FROM THE

SECRETARY OF THE TREASURY,

TRANSMITTING

ESTIMATES OF APPROPRIATIONS

REQUIRED FOR THE

SERVICE OF THE FISCAL YEAR ENDING JUNE 30, 1891.

TREASURY DEPARTMENT,
Document No. 1266.
Secretary—W., E., and A.

LETTER
FROM
THE SECRETARY OF THE TREASURY,
TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year
ending June 30, 1891.*

TREASURY DEPARTMENT,

December 2, 1889.

SIR: In conformity to the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, and act of July 7, 1884 (23 Stat., page 254), I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1891, as furnished by the several Executive Departments; also, statements of the proceeds of sales of Government property, and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1889.

I have the honor to be,

Very respectfully, your obedient servant,

WILLIAM WINDOM,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

One draughtsman.....	do.....				1,440 00				
One draughtsman.....	do.....				1,200 00				
NOTE.—Of this amount, \$19,700 has for a number of years past been "paid from the appropriations for the Light-House Establishment." There are nine of these appropriations, and the work to be done by each has been much increased of late. It is suggested that this \$19,700 be appropriated for in the same manner as is the amount paid to other employes of the Light-House Board, as the present method causes much uncertainty, inconvenience in the settlement of accounts, and trouble in the allotment of funds for expenditure.									
OFFICE OF THE LIFE-SAVING SERVICE.

	Feb. 26, 1889	26	720	1			
<i>Contingent Expenses, Office of Standard Weights and Measures—</i>							
Purchase of materials and apparatus, and incidental expenses.....	Appropriated..	26	720	1	800 00		
Provided, That such necessary repairs and adjustments shall be made to the standards furnished to the several States and Territories as may be requested by the governors thereof, and also to standards, weights, and measures that may have been or may hereafter be supplied to the United States custom-houses and other offices of the United States, under act of Congress, when requested by the Secretary of the Treasury.							
Purchase of a balance of precision and its mounting.....	Submitted.....				1,200 00		
Expenses of the attendance of the American member of the International Committee on Weights and Measures at the general conference provided for in the convention signed May 20, 1875, the sum of \$600, or so much thereof as may be necessary.....	Appropriated..	26	720	1	600 00	2,600 00	1,100 00
NOTE.—The foregoing estimates are submitted on the basis of existing appropriations out of deference to the repeated action of Congress in appropriating for certain officers of the Treasury Department at the rates of compensation therein stated. The Secretary feels, however, that injustice has been done to a number of meritorious officers, inasmuch as under the act of March 3, 1875 (18 Stat. 396), they are entitled to larger rates of compensation than have for some years been granted by the annual appropriation bills. The same conditions exist with respect to the laws fixing the rates of compensation to be paid to sub-treasury officers and officers of Territorial governments.							
MISCELLANEOUS.

NOTE.—The foregoing estimates embrace the force and salaries						835,270 00	830,830 00		

NOTE.—The foregoing estimates embrace the force and salaries required for the proper and prompt transaction of the business of the office of the Secretary of War:

By order of July 3, 1889, the Secretary of War formed a division in his office to be known as the "Record and Pension Division of the War Department," and in compliance with said order and his order of July 16, 1889, the following transfers have been made:

From the office of the Adjutant-General, ten clerks of class four, twenty clerks of class three, forty-eight clerks of class two, two hundred and eighty-three clerks of class one, seven clerks at \$1,000 each, one messenger, twenty assistant messengers, and three laborers.

From the office of the Surgeon-General, seven clerks of class four, seventeen clerks of class three, thirty-one clerks of class two, and one hundred and thirty-four clerks of class one, seventy-eight clerks at \$1,000 each, one engineer, one assistant engineer, four assistant messengers, one messenger boy, \$360, three watchmen, one superintendent of building, on Tenth street (old Ford's Theater), and eleven laborers.

From the office of the Paymaster-General, two clerks of class three, one clerk of class two, five clerks of class one, and two clerks at \$1,000 each.

The amount required to pay the salaries of the force transferred has therefore been deducted from the estimates of the several bureaus from whence transferred, and are included in the estimates for "Salaries, Office of Secretary of War," under the head of "Record and Pension Division of the War Department."

The services of two firemen at \$720 each, and one skilled mechanic, \$1,000, submitted, are necessary in the management of the steam-heating apparatus in the building on Tenth street, occupied by the force transferred from the Surgeon-General's Office to the new division.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 						\$217,660 00	\$217,000 00
<p>NOTE.—July 1, 1889, the Record and Pension Division of the office of the Secretary of War was organized, and there were assigned to it from the office of the Adjutant-General of the Army, ten clerks of class four, twenty clerks of class three, forty-eight clerks of class two, two hundred and eighty-three clerks of class one, seven clerks at \$1,000 per annum, one messenger, twenty assistant messengers, and three laborers, and the amount appropriated therefor (\$481,020), has been dropped from the appropriation "Salaries, Office of the Adjutant-General," and carried to the appropriation "Record and Pension Division, War Department." This assignment took away from the office of the Adjutant-General all the laborers. One laborer at least is necessary, and one is included in this estimate.—J. C. Kelton, Adjutant-General.</p>

<p>NOTE.—The duties of this office touch distinctly upon the work of clerks in the other bureaus, and its chief clerk should be familiar with the questions considered in them and should receive the same pay as the other chief clerks. The office has been seriously hampered in the past by lack of sufficient clerical assistance, being compelled to beg as a favor, sometimes from one and sometimes from another, in order that its work should be promptly done.</p> <p>As examples, showing how its work has been greatly increased by law and orders, while its clerical force has remained so very limited, see section 1225, Revised Statutes, which has added within four years fifty battalions to be inspected, though the regiments in the Army this Department was organized to inspect number but forty, and the act approved April 20, 1874, brings in over a thousand reports per annum of inspections of money accounts. The work is necessarily quadrupling, and has produced excellent results, and still there is much more that must be done, even in the regular service, and the governors of the more progressive States desire the assistance of this Department in establishing and conducting thorough inspections of their national guard, and should have it. Its limited force alone has prevented it extending this assistance already, which is demanded by every principle of public policy and wise economy.</p> <p>It seems but fair to submit that no more diligent, efficient, or distinguished officer of his rank than Lieutenant-Colonel Lawton is on duty in this building, and he is the only one without clerk or messenger.—J. C. Breckinridge, Inspector-General.</p>

<p>NOTE.—The present clerical force of this office is inadequate. The work required of it has much increased, so that details of clerks from other offices have been made for its relief. At present there are no such details, and the work of keeping up the necessary office records has fallen embarrassingly in arrear. Other work which should be promptly attended to is also unavoidably falling in arrear. To meet these requirements and to enable this office to keep its work up to date it is necessary that the permanent clerical force should be increased, and an appropriation for two additional clerkships is recommended.</p> <p>There are now no clerks of class two or class four in this office. For the purpose of establishing a regular line of promotion, and of supplying the necessary additional clerical force, it is urgently recommended that two new clerkships (one of class two and one of class four), be provided for, and that one clerkship of class two be provided for in place of one of class one.—G. Norman Lieber, Acting Judge-Advocate-General.</p>

<i>Salaries, Signal Office—Continued.</i>							
Temporary employment of copyist, at not exceeding \$1.50 per diem, and for such other services as the Secretary of War may deem necessary in the office of the Chief Signal-Officer at Washington, D. C., to carry into effect the appropriations made for the support of the Signal Service, including one watchman, \$720 per annum; two firemen, at \$660 per annum; two laborers, at \$660 per annum; and one char-woman, at \$300 per annum, required in addition to present force, to properly clean, repair, heat, light, and guard the Signal Office buildings, and to provide for which an increase of \$3,660 is submitted.....	Feb. 26, 1889	25	729	1	\$6,000 00	\$159,660 00	\$153,960 00
<p>NOTE.—An increase of \$5,700 is submitted as follows: \$200 each in the salaries of the three assistant professors of meteorology. The pay of these officials is deemed inadequate to the high character of the arduous and difficult duties performed by them.</p> <p>An increase of \$200 is recommended for each of the two stenographers in this office, who now receive only \$1,200 each, which is an inadequate compensation, whether considered in comparison with the salaries paid for such services in other Departments, or with direct reference to the confidential and important duties performed by them in this office.</p> <p>An increase of \$60 each is recommended for the skilled artisans of the office, in order to pay them salaries corresponding to those earned either in other Departments of the Government or in civil life.</p> <p>Additional force is also required in connection with the care and repair of the buildings by this bureau, and the care of the grounds. A superintendent of repairs is estimated for at \$200 per annum in addition to compensation as a clerk of class four; also, one watchman, two firemen, two laborers, one charwoman, and an additional laborer are estimated for in accordance with the opinion of the superintendent of the State, War, and Navy Department building, that such a force was required to properly clean, repair, heat, light, and guard the buildings and grounds occupied by the Signal Bureau, and to care for the roads and lawn.</p> <p>The statement showing the number of persons employed in the Signal Office, and the amount paid to each, during the fiscal year ended June 30, 1889, from the appropriations, "Legislative, Executive, and Judicial," "Sundry Civil," and "Rent of Buildings," will be found in Appendix "I."—A. W. Greely, Chief Signal-Officer.</p>

One laborer.....	do.....				660 00		
						\$51,860 00	\$44,860 00
<p>NOTE.—This office has had four clerks which were transferred from the Surgeon-General's Office by the Secretary of War in 1886. On August 20, 1889, the Secretary of War directed the return of these clerks to the Surgeon-General's Office, in order to expedite the settlement of pension applications, and authorized an estimate to be made for a sufficient clerical force to supply the needs of the Ordnance Office to meet the largely increased work of the office, due to the large appropriations for gun construction and the labor, required under the act of February 12, 1887, for arming and equipping the militia, and the grade of class two is asked for to permit the promotion of clerks of class one who have been many years in the service, and are capable, efficient, and valuable clerks.—<i>R. Birnie, Jr., Captain, Ordnance Department, U. S. A., Acting Chief of Ordnance.</i></p>

Rent of Buildings, War Department—							
Rent of buildings for use of the War Department, as follows:							
Medical Dispensary.....							
Office of Rebellion Records.....							
Stable for Signal Office (submitted)							
NOTE.—At present the stable is located on the lower floor of the building which was erected on the corner of 24th and M streets, under the provisions of the act of Congress approved February 25, 1888, the upper floor of said building being occupied by clerks and other employes. The close proximity of the stable to the rooms used by the clerical force of the office is exceedingly unpleasant, and is believed to be unhealthy, and to prevent the possibility of disease therefrom this estimate is submitted.—A. W. Greely, Chief Signal-Officer.							
NOTE.—A statement of the buildings rented in Washington for use of the bureaus of the War Department, with the annual rent of the same, reported as required by the act of March 3, 1883 (22 Stat., 552), will be found in Appendix "F."

BUREAU OF EQUIPMENT AND RECRUITING.							
<i>Salaries, Bureau of Equipment and Recruiting—</i> One chief clerk (increase of \$450 submitted)..... {	Feb. 26, 1889	R. S. 25	70 732	416 1	} \$2, 250 00		
<p>NOTE.—The following statement is submitted in explanation of the increase of \$450 in the salary of the chief clerk of this bureau: The present pay of this officer is \$1,800, which was established about forty years ago when salaries were proportionately low throughout the service, as it then existed, and which was then doubtless regarded as adequate compensation for men of the qualifications required to fill this responsible position. Since that time there has been a great relative increase in the cost of living, which has been recognized in the provision for all other branches of the Government by a corresponding increase in pay. Thus, there is no instance in any branch of the civil service in which a bureau chief clerk receives less than \$2,000, while \$2,500 is usually paid in the larger bureaus, and \$2,250 is an average. It is also noted that as a matter of fact, in no other instance is a bureau chief clerk other than in the Navy Department, vested by law (see section 178, Revised Statutes), in the absence of his chief, with the responsibilities of the bureau by reason of acting as chief, and signing its correspondence and papers which are frequently of great importance, and yet, with this increased responsibility, he receives \$200 less per annum than the lowest pay for the corresponding grade elsewhere. The propriety of the proposed increase is therefore manifest.—Geo. Dewey, Chief of Bureau.</p>							
One clerk of class four (in lieu of one transferred to Bureau of Navigation).....	Submitted.....				1, 800 00		
One clerk of class three.....do.....				1, 600 00

Pay of computers on piece-work in preparing for publication the American Ephemeris and Nautical Almanac, and in improving the tables of the planets.....do.....				660 00		
					8, 400 00	23, 880 00	23, 880 00
<i>Miscellaneous Expenses, Nautical Almanac Office—</i> For purchase of materials for multiplying copies of work on tables of the planets.....	Submitted.....					300 00	
<p>NOTE.—This work comprises a recalculation of the more important astronomical observations made upon the planets at the leading observatories of the world since 1750, and has been carried on with the expectation of its becoming a standard among astronomers which will endure at least until the middle of the coming century. The printing of the work would require several quarto volumes costing several thousand dollars each. Instead of printing, it is proposed to distribute about twenty copies among the leading observatories and astronomical institutions of the world with the view of securing examination and criticism, before the results are finally obtained, and also to save the time and expense of printing in detail.</p>

One draughtsman.....	do.....	1,400 00		
One draughtsman.....	do.....	1,000 00	12,290 00	11,090 00
NOTE.—It is respectfully submitted that the salary of the chief clerk of a bureau in the Navy Department, with its duties and responsibilities, should not be less than that of chief clerks or heads of divisions in other bureaus of the Executive Department requiring no greater professional ability or technical knowledge, if as much, as is required in the proper performance of the duties of the chief clerk of this bureau. In said other bureaus the salaries range from \$2,000 to \$2,500 per annum. For this reason, and believing that the requirements of this office are justly entitled to the increase of \$450 per annum, I urgently recommend said increase, making the salary \$2,250 in all. I earnestly recommend an increase in the salary for a chief draughtsman of \$750, making \$3,000 per annum in all, for the reason that it has been found that the services of a man with the professional ability to perform the duties of such office in this bureau, with the rapid improvements in marine engineering, could not be obtained at the amount (\$2,250) heretofore appropriated for the purpose.—Geo. W. Melville, Chief of Bureau.							
BUREAU OF CONSTRUCTION AND REPAIR.

<i>Salaries, Bureau of Construction and Repair—Continued.</i>							
One clerk of class two.....	Submitted.....				\$1,400 00		
One clerk of class one.....	do.....				1,200 00		
One messenger.....	do.....				840 00		
<p>NOTE.—The largely-increased amount of work of a professional nature coming into the draughting-room in connection with building our new Navy clearly demonstrates the necessity for a competent chief draughtsman who can be held responsible for the proper performance of the duties of other draughtsmen. I earnestly recommend that the bureau be allowed a chief draughtsman.</p> <p>The three additional clerks asked for are very necessary for the proper conduct of the clerical work of the bureau, which has also largely increased in consequence of building the new Navy. The allowance of these additional clerks and the messenger is urgently recommended.</p>						\$21,520 00	\$13,980 00
BUREAU OF ORDNANCE.							
<i>Salaries, Bureau of Ordnance—</i>							
Chief clerk.....	Feb. 26, 1889	R. S. 25	70 733	416 1	1,800 00

One assistant messenger.....	do.....				720 00		
One laborer.....	do.....				660 00		
To salary of chief clerk (increase).....	Submitted.....				450 00		
<p>NOTE.—By direction of the Navy Department each bureau estimates for the clerical force that it actually employs. The clerk here estimated for, though heretofore borne on the rolls of the Bureau of Provisions and Clothing, has always been employed by the Bureau of Ordnance as record clerk, and is still so employed. His services are absolutely necessary.</p>						14,130 00	12,480 00
BUREAU OF PROVISIONS AND CLOTHING.							
<i>Salaries, Bureau of Provisions and Clothing—</i>							
One chief clerk (increase of salary, \$450, submitted) ...	Feb. 26, 1889	R. S. 25	27 70 733	167 416 1	2,250 00		
Two clerks of class four.....	Same acts.....				3,600 00		
Four clerks of class three.....	do.....				6,400 00		
Three clerks of class two.....	do.....				4,200 00		
Two stenographers, at \$1,400 each.....	do.....				2,800 00		
Eleven clerks of class one.....	do.....				13,200 00		
Two clerks, at \$1,000 each.....	do.....				2,000 00		
Two copyists, at \$900 each.....	do.....				1,800 00		
One assistant messenger.....	do.....				720 00		
Two laborers, at \$660 each.....	do.....				1,320 00		
<p>NOTE.—The increase of \$450 per annum in salary to the chief clerk of this bureau, herewith submitted, is considered to be in the line of justice, and has for a precedent the fact that the chief clerks of the various bureaus of all the other Departments of Washington receive in no instance less than \$2,000, and in most cases \$2,250 per annum. The chief clerk of this bureau is holding a responsible position, and his duties are arduous. In the absence of the Paymaster-General he is, by virtue of his position and in accordance with the law, the acting chief of bureau, signing all official papers and assuming all of the responsibilities attached to this branch of the Department, and yet his salary is but \$1,800 per annum, the same as paid to a fourth-class clerk. Pertinent to this case, the bureau begs further to state that there are at present two fourth-class clerks connected with this bureau who are drawing the same salary as the chief clerk. It would therefore seem but right and in accordance with justice that his salary be increased to a sum commensurate to the care and the responsibility that he as chief clerk is obliged to assume. This increase is urgently recommended.—James Fulton, Paymaster-General U. S. N.</p>						38,290 00	37,840 00
BUREAU OF MEDICINE AND SURGERY.

One mail messenger.....	do.....				1,200 00		
One laborer	do.....				720 00		
					660 00		
<p>NOTE.—It is respectfully submitted that the salary of the chief clerk has remained unchanged from July 1, 1853, to the present time, at the rate of \$1,800 per annum, while the salaries of the chief clerks of the bureaus, offices, and heads of divisions (so called) of the other Departments of the Government range from \$2,000 to \$2,500 per annum, and it is believed that the duties of the latter are not more responsible and arduous, or require greater professional knowledge or technical ability in their performance than is required of and performed by the chief clerk of the Bureau of Yards and Docks, and an increase of \$450 per annum to his present salary is urgently recommended.—G. B. White, Chief of Bureau.</p>						11,430 00	10,980 00
Contingent Expenses, Navy Department—							
Stationery, furniture, newspapers, plans, drawings, drawing materials, horses, carriages, freight, expressage, postage, and other absolutely necessary expenses of the Navy Department and its various bureaus and offices	Feb. 26, 1889	25	744	1		18,000 00	12,000 00
<p>NOTE.—This estimate is proportioned as follows: Office of Secretary of the Navy, including the Office of the Judge-Advocate-General..... \$6,000 Bureau of Ordnance..... 1,000 Bureau of Yards and Docks..... 750 Bureau of Provisions and Clothing..... 1,800 Bureau of Construction and Repair..... 1,000 Bureau of Steam-Engineering..... 800 Bureau of Medicine and Surgery..... 300 Bureau of Navigation, including the Hydrographic Office, Navy Department library, Office of Naval War Records, and Office of Naval Intelligence..... 5,300 Bureau of Equipment and Recruiting, including the Nautical Almanac Office, Compass Office, and Office of Inspector of Electric Lighting..... 1,200 The reconstruction of the Navy necessarily affects almost every bureau and office of the Navy Department, and creates additional demands upon the contingent fund. An increase of employes involves additional outlay for furniture, stationery, and other items of a contingent nature. The appropriations heretofore for this purpose have been totally inadequate, not meeting pressing needs. The estimate of the Secretary of the Navy for "Printing and binding," under section 2, act of May 8, 1872 (Revised Statutes, 720, section 3661), will be found under the title "Miscellaneous," post.</p>

	Appropriated..	25	962	1			
NOTE.—The estimate of the Secretary of the Interior for "Printing and binding" under section 2, act of May 8, 1872 (Revised Statutes 720, section 3661), will be found under the title of "Miscellaneous," post.							
GENERAL LAND OFFICE.							
<i>Salaries, General Land Office—</i>							
Commissioner of General Land Office (increase of \$1,000 submitted).....	Feb. 26, 1889	R. S. 25	76 735	446 1	5,000 00		
NOTE.—The increase submitted herein for the salary of the Commissioner is deemed just and right in order to place the Land Office upon the same footing as to salary paid as now exists in bureaus of like character in this and the other Departments.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, General Land Office—Continued.</i>							
Assistant Commissioner (increase of \$1,000 submitted).. {	July 7, 1884	23	186	1	} \$4,000 00		
	Feb. 26, 1889	25	735	1			
NOTE.—The increase submitted herein is thought to be in keeping with the duties and responsibilities of the position. This officer is required to devote all his time and attention to the routine business of the office; keep himself posted in the laws and decisions of the Department, and be ready at any time to discharge the duties of the Commissioner. The estimate submitted is deemed very reasonable for the legal knowledge and standing required for the position, and Congress should grant the same.							
Chief clerk..... {	Feb. 26, 1889	R. S.	74	440	} 2,250 00		
		25	735	1			
Two law-clerks, at \$2,200 each..... {	Mar. 3, 1875	18	364	1	} 4,400 00		
	Feb. 26, 1889	25	735	1			
Three inspectors of surveyors-general and district land offices, at \$2,000 each..... {	Aug. 5, 1882	22	247	1	} 6,000 00		
	Feb. 26, 1889	25	735	1			
Twelve chiefs of divisions, at the salary indicated by the figures opposite the names of the respective divisions, viz.: Recorder, \$2,000; principal clerk of private land claims, \$2,000; principal clerk of public lands, \$2,000; principal clerk of surveys, \$2,000; division of accounts, \$2,000; division of contests, \$2,000; railroads, \$2,000; draughting, \$2,000; swamp, \$2,000; mineral, \$2,000; pre-emption, \$2,000; and special service, \$2,000 (in lieu of three principal clerks, at \$1,800 each, and eight chiefs of division additional, submitted)..... {	Feb. 26, 1889	R. S.	76	447-9	} 24,000 00		
		25	735	1			
NOTE.—The chiefs of divisions have, respectively, charge of a particular class of work, and of the clerical force employed thereon. They must know, generally, the rules of the office, and the laws governing the land system, the relations of the classes being so intermixed as frequently to involve nearly all of them in the consideration of a single case. No higher service is performed by the subordinate officers of any Department, not excepting the Treasury, where salaries range from \$2,250 to \$3,000.							
Two law examiners, at \$2,000 each..... {	July 31, 1886	24	199	1	} 4,000 00		
	Feb. 26, 1889	25	735	1			
Ten principal examiners of land claims and contests, at \$2,000 each..... {	July 11, 1888	25	285	1	} 20,000 00		
	Feb. 26, 1889	25	735	1			
Thirty-two clerks of class four (reduction of eight)..... {	Feb. 26, 1889	R. S.	27	167	} 57,600 00		
		25	735	1			
Sixty-four clerks of class three (increase of four submitted).....	Same acts.....				102,400 00		
Seventy-four clerks of class two (increase of four submitted).....	do.....				103,600 00		
Eighty clerks of class one (increase of five submitted).....	do.....				96,000 00		
Fifty-seven clerks, at \$1,000 each (increase of two submitted)..... {	Aug. 5, 1882	22	247	1	} 57,000 00		
	Feb. 26, 1889	25	735	1			
Sixty copyists, at \$900 each (increase of ten submitted)..... {	Feb. 26, 1889	R. S.	27	167-9	} 54,000 00		
		25	735	1			
One chief messenger.....	Submitted.....				1,000 00		
Two messengers, at \$840 each.....	do.....				1,680 00		
NOTE.—This office is without a chief messenger or messenger, and it is deemed for the good of the service that Congress should provide for this very necessary service.							
Nine assistant messengers, at \$720 each..... {	Feb. 26, 1889	R. S.	27	167-9	} 6,480 00		
		25	735	1			
Six packers, at \$720 each.....	Same acts.....				4,320 00		
Twelve laborers, at \$660 each.....	do.....				7,920 00		
						\$561,650 00	\$525,770 00
<i>Expenses of Inspectors, General Land Office—</i>							
Per diem, in lieu of subsistence, of inspectors, and of clerks, detailed to investigate fraudulent land entries, trespasses on the public lands, and cases of official misconduct, also of clerks detailed to examine the books of, and assist in opening, new land offices, while traveling on duty, at a rate to be fixed by the Secretary of the Interior, not exceeding \$3 per day, and for actual necessary expenses of transportation.....	Appropriated..	25	735	1	10,000 00	10,000 00	
<i>Library, General Land Office—</i>							
Law books for the law library of the General Land Office..	Appropriated..	25	735	1	500 00	500 00	
<i>Maps of the United States—</i>							
Connected and separate United States and other maps prepared in the General Land Office.....	Appropriated..	25	735	1	10,000 00	15,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. DEPARTMENT OF AGRICULTURE.							
NOTE.—The following estimates are in accordance with a proposed reorganization of the Department of Agriculture. Divisions, which have heretofore been branches merely of the Secretary's Office, have been given a separate organization; specialists in one branch of science, but employed in separate divisions, have been consolidated under one chief, and a division created therefor; clerks and other annual employes, now paid out of miscellaneous or bulk appropriations, have been estimated for specifically, it being the intention to abolish their positions on such appropriations, and new divisions are proposed where necessary to improve the efficiency of the Department and for the better conduct of the public business.

MISCELLANEOUS.							
Collecting Agricultural Statistics— Division of statistics: Collecting domestic and foreign agricultural statistics, expenses of local investigations and compilations, and necessary traveling expenses; statistical publications furnishing data for permanent comparative records; compiling, writing, and illustrating statistical matter for monthly, annual, and special reports, and the necessary expenses of the same, including paper and envelopes, postal-cards, and postage-stamps..... Provided, That fifteen thousand dollars of this sum, or so much thereof as may be necessary, may be expended for the preparation and printing of maps and charts, illustrating the progress of rural production and crop distribution of the United States, and for special investigation of the agricultural statistics of the States and Territories of the Rocky Mountain region, with traveling and other necessary expenses connected therewith. NOTE.—This increase is for the purpose of enabling the Secretary of Agriculture to establish State agricultural agencies in each State and Territory.	Appropriated..	25	839	1	\$100 000 00	\$75, 000 00
Botanical Investigations and Experiments— Division of botany: Purchasing specimens, paper, and all necessary materials for the herbarium and for labor in preparing same; for investigations and experiments with grasses and forage plants, including the establishment and maintenance of experimental grass stations, and of other economic and medicinal plants, and for traveling and other necessary expenses connected therewith; and for employing local botanists for exploration and collection of plants in little known districts, and for special work for the improvement of the herbarium and for artists for drawing and engraving..... And the unexpended balance of appropriations under this head for the current fiscal year is hereby re-appropriated and made available for the fiscal year eighteen hundred and ninety-one.	Appropriated..	25	936	1	40, 000 00	20, 000 00
Investigating the History and Habits of Insects— Division of entomology : Promotion of economic entomology; investigating the history and habits of insects injurious and beneficial to agriculture, arboriculture, and horticulture; experiments in ascertaining the best means of destroying them; publishing reports thereon, and for illustrations, chemicals, traveling and other expenses in the practical work of the division of entomology..... NOTE.—The object of the increase of \$5,000 asked is the necessity for increased field-work and the specific encouragement of apiculture.	Appropriated..	25	837	1	25, 000 00	20, 000 00
Silk Culture, Sericulture— Division of entomology : To enable the Secretary of Agriculture to collect and disseminate information relating to silk culture; purchasing and distributing silk-worm eggs, and conducting at some point in the District of Columbia experiments with automatic machinery for reeling silk from the cocoon, and for expenses incurred in collecting, purchasing, preparing for transportation, and transporting cocoons, and for expenses of stations in connection therewith, and for necessary traveling expenses..... And the Secretary of Agriculture is hereby authorized to sell in open market any and all reeled silk and silk-waste produced in these experiments, and to apply the proceeds of such sales to the payment of the legitimate expenses incurred therein; and the Secretary of Agriculture shall make full report to Congress of the experiments herein provided for, and also of all sales and purchases made under this paragraph, with the names and residences of all producers of cocoons of whom purchases are made.	Appropriated..	25	837,'8	1	20, 000 00	*30, 000 00

* \$10,000 of this amount was for miscellaneous purposes.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
<i>Investigations in Ornithology and Mammalogy—</i> Division of economic ornithology and mammalogy : Promotion of economic ornithology and mammalogy ; an investigation of the food habits, distribution, and migrations of North American birds and mammals, in relation to agriculture, horticulture, and forestry ; publishing report thereon ; and for illustrations, field-work, traveling and other expenses in the practical work of the division, fifteen thousand dollars, of which sum one thousand dollars shall be immediately available.....	Appropriated..	25	838	1	\$15,000 00	\$7,000 00
<i>Pomological Information—</i> Division of pomology : Traveling and other necessary expenses in investigating, collecting, and disseminating pomological information....	Appropriated..	25	837	1	5,000 00	4,000 00
<i>Investigation of Food Adulterations, and Investigations and Experiments relating to Textile Fibers—</i> Division of microscopy : Microscopical apparatus, chemicals, photographic illustrations and drawings and other necessary supplies ; traveling expenses ; the purchase of food-samples and condiments in the investigation of the adulteration of foods ; the purchase of textile fibers, and ascertaining their relative strength and forms, and for experiments in decorticating and cleansing fibers.....	Appropriated..	25	837	1	5,000 00	1,000 00
<i>Vegetable Pathological Investigations and Experiments—</i> Division of vegetable pathology : Investigating the nature of the diseases injurious to fruits, fruit-trees, grain, cotton, and other useful plants ; experiments in the treatment of the same ; chemicals and apparatus required in the field and laboratory ; necessary traveling expenses ; the preparation of drawings and illustrations ; and for other expenses connected with the practical work of the investigation..... Of which so much thereof as may be directed by the Secretary may be applied to the investigation of peach yellows, the California grape disease, root rot and blight of cotton, pear blight, the diseases of the orange, and remedies therefor. NOTE.—Formerly section of vegetable pathology in botanical division.	Appropriated..	25	837	1	15,000 00	15,000 00
<i>Laboratory—</i> Division of chemistry : Chemical apparatus, chemicals, laboratory fixtures and supplies, purchase of samples, and necessary expenses in conducting special investigations, including necessary traveling expenses, labor, and expert work in such investigations..... To enable the Secretary of Agriculture to extend and continue the investigation of the adulteration of food, drugs, and liquors, including the purchase of samples, transportation, traveling expenses, stationery, return postage, printing and illustrating, analyzing, investigating, and examining samples purchased on the open market, the sum of five thousand dollars, to be made immediately available ; and for these purposes the Secretary of Agriculture is authorized to employ such assistants, clerks, and other persons as he may deem necessary : <i>Provided</i> , That the Secretary is hereby required to make a separate report to Congress as to when and where the samples of food, liquors, and drugs were purchased, when and where analyzed, and the result of such analysis, together with the name of the manufacturer and the brand or label on the package or article.....	Appropriated..	25	837	1	\$6,000 00		
	do.....				5,000 00	11,000 00	11,000 00
<i>Report on Forestry—</i> Division of forestry : To enable the Secretary of Agriculture to experiment and to continue an investigation and report upon the subject of forestry, and for traveling and other necessary expenses in the investigation and the collection and distribution of valuable economic forest-tree seeds and plants..... General object (title or appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Illustrations and Engraving—</i> Division of illustrations and engraving: Tools, instruments, paper, ink, paints, pencils, and other necessary materials.....	Submitted.....					\$2,000 00	
<i>Purchase and Distribution of Seeds:</i> Seed division: Purchase, propagation, and distribution, as required by law, of seeds, bulbs, trees, shrubs, vines, cuttings, and plants, and expenses of labor, transportation, paper, twine, gum, printing, postal cards, and all necessary material and repairs for putting up and distributing the same, and to be distributed in localities adapted to their culture..... An equal proportion of two-thirds of all seeds, trees, shrubs, vines, cuttings, and plants, shall, upon their request, be supplied to Senators, Representatives, and Delegates in Congress, for distribution among their constituents; and the person receiving such seeds shall inform the Department of results of the experiments therewith: <i>Provided</i> , That all seeds, plants, and cuttings herein allotted to Senators, Representatives, and Delegates to Congress for distribution remaining uncalled for at the end of the fiscal year shall be distributed by the Secretary of Agriculture: <i>And provided also</i> , That the Secretary shall report, as provided in this act, the place, quantity, and price, of seeds purchased, and the date of purchase. But nothing in this paragraph shall be construed to prevent the Secretary of Agriculture from sending flower, garden, and other seeds to those who apply for the same. And the amount herein appropriated shall not be diverted or used for any other purpose but for the purchase, propagation, and distribution of improved and valuable seeds, bulbs, trees, shrubs, vines, cuttings, and plants: <i>But provided, however</i> , That the Secretary shall not distribute to any Senator, Representative, or Delegate seeds entirely unfit for the climate and locality he represents, but shall distribute the same so that each member may have seeds of equal value, as maybe, and the best adapted to the locality he represents. Printing seed-pockets, labels, postal-cards, circulars, and so forth, labor, paper, ink, type, and other necessary material for printing, and for repairing presses.....	Appropriated..	R. S. 25	88 838,9	527 1	\$100,000 00		
	Same acts.....				4,200 00	104,200 00	\$104,200 00
<i>Document and Folding-Room—</i> Paper, gum, twine, and other necessary materials.....	Submitted.....					2,000 00

		Vol. or R. S.	Page.	Sec.			
Furniture, Cases, and Repairs— Repairing buildings, heating apparatus, furniture, carpeting, matting, water and gas pipes, new furniture, and all necessary material and labor for the same, including lumber, hardware, glass, and paints..... Two thousand dollars, or so much thereof as may be necessary, to be available for furniture, cases, and repairs for the fiscal year ending June 30, 1890.	Appropriated..	25	839	1	\$12,000 00	\$7,350 00
Library— Purchase of necessary books, periodicals, and papers, and for expenses incurred in completing imperfect series....	Appropriated..	25	839	1	2,000 00	2,000 00
Postage— Postage on return-letters, circulars, and miscellaneous articles for correspondents and foreign mail.....	Appropriated..	25	840	1	5,000 00	4,000 00
Contingent Expenses— Stationery, twine, paper, gum, dry goods, soap, brushes, brooms, mats, oils, paints, glass, lumber, hardware, ice, fuel and lights, freight, express charges, advertising, telegraphing, purchasing supplies, and washing towels; the purchase, subsistence and care of horses; the purchase and repairs of harness; expenses of sales of old material; actual traveling expenses while on the business of the Department; and other miscellaneous supplies and expenses not otherwise provided for, and necessary for the practical and efficient work of the Department..... Five thousand dollars, or so much thereof as may be necessary, to be available for contingent expenses incurred during the fiscal year ending June 30, 1890.	Appropriated..	25	840	1	25,000 00	15,000 00
Salaries and Expenses, Bureau of Animal Industry— For carrying out the provisions of the act of May 29, 1884, establishing the Bureau of Animal Industry, four hundred thousand dollars; and the Secretary of Agriculture is hereby authorized to use any part of this sum he may deem necessary or expedient, and in such manner as he may think best, to prevent the spread of pleuro-pneumonia, and for this purpose to employ as many persons as he may deem necessary, and to expend any part of this sum in the purchase and destruction of diseased or exposed animals and the quarantine of the same whenever in his judgment it is essential to prevent the spread of pleuro-pneumonia from one State into another. The authority granted to the Commissioner of Agriculture by the act of May 29, 1884, establishing the Bureau of Animal Industry, and by the provision of the appropriation act for the Agricultural Department, approved July 18, 1888, relating to said Bureau, is hereby vested in the Secretary of Agriculture; and the said Secretary is hereby authorized and directed to perform all the duties named in said acts and all other acts of Congress in force on February 8, 1889, to be performed by the Commissioner of Agriculture.....	May 29, 1884 Appropriated..	23 25	31 839	1-11 1	}	400,000 00	500,000 00
Quarantine Stations for Neat-Cattle— To establish and maintain quarantine stations, and to provide proper shelter for and care of neat-cattle imported, at such ports as may be deemed necessary...	Appropriated..	25	840	1	15,000 00	15,000 00
Agricultural Experiment Stations— To enable the Secretary of Agriculture to carry out the provisions of section three of an act approved March 2, 1887, entitled "An act to establish agricultural experiment stations in connection with the colleges established in the several States, under the provisions of an act approved July 2, 1862, and of the acts supplementary thereto," twenty-five thousand dollars; and the Secretary of Agriculture is hereby authorized to employ such assistants, clerks, and other persons as he may deem necessary, and to incur such other expenses in traveling, stationery, and office fixtures as he may find essential in carrying out the object of the above acts..	Mar. 2, 1887 June 7, 1888 July 18, 1888 Mar. 2, 1889	24 25 25 25	440 176 334 840	1-10 1 1 1	}	25,000 00	15,000 00

NOTE.—The sum required to maintain forty-two experiment stations in the several States and Territories, namely, \$630,000, is not included in these estimates, for the reason that that sum does not form any part of the annual expenses of the Department of Agriculture, the appropriation referred to being permanent rather than annual. (Secretary of Agriculture.)

[The estimate for this object will be found under Treasury Department. Miscellaneous chapter.]

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

COMMANDING-GENERAL'S OFFICE.							
<i>Expenses of the Commanding-General's Office—</i>							
To defray the contingent expenses of the Commanding-General's Office.....	{ Mar. 3, 1875 Mar. 3, 1883 Mar. 3, 1885 June 30, 1886 Feb. 9, 1887 Mar. 2, 1889	{ 18 22 23 24 24 25	{ 452 456 356 99 401 834	{ 1 1 1 1 1 1	} \$1,750 00	\$1,750 00	\$1,200 00
NOTE.—The amount estimated for in excess of the appropriation for the current year is deemed necessary to defray the legitimate expenses of the office, the present appropriation being inadequate therefor. For the fiscal year ending June 30, 1886, \$10,000 was allowed; from 1868 to 1876, \$5,000 each year; for 1877, \$3,000; from 1878 to 1883, \$2,500 each year, for 1884, 1885, and 1886, \$1,750 each year, a sum not more than sufficient to purchase the necessary supplies and books of reference required for the office. <i>—(J. M. Schofield, Major-General, Commanding.)</i>							
ADJUTANT-GENERAL'S DEPARTMENT.							
<i>Expenses of Recruiting—</i>							
Expenses of recruiting and transportation of recruits from rendezvous.....	Mar. 2, 1889	25	833	1	\$113,696 00		
Additional expenses in keeping recruits at recruiting depots for six months before assignment to regiment....	Submitted.....				25,000 00		
To defray expenses of sending recruiting parties to small towns and rural districts adjacent to recruiting rendezvous.....	do.....				35,000 00		
NOTE.—The number of recruits now required to fill the Army is..... 802 The number of men to be discharged on expiration of term during the year ending June 30, 1891, is..... 3,829 The loss by discharge for disability, under the sentences of courts-martial, by desertion, death, retirement, etc., as determined by the average for the three years past, will be..... 4,889 Making the number to be enlisted to keep the Army at its authorized strength of 25,000 men..... 9,520 The number that will be enlisted at military posts without expense is about..... 2,720 Leaving the number to be estimated for at a cost of \$16.72 for each recruit, which is the average cost of each recruit obtained at rendezvous during the three years ending June 30, 1889..... 6,800 <i>—(J. C. Kelton, Adjutant-General.)</i>						173,696 00	113,000 00
<i>Contingencies, Adjutant-General's Department—</i>							
Contingent fund of the Adjutant-General's Department at the headquarters of the several military divisions and departments, being for the purchase of the necessary articles of office, toilet, and desk furniture, stationery, binding, maps, books of reference, police utensils, etc.....	Mar. 2, 1889	25	834	1	2,500 00	2,000 00
INSPECTOR-GENERAL'S DEPARTMENT.							
<i>Contingencies, Inspector-General's Department—</i>							
Contingent fund of the Inspector-General's Department at the headquarters of the several military divisions and departments, for the purpose of binding orders and the purchase of maps, books of reference, professional literature, desk furniture, stationery, police utensils, etc. (an additional \$500 submitted).....	Mar. 2, 1889	25	834	1	1,000 00	500 00
NOTE.—The appropriation for current fiscal year provided only for purchase of maps and binding current orders. It is necessary that the other articles estimated for should be furnished.—(<i>J. C. Breckinridge, Inspector-General.</i>)							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

OFFICE OF THE CHIEF SIGNAL OFFICER.							
Signal Service of the Army—							
Expenses of the Signal Service of the Army, as follows:							
Purchase, equipment, and repair of the field electric telegraph, signal equipments and stores, field-glasses, telescopes, binocular telescopes, heliographs, and other requisite instruments, including absolutely necessary meteorological instruments for use on target-ranges; telephone apparatus, and maintenance of same, and for such other absolutely necessary expenses as may be required.....	July 21, 1860 Feb. 22, 1862 July 28, 1866 Aug. 7, 1882 Mar. 3, 1887 Mar. 2, 1889	12 12 14 22 24 25	66 344 335 319 401 833	1 1, 2 22 1 1 1	}.....\$10, 000 00		\$5, 000 00
NOTE.—The amount appropriated for the fiscal year ending June 30, 1889 (\$5,000), was barely sufficient to meet the most urgent demands incidental to the orders requiring instruction in signaling at military posts.							
The field-telegraph train, the most valuable appurtenance of the service in a military point of view, has been neglected, is stripped of all requisites, and gradually decaying in open sheds. Means are needed to keep it in repair and equip at least one section with the necessary instruments—wire, battery, lances, insulators, etc., ready for emergency.							
Target-ranges for small arms and artillery practice can not, with the most judicious application of funds available, receive the attention due to their importance. One single requisition from the Army headquarters, urgently recommended by the major-general commanding, for instruments and apparatus to equip eleven (11) of the most important artillery ranges, represented a money value of over \$6,000, and could only be partly filled.—(A. W. Greeley, Chief Signal Officer.)

SUBSISTENCE DEPARTMENT.							
<i>Subsistence of the Army—</i>							
Purchase of subsistence supplies: For issue, as rations to troops, civil employes when entitled thereto, contract-surgeons, hospital-matrons, military convicts at posts, prisoners of war (including Indians held by the Army as prisoners, but for whose subsistence appropriation is not otherwise made), estimated for the fiscal year on the basis of ten million two hundred and thirty-eight thousand nine hundred and eighty rations; for sales to officers and enlisted men of the Army; for authorized extra issues of candles, and salt and vinegar for public animals; for issues to Indians visiting military posts, and to Indians employed with the Army, without pay, as guides and scouts. For payments: For cooked rations for recruiting parties and recruits; for hot coffee, canned beef, and baked beans for troops traveling, when it is impracticable to cook their rations; for scales, weights, measures, utensils, tools, stationery, blank books and forms, printing, advertising, commercial newspapers, use of telephones, office furniture; for temporary buildings, cellars, and other means of protecting subsistence supplies (when not provided by the Quartermaster's Department); for bake-ovens at posts and in the field, and repairs thereof; for extra pay to enlisted men employed on extra duty in the Subsistence Department for periods of not less than ten days, at rates fixed by law; for compensation of civilians employed in the Subsistence Department, and for other necessary expenses incident to the purchase, care, preservation, issue, sale, and accounting for subsistence supplies for the Army. For the payment of the regulation allowances for commutation in lieu of rations: To enlisted men on furlough, to ordnance-sergeants on duty at ungarrisoned posts, to enlisted men stationed at places where rations in-kind can not be economically issued, to enlisted men traveling on detached duty when it is impracticable to carry rations of any kind, to enlisted men selected to contest for places or prizes in department, division, and Army rifle competitions while traveling to and from places of contest; to be expended under the direction of the Secretary of War; in all.....

Estimated at 20 cents each.

In making the estimate at 20 cents, the losses from wastage in issuing, damage in transportation, shrinkage, and deterioration while on hand, necessary abandonment or destruction in the field, and all expenses indicated in the appropriation for subsistence of the Army for the fiscal year ending June 30, 1890, have been considered and are included, and it is made on the basis of the average cost of the components of the ration for a number of years. It is impossible to know in advance the cost of any one of these components.

The number of rations estimated for the enlisted men of the hospital corps and for hospital matrons is based on report of the Surgeon-General as to the probable number of each of these classes of persons in service in the fiscal year 1891, and is in excess of similar items in the annual estimate for preceding fiscal year. The number of rations estimated for civil employes and for contract surgeons is based on reports of the Quartermaster-General and Surgeon-General, respectively, and is less than in the annual estimate for the preceding fiscal year. These changes result in a net decrease of the total of this estimate below the one for the fiscal year 1890 of \$11,169.—(E. Macfeely, Commissary-General of Subsistence.)

QUARTERMASTER'S DEPARTMENT.

Regular Supplies—

Regular supplies of the Quartermaster's Department, consisting of stoves and heating apparatus, and repair and maintenance of the same; for heating offices and barracks and quarters; of ranges, stoves, and appliances for cooking and serving food; of fuel and lights for enlisted men, guards, hospitals, storehouses and offices, and for sales to officers; of forage in kind, including its protection, for the horses, mules, and oxen of the Quartermaster's Department at the several posts and stations, and with the armies in the field; for the horses of the several regiments of cavalry; the batteries of artillery, and such companies of infantry and scouts as may be mounted, and for the authorized number of officers' horses, including bedding for the animals; of straw for soldiers' bedding, and of stationery, including blank books for the Quartermaster's Department, certificates for discharged soldiers, blank forms for the Pay and Quartermaster's Departments, and for printing division and department orders and reports: *Provided*, That no part of this appropriation shall be expended in printing, unless the same shall be done by contract, after due notice and competition, except in cases where the emergency will not admit of giving notice for competition.

<i>Manufacture of Arms—</i>							
Manufacture of arms at the national armories.....	Mar. 2, 1889	25	832	1	\$400,000 00	\$400,000 00
<i>Provided</i> , that section 3709 of the Revised Statutes shall not apply to the purchase of supplies not exceeding in value the sum of two hundred dollars.							
NOTE.—Besides supplying the Regular Army, the militia, the various colleges, and the other branches constituting the Military Establishment, the War Department has now to supply arms, ammunitions, etc., to the Marine Corps and to the several Executive Departments for use in protecting public money and property, under the act of March 3, 1879 (20 Stats., 412). The increased cost of the present breech-loading rifle, the greater demand for its use, and paucity of the appropriations of late years, have left the country in a dangerous condition, there being on hand July 1, 1889, subject to issue but 241,706 breech-loading rifles and carbines. It is of the most vital importance to the nation that the manufacture of arms by this Department be steadily continued in quantities sufficient to render a gradual accumulation of them in store a certainty.—(E. Birnie, Jr., Capt. Ord. Dept., U. S. A., Acting Chief of Ordnance.)

		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—</i>							
Repairs and improvements, viz. : Timber, planks, boards, joists, wall-strips, laths, shingles, slate, tin, sheet-lead, zinc, nails, screws, locks, hinges, glass, paints, turpentine, oils, varnish, brushes, stone, brick, flag, lime, cement, plaster, hair, sewer and drain pipe, blasting-powder, fuse, iron, steel, tools, machinery, mantels, and other materials, and for pay of overseer and master-builder and citizen mechanics, and labor employed upon repairs and improvements that can not be done by enlisted men.....	Feb. 12, 1889	25	663	1	\$20,000 00		
<p>NOTE.—The increase asked for under this appropriation is due to the fact that the limited appropriation heretofore given has prevented the adoption of the most economical system of repairs and improvements. Nearly all the quarters at the post are old, many of them being built as far back as from 1816 to 1829; consequently when repairs are commenced it is advisable almost to rebuild the interior, and the small appropriation does not admit of doing the work thoroughly. This in the course of a year or so necessitates a second overhauling, and it so continues from year to year. Again, the small appropriations render it utterly impossible to make the repairs when the damage first commences, and in a climate like this inability to make repairs when the necessity first arises results in a greatly increased expense when the repairs can no longer be deferred. It should, also, be stated that this increase was not asked for until personal experience conclusively shewed the impossibility of correcting the state of affairs existing here. The truth is, the buildings during many years, for the want of funds, have been inadequately repaired, and the minute one examines the larger buildings closely, or leaves the plain, the fact becomes painfully evident. The amount asked for is a very small per cent. of the original cost, and I earnestly hope it will be granted as the one appropriation wherein the public interests here have the most involved and wherein the comfort of all persons in the post is largely concerned. The repairs during the last few years have, as a rule, been of a permanent nature, but the post is so large and the process is so slow that much discomfort results to those who wait.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Fuel and apparatus, viz. : Coal, wood, charcoal, stoves, grates, heaters, furnaces, ranges and fixtures, fire-bricks, clay, sand, repairs of steam-heating apparatus, grates, stoves, heaters, ranges, and furnaces, mica.....do.....				15,000 00

<p>NOTE.—The increase (\$200) in this estimate is based upon the fact the appropriation last year was inadequate to satisfactorily meet the demands of this office and the several departments of the Military Academy, and from present indications it is thought that the appropriation will be barely able to fill all requisitions made upon it for the current fiscal year owing to the increased amount used in advertising for supplies.—(Capt. Chas. W. Williams, A. Q. M.)</p>

Department of natural and experimental philosophy :							
Additions to apparatus to illustrate the principles of mechanics, acoustics, optics, and astronomy.....	Feb. 12, 1889	25	663	1	1,000 00		
Books of reference, text-books, stationery, materials, and repairs.....	do.				400 00		
Pay of mechanic assistant.....	do.				1,000 00		
Repairs to observatory building and clocks.....	do.				450 00		
Department of instruction in mathematics :							
Repairs, and materials for preservation of models and instruments.....	do.				50 00		
Text-books, books of reference, binding, and stationery for instructors.....	do.				125 00		
Contingencies.....	do.				25 00		
Department of history, geography, and ethics :							
Text-books, books of reference, and stationery for use of instructors, and repairs.....	Feb. 12, 1889	25	664	1	150 00		
Department of chemistry, mineralogy, and geology :							
Chemicals, chemical apparatus, glass and porcelain ware, paper, wire, sheet-metal, ores, photographic apparatus and materials.....	do.				500 00		
Rough specimens, fossils, files, alcohol, lamps, blow-pipes, pencils and paper for practical instruction in mineralogy and geology, and for gradual increase and improvement of the cabinet.....	do.				500 00		
Repairs and additions to electric, magnetic, pneumatic, and thermic apparatus, and apparatus for illustrating the optical properties of substances.....	do.				650 00		
Pay of mechanic employed in chemical and geological section-rooms and in lecture-rooms.....	do.				1,000 00		
Models, maps, and diagrams, books of reference, text-books, and stationery for the use of instructors.....	do.				180 00		
Contingencies	do.				100 00		
Department of drawing :							
Books and periodicals on art and technology.....	Feb. 12, 1889	25	665	1	100 00		
Models in flat and relief for second and third classes.....	do.				100 00		
Repairs to desks, models, stretchers, and material.....	do.				75 00		
Drawing and photographic material for the use of instructors, and contingencies.....	do.				250 00		
Photographic surveying camera and tripod.....	Submitted.....				200 00		
Steel rulers and triangles	do.				300 00		
NOTE.—The necessity for the steel rulers and triangles has been felt for some time, especially in the construction of large detailed drawings, undertaken during the second year, where great accuracy is demanded. It is earnestly desired to be able to supply each member of the second class, as well as advanced members of the third class, to whom special work is given, with a set of these rulers and triangles, to replace those of vulcanite now in use.							
It is also desired to make a careful study of the subject of photography applied to surveying. For this purpose an instrument fulfilling the requirements of rigidity and capability of accurate adjustment will have to be constructed from designs furnished by this department, as there is no instrument now in the market fulfilling the proper conditions. This item is, therefore, especially recommended to attention.—(Prof. C. W. Larned, U. S. M. A.)							
Relining portraits of Jefferson and Monroe.....	do.				200 00		
NOTE.—An inspection of these portraits, after taking them from their frames, has shown the canvas to be rotten and weak. In order to make the necessary repairs, the granting of the sum asked for is recommended.—(Prof. C. W. Larned, U. S. M. A.)							
Department of modern languages :							
Stationery, text-books, books of reference for the use of instructors, and for printing examination papers.....	Feb. 12, 1889	25	663	1	200 00		
Department of law :							
Stationery, text-books, and books of reference for use of instructors, and for repairing and rebinding same, and furniture for office.....	do.	25	664	1	250 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Department of practical military engineering:							
Purchase and repair of instruments; transportation; purchase of tools, implements, and materials, and for extra-duty pay of engineer soldiers, as follows, viz: instruments for use in instructing cadets in making reconnaissances; photographic apparatus and material for field photography; drawing instruments and material for platting reconnaissances; surveying instruments; instruments and materials for signaling and field telegraphy; transportation of field parties; tools and materials for the preservation, augmentation, and repair of one wooden ponton, and one canvas ponton-bridge train; sapping and mining tools and material, profiling material; rope; cordage, and material for rafts and for spar and trestle bridges; intrenching tools; tools and material for the repair of Fort Clinton and the batteries at the Academy, and extra pay of engineer soldiers employed upon the same; extra-duty pay of two engineer soldiers, at fifty cents per day each, when performing special skilled mechanical labor in the department of practical military engineering; for models, books of reference, and stationery...	Feb. 12, 1889	25	665	1	\$1, 200 00		
Department of ordnance and gunnery:							
Purchase and repairs of instruments, models, and apparatus, and purchase of necessary materials; for the purchase of samples of arms and accouterments other than those supplied to the military service; for the purchase and preparation of specimens for use in the testing machine; for books of reference, text-books, and stationerydo.....				400 00		
Stereotyping, and for making lithographic drawings illustrating revised course of instruction in ordnance and gunnery.....do.....				300 00		
<i>Provided</i> , That from the amounts so appropriated extra pay, at fifty cents per day, may be paid to an enlisted man while employed as a draughtsman.							
Extra pay of two enlisted men, employed as clerks in the offices of the adjutant, United States Military Academy, and commandant of cadets, at thirty-five cents per day...	Feb. 12, 1889	25	664	1	237 30		
Extra pay of three enlisted men as printers, at headquarters United States Military Academy, at fifty cents per day...do.....				469 50		
<i>NOTE.</i> —The necessity for the employment of an extra printer has arisen through increased demands from the various heads of departments of instruction in the matter of printing text-books and pamphlets for use of cadets. If these are not printed here heads of departments must necessarily send their work to regular publishers at more or less inconvenience to themselves, and greatly increased expense in the matter of text-books to the cadet.—(<i>Adjutant U. S. M. A.</i>)							
Extra pay of one enlisted man, employed as watchman, at thirty-five cents per day.....	Feb. 12, 1889	25	665	1	159 60		
Extra pay of one enlisted man as trumpeter, at the cadet-barracks, at thirty-five cents per day.....do.....				127 75		
Extra pay of one enlisted man, employed in the philosophical department, Observatory, as mechanic, at fifty cents per day.....do.....				156 50		
Extra pay of one enlisted man, employed in the chemical department, at fifty cents per daydo.....				156 50		
Extra pay of two enlisted men (cavalrymen), when performing special skilled mechanical labor, at fifty cents per daydo.....				313 00		
<i>Provided</i> , That the extra pay provided for by the seven preceding paragraphs shall not be paid to any enlisted man who receives extra-duty pay under existing laws or Army regulations.							
Expenses of the Board of Visitors, including mileage.....do.....				3, 000 00		
						\$66, 931 15	\$55, 129 65
<i>Miscellaneous Items and Incidental Expenses—</i>							
Gas-coal, oil, candles, lanterns, matches, chimneys, and wicking for lighting the Academy, chapel, library, cadet-barracks, mess-hall, shops, hospital, offices, stables and riding-hall, sidewalks, camp, and wharves	Feb. 12, 1889	25	665,'6	1	3, 500 00		
Water-pipe, plumbing, and repairs.....do.....				2, 000 00		
Cleaning public buildings (not quarters).....do.....				600 00		
Brooms, brushes, pails, tubs, soap, and cloths.....do.....				200 00		
Chalk, crayons, sponges, slate, rubbers, and card for recitation-rooms.....do.....				300 00		
Compensation of chapel organist.....do.....				200 00		
Compensation of librarian.....do.....				120 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Miscellaneous Items and Incidental Expenses—Continued.</i>							
Pay of engineer of heating and ventilating apparatus for the academic building, the cadet-barracks, and office building, cadet hospital, chapel, and philosophical building, including the library.....	Feb. 12, 1889	25	665,'6	1	\$1,500 00		
Pay of assistant engineer of same.....do.....				1,000 00		
Pay of five firemen.....do.....				2,700 00		
Pay of librarian's assistant.....do.....				1,000 00		
Pay of one landscape gardener.....	Submitted.....				1,500 00		
<i>NOTE.—The prominent place this Academy occupies among the schools of the world warrants the belief that its grounds should be placed and kept in the best possible condition. Its reservation contains about 2,200 acres, a large part of which should be tastefully improved. In order to do this the services of one skilled in the culture of trees, shrubs, and plants, and with a practical knowledge of civil engineering as applied to landscape gardening is indispensable.—(Capt. C. W. Williams, A. Q. M.)</i>							
Increase and expense of library:							
Periodicals, stationery, binding new books, and scientific, historical, biographical, and general literature; to be purchased in open market on the written order of the Superintendent.....	Feb. 12, 1889	25	666	1	2,000 00		
Binding books.....	Submitted.....				500 00		
Repairing worn-out books; for furniture and contingent repairs of library rooms.....	Feb. 12, 1889	25	666	1	200 00		
Furniture for cadet-hospital, and repairs of the same.....do.....				100 00		
Contingencies for Superintendent of the Academy.....do.....				1,000 00		
Renewing furniture in section-rooms, and repairing the same.....do.....				500 00		
Repairs, upholstering, and carpeting the Academy chapel.....do.....				1,000 00		
<i>NOTE.—The amount appropriated for this purpose during fiscal year 1889-'90 was entirely inadequate. The chapel requires about 750 yards of carpet, from which fact the insufficiency of last year's appropriation is evident.—(Capt. C. W. Williams, A. Q. M.)</i>							
Contingent funds to be expended under the direction of the Academic Board: For instruments, books, repairs to apparatus, and other incidental expenses not otherwise provided for.do.....				1,000 00		
<i>Provided, That all technical and scientific supplies for the departments of instruction of the Military Academy shall be purchased by contract or otherwise, as the Secretary of War may deem best.</i>							
Purchase and repair of instruments for band; to be purchased in open market on order of Superintendent, and to be immediately available upon approval of this act.....do.....				900 00		
<i>NOTE.—The above amount is required to replace and repair instruments fourteen years in service.—(Commanding officer, U. S. M. A. Band.)</i>							
<i>The estimate for buildings and grounds, Military Academy, will be found under the title "Public Works," post.</i>							
Total Military Academy.....						338,530 11	297,104 73
Total Military Establishment.....						25,403,148 86	24,121,720 46

	R. S.	265	1556			
	R. S.	269	1569			
	R. S.	269	1573			
	R. S.	272	1595			
May 12, 1879	21	3	1				
Aug. 5, 1882	22	285-7	1				
Mar. 3, 1883	22	472,'3	1		}		
Mar. 3, 1885	23	340	1				
Mar. 2, 1889	25	809	1				
NOTE.—The foregoing estimate is made up as follows:							
Pay of 1,518 officers on the active list.....							\$3, 466, 250
Pay of 270 naval cadets under instructions.....							135, 000
Pay of 346 officers on the retired list.....							801, 762
Pay of 2 secretaries and 92 clerks.....							121, 300
Pay of petty officers, seamen, landsmen, and boys..							3, 000, 000
Extra pay of petty officers and seamen re-enlisting under honorable discharge (1,200) at an average of \$110.....							132, 000
Total.....							7, 656, 312
For a detailed statement of the officers, &c., of the Navy, see Appendix "T."							
Pay, Miscellaneous—							
Commissions and interest; transportation of funds; exchange; mileage to officers while traveling under orders in the United States, and for actual personal expenses of officers while traveling abroad under orders, and for traveling expenses of apothecaries, yeomen, and civilian employes, and for actual and necessary traveling expenses of naval cadets while proceeding from their homes to the Naval Academy for examination and appointment as cadets; for rent and furniture of buildings and offices not in navy-yards; expenses of courts-martial, prisoners and prisons, and courts of inquiry, boards of investigation, examining boards, with clerks and witnesses' fees, and traveling expenses and costs; stationery and recording; expenses of purchasing-paymasters' offices of the various cities, including clerks, furniture, fuel, stationery, and incidental expenses; newspapers and advertising; foreign postage; telegraphing, foreign and domestic; telephones; copying; care of library, including purchase of books, prints, manuscripts, and periodicals; ferriage, tolls, and express-fees; costs of suits; commissions, warrants, diplomas, and discharges; relief of vessels in distress; canal tolls and pilotage; recovery of valuables from shipwrecks; quarantine expenses; reports, professional investigation, cost of special instruction at home or abroad in maintenance of students and attachés, and information from abroad and the collection and classification thereof, and other necessary incidental expenses.....	Mar. 2, 1889	25	809	1	240, 000 00	225, 000 00
Contingent, Navy—							
All emergencies and extraordinary expenses arising at home or abroad, but impossible to be anticipated or classified, exclusive of personal services in the Navy Department or any of its subordinate bureaus or offices at Washington, D. C.....	Mar. 2, 1889	25	810	1	7, 000 00	7, 000 00
BUREAU OF NAVIGATION.							
Purchase of Farmer's House, Coaster's Harbor Island, R. I.—							
Purchase of the Farmer's House on Coaster's Harbor Island, erected by W. A. Whaley, at his expense, under permission granted him by the Secretary of the Navy, September 26, 1884	Submitted.....				2, 250 00	
Gunnery Exercises—							
Prizes for excellence in gunnery exercises and target-practice; for the establishment and maintenance of targets and ranges; for hiring established ranges, and for transportation to and from ranges.....	Submitted.....				10, 000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. o R. S.	Page.	Sec.			
<i>Repairs, Bureau of Ordnance—</i> Necessary repairs to ordnance buildings, magazines, gun-parks, boats, lighters, wharves, machinery, and other objects of the like character.....	Mar. 2, 1889	25	811	1	\$15,000 00	\$15,000 00
<i>Contingent, Bureau of Ordnance—</i> Miscellaneous items, viz: Freight to foreign and home stations; advertising; cartage and express charges; repairs to fire-engines; gas and water pipes; gas and water tax at magazines; toll, ferriage, foreign postage, and telegrams to and from the Bureau.....	Mar. 2, 1889	25	811	1	10,000 00	8,000 00
<i>Civil Establishment, Bureau of Ordnance—</i> Navy-yard, Portsmouth, N. H.: One writer	{ Jan. 30, 1885 Mar. 2, 1889	{ 23 25	{ 295 811	{ 3 1	{ \$500 00 500 00		
Navy-yard, Boston, Mass.: One writer	Same acts.....				500 00		
Navy-yard, New York: One clerkdo.....				1,400 00		
Navy-yard, Washington, D. C.: One clerk.....do.....				1,800 00		
Two clerks, at \$1,200 each.....	Submitted.....				2,400 00		
Two writers, at \$1,017.25 each	{ Jan. 30, 1885 Appropriated..	{ 23 25	{ 295 811, 2	{ 3 1	{ 2,034 50 1,800 00		
One draughtsman	Same acts.....				3,243 00		
Three draughtsmen, at \$1,081 eachdo.....				772 00		
One assistant draughtsman.....do.....				3,000 00		
Two foreman, at \$1,500 each.....do.....				1,440 00		
Two copyists, at \$720 each.....do.....				900 00		
One telegraph operator and copyist.....do.....				1,200 00		
Navy-yard, Norfolk, Va.: One clerk.....do.....				1,017 25		
Navy-yard, Mare Island, Cal.: One writerdo.....				1,017 25		
Naval ordnance proving-ground, Annapolis, Md.: One writerdo.....				2,500 00		
Naval torpedo-station and War College, Newport, R. I.: One chemist.....do.....				1,200 00		
One clerk.....do.....				1,500 00		
One draughtsman.....do.....					28,224 00	24,525 00
NOTE.—The above estimate adds two clerks at \$1,200 each to the office force at the Washington navy-yard, and increases the pay of the present clerk, \$200, and the principal draughtsman \$255. These are very laborious and responsible positions, and are filled by most efficient and excellent men, who should have the rate of pay estimated for. The estimate also substitutes two foreman at \$1,500 each in place of the one foreman now employed at \$2,156. This change is rendered necessary by the larger organization of the gun factory.							
<i>Torpedo Corps and War College—</i> Labor, material, freight and express charges; general care of and repairs to grounds, buildings, and wharves; boats; instruction; instruments; tools; furniture; experiments, and general torpedo outfits, and maintenance of the Naval War College on Goat Island.....	Mar. 2, 1889	25	812	1	60,000 00	75,000 00
BUREAU OF EQUIPMENT AND RECRUITING.							
<i>Equipment of Vessels—</i> Purchase of coal, including expenses of transportation, storage and handling the same; hemp, wire, and other materials for the manufacture of rope and cordage; iron for the manufacture of anchors, cables, galleys, and chains; canvas for the manufacture of sails, awnings, hammock-cloths, boom-covers, tarpaulins, hammocks, and bags; water for steam-launches; stationery for equipment officers, and for the purchase of all other articles of equipment at home and abroad; and for the payment of labor in equipping vessels and manufacture of equipment articles in the several navy-yards.....	R. S.	733	3709, 3747	900,000 00	675,000 00
.....	Mar. 2, 1889	25	812	1		
NOTE.—In relation to this estimate see Appendix "U."							
<i>Electric Search Lights—</i> Purchasing and installing electric-search lights, and their appurtenances on board ships of the Navy.....	Submitted					25,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. Mar. 2, 1889	25	820	1	5,000 00 6,600 00 9,000 00 3,500 00 1,200 00 1,400 00 1,800 00 2,200 00 1,200 00 1,000 00 1,600 00 600 00 730 00 325 50 600 00 529 50 469 50 409 50 469 50		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Pay of Professors and others, Naval Academy—Continued.</i>							
One seaman in the department of seamanship.....	Mar. 2, 1889	25	820	1	\$349 50		
One attendant in department of astronomy, and one in the department of physics and chemistry, at \$300 each.....	do.....				600 00		
Six attendants at recitation-rooms, library, store, chapel, and offices, at \$300 each.....	do.....				1,800 00		
One band-master.....	do.....				528 00		
Twenty-one first-class musicians, at \$348 each.....	do.....				7,308 00		
Seven second-class musicians, at \$300 each.....	do.....				2,100 00		
Increase of pay of professor of chemistry.....	Submitted.....				300 00		
NOTE.—The pay of the professor of chemistry has never been sufficient to retain the services of a good chemist. The Academy has successively lost the services of three chemists, who have left to better their pay.							
Increase of pay of clerk to the paymaster	do.....				300 00		
NOTE.—The clerk for whom an increase is asked has entire charge of the accounts of the cadets. Other clerks in the same office, who have no more responsible or arduous duties receive what is asked for this clerk.							
Increase of pay of armorer	} To present rate of pay of these grades in the naval service.. {	do.....			120 00		
Increase of pay of chief-gunner's mate..		do.....			60 00		
Increase of pay of quarter-gunner.....		do.....			24 00		
NOTE.—It is believed to be the intention of Congress that these men should receive the same pay as enlisted men who perform the same duty. The pay of enlisted men has been increased since the first appropriation was made for the men occupying these places at the Academy.							
Pay of organist at chapel of Naval Academy.....	do.....				300 00		
NOTE.—The organ in the Academy Chapel was purchased many years since by the officers and cadets, and has been kept in repair by them. The organist has always been paid by a monthly tax upon the officers and cadets. It is thought proper that the services of the organist should be provided for by an appropriation.							
						\$52,423 00	\$52,119 00
<i>Special Course, Naval Academy—</i>							
Special course of study and training of naval cadets, as authorized by act of Congress, approved August 5, 1882.....	Aug. 5, 1882	22	285	1	}	5,000 00	5,000 00
	Mar. 2, 1889	25	820	1			
<i>Pay of Watchmen, Mechanics, and others, Naval Academy—</i>							
Captain of the watch, and weigher, at \$2.50 per diem.....	Mar. 2, 1889	25	820	1	912 50		
Four watchmen, at \$2 per diem each.....	do.....				2,920 00		
Foreman of gas and steam-heating works of the Academy, at \$5 per diem.....	do.....				1,825 00		
Labor at gas-works and steam-buildings; for masons, carpenters, other mechanics, and laborers; for care of buildings, grounds, wharves, boats, etc.....	do.....				37,864 95		
One attendant in purifying-house of gas-house, at \$1.50 per diem.....	do.....				547 50		
						44,069 95	44,069 95
<i>Pay of Steam-Employés, Naval Academy—</i>							
Pay of mechanics and others in department of steam-engineering.....	Mar. 2, 1889	25	820	1		7,824 50	7,824 50
<i>Repairs and Improvements, Naval Academy—</i>							
Necessary repairs of public buildings, pavements, wharves, and walls inclosing the grounds of the Naval Academy, and for improvements, repairs, and furniture and fixtures.....	Appropriated..	25	820	1	21,000 00		
Furniture for cadets' quarters.....	Appropriated..	25	821	1	7,500 00		
NOTE.—\$10,000 was asked for this purpose one year since, \$2,500 was appropriated. The balance of the furniture required can be purchased to best advantage to the Government if the balance of the money is appropriated at once.							
Rebuilding gymnasium.....	Submitted.....				25,000 00		
NOTE.—The gymnasium is a temporary wooden structure surmounting old Fort Severn. While it was never well suited for the purpose, it is now so entirely worn out after nearly forty years of service that it must be rebuilt. It is proposed to rebuild upon the old fort, preserving the historical portion of the present gymnasium. The building to be of wood and iron.							
Additional quarters for instructors.....	do.....				50,000 00		
NOTE.—The quarters for officers and instructors are not nearly sufficient. At present there are twenty who are married and have no quarters. As these officers are the juniors who have the least pay, they are the least able to bear the additional expense. It is proposed to build ten small houses, which would in a great degree remedy the difficulty.							
Paving King George Street, as required by city ordinance..	do.....				10,000 00		
						113,500 00	23,500 00

Treasury Building, Washington, D. C.—							
Repairs to Treasury and Winder buildings.....	Appropriated..	25	940	1	\$25,000 00	\$8,000 00
Public Building, Juneau City, Alaska—							
Building at Juneau City, Alaska, to be occupied as a court-house, jail, and for offices of the United States Government officials.....	Submitted.....					\$10,000 00	
NOTE.—Juneau City is the most important business place in southeastern Alaska. Two-thirds of the criminal and civil business coming before the United States district court originates there. There is no municipal authority, and can be none under the existing laws governing the district. The United States district court holds an annual session there, commencing in November. The General Government is now paying rent for a building used by it as a jail and court-house. This building is totally inadequate for the purpose, and the need of better and safer accommodations is severely felt.							
The absolute necessity of this building has been heretofore set forth, and an appropriation of \$4,000 was made August 4, 1886, for that purpose (see page 222, vol. 24, U. S. Statutes at Large).							
This appropriation was permitted to lapse, owing to the fact that the Supervising Architect of Government buildings failed to visit Alaska and have plans and specifications drawn, so that the erection of the building could be commenced, and also for the reason that the appropriation was not sufficient.—(Lyman E. Knapp, Governor of Alaska.)							
Repairs of Public Buildings, Alaska—							
Repairs on Government building in Sitka, Alaska, occupied as a penitentiary and court-house, and for other public uses, as per detailed estimate hereunto attached, marked Exhibit A, to be expended under the order of the judge of the United States district court (see Appendix "X").....	Submitted.....					\$2,500 00	
Repairs on Government building in Sitka, Alaska, occupied as a custom-house and for other public uses, as per detailed estimate hereunto attached, marked Exhibit B, to be expended under the direction of the collector of customs (see Appendix "X").....	Submitted.....					1,313 00	
Repairs on Government warehouse, and wharf connected with same, at Sitka, Alaska, as per detailed estimate hereunto attached, marked Exhibit C, to be expended under the direction of the collector of customs (see Appendix "X").....	Submitted.....					2,730 00	
Repairs on dwelling-house, owned by the Government, at Sitka, Alaska, occupied by the clerk of the United States district court, as per detailed estimate hereunto attached, marked Exhibit D, to be expended under the direction of the collector of customs (see Appendix "X").....	Submitted.....					260 00	
Repairs on Government building known as the "Club House," in Sitka, Alaska, as per detailed estimate hereunto attached, marked Exhibit E, to be expended under the direction of the collector of customs (see Appendix "X").....	Submitted.....					500 00	
						7,303 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Statue of Liberty Light-Station, New York—</i> Completing the pedestal of the Statue of Liberty Enlightening the World, Bedloe's Island, New York Harbor.....						\$50,000 00	
NOTE.—Congress having placed this statue under the care of the Light-House Board, it is found that the above sum is required to complete the structure.							
<i>Staten Island Light-House Depot, New York—</i> Continuing the construction of the sea-wall at the general light-house depot at Tompkinsville, Staten Island.....						84,400 00	
NOTE.—This sea-wall is necessary for the protection of the wharves and vessels of the Light-House Establishment.							
<i>Light-Keepers' Dwelling, Electric Buoy Station, New Jersey—</i> Erection of a dwelling for the keepers of the electric buoy station at Sandy Hook, New Jersey.....						3,500 00	
NOTE.—There are no proper accommodations for the keepers of the electric buoy station. The building in which they were allowed to sleep was seriously damaged by hurricane. The season is too inclement in that climate to keep the men longer under canvas.							
<i>Sandy Hook Light-Station, New Jersey—</i> Purchase of a safer site, the erection thereon of a new fog-signal house, for removal of part of the old machinery, and for replacing what is needful at Sandy Hook Light-Station, New Jersey						8,000 00	
NOTE.—During the hurricane of September, 1889, the fog-signal house was endangered. It is deemed unsafe to leave it on its present site, lest its foundations be undermined.							
<i>Elm Tree Light-Station, New York—</i> Moving the Elm Tree light and placing it in range with the New Dorp light to make a range to guide through the Swash Channel.....						3,000 00	
NOTE.—It is proposed to move the Elm Tree light to the northeast and to place it on the prolongation of the axis of the Swash Channel, New York Bay, where in connection with the light at New Dorp it will properly mark this important range.							
<i>Sheffield Harbor Light-Station, Connecticut—</i> Establishment of a light-station in Sheffield Harbor, Connecticut.....						10,000 00	
NOTE.—A large and increasing commerce is now centering here. Last year nearly 100,000 tons of coal and more than that quantity of general merchandise were landed, and in view of new railway connections it is said that the tonnage will be double. A light is needed at this point to make more certain the safety of life and property.							
<i>Big Oyster Beds Light-Station, New Jersey—</i> Establishing a light and fog-signal at or near Big Oyster Beds Shoal, mouth of Maurice River, Delaware Bay.....						25,000 00	
NOTE.—It would be greatly to the interest of the small fishing-craft navigating this river to establish a light at or near the southern edge of the shoal above mentioned.							
<i>Elder Point Light-Station, New Jersey—</i> Establishing a post-light on Elder Point to mark the entrance to Maurice River, Delaware Bay.....						100 00	
NOTE.—It is proposed to establish a post-light with an eight-day lantern upon it. Upon the establishment of this and the last-mentioned aid, the Maurice-River light-station could be discontinued.							
<i>Chincoteague Buoy-Depot, Virginia—</i> Purchase of additional land for site, and for repairs to the buoy-depot at Chincoteague Island.....						2,000 00	
NOTE.—The property on the bay has a frontage of only 30 feet, and of course it is impossible to lay the tender alongside without reaching over other property. At the time this purchase was made no greater frontage could be obtained.							
<i>Fenwick's Island Shoal Light-Vessel, Maryland—</i> Construction and establishment of a first-class light-vessel with a steam fog-signal for Fenwick's Island Shoal, sea-coast of Maryland.....						60,000 00	
NOTE.—This shoal is in the direct course of vessels making for the port of Philadelphia. The British steamer <i>Brinkburn</i> struck here in April, 1886, and was lost. The British steamer <i>Benison</i> went ashore here in April, 1887, and was badly damaged. Many small coasters have been lost or damaged on this shoal also. A light-ship was temporarily placed here in the spring of 1888, since when no vessel has struck on this shoal. She can not be spared for this duty much longer, her services being needed as a relief light-ship. A new ship with a steam fog-signal should be placed here.							

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Hog Island Light-Station, Virginia—</i> Establishing a first-order light to take the place of the fourth-order one now at Hog Island, south side of Great Machipongo Inlet, sea-coast of Virginia.....						\$125,000 00	
NOTE.—The light now on Hog Island does not illuminate the entire interval between Assateague and Cape Charles. It is considered important to commerce that this dangerous coast should be fully lighted, and it is therefore proposed to place a first-order light on a tower 150 feet high.							
<i>Cape Charles Light-Station, Virginia—</i> Establishing on a new and secure site the Cape Charles Light Station.....						150,000 00	
NOTE.—The encroachments of the sea have threatened the overthrow of this tower. Works of protection have failed to save it. Its fall is only a question of months. Meantime it is proposed to erect a new station on a secure site, and to have it ready at least by the time that the present tower is disabled.							
<i>Lazaretto Point Light-House Depot, Maryland—</i> Construction of a dwelling for the accommodation of the keeper of the Lazaretto Point Light House Depot.....						2,500 00	
NOTE.—The quarters now occupied by the keeper are in the warehouse; they are unsuitable and uncomfortable. It would cost nearly as much to make the present quarters habitable as it would to build a new dwelling, even if the room thus occupied was not required for other purposes. The depot-keeper must be constantly on the spot, and therefore can not live away from the premises.							
<i>Maryland Point Light-Station, Maryland—</i> Establishment of a light-house and fog-signal at or near Maryland Point, Potomac River.....						50,000 00	
NOTE.—This is an important turning-point in the river, and a light would be of great benefit to navigation. The foundation must be strong enough to withstand running ice.							
<i>Cedar Point Light-Station, Maryland—</i> Establishing a light and fog-signal on or near Cedar Point, mouth of Patuxent River, Chesapeake Bay.....						25,000 00	
NOTE.—The harbor at the mouth of the Patuxent River is the best on the western side of the bay. The light is needed to guide into this harbor, and also for the general navigation of the bay.							
<i>Swan Point Bar Light-Station, Maryland—</i> Establishing a light and fog-signal station on or near Swan Point Bar, opposite Bodkin Point.....						50,000 00	
NOTE.—This is an important turning-point for vessels navigating Chesapeake Bay. It is proposed to place a light-house in 12 feet of water on the extreme point of the bar. It must be strong enough to withstand ice.							
<i>Page's Rock Light-Station, Virginia—</i> For establishing a light at or near Page's Rock, in York River, Virginia.....						25,000 00	
NOTE.—This rock is quite dangerous, even to vessels of small draught. The increase of commerce upon the river, and still greater prospective increase, makes a light at this point quite necessary. The continuation of railroads now centering at West Point, head of York River, includes over 1,300 miles of road, necessitating additional and daily lines of steamers to New York and Baltimore.							
<i>Portsmouth Light-House Depot, Virginia—</i> Purchase of additional land for the site of the light-house depot at Portsmouth, Virginia, including about ninety-six feet of water-front.....						10,000 00	
NOTE.—The business of the district which draws supplies from this depot has been so greatly extended that the present storage capacity and wharves are insufficient.							
<i>North River Bar Beacons, North Carolina—</i> Establishment of lighted beacons to guide through the dredged channel at North River Bar.....						2,000 00	
NOTE.—The Engineer Corps of the Army is about to complete a dredged channel through North River Bar. This should then be lighted.							
<i>Diamond Shoal Light-Station, North Carolina—</i> Completing the construction of a light-house and fog-signal on Outer Diamond Shoal, off Cape Hatteras, North Carolina.....	Mar. 1, 1889 Mar. 2, 1889	25 25	770 942	1 1	}	300,000 00	\$200,000 00
NOTE.—The shoals off Cape Hatteras are among the most dangerous of the Atlantic Ocean. The Board is satisfied that a light-house can be built, upon a secure foundation, which would be of incalculable value by permitting shorter courses and insuring safety.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Cape Hatteras Light-Station, North Carolina—</i> New dwelling and oil-house at Cape Hatteras Light-Station	Submitted.....					\$5,000 00	
NOTE.—The Cape Hatteras beacon has been recently re-established, and as an additional keeper is required for it, additional quarters are necessary. A detached oil-house is required for storing the oil that at present endangers the station.							
<i>Pork Point Light-Station, North Carolina—</i> Establishing a light and fog-signal station off Pork Point, Roanoke Island, Croatan Sound.....	Submitted.....					20,000 00	
NOTE.—A large inland commerce navigates these waters and many serious accidents have occurred at this place for want of a light. It is also a turning-point for vessels navigating the Sound.							
<i>Tender for the Fifth Light-House District—</i> Small steel side-wheel steamer for service in the sounds of North Carolina and adjacent waters.....	Submitted.....					35,000 00	
NOTE.—Such a steamer would pay for herself within a year or two in the saving of freight, and in the rapidity of attending and supplying lights.							
<i>West Point Cut and Page's Rock Beacon-Lights, Virginia—</i> Establishment of small, inexpensive lights at West Point Cut and on Page's Rock, York River.....	Submitted.....					50 00	
NOTE.—These are dangerous and difficult places in the navigation of York River. It is proposed to place a post-light at the entrance to the cut, and an eight-day lantern on the day beacon near Page's Rock. It will not cost more than \$50 to do both, but under the present state of the law, the authority of Congress is needed to establish these lights, and the cost must be provided by special appropriations.							
<i>McWilliam's Point Shoal Light-Station, North Carolina—</i> Establishing a light on or near McWilliam's Point Shoal, Pamlico River, to guide into the port of Washington, North Carolina.....	Submitted.....					100 00	
NOTE.—This is a dangerous shoal. The slightest deviation from the correct course will put steamers ashore on this sand-bank. By the establishment of this light, the entrance to this port will be made much less difficult.							
<i>Cape Fear Light-Station, North Carolina—</i> Establishment of a first order light-station at or near the pitch of Cape Fear, North Carolina.....	Submitted.....					150,000 00	
NOTE.—The present Cape Fear (Bald Head) light, because of its inland location and lack of height, is inadequate as a proper aid to navigation. The interests of commerce require that a first-order light be established, on or near the pitch of Cape Fear, at the earliest date practicable.							
<i>Hilton Head Range-Beacons, South Carolina—</i> Purchase of additional land for the purpose of shifting the range-beacons at Hilton Head, entrance to Port Royal Harbor, South Carolina.....	Submitted.....					1,000 00	
NOTE.—Changes in the channel have made it desirable to shift the front beacon of this range beyond the limits of the site now owned by the United States.							
<i>St. Simon's Range-Beacon, Georgia—</i> Establishing a small light to make a range at St. Simon's Light-Station.....	Submitted.....					1,000 00	
NOTE.—A small light with the present St. Simon's light as a rear beacon, lead through fairly good water into St. Simon's Sound, and would make it a harbor of refuge for vessels drawing not more than 12 feet of water.							
<i>St. Catharine's Sound Light-Station, Georgia—</i> Establishment of a light-station near the entrance to St. Catharine's Sound, Georgia.....	Mar. 2, 1889	25	1017	1		20,000 00	
NOTE.—An unlighted gap exists here between Tybee and Sapelo lights. A large number of vessels sight land for the first time in this locality.							
<i>Doboy Sound Range-Lights, Georgia—</i> Establishing additional range-lights to guide vessels from the present Sapelo Island Range to a safe anchorage.....	Submitted.....					1,500 00	
NOTE.—The two present ranges guide vessels to the intersection of the Wolf Island and Sapelo Ranges, and leaves them there without guidance in a dangerous position if they anchor, and with the Knuckles and the Chimney Spit Shoal on either side if they proceed.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Cape Canaveral Light-Station, Florida—</i> Removing the Cape Canaveral Light-Station to a more secure site, and for the purchase of the necessary land in case there is no public land available for the purpose..... NOTE.—Wooden revetment and jetties were built to prevent the further erosion of the shore, but it has become evident that they and additional protection works could only hold the site temporarily. It is now proposed to remove the station to a site sufficiently remote from the shore-line to assure its safety.							
Submitted.....						\$80,000 00	
<i>Frying Pan Shoals Light-Vessel, North Carolina—</i> Construction and establishment of a light-ship with a fog-signal for Frying Pan Shoals, coast of North Carolina..... NOTE.—A steam fog-signal is urgently needed at this station. It is impracticable to put one on the ship now there. Therefore, it is recommended that she be replaced by a first-class light-vessel with all modern improvements, including a steam fog-signal, such as is now being placed on all important stations. The vessel now there can then be used as a relief light-vessel.							
Submitted.....						60,000 00	
<i>Martin's Industry Light-Vessel, South Carolina—</i> Construction and establishment of a light-vessel with a fog-signal for Martin's Industry, coast of South Carolina..... NOTE.—A steam fog-signal is urgently needed at this station. It is impracticable to put one in the vessel now there. Therefore, it is recommended that she be replaced by a first-class light-vessel with all modern improvements, including a steam fog-signal, such as is now being placed on all important stations. The ship now there can then be used as a relief light-vessel.							
Submitted.....						60,000 00	
<i>Tender for the Sixth Light-House District—</i> New light-draught steam-tender equipped with a pile-driver, for use in the rivers, sounds, and inside passages of the Sixth Light-House District..... NOTE.—There are 119 post-lights in this district, built by driving piles, most of which are inaccessible to the deep-draught tender. They need constant attention and frequent renewal. The lights in the sounds and inside passages could be attended by such a vessel, leaving the outside deep-water work to the <i>Wistaria</i> . The immediate necessity of such a boat is pressing. The work of the district has so increased that two tenders, one of which should be of light draught, are urgently required.							
Submitted.....						60,000 00	
<i>Mount Cornelia Light-Station, Florida—</i> Establishment of a first-order light-station on or near Mount Cornelia, north side of the mouth of the St. John's River, Florida..... NOTE.—The light now maintained at the mouth of the St. John's River is of the third order. For years there have been complaints of its inefficiency as a sea-coast light. A first-order light on Mount Cornelia would answer the requirements of commerce.							
Submitted.....						175,000 00	
<i>Hillsboro' Inlet Light-Station, Florida—</i> Establishing a light-station at or near Hillsboro' Inlet, sea-coast of Florida..... NOTE.—A light on this important point is necessary to complete the system for this dangerous coast.							
Submitted.....						90,000 00	
<i>St. Joseph's Point Light-Station, Florida—</i> Establishing a light-station at or near St. Joseph's Point, in St. Joseph's Bay, west coast of Florida..... NOTE.—This light is needed to guide into St. Joseph's Bay, the only harbor of refuge for some 60 miles. It would be of great advantage to the numerous fishing-vessels on this coast.							
Submitted.....						25,000 00	
<i>Cape San Blas Light-Station, Florida—</i> Re-establishment of the San Blas Light-Station, Florida, on another and safer site..... NOTE.—The present shore-line at Cape San Blas is being cut away by the sea so rapidly that it is evident that the light tower, if allowed to remain there, will soon be overthrown. It is proposed to remove the tower and buildings to a site inside the peninsula.							
Submitted.....						20,000 00	
<i>Dog River Bar Light-Station, Alabama—</i> Establishing a permanent light-station to mark the Dog River Bar channel, Mobile Bay..... NOTE.—The present system of lights is inadequate for running vessels up to Mobile during the night.							
Submitted.....						20,000 00	

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Chandeleur Light-Station, Louisiana—</i> Construction of a new dwelling and a walk from the station to the water..... <i>NOTE.—A new dwelling is needed for the assistant keeper, as the one now there is insufficient for two keepers. A walk built on creosoted piles is also needed to connect the station with a point at the water's edge where boats can land.</i>	Submitted.....					\$5, 000 00	
<i>Pere Marquette Fog-Signal, Michigan—</i> Establishing a steam fog-signal at Pere Marquette Light-Station, Ludington, Lake Michigan, Michigan, <i>NOTE.—The extension of the pier on which the light stands is progressing rapidly and will soon be finished. A steam fog-signal has long been needed, and its establishment is now practicable.</i>	Submitted.....					5, 500 00	
<i>Old Mackinac Point Light-Station, Michigan—</i> Establishing a light and fog-signal station at Old Mackinac Point, Straits of Mackinac..... { <i>NOTE.—The light on McGulpin's Point can only be seen by vessels approaching in one direction. It is proposed to remedy this by placing the light 2 miles to the eastward. The fog-signal was authorized by the act approved October 1, 1888.</i>	Oct. 1, 1888 Mar. 2, 1889	25 25	499 1016	1 1 }		25, 000 00	
<i>Squaw Island Light-Station, Michigan—</i> Establishing a light and fog-signal on Squaw Island, northern end of Lake Michigan, to mark the passage to the westward of Beaver Island..... <i>NOTE.—The passage to the westward of Beaver Island is being generally used by steam-barges from Chicago and Milwaukee and other ports on the lakes during fall and spring when the northwest winds prevail. It would be used at all times but for the shoals and dangers on the north shore of Lake Michigan. The light-house at Seul Choix Point will soon be built, and with another at Squaw Island, the passage could be made at all times with greater safety.</i>	Mar. 2, 1889	25	1016	1		25, 000 00	
<i>Eleven-Foot Shoal Light-Station, Michigan—</i> Establishing a light-station on or near Eleven-Foot Shoal, off Point Peninsula..... <i>NOTE.—This is the principal passage leading to Escanaba, Michigan, a point of increasing importance for the shipment of mineral products. The Eleven-Foot shoal is just at the turn of the channel, and the only light to mark the turn is 2½ miles distant, at Point Peninsula. When this light is established the Point Peninsula light can be discontinued.</i>	Mar. 2, 1889	25	1016	1		60, 000 00	
<i>Gladstone Light-Station, Michigan—</i> Establishment of a light-station to guide into Gladstone Harbor, Little Bay de Noquette..... <i>NOTE.—It is stated that the Minneapolis, Sault Ste. Marie and Atlantic Railroad will make this an important shipping port. Last year over 300 vessels entered the harbor and it is expected that next year the number will exceed 1,000.</i>	Submitted.....					10, 000 00	
<i>Depot for the Ninth Light-House District—</i> Establishing a supply and buoy depot for the Ninth Light-House District..... <i>NOTE.—A depot is absolutely necessary for the storage of supplies and buoys in this new light-house district. The sum mentioned will be expended for a site; for the erection of wharves, sheds, and other necessary buildings, and for the removal of the requisite buoys and materials from Detroit.</i>	Submitted.....					50, 000 00	
<i>Tender for the Ninth and Eleventh Light-House Districts—</i> Steam-tender to be used in the construction and repair of light and fog-signal stations on Lakes Huron, Michigan, and Superior..... <i>NOTE.—Heretofore the inspector and engineer did their work with one tender; since then what was one district has become two. Congress appropriated \$244,000 for the erection of twenty-one different works. The Board estimates this year for the appropriation of \$185,000 for the erection of six more works. These two districts are under one engineer, and unless he has a suitable tender a large sum must be expended for freight and much time wasted by working parties in getting passage to light-house sites, inaccessible by ordinary routes of travel. The engineer is now paying \$29 per day for a steamer which will be used for some three months in the repair of Spectacle Reef Light-Station.</i>	Submitted.....					65, 000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.[illegible]

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
Humboldt Light-Station, California— Establishing the light and fog-signal at Humboldt, California, upon a more secure site.....	Mar. 2, 1889	25	1017	1	\$25,000 00	
NOTE.—During the past year the light-house structures at Humboldt have been seriously threatened, and it is believed that a severe storm may at any time overthrow them. It is proposed to rebuild the station on Humboldt Bluff.							
Northwest Seal Rock Light-Station, California— Continuing and completing the construction of the light-house on Northwest Seal Rock, off Point Saint George, California.....	Mar. 2, 1889	25	908	1	81,000 00	\$200,000 00
NOTE.—This amount is needed in addition to that on hand to complete the work.							
Cape Mendocino Light-Station, California— Construction of a roadway from Cape Mendocino Light-Station to the county road	Submitted.....				1,000 00	
NOTE.—It is proposed to build a practicable wagon-road from the light-station to the county road, half a mile away. Some 1,200 feet of the distance is across private land. It is estimated that to buy a right of way across this strip, pay the legal expenses of acquiring title, and to build the road, will cost the above-named amount.							
Bodega Head Light-Station, California— Establishing a light and fog-signal at or near Bodega Head, California	Submitted.....				30,000 00	
NOTE.—The stretch of coast between Point Reyes Light-Station and Bodega Head has become notorious as the scene of many wrecks, due to foggy weather and uncertain currents. It is believed that the establishment of a powerful fog-signal and a small light will do away with its peculiar danger.							
Gray's Harbor Light-Station, Washington— Establishing a first-order light and fog-signal station at Gray's Harbor, Washington, in addition to the amount already appropriated	July 7, 1884 Submitted.....	23	198	1 } }	60,000 00	
NOTE.—On further examination it is found that a small light will be inadequate for the needs of commerce at this point.							
Cape Flattery Light-Station, Washington— Re-establishing the fog-signal at Cape Flattery Light-Station upon a new site.....	Submitted.....				17,000 00	
NOTE.—It is found that the fog-signal at this important station will be much more effective as an aid to mariners, if removed to West Island. The change would make it necessary to build new structures for accommodation of the signal and a new dwelling for the keeper.							
Turn Point Light-Station, Washington— Establishing a light and fog-signal station at Turn Point, west end of Stuart Island, Canal de Haro, Washington..	Submitted.....				15,000 00	
NOTE.—This light would mark a place where a change of course is necessary in passing through San Juan Channel.							
Patos Island Light-Station, Washington— Establishing a light and fog-signal station on Patos Island, north entrance to the Canal de Haro, Washington.....	Mar. 2, 1889	25	1012	1	12,000 00	
NOTE.—This is a very dangerous point, and a light here would greatly benefit the considerable number of vessels that use this passage.							
Depot for the Thirteenth Light-House District— Removing the buoy and supply-depot now at Tongue Point to Astoria, Oregon.....	Submitted.....				15,000 00	
NOTE.—The present situation of the buoy depot is inconvenient and expensive. The water is shoaling rapidly, and it will be more economical to remove the depot to a proper location than to extend the wharf.							
Tender for the Thirteenth Light-House District— New steam tender for construction and repair duty in the Thirteenth Light-House District.....	Submitted.....				85,000 00	
NOTE.—There are a number of light-houses to be built, and others to be repaired, on sites of difficult and dangerous approach. Freight to these places are costly and hard to obtain. The Board has been forced to pay over \$200 per day for long periods for charter-parties. At other times it could not charter vessels for its work at any price, and has been forced to take the buoy-tender from her appointed work to carry construction material. The need is urgent.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>North Head Light-Station, Washington—</i> Establishment of a first-order light on North Head, Cape Disappointment, sea-coast of Washington.....	Submitted.....					\$50,000 00	
NOTE.—The present light at Cape Disappointment is inadequate. It is proposed to establish a first-order light at North Head and reduce that at Cape Disappointment to the fourth order. When the proposed lights which are being constructed at Gray's Harbor and Destruction Island are completed it will only need the proposed light at North Head to finish the lighting of the coast from Cape Flattery to Tillamook Rock with first-order lights.							
<i>Destruction Island Light-Station, Washington—</i> Completing the light-house and fog-signal at Destruction Island, Washington.....	Mar. 3, 1885 Aug. 4, 1886	23 24	485 224	1 1	}	10,000 00	
NOTE.—The contractor for furnishing the metal-work for the tower did not deliver the material for over a year after the specified time. The contractor for erecting the tower, who was, under his contract, to have received the material a long time before it did come, declined to do the work. The increased cost of labor and material and transportation have increased the cost of establishing this station beyond what was originally estimated.							
<i>Depot for the Fourteenth Light-House District—</i> Establishing a depot for the Fourteenth Light-House District at Carrollton, Kentucky, or such other point as the Light-House Board may select.....	Submitted.....					5,000 00	
NOTE.—The supplies for the lights on the Ohio, Tennessee, and Great Kanawha Rivers can be obtained much more cheaply if purchased in bulk. This can not be done unless an adequate depot for such supplies is established.							
<i>Depot for the Sixteenth Light-House District—</i> Establishing a depot for the Sixteenth Light-House District	Submitted.....					20,000 00	
NOTE.—The establishment of this new light-house district renders it necessary to have a depot of supplies at a convenient point. The sum mentioned is asked for the purchase of a site and the erection of wharves and buildings.							
<i>Building for the Light-House Board—</i> Erecting a suitable building at Washington, D. C., for the use of the Light-House Board, to contain its archives, its museum, and its laboratory.....	Submitted.....					210,000 00	
NOTE.—The Board has been for some time very seriously inconvenienced by the insufficiency of the quarters assigned to it in the Treasury building. The building is necessarily crowded by the offices and bureaus constantly increasing in number and size, and notwithstanding the fact that the Light-House Service and the business connected therewith are constantly increasing in magnitude and importance, the quarters for the Board are more and more confined.							
<i>Oil-Houses for Light-Station—</i> Establishing isolated oil-houses for the storage of mineral oil	Oct. 2, 1888 Submitted.....	25	509	1	}	25,000 00	
NOTE.—The introduction of mineral oil into general use in the Light-House Service greatly increases the danger from fire and necessitates greater storage capacity. As there are no proper means at present of storing the large quantities for annual supply, it is proposed to erect small buildings entirely separated from any others, thus avoiding the danger from fire as far as possible.

<i>Buildings and Grounds, Government Hospital for the Insane—Continued.</i>							
Special improvements—Continued.							
Purchase of additional farm land.....	Submitted.....				\$10,000 00	\$80,000 00	\$28,900 00
<p>NOTE.—This hospital, with 1,400 patients, has barely 200 acres of land available for farming, gardening, and grazing purposes. The remainder is occupied with lawns and groves and sites of buildings devoted to the care of the insane, together with a considerable portion in wooded ravines whose cultivation is out of the question, but which are the charm of the grounds, affording secluded and delightful walks for the inmates. A large majority of the patients belong to the chronic class for whom the best treatment is work about the grounds at farming or gardening. With sufficient arable land of good quality there is no reason why all vegetables consumed by the inmates, except rice, should not be produced on the hospital farm, and a considerable part of the labor of cultivation be that of the insane. Idle men, sane or insane, are seldom happy, those having steady occupation are generally content. All alienists are agreed on the importance of keeping the insane occupied, and that farm labor is the best employment for a majority of the male patients of an asylum. All authorities also agree that hospital grounds should equal one acre of ground for each inmate. The Government Hospital has 1,400 inmates, and 400 acres. When it is remembered that the herd of milch cows numbers more than one hundred, and a proportionate number of young cattle, the pressing need of more pasturage and grass-land is apparent. It is not essential that land for this purpose should be adjacent to the hospital buildings. Outlying fields that may still be purchased at the price of agricultural land will do very well, but it is important that these be secured at once before the advance in all real estate in the vicinity of Washington leaves nothing but house lots available for pasturage; \$10,000 ought still to secure a good extent of agricultural land within easy access to the hospital.</p> <p>The estimate for current expenses, Government Hospital for the Insane, will be found under the title of "Miscellaneous," <i>post</i>.</p>							
<i>Buildings and Grounds, Columbia Institution for the Deaf and Dumb—</i>							
Care and improvement of the grounds.....	Submitted.....					3,000 00

<i>Rock Island Arsenal, Rock Island, Ill.—</i>							
Shop "K," an iron finishing-shop for the armory.....	Oct. 2, 1888 Submitted.....	25	530	1	\$10,000 00		
<p>NOTE.—This sum will be needed to complete this shop, being required for outside granite steps and platforms, grading on sides of building, and paving the basement and roadway leading thereto.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Rock Island Arsenal, Rock Island, Ill.—Continued.</i>							
Completing storehouse "K"	Mar. 2, 1889	25	963	1	\$15,000 00		
NOTE.—The amounts heretofore appropriated for this building were so much less than the estimates that this sum is now required to complete it.							
Upper stables to be built of brick.....	Submitted.....				15,250 00		
NOTE.—These stables are intended to replace the temporary wooden structures now used for the purpose. Drawings of the proposed stables were forwarded to the Chief of Ordnance on October 25, 1888. The old wooden stables are very rotten, are not worth repairing, and can not be used much longer, and the appropriation asked for is urgently recommended.							
Machinery and shop-fixtures	Mar. 2, 1889	25	963	1	17,000 00		
NOTE.—It is proposed with the money asked for to continue the work of putting shafting and other fixtures in the shops now being completed; to add to the plant of the arsenal such machines as are required for immediate use and form part of the permanent plant of the arsenal, and to continue the construction of one of the great lines of shafting for connecting the shops with the water-power. It is important that the fitting up of the shops for use should progress with the construction of the buildings. These fixtures are manufactured in the arsenal shops, and the work can be done much more cheaply at slack times, in connection with other work, than postponed until the other work is completed.							
General care, preservation, and improvement, etc., for building new roads, for painting, and care and preservation of permanent buildings, bridges, and shores of the island; for building fences and sewers, and grading grounds, etc.....do.....				15,000 00		
NOTE.—This work is almost absolutely necessary in the progress of the work of building the arsenal. The roads are required for immediate use in building operations, and should be so permanently built as to become a permanent part of the arsenal, and this work on roads, grading and sewers, can be done far more economically while other excavations and buildings are going on, thus economizing, by maintaining the two kinds of work which are mutually dependent. A large portion of the amount is absolutely necessary for the preservation of immense buildings, and extensive roads, bridges, and other constructions, already built, and for the maintenance of the water power, and transmission of power. The amount appropriated under this head for some years past has been only \$10,000, but this amount is totally inadequate for the manifold and necessary purpose for which this appropriation is needed at this large establishment, such as building new, and repairing old, roads; care and preservation of permanent buildings, bridges, and shores of the island, for building fences, grading grounds, etc., and consequently, a great deal of this work has to be neglected. The roofs of some of the permanent buildings, and some of the area walls require repairing every year, owing to the severe weather in this climate. It is important that the full amount of this estimate be granted as a matter of necessity and economy. I can not too strenuously urge the importance of this estimate, and the economy and necessity of an appropriation of the whole amount asked for. Ten thousand dollars of the amount asked for will be required for painting buildings to preserve the wood-work.							
Repairs and extension of the arsenal railway.....do.....				15,000 00		
NOTE.—It is the intention to extend the present railway along the south side of the arsenal shops, around the east end of both lines of shops to the north of shop "K," with switches around storehouses "I" and "K," and to replace old iron rails and ties now nearly worn out on the present road by new ones.							
<i>Rock Island, Bridge, Rock Island, Ill.—</i>							
Care and preservation and expense of maintaining and operating the draw.....	Mar. 2, 1889	25	963	1	12,000 00		
NOTE.—This estimate is for the care and preservation of the bridges between Davenport, Iowa, and Rock Island, Ill., and the island, and the road and causeway connecting the bridges. It includes all ordinary repairs, but is mainly for the expense of operating the draw, for which sets of hands, consisting of engineer, fireman, and tender are required, and guards for maintaining order on the long bridges in their large use by the public. This large use also causes considerable wear and necessity for repairs. The amount of travel over this bridge is increasing annually, and there should be a corresponding increase in the annual amount appropriated for care and preservation.							
Protecting Rock Island bridge by means of sheer-booms.....do.....				4,003 00		
NOTE.—The present boom is badly decayed and should be replaced.							
						\$87,250 00	\$97,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.	
		Vol. or R. S.	Page.	Sec.				
<i>Rock Island Bridge, Rock Island, Ill.—Continued.</i>								
For replacing the present wooden upper or railway deck of bridge with iron.....	Submitted.....				\$50,000 00	\$66,003 00	\$52,958 00	
<i>Provided,</i> That the Secretary of War shall require of the Chicago, Rock Island and Pacific Railroad Company the reimbursement of one-half of all the expenses incurred in said work as provided in their guaranty executed to the United States under the acts of Congress providing for the construction of said bridge. But the sleepers and rails are to be put down upon the bridge and kept in repair by the railroad company, without cost to the United States, as required by said guaranty.								
<i>Augusta Arsenal, Augusta, Ga.—</i>								
Erecting an elevated iron water tank to store the water received from the artesian well and to lay 4-inch water-main with fire-plugs, connections, etc., over the post.....	Mar. 2, 1889 Submitted.....	25	964	1	}.....	7,500 00	10,000 00	
<i>NOTE.—</i> There is believed to be a sufficiency of water now available from the artesian well to supply all the needs of the post. It is proposed to erect an iron tank of a capacity of some 50,000 gallons on a brick tower to receive and store the water from the well, the water to be conducted by a 4-inch main to the shops to supply the boilers, etc., and to all points on the grounds for fire and irrigation purposes.								
<i>Benicia Arsenal, Benicia, Cal.—</i>								
Erection of a fire-proof boiler-house.....	Submitted.....				5,000 00	11,000 00		
<i>NOTE.—</i> The present boiler-house is a frame building, unsightly in appearance, and insufficient in size. It was originally constructed for two boilers, and has been twice extended by temporary additions to accommodate the four now in use.								
Grading around reservoir, building road to reservoir, constructing close wooden fence and brick drains, and extending masonry upon embankment of reservoir....	Oct. 2, 1888 Submitted.....	25	531	1	}.....			3,000 00
Repairs of wharf and dredging around same.....	do.....							
<i>NOTE.—</i> The wharf needs replanking throughout and several piles are broken. The slip between the two parts of the wharf has filled in so much that it is now impracticable to unload freight schooners at the inner wharf.								
One steam-pumping engine for artesian well.....	do.....				1,000 00			
<i>NOTE.—</i> The present engine is old, single acting, and requires constant overhauling. The supply of artesian well water, although limited, is of considerable importance as an additional water supply for this post.								
<i>Springfield Arsenal, Springfield, Mass.—</i>								
Fire-proof building for machine, filing, polishing, brass foundry, and blacksmith shops, etc., and including steam-engine, boilers, shop fixtures, heating and lighting, necessary grading, etc.....	Submitted.....				211,639 54	246,639 54	15,000 00	
<i>NOTE.—</i> This is the last building needed to complete the fire-proof manufacturing plant at the national armory.								
Two sets of officers' quarters.....	do.....				20,000 00			
<i>NOTE.—</i> These are to replace the old quarters built in 1836 and which are now unserviceable and not worth repairing.								
Repairs and preservation of grounds, buildings, and machinery not used for manufacturing purposes.....	Mar. 2, 1889	25	963	1	15,000 00			
<i>Allegheny Arsenal, Pittsburgh, Pa.—</i>								
For rebuilding stone inclosing wall on river front between 39th and 40th streets.....	Submitted.....					1,000 00		
<i>NOTE.—</i> The stone inclosing wall on the river front and within a few feet of the Allegheny Valley Railroad tracks has become weakened by the floods in the Allegheny River and the jarring caused by the constant passing of trains. A part of it has been taken down, as it was dangerous and about to fall out on the railroad tracks. The wall should be taken down to the ground level and rebuilt.								
<i>Frankford Arsenal, Philadelphia, Pa.—</i>								
New machinery.....	Mar. 2, 1889 Submitted.....	25	963	1	}.....	10,000 00		
<i>NOTE.—</i> It is proposed to use about one-half of this sum in the purchase of new machines which are much needed for the work done at this arsenal, and about one-half in renewing or replacing worn-out machines. These worn-out machines are also of old and inferior patterns and are too light for the work.								

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Frankford Arsenal, Philadelphia, Pa.—Continued.</i>							
Building new drain	Mar. 2, 1889 Submitted.....	25	963	1	\$1, 800 00		
NOTE.—For making better arrangements for drainage of grounds below tide-water, and discharging the same into Frankford Creek, and especially for making suitable provision for draining the eastern part of the arsenal grounds and conducting away foul water discharged from the city streets across that end of the arsenal.							
Steam-heating apparatus for office	do.....				810 00	\$12, 610 00	\$1, 600 00
NOTE.—The office is now heated by a hot-air furnace, which is worn out and must be renewed or replaced, and the experience here is that in very cold weather, when heat is most needed in all parts of the building, only one side can be comfortably heated. The steam-heating apparatus introduced into the public quarters have proven successful.							
<i>Indianapolis Arsenal, Indianapolis, Ind.—</i>							
General repair and preservation of buildings, fences, roads, sewers, etc.....	Submitted.....					2, 500 00	
<i>New York Arsenal, Governor's Island, New York Harbor—</i>							
Putting new roof on store-house No. 4.....	Submitted.....				3, 500 00		
NOTE.—Roof leaks much, is badly constructed, and a new one is necessary for the protection of property stored in the building.							
Minor necessary repairs to storehouses and other buildings.....	do.....				1, 000 00		
Two sets officer's quarters.....	do.....				15, 000 00	19, 500 00	
NOTE.—These quarters are needed in addition to those at present at this arsenal for the occupancy of officers on duty with the Ordnance Board and other officers required to be permanently stationed at this arsenal.							
<i>Proving-Ground, Sandy Hook, New Jersey—</i>							
Erecting one set of officers' quarters.....	Submitted.....				7, 000 00		
NOTE.—A set of quarters is very desirable in order that a married officer may live at Sandy Hook. The want of this becomes more evident each year.							
Erecting a barrack building for enlisted men and employes	do.....				12, 000 00		
NOTE.—All the men on duty at Sandy Hook are now occupying buildings belonging to the Engineer Department, and all may at any time be demanded by that department for its own workmen. Some of the buildings will be required during the next fiscal year for engineer workmen.							
Building for office and ballistic instruments.....	do.....				13, 200 00		
NOTE.—This building is to replace a wooden building formerly used for this purpose which was struck by lightning August 14, 1889, and totally destroyed within a few minutes, with valuable instruments, records, and almost its entire contents. The present estimate is for the construction of a building to be partly of brick and to contain rooms with fire-proof floor and ceiling for the use of valuable instruments, records, etc.							
Cleaning, grading, and building new roads, for repairing old roads, and for general repairs.....	Mar. 2, 1889 Mar. 2, 1889	25 25	887 963	1 1	3, 000 00	35, 200 00	27, 320 00
NOTE.—The roads are constantly being overgrown by shrubbery and brush and becoming worn by weather and use.							
<i>Testing-Machine, Watertown Arsenal, Mass.—</i>							
Purchase of labor and material in caring for, preserving, and operating the United States testing-machine, including new tools and appliances.....	Mar. 2, 1889	25	964	1		10, 000 00	10, 000 00
<i>Watertown Arsenal, Watertown, Mass.—</i>							
Repair of public buildings, fences, etc.....	Submitted.....				1, 700 00		
Repair of gas-holder (for storing gas).....	do.....				500 00		
Repair and alteration of smith-shop to carry off the gas and setting boilers on furnace to utilize the heat, and rearranging furnaces and hammers.....	do.....				5, 500 00		
One engine and boiler, complete... } For foundry cupola....	do.....				1, 750 00		
One pressure-blower, complete.....	do.....						
One horizontal steam-engine (to replace the old worn-out engine in machine-shop and effect a saving in fuel).....	do.....				4, 000 00	13, 450 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Watervliet Arsenal, West Troy, N. Y.—</i>							
Electric lighting the Watervliet Arsenal by incandescent system.....	Submitted.....				\$22,000 00		
One 150 horse-power steam-engine for driving dynamos, including foundations and erection.....do.....				5,000 00		
NOTE.—The present system of illuminating by gas has been a source of trouble for years past. The pipe-lines are in very bad condition and require frequent excavations and repairs, especially during the winter months, and if an electric plant is not provided there will be required an amount approaching this estimate for repairs and to provide the large extension of lighting facilities required at the present time. The electric light is considered much better adapted to the needs of the shops at this arsenal than gas, and its introduction will make the arsenal independent of outside sources of light supply. This estimate is urgently recommended.							
New turbine station near Erie Canal.....do.....				10,850 00		
NOTE.—The size of present water-weir on Erie Canal is inadequate. The present turbine-wheels are of an old pattern. They have been frequently repaired, and are at present in such worn-out condition that they should be wholly replaced.							
New water reservoir (tank) and housing, with water filter, pipes, and connections.....do.....				9,340 00		
NOTE.—The present water-tank is not adequate for the needs of the post. It is not high enough to furnish sufficient water-pressure to protect the roofs of the new gun factory in the event of fire.							
Paving Broadway with granite blocks, through arsenal grounds (1,650 feet), except the part between extreme rails of horse-car tracks, including crossings and sidewalk and curbing on east side.....do.....				25,068 00		
Extension of sewerage system.....	Mar. 2, 1889	25	964	1	6,500 00		
NOTE.—The present sewerage system must be extended and largely renewed to include present and contemplated improvements.							
Additional machinery for the manufacture of carriages, implements, and equipments, field-guns, siege-guns, and howitzers.....	Submitted.....				13,745 00		
NOTE.—Part of this estimate is for the replacement of machines which are worn-out or obsolete in pattern. The remainder is for additional new machines required and their erection.							
Making and macadamizing roads, constructing drains, grading and improvement of grounds necessitated by the erection of new and the removal of old buildings....	Mar. 2, 1889	25	963	1	5,000 00

Needful casemates, cable-galleries, etc., to render it possible to operate submarine mines.....	Same act.....				250,000 00		
Torpedoes: Continuing torpedo experiments and for practical instruction of engineer troops in the details of the service.....do.....				30,000 00		
						\$530,000 00	\$602,000 00
<i>Armament of Fortifications—</i>							
Manufacture (finishing and assembling) of 8-inch, 10-inch, and 12-inch steel sea-coast guns from forgings procured under fortification act of September 22, 1888.....	Mar. 2, 1889	25	887	1	70,000 00		
Completing the manufacture (finishing and assembling) of 3.60-inch, 5-inch, and 7-inch steel field and siege cannon from forgings procured under fortification act of March 2, 1889.....	Same act.....				36,000 00		
Steel field-guns of 3.20-inch caliber.....	Submitted.....				25,000 00		
NOTE.—This sum is estimated to procure about twenty-five guns.							
Steel forgings for one type sea-coast gun of 16-inch caliber.....do.....				125,000 00		
NOTE.—This sum is estimated to procure the steel forgings for a single-type gun made on the same general plan as 8, 10, and 12 inch steel sea-coast guns now being procured under the fortification act of September 22, 1888.							
Breech-loading rifled sea-coast mortars, cast-iron, hooped with steel, of 12-inch caliber.....	Sept. 22, 1888 Submitted.....	25	490	5.	400,000 00		
NOTE.—This sum is estimated to procure about fifty mortars, similar in design to those now being procured under the fortification act of September 22, 1888, wherein \$250,000 were appropriated.							
Sights and implements for guns and for fuzes.....	Mar. 2, 1889	25	887	1	2,000 00		
Metallic carriages for field-gun batteries.....	Same act.....				143,135 00		
NOTE.—This sum is estimated to procure about seventy-five gun-carriages, twenty-five limbers, twenty-five caissons, and six combined forges and battery-wagons for guns of 3.20-inch caliber; and about twenty-four limbers, twenty-four caissons, and six combined forges and battery-wagons for guns of 3.60-inch caliber. These carriages are needed for the equipment for service of guns made or under fabrication, and including the twenty-five guns of 3.20-inch caliber previously named in this estimate.							
Alteration of existing carriages for 10-inch and 15-inch smooth-bore guns to adapt them to present service conditions.....do.....				100,000 00		
Carriages for breech-loading rifled mortars of 12-inch caliber procured under the fortification act of September 22, 1888.....do.....				225,000 00		
Powder for proving sea-coast mortars of 12-inch caliber procured under the fortification act of September 22, 1888, and for testing projectiles.....	Submitted.....				10,000 00		
Steel shell or shrapnel for field-guns, \$12,000, and for cast-iron projectiles for field, siege, and sea-coast guns, \$24,500, for issues to the service.....	Mar. 2, 1889	25	887	1	36,500 00		
NOTE.—This sum is estimated to procure about 2,000 steel shell or shrapnel, and about 5,000 field, 1,100 siege, and 500 8-inch sea-coast cast-iron projectiles.							
Cast-iron projectiles for proving sea-coast mortars of 12-inch caliber, procured under the fortification act of September 22, 1888.....	Submitted.....				10,000 00		
Steel shell for sea-coast cannon.....do.....				25,000 00		
Steel armor-piercing projectiles for sea-coast guns.....do.....				200,000 00		
Purchase and erection of armor plate for testing armor-piercing projectiles.....do.....				24,000 00		
Machinery and plant for the manufacture of steel shell or shrapnel for field guns.....do.....				5,000 00		
Machinery to complete the full capacity of present gun factory building at Watervliet Arsenal, West Troy, N. Y.....do.....				60,000 00		
NOTE.—It is estimated that from the appropriation made under the fortification act of September 22, 1888, the machinery procured will enable the manufacture of four 12-inch, six 10-inch, and ten 8-inch guns per annum. The present building (north wing now in course of construction) will accommodate machinery sufficient for the manufacture of five 12-inch, seven 10-inch and twelve 8-inch guns per annum, and this estimate is made to procure the additional machinery required therefor.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Armament of Fortifications—Continued.</i>							
Increase of machinery and plant for manufacture of projectiles and for castings needed in current work of gun fabrication at Army Gun Factory.....	Sept. 22, 1888 Submitted.....	25	489	3	\$10,050 00		
NOTE.—Ten thousand dollars appropriated under fortification act of September 22, 1888.							
Three sets officers' quarters at the Army Gun Factory, Watervliet Arsenal, N. Y.....	Submitted.....				30,000 00		
NOTE.—These quarters are necessary for the accommodation of additional officers who must be stationed at the Gun Factory as assistants (inspectors, etc.), in connection with the largely increased work of the station. The officers now on duty there will occupy all the present quarters, including the two sets provided for in the fortification act of September 22, 1888.							
Fire-proof brick office building for the Army Gun Factory, Watervliet Arsenal, N. Y.....	do.....				23,000 00		
NOTE.—This building is needed for offices, draughtsmen, and storage of valuable records, etc., to be erected contiguous to the main Gun Factory buildings.							
Railroad sidings, switches, and weighing-scale at the Army Gun Factory, Watervliet Arsenal, N. Y.....	do.....				2,800 00		
NOTE.—This sum is estimated for a necessary increase of the present facilities for the receipt and shipment of freight by rail within the arsenal grounds. Those provided by the sundry civil act of October 2, 1888, have been found to be inadequate.							
One 150 horse-power steam-engine and shafting for machine-shop at the Army Gun Factory, Watervliet Arsenal, N. Y.....	do.....				3,500 00		
NOTE.—To replace an old and worn-out engine. The machine-shop is one of those existing at the arsenal before the establishment of the Gun Factory; it is now used in the manufacture of field gun-carriages, etc., and is fitted for finishing projectiles and other work in connection with the Gun Factory.							
To complete Army Gun Factory building by the erection of south wing, inclusive of ways for traveling-crane.....	do.....				248,743 00		
NOTE.—The erection of this wing will complete the building as originally designed. This new wing is intended to accommodate machinery for the manufacture of six 16-inch and ten 12-inch guns per annum.							
Machinery, tools, and fixtures for south wing of Army Gun Factory.....	do.....				888,570 00		
NOTE.—This sum is estimated to procure the gun plant for this wing of building to give the annual output named under the preceding item. The fortification act of September 22, 1888, appropriated \$700,000 for buildings, machinery, etc., for Army Gun Factory.							
For alterations of 12-inch gun lathe to adapt it to the fabrication of a 16-inch-type gun.....	do.....				10,700 00

NOTE.—The necessity for the above increase of the estimate over the appropriations for the fiscal year is explained in the statement of the officer in charge, in Appendix "L."						\$11,000 00	\$10,500 00
<i>Washington Aqueduct, District of Columbia—</i>							
Engineering, maintenance, and ordinary repairs.....	Mar. 2, 1889	25	800	1	20,000 00		
NOTE.—The act of June 11, 1878 (20 Stat., 104), providing a permanent form of government for the District of Columbia, directs that the estimates for the "Expenses of the Washington Aqueduct and its appurtenances" shall be submitted by the Commissioners of the District of Columbia.							
<i>Increasing the Water Supply of Washington, D. C.—</i>							
NOTE.—In reference to the estimate for "Increasing the water supply of Washington, D. C.," the officer in charge of the work states:							
"Operations are practically suspended for the present upon the tunnel project, as neither the tunnel nor reservoir are factors in the problem of increasing the water supply by means of the new 48-inch mains."							
In reference to the estimate for "Water supply, District of Columbia," the officer in charge of the work states:							
"No estimate for further appropriation is submitted, as it is believed that the amount on hand is sufficient to complete the work."

Repair of cooking utensils, and the replacement of worn-out cooking utensils in the cadet subsistence department, to be expended without advertising.....do.....				326 00		
Three sets of officers' quarters, to be immediately available upon approval of this act.....	Submitted.....				30,000 00		
NOTE.—The quarters for officers at this post have been inadequate for many years, but since 1888 (August) the greatest inconvenience has been experienced, and it is thought that a simple statement of the following facts is all that is necessary to prove the necessity for the quarters called for.							
There are now on the post six families occupying three sets of officers' quarters, which were originally built for one family in each. In each of these quarters one family lives up-stairs, the other, down; they use in common the halls and front door. Investigation shows that during the last twenty-five years only five sets of quarters have been built, and during that time the number of officers have been increased; also, that the proportion of married officers has recently been increased by the new regulation forbidding the detail of officers to duty at the Academy until they have been graduated at least four years. Under these circumstances it is thought that the quarters asked for are indispensable, and should therefore be erected.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)

		Vol. or R. S.	Page.	Sec.			
<p><i>Buildings and Grounds, Military Academy—Continued.</i></p> <p>but no appropriation was made. The increase this year is due to such facts as are contained in the special sanitary report of the assistant surgeon of the post, dated August 12, 1889, of which the following is an extract:</p> <p>"I would invite your attention to the present surroundings of several families who, among many others, seem especially deserving of consideration, their present quarters being either unsanitary or insufficient in size:</p> <p>"Private * * * has been in the service for twenty-two years. Quarters consists of two rooms, each 13 by 9 by 12½ feet, and one room 9 by 6 by 9 feet. Family consists of wife and three children. Wife an invalid; one child an imbecile and cripple, being unable to help himself in any way. Another child suffering from genu valgum. During last month two children of this family died of cerebro-spinal fever. Had this man had suitable quarters it is probable that these deaths would not have occurred.</p> <p>"Sergeant * * * has been in the service twenty-five years. Family consists of wife and two children, aged five and two years, respectively. The quarters occupied by this family were in October, 1887, and several times since, reported by medical officers as unfit for occupancy. Strong, but unsuccessful efforts were made to secure better quarters for this family. As a consequence of these wretched surroundings Mrs. * * * has contracted pulmonary phthisis. This disease will prove fatal, but life may be prolonged by proper sanitary measures. This is especially desired because of the age of the children.</p> <p>"Private * * *: length of service eighteen years; man, wife, and eight children occupying cubic space of only 3,423 feet, divided into three rooms.</p> <p>"Private * * *: length of service eighteen years; man, wife, and six children living in second story of same building as Private * * *. Quarters consists of two rooms, each 13 by 9 by 12½ feet, and one 9 by 6 by 9 feet.</p> <p>"Private * * *: length of service twenty-one years. Quarters consists of two rooms, each 13 by 9 by 12½ feet, and one room 9 by 6 by 9 feet. Family: Wife, who has just been released from the State insane asylum; six children, aged respectively seventeen, fifteen, thirteen, eleven, nine, and five years."—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Broken stone for roads.....	Submitted.....				\$3,000 00		
<p>NOTE.—The necessity for this becomes apparent to one traveling about the post in either dry or wet weather. When the weather is dry clouds of dust cover everything—grass, trees, buildings, and travelers; when wet, mud is formed from the dust.</p> <p>Recently I have been purchasing broken stone, and I find it cheaper than the cost of excavating and hauling what is here known as gravel; besides, when gravel, so-called, is hauled in it must be repeated after every rain. Broken stone makes a permanent road, and after a long trial in this vicinity has been found to be perfectly satisfactory.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
One set of quarters for watchman at south wharf, to be immediately available upon approval of this act.....	do.....				1,500 00		
<p>NOTE.—This building is a matter of economy. With it one man can do the work of two, and by placing in it a married man the water-closets for the public can be properly attended to. At present, owing to the absence of accommodations for a watchman, the south wharf requires the services of two men for the proper care and preservation of Government stores. It is evident that the sum saved by discontinuing the services of one man will in a few years pay for the building asked for.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Maintaining and improving the grounds of the post cemetery including the purchase of trees, plants, tools, and materials, to be immediately available upon approval of this act.....	Feb. 12, 1889	25	667	1	1,200 00		
<p>NOTE.—The amount appropriated for present fiscal year is entirely inadequate. Attention is invited to note which accompanied estimate furnished last year, which reads as follows:</p> <p>"This estimate is submitted owing to the recent greater necessity for keeping the cemetery in an improved condition. During recent years there have been an unusual number of distinguished officers interred, which causes a large influx of visitors to the cemetery during the spring, summer and fall seasons. As no appropriation is available for keeping the grounds in proper condition it is found almost impossible to keep them presentable. By reference to the report of the Quartermaster-General of the Army for the year 1887, pages 272 to 275, inclusive, it will be seen that the average amount spent on national cemeteries (including all classes) is about \$1,200 per cemetery, this notwithstanding they have been regularly appropriated for during many years."—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Asphalt paths through camp grounds and upon regular lines of travel between the cadet barracks, officers' quarters, and hotel, 6,000 square yards, at \$2 per yard...	Submitted.....				12,000 00		
<p>NOTE.—In the late fall, winter, and early spring the gravel walks are muddy, and pedestrians seek the lawns which are thus injured. If asphalt walks are laid the annual expense incident to the repair of the walks now in use will be used.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

<i>Buildings and Grounds, Military Academy—Continued.</i>							
Conversion into officers' quarters of the residence on the estate of the late Edward V. Kinsley, purchased under act of Congress approved March 2, 1889	Submitted.....				\$10,000 00		
Opening and repair of roads in the above tract of land.....do.....				2,000 00		
<p>NOTE.—This house is a good substantial structure, but it needs reroofing, new floors, and the introduction of gas, water, and a system of house drainage, plumbing, and heating apparatus to render it as comfortable and convenient as other quarters for officers at the post. It will also be found necessary to make sundry repairs incident to the house being closed for many years.</p> <p>The amount asked for opening and repair of roads is necessary in order to establish and place in good condition the necessary lines of communication in this tract of land. If the residence is occupied as officers' quarters, approaches from the side of the post are deemed indispensable. A portion of this money is also required to place and maintain in order the road from the south gate to Highland Falls, which was heretofore cared for by the county of Orange.</p>						\$159,016 70	\$755,661 96

<i>New Hospitals at David's Island and Columbus Barracks—</i> Constructing new hospitals at the recruiting depots at David's Island, N. Y. Harbor, and Columbus Barracks, Ohio.	Submitted.					60,000 00	
<i>Improvement of Yellowstone National Park—</i> For completing the road from Upper Geyser Basin to and around Shoshone Lake, thence across the Continental Divide to Yellowstone Lake and River, and down the latter to the Grand Cañon; thence to Yancey's, to intersect the road from Cook City to Mammoth Hot Springs; in completing the Gibbon and Madison Cañon roads; in improving and maintaining the old road from Lower Basin and Firehole to the Falls of the Yellowstone; in maintaining roads and bridges generally throughout the park, and in making some small extensions to existing roads	Mar. 2, 1889	25	967	1	120,000 00	\$50,000 00
NOTE.—The officer in charge of this improvement remarks: "Owing to the late date at which appropriations are frequently made, the season when expenditures can be made to the best advantage is lost for the fiscal year. It would be of the greatest advantage to the work, and economy would be subserved, could future appropriations for this improvement be made without limit, as in the case of each of the items of river and harbor acts."							
Total Miscellaneous						2,284,276 00	1,205,000 00
RIVERS AND HARBORS.							
<i>Gauging Waters of Columbia River, Oregon—</i> Measuring tidal and river volumes	Aug. 11, 1888	25	423	1	2,000 00	
<i>Examinations, Surveys, and Contingencies of Rivers and Harbors—</i> Examinations and surveys (\$75,000), and for contingencies and incidental repairs of harbors for which there may be no special appropriation (\$125,000)	Aug. 11, 1888	25	433	1	200,000 00	
<i>Mississippi River Commission—</i> For salaries, inspections, and traveling expenses of the commission; for printing and telegraphing; for office expenses and miscellaneous	Oct. 2, 1888	25	533	1	35,000 00	
Total Rivers and Harbors						237,000 00	
Total Public Works under War Department						12,020,134 74	3,597,535 96
Total Public Works						19,007,442 74	5,939,767 76

NOTE.—The following statement is not furnished as a part of the "annual estimates for the public service" required by the act of March 3, 1875 (18 Stat., p. 370), to be furnished by the Secretary of War to the Secretary of the Treasury, but is inserted as a convenient and customary summary of items taken from the annual report of the Chief of Engineers for the fiscal year 1889, showing, under the provisions of the act of Congress approved March 2, 1867 (14 Stat., p. 421), "the amount that can be profitably expended in the next fiscal year" on each of the uncompleted works mentioned.

For what object.	Date of last appropriation.	Reference to statutes.			Amount that can be profitably expended in the next fiscal year, as reported by the Chief of Engineers.

PUBLIC PRINTING AND BINDING.							
The following are the estimates for public printing, binding, and paper for the same, as furnished by the Library of Congress and the several Executive Departments, under the provisions of section 2, act of May 8, 1872 (R. S., page 720, section 3661 :)							
LIBRARY OF CONGRESS.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer, as follows: Printing and binding copyright records and blanks, binding of books and periodicals for the Library of Congress, and printing and binding Catalogue.....					\$15,000		
STATE DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer.....					25,000		
TREASURY DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing, and paper for the same; blank books, binding, ruling, and all other work for the Treasury Department, heretofore estimated for by the Public Printer.....					300,000		
SMITHSONIAN INSTITUTION.							
<i>Printing and Binding—</i>							
Printing labels and blanks, and for the bulletins and annual volumes of the Proceedings of the National Museum					\$18,000		
Binding					500		
						18,500	
WAR DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding for the War Department and its bureaus, to be executed under the direction of the Public Printer, as follows:							
Office of Secretary of War.....					\$18,000		
Office of Adjutant-General.....					20,000		
Office of Inspector-General.....					500		
Office of Judge-Advocate General..					500		
Office of Quartermaster-General....					18,000		
Office of Commissary-General.....					4,500		
Office of Paymaster-General.....					2,000		
Office of Surgeon-General, (including \$12,000 for the index-catalogue of this office and \$10,000 for binding 8,000 volumes of reference and professional books for the library of the Surgeon-General's Office).....					40,000		
Office of Chief of Engineers, (including not exceeding \$5,000 for publication of Professional Papers when approved by the Secretary of War).....					20,000		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
<i>Printing and Binding—Continued.</i>							
Office of Chief of Ordnance, \$35,000 ; reduced by the Secretary of War to.....						\$25, 000	
Office of Chief Signal Officer—Printing, \$6,000 ; for binding, \$4,000 ; for lithographing and mapping, \$1,000 ; and for engraving, \$1,000 ; of the necessary annual reports, books, pamphlets, forms, circulars, posters, Professional Papers, Signal Service charts, card-catalogues, and for other necessary printing which, in the opinion of the Secretary of War, may be required to carry into effect the appropriations made for the support of the Signal Service, and of which amount not more than \$1,000 may be used in publishing, on the approval of the Secretary of War, Professional Papers and Signal Service Notes for distribution to voluntary and co-operating observers.....						12, 000	
<p>NOTE.—This estimate is submitted in compliance with the provisions of the act of August 4, 1886 (24 Stats., p. 222), which directs "that all printing and engraving for the * * * Signal Service shall hereafter be estimated for separately and in detail." By the sundry civil act of March 2, 1889, the amount appropriated for this service is \$10,000, which is not sufficient for the needs of this bureau. From the experience of the past it has been found that an average of \$12,000 per annum is required; the increase of \$2,000 is therefore submitted.</p> <p>The utility of this service to agriculture and other interests would be largely subserved by authorizing the occasional publication of meteorological papers having a practical bearing upon matters of general public utility, such as irrigation, effect of weather upon crops, etc., and in this manner the special wants of co-operating observers, who give gratuitously their time and observations, would be acknowledged and subserved by a free distribution of such papers to them.—(A. W. Greeley, Chief Signal Officer.)</p>							
Office of Rebellion Records.....						1, 500	
						\$162, 000	
<p>NOTE.—The business of distributing the volumes of the Official Records of the Rebellion has been transferred to the War Records Office, and the number to be distributed annually will be increased from 44,000 to 198,000, hence a corresponding increase in the amount of printing will be necessary.—(Geo. B. Davis, Major, U. S. A.)</p>							
NAVY DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding for the Navy Department, including \$28,000 for the Hydrographic Office, to be executed under the direction of the Public Printer.....						90, 000

		Vol. or R. S.	Page.	Sec.			
<i>Expenses of Light-Vessels—</i> Expenses of maintaining, repairing, and replacing light-ships, establishing temporary light-ships where necessary, and incidental expenses connected therewith..... NOTE.—On June 30, 1888, the Board had thirty-two light-vessels. The appropriation made for their expenses during that year was but \$215,000, and it was practically all expended. On June 30, 1889, the Board had also thirty-two light-vessels. The appropriation made for that year was \$215,000, the same as on the previous year. By June 30, 1890, the Board will have built, and had for several months in position, four new light-vessels. The appropriation for that year was only \$215,000, the same as on several previous years; consequently, much that was needed was left undone, and the Board was obliged from lack of funds to allow these vessels to gradually deteriorate, and now a number of them have fallen below a proper standard. Commerce demands that steam fog-signals shall be established on a number of these light-vessels. To maintain in a proper state of efficiency vessels carrying fog-signals will require, for each, at least \$8,000 per year. If the appropriations are made for building the four new light-vessels recommended in the Board's current estimates, provision should be made for the expenses of at least thirty-seven light vessels. An average of at least \$7,000 for each vessel will be needed. In addition fully \$25,000 will be needed to repair and bring the vessels now in the service up to the proper standard. This will require, altogether, an appropriation of \$284,000.	Appropriated..	25	946	1	\$284,000 00	\$215,000 00	
<i>Expenses of Buoyage—</i> Expenses of establishing, replacing, and maintaining buoys, spindles, and day-beacons, and for incidental expenses relating thereto..... NOTE.—On June 30, 1888, there were in place 4,464 buoys, bpindles, and day-beacons. There was appropriated \$325,000 for this purpose for that year, and it was all expended. On June 30, 1889, there were in place 4,693 buoys, spindles, and day-beacons, and the appropriation for that purpose and for that year was \$325,000, the same as the year before. That amount was also all expended, but it was insufficient to do all that was needed. As the cost of the increase in the number of the buoys above-mentioned was to a large extent caused by expenditures made for whistling-buoys and bell-buoys, both of which are very expensive, and which, as they mark dangerous places, are liable to be lost, it is estimated that it will take \$75,000 to put the service in a condition to be ready for the emergencies which are constantly arising. This is additional to the sum appropriated last year. Hence it is estimated that a total of \$400,000 will be required for the fiscal year to end June 30, 1891.	Appropriated..	25	946	1	400,000 00	325,000 00	
<i>Expenses of Fog-Signals—</i> Establishing, replacing, duplicating, and improving fog-signals and buildings connected therewith, and for repairs and incidental expenses of same.....	Appropriated..	25	946	1	75,000 00	60,000 00	
<i>Inspecting Lights—</i> Mileage and traveling expenses of members of the Light-House Board, including rewards paid for information as to collisions, and for the apprehension of those who damage light-house property	Appropriated..	25	946	1	5,000 00	3,000 00	
<i>Lighting of Rivers—</i> Establishing, supplying, and maintaining post-lights on the Hudson and East Rivers, New York ; the Raritan River, New Jersey ; the Connecticut River, Connecticut ; the Delaware River, between Philadelphia and Bordentown, New Jersey ; the Elk River, Maryland ; the Cape Fear River, North Carolina ; the Ashley River, to guide across Accabee Flats, South Carolina ; the Savannah River, Georgia ; the Inland Passage, between Savannah, Georgia, and Fernandina, Florida ; the St. John's and Indian Rivers, Florida ; at Chicot Pass, and to mark the navigable channel along Grand Lake, Louisiana ; at the mouth of Red River, Louisiana ; on the Mississippi, Missouri, Ohio, Tennessee, Illinois, and Great Kanawha Rivers ; the St. Clair River, Lake St. Clair, and the River St. Mary, Michigan ; Sacramento and San Joaquin Rivers, Suisun, and San Diego Bays, California ; the Columbia and Willamette Rivers, Oregon ; and on Puget Sound, Washington Sound, and adjacent waters, Washington ; the Light-House Board being hereby authorized to lease the necessary ground for all such lights and beacons as are for temporary use or are used to point out changeable channels, and which, in consequence, can not be made permanent..... NOTE.—On June 30, 1888, there were maintained from this appropriation 1,422 lights, as against 1,258 lights in the previous	Appropriated..	25	946	1	350,000 00	254,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Lighting of Rivers—Continued.</i>							
year. The amount of the appropriation for 1888 was \$225,000, while that for 1887 was \$190,000. On June 30, 1889, there were 1,577 lights maintained from an appropriation of \$250,000. The appropriation for the year ending June 30, 1890, the current fiscal year, is but \$254,000. If the lights asked for on the rivers named in the act of appropriation are all provided there will be at least 1,700 of them. But it will be practically impossible to greatly increase the present number of lights from this appropriation, as the Board, during the last year, because of lack of funds, had to refuse to establish many lights asked for, and it had to actually discontinue some of the lights previously established. In 1888, but 18 rivers were lighted; in 1889, that number was increased to 20; the appropriation for 1890 names 25 rivers; if a proportionate increase is made in the appropriation for 1891 the number of rivers to be lighted will be 30 at least, and there will be 1,875 lights to be maintained, and as the rivers which are yet to be lighted are mainly in the East, where the expense of establishing and maintaining river-lights is greatest, it is estimated that for the 1,875 lights which will then have to be provided for \$350,000 will be required.							
<i>Survey of Light-House Sites—</i>							
Preliminary examinations, surveys, and plans for determining the proper sites and cost of light-houses and structures for which estimates are to be made to Congress.....	Appropriated..	25	946	1	\$2, 500 00	\$1, 000 00
Total Light-House Establishment.....						2, 576, 700 00	2, 158, 000 00
UNITED STATES COAST AND GEODETIC SURVEY.							
Every expenditure requisite for and incident to the survey of the Atlantic, Gulf, and Pacific coasts of the United States and the coast of the Territory of Alaska, including the survey of rivers to the head of tide-water or ship navigation; deep-sea soundings, temperature, and current observations along the coasts and throughout the Gulf Stream and Japan Stream, flowing off the said coasts; tidal observations; the necessary resurveys; the preparation of the Coast Pilot; continuing researches and other work relating to terrestrial magnetism and the magnetic maps of the United States and adjacent waters, and the tables of magnetic declination, dip, and intensity usually accompanying them; and including compensation not otherwise appropriated for; of persons employed on the field-work, in conformity with the regulations for the government of the Coast and Geodetic Survey adopted by the Secretary of the Treasury; for special examinations that may be required by the Light-House Board or other proper authority, and including traveling expenses of officers and men of the Navy on duty; for commutation to officers of the field force while on field duty, at a rate to be fixed by the Secretary of the Treasury, not exceeding two dollars and fifty cents per day each; outfit, equipment, and care of vessels, used in the Survey, and also the repairs and maintenance of the complement of vessels, to be expended in accordance with the regulations relating to the Coast and Geodetic Survey from time to time prescribed by the Secretary of the Treasury, and under the following heads: <i>Provided</i> , That no advance of money to chiefs of field parties under this appropriation shall be made unless to a commissioned officer, or to a civilian officer who shall give bond in such sum as the Secretary of the Treasury may direct.

Hydrographic examination of Charleston, S. C., entrance and bar, and for extending the surveys up the Cooper and Ashley Rivers to the head of navigation, triangulation, topography, and hydrography.....	Same acts.....				3,000 00		
To continue the primary triangulation from the vicinity of Montgomery, Ala., towards Mobile.....do.....				5,000 00		
Geodetic junction of Fernandina with Cedar Keys, including a line of precise levels.....do.....				5,000 00		
Continuing the survey of the western coast of Florida, from Cape Sable north to Cape Romano, and for hydrography off the same coast, being all new work.....do.....				7,000 00		
Continuing the survey of the tributaries of Pensacola Bay, or, if completed, to run a line of standard levels from the bench mark in Mobile to the bench marks along the Mobile River up to the vicinity of Mount Vernon Landing.....do.....				2,000 00		
Triangulation, topography, and hydrography of Perdido Bay and its connection with the coast triangulation, and for resurvey of Mobile Bay entrance, and, if completed, to take up the survey of Lake Pontchartrain.....do.....				3,000 00		
Continuing the survey of the coast of Louisiana west of the Mississippi delta, and between Barataria Bay and Sabine Pass.....do.....				7,000 00		
To make off-shore soundings along the Atlantic coast, and current and temperature observations in the Gulf Stream.....do.....				8,000 00		
Hydrography, coast of California, including San Francisco Bay and Harbor, and necessary triangulation and topography.....do.....				10,000 00		
Continuing the topographic survey of the coast of California, including necessary triangulation and astronomical work in connection therewith.....do.....				10,000 00		
Continuing the primary triangulation of California, and for connecting the same at Mount Conness with the transcontinental arc.....do.....				10,000 00		
Continuing the survey of the coast of Oregon, including off-shore hydrography, and to continue the survey of the Columbia River from the mouth of the Willamette toward the Cascades; triangulation, topography, and hydrography.....do.....				12,000 00		
Continuing the survey of the coast of Washington. This amount is necessarily increased to meet the requirements of the hydrography.....do.....				12,000 00		
Continuing explorations in the waters of Alaska, and making hydrographic surveys in the same, and for the establishment of astronomical, longitude, and magnetic stations between Sitka and the southern end of the Territory.....do.....				10,000 00		
Continuing the researches in physical hydrography relating to harbors and bars, including computations and plotting.....do.....				7,000 00		
Examinations into reported dangers on the Eastern, Gulf, and Pacific coasts.....do.....				500 00		
To continue magnetic observations on the Atlantic and Gulf slopes.....do.....				1,200 00		
Continuing magnetic observations on the Pacific coast, and at San Antonio magnetic observatory. (Experience shows that this increase is necessary to meet expenses).....do.....				1,500 00		
Running an exact line of levels from Boston or Salem, Mass., to Blue Hill, Mount Monadnock, Mount Washington, Mount Independence, and Lake Champlain.....do.....				2,000 00		
Continuing the line of exact levels from the vicinity of Jefferson City, Mo., westward, and for extending a line from the Fort Point tidal bench marks at San Francisco, to the Lick Observatory, on Mount Hamilton, and thence eastward.....do.....				6,000 00		
Continuing tide observations on the Pacific coast, viz.: At Kadiak, in Alaska, and at Sancelito, San Francisco, Cal.....do.....				2,500 00		
Continuing tide observations on the Atlantic coast at Sandy Hook, N. J., and at Savannah, Ga.....do.....				2,300 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Party Expenses, Coast and Geodetic Survey—Continued.</i>							
Self-registering gauge at Willets Point, Long Island, N. Y., to co-operate with the gauge at Sandy Hook, N. J., in securing data for the more complete study of the tides and tidal currents of East River and New York Harbor.....	Mar. 3, 1871 Mar. 2, 1889	R. S. 16 26	910 508 946-8	4681-4691 1 1	\$1,000 00		
To continue gravity experiments, at a cost not exceeding \$500 per station, except for special investigations and experiments authorized by the Superintendent at one or more stations.....	do.				5,000 00		
Furnishing points to State surveys, to be applied, as far as practicable, in States where points have not been furnished.....	do.				10,000 00		
Determinations of geographical positions, longitude parties.....	do.				5,000 00		
Continuing the transcontinental geodetic work on the line between the Atlantic and Pacific Oceans, including a primary base in the vicinity of Salt Lake.....	do.				30,000 00		
To continue the compilation of the Coast Pilot, and to make special hydrographic examinations for the same.....	do.				5,000 00		
Traveling expenses of officers and men of the Navy on duty, and for any special surveys that may be required by the Light House Board or other proper authority, and contingent expenses incident thereto.....	do.				3,500 00		
Objects not hereinbefore named that may be deemed urgent, including the actual necessary expenses of officers of the field force, temporarily ordered to the office at Washington for consultation with the Superintendent, to be paid as directed by the Superintendent, in accordance with the Treasury regulations.....	do.				7,000 00		
Contribution to the "International Geodetic Association for the Measurement of the Earth," or so much thereof as may be necessary, \$450, to be expended through the office of the American legation at Berlin; and for expenses of the attendance of the American delegate at the general conference of said association, or so much thereof as may be necessary, \$550: <i>Provided</i> , That such contribution and expenses of attendance shall be payable out of the item "for objects not hereinbefore named." And ten per centum of the foregoing amounts shall be available interchangeably for expenditure on the objects named.							
Total Party Expenses.....						\$215,000 00	\$160,700 00
<i>Alaska Boundary Survey—</i>							
Expenses of carrying on a preliminary survey of the frontier line between Alaska and British Columbia and the Northwest Territory, in accordance with plans or projects approved by the Secretary of State, including expenses of drawing and publication of map or maps, \$25,000, said sum to continue available for expenditure until the same is exhausted.....	Mar. 2, 1889	26	949	1		25,000 00	20,000 00
<i>Repairs and Maintenance of Vessels, Coast Survey—</i>							
Repairs and maintenance of the complement of vessels used in the Coast and Geodetic Survey.....	Mar. 2, 1889	26	949	1		30,000 00	25,000 00
<i>Salaries, Coast and Geodetic Survey—</i>							
Pay of field-officers:							
Superintendent.....	Mar. 2, 1889	26	949	1	6,000 00		
Two assistants, at \$4,000 each.....	Same act.....				8,000 00		
One assistant.....	do.				3,600 00		
One assistant.....	do.				3,200 00		
Four assistants, at \$3,000 each.....	do.				12,000 00		
Two assistants, at \$2,800 each.....	do.				5,600 00		
Three assistants, at \$2,700 each.....	do.				8,100 00		
Three assistants, at \$2,400 each.....	do.				7,200 00		
Three assistants, at \$2,300 each.....	do.				6,900 00		
Five assistants, at \$2,200 each.....	do.				11,000 00		
Six assistants, at \$2,000 each.....	do.				12,000 00		
Nine assistants, at \$1,800 each.....	do.				16,200 00		
Nine assistants, at \$1,500 each.....	do.				13,500 00		
Three sub-assistants, at \$1,400 each.....	do.				4,200 00		
Two sub-assistants, at \$1,300 each.....	do.				2,600 00		
Four sub-assistants, at \$1,100 each.....	do.				4,400 00		
Total pay in the field.....						124,500 00	119,500 00

						49, 950 00	45, 150 00
<p>That overseers and inspectors temporarily required in connection with sewer, street, or road work, or the construction and repair of buildings and bridges, or any work done under contracts authorized by appropriations, and all expenses incidental to or necessary for the proper execution of said work, shall be paid out of the sums appropriated for said work, and for the time actually engaged thereon; and the Commissioners of the District, in their annual report to Congress, shall report the number of such overseers and inspectors and their work, and the sums paid to each, and out of what appropriation.</p> <p>NOTE.—The accounts of the Commissioners for 1889 show that each of twenty overseers and inspectors, paid as temporary overseers and inspectors, was employed 280 working days or more, and that twelve of these were employed every working day in the year.</p> <p>In view of this fact it is suggested that such of said employes as are to be paid for the whole year ought to be put on the roll of salaried officers. Congress might provide for them in the appropriation for the engineer's office, or in connection with the appropriations for "Improvements and repairs, District of Columbia; streets, District of Columbia, and sewers, District of Columbia." In case such overseers and inspectors shall be paid from the appropriation for salaries and contingent expenses of the engineer's office, the other appropriations mentioned in this note should be decreased accordingly.—(First Comptroller.)</p>							
Board of examiners, steam engineers:							
Three examiners of steam engineers in District of Columbia, at \$300 each.....	Submitted.....				900 00		
Contingent expenses.....	do.....				100 00

Total for Courts.....						16,518 00	14,518 00

NOTE.—It is recommended that the appropriation for fees of the United States marshal be increased from \$1,400 to \$2,000, as the fees of the marshal in said court have each year since 1883 exceeded \$1,400. See letter of the marshal on this subject in Appendix "F," marked Exhibit "1." It is also recommended that the appropriation for justice of the peace acting as judge of the police court be not limited to \$300. For years past suits have been brought to recover the difference between the amount appropriated and the amount due. The costs taxable against the city and the interest recovered have added largely to the expense.—(First Comptroller.)

June 11, 1878 Mar. 2, 1889	20 25	104 805	3 1	} 8, 000 00		
NOTE.—The vouchers for expenses relative to vehicles, horses, harness, and forage have been and are charged in accounts under a great many appropriations, thereby causing much annoyance to the accounting officers, as well as much difficulty in the examination of the several accounts. Congress is therefore urgently requested to make a separate appropriation for such expenses, except those provided for in the appropriations for the police department, fire department, Washington Asylum, transportation of paupers and prisoners, and the water department. This is also urged in order that Congress and the accounting officers may readily ascertain at any time how many horses are owned by and kept at the expense of the District government.—(First Comptroller.)						15, 826 12	14, 800 00
<i>Emergency Fund—</i> To be expended only in cases of emergency, such as riot, pestilence, calamity by flood or fire, and of like character, and in all other cases of emergency not otherwise sufficiently provided for: <i>Provided</i> , In the purchase of all articles provided for in this act no more than the market price shall be paid for any such articles, and all bids for any of such articles above the market price shall be rejected	June 11, 1878 Mar. 2, 1889	20 25	104 805	3 1	}	5, 000 00	5, 000 00

UNDER THE WAR DEPARTMENT.							
SIGNAL SERVICE.							
NOTE.—The letter of the Chief Signal Officer, dated September 13, 1889, submitting and explaining the estimates for the Signal Service will be found in Appendix "I."							
Observation and Report of Storms—							
To be expended by the Secretary of War:							
Expenses of the meteorological observation and the report by telegraph, signal, or otherwise, announcing the probable approach and force of storms, for the benefit of the commerce, the agriculture, and other interests of the United States, as follows:							
Manufacture, purchase, and repair of meteorological instruments and instrument-shelters, and other expenses in connection therewith; and the Secretary of War, as he may think proper, may cause to be issued such meteorological instruments (not exceeding one set valued at \$15 to any one county) to voluntary unpaid observers, in order to secure meteorological data from such observers, under regulations to be prescribed by the Secretary of War.....	Feb. 9, 1870 Mar. 3, 1887 Mar. 2, 1889	R. S. 16 24 25	36 369 532 967	221-3 1 1 1	\$8,700 00		
Telegraphing reports, messages, and other meteorological information in connection with the observation and report of storms.....	Same acts.....						
NOTE.—The increase of \$2,000 is submitted so that the Service can be maintained with a proper degree of efficiency to respond to the increasing demands of the public for detailed meteorological information.							
Rent of offices; hire of civilian employes; furniture; fuel, light, stationery, ice, stoves, and fixtures; repairs; rent of telephones, including "exchange" service; text-books; lumber, and for other expenses of offices maintained as stations of observation.....	do.....						
NOTE.—The amount appropriated for the fiscal year ending June 30, 1890, was \$44,000. While the sum of \$45,000 is now asked, it is a reduction of \$2,750, as the item of fuel, amounting to \$3,750, heretofore specifically appropriated, is included in this estimate. During the past year the conditions under which offices are leased have materially changed, and instead of fuel being directly bought by this Service, the lease, in most cases, provides for heating. This results in a voucher being paid from two distinct appropriations, which, under ordinary business methods, would be consolidated, and to effect this the item of fuel is incorporated herein.							
Expenses of storm, cautionary, off-shore, cold-wave, and other signals, announcing the probable approach and force of storms, including the pay of observers; services of operators; lanterns; electric lights; flags; books of instruction and reference; repairs; rent or purchase of telephones, transmitters, and call-boxes, including "exchange" service, and for such other supplies or services as may be necessary.....	do.....				11,000 00		
NOTE.—An increase of \$1,000 is submitted to cover the installation of electric lights at Boston, New York, Chicago, and other important cities, owing to the fact that since electric lights have been used for public lighting, the display of cautionary night-signals by means of ordinary oil lanterns is rendered ineffective on account of the greater brilliancy of the electric light.							
River and flood observations and reports and expenses in connection therewith, including pay of river and rainfall observers; construction and repair of river-gauges; manufacture, purchase, and repair of river-gauges and wind-vanes, and for rent or purchase of telephones, transmitters, and call-boxes, including "exchange" service.....	do.....				13,000 00		
NOTE.—The late unusual rains and disastrous floods throughout the country again emphasizes the necessity of increasing this item of the appropriation. The increase of \$1,000 asked over the appropriation for the fiscal year ending June 30, 1890, is for the purpose of establishing river gauges, and making observations in vicinities where they are demanded by the interests of the people; also to provide for continuous observations at important stations where, from want of funds, such observations are now made for only a part of the year.							
Observations and expenses incidental thereto announcing the probable approach and severity of frosts or rains for the benefit of the cotton region of the United States, including the hire of observers, operators, and messengers; the purchase or repair of thermometers and rain-gauges, and the manufacture, purchase, and repair of instrument shelters.....	do.....				5,000 00		

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.

<i>Observation and Report of Storms—Continued.</i>							
<i>To be expended by the Secretary of War—Continued.</i>							
Paper; printing and lithographing supplies; forms; hire of civilian printers and engravers; distribution of publications; purchase or repair of printing, lithographing, and proof presses; purchase of cyclostyles and apparatuses or other apparatus for multiplying writing or printing, and other expenses of preparing, printing, distributing, and displaying weather maps or weather bulletins, and for the maintenance of a printing-office under the direction of the Chief Signal Officer, in the city of Washington, for the printing of the necessary orders, circulars, maps, or bulletins as may be necessary to carry into effect the appropriations made for the support of the Signal Service.....	Feb. 9, 1870 Mar. 3, 1887 Mar. 2, 1889	R. S. 16 24 25	36 369 532 967	221-3 1 1 1	\$15,000 00		
Maintenance and repair of all telegraph lines, including rents of offices; hire of civilian employés; furniture; fuel; light; stationery; ice; stoves and fixtures; rent or purchase of telephones, transmitters, and call-boxes including exchange service; manufacture, purchase, or repair of telegraph instruments and tools; purchase of line and cable material; purchase of battery supplies and material; rental of cable or land lines; general repairs, and for such other absolutely necessary expenses.....	do.....				25,155 00		
NOTE.—The amount asked for is a reduction of \$195, excluding the sum of \$2,350, for fuel, which heretofore has been provided for separately. The reason for this change has been set forth under the item of rents.—(A. W. Greeley, Chief Signal Officer.)							
<i>Signal Service, Pay, etc—</i>							
One brigadier-general.....	June 18, 1878 Feb. 24, 1881 Mar. 3, 1885 Aug. 4, 1886 Mar. 3, 1887 Mar. 2, 1889	R. S. 20 21 23 24 24 25	1261-3 150 346 505 247 532, '3 967, '8	7 1 1 1 1 1	5,500 00

		Vol. or R. S.	Page.	Sec.			
<i>Signal Service, Pay, etc.—Continued.</i> tions made for the Signal Service or Corps, shall be audited and adjusted by the Third Auditor, and Second Comptroller of the Treasury. <i>Provided further,</i> That any money deposited by an enlisted man of the Signal Corps, under the provisions of section 1305, of the Revised Statutes, shall pass to the credit of the appropriation "Signal Service, Pay, etc.," and when paid, including the interest thereon, shall be charged to that appropriation for the fiscal year in which the soldier is discharged. <i>Provided further,</i> That the Secretary of War is authorized, in his discretion, to detail for the service, with the Signal Corps, not to exceed five commissioned officers of the regular Army, to be exclusive of the second lieutenants of the Signal Corps, authorized by law, and the Regular Army officers herein authorized to be detailed for the Signal Corps, shall receive their pay and allowances from the appropriations for the support of the Army. <i>Provided further,</i> That no money herein appropriated shall be used for pay and allowances of second lieutenants appointed or to be appointed from the sergeants of the Signal Corps, under the provisions of the act approved June 20, 1878, in excess of the number of fourteen, or for the pay and allowances of exceeding three hundred and twenty enlisted men of the Signal Corps. <i>Provided further,</i> That officers and enlisted men of the Signal Corps may purchase subsistence stores under the same regulations as prescribed for officers and enlisted men of the Army, as authorized by section 1144 of the Revised Statutes, and paragraph 1402 of the Army Regulations, 1889. <i>Provided further,</i> That the pay of the enlisted men, including the items of commutation of rations, commutation of quarters, and commutation of fuel, shall be paid monthly to each enlisted man entitled thereto, by one check, upon one properly-certified voucher. <i>Provided further,</i> That all laws, acts, or parts of laws or acts, inconsistent with the provisions herein contained, are for these purposes only modified accordingly. NOTE.—The total amount appropriated under the above various items for "Signal Service, Pay, etc." for the enlisted men of the Signal Corps for the service of the fiscal year ending June 30, 1890, is \$315,703.10; the increase of \$5,590.90 is required to pay the full number of 320 men, as allowed. During the present fiscal year it will be impossible to maintain the corps at a greater strength than 315 men, as, at present rates for pay and commutations, the appropriations would not be sufficient. In connection with the incorporation of the various items of commutation allowances in the appropriation for "Signal Service, Pay, etc." it is proper to say that since the abolishment of Fort Myer, Virginia, as a school of instruction for the enlisted men of the Signal Corps, no reason exists why the items of commutation of rations, commutation of quarters, and commutation of fuel should be separately appropriated for as such. These commutation allowances have always been considered, and, as a matter of fact, are, part of the salary or pay of the enlisted men of this Service, and it would seem eminently proper that the distinction, which is only a fiction, be done away with. It was for this purpose that in the sundry civil act of March 2, 1889, Congress inserted a proviso "That the appropriations herein [therein] made for the pay proper of enlisted men for commutation of rations, for commutation of fuel, and for commutation of quarters, shall be paid monthly to each enlisted man entitled thereto by one check upon one properly certified voucher and for that purpose the several appropriations shall constitute one fund."—(A. W. Greely, Chief Signal Officer.)							
<i>Signal Service, Transportation—</i> Transportation of officers of the Signal Corps (including their baggage) when traveling on duty under orders, to be in lieu of actual cost of transportation; for transportation of the enlisted men of the Signal Corps or civilian employes (including their baggage) when traveling on duty under orders; transportation of materials, animals, and funds, for freight, wharfages, tolls, ferriages, drayages, and cartage; for the purchase of special-delivery and registering-stamps; for purchase of necessary harness and other articles, and for expenses of repairs to means of transportation	Mar. 2, 1889	25	969	1	\$18,000 00	\$19,000 00

<i>Signal Service, Forage, etc.—</i> Forage and straw for seven public animals (not exceeding four to be horses), \$1,000; for horse and mule shoes, nails, and expenses for shoeing once each month for seven public animals, \$50; for veterinary supplies, \$25; for blacksmith's supplies, tools, lathes, and materials, \$100.....	Mar. 2, 1889	25	968,'9	1	\$1,175 00	\$1,275 00
<i>Construction of Store-house—</i> Furnishing of material and construction and completion of a brick building one-story (twelve feet) high, not exceeding one hundred and sixteen feet long, and nine feet wide, to be erected in the rear of the present main building of the Signal Service on square No. 25.....	Submitted.....	1,565 00	
<small>NOTE.—There is absolute need of proper storage accommodations for the use of this Service. The building proposed is to take the place of the frail and insecure wooden structures which were temporarily erected at the time this office took possession of the premises which were purchased for the use of this office under the provisions of the act of Congress approved February 25, 1888.—(A. W. Greely, Chief Signal Officer.)</small>							
<i>Signal Service, Contingent Expenses—</i> Contingent expenses of the office of the Chief Signal Office, as follows : Furniture and repairs to same, fuel, carpets and other floor covering, file cases, office cases, map and chart cases, heating apparatus, purchase of professional books, charts, and pamphlets, rental of graphophones and rental of telephones including "exchange" service, repairs to buildings and preservation of grounds, advertising for proposals or public sales, gas or other illuminating material, ice, blank-books, cabinets for type-writers, towels, soap, sponges, newspapers, brooms and brushes, and for other absolutely necessary expenses.....	Feb. 26, 1889	25	730	1	20,072 50	7,250 00
<small>NOTE.—This estimate covers the following items:</small>							
Furniture and repairs to same (including curtains, awnings, gas fixtures, etc'							\$1,900 00
Fitting up fire-proof vault with necessary shelving..							325 00
Fuel.....							2,100 00
Carpets and other floor coverings.....							950 00
File-cases (six, at \$75 each).....							450 00
Office-cases.....							980 00
Map and chart cases (three, at \$130 each).....							390 00
Shelving for library.....							250 00
Adding machines (one comptometer, at \$125, and five "adders," at \$9 each).....							170 00
Electric-bell annunciator (50 indications, at \$2.50 each).....							125 00
Office clocks, five, at \$40 each.....							200 00
Heating apparatus.....							1,500 00
Covering ceiling over boiler and steam-pipes in main building and annex with magnesia plaster..							225 00
Window gratings on first floor of annex building...							364 00
Galvanized-iron pipe for water supply in main building.....							150 00
Repainting of roofs of main and annex buildings..							210 00
Concreting around main building and walks, 465 square yards, at \$1 per square yard							465 00
Paving part of carriage-ways with granite blocks or other suitable material, 490 square yards, at \$3 per square yard.....							1,470 00
Paving other parts of carriage-way with asphalt blocks or other suitable material, 850 square yards, at \$2.50 per square yard							2,125 00
Blue curbing or other suitable material for carriage-ways and walks, 1,100 running feet, at 75 cents per foot.....							825 00
Granite steps for main and side entrances, and granite curbing in rear of main building, including foundations and setting of same.....							1,199 00
Grading of carriage-ways and walks, filling in of terraces, and sodding of same.....							165 00
Heavy sewer traps to replace those now in use on the carriage-ways, including the changing of the trap at entrance to north wing of annex building, also new iron rain leaders to replace terra-cotta ones now on main building.....							187 00
Professional books, charts, and pamphlets.....							975 00
Rental of telephones, including "exchange" service.....							100 00
Rental of graphophones (\$40) and purchase of cylinders for same (\$80).....							120 00
Advertising for proposals or for public sales.....							250 00
Gas or other illuminating material, including installation of electric lights in the forecast division							650 00
Ice.....							300 00
Blank-books.....							200 00
Cabinets for type-writers (six, at \$40 each).....							240 00
Towels (thirty dozen, at \$3.25 per dozen).....							97 50
Soap (toilet and scrubbing).....							35 00
Sponges for scrubbing							20 00
Mounting of maps and charts.....							25 00

<i>Signal Service, Contingent Expenses—Continued.</i>							
Newspapers.....					10 00		
Brooms and brushes.....					25 00		
Other absolutely necessary expenses.....					300 00		
Total					20,072 50		
<p>Excluding the items for heating apparatus, and for repairs to buildings and preservation of the grounds, which aggregate \$9,585, the amount asked is a reduction of \$1,312.50, as compared with the estimate submitted for the fiscal year ending June 30, 1890, and it is urgently requested that specific appropriation may be made for the amount as asked, in order that this office may be aware of the exact amount under the various items required to maintain and operate the Service, and may thus regulate its expenses accordingly.</p> <p>During the past year this office has moved to the new building at the corner of 24th and M streets; but the main building was not fitted up for proper occupancy as a Government building, and the Supervising Architect of the Treasury refused to erect proper book-cases, file-cases, library-shelving, and other permanent fixtures necessary for the proper dispatch of public business, and the decent appearance of the buildings.</p> <p>The heating apparatus and the sanitary arrangements, ample for a private family, prove materially deficient and, unless properly supplemented and modified, must prove injurious to the health of the large force now occupying the building.</p> <p>The demands made upon the heating apparatus particularly demand attention; since, in its present condition, the building can only be heated, even in moderate weather, at imminent danger of fire. Another boiler of similar size should be erected alongside of the present one, and the wood-work above the boilers ceiled with asbestos sheathing to protect it from fire. The water supply is inadequate to keep the toilet-rooms in the main building in proper sanitary condition.</p> <p>Although the act of Congress provided for a fire-proof vault, yet the building has been turned over to the War Department with no provision made in said vault for properly filing most important records.</p> <p>In order to protect the building and for the economical handling of stores, the approaches to the building, and the walks and roadways around them, should be put in proper condition. A concrete walk should be laid around the building and from the entrance of the main building towards M street, and the same completed with proper steps over the terrace; the roadways around the main building, also the area of the annex, should be paved with asphalt blocks, except on inclines, where Belgian blocks will be required.</p> <p>Window gratings are also required for the protection of property stored in the annex.—(A. W. Greeley, Chief Signal Officer.)</p>							
<i>Signal Service, Stationery—</i>							
Stationery for the office of the Chief Signal Officer.....	Feb. 26, 1889	25	730	1	\$6,250 00	\$3,500 00
<p>NOTE.—It is requested that specific appropriation be made for Signal-Service stationery, 1891, in order that this office may know the exact amount under the various items required to maintain the Service, and may thus regulate its expenses accordingly.</p> <p>The amount allotted by the Secretary of War under this item for the fiscal year ending June 30, 1890, was \$3,500, the increase of \$2,750 asked is necessary for the proper transaction of public business by this office. Owing to the fact that this office has never received the full sum for which estimates have been prepared and submitted, the Chief Signal Officer has been forced, in order that the public business might not suffer, to resort in the past to many shifts and expedients not contemplated by law, but required, under the circumstances, for the dispatch of public business, and it is therefore urgently requested that sufficient funds be placed at his disposal so that similar embarrassment may be avoided in the future. The items comprised in the estimate based upon the actual consumption during the fiscal year ending June 30, 1889, are as follows:</p> <p>500 reams letter paper, 1/2 sheets, at \$2..... \$1,000 00</p> <p>175,000 envelopes, assorted, at \$2.50 per M..... 437 50</p> <p>500,000 wrappers, at 88 cents per M..... 440 00</p> <p>100 quarts ink, at \$1..... 100 00</p> <p>50 quarts mucilage, at 50 cents..... 25 00</p> <p>200 gross pens, at 50 cents..... 100 00</p> <p>30 gross pencils, assorted, at \$3..... 90 00</p> <p>300 pounds twine, at 40 cents..... 120 00</p> <p>30 reams blotting paper, at \$17..... 510 00</p> <p>40 reams wrapping paper, at \$17..... 680 00</p> <p>240 type-writer ribbons, at \$1..... 240 00</p> <p>200 reams type-writer stencil paper, at \$3..... 600 00</p> <p>20 reams paper, "Cyclostyle," at \$20..... 400 00</p> <p>30 pounds ink, "Cyclostyle," at \$1.50..... 45 00</p> <p>10 pens, "Cyclostyle," at \$1.50..... 15 00</p> <p>10 copying presses, Bailey's, at \$35..... 350 00</p> <p>100 pads for same..... 50 00</p> <p>100 oil boards..... 50 00</p> <p>100 letter-press copying-books, at \$1..... 100 00</p> <p>5 type-writers, at \$80..... 400 00</p> <p>100 rubber stamps, at \$1..... 100 00</p> <p>For rubber bands, erasers, pins, red tape, card board, baskets, ink-stands, paper-fasteners, folders, pen-racks, pen-holders, scissors, shears, sealing wax, etc..... 397 50</p> <p>Total</p> <p>6,250 00</p> <p>—(A. W. Greeley, Chief Signal Officer.)</p>							
Total of above estimates for the Signal Service.....						655,612 50	630,922 10

NATIONAL CEMETERIES.							
National Cemeteries—							
Maintaining and improving national cemeteries, including fuel for superintendents of national cemeteries, pay of laborers and other employes, and purchase of tools and materials.....	Mar. 2, 1889	R. S. 25	943 969	4870 4879 1	\$100,000 00	\$100,000 00
Pay of Superintendents of National Cemeteries—							
Pay of seventy-four superintendents of national cemeteries.....	Mar. 2, 1889	R. S. 25	943 969	4873 1	61,160 00	61,160 00
Headstones for Graves of Soldiers—							
Continuing the work of furnishing headstones for unmarked graves of Union soldiers, sailors, and marines in national, post, city, town, and village cemeteries, naval cemeteries at navy-yards and stations of the United States, and other burial-places.....	Feb. 22, 1867 June 8, 1872 June 10, 1872 Mar. 3, 1873 Feb. 3, 1879 Mar. 2, 1889	14 17 17 17 20 25	399 345 367 545 281 969	1 1 1 1 1 1	60,000 00	60,000 00
Repairing Roads to National Cemeteries—							
Repairs to roadways to national cemeteries which have been constructed by special authority of Congress or of the War Department.....	Mar. 2, 1889	25	969	1	15,000 00	15,000 00
National Cemetery at Hampton, Va.—							
For the purchase of eight acres of land adjoining the national cemetery at Hampton, Va., required for enlargement of the same.....	Submitted.....					17,000 00	
NOTE.—The reports show that the Hampton National Cemetery is being rapidly filled by interments from the National Soldiers' Home, at that place, and that but little space is left for future interments.							
Crown Hill National Cemetery, near Indianapolis, Ind.—							
Purchase of additional land for future interments in the Crown Hill National Cemetery, near Indianapolis, Ind., or in its vicinity.....	Submitted.....					30,000 00	
NOTE.—The Crown Hill National Cemetery, situated within the incorporated cemetery of the same name, near Indianapolis, contains about a half acre of land, in which are interred the remains of 712 Union soldiers. There is very little space left for interments, and it is stated that there are about 1,300 members of the G. A. R. in that city, many of them so poor that, at death, their families are left in destitute circumstances.							
Spring Grove Cemetery, Cincinnati, Ohio—							
Purchase of ten acres of land in the Spring Grove Cemetery for future interments of the remains of ex-Union soldiers, sailors, and marines: <i>Provided</i> , The authorities controlling said cemetery agree to improve the land and put it in condition for burial purposes, and to perpetually care for it without cost to the United States, and to make all interments therein without charge.....	Submitted.....					50,000 00	
Road from Marietta to the National Cemetery, Ga.—							
Completion of roadway from Marietta, Ga., to the national cemetery near that place.....	Mar. 3, 1885 Oct 2, 1888	23 25	507 538	1 1	8,264 77	
Approaches to National Cemetery, Culpeper, Va.—							
Purchase of right of way and the improvement of the means of approach to the Culpeper, Va., National Cemetery.....	Submitted.....					4,500 00	
NOTE.—Access to this cemetery is now had only by a road through private property, occupied under an informal agreement or understanding with the owner, which may be canceled at any time, and which would leave the cemetery without the means of communication with any public highway.							
Mortuary Chapel, Arlington, Va., National Cemetery—							
Erection of a mortuary chapel at the western entrance to the Arlington, Va., National Cemetery for funeral and other religious ceremonies at the cemetery, and also for use as a chapel for the post of Fort Myer, Va.....	Submitted.....					39,752 15	
Levee at Brownsville National Cemetery, Tex.—							
Construction of a levee for the protection of the Brownsville, Tex., National Cemetery from overflow of the Rio Grande.....	Submitted.....					3,735 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
<i>Roll of Honor—</i> Printing 5,000 copies of the Roll of Honor in 3 volumes, as estimated by the Public Printer.....	Submitted.....					\$30,000 00	
<i>Approaches to Port Hudson National Cemetery, La.</i> Construction of roadway from the national cemetery to the railroad terminus at Port Hickey, La.....	Submitted.....					13,500 00	
<i>Custer Battle-field National Cemetery—</i> Erection of a permanent fence inclosing the Custer Battle-field National Cemetery, and a lodge for use of superintendent of same.....	Submitted.....					29,900 00	
NOTE.—A recent inspection shows this cemetery to be in a neglected condition, with nothing to mark the site except a monument to the memory of the troops who fell there in June, 1876. The monument has been defaced, and the graves are marked by stakes, rendering an inclosure and superintendent's lodge imperative for the preservation of the cemetery.—(S. B. Holabird, Quartermaster-General, U. S. A.)							
Total National Cemeteries.....						462,811 92	236,160 00
MISCELLANEOUS OBJECTS.							
<i>Surveys and Reconnaissances in Military Divisions and Departments—</i> Military surveys and reconnaissances and surveys of military reservations by the engineer officers attached to the several headquarters of military divisions and departments, being an average of \$1,875 for each of eight military divisions and departments west of the Mississippi River.....	Submitted.....				\$15,000 00		
Publication of maps for use of the War Department.....	do.....				10,000 00	25,000 00	
<i>Survey of Northern and Northwestern Lakes—</i> Surveys, additions to and correcting engraved plates.....	Mar. 2, 1889	25	970	1	25,000 00		
Printing and issuing charts for use of navigators, and electrotyping plates for chart-printing.....	Same act.....				3,000 00	28,000 00	7,000 00
<i>Transportation of Reports and Maps to Foreign Countries—</i> Transportation of reports and maps to foreign countries through the Smithsonian Institution.....	Mar. 2, 1889	25	970	1		100 00	100 00
<i>Maps of Chickamauga Battle-field—</i> Completing, printing, and binding 1,500 sets of maps of the battle-field of Chickamauga.....	Submitted.....					2,500 00	
NOTE.—A request for the publication of the above maps has been made by a large number of the survivors of the battle of Chickamauga, and the above estimate is submitted to enable the War Department to continue the publication already commenced, from funds derived from the appropriation "Contingencies of the Army, 1890."							
<i>Artificial Limbs—</i> Furnishing artificial limbs and apparatus, or commutation therefor, and necessary transportation.....	Aug. 15, 1876	19	203	1, 2		600,000 00	130,000 00
	Mar. 2, 1889	25	970	1			
NOTE.—Artificial limbs are furnished for periods of five years, the greater number being issued during the first year. This estimate is for the first year of such a period. The appropriations for the corresponding year 1885-'86 were \$375,125 (Statutes, 23, p. 507; vol. 24, p. 6; vol. 25, pp. 933, 937), of which \$491,821.15 was expended. The number of applicants for artificial limbs, or commutation, is increasing now at the rate of 150 per month, and it is evident that anything less than \$600,000 would be liable to result in a deficiency.							
<i>Appliances for Disabled Soldiers—</i> Furnishing surgical appliances to persons disabled in the military or naval service of the United States, and not entitled to artificial limbs or trusses for the same disabilities.....	Mar. 2, 1889	25	970	1		3,000 00	2,000 00
NOTE.—The applications for special surgical appliances are constantly increasing, and the sum estimated is small for the wide field to be covered.							
<i>Support and Medical Treatment of Destitute Patients—</i> Support and medical treatment of eighty-five medical and surgical patients who are destitute, in the city of Washington, under a contract to be made with the Providence Hospital by the Surgeon-General of the Army.....	Mar. 2, 1889	25	970	1		17,000 00	17,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1890.
		Vol. or R. S.	Page.	Sec.			
Maintenance of Garfield Hospital— Garfield Memorial Hospital: For maintenance, to enable it to provide medical and surgical treatment to persons unable to pay therefor (increase of \$2,500 submitted)...	Mar. 2, 1889	25	970	1	\$15,000 00	\$12,500 00
NOTE.—The communication of Mr. Justice Miller, president of the hospital, requesting the insertion of this estimate, will be found in Appendix "H h."							
Expenses of Military Convicts— Payment of costs and charges of State penitentiaries for the care, clothing, maintenance, and medical attendance of United States military convicts confined in them	Mar. 2, 1889	25	970	1	7,500 00	7,500 00
Publication of Official Records of the War of the Rebellion— Continuing the publication of the Official Records of the War of the Rebellion, in accordance with the plan approved by the Secretary of War August 3, 1880; and for the employment of such temporary expert services in connection with the preparation, publication, and distribution of said records as may be deemed necessary by the Secretary of War, such experts to be selected and appointed by the Secretary of War from time to time, as the necessity therefor arises	Mar. 2, 1889	25	970	1	200,000 00	100,000 00
NOTE.—The above estimate is based on the act of March 2, 1889, which requires the work to be completed in five years. To do this, it will be necessary to publish at least eighteen volumes per year. Ten volumes will have been published and distributed by November 1, 1889. Eight more will be stereotyped and indexed ready for publication before the end of the current fiscal year.—(Geo. B. Davis, Major and Judge Advocate, in charge.)							
Artillery School, Fort Monroe, Va.— To provide means of instruction at the Artillery School, by the purchase of text-books, drawing-materials, and stationery, artillery, engineering, and electrical instruments, and material, and chemical apparatus, and for other necessary expenses of the school	Mar. 2, 1889	25	970	1	8,164 82	5,000 00
NOTE.—The recent revision (April 15, 1889) of the course of instruction, by which the course of law was omitted and the course of steam and mechanical engineering introduced, and those of electricity and submarine mining, and chemistry very considerably enlarged, has increased the ordinary running expenses of the school, not otherwise provided for, so that any less than the amount here estimated for would greatly embarrass the efficient operations of the school.—(Royal T. Frank, Lieut. Col. 2d Artillery, Commanding.) For statement of items composing the above estimate, see Appendix "I t."							
Infantry and Cavalry School, Fort Leavenworth, Kans.— Text-books, books of reference, instruments, and materials for use in theoretical and practical instruction....	Mar. 2, 1889	25	966	1	\$850 00		
Stationery for use in commandant's and secretary's offices, section-rooms, etc.; paper, sheeting, etc., for map-making, engineering instruments and materials, and veterinary instruments and materials.....	Same act.....				650 00		
Captain Unges' telemeter, or range-finder; necessary for instruction of student officers.....	Submitted.....				400 00		
One model Arab horse, complete (4 feet 3 inches high), exhibiting in detail more than 3,000 parts, separating into 97 pieces; necessary for practical instruction of student officers.....do.....				1,600 00		
Skilled labor and repair of instruments.....do.....				300 00		
One skilled draughtsman in engineering department, for preparation of military maps use: i in section-rooms.....do.....				1,200 00		
						5,000 00	1,500 00
Support of Military Prison, Fort Leavenworth, Kans.— Subsistence of prisoners, teamsters, watchmen, firemen, and wagon and forage-masters, whose pay does not exceed \$60 each per month, and for prisoners en route to the Insane Asylum, Washington, D. C.....	R. S.	242	1344-1361	} 25,000 00		
	May 21, 1874	18	48	1			
	Mar. 2, 1889	25	972	1			
Tobacco, for issue to prisoners on special hard labor.....	Same acts.....				500 00		
Forage and bedding for public animals used exclusively at the prison, and hay for prisoners' bedding.....do.....				3,000 00		
Stationery, blank-books, type-writing supplies, for use in prison offices; memorandum-books and pencils, for use of guard when on duty; stationery, etc., for use in prisoners' school; letter-paper, envelopes, and postage-stamps, for issue to prisoners.....do.....				1,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1891—Continued.

UNDER THE INTERIOR DEPARTMENT.							
COLLECTING THE REVENUE FROM PUBLIC LANDS.							
Salaries and Commissions of Registers and Receivers—							
Compensation of registers and receivers of local land offices, at not exceeding \$3,000 each: <i>Provided</i> , That the fees on homestead and timber-culture entries shall be included in calculating the fees and commissions of registers and receivers (see detailed statement in Appendix "Jj").....		R. S.	392	2237, 2240	}	\$550,000 00	\$550,000 00
Mar. 2, 1889	25	958	1				
NOTE.—The estimate submitted is based upon the actual earnings of registers and receivers, of fees and commissions collected and turned into the Treasury by them during the fiscal year ending June 30, 1889.							
During the year ending June 30, 1889, the fees and commissions earned by registers and receivers amounted to \$858,481.32, while the entire appropriation for their salaries and commissions was \$564,000.							
Of the sum of \$858,481.32, above referred to, there was collected from the entrymen \$698,116.23, which was turned into the Treasury; and if the entire appropriation of \$564,000 is expended there remains as a net revenue to the Government the sum of \$134,116.23, to which is to be added the amount received as homestead and timber-culture fees, \$563,854, making an aggregate of \$697,970.23.							
Contingent Expenses of Land Offices—							
For clerk-hire, rent, and other incidental expenses of the several land offices.....	Mar. 2, 1889	25	958	1	200,000 00	155,000 00
NOTE.—The appropriation for the current fiscal year, amounting to \$155,000, is so inadequate to the needs of the service, that this office is compelled almost daily to refuse applications for allowances of clerk-hire, office rent, and other necessary expenses at many of the local offices. This office is unable to authorize clerk-hire and office rent in very many cases where the public business absolutely requires such allowance, and in no instance have fuel or lights been paid for by the United States. During the fiscal year 1888 the register and receiver of each land office were called upon for a statement of the amount necessary to meet the incidental expenses of their offices for the fiscal year 1889, a copy of which will be found in Appendix "Kk."							
Expenses of Depositing Public Moneys—							
Expenses of depositing money received from the disposal of the public lands.....	Mar. 2, 1889	R. S. 25	713 958	3617 1	}	15,000 00	10,000 00
Depredations on Public Timber—							
To meet the expenses of protecting timber on the public lands.....	Mar. 2, 1889	25	958	1	100,000 00	75,000 00
NOTE.—The appropriation of \$75,000 for the current fiscal year is inadequate to the needs of the service, as it only allows the employment of twenty-six agents, while not less than thirty-five are absolutely required to properly prevent depredations on the public timber from the Gulf of Mexico to Alaska.							

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>Transcripts of Records and Plats—</i> Furnishing transcripts of records and plats, to be expended under the direction of the Secretary of the Interior.....	Mar. 2, 1889	25	959	1	12,500 00	12,500 00
Total Public Lands, exclusive of surveying.....						1,030,000 00	955,000 00
SURVEYING THE PUBLIC LANDS:							
<i>Surveying the Public Lands—</i> Surveys and resurveys of public lands, \$300,000, at rates not exceeding \$9 per linear mile for standard and meander lines, \$7 for township, and \$5 for section lines, except that the Commissioner of the General Land Office may allow for the survey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding \$13 per linear mile for standard and meander lines, \$11 for township, and \$7 for section lines, or if, in case of exceptional difficulties in the surveys, the work can not be contracted for at these rates, compensation for surveys and resurveys may be made by the said Commissioner at rates not exceeding \$18 per linear mile for standard and meander lines, \$15 for township, and \$12 for section lines..... And of the sum hereby estimated, not exceeding \$40,000 may be expended for examinations of public surveys in the several surveying districts in order to test the accuracy of work in the field and to prevent payment of fraudulent and imperfect surveys, and for examinations of surveys heretofore made and reported to be defective or fraudulent, and inspecting mineral deposits, coal-fields, and timber districts; and for making such other surveys or examinations as may be required for identification of lands for purposes of evidence in any suit or proceeding in behalf of the United States. NOTE.—The amount estimated herein for surveying the public land is far below the needs of the service. The estimates of the different surveyors-general amount in the aggregate to over \$700,000, but the smaller amount submitted by this office is really much less than can be advantageously expended. Under existing circumstances, and the meagre appropriations made by Congress during the last three or four years, this office is unable to respond to the appeals by settlers and others for such surveys as will admit of the segregations of homestead, pre-emption, desert, and other claims now pending. The public timber is being destroyed and stolen because no lines of surveys have been run to distinguish railroad from the public lands. It is earnestly requested that Congress consider this matter carefully, and make the necessary appropriation to enable this office to relieve the wants and confirm and allow the rights of settlers. <i>Surveying Private Land-Claims in New Mexico—</i>							
Expenses attending the survey and examination of confirmed private land-claims (\$4,000), survey of unconfirmed private land-claims (\$3,000), and resurvey of unconfirmed private land-claims (\$10,000) in New Mexico.....	R. S. 25	390 959	2223 1	}	17,000 00	\$3,000 00
<p>NOTE.—In explanation of the estimate for the survey of private land claims in New Mexico, the following quotation is made from the surveyor-general's letter submitting estimates for the year ending June 30, 1891:</p> <p>"As regards my recommendation for an appropriation of \$23,000 for the survey and resurvey of unconfirmed private land claims in New Mexico, that are now pending before Congress, I wish to emphasize what I said in the estimates of last year. Settlers coming to the Territory, with a view of locating here permanently, have a right to what lands belong without question to the Government, upon which their homes can be made with safety; and it is clearly the duty of the Government to make a proper segregation from the public domain, by accurate surveys, of all lands that could be rightfully claimed under these grants in the event of their confirmation by Congress. The argument that surveys should not be made of unconfirmed grants in advance of the action of Congress, is without force, because, under the law, the Land Department is bound to recognize the claims as valid until Congress declares otherwise, and to protect the claimants from the intrusion of actual settlers. This duty can be performed in no better and safer way than by executing an accurate survey in each case now awaiting the action of Congress. Many thousand acres of valuable land would be restored to the public domain, if this line of action were faithfully carried out by the Land Department."</p>							
<i>Survey, Appraisement, and Sale of Abandoned Military Reservations—</i>

<i>Engraving, Printing and Binding, Geological Survey—</i>							
Engraving the illustrations necessary for the annual report of the Director..... {	Aug. 4, 1886	24	255	1	} 8,000 00		
	Mar. 2, 1889	25	979	1			
Engraving the illustrations necessary for the monographs and bulletins.....	Same acts.....				35,000 00		
Printing and binding the monographs and bulletins.....do.....				25,000 00		
					68,000 00		
Total Surveying the Public Lands.....						873,700 00	720,700 00
MISCELLANEOUS OBJECTS.							
<i>Expenses of Eleventh Census—</i>							
Salaries and necessary expenses for taking and compiling the results of the Eleventh Census.....	Mar. 1, 1889	25	760-7	20		4,400,000 00	1,000,000 00
<i>Current Expenses, Government Hospital for the Insane—</i>							
Support, including clothing and treatment, in the Government Hospital for the Insane of the insane of the Army, Navy, Marine Corps, Revenue-Cutter Service, National Home for Disabled Volunteer Soldiers, the indigent insane of the District of Columbia, and the United States convict-insane.....		R. S.	938	4838, 4858	}	226,000 00	217,500 00
	Mar. 2, 1889	25	961	1			
NOTE.—The basis of estimate is an annual per capita cost of \$220 for an average number of 1,425 insane persons who, under the United States statutes, are entitled to treatment. Congress has for some years provided for a portion of this expenditure in the District bill. The ratio of appropriation remaining the same as for the present fiscal year, based on the increase of District patients, the amount to be appropriated in that bill will be \$87,500, leaving the sum of \$226,000 to be provided in the sundry civil bill, of which sum it is asked that not exceeding \$1,500 may be used as hitherto in defraying the expenses of the return of patients to their friends.							
<i>Current Expenses, Columbia Institution for Deaf and Dumb—</i>							
Support of the institution, including salaries and incidental expenses, for books and illustrative apparatus, and for general repairs and improvements.....	June 10, 1872	17	360	1	}	47,500 00	55,000 00
	Mar. 2, 1889	25	961	1			
NOTE.—In relation to the above estimate, see Appendix "Z."

APPENDIX.

APPENDIX

APPENDIX.

APPENDIX A.

In relation to the estimates for "Salaries, office of Supervising Architect." (See page 19.)

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., November 7, 1889.

SIR: I have the honor to inclose herewith the estimates of salaries for this office for the fiscal year ending June 30, 1891, in amount, \$9,820, and for skilled services, draughtsmen, etc., \$175,000.

In the estimates of appropriation for the fiscal year ending June 30, 1891, the same force and salaries have been asked for as were authorized by the legislative act, approved February 26, 1889, for the fiscal year ending June 30, 1890, with the exception of the "Principal clerk, at \$2,000 per annum," omitted, as the services have been deemed unnecessary; but it will be observed that in my annual report I have recommended that the salary of the "Assistant and chief clerk" be increased to at least \$3,500, for reasons fully set forth therein.

Referring to act of Congress approved July 11, 1888, I inclose herewith a list showing the employes in this office, and the amount paid to each during the fiscal year ending June 30, 1889, for transmittal to Congress with the annual estimates.

Respectfully yours,

JAMES H. WINDRIM,
Supervising Architect.

Hon. WILLIAM WINDOM,
Secretary of the Treasury, Washington, D. C.

List of employes in office of Supervising Architect, Treasury Department, and amounts paid each, during the fiscal year ended June 30, 1889, from appropriations for public buildings, furnished under requirements of the act of Congress, approved July 11, 1888, 25 Statutes, p. 266. (See estimate for 1891, on page 19.)

APPENDIX B.

In relation to the estimates for "Salaries, office of Second Comptroller." (See page 20.)

TREASURY DEPARTMENT, SECOND COMPTROLLER'S OFFICE,
Washington, D. C., October 1, 1889.

SIR: I have the honor to transmit herewith estimates of appropriations for the salaries of officers and employes of the Second Comptroller's Office, for the fiscal year ending June 30, 1891. In these estimates, I ask for four additional clerks of class one, making the total number of that grade fourteen, instead of the present number, ten, and I now beg leave to offer my reasons for recommending the increase:

First. There are now on the pension rolls 516,495 pensioners, 171,370 more than in 1885. This great increase necessarily makes a corresponding increase in the number of pension vouchers to be examined in this office. Last year the pension division, with seven clerks, examined 1,565,393 pension vouchers, when the number of pensioners on the roll was 452,557. As pension agents render their accounts quarterly during the fiscal year, it is estimated, taking the number of pensioners now on the roll as the basis, that during the next fiscal year there will be presented to this office for examination in the pension division 2,065,980 vouchers. That the adjustment of these accounts may not be delayed, it will be necessary to increase the present force of that division. Pension agents are bonded officers, and delay in the examination and adjustment of their accounts entails upon them great hardship, and, on the other hand, is a wrong to the Government.

Second. The number of pension reimbursement claims has likewise increased. In the last fiscal year 2,169 of these claims were examined, while in 1885 the number was 829.

Third. The work of the Army back-pay and bounty division, which is now done by ten clerks, will require at least four additional examiners. Under the recent decision of the Supreme Court in the Watson case there exists not less than 4,000 valid claims, without considering the cases which may arise under the decision of Comptroller Butler respecting service in the volunteer forces. These cases will involve amounts ranging from a mere trifle to \$2,500.

These, in my judgment, are good and sufficient reasons for asking the increase of four clerks.

Very respectfully,

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

B. F. GILKESON,
Comptroller.

APPENDIX C.

In relation to the estimates for "Salaries, office of First Auditor." (See page 21.)

TREASURY DEPARTMENT, FIRST AUDITOR'S OFFICE,
Washington, D. C., October 1, 1889.

SIR: I have the honor to submit herewith my estimate of appropriations for this office for the fiscal year ending June 30, 1891.

You will observe that it exceeds the amount appropriated for the current year by \$5,870. This excess is based upon a proposed increase of clerical force of an additional chief of division, one additional clerk of class two, one of class one, and the substitution of a messenger for one of the assistant messengers, and also upon the amount of the salaries of the Auditor, deputy auditor, and the chiefs of division, fixed by permanent general law, as provided in section 276, Revised Statutes United States, 2d edition, p. 46, and the act of March 3, 1875, 18 Statutes at Large, p. 397; and the reasons for it are the following:

The work of this office is, and for a long time has been, necessarily distributed among five divisions: one of these, quite equal in importance to either of the others, has, during this time, been in charge of an acting chief only, although a permanent one has been several times asked for by several of my predecessors, and was recommended by the late Secretary of the Treasury, in his estimate transmitted to the last Congress, and the same is true in respect of the two additional clerks, except that one of them was, by that recommendation, to be paid a salary of \$1,000 instead of \$1,400. The need of this bureau is for good accountants, and I incline to the higher pay as more likely to challenge the higher ability. The labors of this office during the last eight years have augmented nearly 20 per cent., whilst its personnel, during the same period, has received an addition of only three clerks, or about 6 per cent.

I have suggested a messenger and one assistant messenger instead of two assistants, because I believe that in this, as in other branches of the service, efficiency is promoted and confusion of duty avoided by the existence of a head or chief for each branch, who shall have charge of and be immediately responsible for the faithful performance of the duties assigned to it.

Very respectfully,

GEO. P. FISHER,
First Auditor.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX D.

In relation to the estimates for "Salaries, office of Second Auditor." (See page 21.)

TREASURY DEPARTMENT, SECOND AUDITOR'S OFFICE,
Washington, D. C., October 5, 1889.

SIR: I have the honor to transmit an estimate of appropriations required for this office for the service of the fiscal year ending June 30, 1891, and, in connection therewith, to submit the following explanatory remarks and recommendations:

The salaries of the Auditor, deputy auditor, and chiefs of divisions, are fixed at \$4,000, \$2,500, and \$2,100 each, respectively, by the act of March 3, 1875, which, I am advised, has not been repealed. I have therefore inserted those amounts in the estimate as the salaries authorized by law.

I find a large accumulation of work, particularly in the item of claims of soldiers and their heirs for arrears of pay and bounty, of which 56,105 remained unsettled on the 1st instant, being an increase of 12,742 as compared with July 1, 1888, and of 221 as compared with July 1, 1889. The record of this class of claims shows an almost constant increase in the number presented for consideration each year since 1881, when only 8,682 were filed.

From July 1, 1882, to September 30, 1889, 172,841 were received, as follows:

Fiscal year 1882, 13,789; fiscal year 1883, 16,971; fiscal year 1884, 14,919; fiscal year 1885, 19,762; fiscal year 1886, 19,922; fiscal year 1887, 24,480; fiscal year 1888, 20,875; fiscal year 1889, 31,778; July 1, 1889, to September 30, 1889, 10,345.

These figures not only show a remarkable increase for 1889 as compared with previous years, but also indicate a still further increase for the current fiscal year. To dispose of the large mass of accumulated business, bring the work of the office up to date, and remove any just ground of complaint that may now exist as to delay in the settlement of claims, I deem it necessary that the clerical force should be increased. As an additional reason for an increase I report the fact that certain records—about 1,500 volumes—have recently been transferred from the Pay Department to this office. These records have for years been used by that Department, chiefly for the purpose of answering inquiries from the Second Auditor concerning payments to officers and soldiers who served in the late war. The Auditor can now obtain whatever information he requires from the records themselves, which are, in fact, indexes to certain classes of vouchers on file in this office, and constantly needed for reference in the settlement of claims for arrears of pay, etc., and in answering inquiries from other bureaus. The transfer of these records has enabled the Pay Department to dispense with the services of seven clerks, but the work performed by said clerks now devolves upon this office, where it properly belongs. In view of the large arrearage of claims, and of the increase of work caused by the transfer of records above mentioned, I ask that the number of clerks, at \$1,000 each, which was reduced from eight to three in the fiscal year 1889, be again placed at the former figure, and that twelve additional clerks be provided for. As there is already an undue proportion of clerks of the lower grades, I recommend that the additional clerks be graded as follows: Two of class four; three of class three; five of class two; and two of class one. With regard to the \$1,000 clerks, attention is invited to the following extract from the Auditor's letter of October 1, 1888, published in the Book of Estimates for 1890, page 265:

"For nine years, from 1879 to 1888, inclusive, this office had eight clerks of the \$1,000 class, but in the estimate for 1889 I dropped five of these clerks, for the reason that there was not room enough to profitably employ them, and that when said estimate was submitted, October 1, 1887, the question as to what, if any, additional accommodation could be placed at the disposal of this office, had not been decided. Since then the matter has been settled, and I can make good use of the full complement of eight clerks, at \$1,000. I therefore respectfully ask that the five temporarily dropped, as above stated, be restored."

I also ask for an additional chief of division; the Indian division, one of the most important in the office, having been in charge of a clerk of class four since 1883.

The appointment of a skilled laborer (carpenter), at \$3 per diem, is recommended, there being abundant and constant work for such an employé.

I have included in this estimate the engineer, fireman, laborers, watchmen, and char-women, who were transferred from the rolls of the War Department to those of the Treasury when the Winder building was turned over to this Department, under the provisions of the act of March 3, 1887. They were appropriated for in the legislative, executive, and judicial act of February 26, 1889, under the head of "Salaries, office of the Secretary of the Treasury" (see Digest of Appropriations for 1890, page 33,) but, I submit, they really pertain to the office of the Second Auditor, and, as a matter of discipline, should be under his immediate control. Only four watchmen are provided for in said act, but five are actually on duty in this office (one being detailed from the general force of the Treasury Department), and are necessary for its protection. When the Winder building was in charge of the War Department six watchmen were employed—four by that Department, and two by the Treasury. Five, however, are sufficient—one for day duty, two from 4 to 12 p. m., and two from 12 p. m. to 8 a. m.

I further recommend an increase of two in the number of char-women. Six are now employed, but are insufficient to properly clean 125 rooms, 200 windows, 8,000 square feet of corridors, 178 iron steps, and 10 landings.

With regard to the item of \$8,000, under the caption of "Contingent expenses, building corner F and Seventeenth streets," I have the honor to say that the roof of the building has been examined and condemned as beyond repair. Some damage, from leakage, has already been done to a portion of those files of the office which are on the fifth floor, and which consist of the muster and pay-rolls of the armies of the United States from 1817 to date.

The building itself has not been painted for sixteen years, and the sanded paint is peeling off the walls; the balcony is rotting; the rain beats in through some of the windows, in consequence of the putty having cracked and fallen off; and the entire building presents an appearance not very creditable to its owner, the United States.

Respectfully yours,

J. N. PATTERSON,
Auditor.

Hon. SECRETARY OF THE TREASURY.

APPENDIX E.

In relation to the estimates for "Salaries, office of Fourth Auditor." (See page 22,)

TREASURY DEPARTMENT, FOURTH AUDITOR'S OFFICE.
Washington, D. C., September 12, 1889.

SIR: I have the honor to furnish herewith an estimate of the amount required for "Salaries, office of the Fourth Auditor," for the fiscal year ending June 30, 1891, and respectfully invite your special attention to the additional force for which I have estimated, and ask your approval thereof.

Since my appointment in May last I have endeavored to acquaint myself with the condition and needs of the office; I find all the work in arrears, and the cause evident.

In 1875 Congress revised the force of the Department, it then gave as necessary to this office a total of forty-seven clerks; since then the force has been decreased to forty-one, while the work has greatly increased, hence its present condition.

Every extension of the pension laws has caused an extra amount of labor; for this office, and not the Navy Department, supplies the record of service of every applicant for a Navy pension. The act pensioning survivors of the Mexican war; the act of February 17, 1879; and the several decisions of the United States Supreme Court and the Court of Claims in what are known as the "Mileage," "Longevity-pay," and "Difference of pay on receiving-ships" cases, have added very largely to the work of the past five years.

The building of the new Navy, with the increasing number of appropriations and with new vessels going into commission, will further increase the duties to be performed.

The clerical force of the office now consists of two clerks of class four; thirteen of class three; eight of class two; nine of class one; two at \$1,000 each; five at \$900 each; and two at \$800 each, making a total of forty-one. In lieu of the above I recommend that the force consist of six clerks of class four; thirteen of class three; eight of class two; nine of class one; four at \$1,000 each, and five at \$900 each; the \$800 clerkships should be abolished.

While there are but three chiefs of division, the work of the office is really divided into five divisions. By having the number of fourth-class clerks above suggested, there will be a capable and efficient clerk in each in each of said divisions, who will be the assistant chief in each division where there is a chief—a man who will be the acting chief of those divisions having no chief—with one additional clerk of the same class to be disposed of at the discretion of the Auditor, and to the best advantage of the office.

I am, sir, very respectfully, your obedient servant,

JOHN R. LYNCH,
Auditor.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX G.

*In relation to the estimates for "Salaries, office of Assistant Treasurer at New York." (See pages 30-31.)*OFFICE OF ASSISTANT TREASURER U. S.,
New York City, September 24, 1889.

SIR: In accordance with the instructions contained in Department circular letter of July 20, 1889, I have the honor to transmit herewith the estimate of appropriation required for this office for the fiscal year ending June 30, 1891:

The amount asked for is somewhat greater than that allowed for the current fiscal year, a careful examination of the prospective requirements of the office having convinced me that, in order to transact the business, which is constantly increasing, in a proper manner, an increase of the force will be absolutely necessary. Indeed, the present capacity of the office is frequently unequal to the needs, compelling entire divisions to work late into the night.

The appropriation for the current year, under the legislative, executive, and judicial appropriation act, is \$174,890. In the sundry civil act an additional allowance of \$3,500 was made, in part to provide for the last few months of the preceding year, under which two persons have been constantly employed since March last. The continuance of this additional appropriation in the legislative act is recommended, and the following increase in the *personnel* is urged, viz: One stenographer and type-writer, at \$1,400; two clerks, at \$1,400 each, and two clerks, at \$1,200 each.

The estimate also provides for an increase of the compensation of the assistant cashier from \$3,200 to \$3,400; of that of the chief book-keeper from \$2,200 to \$2,400, and for the advancement of one clerk at \$1,800 to the grade of assistant chief of division at \$2,000, also involving an increase of \$200.

The instances where an increase of salary is recommended are those of officers whose responsibilities are very great and their labors exacting and important to the public business, and it has not been without difficulty that the places have been properly filled at the present rate of pay. The promotion of a clerk to be assistant chief of division will facilitate transactions and prove a real economy.

The recommendation made for a series of years by my predecessors is repeated—that two persons now, and for a long period, employed as janitors, but serving as watchmen, be provided for in the regular appropriation as the other watchmen are provided for. The necessity for an adequate force of night-watchmen for this building requires no demonstration or argument, and the number allowed (six) is insufficient, making it absolutely necessary to assign two janitors, otherwise provided for, to that duty, thus interfering with the proper care and cleaning of the building. The change is therefore specially urged for favorable recommendation by the Department.

The aggregate of the estimate is \$186,130, making a net increase of \$6,300 over the amount now used for the same purposes. With due consideration for economy in the administration of the office, I am convinced that this is the lowest amount that should be allowed for the service of the year 1890-'91. In fact, there is reason to believe that the increase of

business for the latter half of the current fiscal year will be so great as materially to interfere with its prompt dispatch. The work connected with the payment of pensions is steadily growing, and the large issue of small silver certificates causes a return of a very large volume of such currency in a mutilated condition. The correspondence of the office is now so large that in order to economize time and labor for other work I feel constrained to ask for a stenographer and type-writer.

A comparison of the present estimate with the appropriation for 1878-'79 shows an increase of only \$37,600. Since that time the work of the office has grown in much greater proportion. In every branch, excepting the payment of interest, there has been an increase of labor, and new branches have been added. The resumption of specie payments and the consequent increase in the use of coin; the coinage and active movement of the standard silver dollars; the issue and redemption of gold and silver certificates; the redemption of subsidiary silver and minor coin; the increase of nearly or quite 250,000 in the names on the pension list, causing a corresponding increase in the number of pension checks handled in the office; and as much as any other feature, the constantly increasing tendency to use New York checks for payments to the Treasury and for payments from the Treasury by disbursing officers of all classes. These have all contributed to increase the work and the responsibilities of the office.

An examination will show that every change in the fiscal policy of the Government, or in the legislation affecting the finances, throws additional labor upon this office, and, as the fiscal center, it must be prepared to meet such changes promptly and efficiently. It is possible to do this even now only by extraordinary efforts, and common prudence calls for provision for the future.

I do not hesitate, therefore, to urge upon the Department, for recommendation to Congress, the small increase in the allowance for the office, represented by the accompanying estimate, as vital to the proper conduct of its vast and growing business. Indeed, the force should be recruited to a much larger extent, but I am unwilling to ask for the expenditure of a single dollar which is not, in my judgment, immediately and pressingly necessary.

Very respectfully,

E. H. ROBERTS,
Assistant Treasurer U. S. at New York.

Hon. SECRETARY OF THE TREASURY.

APPENDIX H.

In relation to the estimate for "Repairs of the old Adobe Palace at Santa Fé, N. Mex." (See page 36.)

TERRITORY OF NEW MEXICO, OFFICE OF THE SECRETARY,
Santa Fé, September 30, 1889.

SIR: * * * The item in my estimate, of \$5,109.45, for repairing the "old adobe palace" at Santa Fé, is submitted because as custodian of public buildings I am compelled to take cognizance of the fact that that building is rapidly going to ruin and will soon be beyond repair. I have already made slight repairs, without public funds, to prevent part of the building falling. Adobe buildings often need slight repairs which, if not promptly made, soon extend to serious disrepair. The palace has not been repaired for fully ten years, and it is now in bad condition; the walls are being washed and cut by water from the leaky roof; part of one outside wall has settled seriously from the same cause; principal timbers have decayed until they are giving way; and, finally, the question to be considered by the Committee on Appropriations is not one of adornment, but of saving the building.

Very respectfully, your obedient servant,

B. M. THOMAS,
Secretary of New Mexico.

Hon. SECRETARY OF THE TREASURY.

Estimate of cost of repairs on Government building, "the Old Adobe Palace at Santa Fé, N. Mex."

Rough cast east and west end, and rear, 440 yards, at 30 cents..	\$132 00	Repair portico and balustrade.....	\$150 00
Rough cast front wall, block off, and paint joists, 100 yards, at 50 cents	50 00	Repair sundry wood-work in building, including hardware	125 00
Rough cast wall in post-office yard, 100 yards.....	30 00	Repair spouting, gutters, and shoes.....	50 00
Plaster walls in interior of building, 400 yards, at 35 cents.....	140 00	Ceiling to portico, 3,668 feet, at 7 cents.....	256 75
New flooring in interior of building, 1,600 feet, at 7 cents.....	112 00	Paint the building in two coats, interior and exterior.....	750 00
Underpin all of rear wall of building, 125 perches, at \$4	500 00	290 linear feet 4 by 16 curbing, at 50 cents.....	145 00
Take down 50 feet of rear wall and rebuild, 25,000 brick, at \$15..	375 00	290 linear feet paved gutter, 2 feet wide, at 20 cents.....	58 00
Take down coping east end and rebuild, 9,000 brick, at \$15.....	135 00	3,368 feet granolithic pavement, at 30 cents.....	1,010 40
Tin roof between post-office and east end, 8,400 feet, at 10 cents..	840 00		
Paint in two coats tin roof, east and west end, 8,015 feet, at 2 cents.....	160 30		5,019 45

Respectfully submitted.

B. M. THOMAS,
Secretary of New Mexico.

SANTA FÉ, September 30, 1889.

APPENDIX I.

Explanation of Estimates for Signal Service. (See pages 42, 43, and 218 to 222.)

SIGNAL OFFICE, WAR DEPARTMENT,
Washington City, September 13, 1889.

SIR: As required by law and in compliance with letter of August 14, 1889, I have the honor to submit herewith the estimates for appropriations for the fiscal year ending June 30, 1891, aggregating for the entire service, including the Signal Service proper, the sum of \$849,272.50.

The changes proposed in the estimates, either from the law or from the estimates as submitted last year are, as directed by you, fully explained by notes stating the necessity and propriety of such changes.

The estimates in detail are as follows:

Items.	Estimated for 1891.		Items.	Estimated for 1891.	
Signal Service of the Army.....	\$10,000 00		Forage, etc., public animals.....	\$1,175 00	
Postage.....	500 00		Transportation	18,000 00	
Contingent expenses	20,072 50		Clothing.....	14,800 00	
Stationery	6,250 00		Construction of store-house.....	1,565 00	
Rent of stable	360 00		Signal Service: Pay, etc.—		
Printing and binding	12,000 00		Brigadier-general.....	\$5,500 00	
Observation and report of storms—			Second lieutenants.....	21,000 00	
Manufacture of instruments, etc.....	8,700 00		Longevity pay	5,400 00	
Telegraphing reports.....	120,000 00		Mileage	2,700 00	
Rent, etc., of offices	45,000 00		Commutation of quarters	4,752 00	
Expenses storm-signals.....	11,000 00		Forage for private horses.....	1,217 00	
River and flood reports.....	13,000 00		Fuel for officers.....	1,232 00	
Cotton region reports	5,000 00		Medical attendance, etc.....	2,600 00	
Maps and bulletins	15,000 00		Pay and allowances of enlisted men.....	321,294 00	
Maintenance etc., telegraph lines.....	25,155 00				365,695 00
		\$242,855 00			
Salaries		156,000 00	Total.....		849,272 50

An analysis of the estimates as submitted will show that as compared with the amounts appropriated for the fiscal year ending June 30, 1890, increases (which are fully explained in the notes) and certain new items are submitted, as follows:

Signal Service of the Army.....	\$5,000 00	Clothing.....	\$14,800 00
Contingent expenses.....	17,822 50	Construction of store-house.....	1,565 00
Stationery.....	2,750 00	Longevity pay to officers.....	300 00
Rent of stable.....	360 00	Mileage.....	200 00
Printing and binding	2,000 00	Fuel for officers	332 00
Telegraphing reports.....	2,000 00	Pay and allowances of enlisted men.....	5,590 90
Expenses of storm-signals.....	1,000 00		
River and flood reports.....	4,000 00	Total.....	54,760 40
Salaries.....	2,040 00		

And that the amounts have been decreased under the several items as follows:

Postage.....	\$0 49	Forage, etc.....	\$100 00
Manufacture, etc., of instruments.....	300 00	Transportation	1,000 00
Rent, etc., of offices.....	2,750 00	Medical attendance, etc.....	25 00
Cotton region reports.....	2,000 00		
Maintenance, etc., telegraph lines.....	195 00	Total.....	5,370 49

Being a net increase over the amount appropriated for the fiscal year ending June 30, 1890, of \$49,389.91, of which sum, however the following are new items submitted:

Heating apparatus.....	\$1,500 00	Laborers for lawns and grounds.....	\$600 00
Repairs to buildings and preservation of grounds	8,085 00	Clothing.....	14,800 00
Rent of stable.....	360 00	Construction of storehouse.....	1,565 00
Electric lights at display stations.....	1,000 00		
Superintendent of repairs to building (in addition to compensation as clerk of class four).....	200 00	Total	28,110 00

Leaving the sum of \$21,279.91 as the actual increase in the regular items. This is virtually a reduction of \$21,068.24 in said items as compared with the estimates submitted for the fiscal year ending June 30, 1890, and a reduction of \$23,733.77 as compared with the total sum appropriated for the fiscal year ending June 30, 1889.

Judging from the experience of the last two fiscal years, the volume of business for the fiscal year ending June 30, 1891, occasioned by the increasing demands of the public for detailed meteorological information, will be at least 20 per cent. larger than at any time in the past, and a less sum than that asked (which, even including the new items submitted, is an increase of but 6 per cent. over the amount appropriated for the present fiscal year) will prove inadequate for an efficient and faithful discharge of the duties imposed by law upon the Chief Signal Officer.

Therefore, as these estimates have been most carefully prepared and are calculated upon the basis of the actual needs of the service as indicated by the experience of past years, it is earnestly requested that they be not only approved as submitted, but that Congress may be urged to make the necessary appropriations in the manner and form and for the amounts as asked.

In connection with the item for clothing, \$14,800; heating apparatus, \$1,500; repairs to buildings and preservation of grounds, \$8,085; and construction of storehouse, \$1,565, aggregating, \$25,950, it is to be said that so far as the item of clothing is concerned, it is now submitted, as required by paragraph 1280, Army Regulations, 1889, and while no estimate was submitted last year, it was simply because Congress had for several years before entirely ignored similar estimates. While estimates aggregating \$11,150 are submitted for the other items mentioned, they seem to belong legitimately to the office of the chief engineer in charge of public buildings and grounds, or else to the superintendent of the State, War, and Navy Department building.

I submit herewith certain reports required by law :

Statement showing the number of persons employed in the Signal Office and the amount paid to each during the fiscal year ending June 30, 1889, from the appropriations "Legislative, Executive, and Judicial," "Sundry Civil," and "Rent of Buildings."

No.	Capacity.	Rate per annum.	Amount received.	No.	Capacity.	Rate per annum.	Amount received.

* While the law allows a force of 500 men, Congress has seen fit to appropriate for only 320.

I am, very respectfully,

Hon. SECRETARY OF WAR.

A. W. GREELY,
Chief Signal Officer.

APPENDIX J.

In relation to the estimates for "Salaries, office of Commissary-General." (See pages 43 and 44.)

WAR DEPARTMENT, OFFICE COMMISSARY-GENERAL OF SUBSISTENCE,
Washington, D. C., September 7, 1889.

SIR: In connection with the estimates submitted by me, for the clerical and other force for this office, for the fiscal year ending June 30, 1891, I have the honor to state:

It has long been manifest that the small number of clerks of the higher grades in this office is a serious defect, and, therefore, I have frequently endeavored to have it remedied.

As a result of this defect many good clerks have in past years resigned or secured transfer to other offices or Departments, some to accept higher positions at once, and others solely for the greater chance of promotion where there was a greater number of the higher-grade clerkships.

The office has consequently lost the benefit of their skill and the detailed knowledge of its work, which can be acquired by actual practical experience in this office only, and has been hampered in its work by the loss of time and the trouble

necessarily involved in the instruction in their duties of a succession of new clerks, numbering, in the last five years, much more than one-third of the office force. Within that period fifteen such new clerks have been appointed, all under the civil service rules, and all of class \$1,000. Of these, three declined, seven have resigned, or been transferred to other offices, and of the five remaining only one has been in the office as much as a year. This loss has been the result of the natural desire of good men for advancement to higher positions, and the utter hopelessness of any promotion in an office that has, like this one, such a very small number of clerkships of the higher grades.

For the efficient performance of its duties, the work of this office is distributed in four divisions, each one of which should have at its head, as commensurate with the responsibility attaching to the position, a clerk of class four.

There being but one clerk of class four provided for this office, that one is at the head of one of the divisions (the largest). But, from the character of the work assigned to one of the other divisions, the intelligence, experience, and carefulness required of its head, it is a matter of special importance, and of simple justice, that such head should be a clerk of class four.

Under these circumstances, I have made provision in the estimate for the fiscal year 1891 for one additional clerk of class four, and for one less of class \$1,000; and earnestly ask, for the reasons above given, that the Secretary of War approve and recommend it.

Respectfully, your obedient servant,

The SECRETARY OF WAR.

R. MACFEEELY,
Commissary-General of Subsistence.

APPENDIX K.

Statement showing the number of persons employed in the office of the Chief of Engineers and paid from the various appropriations for rivers and harbors, fortifications, and surveys for military defenses, and the amount paid to each during the fiscal year ended June 30, 1889, prepared in accordance with the requirements of the act of February 26, 1889, 25 Statutes, page 730. (Page 45.)

Number, designation, and time employed.	Rate per annum.	Amounts paid.	Total.	Number, designation, and time employed.	Rate per annum.	Amounts paid.	Total.

OFFICE CHIEF OF ENGINEERS, UNITED STATES ARMY,
Washington, D. C., August 3, 1889.

THOS. LINCOLN CASEY,
Brigadier-General, Chief of Engineers.

APPENDIX L.

Explanation of estimates for Public Buildings and Grounds for year ending June 30, 1891. (Estimates on pages 47 and 167 to 169.)

In submitting these estimates, some of which are larger than heretofore appropriated, and some for new work, the following explanation is presented by the officer in charge:

1. One public gardener, \$2,000. I have asked for an increase in the salary of the public gardener, a position now so satisfactorily filled by Mr. George H. Brown. The duties of the office require that the gentleman who fills it shall be thoroughly skilled in the culture of trees, shrubs, and plants, and shall have a practical knowledge of civil engineering as applied to landscape gardening. Mr. Brown combines these attributes, to which he adds taste, industry, and integrity. His duties take him from one end of the city to the other. He is directly responsible for the care of the valuable collection of plants in the propagating garden, and superintends the propagation of plants that are annually raised for the public grounds, which this year numbered about 390,000.

2. One clerk in charge of old public records of Washington city, \$1,500. These records include maps, deeds, record-books, letters, etc., from the organization of the original Board of Commissioners, near the close of the last century, up to 1867, when the duties were turned over to the Chief of Engineers. They are constantly examined by attorneys and others interested in lands in Washington, and the person in charge of them is frequently required to produce them in court. To index them properly, to be able to turn at once to the details of any question raised, requires familiarity with every paper. This work has for the last few years been intrusted to the only draughtsman allowed this office, and during the past six months more than half of his time has been actually employed on this duty. I earnestly recommend that this appropriation be made, in order that the draughtsman may be permitted to attend to the necessary and legitimate duties of his office.

3. For one telegraph line-man, \$1,000. Under the head of "Telegraph connecting the Capitol with Departments," will be found a full description of the telegraph system under charge of this office. It includes about 8 miles of overhead wire and 2.6 miles of underground cable. There are seventeen offices connected with these lines, the main battery being at this office. The lineman is constantly engaged in the care of the main and local batteries and such necessary repairs and extensions as a system of wires of this kind requires. He is industrious, efficient, and capable, and has won the confidence of all with whom he has come in contact by faithful attention to his duties.

4. One day-watchman for Marion Square, Folger Square, and adjacent reservations, \$660. These two reservations are highly improved, the one containing an area of about 1 acre, the other about 2 acres. In addition to these there are several smaller improved reservations in the vicinity. A watchman is very necessary in this locality, the nearest one being at Lincoln Square, a distance of half a mile, where his entire time is required.

5. One day-watchman for Garfield Park, \$660; one night-watchman for Garfield Park, \$720. Garfield Park, containing an area of about 24 acres, is now highly improved and contains a large number of valuable trees and flowering shrubs.

During the past year numerous acts of vandalism have occurred during both day and night. On one occasion the store-house on the reservation was broken open and a number of valuable tools stolen; these were recovered with the assistance of the District police. Watchmen are very much needed at the park.

6. For improvement of grounds north of the Executive Mansion, \$1,000. It is proposed to repair the main asphalt roadway and the flagging sidewalks leading from the east and west gates to the north entrance, and to maintain the lawns, flower-beds, etc., in good condition.

7. For improvement, care, and maintenance of grounds south of Executive Mansion, \$4,000. These funds will be devoted to completing necessary drainage due to raising Potomac flats, to completing the improvement of the northwest section of the reservation covering an area of about two acres, recently occupied as a storage ground in connection with the construction of the State, War, and Navy building, to resurfacing roads and paths and constructing additional walks, and to care of lawns, planting trees and shrubs, etc.

8. For a granite curbing around Lafayette Square, \$5,000. For a granite curbing around Franklin Square, \$5,000. The beauty of these very handsome parks will be greatly enhanced by placing around them granite curbings similar to those used around parks of the same style in the larger cities throughout the country.

9. For care and improvement of Monument grounds, \$6,000. In view of the work of filling just completed around the monument and of the raising of the Potomac flats, it will be necessary to continue improvements in the drainage system, the roads, paths, lawns, etc., in this reservation; the amount requested will be applied to these purposes.

10. For laying asphalt walks in various reservations, \$5,000. It is proposed to replace with first-class asphalt walks the gravel paths in Washington Circle, Mount Vernon Square, Executive Mansion grounds (south side), Lincoln Square, Stanton Square, Folger Square, Marion Square, Henry and Seaton Parks, and to renew those in Farragut Square and Iowa Circle. In the late fall, winter, and early spring these walks are muddy, and pedestrians seek the lawns, which are thus destroyed by trespassers. The amount of these paths which it is proposed to lay this year is about 3,500 square yards. Each autumn it becomes necessary to put down plank walks, which must again be removed in the spring. If asphalt walks are laid the annual expense incident to plank walks will be avoided.

11. For painting watchmen's lodges, iron fences, vases, lamps, and lamp-posts, \$1,000. These all require repainting, the lodges needing it particularly; the appropriation of \$750, made last year, is not sufficient for the work.

12. For improvement, care, and maintenance of various reservations, \$20,000. The funds required under this head are for the purchase of materials for, and the care of, the improved parks, and for the improvement of as many as possible of the 201 unimproved reservations. Each year from three to five are added to the list of improved reservations, and if the funds now requested become available eight or ten can be added during the fiscal year ending June 30, 1891. As reservations are thus improved the expense of the care of the whole is slightly increased, for the improvements must be maintained.

13. For the improvement, care, and maintenance of Smithsonian grounds, including the construction of asphalt roads and paths, \$8,000. This reservation, covering an area of over 58 acres, is the largest and one of the handsomest in the city, and has within its limits the Smithsonian building, the National Museum, and the new Army Medical Museum. The roads and paths, with three or four exceptions, are of gravel and become dusty in summer and muddy in winter; a first-class asphalt road pavement has been completed in front of the Smithsonian building, running from Seventh to Twelfth street, a distance of about 1,700 feet and covering an area of about 7,500 square yards. With the appropriation now requested it is proposed to lay about 1,500 square yards of roadway pavement, about 1,000 square yards of asphalt paths leading through the park to the Museum, and to maintain in good condition the gravel roads and paths, gutters, lawns, trees, shrubs, and drainage of this handsome park.

14. For improvement, care, and maintenance of Henry (Armory) and Seaton Parks, \$5,000. These reservations, extending from Seventh street to the Botanic Gardens, cover an area of 34 acres, with road and walk surfaces of over 10,000 square yards. They are in an advanced state of improvement. Their beauty has been marred by the depot and tracks of the Baltimore and Potomac Railroad. A mound has been constructed around the depot, upon which it is intended to plant trees and shrubs, so that in time the depot will be hidden partially from view. The materials for this mound have thus far been obtained free of expense to the United States, and it is now proposed to grade the mound and to seed and plant it. The funds requested are needed for this purpose, and for the care of roads, lawns, gutters, etc., and laying out additional paths.

15. For improvement, care, and maintenance of Judiciary Square, including grounds around the new Pension building, \$7,000. This square contains an area of 20 acres, and includes within its limits the court-house and the new Pension building. It is crowded daily with persons having business in these buildings. The appropriation now requested will be used, if granted, for completing the improvements around the Pension building, including asphalt roads and paths leading thereto, and in the general care of this large reservation.

16. For lodges for park watchmen in Stanton, Mount Vernon, Iowa, DuPont, Thomas, McPherson, and Folger reservations, at \$500 each, \$3,500. The watchmen in these reservations are exposed to the inclemency of the weather at all seasons of the year. Rain or shine, hot or cold, night or day, year in and out, they must be at their stations, and take shelter, when necessary, either under a tree or in such a dwelling or store as will offer its hospitality. The dictates of humanity call for this appropriation.

17. For supplying and keeping supplied the vases in the new Pension building with suitable plants and shrubs, \$1,000. The joint resolution of Congress approved March 29, 1886, requires that the seventy-six large vases on the upper corridor of the new Pension building shall be filled and kept filled with suitable plants and shrubs. This estimate is submitted in order that I may be able to comply with the terms of the law.

18. For care, repair, and refurnishing the Executive Mansion, \$25,000. This old building needs continual repairs and repainting to maintain it in a neat and habitable condition. Much of the furniture is old and needs renewing, while new carpets are required in many of the rooms. During the past thirteen years the appropriations for this purpose have been as follows: 1878, \$20,000; 1879, \$25,000; 1880, \$25,000; 1881, \$20,000; 1882, \$50,000; 1883, \$40,000; 1884, \$28,000; 1885, \$22,500; 1886, \$16,000, including \$4,000 for new roof; 1887, \$16,000; 1888, \$16,000; 1889, \$16,000; 1890, \$16,000. It will be observed that since July 1, 1885, the appropriations have been much less than previous to that time. It is earnestly recommended that this appropriation be made, as it is absolutely necessary in order to maintain in a neat and habitable condition the mansion provided for the office and residence of the Chief Executive of the nation.

19. For portrait of ex-President Cleveland, and frame for portrait, \$5,000. The Executive Mansion now contains the portraits of all the ex-Presidents of the United States except that of Mr. Cleveland.

For some years past it has been the custom of Congress to place at the disposal of the Joint Committee on the Library, a moderate sum for expenditure in works of art, a portion of which has been used for procuring portraits of several ex-Presidents, for the Executive Mansion. Unfortunately no such appropriation was made last year and this estimate is therefore submitted.

20. For electric lights for 365 nights from 7 lamps; at 70 cents each per night, \$1,788.50. The grounds south of the Executive Mansion, now highly improved, are without lights.

I submitted last year an estimate for putting up posts and connecting them with underground wires, and for electric lights for the entire year, estimating the lamps, cables, etc., at \$1,000, and the lights at 70 cents per night, 10 cents less than the Treasury Department is now paying; the amount estimated for lamps, cable, etc., was appropriated, but my estimate for lights was reduced to 40 cents per lamp. In April I advertised for proposals and the only bid received was \$989 for erecting posts, laying cables, etc., and 70 cents per lamp per night.

While all the arrangements can be made for lighting, the actual illumination can not take place as under the law only 40 cents per lamp per night can be paid, 30 cents less than the proposal received.

21. For replacing the overhead wires between the Capitol and the Departments with a duplicate underground six-wire cable, \$8,500. This subject has been discussed in the preceding pages of this report. The growth of the trees on the sidewalks renders it absolutely necessary, in order to maintain telegraphic communication over these wires, either to erect at once taller poles at a cost of about \$1,600, or to lay an underground cable at a cost of \$8,500. The former plan is but a temporary expedient, as in time the overhead wire system through cities must be abolished. The underground cable is far preferable, and favorable action upon this estimate is earnestly recommended.

22. Washington Monument, elevator, electric lights, and machinery, \$11,000. This estimate exceeds, by \$500, that of last year, as follows: Salaries, \$240; fuel, lights, etc., \$260.

I recommend that the salaries of the two steam engineers be increased from \$80 and \$60 to \$90 and \$70 per month, respectively. The duties of these two men are of great importance; upon their efficiency and intelligence depend, to a great extent, the lives of those who use the elevator; they must be skillful, watchful, faithful, and prepared for any emergency. The increase asked is small and the men deserve it.

For fuel and general supplies I have asked an increase of \$260. This is necessary, as the experience in caring for the monument since last October has shown that the amount heretofore appropriated is not sufficient. Previous estimates were based upon 300 tons of coal per annum; this is not sufficient, as the amount used averages not less than one ton per day, sometimes, exceeding it, and about 30 cords of wood per annum are required; moreover, the original estimate failed to include renewal of electric lamps.

APPENDIX M.

In relation to the estimates for the State, War, and Navy Department building. (See page 48.)

OFFICE OF SUPERINTENDENT STATE, WAR, AND NAVY DEPARTMENT BUILDING,
Washington, October 5, 1889.

GENTLEMEN: In submitting for your consideration the estimates of appropriation required for the care and preservation of this building during the fiscal year ending June 30, 1891, I beg to make the following explanation of the increases therein submitted.

The total estimated increase, it will be observed, is \$5,100 for salaries and \$9,000 for fuel, lights, etc.

An increase of \$200 each is submitted for the clerk, chief engineer, and captain of the watch, whose duties and responsibilities have largely increased by reason of the completion and occupancy of the west and center wings of the building since their offices were originally created. I do not consider their present pay commensurate with their duties, and even with the increase recommended their pay will not equal that of many persons holding like positions in other branches of the public service.

The increase of five laborers is based upon the actual and urgent necessities of the office. They were previously estimated for, as were also the increase of pay for the clerk, chief engineer, and captain of the watch, two years ago, before the west and center wings were completed, and in anticipation of the occupancy of these parts. They were not allowed. Actual experience has shown that the estimate then made was a proper one. Great inconvenience and delay have frequently occurred in consequence of an insufficient force to meet all the demands upon this office for the handling of freight, furniture, etc. The laborers, in addition to their regular work of caring for the lawns and approaches to the building, wheeling coal, assisting skilled mechanics in making repairs, taking up and laying carpets, cleaning certain portions of the building, etc., are subject to calls from all the bureaus of the three Departments for such service in the way of moving books, furniture, etc., as may be required of them. These calls are more numerous than it is possible with the present force of twenty laborers to comply with.

The services of the five additional char-women recommended are absolutely necessary for the proper cleaning daily of the mile and a half of corridor in this large building.

The \$9,000 increase to the appropriation for fuel, lights, repairs, and miscellaneous items is required for a much-needed improvement to the plant of the two elevators in the east wing. This plant is of obsolete mechanism, and with ten years' constant service is practically worn out. Within a short time it will be dangerous to life to operate the two cars with the

present gearing. It is proposed to completely overhaul the plant of both elevators, substituting hydraulic for steam machinery. With the use of the present cars and certain portions of the present plant it will be possible to provide two practically new, comfortable, safe, and fast-running elevators for the sum recommended.

Very respectfully, your obedient servant,

THOM WILLIAMSON,
Chief Engineer U. S. N., Superintendent.

Hon. SECRETARIES OF STATE, WAR, AND NAVY.
Commission for the State, War, and Navy Department Building.

The foregoing report and recommendations are approved.

JAMES G. BLAINE,
Secretary of State,
REDFIELD PROCTOR,
Secretary of War.
B. F. TRACY,
Secretary of Navy.

APPENDIX N.

In relation to the estimates for the Naval Observatory. (See pages 51 and 52.)

U. S. NAVAL OBSERVATORY, *Washington, July 18, 1889.*

SIR: In compliance with the bureau's order of the 17th instant (No. 5534), I have the honor to submit estimates, in duplicate, of appropriations required for the support of the Naval Observatory for the fiscal year ending June 30, 1891.

The recommendation for an increase of the pay of the assistant astronomers and of the instrument-maker is respectfully renewed. The salaries of the former are not commensurate with the importance of their work, nor are they sufficient to induce competent men to regard their connection with the Observatory as permanent. Resignations to accept better appointments have been very frequent. One assistant astronomer resigned last year, and another may leave within a few months. These frequent changes, which are manifestly injurious to the work of the Observatory, can be prevented only by paying these gentlemen what their services are worth and what they so often can obtain in other situations.

The instrument-maker now receives, after more than twenty years' continuous service, much less pay than is given to those holding similar positions in other branches of the Government service. His duties are many, and they have been thoroughly and satisfactorily performed, and the increase asked for is deemed justly due to him.

The computation of the observations with the transit-circle is several years in arrears. In order to bring the work up to date, that it may be promptly published, an estimate for an additional computer is submitted. It is extremely desirable that this work be completed at the earliest moment possible.

The library has grown to such proportions as to require the services of an assistant librarian. The makeshift of assigning an officer of the Navy to that duty has been shown by experience to be a lamentable failure, not through want of ability, but because of the frequent changes of officers so assigned.

The extension of the field of work at the Observatory, during the past few years, has increased the amount of clerical labor to such a degree as to warrant the recommendation for a copyist.

The estimate for the extension and maintenance of the time-service is renewed. This service has proved very valuable to the public generally, and it is hoped that it will be encouraged. At present signals to the several time-ball stations are transmitted by the Western Union Telegraph Company without cost, and several of the time balls are hoisted and cared for by private individuals without compensation. The importance of the time-service demands that it should be established on a firm and independent basis, which can be done only by an adequate appropriation.

Very respectfully,

R. L. PHYTHIAN,
Captain U. S. N., Superintendent.

The CHIEF OF THE BUREAU OF EQUIPMENT AND RECRUITING, *Navy Department.*

APPENDIX O.

In relation to the estimates for "Salaries, office of the Assistant Attorney-General, Interior Department." (See page 56.)

DEPARTMENT OF THE INTERIOR, ASSISTANT-ATTORNEY GENERAL'S OFFICE,
Washington, October 23, 1889.

DEAR GENERAL: I beg leave to suggest that in your estimates for the law division, of which I am chief, you include an editor or reporter, at a salary of \$2,250, as it is necessary that our decisions be reported. It takes the full time of one law clerk to do it. If a reporter was provided for I could fill his place on the working force by appointing a law clerk and thus get more work done.

I also need a confidential clerk who is a stenographer and type-writer. All the correspondence relating to lands of your Department goes through this bureau, and I am constantly required to answer official and semi-official inquiries. The stenographer now here has all of his time employed in docket and miscellaneous work and he frequently does the work of a law clerk. Another stenographer and type-writer or confidential clerk, at a salary of \$1,400, in my room would greatly increase the efficiency of this office. I also recommend that the chiefs of the four rooms be allowed \$2,500 per annum; one now gets \$2,500 and another \$2,250; I would make them all \$2,500. Their work, efficiency, and responsibility demands better compensation.

If these recommendations meet your approval the increase in appropriations would be as follows: Salary of reporter, \$2,250; salary of clerk, \$1,400; increase in salary \$250 for one chief of room; increase in salary \$1,000 for two chiefs of rooms, making \$4,900 per annum.

All of which is respectfully submitted.

Yours truly,

Hon. JOHN W. NOBLE,
Secretary of the Interior.

GEO. H. SHIELDS,
Assistant Attorney-General.

APPENDIX P.

In relation to the estimate for Rent of Rooms for the Indian Office. (See page 56.)

DEPARTMENT OF THE INTERIOR, OFFICE OF INDIAN AFFAIRS,
Washington, September 12, 1889.

SIR: I have the honor to state that in taking charge of the Indian Bureau on the 1st of July last, I ascertained that in addition to the rooms specified in the lease between the Department and the Atlantic Building Company, several others were used and occupied by common consent. I called upon Hon. John H. Oberly, my predecessor, under whose administration the first lease was made, for a statement of the facts in the case, and he replied as follows:

"In response to an inquiry by you I make the following statement: All of the rooms on the eighth and certain of the rooms on the seventh floor of the Atlantic building, all of which were specifically enumerated in a duly executed lease, were rented in 1888 for the use of the Bureau of Indian Affairs. But, upon taking possession of the rooms referred to, the occupancy of several other rooms was found to be necessary, and all the appropriation for rent of quarters for this bureau being covered by the lease of the enumerated rooms, the owner of the building agreed that we might occupy the additional rooms without present charge, provided I would agree to recommend and request the Department to increase the estimate for rent for the bureau to \$6,000 per annum at the next ensuing estimate, an increase of \$500 per year. On my part I agreed to so advise the increase of estimates of rent money and I now so advise. The ordinary rent for the additional rooms occupied as above stated and now occupied by the bureau, is greater than the suggested increase. The bureau needs all the rooms now occupied by it, and the public business intrusted to it can not be conveniently done with the use of fewer rooms."

This letter of Mr. Oberly is indorsed as follows: "This is substantially in accord with my understanding.—A. T. Britton, President A. B. Company."

In addition to the rooms mentioned in the lease (being the whole of the eighth floor and ten rooms on the seventh floor, together with 40 feet of the west basement and adjoining vault under the pavement), the Indian Bureau, by common consent, has occupied since January 15, 1889, and does now occupy, four rooms, being Nos. 113, 115, 117-119, and 120 on the seventh floor, without charge. The Atlantic Building Company does not claim any rent for these additional rooms from January 15 last to June 30, 1889, but desire that a deficiency estimate for \$500 for rent of these rooms for the fiscal year 1890 be submitted to Congress, and I submit this to the favorable consideration of the Department.

I would respectfully state that even with the additional rooms now occupied by common consent, the bureau has not the space sufficient for the proper transaction of its business. The work in connection with the allotment of lands in severalty and the examination of depredation claims require additional space; the superintendent of schools requires a room for the transaction of his business, and the records and files of the bureau increase from year to year and additional space for their preservation is required. There are on the seventh floor of the Atlantic building three additional rooms, one very large and two small ones, which, I understand, are rented to private parties at an annual rent of \$660, but which the company is willing to rent to the United States at \$500. Aside from the fact that these additional rooms are needed, I think that to properly conduct the business of the bureau, it should have control of the entire seventh and eighth floors, so as to exclude strangers from these floors after office hours and to control the admission of visitors to the rooms during office hours, and I therefore respectfully recommend that in submitting to Congress your estimates for rent of buildings for the fiscal year ending June 30, 1891, you ask that the sum of \$6,500 be appropriated for rent of building for the Indian Office.

Very respectfully,

T. J. MORGAN,
Commissioner.

Hon. SECRETARY OF THE INTERIOR.

APPENDIX Q.

In relation to the estimates for the Patent Office. (See pages 59 and 60.)

DEPARTMENT OF THE INTERIOR, PATENT OFFICE,
Washington, September 18, 1889.

SIR: I have the honor to submit herewith, the estimates for appropriations required by this office for the fiscal year 1890-'91, and to invite your attention to the changes I have deemed expedient and wise to suggest. The estimates are increased \$29,870 over the current appropriation and the force is increased sixteen.

I have estimated for an increase of \$600 to the salary of the Assistant Commissioner of Patents. The duties of this officer are of a very responsible character, being both judicial and executive in their nature. In my opinion their importance and responsibility are not exceeded, if equaled, by any who hold similar positions in this Department. The present salary, viz: \$3,000, is incommensurate with the duties required of this officer, and I have, therefore, asked that the compensation be made \$3,600, the same as that provided for the Deputy Commissioner of Pensions.

An increase of \$300 in the salary of the examiner of interferences, and of \$400 for each of the principal examiners, are also submitted. The present salary of the former officer is \$2,500, and that of the examiner is \$2,400. The salary of the principal examiner was fixed at \$2,500 over forty years ago, and I have recommended that it be increased to \$2,800.

These positions call for men skilled in the various arts and industries, as well as learned in the law and practice pertaining to patents.

It is impossible for the Government to command and retain men who possess the requisite ability to discharge the duties exacted of officers occupying these several positions unless the salary be made commensurate therewith. In view of the new arts which have been discovered from time to time, the diligence with which they are developed by the most eminent scientists in the world, and also in view of the growth and expansion in all the fields of research and knowledge, a higher order of talent and ability is essential for the proper examination of applications for patents than when the salary was established in 1848. Unless Congress shall recognize this fact, and make provision accordingly, this office will continue to be used as a place of instruction for young and capable men, who so soon as equipped and trained as to make their services of value to the Government resign their positions to accept more lucrative employment in private life.

I do not think that the salary included in these estimates is in proportion to the actual increase in the labors of the principal examiners during the past forty years, nor to the increase in the cost of living during such period. I have been particularly impressed with the fact that the services of skilled and experienced men can not be secured and retained in the office unless better salaries are paid.

Section 440 of the Revised Statutes provides that the salary of the chief clerk of this office shall be \$2,500, but for the past few years Congress has only appropriated \$2,250, and I have recommended that his salary be restored to that provided for by the statutes.

There is also submitted an estimate for one assistant librarian, who will bear the same relation to the librarian that the assistant chief bears to the chief of a division.

I have also asked for an increase of two clerks in class four, making a total of five.

It has been thought wise to consolidate into one item the provisions for four copyists at \$720 and seventy-two skilled laborers at the same compensation, for the reason that the grade of skilled laborer was placed within the classified service by the President's order of June 29, 1888, and these persons are now engaged upon similar clerical duty.

Messengers and assistant messengers have not been specifically provided for this office for a number of years, and I have recommended an appropriation therefor, as follows: three messengers, at \$840 per annum, and twenty assistant messengers, at \$720 each. These twenty assistant messengers are in lieu of twenty skilled laborers at the same compensation, the purpose being to have the duties performed by the persons employed conform to the designation given in the appropriation act. An increase of ten to the laborers at \$480 is also asked.

The changes above indicated would secure the more prompt dispatch of the business of this office, and it is with this end in view that I have included them.

An increase in the appropriation to provide for books for the Scientific Library is also submitted, the present appropriation being inadequate to meet the needs of this office. The amount now requested, \$5,000, was regularly appropriated for several years, but for some reason unknown to me was reduced.

I have also submitted an increase of \$2,000 for photolithographing the Official Gazette. This increase is necessary in view of the greater number of pages in this publication, which is due to the increased business of this office. While it is impossible to state so far in advance just what amount will be required in a work of this character it is believed that the increase requested will be sufficient.

Very respectfully, your obedient servant,

C. E. MITCHELL,
Commissioner.

The SECRETARY OF THE INTERIOR.

APPENDIX R.

In explanation of estimate for "Salaries of Employés, Court-house, Washington, D. C." (See page 79.)

WASHINGTON, September 14, 1889.

SIR: A letter has been received from Colonel Clay, chief clerk of the Department of Justice, under date of September 12, 1889, calling my attention to the fact that the Department was preparing estimates of expenses for the next fiscal year, for transmission to Congress, and suggesting that in case it was desirable to renew the recommendations made last year by my predecessor, Marshal Wilson, looking toward provision for an increase in the force necessary for the care and protection of the court-house in this city, a letter should be addressed to the Attorney-General to that effect, giving the reasons therefor. In response thereto, I have the honor to state that an increase in said force is absolutely necessary to the proper care and cleanliness of the building, and for the speedy transaction of the business of the courts.

The only change I have to suggest in the recommendations of Marshal Wilson, is to substitute an additional messenger in the place of the additional watchman.

During the past year it was frequently necessary to call on one of the firemen, or a watchman, or a laborer, to do duty as messenger in the various courts.

With six judges to wait on, half a dozen courts in almost constant session (including the general term, criminal, district, circuit No. 1 and 2, equity, and orphan's courts, each a separate body), the grand jury in almost daily session, messages for judges and lawyers to and from the offices of the clerk, district attorney, and marshal, frequent occasion to send to the law library for books of reference, etc., it will easily be seen that the six messengers now provided is an inadequate supply. For these reasons I think an additional messenger more necessary than an additional watchman.

Renewing, therefore, the arguments made in Marshal Wilson's letter on this subject, to the Department of Justice, dated September 24, 1888, I have the honor to ask that the Attorney-General will recommend to Congress the addition of one assistant messenger (making seven in all), at a salary of \$720 per annum, and one laborer (making five in all), at \$480 per annum, to the force of court-house employés, thus making the total appropriation for this purpose \$12,960 instead of \$11,760, as it has been heretofore.

Very respectfully,

Hon. ATTORNEY-GENERAL.

D. M. RANDELL,
Marshal.

APPENDIX S.

Statement showing wherein the estimates for pay, etc., of the Army for the fiscal year ending June 30, 1891, vary from the amounts appropriated for like purposes for the fiscal year ending June 30, 1890. (Estimates for 1891 on pages 88-91.)

Items.	Estimate for 1891.	Appropriation, 1890.	Increase.	Decrease.	Remarks.
Additional pay for aides and mounted officers.....	\$7,879 06	\$8,000 00		\$120 94	Estimate based on amount expended last year.
Pay of officers for length of service.....	874,330 00	815,000 00	\$59,330 00		Increase in length of service of officers.
Pay proper of enlisted men.....	4,313,108 00	4,137,000 00	176,108 00		Estimate made for 25,000 men, present organization.
Pay of hospital corps.....	213,900 00	150,000 00	63,900 00		Estimate based on letter of Surgeon-General.
Service-pay of enlisted men.....	431,739 00	385,000 00	46,739 00		Increase in length of service of enlisted men.
Service-pay of officers, Corps of Engineers.....	72,730 00	72,240 00	490 00		Increase in service of officers.
Pay of officers, Adjutant-General's Department.....	52,500 00	50,000 00	2,500 00		Estimate based on present organization.
Pay of officers, Ordnance Department.....	130,300 00	129,500 00	800 00		Two lieutenants promoted to captains.
Service-pay of officers, Ordnance Department.....	45,560 00	45,880 00		320 00	Decrease in aggregate service.

Total.....	4,524,312

APPENDIX U.

In relation to the estimate for "Equipment of vessels." (See page 107.)

NAVY DEPARTMENT, BUREAU OF EQUIPMENT AND RECRUITING,
Washington, October 1, 1889.

SIR: I have the honor to forward herewith the report of my predecessor in office, showing the operations of the bureau during the fiscal year 1888-'89, and to submit, as supplementary thereto, estimates for the fiscal year 1890-'91.

A considerable increase in the estimate under equipment of vessels will be noted. The amount appropriated for the current year was \$675,000, and the amount asked for is \$900,000, \$225,000 over the appropriation for the present year.

I have to state in explanation of this increase, that the needs of the Navy under this appropriation are gradually becoming greater with the construction of modern steel vessels of great steaming capacity and diminished sail power, and these increased demands upon the appropriation which supplies coal have now reached such a point that only a small portion of the vessels of the Navy can be kept in commission unless further provision be made by Congress for their maintenance. The new ships are large coal consumers, and I beg to direct attention especially to the consideration that, as the building of these high-powered vessels has become the policy of the Government, the increased demands of the Navy in the matter of coal must be recognized to give effect to the purpose of Congress.

As a basis of comparison, it may be stated that the *Dolphin*, which is the smallest of the new steel vessels in commission, consumed, during the fiscal year just closed, coal of the value of about \$35,000. The coal consumption of the larger vessels, such as the *Chicago*, *Atlanta*, *Boston*, *Baltimore*, and *Charleston*, is much greater, but assuming that it is no greater, and assuming further, that twenty-five vessels are to be maintained in commission (which is less than the usual number), it is apparent that for coal alone the sum of \$875,000 would be needed to keep the Navy in a serviceable condition. But in addition to the expenditure on account of coal, the appropriation for equipment of vessels is largely drawn upon for the numerous expenditures necessary to prepare and keep up equipment, outfit, and stores of vessels in commission and fitting for sea, and the necessity for an appropriation of at least \$900,000 readily becomes apparent. Under existing and coming conditions, the service can not possibly be maintained in a state of efficiency under these heads with less money.

During the last fiscal year (1888-'89) a deficiency of over \$100,000 is shown in the final balances, which was caused largely by expenditures on foreign stations, which could not be foreseen. The appropriation was \$625,000, and was so far exhausted by the 1st of March that all work on the equipment of vessels fitting out was ordered stopped, and a large proportion of requisitions for necessary supplies were disapproved, great embarrassment to the service resulting.

Prior to 1875 the appropriation for the equipment and coaling of vessels was \$1,500,000 annually, and this was when all the steam cruisers had large auxiliary sail power, which was employed where possible, as at present, under necessarily limited conditions, to save coal. The necessities of the service in this respect are now greater, and soon will be, with the placing in commission of vessels now in an advanced state of construction, *very much greater*, than during the period referred to, and yet less than half the amount stated is appropriated for this purpose for the present fiscal year. I am, therefore, convinced that at least \$200,000 additional, for this year, which should be estimated for as a deficiency, is absolutely necessary to avoid the embarrassment and injury to the service which are inevitable under the present conditions.

From the time of the large reduction in the appropriation the amounts granted have ranged from \$1,250,000 to \$625,000, and during this period the ships in commission have been kept in service only by the most rigid, and, in some instances, unprofitable parsimony; by the utilization of obsolete material and stores left over from the period of the civil war; by the practical laying up of vessels on foreign stations owing to the want of fuel; and by sending the vessels to cruise without a proper outfit. All old material which could be utilized for this purpose has been consumed, and the fitting out of ships for commission has thus become a most serious matter.

Very respectfully,

GEORGE DEWEY,
Chief of Bureau.

Hon. SECRETARY OF THE NAVY.

APPENDIX V.

In relation to the estimate for "Pay of Indian Agents." (See page 123.)

DEPARTMENT OF THE INTERIOR, OFFICE OF INDIAN AFFAIRS,

Washington, September 18, 1889.

I have the honor to inclose herewith estimates of appropriations required for the service of the Indian Department during the fiscal year 1890-'91, amounting to \$6,147,399.77.

In submitting these estimates, this office has made some changes in the amounts estimated for pay of Indian agents, reducing the salary of some and increasing that of others, as follows:

Salary of agent of Yakima Agency, Wash., reduced from \$2,000 to \$1,800. The Indians under charge of the Yakima Agency are well advanced in civilization, the money responsibility is small and, in comparison with the salary of other agents, the amount of \$1,800 per annum is deemed sufficient.

Salary of agent at Pueblo Agency, N. Mex., is reduced from \$1,800 to \$1,500 per annum for same reason as stated for reduction in salary of agent at Yakima Agency.

Salary of agent at Mescalero Agency, N. Mex., is reduced from \$1,800 to \$1,600. The salary of this agent was increased to \$1,800 during the fiscal year 1885, after the Jicarilla Indians were removed to the Mescalero Reservation; but as the Jicarilla Indians have been subsequently removed from the Mescalero Agency to a separate reservation and attached to the Southern Ute Agency, and there are at present only four hundred and thirty Indians at the Mescalero Agency, the salary of \$1,600 per annum recommended by me is sufficient.

Salary of agent at Southern Ute and Jicarilla Agency increased from \$1,600 to \$1,800 per annum. As the Jicarilla Indians have been removed from the Mescalero Agency to a separate reservation and attached to the Southern Ute Agency, I have recommended that the salary of this agent be increased the amount of which the salary of the Mescalero agent was decreased.

Salary of agent at La Pointe Agency is reduced from \$2,000 to \$1,800. There is very little money responsibility at that agency, few supplies are issued, and the salary recommended is, under the circumstances, considered ample.

Salary of agent at Fort Belknap Agency is increased from \$1,000 to \$1,500. The Indians at that agency have recently made a new agreement with the United States whereby they receive the sum of \$115,000 per annum for ten years; large expenditures, for which the agent is responsible, are to be made at that agency, and the salary recommended is the least that should be paid the agent in charge of those Indians. All agents in Montana, except the agent at this agency, are paid salaries ranging from \$1,500 to \$2,000 per annum.

Salary of agent at Standing Rock is increased from \$1,700 to \$1,800. This agent has charge of over four thousand Indians, large expenditures are annually made, the agent gives bond for \$50,000, and should be paid this salary.

Salary of agent at Pottawatomie and Great Nemaha is increased from \$1,000 to \$1,200. This agent gives a bond of \$40,000, has charge of four different tribes of Indians, receiving annually large cash payments, and no agent should be obliged to give a bond of \$40,000 on a salary of \$1,000.

Salary of agent at White Earth Agency, Minn., is increased from \$1,600 per annum to \$1,800. This agent has charge of four different reservations (White Earth, Red Lake, Leech Lake, and Lake Winnebegoshish), gives a bond of \$50,000, and the contemplated agreement with the Minnesota Indians will, when ratified, largely increase his labor and responsibility. The sum recommended is the least that should be allowed.

The reductions in salary above recommended amount to \$900, and the increases to \$1,200, making a total increase in salary of agents of only \$300; while this rearrangement of some of the salaries will materially increase the efficiency of the service and I hope Congress will concur in the recommendations made.

In this connection I desire to say that there are several agents who are paid only a salary of \$1,000 per annum each. It is my opinion that no officer who is required to give a bond of at least \$10,000, as is the case of these agents, should receive less than \$1,200 per annum; and I hope Congress will provide for the next fiscal year such increase of salaries for all agents receiving less than that amount.

These estimates as furnished have had the personal consideration of the Commissioner.

Very respectfully,

R. V. BELT,
Acting Commissioner.

The Hon. SECRETARY OF THE INTERIOR.

APPENDIX W.

Recapitulation of the estimates of Indian service as furnished by the Indian Office. (See pages 123-139.)

<i>Appropriations for the fiscal year ending June 30, 1890.</i>		<i>Amounts appropriated for 1890 not embraced in estimates for 1891.</i>	
Current expenses, salaries, etc.....	\$209,900 00	Amount dropped under "Support of Crows".....	\$1,500 00
Fulfilling treaties with, and support of, Indian tribes.....	4,661,693 83	Amount appropriated under "Fulfilling treaties with Pottawatomies".....	361,682 04
Incidental expenses Indian service.....	129,000 00	Amount dropped under "Support of Nez Percés of Joseph's band".....	3,000 00
Trust-funds.....	84,556 84	Amount dropped under "Support of Seminoles and Creeks in Florida".....	6,000 00
Miscellaneous supports, gratuities.....	708,500 00	Amount appropriated for payment to the Board of Home Missions, etc.....	6,803 13
Miscellaneous.....	907,574 59	Amount appropriated for school buildings, etc., Santa Fé, N. Mex.....	6,000 00
Indian schools.....	1,379,568 13	Amount appropriated for purchase of buildings, etc., in Kean's Cañon, Ariz.....	10,000 00
Total.....	8,080,793 39	Amount dropped under "Support of Sioux, Medawakanton band".....	12,000 00
<i>Estimates for the fiscal year ending June 30, 1891.</i>		Amount dropped under "Support of school at Pierre, Dak.".....	10,000 00
Current expenses, salaries, etc.....	212,400 00	Amount appropriated for reimbursement of Chickasaw Nation.....	184,143 09
Fulfilling treaties with, and support of, Indian tribes.....	2,538,569 77	Amount appropriated for expenses of litigation for Eastern band of Cherokees.....	2,500 00
Incidental expenses Indian service.....	129,000 00	Amount appropriated for enrollment of Cherokee freedmen, etc.....	5,000 00
Trust-funds.....	101,470 00	Amount appropriated for payment to agents of Cherokee freedmen, etc.....	15,000 00
Miscellaneous supports, gratuities.....	720,000 00	Amount appropriated for standard samples, Indian service.....	1,500 00
Miscellaneous.....	646,000 00	Amount appropriated for negotiating with Prairie band of Pottawatomies, etc.....	5,000 00
Indian schools.....	1,456,960 00	Amount appropriated for negotiating with Cour d'Alene Indians.....	2,000 00
Total.....	5,804,399 77	Amount appropriated for payment to Seminoles for lands ceded.....	1,912,942 02
		Amount appropriated for aiding Indian allottees.....	30,000 00
		Amount appropriated for commission to negotiate with Sioux Indians.....	25,000 00

Recapitulation of the estimates of Indian service as furnished by the Indian Office.—Continued.

Amount appropriated for commission to negotiate with Cherokees, etc.	\$25,000 00	Amount of increase submitted under "Support of Indian school, Chil- occa, Ind. T."	\$7,875 00
Amount appropriated for payment to settlers on Wind River reserva- tion	9,371 50	Amount of increase submitted under "Support of Indian school, Car- son City, Nev."	15,000 00
Amount appropriated for payment to Beeson & Baker, of Paola, Kans.	60 00	Amount submitted under "Support of school at Santa Fé, N. Mex."	25,000 00
Amount appropriated for payment, wagon-road, Hoopa Valley reser- vation	5,000 00	Amount of increase submitted under "Support of Indian school at Grand Junction, Col."	7,500 00
Total	2,639,501 78	Amount of increase submitted under "Support of Indian school at Lawrence, Kans."	14,500 00
<i>Amounts embraced in estimates for 1891 not appropriated for 1890.</i>		Amount of increase submitted under "Support of Indian school at Salem, Oregon"	3,500 00
Amount of increase submitted under "Pay of Indian agents"	1,500 00	Amount of increase submitted under "Support of Indians at schools in States"	11,820 00
Amount of increase submitted under "Traveling expenses of Indian inspectors"	1,000 00	Amount of increase submitted under "Interest on trust-funds"	16,913 16
Amount of increase submitted under "Support of Sioux of different tribes"	150,000 00	Total	363,108 16
Amount of increase submitted under "Support of Arapahoes, Chey- ennes," etc	10,000 00	Amount appropriated for 1890	8,080,793 39
Amount of increase submitted under "Support of Navajoes"	7,500 00	Amount of estimates for 1891	5,804,399 77
Amount submitted under "Negotiating with Indian tribes"	10,000 00	Difference	2,276,393 62
Amount of increase submitted under "Pay of Indian police"	46,000 00	Amount appropriated for 1890 not embraced in estimates	2,639,501 78
Amount of increase submitted under "Judges Indian courts"	10,000 00	Amount embraced in estimates not appropriated for 1890	363,108 16
Amount of increase submitted under "Support of Indian school, Al- buquerque, N. Mex."	5,000 00	Agreeing with the difference between the amount appropri- ated for 1890 and these estimates	2,276,393 62
Amount of increase submitted under "Support of Indian school, Car- lisle, Pa."	20,000 00		

APPENDIX X.

In relation to the estimates for public buildings in Alaska. (See page 147.)

EXHIBIT A.

DISTRICT OF ALASKA, OFFICE OF U. S. MARSHAL,
Sitka, August 28, 1889.

SIR: I am in receipt of your communication requesting information as to the condition of the penitentiary, court-house, and public buildings in my custody, and for me to state if they are suitable for the uses required of them, etc.

In answer I respectfully represent that the court and jail building, officially known as the "barracks," is practically the only one in custody of the marshal at Sitka, at least that portion of it not now occupied by the military. The third or upper story is wholly devoted to court-rooms and the judge's residence. The court-room proper is ample in size, and is supplied with the needed furniture to render it fully adequate for its required uses. That portion of the building situated on the southerly side of the hall is in an unfinished and dilapidated condition, and should have repairs to make it fitted for jury rooms and offices for the several court officers, all of which are an absolute need.

The jail includes all apartments on the lower floor except the front corner, the marshal's office. This portion of the structure is greatly in need of repair. The floors of the jail are of thin boards badly worn, so much so that wind from beneath freely circulates through the apartments, rendering them exceedingly uncomfortable to inmates during the winter season. An inclosed yard in the rear could easily be constructed where prisoners could reach the open air so necessary to their health. Here a wash-room and water-closets could be placed, all of which are now of urgent need.

The building is large and substantially constructed, and if speedily repaired, especially the foundations, it would long and well meet all requirements for court purposes and offices for the civil government.

After careful consideration, I estimate the cost of the improvements and repairs above enumerated at \$2,500.

Very respectfully,

BARTON ATKINS,
U. S. Marshal.

Hon. LYMAN E. KNAPP, Governor.

EXHIBIT B.

CUSTOM-HOUSE, SITKA, ALASKA, September 30, 1889.

SIR: In compliance with your request, I herewith submit the following statements regarding the public buildings in my custody in the town of Sitka.

Respectfully,

MAX PRACHT,
Collector and Custodian.

Hon. LYMAN E. KNAPP, Governor.

No. 17. CUSTOM-HOUSE BUILDING.

Location.—Lincoln street, adjoining "Barracks building."

Condition.—Poor.

Occupancy.—Custom-house, collector's office and quarters, seizure-room, and executive office.

Rentals.—None.

Repairs needed.—Foundation on northeast end strengthened and repaired; roof painted two good coats Prince's metallic red and linseed-oil; new porch Lincoln street front; new floor laid over hewed-board floor in collector's principal rooms; partition in northeast room; new carpet in collector's office; partition out between same and private office, to improve circulation of air; windows glazed where needed; new floor laid in hall and passage-way between custom-house and executive office; new paper in four rooms. Estimated cost, \$1,313, as follows: Foundation work, \$30; flooring and labor, \$225; partitions and labor, \$75; carpets, \$200; doors and windows, \$24; paper and hanging, \$90; locks and fastenings, \$24; sewerage, \$30; painting, \$240; new porch and railing, \$375—total, \$1,313.

EXHIBIT C.

WAREHOUSE AND WHARF.

Location.—Foot of Lincoln street.

Condition.—Bad.

Occupancy.—By collector for reception, storage, and delivery of freight.

Revenue.—August 13, 1888, to April 15, 1889, \$1,394.25; May 24, 1889, to September 30, 1889, \$633.50—total, \$2,027.75.

Repairs needed.—Warehouse: New roof entire; doors rehung, and windows reglazed; new floor in passage-way from wharf to Lincoln street; foundation on northwest side next to sea strengthened and underpinned; rooms throughout entire building cleaned, whitewashed, and put in order. Cost for repairing warehouse, as per bid submitted, \$1,480; cost for repairing wharf, as per bid submitted, \$1,250—total, \$2,730.

EXHIBIT D.

DWELLING HOUSE.

Location.—Lincoln street, facing parade ground.

Condition.—Bad.

Occupancy.—United States clerk of court.

Rentals.—None.

Repairs needed.—New roof; flues repaired, and foundations underpinned; estimated cost, \$260.

EXHIBIT E.

No. 19. CLUB HOUSE.

Location.—East side Lincoln street, near Greek Church.

Condition.—Bad.

Occupancy.—T. E. McFarl and J. H. King, H. A. Wilds, B. Donnelly, and T. F. McGuire.

Rentals.—Term ending September 30, 1889, \$122.

Repairs needed.—This building is in such bad order that general repairs are not advised. An appropriation of \$4,000 was made March 3, 1885, but an examination of the building by a special agent of the Treasury developed the fact that it had gone greatly into decay, and the appropriation was not applied. A portion of this building is now used by the governor to store arms and equipments, but it is in such a dilapidated condition and dangerous location as to make a change advisable. To this end the governor has asked for a room (when put in decent order), in the warehouse adjoining wharf, and the granting of such for the purpose specified has been recommended by the collector. The sum of \$200 expended on the club house in bracing and underpinning the rear wall and foundation, and \$300 for a new roof, would prolong its life for ten years more. If such were done the rental could be more than doubled.

MAX PRACHT,
Collector and Custodian.

APPENDIX Y.

Statement (prepared in accordance with Statutes at Large, vol. 24, page 512) of persons employed on contingent force at public buildings in course of construction, showing names, occupation, time of service, rates of compensation, and total amount of compensation during the fiscal year ended June 30, 1889.

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C. November 7, 1889.

SIR: I have the honor to inclose a statement, prepared in accordance with clause in Statutes at Large, volume 24, page 512, of persons employed on contingent force at public buildings in course of construction, under this office, showing names, occupation, time of service, rates of compensation, and total amount of compensation during the fiscal year ending June 30, 1889.

Respectfully yours,

JAS. H. WINDRIM,
Supervising Architect.

Hon. SECRETARY OF THE TREASURY.

APPENDIX Z.

In relation to the estimates for the Columbia Institution for the Deaf and Dumb. (See pages 161 and 232.)

THE COLUMBIA INSTITUTION FOR THE DEAF AND DUMB,
Kendall Green, near Washington, D. C., August 1, 1889.

SIR: As required by law, and under the authority of the board of directors of this institution, I have the honor to submit estimates to be laid before Congress at the approaching session.

The estimate for the current expenses of the institution, \$47,500, is considerably less than the appropriation for the current year, because of the requirement of a law of Congress, approved March 2, 1889, providing for the submission, through the Commissioners of the District of Columbia, of an estimate of the expense of caring for the deaf and dumb of the District.

The amount asked through the Commissioners, viz, \$10,500, taken together with the estimate herewith submitted, aggregates \$58,000, more by \$3,000 than was appropriated for the current year.

The reason for this increase will become apparent when an explanation is given of an estimate of \$3,000, asked to be inserted in the deficiency bill, and made available for the current fiscal year. And the need for this appropriation can best be shown by reciting the action of the directors at a meeting held on the 7th of May last, when there were present, besides the president, Hon. H. L. Dawes, Hon. J. J. Hemphill, Hon. R. R. Hitt, Hon. J. Randolph Tucker, Dr. J. C. Willing, Col. J. W. Foster, and R. C. Fox, esq. At this meeting the following minute was unanimously adopted:

"The board has taken into consideration the proviso contained in the sundry civil appropriation bill approved March 2, 1889, in the following words to wit: '*Provided*, That of the above sum (\$55,000) no more shall be expended for salaries and wages in this institution during the fiscal year 1890, than shall with the payments from other sources make a total for such salaries and wages for said year of \$28,000 in all.'

"The amount allowed by the board for the current year has been about \$31,000, and the same has been allowed for several years past. The board considers this sum not only reasonable, but necessary for the proper support of the educational system, now firmly and successfully established and in operation in the institution, because it is not in excess of the amount allowed in like institutions elsewhere, even where the education afforded is altogether primary, and not at all collegiate, and because the qualifications of professors in collegiate branches in the institution should be as great as in other colleges, and their special qualifications for teaching deaf-mutes must be peculiar, and in addition to those usually possessed by professors in the same branch of learning in colleges for those who are not deaf-mutes.

"The board, therefore, is of opinion, in full consideration, that the proviso in the aforesaid act of Congress will injuriously impair the efficiency of the institution and unjustly decrease the fair remuneration of professors for their important and peculiar duties.

"The board desires that these views be officially laid before the next Congress, in order that this restriction of the amount paid for salaries and wages be removed in the future, and that the deficit under the proviso above mentioned may be supplied by an appropriation of an amount sufficient to pay the just salaries and wages heretofore allowed by the board.

"*Resolved*, That the president of the institution be instructed to lay this minute of the board before the Secretary of the Interior, in order to its being included in the estimates to Congress, and be incorporated in the annual report of the president and directors to the Secretary of the Interior."

It is in pursuance of this action above recited that the deficiency estimate for \$3,000 is submitted, and the considerations which lead to the request for this appropriation, lead, naturally, to the addition of a similar amount to the regular estimate for current expenses for 1891 alluded to at the beginning of this letter.

No special appropriation has been made for several years for the improvement of the grounds. Much is needed to be done to make the fences secure, to repair roads already existing, to lay down pavements near buildings constructed within the past four years, and to complete certain improvements already begun.

It is hoped by the directors that the sum asked, \$3,000, may not be thought unreasonable for their purposes.

Very respectfully, your obedient servant,

E. M. GALLAUDET,
President.

Hon. SECRETARY OF THE INTERIOR.

APPENDIX Aa.

In explanation of the estimates for the Revenue-Cutter Service. (See pages 194 and 195.)

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., October 1, 1889.

SIR: I have the honor to transmit herewith an estimate of an appropriation required for the Revenue-Cutter Service during the fiscal year ending June 30, 1891, in detail, showing, separately, the amount required for pay of officers, rations for officers, pay of crews, rations for crews, fuel, repairs, and outfits, ship chandlery, and for traveling and contingent expenses, as required by chapter 410 of the public acts of the Fiftieth Congress of the United States, passed at the second session (25 Stat. 907), and also, in accordance with the same act, herein include a statement showing the authorized number of officers and cadets in the Revenue-Cutter Service, their rank, and pay, as follows:

36 Captains, at \$2,500 per annum.....	\$90,000	26 Chief engineers, at \$1,800 per annum.....	\$46,800
36 First lieutenants, at \$1,800 per annum.....	64,800	22 First assistant engineers, at \$1,500 per annum.....	33,000
36 Second lieutenants, at \$1,500 per annum.....	54,000	28 Second assistant engineers, at \$1,200 per annum.....	33,600
27 Third lieutenants, at \$1,200 per annum.....	32,400		
9 Cadets, at \$900 per annum.....	8,100	220 Officers—annual pay..	362,700

I also report the number of men constituting the crews of the vessels in the Revenue-Cutter Service:

On vessels on the Atlantic, Pacific, and Gulf of Mexico:

	Annual wages.
56 Petty officers, at \$30 per month.....	\$20,160
47 Petty officers, at \$35 per month.....	19,740
4 Petty officers, at \$40 per month.....	1,920
9 Petty officers, at \$50 per month.....	5,400
4 Seamen, at \$17 per month.....	816
2 Seamen, at \$20 per month.....	480
158 Seamen, at \$25 per month.....	47,400
33 Seamen, at \$26 per month.....	10,296
6 Seamen, at \$28 per month.....	2,016
49 Seamen, at \$30 per month.....	17,640
8 Seamen, at \$32 per month.....	3,072
16 Seamen, at \$45 per month.....	8,640
2 Seamen, at \$65 per month.....	1,560
40 Boys, at \$12 per month.....	5,760
40 Boys, at \$15 per month.....	7,200
8 Boys, at \$17 per month.....	1,632
34 Coal-passers, at \$25 per month.....	10,200
9 Coal-passers, at \$30 per month.....	3,240
59 Firemen, at \$30 per month.....	21,240
10 Firemen, at \$35 per month.....	4,200
19 Firemen, at \$45 per month.....	10,260
8 Firemen, at \$50 per month.....	4,800
2 Firemen, at \$75 per month.....	1,800
64 Cooks and stewards, at \$35 per month.....	26,880

	Annual wages.
1 Steward, at \$40 per month.....	\$480
13 Cooks and stewards, at \$50 per month.....	7,200
On vessels on the Great Lakes, calculated as in commission eight months in the year:	
12 Petty officers, at \$30 per month.....	2,880
8 Petty officers, at \$35 per month.....	2,240
37 Seamen, at \$28 per month.....	8,288
7 Seamen, at \$29 per month.....	1,624
8 Boys, at \$12 per month.....	768
7 Boys, at \$15 per month.....	840
8 Coal-passers, at \$28 per month.....	1,792
16 Firemen, at \$35 per month.....	4,480
13 Cooks and stewards, at \$35 per month.....	3,360
815 Men—total annual pay.....	270,304
Pilots employed on vessels of the Revenue-Cutter Service:	
2 Pilots, at \$69.12½ per month.....	1,659
1 Pilot, at \$80 per month.....	960
6 Pilots, at \$84.12½ per month.....	6,057
12 Pilots, at \$100 per month.....	14,400
6 Pilots, at \$109.12½ per month.....	7,857
27 Pilots—total annual pay.....	30,933

The estimate herewith inclosed contains the amounts required for pay of officers, etc., resulting from a calculation based upon the total number authorized at full rates. In the ordinary course of business somewhat less would be required to defray these expenses, as vacancies and difference in pay when officers are on leave or waiting orders would make a considerable reduction, but this amount is so variable that it can not be accurately calculated, and, therefore, the full amounts stated should be appropriated, if separate appropriations are to be made for each particular object of expenditure for the support of this service. The same is true as to the other items which have been separately estimated for, when only a reasonable margin for contingencies has been added to the average amount expended in former years.

If but one appropriation is made for the Revenue-Cutter Service, as in former years, it need not be so large as the aggregate of a number of separate ones would be. The usual course of business is such that almost invariably when one class of expenditures is increased, another is diminished. When much is done in the way of repairing vessels, and large drafts are made on the general appropriation for this purpose, the pay of crews, consumption of fuel, rations, etc., is diminished by the enforced inaction of the vessels, and when comparatively little is required for repairs, the ability of the vessels to perform constant duty will require increased sums for fuel, pay of crews, and general supplies. These changes can not be calculated in advance, but the entire amount required can be quite fairly estimated by comparison with the actual expenditures of previous years. It is, therefore, respectfully suggested that the appropriation be made as formerly—to wit.:

“Expenses of Revenue-Cutter Service, 1891.—For expenses of the Revenue-Cutter Service: For pay of captains, lieutenants, engineers, cadets, and pilots employed, and for rations for the same; for the pay of petty officers, seamen, cooks, stewards, boys, coal-passers, and firemen, and for rations for the same; for fuel for vessels, and repairs and outfits for the same; ship chandlery and engineers’ stores for the same; traveling expenses of officers traveling on duty under orders from the Treasury Department; instruction of cadets; commutation of quarters; for protection of the seal fisheries in Bering Sea and the other waters of Alaska, and the interests of the Government on the seal islands and the sea-otter hunting-grounds, and the enforcement of the provisions of law in Alaska; contingent expenses, including wharfage, towage, dockage, freight, advertising, surveys, labor, and miscellaneous expenses which can not be included under special heads.”

If this is done it is believed that \$950,000 would be sufficient for the fiscal year ending June 30, 1891, in lieu of the aggregate sum of \$1,043,000 as shown in the estimate as transmitted, in which the principal items are separately stated.

Such a separation would greatly increase the clerical labor of accurately keeping the multiplicity of accounts which would be thus created in the authorization and settlement of these expenditures. The increase of labor would occur not only in the office of the Secretary and the accounting divisions of the Treasury, but at every custom-house where the collector is now a disbursing officer for this service; collectors of customs are required to render monthly accounts of disbursements under seven different heads, “Revenue-Cutter Service” being one. If the amount required for the proper maintenance of this service be divided into nine separate appropriations, monthly accounts being required for each, it is not believed that the advantage gained would be at all commensurate to the augmented labor in various localities, and consequent increase in clerical force rendered necessary thereby.

Respectfully yours,

PETER BONNETT,
Chief Revenue Marine Division.

Hon. SECRETARY OF THE TREASURY.

APPENDIX Bb.

In relation to the estimates for Bureau of Engraving and Printing. (See page 195.)

TREASURY DEPARTMENT, BUREAU OF ENGRAVING AND PRINTING,
October 14, 1889.

SIR: I have the honor to submit herewith estimates of the appropriations required for labor and expenses of engraving and printing for the fiscal year 1891, arranged under the following heads:

Compensation of employés.....	\$370,000
For wages of plate printers and assistants.....	525,000
Materials and miscellaneous expenses.....	178,000
Total.....	1,073,000

There is an increase in each of these items as compared with the appropriations made for the current fiscal year. This is due to an increase in the quantity of securities, stamps, checks, etc., estimated for by the several bureaus for which this bureau executes work. The aggregate of the appropriations for the current fiscal year is \$993,000, with which it is proposed to execute 38,389,000 sheets of securities, etc., requiring 49,613,560 plate printings. With the estimates above submitted it is proposed to execute during the next fiscal year 42,264,100 sheets of securities, etc., requiring 54,735,146 plate printings. The estimate for compensation of employés is based on the present organization of the bureau, with a slight increase for the necessary additional force required to do the additional work. It is the same in amount as the original estimate submitted for the current fiscal year when a like amount of work was anticipated. The estimate for wages of plate printers and assistants is based upon the amount of work estimated for at the established rates, and is, therefore, the amount of money required to pay these employés for the quantity of work that will be required of them. The item for materials and miscellaneous expenses is based on the actual requirements of the work. There is a slight increase as compared with the appropriation, but a reduction of \$11,000 as compared with the original estimate for the current fiscal year.

I submit herewith a schedule showing the amounts in detail of securities, stamps, and miscellaneous work proposed to be delivered during the fiscal year ending June 30, 1891.

Respectfully yours,

WM. M. MEREDITH,
Chief of Bureau.

Hon. SECRETARY OF THE TREASURY.

Statement of the various classes of securities and other work proposed to be executed in the fiscal year 1891.

Class of work.	No. of sheets.	Class of work.	No. of sheets.
United States notes and certificates.....	8,700,000	License certificates.....	15,000
United States registered bonds.....	8,000	Certificates of authority to commence banking business.....	250
National currency, series of 1875.....	175,000	Certificates of extension.....	100
National currency, series of 1882.....	1,280,000	Pension certificates.....	110,000
Internal revenue stamps.....	30,439,000	Forms for letters patent.....	26,000
Customs stamps.....	366,000	Post-office warrants.....	130,000
Pension checks.....	500,000	Post-office collection drafts.....	15,000
Disbursing officers' checks.....	196,000	Post-office inspectors' commissions.....	150
Interest checks.....	30,000	Post-office money-order drafts.....	40,000
Transfer checks.....	8,000	Requests for transportation.....	50,000
District of Columbia Commissioners' checks.....	15,000	Commissions for attorneys and marshals.....	50
Drafts on warrants.....	15,000	Commissions for judges of United States courts.....	50

Debenture certificates.....	40,000		
Registry certificates.....	5,000	Total.....	42,264,100

APPENDIX Cc.

In relation to the estimates for the Coast and Geodetic Survey. (See pages 197 to 202.)

U. S. COAST AND GEODETIC SURVEY OFFICE,
Washington, D. C., September 13, 1889.

SIR: The estimates for the U. S. Coast and Geodetic Survey, which I have the honor to submit, are in general the same, in form and fact, as those submitted for the past year or two.

The estimates for the field-work, or party expenses, are very slightly changed, the only thing to which I deem it necessary to call your especial attention being under the paragraph "for objects not named," where, in justice to those officers of the field force whom it is necessary for me to order to Washington for short periods, for consultation about the work, I have inserted a paragraph to allow them, while so employed, actual necessary expenses as directed by me, within the limits of Treasury regulations.

Under the head of pay of field officers I find that the force is already reduced to within the limits required for the proper execution of the work, and I have inserted two additional salaries, at \$3,000 per annum each, in order to enable me to avail myself of the services of experts not now connected with the Survey, and the benefit of whose labors would be felt immediately.

In the pay of the office force I have asked for a private secretary and a stenographer to the Superintendent, help absolutely necessary for the proper and effective discharge of my own duties. I have also asked that a disbursing officer be provided for the Survey at an additional expense of only \$400 per annum. The delays necessarily caused by our present means of disbursement are costly and vexatious,

The general expenses of the office are increased in these estimates over those for the present fiscal year, the increase being absolutely necessary in order to transact our increasing business.

Under a separate heading I have set forth the estimated cost of furnishing special additional facilities for our chart printing. The demand is now, at certain seasons, so far in excess of our ability to supply, and is increasing so steadily, that I feel compelled to bring the matter to your attention and ask its favorable consideration.

The office room at our disposal is now entirely inadequate, and with the extension of our printing facilities more room will be necessary. The International Standards, which are soon to be delivered, must have some suitable place provided for them, and the only place at our disposal is now filled with material for chart printing.

The estimate for new furniture and other outfitting will be absolutely necessary when the needed additional room is provided, but only a portion of that amount will be necessary if the additional room is not provided.

The item for printing and binding for the Coast and Geodetic Survey work, to be done by the Public Printer, I respectfully recommend to be appropriated separate and apart from the body of the appropriation for printing, etc., for the Treasury Department, in the same manner as a similar appropriation for the Geological Survey is set apart from the body of the appropriation for the Interior Department, to the end that an appropriation such as this, upon we rely for the publication of Tide Tables, Notices to Mariners, Coast Pilots, and other indispensable documents, may be more particularly under my charge and always available.

The total of estimates for the Coast and Geodetic Survey for the fiscal year 1890, excluding printing and binding, amounted to	\$575,950
Total estimates for the fiscal year 1891, excluding printing and binding.....	613,570
Increase of estimates	<u>37,620</u>

Made up from the following items:

Increase of party expense.....	5,800
Repairs and maintenance of vessels ..	5,000
Pay of two new field officers.....	3,300
Pay of office force.....	2,550
Office expenses.....	2,500
Additional facilities for chart printing (extraordinary expense).....	13,970
Additional rent.....	3,000
New furniture and outfit (extraordinary expense)	<u>1,500</u>

37,620

Yours respectfully,

T. C. MENDENHALL,
Superintendent.

APPENDIX D d.

Detailed estimate for "Pay of assistant custodians and janitors." (See page 205.)

TREASURY DEPARTMENT, OFFICE OF THE CHIEF CLERK AND SUPERINTENDENT,
Washington, D. C., November 2, 1889.

SIR: I have the honor to submit the following estimate of the amount of money required for the appropriation "Pay of Assistant Custodians and Janitors, 1891."

Respectfully yours,

FRED BRACKETT,
Chief Clerk and Superintendent.

The SECRETARY OF THE TREASURY.

Amount estimated to be required for the "Pay of Assistant Custodians and Janitors, 1891," for the following named buildings, completed prior to June 30, 1889, under the control of the Treasury Department.

Place and designation.	No.	Compensation.	Amount.	Total.	Place and designation.	No.	Compensation.	Amount.	Total.

APPENDIX Ee.

*In relation to the estimates of the Commissioners of the District of Columbia. (See pages 208 to 217.)*OFFICE OF THE COMMISSIONERS, DISTRICT OF COLUMBIA,
Washington, October 1, 1889.

DEAR SIR: Pursuant to the requirements of law, the Commissioners herewith transmit their estimates of appropriations needed for the support of the government of the District of Columbia for the fiscal year to end June 30, 1891.

Attached to these estimates are schedules of proposed work on sundry streets, avenues, and roads, and memoranda showing the estimated receipts of the District government for said period, and giving the reasons for submitting new items, and for recommending, in certain cases, an increase in the appropriation for next year over the appropriations for corresponding items for the current year.

Respectfully,

Hon. WILLIAM WINDOM,
Secretary of the Treasury.J. W. DOUGLASS,
President Board of Commissioners District of Columbia.

DISTRICT REVENUES AND APPROPRIATIONS (ESTIMATED).

Rent of wharves and District property.....	2,500 00	Total estimated receipts.....	2,434,750 91

ROGER WILLIAMS,
Assessor, District of Columbia.

DISTRICT OF COLUMBIA, OFFICE OF INSPECTOR OF BUILDINGS,
Washington, D. C., October 1, 1889.

GENTLEMEN: In answer to the inquiry as to my views of the value of new buildings to be erected during the current year, I am of the opinion, to take the previous years as a criterion, it will average at the least \$6,500,000.

Very respectfully,

Hon. COMMISSIONERS DISTRICT OF COLUMBIA.

THOS. B. ENTWISLE,
Inspector of Buildings, District of Columbia.

Georgetown	65,000 00	Northeast	130,000 00
Northwest	247,000 00		
Southwest	78,000 00	Total	854,450 00

Memoranda of estimated receipts of, and appropriations for, the government of the District of Columbia for the fiscal year to end June 30, 1891.

ESTIMATED RECEIPTS.

The estimated revenues of the government of the District of Columbia, for the fiscal year to end June 30, 1891, are based upon the accompanying estimates of the assessor, the inspector of buildings, and the report of the auditor of the District of Columbia, amounting to \$2,773,649.22, and a like sum to be contributed by the United States, making a total of \$5,547,298.44.

It will be observed that the estimates of appropriations, exclusive of those for water department, are \$401,658.35 less than the estimated receipts exclusive of those of said department. This sum is reserved as a basis for estimates, as required by the District appropriation act of March 2, 1889, for maintaining the several institutions included under the heads of asylums, reformatories, industrial schools, and charities named in said act and prior appropriation acts, which estimates the Commissioners are required to submit to Congress at the beginning of each regular session; also for deficiencies.

CHANGES IN APPROPRIATIONS.

Executive office.—The increase of one assistant inspector of buildings, who shall also perform the duty of inspector of elevators, with a salary of \$1,200 per annum, is submitted in order that the Commissioners may give effect to the act approved March 30, 1887, regulating the construction and operation of elevators within the District of Columbia, which the Commissioners have heretofore been unable to do, because of the lack of appropriations to pay for such inspection.

The estimate for the increase of the clerk in the office of the inspector of buildings is based upon the value of his services as clerk and architect. He designs all the plans for buildings erected by the District, and prepares them, with the occasional aid of an assistant. The amount of professional architectural service rendered by him could only be secured in any other way at an expense greatly in excess of that incurred under the present system.

Collector's office.—The item of \$2,000 for one deputy collector is to supply a much-felt need in the administration of the duties of the collector's office, the work of which has kept pace with the growing increase in the value and improvement of District property, and the extension of the urban portions of the District.

Public schools.—The increase of fifty in the number of teachers is in accordance with the recommendation of the board of school trustees, as is also the increase of \$5 in the annual average pay of the teachers, and in pursuance of the recommendation and estimates made by the predecessors of the present Board of Commissioners.

The increase of \$1,000 on the salaries of teachers in the night schools is to enable the Commissioners to extend the system to the suburban villages. In view of the extension of this system, the Commissioners have also recommended an increase of \$100 for the contingent expenses of the night schools.

The increase of \$200 in the salary of the janitor of the white high school building is to cover the expense of caring for the twelve new rooms in the annex to this building just erected.

The salary of the janitor of the Berret school building is taken out of the \$500 class and put into the \$700 class, for the reason that it is a nine-room building, and should have been so classed in the appropriations for 1890; and that of the janitor of the Mott school building for the reason that four rooms have been added to this building, making it a ten-room building since the appropriation for 1890.

The salary of the janitor of the McCormick school building is taken out of the \$165 class and put into the \$500 class, for the reason that the building is fitted with dry closets and furnaces, requiring more attention than other buildings of the same capacity without these fixtures.

The salaries of the janitors of all the buildings in the \$165 class—except the McCormick, which has been put into the \$500 class—are increased to \$200 each, which the board of trustees recommended, and which, in the judgment of the Commissioners, is not more than necessary to secure proper service.

The Montgomery street building was torn down, and the site occupied by the "Corcoran school."

The Commissioners estimate for eighty-seven rented rooms instead of one hundred and twelve, as for 1890. This reduction is due to the fact that the erection of new buildings has enabled the school board to dispense with a number of small rented rooms.

The increase to \$25,000 for repairs and improvements of school buildings and grounds is the lowest amount with which it will be possible to keep the present school premises in order and provide for those that will come into use under this estimate and the 1890 appropriation.

The increase of \$6,000 for fuel is rendered necessary to heat the new buildings, whose erection was provided for in the appropriation for 1890.

The estimate for furniture for the new school buildings is an increase of \$1,000 over the appropriation for 1890, and is intended to provide for forty-two new school-rooms, at an average of \$190 each, viz: Colored high school, sixteen rooms; one new eight-room school building in the first, third, and seventh divisions each, and for the two-room addition to the building in Anacostia.

The Commissioners estimate for \$191,000 for the erection of new buildings, viz, \$79,000 for the colored high school, in addition to the \$60,000 appropriated in 1890, which was found to be utterly insufficient for the erection after deducting \$25,000 for the cost of the site purchased for the building. The site of the colored high school building is located on the south side of M street, between First and Second, northwest, and is known as lots 13, 14 and 15, square 557. It is 180 feet by 136 feet, 7½ inches. Also three eight-room buildings in the first, third, and seventh divisions respectively, with sites therefor, \$35,000 each. The eight-room building for the seventh division is intended to replace the Chamberlin, a frame twelve-story building in Georgetown, originally a military barrack, and now dilapidated and dangerous, and otherwise unfit for occupancy. Also \$7,000 for an addition to the Anacostia building. Inclosing Arthur building grounds with brick walls, and grading and improving the grounds, \$3,175.

The item of \$6,750 is for the purchase of ground in square 276 for a play-ground for the school on Twelfth street near R. This is inserted, as there is now no place but the streets and alleys available to the children attending said school, for out-door recreation.

The item for superintendent of janitors, at \$1,500, is intended to provide an officer to supervise the janitor work in the public schools, and to see that the heating plant and other property of the public schools is duly cared for, and that fuel supplies are properly used.

Police department.—The increase of \$120 each in the pay of surgeons to the police and fire departments is necessary in order to enable the retention in that service of physicians competent to discharge the character of duty required of them.

The increase of five sergeants and twenty-seven privates of each class, on the force, is necessary for the proper protection of the District. During the past year, the greatest average number of patrolmen on any tour was one hundred and ten. This year it will not exceed one hundred and twenty-nine. In order to properly protect the District, at least one hundred and fifty must be available during any tour. This will require the increase estimated for.

The item of \$6,000 for the erection of an ambulance stable is to enable the construction of such a building on a lot owned by the District on the west side of Fifth street, between M and N streets, northwest, adjoining the second precinct station. The efficient administration of the duties of this department require that these stable accommodations should be more centrally located, as will be accomplished by the erection of the stable proposed.

The estimate of \$25,000 for a new station in Georgetown is designed to provide for the accommodation of the force there in lieu of the present station now in that city. The present building was erected over twenty years ago, is much dilapidated, and rests on very insecure foundations. It abuts the Chesapeake and Ohio Canal, the effluvia from which are prejudicial to health and productive of sickness among the officers and others. This station should be replaced by one more centrally located.

The item of \$2,500 for stable for horses and patrol-wagon in Georgetown is to provide for such accommodations, in case of the erection of the station-house in Georgetown, above estimated for.

The item of \$10,000 for the completion of the police signal and telephone system is intended to place that system in the fifth and eighth precincts, and thus extend to every part of the District the protection afforded by this auxiliary to the personnel of the force. The value of this service has been fully demonstrated.

The item of \$5,000 for stables in the fifth and eighth precincts is intended to provide accommodation for the horses and wagons incident to the extension of the police signal and telephone system to those precincts estimated for. The appropriation for the current fiscal year for the stable for the police-patrol system was applied to the erection of a stable in the ninth precinct.

The increase in the item for additional compensation for privates detailed for special service in the detection and prevention of crime is to enable the employment of two or more officers as additional detectives as occasion may require.

The item for an additional janitor at Anacostia is intended to enable an attendant to be constantly kept at that station. At present there is no one there at night, and night prisoners have to be brought to the nearest station in the city.

The increase in the number of officers mounted is to meet a growing demand for that class of service in the city, and to secure the better protection of the suburban portions of the District, which rely exclusively upon the mounted service.

The addition of one ambulance driver is to enable the police authorities to use the three ambulances they now have, so that at least one ambulance may be available at all hours, day and night, without imposing undue hardship upon those in charge of them.

Two of the additional patrol-wagon drivers estimated for will be required in connection with the establishment of the patrol system in the fifth and eighth precincts, and the other three for night service in the first, fourth, and sixth precincts.

Fire department.—The increase of \$200 in the salary of veterinary surgeon is to secure the services of a competent practitioner of the profession. It is his duty to attend to all the horses in the District employ which are in need of examination or treatment.

The increase in the estimates for repairs to engine-houses and for fuel is due to the usual incidents of the service.

The item of \$35,180 for new truck-house and plant, with the personnel and horses necessary for its management, is estimated for to secure a truck company in a more central location. The trucks now in service are in the western and eastern portions of the city, and are not only sometimes unavailable in time, on account of their remoteness from the fire, but are of a type unfitting them for useful service at unusually high buildings. The ladders now in use do not exceed 69 feet in length, while many of the buildings are over 100 feet in height.

Telegraph and telephone service.—The item of \$1,000 for additional telegraph operator is to remove the risk of depending upon operators who might fail in their duties for want of proper rest. It is advisable in this, as in any other service requiring extreme watchfulness, that there should be three reliefs. No service is more important to the public than this.

Police court.—The item for the increase in witness fees is incident to the increase of police business.

The item of \$800 for repairs of police-court building is based upon representations of the judge of the police court and estimates of the inspector of buildings.

Miscellaneous.—The item of \$400 in the increase of rent of the District offices is submitted in pursuance of an understanding with the lessor of the building occupied by the District offices that the Commissioners would estimate for \$4,000 annual rental of said building.

The estimate to enable the register of wills to complete the reproduction of the administration and guardian dockets prior to 1879 is based upon representations of that officer.

The item to pay the register of wills for preparation of papers in connection with appointment of guardians for boys apprenticed in the Navy is also based upon the statements of that officer. Under section 4509 of the Revised Statutes of the United States, shipping officers can not apprentice boys to sea service without the consent of parents or guardians. The boys in whose cases the papers referred to have been issued are boys found at large in the District, whose characters render them available for such apprenticeship, and who desire to apprentice themselves rather than go to the reform school.

The increase in the item for printing checks, damages, etc., is rendered necessary by the increase of current business.

Militia.—The item of \$35,000 is based upon the requirements of the fifty-eighth section of the act approved March 1, 1889, to provide for the organization of the militia of the District of Columbia, and represents the amount submitted by the commanding general of the District militia under authority of that section. The Commissioners submit the entire amount estimated by that officer, as they have no discretion under the law to modify it.

Contingent expenses.—The increase in the estimates for contingent expenses of the various offices is due to the gradual growth of business of the District government.

Examiners of steam engineers.—The examiners of steam engineers, for whose salary, at the rate of \$300 per annum each, an estimate is made, have served in that capacity since April, 1877, without pay, although they were employed with the expectation that they would receive compensation for their services out of the fees collected from the engineers examined by them and licensed. The total amount of such fees received to October 1, 1889, is \$2,214.

APPENDIX Ff.

Letter of First Comptroller in relation to estimates of the Commissioners of the District of Columbia (Estimates on pages 208 to 217.)

TREASURY DEPARTMENT, FIRST COMPTROLLER'S OFFICE,
Washington, D. C., November 9, 1889.

SIR: The estimates of the Commissioners of the District of Columbia for the fiscal year ending June 30, 1891, which were referred to this office, under date of the 14th ultimo, for examination and recommendations, are herewith respectfully returned.

A copy of the estimates containing the changes recommended in the Commissioners' estimates, and the reasons therefor, is also transmitted.

In the copy the estimates of the Commissioners have been arranged so that the titles and order conform to the estimates and appropriations for the current fiscal year. This is done for convenience of reference and comparison.

Very respectfully,

A. C. MATTHEWS,
First Comptroller.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

EXHIBIT 1.

MARSHAL OF THE UNITED STATES, DISTRICT OF COLUMBIA,
Washington, October 23, 1889.

SIR: I have the honor to call your attention to the inadequacy of the annual appropriation for United States marshal's fees at the police court in this District, with the hope that a larger provision for the same may be recommended to Congress at the coming session.

The item in question occurs under the subheading of "Courts," in the appropriation for expenses of the District of Columbia.

Under the District appropriation bill for the fiscal year ended June 30, 1883, \$2,000 was appropriated for the payment of said fees (see acts of 47th Congress, 1st session, p. 141). The following year the appropriation for this purpose was reduced to \$1,400, and has continued at the last-mentioned rate annually ever since.

The reduction of said appropriation to \$1,400 per annum has left a deficiency each year as follows:

Fiscal year ending June 30, 1884.....	\$152 00	Fiscal year ending June 30, 1887.....	231 50
Fiscal year ending June 30, 1885.....	404 50	Fiscal year ending June 30, 1888.....	358 03
Fiscal year ending June 30, 1886.....	285 50	Fiscal year ending June 30, 1889.....	423 00

The services for which said fees are charged are rendered according to law by a duly authorized deputy marshal who, in addition to serving the processes of said court, is required to collect all fines in United States cases imposed by said court, amounting to about \$12,000 annually, and is under \$5,000 bond for the faithful performance of his duties as such deputy. Under section 841, Revised Statutes of the United States, the maximum compensation of said deputy can not exceed three-fourths of his earnings, so that it is desirable that this office should receive payment for the full amount of services rendered, in order to make the deputy's compensation sure and satisfactory.

The condition of affairs resulting from this annual deficiency is annoying, and, it seems to me, unnecessary, causing delay in settling the marshal's accounts and uncertainty as to the compensation to be paid to the deputy performing the service.

In view of the facts herein set forth, I have the honor to ask the Comptroller to recommend, in the estimates now being prepared for Congress, an appropriation of \$2,000 for United States marshal's fees at the police court of the District of Columbia.

Very respectfully,

DANIEL M. RANDELL, Marshal.

Hon. A. C. MATTHEWS,
First Comptroller U. S. Treasury.

EXHIBIT 2.

Classification of teachers of the public schools, District of Columbia, for the fiscal year 1891.

One principal of Washington high school.....	\$2,500 00	Sixty-five teachers, at \$775 each, class 12.....	\$50,375 00
Eight supervising principals, at \$2,000 each.....	16,000 00	Nineteen teachers, at \$750 each, class 11.....	14,250 00
Two supervising principals, at \$1,700 each.....	3,400 00	Eighty-nine teachers, at \$700 each, class 10.....	62,300 00
One principal of colored high school.....	1,800 00	Four teachers, at \$675 each, class 9.....	2,700 00
One director of music.....	1,600 00	Eighty-seven teachers, at \$650 each, class 8.....	56,550 00
Eight teachers, at \$1,500 each, class 22.....	12,000 00	Ninety-six teachers, at \$550 each, class 7.....	52,800 00
Two teachers, at \$1,400 each, class 21.....	2,800 00	Sixty-seven teachers, at \$500 each, class 6.....	33,500 00
Four teachers, at \$1,300 each, class 20.....	5,200 00	Thirty-three teachers, at \$475 each, class 5.....	15,675 00
Twelve teachers, at \$1,200 each, class 19.....	14,400 00	Forty-six teachers, at \$450 each, class 4.....	20,700 00
Six teachers, at \$1,100 each, class 18.....	6,600 00	Fifty-seven teachers, at \$425 each, class 3.....	24,225 00
Thirty-four teachers, at \$1,000 each, class 17.....	34,000 00	Forty-four teachers, at \$400 each, class 2.....	17,600 00
Sixteen teachers, at \$950 each, class 16.....	15,200 00	One teacher, at \$350, class 1.....	350 00
Thirty-one teachers, at \$900 each, class 15.....	27,900 00		
Fifty-four teachers, at \$825 each, class 14.....	44,550 00	Total, seven hundred and ninety-five teachers, at \$685 each.....	544,575 00
Seven teachers, at \$800 each, class 13.....	5,600 00		

APPENDIX Gg.

In relation to the estimates of the Treasurer of the United States for the Sinking-Fund Office, District of Columbia. (See page 211.)

TREASURY OF THE UNITED STATES,
Washington, September 7, 1889.

SIR: I inclose herewith a copy of the estimate of appropriations required for the service of the sinking-fund office for the fiscal year ending June 30, 1891, as they were transmitted to the Commissioners of the District of Columbia.

The item of \$1,000 for the salary of the Treasurer of the United States, *ex-officio* commissioner of the sinking-fund District of Columbia, and treasurer thereof, is in accordance with the provision in the act of March 3, 1875 (18 Stat., 376), as follows: "And the salary of the commissioner of the sinking-fund, acting as treasurer thereof, shall be one thousand dollars per annum."

Since the powers and duties of the sinking-fund of the District have been conferred upon the Treasurer of the United States by the act of June 11, 1878 (20 Stat., 102), the labors of the office have been largely increased by Congressional enactments, and no appropriations have been made for the Treasurer's salary, although attention has been repeatedly invited thereto.

It is not to be supposed that Congress intended that the Treasurer should assume these additional duties and responsibilities without the compensation provided by law therefor, which view is strengthened by the fact that in appointing the Comptroller of the Currency to act as commissioner of the Freedmen's Savings and Trust Company in this city, Congress, by section 5, of the act of February 21, 1888 (21 Stat., 327), authorized him to receive an annual salary of \$1,000 in addition to his salary as commissioner aforesaid.

In support of the increase asked for in the pay of the clerks employed in the sinking-fund office, the Treasurer would state that all of his predecessors have urged the justice and expediency of increased compensation to the clerks that perform the responsible and onerous duties of the sinking-fund office. The Treasurer is necessarily compelled to rely upon the integrity and efficiency of his clerks, and for the faithful performance of their duties he is responsible under his official bond; therefore, as a measure of safety to him, and in justice to his clerks, the increase asked for should be granted, that they should receive compensation commensurate with the duties and personal responsibility they are called upon to assume.

During the last year of the official existence of the late commissioners of the sinking-fund the expenses of their office were over \$5,745, of which amount about \$3,000 were expended for clerical services; since that time the business of the office has increased nearly twofold, while the estimates for the salaries of the clerks are only \$3,500, and the total expenses of the office \$4,800, nearly \$1,000 less than the expenses under the late commissioners of the sinking-fund.

While the Treasurer of the United States, as *ex-officio* commissioner of the sinking-fund of the District of Columbia, in the exercise of the functions of his office, is entirely independent of the executive authorities of the District, the fact that the estimates for the service of the sinking-fund office is incorporated in the District appropriation bill and thereby subject to the manipulations of the District Commissioners, who have no practical knowledge of the requirements of the office, has, by the action of former boards of Commissioners, prevented him from procuring the amount necessary for a just compensation of the clerks in his office.

The clerks of the sinking-fund office being necessarily employed in the Treasury building, and subject, as far as practicable, to the rules and regulations of the Department, are not upon the rolls with the regular force, occupying the anomalous position of being in, but not of, the Treasury Department.

The Treasurer has found it necessary on several occasions to detail clerks from the force of the United States to assist in the work of the sinking-fund office, and, on the other hand, the clerks of the sinking-fund have occasionally been assigned duties pertaining to the regular Department.

In view of these facts, it is recommended that Congress be asked to make the sinking-fund office a regular division of the Treasurer's office, and incorporate the estimates in the appropriation bill for the service of the Department, placing the employes upon the rolls upon the same footing, as far as practicable, as the regular employes. To comply with the requirements of the present law, it would only be necessary at the end of each fiscal year, to charge one-half of the expenses of the office to the District of Columbia, similar to the manner in which the expenses of the National Bank Redemption Agency are reimbursed to the United States from the funds contributed by the national banks.

The foregoing recommendations have been carefully considered, and the Treasurer believes that should they be adopted, it would place the office upon a footing advantageous alike to the pecuniary interests of the United States and the District of Columbia. He therefore earnestly hopes they will receive your approval.

Respectfully yours,

J. N. HUSTON,
Treasurer United States, ex-officio Commissioner Sinking-Fund, D. C.

HON. SECRETARY OF THE TREASURY.

APPENDIX Hh.

In relation to the estimate for "Maintenance of Garfield Hospital." (See page 225.)

THE GARFIELD MEMORIAL HOSPITAL, WASHINGTON, D. C., October 18, 1889.

SIR: In behalf of the management of the Garfield Memorial Hospital I beg to express their earnest wish that you will include in your estimates to be submitted to Congress for the fiscal year ending June 30, 1891, the following item:

"The Garfield Memorial Hospital.—For maintenance, to enable it to provide medical and surgical treatment to persons unable to pay therefor, \$15,000."

This amount was included in the estimates submitted by your predecessor for the current fiscal year, but only \$12,500 was appropriated. The larger sum is greatly needed by the hospital. The whole expense of maintaining the hospital is nearly double the amount asked, the difference being made up by the contributions of generous friends and from a few of the patients who are able to bear a part of the expense of their care and treatment.

During the year four hundred and twenty-seven patients were treated and cared for, this number including thirty remaining in the hospital at the close of the previous year. This number does not include any beneficiaries of the hospital

dispensary; if so, the number would be largely increased; but of such cases no permanent record is made for the purposes of a report.

The entire plant of the hospital, including grounds, buildings, machinery, furniture, and equipment, has been paid for mainly from private donations. Further additions and enlargements are contemplated in order to meet the demand constantly pressed upon the management for increased accommodations. It is admitted, I believe, without question, by all who are acquainted with the hospitals of this city, that the location and present equipment of this hospital is equal if not superior to any other, and evidence of this is found in the constantly increasing number of those seeking admission. Destitute and needy patients have occupied continuously three of its largest wards, receiving therein the best of care, without reference to sex, nationality, color, or religious denomination, the number of such patients aggregating four-fifths of those cared for.

The board of directors, through its executive committee, and the Ladies' Aid, by its visiting committee, keep constant supervision of every detail of the hospital work, and in every expenditure the closest economy is exercised. As stated in a former letter "all expenditures under the appropriation account are properly reported and vouchers therefor submitted to you, and they are finally audited and settled by the accounting officers of the Treasury." These vouchers show the absolute need of the aid requested, and the manner in which the money appropriated has been applied."

The fullest inspection of the hospital by you is cordially and earnestly invited.

I have the honor to be, your obedient servant,

SAM'L F. MILLER,
President.

Hon. REDFIELD PROCTOR, *Secretary of War.*

APPENDIX Ii.

Statement of items, etc., to accompany estimate (on page 225) for Artillery School, Fortress Monroe, Va.

DEPARTMENT OF ARTILLERY.		REPAIR-SHOPS—Continued.	
For the purchase of—		1 set of standard bevel straight-edges.....	\$10 50
Books, periodicals, and works of reference.....	\$200 00	1 Chesterman's spring measure, 12 feet.....	3 15
Testing machines and range finders.....	300 00	1 Goodell's patent iron level, No. 25.....	2 50
Contingencies (repairs, etc.).....	100 00	1 pair of standard trammel points.....	1 00
Total.....	600 00	2 dozen hack-saw blades.....	2 50
CHEMICAL LABORATORY.		1 improved speed-indicator.....	1 50
For the purchase of—		1 assortment of pliers.....	12 50
Books, pamphlets, etc.....	\$20 00	1 ratchet screw-driver, set.....	2 25
Chemical apparatus.....	125 00	10 pounds of assorted Stubb's drill-rods.....	12 00
Chemical and miscellaneous.....	50 00	1 dozen hammer and hatchet handles.....	75
Gas apparatus.....	450 00	2 drill-chucks.....	15 00
Total.....	645 00	2 surface plates.....	45 00
ELECTRICAL SUPPLIES.		2 machine-clamps.....	5 00
For the purchase of—		1 set lathe tools.....	5 00
2 barrels blue stone.....	\$25 00	100 feet belting, assorted.....	25 00
2 miles No. 14 H. D. copper wire.....	74 00	5 rivet sets.....	3 00
150 pounds office wire.....	36 00	4 oil cans.....	2 00
1 barrel sal ammoniac.....	16 00	100 pounds cotton-waste.....	10 00
2 carboys.....	15 00	1 dozen polishing wheels, assorted.....	15 00
Books and periodicals.....	150 00	1 set steel letters and figures.....	5 00
300 zinc spelter.....	35 00	1 surface grinding and polishing machine.....	75 00
Batteries, new.....	50 00	1 alcohol blow-pipe.....	3 00
1 quadruplex set.....	250 00	Total.....	322 60
1 Siemens's galvanometer.....	120 00	Carpenter-shop.	
3 rheostats.....	300 00	1 velocipede scroll-saw, complete.....	\$23 00
1 switch-board, for chronograph.....	130 00	1 hand-turning machine.....	25 00
1 thermo pile.....	40 00	1 foot-power former with fluting attachment.....	35 00
1 calorimeter.....	65 00	1 No. 3 lathe, Barnes's, improved.....	35 00
1 fixed resistance and shunt.....	60 00	1 scroll-patent combination gauge.....	2 00
1 set of three standard cells.....	30 00	1 chisel-grinder.....	1 00
1 eccentric clamp, large.....	3 00	1 set Forester's auger-bits.....	8 00
1 set of English telegraph pulleys.....	5 00	6 dozen circular and hand saw files.....	5 00
2 Stubb's pliers, 7 by 8 inches.....	4 00	2,000 feet white pine.....	120 00
1 Brockton line vise.....	3 00	1,000 feet black-walnut lumber.....	80 00
100 porcelain insulators, No. 4.....	2 00	600 feet ash.....	40 00
1 Wheatstone-bridge.....	125 00	Total.....	374 00
	1,538 00	DEPARTMENT OF ENGINEERING.	
REPAIR-SHOPS.		For the purchase of—	
Machine-shop.		Drawing-paper.....	\$100 00
1 assortment of odd sizes of taps and dies.....	\$25 00	48 sketch-blocks, Whatman's, 3-quire, 10 by 14.....	108 00
1 lightning screw-plate set, No. 0.....	17 00	24 sketch-blocks, cross-section.....	18 00

Miscellaneous.....	4, 073, 172 06

Grand total..... 30, 670, 267 33

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue-cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned Navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "Proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the appendix to the Book of Estimates.—(Revised Statutes, pages 713, 722, sections 3618, 3672; act February 27, 1877, 19 Stat., 249.)
