Document No. 1371.
Secretary—W., E., and A.

LETTER
FROM
THE SECRETARY OF THE TREASURY,

TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year
ending June 30, 1892.*

TREASURY DEPARTMENT,

December 1, 1890.

SIR: In conformity to the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, and act of July 7, 1884, (23 Stat., page 254,) I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1892, as furnished by the several Executive Departments; also, statements of the proceeds of sales of Government property, and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1890.

I have the honor to be,

Very respectfully, your obedient servant,

WILLIAM WINDOM,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

1850

1850

THE SECRETARY OF THE TREASURY

WASHINGTON

A statement of expenditures reported in the account of the

year ending 31st Decr

1850

1850

OFFICE OF THE LIGHT-HOUSE BOARD.										
Salaries, Office of the Light-House Board—										
Chief clerk.....	Mar. 3, 1875	R. S. 18	38 398	235 2	2,400 00					
	July 11, 1890	26	241	1						
Two clerks of class four.....	Mar. 3, 1875	R. S. 18	27 398	167-9 2	3,600 00					
	Aug. 5, 1882	22	229	1						
	July 11, 1890	26	241	1						
Two clerks of class three.....	Same acts.....				3,200 00					
Two clerks of class two.....	do.....				2,800 00					
Four clerks of class one.....	do.....				4,800 00					
Ten clerks, at \$900 each.....	do.....				9,000 00					
One messenger (in lieu of one assistant messenger, at \$720, dropped).....	do.....				840 00					
One assistant messenger (one dropped, as above).....	do.....				720 00					
One laborer.....	do.....				600 00					
One assistant civil engineer.....	do.....				2,400 00					
One draughtsman.....	do.....				1,800 00					
One draughtsman.....	do.....				1,560 00					
One draughtsman.....	do.....				1,440 00					
One draughtsman.....	do.....				1,200 00					
						36,360 00	*16,540 00			
<p>NOTE.—Of this amount, \$19,700 has for a number of years past been "paid from the appropriations for the Light-House Establishment." There are nine of these appropriations, and the work to be done by each has been much increased of late. It is suggested that this \$19,700 be appropriated for in the same manner as is the amount paid to other employes of the Light-House Board, as the present method causes much uncertainty, inconvenience in the settlement of accounts, and trouble in the allotment of funds for expenditure. A messenger is needed to relieve clerks from duties that he might perform, and give them more time at their desks. Another laborer is also needed.</p>										
OFFICE OF LIFE-SAVING SERVICE.										
Salaries, Office of Life-Saving Service—										
General Superintendent of the Life-Saving Service.....	June 18, 1878	20	164	6	4,000 00					
	July 11, 1890	26	241	1						
Assistant General Superintendent of the Life-Saving Service.....	Same acts.....				2,500 00					
One principal clerk.....	Aug. 5, 1882	R. S. 22	27 229	167-9 1	2,000 00					
	July 11, 1890	26	241	1						
One topographer and hydrographer.....	Same acts.....				1,800 00					
One civil engineer (increase of \$200 submitted).....	do.....				2,000 00					
One draughtsman.....	do.....				1,500 00					
Two clerks of class four.....	do.....				3,600 00					
Three clerks of class three.....	do.....				4,800 00					
Two clerks of class two.....	do.....				2,800 00					
Five clerks of class one.....	do.....				6,000 00					
Two clerks, at \$1,000 each.....	do.....				2,000 00					
Four clerks, at \$900 each.....	do.....				3,600 00					
One assistant messenger.....	do.....				720 00					
One laborer.....	do.....				660 00					
						37,980 00	37,780 00			
<p>NOTE.—The duties of the civil engineer attached to this office are multifarious and exacting. He must not only be a competent architect, able to prepare plans and specifications for life-saving stations, but so skilled in hydrography and topography as to be able to adapt the stations to peculiarly difficult local conditions. He must also have expert knowledge of the construction of boats and other life-saving apparatus.</p> <p>It is not possible to command the services of a man having these attainments at the salary heretofore paid. The officer now employed in that capacity, who has been connected with the service for a number of years, has made himself invaluable, and his qualifications for the work are of the highest order. In addition to these, his service at sea, which has been considerable, contributes largely to his usefulness in this bureau.</p>										

*And \$19,700 paid from appropriations for the Light-House Establishment.

the several States and Territories as may be requested by the governors thereof, and also standard weights and measures that have been or may hereafter be supplied to United States custom-houses and other offices of the United States, under act of Congress, when requested by the Secretary of the Treasury.							
Expenses of the attendance of the American member of the International Committee on Weights and Measures at the general conference provided for in the convention signed May 20, 1875, the sum of \$600, or so much thereof as may be necessary.....	Appropriated..	26	242	1	\$600 00	\$1,600 00	\$3,200 00
<p>NOTE.—The foregoing estimates are submitted on the basis of existing appropriations out of deference to the repeated action of Congress in appropriating for certain officers of the Treasury Department at the rates of compensation therein stated. The Secretary feels, however, that injustice has been done to a number of meritorious officers, inasmuch as under the act of March 3, 1875 (18 Stat. 396), they are entitled to larger rates of compensation than have for some years been granted by the annual appropriation bills. The same conditions exist with respect to the laws fixing the rates of compensation to be paid to sub-treasury officers and officers of Territorial governments, to which attention is invited on pages 31 to 34 and 37 to 39.</p> <p>The number of clerks employed in the Treasury Department reported, under the requirement of section 2 of the act of July 11, 1890 (26 Stat. 267), as below a fair standard of efficiency are—</p> <p>In the office of the Second Auditor: Two clerks, at \$1,200 each, and one clerk, at \$660.</p> <p>In the office of the Fourth Auditor: One clerk, at \$900.</p>

Assistant detective.....	do.....				1,400 00		
Engineer (\$150 additional submitted).....	do.....				1,200 00		
Assistant engineer.....	do.....				820 00		
Six watchmen, at \$720 each.....	do.....				4,320 00		
Two additional submitted.....	do.....				1,440 00		
						\$195,080 00	\$181,490 00
<p>NOTE.—An increase of \$200 is recommended in the salary of assistant cashier, and of \$200 in that of the chief book-keeper, required by their labor and responsibility, and by comparison with the remuneration for similar service elsewhere in public and private places. An advance of one clerk from \$1,800 to be assistant chief of division, at \$2,000, is urged to improve the organization and facilitate business. An increase is recommended in the pay of the engineer of \$150, as deserved for the skill and responsibility involved. An addition of eight clerks and two messengers, as stated in the schedule, is required to meet the growing transactions of the office, and especially the additions to the number of pension checks, as payment of over 65 per cent. of the total for the entire nation is made at this office. The transfer to the roll of watchmen of two janitors now serving in the former capacity, and to be included in the appropriation as such, is presented as a necessity. See letter of Assistant Treasurer in Appendix "K."</p>

	July 11, 1890	26	251	1				
Twenty-one assistant messengers, at \$720 each (one additional submitted).....	Same acts.....				15,120 00			
Three watchmen, at \$720 each.....	do.....				2,160 00			
One laborer, at \$660.....	Submitted.....				660 00			
<p>NOTE.—In making the appropriation for the current fiscal year four assistant messengers were cut off. It is absolutely necessary for the service of the office that at least one assistant messenger more than is now allowed should be provided. This estimate is, therefore, made for one more than can be employed under the appropriation for the current year. Estimate is also made for one laborer. The three laborers formerly employed were transferred to the Record and Pension Division in July, 1889. The office occupies about forty work-rooms and one detached building (1725 F street N. W.) besides record and furniture store-rooms. The work-rooms are cleaned and kept in order by the messenger force, in addition to regular and appropriate duties. Messengers can not attend to fires and to outdoor work of the detached building, and to the work in all parts of the office, which demands an able-bodied laborer.—C. McKeever, Acting Adjutant-General.</p>

Two assistant messengers (increase of one submitted)...	June 20, 1874	R. S. 18	27 100	167 1	1,440 00		
	July 11, 1890	26	251	1			
						\$12,880 00	\$6,720 00
<p>NOTE.—The increase of salary asked for the chief clerk of this office is but justice to that officer, placing him on the same footing with the chief clerk of every other bureau of the War Department. I earnestly recommend that this invidious distinction against him be corrected, as the character of his duties demand this recognition.</p> <p>An increase of three clerks is asked to meet the demands upon this office to properly collate, tabulate, and record the valuable information contained in the reports submitted to this office, not only from the authorized inspectors of the regular forces, but also those emanating from officers charged with the inspection of State troops and military colleges.</p> <p>These reports contain many interesting and important statistics, tending to show the advancement or retrogression of the varied subjects relating to the welfare, the efficiency, and the economy of administration observed in the matters under inspection.</p> <p>If these reports are not properly recorded and collated, the information contained therein will perforce be buried in the files without a stone to mark its resting place.</p> <p>The services of additional messengers are required for the prompt dispatch of public business. This necessity is now met with the present force by temporary detail from another bureau, an arrangement that can not be maintained much longer, as the messenger's services are required in his own office.—<i>J. C. Breckinridge, Inspector-General.</i></p>

					720 00		
						16,860 00	14,860 00
<p>NOTE.—In submitting the estimates for this office one year ago, it was said, in substance, that the clerical force of the office was inadequate; that the work required of the office had so much increased that details of clerks from other offices had been made for its relief; that now there were no such details, and that, "in consequence the work of keeping up the necessary office records has fallen embarrassingly in arrear." Two additional clerks were asked for as absolutely necessary, and the appropriation act for the current year granted one only. Since the above-mentioned request was made for additional clerks, there has been a large addition to the work of the office by the transfer to it of the important matter of claims against the War Department, and also all of the business relating to the mitigation or remission of the sentences of military convicts confined in military prisons or State penitentiaries, as well as reference to it for legal opinion of many difficult and complicated cases arising in the Record and Pension Division in the War Department, and consequently, in order to meet the most urgent demands upon the office, I have been compelled entirely to discontinue all record of its work except such as is contained in the letter-press book. Transcribing from this book to the index cards now required to be used is, with the present force, impossible. So pressing have been the demands on the time of the few clerks of the office that, much as it is needed, there has not yet been found the occasion when a single clerk could be spared from the work on which he was engaged in order to complete a much-needed index. The language used in my estimates for one year ago is, therefore, with greater reason applicable to the present estimate.</p> <p>There is no provision of law for a fourth-class clerk in this office, and as the duties of the office require that clerks of the higher grades should have a knowledge of law, and in order to establish a regular line of promotion (which is a great incentive to faithful and efficient service), it is earnestly recommended that a fourth-class clerkship be provided for this office, and that an additional second-class clerkship be allowed in lieu of one of the first-class clerkships now providing for.—<i>G. Norman Lieber, Acting Judge-Advocate-General.</i></p>

SIGNAL OFFICE.							
<i>Salaries, Signal Office—</i>							
Chief clerk.....	Submitted.....				\$2,000 00		
One clerk of class four.....	do.....				1,800 00		
One clerk of class three.....	do.....				1,600 00		
One clerk of class two.....	do.....				1,400 00		
Two clerks of class one.....	do.....				2,400 00		
One messenger.....	do.....				840 00		
One assistant messenger.....	do.....				720 00		
Two laborers, at \$660 each.....	do.....				1,320 00		
						\$12,080 00	
<p>NOTE.—The material and property for all telegraph lines has to be stored and cared for in Washington City, there being no quarters or storage facilities available at any posts known to the Chief Signal Officer; and all such property received and issued must be properly accounted for, under the regulations of the Treasury Department.</p> <p>The clerical force is necessary in connection with the disbursement of the \$25,000 appropriation; with the supervision of construction at one hundred and twenty-seven military posts; with the maintenance and operation of 1,337 miles of military telegraph lines with about forty stations, from all of which are received monthly money accounts, which have to be examined and adjusted, and semi-annual property returns for final adjudication, and the settlement and adjustment of about five hundred property returns from officers of the Army.</p> <p>One chief clerk, at \$2,000, to have general charge of correspondence and current work, and to have special charge of the war records and the regular military returns and reports of the Signal Corps.</p> <p><i>Accounts and Property Division.</i>—One clerk of class four, to be the clerk of the disbursing officer, and to have charge of the ordinary disbursements for the Corps, and the distribution of signal and telegraph materials and supplies issued to about forty stations of the telegraph lines and one hundred and twenty-seven military posts; also correspondence in connection therewith.</p> <p>One clerk of class 1, as shipping clerk and at times as an assistant to the disbursing clerk.</p> <p><i>Examining Division.</i>—One clerk of class 3, to have charge of the final examination of all the property returns pertaining to the Signal Corps and from officers of the Army, and from enlisted men serving on military telegraph lines.</p> <p>One clerk of class 1, to be an assistant to the examining clerk. This involves annually about six hundred money accounts, covering nearly \$35,000, and over five hundred property returns.</p> <p><i>Military Telegraph and Signaling.</i>—One clerk of class 2, to have charge of the details of work in connection with military telegraph lines.</p> <p>One clerk of class 1, to have charge of the details of work connected with the reports and other duties pertaining to military signaling.</p> <p>This arrangement leaves no extra clerical force in the office during leaves and illness, but the duties of the absent clerks can probably be provided for by the temporary detail of other clerks.</p> <p>The two messengers are the minimum number with which the work of the office can be done, as on them devolves not only the duty of carrying papers and mail, but also the cleaning and the keeping in order of the rooms occupied by the Chief Signal Officer and the officers acting as his assistants.</p> <p>The two laborers are necessary for the care and handling of supplies and the shipment of equipments, stores, and supplies to the various military posts and the military telegraph stations.—A. W. Greely, Chief Signal Officer.</p>

<i>Salaries, Office of Naval Intelligence—</i>									
One stenographer	Submitted.....				\$1,600 00	\$4,860 00			
One clerk of class two	do.....				1,400 00				
One clerk of class one	do.....				1,200 00				
One laborer.....	do.....				660 00				
<p>NOTE.—The work of the office of Naval Intelligence is constantly increasing. With the increase in construction and the growing work of arming and equipping the new ships, the importance of this office is felt by every bureau and officer of the Department and in the service at large. With this steady increase of work the office labors under the enormous disadvantage of having no clerical force authorized, although prior to the current fiscal year one stenographer had been allowed by the appropriation bill. The estimate herewith submitted is the least that could do properly the clerical work of the office. At present the office has but one clerk, borrowed from another bureau.</p>									
<i>Salaries, Office of Naval Records of the Rebellion—</i>									
Two clerks of class four.....	July 7, 1884	R. S. 23	27 185	167-9 1	3,600 00	16,680 00	\$16,680 00

Professional books and periodicals	Appropriated..	26	256	1	1,000 00	1,000 00			
BUREAU OF EQUIPMENT.									
<i>Salaries, Bureau of Equipment—</i>									
One chief clerk (increase of \$200 submitted).....	July 11, 1890	R. S. 26	70 255	416 1	2,000 00	11,180 00	7,580 00		
One clerk of class four.....	Submitted.....							1,800 00	
One clerk of class three.....	do.....				1,600 00				
One clerk of class two.....	July 11, 1890	R. S. 26	27 255	167 1	1,400 00				
One clerk of class one	Same acts.....							1,200 00	
Two copyists, at \$900 each.....	do.....				1,800 00				
One assistant messenger.....	do.....				720 00				
One laborer	do.....				660 00				
<p>NOTE.—By General Order 372 the recruiting service, the apprentice system, and the charge of Navy service pensions were transferred to the Bureau of Navigation, and four clerks, one of the fourth class, one of the second class, and two of the first class, followed these duties to the other Bureau. In return, the order transferred to this Bureau the offices of Naval Inspector of Electric Lighting and the Superintendent of Compasses, the Naval Observatory, and the business connected with the construction of the New Naval Observatory, the Nautical Almanac, the care of ships' libraries, the business incident to the supplying of instruments and navigation outfits to ships, etc.; but with this added volume of office work no clerical force was received, to the great embarrassment of the Bureau, as these diversified duties involve considerable clerical labor, which devolved upon its small remaining force, each member of which already had a distinct line of work in connection with the supplying and equipment of vessels. As at present organized the Bureau is allowed by law one chief clerk, one clerk of the second class, one of the first class, and two copyists. This force is wholly inadequate, and two clerks, one of the fourth class and one of the third class, have been submitted for to relieve the Bureau of the serious embarrassment into which it was thrown by the operation of the Departmental order referred to.</p> <p>Should the two additional clerks estimated for be allowed, the organization of the Bureau would stand one chief clerk, one clerk of the fourth class, one of the third, one of the second, one of the first, and two copyist at \$900, which would be none too strong a force for the performance of the Bureau's important duties.—Geo. Dewey, Chief of Bureau.</p>									
OFFICE OF JUDGE-ADVOCATE-GENERAL.

NAUTICAL ALMANAC OFFICE.							
<i>Salaries, Nautical Almanac Office—</i>							
Salaries of assistants in preparing for publication the American Ephemeris and Nautical Almanac, viz:							
Three assistants, at \$1,600 each	Aug. 5, 1882	22	245	1	} \$4,800 00		
	July 11, 1890	26	255	1			
Two assistants, at \$1,400 each	Same acts				2,800 00		
Three assistants, at \$1,200 each	do				3,600 00		
Two assistants, at \$1,000 each	do				2,000 00		
One copyist and type-writer	do				900 00		
One assistant messenger	do				720 00		
One laborer	do				660 00		
Pay of computers on piece-work in preparing for publication the American Ephemeris and Nautical Almanac, and in improving the tables of the planets (increase of \$1,500)	do				9,900 00		
NOTE.—The increase of \$1,500 asked for in the appropriation for piece-work is urgently required to advance the work, an aggregate sum of \$1,487.43 having been returned to the Treasury from the appropriations for salaries during the last three fiscal years, owing to vacancies in the corps of assistants.						\$25,380 00	\$23,880 00
<i>Miscellaneous Expenses, Nautical Almanac Office—</i>							
Rent and fuel for Nautical Almanac Office	July 11, 1890	26	255	1		1,000 00	1,000 00
NAVAL OBSERVATORY.							
<i>Salaries, Naval Observatory—</i>							
One assistant astronomer	Aug. 5, 1882	R. S. 22	27	167	} 2,000 00		
	July 11, 1890	26	245	1			
Two assistant astronomers, at \$1,800 each	Same acts				3,600 00		
One clerk of class four	do				1,800 00		
One instrument-maker	do				1,500 00		
Four watchmen, including one for the new Naval Observatory grounds	do				2,880 00		
One skilled laborer, at \$1,000; one skilled laborer, at \$720	do				1,720 00		
Seven laborers, at \$660 each	do				4,620 00		
Two computers, at \$1,200 each	do				2,400 00		
The following additional estimates are submitted:							
Two computers, at \$1,200 each (see note)	Submitted				2,400 00		
One assistant librarian (see note)	do				1,600 00		
One cataloguer for library (see note)	do				1,000 00		
One copyist (see note)	do				900 00		
One laborer, magnetic observatory (see note)	do				720 00		
One messenger and mail-carrier (see note)	do				900 00		
NOTE.—(1) <i>Two computers.</i> —The services of two additional computers are needed in order that the reductions may keep pace with the observations, and that the work on hand, several years in arrears, may be completed for publication.						28,040 00	20,520 00
(2) <i>One assistant librarian and one cataloguer for library.</i> —The library of the observatory, embracing over 15,000 books and pamphlets, is the most complete and valuable one, as regards astronomy, etc., in this country. For its proper care and administration, it was found necessary to take one of the assistant astronomers from his legitimate astronomical duties and appoint him librarian. The work embraces the examination and cataloguing of all new accessions, the preparation of the same for the bindery, the daily registration of periodicals and books received, the examination of book-catalogue and the ordering of books, the distribution of observatory publications, and the library correspondence. It is earnestly hoped that Congress will recognize the existing urgent need for these two assistants in the library.							
(3) <i>One copyist.</i> —The services of a copyist are needed for the reason that the observatory has but one clerk in charge of its correspondence and accounts, and that the work pertaining to his desk is more than one person unaided can perform.							
(4) <i>One laborer in magnetic observatory.</i> —The services of a laborer are necessary to keep the magnetic buildings in order, to attend to arrangements for securing an even temperature in the magnetograph room, to record temperatures, and to develop photographs and make prints.							
(5) <i>One messenger and mail carrier.</i> —There is none attached to the observatory, and the necessity for one speaks for itself.							
<i>Contingent and Miscellaneous Expenses, Naval Observatory—</i>							
Miscellaneous computations	Aug. 5, 1882	22	245	1	} 1,200 00		
	July 11, 1890	26	255	1

BUREAU OF STEAM-ENGINEERING.							
<i>Salaries, Bureau of Steam-Engineering—</i>							
Chief clerk (increase of \$200 submitted).....	R. S.	27	167-9	} \$2, 000 00		
	R. S.	70	416			
	July 11, 1890	26	255	1			
One clerk of class two.....	Same acts.....				1, 400 00		
One clerk of class one.....do.....				1, 200 00		
One assistant messenger.....do.....				720 00		
Two laborers, at \$660 each.....do.....				1, 320 00		
One chief draughtsman (increase of \$750 submitted).....do.....				3, 000 00		
One draughtsman.....do.....				1, 400 00		
One draughtsman.....do.....				1, 000 00		
						\$12, 040 00	\$11, 090 00
<p>NOTE.—I earnestly recommend an increase in the salary for a chief draughtsman of \$750, making it \$3,000 per annum, for the reason that it has been found that the services of a man with the professional ability to perform the duties of such office in this bureau, with the rapid improvements in marine engineering, could not be obtained for the salary of \$2,250 per annum, heretofore appropriated for this purpose.</p>							
BUREAU OF CONSTRUCTION AND REPAIR.							
<i>Salaries, Bureau of Construction and Repair—</i>							
Chief clerk (increase of \$700 submitted, see note).....	R. S.	27	167-9	} 2, 500 00

One clerk of class two.....do.....				1, 400 00		
One clerk of class one.....do.....				1, 200 00		
One assistant messenger.....do.....				720 00		
One laborer.....do.....				660 00		
						14, 680 00	13, 980 00
<p>NOTE.—Extract from Report of Chief of Bureau: "The chief clerk, under the law, acts as chief of the bureau in case of the death, illness, resignation, or absence of that officer, and must be competent to take charge of the bureau. The duties of this office are arduous, and fully deserve an increase of salary to \$2,500 per annum, which is earnestly recommended."</p>							
BUREAU OF ORDNANCE.							
<i>Salaries, Bureau of Ordnance—</i>							
Chief clerk (increase of \$200 submitted).....	R. S.	70	416	} 2, 000 00

One clerk of class three.....do.....				1, 600 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Bureau of Provisions and Clothing—Continued.</i>							
One clerk of class two.....	Submitted.....				\$1,400 00		
Three clerks of class one.....	do.....				3,600 00		
One clerk.....	do.....				1,000 00		
						\$47,940 00	\$37,840 00
<p>NOTE.—The position of chief clerk of the Bureau of Provisions and Clothing is one of very great importance, and, in my judgment, the compensation is totally inadequate.</p> <p>The bureau has charge of the purchases, under my direction, of all Navy supplies, and is called upon through the Paymaster-General, and in his absence by the chief clerk as acting chief of the bureau, to approve vouchers aggregating 13,000 annually, involving nearly thirteen millions of dollars.</p> <p>It is the accounting division of the United States Navy, and requires for its chief clerk not only a man of executive capacity and business ability, but also a thorough accountant, as under the law he is in charge of the work, under the supervision of the chief of the bureau, and must be able by education and experience to direct and control the countless details to which it is impossible for the Paymaster-General to give his attention.</p> <p>The whole system of purchases, including forms of book-keeping, preparation of vouchers, etc., will require some radical improvements, and, therefore, close and confining work.—B. F. Tracy, Secretary of the Navy.</p>							
BUREAU OF MEDICINE AND SURGERY.							
<i>Salaries, Bureau of Medicine and Surgery—</i>							
Chief clerk (increase of \$200 submitted).....	July 11, 1890	R. S. 70 26	416 256	1	2,000 00

<i>Investigation of Pension Cases, Pension Office—</i>							
For per diem when absent from home on duty for special examiners, or other persons employed in the Bureau of Pensions, detailed for the purpose of making special investigations pertaining to said Bureau, in lieu of expenses for subsistence, not exceeding \$3 per day, and for actual and necessary expenses for transportation and assistance.....	July 11, 1890	26	258,9	1	300,000 00		415,000 00
PATENT OFFICE.							
<i>Salaries, Patent Office—</i>							
Commissioner of Patents.....	July 11, 1890	R. S. 26	80 259	476,7 1	5,000 00		
Assistant Commissioner, who shall perform such duties pertaining to the office of Commissioner as may be assigned to him by the Commissioner.....	July 11, 1890	R. S. 26	80 259	476,7 1			
Increase.....	Submitted.....				600 00		
NOTE.—The increase here submitted is believed to be warranted by the character of the duties devolving upon this officer. The present salary is incommensurate with the importance and responsibility of the position. The duties are both judicial and executive in their nature. The corresponding officers in the Pension Office are paid \$3,600, and in the Land Office \$3,500.							
Chief clerk.....	July 11, 1890	R. S. 26	75 259	440 1	2,250 00		
Increase.....	Submitted.....						
NOTE.—The statute fixes the salary of the chief clerk at \$2,500, but during the past few years Congress has appropriated only \$2,250. It is earnestly recommended that he receive the compensation which the statute provides.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.

<i>Salaries, Patent Office—Continued.</i>							
Law-clerk.....	July 7, 1884	23	187	1	\$2,000 00		
	July 11, 1890	26	259	1			
Increase.....	Submitted.....				200 00		
Law-clerk (additional).....	do.....				2,200 00		
NOTE.—The salary of the law-clerk of this office should be placed on the same footing as that of the law-clerks of the General Land Office, whose duties are believed not to exceed those devolving upon the same officer in the Patent Office. The strife among rival litigants for patents brings before the office the ablest lawyers in the country, and raises intricate and novel questions of law, and the Commissioner and Assistant Commissioner must necessarily have skilled assistants, possessing legal knowledge and training. The work of the office has so greatly increased during the last few years that it has become impossible for one person to properly perform the onerous duties pertaining to the position of law-clerk, and I have therefore estimated for an additional law-clerk, and that the salary be increased to correspond to that paid other law-clerks.							
Three examiners in chief, at \$3,000 each.....	July 11, 1890	R. S. 26	80 259	476,7 1	9,000 00		
Increase, \$500 each.....	Submitted.....				1,500 00		
NOTE.—Under the statute the examiners-in-chief must be persons of competent legal knowledge and scientific ability, which requirements, coupled with the high order of duties devolving upon them, certainly entitle them to the increase submitted herein.							
Examiner of interferences.....	July 11, 1890	R. S. 26	75 259	440 1	2,500 00		
Increase.....	Submitted.....				300 00		
Thirty principal examiners, at \$2,500 each.....	July 11, 1890	R. S. 26	75 259	440 1	75,000 00		
Increase, \$300 each.....	Submitted.....				9,000 00		
Two principal examiners (additional), at \$2,800 each.....	do.....				5,600 00		
NOTE.—The principal examiners pass, primarily, upon all applications for patents, and they must necessarily be skilled in the various arts and sciences as well as learned in the law and practice pertaining to the grant of patents. The act of July 11, 1890, only restores the rate of their present compensation, which was established more than forty years ago.							
Thirty-two first assistant examiners, at \$1,800 each.....	July 11, 1890	R. S. 26	75 259	440 1	57,600 00		
Increase, \$300 each.....	Submitted.....				9,600 00		
Three first assistant examiners (additional), at \$2,100 each.....	do.....				6,300 00		
Thirty-six second assistant examiners, at \$1,600 each.....	July 11, 1890	R. S. 26	75 259	440 1	57,600 00		
Increase, \$200 each.....	Submitted.....				7,200 00		
Four second assistant examiners (additional), at \$1,800 each.....	do.....				7,200 00		
Forty-one third assistant examiners, at \$1,400 each.....	July 11, 1890	R. S. 26	75 259	440 1	57,400 00		
Increase, \$100 each.....	Submitted.....				4,100 00		
Four third assistant examiners (additional), at \$1,500 each.....	do.....				6,000 00		
Fifty fourth assistant examiners, at \$1,200 each.....	Aug. 5, 1882	22	248	1	60,000 00		
	July 11, 1890	26	259	1			
Five fourth assistant examiners (additional), at \$1,200 each.....	Submitted.....				6,000 00		
NOTE.—The present force of examiners is inadequate for the prompt consideration of matters coming before them. The increase in the number of applications for patents necessitates an increase in the examining corps, in order to insure a prompt despatch of business coming before it. The inventors pay into the Treasury more than sufficient to provide the needed force and facilities, and they expect a speedy determination of their applications for patents. Without an increase in the force vexatious delays must ensue.							
One financial clerk.....	Mar. 3, 1875	18	365	1	2,000 00		
	June 19, 1878	20	200	1			
	July 11, 1890	26	259	1			
One librarian.....	July 11, 1890	R. S. 26	75 259	440 1	2,000 00		
Increase, one assistant librarian.....	Submitted.....				1,800 00		
Three chiefs of divisions, at \$2,000 each.....	Mar. 3, 1882	21	408	1	6,000 00		
	July 11, 1890	26	259	1			
Addition to three chiefs of divisions, at \$400 each.....	Submitted.....				1,200 00		
NOTE.—The chiefs of divisions have charge of particular classes of work which require great skill in their proper execution, and the responsibility resting upon them is not exceeded by chiefs of divisions in other branches of the service where \$2,500 and \$3,000 are paid for similar duties.

	July 11, 1890	26	259	1			
	Same acts.....				68,400 00		
<p>NOTE.—The clerical force of this office is no greater now than it was in 1884, and during the same period the examining force has been increased materially. I have, therefore, submitted estimates for an increase in the clerical force, which is imperatively demanded, in order to properly despatch the business coming before the office.</p> <p>Section 167 of the Revised Statutes fixes the salary of copyists at \$900 per annum. In this office two salaries are provided for copyists, viz, \$900 and \$720. The duties of these copyists are the same and the compensation should also be the same. I therefore recommend the consolidation of these two grades, so that all the copyists in this office shall receive the salary fixed by the statute.</p>							
Three messengers, at \$840 each.....		R. S.	27	167-9	2,520 00

BUREAU OF EDUCATION.							
<i>Salaries, Bureau of Education—</i>							
Commissioner of Education.....	July 11, 1890	R. S. 26	85 260	517 1	3,000 00		
Chief clerk, who shall also perform the duties of an assistant commissioner, and shall have charge of the bureau in the Commissioner's absence.....	July 11, 1890	R. S. 26	75 260	440 1	1,800 00		
Increase.....	Submitted.....				600 00		
NOTE 1.—The chief clerk of this bureau should be authorized by law to perform, as he must in fact, the duties that usually fall to an assistant. As the Commissioner must frequently be away, much responsibility devolves upon his representative, and a man of judgment and discretion, possessing a knowledge of the educational affairs of the country, and of good standing in the educational world, is required. His labors will be increased by the Chicago Exposition, and he should receive as much salary as the superintendents of schools in our smaller cities. His present compensation, like that of the Commissioner, is the lowest of his grade in the Government service.							
Statistician, who shall be an expert in educational literature and statistics.....	July 11, 1890	R. S. 26	75 260	440 1	1,800 00		
Increase.....	Submitted.....				600 00		
NOTE 2.—The statistician is charged with the responsible duty of devising forms of inquiry, gathering statistical and other information for annual reports, and occasional publications, arranging and digesting vast arrays of facts and figures, and directing the work of a number of specialist clerks. A high degree of talent is requisite for this work, and the compensation should approach somewhat toward that allowed to specialists in other lines of Government work.							
Collector and compiler of statistics.....	Aug. 5, 1882	22	249	1	2,400 00		
Librarian.....	July 11, 1890	26	260	1	2,000 00		
Submitted.....							
NOTE 3.—This bureau possesses the largest and most valuable educational library in the United States, perhaps in the world. To make it available and useful to teachers and educators and to special students a great deal of intelligent work must be done, for which the services of a professional librarian, with adequate compensation, should be allowed.							
One specialist in foreign educational systems.....	July 11, 1890	26	260	1	1,800 00		
Increase (see note).....	Submitted.....				200 00		
One specialist in educational sociology.....	do.....				2,000 00		
NOTE 4.—One of the great services which the Bureau of Education might render at this time is such an investigation and exposition of educational theories and methods as may secure a closer adaptation of the common schools to the prevention of pauperism and crime, growing evils at this time by reason of the immense increase in the population of cities. This inquiry would be classed under the term "educational sociology." It would be the work of a specialist of much ability and scholarship, for whom \$2,000 would be a very moderate compensation. The same may be said of the specialist in foreign educational systems, for whom an increase of \$200 is accordingly requested.							
Two clerks of class four.....	July 11, 1890	R. S. 26	27 260	167 1	3,600 00		
One additional clerk of class four (see note 5).....	Submitted.....				1,800 00		
Three clerks of class three (in lieu of two clerks of class three, and one translator, see note 6).....	July 11, 1890	R. S. 26	27 260	167 440 1	4,800 00		
One additional clerk of class three (see note 5).....	Submitted.....				1,600 00		
Four clerks of class two.....	July 11, 1890	R. S. 26	27 260	167 1	5,600 00		
Two additional clerks of class two (see note 5).....	Submitted.....				2,800 00		
Six clerks of class one.....	July 11, 1890	R. S. 26	27 260	167 1	7,200 00		
Two clerks, at \$1,000 each.....	Aug. 5, 1882	22	249	1	2,000 00		
Six copyists, at \$900 each (reduction of four, see note 5).....	July 11, 1890	R. S. 26	27 260	167-9 1	5,400 00		
One skilled laborer.....	Same acts.....				840 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Bureau of Education—Continued.</i>							
One assistant messenger.....	July 11, 1890 Same acts.....	R. S.	27	167-9	\$720 00	\$55,200 00	\$47,220 00
Four laborers, at \$660 each (reduction of two, see note 5).....		26	260	1			
<p>NOTE 5.—It has been found by experience that this office needs more clerks of the higher grades. The nature of the work requires men of ability and attainments such as command good salaries as principals and superintendents of schools. Not only does the present scale of salaries prevent the employment of enough of such men, but the marked excess of low-grade clerkships makes it impossible to retain the services of men trained in the bureau, who, as soon as their efficiency is proved, secure transfers to other offices for the sake of higher pay. It is, therefore, urged that one additional clerk of class four, one of class three, and two of class two, together with the librarian and additional specialist mentioned above, be granted in lieu of four copyists and two laborers.</p> <p>NOTE 6.—It is recommended that a clerk of class three be provided in lieu of a translator, for the reason that the specialists and workers of the bureau make most of their studies of foreign material from the originals, and that there are always several clerks in the force to whom the mere translation of documents can be assigned as may be desired.</p>							
<i>Library, Bureau of Education—</i>							
Books for library, current educational periodicals, newspapers and other current publications, and completing valuable sets of books and periodicals.....	July 11, 1890	26	260	1	1,000 00	1,000 00	1,000 00
<i>Collecting Statistics, Bureau of Education—</i>							
Collecting statistics for special reports and circulars of information.....	July 11, 1890	26	260	1	3,000 00	3,000 00	3,000 00
<i>Distributing Documents, Bureau of Education—</i>							
Purchase, distribution, and exchange of educational documents, and for the collection, exchange, and cataloging of educational apparatus and appliances, text-books, and educational reference books, articles of school furniture and models of school buildings, illustrative of foreign and domestic systems and methods of education, and for repairing the same.....	July 11, 1890	26	260	1	2,000 00	2,000 00	2,000 00
<i>Special Printing, Bureau of Education—</i>							
To continue the publication of the series of "Contributions to American Educational History," to be available as the work can be done at the Government Printing Office.....	Submitted.....				25,000 00		
<p>NOTE 7.—Of this series nine numbers have already been issued. These have attracted wide and favorable notice, and have greatly strengthened the bureau in the estimation of the higher institutions of learning and the literary public. There are now on hand awaiting publication the completed manuscripts on the educational history of Indiana, Ohio, Michigan, Nebraska, Massachusetts, Connecticut, and Delaware. The histories of Illinois, Pennsylvania, and New York are approaching completion, and work upon nearly all the other States is well advanced. It seems impossible longer to publish these valuable documents from the general printing fund of the Department of the Interior, and a special appropriation is therefore asked.</p>							
<i>Education of Children in Alaska—</i>							
Industrial and elementary education of children of school age in Alaska, without reference to race.....	Aug. 30, 1890	26	393	1	50,000 00		
Increase.....	Submitted.....				10,000 00	60,000 00	50,000 00
<p>NOTE 8.—The appropriation under this head for the present year will be expended as follows:</p> <p>Salaries of teachers and officers of 15 public day-schools..... \$16,280 00</p> <p>Subsidies to 10 contract boarding or mission schools.. 30,000 00</p> <p>Balance for rent, repairs, fuel, furniture, text-books, and supplies..... 3,720 00</p> <p>Total..... 50,000 00</p> <p>With this sum it will be impossible to erect any buildings or to establish new schools in any of the places where they are greatly needed. It will even be difficult to provide for the natural growth of the schools now in operation. For any extension of education in the Territory the moderate increase asked will be absolutely required next year.</p> <p>The success of the Government's public and contract schools in Alaska would be greatly promoted if a permanent annual appropriation could be made, which should increase from the present amount at the rate of \$10,000 a year till the maximum of \$100,000 be reached. It is urgently recommended that this measure be formulated in a special act.</p> <p>The governor of Alaska submits an estimate for education of children in Alaska in the sum of \$100,000.</p>

		Vol. or R. S.	Page.	Sec.			
<i>Laboratory—</i>							
Division of chemistry :							
Chemical apparatus, chemicals, laboratory fixtures and supplies, purchase of samples, and necessary expenses in conducting special investigations, including necessary traveling expenses, labor, and expert work in such investigations, \$6,000 ; for rent of laboratory building, \$900.....	Appropriated..	26	286	1	\$6,900 00		
To enable the Secretary of Agriculture to extend and continue the investigation of the adulteration of food, drugs, and liquors, including the purchase of samples, transportation, traveling expenses, stationery, return postage, printing and illustrations, analyzing, investigating, and examining samples purchased in the open markets, the sum of \$10,000 ; and for these purposes the Secretary of Agriculture is authorized to employ such assistants, clerks, and other persons as he may deem necessary : <i>Provided</i> , That the Secretary is hereby required to make a separate report to Congress as to where and when the samples of food, liquors, and drugs were purchased, when and where analyzed, and the result of such analysis, together with the name of the manufacturer and the brand or label on the package or article.....	Appropriated..	26	286	1	10,000 00	\$16,900 00	\$16,000 00
<i>Fiber Investigations—</i>							
To enable the Secretary of Agriculture to continue the investigations relating to textile fibers indigenous in or adapted to the United States, including their economic growth, cleansing, and decorticating preparatory to manufacture ; the testing of machines and processes for said cleaning and decorticating ; for the purchase of the material for said tests, and for traveling expenses in connection with said duties.....	Submitted.....					5,000 00	
<i>Report on Forestry—</i>							
Division of forestry :							
To enable the Secretary of Agriculture to experiment and continue an investigation and report upon the subject of forestry, and for experiments in the production of rain-fall, and for traveling and other necessary expenses in the investigation, and the collection and distribution of valuable economic forest-tree seeds and plants	Appropriated..	26	286	1		10,000 00	10,000 00
<i>Illustrations and Engravings—</i>							
Division of illustrations and engravings :							
Tools, instruments, paper, ink, paints, pencils, and other necessary materials.....	Appropriated..	26	286	1		2,000 00	2,000 00
<i>Purchase and Distribution of Seeds—</i>							
Division of Seeds :							
Purchase, propagation, and distribution, as required by law, of seeds, bulbs, trees, shrubs, vines, cuttings, and plants, and expense of labor, transportation, paper, twine, gum, printing, postal cards, and all necessary material and repairs for putting up and distributing the same, and to be distributed in localities adapted to their culture, \$100,000. An equal proportion of two-thirds of all seeds, trees, shrubs, vines, cuttings, and plants, shall, upon their request, be supplied to Senators, Representatives, and Delegates in Congress for distribution among their constituents ; and the person receiving such seeds shall be requested to inform the Department of results of the experiments therewith.....	Appropriated..	26	286	1	100,000 00		
<i>Provided</i> , That all seeds, plants, and cuttings herein allotted to Senators, Representatives, and Delegates to Congress for distribution remaining uncalled for at the end of the fiscal year shall be distributed by the Secretary of Agriculture: <i>And provided also</i> , That the Secretary shall report, as provided in this act, the place, quantity, and price, of seeds purchased, and the date of purchase. But nothing in this paragraph shall be construed to prevent the Secretary of Agriculture from sending flower, garden, and other seeds to those who apply for the same. And the amount herein appropriated shall not be diverted or used for any other purpose but for the purchase, propagation, and distribution of improved and valuable seeds, bulbs, trees, shrubs, vines, cuttings, and

<i>Salaries and Expenses, Bureau of Animal Industry—</i>								
For carrying out the provisions of the act of May 29, 1884, establishing the Bureau of Animal Industry, and of the act of August 30, 1890, providing for an inspection of meats and animals, \$500,000; and the Secretary of Agriculture is hereby authorized to use any part of this sum he may deem necessary or expedient, and in such manner as he may think best, to prevent the spread of pleuro-pneumonia and other diseases of animals, and for this purpose to employ as many persons as he may deem necessary, and to expend any part of this sum in the purchase and destruction of diseased or exposed animals and the quarantine of the same whenever in his judgment it is essential to prevent the spread of pleuro-pneumonia or other diseases of animals from one State into another, and for printing and publishing such reports relating to animal industry as he may direct..... Provided, That \$15,000, or so much thereof as may be necessary, may be expended in continuation of the investigations and experiments, to be conducted within the United States, into the nature, causes, and remedies for the prevention and cure of hog cholera and swine plague. NOTE.—The duty of carrying out the provisions of the act of August 30, 1890, having been assigned to the Bureau of Animal Industry, an increase of \$150,000 is submitted for meeting the expenditures under the above-mentioned act.	May 29, 1884	23	31	1-11	}	\$500,000 00	\$350,000 00	
	Appropriated..	26	287,'8	1				1
<i>Quarantine Stations for Neat-Cattle—</i>								
To establish and maintain quarantine stations, and to provide proper shelter for and care of neat-cattle imported, at such ports as may be deemed necessary	Appropriated..	26	288	1	15,000 00	15,000 00	
<i>Agricultural Experiment Stations—</i>								
To enable the Secretary of Agriculture to carry out the provisions of section three of an act approved March 2, 1887, entitled "An act to establish agricultural experiment stations in connection with the colleges established in the several States, under the provisions of an act approved July 2, 1862, and of the acts supplementary thereto," twenty thousand dollars; and the Secretary of Agriculture is hereby authorized to employ such assistants, clerks, and other persons as he may deem necessary, and to incur such other expenses in traveling, stationery, and office fixtures as he may find essential in carrying out the object of the above acts.. To carry into effect the provisions of an act approved March 2, 1887, entitled "An act to establish agricultural experiment stations in connection with the colleges established in the several States, under the provisions of an act approved July second, eighteen hundred and sixty-two, and of the acts supplementary thereto"..... NOTE.—The Secretary of Agriculture did not include this item in his estimates, but as it is annually provided for in the act making appropriations for the Department of Agriculture, it is inserted in its proper place in these estimates.	Mar. 2, 1887	24	440	1-10	} \$20,000 00			
	June 7, 1888	25	176	1				1
	July 18, 1888	25	334	1				1
	July 14, 1890	26	288	1				1
	Same acts
<i>Experiments in the Manufacture of Sugar—</i>								
To enable the Secretary of Agriculture to continue experiments in the production of sugar from sugar-cane, sugar-beets, and sorghum, and especially for culture experiments looking to the improvement of those sources of sugar, and for experiments in the more complete separation of the sugar from the molasses, and including all necessary expenses in these experiments, namely, traveling expenses, purchase of samples, apparatus, and supplies, chemical services, including five hundred dollars additional temporary compensation to the chief chemist, and other expenses incidental to the experiments, twenty-five thousand dollars, or so much thereof as may be necessary.....	Appropriated..	26	288	1	25,000 00	50,000 00	
NOTE.—These estimates include the sum of \$150,000 for carrying out the provisions of the act of August 30, 1890, providing for the inspection of meats and animals; hence, the above estimates show an actual decrease of \$9,600 from current appropriations.								
Total Miscellaneous.....						1,663,300 00	1,523,400 00

SUBSISTENCE DEPARTMENT.									
<i>Subsistence of the Army—</i>									
Purchase of subsistence supplies: For issue, as rations to troops, civil employes when entitled thereto, contract-surgeons, hospital-matrons, military convicts at posts, prisoners of war (including Indians held by the Army as prisoners, but for whose subsistence appropriation is not otherwise made), estimated for the fiscal year on the basis of ten million one hundred and seventy-one thousand five hundred and six rations; for sales to officers and enlisted men of the Army; for authorized extra issues of candles, and salt and vinegar for public animals; for issues to Indians visiting military posts, and to Indians employed with the Army, without pay, as guides and scouts. For payments: For cooked rations for recruiting parties and recruits; for hot coffee, canned beef, and baked beans for troops traveling, when it is impracticable to cook their rations; for scales, weights, measures, utensils, tools, stationery, blank books and forms, printing, advertising, commercial newspapers, use of telephones, office furniture; for temporary buildings, cellars, and other means of protecting subsistence supplies (when not provided by the Quartermaster's Department); for bake-ovens at posts and in the field, and repairs thereof; for extra pay to enlisted men employed on extra duty in the Subsistence Department for periods of not less than ten days, at rates fixed by law; for compensation of civilians employed in the Subsistence Department, and for other necessary expenses incident to the purchase, care, preservation, issue, sale, and accounting for subsistence supplies for the Army. For the payment of the regulation allowances for commutation in lieu of rations: To enlisted men on furlough, to ordnance-sergeants on duty at ungarrisoned posts, to enlisted men stationed at places where rations in kind can not be economically issued, to enlisted men traveling on detached duty when it is impracticable to carry rations of any kind, to enlisted men selected to contest for places or prizes in department, division, and Army rifle competitions while traveling to and from places of contest; to be expended under the direction of the Secretary of War; in all.....

				June 13, 1890	26	151	1		
Total.....			10, 171, 506						
Estimated at 21 cents each.									
Losses from wastage in issuing, damages in transportation, shrinkage, and deterioration while on hand, necessary abandonment or destruction in the field, and all expenses indicated in the appropriation for the subsistence of the Army for the fiscal year 1891, have been considered in making this estimate at 21 cents per ration.									
Previous estimates at 20 cents per ration were founded upon the ascertained average cost of the ration for a period of several years.									
Section 5 of the act of June 16, 1890, prescribes that "the Army ration now provided by law shall be increased by the addition thereto of one pound of vegetables, the proportion to be fixed by the Secretary of War." The present estimate is made at 21 cents per ration (instead of 20 cents) to cover the cost of the pound of vegetables added to the daily ration of the troops by the above law.									
The number of contract-surgeons, enlisted men of the Hospital Corps, and hospital matrons estimated for, are the number recommended by the Surgeon-General of the Army.									
The number of military convicts and of prisoners of war are reduced in this estimate below the estimate of 1891, for the reason that experience of the past year has shown that these items may probably be safely reduced.									
The increase in the number of half-rations for ordnance soldiers over previous estimate is based on report of the Chief of Ordnance.—(B. DuBarry, Commissary-General of Subsistence.)									
QUARTERMASTER'S DEPARTMENT.									
<i>Regular Supplies—</i>									
Regular supplies of the Quartermaster's Department, consisting of stoves and heating apparatus, and repair and maintenance of the same; for heating offices and barracks and quarters; of ranges, stoves, and appliances for cooking and serving food; of fuel and lights for enlisted men, guards, hospitals, storehouses and offices, and for sales to officers; for the equipments of bake houses to carry on post bakeries; for the necessary furniture, text books, paper, and equipments for the post schools; for the table ware and mess furniture for kitchens and mess halls; and for garden utensils and agricultural implements for post gardens, each and all for use of the enlisted men of the Army; of forage in kind, including its protection, for the horses, mules, and oxen of the Quartermaster's Department at the several posts and stations, and with the armies in the field; for the horses of the several regiments of cavalry; the batteries of artillery, and such companies of infantry and scouts as may be mounted, and for the authorized number of officers' horses, including bedding for the animals; of straw for soldiers' bedding, and of stationery, including blank books for the Quartermaster's Department, certificates for discharged soldiers, blank forms for the Pay and Quartermaster's Departments, and for printing division and department orders and reports: <i>Provided</i> , That no part of this appropriation shall be expended in printing, unless the same shall be done by contract, after due notice and competition, except in cases where the emergency will not admit of giving notice for competition.....

		Vol. or R. S.	Page.	Sec.			
ORDNANCE DEPARTMENT.							
<i>Ordnance Service—</i>							
Current expenses of the ordnance service required to defray the current expenses at the arsenals; of receiving stores and issuing arms and other ordnance supplies; of police and office duties; of rents, tolls, fuel, and lights; of stationery and office furniture; of tools and instruments for use; incidental expenses of the ordnance service and those attending practical trials and tests of ordnance, small arms, and other ordnance supplies, including payment for mechanical labor in the office of the Chief of Ordnance.....	June 13, 1890	26	155	1	\$100,000 00	\$80,000 00	
<i>Ordnance, Ordnance Stores and Supplies—</i>							
Manufacture of metallic ammunition for small-arms and ammunition for reloading cartridges, and tools for the same, including the cost of targets and material for target practice and marksmen's medals and insignia.....	June 13, 1890	26	156	1	\$150,000 00		
<p><small>NOTE.—The quantity of rifle ammunition on hand is very limited, the reserve supply at our arsenals being only 6,611,576 cartridges on July 1, 1890. A supply should be kept on hand for the hostile uses of the Army. Rifle and carbine ammunition costs to manufacture \$18.50 per thousand, and revolver \$10 per thousand. Existing orders from the War Department authorize the expenditure for target practice of cartridges or reloading material to the amount of \$4 per man per annum, and about \$1.93 per man per annum for gallery practice. Soldiers should be made good marksmen, but this can not be done without a liberal supply of ammunition for target practice. The amount asked for is reasonable if the soldier is to be provided with cartridges sufficient for his proper instruction. To enable the Ordnance Department to carry out these orders, the reserve supply has been well-nigh exhausted. Unless the appropriation asked for is granted, the supply for target-practice will have to be reduced, greatly to the detriment of the efficiency of the Army.</small></p>							
Repairing and preserving ordnance and ordnance stores in the hands of troops and for issue at the arsenals and depots.....	Same act.....				10,000 00		
<p><small>NOTE.—This appropriation will be applicable to the repairs, painting, and general preservation of guns, gun-carriages, projectiles, and general ordnance stores at forts and other military posts, and this money is absolutely necessary for the purpose.</small></p>							
Purchase and manufacture of ordnance stores to fill requisitions of troops.....	do.....				125,000 00		
Infantry, cavalry, and artillery equipments, including horse equipments for cavalry and artillery.....	do.....				125,000 00		
<p><small>NOTE.—The amount asked for is required to meet the wants of the service. This appropriation will also be applicable to the procurement of artillery harness for the new breech-loading steel field-guns.</small></p>							
Overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals.....	do.....				5,000 00		
A battery of four steel mountain guns with carriages, ammunition, and packing outfit.....	Submitted.....				16,000 00		
Replacing the ordnance and ordnance stores taken from Army supplies and issued to the militia of the District of Columbia, from July 30, 1888, to June 30, 1889, under the provisions of the joint resolution, approved July 23, 1888, and the act approved March 1, 1889.....	Submitted.....				43,030 47		
					474,030 47	360,000 00	
<i>Morning and Evening Gun—</i>							
Firing the morning and evening gun at military posts, prescribed by General Orders No. 70, Headquarters of the Army, dated July 23, 1867.....	June 13, 1890	26	156	1	30,600 00	20,000 00	
<p><small>NOTE.—It will require about 1,700 barrels of powder, which, at 18 cents per pound, amounts to the sum asked for.</small></p>							
<i>Targets for Artillery Practice—</i>							
Targets for artillery practice and implements for mechanical maneuvers.....	June 13, 1890	26	156	1	10,000 00	5,000 00	
<p><small>NOTE.—At our forts we are obliged to make floating targets and anchor them in the roadsteads for artillery practice firing, which is necessary for the instruction of the troops. The Secretary of War decided (Circular No. 1, A. G. O., 1886) that these targets and the material and labor for their construction shall be furnished by the Ordnance Department.</small></p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ended June 30, 1891.	
		Vol. or R. S.	Page.	Sec.				
Manufacture of Arms—								
Manufacture of arms at the national armories.....	June 13, 1890	26	156	1	\$400,000 00			
<i>Provided</i> , That section 3709 of the Revised Statutes shall not apply to the purchase of supplies not exceeding in value the sum of two hundred dollars.								
NOTE.—Besides supplying the Regular Army, the militia, the various colleges and the other branches constituting the Military Establishment, the War Department has now to supply arms, ammunition, etc., to the Marine Corps and to the several Executive Departments for use in protecting public money and property, under the act of March 3, 1879 (20 Stats., 412). The increased cost of the present breech-loading rifle, the greater demand for its use, and paucity of appropriations of late years, have left the country in a dangerous condition, there being on hand July 1, 1890, subject to issue, but 250,218 breech-loading rifles and carbines. It is of the most vital importance to the nation that the manufacture of arms by this Department be steadily continued in quantities sufficient to render a gradual accumulation of them in store a certainty.								
Two sets of officers' quarters at Springfield Arsenal, Mass..	Submitted.....				20,000 00			
NOTE.—These are to replace the old quarters built in 1836, and which are now unserviceable and not worth repairing.								
Total Support of the Army.....						\$420,000 00	\$400,000 00	
						25,815,644 83	*24,231,626 79	
MILITARY ACADEMY.								
Pay of the Military Academy—								
One superintendent (colonel) in addition to pay as lieutenant-colonel.....	June 20, 1890	R. S. 26	228 163	1334 1	\$500 00			
		R. S. 225	1309					
Eight professors.....	June 16, 1874 June 23, 1879 June 20, 1890	R. S. 18 21 26	228 59 34 164	1336 1 4 1	26,747 23			
One commandant of cadets (lieutenant-colonel) in addition to pay as captain.....		R. S. 228	1334			1,200 00

		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—</i>							
Repairs and improvements, namely: Timber, planks, boards, joists, wall-strips, laths, shingles, slate, tin, sheet-lead, zinc, nails, screws, locks, hinges, glass, paints, turpentine, oils, varnish, brushes, stone, brick, flag, lime, cement, plaster, hair, sewer and drain pipe, blasting-powder, fuse, iron, steel, tools, machinery, mantels, and other similar materials, renewing roofs, and for pay of overseer and master-builder and citizen mechanics, and labor employed upon repairs and improvements that can not be done by enlisted men.....	June 20, 1890	26	164	1	\$17,500 00		
Fuel and apparatus, namely: Coal, wood, charcoal, stoves, grates, heaters, furnaces, ranges and fixtures, fire-bricks, clay, sand, repairs of steam-heating apparatus, grates, stoves, heaters, ranges, and furnaces, mica.....	do				15,000 00		
Gas-pipes, fixtures, lamp-posts, gasometers and retorts, and annual repairs of the same.....	do				900 00		
Fuel for cadets' mess-hall, shops, and laundry.....	do				3,000 00		
Postage and telegrams.....	do				250 00		
Stationery, namely: Blank-books, paper, envelopes, quills, steel-pens, rubbers, erasers, pencils, mucilage, wax, wafers, folders, fasteners, rules, files, ink, ink-stands, type-writing supplies, pen-holders, tape, desk-knives, blotting-pads, and rubber bands.....	June 20, 1890	20	165	1	800 00		
Transportation of materials, discharged cadets, and ferris-ages.....	do				1,750 00		
Printing: For printing and binding, type, materials for office, including repairs to motor, diplomas for graduates, annual registers, blanks, and monthly reports to parents of cadets.....	do				1,000 00		
Clerk to the disbursing officer and quartermaster.....	do				1,500 00		
Clerk to adjutant in charge of cadet-records.....	do				1,500 00		
Clerk to treasurer.....	do				1,500 00		
Two clerks to the quartermaster and adjutant, respectively, at \$1,200 each.....	Submitted.....				2,400 00		
<p>NOTE.—With the present clerical force it is impossible to give the close attention desired to the very important and onerous work connected with the keeping of cadet records, etc., and the accounting for public money annually disbursed for the maintenance of the Military Academy.</p> <p>In each office (the adjutant's and quartermasters) there is a clerk who has served the Government about forty years, and in consequence of age is no longer capable of rendering that full and efficient service so faithfully performed in years past. In the opinion of the Board of Visitors for 1889 (see page 116), these clerks should be retired with ample allowances; but if Congress is adverse to establishing such a precedent, the same can be attained by appropriating for the clerks estimated for herein.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Department of cavalry, artillery, and infantry tactics, namely:							
Tanbark or other proper cover for riding-hall, to be immediately available, and to be purchased in open market upon the written order of the superintendent...	June 20, 1890	26	165	1	600 00		
Repairing camp-stools and camp-furniture.....	do				100 00		
Furniture for offices and reception-rooms for visitors.....	do				100 00		
Stationery for use of instructor and assistant instructors of tactics.....	do				150 00		
Appliances for the equipment of the new gymnasium.....	Submitted.....				3,000 00		
Plumes for cadet officers of the first class.....	June 20, 1890	26	165	1	75 00		
Foils, masks, belts, fencing and boxing gloves, fencing-jackets, gaiters, and repairs.....	do				250 00		
Repairs and improvements of dressing-rooms, walks, and dock at swimming-place.....	do				220 00		
Books and maps, binding books and mounting maps.....	do				75 00		
Silk sashes for cadet privates of the first class acting as officer of the day or officer of the guard, and for cadet first sergeants and color-bearer.....	Submitted.....				220 00		
Rugs, mats, and cuspidors for halls of cadet barracks.....	do				150 00		
<p>NOTE.—The sum asked for the purchase of silk sashes for privates of the first class acting as officer of the day or officer of the guard is needed to replace sashes now in use by cadets which have become much worn in service.</p> <p>The rugs, mats, and cuspidors for which an estimate is submitted are necessary in order to secure cleanliness in hallways of barracks.</p> <p>The estimate for appliances for the equipment of the new gymnasium is respectfully submitted, owing to the present gymnastic apparatus being entirely inadequate for the proper equipment of the new gymnasium now in course of erection here.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

<i>Current and Ordinary Expenses</i> —Continued.							
Department of civil and military engineering :							
Models, maps, purchase and repair of instruments, text-books, books of reference, and stationery for the use of instructors, and contingencies.....	June 20, 1890	26	165	1	\$500 00		
Extra pay of enlisted man employed as draughtsman.....	do.....				256 00		
Department of natural and experimental philosophy :							
Additions to apparatus to illustrate the principles of mechanics, acoustics, optics, and astronomy.....	do.....				1,000 00		
Books of reference, text-books, stationery, materials, and repairs.....	do.....				400 00		
Pay of mechanic assistant.....	do.....				1,000 00		
Repairs to observatory building and clocks.....	do.....				450 00		
Department of instruction in mathematics, namely :							
Repairs, and materials for preservation of models and instruments.....	do.....				25 00		
Text-books, books of reference, binding, and stationery for instructors.....	do.....				125 00		
Contingencies.....	do.....				25 00		
NOTE.—This is \$25 less than the amount appropriated last year for the department of mathematics.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)							
Department of history, geography, and ethics :							
Text-books, books of reference, maps, globes, and stationery for use of instructors, and repairs.....	do.....				150 00		
NOTE.—The amount of this estimate is the same as last year, but the wording of the appropriation is altered somewhat in order to enable the department to obtain the exact supplies needed.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)							
Department of chemistry, mineralogy, and geology :							
Chemicals, chemical apparatus, glass and porcelain ware, wire, paper, sheet-metal, ores, photographic apparatus and material.....	June 20, 1890	26	165,'6	1	500 00		
Rough specimens, fossils, and for apparatus and material to be used in the practical determinations of mineralogical and geological specimens, pencils, and paper for practical instruction in the same branches, and for the gradual increase and improvement of the cabinet.....	do.....				500 00		
Repairs and additions to electric, magnetic, pneumatic, and thermic and optical apparatus.....	do.....				650 00		
Purchase of a gas engine to operate dynamo machine (at least 10 horse-power).....	Submitted.....				1,200 00		
Pay of mechanic employed in chemical and geological section-rooms and in lecture-rooms.....	June 20, 1890	26	166	1	1,000 00		
Models, maps, and diagrams, books of reference, text-books, and stationery for the use of instructors.....	do.....				180 00		
Contingencies.....	do.....				100 00		
NOTE.—With the exception of the sum asked for the purchase of the gas-engine, the amount of this estimate is the same as last year. A few changes are made in the wording of sub-appropriations, but only such as are necessary in order that the department may improve and keep abreast of the best methods of instruction. The gas-engine is believed to be more economical than the present method of furnishing power, and is also more available in cases of emergencies where it becomes unexpectedly necessary to use the electric apparatus of the department.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)							
Department of drawing :							
Books and periodicals on art and technology.....	do.....				100 00		
Models in flat and relief for second and third classes.....	do.....				100 00		
Repairs to desks, models, stretchers, and material.....	do.....				75 00		
Drawing material for the use of instructors, sponges, wash brushes, tacks, alcohol, turpentine, paint, tumblers, saucers, and contingencies.....	do.....				250 00		
Maxwell's discs and apparatus for illustrations in lectures on form and color.....	Submitted.....				100 00		
Photographic material, chemicals, dry plates, and paper.....	do.....				100 00		
Enlarging and copying cameras, rollers, burnishers, printing frames, and accessories.....	do.....				150 00

Six new racks for hanging drawings for examination, at \$8.....	do.....				48 00		
Twenty new stretchers, at \$2.....	do.....				40 00		
One hand level for topographical work in the field.....	do.....				10 00		
One Abney reflector for topographical work in the field.....	do.....				15 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ended June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Department of drawing—Continued.							
Four prismatic compasses for topographical work in the field	Submitted.....				\$40 00		
One aneroid barometer.....	do.....				15 00		
One plain table and attachments for topographical work in the field.....	do.....				100 00		
One pantograph for enlarging and reducing maps.....	do.....				100 00		
Binding periodical	do.....				40 00		
Additional steel rulers and triangles	do.....				50 00		
Four high stools, at \$3.....	do.....				12 00		
One long table.....	do.....				30 00		
Two stands for plaster relief model	do.....				30 00		
<p>NOTE.—I respectfully invite attention to the fact that the great increase in the amount of photographic and reproduction work done by this department of instruction necessitates the purchase of proper apparatus and material. As photographic reproduction processes are inseparable adjuncts to all technical graphics, it is desirable that the means for their development should be liberally provided. As a matter of fact, it may be observed that the greater portion of this work required for general purposes in the Military Academy has been done in this department with inadequate appliances. The apparatus for topographical field-work is for the better instruction in that most practical and important part of the education of an officer.</p> <p>All of the items have been economically estimated, and with a view to keeping abreast of the most recent methods in all branches of technical graphics.—(Prof. C. W. Larned, U. S. M. A.)</p>							
Department of modern languages :							
Stationery, text-books, and books of reference for the use of instructors, for repairs of books, apparatus, and office furniture, and for printing examination papers.....	June 20, 1890	26	166	1	200 00		
<p>NOTE.—The amount of this estimate is the same as last year, but the wording of the appropriation is altered somewhat in order to enable the department to obtain the exact supplies needed.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Department of law :							
Stationery, text-books, and books for use of instructors, and for repairing and rebinding same, and furniture for office.....	do.....				250 00		
<p>NOTE.—The amount of this estimate is the same as that called for last year, but in order to obtain the exact books needed by the department, the wording of the estimate is slightly altered.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Department of practical military engineering :							
Purchase and repair of instruments; transportation; purchase of tools, implements, and materials, and for extra-duty pay of engineer soldiers, as follows, namely: instruments for use in instructing cadets in making reconnaissances; photographic apparatus and material for field photography; drawing instruments and material for plating reconnaissances; surveying instruments; instruments and materials for signaling and field telegraphy; transportation of field parties; tools and material for the preservation, augmentation, and repair of one wooden ponton, and one canvas ponton-bridge train; sapping and mining tools and material; rope, cordage, and material for rafts and for spar and trestle bridges; intrenching tools; tools and material for the repair of Fort Clinton and the batteries at the Academy, and extra duty pay of engineer soldiers employed upon the same; extra-duty pay of two engineer soldiers, at fifty cents per day each, when performing special skilled mechanical labor in the department of practical military engineering; for models, books of reference, and stationery.....	June 20, 1890	26	166	1	1,200 00		
<p>NOTE.—The amount of this estimate is the same as that called for last year, but in order to obtain the exact supplies needed by the department the wording of the estimate is slightly changed.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Department of ordnance and gunnery :							
1. Purchase and repairs of instruments, models, and apparatus, and purchase of necessary materials; for the purchase of samples of arms and accouterments not supplied to the military service; for books of reference, text-books, stationery, and lithographic printing materials.....	June 20, 1890	26	166-7	1	450 00		
2. Extra pay of one ordnance soldier, as draughtsman and lithographic printer, at fifty cents per day.....	do.....				143 50		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ended June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Department of ordnance and gunnery—Continued.							
3. One combined steam-engine and boiler, of about four horse-power, to be used in operating machinery for the instruction of cadets, and as a source of power in constructing apparatus for their instruction.....	Submitted.....				\$275 00		
4. Extra pay of one ordnance soldier, as machinist, at fifty cents per day.....	do.....				143 50		
5. One Hotchkiss 3-pounder rapid-fire gun, with accessories and spare parts and elastic pedestal mount.....	do.....				1,930 00		
6. Ammunition for same, viz: One hundred rounds of common shell, complete.....	do.....				285 00		
7. Packing and transporting the above gun and ammunition, providing a proper platform and reloading tools and appliances.....	do.....				200 00		
NOTE.—1 and 2. These items amount to about \$100 less than the corresponding items in the last two estimates.							
3. The engine and boiler in use, although ingenious expedients, are only makeshifts, and are not powerful enough to operate the machinery. They were constructed largely from scrap metal by a soldier of my detachment, for whom the next item asks for extra pay.							
4. This item is intended to provide a mechanic for general purposes, and to care for the breech-loading field-pieces, magazine, and machine guns, as suggested for the light batteries by the Chief of Ordnance in his last report (page 5, report 1889). This extra pay would be a good investment for the Government. For the want of it I lost last year an excellent enlisted gunsmith. Had it not been for the present incumbent, I would have been at a great disadvantage, as such men are seldom found in the ranks. During over twenty years' service, I have never seen their like.							
5. This item and the following are intended to give the cadets an opportunity of seeing and using at least one example of rapid-fire guns, the invention of which has led to most important modifications in armament.							
I have asked for the smallest gun that can be profitably used, and for the cheapest mount. It is understood that the Ordnance Department has none of these guns for issue.—(Capt. Henry Metcalfe, Ord. Dept., Instructor of Ordnance and Gunnery.)							
Stationery for office of the treasurer, United States Military Academy, namely: Blank-books, paper, envelopes, quills, steel pens, rubbers, erasers, pencils, mucilage, wax, wafers, folders, fasteners, rules, files, ink, inkstands, typewriting supplies, penholders, tape, desk knives, blotting-pads, and rubber bands.....	do.....				50 00		
Letter-copying press and stand.....	do.....				25 00		
NOTE.—No estimate has heretofore been made separately for stationery required in the treasurer's office. The stationery has been obtained partially from the allowance of other offices and partly by purchase from cadet funds.—(Capt. Wm. F. Spurgin, 21st Inf., Treas. U. S. M. A., Q. M. and Com'y of Cadets.)							
Extra pay of two enlisted men, employed as clerks in the offices of the adjutant, United States Military Academy, and commandant of cadets, at fifty cents and thirty-five cents per day, respectively.....	June 20, 1890	26	167	1	265 00		
NOTE.—The increase of pay for the enlisted man employed as clerk in the office of the adjutant, U. S. Military Academy, is recommended on account of the efficiency of the man and the position he fills.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)							
Extra pay of three enlisted men as printers, at headquarters United States Military Academy, at fifty cents each per day.....	do.....				469 50		
Extra pay of one enlisted man, employed as watchman, at thirty-five cents per day.....	do.....				159 60		
Extra pay of one enlisted man as trumpeter, at the cadet-barracks, at thirty-five cents per day.....	do.....				127 75		
Extra pay of one enlisted man, employed in the philosophical department, Observatory, as mechanic, at fifty cents per day.....	do.....				156 50		
Extra pay of one enlisted man, employed in the chemical department, at fifty cents per day.....	do.....				156 50		
Extra pay of two enlisted men (cavalrymen), when performing special skilled mechanical labor, at fifty cents each per day.....	do.....				313 00		
Provided, That the extra pay provided for by the seven preceding paragraphs shall not be paid to any enlisted man who receives extra-duty pay under existing laws or Army regulations.							
Expenses of the Board of Visitors, including mileage.....	do.....				3,000 00		
						\$71,360 85	\$61,431 15

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Miscellaneous Items and Incidental Expenses—</i>							
Gas-coal, oil, candles, lanterns, matches, chimneys, and wicking for lighting the Academy, chapel, library, cadet-barracks, mess-hall, shops, hospital, offices, stables and riding-hall, sidewalks, camp, and wharves.....	June 20, 1890	26	167	1	\$3,500 00		
Water-pipe, plumbing, and repairs.....	do.....				2,000 00		
Cleaning public buildings (not quarters).....	do.....				600 00		
Brooms, brushes, pails, tubs, soap, and cloths.....	do.....				200 00		
Chalk, crayons, sponges, slate, rubbers, and card for recitation-rooms.....	do.....				300 00		
Compensation of chapel organist.....	do.....				200 00		
Compensation of librarian.....	do.....				120 00		
Pay of engineer of heating and ventilating apparatus for the academic building, the cadet-barracks, and office building, cadet hospital, chapel, and philosophical building, including the library.....	do.....				1,500 00		
Pay of assistant engineer of same.....	do.....				1,000 00		
Pay of five firemen.....	do.....				3,600 00		
<p>NOTE.—The increase (\$900) in the estimate for the pay of five firemen arises from the fact that the heating capacity of the steam-heating plant has been nearly doubled since 1871, at which time the present rate of pay was established for five firemen and one man for wheeling coal from coal-shed to boilers. No increase in firemen has been made since the new wing of cadet barracks, the new cadet hospital, and the cadet mess-hall have been heated by steam, and the extra man for wheeling coal has not been employed for several years. In view of the great increase in the amount of labor imposed upon these firemen in recent years, with a decrease of help and no extra compensation this estimate is respectfully submitted, with the hope that it will receive favorable consideration.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Pay of librarian's assistant.....	do.....				1,000 00		
Pay of one landscape gardener for such period as his services may be necessary.....	do.....				500 00		
<p>NOTE.—This is \$1,000 less than the amount appropriated for current fiscal year for the payment of this gardner.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Employment of an architect to devise plans for the renovation of the library building.....	Submitted.....				2,500 00		
<p>NOTE.—This is one of the finest buildings on the post, and the most important. A portion of it is occupied by the Philosophical Department, and will be vacated when the new academic building is finished. When it is repaired only such repairs should be made as will present the very best architectural effect, secure the most light, and the best ventilation. There being no architect in the Government service at the Military Academy, special appropriation becomes necessary in order that one may be secured.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Increase and expense of library, namely:							
Periodicals, stationery, binding new books, and scientific, historical, biographical, and general literature; to be purchased in open market on the written order of the Superintendent.....	June 20, 1890	26	167	1	2,000 00		
Additional tables, chairs, furniture and contingent repairs of library rooms.....	do.....				100 00		
<p>NOTE.—This is a reduction of \$100 in current year's appropriation. The wording of the estimate is altered somewhat in order to obtain the supplies and services needed.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Furniture for cadet-hospital, and repairs of the same.....	do.....				100 00		
Contingencies for Superintendent of the Academy.....	do.....				1,000 00		
Renewing furniture in section-rooms, and repairing the same.....	do.....				500 00		
Repairs, upholstering, and carpeting the Academy chapel.....	do.....				150 00		
<p>NOTE.—This amount is necessary to complete the repairs, etc., of the chapel, and it is \$350 less than the sum appropriated for the purpose for the current fiscal year.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Additions and improvements to organ in cadet-chapel.....	Submitted.....				900 00		
<p>NOTE.—With this amount it is intended to purchase an automatic water motor for blowing the organ, and to remedy certain defects now existing in the instrument with a view of rendering its general effect exceedingly full and majestic.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

NAVAL ESTABLISHMENT.

NAVAL ESTABLISHMENT

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Ocean and Lake Surveys—</i>							
Ocean and lake surveys, the publication and care of the results thereof; the purchase of nautical books, charts, and sailing directions, and freight and express charges on same; preparing and engraving on copper plates the surveys of the Mexican coasts, and the publication of a series of charts of the coasts of Central and South America.....	June 30, 1890..	26	190	1	\$14,000 00	\$10,000 00
<i>Outfits for Naval Apprentices—</i>							
Bounties for outfits of seven hundred and fifty Naval apprentices, at \$45 each.....	Mar. 1, 1889 June 30, 1890	25 26	781 190	1 1	}	33,750 00	30,000 00
<i>Transportation and Recruiting—</i>							
Expenses of recruiting for the naval service; rent of rendezvous and expenses of maintaining the same; advertising for men and boys, and all other expenses attending the recruiting for the naval service, and for the transportation of enlisted men and boys at home and abroad.....	June 30, 1890	26	190	1	30,000 00	30,000 00
<i>Contingent, Bureau of Navigation—</i>							
Heating apparatus for receiving and training ships, and extra expenses thereof; for freight, telegraphing on public business, postage on letters sent abroad, stationery, ferriage, ice, apprehension of deserters and stragglers, continuous service certificates, good-conduct badges and medals for boys, school-books for training ships, packing-boxes and materials, and other contingent expenses and emergencies arising under cognizance of the Bureau of Navigation unforeseen and impossible to classify.....	June 30, 1890	26	190	1	15,000 00	15,000 00
<i>Naval Training Station, Coaster's Harbor Island, R. I.—</i>							
Dredging channels, repairs to main causeway, roads, and grounds, extending sea-wall, and the employment of such labor as may be necessary for the proper care and preservation of the same; for repairs and improvements on buildings; heating, lighting, and furniture for same; books and stationery, freight, and other contingent expenses; purchase of food and maintenance of live-stock and vehicles; repairs and attendance on same.....	June 30, 1890	26	190	1	\$20,000 00		
NOTE.—The increase in this estimate is for coal for heating and lighting buildings occupied by the apprentices, heretofore furnished by other Bureaus.							
Extension of electric plant to accommodate the needs of station.....	Submitted.....				3,000 00	23,000 00	14,000 00
<i>Naval War College and Torpedo School—</i>							
Maintenance of the Naval War College and Torpedo School on Coaster's Harbor Island.....	June 30, 1890	26	190	1	10,000 00	10,000 00
BUREAU OF ORDNANCE.							
<i>Ordnance and Ordnance Stores—</i>							
Procuring, producing, preserving, and handling ordnance material; for the armament of ships; for fuel, tools, and material, and labor to be used in the general work of the Ordnance Department; for furniture at magazines, at the ordnance dock, New York, and at the naval ordnance proving-ground.....	June 30, 1890	26	190	1	130,000 00		
Expenses of target practice.....	Submitted.....				30,000 00		
Proof of naval armaments.....	June 30, 1890	26	191	1	10,000 00		
New magazine for naval purposes at Sitka, or Juneau, Alaska.....	Submitted.....				20,000 00		
NOTE.—The present magazine, which is entirely unsuitable for the purpose, is very near the custom-house, in which the collector now resides, and renders that building dangerous.							
Removal of magazine at Craney Island to a more suitable and safe locality.....	Submitted.....				75,000 00	265,000 00	144,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Reserve Supply of Projectiles—</i>							
Reserve supply of common cast-iron projectiles for each vessel in commission (main battery).....	Submitted.....					\$60,000 00	
NOTE.—The above estimate is intended to provide a supply of projectiles to meet a sudden emergency.							
<i>Civil Establishment, Bureau of Ordnance—</i>							
Navy-yard, Portsmouth, N. H.:

One writer.....	do.....				1,017 25		
Torpedo-station, Newport, R. I.:							
One chemist.....	do.....				2,500 00		
One clerk.....	do.....				1,500 00		
One draughtsman.....	do.....				1,500 00		
Total.....					\$5,500		
NOTE.—The above estimate adds one clerk at \$1,200 to the office force at the Washington navy-yard, and increases the pay of the principal clerk and the principal draughtsman \$200 each. These are very laborious and responsible positions, and are filled by most efficient and excellent men, who should have the rate of pay estimated for. An additional writer is also asked for at the New York navy-yard, and an increase of \$300 in the pay of the clerk at the torpedo station. These increases are recommended by the stations named, and are approved by the Bureau. An increase of \$500 in the pay of one of the foremen at the Washington navy-yard is also asked for and recommended.							
<i>Repairs, Bureau of Ordnance—</i>							
Necessary repairs to ordnance buildings, magazines, gun-parks, boats, lighters, wharves, machinery, and other objects of the like character.....	June 30, 1890	26	191	1		40,000 00	15,000 00
NOTE.—An increase of \$25,000 over the usual estimate is asked for to provide for the repair and preservation of tools and machinery of the Washington Navy Yard.							
<i>Contingent, Bureau of Ordnance—</i>							
Miscellaneous items, viz: Freight to foreign and home stations; advertising; cartage and express charges; repairs to fire-engines; gas and water pipes; gas and water tax at magazines; toll, ferriage, foreign postage, and telegrams to and from the Bureau.....	June 30, 1890	26	191	1		10,000 00	8,000 00
<i>Torpedo-station, Bureau of Ordnance—</i>							
Labor, material, freight and express charges; general care of and repairs to grounds, buildings, and wharves; boats; instruction; instruments; tools; furniture; experiments, and general torpedo outfits.....	June 30, 1890	26	191	1		75,000 00	60,000 00

One armorer.....	do.....				649 50		
One chief-gunner's mate.....	do.....				529 50		
One quarter-gunner.....	do.....				433 50		
One coxswain.....	do.....				469 50		
One seaman in the department of seamanship.....	do.....				349 50		
One attendant in department of astronomy, and one in the department of physics and chemistry, at \$300 each.....	do.....				600 00		
Six attendants at recitation-rooms, library, store, chapel, and offices, at \$300 each.....	do.....				1, 800 00		
One band-master.....	do.....				528 00		
Twenty-one first-class musicians, at \$348 each.....	do.....				7, 308 00		
Seven second-class musicians, at \$300 each.....	do.....				2, 100 00		
Pay of organist at chapel of Naval Academy.....	do.....				300 00		
a. Increase of pay of clerk to superintendent from \$1,000 to \$1,200.....	Submitted.....				200 00		
b. Increase of pay of clerk to the paymaster.....	do.....				100 00		
c. Increase in pay of seaman in department of seamanship.....	do.....				48 00		
d. Bookbinder for library and departments of study.....	do.....				600 00		
						\$53, 271 00	\$52, 323 00

a. This increase is asked for to equalize the pay of clerks who are performing the same kind of duty. The present incumbent of the office is efficient and fully earns the increased salary asked for.

b. This increase is asked for to make the salary of the pay-clerk paid from the Naval Academy appropriation equal to the lowest rate of pay to pay-clerks at other stations. (See pay-table, *Navy Register*.)

c. This increase is asked for to make the pay of the seamen at the Naval Academy equal to that of seamen in general service, as now allowed by law. The latter has been increased since the original estimates and appropriations for the former.

d. There is a considerable amount of book-binding, which must be done upon short notice, to books which should not be sent from the Academy, such as text-books record books in constant use, etc. These, with repairs to library books, binding pamphlets, etc., will keep one man constantly employed, and it will be economical to have the work so done.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. INCREASE OF THE NAVY.									
UNDER THE BUREAU OF ORDNANCE.									
<i>Armor and Armament—</i>									
Towards the armament and armor of domestic manufacture, for the vessels authorized by the act of August 3, 1886; of the vessels authorized by section 3 of the act approved March 3, 1887; of the vessels authorized by the act approved September 7, 1888; of the vessels authorized by the act approved March 2, 1889, and of those authorized by the act of June 30, 1890.....	June 30, 1890	26	201	1	}			\$4,158,850 00	*\$3,500,000 00
	Sept. 29, 1890	26	683	1, 2					
NOTE.—The above estimate includes the material for and manufacture of twenty-five 5-inch guns and carriages for merchant vessels.									
UNDER THE BUREAU OF EQUIPMENT.									
<i>Equipment of New Ships of the Navy—</i>									
Supplying anchors, chain cables, galleys, and fixtures, standing and running rigging, sails, awnings, and other canvass work, and other articles comprising the equipment outfit of ships, according to their type, namely: Protected cruisers Nos. 7, 8, 9, 10, 11, and 12; the "Monterey;" gun-boats Nos. 5 and 6; the harbor defense vessel, known as the "Ammen Ram;" iron-clads "Puritan," "Terror," "Amphitrite," and "Monadnock;" the steel practice cruiser provided for by the act of September 7, 1888, and the torpedo cruiser and torpedo boat authorized by the act of June 30, 1890.....	Submitted.....							400,000 00	
UNDER THE BUREAU OF YARDS AND DOCKS.									
<i>Traveling Cranes—</i>									
Four cranes, 40 tons capacity.....	Submitted.....							200,000 00	
NOTE.—The new battle-ships, "Maine" and "Texas," will have to be armor-plated in the dry-docks, in the interest of economy and safety, it being better to move heavy plates than to hoist them. This will necessitate two traveling cranes for each dock at New York and Norfolk, four in all, of a capacity of about forty tons each, the estimated cost of which is \$200,000. As it is expected that plates will be delivered by the summer of 1891, this money should be appropriated at once, under head "Increase of the Navy," so that there may be no delay. It is very probable that it will be advantageous to the Government to use its docks to armor the vessels built by contract.—(N. H. Farquhar, Chief of Bureau.)									
UNDER THE BUREAU OF STEAM-ENGINEERING.									
<i>Steam Machinery—</i>									
On account of the steam machinery of new ships heretofore authorized by Congress. The same being the estimated proportionate amount of the entire cost of these vessels required to pay for the contracts and work upon the steam machinery of said vessels to June 30, 1892...	Submitted.....							4,856,946 00	(†)
UNDER BUREAU OF CONSTRUCTION AND REPAIR.									
<i>Construction—</i>									
On account of the hulls and outfits of vessels heretofore authorized by Congress.....	June 30, 1890	26	206	1				8,855,433 00	†5,475,000 00
Total Increase of the Navy.....								18,471,229 00	8,975,000 00
Total Naval Establishment.....								32,508,204 98	22,265,255 53

*Including \$1,000,000 for nickel ore, etc.

†The naval act of June 30, 1890 (26 Stat., p. 206), appropriated for "Construction and steam machinery" \$5,475,000 in one sum.

LIGHT-HOUSES, BEACONS AND FOG-SIGNALS.							
<i>Clark's Ledge Light-Station, Maine—</i> Establishing a light and fog-signal station on or near Clark's Ledge, entrance to St. Croix River, Maine..... NOTE.—A light and fog-signal are needed here to guide vessels to the entrance to the river clear of the whirlpools off Deer Point and of the eddy above Dog Island, both of which are very powerful. Also needed to keep vessels off ledges above and below Dog Island, submerged at high water.	Submitted.....				\$30,000 00		
<i>Little River Fog-Signal, Maine—</i> Establishing a steam fog-signal in place of the bell now at the Little River Light-Station, Cutler Harbor, Maine..... NOTE.—Cutler Harbor is a station of the Eastport, St. John's, and Bay of Fundy pilots. It is rapidly growing as a summer resort. Vessels entering the Bay of Fundy first make Libby Island, and then try to make Little River light. Steamers of the International Line wish to make this harbor a stopping place. They carry much freight and many passengers. It is the only near harbor of refuge, and is used as such by vessels when they can get in; but this is impossible in a fog without a fog-signal. On July 21, 1889, the Spanish steamer Eduardo, bound for St. John's, struck on Old Man Ledge, 2 miles south of Cutler Harbor, during a dense fog. The crew of forty persons was saved, but the ship, valued at \$285,000, was a total loss.	Submitted.....				10,500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Libby Island Fog-Signal, Maine—</i> Establishing a steam fog-whistle in place of the Daboll trumpet at Libby Island, Maine.....	Submitted.....				\$5,758 00		
NOTE.—The greater range and wider distribution, at least near by, of the sound from the steam-whistle, would give such increased aid to navigation as to justify the greater cost of establishing and maintaining a steam-whistle. Libby Island is at the entrance to Machias Bay in a region abounding in fog of great density and duration. The fog-signal now there is not of sufficient power.							
<i>Green Island Light-Station, Maine—</i> Establishing a light-station on Green Island, near the entrance to Burnt Coat Harbor.....	Submitted.....				12,000 00		
NOTE.—Burnt Coat Harbor is an excellent and capacious harbor of refuge. The range-lights which guided to the harbor were unsatisfactory, and a vessel was wrecked in 1883, while trying to make the harbor by their aid. One of them was accordingly discontinued, and it is proposed to erect in its stead a light-house on Green Island, about 1 mile to the southward of the entrance.							
<i>Cuckold's Island Fog-Signal, Maine—</i> Establishing a fog-signal at or near the Cuckold's Island, Boothbay or Townsend Harbor, Maine.....	Aug. 30, 1890	26	417	1	25,000 00		
NOTE.—These rocks are much dreaded by mariners in thick weather. It is estimated that a large number of vessels, say from three thousand to four thousand, enter the bay, as it is one of the most useful and important harbors of refuge on the coast of Maine. A fog-signal will make it accessible in thick weather. This was authorized but not appropriated for by the act of August 30, 1890.							
<i>State Ledge Light-Station, Massachusetts—</i> Establishing a light-house and fog-signal at or near State Ledge, Boston Harbor.....	Submitted.....				42,000 00		
NOTE.—Required to mark an important turning-point in the main ship-channel, Boston Harbor. Large steamers are obliged to anchor in thick weather because they have no guide between Nix's Mate and the wharves.							
<i>Butler's Flats Light-Station, Massachusetts—</i> Establishing a light and fog-signal on or near Butler's Flats, entrance to the lower harbor of New Bedford, to take the place of Clark's Point and Fairhaven Bridge lights.....	Submitted.....				45,000 00		
NOTE.—The entrance to the lower harbor of New Bedford, at Butler's Flats, where vessels alter course, is narrow, and in fog and at night is obscure, difficult, and hard to find. If a light and fog-signal were placed on Butler's Flats vessels inward-bound could run straight for it into the narrow entrance, and outward-bound could run directly for it through the lower reach of channel. Vessels making the port in rough weather would be guided to good anchorage. The lights at Clark's Point and Fairhaven Bridge would no longer be needed, and could be discontinued.							
<i>Egg Island Light-Station, Massachusetts—</i> Establishing a light and fog-signal at or near Egg Island, entrance to New Bedford Harbor.....	Submitted.....				45,000 00		
NOTE.—It is difficult for vessels drawing over 9 feet of water to find the proper turning-point for entering this harbor during a fog. The station proposed will give them the proper guide. New Bedford now ranks as third in importance among the manufacturing cities of Massachusetts, and 500,000 tons of shipping came into this port last year.							
<i>Warwick Fog-Signal, Rhode Island—</i> Establishing a steam fog-signal at Warwick Light-Station, Rhode Island.....	Submitted.....				5,000 00		
NOTE.—A steam fog-signal is much needed at this point.							
<i>Black Ledge Light-Station, Connecticut—</i> Establishing a light and fog-signal at or near Black Ledge, New London Harbor, Long Island Sound, Connecticut.....	Submitted.....				45,000 00		
NOTE.—The numerous outlying shoals and ledges surrounding the entrance to this harbor make the approach to it dangerous in thick weather. The present light-station is so far inside the obstruction that it is partially ineffective. The commerce of the harbor has greatly increased, and a naval station has been established in this harbor since the establishment of the old light.							
<i>Lights in the Thames River, Connecticut—</i> Establishing lights between New London and Norwich, in the Thames River, Connecticut.....	Submitted.....				3,000 00		
NOTE.—The necessity for these lights is shown by the fact that they have been maintained for several years past by private parties.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<p><i>Sheffield Harbor Light-Station, Connecticut—</i> Establishment of a light-station in Sheffield Harbor, Connecticut.....</p> <p>NOTE.—A large and increasing commerce is now centering here. Last year nearly 100,000 tons of coal and more than that quantity of general merchandise were landed, and in view of new railway connections it is said that the tonnage will be double. A light is needed at this point to make more certain the safety of life and property.</p>	Submitted.....				\$10,000 00		
<p><i>Juniper Island Light-Station, Vermont—</i> Establishing a light-house and buoy depot at Juniper Island Light-Station, Lake Champlain, Vermont.....</p> <p>NOTE.—There is no depot on this lake, although there are on it thirteen light-stations. The establishment of one will lessen the expense of the service on the lake, and make it more certain and efficient. It is proposed to place the depot on an island already under the control of the Light-House Establishment, and near to Burlington, the most considerable place on the lake. It is estimated that its cost will be \$2,500, and it is recommended that this amount be appropriated therefor.</p>	Submitted.....				2,500 00		
<p><i>Otter Creek Light-Station, Vermont—</i> Establishing a light at or near the mouth of Otter Creek, Lake Champlain.....</p> <p>NOTE.—This is required for the benefit of the commerce between Vergennes, on Otter Creek, and the various ports on Lake Champlain. As a shallow bar makes out into the lake here the light will also be of general benefit. This was authorized by the act of March 2, 1889, but no appropriation was made to do the work.</p>	Mar. 2, 1889	25	1012	1	1,000 00		
<p><i>Old Orchard Shoal Light-Station, New York—</i> Establishing a light-house and fog-signal at or near Old Orchard Shoal, Princess Bay, New York, and for building a new tower at Waackaack Light-Station, New Jersey.....</p> <p>NOTE.—The tonnage passing through Princess Bay has materially increased since the erection of the railroad bridge across Staten Island Sound. When the sound is closed by ice it is stated that 15,000 tons of shipping per day pass through this bay. All this shipping would be benefited by this light and fog-signal. This was authorized by the act of March 2, 1889, but no appropriation was made to do the work.</p>	Mar. 2, 1889	25	864	1	60,000 00		
<p><i>Statue of Liberty Light-Station, New York—</i> Completing the pedestal of the Statue of Liberty Enlightening the World, Bedloe's Island, New York Harbor.....</p> <p>NOTE.—Congress having placed this statue under the care of the Light-House Board, it is found that the above sum is required to complete the structure.</p>	Mar. 3, 1887 Submitted.....	24	516	1	50,000 00		
<p><i>Rockland Lake Light-Station, New York—</i> Establishment of a light-house and fog-signal at or near Oyster Bed Shoal, Hudson River, opposite Rockland Lake Dock.....</p> <p>NOTE.—Steamers lay their course close by Rockland Lake Landing, making near there an important turning-point. By placing a light and fog-signal on the shoal off the landing much greater security will be given, especially as many of the new steamers are propellers of such draught as to make the shoal dangerous. This was authorized by the act of March 2, 1889, but no appropriation was made to do the work.</p>	Mar. 2, 1889	25	889	1	35,000 00		
<p><i>Watch Point Light-Station, New York—</i> Re-establishing a light on Watch Point, Lake Champlain, Vermont.....</p> <p>NOTE.—The dolphin stake in the lake at that point was, in 1886, carried away by the ice. In 1887 an appropriation was made for its re-establishment on land, where it could not be affected by the ice. After several futile efforts to purchase a site the attempt was abandoned because of the exorbitant price, and the appropriation, on June 30, 1890, was covered into the Treasury. The owner of the needed site now offers to sell it for \$100, which makes it possible to establish the light. The re-appropriation of the \$500 is therefore suggested.</p>	Submitted.....				500 00		
<p><i>Staten Island Light-House Depot, New York—</i> Continuing the construction of the sea-wall at the general light-house depot at Tompkinsville, Staten Island, for the rebuilding of the wharf, and for the needed dredging.....</p> <p>NOTE.—This sea-wall is necessary for the protection of the wharves and vessels of the Light-House Establishment. The wharf should be rebuilt and the basin should be dredged out.</p>	Aug. 30, 1890 Submitted.....	26	374	1	59,400 00	\$25,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<p><i>Bay State Shoal and Oak Point Shoal Light-Stations, New York—</i> Establishing temporary floating lights on Bay State Shoal and Oak Point Shoal, Lake Ontario, New York.....</p> <p>NOTE.—These shoals are well marked with buoys, which serve for crossing by daylight. The need for vessels to cross at night is increasing each year. Two small flats with lantern-lights will make the crossing safe at night.</p>	Submitted.....				\$800 00		
<p><i>Carlton's Island Light-Station, New York—</i> Establishing a light-station at or near Carlton's Island, Lake Ontario, New York</p> <p>NOTE.—The channel for large vessels near Carlton's Island, which crosses from the American to the Canadian side, is both dark and obscure. A small light would make it available at night to heavy tonnage.</p>	Submitted.....				8,600 00		
<p><i>Tibbett's Point Light-Station, New York—</i> Establishing a steam fog-signal at Tibbett's Point Light-Station, Lake Ontario, New York.....</p> <p>NOTE.—This light is at the entrance to the St. Lawrence River. Fogs largely prevail there. It is especially important that its location be made known in thick weather. This can only be done by a steam fog-signal.</p>	Submitted.....				4,300 00		
<p><i>Galloo Island Fog-Signal, New York—</i> Establishing a steam fog-signal at Galloo Island Light-Station, Lake Ontario, New York.....</p> <p>NOTE.—Vessels need to locate this light as soon as possible. Fog and thick weather often prevail, especially in the fall. At such times the position of the station can only be made known by a fog-signal.</p>	Submitted.....				5,700 00		
<p><i>Oswego Fog-Signal, New York—</i> Establishing a steam fog-signal at Oswego Light-Station, Lake Ontario, New York</p> <p>NOTE.—There is a bell at this station. Captains report failure to hear it when within half a mile. This uncertainty of a bell as a fog-signal is generally admitted. The substitution of a steam fog-signal for the bell is called for by commercial interests.</p>	Submitted.....				4,300 00		
<p><i>Braddock's Point Light-Station, New York—</i> Establishing a third-order light-station in the vicinity of Braddock's Point, Lake Ontario.....</p> <p>NOTE.—There is no light of importance on the south, or American, shore of Lake Ontario between Genesee and Oak Orchard Light-Stations. Navigators urgently demand that another light be placed at a prominent point between the two lights, of such power that it can be used as a point of departure. The proposed light will meet this need. An act was passed at the last session authorizing the establishment of this light, but no appropriation was made for the purpose.</p>	Sept. 29, 1890	26	501	1	20,000 00		
<p><i>Genesee Fog-Signal, New York—</i> Establishing a steam fog-signal at Genesee Light-Station, mouth of the Genesee River, Lake Ontario, New York....</p> <p>NOTE.—There is a fog-bell here, but captains complain that they can not hear it for more than half a mile. It should, in the interests of commerce, be replaced by a steam fog-signal. This was authorized by act of September 29, 1890, but no appropriation was made for doing the work.</p>	Sept. 29, 1890	26	501	2	4,300 00		
<p><i>Wilson Harbor Light-Station, New York—</i> Establishing a light-station at or near Wilson Harbor, Lake Ontario, New York.....</p> <p>NOTE.—In thick and foggy weather and after nightfall it is difficult for vessels to make this harbor. A light will make it much safer than it is now.</p>	Submitted.....				2,500 00		
<p><i>Buffalo Breakwater Fog-Signal, Lake Erie, New York—</i> Establishing a fog-signal at Buffalo Breakwater, north end Lake Erie, New York.....</p> <p>NOTE.—The bell used as a fog-signal at this light-station is ineffective, and should, in the interests of commerce, be replaced by a steam fog-signal.</p>	Submitted.....				4,300 00		
<p><i>Big Oyster Beds Light-Station, New Jersey—</i> Establishing a light and fog-signal at or near Big Oyster Beds Shoal, mouth of Maurice River, Delaware Bay....</p> <p>NOTE.—It would be greatly to the interest of the small fishing-craft navigating this river to establish a light at or near the southern edge of the shoal above mentioned.</p>	Submitted.....				25,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<p><i>Elder Point Light-Station, New Jersey—</i> Establishing a post-light on Elder Point to mark the entrance to Maurice River, Delaware Bay.....</p> <p>NOTE.—It is proposed to establish a post-light with an eight-day lantern upon it. Upon the establishment of this and the last-mentioned aid, the Maurice-River light-station could be discontinued.</p>	Submitted.....				\$100 00		
<p><i>Ship John Shoal Light-Station, New Jersey—</i> Raising the tower and increasing the power of the light at Ship John Shoal Light-Station, Delaware Bay, New Jersey</p> <p>NOTE.—The interest of the commerce of the bay requires that the power of this light be increased from a fourth to a third order, and consequently that the height of the tower from which it is shown be increased some 20 feet.</p>	Submitted.....				9, 600 00		
<p><i>St. Jones River Lights, Delaware—</i> Establishing lights in St. Jones River, Delaware Bay, Delaware.....</p> <p>NOTE.—The Government has dredged a channel about a mile long and 100 feet wide for entering St. Jones River from Delaware Bay. Inexpensive lights are needed to make it useful at night.</p>	Submitted.....				200 00		
<p><i>Presqu'ile Pierhead Fog-Signal, Pennsylvania—</i> Establishing a steam fog-signal at Presqu'ile Pierhead Light-Station, entrance to Presqu'ile Bay, Erie Harbor, Lake Erie, Pennsylvania</p> <p>NOTE.—The bell used here is ineffective, and should be replaced by a steam fog-signal.</p>	Submitted.....				4, 300 00		
<p><i>Ashtabula Harbor Light and Fog-Signal Station, Ohio—</i> Establishing range-lights and a steam fog-signal at Ashtabula Harbor, Lake Erie, Ohio.....</p> <p>NOTE.—Many vessels of heavy tonnage visit this harbor up to the close of navigation, when snow-storms are likely to occur. A steam fog-signal is then necessary to their safety. A range-light is needed to enter at night. There is now one light. The establishment of another small light would constitute a range. This was authorized by act of March 2, 1889, but no appropriation was made for doing the work.</p>	Mar. 2, 1889	25	1016	1	4, 700 00		
<p><i>Fairport Light and Fog-Signal Station, Ohio—</i> Establishing a fog-signal and range-light at Fairport Harbor, Lake Erie, Ohio.....</p> <p>NOTE.—The bell used as a fog-signal at this station is inefficient, and should be replaced by a steam fog-signal. A range-light is needed to enter at night. An additional light should be established to constitute a range.</p>	Submitted.....				4, 700 00		
<p><i>Black River Light and Fog-Signal Station, Ohio—</i> Establishing a range-light and a steam fog-signal at Black River Light-Station, entrance to Black River or Lorain Harbor, Lake Erie, Ohio.....</p> <p>NOTE.—The bell used at this light-station is inefficient, and should be replaced by a steam fog-signal. Range-lights are needed. There is one light here already. The establishment of a small light will make a range.</p>	Submitted.....				4, 700 00		
<p><i>South Bass Light-Station, Ohio—</i> Establishing a light-station on or near South Bass Island, Lake Erie, Ohio.....</p> <p>NOTE.—This light would aid vessels to clear the shoals in the south passage, which is much used by vessels bound to and from Sandusky and Marblehead, or to Toledo from the east, or during heavy blows from the northeast. The dangerous shoals in it are buoyed, and so are practicable for daylight passages. The light is needed to make these passages practicable by night.</p>	Submitted.....				8, 600 00		
<p><i>Hog Island Light-Station, Virginia—</i> Establishing a first-order light to take the place of the fourth-order one now at Hog Island, south side of Great Machipongo Inlet, sea-coast of Virginia.....</p> <p>NOTE.—The light now on Hog Island does not illuminate the entire interval between Assateague and Cape Charles. It is considered important to commerce that this dangerous coast should be fully lighted, and it is therefore proposed to place a first-order light on a tower 150 feet high.</p>	Submitted.....				125, 000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<p><i>Hog Island Light-Station, Virginia—</i> Authorizing the purchase of additional land at Hog Island Light-Station, sea-coast of Virginia.....</p> <p>NOTE.—An appropriation of \$5,000 was made in the act (sundry civil), approved March 2, 1889, for establishing, complete, a wharf and a roadway from it to this light-station. No authority was given under the act to purchase the land required for the site and for the right of way of the road. Such legislation as is deemed necessary is recommended.</p>	Submitted.....						
<p><i>Doller's Point Range-Lights, Virginia—</i> Establishing range-lights between Doller's Point and Hog Island Wharf, James River, Virginia.....</p> <p>NOTE.—Lights are needed on James River, between Doller's Point and Hog Island Wharf, to guide vessels through the narrow and shallow channel known as Goose Hill Slough, between Hog Island and Jamestown Island, and to guide through another difficult channel from Deep-Water Shoals light to Hog Island, where a sharp turn is made to enter Goose Hill Slough. The need is shown by the fact that lights have been maintained for several years at these points by private enterprise.</p>	Submitted.....				\$2,500 00		
<p><i>Page's Rock Light-Station, Virginia—</i> For establishing a light at or near Page's Rock, in York River, Virginia.....</p> <p>NOTE.—This rock is quite dangerous, even to vessels of small draught. The increase of commerce upon the river, and still greater prospective increase, makes a light at this point quite necessary. The continuation of railroads now centering at West Point, head of York River, includes over 1,300 miles of road, necessitating additional and daily lines of steamers to New York and Baltimore.</p>	Submitted.....				25,000 00		
<p><i>Cedar Point Light-Station, Maryland—</i> Establishing a light and fog-signal on or near Cedar Point, mouth of Patuxent River, Chesapeake Bay.....</p> <p>NOTE.—The harbor at the mouth of the Patuxent River is the best on the western side of the bay. The light is needed to guide into this harbor, and also for the general navigation of the bay.</p>	Submitted.....				25,000 00		
<p><i>Swan Point Bar Light-Station, Maryland—</i> Establishing a light and fog-signal station on or near Swan Point Bar, opposite Bodkin Point.....</p> <p>NOTE.—This is an important turning-point for vessels navigating Chesapeake Bay. It is proposed to place a light-house in 12 feet of water on the extreme point of the bar. It must be strong enough to withstand ice.</p>	Submitted.....				50,000 00		
<p><i>Hawkins' Point Light-Station, Maryland—</i> For obtaining and satisfying the decree of the United States court condemning the easement between Hawkins' Point Light and Leading Point Light, Patapsco River, Maryland.....</p> <p>NOTE.—These two lights are used as a range to guide vessels into Baltimore Harbor. The owner of the strip of fast land between them proposed to erect buildings, which would obstruct the range, unless the United States paid an exorbitant price for this land, or the easement or right to an unobstructed range of light across this land; whereupon proceedings for the condemnation of this easement were instituted by the Attorney-General through the United States attorney in the United States court, which have resulted in the condemnation of this easement on condition that \$3,500, a small portion of the sum demanded, be paid into court for the benefit of the owner. The legal expenses of obtaining this decree are about \$1,000.</p>	Submitted.....				4,500 00		
<p><i>Baltimore Light-Station, Maryland—</i> Establishing a light and fog-signal station at or near the junction of New Cut-Off Channel and Craighill Channel, Baltimore Harbor, Maryland.....</p> <p>NOTE.—The Government has spent large sums in dredging out these two channels. This light is needed to make them available at night for large vessels. Owing to the push of moving ice at this point, a very strong and consequently expensive foundation for the light is needed.</p>	Submitted.....				60,000 00		
<p><i>Lazaretto Point Light-House Depot, Maryland—</i> Construction of a dwelling for the accommodation of the keeper of the Lazaretto Point Light-House Depot.....</p> <p>NOTE.—The quarters now occupied by the keeper are in the warehouse; they are unsuitable and uncomfortable. It would cost nearly as much to make the present quarters habitable as it would to build a new dwelling, even if the room thus occupied was not required for other purposes. The depot-keeper must be constantly on the spot, and therefore can not live away from the premises.</p>	Submitted.....				2,500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<p><i>Cape Hatteras Light-Station, North Carolina—</i> New dwelling and oil-house at Cape Hatteras Light-Station</p> <p>NOTE.—The Cape Hatteras beacon has been recently re-established, and as an additional keeper is required for it, additional quarters are necessary. A detached oil-house is required for storing the oil that at present endangers the station.</p>	Submitted.....				\$5,000 00		
<p><i>North River Bar Beacons, North Carolina—</i> Establishment of lighted beacons to guide through the dredged channel at North River Bar.....</p> <p>NOTE.—The Engineer Corps of the Army is about to complete a dredged channel through North River Bar. This should then be lighted.</p>	Submitted.....				2,000 00		
<p><i>Alligator River Light-Station, North Carolina—</i> Establishing a light and fog-signal station at or near Great Shoal, at the mouth of the Alligator River, Albemarle Sound, North Carolina.....</p> <p>NOTE.—Alligator River furnishes the only harbor for the 30 miles of coast between Croatan and Laurel Point Light-Houses in Albemarle Sound. This light is needed to make that harbor available at night.</p>	Submitted.....				20,000 00		
<p><i>Pork Point Light-Station, North Carolina—</i> Establishing a light and fog-signal station off Pork Point, Roanoke Island, Croatan Sound.....</p> <p>NOTE.—A large inland commerce navigates these waters and many serious accidents have occurred at this place for want of a light. It is also a turning-point for vessels navigating the Sound.</p>	Submitted.....				20,000 00		
<p><i>McWilliam's Point Shoal Light-Station, North Carolina—</i> Establishing a light on or near McWilliam's Point Shoal, Pamlico River, to guide into the port of Washington, North Carolina.....</p> <p>NOTE.—This is a dangerous shoal. The slightest deviation from the correct course will put steamers ashore on this sand-bank. By the establishment of this light, the entrance to this port will be made much less difficult.</p>	Submitted.....				100 00		
<p><i>Wreck Point Light-Station, North Carolina—</i> Establishing a light-station at or near Wreck Point, southeast of Cape Lookout, on the sea-coast of North Carolina</p> <p>NOTE.—This light would be of great assistance to the many vessels which seek a lee under Cape Lookout.</p>	Submitted.....				5,000 00		
<p><i>Diamond Shoal Light-Station, North Carolina—</i> Completing the construction of a light-house and fog-signal on Outer Diamond Shoal, off Cape Hatteras, North Carolina.....</p> <p>NOTE.—Contract has been entered into for the construction of this light-station, and \$300,000 are needed to enable the board to fulfill the contract.</p>	Mar. 1, 1889 Mar. 2, 1889	25 25	770 942	1 1	300,000 00		
<p><i>Beaufort Harbor Range Lights, North Carolina—</i> Establishing range lights at the entrance to Beaufort Harbor, North Carolina.....</p> <p>NOTE.—This is the only harbor of importance between Chesapeake Bay and Wilmington, a distance of some 200 miles. The channel across the bar is narrow but straight; and if properly marked by range lights, would lead into the safest and easiest harbor to enter at night between Hampton Roads and Savannah.</p>	Submitted.....				10,000 00		
<p><i>Portsmouth Light-House Depot, Virginia—</i> Purchase of additional land for the site of the light-house depot at Portsmouth, Virginia, including about ninety-six feet of water-front</p> <p>NOTE.—The business of the district which draws supplies from this depot has been so greatly extended that the present storage capacity and wharves are insufficient.</p>	Submitted.....				10,000 00		
<p><i>Tender for the Fifth Light-House District—</i> Building a new steam-tender for use in the Fifth Light-House District.....</p> <p>NOTE.—A new steel light-draft twin-screw sea-going steamer to take the place of a wooden side-wheel deep-draught vessel, one that can handle a whistling-buoy or a light-ship off Cape Hatteras, is needed.</p>	Submitted.....				95,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<p><i>Cape Fear Light-Station, North Carolina—</i> Establishment of a first-order light-station at or near the pitch of Cape Fear, North Carolina.....</p> <p>NOTE.—The present Cape Fear (Bald Head) light, because of its inland location and lack of height, is inadequate as a proper aid to navigation. The interests of commerce require that a first-order light be established, on or near the pitch of Cape Fear, at the earliest date practicable.</p>	Submitted.....				\$150,000 00		
<p><i>St. Catharine's Sound Light-Station, Georgia—</i> Establishment of a light-station near the entrance to St. Catharine's Sound, Georgia.....</p> <p>NOTE.—An unlighted gap exists here between Tybee and Sapelo lights. A large number of vessels sight land for the first time in this locality. This was authorized by the act of March 2, 1889, but no appropriation was made to do the work.</p>	Mar. 2, 1889	25	1017	1	20,000 00		
<p><i>Doboy Sound Range-Lights, Georgia—</i> Establishing additional range-lights to guide vessels from the present Sapelo Island Range to a safe anchorage.....</p> <p>NOTE.—The two present ranges guide vessels to the intersection of the Wolf Island and Sapelo Ranges, and leaves them there without guidance in a dangerous position if they anchor, and with the Knuckles and the Chimney Spit Shoal on either side if they proceed.</p>	Submitted.....				1,500 00		
<p><i>St. Simon's Range-Beacon, Georgia—</i> Establishing a small light to make a range at St. Simon's Light-Station.....</p> <p>NOTE.—A small light with the present St. Simon's light as a rear beacon, leads through fairly good water into St. Simon's Sound, and would make it a harbor of refuge for vessels drawing not more than 12 feet of water.</p>	Submitted.....				1,000 00		
<p><i>Inside Passage Post-Lights, Georgia and Florida—</i> Establishing post-lights in the Inside Passage from Savannah, Georgia, to Fernandina, Florida.....</p> <p>NOTE.—This passage, which runs nearly parallel with the ocean, is largely used in daylight by river steamers and small craft not strong enough to go to sea. The establishment of some 25 post-lights would make it almost equally navigable by night.</p>	Submitted.....				4,000 00		
<p><i>Mount Cornelia Light-Station, Florida—</i> Establishment of a first-order light-station on or near Mount Cornelia, north side of the mouth of the St. John's River, Florida.....</p> <p>NOTE.—The light now maintained at the mouth of the St. John's River is of the third order. For years there have been complaints of its inefficiency as a sea-coast light. A first-order light on Mount Cornelia would answer the requirements of commerce.</p>	Submitted.....				175,000 00		
<p><i>Hillsboro' Inlet Light-Station, Florida—</i> Establishing a light-station at or near Hillsboro' Inlet, sea-coast of Florida.....</p> <p>NOTE.—A light on this important point is necessary to complete the system for this dangerous coast.</p>	Submitted.....				90,000 00		
<p><i>St. Joseph's Point Light-Station, Florida—</i> Establishing a light-station at or near St. Joseph's Point, in St. Joseph's Bay, west coast of Florida.....</p> <p>NOTE.—This light is needed to guide into St. Joseph's Bay, the only harbor of refuge for some 60 miles. It would be of great advantage to the numerous fishing-vessels on this coast.</p>	Submitted.....				25,000 00		
<p><i>Mobile Ship-Channel Lights, Alabama—</i> Establishing additional lights in the Mobile ship-channel, Alabama.....</p> <p>NOTE.—This channel was cut by the Government at great expense. The lights already established are found to be insufficient for the growing commerce. Five additional light-stations are required to make the channel fairly navigable at night.</p>	Submitted.....				60,000 00		
<p><i>Dog River Bar Light-Station, Alabama—</i> Establishing a permanent light-station to mark the Dog River Bar channel, Mobile Bay.....</p> <p>NOTE.—The present system of lights is inadequate for running vessels up to Mobile during the night.</p>	Submitted.....				20,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<p><i>Simmons Reef, or White Shoal Light-Station, Michigan—</i> Establishing a light and fog-signal on Simmons Reef or White Shoal, Lake Michigan, Michigan, in addition to the appropriation of \$60,000 already made.....</p> <p>NOTE.—It is found, since the appropriation of \$60,000 was made, that the exposed site makes it needful that a steam fog-signal shall be placed here, with quarters for keepers and other necessary adjuncts, upon a permanent foundation. This will cost \$90,000 more. Further examination must be made before it can be determined whether the station should be placed on Simmons Reef or White Shoal. This should be left to the Board's future determination.</p>	Mar. 2, 1889 Submitted.....	25	942	1	\$90,000 00	
<p><i>South Fox Island Fog-Signal, Michigan—</i> Establishing a steam fog-signal at South Fox Island Light-Station, Lake Michigan, Michigan.....</p> <p>NOTE.—The passage between South Fox and North Manitow Islands is much used by vessels. A steam fog-signal here would make the passage available in thick weather.</p>	Submitted.....					5,500 00	
<p><i>Point Betsey Light and Fog-Signal Station, Michigan—</i> Establishing a steam fog-signal at or near Point Betsey Light-Station, Lake Michigan, Michigan.....</p> <p>NOTE.—So many casualties have occurred off this point that a life-saving station has been established. A steam fog-signal is regarded as a necessary adjunct to the station.</p>	Submitted.....					5,500 00	
<p><i>Pere Marquette Fog-Signal, Michigan—</i> Establishing a steam fog-signal at or near Pere Marquette Light-Station, Ludington, Lake Michigan, Michigan....</p> <p>NOTE.—The extension of the pier on which the light stands is progressing rapidly and will soon be finished. A steam fog-signal has long been needed, and its establishment is now practicable.</p>	Submitted.....					5,500 00	
<p><i>St. Joseph's Pierhead Fog-Signal, Michigan—</i> Establishing a steam fog-signal on or near the north pier of St. Joseph's Harbor, Lake Michigan, Michigan.....</p> <p>NOTE.—The fog-bell at the light-tower is ineffective, and should be replaced by a steam fog-signal.</p>	Submitted.....					5,000 00	
<p><i>Ahnapee Range-Lights, Michigan—</i> Establishing range-lights at or near Ahnapee, Lake Michigan, Michigan.....</p> <p>NOTE.—Lights have for some time been maintained here by the city authorities. They should be maintained and controlled by the Government.</p>	Submitted.....					2,500 00	
<p><i>Sturgeon Bay Canal Light-Station, Michigan—</i> Establishing a light-station at or near the entrance to the Sturgeon Bay Ship-Canal, Lake Michigan, Michigan.....</p> <p>NOTE.—A large and increasing commerce passes the canal, both up and down the lake, and in and out of the canal. A coast-light is requisite for its safety.</p>	Submitted.....					20,000 00	
<p><i>Squaw Island Light-Station, Michigan—</i> Establishing a light and fog-signal on Squaw Island, northern end of Lake Michigan, to mark the passage to the westward of Beaver Island.....</p> <p>NOTE.—The passage to the westward of Beaver Island is being generally used by steam-barges from Chicago and Milwaukee and other ports on the lakes during fall and spring when the northwest winds prevail. It would be used at all times but for the shoals and dangers on the north shore of Lake Michigan. The light-house at Seul Choix Point will soon be built, and with another at Squaw Island, the passage could be made at all times with greater safety. This was authorized by the act of March 2, 1889, but no appropriation was made to do the work.</p>	Mar. 2, 1889	25	1016	1	25,000 00	
<p><i>Porte des Morts Range-Lights and Fog-Signal Station, Michigan—</i> Establishing range-lights and a steam fog-signal on or near Plum Island in the Porte des Morts (Death's Door) passage, entrance to Green Bay, Lake Michigan, Michigan....</p> <p>NOTE.—These aids to navigation would be invaluable to vessels going through this passage at night or in thick weather.</p>	Submitted.....					21,000 00	
<p><i>Pointe Seul Choix Light and Fog-Signal, Michigan—</i> Increasing the appropriation for establishing a light and fog-signal station at or near Pointe Seul Choix, Lake Michigan, Michigan.....</p> <p>NOTE.—An appropriation of \$15,000 was made by act of August 4, 1886. It has been found insufficient; \$3,500 more is needed to establish the light, and \$5,500 more is also needed to place a steam fog-signal here.</p>	May 1, 1886 Aug. 4, 1886 Submitted.....	24 24	19 225	1 1	9,000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ended June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Gladstone Light-Station, Michigan—</i> Establishment of a light-station to guide into Gladstone Harbor, Little Bay de Noquette.....	Submitted.....					\$10,000 00	
<p>NOTE.—It is stated that the Minneapolis, Sault Ste. Marie and Atlantic Railroad will make this an important shipping port. Last year over 300 vessels entered the harbor, and it is expected that next year the number will exceed 1,000.</p>							
<i>Eleven-Foot Shoal Fog-Signal, Michigan—</i> Establishing a steam fog-signal at Eleven-Foot Shoal Light-Station, off Point Peninsula, Lake Michigan, Michigan, and for maintaining a light-vessel with a fog-signal off this shoal until the permanent works are completed.....	Mar. 2, 1889 Aug. 30, 1890 Submitted.....	25 26	1016 375	1 1	}	42,500 00	\$60,000 00
<p>NOTE.—An appropriation of \$60,000 was made by the act of August 30, 1890, for establishing a light-station here. It is now found that a fog-signal is also needed at this point. This, it is estimated, will cost \$40,000. These aids to navigation are needed immediately. It will take some two years for their erection. It is therefore proposed to maintain a light-vessel with a fog-signal here until the completion of the permanent structures, at an estimated cost of \$2,500.</p>							
<i>Escanaba Fog-Signal, Michigan—</i> Establishing a fog-bell at Escanaba Light-Station, on or near Sand Point, Lake Michigan.....	Submitted.....					1,100 00	
<p>NOTE.—A fog-bell, struck by machinery, at this station would be a valuable aid to navigation.</p>							
<i>Menasha Range-Lights, Michigan—</i> Establishing range-lights on Menasha River, a tributary to Lake Michigan, Michigan.....	Submitted.....					500 00	
<p>NOTE.—The re-establishment of the light which was discontinued and the establishment of another small light will guide vessels through the earth-cut and the rock-cut, which are quite intricate.</p>							
<i>Depot for the Ninth Light-House District—</i> Establishing a supply and buoy depot for the Ninth Light-House District.....	Submitted.....					50,000 00	
<p>NOTE.—A depot is absolutely necessary for the storage of supplies and buoys in this new light-house district. The sum mentioned will be expended for a site; for the erection of wharves, sheds, and other necessary buildings, and for the removal to it of the requisite buoys and materials.</p>							
<i>Lake St. Clair Range-Lights, Michigan—</i> Establishing range-lights between Windmill Point, Lake St. Clair, and Belle Isle, Detroit River, Michigan.....	Submitted.....					3,000 00	
<p>NOTE.—Private lights now mark this crossing. They should be maintained and controlled by the Government.</p>							
<i>Port Huron Range-Lights, Michigan—</i> Establishing range-lights at or near Port Huron, Lake Huron, Michigan.....	Submitted.....					500 00	
<p>NOTE.—A range of two lights is now maintained by private enterprise to guide through the entrance into St. Clair River. This should be maintained by the Government.</p>							
<i>Forty-Mile Point Light and Fog-Signal Station, Michigan—</i> Establishing a light and steam fog-signal in the vicinity of Hammond's Bay, about half-way between Cheboygan and Presqu'ile Lights, Lake Huron, Michigan.....	Submitted.....					25,000 00	
<p>NOTE.—There is no light on the 50 miles of coast between Cheboygan and Presqu'ile lights. The commerce of the vicinity is of great magnitude and value, and due regard for its safety makes it requisite that a light and steam fog-signal should be placed somewhere about midway between the two named.</p>							
<i>Cheboygan River Front Range Light-Station, Michigan—</i> Authorizing the purchase of additional land for the Cheboygan River Front Range Light-Station, Straits of Mackinac, Michigan.....	Submitted.....					1,750 00	
<p>NOTE.—The light-house lot is narrow, and its entire front is occupied by the light-house buildings. The cellar is often inundated, and there is no drainage, or means of any, except over private land to the river. It is proposed to purchase an adjoining lot at the side of the light-house lot, which runs down to the river.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ended June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Old Mackinac Point Light-Station, Michigan—</i> Establishing a light-station at Old Mackinac Point, Straits of Mackinac	Oct. 1, 1888 Mar. 2, 1889	25 25	499 1016	1 1	}	\$20,000 00	
<p><i>NOTE.</i>—The light on McGulpin's Point can only be seen by vessels approaching in one direction. It is proposed to remedy this by placing the light 2 miles to the eastward. The establishment of this light-station was authorized by the act of March 2, 1889, at a cost not exceeding \$25,000, but no appropriation was made therein to do the work. Another act of the same date, the sundry civil, appropriated \$5,500 for establishing a fog-signal there, and it is now needful to appropriate \$20,000 to establish a light there.</p>							
<i>Lighting St. Mary's River, Michigan—</i> Establishing some thirty-seven lights on St. Mary's River, from Pipe Island to the Saulte, Michigan.....	Submitted.....					30,000 00	
<p><i>NOTE.</i>—By the establishment of these lights this river can be navigated almost as well by night as by day.</p>							
<i>Round Island Light and Fog-Signal Station, Michigan—</i> Authorizing the establishment of a light and steam fog-signal at Round Island, Lake Huron, Michigan.....	Submitted.....					15,000 00	
<p><i>NOTE.</i>—This light and fog-signal are needed to enable vessels to hold a safe and close course through the narrow strait between Mackinac and Round Islands. As Round Island is owned by the Government a site can be provided without expense.</p>							
<i>St. Mary's River Upper Range-Lights, Michigan—</i> Moving the range-lights on or near Round Island, St. Mary's River, Michigan	Submitted.....					2,000 00	
<p><i>NOTE.</i>—The conditions in the vicinity of Round Island and Point Iroquois are unsatisfactory. It is proposed to remedy the evils by abandoning the present upper range, and moving the buildings to a new line, and shifting the lower St. Mary's range somewhat to the southward.</p>							
<i>Eagle Harbor Fog-Signal, Michigan—</i> Establishing a steam fog-signal at Eagle-Harbor Light-Station, Lake Superior, Michigan.....	Submitted.....					5,500 00	
<p><i>NOTE.</i>—A steam fog-signal at this station would be a valuable aid to navigation.</p>							
<i>Chequamegon Point Light and Fog-Signal Station, Wisconsin—</i> Moving and rebuilding the main La Pointe light and establishing a harbor bell and light at or near Chequamegon Point, Lake Superior, Wisconsin.....	Oct. 1, 1888 Mar. 2, 1889 Submitted.....	25 25	499 943	1 1	}	10,000 00	
<p><i>NOTE.</i>—By the act of March 2, 1889, the steam fog-signal was authorized and appropriated for. The present light at La Pointe should be nearer to the inner point, that it may be a great help to vessels to clear it. A harbor light and a fog-bell should be placed on the inner point towards Houghton.</p>							
<i>Bayfield Light-Station, Wisconsin—</i> Establishing a light-station at Bayfield, Lake Superior, Wisconsin.....	Submitted.....					5,000 00	
<p><i>NOTE.</i>—This is said to be the best harbor of refuge on that coast. The commerce of the place also is increasing. To make the harbor available at night a light is needed.</p>							
<i>Devil's Island Fog-Signal Station, Wisconsin—</i> Establishing a steam fog-signal at Devil's Island Light-Station, Apostle Group, Lake Superior, Wisconsin.....	Oct. 1, 1888 Mar. 2, 1889 Submitted.....	25 25	500 943	1 1	}	5,500 00	
<p><i>NOTE.</i>—An appropriation has been made for establishing a light here, but none was made for a fog-signal, which is as much needed as is the light.</p>							
<i>Superior Bay Lights, Wisconsin—</i> Establishing post-lights from the entrance to Connor's Point, in Superior Bay, Lake Superior, Wisconsin.....	Submitted.....					1,200 00	
<p><i>NOTE.</i>—It is claimed that 900 vessels will pass in and out of this port this year. This channel can not be navigated with safety at night without these lights.</p>							
<i>Depot for the Eleventh Light-House District, Detroit, Michigan—</i> For the erection of a lamp-shop in the Eleventh Light-House District Depot, at Detroit, Michigan.....	Submitted.....					2,000 00	
<p><i>NOTE.</i>—The shop is now in a too small wooden building, insufficiently lighted and ventilated. The work has outgrown the space, and such as it is, it is doubly in danger of fire from the adjoining neighbors. It is proposed to erect on a safe site on the light-house grounds a brick building for the lamp-shop.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ended June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>New York Slough Light-Station, California—</i> Establishing a light and fog-signal station at New York Slough, entrance to the San Joaquin River from Suisun Bay	Submitted.....					\$10,000 00	
NOTE.—This slough constitutes a short and deep passage from Suisun Bay into the San Joaquin River, and is used by the steamers, sailing craft, barges, etc., engaged in the great river traffic of California. Accidents have been frequent and unavoidable at night and in fog. The Board has placed post-lights here as a temporary expedient, but they are insufficient.							
<i>San Pedro Harbor Light-Station, California—</i> Establishing a light and fog-signal station to mark the entrance to San Pedro Harbor	Submitted.....					5,000 00	
NOTE.—This is the sea-port for Los Angeles, and large quantities of coal, lumber, and general freight are brought here.							
<i>Bodega Head Light-Station, California—</i> Establishing a light and fog-signal at or near Bodega Head, California	Submitted.....					30,000 00	
NOTE.—The stretch of coast between Point Reyes Light-Station and Bodega Head has become notorious as the scene of many wrecks, due to foggy weather and uncertain currents. It is believed that the establishment of a powerful fog-signal and a small light will do away with its peculiar danger.							
<i>Cape Mendocino Light-Station, California—</i> Construction of a roadway from Cape Mendocino Light-Station to the county road	Submitted.....					1,000 00	
NOTE.—It is proposed to build a practicable wagon-road from the light-station to the county road, half a mile away. Some 1,200 feet of the distance is across private land. It is estimated that to buy a right of way across this strip, pay the legal expenses of acquiring title, and to build the road, will cost the above-named amount.							
<i>Point Buchon Light-Station, California—</i> Establishing a light and fog-signal station at or near Point Buchon, near San Luis Obispo.....	Submitted.....					33,000 00	
NOTE.—This is a prominent and dangerous point, where vessels going to and from Port Harford make a sharp turn.							
<i>Point Arguello Light-Station, California—</i> Establishing a light and fog-signal station at or near Point Arguello, sea-coast of California	Submitted.....					35,000 00	
NOTE.—This is a prominent point about 12 miles north of Point Conception, and one of the foggiest regions of the Pacific coast. A sharp bend in the coast here makes it particularly desirable that proper aids should be established.							
<i>Point Pinos Light-Station, California—</i> Purchase of land for landing supplies at Point Pinos Light-Station, entrance to Monterey Harbor	Submitted.....					2,000 00	
NOTE.—There is at present no sea front to the light-house site. For convenience of landing stores and supplies it is essential that the United States should own a strip between the light-house and the sea-coast.							
<i>Punta Gorda Light-Station, California—</i> Establishing a light and fog-signal station, at or near Punta Gorda, between Shelter Cove and Cape Mendocino, California	Submitted.....					40,000 00	
NOTE.—There are here several dangerous sunken rocks that add to the hazards of navigation, and in dark nights the overhanging mountains keep the shore line in dark shadows, so as to confuse even the most experienced.							
<i>Humboldt Light-Station, California—</i> Establishing the light and fog-signal at Humboldt, California, upon a more secure site.....	Mar. 2, 1889	25	1017	1		25,000 00	
NOTE.—During the past year the light-house structures at Humboldt have been seriously threatened, and it is believed that a severe storm may at any time overthrow them. It is proposed to rebuild the station on Humboldt Bluff. This was authorized by the act of March 2, 1889, but no appropriation was made to do the work.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ended June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<p><i>Coquille River Light and Fog-Signal Station, Oregon—</i> Establishing a light and fog-signal station at or near the mouth of the Coquille River, Oregon.....</p> <p>NOTE.—This light is needed, not only for coast navigation, but to guide into the river.</p>	Submitted.....				\$60,000 00		
<p><i>Yaquina Bay Lights, Oregon—</i> Establishing inexpensive lights at or near Yaquina Bay, Oregon.....</p> <p>NOTE.—The growing commerce of this region makes night passage in and out of the bay necessary. The lights are required for the safety of the vessels going in and out at night.</p>	Submitted.....				300 00		
<p><i>North Head Light-Station, Washington—</i> Establishment of a first-order light on North Head, Cape Disappointment, sea-coast of Washington.....</p> <p>NOTE.—The present light at Cape Disappointment is inadequate. It is proposed to establish a first-order light at North Head and reduce that at Cape Disappointment to the fourth order. When the proposed lights which are being constructed at Gray's Harbor and Destruction Island are completed it will only need the proposed light at North Head to finish the lighting of the coast from Cape Flattery to Tillamook Rock with first-order lights.</p>	Submitted.....				50,000 00		
<p><i>Gray's Harbor Light-Station, Washington—</i> Establishing a first-order light and fog-signal station at Gray's Harbor, Washington, in addition to the amount already appropriated.....</p> <p>NOTE.—On further examination it is found that a small light will be inadequate for the needs of commerce at this point.</p>	July 7, 1884 Submitted.....	23	198	1	60,000 00		
<p><i>Cape Flattery Light-Station, Washington—</i> Re-establishing the fog-signal at Cape Flattery Light-Station upon a new site.....</p> <p>NOTE.—It is found that the fog-signal at this important station will be much more effective as an aid to mariners, if removed to West Island. The change would make it necessary to build new structures for accommodation of the signal and a new dwelling for the keeper.</p>	Submitted.....				17,000 00		
<p><i>Pato's Island Light-Station, Washington—</i> Establishing a light and fog-signal station on Pato's Island, north entrance to the Canal de Haro, Washington.....</p> <p>NOTE.—This is a very dangerous point, and a light here would greatly benefit the considerable number of vessels that use this passage. This was authorized by the act of March 2, 1889, but no appropriation was made to do the work.</p>	Mar. 2, 1889	25	1012	1	12,000 00		
<p><i>Turn Point Light-Station, Washington—</i> Establishing a light and fog-signal station at Turn Point, west end of Stuart Island, Canal de Haro, Washington..</p> <p>NOTE.—This light would mark a place where a change of course is necessary in passing through San Juan Channel.</p>	Submitted.....				15,000 00		
<p><i>Puget Sound Post-Lights, Washington—</i> Establishing post-lights and maintaining them for a year in or near Puget Sound and adjacent or tributary waters.....</p> <p>NOTE.—The demand for these lights is increasing with the growing commerce of these waters. Now that night passages are being attempted, post-lights are necessary to safety.</p>	Submitted.....				10,000 00		
<p><i>St. Mary's Island Light and Fog-Signal Station, Alaska—</i> Establishing a light and fog-signal at or near St. Mary's Island, sea-coast of Alaska.....</p> <p>NOTE.—Petitions have been received for this from many vessel owners and masters. Commerce is rapidly increasing in Alaskan waters.</p>	Submitted.....				80,000 00		
<p><i>Depot for the Thirteenth Light-House District—</i> Removing the buoy and supply-depot now at Tongue Point to Astoria, Oregon.....</p> <p>NOTE.—The present situation of the buoy depot is inconvenient and expensive. The water is shoaling rapidly, and it will be more economical to remove the depot to a proper location than to extend the wharf.</p>	Submitted.....				15,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.

<i>Oil-Houses for Light-Stations—</i>								
Establishing isolated oil-houses for the storage of mineral oil.....	Oct. 2, 1888 Aug. 30, 1890 Submitted.....	25 26	509 375	1 1	\$25,000 00	\$15,000 00	
<p>NOTE.—The introduction of mineral oil into general use in the Light-House Service greatly increases the danger from fire and necessitates greater storage capacity. As there are no proper means at present of storing the large quantities for annual supply, it is proposed to erect small buildings entirely separated from any others, thus avoiding the danger from fire as far as possible.</p>

<i>Buildings and Grounds, Government Hospital for the Insane—</i>							
General repairs and improvements.....	Appropriated..	26	392	1	15,000 00		
NOTE.—This sum is needed for the proper care of the grounds, and to keep in good repair the already extensive and yearly-increasing number of buildings, which are occupied by the insane and are needed for their care and treatment. The area covered by these buildings is almost as extensive as that covered by the United States Capitol, and the class of tenants renders somewhat frequent renewals and repairs necessary.							
Additional accommodations for the insane, viz: Extension of Howard Hall, including furnishing and heating apparatus.....	do.....				57,200 00		
NOTE.—As stated in the estimates for 1891, the steady increase in the number of the insane who under the law are entitled to care and treatment in the hospital renders it necessary each year to provide additional accommodations for not less than fifty beds. For the past ten years the annual increase has been somewhat in excess of that, for the year 1890 it being sixty-two. It is important that each addition shall be such as to afford the best classification of the inmates and the consequent greatest relief to the whole number. The latest addition, that of an infirmary wing to the Toner Building, makes suitable provision for the sick and infirm in distinct structures specially fitted for their care. The extension here asked will admit of the completion of Howard Hall according to the original plan, thus affording a secure, distinct, and liberal provision in single rooms for one hundred and twenty of the convict, criminal, and homicidal classes, greatly to the relief of the harmless groups of the insane.							
<i>Special improvements, viz:</i>							
Porter's lodge at south hospital entrance.....	do.....				2,000 00		
Rebuilding carpenter and machine shop.....	do.....				4,000 00

<i>Buildings and Grounds, Government Hospital for Insane—Cont'd.</i>							
<i>Special improvements—Continued.</i>							
Tower clock and bell.....	Appropriated..	26	392	1	\$1, 500 00	\$105, 950 00	\$71, 000 00
Two additional reservoirs for protection against fire.....	do.....				5, 000 00		
Electric plant for incandescent light.....	do.....				18, 500 00		
<p>NOTE.—The lodge is essential to the proper custody of the place, as the south entrance is of necessity kept open during the day, and there should be some one permanently on duty there. A small, durable stone cottage, in keeping with the surroundings, is all that is needed, and can be built for the sum named.</p> <p>The carpenter and machine shop, in daily use since its erection in 1856, being on ground which did not afford a stable foundation, now, with the jar of machinery and gradual settling of the walls, shows dangerous cracks in the masonry, and it will be necessary to rebuild it on an enlarged plan on a secure site, and for this \$4,000 is asked.</p> <p>The propagating house, which, though small and homely, has for many years afforded us the early tomato and egg-plants, with hundreds of bedders for our lawns, is now, after frequent partial renewals, crumbling to its fall, and will require to be entirely rebuilt. It ought to be somewhat extended to provide a few winter flowers for our invalid wards and dining-rooms, a building something like the green houses of our State hospitals for the insane, and for the same purposes.</p> <p>The estimate for the current expenses, Government Hospital for the Insane, will be found under the title of "Miscellaneous," <i>post</i>.</p>							
<i>Buildings and Grounds, Columbia Institution for the Deaf and Dumb—</i>

ARSENALS.							
<i>Rock Island Arsenal, Rock Island, Ill.—</i>							
Two laboratories.....	Submitted.....					\$4, 000 00	
<p>NOTE.—The large amount of ammunition prepared at this arsenal for issue to the Army and the militia renders these buildings necessary. The work of preparing ammunition is now done in a dilapidated wooden shed, which is past all repairing, and which offers no security whatever to the workmen employed in it.</p>							
Machinery and shop fixtures.....	Aug. 30, 1890	26	394	1	10, 000 00	\$29, 000 00	\$158, 000 00
General care, preservation, and improvement; for painting and care and preservation of permanent buildings, bridges, and shores of the island; for building fences and sewers; for grading grounds and care and preservation of the water power.....	do.....				15, 000 00		
Care and preservation and expense of maintaining and operating the draw.....	Aug. 30, 1890	26	394	1	12, 000 00		
<p>NOTE.—This estimate is for the care and preservation of the bridge between Davenport, Iowa, and Rock Island, Ill., and the island, and the road and causeway connecting the bridges. It includes all ordinary repairs, but is mainly for the expense of maintaining and operating the draw, for which three sets of hands, consisting of engineer, fireman, and tender, are required; and guards for maintaining order on the long bridges in their large use by the public. This large use also causes considerable wear and necessity for repair.</p>

<i>Rock Island Bridge, Rock Island, Ill.—Continued.</i>							
Repairs of the draw span and machinery for operating same.....	Submitted.....				\$1,950 48		
NOTE.—The repairs at the draw-span are urgent.							
Protecting Rock Island Bridge by means of sheer booms..	Aug. 30, 1890	26	394	1	250 00	\$14,200 48	\$82,960 00
NOTE.—This amount is required for taking the boom into winter quarters to prevent its destruction by ice, for placing it in position in the spring, and for necessary repairs.							
<i>Springfield Arsenal, Springfield, Mass.—</i>							
Completing the erection of a fire-proof building for machine shop, finishing shops, and so forth, at the National Armory at Springfield, Massachusetts, as provided for by the act approved June 16, 1890.....	June 16, 1890	26	157	1	} 111,639 54		
	Aug. 30, 1890	26	395	1			
Repairs and preservation of grounds, buildings, and machinery not used for manufacturing purposes.....	Aug. 30, 1890	26	395	1	15,000 00	126,639 54	115,000 00
<i>Allegheny Arsenal, Pittsburgh, Pa.—</i>							
Rebuilding stone inclosing wall on river front, between 39th and 40th streets.....	Submitted.....					1,000 00	
NOTE.—The stone inclosing wall on the river front and within a few feet of Allegheny Valley Railroad tracks has become weakened by the action of the floods in the Allegheny River and the jarring caused by the constant passing of trains. A part of it has been taken down, as it was dangerous and about to fall out on the railroad tracks. The wall should be taken down to the ground and rebuilt.							
<i>Augusta Arsenal, Augusta, Ga.—</i>							
Quarters for enlisted men and hospital steward.....	Aug. 30, 1890	26	395	1	}	4,000 00	3,000 00
Submitted.....							
Or so much thereof as may be necessary in addition to the unexpended balances remaining of the appropriations for artesian well and hospital in the acts of October 2, 1888, and March 2, 1889, which are hereby made available for this purpose.							
NOTE.—It is desired to tear down the old dilapidated wooden shanties, occupied as quarters by married non-commissioned officers, and build a double set similar to the brick set now in use, and in the same row near the barrack. There are no quarters for a steward, consequently we have no steward, nor can one be accommodated, although he is needed badly—in fact, an absolute necessity.							
<i>Benicia Arsenal, Benicia, Cal.—</i>							
One steam pumping-engine for artesian well.....	Aug. 30, 1890	26	395	1	}	1,000 00	3,000 00
Submitted.....							
NOTE.—The present engine is old, single-acting, and requires constant overhauling. The supply of artesian well water, although limited, is of considerable importance as an additional water supply for this post.							
The submission of general estimates for Benicia arsenal will await the report of the Board on Army Gun Factories, authorized by the fortification act approved August 18, 1890, and convened by S. O. 211, A. G. O., 1890, when, if necessary, a special estimate will be submitted.							
<i>Frankford Arsenal, Philadelphia, Pa.—</i>							
New machinery.....	Aug. 30, 1890	26	395	1	5,000 00		
NOTE.—It is proposed to use about one-half of this sum in the purchase of new machines which are much needed for the work done at this arsenal, and about one-half in renewing and replacing worn-out machines. These worn-out machines are also of old and inferior patterns, and are too light for the work.							
Steam-heating apparatus for office	Submitted.....				810 00		
NOTE.—The office is now heated by a hot-air furnace, which is worn out and must be renewed or replaced, and the experience here is that in very cold weather, when heat is most needed in all parts of the building, only one side can be comfortably heated. The steam-heating apparatus introduced into the public quarters have proven successful.							
An extension of the machine-shop (cartridge factory).....	do.....				7,000 00	12,810 00	6,000 00
NOTE.—The object of the proposed extension is to increase the facilities for annealing and tinning cartridge-cases, to furnish additional room for the inspection and temporary storage of cartridge metal as it is delivered for use, and also to provide a suitable room for drying cartridge primers. In the present condition of the machine-shop the operations above referred to are, whenever it is necessary to increase the daily product above 24,000, conducted at a great disadvantage for want of sufficient room. If, therefore, it is proposed to make use of this shop for cartridge manufacture for a much longer period, it will, in my opinion, be for the best interests of the service to enlarge it in accordance with the plan herewith submitted.							
It is estimated that the entire cost of the extension of the building and of the additional plant to be placed therein will not exceed \$7,000.

<i>Powder Depot, Dover, N. J.—</i>							
Building one set of quarters for commanding officer.....	Submitted.....				15, 000 00		
Barracks for enlisted men.....	do.....				15, 000 00		
Completing office building, lightning rods for same, porch to extend across front of building, brick walk, etc.....	do.....				500 00		
General repairs to magazines, store-houses, stable, foreman's quarters, and other buildings.....	do.....				2, 000 00		
Strengthening dam and repairs to race-way.....	do.....				1, 000 00		
Roads and grounds, cutting down undergrowth, grading and clearing land around magazines, making new and repairing old roads to magazines, making new and repairing old fences, etc.....	do.....				10, 000 00		
						43, 500 00	
NOTE.—There appears to be urgent necessity for appropriations under the above estimates, none having been made at the last session of Congress. No quarters for officers or barracks for enlisted men have been provided for this depot, and the officer in command is compelled to sleep at a distance from his post. Five powder magazines have been completed, wherein on June 30, 1890, there was stored about 260,000 pounds of powder, valued at \$65,286 and 5,929,879 pounds of niter and sulphur, valued at \$387,108. The protection at present afforded to public property and buildings by the few hired men employed is wholly inadequate. The following remarks in answer to published criticisms on this subject are from the commanding officer of the depot, United States Powder Depot, Dover, N. J.:							
"July 19, 1890. Respectfully returned to the Chief of Ordnance, U. S. A. The only portion of the inclosed newspaper clipping which seems to call for remark is that which relates to the insecurity of the public property and the general unprotected condition of this depot. It is true that the only residents of the place (there being no quarters for others) are the magazine-keeper, the stable-man, and two laborers. These men, with the one watchman on duty, are the only ones who could be called upon suddenly at night for assistance in case of fire or disturbance. In the day-time all workmen employed would assist, but as the last magazine will soon be completed we can not much longer count upon them. Unquestionably there should be more watchmen, particularly at night, but unless more of 'Ordnance Service' money can be allotted, they can not be provided. With an annual allowance of \$3,000, out of which must be paid the services of a clerk, magazine-keeper and stableman, and for fuel, lights, and all incidental expenses of the Ordnance Service, it will be readily seen that but little is left for the guard. It is greatly to be regretted that the public highway connecting the mining town of Mount Hope with the Berkshire Valley should run through these grounds, as it permits the passage through of drunken and disorderly persons, over whose actions the guard has no control, provided they keep within the unmarked limits of the roadway, 25 or 30 feet beyond which are our buildings (not magazines). At a cost of not exceeding \$2,000 or \$3,000, it is believed this roadway could be turned to pass south of the post, and in a manner satisfactory to the free-holders of this county, and a feature that probably struck the attention of the writer of the newspaper article, whoever he may be, could be obviated. This change would certainly add to the security of the place, and comfort of the residents, and is strongly urged. Forest-fires are another source of danger. On several occasions dried leaves and underbrush have been fired by the locomotive of the Morris County railroad, which have taken hours to extinguish, but this danger would be minimized by a yearly cutting down of the undergrowth and burning over at favorable times of the exposed land.							
"This depot is admirably located and was wisely planned. So far about \$460,000 has been spent upon it, principally in the purchase of land and erection of buildings, but much is yet to be done towards draining the lands and removing underbrush and making it healthful as a residence, or secure against danger from forest fires. Annual estimates have been made for this purpose, and for the erection of quarters and barracks, and until a more liberal policy in the way of appropriations for the proper police and keeping up of the establishment prevails, it must continue to produce upon the minds of all who see it the effect that it seems to have done upon the writer of the article to which my attention has been called."—(Frank H. Phipps, Major of Ordnance, Commanding.)							
<i>Watervliet Arsenal, West Troy, N. Y.—</i>							
The lighting of the Watervliet Arsenal by the incandescent system.....	Aug. 30, 1890 Submitted.....	26	395	1	18, 500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>Watervliet Arsenal, West Troy, N. Y.—Continued.</i>							
One 150 horse-power steam-engine for driving dynamos which are located in gun-factory, including foundations and erection.....	Aug. 30, 1890 Submitted.....	26	395	1	\$5,000 00		
<p>NOTE.—The present system of illuminating by gas has been a source of annoyance for many years. The pipe lines are in very bad condition, and require daily excavations and repairs, during the winter months especially.</p> <p>The village authorities of West Troy have discontinued the use of gas for street-lighting by introducing electric lights. The gas company may stop the supply of gas at some future time, and then this important establishment would be without light. To make this establishment what it should be, on account of its future importance, independent as regards lighting, and to supply it with that kind of light which is best adapted for the important work to be done here, on account of its uniformity and facility for changing the position of an incandescent light without difficulty to any place, or concentrate several lamps temporarily at one place, not too much importance can be attached to the request for an appropriation for this purpose.</p> <p>It is intended to have the plant arranged so as to furnish motive power by steam or water. During the longest part of the year motive power can be supplied from the new proposed turbine station, thus reducing the cost of lighting the arsenal to a very low amount. In case of repairing turbines or using the water power temporarily for other purposes, or in case the Erie Canal should be emptied for its annual cleaning, the motive power will be furnished by a steam engine, situated in the engine-room of the new gun-factory. The amount for this engine is included in the above estimate.</p>							
A new turbine station near Erie Canal	Submitted.....				10,850 00		
<p>NOTE.—The size of the present water-weir on Erie Canal is inadequate. The present turbine-wheels are of an old pattern. They have been frequently repaired and are at present in such wornout condition that they should be wholly replaced.</p>							
Making macadam roads in arsenal grounds in continuation of such road-making already done, and to complete the same.....	Aug. 30, 1890 Submitted.....	26	395	1	5,125 00 5,000 00

<i>Artesian Well at Fort Monroe, Va.—</i>							
Obtaining water for the garrison.....	Submitted					10,000 00	
NOTE.—The officer in charge of the defensive works at Fort Monroe reports that the garrison is dependent for its water-supply upon rain water caught and stored in cisterns, and a pumping-station on the opposite side of Mill Creek, where water is obtained from driven wells and forced through an iron pipe to the fort; that the supply of rain water is inadequate and uncertain, and that from the driven wells is of inferior quality, and the system expensive to maintain, and subject to many contingencies. He earnestly recommends the appropriation.

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Armament of Fortifications—Continued.</i>							
Testing one sea-coast breech-loading rifled mortar, steel, of 12-inch caliber	Submitted.....				\$20,000 00		
Current expenses and maintenance of the ordnance proving ground, Sandy Hook, N. J., including general repairs, alterations, and accessories incidental to testing and proving ordnance, including hire of assistants for ordnance board, skilled mechanical labor, purchase of instruments and other supplies, building and repairing butts and targets, clearing and grading ranges and extending iron tramway, \$26,400; for the necessary expenses of ordnance officers while temporarily employed at the proving ground and absent from their proper stations, at the rate of two dollars and fifty cents per diem while so employed, and for the compensation of draughtsmen while employed in the Army ordnance bureau on ordnance construction, as provided in the fortifications act, approved September 22, 1888, \$9,500; in all.....	Mar. 2, 1889 Submitted.....	25	887	1	35,900 00		
Purchase of hoisting engine, and steam shovel for grading, and for building, and repairing proof butts, at the proving ground, Sandy Hook, N. Y.....	Submitted.....				3,800 00		
Purchase of oil-tempered and annealed steel for high-power coast defense guns of 8, 10, and 12 inch caliber, in quality and dimensions conforming to specifications, subject to inspection at each stage of the manufacture, and including all the parts of each caliber....	Sept. 22, 1888 Submitted.....	25	490	4	1,250,000 00		
<p>NOTE.—This appropriation is urgently needed at this time to meet the manufacturing capacity of the Army Gun Factory—north wing and center section—already erected. This plant, working alone, will require a new supply of forgings, with deliveries to commence about the end of the year 1893. If the appropriation now asked for be delayed to the next session of Congress, the deliveries of the forgings needed can not be expected, under the new contract, until after the date named. A further prospective demand for a new supply of forgings has been created by the provision for furnishing and assembling guns by contract in the fortifications act of August 18, 1890, and in the utilization of the large machines to be procured from the appropriation of \$320,000 for that purpose in the same act. Under all the circumstances, it is essential that a new contract for forgings should be made, with deliveries to commence before the end of the year 1892. An immediate appropriation is needed to meet the demand, and to prevent the occurrence of a period during which the gun factory must be idle.</p>							
Carriages for steel breech-loading sea-coast guns, procured under the fortification act of September 22, 1888..	Submitted.....				200,000 00		
<p>NOTE.—This sum, it is estimated, will procure ten 8-inch and two 12-inch carriages for guns of these calibers, which will be completed and ready for mounting in 1892. These carriages are to be of the non-disappearing type.</p>							
Breech-loading rifled sea-coast mortars, cast-iron, hooped with steel, of 12-inch caliber.....	do.....				450,000 00		
<p>NOTE.—This sum is estimated to procure about 50 mortars, similar in design to those now being procured under the fortification act of August 18, 1890.</p>							
Two (2) gun-carriages of the disappearing type, and in lieu of the sum of \$13,500 appropriated under the act approved March 2, 1889.....	do.....				70,000 00		
<p>NOTE.—This sum, it is estimated, will procure one 8-inch and one 10-inch disappearing-carriage. It is of the utmost importance that a satisfactory type of disappearing-carriage be arrived at without delay, as the mounting of most 8-inch and 10-inch guns for coast defense will be of that character.</p>							
Board on ordnance and fortification: To enable the board to make all needful and proper purchases, experiments, and tests to ascertain, with a view to their utilization by the Government, the most effective guns, small arms, cartridges, projectiles, fuses, explosives, torpedoes, armor plates, and other implements and engines of war, and to purchase, or cause to be manufactured under authority of the Secretary of War, such guns, carriages, armor plates, and other war materials and articles as may, in the judgment of the board, be necessary in the proper discharge of the duty devolved upon it by the act approved September 22, 1888, \$500,000, and that all material procured under this provision shall be of American manufacture, except when, in the judgment of the board, it is to the manifest interest of the United States to purchase samples abroad..	Aug. 18, 1890	26	318	1	500,000 00	\$3,733,280 00	\$1,561,635 00

<i>Army Gun Factory, Watervliet Arsenal, West Troy, N. Y.—</i>							
Boring lathe and planer adapted to the manufacture of siege guns and howitzers in small gun-shop at the Army Gun Factory.....	Submitted.....				\$4, 100 00		
Alterations of 12-inch gun lathe to adapt it to the fabrication of a type gun of 16-inch caliber.....	do.....				10, 700 00		
Complete Army Gun Factory building at Watervliet Arsenal, West Troy, N. Y., by the erection of south wing, inclusive of ways for traveling cranes.....	Sept. 22, 1888 Submitted.....	25	489	4	248, 743 00		
Machinery, tools, power plant, and fixtures, adapted to the manufacture of steel sea-coast guns, to complete the equipment of the south wing of Army Gun Factory at Watervliet Arsenal, West Troy, N. Y.....	do.....				460, 000 00		
NOTE.—This sum is estimated to procure the additional plant required for an output of fourteen 12-inch guns, and one set of 16-inch gun-lathes. There will still remain space in the south wing to place additional machines to constitute two complete sets of the large tools for manufacture of 16-inch guns. The estimated cost of such machines, including one 80-ton and one 30-ton crane, is \$231,225. To expedite the important work in hand, it is urgently recommended that this appropriation be made available not later than March 4, 1891. With the south wing completed, as estimated, the total capacity of the Gun Factory will be twelve 8-inch, fourteen 10-inch, fourteen 12-inch, and three 16-inch guns, or their equivalent of thirty-four 12-inch guns, per annum.							
Iron frame work, with adjustable platforms and centers for fitting up shrinkage pit, and for drainage of shrinkage pit at Army Gun Factory.....	Submitted.....				14, 000 00		
Locomotive and cars or trucks for shifting guns and material and transportation between Gun Factory and river wharf.....	do.....				9, 000 00		
Increase of facilities at Watervliet Arsenal for shipment by water, including repairs to wharf, dredging, and extending and setting up 50-ton hand-power loading crane.....	do.....				6, 500 00		
						\$753, 043 00	\$547, 300 00

Cleaning out the distributing reservoir.....do.....				13,825 00		
					346,950 00		
<p>NOTE 1.—The necessity for the above increase of the estimate over the appropriation for the present fiscal year, and for the new estimates submitted, is explained in the statement of the officer in charge, in Appendix "R."</p> <p>NOTE 2.—The act of June 11, 1878 (20 Stat., 104), providing a permanent form of government for the District of Columbia, directs that the estimates for the "Expenses of the Washington Aqueduct and its appurtenances," shall be submitted by the Commissioners of the District of Columbia.</p> <p>NOTE 3.—The officer in charge of the work urgently recommends that the following clause be attached to the next appropriations for the aqueduct, and be made to operate on all future appropriations for it: <i>Provided, That all appropriations for the Washington Aqueduct shall be available until expended, and if it shall appear to the Secretary of War, on the report of the Chief of Engineers, that for any cause any work pertaining to said aqueduct can not be carried on, or material therefor can not be obtained as rapidly as is necessary for the best and most vigorous prosecution of it, he is authorized to provide material by purchase in open market, or by contract for the fabrication thereof, and to carry on the work by days' labor or otherwise, as may seem to him expedient.</i></p> <p>NOTE 4.—In reference to the estimate for "Water Supply, District of Columbia," the officer in charge of the work states: "No estimate for further appropriation is submitted." It is believed that the amount on hand is sufficient to complete the work.</p>							
Total Buildings and Grounds in and around Washington						\$218,662 20	\$137,042 00
MILITARY ACADEMY.							
<i>Buildings and Grounds, Military Academy—</i>							
Buildings and grounds: Repairing roads and paths, including roads and bridges on reservation.....	June 20, 1890	26	168	1	\$500 00		
Continuing construction of breast-high wall in dangerous places.....do.....				500 00		
Water-Works: Renewal of material in filter-beds; improving ventilation of filter-house and water-house; hose for use in cleaning filter-beds and water-house, and for use in fire-service at same; tools, implements, and materials for use of the two keepers and for repairs of syphon-house, filter-house, and of four and one-half miles of supply-pipes; for sheds for tools and storage of fuel for keeper at Round Pond, and for tool-house at filter; for gauges at Round Pond and Delafield Pond, and stairs for access to same.....do.....				520 00		
Broken stone and gravel for roads.....do.....				2,000 00		
Maintaining and improving the grounds of the Post Cemetery, including the purchase of trees, plants, tools, and materials, to be immediately available.....do.....				1,200 00		
<p>NOTE.—By reference to the report of the Quartermaster-General of the Army for the year 1887, pages 272 to 275 inclusive, it will be seen that the average amount spent on national cemeteries (including all classes) is about \$1,200 per cemetery, this notwithstanding they have been regularly appropriated for during many years. As the large number of distinguished officers interred here warrants the belief that the cemetery should be placed on the same footing, as regards beauty, etc., as the national cemeteries throughout the country, and as no appropriation is available for keeping, in proper condition, the grounds, which have been more than doubled in size since last year's appropriation was granted, this estimate is respectfully submitted.—(Capt. Chas. W. Williams, A. G. M., U. S. Army.)</p>							
Care and repair of Fort Clinton, Battery Knox, sea-coast, siege, and mortar batteries.....	Submitted.....				1,500 00		
<p>NOTE.—Fort Clinton needs extensive repairs; it was rebuilt about thirty years since, and the slopes and revetments are in bad condition in spite of the efforts to maintain them in good condition with the troops stationed at the post.—(Col. J. M. Wilson, Engr's, Supt. U. S. M. A.)</p>							
Reflooring Grant Hall (cadet mess-hall), substituting for the board floor therein a white marble floor 96 feet long by 45 feet wide, to be immediately available upon approval of this act.....do.....				3,024 00		
<p>NOTE.—Immediate availability is requested because of the urgency for a new floor. The present floor is very inferior, hard to keep clean, and is unsuitable for a dining-room which is used thrice daily by so large a body as the corps of cadets; being used so often daily the water and soap used in the necessary cleansing is absorbed to a greater or less degree by the wooden floor, and as it dries out there is emitted an objectionable soapy odor which can not be gotten rid of, is always present, and which is most obnoxious to the habits of the hall. This estimate is in the interest of health, cleanliness, and economy.—(Capt. Wm. F. Spurgin, 21st Inf'y, Treasurer U. S. M. A., Q. M. & Com'y of Cadets.)</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.

<i>Buildings and Grounds, Military Academy—Continued.</i>							
Repairs of cooking utensils, and the replacement of worn-out cooking-utensils in the cadet subsistence department, to be expended without advertising.....	June 20, 1890	26	168	1	\$326 00		
Repairs of chairs, tables, and other furniture, and for contingent repairs.....	Submitted.....				62 00		
NOTE.—This sum is necessary for keeping in proper repair the dining-room and kitchen furniture, etc., in use in the cadet mess-hall.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)							
Placing an additional story on the brick building in rear of cadet mess-hall used as a dormitory for employés of the messdo.....				1,712 00		
Reflooring, repairing, and painting that portion of the annex to the mess building over the kitchen of the mess, used as a dormitory for employés of the mess.....do.....				481 00		
For placing new plumbing in the water-closet used by male employés of the mess.....do.....				467 00		
NOTE.—The employés of the cadet-mess are huddled together in a manner conducive neither to health or cleanliness, and the expenditures above indicated are, in my opinion, absolutely necessary.—(Capt. Wm. F. Spurgin, 21st Inf'ty, Treas. U. S. M. A., Q. M. and Com'y of Cadets.)							
Repairs of present quarters for married enlisted men.....do.....				10,000 00		
NOTE.—This estimate is based upon an inspection by a board of officers, who reported, as a sanitary necessity, the repair of these quarters an economy to the Government.—(Capt. Chas. W. Williams, A. Q. M., U. S. Army.)							
Two sets of officers' quartersdo.....				20,000 00		
NOTE.—For many years the quarters for officers at this post have been inadequate, and the greatest inconvenience has been experienced in properly housing the many officers on duty here. This year the number of quarters has been further reduced by the removal of one set of quarters in order to make room for the erection of the new gymnasium provided for in the act of Congress approved February 12, 1889. As stated in last year's estimate, there are now on the post six families, occupying three sets of quarters which were originally intended for one family in each. In addition to this, it has been found necessary to hire quarters for one officer who has recently reported for duty at the academy. Under these circumstances it is thought that the quarters asked for are indispensable, notwithstanding Congress having this year granted an appropriation for the erection of two sets of officers' quarters.—(Capt. Chas. W. Williams, A. Q. M., U. S. Army.)							
Twenty sets of quarters for married enlisted men and their families, to be built in sets of twos, of brick, each set to contain four rooms.....do.....				30,000 00		
NOTE.—I deem the erection of new buildings absolutely necessary, in view of the condition of many of the old, dilapidated buildings now used as quarters for enlisted men. Last year twenty sets of quarters were called for, of which number only ten sets were allowed. The increase this year is made with a view of carrying out the recommendations of a board of officers, who reported the destruction of several of the old quarters a sanitary necessity. Besides this, experience has shown that if quarters were provided for the many married soldiers now living in the adjacent village they would be more contented, continue to enlist, and render better service. A larger sum is requested for the erection of these quarters than was called for in last year's estimate, owing to the fact that the lowest bid received in response to advertisements in the daily press was \$1,500 for the erection of each set of quarters, which sum is thought reasonable for constructing the quarters in accordance with plans approved by a board of officers consisting of one professor of the academy, and one officer each of the quartermaster and medical departments of the Army.—(Capt. Chas. W. Williams, A. Q. M., U. S. Army.)							
Enlarging the store-house and work-shop of the cadet quartermaster's department, to be immediately available upon approval of this act.....do.....				10,666 70		
NOTE.—This extension is asked for because the capacity of the present building—in which is located all supplies of every description kept on hand for sale to cadets, the shoe-repair shops, the cloth-cutters' room, store-rooms for cloths, and the tailor-shops for manufacture of cadet clothing—is only half sufficient for the requirements of the department. Immediate availability is desired that advantage may be taken of the good weather during the spring, summer, and fall months.—(Capt. Wm. F. Spurgin, 21st Inf'ty, Treas. U. S. M. A., Q. M. and Com'y of Cadets.)							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
Painting and repairing the exterior and interior of the present building occupied by the cadet quartermaster's department, painting roof, replacing leaders to same, and for incidental repairs.....	Submitted.....				\$637 00		
<p>NOTE.—The building used as a cadet quartermaster's department store-house, etc., was erected in the year 1875; the cost of its erection was charged to the cadet quartermaster's department fund, a fund originally obtained by charging cadets for supplies, certain profits in advance of their cost; no money has ever been appropriated by Congress for the repair of the building, and the repairs above noted are urgently required.—(Capt. Wm. F. Spurgin, 21st Inf'ty, Treas. U. S. M. A., Q. M. and Com'y of Cadets.)</p>							
New sinks and bath-rooms for cadets.....	do.....				28,700 00		
<p>NOTE.—The present sinks and bath-rooms for cadets have been condemned by all persons who have seen them in recent years. The bath-rooms are in the basement of cadet barracks, where they are badly located as to sun-light and ventilation, and are in such a position as any sanitarian would condemn. The renewal and enlargement of the sinks is a vital necessity. With the foregoing amount, if appropriated, it is intended to put up a substantial building, with proper plumbing fixtures, properly lighted and heated, well ventilated, conveniently located, and one fulfilling all the requirements of modern sanitary science.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Heating riding-hall and stables, including building for apparatus.....	do.....				15,000 00		
Current expenses, two firemen, coal, etc.....	do.....				3,000 00		
<p>NOTE.—The riding-hall for cadets and the cavalry stables occupies a very exposed position along the bank of the Hudson, and during the winter months are exposed to severe mountain storms, whereby cadets, officers, and horses suffer greatly. All mounted exercises in the riding-hall are attended with danger to life and limb through the tan-bark covering of the floor becoming frozen. Various serious accidents have occurred to cadets by reason of the horses slipping and falling when moving at a gait faster than a trot. During the winter of 1888-'89, one cadet had his leg broken at or near the hip-joint. Under these circumstances the granting of this appropriation is respectfully urged upon Congress. It is thought that by heating the riding-hall and stables the comfort and safety of men and animals will be assured.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Building for the storage of lime and oil.....	do.....				2,500 00		
<p>NOTE.—For many years the lime and oil annually used in the post have been stored with other valuable property in an old dilapidated frame building near the quartermaster's shops. As this old building must be removed to make room for the new quartermaster's store-house provided for in the act of Congress approved June 20, 1890, and as the inflammatory nature of these stores are well known, it is thought that a separate building for their storage should be erected in order to guard against the possibility of loss by fire, and at the same time comply with Army regulations, which require separate buildings for such stores where it is possible to obtain them.—(Capt. Chas. W. Williams, A. Q. M., U. S. Army.)</p>							
One double set of quarters for hospital steward on duty at cadet hospital, and the commissary sergeant on duty with cadet mess.....	do.....				4,000 00		
<p>NOTE.—There is now no suitable provision in the shape of quarters for the hospital steward on duty in the cadet hospital, nor the commissary sergeant on duty in the cadet mess. The former of these non-commissioned staff officers occupies rooms in the third story of the cadet hospital, while the latter lives about one mile from the cadet mess. In order to provide proper quarters for these men this estimate is respectfully submitted.—(Capt. Chas. W. Williams, A. Q. M., U. S. Army.)</p>							
Galleries in riding hall.....	do.....				3,000 00		
<p>*NOTE.—The galleries at present in the riding-hall are not large enough for the accommodation of visitors, parents and relatives of cadets desirous of witnessing the mounted exercises in the riding-hall. This evil has existed for many years, and it is proposed with the amount called for in this estimate to enlarge the galleries in order that the wants of the visiting public may be satisfactorily met.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Improving and modernizing the plumbing and sewerage systems at West Point, N. Y., as follows:							
Labor and material for renewing water-closets, and re-arranging the soil-pipes, vent-pipes, and fresh-air inlets in forty-six sets of officers' quarters, and five sets of quarters occupied by civilian employes, at \$300 each....	do.....				15,300 00		
New water-closets, baths, urinals, soil and vent pipes, fresh-air inlets, floors, and partitions for outbuildings pertaining to cadets mess, including cost of labor and material to complete the same.....	do.....				800 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
New water-closets, urinals, lavatories, soil and vent pipes, fresh-air inlets, etc., for administration building, including cost of labor and material to complete the same.....	Submitted.....				\$700 00		
Miscellaneous repairs, including new flush-tanks, to cadet sink in camp.....	do.....				1,900 00		
New water-closets, urinals, soil and vent pipes, fresh-air inlets, etc., for library building, including cost of labor and material to complete the same.....	do.....				200 00		
New flush-tanks, and for renewing floors in sinks attached to soldier's barracks.....	do.....				1,600 00		
New water-closets, urinals, soil and vent pipes, fresh-air inlets, etc., for building used as barracks by the detachment of ordnance, including cost of labor and material for completing same.....	do.....				185 00		
New sewer from brick quarters in Logtown for married enlisted men.....	do.....				2,300 00		
New sewer from married enlisted men's quarters at west end of post.....	do.....				4,200 00		
Water and outside water-closets in Rugertown for married enlisted men.....	do.....				1,200 00		
General repairs to sewerage of post, including flush-tanks, ventilating-boxes, and other repairs.....	do.....				5,000 00		
New baths, water-closets, urinals, etc., and for a general overhauling and repair of the plumbing and sewerage systems of the West Point Hotel.....	do.....				5,200 00		
<p>NOTE.—The plumbing throughout the post needs careful overhauling, many of the fixtures being of old and condemned patterns or types. During the past winter there has been a great deal of sickness among the officers, cadets, and enlisted men, their families, and civilian employes. The post surgeon, almost in every instance, laid it to faulty plumbing. Modern fixtures of the type now universally used in all fairly well built residences are required.</p> <p>It is believed that the sewers require more ventilation, and proper flushing apparatus, and that the drainage of houses require better material and more ventilation.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
One double set of quarters for the teacher of music and master of the sword.....	do.....				10,000 00		
<p>NOTE.—With this sum it is proposed to erect at some convenient point a neat, two-story brick building for the accommodation of these most efficient and excellent employes.</p> <p>The quarters now occupied by the master of the sword is an old, decayed, one-story frame cottage, erected in the early days of the institution; while the quarters occupied by the teacher of music are required for the subaltern on duty with Company E, Engineers. For many years, and up to last fall, this officer occupied quarters in the engineer barracks; but owing to the strength of this company being increased to one hundred men it was found expedient to quarter this officer temporarily in the cadet barracks.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							
One soldier's bath-house.....	do.....				4,450 00		
<p>NOTE.—In order to afford the enlisted men proper bathing facilities the erection of a suitable bath-house for this purpose is absolutely necessary. The present bath-house for soldiers is entirely inadequate for the number of men stationed here, and the bathing facilities are of the poorest quality and liable to breed disease. I therefore strongly recommend favorable action on this estimate.—(Chas. W. Williams, A. Q. M., U. S. A.)</p>							
Repairs and improvements of engineer barracks, and steam-plant for heating same.....	do.....				3,500 00		
<p>NOTE.—This estimate is submitted with a view of placing the building in thorough repair and rendering it comfortable.</p> <p>The present method of heating the building is costly, and it is thought that the sum saved by heating the barracks by steam will in a few years pay for the plant asked for.—(Capt. Chas. W. Williams, A. Q. M., U. S. Army.)</p>							
New plumbing fixtures at cadet hospital.....	do.....				220 00		
<p>NOTE.—This amount is necessary in order to provide the necessary baths, wash-stands, sinks, lavatories, etc., for the comfort of the sick who may be placed in isolation wards not heretofore furnished with plumbing fixtures, also for the convenience of the nurses and attendants on duty in this hospital.—(Capt. Chas. W. Williams, A. Q. M., U. S. Army.)</p>							
Necessary changes required in the plumbing of the cadet hospital.....	do.....				1,626 76		
<p>NOTE.—The amount appropriated for this purpose for the fiscal year 1890-'91 (\$2,500) was entirely inadequate. The plumbing in the hospital requires a complete overhauling, and it is thought that the sum asked for last year, viz, \$4,126.76, is absolutely necessary for the contemplated work.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
Repainting cadet barracks, renewing flagging, and constructing a system of drainage in area of barracks, and other miscellaneous repairs.....	Submitted.....				\$3,000 00		
NOTE.—An inspection shows the immediate need of repainting this building in order to place it in proper repair. Many of the flag-stones are old and broken, and the walk generally is in a wretched condition. There is no drainage in area of barracks, consequently during the rainy season the surface water lodges in pools until absorbed by the earth. In order to place the building and its immediate surroundings in proper condition this estimate is respectfully submitted.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)							
Extending the water supply from the corner of academic building to the cavalry stables and riding-hall.....	do.....				950 00		
NOTE.—The commanding officer, U. S. M. A., detachment of cavalry (First Lieutenant J. D. C. Haskins, Third Artillery), reports that about eleven years ago, by the labor of the cavalry detachment, a trench was dug and an ordinary gas-pipe laid therein for the purpose of conveying water from the main, near Grant Hall, to the riding-hall and stables. He further states that the supply of water so delivered has never been sufficient; that now it is totally inadequate, and in case of fire would be of no avail; and that it is insufficient to fill an ordinary hose, so that the men, in washing out the stalls, have to carry the water in buckets at the expense of no little time and labor. Under these circumstances it is respectfully recommended that the sum asked for be granted in order that a pipe may be laid sufficiently large to carry an adequate supply of water for the proper service of the riding-hall and stables and to meet the exigencies of a fire.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)							
Laying about 1,500 feet of 4-inch cast-iron gas-main between the cadet-hospital and quarters No. 28.....	do.....				1,405 00		
NOTE.—This new main is necessary in order that the officers' quarters at the south end of post may be furnished with sufficient gas for illuminating and other purposes.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)							
Renewing the water supply pipe between quarters No. 28 and the south end of post.....	do.....				262 50		
NOTE.—With this amount it is proposed to lay about 550 feet of two-inch galvanized iron pipe for the purpose of carrying a sufficient supply of water between the points covered by this estimate. For many years the present one and one-fourth inch pipe has been insufficient for conducting the supply of water needed by the occupants of quarters at the south end of post.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)							
General repairs, painting, pointing, shingling, etc., of cadet laundry building.....	do.....				145 00		
Repairing the smoke stack (chimney) of same.....	Submitted.....				250 00		
NOTE.—The above repairs did not appear in the estimate for last year for the reason that it was expected that the Quartermaster's Department, West Point, N. Y., would make such repairs.							
Believing that it is best to have a specific appropriation for the purpose named, the above appears for the first time in the estimate.—(Capt. Wm. F. Spurgin, 21st Inf'ty, Treas. U. S. M. A., Q. M. and Com'y of Cadets.)							
An isolated hospital.....	do.....				2,000 00		
NOTE.—Within the past year several virulent cases of diphtheria have broken out among residents of this post, and in nearly every case it has been found necessary, owing to the absence of a proper building for the accommodation of patients suffering with contagious diseases, to place the sick under canvas in order to prevent, if possible, the disease spreading. Whilst the greatest care and attention has been paid the patients so situated, it is known that they have suffered, and, in many cases their lives have been endangered, by the discomforts resulting from being placed in tents during inclement weather. In order to guard against the possibility of such diseases spreading, and with a view of giving the sick of this command such comforts as humanity dictates, it is proposed, with the sum called for herein, to erect a building well ventilated and easily fumigated, conveniently located, and in every way adapted for an isolated hospital or pest-house.—(Capt. Chas. W. Williams, A. Q. M., U. S. A.)							
Altering roof of wing of quarters No. 39.....	do.....				1,200 00		
NOTE.—The following remarks made by the officer occupying these quarters (Prof. C. W. Larned, U. S. M. A.), are respectfully submitted for consideration in connection with the work estimated for herein: "I have referred for several years to a defect in the construction of the wing of the quarters occupied by me, the effect of which is to render the upper rooms almost unfit for occupancy in extremes of temperature, either in summer or winter. This defect consists in imposing a tin roof immediately above the chamber ceiling, without sheathing above the ceiling joists, and an air space of only about 18 inches at the ridge line diminishing to nothing at the eaves. As a consequence, in hot weather the ceilings of the chambers become so heated as to render the interior almost intolerable, while in winter the converse holds, and the ceiling is so cold as to cause a constant current of cold air falling from above. During the past winter I was obliged to

		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
abandon one of these rooms on this account, and I attribute much of the sickness of my family to cold and draughts occasioned by the causes described.							
"An inspection shows that this difficulty can not be remedied by sheathing above the ceiling joists, for the reason that there is not room for the accommodation of a man's body. The only remedy which will be effective is to raise the roof to a full gable.							
"In this connection I will call attention to the fact that outside of the servant's room there are in this set of quarters but four chambers, <i>i. e.</i> , two in main building and two in wing—a smaller number I believe by at least two chambers than in corresponding sets occupied by permanent residents. By raising the roof of wing to a full gable one or possibly two chambers might be added to the wing affording very much needed room, and at the same time remedying the trouble described above. These considerations are so important to the comfort and well-being of my household that I have the honor to request that the change above described or some similar alterations be effected, by which additional chamber accommodations will be afforded and the rooms above referred to rendered comfortable."							
With the amount asked for herein it is proposed to change this roof to a full gable, thereby adding one more chamber to these quarters.—(Capt. Chas. W. Williams, A. Q. M., U. S. Army.)

<i>Improvement of Yellowstone National Park—</i>							
To open at least 65 miles of new road, and to maintain the completed roads in such condition as to make traveling reasonably comfortable and free from the dust nuisance.....	Aug. 30, 1890					150,000 00	75,000 00
NOTE.—The officer in charge of this improvement remarks: "The appropriations for this work have so far been made under an annual appropriation, which has to be expended during the fiscal year for which it was made. In this class of appropriations all balances unexpended at the close of the fiscal year revert to the Treasury, so that during the long sessions of Congress, on the 1st of July the work suddenly finds itself out of funds. Since the appropriation bills are usually passed some time in July or August, all hands have to be discharged right in the best part of the season. Everything has to be cleared up, carted a long distance and stored, and we have to trust to luck for assembling our experienced hands a month or so later when the new appropriation becomes available. Now, the working season at such high altitudes is very short, from May to October at best, and the operation of cutting it in two in the middle is not wise. This matter can easily be remedied by adding to the appropriation section a proviso that the funds shall be available until wholly expended whether within the fiscal year or not. Another proviso, to the effect that the Secretary of War may carry on the work by contract, or otherwise, as may be most economical and advantageous to the Government, would have the effect of placing it on exactly the same status as the appropriations for river and harbor improvements. The work being of the same character, and being conducted under the same organization and methods would be placed upon the same advantageous plane for economical administration as those."

PUBLIC PRINTING AND BINDING.								
The following are the estimates for public printing, binding, and paper for the same, as furnished by the Library of Congress and the several Executive Departments, under the provisions of section 2, act of May 8, 1872 (R. S., page 720, section 3661):								
LIBRARY OF CONGRESS.								
<i>Printing and Binding</i> —								
Printing and binding, to be executed under the direction of the Public Printer, as follows: Printing and binding copyright records and blanks, binding of books and periodicals for the Library of Congress, and printing and binding Catalogue.....						\$15,000		
STATE DEPARTMENT.								
<i>Printing and Binding</i> —								
Printing and binding, to be executed under the direction of the Public Printer.....						25,000		
TREASURY DEPARTMENT.								
<i>Printing and Binding</i> —								
Printing, and paper for the same; blank books, binding, ruling, and all other work for the Treasury Department, heretofore estimated for by the Public Printer.....						325,000		
SMITHSONIAN INSTITUTION.								
<i>Printing and Binding</i> —								
Printing labels and blanks, and for the bulletins and annual volumes of the Proceedings of the National Museum						\$18,000		
Binding						1,000		
						19,000		
NOTE.—It is not intended to increase the number of annual issues of the Bulletins and Proceedings of the Museum, but to print a larger edition of each, in order to furnish copies to the principal educational institutions and libraries in the country, the editions now printed being inadequate to supply half the demand.								
The Museum has received no appropriation for binding for a period of three years. It is now absolutely necessary that many books in constant use in the library should be bound in order to prevent their destruction.								
WAR DEPARTMENT.								
<i>Printing and Binding</i> —								
Printing and binding for the War Department and its bureaus, to be executed under the direction of the Public Printer, as follows:								
Office of Secretary of War (including the Record and Pension Division).....						\$18,400		
Office of Adjutant-General.....						20,000		
Office of Inspector-General						500		
Office of Judge-Advocate General..						500		
Office of Quartermaster-General						18,000		
Office of Commissary-General.....						4,500		
Office of Paymaster-General.....						2,000

		Vol. or R. S.	Page.	Sec.			
LIGHT-HOUSE ESTABLISHMENT.							
NOTE.—In relation to certain changes desired in the wording of the appropriations for the Light-House Establishment, see Appendix "Gg."							
<i>Salaries of Keepers of Light-Houses—</i>							
Salaries, fuel, rations, rent of quarters and traveling expenses, where necessary, and similar incidental expenses of not exceeding 1,200 keepers of fog-signals and light-houses, and for laborers attending other lights, or temporarily employed in the place of keepers..	Appropriated..	R. S. 26	908 377	4673 1	\$660,000 00	\$630,000 00
NOTE.—It is estimated that \$660,000 will be needed. The exact number of keepers who will then be in the service can not readily be determined, but it is safe to take as a basis 1,150, although it is not impossible that the number may run up to 1,200. The average rate fixed by law, to be exceeded, is \$600 per keeper, but taking \$550 as the average, the amount needed will be \$660,000.							
<i>Supplies of Light-Houses—</i>							
Supplying fog-signals, light-houses, and other lights with illuminating, cleaning, preservative, and such other materials as may be required for annual consumption, for books, boats, and furniture for stations, and for the purchase of technical and professional books and periodicals for the use of the Light-House Board, and other incidental expenses.....	Appropriated..	26	377	1	408,000 00	350,000 00
NOTE.—The estimate under this head for 1888 was \$350,000, and but \$340,000 was appropriated, which was all expended. There were in operation that year seven hundred and seventy-seven light-stations. The same amount, \$340,000, was appropriated for 1889, and it was all expended. As the number of light-stations was increased from seven hundred and seventy-seven to seven hundred and eighty-three, the appropriation proved to be insufficient and some needed things were left undone. The last appropriation, that for 1890, was \$350,000. Meantime the number of light-stations, including beacon-lights, has increased to about eight hundred and thirty-three. The number will be still further increased under the appropriations made for 1891, and it is presumed that further increase in the number will be made under the appropriations for 1892. The appropriation for present year will not serve to keep the present lights properly supplied without the severest economy.							
<i>Repairs of Light-Houses—</i>							
Repairing, rebuilding, and improving light-houses and buildings; for improvements to grounds connected therewith; for establishing and repairing pierhead and other beacon-lights; for illuminating apparatus and machinery to replace that already in use; for payment, in cases where no other appropriation is available, or costs of legal services incurred in defending the rights of the United States Light-House Establishment, in prosecuting infringements thereof, or in obtaining title to lands or interest in lands required for light-house purposes by proceedings in condemnation, and for incidental expenses relating to these various objects.....	Appropriated..	26	377	1	400,000 00	340,000 00
NOTE.—The appropriation for 1889 was \$300,000, and \$40,000 was appropriated to make up the deficiency on that year. The last appropriation was \$340,000. The next appropriation should be \$400,000. The board depends upon this appropriation for means with which to preserve the fixed aids to navigation and to keep them in a state of efficiency. The number of these aids is increased from year to year. The appropriation should be increased in like proportion. Instances have occurred where the Attorney-General, at the request of the Light-House Board, made through the Treasury Department, has directed United States attorneys to defend in the proper courts suits brought against the U. S. Light-House Board, or to bring suits to prevent or to stop trespass on or injury to light-house sites or other light-house property, or to commence proceedings in condemnation to acquire title to land or interests in land needed for light-house purposes. Accounts for the legal services rendered and the costs incurred after having been taken in open court, and approved by the Attorney-General, have been presented to the Light-House Board, but payment could not be made, for the reason that there was no appropriation available therefor.							
<i>Expenses of Light-Vessels—</i>							
Expenses of maintaining and replacing light-vessels and establishing temporary light-vessels where necessary, seamen's wages, rations, repairs, salaries, supplies, and incidental expenses of light-vessels.....	Appropriated..	26	378	1	290,000 00	245,000 00
NOTE.—On June 30, 1888, the Board had thirty-two light-vessels. The appropriation made for their expenses during that year was but \$215,000, and it was all expended. On June 30, 1889, the Board also had thirty-two light-vessels. The appropriation made for that year was \$215,000, the same as on the previous

		Vol. or R. S.	Page.	Sec.			
<i>Expenses of Light-Vessels—Continued.</i>							
<p>year. That was all expended. On June 30, 1890, the Board had 31 light-vessels. The appropriation for the year to end on June 30, 1891, was \$245,000. For a portion of that year there will have been 33 light-ships, of which 27 will have been on station at sea, so that the increase in the appropriation will scarcely more than meet the increase in the expenses of the establishment. Appropriation has been made for building five more light-ships, which it is expected will be on their stations during the coming fiscal year, as will be the 3 new light-ships now on the stocks. It will cost at least \$7,000 a year each to maintain 35 of these vessels in active service, and \$1,500 each for five relief vessels. It will take, at least, \$20,000 to repair and bring the vessels now in the service up to the proper standard. It will take, at least, \$18,000 to replace the reserve store of anchors, chain-cable, and the like, drawn out and not replaced. Hence there is needed an appropriation of \$290,000.</p>							
<i>Expenses of Buoyage—</i>							
Expenses of establishing, replacing, and maintaining lighted and other buoys, spindles, and day-beacons, and for incidental expenses relating thereto.....	Appropriated..	26	378	1	\$400, 000 00	\$335, 000 00
<p>NOTE.—On June 30, 1888, there were in place 4,464 buoys, spindles, and day-beacons. There was appropriated \$325,000 for this purpose for that year, and it was all expended. On June 30, 1889, there were in place 4,693 buoys, spindles, and day-beacons, and the appropriation for that purpose and for that year was \$325,000, the same as the year before. That amount was also all expended, but it was insufficient to do all that was needed. On June 30, 1890, there were in place 4,678 buoys, spindles, and day-marks. The appropriation for that year and for that purpose was but \$325,000, the same as in the three previous years, and it was all expended. Commerce has demanded many new buoys, but the appropriation was insufficient to do all that was needed. As the cost of buoyage is to a large extent caused by expenditures made for whistling-buoys and bell-buoys, both of which are very expensive, and which, as they mark dangerous places, are liable to be lost, it is estimated that it will take \$65,000 to put the service in a condition to be ready for the emergencies which are constantly arising, and to replace the drafts which have already been made upon the relief stock on hand in the 13 coast light-house districts, kept to replace lost buoys. Hence it is estimated that a total of \$400,000 will be required for the fiscal year to end June 30, 1892.</p>							
<i>Expenses of Fog-Signals—</i>							
Establishing, replacing, duplicating, and improving fog-signals and buildings connected therewith, and for repairs and incidental expenses of the same	Appropriated..	26	378	1	80, 000 00	65, 000 00
<p>NOTE.—On June 30, 1888, there were in operation 80 fog-signals, operated by steam or hot-air engines, and 152 fog-signals operated automatically by clockwork. The appropriation for maintaining them for that year was \$60,000. On June 30, 1889, the number of steam or hot-air fog-signals was the same, the number of automatic fog-signals was 158, and the appropriation was not increased. On June 30, 1890, there were 85 steam and 168 automatic fog-signals in operation, and though the Board had estimated that they would cost \$75,000, the appropriation for their maintenance was but \$65,000. The sundry civil appropriation act of August 30, 1890, provides for the establishment of six more steam fog-signals, and it is believed that the second session of the Fifty-first Congress will provide for a still larger increase of their number. Hence, it is estimated that at least \$80,000 will be needed for the maintenance of fog-signals, etc., during the coming fiscal year.</p>							
<i>Inspecting Lights—</i>							
Mileage and traveling expenses of members of the Light-House Board, including rewards paid for information as to collisions, and for the apprehension of those who damage light-house property	Appropriated..	26	378	1	5, 000 00	3, 000 00
<i>Lighting of Rivers—</i>							
<p>Establishing, supplying, and maintaining post and floating lights on the Hudson and East Rivers, New York; the Raritan River, New Jersey; the Connecticut River, Connecticut; the Delaware River, between Philadelphia and Bordentown, New Jersey; the Elk River, Maryland; the Cape Fear River, North Carolina; the Ashley River, to guide across Accabee Flats, South Carolina; the Savannah River, Georgia; the Inland Passage, between Savannah, Georgia, and Fernandina, Florida; the St. John's and Indian Rivers, Florida; at Chicot Pass, and to mark the navigable channel along Grand Lake, Louisiana; at the mouth of Red River, Louisiana; on the Mississippi, Missouri, Ohio, Tennessee, Illinois, and Great Kanawha Rivers; the St. Clair River, Lake St. Clair, and the River St. Mary, Michigan; Sacramento and San Joaquin Rivers, Suisun, and San Diego Bays, California; the Columbia and Willamette Rivers, Oregon; and on Puget Sound, Washington Sound, and adjacent waters, Washington; the</p>

		Vol. or R. S.	Page.	Sec.			
<i>Lighting of Rivers—Continued.</i>							
Light-House Board being hereby authorized to lease the necessary ground for all such lights and beacons as are for temporary use or are used to point out changeable channels, and which, in consequence, can not be made permanent.....	Appropriated..	26	378	1	\$350,000 00	\$280,000 00
<p>NOTE.—On June 30, 1888, there was maintained from this appropriation 1,422 lights, against 1,258 lights in the previous year. The amount of the appropriation for 1888 was \$225,000, while that for 1887 was \$150,000. On June 30, 1889 there were 1,577 lights maintained from an appropriation of \$250,000. The appropriation for the year ending June 30, 1890, was but \$254,000. There were on that date 1,584 river-lights. The appropriation to support them during the year ending June 30, 1891, was \$280,000. The increase in the number of lights during the last fiscal year was much less than river commerce required, but it was all that the appropriation would support. If the lights asked for on the rivers already named in the appropriation act are all provided there will be at least 1,700 of them. But it will be practically impossible to greatly increase the present number of lights from this appropriation, as the Board, because of lack of funds, has had not only to refuse to establish many lights asked for, but it has had, actually, to discontinue certain lights previously established. In 1888, but 18 rivers were lighted; in 1889, that number was increased to 22; the appropriation act for 1890 and 1891 names 25 rivers. If a proportionate increase is made in the special appropriation asked for 1892 the number of rivers to be lighted will be some 30 at least, and there will be some 1,900 lights to be maintained. As the rivers which are yet to be lighted are mainly in the East, where the expense of establishing and maintaining river-lights is greatest, it is estimated that for the lights which will then have to be provided for \$350,000 will be required.</p>							
<i>Survey of Light-House Sites—</i>							
Preliminary examinations, surveys, and plans for determining the proper sites and cost of light-houses and structures for which estimates are to be made to Congress.....	Appropriated..	26	378	1	1,000 00	1,000 00
Total Light-House Establishment.....						2,594,000 00	2,249,000 00
UNITED STATES COAST AND GEODETIC SURVEY.							
<p>Every expenditure requisite for and incident to the survey of the Atlantic, Gulf, and Pacific coasts of the United States and the coast of the Territory of Alaska, including the survey of rivers to the head of tide-water or ship navigation; deep-sea soundings, temperature, and current observations along the coasts and throughout the Gulf Stream and Japan Stream, flowing off the said coasts; tidal observations; the necessary resurveys; the preparation of the Coast Pilot; continuing researches and other work relating to terrestrial magnetism and the magnetic maps of the United States and adjacent waters, and the tables of magnetic declination, dip, and intensity usually accompanying them; and including compensation not otherwise appropriated for; of persons employed on the field-work, in conformity with the regulations for the government of the Coast and Geodetic Survey adopted by the Secretary of the Treasury; for special examinations that may be required by the Light-House Board or other proper authority, and including traveling expenses of officers and men of the Navy on duty; for commutation to officers of the field force while on field duty, at a rate to be fixed by the Secretary of the Treasury, not exceeding two dollars and fifty cents per day each; outfit, equipment, and care of vessels, used in the Survey, and also the repairs and maintenance of the complement of vessels, to be expended in accordance with the regulations relating to the Coast and Geodetic Survey from time to time prescribed by the Secretary of the Treasury, and under the following heads: <i>Provided</i>, That no advance of money to chiefs of field parties under this appropriation shall be made unless to a commissioned officer, or to a civilian officer, who shall give bond in such sum as the Secretary of the Treasury may direct.</p>

<i>Preservation of Collections, National Museum—</i>							
Continuing the preservation, exhibition, and increase of the collections from the surveying and exploring expeditions of the Government, and from other sources, including salaries or compensation of all necessary employés.....	Appropriated..	26	383	1	\$180, 000 00		
NOTE.—The yearly extending demands of the public, the great increase in the number of visitors, and the rapid growth of the collections have, during late years, caused the necessary scale of expenditure to increase, while that of the appropriations has not kept pace with it and is now so inadequate as to call for the serious attention of Congress.							
The expenditures under this head must bear some general relation to the extent of the collections and the number of visitors. Eight years ago the number of catalogued specimens was less than 200,000 and the appropriation was \$75,000. At the present time there are about 3,000,000 specimens under control, and the appropriation is \$140,000, which it has been for the last two years. While, then, the collections have increased fifteen times, the appropriations have been less than doubled, and not only the collections and the number of visitors, but almost all other necessary expenses have increased wholly out of proportion to the appropriations made by Congress.							
Within the last two years the Museum has begun to feel the effects of a struggle to carry on the maintenance and care of the Government collection with inadequate means. The salaries have always been less than in the Executive Departments, but the Museum is now constantly losing the most efficient of its clerks and preparators, on account of the low rate of pay.							
The appropriations have never been sufficient for the increase of the collection by purchase, so that these have been formed almost wholly by gift; but the Museum, which has no longer adequate means to care for those it has or to take care of more, now finds that the rate of increase is plainly lessening.							
That the Museum may not only hold the place already attained, but may keep pace with the scientific work of the Government in general, and may maintain a position not discreditable in comparison with similar establishments in other national capitals, an appropriation of \$180,000 is required.							
(Also see letter of Secretary of Smithsonian Institution to Senate Committee on Appropriations, June 12, 1890, Fifty-first Congress, first session. Report No. 1466, page 5.)							
To meet customs-duties on glass, tin, and other dutiable articles and supplies, imported for the National Museum..	Submitted.....				3, 000 00	\$183, 000 00	\$140, 000 00
NOTE.—Rendered necessary under the provisions of the act of October 1, 1890, "to reduce the revenue," etc. Public No. 330.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Furniture and Fixtures, National Museum—</i>							
Cases, furniture, fixtures, and appliances required for the exhibition and safe-keeping of the collections of the National Museum, including salaries or compensation of all necessary employes.....	Appropriated..	26	383	1	\$30,000 00	\$25,000 00
<p>NOTE.—The decrease of \$5,000 in the appropriation of this year for furniture and fixtures has necessitated a curtailment of expenses in the building of cases, which, since the Museum exhibits are constantly increasing in number, has compelled the leaving of many perishable objects of value exposed in the halls, a course which results in deterioration from dust and from the inevitable handling of curious sightseers.</p> <p>Every year the Museum is offered desirable private collections as gifts, or as long-time deposits, on condition that they be properly installed in suitable cases. It is from this source that many important recent additions to the national collections have been made, and in a large number of instances articles thus placed in the custody of the Museum, if installed to the satisfaction of the depositors, are never removed.</p> <p>In order to provide properly for the objects already in the Museum, as well as for the steady growth of the collections, an appropriation of \$30,000 is needed.</p>							
<i>Heating and Lighting, National Museum—</i>							
Expense of heating, lighting, electrical, telegraphic and telephonic service for the National Museum, including salaries or compensation of all necessary employes	Appropriated..	26	383	1	\$15,000 00		
<p>NOTE.—For the safety of the collections and the proper administration of the Museum, it is found necessary to keep the buildings heated for a greater number of hours daily than has heretofore been the custom. This requires a greater expenditure for fuel and for services. The gradual improvement in the electrical plant is also to be taken into consideration. An appropriation of \$15,000 is therefore necessary.</p>							
Removing old boilers under Museum hall in Smithsonian building, replacing them with new ones, and for necessary alterations and connections of steam-heating apparatus, and for covering pipes with fire-proof material	Appropriated.. Submitted.....	21	272	1	} 3,000 00	18,000 00	12,000 00
<p>NOTE.—These boilers have been in use for about fifteen years, and the tubes are consequently so warped and burnt that in order to heat the building without danger, it has been necessary for the past year to keep the fires burning night and day, and to limit the steam pressure to six pounds.</p>							
<i>Building, National Museum—</i>							
Removing the decayed wooden floors in the Museum building, substituting granolithic or artificial stone therefor, and for slate for covering trenches containing heating and electric apparatus, including all necessary material and labor, to be immediately available..	Appropriated.. Submitted.....	21	324	1	}	5,000 00	
<p>NOTE.—The floors of the Museum were laid in 1881, and were hurried to completion in order that the building might be ready for occupancy at the time of the inauguration of President Garfield. This necessitated the jaying of the boards in the damp concrete. The floors and timbers are now rotten, and constant patching is necessary.</p> <p>The main expense will be in paying the four center courts, which contain an area of about 17,000 square feet.</p> <p>Slight repairs to floors are also required in other parts of the building.</p>							
<i>Postage, Smithsonian Institution and National Museum—</i>							
Postage-stamps and foreign postal-cards and postage for the Smithsonian Institution, National Museum, and international exchanges.....	Appropriated..	26	383	1	1,000 00	500 00
<i>International Exchanges, Smithsonian Institution—</i>							
Expenses of the system of international exchanges between the United States and foreign countries, under the direction of the Smithsonian Institution, including salaries or compensation of all necessary employes.....	Appropriated..	26	383	1	32,400 00	17,000 00
<p>NOTE.—At present an appropriation of \$17,000 is made directly to the Institution for international exchanges, and smaller sums, aggregating about \$2,000, are granted to the various bureaus to enable them to repay the Smithsonian Institution a portion of the cost of sending their publications to foreign governments and institutions. It is the object of the increased estimate, now submitted, to secure greater rapidity of transmission, to make the increase in clerical force demanded by the constantly-increasing bulk of the exchanges, and to unite the entire exchange appropriation in a single item.</p>							
<i>North American Ethnology, Smithsonian Institution—</i>							
Continuing ethnological researches among the American Indians, under the direction of the Smithsonian Institution, including salaries or compensation of all necessary employes.....	Appropriated..	26	383	1	50,000 00	40,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>National Zoological Park, Smithsonian Institution—</i>							
Improvement and care of grounds:							
Continuing the construction of roads, walks, bridges, water-supply, sewerage, and drainage, and for grading, planting, and otherwise improving the grounds of the National Zoological Park, including salaries or compensation of all necessary employés.....	Apr. 30, 1890	26	78	1	\$29,500 00		
<p>NOTE.—The cost of improving this area of nearly 40 acres is estimated by Mr. Frederick Law Olmsted at about \$2,700 per acre, exclusive of buildings and bridges. There is inclosed herewith a copy of his estimates (marked Exhibit 1) relating to the subject, from which it is hoped that some reductions may still be made in practice. It should, however, be remembered that the cost of improving Central Park, New York, has already been not less than \$14,000 per acre, and that of Prospect Park, Brooklyn, \$9,000 per acre, while that of the large Franklin Park, Boston, is estimated at \$2,900 per acre. Twenty-nine thousand five hundred dollars should be appropriated for this work during the fiscal year ending June 30, 1892. The detailed estimate will be found in a special letter by the Secretary of the Institution.</p>							
Buildings and inclosures:							
Erecting and repairing buildings and inclosures for animals, and for administrative purposes, in the National Zoological Park, including salaries or compensation of all necessary employés.....	do.....				36,850 00		
<p>NOTE.—It is desired to proceed only with work which is absolutely necessary to creditably exhibit the animals now in the possession of the Government and those which are to be, at any rate, expected in such a collection, even at its first opening. Reliance is placed on the known disposition of the people of the country to donate specimens. The sums asked for animal-houses are within those usually expended for structures of this character, and certainly far within what will ultimately be required; but for that reason it is intended to arrange the actual buildings so that they can be enlarged in future years as money may be appropriated for the purpose.</p> <p>The sum asked for buildings and inclosures is \$36,850, for which detailed estimates are elsewhere given.</p>							
Maintenance and increase of collections:							
Care, subsistence, and transportation of animals for the National Zoological Park, and for the purchase of rare specimens not otherwise obtainable, including salaries or compensation of all necessary employés, and general incidental expenses not otherwise provided for.....	do.....				35,000 00	\$101,350 00	\$92,000 00
<p>NOTE.—It has been thought proper to group the regular current and incidental expenses of the park together, under the head of maintenance and increase of collections. Forty-two thousand dollars were appropriated for this purpose last year, but it is thought that \$35,000 will suffice for the fiscal year 1891-'92, notwithstanding the increase in the collections which is expected.</p>							
<i>Astro-physical Observatory, Smithsonian Institution—</i>							
Maintenance of astro-physical observatory, under the direction of the Smithsonian Institution, within the limits of the National Zoological Park, including salaries of assistants and the purchase of additional apparatus.....	Submitted.....					10,000 00	
<p>NOTE.—An astro-physical observatory and laboratory exists now under every considerable civilized government but that of the United States, which has none, except that the institution commenced one on the most modest scale in 1883, which now occupies a temporary structure on the grounds south of the Smithsonian building. Private citizens have subscribed \$10,000 for an astro-physical observatory under the charge of the Regents, in the hope that Congress would maintain it, and the Smithsonian Institution proposes, in this case, to contribute the most recent apparatus to the value of \$5,000 more.</p> <p>The sum now asked is to be applied to the completion of the plant and to pay the current expenses, including the salaries of three assistants, to be engaged in researches of great scientific and economic value, wholly distinct in apparatus, methods, and objects from the quite otherwise important ones of those of the U. S. Naval Observatory.</p> <p>It seems proper to state that the present appropriation is not asked for as an introduction to a larger one later, but that owing to the scale on which it is proposed to found and maintain this small establishment, no larger appropriation is contemplated as necessary for many years at least.</p> <p>In relation to the foregoing estimates under the Smithsonian Institution, see Appendix "I."</p>							
Total under Smithsonian Institution.....						430,750 00	326,500 00
FISH COMMISSION.							
Salary of Commissioner—	Jan. 20, 1888	25	1	1	}	\$5,000 00	\$5,000 00

Fence, walks, and gradings.....	Same acts.....				20,000 00		
do.....	do.....				1,500 00		
If the Engineer Department, U. S. A., will consent to transfer the iron pier the estimate would be as follows:							
Pier suitable for Engineer Department in exchange for iron pier.....						\$12,000	
Repairs to iron pier.....						10,000	
					96,500 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
<i>Completion of Quarantine Stations—Continued.</i>							
<i>Delaware Breakwater—Continued.</i>							
Mooring buoys, storehouses, etc.....	20,000						
Fences, walks, and grading.....	1,500						
Total.....	43,500						
NOTE.—So expensive a pier as the iron pier, which cost \$368,500, is understood as not absolutely required for the work of the Engineer Department. One could be erected for said department to meet all requirements at a cost of \$12,000. A pier for the quarantine service, however, near the station can not be erected for less than \$75,000. The iron pier in question is within 1,500 feet of the quarantine reservation, and is used only in completing the construction of the Delaware Breakwater. It will require \$10,000 to put it in complete repair, but with this additional cost it would be a saving to the Government to turn it over to the quarantine service and erect a less expensive pier for the Engineer Department, and it has been reported that the officers in charge would not object.

<i>Support of Indians on Military Reservations—</i>							
Support and civilization of Apache Indians, at Mt. Vernon barracks, Alabama, and San Carlos Indians, at Fort Union, New Mexico, including fuel, lights, straw, clothing, camp and garrison equipage, school-books, construction and repair of cabins, storehouses, subsistence, medical attendance and medicines, and for such other purposes as may be found necessary.....	Submitted.....					60,000 00	
NOTE.—Of the Indian prisoners of war under the custody of the War Department at Mt. Vernon Barracks, Ala., seventy-six are men, one hundred and fifty-eight women, twenty-one children over twelve years, and one hundred and seven children under twelve years of age. Those at Fort Union, N. M., of whom only fourteen are men and forty are women, are not prisoners of war, but being relatives of Indians among whom trouble was feared, they were removed from the San Carlos reservation as a precautionary measure. It has been found impracticable to properly provide for the care and maintenance of these Indians out of the regular War Department appropriations, and for that reason the above estimate is now submitted.

UNDER THE INTERIOR DEPARTMENT.							
COLLECTING THE REVENUE FROM PUBLIC LANDS.							
<i>Salaries and Commissions of Registers and Receivers—</i>							
Compensation of registers and receivers of local land offices, at not exceeding \$3,000 each: <i>Provided</i> , That the fees on homestead and timber-culture entries shall be included in calculating the fees and commissions of registers and receivers (see detailed statement in Appendix "Ss").....	Aug. 30, 1890	R. S. 26	392 389	2237, 2240 1	\$640,000 00	\$550,000 00
<p><small>NOTE.—The estimate submitted is based upon the actual earnings of registers and receivers of fees and commissions collected and turned into the Treasury by them during the fiscal year ended June 30, 1890, except in the offices lately established. As no business has been done the estimate is based upon maximum compensation.</small></p> <p><small>During the year ended June 30, 1890, the fees and commissions earned by registers and receivers (including homestead and timber-culture fees) amounted to \$1,343,798. The actual amount appropriated for registers and receivers as salaries, fees, and commissions, was \$550,000, which, if all expended, will leave a net revenue to the United States of \$793,798.</small></p>							
<i>Contingent Expenses of Land Offices—</i>							
Clerk-hire, rent, and other incidental expenses of the several land offices.....	Aug. 30, 1890	26	389	1	240,000 00	175,000 00
<p><small>NOTE.—The appropriation for the current fiscal year, amounting to \$155,000, and deficiency of \$23,000, in all \$183,000, was entirely inadequate to the needs of the service. This office was compelled to refuse many applications for allowances of clerk-hire, office rent, and other absolutely necessary expenses from the various offices during the past year owing to the limited appropriation. This office is now unable to authorize clerk-hire and office rent in very many cases where the public business absolutely requires such allowance, and in no instance have fuel or lights been paid for by the United States. During the fiscal year just ended the registers and receivers were called upon for a statement of the amount necessary to meet the incidental expenses of their offices for the fiscal year 1891, a copy of which will be found in Appendix, marked "Exhibit B," and to properly provide for the expenses of the offices (including the offices lately established) the amount asked for will be necessary.</small></p>							
<i>Expenses of Depositing Public Moneys—</i>							
Expenses of depositing money received from the disposal of the public lands.....	Aug. 30, 1890	R. S. 26	713 389	3617 1	10,000 00	10,000 00
<i>Depredations on Public Timber—</i>							
To meet the expenses of protecting timber on the public lands.....	Aug. 30, 1890	26	389	1	100,000 00	100,000 00
<i>Protecting the Public Lands—</i>							
The protection of public lands from illegal and fraudulent entry or appropriation.....	Aug. 30, 1890	26	389	1	120,000 00	120,000 00
<i>Expenses of Hearings in Land Entries—</i>							
Expenses of hearings held by order of the Commissioner of the General Land Office to determine whether alleged fraudulent entries are of that character or have been made in compliance with law.....	Aug. 30, 1890	26	389	1	30,000 00	30,000 00
<i>Settlement of Claims for Swamp Lands and Swamp Land Indemnity—</i>							
Salaries and expenses of agents employed in adjusting claims for swamp lands, and for indemnity for swamp lands.....	Aug. 30, 1890	26	389	1	20,000 00	20,000 00
<p><small><i>Provided</i>, That agents and others employed under this and the appropriations for "Depredations on the Public Timber" and "Protecting Public Lands," while on duty, shall be allowed per diem in lieu of subsistence, at a rate not exceeding \$3 per day, and actual necessary expenses for transportation.</small></p>							
<i>Reproducing Plats of Survey, General Land Office—</i>							
To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of surveys on file, and other plats constituting a part of the records of said office, and to furnish local land offices with the same.....	Aug. 30, 1890	26	389	1	25,000 00	2,500 00
<p><small>NOTE.—To reproduce the 30,000 old plats in this office, and to preserve them from actual destruction, the amount asked for is absolutely necessary. During the current year 7,800 copies of plats were sold; over 6,000 used in the Local Land Offices, Geological Surveys, and other bureaus of the Government. For those sold the Government received over \$2,300.</small></p>

<i>Transcribers of Records and Plats—</i>							
Furnishing transcripts of records and plats, to be expended under the direction of the Secretary of the Interior.....	Aug. 30, 1890	26	389	1		\$12,500 00	\$12,500 00
Total Public Lands Service, exclusive of surveying.....						1,197,500 00	1,020,000 00
SURVEYING THE PUBLIC LANDS.							
<i>Surveying the Public Lands—</i>							
Surveys and resurveys of public lands, \$400,000, at rates not exceeding \$9 per linear mile for standard and meander lines, \$7 for township, and \$5 for section lines, except that the Commissioner of the General Land Office may allow for the survey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding \$13 per linear mile for standard and meander lines, \$11 for township, and \$7 for section lines, and in cases of exceptional difficulties in the surveys, the work can not be contracted for at these rates, compensation for surveys and resurveys may be made by the said Commissioner at rates not exceeding \$18 per linear mile for standard and meander lines, \$15 for township, and \$12 for section lines: <i>Provided</i> , That in the State of Washington there may be allowed, with the approval of the Secretary of the Interior, for the survey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding \$25 per linear mile for standard and meander lines, \$23 for township, and \$20 for section lines.....	Aug. 30, 1890	R. S. 26	390 389	2223 1		\$400,000 00	\$425,000 00
And of the sum hereby estimated, not exceeding \$50,000 may be expended for examinations of public surveys in the several surveying districts in order to test the accuracy of the work in the field and to prevent payment for fraudulent and imperfect surveys, and for examinations of surveys heretofore made and reported to be defective or fraudulent, and inspecting mineral deposits, coal-fields, and timber districts; and for making such other surveys or examinations as may be required for identifications of lands for purposes of evidence in any suit or proceedings in behalf of the United States.							
<i>Surveying Private Land Claims in Arizona—</i>							
Expenses attending the survey and examination of private land claims in Arizona, including the compensation of clerks and translators and the expense of investigating claims, titles, and boundaries.....	Aug. 30, 1890	R. S. 26	390 390	2223 1		5,000 00	5,000 00
<i>Surveying Private Land-Claims in California—</i>							
Survey of confirmed private land-claims in California at the rates prescribed by law, including office expenses incident thereto.....	Aug. 30, 1890	R. S. 26	390 390	2223 1		1,000 00	2,000 00
<i>Surveying Private Land-Claims in Louisiana—</i>							
Original surveys, resurveys, and corrective surveys of confirmed private land-claims in Louisiana.....	Appropriated- Submitted.....	R. S. 24	390 240	2223 1		8,000 00	
<i>Surveying Private Land-Claims and Preservation of Spanish Archives in New Mexico—</i>							
Expenses attending the survey and resurvey of confirmed private land-claims (\$5,000), survey and resurvey of unconfirmed private land-claims (\$20,000) in New Mexico.....	Aug. 30, 1890	R. S. 26	390 390	2223 1		25,000 00	3,000 00
<p>NOTE.—In explanation of the estimate for the survey of private land claims in New Mexico, the following quotation is made from the surveyor-general's letter submitting estimates for the fiscal year ending June 30, 1892:</p> <p>"I think it is generally realized by the officers of the Government and by members of Congress, as well as by citizens generally, 'that the unsettled condition of land titles in New Mexico should not be allowed to continue.' The first step to attain the object of bringing order out of this confusion must be careful surveys to determine the amount of land that should be embraced in valid private land claims, to reconcile, as far as possible, conflicting boundaries and to prepare maps showing the extent and position of each claim.</p> <p>"To do this in so vast a territory will require much labor and a large expenditure of money, and I am satisfied that in justice to the people of this Territory the items asked for above for surveys of land grants and for the clerical force of this office should not be reduced.</p>

<i>Surveying Private Land-Claims and Preservation of Spanish Archives in New Mexico—Continued.</i>							
<p>"As the matter now stands, I am, in many cases, unable to recommend the reservation of land for ancient and valid private land claims, for the reason that the description given in the documents, by virtue of which colonies were settled and put in possession of lands in different parts of the Territory, scores and even hundreds of years ago, are often simply statements of natural objects which bound such claims on the different sides, and these boundaries can not be determined in relation to the public surveys without a careful location of the grant on the ground; and so, in hundreds of cases, claimants, under the United States land laws, are coming in conflict with the ancient inhabitants, whose rights were guaranteed by solemn treaties of the nation.</p> <p>"Entrymen make filings upon their villages, houses, and churches, and I know of no way of preventing this confusion, except as suggested above.</p> <p>"It has heretofore been impossible to do anything, because the money for the requisite surveys have not been appropriated.</p> <p>"The surveys are equally needed whether a land-court bill is enacted or not."</p>							
<i>Survey, Appraisal, and Sale of Abandoned Military Reservations—</i>							
Necessary expenses of survey, appraisal, and sale of abandoned military reservations transferred to the control of the Secretary of the Interior under the provisions of an act of Congress approved July 5, 1884 (23 Stats., page 103, section 2)	Aug. 30, 1890	26	390	1	\$8,000 00	\$8,000 00	
<i>Salaries of Custodians of Abandoned Military Reservations—</i>							
Salaries of custodians of abandoned military reservations, at not exceeding \$720 each per annum.....	Submitted.....				18,000 00		
<p>ABANDONED MILITARY RESERVATIONS.—(1) Camp Crittenden; (2) Fort Bidwell, Cal.; (3) Camp Cady, Cal.; (4) Camp on White River, Colo.; (5) Pike's Peak, Colo.;* (6) Fort Sisseton, Dak.†; (7) Fort Dodge, Kans.; (8) Fort Wallace, Kans.; (9) Fort Hays, Kans.; † (10) Fort Ellis, Mont.; (11) Fort Wilkins, Mich.; (12) Fort Halleck, Nev.; † (13) Fort McDermot, Nev.; † (14) Fort Craig, New Mex.†; (15) Fort Klamath, Oreg.; (16) Fort Thornburg, Utah; (17) Fort Colville, Wash.; (18) Fort Fred Steele, Wyo.; † (19) Fort Fetterman, Wyo.; (20) Fort Lyon, Colo.; † (21) Fort Maginnis, Mont.; (22) Point Roberts, military reservation, Wash.; (23) Fort Laramie, Wyo.; † (24) Ruin of Casa Grande, Ariz.; † (25) Detroit, Mich., Arsenal grounds †</p> <p>On the reservations above referred to are buildings, officers' quarters, barracks, store-houses, corrals, hospitals, gymnasiums, and other valuable improvements of such value that custodians are absolutely necessary.</p>

MISCELLANEOUS OBJECTS.										
<i>Expenses of the Eleventh Census—</i>										
Salaries and necessary expenses for taking and compiling the results of the Eleventh Census.....	Mar. 1, 1889 June 18, 1890 Aug. 30, 1890	25 26 26	760 161 392	20 1 1	}	\$1,000,000 00	\$4,475,000 00			
<i>Payment for Supreme Court Reports—</i>										
Paying the reporter of the Supreme Court for seventy-six copies, each, of volumes 138, 139, 140 of United States Reports, at \$2 per volume.....	Feb. 12, 1889	25	661	1				456 00		
<i>Current Expenses, Government Hospital for the Insane—</i>										
Support, clothing and treatment, in the Government Hospital for the Insane, of the insane of the Army and Navy, Marine Corps, Revenue-Cutter Service, persons charged with or convicted of crimes against the United States who have become insane, inmates of the National Home for Disabled Volunteer Soldiers, and of all persons who have become insane since their entry into the military or naval service of the United States, and who are indigent, also the indigent insane of the District of Columbia, as provided in sections 4844 and 4850 of the Revised Statutes of the United States.....	Aug. 30, 1890	R. S. 26	938 392	4838- 4858 1	}	233,930 00	226,000 00			
<p>NOTE.—The estimate is for an estimated average number of 1,475 indigent insane persons of the above classes who are, by United States law, entitled to care and treatment in the hospital. The basis of the estimate is a per capita annual cost of \$220. Congress has, for some years, provided for a part of this expenditure in the District bill. Assuming the ratio to be the same as that of the present fiscal year, the amount in that bill will be \$90,570, leaving the sum of \$233,930 to be appropriated in the sundry civil bill, of which sum it is asked that the usual amount, \$1,500, may be available to defray the expenses of the return of patients to their friends.</p> <p>The hose tower on the steamer house, central in position, and visible from almost every portion of the hospital buildings, requires a clock and a bell for its completion. The need for a central time-keeper, regulating the movements of all, is apparent, and the companionship to the inmates of a bell striking the hours is of value out of proportion to this very moderate expenditure.</p> <p>For the most effective service of our steamer in the event of fire, and as a further protection in that direction, two additional reservoirs for the storage of water are required. The position is such that with stone retaining walls, properly cemented and buttressed, considerable bodies of water can be stored which, in addition to their immediate purpose as reservoirs for fire service, can be made available as ponds for the growth of carp for the inmates, a first step in the direction of water gardening or farming.</p> <p>If the present system of lighting the buildings and grounds by gas is to be continued the time has come when the second of the old gas-holders must be renewed, it having, by reason of leaks, become unfit for further use. It would seem, however,</p>

<i>Current Expenses, Government Hospital for the Insane—Cont'd.</i>							
judging by the example of other hospitals, that the time had come to abandon the old method of lighting by gas which, with its multiplicity of jets, more or less accessible to the insane, is always to some extent a source of danger, and is also objectionable by its heat in summer, and, by its tendency to smoke, is so at all times, and to substitute therefor the incandescent electric light. This form of light seems to have passed beyond the stage of experiment and is now recognized as the most satisfactory method of lighting buildings of the class. The sum of \$18,500 is asked for an electric plant to place the incandescent lights throughout the establishment, together with such other electric appliances as may be needed in the treatment of the insane.							
<i>Current Expenses, Columbia Institution for the Deaf and Dumb—</i>							
Support of the institution, including salaries and incidental expenses, for books and illustrative apparatus, and for general repairs and improvements.....	June 10, 1872 Aug. 30, 1890	17 26	360 392	1 1	\$52,500 00

<i>Expenses of Treasury Notes, Act July 14, 1890—</i>							
That the Secretary of the Treasury is hereby directed to purchase, from time to time, silver bullion to the aggregate amount of four million five hundred thousand ounces, or so much thereof as may be offered in each month, at the market price thereof, not exceeding one dollar for three hundred and seventy-one and twenty-five hundredths grains of pure silver, and to issue in payment for such purchases of silver bullion Treasury notes of the United States to be prepared by the Secretary of the Treasury, in such form and of such denominations, not less than one dollar nor more than one thousand dollars, as he may prescribe, and a sum sufficient to carry into effect the provisions of this act is hereby appropriated out of any money in the Treasury not otherwise appropriated. That the Treasury notes issued in accordance with the provisions of this act shall be redeemable on demand, in coin, at the Treasury of the United States, or at the office of any assistant treasurer of the United States, and when so redeemed may be reissued; but no greater or less amount of such notes shall be outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom, then held in the Treasury purchased by such notes; and such Treasury notes shall be a legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract, and shall be receivable for customs, taxes, and all public dues, and when so received may be reissued; and such notes, when held by any national banking association, may be counted as a part of its lawful reserve. That upon demand of the holder of any of the Treasury notes herein provided for the Secretary of the Treasury shall, under such regulations as he may prescribe, redeem such notes in gold or silver coin, at his discretion, it being the established policy of the United States to maintain the two metals on a parity with each other upon the present legal ratio, or such ratio as may be provided by law.....	July 14, 1890	26	289	1-2	\$310,000 00	\$305,000 00	
<i>Coinage of Silver Bullion—</i>							
That the Secretary of the Treasury shall each month coin two million ounces of the silver bullion purchased under the provisions of this act into standard silver dollars until the first day of July, eighteen hundred and ninety-one, and after that time he shall coin of the silver bullion purchased under the provisions of this act as much as may be necessary to provide for the redemption of the Treasury notes herein provided for, and any gain or seigniorage arising from such coinage shall be accounted for and paid into the Treasury. That the silver bullion purchased under the provisions of this act shall be subject to the requirements of existing law and the regulations of the mint service governing the methods of determining the amount of pure silver contained, and the amount of charges or deductions, if any, to be made. That so much of the act of February twenty-eighth, eighteen hundred and seventy-eight, entitled "An act to authorize the coinage of the standard silver dollar and to restore its legal-tender character," as requires the monthly purchase and coinage of the same into silver dollars of not less than two million dollars, nor more than four million dollars' worth of silver bullion, is hereby repealed..... APPENDIX.

APPENDIX

APPENDIX.

APPENDIX A.

In relation to the estimates for "Salaries, office of Supervising Architect." (See page 20.)

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., November 7, 1890.

SIR: I have the honor to inclose herewith the estimates of salaries for this office for the fiscal year ending June 30, 1892, in amount, \$7,720, and for skilled services, draughtsmen, etc., \$200,000.

The estimates of appropriation for the fiscal year ending June 30, 1892, differ from those authorized by the legislative act, approved July 11, 1890, for the fiscal year ending June 30, 1891, in the omission of one clerk of class one, at \$1,200, and the increase from \$175,000 to \$200,000 for skilled services, draughtsmen, etc., which is required to pay for additional services necessary to prepare plans, etc., for the new buildings whose erection has been authorized.

It will be observed that in my annual report I have recommended that the salary of the "assistant and chief clerk" be increased to at least \$3,500 for reasons fully set forth therein.

Referring to act of Congress, approved February 26, 1889, I inclose herewith a list showing the employes in this office, and the amount paid to each during the fiscal year ending June 30, 1890, for transmittal to Congress with the annual estimates.

Respectfully yours,

JAMES H. WINDRIM,
Supervising Architect.

Hon. WILLIAM WINDOM,
Secretary of the Treasury, Washington, D. C.

List of employes in office of Supervising Architect, Treasury Department, and amounts paid each, during the fiscal year ended June 30, 1890, from appropriations for public buildings, furnished under requirements of the act of Congress, approved February 26, 1889, 25 Statutes, p. 715. (See estimate for 1892, on page 20.)

APPENDIX B.

In relation to the estimates for "Salaries, office of Second Comptroller." (See page 21.)

TREASURY DEPARTMENT, SECOND COMPTROLLER'S OFFICE, Washington, D. C., September 20, 1890.

SIR: Pursuant to instructions contained in Department circular letter of August 30, 1890, transmitting blank forms for Estimates of Appropriations for the fiscal year ending June 30, 1892, I have the honor herewith to return the forms duly filled, and, in so doing, I beg to invite your attention to the increase I have made in the number of clerks estimated for over the number now employed in this office, and also to the change in the estimate for compensation to the clerks employed in the adjustment of the accounts of the Soldiers' Home.

This increase I regard as absolutely necessary for the prompt dispatch of the public business transacted by this Bureau, and especially in view of recent legislation relating to pensions by which the pension roll will be greatly enlarged, and, as a consequence, the number of pension accounts and vouchers sent to this office for examination and settlement will be materially multiplied.

There is, in addition to this, another reason worthy of consideration why the clerical force of the office should be strengthened. It lies in the fact that there is a very perceptible continuing increase in numbers of nearly all classes of accounts and claims in the adjustment and settlement of which this office has jurisdiction, and without sufficient force to examine and dispose of the same as fast as they are presented they will so rapidly accumulate as at least to cause embarrassment to the public service, even if it does not also occasion great risk to the interests of the Government by delaying the examination of the accounts of disbursing officers and others accountable for the public funds.

This matter has before been made the subject by me of several communications wherein I endeavored to show the urgent necessity which in my judgment exists for adding to the working force of the office, and I would not again repeat the views therein set forth did I not believe that the exigencies of the situation require me so to present the facts that the existing want may be made apparent to Congress, to the end that the responsibility for such embarrassment as may result from an insufficient clerical force shall not rest upon the officers of this Department.

With reference to the change made in the estimate for clerks employed on the Soldiers' Home roll of this office, I would invite your attention anew to a communication which I had the honor to address to you in June last, in which I pointed out the inequality existing in the rates of compensation allowed to clerks engaged on the same class of accounts in the offices of the Second Auditor and the Second Comptroller, and wherein I took occasion to say that as the clerks in this office are expected to re-examine and to be capable of correctly revising the work of the Auditor's clerks, that therefore they should certainly be regarded as entitled to receive a rate of compensation at least equal to that paid to the same class of clerks in the Auditor's office.

I have the honor to be, very respectfully,

B. F. GILKESON,
Comptroller.

Hon. WILLIAM WINDOM, Secretary of the Treasury.

APPENDIX C.

In relation to the estimates for "Salaries, office of First Auditor." (See page 22.)

TREASURY DEPARTMENT, FIRST AUDITOR'S OFFICE,
Washington, D. C., June 2, 1890.

SIR: I have the honor to call your particular attention to the necessity for an increase in the clerical force of this office. You will doubtless recollect that this matter was set forth by me in a communication addressed to you under date of October 1, 1889, in submitting my estimate for appropriations required for this office for the fiscal year ending June 30, 1891. As it is understood that the recommendations contained in the letter referred to were not accepted by you and favorably acted upon in recommending the desired, and, as I think, very much needed, increase of force, it is thought best to again address you on the subject, in the hope of being able to so present the matter to your mind as to induce you to recommend favorable action by Congress in the direction sought. No addition to the force of the office has been made since 1885, when Congress increased the number of clerks by four. Since the additional clerks referred to were allowed, the work of the office has been augmented very much in various directions, notable among which I name establishing additional judicial district of Southern California, the subdivision of the western district of Missouri, the division of the late Territory of Dakota into two States, the creation of the district of the Indian Territory, also the Territory of Oklahoma and the Territory of Alaska. The passage by Congress of the Chinese Exclusion Act has largely increased the work in the examination of judicial accounts from various localities. By reference to the Sundry Civil Act of March 2, 1889, wherein appropriation for "Fees and Expenses Marshals United States Courts," 1890, is made, it will be observed that it is provided that a large proportion of said appropriation must, if used at all, be paid out as provided by Section 856, Revised Statutes, or, in other words, on settled accounts at the Treasury of the United States. This increases the work devolving upon this office very much. All accounts for appropriations for public buildings in the United States are settled in this office. As you are aware, Congress has made appropriations during the past few years for a very large number of these buildings. The present Congress has already made a good many such appropriations and doubtless will make more, thus adding to the work of the office, as a disbursing officer is appointed to disburse such appropriations, and in most cases for each individual appropriation, thus largely multiplying the rendition of accounts for settlement. The establishing of the Bureau of Labor has largely added to the work of the office, as all payments made by the disbursing officer for that bureau are audited in this office. The Interstate Commerce Commission, established in 1887, made the rendition and examination of a new series of accounts necessary to this office. The appropriation by Congress establishing a Zoological Park in the District of Columbia, the appropriation for a new Library Building, and the probable passage of the act creating the Columbus Park, together with the fact that the appropriations for the expenses of the District of Columbia have increased from \$3,500,000 in 1879 to nearly \$6,000,000 for the present year, shows the great increase of work in connection with appropriations for the District of Columbia alone. New customs districts are constantly being made throughout the United States, which adds to the work of the office. In fine, it is a fact that the business of the office must and does increase with the growth of the country, as all of the civil accounts of the Government, with but few exceptions, are audited in this office. For reasons herein given, showing to my mind conclusively the great necessity and benefit to the public service, I have the honor to earnestly request that you will recommend to Congress the following-named additional force in this office, viz: One chief of division; one fourth-class clerk; one third-class clerk; one second-class clerk.

In my letter of October 1, 1889, before referred to, I very earnestly recommend an appropriation for a messenger in place of an assistant messenger, as now provided by law, in this office, and I beg to invite your particular attention to that matter again, in the hope of favorable action by you.

Very respectfully,

GEO. P. FISHER,
Auditor.

Hon. SECRETARY OF THE TREASURY.

TREASURY DEPARTMENT, FIRST AUDITOR'S OFFICE,
Washington, D. C., September 16, 1890.

SIR: In transmitting the estimates for appropriations for this office for the fiscal year 1892, permit me to invite your particular attention to my letter of June 2, 1890, recommending an increase in the force of the office of a chief of division, and a second, third, and fourth class clerk, and to renew the same. In accordance with the recommendation referred to (a copy of which, for convenient reference, I herewith inclose), you were pleased to take favorable action by addressing a letter to the Senate Committee on Appropriations; but as Congress has failed thus far to grant the very much needed measure of relief, I am constrained to again appeal to you, in the hope of your being able to induce Congress to provide the additional clerical help asked for.

In this connection, allow me to give you some reasons in addition to those contained in my letter before mentioned, why, in my opinion, the desired increase in the force of the office should be made. The passing by Congress of the Act of June 10, 1890, in regard to customs matters, together with the prospective passing of a Tariff Act, will increase the work devolving upon this office very materially, as all matters pertaining to the collection of duties on imports come to this office for settlement.

For the reasons herein expressed and those contained in my letter of June 2, 1890, I hope and believe that you will urge upon Congress the absolute necessity for more clerical assistance in the office, to the end that the public service may not longer suffer.

Very respectfully,

GEO. P. FISHER,
First Auditor.

Hon. SECRETARY OF THE TREASURY.

APPENDIX D.

In relation to the estimates for "Salaries, office of Second Auditor." (See page 22.)

TREASURY DEPARTMENT, SECOND AUDITOR'S OFFICE,
Washington, October 1, 1890.

SIR: I have the honor to transmit herewith an estimate of the amount required for "Salaries, office of the Second Auditor," for the fiscal year ending June 30, 1892. The salaries of the Auditor, deputy auditor, and chiefs of divisions being fixed

by the act of March 3, 1875, at \$4,000, \$2,500, and \$2,100 respectively, I have again inserted those amounts in the estimate as the salaries authorized by law, and in this connection beg leave to invite attention to the note printed on page 28 of the Book of Estimates for 1891, as follows:

"The foregoing estimates are submitted on the basis of existing appropriations out of deference to the repeated action of Congress in appropriating for certain officers of the Treasury Department, at the rates of compensation therein stated. The Secretary feels, however, that injustice has been done to a number of meritorious officers, inasmuch as under the act of March 3, 1875 (18 Stat., 396), they are entitled to larger rates of compensation than have for some years been granted by the annual appropriation bills. The same conditions exist with respect to the laws fixing the rate of compensation to be paid to subtreasury officers and officers of Territorial governments."

The remainder of the estimate is based upon existing law and upon appropriations made for the service of the current fiscal year. All the clerks and other employes asked for are actually needed for the proper transaction of the business of this office, and it is even a question whether the force ought not to be increased, in view of the fact that on June 30 last there were 59,930 unsettled claims for arrears of pay and bounty, and the further fact that claims of this character are being filed at the rate of more than 3,000 per month. But I do not at present ask for more clerks, because, unless the force of the Second Comptroller's Office were also increased, no real advantage would result either to the Government or to claimants.

Respectfully yours,

J. N. PATTERSON,
Auditor.

Hon. SECRETARY OF THE TREASURY.

APPENDIX E.

In relation to the estimates for "Salaries, office of Third Auditor." (See page 23.)

TREASURY DEPARTMENT, THIRD AUDITOR'S OFFICE,
Washington, D. C., November 1, 1890.

SIR: In submitting the estimate for the Third Auditor's Office for the coming fiscal year, you will observe I have included an increase in the clerical force. This is based principally upon the fact that under the provisions of the pension act of June 27, 1890, the work of this bureau will be increased in proportion to the wider scope contemplated by this liberal and humane measure. Each added pensioner, and each additional pension appropriation, touches the business of this office, for all the details of vouchers, payments, rolls, and the systematized minutiae of the Army pension disbursement are audited here. Congress very justly granted, as a necessity for the prompt consideration of the claims arising under this act referred to, a substantial increase in the office of the Commissioner of Pensions and the Record and Pension Division of the War Department, and now, in my judgment, the accounting officers should be equipped with sufficient force to meet promptly the added volume of duties from this source. For the fiscal year just closed there was an increase of items touched in the ledgers of the Army pension division of 325,130, and the amount involved in excess of the year 1889 was \$14,241,628.44. This arose from the natural increase of pension business. To this will be the flood of added labor from new and more liberal legislation, and it will be impossible to meet the duties involved without the help asked for.

In addition to the above, I contemplate a transcript to permanent records of the soldiers of the war of 1812, in alphabetical arrangement, the preliminaries of which, culled from miscellaneous service and paymaster's rolls, have occupied a small force of clerks in this office for several years.

Respectfully yours,

W. H. HART,
Auditor.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX F.

In relation to the estimates for "Salaries, office of Fourth Auditor." (See page 23.)

TREASURY DEPARTMENT, FOURTH AUDITOR'S OFFICE,
Washington, D. C., September 29, 1890.

SIR: I have the honor to furnish herewith an estimate of the amount required for "Salaries, office of the Fourth Auditor," for the fiscal year ending June 30, 1892.

You will observe that I have submitted for your consideration and recommendation a slight increase in the force, consisting of one additional chief of division, two additional clerks of class four, and one additional clerk of class E (\$1,000).

There are five divisions in this Bureau, and under existing law only three chiefs of division. One is chief of the Claims Division, one of the Paymasters' Division, and one of the Navy Pay and Pension Division. The Book-keepers' Division and Record and Prize-Money Division are without chiefs. A clerk of the fourth class is now in charge of the Record and Prize-Money Division, and for purposes of convenience the Book-keepers' Division is also under his supervision. The Record and Prize-Money Division is one of the most important in the office, and since the recent pension legislation the work of that division has been materially increased. These reasons, I think, are sufficient to justify the appointment of a chief of this division.

The condition of the work in the Bureau renders necessary the employment of one additional clerk in each of three divisions. Two additional clerks were allowed this Bureau the last session of Congress. This increase in force, made necessary by the new pension legislation, is insufficient. But if the new increase now recommended should be granted, it would doubtless be sufficient to meet the demands of the office, unless the increase in correspondence between this Bureau and the Pension Office be considerably in excess of present calculations.

Very respectfully,

JOHN R. LYNCH,
Auditor.

Hon. SECRETARY OF THE TREASURY.

APPENDIX G.

In relation to the estimates for "Salaries, office of Sixth Auditor." (See page 24.)

OFFICE OF THE AUDITOR OF THE TREASURY FOR THE POST-OFFICE DEPARTMENT,
Washington, D. C., September 26, 1890.

SIR: In accordance with the requirements of Department circular letter of August 30, 1890, I have the honor to transmit herewith the estimate of appropriation for the service of this office for the fiscal year ending June 30, 1892.

It will be noted that I have submitted items of increase of salary as follows, viz:

Auditor, from \$3,600 to \$5,000 per annum.

Deputy auditor, from \$2,250 to \$3,000 per annum.

Chief clerk, from \$2,000 to \$2,500 per annum.

Disbursing-clerk, from \$2,000 to \$2,500 per annum.

Chiefs of divisions, from \$2,000 to \$2,100 per annum.

I am of the opinion that a just comparison of the duties and responsibilities of the positions named, in this office, with those of like grade in other bureaus of this Department, and in the bureaus of other Departments, will justify the propriety of the estimate for increase, and will demonstrate that the present salaries do not afford a sufficient compensation for such duties and responsibilities. There are many reasons for this opinion, which, if afforded an opportunity, I shall take pleasure in stating to you, and, with your permission, to the Committees on Appropriations, but at this time will not enter into detail, farther than to state that the clerical force of this office outnumbers that of any other accounting office in the Department, and very nearly equals the force of all such offices combined. The accounts finally audited by this office annually, without the intervention of a comptroller, aggregate in amount more than \$230,000,000. The number and amount of transactions involved increases annually in proportion to the growth of population in the country and the augmentation of business.

Expressing the hope that the estimate may receive your approval, and be transmitted to Congress with your recommendation, I am,

Respectfully yours,

T. B. COULTER, *Auditor.*

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX H.

In relation to the estimates for "Salaries, office of the Treasurer of the United States." (See pages 24, 25.)

TREASURY OF THE UNITED STATES,
Washington, September 19, 1890.

SIR: In conformity with your circular letter of August 30 last, I have the honor to transmit herewith, for your approval, an estimate of appropriation for salaries of the officers and employes of the office of the Treasurer of the United States for the fiscal year ending June 30, 1892.

I have the honor to state that this estimate, so far as it relates to the officers of the bureau, is a restoration of the salaries in accordance with Sections 2 and 3 of the Act of March 3, 1875 (18 Stats., 397).

In referring to the increase asked for in the salary of the Treasurer of the United States, it is still less, by \$1,000, than has been allowed for years past to the Assistant Treasurer of the United States in New York, who is a subordinate officer and whose responsibilities are much less than are placed upon the *head of this office*. Simple justice demands that his salary be made commensurate with the duties performed and the responsibilities assumed.

A reasonable increase is asked to the pay of the chief clerk, which has been entirely inadequate for the labor performed.

A new grade is asked for by taking *eight* of the fourth-class and making them principal clerks, reducing the number of the fourth grade to eighteen. This action is deemed necessary to in some measure compensate them for valuable services, and who have acceptably performed the duties of the chiefs of divisions during their absence. It is also a means for promotion on account of valuable services, which would be otherwise impossible under the present organization.

An increase of two in the \$1,000 grade. A corresponding reduction in the same grade will appear on the estimate for the National Bank Redemption Agency.

I have again to note an increase to the salary of the mail messenger from \$840 to \$1,000. The present compensation is deemed too small for the character of the labor performed.

An increase is asked for on the agency roll of one \$1,200 clerk, making a reduction on the estimate for that division of \$1,800.

The total increase for the regular roll is but \$9,160, and is barely sufficient to give proper encouragement to the present very efficient force of the office.

Just here I may advert to the fact that the officers and employes generally of the office of the Assistant Treasurer of the United States at New York have not failed these many years past to receive better pay than is allowed for equally faithful service in this office, and it is not seen why this disparity should be so marked in favor of the New York office.

In like manner it may be said that in large banking and business houses throughout the country the officers and clerks receive much better pay than is accorded to the officers and employes for which this increase is asked.

In another point of view, it is believed to be unwise and unjust to expect of public servants holding positions of trust and responsibility better service for less pay than can be obtained in private establishments, and it is also poor economy in the end, as it serves to lessen the high estimate that ought to be entertained in the integrity that should form an important element in the character of public servants generally holding positions of great trust.

I have, therefore, the honor to request, in view of the above facts, that you will kindly give your approval to the increase of the salaries as submitted in the accompanying estimate before forwarding the same to Congress for legislative action.

Respectfully yours,

J. N. HUSTON,
Treasurer United States.

Hon. WILLIAM WINDOM, *Secretary of the Treasury.*

APPENDIX I.

Statement of buildings rented in Washington by the Executive Departments, as required by the act of March 3, 1883, 22 Stat., p. 552

Buildings rented by the Treasury Department for the fiscal year 1891. (Estimate for 1892 on page 30.)

Location of building.	For what purpose used.	Annual rental.
No. 1308 F street.....	Marine-Hospital Service.....	\$1,800 00
Nos. 1333 and 1335 F street.....	Bureau of Statistics.....	3,070 00
No. 1428 E street.....	Treasury stables.....	650 00
Total.....		5,520 00

Statement of buildings rented for use of the War Department in the city of Washington during the fiscal year ended June 30, 1890. (Estimate for 1892 on page 47.)

Location of building.	For what purpose used.	Rental.	Remarks.
No. 1814 G street, N. W.....	Medical Dispensary.....	\$1,000 00	At rate of \$1,000 from July 1, 1889, to June 30, 1890.
No. 2005 G street, N. W.....	Office of Records of the Rebellion.....	1,200 00	At rate of \$1,200 from July 1, 1889, to June 30, 1890.
Total.....		2,200 00	

Buildings rented by the Interior Department. (Estimate for 1892 on page 56.)

Location.	For use of—	Annual rental.	Appropriation.
Northeast corner Eighth and G streets, N. W.....	Education Office.....	\$4,000 00	Rent of buildings.
Northwest corner Eighth and G streets, N. W.....	General Land Office.....	2,000 00	Rent of buildings.
Atlantic Building, F street, N. W.....	Indian Office.....	5,500 00	Rent of buildings.
Hooe Building, F street, N. W.....	Geological Survey.....	10,000 00	Rent of buildings.
Total.....		21,500 00	

Buildings rented by the Post-Office Department. (Estimate for 1892 on page 71.)

Location of buildings.	For what purpose used.	Annual rental.
Seaton House building, Louisiana avenue, part of building.....	City post-office.....	\$8,000 00
Fourth and East Capitol streets, northeast corner (cellar and first floor).....	Branch city post-office.....	900 00
No. 1413 F street, N. W. (first floor).....	Branch city post-office.....	1,000 00
Northwest corner of Eighth and E streets, N. W.....	Money-order office, Post-Office Department.....	8,000 00
No. 914 E street, N. W.....	Money-order division of the Sixth Auditor's office.....	*4,000 00
Nos. 418 and 420 Ninth street, N. W., part of second and third floors.....	Topographer's office, Post-Office Department.....	†1,500 00
Nos. 611 and 613 E street, N. W.....	Division of post-office supplies, Post-Office Department.....	4,000 00
Nos. 479 and 481 C street, N. W.....	Mail-bag repair-shop.....	3,000 00
Total.....		30,400 00

* At the rate of \$4,000 until February 1, 1891; after that date an appropriation, at the rate of \$9,000, will be available for another building during the remainder of the fiscal year.

† Heating included.

APPENDIX J.

In relation to the estimates for "Salaries, office of Assistant Treasurer at Baltimore." (See page 31.)

OFFICE OF ASSISTANT TREASURER U. S.,
Baltimore, Md., September 26, 1890.

SIR: I have the honor to transmit herewith my estimate for salaries of this office for the fiscal year ending June 30, 1892. You will perceive that I have estimated for the salary of the Assistant Treasurer at the amount fixed by the law creating the office, and which, considering the responsibility attached to it, was certainly not too high. I have also estimated for an additional clerk, at a compensation of \$1,400 per annum, and beg to submit the following reasons therefor: Although the business of the office has more than doubled, the number of employes is smaller than when it was first established. I find the clerical force to be insufficient for the careful and systematic transaction of the current business. There are times when the amount of work to be done each day taxes it beyond the point of either propriety or safety. It is constantly necessary to employ the messenger in clerical work, involving the counting and assorting of large sums of money. This is not just to either him or myself. He is called upon to perform duties for which he is not properly compensated, and the office is practically deprived of a messenger. I therefore trust that the small increase asked for will have your approval and sanction.

Respectfully yours,

G. L. WELLINGTON,
Assistant Treasurer U. S.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX K.

In relation to the estimates for "Salaries, office of Assistant Treasurer at New York." (See pages 32, 33.)

OFFICE OF ASSISTANT TREASURER U. S.,
New York City, September 29, 1890.

SIR: I have the honor, in accordance with the instructions conveyed in Department circular letter of August 30, 1890, to submit herewith the estimate of the appropriation required for this office for the fiscal year ending June 30, 1892.

In presenting this estimate, I have to mention the fact that in my communication to you, under date of September 24, 1889, attention was called to the urgent need for an increase of force in order to do the business of the office with promptness and accuracy. That need, so apparent then, has become more imperative. The transactions of the current year have compelled entire divisions to work late into the night, and have imposed a nervous pressure not consistent with the best performance of the trying tasks involved.

The concession of a stenographer and type-writer and two additional clerks, in the recent legislative, executive, and judicial appropriation act, was quite helpful, but altogether inadequate to meet the normal demands upon the office. The new pension law will increase vastly the number of checks to be paid, and the labor of the accounts for over 65 per cent. of all the checks for pensions of the entire nation are drawn upon this office. In order to meet these transactions properly, an addition of at least ten must be made to the list of employes, to wit: Two clerks, at \$1,400 each; four clerks, at \$1,200 each; two clerks, at \$1,000 each, and two messengers, at \$900 each.

In view of the heavy responsibilities of those officers, and of their exacting duties, and of a comparison of their remuneration with that received for less labor and responsibility, I call especial attention to the estimate asking for an increase in the salary of the assistant cashier from \$3,200 to \$3,400; of that of the chief book-keeper from \$2,200 to \$2,400, and for the advancement of one clerk, at \$1,800, to be assistant chief of division, at \$2,000. The increase proposed in the salary of the engineer, of \$150, will be a deserved recognition of long and skillful services.

My sense of duty leads me to repeat the recommendation of last year, and urged for a series of years by my predecessors, that two persons now and for a long period on the rolls as janitors, but serving as watchmen, be provided for in the same way as are the other watchmen. The use of these two janitors as watchmen is a strong plea for the increase of the number of watchmen in the appropriation, while the full force of janitors is required for the proper care and cleaning of the building.

The estimate calls for a total appropriation of \$195,080, an increase of \$13,590 over the rate for the present year. This office will be compelled to appeal to the Department at Washington for a detail of clerks to assist in the growing and pressing labors of the ensuing months of the present fiscal year, and as this help can be supplied for only a short time, immediate relief will be necessary through the urgent deficiency bill, at the opening of Congress, in December. While every new fiscal measure adopted, and the several additions to the pension lists, add to the responsibility and labors of this office, no increase to its force has been made, for many years, at all adequate to the requirements, and the time has now arrived when a temporary relief must be granted to bridge over the interval until Congress can provide for the necessary number of employes.

The urgency with which the additions to this estimate are presented to the Department for its recommendation to Congress is prompted not only by regard for the employes, who have for months been overworked and subjected to undue strain, but by my earnest judgment that the public service and the highest economy will call for every dollar which is here asked for.

Very respectfully,

E. H. ROBERTS,
Assistant Treasurer U. S. at New York.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX L.

In relation to the estimates for "Salaries, office of Assistant Treasurer at Philadelphia." (See page 33.)

OFFICE OF ASSISTANT TREASURER U. S.,
Philadelphia, Pa., September 29, 1890.

SIR: Herewith I have the honor to transmit the estimate for salaries for this office for the fiscal year ending June 30, 1892.

As I have suggested some radical changes, I beg leave to submit my reasons therefor at length.

In the first place, the titles pertaining to the various positions under the present system are not only unnecessary, but cumbersome and misleading, inasmuch as in practice it is found impossible to confine any one person to the immediate duties indicated by his title, and I have, therefore, ventured to simplify the nomenclature and adopt a classification similar to that in use in the Department at Washington, the necessity for which modification must be apparent there.

The aggregate of receipts and disbursements at this office has been constantly and rapidly increasing since 1882, when they amounted in round numbers to \$84,000,000, until at the close of the last fiscal year they had reached \$198,000,000, and are likely to continue to grow.

With the gradual introduction of more careful methods of, as well as from the actual increase of, business, the detail work correspondingly increases, as is forcibly exemplified in the matter of the disbursements for the pension account, which in 1870 was represented by some 500 checks annually, and eight years later had grown to 56,000 checks annually, and in 1888 to 105,000, and at the present time is represented by 130,000 checks, amounting to over \$5,000,000, which, in view of later legislation, is likely to continue to grow more rapidly than ever. It must be apparent that for accurate disbursement of this sum of money, divided into so many small items, the careful assorting, scheduling, and filing of these checks, and the rendering accounts for them, is of itself a work of no small magnitude.

The deposit of postal funds from the many small offices throughout the State also implies a most careful and painstaking amount of constantly-increasing work, the detail of which can only be appreciated through actual experience.

In the ordinary course of business it is found necessary to detail one or two of the messengers to clerical duties, thus moving them from their legitimate functions, oftentimes at great inconvenience.

From your last official report, I gather that the business of this office is second only to that of the New York Sub-Treasury and was, in 1889, greater by some \$15,000,000 in aggregate of receipts and disbursements than that of Boston, the only other office which nearly approaches us in the amount of business transacted; and, furthermore, as our books and reports show an increase for the last fiscal year of the large sum of \$26,000,000 in the aggregate over that of the previous year, I feel that it is only just to this office, and of importance to the public service, that some increase of force, and in some particular cases an increased allowance for salary, be granted.

Considering the responsibilities of the Assistant Treasurer, the fact that he is required to give double the amount of security required of the Superintendent of the Mint, and that the salary of other federal officials in this city who are not burdened with any financial responsibility is made \$5,000 per annum, and that that rate was provided for the head of this office so long ago as 1874, and so stands to this day in the Revised Statutes, considering also the rapid growth of the business in his charge, I think it only reasonable that Congress should be asked to appropriate \$6,000 per annum for his salary.

The duties of the cashier and chief clerk are sufficiently onerous and exacting when confined to the general oversight and executive management. In the Revised Statutes a compensation of \$2,700 was provided for this officer at a time when the duties of the position were much less exacting than at present. The responsibilities of the position are large, and the \$3,000 per annum mentioned in the estimate is barely sufficient for the service required.

In order to relieve the cashier of all other duties now devolving upon him, I have asked that a chief teller be provided for at a compensation of \$2,500.

In this connection I would invite your attention to a comparison with the salaries paid to employes in the cashier's office of the custom-house in this city, where the cashier is paid \$3,000 and his two assistants \$2,500 and \$2,000 each, a total sum of \$7,500, while their duties are limited to the receipt of moneys in bulk, which are each day delivered to and verified in this office, after which they are relieved of any responsibility.

The book-keeper, for whom \$2,500 is now appropriated, has been confined to the duties of a vault-clerk, and, as I propose to incorporate some additional responsibilities with the position, I have asked for a continuance of that salary under the new title of "vault-clerk," and for the actual book-keeper, a position now filled by the chief registered interest clerk at \$1,900, I have provided a clerkship of class four at \$1,800 per annum, which I consider a sufficient remuneration for the responsibility attached to the work performed.

The position known as chief interest-clerk under the present system I have called bond-clerk and asked that the salary be slightly increased. The responsibilities attached to this position include the assignment, purchase, and redemption of bonds, the inspection, indexing, and reference of vouchers and authorities for payment of checks, etc.; the verification of interest and other checks paid by the tellers, a portion of the correspondence, as well as the care of the stationery, and other minor duties.

The four tellers referred to, and for whom I have provided \$2,000 each per annum, are a coin-teller, receiving-teller, assorting-teller, and redemption-teller, whose salaries are now appropriated respectively as assistant book-keeper, \$1,800, coin-teller, \$1,700, and assistant coupon-clerk and redemption-clerk at \$1,600 each. The \$1,300 now provided for a receiving-teller has long been recognized as inadequate, and the clerk thus designated in the appropriation has been actually acting as an assistant to the receiving-teller.

The work of the assorting-teller is very exacting, requiring his constant and most persevering attention for eight or nine hours each day, and should be divided between two persons.

The duties of all four of the tellers are equally arduous and responsible and should be equally remunerated.

I have also asked for two clerks of class three to act respectively as interest-clerk and assistant coin-teller; three clerks of class two, and assistant book-keeper, assistant receiving and assistant assorting teller, and three clerks of class one, to be used, the one as receipt-clerk, and two others for general purposes, and have reduced the amount of the salary of messenger and chief watchman from \$1,100 to \$1,000.

This, with the usual allowance for four counters and seven watchmen, will constitute a clerical force of twenty-nine, an increase of four employes, for which, with the salary of the assistant treasurer, I have asked a total appropriation of \$46,640, in place of \$36,540, as now provided, an increase of \$10,100, which I believe to be warranted and fully justified by the facts set forth.

The salaries asked for are all moderate and less than are paid by corporations in large cities for similar responsible positions, and in most cases are considerably less than those recommended for this particular office by the late Treasurer United States in his scheme for the proper reorganization of the various sub-treasuries, dated April 27, 1886.

I have the honor to leave it in your hands, in full confidence that you will perceive the necessities of the case and forward it to the committee with the emphasis of your approval.

Respectfully yours,
HON. WILLIAM WINDOM,
Secretary of the Treasury.

LOUIS R. WALTERS,
Assistant Treasurer U. S.

Estimates of appropriations for salaries required for the service of the fiscal year ending June 30, 1892, by the Assistant Treasurer U. S., Philadelphia, Pa.

Assistant Treasurer U. S. (\$1,500 increase submitted).....	\$6,000
Cashier and chief clerk (\$500 increase submitted).....	3,000
Paying teller (additional submitted).....	2,500
Vault-clerk (change of title submitted; heretofore designated book-keeper).....	2,500
Bond-clerk (change of title and increase submitted; heretofore designated chief interest-clerk).....	2,200
Four tellers, at \$2,000 each per annum (changes of title and increase submitted; they are, respectively, a coin-teller, the position heretofore known as assistant book-keeper, at \$1,800 per annum; a receiving-teller, heretofore provided for as coin-teller, at \$1,700 per annum; an assorting-teller, heretofore provided for as assistant coupon-clerk; and a redemption-teller, heretofore provided for as redemption-clerk, at \$1,600 each per annum).....	8,000
One clerk of class four (change of title and reduction of \$100 per annum submitted; heretofore provided for as chief registered interest clerk)....	1,800
Two clerks of class three, at \$1,600 each per annum (changes of title and increase submitted; heretofore provided for as assistant registered interest clerk, at \$1,500 per annum, and assistant to cashier, at \$1,400 per annum).....	3,200
Three clerks of class two, at \$1,400 each per annum (increase of one; provided for in Revised Statutes as second assistant registered interest clerk; change of title in position known as assistant coin-teller and change of title and increased rate in position heretofore known as receiving-teller submitted).....	4,200
Three clerks of class one, at \$1,200 each per annum (change of title in position heretofore known as assistant receiving-teller and increase of two submitted).....	3,600
Messenger and chief watchman (change of title and reduction of \$100 per annum submitted).....	1,000
Four counters, at \$900 each per annum.....	3,600
Seven watchmen, at \$720 each per annum.....	5,040
Total.....	46,640

APPENDIX M.

In relation to the estimates for "Salaries, office of Assistant Treasurer at St. Louis." (See pages 33 and 34.)

OFFICE OF ASSISTANT TREASURER U. S.,
St. Louis, Mo., September 27, 1890.

SIR: Herewith I beg to transmit my estimate of appropriations required for this office for the fiscal year ending June 30, 1892.

The appropriateness of the changes in titles suggested is, I think, apparent. The amount asked for is greater by \$1,400 than that allowed for the current fiscal year. The present force is barely sufficient to transact, in a proper manner, the business of the office, which has for years been constantly on the increase, and the consideration of the probable addition to one Department only has convinced me that the increase in the force asked for is an absolute necessity. I refer to the almost certain increase in the number of pension checks paid. At present about forty-five thousand pensioners are paid through this office, or 9 per cent. of the total number. The bill now before Congress will, it is thought, increase the total number by 300,000, or 60 per cent., which will make the number paid here 72,000 to 75,000, a number which the present force is entirely inadequate to properly handle.

The position for which an increase of salary is recommended is one of responsibility, and one in which there is great liability to loss. It is not now paid proportionally with the same position in the other sub-treasuries.

The changes mentioned are, therefore, most urgently submitted for your favorable recommendation to Congress.

Very respectfully,

C. F. SHULTZ,
Assistant Treasurer U. S.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX N.

In relation to the estimate for "Salaries, office of Assistant Treasurer at San Francisco." (See page 34.)

OFFICE OF ASSISTANT TREASURER U. S.,
San Francisco, Cal., September 29, 1890.

SIR: In transmitting herewith the estimate of appropriation required for this office for the fiscal year ending June 30, 1892, which I now do, I beg leave most respectfully to represent that the clerical force in this office is undeniably inadequate to the proper performance of the duties imposed. Since my assumption of office the entire force has been industriously occupied—at times without cessation for meals—from early morning until late in the evening, and sometimes even quite into the night. And yet, with this willing devotion to duty, beyond the customary working hours, the business offering has been seriously impeded and could not be transacted with that prompt dispatch which is both desirable and necessary in an institution of this character.

The exchange of moneys at the counter has necessarily been limited to two days of the week, much to the inconvenience of the public, which as a consequence utters loud complaint. Steam and street railway companies, banks and other corporations and firms accumulating large sums of money, are much disgruntled at our inability to accommodate them with exchange, in time and manner as they desire, and in consequence this office suffers considerable popular disfavor.

The work of paying pensions is steadily increasing, and the large quantities of subsidiary silver and minor coin handled in this office—on account of the peculiar prejudice of our people against paper money—make the clerical service here unusually exacting.

The additional assistance we most urgently need, and which the necessities of our condition imperatively require, is that of a *paying-teller*.

The safety of our transactions, the correctness of our accounts, the security of the public moneys in my charge, and the immunity from loss of myself and bondsmen are all imperiled, and the transaction of the public business impeded by not having this most essential addition to our force.

Owing to the disparity of force for the services required, no one of the clerks in this office is confined to the especial duties of his desk, but all are compelled to assist each other. Nor can it be urged that the employés of this office are not the most efficient that can be secured. In order to have assistants fully conversant with the duties of the respective desks herein, I have retained the ablest four clerks of my predecessor. In addition, I have called back the receiving-teller, who served in that capacity most creditably and to the full satisfaction of my predecessors, Felton for one term, Sherman for two terms, Spaulding for one term, and Brooks for four months. These selections can not be improved upon for their several employments.

The cashier is an expert of long experience in the duties of his office, and is careful, exact, and capable. He has not been off duty a single working-day for now nearly four years. The exacting service in the double duty he has had to perform—acting as both cashier and paying-teller—is having its effect upon his physical health, and I am impressed with anxious forebodings of the mistakes and losses that might reasonably come to this department were he suddenly taken away from his desk by accident, disease, or death. No other person could take his place without mistakes and consequent loss. Even could I obtain an experienced bank clerk, as an adept in exchange and a judge of moneys, genuine and other, no man can know by intuition or otherwise than by actual experience in this office the signatures of the many different officials from Alaska to Mexico and east to the Rocky Mountains, *all of whom have authority to make or indorse drafts upon this Treasury*.

The mere recital of these facts shows how dependent is the correct working of this office upon the health or pleasure of this one of my staff, and how helpless I would necessarily find myself in case of any accident to him.

In corroboration of the necessity for some assistance to the cashier, I beg to quote from the official report of Hon. J. W. Whippley, Assistant Treasurer U. S., when last he examined the affairs of this office. He wrote:

"It would seem to be very difficult, if not impossible, for Mr. Burns (the cashier) to properly discharge all the duties now imposed on him without some assistance. Mr. Burns has the charge of the vaults, the combinations of the locks, and

the custody of the current cash. He makes all the payments of checks, drafts, coupons, etc.; he takes from the receiving-teller, at the close of the day, the cash receipts, counts them, and becomes responsible for them. He issues money to the change-teller at the commencement of business, and receives and counts it again at the close of the day."

A due regard to my own liability and the higher concern for the safety of the Government funds in my charge, both impel me to ask with all the earnestness permissible that a *paying-teller* may be allowed to this branch of the Treasurer's office, who may divide with him the burden of the cashier, and also learn to know the signatures of the paymasters, postmasters, Army and Navy officers, pensioners, bank officials, Indian agents, customs officers and clerks, corporation treasurers and secretaries, and the entire long array of all who send and bring to our counters drafts, bills, notes, checks, warrants, and indorsements demanding money, each one of which has to be known and identified as genuine before a loss to the Government can be averted. Such knowledge can only be acquired by daily experience at this counter, and under the tutelage of one already versed in the business.

The recommendation and request of my predecessor has been for additional clerks at a cost of \$3,800 per annum, but with due regard for economy in the administration of the office, I ask for a yearly increase of but \$2,400, and this for a necessity that in my judgment is pressing and absolute.

I feel that I can only too feebly express in official phrase the imperative need that exists here for the additional help now asked for, and must appeal to the full experience and all superior knowledge of your honorable self for an indorsement of my request.

Trusting that I have not herein transcended the limits of official privilege and that you may sympathize with my urgency herein, I am,

Very respectfully,

J. P. JACKSON,
Assistant Treasurer U. S.

Hon. SECRETARY OF THE TREASURY.

APPENDIX O.

In relation to the estimates for Mints and Assay Offices. (See pages 34-37.)

TREASURY DEPARTMENT, BUREAU OF THE MINT,
Washington, D. C., October 1, 1890.

SIR: I have the honor to submit herewith estimates of appropriations for the mint service for the fiscal year 1892.

The amount of the estimates is \$1,181,210, against appropriations for the current fiscal year amounting to \$1,076,360, an increase of \$104,850.

It may be proper to state that the amount estimated for the support of the mint service for the current fiscal year was \$1,139,260, while the amount appropriated was \$62,900 less than the estimates submitted, which will account, very largely, for the increase in the estimates for the fiscal year 1892 over the amount appropriated for the current fiscal year.

In explanation of the increases recommended I may say as follows:

In my own bureau I have estimated for one fourth-class clerk in lieu of one clerk of class three. The gentleman occupying the position of my confidential clerk resigned a clerkship of class four under the Civil Service Commission in order to accept the position of my private secretary, the compensation of which is only \$1,600. My desire is to restore his salary to the amount which he formerly received, as well as to reward him for faithful and intelligent service in this bureau.

In the mint at Philadelphia I have recommended that the salary of the chief clerk be increased \$250, so as to fix his pay at \$2,500 per annum, the amount received by the chief clerk of the mint at San Francisco, and of the assay office at New York.

This recommendation is in conformity with previous recommendations by myself and by you. I will only add that the position of chief clerk of the mint at Philadelphia is one of the most responsible in the mint service, and the present occupant of the office is a very efficient officer, who has had great experience in the mint service.

I recommended a small increase in the appropriation of wages of workmen in the mint at Philadelphia, on account of the increased labor at that institution, and have recommended that the appropriation for contingent expenses be restored to \$100,000, from which it was reduced in the last appropriation act, contrary to your recommendation.

At the mint at San Francisco I recommended that the appropriation for wages of workmen be made \$190,000 instead of \$170,000, for the reason that it has been impossible to execute the coinage required at that mint for the sum of \$170,000, and it has been necessary to use annually funds from the appropriation for the coinage of the standard dollar, contained in the act of February 28, 1878, which appropriation is no longer available.

At the mint at New Orleans I have asked for an increase of \$5,000 in the appropriation for contingent expenses, for the purpose of laying new sidewalks around the four sides of the square in which the building is located.

At the mint at Carson I have estimated for an appropriation of \$60,000 for wages, and \$25,000 for contingent expenses, being the amounts appropriated for each purpose for the fiscal year 1890, which were reduced one-half each in the appropriation for the fiscal year 1891, contrary to your recommendation.

At the assay office at New York I have recommended that the appropriation for wages of workmen be increased \$5,000.

I would say that this is the most economically conducted institution in the mint service, the work is exceedingly laborious, and the present appropriation of \$25,000 for the employment of workmen is not sufficient to give the public prompt returns on bullion deposited.

At the assay office at Helena I have asked that the salary of the assayer in charge be restored to \$2,500, from which it was reduced in the appropriation act approved July 31, 1886.

The salary received by the assayer in charge of the mint at Denver, and the assay office at St. Louis, is each \$2,500, and the volume of business of the assay office at Helena is fully equal to that at Denver, and very much greater than that at St. Louis, and is steadily on the increase.

I have also recommended that the appropriation for wages of workmen be increased from \$12,000 to \$13,500, to meet the requirements of increased business.

At the assay office at Boise I have asked that a chief clerk, at a salary of \$1,600, be provided, instead of a clerk at \$1,200.

I may say that there is only one clerk allowed by law for this institution, who receives \$1,200, and in the absence of the officer in charge he is required to act in his stead.

I have also recommended that the appropriation for wages and contingent expenses of this institution be increased from \$7,500 to \$9,000, to meet the requirements of increased deposits.

At the assay office at Charlotte, N. C., I have recommended that the salary of the assayer in charge be fixed at \$2,000 instead of \$1,500, and of the assistant assayer at \$1,500 instead of \$1,250.

The salary of the assayer in charge of the assay office at Charlotte is out of all proportion to that of the officers in charge of other institutions of the mint service.

Competent assayers in the mints receive salaries very much greater than that of the assistant assayer at Charlotte, who is one of the most competent officers in the service.

I have also asked that the appropriation for wages and contingent expenses of this office be increased \$500, making the appropriation \$2,500 instead of \$2,000.

I have the honor to be, sir, your obedient servant,

EDWARD O. LEECH,
Director of the Mint.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX P.

In relation to the estimates for "Salaries, office of Paymaster-General." (See pages 45, 46.)

WAR DEPARTMENT, PAYMASTER-GENERAL'S OFFICE,
Washington, D. C., September 18, 1890.

SIR: I have the honor to submit herewith an estimate of the amount required for pay of clerks, messenger, and assistant messengers in the office of the Paymaster-General, for the fiscal year ending June 30, 1892, amounting to \$42,520.

It will be observed that an increase of three clerks, at \$1,000 each per annum, is asked for.

In explanation, I desire to say that on July 1, 1889, ten clerks were transferred from this office to the Record and Pension Division of the War Department.

It was thought at the time that such a number could be spared without prejudice to the office, but the experience of the past year has shown that the number of clerks are not adequate to the work required, and as new legislation has been had which will still add more to the clerical duties, all of which demand positive accuracy as well as careful and critical attention, I therefore feel fully justified in asking the increased force, in order that such attention may be given the work as its importance merits.

It is also submitted that this office be allowed one messenger and four assistant messengers in place of one assistant messenger and four laborers now allowed.

It seems but justice that these advancements be made. The men now serving are tried and faithful, and are each and all performing messenger duties in addition to such laborer duties as may be required.

I submit that the above requests are in the interest of the service and of benefit to this Department.

Very respectfully, your obedient servant,

WILLIAM SMITH,
Paymaster-General, U. S. Army.

Hon. SECRETARY OF WAR.

APPENDIX Q.

Statement showing the number of persons employed in the office of the Chief of Engineers and paid from the various appropriations for rivers and harbors, fortifications, and surveys for military defenses, and the amount paid to each during the fiscal year ended June 30, 1890, prepared in accordance with the requirements of the act of July 11, 1890, Public No. 209.

Number, designation, and time employed.	Rate per annum.	Amounts paid.	Total.	Number, designation, and time employed.	Rate per annum.	Amounts paid.	Total.
One assistant engineer, July 1 to July 31.....	\$4,200 00	\$350 00	One clerk, July 1 to January 21.....	\$1,200 00	\$670 00	\$1,288 34
One assistant engineer, July 1 to December 31.....	3,600 00	1,800 00	January 22 to June 30.....	1,400 00	618 34	
One draughtsman, July 1 to June 30.....	2,100 00	2,100 00	One clerk, July 1 to May 22.....	1,200 00	1,073 33	1,221 11
Three draughtsmen, July 1 to June 30.....	1,800 00	5,400 00	May 23 to June 30.....	1,400 00	147 78	
One draughtsman, July 1 to November 10.....	1,800 00	650 00	One clerk, July 1 to July 13.....	1,200 00	43 33
One draughtsman, July 1 to June 30.....	1,400 00	1,400 00	Four clerks, July 1 to June 30.....	1,200 00	4,800 00
Two draughtsmen, July 1 to June 30.....	1,200 00	2,400 00	One clerk, October 3 to June 30.....	1,200 00	893 33
One draughtsman, July 1 to December 31.....	1,200 00	600 00	Two clerks, July 1 to June 30.....	1,000 00	2,000 00
One draughtsman, January 1 to June 30.....	1,200 00	600 00	One clerk, July 1 to September 18.....	1,000 00	216 66
One clerk, July 1 to June 30.....	1,800 00	1,800 00	One clerk, February 27 to June 30.....	1,000 00	344 44
Four clerks, July 1 to June 30.....	1,600 00	6,400 00	One mechanic, July 1 to June 30.....	1,000 00	1,000 00
One clerk, January 1 to June 30.....	1,600 00	800 00	One copyist, July 1 to June 30.....	900 00	900 00
One clerk, July 1 to January 21.....	1,400 00	\$781 66	1,488 33	Three messengers, July 1 to June 30.....	840 00	2,520 00
January 22 to June 30.....	1,600 00	706 67		One assistant messenger, July 1 to June 30.....	720 00	720 00
Seven clerks, July 1 to June 30.....	1,400 00	9,800 00	One assistant messenger, June 19 to June 30.....	720 00	24 00
One clerk, July 1 to June 30.....	1,400 00	1,400 00	1,398 34	One skilled laborer, July 1 to June 30.....	720 00	720 00
Deduction on account of absence in excess of the thirty days allowed by law.....	1 66		One laborer, July 1 to June 18.....	660 00	638 00
One clerk, December 13 to June 30.....	1,400 00	770 00	Cleaning office-rooms.....	130 00
One clerk, January 22 to June 30.....	1,400 00	618 34	Total.....	55,834 22

OFFICE CHIEF OF ENGINEERS, UNITED STATES ARMY,
Washington, D. C., September 20, 1890.

THOS. LINCOLN CASEY,
Brigadier-General, Chief of Engineers.

APPENDIX R.

Explanation of estimates for Public Buildings and Grounds, and for Washington Aqueduct, for the year ending June 30, 1892.
(*Estimates on pages 48 and 175-177.*)

In submitting these estimates, some of which are larger than heretofore appropriated, and some for new work, the following explanation is presented by the officer in charge:

1. One public gardener, \$2,000. I have asked for an increase in the salary of the public gardener, a position now so satisfactorily filled by Mr. George H. Brown. The duties of the office require that the gentleman who fills it shall be thoroughly skilled in the culture of trees, shrubs, and plants, and shall have a practical knowledge of civil engineering as applied to landscape gardening. Mr. Brown combines these attributes, to which he adds taste, industry, and integrity. His duties take him from one end of the city to the other. He is directly responsible for the care of the valuable collection of plants in the propagating garden, and superintends the propagation of plants that are annually raised for the public grounds, which this year numbered about 385,000.

2. One clerk in charge of old public records of Washington City, \$1,500. These records include maps, deeds, record books, letters, etc., from the organization of the original board of commissioners, near the close of the last century, up to 1867, when the duties were turned over to the chief of engineers; they are constantly examined by attorneys and others interested in lands in Washington, and the person in charge of them is frequently required to produce them in the courts; to index them properly, to be able to turn at once to the details of any question raised, requires familiarity with every paper. This work has for the last few years been entrusted to the only draughtsman allowed this office, and during the last year three-quarters of his time has been actually employed on this duty. It is desirable that this appropriation be made in order that the draughtsman may be permitted to attend to the necessary and legitimate duties of his office.

3. For one telegraph lineman, \$1,000. The telegraph system under charge of this office includes about eight miles of overhead wire and 2.6 miles of underground cable; there are 20 offices connected with these lines, the main battery being at this office; the lineman is constantly engaged in the care of the main and local batteries, and such necessary repairs and extensions as a system of wires of this kind requires; he is industrious, efficient, and capable, and has won the confidence of all with whom he has come in contact by faithful attention to his duties.

4. An estimate for a captain of the watch is submitted and recommended. Such an officer is much needed in order that the park watchmen may be under proper supervision.

5. Judiciary Park contains an area of 19 acres and should have a special watchman at night. An attempt at highway robbery was recently made there.

6. Estimates for a day watchman for Marion and Folger Squares and adjacent reservations, and for a day watchman and a night watchman for Garfield Park, are submitted and recommended. Marion and Folger Squares contain an aggregate area of about 3 acres, and Garfield Park contains an area of about 24 acres. They are highly improved, and the necessity for providing watchmen for their care is apparent.

7. It will be observed that the estimate for "improvement and care of public grounds," is submitted in a smaller number of separate items than heretofore. A large number of items, being for such purposes as are required regularly every year, are lumped together in a single item, the several items, however, being enumerated; and it is recommended that the appropriation be made in that way instead of designating a specific sum for each of these small objects. Great labor in keeping the accounts would be saved, and the full amount of the appropriation be made available if a lump sum could be appropriated. It is not always practicable to spend an exactly even number of dollars for a particular purpose. When a specific amount is stated for each object it must not be exceeded, and the result is that some remnants of those small items can not be used at all. The method of appropriating a lump sum, as here suggested, seems to be in accordance with the practice of Congress in other cases, as, for example, for the regular supplies and incidental expenses of the Quartermaster's Department, pages 92 and 93, Book of Estimates, 1890-'91.

The aggregate amount requested for the consolidated items exceeds, in the sum of \$10,250, the appropriation made for similar purposes for the fiscal year 1890-'91. This excess arises as follows, viz: \$1,000 is asked for painting watchmen's lodges, iron fences, etc., instead of \$750, last appropriated; \$20,000 is asked for improvement, care, and maintenance of various reservations in place of the \$12,000 granted this year; and \$7,000 is asked for improvement, care, and maintenance of Judiciary Square, in place of \$5,000 last granted. It is proposed to improve as many as possible of the 200 unimproved reservations; each year from three to five are added to the list of improved reservations, and if the funds now requested become available eight or ten can be added during the fiscal year ending June 30, 1892. As reservations are thus improved the expense of the care of the whole is slightly increased, for the improvements must be maintained.

8. For placing granite curbing about Lafayette and Franklin Squares, \$10,000 is asked. The beauty of these handsome parks will be greatly enhanced by placing around them granite curbings similar to those used around parks of the same style in the larger cities elsewhere.

9. For the care and improvement of the Monument Grounds, \$10,000. The estimated total cost of completing the improvement of these grounds, in accordance with the approved plan, is \$40,000, of which amount \$10,000 can be profitably expended during the fiscal year ending June 30, 1892.

10. For laying asphalt walks in various reservations, \$5,000. It is proposed to replace with first-class asphalt walks the gravel paths in Washington Circle, Mount Vernon Square, Executive Mansion Grounds (south side), Lincoln Square, Stanton Square, Folger Square, Marion Square, Henry and Seaton Parks, and to renew those in Farragut Square and Iowa Circle. In the late fall, winter, and early spring these walks are muddy and pedestrians seek the lawns, which are thus destroyed by trespassers. The amount of these paths which it is proposed to lay this year is about 3,500 square yards. Each autumn it becomes necessary to put down plank walks, which must again be removed in the spring. If asphalt walks are laid the annual expense incident to plank walks will be avoided.

11. For improvement, care, and maintenance of Henry (Armory) and Seaton Parks, \$5,000. These reservations, extending from Seventh street to the Botanical Gardens, cover an area of 34 acres, with road and walk surfaces of over 10,000 square yards. They are in an advanced state of improvement. Their beauty has been marred by the depot and tracks of the Baltimore and Potomac Railroad. A mound has been constructed around the depot, upon which it is intended to plant trees and shrubs, so that in time the depot will be hidden partially from view. The materials for this mound have thus far been obtained free of expense to the United States, and it is now proposed to grade the mound and to seed and plant it. The funds requested are needed for this purpose, and for the care of roads, lawns, gutters, etc., and laying out additional paths.

12. For lodges for park watchmen in Stanton, Mount Vernon, Iowa, Dupont, Thomas, McPherson, and Folger reservations, at \$500 each, \$3,500. The watchmen in these reservations are exposed to the inclemency of the weather at all seasons of the year. Ordinary humanity seems to call for this appropriation.

13. For supplying and keeping supplied the vases in the new Pension building with suitable plants and shrubs, \$1,000. The joint resolution of Congress, approved March 29, 1886, requires that the seventy-six large vases on the upper corridor of the new Pension building shall be filled and kept filled with suitable plants and shrubs. This estimate is submitted in order that the terms of the law may be complied with.

14. An estimate of \$7,800 is submitted for constructing a granolithic pavement on the sidewalk on Pennsylvania avenue in front of the Executive Mansion. The old flagging pavement at present composing this sidewalk is in very bad condition and should be replaced by one that will compare more favorably with the pavement on the east, in front of the Treasury Department, and that on the west, in front of the War Department.

15. An estimate amounting to \$6,000 is also submitted for constructing a large green-house at the propagating gardens for palm and sub-tropical plants. The green-house structures now existing at the gardens are of small size and not of sufficient capacity to accommodate that class of plants.

16. An estimate amounting to \$5,000 is submitted for improving reservation No. 246, known as Howard University Park. This park contains an area of about 11½ acres and is unimproved.

17. It is recommended that an addition of \$10,000 be made to the appropriation for "care, repair, and refurnishing the Executive Mansion." This old building needs continual repairs and repainting to maintain it in a neat and habitable condition. Much of the furniture is old and needs renewing, while new carpets and curtains are required in many of the rooms.

During the past fourteen years the appropriations for the mansion have been as follows:

1878	\$20,000	1885	\$22,500
1879	25,000	1886	*16,000
1880	25,000	1887	16,000
1881	20,000	1888	16,000
1882	50,000	1889	16,000
1883	40,000	1890	16,000
1884	28,000	1891	25,000

It will be observed that between July 1, 1885, and June 30, 1890, the appropriations have been much less than prior to the first-mentioned date. The result has been a deterioration which now renders it necessary to make expenditures larger than the average.

18. The amount allowed for the past and present fiscal years for electric lights is 40 cents per light per night. The price paid by the Commissioners of the District of Columbia for similar lights on the streets and avenues of this city is 60 cents per light per night, and my estimate for the fiscal year 1892 is based upon the latter figure.

19. An estimate is again submitted for replacing the overhead wires between the Capitol and the Departments with a duplicate underground six-wire cable. The growth of the trees on the sidewalks renders it absolutely necessary, in order to maintain telegraphic communication over these wires, either to erect at once taller poles at a cost of about \$1,600, or to lay an underground cable at a cost of \$18,465. It appears to be the will of Congress that no more overhead wires shall be placed in this city. (See District of Columbia appropriation act of July 18, 1888.) Otherwise I should recommend the appropriation of the smaller amount.

20. I recommend that the salaries of the two steam engineers at the Washington Monument be increased from \$80 and \$60 to \$90 and \$70 per month, respectively. The duties of these two men are of great importance; upon their efficiency and intelligence depend, to a great extent, the lives of those who use the elevator. The increase asked is small and the men deserve it. I also recommend that the pay of the two firemen be placed at \$60 per month each. That is the rate allowed firemen in the Executive Departments, and there appears to be no reason why the firemen at the Monument should receive less.

The item for fuel, lights, oil, waste, repairs, etc., should be increased from \$2,600 to \$3,600, for the purpose of painting the iron work in the interior of the monument at a cost of \$800, for renewing the tubes in No. 1 boiler at a cost of \$120, and repairing the steam-pipe tunnel at a cost of \$80.

Explanation of estimates for Washington Aqueduct, District of Columbia, for the year ending June 30, 1892. (Estimates on page 177.)

In submitting these estimates, one of which is larger than heretofore appropriated, and the remainder for new work, the following explanation is presented by the officer in charge:

Now that the city is everywhere abundantly supplied with water, except at a few points where its proper distribution is interfered with by the small size, and the reduction in capacity by internal corrosion, of the city's street mains and the service pipes leading from them to residences, the most important work to be done in connection with the aqueduct is to furnish the city with better water, or, since the water of the Potomac as brought from Great Falls is, I am convinced, perfectly wholesome at all times, it would be more correct to say, with *clearer* water.

During the last winter and spring, when the new gate-chamber was being constructed in the dam of the distributing reservoir, and the 48-inch main was being connected with the reservoir, it was necessary, as the receiving reservoir was, as it has been for several years, out of service, to empty the distributing reservoir, and to bring the water directly to the city from Great Falls, without giving it any time whatever for depositing the earthy matter carried down to the upper Potomac and its tributaries from its watershed by every storm and shower, and most abundantly in winter and early spring, by reason of the alternate freezing and thawing of the ground.

This muddiness of the water supplied to the city was more noticeable during a portion of the last year, for the reason just given, but it is a defect that has always existed.

*Including \$4,000 for new roof.

The following table gives the number of days in the four years ending June 30, 1889, on which the water had different degrees of turbidity at Great Falls :

Fiscal year—	Clear.	Slightly turbid.	Turbid.	Very turbid.
1885-'86.....	127	36	51	151
1886-'87.....	164	29	51	121
1887-'88.....	194	15	26	131
1888-'89.....	147	33	50	135
Average for four years.....	158	28	44	134

The following table gives the number of days in the four years ending June 30, 1889, on which the water had different degrees of turbidity at the effluent gate-house at the distributing reservoir, after passing through the reservoir to the mains leading to the city :

Fiscal year—	Clear.	Slightly turbid.	Turbid.	Very turbid.
1885-'86.....	147	35	72	111
1886-'87.....	256	39	32	38
1887-'88.....	240	16	52	58
1888-'89.....	193	24	64	84
Average for four years.....	209	28	55	73

It will be observed that the total time that the water was "turbid" and "very turbid" at the distributing reservoir was only about two-thirds of the total time that it was "turbid" and "very turbid" at Great Falls, and this great improvement in the water supplied to the city, as compared with its condition when it entered the conduit, was due to the time, small as it was, given for depositing its earthy (clayey) matter in the distributing reservoir.

Filtering the water consumed by the cities of Washington and Georgetown would be enormously expensive (it has been estimated that the first cost of filtration works would be from \$600,000 to \$800,000, and the annual cost from \$18,000 to \$43,000, according to the plan adopted), and I do not believe it to be necessary.

Turbidity does not necessarily make waters unwholesome. The clearest waters are sometimes the most dangerous, because they are so deceptive, and filtration can, at most, only make waters clear.

During the times of its turbidity, the Potomac water has caused resort to the clear, but deceptive, well waters of the city for drinking purposes, and they, doubtless, have caused disease, which has been attributed to Potomac water, and some years ago, when the Potomac water was allowed to flow through the receiving reservoir, and mingle with the water of this reservoir, it had a disagreeable fishy and oily taste and smell, and there was much complaint, but the Potomac water itself, brought either directly from Great Falls, or through the distributing reservoir, has never, even in its worst condition, been proved to be unhealthful. On the contrary, it has been generally believed to be one of the best in the country.

Filtration, then, being out of the question, a comparison of the foregoing tables clearly points out the most important step to be taken for improving the condition of the Potomac water.

It is to provide an additional settling basin, so that when the river is turbid, the water can have a longer time for depositing its sedimentary matter before passing into the mains.

This can be done by improving the receiving reservoir.

The receiving reservoir, about two miles, following the Conduit road, above the distributing reservoir, has about the same area as the latter, and contains about the same available amount of water. Its perimeter has a length of about two miles. The conduit from Great Falls to the distributing reservoir passes close to a portion of the margin of the receiving reservoir, and there is an inlet from the conduit to the latter reservoir at its upper end, and an outlet from the reservoir to the conduit at its lower end. They are so arranged that the water, in its route from Great Falls to the distributing reservoir, can be made to pass either directly through the conduit and around the receiving reservoir to the distributing reservoir, or through the receiving reservoir, as may be desired.

It was contemplated in the original design for the aqueduct that the water from Great Falls should always pass through the receiving reservoir, and the latter was intended to serve mainly as a settling basin, but its use as such, and all use, was suspended some years ago.

Unlike the distributing reservoir, which has no water-shed, the receiving reservoir has an extended water-shed of about 4,000 acres. It is mainly to the northward of the reservoir, its northern border crossing the Tenallytown and Rockville road, about two and a half miles above Tenallytown. Its eastern border follows pretty closely the Loughborough, the Tenallytown, and Rockville roads, and its general width from east to west is about two miles. The greater part of the area of the water-shed is very hilly, and nearly the whole of it is devoted to cultivation and grazing.

The population upon it is quite large, and it is rapidly increasing. The water falling upon this area is carried to the reservoir by several streams, one of which, Powder Mill Branch, is of considerable size, and they carry, in storms and heavy showers, great quantities of detritus, which is rapidly shoaling the reservoir.

It is not possible with the reservoir in its present condition to exclude the water from its water-shed, or prevent its mingling with the water from Great Falls, were the latter allowed to pass through the reservoir, and frequent complaints in the public press and by the water-takers, in respect of the quality of its water, led some years ago to its being cut out from the system of water supply to the city.

These complaints are believed to have been well founded for the following reasons :

1. Every storm and heavy shower brings down to the reservoir through the streams that lead into it, and directly from the hill-sides, not only a great quantity of muddy water, which roils the reservoir, but probably some of the fertilizers and other deleterious substances from the cultivated and grazing lands of its water-shed. In fact, this reservoir has the usual defects of reservoirs surrounded by and supplied from cultivated and inhabited districts.

2. A considerable portion of the margin of the reservoir is shoal with soft muddy bottom, and the waves stir up the mud and add to the muddy water brought down by the streams.

3. In other portions of the shoal water near the shore there is a luxuriant growth of water plants of various kinds, and the water there being quiet and protected from the waves, it is supposed there is promoted in these places growths of algae, and other minute vegetable substances that have given much trouble in the reservoirs of other cities, as well as in the receiving reservoir, to which is attributed the offensive, oily, and fishy smell and taste of their waters at some seasons of the year, especially in hot weather.

This was the particular cause of complaint in Washington when this reservoir was thrown out of service.

But little complaint, if any, has been made on this score since the water has been drawn into the mains through the distributing reservoir, or directly from Great Falls.

The receiving reservoir is admirably suited for settling purposes, if all water be excluded from it except the water from the Potomac, and the margins be deepened and protected.

These can readily be done if Congress will grant the necessary appropriations.

Captain Symons, of the Engineers, conceived an excellent, and I believe the only practicable, project for the former when he was connected with this office, and it, and the drawings illustrating it, may be found in the Report of the Chief of Engineers for 1885, pages 2,464-2,468.

His project, which I have carefully examined and tested, is to take the waters of East Creek (the stream farthest to the eastward, that pollutes the reservoir), and conduct it in an open and paved channel to Mill Creek, together with all the water falling directly into the reservoir from the hills between these two streams; then to take the combined waters of both streams and the water which falls directly into the reservoir from the hillsides between Mill Creek and Powder Mill Branch, by a proportionally larger channel and short tunnel, to Powder Mill Branch. The combined waters of all the streams are then to be taken by a still larger channel, and another short tunnel, to a natural water course below the reservoir, known as Little Falls Branch.

To catch and throw all the water of the streams into these channels and connecting tunnels, small dams are to be erected across the mouths of the streams below the points where the artificial channels enter and leave their basins, which points are in all cases as close to the reservoir as possible.

The work is planned to give the shortest tunnel lines possible, and both the channels and the tunnels were computed to carry off the greatest known rain-fall.

The plan would make the receiving reservoir, which cost many thousands of dollars and is now useless, fully as valuable for settling purposes, and as completely shut off from all polluting influences, as the distributing reservoir, by absolutely cutting off from access to the reservoir all waters from its water-shed, excepting that part of it which is now the property of the United States, and under the control of this office, and excepting also several small parcels of land amounting to between sixteen and seventeen acres, which it would be necessary to buy. By it the receiving reservoir would become a distributing reservoir, and the time allowed for settling would be considerably more than double the time now allowed, for the distance now traversed by the water in passing through the distributing reservoir, between its points of entrance and exit, being 2,200 feet, and the additional distance that it would traverse at the receiving reservoir being 3,600 feet, the total distance would be 5,800 feet, or considerably more than one mile. It would give the water from Great Falls, after reaching the "North Connection" of the receiving reservoir, a variety of routes for reaching the mains leading to the city, and either could be adopted as the varying conditions of the water might require, as follows: It could be made to pass through the receiving reservoir, thence through the conduit to the distributing reservoir, and through this reservoir, or it could be made to pass around the receiving reservoir and thence to and through the distributing reservoir, using either reservoir alternately as a settling basin, or, when the water at Great Falls is quite clear, as it is (see the foregoing table) about one-half of the time, it could be made to pass from Great Falls directly into the mains, without passing through either reservoir.

Captain Symons' estimate of the cost of excluding the water of the surrounding country from the receiving reservoir, including the purchase of the small amount of land required, and the cost of completing the fencing of the reservoir lands, is \$130,000. From this I would deduct \$15,346, his estimated cost of deepening and protecting the margins of the reservoir, as far as was possible at the time of his report (the water could not then be drawn from the reservoir without great and prolonged inconvenience to the people of Washington), and add \$8,000 for a probable increase in the value of the land to be acquired, and 5 cents per cubic yard to his estimated cost of earth excavation, or \$1,130, making in round numbers \$123,800.

To obviate the defects of the reservoir caused by shoal water, I would deepen the water everywhere at its margins to 12 feet, and protect the sides by slope walls of dry rubble-stone 12 inches thick, laid upon a lining of broken stone 6 inches thick, precisely as the sides of the distributing reservoir are now protected, at the following estimated cost:

148,300 cubic yards of excavation, at 35 cents	\$51,905 00
16,400 cubic yards of dry stone masonry, at \$4.50	73,800 00
8,200 cubic yards of broken stone lining, at \$2.50	20,500 00
	146,205 00
Add 10 per cent. for contingencies	14,620 50
	160,825 50

Adding \$123,800, the estimated cost of cutting off all access of the water from the water-shed of this reservoir to the reservoir, and we have for the thorough improvement and completion of the receiving reservoir \$284,625.

The improvement of the receiving reservoir, as just indicated, would so much rid our Potomac water of its turbidity as to make it incomparably better than it is every winter and spring, but I would recommend, in addition, another step in this direction.

LOWERING THE HEIGHT OF THE CROSS DAM IN THE DISTRIBUTING RESERVOIR.

The lower reservoir, the distributing reservoir, is divided about half way between the influent and the effluent gate-houses by a cross dam, in the middle of the length of which is a narrow cut lined with masonry, through which all the water on its way to the effluent gate-houses, where it enters the mains, must pass.

The draft through this cut is so strong that the major part of the water is drawn straight from the influent gate-house, which is in a corner of the upper division, the settling division, to the cut, so that when the water coming down the conduit is turbid, it does not diffuse itself through the whole body of water in this division (110,000,000 gallons) as it should, in order that the greatest amount of settling be done.

Neither is the water after it passes through the cut properly distributed through the lower division, which contains about 60,000,000 gallons, for the reason that the draft from the cut to the head of the mains leading to the city, from the lower end of the division, is so strong that the water all passes in a comparatively narrow stream straight to these mains, so that it also gets very little chance to settle in this division.

Now, as the upper layer of any body of water not quite free of turbidity and in process of settling, is the clearest, if the top of the dam be lowered far enough to allow only a thin sheet of water to pass over it, as was the original design of General Meigs when he constructed the aqueduct, we should have in each division a very effective additional means of clarifying the aqueduct water, and I believe that this improvement in the distributing reservoir being made, and the receiving reservoir being improved as recommended, there would be but rarely, if any, complaint of muddy water.

I estimate the cost of this improvement at the disbursing reservoir by lowering the cross dam at \$12,500.

PROTECTION OF THE INLET TO THE CONDUIT AT GREAT FALLS.

The bank of the Chesapeake and Ohio Canal, which runs parallel to the Potomac at Great Falls and about 150 feet from it, is about 16½ feet higher than the uncovered chamber, just above the Maryland end of the aqueduct dam, that forms the inlet from the river to the conduit.

In the flood of November, 1877, which rose at Great Falls to the height of 160 feet above the datum of the aqueduct, or 12 feet higher than the crest of the dam, the canal bank at a point opposite the inlet was washed down to the river and a part of it into the inlet. I quote from the annual report of the aqueduct for 1878:

"The masonry forming the arch of the feeder was uncovered from a point near the middle of the canal to the mouth of the feeder, a distance of 150 feet. The chamber at the head of the aqueduct was filled with stones that had formed the slope-wall of the canal, and the aqueduct feeder for a distance of 300 feet was filled with debris to depths varying from 3 to 6 feet, so as to entirely stop the flow of water during the ordinary low stages of the river."

In the still higher flood of June, 1889, which rose to the height of 16 feet over the aqueduct dam, the canal bank was again washed down to the river, but fortunately the damage did not occur immediately opposite the inlet to the conduit, but from 200 feet to 400 feet higher up, so that the major part of the debris being left on the margin of the river and a part of it being carried over the dam, not so much filling of the inlet to the conduit was done, but, as in the flood of 1877, it was partially obstructed. The annual report of the aqueduct for 1889 says:

"The banks of the Chesapeake and Ohio Canal above and below the mouth of the conduit were carried away, and that opposite the conduit was threatened; a number of men were kept at work on this bank during the freshet, and it is believed that had it not been for the energetic work of this force and the widening and strengthening of the bank at this locality in April, great damage would have occurred at the mouth of the conduit."

It will be observed that in the freshet of 1877, not only the inlet chamber but the conduit itself was filled to a depth of from 3 to 6 feet for a distance of 300 feet in from its mouth, but the water in the river being at a high stage, there was still water-way enough in the conduit above the debris to enable the supply to the city to be kept up. Had a complete closure of the mouth of the conduit occurred, with 12 to 16 feet of water over it, there would have been no possible way, with the torrent raging over its mouth, to have removed the obstruction before the river subsided, and the supply to the city would have been cut off.

There is no more important part of our system of water supply to be carefully guarded than the head of the conduit at Great Falls, and in order to avert dangers like those of 1877 and 1889, to which the water supply is liable in every freshet, a masonry wall should be built between the river and the canal bank, rising a few feet higher than the latter, and extending up river from the mouth of the conduit as far as the limit of the Government land, and thence at about a right angle and still on the Government land to the shore of the river. I estimate the cost of this wall at \$5,000.

EXTENSION OF OUTLET OF WASTE WEIR NO. 3.

In order to provide means for emptying the conduit in case of a break in it, or for any purpose of repair, and to regulate the quantity of water passing down the conduit, three waste weirs, or openings, from the conduit are provided in its 11½ miles of length. One of the most important of them is waste weir No. 3, which is between the receiving reservoir and the distributing reservoir and about one-half mile above the latter. One of its most important functions is to enable us to control the height of water in the distributing reservoir, so that on the one hand it shall not fall below the height required to give the best possible supply to the city, and on the other, it shall not rise so high as to endanger the dams of the reservoir. This is ordinarily done by telephonic orders to the watchman gate-keeper at Great Falls, who is in charge of the gates at the head of the conduit, but in case of a break in the telephone line, and communication with him, except by mail, is cut off, reliance must be had on the waste weirs, and especially on No. 3, which is in charge of the watchman gate-keeper at the distributing reservoir. The overflow from this waste weir is, for the distance of about 270 feet, in a deep gully through private property to a natural water-course, and thence under the Chesapeake and Ohio Canal to the Potomac. Property in this vicinity is getting to be valuable, streets are being laid out through it, and the outflow from the waste weir is liable to be obstructed by the filling of the gully by the owners of the land. The difficulty can be obviated by laying a 36-inch cast-iron pipe in the gully from the waste weir to the natural water-course, at an estimated expense of \$2,500.

STORAGE YARDS.

I have provided supplies for use in case of breaks in the 48-inch and other mains, comprising sections of pipe, curves, crosses, reducers, sleeves, etc., a heavy wagon for hauling them where needed, lifting-jacks and efficient pumps; also machinery for lowering the pipes in the trenches and the implements and material required for handling and calking.

A portion of these supplies have been placed in a yard which I have arranged on the public land at the distributing reservoir, for use in the country portions of the routes of the mains, and the remainder, for use in the city portions of these routes, have been placed in a portion of Twenty-seventh street near M-street bridge, which has been loaned for the purpose by the District Government until the street is wanted for improvement.

As we shall not be able, probably, to retain this place, except for a short time, a permanent yard in the city should be purchased for use as a storage yard. It should be near this office and at or near the grade of the street, so that the heavy castings and machinery required for repairs can be quickly gotten out.

I believe that a suitable lot can be obtained by purchase, or, if needed be, by condemnation, for \$7,500, and I recommend an appropriation of this amount for the purpose.

CLEANING THE BOTTOM OF THE DISTRIBUTING RESERVOIR.

The sedimentary deposits of about twenty years, within which time the distributing reservoir has not been cleaned out, have raised the bottom of its upper division, the settling division, about 9 inches, and of the lower division about 4 inches.

These deposits have diminished the capacity of the reservoir about 8,000,000 gallons, and, although it is probable that these deposits, which are mostly clay, are not deleterious to the water, they should be removed as soon as an appropriation can be obtained for the purpose. It would require the removal of about 39,500 cubic yards, the estimated cost of which at 35 cents per cubic yard is \$13,825.

DESIRED PROVISION IN RESPECT OF APPROPRIATIONS FOR THE AQUEDUCT.

Appropriations for the aqueduct are fiscal year appropriations and their availability terminates on the 30th of June of each year. Whenever appropriations are delayed there is liable to be a time in the early part of every other fiscal year during which, should a break occur in a main either in the city or in the country this side of the distributing reservoir, or in the conduit, or should any disaster occur at the reservoir or at Great Falls, there is no money available for repairs.

An example of the urgent need of a change in this respect is the repair of the dam which collects the water for supplying the conduit at Great Falls. It is a most important work and one that can be done only at the lowest stages of the river. Every rain stops it and causes a loss of time and money. For a few weeks preceding the close of the fiscal year just passed, there had been an exceptionally favorable time for the work, and it was pushed forward with all the rapidity possible, up to the evening of the 30th of June, when, by reason of the limit of the appropriation as to time, it was necessary to discharge the workmen and wait for a new appropriation, which, even if it should be made early in July, will not be available at the Treasury until some weeks later.

If the appropriations for the aqueduct should be made available until expended, some of the less urgent repairs towards the end of the year could be postponed until the next appropriation should become available, so that there would always be money in hand for repairing a break in a main, or for any other work, like the one mentioned at Great Falls, that can not be postponed without loss.

A leak in one of the city's old and decayed street mains, or in one of the hundreds of small service pipes that cross the route of the 48-inch main, for instance, by undermining it, may cause it to break, and the quantity of water that would be discharged on the street, especially in the low levels of the route, would be so enormous that property, and even life itself, might be endangered.

And in case of appropriations for specific works like those I have recommended, it is sometimes not advantageous either in respect of economy or the quality of the work, to oblige the work to be fully completed at the end of the fiscal year.

Sometimes, by reason of the late date at which appropriations become available, or of the weather, or of the condition of the river, the work can not be fully completed within this time without hurrying it so much as to be detrimental to the interest of the Government. I do not know of any appropriations that more require to be made available until expended, like appropriations for river and harbor improvements, than appropriations for the Washington Aqueduct. I urgently recommend, therefore, that it be done, and, also, that the same facilities that were provided in the act of March 2, 1889, making an appropriation for the construction of the 48-inch main, be provided for every part of the work pertaining to the aqueduct, and beg to suggest that the following clause be attached to the next appropriations for the aqueduct, and be made to operate on all future appropriations for it:

“Provided, That all appropriations for the Washington Aqueduct shall be available until expended; and if it shall appear to the Secretary of War, on the report of the Chief of Engineers, that for any cause any work pertaining to said aqueduct can not be carried on or material therefor can not be obtained as rapidly as is necessary for the best and most vigorous prosecution of it, he is authorized to provide material by purchase in open market, or by contract, for the fabrication thereof, and to carry on the work by days' labor or otherwise, as may seem to him expedient.”

An increase of \$1,000 over the appropriation of former years for maintenance and repairs is made necessary by the increased amount that will be required by the addition of the 48-inch and the new 30-inch mains to the former system of supply.

APPENDIX S.

In relation to the increased estimates submitted by the Secretary of the Interior for salaries of his office. (See pages 54, 55.)

DEPARTMENT OF THE INTERIOR.

Assistant Secretaries.—Since its creation, in 1849, the jurisdiction of the Department of the Interior has been, from time to time, extended and enlarged. In consequence of the growth and development of the country, the interests originally confided to the Department have vastly increased in importance. At the present time, the questions of title and the property rights of individuals and corporations in lands, pensions, tribal privileges, allotments in severalty, and funds among the Indians, etc., annually adjusted by the Department, in the first instance at least, in the aggregate many times exceed in value those brought before any other tribunal in the country. In addition, greater public attention has been directed to matters of administrative policy, to the scientific and educational work conducted by the Department, and to the care of the national parks and the management of the numerous institutions placed under its supervision. Good administration demands that the salaries of superior officials, to whom the direction of these vast interests is intrusted, should bear some nearer proportion than at present to the dignity of the duties and responsibilities imposed upon them. I therefore earnestly recommend the increase in the salaries of the First Assistant Secretary and of the Assistant Secretary of this Department specified in the estimates.

Chief clerk.—The increase asked for in the salary of the chief clerk is more than justified by the importance, difficulty, and volume of the public business committed to his care. In the wise retrenchment of the expenses of the Department and the judicious expenditure of its appropriations, as well as the proper and methodical dispatch of public business, this officer is of inestimable value and usefulness to the head of the Department, and it is a patent fact that the salary now attaching to the office is inadequate compensation for the ability and industry necessary to the proper discharge of its duties. The salary estimated for would but provide a compensation equal to that paid chief clerks in Departments of equal size.

It is important that a clerkship of class four should be provided for the office of the chief clerk. It is necessary to have for this position a clerk who is competent to assume the duties of chief clerk in case of his absence. Such a position requires fine ability and exceptional executive experience and talent, and it is therefore urged that this clerkship be provided.

Chiefs of divisions.—The additional compensation requested for the chiefs of divisions in the Office of the Secretary should be granted. Each division handles the business from one or more of the large bureaus of the Department. The public interests involved make it necessary for the chiefs of divisions to keep thoroughly posted in the laws and treaties and decisions of the courts of the United States with relation to the matters committed to their care, and the volume of business requires executive ability of high order. While the services rendered are worth a higher figure than that estimated for, yet such an increase in the salaries would be more in proportion to the duties performed.

Detailed force.—In order that the fast increasing volume of business, emanating largely from the bureaus of the Department, may be promptly handled in the Office of the Secretary, frequent details thereto from the force of the respective bureaus have become necessary, and, owing to the exigencies existing, are, as a consequence, made in the face of the resulting fact that the bureau's force will be correspondingly weakened. To correct in a measure this condition, a force in lieu of detailed employes is estimated for. In making the list, only those places have been asked for whose occupants are as a matter of fact permanently assigned to the Office of the Secretary.

Custodian.—The present compensation of the custodian is inadequate. He is required to give bond in the sum of \$5,000 for the faithful performance of his duties. His is a position requiring good business qualifications, and a compensation of \$2,000 per annum would be more commensurate with the amount and character of the service required and performed.

It is also recommended that the salary of the book-keeper for the custodian be increased to \$1,600. The amount of labor and skill necessary in this position more than justifies the additional compensation estimated for.

APPENDIX T.

In relation to the estimates submitted by the Assistant Attorney-General for the Interior Department for salaries of his office. (See page 56.)

DEPARTMENT OF THE INTERIOR, ASSISTANT ATTORNEY-GENERAL'S OFFICE,
Washington, D. C., November 10, 1890.

DEAR SIR: In the last estimates for this office I asked for an editor, a stenographer, or private secretary, and that the salaries of the heads of rooms be equalized at \$2,500 a year. Congress, at its last session, gave me the editor, or reporter, but, in so doing, reduced the force by one law clerk.

The business of this division is exceedingly great, and a reduction of the force will throw it still further in arrears.

I therefore ask that Congress be requested to restore this law clerk in place of the editor; that is, to give me an additional law clerk, and that it also fix the salaries of the heads of the rooms at \$2,500 each.

I also again ask for a stenographer and type-writer, at \$1,400, subject to my direction as head of the division, as it will greatly facilitate the work of the office. The present stenographer has his time all taken up by docket work, and keeping the papers in shape, and answering inquiries of Congressmen, Senators, attorneys, and parties as to the status of cases, and in making reports, etc., so as to be unable to give much time to other necessary work.

The legal questions referred to this office are complex and very great in number, and the efficiency of the division will be greatly increased by the suggested additions.

Yours truly,

Hon. JOHN W. NOBLE,
Secretary of the Interior.

GEO. H. SHIELD,
Assistant Attorney-General.

APPENDIX U.

In relation to the estimate for the rent of building for the Indian Office. (See page 56.)

DEPARTMENT OF THE INTERIOR, OFFICE OF INDIAN AFFAIRS,
Washington, October 27, 1890.

SIR: I have the honor to state that in addition to the rooms now occupied by the Indian Bureau, under the lease between the Department and the Atlantic Building Company, more space is required for the proper transaction of its business. The work in connection with the allotments of lands in severalty, and the examination of deprecation claims require additional space; the superintendent of schools requires a room for the transaction of his business, and the records and files of the bureau increase from year to year, and additional space for their preservation and ready reference is required.

There are on the seventh floor of the Atlantic building three additional rooms, one very large and two small ones, which, I understand, are rented to private parties at an annual rent of \$660, but which the company is willing to rent to the United States at \$500.

Aside from the fact that these additional rooms are needed, I think, as heretofore stated by the Commissioner, that to properly conduct the business of the bureau, it should have control of the entire seventh and eighth floors, so as to exclude strangers from these floors after office hours, and to control the admission of visitors to the rooms during office hours, and I therefore respectfully recommend that in submitting to Congress your estimate for rent of buildings for the fiscal year ending June 30, 1892, you ask that the sum of \$6,500 be appropriated for rent of building for the Indian Office.

Very respectfully,

Hon. SECRETARY OF THE INTERIOR.

R. V. BELT,
Acting Commissioner.

APPENDIX V.

In relation to the estimates for the Department of Labor. (See pages 80, 81.)

DEPARTMENT OF LABOR, *Washington, D. C., October 6, 1890.*

SIR: I have the honor to transmit herewith the estimates of appropriations required for the service of the Department of Labor for the fiscal year ending June 30, 1892.

These estimates aggregate \$183,520 for the year named, instead of the estimate of \$166,410 for the fiscal year ending June 30, 1891; but for the same purposes the total amount of the inclosed estimates is \$168,520, an increase of only \$2,110 over the estimates for the current fiscal year, the appropriations for the current fiscal year being \$148,870; the present estimates, therefore, being \$19,650 for the regular service of the Department over the actual appropriations for the current year. This increase is entirely for clerical service and printing, and I desire to call attention to the items of increase.

The disbursing clerk of the Department of Labor receives \$1,800 per annum. So far as I am able to ascertain, no bonded disbursing officer on duty in Washington receives less than \$2,000 per annum, and it would seem by public law (R. S., section 176) that it was intended by law that disbursing clerks should receive not less than \$2,000 per annum. This officer in this Department performs all the duties of a bonded disbursing clerk, and, in addition thereto, has charge of all accounts of the Department, and also of appointments and leaves. It would seem, therefore, that as a matter of justice he should receive a salary of \$2,000, that being the lowest paid to disbursing clerks outside of this Department.

For the clerical service I have asked an increase substantially the same as I requested for the present fiscal year. The necessities of the Department require quite a number of the best experts, and an increase in the ordinary force. I have therefore asked for one additional statistical expert at \$2,000, and for two clerks of class four, who may be statistical experts, in addition to the two employed. This would bring the total number of clerks of class four back to that employed prior to the present fiscal year. In the ordinary force four clerks of class one and five clerks of class \$1,000 are asked for in these estimates in addition to those already employed. This makes a total increase requested of twelve clerks of different grades. This addition to the clerical force of the Department seems to be positively required. As the Department grows older the demands upon it by the public increase, and these demands have increased to such an extent that the efficiency of the clerical force, as it may be applied to the regular statistical work of the Department, is very much impaired. The work now in hand is very much delayed by the inadequacy of the clerical force.

Since the establishment of the Department \$8,000 has been appropriated for printing and binding. At my own suggestion this amount was reduced one-half for the present fiscal year, in order that some other items of appropriation might be increased. The experiment, however, is not successful, and the amount should be restored to \$8,000.

The sum of \$15,000 appears in these estimates for the purpose of enabling the Department to continue the collection of data relating to divorce. It is this sum that swells the estimates to figures which appear so much larger than those of former years. The work ordered by Congress relative to marriage and divorce should be supplemented by an investigation along lines that were impossible under the former investigation. The demand for this comes from so many quarters that I feel that the amount asked for should be appropriated.

I am, very respectfully,

CARROLL D. WRIGHT,
Commissioner.

Hon. SECRETARY OF THE TREASURY.

APPENDIX W.

Statement showing wherein the estimates for pay, etc., of the Army for the fiscal year ending June 30, 1892, vary from the amounts appropriated for like purposes for the fiscal year ending June 30, 1891. (Estimates for 1892 on pages 92-95.)

Items.	Estimate for 1892.	Appropriation, 1891.	Increase.	Decrease.	Remarks.
Additional pay for aides and mounted officers.....	\$9,338 33	\$7,879 06	\$1,459 27	Estimate based on amounts expended last year.
Pay of officers for length of service.....	879,520 00	874,330 00	5,190 00	Increase in length of service of officers.
Pay proper of enlisted men.....	4,349,080 00	4,150,000 00	199,080 00	Estimate made for 25,000 men, present organization.
Pay of hospital corps.....	210,000 00	150,000 00	60,000 00	Estimate based on letter of Surgeon-General.
Service-pay of enlisted men.....	508,136 00	431,739 00	76,397 00	Increase in length of service of enlisted men.
Service-pay of officers, Corps of Engineers.....	75,740 00	72,730 00	3,010 00	Increase in aggregate service.
Pay of officers, Ordnance Department.....	130,700 00	130,300 00	400 00	Estimate based on present organization.
Service-pay of officers, Ordnance Department.....	44,120 00	45,560 00	\$1,440 00	Decrease in aggregate service.
Pay of officers, Quartermaster's Department.....	144,500 00	146,500 00	2,000 00	One store-keeper, deceased.
Service-pay of officers, Quartermaster's Department.....	52,000 00	51,800 00	200 00	Increase in aggregate service.
Pay of officers, Medical Department.....	430,700 00	427,900 00	2,800 00	Estimate based on present organization.
Service-pay of officers, Medical Department.....	113,760 00	114,360 00	600 00	Decrease in aggregate service.
Service-pay of officers of the Pay Department.....	33,250 00	31,250 00	2,000 00	Increase in aggregate service.
Pay of the Signal Corps of the Army.....	64,296 00	64,296 00	Estimate based upon act of October 1, 1890.
Pay of officers on the retired list.....	1,012,122 68	991,855 22	20,267 46	Estimate based on number of retired officers.
Service-pay of officers on the retired list.....	294,381 00	295,370 00	989 00	Decrease in aggregate service.
Pay of enlisted men of the Army on the retired list.....	134,872 87	107,222 04	27,650 83	Estimate based upon present list.
Pay, etc., of contract-surgeons, hospital matrons, etc.....	96,702 72	90,000 00	6,702 72	Estimate based upon letter of Surgeon-General.
Pay and traveling expenses of paymasters' clerks and pay of messengers.	81,521 71	82,087 20	565 49	Estimate based on travel last year.
Pay of witnesses attending military courts.....	8,415 73	8,407 00	8 73	Estimate based upon expenditure of last year.
Commutation of quarters to officers.....	193,987 47	170,000 00	23,987 47	Estimate upon expenditure of last year.
Allowance for travel, retained pay, clothing, and interest on deposits to discharged men.	899,104 87	914,336 27	15,231 40	Estimate based upon expenditures of last year.
Pay of clerks and messengers, Inspector-General's Department.	24,640 00	24,640 00	Estimate based upon letter of Inspector-General.
Mileage to officers, when authorized by law.....	200,000 00	150,000 00	50,000 00	Estimate based upon expenditures of last year.
Amounts not changed.....	3,601,200 00	3,601,200 00
	13,592,059 38	13,044,825 79	568,059 48	20,825 89	
	13,044,825 79	20,825 89	
Excess of estimates over appropriations.....	547,233 59	547,233 59	

Statement showing the authorized active strength of the Army in commissioned officers, exclusive of the Signal Corps.

Total pay for 368 officers on the retired-list.....	818,800
Total pay for 1 secretary and 92 clerks.....	118,800
Total.....	4,519,250

APPENDIX Z.

In relation to estimates for "Marine Corps." (See pages 122-124.)

HEADQUARTERS U. S. MARINE CORPS, QUARTERMASTER'S OFFICE,
Washington, D. C., September 23, 1890.

SIR: In submitting the annual estimates for the support of the Quartermaster's Department, U. S. Marine Corps, fiscal year 1891-'92, I respectfully call your attention to the following changes in the amounts estimated for, as against the amounts appropriated for the same objects, present fiscal year (1890-'91), stating the reasons that, in my judgment, make these changes necessary and desirable:

Provisions, increased.....	\$28,586 25	Repair of barracks, increased.....	\$49,500 00
Fuel, increased.....	3,671 00	Forage, increased.....	500 00
Military stores, increased.....	5,000 00	Contingencies, increased.....	3,000 00
Transportation and recruiting, increased.....	2,500 00		

Provisions.—By direction of the honorable Secretary of the Navy, estimates are made with a view to procure and issue, in future, to the enlisted men of the Marine Corps serving on shore the Navy instead of the Army ration, heretofore issued to them; this action being called for in order to comply with section 1615, Revised Statutes, which reads: "The non-commissioned officers, privates, and musicians of the Marine Corps each shall be entitled to receive one Navy ration daily."

The ration is estimated for at 23½ cents each, its average cost, as issued to the seamen and other persons serving aboard the receiving-ships at the various navy-yards.

Fuel.—The estimate for fuel is based upon the price at which it is obtained (under contracts) present fiscal year; but Congress having failed to appropriate the full amount estimated for that year, a deficiency will result, and hence the increased amount in the estimate for fuel.

Military stores.—The item of \$5,000 for the purchase of one "Gatling" and one "Hotchkiss" gun is embraced under the above head, to enable the corps to have these guns at the marine barracks, Washington, D. C., for the purpose of instructing the enlisted men in their proper management and use preparatory to their duties' aboard ships of war.

Transportation and recruiting.—It having been found necessary to open additional recruiting rendezvous, in order to keep the corps up to its limit, and the fact that the guard at Sitka, Alaska, has to be changed and augmented, and that

several vacancies existing in the guards of vessels of war on foreign stations have to be filled, convince me that the sum of fifteen thousand dollars (\$15,000) will be required under the above head.

Repair of barracks.—The item in the estimates now submitted of \$25,000 for the erection of a fire-proof building for use as offices of commandant, adjutant and inspector, paymaster, and quartermaster, at the headquarters of the corps (Washington), is necessary, in view of the fact that the buildings now occupied for the purposes named are small frame structures, exposed to danger from fire, liable to originate at any moment in frame tenement houses in the immediate vicinity. There are no vaults, or other means, in the offices for the protection of the archives against loss either by fire or burglars; and when it is considered that all the records of the corps, from 1787 to the present time, are on file in the offices now occupied, embracing valuable and important papers required as evidence of service of enlisted men, upon which must be based all information relative to claims for pensions, bounties, etc., as well as all vouchers upon which moneys heretofore appropriated by Congress for the support of the corps have been expended, it will at once be seen that the destruction of the present office buildings, with their contents, by fire would be a calamity; hence the absolute necessity for the appropriation in question. In connection with this subject, I may add that a recommendation for the erection of a suitable fire-proof building for the purpose heretofore indicated was made by the honorable Secretary of the Navy to Congress during its present session.

The marine barrack at Mare Island, Cal., erected in 1864, has, during the long period of its existence, received but scant repairs, and has at last reached that condition which makes somewhat extensive alterations and repairs an absolute necessity; an item of three thousand dollars (\$3,000) is included to meet this object.

Forage.—The estimate under this head is based upon the prices at which forage is obtained under contract present fiscal year; but the fact that Congress failed to appropriate the amount estimated for will create a deficiency; hence the increase in the estimate for "forage."

Contingencies.—It having been decided to introduce the electric light into the navy-yard, Mare Island, Cal., and to cut off the supply of gas, which is now furnished by the gas-works at Vallejo, we are compelled to make connections with the electric plant, and run the necessary wires, etc., into the public buildings of the Marine Corps at that station; from estimates received, I find that this will cost about \$3,000.

Very respectfully, your obedient servant,

H. B. LOWRY,
Major and Quartermaster, U. S. M. C.

The COLONEL COMMANDING, U. S. Marine Corps Headquarters.

APPENDIX A a.

Recapitulation of the estimates of Indian service as furnished by the Indian Office. (See pages 127-144.)

Appropriations for the fiscal year ending June 30, 1891.		Amount of increase under "Traveling expenses of Indian inspectors".....		\$1,000 00
Current expenses, salaries, etc.....	\$216,100 00	Amount of increase under "Fulfilling treaties with Choctaws".....	600 00	
Fulfilling treaties with, and support of, Indian tribes.....	3,200,037 27	Amount of increase under "Support of Chippewas of Lake Superior".....	1,000 00	
Miscellaneous supports, gratuities.....	715,000 00	Amount submitted under "Support of Zuni Indians".....	5,000 00	
Incidental expenses Indian service.....	127,000 00	Amount of increase under "Incidentals in California".....	6,000 00	
Miscellaneous.....	599,720 00	Amount submitted under "Hospitals, Indian Service".....	20,000 00	
Indian schools.....	1,783,440 00	Amount submitted under "Aiding Indian allottees".....	25,000 00	
Trust-funds.....	101,470 00	Amount submitted under "Irrigating ditches, Indian Reservations".....	10,000 00

Amount submitted under "Pay of Indian agents".....	\$6,500 00	Amount appropriated for 1891 not embraced in estimates.....	620,569 24	
Amount of increase under "Buildings at agencies and repairs".....	15,000 00	Agreeing with the difference between the amount of these estimates and the amount appropriated for 1891.....	149,640 76	
Amount of increase under "Contingencies, Indian Department".....	1,000 00			

APPENDIX B b.

In relation to the estimates for "Building, Bureau of Engraving and Printing." (See page 151.)

TREASURY DEPARTMENT, BUREAU OF ENGRAVING AND PRINTING, November 14, 1890.

SIR: I have the honor to submit herewith an estimate of an appropriation for the following purposes:

Out-building.....	\$23,000
Pointing, cleaning, oiling, and penciling main building.....	4,250
Painting wood-work, main building.....	675
Painting iron-work around grounds, etc.....	450
Painting iron stairways.....	75
Total.....	28,450

The attention of the Department, and of Congress, has repeatedly been called to the urgent necessity for the erection of a suitable out-building for this bureau. The building is needed to provide proper accommodations for a carpenter shop, a stable, wagon house, the grinding of dry colors, the mixing and grinding of ink, and the storage of coal and other supplies and materials. All of these purposes are provided for at present either in the main building or in temporary frame structures, that are a menace not only to the bureau building proper, but to the entire neighborhood, on account of their combustible character. The mixing and grinding of the ink are now done in the main building, and the powdered color is carried by the belting, and otherwise, to different parts of the building, fouling the air, and discoloring the walls and ceilings. The lack of space compels the mixing of the dry colors in a dark room in the cellar, without sunlight or proper ventilation. The removal of these processes to the room provided for them in the plan prepared by the Supervising Architect for an out-building would remove these difficulties, and would also enable the bureau to buy the dry colors in lump, and grind them in its own mills, which it is very desirable that it should be able to do, in order to insure that the ink is of the proper quality, but which can not be done with the present facilities.

The main building was erected in 1879, and its exterior walls have not since been painted, oiled, or cleaned, of which, after eleven years of exposure, they are very much in need. The wood-work, both exterior and interior, needs painting very much. In many places the paint is entirely removed, and the wood is in danger of rotting, unless preserved by fresh paint. The exterior iron-work, including fence around grounds, railing around area-ways, columns around elevators, stairs of boiler-house, etc., needs one coat of paint.

In conclusion, I can not too strongly urge an appropriation for the above purposes; for the out-building, because it is absolutely essential to the proper transaction of the public business, and for repairs, because they are urgently needed to preserve valuable Government property.

Respectfully yours,

WM. M. MEREDITH,
Chief of Bureau.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX C c.

Statement (prepared in accordance with Statutes at Large, vol. 24, page 512) of persons employed on contingent force at public buildings in course of construction, showing names, occupation, time of service, rates of compensation, and total amount of compensation during the fiscal year ended June 30, 1890.

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., November 6, 1890.

SIR: I have the honor to inclose a statement, prepared in accordance with clause in Statutes at Large, volume 24, page 512, of persons employed on contingent force at public buildings in course of construction, under this office, showing names, occupation, time of service, rates of compensation, and total amount of compensation during the fiscal year ending June 30, 1890.

Respectfully yours,

JAS. H. WINDRIM,
Supervising Architect.

Hon. WILLIAM WINDOM,
Secretary of the Treasury, Washington, D. C.

APPENDIX E e.

In explanation of the estimates for "Revenue-Cutter Service." (See page 198.)

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., November 6, 1890.

SIR: I have the honor to transmit herewith an estimate of an appropriation required for the Revenue-Cutter Service during the fiscal year ending June 30, 1892, in detail, showing, separately, the amount required for pay of officers, rations for officers, pay of crews, rations for crews, fuel, repairs, and outfits, ship chandlery, and for traveling and contingent expenses, as required by chapter 410 of the public acts of the Fiftieth Congress of the United States, passed at the second session (25 Stat., 907), and also, in accordance with the same act, herein include a statement showing the authorized number of officers and cadets in the Revenue-Cutter Service, their rank, and pay, as follows:

36 Captains, at \$2,500 per annum.....	\$90,000	26 Chief engineers, at \$1,800 per annum.....	\$46,800
36 First lieutenants, at \$1,800 per annum.....	64,800	25 First assistant engineers, at \$1,500 per annum.....	37,500
36 Second lieutenants, at \$1,500 per annum.....	54,000	25 Second assistant engineers, at \$1,200 per annum.....	30,000
31 Third lieutenants, at \$1,200 per annum.....	37,200		
5 Cadets, at \$900 per annum.....	4,500	220 Officers—annual pay.....	364,800

I also report the number of men constituting the crews of the vessels in the Revenue-Cutter Service:

On vessels on the Atlantic, Pacific, and Gulf of Mexico:		Annual wages.	
56 Petty officers, at \$30 per month.....	\$20,160	1 Steward, at \$40 per month.....	\$480
47 Petty officers, at \$35 per month.....	19,740	13 Cooks and stewards, at \$50 per month.....	7,200
4 Petty officers, at \$40 per month.....	1,920	On vessels on the Great Lakes, calculated as in commission eight months in the year:	
9 Petty officers, at \$50 per month.....	5,400	12 Petty officers, at \$30 per month.....	2,880
4 Seamen, at \$17 per month.....	816	8 Petty officers, at \$35 per month.....	2,240
2 Seamen, at \$20 per month.....	480	37 Seamen, at \$28 per month.....	8,288
158 Seamen, at \$25 per month.....	47,400	7 Seamen, at \$29 per month.....	1,624
33 Seamen, at \$26 per month.....	10,296	8 Boys, at \$12 per month.....	768
6 Seamen, at \$28 per month.....	2,016	7 Boys, at \$15 per month.....	840
49 Seamen, at \$30 per month.....	17,640	8 Coal-passers, at \$28 per month.....	1,792
8 Seamen, at \$32 per month.....	3,072	16 Firemen, at \$35 per month.....	4,480
16 Seamen, at \$45 per month.....	8,640	13 Cooks and stewards, at \$35 per month.....	3,360
2 Seamen, at \$65 per month.....	1,560		
40 Boys, at \$12 per month.....	5,760	815 Men—total annual pay.....	270,304
40 Boys, at \$15 per month.....	7,200	Pilots employed on vessels of the Revenue-Cutter Service:	
8 Boys, at \$17 per month.....	1,632	2 Pilots, at \$69.12½ per month.....	1,659
34 Coal-passers, at \$25 per month.....	10,200	1 Pilot, at \$80 per month.....	960
9 Coal-passers, at \$30 per month.....	3,240	6 Pilots, at \$84.12½ per month.....	6,057
59 Firemen, at \$30 per month.....	21,240	12 Pilots, at \$100 per month.....	14,400
10 Firemen, at \$35 per month.....	4,200	6 Pilots, at \$109.12½ per month.....	7,857
19 Firemen, at \$45 per month.....	10,260		
8 Firemen, at \$50 per month.....	4,800	27 Pilots—total annual pay.....	30,933
2 Firemen, at \$75 per month.....	1,800		
64 Cooks and stewards, at \$35 per month.....	26,880		

The estimate herewith inclosed contains the amounts required for pay of officers, etc., resulting from a calculation based upon the total number authorized at full rates. In the ordinary course of business somewhat less would be required to defray these expenses, as vacancies and difference in pay when officers are on leave or waiting orders would make a considerable reduction, but this amount is so variable that it can not be accurately calculated, and, therefore, the full amounts stated should be appropriated, if separate appropriations are to be made for each particular object of expenditure for the support of this service. The same is true as to the other items which have been separately estimated for, when only a reasonable margin for contingencies has been added to the average amount expended in former years.

If but one appropriation is made for the Revenue-Cutter Service, as in former years, it need not be so large as the aggregate of a number of separate ones would be. The usual course of business is such that almost invariably when one class of expenditures is increased, another is diminished. When much is done in the way of repairing vessels, and large drafts are made on the general appropriation for this purpose, the pay of crews, consumption of fuel, rations, etc., is diminished by the enforced inaction of the vessels, and when comparatively little is required for repairs, the ability of the vessels to perform constant duty will require increased sums for fuel, pay of crews, and general supplies. These changes can not be calculated in advance, but the entire amount required can be quite fairly estimated by comparison with the actual expenditures of previous years. It is, therefore, respectfully suggested that the appropriation be made as formerly, to wit:

“Expenses of Revenue-Cutter Service, 1892.—For expenses of the Revenue-Cutter Service: For pay of captains, lieutenants, engineers, cadets, and pilots employed, and for rations for the same; for the pay of petty officers, seamen, cooks, stewards, boys, coal-passers, and firemen, and for rations for the same; for fuel for vessels, and repairs and outfits for the same; ship chandlery and engineers’ stores for the same; traveling expenses of officers traveling on duty under orders from the Treasury Department; instruction of cadets; commutation of quarters; for protection of the seal fisheries in Behring Sea and the other waters of Alaska, and the interests of the Government on the seal islands and the sea-otter hunting-grounds, and the enforcement of the provisions of law in Alaska; contingent expenses, including wharfage, towage, dockage, freight, advertising, surveys, labor, and miscellaneous expenses which can not be included under special heads.”

If this is done it is believed that \$950,000 would be sufficient for the fiscal year ending June 30, 1892, in lieu of the aggregate sum of \$1,043,014 as shown in the estimate as transmitted, in which the principal items are separately stated.

Such a separation would greatly increase the clerical labor of accurately keeping the multiplicity of accounts which would be thus created in the authorization and settlement of these expenditures. The increase of labor would occur not only in the office of the Secretary and the accounting divisions of the Treasury, but at every custom-house where the collector is now a disbursing officer for this service. Collectors of customs are required to render monthly accounts of disbursements under seven different heads, “Revenue-Cutter Service” being one. If the amount required for the proper maintenance of this service be divided into nine separate appropriations, monthly accounts being required for each, it is not believed that the advantage gained would be at all commensurate to the augmented labor in various localities, and consequent increase in clerical force rendered necessary thereby.

Respectfully yours,

L. G. SHEPARD,
Chief Revenue-Marine Division.

Hon. SECRETARY OF THE TREASURY.

APPENDIX Ff.

In relation to the estimates for “Engraving and Printing.” (See page 198.)

TREASURY DEPARTMENT, BUREAU OF ENGRAVING AND PRINTING, Washington, November 14, 1890.

SIR: I have the honor to submit herewith the estimates of the appropriations required for labor and expenses of engraving and printing for the fiscal year 1892. The estimates submitted by the heads of the several bureaus for which this bureau executes work show that there will be needed during the fiscal year 1892, 47,973,830 sheets of securities, stamps, and miscellaneous work, requiring 64,193,000 plate printings. Of this amount the Treasurer of the United States estimates that 7,500,000 sheets of Treasury notes will be needed, requiring 15,375,000 plate printings, the cost of which will be paid from the appropriation for the purchase of silver and the issue of Treasury notes under act of July 14, 1890, leaving 40,473,830 sheets, requiring 48,818,000 plate printings to be provided for by specific appropriations for this bureau. It is estimated that the cost of the aggregate amount of work which will be required will be as follows:

Compensation of employes.....	\$436,625 82
Plate printing.....	608,526 90
Materials and miscellaneous expenses.....	215,705 87
Total.....	1,260,858 29

The estimated cost of the 7,500,000 sheets of Treasury notes which will be charged against the permanent appropriation for that work is \$274,858.29. The amounts that will have to be provided by specific appropriations for this bureau are as follows:

Compensation of employes.....	\$332,000 00
Plate printing.....	490,000 00
Materials and miscellaneous expenses.....	164,000 00
Total.....	986,000 00

The aggregate amount of work to be done in 1892, on the basis of the plate printing required, which is the proper basis of comparison, exceeds the amounts estimated for 1891 a little more than 17 per cent., and the estimated aggregate cost exceeds the estimated cost in 1891 in the same ratio. The amounts estimated for under the regular bureau headings of appropriation are somewhat less than the amounts estimated and appropriated for the current fiscal year. This arises from the fact that the larger part of the notes and securities to be furnished the Treasurer’s Office during the next year will be Treasury notes, which will be paid for, as already explained, from the permanent appropriation for that work. The remainder of the securities to be furnished the Treasurer’s Office from the specific appropriation of the bureau will be the United States notes, silver, and other certificates, needed to replace those redeemed and destroyed,

It is expected that the new wing for the building of this bureau, authorized by act of August 30, 1890, will be completed and ready for occupancy during the next fiscal year. I have therefore submitted an estimate for an appropriation of \$20,000 for machinery, furniture, and expenses of occupying that wing. There will be five stories to fit up, and it is believed that this sum, while adequate for the purpose, is very reasonable.

Respectfully yours,

WM. M. MEREDITH,
Chief of Bureau.

Hon. SECRETARY OF THE TREASURY.

APPENDIX G g.

In relation to certain changes desired in the wording of appropriations for Light-House Establishment. (Estimates on pages 199-201.)

TREASURY DEPARTMENT, OFFICE OF THE LIGHT-HOUSE BOARD,
Washington, November 6, 1890.

SIR: The Board has the honor to herewith transmit the Estimates of Appropriations required for the service of the fiscal year ending June 30, 1892.

As certain changes have been made in the wording of the suggested general appropriations, the correspondence of 15th October, 1890, between the Board and the Commissioner of Customs, is submitted herewith as a reason therefor.

Respectfully yours,

D. B. HARMONY,
Rear Admiral, U. S. N., Chairman.

Hon. SECRETARY OF THE TREASURY.

CHANGES IN WORDING OF APPROPRIATIONS.

TREASURY DEPARTMENT, OFFICE OF THE LIGHT-HOUSE BOARD,
Washington, October 15, 1890.

SIR: The Light-House Board is now making up its estimates for the next fiscal year to be presented to Congress, and it is thought advisable to make certain changes in the wording of the different general appropriations for the support of the Light-House Establishment. The main reason for doing this is that some expenditures which heretofore have been made under the head of Incidental Expenses had better be authorized by law in the phraseology of the several appropriations.

It is not intended by the change of wording to give to the Board any additional authority for expenditures under the several appropriations; but it is proposed that each appropriation shall state distinctly and exactly what expenditures may be made under it in conformity with law.

The Board submits herewith the forms which it deems will best accomplish this purpose.

Supplies of light-houses.—For supplying fog-signals, light-house, and other lights with illuminating, cleaning, preservative, and such other material as may be required for annual consumption, for books, boats, and furniture for stations, and other incidental expenses, \$——.

Salaries of keepers of lights and fog-signals.—For salaries, fuel, rations, rent of quarters, traveling expenses when necessary, and similar incidental expenses of not exceeding one thousand two hundred keepers and laborers in charge at fog-signals, light-houses, and other lights, \$——.

Expenses of light-vessels.—For the expense of maintaining and replacing light-vessels and establishing temporary light-vessels where necessary, seamen's wages, rations, repairs, salaries, supplies, and incidental expenses of light-ships, \$——.

Expenses of buoyage.—For expense of establishing, replacing, and maintaining lighted and other buoys, spindles, and day-beacons, and for incidental expenses relating thereto, \$——.

Lighting rivers.—For establishing, supplying, and maintaining post and floating lights on ——, \$——.

The Board respectfully asks your written opinion as to whether these changes are necessary and advisable, and whether they will facilitate the adjustment of the light-house accounts in your office.

Respectfully yours,

D. B. HARMONY,
Rear Admiral, U. S. N., Chairman.

The COMMISSIONER OF CUSTOMS, *Treasury Department, Washington, D. C.*

OFFICE OF COMMISSIONER OF CUSTOMS, *October 17, 1890.*

Respectfully returned to the Chairman of the Light-House Board.

The proposed changes in the language of several of the annual appropriations for the Light-House Establishment indicated herein would, if adopted by Congress, have the effect of expressly authorizing certain necessary expenditures of the light-house service which have heretofore been authorized by implication only, and in my judgment it is advisable and important that they should, with one exception, be made. I would suggest, however, that the language of the appropriation for Salaries of Keepers be modified to read as follows:

For salaries, fuel, rations, rent of quarters, and traveling expenses where necessary, and similar incidental expenses of not exceeding one thousand two hundred keepers of fog-signals and light-houses, and for laborers attending other lights or temporarily employed in the place of keepers.

SAMUEL V. HOLLIDAY,
Commissioner of Customs.

APPENDIX H h.

In relation to the estimates for Coast and Geodetic Survey. (See pages 201–205.)

U. S. COAST AND GEODETIC SURVEY OFFICE,
Washington, September 30, 1890.

SIR: I have the honor to submit herewith estimates of the appropriations required for the Coast and Geodetic Survey for the fiscal year ending June 30, 1892.

The items under the head of "party expenses" differ in some particulars from those enumerated in the act making appropriations for the year ending June 30, 1891, completed work being omitted of course, and new localities designated. In some cases paragraphs hitherto separated have been consolidated for the purpose of greater economy in the expenditure of the sums appropriated. The total sum estimated for "party expenses" differs but little, however, from that appropriated for the present fiscal year. The amounts estimated for under the heads "pay of field officers" and "pay of office force" are identical with those provided in the act appropriating for the fiscal year ending June 30, 1891. Under the head of "office expenses" the amount estimated in the second paragraph is greater than the current appropriation by four thousand five hundred dollars. It is this item which furnishes all supplies of copper-plate, chart-paper, photo-lithographing, and all extra engraving, printing from stone, etc., and the appropriations for several years have been entirely inadequate, requiring large deficiency appropriations each year. While the output of charts has greatly increased during the past few years, the amount regularly appropriated under this item has not grown with the demand, but it is believed that the amount now asked for, will, by careful expenditure, enable us to escape a deficiency.

The grand total of the regular estimates is sensibly the same as that of the current appropriation. A special estimate is submitted, however, for providing the additional facilities for chart printing, which are now so imperatively demanded. During the year 1886 the number of charts issued was about 28,000; during the present year it will reach nearly 70,000. In this time there has been no increase of our facilities for chart printing, so that even with the most strenuous efforts we are now entirely unable to meet the demands made upon us. On June 30 there were on file orders for over a thousand charts of seventy different kinds, which could not be filled, owing to our inadequate printing facilities. The demand for charts is constantly growing. The number supplied to sale agents has increased more than a hundred per cent. during the past five years. The great increase in the demand for our publications is also shown in the increase of the number of notices to mariners from less than 7,000 to about 138,000 within the last five years, and this goes to show that the demand for charts is likely to increase considerably within the next few years. The appropriation of the comparatively small sum of fifteen thousand dollars asked for to enlarge our capacity in that direction can hardly be delayed longer. With the relief which this will afford we shall doubtless be able to meet the demand for several years to come.

In addition to the estimates of expenditures on account of the Coast and Geodetic Survey, I transmit also an estimate for the expenses of the Office of Construction of Standard Weights and Measures for the fiscal year ending June 30, 1892. The items of this estimate are the same as those appropriated for the current fiscal year, with the exception of that providing for the expenses of the attendance of the American member of the International Committee on Weights and Measures at the general conference provided for in the convention signed May 20, 1875, which was estimated for but not included in the act for the present fiscal year; and of the item for salary of one messenger, at \$720 per annum, whose services are urgently needed.

Respectfully yours,

T. C. MENDENHALL,

Superintendent Coast and Geodetic Survey and of Weights and Measures.

Hon. SECRETARY OF THE TREASURY, Washington, D. C.

APPENDIX I i.

In relation to the estimates under the Smithsonian Institution. (See pages 205–207.)

SMITHSONIAN INSTITUTION, Washington, October 20, 1890.

SIR: I have the honor to submit herewith the estimates for the appropriations for the fiscal year ended June 30, 1892, required for objects placed by Congress in charge of the Smithsonian Institution, viz—

NATIONAL MUSEUM:		INTERNATIONAL EXCHANGES.....	\$32,400 00
Preservation of collections.....	\$180,000 00	NORTH AMERICAN ETHNOLOGY.....	50,000 00
Building repairs.....	5,000 00	NATIONAL ZOOLOGICAL PARK:	
Furniture and fixtures.....	30,000 00	Improvement and care of grounds.....	29,500 00
Heating and lighting.....	15,000 00	Buildings and inclosures.....	36,850 00
Heating repairs.....	3,000 00	Maintenance and increase of collections.....	35,000 00
Printing.....	18,000 00	ASTRO-PHYSICAL OBSERVATORY.....	10,000 00
Binding.....	1,000 00		
Postage.....	1,000 00		

The following explanation in regard to these items is presented:

NATIONAL MUSEUM.

The needs of the Museum have been explained at length in letters presented at the last session, reference to which is made in the notes under the estimates.

INTERNATIONAL EXCHANGES.

The sum of \$32,400 for International Exchanges is estimated as necessary to carry out in an efficient manner the provisions of conventions between the United States and certain other foreign countries concluded at Brussels, March 15, 1886, and ratified and proclaimed in January, 1889, for the exchange of official documents and scientific and literary publications, and also for the exchange of official journals and parliamentary annals of the States adhering thereto.

Since 1868 the Smithsonian Institution has been required by Congress to conduct the exchange of Congressional documents with the official publications of other countries, though Congress has defrayed but a portion of the expense.

Even since 1886, the date of the treaty at Brussels referred to above, wherein the United States undertook to conduct a bureau of international exchanges, the whole cost of the service has not been provided for by the Government. In fact, a careful investigation of the accounts shows that since the earlier date of January 1, 1868, to June 30, 1889, \$45,175.82 was paid from the Smithsonian fund for work properly belonging to the General Government.

At present the appropriation of \$17,000 is made directly to the Institution for International Exchanges, and smaller sums, aggregating about \$2,000, are granted to various bureaus to enable them to repay the Smithsonian Institution a portion of the cost of transporting their exchanges. It is the object of the increased estimate now submitted to unite the entire exchange appropriation in a single item, to pay the steamship companies for carrying the exchange boxes, thereby securing greater rapidity of transmission (exchange boxes are now carried free of freight charges by most of the ocean steamship lines), and to make the increase in clerical force demanded by the constantly-increasing bulk of the exchanges.

NORTH AMERICAN ETHNOLOGY.

No explanation appears to be needed beyond those heretofore given.

NATIONAL ZOOLOGICAL PARK.

In submitting estimates for the National Zoological Park, I wish to say that it has not been deemed advisable to provide at the present time for the considerable expense which would be involved in the immediate opening to the public of the whole area of 167 acres purchased by Congress.

The complete establishment of the park in a manner befitting its national character will be a work of considerable time, and now that the natural beauties of the site are secured from the danger of destruction, it would seem best to set aside first some of the more attractive and picturesque parts of the grounds, into which the public may be admitted at an early day, and where the animals now on hand and shortly to be exhibited will be cared for at a small part of the expense of opening the whole park.

Nearly forty acres, selected on account of accessibility and moderate elevation, as well as on account of being adapted to the purposes of the park without great expense, will be thus set aside for immediate improvement, while a tract of some fifteen acres more will be so arranged that the public can ramble through it, although it will not have at first a strictly park-like and expensive cultivation. There will thus be opened to the public, it is hoped by next year, between fifty and sixty acres, which is an area larger than that of the zoological gardens in the Regents' Park of London or of the Jardin des Plantes of Paris, and this will be done at a comparatively small cost.

A distinct area of some ten or fifteen acres will be reserved in another portion of the park for administrative purposes, including a lodge for the resident superintendent, offices, stables, infirmary for animals, a proposed laboratory, and for other purposes requiring seclusion.

The explanations accompanying the estimates given below are not submitted as forming the subject of specific itemized appropriations, but only as giving briefly the principal considerations which have determined the gross amounts asked for; and it is further desirable to remember that in an undertaking like this, where everything is untried, the precision of estimate attainable in long-established expenditures is not possible.

Improvement and care of grounds.—The cost of improving this area of nearly forty acres is estimated by Mr. Frederick Law Olmsted at about \$2,700 per acre, exclusive of buildings and bridges. There is inclosed herewith a copy of his estimates (marked Exhibit 1 following) relating to the subject, from which it is hoped that some reductions may still be made in practice. It should, however, be remembered that the cost of improving Central Park, New York, has already been not less than \$14,000 per acre, and that of Prospect Park, Brooklyn, \$9,000 per acre, while that of the large Franklin Park, Boston, is estimated at \$2,900 per acre. It is thought that at least \$29,500 should be appropriated for this work during the fiscal year ending June 30, 1892, and this amount is arrived at as follows:

<i>Under way and projected.</i>		<i>Items of the existing appropriation properly falling under this head.</i>	
Ponds and stone-work.....	\$5, 000	Total under way and projected.....	\$53, 500
Water-supply, including reservoir.....	4, 000	<i>Item 4.</i> —For the creation of artificial ponds and other provisions for aquatic animals.....	\$2, 000
Sewerage and drainage.....	4, 300	<i>Item 5.</i> —For water-supply, sewerage, and drainage.....	7, 000
Roads and walks.....	10, 000	<i>Item 6.</i> —For roads, walks, and bridges.....	15, 000
Bridges.....	15, 700		24, 000
Cultivating, planting, and miscellaneous work.....	14, 500		
	53, 500	Amount recommended to be appropriated.....	29, 500

Buildings and inclosures.—It is desired to at first proceed only with work which is absolutely necessary to creditably exhibit the animals now in the possession of the Government, and those which are to be, at any rate, expected in such a collection even at its first opening. Reliance is placed on the known disposition of the people of the country to donate specimens. The sums asked for animal-houses are within those usually expended for structures of this character, and certainly far within what will ultimately be required; but, for that reason, it is intended to arrange the actual buildings so that they can be enlarged in future years as money may be appropriated for the purpose.

The sum asked for buildings and inclosures is \$36,850, in detail as follows:

<i>Under way and projected.</i>		<i>Under way and projected—Continued.</i>	
Large animal houses (on account).....	\$15, 000	Public-comfort pavilions, etc.....	\$2, 500
Aviary and house for small animals (on account).....	12, 500		62, 850
Houses and yards for foxes and wolves.....	2, 000	<i>Items of the existing appropriation falling under this head.</i>	
Caves for bears and other carnivora.....	9, 850	<i>Item 1.</i> —For the shelter of animals.....	\$15, 000
Buffalo and elk house.....	2, 800	<i>Item 2.</i> —For shelter barns, cages, fences, and inclosures, and other provisions for the custody of animals.....	9, 000
Fences for ruminants and for smaller inclosures.....	3, 000	<i>Item 3.</i> —For repairs to the Holt mansion to make the same suitable for occupancy and for office furniture.....	2, 000
Fences for paths and for protection of grounds within park.....	2, 000		26, 000
Boundary fence for park.....	4, 000	Amount recommended to be appropriated.....	36, 850
Holt house, repairing and furniture.....	3, 500		
Stable and shed.....	1, 500		
Infirmary for sick, disabled, and breeding animals.....	2, 000		
Tool house, shops, and sheds.....	2, 200		

Maintenance and increase of collections.—It has been thought proper to group the regular current and incidental expenses of the park together under head of maintenance and increase of collections. Forty-two thousand dollars were appropriated for this purpose last year, but it is thought that \$35,000 will suffice for the fiscal year 1891-'92, notwithstanding the increase in the collections which is expected.

ASTRO-PHYSICAL OBSERVATORY.

In submitting an estimate of \$10,000 for the maintenance of a small astro-physical observatory and laboratory, to be situated in the National Zoological Park, and under the immediate care of the Secretary of the Smithsonian Institution, Congress is asked for the first time to give aid in a comparatively recent field of research that has been considered of sufficient importance by the legislators of leading foreign nations to justify the establishment of costly special observatories and their maintenance with a staff of astronomers and physicists of wide reputation.

The class of work does not ordinarily involve the use of the telescope, and is distinct from that carried on at any other observatory in this country. It would conflict in no way with the work of the present U. S. Naval Observatory.

Briefly stated, the work for which the older government observatories at Greenwich, Paris, Berlin, and Washington were founded, and in which they are actually chiefly engaged, is the determination of relative positions of heavenly bodies and our own place with reference to them. Within the past twenty years all these governments but our own have created an addition to these, a distinct and additional class—astro-physical observatories, as they are called—that are engaged in the study of the constitution of the heavenly bodies as distinguished from their positions; in determining, for example, not so much the position of the sun in the sky as the relation that it bears to the earth and to our own daily wants.

Briefly, and to use the same instance, the old observatories, as regards their work on the sun, are chiefly occupied in determining *where* it is in the heavens daily, for the purpose of the navigator; the new astro-physical observatories, in determining what it is, how it effects terrestrial climate, and how it may best be studied, for the purposes of the meteorologist, and for other purposes of an immediately practical nature.

A partial instrumental outfit for a small astro-physical observatory has been procured by the Smithsonian Institution and placed in a temporary structure in the Smithsonian Grounds, and, by private subscription, \$10,000 are now at the disposition of the Institution to aid in this research. The sum now asked for is to be applied to the completion of the plant and to the payment of current expenses, including the salaries of three assistants, and it seems proper to state that no larger appropriation is contemplated as necessary for at least many years.

Very respectfully yours,

S. P. LANGLEY,
Secretary.

Hon. WILLIAM WINDOM, *Secretary of the Treasury.*

EXHIBIT 1.

F. L. OLMPSTED & Co., LANDSCAPE ARCHITECTS,
Brookline, Mass., October 1, 1890.

DEAR SIR: At your request we submit the following approximate estimate of the cost of improving the National Zoological Park according to the plan which we had the honor to present on the 25th ultimo.

This estimate assumes that suitable provision for the animals now on hand, or likely soon to be acquired, and for the convenience and enjoyment of the public, will require an area of about thirty-seven acres to be brought into a condition generally similar to that of the better class of public parks of the country.

In addition to such grading along roads and walks as is usual in parks, the item of earthwork includes the filling of the approaches to the bridge and the raising of the ground for the bear-pits in the quarry to a level above that of the last great flood.

Accurate detailed surveys and working drawings not having been yet prepared, the quantities noted in the estimate are to be regarded not as exact, but as liberal.

The estimate does not include the buildings nor the bridge of the plan, it being assumed that the architect will inform you of the cost of these.

The estimate does not include a fence along the boundary of the entire park, but it does allow for enough fencing to inclose that portion of the park which is to be improved, and for numerous paddocks for the animals.

The prices assumed are those usual for good work done by contract in this vicinity. Prices in Washington will probably be found a little lower.

Approximate preliminary estimate.

Earthwork:		Walks:	
11,000 cubic yards top-soil, handled twice, at 80 cents..	\$8,800	5,400 square yards (stone and gravel), at 80 cents	\$4,320
18,300 cubic yards sub-soil, handled once, at 50 cents..	9,150	Fencing:	
	\$17,950	22,000 lineal feet iron fencing (average say \$1)	22,000
Sewerage and drainage:		Cultivating:	
2,450 lin. feet 6-inch vitrified sewer-pipe, laid at 50 cents.	1,225	37 acres, grubbing, surface grading, manuring, ploughing,	
6,000 lineal feet 4-inch sub-soil drains, laid at 15 cents..	1,020	trenching, raking, seeding, and planting with trees and	
11,500 lin. feet 2-inch sub-soil drains, laid at 15 cents..	1,725	shrubs, at \$500 an acre	18,500
8 catch-basins, at \$50.....	400	Miscellaneous:	
	4,370	Seats, tools, signs, tree-guards, rock work and concreting for	
Water supply:		bear-pits, etc., also (in portions of park not covered by	
5,000 lineal feet cast-iron pipe, laid at \$1.....	5,000	above estimate) forestry work, planting, and operations	
1 underground reservoir.....	2,000	necessary to preserve ground from gullyng and washing	
5 hydrants.....	250	away.....	10,000
	7,250		
Roads:		Add 10 per cent. for plans, engineering, superintendence, and	
5,500 square yards macadamizing, at \$1	5,500	contingencies	9,121
1,100 lineal feet paved gutter (concourse and bridge		Total	100,331
approaches), at 60 cents.....	660		
1,100 lineal feet curbing (concourse and bridge ap-			
proaches), at 60 cents.....	660		
	6,820		

The cost of suitably preparing public grounds under nearly all circumstances is much larger than the public is generally prepared to believe to be necessary, and it commonly occurs that the supposed excessive cost is attributed to a disposition to give them a highly artificial, ornamental character. For this reason we wish to state that in the plan to which the above estimate refers no ornamental gardening is had in view. Except a moderate amount of planting of common trees, bushes, and native hardy perennials, the only work provided for, other than that of necessary constructions in the form of roads, walks, gutters, drains, sewers, means of water supply and distribution, and other utilitarian features, is such grading as, in our judgment, is required to prevent these artificial elements of the park from becoming excessively conspicuous and harshly discordant with the native grace of the natural topography.

In estimating the cost of grading, sewerage, and drainage, we have assumed that wherever the preliminary part of the work can be made to conform to the intention of the general and final plan such work should be of a permanent character.

It may be questioned whether a saving could not be made in the quantity of earthwork had in view in the estimate. It could, but only by giving the slopes of the roads, for instance, a greater degree than we think desirable, of the manifestly artificial character which railroad embankments and military earthworks usually have, and which, in this case, in order to preserve an effect of natural topography, it is essential to avoid.

The only items of the estimate that can, in our judgment, be materially reduced, are these:

1. The water supply, by omitting the underground reservoir and the main leading to it from the buffalo house.
2. The fence, by providing smaller inclosures, and by having smaller and fewer paddocks; and perhaps, also, by using a form of construction that would require to be replaced after a few years.
3. The bear-pits, by leaving them at their present level, subject to be overflowed by unusual freshets.
4. The bridge approaches, by substituting trestles for the earth filling had in view in the estimate.
5. By cultivating and otherwise preparing a somewhat smaller area of ground than that had in view.

We are, very respectfully, your obedient servants,

F. L. OLMSTED & CO.

Prof. S. P. LANGLEY,
Secretary of the Smithsonian Institution, Washington, D. C.

APPENDIX Jj.

In relation to the estimates of the Fish Commission. (See pages 207, 208.)

U. S. COMMISSION OF FISH AND FISHERIES,
Washington, D. C., October 13, 1890.

SIR: I have the honor to forward herewith estimates of the appropriations that will be required for the service of the United States Commission of Fish and Fisheries for the fiscal year ending June 30, 1892.

The item for "propagation of food-fishes" is increased over that for the present fiscal year \$10,000. This sum will be required to meet the additional expenses connected with the new stations at Green Lake, Maine; Put-in Bay, Ohio; and Leadville, Colorado; which were specifically authorized by Congress, and which will soon be ready for active operation.

The item for "distribution of food-fishes" is practically the same as for the fiscal year 1891, the \$50,000 asked for covering not only the general distribution of food-fishes, for which the appropriation for the current fiscal year is \$35,000, but also for the distribution of fishes indigenous to the Mississippi Valley, for which \$15,000 was appropriated.

For each of the fiscal years 1889 and 1890 Congress appropriated for the "maintenance of vessels" \$53,900, making the increase asked for the coming year \$1,100. The constant service of the vessels of the Commission in the investigations of the fishing grounds off the coasts of the United States, and the study of the causes affecting the fisheries, result in a considerable expenditure for fuel for the vessels and for their maintenance. The employment of specialists to carry on this work increases also the amount to be expended for the compensation of civilian employes. It is deemed desirable by the Commission to more actively prosecute this work; and, if the same be approved by Congress, the appropriation asked for will not be more than sufficient to meet the cost of the work.

In the item for "inquiry respecting food-fishes" there is an increase of \$5,000. During the last and present fiscal years extensive studies of the rivers of the interior have been made, with the view of determining not only their fish life, but the food they may have suitable for our different food-fishes, to serve as a guide in the conduct of the work of distribution. The results so far attained have been of so much value that it is highly important to continue the inquiry. The study of the data obtained will necessitate the employment of considerable expert assistance. To meet the cost of the increased work in these two branches of the inquiry it is estimated that the additional sum now asked for will be required.

The items for "statistical inquiry" and "vessels, food-fishes" are the same as were submitted for the present fiscal year; and the reasons for the same have been already laid before the proper committee of Congress.

These estimates are submitted tentatively, it being the intention of the Commissioner to present a proposed scheme of organization to Congress when it shall assemble.

I have the honor to be, very respectfully, etc.,

M. McDONALD,
Commissioner.

Hon. SECRETARY OF THE TREASURY.

APPENDIX K k.

Detailed estimate for "Pay of assistant custodians and janitors." (See page 210.)

Amount estimated to be required for the "Pay of Assistant Custodians and Janitors, 1892," for the following named buildings, completed and to be completed prior to June 30, 1892, under the control of the Treasury Department. (Estimate on page —.)

Place and designation.	No.	Compensation.	Amount.	Total.	Place and designation.	No.	Compensation.	Amount.	Total.

APPENDIX L1.

In relation to the estimate for "Suppressing counterfeiting and other crimes." (See pages 211, 212.)

U. S. TREASURY DEPARTMENT, SECRET-SERVICE DIVISION, OFFICE OF CHIEF,
Washington, D. C., October 11, 1890.

SIR: I have estimated the cost for services and expenses in the detection of counterfeiters, and in the investigation of back-pay and bounty claims, for the fiscal year of 1891-'92, at \$75,000, being \$15,000 in excess of the usual sum allowed to this service of late years.

It will be observed that the appropriation for the present fiscal year adds \$4,000 for the investigation of claims for reimbursement of expenses incident to the last sickness and burial of deceased pensioners, and \$5,000 for the necessary investigation of violations of law by officers or agents of national banks.

As such moneys can only be expended for the specific purposes stated, they can not relieve the necessities of that service devoted to operating against counterfeiters and the investigation of back-pay and bounty claims.

On my return to the division, I found the men in the field were, for the larger part, compelled to remain at headquarters, lest by incurring expense in travel and subsistence a deficiency in the appropriation would have been created.

This state of things exists to-day. No man can leave his headquarters, except by permission of the chief, and then the case must be shown to be urgent and important.

We employ too many men for the appropriation, and too few men for the work required of this division.

So great is the pressure upon us that to-day we have eight men employed in the city of New York, where four formerly sufficed.

Last fiscal year the expenditures show that 67 per cent. was paid for services and 33 per cent. for all other expenses.

Our pay-roll for men now in the field will reach over \$49,000 for the present fiscal year, and, from the activity counterfeiters now evince, we may be compelled to increase our force.

Adding last year's ratio of payments for all expenses, less services, and \$75,000 would barely carry the division through the year without a deficiency.

It should be understood, at this point, that the average per diem pay of our field force is \$4.

If the increase asked for be granted, we shall then be able to send out men to hunt for counterfeiters; otherwise we must wait, as now, to be informed of their presence.

Respectfully yours,

JAMES J. BROOKS,
In charge.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX M m.

In relation to the estimates submitted by the National Board of Health. (See page 212.)

NATIONAL BOARD OF HEALTH,
Washington, D. C., October 27, 1890.

SIR: We hand you herewith, for transmission to Congress, the estimates of appropriations required for the National Board of Health during the fiscal year ending June 30, 1892.

As no appropriations have been made for the use of the Board since July 30, 1886, except to pay the cost of storage of its property from September 1, 1886, to March 4, 1889, it is deemed proper that the attention of Congress should be directed to the laws now in force providing for the establishment of the Board and prescribing its duties.

By reference to the act approved March 3, 1879, it will be seen that the Board is made the adviser of the National and State governments in all matters affecting the public health, or whenever, in the opinion of the Board, such advice would tend to its improvement or preservation.

In view of the relations thus established by law and of other duties imposed upon us, we have felt obliged to maintain an organization which would enable us to respond promptly to any calls that might be made. Under the provisions of the act approved July 1, 1879, the Board was authorized to procure suitable offices in the District of Columbia for the transaction of its business at a cost not exceeding one thousand eight hundred dollars per annum.

Such offices were procured and occupied until the 31st day of August, 1886, when the secretary was directed to vacate them, store the property, and continue in the performance of such duties as were required by law.

Congress subsequently made an appropriation to cover the expense incurred in the storage of the property from September 1, 1886, to March 4, 1889, since which time the property has been stored in a Government building in accordance with the terms of the law making the appropriation.

No investigation has been attempted since Congress failed to make the necessary appropriation for carrying on the work, but the correspondence of the Board has of necessity continued. Sanitary reports are received from State and local boards, from foreign countries, and from our representatives abroad. Communications calling for information and advice are also received, and we have felt compelled under the law to provide for the proper consideration of all such matters.

In consequence of the lapse of time which has occurred since an appropriation was made for the Board, we have deemed it desirable that the above explanation should be made in order that Congress may be fully informed as to the condition of affairs and of the position in which the Board is placed.

We need not enter at length into the arguments in favor of making such provision as will enable the Board to perform efficiently all the duties devolved upon it by law. They are numerous and obvious to the most cursory observer. The State and local boards are doing much to improve and preserve the health of the people, but there are many fields which can only be explored under Federal authority. The services already rendered by the National Board of Health are recognized both at home and abroad. Frequent calls continue to be made for our reports and papers. These we have, in many instances, been unable to furnish, as the supply authorized by Congress has long since been exhausted. Nearly all of the civilized nations of the earth have corresponding organizations for sanitary purposes, which receive the most generous support, and it is our desire to bring to our people the latest and best information from abroad, as well as in the field of original investigation.

We respectfully call attention to the fact that, at the expiration of our last annual appropriation, a balance of more than three hundred thousand dollars remained to the credit of original appropriations for the Board, which was not then available for the purposes for which it was appropriated. If provision can be made for the use of a portion of this sum, the Board will be able to resume its labors.

Having explained the position of the Board, we ask that Congress will make such provision as will enable us to perform efficiently all the duties devolved upon us by law.

Very respectfully,

W. P. DUNWOODY,
Secretary.

Hon. SECRETARY OF THE TREASURY.

APPENDIX N n.

In relation to the estimates of the Commissioners of the District of Columbia. (See pages 213 to 225.)

OFFICE OF THE COMMISSIONERS, DISTRICT OF COLUMBIA,
Washington, October 30, 1890.

SIR: The Commissioners of the District of Columbia herewith transmit their estimate of appropriations for the support of the government of the District of Columbia for the fiscal year to end June 30, 1892.

Attached to these estimates are statements showing estimated receipts of the District government, exclusive of the Water Department, for said period; memoranda of the reasons for submitting new or changed items as compared with the appropriations for the support of the District government for the current fiscal year, and schedules of proposed work on sundry streets, avenues, and roads.

Respectfully,

J. W. DOUGLASS,
President Board of Commissioners District of Columbia.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

[First Indorsement.]

TREASURY DEPARTMENT, October 31, 1890.

Respectfully referred to the Hon. First Comptroller for examination.

A. B. NETTLETON,
Assistant Secretary.

[Second Indorsement.]

FIRST COMPTROLLER'S OFFICE, November 5, 1890.

Respectfully returned to the Hon. Secretary of the Treasury without any recommendations or suggestions as to changes.

J. R. GARRISON,
Acting First Comptroller.

OFFICE OF THE ASSESSOR, DISTRICT OF COLUMBIA,
Washington, D. C., September 23, 1890.

GENTLEMEN: I have the honor to submit herewith a statement showing estimated receipts of the District of Columbia for the fiscal year ending June 30, 1892, same being based, so far as anticipated revenue from the real and personal property is concerned, on the addition of the real and personal tax ledgers for the year ending June 30, 1891.

From this statement it appears that the total revenue for the year 1892 (exclusive of the estimate for new buildings for that year), will amount to \$2,539,563.21.

Very respectfully,

MATTHEW TRIMBLE,
Assessor, District of Columbia.

To the COMMISSIONERS OF DISTRICT OF COLUMBIA.

ESTIMATED RECEIPTS OF THE DISTRICT OF COLUMBIA FOR THE FISCAL YEAR ENDING JUNE 30, 1892.

MATTHEW TRIMBLE,
Assessor.

OFFICE OF THE ASSESSOR, DISTRICT OF COLUMBIA, October 1, 1890.

OFFICE OF THE INSPECTOR OF BUILDINGS,
Washington, September 23, 1890.

GENTLEMEN: In response to your verbal instructions of this date, I submit the following estimate of the valuation of new buildings and additions which will become taxable for the first time during the fiscal year to end June 30, 1892.

The valuation upon the records of this office as given by the persons taking out permits for new buildings and additions and repairs to old ones during the fiscal year ended June 30, 1890, was \$8,413,854. The number of permits issued thus far this year is larger than that for a corresponding period last year; so that it is probable that the total valuation of buildings represented by permits issued or to be issued during the current fiscal year will be at least equal to the amount of the previous year.

The amount for new buildings last year was \$7,619,481. If the coming winter should be severe, it would have a material influence in determining the amount of building that will be done. As a margin for contingencies on this account, it may be safe to deduct all over seven million dollars, and make that amount the basis of calculation for new buildings for 1892. The valuation of repairs and additions last year was \$794,373. The assistant assessor, who has immediate charge of the assessment of new buildings, repairs, and additions, is of opinion that about one-half of this class of improvements escapes assessment for taxation owing to their comparative insignificance. This would leave about \$397,186 on this account to enter into this estimate, which, with the \$7,000,000, would be \$7,397,186. The assessor's rating for taxation is about 33 per cent. less than the valuations given to this office by the persons who obtain the permits, and the assessable valuation for such improvements for 1892 would therefore be \$4,931,458. A tax of \$1.50 on each one hundred dollars of this amount would yield a revenue of \$73,971.87.

Very respectfully,

THOS. B. ENTWISLE,
Inspector of Buildings.

To the COMMISSIONERS OF THE DISTRICT OF COLUMBIA.

Memorandum of estimated receipts of, and changes in appropriations for, the government of the District of Columbia for the fiscal year to end June 30, 1892.

ESTIMATED RECEIPTS.

The Commissioners of the District of Columbia estimate that the receipts of the government of said District, exclusive of the water department, from sources other than the United States, for the fiscal year to end June 30, 1892, will be \$2,633,535.08, which, with a like sum from the United States, will amount to \$5,267,070.16. The estimate of the receipts from private sources is based upon the estimate of the assessor, herewith inclosed, that the receipts from general taxes on assessments of property, as now borne on his books, and from licenses and other miscellaneous sources of District revenue, will be \$2,539,563.21; upon the accompanying estimate of the inspector of buildings, that the taxable valuation of buildings which will become subject to tax for the first time during the fiscal year to end June 30, 1892, will be about \$4,931,458, and, at \$1.50 per \$100, yield a tax of \$73,971.87; and, upon an estimate of the auditor, that the amount to be placed to the credit of the District on account of unexpended appropriations will be \$20,000. The Commissioners have not estimated for any of the purposes embraced in the items under the head of "For Charities" in the District appropriation bill for the current fiscal year, pending the appointment of a superintendent of charities; but they have reserved therefor \$120,400, which is the amount appropriated under that head for maintenance during the current fiscal year, with an addition of \$5,000, which the superintendent of the Columbia Institution for the Deaf and Dumb estimates will be necessary to provide for the education of feeble-minded children belonging to the District of Columbia, as required by the sundry civil appropriation law of August 30, 1890. The Commissioners are unable to forward any detailed estimates under this head, for the reason that it seems to be the intention of the law of August 6, 1890, providing for the appointment of a superintendent of charities, that such estimates shall be made by that officer, and they have received no report from that source.

CHANGES IN APPROPRIATIONS.

Executive office.—The \$1,500 submitted for arranging and indexing old records is to enable the Commissioners to put in order for ready reference the voluminous records of the municipal corporations preceding the present form of District government. These records contain many valuable papers, and in a suit a few years ago furnished evidence essential to recovery by the District of over sixty-two thousand dollars. The increase of \$1,920 in the contingent expenses is to meet growing needs of the service. The \$6,000 for advertising notice of tax in arrears is to enable the Commissioners to comply with the provisions on that subject in the act of March 19, 1890.

Assessor's office.—The estimate for three additional clerks in the special assessment division of the assessor's office is to provide for the employment of a regular force for that service. At present the subordinate force of this division consists of detailed and temporary clerks. Two \$1,400 clerks and one \$1,200 clerk are added to this office besides those in the special assessment division. Their inclusion in the assessor's office is merely a transfer, as they are omitted from the collector's office. The reason for this transfer is, that all the work done by them is performed in the assessor's office. They were originally assigned to the collector's office to enable the collector to comply with the law, which required him to make out all tax-bills, but their duty is and has, practically, always been performed in the assessor's office. The item for appointing a board of three assessors, at \$2,500 each, is to provide compensation for a board of that character, the creation of which the Commissioners will recommend to Congress at the coming session. The estimate for a clerk and draughtsman, at \$1,200, is to provide for a long-felt want both by the office and the public who have dealings with it. The messenger in this office is estimated for, as there is no one upon whom the assessor can now rely for that service.

Rent of District building.—The increase of \$400 in the estimate for this purpose is in compliance with the original agreement made between the Commissioners and the lessor of said building. An additional reason for this increase is, that an enlargement of the building is necessary for official accommodation, and the rental value of the building will be correspondingly increased.

Collector's office.—The coupon clerk in the collector's office estimated for is to supply the place of a clerk heretofore detailed in the auditor's office for like service.

Auditor's office.—The temporary clerk in this office is estimated for as a permanent one, as the work of the office requires this addition to the force.

Coroner's office.—The estimated increase of \$200 is to meet growing demands incident to increase in population of the District.

Schools.—The additional clerk, at \$900, for the superintendent of the first six divisions is to meet the increased demands upon the clerical force of that officer. The increase of \$300 to the janitor of the Franklin school building is because of the duties of store-keeper, which involve the distribution of all school supplies, except fuel. The increase of \$100 to the janitor of the Peabody building is for additional service required by the "annex" of five additional rooms. The six month's salary of janitors for the proposed new school buildings is to provide for the payment of those employes from January, 1892—when, in the opinion of the inspector of buildings, the buildings will be ready for occupancy—to the end of the fiscal year. The estimated increase for repairs to school buildings and grounds, for the purchase of tools, for fuel, and for contingent expenses, is to meet growing needs. The estimate of \$1,500 for teacher's library is made, as there is an obvious necessity for a means of reference of this character. The estimate of \$1,000 for ground in rear of Brightwood school is to improve the shape, accessibility, and availability of the lot, for the extension of the building when necessary. The item for new school buildings is based upon estimates made to the Commissioners by the Board of School Trustees, and upon a satisfactory showing by the public-school officials that the additional accommodations would be necessary to meet the increased demands for educational facilities.

Police department.—The estimated increase in the personnel of the force is to secure the efficiency commensurate with the responsibility upon this department. The estimate for repairs to station-houses—\$500 additional—is to provide for ordinary wear and the action of the elements. The estimate for patrol wagon and harness is to provide for a substitute in case of the disability of the present conveyance. The estimate of \$29,000 for new station-house in the city of Georgetown is to provide for the abandonment of the present station, which is not only inconvenient in its location and accommodations, but unsafe and unhealthful, because of its situation near the canal.

Fire department.—The increase in the estimate for repairs to engine-houses, and for fuel, is due to the growth of the service. The estimate for exchanging engine is to enable the Commissioners to exchange one of the engines now in use for one

of larger capacity. The estimate for an addition to engine-house No. 8 is to provide accommodations for one of the trucks, which will be without shelter when the two new trucks authorized by the appropriation bill for the current fiscal year are received.

Telegraph and telephone service.—The increase in the estimate for general supplies for this service is to meet growing necessities.

Health department.—The estimates for one additional sanitary inspector, one food inspector, and for the additional provision for the collection and removal of garbage are rendered necessary by the increase in the demands of this service.

Police court.—The increase in the estimate for witness fees is based upon the expenditure on this account during the past year.

Washington asylum.—The estimate for night watchman is made because there is now no regular provision for this service. The estimate for an increase of one cook at \$120 is to provide for one cook in lieu of two at \$60, as at present provided for.

Estimate for addition to female work-house is practically a continuation, with a slight increase, of the appropriation for a building for a female work-house, provided in the appropriation bill for the current fiscal year. The Commissioners deem it inadvisable to use the existing appropriation, because it has been found that the foundations of the magazine building, which it was proposed to raise two stories, would not sustain the additional weight. It was therefore decided that it would be better to make an addition to the present female work-house, for the reasons above, and that the additional rooms could be heated by the same apparatus that heats the main building, and that the same set of officers could manage both sets of apartments.

Estimate for inclosing portion of reservation #3, the use of which was granted the Commissioners for burial purposes, needs no explanation. The estimate for inclosing the grounds of the institution is to prevent the straying of feeble-minded inmates, the escape of prisoners, and for other purposes of discipline and administration. The estimates for furnishing hospital and dining-room and for completing dining-room in new operating ward need no explanation.

Reform school.—The estimate for new building, for new brick boiler-house, for new steam-heating boiler, and for steam-fitting pipes for old family building, are based upon estimates of the board of trustees and the report of the inspector of buildings after his personal inspection of the premises at the instance of the Commissioners.

Support of insane.—The estimated increase for this purpose is based upon the estimate of the superintendent of the Government Hospital for the Insane.

Militia.—The estimate for the expenses of the militia is included just as it was transmitted to this office by the commanding general of that force. The Commissioners regard the law as giving them no power to revise the estimates for the support of that organization.

Street and alley cleaning.—The estimated increase is designed to meet the demand for an extension of this service.

Public scales.—The estimated increase in this item is to provide for the purchase of a site in Georgetown upon which to place the scales which are now located in the public street in that city, and for the transfer of the present scales thereto, and for ordinary repairs to all hay scales in the District, and the purchase of new scales when necessary.

Support, etc., of convicts transported from the District of Columbia.—The estimate for this purpose is in compliance with the provision in the sundry civil appropriation act of August 30, 1890.

Numbering houses.—The estimate for this purpose is to provide for the expense of numbering houses in the suburban villages of the District, which the Commissioners have heretofore been unable to do because of lack of specific appropriation upon which to meet the first expense on that account. It is designed to assess and collect from the property owners the expense involved and deposit the same in the Treasury.

The compensation of many of the officers and employes of the District government is far from being commensurate with the value of their services. The Commissioners would like to embrace in these estimates a specific recommendation for an increase in the pay of the heads of departments and their principal assistants. They regret, however, that the estimated receipts of the District are so limited that they are constrained to forbear giving practical expression to their wishes in the premises by including the deserved increases in these estimates.

Engineer's office.—General inspector of streets, per annum, \$2,000. This officer is now paid out of the appropriation for streets upon the temporary roll, and, in addition to his regular duties, performs the work of locating telegraph poles, gas mains, regulating street railroad tracks, and investigating numerous complaints of citizens of various nuisances, and claims for damages made by reason of accidents upon public streets. Does not increase the actual expenditures. His work requires him to be employed throughout the year, and it is a matter of importance that he be placed upon the permanent roll to insure his services during the entire year.

Inspector of lamps, per annum, \$900. The extension of the area of lighted streets in city and suburbs is proceeding so rapidly that additional supervision is needed to make appropriation effective.

Inspector of property, per annum, \$1,450. This officer is at present paid upon the temporary roll. His work requires him to be employed throughout the whole year, and it is a matter of importance that he be placed upon the permanent roll to ensure his services during the entire year.

Sewer division.—This branch of the District government is one of the most important, and its work is continuous throughout the year. The failure to establish this division upon a permanent basis has been a serious hindrance to perfecting its organization, and gives rise to no small difficulty in adjusting accounts. Two members of this division are paid upon the permanent roll, and the remainder upon temporary rolls. There will be practically no increase of expenditure.

Cleaning and repairing sewers and basins.—Appropriated, 1891, \$42,000; estimated, 1892, \$45,000. This increase is required on account of the natural increase in number of sewers requiring attention.

Suburban sewers.—Appropriated, 1891, \$75,000; estimated, 1892, \$112,390. This increase is necessary on account of extending the Rock Creek (east side) intercepting sewers as rapidly as possible. It is hoped, with this appropriation, to construct this sewer as far as the Quarry road during fiscal year 1892.

Condemnation of rights of way for construction and maintenance and repairs of public sewers.—Appropriated, 1891, \$10,000; estimated, 1892, \$15,000. It is believed that the increased amount asked for will be actually needed for the purposes named.

Parking commission.—Appropriated, 1891, \$18,000; estimated, 1892, \$20,000. This increase is necessary on account of the extension of the tree planting that has already been made, and is proposed for the coming year, and the additional number of trees now requiring attention.

Lighting streets.—Appropriated, 1891, \$125,000; estimated, 1892, \$138,000. This increase is asked for on account of the extension of area of street lighting, natural increase by reason of, and to keep pace with, improvements.

APPENDIX Oo.

In relation to the estimates of the Treasurer of the United States for the Sinking-Fund Office, District of Columbia. (See page 215.)

TREASURY OF THE UNITED STATES,
Washington, November 7, 1890.

SIR: The Treasurer is informed that the estimates of appropriations required for the service of the District of Columbia for the fiscal year ending June 30, 1892, is now in your office awaiting your consideration. A copy of the estimates submitted by the Treasurer for the sinking fund office is herewith inclosed, with an explanation thereof, as follows:

The last appropriation for the increase of the water supply was \$355,000, by act of March 30, 1888, which also provided that the work should be completed by November 1, 1888, making the total appropriations for this purpose \$2,570,279.30.

The joint resolution of Congress of October 19, 1888, provides:

"That the Secretary of War be, and he is hereby, authorized to use so much of any unexpended balance of the appropriations for the work of the Washington aqueduct tunnel, District of Columbia, as may be necessary for the purpose of protecting and preserving the work already done upon said tunnel."

But a small amount has been expended since the passage of this resolution.

At the close of the fiscal year 1890 the total amount advanced was \$2,177,628.36, leaving a balance of \$392,650.94 unexpended.

The estimate for interest and sinking fund upon the sums advanced are required to be made twenty-two months prior to the date upon which the appropriation is available, and it is impossible to determine what amount will be required; it therefore seems advisable to base the estimates upon the whole amount appropriated, but using only so much thereof as may be necessary to pay the interest and return the proportionate amount of the sum actually expended and remaining unpaid.

This plan was followed at the close of the fiscal year 1890, leaving a balance unexpended of the appropriation for interest of \$5,902.60, and of the sinking fund, \$9,348.83.

The estimate for the salary of the Treasurer is in accordance with the provision in the act of March 3, 1875 (18 Stat., 376), as follows: "And the salary of the commissioner of the sinking fund, acting as treasurer thereof, shall be \$1,000 per annum."

The estimates for the salaries of the clerks are proportioned to the character of the service required, and more nearly approximate the compensation of those in the employ of the United States and District of Columbia who are engaged on work of similar character.

In this connection attention is invited to a statement of the transactions of the office during the fiscal year 1890, as follows:

Examined, arranged, and recorded 25,535 paid coupons and 99 interest checks pertaining to the various bonds of the District, representing \$363,013.50 in value, and rendered account therefor.

Purchased for the several sinking funds bonds and stocks amounting to the face value of \$393,450, representing a disbursement of \$415,131.19; examined, canceled, recorded, and accounted for 802 separate bonds.

Disbursed salaries and contingent expenses of the office amounting to \$2,550, represented by 34 vouchers, and accounted therefor.

Paid judgments of the Court of Claims amounting to \$42,476.70, and issued \$28,450 of 3.65 per cent. bonds for reimbursement thereof.

Examined, recorded, and canceled \$94,000 of the coupon bonds of the 3.65 and 5 per cent. loans of the District received for exchange, and \$1,013,000 registered bonds received for transfer.

Stated an account showing the indebtedness of the District of Columbia to the United States for one-half of the amount expended to increase the water supply of the city of Washington, paid interest on the sum due, and applied the sinking fund provided therefor.

Examined 209 reports from the collector of special taxes, involving 700 separate payments, on account of tax-lien certificates held by this office, and adjusted the account with each certificate.

Received \$8,833.02 for account of the police and firemen's relief funds, purchased \$1,300 and sold \$1,000 in bonds therefor, and deposited monthly in the Treasury the amount required for the relief of the policemen and firemen, aggregating \$10,698.49.

Received retentions from 39 separate contracts with the District, amounting to \$84,913.26, and purchased for account thereof \$63,350 in bonds.

Sold the securities held for 23 contracts, realizing the sum of \$48,655.74, and stated the account of each contractor with the District.

Transferred and mailed to each contractor or his assignee the checks for interest on the bonds held for account of the several contracts, numbering nearly 100 quarterly.

Prepared for publication four quarterly debt statements.

Briefed, recorded, and filed 213 letters and accounts.

The correspondence of the office involved the writing of 493 letters.

Disbursements during the fiscal year aggregate \$1,599,377.36.

The following-described securities are in the care and custody of the office:

3.65 per cent. bonds (unsigned).....	\$6,379,550 00
Chesapeake and Ohio Canal bonds.....	84,285 00
Bonds for account of contractors.....	196,000 00
Bonds for account of police funds.....	30,550 00
Bonds for account of firemen's fund.....	2,250 00
Total.....	6,692,635 00

The varied and diverse character of the business involves the keeping of four distinct journals and ledgers, besides registers for each class of coupon and registered bonds, with many other necessary auxiliary books.

The treasurer of the late commissioners of the sinking-fund of the District was the executive officer of that body, and, with the assistance of from three to four clerks, devoted his time and attention to the business of the office, receiving as compensation therefor \$1,000 per annum.

The duties of the late sinking-fund commissioners, as well as the duties of the treasurer thereof, were imposed upon the Treasurer of the United States by act of June 11, 1878, and no appropriation has been made for his salary, which is fixed by law at \$1,000 per annum (act of March 3, 1875). The business of the office has increased since that time nearly two-fold, involving a heavy responsibility in the disbursement of money and the care and custody of the bonds purchased for the various trust and sinking funds, necessarily occupying a large portion of the Treasurer's time, there being scarcely one hour in the day that he is not called upon to perform some duty in connection therewith.

The Treasurer finds that all of his predecessors in office have invited attention to the inadequate appropriations for the service of the sinking-fund office, thus far without effect, and in thus calling attention to the magnitude and responsibilities of the office desires to show the gross inequality of the appropriations for the service thereof in comparison with other offices of the United States and District of Columbia of like character, and he feels assured that the increased compensation asked for in his estimate will commend itself alike on the principles of justice and sound business policy, believing that just compensation promotes the efficiency of the officer in the discharge of the duties devolving upon him.

Respectfully yours,

J. N. HUSTON,
Treasurer United States, *ex-officio* Commissioner Sinking-Fund, D. C.

Hon. WILLIAM WINDOM,
Secretary of the Treasury.

APPENDIX P p.

In relation to the estimate for "Maintenance of Garfield Hospital." (See page 227.)

WASHINGTON, D. C., September 27, 1890.

SIR: In behalf of the management of the Garfield Memorial Hospital, I have the honor to request that you will include in your estimates to be submitted to Congress for the fiscal year ending June 30, 1892, the following item:

"*The Garfield Memorial Hospital.*—For maintenance, to enable it to provide medical and surgical treatment to persons unable to pay therefor, \$15,000."

This is the same amount that has been appropriated by Congress for this purpose for the current fiscal year, and it is absolutely necessary to enable the hospital to meet the urgent demands which are made upon it.

The whole expense of maintaining the hospital is double the amount asked, the difference being made up by the contributions of generous friends and by payments from a few of the patients who are able to bear a part of the expense of their care and treatment.

During the past fiscal year five hundred and nine patients were treated and cared for. This number includes thirty-eight remaining in the hospital at the close of the previous year, but does not include the beneficiaries of the hospital dispensary.

The wards have been constantly filled with needy patients, who have been admitted without reference to sex, nationality, color, or religious denomination, and have received the best treatment that skilled physicians and specially-trained nurses could furnish. They have come from twenty-five different States of the Union and from eleven different foreign countries, and include a large proportion of clerks, mechanics, housewives, etc., who are not paupers, but who are, nevertheless, too poor to pay for hospital relief when unable to pursue their occupations by reason of disease or injury.

The entire plant of the hospital, including grounds, machinery, furniture, and equipment, has been paid for without the aid of any appropriation by Congress. A new ward of eight beds, for the reception of accident and emergency cases, has recently been opened, and further additions are contemplated in order to meet the constant demand for increased accommodations.

The board of directors, through its executive committee, and the Ladies' Aid, by its visiting committees, keep constant supervision of every detail of the hospital work, and in every expenditure the closest economy is exercised. Accounts for all expenditures under this appropriation, with proper vouchers, have been submitted to you, and these are finally audited and settled by the accounting officers of the Treasury. These vouchers show the absolute need of the aid requested, and the manner in which the money appropriated has been applied.

The fullest inspection of the hospital by you is cordially and earnestly invited.

I have the honor to be, your obedient servant,

SAMUEL F. MILLER,
President.

Hon. REDFIELD PROCTOR,
Secretary of War.

APPENDIX Rr.

In relation to the estimate for "Artillery School, Fort Monroe, Va." (See page 228.)

Department of Artillery:	
Purchase of books, periodicals, works of reference, etc.....	\$100 00
Chemical Laboratory:	
Purchase of chemical apparatus.....	347 00
Purchase of chemicals.....	100 00
Total.....	447 00
Electrical Department:	
Electrical instruments and material needed for instruction purposes.....	700 00
Maintenance of lines and batteries, and material for repairs and operations of same.....	107 26
Total.....	807 26

Department of Steam and Mechanism :		
Purchase of text and reference books, plates, etc., for the first year's course.....		\$420 00
Purchase of machinery and machine tools for instruction purposes.....		830 00
Total		1,250 00
Repair shops :		
Purchase of material and necessary tools, for metal and carpenter work, for the repair and preservation of engineering, electrical, and artillery apparatus in use in the several departments of the school, etc.....		375 00
Department of Engineering :		
Purchase and repair of instruments, for the purchase of drawing material, text and reference books, maps and plans, for the instruction of officers in military engineering, and for current expenses.....		200 00
Artillery School Library :		
Purchase of professional and scientific works for the instruction of student-officers, and for professional and scientific papers, periodicals...		500 00
Department of Military Science :		
Purchase of text-books and pamphlets, occasional publications, maps and books of reference, etc.....		300 00
Secretary of staff of Artillery School :		
Printing current papers and instruction manuals, including papers, inks, and printing material, etc.....		425 00
Lithographic material, etc.....		170 00
Book-binding, current papers, instruction manuals, and preservation of professional library, such as leather, pasteboards, cloth for covers, and mounting maps, gilding-thread, and book-binders' material, etc.....		200 00
Total		795 00
Division of Non-commissioned Officers :		
Purchase of thirty sets of text-books in mathematics, surveying, and mechanical engineering, and electricity, for instruction purposes....		150 00
To enlisted men for extra duty pay in scientific departments at 50 cents per day (not paid for out of any other appropriation):		
Printer in charge of printing office, lithographic office, book-binding, and in Artillery school records, one clerk, two printers, one book-binder, one lithographer, one machinist, one laborer to assist machinist, at twenty days per month ; one assistant, in charge of surveying and engineering instruments ; two laborers in electrical department, at twenty days per month ; one chemist, one photographer, one carpenter, one assistant librarian, one janitor, \$5 per month.....		2,158 50

RECAPITULATION.

Department of Artillery.....	\$100 00
Chemical Laboratory.....	447 50
Electrical Department.....	807 26
Steam and Mechanism.....	1,250 00
Repair shop.....	375 00
Department of Engineering.....	200 00
Artillery School Library.....	500 00
Department of Military Science.....	300 00
Secretary of staff of Artillery School, printing, lithographing, and binding.....	795 00
Division for Non-commissioned Officers.....	200 00
Extra duty pay, etc.....	2,158 50
Total	7,133 26

ROYAL T. FRANK,
Lieutenant-Colonel Second Artillery, Commanding.

APPENDIX Ss.

Statement of the earnings, amount paid registers and receivers, and net revenue to the United States for the fiscal year ending June 30, 1889. (Estimate for 1892 on page 232.)

Name of office.	Earnings of registers and receivers.	Total.	Amount paid registers and receivers.	Total.	Net revenue to United States.	Amount received as homestead and timber-culture fees.	Total Government fees.	Total revenue to United States.

*New office. Only one quarter's business.

†New office.

STATEMENT OF THE PROCEEDS OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE FOLLOWING PROVISIONS OF LAW.

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue-cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned Navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "Proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the appendix to the Book of Estimates.—(Revised Statutes, pages 713, 722, sections 3618, 3672; act February 27, 1877, 19 Stat., 249.)

When covered into Treasury.	No. of warrant.	By whom sold.	Kind of property sold.	Bureau in charge of property.	Amount of each kind of property.	Total amount.

CIVIL SERVICE COMMISSION

AND

FOREIGN INTERCOURSE.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1892.

General object (title of appropriation) and details and explanation.	Date of acts, or treaties, providing for the expenditure.	References to Stat. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1891.
		Vol. or R. S.	Page.	Sec.			
CIVIL ESTABLISHMENT—SUPPLEMENTAL.							
CIVIL SERVICE COMMISSION.							
<i>Salaries, Civil Service Commission—</i>							
Three commissioners, at \$5,000 each (\$1,500 each additional submitted).....	Jan. 16, 1883 July 11, 1890	R. S. 22 26	27 403,4 235	167 1-3 1	\$15,000 00		
One chief examiner (\$500 additional submitted).....	Same acts.....				3,500 00		
One secretary (\$500 additional submitted).....	do.....				2,500 00		
Two clerks of class four.....	do.....				3,600 00		
Two clerks of class three.....	do.....				3,200 00		
Three clerks of class two.....	do.....				4,200 00		
Three clerks of class one.....	do.....				3,600 00		
Three clerks, at \$1,000 each.....	do.....				3,000 00		
Two clerks, at \$900 each.....	do.....				1,800 00		
One messenger.....	do.....				840 00		
One assistant messenger.....	Submitted.....				720 00		
One laborer.....	Jan. 16, 1883 July 11, 1890	R. S. 22 26	27 403,4 235	167 1-3 1	660 00		
Service as examiners, to take the place of clerks now detailed from the Executive Departments for permanent duty at the office of the Commission :						\$42,620 00	\$36,400 00
Three clerks of class four.....	Submitted.....				5,400 00		
Three clerks of class three.....	do.....				4,800 00		
Four clerks of class two.....	do.....				5,600 00		
NOTE.—Heretofore the work of examiners has been performed by clerks selected and detailed from the Executive Departments under the provision, section 3 of the Civil Service act, which requires that boards of examiners shall be constituted of persons in the official service of the United States; no provision having been made by direct appropriation for this class of service. If these ten additional clerks are appropriated for they will take the place of those now detailed from the Departments, and if the Department appropriations are cut down to that extent there will be little or no increased expenditure. The constitution of the board of examiners in this way will, it is believed, be a decided improvement upon the present method.						15,800 00	
<i>Compensation of Examiners, Civil Service Commission—</i>							
To enable the Commission to pay to secretaries of postal and customs boards of examiners, and to examiners not employed in the office for which they act.....	Submitted.....					6,000 00	
<i>Traveling Expenses, Civil Service Commission—</i>							
Necessary traveling expenses, including those of examiners acting under the direction of the commission, and for expenses of examinations and investigations held elsewhere than at Washington.....	Appropriated..	26	235	1		6,500 00	5,250 00
NOTE.—An increase of \$1,250 is asked for in this appropriation to meet the increased expenses of examinations elsewhere than at Washington, arising from the necessity of renting rooms and furniture and paying for janitor service at points where there are no public buildings and where those buildings are not adequate for the accommodation of the steadily increasing number of applicants since the classification of the railway mail service, and of the increased travel required by the growth and extension of the service and the proper supervision of the work of the local boards at classified custom-houses and post-offices.							
Total Civil Service Commission.....						70,920 00	41,650 00
NOTE.—The total of the Civil Service Commission, as shown above, should be added to the total of the Executive on page 83 preceding, and to the total of Civil Establishment on page 88 preceding. The amended totals are as follows:							
Executive.....						\$21,499,553 30	\$20,242,547 66
Civil Establishment.....						25,501,286 05	24,116,525 20
FOREIGN INTERCOURSE.
