## XXXII.—COMMERCIAL RATIO OF SILVER TO GOLD EACH YEAR SINCE 1687.

[NOTE.—From 1687 to 1832 the ratios are taken from the tables of Dr. A. Soetbeer; from 1833 to 1878 from Pixley and Abell's tables; and from 1878 to 1889 from daily cablegrams from London to the Bureau of the Mint.]

NOTE.—Table XXXVIII ("Monetary Statistics of Foreign Countries"), which is omitted for want of space, will be found in the separate volume of the Director's report.

(No. 3.)

REPORT OF THE COMPTROLLER OF THE CURRENCY.

DEPARTMENT OF THE TREASURY,  
OFFICE OF THE COMPTROLLER OF THE CURRENCY,  
*Washington, D. C., December 5, 1892.*

SIR: I have the honor to submit for the consideration of Congress in compliance with the provisions of section 333 of the Revised Statutes of the United States, the thirtieth annual report of the Comptroller of the Currency.

The year covered by this report ended October 31, 1892. The crop of 1891 was phenomenal in all the great staples produced by this country, and at the same time a partial failure of the cereal crop in Europe created an unusual demand for our food products. The total value of our merchandise exports for the fiscal year ended July 1, 1892, exceeded one billion dollars—\$1,030,335,000.

|   | 1891.        | 1892.         |
|---|--------------|---------------|
| The merchandise balance of the United States (excess of exports over imports) for the fiscal year ended July 1..... | \$39,565,000 | \$202,914,000 |
| Excess of exports over imports, gold and silver.....  | 72,703,000   | 13,352,000    |
| Trade balance .....   | 112,268,000  | 216,266,000   |

The remarkable feature is that we were compelled to add to an export merchandise balance of \$242,000,000 over \$86,000,000 in gold and silver.

Europe's short crop followed a serious financial crisis, which unsettled values, disturbed confidence, and entailed heavy losses. Instead of paying for our cereals from their surplus, they were obliged to draw upon their principal.

In a normal condition of affairs this large merchandise balance in our favor would have resulted in large gold imports; instead, they sent us our securities.

The interest upon American securities held abroad aggregates a large amount, and its payment forms a continuous factor in international balances. The return of any portion of our securities increases our wealth at home, and the retention of the earnings of such securities

adds to our home prosperity. The absorption and assimilation of so large an amount in so short a period of time may have produced temporary disturbance, but the permanent effect is beneficial.

The financial needs of Russia, and the accumulations of gold by Austria-Hungary, with a view to the resumption of specie payments upon a gold basis, caused a premium to be paid for gold exports, and was an important cause of its outflow.

Distrust of our monetary legislation, and the fear on the part of Europe that we were drifting towards a silver basis, also had an important influence upon gold exports.

The national banks held on September 30, 1892, nearly \$22,000,000 more gold than on September 25, 1891. This, coupled with the known fact that many State banks and trust companies have also fortified themselves with a gold reserve during the year, shows that the fear that we were drifting towards a silver basis was not confined to foreigners.

All periods of monetary stringency, which necessarily restrain and curtail business ventures, are followed by a plethora of money.

On June 18, 1892, the total deposits in the associated banks of the city of New York were \$543,663,100. The highest amount ever reached before was \$455,306,300 on December 26, 1891. The same plethora of money existed in all money centers; the rate of interest for the year averaged, on demand loans, 1½ per cent to 3 per cent, and time loans and commercial paper ranged about 2 per cent higher.

The cholera at home and abroad, with attendant quarantine restrictions, has held trade in fetters, and, to some extent, impaired the business of the year. The vigorous measures adopted by our authorities reduced it to control and kept its baleful influence at a minimum.

With conditions in the United States favorable for a year of unusual prosperity, speculation has been held in check and business kept within conservative limits. The lessons taught by the monetary stringency of 1890-'91, which fell so heavily upon all whose business was too much extended, have not yet been forgotten. A hardening process has obtained, and yet the record of the year covered by the report characterizes it as one of growth and prosperity.

COMPARATIVE STATEMENT OF THE CONDITION OF THE NATIONAL BANKS WITH RESPECT TO CERTAIN ITEMS AT NEARLY CORRESPONDING DATES FOR THE YEARS 1891 AND 1892.

|  | 1891.            | 1892.            | Increase.     | Decrease.      |
|--|------------------|------------------|---------------|----------------|
| Number of banks in existence October 31 ..   | 3, 694           | 3, 788           | 94            | -----          |
| Capital stock .....  | \$684, 755, 865  | \$693, 868, 665  | \$9, 112, 800 | -----          |
| Bonds deposited to secure circulation .....  | 152, 950, 350    | 164, 883, 000    | 11, 932, 650  | -----          |
| Bank notes outstanding .....   | 172, 184, 558    | 172, 432, 146    | 247, 588      | -----          |
| Lawful money deposited with the Treasurer, United States to redeem circulation outstanding ..... | 35, 430, 721     | 25, 191, 083     | -----         | \$10, 239, 638 |
| Surplus and undivided profits September 25 and 30, respectively .....                            | 330, 861, 159    | 340, 524, 179    | 9, 663, 020   | -----          |
| Individual deposits September 25 and 30, respectively .....                                      | 1, 588, 318, 081 | 1, 765, 422, 983 | 177, 104, 902 | -----          |
| Bank deposits September 25 and 30, respectively .....  | 430, 594, 774    | 530, 653, 202    | 100, 058, 428 | -----          |
| Total resources September 25 and 30, respectively .....  | 3, 213, 080, 271 | 3, 510, 094, 897 | 297, 014, 626 | -----          |

The above table shows a large decrease in the lawful money deposit to redeem circulation. The net circulation outstanding has increased \$10,487,226 during the year.

The following table shows the total cash held by national banks including 5 per cent. redemption fund, and mutilated currency in process of redemption for the years 1891 and 1892.

|  | 1891.                 | 1892.                 | Increase.            | Decrease.           |
|--|-----------------------|-----------------------|----------------------|---------------------|
| Bills of other national banks .....                                | \$19,991,167.00       | \$19,557,474.00       | .....                | \$433,693.00        |
| Fractional paper currency, nickels and cents .....                 | 867,462.37            | 934,648.37            | \$67,186.00          | .....               |
| Specie, viz:   |                       |                       |                      |                     |
| Gold coin .....  | 84,464,347.24         | 95,021,952.77         | 10,557,605.53        | .....               |
| Gold Treasury certificates .....                                   | 60,173,870.00         | 71,050,180.00         | 10,876,510.00        | .....               |
| Gold clearing-house certificates .....                             | 7,300,000.00          | 7,860,000.00          | 560,000.00           | .....               |
| Silver dollars .....   | 6,348,573.00          | 6,785,084.00          | 436,511.00           | .....               |

#### CURRENCY.

The business of banking is exchanging a generally known value or credit for a local value or credit. This definition applies equally to the money changers of the temple and to the banks of to-day. In the wonderful development of commerce and manufactures which has followed increased facilities for communication and transportation, banking, though hand in hand with trade, is ever in the lead; for credit, or money, is the motor which moves the wheels of progress, and all financial transactions, whether local, national, or international, have become mainly a matter of bookkeeping. Throughout the United States every locality has its bank, and most people, however limited their business transactions, have bank accounts, through which they pay their indebtedness. Bank accounts are generally used as the most convenient and most accurate method of keeping a cash account. This practice does not obtain in European countries in any such proportion. In this country, in the village having a single bank, the artisan pays the merchant by check, or vice versa, and the payment is usually consummated by a transfer of credit upon the books of the bank. Thus does the single bank become a clearing house for the community, and the actual transfer of money is minimized.

The day's exchanges in our larger cities are adjusted through a clearing house, where each bank is credited with the total demands it holds against all other banks, in the same place, and is debited with the total demands which the other banks hold against it, and either pays or receives the balance, simply, in money. The aggregate clearing-house transactions for the year ended October 31, 1892, in 57 clearing-house cities, were \$61,017,839,067, the balances were (partly estimated) \$4,881,777,289. Thus, by a simple device of bookkeeping, this immense volume of business was done by means of 8 per cent of actual money.

Our international banking and commercial transactions are settled upon a system of balances through a few leading banks and banking houses that deal in foreign exchange. When the exchange market affords no bill of exchange to be remitted, gold is shipped to settle the

balance of trade existing against such nation, and when so shipped, whether bars or coin, it goes simply as commodity, at its market value, precisely like merchandise.

Thus it appears that the bulk of the world's business transactions is done upon credit, witnessed by bookkeeping, and the percentage represented by actual money transfer is very small, in the United States less than 8 per cent.

A man goes to his bank with his note, a local credit, and procures its discount, receiving the proceeds in a generally known credit or value, namely, a bank draft, or certificate of deposit, or money—something available for the contemplated business. The bulk of all business transactions is adjusted by the contracting parties, whether banking or otherwise. It is the portion in which money passes that appeals to the Government for regulation. It is the recognized constitutional duty of government to furnish for its citizens a circulating medium adequate to their needs and convenient for their use. Gold and silver are the recognized money of the world, because they possess value in themselves, are conveniently coined, not easily counterfeited, exist in quantity sufficient to supply the demand, and are not so redundant as to unduly impair their value. Such money is adequate to the public want, but not convenient for public use, except in small change transactions. Paper money is a business necessity. Paper money possesses no value, simply represents value.

A currency to serve the demands of business must be sound—no doubt of its redemption. It should be elastic, that it may expand and contract, as the tide of business ebbs and flows. If supplied by the Government, the expense is borne by the taxpayers. If supplied by banks, it must possess an element of profit. It will readily issue so long as there is a profit. It may be made to contract by fixing a standard of issue and taxing the excess, so that the excessive issue would be retired with the cessation of the necessity which called it into existence.

The amount of paper money in circulation October 31, 1892, was:

|  |               |
|--|---------------|
| National-bank notes .....              | \$172,432,146 |
| United States notes (greenbacks) ..... | 332,080,234   |
| Treasury notes .....                   | 114,567,423   |
| Gold certificates .....                | 120,255,349   |
| Silver certificates .....              | 324,552,532   |
| Currency certificates .....            | 10,550,000    |
|  | 1,074,437,684 |

Per cent of national-bank notes, 16.04.

The Government can not issue money gratuitously. It can only put it in circulation in exchange for some value or obligation. It can not pay its bonds in anything other than coin of standard value.

By the terms of the act of February 28, 1878, the Secretary of the Treasury was directed to purchase and coin into silver dollars silver bullion not less in value than \$2,000,000 worth and not more than \$4,000,000 worth monthly. This act was supplanted by the act of July 14, 1890. While in force the Government purchased silver and coined 378,166,793 standard dollars, the seigniorage on which (that is, the difference between the price paid for the silver and the face value of the coinage) was \$69,967,531.

|   |               |
|---|---------------|
| Total coinage of silver dollars under act of February 28, 1878.....   | \$378,166,793 |
| Total cost of silver bullion used in such coinage.....                | 308,199,262   |
| Seigniorage or apparent profit .....                                  | 69,967,531    |
| Bullion value of such silver October 31, 1892.....                    | 250,493,936   |
| Difference between actual cost and market value October 31, 1892..... | 57,705,326    |

This coinage accumulated in the Treasury vaults until the happy device was conceived of putting it in circulation by the use of paper substitute. As shown above, \$324,552,532 are serving the people by proxy.

Under the act of July 14, 1890, the Government purchases monthly 4,500,000 ounces of silver, and pays for the same in Treasury notes issued for that purpose and equal at par to the cost of such silver. Thus the currency of the country is arbitrarily increased monthly. Up to November 1, 1892, the total issue of such notes has been \$116,611,233. The present market value of the silver purchased is \$102,648,944, showing a depreciation in value of \$14,134,646. This act was a compromise measure, designed to prevent the unlimited coinage of a dollar of full debt-paying power containing less than a dollar's worth of silver. From its nature (arbitrarily adding a large amount to the currency monthly) it is evident that it was intended to be temporary. The severest commentary upon our silver coinage is the fact that it offers an inducement to the counterfeiter to coin a dollar exactly reproducing the genuine in quality and intrinsic worth, as well as form and design, the profit to the counterfeiter being represented by the difference between the market value of the silver contained in the coin and its face value, which was October 31, 1892, 33½ cents.

In view of the above statistics, the silver currency furnished by the Government will hardly commend itself to the public on the score of economy. It is in sharp contrast with the national-bank currency, which has paid into the Treasury in taxes \$72,670,412.30.

What the settled policy of Congress as to the future currency may be remains to be seen. If furnished by the Government, it will possess the quality of soundness, for nothing can be better than the Government under which we live; but it cannot possess elasticity. Elasticity means conformity to business wants, the supply quickly responding to the demand, and not conformity to fixed rules and statutory laws. The Government in the very nature of things cannot supply such currency as the public requires. The national banks can and with proper legislation would supply this want fully and completely. Large appreciation of the price of United States bonds, the basis for circulation, large depreciation of the rates of interest, and onerous taxation have made circulation unprofitable, and the volume has fallen from \$362,889,134, September 30, 1882—the highest amount in circulation at any one time—to \$172,426,610 at the close of the last fiscal year. The volume would have been much more contracted but for the fact that all national banks, whether they take out circulation or not, are obliged to own and assign to the Treasurer of the United States in trust interest-bearing bonds of the United States, and in case their capital is \$150,000 or less, to the amount at par of one-fourth their capital stock. If the capital exceeds \$150,000, they are required to have on deposit in the Treasury not less than \$50,000 in bonds. Being obliged to own these bonds, to measurably lessen the cost of carrying such high-priced securities, they take out circulation.

The following carefully prepared tables show the profits upon circulation based upon a deposit of \$100,000, bonds. June 30 was selected, as it marks the close of an interest period for Government bonds.

JUNE 30, 1892—2 PER CENTS.

|   |             |            |
|---|-------------|------------|
| \$100,000 twos at par interest .....                          |             | \$2,000.00 |
| Circulation, 90 per cent on par value .....                   | \$90,000.00 |            |
| Deduct 5 per cent redemption fund .....                       | 4,500.00    |            |
| Loanable circulation at 6 per cent .....                      | 85,500.00   | 5,130.00   |
| Gross receipts .....  |             | 7,130.00   |
| Deduct—   |             |            |
| 1 per cent tax on circulation .....                           | 900.00      |            |

## RECAPITULATION.

Profit on the three classes of bonds, maximum circulation 90 per cent—  
 2 per cent bonds, \*\$21,837,000—\$19,653,300, maximum circulation at 0.03152 per cent, \$6,194.72.  
 4 per cent bonds, \*\$129,759,000—\$116,783,100, maximum circulation at 0.33016 per cent, \$335,571.08.  
 6 per cent bonds, \*\$11,600,000—\$10,440,000, maximum circulation at 1.21858 per cent, \$127,219.75.  
 Total of bonds, \$163,196,000—\$146,876,400, maximum circulation at 0.353 per cent, \$518,985.55.

It will be noted that by taking out circulation the banks realize in each case more than 6 per cent on the money invested in bonds. The money invested in the purchase of bonds as a basis of circulation yields in the case of 2 per cent bonds 6.032; in case of 4 per cent bonds, 6.33; in case of 6 per cent bonds, 7.218.

Since the 5 per cent redemption fund counts as part of a bank's reserve as well in hands of the Treasury as in vaults of the banks, it would have been proper not to make the deduction above. This would add materially to the profit of circulation. The \$43 average cost of examinations of banks with \$100,000 capital is not wholly an incident of circulation.

In the above tables money is assumed to be worth 6 per cent. If the prevailing rate was less than 6 per cent a bank could better afford to take out circulation. If the prevailing rate was more than 6 per cent a bank could less afford to take out circulation. By allowing circulation to the par of bonds and removing the tax on circulation it would be possible for banks located in sections where rates of interest are high to take out circulation without loss.

Since the organization of the national banks \$1,521,437,753 have been issued and redeemed without loss to any bill-holder. There can be no loss upon national-bank circulation. All the solicitude as to what shall serve as a basis for circulation when Government bonds cease to exist is premature. The 4½ per cent bonds (act July 14, 1870) matured September 1, 1891; \$25,364,500 were continued at the pleasure of the Government at 2 per cent interest; interest upon the balance ceased; \$24,520,900 have been redeemed and \$983,800 remain outstanding; \$3,617,700 have been redeemed since October 31, 1891. No bonds have been purchased by the Government during the past year, the interest-bearing debt has not been reduced, and with the diminished revenues, under the act of October 1, 1890, and swelling volume of annual expenditure, there is likely to be no reduction in the immediate future. The trend of public opinion is decidedly in favor of limiting our revenues to the current needs of the Government. The currency sixes that begin to mature in 1896 are primarily obligations of the subsidized Pacific railroads. The railroads will hardly be prepared to pay these bonds at maturity, and they will likely be continued like the 4½ per cent bonds, at the option of the Government, at a low rate of interest.

By relieving national-bank circulation, as above suggested, these bonds could be extended at a very low rate of interest—too low for investment purposes, yet available as a basis of circulation. Of the \$25,364,500 of 2 per cent bonds outstanding October 1, \$22,050,350 were held by national banks to secure circulation. The 4 per cent bonds do not mature until July 1, 1907. Since December 6, 1890, the Government has been out of the market as a purchaser of its own bonds, and the price then paid for 4 per cent bonds (\$123,356) has fallen to \$114,625. The lower the price of the bonds the more available they become as a basis of profitable circulation. If happily the time arrives when the United States

\* Total amount of each class of bonds held to secure circulation June 30, 1892.

Government has no bonded debt, or not sufficient to be available as a basis for circulation, there will, of necessity, be other choice securities available for such purpose.

In my judgment the Government should issue 2 per cent bonds, running twenty, thirty, and forty years, and with the proceeds purchase the 4 per cent bonds outstanding. This would result in a saving of interest to the Government, distribute the maturity of the bonds over a proper period, and furnish the best conceivable basis for circulation. The Government could hardly have floated a 2 per cent bond but for the needs of the national banks, and with liberal yet conservative laws as to circulation it is possible that a bond bearing a slightly lower rate than 2 per cent could be placed at par.

A United States 4 per cent bond of 1907, in order to yield interest at the rate of 2 per cent per annum for the remaining period it has to run, must have been purchased October 1, 1892, for \$125,492. In other words, the Government could have exchanged a 2 per cent bond, at par, maturing July 1, 1907, for the 4 per cent bond of 1907, at \$125,492, without loss or gain. The exchange would have been equal. The 4 per cent bonds on October 1, 1892, were worth \$114,625. The extended 2 per cent bonds, payable at the pleasure of the Government, were worth, on the same date, 101. Could the Government have exchanged a 2 per cent bond maturing July 1, 1907, for the outstanding issue of 4 per cent bonds upon the basis of the quotations just given, it would have resulted in saving to the Government (that is, the taxpayers) the enormous sum of \$67,161,551.47, as appears from the following computation:

|  |                  |
|--|------------------|
| Par value of outstanding 4s, October 1, 1892.....  | \$559,586,750.00 |
| Market value of 4s at 114 $\frac{1}{4}$ , and of 2s at 101, October 1, 1892 .....  | 641,426,312.18   |
| Par value of 2s exchanged at 101 for 4s at 114 $\frac{1}{4}$ , October 1, 1892.....  | 635,075,556.62   |
|  | <hr/>            |
| Quarterly interest paid on 4s.....   | 5,595,867.50     |
| Quarterly interest that would be paid on 2s .....  | 3,175,377.78     |
|  | <hr/>            |
| Quarterly saving of interest .....   | 2,420,489.72     |
|  | <hr/>            |
| Present value, as of October 1, 1892, of these savings of interest to maturity, money at 2 per cent, reinvested quarterly.....                         | 123,406,683.57   |
| Present value, as of October 1, 1892, of \$75,488,806.62, principal of 2s in excess of principal of 4s, money at 2 per cent, reinvested quarterly..... | 56,245,132.10    |
|  | <hr/>            |
| Present value of net saving to the Government in accordance with the above statement.....  | 67,161,551.47    |

While the principal of the indebtedness would be increased, the interest reduction would be so great for the remaining fifty-nine interest quarter periods, from October 1, 1892, to July 1, 1907, as to show a net saving of \$67,161,551.47.

A 4 per cent bond at 114 $\frac{1}{4}$ , on October 1, 1892, would pay an investor, interest at the rate of 2.793 per cent.

It is probable, from the above statistics, that investors would not exchange 4 per cent bonds for 2 per cents, but the fact that banks own, for the purpose of securing circulation, nearly 87 per cent of the continued 2 per cent bonds in preference to the 4 per cents, shows that they prefer a bond at par, with a lower rate of interest, as a basis for circulation. A fixed period to run, and a long period would add to the value of the bond.

With so great a saving possible, the interests of economy, as well as all public and private interests that depend for prosperity upon a sound

and elastic currency, emphasize the wisdom of settling this question of a proper basis for national-bank circulation by the issue of bonds having a long time to run, at a low rate of interest, with which to retire the outstanding issue of 4 per cent bonds.

The national banks for a long series of years have demonstrated their ability to furnish the country with currency ample in amount, elastic in volume, sound beyond peradventure, and every dollar of which, every moment of its existence, was worth par throughout the length and breadth of the land. A change from such a currency to another less secure is certainly an unwise experiment. It is proposed to restore State bank circulation by removing the 10 per cent tax imposed March 3, 1865. There is no fairer test of men or methods than the record they make for themselves. Every item of assets and liabilities, as shown by the trial balance of their general ledgers, of every national bank, for the whole period of their existence, has five times each year been published in the locality, reported to the Comptroller of the Currency, and become a matter of record. Additional tables resolve all composite items into detail. Additional statistical tables complete the history and workings of such banks. Special reports show the course of trade and exchange. In case of failure, equally explicit information is obtained from receiver's reports, total claims, total assets, percentage paid, percentage of loss, items of expense, including receiver's fees, and attorneys' fees.

All this information is annually reported to Congress and spread before the country. The course of trade, the material condition, the prosperity or depression of the country, are truthfully reflected in the condition of its banks. And the publication of the above conditions, in the reports of these banks, has been of inestimable value to publicists and economists. This is the record of national banks under Federal authority and Federal supervision. To compare the present national banking system with the old State banking system is to compare order with confusion—perfect system, under central control, with imperfect system, under diversified control. The banking systems of the different States, during the period that they were banks of issue, differed essentially. Some had excellent banking laws; others had very crude laws. Some had effective supervision, and some had none, or worse than none. In no State was the aggregate or percentage of loss to note-holders of State banks reported, nor the losses to creditors or stockholders. The most careful research reveals only general statements, or estimates of loss, in the current financial literature of the time.

Congress, by resolution in 1832, directed the Secretary of the Treasury to procure and publish statistics relating to banks in the several States. Such publication was made more or less complete, with the exception of some years, until 1864\*; then followed an interval until 1873, when the Comptroller of the Currency was directed to procure from official and other reliable sources and report to Congress information in relation to State banking institutions. The statistics in relation to State banks prior to 1864 have been the subject of much

---

\*When it is stated that the statistics relating to the period prior to 1864 are mainly unofficial, it will be understood that the information conveyed is only approximately correct. The principal sources of information in compiling these statistics have been the reports of the Secretary of the Treasury to Congress since 1832, Baker's work on Banks and Banking, Blodgett's *Economica*, Elliott's *Funding System*, Thompson's *Banknote Reporter and Counterfeit Detector*, the *Banker's Magazine*, Hodges' new *Banknote Safeguard*, *Consideration on the Currency and Banking Systems of the United States*, by Albert Gallatin; *History of Banking in the United States*, by John Jay Knox.

study and research on the part of my predecessors. The Comptroller's report for 1876 contains elaborate tables upon this subject. The question of restoring State bank circulation gives especial value to all information of this character, and I have therefore carefully studied and analyzed all the statistics attainable upon this subject, showing the condition of State banks prior to 1864, and publish in the Appendix of this report, arranged in convenient form, tables presenting such information.

The most notable feature of the State-bank circulation was the violent expansion and contraction to which it was subject.

The charter of the United States Bank expired March 4, 1811. Mr. Gallatin made the following estimate of the total circulation of the country, including notes of the Bank of the United States: In 1811, \$28,100,000; in 1815, \$45,500,000; in 1816, \$68,000,000; and in 1820, \$44,863,000.

In 1840, according to Knox, there were in Ohio thirty-seven banks, with \$10,000,000 capital. January 1, 1845, there were but eight banks in operation, with a capital of \$2,171,807. Up to and including 1856 thirty-six of the banks organized under the laws of that State had failed, their notes being wholly worthless, and eighteen more had failed, their notes being worth 50 to 75 cents on the dollar. From January 1, 1857 the circulation of the whole country shrank from \$214,788,892 to \$155,208,744 on January 1, 1858, a decrease of over \$59,000,000 in one year (Report of Secretary of the Treasury). The circulation of Illinois increased from \$5,500,000 in 1857 to \$12,300,000 in 1861. (Knox.) Much of this circulation was secured by various forms of security, and its redemption provided for by State authority. Yet it was seldom that this security proved adequate. The Bankers' Magazine for February, 1858, advertised a list of twenty-eight suspended banks in Indiana whose notes would be redeemed by the auditor of that State at the following rates: ten at par, and the remainder at prices ranging from 97 down to 69. According to the same authority, in July, 1859, a convention of Wisconsin bankers, held at Milwaukee, fixed the discount on Illinois bank bills at 1 per cent until September 20, and at 3 per cent thereafter. This action was retaliatory, and simply established the same discount upon Illinois bills that Illinois had adopted as to Wisconsin. In April, 1859, the Indiana banks determined not to accept the notes of Illinois or Wisconsin. All bank notes of interior banks were at a discount in New York (many unsalable) from 50 per cent down to the current exchange, which was charged against the notes of perfectly solvent banks.

The above instances illustrate the friction existing between different States.

The cost of exchange on commercial centers was greatly increased under State-bank circulation. Now a man in Montana deposits his money in his local bank and buys Chicago exchange. His money is as good in Chicago as Helena, and he simply pays the cost of transmittal. In fact, the competition for business is so intense and the indulgence of banks correspondingly great that frequently when an interior merchant goes to New York to buy goods he takes a letter of introduction from his home bank to their New York bank correspondent, draws checks for the amount of his purchases upon his home bank, which are paid by the New York correspondent and debited to the home bank. Thus the item of exchange disappears entirely.

The dangers of counterfeiting under the national-banking system are at a minimum. The bills are printed by the Government upon

carefully prepared paper made by the Government and never out of the Government's possession. If circulating notes were to be printed by the forty-four different States, the opportunities for counterfeiting would be multiplied. Under the old State-bank system counterfeiting was an established industry, and a description of the methods and devices possesses the qualities of a romance. From January 1 to April 1, 1859,\* there appeared 242 new counterfeits. Hon. John Jay Knox (whose long incumbency of the office of Comptroller of the Currency, as well as his qualities as a student of finance, entitles his judgment to highest consideration) estimates the average loss to note-holders under the old State-bank system at 5 per cent. As before remarked, no estimate can be made of the loss to creditors and stockholders. By advertising for the redemption of circulating notes the statutory period and refusing all later presentations, it frequently happened that the stockholders reaped large profits where the note-holders met almost total loss.

I have given the above random illustrations as suggestive simply of the evils attendant upon the old State-bank circulation. It is by no means exhaustive. I am aware that the present can hardly be compared to antebellum times, and that the changed conditions which now exist would necessarily obviate some and soften many of the evils attendant upon State-bank circulation.

In order to furnish a modern standard of comparison between national banks and those other than national, Comptroller Knox reported statistics, showing the number of failures of State, savings banks, and private bankers, for the three years ending January 1, 1879. The number of failures was 210; total claims, \$88,440,028; amount paid and to be paid, \$58,152,638; losses, \$32,616,661; upon which he comments:

The average annual loss sustained by creditors during the past sixteen years by the insolvency of national banks throughout the United States has been \$390,012, and that occasioned by the failures of banks other than national, as shown by the incomplete data obtained by the Comptroller, has for the last three years been not less than \$10,872,220.

Hon. Edward S. Lacey, in his report as Comptroller for the year 1891, gave a list of failures in the United States of bankers, brokers, trust companies, and savings banks, for the year ended June 30, 1891. "These number, in all, 117 institutions, having liabilities estimated at \$38,271,511, and assets valued at \$20,794,092. (Bradstreet.)"

Through the courtesy of Bradstreet I am able to report, in a table to be found in the Appendix,† the failures of State, savings, and private banks, and loan and trust companies for the year ended June 30, 1892. The number is sixty-nine. Aggregate liabilities, \$11,024,628. Estimated value of assets, \$6,125,189. The percentage of assets to liabilities 55.56.

The seventeen national banks that failed during the last report year had aggregate liabilities amounting to \$12,538,448. Estimated value of assets, \$10,750,347. Percentage of assets to liabilities, 85.74.

However recent the comparison the conclusion is in favor of the national-bank system.

If the forty-four States are to furnish the currency of the country, then we will have a chain of sovereignties furnishing our circulating medium, each with varying laws and varying supervision, and, like all chains, the system as a whole would be no stronger than its weakest

\* Thompson's Bank Note Reporter and Counterfeit Detector.

† This appendix, which is omitted for want of space, will be found in the separate volumes of the Comptroller's report.

link. Disorganized finance in one State would affect all. Argentine financial troubles precipitated the Barings failure at a time when this country was generally prosperous; and yet it produced a quasi panic in the United States and cast a cloud over the financial horizon of the whole world which has not yet fully disappeared. Banking is not a philanthropical business and banks will not issue circulating notes unless it is profitable. Manifestly issuing notes would be most profitable where greatest latitude was allowed or greatest laxity prevailed, and with the circulation of any State discredited or the particular banks of any State discredited, conservative bankers and conservative business men would have to discriminate against such bills.

We all know the practical machinery employed to enforce such discrimination. Our State boundaries and commercial centers would be policed with brokers' offices, and commerce would be compelled to pause at State lines and pay the exchange demanded in order to provide itself with money acceptable in the locality where proposed business was to be done. The bill of a perfectly solvent bank in Oregon would be worth just as much less than its face in Chicago or New York as it would cost to send such bill to Oregon for redemption and secure the proceeds in return—cost of transmission each way and interest for the time required—in short, exchange. It would be precisely on a par with the note of any equally reputable business firm. The only way this discount could be avoided would be to provide for the redemption of such notes in Chicago, New York, Boston, and other money centers. Should interior and far Western banks make their bills worth par throughout the country by providing for their redemption at convenient money centers, it would compel them to keep an amount of idle reserve with their redemption agents that would seriously impair the profits on circulation. And the United States Government would not facilitate banking transactions then, as it does now, by receiving money at its subtreasuries and transporting the same to any part of the country for the meager charge of 15 to 50 cents per \$1,000.

A bank bill or note is a noninterest-bearing obligation payable to bearer upon demand, in lawful money, title to which passes by delivery. The value of such note depends upon the financial credit of the bank issuing the same, the special provision of law for its redemption, the security set apart for such purpose, the fidelity with which such laws are enforced, as to redemption, the character of supervision, and the degree of conservative banking thereby insured. The profit to a bank issuing such bills depends altogether upon the length of time they remain outstanding before being presented for redemption. With the facilities afforded by railway and express companies for presenting such notes for redemption, it is probable that they would speedily find their way back to the place of issue. This would seriously impair the profits and would necessitate more favorable conditions of issue in order to render the issuing of circulation profitable. No circulation will issue unless there is a profit in it. The fact of the probable and speedy return of this circulation to the locality of issue is made an argument in its favor, inferring therefrom that each locality would be abundantly supplied with money. A bad penny always returns, and the tinge of doubt that would attend this State-bank circulation would doubtless give it a homeward impetus. But bear in mind that it would be worth no more at the place of issue, though passing at par, than in Boston or New York. By just such a percentage as its purchasing power was diminished in our commercial centers, by just that percentage would the price of commodities be appreciated where it passed at par. This is an inevitable law attendant upon depreciated currency.

The stream that flows from the mountain to the sea obeys no more natural law than that which accumulates currency in commercial centers. If the water stood in pools on the mountain it would necessarily be pretty damp at the seaboard, and, if these localities that so loudly clamor for more money had all the currency they wanted, that same currency would be a drug in banking centers. There is money enough, and the range of interest for the past year has been phenomenally low, and, as before stated, any bank in any part of the country could have had any quantity of money transported to it at the moderate charge of 15 to 50 cents per \$1,000. But such bank must have the equivalent of money; it must have securities, or receivables, or some form of credits, acceptable, in order to get the money. And right here is the trouble. This clamor for more money comes from the newer, less-developed sections of the country, and from people who have something to sell that no one wants to buy. The securities they offer do not commend themselves to investors. No amount of currency would correct this. They say, "Money is plenty while the crop is being moved, but we want it plenty at all times." When the crop is gone, what have they to represent money, with which to buy money? People can get money for their labor and for their produce. They can borrow upon good collaterals, real or personal. People with any equivalent of money can get it. This whole trouble is born of the heresy, which has a strangely extended hold upon the public mind, that the Government can create wealth and that if there were more money people could, in some unexplained way, obtain it without rendering an equivalent.

A conditional repeal of this 10 per cent tax is proposed, conditioned upon compliance by the State banks with certain regulations imposed by Congress, designed to secure circulation and protect note-holders against loss. Such State banks would then be national banks for the purpose of issuing circulating notes, and Congress must provide for their supervision and examination, to see that the laws are complied with. Can currency be better taken out by a bank organized under a State law than under an act of Congress? Would Congress or the country gain anything by the proposed divided jurisdiction over these banks of issue? Would not division lead to conflict and confusion? All national banks make reports of condition to the Comptroller, on a past day, fixed by him, *in such form* as the Comptroller prescribes, and upon blanks furnished by him. These forms are very complete as to balance sheet and detail. In order to comply with these calls a bank's books must be so kept as to furnish the required information. These reports are of very great value to the banks themselves, in systematizing their bookkeeping and insuring good and uniform methods of business. The information reported, all on the same date, is of great value to the public. What would be gained by denationalizing our banks in all respects, except as to circulation? Can the various State legislatures be depended upon to provide better laws and better supervision than Congress?

It is argued that 92 per cent of all business transactions consummated through banks are represented by credits—that is, exchanges and offsets—and that 8 per cent only is represented by money. The Government does not assume to regulate the 92 per cent. Why should it the 8 per cent? Why not as well allow State bank notes to circulate? Their acceptance is purely voluntary. That statement is theoretically true, but practically it is wholly false. A banker, or large merchant or manufacturer, may be in a position, equipped with skilled

men or expert information, to exercise discrimination between the strong and the weak banks. But what can the artisan, the day laborer, the miner, or the farmer know of such a matter? From the nature of their calling they can exercise no discrimination. They know, and they can only know, that the Government allows such bills to circulate, in form and semblance of money, and they have the right to hold the Government responsible that it be worth 100 cents on the dollar, whether it comes from New York or New Mexico.

The Constitution of the United States prohibits the States from coining money or making anything except gold and silver legal tender. State-bank bills could not become a legal tender. Neither are national-bank bills. State-bank bills when issued add just so much to the liabilities of the bank. They would circulate freely in times of prosperity and confidence. In times of monetary stringency and general distrust they would return to the banks for redemption. They would have to be redeemed in legal-tender money provided by Congress. Congress must, under the Constitution, provide all the money that possesses a full debt-paying power. By every consideration of sound business principles it should provide all the money that the country requires. No public interest can be served by dividing this function with the forty-four States. Every period of financial depression in the past resulted in the suspension of specie payments, more or less general, by the banks; that is, resulted in the inability of the banks to redeem their notes. The same conditions would produce similar results in the future. If State-bank notes are allowed to circulate, their acceptance is not voluntary; it becomes a business necessity. Many mine-owners, manufacturers, and large employers of labor practiced paying their help in store orders, in order to control their trade and make the extra profit. Surely, under the law, the acceptance or rejection of such orders was purely voluntary, and yet their acceptance for fear of losing their employment was general.

So great did this abuse become that many States have enacted laws compelling corporations to pay their laborers, at regular intervals, in money. The wealthy class could provide themselves with the means of discriminating against the notes of weak banks, and if they found themselves possessed of any would proceed to work them off upon their less fortunate neighbors. That is the record of the past. It would be the experience of the future. To the average laboring man a bank-note reporter and detector would be as inexplicable as the binomial theorem. When a bank suspends, the fact that the note is secured and will be eventually paid is poor consolation to the laborer who needs his money for his daily use. The note of a failed national-bank is as good as that of any bank in the system. The restoration of State-bank circulation portends disaster to that class of our citizens who most need and have most right to ask protection from the Government. State-bank circulation loses its money power in a crisis. It is a source of weakness and adds to the danger. Instead of paying debts it comes forward itself to be paid.

#### CLEAN MONEY.

Currency, as applied to the money of a country, has been defined as a "continuous succession of uses." A little reflection upon such continuous use, the journey from hand to hand, till to till, pocket to pocket, over the damp counter of the saloon, through the necessarily soiled hands of honest industry, treasured by the poor and carried in close proximity to the person, it is easy to realize that it becomes "filthy lucre." Soiled

paper money is popularly believed to be a potent means of disseminating infectious and contagious diseases. The Bank of England never reissues a note.

The statute provides for the redemption of United States notes when they "are so mutilated or otherwise injured as to be *unfit for use*," and for the redemption of national-bank notes when they are "worn, defaced, mutilated, or otherwise *unfit for circulation*." A note with the accumulated filth of continuous use is unfit for circulation and should be redeemed. Send in the old and let the people have new and clean money. My experience as examiner in the discount and savings banks of New York has impressed this matter upon me.

The following table gives the number of banks organized during the year ended October 31, 1892, in each State and Territory, with their aggregate capital:

| States and Territories. | No. of banks. | Capital.    | States and Territories. | No. of banks. | Capital.   |
|-------------------------|---------------|-------------|-------------------------|---------------|------------|
| Texas.....              | 22            | \$1,445,000 | New York.....           | 2             | \$300,000  |
| Iowa.....               | 13            | 725,000     | California.....         | 2             | 150,000    |
| Indiana.....            | 12            | 1,110,000   | New Mexico.....         | 2             | 100,000    |
| Ohio.....               | 11            | 2,000,000   | Oklahoma.....           | 2             | 100,000    |
| Pennsylvania.....       | 10            | 700,000     | Wyoming.....            | 2             | 100,000    |
| Illinois.....           | 9             | 2,500,000   | Missouri.....           | 1             | 200,000    |
| Minnesota.....          | 9             | 710,000     | Virginia.....           | 1             | 200,000    |
| Washington.....         | 8             | 700,000     | Georgia.....            | 1             | 150,000    |
| Massachusetts.....      | 7             | 650,000     | North Carolina.....     | 1             | 125,000    |
| Wisconsin.....          | 5             | 500,000     | Arizona.....            | 1             | 100,000    |
| West Virginia.....      | 5             | 350,000     | Alabama.....            | 1             | 100,000    |
| Colorado.....           | 4             | 260,000     | Florida.....            | 1             | 100,000    |
| Idaho.....              | 4             | 200,000     | Kentucky.....           | 1             | 100,000    |
| New Hampshire.....      | 3             | 250,000     | Maryland.....           | 1             | 50,000     |
| New Jersey.....         | 3             | 250,000     | Michigan.....           | 1             | 50,000     |
| Kansas.....             | 3             | 200,000     | Nebraska.....           | 1             | 50,000     |
| Montana.....            | 3             | 200,000     | North Dakota.....       | 1             | 50,000     |
| Tennessee.....          | 3             | 160,000     | Utah.....               | 1             | 50,000     |
| Maine.....              | 3             | 150,000     |                         |               |            |
| Indian Territory.....   | 3             | 150,000     | Total.....              | 163           | 15,285,000 |

In point of numerical accessions to the system, Texas leads with twenty-two banks; Iowa, Indiana, Ohio, and Pennsylvania following in the order named. Illinois, however, provided the largest amount of capital. It has been noticeable for several years that the large proportion of increase in the number of active national banks is assignable to those States and Territories located West of the Mississippi River and in the Southern States. Of the one hundred and sixty-three banks organized during the past year, eighty-two are located in States and Territories west of the Mississippi, and thirty-six are located in the Southern States. Pennsylvania still has the greatest number of national banks in operation, Massachusetts the greatest aggregate capital, and New York the largest amount of deposits. As prosperity and population increase in the western portion of the country, extending from north to south, so the privileges of the national banking system are availed of in contrast with private banks and other financial corporations organized under State laws. During the past year the seventeen failures were widely distributed, there having been three in Kansas; in New Mexico and Texas two each, and in other States only one. The following table exhibits the number of banks organized, failed, and in voluntary liquidation, and the net increase or decrease, numerically, each year since 1863:

NUMBER AND AUTHORIZED CAPITAL OF BANKS ORGANIZED AND THE NUMBER AND CAPITAL OF BANKS CLOSED IN EACH YEAR ENDED OCTOBER 31 SINCE THE ESTABLISHMENT OF THE NATIONAL BANKING SYSTEM, WITH THE YEARLY INCREASE OR DECREASE.

| Year.              | Organized. |              | Closed.                   |             |            |            | Net yearly increase. |              | Net yearly decrease. |             |  |
|--------------------|------------|--------------|---------------------------|-------------|------------|------------|----------------------|--------------|----------------------|-------------|--|
|                    |            |              | In voluntary liquidation. |             | Insolvent. |            |                      |              |                      |             |  |
|                    | No.        | Capital.     | No.                       | Capital.    | No.        | Capital.   | No.                  | Capital.     | No.                  | Capital.    |  |
| 1863               | 134        | \$16,378,700 |                           |             |            |            |                      | 134          | \$16,378,700         |             |  |
| 1864               | 453        | 79,366,950   | 3                         |             |            |            |                      | 450          | 79,366,950           |             |  |
| 1865               | 1,014      | 242,542,982  | 6                         | \$330,000   | 1          | \$50,000   | 1,007                | 242,162,982  |                      |             |  |
| 1866               | 62         | 8,515,150    | 4                         | 650,000     | 2          | 500,000    | 56                   | 7,385,150    |                      |             |  |
| 1867               | 10         | 4,266,300    | 12                        | 2,160,000   | 6          | 1,170,000  |                      | 930,300      |                      |             |  |
| 1868               | 12         | 1,210,000    | 18                        | 2,445,500   | 4          | 410,000    |                      |              | 10                   | \$1,645,500 |  |
| 1869               | 9          | 1,500,000    | 17                        | 3,372,710   | 1          | 50,000     |                      |              | 9                    | 1,922,710   |  |
| 1870               | 22         | 2,736,000    | 14                        | 2,550,000   | 1          | 250,000    |                      |              |                      | 64,000      |  |
| 1871               | 170        | 19,519,000   | 11                        | 1,450,000   |            |            | 159                  | 18,069,000   |                      |             |  |
| 1872               | 175        | 18,988,000   | 11                        | 2,180,500   | 6          | 1,806,100  | 158                  | 15,001,400   |                      |             |  |
| 1873               | 68         | 7,602,700    | 21                        | 3,524,700   | 11         | 3,825,000  | 36                   | 253,000      |                      |             |  |
| 1874               | 71         | 6,745,500    | 20                        | 2,795,000   | 3          | 250,000    | 48                   | 3,700,500    |                      |             |  |
| 1875               | 107        | 12,104,000   | 38                        | 3,820,000   | 5          | 1,000,000  | 64                   | 7,283,800    |                      |             |  |
| 1876               | 36         | 3,189,800    | 32                        | 2,565,000   | 9          | 965,000    |                      |              | 5                    | 340,200     |  |
| 1877               | 29         | 2,589,000    | 26                        | 2,539,500   | 10         | 3,344,000  |                      |              | 7                    | 3,294,500   |  |
| 1878               | 28         | 2,775,000    | 41                        | 4,237,500   | 14         | 2,612,500  |                      |              | 27                   | 4,075,000   |  |
| 1879               | 38         | 3,595,000    | 33                        | 3,750,000   | 8          | 1,230,000  |                      |              | 3                    | 1,385,000   |  |
| 1880               | 57         | 6,374,170    | 9                         | 570,000     | 3          | 700,000    | 45                   | 5,104,170    |                      |             |  |
| 1881               | 86         | 9,651,050    | 26                        | 1,920,000   |            |            | 60                   | 7,731,050    |                      |             |  |

\*Two banks restored to solvency, making 3,788 going banks.  
 †The total authorized capital stock on October 31 was \$693,868,665; the paid-in capital, \$692,812,330, including the capital stock of liquidating and insolvent banks which have not deposited lawful money for the retirement of their circulating notes.

As stated elsewhere with more particularity, the failures during the past year were not disastrous, and in proportion to the number in active operation were not so numerous as in some preceding years.

AMENDMENTS TO THE LAWS.

The Comptroller of the Currency is required annually to report "any amendments to the laws relative to banking by which the system may be improved, and the security of the holders of its notes and other creditors may be increased."

(1) In my judgment the law should be amended so as to provided as follows: That the minimum deposit of Government bonds, required by national banks, be reduced to \$1,000 in case of banks of \$50,000 capital, and to \$5,000 in cases of banks whose capital exceeds \$50,000. Such deposit would be sufficient to guarantee the payment of all expenses and assessments imposed by law. Banks are no longer organized for the purpose of issuing circulation, and when organized to do business as banks of discount and deposit it is clearly a hardship to require them to purchase these high-priced Government bonds beyond the amount above suggested.

(2) That any national bank be allowed to issue notes equal to the par value of the United States bonds which it may purchase and assign to the Treasurer of the United States for the purpose of securing circulation.

(3) That the monthly withdrawal of bonds pledged to secure circulation shall not exceed four and a half millions in the aggregate. Should withdrawals equal the amount named in any month (which is unlikely) such amount would be offset by the additional circulation issued under the second amendment suggested.

(4) That the tax on national-bank circulation be repealed. The banks have already paid into the Treasury \$72,670,412.30 in taxes upon circulation. The banks should only be assessed an amount sufficient to defray the actual cost to the Government of providing circulation.

(5) That the limit of the amount which may be loaned to any person, company, corporation, or firm, to 10 per cent of the capital stock of the bank, be so amended as to read "capital and surplus." There should be an additional amendment making an exception in favor of temporary loans, secured by collateral, in our largest business centers.\*

(6) That the Government issue bonds, with a long period to run and at a low rate of interest, with which to retire the present bonded debt of the United States, and which bonds may be used as a basis to secure national-bank circulation.\*

(7) That the Comptroller of the Currency, with the approval of the Secretary of the Treasury, be empowered to remove officers and directors of a bank for violations of law, leaving the vacancy to be filled in the usual way; first giving such officers and directors an opportunity to be heard.

(8) That bank examiners be required to take an oath of office before entering upon the discharge of their duties, and to give a bond in such amount and with such sureties as the Comptroller of the Currency may require.

(9) That the Comptroller of the Currency be allowed to appoint two general examiners, of conspicuous ability and experience, to be paid out of the public funds, whose duty it shall be to visit, assist, and supervise the various examiners in their several districts, in order to secure uniformity in method and greater efficiency in work.

(10) That the law be so amended as to prohibit officers or employés of a bank from borrowing its funds in any manner except upon application to and approval by the board of direction.

(11) In order to facilitate the collection of assessments upon shareholders in failed national banks, that the receivers of such banks be required to file with the county clerk or register of each county where any shareholder may reside a statement showing the names of shareholders residing in such county and the amount of stock held by them respectively; the filing of such statement to constitute a lien upon the realty of such shareholders, which lien may be vacated, upon motion, by giving proper bond, and which shall be discharged, by the receiver, upon payment of the assessment.

(12) Section 380, United States Revised Statutes, reads as follows:

All suits and proceedings arising out of the provisions of law governing national banking associations, in which the United States or any of its officers or agents shall be parties, shall be conducted by the district attorneys of the several districts, under the direction and supervision of the Solicitor of the Treasury.

Under this section it is claimed that United States district attorneys are *ex-officio* attorneys of the receivers of all failed national banks

---

\* Discussed elsewhere in this report.

located within their respective districts, and that all suits and proceedings must be instituted by or through them. It is difficult to believe that the courts will finally sustain such a construction, that a simple action for debt, which can be maintained in a State court as well as in the United States court, and is not based upon any provision of the national-bank act, falls within the provisions of said act, or that a receiver of a failed national bank is an "agent" of the United States within the meaning of said section.

It is difficult to believe that Congress has the power to impose the services of any attorney upon such a trust, where the assets are wholly private property, belonging to creditors and shareholders. Certain it is that had Congress intended that such a broad construction would be put upon this section it would have made some provision for exceptional cases. It is a physical impossibility for the various United States attorneys to act as attorney or counsel for the receiver. In many instances they reside several hundred miles distant from the trust. In other instances there are so many trusts within a single district that the United States attorney can not attend to all the business to be done. The result in such cases is that where United States attorneys insist upon being employed they become attorneys of record, nominally appearing in all actions or proceedings, while some resident attorney does the actual work. As a consequence the trust is obliged to pay double fees for having its work done.

If the United States attorney must be employed in accordance with the above section, then every time there is a change in such officer it would necessitate the substitution of his successor in office, thus bringing in an entirely new man, with no familiarity with the pending litigation. Under such circumstances the usual practice has been to retain the ex-district attorney as counsel, thus producing a double charge for the services rendered.

Many United States attorneys make no claim to be employed. Others when confronted with the situation relinquish their claim, but still others insist upon being employed, and, when not employed, insist upon being paid a fee for every act that is done by the attorney in the regular administration of the affairs of the trust. The Department has in its possession bills rendered by United States attorneys who have never performed any act for the benefit of the trust, have never been consulted by the receiver, and never in any way had any connection with the affairs of the failed bank, except to ascertain from the record what suits and proceedings had been instituted and then have made such suits and proceedings a basis of claim for compensation.

I append a table showing the various failed banks, their location, and the location of the different United States attorneys who would have to be employed by the receiver in case the construction sought to be placed upon section 380 is a proper one. Also, the distance at which such United States attorneys are located from the respective trusts.

From this table will clearly appear the physical inconvenience, if not impossibility, of these United States attorneys acting as attorneys for various receivers. Surely these attorneys ought not to be paid for what they can not and do not do. These trusts should not be subjected to double fees, and the above section should be amended so as to provide that attorneys other than United States attorneys may be employed by receivers of failed banks, whenever in the opinion of the Comptroller of the Currency such employment will be for the interest of a trust.

## TITLE AND LOCATION OF EACH RECEIVERSHIP WITH LOCATION OF UNITED STATES ATTORNEY.

| Name of each failed bank.      | Location of trust.     | Location of United States attorney. | Distance apart. |

\* Failed.

The gross liabilities of the seventeen banks which failed during the year were \$12,538,448. The estimated value of the assets is \$10,750,347, or 85.74 per cent of the liabilities.

Five of these banks failed prior to December 1, and their failure was the result of the quasi panic of 1890 and 1891, and a continuation of the bank failures which characterized the year immediately preceding.

The Maverick National Bank of Boston had liabilities of \$8,727,833, or more than two-thirds of the total liabilities of the banks failing during the year. Aside from that institution the failures were inconsequential in amount, and, as noted above, the probable loss to creditors is less than the average for previous years.

No bank has failed since July 6, 1892.

#### DOMESTIC EXCHANGES.

One of the great values which the national-bank system possesses is the facility it affords for obtaining accurate statistical information as to the course and character of business. With nearly four thousand banks, representing nearly every locality and every business interest, under central supervision, it is within the power of the Comptroller of the Currency to obtain data showing exact conditions of business at stated time or times.

For the purpose of showing the course and magnitude of business of the banks, my predecessors have called for the exchanges drawn by the different banks upon each other and upon the reserve and central reserve cities for a certain year. These exchanges represent the settlement of balances between the different banks and correspond exactly with the cash balances paid or received by the different banks, in settlement of their exchanges in our clearing-house cities. My immediate predecessor, Mr. Lacey, called for such information for the year ended June 30, 1890, and June 30, 1891.

Thinking that the monetary stringency that prevailed in the fall of 1890 and the early part of the year 1891 might be thought to impair the value of statistics for these years, as a criterion, I have also obtained like information for the year ended June 30, 1892. Thus we have three successive years, covering what may be fairly termed a sample period, and the information set forth in the following tables may be accepted as fairly reflecting the volume and character of the business of the banks for the periods covered, hence it will be unnecessary to call for similar information from the banks for some years to come.

Out of the 3,759 banks called upon, 3,647 complied with the Comptroller's request and furnished the data for the following table:

AMOUNT OF DRAFTS DRAWN BY NATIONAL-BANKING ASSOCIATIONS UPON NEW YORK, CHICAGO, ST. LOUIS, THE OTHER RESERVE CITIES, AND ON ALL OTHER LOCATIONS, THE NUMBER OF BANKS DRAWING UPON EACH CITY, AND THE PERCENTAGES OF DRAWINGS IN 1892.

| Location of banks drawn upon. | 1892.           |                 |           |
|-------------------------------|-----------------|-----------------|-----------|

\*The total amount of drafts drawn upon other reserve cities (not shown in detail in 1890) in 1891 was \$3,101,005,735 and the percentage 24.25.

From the preceding table it will be observed that the percentage of exchange drawn upon New York, Boston, and Philadelphia shows a slight loss each year, while the percentage drawn upon Chicago and St. Louis shows a slight increase, indicating that, with the growth and increase of wealth in the interior of the country, the proportionate amount of business done by these large interior cities is increased out of proportion to the seaboard cities.

The following table shows the number of banks drawing and the amount of exchange drawn by all the national banks reporting, classified by States and arranged in the order of the total amounts drawn, further subdivided so as to show the operations of the banks in reserve cities, and other banks, separately, during the year ended June 30, 1892, to which has been added a column giving corresponding totals for the years 1891 and 1890:

AMOUNT OF DRAFTS DRAWN BY ALL REPORTING BANKS IN 1892, 1891, AND 1890.

| Location of drawing banks. | Reserve cities. |               | All other.    |               | Total.        |                 |                 |

| Total.....                 | 329             | 5,042,276,897 | 3,318         | 7,952,682,693 | 3,647         | 12,994,959,590  | 12,782,212,495  |

It will be noticed that some changes have taken place in the relative importance of the several States during the year. Nothing especially significant, but all suggesting the westward trend of wealth and business.

In order to further illustrate the operations of banks covered by the foregoing statement, the following table is introduced, which exhibits the amount drawn by banks in the several reserve cities:

AMOUNT OF DRAFTS DRAWN BY BANKS IN THE SEVERAL RESERVE CITIES, 1892.

| Reserve cities.     | On New York.  | On Chicago. | On St. Louis. | On other reserve cities. | On all other banks. | Total.        |
|---------------------|---------------|-------------|---------------|--------------------------|---------------------|---------------|
| New York .....      | \$4,365,000   | \$54,105    | \$15,919      | \$90,699,735             | \$37,235            | \$95,171,994  |
| Chicago .....       | 716,348,880   | 233,163,589 | 8,645,379     | 93,428,780               | 56,112,290          | 1,107,698,918 |
| Boston .....        | 711,425,452   | 3,317,453   | 5,654         | 35,854,418               | 252,997             | 750,855,974   |
| Philadelphia .....  | 411,695,566   | 584,093     | 16,540        | 34,306,781               | 2,553,375           | 449,156,355   |

In connection with these tables, showing the vast volume of business done by these banks, the question naturally suggests itself: What is the cost of this business to the public and what character of service is rendered to the public by these banks?

Answering this question the Comptroller, in 1890, obtained data from which he submitted a table showing the amount of premium charged on each \$100 of exchange drawn, stated in cents, fractions thereof being omitted.

The table referred to is here reproduced.

| States and Territories.   | Rate of exchange on \$100. | States and Territories. | Rate of exchange on \$100. |
|---|----------------------------|-------------------------|----------------------------|
|   | <i>Cents.</i>              |                         | <i>Cents.</i>              |
| Rhode Island .....  | 1                          | Iowa .....              | 11                         |
| New Hampshire .....   | 1                          | North Dakota .....      | 11                         |
| Delaware .....  | 4                          | South Dakota .....      | 11                         |
| Maryland .....  | 4                          | Michigan .....          | 12                         |
| District of Columbia .....  | 4                          | West Virginia .....     | 12                         |
| Kentucky .....  | 5                          | California .....        | 12                         |
| Massachusetts .....   | 5                          | Montana .....           | 12                         |
| Connecticut .....   | 6                          | Wyoming .....           | 13                         |

| New Jersey .....  | 8                          | Louisiana .....         | 14                         |
| Ohio .....  | 8                          | South Carolina .....    | 14                         |
| Missouri .....  | 8                          | Mississippi .....       | 15                         |
| Maine .....   | 9                          | Oregon .....            | 15                         |
| Pennsylvania .....  | 9                          | Florida .....           | 17                         |
| Kansas .....  | 9                          | Tennessee .....         | 17                         |
| Nebraska .....  | 9                          | Alabama .....           | 18                         |
| Illinois .....  | 9                          | Georgia .....           | 18                         |
| Virginia .....  | 10                         | North Carolina .....    | 18                         |
| Indiana .....   | 10                         | New Mexico .....        | 18                         |
| Minnesota .....   | 10                         | Arkansas .....          | 20                         |
| Utah .....  | 11                         | Arizona .....           | 20                         |
| Washington .....  | 11                         | Nevada .....            | 20                         |
| Wisconsin .....   | 11                         | Texas .....             | 21                         |
| Average rate, United States, per \$100 on total exchange (\$11,550,898,255) ..... |                            |                         | 8½                         |

This table shows an average of 8½ cents on each \$100 of exchange drawn by all of these banks; that is, exchange drawn on each and every one of their correspondents with whom they may have had dealings during the year.

In order to give a more full and practical illustration of this subject, I have this year prepared data showing the total amount of exchange drawn by the various banks reporting to have been \$12,994,959,590, and the total commissions charged to have been \$3,343,736, or an average of .03 of 1 cent.

Contrasting the current rates charged by the banks (when they make any charge at all) with the statement just made, and we see what a vast amount of exchange is drawn without any compensation whatever.

The following statement shows the average charge for exchange drawn by national banks in each State during the year ended June 30, 1892:

| States and Territories.   | Average charge.  | States and Territories.    | Average charge.  |
|---------------------------|------------------|----------------------------|------------------|
|                           | <i>Per cent.</i> |                            | <i>Per cent.</i> |
| Maine.....                | .01              | Ohio.....                  | .02              |
| New Hampshire.....        | .08              | Indiana.....               | .06              |
| Vermont.....              | .03              | Illinois.....              | .01              |
| Massachusetts.....        | .004             | Michigan.....              | .04              |

| Missouri.....             | .02              | Average United States..... | .03              |

In order to mark the progress made in banking and emphasize the improvement in the service which railroad, express companies, and telegraph facilities afford and bring into proper prominence the extent to which the bank service to the public has been cheapened, as well as enlarged and improved, I insert here, for the purpose of comparison or contrast, two tables taken from Elliott's Funding System, showing the cost of exchange and the charges which the public were required to pay at the dates therein mentioned.

DISCOUNT ON DOMESTIC EXCHANGE AND PREMIUM ON AMERICAN GOLD AT NEW YORK IN JANUARY IN THE YEARS MENTIONED.

\* New York, resumption, May, 1838.  
 † General resumption, February, 1839.  
 ‡ Resuspension, November, 1839.

The competition for bank accounts takes various forms. Interest is paid upon average balances, exceeding certain amounts, in many cases. But the usual method of rewarding depositors for keeping balances is taking their collection items and crediting the same as a cash deposit, and giving them the exchange required in course of business at par. The fact that the average commission received by the banks on exchange sold is three-hundredths of 1 per cent shows conclusively what an enormous amount of business is done by the banks gratuitously, or without direct charge. The number of banks reporting exchange drawn this year (3,647) is 10 greater than last year. The volume of exchange drawn is greater by \$212,747,095. If to the \$12,994,959,590 reported by the 3,647 banks we add for the remaining 112 national banks, and then take into consideration the exchange that must have been drawn by the 4,520 private bankers and State banking institutions other than savings banks, whose general condition is set forth in a subsequent portion of this report, we shall have a grand total of exchange drawn by all the banks, approximating \$17,500,000,000. A bank having a balance to settle with another bank does so by remitting a draft upon some bank where it has a balance, usually upon New York City. Drafts on New York are at a premium in most parts of the country, seldom at a discount in any place. Thus by a system of draft remittances the obligation of one interior bank to another drifts into our money centers for collection, goes into the volume of the exchanges, enjoys the economy of every possible offset, and this great volume of business is transacted and all balances adjusted by the actual shipment of a very small amount of money.

SUBSTITUTES FOR MONEY.

The subject of the currency of the country, always one of interest and importance, is especially so at the present time, because of the differences which obtain in the minds of the people in regard to what the currency should be and under what authority it should be created.

It will appear from the statistics given in this report to what extent the use of money is minimized by means of clearing-house organizations in our principal cities, and, for the purpose of showing to what a limited extent actual money enters into the business transactions of the country, I have followed the precedent set by my predecessors in office in 1831 and 1839 and asked all the banks under the supervision of this

Bureau to report all receipts for the 15th day of September, 1892, separately stated and classified.

My object in this report has been to furnish reliable data from which the public could see and realize how small a percentage of business transactions are represented by actual money, and how impossible it is for the Government to furnish a volume of currency sufficient to meet the wants of the people at all times—that is, in time of general distrust or quasi panic.

Over 90 per cent of all business transactions are done by means of credit. When the public lose confidence and credit is impaired and refused, over 90 per cent of all business transactions are directly affected. It is easy to realize how impossible it is for the remaining 10 per cent of money to carry on the business of the country without monetary stringency and financial distress.

The refusal to extend or continue credit, the demand for payment in money, leaves the actual money or currency of the country, be it \$24 per capita or \$50 per capita, utterly powerless to supply business needs.

Out of the 3,759 banks reporting their condition on July 12, reports were received from only 3,473 in time for insertion in this report. Those failing to report were the newer and less important institutions, hence the data received may be taken as fairly representing the business of the country.

The total receipts of the 3,473 banks on September 15, 1892, were \$331,205,213. September 17, 1890, 3,474 banks reported total receipts of \$327,278,251. The classification is the same and the percentage slightly varies.

The following table shows the character, amount, and percentage of receipts of national banks on September 15, 1892:

| Character of receipts.                                       | September 15, 1892. |  |
|--|---------------------|--|
|  | 3,473 banks.        | Percent-<br>age of<br>total re-<br>ceipts. |
| Gold coin.....   | \$2,907,017         | .88  |
| Silver coin.....   | 1,372,054           | .41  |
| Gold Treasury certificates.....                              | 3,407,340           | 1.03                                       |
| Silver Treasury certificates.....                            | 6,537,015           | 1.97                                       |
| Legal tenders.....   | 8,531,514           | 2.58                                       |
| Treasury notes.....  | 2,075,269           | .81  |
| National bank notes.....                                     | 3,454,483           | 1.04                                       |
| United States certificates of deposit for legal tenders..... | 2,210,000           | .87  |
| Checks, etc.....   | 154,959,059         | 46.79                                      |
| Clearing-house certificates.....                             | 2,691,829           | .81  |
| Exchanges for clearing house.....                            | 141,873,266         | 42.83                                      |
| Miscellaneous.....   | 586,367             | .18  |
| Total.....   | 331,205,213         | 100.00                                     |

From the above table it appears that 9.39 per cent of the transactions were represented by actual cash, the balance by checks, drafts, exchanges, and other substitutes for money.

The following table shows the character, amount, and percentage of receipts of national banks in the central reserve cities, etc., on September 15, 1892:

| Character of receipts.   | New York.   | Chicago.   | St. Louis. | Other<br>reserve<br>cities. | Country.        | Total.       | Percent-<br>age of<br>total re-<br>ceipts. |
|--|-------------|------------|------------|-----------------------------|-----------------|--------------|--|

| Total.....               | 281           | 116,514,324   | 92.74                      |
| Total all cities.....    | 329           | 247,491,287   | 92.54                      |
| Banks elsewhere.....     | 3,144         | 83,713,926    | 84.91                      |
| Total United States..... | 3,473         | 331,205,213   | 90.61                      |

It will be noted that 74.72 per cent of the total receipts are reported by the 329 city banks, showing an increase of over 2 per cent by the country banks and a corresponding loss by the city banks, as compared with 1890, thus indicating a greater percentage of growth by the county banks.

In order to facilitate comparison the following table is given comparing the data obtained for September 15, 1892, with both July 1 and September 17, 1890, showing the proportions of gold coin, silver coin, paper money, and checks and drafts, including clearing-house certificates, to the total receipts in New York City, in other reserve cities, and in banks elsewhere, separately, and also the proportions for the United States:

JULY 1, 1890.

| Localities.               | No. of banks. | Receipts.     | Gold coin.       | Silver coin.     | Paper currency.  | Checks, drafts, etc. |
|---------------------------|---------------|---------------|------------------|------------------|------------------|----------------------|
|                           |               |               | <i>Per cent.</i> | <i>Per cent.</i> | <i>Per cent.</i> | <i>Per cent.</i>     |
| New York.....             | 47            | \$165,923,382 | .08              | .02              | 3.86             | 96.04                |

| Other reserve cities..... | 281   | 116,514,324 | .51  | .31  | 6.44  | 92.74 |
| Banks elsewhere.....      | 3,144 | 83,713,926  | 2.66 | 1.14 | 11.29 | 84.91 |
| United States.....        | 3,473 | 331,205,213 | .88  | .41  | 8.10  | 90.61 |

In order to further facilitate comparison, a series of tables has been prepared, the first of which shows the amounts received by banks located in the city of New York on each of the five dates, June 30 and September 17, 1881, July 1 and September 17, 1890, and September 15, 1892, separately stating gold coin, silver coin, paper currency, and checks and drafts:

| New York City.           | June 30, 1881. |                    | September 17, 1881. |                    | July 1, 1890. |                    |
|--------------------------|----------------|--------------------|---------------------|--------------------|---------------|--------------------|
|                          | 48 banks.      |                    | 48 banks.           |                    | 47 banks.     |                    |
| Gold coin.....           | \$460,994      | <i>Per ct.</i> .27 | \$905,588           | <i>Per ct.</i> .54 | \$140,574     | <i>Per ct.</i> .08 |
| Silver coin.....         | 15,997         | .01                | 7,857               | .01                | 32,758        | .02                |
| Paper currency.....      | 1,706,604      | 1.02               | 1,071,316           | .65                | 6,396,749     | 3.86               |
| Checks, drafts, etc..... | 165,254,164    | 98.70              | 163,208,586         | 98.80              | 159,353,301   | 96.04              |
| Total.....               | 167,437,759    | 100.00             | 165,193,347         | 100.00             | 165,923,382   | 100.00             |

| New York City.           | September 17, 1890. |                    | September 15, 1892. |                    |
|--------------------------|---------------------|--------------------|---------------------|--------------------|
|                          | 47 banks.           |                    | 48 banks.           |                    |
| Gold coin.....           | \$70,173            | <i>Per ct.</i> .05 | \$87,636            | <i>Per ct.</i> .07 |
| Silver coin.....         | 20,948              | .02                | 50,331              | .04                |
| Paper currency.....      | 5,174,467           | 4.29               | 9,863,806           | 7.53               |
| Checks, drafts, etc..... | 115,185,884         | 95.64              | 120,975,190         | 92.36              |
| Total.....               | 120,451,472         | 100.00             | 130,976,963         | 100.00             |

The changes indicate a marked increase in the amount of paper currency received, the extremes being represented by .65 per cent on September 17, 1881, and 7.53 per cent on September 15, 1892. The decrease in gold coin is more marked than in the increase in silver.

The diminished proportion of receipts in checks and drafts is very remarkable, the average per cent for the two days in 1881 being 2.91

per cent greater than for the average of the two days in 1890; September 15, 1892, is 3.28 less than September 17, 1890.

Another fact which attracts attention is that the receipts of the forty-seven banks on July 1, 1890, are very nearly the same in the aggregate as those reported by forty-eight banks on September 17, 1881, and slightly less than for June 30, 1881. The receipts for September 17, 1890, show a very marked falling off in amount, but the percentages differ very slightly from those shown on July 1, 1890. The increase in paper currency (3.24) nearly equals the decrease in checks, as shown September 15, 1892. The receipts of the banks in all reserve cities, exclusive of New York, similarly arranged, appear below:

| All reserve cities* except New York. | June 30, 1881.    |                 | September 17, 1881. |                 | July 1, 1890.      |                 |
|--------------------------------------|-------------------|-----------------|---------------------|-----------------|--------------------|-----------------|
|                                      | 187 banks.        |                 | 189 banks.          |                 | 283 banks.         |                 |
|                                      |                   | <i>Per. ct.</i> |                     | <i>Per. ct.</i> |                    | <i>Per. ct.</i> |

| All other localities .....                    | 40,175,542     | 52,118,185          | 92,045,578    | 86,167,915          | 83,713,926          |
| United States .....                           | 284,714,016    | 295,233,779         | 421,824,726   | 327,278,251         | 331,205,213         |

PERCENTAGE OF TOTAL RECEIPTS BY ALL BANKS.

| Banks in four principal cities and elsewhere. | June 30, 1881. | September 17, 1881. | July 1, 1890. | September 17, 1890. | September 15, 1892. |
|---|----------------|---------------------|---------------|---------------------|---------------------|
| New York .....                                | 58.81          | 55.95               | 39.34         | 36.80               | 39.55               |
| Boston .....                                  | 11.62          | 8.16                | 10.30         | 8.11                | 8.23                |
| Philadelphia .....                            | 6.34           | 6.04                | 9.03          | 7.11                | 7.07                |
| Chicago .....                                 | 2.86           | 4.41                | 5.78          | 6.92                | 7.57                |
| Average of four cities .....                  | 19.91          | 18.64               | 16.11         | 14.74               | 15.60               |
| Other reserve cities .....                    | 6.26           | 7.78                | 13.73         | 14.73               | 12.30               |
| Average of all reserve cities .....           | 5.37           | 5.15                | 3.55          | 3.35                | 3.35                |
| All other banks .....                         | 14.11          | 17.66               | 21.82         | 26.33               | 25.28               |

The most conspicuous change to be noted in the above table is the increase in the percentage of country banks from 14.11, June 30, 1881, to 25.28 on September 15, 1892.

The variation in the percentage of the different kinds of money, checks, and drafts received, as shown in the statistics for September 15, 1892, do not essentially vary from those of 1890 and 1881. They fully confirm the general character of the banks' transactions. There has been a noted decrease in the amount of national-bank notes received and a corresponding increase in silver certificates and Treasury notes, caused by the retirement of national-bank circulation and its supplanting by money issued directly by the Government. The percentage of checks and drafts in New York in September, 1881, was 98.80; in September, 1890, 95.64, and in September, 1892, it was 92.36, showing a decrease for each of the three years reported, and a corresponding increase in the amount of cash received by the banks over their counters, which brings the cash receipts of the banks in the city of New York very near to the average of the whole country. The average percentage for all other reserve cities shows no material change.

#### IMPRUDENT METHODS.

The management of the national banks, as a whole, is entitled to the highest commendation for efficiency and conservatism. Banks that were disastrously affected, by continual crop failures, in certain sections of the country, are realizing the benefit of last year's bountiful harvest, and when their patrons realize upon this year's crop it is confidently expected that their condition will be made satisfactory. The maxim that disaster usually overtakes any business when too much extended applies equally to banking, and syndicate banking illustrates this rule. Where the same parties organize a series of banks it usually transpires that they are not seeking investment for their own capital, but seeking the capital of others to invest. Such banks afford unusual facilities for "kiting," and it is with this class that much trouble is experienced. The competition for bank accounts among banks in reserve cities is so intense that "promoters" find it easy to establish a bank, open an account with their reserve-agent bank in some city, and the president or cashier secures from such reserve-agent bank a loan upon his stock as collateral. By opening several such accounts the entire stock in some instances is used as collateral, and these "promoters" need but the 10 or 20 per cent margin required (in other words, \$5,000 or \$10,000) in order to start a bank. The opening of such accounts and making of such loans are coincident in point of time, or so nearly so that the creditor bank must know that they are furnishing capital with which to float the new enterprise. This results in organizing many banks where they are not needed, and are too frequently attended by loss to all parties connected with the enterprise.

Another practice that is made possible only by the assent of creditor banks, is borrowing money on certificates of deposit. A country bank wants to borrow money, issues its certificate of deposit, either time or demand, in favor of the city correspondent, and sends the same forward, accompanied by bills receivable as collateral, and requests the loan, which is granted. As a result, the country bank adds to its liabilities by increasing the amount due depositors, and adds to its assets by increasing the amount due from banks, and its published report of condition shows no bills payable. In other words, does not show the true condition of the bank. It is perfectly legitimate and proper for a bank to rediscount its receivables or borrow money, and all interior banks do at certain seasons of the year, when crops are being moved, for instance. Whatever the form of instrument used in borrowing money,

it is a bill payable and should be so reported. Reserve banks can aid the cause of good banking by requiring notes instead of certificates of deposit. Happily this practice is rapidly diminishing.

#### DIRECTORS AND OFFICERS.

The statute provides that five or more persons may organize a national bank. When it is fully organized and all preliminary requirements have been complied with, the Comptroller issues his certificate of authorization to commence the business of banking. The management of the bank is vested in a board of direction, who act through their executive officers, president and cashier. The common and statute law define their powers and prescribe the range and limits within which they may do business. Shareholders invest their money because of their faith in the efficiency of the management, their ability to acquire business, and successfully and profitably to manage it. If it is a business venture on the part of the shareholders, with which the Government has no more to do and no more solicitude than it has with the purchase of a farm or stock in a manufacturing enterprise. The shareholders elect the board of direction, and through such board manage their banks. Hence for them to claim protection, through Government control, would be to claim protection against their own acts. But these banks issue notes which circulate as money, and it being the duty of the Government to provide and regulate a circulating medium for the people, the Government examines and supervises these banks to see that all laws in respect to circulation are fully complied with.

This is apparently all that was originally contemplated as to national banks. But these banks furnish the instrumentality of exchange—the means of collection and payment of debts. They become large depositaries of the people's money (\$1,765,422,983.68 at date of last report), by means of which their business is largely transacted. They are so intimately connected with business transactions and their soundness so essential to business prosperity that governmental control has gone one step further and seeks to protect the public against loss—to protect a bank's creditors. To this end all shareholders in national banks are liable to an assessment for the purpose of paying creditors, to an amount equal to their stock holdings. Thus the entire capital stock, plus an assessment for an equal amount, becomes a guaranty of the faithfulness of the direction. The function of the Government is to restrain, to insure good banking, by enforcing the prohibitions against unsafe practices, which the law provides. The affirmative action of the banks in their competition for business is left to the enterprise of their managers, prompted by the desires of shareholders for dividends.

Directors give direction and control to the business of a bank, accept or reject credits, and should understand its general condition. The detailed workings of the banks must be intrusted to the officers and employes. We can have nothing better than men. Men make our laws and men enforce them. Men manage our banks. No matter how elaborate the system, how numerous the checks upon error or upon wrongdoing, or however perfect the machinery, the machinery must be set in motion and the system be enforced by men. There is in every system a point where good or ill results depend upon the character of the men in charge. If an engineer wants to ditch his train he can do so. If the president or cashier of a bank wants to rob it, he can. Well-devised systems may make it difficult. Efficient supervision may make it dangerous. The law may punish and risk thus be reduced to a minimum,

but nothing can prevent a dishonest man in charge from mismanaging. Hence the chief and most important duty of directors is to select officers of character as well as experience and ability. They can best protect themselves and best serve the public by so doing. Our worst bank failures reveal criminal conduct on the part of the directors, or neglect of duty approximating criminality. Serious as this defect is, its correction by legislation involves a counter danger. Legislation aimed at a few banks affects all.

In our large cities it is very difficult to get the most desirable men to act as directors. Those most actively engaged in business are the best judges of credit, can least afford to give attention to the duties of the office, and would most readily decline to serve. Legislation increasing the financial responsibility of directors for losses to creditors would depreciate the character of boards of direction and render the task of getting good, responsible men more difficult.

There is no reason why a director should not borrow money of his bank upon the same terms and conditions that other patrons are accommodated. There is every reason why he should not take advantage of his position to secure better rates or greater accommodations than his bank equities entitle him to. Officers of a bank should not be allowed to borrow money by overdrawing their accounts, by putting tickets in the cash, by discounting their own notes, or by discounting their business paper, or in any way except by application to the board of directors; and a law regulating such loans would be a wise enactment.

#### EXCESSIVE LOANS.

Section 5200 United States Revised Statutes reads as follows:

The total liabilities to any association, of any person, or of any company, corporation, or firm for money borrowed, including, in the liabilities of a company or firm, the liabilities of the several members thereof, shall at no time exceed one-tenth part of the amount of the capital stock of such association actually paid in. But the discount of bills of exchange drawn in good faith against actually existing values and the discount of commercial or business paper actually owned by the person negotiating the same shall not be considered as money borrowed.

As the volume of business has increased the magnitude of individual transactions has proportionately increased, in fact the concentration of capital under single management, by means of large corporations and by combinations, has been phenomenal. The natural economies attendant upon wholesale business, the lower rates of transportation and facilities of distribution, which location at metropolitan and railroad centers insures, is fast driving the small manufacturers out of business and concentrating business in metropolitan centers. All this increases the magnitude of separate transactions. Hence if 10 per cent of the capital stock was a proper limit to individual loans in 1864, the percentage of limitation should now be increased in our larger cities.

There is another important reason for such an increase. In the "sixties" banks did business upon their capital, supplied the wants of their customers, and earned their dividends with the money which shareholders supplied. Now, capital is made just sufficient to command public confidence. Usually a large surplus is accumulated, but the business is done upon depositors' money. Every symmetrical and well-managed business has its flush season, when its bank account should show a good balance and its want season, when it legitimately calls upon its bank for funds. Thus the balances of certain industries supply the wants of others and large bank capital is not required. Sur-

plus belongs to the shareholders, and, aside from statutory definition, is as much capital as the money originally paid in by shareholders. The section quoted should at least be amended so as to read, "one-tenth of the capital and surplus." It should be noted that many banks, upon advice of counsel, insist that "surplus" is "capital" within the meaning of said section.

In addition to including surplus with capital, as noted above, an exception to the one-tenth limit should be made in favor of temporary loans, well secured with collateral, in our largest cities.

In my judgment, the limit to 10 per cent of capital and surplus is none too small for rural and interior banks. The above section may be amended as to the large cities, so as to conform to the necessities of business and still be in strict accord with the requirements of conservative banking.

When so amended, there would be no more wholesome provision of the banking law, for, while there are instances where banks with well-distributed assets have failed, caused by repeated crop failures or extreme monetary stringency, or some cause affecting the whole community, the common history of bank failures reveals as the superinducing cause the concentration of the bank's funds in a few hands or in a few interests.

Experience has demonstrated that a strict compliance with the 10 per cent limit is impracticable in our large cities, for the reason that it is contrary to the necessities of business. A bank with a million capital could loan but \$100,000 to any individual, company, corporation, or firm. Single business transactions involving a larger amount are of frequent occurrence, and to divide one transaction between two or more banks would prove troublesome and is not demanded by conservative banking. For instance, a draft may be made against one consignment of grain for \$200,000, and the consignee needs to borrow \$150,000 upon the bill of lading as security. The security can not be divided; neither can the loan, in a practical sense.

Bank managers can not always gauge the business wants of the day, and frequently find, late in the day, that they have more money than their required reserve. Rather than carry it over night in their vaults they make over night loans as best they can. This necessarily results in loans in excess of the 10 per cent limit. A lower rate of interest is usually realized on such loans than obtains earlier in the day, and the loan is expected to be, and usually is, paid the next day.

The penalty for the violation of this law—the commencement of an action by the Comptroller of the Currency, through the Attorney-General, to forfeit the bank's charter—is so severe as to render it nugatory. It was doubtless made severe to prevent vexatious interference with the affairs of the banks. It is difficult to fix a cast-iron rule, with inflexible penalties, without doing more harm than good. During the quasi panic of 1890 many perfectly solvent firms were embarrassed for want of money, and but for indulgences and aid upon the part of the banks must have failed. They already had their full complement of bank accommodation. The banks found upon investigation that they were solvent, and, taking security, gave them additional accommodations, thus protecting themselves, saving these concerns from failure, and relieving the public generally from loss and injury, which each successive failure at such a time entails. Like other business, banking has its emergencies, and when they arise discretion should be allowed to act without incurring criminal liability.

Officers and directors are not apt to allow persons with whom they

are not financially interested to abuse the bank. Where loans to directors or officers are well secured there is no way of reaching such a case, as the law now exists, and, so far as safety is concerned, perhaps no need. In such case, if the loans are not well secured and the examiner and Comptroller are not satisfied that they are good, the bank could be required to charge them off and make an assessment upon their shareholders to make good the impairment, if impairment existed, or appoint a receiver, in case the capital was thus wiped out. The latter course would involve a question of credit and values sometimes difficult to determine, and it frequently happens that the shareholders need protection rather than punishment. The circumstances attending loans made in excess of the 10 per cent limit are so various and diverse that they defy classification. It is difficult to frame a general rule that will correct the evil resulting therefrom and not itself be productive of bad results. Our country is so large and the contrast between city and country—between the immense volume and varied transactions of the one and the lesser volume and more uniform transactions of the other—so great, that a uniform law that can wisely be applied to both must of necessity possess wide latitude.

I think this whole difficulty, as well as others that arise, might be substantially reached if the Comptroller, with the approval of the Secretary of the Treasury, were given power, after a hearing, to remove bank officers and directors for violations of law, leaving the vacancy to be filled in the regular way. It is a power that would be seldom exercised. The existence of the power would deter many who now keep the letter, only to violate the spirit of the law.

#### EXAMINERS.

There are in the employ of this Bureau forty-two examiners. The position is responsible and honorable, and calls for the exercise of energy, tact, discretion, and firmness, as well as business experience and technical knowledge of banking. In order that he may discharge his duties with ease and confidence, familiarity with the mechanism of banking is indispensable. Our best examiners are those in the prime of life, who work with energy and fidelity, hoping to demonstrate their ability and worth, thereby securing for themselves a desirable and permanent position in some good bank. This incentive and this ambition insures the best work. As a body they are competent, conscientious, painstaking, and fearless in the discharge of their duties. They enjoy the full confidence of the Comptroller, and constitute his main reliance in all matters of discipline, and hence it is the purpose of this office to insist upon the highest standard of efficiency.

A bank-examiner may own property and have interests that require the usual banking facilities and be entitled to such accommodation as he would receive were he not an examiner. But unsecured loans to an examiner, which, but for his position, would likely be refused, are wrong and destroy confidence in his work. No relation should exist that would tend to restrain an examiner's freedom in making criticisms or impair the force of his criticism when made. But criticism does not necessarily mean pointing out wrongdoing. It means the comment which an expert business man would naturally make upon the business under review. An examiner's work is not espionage. The national banks are the backbone of the financial system of the country, the conservators of public credit, officered by men of the highest integrity, who are striving to earn dividends for their shareholders by fostering

and building up the business of their clients as well as their banks. The exceptions to such honorable conduct only prove the rule. Examiners should work with the banks, with a disposition to aid in every proper way. They should get the confidence of bank officers by demonstrating their entire fitness for the work intrusted to them.

While this Bureau accepts any system of doing business which is accurate and proves; still examiners, with their facilities for observation, should note the best methods and be able to render valuable aid by suggesting improvements. While the subject of credits is to be delicately treated, the knowledge an examiner acquires will enable him to make valuable suggestions on this subject. The banks pay for the examiner's services and are entitled to his good offices. The best service an examiner can render a bank, as well as this Bureau, is by doing thorough and painstaking work. He should obtain possession of the bank's assets and retain the same until his work is completed. In the smaller banks the securities, loans, and discounts should be placed in front of the examiner when he commences on the cash. In the larger banks, where more than one day is required to complete the work, he should obtain and keep possession of the assets by means of keys or seals. He should know that no change is made in the assets, except in the regular course of business. Nothing should be done on the installment plan. Instead of objecting to this, the better the bank the more acceptable will it prove.

It is a satisfaction to a bank to have a competent examiner in absolute possession of their assets until the same are proven and he is able to assure them that the items for which their books call are all there. An inventory is the foundation of all examinations. All the items of assets are aggregated under their appropriate bookkeeping heads to prove the asset side of the bank. This is but half the work. Every item of liability should be inventoried and aggregated to prove the liability side. Every individual and every bank balance should be taken off and every liability account proved. An examination that does not include this is imperfect. Experience shows that defalcations are oftenest hidden in the liability side of the bank.

Examiners are given detailed instructions, which, if fully complied with, would render their work very thorough and searching. The efficiency of the force is constantly improving, and it is alike for the interest of the banks and this Bureau to have it attain the highest standard of excellence. This office will be pleased to have the coöperation of and receive suggestions from bank officers upon this subject.

## COMPARATIVE STATEMENTS OF THE NATIONAL BANKS.

The resources and liabilities of the national banks for fourteen years, at nearly corresponding dates, from 1879 to 1892, inclusive, are exhibited in the following table, and the same information with respect to preceding years will be found in the Appendix,\* page 129.

|   | Oct. 2,<br>1879. | Oct. 1,<br>1880. | Oct. 1,<br>1881. | Oct. 3,<br>1882. | Oct. 2,<br>1883. | Sept. 30,<br>1884. | Oct. 1,<br>1885. |

\* See second foot note, page 314.

It is noticeable that the resources of the system were increased nearly \$300,000,000 during the past year notwithstanding the fact that seventy banks went into voluntary liquidation or became insolvent, such increase being strongly in contrast with that of any previous year covered by the statement. Proportional increase is coming to nearly all the items, the principal decrease occurring in clearing-house exchanges.

The following table presents an abstract of the resources and liabilities of the national banks at the close of business on September 30, 1892, the condition of the banks in New York City, in the three central reserve cities, in other reserve cities, and of country banks shown separately:

|   | Central reserve cities. |                                   |                        | Country banks.       | Aggregate.           |
|---|-------------------------|-----------------------------------|------------------------|----------------------|----------------------|
|   | New York City.          | New York, Chicago, and St. Louis. | Other reserve cities.* |                      |                      |
|   | 48 banks.               | 80 banks.                         | 263 banks.             |                      |                      |

The capital, surplus, undivided profits, and deposits amounted to \$995,542,378 on January 1, 1866, and on September 30, 1892, were \$2,792,520,177. The loans and discounts have more than quadrupled, the number of active banks having increased from 1,582 to 3,773. The holdings of bonds have decreased from \$712,437,900, the maximum, to \$183,439,550, the latter amount representing an increase of \$8,532,000 over the preceding year, resulting from accessions of new banks.

The specie held by the banks reached the highest point September 30, 1892, and amounted to \$209,116,379.

The following statement shows by comparison the percentages of loans and discounts, United States bonds, and specie to the aggregate fund of the banks, composed of capital, surplus, undivided profits, circulation, and deposits.

The percentage of circulation to capital, surplus, and undivided profits has decreased from about 45 per cent in 1866 to 14 per cent in 1892.

EXTENSION OF THE CORPORATE EXISTENCE OF NATIONAL BANKS.

Under the provisions of the act of July 12, 1882, eighty-seven associations applied for and obtained an extension of their corporate existence during the past year. The following table shows the number and capital of all extended banks and their geographical location:

| States and Territories.    | No. of banks. | Capital.   | States and Territories. | No. of banks. | Capital.    |
|----------------------------|---------------|------------|-------------------------|---------------|-------------|
| Alabama .....              | 6             | \$885,000  | Montana .....           | 1             | \$500,000   |
| Arkansas .....             | 2             | 350,000    | Nebraska .....          | 8             | 1,400,000   |
| California .....           | 2             | 2,000,000  | New Hampshire .....     | 38            | 4,905,000   |
| Colorado .....             | 5             | 960,000    | New Jersey .....        | 53            | 10,783,350  |
| Connecticut .....          | 73            | 22,450,820 | New York .....          | 224           | 72,772,460  |
| Delaware .....             | 11            | 1,503,185  | North Carolina .....    | 4             | 850,000     |
| District of Columbia ..... | 5             | 1,277,000  | South Carolina .....    | 8             | 1,460,000   |
| Georgia .....              | 8             | 1,750,000  | Ohio .....              | 101           | 17,169,000  |
| Illinois .....             | 79            | 9,693,000  | Oregon .....            | 1             | 250,000     |
| Indiana .....              | 45            | 5,579,000  | Pennsylvania .....      | 174           | 45,954,390  |
| Iowa .....                 | 46            | 4,120,000  | Rhode Island .....      | 59            | 19,959,800  |
| Idaho .....                | 1             | 100,000    | Tennessee .....         | 11            | 2,260,000   |
| Kansas .....               | 9             | 825,000    | Texas .....             | 5             | 675,000     |
| Kentucky .....             | 22            | 6,411,500  | Utah .....              | 1             | 500,000     |
| Louisiana .....            | 5             | 2,300,000  | Vermont .....           | 31            | 5,856,000   |
| Maine .....                | 54            | 9,630,000  | Virginia .....          | 14            | 2,391,000   |
| Maryland .....             | 29            | 12,069,000 | West Virginia .....     | 13            | 4,491,000   |
| Massachusetts .....        | 204           | 87,262,500 | Wisconsin .....         | 21            | 1,985,000   |
| Michigan .....             | 28            | 2,390,000  |                         |               |             |
| Minnesota .....            | 17            | 5,265,000  | Total .....             | 1,434         | 370,303,005 |
| Missouri .....             | 16            | 3,775,000  |                         |               |             |

The following table shows how many associations will reach the expiration of their corporate existence during a period of ten years, from 1893 to 1902, inclusive, their capital and circulation:

| Year.     | Number of banks. | Capital.    | Circulation. | Year.      | Number of banks. | Capital.    | Circulation. |
|-----------|------------------|-------------|--------------|------------|------------------|-------------|--------------|
| 1893..... | 38               | \$4,701,000 | \$1,982,925  | 1899.....  | 34               | \$4,595,000 | \$2,106,450  |
| 1894..... | 57               | 6,768,000   | 2,585,470    | 1900.....  | 47               | 7,307,100   | 2,040,830    |
| 1895..... | 76               | 11,259,000  | 4,431,610    | 1901.....  | 104              | 13,603,150  | 3,485,000    |
| 1896..... | 22               | 2,123,800   | 975,400      | 1902.....  | 206              | 37,187,300  | 7,292,110    |
| 1897..... | 25               | 3,534,000   | 1,198,295    |            |                  |             |              |
| 1898..... | 24               | 2,479,000   | 1,153,350    | Total .... | 633              | 107,408,300 | 30,822,415   |

The number, capital, and circulation of the national banks of which the corporate existence expired between October 31, 1891, and October 31, 1892, are shown in the following table, and the number of extended banks is also stated. The corporate existence of eleven associations expired by limitation.

| Date.           | No. of banks expired. | Capital.   | Circulation. | No. of banks extended. | Capital.   | Circulation. |
|-----------------|-----------------------|------------|--------------|------------------------|------------|--------------|
| 1891.           |                       |            |              |                        |            |              |
| November .....  | 8                     | \$603,900  | \$240,070    | 6                      | \$500,000  | \$148,000    |
| December .....  | 6                     | 410,000    | 100,250      | 4                      | 260,000    | 67,500       |

#### CIRCULATING NOTES.

The actual circulation outstanding on September 30, 1892, for which the banks were responsible was \$147,191,593, this amount being exclusive of \$25,595,167 also in circulation but represented by lawful money deposited by the banks for redemption of notes whenever presented to the Treasurer of the United States.

The minimum deposit of bonds required of the 3,773 national banks in operation September 30, 1892, was \$107,064,207, upon which only \$96,357,787 of national-bank circulation could be issued. These banks held on September 30, \$163,275,300 of bonds, and were actually responsible for \$50,589,983 of circulation more than the minimum. It is not imperative upon banks to take circulation, and a few do not avail themselves of the privilege.

Of the 3,773 banks 2,737 have a capital not exceeding \$150,000 nor less than \$50,000, which is the lowest amount any bank in the system may have, the aggregate capital amounting to \$221,057,830. The remaining 1,036 have a capital of over \$150,000 each, the aggregate

amounting to \$465,515,185. If an amount of bonds equal to the total capital were deposited to secure circulation the whole body of banks might have a circulation amounting to \$617,915,714, or \$521,557,927 more than the present minimum. A table in the Appendix,\* page 148, shows by States and geographical divisions this information in detail.

In preceding reports a table was presented showing what advantage was taken by newly organized banks of the provisions of section 8 of the act of July 12, 1882, fixing a minimum requirement with respect to the amount of bonds to be deposited. The percentage of excess is now so small that a perpetuation of the table does not seem necessary. During the year ended June 30, 1892, 177 banks were organized and commenced business; 106 having a capital of \$50,000 each, aggregating \$5,300,000; 55 with a capital of over \$50,000 and not exceeding \$150,000, aggregating \$5,430,000; and 16 with an aggregate capital of \$5,150,000. Only 4 of the 161 banks with a capital of \$150,000 or under deposited bonds in excess of the requirement. The 16 banks with a capital of over \$150,000 each, deposited the exact amount of bonds required.

The following table shows by comparison for nine years the amounts of lawful money deposited and the consequent decrease or increase of circulation:

| DECREASE OR INCREASE OF NATIONAL-BANK CIRCULATION DURING EACH OF THE YEARS ENDED OCTOBER 31, FROM 1884 TO 1892, INCLUSIVE, AND THE AMOUNT OF LAWFUL MONEY ON DEPOSIT AT THE END OF EACH YEAR. |               |               |

| Net increase of circulation .....  |                 | 10, 487, 226         |

The gross increase of circulation, including the notes of gold banks and those of failed and liquidating associations, was \$247,588.

#### BANKS WITHOUT CIRCULATION.

A few national banks have never issued circulating notes. Some others have deposited lawful money and surrendered their circulation. A list of these banks with capital and bonds is as follows:

| Title of bank.                                   | Capital.    | Bonds.    |
|--|-------------|-----------|
| Chemical National Bank, New York, N. Y. ....     | \$300, 000  | \$50, 000 |
| Mechanics' National Bank, New York, N. Y. ....   | 2, 000, 000 | 50, 000   |
| Merchants' National Bank, New York, N. Y. ....   | 2, 000, 000 | 50, 000   |
| National City Bank, New York, N. Y. ....         | 1, 000, 000 | 50, 000   |
| National Park Bank, New York, N. Y. ....         | 2, 000, 000 | 50, 000   |
| National Bank of Washington, D. C. ....          | 200, 000    | 50, 000   |
| Chestertown National Bank, Chestertown, Md. .... | 60, 000     | 12, 500   |

SECURITY FOR CIRCULATING NOTES

The security for circulating notes of national banks is limited to United States registered bonds bearing interest, and the following table shows the amount of such bonds held by the Treasurer of the United States as security on June 30 of each year from 1865 to 1892, inclusive, and the amount owned and held by the banks for other purposes, including those deposited with the Treasurer to secure public deposits:

| Years.  | United States bonds held as security for circulation. |  |                                     |                   |               | United States bonds held for other purposes at nearest date. | Grand total.  |
|---------|---|--|-------------------------------------|-------------------|---------------|--|---------------|
|         | 6 per cent bonds.                                     | 5 per cent bonds.                                  | 4½ per cent bonds.                  | 4 per cent bonds. | Total.        |  |               |
| 1865 .. | \$170,382,500   | \$65,576,600                                       | -----                               | -----             | \$235,959,100 | \$155,785,750  | \$391,744,850 |
| 1866 .. | 241,083,500   | 86,226,850   | -----                               | -----             | 327,310,350   | 121,152,950  | 448,463,300   |

\* Three and one-half per cent.

A table will be found in the Appendix,\* page 130, showing on the first day of each month, from January 1, 1871, to November 1, 1892, the amount of authorized capital stock of the national banks, the amount of bonds on deposit to secure circulation, the amount of circulation secured by the bonds, the amount of lawful money deposited to redeem outstanding circulation, and the total amount outstanding, including notes of gold banks.

\* See second footnote, page 314.

INTEREST-BEARING FUNDED DEBT OF THE UNITED STATES.

The public debt reached the maximum August 31, 1865, and amounted to \$2,844,649,626. The noninterest-bearing obligations amounted to \$461,616,311, the interest-bearing debt being \$2,383,033,315. On October 31, 1892, the interest-bearing debt amounted to \$649,655,532.

The classes of bonds available as security for the circulating notes of national banks are shown in the following table, dates of authorizing acts, maturity of bonds, and rates of interest also being given:

BONDED DEBT AT DATES NAMED.

| Date.         | 6 per cent.                                | 5 per cent.  | 4½ per cent.*                             | 4 per cent.† | 6 per cent.‡ | Total.          |

\* Funded loan 1891; authorizing act July 14, 1870, and January 20, 1871; date of maturity, 1891.

† Funded loan 1907; authorizing act July 14, 1870, and January 20, 1871; date of maturity, 1907.

‡ Pacific railroad bonds; authorizing act July 1, 1862, and July 2, 1864; date of maturity, 1895 to 1899. The Navy pension fund, amounting to \$14,000,000 in 3 per cents, the interest upon which is applied to the payment of naval pensions exclusively, and \$78,320 of refunding certificates are not included in the table.

## MARKET PRICES OF UNITED STATES BONDS.

The following statement prepared by the Actuary of the Treasury exhibits the market prices of United States bonds during the year covered by this report. The 2 per cents have steadily remained at par, with slight fractional increase during the month of October. The fluctuations in 4 per cents were not marked, the price with few exceptions having gradually declined about 2 per cent.

OPENING, HIGHEST, AND LOWEST PRICES OF UNITED STATES REGISTERED 2 PER CENT AND 4 PER CENT BONDS, IN NEW YORK, FOR EACH WEEK FROM NOVEMBER 6, 1891, TO OCTOBER 28, 1892.

INVESTMENT VALUE OF UNITED STATES BONDS.

The investment value of United States bonds increases as the relative market price declines, and the following statement, also prepared by the actuary of the Treasury, exhibits the fluctuations in price and investment value of the 4 per cents from 1885 to 1892 inclusive. A comparison will show the exact increase or decrease in investment value for each quarterly period. The Government was not a purchaser of bonds during the year, but of \$4,601,500 of 4½ per cents, which were outstanding on November 1, 1891, and on which interest had ceased at date of maturity, all but \$983,800 were presented for redemption. All of this class of bonds which were held by the national banks as security for their circulation have been withdrawn. The total withdrawals from the three classes of bonds available as security for circulation during the year were \$4,387,600. Of this amount \$807,950 was deposited in substitution. Table on page 52 shows the net increase of bonds deposited during the year.

| Date.         | 4½ per cent bonds.        |   | 4 per cent bonds.   |   |

## ISSUES AND REDEMPTIONS.

The following table gives the number and amount of national bank notes of each denomination which have been issued and redeemed since the organization of the system, and the amount outstanding October 31:

| Denominations.  | Number of notes— |             |              | Amounts—      |                  |                |
|---|------------------|-------------|--------------|---------------|------------------|----------------|
|   | Issued.          | Redeemed.   | Outstanding. | Issued.       | Redeemed.        | Outstanding.   |
| Ones.....   | 23,169,677       | 22,806,348  | 363,329      | \$23,169,677  | \$22,806,348.00  | \$363,329.00   |
| Twos.....   | 7,747,519        | 7,658,053   | 89,466       | 15,495,038    | 15,316,106.00    | 178,932.00     |
| Fives.....  | 115,438,060      | 105,443,674 | 9,994,386    | 577,190,300   | 527,213,370.00   | 49,976,930.00  |
| Tens.....   | 49,153,060       | 43,717,670  | 5,435,390    | 491,530,600   | 437,176,700.00   | 54,353,900.00  |
| Twenties.....   | 15,419,471       | 13,372,587  | 2,046,884    | 308,389,420   | 287,451,740.00   | 40,937,680.00  |
| Fifties.....  | 2,041,711        | 1,858,334   | 183,377      | 102,085,550   | 92,918,700.00    | 9,166,850.00   |
| One hundreds.....   | 1,563,151        | 1,394,393   | 168,753      | 156,315,100   | 139,439,800.00   | 16,875,300.00  |
| Five hundreds.....  | 23,894           | 23,588      | 306          | 11,947,000    | 11,794,000.00    | 153,000.00     |
| One thousands.....  | 7,379            | 7,345       | 34           | 7,379,000     | 7,345,000.00     | 34,000.00      |
| Total.....  | 214,563,922      | 196,281,997 | 18,281,925   | 1,693,501,685 | 1,521,464,764.00 | 172,036,921.00 |
| Unpresented fractions of notes to be deducted from notes redeemed and added to amount on notes outstanding..... |                  |             |              |               | 27,010.25        | 27,010.25      |
| Total.....  |                  |             |              |               | 1,521,437,753.75 | 172,063,931.25 |

The apparent discrepancy in the amount of circulating notes outstanding October 31, which will appear when the several statements in this report are compared, is explained as follows:

In the table on this page notes of national gold banks amounting to \$104,952 are not included, and the table on page 51 includes \$263,266 representing notes of other banks redeemed and destroyed, to be reissued.

The total issues of incomplete currency during the year are shown by the vault account, as follows:

|   |              |
|---|--------------|
| National-bank currency in vault October 31, 1891.....   | \$43,035,720 |
| Amount received from the Bureau of Engraving and Printing during the year ended October 31, 1892..... | 53,854,670   |
| Total.....  | 96,890,390   |
| Amount issued to banks during the year.....   | \$49,951,350 |
| Amount withdrawn from vault for cancellation.....   | 1,645,640    |
|   | 51,596,990   |
| Balance in vault October 31, 1892.....  | 45,293,400   |

The following table shows the amount of new currency issued to replace notes redeemed and destroyed under the provisions of the act of June 20, 1874, the amount issued to replace notes redeemed by lawful money deposited under the act of July 12, 1882, and the amount issued to both old and new banks upon bonds deposited for the purpose of obtaining additional circulation. The table also shows the amount of circulation redeemed under the act of June 20, 1874, establishing the National-bank Redemption Agency of the Treasury at Washington:

TABLE SHOWING BY STATES THE AMOUNT OF "ADDITIONAL CIRCULATION" ISSUED AND RETIRED DURING THE YEAR ENDED OCTOBER 31, 1892, AND TOTAL AMOUNT ISSUED AND RETIRED SINCE JUNE 20, 1874.

| States and Territories.                 | Circulation issued.         |             | Total issued. | Circulation retired.        |                                  | Total retired. |
|---|-----------------------------|-------------|---------------|-----------------------------|----------------------------------|----------------|

| From June 20, 1874, to October 31, 1891 |                             |             | 258,942,523   | 236,871,426                 | 133,809,591                      | 420,681,017    |
| Surrendered and retired same dates      |                             |             |               |                             |                                  | 16,257,568     |
| Grand total October 31, 1892            |                             |             | 272,665,387   | 294,273,046                 | 139,815,052                      | 450,431,976    |

Notes of gold banks are not included in the above table.

Of the total circulation issued as shown by the foregoing table, \$2,867,620 were issued to banks organized during the year or just prior to November 1, 1891, and \$10,856,244 to other banks which deposited bonds for the purpose of increasing their circulation. The provisions of law relating to the redemption of national-bank circulation remain as heretofore, a redemption fund of 5 per cent on the total circulation being maintained with the Treasurer of the United States, and a pro rata annual assessment paid as the cost of redemption, amounting to \$1.464 on each \$1,000 during the year ended June 30, 1892.

During the past year the receipts of the National-bank Redemption Agency amounted to \$70,434,334, of which amount \$31,218,977, or 44 per cent, was received from New York City. The amount received from Boston was \$8,475,354; from Philadelphia, \$5,053,891; from Chicago, \$5,052,376; from Cincinnati, \$2,138,337; from Baltimore, \$2,100,453; from St. Louis, \$1,224,285; from New Orleans, \$936,217; from Providence, \$924,501; and from Pittsburg, \$495,629.

Of the total amount received during the year, notes representing \$18,583,320 were fit for circulation and returned to the banks originally issuing them.

The following table exhibits the amount of national-bank notes received monthly for redemption by the Comptroller of the Currency during the year ended October 31, 1892, and the amount received during the same period at the redemption agency of the Treasury, together with the total amount received since the passage of the act of June 20, 1874:

| Months.  | Received by the Comptroller of the Currency.   |                                 |  |   |               | Received at the United States Treasury redemption agency. |
|--|--|---------------------------------|--|---|---------------|---|
|  | For national banks in connection with reduction of circulation and replacement with new notes. | From the redemption agency.     |  |   | Total.        |   |
|  |  | For replacement with new notes. | For reduction of circulation under act of June 20, 1874. | Insolvent and liquidating national banks. |               |   |

REDEMPTION OF NOTES OF BANKS REDUCING CIRCULATION, OF THOSE IN VOLUNTARY LIQUIDATION, AND OF FAILED BANKS, UNDER THE ACT OF JUNE 20, 1874, AND OF BANKS THE CORPORATE EXISTENCE OF WHICH HAS BEEN EXTENDED UNDER THE ACT OF JULY 12, 1882.

No change has occurred in the provisions of law with respect to a reduction of the outstanding circulation of an association upon the deposit of lawful money with the Treasurer of the United States in a sum not less than \$9,000, nor in the provisions of the act of July 12, 1882, requiring a deposit of lawful money for the retirement of the old circulation of such banks within a period of three years. Under these provisions of law \$458,024,277 of lawful money has been deposited with the Treasurer on account of liquidating and insolvent banks, including \$2,663,720 deposited for the redemption of notes of national gold banks and \$97,714,449 for the redemption of national-bank notes under the act of July 12, 1882. During the year ended October 31, 1892, \$1,063,300 in lawful money was deposited by banks reducing circulation, \$1,341,880 by banks in voluntary liquidation, \$12,328 by extended banks retiring old circulation, and \$761,820 on account of insolvent banks, making a total of \$3,179,328.

The total amount deposited prior to and under the acts of June 20, 1874, and July 12, 1882, is \$472,269,087, and of this \$73,792,900 was deposited by banks in liquidation. Deducting the amount of circulating notes redeemed and destroyed without reissue, which was \$447,078,004, from the total deposit, there remained in the hands of the Treasurer, on October 31, 1892, \$25,191,083 in lawful money for the redemption and retirement of national-bank circulation, including \$104,952 for the redemption of outstanding circulating notes of national gold banks.

Prior to June 20, 1874, \$10,431,135 of national-bank notes were redeemed and destroyed without reissue, and \$436,646,869 have been so retired since that date. In the latter amount are included \$2,558,768 of the notes of national gold banks and \$82,081,203 of notes of associations which extended their corporate existence.

Under the act approved February 14, 1880, authorizing the conversion of gold banks and extending to them all the privileges applicable

to any national-banking association, the national gold banks either availed themselves of the opportunity thus afforded to convert or passed out of existence. As stated elsewhere, there still remains on deposit with the Treasurer of the United States in lawful money \$104,952 for the redemption of notes issued by national gold banks which are still outstanding.

#### TAX UPON CIRCULATION, REDEMPTION CHARGES, AND ASSESSMENTS.

No change has occurred in the provisions of law requiring national banks to pay a semi-annual duty of one-half of 1 per cent upon the average amount of their notes in circulation, and expenses incident to the redemption of such notes annually determined by the Treasurer of the United States, and a pro rata assessment levied upon the banks, based upon the exact status of each with respect to the amount redeemed. The banks pay the fees allowed to national-bank examiners, as ascertained under the law, by means of drafts forwarded to the Comptroller, who in turn remits the proceeds to the examiners as their reports are received and accounts rendered. The amounts collected from the banks during the fiscal year from these sources and for the expense connected with the preparation of plates for circulation were as follows:

|  |                     |
|--|---------------------|
| Semi-annual duty on circulation .....                              | \$1,331,287.26      |
| Cost of redemption of notes by the United States Treasurer .....   | 100,593.70          |
| Assessment for cost of plates, new banks .....                     | 15,700.00           |
| Assessment for cost of plates, extended banks .....                | 8,100.00            |
| Assessment for examiners' fees (sec. 5240, Revised Statutes) ..... | 161,983.68          |
| <b>Total .....</b>   | <b>1,617,664.64</b> |

The following table is a comparative statement of taxes assessed as semi-annual duty on circulation, cost of redemption of notes, cost of plates, and examiners' fees for the past ten years:

| Years.            | Semi-annual duty on circulation. | Cost of redemption of notes by the United States Treasurer. | Assessment for cost of plates, new banks. | Assessment for cost of plates, extended banks. | Assessment for examiners' fees (sec. 5240, R. S.). | Total.               |
|-------------------|----------------------------------|---|---|--|--|----------------------|

Prior to the act of March 3, 1883, the banks were required to pay a tax on capital and deposits in addition to that on circulation. The total tax collected on capital amounted to \$7,885,887.74; on deposits, \$60,940,067.16; and up to July 1, 1892, \$72,670,412.30 on circulation, making a total of \$141,466,367.20.

#### LOANS.

The following table gives a classification of the loans of the national banks in each of the central reserve cities of New York, Chicago, and St. Louis, in other reserve cities classified in groups, and in the rest of the country at nearly the same dates in each of the last five years:

OCTOBER 4, 1888.

|                            | No. of banks. | On United States bonds on demand. | On other stocks, bonds, etc., on demand. | On single name paper without other security. | All other loans. | Total.        |
|----------------------------|---------------|-----------------------------------|--|--|------------------|---------------|
| New York.....              | 46            | \$2,132,159                       | \$108,466,001                            | \$28,626,295                                 | \$153,271,026    | \$292,495,481 |

In the preceding tables the specie held represents the aggregate of gold and silver coin, Treasurer's certificates, and clearing-house gold certificates. A table will be found in the Appendix,\* page 153, showing the amount of each kind of coin and certificates held by the banks in each State and reserve city in October, 1888, September, 1889, October, 1890, September, 1891, and September, 1892.

## FAILED BANKS.

Seventeen national banks, with an aggregate capital of \$2,450,000, were placed in the hands of receivers during the year, as shown by the following statement. In one case creditors have received dividends amounting to principal and interest in full; in another case principal in full; in another, 85 per cent; in another, 70 per cent; in two cases, 50 per cent; in five cases, 30 per cent; in two cases, 25 per cent, and in one case 20 per cent.

\* See second footnote, page 314.

STATEMENT OF FAILED BANKS, THEIR SURPLUS AND LIABILITIES, ACCORDING TO LAST REPORT OF CONDITION.

| Name and location of bank.                         | Date of authority to commence business. | Date of failure. | Receiver appointed | As shown at date of last report of condition. |                                |                     |                                   |
|--|---|------------------|--------------------|---|--------------------------------|---------------------|-----------------------------------|

\*Total, as per report, except capital, surplus, circulation, undivided profits, and unpaid dividends.

CAUSES OF FAILURE.

The doors of the Maverick National Bank of Boston, Mass., were closed on the last day of the report year (October 31, 1891, too late to be included in the annual report) by the national bank examiner, acting under instructions from the Comptroller of the Currency. For some months the condition of the bank had been a source of anxiety to the Comptroller on account of excessive loans to certain of its directors. The aggravated character of these loans, however, was not revealed to the Comptroller, either through the reports of the examiner or the attested reports of condition. The bank had a large volume of business and did a large collection business throughout the country. Speculative banking and excessive loans to directors for speculative purposes were the causes of failure. Conservatively managed, its volume of business and good will would have possessed very great value. Its assets were easily convertible. The receiver has paid to creditors 85 per cent, and expresses the opinion that an additional dividend will

be paid, not exceeding 5 per cent, dependent upon the result of pending litigation and the amount realized from the assessment upon shareholders. An assessment of 100 per cent has been levied by the Comptroller upon the shareholders of the bank, the amount of collection appearing in the table on page 224 of the Appendix.\*

The doors of the Corry National Bank of Corry, Pa., were closed to business November 7, 1891. The entire management of the bank had been practically confided to the president and cashier, whom it appears were highly respected and enjoyed the full confidence of the community until their disastrous administration of affairs of the bank became known. A good many loans were made in excess of the 10 per cent limitation. False debits were made to other banks, and a corresponding credit given to certain individuals for the purpose of making a showing which would justify the payment of dividends to shareholders. Large rates of interest were paid on certificates of deposit, and the expenses of the bank were extravagant. A large amount of paper of bad character had been kept alive by renewals, interest in many cases being included in the renewals. The discoveries of the examiner, indicating criminal violations of law, were promptly reported to the United States attorney.

An assessment of 100 per cent has been levied by the Comptroller upon the shareholders of the bank, the amount of collection appearing in table on page 224 of the Appendix.\*

Dividends amounting to 50 per cent have been paid to creditors.

The doors of the California National Bank of San Diego, Cal., were not opened after close of business November 11, 1891. The failure was regarded as a great calamity by the local community, and considerable effort was made, in which many creditors joined, to accomplish a resumption of business. Under the peculiar circumstances and in view of repeated assertions in communications to the Comptroller from interested parties that a sufficient cash fund would be made immediately available to restore the impaired capital, as much time was given before the appointment of a receiver as seemed to be consistent with the Comptroller's discretion under the law. When it became known, upon thorough examination, that the entire capital and surplus of the bank had been lost and all efforts to resume had proved futile, the president of the bank, who had personally exerted himself in the interests of resumption of business, committed suicide. The funds of the bank were used to promote local enterprises of a public character involving large sums of money, and during a period characterized by a marked increase in prices and unusual activity in business. Succinctly stated, the president of the bank, in conjunction with one or more directors, at the date of its organization inaugurated schemes or deals in the interest of themselves and the local community which involved large sums of money. The necessary loans were for a time obtained from the Eastern States, but as these matured and demand for payment was made recourse was had to this bank. The local boom collapsed before any of these enterprises became paying investments. At length, the extreme danger to the bank became apparent to the management, and it appears that the president alone was forced to assume the attendant responsibility, and finally being unable to contend with the reduction in deposits and shrinkage in values suspension became inevitable.

An assessment of 100 per cent has been levied by the Comptroller upon the shareholders of the bank, the amount of collection appearing in table on page 224 of the Appendix.\*

Dividends amounting to 30 per cent have been paid to creditors.

\* See second footnote, page 314.

The Cheyenne National Bank of Cheyenne, Wyo., closed its doors to business November 13, 1891, a run having been caused by the suspension of the California National Bank of San Diego, Cal. A few days later the cashier committed suicide. The president of the California National Bank of San Diego was likewise the president of the Cheyenne National Bank, and the character of management in both cases was almost identical. The personal presence of the president, his correct manner of life, and his energetic attention to business are said to have given him the entire confidence of the community and enabled him to consummate questionable transactions without suspicion. From the first, the funds of the bank were diverted to his use. One common method was to purchase stocks of little or no value, sell them to irresponsible persons, taking notes in payment, which notes he caused to be discounted by this bank. He borrowed money in the Eastern States with which to purchase a controlling interest in the stock of the bank, using this stock as collateral. When demand was made, he would pay the loans with funds belonging to the bank realized upon accommodation paper obtained from his immediate friends. The cashier became a large and irresponsible debtor, and together these officers misappropriated an amount equal to the entire capital of the bank. Many bad loans were made, business was unduly extended, and the management was reckless and extravagant.

Dividends amounting to 25 per cent have been paid to creditors.

The doors of the First National Bank of Wilmington, N. C., were closed by order of the board of directors November 24, 1891. The reason given to the public was that the capital had been impaired by heavy losses incurred in previous years, from which the bank could not recover. No dividends had been paid since 1887. After a thorough investigation, the receiver reported that the failure was due to bad loans extending over a number of years, and to speculation and robbery by the cashier, a fugitive from justice. The directors took no interest in the management, and the cashier had been given complete control. A large part of the assets consisted of worthless bills receivable, which had been carried for a long time by renewal. Excessive loans had also been made. False entries were made upon the books to conceal the actual liability from the examiner, and it was found that the cashier had so manipulated the accounts as to successfully postpone the collapse for a considerable length of time. It now appears that the directors were aware to a certain extent of the condition of the bank, but relied upon the hope that it would under most favorable circumstances recover. The class of assets relied upon as good at date of failure amounted to only about 25 per cent of the whole, and the receiver up to date has been unable to collect more than 15 per cent of the total assets.

An assessment of 100 per cent has been levied by the Comptroller upon the shareholders of the bank, the amount of collection appearing in table on page 224 of the Appendix.\*

Dividends amounting to 30 per cent have been paid to the creditors.

The doors of the Huron National Bank of Huron, S. Dak., were closed to business by the national-bank examiner December 18, 1891.

The examiner found that for some time prior to that date the bank had been in a crippled condition, but thought, with careful and economical management, the affairs could be placed upon a safe footing. The shareholders finally voted to go into voluntary liquidation, but upon the disclosure that a large indebtedness due from the officers and

their friends was not collectible, the Comptroller was compelled under the law to appoint a receiver. It appears that the local community lost confidence in the bank from the fact that the management was supposed to be pecuniarily interested in a very spirited controversy and rivalry that existed between several cities over the location of the capital of the State, and this with other causes tended to make the business of the bank unprofitable. The farming interests in the surrounding country were largely indebted to the bank, and the continued crop failures made the loans almost worthless. It did not appear that there had been criminal violations of law, but it did appear that the suspension was due to bad loans and unremunerative business, which had been unduly extended.

The doors of the First National Bank of Muncy, Pa., were closed to business January 11, 1892, by a national-bank examiner who had for sometime been in attendance for the purpose of ascertaining the exact condition as to solvency. Criminal violations of law were apparent, and prompt communication was had with the United States attorney. There appeared to be a large shortage in cash as represented by the books of the bank. On the day upon which the examiner closed its doors, the want of public confidence was manifested by a slight run. The causes of failure may be stated as reckless management, incorrect bookkeeping, declaration of dividends that had not been earned, failure to charge off bad debts, and a persistent practice of allowing overdrafts in large amounts.

Had the management of the bank been good and efficient, the appointment of a receiver would have been unnecessary and the bank might have been put in a sound condition by levying an assessment to make good the impairment of capital.

No assessment was levied upon the shareholders as the assets of the bank were sufficient to pay creditors in full. The remaining assets have been turned over to an agent selected by the shareholders and the trust closed, principal and interest having been paid in full on all proved claims.

The doors of the First National Bank of Downs, Kans., were closed January 23, 1892, by the national-bank examiner, upon discovering that the bank was insolvent. Bad management, frequent irregularities, and indications of collusion to violate the law were apparent, and the information was promptly reported to the United States attorney for that district. On or about the date of organization the assets of another bank were purchased, a considerable portion of which proved to be worthless; accommodation notes were taken to cover up large loans to certain individuals, the paper representing the actual loans being held as collateral. The management was extravagant and the cashier was reckless, his personal reputation being such as not to inspire confidence. Before the doors were closed an effort was made by some of the shareholders to change the management and restore the capital by voluntary assessment, but a large part of the stock being held by nonresidents the attempt was unsuccessful and suspension became inevitable.

A dividend of 25 per cent has been declared to creditors.

The Bell County National Bank of Temple, Tex., was closed by the national-bank examiner January 30, 1892. The causes necessitating this action were numerous; bad and excessive loans, violations of correct business principles, and the indifference of the directors, permitting the president and cashier to dominate the board, made it comparatively easy to wreck the bank. These officers permitted no interference, and would not allow a duly appointed finance committee to

perform its duty. Many of the shareholders were nonresidents and gave their proxies to the president and cashier, who were thus able to elect such directors as they chose. By means of this power the board was reduced in number in order to dispose of a few directors who insisted upon a knowledge of the condition of the bank or were desirous of performing their whole duty. The personal extravagance indulged in by the officers resulted in the discounting of worthless paper prepared for the purpose, the borrowing of money from other banks at high rates of interest, the general welfare of the bank being wholly disregarded. Soon after the receiver took charge, these officers were arrested for violations of law and bound over for trial. The most culpable management was apparent, false entries in the books had been made to conceal misappropriations, and forgery had been resorted to.

Dividends amounting to 30 per cent have been paid to creditors.

The doors of the First National Bank of Silver City and the First National Bank of Deming, N. Mex., were closed to business on February 4, 1892. The same person was president of both banks and represented the entire management, the boards of directors practically exercising no control. For several years he had borrowed the funds of the banks on notes of his own and worthless accommodation paper made by relatives, friends, and clerks, until more than the combined capital of the banks had been obtained for investment in speculative enterprises, such as wild lands, cattle ranches, prospective railroad construction, etc. Fraudulent entries were made on the books and dividends not earned regularly paid to the shareholders, who being mostly nonresidents took no other interest in the management. Charges of embezzlement and misappropriation of funds were promptly placed in the hands of the United States attorney.

An assessment of 82 per cent has been levied upon the shareholders of the First National Bank of Deming. Dividends amounting to 25 per cent have been paid to creditors of that bank, and 20 per cent to the creditors of the First National Bank of Silver City.

The doors of the Lima National Bank of Lima, Ohio, were closed to business March 1, 1892. From the date of its organization the management of the bank continuously provoked criticism by the Comptroller of the Currency for apparent violations of the restrictive provisions of the law. The president, possessing considerable wealth and business sagacity, was the principal promoter of a number of local and foreign enterprises, and diverted the funds of the bank to his individual uses. At times he would crowd paper, based on these outside schemes, into the bank to the almost entire exclusion of other and legitimate loans. Accommodation notes of clerks and other employés were resorted to, until the president's methods became a matter of public notoriety. The depositors necessarily lost confidence, and deposits were withdrawn to such an extent as to force the bank to rediscount all its good paper. When this crisis was reached an attempt was made to place the bank in voluntary liquidation, but failed because it was impossible at the time to realize from the assets the necessary funds for the prompt payment of creditors. A sharp run, which exhausted nearly all the cash on hand, precipitated its closing.

Dividends amounting to 50 per cent have been paid to creditors.

The doors of the Cherryvale National Bank of Cherryvale, Kans., were closed June 10, 1892, by a national-bank examiner acting under instructions from the Comptroller of the Currency. For some time the management of the bank had subjected it to criticism, and upon an examination made in December, 1891, its condition was unsatisfactory and the capital was found to have become impaired. An assessment was

ordered by the Comptroller, the management taking exception, insisting that there was no impairment and requesting a reexamination. The request was granted, but the result still showing an impaired capital, the Comptroller insisted upon the payment of the assessment, and shortly after the cashier made oath that it had been fully paid. A subsequent examination disclosed the fact that the assessment had not, in fact, been paid, whereupon the examiner was instructed to take charge. The condition of the bank was mainly due to the reckless management of the president, who for his own use discounted worthless accommodation notes. A strenuous effort was made to prevent a receivership by inducing creditors to accept obligations other than cash for their claims. Inasmuch as the assets of the bank were not sufficient to even permit of voluntary liquidation, no proposition other than immediate payment of creditors in full could be entertained. The president and cashier were afterwards arrested for embezzlement, perjury, and false entries in the books, and bound over for trial.

The doors of the First National Bank of Rockwall, Tex., were closed by the national-bank examiner June 11, 1892. A former president of the bank, who was the original promoter, was engaged in wild speculations during his incumbency, and through loans to men of straw, for his own use, absorbed the capital and earnings of the bank. Having accomplished this result, he sought other fields of operation, leaving the bank in such a crippled condition that a new management found it impossible to place it on a solvent footing. The amount of deposits had become insignificant, being at date of closing only \$6,000, so that current business could not support the bank.

The doors of the National Bank of Guthrie, Territory of Oklahoma, were closed by its officers June 13, 1892. Certain information having come to the knowledge of the Comptroller, a national-bank examiner had been directed to make an examination. He arrived on the day the bank suspended business, and found that a receiver had been appointed by a Territorial court. It was claimed that creditors had been paid in full, and therefore the Comptroller had no jurisdiction. It appeared that a receiver had been appointed by the court upon a petition presented in the supposed interest of some of the shareholders who were friendly to the management. The Comptroller appointed a receiver, and a demand for possession of the records and assets of the bank was made and refused. The court maintained that it had jurisdiction in the matter, and up to this time the Comptroller has been unable to place a receiver in charge.

The doors of the First National Bank of Erie, Kans., were closed to business June 25, 1892. The failure was due to the payment of exorbitant rates of interest on deposits, and the injudicious manner in which funds of the bank were loaned to officers and directors, who were large borrowers at a lower rate of interest than the bank itself paid for rediscounts. The immediate cause of failure was the large loss on these loans which had been made without proper security. It was developed that the stock held by the officers had been purchased with borrowed money, the stock being pledged as collateral, and that their financial resources had always been very limited.

On July 5, 1892, the president of the Vincennes National Bank of Vincennes, Ind., committed suicide. The bank had become insolvent. A national-bank examiner was immediately directed to take charge of affairs and closed the bank on the morning of July 7. For some years prior to insolvency a former president and large shareholder of the bank was connected with firms engaged in grain speculations, and it appears that his successor, the late president, was connected with him

in similar speculation. Correspondence was found which connected the president with heavy losses, and it would appear that the cause of failure was his connection with board of trade speculations. Various means were resorted to in using bank funds and considerable ingenuity was exercised in covering up shortages. Successful attempts were made to deceive the national-bank examiner, and it is stated to the Comptroller that there was a systematic misappropriation of funds, which was acquiesced in, or known, to some extent by other officers and employés of the bank. In addition to this, large loans were made without proper security and in violation of law. The bank at one time purchased a large block of its own stock, paying a high premium therefor. An administrator was promptly appointed for the estate of the late president, who immediately offered restitution to the fullest possible extent, it being his desire to make as full a settlement as practicable, without reserve and without litigation.

A dividend amounting to 30 per cent has been paid to creditors.

The affairs of eight national banks have been closed during the past year and final dividends have been paid to their creditors.

Out of 4,811 national banks organized since February, 1863, 181, or about 3.76 per cent, have been placed in the hands of receivers. This includes 9 which had previously been placed in liquidation by the shareholders, but upon their failing to pay depositors the Comptroller appointed receivers to wind up their affairs. Of the 181 failed banks 38 have paid creditors in full, principal and interest; 6 have paid principal and a part of the interest, and 13 have paid the principal only. The affairs of 110 of the 181 banks have been finally closed, leaving 70 in process of settlement, of which 16 are virtually closed, with the exception of pending litigation, leaving 54 receiverships in active operation. In one case the receiver was withdrawn and the bank permitted to resume business.

The total amount so far paid to creditors of insolvent national banks has been \$48,052,938 upon proved claims, amounting to \$70,830,366. The amount paid during the year has been \$8,103,498, besides \$1,320,317 paid for dividends declared prior to November 1, 1892, on claims proved since that date. Assessments amounting to \$17,925,850 have been made upon shareholders of insolvent national banks under section 5151 of the Revised Statutes of the United States. From this source the gross collections amount to \$7,623,760, of which there has been received during the past year \$1,002,351. Suits are pending in some cases.

In the Appendix,\* p. 214, a table will be found showing, under various heads, amounts collected from the assets of each of the 181 insolvent national banks, the amounts disbursed, and the purpose. All moneys and assets are accounted for, and the figures supply all information necessary to the ascertainment of percentages and loss.

\* See second footnote, page 314.

DIVIDENDS, SEVENTY-TWO IN NUMBER, PAID TO THE CREDITORS OF INSOLVENT NATIONAL BANKS DURING THE PAST YEAR, WITH THE TOTAL DIVIDENDS IN EACH CASE UP TO NOVEMBER 1, 1892.

**INACTIVE RECEIVERSHIPS.**

Sixteen banks remain in the hands of receivers, the affairs of which are practically wound up, and the trusts are kept on the inactive list because of pending litigation or of the possession of assets, an immediate disposition of which would entail unnecessary sacrifice. The expenses of a trust in this condition are nominal and limited to what is actually necessary to proper and careful attention to the matters in abeyance. Titles to property pass through a receiver and the courts, but final dividends are sometimes paid from the office of the Comptroller, especially in the event of a considerable lapse of time after a receiver has realized upon all available assets.

By comparison with the report of 1891 it will be observed that only two of the banks then reported on the inactive list have been stricken out. In two other cases the receiverships will be terminated within thirty days. It is expected that the unsettled affairs of other banks in the list will

be disposed of within the next year and the receiverships formally terminated.

The following is a list of receiverships in an inactive condition:

| Name and location of bank.                                 | Date of appointment of receiver. | Dividends paid.  |
|--|----------------------------------|------------------|
|  |                                  | <i>Per cent.</i> |
| First National Bank, Albion, N. Y. ....                    | Aug. 26, 1884                    | 28.50            |
| First National Bank, Anderson, Ind. ....                   | Nov. 23, 1873                    | 39.50            |
| Third National Bank, Chicago, Ill. ....                    | Nov. 24, 1877                    | *100             |
| First National Bank of Union Mills, Union City, Pa. ....   | Mar. 24, 1883                    | 70               |

| Gloucester City National Bank, Gloucester City, N. J. .... | June 10, 1890                    | 40               |

\* And interest.

The total number of national banks organized since February 25, 1863, is 4,811, of which 3,788 are now in operation, 1,023 having passed out of the system, accounted for as follows:

|  |       |
|--|-------|
| Passed into voluntary liquidation to wind up their affairs.....        | 671   |
| Less number afterward placed in the hands of receivers.....            | 9     |
|  | 662   |
| Passed into liquidation for purpose of reorganization .....            | 80    |
| Passed into liquidation upon expiration of corporate existence * ..... | 102   |
| Placed in hands of receivers.....                                      | 181   |
|  | 1,025 |
| Less number restored to solvency and resumed business.....             | 2     |
| Total passed out of system .....                                       | 1,053 |

#### LEGISLATION.

During the past year provision was made by Congress, in an act approved May 12, that any national bank located in the city of Chicago and State of Illinois might be designated by the World's Columbian Exposition to conduct a banking office upon the Exposition grounds, such designation to be approved by the Comptroller of the Currency, and the branch bank to be subject to the same restrictions and to have the same rights as the bank to which it belongs. The Chemical National Bank of Chicago was designated October 18, 1892. The text of the act is as follows:

That any national bank located in the city of Chicago and State of Illinois may be designated by the World's Columbian Exposition to conduct a banking office upon the Exposition grounds, and upon such designation being approved by the Comptroller of the Currency, said bank is hereby authorized to open and conduct such office as a branch of the bank, subject to the same restrictions and having the same rights as the bank to which it belongs: *Provided*, That the branch office authorized hereby shall not be operated for a longer period than two years, beginning not earlier than July first, eighteen hundred and ninety-two, and closing not later than July first, eighteen hundred and ninety-four.

\* Sixty of these have been reorganized.

Under the act approved July 28, provision was made for the redemption of certain national-bank notes which had been issued to, or received by, any national bank, but were either lost or stolen from the bank and put in circulation without signature by the officers or upon forged signatures. The text of the act is as follows:

That the provisions of the Revised Statutes of the United States, providing for the redemption of national-bank notes, shall apply to all national-bank notes that have been or may be issued to, or received by, any national bank, notwithstanding such notes may have been lost by or stolen from the bank and put in circulation without the signature or upon the forged signature of the president or vice-president and cashier.

In the Comptroller's report for 1890 comments were made upon the provisions of section 3 of the act approved June 30, 1876, affecting the rights of shareholders of an insolvent national bank after creditors had been paid in full, principal and interest, under a receivership. In a few cases shareholders had declined to elect an agent, and there seemed to be no means for distributing cash on deposit with the Treasurer of the United States for the benefit of the trust among shareholders by the payment of dividends. There were other difficulties in the application of the law with respect to title to real property passing through an agent, legal questions arising which provoked litigation. The amendment, which is in fact in full substitution of the entire section referred to, is as follows:

That section three of an act entitled "An act authorizing the appointment of receivers of national banks, and for other purposes, approved June thirtieth, eighteen hundred and seventy-six," is hereby amended so as to read as follows:

"SEC. 3. That whenever any association shall have been or shall be placed in the hands of a receiver, as provided in section fifty-two hundred and thirty-four and other sections of the Revised Statutes of the United States, and when, as provided in section fifty-two hundred and thirty-six thereof, the Comptroller of the Currency shall have paid to each and every creditor of such association, not including shareholders, who are creditors of such association, whose claim or claims as such creditor shall have been proved or allowed as therein prescribed, the full amount of such claims, and all expenses of the receivership and the redemption of the circulating notes of such association shall have been provided for by depositing lawful money of the United States with the Treasurer of the United States, the Comptroller of the Currency shall call a meeting of the shareholders of such association by giving notice thereof for thirty days in a newspaper published in the town, city, or county where the business of such association was carried on, or if no newspaper is there published, in the newspaper published nearest thereto. At such meeting the shareholders shall determine whether the receiver shall be continued and shall wind up the affairs of such association, or whether an agent shall be elected for that purpose, and in so determining the said shareholders shall vote by ballot in person or by proxy, each share of stock entitling the holder to one vote and the majority of the stock in value and number of shares shall be necessary to determine whether the said receiver shall be continued or whether an agent shall be elected. In case such majority shall determine that the said receiver shall be continued, the said receiver shall thereupon proceed with the execution of his trust and shall sell, dispose of, or otherwise collect the assets of the said association, and shall possess all the powers and authority, and be subject to all the duties and liabilities originally conferred or imposed upon him by his appointment as such receiver, so far as the same remain applicable. In case the said meeting shall by the vote of the majority of the stock, in value and number of shares, determine that an agent shall be elected, the said meeting shall thereupon proceed to elect an agent, voting by ballot, in person or by proxy, each share of stock entitling the holder to one vote, and the person who shall receive votes representing at least a majority of stock in value and number shall be declared the agent for the purposes hereinafter provided, and whenever any of the shareholders of the association shall, after the election of such agent, have executed and filed a bond to the satisfaction of the Comptroller of the Currency, conditioned for the payment and discharge in full of each and every claim that may thereafter be proved and allowed by and before a competent court, and for the faithful performance of all and singular the duties of such trust, the Comptroller and the receiver shall thereupon transfer and deliver to such agent all the undivided or uncollected or other assets of such associa-

tion then remaining in the hands or subject to the order and control of said Comptroller and said receiver, or either of them; and for this purpose said Comptroller and said receiver are hereby severally empowered and directed to execute any deed, assignment, transfer, or other instrument in writing that may be necessary and proper, and upon the execution and delivery of such instrument to the said agent the said Comptroller and the said receiver shall by virtue of this act be discharged from any and all liabilities to such association, and to each and all the creditors and shareholders thereof. Upon receiving such deed, assignment, transfer, or other instrument, the person elected such agent shall hold, control, and dispose of the assets and property of such association which he may receive under the terms hereof, for the benefit of the shareholders of such association, and he may in his own name, or in the name of such association, sue and be sued, and do all other lawful acts and things necessary to finally settle and distribute the assets and property in his hands, and may sell, compromise, or compound the debts due to such association, with the consent and approval of the circuit or district court of the United States for the district where the business of such association was carried on, and shall at the conclusion of his trust render to such district or circuit court a full account of all his proceedings, receipts, and expenditures as such agent, which court shall, upon due notice, settle and adjust such accounts and discharge said agent and the sureties upon said bond. At such meeting, held as hereinbefore provided, administrators or executors of deceased shareholders may act and sign as the decedent might have done if living, and guardians of minors and trustees of other persons may so act and sign for their ward or wards or cestui que trust. The proceeds of the assets or property of any such association which may be undistributed at the time of such meeting or may be subsequently received shall be distributed as follows:

"First. To pay the expenses of the execution of the trust to the date of such payment.

"Second. To repay any amount or amounts which have been paid in by any shareholder or shareholders of such association upon and by reason of any and all assessments made upon the stock of such association by the order of the Comptroller of the Currency in accordance with the provisions of the statutes of the United States; and

"Third. The balance ratably among such stockholders in proportion to the number of shares held and owned by each. Such distribution shall be made, from time to time, as the proceeds shall be received and as shall be deemed advisable by the said Comptroller or said agent."

#### LEGAL DECISIONS.

A digest of prominent national-bank cases up to date will be found in the Appendix,\* p. 95. This digest has become necessary in view of considerable inquiry by the general public, and it affords a convenient and ready source of reference to every national bank. It is not practicable to include the syllabus of every decision affecting a national bank, and generally those which are not an exposition of United States statutes are excluded. Much interest has been evinced during the past few years by bank officials and the general public as to the duty of directors, and the Supreme Court of the United States recently determined that the directors of a national bank must exercise ordinary care and prudence in the administration of the affairs of the bank, and this includes something more than officiating as figureheads; that they are entitled under the law to commit the banking business as defined to the duly authorized officers, but are not absolved from the duty of reasonable supervision, nor permitted to be shielded from liability because of want of knowledge of wrongdoing, if that ignorance is the result of gross inattention.

#### CLEARING-HOUSE ASSOCIATIONS.

In our smaller cities it is the custom of banks to send all claims against other banks in the same place by runners or messengers to such banks for payment. In such manner are their exchanges consummated, and in such cases the payment of these claims represents a

\* See second footnote, page 314.

money transaction. In our larger cities, in order to save time and labor and avoid the risk attendant upon the transporting of money about the streets, and minimize the amount of actual money required to adjust its exchanges, clearing-house associations have been established, wherein each bank is credited with what claims it has against the other members of the association, and debited with the amount that each of the other members of the association hold against it. The balance only is paid or received in money. Thus each bank adjusts its day's exchanges, as though all transactions were with one bank instead of with many banks which constitute the other members of the association.

The total clearing-house transactions in the fifty-seven clearing-house associations in the United States for the past year aggregate the enormous sum of \$61,017,839,067, and this great volume of business was transacted by the use of only about 8 per cent in currency or money. These clearing-house transactions have such a direct and important bearing upon the currency of the country that a report upon the currency would be incomplete that did not include the history of the clearing-house transactions for a year. For that reason the following tables, giving full information upon the subject, are submitted.

TRANSACTIONS OF THE NEW YORK AND OTHER CLEARING-HOUSE ASSOCIATIONS.

The present membership of the New York Clearing-House Association comprises 46 national banks, 18 State banks, and the subtreasury at New York, 65 members in all. There are 48 national and 46 State banks in New York City, and 2 national and 28 State banks not being members, clear through other banks which are members of the association.

The following information with respect to the operations of the clearing-house associations in the United States has been kindly furnished, upon request, by Mr. William Sherer, manager of the Clearing-House Association at New York City:

COMPARATIVE STATEMENT FOR TWO YEARS OF THE TRANSACTIONS OF THE NEW YORK CLEARING HOUSE, SHOWING AGGREGATE AMOUNT OF CLEARINGS, AGGREGATE BALANCES, AND THE KINDS AND AMOUNTS OF MONEY PASSING IN SETTLEMENT OF THESE BALANCES.

\* For nine months.

In 1891 there was a notable decrease in the volume of exchanges, amounting to over \$3,000,000. The year 1892 being placed in comparison, there has been an increase of over \$3,800,000.

#### CLEARING HOUSE OF THE NEW YORK STOCK EXCHANGE.

There was organized on the 17th day of May, 1892, a Stock Clearing House Association in the city of New York, which has since been in very successful operation. The object of this association was to avoid the personal delivery of stocks and enable each broker to adjust his deliveries and receipts of stocks in precisely the same manner as he would do were all his transactions of a day with a single broker, instead of the various brokers belonging to the association. The principle is the same as that which controls the bank clearing house, and the saving in time, labor, risk, and use of money or certified checks is equally as great.

The following statement shows the transactions from date of organization to October 31:

| Date.                          | Shares cleared both sides. | Total value both sides. | Share balances one side. | Value share balances one side. | Cash balances one side. | Number stocks cleared. |
|--------------------------------|----------------------------|-------------------------|--------------------------|--------------------------------|-------------------------|------------------------|
| May 17 to October 31, 1892.... | 84,808,800                 | \$5,591,048,200         | 9,202,400                | \$576,110,200                  | \$7,661,400             | 4 to 16                |

The practical good accomplished by this exchange is very apparent and the wisdom of its establishment can not be too highly commended. When perfected and extended so as to clear all stocks dealt in upon the exchanges it will practically do away with the evil of overcertification of checks. During the brief period of its existence it is estimated that it has reduced bank clearing house transactions \$1,643,000,000 and avoided certification of checks to that amount.

#### SAVINGS BANKS AND LOAN AND TRUST COMPANIES OF THE DISTRICT OF COLUMBIA.

By act of Congress certain financial institutions, other than national banks, doing business in the District of Columbia, are placed under the supervision of the Comptroller of the Currency, report to him, and are examined precisely the same as national banks. These consist of The National Savings Bank, The National Safe Deposit, Savings and Trust Company, The Washington Loan and Trust Company, and The American Security and Trust Company. A detailed report of their condition on the 30th day of September, 1892, will be found in the Appendix.

#### STATE, SAVINGS, PRIVATE BANKS, LOAN AND TRUST COMPANIES.

Conforming to the provision of law that devolves upon the Comptroller of the Currency the duty of obtaining and publishing in his annual report to Congress statements showing the condition of banks and banking institutions incorporated under State authority, the desired information has been procured, through the courtesy of public officials, in all but nineteen States and Territories. Of the States from which no official returns have been received two are located in the

Middle, eight in the Southern, and nine in the Pacific and Territorial geographical divisions. To statements received from official sources have been added like information received directly by this Bureau from incorporated and private banks and bankers, located in States in which there are no provisions of law requiring such information to be reported to the State authorities. Over 6,000 such banks and bankers have been called upon to furnish statements for this report.

The number of incorporated banks in existence on June 30, 1892, was 4,668. The number of banks, statements of whose condition have been received by this Bureau, either directly or by means of their official reports to their respective State governments, showing their condition on or about the close of the fiscal year ended June 30, last, is 4,418, or over 94 per cent of all engaged in business at that time. The increase this year over last in number of reporting banks is 664, the material increase being accounted for, partially, by the fact that in one State (Nebraska) the banking department, in its abstract, included private with incorporated banks.

Statements showing the condition of 5,579 incorporated and private banks have been received, the aggregate resources amounting to \$3,751,649,173. The principal items of assets are \$828,739,486 loans on real estate; \$388,749,959 loans on collateral security other than real estate; \$984,274,847 other loans and discounts; \$154,025,395 United States bonds; \$403,224,457 State, county, and municipal bonds; \$379,077,437 railroad, bank, and other stocks and bonds; \$261,278,559 due from banks and bankers; \$97,070,359 real estate, etc.; \$197,789,384 cash and cash items. The aggregate capital employed amounts to \$386,394,845; surplus and undivided profits, \$323,715,176; deposits, \$2,911,594,571. Of the 5,579 reports 3,191 are made by State banks having an aggregate capital of \$233,751,171; surplus and undivided profits \$90,358,180; deposits, \$648,513,809. The resources of 168 reporting loan and trust companies are \$600,244,908; the capital \$80,645,972; surplus and undivided profits \$61,768,148, and deposits \$411,659,996.

The condition of the savings banks of the country is of special interest owing to the enormous volume of funds in their custody, and to the further fact that these funds are largely the savings of people of limited means. Reports have been received from 1,059 savings institutions, including 416 stock savings banks, which associations do both a commercial and savings business. Of this number 643 are conducted, presumably, in the sole interest of the depositors, and are classified as mutual savings banks. The resources of the latter class amount to \$1,605,415,679, being nearly 82 per cent of the total assets of both classes. An examination of the abstract of the reports of these banks shows that of this class 450 are located in the Eastern, 181 in the Middle, 1 in the Southern, and 11 in the Western geographical divisions.

A noticeable feature in this connection is the approximately uniform average deposit, in these banks, in the Eastern, Middle, and Western divisions, being \$356.87, \$352.28, and \$376.58 respectively and the average in all such banks being \$356.65. It is also noteworthy that while the entire deposits in mutual institutions are savings accounts, but 82 per cent of the deposits in stock savings banks, as shown by the reports, are of that class, and the actual percentage is undoubtedly much less, for the reason that in a number of States, notably Vermont, Iowa, and California, no classification of deposits is made, although accounts of a commercial nature are taken. The average rate of interest paid or credited to depositors in mutual savings banks appears to be about 4 per cent; simi-

lar information is not at command, in respect to stock savings associations, to enable even an estimate to be made, although it would seem that the rate is slightly in excess of that paid by the former class. Stock savings banks, with the exception of 15 in the Eastern and 15 in the Middle States, are located in the Southern, Western, and Pacific States and Territories.

The aggregate resources of all savings banks amount to \$1,964,044,861, of which loans on real estate amount to \$714,832,576; loans on collateral security other than real estate, \$79,173,174 and other loans and discounts, \$229,711,725. The following figures represent their investments in bonds, stocks, etc.: In United States bonds, \$133,344,199; State, county and municipal bonds, \$393,190,240; in all other bonds and stocks, \$246,001,306. The amount invested in real estate is \$33,097,998 and the funds deposited in other banks and cash on hand, \$81,576,253 and \$33,208,271 respectively. Of the liabilities of these 1,059 institutions, \$37,407,475 represents their capital, \$132,880,724 surplus, \$27,448,960 other undivided profits, \$1,712,769,026 savings deposits and \$45,560,592 other deposits.

Of the 5,579 reports of condition received by this Bureau 1,161 were from private banks and bankers having an aggregate capital of \$34,590,277, surplus and undivided profits \$11,259,164, deposits \$93,091,148.

The following tables present summaries of this information:

AGGREGATE RESOURCES AND LIABILITIES OF ALL STATE BANKS, LOAN AND TRUST COMPANIES, SAVINGS AND PRIVATE BANKS, 1891-'92.

|  | State banks.            | Loan and trust companies. | Savings banks.          | Private banks.       | Total.                  |
|--|-------------------------|---------------------------|-------------------------|----------------------|-------------------------|
|  | 3, 191 banks.           | 168 companies.            | 1, 059 banks.           | 1, 161 banks.        | 5, 579 banks.           |
| <b>RESOURCES.</b>  |                         |                           |                         |                      |                         |
| Loans on real estate.....                                | \$45, 025, 576          | \$55, 098, 822            | \$714, 832, 576         | \$13, 782, 512       | \$828, 739, 486         |

The distribution of the circulating medium, as shown by the cash holdings of national banks on July 12, 1892, and by other banks at date of latest reports to this Bureau, is exhibited in the table following. The total cash, etc., held by banks other than national was \$197,789,384, of which \$8,889,370 was gold, \$1,925,187 silver, \$22,119,226 specie not classified, \$46,812,692 paper currency, and \$118,042,909 cash not classified and cash items. The total amount held by all the banks was \$586,405,103.

\* Includes all banks other than national.

The population of the United States by States and Territories on June 1, 1892, as estimated by the Government actuary, the aggregate capital, surplus, undivided profits, and individual deposits of national and State banks, loan and trust companies, and savings and private

banks of the United States at date of reports of the various classes nearest thereto, the average of these per capita, and the per capita average of such funds in each class of banks are shown in detail in the following table. It appears that the population of the country on the date named was 65,593,000 and the total banking funds \$6,390,094,128, an average of \$97.42. The per capita averages in each class of banks are: National banks, \$42.21; State banks, \$14.83; loan and trust companies, \$8.45; savings banks, \$29.81 and private banks, \$2.12. The table referred to is presented herewith:

TABLE SHOWING, BY STATES AND TERRITORIES, THE POPULATION OF EACH ON JUNE 1, 1892, AND THE AGGREGATE CAPITAL, SURPLUS, UNDIVIDED PROFITS, AND INDIVIDUAL DEPOSITS OF NATIONAL AND STATE BANKS, LOAN AND TRUST COMPANIES, AND SAVINGS AND PRIVATE BANKS IN THE UNITED STATES ON OR ABOUT JUNE 30, 1892; THE AVERAGE OF THESE PER CAPITA OF POPULATION, AND THE PER CAPITA AVERAGES OF SUCH RESOURCES IN EACH CLASS OF BANKS AND IN ALL.

\* Estimated by Mr. Joseph S. McCoy, Government actuary.  
 † Average of all banks other than national.

In the Appendix,\* p. 227, tables will be found showing, by States, Territories, and geographical divisions, the condition of banks other than national, as obtained from both official and unofficial sources; aggregate resources and liabilities of each class; comparative statements of condition of State banks, 1872 to 1892; loan and trust companies, 1887-'88 to 1891-'92; savings banks, 1887-'88 to 1891-'92; private banks, 1888 to 1892; deposits in savings banks, number of depositors, and average amount due each, by States, in 1890-'91 and 1891-'92; the growth of savings banks in the United States as shown by the number of associations, number of depositors, and amount of deposits in the years 1820, 1825, 1830, 1835, 1840, and 1845 to 1892, inclusive; the number, liabilities, and assets at date of failure of State, savings, private banks, and loan and trust companies in each State that failed during the year ended June 30, 1892; the aggregate number, liabilities, assets and percentage of assets of State, etc., banks that failed during the fiscal years ended on June 30, 1891 and 1892; reports of condition of The First Bank of the United States in January, 1809 and 1811; principal items of resources and liabilities of The Bank (second) of the United States 1817 to 1840; number of banks, amount of specie, circulation, and capital in 1774, 1784, and 1790 to 1804; the number and capital of banks by States, etc., at eight different periods from 1792 to 1830; the number, capital, circulation, deposits, loans, and specie of banks at various periods from 1811 to 1840; the principal items of resources and liabilities by States, of banks in the United States in 1819, 1834 to 1863, and 1873 to 1892; the number of State banks in the United States and their principal resources and liabilities in the years 1834 to 1863 and 1873 to 1892, inclusive; the number, average capital, and deposits of all banks, other than national, as shown by reports to the Internal Revenue Bureau on November 30, 1875 and 1876, and on May 31, 1877 to 1882, inclusive; percentage of depreciation of bank notes during the suspension of specie payments from 1814 to 1817; discount of bank notes in New York in January, 1835 to 1838, inclusive; highest and lowest price of bank notes in Philadelphia in each year from 1814 to 1823 and from 1834 to 1838.

#### CONCLUSION.

Prior to the passage of the free-banking act a deep-rooted prejudice obtained against national banks as monopolies. They were believed to possess special privileges inimical to the interests of the general public. The act of January 14, 1875, removed all restrictions and extended the powers and privileges of a national bank to any five reputable men who might choose to organize such an institution, thus removing all proper ground of criticism.

All prejudices are long lived, but the one against national banks has possessed unusual vitality. There are many strong and excellently well managed State banks. Some of our States have good banking laws, well enforced, with competent and effective supervision. It is undeniable, however, that away from its immediate locality, a national bank enjoys greater prestige than a State institution. The system lends a credit and standing to its individual members. The actual advantage which national banks possess have won favor, and the prejudice once so strong, has yielded and is fast disappearing before the commercial advantages which the system affords. The large percentage of increase in national banks formed is found in sections where the prejudice was once strongest. It is very gratifying to note this.

\* See second foot note, p. 314.

There is no possible conflict of interests between the national system and State systems of banking. National banks do a purely commercial business. The various other banking functions are performed by State institutions, and the different boards of direction are so interwoven as to indicate the utmost harmony between State and national institutions.

More liberal provisions of law as to circulation or a reduction of the amount of United States bonds which national banks are compelled to own, would result in largely increasing the number of banks. As it is, each year marks a steady growth in number and in public confidence in the system. They have given the country the best currency and the best commercial service it has ever had, and the good solid business sense of the country can be relied upon to protect and preserve the system.

The work of the Bureau of the Currency is well systematized and is performed by a thoroughly competent and well equipped force of employés.

This force consists of ninety employés, the number having diminished from one hundred and twenty-five in 1876 to ninety at the present time, notwithstanding the fact that the large increase in the number of associations, under the supervision of the Bureau, has necessarily increased the amount of labor to be performed.

I have found all subordinates competent, courteous, and faithful in the discharge of their duties, and it is with pleasure that I acknowledge the valuable aid rendered by those charged with the labor of preparing the statistical matter which appears in this report.

In the second volume of this report, comprising over 1,300 pages, will be found a detailed statement of the condition of all the national banks, as shown by the report of condition of September 30, 1892, arranged by States alphabetically and properly indexed.

**REPORT OF THE COMMISSIONER OF INTERNAL REVENUE**

TREASURY DEPARTMENT,  
OFFICE OF INTERNAL REVENUE,  
*Washington, D. C., November 1, 1892.*

SIR: In compliance with the instructions contained in your letter of July 15, 1892, I have the honor to submit the following report of the operations of the Bureau of Internal Revenue for the fiscal year ended June 30, 1892, and also certain additional information relating to the collections made and work performed during the first three months of the current fiscal year.

The titles of the tables found at the close of the bound volume of this report\* are as follows:

Table A, showing the receipts from each specific source of internal revenue and the amounts refunded in each collection district, State, and Territory of the United States for the fiscal year ended June 30, 1892.

Table B, showing the number and value of stamps for special taxes, manufactured tobacco, snuff, cigars, cigarettes, distilled spirits, fortified sweet wine, fortified wine for export, fermented liquors, oleomargarine, and opium manufactured for smoking purposes; also the number of the different kinds of certificates of registry, with the number and value of documentary stamps used for validating unstamped instruments, issued to collectors of internal revenue during the fiscal year ended June 30, 1892.

Table C, showing the percentages of receipts from the several general sources of internal revenue now taxable in each State and Territory of the United States to the aggregate receipts from the same sources, by fiscal years, from July 1, 1863, to June 30, 1892.

Table D, showing the aggregate receipts of internal revenue in each collection district, State, and Territory of the United States, by fiscal years, from September 1, 1862, to June 30, 1892.

Table E, showing the receipts from specific and general sources of internal revenue, by fiscal years, from September 1, 1862, to June 30, 1892.

Table F, showing the ratio of receipts from specific sources of internal revenue to the aggregate receipts of the same, by fiscal years, from July 1, 1863, to June 30, 1892.

Table G, showing the returns of distilled spirits, fermented liquors, manufactured tobacco, snuff, cigars, and cigarettes, under the several acts of legislation and by fiscal years, from September 1, 1862, to June 30, 1892; also statement of the production of distilled spirits and fermented liquors in the several States and Territories, by fiscal years, from July 1, 1877, to June 30, 1892.

\* The tables here referred to are omitted.

Table H, showing the receipts from special taxes in the several States and Territories for the twelve months ended June 30, 1892.

Table I. Abstract of reports of district attorneys concerning suits and prosecutions under the internal-revenue laws during the fiscal year ended June 30, 1892.

Table K. Abstract of seizures of property for violation of internal-revenue laws during the fiscal year ended June 30, 1892.

Table L, showing the collections, expenses, and percentage cost of collection in the several collection districts during the fiscal years ended June 30, 1891 and 1892.

COLLECTIONS FOR THE CURRENT FISCAL YEAR.

I estimate that the total receipts from all sources of internal revenue for the current fiscal year will be \$165,000,000.

RECEIPTS FOR THE PAST SEVEN FISCAL YEARS.

Fiscal year ended—

|                    |                  |
|--------------------|------------------|
| June 30, 1892..... | \$153,857,544.35 |
| June 30, 1891..... | 146,035,415.97   |
| June 30, 1890..... | 142,594,696.57   |
| June 30, 1889..... | 130,894,434.20   |
| June 30, 1888..... | 124,326,475.32   |
| June 30, 1887..... | 118,837,301.06   |
| June 30, 1886..... | 116,902,869.44   |

COLLECTIONS FOR THE FISCAL YEAR ENDED JUNE 30, 1892.

I estimated in my last annual report that the receipts of this Bureau for the fiscal year ended June 30, 1892, would reach the sum of \$150,000,000. I am pleased to say that the actual receipts from all sources of internal revenue for the fiscal year above named were \$153,857,544.35, exceeding my estimate in the sum of \$3,857,544.35.

The following statements exhibit in detail the amount of internal revenue collected during the fiscal year ended June 30, 1892, the sources from which the revenue was derived, the total sum collected in each district, State, and Territory, the cost of collecting, etc.:

INTERNAL-REVENUE RECEIPTS DURING THE LAST TWO FISCAL YEARS.

COMPARATIVE STATEMENT SHOWING THE RECEIPTS FROM THE SEVERAL OBJECTS OF INTERNAL TAXATION IN THE UNITED STATES DURING THE FISCAL YEARS ENDED JUNE 30, 1891 AND 1892.

| Objects of taxation.   | Receipts during fiscal years ended June 30— |                      | Increase.           | Decrease. |
|--|---|----------------------|---------------------|-----------|
|  | 1891.                                       | 1892.                |                     |           |
| SPIRITS.   |   |                      |                     |           |

RECEIPTS FOR FIRST THREE MONTHS OF PRESENT FISCAL YEAR.

The following table shows the receipts from the several objects of taxation for the first quarter of the fiscal years ending June 30, 1892 and 1893. A comparison of the receipts for the two periods is also given:

| Objects of taxation.   | Amount of tax paid during first three months of fiscal year— |                      | Increase.           | Decrease.    |
|--|--|----------------------|---------------------|--------------|
|  | 1892.  | 1893.                |                     |              |
| <b>SPIRITS.</b>  |  |                      |                     |              |
| Spirits distilled from apples, peaches, or grapes .....                        | \$254,063.87   | \$309,082.69         | \$55,018.82         | .....        |
| Spirits distilled from materials other than apples, peaches, or grapes .....   | 18,398,840.66  | 20,695,514.76        | 2,296,674.10        | .....        |
| Wine made in imitation of champagne, etc. ....                                 | 72,897.52  | 65,087.57            | .....               | \$7,809.95   |

**COST OF COLLECTION.**

The cost of collection for the past fiscal year, distributed among the different items of appropriation, was approximately as follows:

|  |                     |
|--|---------------------|
| For salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine and the provisions of the act of October 1, 1891, relating to the payment of bounty on sugar .. | \$1,879,038.37      |
| For salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses .....  | 2,178,424.57        |
| For salaries and expenses of sugar inspectors .....  | 28,554.76           |
| For paper for internal-revenue stamps .....  | 59,770.06           |
| For expenses of detecting and punishing violations of internal-revenue laws .....  | 46,505.09           |
| For salaries of officers, clerks, and employes in the office of Commissioner of Internal Revenue .....   | 270,585.02          |
| <b>Total expended</b> .....  | <b>4,462,877.87</b> |
| Deduct expenses relating exclusively to the payment of bounty on sugar, as follows:  |                     |
| Additional deputies and clerks .....   | \$98,774.72         |
| Polariscopes and articles used in making analyses of sugar, etc .....  | 9,512.13            |
| Salary and expenses of sugar inspectors .....  | 28,554.76           |
| Additional clerks in office of Commissioner .....  | 10,990.00           |
|  | <b>147,831.61</b>   |
| Leaving the net cost of collection .....   | <b>4,315,046.26</b> |

The percentage of the cost of collection is 2.80 per cent. The expenses for the previous fiscal year were \$4,205,655.49, being 2.88 per cent. of the collections, so that, while both the collections and the expense of collection during the last fiscal year were in excess of that of the previous year, the percentage of cost of collection has decreased.

The amount appropriated for salaries and expenses of agents, gaugers, storekeepers, etc., was \$2,165,000, while, owing to the increased number of distilleries in operation, resulting in an increase in the amount of taxes collected from spirits of more than \$5,900,000 as compared with the previous year, as shown in this report, the actual expenses for this purpose were \$13,424.57 more than the amount appropriated, as shown by unpaid accounts now on file, and for which an additional appropriation will be needed.

## MISCELLANEOUS EXPENSES.

The act of Congress approved August 7, 1882, making provision for sundry civil expenses for the year ending June 30, 1883, required the Commissioner of Internal Revenue to make a detailed statement of all miscellaneous expenditures in the Bureau of Internal Revenue for which appropriation was made in that act. In accordance with this requirement, I submit the following detailed statement of miscellaneous expenses incurred:

|   |                  |
|---|------------------|
| Express charges on public moneys forwarded by collectors and deputy collectors to the depositories .....                    | \$4,484.50       |
| Locks for use at distilleries .....   | 4,228.11         |
| Hydrometers used in gauging spirits .....   | 7,002.20         |
| Weighing beams for use in weighing spirits .....  | 17,871.75        |
| Gauging rods .....  | 59.51            |
| Steel letters for numbering stills .....  | 57.90            |
| Saccharometers, polariscopes, stills, and chemicals for testing sweet-wine samples .....                                    | 2,356.07         |
| Stationery for internal-revenue officers .....  | 14,077.30        |
| The Internal Revenue Record supplied to internal-revenue offices.....   | 2,315.36         |
| Scale for weighing tobacco samples .....  | 29.50            |
| The Federal Reporter for the office of the Commissioner of Internal Revenue .....   | 15.30            |
| Compensation of United States attorneys in internal-revenue cases allowed under sections 827 and 838, Revised Statutes..... | 1,370.00         |
| Traveling expenses of clerks under special orders of the Department...  | 264.59           |
| Expenses of seizures and sales by collectors .....  | 190.65           |
| <b>Total</b> .....  | <b>54,322.74</b> |

## ESTIMATED EXPENSES FOR NEXT FISCAL YEAR.

I estimate the expenses of the internal revenue service for the fiscal year ending June 30, 1894, as follows:

|   |                  |
|---|------------------|
| For salaries and expenses of collectors, including pay of deputy collectors and clerks, and expense of enforcing the act of August 2, 1886, taxing oleomargarine, and the act of August 4, 1886, imposing on the Government the expense of the inspection of tobacco exported, and the act of October 1, 1890, providing for payment of a bounty on sugar, including miscellaneous expenses incident to ascertaining and paying said bounty ..... | \$1,900,000      |
| For salaries and expenses of twenty revenue agents, for surveyors, for fees and expenses of gaugers, for salaries of storekeepers, and for miscellaneous expenses .....   | 2,150,000        |
| For salaries and expenses of sugar inspectors.....  | 36,000           |
| For paper for internal-revenue stamps.....  | 65,000           |
| For detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws, including payment for information and detection.....  | 50,000           |
| For salaries of officers, clerks, and employes in the office of the Commissioner of Internal Revenue.....   | 272,580          |
| <b>Total</b> .....  | <b>4,473,580</b> |

## SALARIES.

I have the honor to recommend that Congress appropriate for the fiscal year ending June 30, 1894, the sum of \$272,980 as salaries for the following officers, clerks, and employes in this Bureau:

|                                  |         |
|----------------------------------|---------|
| One Commissioner, at.....        | \$6,000 |
| One deputy commissioner, at..... | 3,600   |
| One chemist, at.....             | 2,500   |
| One microscopist .....           | 2,500   |
| Two heads of division, at .....  | 2,500   |

|  |         |
|--|---------|
| Six heads of division, at .....            | \$2,250 |
| One superintendent of stamp vault, at..... | 2,000   |
| One stenographer, at.....                  | 1,800   |
| Twenty-five clerks, at.....                | 1,800   |
| Twenty-five clerks, at.....                | 1,600   |
| Thirty-five clerks, at.....                | 1,400   |
| Twenty-five clerks, at.....                | 1,200   |
| Fourteen clerks, at.....                   | 1,000   |
| Forty clerks, at.....                      | 900     |
| Three messengers, at.....                  | 840     |
| Fourteen assistant messengers, at.....     | 720     |
| Thirteen laborers, at.....                 | 660     |

An aggregate of 208 persons.

I also recommend the appropriation of the sum of \$2,500 as salaries for one stamp agent at \$1,600 and one counter at \$900, the same to be reimbursed by the stamp manufacturers, as provided by the act of August 5, 1882.

SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors are based upon an estimate of their probable collections according to the following scale, with the qualification that if the actual collections should vary from the amounts estimated the salaries will be readjusted at the end of the fiscal year:

| For collection of—       | Salary. | For collection of—           | Salary. |
|--------------------------|---------|------------------------------|---------|
| \$25,000 or less .....   | \$2,000 | \$375,001 to \$425,000 ..... | \$3,375 |
| 25,001 to \$37,500 ..... | 2,125   | 425,001 to 475,000 .....     | 3,500   |
| 37,501 to 50,000 .....   | 2,250   | 475,001 to 550,000 .....     | 3,625   |
| 50,001 to 75,000 .....   | 2,375   | 550,001 to 625,000 .....     | 3,750   |
| 75,001 to 100,000 .....  | 2,500   | 625,001 to 700,000 .....     | 3,875   |
| 100,001 to 125,000 ..... | 2,625   | 700,001 to 775,000 .....     | 4,000   |
| 125,001 to 175,000 ..... | 2,750   | 775,001 to 850,000 .....     | 4,125   |
| 175,001 to 225,000 ..... | 2,875   | 850,001 to 925,000 .....     | 4,250   |
| 225,001 to 275,000 ..... | 3,000   | 925,001 to 1,000,000 .....   | 4,375   |
| 275,001 to 325,000 ..... | 3,125   | 1,000,001 and upwards.....   | 4,500   |
| 325,001 to 375,000 ..... | 3,250   |                              |         |

OFFICIAL FORCE.

The force connected with this Bureau during the fiscal year which ended June 30, 1892, in the various districts throughout the United States, as reorganized under the executive order of May 21, 1887, was 33 collectors, who received per annum salaries as follows:

| Number.  | Salary. | Number. | Salary. | Number. | Salary. |
|----------|---------|---------|---------|---------|---------|
| 36 ..... | \$4,500 | 2 ..... | \$3,625 | 2 ..... | \$3,000 |
| 1 .....  | 4,250   | 4 ..... | 3,500   | 2 ..... | 2,875   |
| 2 .....  | 4,125   | 1 ..... | 3,375   | 4 ..... | 2,750   |
| 1 .....  | 3,875   | 1 ..... | 3,250   | 3 ..... | 2,625   |
| 3 .....  | 3,750   | 1 ..... | 3,125   |         |         |

There were also employed 963 deputy collectors, who received per annum salaries as follows:

| Number.   | Salary. | Number.   | Salary. | Number.  | Salary. |
|-----------|---------|-----------|---------|----------|---------|
| 22 .....  | \$2,000 | 34 .....  | \$1,300 | 9 .....  | \$500   |
| 11 .....  | 1,900   | 169 ..... | 1,200   | 1 .....  | 425     |
| 33 .....  | 1,800   | 127 ..... | 1,100   | 1 .....  | 400     |
| 3 .....   | 1,750   | 136 ..... | 1,000   | 11 ..... | 400     |
| 10 .....  | 1,700   | 2 .....   | 950     | 4 .....  | 360     |
| 31 .....  | 1,600   | 64 .....  | 900     | 27 ..... | 300     |
| 2 .....   | 1,550   | 4 .....   | 850     | 3 .....  | 250     |
| 59 .....  | 1,500   | 23 .....  | 800     | 2 .....  | 240     |
| 9 .....   | 1,450   | 1 .....   | 750     | 7 .....  | 200     |
| 119 ..... | 1,400   | 5 .....   | 700     | 4 .....  | 150     |
| 1 .....   | 1,350   | 25 .....  | 600     | 6 .....  | 120     |

There were also employed in the offices of the different collectors 185 clerks, who received per annum salaries as follows:

| Number.  | Salary. | Number.  | Salary. | Number.  | Salary. |
|----------|---------|----------|---------|----------|---------|
| 1 .....  | \$1,800 | 8 .....  | \$1,150 | 9 .....  | \$700   |
| 2 .....  | 1,600   | 6 .....  | 1,100   | 2 .....  | 650     |
| 3 .....  | 1,500   | 30 ..... | 1,000   | 11 ..... | 600     |
| 9 .....  | 1,400   | 34 ..... | 900     | 1 .....  | 500     |
| 4 .....  | 1,300   | 18 ..... | 800     | 1 .....  | 400     |
| 1 .....  | 1,250   | 5 .....  | 750     |          |         |
| 38 ..... | 1,200   | 2 .....  | 720     |          |         |

Also 30 porters, messengers, or janitors who received per annum salaries as follows:

| Number. | Salary. | Number. | Salary. | Number. | Salary. |
|---------|---------|---------|---------|---------|---------|
| 6 ..... | \$600   | 1 ..... | \$360   | 1 ..... | \$180   |
| 3 ..... | 500     | 4 ..... | 300     | 2 ..... | 120     |
| 5 ..... | 480     | 1 ..... | 240     | 3 ..... | 100     |
| 3 ..... | 400     | 1 ..... | 200     |         |         |

In addition to the foregoing there were also employed for limited periods 409 persons in duties solely connected with the execution of the provisions of the act of October 1, 1890, relating to the payment of bounty on sugar produced, as shown more in detail in that part of this report relating to that subject.

#### STOREKEEPERS, GAUGERS, ETC.

There were also employed 666 gaugers, who received fees not to exceed \$5 per day; 574 storekeepers, and 1,243 storekeeper and gaugers, whose pay did not exceed \$4 per diem, and 6 distillery surveyors. All the foregoing officers are paid only when actually employed.

Storekeepers are assigned to those distilleries only which have a surveyed daily capacity of 100 bushels or more, and are paid such compensation as may be prescribed by the Commissioner of Internal Revenue, not to exceed \$4 per day.

The pay of storekeeper and gaugers assigned to distilleries whose registered daily capacity is 20 bushels or less is fixed by law at \$2 per diem. The pay of those assigned to larger distilleries has been graded according to the following scale:

Compensation for storekeeper and gaugers assigned to distilleries

having a surveyed daily capacity exceeding 20 bushels and not exceeding 40 bushels, \$3 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 40 bushels and not exceeding 60 bushels, \$3.50 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 60 bushels, \$4 per day.

At the close of the year ended June 30, 1892, 207 officers, clerks, messengers, and laborers were employed in this Bureau, and the aggregate amount paid during the year for their salaries was \$270,585.02.

GENERAL CONDITION OF THE OFFICE AND THE SERVICE.

It affords me great pleasure to testify to the diligence, fidelity, and accuracy of the officers, clerks, and employes of this Bureau during the past fiscal year. The condition of the work of the office is excellent, and it is as fully up to date as it is practicable to have it, and all business has been promptly and accurately disposed of.

The offices of the several collectors of internal revenue have been examined during the past fiscal year as frequently as was possible with the limited force of revenue agents at my command, and such examinations have shown them to be generally in good condition.

To the industry, efficiency, and promptness of the collectors and their subordinates may be ascribed in a great degree the large increase in the receipts from internal revenue with so slight an increase in the cost of collection.

\* \* \* \* \*

REVENUE AGENTS' DIVISION.

Twenty revenue agents have been employed during the last fiscal year, one as chief of division in this office, eleven in charge of territorial divisions, three in the examination of the offices and accounts of collectors, and five in assisting agents in charge of divisions and on special duty.

EXPENSES OF REVENUE AGENTS.

There have been expended from the appropriation for salaries and expenses of revenue agents during the year the following amounts:

|   |                  |
|---|------------------|
| Aggregate salary of agents.....             | \$43,736.00      |
| Aggregate amount of traveling expenses..... | 29,737.11        |
| Stationery furnished agents.....            | 357.78           |
| Transportation over Pacific railroads.....  | 691.65           |
| <b>Total.....</b>                           | <b>74,522.54</b> |

WORK OF REVENUE AGENTS.

Two thousand four hundred and eighty-six violations of law have been reported by revenue agents during the year; 621 persons have been arrested on their information; property to the value of \$195,898.35 has been reported by them for seizure, and \$96,321.74 for assessment for unpaid taxes and penalties.

## ILLICIT STILLS SEIZED.

The following statement shows the number of illicit stills seized, persons arrested, and casualties to officers and employes during the fiscal year ended June 30, 1892:

| Districts.                      | Stills seized. |          | Number of persons arrested. | Casualties. |          |
|---------------------------------|----------------|----------|-----------------------------|-------------|----------|
|                                 | Destroyed.     | Removed. |                             | Killed.     | Wounded. |
| Alabama .....                   | 123            | 2        | 101                         |             | *1       |
| Arkansas .....                  | 5              |          | 12                          |             |          |
| Florida .....                   | 6              |          |                             |             |          |
| Georgia .....                   | 160            | 55       | 130                         |             |          |
| Fifth Kentucky .....            | 1              | 1        |                             |             |          |
| Seventh Kentucky .....          | 2              |          |                             |             |          |
| Eighth Kentucky .....           | 42             | 19       | 1                           |             |          |
| Fourth Michigan .....           |                | 1        | 1                           |             |          |
| First New York .....            |                | 1        |                             |             |          |
| Fourteenth New York .....       |                | 5        | 3                           |             |          |
| Fourth North Carolina .....     | 66             | 5        | 9                           |             |          |
| Fifth North Carolina .....      | 143            | 2        | 32                          |             |          |
| First Pennsylvania .....        |                | 1        |                             |             |          |
| Twelfth Pennsylvania .....      |                | 1        | 2                           |             |          |
| Twenty-third Pennsylvania ..... | 2              |          |                             |             |          |
| South Carolina .....            | 38             | 15       | 7                           |             |          |
| Second Tennessee .....          | 44             | 3        | 31                          |             |          |
| Fifth Tennessee .....           | 12             | 10       | 7                           |             |          |
| Second Virginia .....           | 1              |          |                             |             |          |
| Sixth Virginia .....            | 81             | 2        | 41                          |             |          |
| West Virginia .....             | 3              |          | 4                           |             |          |
| Total .....                     | 729            | 123      | 386                         |             | *1       |

\*Deputy Marshal D. C. C. Jackson wounded by illicit distillers in DeKalb County December 29, 1891.

## STILLS SEIZED AND CASUALTIES TO OFFICERS AND EMPLOYÉS FOR THE LAST TWELVE YEARS.

| C. W. Eldridge .....   | 6,050.54   | Robert Williams, jr. .... | 731.52     |
| T. J. Grimeson .....   | 2,943.28   |                           |            |
| W. H. Knisely .....    | 27.00      | Total .....               | 42,824.15  |

AMOUNT EXPENDED THROUGH COLLECTORS OF INTERNAL REVENUE FOR FISCAL YEAR 1892.

| Name.                  | District.                  | Amount.  |
|------------------------|----------------------------|----------|
| A. R. Burnam .....     | Eighth Kentucky .....      | \$201.00 |
| Henry M. Cooper .....  | Arkansas .....             | 178.00   |
| James D. Brady .....   | Second Virginia .....      | 5.00     |
| David A. Nunn .....    | Fifth Tennessee .....      | 12.00    |
| Thomas F. Penman ..... | Twelfth Pennsylvania ..... | 26.00    |
| Albert Scott .....     | Fifth Kentucky .....       | 11.99    |
| A. B. White .....      | West Virginia .....        | 312.00   |
| W. W. Rollins .....    | Fifth North Carolina ..... | 89.04    |
| Total .....            |                            | 835.03   |

RECAPITULATION.

|  |             |
|--|-------------|
| Amount expended by revenue agents .....          | \$42,824.15 |
| Amount expended by collectors .....              | 835.03      |
| Amount expended for rewards .....                | 2,551.70    |
| Amount expended for miscellaneous purposes ..... | 294.21      |
| Total expended .....                             | 46,505.09   |

The accounts for expenditures under this appropriation are rendered monthly, with an itemized statement, and in all cases supported by proper subvouchers duly sworn to. These accounts pass through all the accounting offices in the Treasury Department and are filed in the Register's office.

INTERNAL-REVENUE INSPECTORS.

In accordance with the provisions of legislative act of March 3, 1891, authorizing the Commissioner of Internal Revenue to employ not to exceed 12 inspectors, whose duty shall be to inspect sugar upon which bounty is required to be paid, and to perform such other duties as may be required by the Commissioner, 12 inspectors have been employed during the past year, at a compensation of \$5 per day while actually and necessarily employed, and their necessary traveling expenses.

These inspectors have been employed most of the time in connection with the payment of bounty on domestic sugar, and have been assigned as follows:

|  |   |
|--|---|
| District of Kansas .....               | 1 |
| District of Nebraska and Montana ..... | 1 |
| First district of California .....     | 2 |
| District of Louisiana and Texas .....  | 7 |
| District of Florida .....              | 1 |

The duties which they have performed have been the inspection and classification of sugar upon which a bounty was claimed, making examinations and inspections at sugar factories, and other work incident to that branch of the service.

During the maple-sugar season inspectors were employed in connection with inspection and classification of maple sugar upon which bounty was claimed in the following districts:

|  |   |
|--|---|
| Districts of New Hampshire and Massachusetts .....                         | 3 |
| Fourteenth, Twenty-first, and Twenty-eighth Districts of New York .....    | 2 |
| Twelfth and Twenty-third Districts of Pennsylvania .....                   | 1 |
| Tenth and Eighteenth Districts of Ohio and First and Fourth Michigan ..... | 1 |

Inspectors rendered valuable services in connection with the work to which they were assigned. In the cane-sugar producing districts I

found it necessary to employ inspectors during most of the year. In the beet and sorghum producing districts they were employed a greater portion of the year, and in the districts where maple sugar is produced several of them were employed about three months.

During the months of June, July, and August some of the inspectors were employed with revenue agents in general duty connected with the internal-revenue service.

#### EXPENSES OF REVENUE INSPECTORS.

The appropriation for the payment of salaries and expenses of inspectors was \$36,000. The following expenditures chargeable to that appropriation have been made during the year:

|   |             |
|---|-------------|
| Aggregate salary of inspectors.....         | \$16,505.00 |
| Aggregate amount of traveling expenses..... | 11,604.07   |
| Transportation over Pacific railroads.....  | 445.69      |
| Total.....                                  | 28,554.76   |

#### STAMP DIVISION.

STATEMENT OF NUMBER AND VALUE OF STAMPS ISSUED FOR FISCAL YEAR ENDED JUNE 30, 1892.

| Class of stamps.   | Number.       | Value.          |
|--|---------------|-----------------|
| <b>Spirits:</b>  |               |                 |
| Tax-paid.....  | 1,663,050     | \$90,260,055.00 |
| Exportation.....   | 72,800        | 7,280.00        |
| Transfer of grape brandy.....                                    | 7,100         | .....           |
| Other than tax-paid, exportation, and transfer of grape brandy.. | 4,666,700     | .....           |
| <b>Wine:</b>   |               |                 |
| Fortified sweet.....   | 7,000         | .....           |
| <b>Tobacco and snuff:</b>  |               |                 |
| Tax-paid.....  | 527,748,239   | 19,606,920.54   |
| Exportation.....   | 91,600        | .....           |
| <b>Cigar:</b>  |               |                 |
| Tax-paid.....  | 78,841,830    | 13,674,251.55   |
| Exportation.....   | 3,200         | .....           |
| <b>Cigarette.....</b>  | 273,203,358   | 1,475,600.70    |
| <b>Special-tax.....</b>  | 271,110       | 8,295,660.00    |
| <b>Certificates of registry.....</b>                             | 58,760        | .....           |
| <b>Fermented liquors:</b>  |               |                 |
| Tax-paid.....  | 90,154,400    | 33,048,200.00   |
| Exportation.....   | 60,400        | .....           |
| <b>Brewers' permits.....</b>                                     | 108,400       | .....           |
| <b>Oleomargarine:</b>  |               |                 |

#### MANUFACTURE OF STAMP PAPER.

On the 16th day of March, 1892, sealed proposals were solicited, by advertisement, from paper manufacturers for supplying this Bureau with paper to be used in the printing of internal-revenue stamps for the fiscal year ending June 30, 1893. The Fairchild Paper Company, of Boston, Mass., was the only bidder. This company has had for a number of years the contract for furnishing the class of paper prescribed at a price satisfactory to the office, and on this occasion presented

acceptable terms and was again awarded the contract at the rate of 6.1 cents per pound, paper to be delivered at the Treasury Department in Washington. It is estimated that 800,000 pounds of paper will be required for the year's product of stamps.

#### PRINTING OF STAMPS.

The Bureau of Engraving and Printing supplies all internal-revenue stamps used, excepting those printed on tin-foil wrappers. These are furnished by the John J. Croke Company, of New York, under a contract which relieves the Government of any expense for their production, the expenditure for salaries of a stamp agent and one counter—aggregating \$2,500 annually—being reimbursed to the Government by the contractor, and the cost of printing being paid by the manufacturers under special arrangement with the printing company.

#### CLAIMS FOR REDEMPTION OF STAMPS BARRED BY STATUTE.

The number of applications by letter for the redemption of check and proprietary stamps received during the year ended June 30, 1892, was eighty-six, the value represented ranging from 5 cents to \$15. The redemption of these stamps being barred by the statute of limitations, they were returned to the applicants with notice of rejection. There are still on hand seventy-eight cases hitherto reported as of insufficient data for adjustment, some stamps without claims and some claims without stamps. I repeat the suggestion made in my last report, that steps be taken to finally dispose of these cases in order that they may be omitted from subsequent reports, and would recommend that they be properly wrapped and sealed for preservation and filed away, record thereof being kept in this office.

#### OFFICIAL COUNT OF STAMPS IN VAULT.

On the 28th day of December, 1891, the vaults of this Bureau were turned over to a committee appointed for the purpose, under whose supervision the internal-revenue stamps therein were officially counted. Tabulated statements showing by classes and denominations the balance on hand December 29, 1890, the receipts and deliveries since that date, and the balance on hand at the close of business December 26, 1891, were furnished by the Division of Loans and Currency, Secretary's office, and the count of stamps was found to agree in every respect therewith, and all the stamps with which the Commissioner was charged were properly accounted for. There were on hand December 27, 1890, date of previous count, 22,937,341 stamps, of the value of \$24,598,990.28. From that date to December 28, 1891, there were received from the Bureau of Engraving and Printing and from collectors for reissue 1,030,150,211 stamps, of the value of \$171,571,212.31. Total to be accounted for, 1,053,087,552 stamps; value, \$196,170,202.59. There were delivered for issue, reissue, and destruction during the period named 988,535,879 stamps; value, \$172,409,317.74, leaving a balance to be accounted for on the morning of December 28, 1891, of 64,551,673; value, \$23,760,884.85, which, by actual count, were found to be in the vaults on that date. A careful examination of the stamp division bookkeepers' accounts, by money values, was made, and they were found to agree in every respect with reports of the superintendent of the vault and the books of the Secretary's office.

## ISSUES TO COLLECTORS.

A comparison of the issues of tax-paid stamps to collectors this year with the issues for the year ended June 30, 1891, makes an interesting exhibit, which is herewith submitted:

| Class of stamps. | Number issued. |             | Increase over year 1891. | Value of stamps issued. |                 | Difference in values.* |
|------------------|----------------|-------------|--------------------------|-------------------------|-----------------|------------------------|
|                  | 1891.          | 1892.       |                          | 1891.                   | 1892.           |                        |
| Tax-paid—        |                |             |                          |                         |                 |                        |
| Spirits.....     | 1,616,250      | 1,663,050   | 46,800                   | \$88,663,275.00         | \$90,260,055.00 | +\$1,596,780.00        |
| Tobacco.....     | 504,111,697    | 527,748,239 | 23,636,542               | 23,259,966.57           | 19,606,920.54   | - 3,653,046.03         |
| Cigar.....       | 78,128,325     | 78,841,830  | 713,505                  | 13,560,332.40           | 13,674,251.55   | + 113,919.15           |
| Cigarette.....   | 251,707,970    | 273,203,358 | 21,495,388               | 1,354,349.70            | 1,475,600.70    | + 121,251.00           |
| Beer.....        | 86,655,700     | 90,154,400  | 3,498,700                | 30,674,300.00           | 33,048,200.00   | + 2,373,900.00         |

\* + increase; - decrease.

## CERTIFICATES OF RESIDENCE FOR CHINESE LABORERS.

The provisions of the act of May 5, 1892, require that certificates of residence be issued by this Bureau to such Chinese laborers as are entitled to remain in the United States after the date of said act. These certificates have been prepared and will be supplied to collectors and issued to applicants under the regulations prescribed by the honorable Secretary of the Treasury. It is estimated that 120,000 certificates will be required to supply the several collection districts, 77,000 being estimated for the two districts of California and the district of Oregon. The printing of these certificates is being done at the Government Printing Office.

No applications have been made by any Chinese persons for registration under the terms of the above act. There seems to be, at present, a determination on the part of the Chinese not to register. However, I have taken the precaution to have all the papers necessary for such registration in the hands of the collectors of internal revenue, and should any person entitled to register under this act desire to do so, he can avail himself of the privilege with little or no inconvenience to himself.

## TOBACCO DIVISION.

The aggregate amount of taxes collected from tobacco during the last fiscal year was \$31,000,493.07. This amount includes internal-revenue taxes paid by stamps on imported and manufactured tobacco, snuff, cigars, and cigarettes.

The decrease of collections for the last fiscal year as compared with those for the previous fiscal year was \$1,795,777.90. This is due to the reduction by the act of October 1, 1890, of the tax on snuff, chewing and smoking tobacco, January 1, 1891, from 8 to 6 cents per pound, and to the repeal of special taxes relating to tobacco, May 1, 1891.

The tax on cigars and cigarettes was not changed, and the collections therefrom were increased \$325,941.99 during the last fiscal year.

|   |                           |                |
|---|---------------------------|----------------|
| Cigars and cheroots.....                    | Increase.<br>\$221,719.95 | Decrease.      |
| Cigarettes.....                             | 104,222.04                |                |
| Total.....                                  | 325,941.99                |                |
| Tobacco.....                                |                           | \$1,842,890.35 |
| Snuff.....                                  |                           | 56,294.31      |
| Special taxes.....                          |                           | 222,535.23     |
| Total decrease, tobacco and snuff.....      |                           | 2,121,719.89   |
| Deduct increase, cigars and cigarettes..... |                           | 325,941.99     |
| Net decrease of collections.....            |                           | 1,795,777.90   |

The increase in the quantity of tobacco and snuff and in the number of cigars and cigarettes for the last fiscal year over those taxed the previous fiscal year was:

|                            |          |               |
|----------------------------|----------|---------------|
| Manufactured tobacco ..... | pounds.. | 10, 456, 173  |
| Snuff .....                | do....   | 774, 157      |
| Total .....                |          | 11, 230, 330  |
| Cigars and cheroots .....  | number.. | 73, 906, 650  |
| Cigarettes .....           | do....   | 208, 444, 080 |
| Total.....                 |          | 282, 350, 730 |

The export account shows an increase in manufactured tobacco of 2,281,720 pounds, a decrease in the number of cigars exported of 1,224,435, and an increase of the number of cigarettes exported of 26,310,770.

COMPARATIVE STATEMENT.

The following exhibit shows in detail the receipts for the fiscal year ended June 30, 1892, from each particular source of the tobacco tax, as compared with those for the previous fiscal year:

RECEIPTS FROM TOBACCO AND SNUFF.

|   |                     |
|---|---------------------|
| Manufactured tobacco.....               | a\$15, 237, 742. 32 |
| Snuff.....                              | 669, 861. 08        |
| Total for year ended June 30, 1892..... |                     |
| Total for year ended June 30, 1891..... | 17, 806, 788. 06    |
| Decrease in collections.....            |                     |
| As follows:                             | 1, 899, 184. 66     |
| From chewing and smoking tobacco.....   | 1, 842, 890. 35     |
| From snuff .....                        | 56, 294. 31         |

RECEIPTS FROM CIGARS AND CIGARETTES.

|   |                    |
|---|--------------------|
| Cigars and cheroots.....                | \$13, 646, 398. 25 |
| Cigarettes.....                         | 1, 446, 491. 42    |
| Total for year ended June 30, 1892..... |                    |
| Total for year ended June 30, 1891..... | 15, 092, 889. 67   |
| Increase in collections.....            |                    |
|   | 14, 766, 947. 68   |
|   | 325, 941. 99       |

Of this increase \$221,719.95 was on cigars and \$104,222.04 was on cigarettes.

NO RECEIPTS FROM SPECIAL TAXES.

The act of October 1, 1890, repealed all special taxes relating to tobacco, and therefore there were none paid during the fiscal year ended June 30, 1892.

PRODUCTION OF TOBACCO, SNUFF, CIGARS, AND CIGARETTES.

The production of tobacco, snuff, cigars, and cigarettes for the fiscal year ended June 30, 1892, computed from the receipts from stamps sold for all such goods as were put on the market for consumption, together

<sup>a</sup>Including \$84.16, receipts at 8 cents per pound.

with those removed in bond for export and including importations for consumption, was:

## TOBACCO AND SNUFF.

|   | Pounds.            |
|---|--------------------|
| Tobacco .....   | 253,962,021        |
| Snuff .....   | 11,164,351         |
| <b>Total tobacco and snuff taxed</b> .....              | <b>265,126,372</b> |
| Tobacco and snuff exported .....                        | 15,136,711         |
| <b>Total production for fiscal year 1892</b> .....      | <b>280,263,083</b> |
| Deduct tobacco and snuff imported for consumption ..... | 395,957            |
| <b>Total domestic production</b> .....                  | <b>279,867,126</b> |
| Total production 1891 .....                             | 266,751,033        |
| Less imports .....                                      | 490,670            |
|   | <hr/>              |
|   | 266,260,363        |
| <b>Total increase over fiscal year 1891</b> .....       | <b>13,606,763</b>  |

The increase of taxed tobacco and snuff over fiscal year 1891 was 11,230,330 pounds; the increase of tobacco and snuff exported was 2,281,720 pounds; and the decrease of tobacco and snuff imported and withdrawn for consumption was 94,713 pounds.

## CIGARS AND CHEROOTS.

|  | Number.              |
|--|----------------------|
| Cigars and cheroots taxed .....  | 4,548,799,417        |
| Add quantity exported .....  | 1,985,049            |
| <b>Total taxed and exported</b> .....  | <b>4,550,784,466</b> |
| Deduct quantity imported 1892 (estimated average, 12 pounds per 1,000) ..... | 52,726,233           |
| <b>Total domestic production 1892</b> .....                                  | <b>4,498,058,233</b> |
| Taxed in 1891 .....  | 4,474,892,767        |
| Exported in 1891 .....   | 3,209,484            |
|  | <hr/>                |
| <b>Total for 1891</b> .....  | <b>4,478,102,251</b> |
| Less imported .....  | 71,405,270           |
|  | <hr/>                |
|  | 4,406,696,981        |
| <b>Increase over fiscal year 1891</b> .....                                  | <b>91,361,252</b>    |

The increase during the fiscal year 1892 of taxed cigars was 73,906,650; the decrease of cigars exported was 1,224,435, and the decrease of cigars imported and withdrawn for consumption was 18,679,037.

## CIGARETTES.

|  | Number.              |
|--|----------------------|
| Cigarettes taxed .....   | 2,892,982,840        |
| Add cigarettes exported .....  | 320,845,020          |
| <b>Total taxed and exported</b> .....                                    | <b>3,213,827,860</b> |
| Deduct cigarettes imported (estimated average, 3 pounds per 1,000) ..... | 3,424,923            |
| <b>Total product for fiscal year 1892</b> .....                          | <b>3,210,402,937</b> |
| Taxed in 1891 .....  | 2,684,538,760        |
| Exported in 1891 .....   | 294,534,250          |
|  | <hr/>                |
| <b>Total taxed and exported</b> .....                                    | <b>2,979,073,010</b> |
| Less imported 1891 .....   | 2,802,125            |
|  | <hr/>                |
|  | 2,976,270,885        |
| <b>Increase over fiscal year 1891</b> .....                              | <b>234,132,052</b>   |

<sup>a</sup>Including 1,052 pounds taxed at 8 cents per pound.

The increase during the fiscal year 1892 of taxed cigarettes was 208,444,080, and of cigarettes exported was 26,310,770. The increase of cigarettes imported and withdrawn for consumption was 622,798.

THE TABULAR STATEMENTS.

In the tables\* annexed will be found statements showing the manner in which the manufacturing is distributed among the different States and districts, the number of persons and firms engaged in each of the two branches of manufacturing, the quantity of different kinds of material used, and the quantity and kind of product manufactured. These tables are compiled from the reports received from the collectors of internal revenue of the transactions of manufacturers in their several districts for the calendar year ended December 31, 1891, a period of time differing from the fiscal year, which will account for any apparent discrepancies between them and the previous part of the report relating to tobacco.

There were in New York City thirty-four persons who qualified and kept books as tobacco manufacturers solely for the purpose of lawfully dealing in the refuse scraps, clippings, cuttings, and waste made by cigar manufacturers. They sort, sieve, and pack this material and export most of it to foreign countries. The rest they sell in bulk, under permits, to other manufacturers, who manipulate it and pack their product as smoking tobacco. During the year 1891 they purchased 1,330,880 pounds of such material, and exported and sold 1,159,131 pounds. These purchases and sales are not included in the tabular statement, because they did not pack and sell any of this tobacco for use and consumption.

Many cigar manufacturers who prepare for use and pack as smoking tobacco their refuse material, clippings, cuttings, and scraps have, during the year 1891, qualified as tobacco manufacturers, and the number of such manufacturers is thereby more than doubled when compared with the previous years.

STATEMENT SHOWING THE NUMBER, BY DISTRICTS, OF CIGAR MANUFACTURERS' ACCOUNTS REPORTED, THE QUANTITY OF TOBACCO USED, AND THE NUMBER OF CIGARS AND CIGARETTES REPORTED MANUFACTURED DURING THE CALENDAR YEAR JANUARY 1 TO DECEMBER 31, 1891.

| State.           | District. | No. of accounts. | Pounds of tobacco used. |             | Cigars manufactured. | Cigarettes manufactured. |

a Increase.

b Decrease.

NOTE 1.—Increase in "smoking" includes scraps, cuttings, and clippings put up by manufacturers of cigars who, under law and circular No. 361, qualified as manufacturers of tobacco.

NOTE 2.—Tax on tobacco and snuff year 1890 was 8 cents per pound, and for the year 1891 reduced to 6 cents per pound.

## SMOKING OPIUM.

Under the act of October 1, 1890, section 36, a tax of \$10 per pound was levied upon all opium manufactured in the United States for smoking purposes.

Proper regulations, blanks, forms, records, bonds, stamps, etc., have been prepared in accordance with the terms of said act, but no persons qualified as manufacturers of opium during the past fiscal year, and except the issuing by this office of proper stamps, records, blanks, etc., to the collectors of the first and fourth districts of California and the district of Montana, there is at present nothing to report in connection with the legitimate manufacture of opium in the United States under the provisions of said act.

After two years of experience with the practical operation of that part of the act of October 1, 1890, providing for the collection of a tax of \$10 a pound upon all opium manufactured in the United States for smoking purposes, it is found that additional legislation is necessary to an effective enforcement of the law.

During these two years a large portion of the opium seized for being unstamped has been released to the claimants because of the inability of the United States to prove its actual manufacture since October 1, 1890, in the face of testimony such as account books, bills of sale, etc., showing purchases of the opium before that date, which, it was morally certain, was fabricated for the occasion, but which it was impossible to overthrow by positive evidence.

As ample opportunity has been given to holders of opium, made or imported before the passage of the act, to bring it forward and have it marked for identification by the revenue officers, and many thousands of cans have been thus marked, it is believed that all smoking opium remaining unstamped or unidentified should be declared illicit. I therefore recommend that (following the precedents found in sections 3378 and 3403, Revised Statutes, as to tobacco, snuff, and cigars) an amendment be made to the law which shall provide that after its passage all smoking opium found unstamped shall be deemed to have been manufactured or imported since October 1, 1890, and shall be forfeited to the United States.

As section 39 of the act of October 1, 1890, has been found inadequate to the prevention or punishment of frauds in the stamping of smoking opium, being nothing more than a mere general reference to other highly penal statutes relating to the stamping of tobacco and snuff, and a declaration that their provisions shall, "as far as practicable," be made to apply to the stamping of smoking opium, and being, besides, fatally defective in the omission of the word "affixing," I would further recommend that the provisions of sections 3373, 3374, 3375, and 3376, Revised Statutes, be adapted to the stamping of prepared smoking opium, and so drawn up in detail and enacted.

## DIVISION OF LAW.

## REPORTS OF DISTRICT ATTORNEYS.

The following is an abstract of reports of district attorneys for the fiscal year 1891-'92 of internal-revenue suits and prosecutions pending, commenced, and disposed of:

| Suits and prosecutions.                      | Number of criminal actions. | Number of civil actions in personam. | Number of civil actions in rem. | Total.  |
|--|-----------------------------|--------------------------------------|---------------------------------|---------|
| Pending July 1, 1891.....                    | 5, 033                      | 149                                  | 46                              | 5, 228  |
| Commenced during fiscal year 1892.....       | 8, 355                      | 76                                   | 77                              | 8, 508  |
| Total .....                                  | 13, 388                     | 225                                  | 123                             | 13, 736 |
| Decided in favor of the United States:       |                             |                                      |                                 |         |
| Judgments and costs paid.....                | 1, 189                      | 16                                   | 15                              | 1, 220  |
| Judgments and costs not paid.....            | 3, 210                      | 40                                   | 5                               | 3, 255  |

**Total** .....

## ABATEMENT CLAIMS.

On the 1st of July, 1891, there were pending 1,497 claims for abatement of assessed taxes, amounting to \$270,679.56, and during the year 2,725 claims, amounting to \$561,478.91, were presented.

Of these, 3,076 claims, amounting to \$507,017.33, have been allowed by this office, and 927 claims, amounting to \$179,068.77, have been rejected or returned for amendment. This left 219 claims for abatement still pending on the 30th of June, 1892, amounting to \$146,072.37.

Since that date and up to October 1, 604 other claims have been filed, amounting to \$74,302.28; 334 claims have been allowed, amounting to \$45,024.25, and 114 rejected or returned for amendment, amounting to \$33,965.86, and on the 1st of October, 1892, 375 claims for abatement were pending, amounting to \$141,384.54.

## REFUNDING CLAIMS.

On the 1st of July, 1891, there were pending 140 claims for the refunding of taxes collected, amounting to \$132,984.02, and during the year 583 other claims, amounting to \$69,797.09, were presented.

Of these, 462 claims, amounting to \$34,366.31, have been allowed, and 124 claims, amounting to \$57,695.12, have been rejected or returned for amendment. This left 137 claims for refunding still pending on the 30th of June, 1892, amounting to \$110,719.68.

Since that date and up to the 1st of October, 1892, 66 other claims have been received, amounting to \$9,777.94. Of these, 55 claims have been allowed, amounting to \$9,286.14, and 17 have been rejected or returned for amendment, amounting to \$1,242.34, and on the 1st of October, 1892, 131 claims for refunding were pending, amounting to \$109,969.14.

## REBATE CLAIMS.

The report for 1891 embraced the work on rebate claims up to October 1, 1891.

On the 1st of October there were outstanding 467 claims, amounting to \$14,973.62. These claims had been returned for amendment. Since that date and up to June 30, 1892, 242 of those claims, amounting to \$7,831.00, were again received. Of that number, 174 claims were allowed, amounting to \$6,674.84, and 68 claims, amounting to \$1,229.60, were returned or rejected.

Since June 30 and up to October 1, 8 claims have been received, amounting to \$96.18, and they have been allowed.

## SALES OF REAL PROPERTY.

NOTE.—In the case of retail dealers in oleomargarine, the number of places where oleomargarine is sold or offered for sale is sometimes in excess of the number of persons who pay special taxes as retail dealers in oleomargarine, as will be seen by reference to the last column on pages 46, 47, and 48. This is accounted for from the fact that one retail dealer in some cases pays more than one special tax for the privilege of offering oleomargarine for sale at more than one store or place of business.

ACTUAL NUMBER OF SPECIAL-TAX PAYERS—Continued.

STATEMENT SHOWING, BY STATES AND TERRITORIES, THE ACTUAL NUMBER OF THE DIFFERENT KINDS OF SPECIAL-TAX PAYERS FOR THE FISCAL YEAR ENDED JUNE 30, 1892; ALSO THE NUMBER OF STAMPS ISSUED TO RETAIL DEALERS IN OLEOMARGARINE FOR THE SAME PERIOD—Continued.

## COMPARATIVE STATEMENT OF DISTILLERIES REGISTERED AND OPERATED.

The whole number of grain distilleries registered during the fiscal year ended June 30, 1892, was 1,663, of which number 1,457 were operated.

The numbers registered and operated during the fiscal year ended June 30, 1891, were 1,618 and 1,424, respectively, showing an increase during the last fiscal year of 45 in the number registered and of 33 in the number operated.

The larger portion of the increase in the number registered and in the number operated occurred in the class of distilleries having the smaller capacities for the production of spirits, there having been an increase of 36 in the number of distilleries of this class registered and an increase of 24 in the number operated.

In the class of larger distilleries there was an increase of 9 in the number registered and of 9 in the number operated.

During the fiscal year ended June 30, 1891, there were registered 1,378 distilleries of the smaller class, varying in daily grain capacity from not over 5 to not over 60 bushels each, and of this number 1,199, or 87+ per cent. were operated.

Of the larger distilleries having daily grain capacities varying from 60 bushels to several thousand bushels each, 240 were registered and 225, or 93+ per cent. were operated.

During the fiscal year ended June 30, 1892, of the smaller distilleries 1,414 were registered and 1,223, or 85 per cent. were operated.

Of the larger distilleries 249 were registered and 234, or nearly 94 per cent. were operated.

There were 10 rum distilleries registered and 10 operated, a decrease of 1 from the number reported for the previous fiscal year.

There were 4,481 fruit distilleries registered and 4,458 operated, an increase of 2,061 in the number registered and of 2,074 in the number operated during the fiscal year.

The total number of grain, molasses, and fruit distilleries registered and operated during the year is 6,154 and 5,925, respectively.

There was an increase of 2,105 in the number of all kinds of distilleries registered and of 2,106 in the number of all kinds operated during the fiscal year ended June 30, 1892, as compared with the fiscal year ended June 30, 1891.

| Total.....          | 3,129,123       | 74,801          | 14,413          | 4,321,168       | 18,909,462      | 10,701          | 17,665          | 3,049,771       | 12,495           | 26,489,827      | 3,049,771       |

The average yield per bushel of grain was  $\frac{112,812,723}{26,567,451} = 4.24+$  gallons of spirits.

The average yield per gallon of molasses was  $\frac{1,956,313}{2,550,759} = .766+$  of a gallon of rum.

\* Four hundred and ninety-nine thousand and twelve gallons of molasses were used for the production of spirits instead of rum; and their equivalent, estimated in bushels of grain, is added to the total grain in determining the yield per bushel of grain.

## COMPARATIVE STATEMENT OF MATERIALS USED AND SPIRITS PRODUCED DURING THE LAST TEN FISCAL YEARS.

| Year.        | Grain used.     | Spirits produced. | Molasses used.  | Rum produced.   |

| 1892.....    | 26,489,827      | 112,812,723       | 2,550,759       | 1,956,318       |
| Total.....   | 207,746,671     | 864,197,294       | 23,677,037      | 18,012,196      |
| Average..... | 20,774,667      | 86,419,729        | 2,367,703       | 1,801,219       |

The quantity of grain used in the production of spirits during the fiscal year ended June 30, 1892 (26,489,827 bushels), is an increase of 142,186 bushels over the amount used in the preceding fiscal year (26,347,641 bushels), and is 5,715,160 bushels more than the average (20,774,667 bushels) for the last ten years. The number of gallons of spirits produced from grain during the year (112,812,723 gallons) shows a decrease of 1,365,354 gallons from the product (114,178,077 gallons) of the year ended June 30, 1891, and is 26,392,994 gallons more than the average produced (86,419,729 gallons) for the last ten years.

The yield of spirits from each bushel of grain is 4.24+ gallons. The yield for the two preceding years was 4.27+ for 1890 and 4.32+ for 1891.

The quantity of molasses used for the production of rum during the fiscal year (2,550,759 gallons) shows an increase of 182,588 gallons over the quantity used in the previous year (2,368,171 gallons), and is 183,056 gallons more than the average (2,367,703 gallons) for the last ten years.

The quantity of rum distilled from molasses during the fiscal year (1,956,318 gallons) shows an increase of 172,006 gallons over the product of the previous year (1,784,312 gallons), and is 155,099 gallons more than the average product (1,801,219 gallons) for the last ten years.

## DISPENSING WITH GAUGING OUT FROM RECTIFYING HOUSES.

At its last session Congress, complying with our recommendations, passed an act dispensing with the gauging of spirits after rectification. The effect of this act will be to reduce the expenses of this Bureau more than \$100,000 annually. Regulations have been promulgated requiring the rectifier to mark and stamp the spirits rectified by him and make reports. It is believed that this system will be much more satisfactory to the trade, as well as saving a large sum annually to the Government.

SPIRITS GAUGED IN 1891.

STATEMENT SHOWING THE QUANTITIES, IN TAXABLE GALLONS, OF DISTILLED SPIRITS GAUGED DURING THE FISCAL YEAR ENDED JUNE 30, 1891, BY STATES AND TERRITORIES.

| States and Territories. | Distilled spirits other than apple, peach, and grape brandies-- |                            |             |  |   |                           | Apple, peach, and grape brandies produced, and withdrawn from special bonded warehouses, tax-paid, for export, and use of U. S. | Total gauged. |             |
|-------------------------|---|----------------------------|-------------|--|---|---------------------------|---|---------------|-------------|
|                         | Deposited in warehouse.   | Withdrawn from warehouse-- |             |  |   | Dumped for rectification. |   |               | Rectified.  |
|                         |   | On payment of the tax.     | For export. | For scientific purposes and use of the U. S. | For transfer to manufacturing warehouses. |                           |   |               |             |

## CHANGE IN METHOD OF GAUGING DISTILLED SPIRITS.

In my last annual report I advised you that new regulations had been prepared, approved by you, providing for a change in the method of gauging distilled spirits, from rod or caliper measurement to weight, and that a contract had been entered into with the Fairbanks Scales Company for furnishing weighing beams for this purpose. On the 15th day of March, 1892, the collectors of the several districts and distillers throughout the country were notified that the change would take effect on the 1st day of May following, at which time the new system was put into operation.

Considering the great changes resulting in the commercial methods of those engaged in the manufacture and sale of distilled spirits, the new system has produced but little friction. The few complaints that have been made arose mostly from misunderstandings on the part of the tax-payers as to the details of the system, and from the inexperience of the officers in applying the same.

I desire to state that the change was not advised because it was seriously believed that any great amount of distilled spirits had escaped taxation under the old system; for while it was possible that by manipulations of mechanics in the construction of packages, and the manipulations of cistern-room employés for the purpose of producing fractions of less than fifty one-hundredths of a gallon, a considerable quantity of spirits might escape taxation; on the other hand it was equally possible that where these methods did not prevail the Government had received tax in many instances upon more distilled spirits than the packages actually contained.

The object to be accomplished was to determine as accurately as possible the capacity of casks of spirits put up under the internal-revenue law. The varying results obtained by the measurement of the same package by the same rod, in the hands of different officers, had for nearly thirty years been the source of constant strife between the distiller on the one side and the Government officer on the other. It was believed that a method could be devised by which this source of trouble could be eliminated, and I am pleased to report that I think the problem has been solved by the adoption of the method of weighing for determining the contents of packages.

In order to present to you as clearly as possible some of the results that have been reached under the new system, I have caused data to be gathered comparing the first three months of the weighing system with the corresponding three months of 1891, when the gauging rod was still in use. For this purpose spirits warehoused in the spirit-producing sections of the States of Illinois, Indiana, Minnesota, Missouri, Nebraska, and Ohio were selected, for the reason that spirits produced in those States are at once withdrawn from warehouse and placed upon the market.

During the months of May, June, and July, 1891, there were entered into warehouse in the States referred to 157,753 packages, containing an average of 66.16 proof gallons each, making an aggregate of 10,422,814.81 proof gallons under rod measurement; while in the three corresponding months of 1892, when gauging was done by scales, there were entered into the same warehouses 167,018 packages, containing 66.72 proof gallons each, making a total of 11,129,810.56 proof gallons.

The marked fact to be observed in the above data is, that of the 324,771 packages entered into warehouse in the two periods referred to, the 167,018 gauged by scales contained an average of .56

proof gallons to the package more than those gauged by the rod. While this increase might have occurred had the rod remained in use, yet, in view of the fact that the packages were filled at the same distilleries, with the same character of spirits, and were constructed by the same coopers in the same manner, it is believed to be a just conclusion that the increase in proof gallons contents is due to the use of the scales. Of the 10,422,814.81 gallons entered into warehouse by rod measurement in the first period named, the distillers found it possible, by manipulation of fractions, to evade taxation on fifty-two one hundredths of 1 per cent, or 54,386.81 gallons, while of the 11,129,810.56 proof gallons warehoused under the weighing system in May, June, and July, 1892, only eighteen one-hundredths of 1 per cent, or 20,733.56 gallons escaped taxation. There can be no question that this reduction in the percentage of loss of tax on fractions is due to the use of the scales.

An examination of the spirits deposited in warehouse during the two periods named demonstrates the fact that the Government lost in taxes on fractional parts of gallons of less than fifty one-hundredths of a gallon to the package, during the first period, \$48,947.40, while during the corresponding period in 1892, the loss from the same cause was only \$18,659.70, a reduction in loss from the preceding year of \$30,287.70. This result is not a matter of speculation, but a fact, as shown by the records of this office.

The only problem involved in the change which I have not been able to solve to my entire satisfaction is that of soakage. The difficulty in this question is due to the great variety of packages, a different allowance for soakage being claimed on each kind, and to the fact that the interests of different classes of distillers are necessarily differently affected by any uniform rule.

While I am convinced that the information obtainable from the various sources above referred to by a series of experiments covering a period of three years would enable this office to settle the question in a manner that would be not only equitable but satisfactory to all, especially as to charred barrels, yet such a course would involve some complications which should be avoided if possible. I am therefore considering the propriety of disposing of this matter by abandoning the theory of soakage as to all packages except, perhaps, charred barrels, and using the wantage rod for ascertaining the wantage, as provided for in the "Carlisle bill." This is believed to be entirely practicable by ascertaining the correction of volume applicable to each package and applying it in inverse order to that used when the spirits were entered into warehouse by caliper measurement. This would enable the taxpayer who desires to withdraw his goods on original gauge to pay the tax on the actual contents as then found by weight, and would also enable the taxpayer who desires to withdraw his goods from warehouse on regauge, as now provided for by law, to do so by having the proof taken, the correction of volume applied, and the wantage ascertained. In this way it is hoped that all ground for controversy between the Government and the taxpayer on this question would be eliminated.

#### AMENDMENTS SUGGESTED TO EXISTING LAWS.

While it is believed that only a very small per cent. of distilled spirits has escaped taxation, yet I deem it proper to say that this office has experienced very great difficulty in enforcing the law in relation to small distilleries. During the past fiscal year 753 grain distilleries have been in operation with a producing capacity of 5 bushels and less. Section

5 of the act of March 3, 1879, authorized the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, to exempt distillers whose distilleries have a daily spirit-producing capacity of 30 gallons of proof spirits or less, from such of the provisions of existing law in regard to grain distilleries which require the process to be carried on through continuous closed vessels and pipes, or which require the cisterns to be connected with the outlet of the worm, and from doing certain other things required of large distilleries. The Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shortly after the passage of this act, exempted these small distillers from constructing their distilleries after the plan of larger ones. I am of the opinion that this was a mistake, or, at least, that the construction of small distilleries is not now sufficiently under the control of the Internal Revenue Bureau. Many of them are crude, and opportunities for committing fraud on the Government are manifold.

Another fruitful source of fraud upon the revenue in these small distilleries is in permitting the distiller alone to determine whether or not he is operating under a sweet or sour mash process, and thus to fix the fermenting period of his distillery.

I have also found it very difficult to secure the services of efficient officers at these small distilleries, for the reason that the salary of the storekeeper-gaugers assigned to them is limited by law to \$2 per day. These small distilleries are located in a few States, a majority in one State. This branch of the service has been very unsatisfactory. I have used all the means within the control of the office to remedy these evils. I am of the opinion that they will continue until there is a radical change in the law upon the subject.

I beg to recommend, therefore, first, that as a remedy the laws be so amended as to withdraw the exemptions heretofore allowed in the construction of these small grain distilleries.

Second, I recommend that section 3264, in relation to surveys of distilleries, be so amended as to allow the Commissioner of Internal Revenue to fix the fermenting period of any distillery with reference to the process of distillation to be adopted by such distillery. The distiller should be required to submit to the collector or officer making the survey a full and detailed statement of the process of distillation intended to be adopted by him and the fermenting period be determined thereby. Under the present law the officer making the survey ascertains the fermenting period by an indirect and very difficult method. Instead of ascertaining directly the time required for fermentation, he must determine whether or not the distillery is to be operated under a sweet or sour mash process. The fermenting period under a sour-mash process is ninety-six hours. Under a sweet-mash process it is seventy-two hours. It is quite easy, especially in small distilleries where the surveillance of an officer is limited, for the distiller to claim to operate under the sour-mash system with a fermenting period of ninety-six hours and in fact use a sweet-mash system, thereby largely increasing the number of mashes allowed by his survey. It is possible in this way for a distiller to manufacture a very considerable quantity of spirits and evade the payment of tax.

Third, I would recommend that the law be so amended that all storekeeper-gaugers be paid such a compensation as may be allowed by the Commissioner of Internal Revenue, not to exceed \$4 per day, when acting as storekeeper-gauger or as storekeeper. This would give an opportunity to select a more efficient class of officers in many cases.

Fourth, I would recommend that the offices of storekeeper and of gauger be abolished, and that there be appointed in lieu of such officers

an officer to be known as a storekeeper-gauger, who shall be authorized by law in all cases to perform the duties now required of either a storekeeper or a gauger or both; and that while acting as a gauger he have the same fees now allowed gaugers, and that while acting as a storkeeper he be allowed a per diem of not to exceed \$4. By allowing one officer to act in this capacity, the services of an additional man may very frequently be dispensed with. The two positions are in no wise inconsistent. Storekeeper-gaugers have been used for a number of years at small distilleries, and I know of no reason why they may not be used at larger ones.

### DIVISION OF ASSESSMENTS.

The following statements relative to assessments, to spirits deposited in and withdrawn from distillery warehouses and special bonded warehouses, the number and location of such warehouses and the names of the proprietors thereof; to the stock of spirits in the United States October 1, 1892; to the exportation of spirits, fermented liquors, tobacco, snuff, cigars, and cigarettes in bond; to the exportation of tobacco, cigars, fermented liquors, and stills, with benefit of drawback; to the use of grape brandy tax-free in fortifying wines; to the act of October 12, 1888, entitled "An act to prevent the manufacture or sale of adulterated food or drugs in the District of Columbia," and to the act of March 3, 1891, authorizing the use of alcohol tax-free in the manufacture of sugar from sorghum, are prepared from reports in the Division of Assessments. The statements relative to assessments are to be found on this page and the page following; statements relative to operations in distillery warehouses commence on page 79 (see also special index on page 78); to operations in special bonded warehouses on page 164; to exportations in bond free of tax as to spirits on page 138; as to fermented liquors on page 175; as to tobacco, snuff, cigars, and cigarettes on page 173; to exportations with benefit of drawback on page 174; and to the use of brandy in fortifying wines on page 171. No case has yet arisen under the act of March 3, 1891, above referred to, and two only during the year under the act of October 12, 1888.

### ASSESSMENTS.

#### 1. BY STATES AND TERRITORIES, 1892.

The following statement shows the amount of assessments in each of the several States and Territories of the United States, except where two or more are comprised in one district, during the fiscal year ended June 30, 1892:

| States and Territories.                            | Amount.         | States and Territories.                 | Amount.         |
|--|-----------------|---|-----------------|
| Alabama .....                                      | \$4, 839. 16    | Montana, Idaho, and Utah .....          | \$3, 023. 75    |
| Arkansas .....                                     | 6, 441. 10      | Nebraska, North and South Dakota .....  | 21, 217. 97     |
| California and Nevada .....                        | 39, 193. 31     | New Hampshire, Maine, and Vermont ..... | 4, 197. 89      |
| Colorado and Wyoming .....                         | 3, 407. 21      | New Jersey .....                        | 20, 624. 44     |
| Connecticut and Rhode Island .....                 | 39, 303. 46     | New Mexico and Arizona .....            | 3, 168. 04      |
| Florida .....                                      | 4, 286. 06      | New York .....                          | 44, 463. 04     |
| Georgia .....                                      | 7, 607. 08      | North Carolina .....                    | 69, 348. 93     |
| Illinois .....                                     | 44, 828. 74     | Ohio .....                              | 120, 311. 40    |
| Indiana .....                                      | 164, 416. 48    | Oregon, Washington, and Alaska .....    | 4, 272. 71      |
| Iowa .....   | 15, 766. 55     | Pennsylvania .....                      | 735, 996. 37    |
| Kansas, Indian Territory, and Oklahoma .....       | 4, 107. 71      | South Carolina .....                    | 3, 850. 73      |
| Kentucky .....                                     | 3, 734, 758. 38 | Tennessee .....                         | 125, 450. 53    |
| Louisiana and Mississippi .....                    | 9, 684. 76      | Texas .....                             | 13, 178. 90     |
| Maryland, Delaware, and District of Columbia ..... | 353, 455. 29    | Virginia .....                          | 33, 527. 02     |
| Massachusetts .....                                | 87, 971. 95     | West Virginia .....                     | 70, 178. 61     |
| Michigan .....                                     | 13, 770. 79     | Wisconsin .....                         | 4, 711. 30      |
| Minnesota .....                                    | 5, 575. 90      |   |                 |
| Missouri .....                                     | 18, 275. 58     | Total .....                             | 5, 840, 211. 14 |

Taxes on deficiencies in the production of distilled spirits and on excess of materials used by distillers abated before assessment during the fiscal year ended June 30, 1892, are as follows:

|  |              |
|--|--------------|
| Sixty claims received from grain-distillers, amount of tax abated— |              |
| On excess of material used.....                                    | \$3, 817. 15 |
| On deficiencies in production of distilled spirits.....            | 57, 722. 29  |
| Total.....   | 61, 539. 44  |
| Claims received from fruit-distillers, amount of tax abated—       |              |
| On deficiencies in production of distilled spirits.....            | 1, 060. 27   |
| Total, grain and fruit.....  | 62, 599. 71  |

2. BY ARTICLES AND OCCUPATIONS, 1891 AND 1892.

The following table shows the assessments made by the Commissioner of Internal Revenue during the fiscal years ended June 30, 1891, and June 30, 1892, respectively, and the increase or decrease on each article or occupation:

| Description of tax by article or occupation.  | Assessed during fiscal year ended— |                 | Fiscal year ended June 30, 1892. |                     |
|---|------------------------------------|-----------------|----------------------------------|---------------------|
|   | June 30, 1891.                     | June 30, 1892.  | Increase over 1891.              | Decrease from 1891. |
| Tax on deficiencies in production of distilled spirits.....   | \$63, 458. 05                      | \$74, 806. 52   | \$11, 348. 47                    | .....               |
| Tax on excess of materials used in the production of distilled spirits.....   | 5, 289. 61                         | 4, 430. 15      | .....                            | \$859. 46           |
| Tax on circulation of banks and others.....   | .....                              | .....           | .....                            | .....               |
| Tax on distilled spirits fraudulently removed or seized, also taxes overdue.....  | 3, 418, 890. 10                    | 5, 356, 190. 50 | 1, 937, 300. 40                  | .....               |
| Tax on fermented liquors removed from brewery unstamped.....  | 23, 813. 58                        | 7, 547. 49      | .....                            | 16, 266. 09         |
| Tax on tobacco, snuff, and cigars removed from factory unstamped.....   | 14, 718. 12                        | 11, 666. 32     | .....                            | 3, 051. 80          |
| Tax on oleomargarine sold without payment of tax.....   | 268. 32                            | 51. 80          | .....                            | 216. 52             |
| Assessed penalties.....   | 83, 699. 91                        | 94, 804. 96     | 11, 105. 05                      | .....               |
| Unassessed and unassessable penalties, interest, deficiencies in bonded accounts which have been collected, taxes previously abated, conscience money, also fines, penalties, and forfeitures and costs paid to collectors by order of court or by order of Secretary, and unassessable taxes recovered; also amount of penalties and interest received for validating unstamped instruments (Form 58)..... | 263, 884. 60                       | 246, 133. 11    | .....                            | 17, 751. 49         |
| Special taxes (licenses).....   | 25, 048. 20                        | 44, 580. 29     | 19, 532. 09                      | .....               |
| Total.....  | 3, 899, 070. 49                    | 5, 840, 211. 14 | 1, 979, 286. 01                  | 38, 145. 36         |

STATEMENT AS TO STAMP TAXES ASSESSED.

Since January 1, 1892, all taxes payable by stamps not paid at the time and in the manner required by law have been assessed and accounted for separately from those not payable by stamps. The amount of stamp taxes so assessed and accounted for is as follows:

ASSESSMENTS.

|                        |                   |
|------------------------|-------------------|
| Stamp tax spirits..... | \$4, 716, 901. 40 |
| Special taxes.....     | 18, 116. 19       |
| Total.....             | 4, 735, 017. 59   |

## INCREASED PRODUCTION OF SPIRITS.

The quantity of spirits (114,769,041 gallons) produced and deposited in distillery warehouses during the fiscal year ended June 30, 1892, is less than the production (115,962,389 gallons) of the year 1891, by 1,193,348 gallons. The difference is distributed among the different kinds as known to the trade as follows:

|   |                    |
|---|--------------------|
| Decrease in the production of—          | Gallons.           |
| High wines .....                        | 373, 480           |
| Eye whisky .....                        | 1, 004, 949        |
| Bourbon whisky .....                    | 913, 618           |
| Miscellaneous .....                     | 3, 778, 812        |
| <b>Total decrease .....</b>             | <b>6, 070, 859</b> |
| Increase in the production of—          | Gallons.           |
| Alcohol .....                           | 2, 230, 166        |
| Rum .....                               | 172, 006           |
| Gin .....                               | 44, 743            |
| Pure, neutral, or cologne spirits ..... | 2, 430, 596        |
| <b>Total increase .....</b>             | <b>4, 877, 511</b> |
| <b>Net decrease.....</b>                | <b>1, 193, 348</b> |

Although the quantity of spirits deposited in distillery warehouses during the year was, as above stated, less than the quantity deposited in 1891, the production of spirits, including fruit brandy, was greater, it being 118,436,506 gallons, as against 117,767,101 gallons, the product of the year 1891. The largest spirit-producing year known to this office was the year 1881, with a product of 119,528,011 gallons. (See table on page 364.)

\* \* \* \* \*

INCREASED WITHDRAWAL OF TAX-PAID SPIRITS.

The quantity of spirits (92,985,265 gallons) withdrawn tax-paid from distillery warehouses during the fiscal year ended June 30, 1892, is more than the quantity (87,176,226 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1891, by 5,809,039 gallons, the increase being distributed among the different kinds known to the trade as follows:

|   |                    |
|---|--------------------|
| Increase in withdrawals of—             | Gallons.           |
| Rye whisky .....                        | 288, 830           |
| Alcohol .....                           | 1, 315, 998        |
| Gin .....                               | 25, 969            |
| Pure, neutral, or cologne spirits ..... | 2, 379, 001        |
| Bourbon whisky .....                    | 5, 132, 481        |
| <b>Total increase .....</b>             | <b>9, 142, 279</b> |
| Decrease in withdrawals of—             | Gallons.           |
| Rum .....                               | 45, 570            |
| High wines .....                        | 377, 035           |
| Miscellaneous .....                     | 2, 910, 635        |
| <b>Total decrease .....</b>             | <b>3, 333, 240</b> |
| <b>Net increase .....</b>               | <b>5, 809, 039</b> |

If the quantity, 1,026,278 gallons (as stated by the Chief of the Bureau of Statistics), of exported domestic spirits reimported during the year upon payment of a customs duty equal to the internal-revenue tax be added, the quantity virtually withdrawn from distillery warehouses during the year ended June 30, 1892, is found to be 94,011,543 gallons, or 5,753,835 gallons more than during the year 1891, including the 1,081,482 gallons reimported and tax-paid during that year.

\* \* \* \* \*

DISTILLED SPIRITS ALLOWED FOR LOSS BY LEAKAGE OR EVAPORATION IN WAREHOUSE.

The quantity of spirits (3,532,810 gallons) reported in the preceding table as lost by leakage or evaporation in warehouse is that portion of actual leakage in warehouse from packages withdrawn during the year

which has been allowed in accordance with the provisions of section 17 of the act of May 28, 1880.

The following statement shows the quantity of spirits, as per original gauge, withdrawn from warehouse for all purposes during the stated period, and the amount and percentage of leakage allowed thereon under the provisions of the act named:

| Year.      | Total quantity withdrawn. | Leakage allowed. | Percentage of withdrawals. |
|------------|---------------------------|------------------|----------------------------|
|            | <i>Gallons.</i>           | <i>Gallons.</i>  |                            |
| 1880 ..... | 78, 199, 283              | 75, 834          | 0.096                      |
| 1881 ..... | 84, 335, 900              | 811, 466         | 0.962                      |
| 1882 ..... | 80, 281, 611              | 1, 231, 336      | 1.533                      |
| 1883 ..... | 83, 291, 190              | 2, 291, 013      | 2.750                      |

| 1885 ..... | <i>a</i> 90, 925, 782     | 4, 424, 314      | 4.866                      |
| 1886 ..... | <i>b</i> 78, 566, 767     | 1, 806, 868      | 2.299                      |
| 1887 ..... | 70, 782, 951              | 1, 833, 681      | 2.591                      |
| 1888 ..... | 74, 391, 751              | 2, 209, 327      | 2.969                      |
| 1889 ..... | 81, 879, 458              | 3, 145, 111      | 3.841                      |
| 1890 ..... | 88, 066, 945              | 2, 932, 249      | 3.329                      |
| 1891 ..... | 92, 761, 985              | 2, 420, 256      | 2.609                      |
| 1892 ..... | 100, 094, 159             | 3, 532, 810      | 3.529                      |

*a* Includes 7,750,696 gallons stamped for export not actually withdrawn.

*b* Includes 2,494,091 gallons stamped for export not actually withdrawn.

The increase of leakage allowed as compared with the year 1891 is 1,112,554 gallons and is distributed among the different kinds of spirits known to the trade as follows:

|   |             |
|---|-------------|
| Increase of leakage allowed for—              | Gallons.    |
| Bourbon whisky .....                          | 827, 937    |
| Rye whisky .....                              | 212, 130    |
| Alcohol .....                                 | 6, 717      |
| High wines .....                              | 4, 432      |
| Pure, neutral, or cologne spirits .....       | 27, 983     |
| Miscellaneous .....                           | 37, 918     |
| Total increase of leakage .....               | 1, 117, 117 |
| Decrease in leakage allowed for—              | Gallons.    |
| Rum .....                                     | 4, 002      |
| Gin .....                                     | 561         |
| Total decrease .....                          | 4, 563      |
| Net increase of leakage allowed in 1892 ..... | 1, 112, 554 |

DISTILLED SPIRITS IN THE UNITED STATES OCTOBER 1, 1892.

The quantity of distilled spirits in the United States, except what may be in customs bonded warehouses, on the 1st day of October, 1892, was 167,294,341 gallons, this quantity being distributed as follows:

|  | Gallons.    |
|--|-------------|
| In distillery warehouses .....             | 117,296,325 |
| In special bonded warehouses .....         | 2,125,274   |
| In hands of wholesale liquor dealers ..... | 15,557,642  |
| In hands of retail liquor dealers .....    | 32,315,100  |
| Total .....                                | 167,294,341 |

In making the above computation the average stock of each retail liquor dealer in the United States is estimated at 150 gallons.

FORTIFICATION OF WINES WITH GRAPE BRANDY FREE OF TAX.

Under the provisions of sections 42 to 49, inclusive, of the act entitled "An act to reduce revenue and equalize duties on imports, and for other purposes," approved October 1, 1890, provision is made for the fortification with grape brandy, free of tax, of pure sweet wine, and of wine intended for exportation. No limitations are prescribed as to the character of the wines intended for exportation, but certain limitations are

specified as to the pure sweet wine evidently designed to avoid the use of the brandy in fortifying wines other than pure sweet wines. The limitations are those requiring that the fortification be done in the winery where the grapes are crushed and the grape juice is expressed and fermented, that there must be no additions to the natural wine of any other substance, and that the addition of the brandy shall be for the preservation of the saccharine matter contained therein. The law also contains limitations to the effect that the wine to be fortified shall contain not less than 4 per cent of sugar, that the wine spirits added shall not introduce alcohol to exceed 14 per cent, and that the wine shall not contain more than 24 per cent of alcohol, these percentages of alcohol being computed by volume and on the volumes of the wine after fortification.

The law limits the use of wine spirits or brandy to the months of August to April, inclusive; allows the wine-producer who is also a distiller to use the grape brandy produced by him to fortify his wine, and authorizes the withdrawal of grape brandy from special bonded warehouse to fortify wine.

Authority is given to the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, to prescribe bonds, stamps, seals, and necessary regulations.

Early in the present fiscal year the regulations were revised by providing therein for a fortifying room to be secured by the seal locks used at distilleries by abolishing the use of seals on packages and of the 600-foot limit as to distance between the place where brandy is used in fortifying wine and a distillery rectifying house and other premises used for producing or storing distilled spirits. Improvements have been made during the year in testing the wines and in the instruments used. The instruments used to ascertain the saccharine strength and those used to show the alcoholic strength are all now contained in one case.

The quantity of grape brandy used in fortifying wines under the act of October 1, 1890, was 695,844 tax gallons, all but 68,560 gallons being derived directly from distillers. The kinds of wine fortified were port, angelica, muscat, sherry, malaga, tokay, sauterne, and sweet catawba, the quantity of fortified wine produced being 2,746,655½ gallons.

The quantity of brandy used and of each kind of wine fortified during the year in each district is shown in the following table:

## WINES FORTIFIED.

| Kinds.  | First California.                  |                                   | Fourth California.                 |                                   |
|---|------------------------------------|-----------------------------------|------------------------------------|-----------------------------------|
|   | Wine gallons before fortification. | Wine gallons after fortification. | Wine gallons before fortification. | Wine gallons after fortification. |
| Angelica .....  | 175, 218½                          | 214, 083                          | 140, 665                           | 165, 881                          |
| Malaga .....  |                                    |                                   | 61, 655                            | 62, 000                           |
| Muscat .....  | 94, 745                            | 114, 055                          | 26, 978                            | 31, 680                           |
| Port .....  | 1, 002, 951                        | 1, 193, 395                       | 445, 699½                          | 530, 349                          |
| Sherry .....  | 311, 651                           | 363, 222                          | 49, 459                            | 60, 161½                          |

WITHDRAWAL OF DISTILLED SPIRITS FROM DISTILLERY WAREHOUSES, FREE OF TAX, FOR USE IN THE MANUFACTURE OF SUGAR FROM SORGHUM.

By the act of Congress making appropriations for the Department of Agriculture for the fiscal year ending June 30, 1892, approved March 3, 1891, provision is made for the withdrawal of distilled spirits from distillery warehouses, free of tax, to be used solely in the manufacture of sugar from sorghum on the manufacturer's premises.

Regulations pursuant to said act have been issued, but no withdrawal of spirits for the purpose named was made or applied for during the fiscal year 1892.

OLEOMARGARINE.

The following statements, showing operations under the act of August 2, 1886, defining butter and imposing a tax upon and regulating the manufacture, sale, importation, and exportation of oleomargarine, comprise—

First. A summary of operations at oleomargarine manufactories during the fiscal year ended June 30, 1892; also a summary of operations during the past two fiscal years, and by months covering the period from November 1, 1886, to June 30, 1892; also a statement of the quantity of oleomargarine in the United States June 30, 1892, in the hands of manufacturers and wholesale dealers.

Second. A statement of the receipts from all classes of taxes imposed by the oleomargarine law for the year ended June 30, 1892.

Third. A statement by States and Territories showing the number of establishments for which special tax was paid to carry on during the fiscal year ended June 30, 1892, the business of manufacturing and

dealing in oleomargarine; also in aggregate of all persons who paid oleomargarine special taxes for the fourteen months ended June 30, 1891.

Fourth. A statement of the total production and of total receipts from all oleomargarine sources for each fiscal year since the oleomargarine law took effect.

It appears from the subjoined tables that the average monthly production of oleomargarine under the operations of the law has been as follows:

|  | Pounds.     |
|--|-------------|
| During the eight months ended June 30, 1887..... | 2, 711, 828 |
| During the fiscal year ended June 30, 1888.....  | 2, 860, 460 |
| During the fiscal year ended June 30, 1889.....  | 2, 972, 002 |
| During the fiscal year ended June 30, 1890.....  | 2, 693, 669 |
| During the fiscal year ended June 30, 1891.....  | 3, 699, 367 |
| During the fiscal year ended June 30, 1892.....  | 4, 030, 346 |

It also appears that the average monthly quantity withdrawn from factories on payment of the tax was as follows:

|  | Pounds.     |
|--|-------------|
| During the eight months ended June 30, 1887..... | 2, 592, 946 |
| During the fiscal year ended June 30, 1888.....  | 2, 707, 430 |
| During the fiscal year ended June 30, 1889.....  | 2, 821, 970 |
| During the fiscal year ended June 30, 1890.....  | 2, 566, 494 |
| During the fiscal year ended June 30, 1891.....  | 3, 601, 292 |
| During the fiscal year ended June 30, 1892.....  | 3, 909, 625 |

The average quantity withdrawn monthly for exportation during the same time is shown to have been as follows:

|  | Pounds.  |
|--|----------|
| During the eight months ended June 30, 1887..... | 90, 566  |
| During the fiscal year ended June 30, 1888.....  | 140, 516 |
| During the fiscal year ended June 30, 1889.....  | 145, 746 |
| During the fiscal year ended June 30, 1890.....  | 134, 866 |
| During the fiscal year ended June 30, 1891.....  | 102, 426 |
| During the fiscal year ended June 30, 1892.....  | 107, 981 |

In the fiscal years 1887 and 1888 the largest production month was March; in the fiscal year 1889, December; in the fiscal year 1890, October; in the fiscal year 1891, March; while the greatest production during the fiscal year ended June 30, 1892, occurred in March. The quantity produced during these months was as follows:

|                        | Pounds.     |
|------------------------|-------------|
| In March, 1887.....    | 3, 568, 254 |
| In March, 1888.....    | 3, 940, 727 |
| In December, 1888..... | 4, 181, 317 |
| In October, 1889.....  | 4, 072, 333 |
| In March, 1891.....    | 6, 723, 224 |
| In March, 1892.....    | 5, 916, 871 |

The months in which the production fell below 2,000,000 pounds were as follows:

|   |             |
|---|-------------|
| During the fiscal year ended June 30, 1887: |             |
| May, 1887, produced.....                    | 1, 885, 027 |
| June, 1887, produced.....                   | 1, 375, 423 |
| During the fiscal year ended June 30, 1888: |             |
| July, 1887, produced.....                   | 1, 208, 638 |
| During the fiscal year ended June 30, 1889: |             |
| June, 1889, produced.....                   | 1, 575, 362 |
| During the fiscal year ended June 30, 1890: |             |
| July, 1889, produced.....                   | 1, 404, 749 |
| August, 1889, produced.....                 | 1, 975, 773 |
| May, 1890, produced.....                    | 1, 864, 746 |
| June, 1890, produced.....                   | 1, 364, 826 |
| During the fiscal year ended June 30, 1891: |             |
| July, 1890, produced.....                   | 1, 723, 966 |
| June, 1891, produced.....                   | 1, 988, 633 |

There was an increase in the number of persons engaged in the sale of oleomargarine during the fiscal year ended June 30, 1892, as well as an increase in the production of the article.

The following table shows the quantity of oleomargarine, in pounds, at 2 cents tax, produced at manufactories during the fiscal year ended June 30, 1892, the quantity withdrawn therefrom during the year, and the stock of oleomargarine remaining in factories June 30, 1892:

SUMMARY OF OPERATIONS AT OLEOMARGARINE MANUFACTORIES DURING THE FISCAL YEAR ENDED JUNE 30, 1892.

|   | Pounds.      | Pounds.             |
|---|--------------|---------------------|
| Stock on hand July 1, 1891 .....  | 206, 728     |                     |
| Removed for export and remaining unaccounted for July 1, 1891 .....   | 100, 711     |                     |
|   |              | 307, 439            |
| Produced during the year .....  |              | 48, 364, 155        |
|   |              | <u>48, 671, 594</u> |
| Oleomargarine withdrawn from factories tax-paid .....   | 46, 915, 501 |                     |
| Oleomargarine lost or destroyed in manufactories .....  | 112          |                     |
| Withdrawn from manufactories for export and accounted for by clearance certificates filed .....                       | 1, 294, 630  |                     |
| Withdrawn from manufactories for export and accounted for by payment of tax on account of certificates not filed..... | 100          |                     |
|   |              | 48, 210, 343        |
| Removed for export not accounted for June 30, 1892.....   | 101, 763     |                     |
| Remaining in factories June 30, 1892.....   | 359, 488     |                     |
|   |              | 461, 251            |
|   |              | <u>48, 671, 594</u> |

OPERATIONS IN OLEOMARGARINE DURING THE LAST TWO FISCAL YEARS.

The following statement by districts shows the quantity, in pounds, of oleomargarine produced at manufactories, the quantity withdrawn therefrom tax-paid and for export, and the quantity lost or destroyed at manufactories during the two fiscal years ended June 30, 1891, and June 30, 1892, respectively; also the stock remaining on hand at the close of each year:

| Districts.                     | From July 1, 1890, to June 30, 1891. |                     |                       |                    |                                     |
|--------------------------------|--------------------------------------|---------------------|-----------------------|--------------------|-------------------------------------|
|                                | Produced.                            | Withdrawn tax-paid. | Withdrawn for export. | Lost or destroyed. | Remaining in factory June 30, 1891. |
| Colorado .....                 | 289, 603                             | 284, 808            |                       |                    | 7, 693                              |

| Total for 12 months ended June 30, 1892 ..... | 18                  | *257                              | 5,760                          | 6,035  |
| Total for 14 months ended June 30, 1891 ..... | 19                  | 255                               | 5,914                          | 6,188  |

\*The number of wholesale establishments that actually carried on business after paying the special tax was 249.

The following table of production and total receipts from all oleomargarine sources for each fiscal year since November 1, 1886, the date the oleomargarine law took effect, is interesting as showing the extent of operations in the country:

|  | Produced.   | Received.    |
|--|-------------|--------------|
| <i>Pounds.</i>   |             |              |
| On hand November 1, 1886 .....   | 181,090     |              |
| During the fiscal year ended June 30, 1887 (from November 1, 1886) ..... | 21,513,537  | \$723,948.04 |
| During the fiscal year ended June 30, 1888 .....                         | 34,325,527  | 864,139.88   |
| During the fiscal year ended June 30, 1889 .....                         | 35,664,026  | 894,247.91   |
| During the fiscal year ended June 30, 1890 .....                         | 32,324,032  | 786,291.72   |
| During the fiscal year ended June 30, 1891 .....                         | 44,392,409  | 1,077,924.14 |
| During the fiscal year ended June 30, 1892 .....                         | 48,364,155  | 1,266,326.00 |
| Total .....  | 216,764,776 | 5,612,877.69 |

## AMENDMENTS SUGGESTED TO PRESENT LAW.

Section 3 of the act of August 2, 1886, defines a retail dealer in oleomargarine to be "every person who sells oleomargarine in less quantities than 10 pounds at one time," whereas section 6 of this act provides that "retail dealers in oleomargarine must sell only from original stamped packages in quantities not exceeding 10 pounds."

To reconcile the two sections, section 6 should be amended by striking out the words "not exceeding," and inserting in lieu thereof the words "less than."

As a wholesale dealer in oleomargarine is defined to be a person who sells it "in the original manufacturer's packages" (section 3, act August 2, 1886); and it is further provided that "all sales made \* \* \* by wholesale dealers in oleomargarine shall be in original stamped packages;" persons who sell more than 10 pounds, not in the original stamped packages, can not, as the law stands, be required to pay special

tax as wholesale dealers; nor is there any criminal provision of the statutes directly reaching such cases.

If it be deemed unadvisable to change the law which confines a wholesale dealer in oleomargarine to selling only "original stamped packages," then the sale of 10 pounds or more, not in such packages, should be made a criminal offense by an amendment to section 6 of the act.

Section 41, act of October 1, 1890, requires wholesale dealers in oleomargarine to keep books and render returns in compliance with the regulations, but no penalty for violation of this section is provided for therein; and in view of recent decisions of the courts, it would seem that a penalty clause, directly accompanying the provisions of a statute requiring certain acts to be done, is essential to an effective enforcement of the law.

It is suggested that the last sentence of section 6, act of August 2, 1886, be stricken out and the following inserted:

"Every person who knowingly sells, or offers for sale, or delivers or offers to deliver, any oleomargarine, in quantities exceeding 10 pounds at one time, otherwise than in the original stamped packages, and every retail dealer in oleomargarine who sells or offers for sale, oleomargarine otherwise than as herein required, or delivers or offers to deliver oleomargarine in any other form than in new wooden or paper packages as above described, and every manufacturer, dealer, or other person, who packs in any package any oleomargarine in any manner contrary to law, or who falsely brands any package, or affixes a stamp on any package denoting a less amount of tax than that required by law, shall be fined for each offense not more than \$1,000 and be imprisoned not more than two years."

The third clause of section 3 should be amended by applying the provisions of that clause of section 3244 of the Revised Statutes relieving from liability to special tax persons selling oleomargarine as executors, administrators, or in any other fiduciary capacity.

Section 5 should require every manufacturer of oleomargarine to file with the collector of the district a description of the premises constituting his manufactory, and that no business shall be carried on on those premises except the manufacture of oleomargarine or of other substances necessary for and to be used exclusively in the manufacture of the oleomargarine produced thereon.

Section 6 should be amended by requiring that all oleomargarine intended for consumption or sale in this country should be packed as required by that section. The same section should provide that all oleomargarine intended for exportation to a foreign country should be packed in wooden or metallic tubs or other vessels, as prescribed by the Commissioner of Internal Revenue with the approval of the Secretary of the Treasury.

Section 16 should be amended by striking out the clause in the third and fourth lines "without affixing stamps thereto," thus giving the Commissioner, with the approval of the Secretary of the Treasury, authority to prescribe *export stamps* to be affixed to packages intended for exportation.

The last clause of the same section should be amended by substituting for the words "export oleomargarine" the words "remove from the place of manufacture oleomargarine for exportation," so as to require the package intended for export to be branded by the manufacturer before or at the time of removal.

I think there should be a penalty denounced in section 16 for failure to brand packages of oleomargarine intended for export as required in that section.

### BOUNTY ON SUGAR.

The act of October 1, 1890 (26 Stat., 567), entitled "An act to reduce the revenue and equalize duties on imports, and for other purposes," provided—

That on and after July first, eighteen hundred and ninety-one, and until July first, nineteen hundred and five, there shall be paid, from any moneys in the Treasury not otherwise appropriated, under the provisions of section three thousand six hundred and eighty-nine of the Revised Statutes, to the producer of sugar testing not less than ninety degrees by the polariscope, from beets, sorghum, or sugar cane grown within the United States, or from maple sap produced within the United States, a bounty of two cents per pound; and upon such sugar testing less than ninety degrees by the polariscope, and not less than eighty degrees, a bounty of one and three-fourths cents per pound, under such rules and regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury shall prescribe.

The law requires that the sugar-producer, intending to claim bounty, shall file, prior to July 1 of each year, with the Commissioner of Internal Revenue, a notice of the place of production, with a general description of the machinery and methods to be employed by him, with an estimate of the amount of sugar proposed to be produced in the current or next ensuing year, including the number of maple trees to be tapped, and make an application for a license, which notice and application must be accompanied by a bond in such an amount as the Commissioner shall prescribe.

The result of the first year's operations of the law relative to the bounty on sugar has been satisfactory.

#### NUMBER OF SUGAR PRODUCERS LICENSED.

The number of producers of sugar licensed during the last fiscal year was as follows:

|   |               |
|---|---------------|
| Number of producers from sugar cane .....         | 727           |
| Number of producers of sugar from beets .....     | 7             |
| Number of producers of sugar from sorghum .....   | 6             |
| Number of producers of sugar from maple sap ..... | 4, 240        |
| <b>Total .....</b>                                | <b>4, 980</b> |

The following tables show the number of licenses issued in each district and State, and the number of applications which were disallowed, for the most part because the papers were not filed within the time required by law:

\* \* \* \* \*

NUMBER OF SUGAR PRODUCERS IN THE UNITED STATES WHO WERE LICENSED TO MANUFACTURE SUGAR DURING THE FISCAL YEAR ENDED JUNE 30, 1892, UNDER THE PROVISIONS OF THE ACT OF OCTOBER 1, 1890, ARRANGED ACCORDING TO STATES, AND THE NUMBER OF APPLICATIONS FOR LICENSE DISALLOWED.

| Mississippi.....   |        | 1           |        |          |                          |
| Total.....         | 4,240  | 727         | 7      | 6        | 31                       |

\* Licensee made no sugar for bounty.

|  |       |
|--|-------|
| Total number of applications for license received.....     | 5,011 |
| Total number of licenses issued in twenty-four States..... | 4,980 |
| Number of applications for licenses disallowed.....        | 31    |

APPLICATION FOR LICENSES FOR THE YEAR 1892-'93.

The number of producers of sugar who have applied for a license for the year ending June 30, 1893, is considerably increased over last year, as shown by the following statement:

|   |       |
|---|-------|
| Number of producers of sugar from sugar cane..... | 651   |
| Number of producers of sugar from beets.....      | 6     |
| Number of producers of sugar from sorghum.....    | 2     |
| Number of producers of sugar from maple sap.....  | 6,100 |

Total..... 6,759

|  |       |
|--|-------|
| Number of licensed producers, 1891-'92.....        | 4,980 |
| Number of applicants for license for 1892-'93..... | 6,759 |

Increase..... 1,779

The increase is in maple sugar producers.

AMOUNT OF BOUNTY PAID DURING THE FISCAL YEAR ENDED JUNE 30, 1892.

The sum of \$7,342,077.79 was paid as bounty during the past fiscal year as follows:

|                               |                |
|-------------------------------|----------------|
| 1. Bounty paid on cane sugar: |                |
| Louisiana.....                | \$6,882,589.83 |
| Texas.....                    | 176,301.73     |
| Florida.....                  | 18,233.79      |
| Mississippi.....              | 190.86         |
| Total.....                    | 7,077,316.21   |

|                                     |                     |

| <b>Total .....</b>                  | <b>7,342,077.79</b> |

The number of different factories or licensed producers to whom bounty was paid was as follows, the same parties in some cases having more than one license:

|  |            |
|--|------------|
| Number of producers of sugar from sugar cane ..... | 645        |
| Number of producers of sugar from beets .....      | 6          |
| Number of producers of sugar from sorghum .....    | 3          |
| Number of producers of sugar from maple sap .....  | 103        |
| <b>Total .....</b>                                 | <b>757</b> |

Only a comparatively few applicants for bounty on maple sugar filed their claims in time for payment prior to July 1.

## RECAPITULATION.

|   | Pounds.              |
|---|----------------------|
| Vacuum-pan sugar .....                                  | 292, 734, 778        |
| Open-kettle sugar .....                                 | 85, 235, 557         |
| <b>Total</b> .....                                      | <u>377, 970, 335</u> |
| Sugar testing not less than 90° .....                   | 295, 317, 821        |
| Sugar testing less than 90° and not less than 80° ..... | 82, 652, 514         |
| <b>Total</b> .....                                      | <u>377, 970, 335</u> |

In some instances factories which reported to this office that they proposed to make sugar by the open-kettle process afterwards made sirup only at their factories and had it granulated elsewhere under vacuum-pan process. Returns not yet received may show a slight increase in the amount of vacuum-pan sugar made and a corresponding decrease in the amount of open-kettle sugar, the aggregate amount being as stated.

The cane sugar made which did not test 80°, or enough to obtain bounty, amounted to 326,085 pounds.

The cane sugar made during the year testing 80° or over upon which bounty was not claimed, or was not paid until after July 1 was 2,596,540 pounds.

The wagon sugars, the product of cane-sugar factories, of last season on hand July 1, and reported as in process of manufacture on that date, were as follows:

|                    | Pounds.            |
|--------------------|--------------------|
| Louisiana .....    | 3, 544, 291        |
| Texas .....        | 175, 000           |
| Florida .....      | 157, 740           |
| <b>Total</b> ..... | <u>3, 877, 031</u> |

The beet molasses, the product of the beet-sugar factories, of last season on hand July 1, held for subsequent treatment and reported as in process of manufacture, amounted to 593,189 gallons, capable of yielding 2,243,712 pounds of sugar, as estimated.

The total amount of sugar produced in the United States during the fiscal year ending June 30, 1892, not including wagon sugars held for subsequent treatment, was as follows:

|                         | Pounds.              |
|-------------------------|----------------------|
| Cane .....              | 367, 752, 306        |
| Beet .....              | 12, 004, 838         |
| Sorghum .....           | 1, 136, 086          |
| Maple (estimated) ..... | 32, 000, 000         |
| <b>Total</b> .....      | <u>412, 893, 230</u> |

As a large majority of the producers of maple sugar in the United States did not make application for license, this office can not furnish complete data as to the quantity of maple sugar produced in the United States. According to the returns of the census of 1890 there were in the United States, in 1889, 62,074 producers of maple sugar, and the quantity of sugar produced was 32,952,927 pounds, and the quantity of molasses 2,258,376 gallons.

## BEET-SUGAR FACTORIES.

The sugar-producing season commenced August 20, 1891, with beets. The Chino Valley Beet Sugar Company, Chino, Cal., commenced on that date, being the first sugar factory in the United States to commence operations under the bounty act. Owing to the favorable climate

in southern California, they are able to begin the campaign earlier there than in other sections.

Six beet-sugar factories were in operation last year, producing 12,004,838 pounds of sugar, operating on an average 58½ days, as follows: The Utah Sugar Company, Lehi, Utah; Alameda Sugar Company, Alvarado, Cal.; Western Beet-Sugar Company, Watsonville, Cal.; Chino Valley Beet-Sugar Company, Chino, Cal.; Oxnard Beet-Sugar Company, Grand Island, Nebr.; Norfolk Beet-Sugar Company, Norfolk, Nebr.

The same factories have been licensed for the year 1892-'93.

The production this year is expected to show considerable increase over last season, and a number of new factories will probably be erected at no distant day.

The beet-sugar producers reported 17,314½ acres of beets under cultivation for this year's crop. The amount of sugar to be produced will be from 27,000,000 to 30,000,000 pounds as estimated.

SUMMARY OF OPERATION OF BEET-SUGAR FACTORIES, 1891-'92.

|   |            |
|---|------------|
| Total number of factories.....  | 6          |
| Average number of days in operation.....  | 58½        |
| Number of employés.....   | 847        |
| Acres of beets used.....  | 7,155      |
| Tons of beets used.....   | 72,529.9   |
| Average yield in tons per acre.....   | 10.14      |

SUGAR MADE FROM SORGHUM.

The Medicine Lodge Sugar Works and Refining Company, Medicine Lodge, Kans., was the first sorghum factory to commence operations. It commenced August 31, 1891.

There were only three factories which claimed bounty during the fiscal year, all located in Kansas, a summary statement of the operations of which is given below. They were in operation an average of forty-four days and produced 1,113,086 pounds of sugar.

The only licensed sorghum-sugar factories for the current year are the Medicine Lodge Sugar Company (Limited), Medicine Lodge (formerly the Medicine Lodge Sugar Works and Refining Company), and the Parkinson Sugar Company, Kansas.

The act of March 3, 1891, making appropriations for the Department of Agriculture during the fiscal year ending June 30, 1892, authorized manufacturers of sugar from sorghum to use alcohol free of tax, under regulations to be prescribed by this office, with the approval of the Secretary of the Treasury. Sugar factories making sugar from sorghum have not, so far, taken advantage of this provision of law.

SUMMARY STATEMENT OF OPERATIONS OF SORGHUM SUGAR-FACTORIES IN KANSAS DURING THE YEAR ENDING JUNE 30, 1892.

|   |           |
|---|-----------|
| Total sorghum cane ground:                    |           |
| Acres.....                                    | 2,149.61  |

| Total number of employes.....                          | 182       |
| Average number of days in operation.....               | 44        |

## SUGAR FROM SUGAR CANE.

In Louisiana the sugar season commenced early in October. The first sugar was received at New Orleans October 9, 1891. There were 697 sugar producers licensed in that State, but only 619 made claims for bounty. Many planters did not grind at all, having found it more advantageous to sell their cane by the ton. Arrangements were made for weighing the sugar on the plantations and at New Orleans, in case the producer desired to ship it to that point. Deputies were designated by the collector for this duty with reference to the convenience of producers and the prompt and economical performance of the work.

The amount of sugar weighed in Louisiana at places of production was about 60 per cent of the crop, and at New Orleans about 40 per cent. In Florida and Texas all the sugar was weighed at the place of production.

In Florida there were 15 sugar producers licensed, 11 of whom applied for bounty.

In Texas there were 15 producers licensed, 14 of whom applied for bounty.

The production did not equal expectations of a year ago based on the acreage planted and the producers' estimates in their applications for license. The weather was not favorable, and the overflow of the Mississippi damaged some plantations. The crops will be considerably larger the current year from present indications.

Only a small quantity of the sugar made tested less than 80°; more than three-fourths of the sugar made tested over 90°.

Of the 619 licensees who claimed bounty 332 made sugar by the open-kettle process and 287 used the vacuum-pan process of evaporation. The open-kettle factories produced 83,724,827 pounds upon which bounty was paid, and the vacuum pan and centrifugal factories produced 271,175,226 pounds, or more than three-fourths.

## STATEMENT OF THE NUMBER OF LICENSED PRODUCERS OF SUGAR FROM SUGAR CANE WHO RECEIVED BOUNTY DURING THE FISCAL YEAR ENDED JUNE 30, 1892, CLASSIFIED ACCORDING TO THE QUANTITY OF SUGAR PRODUCED.

|   | Number. |
|---|---------|
| Producers of 4,000,000 pounds and over..... | 3       |
| 3,000,000 to 4,000,000 pounds.....          | 6       |
| 2,000,000 to 3,000,000 pounds.....          | 25      |
| 1,000,000 to 2,000,000 pounds.....          | 84      |
| 500,000 to 1,000,000 pounds.....            | 120     |
| 300,000 to 500,000 pounds.....              | 95      |
| 100,000 to 300,000 pounds.....              | 152     |
| 50,000 to 100,000 pounds.....               | 56      |
| 1,000 to 50,000 pounds.....                 | 101     |
| 500 to 1,000 pounds.....                    | 3       |
| Total.....                                  | 645     |

| Gallons.....   | 13,491,887  |

NOTE.—The account of the sugar produced last year upon which bounty was not claimed prior to July 1, 1892, is incomplete, but will be included in the report for the current fiscal year.

\*Mississippi had only one licensed sugar producer.

ACREAGE OF CANE UNDER CULTIVATION.

The following is the acreage of sugar cane under cultivation in the United States as reported by applicants for license for the current year:

| LOUISIANA.  |           |
|---|-----------|
| Acres cultivated by applicants .....  | 199, 360  |
| Acres to be purchased by applicants.....                                    | 47, 290   |
| Total .....   | 246, 650  |
| Acres of plant cane .....   | 94, 164   |
| Acres of stubble cane .....   | 105, 196  |
| Acres not classified.....   | 47, 290   |
| Total .....   | 246, 650  |
| Acres to be reserved for seed .....   | 37, 514   |
| Acres to be utilized for sugar production .....                             | 209, 136  |
| MISSISSIPPI.  |           |
| Acres cultivated (one applicant):   |           |
| Plant cane.....   | 10        |
| Stubble cane .....  | 2         |
| Total .....   | 12        |
| TEXAS.  |           |
| Acres cultivated by applicants:   |           |
| Plant cane .....  | 1, 490    |
| Stubble cane .....  | 4, 029    |
| Acres to be purchased.....  | 120       |
| Total.....  | 5, 639    |
| Acres to be reserved for seed.....  | 1, 098    |
| Acres to be utilized for sugar production.....                              | 4, 541    |
| FLORIDA.  |           |
| Acres cultivated by applicants:   |           |
| Plant cane.....   | 141½      |
| Stubble cane.....   | 268       |
| Acres to be purchased.....  | 21        |
| Total .....   | 430½      |
| Acres to be reserved for seed.....  | 279       |
| Acres to be utilized for sugar production .....                             | 151½      |
| SUMMARY.  |           |
| Total acreage of cane under cultivation in the United States, as reported.. | 252, 731½ |
| Acreage to be reserved for seed.....  | 38, 891   |
| Net acreage for sugar production.....                                       | 213, 840½ |

Many producers at the date of making their statements as to acreage of cane were unable to state the quantity to be purchased, as contracts had not then been made. It is estimated that the quantity of such cane, together with the cane under cultivation by parties who will make sirup only for sale to licensed producers, and which is not included in the above statement, will amount to 8,000 acres, more or less, making the total acreage under cultivation not less than 260,000 acres.

In Louisiana improvements have been made in sugar houses the past year costing many thousands of dollars in individual cases. New

machinery of the latest and most improved pattern has been put into many factories which have been remodeled and often entirely rebuilt. These improvements are largely attributable to the bounty law.

#### MAPLE SUGAR.

Special regulations applicable to maple sugar were issued January 5, 1892, under the provisions of the law relative to bounty.

The work of weighing the sugar was performed by deputy collectors. The plan was adopted in districts where there was a number of sugar producers of establishing central weighing stations at points easy of access. The maple sugar territory was divided into divisions or subdivisions by collectors, and a weigher stationed in each. The service which was given the producers was satisfactory.

The presence of the weigher's marks on the sugar gave it an advantage in the market in some instances, enabling it to command a higher price.

The season was a poor one for sugar-making and of the producers, numbering 4,240 who obtained licenses, only 3,049 made claims for bounty, of which 242 have been disallowed, mainly on account of the producer not making 500 pounds testing at least 80° by the polariscope.

The laboratory for making polariscopic tests of maple sugar produced in the New England States was located at Montpelier under the charge of the collector of internal revenue of the district of New Hampshire, which includes Vermont.

The laboratory for the State of New York was located at Syracuse, under the charge of the collector for the twenty-first district of New York.

Samples of the sugar produced in Maryland, West Virginia, Pennsylvania, and the Western States were sent to this office and the polariscopic tests were made in the laboratory under the charge of the chemist.

#### NUMBER OF SAMPLES TESTED.

|                     |       |
|---------------------|-------|
| At Syracuse.....    | 1,938 |
| At Montpelier.....  | 6,086 |
| In this office..... | 1,680 |
| <hr/>               |       |
| Total.....          | 9,704 |

The number of maple-sugar producers who were licensed the past year was less than one-fifth of the whole number in the country. The following table shows the number of producers of 500 pounds or upwards of maple sugar in the United States according to the Eleventh Census:

|                    |       |                     |        |
|--------------------|-------|---------------------|--------|
| Connecticut.....   | 5     | New York.....       | 7,884  |
| Illinois.....      | 8     | North Carolina..... | 2      |
| Indiana.....       | 24    | Ohio.....           | 930    |
| Iowa.....          | 23    | Pennsylvania.....   | 1,101  |
| Kentucky.....      | 1     | Tennessee.....      | 2      |
| Maine.....         | 39    | Vermont.....        | 10,099 |
| Maryland.....      | 78    | Virginia.....       | 4      |
| Massachusetts..... | 415   | West Virginia.....  | 26     |
| Michigan.....      | 1,135 | Wisconsin.....      | 4      |
| Minnesota.....     | 23    |                     |        |
| Missouri.....      | 5     | Total.....          | 23,533 |
| New Hampshire..... | 1,725 |                     |        |

The number who have made applications for license next year is 6,100, an increase over last year of 1,860.

MAPLE TREES TAPPED AND THE QUANTITY OF SUGAR AND SIRUP PRODUCED BY LICENSED MAPLE-SUGAR PRODUCERS, 1892.

| Total.....         | 2,317,143                     | 3,981,953½      | 62,444                               |

NOTE.—Sugar-makers agree with practical unanimity in fixing 3 pounds per tree as an average product in a good average season. Different orchards vary greatly, dependent on their more or less favorable location. Trees in the same orchard vary greatly, one producing not more than 2 pounds, or even less, while another will produce 5 pounds. From 12 to 15 quarts of sap will produce 1 pound of sugar. A sirup weighing 11 pounds to a gallon will, if a good quality, make 8½ pounds of sugar.

Most of the above were temporary appointments, the persons being employed only during the sugar-making season and receiving pay only while on duty.

ESTIMATE OF BOUNTY TO BE PAID FOR THE CURRENT YEAR.

If the production equals present expectations it is estimated that the bounty to be paid during the current fiscal year will be, in round numbers, about \$8,400,000.

EXPENSE OF PAYING THE BOUNTY.

The expenses of carrying out the provisions of law relating to the sugar bounty during the fiscal year ended June 30, 1892, were approximately as follows, viz:

|  |               |
|--|---------------|
| Additional deputies and clerks, etc., employed for limited periods as weighers, samplers, etc., in various districts ..... | \$98, 774. 72 |
| Polariscopes and chemical supplies, sample boxes, triers, etc., purchased .....  | 9, 512. 13    |
| Salaries and expenses of 12 sugar inspectors .....   | 28, 554. 76   |
| Total .....  | 136, 841. 61  |

This is exclusive of the additional appropriations for increased clerical force in the office of Commissioner of Internal Revenue amounting to \$10,990. Total expense, \$147,831.61, or about 2 per cent on the amount paid out.

RECOMMENDING THE AMENDMENT OF EXISTING LAW.

Under the present law no bounty is paid upon sugar which polarizes less than 80 per cent. A bounty of  $1\frac{3}{4}$  cents is paid upon sugar which polarizes 80 per cent and less than 90 per cent, and 2 cents per pound upon all sugar which polarizes 90 per cent and over.

Under this law there is no inducement for the producer to make a higher grade of sugar than 90 per cent except such difference as there may be in the market price. The higher the grade of the sugar the greater is the percentage of foreign substances removed from it, and, as a consequence, the weight is diminished and the amount of bounty received is lessened. Therefore, there is no profit to the producer in making a high grade of sugar, but, on the contrary, it is to his interest, so far as the bounty is concerned, to make it as nearly 80 per cent or 90 per cent as possible.

I beg to suggest that Congress be asked to so amend the law as to permit the payment of a bounty of \$2.20 per hundred pounds upon pure sugar, graduated in amount according to the polariscopic test, increasing the amount for each degree from eighty to one hundred on the basis of \$2.20 per hundred pounds of pure sugar.

It will be seen by a calculation that a bounty upon such a basis will amount to almost exactly the same as the bounty now paid.

The practical working of a law of this kind would be to stimulate the production of sugar of the highest grade, and to remove the temptation to keep the grade of sugar down close to the bounty line.

SUGAR STATISTICS.

1. Amount of sugar imported into this country during the fiscal year ending June 30, 1892 ..... pounds.. 3, 556, 509, 165
  - Beet sugar, free of duty ..... do.... 293, 134, 261
  - Cane or other sugar free of duty ..... do.... 3, 248, 494, 502
  - Sugar not classified, above No. 16, Dutch standard, dutiable..... do.... 14, 880, 402
  - Total ..... 3, 556, 509, 165
2. Quantity of maple sugar imported:
  - Free..... pounds.. 1, 731, 728
  - Dutiable..... do.... 22, 254
  - Total ..... 1, 753, 982
3. Total amount of duty paid upon sugar imported into this country during the fiscal year ended June 30, 1892..... \$76, 795. 14
4. Value of the sugar imported into this country during the fiscal year ended June 30, 1892:
  - Beet sugar, free of duty..... \$6, 081, 170
  - Cane or other sugar, free of duty ..... 95, 761, 312
  - Sugar not classified, dutiable..... 566, 331
  - Total ..... 104, 408, 813
5. QUANTITY AND VALUE OF SUGAR IMPORTED INTO THE UNITED STATES DURING THE LAST FIVE YEARS ENDED JUNE 30, 1888, 1889, 1890, 1891, AND 1892.

| Year.     | Pounds.          | Value.         |
|-----------|------------------|----------------|
| 1888..... | 2, 700, 284, 282 | \$74, 245, 206 |
| 1889..... | 2, 762, 202, 967 | 88, 543, 971   |
| 1890..... | 2, 934, 011, 560 | 96, 094, 532   |
| 1891..... | 3, 483, 477, 222 | 105, 728, 216  |
| 1892..... | 3, 556, 509, 165 | 104, 408, 813  |

6. STATEMENT PREPARED BY THE BUREAU OF STATISTICS, SHOWING THE QUANTITIES AND VALUES OF SUGAR, FREE AND DUTIABLE, OF ALL KINDS, IMPORTED INTO THE UNITED STATES DURING THE FISCAL YEAR ENDING JUNE 30, 1892, AND THE COUNTRIES FROM WHICH IMPORTED.

| Country from which imported.            | Free of duty. |             |                |             | Dutiable sugar. |         |

 Total value of sugar imported..... \$104,408,813

7. QUANTITY AND VALUE OF SUGAR EXPORTED FROM THE UNITED STATES DURING THE FISCAL YEAR ENDED JUNE 30, 1892.

|                              | Pounds.    | Value.  |
|------------------------------|------------|---------|
| Brown sugar, domestic.....   | 245,783    | \$8,682 |
| Refined sugar, domestic..... | 14,604,608 | 665,477 |
| Foreign sugar.....           | 4,564,229  | 155,886 |
| Total.....                   | 19,414,620 | 830,045 |

8. QUANTITY OF SUGAR EXPORTED FROM THE UNITED STATES DURING THE LAST FIVE YEARS ENDING JUNE 30, 1888, 1889, 1890, 1891, and 1892.

|           | Pounds.     |
|-----------|-------------|
| 1888..... | 60,399,496  |
| 1889..... | 19,751,597  |
| 1890..... | 47,495,577  |
| 1891..... | 112,951,117 |
| 1892..... | 19,414,620  |

9. CONSUMPTION OF SUGAR IN THE UNITED STATES DURING THE FISCAL YEAR ENDED JUNE 30, 1892.

|  |                      |
|--|----------------------|
|  | Pounds.              |
| Amount of sugar imported.....  | 3,556,509,165        |
| Amount manufactured from imported molasses (estimated).....  | 74,659,200           |
| Amount of domestic production.....   | 412,893,230          |
| <b>Total</b> .....   | <b>4,044,061,595</b> |
| Deduct amount of sugar exported.....   | 19,414,620           |
| <b>Amount consumed</b> .....   | <b>4,024,646,975</b> |
| Which, divided by 64,817,000, estimated population January 1, 1892, gives the amount consumed per capita, viz..... | 62.09                |

NOTE—Messrs. Willett & Gray, publishers of the Weekly Statistical Sugar-Trade Journal, New York, estimate the total consumption for the year as 1,882,471 tons, against 1,660,938 tons for the year ending June 30, 1891.

One million eight hundred and eighty-two thousand four hundred and seventy-one tons (2,240 pounds per ton)=4,216,735,040 pounds, which, divided by 64,817,000, the estimate made by the acting Actuary of the Treasury of the population January 1, 1892, gives the amount consumed per capita as 65.06 pounds.

The quantity of sugar consumed per capita in the United States during each calendar year from 1880 to 1891, inclusive, is given in the Statistical Abstract of the United States, 1891, p. 217, prepared by the Bureau of Statistics, as follows:

|           |         |           |         |
|-----------|---------|-----------|---------|
|           | Pounds. |           | Pounds. |
| 1880..... | 42.7    | 1886..... | 56.     |
| 1881..... | 44.2    | 1887..... | 52.     |
| 1882..... | 48.4    | 1888..... | 56.     |
| 1883..... | 51.1    | 1889..... | 51.     |
| 1884..... | 53.4    | 1890..... | 56.     |
| 1885..... | 51.8    | 1891..... | 69.     |

10. CONSUMPTION OF SUGAR, PER CAPITA OF POPULATION, IN 1890-'91.

[Estimated by M. Licht.]

| Countries.             | Pounds. | Countries.                    | Pounds. |
|------------------------|---------|-------------------------------|---------|
| Germany.....           | 23.9    | Portugal.....                 | 13.8    |
| Austria.....           | 15.0    | England.....                  | 78.7    |
| France.....            | 28.7    | Bulgaria.....                 | 4.1     |
| Russia.....            | 9.9     | Greece.....                   | 10.1    |
| Holland.....           | 27.7    | Sorvia.....                   | 8.8     |
| Belgium.....           | 21.6    | Turkey.....                   | 8.1     |
| Denmark.....           | 41.0    | Switzerland.....              | 32.9    |
| Sweden and Norway..... | 22.5    |                               |         |
| Italy.....             | 7.9     | Total Europe.....             | 22.2    |
| Roumania.....          | 3.9     | North America.....            | 59.9    |
| Spain.....             | 9.4     | Europe and North America..... | 27.6    |

11. PRICE OF SUGAR ON THE LOUISIANA SUGAR EXCHANGE FOR THE PAST YEAR AND THE FIVE PREVIOUS YEARS.

| Year.         | Open kettle. | Grannulated. | White. | Yellow. | Seconds. |
|---------------|--------------|--------------|--------|---------|----------|
|               | Cents.       | Cents.       | Cents. | Cents.  | Cents.   |
| 1886-'87..... | 4.30         | 5.70         | 5.40   | 5.31    | 4.40     |
| 1887-'88..... | 4.55         | 6.40         | 6.12   | 5.70    | 4.55     |
| 1888-'89..... | 5.40         | 7.80         | 7.30   | 6.60    | 5.70     |
| 1889-'90..... | 4.50         | 6.75         | 6.21   | 5.72    | 5.07     |
| 1890-'91..... | 3.65         | 5.65         | 5.31   | 4.88    | 4.12     |
| 1891-'92..... | 2.75         | 3.94         | 3.56   | 3.56    | 2.81     |

The average value per pound of the Louisiana sugar crop of last season, exclusive of the bounty, was 3½ cents per pound. This value is arrived at by taking the market price of the various grades of sugar for each of the different months and then making the average. The figures used in making this calculation were obtained from the Louisiana Sugar Exchange.

## 12. AVERAGE SPECIFIC RATE OF DUTY ON DUTIABLE SUGAR FOR THE TEN YEARS 1881 TO 1890.

[Statistician and Economist, 1892, p. 220.]

| Year ending June 30— | Rate of duty. | Year ending June 30— | Rate of duty. |
|----------------------|---------------|----------------------|---------------|
|                      | <i>Cents.</i> |                      | <i>Cents.</i> |
| 1881.....            | 2.45          | 1886.....            | 2.00          |

## 14. EUROPEAN BEET-SUGAR PRODUCTION.

Mr. Licht's report of August 20, 1892, gives the following estimate of the European beet-sugar production of the 1891-'92 campaign, as compared with preceding campaigns, as follows:

| Countries.           | 1891-'92.    | 1890-'91.    | 1889-'90.    | 1888-'89.    | 1887-'88.    |
|----------------------|--------------|--------------|--------------|--------------|--------------|
|                      | <i>Tons.</i> | <i>Tons.</i> | <i>Tons.</i> | <i>Tons.</i> | <i>Tons.</i> |
| Germany.....         | 1,200,000    | 1,331,965    | 1,264,607    | 990,604      | 959,166      |
| Austria.....         | 790,000      | 778,472      | 753,078      | 523,242      | 428,616      |
| France.....          | 650,000      | 694,037      | 787,989      | 466,767      | 392,824      |
| Russia.....          | 560,000      | 544,162      | 456,711      | 526,387      | 441,342      |

| Other countries..... | 75,000       | 80,000       | 80,000       | 87,000       | 79,980       |
| Total.....           | 3,500,000    | 3,695,567    | 3,619,678    | 2,785,844    | 2,481,950    |

## DIVISION OF CHEMISTRY.

The large increase of work of a chemical nature resulting from the provisions of the act of October 1, 1890, relating to sweet wines and sugar, led to the establishment of the above-named division on February 13, 1892. All questions of a scientific nature are referred to it, and all the laboratories it has been found necessary to institute in connection with internal-revenue work are placed under its control. This change did not involve any increase in the office force, the chemist being designated to act as head of the new division, and the necessary clerical work being provided for by the transfer of a clerk from another division.

## TEMPORARY AND PERMANENT LABORATORIES.

To provide for the proper supervision of the work of fortifying sweet wines, and to classify sugar for the payment of bounty according to its polariscopic test, laboratories were established during the past fiscal year at points which were considered to be the most convenient for the purpose, and were placed under the control of the several collectors in whose districts they were located. The work was performed by deputy collectors assigned to that duty, or by revenue inspectors. These laboratories were of two classes, *temporary* and *permanent*. The former were fitted up temporarily for use during the "sugar season" only, while the latter were provided with permanent fixtures in a Government building, and were in operation during the whole or a greater part of the year. The temporary laboratories were nine in number, located as follows: Lehi, Utah; Norfolk, Nebr.; Fort Scott, Kans.; Sugar Lands, Tex.; St. Cloud, Fla.; Syracuse, N. Y., and Montpelier, Vt.

The permanent laboratories were three in number, located at San Francisco, Cal.; New Orleans, La., and Washington, D. C.

## WORK PERFORMED.

*Lehi, Utah.*—Located at the factory of the Utah Beet-Sugar Company. Tested samples of sugar produced at this factory only. Number of samples tested, 46.

*Norfolk, Nebr.*—Located at the factory of the Oxnard Beet-Sugar Company. Tested samples of sugar produced at the two factories in Nebraska. No record of work kept.

*Fort Scott, Kans.*—Located in the post-office building. Tested all samples of sorghum sugar produced at the three factories in Kansas. No record of work kept.

*Sugar Lands, Tex.*—Located at the factory of E. H. Cunningham. Tested all samples of sugar produced in Texas. In operation from October 11 until February 29. Number of samples tested, 230.

*St. Cloud, Fla.*—Located at the factory of the St. Cloud Sugar Company. Tested all the samples produced in Florida. No record of work kept.

*Syracuse, N. Y.*—Located in the post-office building in connection with the collector's office. Tested all the samples of maple sugar produced in the State of New York. In operation from March 7 to

May 11. Number of samples tested, 1,919; total number of tests made, 2,122.

*Montpelier, Vt.*—Located in the post-office building. Tested all samples of maple sugar produced in New England, including the States of Vermont, New Hampshire, Maine, and Massachusetts. In operation from March 12 until June 9. Number of samples tested 5,067; total number of tests made, 7,423.

*San Francisco, Cal.*—Located in the custom-house in connection with the collector's offices. The work of this laboratory consisted chiefly in testing fortified sweet wines, the work of the gaugers being checked by a careful determination of alcohol and sugar in a sample of every lot of wine fortified. All the samples of beet sugar produced in the State were tested at this laboratory also. In operation from September 1 until June 30. Number of samples of sweet wine tested 1,099; number of samples of sugar tested, 220.

*New Orleans, La.*—Located in the custom-house in connection with the collector's offices. Tested all samples of sugar produced in Louisiana. In operation from October 10 until April 30. The following table shows the number of samples tested and the total number of tests made for each month while the laboratory was in operation:

|               | Samples tested. | Total tests made. |
|---------------|-----------------|-------------------|
| October.....  | 425             | 596               |
| November..... | 1,545           | 2,402             |
| December..... | 3,063           | 4,763             |
| January.....  | 1,663           | 2,444             |
| February..... | 509             | 767               |
| March.....    | 176             | 261               |
| April.....    | 97              | 159               |
| Total.....    | 7,478           | 11,392            |

*Washington, D. C.*—Located in the Treasury building in connection with the general laboratory of this office, additional space having been furnished for the purpose.

In addition to the work of testing polariscopes, apparatus, etc., receiving and shipping the same to outside laboratories, testing check samples, etc., this laboratory undertook the testing of all maple-sugar samples produced outside of New England and New York State, viz: in the States of Pennsylvania, Ohio, Michigan, Iowa, Minnesota, West Virginia, and Maryland. The clerical work incident to the making out of inspectors' returns relative to those samples was also performed here.

Whenever the receipt of samples at an outside laboratory diminished to such an extent that they did not fully occupy the time of one polariscopist, the laboratory at that point was closed and the samples received thereafter sent to Washington. Number of samples tested, 1,941; (maple, 1,716; cane, beet, and sorghum, 225); total number of tests made, 3,030.

*Summary.*—The number of samples tested at all internal revenue laboratories where a record was kept was as follows: cane, beet, and sorghum, 8,199; maple, 8,666; total, 16,865. Total number of tests made, 23,967.

#### CHECK SAMPLES.

In order to ascertain the accuracy of the polariscopic work done at the different laboratories and of the method prescribed by the regulations, a system of check samples was instituted, whereby duplicate or

triplicate samples of the same sugar were polarized at different laboratories and the results reported. Owing to the rush of work and other causes, the system was not satisfactorily established during the cane-sugar season, but was carried out successfully during the maple-sugar season by the three laboratories in operation at that time, viz, Syracuse, Montpelier, and Washington. The samples were prepared at Syracuse, in triplicate, and sent out every third day, one to Montpelier, one to Washington, and one polarized at Syracuse.

The results obtained are embodied in the following table. The agreement is fairly good, considering the hygroscopic nature of maple sugar, which rendered the samples very liable to change during their transportation :

| No. of sample. | Syracuse.     |               | Montpelier.   |               | Washington.   |               |
|----------------|---------------|---------------|---------------|---------------|---------------|---------------|
|                | Date of test. | Polarization. | Date of test. | Polarization. | Date of test. | Polarization. |
| 1.....         | Mar. 18       | 89.3          | Mar. 21       | 89.1          | Mar. 22       | 89.05         |
| 2.....         | Mar. 23       | 87.1          | Mar. 24       | 87.15         | Mar. 25       | 87.2          |
| 3.....         | Mar. 26       | 86.2          | Mar. 28       | 86.1          | Mar. 31       | 86.2          |
| 4.....         | Mar. 29       | 86.8          | Mar. 31       | 87.           | Apr. 1        | 85.95         |
| 5.....         | Apr. 2        | 87.3          | Apr. 5        | 88.5          | Apr. 4        | 88.1          |
| 6.....         | Apr. 6        | 86.1          | Apr. 7        | 85.5          | Apr. 7        | 86.05         |
| 7.....         | Apr. 9        | 88.3          | Apr. 11       | 87.25         | Apr. 14       | 88.25         |
| 8.....         | Apr. 14       | 86.7          | Apr. 14       | 87.7          | Apr. 15       | 86.65         |
| 9.....         | Apr. 16       | 87.35         | Apr. 18       | 87.25         | Apr. 21       | 80.75         |
| 10.....        | Apr. 20       | 83.5          | Apr. 22       | 83.2          | Apr. 22       | 82.95         |
| 11.....        | Apr. 23       | 86.4          | Apr. 26       | 86.55         | Apr. 26       | 86.3          |
| 12.....        | Apr. 27       | 85.45         | Apr. 29       | 84.4          | Apr. 29       | 84.15         |
| 13.....        | Apr. 30       | 85.1          | May 4         | 84.2          | May 3         | 84.45         |
| 14.....        | May 3         | 85.9          | May 12        | 86.25         | May 6         | 85.75         |
| 15.....        | May 6         | 89.25         | May 18        | 89.5          | May 10        | 89.15         |
| 16.....        | May 11        | 85.3          | May 18        | 85.65         | May 14        | 85.7          |
| Average.....   |               | 86.63         |               | 86.57         |               | 86.42         |

GENERAL LABORATORY.

The pressure of work in the general laboratory has been greatly relieved during the past year by the establishment of the outside laboratories, particularly the one at San Francisco, which handled all the samples of fortified sweet wine previously sent to Washington. But while the auxiliary laboratories have diminished the work of the central laboratory in one way, they have added to it in another; that is, in the way of control and supervision, the sending out of supplies, checking the results, correspondence, etc. All things considered, it may be stated that the work of the central laboratory has been more than doubled by the increase incident to carrying into effect the provisions of the act of October 1, 1890, relative to sweet wines, and to sugar bounty.

The general work of the laboratory (that is, exclusive of sugar work) covered, altogether, one hundred and eighty-six samples.

Thirty-two samples of material suspected of being oleomargarine were examined, of which number eighteen proved to be oleomargarine and fourteen butter.

Forty-nine samples of fortified sweet wine were tested, of which number thirty-five were from the previous season and fourteen were analyzed on appeal from the California laboratory.

Fourteen samples of "hop pop" and similar fermented liquors were analyzed, principally in reference to their liability to tax. Four samples of distilled spirits were examined for the presence of artificial coloring matter, which would render the distillers liable to tax as rectifiers.

Two samples of milk were examined for adulteration, under the act of October 12, 1888, "to prevent the manufacture or sale of adulterated food or drugs in the District of Columbia." These are the only samples ever presented for examination under the provisions of this act.

Twenty samples of material suspected of being smoking opium were examined in connection with prosecutions under section 40 of the act of October 1, 1890. Testimony was also given in court concerning these examinations.

Fifty-six samples of inks, mucilages, typewriter ribbons, carbon paper, etc., were tested for the Stationery Division of the Treasury, to determine the relative merits of the articles submitted on bids and to test the quality of the articles delivered as compared with the samples.

The remaining nine samples included tobacco, stamp paper, orange cider, distillery slop, etc., miscellaneous samples, of which an examination was made in connection with various questions arising in the work of the office.

A complete distilling apparatus, packed in a portable case in compact form, has been designed and manufactured under special contract to the satisfaction of this office. These outfits will be furnished to gaugers for work during the coming campaign in making field tests of the alcoholic and sugar contents of sweet wine presented for fortification. The hydrometers or alcoholometers included in these sets have all been standardized by the Coast Survey to insure accuracy.

I have the honor to be, very respectfully,

JOHN W. MASON,  
*Commissioner.*

Hon. CHARLES FOSTER,  
*Secretary of the Treasury.*

(No. 5.)

**REPORT OF THE CHIEF OF THE BUREAU OF ENGRAVING AND  
PRINTING.**

TREASURY DEPARTMENT,  
BUREAU OF ENGRAVING AND PRINTING,  
*September 30, 1892.*

SIR: I have the honor to submit the following report of the operations of this Bureau during the fiscal year 1892:

The Bureau has accomplished another very successful year's work. The tables herewith submitted show that there were completed and delivered during the year 13,728,494 sheets of United States notes, Treasury notes, gold certificates, silver certificates, bonds, and national bank notes, having the enormous face value of \$709,760,800; 36,466,196 sheets of internal-revenue stamps, containing 1,042,806,244 stamps and having a value of over \$154,000,000; 298,625 sheets of customs stamps, containing 2,053,250 stamps, and 2,015,123 sheets of drafts, checks, certificates, etc., together with miscellaneous work for the various departments of the Government, costing \$33,579.12. The number of securities, stamps, etc., delivered during the fiscal year 1891 was the largest during a period of fourteen years prior thereto. The number delivered during the year 1892, however, exceeds that number 6,135,057 sheets, or slightly more than 13 per cent, while the expenditures for 1892 exceed those of 1891 only 4 per cent. This large amount of work, representing in the aggregate a value of over \$863,000,000, was handled throughout the various processes necessary to its completion without the loss to the Government of a single dollar, and this result has been obtained by conducting the establishment upon a strictly business basis, and by thoroughly systematizing all its operations.

The method of printing by relief plates the internal-revenue stamps known as strip-tobacco stamps has been perfected and continued, and out of 13,240,000 sheets of this class of stamps delivered during the year 9,208,500 were printed by the relief process at a net saving of \$131,648.40. It is expected that all of the stamps of this class will be printed by this process during the year 1893 at a probable saving of \$164,000.

During the year a process has been added in the preparation of notes and certificates known as "resizing." This process consists of passing the notes, after they have been printed and thoroughly dried, through a bath of "size," such as is used by paper-makers in finishing paper, which restores the sizing and finish destroyed by repeatedly wetting the paper for the several plate printings required. The work of resizing has been in successful operation for several months, and all the notes and certificates of series 1891 have been so treated. It makes a decided improvement, both in the appearance and wearing quality of the note.

The estimated amount of work to be executed during the fiscal year 1894 is 54,904,645 sheets, an increase of 2,496,207 sheets as compared with 1892, or nearly 5 per cent.

The Bureau is now fully equipped with all the necessary machinery, and has a force of trained employés sufficiently large to promptly execute within the regular working hours all the securities, stamps, etc., that it may be called upon to furnish.

The requirements of Department Circulars No. 194 for 1891 and No. 110 for 1892, providing for the keeping of an efficiency record, have been strictly adhered to in this Bureau, and have governed the promotions from one grade to another. The rule, I think, has proved beneficial, both in increasing the usefulness of employés by emulation, and in promoting good discipline.

The financial statement for the year is as follows:

Appropriations for the year:

|  |                     |
|--|---------------------|
| Salaries .....                             | \$17,450.00         |
| Compensation of employés .....             | 367,000.00          |
| Plate printing .....                       | 530,000.00          |
| Materials and miscellaneous expenses ..... | 181,000.00          |
| <b>Total</b> .....                         | <b>1,095,450.00</b> |

Repayments were made to credit of these appropriations on account of engraving and printing the Treasury notes and of materials furnished the several departments, divided as follows:

|  |                   |
|--|-------------------|
| Compensation of employés .....             | 90,557.30         |
| Plate printing .....                       | 73,214.49         |
| Materials and miscellaneous expenses ..... | 58,252.00         |
|  | <b>222,023.79</b> |

Aggregate available .....

**1,317,473.79**

Expenditures during the year:

|  |                     |
|--|---------------------|
| Salaries .....                             | 17,173.49           |
| Compensation of employés .....             | 457,549.15          |
| Plate printing .....                       | 603,006.81          |
| Materials and miscellaneous expenses ..... | 238,856.44          |
| <b>Total</b> .....                         | <b>1,316,585.89</b> |

Unexpended balances:

|  |               |
|--|---------------|
| Salaries .....                             | 276.51        |
| Compensation of employés .....             | 8.15          |
| Plate printing .....                       | 207.68        |
| Materials and miscellaneous expenses ..... | 395.56        |
| <b>Total</b> .....                         | <b>887.90</b> |

There was added to the plant of the Bureau during the year new machinery to the value of \$17,912.57.

The new wing of the Bureau building, authorized by act of August 30, 1890, was completed during the fiscal year, and the entire amount of the appropriation authorized by the act of March 3, 1891, for machinery, furniture, and expenses of occupying the wing, amounting to \$20,000, was expended for said purposes.

I desire to again earnestly call the attention of the Department to the great need of an appropriation for the erection of an outbuilding for the accommodation of the ink mills, laundry, carpenter shop, and for storage for this Bureau. These branches of the Bureau's work are at present accommodated in temporary frame structures erected in close proximity to the Bureau building. These structures are, from

their inflammable character, a serious menace not only to the Bureau building, but to the entire neighborhood.

The extent of this danger was fully seen on the morning of June 25 last after what came very nearly being a serious fire in the rag laundry. The laundry building was badly damaged, and the scorched sides of the large frame structure used by the Commissary Department indicate how very near the neighborhood was to a serious conflagration. It was only the vigilance of the employés of the Bureau and the exertions of the District fire department that prevented it. With an experience of over three years' service here, I do not know of any item that is more urgently demanded by the necessities of the service than the one for this purpose. If a destructive fire should occur here it would cost the Government at least \$50,000 before the work of the Bureau could be resumed—and that is \$20,000 more than is asked for—besides the embarrassment that would result. I therefore recommend that the attention of Congress be called to this matter and that urgent efforts be made to secure the necessary appropriation.

In conclusion I wish to acknowledge the courtesies with which I have at all times been treated by yourself and the assistant secretaries to whom I have reported from time to time. My thanks are also due to the assistant chief and other officers of this Bureau by whom, at all times, I have been ably seconded and cordially supported.

Very respectfully,

WM. M. MEREDITH,  
*Chief of Bureau.*

Hon. CHARLES FOSTER,  
*Secretary of the Treasury.*

## APPENDIX.

No. 1.—STATEMENT SHOWING THE UNITED STATES NOTES, CERTIFICATES OF DEPOSIT, BONDS, AND NATIONAL BANK CURRENCY DELIVERED DURING THE FISCAL YEAR 1892.

| *   | *          | *            | * | * | * | * |
|---|------------|--------------|---|---|---|---|
| Class.  | Sheets.    | Value.       |   |   |   |   |
| United States notes, series of 1880, unsealed .....                   | 1,702,000  | \$50,968,000 |   |   |   |   |
| Silver certificates, series of 1886, unsealed .....                   | 4,932,000  | 77,898,000   |   |   |   |   |

| Total.....   | 7,405 |

## MISCELLANEOUS WORK.

|   |        |
|---|--------|
| Official letters written.....   | 19,781 |
| Letters received, briefed, and referred.....  | 7,898  |
| Bonds, contracts, and powers of attorney examined, approved, registered, and filed.....         | 4,592  |
| Certificates of deposit examined, indorsed, and referred.....                                   | 1,990  |
| Internal-revenue stamp books counted and certified.....   | 45,983 |
| Copies of reports on accounts made and transmitted.....   | 780    |
| Bonds of indemnity examined and approved.....   | 163    |
| Accounts received and registered.....   | 28,601 |
| Accounts indexed.....   | 25,153 |
| Warrants examined and checked on register of accounts.....                                      | 13,846 |
| Folios copied.....  | 32,567 |
| Judgments of the Court of Claims and of circuit and district courts examined and certified..... | 8      |
| Consular drafts registered.....   | 1,147  |

The foregoing statement omits mention of a very large amount of official work, principally of a legal nature, and more especially requiring the personal consideration of the Comptroller, which does not admit of systematic classification and detailed report, and yet has occupied much time and care, such as, *e. g.*, the investigation of and decision upon legal points arising in the adjustment of accounts; the examination of claims presented; the decision upon applications for the issuing of duplicates in lieu of bonds and other securities lost or destroyed, and also for the transfer of the same; the examination of powers of attorney for the collection of money due to creditors of the United States; decisions upon the rights of persons claiming to be executors, administrators, or heirs of deceased claimants to receive money due from the United States; the examination of official bonds; answering calls for information made by Congress, the Departments, and private persons; receiving and examining emolument returns, and other work of a miscellaneous character.

I renew the recommendations made in my last annual report in regard—

First. To suits brought against the United States;

Second. To the importance of some statute of limitation which will fix some time within which claims shall be presented for payment against the Government;

Third. Double compensation allowed persons holding office under the United States;

Fourth. Collections of balances due to the United States; and

Fifth. Individual deposits for surveying public lands.

These subjects are of public importance, and, in my judgment, the attention of Congress should be invited to them.

It is with pleasure that I commend the persons employed in this Bureau for the faithful and intelligent manner in which they have discharged their respective duties.

A. C. MATTHEWS,  
Comptroller.

The SECRETARY OF THE TREASURY.

(No. 7.)

**REPORT OF THE SECOND COMPTROLLER.**

TREASURY DEPARTMENT,  
SECOND COMPTROLLER'S OFFICE,  
Washington D. C., August 30, 1892.

SIR: The following report for the fiscal year concluded June 30, 1892 is respectfully submitted.

*Total number of accounts, claims, and cases settled.*

| From—                | 1892.   |                | 1891.   |                |
|----------------------|---------|----------------|---------|----------------|
|                      | Number. | Amount.        | Number. | Amount.        |
| Second Auditor.....  | 31, 603 | \$32, 637, 359 | 24, 662 | \$27, 348, 754 |
| Third Auditor.....   | 17, 971 | 123, 272, 312  | 13, 116 | 122, 912, 594  |
| Fourth Auditor.....  | 2, 497  | 29, 773, 336   | 2, 693  | 26, 596, 232   |
| Various sources..... | 6, 029  | 36, 294        | 10, 261 | 26, 482        |
| Grand total.....     | 58, 100 | 185, 719, 301  | 50, 732 | 176, 884, 062  |

In noting the commendable record as indicated in the above table, it affords me great satisfaction to say that the employés of this office have been faithful and efficient.

Claims and accounts coming from the Second, Third, and Fourth Auditors' offices of the Treasury are finally settled by the Second Comptroller.

The entire force of the Second Comptroller's Office during the past fiscal year, consisted of the Comptroller, deputy comptroller, 7 chiefs, 56 clerks, 1 messenger and 3 laborers—in all 69. Out of the 56 clerks the average number employed was 49.

The office is composed of seven divisions, known as the navy division (5 clerks), army back-pay and bounty division (12 clerks), army paymaster's division (6 clerks), Indian division (4 clerks), quartermaster's division (9 clerks), pension division (10 clerks), and miscellaneous claims division (10 clerks). Each division has a chief.

A detailed statement of claims and accounts disposed of during the year in each division, including a general statement of their character, is as follows:

**ARMY BACK-PAY AND BOUNTY DIVISION.**

| Character of the claims.                 | Number. | Amount.       |
|--|---------|---------------|
| Soldiers' pay and bounty allowed.....    | 10, 623 | \$1, 234, 254 |
| Soldiers' pay and bounty disallowed..... | 15, 263 | 12, 670       |
| Total.....                               | 25, 886 | 1, 246, 924   |

*Miscellaneous work of the division.*

|                                |         |
|--------------------------------|---------|
| Settlements entered .....      | 25, 886 |
| Rehearings of cases .....      | 275     |
| Official letters written ..... | 5, 272  |

On July 1, 1892, there remained on hand and unadjusted in this division 4,986 claims, estimated to be 79 days' work of the division.

**ARMY PAYMASTERS' DIVISION.**

| Character of the accounts.   | Number.       | Amount.             |
|--|---------------|---------------------|
| Army paymasters, for pay of the Army .....   | 421           | \$14, 457, 656      |
| Soldiers' Home .....   | 364           | 354, 332            |

| Transcripts for suits during the year.....  | 1             |
| Amount recovered and paid into the Treasury from suits begun in previous years..... | \$14, 397. 31 |

## REMARKS.

The public property has been reported, stationery properly regulated, rooms in good repair, and the office library numbers about 1,500 volumes.

Very respectfully,

B. F. GILKESON,  
Second Comptroller.

Hon. CHARLES FOSTER,  
Secretary of the Treasury.

(No. 8.)

REPORT OF THE COMMISSIONER OF CUSTOMS.

TREASURY DEPARTMENT,  
OFFICE OF COMMISSIONER OF CUSTOMS,  
Washington, D. C., October 25, 1892.

SIR: I have the honor to submit herewith, for your information, a statement of the business of this office for the fiscal year ending June 30, 1892:

FIRST AUDITOR.

The foregoing exhibit shows the very large volume of business transacted during the fiscal year 1892. It is not thought necessary to call special attention in this connection to the entirely inadequate clerical force allowed by law for the transaction of the constantly increasing business of this office, as that matter has been fully and specifically treated in a letter addressed to you under date of September 13, 1892, transmitting estimate for appropriation for this office for the fiscal year 1894, to which your attention is most earnestly invited.

I take great pleasure in commending to your favorable consideration the personnel of this office for faithful, intelligent, and exceedingly laborious services rendered during the past year.

GEO. P. FISHER,  
*First Auditor.*

The SECRETARY OF THE TREASURY.

(No. 10.)

**REPORT OF THE SECOND AUDITOR.**

TREASURY DEPARTMENT,  
SECOND AUDITOR'S OFFICE,  
Washington, D. C., October 26, 1892.

SIR: I have the honor to submit the following report, showing, as nearly as any written statement can do, the work performed in this office during the fiscal year ending June 30, 1892, and the condition of the public business intrusted to my charge.

The duties of the Second Auditor as prescribed by the act of March 3, 1817, and subsequent acts, which are embodied in sections 277 and 283 of the Revised Statutes, are as follows:

The Second Auditor shall receive and examine all accounts relating to the pay and clothing of the Army, the subsistence of officers, bounties and premiums, military and hospital stores, and the contingent expenses of the War Department; all accounts relating to Indian affairs and to agents of lead and other mines of the United States; and after examination of such accounts he shall certify the balances and transmit such accounts, with the vouchers and certificates, to the Second Comptroller for his decision thereon. He shall keep all accounts of the receipts and expenditures of the public money in regard to certain bureaus of the War Department and of all debts due to the United States on moneys advanced relative to those bureaus; shall receive from the Second Comptroller the accounts which shall have been finally adjusted and shall preserve such accounts with their vouchers and certificates, and record all requisitions drawn by the Secretaries of those Departments the examination of the accounts of which has been assigned to him. He shall annually, on the first Monday in November, report to the Secretary of the Treasury the application of the money appropriated for certain bureaus of the War Department and make such reports on the business assigned to him as the Secretary of War may deem necessary and require.

With regard to certain classes of accounts mentioned above, it may be proper to remark that no bounties for military service have been offered by the United States since April 30, 1865, in the case of volunteer soldiers, and since June 30, 1865, in the case of regulars; that the payment of a premium of \$2 for each accepted recruit, which is authorized by section 1120, Revised Statutes, was suspended February 11, 1868, and entirely discontinued May 26, 1869, by orders from the War Department; that officers of the Army have not been entitled to subsistence since July 15, 1870, an act of that date having abolished allowances and established annual salaries in lieu thereof, and that no accounts of agents of lead and other mines have been rendered to this office since 1844.

For the better transaction of public business, and in order that the various details, which are so numerous and diversified as to be beyond the capacity of one officer, may be properly supervised by responsible persons, the work of the office is distributed among eleven divisions, six of which are in charge of the chiefs of division authorized by law, and the remainder are in charge of clerks of class four as acting chiefs of division. A brief synopsis of the work assigned to it is prefixed to the detailed report of each division.

## BOOKKEEPERS' DIVISION.

The application of moneys appropriated for the Indian service, the Medical Department, Pay Department, Ordnance Department, expenses of the Commanding General's Office, contingencies of the Adjutant-General's Office, the Soldiers' Home, the National Home for Disabled Volunteer Soldiers, the Artillery School at Fortress Monroe, publication of Official Records of the War of the Rebellion, contingencies of the military establishment, etc., is indicated by the subjoined tabular statements of amounts drawn from the Treasury on requisitions of the Secretary of War and Secretary of the Interior, repayments of unexpended balances, and aggregate balances remaining in the Treasury on June 30, 1892.

| Appropriations.  | Drafts.       | Repayments.  |

| Total drafts and repayments on account of Indian appropriations ..  | 11,596,061.41 | 445,390.72  |

GENERAL BALANCE SHEET OF APPROPRIATIONS.

|   | War.            | Indian.         |
|---|-----------------|-----------------|
| DEBIT.  |                 |                 |
| To amount withdrawn from the Treasury from July 1, 1891, to June<br>30, 1892 .....                      | \$23,554,405.20 | \$11,596,061.41 |
| To amount of transfer warrants issued to adjust appropriations .....                                    | 485,845.20      | 45,255.61       |
| To amount of unexpended balances carried to the surplus fund .....                                      | 235,146.48      | 175,899.29      |
| To aggregate amount of balances remaining to the credit of all ap-<br>propriations, June 30, 1892 ..... | 9,169,507.90    | 31,011,069.19   |
| Total .....   | 33,444,904.78   | 42,828,285.50   |
| CREDIT.   |                 |                 |
| By balances on hand July 1, 1891 .....  | 10,924,533.98   | 33,202,448.66   |
| By amount of repayments during the year .....   | 1,476,331.80    | 445,390.72      |
| By amount of counter warrants issued to adjust appropriations .....                                     | 489,645.47      | 27,092.44       |
| By amount of appropriation warrants issued during the year .....  | 20,554,393.53   | 9,153,353.68    |
| Total .....   | 33,444,904.78   | 42,828,285.50   |

\* \* \* \* \*

The amount drawn from the Treasury on settlements was \$308,445.41, including the following sums on Soldiers' Home account:

|   |              |
|---|--------------|
| Withdrawn from the "permanent fund" of the Soldiers' Home and paid to the treasurer of said home to meet current expenses (section 8, act of March 3, 1883, 22 Stats., 565) ..... | \$120,900.00 |
| Interest on Soldiers' Home permanent fund (same act) .....  | 72,879.55    |

## PAYMASTERS' DIVISION.

\* \* \* \* \*

The records of 269 officers have been examined for the purpose of establishing dates on which longevity pay accrued under acts of June 18, 1878, and February 24, 1881, and the decisions of the Supreme Court in the cases of the United States *vs.* Tyler and United States *vs.* Morton.

The record of deposits by enlisted men, under act of May 15, 1872, shows that 6,458 deposits were made since last report, amounting to \$387,711.43, and that 8,529 deposits, amounting to \$459,989.93, have been withdrawn, upon which the depositors received \$42,699.16 interest.

The amount involved in 425 paymasters' accounts and 192 miscellaneous settlements was \$14,653,383.08, as follows:

|  |                      |
|--|----------------------|
| Amount disbursed by paymasters, as per audited accounts .....  | \$14,495,654.98      |
| Amount certified to be due the Soldiers' Home on account of contributions (12½ cents per month), fines and forfeitures by sentence of courts-martial, etc .....  | 126,067.34           |
| Amount transferred to the books of the Third Auditor's Office on account of subsistence and quartermasters' stores, transportation furnished soldiers on furlough, etc., also transfers on Second Auditor's books to adjust appropriations ..... | 31,118.43            |
| Charges raised against officers for overpayments, erroneous musters, etc .....   | 46.70                |
| Credits on account of overpayments refunded and charges removed on satisfactory explanations .....   | 364.16               |
| Payment of transportation accounts .....   | 131.47               |
| <b>Total .....</b>   | <b>14,653,383.08</b> |

\* \* \* \* \*

On June 30, 1892, the accounts of paymasters were rendered to this office to include March, 1892, audited to include December, 1891, and confirmed by the Second Comptroller to include September, 1891. Thirty-five paymasters were on duty, so that the 109 monthly accounts on hand unsettled represent a period of about three months.

## ORDNANCE, MEDICAL, AND MISCELLANEOUS DIVISION.

\* \* \* \* \*

The amount involved in 1,339 accounts and claims disposed of was \$6,324,426.75, as follows:

|  |                     |
|--|---------------------|
| Ordnance, ordnance stores, etc., ordnance service, arming and equipping the militia, armament of fortifications, repairs of arsenals, and other appropriations of the Ordnance Department .....  | \$3,347,888.32      |
| Medical and hospital department, artificial limbs, Army Medical Museum, Library of the Surgeon-General's Office, trusses and appliances for disabled soldiers, and other appropriations of the Medical Department .....  | 696,244.14          |
| Contingencies of the Army, publication of Official Records of the War of the Rebellion, expenses of military convicts, expenses of the Commanding General's Office, contingencies of the Adjutant-General's and Inspector-General's Departments, special acts of relief, Artillery School at Fortress Monroe, Infantry and Cavalry School at Fort Leavenworth, etc ..... | 225,001.36          |
| Expenses of recruiting, local bounty claims, etc .....   | 88,709.30           |
| Support of National Home for Disabled Volunteer Soldiers .....   | 1,966,583.63        |
| <b>Total .....</b>   | <b>6,324,426.75</b> |

\* \* \* \* \*

When the miscellaneous files of settled accounts were placed in charge of this division, a large number of vouchers for expenses connected with enrollment and drafts during the late war remained in bundles and had never been properly arranged, and the pay rolls of armories and arsenals were to a great extent separate from the accounts to which they belonged, being too large for the file boxes. For convenience of reference and for the better preservation of these rolls and vouchers, it was deemed advisable to place them, not only in their proper order in the files, but also in boxes. From April to June, two clerks were employed on this work, during which time 72,507 vouchers were transferred from bundles to boxes, 10,241 were properly folded, and 5,508 were briefed.

INDIAN DIVISION.

\* \* \* \* \*

The work of the division is indicated by the following statements :

|  | Money accounts. | Property accounts. | Claims.      |
|--|-----------------|--------------------|--------------|
| On hand July 1, 1891.....                            | 431             | 399                | 32           |
| Received during the year .....                       | 886             | 674                | 5,206        |
| <b>Total</b> .....                                   | <b>1,317</b>    | <b>1,073</b>       | <b>5,238</b> |
| Audited and reported to the Second Comptroller ..... | 957             | 757                | 5,224        |
| On hand June 30, 1892.....                           | 360             | 316                | 14           |

|  |                     |
|--|---------------------|
| Disbursements allowed on the examination of accounts ..... | \$3,546,090.76      |
| Amount of claims allowed .....                             | 5,833,019.66        |
| <b>Total amount of disbursements allowed.....</b>          | <b>9,379,110.42</b> |

The term "accounts" as above used includes both the quarterly accounts rendered by disbursing officers and the "explanations" filed by them in modification thereof to remove items suspended in settlement. The following analysis is therefore added to exhibit the status of each of these species of accounts on June 30, 1892:

|                                | Cash.               |               | Property.           |               | Total.     |
|--------------------------------|---------------------|---------------|---------------------|---------------|------------|
|                                | Quarterly accounts. | Explanations. | Quarterly accounts. | Explanations. |            |
| In process of examination..... | 56                  | 26            | 49                  | 31            | 162        |
| Waiting examination.....       | 152                 | 126           | 123                 | 113           | 514        |
| <b>Total.....</b>              | <b>208</b>          | <b>152</b>    | <b>172</b>          | <b>144</b>    | <b>676</b> |

Attention is invited to the following facts exhibited by the foregoing tables: The total number of accounts and claims on hand is 152 less than a year ago. The number of quarterly accounts, cash and property, is less than at that date by 44 cash and 68 property. Of claims, there were 5,238 under consideration, against 3,719 the previous year, an increase of 1,519; yet but 14 remained unsettled at the end of the year. The total number of accounts and claims settled in 1891 was 5,520; this year it is 6,938, an increase of 1,418. The disbursements show an increase of \$1,526,631.17. The accounts of 136 disbursing officers are now in the current files awaiting action or are on the desks of examiners. The number of quarterly cash accounts on hand is 360, an average of about 2½ per officer. It is not practicable to reduce this

average much, because of the necessary connection between the accounts here and the preceding and succeeding accounts held by the Second Comptroller and the Indian Office, respectively.

In addition to the work of settlement, the voluminous records of the division, essential to the proper tracing of property and the fixing of responsibility where it belongs, have been brought well up to date.

Besides the above, the time of some of the best clerks has been largely occupied in overhauling the files to obtain evidence necessary to comply with the calls of the Attorney-General and the courts. These researches are laborious and exacting, though they count for little in the record of work performed. Much copying has been done in the course of this service, the total number of pages copied, including miscellaneous matters, being 4,731; number of letters written, 5,699.

#### PAY AND BOUNTY DIVISION.

\* \* \* \* \*

The record of this division shows that during the fiscal year 1892, 15,673 new claims for pay and bounty growing out of the war of the rebellion (with few exceptions) were presented for the consideration of this office; that 2,750 claims which had formerly been examined and disposed of were revived; that 8,534 claims were certified and allowed; that 13,979 were disallowed and that 8,636 were referred elsewhere. As explained in last year's report the term "referred elsewhere" is used to cover three classes of claims, namely, (1) claims which are actually sent out of the office or referred to other divisions; (2) claims that have already been formally settled, leaving nothing more due to the claimant—the claimant is so notified and the papers are filed with the settlement; (3) claims that have been suspended for more than three years for material evidence required to complete the cases, and in which no reply has been received from the claimant or attorney. Cases of the latter class, which constitute the majority of those reported as "referred elsewhere" are regarded as abandoned and are transferred to the disallowed files. Some of these may, eventually, be revived by the receipt of new evidence, but the great mass of them will never be disturbed.

The total number of claims acted upon was 31,149, and the number remaining on hand June 30, 1892, was 45,511. The amount required to pay 8,534 claims allowed was \$1,047,169.95, which gives an average of \$122.70 per claim. In transacting the business of the division 167,494 letters were written and 389,889 rolls and vouchers consulted.

#### DIVISION FOR INVESTIGATION OF FRAUD.

It is the duty of this division to examine and investigate all cases in which fraud, forgery, unlawful personation of claimants and witnesses, disputed questions of heirship and identity, irregular practices of attorneys, etc., are involved, and to take the necessary steps, through the officers of the Department of Justice and otherwise, to recover any moneys that may have been improperly drawn from the Treasury and to punish the offenders.

The number of cases on hand June 30, 1891, was 1,415; number referred to the division during the year, 930; making a total of 2,345 cases for consideration; 1,275 have been disposed of, leaving 1,070 cases on hand June 30, 1892.

\* \* \* \* \*

## PROPERTY DIVISION.

\* \* \* \* \*

About 1,200 officers render quarterly returns of clothing, camp and garrison equipage. The number of those returns on hand examined is therefore less than  $1\frac{1}{2}$  returns per officer, and the work of the division is practically up to date.

\* \* \* \* \*

I deem it proper to invite attention to the subjoined extract from the report of this office for 1887, which was also inserted in the reports for 1888 and 1891:

Prior to 1871 this division was charged with the settlement of property accounts or returns rendered by Army officers responsible for ordnance, ordnance stores, and supplies, but on December 19, 1870, the Secretary of War directed that such returns, after rigid examination by the Chief of Ordnance, should be filed in the Ordnance Office, and not transmitted to the Treasury. As the act of March 3, 1817 (section 277, Revised Statutes), makes it the duty of the Second Auditor to receive and examine all accounts relating to military stores, it may be questioned whether such property accounts as have received only the rigid examination of the Ordnance Office have been adjusted in accordance with law. (See 13 Op., 483.)

## DIVISION OF INQUIRIES AND REPLIES.

\* \* \* \* \*

The work of card-indexing the book records of payments to enlisted men of the volunteer Army, said books having been transferred to this office by the Paymaster-General in 1889, was completed April 21, 1892. It was commenced January 27, 1890, and the total number of cards written is 728,627, as follows: January 27 to June 30, 1890, 143,574; July 1, 1890, to June 30, 1891, 497,410; July 1, 1891, to April 21, 1892, 87,643.

Considerable progress has been made in card-indexing payments to enlisted men on detached service, in hospital, etc., 4,977 vouchers having been disposed of, from which 259,733 cards were written. This covers the entire year of 1861, a large part of 1862 and 1863, and a portion of 1864. Including 8,813 cards written last year, the total number of payments of this class which have been card-indexed is 268,546.

The card-indexing of single vouchers for current payments made by paymasters of the Army is well in hand. It was estimated that these payments would require about 36,000 cards per year, but the estimate should be increased at least 50 per cent, for the reason that payments to officers of the regular Army, as well as enlisted men, are included. The number of current payments to these classes of payees which have been card-indexed is 69,060, namely, prior to July 1, 1891, 2,211; July 1, 1891, to June 30, 1892, 66,849.

The card-indexing of payments to men absent from their commands has produced very satisfactory results. No day passes without applications being made for information concerning this class of payments. Under the old system a clerk had literally to search for a record of payments, often examining several bundles of vouchers before he could find what he wanted. Now he can obtain from the cards such directions as will enable him to get any required voucher with the least possible trouble or delay.

In January last the Record and Pension Office turned over to this Bureau upward of 100,000 descriptive lists of volunteer soldiers of the late war. As opportunity offered 23,670 of these papers have been arranged and filed as follows: 2,561 with settlements, 1,234 with pend-

ing claims, and 19,875 with similar papers pertaining to the regiments to which the men belonged.

Looking to next year's work I find that two acts were passed during the first session of the Fifty-second Congress which will materially affect this division, namely, the act of July 27, 1892, granting pensions to survivors of the Indian wars of 1832 to 1842, and the act of August 5, 1892, granting pensions to army nurses. About 25,000 payments made on hospital rolls to army nurses have already been card-indexed, and the cards will probably be assorted by the time that calls for information are made by the Pension Bureau. It is, therefore, confidently anticipated that such calls will be promptly responded to without additional clerical assistance. With regard to the survivors of Indian wars, known as the Black Hawk war, Creek war, Cherokee disturbances, and the Seminole war, the inquiries will not be so easily answered, because the records can not be so readily referred to.

#### MAIL DIVISION.

\* \* \* \* \*

The incoming mail is generally distributed within an hour after it reaches the office, special attention always being given to important matters. The system devised for examining and disposing of the outgoing mail continues to work satisfactorily. All letters from the office are carefully scrutinized and any errors that may be discovered are charged to the clerks who made them. The result is greater uniformity in business methods and fewer errors, either of omission or commission.

#### ARCHIVES DIVISION.

\* \* \* \* \*

In copying the worn and defaced registers of payments to volunteer organizations which have been in constant use for about 20 years it is found necessary, in order to correct errors made when the registers were first written, to refer to every muster and pay roll covering said payments. The number of the paymaster's voucher has been added to the record of payments, which much simplifies the work of withdrawing papers from the files. The record now shows at a glance the company and regiment to which payment was made, the period embraced in each payment, the paymaster's name, the file number, the number given to the account by the Pay Department, and the number of the voucher.

All original muster and pay rolls and other vouchers which have been copied are very carefully preserved, and a proper index to them is kept, so that should a question arise as to the correctness of the copy or the genuineness of a signature the original document can be produced at a minute's notice.

#### THE OLD ARMY DIVISION.

\* \* \* \* \*

The work performed is shown by the following statement:

| Classes of claims.                                    | Claims pending July 1, 1891. | New claims received. | Old claims revived. | Allowed. | Dis-allowed. | Referred elsewhere. | Claims pending June 30, 1892. |
|---|------------------------------|----------------------|---------------------|----------|--------------|---------------------|-------------------------------|
| Arrears of pay, etc. (regulars and volunteers).....   | 160                          | 181                  | 79                  | 44       | 148          | 79                  | 149                           |
| Sutlers, post traders, laundresses, tailors, etc..... | 68                           | 136                  | 56                  | 39       | 68           | 65                  | 88                            |
| Total.....  | 228                          | 317                  | 135                 | 83       | 216          | 144                 | 237                           |

The time of one clerk was occupied in answering letters of inquiry as to payments made and amounts due for services in the old Army and in furnishing information to other divisions of the office. The number of vouchers examined was 133,160; number of letters written, 7,672; number of cards written for restoring and improving old records, 66,725. The amount found due claimants in the 83 allowed claims was \$2,256.15.

Under section 4818, Revised Statutes, and the legislative, executive, and judicial appropriation acts of February 26, 1889, July 11, 1890, and March 3, 1891, the accounts of soldiers who deserted or were discharged by sentence of court-martial subsequent to March 3, 1881, also the accounts of deceased soldiers whose arrears of pay, etc., have not been claimed, have been audited in favor of the Soldiers' Home. The number of cases acted upon was 6,865, in 4,656 of which nothing was due. In the remaining 2,209 cases balances aggregating \$65,828.84 were found due and passed to the credit of the permanent fund of the Home.

## RECAPITULATION OF THE WORK OF THE OFFICE.

| Description of accounts.  | On hand July 1, 1891. | Received. | Disposed of. | On hand June 30, 1892. |
|---|-----------------------|-----------|--------------|------------------------|
| <i>Disbursing accounts.</i>                                     |                       |           |              |                        |
| Army paymasters .....   | 68                    | 466       | 425          | 109                    |
| Recruiting, ordnance, medical, and miscellaneous .....          | 142                   | 1,197     | 1,151        | 188                    |
| Indian agents .....   | 431                   | 886       | 957          | 360                    |
| Total disbursing accounts .....                                 | 641                   | 2,549     | 2,533        | 657                    |
| <i>Claims.</i>  |                       |           |              |                        |
| Arrears of pay and bounty, including claims prior to 1861 ..... | 58,465                | 18,875    | 81,592       | 45,748                 |
| Indian .....  | 32                    | 5,206     | 5,224        | 14                     |
| Total claims .....  | 58,497                | 24,081    | 36,816       | 45,762                 |
| <i>Property accounts.</i>                                       |                       |           |              |                        |

## CONDITION OF PUBLIC BUSINESS.

*Accounts of disbursing officers.*—As shown by the above recapitulation there are 657 disbursing accounts on hand awaiting settlement, namely, 109 paymasters' accounts, 188 miscellaneous accounts, and 360 accounts of Indian agents. Although this is 16 in excess of last year's showing, the increase does not call for special remark. The paymasters' and miscellaneous Army accounts are practically up to date. These accounts are rendered promptly and are noticeable for their good form and general accuracy. The accounts of Indian agents are more nearly up to date than they have ever been since the war. Of late years there has been a commendable improvement in the form in which they

reach this office, but they are susceptible of further improvement in the matter of correctness and compliance with law and the regulations of the Indian Office. This is indicated by the fact that there are 126 "explanations" awaiting consideration. These explanations consist of evidence furnished by disbursing officers in connection with items suspended in the settlement of their accounts, and are themselves evidence of irregularities and error.

*Property accounts.*—There are 1,869 property accounts (1,553 Army and 316 Indian) on hand, a decrease of 168 as compared with last year's report. The Army property accounts are generally correct, owing in a great measure to the rigid accountability to which officers are held by the War Department for every article of public property intrusted to them. The remarks concerning the disbursing accounts of Indian agents are also applicable to their property accounts, there being 113 "explanations" awaiting action. It is only fair to add that Indian property embraces a far greater variety of articles than the Army property which is accounted for to this office, and that the modes of expenditure are also more various.

*Claims.*—The number of unsettled claims is 45,762, namely, 45,748 pay and bounty and 14 Indian, a decrease of 12,735 since June 30, 1891. The unsettled Indian claims call for no remark. This class of work has never been in arrear. These claims are chiefly for supplies furnished to meet current wants of the Indian service, and contractors urge as one reason for immediate adjustment that they sell on so small a margin that every day's delay in payment is an injury to them. Some delay is absolutely unavoidable, but, so far as this office is concerned, it has been reduced to a minimum. With regard to claims for arrears of pay and bounty, it is a noteworthy fact that a large proportion is presented by the heirs at law of the soldier and by collateral heirs. In some instances more than twenty heirs, residing in half a dozen different States, have applied for a soldier's pay and bounty. Each heir is required to furnish satisfactory evidence of identity and heirship, and his claim must be decided upon the evidence presented and upon the law applicable to the case.

Claims for pay and bounty are registered in the name of the soldier, and only one settlement is made in each case, no matter how many claimants there may be. It will be seen, therefore, that while 31,592 claims for pay and bounty are reported as disposed of during the fiscal year 1892, there were really many times that number of claimants. In like manner the 45,748 claims on hand, while representing only that number of soldiers, may represent 150,000 claimants or even more. It follows as a matter of course that the work now involved in settling a soldier's case, where many heirs appear, is very much greater than it would have been to settle the same case twenty years ago, when only the soldier himself, or his widow, was represented. In addition to this it should be stated that claims are now examined and settled with a thoroughness not considered necessary even a dozen years since. Under the practice of former years if a soldier claimed bounty his claim for bounty was considered to the exclusion of everything else, unless it appeared that he had been overpaid. Then the debit items were taken cognizance of. If a soldier now presents a claim, either for pay or bounty, his claim is considered in connection with his entire military service, and whatever he may be found entitled to is allowed and paid whether he makes a specific claim for it or not. In other words, his account is exhaustively examined and settled on principles of strict and impartial justice.

## DISALLOWED CLAIMS.

In my last report I commented at some length on the fact that more than 60 per cent of the claims for arrears of pay and bounty acted upon during the preceding ten years were disallowed for the reason that payment had already been made in full, either to the soldier or to his legal heirs, and I suggested the enactment of a law authorizing the Second Auditor to reject all such cases without referring them to the Second Comptroller. Following up the matter, I prepared a bill which received the approval of the Second Comptroller and the Secretary of the Treasury, was presented in both Houses of Congress, passed the Senate without objection, and was favorably reported by the House Committee on War Claims. It was finally incorporated in the bill making appropriations for the legislative, executive, and judicial expenses of the Government, and became a law July 16, 1892, as follows:

That hereafter nothing in section 277 of the Revised Statutes shall be so construed as to prevent the Second Auditor of the Treasury from disallowing claims for arrears of pay and bounty in cases where it appears from the records and files of his office that payment in full has already been made to the soldier himself, or to his widow or legal heirs: *Provided*, That if any person whose claim may be disallowed be dissatisfied with the action of the Auditor, he may, within six months, appeal to the Second Comptroller; otherwise the Auditor's action shall be deemed final and conclusive, and be subject to revision only by Congress or the proper courts.

The necessity for the passage of such a measure, which was fully apparent a year ago, is emphasized by another year's experience. From July 1, 1891, to June 30, 1892, as shown by the present report, 14,195 claims for pay and bounty, including those which accrued prior to 1861, were disallowed and 8,617 allowed. That is, out of 22,812 claims formally certified by the Second Auditor and Second Comptroller, more than 62 per cent were cases in which nothing was due the claimants.

It is perhaps unnecessary to say that the power now conferred upon the Auditor to deal summarily with a class of claims which for eleven years past has been a source of trouble and vexation will be exercised with due care and discretion. They will be so treated that in case of appeal they can be referred to the Comptroller without avoidable delay and with the least possible expenditure of labor.

## PAYING SOLDIERS OF THE LATE WAR ON A GOLD BASIS.

During the last eight or ten years the question of paying soldiers who served during the war of the rebellion, or their widows and legal heirs, the difference between paper currency and gold has frequently been raised, and this office has on several occasions been called upon for an estimate of the amount which would be required to make such payment. So far as I am informed enlisted men are the only persons to whom it has been proposed to grant relief of this character, although every soldier, commissioned as well as enlisted, would seem to have an equal claim if it be admitted that any just or equitable claim exists. As the subject is one of general interest, especially in view of the enormous amount involved, I deem it proper to place on record the following estimate and explanatory remarks:

The difference between coin and currency which it has been proposed to pay to enlisted men of volunteers is on their pay proper only, but there is no record, either here or elsewhere, of the amount paid to enlisted men on that account during the late war. As a rule officers and men of volunteers were paid on the same rolls, which contained not

only pay proper, but also all allowances to which they might be entitled, such as subsistence and other allowances of officers, and clothing, bounty, and traveling allowances of enlisted men. Another obstacle in the way of a satisfactory estimate of the amount involved is that the actual number of enlisted men who served during the war of the rebellion is not known. The aggregate strength of the armies of the United States at various times during the war was as follows:

|                       | Officers and men. |
|-----------------------|-------------------|
| January 1, 1862 ..... | 575, 917          |
| March 31, 1862 .....  | 637, 126          |
| January 1, 1863 ..... | 918, 191          |
| January 1, 1864 ..... | 860, 737          |
| January 1, 1865 ..... | 959, 460          |
| March 31, 1865 .....  | 980, 086          |

These figures are official, but I am not aware that any further statistics on the subject have been compiled. Taking the above figures in connection with the fact that nearly 2,000,000 troops were added to the Army under special authority, calls, and proclamations, issued between January, 1862, and December, 1864, I estimate that the average strength of the Army during the period from January 1, 1862, to April 9, 1865, was as follows:

|                                      | Officers and men. |
|--------------------------------------|-------------------|
| January 1 to December 31, 1862 ..... | 700, 000          |
| January 1 to December 31, 1863 ..... | 800, 000          |
| January 1 to December 31, 1864 ..... | 900, 000          |
| January 1 to April 9, 1865 .....     | 950, 000          |

The proportion of officers to enlisted men is not known, but for the purpose of this estimate a regiment of infantry of minimum strength may be taken as a basis of calculation. Such a regiment consisted of 36 officers and 830 men, which will give a proportion of a fraction more than 40 officers to each 1,000 men; but some allowances must be made for officers of the general staff, of whom about 1,600 were in the service in 1862; 3,000 in 1863, and 4,000 in 1864 and 1865. The 700,000 troops estimated to have served in 1862 would, therefore, approximately consist of:

Staff officers, 1,600; regimental and company officers, 28,000; rank and file, 670,400; total, 700,000. In 1863 there would be 3,000 staff officers, 31,800 regimental and company officers, and 765,120 rank and file; total 800,000. In 1864 the number would be: staff officers, 4,000; regimental and company officers, 35,800; rank and file, 860,200; total, 900,000. In 1865 there would be 4,000 staff officers; 37,840 regimental and company officers, and 908,160 rank and file; total, 950,000.

The amount required to pay a regiment of infantry consisting of 830 enlisted men was, in 1862, a little more than \$11,000 per month; so that the pay proper of 670,400 enlisted men for that year would be, in round numbers, \$106,500,000.

By the act of May 1, 1864, the pay of enlisted men was increased, and the amount required to pay a regiment of minimum strength, subsequent to the date of said act, was about \$14,000 per month.

By the above method of calculation, which in view of the scanty data obtainable appears to be the only feasible one, the amount required to pay the difference between coin and currency is \$144,922,500, as follows:

| Date.  | Estimated number of enlisted men. | Amount of pay proper in currency. | Amount required to place on a gold basis. | Difference between coin and currency. |
|--|-----------------------------------|-----------------------------------|---|---------------------------------------|
| January 1 to December 31, 1862.....  | 670, 400                          | \$106, 500, 000                   | 12 per cent..                             | \$12, 730, 000                        |
| January 1 to December 31, 1863.....  | 765, 120                          | 121, 000, 000                     | 32 per cent..                             | 38, 720, 000                          |
| January 1 to April 30, 1864.....   | 860, 200                          | 45, 500, 000                      | 51 per cent..                             | 23, 205, 000                          |
| May 1 to December 31, 1864.....  | 860, 200                          | 116, 000, 000                     | 51 per cent..                             | 59, 160, 000                          |
| January 1 to April 9, 1865.....  | 908, 160                          | 50, 500, 000                      | 37 per cent..                             | 18, 685, 000                          |
| Total .....  |                                   |                                   |   | 152, 550, 000                         |
| From which deduct court-martial fines, forfeitures for absence without leave, clothing overdrawn, arms and equipments lost, etc., say 5 per cent ..... |                                   |                                   |   | 7, 627, 500                           |
| Net amount required to pay the difference between coin and currency.....   |                                   |                                   |   | 144, 922, 500                         |

If commissioned officers were included in the foregoing estimate, the the amount required to pay volunteers the difference between gold and greenbacks would be in the neighborhood of \$200,000,000.

MONEY DUE THE ESTATES OF DECEASED COLORED SOLDIERS.

The fact that there is money (arrears of pay and bounty) in the Treasury belonging to the estates of deceased colored soldiers who served during the late war, has excited considerable interest from time to time, and sundry efforts have been made to obtain possession of it for the benefit of colored educational and charitable institutions. In order to place the matter in a proper light, the following details are given:

In accordance with the joint resolution of March 29, 1867 (15 Stat., 26) all moneys certified to be due colored soldiers were paid to the Commissioner of the Freedmen's Bureau, who was charged with the faithful disbursement of the funds. When the Bureau was discontinued in 1872 the unexpended balance of said funds was turned over to the Adjutant-General's Department for disbursement, and every effort was made to find the persons entitled thereto. In many instances it was ascertained that the payees were dead, and in all such cases the amounts were returned to the Treasury. In other cases the funds were held for seven years, and then repaid into the Treasury on the legal presumption of the death of the payees. The total amount repaid was \$504,000. In 1882 it was found that more than one-half of that sum had been claimed, the actual amount then remaining unclaimed being \$240,233.

Although no separate account has been kept of the claims paid since 1882, or still pending, it is estimated that the amount now unclaimed does not exceed \$100,000, a large proportion of which will undoubtedly be paid out, as claims are being constantly filed by the original claimants, who could not be found by the disbursing officers, or by the heirs of those who died subsequent to the allowance of their claims. It is, of course, quite impossible even to estimate what sum will finally remain unclaimed, because claims of this character are not barred by any statute of limitations. If it should be deemed just or expedient that unclaimed moneys belonging to the estates of colored soldiers be set apart, either for the education of the colored race or for charitable purposes, it will be necessary to determine by actual examination how much remains unclaimed. It will also be necessary to bar all claims not presented prior to some date to be fixed by law.

SOLDIERS' HOME ACCOUNTS.

By the act of March 3, 1851, (section 4818, Revised Statutes), all court-martial fines and all forfeitures on account of desertion and all

moneys belonging to the estates of deceased soldiers remaining unclaimed for three years subsequent to the death of such soldiers were set apart and appropriated for the support of the Soldiers' Home. For reasons which need not now be considered, payments to the Home from these sources fell very much in arrear, and in 1883, after a committee of the Senate had investigated the matter, a special force of clerks was provided to settle the accounts of deserters and deceased soldiers. In 1886, Congress limited the settlement of such accounts to those that accrued subsequent to March 3, 1851, and in 1889 the adjudication of said accounts was still further limited to such as originated subsequent to March 3, 1881. During the nine years from 1883 to 1892 the accounts of all deceased soldiers whose arrears of pay, etc., remained unclaimed for three years were adjusted and the proceeds placed to the credit of the permanent fund of the Soldiers' Home, in accordance with the act of March 3, 1883. The accounts of deserters from the cavalry, artillery, and fifteen regiments of infantry from April 13, 1861, to March 3, 1881, were also settled and the proceeds similarly disposed of, and settlements have been made crediting the permanent fund with moneys forfeited by soldiers dishonorably discharged between 1881 and 1891 by sentence of court-martial with forfeiture of pay, etc. The accounts of soldiers who deserted subsequent to March 3, 1881, have also been adjusted with few exceptions.

The accounts of the Home are now settled substantially up to date—that is, so far as existing law permits them to be settled—and the special force of clerks was dispensed with on June 30, 1892.

By the operation of the act of February 26, 1889, which prohibited the adjustment of accounts which originated prior to March 3, 1881, the following classes of cases have not been examined:

(1) Accounts of soldiers who deserted from the Army between March 3, 1851, and April 13, 1861, and did not return to the service.

(2) Accounts of soldiers who deserted from four regiments of infantry (Sixteenth to Nineteenth, inclusive), between April 13, 1861, and December 31, 1866, and did not return to the service.

(3) Accounts of soldiers who deserted from forty-five regiments of infantry (First to Forty-fifth, inclusive), between January 1, 1867, and December 31, 1869, and did not return to the service.

(4) Accounts of soldiers who deserted from ten regiments of infantry (Sixteenth to Twenty-fifth, inclusive), between January 1, 1870, and March 3, 1881, and did not return to the service.

(5) Accounts of soldiers dishonorably discharged from the Army by sentence of court-martial between March 3, 1851, and March 3, 1881, with forfeiture of pay and allowances.

If the bar to the settlement of these five classes of accounts were removed the permanent fund of the Home would be increased by arrearages which have accrued since March 3, 1851, as follows:

|  |          |
|--|----------|
| Forfeitures by soldiers who deserted between 1851 and 1861 (estimated).....            | \$50,000 |
| Forfeitures by soldiers who deserted between 1861 and 1881 (estimated).....            | 500,000  |
| Forfeitures by soldiers dishonorably discharged between 1851 and 1881 (estimated)..... | 150,000  |
| Total.....   | 700,000  |

#### PAYMENT OF CLAIMS FOR BACK PAY AND BOUNTY.

For many years past this office has earnestly recommended the appropriation, in advance, of sufficient funds to pay such claims for arrears of pay and bounty for services during the late war as might be certified by the Second Auditor and Second Comptroller. By the act of April 4, 1890, appropriations were made to meet claims to be certified during

the remainder of the fiscal year 1890, and by the acts of August 30, 1890, and March 3, 1891, sufficient appropriations were made for the fiscal years 1891 and 1892, respectively. An estimate was submitted for the fiscal year 1893, as follows: Pay of two and three year volunteers, \$650,000; bounty to volunteers and their widows and legal heirs, \$375,000, and bounty under the act of July 28, 1866, \$50,000; total, \$1,075,000. The amounts appropriated by the act of August 5, 1892, were: Pay of two and three year volunteers, \$435,000; bounty to volunteers and their widows and legal heirs, \$250,000; bounty under the act of 1866, \$35,000; total, \$720,000, being \$355,000 less than the estimate.

Up to the date of this report the claims certified (during four months of the fiscal year 1893) aggregate \$417,720, namely: Pay of two and three year volunteers, \$258,500; bounty to volunteers, etc., \$141,110, and bounty act of 1866, \$18,110, leaving only \$297,280 available to meet claims to be certified during the rest of the fiscal year. The indications are that this balance will be exhausted long before June 30, 1894, and that many claimants will have to wait for their dues unless additional appropriations are made early in the ensuing session of Congress.

#### THE CLERICAL FORCE.

It affords me great satisfaction to say that the clerks of this office are entitled to credit for diligence, fidelity, and general efficiency. The detailed reports of each division show the amount of work that has been performed, but, in the words of one of my predecessors (the late Hon. E. B. French), "the wearisome details, the anxious, patient, and faithful clerical labor necessary to accomplish this can only be imagined."

In compliance with the directions of the President of the United States, dated December 4, 1891, and the orders of the Secretary of the Treasury, dated December 24, 1891, there has been kept "an efficiency record of all persons in the classified service, with a view to placing promotions wholly upon the basis of merit." This record shows how each person stands as to daily punctuality and attendance and the monthly average efficiency of each. The elements of efficiency are punctuality, attendance, industry, accuracy, aptitude, conduct, and ability. The record has been kept justly and impartially, and affords conclusive evidence of the high standing of the clerical force. (On July 1, 1892, the Secretary's orders of December 24, 1891, were so far modified as to require that the monthly average efficiency shall be determined by punctuality, attendance, conduct, industry, and ability.)

Several competitive examinations for promotion were held between January 1 and June 30, and it is gratifying to be able to report that the result reflected great credit upon those who were examined. My only regret is that there were not vacancies enough in the higher grades to reward all those who proved themselves worthy of promotion.

Very respectfully,

J. N. PATTERSON,  
*Auditor.*

THE SECRETARY OF THE TREASURY.

(No. 11.)

**REPORT OF THE THIRD AUDITOR.**

TREASURY DEPARTMENT,  
OFFICE OF THE THIRD AUDITOR,  
*Washington, D. C., November 1, 1892.*

SIR: I have the honor to submit the annual report of this bureau for the fiscal year ending June 30, 1892.

I desire to acknowledge with generous appreciation the faithfulness, efficiency, and industry of the chiefs and employés of the different divisions. The work of the office has been entered into by all with energy and earnestness and the results of the year's labors are very gratifying.

The consolidation of the divisions of this office, to the end that business should be divided on practical lines, has enabled the bureau to make a better exhibit in results, with two less chiefs, than has ever marked its history. The Horse Claims and Miscellaneous Claims Divisions being merged together, the work will hereafter be done in four divisions, with a reduction of \$6,000 per year in salaries, and as the result of consolidation a very material saving of labor that in superfluous organization is always wasted in unnecessary references and duplication of duties.

The work of this office is so closely in touch with the active and marvelous development of the country that the growth of business continues to steadily increase. The summary presented by the book-keeper's division, especially as indicated in the items for river and harbor improvements, will illustrate the priceless advantage of this appropriation to the general public and the fidelity which marks its outlay. The disbursements audited exceed by \$14,000,000 the amount of any previous year, while the average increase of work per clerk employed is near 10 per cent.

The auditing of pension payments represents about one-half the labor incident to the duties of this bureau. The very full statistics presented will best represent the care and detail employed in the supervision of this appropriation, given to the soldiers of the Union on account of their heroic and patriotic sacrifices to the Republic. The disbursements as audited during the fiscal year were \$21,263,148.17 more than in 1891, while the original and increase pensions listed on the ledgers were 169,402 more than the last fiscal year. In the reimbursement section, the duty of which is to apply accrued pensions to the payment of last sickness and burial expenses of indigent pensioners, the number of deaths in excess of 1890 shows an increase of 40 per cent.

Under legislation of recent years, many war claims heretofore adjudicated in the Departments are reviewable in the Court of Claims, and the labors of this office are considerably increased in the collecting of information for the use of the court.

\* \* \* \* \*

NOTE—Much of the summary relating to the duties and work of the different divisions of this office is omitted for want of space.

## HORSE CLAIMS DIVISION.

The statute of limitation barring the presentation of new claims went into effect August 13. During the year 2,185 cases have been disposed of, and I hope by the close of the next fiscal year to dispose of all the unfinished business now on the docket. The division will be consolidated with that of the miscellaneous claims.

\* \* \* \* \*

## MILITARY DIVISION.

At the commencement of the fiscal year I consolidated the collection division with this one, and the result has been not only a saving of salary by having one less chief, but by the systematizing of business on new lines, a saving of labor that has permitted the transfer of a number of clerks to pension and other work that is so rapidly increasing.

\* \* \* \* \*

## CLAIMS DIVISION.

To this division is assigned all the miscellaneous claims, railroad and telegraph accounts, lost vessels, preparation of evidence called for in cases before the Court of Claims, Oregon and Washington Indian war claims, State war claims, etc. The nature of the duties requires not only expert accountants, but a familiarity with appropriations, statutes, and departmental business, that renders it one of the most responsible and important divisions in the Treasury.

## PENSION AND BOOKKEEPER'S DIVISIONS.\*

\* \* \* \* \*

## THE RECORDS.

The records are in a fairly good state of preservation; but for want of room it has not been possible to keep each class of accounts in its proper consecutive order; however, much work has been done to that effect. A large quantity of old matter of a very miscellaneous character has been assorted and briefed, and several hundreds of volumes of pension abstracts have been bound, making an unbroken series of abstracts from 1862 to 1889 inclusive.

Although additional shelving has been provided for every available place in the files rooms and a great deal has been done in the way of moving and condensing the packages of records, unless additional space is largely added it will not be possible to accommodate the current files of the coming year.

The increase in bulk of pension papers has been beyond all precedent and is likely to continue for many months. The force employed consists of two clerks and two laborers.

Respectfully,

W. H. HART,  
*Auditor.*

Hon. CHARLES FOSTER.  
*Secretary of the Treasury.*

\* Tabulated statements relating to the operations of these divisions will be found in the Appendix.

## APPENDIX.

Exhibit D.—COMPARATIVE STATEMENT OF ACCOUNTS OF PENSION AGENTS PAID DURING PERIOD FROM JULY 1, 1882, TO JUNE 30, 1892, AND WORK IN THIRD AUDITOR'S OFFICE IN AUDITING SUCH ACCOUNTS DURING SAME PERIOD.

| PERIOD.              | Paid by Pension Agents. |                    | Audited.         |                    | Gain in Auditor's Office over current work. |                    | Falling off in Auditor's Office below current work. |                    | Average number of clerks employed. | Average number of vouchers passed per clerk. |
|----------------------|-------------------------|--------------------|------------------|--------------------|---|--------------------|---|--------------------|------------------------------------|--|
|                      | No. of vouchers.        | Amount involved.   | No. of vouchers. | Amount involved.   | No. of vouchers.                            | Amount involved.   | No. of vouchers.                                    | Amount involved.   |                                    |  |
| Fiscal year—         |                         |                    |                  |                    |   |                    |   |                    |                                    |  |

## EXCHANGE.

Bills of exchange were sold by the pay officers of the Navy Department during the year to the amount of \$1,074,568.05. Of this sum \$776,407.33 was drawn on the Navy agents at London, and \$298,160.72 on the Secretary of the Navy.

These bills were negotiated at varying rates of exchange, the gross loss being \$3,408.20; gross gain, \$12,044.94, making the total net gain of \$8,636.74.

The following tables show these transactions in detail.

DRAFTS DRAWN ON THE NAVY AGENTS, LONDON, ENGLAND, FOR THE FISCAL YEAR ENDING JUNE 30, 1892.

| Name.   | Amount of bill. |       | Amount received. | Loss.       | Gain.    |
|---|-----------------|-------|------------------|-------------|----------|
|   | £               | s. d. |                  |             |          |

NOTE.—Much of the summary relating to the work of the different divisions of this office is omitted for want of space.

## SPECIAL FISCAL AGENTS AT LONDON.

The same contract continues in force with Messrs. Seligman Brothers, special fiscal agents at London, as stated in my last annual report, viz:

A commission of one-half of 1 per cent is paid on disbursements made by them on account of the Navy Department. On daily balances in their hands they pay to the Government the rate of interest paid by the London joint stock banks, and on advances they receive the rate charged by the Bank of England. Commissions amounting to \$4,398.29 have been paid to them during the year. They have paid the amount of \$2,903.65 as interest on the daily credit balances.

There has been a net gain of \$3,866.80 in the transfer of funds from New York to London.

The sum of \$4,936.01 was expended under section 4718 of the Revised Statutes to reimburse those who bore the expense of last sickness and burial of pensioners.

## CONDITION OF BUSINESS.

It will be seen that the current work of the Bureau is practically up to date. The current business that was most in arrears a few years ago was replies to inquiries from the Pension Office asking the naval history of applicants for pension for service in the Navy. Inasmuch as final action could not, in such cases, be taken by the Pension Office until the information asked for had been furnished by this Bureau, I deemed it an act of simple justice to applicants for naval pensions and the legal representatives of those who may have died to make that class of work special, and to bring it up to date at all hazards.

For this purpose Congress granted a few additional clerks, who, with extra effort, under the supervision of the efficient chief in charge of that division, accomplished the desired result. The final adjustment of such claims, therefore, is not delayed awaiting information from this office.

Your attention is especially invited to the reports of the several chiefs of divisions under whose efficient supervision you will notice that not only a large amount of work has been done, but it has also been done in a satisfactory manner.

Too much can not be said in commendation of the chiefs of divisions and their able assistants for the creditable way in which they have discharged their duties.

I renew my recommendation, made in my last report, that the amount found due claimants for bounty for service in the Navy be made payable out of current appropriations instead of being certified to Congress.

JOHN R. LYNCH,  
*Auditor.*

Hon. CHARLES FOSTER,  
*Secretary of the Treasury.*

(No. 13.)

REPORT OF THE FIFTH AUDITOR.

TREASURY DEPARTMENT,  
FIFTH AUDITOR'S OFFICE,  
Washington, D. C., October 22, 1892.

SIR: As instructed by your letter of July 15 last, I have the honor to hereby make a report of the transactions of this office during the fiscal year ended June 30, 1892, and of the present condition of the public business intrusted to my charge. It is proper for me to state that the year for which this report is made was during the incumbency of my predecessor in office, the Hon. L. W. Habercorn, whom I relieved on July 15, 1892; yet I may say a considerable part of the year's work was, from the nature of the case, performed after my induction as Auditor. The last quarter's accounts of the fiscal year were nearly all of them received in the office and adjusted after I took charge, and many accounts covering the whole of the fiscal year had not been passed be, cause their settlement depended upon the annual business transacted and could not be finally disposed of until the accounts for the last (June) quarter had been received, completing the returns for the year.

I would also state that I found the affairs of the office in good condition and the personnel of the Bureau capable and experienced.

\* \* \* \* \*  
NOTE—Much of the summary relating to the different divisions of this office is omitted for want of space.

This office referred in its last year's report to the matter of importations claimed to be in transit at the outset being changed in their destination and the goods sold in the United States, thus depriving the Treasury of the consular fees required by law for certifying bona fide importations, consular officers retaining the said fees as notarial under the regulations as for goods actually destined to a foreign country.

The measures which had been taken to correct the irregularity were also referred to. It was stated that the circular on the subject issued to consular officers by the Department of State on July 17, 1891, would be construed by this office "to mean that in all cases where a certificate to an invoice is procured from a consular officer of the United States the fee therefor shall be returned to the Treasury as official, without regard to the alleged destination of the goods."

In accordance with this statement and the construction placed upon the circular the fees have been charged as *official* in all cases where the service has been reported in the returns to this office. Some perplexity has naturally resulted to consular officers affected by this course, owing to differences thus caused against them in their accounts, which they were not willing to concede and which were troublesome to get rid of by reason of the seeming difficulty of obtaining evidence as to whether the goods were carried out of or sold in the United States.

I may say, however, that experience has demonstrated the practica-

bility of procuring satisfactory proof in each case of the disposition of the goods.

The customary tables lettered from A to K will appear at the end of the report as an appendix,\* showing in detail, by legations, consulates, and internal-revenue districts, the salaries, expenses, collections, and fees involved in the adjustments made; and the following are résumés of the same as they relate to their respective appropriations, and also of some additional disbursements on other accounts. They will be presented in the order of the divisions of the office, namely:

#### DIPLOMATIC AND CONSULAR DIVISION.

*Diplomatic service.*—The accounts of ministers and other officers of the diplomatic service have been adjusted, showing (Table A of the Appendix\*) expenditures and passport fees for the year, as follows:

|   |              |
|---|--------------|
| Paid for salaries of ministers.....   | \$295,563.09 |
| Paid for salaries, secretaries of legations .....                                       | 30,672.86    |
| Paid for salary, clerk to legation in Spain.....  | 1,200.00     |
| Paid for salaries, diplomatic officers while receiving instructions and in transit..... | 4,931.15     |
| Paid for salaries, chargé d'affaires <i>ad interim</i> .....                            | 29,795.96    |
| Paid for salaries, interpreters to legations.....                                       | 9,827.64     |
| Paid for contingent expenses, foreign missions .....                                    | 116,063.57   |
| Paid for loss by exchange, diplomatic service.....                                      | 700.34       |
|   | <hr/>        |
| Total salaries and expenses.....  | 488,754.61   |
| Passport fees received and accounted for.....   | 1,510.03     |

There are several accounts of legations yet to be received. These are pointed out by figures referring to footnotes in Table A of the appendix.

The appropriations made for salaries, chargés d'affaires *ad interim*, \$20,000, and contingent expenses, foreign missions, \$105,000, were both exceeded by the expenditures.

Payments to chargés d'affaires *ad interim*, however, necessarily result in a saving of the appropriation for salaries, secretaries of legations, as the salaries of secretaries lapse while they act as chargés d'affaires.

*Consular service.*—Accounts of consular officers have been adjusted, showing expenses for this service and official fees collected as follows (Tables B, C, D, and E of the Appendix\*):

|  |              |
|--|--------------|
| Paid:  |              |
| Salaries, consular service.....  | \$490,391.06 |
| Salaries while receiving instructions and in transit .....                     | 7,751.01     |
| Salaries, consular officers not citizens.....                                  | 13,032.74    |
| Salaries, consular clerks.....   | 14,154.43    |
| Loss on bills of exchange.....   | 3,912.25     |
| Pay of consular officers for services to American vessels .....                | 23,700.35    |
| Compensation from fees (sections 1703, 1730, and 1733, Revised Statutes) ..... | 200,548.53   |
| Office rent and clerk hire (section 1732, Revised Statutes).....               | 2,536.67     |
| Contingent expenses, United States consulates.....                             | 218,134.83   |
| Allowance for clerks at consulates.....  | 87,884.85    |
| Expenses of prisons for American convicts.....                                 | 7,220.88     |
| Salaries, interpreters to consulates in China, etc .....                       | 13,559.24    |
| Salaries, marshals for consular courts.....                                    | 8,000.00     |
| Expenses of interpreters and guards, etc.....                                  | 6,000.00     |
| Boat and crew at Hongkong and Osaka and Hiogo.....                             | 758.71       |
|  | <hr/>        |
|  | 1,097,585.55 |
| Received:  |              |
| Consular fees received for official services .....                             | 940,040.50   |
|  | <hr/>        |
| Excess of expenditures over receipts.....                                      | 157,545.05   |

\* Omitted. See note, page 549.

There is shown to be an increased excess of expenditures over receipts as compared with last year of \$40,526.70. It is due mainly to the falling off in the consular fees.

The expenditures of two of the appropriations exceed the amounts appropriated, namely: Contingent expenses United States consulates appropriated, \$150,000; allowed to date, \$218,134.83; salaries, consular officers, not citizens, appropriated, \$10,000; allowed, \$13,032.74. The discontinuance by Congress of the last-named appropriation for aliens in the act making appropriations for 1893, and the uniting of the same with salaries, consular service, will be very satisfactory in its effects, and the provision in the same act is just as satisfactory and important for including the payments for time while a consul is waiting the receipt of his exequatur in with his account for receiving instructions and in transit, and which this office recommended in its reports for the fiscal years 1887 and 1892.

*Consular fees.*—The consular fees collected for official services are stated in detail as to the character and amount at each consulate in Table H of the Appendix,\* and aggregate in kind and amount as follows:

|                            |                   |
|----------------------------|-------------------|
| Invoice certificates.....  | \$862,519.00      |
| Landing certificates.....  | 28,750.00         |
| Bills of health.....       | 21,339.00         |
| Currency certificates..... | 13,028.00         |
| Other fees.....            | 14,404.50         |
| <b>Total.....</b>          | <b>940,040.50</b> |

The fees are short of what they were last year by \$38,102.08, made up of differences in the kinds of fees as follows:

|  |                  |
|--|------------------|
| Falling off in invoice fees.....         | \$34,136.25      |
| Falling off in landing certificates..... | 11,112.00        |
|  | <b>45,248.25</b> |
| Gain in bills of health.....             | \$346.50         |
| Gain in currency certificates.....       | 4,347.00         |
| Gain in other fees.....                  | 2,452.67         |
|  | <b>7,146.17</b>  |
|  | <b>38,102.08</b> |

A falling off in the invoice fees has been going on since 1890. As compared with the collections for the fiscal year 1890, there is a diminution in the amount for this year of \$89,421.75, indicating a less number of invoices of foreign goods brought into the United States in 1892 than in 1890 by 35,768 invoices.

*Relief of seamen.*—As shown by Tables F and G of the Appendix,\* accounts for relief and wages of seamen were adjusted, with the following results:

|  |                   |
|--|-------------------|
| Board and lodging.....                                 | \$9,065.57        |
| Clothing.....  | 6,011.65          |
| Medical aid.....                                       | 6,324.45          |
| Other expenses.....                                    | 7,568.22          |
| Loss by exchange.....                                  | 107.07            |
| Passage to the United States paid at the Treasury..... | 12,088.88         |
| <b>Total.....</b>                                      | <b>41,165.84</b>  |
| Amount of extra wages and arrears collected.....       | <b>257,456.26</b> |

\* Omitted. See note, page 549.

|   |                     |
|---|---------------------|
| Amount of extra wages and arrears paid to seamen .....      | \$244, 579. 72      |
| Amount of extra wages and arrears paid for relief .....     | 6, 255. 51          |
| Amount of extra wages and arrears in hands of consuls ..... | 6, 621. 03          |
| <b>Total</b> .....  | <b>257, 456. 26</b> |
| Total relief afforded.....                                  | 41, 165. 84         |
| Wages and extra wages applied .....                         | 6, 255. 51          |
| Amount paid by the United States .....                      | 34, 910. 33         |
| Balance of appropriation unexpended October 15, 1892.....   | 15, 089. 67         |
| <b>Total sum appropriated</b> .....                         | <b>50, 000. 00</b>  |

The cost to the Government for relief of seamen during the year, namely, \$34,910.33, compares favorably with the average expense for this purpose during the past ten years. For the ten years previous to the last decade the expenditure for relief of seamen averaged much greater than for the last. A great lessening of the average annual cost of relief from one decade to another argues in favor of an improved administration of the service on the part of consular officers.

*Other expenses of the foreign service.*—Accounts, other than those hereinbefore reported and in addition to the amounts which are included in the table coming immediately after this of disbursing clerk's accounts, adjusted during the year, relating to appropriations as follows:

|  |              |
|--|--------------|
| International American Conference.....   | \$2, 541. 79 |
| International Union of American Republics .....                                      | 9, 483. 87   |
| International Marine Conference.....   | 658. 39      |
| International Exposition at Paris in 1889.....                                       | 715. 55      |
| International boundary survey, United States and Mexico.....                         | 23, 177. 00  |

| Salaries, consular officers not citizens, 1891 .....  | 125.00       |
| Salaries, interpreters to consulates in China, Korea, and Japan, 1891 ..  | 625.00       |
| Salaries, marshals for consular courts, 1891 .....  | 250.00       |
| Expenses of prisons for American convicts, 1890 .....   | 562.50       |
| Contingent expenses, United States consulates, 1890, \$264.48; 1891,<br>\$2,862.12 .....  | 3, 126.60    |
| Allowance for clerks at consulates, 1891 .....  | 932.53       |
| Loss by exchange, consular service, 1891 .....  | 145.13       |
| Pay of consular officers for services to American vessels, 1888, \$157.55;<br>1889, \$108.47; 1890, \$720.10; 1891, \$2,732.98 .....                | 3, 719.10    |
| Compensation of consular officers from fees, 1890, \$72.50; 1891, \$492.50 ..   | 565.00       |
| Consular fees adjusted, 1888, \$15.00; 1889, \$20.00; 1890, \$805.00; 1891,<br>\$7,147.00 .....   | 7, 987.00    |

*London bankers' accounts.*—Accounts of the United States bankers at London, Morton, Rose & Co., adjusted during the year, show payments by them aggregating \$275,573.89, and receipts from consular officers of surplus fees amounting to \$227,804.89, and of wages of seamen \$44.53. The disbursements related to appropriations, as follows:

|   |               |
|---|---------------|
| Salaries of ministers, 1891, \$24,664.29; 1892, \$158,261.45 .....                        | \$182, 925.74 |
| Salaries, chargés d'affaires <i>ad interim</i> , 1891, \$2,827.17; 1892, \$1,645.47 ..... | 4, 472.64     |
| Salaries, secretaries of legations, 1891, \$3,762.25; 1892, \$21,368.60 .....             | 25, 130.85    |
| Salaries, interpreters to legations, 1891, 1,051.43; 1892, \$8,590.41 .....               | 9, 641.84     |
| Salary of clerk to legation in Spain, 1891, \$42.00; 1892, \$1,200.00 .....               | 1, 242.00     |
| Salaries and expenses commercial agent at Boma, 1892 .....                                | 3, 996.25     |
| Contingent expenses, foreign missions, 1891, \$3,520.40; 1892, \$42,023.44 ..             | 45, 543.84    |
| Contingent expenses, United States consulates, 1891, \$59.40; 1892, \$109.85 ..           | 169.25        |
| Steam launch for legation at Constantinople, 1892 .....                                   | 1, 800.00     |
| Loss by exchange, consular service, 1892 .....  | 651.48        |

*Estates of decedents trust fund.*—Accounts of this (section 1709 Revised Statutes) were adjusted, showing the following sums paid over to the legal representatives of citizens of the United States who died abroad:

|                                   |         |
|-----------------------------------|---------|
| Estate of David Goble .....       | \$45.03 |
| Estate of William B. Haines ..... | 50.00   |
| Estate of Joseph R. Loomis .....  | 985.23  |

## INTERNAL REVENUE DIVISION.

The total collections of internal revenue during the fiscal year 1892, as shown by the adjustments of collectors' accounts, and exhibited in detail in Table I, amounted to \$153,889,401.70. Included in this amount, \$1,934.06 belongs to the collections of previous year.

The accounts of collectors of internal revenue, as adjusted for the fiscal year, aggregate \$3,879,881.02, inclusive of amounts allowed store-keepers and gaugers. These expenses in detail are given in Table K.\*

Of this total expense the sum of \$1,789.20 belongs to prior fiscal year, of which \$723.21 are commissions on tax-paid spirit stamps sold.

\* \* \* \* \*

## MISCELLANEOUS DIVISION.

\* \* \* \* \*

Payments to States for refund of direct tax under act of March 2, 1891, have been made as follows:

|                     |            |                     |              |
|---------------------|------------|---------------------|--------------|
| Florida .....       | \$4,766.26 | South Carolina..... | \$221,711.26 |
| Georgia .....       | 83,031.03  | Tennessee.....      | 10,716.86    |
| Iowa.....           | 384,274.80 | Texas.....          | 180,886.72   |
| Kentucky .....      | 606,641.03 | Vermont.....        | 129,407.80   |
| Maryland.....       | 371,299.83 | Virginia.....       | 442,702.77   |
| Mississippi.....    | 71,870.75  |                     |              |
| North Carolina..... | 26,217.78  | Total .....         | 2,533,516.89 |

\* \* \* \* \*

By the last annual report of this office for 1891 it appeared the Secretary of the Treasury had on deposit to his credit on account of "fines, penalties, and forfeitures" (special deposit account No. 1), \$70,368.31. During the year \$128,840.91 have been deposited and \$128,042.91 have been disbursed, leaving a balance to his credit, January 1, 1892, of \$71,166.31.

On account of "miscellaneous deposits" (special deposit account No. 3) there was a balance to his credit January 1, 1891, of \$77,415.72; \$23,381.85 have been deposited, and \$76,519.91 disbursed, leaving a balance to his credit, January 1, 1892, of \$24,277.66.

The balance to his credit January 1, 1891, on account of "offers in compromise" (special deposit account No. 5) was \$19,854.10. During the year \$121,250 were deposited and \$47,605.56 disbursed, leaving a balance to his credit January 1, 1892, of \$93,498.54.

\* \* \* \* \*

During the year nine judgments, Court of Claims, for direct tax, amounting to \$30,617.88; two claims for moneys erroneously received and covered into the Treasury, amounting to \$123.93; and five claims for taxes paid on spirits lost by casualty, amounting to \$536.85, have been adjusted.

The disbursements made by George Waterhouse, special disbursing agent of the Treasury Department, of the South Carolina free school fund commissioners, amounted to \$1,901.50.

Accounts of two stamp agents, involving \$945.18, were adjusted during the year.

Accounts of Theodore Davenport, disbursing clerk Post-Office Department, have been adjusted as follows:

|   |            |
|---|------------|
| Sales of post-route maps, 1891, \$311.63; 1892, \$3,522.99..... | \$3,834.62 |
| Rent of buildings, 1891, \$2,275; 1892, \$24,500 .....          | 26,775.00  |
| Official Postal Guides, 1891, \$700.60; 1892, \$22,057.76.....  | 22,758.36  |

\* Omitted. See note, page 549. This information will be found in the report of the Commissioner of Internal Revenue.

|  |             |
|--|-------------|
| Post-route maps, 1891, \$3,986.47; 1892, \$13,280.81 .....     | \$16,267.28 |
| Miscellaneous items, 1891, \$215.71; 1892, \$12,497.35 .....   | 12,713.06   |
| Plumbing and light-fixtures .....                              | 3,491.94    |
| Painting .....   | 2,641.37    |
| Horses and wagons, 1891, \$20.90; 1892, \$828.28 .....         | 849.18      |
| Hardware .....   | 990.79      |
| Furniture .....  | 2,989.45    |
| Fuel, 1890, \$1,070; 1891, \$1,102.02; 1892, \$8,980.82 .....  | 10,082.84   |
| Stationery, 1891, \$256.72; 1892, \$12,555.42 .....            | 12,812.14   |
| Carpets .....  | 2,979.36    |

| Building, National Museum .....   | 4,474.64     |

Accounts of Commissioner of Patents show that \$1,291,215.65 were received during the fiscal year 1892, and deposited with the Treasurer of the United States on account of patent fees.

During the year accounts for transportation over Pacific railroads amounting to \$2,090.26 have been adjusted.

I have the honor to be, very respectfully,

ERNST G. TIMME,  
*Fifth Auditor.*

Hon. CHARLES FOSTER,  
*Secretary of the Treasury.*

(No. 14.)

## REPORT OF THE SIXTH AUDITOR.

TREASURY DEPARTMENT,  
SIXTH AUDITOR'S OFFICE,  
Washington, D. C., October 5, 1892.

SIR: I have the honor to submit the following report of the business operations of this office during the fiscal year ended June 30, 1892.

My annual report to the Postmaster-General, exhibiting in detail the financial transactions of the Post-Office Department, has been completed and submitted.

\* \* \* \* \*

NOTE.—Much of the summary relating to the duties and work of the divisions of this office is omitted for want of space.

The following table shows the principal transactions of the office in money orders and postal notes for the fiscal year ended June 30, 1892:

| Transactions.  | Number.    | Amount.          | Increase. |              | Decrease. |             |
|--|------------|------------------|-----------|--------------|-----------|-------------|
|  |            |                  | Number.   | Amount.      | Number.   | Amount.     |
| Weekly statements received, registered, and filed..... | 534,050    |                  | 28,322    |              |           |             |
| Money orders issued (domestic).....                    | 12,069,442 | \$120,066,801.07 | 618,168   | \$944,564.57 |           |             |
| Postal notes issued.....                               | 7,050,040  | 11,895,765.51    | 247,482   | 141,916.23   |           |             |
| Money orders issued (International):                   |            |                  |           |              |           |             |
| Canada.....  | 96,003     | 1,534,255.46     | 6,871     | 47,827.43    |           |             |
| Great Britain and Ireland.....                         | 424,803    | 5,459,315.42     | 5,531     | 20,389.35    |           |             |
| German Empire.....                                     | 233,060    | 3,243,352.45     | 23,296    | 304,723.69   |           |             |
| Switzerland.....                                       | 42,930     | 732,295.16       |           |              | 2,294     | \$71,294.56 |
| Italy.....   | 40,245     | 1,291,044.27     | 3,210     | 84,072.26    |           |             |
| France.....  | 24,598     | 372,565.83       | 1,856     | 11,272.67    |           |             |
| Sweden.....  | 61,807     | 1,249,057.30     | 7,877     | 61,049.07    |           |             |
| Norway.....  | 24,411     | 572,208.79       | 1,942     | 17,166.68    |           |             |
| Belgium.....   | 5,875      | 121,133.15       | 1,300     | 23,425.33    |           |             |

| Postal notes assorted for archives .....  | 2,630,000 |                |           |              |           |           |

It affords me pleasure to inform you that the work in the several branches of this Bureau is in a very satisfactory condition and fully up to the requirements of the Department. In fact, in many important particulars, it is in a more advanced stage at this period in the year than has heretofore been the case. This satisfactory result has, however, been accomplished only by the most systematic and unremitting efforts on the part of the officers and employés throughout the entire Bureau. The work of this office is constantly on the increase from year to year by reason of the natural growth of the postal service, while a corresponding increase of force has not been made. The want of additional clerical force has been seriously felt in several divisions, but most severely in that branch of the office in charge of assorting and numbering money orders and postal notes. By reason of the failure of Congress at its last session to provide an increase in the number of money-order sorters it has been impossible, notwithstanding the excellent work accomplished in the assorting division during the past year, to dispose of the accumulation of vouchers now on hand, amounting to about the business of one year. In this connection I strongly urge your aid and support during the coming session of Congress in so presenting the matter to that body as to secure provision for the employment of additional help. For this purpose a further communication on this subject, together with an estimate for the proposed increase, will be submitted to you at the proper time. It is a matter of vital importance to the interests of the service that the money-order accounts be fully audited without the delay at present occasioned by reason of the inability of the present force to properly assort the vouchers so as to admit of the final checking with the statements of paying postmasters. I have prevented the growth of this accumulation of unassorted vouchers by utilizing all time which could possibly be spared by employés of other branches of the office in assisting in the work of assorting, but the increasing volume of the money-order business will no longer admit of the successful use of this expedient to prevent the accumulation of arrears of vouchers.

In my last annual report I suggested that the Busch building, on E street NW., between Seventh and Eighth streets NW., occupied exclusively by the money-order service of this office, be placed under the control of the Secretary of the Treasury, instead of that of the Post-Office Department. I renew that recommendation and earnestly urge your attention thereto, as it seems to me clearly evident that the several offices of this Bureau should, as far as possible, be under the control of the head of the Treasury Department.

The improved system of auditing postmasters' quarterly postal accounts, and the changes in the method of bookkeeping resulting therefrom, to which reference was made in the last annual report, have, during the past fiscal year, still further demonstrated their value in the prompt and accurate settlement of these accounts. Some additional features have been added to the system during the last year whereby a further saving of time has been accomplished and additional checks established, insuring accuracy and the prompt detection of clerical errors occurring during the process of auditing.

Under the present postal laws, as construed by the Post-Office Department, certificates for deposits made by postmasters with their depositories, are transmitted to the Third Assistant Postmaster-General. It is my opinion, which, however, it may be proper to state, is not shared by the authorities of the Post-Office Department, that the interests of the postal service would be as well protected as they are

under the present system, if such necessary change of legislation could be secured as to provide for the transmission directly to this office of the certificates of deposit for postal funds, instead of, as now, through the Post-Office Department. Such a change would greatly facilitate the auditing of postmasters' accounts and expedite their settlement.

An acknowledgment is due to the officers and employes of this Bureau for their able and intelligent coöperation in the improvement of official methods, and for such diligent attention to duty and faithful performance of onerous labor, as, in my opinion, deserves highly honorable mention.

Respectfully submitted.

T. B. COULTER,  
*Auditor.*

Hon. CHARLES FOSTER,  
*Secretary of the Treasury.*

(No. 15.)

## REPORT OF THE REGISTER.

TREASURY DEPARTMENT,  
REGISTER'S OFFICE,  
October 31, 1892.

SIR: I respectfully submit my annual report for the fiscal year ending June 30, 1892, viz:

The operations of this Bureau have been conducted by a nominal force of 108 persons, at an expense of \$139,750. The effective force was 107.43, and cost for salaries \$139,022.02, distributed among the Register's office and four divisions, as appears from the following table, showing the—

## DISTRIBUTION OF FORCE AND SALARIES FOR FISCAL YEAR ENDING JUNE 30, 1892.

| Divisions.                                       | Register, \$4,000. | Assistant register, \$2,250. | Chief of division, \$2,000. | Class 4, \$1,800. | Class 3, \$1,600. | Class 2, \$1,400. | Class 1, \$1,200. | Class E, \$1,000. | Class D, \$900. | Messenger, \$840. | Assistant messenger, \$720. | Laborer, \$660. | No. in each division. | Salaries.   |           |

Details of the work done by each division are given both for information and for record, showing what has been done and with what intelligence and fidelity.

The organic law creating the Treasury Department gave the Secretary of the Treasury a Treasurer to receive and pay out the revenues, and a Register to keep an account of all receipts and expenditures of public moneys and of all debts due to and from the Government.

## RECEIPTS AND EXPENDITURES DIVISION.

These, and various cognate duties imposed by law and regulations, are discharged in the division of receipts and expenditures. During the fiscal year the effective force employed in this division was one chief and 26.12 clerks, whose salaries aggregated \$39,658.72.

The report shows the—

| Interest on public debt .....   | 23,378,116.23    |                    |
| Redemptions of gold and silver certificates, legal tenders, and other evidences of public debt .....                                    | 338,995,958.98   |                    |
|   |                  | 684,019,289.56     |
| Leaving in Treasury June 30, 1892, inclusive of \$28,101,644.91 unavailable funds deposited with States.....                            |                  | 778,604,339.28     |

## SUMMARY OF WORK PERFORMED BY BOOKKEEPERS IN THIS DIVISION.

|  |         |
|--|---------|
| Accounts posted .....                                  | 19,048  |
| Warrants posted .....                                  | 73,560  |
| Ledger entries .....                                   | 289,192 |
| Accounts examined .....                                | 19,578  |
| Accounts journalized .....                             | 13,148  |
| Warrants registered .....                              | 29,798  |
| Warrants charged .....                                 | 13,626  |
| Warrants credited .....                                | 3,265   |
| Journal entries .....                                  | 150,738 |
| Journal pages .....                                    | 8,560   |
| Certificates furnished .....                           | 18,872  |
| Requisitions passed .....                              | 2,934   |
| Covering, repay, and counter warrants registered ..... | 15,644  |
| Certificates of deposit indorsed .....                 | 64      |

This division prepares the annual volume of receipts and expenditures of the Government required by law to be furnished the Congress of the United States. During the past year the volume for 1888 has been delivered, that for 1889 is in the hands of the printer, that for 1890 is ready for the printer, that for 1891 nearly completed, and work begun on the volume for 1892.

## LOAN DIVISION.

This division has charge of all issues, exchanges, and redemptions of United States registered and Spanish indemnity bonds, the preparation of interest schedules for the use of the United States Treasurer in paying accruing dividends on the interest-bearing public debt, opening and keeping accounts with all registered bondholders, care of redeemed and canceled registered bonds, the receipt from the Bureau of Engraving and Printing, and the custody of all unissued registered bonds. The preparation of reference index cards, a work of prime importance, is also in its charge.

Its operations during the current year have been under the direction of Division Chief A. M. Hughes, jr., at a cost for salaries of \$20,047.97.

The following statement shows the average force in the division and the expenditure for salaries during each of the last nine years:

| Year.         | Average force. | Amount of salaries. | Year.         | Average force. | Amount of salaries. |
|---------------|----------------|---------------------|---------------|----------------|---------------------|
| 1883-'84..... | 32.06          | \$42,551.41         | 1888-'89..... | 15.87          | \$21,971.70         |
| 1884-'85..... | 25.90          | 35,675.45           | 1889-'90..... | 14.76          | 21,260.68           |
| 1885-'86..... | 19.35          | 27,251.95           | 1890-'91..... | 15.21          | 21,079.64           |
| 1886-'87..... | 16.89          | 23,469.87           | 1891-'92..... | 14.88          | 20,047.97           |
| 1887-'88..... | 15.90          | 21,664.11           |               |                |                     |

The decrease in the force of the division and in the amount of salaries paid, which has been substantially continuous for many years, still continues.

The following table shows by months, first, the total number of days' work performed; second, the total number of days for which salary was paid, but on which the Department was closed (*i. e.*, Sundays and holidays); third, the total number of days' leave; fourth, the total number of days' sickness:

|                           | 1891. |      |       |      |      |       | 1892. |      |      |      |      |       | Total. |
|---------------------------|-------|------|-------|------|------|-------|-------|------|------|------|------|-------|--------|

Tabular statements herewith, marked A and B, show the total number and amount of all United States bonds issued and canceled during the last fiscal year, as recorded upon the books of the division.

The following table shows the number and amount of bonds issued and canceled and the total handled during the last seven years:

|               | Bonds issued. |               | Bonds canceled. |               | Total handled. |               |
|---------------|---------------|---------------|-----------------|---------------|----------------|---------------|
|               | Number.       | Amount.       | Number.         | Amount.       | Number.        | Amount.       |
| 1885-'86..... | 39,173        | \$180,987,250 | 70,753          | \$191,667,950 | 109,926        | \$372,655,200 |
| 1886-'87..... | 34,620        | 171,119,600   | 106,173         | 325,019,750   | 140,793        | 496,139,350   |
| 1887-'88..... | 26,598        | 114,831,900   | 72,135          | 189,656,950   | 98,733         | 304,488,850   |
| 1888-'89..... | 21,500        | 103,894,350   | 85,149          | 231,811,450   | 106,649        | 335,705,800   |
| 1889-'90..... | 17,669        | 67,181,500    | 66,830          | 171,575,200   | 84,499         | 238,756,700   |
| 1890-'91..... | 16,592        | 69,151,600    | 75,606          | 172,256,450   | 92,198         | 241,408,050   |
| 1891-'92..... | 26,253        | 107,738,200   | 54,288          | 129,009,825   | 80,541         | 236,748,025   |

As compared with the previous year, the number of bonds issued last year was 9,661 greater and the number canceled 21,318 less, making a net decrease of 11,657 bonds handled.

Comparing the same periods, there was an increase last year in the amount issued of \$38,536,600, and a decrease in the amounts canceled of \$43,246,625, making a net decrease of \$4,660,025 in the amount of bonds handled.

As classified upon the loan account, the foregoing amounts were divided as follows:

## BONDS ISSUED.

| Year.          | Direct issues. | Exchanges.  | Transfers.    | Total issued. |
|----------------|----------------|-------------|---------------|---------------|
| 1885-'86 ..... | \$62,550       | \$9,623,150 | \$171,301,550 | \$180,987,250 |
| 1886-'87 ..... | 44,050         | 19,139,700  | 151,935,850   | 171,119,600   |
| 1887-'88 ..... | 101,550        | 5,915,700   | 108,814,650   | 114,831,900   |
| 1888-'89 ..... | 48,350         | 3,493,900   | 100,352,100   | 103,894,350   |
| 1889-'90 ..... | 50,100         | 1,888,100   | 65,243,300    | 67,181,500    |
| 1890-'91 ..... | 64,500         | 1,738,650   | 67,348,450    | 69,151,600    |
| 1891-'92 ..... | 27,854,550     | 1,940,650   | 77,943,000    | 107,738,200   |

## BONDS CANCELED.

| Year.          | Redemptions. | Exchanges.  | Transfers.    | Total canceled. |
|----------------|--------------|-------------|---------------|-----------------|
| 1885-'86 ..... | \$10,743,250 | \$9,623,150 | \$171,301,550 | \$191,667,950   |
| 1886-'87 ..... | 153,944,200  | 19,139,700  | 151,935,850   | 325,019,750     |
| 1887-'88 ..... | 74,926,600   | 5,915,700   | 108,814,650   | 189,656,950     |
| 1888-'89 ..... | 126,965,450  | 3,493,900   | 100,352,100   | 231,811,450     |
| 1889-'90 ..... | 104,443,800  | 1,888,100   | 65,243,300    | 171,575,200     |
| 1890-'91 ..... | 103,169,350  | 1,738,650   | 67,348,450    | 172,256,450     |
| 1891-'92 ..... | 49,126,175   | 1,940,650   | 77,943,000    | 129,009,825     |

An important event in the history of the past year has been the re-funding of \$25,364,500 of United States 4½ per cent bonds into 2 per cent bonds payable at the pleasure of the Government, and the redemption of all of the remaining 4½ per cent bonds which have been presented for payment. The total amount of canceled 4½ per cent bonds, coupon and registered, recorded upon the books of the office last year was 48,970,250. A new District of Columbia loan, at 3½ per cent, has been issued under the act of March 3, 1891, to the amount of \$2,400,000, thereby providing funds for the redemption of the District of Columbia 6 per cent permanent improvement and 7 per cent permanent improvement loans which were payable on 1st of July, 1891.

The following bonds issued by the District of Columbia when under a Territorial Government, and redeemed by the Treasurer of the United States, were recorded in the books of the division during the year:

| Loans.                                     | Number bonds. | Amounts.    |
|--|---------------|-------------|
| per cent permanent improvement bonds ..... | 6,025         | \$2,440,550 |
| per cent permanent improvement bonds ..... | 597           | 270,300     |

## SPANISH INDEMNITY CERTIFICATES.

The amount is shown in Table C. As compared with previous years, the amounts are as follows:

| Year.          | Amounts.    | Year.          | Amounts.    |
|----------------|-------------|----------------|-------------|
| 1885-'86 ..... | \$16,721.14 | 1889-'90 ..... | \$36,813.86 |
| 1886-'87 ..... | 165,404.58  | 1890-'91 ..... | 10,189.70   |
| 1887-'88 ..... | 13,770.26   | 1891-'92 ..... | 61,565.77   |
| 1888-'89 ..... | 15,891.48   |                |             |

New bonds were received from the printer as follows:

|   | Number of bonds. | Amounts.      |
|---|------------------|---------------|
| 1907 consols, registered .....                  | 31,000           | \$103,600,000 |
| 1891 fund 2 per cent, registered .....          | 19,500           | 56,025,000    |
| Pacific Railroad loans .....                    | 1,360            | 10,360,000    |
| District of Columbia bonds, various loans ..... | 3,028            | 8,738,100     |
| Total .....                                     | 54,888           | 173,723,100   |

The following shows the number and amount of bonds on hand received and issued during the year (see also Statement D):

|   | Number of bonds. | Amounts.      |
|---|------------------|---------------|
| Blank bonds on hand July 1, 1891 .....  | 70,677           | \$375,030,400 |
| Blank bonds received during year .....  | 54,888           | 173,723,100   |
| Total .....                             | 125,565          | 548,753,500   |
| Bonds issued during year .....          | 26,253           | 107,738,200   |
| Blank bonds on hand June 30, 1892 ..... | 99,312           | 441,015,300   |
| Total .....                             | 125,565          | 548,753,500   |

The following table gives a summary of blank bonds on hand and received since July 1, 1885, with the manner of their disposition. Spanish indemnity bonds are excluded, but District of Columbia bonds, issued under the direction of Treasury Department, are included:

| Year.          | On hand at beginning of year (July 1). |               | Received during year. |               | Total.  |               |
|----------------|--|---------------|-----------------------|---------------|---------|---------------|
|                | Number.                                | Amount.       | Number.               | Amount.       | Number. | Amount.       |
| 1885-'86 ..... | 116,389                                | \$476,517,900 | 123,670               | \$447,601,000 | 239,059 | \$924,118,900 |
| 1886-'87 ..... | 199,886                                | 743,131,650   | 570                   | 1,551,000     | 200,456 | 744,682,650   |
| 1887-'88 ..... | 165,836                                | 573,563,050   | 11,300                | 111,100,000   | 177,136 | 684,663,050   |
| 1888-'89 ..... | 103,499                                | 441,806,150   | 19,905                | 169,301,000   | 123,404 | 611,107,150   |

| 885-'86  | 39,173       | \$180,987,250 | .....                            | .....         | 199,886                        | \$743,131,650 | 239,059 | \$924,118,900 |
| 1886-'87 | 34,620       | 171,119,600   | .....                            | .....         | 165,836                        | 573,563,050   | 200,456 | 744,682,650   |
| 1887-'88 | 26,598       | 114,831,900   | 47,039                           | \$128,025,000 | 103,499                        | 441,806,150   | 177,136 | 684,663,050   |
| 1888-'89 | 21,500       | 103,894,350   | .....                            | .....         | 101,904                        | 507,212,800   | 123,404 | 611,107,150   |
| 1889-'90 | 17,669       | 67,181,500    | .....                            | .....         | 84,594                         | 441,181,750   | 102,263 | 508,363,250   |
| 1890-'91 | 16,592       | 69,151,600    | .....                            | .....         | 70,677                         | 375,030,400   | 87,269  | 444,182,000   |
| 1891-'92 | 26,253       | 107,738,200   | .....                            | .....         | 99,312                         | 441,015,300   | 125,565 | 548,753,500   |

The following table gives a classification under three principal heads of the outstanding registered bonds in each of the unmatriculated loans, as shown in connection with the dividends due July 1 and September 1, 1892. The amounts for the July dividends are twelve months later than those given in my last report; those for the September dividends are fifteen months later:

| Loan and date.                 | Foreign.  | Treasurer United States in trust for national banks. | Domestic.   | Total.      |
|--------------------------------|-----------|--|-------------|-------------|
| 4½ per cent Sept. 1, 1892      | \$63,200  | .....  | \$548,000   | \$611,200   |
| 2 per cent, Sept. 1, 1892      | .....     | \$23,715,850   | 1,648,650   | 25,364,500  |
| 4 per cent July 1, 1892        | 4,878,550 | 143,056,200  | 336,972,250 | 484,907,000 |
| Pacific Railroad, July 1, 1892 | .....     | 12,588,000   | 52,035,512  | 64,623,512  |
| Total                          | 4,941,750 | 179,360,050  | 391,204,412 | 575,506,212 |

The changes in these items within the last twelve months and last fifteen months, respectively, are as follows:

[Increase, +; decrease, —.]

| Loan.            | Foreign.     | Treasurer United States in trust for national banks. | Domestic.     | Total.        |
|------------------|--------------|--|---------------|---------------|
| 4½ per cent      | —\$1,363,100 | —\$26,671,450  | —\$10,395,950 | —\$38,430,500 |
| 2 per cent       | .....        | + 23,715,850   | + 1,648,650   | + 25,364,500  |
| 4 per cent       | — 1,012,900  | + 9,977,250  | — 7,173,709   | + 1,790,650   |
| Pacific Railroad | .....        | + 2,569,000  | — 2,569,000   | .....         |
| Total            | — 2,376,000  | + 9,590,650  | — 18,490,000  | — 11,275,350  |

From these tables it appears that the amounts upon the foreign books are less than nine-tenths of 1 per cent of the total amount of registered debt, and that amounts upon these books are decreasing much more rapidly than upon the registered debt in general. The decrease upon the foreign debt was about one-third of the whole amount. The amount of registered bonds was somewhat increased by issues in exchange for coupon bonds and refunding certificates, and the net decrease upon the registered debt other than foreign was only about 1½ per cent. Of the registered debt held in this country, there was a decrease of \$18,490,000 in the amount held by corporations, private individuals, trustees, etc., which in part is counterbalanced by an increase of \$9,590,650 held by the Treasurer United States for national banks as security for circulation and deposits.

The foregoing tables do not show the same changes as are exhibited in Tables A and B, as coupon bonds are included in the latter. Neither are the dates in the two sets of tables the same.

The total number of open accounts in connection with the four United States loans included in the foregoing tables were, at the dates given, as shown below. The three District of Columbia and the Spanish indemnity loans are also given at the last dividend periods, together with a comparative statement for the last six years.

## COMPARATIVE NUMBER OF OPEN ACCOUNTS FOR LAST SIX YEARS.

| Loans.                                  | 1887.  | 1888.  | 1889.  | 1890.  | 1891.  | 1892.  |
|---|--------|--------|--------|--------|--------|--------|
| 1907 consols.....                       | 39,053 | 36,095 | 32,954 | 30,650 | 29,041 | 27,903 |

| Spanish indemnity.....                  | 95     | 94     | 85     | 95     | 101    | 92     |
| Total.....                              | 53,241 | 49,071 | 43,967 | 40,282 | 34,331 | 31,835 |

Work has been continued upon the general index to all accounts opened with holders of United States registered bonds, in accordance with the plans described in the last annual report of this division.

The number of entries placed upon the cards during the year was 21,033, and the number of entries examined 21,319. At the close of the year the total number of entries was 96,478. All the cards have been examined and arranged in alphabetical order in a case consisting of drawers. It is believed that this is the most perfect system of indexing the loans of the Government known, affording the most expeditious and reliable way of ascertaining the facts desired.

Table E, herewith, gives the usual summary of work performed by the division.

## DIVISION OF NOTES, COUPONS, AND CURRENCY.

This division has charge of all unregistered redeemed evidences of public debt, as notes, currency, coin and currency certificates, interest checks, etc., of the file archives, the receipt and custody of current settlement reports and the preparation and authentication of all official statements of settlements called for by the proper officers in settling of accounts. Of these a most important is the examination, verification, counting, and destruction of redeemed United States currency, gold, silver, coin certificates, and fractional currency.

During the past fiscal year this division has carried on its work under its efficient chief, B. F. Worrell, by an average effective clerical force of 46.83. This chief says:

Tables 1 to 14 following, covering every branch of labor assigned to this division, give in detail an itemized account of the work performed during the year.

There were received 146,395 interest checks, amounting to \$19,394,715.76, an increase of 19,228 in number and a decrease of \$3,441,334.94 in amount. During the year there was a decrease of 9,650 checks in the registration and examination as compared with the report of the last fiscal year.

With the maturity and retirement of the 4½ per cent loan, the receipts of interest checks of the same, together with the coupon bonds and detached outstanding coupons, will diminish rapidly, consequently will cease to furnish any considerable part of the work in this division during the current fiscal year.

The receipts of checks are now confined to those issued on dividends on bonds of the United States, 4 per cent and 4½, continued at 2 per cent, Pacific railways, District of Columbia, and to outstanding checks of bonds of various old issues, on which the interest has ceased.

To June 30, 1892, there have been received and filed 3,207,968 interest checks, amounting to \$589,384,819.47.

In number, 628,004 detached redeemed coupons were received, and in amount \$3,170,767.95, being a decrease in receipts of 326,543 coupons and in amount \$2,119,360.43. With the number received and number on hand at the close of the preceding year, there is a decrease in the amount of work performed in almost every branch, which can be readily explained by the statement, supported by facts in figures, from the records of the division, that during the year imperative calls were made from time to time on the regular coupon force for service in the currency section, besides frequent details from the same to other divisions of the Bureau, the total amount of time thus lost to the coupon force being six hundred and thirteen days on other than coupon work in this division, twenty-eight days on work for other divisions of this office, and twelve days temporary details to other offices in the Department; in the aggregate, six hundred and fifty-three days during the year.

To June 30, 1892, there have been received and filed 97,733,453 coupons, amounting to \$1,201,183,843.37.

There were received in number 18,859 redeemed coupon bonds, amounting to \$8,594,950, a decrease of 12,842 in number and \$839,050 in amount, the decrease in the work, therefore, being caused by the decrease in receipts, as at the end of the year every bond on hand and received was registered, examined, scheduled, and filed.

The receipts of coupon bonds during the current fiscal year may be still further lessened in consequence of the withdrawal of the 4½ per cent loan and the less frequent exchanges of the 4 per cent coupon bonds for registered bonds.

Received, registered, scheduled, and examined in this division to June 30, 1892, 4,242,322 coupon bonds, amounting to \$2,502,383,150.

In the currency work, the tables show a marked increase in the receipts, count, cancellation, and destruction of United States notes, gold, silver, refunding certificates, and fractional currency, the total number of pieces received during the year being 38,182,735, amounting to \$204,263,407.98, an increase in receipts of 8,916,023 pieces and in amount \$33,100,255.61.

These securities are received daily and being therefore current work, closely connected with the corresponding work in the offices of the Secretary and Treasurer, at intervals additional force from other branches of this division is added and withdrawn, as pressure may require, in order to be able to complete the count and examination of each day's receipts.

The increase or decrease in the work on currency certificates of deposit and gold certificates, series 1888, is governed by the receipts of the year, all received being finished and filed before the close of the year.

Redeemed internal-revenue stamps and statistical matter of various kinds are counted and examined by a joint committee appointed by the Secretary, with one representative assigned from this office as a member. This work is not classed with the leading and important operations of this division, as the meetings of the committee consume but two days in each week, when the sheets with all the stamps attached are counted and examined, without involving either much time or labor. Internal-revenue stamps have a money value, and being issued under stated dates of license, the dates expiring before they are used or by some change in the laws, are not sold by the collectors, but returned to the Department; consequently receipts vary according to circumstances.

Statistical redemptions consist of matter retired before issue and are of no money value, being largely misprints of various securities received from the Bureau of Engraving and Printing.

A recapitulation of the table of issues and redemptions, in numbers and amounts, of United States interest-bearing notes and certificates redeemed and outstanding to June 30, 1892, shows that, according to the books of the office, there are still outstanding the following of each class of securities:

|   |                |
|---|----------------|
| Seven-thirty Treasury notes, issued under various acts .....                                  | \$139,650      |
| Certificates of indebtedness, issued under various acts .....                                 | 4,000          |
| One-year 5 per cent Treasury notes, act March 3, 1863 .....                                   | 33,475         |
| Two-year 5 per cent Treasury notes, act March 3, 1863 .....                                   | 28,150         |
| Three-year 6 per cent compound-interest notes, acts March 3, 1863, and<br>June 30, 1864 ..... | 179,250        |
| Gold certificates, act March 3, 1863, various issues .....                                    | 263,120        |
| Three per cent certificates, acts March 2, 1867, and July 25, 1868 .....                      | 5,000          |
| Refunding certificates, act February 26, 1879 .....   | 84,280         |
| <b>Total .....</b>  | <b>736,925</b> |

There is an increase of work in all the leading branches of the current files for the year, which will necessarily continue in a corresponding degree with the increasing business of the Department.

Within the lines of instructions, the work of rearranging the old accounts continues, and when finished the general files system of the office will be reasonably complete in every feature.

In the line of old and uncurrent work is the restrapping with wire of packages of redeemed coupons now on file. During the year there has been a large decrease in the work, for the reason that operations had to be wholly suspended on account of the pressure of more important business.

It will require some years, as done at intervals, to complete the whole work.

To this date the agents of all the States interested, except the State of Florida, have been furnished with all the books, papers, etc., necessary to enable them to make a copy of the matter relative to their respective States in regard to refunding the direct tax collected in 1865 and 1866.

Every courtesy has been shown to the agents and every facility extended for an examination of the books of the office.

In summing up the business of the year, I trust the amount of work performed and the results secured will meet with your most reasonable expectations.

The tabular statements appended hereto are reported to exhibit and place on record the details of the work done by this division.

#### INTEREST, EXPENSE, AND WARRANT DIVISION.

This division was organized to determine, so far as the records disclose, the amount paid by the United States for interest and for all expenses of all public loans, and was designated "interest and expenses of public loans." Its work was peculiar, demanding expert clerks originally furnished by detail, by order of the Secretary of the Treasury, from the Register's, Secretary's and Treasurer's offices. Casualties reduced the number of these experts and retarded, but did not suspend, the progress of the work.

The vastness of the financial records and the constantly increasing number of the Government's fiscal transactions make necessary some simple and effective way of making examinations into them and searching out cases, as a library requires a catalogue or the more recent system of index cards. A beginning of the preparation has been made by clerks transferred from others to this division.

The force engaged on copies and records of accounts, warrants, transfers, etc., occupying a portion of the same large room, was transferred from the roll of the Receipts and Expenditures Division to this, Interest and Expenses, giving it charge of the warrant business, and its present designation.

The following is a summary of the work done under each head:

##### INTEREST AND EXPENSES OF PUBLIC LOANS.

The amount or sum total of interest paid from 1835 to 1885, inclusive, having been ascertained as per our last report, the work of obtaining the amount of interest paid on each loan separately from 1835 to 1860 is now being prosecuted, and two clerks have been constantly employed on this work.

The difficulty of ascertaining the amount "paid by loans" lies in the fact that quite an amount of interest was paid between 1835 and 1860, on what is called "unclaimed dividends," or "interest on loans," made in years prior to 1835, running back to the foundation of the Government; so that if the Government paid in 1845 a certain amount of interest on loans made in 1793, in order to ascertain the amount of interest paid, the accounts of that loan must be examined, and the amounts must be classified by loans. This work is progressing slowly, but has been

prosecuted with as much dispatch as possible with the force employed, and this force is sometimes called upon to assist with the other work of the division, but an inexperienced clerk can not be put upon this work, for it requires one familiar with it; in short, it takes an expert to do it.

Over 30,000 items of accounts have been examined during the fiscal year, and tabulated statements prepared, which must be compared, checked off, and verified. Thousands of pages have been footed and verified. Books were imperfectly kept at that time, and no one can realize without practical experience what a difficult job it is; but it is certainly desirable for the Government to be able to answer the question, How much interest has been paid on each particular loan? It will take at least another year to complete this branch of the work with the present force employed.

The work of copying into book form the interest paid by loans is being carried out as fast as the work is completed, or as nearly as the other work will allow, so that it may be ready for printing when finished.

The work of ascertaining the premiums and discounts on the loans is very large, and at present we have no force to put on it.

## WARRANT AND INDEX RECORD WORK.

In November all the force employed in what was termed the copy room of the receipts and expenditures division was consolidated with this division, and the name of the division changed, as before stated. The work of copying accounts for warrants and registering warrants and transfer drafts is now done in this division. The amount of this work for the fiscal year is as follows:

|  |         |
|--|---------|
| Accounts received, examined, stamped, and registered ..... | 32,727  |
| Settlements copied and compared for warrants .....         | 16,775  |
| Civil warrants copied and compared .....                   | 26,852  |
| Interior civil warrants registered .....                   | 2,941   |
| Treasury warrants registered .....                         | 7,678   |
| Internal Revenue warrants registered .....                 | 3,483   |
| Diplomatic warrants registered .....                       | 4,207   |
| Customs warrants registered .....                          | 4,559   |
| Judiciary warrants registered .....                        | 3,957   |
| Public debt warrants registered .....                      | 27      |
| War warrants registered .....                              | 4,355   |
| Navy warrants registered .....                             | 1,898   |
| Interior (Indian) warrants registered .....                | 4,738   |
| Interior (Pensions) warrants registered .....              | 4,405   |
| War repay warrants registered .....                        | 1,205   |
| Navy repay warrants registered .....                       | 323     |
| Interior (Indian) repay warrants registered .....          | 330     |
| Interior (Pensions) repay warrants registered .....        | 567     |
| Transfer drafts registered .....                           | 2,399   |
| Total .....  | 123,426 |

In addition we have continued the work of making the quarterly schedules of warrants drawn on and in favor of the Treasurer of the United States, which are furnished First Auditor for use in his settlement of the Treasurer's general account of receipts and expenditures, and on this schedule there have been made during the fiscal year entries amounting to about..

32,000

|   |         |
|---|---------|
| Making a grand total of work done aside from the interest and expense department and the index record card work .....                                 | 155,426 |
| Also the number of claims for rebate of tax on tobacco examined and put in type-written form, for issuing draft, under act of December 15, 1890 ..... | 4,133   |
| Number of index record cards written (full reference to which is made hereafter) .....  | 75,437  |

Number of index record cards examined and classified under their appropriate heads, alphabetically arranged under subjects and catchwords, and placed in the file cases ..... 66, 255

Making a grand total of work performed ..... 301, 251

The work of ascertaining all the expenditures from the beginning of the Government by means of subjects and catchwords on cards, was assigned to this division in November last.

The index record card system is an alphabetical arrangement by cards, under subjects and catchwords, of the appropriations and expenditures of the Government. It is intended to classify in concise form and for ready reference the expenditures for any particular subject, so that the same may be found under any prominent leading word of the subject-matter.

Up to June 30, ten years of the expenditures of the Government, extending from 1878 to 1888, compiled from the printed books of receipts and expenditures, have been completed, and the division has already been able to answer some questions of interest propounded to the Department.

When completed, it will be easy to prepare consolidated cards, so as to have on one card the information on one particular subject that is contained on many cards.

In many cases the request for the information is so indefinite, no period of time being correctly given, that many books must be examined before even a trace of the subject-matter sought can be found; but with the index record cards it must be in a certain place, and it must all be there, and the information not only quickly obtained, but when obtained must be correct.

I have no hesitation in recommending the continuation of the work.

The foregoing informs the Department of the year's work done in this Bureau and the condition of the public business in its charge at the close of the fiscal year, and shows the state of efficiency of our clerical force to be very creditable.

Among the betterments of the service, undertaken during the year, the most important are those initiated by the President's order of December 4, 1891. They have been set in operation under Department circulars Nos. 194 and 195 of December 24, 1891, and improved by the prescriptions of Department circulars Nos. 50 and 110 of 1892, aiming to put each clerk's efficiency record beyond the reach of momentary impressions, lapses of memory, caprices and transient feelings to which the minds of chiefs may be liable in making up standings.

To embrace the chief elements of clerical efficiency record, some complication was required, but within two or three months the heads of divisions overcame the chief difficulties in their markings, and were compelled to give daily attention to those facts and mental processes which are necessary elements of any judgment concerning a clerk's official merit. This schooling of the minds of division or acting chiefs is going on successfully in this Bureau, and will soon make a clerk's monthly record of efficiency a protrait of his official work drawn by himself.

Important defects to be remedied are:

(1) Each division or acting chief should be required to record each clerk's performance at the close of each day and allow the clerks to see this daily record, to avoid complaints, correct records, and excite emulation.

(2) Provision should be made for an adequate expression by the head of the Bureau of his responsibility as legal chief. This becomes all the

more important, since the competitive system, as now practiced, absolutely excludes heads of bureaus from participation in making appointments and promotions in their own bureaus.

This vital defect causes them to regard these great betterments of the clerical service contemplated in the Department circulars, as evils to be borne.

(3) Competitive examinations for promotion, as conducted in the two or three held in this Bureau, have given very unsatisfactory results. These results commend the system to neither superiors nor to the clerical force in this Bureau.

(4) The public service does not, as prime qualities, demand that employes should be quick-witted, of all-around intelligence, able to give pedagogic instruction on Department and general matters; it requires efficient clerical service. Therefore the monthly record of efficiency is greatly superior to the haphazard results of the competitive examination which commanded no respect of chiefs or subordinates in this office.

But this record of efficiency only counts for 20 per cent, while the competitive results count 80 per cent, in spite of all their defects from chances of comparative inequality of opportunity sometimes occasioned by length of service and of exclusive attention to office work. It would be vastly better for the service and the competitive examinations to reverse these ratios and make the efficiency record count 80 per cent, and the results of the examination to count 20 per cent. In any event proper provision for the exercise of the best judgment of the responsible head of the Bureau in the matter of promotions should be made.

Neither the interest of the public service nor of true economy is subserved by injustice.

But gross injustice results to 29 clerks of the copyist grade in this Bureau from the requirement that all promotions shall be by successive grades in each bureau. Hence, copyists must first be promoted to the \$1,000 grade. Now, in this bureau there are only two clerkships of \$1,000 each: therefore the 29 \$900 clerks must wait for one of those to become vacant.

To remedy this state of things, I would recommend that \$500 be added to the appropriation, to increase by \$100 each the pay of five of these copyist clerks, so that there will be seven \$1,000 clerkships instead of but two.

Equal pay for equal service and equal responsibilities is demanded by justice and sound policy.

Attention is called to the following list of salaries paid in this department:

|  |         |
|--|---------|
| Chief of Appointment Division .....                              | \$2,750 |
| Chief of Warrants, Estimates, and Appropriations .....           | 3,000   |
| Assistant Chief .....  | 2,400   |
| Chief of Loans and Currency .....                                | 2,500   |
| Chief of Stationery, etc .....                                   | 2,500   |
| Treasurer .....  | 6,000   |
| Chief of Miscellaneous Division .....                            | 2,500   |
| Comptroller of the Currency .....                                | 5,000   |
| Deputy Comptroller .....   | 2,800   |
| Chief Clerk of Comptroller's Office .....                        | 2,500   |
| Chiefs of Divisions, Comptroller's Office .....                  | 2,200   |
| First Comptroller .....  | 5,000   |
| Deputy First Comptroller .....                                   | 2,700   |
| Second Comptroller .....   | 5,000   |
| Deputy Second Comptroller .....                                  | 2,700   |
| Chiefs of Division, First and Second Comptrollers' Offices ..... | 2,100   |
| Chief Clerk of Treasury Department .....                         | 3,000   |

This is one of the oldest as well as one of the most responsible bureaus in this Department, being coexistent with the Government itself, but the salaries paid to the register, assistant register, and chiefs of divisions are less than those paid to such officers in other bureaus, as will be seen by the figures here given. The register's salary is \$4,000; assistant register's, \$2,250; that of chiefs of divisions, \$2,000. This bureau has no chief clerk, and yet there is as much necessity for such an officer as exists in any other bureau of the Department.

In part, to correct this inequality of pay, I recommend that the salary of the register shall be increased to \$5,000; that of the assistant register to \$2,700, and that of the chiefs of the several divisions to \$2,100.

W. S. ROSECRANS,  
*Register.*

The SECRETARY OF THE TREASURY.
