

M E S S A G E

FROM THE

PRESIDENT OF THE UNITED STATES,

COMMUNICATING

The estimates of the appropriations needed, which were sent to Congress by the Secretary of the Treasury at the opening of the last session.

MARCH 19, 1879.—Read, ordered to lie on the table, and be printed.

Fellow-citizens of the Senate and House of Representatives :

The failure of the last Congress to make the requisite appropriations for legislative and judicial purposes, for the expenses of the several executive departments of the government, and for the support of the Army, has made it necessary to call a special session of the Forty-sixth Congress.

The estimates of the appropriations needed, which were sent to Congress by the Secretary of the Treasury at the opening of the last session, are renewed, and are herewith transmitted to both the Senate and the House of Representatives.

Regretting the existence of the emergency which requires a special session of Congress at a time when it is the general judgment of the country that the public welfare will be best promoted by permanency in our legislation, and by peace and rest, I commend these few necessary measures to your considerate attention.

RUTHERFORD B. HAYES.

WASHINGTON, *March* 19, 1879.

LEGISLATIVE, EXECUTIVE, AND JUDICIAL BILL.

Estimates of appropriations required to complete the service of the fiscal year ending June 30, 1880.

<p>NOTE.—In the estimates of appropriations for the clerical service of this office for the fiscal year ending June 30, 1879, an increase in the higher grades of the force was asked for. Congress did not provide for additional clerks of the higher grades, but gave an increase of three clerks, having a salary of \$1,000 each. This addition does not meet the necessities of the work. This office is charged, in addition to the current work, with the revision of a large number of claims, many of which are of long standing and involve difficult questions of law and fact, and the business of the office requires the services of clerks of the higher grades. I therefore recommend a change, as follows, to wit, six chiefs of divisions, six clerks of class four, fourteen clerks of class three, and four at \$900 each, and that the other grades remain as above set forth.—(Second Comptroller.)</p>

In explanation I would state that the above does not increase the actual working-force of this office. For many years it has been found necessary to ask for additional force by a transfer of employes from other offices to accomplish the work required of this office. The above force is now employed, and is necessary for the proper performance of the duties of this office. The service would be greatly benefited by having these employes upon the regular roll of the office, and for many reasons. A transferred clerk is ever liable to be returned to the office where he is enrolled, and this often happens when he has become acquainted with the duties of his desk, and thus become of the greatest value.

NOTE.—The assistant treasurer at Boston submits an increase of salaries in excess of the appropriation of last year, as follows: Assistant treasurer, \$500; chief clerk, \$200; and \$200 additional to one clerk receiving a salary of \$800.

crease in the quantity of bonds held and the payment of interest thereon, quarterly, instead of semi-annually, the duties and responsibilities of that desk are very largely increased. In addition to these regular duties, there is also assigned to that desk the labor and care of receiving subscriptions to the new bonds as they are issued, and that of itself is a work of great importance and responsibility, which should be recognized at least to the extent asked for in this increase." He also submits an increase of \$120 in the salary of messenger, and asks consideration of the changes suggested in titles of some of the clerkships, to make them conform more nearly to the duties respectively devolved upon them.

I have found him to be a rapid and correct counter, and an excellent counterfeit detector, which makes him of considerable value to the office. I would suggest that his title be changed from 'porter' to 'counter,' and that an increase of \$100 per annum be granted him. For greater security at night there should be another watchman, at \$720 per annum, which I recommend."

33,700 00 33,700 00

NOTE.—The assistant treasurer at Philadelphia submits the following in relation to his estimates for 1880: "The position heretofore designated superintendent of building I have changed to superintendent, messenger, and chief watchman, a title more fully expressing the several duties performed by the incumbent. The position heretofore designated fractional-currency clerk has been changed to redemption clerk, inasmuch as the duties now include the receipt, storage, and custody of redeemed minor coins, besides the weighing and counting of silver coin preparatory to payment. I recommend the creation of a new position, to be called assistant to the cashier, at \$1,400 per annum, in place of the second assistant registered-interest clerk, not provided for in the last appropriation. This clerk is necessary and cannot well be spared. Besides performing duties in the interest department, when necessary, he had been occupied for a long time in directly assisting the cashier and chief clerk, by whom he was also assigned to duties in one department and another, as the press of business required. I have designated two of the female counters as clerks and counters, in view of the fact that, owing to their qualifications and the necessity for their services, they are used at times in clerical duty. The remaining two female counters I have designated counters, dropping the word female as unnecessary. The salaries of the assistant treasurer and the cashier and chief clerk are estimated for at \$5,000 and \$2,700 respectively, the amounts at which they stood for years until July 1, 1877. These sums, in my judgment, are only a fair salary for the important and responsible duties performed." The total increase submitted by the assistant treasurer is \$2,100.

Four watchmen, at \$720 each.....	do.....				2,880 00		
NOTE.—The assistant treasurer at San Francisco asks that his salary be restored to \$6,000 per annum; requests an increase of salary of cashier \$600 per annum in excess of the appropriation of last year, and an increase of \$180 per annum each for four watchmen in excess of last year's appropriation. He also asks for an additional clerk, designated coin-teller, at a salary of \$1,500 per annum, and requests that the title of stamp-clerk may be changed to chief clerk, which accords with his duties better than the designation now given. Total increase asked, \$3,320.							
OFFICE OF DEPOSITARY AT TUCSON.							
<i>Salaries, Office of Depositary at Tucson—</i>							
Depositary, in addition to his pay as postmaster.....	} Mar. 3, 1877 Submitted.....	R. S.	617	3211	} 1,500 00		
Night-watchman.....		19	306	1			
NOTE.—The appropriation for the depositary at Tucson was omitted from the legislative bill of last year, and a deficiency estimate on this account will have to be presented to Congress at this session. The depositary reports that since the commencement of the mining excitement in the southern portion of the Territory there has been a large influx of desperate characters, outlaws, and robbers, who are making Tucson their rendezvous, and he has been informed by a large number of citizens that an attempt would be made to rob the depositary. That under these circumstances he hired a night-watchman for the safe protection of the public funds; and it is found necessary that a permanent night-watchman should be attached to the office. An estimate for a night-watchman at \$720 per annum is therefore presented, and a deficiency to cover the employment of the watchman in the emergency named by the depositary will be submitted with the usual deficiency estimates.

		20	195	1				
<p>NOTE.—The chief clerks of divisions in the office of the Secretary of War have similar duties and responsibilities as the chiefs of divisions in the other Executive Departments, and should have equal pay. They were paid at the rate of \$2,000 per annum until, by the appropriation act of August 15, 1876, their pay was reduced to \$1,800. In the Treasury Department this grade is paid at the rate of from two thousand five hundred dollars (\$2,500) to two thousand seven hundred and fifty dollars (\$2,750) per annum, with an assistant at from two thousand dollars (\$2,000) to two thousand four hundred dollars, and in the bureaus of the Treasury Department the chiefs of divisions are paid from two thousand dollars (\$2,000) to two thousand five hundred dollars (2,500). In the State Department chiefs of divisions receive two thousand one hundred dollars per annum; in the Interior Department, from two thousand dollars (\$2,000) to two thousand five hundred dollars (\$2,500); in the Post-Office Department, from two thousand dollars (\$2,000) to two thousand two hundred and fifty dollars (\$2,250). In none of the departments except this is the grade paid less than two thousand dollars (\$2,000) per annum, and in justice to these two clerks they should be placed on an equal footing with the same grade in the other Executive Departments.</p>

One clerk of class four.....								
<p>NOTE.—In addition to the present force allowed to the Secretary's office, at least one clerk of class four is necessary to the proper management and discharge of such current business of the office as requires especial experience, skill, and diligence. In order to promptly pay Congressional awards on claims of loyal citizens, claims under the act of July 4, 1864, relief acts, and on awards in view of deficiencies in former appropriations, the whole force of the division of requisitions and accounts has been compelled to perform extra duty on these matters since the second session of the present Congress. As no substantial consideration can accrue to the clerks</p>								

who render such extra service, and who must sooner or later tire of simple "thanks" for such service, this practice cannot long continue after these remarks shall be duly considered.

Four clerks of class three

Four clerks of class two

Twelve clerks of class one

One clerk

Eight assistant messengers, at \$720 each

Seven laborers, at \$660 each

Six watchmen for Northwest Executive building, at \$660 each

To enable the Secretary of War to have the rebel archives examined and copies furnished for the government

Contingent Expenses, Office of Secretary of War—

Blank books, stationery, labor, books, maps, and miscellaneous items

NOTE.—This estimate for \$10,000 is based upon actual necessities, which embrace the purchase of blank books, stationery, pamphlets, newspapers, car-tickets, soap, towels, brooms, &c., and the expenses of carriage-hire, telegrams, &c., for the office. Less than \$10,000 will be insufficient to meet current and increased expenses under this head. The increased expenses will be actually necessary in occupying the new building, and will arise in various ways, especially in adjusting furniture, fixtures, and other matters coincident to the satisfactory arrangement of offices and of labor-saving contrivances.

NOTE.—No reason exists why this bureau should not be provided with the same clerical force allowed it by the act of March 3, 1877 (19 Stat., 310). Its business has increased rather than diminished during the past year, and the four clerks estimated for are necessary for the proper performance of its official business.							
<i>Contingent Expenses, Bureau of Military Justice—</i>							
For office-furniture, stationery, law-books, &c.....	Appropriat'd	20	195	1	1,500 00	250 00
NOTE.—In the estimates submitted last year, an increase in the contingent fund was asked for that year mainly for the purchase of law-books for the bureau, for necessary office-furniture, and also to enable the bureau to furnish the judge-advocates of the Army stationed at the headquarters of military departments with law-books greatly needed by them in the discharge of their official duties. The sum proposed, a very moderate one in view of the objects intended, was, however, not allowed, and the contingent fund heretofore appropriated for the bureau (\$500) was reduced to \$250—a sum totally inadequate to meet its ordinary contingent expenses. It is							

believed that the appropriation desired will be most beneficial to the public service, and the same is accordingly recommended for the fiscal year ending June 30, 1880.

NOTE.—The above estimate conforms in numbers to those recommended in the estimate for the last fiscal year, and it is urgently requested that the full number estimated for may be authorized. The necessity for an additional number of clerks of higher grades to perform the more important clerical work of this office will be apparent to any one who has had experience in conducting such work. The number of clerks, messengers, and laborers recommended are not equal to those now employed in this office—five general-service enlisted men and one messenger detailed from the War Department, being employed as clerks, and one assistant messenger from the War Department as laborer. If clerks and laborers should be allowed as asked for by this estimate, the work of the bureau will be much better performed with the reduced number than with the present force, and at little, if any, increased expense. During the past year no less than eleven detailed general-service (enlisted) men have been on duty in this office—five being the greatest number at any one time allowed. As the best ones, as soon as permanent positions are found for them in other bureaus or departments, are appointed thereto, this bureau has to commence the education of a new clerk with the probability that it will soon lose his services. The salary of a thousand-dollar clerk does not, it is understood, exceed the pay and allowances of an enlisted general-service man, and it is urgently recommended that the number of clerks and other employes for this office may be appropriated for as recommended, and thus the necessity for employing any general-service men or messengers appropriated for in other departments may be avoided. As the services of all the clerks estimated for will be required in performing the ordinary current work of the office, two temporary clerks for six months, at \$100 per month, have been included in the estimate, to be employed when necessary to enable this office to answer the many demands for information made upon it during the session of Congress.

NOTE.—The present clerical force is insufficient to transact the business which by law is devolved on this office. Over four thousand property returns remain unsettled. This delay in the examination and adjustment of the proper accountability of officers of the Army is often the cause of injustice to the officers and of pecuniary loss to the United States. Other important office-work is also delayed. This office is divided into three divisions, each requiring a clerk of great experience and knowledge in charge. These chiefs of divisions were, and should be now, graded and paid as fourth-class clerks.						29,380 00	20,380 00

<p>NOTE.—This estimate is for the same force as was provided for by the act of June 20, 1874, with the addition of one clerk of the new grade of \$1,000, appropriated for in the act of June 19, 1878. The recommendation heretofore made that the clerical force of the office be restored to the organization under the appropriation act of June 20, 1874, is respectfully renewed. Experience has shown the necessity of a force not less than that under the said organization for the prompt and intelligent transaction of the business of the office.</p>							

Contingent Expenses, Office of the Chief Engineers—

Stationery, office-furniture, and miscellaneous and incidental expenses; purchase of professional books, maps, and two Washington newspapers

NOTE.—The amount of this estimate is increased over the appropriation for the current fiscal year to provide for the purchase of professional books and maps; the amount of the present appropriation being barely sufficient for stationery, office-furniture, and miscellaneous incidental expenses. Three thousand five hundred dollars was appropriated for the year ending June 30, 1874, and \$3,000 since for each year up to and including fiscal year 1876-77.

The rooms and halls in two more floors are to be heated, lighted, and cleaned. Some portions of the building, especially the hall floors, must be scrubbed, and this work alone will necessitate the employment of labor additional to that heretofore necessary for this department. In this connection, it may be noticed, seventy-five charwomen are required for such work in the Treasury Department and ten in the Department of State.						6,000 00

NOTE.—The chief clerk is required by law to act as Commissioner in case of vacancy or of the absence or sickness of that officer, and must be fully competent to take charge and control of the bureau at all times. He should receive the usual salary of a deputy bureau officer. It may be added that the proper duties of this office are unusually intricate, complex, and arduous, and fully deserve the salary herein estimated.

Law-clerk (increase submitted).....	Mar. 3, 1875 June 19, 1878	18 20	364 199	1 1	} \$2,250 00		
NOTE.—The law-clerk must be thoroughly conversant with land-law and practice, as well as with the usages and practice of the Department, and be able to grasp and summarize at once the various questions involved in land-contests and the construction of statutes, and to present the same in proper form for the consideration and action of the head of the bureau and the chiefs of divisions. The compensation estimated for is very moderate, considering the nature of the work and the qualifications required. Few attorneys competent to perform the duties could be found willing to do so for the amount named.

Submitted.....							
NOTE.—The recorder, in addition to his statutory duties, with the principal clerks and chiefs of divisions, occupy the relation of staff officers to the Commissioner. Each has exclusive charge of a particular class of work and of the clerical force employed upon it. They must know the rules of the whole office and the laws governing the whole land system, the relations of the classes being so intermixed as frequently to involve nearly the whole of them in the consideration of a single case. No higher service is performed by the subordinate officers of any Department, not excepting the Treasury, where the salaries range from twenty-seven hundred to thirty-five hundred dollars. Until this aid is given to the bureau no Commissioner can perform, with satisfaction or justice to the people or to Congress, the responsible labors of the land service. The salaries submitted are far below the measure of desert required in return. The number of chiefs asked for corresponds to the necessary division of work in the office.

NOTE.—The number of clerks of classes two and three estimated for is far below the actual requirements of the work of this bureau. The duties devolved upon clerks in these grades cannot be performed by those in the lower grades; and in justice to the settlers on the public domain who have complied with the requirements of law in making their claims, and are awaiting final adjudication by this office, the number should be increased.

NOTE.—The estimates for draughtsmen are based upon the ascertained wants and needs of the office. Heretofore the work has been done by detailed clerks possessing some qualifications therefor, but not always in the best manner, and usually after great and inconvenient delay. There should be ample provision for this work, and it is believed that the estimate made will be within the absolute requirements of the service.

Provided, That the Secretary of the Interior, at his discretion, shall be, and he is hereby, authorized to use any portion of the said appropriation for piecework, or by the day, month, or year, at such rate or rates as he may deem just and fair, not exceeding a salary of \$1,200.

NOTES.—The estimates for service in the lower grades, messengers and laborers included, are less than the needs of the office require, but are submitted as the very lowest possible to secure proper efficiency and dispatch. The lack of help in these positions has up to this time greatly impaired the morale of the bureau in compelling clerks and chiefs of divisions to leave their proper work and occupy their time in performing service really pertaining to messengers and copyists. It is hoped the full number herewith estimated for may be authorized.

Clerks in his office	Appropriated	R. S.	391	2226	} 18,800 00		
		20	201	1			
NOTE.—The \$18,800 is estimated for compensation of clerk-hire, consisting of three regular clerks and draughtsmen, calling for \$4,800, and fourteen \$1,000 clerks, to bring up the arrears in office-work of many years standing, viz, to prepare duplicate patent-plats of confirmed private land claims, of which there are about 6,000 entitled to patents, and which cannot be patented until such plats are made; also to transcribe field-notes of surveys of about 780 townships, for a long while in arrears, and requiring one month of time to copy the notes of six townships by one clerk. Very limited appropriations for office-work in former years caused so extensive arrears.						\$20,600 00	\$5,800 00

		20	201	1			
NOTE.—The \$4,200 for clerk-hire is submitted, it being actually required to transact the current work and to bring up the arrears in office-work retarded by former inadequate appropriations for the same. The arrears consist of 163 townships of descriptive notes of surveys for register's offices; index diagrams to original field-notes and original township plats, and the completion of the condensed history of the private land-claims of volume 4.						6,000 00	3,800 00

		Appropriated	20	201			
NOTE.—The sum of \$6,500 is estimated for compensation of five employés in the surveyor-general's office, consisting of a chief clerk, two draughtsmen, and two transcribing-clerks, actually necessary to keep pace with the field-work and avoid any arrears in the office-work.

Clerks in his office	}	R. S.	391	2226	} 7,500 00		
		Appropriated	20	201			
NOTE.—The \$7,500 is estimated for the compensation of five clerks and draughtsmen in the surveyor-general's office, to attend to the office-work consequent on surveys of public lands and mineral surveys, which latter are sensibly increasing in Colorado, and involve considerable labor in the preparation of the requisite office-work; arrears of four years are reported by the surveyor-general. From the necessity of binding the field-notes of surveys, and from the fact that the appropriation of the current year has been reduced to less than one-half the amount estimated, the present estimate will be actually needed for the service.

Clerks in his office	}	R. S.	391	2226	} 12,000 00		
		Appropriated	20	201			
NOTE.—The \$12,000 is submitted for compensation of chief clerk and translator of Spanish language in the adjudication of private land claims in New Mexico, \$2,000 per annum; two draughtsmen, at \$1,500 each; and five clerks, at \$1,400 each. This force is deemed necessary in view of the diminished appropriation for the like service of the current fiscal year; and also of the arrears existing in the preparation of diagrams of private land claims for the registers, showing the surveyed limits of the same.

NOTE.—The \$27,000 estimated for clerk-hire in the office of surveyor-general of California is to enable him to successfully cope with a very diversified office-work called for by numerous acts of Congress. The maximum allowance by the organic law of \$11,000 per annum having been found inadequate for several years past, appropriations were made of larger sums for the service, but not sufficient for bringing up the great arrears in the preparation of descriptive notes for the local land officers as required by law.

		20	201	1			
						9,000 00	5,500 00

NOTE.—The \$6,500 is estimated for clerk-hire in the office of surveyor-general of Nevada, to cover the compensation of clerks and draughtsmen to attend to the service of the pressing public concerns necessitated by the agricultural, mineral, and other surveys, the extended mineral-land surveys demanding considerable labor in order to expedite the returns of numerous surveys.

OFFICE OF SURVEYOR-GENERAL OF OREGON.

Salaries, Office of Surveyor-General of Oregon—

Surveyor-general	{	June 19, 1878	R. S.	388	2209	}	2,500 00		
			20	201	1				
Clerks in his office	{	Appropriat'd	R. S.	391	2226	}	7,000 00		
			20	201	1				
								9,500 00	7,000 00

NOTE.—The \$7,000 is submitted for the compensation of five clerks in the surveyor-general's office, at usual rates per annum, actually needed to attend to the current official business and to bring up the accumulated arrears in office-work since 1862, especially in regard to the swamp-land business, and the transcription of donation-claim field-notes of survey, the original being in dilapidated condition.

OFFICE OF SURVEYOR-GENERAL OF WASHINGTON.

Salaries, Office Surveyor-General of Washington—

Surveyor-general	{	June 19, 1878	R. S.	388	2209	}	2,500 00		
			20	201	1				
Clerks in his office	{	Appropriat'd	R. S.	391	2226	}	6,500 00		
			20	201	1				
								9,000 00	6,500 00

NOTE.—The \$6,500 is submitted for the compensation of clerks in the office of surveyor-general of Washington Territory, required for the purpose not only to expedite the current office-work, but to bring up considerable arrears in the transcription of the field-notes of former surveys of the public lands and donation claims, and recording the same as required by law, the accumulation of this kind of work having taken place during ten years, in consequence of insufficient means provided for that purpose. As the original field-notes are in a very dilapidated condition, further delay in transcribing them in proper books will cause great loss and embarrass not only the public interests but those of individual owners of lands.

OFFICE OF SURVEYOR-GENERAL OF NEBRASKA AND IOWA.

Salaries, Office of Surveyor-General of Nebraska and Iowa—

Surveyor-general	{	June 19, 1878	R. S.	388	2208	}	2,000 00		
			20	201	1				
Clerks in his office	{	Appropriat'd	R. S.	391	2226	}	6,300 00		
			20	201	1				
								8,300 00	5,000 00

NOTE.—The \$6,300 estimated for clerk-hire is to cover the pay of five clerks actually needed for the transaction of the ordinary business of the office, and which amount is allowed by law.

		20	201	1			
NOTE.—The \$4,800 is estimated for the pay of clerks in the surveyor-general's office to transact the official business consequent on the survey of agricultural and mineral lands in Montana, especially the latter surveys, being on an increase, will demand constant work in the examination of complicated claims, protraction of numerous plats, recording the same, transcribing field-notes, and other duties devolving on clerks too numerous to state.						\$7,550 00	\$5,750 00

		20	201	1			
						10,250 00	6,250 00

NOTE.—The \$7,500 is submitted for compensation of four clerks in the office of surveyor-general of Wyoming Territory, required to transact the official business devolving on it and to bring up the arrears, consisting of the preparation of descriptive-lists of corner boundaries of public lands, quality of soil and timber of 118 townships, 236 lists for the local land offices, and for the record in the surveyor-general's office.

OFFICE OF SURVEYOR-GENERAL OF ARIZONA.

Salaries, Office of Surveyor-General of Arizona—

Surveyor-general	June 19, 1878	R. S. 20	389 201	2210 1	} 2,750 00	
Clerks in his office	Appropriat'd	R. S. 20	391 201	2226 1		
					8,250 00	5,750 00

NOTES.—The \$5,500 is estimated for clerk-hire in the office of surveyor-general of Arizona Territory. This amount is actually required to pay clerks in his office, including one versed in the English and Spanish languages, to assist in the duties of examining and reporting upon titles to private land claims, the duty devolved on the surveyor-general by the proviso to the appropriation act of July 15, 1870 (Statutes, vol. 16, page 304). The surveyor-general reports the cost of living in Arizona as being twenty-five per cent. higher than in any other surveying district. See letter of the Commissioner of the General Land Office, containing remarks as to the compensation of surveyors-general and their clerks, in Appendix, marked "D."

<p>NOTE.—In making up this estimate the following expenses are included: Cost, at place of purchase, of subsistence supplies for issue to troops, &c.; for extra issues and for sales to officers and enlisted men, under sections 1144 and 1149 of the Revised Statutes; losses from wastage in issuing; damage in transportation; deterioration while on hand; necessary abandonment or destruction in the field; protection of supplies, including building, repair, and rent of necessary storehouses and offices; purchase of paulins, &c.; building and repairing bake-houses and ovens; the increased cost of subsistence of enlisted men when traveling under orders or when upon detached service, under circumstances which render it impracticable to issue rations to them in kind or to cook them if issued; the cost of purchasing, issuing, and accounting for subsistence supplies and of their care and preservation, including the cost of the required scales, measures, utensils, tools, stationery, office-furniture, and other necessary expenses incident to subsisting the Army, including telegrams.</p> <p>It is respectfully recommended that the appropriation for subsistence of the Army be made available from the passage of the act making the appropriation. For several years a portion of the appropriation (\$300,000) has been made available prior to the commencement of the fiscal year. If the appropriation for the year be made available from the passage of the act, it will, it is believed, be in the interest of economy, by enabling the purchase and shipment of all stores for remote posts, which can be more economically shipped in the spring than after the 30th of June, as well as those which should be shipped early in the spring instead of the heat of summer, to avoid loss in transportation.</p>

<p>NOTE.—It is respectfully requested that the appropriations here estimated for may be included in the act making appropriations for the support of the Army, and, for reasons stated in the appended copies of two letters, dated June 29, 1878, from Lieut. George M. Wheeler, Corps of Engineers, who is charged with execution of the geographical survey of the territory of the United States west of the one hundredth meridian. It is further requested that the amounts appropriated for that survey may be made available immediately after the passage of the act, as was done by the act of June 20, 1878 (vol. 20, page 221), in order that the work may be entered upon as early in the season as practicable before commencement of the fiscal year. Reduction by the Secretary of War.....					50,000 00		
<p>NOTE.—The amount estimated for under this head is required to pay the expenses at the arsenals of receiving stores and issuing arms and other ordnance supplies; of police and office duties; of rents, tolls, fuel, and lights; of stationery and office-furniture; of tools and instruments for use; of public animals, forage, and vehicles; incidental expenses of the Ordnance service, including compensation of workmen in the armory and museum building connected with the Ordnance office, and expenses attending practical trials and tests of ordnance, small-arms, and other ordnance supplies, not otherwise specially provided for. This amount cannot be reduced without embarrassment to the public service.</p>							
<i>Ordnance, Ordnance Stores, and Supplies—</i>							
Manufacture of metallic ammunition for small-arms.....	Appropriat'd	20	149	1	200,000 00		
<p>NOTE.—This amount of money will manufacture the ammunition for the rifles, carbines, and revolvers now in actual use, and ought not to be reduced. Rifle and carbine ammunition costs, to manufacture, \$25 per thousand, and revolver, \$18 per</p>							

thousand. For target-practice, at the present small allowance for drills, guards, instruction of recruits, funerals, and occasions of ceremony, at least four million rounds of ball and blank cartridges are needed yearly, or are actually expended. The surplus which the amount asked for will produce above the amount needed for these purposes is required for the hostile uses of the Army, and as a prudent reserve in store for general military purposes.

NOTE.—Congress has frequently been asked to appropriate money for the establishment of a powder-magazine on the Atlantic coast. Such a magazine is imperatively needed, and its construction should not be delayed. The deterioration of powder, now kept through necessity in the magazines of the sea-coast fortifications, is large— at least twelve per cent. yearly becoming unserviceable. Powder must be kept on hand, and it is economy to so place it that it can be kept in a serviceable condition. From the amount of powder now on hand it is known that the money lost by its annual deterioration, if saved, in five years will repay the Government for any money expended in the construction of proper storage facilities.							
<i>Manufacture of Arms at National Armories—</i>							
Manufacture of arms at the national armory; and should a board of ordnance officers recommend a suitable magazine-gun for the military service, the Secretary of War is authorized to expend not more than \$25,000 of this amount in its manufacture.	Appropriat'd	20	149	1	900,000 00		
Reduction by the Secretary of War					100,000 00	800,000 00	150,000 00
NOTE.—During the ten years preceding the war of the rebellion, from 1852 to 1861, there was appropriated annually, on an average, \$251,000 for the manufacture of arms at the national armories, and with this sum the wants of a smaller Army and of a smaller population permitted the gradual increase of them in store. The increased cost of the present breech-loading rifle, the greater demand for its use, and the paucity of the appropriations of late years, have left the country in a dangerous condition, there being on hand July 31, 1878, subject to issue but 19,000 rifles and carbines. It is of the most vital importance to the nation that the manufacture of arms by this Department be steadily continued in quantities sufficient to render a gradual accumulation of them in store a certainty. The number of small-arms on hand should never be less than 500,000.
