

REPORT
OF THE
SECRETARY OF THE INTERIOR,

IN COMPLIANCE WITH

A resolution of the Senate of March 10, 1853, calling for a statement of the amounts paid as annuities, under the different treaties with the Choctaw Indians.

FEBRUARY 28, 1855.—Read, ordered to lie on the table and be printed.

DEPARTMENT OF THE INTERIOR,
Washington, February 27, 1855.

SIR: I have the honor to transmit herewith a communication of the 26th instant from the Commissioner of Indian Affairs, and accompanying papers, in answer to a resolution of the Senate, dated March 10, 1853, directing the Secretary of the Interior "to furnish a statement of the amounts paid as annuities under the different treaties with the Choctaw tribe of Indians, specifying the amount and date of each payment, and including the interest on investments under the treaty of 1837; together with a statement, in detail, of the expenditures under the various treaty provisions for education."

I am, sir, very respectfully, your obedient servant,
R. McCLELLAND, *Secretary.*

Hon. J. D. BRIGHT,
President of the Senate.

DEPARTMENT OF THE INTERIOR,
Office Indian Affairs, February 26, 1855.

SIR: The resolution of the Senate of March 10, 1853, calling—
1st. For "a statement of the amounts paid as annuities under the different treaties with the Choctaw tribe of Indians, specifying the amount and date of each payment;"

2d. "The interest on investments under the treaty of 1837;"

3d. "A statement in detail of the expenditures under the various treaty provisions for education," was received in this office March 15, 1853, by reference from the office of the Secretary of the Interior; and on the same day a copy of the resolution, with a letter from the Com-

missioner of Indian Affairs, L. Lea, esq., was transmitted to the Second Auditor of the Treasury.

This office not being in possession of the accounts showing the details of the disbursements, an exhibit of which was called for by the Senate, the Second Auditor was requested, in the letter to him just alluded to, to furnish the statement.

His report, in reply to the request and the resolution, was received in this office on the 3d instant, and is referred to you herewith.

Taking up for consideration first, the annuity of \$3,000, secured in perpetuity to the Choctaws, under the treaty of 1805, and the beneficiary provisions made for them by acts of Congress, from time to time, it will be observed that the Auditor allows to them, under the treaty of 1805, "and previous agreements," an annual sum, as annuity, of \$5,400. I am not prepared to concur entirely in this allowance. The treaty of 1805 secures a permanent annuity of \$3,000 only. Before the treaty of 1801 was negotiated, (March 2, 1801, U. S. Statutes, vol. 2, page 109,) an appropriation was made (\$2,000) for "presents to the Choctaws." Before, and at the time of the negotiation of the treaty of 1801, the commissioners who negotiated the treaty were instructed to inform the Indians that this allowance was a gratuity.—(See instructions to the commissioners, Am. State papers, Indian Affairs, vol. 1, page 650.) The instructions were fully carried out in this respect, and the Indians repeatedly informed of the nature of the grant.—(See pages 660 and 663 same vol.)

By reference to all the estimates of this bureau, since its organization in 1832, I discover that the \$2,000 annuity thus referred to was estimated for as a "gratuity," or an annuity payable "during the pleasure of the President;" and the amount is shown to have been in that manner embraced in estimates and provided for by appropriation, from 1832 (act June 4, 1832) to 1839, (act March 3, 1839.)

In 1840 the item was dropped from the estimates submitted from the office, and Congress ceased to make an appropriation.

As regards the sum of \$400, also construed by the Auditor to be a permanent annuity, I would remark, that an agreement appears to have been entered into by the agent, Mr. Dinsmore, in pursuance of an arrangement between the Choctaw chiefs and the Secretary of War, 1804.—(See House Doc. No. 133, 1st session 33d Congress, page 12.) This agreement was recognized by the 6th article of the treaty of 1805, (U. S. Statutes, vol. 7, page 99,) and provision was made by Congress for the payment of this sum of \$400 in 1832, 1833, and 1834; and it appears from the detailed exhibit of the Second Auditor the amount was paid them during several years of the period intervening between 1805 and 1834.

Assuming that it was due them from 1805 to 1832, and remarking here that, by the treaty of 1830, the United States purchased the lands in regard to which the leases had before existed, I do not see how this \$400 can be considered as due the Indians after the year 1834 at furthest, when the appropriation for the object ceased.

I am hence led to submit the following as a more correct statement of the amount due the Choctaws, "under the treaty of 1805 and pre-

vious arrangements," after the year 1817, when the Auditor's account commences, viz :

\$2,000 gratuity, allowed by Congress from 1817 to 1839, inclusive, 23 years.....	\$46,000 00
\$400 for rent of tavern stands, 1817 and 1834, inclusive, 18 years.....	7,200 00

As to payments made out of the avails of 54 sections of land, under the treaty of 1820, there can be no doubt but that the Indians received all that came into the treasury on that account ; hence it is deemed unnecessary here to do more than state the payments to have amounted, from 1825 to 1837, when the fund was exhausted, to \$46,068 47.

On examination of the payments made to fulfil the 2d article of the treaty of 1816, and the 2d and 3d articles of the treaty of 1825, it is found that the appropriations have been so blended, and the payments so indiscriminate—the Indians having as early as 1819 applied portions of the annuity, under the treaty of 1816, to purposes of education, and continued the application of the same in that way, in part, to 1830, and the annuity under the 2d article of the treaty of 1825 being designed for an education fund, and that under the 3d article being applicable to a like purpose, so that the annuity for the same amount, under the treaty of 1816, might be paid to the Indians in money—I have thought fit to combine the dues and payments under these articles, in order to exhibit the aggregate balance unpaid, as follows :

2d article treaty, 1825—1825 to 1852, both years inclusive—\$6,000 per year for 28 years.....	\$168,000 00
3d article treaty, 1825—\$6,000 for 16 years.....	96,000 00

We now come to the consideration of payments due the Choctaws under the treaty of 1830.

As respects payments and investments, from funds appropriated to fulfil the 20th article of that treaty, viz: to sustain schools in the nation, and to educate 40 youth for 20 years, it is to be remarked that the first appropriation to fulfil those stipulations was made by the act of 3d March, 1831, and the last by the act of 30th September, 1850. During the period \$51,250, in 21 appropriations, was appropriated, estimated for the support of schools in the nation, and \$217,000 in 21 appropriations, for educating 40 boys 20 years.

However, as the stipulation is confined to 20 years, I deem it proper to credit the Choctaws as follows:

Education in the nation and support of 40 youth, 20th article of the treaty of 1830, 6 appropriations, 1831 to 1836, inclusive, of \$12,500 each.....	\$75,000 00
6 appropriations, from 1837 to 1842, inclusive, at \$14,500 per year.....	87,000 00
8 appropriations, from 1843-'4 to 1849-'50, (year ending June 30, 1850.).....	100,000 00
	<hr/>
Total amount of 20 full appropriations.....	262,000 00

(By the act of March 3, 1843, provision was made for paying \$6,250 under this head. It would seem that this half yearly instalment was overlooked at the time the last estimate was submitted to Congress in 1849.)

Against the above, there has been paid, "for schools in the nation," from 1833 to 1851, inclusive, as per Second Auditor's statement.....	\$42,173 24
Paid by Douglas H. Cooper, Choctaw agent, for same object, since last payment stated by the Auditor, and since expiration of the treaty stipulation, (as per books of Indian office.).....	3,750 25

* For detailed exhibit of the disbursement of this sum, (\$39,000,) see exhibit A of the Indian Office herewith.

Amount paid out of this fund for investments in stocks, the stocks now held in trust for educational purposes, among the Choctaws. (See exhibit C of Indian office, herewith.)	\$95,130 32
Amount paid for education at the Choctaw academy, out of same fund, from August 1831 to December 1843, as per statement of the Second Auditor.	120,382 67
1844, April 7, paid (out of the same fund) to P. P. Pitchlynn, \$131 25, and January 24, 1855, paid Choctaw delegation, in pursuance of order from Choctaw council of November, 1854, \$4,356 52, (these two items being omitted in Second Auditor's statement.).....	4,487 77

As the object of the present investigation appears to be to correct errors, it seems proper to charge this overpayment against the Choctaws.

So far as the money annuity of \$20,000 per year, secured to the Choctaws by the 17th article of the treaty of 1830 is concerned, the statement of payments reported by the Second Auditor is regarded as correct, the aggregate of the payments under that treaty stipulation being.....	\$369,799 58

---	-----------

The Auditor has reported the payments of life annuities, annuities to officers in the nation, and for the support of light horsemen, as provided by the treaty of 1820.

I do not understand the resolution of the Senate as calling for these details, and I have not made any examination of the exhibits made by the Auditor in these respects.

A detailed examination by this office would not be likely to give much additional light respecting the life and official annuities; and it is quite impossible to make a full examination in time to submit this report to you at the present session of Congress, an attainment understood to be desired by several members of the Senate, and urgently pressed by the Choctaw delegation now present.

In regard to the exhibit of the Auditor, made in statement No. 2, page 41, of "payments out of the interest accruing on the investment for the education of forty youth," &c., it is to be observed that the books of this office do not accord with the Auditor's exhibit on that page. The remittances to Walter Lowrie, and the allowance of his

accounts, have been made, as appears by the books of this office, out of funds for "fulfilling treaties with the Choctaws, second article of the treaty of 1826," and those exhibited on said page 41 are included in the charge made in this report of \$39,000, remitted to W. Lowrie, for education, between January 1847 and October 1852, as hereinbefore. (See account under treaties of 1816 and 1825.) The sums of \$2,995 70, and \$4 47, on same page of the Auditor's statement, make the sum of \$3,000 17, which is included in the statement of this office, marked B, herewith, exhibiting payments out of the interest on investments, as appears from the books of this office. The statement of this office, "B," will be found to contain also some of the items on the 42d page of the Auditor's statement No. 2, and all the items on page 51; but as these items do not form any part of any calculation, the repetition of them is not deemed important. For fuller explanation see the exhibit of this office, referred to.

The Auditor's statement of payments out of the interest on investments under the convention of 1837 may be regarded as correct, except as to page 51, the items of which appear in the statement of this office, marked B. Any balances of trust funds on hand are held subject to disposition; and it is not possible that any interest, once collected, should be lost to the Indians, unless it occurred through some defalcation of a person in charge of the funds. The statement of the Auditor (page 51 excluded) shows payments amounting to \$304,166 67, from interest on investments under convention of 1837, between 1842 and 1852, inclusive.

In my opinion, the third article of the treaty of 1825 was agreed upon—to supersede and to be in lieu of the eighth article of the treaty of 1820—after the year 1820.

The object of the latter article was to raise an education fund equal to \$6,000 per year for sixteen years, in order that the annuity of a like sum, secured by the treaty of 1816, (second article,) which had, by the chiefs, been diverted to education, might thereafter be restored to the nation as a money annuity. I think, therefore, that the entire annuity, under the treaty of 1816, should be regarded, after the year 1820, as a money payment due the nation; and the entire annuity secured by the third article of the treaty of 1825, as well as the first four years of the annuity of 1816, should be regarded as devoted to education.

The foregoing payments and dues may be accordingly arranged thus :

Arrearages on account of money annuities to the nation from 1817 to 1852, inclusive.....	58,355 54
Arrearages on account of various stipulations in regard to education, from 1817 to 1852, inclusive	33,902 97
Total.....	<u><u>92,258 51</u></u>

It will be observed that almost the entire amount of these arrearages appears, on careful inspection of the statements of the Second Auditor, to have occurred between the years 1832 and 1835. The means within reach of this office to test the question whether payments other than those exhibited by the Second Auditor were made during that period to the Choctaws, are the published accounts of disbursements of Indian agents, &c., emanating from the Second Auditor's office, printed by order of Congress from year to year.

So far as those early payments are concerned, this office is compelled to accept the exhibit of the Second Auditor as full and conclusive.

* It is deemed proper to state that this report and that of the Second Auditor are observed to be not confined strictly to a reply to the resolution of the Senate, but exhibit the opinions of the offices, respectively, as to the amounts due the Choctaws under treaty stipulations.

This is explained by the fact that the resolution is understood to have originated from previous reports and statements of the two offices, submitted to the 32d Congress, accompanying estimates of this office of a special nature, this office having recommended an appropriation of \$71,927 68 for the payment of unexpended balances of former appropriations to pay annuities to the Choctaws, on account of arrearages arising since 1829.

The reports, statements, and estimate now referred to, were made on requests of the Choctaw national delegates at sundry times, in 1852, complaining of the non-payment of balances of annuities, and asking for investigations of their account.

The present report of this office is based on statements commencing at an earlier, and extending to a later, date than the reports made in 1852; and I believe, therefore, it is calculated to indicate more accurately the amount of arrearages of annuities due the Choctaws.

For the payment of the arrearages exhibited in this report, (\$92,258 51) there are no moneys now appropriated and applicable. One cause of the difference between my conclusions and those of the Second Auditor is, that I have charged the Choctaws with payments made since 1852, out of balances of former appropriations to fulfill stipulations that had then expired, as to time, but had not been fully executed.

All payments since January 1, 1853, made to fulfill stipulations, expired before that date, and not then fully carried out, must, of course, be deducted from an exhibit of arrearages *now due* that had accrued prior to that time. Another cause is, that I have not coincided with him in allowing the gratuity of 1801, of \$2,000, and the payment for "rent of tavern stands," as permanent annuities. The difference on these items alone is \$33,200.

Another difference is, that I have considered the annuity secured by the second article of the treaty of 1825 as permanent, thus crediting the Indians with eight years' annuity, (\$48,000) more than is credited by the Second Auditor, and charging them also with payments on the other side, to W. Lowrie, amounting to \$39,000, made since the Second Auditor appears to have regarded that stipulation as having expired.

I annex a brief aggregate statement of all treaty dues, and all payments, investments, &c., between the United States and the Choctaws, to January 1, 1853, including, of course, payments made since that date, on account of stipulations that had expired before the same date.

Should this report and exhibit, herewith, be deemed deficient in perspicuity and fullness of explanation, a sufficient apology will be found in the extent and heterogeneous nature of the details of appropriations, payments, &c., and the urgency of important business before this office, since the Second Auditor's statements were received.

I transmit copies of letters of the Second Auditor to this office in re-

gard to exhibits and statements, and return the resolution of the Senate of the 10th of March, 1853, which was referred from your office.

Very respectfully, your obedient servant,

GEO. W. MANYPENNY, *Commissioner.*

Hon. R. McCLELLAND, *Secretary of the Interior.*

OFFICE INDIAN AFFAIRS, February 26, 1855

TREASURY DEPARTMENT,
Second Auditor's Office, February 1, 1855.

SIR: In compliance with the request from your office of March 15, 1853, and in obedience to a resolution of the Senate of the United States, dated the 10th of the same month, I transmit herewith two statements, numbered 1 and 2.

No. 1 shows the amounts paid as annuities under the different treaties with the Choctaw tribe of Indians, specifying the amount and date of each payment from the year 1817, when this office was charged with the settlement of accounts pertaining to Indian affairs to the year 1852; and No. 2 shows in detail the expenditures under the various treaty provisions for the education of the Choctaws, including the disbursement of the interest on the investment under the convention of 1837 of the Choctaws with the Chickasaws.

It will be perceived that the whole amount of stipulations for national annuities for the period designated and embraced in the statements is.....	\$810,400 00
And for education.....	170,000 00
	<hr/>
Making together	980,400 00
That payments of annuities to the Choctaws have been ascertained to amount to	\$598,844 46
And for purposes of education out of treaty stipulations and the national annuity, under the treaty of 1816.....	252,664 55
	<hr/>
Making on account of both.....	851,509 01
	<hr/>
And leaving a balance due to the Choctaws of.....	128,890 99
	<hr/> <hr/>

This conclusion has been arrived at from a careful inspection of all the accounts and vouchers. It is believed that every settlement pertaining or having reference to Choctaw annuities or education has been inspected, with the exception of one only, and the payments of annuities, &c., embraced in it were taken from the books and printed abstracts.

The question naturally arises, if the appropriations were made in full for the demand, what disposition has been made of the sum, which appears not to have been paid to the Choctaws? An effort has been made, but in vain, to ascertain this fact. In former years the appropriations, it appears, were made in gross "For the Indian Department," without specifying any particulars; and of late years one has been so blended with another as to render discrimination impossible. The deficiency of payment to the Choctaws has doubtless arisen from payments out of their funds being made on account of other demands, to meet which the agents were at the time deficient of legitimate funds, but what those objects or purposes were it is now impossible to ascertain.

On comparing the payments for purposes of education from the proceeds of sale of the fifty-four sections of land set apart for that purpose with the appropriation books, it appears that the disbursements have been complete.

It will be seen, also, that the stipulation by the treaty of 1830 (Dancing Rabbit creek) for the education for twenty years of forty Choctaw boys has been fully complied with.

I am, sir, very respectfully, your obedient servant,

P. CLAYTON, *Second Auditor*

GEORGE W. MANYPENNY, Esq.,

Commissioner of Indian Affairs.

TREASURY DEPARTMENT,
Second Auditor's Office, February 7, 1855.

SIR: In my letter of the 1st instant, which accompanied the statements from this office, showing the payments of Choctaw annuities and of amounts for education of the same people under treaty stipulations, made in obedience to the resolution of the Senate, it is said that the statements would show a balance due to the Choctaws of \$128,890 99. It was also observed that if appropriations were made sufficient to cover all demands of the Choctaws, this deficiency of payment to them could only be accounted for on the supposition that the amount of the same had been paid by the agents "on account of other demands, to meet which they were at the time deficient of legitimate funds."

The attention of this office has been called to this remark by the Choctaw delegation, who are apprehensive that it may lead to the belief that the "other demands" referred to were demands against the Choctaws. It was not intended to have any such bearing. It was merely put in to obviate any question that might be asked as to what had become of the balance which had been appropriated, and to convey the idea that it could be accounted for in no other way; that it had been used to pay demands of Indian tribes other than the Choctaws. Indeed, had the amount been paid on other demands of the Choctaws, I could not have reported, as I did, that the sum stated was due to them at this time; and I now again repeat that a careful examination of the books, accounts, and vouchers on file in my office show beyond all doubt that the sum of \$128,890 99 is now due to the Choctaws from the United States.

Very respectfully, your obedient servant,

P. CLAYTON,
Second Auditor.

GEORGE W. MANYPENNY, Esq.,

Commissioner of Indian Affairs.

No. 2.

Statement made in obedience to a resolution of the Senate of the United States, dated March 10, 1853, showing in detail the expenditures under the various treaty provisions for education of Choctaws, including the disbursement of the interest on the investment under the convention of 1837 with the Chickasaws.

CHOCTAW EDUCATION.

Payments allowed by the chiefs out of the limited annuity under the treaty of 1816.

Date of payment.	For what year.	To whom paid.	Amount paid..

Oct. 10	1820	Chief Pushmattaha, part of the amount due the north-east district, to be turned over to the Rev. C. Kingsbury to establish a school in his district.....	200 00
1821. Nov. 19	1821	C. Kingsbury, for schools in the nation.....	5,000 00

1830. July 20	1830	...do...do...do.....	6,000 00
		Amount paid for education.....	40,400 00
		From an expression in the 8th article of the treaty of 1820 it would seem that some of the chiefs had taken upon themselves the authority to set apart, for purposes of education, the whole amount of the annuity (\$6,000) allowed by the treaty of 1816 for the period of sixteen years. Supposing this not to have been superseded by the stipulations of the treaties of 1820 and 1825, then the education fund thus provided would amount to the sum of.....	96,000 00
		And after deducting from it the amount paid as per foregoing statement.....	40,400 00
		There remains the sum of..... due to this education fund from the amount of annuity paid to the nation. The probability, however, in the absence of evidence, is, that as measures were taken at the making of the treaties of 1820 and 1825 to remedy the discontent growing out of that allowance, nothing more was intended to be paid on account of education out of that annuity than the sums specified in the foregoing statement.	55,600 00

RECAPITULATION.

There appears to have been paid on account of education of Choctaws, out of the annuity allowed under the treaty of 1816.....	\$40,400 00
Under treaty of 1825, viz : Support of schools in the nation... \$81,133 61 $\frac{1}{2}$	
Support of Choctaw academy, Kentucky..... 85,998 65	
	167,132 30 $\frac{2}{3}$
Under treaty of 1830.....	42,173 24 $\frac{1}{3}$
	249,705 55
Add this sum, for which no treaty is designated.....	2,959 00
Amount.....	252,664 55
The provision to meet the foregoing expenditures was as follows: It appears that some of the chiefs agreed to allow the whole of the national annuity (\$6,000) under the treaty of 1816 for purposes of education for a period of 16 years; but this giving dissatisfaction, measures were taken in 1820 and 1825 to remove the difficulty, and so to arrange matters that the Choctaws might receive the whole of the annuity. It is probable, therefore, that the allowance went no further than the amount found to have been expended for education on account of that treaty, viz :.....	
	40,400 00
Treaty of 1825 provides for \$6,000 per annum for education for 20 years....	120,000 00
Treaty of 1830 provides for \$2,500 per annum for 20 years.....	50,000 00
Amount of provision.....	210,400 00
Excess of expenditures.....	42,264 55
	252,664 55
This excess doubtless was paid out of the national annuities, and to that extent increases their aggregate deficit.	
The disbursement of the fund arising from the sale of the 54 sections of land appears to have been complete.	
It will be seen also that the stipulation by the treaty of 1830 for the education of 40 boys for 20 years was regularly fulfilled till the dissolution of the academy in Kentucky, or other arrangements were made for completing it within the nation.	
It is found that from the interest on the investment made for this purpose the American Board of Commissioners for Foreign Missions have disbursed, in the education of Choctaws.....	
	24,000 17
Of the interest money arising from the investment made under the convention of 1837 with the Chickasaws there has been expended, as will be seen for purposes of education, between 1841 and 1850, the sum of.....	
	165,829 37
(The residue of said fund has been used by the Choctaws for national purposes.)
