

REPORT
OF THE
SECRETARY OF THE INTERIOR,
SUBMITTING

Additional estimates of appropriations for the Indian service in Oregon and Washington, for the current and ensuing fiscal years.

MARCH 2, 1860.—Read, referred to the Committee on Finance, and ordered to be printed.

DEPARTMENT OF THE INTERIOR,
March 2, 1860.

SIR: I have the honor to submit herewith additional estimates of appropriations that will be required for the Indian service in Oregon and Washington, for the current and ensuing fiscal years.

The reasons which have induced the department to submit these estimates will be found in the report, with accompanying documents, of the Commissioner of Indian Affairs, copies of which are herewith.

With great respect, your obedient servant,

J. THOMPSON,
Secretary.

Hon. JOHN C. BRECKINRIDGE,
*Vice-President of the United States and
President of the Senate.*

DEPARTMENT OF THE INTERIOR,
Office Indian Affairs, February 27, 1860.

SIR: I have the honor to acknowledge the receipt, by reference from your department, of the letter from the Hon. Isaac I. Stevens, of the 21st ultimo, asking for a reconsideration of the estimates of appropriations for the Indian service in Oregon and Washington, in which he states that his purpose "in presenting this subject to the department is respectfully to request a reconsideration of the estimates as submitted by the department, and to ask that they be based on a compensation to employés not less than the estimates of Superintendent Geary, and that provision be made for objects provided in the treaties, as per annexed extracts, and for the contingent service of the Territory," and to report thereupon, as follows:

The estimates submitted from this office for the Indian service in Oregon and Washington for the fiscal years ending June 30, 1860 and 1861, were made up on estimates received from the Oregon superintendency previous to those of Superintendent Geary, referred to by Governor Stevens, and which, having been fully considered in connection with the latter after their receipt, and before reporting the estimates to your department, was adopted as offering a more moderate basis for the wants of the service, but which, at the same time, was considered amply sufficient to meet its various demands in those directions.

Having, therefore, given the statements and specifications as contained in his letter careful consideration, in connection with the estimates above specified, I have to state that, for the reason already given, and in view of the fact that a considerable portion of the year 1860 will have passed before the appropriations are made therefor, making thereby a certain part of the same applicable and subservient to the year 1861, I am of opinion that the estimates for these years for this service, now before the committee, should remain unchanged, except as hereinafter specified, believing that they will be sufficient to meet and satisfy the requirements of treaties, &c., to the extent therein embraced.

Partly in concurrence with the views of the governor, and, as I believe, for the efficiency of the service, I have to recommend the following additional items, for appropriations not embraced in the estimates before the committee:

For the general incidental expenses of the Indian service in Oregon and Washington, including insurance and transportation of annuities, goods, and presents, where no special provision is made by treaties, and office and traveling expenses of the superintendent, agents, and sub-agents, for the fiscal year ending June 30, 1861.....	\$35,000
For defraying the expenses of the removal and subsistence of the Indians in Oregon to the reservations therein, aiding them in procuring their own subsistence, purchase of provisions and presents, compensation of laborers and other employés, for the fiscal year ending June 30, 1861	25,000
For defraying the expenses of the removal and subsistence of the Indians in Washington Territory to the reservation therein, aiding them in procuring their own subsistence, purchase of provisions and presents, and compensation of laborers and other employés, for the fiscal year ending June 30, 1861	25,000

The first and last items are the same in amount with the appropriations for similar purposes at the last Congress, the second being less by one half.

For payment of improvements of the Indians west of the Cascade mountains, the Nez Percés, the Flatheads, the Yakamas, which may have to be abandoned in consequence of certain treaty stipulations with them, and for surveys of reservations to which they are to be removed.—(See copies of printed treaties, with estimates, before the committee)..... \$55,000

For insurance, transportation, and the necessary expenses of delivery of annuities, goods, and provisions to Yakamas, Flatheads, and Nez Percés, for the years 1860 and 1861.— (See printed copies as above)..... 42,000

There was omitted in the estimates, under these treaties, for 1860 the sum of \$10,000, payable to each of the following tribes, being the first of five installments to be provided for after the ratification of the treaties with them, viz:

For the first of five installments, due and payable to the Yakama nation, for the fiscal year ending 30th June, 1860, per fourth article of treaty of 9th June, 1855 \$10,000

For the first of five installments, due and payable to the Nez Percés for the fiscal year ending 30th June, 1860, per fourth article treaty 11th June, 1855..... 10,000

which are recommended for appropriations.

In the estimates for 1860 and 1861, under these treaties, there was also inadvertently asked an amount of five hundred dollars, (\$500,) for the salary of one chief, instead of a like sum for three chiefs, as provided for in the article cited in the estimates before the committee. I therefore respectfully suggest that the following estimates may be adopted in lieu thereof:

For the pay of each of the Flathead, Kootenay, and Upper Pend d'Oreilles tribes, per fifth article treaty of 16th July, 1855, for the year 1860..... \$1,500

For the pay of the head chiefs of the Flathead, Kootenay, and Upper Pend d'Oreilles tribes, per fifth article treaty of 16th July, 1855, for the year 1861..... 1,500

The letter of the Hon. Isaac I. Stevens is herewith returned.

The accompanying statement in detail will show specifically the items required under treaty stipulations, for the years 1860 and 1861, inadvertently omitted in making the general estimates, and items of an incidental character to the service, usually asked for, and which were also omitted at that time, for the reason that it was supposed they would not be required, but, upon further consideration, are now deemed necessary for its proper and efficient support.

Very respectfully, your obedient servant,

A. B. GREENWOOD,
Commissioner,

Hon. J. THOMPSON,
Secretary of the Interior

OFFICE INDIAN AFFAIRS, *March 2, 1860.*

WASHINGTON CITY, *January 21, 1860.*

SIR: In the annual estimates, no provision whatever is made for the contingent expenses of the Indian service in the State of Oregon and the Territory of Washington, nor for the removal and subsistence of Indians not included in the treaties, nor for the transportation and insurance of annuity goods, which, by a special provision of the treaties, are not charged upon the annuity or treaty funds.

The following comparative table shows the appropriations for the service of the present fiscal year, and the estimates of the superintendent of Indian affairs for the next fiscal year:

General incidental expenses of	}	\$35,000	\$26,000 Oregon.
Indian service in Oregon and Washington.....			33,000 Washington.
Removal and subsistence of Indians in Oregon.....	50,000	100,000	
Removal and subsistence of Indians in Washington.....	25,000	50,000	
Adjusting difficulties and preventing outbreaks in Oregon.....			5,000
Adjusting difficulties and preventing outbreaks in Washington.....			5,000

In both Oregon and Washington are Indian tribes, not parties to the existing treaties, for whom some provision is absolutely indispensable to maintain the peace of the country and protect the Indians from destitution and suffering. In Washington Territory, the tribes in the southwestern portion, in the upper and lower Chehalis, the Cowlitz and lower Chinooks, numbering about seven hundred souls, are in immediate contact with the settlements, and are eminently entitled to the fostering care of the government. The Indians of the northern central portion of the Territory, the Spokanes, Cœur d'Alénes, Lower Pend d'Oreilles, Okinakanes, and Colvilles, numbering nearly three thousand souls, inhabit a gold-bearing region, already settling up, and where there will be a large movement of population early in the spring. The information comes from official sources of the discovery of rich gold mines, and unless some means are placed at

the disposal of the superintendent to provide for the contingency, there will be reason to apprehend trouble. Besides this, the Indians who formerly inhabited the country on the Columbia river, from the Cowlitz to the White Salmon, numbering some five hundred souls, were actually removed to the White Salmon river in 1856, and are there located at the present time. Thus, in Washington Territory are over four thousand Indians not included in existing treaty arrangements, for whom some special provision should be made.

The following appropriations are the least which, in my judgment, Congress ought to make for the service of the next fiscal year, for the purposes to which the attention of the department is called in this communication:

General incidental expenses of the Indian service in Washington Territory.....	\$33,000
Removal and subsistence of Indians in Washington Territory.....	15,000
Adjusting difficulties and suppressing outbreaks.....	10,000

I will observe that the discovery of the new gold fields in Washington Territory were made known since the estimates of the superintendent were transmitted, and thus the necessity created of making larger provision to secure the peace of the country than was anticipated at the time of making the estimate. The superintendent has written me very pointedly in regard to this matter, as will appear from the inclosed extract of his letter to me of November 23, 1859:

“The recently discovered mines on the Similkannan, as well as those at other points, will attract a large emigration in that direction in the early spring; and this consideration alone should induce Congress to immediate action and to make an appropriation at least equal to my estimates. There would, indeed, be wisdom in placing, in addition to the estimates, at least \$50,000 at the disposal of the superintendent, for the purpose of maintaining peace and preventing outbreaks among the transmountain Indians yet untreated with, whose country especially will be traversed by miners during the ensuing summer. I would respectfully press this matter on your consideration. Your knowledge of the subject renders any further remark unnecessary in regard to it. Lieutenant Mullan writes me that he regards the condition of affairs among the tribes of the region he has been traversing as requiring the prompt attention of the Indian department. The fact that a great thoroughfare is opening through their country, and that many whites are coming with large herds of horses and cattle, together with the protracted delay in fulfilling treaty stipulations, keep the Indians in constant anxiety and ferment, and the slightest indiscretion or misadventure might give rise to the most deplorable results.”

In all the treaties provision is made for valuing and making payment for any substantial improvements which may have to be abandoned by the Indians in consequence of a removal to the reservations, and for surveying and marking out, so far as necessary, all the Indian reservations. Such is the present progress of the settlements that it is essential that appropriations for this purpose should not be delayed. In the case of the Medicine Creek treaty, made with the Indians at the

head of Puget's Sound, two thousand dollars was appropriated for valuing and making payment for improvements. I will respectfully submit to the favorable consideration of the department the following estimates for surveys of reservations, and estimates of Indian improvements:

Estimate of Governor and Superintendent Stevens, 1856.
