOTE.—This necessary position has been filled by an enlisted master-at-arms from 1874 until September, 1885, when the allowance of enlisted men to the ships at the academy was reduced and the master-at-arms was discharged by order of the chief of the Bureau of Equipment and Recruiting. At date of discharge, the master-at-arms was receiving \$889.50 per annum.							
<i>Pay of Steam-Employés, Naval Academy—</i>							
Pay of mechanics and others in department of steam-engineering.....	July 26, 1886	24	155	1	7,824 50		
Extra labor in the department of steam-engineering.....	Submitted.....				269 50		
NOTE.—During eighty-five days of the year, the practical instruction of the naval cadets in steam and machinery makes it necessary for the employés of the department of steam-engineering to work two hours more per day than the period prescribed by section 3733, Revised Statutes. This extra time is equal to eleven working-days.							
One moulder, at \$2.50 per day.....	do.....				785 00	8,879 00	7,851 00
NOTE.—The services of a moulder are necessary.							
Total Pay Naval Academy.....						108,960 95	103,731 97
<i>Repairs and Improvements, Naval Academy—</i>							
Necessary repairs of public buildings, pavements, wharves, and walls enclosing the grounds of the Naval Academy, and for improvements, repairs, and furniture and fixtures.....	Appropriated..	24	155	1		21,000 00	21,000 00
<i>Heating and Lighting, Naval Academy—</i>							
Fuel, and for heating and lighting the academy and school-ships.....	Appropriated..	24	155	1		17,000 00	17,000 00
<i>Contingent, Naval Academy—</i>							
Purchase of books for the library.....	Appropriated..	24	156	1		2,000 00	2,000 00
Stationery, blank books, models, maps, and for text-books for use of instructors.....	do.....					2,000 00	2,000 00
Expenses of the Board of Visitors to the Naval Academy, being for mileage and \$5 per diem for each member for expenses during actual attendance at the Academy.....	do.....					1,500 00	1,500 00
Purchase of chemicals, apparatus, and instruments in the department of physics and chemistry, and for repairs of the same.....	do.....					2,500 00	2,500 00
Purchase of gas and steam-machinery, steam-pipe and fittings; rent of buildings for the use of the Academy; freight, cartage, water, music, musical and astronomical instruments; uniforms for the bandsmen; telegraphing; for feed and maintenance of teams; for current expenses and repairs of all kinds; and for incidental labor and expenses not applicable to any other appropriation.....	do.....					32,000 00	32,000 00
Stores in the department of steam-engineering.....	do.....					800 00	800 00
Materials for repairs in steam-machinery.....	do.....					1,000 00	1,000 00
Repairs to wharves.....	Submitted.....					3,000 00	
Boat-house for steam-launches.....	do.....					5,000 00	
Addition to library-building.....	do.....					7,000 00	
NOTE.—These additions are necessary. The wharves require extensive repairs, as they are in a dangerous condition, and the usual appropriation is not sufficient for the work. There is no place where the thirteen (13) steam-launches used by the cadets in steam-tactics can be taken out of the water when not in use. The injury and deterioration resulting, during the winter months, from lack of a suitable boat-house, involves a large annual expenditure for repairs. The library has become so crowded that books can no longer be kept in their proper places, and, consequently, the usefulness of the library has been greatly diminished. The library now contains 27,000 volumes. These three items would not be required another year.							
Total Naval Academy.....						203,760 95	183,531 97

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

LIGHT-HOUSES, BEACONS, AND FOG-SIGNALS.							
<i>Great Duck Island Light-Station, Maine—</i>							
For establishing a light and fog-signal on Great Duck or Long Island, Maine.....	Submitted.....					\$10,000 00	
NOTE.—A light and fog-signal here would be of great assistance to vessels desiring to enter either Bass harbor or Southwest harbor. Both of these are frequently used by coasting vessels at all seasons of the year.							
<i>Green Island Light-Station, Maine—</i>							
For establishing a light upon Green Island, near the entrance to Burnt Coat harbor, Maine.....	Submitted.....					12,000 00	
NOTE.—Burnt Coat harbor is an excellent and capacious harbor of refuge. The range-lights which guided to the entrance were unsatisfactory, and a vessel was wrecked in 1883, while trying to make the harbor by their aid. One of them was accordingly discontinued, and it is proposed to erect in its stead a light-house on Green Island, about one mile to the southward of the entrance.							
<i>Gould Island Light-Station, Rhode Island—</i>							
For establishing a light and fog-signal at Gould Island, Narragansett bay, Rhode Island.....	July 10, 1886 Submitted.....	24	142	1		10,000 00	
NOTE.—This aid to navigation was authorized by the act of July 10, 1886. A light is now maintained at this point by private parties.							
<i>Hell Gate Electric Light, New York—</i>							
For the purchase of land for the site of the electric-light tower already established at Hallett's Point, near Hell Gate, New York.....	Appropriated.. Appropriated.. Appropriated.. Submitted.....	22 22 23	310 607 197	1 1 1		12,000 00	
NOTE.—The land is held at present under lease, which the Light House Board has no funds to renew. In case it is not deemed advisable to purchase the land, authority should be given to lease it and to defray the expense from the appropriation for "Repairs of light-houses."							
<i>Watch Point Light-Station, Lake Champlain, New York—</i>							
For the re-establishment of a light on Watch Point, Lake Champlain, New York.....	Submitted.....					500 00	
NOTE.—The dolphin stake-light established at this point has been carried away by ice.							
<i>Squan Inlet Light-Station, New Jersey—</i>							
For the establishment of a light about midway between Barnegat and Navesink, New Jersey.....	Submitted.....					20,000 00	
NOTE.—The distance between Barnegat light and the lights at the Highlands of Navesink is about 33/4 nautical miles. In hazy or bad weather there is here an unlighted interval of coast, and, considering the vast commerce that passes this point, it should be lighted. Vessels nearing New York will be thus enabled to fix their position.							
<i>Absecon Buoy-Depot, New Jersey—</i>							
For the purchase of a site and erection of a buoy-depot at Absecon Inlet, New Jersey.....	Submitted.....					1,500 00	
NOTE.—A buoy-shed should be built at this place where the tender can come close to it, and large enough to receive most of the buoys, &c., needed in the New Jersey inlets. When this is done, the buoys for Great Egg Harbor Inlet, a few miles below, can be stored here, and the \$40 per year rent paid can be saved.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.			
		Vol. or R. S.	Page.	Sec.						
<i>Cape May Boat-House, New Jersey—</i> For the purchase of a site and erection of a boat-house for light-ships' boats at Cape May, New Jersey.....	Submitted.....					\$750 00				
NOTE.—The two light-ships on Five-Fathom Bank make their communication by boat at Cape May, through Cold Spring Inlet. When the regulations permit, the men on leave from these vessels land here, and remain until their leave has expired. The result is that a great part of the time there are two boats, with their outfits, lying in the inlet; they are exposed to all weathers and to injury by evil-disposed persons.										
<i>Chincoteague Buoy-Depot, Virginia—</i> For the purchase of additional land for site, and for repairs to the buoy-depot at Chincoteague Island, Virginia..	Submitted.....					1,250 00				
NOTE.—The property on the bay has only a frontage of 30 feet, and of course it is impossible to lay the tender alongside without reaching over other property. At the time this purchase was made no greater frontage could be obtained.										
<i>Page's Rock Light-Station, Virginia—</i> For establishing a light on or near Page's Rock, in York river, Virginia.....	Submitted.....					25,000 00				
NOTE.—This rock is quite dangerous, even to vessels of small draught. The increase of commerce upon the river, and still greater prospective increase, make a light at this point quite necessary. The continuation of railroads now centring at West Point, head of York river, includes over thirteen hundred miles of road, necessitating additional and daily lines of steamers to New York and Baltimore.										
<i>Cob Point Bar Light-Station, Maryland—</i> For establishing a light-house at Cob Point bar, Wicomico river, Maryland.....	Submitted.....					15,000 00				
NOTE.—There is considerable commerce upon the Wicomico, three steamboat lines running regularly. It is also a good harbor of refuge in storms. The mouth of the river is nearly closed by bars, and a light is required to mark them.										
<i>Shark's Fin Shoal Light-Station, Maryland—</i> For establishing a light on Shark's Fin shoal, Maryland, to take the place of Clay Island light.....	Submitted.....					25,000 00				
NOTE.—The site at Clay Island is rapidly washing away, and expensive works of protection will be necessary. It will be cheaper to build a screw-pile light-house on the shoal.										
<i>Greenbury Point Light-Station, Maryland—</i> For establishing a light on the shoal off Greenbury Point, Maryland, to replace the one on the point .....	Submitted.....					25,000 00				
NOTE.—The land about the light-house on the point is washing away, and the structure is endangered. In its present position the light is of little use, as it is difficult to distinguish it from the lights of Annapolis. It is proposed to build a new structure nearer the channel.										
<i>Pamplico Light-Station, North Carolina—</i> For establishing a light off Pamplico Point, North Carolina, to replace the one on the point.....	Submitted.....					25,000 00				
NOTE.—The present structure is in danger of being washed away. A light on the shoal will be of much greater value to the extensive commerce of these waters, and would cost but little, if any, more than a permanent protection for the present tower and dwelling.										
<i>Hunting Island Light-Station, South Carolina—</i> For protecting the site of the light-house at Hunting Island, South Carolina, or for the removal and re-erection of the same, if found necessary, including the purchase of a safer site therefor.....	Appropriated.. Submitted.....	23	485	1	} .....	51,000 00				
NOTE.—A great and continuous abrasion has been going on for years at and near this light-house, and the means hitherto used for its protection have been found to be inadequate, owing to the smallness of the appropriation. The tower was purposely constructed so as to admit of removal. Original cost, \$102,000.										
<i>Mosquito Inlet Light-Station, Florida—</i> For completing the construction of the light-house at Mosquito Inlet, Florida.....	Appropriated.. Appropriated.. Appropriated.. Appropriated..	22 22 23 24	310 609 485 224	1 1 1 1	} .....	20,000 00	\$50,000 00			
NOTE.—The estimate for this work was \$200,000, of which \$150,000 has been previously appropriated; \$20,000 can be expended to advantage during the next fiscal year.										
<i>Hillsboro' Inlet Light-Station, Florida—</i> For establishing a light at Hillsboro' Inlet, Florida.....	Submitted.....								90,000 00	
NOTE.—A light on this important point is necessary to complete the system for this dangerous coast.										

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<p><i>Lights, &amp;c., for Channels leading to Pensacola, Fla.—</i>                      For the following aids to navigating channels leading to Pensacola, Fla.: Range-lights near Fort McRae; re-establishment of Fort Barrancas ranges; lighted beacons at or near Devil's Point, Escambia bay; at or near the turn of the channel; and at Bay Point, Blackwater bay; and for a day-beacon to mark the shoals between the anchorage and Blackwater bay....</p> <p>NOTE.—These aids were directed to be established by act of Congress, approved July 26, 1886.</p>	July 26, 1886 Submitted.....	24	149	1	}.....	\$17,250 00	
<p><i>Depot for the Seventh Light-House District—</i>                      For establishing a new supply and buoy depot for the seventh light-house district.....</p> <p>NOTE.—The building of a new custom-house at Key West, Fla., has deprived the Light-House Establishment of the advantage of the grounds for storage of buoys and other supplies. It therefore becomes necessary to establish a depot, with wharves, buildings, &amp;c., upon a new site.</p>	Submitted.....					50,000 00	
<p><i>Dog River Bar Light-Station, Alabama—</i>                      For establishing a permanent light in the Dog River Bar channel, entrance to Mobile bay, Alabama.....</p> <p>NOTE.—The present system of lights is inadequate for running vessels up to Mobile during the night.</p>	Submitted.....					20,000 00	
<p><i>Grosse Isle Ranges, Michigan—</i>                      For the establishment of range-lights on Grosse Isle, Detroit river, Michigan.....</p> <p>NOTE.—A private light has been maintained here for some years.</p>	Submitted.....					7,000 00	
<p><i>Eleven-Foot Shoal Light-Station, Michigan—</i>                      For establishing a light at or near Eleven-Foot shoal, off Point Peninsula, Michigan.....</p> <p>NOTE.—This is the principal passage leading to Escanaba, Mich., a point of increasing importance for the shipment of mineral products. The 11-foot shoal is just at the turn of the channel, and the only light to mark the turn is 2¼ miles distant, at Point Peninsula. When this light is established the Point Peninsula light can be discontinued.</p>	Submitted.....					60,000 00	
<p><i>Squaw Island Light-Station, Michigan—</i>                      For establishing a light and fog-signal on Squaw Island, northern end of Lake Michigan, to mark the passage to the westward of Beaver Island.....</p> <p>NOTE.—The passage to the westward of Beaver Island is being generally used by steam-barges from Chicago and Milwaukee and other ports on the lakes during fall and spring, when the northwest winds prevail. It would be used at all times but for the shoals and dangers on the north shore of Lake Michigan. An appropriation has already been made for a light at Point Seul Choix, and with another at Squaw Island the passage could be made at all times with greater safety.</p>	Submitted.....					25,000 00	
<p><i>Grand Island Light-Station, Michigan—</i>                      For the purchase of the land upon which the light-house structures are erected at Grand Island, Michigan.....</p> <p>NOTE.—It is found that, because of an error in the original survey, the light-house site at Grand Island is not upon a Government reservation, as was supposed, but on land ceded to the State of Michigan, and held as "school-land." It will be necessary to purchase the whole lot upon which the reservation is situated.</p>	Submitted.....					150 00	
<p><i>Depot for the Ninth Light-House District—</i>                      For establishing a supply and buoy depot for the ninth light-house district.....</p> <p>NOTE.—A depot is absolutely necessary for the storage of supplies and buoys in this new light-house district. The sum mentioned will be expended for a site, for the erection of wharves, sheds, and other necessary buildings, and the moving of the requisite buoys and materials from Detroit.</p>	Submitted.....					50,000 00	
<p><i>San Luis Obispo Light-Station, California—</i>                      For establishing a light and fog-signal to guide into San Luis Obispo bay, California, the Light-House Board being allowed to choose separate sites for the same, should they consider it advantageous to mariners to do so.....</p> <p>NOTE.—Nearly all coastwise steamers stop here, and the aids recommended are an urgent necessity, so that this light will be of value, both as a harbor and a coast light. It was directed to be established by the act of July 10, 1886.</p>	July 10, 1886 Submitted.....	24	142	1	}.....	50,000 00	
<p><i>Point Sur Light-Station, California—</i>                      For establishing a light-house and steam fog-signal on Point Sur, California.....</p> <p>NOTE.—This sum is required to complete the light-house, the estimated total cost being \$100,000.</p>	July 10, 1886 Appropriated..	24	142	1	}.....	50,000 00	\$50,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Northwest Seal Rock Light-Station, California—</i>							
For continuing the construction of a light-house on Northwest Seal Rock, off Point St. George, California.....	Appropriated..	22	310	1	} .....	\$150,000 00	
	Appropriated..	22	607	1			
	Appropriated..	23	198	1			
	Appropriated..	23	485	1			
NOTE.—The work on this nearly inaccessible rock has been almost discontinued, no appropriation having been made by the last Congress. Work cannot be carried on with advantage at a less expenditure than \$15,000 per month, and a certain sum must be set aside to meet the casualties to which such a work is necessarily exposed. The sum mentioned is the least that should be appropriated with a view to true economy.							
<i>Humboldt Light-Station, California—</i>							
For establishing the light and fog-signal at Humboldt, Cal., upon a more secure site.....	Submitted.....					25,000 00	
NOTE.—During the past year the light-house structures at Humboldt have been seriously threatened, and it is believed that a severe storm may at any time so encroach on the site as to overthrow them. It is proposed to rebuild the station upon Humboldt Bluff.							
<i>Cape Meares Light-Station, Oregon—</i>							
For the purchase of a site and the construction of a first-order coast light-house at Cape Meares, Tillamook bay, Oregon, or at Cape Lookout, Oregon, if, in the opinion of the Light-House Board, that site is more advantageous to mariners.....	July 10, 1886	24	142	1	} .....	60,000 00	
	Submitted.....						
NOTE.—This light was authorized at the last session of Congress, (act July 10, 1886.) Its establishment will fill a gap in the lighting of the coast between Tillamook Rock light-station on the north and Cape Foulweather light-station on the south.							
<i>Depot for the Fourteenth Light-House District—</i>							
For establishing a depot for the fourteenth light-house district at Carrollton, Ky., or such other point as the Light-House Board may select.....	Submitted.....					5,000 00	
NOTE.—The supplies for the lights on the Ohio river can be obtained much more cheaply if purchased in bulk. This cannot be done unless an adequate depot for such supplies is established.							
<i>Depot for the Sixteenth Light-House District—</i>							
For establishing a depot for the sixteenth light-house district.....	Submitted.....					20,000 00	
NOTE.—The separation of this new light-house district renders it necessary to have a depot of supplies at a convenient point. The sum mentioned will be used for the purchase of a site and the erection of wharves and buildings.							
<i>Steam-Tender for the Western Rivers—</i>							
For a new tender for the maintenance of lights upon the western rivers.....	Submitted.....					40,000 00	
NOTE.—A new light-house district was established by an act of Congress passed July 26, 1886, and a tender is absolutely necessary for the proper maintenance of the lights.							
<i>Oil-Houses for Light-Stations—</i>							
For establishing isolated houses at light-stations for the storage of mineral oil.....	Submitted.....					50,000 00	
NOTE.—The introduction of mineral oil into general use in the Light-House Service greatly increases the danger from fire, and necessitates greater storage capacity. As there are no proper means at present of storing the large quantities for annual supply, it is proposed to erect small buildings entirely separated from any others, thus avoiding the danger from fire as far as possible.							
<i>Supply-Steamer for the Atlantic and Gulf Coasts—</i>							
For an iron steamer for the transportation of oil and other supplies to the light-houses on the Atlantic and Gulf coasts.....	July 28, 1886	24	159	1	} .....	147,500 00	
	Submitted.....						
NOTE.—Since mineral oil has been introduced into light-houses, it is found that the supply-steamer "Fern" is too small to carry the increased bulk necessary. It is, therefore, proposed to use her as a buoy-tender, and build a more suitable vessel for a supply-steamer. The act of July 28, 1886, authorized the construction of this vessel.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1887—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Building for the Light-House Board—</i>							
For erecting a suitable building at Washington, for the use of the Light-House Board, to contain its offices, its archives, its museum, and its laboratory.....	Submitted.....					\$210,000 00	
NOTE.—The Board has been for some time very seriously inconvenienced by the insufficiency of the quarters assigned to it in the Treasury building. The building is necessarily crowded by offices and bureaus, constantly increasing in number and size, and, notwithstanding the fact that the Light-House Service and the business connected therewith are constantly increasing in magnitude and importance, the quarters for the Board are more and more confined.

						5,729 85	4,000 00

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.*

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Repairs and Preservation at Navy-Yards and Stations—</i> For repairs and preservation at navy-yards and stations...	Appropriated..	24	238	1	.....	\$800,000 00	\$125,000 00
<i>Naval Training-Station, Coaster's Harbor Island, R. I.—</i> For repairs to main causeway, wharf, roads, buildings, and grounds, and extending sea-wall at the naval training-station, including the cost of erection or purchase of such shops, buildings, and implements, and the employment of such labor as may be necessary for the proper care and preservation of the same, and including also the expense attending the care and maintenance of the live-stock at the station .....	Appropriated..	24	238	1	.....	60,000 00	8,000 00
NEW NAVAL OBSERVATORY.							
<i>New Naval Observatory—</i> For continuing the erection of the new Naval Observatory and necessary buildings upon the site purchased under the act of Congress approved February 4, 1880, (21 Stats., p. 64,) two hundred and fifty thousand dollars; of which ten thousand dollars may be used for the purchase of a new meridian circle.....	July 26, 1886	24	156	1	.....	250,000 00	50,000 00
Total Public Works under Navy Department.....						4,418,961 16	500,595 00
UNDER THE INTERIOR DEPARTMENT.							
PUBLIC BUILDINGS.							
<i>Repairs of Building, Department of the Interior—</i> Casual repairs of the Department building.....	Appropriated..	24	238	1	.....	\$7,780 00	\$7,780 00
<i>Reconstructing East Wing, Interior-Department Building—</i> Reconstructing and making fire-proof the east wing of the Interior-Department building, as per plans and estimate hereto annexed.....	Submitted.....					160,000 00	
<small>NOTE.—See Appendix "M." The details of this estimate, and the plan of the work, will be submitted to Congress in a separate communication.</small>							
<i>Elevator for West Wing of Interior-Department Building—</i> Passenger and freight elevator, west wing of Interior-Department building.....	Submitted.....					\$12,000 00	
Conductor for elevator.....	do.....					720 00	
<small>NOTE.—See Appendix "M."</small>							
<i>Electric-Light Plant for Interior-Department Building—</i> For the introduction in the Interior-Department building of an electric-light plant, including dynamos, engines, boilers, pumps, wires, lamps, and such other material, and also labor, as may be required for the introduction of said plant.....	Submitted.....					20,000 00	
Engineer for electric light.....	do.....					1,000 00	
<small>NOTE.—See Appendix "M."</small>							
<i>Annual Repairs of the Capitol—</i> Work at Capitol, and for general repairs thereof, including wages of mechanics, workmen, and fresco-painter...	Appropriated..	24	239	1	.....	35,000 00	38,000 00
<i>Improving the Capitol Grounds—</i> Continuing the work of the improvement of the Capitol grounds, and for the care of the grounds, including pay of landscape architect, one clerk, and the pay of mechanics, gardeners, and laborers .....	Appropriated..	24	239	1	.....	25,000 00	25,000 00
<i>Capitol Terraces—</i> Continuing the work upon the terraces of the Capitol, and for constructing grand stairways, Sections E, F, G, H, and I, as shown on plan accompanying the letter of the Secretary of the Treasury, (Ex. Doc. No. 9, 1st Sess., 48th Cong.,) including the wages of mechanics and laborers, \$331,322.86, one-half of which is required for the service of the year 1888, as follows: Construction of one grand stairway and portion of arcade and terrace connected therewith, namely: Sections E, F, and portion of G, as shown on plan accompanying the letter of the Secretary of the Treasury, (Ex. Doc. No. 9, 1st Sess., 48th Cong.,) including the wages of mechanics and laborers.....	Appropriated..	24	239	1	.....	165,661 43	177,833 48
<small>NOTE.—For explanation of this estimate, see Appendix "Z."</small>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Ventilation, Senate Wing of the Capitol—</i> Constructing tower and large air-duct leading from same to Senate wing, for supplying fresh air to the Senate Chamber from western grounds, similar to that already constructed for the same purpose for the House of Representatives .....	Submitted.....					\$9,000 00	
<i>Extending Boiler-Vaults, House of Representatives—</i> Excavating between the House wing and old building, and extending boiler-vaults, in connection with terrace..	Submitted.....					5,000 00	
<i>Lighting the Capitol and Grounds—</i> Lighting the Capitol, and grounds about the same, including the Botanic Garden, Senate and House stables; for gas and electric lighting, pay of superintendent of meters, lamplighters, gas-fitters, and material for gas and electric lighting, and for general repairs.....	Appropriated..	24	239	1		25,000 00	\$27,000 00
<i>Building for Library of Congress—</i> For continuing the work of construction of the building for the Library of Congress.....	Apr. 15, 1886	24	12	1-8		500,000 00	500,000 00
<i>Buildings and Grounds, Government Hospital for the Insane—</i> General repairs and improvements.....	Appropriated..	24	241	1	\$15,000 00		
NOTE.—The increased extent of the buildings, and the length of time that many of these have been in constant use, render a somewhat more extensive relaying of floors, renewal of roofs, and plumbing necessary than has hitherto been undertaken. It is thought that the sum asked is as little as can be made to answer the purpose of a true economy in the preservation and continued use of all the buildings.							
Special improvements, viz: Additional accommodations for the colored insane.....	Appropriated..	24	241	1	17,000 00		
For rebuilding wharf.....	do.....				3,500 00		
Additional heating-boiler.....	do.....				1,500 00		
Cottage at the cemetery.....	do.....				900 00		
Tower-clock.....	do.....				750 00		
Furnishing new building for convict and homicidal insane persons.....	do.....				5,000 00		
NOTE.—For detailed explanation of these items see letter in Appendix "Aa."							
For additional land for farming purposes.....	do.....				6,000 00		
NOTE.—The estimate for current expenses, Government Hospital for the Insane, will be found under the title of "Miscellaneous," post.						49,650 00	65,000 00
<i>Buildings and Grounds, Columbia Institution for the Deaf and Dumb—</i> For the improvement of the grounds, including pavements near the new buildings for the Kendall school and the laboratory and shop buildings.....	Appropriated..	19	224	1		1,700 00	8,000 00
NOTE.—This estimate is made to provide for certain much needed improvements on the grounds, especially to complete a roadway leading from the main group of buildings to the farm, and to complete the surroundings of the two new buildings recently erected. The estimate for current expenses of the institution will be found under the title of "Miscellaneous," post.	Submitted.....						
<i>Buildings and Grounds, Howard University—</i> Repairs of buildings.....	Appropriated..	24	242	1		4,000 00	7,000 00
<i>Water Supply, Howard University—</i> For making suitable connections between the steam-pump at Howard University and the new reservoir, and for improving the water supply.....	Appropriated..	22	626	1		2,000 00	
NOTE.—First. The sum requested for repairs is \$4,000. This is \$1,000 less than the present year, and would have been smaller still but for the necessity of taking in hand the old, dilapidated structure used for our industrial building. The increasing extent and usefulness of the industrial training imparted to the students require extensive repairs on the building to put it in safe and available condition, especially if machinery shall be used in it. Secondly. We ask for \$2,000 (or so much thereof as may be necessary) to lay a permanent connecting-pipe from the new water-reservoir adjacent to our steam-pump, which Congress furnished to us not long since. The well from which the water is now drawn is exhausted in a few hours, and needs to be connected with the reservoir. The estimate for maintenance of Howard University will be found under the title of "Miscellaneous," post.	Submitted.....						
Total Public Buildings under Interior Department.....						1,023,511 43	855,613 48

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
UNDER THE DEPARTMENT OF JUSTICE.							
<i>Building, Department of Justice—</i>							
Repairs to heating apparatus, keeping the same in good order .....	Appropriated..	24	251	1	.....	\$300 00	\$5, 300 00
<i>Repairs to Court-House, Washington, D. C.—</i>							
For annual repairs to the court-house in the city of Washington, District of Columbia, per estimate of the Architect of the Capitol.....	Appropriated..	24	252	1	.....	1, 000 00	12, 000 00
<i>Buildings, Reform-School, District of Columbia—</i>							
For construction of greenhouses, with necessary heating apparatus, complete.....	Appropriated..	24	252	1	} \$4, 500 00		
For construction of one workshop-building, with necessary heating apparatus, complete .....	Submitted.....						
For one chapel building, of bricks and stone, including heating apparatus, gas fixtures, and furniture, complete.....	do.....				4, 700 00		
For grading, draining, and permanently improving the school grounds.....	do.....				7, 500 00		
NOTE.—See copy of letter of the president of the Board in Appendix "Bb."	do.....				1, 500 00		
Total Public Works under Department of Justice.....						\$18, 200 00	\$19, 500 00
						19, 500 00	36, 800 00
UNDER THE WAR DEPARTMENT.							
ARSENALS.							
<i>Rock Island Arsenal, Rock Island, Ill.—</i>							
For completing shop "K," an iron-finishing shop for the armory.....	Appropriated..	24	243	1	97, 548 00		
NOTE.—The work to be done yet is to finish the walls, fabricate and put on the roof and gutters, fabricate and put in iron columns, floor-beams, and brick arches, and finish up all carpenter-work inside.							
For completing storehouse "K".....	do.....				80, 000 00		
For one artillery shed, 56 by 234 feet .....	Submitted.....				14, 000 00		
NOTE.—The amount asked for is to erect a building on the south side of the shop, opposite shop "G."							
For machinery and shop fixtures.....	Appropriated..	24	243	1	17, 000 00		
NOTE.—It is proposed with the money asked for to continue the work of putting shafting and other fixtures into the shops now being completed, to add to the plant of the arsenal such machines as are required for immediate use and form part of the permanent plant of the arsenal, and to continue the construction of one of the great lines of shafting for connecting the shops with the water-power. It is important that the fitting up of the shops for use should progress with the construction of the buildings. These fixtures are manufactured in the arsenal shops, and the work can be done much more cheaply at slack times, in connection with other work, than if postponed until other work is completed.							
For replacing wooden beams on Rock Island wagon-bridge (between the island and the city of Rock Island) by iron ones, re-flooring wagon-road and sidewalks, and painting.....	do.....				9, 000 00		
NOTE.—This bridge can only be put in temporary repair by the moneys appropriated for the fiscal year ending June 30, 1887, but the old wooden timbers are so decayed that it is very necessary it should be put in thorough good order, the use of the bridge by the public, as well as the Government, being very considerable.							
For replacing flooring and sidewalks, and for painting Moline bridge.....	do.....				2, 100 00		
NOTE.—The flooring and sidewalks of this bridge require to be replaced almost entirely, and it will need many temporary repairs during the present year to enable it to be used for the purposes for which it was constructed.							
For general care, preservation, and improvements; for building new roads; for care and preservation of the water-power; for painting, and care and preservation of permanent buildings, bridges, and shores of the island; for building fences, grading grounds, and repair and extension of railroad.....	do.....				15, 000 00		
NOTE.—This work is necessary in the progress of the work of building the arsenal. The roads are required for immediate use in building operations, and should be so permanently built as to become a permanent part of the arsenal, and this work on roads, grading, and sewers can be done far more economically while other excavations and buildings are going on and the two kinds of work which are dependent. A large portion of the amount is absolutely necessary for the preservation of immense buildings and extensive roads, bridges, and other constructions already built, and for the maintenance of the water-power and its transmission of power. The importance of this estimate, and the economy and necessity of an appropriation of the whole amount asked for, cannot be too strenuously urged.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.			References to Stats. at Large, or to Revised Statutes.	Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
	Vol. or R. S.	Page.	Sec.				
<i>Rock Island Arsenal, Rock Island, Ill.—Continued.</i>							
For repairing temporary towers for wire transmission of water-power.....	Submitted.....				\$2, 835 00	\$237, 483 00	\$97, 000 00
NOTE.—These towers have been up many years, and, being of a temporary nature, will require to be almost reconstructed for the adoption of some definite and permanent plans for the transmission of the water-power, and this appropriation is urgently needed.							
<i>Rock Island Bridge—</i>							
For renewing trucks with steel rollers at end of each span; wagon-road, sidewalks, floor-beams, and stringers for supporting railroad-track.....	Submitted.....				8, 000 00	17, 250 00	9, 250 00
For care and expense of maintaining and operating the draw.....	Appropriated..	24	243	1	9, 000 00		
For protecting the bridge by sheer-booms.....	do.....				250 00		
NOTE.—This bridge will be put in temporary repair with the moneys appropriated for the fiscal year ending June 30, 1887, but it requires thorough overhauling, and as the Government is required to keep it in thorough repair for railroad, wagon, and foot-passenger purposes, the necessity for this appropriation is apparent.							
<i>Springfield Arsenal, Springfield, Mass.—</i>							
Repairs and preservation of grounds, buildings, and machinery not used for manufacturing purposes.....	Appropriated..	24	243	1	15, 000 00	35, 439 88	45, 000 00
For the erection of a new fire-proof milling-shop, in addition to the amount (\$30,000) appropriated August 4, 1886.....	do.....				20, 439 88		
NOTE.—The reasons for this additional sum are given in the following letter, viz: NATIONAL ARMORY, SPRINGFIELD, MASS., August 23, 1886. To the CHIEF OF ORDNANCE, U. S. ARMY, Washington, D. C. SIR: Referring to letter of the 7th instant, calling for plans and estimates for a new milling-shop for this armory, I have the honor to report that by some error, difficult to account for at this time, some years having elapsed since the estimate was made, the amount (\$30,000) of estimate is insufficient to build a fire-proof structure. For an ordinary—not fire-proof—building it is ample, and it is claimed by the master-carpenter, who is a competent builder, that the estimate he made, on which the one from this office was based, was for an ordinary building. Herewith are enclosed plans and estimates for a fire-proof milling-shop. If the act appropriating the \$30,000 is to be construed as limiting the cost to that sum, it cannot be used, and more money must be asked for, in accordance with the estimates herewith. Respectfully, your obedient servant, A. R. BUFFINGTON, Lieutenant-Colonel of Ordnance, Commanding.							
<i>Augusta Arsenal, Augusta, Ga.—</i>							
Repairs of storehouses, magazines, quarters, barracks, hospital, fences, walks, roads, cisterns, well, &c., rendered necessary by the recent earthquake.....	Submitted.....					10, 000 00	
<i>Benicia Arsenal, Benicia, Cal.—</i>							
For new machinery for carpenter and machine shops.....	Appropriated..	24	243	1	3, 000 00		
	Submitted.....						
NOTE.—The new shops have been completed except in regard to machinery.							
For construction, preservation, and repair of roads, walks, and fences, and preservation and repairs of public buildings.....	do.....				10, 000 00	13, 000 00	4, 700 00
<i>Frankford Arsenal, Philadelphia, Pa.—</i>							
For one sheet-metal shears.....	Appropriated..	24	243	1	800 00		
	Submitted.....						
For one circular graduating-machine for graduating instruments, such as star-gauges, standard gauges, calipers, and all other instruments requiring a graduated scale.....	do.....				1, 000 00		
For one Pratt & Whitney No. 2 milling-machine, complete.....	do.....				950 00		
NOTE.—This machine would enable us to cheapen the cost of sundry small tools, and would be applicable in the manufacture of fuzes and other varieties of special work. The special work, aside from the manufacture of cartridges, has increased so much of late years, both in variety and quantity, that one old plant, improvised to meet the immediate demands of the service, is incapable of doing such work at the lowest cost. An outlay of the amount asked for modern appliances would repay the Government in a few years by cheapening the cost of the product.							
Repairs to buildings, grounds, and fences.....	do.....				6, 000 00		
NOTE.—The wooden fences need renewing, and the buildings generally need extensive repairs.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.	
		Vol. or R. S.	Page.	Sec.				
<i>Frankford Arsenal, Philadelphia, Pa.—Continued.</i>								
For steam-heating apparatus for office.....	Submitted.....				\$1,000 00			
NOTE.—The office is now heated by a hot-air furnace, which is worn-out and must be renewed or replaced, and the experience here with this mode of heating is that, in very cold weather, when heat is most required in all parts of the building, only one side of the building can be comfortably heated. The steam-heating apparatus introduced into the public quarters has proven a success under all emergencies, and I recommend a similar apparatus for the office.								
For completing boiler-house, dry-house, coal-shed, and enlarging adjacent annealing-room and primer-room.....	do.....				4,500 00	\$14,250 00	\$20,200 00	
<i>New York Arsenal, New York City—</i>								
Repairs of roads; repairs of permanent enclosures, fire apparatus, tanks, &c.....	Appropriated..	24	244	1	} 3,000 00			
Repairs of storehouses and other permanent buildings.....	Submitted.....					1,000 00		
Painting buildings and fences.....	do.....					1,500 00	5,500 00	500 00
<i>St. Louis Powder-Depot, Jefferson Barracks, Mo.—</i>								
Repairing barracks and quarters, magazine, roofs, gutters, slopes, drains, retaining-walls, coping, lighting grounds, &c.....	Submitted.....					2,500 00		
<i>San Antonio Arsenal, San Antonio, Tex.—</i>								
For repairing and repainting buildings, fences, &c.; repairing roads, walks, &c.; purchase of trees; and general repairs of post, damaged by recent cyclone.....	Submitted.....					6,000 00		
<i>Powder-Depot, Dover, N. J.—</i>								
For erecting magazines and other necessary buildings, cleaning, draining, and grading grounds, making roads, building fences, &c., and expenses incident thereto.....	Appropriated..	24	244	1		50,000 00	35,000 00	
NOTE.—This estimate is to enable this Department to continue the erection of the necessary magazines for the storage of powder.								
<i>Proving-Ground, Sandy Hook, N. J.—</i>								
Cleaning, levelling, grading, and building roads, and general repairs at the proving-ground.....	Appropriated..	24	244	1		3,000 00	3,000 00	
NOTE.—For target-ranges at the proving-ground. These will extend nearly four miles down the beach, and will require considerable work. Plank roads with railroads should be built, to save expense and time in communicating from place to place on the grounds.								
<i>Watertown Arsenal, Watertown, Mass.—</i>								
For providing a system of sewerage, sinks, &c., in accordance with plans and estimate forwarded to Ordnance Office February 10, 1885.....	Submitted.....					11,908 96		
NOTE.—Necessary to put the arsenal in proper sanitary condition.								
For purchase of water-pipe, hydrants, &c., and labor to lay and connect the same for introducing water from the Watertown Water-Supply Company.....	do.....					2,645 30		
For repair and preservation of grounds and buildings.....	do.....					5,000 00		
						19,554 26		
<i>Testing-Machine, Watertown Arsenal—</i>								
Caring for, preserving, using, and operating the United States testing-machine.....	Appropriated..	24	244	1	10,000 00			
For purchasing machine to test small specimens.....	Submitted.....				15,000 00			
For an impact machine for dynamic tests.....	do.....				2,000 00			
						27,000 00	10,000 00	
NOTE.—The present testing-machine is limited in its operation to tests of tension and compression. It is not adapted to making tests of torsional and transverse resistance, which tests are deemed to be of the greatest value and importance by distinguished civil engineers as well as by this Department. Past experience clearly shows that the machine as it is is fully occupied, and that, to meet the requirements of the present and future, new machines for this work ought to be at once provided. The results obtained are for the benefit of the whole country. Such machines are too costly for individual enterprise to provide, and governmental ownership and supervision stamp the published results as so correct and reliable as to make them acceptable to engineers and manufacturers the world over.								
<i>Watervliet Arsenal, West Troy, N. Y.—</i>								
For general repairs to buildings, bridges, enclosing-wall, fences, roads, and grounds.....	Submitted.....					5,000 00		
For new machinery, to bring the plant up to a modern standard, and to replace that which is obsolete and worn-out.....	do.....					5,000 00		
For two steam-boilers for running steam-engine at shops and for heating purposes.....	do.....					8,000 00		
						18,000 00		
NOTE.—These boilers are very much needed to replace those now in use, one already having been condemned, while the other is unsafe for use.								

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Repairs of Arsenals—</i> Repairs of smaller arsenals, and to meet such unforeseen expenditures at arsenals as accidents or other contingencies during the year may render necessary.....	Appropriated..	24	244	1	.....	\$50,000 00	\$50,000 00
Total Arsenals.....						508,977 14	274,650 00
FORTIFICATIONS AND OTHER WORKS OF DEFENCE.							
<i>Sea-Wall at Governor's Island, New York Harbor—</i> Continuing sea-wall at Governor's Island, New York harbor .....	Appropriated.. Submitted.....	22	618	1	.....	\$25,000 00	.
<i>Sea-Wall at David's Island, New York Harbor—</i> Commencing construction of sea-wall on the east side of David's Island, New York harbor.....	Submitted.....					20,000 00	
NOTE.—This estimate has heretofore been submitted to Congress. (See House Ex. Doc. No. 205, 48th Cong., 2d Sess.)							
<i>Defence of Key West, Florida—</i> Acquisition of sites for two martello towers at Key West, Florida, by purchase or condemnation.....	Submitted.....					9,000 00	
<i>Fort Niagara, New York—</i> Protection of the site of Fort Niagara, including the banks and shores of the reservation at that work, on which are situated the grave-yard, hospital, and line of officers' quarters, from encroachment by the lake and river .....	Submitted.....					10,000 00	
NOTE.—The necessity for this estimate is shown in House Ex. Doc. No. 292, 49th Cong., 1st Sess.							
<i>Preservation and Repair of Fortifications—</i> Preservation and repair of fortifications for which there may be no special appropriation available.....	July 1, 1886 July 15, 1886	24 24	343-5 343-5	1 1	.....	175,000 00	\$8,493 15
<i>Torpedoes for Harbor Defences—</i> Purchase of sub-marine mines and necessary appliances to operate them, for closing the channels leading to our principal sea-ports..... Needful casemates, cable-galleries, and appliances to render it possible to operate sub-marine mines..... Continuing torpedo experiments, and for practical instruction of engineer troops in the details of service... Torpedo-shed at San Francisco harbor..... <i>Armament of Fortifications—</i> Armament of sea-coast fortifications, including the manufacture of heavy guns and carriages, projectiles, fuzes, powder, and implements, their trial and proof, and all necessary expenses incident thereto, including compensation of draughtsmen on gun-construction, while employed in the Ordnance Bureau, and for machine-guns and experiments in the use of dynamite and other high explosives for projectiles..... For gun-factory, including erection of buildings and the necessary machinery, tools, and fixtures..... For the purchase of steel forgings, rough-finished and tempered, for eight, ten, and twelve inch high-power guns, deliveries to be commenced for the smaller calibres within eighteen months, and of larger calibres within thirty months from the date of contract..... For the manufacture of carriages for field-service.....	Mar. 3, 1885 July 1, 1886 July 15, 1886 Submitted.....  Submitted.....  do..... do.....	23 24 24	434 343 345	1 1 1	..... ..... ..... .....  ..... .....	500,000 00     1,000,000 00  3,000,000 00 125,000 00	
NOTE.—The supply of carriages left from the war is entirely exhausted, and it is absolutely necessary that some be built to meet present and future wants.							
For the erection of a foundery-building for making projectiles.....	do.....					20,000 00	
Total Fortifications and Other Works of Defence.....						4,645,000 00	38,219 17
						5,436,000 00	55,630 12
BUILDINGS AND GROUNDS IN AND AROUND WASHINGTON.							
<i>Improvement and Care of Public Grounds—</i> Improvement of grounds north of the Executive Mansion..	Submitted.....					20,000 00	
Improvement and maintenance of grounds south of Executive Mansion.....	Appropriated..	24	244	1	.....	6,000 00	

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.*

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Improvement and Care of Public Grounds—Continued.</i>							
Ordinary care of greenhouses and nursery.....	Appropriated..	24	244	1	\$2,000 00		
Ordinary care of Lafayette square.....	do.....				1,000 00		
Ordinary care of Franklin square.....	do.....				1,000 00		
Care and improvement of Monument grounds.....	do.....				2,000 00		
Continuing improvement of Reservation No. 17, and site of old canal, northwest of same.....	do.....				10,000 00		
Construction and repair of post-and-chain fences, removal and repair of high iron fences around smaller triangular reservations.....	Submitted.....				1,500 00		
Laying asphalt walks in various reservations.....	do.....				10,000 00		
Manure, and hauling the same.....	Appropriated..	24	244	1	5,000 00		
Painting watchmen's lodges, iron fences, vases, lamps, lamp-posts, and settees.....	do.....				2,000 00		
Purchase and repair of seats.....	do.....				1,000 00		
Purchase and repair of tools.....	do.....				2,000 00		
Trees, tree and plant stakes, lime, whitewashing, and stock for nursery.....	do.....				3,000 00		
Removing snow and ice.....	do.....				1,200 00		
Flower-pots, twine, baskets, wire, splints, and lycopodium..	do.....				1,000 00		
Care, construction, and repair of fountains in the public grounds.....	do.....				1,500 00		
Abating nuisances.....	do.....				500 00		
Improvement, care, and maintenance of various reservations.....	do.....				20,000 00		
Improvement, care, and maintenance of the Smithsonian grounds, including 5,000 square yards of asphalt roads.....	do.....				15,000 00		
Improvement and care of Armory and Seaton parks, east to Botanic Gardens.....	Submitted.....				5,000 00		
Improvement and care of Judiciary square, including grounds around new Pension building.....	Appropriated..	24	244	1	5,000 00		
For an ornamental structure of masonry and iron over the spring in Franklin square.....	Submitted.....				2,000 00		
Lodges for park watchmen in Stanton, Mount Vernon, Iowa, Dupont, Thomas, McPherson, Seaton, and Folger reservations, at \$500 each.....	do.....				4,000 00		
Improvement of Reservation No. 101, provided that this sum shall not be available until the track running diagonally through the reservation along the line of Maryland avenue shall have been removed by the railroad company now in charge of it, which company is hereby required to remove said track on or before October 1, 1887.....	do.....				3,000 00		
Supplying and keeping supplied the seventy-six vases in the new Pension building with suitable plants and shrubs, and caring for the same, in accordance with the requirements of the joint resolution of Congress approved March 29, 1886.....	do.....				1,200 00		
Expenses, including advertising of the sale of old condemned property, the accumulation of years, including the old copper from the roof of the Executive Mansion.....	do.....				100 00		
					126,000 00		
Reduced by Secretary of War to.....						\$100,000 00	\$64,200 00
NOTE.—The increase of the estimates for 1888 over the appropriations for 1887 is explained in the report of the officer in charge of public buildings and grounds, printed in Appendix "J."							
<i>Repairs, Fuel, &amp;c., Executive Mansion—</i>							
Care, repair, repainting, and refurnishing the Executive Mansion.....	Appropriated..	24	244	1	16,000 00		
Fuel for the Executive Mansion, greenhouses, and stable..	do.....				3,000 00		
Care and necessary repair of green houses.....	do.....				5,000 00		
Renewing entire superstructure of three greenhouses connected with the Executive Mansion and grounds.....	do.....				4,000 00		
						28,000 00	29,000 00
<i>Lighting, &amp;c., Executive Mansion, &amp;c.—</i>							
Gas, pay of lamplighters, gas-fitters, and laborers; purchase, erection, and repair of lamps, lamp-posts; purchase of matches and repairs of all kinds; fuel and lights for office, office stable, for watchmen's lodges, and for greenhouses at the nursery.....	Appropriated..	24	245	1		14,000 00	14,000 00
<i>Repair of Water-Pipes—</i>							
Repairing and extending water-pipes, purchase of apparatus for cleaning them, purchase of hose, and for cleaning the springs and repairing and renewing the pipes of the same that supply the Capitol, the Executive Mansion, and the building for the State, War, and Navy Departments.....	Appropriated..	24	245	1		2,500 00	2,500 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Telegraph to Connect the Capitol with the Departments and Government Printing Office—</i>							
Replacing the entire overhead system of wires with duplicate six-conductor underground cable, being a total distance of about 11,500 lineal feet—23,000 feet of cable, at 24 cents per foot.....	Submitted.....				\$5,520 00		
Ditching, boxing, &c., 11,500 feet, at 20 cents per foot.....	do.....				2,300 00		
Labor inside of buildings.....	do.....				280 00		
Contingencies, about 5 per cent.....	do.....				400 00		
Care and repair of existing lines.....	Appropriated..	24	245	1	1,500 00		
The Secretary of War is of opinion that it would be of no material advantage to place the Government wires underground, while other lines are allowed to remain as they now are. When the other lines are compelled to place their wires underground the Government wires can perhaps be so placed at less expense; he therefore reduces this estimate to.....					10,000 00		
						\$1,500 00	\$1,250 00
<i>Map of Washington City—</i>							
Preparing a copy of the original map of the city of Washington.....	Submitted.....					400 00	
<i>Washington Aqueduct, District of Columbia—</i>							
Maintenance and ordinary repairs.....	Appropriated..	24	132	1	20,000 00		
Improvements at the receiving-reservoir to avoid danger of pollution of the water supply.....	Submitted.....				125,000 00		
Total..... \$145,000							
NOTE.—The officer in charge of the Aqueduct submits a project for improvement of the receiving-reservoir to avoid danger of pollution of the water supply, as above submitted. The question of purity of water supply is a vital one, and the means proposed to secure it are recommended to the earnest consideration of Congress.							
The act of June 11, 1878, (20 Stats., p. 104,) providing a permanent form of government for the District of Columbia, specifies that the estimates for the "expenses of the Washington Aqueduct and its appurtenances" shall be submitted by the Commissioners of the District of Columbia.							
<i>Building for Army Medical Museum and Library—</i>							
For brick annex to main building, for laboratory and anatomical work.....	Appropriated..	24	245	1		7,500 00	38,050 00
	Submitted.....						
NOTE.—This building is required to remove offensive and dangerous work from the Museum building.							
<i>Building for Signal Office—</i>							
For purchase of a site, about 54,000 square feet of ground, and building thereon, on northeast quarter of square No. 25, corner Twenty-fourth and M streets, northwest, Washington, D. C., belonging to Mr. David Ferguson, for offices for use of the Signal Bureau.....	Submitted.....				108,000 00		
For the erection of the necessary storehouses connected with said office.....	do.....				42,000 00		
						150,000 00	
NOTE.—The present buildings now occupied (ten in number) are old dwellings, insecure from fire, scattered, and in every way unsuitable for the Signal Service. The Ferguson building is new, has never been occupied, is well built, of stone and brick, and is admirably adapted to the uses of the Signal Service Bureau; and the vacant ground will give ample room for the erection of the necessary storehouses. In case this purchase is authorized, the appropriation of \$7,500 for rents will be saved.							
<i>Completion of the Washington Monument—</i>							
For earth filling and grading around the Monument, in accordance with existing law; office expenses, including rent of necessary office rooms, and each and every purpose connected with the completion of the Monument, \$60,000, to be expended under the direction of the joint commission created by the act of August 2, 1876.....	Appropriated..	24	245	1		60,000 00	57,000 00
Total Public Buildings and Grounds in and around Washington.....						363,900 00	206,000 00
MILITARY ACADEMY.							
<i>Buildings and Grounds, Military Academy—</i>							
For repairing roads and paths, including roads and bridges on reservation.....	June 29, 1886	24	90	1	1,000 00		
Continuing the construction of breast-high wall in dangerous places.....	do.....				500 00		
Riding-hall: Renewing knee-guard.....	Submitted.....				450 20		
Erection of gymnasium for cadets, and for repairing and converting the present gymnasium into bowling-alleys for the use of cadets.....	do.....				35,000 00		

## Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
Erection of coal-shed for storage of coal.....	Submitted.....				\$6,150 00		
NOTE.—There is insufficient storage for coal. It is piled on the ground out of doors, exposed to snow and rain during a great part of the year, which causes considerable loss.							
Erection of engine-house and drying-tower for safe-keeping of steam fire-engine.....	do.....				3,500 00		
NOTE.—The steam fire-engine is now housed in a small building entirely unsuitable, and so far removed from all the prominent and valuable buildings that, in the event of fire, it might prove of little or no use, as it has to be hauled a long distance and up a steep hill.							
Erection of sixteen sets of quarters for enlisted men and their families, to be built of brick, and in sets of four each, each set to contain four rooms, and to be immediately available.....	do.....				14,000 00		
NOTE.—The estimate for quarters for the enlisted men at West Point was submitted to Congress January 20, 1885, and printed in House Ex. Doc. No. 109, 48th Cong., 2d Sess. The married enlisted men now quartered at this post have for many years occupied, in most instances, old and dilapidated buildings, now in the last stage of decay. They are entirely unfit to live in. These buildings have been recommended by the Board of Visitors, 1884-'85.							
Rebuilding the upper part of the academic building, adding to it, and rendering it fire-proof and suitable for section-rooms for instruction of cadets.....	do.....				70,000 00		
Erection of new shops for mechanics employed in the quartermaster's department, to be immediately available.....	do.....				11,500 00		
NOTE.—This building is absolutely necessary. The present shops are old and dilapidated, in the last stages of decay, and are untenable. They are entirely beyond repair, and should be rebuilt at once.							
Repairs to north wharf.....	do.....				1,150 00		
NOTE.—This wharf is used for the unloading of coal, wood, lumber, hay, and all heavy ordnance. The timbers and planking are in a bad state of decay, and the wharf is unsafe. The estimate is based upon the judgment of an expert, and is the lowest amount for which it can be put in proper repair.							
Additions to the cadet laundry.....	do.....				5,000 00		
NOTE.—The present capacity of the cadet laundry is entirely insufficient for the increased number of cadets, and should be made immediately available.							
Water-works: Renewing of materials in filter-beds, improving ventilation of filter-house and water-house, hose for use in cleaning filter-beds and water-house, and for use of fire-service at same; tools, implements, and materials for use of the two keepers, and for repairs of siphon-house, filter-house, and of four and one-half miles of supply-pipes; for shed for tools, and storage of fuel for keeper at Round Pond, and for tool-house at filter; for gauges at Round Pond and Delafield Pond, and stairs for access to same.....	June 29, 1886	24	90	1	1,000 00		
Repointing cadet-mess building, including area-walls, repairing and strengthening stone steps, and pointing water-closet building.....	Submitted.....				650 00		
Relaying stone walk in area of cadet barracks, viz:							
5,745 square feet of flag, at 20 cents.....	do.....				1,149 00		
215 lineal feet of curbing, 18 inches wide and 4 inches thick, at 50 cents.....	do.....				107 50		
For plant and fixtures for lighting the cadet barracks and academic building with the Edson electric light, viz: One eighty-horse-power engine, and foundation for same; one three-hundred-light dynamo, with foundation, with condenser, regulator, indicator, piping, fixtures, wire and lamps for same; the necessary alteration and addition to the present boiler-house, for properly placing the engine and dynamo, all set up ready for use, to be immediately available.....	do.....				9,000 00		
					160,156 70		
The Secretary of War is of opinion that the items for rebuilding the academic building, \$70,000, and for plant and fixtures for electric lighting, \$9,000, may be omitted, and he reduces the estimate for buildings and grounds, Military Academy, to.....						\$81,156 70	\$10,002 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.			References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.

MISCELLANEOUS.									
<i>Military Posts—</i>									
For construction and enlargement of buildings at the following-named military posts:									
Fort Adams, R. I.: Construction of additional barracks. {	Aug. 4, 1886	24	246	1			\$20,000 00		
Submitted.....									
Fort Warren, Mass.: Construction of quarters outside of works.....	do.....						10,000 00		
David's Island, New York harbor: Construction and enlargement of buildings, (for plans and detailed estimates, see Ex. Doc. 49, 46th Cong., 2d Sess.).....	do.....						20,000 00		
Fort Hamilton, New York harbor: Construction of additional barracks.....	do.....						20,000 00		
Madison barracks, N. Y.: Construction and enlargement of buildings, (for plans and detailed estimates, see House Ex. Doc. 61, 47th Cong., 2d Sess.).....	do.....						20,000 00		
Fort Leavenworth, Kans.: Two double sets of officers' quarters, one target and gymnasium building, one stable, (for plans and detailed estimates, see House Ex. Doc. 178, 49th Cong., 1st Sess.).....	do.....						28,856 32		
Fort Monroe, Va.: For administration and school building, (for plans and detailed estimates, see Senate Ex. Doc. 2, 46th Cong., 3d Sess.).....	do.....						20,000 00		
Fort Columbus, New York harbor: Construction of officers' quarters.....	do.....						25,000 00		
Atlanta, Ga.: Continue construction of post.....	do.....						75,000 00		
San Antonio, Tex.: Continue construction and enlargement of barracks and quarters.....	do.....						50,000 00		
Willet's Point, New York harbor: Continue construction and enlargement of buildings, barracks for men.....	do.....						20,000 00		
Jeffersonville Depot, Ind.: Purchase of land opposite the depot, and for building officers' quarters thereon, (see House Ex. Doc. 178, 49th Cong., 1st Sess., for plans and estimates).....	do.....						13,860 00		
Neptune Island, N. Y.: Purchase of landing place, (see House Ex. Doc. 178, 49th Cong., 1st Sess.).....	do.....						10,000 00		
Washington Barracks, D. C.: For construction of fences and for filling low grounds, and repair of stone wall on James creek, (see House Ex. Doc. 93, 49th Cong., 1st Sess.).....	do.....						25,121 60		
Fort Douglas, Utah: For purchase of additional land for the military reservation.....	do.....						33,820 00		
Fort Porter, N. Y.: Construction of buildings for a two (2) company post, (see House Ex. Doc. 130, 49th Cong., 1st Sess.).....	do.....						35,000 00		
								\$426,657 92	\$225,000 00
<i>Powder Island, near Fort Trumbull, Conn.—</i>									
For the purchase of Powder Island, now rented for target-range practice for the garrison at Fort Trumbull, Conn.....	Submitted.....						2,000 00		
<i>Wagon-road from Fort Schuyler to West Chester, N. Y.—</i>									
For repair of the wagon-road from Fort Schuyler to the town of West Chester, N. Y.....	Submitted.....						5,000 00		
NOTE.—This is the only road connecting Fort Schuyler with the post office, telegraph station, and railroad station. Except in the best weather, it is almost impassable on account of the mud and extreme roughness, portions of the road-bed having been washed away and other parts badly broken up. The repairs are necessary to enable the United States to use it.									
<i>Fort Canby, Wash. Ter.—</i>									
For protection of the roads and public buildings at Fort Canby from encroachments of the waters of Baker bay, by a revetment of piles and riprap.....	Submitted.....						18,546 00		
<i>Improvement at Yellowstone National Park—</i>									
For making road from Upper Geyser to outlet of lake, via the West Arm, \$40,000; from outlet to Yancey's, via the Grand Cañon, \$45,000; from Yancey's to Mammoth Spring, \$20,000; from Fire Hole to boundary of Park, towards Beaver Cañon, \$20,000; and for general repair and improvement of existing roads, \$25,000.....	Appropriated..	24	240	1			150,000 00		20,000 00
NOTE.—The foregoing estimate contemplates the building of about 100 miles of new roads and repair of about 100 miles of existing roads. No provision having been made for civilians, the park was in August last placed in the custody of the War Department, and this estimate has been prepared by the engineer officer in charge of the improvement of the park.									
Total Miscellaneous.....								602,203 92	245,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<b>PUBLIC PRINTING AND BINDING.</b>							
The following are the estimates for public printing, binding, and paper for the same, as furnished by the Library of Congress and the several Executive Departments, under the provisions of section 2, act of May 8, 1872, (R. S., page 720, section 3661:)							
LIBRARY OF CONGRESS.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer, as follows: Printing and binding copyright records and blanks, binding of books and periodicals for the Library of Congress, and printing and binding Catalogue.....					\$15,000		
NOTE.—The appropriation for printing and binding, formerly \$19,000, has been reduced to \$12,000, which is far below needful requirements. Binding of periodicals alone costs half the amount.— ( <i>Librarian of Congress.</i> )							
STATE DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer.....					15,000		
TREASURY DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing, and paper for the same; blank books, binding, ruling, and all other work for the Treasury Department, heretofore estimated for by the Public Printer.....					275,000		
WAR DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding for the War Department and its bureaus, to be executed under the direction of the Public Printer, as follows:							
Office of Secretary of War.....					\$9,000		
Office of Adjutant-General.....					25,000		
Office of Inspector-General.....					500		
Office of Judge-Advocate General...					500		
Office of Quartermaster-General.....					18,000		
Office of Commissary-General.....					4,500		
Office of Paymaster-General.....					2,000		
Office of Surgeon-General, (including \$12,000 for the index-catalogue of this office).....					35,000		
NOTE.—The increase of the amount estimated by the Surgeon-General is necessary because of the abolishment of the printing office heretofore maintained in that bureau, and the accumulations occasioned thereby.							
Office of Chief of Engineers, (including not exceeding \$5,000 for the publication of professional papers, when approved by the Secretary of War).....					20,000		
Office of Chief of Ordnance.....					20,100		
Office of Chief Signal Officer, for binding.....					5,000		
Office of Rebellion Records.....					400		
					140,000		
NOTE.—The allotment for War Department printing and binding for the fiscal year 1887 (24 Stats., p. 255) is \$150,000. Attention is invited to the letter of the Chief of Engineers (in Appendix "Cc") stating the reasons why authority should be granted for printing of professional papers required for this bureau, and it is recommended that such provision be made. In compliance with the provisions of the act of August 4, 1886, (24 Stats., p. 255,) a special estimate is submitted for printing and engraving for the Signal Service.

<i>Constructing a Revenue-Steamer for Southern Coast—</i>							
For the construction of one revenue-steamer, for duty on the southern coast of the United States.....	Submitted.....					\$85,000 00	
NOTE.—It has been found necessary to remove the revenue-marine steamer "Louis McLane" from the Galveston station, on account of unseaworthiness. The Department has no suitable vessel with which to supply her place permanently. The station cannot be left vacant without great public detriment. True economy requires that the appropriation be made.							
Total Revenue-Cutter Service.....						1,035,000 00	\$875,000 00

<i>Plate-Printing, Bureau of Engraving and Printing—</i>							
For wages of not more than one hundred and eighty-seven plate-printers, at piece-rates to be fixed by the Secretary of the Treasury, not to exceed the rates usually paid for such work, including the wages of not more than one hundred and ninety printers' assistants, at \$1.25 a day each when employed, and for wages of not more than twenty-four printers' assistants at steam-presses, at \$1.50 a day each when employed, and for royalty for use of steam plate-printing machines: <i>Provided</i> , That any part of this sum may be used for purchasing and operating new and improved plate-printing presses.....	Mar. 3, 1885	R. S. 23	706 406	3575-7 1		366,500 00	307,380 00
	Mar. 3, 1885	23	493	1			
	Aug. 4, 1886	24	227	1			
<i>Materials and Miscellaneous Expenses, Bureau of Engraving and Printing—</i>							
For engravers', printers', and other materials, except distinctive paper, and for miscellaneous expenses.....	Mar. 3, 1885	R. S. 23	706 406	3575-7 1		164,700 00	141,820 00
	Mar. 3, 1885	23	493	1			
	Aug. 4, 1886	24	227	1			
NOTE.—For explanation of the estimates for the Bureau of Engraving and Printing, see Appendix "Ee."							
Total Engraving and Printing.....						883,580 00	776,940 00
LIGHT-HOUSE ESTABLISHMENT.							
<i>Supplies for Light-Houses—</i>							
Supplying light-houses, beacon-lights, and fog-signals with illuminating, cleansing, preservative, and such other materials as may be required for annual consumption; for books, boats, and furniture for stations, and other incidental expenses.....	Appropriated..	24	227	1		\$350,000 00	\$350,000 00
<i>Repairs of Light-Houses—</i>							
Repairing, rebuilding, and improving light-houses and buildings; for improvements to grounds connected therewith, including necessary new structures; for establishing and repairing pierhead lights; for illuminating apparatus and machinery to replace that already in use, and for incidental expenses relating to these various objects: <i>Provided</i> , That expenditures already made from previous appropriations for the erection of new dwellings necessary for the accommodation of keepers at Port Reyes light-station, California, and Boston light-station, Massachusetts, amounting to \$7,535.09, are hereby authorized.....	Appropriated..	24	228	1		350,000 00	300,000 00
<i>Salaries of Keepers of Light-Houses—</i>							
Salaries, fuel, rations, rent of quarters where necessary, and similar incidental expenses of one thousand and fifty light-house and fog-signal keepers.....	Appropriated..	R. S. 24	908 228	4673 1		600,000 00	585,000 00
<i>Expenses of Light-Vessels—</i>							
Seamen's wages, rations, repairs, salaries, supplies, and incidental expenses of thirty light-ships.....	Appropriated..	24	228	1		250,000 00	200,000 00
<i>Expenses of Buoyage—</i>							
Expenses of establishing, replacing, and maintaining buoys, spindles, and day-beacons, and for incidental expenses relating thereto.....	Appropriated..	24	228	1		360,000 00	300,000 00
<i>Expenses of Fog-Signals—</i>							
Establishing, replacing, duplicating, and improving fog-signals and buildings connected therewith, and for repairs and incidental expenses of the same.....	Appropriated..	24	228	1		70,000 00	50,000 00
<i>Inspecting Lights—</i>							
For mileage or travelling expenses of members of the Light-House Board, including rewards paid for information as to collisions.....	Appropriated..	24	228	1		4,000 00	3,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<b>Lighting of Rivers—</b> For establishing, supplying, and maintaining post-lights on the Hudson and East rivers, New York; the Delaware river, between Philadelphia and Bordentown, New Jersey; the Elk river, Maryland; Cape Fear river, North Carolina; Savannah river, Georgia; St. John's river, Florida; at the mouth of Red river, Louisiana; on the Mississippi, Missouri, Ohio, Tennessee, and Great Kanawha rivers; on the Columbia and Willamette rivers, Oregon; and on Puget sound, Washington Territory; the Light-House Board being hereby authorized to lease the necessary ground for all such lights and beacons as are used to point out changeable channels, and which in consequence cannot be made permanent.....	Appropriated..	24	228	1	\$250,000 00	\$190,000 00	
<b>Survey of Light-House Sites—</b> For preliminary examinations, surveys, and plans for determining the proper sites and cost of light-houses and structures for which estimates are to be made to Congress.....	Appropriated..	24	228	1	5,000 00	2,500 00	
<b>Total Light-House Establishment.....</b>					<b>2,239,000 00</b>	<b>1,980,500 00</b>	
<b>UNITED STATES COAST AND GEODETIC SURVEY.</b>							
For every expenditure requisite for and incident to the survey of the Atlantic, Gulf, and Pacific coasts of the United States and the coast of the Territory of Alaska, including the survey of rivers to the head of tide-water or ship-navigation; deep-sea soundings, temperature, and current observations along the coasts and throughout the Gulf stream and Japan stream, flowing off the said coasts; tidal observations; the necessary resurveys; the preparation of the Coast Pilot; improving the magnetic maps of the United States and adjacent waters and the tables of magnetic declination, dip and intensity usually accompanying them; and including compensation, not otherwise appropriated for, of persons employed on the field-work, in conformity with the regulations for the government of the Coast and Geodetic Survey adopted by the Secretary of the Treasury; for special examinations that may be required by the Light-House Board or other proper authority, and including travelling expenses of officers and men of the Navy on duty; for commutation to officers of the field force while on field duty, at a rate to be fixed by the Secretary of the Treasury, not exceeding \$2.50 per day each; outfit, equipment, and care of vessels used in the Survey, and also the repairs and maintenance of the complement of vessels, to be expended under the following heads: <i>Provided</i> , That no advance of money to chiefs of field parties under this appropriation shall be made unless to a commissioned officer, or to a civilian officer who shall give bond in such sum as the Secretary of the Treasury may direct:							
<b>Party Expenses, Coast and Geodetic Survey—</b>							
1. For triangulation, topography, and hydrography of the coast of Maine in Cobscook bay and Saint Croix river, and for off-shore soundings, between Matinicus and Seguin lights, (all new work).....	Mar. 3, 1871 Aug. 4, 1886	R. S. 16 24	910 508 228, 229, 230	4681, 4691 1 1	\$12,000 00		
2. For hydrography of George's bank and shoal, off the coast of New England, and for the speedy completion of an accurate survey of the portions of the bank most used by fishermen.....	Same acts.....				9,000 00		
3. For resurveys: For triangulation, topography, and hydrography in the vicinity of the east end of Long Island, Block Island, Nantucket; Nantucket shoals and approaches, and including Vineyard sound, to be immediately available.....	do.....				20,000 00		
4. For physical hydrographic surveys on Monomoy shoals.....	do.....				4,000 00		
5. For completing the resurvey of New York bay and harbor.....	do.....				3,000 00		
6. For physical hydrography in the New York harbor and its approaches.....	do.....				3,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt' required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Party Expenses, Coast and Geodetic Survey—Continued.</i>							
7. For the hydrography of the outside waters and bars south of Absecon light; for necessary triangulation and for continuing the topography and inside hydrography along the Atlantic coast of New Jersey, (some of the hydrography is new work, and the topography is virtually so because of the great changes).....	Mar. 3, 1871 Aug. 4, 1886	R. S. 16 24	910 508 228, 229, 230	4681, 4691 1 1	\$4,000 00		
8. For continuing physical hydrographic research in Delaware bay and river.....	Same acts.....					3,000 00	
9. Observing the movement, lodgment of, and obstructions by ice in the Delaware river, and noting the changes caused thereby in Cherry flats, &c.....	.....do.....				200 00		
10. For examinations and resurveys on the Virginia coast from Chincoteague to Cherrystone, and especially at Cape Charles and in its vicinity, including triangulation, hydrography, and topography.....	.....do.....				6,000 00		
11. To continue the surveys in the vicinity of Charleston, S. C., and up the Cooper and Ashley rivers to the head of navigation; and to continue the astronomical, latitude, and azimuth (which is new) work, and, in connection therewith, the recovery and remarking of old triangulation stations for their preservation, and the connection of some detached triangulation between Beaufort and the mouth of the Cape Fear river, North Carolina; and the connection of the Cape Fear river triangulation with the coast triangulation at Masonsborough.....	.....do.....				2,000 00		
12. For hydrographic examination at Cape Lookout.....	.....do.....				500 00		
13. For connecting the Blue Ridge primary triangulation with the coast triangulation at Charleston, S. C., or Savannah, Ga.....	.....do.....				2,000 00		
14. To continue the primary triangulation from Atlanta towards Mobile.....	.....do.....				3,000 00		
15. For continuing the survey of the western coast of Florida from Cape Sable north to Cape Romano, and for hydrography off the same coast, being all new work....	.....do.....				10,000 00		
16. For triangulation, topography, and hydrography of Lakes Pontchartrain and Borgne in Louisiana.....	.....do.....				5,500 00		
17. For continuing the survey of the coast of Louisiana west of the Mississippi delta and between Barataria bay and Sabine Pass.....	.....do.....				7,000 00		
18. To make off-shore soundings along the Atlantic coast, and current and temperature observations in the Gulf stream.....	.....do.....				9,000 00		
19. For continuing the topographic survey of the coast of Southern California, of which \$5,000 shall be immediately available.....	.....do.....				10,000 00		
20. For continuing the primary triangulation of Southern California and for connecting the same at Mount Conness and Macho stations with the transcontinental arc, and for a primary base-line in the vicinity of Los Angeles, of which \$4,000 shall be immediately available.....	.....do.....				12,000 00		
21. For continuing the resurvey of San Francisco bay, and of San Pablo and Suisun bays and the Strait of Carquinez; the examination of San Francisco bar and entrance, and the mouth of the Sacramento and San Joaquin rivers.....	.....do.....				10,000 00		
22. For continuing the survey of the coast of Oregon, including off-shore hydrography; and to continue the survey of the Columbia river from the mouth of the Willamette toward the Cascades, triangulation, topography, and hydrography.....	.....do.....				7,000 00		
23. To fill up the gap in the tertiary coast triangulation between the Oregon line and Port Orford.....	.....do.....				2,500 00		
24. To fill up the gap in the tertiary triangulation between Port Orford and Koos Bay.....	.....do.....				2,000 00		
25. For continuing the survey of the coast of Washington Territory.....	.....do.....				9,000 00		
26. For continuing explorations in the waters of Alaska, and making hydrographic surveys in the same, and for the establishment of astronomical longitude and magnetic stations between Sitka and the southern end of the Territory.....	.....do.....				12,000 00		
27. For continuing the researches in physical hydrography relating to harbors and bars, including computations and plotting.....	.....do.....				4,000 00		
28. For examination into reported dangers on the eastern, Gulf, and Pacific coasts.....	.....do.....				1,500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Party Expenses, Coast and Geodetic Survey—Continued.</i>							
29. To continue magnetic observations on the Atlantic and Gulf slopes.....	Mar. 3, 1871 Aug. 4, 1886	R. S. 16 24	910 508 228, 229, 230	4681, 4691 1 1	\$1,000 00		
30. For continuing magnetic observations on the Pacific coast, at the Los Angeles Magnetic Observatory.....	Same acts.....				1,200 00		
31. For continuing magnetic observations at various temporary stations on the Pacific slope.....	do.....				1,000 00		
32. For running an exact line of levels from Boston or Salem, Mass., to Mount Monadnock, Mount Washington, Mount Independence, and Lake Champlain.....	do.....				2,000 00		
33. For continuing the exact line of levels from Cairo westward.....	do.....				2,000 00		
34. For continuing tide observations on the Pacific coast, viz: At Kadiak, in Alaska, and at Sancelito, near San Francisco, in California.....	do.....				2,500 00		
35. To continue tidal observations on the Atlantic coast at Pulpit Harbor, Maine, and at Sandy Hook, New Jersey.....	do.....				2,100 00		
36. To continue gravity experiments, at a cost not exceeding \$500 per station, except for special investigations and experiments authorized by the superintendent at one or more stations.....	do.....				2,500 00		
37. For furnishing points to State surveys, to be applied, as far as practicable, in States where points have not been furnished.....	do.....				10,000 00		
38. For determinations of geographical positions, longitude parties.....	do.....				5,000 00		
39. For continuing the transcontinental geodetic work on the line between the Atlantic and Pacific Oceans.....	do.....				30,000 00		
40. To continue the compilation of the Coast Pilot, and to make special hydrographic examinations for the same.....	do.....				2,500 00		
41. For travelling expenses of officers and men of the Navy on duty, and for any special surveys that may be required by the Light-House Board or other proper authority, and contingent expenses incident thereto.....	do.....				5,000 00		
42. For objects not hereinbefore named that may be deemed urgent.....	do.....				4,000 00		
And ten per centum of the foregoing amounts shall be available interchangeably for expenditure on the objects named.						\$244,000 00	\$158,163 70
<i>Repairs and Maintenance of Vessels, Coast Survey—</i>							
For repairs and maintenance of the complement of vessels used in the Coast and Geodetic Survey.....	Appropriated..	24	233	1		25,000 00	25,000 00
<i>Salaries, Coast and Geodetic Survey—</i>							
Pay of field-officers:							
Pay of superintendent.....	Appropriated..	24	230-33	1	6,000 00		
Pay of two assistants, at \$4,000 each.....	do.....				8,000 00		
Pay of one assistant.....	do.....				3,600 00		
Pay of one assistant.....	do.....				3,200 00		
Pay of two assistants, at \$3,000 each.....	do.....				6,000 00		
Pay of two assistants, at \$2,800 each.....	do.....				5,600 00		
Pay of four assistants, at \$2,400 each.....	do.....				9,600 00		
Pay of three assistants, at \$2,300 each.....	do.....				6,900 00		
Pay of six assistants, at \$2,200 each.....	do.....				13,200 00		
Pay of six assistants, at \$2,000 each.....	do.....				12,000 00		
Pay of ten assistants, at \$1,800 each.....	do.....				18,000 00		
Pay of nine assistants, at \$1,500 each.....	do.....				13,500 00		
Pay of three sub-assistants, at \$1,400 each.....	do.....				4,200 00		
Pay of two sub-assistants, at \$1,300 each.....	do.....				2,600 00		
Pay of four sub-assistants, at \$1,100 each.....	do.....				4,400 00		
Total pay of field-officers.....					\$116,800		
Provided, That no new appointments shall be made to the above force until the whole number of assistants, sub-assistants, and aids, shall be reduced to fifty-two.							
Pay of office force:							
Additional compensation to the disbursing-clerk of the Treasury Department for the disbursement of the appropriations for the Coast and Geodetic Survey. (See Appendix "Ff").....	Submitted.....				500 00		
One accountant.....	Appropriated..	24	230-33	1	1,800 00		
One accountant.....	do.....				1,400 00

Three messengers, at \$640 each.....	do.....				1,920 00		
One driver.....	do.....				730 00		
One packer and folder.....	do.....				820 00		
One packer and folder.....	do.....				630 00		
Two laborers, at \$630 each.....	do.....				1,260 00		
Two laborers, at \$550 each.....	do.....				1,100 00		
One laborer.....	do.....				315 00		
One laborer.....	do.....				365 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Coast and Geodetic Survey—Continued.</i>							
One janitor.....	Appropriated..	24	230-33	1	\$1,200 00		
Two watchmen, at \$880 each.....	do.....				1,760 00		
Total pay of office force.....						\$241,705 00	\$248,411 49
<i>General Expenses, Coast and Geodetic Survey—</i>							
Office expenses:							
For the purchase of new instruments, for materials and supplies required in the instrument-shop, carpenter-shop, and drawing-division, and for books, maps, and charts.....	Appropriated..	24	233	1	9,000 00		
For copper-plates, chart-paper, printers' ink; copper, zinc, and chemicals for electrotyping and photographing; engraving, printing, electrotyping, and photographing supplies; for extra engraving; and for photolithographing charts, and printing from stone for immediate use.....	do.....				10,000 00		
For stationery for the office and field parties, transportation of instruments and supplies, office wagon and horses, fuel, gas, telegrams, ice, and washing.....	do.....				6,000 00		
For miscellaneous expenses, contingencies of all kinds, office furniture, repairs and extra labor, and for traveling expenses of assistants and others employed in the office sent on special duty in the service of the office.....	do.....				3,500 00		
And ten per centum of the foregoing amounts shall be available interchangeably for expenditure on the objects named.							
Rent of office buildings:							
For rent of buildings for offices, work-rooms, and work-shops, in Washington.....	do.....				10,500 00		
For rent of fire-proof building number two hundred and five, New Jersey avenue, including rooms for standard weights and measures; for the safe-keeping and preservation of the original astronomical, magnetic, hydrographic, and other records; of the original topographical and hydrographic maps and charts; of instruments, engraved plates, and other valuable property of the Coast and Geodetic Survey.....	do.....				6,000 00		
						45,000 00	45,000 00
<i>Publishing Observations, Coast and Geodetic Survey—</i>							
For one computer.....	Appropriated..	24	233	1	1,800 00		
For one computer.....	do.....				1,600 00		
For three copyists, at \$720 each.....	do.....				2,160 00		
						5,560 00	5,560 00
That no part of the money herein appropriated for the Coast and Geodetic Survey shall be available for allowance to civilian or other officers for subsistence while on duty in the office at Washington, or to officers of the Navy attached to the Survey; nor shall there hereafter be made any allowance for subsistence to officers of the Navy attached to the Coast and Geodetic Survey.							
NOTE.—For explanation of the foregoing estimates for the Coast and Geodetic Survey, see Appendix "G <sub>p</sub> ."							
<i>Printing and Binding, Coast and Geodetic Survey—</i>							
For all printing and lithographing, photolithographing, photoengraving, and all forms of illustration done by the Public Printer, on requisition by the Treasury Department, for the Coast and Geodetic Survey, namely: For tide-tables, Coast Pilots; appendices to the Superintendent's annual reports, published separately; notices to mariners, circulars, blank books, blank forms, and miscellaneous printing, (including the cost of all binding and covering; the necessary stock and materials, and binding for the library and archives).....	Aug. 4, 1886	24	255	1	10,434 98		
For 4,900 copies of the annual report of the Superintendent, (including regular edition of 1,900 copies for Congress,) viz: For composition, stereotyping, press-work, folding, inserting plates, binding, material, &c.....					8,000 00		
For photolithographing, lithographing, photoengraving, and all forms of illustration by the Public Printer for the annual report.....					2,500 00		
Total.....					20,934 98		
NOTE.—No engraving is done by the Public Printer for the Coast and Geodetic Survey. In explanation of the estimate, see Appendix "H <sub>h</sub> ."							
Total Coast and Geodetic Survey.....						561,265 00	482,135 19

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

.....do.....					2,400 00		
<i>Protection of Sea-Otter Hunting-Grounds and Seal-Fisheries in Alaska—</i>							
To enable the Secretary of the Treasury to use revenue-steamers for the protection of the interests of the Government on the Seal Islands and the sea-otter hunting-grounds, and the enforcement of the provisions of law in Alaska.....	Appropriated..	24	237	1	.....	50,000 00	20,000 00
NOTE.—The cost of transferring the revenue-marine steamer "Bear" to the Pacific, and a part of the expenses of her first cruise in the waters of Alaska, amounted, in the last fiscal year, to about \$50,000. The revenue-marine steamer "Thos. Corwin" makes an annual cruise for the protection of the sea-otter hunting grounds and seal-fisheries, the cost of which is about \$15,000. Both these vessels, to be effective in their work, require to be dispatched with full supplies of fuel, provisions, and other outfits for the entire cruise, just before the close of the fiscal year. The sum of \$50,000 is, therefore, asked for, of which \$20,000 should be made available immediately.							
<i>Propagation of Food-Fishes—</i>							
For the introduction by the United States Fish Commission into and the increase in the waters of the United States of food-fishes and other useful products of the waters, including lobsters, oysters, and othershell-fish, and for continuing the inquiry into the fisheries of the United States and their subjects, and for such general and miscellaneous expenditures as the Commissioner of Fish and Fisheries may find necessary to the prosecution of his work, including salaries or compensation of all necessary employes.....	.....	R. S.	851	4396-8	} .....	150,000 00	130,000 00
	Appropriated..	24	236	1			
NOTE.—No increase in this appropriation has been asked since the fiscal year 1886. The work, however, has increased greatly. An additional amount is also required for carrying on the white-fish hatchery at Duluth, Minn., the establishment of which was ordered by Congress, but without making any provision for its maintenance.							
<i>Rent of Office, United States Fish Commission—</i>							
For rent of rooms in the city of Washington.....	Appropriated..	24	236	1	.....	2,040 00	2,040 00
<i>Maintenance of Fish-Ponds—</i>							
For the preparation and maintenance of fish-ponds in Washington and elsewhere, and the distribution of the eggs and young of the white-fish, salmon, shad, cod, carp, and other useful inhabitants of the waters, including salaries or compensation of all necessary employes..	Appropriated..	24	236	1	.....	45,000 00	45,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.			References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
	Vol. or R. S.	Page.	Sec.						
<b>Maintenance of Vessels—</b>									
For the maintenance of the vessels of the United States Fish Commission, and for boats, apparatus, machinery, and the other facilities required for use with the same, including salaries or compensation of all necessary employés .....	Appropriated..	24	236	1			\$45,000 00	\$45,000 00	
<b>Fish-Ponds, Monument Lot—</b>									
For restoring the drainage of the United States fish-ponds in Washington destroyed by the filling up of the flats, and for an increased supply of water, to be immediately available.....	Submitted.....						5,000 00		
<b>Steam-Vessel, Food-Fishes—</b>									
For new boilers, and for a thorough repair and refitting of the steamer "Fish-Hawk".....	Submitted.....						11,500 00		
NOTE.—The steamer "Fish-Hawk" needs new boilers and thorough overhauling and refitting. Her boilers have been in constant use for six years, and cannot be safely relied upon for another season's work. The copper should be removed from her hull, and the condition of the sub-adjacent planking ascertained and made safe, especially as she must be relied upon for off-shore work on the transfer of the "Albatross" to the Pacific Ocean.									
<b>International Exchanges, Smithsonian Institution—</b>									
Expenses of the system of international exchanges between the United States and foreign countries, including salaries or compensation of all necessary employés.....	Appropriated..	24	236	1			15,000 00	10,000 00	
NOTE.—The business of exchanges has increased during the last year fully 33 per cent., and since the appropriation was first established at \$10,000, 50 per cent.									
<b>North American Ethnology, Smithsonian Institution—</b>									
For the purpose of continuing ethnological researches among the American Indians, under the direction of the Secretary of the Smithsonian Institution, including salaries or compensation of all necessary employés.....	Appropriated..	24	237	1			50,000 00	40,000 00	
<b>Quarantine Service—</b>									
Maintenance and ordinary expenses, including pay of officers and employés of United States quarantines, viz :									
Gulf quarantine at Ship Island, South Atlantic quarantine at Sapelo Sound, Cape Charles quarantine, and Delaware Breakwater quarantine.....	Act Apr. 29, 1878; Decisions First Comptroller, vol. iv, 436. Submitted.....	20	37	1-6			\$50,000 00		
NOTE.—Heretofore paid from appropriation for "Preventing the spread of epidemic diseases."									
Purchase of site, Cape Charles quarantine, (Fisherman's Island, Va.).....	Submitted.....						5,000 00		
For wharf at Cape Charles, (Fisherman's Island, Va.).....	do.....						1,500 00

<i>Maintenance of Roadways to National Cemeteries—</i>							
Maintaining the roadways to national cemeteries which have been constructed by special authority of Congress..	Submitted.....					10,000 00	
NOTE.—There are six of these roads, exclusive of the three authorized during the last session of Congress. They have been constructed at various periods since 1878, and as no provision has at any time been made for their maintenance they have been greatly injured, and in some instances rendered almost useless, for want of occasional repairs, which the Department was not only unable but unauthorized to make. This is notably the fact in the case of the Vicksburg cemetery road, for which alone a special appropriation of \$10,000 will be required to put it in good order, four-fifths of which, at least, could have been saved by timely and judicious expenditures for repairs when needed. It is, therefore, in the interest of economy that this estimate is submitted.							
<i>Cemetery Fence, Fort Winnebago, Wis.—</i>							
For placing an iron fence around the cemetery near the site of old Fort Winnebago, Wis.....	Submitted.....					3,500 00	
<i>Soldiers' Monument at Plattsburg, N. Y.—</i>

<i>Contingent Expenses of Land Offices—</i>																																																																																						
For clerk-hire, rent, and other incidental expenses of the several land offices: <i>Provided</i> , That all fees for reducing testimony to writing, fees in contest cases, and for all services rendered under the act of March 3, 1883, in offices where the compensation of registers and receivers exceeds the maximum, shall be deposited to the credit of the Commissioner of the General Land Office, to be used by him in payment for services rendered and expenses connected with such work .....	Appropriated..	24	239	1	\$155, 000 00	\$120, 000 00																																																																																
<small>NOTE.—The foregoing estimate includes the salaries of clerks, office-rent, and a variety of other incidental expenses, such as binding plats, rebinding old and dilapidated plat-books, worn-out by constant handling and use, (of which there are a large number,) furniture, &amp;c.</small>																																																																																						
<i>Expenses of Depositing Public Moneys—</i>																																																																																						
For expenses of depositing money received from the disposal of public lands.....	.....	R. S.	713	3617	10, 000 00	10, 000 00																																																																																
	Aug. 4, 1886	24	239	1																																																																																		
<i>Depredations on Public Timber—</i>																																																																																						
To meet the expenses of protecting timber on the public lands.....	Appropriated..	24	239	1	90, 000 00	75, 000 00																																																																																
<small>NOTE.—The increase of \$15,000 herein submitted will be required to enable this office to properly protect the public timber, as the amounts heretofore appropriated have been insufficient, and the service has been crippled for want of money in order to avoid deficiencies.</small>																																																																																						
<i>Protecting Public Lands—</i>																																																																																						
For the protection of public lands from illegal and fraudulent entry or appropriation.....	Appropriated..	24	239	1	150, 000 00	90, 000 00																																																																																
<small>NOTE.—This estimate is only one-half the amount estimated for the preceding year, and for the year preceding that my predecessor estimated \$400,000 for this purpose. While the estimate of last year is believed to be none too large, the above reduced estimate, if sanctioned by appropriation therefor, will give material relief in that important service.</small>																																																																																						

Estimates of appropriations required for the service of the fiscal year ending June 30, 1888—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1887.
		Vol. or R. S.	Page.	Sec.			
<i>Expenses of Hearings in Land Entries—</i>							
For expenses of hearings held by order of the General Land Office, to determine whether alleged fraudulent entries are of that character or have been made in compliance with law.....	Appropriated..	24	239	1	.....	\$20,000 00	\$20,000 00
NOTE.—The foregoing estimate is to defray the expenses of hearings, ordered by the General Land Office, in cases of alleged fraudulent or illegal entries. Said entries are suspended upon the reports of investigations made by special agents. Hearings are then ordered to be held, and all parties in interest notified thereof. The expenses to be borne by the United States are those of its own witnesses and the taking of testimony to establish the fraudulent or illegal character of the entry.							
<i>Settlement of Claims for Swamp-Lands and Swamp-Land Indemnity—</i>							
Salaries and expenses of agents employed in adjusting claims for swamp-lands, and for indemnity for swamp-lands.....	Appropriated..	24	240	1	.....	20,000 00	20,000 00
NOTE.—The foregoing estimate is submitted to cover the salaries and expenses of agents appointed to investigate in the field lands claimed as swamp-land: <i>Provided</i> , That agents and others employed under this and the appropriations for "Depredations on public timber" and "Protecting public lands," while traveling on duty, shall be allowed per diem, in lieu of subsistence, at a rate not exceeding \$3 per day, and for actual necessary expenses for transportation.							
<i>Reproducing Plats of Surveys, General Land Office—</i>							
To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of survey on file, and other plats, constituting a part of the records of said office, and also to furnish local land offices with the same.....	Appropriated..	24	240	1	.....	5,000 00	5,000 00
NOTE.—The sum of \$5,000 is required to continue the work of reproducing plats to prevent a total obliteration of designations on official township plats, defaced and mutilated by constant use during a period of many years, thus rendering them unavailable in furnishing certified copies under the provisions of an act of Congress approved July 2, 1864, (13 Stats., p. 375.)							
<i>Transcripts of Records and Plats—</i>							
For furnishing transcripts of records and plats, and paying therefor, \$5,000, to be expended under the direction of the Secretary of the Interior.....	Appropriated..	24	240	1	.....	5,000 00	5,000 00
Total Public Lands, exclusive of surveying.....						955,000 00	835,000 00
SURVEYING THE PUBLIC LANDS.							
<i>Surveying the Public Lands—</i>							
For surveys and resurveys of public lands, at rates not exceeding \$9 per mile for standard and meander lines, \$7 for township, and \$5 for section lines, \$250,000; and of the sum hereby estimated, not exceeding \$50,000 may be expended for the examination of surveys in the field; to test the accuracy of the work and to prevent payment for fraudulent and imperfect surveys returned by deputy surveyors; for inspecting mineral deposits, coal-fields, and timber districts; and for making such other surveys or examinations as may be required for identification of lands for purposes of evidence in any suit or proceeding in behalf of the United States.....	Appropriated..	R. S. 24	438 240	2395, 2413 1	.....	\$250,000 00	\$80,000 00
<i>Survey and Examination of Private-Land Claims in Arizona—</i>							
For expenses attending the survey and examination of private-land claims in Arizona, including the compensation of clerks and translators, and the expense of investigating claimed titles and boundaries.....	Appropriated..	R. S. 23	390 211	2223 1	.....	5,000 00	
NOTE.—For explanation of this estimate, see Annual Report of the Commissioner of the General Land Office for 1885, pp. 17 to 26, inclusive, recommending that no further private-land claims be confirmed on reports by surveyors-general without examination and thorough investigation by this office and in the field.							
<i>Survey and Examination of Private-Land Claims in New Mexico—</i>							
For expenses attending the survey and examination of private-land claims in New Mexico, including the compensation of clerks and translators, and the expense of investigating claimed titles and boundaries..	Appropriated..	R. S. 24	390 240	2223 1	.....	10,000 00	3,000 00
NOTE.—For explanation of need of this estimate, see Annual Report of the Surveyor-General for 1886, accompanying the report of the Commissioner of the General Land Office.

MISCELLANEOUS OBJECTS.							
<i>Current Expenses, Government Hospital for the Insane—</i>							
Current expenses, Government Hospital for the Insane..	Appropriated..	R. S. 24	938 241	4838, 4858 1	\$275,000 00	\$195,000 00	
<p>NOTE.—The estimate for current expenses is for the support in the hospital, including their clothing, care, medical and moral treatment, of an estimated average number of 1,250 indigent insane persons of the different classes, who, under the United States Statutes, are entitled to treatment here. These comprise the insane of the Army and Navy, Marine Corps, Revenue-Cutter Service, the National Home for Disabled Volunteers, and the District of Columbia; also, United States convicts and those under indictment found to be insane. The basis of the estimate is an annual per capita cost of \$220.</p> <p>Congress, at its last session, after a careful study of the whole subject, fixed the portion of the current expenses, to be provided for in the District bill for the present fiscal year at \$75,132. Although the annual increase in this class of patients has been for several years at the rate of fully 6 per cent., the somewhat lower cost per capita of their support, and the prospect of the removal of some of the chronic and harmless cases to the District asylum, leads to the hope that the same amount will be sufficient for the year now under estimate. Should Congress see fit to provide the amount (\$75,132) in the bill for the District of Columbia, there will remain the sum of \$199,868 to be appropriated in the sundry civil bill.</p>

APPENDIX

# APPENDIX.

## APPENDIX A.

*In explanation of estimates for Salaries, &c., Department of State. (See pages 15-17.)*

MEMORANDUM EXPLANATORY OF INCREASES OVER THE APPROPRIATION FOR THE FISCAL YEAR 1887 ASKED FOR IN THE ESTIMATES FOR THE FISCAL YEAR 1888 FOR THE DEPARTMENT OF STATE.

DEPARTMENT OF STATE,  
Washington, October, 1, 1886.

Item 1, (page 16.) Stenographer to Secretary of State: Appropriated, \$1,800; additional submitted, \$200.

This increase of compensation is asked for on account of the important and confidential character of the office to which it relates. The first appropriation for a stenographer to the Secretary of State was made in the deficiency act of March 3, 1885, and was at the rate of \$2,000 per annum, the rate which it is desired shall be now granted, and which is the rate of compensation allowed to the stenographer to the Secretary of the Treasury.

Item 2, (page 16.) Two index-clerks, whose duty shall be to make subject and synoptical indexes of the correspondence of the Department of State, with salaries of \$1,800 each, \$3,600.

It is proposed hereby to add two new clerks of the fourth class to the roll of the Department. The efficiency of the Department demands the promptest and most intelligent response to all demands upon the Bureau of Indexes and Archives. It is not enough to keep a list of correspondence in the order of its reception or despatch. That, like the accessions catalogue of a library, or a merchant's day-book, is the raw material from which the true classification and arrangement of the records is made. Although seven or eight of the clerks of highest intelligence and longest experience are assigned to this bureau, it is impracticable to do more than keep up the entry registers. The work of the Department is rapidly and continually increasing; the amount of correspondence has doubled within the past four or five years. The constant labor of the entry and recording clerks is inadequate to keep up the synoptical and subject indexes, which are now some five years behind. This entails much loss of time, and many pages of entry must be gone over to find a paper which could be placed in a moment were the subject indexes brought up to date. To accomplish this, only the most skilled and experienced aid would be serviceable. The few men who are competent, through training and linguistic knowledge, to conduct this work, cannot be taken from the other bureaus of the Department unless their places can be filled by equally competent and intelligent clerks. Hence the indispensable recommendation that the clerks to be appointed to this special duty should be of the fourth or \$1,800 class.

It would be worse than useless to set new, raw men at work on such a task; and, if the synoptical and subject indexes be suffered to fall still farther behind, the difficulty of promptly and efficiently meeting the daily demands upon the Bureau of Indexes and Archives for ordinary information will greatly increase, and in a short time become practically insurmountable.

Item 3, (page 16.) Two clerks to assist in the compilation and publication of the monthly consular reports, at \$1,600 each, \$3,200.

The publication of the monthly consular reports was begun under authority of statute in 1880. The utility of the undertaking was soon evident. Additional appropriations have from time to time permitted the development of the work, until now, with a greatly increased circulation, the publication reaches a very large circle of interested persons at home and abroad.

Besides the regular monthly issues, special numbers are issued from time to time, giving the reports of the consuls on the particular subjects and industries concerning which the Department calls for information in response to the public demand.

Much labor of a peculiarly responsible character is thus entailed on the Bureau of Statistics of the Department of State, which has these publications in charge. Its working force now consists of a chief of bureau, an assistant at a salary of \$1,800, one clerk at \$1,600, and three copyists. All the labor of compilation, editing, revising, proof-correcting, and distribution falls on the chief of the bureau and his two assistants, who are often obliged to work far beyond the usual departmental hours to accomplish their ordinary task. Thus overburdened, it is quite impossible for the bureau to respond to even the most simple demands upon it for statistical information, without neglecting the work to which Congress and the public attach so much importance; and so the supplementary duty of the Bureau of Statistics has superseded the indispensable duty for which it was established.

Two clerks of the third or \$1,600 class are asked for to relieve the burden of overwork now imposed on the force of this bureau. It is thought that for this salary men can be obtained possessing the necessary qualifications, which are quickness and accuracy, as calculators, knowledge of one or more tongues, editorial ability, facility of composition, expression and condensation, and the typographical knowledge necessary to accurate proof-reading. In this way, not only can more useful extension be given to the work of collecting and distributing the monthly reports, but the statistical function of the bureau, which is really its most indispensable feature, can be set on a proper footing and receive the attention which it is impossible to give it now, even with greatly increased hours of labor.

Item 4, (page 16.) Extra clerical labor to enable the Secretary of State to respond to calls of Congress for copies of correspondence and documents, five thousand dollars, or so much thereof as may be necessary, to be expended in the discretion of the Secretary of State, \$5,000.

Section 4 of the legislative, executive, and judicial appropriation act of August 5, 1882, makes it impossible to employ any clerical service in the Departments unless in pursuance of specific appropriation therefor at fixed compensation.

The force of the Department of State is, even under ordinary circumstances, inadequate to discharge all the duties devolving upon it. When Congress is in session it frequently happens that urgent demands are made upon the Department for copies of important documents, which it is quite impossible to fill with promptness. Many of the papers called for, being in foreign tongues, require to be translated before they can be transmitted to Congress and printed as public documents. Only one translator is authorized by the appropriation acts, and one man cannot, of course, respond to the extraordinary demand thus entailed in addition to the onerous labor of his regular duty. At times the whole force of the Department, including chiefs of bureaus and Assistant Secretaries, is pressed into the mechanical work of copying and translating long after regular hours.

The \$5,000 asked for is intended as an *emergency* fund. In cases of urgency a sufficient number of skilled translators, draughtsmen, copyists, and type-writers can be temporarily employed from outside to prepare in a few days what could not now be done in less than as many weeks or months. It is not proposed to use the fund for the employment of a clerical force at a regular compensation. The Secretary of State is to be the sole judge of the sufficiency of the emergency, and only such extraneous help will be employed, and for such a time, as will be found absolutely necessary. The sum asked for, \$5,000, is merely a maximum, and it is intended to keep the expenditure as far within that limit as possible.

Item 5, (page 16.) Mail-wagon for the Department of State, five hundred dollars, or so much thereof as may be necessary, \$500.

The present mail-wagon of the Department has been in use for about twenty-five years, and is thoroughly worn-out. To repair it further would be useless expense, and a new wagon for the transportation of the mails of this Department is demanded on the score of safety as well as economy.

Item 6, (page 17.) Historical Register of the Department of State; to enable the purchase of the manuscript prepared by John H. Haswell, \$6,000.

This work, presenting in an accessible form full chronological data of the Department of State, and of the foreign relations of the Government from the organization of the Colonial Congress, in September, 1774, down to the present time, will be of unquestioned value as a book of reference for Congress and the Executive Departments, especially for the Department of State and its officers. It will also be a mine of information for students of history and a valuable accession to libraries of reference. Among other information, it contains a full and accurate list of officers and employés of the Department of State, of diplomatic and consular officers of this Government, and of the persons representing foreign countries in diplomatic and consular capacities in the United States, with dates of appointment and termination of service. The dates and scope of all treaties negotiated by the United States, together with all international commissions and arbitrations established under claims conventions, and their objects, are also briefly and accurately described. Valuable historical facts, believed hitherto to have been buried in the mass of records, have been brought to light. Much valuable data lost when the Government offices were destroyed by the British in the War of 1812 are supplied in this work, which will fill in the neighborhood of five hundred printed pages. Information which would require long and laborious, perhaps fruitless, search, can be easily obtained by consulting the "Chronological History," and the thread of negotiations, which would otherwise be lost, will thus be traceable. The work, in fine, is a convenient and accessible digest of the records of the Department of State for over one hundred years, from which the most valuable facts have been carefully compiled. The compiler's twenty-one years' service in the Department of State have given him especial facilities and aptitude for his undertaking, to which he has devoted fourteen years of his time when not engaged in his official duties.

Respectfully submitted.

T. F. BAYARD.

## APPENDIX C.

In relation to the estimates for the Internal-Revenue Service. (See pages 26, 27, 41-43, 200.)

TREASURY DEPARTMENT,  
Office of Internal Revenue, Washington, October 21, 1886.

SIR: I have the honor to submit herewith estimates of appropriations required for the Internal-Revenue Service for the fiscal year ending June 30, 1888, as follows, viz:

Salaries in office of Commissioner.....	\$266,440
Salaries and expenses of collectors, &c.....	1,900,000
Salaries and expenses of agents and subordinate officers, &c.....	1,950,000
Paper for internal-revenue stamps.....	70,000
Detecting violations of internal-revenue laws, &c.....	50,000

In the appropriation for the "Salaries in the office of the Commissioner," an increase of \$7,250 over the appropriation for the current year is estimated for, to provide for the salaries, at \$2,500 per annum each, of the chemist and microscopist authorized by section 14 of the act of August 2, 1886, imposing an internal-revenue tax upon oleomargarine, and also the salary, at \$2,250 per annum, of one additional head of division, rendered necessary to carry out the provisions of said act.

In the appropriation for "Salaries and expenses of collectors," an increase of \$100,000 over the appropriation for the current year is estimated for, both on account of the increased expenses rendered necessary by the provisions of the act of August 2, 1886, herein referred to, and for the additional expenses required by the provisions of the act of August 4, 1886, imposing upon the Government the expense of the inspection of tobacco exported, heretofore paid by the manufacturers.

In the appropriation for "Paper for stamps," an increase of \$20,000 is estimated for, to provide for the increased number of stamps that will be used under the provisions of the act of August 2, herein cited, and also to enable this office to secure a better quality of paper than that now used, and to employ a limited force of counters at the paper-mill to count and inspect the paper before it is shipped.

In the appropriation for "Detecting violations of law," &c., \$50,000 is estimated for, instead of \$25,000, as appropriated for the current year, the sum asked for being same as appropriated for the years 1885 and 1886, and considered necessary to successfully enforce the provisions of law. The necessity for the use of this special fund will doubtless be increased by the large number of persons affected by the provisions of the act of August 2, 1886, herein cited, who have not heretofore been liable to internal-revenue taxes.

Respectfully,

H. C. ROGERS,  
Acting Commissioner.

Hon. SECRETARY OF THE TREASURY.

#### APPENDIX D.

Statement of buildings rented in Washington by the Executive Departments, as required by the act of March 3, 1883—22 Stat., p. 552.

Buildings rented by the Treasury Department for the fiscal year, 1887. (Estimate for 1888 on page 30.)

Location of building.	For what purpose used.	Annual rental.

Third floor and part of second floor, 418 and 420 Ninth street.....	Topographer's office.....	1,500 00

## APPENDIX E.

*In explanation of the estimates for Mints and Assay Offices. (See pages 34–37.)*

TREASURY DEPARTMENT,  
Bureau of the Mint, Washington, D. C., October 22, 1886.

SIR: I have the honor to submit estimates of appropriations for the support of the mint service during the fiscal year 1888. The total amount of the estimates herewith submitted is \$1,078,340, against \$1,128,040 appropriated for the current fiscal year, being a reduction of \$49,700.

The appropriation for the fiscal year 1887 was less by \$77,250 than the appropriation for the fiscal year 1886, while the expenditures for 1886 were \$197,089.71 less than for the fiscal year 1885. I invite special attention to this reduction, for the reason that I have submitted some few increases which I deem it important should be transmitted to Congress. The economy introduced into the mint service during the past year has been attained not without augmenting the labors and responsibility of all the clerks in this bureau, through the extraordinary care in examination of specifications, accounts, &c., and through additional correspondence and book-keeping.

I have estimated for one additional clerk of class two, and for one clerk of class one in lieu of a copyist at \$900. I have also estimated for a clerk of class four instead of a clerk of class three. The requirements of this bureau are peculiar in respect to the higher grades of clerkships, as they call for expert as well as for clerical attainments. The lower classes of civil-service clerkships, hitherto appropriated for, are too low to enable this bureau to retain for any length of time the services of ambitions or well-trained clerks. I have in my annual report, both for the present and the past year, called attention to the peculiar requirements of this bureau in the matter of the composition and maintenance of its clerical force, and desire to urge consideration of the same in connection with the estimates. The loss of experienced clerks by transfer has been a continual source of irregularity and embarrassment during the past year.

I recommend that the salaries of the examiner and computer of this bureau be fixed at \$2,500 per annum. In mint affairs these officials are to be regarded as experts, whose present salaries are not only unduly small, but are less than the salaries of the principal clerks of the mints, whose responsibility is far less.

An increase of \$500 is submitted in the appropriation for books, balances, and incidental expenses of this bureau. This appropriation having been cut down \$500 last year, the purpose of this increase is to restore it to the amount which has been appropriated annually for a number of years past. The amount now estimated is barely enough for the supply of foreign statistical and monetary journals and other scientific works, without which it will be impracticable for the bureau to furnish for official and legislative purposes, as heretofore, information in regard to foreign coinages and monetary statistics.

An increase of \$250 in the salary of the chief clerk of the mint at Philadelphia, and \$500 in the pay of the book-keeper of the same institution, is recommended. The chief clerk is required by law to act as superintendent in the absence of the latter officer, and his position is of sufficient importance to warrant a salary of \$2,500. It is fully as important as the position of the chief clerk of the mint at San Francisco or of the chief clerk of the assay office at New York, whose salaries are \$2,500. The book-keeper of the mint at Philadelphia has a very responsible position, and the duties are extremely arduous. His present salary is less than that paid the book-keepers in the mint at San Francisco and the assay office at New York.

The estimates for the mint at Carson are based on its being conducted as an assay office, with acid refinery, and are therefore reduced.

The appropriation for wages of workmen and contingent expenses of the mint at Denver have each been increased \$2,000 in the estimates, based on the increased business of that institution.

An increase of \$250 is submitted in the salary of the assayer in charge of the United States assay office at Helena, Montana, which was reduced last year, and the purpose of this increase is to restore it to the amount appropriated in former years.

An increase of \$1,500 is recommended in the appropriation for wages at the assay office at Helena, based on the increased business of that institution.

For the assay office at Boise, I have found it necessary to increase the estimates over the appropriations for the current year, owing to the increase of business, which at present is about double that of last year. The only clerk at this office

who is required to act as assayer in charge in the absence of that officer has hitherto received \$1,000 per annum, a salary entirely inadequate to the service required of him, and I have submitted an increase of \$400. The appropriation for wages and contingent expenses has been increased \$3,000, to meet the additional expenses occasioned by the increased business.

I have also submitted an estimate of \$1,500 for long-neglected and now necessary repairs of the assay-office building at Boise.

In addition to the regular appropriations for the support of the mint service, I have submitted, at your suggestion, an estimate of the amount necessary for freight on bullion and coin between the mints and assay offices. I have made a separate item of this amount, for the reason that last year the item was included, not in the estimates of this bureau, but among the special estimates of the Treasury Department.

Very respectfully,

JAMES P. KIMBALL,  
*Director of the Mint.*

Hon. SECRETARY OF THE TREASURY.

#### APPENDIX F.

*In relation to the estimate for "Legislative Expenses, Territory of Idaho." (See page 38.)*

TERRITORY OF IDAHO,  
*Secretary's Office, Boise City, Idaho, October 5, 1886.*

SIR: I have the honor to transmit herewith estimates for legislative expenses of the Territory of Idaho for the fiscal year ending June 30, 1888. I have made the estimates in contemplation of the removal of the secretary's office to the new capitol building, now completed, and which will be ready for the reception of the Federal and Territorial officers on and after the 1st of January, 1887.

There is no item estimated for but those absolutely required for use in this office and necessary for the public service.

The item of three thousand (3,000) dollars for the printing of the new revised code is estimated upon the measurement of skilled and practical printers, and at the lowest Eastern prices for such work.

The book will make about eleven hundred pages in statute forms for such work, both as to the material and workmanship. This will be the second revision in twenty-three years of the laws of Idaho.

I trust that after you shall have examined the foregoing estimates you may deem the same proper for your approval.

Very respectfully, your obedient servant,

E. J. CURTIS,  
*Secretary of Idaho.*

Hon. SECRETARY OF THE TREASURY.

#### APPENDIX G.

*In relation to the items for new furniture, \$2,500, under "Legislative Expenses, Territory of Wyoming." (See page 41.)*

TERRITORY OF WYOMING,  
*Executive Department, Secretary's Office, Cheyenne, Wyo., September 15, 1886.*

SIR: I have the honor to herewith transmit my estimate of the amount required for "Legislative expenses, Wyoming Territory," for fiscal year ending June 30, 1888.

In explanation of the items "submitted," aggregating \$2,500, I will state: The Ninth Legislative Assembly provided for the erection of a capitol building, to be completed in time for the next meeting of the legislature, (January, 1888.) The halls and committee-rooms for the legislature are to be spacious and elegant. The furniture, carpets, &c., now in use are not at all suitable for the new building, as the best of it has been in use since 1882, and much of it considerably longer, and much of it should be condemned and sold, aside from the fact of the new capitol building.

Rooms for the governor and secretary of Territory are to be provided in the capitol building, and their proper furnishing will require the amount stated, in addition to furniture, &c., now on hand.

I enclose Chapter 37 of the Session Laws of 1886, being the act for the erection of the capitol building. [Will be transmitted to Congress in December next.]

Very respectfully,

E. S. N. MORGAN,  
*Secretary Wyoming Territory.*

Hon. DANIEL MANNING,  
*Secretary of the Treasury, Washington, D. C.*

APPENDIX H.

Statement of the number of persons employed, and the amount paid to each, during the fiscal year ending June 30, 1886, from the appropriation for scientific experts, &c., in the Signal Office. (Estimate for 1888 on page 45.)

JOHN G. PARKE,  
Colonel of Engineers, Brevet Major-General, U. S. A., in Charge of Office.

OFFICE CHIEF OF ENGINEERS, U. S. ARMY,  
Washington, D. C. September 30, 1886.

## APPENDIX J.

*Explanation of estimates for Public Buildings and Grounds for year ending June 30, 1888. (See pages 49, 169-171.)*

In submitting these estimates, some of which are larger than heretofore appropriated, and some for new work, the following explanation of the officer in charge is presented:

1. One public gardener, \$2,000. I have asked for an increase of \$200 per annum in the salary of the public gardener, a position now so satisfactorily filled by Mr. George H. Brown. The duties of the office require that the gentleman who fills it shall be thoroughly skilled in the culture of trees, shrubs, and plants, and shall have a practical knowledge of civil engineering as applied to landscape gardening. Mr. Brown combines these attributes, to which he adds great taste, industry, and integrity. His duties take him from one end of the city to the other, while he is directly responsible for the care of the valuable collection of plants at the propagating gardens, and he superintends the propagation of the 250,000 plants that are now annually raised for the public grounds. He is faithful and efficient in the discharge of his duties, and the beauty of the public parks is greatly due to his skill and taste.

2. One clerk in charge old public records of Washington city, \$1,500. These records include maps, deeds, record-books, letters, &c., from the organization of the original Board of Commissioners, near the close of the last century, up to 1867, when the duties were turned over to the Chief of Engineers. It is necessary that they shall be stored in a building as near fire-proof as it is possible to procure. For many years they were kept in the basement of the Capitol, but about three years ago they were removed to allow for additional committee-rooms, and placed in Winder's building, where they now are. Although a part of this office, they are separated therefrom, and require the continual care and attention of an experienced clerk familiar with their details.

These records are constantly examined by attorneys and others interested in lands in Washington, and are frequently required to be produced in courts. To index them properly, to be able to turn at once to the details of any question raised, requires familiarity with every paper. This duty has for the past few years been intrusted to the only draughtsman employed by this office, and the result has been that frequently, when his services are required in absolutely necessary surveys, they could not be obtained, and additional help had to be employed. I earnestly recommend that this appropriation be made, in order that the clerk and draughtsman now in charge of these old records may hereafter devote his entire time to this important branch of the duties of his office.

3. For one telegraph line-man, \$1,000. Under the head of "Telegraph connecting the Capitol with Departments" will be found, in my annual report, a full description of the telegraph system under control of this office. It includes about nine miles of overhead wire and about two and sixth-tenths miles of underground cable. There are, in all, sixteen offices connected with these lines, the main battery being at this office. The line-man is constantly engaged in the care of the main and local batteries and such necessary repairs and extensions as a system of wires of this character require. He is industrious, efficient, and capable, and by faithful attention to his duties has won the confidence of all with whom he comes in contact. I earnestly recommend the appropriation of \$1,000 for payment for his services during the next fiscal year.

4. For overseers, foremen, draughtsman, gardeners, mechanics, and laborers, \$30,000. I have submitted the same estimate as presented last year, being \$2,000 in excess of the last appropriation. The grounds under charge of this office cover an area of 408 acres, divided into 246 reservations, scattered over various sections of the city. Of these reservations, 42 are highly improved, an increase of four since last year; 50 are partially improved, an increase of three since last year; and 155, covering an area of about 56 acres, remain entirely unimproved. Each newly improved reservation adds that much to the expense of the care of public grounds—the mowing of grass, the care of trees and plants, walks, &c.; each improvement adds to the beauty of the city, the welfare and prosperity of the locality in which it is situated. The capital of the nation should be in advance of other cities and take the lead in the decoration of its parks, rather than follow in the wake of New York, Boston, Chicago, and Cincinnati. Its beauty is attracting the admiration of the crowds of strangers who annually visit it, and its pleasant climate, its charming surroundings, its splendidly paved streets, and its handsome parks are attracting to it as a home an element of wealth, refinement, and intelligence that will aid in making it, as it should be, an ornament to the nation. I earnestly recommend the appropriation of the amount named for overseers, foremen, &c., as well as for every other item mentioned in my estimates. I have but one object in asking for these funds, and that is to beautify the national capital.

5. One day-watchman, Lafayette square, \$720; one day-watchman, Franklin square, \$720. I have recommended that the pay of the watchmen of these squares be raised sixty dollars per annum each, so that they shall receive the same pay as night-watchmen. They are not watchmen in the common acceptation of that term, but are really park-keepers, doing daily the work of gardener, laborer, and watchman. During the season of active operations they are on duty daily, including Sundays, from 8 A. M. till 8 P. M., with only time for their meals; the parks under their charge are the handsomest in the city, and are visited by large numbers of citizens and strangers. The entire time of these watchmen is devoted to making their parks as beautiful as possible, and I earnestly recommend this slight increase in the salaries of these industrious and faithful employes.

6. One day-watchman for South Carolina Avenue reservation, Folger square, and adjacent reservations. The two reservations mentioned by name are now highly improved, the one containing about one acre; and the other about two acres. In addition to these, there are several highly improved triangles in the immediate vicinity, all of which require the constant attention of a watchman to protect the trees and shrubs and to maintain the reservations in good condition. The nearest United States watchman is now stationed at Lincoln square, about a half mile from these reservations, and his entire time is required in keeping that square in good order.

7. For improvement of the grounds north of the Executive Mansion, \$20,000. With this appropriation it is proposed to remove the old worn and broken flag pavement and the boundry-wall on the Pennsylvania avenue front of the Executive Mansion grounds, which are not in keeping with the surrounding improvements; to lay down a substantial dressed North River bluestone flag pavement of large size, similar to the adjoining pavement of the State, War, and Navy Department building, and to construct a suitable ornamental granite boundary-wall, with piers and coping-stone and a low iron railing; also, to resurface, with Portland cement pavement, the interior walks of these grounds.

8. For improvement, care, and maintenance of grounds south of the Executive Mansion, \$6,000. It is proposed to expend this sum as follows: For perfecting the drainage system, \$1,000; for resurfacing roads and paths and constructing additional walks, \$3,000; for soil, grass-seed, fertilizers, trees and planting same, care of lawns, and general care of the large reservation, \$2,000.

9. For removal of high iron fences from smaller reservations, construction of post-and-chain fences, and repair of high fences around large reservations, \$1,500. Should Congress approve, it is proposed to remove the tall iron fences from around

the smaller reservations, to lay out walks, plant flower-beds, &c., and open these reservations to the public use. I have received numerous applications from citizens to have this done; but in view of the terms of the act of Congress approved March 3, 1877, prohibiting the removal of iron fences, I have been obliged to refuse such requests. The removal of the tall fences around the larger reservations, such as Lafayette and Franklin, has both its advocates and opponents among the citizens residing near these parks.

10. For laying asphalt walks through various reservations, \$10,000. It is proposed to replace the gravel walks in Washington circle, Judiciary square, Franklin square, Mount Vernon square, Executive Mansion grounds, Lincoln square, Stanton square, and Folger square, and to renew those in Farragut square, Rawlins square, and Iowa circle with first-class asphalt paths. In the late fall, winter, and early spring these walks are muddy, and pedestrians seek the lawns, which are thus destroyed by trespassers. The amount of these paths which it is proposed to lay this year will be about 6,600 square yards. It is hoped that this appropriation will be made. Each autumn it becomes necessary to put down walks of old plank, which are not only expensive in the items of purchase, hauling, and labor, but the wooden walks themselves are disfiguring to the beautiful parks through which it is necessary to place them.

11. For improvement, care, and maintenance of various reservations, \$20,000. The funds required under this head are for the improvement and care of the improved parks and for the improvement of as many as possible of the 155 reservations still unimproved. During the year ending June 30, 1886, four were added to the list of highly improved, and three to that of the partially improved reservations. During the year ending June 30, 1887, it is hoped to do equally as well, while, if the funds now requested become available, the year ending June 30, 1888, will add from eight to ten more to the list of highly improved. As reservations are thus improved the expense of the care of the whole is slightly increased, for the improvement must be maintained, and the parks kept up to the proper standard.

12. For the improvement, care, and maintenance of the Smithsonian reservation, including the construction of 5,000 square yards of asphalt pavement, \$15,000. This reservation, covering an area of over 58 acres, is the largest and one of the handsomest in the city, and has within its limits the Smithsonian building, the National Museum, and the new Medical Museum. Without permission of the Chief of Engineers, a large frame building and several workshops have been constructed upon the grounds under his charge, just east of the Museum building, which are far from ornamental, and should be removed at once. The employés of the Museum used the grounds adjacent for purposes connected with taxidermy, and frequently during the summer of 1885 the stench from decaying entrails of fish was very great, while several handsome trees were entirely destroyed by the fire used in the work of preparing specimens.

It is proposed to continue the construction of a first-class asphalt road in front of the Smithsonian building, running from Seventh to Twelfth streets, a distance of about 1,700 feet, varying in width from 25 to 50 feet, and covering an area of about 7,500 square yards. The cost will be about \$2 per yard. It is hoped to lay about 2,000 yards of this pavement during the present fiscal year.

Such portion of the \$15,000 requested as will be available after providing for the asphalt roads, probably \$5,000, will be devoted to the improvement of drainage, the care and maintenance of lawns, roads, paths, trees, shrubs, &c., of this handsome park.

13. For improvement, care, and maintenance of Armory and Seaton parks, including an asphalt path from Third to Seventh streets, \$5,000. These reservations, extending from Seventh street to the Botanic Gardens, cover an area of about 34 acres, with road and walk surfaces of over 10,000 square yards. They are in an advanced state of improvement. Their beauty is somewhat marred by the tracks and depot of the Baltimore and Potomac Railroad, but it is proposed to construct a large mound and to plant trees upon it, so that, in time, the depot will be hidden from view, in Armory park at least. The roads, paths, gutters, and drains in these reservations need improvement, and there should be an asphalt foot-path constructed along the main road between Third and Seventh streets, so that during the fall, winter, and early spring pedestrians desiring to avoid the muddy roads will not trespass upon and destroy the lawns. The appropriation requested will be applied to placing roadways and paths in order, constructing gutters, drains, lodges, &c., improving lawns, laying out additional paths, and planting trees and shrubs. The cost of a good asphalt foot-path on one side of the main road between Third and Seventh streets would be \$1,800, the area to be covered being about 1,200 square yards.

14. For improvement and care of Judiciary square, including grounds around the new Pension building, \$5,000. This square covers an area of about twenty acres, and includes within its limits the City Hall and the new Pension building. It is crowded daily with persons having business in those buildings, and needs additional improvements. Any appropriation available for the present fiscal year will be used, as soon as the architect of the Pension building removes the sheds and old materials now around it, in grading the grounds, laying out lawns and paths, and improving the surroundings as far as possible. The appropriation now requested will be used in completing necessary improvements, adding new walks, planting trees and flowers, constructing drains, &c.

15. For constructing an ornamental structure of masonry and iron over the springs in Franklin square, \$2,000. The recommendation in my last annual report is renewed. These valuable and delicious springs should be made available for the use of residents in the vicinity, and the public in general. It is proposed to make the necessary excavation, to construct a grotto that will be an ornament to the park, and to connect the steps leading down to the spring with the main walks by asphalt paths.

16. For lodges for park watchmen in Stanton, Mount Vernon, Iowa, Dupont, Thomas, McPherson, Folger, and Seaton reservations, at \$500 each, \$4,000. The watchmen in these reservations are exposed to the inclemency of the weather at all seasons of the year. Rain or shine, hot or cold, night and day, year in and out, they must be at their stations, and take shelter when necessary either under a tree or in such dwelling or store as will offer its hospitality. The dictates of humanity call for this appropriation.

17. For improvement of reservation No. 101, \$3,000. A full report in reference to this reservation will be found in my annual report. Should this appropriation be made, it should be coupled with a requirement for the removal of the track running across the reservation on the line of Maryland avenue.

18. For supplying and keeping supplied the vases in the new Pension building with suitable plants and shrubs, \$1,200. The joint resolution of Congress approved March 29, 1886, requires that the 76 large vases on the upper corridor of the new Pension building shall be filled and kept filled with suitable plants and shrubs. This estimate is submitted in order that it may carry out the law.

19. For expenses, including advertising, of the sale of old condemned property, including old copper from roof of the Executive Mansion, \$100. Section 3618 of the Revised Statutes requires that condemned property shall be sold at public auction. Disbursing officers must comply with the rulings of the accounting officers of the Treasury. The First Comptroller of the Treasury has decided that the gross proceeds of sales of condemned property of this kind must be turned into the

Treasury, the expenses of the sale to be paid from the general appropriation for the particular Department that may have used this old material, condemned stores, &c. The Second Comptroller of the Treasury has decided that only the net proceeds of the sale must be turned into the Treasury, the expenses of the sale to be paid from the proceeds derived therefrom. We have here diametrically opposite decisions on the same subject from the two Comptrollers, from whose decision there appears to be no appeal. With the exception of one other officer besides myself, I believe every officer of the Corps of Engineers disbursing under the Chief of Engineers has final action upon his accounts through the Second Comptroller, and pays the expenses of sales of this kind out of the proceeds of the sale. I must, however, pay such expenses, under the decision of the First Comptroller, from the appropriations under my charge. As these appropriations are absolutely necessary for the purposes for which they were made, I ask that a specific sum be appropriated for the expenses of this sale.

20. For care, repair, and refurnishing the Executive Mansion, \$16,000. This building needs continual repair, and requires entire repainting inside and out, at a cost of about \$3,500; much of the furniture is old and needs entire overhauling; new carpets and curtains are required, and the bed-rooms are really shabby in appearance. It is sincerely hoped that the Mansion, provided by the country many years ago for the residence and office of the Chief Executive of the nation, may at least be kept in a condition equal to that provided by Congress for the transaction of business by the legislative and judicial branches of the Government.

21. For care and necessary repairs of greenhouses, \$5,000. The sum appropriated for this purpose during the past three years has been annually only \$4,000, while in previous years it was \$5,500. The greenhouses are in bad condition, the wood-work being decayed, and extensive repairs necessary. They have not been extended in any way during the past two years, and require the constant supervision of two experienced gardeners, while the assistance of laborers is necessary from time to time.

22. For renewing the entire superstructure of three greenhouses connected with the Executive Mansion and grounds, \$4,000. These greenhouses were constructed in years past, under appropriations made by Congress. They are used for propagating plants for the grounds, and for the care during winter of plants brought in from the grounds of the Mansion. The superstructure is badly decayed, and is liable to fall in during a storm unless renewed.

23. For replacing the overhead wires between the Capitol and the Departments with a duplicate underground six-wire cable, \$8,500. This matter has been discussed in my annual report. The necessity for the work is so apparent that it is hardly necessary to say more than to urge the matter to the favorable consideration of Congress. It gives me pleasure, in conclusion, to express my appreciation of the faithful and efficient manner in which Mr. E. F. Concklin, overseer and chief clerk, and Mr. Geo. H. Brown, public gardener, have performed the various and important duties committed to their charge.

I am, general, very respectfully, your obedient servant,

JOHN M. WILSON,

*Lieutenant-Colonel of Engineers, Colonel United States Army.*

To the CHIEF OF ENGINEERS, UNITED STATES ARMY.

#### APPENDIX K.

*In relation to the estimate for Salaries and for Miscellaneous Expenses of the Hydrographic Office. (See page 52.)*

HYDROGRAPHIC OFFICE,  
*Bureau of Navigation, Navy Department, Washington, D. C., September 24, 1886.*

SIR: I have the honor to transmit herewith the estimates for the support of this office for the fiscal year 1888.

As the present clerical force is entirely insufficient to carry on the work, I have estimated for one clerk of class four and one clerk of class one in addition to present force.

The estimate for salaries for draughtsmen and engravers is increased \$6,580. This increase is for the employ of additional engravers. The present force is kept employed mainly in correcting the plates on hand, and additional engravers are needed to work up the result of new surveys made by our ships of war and those published by foreign governments.

The estimate for branch offices is increased to \$10,000. Rent is demanded and should be paid for the quarters occupied by these offices. The port of Norfolk is added, in order that an office may be established there, in response to the request of those interested in shipping.

More commodious quarters should be hired for the printers and engravers, and \$2,500 is asked for this purpose.

Very respectfully,

J. R. BARTLETT,  
*Commander, U. S. Navy, Hydrographer.*

Commodore J. G. WALKER, U. S. N.,  
*Chief of Bureau of Navigation.*

#### APPENDIX L.

*In relation to the estimates for Salaries and Miscellaneous Expenses of the Naval Observatory. (See page 53.)*

U. S. NAVAL OBSERVATORY,  
*Washington, September 9, 1886.*

SIR: In compliance with the bureau's order of the 2d instant, (No. 2615 B,) the estimates for the Naval Observatory for the fiscal year ending June 30, 1888, are herewith respectfully submitted.

The estimate for increase of pay to the assistant astronomers is renewed, as also that for an increase of pay to the instrument-maker. This gentleman now receives, after more than twenty years' continuous service, much less pay than is given to those holding similar positions in other branches of the Government service. His duties are many, and they are thoroughly and satisfactorily performed, and the increase asked for is deemed justly due to him.

The computation of the observations with the transit circle is three years in arrears. In order to bring the work up to date, that it may be promptly published, the estimate for three computers is renewed. It is extremely desirable that this work should be completed at the earliest possible moment.

The services of a copyist and indexer in the library are very necessary, and the estimate therefor is renewed.

An estimate of \$425 is submitted for the purchase of a complete set of the *Astronomische Nachrichten*. This is a most valuable work, and would prove a great acquisition to the library. There is but one set in the market, and the Observatory can procure it for the sum mentioned. The regular appropriation of \$1,000 supplies the library with its periodicals, &c., but is inadequate to this purchase and that of the current needs of the institution.

The Observatory has been requested to unite with the Solar Physics Committee of England in its investigations, and to this end, as well as for other purposes, the estimate for solar and stellar photography is renewed.

The estimate for the extension and maintenance of time service is also renewed, and it is to be hoped will meet with favorable consideration. There are in this city one hundred and twenty-three clocks connected with the Observatory system, which are corrected daily by the noon signal. The care of all these and the maintenance of the line devolve upon the Observatory, and form a heavy tax upon its resources. This service is the outgrowth of the last two years, and the appropriations that formerly sufficed are now inadequate to the additional burden thus brought upon the Observatory. The noon signal is also sent over the wires of the Western Union and Baltimore and Ohio Telegraph Companies to various points in the country. The Navy Department representatives at Boston, Newport, New York, Philadelphia, Baltimore, Hampton Roads, Savannah, and New Orleans receive this signal without any charge by the telegraph companies; and at all these places (except Boston) a time-ball is dropped. This service is of great importance to the commercial community, inasmuch as it tends to increase the safety of ocean traffic, giving, as it does, an opportunity for shipmasters to obtain direct comparisons of their chronometers with an accurate standard up to the last noon of their stay in port. In addition to the time-balls mentioned, one is dropped at San Francisco, through the branch hydrographic office, by means of the noon signal transmitted from the observatory at Mare Island. A cable was laid by the telegraph company, at the request of the Department, without expense to the Government, and it is believed that voluntary labor should no longer be depended upon, as is now the case, but that due and proper compensation should be made for the work.

Very respectfully,

ALLAN D. BROWN,  
Commander, U. S. Navy, Superintendent.

The CHIEF OF THE BUREAU OF NAVIGATION,  
Navy Department.

## APPENDIX M.

*In relation to certain estimates of appropriations for the Interior Department.*

ASSISTANT SECRETARIES OF THE INTERIOR DEPARTMENT. (See page 55.)

Since its creation, in 1849, the jurisdiction of the Department of the Interior has been from time to time extended and enlarged. In consequence of the growth and development of the country, the interests originally confided to the Department have vastly increased in importance. At the present time the questions of title and the property rights of individuals and corporations in lands, patents to inventions, pensions, tribal privileges and funds among the Indians, &c., annually adjusted by the Department, in the first instance at least, in the aggregate many times exceed in value those brought before any other tribunal in the country. In addition, greater public attention has been directed to matters of administrative policy, to the scientific and educational work conducted by the Department, and to the care of the national parks and the management of the numerous institutions placed under its supervision. Good administration demands that the salaries of the superior officials, to whom the direction of these vast interests is intrusted, should bear some nearer proportion than at present to the dignity of the duties and responsibilities imposed upon them. I therefore earnestly recommend the increase in the salaries of the First Assistant Secretary and of the Assistant Secretary of this Department specified in the estimates.

Additional to the salary of custodian, \$200. (See page 55.)—This officer is charged with large responsibilities, and under the law is required to give a bond for the faithful performance thereof. His duties and responsibilities are at least equal to those of an assistant chief of division, and the increase asked for is deemed but just.

Two assistant messengers, in lieu of two detailed from the watch. (See page 56.)—The watch force of the Department is altogether too small without any details therefrom, and it is manifest injury to the service that the watch force should be depleted; hence the two assistant messengers are necessary.

Four additional assistant messengers. (See page 56.)—The messenger force of the office is altogether too small, and the additional number asked for is absolutely necessary.

One laborer, at \$660, in lieu of one at \$600. (See page 56.)—By inadvertance the salary of this one laborer has been kept at \$600 for a number of years, although he is performing exactly the duties of those receiving the pay fixed by statute, viz., \$660. The increase of \$60 per annum should be made.

Six clerks, at \$2,000 each, office of Assistant Attorney-General. (See page 56.)—The work of the law division for the year ending June 30, 1886, was 75 per cent. greater than that of the preceding year, and the number of cases pending on June 30, 50 per cent. greater than the number pending at the same date the previous year. It is of the utmost importance that appeal cases, after having been delayed in the subordinate offices, should be disposed of when appealed as quickly as possible. Many of such appealed cases are intricate and require thorough examination and discussion of the principles involved. This additional force is therefore deemed necessary, and should be provided for.

Reconstruction of the east wing of the Interior Department building, \$160,000. (See page 164.)—The work of reconstructing the building has been completed on three wings of the building, and as a measure of safety against fire, and also to afford the much-needed relief to the working force of the Department, especially in the General Land Office and the Patent Office, the proposed reconstruction would afford working space within the building for eighty-five additional employes and as an increase of additional employes in the examining force in the Patent Office has been made, the necessity for this additional space must be apparent.

Elevator for the west wing of the Interior-Department building, and conductor, \$12,720. (See page 164.)—The necessity for this elevator was represented to the previous Congress. The saving in time of the people employed in that wing of the building would in a few years more than equal the cost thereof, besides the convenience to those employed and to those having business with the General Land Office and the Patent Office. Both Commissioners have urged its introduction, and I concur in their views.

Electric-light plant for the Interior-Department building, and engineer, \$21,000. (See page 164.)—A comparison of the amounts paid for gas and the saving of the cost thereof applied to the introduction of the electric-light plant would within a few years counterbalance the cost of the same and be in the interest of economy.

## APPENDIX N.

*In relation to the estimates for the Bureau of Education. (See page 61.)*

DEPARTMENT OF THE INTERIOR,  
Bureau of Education, Washington, D. C., October 20, 1886.

SIR: In reconsidering, at your request, the estimates for the appropriations required for the service for the fiscal year ending June 30, 1888, by the Bureau of Education, I beg to make the following suggestions:

In the estimates submitted by my predecessor for the fiscal year ending June 30, 1887, the amounts asked for were as follows: Salaries, \$47,580; for library, \$1,675; for collecting statistics, \$3,000; for distributing documents, \$7,000; for education of children in Alaska, \$25,000—amounting, in the aggregate, to the sum of \$84,255.

The amounts appropriated for the same purpose by act of Congress for the fiscal year ending June 30, 1887, are as follows: Salaries, \$45,420; library, \$1,175; collecting statistics, \$3,000; distribution of documents, \$3,000; education of children in Alaska, \$15,000—amounting, in the aggregate, to \$67,595, and showing that the amount asked for exceeded the amount appropriated by the sum of \$16,660.

In submitting the estimates for this office for the fiscal year ending June 30, 1888, the amounts asked for by myself were as follows: Salaries, \$53,160; library, \$1,675; collecting statistics, \$6,000; distributing documents, \$7,000; education of children in Alaska, \$25,000—amounting, in the aggregate, to \$92,835.

These amounts exceed the amounts appropriated for the fiscal year ending June 30, 1887, in the following items: Salaries, \$7,740; library, \$500; statistics, \$3,000; distribution of documents, \$4,000; education in Alaska, \$10,000—amounting, in the aggregate, to \$25,240.

In making these estimates I was governed by what I could learn of the wants of the bureau from conversations with my predecessor and the employes of the office, who were familiar with the amount of the work which was necessary to be done, and I considered them, from my own examination of the condition of the office, reasonable and economical. I am satisfied, from a further consideration of the work of the office and the amount of work within its jurisdiction, that it will be difficult to administer the office as it should be without an increase of its clerical force and the amounts expended in collecting statistics and distributing public documents.

I have very little information in regard to the condition of the subject of education in Alaska. My only means of information are derived from Rev. Sheldon Jackson, the general agent of education in that Territory. He estimates that \$50,000 should be appropriated by the next Congress for the schools in Alaska. I submit herewith copies of two letters from him, bearing dates of September 22 and 27, 1886, and ask your consideration of them.

In compliance with your wishes, I have reduced the estimates to the lowest scale possible with a due regard to the wants of this office.

It will be seen that I have asked for appropriations amounting to \$70,095, which is in excess of the appropriations for 1886-'87 by \$2,500. This amount is made up of \$200 to the increase of the salary of the chief clerk, \$500 additional to the library, and the salary of a librarian, or clerk of class four, \$1,800. The sum of \$500 is a very small addition to the allowance for the purchase of such books as should be placed upon the shelves of the library. So many new publications are being issued that it is absolutely necessary to make a selection from them and to keep our library well supplied with the leading works upon subjects appertaining to the work of the bureau.

The salary of the chief clerk should be made equal to the salary of the same officers in the other bureaus of the several Departments.

The library, now numbering nearly twenty thousand volumes of valuable works, on nearly every subject pertaining to education and the philosophy of teaching, should be well equipped with a librarian skilled in the newest and best methods of arrangement and classification. His services in these departments of his work would not only be invaluable, but his familiarity with the subjects treated in the books of the library would be of untold convenience, and make the library a most valuable adjunct of the bureau. To show the importance attached to it as a means and school of education, I refer you to the views of Dr. F. A. P. Barnard, President of Columbia College, upon the subject, as briefly alluded to in the report of my recent visit to him. For these reasons, I have asked for an appropriation of \$1,800 for a librarian, and trust that it will be granted.

The tendency is to increase in the work committed to the Bureau of Education. The statistical branch of the office is daily subjected to additional burdens in the shape of State, city, school, college, and university reports from the United States and from many foreign countries. The statistics from all these ever-increasing sources are to be collected, tabulated, put in form, and finally given a local habitation in the annual report. The labor is twofold what it was in former years, and all indications point to a large and continuing increase in its operations. If it be decided that the bureau is to be kept within its present limits of investigation, in spite of the many new subjects now occupying the attention of educationists, the present force of the office can be made to do the work as now done; but if the office is to comprehend these topics in its range of inquiry, to treat them as the advance in the methods of statistical science require and as the expectations of its intelligent correspondents hope for, some addition to the force will have to be made. If the present force cannot be increased according to the views and purposes of the administration, I shall most cheerfully conform to its policy, and endeavor with the means at hand to produce the best attainable results. I herewith submit the estimates for the fiscal year ending June 30, 1888, as revised from date of September 27, 1886.

I have the honor to be, very respectfully, your obedient servant,

N. H. R. DAWSON,  
Commissioner.

Hon. SECRETARY OF THE INTERIOR.

GENERAL AGENT OF EDUCATION IN ALASKA,  
Kadiak, Alaska, September 22, 1886.

DEAR SIR: The steam-schooner "Leo," conveying the Alaska teachers to their destination reached here this forenoon, nineteen days from Seattle, Washington Ter. We had expected to go to Unalaska first, but the prevailing winds drove us up here. We encountered two gales by the way, and lost one of our sails.

The Alaska Commercial Company's agent (Mr. B. F. McIntire) very kindly has furnished the Government with the use of a school-room for this coming winter. Mr. Roscoe, the teacher for this place, has received a pleasant reception from the people, and is pleased with the outlook here.

It is a great drawback to our work in this country that the Government has not been able to erect suitable buildings for residence for the teachers and school-room for the children. The cost of sustaining the teachers in the Government schools in this section now amounts to \$25,000 per year, but there should be an additional \$25,000 for buildings. It is a great sacrifice for intelligent, cultivated people to exile themselves from society and privileges for the sake of elevating these poor people. This great Government should not require them to live in the damp, dark, open native houses of this region and teach school in rooms that would be considered almost unsuited for cattle. I hope, therefore, you will urge the Hon. Secretary of the Interior in his estimates to ask Congress for \$50,000 for the ensuing school year for education in Alaska. If the Secretary will ask for it, I think it will be granted. A work so important as the establishing of public schools in Alaska should not be crippled by insufficient appropriations.

The teachers and their families are all in good health.

From Kadiak we go to Alfognak, where we leave Mr. Wirth in charge of the school. The distances are so great, and our progress so slow that I fear that I may be unable to return to Washington before the last of December.

Very truly, yours,

SHELDON JACKSON,  
General Agent.

To the COMMISSIONER OF EDUCATION,  
Washington, D. C.

GENERAL AGENT OF EDUCATION IN ALASKA,  
Karluk, West Side of Kadiak Island, Alaska, September 27, 1886.

DEAR SIR: I wrote you last week of our progress at Kadiak Village, which is the headquarters of trade for this whole region of Cook's Inlet and Prince William Sound. We left W. E. Roscoe and wife in charge of the school. The agent of the Alaska Commercial Company very generously placed a school-room at our disposal, free of rent. The teacher was also able to procure a comfortable residence at a moderate rent. There are 143 children in the village.

On Saturday, the 25th of September, we landed Mr. and Mrs. Wirth (teachers) at Alfognak Island. There being no dock we were compelled to land the household goods of the teachers and the school supplies in small boats through the surf.

There are 146 children on the island. The people are civilized, and living as comfortably as many of the settlers of Nebraska or Dakota. On Kadiak Island and vicinity I have found 937 children in ten principal settlements, each one of which should have a school.

There ought to be at least \$50,000 appropriated by the next Congress for schools in Alaska. A great wrong is being done these people in withholding school privileges. Do what you can to have Secretary Lamar ask for \$50,000 this coming year.

Yours, truly,

SHELDON JACKSON,  
General Agent.

To the COMMISSIONER OF EDUCATION,  
Washington, D. C.

#### APPENDIX O.

*In relation to certain estimates submitted by the Governor of Alaska Territory. (See pages 37 and 61.)*

DISTRICT OF ALASKA,  
Executive Office, Sitka, September 13, 1886.

SIR: In transmitting herewith my estimates of appropriations required for the service of the fiscal year ending June 30, 1888, I have to say that the increased estimate in the amount necessary for the support and education of Indian pupils of both sexes at industrial schools, in face of the fact that heretofore a part of the sum appropriated for that purpose has not been expended, is based upon the further fact that there is now, and has been for several years, a most excellent industrial school at Wrangel, which for some reason has not been allowed the proportionate share of the appropriation to which it would seem to have been justly entitled, all the money drawn from the appropriation being in behalf of the Sitka training-school, under and by virtue of a contract made by the Commissioner of Indian Affairs with the Presbyterian Board of Home Missions. The industrial training-school at Wrangel is conducted under the auspices of the same church. Though not under the immediate control of the Board of Missions, it is in all respects as meritorious and deserving of Government aid as the Sitka school, and I understand that the Commissioner of Indian Affairs has made a contract with it similar to that under which the Sitka school has been and is receiving aid, by the payment of a certain amount per capita based on the average monthly number of pupils. This additional contract will, in my opinion, involve a larger expenditure than is provided for by the present appropriation, for the reason that the number of pupils in both schools is increasing, and that of the Wrangel school, which has hitherto been supported by voluntary contributions, will be more than doubled, now that the care and maintenance of pupils is provided for by Government aid.

In estimating the amount necessary "for the education of children of school age, without reference to race," I have taken into consideration the fact that the amount inserted in the sundry civil bill by Senate amendment (\$25,000) is not more than sufficient for the support of schools already established, while, if it be the purpose and desire of Congress to extend equal educational facilities to all the people of Alaska, an equally additional number of schools to those now in operation are not only desirable, but actually necessary. For this reason I have estimated the amount really needed at \$40,000.

The estimate of \$6,000 for hospital purposes is submitted in the confident belief that the statement of facts as to its necessity to be embodied in my annual report will be amply sufficient to secure for it the recommendation of the Honorable Secretary of the Interior. A detailed estimate of cost is as follows: Cost of building, \$2,500; furniture, bedding, &c., \$500; medical attendance, steward, nurses, provisions, medicines, lights, and fuel, \$3,000—\$6,000.

The estimate of \$3,000 for Indian police is, I think, given in sufficient detail. Having reference to the necessity for such an appropriation, I beg leave to refer you to page 12 of my annual report for 1885, a copy of which I enclose herewith. [See extract below.] Though out of the usual order, perhaps, these suggestions are respectfully submitted direct, for the reason that the annual report I am required to make on the first of October is not likely, owing to the infrequency of the mails, to reach the Honorable Secretary of the Interior before November 1, when it may be too late for him to submit such extracts "as relate to estimates for appropriations, and the necessities therefor."

Very respectfully,

A. P. SWINEFORD,  
*Governor of Alaska.*

Hon. SECRETARY OF THE TREASURY.

[Extract from page 12 of report of governor of Alaska for the year 1885, referred to above.]

GENERAL REMARKS AND SUGGESTIONS.

As the most effective means of preserving peace and good order in the Indian village adjacent to Sitka, one of the naval commanders, some years ago, instituted an Indian police system, which was approved and continued by my predecessor. The members were paid \$25 per month, with an advance of \$5 over that sum to the chief. I found, however, that the five members of the force, all men of influence among their people, had not been paid for six months, and were consequently becoming uneasy and discontented. The money paid this force since the advent of the civil government was drawn from the appropriation made to defray the expenses of the Indian commission created by the organic act, and that fund being represented to me as having been exhausted, it was questionable if I had the power or authority to continue the system; but after consultation with the other officials, and having in view the maintenance of peace and good order in Sitka, as well as in the native settlement, I concluded to do so, though I was under the necessity of making myself personally responsible for the payment of salaries in the event of my action being disapproved by the Department. In this connection I desire to say that I am convinced, by my brief experience, that no better or more economical system can be devised for the maintenance of order in the native settlements. The Sitkan native policemen are exceedingly proud of their blue uniforms, and, being the recognized chiefs among their people, exercise a dual authority, which is universally respected and obeyed. Their authority is confined to their own village, and to such an extent is it respected, so faithfully and dilligently do they discharge the duties devolved upon them, that the manufacture of the vile intoxicating compound known as "hoochinoo" has been entirely broken up—a fact, I am informed, which does not apply to any other native village in the Territory. I am, therefore, clearly of the opinion that the plan should be extended so as to embrace all the native settlements in Southeastern Alaska, and respectfully suggest that, unless already provided for, an appropriation sufficient to uniform and pay at least thirty Indian policemen in Alaska be asked for. *I very much doubt if any more effective means can be provided for the promotion of cleanliness, sobriety, and good order among the Indians, without which conditions first obtained the work of the teacher and the missionary cannot be productive of permanent good.*

APPENDIX P.

*In relation to the estimate of "Salaries of Employés, Court-House, Washington. D. C." (See page 75.)*

WASHINGTON, September 24, 1886.

SIR: I have the honor to ask that the Attorney-General will recommend to Congress the addition of another laborer, at a salary of \$480 per annum, to the force now authorized and employed under the control of the marshal of the United States for the District of Columbia, for the care and protection of the United States court-house.

In asking for an additional laborer, I desire to call attention to the fact that there has been an assignment of twelve rooms in this building to the Civil-Service Commission, and it is thought that the estimated increase in the number of persons in and about the building having business with the Commission, attending examinations, &c., will necessarily require the addition of at least one to the laboring force, in order that the building may be kept in a proper condition of cleanliness. In addition to the above, several rooms in the upper story of the building, previously unoccupied, have been assigned to the auditor of the court and to the surveyor. The duties of the laboring force will be correspondingly increased by giving these rooms proper care and attention.

The present force of laborers, four in number, is hardly sufficient for the present requirements, and would to a certainty be inadequate for the additional labor necessitated by the increased occupancy of rooms as specified above.

Trusting that the reasons I have assigned may be sufficient to induce the Attorney-General to make the recommendation suggested, I am,

Very respectfully,

ALBERT A. WILSON,  
*Marshal.*

The Honorable ATTORNEY-GENERAL.

## APPENDIX Q.

*In relation to the estimates for the Diplomatic Service, (pages 83 to 86.)*

DEPARTMENT OF STATE, Washington, October 1, 1886.

MEMORANDUM EXPLANATORY OF VARIANCES AND INCREASES IN THE ESTIMATES FOR THE FISCAL YEAR 1888, AS COMPARED WITH ACTS OF APPROPRIATION FOR THE FISCAL YEAR 1887, IN SO FAR AS CONCERNS THE DIPLOMATIC SERVICE.

Items 1, 2, 3, and 4, (page 83.) Changes of grade and increase of compensation of ministers to China, Belgium, Argentine Republic, and Corea.

It is advisable, in every way, that several diplomatic missions be raised to the plenipotentiary rank. The grade of the office responds to three general considerations, viz: The importance and dignity of the country sending the minister; the intimacy of relationship with the country which receives him; and the reciprocal courtesy which counsels the accrediting to a friendly foreign power of a representative of equal rank with the one it sends.

Nearly all foreign countries send to the United States ministers of the plenipotentiary grade, and a just deference to the ordinary rule of etiquette would require that a minister of corresponding title should be sent by us.

It is not always easy to explain the policy which, unintentionally but in fact, tends to wound the susceptibilities of other States by sending to them ministers whose exceptionally low rank keeps the representation of our prosperous, wealthy, and powerful country at the foot of the list of foreign envoys. This is especially the case when to the title of minister resident is added the anomalous function of consul-general. This combination of two dissimilar and incompatible classes of representation is not usual in the intercourse of governments, and is neither understood nor appreciated by governments whose position in the family of nations should prevent any imputation of inferiority or appearance of neglect such as the joint office may be thought to imply. Hence, I am strongly in favor of raising the grade of all our missions resident to the plenipotentiary rank, as due not only to the position of the United States among nations, but also to the susceptibilities of other nations with whom our desire is to maintain the most friendly intercourse.

The estimates submitted provide for two such changes at present.

The title of our representative to the Argentine Republic is changed from minister resident and consul-general to envoy extraordinary and minister plenipotentiary, and the salary raised from \$7,500 to \$10,000. There is a good consul at Buenos Ayres, and therefore no necessity for tacking on an incongruous title to the envoy's mission.

In Belgium, the grade is changed from minister resident to envoy extraordinary and minister plenipotentiary, and the salary increased from \$7,500 to \$10,000. This change is abundantly justified, and, in my judgment, demanded, by the greatly augmented intercourse between the two countries, and the importance of the traffic to both.

The Argentine Republic and Belgium maintain missions plenipotentiary in Washington.

The President, in his first annual message, advocated the elevation of our mission to China to the first class, with a salary of \$17,500 instead of \$12,000. The proposed change is included in the estimates submitted. The reasons for this are many. Not only is our intercourse with China equally important as with Germany and Russia, but strong political considerations are apparent. The magnitude of the questions between the two countries deserves notice. The business of the legation is larger and rapidly growing larger. It has already two secretaries. The high cost of living in China is also a weighty consideration.

The salary of the minister resident and consul-general at Seoul, Corea, is proposed to be raised from \$5,000 to \$7,500. Difficult and expensive of access, isolated from foreign sources of supply, and surrounded by all the exigent and onerous conditions of official representation in an oriental country which is only emerging into the light of modern association, the legation at Seoul probably taxes the personal resources of the minister more than any other in the service; and it is neither wise nor just to entail hardship and even sacrifices on a representative whose qualifications for the post should be of the first order if the United States expect to retain and beneficially develop the opportunities which they were the first among nations to open by their treaty with Corea.

Item 5, (page 83.)

The estimates further provide for secretaries of legation in the Argentine Republic, Belgium, Corea, the Netherlands, Roumania, Servia and Greece, Sweden and Norway, Switzerland and Venezuela, at \$1,500 each. I am satisfied that no legation in the service should be without a permanent secretaryship attached. The labor of conducting and recording all the correspondence is great, and the qualities which combine to make an able and efficient diplomatic representative are not always compatible with the irksome and continuous drudgery of merely clerical labor. Hence, at many missions provision must be made, either by a small allowance by the Department for clerk-hire, or by the local employment of a clerk by the minister, to be paid out of his own slender salary. Such poorly requited subordinate service, often rendered by needy foreigners having an imperfect knowledge of the English language, is not apt to be efficient nor always trustworthy. And the difficulty in this respect is enhanced when the minister quits his post under the annual discretionary leave of absence granted him. He is constrained either to close his office or to leave it in charge of a person lacking competence, responsibility, and authority. So, too, with the not uncommon contingency of a minister dying at his post. It is different when there is a regularly commissioned secretary. The opportunities for linguistic and diplomatic training afforded by such an office invite a high order of talent, and many of the most noted names in our diplomatic history are of men whose early training and knowledge were acquired in foreign secretaryships. The incentives to patriotic and responsible fidelity exist, and with rare exceptions are fruitful of lasting good results. Moreover, the secretary is a recognized diplomatic agent and in case of absence or need possesses *ex-officio* the authority to conduct the public business of the legation just the same as the minister, which an ordinary clerk cannot do. Hence, there is no interruption to the continuity of the representation. When at his post the minister has always the advantage of intelligent aid and often valuable counsel, founded on a knowledge of the language and of business details. The testimony of every minister who has no secretary allotted is to the same conclusion of the urgent need of the proposed reform.

Item 6, (page 83.) Clerk-hire for the legation at London, \$1,200.

The ever-increasing work of conducting our diplomatic correspondence with Great Britain, occasioned by the many new matters of discussion continually arising in consequence of our increased facility of intercourse in political and commercial matters, and the immense number of our countrymen having business in Great Britain, renders it necessary that our legation at London should be supplied with a more efficient clerical force; and, as the work is of a highly confidential character, the compensation should be sufficient to enable the Department to engage an intelligent American citizen for its performance. Hence, the request is made for \$1,200.

Item 7, (page 84.) Four secretaries of legation at large, at a salary of \$1,800 each, and a sum of \$2,000 for their expenses; in all, \$9,200.

The definition of duties given in the estimate indicates the reason for this suggestion. At many of the legations there is no secretary. When these missions are vacant, diplomatic representation is suspended. Even where there is a secretary a vacancy may occur, as was the case in Italy two years ago, when Mr. Astor's retirement and Mr. Pierrepont's death coincided. The suspension of diplomatic intercourse is inconvenient and frequently detrimental to the public service. The means of keeping up representation are at times irregular. In the Italian instance, just mentioned, the consular representative could not have been invested with diplomatic powers, because the Italian Government would not have recognized the dual function. In Persia, in the cases of the retirement of Mr. Benjamin and Mr. Winston, it has been twice found necessary to put our legation in the charge of the British minister at Teheran.

A secretary of legation at large, commissioned as suggested, could, in virtue of his diplomatic rank, take charge *ex-officio* of any vacant legation on being detailed for such service. It is proposed to so distribute the four secretaries at large that they can proceed to a vacant post without delay, and with but little expense. When not detailed as temporary *chargés*, they could serve, under designation, at any post where their services might be required, either at a mission not provided with a stated secretary, or at any mission so provided, where unforeseen emergencies might require temporary aid. By so detailing two of these secretaries at large in Europe, one in South America, and one in the East, they would be within reach in case of emergency, to replace a sick or absent secretary of legation or head of a mission, as the case might be.

It is thought that the appointment of secretaries of legations at large would be of greater convenience, and far less expensive, than the appointment of a secretary at each legation now unprovided for.

Item 8, (page 84.) Interpreter to the legation and consulate-general at Bangkok, Siam: Appropriated, \$500; additional submitted, \$300—\$800.

The increase from \$500 to \$800 is recommended because of the difficulty of securing competent and honest service for less compensation. The interpreter is the only means of local communication the minister possesses. It is indispensable that he be intelligent and trustworthy. It would be better if the allowance for interpreters at all eastern missions were sufficient to enable the Government to get rid of the necessity of employing natives of the country. They are always more or less under native influence. A venal interpreter has ample opportunity to benefit himself far more than a meagre stipend allows, and hence the payment of adequate salaries commanding efficient and trustworthy service is essential as a safeguard.

These considerations apply to all the consulates in eastern countries, and especially those in China.

Item 9, (page 84.) Buildings for legation in Japan, \$25,000.

The offer by Japan to the United States of a commodious plat of ground for building a legation thereon has been repeatedly brought to the attention of Congress. The scarcity of habitable dwellings or premises for a legation in Japan subjects our Government to the necessity of renting from but one owner, upon such terms as he may dictate. Rent has been paid for the past ten years at the rate of \$3,400 per annum. Argumentation seems, therefore, unnecessary to prove that the true interests of economy, as well as dignity and convenience, would be subserved by granting the appropriation asked for. Similar reasons to those which actuated Congress last year in providing for the purchase of legation premises in Corea, apply for similar purposes in Japan.

Item 10, (page 85.) Repairing legation premises at Bangkok, Siam, \$3,000.

Congress has been heretofore informed of the circumstances under which the legation premises were presented to this Government by that of Siam in 1884. A small allowance for repairs to mend the roof, &c., has been made by the Department from the contingent fund, but it is deemed inexpedient to allow further outlay on account of repairs until Congress shall in some way have recognized the gift. There is a precedent for such recognition in the case of the acceptance of the consular premises at Tangier, presented to the United States by the Sultan of Morocco in 1822, and in appropriations for repairs heretofore made.

It should be stated that, while the ownership of the building at Bangkok passes to the United States forever, a small ground-rent, or payment in the nature of ground-rent, is reserved. This amounts to but \$80 annually, and no appropriation is needed to meet it, as such a trifling sum may be comprised with the contingencies of the legation.

Item 11, (page 85.) Rescuing shipwrecked American seamen: Appropriated, \$4,000; additional submitted, \$500—\$4,500.

For many years past the annual appropriation to enable this Government to suitably acknowledge the services rendered by masters and crews of foreign vessels in rescuing American seamen and citizens from shipwreck has been \$4,500. Last year, however, an exception was made to the usual course, and the appropriation was reduced to \$4,000. The reasons for a reduction of this appropriation, in view of the increase of ocean traffic and travel, and the consequent increase of the danger of shipwreck, is not apparent. The object of the appropriation is so meritorious and its international purposes are of such a nature that it would be derogatory to our commercial prestige and dignity to be unable to accomplish its objects through lack of funds. Hence it is recommended that the appropriation for 1888 be made equal at least to each of the appropriations for 1882, 1883, 1884, 1885, and 1886, viz., \$4,500.

Item 12, (page 85.) Expenses under the neutrality act: Appropriated, \$15,000; additional submitted, \$10,000—\$25,000.

The purposes to which this appropriation is applied are varied, incapable of precise definition, and dependent on emergencies and on the discretion of the President alone. It has been drawn upon largely within a few years past to meet expenses incurred in watching and frustrating the movements of Haytian and Cuban insurgents, believed to be violating the neutrality laws of the United States, and also supposed conspirators against the peace of other friendly nations.

The amount of the appropriation is rarely wholly expended. Often a considerable balance remains to be covered into the Treasury. But it is easy to see that emergencies involving, perhaps, issues of peace or war with some friendly nation, might call for extensive outlays of money, and in the event of such emergencies there ought certainly to be at the President's disposal a sufficient sum ready for use. It is against the unexpected that foresight should provide. It is thought, therefore, that the appropriation should be increased at least to \$25,000.

Item 13, (page 85.) International boundary survey, United States and Mexico, \$100,000.

Congress appropriated year before last \$100,000 to inaugurate the resurvey contemplated by the treaty with Mexico of July 29, 1882. The work has not yet been begun, but will probably commence soon. The amount necessary to be expended will largely exceed the sum now available, and in an important international work like this it would be highly inexpedient to permit operations to be interrupted for want of funds. The total cost of the resurvey to the United States (being its moiety of the joint expense) will probably not exceed \$250,000.

Item 14, (page 86.) Alaska boundary, expense of a preliminary survey, \$100,000.

The objects of the proposed survey are fully explained in the President's message of May 17, 1886, (Senate Ex. Doc. 143, 49th Cong., 1st Sess.,) and the documents thereto annexed, which have been printed in pursuance of the Senate's resolution of July 26. The necessity for the demarcation of the boundary line, and the fact that our proposals for its preliminary survey have been accepted by the British Government, are the reasons why the appropriation is desired.

Item 15, (page 86.) Venezuelan and American Claims Commission, \$13,500.

This appropriation is asked for because of our obligation under the treaty of December 5, 1885, which met the approval of the Senate of the United States on the 15th April last.

Advice of its ratification by the Government of Venezuela is expected daily.

The rates of compensation have been fixed as low as possibly consistent with the obtainment of efficient service.

Item 16, (page 86.) Haytian Arbitration Commission, \$4,077.44.

The object of this appropriation is to provide for the payment of this Government's share of the expense of printing, and of the amount of the arbitrator's compensation, in the matter of the arbitration of the claims of Antonio Pelletier and A. H. Lazare against the Government of Hayti, as provided for by protocols of agreement between the two Governments, which were concluded on May 24, 1884, and March 20, 1885.

In promotion of the principle and practice of amicable arbitration, these protocols were signed by my predecessor, the late Mr. Frelinghuysen, relying upon the willingness of Congress to pay our just share of the expense of an international tribunal.

The total expense of printing was \$3,154.87, and the compensation of the arbitrator was fixed at \$5,000, making in all \$8,154.87. One-half of this sum, viz., \$4,077.54, is payable by the United States, and is the amount of appropriation estimated for.

Respectfully submitted.

T. F. BAYARD.

## APPENDIX R.

### *Memorandum explanatory of requests for increased appropriations for Consular Service, pages 86 to 95.*

DEPARTMENT OF STATE, Washington, October 1, 1886.

#### SECTION I.

Item 1, (page 86.) *Kanagawa*—Consul-general: Appropriated, \$4,000; additional submitted, \$1,000.

The reasons for asking this increase are, the great importance of the place, the consul-general being a judicial officer having the most extended powers known to the law; the cost of transportation, which, for an ordinary family, out and back will be at least \$2,500; and finally that it should equal Shanghai and Calcutta.

Item 2, (page 86.) *Panama*—Consul-general: Appropriated, \$4,000; additional submitted, \$1,000.

Increase asked for in view of the vital importance of the location, particularly at the present time, when the entire world is giving so much attention to the subject of isthian transit, a question about which the United States, more than any other nation, should at all times be fully informed, which can only be accomplished by having the office filled by a man of unusual ability and judgment. Secondly, the dangers to and discomforts of life are exceptionally great upon the Isthmus of Panama. The commercial interests (shipping) of the United States to be protected at Panama are very large.

Item 3, (page 86.) *Halifax*—Consul-general: Appropriated, \$3,500; additional submitted, \$500.

This increase has been repeatedly asked for upon the ground of justice as compared with the salary at Montreal. It is now requested on that ground and because of its very great importance, as has been shown during the past year in the fisheries difficulties.

Item 4, (page 86.) *St. Petersburg*—Consul-general: Appropriated, \$3,000; additional submitted, \$1,000.

This increase is requested in view of the remoteness of the location and the great and unusual cost of living in the capital city of Russia.

Item 5, (page 86.) *Vienna*—Consul-general: Appropriated, \$3,000; additional submitted, \$1,000.

Vienna, the capital of Austria, and the chief trade centre of that nation, is a place of great commercial value to the United States, and is and should always be filled with an officer of a high order of ability, and the pay of the office should equal that of offices of like grade in other capital cities of the world. Living in Vienna is far more expensive than in Washington.

Item 6, (page 86.) *Mexico City*—Consul-general: Appropriated, \$2,500; additional submitted, \$1,500.

Owing to the rapid increase of United States capital in Mexico, and the expense of living in the chief city of the Republic, the salary should be increased to the amount asked for, as has been previously requested.

Item 6½, (page 86.) *Ecuador*—Consul-general: Appropriated, \$3,000; additional submitted, \$1,000.

The consular officer in Ecuador is the sole representative of the United States in that Republic. Although not rated as a diplomatic officer, acts as such in all cases where the United States has occasion to communicate with the Ecuadorian Government. The trade is very considerable and rapidly increasing. The discomforts of life in Ecuador are very great.

Item 7, (page 86.) *Matamoros*—Consul-general: Appropriated, \$2,000; additional submitted, \$1,000.

This office has supervisory powers over the United States consular officers on the entire Rio Grande frontier and throughout the northern part of Mexico. Owing to the rapid extension of railroads from the United States into Mexico, the importance and labor of the consulate-general at Matamoros has increased at least one hundred per cent. within the last three years, and is still becoming more and more important. The increased salary is due to the office, and will greatly tend to improve the service.

Item 8, (page 86.) *Foo-Chow*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Item 9, (page 86.) *Hankow*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Item 10, (page 86.) *Canton*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Item 11, (page 86.) *Amoy*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Item 12, (page 86.) *Tien-Tsin*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Item 13, (page 86.) *Chin-Kiang*—Consul: Appropriated, \$3,500; additional submitted, \$500.

Items 8, 9, 10, 11, 12, and 13 refer to the chief consulates in China, which are located in those cities where the United States has its largest commercial interests in the East. Each of the officers in charge of the above-named consulates are vested with judicial functions of the highest character, the proper discharge of which requires men of special ability and fitness. The cost of transportation to and from the several places to the homes of the consuls in the United States is very great and attended with danger and privation; the consul is so far removed from his home that he soon loses his political and business relations, and when he returns to the United States he is compelled to begin life anew, in view of all which his compensation should be increased as recommended.

Item 14, (page 86.) *Manchester*—Consul: Appropriated, \$3,000; additional submitted, \$1,000.

Item 15, (page 87.) *Bradford*—Consul: Appropriated, \$3,000; additional submitted, \$1,000.

The reasons for asking for an increase under items 14 and 15 are identical, and are that these two places are the largest trade centres of the United Kingdom, exclusive of London and Liverpool. The labors and responsibilities of these officers are very great.

Item 16, (page 87.) *Antwerp*—Consul: Appropriated, \$2,500; additional submitted, \$1,500.

The port of Antwerp in its trade relations with the United States is second only to Liverpool in the whole of Europe, if not the world. It is one of the termini of several direct lines of steamships to New York and other United States ports, and is the centre of an immense trade with our country. It is visited by citizens of the United States bent on business or pleasure, in very great numbers. The duties of the consul are trying, delicate, and very important, and the salary should be in some degree in keeping with the magnitude of his duties.

Item 17, (page 87.) *Ningpo*—Consul: Appropriated, \$3,000; additional submitted, \$500.

This place, although not quite as important as some of the other China ports, is, like all others in the Empire, very expensive to reach and to return from, and should have all of the salary asked for.

Item 18, (page 87.) *Havre*—Consul: Appropriated, \$3,000; additional submitted, \$500.

This is the great commercial port of France, and is visited by double the number of American vessels that enter any other port in the Republic. The duties of the consul are onerous and difficult, particularly in the care and disposition of the large number of seamen which annually come upon him.

Item 19, (page 87.) *Buenos Ayres*.—Consul: Appropriated, \$2,500; additional submitted, \$1,000.

This is one of the most important trade centres in all of South America. Its trade with the United States is large and shows a steady and rapid increase. The present salary does not support the consul, owing to the very large demands made upon him by American traders and visitors.

Item 20, (page 87.) *Birmingham*—Consul: Appropriated, \$2,500; additional submitted, \$500.

This is one of the largest manufacturing towns in the world, and has a very large direct trade with the United States. The duties of the consul are very important. At present the consul at Birmingham has an agency at Kidderminster, from which he derives \$800 per annum, but under the law of July 1, 1886, that office has been included in the estimates, and will become independent, and thus reduce the compensation of the consul \$800. To, in part, make good that reduction, this additional sum is asked.

Item 21, (page 87.) *Nottingham*—Consul: Appropriated, \$2,500; additional submitted, \$500.

The case of Nottingham is identical in every respect with that of Birmingham, and is made so by raising the agency at Leicester to an independent office.

Item 22, (page 87.) *Cape Town*—Consulate: Appropriated, \$1,500; additional submitted, \$1,500.

This is the great seaport of South Africa, and is of much importance, in a commercial way, to the United States. The trade with this country is mostly direct, and is rapidly increasing. The port is visited by all United States naval vessels on that station for the purpose of obtaining supplies and refitting. It is also visited by more of our merchant marine than are to be found in all of the other ports of that part of the world combined. The cost of going to and returning from Cape Town is excessive, and the discomforts of life are great in that locality.

Item 23, (page 87.) *Bremen*—Consul: Appropriated, \$2,500; additional submitted, \$500.

This is one of the great seaports of Germany, and is the foreign terminus of numerous steamship lines plying between United States and German ports. The export and import trade with the United States is very large. Under the act of July 1, 1886, the agency at Geestemunde is made a consulate, and thereby reduces the compensation of the consul at Bremen \$800 per annum, and for this reason the increase is asked.

Item 23½, (page 87.) *Chemnitz*—Consul: Appropriated, \$2,000; additional submitted, \$1,000.

The agency at Glachau has, under the act of July 1, 1886, been estimated for as an independent office, which, when established, will reduce the compensation of the consul at Chemnitz \$1,000 per annum. The fees collected at Chemnitz for official services amount to nearly \$19,000 per annum, which sum is only exceeded by two consulates in the entire service—Liverpool, with a salary of \$6,000, and Bradford, with a salary of \$3,000, to which an additional \$500 has been estimated for.

Item 24, (page 87.) *Smyrna*—Consul: Appropriated, \$2,500; additional submitted, \$500.

This is the most important United States consulate in the Turkish Dominions. The consul is vested with judicial powers, the same as in China and other non-Christian countries, where the salaries range much higher. The place is unhealthy and very expensive, and the salary asked for is very moderate.

Item 25, (page 87.) *Pernambuco*—Consul: Appropriated, 2,000; additional submitted, 1,000.

This is a large and important seaport of Brazil, and has a very extensive direct trade with the United States. It is visited by a large number of American vessels annually. Like nearly all South American ports, it is expensive and unhealthy.

Item 26, (page 87.) *Montevideo*—Consulate: Appropriated, \$2,000; additional submitted, \$1,000.

This is an important seaport on the South Atlantic coast of South America; has a population of about 100,000, and has a large trade with the United States; is difficult to reach, is quite unhealthy, being much troubled with yellow-fever, and is a very expensive place of residence.

Item 27, (page 88.) *Apia*—Consulate: Appropriated, \$2,000; additional submitted, \$1,000.

Apia is the principal island of the Samoan or Friendly and Navigators' Islands. It has a large and profitable trade with San Francisco, which is increasing. The consul is vested with judicial functions. The place is of much political importance to the United States, and should be filled with a man of marked ability, to obtain which the present salary is entirely inadequate.

Item 28, (page 88.) *Leeds*—Consul: Appropriated, 2,000; additional submitted, 500.

This place is the centre of a very extensive industrial district, and has a very large trade with the United States. The official fees collected amount to about \$4,000 per annum. Under the act of July 1, 1886, the agency at Huddersfield is to be raised to a consulate, thereby reducing the compensation of the consul at Leeds \$1,000 per annum. The increase in salary asked for is to, in part, make good that loss, and will not take any money out of the Treasury, for the reason that, under the existing law, the agent at Huddersfield is allowed to retain \$1,000 as compensation while the consul at Leeds retains a like sum from the Huddersfield fees as payment for his supervision of the agency. In these estimates Huddersfield is provided with a salary of \$1,500, while \$500 is added to the salary of the consul at Leeds, thus consuming the \$2,000, as is done under the present law.

Item 29, (page 88.) *Hamilton*—Consul: Appropriated, \$2,000; additional submitted, \$500.

This is an important trade centre in Ontario. By the raising of the agency at Paris, Ontario, as is required by the act of July 1, 1886, the consul at Hamilton loses \$1,000 per annum.

Item 30, (page 88.) *Cardiff*—Consulate: Appropriated, \$2,000; additional submitted, \$500.

The direct trade between this port and the United States is not very great, but it is very important to United States shipping. The usual number of seamen shipped and discharged there is at least 600 per annum. The raising of the agency at Swansea to a consulate, under the act of July 1, 1886, has the same effect as in the case of Leeds. (See Item 28.)

Item 31, (page 88.) *Newcastle-on-Tyne*—Consul: Appropriated, \$1,500; additional submitted, \$1,000.

The port of Newcastle is of much importance to United States shipping, being about equal to Cardiff in that line, and having at least four times the amount of direct trade with the United States as Cardiff, and is far less desirable as a place of residence.

Item 32, (page 88.) *Nuremberg*—Consul: Appropriated, \$2,000; additional submitted, \$500.

This place has a large direct trade with the United States. The official fees collected are nearly \$5,000 per annum. The raising of the agency at Fürth to a consulate, under act of July 1, 1886, cuts off \$1,000 per annum from the compensation of the consul at Nuremberg; hence the request for \$500 additional.

Item 33, (page 88.) *Orefeld*—Consul: Appropriated, \$2,000; additional submitted, \$500.

This is a place of great commercial value to the United States. The exports are very large. The official fees collected average about \$7,500 per annum. The importance of the office demands the increase asked for.

Item 34, (page 88.) *Leipsic*—Consul: Appropriated, \$2,000; additional submitted, \$500.

The population of Leipsic is more than 250,000. The city is a great commercial centre, and has a very large direct trade with the United States. The official fees collected amount to about \$6,000 per annum. Very many American students are in attendance at the University of Leipsic each year, and are naturally a source of much care and labor to the consul.

Item 35, (page 88.) *Aix la Chapelle*—Consul: Appropriated, \$1,500; additional submitted, \$1,000.

This is a very important place in its trade relations with the United States. It is the most expensive place to live in in all Germany. German soldiers quartered there are allowed double commutation for quarters and board. The official fees collected amount to about \$3,000 per annum. The agency at Burtscheid has been abolished, at the request of the consul, in order that the consul might be able to control and prevent certain evil practices of shippers within his district. The work heretofore done at Burtscheid will in future be done at Aix la Chapelle. The increase asked for will not entail any additional expense to the Treasury, for the reason that the fees collected at Burtscheid were retained by the agent and the consul. The increase asked for is about the same as the fees collected at the agency.

Item 36, (page 88.) *Rotterdam*—Consul: Appropriated, \$2,000; additional submitted, \$500.

A very important port of the Netherlands, having very intimate and extensive trade relations with the United States. Direct lines of steamships and sailing-vessels connect Rotterdam with New York, Boston, and Baltimore. The port is visited annually by a large number of American vessels and American business men and tourists. It is proposed to abolish the agency at Schiedam, now under Rotterdam, from which place the consul receives about \$1,000 and the agent about \$800 per annum. If the increase asked for at Rotterdam be granted, it will result in a saving to the United States of \$1,000 per annum.

Item 37, (page 88.) *Amsterdam*—Consulate: Appropriated, \$1,500; additional submitted, \$1,000.

This is a very important port, and point of trade with the United States. The exports to the United States are very large and rapidly increasing. The official fees collected amount to about \$3,500 per annum. The growing importance of the place to the United States commercially renders the raising of the grade of the consulate proper and necessary.

Item 38, (page 88.) *Tamatave*—Consul: Appropriated, \$2,000; additional submitted, \$500.

Tamatave is the chief port of the Island of Madagascar, and is of much commercial value to the United States. The official fees collected are not large in amount, but generally each fee of \$2.50 represents an entire ship's cargo, and of great value. The import trade direct from the United States is very valuable, and will promptly increase when the country becomes tranquil. The consul is not vested with diplomatic functions, yet he is the only medium of communication between the United States Government and that of Madagascar. The delicate and important nature of the duties of the office require a man of marked ability to properly perform them, who should be given a living salary. The dangers and discomforts of life in Madagascar are very great.

Item 39, (page 88.) *Paso del Norte*—Consulate: Appropriated, \$1,500; additional submitted, \$1,000.

The rapidly-increasing importance of this place can hardly be overstated. It is the most important border city on the Rio Grande frontier, and is rapidly growing more so. The extension of railroads from the United States into Mexico at this point insures its steady increase in population and the enlargement of its trade. The present salary is entirely inadequate.

Item 40, (page 88.) *Odessa*—Consul: Appropriated, \$2,000; additional submitted, \$500.

This is the principal port of Russia on the Black Sea, and has an extensive trade, exporting large quantities of wool to the United States. The cost of living in Odessa, as in all cities of Russia, is exceptionally great, while the discomforts of life there are very considerable, indeed.

Item 41, (page 89.) *Maracaibo*—Consul: Appropriated, \$2,500; additional submitted, \$500.

The principal seaport of Venezuela. Its trade is very extensive and varied. The official fees collected amount to about \$4,000 per annum. The duties of the consul are more important than those of any other consular officer in the Republic, while cost of living is nearly double that of any other city in Venezuela. The climate is pestilent in the extreme. The increase asked for is an absolute necessity.

Item 42, (page 89.) *Transvaal Republic*—Consul to: Submitted, \$2,500.

Item 43, (page 89.) *Orange Free State*—Consul to: Submitted, \$2,500.

The reasons for asking for the establishment of consulates under Items Nos. 42 and 43 are nearly identical, and are as follows: The Transvaal Republic is by all means the richest and most valuable as an inviting market for American goods of all of the South African States. There are at present large numbers of United States citizens within its borders, and more are constantly going thither. Many complaints have been made because we have no consular representative in the Republic. It should be stated that as yet we have no treaty with the Transvaal, but steps are now being taken looking to the conclusion of such an instrument. In the absence of a consular representative of the United States in the Transvaal, tariff legislation adverse to the interests of the United States has been enacted, and will continue until we are properly represented there, which cannot be until the appropriation asked for has been made.

The United States has a very favorable treaty with the Orange Free State, and will send a consular representative there so soon as Congress shall provide a suitable salary for such an officer.

Item 44, (page 89.) *Quebec*—Consul: Appropriated, \$1,500; additional submitted, \$500.

The trade between Quebec and the United States is not very great, but the place is expensive as a residence, and especially so to a United States consul, in consequence of the large number of American tourists that visit the city each year. The reason for asking for the increase of salary is, that under the law of July 1, 1886, the agency at Point Levi is to be raised to a consulate, which, if done, will reduce the income of the consul at Quebec \$1,000 per annum.

Item 45, (page 89.) *Cadiz*—Consulate: Appropriated; \$1,500; additional submitted, \$500.

This port is the second in importance in Spain, and has a large direct trade with the United States. Under the act of July 1, 1886, the agency at *Jerez de la Frontera* is to be raised to a consulate, which will reduce the income of the consul at Cadiz about \$1,000 per annum. The increase asked for is to, in a measure, make good that loss.

Item 46, (page 89.) *Para*—Consul: Appropriated, \$1,500; additional submitted, \$500.

Item 47, (page 89.) *Bahia*—Consul: Appropriated, \$1,500; additional submitted, \$500.

The reasons for asking for an increase under Items 46 and 47 are identical. Para and Bahia are large and important seaports of Brazil; each has a large and increasing direct trade with the United States. The trade of these ports consists of imports as well as exports, and should be fostered. The present salaries are manifestly inadequate, when the cost of living, the unhealthy character of the climate, and the commercial importance of the places are considered.

Item 48, (page 89.) *Nice*—Consul: Appropriated, \$1,500; additional submitted, \$500.

The trade at this port is only moderate, but the place is the winter resort of large numbers of Americans, and is in the immediate vicinity of the headquarters of the American naval fleet. These two things greatly increase the expenses and labors of the consul. It is impossible for the consul to live upon the present salary and properly represent his country, hence the increase is asked for.

## SECTION II.

Item 1, (page 90.) *Gaspé Basin*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 2, (page 90.) *Windsor, Nova Scotia*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 3, (page 90.) *Bombay*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 4, (page 90.) *Sierra Leone*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 5, (page 90.) *Turk's Island*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 6, (page 90.) *Stettin*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 7, (page 90.) *Ghent*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 8, (page 90.) *Nantes*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 9, (page 90.) *Algiers*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 10, (page 90.) *Venice*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 11, (page 90.) *Cape Haytien*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 12, (page 90.) *Batavia*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 13, (page 90.) *Rio Grande do Sul*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 14, (page 90.) *Ruatan and Truxillo*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 15, (page 90.) *Mozambique*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 16, (page 90.) *Guaymas*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 17, (page 90.) *Nuevo Laredo*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 18, (page 90.) *Piedras Negras*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 19, (page 91.) *Zanzibar*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 20, (page 91.) *Santiago, Cape Verde Islands*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

Item 21, (page 91.) *Tahiti*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

- Item 22, (page 91.) *Christiania*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.  
 Item 23, (page 91.) *Talcahuano*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.  
 Item 24, (page 91.) *Saint Paul de Loando*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.  
 Item 25, (page 91.) *Levuka*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.  
 Item 26, (page 91.) *Gaboon*—Consul: Appropriated, \$1,000; additional submitted, \$1,000.

The items mentioned in Section II, from Items 1 to 26, inclusive, are those consular offices now regularly appropriated for at the rate of \$1,000 per annum each, with permission to the holders of such offices to engage in trade. It will be seen that if the salaries asked for be allowed, all of the offices included in this section will be removed from the trading class, and it is very desirable that they should be so removed. It is considered that the privilege of trading should be, and is, worth at least \$1,000 per annum to the holder of the office, but experience has shown that the interests of the United States, and of such persons as are engaged in trade with this country, who are *not* consular officers, will be much better protected by restricting the trading consuls to the very lowest number practicable, which end is sought to be attained by the foregoing recommendations. It is very desirable that all of the offices above named be raised to \$2,000 per annum; but if this is not done, it is deemed of special importance that the consulates at Piedras Negras, (Mexico,) Item 18, and Talcahuano, (Chili,) Item 23, be each increased at least \$1,000.

The office at Piedras Negras, situated as it is on the Rio Grande frontier, where our new railroads are being pushed into Mexico, taking with them immense amounts of American capital and large numbers of our citizens, has suddenly attained great importance, and should be filled by an able officer, who is restricted from trade.

The office at Talcahuano is by far the most important consulate on the Pacific coast of South America, exclusive of Panama. It is the great resort of whalers, and the number of seamen shipped, discharged, and relieved is very large indeed. The vessels visit this port to transship oil, bone, &c., and to refit. The amount of money expended by whalers in this port is very large, and the interests of the owners of such vessels demand that the consul there should be prohibited from engaging in trade. It is impossible to secure the services of a suitable person at the present salary if the trading privilege is withheld.

### SECTION III.

#### *Explanatory memorandum as to feed offices, estimated for as required by act of July 1, 1886.*

It should be remembered that under existing law all of the consular officers at the places named in this section are permitted to engage in trade, and, as a matter of fact, they are so engaged. It will be observed that in every case the estimate herewith submitted places the salary at \$1,500 or upwards, thus placing these officers in the non-trading class. An examination of the figures in the special schedule, to which this memorandum refers, will disclose the fact that forty-eight out of the seventy-one places estimated for collect each year official fees greater in amount than the salary asked for. If this fact be considered in connection with the additional fact that the salaries asked for will preclude all chance of engaging in trade, (supposed to be worth at least \$1,000 per annum in each case,) it will be seen that the estimates are modest indeed. Should the salaries asked for herein be allowed, it will enable the President to fill each of the offices with a citizen of the United States in place of a foreigner, as is now the case in many instances, which reform will be of much value to the service. Special mention is below made of those places where a salary greater than the fees collected is asked for.

#### AUSTRIA.

- Item 1, (page 92.) *Reichenberg*—Commercial agent: Submitted, \$2,500.  
 The fees collected here amount to \$4,123. The salary asked will be a saving to the Treasury.

- Item 2, (page 92.) *Brunn*—Consul: Submitted, \$1,500.  
 Fees collected, \$1,085, which are retained by the agent and his principal. The agent has the right to trade. It is desirable that that right be denied, hence the submission.

#### ARGENTINE REPUBLIC.

- Item 3, (page 92.) *Rosario*—Consul: Submitted, \$1,500.  
 The compensation of the consul at this port last year was \$1,412, and was derived from invoice certificates, \$592; and for services to American vessels, \$820; which last amount was paid to the consul direct from the Treasury, as provided for by the act of June 26, 1884. This consul has the right to engage in trade, and is so engaged, and, owing to his position, enjoys a substantial monopoly, to the serious injury of others who desire to trade with the United States.

#### BELGIUM.

- Item 4, (page 92.) *Charleroi*—Consul: Submitted, \$2,000.  
 The sum asked for is less than the amount annually collected and retained by the agent and his principal.

#### BRAZIL.

- Item 5, (page 92.) *Santos*—Consul: Submitted, \$2,500.  
 The sum asked for here is about \$400 more than the fees collected, but it is desired that the place be transferred to the non-trading class; and in view of that fact, and the cost of living, and the deadly nature of the climate, the above sum is submitted.

#### COLOMBIA.

- Item 6, (page 92.) *Barranquilla*—Consul: Submitted, \$2,500.  
 This is less than the fees collected last year, and much less than will be collected in times of peace. The commercial interests of the United States require the presence of a salaried consul at this port at all times. The position is of very great political importance to the United States when war prevails in Colombia.

Item 7, (page 92.) *Carthagera*—Consul: Submitted, \$1,500.

This is a trifle less than the annual compensation of the consul under existing law. The salary asked for is of the non-trading class.

## FRANCE.

Item 8, (page 92.) *Cognac*—Consul: Submitted, \$1,500.

This is considerably less than the official fees annually collected.

Item 9, (page 92.) *Limoges*—Consul: Submitted, \$1,500.

The amount asked for here is something more than \$400 in excess of the official fees collected; but it is desired that the office should be placed in the non-trading class and be filled by a citizen of the United States, to accomplish which the salary asked for is required.

Item 10, (page 92.) *Rouen*—Consul: Submitted, \$1,500.

This is an important trade centre of France, and the official fees collected there amount to considerable more than the salary asked for. The trade between Rouen and the United States is of such a character as to make it particularly desirable that the consul be restricted in that direction.

Item 11, (page 92.) *Rheims*—Consul: Submitted, \$2,000.

This is the great champagne district of France, and the salary asked for is about \$650 less than the amount of official fees annually collected.

Item 12, (page 92.) *Roubaix*—Consul: Submitted, \$1,500.

A manufacturing city with much trade with the United States. The salary asked for in this instance is a trifle more than the annual fees collected; but the salary asked for will put the office out of the trading class, and enable the President to secure the services of a citizen of the United States for the position.

Item 13, (page 92.) *St. Etienne*—Consul: Submitted, \$2,000.

The salary asked for here is about \$650 less than the official fees annually collected.

## GERMANY.

Item 14, (page 92.) *Annaberg*—Consul: Submitted, \$2,500.

The proposed salary at this place is \$5,450 less than the fees annually collected for official services.

Item 15, (page 92.) *Bremmerhaven, or Geestemunde*—Consul: Submitted, \$1,500.

The sum asked for in this case is about \$200 less than the amount annually collected for official services.

Item 16, (page 92.) *Breslau*—Consul: Submitted, \$1,500.

The salary proposed in this case is something more than \$300 less than the fees annually collected.

Item 17, (page 92.) *Brunswick*—Consul: Submitted, \$2,500.

The official fees collected at this place exceed the salary asked for by more than \$2,500 annually.

Item 18, (page 92.) *Glachau*—Consul: Submitted, \$2,000.

This place is an agency under Chemnitz, and enjoys the privilege. The proposed salary will place it out of the trading class, and require the appointment of a citizen of the United States. The fees annually collected amount to more than \$1,000 per annum in excess of the salary asked for.

Item 19, (page 92.) *Dusseldorf*—Consul: Submitted, \$2,500.

The salary asked for this place is several hundred dollars less than the amount collected annually for official services.

Item 20, (page 92.) *Eberfeld*—Consul: Submitted, \$1,500.

This place is estimated for as required by the act of July 1, 1886; but if Congress makes the appropriations herein asked for, it is proposed to close the office at Eberfeld and to transfer the business to the office at Barmen.

Item 21, (page 92.) *Kehl*—Consul: Submitted, \$2,000.

The sum asked for this place is less than the official fees collected each year, and will not be an expense to the Treasury.

Item 22, (page 92.) *Mayence*—Consul: Submitted, \$2,500.

The official fees collected at this place amount annually to more than \$2,000 in excess of the salary asked for.

Item 23, (page 92.) *Furth*—Consul: Submitted, \$2,000.

The fees collected at this place, which is an agency under Nuremberg, amount to about \$4,000 per annum. The salary proposed will place this office in the non-trading class, and will necessitate the appointment of a citizen of the United States in place of the alien who now holds the office.

Item 24, (page 92.) *Gera*—Consul: Submitted, \$1,500.

The official fees collected at this place exceed the salary asked for by nearly \$700 per annum. The proposed change will be no expense to the Treasury, and will make the office non-trading, and will require the appointment of a citizen of the United States to fill it.

## BRITISH DOMINIONS.

Item 25, (page 92.) *Belize*—Consul: Submitted, \$2,000.

This place is of considerable commercial value, especially to American vessels, but its political importance to the United States renders it very desirable that the office should be filled by an able officer, one not engaged in trade and a citizen of the United States. The climate is an exceedingly trying one, and a less salary than that asked would be too small to attract a suitable person for the position.

Item 26, (page 92.) *Bellville*—Consul: Submitted, \$1,500.

The salary requested for this place is less than the fees collected for official services each year.

Item 27, (page 92.) *Kidderminster*—Consul: Submitted, \$1,500.

This place is an agency under Birmingham, and is filled by an alien. The agent has the right to trade. The salary asked for will cut off that privilege, and is less than the fees annually collected for official services.

Item 28, (page 93.) *Swansea*—Consul: Submitted, \$1,500.

This place is an agency under Cardiff, and, like all agencies, is permitted to trade. The salary asked for is about \$450 greater than the amount of fees collected; but when all of the business which properly belongs to Swansea is done there, the official fees will be much more than \$1,500 per annum. It is especially desirable that this office be filled by a citizen of the United States, without the trading privilege.

Item 29, (page 92.) *Chatham*—Consul: Submitted, \$2,000.

The fees collected at this place for official services amount annually to about \$1,000 more than the salary asked for. With a salary of \$2,000, the consul will be denied the right to trade.

Item 30, (page 92.) *Paris, Canada*—Consul: Submitted, \$1,500.

The salary asked for at this place is about \$200 more than the annual official fees collected. The salary asked for places the office in the non-trading list.

Item, 31, (page 92.) *Coaticook*—Consul: Submitted, \$1,500.

The official fees collected at this place are about \$800 less than the salary asked for, but the consul's share of the agency fees makes his compensation about the same as the proposed salary. It is desirable that this office should be denied the right to trade.

Item 32, (page 92.) *Collingwood*—Consul: Submitted, \$1,500.

This office is similar to that at Coaticook, only that is more valuable to the holder, as the compensation of the consul under existing law is at least \$1,800 per annum.

Item 33, (page 92.) *Dunfermline*—Consul: Submitted, \$2,500.

The change proposed here will result in a clear saving to the Treasury, as the official fees collected amount to considerable more than \$3,000 per annum, and, besides, it is of very great importance that this office, located as it is, in the very heart of the Scotch linen district, should be placed in the non-trading list of consulates.

Item 34, (page 93.) *Stratford*—Consul: Submitted, \$2,000.

This is the most important agency in Canada; the official fees collected amount to over \$3,000 per annum. The proposed change will place the office in the non-trading list, and will be no additional cost to the Treasury, as under existing law the agent retains \$1,000, and a like amount is retained by his principal, the consul at Goderich.

Item 35, (page 92.) *Guelph*—Consul: Submitted, \$1,500.

The salary proposed in this case will result in a clear saving to the Treasury, as the official fees collected amount to \$2,850 per annum. The salary asked for will place the office in the non-trading list.

Item 36, (page 92.) *Hull*—Consul: Submitted, \$2,500.

The salary asked for in this case is about \$1,000 greater than the official fees collected, but is as small as can be given if the best interests of the service are to be considered. The place is the most undesirable one in all of the United Kingdom as a place of residence, and, owing to the small compensation of the office, it has been found impossible to obtain the services of a suitable person as consul for many years past. Great irregularities have been practised there, owing to the consul's acting as a factor in matters relating to shipping and seamen, with which the port abounds. The proposed salary will secure the services of a suitable officer, and will exclude the office from the trading class.

Item 37, (page 92.) *Huddersfield*—Consul: Submitted, \$1,500.

This is the largest agency in England, collecting in official fees nearly \$5,000 per annum. The proposed salary will not increase the expense of the service, for the reason that under existing law the agent retains \$1,000, while his principal at Leeds also retains \$1,000. The agent now has the right to trade. The salary proposed cuts off that privilege.

Item 38, (page 93.) *St. Helen's*—Consul: Submitted, \$1,500.

This is an important agency under Liverpool, and collects in official fees over \$2,150 per annum. The salary asked for will be a saving to the Treasury; will place the office in the non-trading class, and will require the appointment of a citizen of the United States in place of the alien who now holds the position of agent.

Item 39, (page 92.) *Morrisburg*—Consul: Submitted, \$1,500.

The salary asked for in this case is about \$400 in excess of the amount of fees collected for official services, but will prohibit the consul from trading, and in that respect is very desirable.

Item 40, (page 92.) *Leicester*—Consul: Submitted, \$1,500.

This is an important agency under Nottingham, and is filled by an alien. The salary asked for is less than the official fees collected, and will require the appointment of an American, who will be restricted from trading.

Item 41, (page 92.) *Port Hope*—Consul: Submitted, \$1,500.

The salary asked for in this case is less than the official fees collected, and will be no additional expense to the Government, and will prevent the officer from engaging in trade.

Item 42, (page 92.) *Port Rowan*—Consul: Submitted, \$1,500.

The case of this office is the same as at Port Hope; the fees are greater than the salary asked for. The office will not be continued in the trading class if the salary asked for is appropriated.

Item 42½, (page 93.) *St. Christopher*—Consul: Submitted, \$1,500.

The salary asked for at this place is about \$350 more than the annual official fees collected. The salary asked for places the office in the non-trading list.

Item 43, (page 92.) *London, Canada*—Consul: Submitted, \$2,000.

The official fees collected at this place are greater than the salary asked for. The proposed change will result in a saving to the Treasury, and will prohibit trading by the consul.

Item 44, (page 92.) *Port Stanley and St. Thomas, Canada*—Consul: Submitted, \$2,000.

The salary asked for in this place is less by more than \$1,000 than the official fees collected, and will be a saving to the Treasury of that amount each year, besides prohibiting trade by the consul.

Item 45, (page 92.) *Brockville*—Consul: Submitted, \$2,000.

The official fees collected at this place are about the same as the salary requested, but are increasing rapidly, and will soon be much in excess of the proposed appropriation, which, if made, will make the place non-trading.

Item 46, (page 92.) *Point Levi*—Consul: Submitted, \$1,500.

This place is now a trading agency under Quebec. The salary asked for will be a saving to the Treasury, and will require the appointment of a citizen of the United States, without trade privileges.

Item 47, (page 92.) *Sherbrooke*—Consul: Submitted, \$2,000.

This is a trading consulate. If the salary asked for be granted, trading will be prohibited, and the saving to the Treasury will exceed \$1,000 per annum.

Item 48, (page 92.) *Sorel*—Consul: Submitted, \$1,500.

The salary asked for this place is about equal to the fees annually collected for official services, and will place the office in the non-trading class.

Item 49, (page 93.) *St. Hyacinthe*—Consul: Submitted, \$1,500.

The salary requested for this office is less than the official fees collected, and will prohibit trade.

Item 50, (page 93.) *Trinidad*—Consul: Submitted, \$2,000.

This is a trading consulate. The salary proposed will be a saving of more than \$500 per annum to the Treasury, and will prohibit trading.

Item 51, (page 92.) *Farnham*—Consul: Submitted, \$1,500.

This office is a trading agency under St. John's, Quebec. The official fees collected are about \$400 less than the salary proposed, but the business of the office is rapidly increasing, and will soon show receipts in excess of the sum asked for. It is desirable that the office be placed in the non-trading list.

Item 52, (page 93.) *Stanbridge*—Consul: Submitted, \$1,500.

The official fees collected at this place are less than the salary proposed, but the agencies under this office makes the compensation of the consul exceed \$1,500 per annum.

Item 53, (page 92.) *Newcastle, New South Wales*—Consul: Submitted, \$1,500.

This is a trading agency under Sydney. The official fees collected exceed by several hundred dollars per annum the salary proposed. It is very desirable that this office be filled by a citizen of the United States, and that trading be prohibited.

Item 54, (page 93.) *Three Rivers*—Consul: Submitted, \$1,500.

The proposed salary for this place is less by some \$800 than the official fees annually collected. The salary will prohibit trading by the consul.

Item 55, (page 93.) *Wallaceburg*—Consul: Submitted, \$1,500.

The salary proposed for this office will be a clear saving to the Treasury of at least \$500 per annum, and will prohibit trade by the consul.

Item 56, (page 93.) *Woodstock*—Consul: Submitted, \$1,500.

The official fees collected at this office are about the same as the proposed salary. If the appropriation be made, trading by the consul will be prohibited.

#### ITALY.

Item 57, (page 93.) *Castellamare*—Consul: Submitted, \$1,500.

The salary asked for this place is about \$200 less than the official fees annually collected, and will prohibit trading by the consul.

Item 58, (page 93.) *Catania*—Consul: Submitted, \$1,500.

The proposed salary for this office is less than the annual collection of official fees, and is in the non-trading class.

#### MEXICO.

Item 59, (page 93.) *Merida*—Consul: Submitted, \$1,500.

The official fees collected at this place are about equal to the proposed salary. The consul's share of the fees collected by his agents makes his compensation greater than the salary asked for.

#### NETHERLANDS.

Item 60, (page 93.) *Curaçoa*—Consul: Submitted, \$2,000.

The salary asked for in this case is less than the official fees now collected and retained by the consul, who also has the trading privilege, which will be cut off if the appropriation asked for be made.

#### RUSSIA.

Item 61, (page 93.) *Moscow*—Consul: Submitted, \$1,500.

This office is now in the hands of an alien. The official fees amount to about \$1,200 per annum. It is desirable that the United States should have one of its citizens in this office, and that the consulate be placed in the non-trading class.

## SPAIN.

Item 62, (page 93.) *Baracoa*—Consul: Submitted, \$2,500.

The official fees collected at this port exceed by more than \$200 per annum the salary now proposed. It is exceedingly important that this office be placed in the non-trading class.

Item 63, (page 93.) *Jerez de la Frontera*—Consul: Submitted, 1,500.

This is the most important agency in Spain. It is under the consul at Cadiz, and collects about \$1,400 per annum in official fees. It is desirable that the right to trade be taken from this office.

Item 64, (page 93.) *Cardenas*—Consul: Submitted, \$2,500.

The official fees collected at this port exceed \$3,750 per annum. Giving the salary asked will result in a large saving to the Government.

Item 65, (page 93.) *Mayaguez*—Consul: Submitted, 1,500.

This is an office of considerable importance in Porto Rico. The official fees collected average about \$1,000 per annum. The salary named will insure the appointment of a citizen of the United States, and make the office non-trading.

Item 66, (page 93.) *San Juan de los Remedios*—Consul: Submitted, \$1,500.

The official fees collected at this port average about \$1,200 per annum. The position should be filled by a citizen of the United States not engaged in trade.

## SWEDEN AND NORWAY.

Item 67, (page 93.) *Gottenburg*—Consul: Submitted, \$1,500.

This is a very important city in Sweden and has considerable direct trade with the United States. The official fees average about \$1,400 per annum. It is desirable that this office be elevated by being placed in the non-trading class.

Item 68, (page 93.) *Stockholm*—Consul: Submitted, \$1,500.

This city is the capital of Sweden, where we have a minister resident, but we have no secretary of legation, and it is very desirable that the United States should have a salaried consul there, a citizen of the United States, who can take charge of the legation during the absence of the minister. The official fees collected at Stockholm average about \$1,250 per annum.

## SWITZERLAND.

Item 69, (page 93.) *Chaux de Fonds*—Consul: Submitted, \$1,500.

This is an important agency under Basle, and is filled by an alien engaged in trade. The official fees collected amount to about \$1,200 per annum. The salary proposed will secure the services of a non-trading United States citizen.

Item 70, (page 93.) *Horgen*—Consul: Submitted, \$2,000.

This is an important trading consulate. Official fees collected amount to about \$3,000 per annum. The proposed change will be a clear saving to the Treasury, and will place the office in the non-trading class, which is very important.

Item 71, (page 93.) *St. Galle*—Consul: Submitted, \$2,500.

This is by far the most important consular office of the United States in Switzerland. The official fees collected amount to about \$3,000 per annum. The office should at once be placed in the non-trading class.

## SECTION IV.

*Allowance for clerks at consulates.*

Item 1, (page 93.) *Havana*: Appropriated, \$1,600; additional submitted, \$400.

The sum of \$2,000 was formerly allowed to the consulate-general at Havana for clerk-hire, and was found to be barely sufficient to enable the consul-general to procure sufficient clerical aid to keep his office-work in such condition as the regulations require. Since the reduction it has been impossible to keep the current work of the office up except by the employment of additional help, which has been paid for by the consul-general out of his private funds. The office at Havana is peculiar, in that the duties of the consul-general are in a large degree *quasi* diplomatic. The expense of living and the discomforts and danger to life is as great as in the East.

Item 2, (page 93.) *Shanghai*: Appropriated, \$1,200; additional submitted, \$800.

The appropriation for clerk-hire at Shanghai was for years fixed at \$2,000, and was not too much. The office at this port is the most important we have in the East, and the demands for clerical aid are greater than in any other consulate in China or Japan. The labor connected with the consular post-office alone requires the almost continuous attention of one clerk. The restoration of the amount lately stricken from the allowance at this port is greatly needed and is most earnestly requested.

Item 3, (page 93.) *Antwerp*: Appropriated, \$800; additional submitted, \$700.

The need for clerical aid at Antwerp is second only to Liverpool of all the consulates in Europe. This port ranks next after Liverpool in direct shipping to the United States. It is wholly impossible for the consul to properly discharge the duties of his office with such help as he can procure for the sum now allowed his office for clerk-hire. As a matter of fact, he does not attempt to do it, but hires additional help at his own expense.

Item 4, (page 93.) *Maracaibo*: Submitted, \$800.

When this office was compensated by fees, the consul was allowed to retain for payment of clerks, \$1,000 per annum; but when the post was transferred to the non-trading class, with a fixed salary, no provision was made for clerk-hire. The Department has allowed the consul \$400 per year from the fund subject to the order of the Secretary of State for clerk-hire, and the consul has paid from his own funds a like amount, making, in all, \$800, the sum now asked for.

Item 4½, (page 93.) *Ecuador*: Submitted, \$800.

This office, although only a consulate general, has as much diplomatic duties as consular to perform, and as no secretary of legation is allowed, and as the consul-general must be in Quito at least half of the year, while the office at Guayaquil is at the same time kept open, it is indispensable that a clerk be provided.

Item 5, (page 93.) *Beirut*: Appropriated, \$480; additional submitted, \$160.

The peculiar nature of the duties of the consul at this port compels him to employ a clerk familiar with the dialects of the country and the habits of the people. Such a clerk cannot be obtained for less than the sum asked for, and which is now being paid, the \$160 being contributed by the consul from his private funds.

Item 6, (page 93.) *Piedras Negras*: Submitted, \$640.

This post, like all others on the Rio Grande frontier, has suddenly grown into importance, owing to the railroad extension from the United States into Mexico. Four hundred dollars is now allowed to this place from the fund for additional clerk-hire which is subject to the orders of the Secretary of State. It is desired that a specific appropriation be made as submitted, which sum is now being actually expended, the deficiency being made good by the consul.

Item 7, (page 93.) *Paso del Norte*: Submitted, \$640.

This post is, perhaps, to-day the most important consulate on the Rio Grande, and its trade with the United States is rapidly increasing. The present provision for clerk-hire is the same as at Piedras Negras, and the consul here, as at the last-mentioned office, is compelled to pay out his private funds for clerical aid.

Item 8, (page 94.) *Aix la Chapelle*: Submitted, \$640.

The situation at this consulate is identical with that at the two offices in Mexico just mentioned. The services of a fairly good clerk at Aix la Chapelle are an absolute necessity. The duties of the office cannot be performed without such help. It is believed that with the allowance asked for it will be possible for the consul to secure the services of some young American, who can also be made vice and deputy consul, thus putting the business of the office entirely in the hands of citizens of the United States.

Item 9, (page 94.) *Allowance for clerks at consulates*—to be expended, under the direction of the Secretary of State, at consulates not herein provided for, in respect to clerk-hire, &c.: Appropriated, \$10,000; additional submitted, \$10,000.

The utility of this appropriation can scarcely be overestimated. It is safe to say that every consulate, where there is any business at all, has need of a clerk. This need increases in strict proportion with the increase of business, as must be apparent to every one. The law makes no provision for the payment of a vice-consul, save as he is paid from the salary of the principal officer, and if it did, he could exercise no function of office while the consul was in the jurisdiction. The proper discharge of the duties of the consul's office requires frequently that he visit, in person, chambers of commerce, customs-houses, manufacturing establishments, offices of record where information may be obtained as to births, deaths, marriages, wills, &c., and in all such cases the consular office must be closed unless the consul has a clerk who can be left in temporary charge. In all maritime consulates this is particularly embarrassing, as the consul is frequently required to visit the shipping, (often at anchor several miles from his office,) and a single visit will require an entire day, during which time the office must be closed, to the serious inconvenience, and oftentimes considerable loss, to those desiring and having a right to the services of the consul, all of which is obviated when a clerk is supplied. The sum asked for will provide for fifty clerks, at \$400 each, but, as a matter of fact, it will afford relief to a much larger number of consuls than the above statement would seem to indicate, and for the reason that in apportioning the appropriation a sum much less than \$400 is allowed. In many instances less than one-half that amount is granted. The necessity for this special appropriation increases each year, owing to the increased demands for reports and information upon widely different subjects, but matters of interest and value to our citizens, which consuls are expected and required to comply with. Without this additional help, such demands must, in a large measure, be ignored.

Item 10, (page 94.) *Interpreters to Consulates in China and Japan*: Appropriated, \$12,000; additional submitted, \$3,000.

The service in the East has for a long time been embarrassed, in consequence of an insufficient allowance for interpreters. It is, of course, well known that consuls are absolutely compelled to employ interpreters when they hold any communication with the authorities or people of all of the non-Christian countries. The number of such employes is too limited, and the allowance too small for compensation. The additional sum asked for is greatly needed, and in fact is indispensable to the proper discharge of the duties of the several consulates in China and Japan.

Item 11, (page 94.) *Interpreters, Guards, &c., in Turkish Dominions*: Appropriated, \$4,000; additional submitted, \$1,000.

All that has been said as to interpreters in China and Japan applies with equal force in Turkey. This appropriation is divided between at least ten persons, and it will be seen at once that any sum less than \$5,000 would be quite inadequate. The allowance for Seoul, in Corea, under this head, is stricken out, as that place has been provided for in this respect in another way, and in its place Zanzibar has been substituted. Up to the present time the bills for interpretation at Zanzibar have been paid from the emergency appropriations. It is deemed proper and best that such items be provided for by specific appropriations.

Item 12, (page 94.) *Marshals for Consular Courts*: Appropriated, \$8,000; additional submitted, \$1,000.

There is no provision for a marshal's salary at the consulate at Chee Foo, and the consul there has been compelled to ask the British consul to loan the services of his marshal when such an officer was required by the consul of the United States. This has been done in the past quite frequently, but now the British consul expresses the hope that our consul will make other arrangements for the future, and, in order that this may be done, the additional appropriation named is required.

Item 13, (page 94.) *Salaries and expenses, Inspectors of Consulates*: Submitted, \$18,000.

The need of an efficient scheme of consular inspection has long been felt. It was adverted to by the President in his first annual message. The recital in the estimates shows the nature of the service to be performed. No consideration can well be superior to that of securing, by every possible means, an honest and efficient administration of the public business, abroad as well as at home. The detection and correction of abuses is at all times difficult, even when under the immediate eye of the Executive Departments, and it is practically impossible at distant posts where large public interests and revenues are administered, with no other safeguard than the integrity of the officer. Charges of abuses are continually arising in such cases. They may be unfounded and malevolent, or may be true. Their proper investigation is due, in the one case, to vindi-

cate the good fame of the incumbent; in the other, to protect the Government. Under a thorough system of inspection, the opportunity for abuses would be lessened. We now take a man from private life, and send him into complete isolation, thousands of miles away, and thenceforth know nothing of him or his doings except what he may choose to tell us of himself, or what his enemies may spread about him. If there be a consul-general in the country, a consul may be reached and controlled through that channel, but such inspections are never satisfactory; besides, it often happens that the consul-general, himself needs investigation. With no desire to impugn the general integrity of our service abroad, it is believed efficient inspection would save, in greater revenues collected and in diminished disbursements, much more than the cost of the proposed service, and greatly improve the standard of our consular representation. Each of the other Executive Departments have a large corps of inspectors constantly employed, and notwithstanding that their duties are almost entirely within the United States, where the delinquent official can be reached by mail or telegraph, and where the restraining effect of United States laws are at all times to be felt. The necessity becomes apparent for a similar power of investigation when the officers in question are in foreign countries, and all access to them and their accounts is the more difficult.

Item 14, (page 95.) *Publication of Consular and other Commercial Reports*: Appropriated, \$20,000; additional submitted, \$5,000.

The additional sum asked for is requested to enable the Department to maintain the standard of these publications, and to extend their scope so as to make them at least equal to similar publications in England, France, and Belgium. The practical usefulness of the reports has been greatly increased by illustrations of new machinery, new processes, and the like, that may be of value to producers and manufacturers of the United States. The outlay necessary for this object is small when compared with the value of the results. The cost of distributing the reports has become so great, by reason of the large editions issued, as to make it advisable for an additional appropriation. These items are covered by the additional sum asked for.

Item 15, (page 95.) *Contingent Expenses, United States Consulates*: Appropriated, \$150,000; additional submitted, \$50,000.

The additional sum asked for under this head is rendered necessary if the consular offices affected by the act of July 1, 1886, be granted fixed salaries, as contemplated by that act. It is proper to state, however, that the actual cost to the Treasury, in excess of the expense previously sustained, will be very much less than the additional sum asked for, and is explained as follows: Of the feed consulates which it is now proposed to put upon a fixed salary very many collect fees sufficient to pay the consul his salary, and such amount for rent, not exceeding \$500, as the Secretary of State may determine. Under the proposed system the rent cannot exceed twenty per cent. of the salary, and all of the fees are paid into the Treasury. All expenses, other than rent, will be the same as at present.

Respectfully submitted.

T. F. BAYARD.

APPENDIX S.

Statement showing the authorized active strength of the Army in commissioned officers, exclusive of the Signal Corps. (Estimate for 1888 on pages 99 to 102.)

Corps.	Lieutenant-General.	Major-generals.	Brigadier-generals.	Aides, and military secretary.	Colonels.	Lieutenant-colonels.	Majors.	Captains, mounted.	Captains, not mounted.	Chaplains.	Storekeepers.	Adjutants, extra lieutenants.	Regimental quartermasters, extra lieutenants.	First lieutenants, mounted.	First lieutenants, not mounted.	Second lieutenants, mounted.	Second lieutenants, not mounted.	Acting commissaries of subsistence.	Date of act.	Reference to Statutes at Large, or to Revised Statutes.

## APPENDIX U.

*In relation to the estimates for the Quartermaster's Department of the Marine Corps. (See pages 127 to 129.)*

U. S. MARINE CORPS, QUARTERMASTER'S OFFICE,  
Washington, D. C., September 30, 1886.

SIR: I respectfully transmit herewith the annual estimates of appropriations required for the service for the fiscal year ending June 30, 1888, by the quartermaster's department of the Marine Corps.

These estimates vary from those submitted for the fiscal year ending June 30, 1887, as follows: Provisions are decreased \*\$6,233.72, based upon the actual contract price of 16 cents per ration, 1886-'87, as against 18 cents, fiscal year 1885-'86.

Clothing is decreased \$12,431.

Fuel increased \$2,731.68, owing to the increased price paid for fuel, fiscal year 1886-'87, as against fiscal year 1885-'86.

Military stores decreased \*\$3,000.

Transportation decreased \$1,000.

Repair of barracks increased \$6,956, which includes fifteen thousand dollars (\$15,000) for the completion and carrying out of plans for the erection of officers' quarters at navy-yard, Mare Island, Cal., said quarters being embraced in original plans submitted to and approved by the Navy Department in 1863; also, three thousand dollars (\$3,000) for special repairs upon the barracks at same place, based upon surveys now on file in this office, and which, upon a personal inspection of the buildings and parade-ground, I know to be a necessity.

Forge decreased \$1,400.

Hire of quarters for enlisted men, \$2,124, transferred from appropriation "Repair of barracks" to "Hire of quarters."

Very respectfully, your obedient servant,

H. B. LOWRY,  
Major and Quartermaster, U. S. Marine Corps.

Col. C. G. McCawley,  
Commandant U. S. Marine Corps, Headquarters.

\*These figures are changed in the estimate by the addition of one day, 1888 being leap-year.

HEADQUARTERS UNITED STATES MARINE CORPS,  
Washington, D. C., September 29, 1886.

SIR: I have the honor to forward herewith the annual estimates for the support of the Marine Corps for the fiscal year ending June 30, 1888.

I have included for your approval an estimate for one additional civilian clerk of the second class, to be stationed in the office of the assistant quartermaster at San Francisco, Cal., in place of an enlisted man now so employed. I enclose a letter explaining the necessity of this.

I have also directed that the chief clerks of the paymaster and quartermaster be estimated for as clerks of the fourth class, and the clerks of the two assistant quartermasters as clerks of the second class, subject to your approval, with the assurance that the estimate is just and proper.

The accompanying letter from the quartermaster Marine Corps explains the necessity of an increased appropriation for repair of barracks at Mare Island, Cal., and the erection of officers' quarters, which I approve; also, for purchase of tents and camp equipage, as heretofore recommended by me.

Very respectfully, your obedient servant,

C. G. McCawley,  
Colonel Commandant.

Hon. W. C. Whitney,  
Secretary of the Navy, Washington, D. C.

ASSISTANT QUARTERMASTER'S OFFICE, UNITED STATES MARINE CORPS,  
615 Sansome Street, San Francisco, Cal., February 18, 1886.

SIR: I respectfully request that I be allowed a civilian clerk of the third class, at an annual salary of \$1,600, in lieu of the enlisted man now performing such duties in this office.

My reasons for such a request are that as the senior assistant quartermaster in charge of all purchases and disbursements on this coast pertaining to the Marine Corps, together with the various other duties relative to my position, and my direct responsibility to the United States Treasury for all money disbursed by me, it is absolutely necessary that, for the proper transaction of my duties and for my own protection, as well as that of my bondsmen, I be allowed the services of a competent clerk as my assistant, and at a rate of compensation which will enable me to procure such.

There is no disbursing officer of the Navy on this coast, and none in the Marine Corps, with the exception of myself, who is not provided with the proper clerical assistance at a fair rate of compensation, for the proper performance of his

duties. In addition, I would respectfully state that in all cases the rate of pay for disbursing officers' clerks both at Marine Island navy-yard and at the Navy pay office, San Francisco, is higher than that in the East, owing to the recognized fact that the expense of living here is greater. Sergeant Kirby, the enlisted man detailed and acting as my clerk, assures me that it is impossible for him to properly support himself and family on the pay and allowances he receives, and more particularly so since, under a recent ruling of the Treasury Department, he is now deprived of his per diem allowance of fifteen dollars per month, and has officially asked me to do something for his relief.

There is no enlisted man in the Marine Corps who, in my opinion, is so well qualified to perform the duties of clerk in this office of the quartermaster's department, and, should you see fit to grant my request, I would respectfully desire to have him retained as civilian clerk.

My desire is to conduct this office with all possible economy; but for the sake of the efficient and intelligent transaction of my duties as well as for proper protection, I trust that you may be able to grant my request herein contained.

I am, sir, very respectfully, your obedient servant,

W. S. SCHENCK,

*Captain and Assistant Quartermaster, U. S. Marine Corps.*

Hon. W. C. WHITNEY,  
*Secretary of the Navy, Washington, D. C.*

ASSISTANT QUARTERMASTER'S OFFICE, UNITED STATES MARINE CORPS,  
615 Sansome Street, San Francisco, Cal., February 18, 1886.

SIR: I am informed by you that you were notified by the quartermaster U. S. Marine Corps that hereafter you must omit sending per diem rolls for extra-duty pay of sergeants and corporals on extra duty, as such payments would be disallowed by the accounting officers of the Treasury.

As this will reduce my pay \$15 per month, and as my pay so reduced will be insufficient to support myself and family in this city, I would urgently request that you take some steps in the matter looking towards an increase of salary adequate to the work which I perform and my necessities.

Very respectfully, your obedient servant,

DANIEL KIRBY,

*Sergeant U. S. Marine Corps, and Clerk to Assistant Quartermaster, U. S. Marine Corps.*

Capt. W. S. SCHENCK,  
*Assistant Quartermaster, U. S. Marine Corps, San Francisco, Cal.*

#### APPENDIX V.

*In relation to certain estimates for the Indian School at Carlisle, Pa. (See page 148.)*

DEPARTMENT OF THE INTERIOR,  
*Office of Indian Affairs, Washington, June 26, 1886.*

SIR: I am in receipt of a letter from Capt. R. H. Pratt, superintendent of the Carlisle Indian School, dated the 19th instant, in which he states that, to obtain the highest efficiency in his school, certain additions and improvements are imperatively demanded, and submitting a statement of what he thinks necessary, with the request that, if his suggestions are approved, the case may be presented to Congress with a view of securing the necessary appropriations.

He states that his school-farm of one hundred and fifty-seven acres is not sufficient, and recommends the purchase of what is known as the "Parker Farm," at a cost of \$18,000. For the erection of a barn 125 by 50, he asks \$4,500; and for constructing a new boys' dormitory and making other improvements, he wants \$15,000—or a total appropriation of \$37,500.

The letter of Captain Pratt, a copy of which is herewith enclosed, states in detail how he expects to proceed, with the aid of the pupils, to make the improvements, which, when made, will enable him to care for five hundred pupils at the school, and, in addition, keep out in families, on farms, and in public schools of the State three hundred more.

In compliance with your request for recommendation, I have the honor to state that, if it is the policy of the Department and of Congress to enlarge the Carlisle school in order to care for more pupils than it can at present accommodate, or to continue said school for a number of years as an Indian industrial school, the amount asked for by Captain Pratt for improvements and repairs should be granted; and for that purpose I enclose herewith an item making an appropriation of \$37,500, with the request that it be forwarded to the Committees on Appropriations of the House and Senate, to be inserted in the sundry civil bill now under consideration.

Very respectfully,

J. D. C. ATKINS,  
*Commissioner.*

The SECRETARY OF THE INTERIOR.

INDIAN INDUSTRIAL SCHOOL, Carlisle, Pa., June 19, 1886.

SIR: In my judgment, to obtain the highest efficiency in this school, certain additions and improvements are imperatively demanded now, and I respectfully present to you the following statement of what I think necessary, with the methods and expense of accomplishing the same, and the request that, if you approve, it may be presented to Congress with a view to securing the necessary appropriation therefor.

First. The school farm of one hundred and fifty-seven acres is not at all sufficient to produce the needed forage and products and afford the range for stock required in so large an establishment; nor does it give sufficient scope for the routine instruction in agriculture of our three hundred boys, and, being three miles away, it is not near as effective as it could be made if adjoining. I am now able to buy the "Parker Farm," which bounds our property on the east and is best adapted for our uses. It can be obtained for \$18,000. It naturally drops in as a part of the Government property, and furnishes an outlet to the public road on two sides, an advantage never before possessed by the Government. It has one of the best and

largest springs in the country, and running water along the whole west side. The buildings are a farm-house of brick, commodious and well built; a good stone barn, and a frame tenant-house. The property contains 109.57 acres, and is worth the money asked.

Second. A school barn is needed which shall be large enough (125 by 50 feet) to store all farm products and stall forty cows and the draught animals needed at the school. This should be of brick and stone, and by using school labor can be built for \$4,500.

Third. The present large boys' dormitories, a building 250 by 24 feet, two stories, was first built in 1835 and 1836; having been destroyed by fire, it was rebuilt in 1864 and 1865, and the same walls used. It is in such a condition as to constantly need repair. It is divided into six rooms on each floor, and each room entered only by one door, and that from the outside. We are thus compelled to place eighteen to twenty boys in each room, and I find the task of teaching individuality, neatness, and even decency, almost as difficult as it would be in their native tepees. I propose to take this building down carefully, and, with the old material and such new material as may be necessary, construct a new building 250 by 34 feet, three stories high, each story divided by a hall the full length, and the division so made as to give ninety-two sleeping-rooms, each room having a door and transom opening into the hall, and two outside windows and a clothes-closet; a part of the lower floor to be used for an assembly-room, large enough to hold all the boys in the building; and also a clothing-room and a bath-room. This building I can construct in the manner described for \$15,000 by using student labor. I propose that the students shall make 200,000 of the brick required, and already have 100,000 dried and stacked in the kiln ready to burn. The wood to burn the same has been cut by them, and is now being hauled.

The three wants, as above explained and described, will require a total appropriation of \$37,500, and I am persuaded that, with sanction of the Department, it will be given, as quite a number of the members, Indian and Appropriation Committees of both Houses, have visited the school, and have expressed themselves most favorably towards it.

I deem it proper in this connection to say that, in addition to these helps which I shall so largely accomplish with student labor, I shall, if you approve, undertake to build a brick chapel, two stories, 45 by 75 feet, the lower floor for two additional school-rooms, and the upper floor for chapel and general assemblies. The present chapel is not more than one-half as large as our needs, and can be utilized as a library and reading-room for the boys. This I propose to accomplish entirely by the aid of friends of the school who stand ready to co-operate with the Government in the work. It will cost from \$6,000 to \$7,000.

The small boys' dormitory also needs a general overhauling, and the girls' building should be enlarged by an addition of 45 feet to one end, and the inside rearranged. These changes and improvements I can make on the means already furnished by Congress, and such outside help in addition as may be needed. These several changes and additions being effected, we can well care for five hundred pupils at the school, and, in addition, we can keep out in families and on farms, and attending the public schools of the State, three hundred more. The school would then, I think, be as large as good administration and sanitation would allow.

Trusting that with your indorsement and encouragement the subject may get promptly before Congress, to the end that I may be able to secure the proposed improvements this summer,

I am, with great respect, your obedient servant,

R. H. PRATT,  
Captain and Superintendent.

Hon. J. D. C. ATKINS,  
Commissioner of Indian Affairs, Washington, D. C.

APPENDIX X.

*In relation to the estimate for annual repairs to Treasury Department building. (See page 157.)*

TREASURY DEPARTMENT,  
Office of the Secretary, Washington, D. C., November 8, 1886.

SIR: An increase of \$12,000 is estimated for in the appropriation for "Treasury Building, Washington, D. C.," for the purpose of reflooring certain rooms, and for doing such absolutely necessary carpentering and painting as cannot be done with the present limited appropriation. Upwards of forty rooms should be refloored with wood, in the place of the brick and concrete now upon them. These concreted floors are old and defectively constructed, and, in order to make the rooms above mentioned comfortable, it has been necessary to cover them with carpets. There is a continual sifting of fine dust and grit through the carpets, and a consequent grinding on the same, which tends to rapidly wear them out.

The corridors of the building covered with slate and marble tiling require frequent repairs. Many of the rooms which should be repainted are necessarily smoke-begrimed and dingy and in very bad condition, and I have been obliged to decline the approval of requisitions for such work, owing to a lack of funds, notwithstanding the fact that the necessity for its performance must be apparent to every one. It is impossible to anticipate or enumerate the various contingencies necessary to be considered in the proper care of a building of such dimensions as this, such as changing partitions, doors, &c., but experience has demonstrated to my satisfaction that it is impracticable to do all that should rightly be done within the appropriation (\$9,000) for the current fiscal year.

Fifty thousand dollars is estimated for, for continuing the work of improving the sanitary condition of the Treasury building, (as explained in Department's estimates for the fiscal year 1887,) in accordance with plans which have been prepared for that purpose. It is proposed to properly drain the building by reconstructing the sewer system, as the increase as estimated will probably be required to carry the work forward during the coming fiscal year.

Respectfully submitted.

E. B. YOUMANS,  
Chief Clerk.

Hon. DANIEL MANNING,  
Secretary of the Treasury.

APPENDIX Y.

*In relation to the estimate for improving the sanitary condition of the Treasury Department building. (See page 157.)*

HEALTH DEPARTMENT, DISTRICT OF COLUMBIA,  
Office of the Inspector of Plumbing, Washington, October 25, 1886.

DEAR SIR: I have the honor to submit a proposed plan for remodelling the plumbing and drainage of the U. S. Treasury building. It is not necessary for me to make any mention of the present bad condition of things, further than to say that the old brick drains which run under the building throughout its extent are defective from original bad construction, and from having been frequently cut into for additional connections, and from having been used for exhaust-steam from the boilers. These sewers are cavernous in their area, and foul from putrefying sewage beyond description. The vertical lines of soil and waste pipes are so large that their side walls are not cleansed by the flow of water through them, and defective joints emit sewer-gas throughout the building. There is now no provision for the ventilation of drains and waste pipes, and their absolute abandonment is imperative.

The plan I submit contemplates the abandonment of all the present lines of drains under the building, and turning all by the shortest cut to the outside, with connections to the public sewers at several points, permitting the maintenance of small-sized pipes which may be sufficiently flushed to prevent accumulations of sewage on their interior surfaces, and se-

curing easy access for examinations to all lines within the building, as nearly all are suspended to the ceiling of the sub-basement.

By reference to the plan, it will be noticed that dotted red lines represent the drains suspended from the ceiling, and solid blue lines represent drains below the surface.

Economical considerations were sufficient for the abandonment of the present lines of drains, even if there were no sanitary reasons for the change, as all the main lines of the hot-water apparatus, gas and water mains, and their cross-connections surmount the old drains, and their removal and restoration would seriously interfere with the operations of the Department, and involve an enormous expense, while cast-iron drains of large size would be required to receive all the rainfall, and these could not be sufficiently flushed by the discharge of liquid sewage from the fixtures.

I urge the removal of all the present vertical lines of soil and waste pipes and the substitution of heavy cast-iron pipes of small size, such pipes to extend above the roof, with separate pipes for the ventilation of the traps of fixtures and pipes for local ventilation.

My plan does not suggest changes in location, or the abandonment of any fixtures above the sub-basement, and very few changes in the location of fixtures in the sub-basement. Such additional water-closets as may be needed can be located on the accompanying drawing. I recommend that all water-closets be replaced with flushing-closets, and wherever several are placed adjacent to each other, that they be automatic, and of the simplest construction; that all basins, urinals, &c., be refitted to secure the utmost cleanliness and the greatest simplicity, the details of which I will be prepared with whenever you require.

The exhaust for engines must be carried through the roof with wrought-iron or copper pipes, the blow-off pipe for boilers must be wrought iron and run by most convenient cut to terra-cotta drain outside the building, and the drips from heating-coils and machinery may run by surface drains or wrought-iron pipes, as most convenient, to points where connections with sewer may be made. I recommend that the old brick drain along the east corridor be removed as early as practicable, as, with its sides and bottom of a single thickness of brick, it has in some places disintegrated, and the inflow mostly leaches away into the soil, making it an elongated cesspool rather than a drain for the removal of sewage. My plan proposes the removal of the drains under the north, west, and south-corridors wherever they are accessible, and the thorough flushing and deodorizing of any portion of them which may not be accessible for removal.

Very respectfully, your obedient servant,

SAM'L A. ROBINSON,  
*Inspector of Plumbing.*

E. B. YOUMANS,  
*Chief Clerk, Treasury Department.*

A plan is also submitted showing the present system of drainage of the Treasury Building.

#### APPENDIX Z.

*Explanation of the estimate for Capitol terraces. (See page 164.)*

ARCHITECT'S OFFICE, U. S. CAPITOL,  
*Washington, D. C., October 14, 1886.*

SIR: In reply to your inquiry relating to the item for the Capitol terraces, embraced in the estimates from this office for the fiscal year ending June 30, 1888, I have to say that the sum therein stated included the entire estimated cost of the grand stairways and connecting arcades. I am of the opinion that the amount to be appropriated for the fiscal year above named might be reduced one-half, and the work confined to one stairway only, with such portion of the terrace and arcade which necessarily must be constructed with it; provided authority be given at the same time to engage the marble for the other stairway and connecting work, to be paid as Congress may appropriate for the same. The stairways coming, so near each other as they do, and there being no pronounced breaks between, as is the case with the other portion of the terrace, it is of the utmost importance that the marble of which they are to be built should be similar in every respect. I therefore suggest the item for continuing the work on the Capitol terrace and the construction of the grand stairways be changed as follows: For the construction of one grand stairway and portion of arcade and terrace connected therewith, namely, Sections E, F, and portion of G, as shown on plan accompanying the letter of the Secretary of the Treasury, Executive Document, No. 9, First session, Forty-eighth Congress, including the wages of mechanics and laborers, \$165,661.43.

Very respectfully,

EDWARD CLARK,  
*Architect U. S. Capitol.*

Hon. SECRETARY OF THE INTERIOR,  
*Washington, D. C.*

DEPARTMENT OF THE INTERIOR,  
*Washington, October 22, 1886.*

I concur in the foregoing, in the belief that the sum named, \$165,661.43, is as much as could advantageously be applied to the work during the ensuing fiscal year, but recommend that authority be given the Architect to engage the marble for the other stairway and connecting work, to be paid as Congress may appropriate for the same.

L. Q. C. LAMAR,  
*Secretary.*

## APPENDIX A a.

*Explanation of the estimates for buildings and grounds, Government Hospital for the Insane. (See page 165.)*

WASHINGTON, D. C., September 25, 1886.

SIR: Respecting items of estimate for special improvements at the Government Hospital for the Insane for the fiscal year ending June 30, 1888, this brief statement is respectfully submitted.

Seventeen thousand dollars is asked to furnish additional accommodations for the colored insane. The number of this class makes it impossible to provide for them in the lodges originally designed for their use. On the 30th of June, 1886, there were one hundred and eighty-three of the colored insane of both sexes under treatment in the hospital. The extent of provision afforded by the east and west lodges—buildings especially designed for their use—is for ninety persons; consequently fully one-half of the whole number are quartered in rooms designed for other classes, wherever in our crowded wards lodgings can be found. This is not pleasant to the white patients any more than it is to the colored. In this matter of distinct quarters it is right that the wishes of the colored insane should be gratified; they cost no more. These can be satisfactorily and most economically afforded at this time by extending their lodges with large associate dormitories adapted to their use. For the sum indicated space for one hundred beds can be provided.

The wharf at the river is in an unsafe condition, and requires to be rebuilt at once. All the fuel for the hospital, amounting annually to more than three thousand tons, is received at this wharf. A permanent structure of stone will cost but little more than one like the present, and will settle the wharf question for another generation. Three thousand five hundred dollars will provide for the stone laid in walls, and the filling with gravel will afford good occupation for the hospital inmates. As the wharf will shortly be needed for the delivery of next year's coal, this appropriation is asked to be immediately available.

There is urgent need for a small but suitable structure at the hospital cemetery for the custodian, looking both to the proper keeping of the grounds and to prevent any desecration of the graves. The graves of soldiers everywhere ask of the Government its recognition and care.

A tower-clock at some central point of the hospital is much needed. Nothing adds more to the comfort and order of a hospital for the insane than a standard time-keeper so placed that it can be seen from all quarters. There is a sense of companionship to the inmates in the very striking of the hours.

An additional steam-boiler of one hundred horse-power, similar to those now in use at the boiler-house, is necessary for heating the new building for the convict insane. The sum of fifteen hundred dollars is needed for this purchase.

Five thousand dollars is also required for furnishing the new building when ready for occupancy. This is intended to include bedding and furniture; also benches, tables, and other appliances for the work-shops.

The land asked for farming purposes at the last session of Congress is no less needed now than then, nor has real estate fallen in value in the mean time. The request is renewed for \$6,000 for the purchase of an adjacent farm, to enable the hospital to extend its grazing-lands. The importance of an abundant milk-supply for a population like ours needs no argument. Each added year's experience confirms me in the conviction that no food of equal value can be substituted for fresh milk with these old and feeble cases. For our herd of upwards of two hundred head of neat-cattle suitable land within four miles of the United States Capitol can now be purchased for one hundred and twenty-five dollars an acre, land that in a few years cannot be had for double the price. Shall we continue to wait?

I am, sir, very respectfully, your obedient servant,  
W. W. GODDING,  
*Superintendent.*

Hon. L. Q. C. LAMAR,  
*Secretary of the Interior.*

## APPENDIX B b.

*In relation to the estimates for buildings, Reform School, District of Columbia. (See page 166.)*

REFORM SCHOOL\* OF THE DISTRICT OF COLUMBIA,  
Washington, September 20, 1886.

SIR: Agreeably to the vote of the board of trustees, I have the honor to submit to you for your favorable consideration and due submission to Congress the following estimates for buildings and grounds for the Reform School, under your supervision:

For construction of greenhouses, with necessary heating apparatus complete, \$4,500; for construction of one workshop-building, with necessary heating apparatus complete, \$4,700; for one chapel building, of brick and stone, including heating apparatus, gas-fixtures, and furniture complete, \$7,500; for grading, draining, and permanently improving the school-grounds, \$1,500; in all \$18,200.

The estimates for greenhouses and a workshop building are submitted for the first time, the board believing that both are required in order that the industries can be made a source of considerable income and otherwise be of great benefit to the school. The present greenhouses are too small. With the additional houses asked for, little increased expenditure will be required for help and for fuel, while a large number of boys can be given an opportunity to become acquainted with this profitable industry, and be enabled to pursue it and secure employment thereat after leaving the school. So with the workshop estimated for. It will give us facilities now badly needed, and enable the school to instruct a larger number of boys in various classes of work, and at the same time add to the earnings and revenues of the institution.

In the annual report soon to be completed, a full statement of the working of the school during the past fiscal year will be submitted to you.

Very respectfully, your obedient servant,  
GEO. W. ADAMS,  
*President Board of Trustees.*

Hon. A. H. GARLAND,  
*Attorney-General.*

## APPENDIX Cc.

*Explanation of estimate of Chief of Engineers of \$5,000 for publishing professional papers. (Estimate on page 190.)*

OFFICE OF THE CHIEF OF ENGINEERS, UNITED STATES ARMY,  
Washington, D. C., September 10, 1885.

SIR: With my annual reports for the past fiscal year I have the honor to submit an estimate of \$5,000, to be applied to publishing professional papers of the Corps of Engineers and such translations by officers of the corps as may be of interest and importance to my Department.

I respectfully request that this estimate may be forwarded strengthened by your favorable action, provided you deem the following reasons sufficient.

It is of great moment to the Corps of Engineers and the profession generally that officers should be encouraged in compiling information in regard to their profession, or in recording their own experience in works. By this means information is codified and offered in a practical shape, which might otherwise be wanting when the necessity for its application should arise. Unfortunately, compilations of this character seldom make a profitable book, and the officer cannot afford to publish it at his own expense.

The amount of money to be expended in publishing these papers would, in my opinion, bear no proportion to the amount saved by imparting such information.

Very respectfully, your obedient servant,

JOHN NEWTON,  
*Chief of Engineers, Brigadier and Brevet Major General.*

Hon. WILLIAM C. ENDICOTT,  
*Secretary of War.*

OFFICE OF THE CHIEF OF ENGINEERS, UNITED STATES ARMY,  
Washington, D. C., February 9, 1885.

SIR: I have the honor to invite attention to the paragraph in the act of Congress approved July 7, 1884, known as the sundry civil bill, which prohibits the printing by order of the head of any Executive Department, &c., of any document or matter of any character whatever, except that which is authorized by law and necessary to administer the public business.

I respectfully suggest that some action be taken whereby the power heretofore held by the heads of the Executive Departments may be restored, so that documents of interest and importance may be printed and distributed without delay.

Up to the passage of the act mentioned, it had been the custom to print from time to time such engineering papers, professional and technical, as met with the approval of the Secretary of War, and to distribute them to the Corps of Engineers, the Ordnance Department, to different bureaus of various Departments, to civil engineers, colleges, libraries, &c.

The printing of these documents, as a rule, was comparatively inexpensive, and the information distributed by means of them has been important and gladly received.

I transmit herewith copies of the documents so published which have emanated from this office during the years 1883 and 1884, in order that the Secretary of War may inspect their character. Many applications have been received from all parts of the country for some of these publications.

At this time there are several important papers in this office the publication of which would be of interest to the Corps of Engineers, and to the engineering profession generally throughout the country.

Very respectfully, your obedient servant,

JOHN NEWTON,  
*Chief of Engineers, Brigadier and Brevet Major General.*

Hon. ROBERT T. LINCOLN,  
*Secretary of War.*

## LIST.

Studies of Coast Defence applied to the Gulf of Spezia, by Caesar Guarasci, Colonel of Engineers. Translated by First Lieutenant G. McC. Derby, Corps of Engineers, U. S. Army.

Professional Notes, by Captain Edward Maguire, Corps of Engineers, U. S. Army.

Historical Sketch of the Fortification Defences of Narragansett Bay since the founding in 1638 of the Colony of Rhode Island, by Brevet Major-General George W. Cullom, Colonel of Engineers, (retired,) U. S. Army.

Armored Minimum Embrasure Gun-Carriage, patented by Herman Gruson, February 17, 1883. Translated from the German by Captain Edward Maguire, Corps of Engineers, U. S. Army.

Armor-plate Trials at Magdeburg, October 22, 1883; 12-inch guns against chilled cast-iron targets. Translated from Mr. Gruson's official report, by Captain Wm. H. Bixby, Corps of Engineers, U. S. Army.

Current-meter Observations, Mississippi River, 1879—Mackenzie.

Paris Electrical Exhibition, 1881—Heap.

Memoir on a new kind of Movable Dam, by S. Janicki, Engineer-Director of the Moskva Navigation Company. Translated by Lieutenant-Colonel William E. Merrill, Corps of Engineers, U. S. Army.

Hasty Notes relating to Military Engineering in Europe; made in the autumn of 1883. Submitted to the Chief of Engineers by Brevet Brigadier-General Henry L. Abbot, Lieutenant-Colonel Corps of Engineers.

The Fortifications of To-day; Fire against Models of Coast Batteries and Parados; Horizontal and Curved Fire in Defense of coasts. Translated under the direction of the Board of Engineers for Fortifications, Colonel John Newton, Corps of Engineers, Brevet Major-General, U. S. Army, President of the Board.

Professional Papers of the Corps of Engineers, U. S. Army, No. 25. Report upon the Practice in Europe with the heavy Armstrong, Woolwich, and Krupp Rifled Guns, submitted by the Board of Engineers for Fortifications, Colonel Z. B. Tower, Corps of Engineers, Brevet Major-General, U. S. Army, President of the Board.

## APPENDIX D d.

*In relation to the estimate for printing and binding for the Interior Department. (See page 191.)*

DEPARTMENT OF THE INTERIOR,  
Washington, September 30, 1886.

SIR: I have the honor to submit the following estimate for the fiscal year ending, June 30, 1888:

For printing and binding for the Department of the Interior, and its several bureaus and offices, (not including the United States Geological Survey,) to be executed under the direction of the Public Printer, \$359,700.

This estimate is based on the estimates, received from the several bureaus, and offices as follows:

Secretary's.....	\$20,000	Railroad.....	\$1,500
Patent.....	240,000	National Museum.....	10,000
Pension.....	30,000	Freedmen's Hospital.....	200
Land.....	15,000	Architect United States Capitol.....	125
Indian.....	12,500	Hospital for Insane.....	375
Education.....	20,000		
Labor.....	10,000	Total.....	359,700

A separate estimate has been made for the United States Geological Survey, as required by the act of August 4, 1886.

Very respectfully,

AMOS HADLEY,  
*Chief of Stationery and Printing Division.*

Hon. SECRETARY OF THE INTERIOR.

DEPARTMENT OF THE INTERIOR, UNITED STATES GEOLOGICAL SURVEY,  
Washington, D. C., September 15, 1886.

SIR: In response to Departmental letter of September 8, I have the honor to state: The amount that will be required by the survey for printing and binding for the fiscal year ending June 30, 1888, is fifteen thousand dollars, (\$15,000.)

I am, with respect, your obedient servant,

J. W. POWELL,  
*Director.*

Hon. SECRETARY OF THE INTERIOR.

## APPENDIX E e.

*In relation to the estimates for the Bureau of Engraving and Printing. (See pages 193-194.)*

TREASURY DEPARTMENT,  
Bureau of Engraving and Printing, October 30, 1886.

SIR: I have the honor to submit estimates of the appropriations required for the support of the Bureau of Engraving and Printing for the fiscal year 1888. Conforming to the appropriations for the current fiscal year, these estimates are made under the four heads of salaries, compensation of employes, plate-printing, and materials and miscellaneous expenses. Provision is made under the head of salaries for the officers, clerks, and others whose salaries are fixed by law, under the head of plate-printing for the plate-printers and their assistants, and under the head of compensation of employes for the pay of all the other employes.

The estimate for the appropriation for compensation of employes has again been so framed as to fix the number and pay of the persons to be employed. This plan, if adopted, will place a limit which cannot be exceeded upon the number of persons who may be employed, and will prevent the expenditure of more than a proper proportional share of the appropriation during any part of the year. Annual salaries are estimated for instead of the present daily wages. Provision for such salaries on the one hand will prevent the allowance of extra pay for "overtime," as required by the present system of daily wages reckoned on the basis of eight hours a day, and, on the other, will permit the granting of reasonable leaves of absence with pay to the employes, should the condition of the work warrant it.

The estimates for the expenses of this bureau for the fiscal year 1888 as compared with the present fiscal year are:

	1887.	1888.
Salaries.....	\$17,450	\$17,450
Compensation of employes.....	327,740	352,380
Plate printing.....	307,380	366,500
Materials and miscellaneous expenses.....	141,820	164,700
Total.....	794,390	901,030

The increase of \$106,640 is due to the increased quantity of engraving and printing which the various Departments and bureaus of the Government estimate that they will require of this bureau. The estimated number of sheets of securities of all kinds to be produced in 1888 is 35,992,794, as against 26,655,496 sheets delivered in 1886, and an estimated production of 29,532,550 during the current fiscal year. As compared with the estimates for 1887, the estimated increase in production is 21½ per cent., while the increase in cost is only 13½ per cent.

The estimates of the appropriations to be made are based upon a careful calculation of the number and wages of the employes, and of the cost of the materials needed to produce the securities required. The only additional employes esti-

mated for are those who will be actually and necessarily employed in the various processes connected with the engraving, printing, and finishing of securities. No provision is made for any additional superintendents, clerks, watchmen, or messengers. On the contrary, the number of some of these classes of employes is cut down below the estimates for the present fiscal year.

Plate-printing being paid for by the piece, the estimate for this purpose is simply a matter of calculation based upon the number of sheets of securities to be printed. The increase in the estimate for this item conforms, therefore, to the increase in the work. The estimate for plate-printing for 1888, as compared with that for 1887, shows an increase of \$59,120, or more than 19 per cent., while the increase in the estimate for compensation of employes is only \$24,640, or less than 8 per cent. For the first time in the recent history of the bureau the amount of the wages of the employes other than the plate-printers and their assistants is brought below the cost of plate-printing. As compared with 1885, the expense for salaries and compensation of employes is reduced from \$471,757.20 to \$369,830, while the cost of plate-printing, which is the index of the work done, is increased from \$330,764.22 to \$366,500. It is proposed to produce in 1888, 35,992,794 sheets of securities, at a cost of \$901,030. In 1883, when the work done approached most nearly to that to be done in 1888, 33,330,746 sheets were printed, at a net cost of about \$1,088,000. The estimated production for 1888 is, therefore, 2,660,000 sheets greater and the estimated cost \$187,000 less than in 1883.

Very respectfully,

E. O. GRAVES,  
*Chief of Bureau.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX Ff.

*In relation to the estimate for additional compensation to the disbursing clerk of the Treasury Department. (See page 197.)*

UNITED STATES COAST AND GEODETIC SURVEY OFFICE,  
*Washington, November 5, 1886.*

SIR: I have the honor to state that the position of disbursing agent for the Coast and Geodetic Survey, with a salary of \$2,500 per annum, remained vacant from the 23d day of July, 1885, until July 31, 1886, when it lapsed.

While the presence of a disbursing agent at this bureau undoubtedly contributed to the convenience and facility of some of its operations, the performance of the duties of that position by the disbursing clerk of the Treasury Department since July, 1885, demonstrated the fact that the disbursing agency at this office could be dispensed with, and suggested its omission from the estimates for both the current and the coming fiscal years, and the continued performance of its duties by the disbursing clerk, Treasury Department.

The disbursing of the moneys of the Coast and Geodetic Survey, to an amount averaging about \$500,000 per annum, devolves much additional labor and responsibility upon that officer, which ought in justice to receive some recognition. For a similar service rendered by him in disbursing the moneys appropriated for the erection of public buildings, the law compensates him by a commission of three-eighths per cent. of the sum disbursed. An allowance of \$500 per annum, (which he has suggested as a compensation for disbursing the moneys appropriated for this bureau,) being only about one-tenth per cent. of the average annual disbursement, would seem to be a very moderate recompense for the service rendered and responsibility incurred. As he is an official of the Department and not of this bureau, I have not included the item for his compensation in the estimates of the coming year. I respectfully submit, however, for your consideration and such action as you deem proper in the premises, the suggestion that an estimate (supplemental or otherwise) be transmitted to Congress for an appropriation of \$500 extra compensation to the disbursing clerk, Treasury Department, for disbursing the moneys appropriated for the Coast and Geodetic Survey.

Very respectfully,

F. M. THORN,  
*Superintendent.*

Hon. SECRETARY OF THE TREASURY.

[Indorsement.]

TREASURY DEPARTMENT,  
*Secretary's Office, November 6, 1886.*

SIR: You are hereby directed to place in the estimates to be submitted to Congress for the fiscal year ending June 30, 1888 an item of \$500 as additional compensation to the disbursing clerk of the Treasury Department for the disbursement of the appropriations for the Coast and Geodetic Survey.

Respectfully yours,

DANIEL MANNING,  
*Secretary.*

To the CHIEF OF THE DIVISION OF WARRANTS AND ESTIMATES.

APPENDIX Gg.

*Explanation of the estimates for Coast and Geodetic Survey. (See pages 195-199.)*

UNITED STATES COAST AND GEODETIC SURVEY OFFICE,  
*Washington, October 27, 1886.*

SIR: Herewith I have the honor of submitting for your approval the estimates of the appropriations required for the United States Coast and Geodetic Survey for the fiscal year ending June 30, 1888.

The aggregate of the estimates (\$560,765) is considerably larger than the amount appropriated for the current year, (\$483,908.82,) but only slightly in excess of the amount appropriated for the last fiscal year, (\$553,496;) is less than the

average amount of appropriations for many years past, and is not in excess of the amount indispensable to the economical prosecution and reasonably early completion of the work. The increase, as compared with the appropriation for the current year, relates only to field expenses, and is accompanied by a proposed decrease of \$7,093.82 in salaries, thus contemplating the accomplishment of more work for less pay than is possible under the appropriation for the current year. The amount estimated for field work is substantially equal to the amount estimated for the current year.

In these estimates all items of field-work are included under the classifications of "party expenses," of which they properly form a part. They include only the kind of operations for which Congress has made annual appropriations for several years past, and indetical in kind with those being prosecuted by the government of nearly every civilized country. Those items referring to operations directly along the coast are intended to leave no ground for further suggestion of the idea that completion of the primary survey of the coast is unduly delayed or that specific "hydrography" is subordinated to other operations of the bureau. To that end, estimates for pushing the work as rapidly as practicable are made for operations upon uncompleted portions of the coast-work, and for as much of needed hydrography as was asked for by the hydrographic inspector, and as can be supplied with the indispensable points, or prosecuted with the vessels', outfit, and naval officers at the command of the bureau.

No one with any experience in or responsibility for the administration of the Survey will ever dispute the proposition that the rapid and economical accomplishment of its work depends upon the ability to place its working-parties in the field, on land or at sea, so that they may work to the best advantage and as long as climatic or other conditions will permit. To transport a party and its outfit and equipage to the field involves the expenditure of an inevitable and fixed sum, whether the appropriation for its work be large or small. After defraying that fixed sum, the remainder of the appropriated item is available for the accomplishment of net results, and upon the proportion of such net results to gross expenditures turns the question of real economy and efficiency. Appropriations which compel the withdrawal of parties from the field in the midst instead of at the end of a season, or after only two or four instead of four or eight months' work, enhance the ultimate cost and indefinitely delay the completion of all features of the work, and, however restricted in annual amount, cannot be justly characterized as economical or judicious.

The estimate for "party expenses" covers the pay of those temporarily employed as recorders, signal-men, hands, cooks, drivers, or boatmen, or in any other capacity in connection with field-work, except as field officers, or members of the permanent force; the commutation (or subsistence) of the chiefs and employes of parties; travelling expenses to and from the field, and local transportation in the vicinity of field-work, or in connection with it; the transportation of instruments, tents, stationery, materials, outfit, and equipage to the field and in the field, and the purchase of all requisite materials, supplies, tents, boats, stationery, and camp equipage for use in connection with field-work, and all other necessary expenses properly incident to the prosecution of field-work.

The estimates contemplate the reduction of the number of field-officers by the retirement of seven members whose services can be best dispensed with, to be followed by the promotion of the junior members, and a suspension of the grade of aid until Congress shall provide for recruiting the force by appropriating for aids, who should be required to enter the force under the exacting physical and mental tests now prescribed by the regulations. The estimates for the current year as explained to the appropriations committees contemplates a similar retirement, with, however, the numerical maintenance of the force by the appointment of a corresponding number of aids at small salaries. The contemplated reduction will prolong the annual period of field-work and shorten the annual period of office-work of those retained, without very greatly impairing the progress of the general work.

The estimate for "pay of office force," while providing for an apprentice to the electrotypist and photographer in addition to the present force, and in two or three instances modifying the designations of employes, contemplates a reduction of \$773.82 from the amount appropriated for the current year, the reductions occurring mainly in four or five positions occupied at less than the salaries appropriated for the current year.

In view of the opinion of the Solicitor of the Treasury that per diem employes are not entitled to leave of absence with pay, in justice to the lowest paid employes, I have changed the estimates from per diem to annual salaries.

The estimates contemplate no superfluous positions. On the contrary, the proper disposal of accumulated data, and the prompt and satisfactory publication of current work, urgently require a marked increase of force in the computing, drawing, and engraving divisions of the office.

No item of work has been estimated for in the immediate and pressing importance of which those most competent to judge have not concurred. In fact the items of field-work submitted to me as deserving of immediate consideration and execution exceed by about \$100,000 the estimates here submitted.

Very respectfully,

F. M. THORN,  
*Superintendent.*

Hon. SECRETARY OF THE TREASURY.

#### APPENDIX H*h*.

*In relation to the estimate "Printing and Binding, Coast and Geodetic Survey." (See page 199.)*

UNITED STATES COAST AND GEODETIC SURVEY OFFICE,  
*Washington, D. C., October 29, 1886.*

SIR: Replying to your communication of October 27, in relation to separate estimates for printing and engraving under sundry civil act of August 4, 1886, I have the honor to state that the printing and engraving for the United States Coast and Geodetic Survey, as heretofore done, may be classified under three heads, viz:

1st. Printing and engraving in immediate connection with the publication of charts, the work connected with which (except photolithographing of charts, which is done by contract) is done at the office of this bureau. It is estimated for in detail and included under the head of "Pay of Office Force" and "Office Expenses" in the estimates transmitted to the Treasury Department on the 27th instant. It comprises estimates for salaries of engravers, salaries of plate-printers and helpers, and (second paragraph "Office Expenses") "for copper-plates, chart-paper, printers' ink, copper, zinc, and chemicals for electrotyping and photographing; engraving, printing, electrotyping, and photographing supplies; for extra engraving, and for photolithographing charts, and printing from stone for immediate use." These items, having once been

included are not to be added to the aggregate of the estimates already transmitted, and are probably not contemplated by the proviso, (p. 38, sundry civil act; 1886,) as none of the work is done by the Public Printer.

2d. Printing and engraving done at the office of the Public Printer, by requisition from this bureau upon the Treasury Department, and comprising blanks and blank books, tide-tables, Coast Pilots, extra copies of appendices to the annual reports of the superintendent, notices to mariners, circulars and miscellaneous printing, (for none of which is any bill or account ever rendered this bureau,) detailed estimate for which, based upon figures supplied by the division of stationery, printing, and blanks, Treasury Department, aggregates \$10,434.98. For this class of printing and engraving some of the bureaus mentioned in the act have made no estimate. The illustrations under this head, including photolithographing, lithographing, and photoengraving, and no engraving whatever by the Public Printer, will not exceed \$250 per annum.

3d. Printing and engraving for 4,900 copies of the annual report of the Superintendent of the Coast and Geodetic Survey, done at the office of the Public Printer, in compliance with an order of Congress. This includes not only the expense of printing the report, but the expense of printing (by contract between the Public Printer and private establishments) the progress-sketches transferred from our copper-plates to lithographic stones, and the expense (by similar contract) of lithographing, photolithographing, or photoengraving the few illustrations which accompany the annual report. The estimate for the printing and illustration, including binding, of 4,900 copies of the annual report is \$10,500.

No engraving whatever is done by the Public Printer for this bureau.

The "printing and engraving" to which the last proviso on page 38, sundry civil act, August 14, 1886, refers, is manifestly that which is above described under the second and third heads, all of which is done by the Public Printer at his office or by contract as mentioned. Its cost, so far as relates to the various elements of expense, is exclusively under the control of the Public Printer.

Aside from indicating the probable number of volumes, reams, sheets, &c., of the various reports, appendices, blanks, circulars, &c., required, this bureau is entirely without influence in determining the cost of such printing and engraving, and is therefore without the means of making a detailed and accurate estimate independently of a prior formal or informal estimate by the Public Printer, in response to a statement to him by this bureau, specifying approximately the items and quantity of printing and engraving required. For this reason it was assumed that the detailed estimates referred to would probably be made by the Public Printer.

In response to your letter of the 27th of October, however, I have, from the best information obtainable, made the estimate herewith transmitted of the appropriations required for printing and engraving for the Coast and Geodetic Survey, by the Public Printer for the fiscal year ending June 30, 1888, which estimate necessarily includes the cost of all binding, covering, stock, and materials.

Very respectfully,

F. M. THORN,  
Superintendent.

Mr. W. F. MACLENNAN,  
Chief of Warrant Division, Treasury Department.

#### APPENDIX I.

Estimate of expenditures, under the appropriation for "Pay of assistant custodians and janitors," for the fiscal year ending June 30, 1888. (See page 201.)

## APPENDIX Jj.

*Explanation of estimate for Garfield Hospital. (Estimate on page 214.)*

THE GARFIELD MEMORIAL HOSPITAL,  
Washington D. C., October 1, 1886.

SIR: As president of the Garfield Memorial Hospital, I have the honor to request you to include in your estimates to be submitted to Congress for the fiscal year ending June 30, 1888, the following item, "the Garfield Memorial Hospital, for maintenance, to enable it to provide medical and surgical treatment to persons unable to pay therefor, \$10,000."

The meritorious claims of this institution were favorably considered by you last year, and your recommendation for an appropriation of the amount now requested was received and responded to by Congress in the same spirit.

The liberal character of this hospital has rendered it the popular asylum of the afflicted, because of its non-discrimination as to creed, race, nationality, sex, or condition.

Every day testifies to the fact that this hospital responds to a long-felt want at the national capital. The demands made for accommodations necessitated the erection of a large wing, and the incidental increase in the number of patients renders the appropriation asked for both more needful and deserving.

The number of patients admitted during the year ending June 30, 1886, was 243, which, with the 14 remaining from the list of the preceding year, make a total of 257.

The board of directors would be pleased to have you personally inspect the hospital, and respectfully refer you to the vouchers filed with the Secretary of the Treasury as evidence of the necessity of the aid requested, and of the manner in which the last appropriation was applied.

I have the honor to be, your obedient servant,

SAM'L F. MILLER,  
President.

Hon. W. C. ENDICOTT,  
Secretary of War.

## APPENDIX Kk.

*Statement of items, &c., to accompany estimate of Artillery School for 1888. (Estimate on page 216.)*

## DEPARTMENT OF ARTILLERY.

50 pounds chemically pure mercury for densimeters.....	\$40 00	1 iron plate and rubber for crushing ores.....	\$12 00
350 pounds high explosive powders.....	140 00	1 balance, Becker's, No. 19.....	22 00
Fuzes, primers, and disks for same.....	55 00	1 dozen Battersea crucibles, size F.....	2 60
1 break-circuit chronometer.....	300 00	1 set assay ton weights.....	6 00
Mechanical telephones, and lines for same.....	150 00	1 Scheibler's polariscope for sugar analysis.....	175 00
1 Zalinski telescope sight.....	170 00		
Seats for same.....	20 00	Total for chemical laboratory.....	394 60
Material for high explosive experiments—iron, steel, and timber..	250 00		
Drawing instruments, lead-pencils, rubber, and drawing-paper..	100 00		
1 two-inch reconnoitring telescope with heliotrope fixtures.....	100 00		
Total for artillery.....	1,325 00		

## CHEMICAL LABORATORY.

40 gallons gasoline, 74 degrees.....	\$12 00	100 porcelain knobs.....	\$0 95
20 gallons alcohol, 95 degrees.....	44 00	4 pounds office-wire staples.....	1 00
4 oil-stoves, (two wicks, 3-inch).....	12 00	2 dozen key-lever knobs.....	4 80
1 U. S. Dispensatory, latest edition.....	8 00	1 dozen circuit-closer knobs.....	96
2 pairs scissors.....	1 00	1 lightning counter-sink.....	1 50
1 copper drying-oven, (water-bath).....	10 00	2 dozen cells, Le Clanché, disk battery.....	24 00
30 yards muslin.....	3 00	1 Daniell's battery, (6 cells complete,) outside jar 6 by 8 inches..	8 70
15 yards flannel.....	5 00	1 dozen Daniell's zinc clamps.....	1 80
4 chamois-skins.....	1 50	1 acidimeter.....	1 00
1 pound chloride gold, (in 15-grain bottles).....	18 00	½ dozen Fuller's mercury bicromate battery, jar 6 by 8 inches....	6 60
1 pound silver nitrate, c. p.....	11 50	2 gimlets.....	1 00
1 pound acid pyrogallic.....	4 50	1 guarded pike, 15 feet, (wood pole).....	2 50
5 pounds sodium acetate, crystallized.....	1 50	1 tamping-bar.....	1 25
10 pounds sodium sulphate, crystallized.....	2 50	1 telegraph-spoon, (handle 7 feet).....	75
10 pounds sodium carbonate, crystallized.....	2 00	2 plain pikes, (without pole).....	40
1 screw-driver.....	50	1 line tamping-clamp.....	3 50
1 hand-saw.....	50	2 pairs pliers, stubbs, best quality, side cutting, 5 by 7 inches..	2 34
10 pounds potassium carbonate, (pure,) crystallized.....	2 50	2 fire-alarm electric bells, 6-inch gong.....	10 00
6 bottles, 1-gallon capacity, glass stoppers.....	3 00	2 dozen nickel-plate push-buttons.....	9 60
6 bottles, ½-gallon capacity, glass stoppers.....	2 00	4 dozen nickel-plate push-buttons for desk.....	1 60
12 bottles, ¼-gallon capacity, glass stoppers.....	3 00	4 dozen nickel-plate push-buttons for floor.....	2 40
10 pounds ammonium liquor, (concentrated,) 28 degrees.....	1 50	1 dozen electric bells, triple contact, 3½-inch.....	21 00
12 cakes soap, toilet.....	1 00	4 burglar-alarm door-springs.....	1 00
24 cakes soap, common.....	1 00	2 incandescent electric lamps, 6-candle power.....	3 00
2 gross matches.....	2 50	1 Watson's battery, complete, 6 cells.....	9 00
1 feather-duster.....	1 50	24 double connectors, (finished).....	3 50
4 dozen towels.....	8 00	24 binding-posts, (wood screw).....	3 50
1 whisk-broom.....	25	24 single connections, (finished).....	2 50
½ dozen balls twine.....	75	1 handy switch.....	1 50
1 oil-can for coal-oil, (1-gallon).....	50	24 battery-brushes.....	4 00
2 cork-screws.....	50	1 gallon battery-oil.....	75
6 quires blotting-paper, large.....	2 50	25 pounds office-wire, cotton-covered.....	17 20
1 worm and cooler, combined, for 5-gallon still.....	9 00	4 barrels blue-stone.....	40 00
		500 pounds sheet-zinc.....	50 00
		1 galvanometer.....	100 00
		Total for electrical apparatus.....	343 60

Statement of items, &c., to accompany estimate of Artillery School—Continued.

DEPARTMENT OF ENGINEERING.

48 sketch-blocks, Waterman's paper, 3-quire, 10 by 14 inches...	\$108' 00
24 sketch-blocks, cross-ruled.....	18 00
20 dozen Siberian pencils.....	20 00
3 quarts Arnold's writing-fluid.....	3 60
2 pints Cartér's crimson fluid.....	2 00
60 bottles photographic ink.....	12 00
96 cakes India ink.....	18 00
3 gross steel-pens.....	1 80
2 gross mapping-pens.....	18 00
60 pieces rubber.....	1 25
12 pieces sponge-rubber.....	2 40
2 reams letter-paper.....	6 00
2 reams fools cap paper.....	8 00
6 dozen pen-holders.....	2 25
8 dozen manila pads.....	18 00
4 boxes paper-fasteners.....	3 00
3 bottles mucilage.....	1 00
2 gross thumb-tacks.....	6 00
1 surveying-compass and tripod, with Jacob staff.....	53 00
2 steel tapes, 100 feet.....	32 00

## STATEMENT OF THE PROCEEDS OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE FOLLOWING PROVISIONS OF LAW:

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue-cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned Navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "Proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the Appendix to the Book of Estimates.—(R. S., pages 713, 722, sections 3618, 3672; act February 27, 1877, 19 Stat., 249.)
