
IN THE SENATE OF THE UNITED STATES.

APRIL 5, 1892.—Ordered to be printed.

Mr. SHOUP, from the Committee on Pensions, submitted the following

REPORT:

[To accompany S. 1691.]

The Committee on Pensions, to whom was referred the bill (S. 1691) granting a pension to Josephine Q. Offley, submit the following report:

The claimant is the widow of Robert H. Offley, late colonel of the Tenth Infantry, U. S. Army, who was continuously in the service of the United States from May 14, 1857, to October 14, 1891, the date of his death, covering a period of nearly thirty-four years. His service, as shown by the annexed statement of the Adjutant-General of the Army, was of great value to the Government, and much of it might be considered hard service. Statement of military service herewith attached.

From information brought before the committee it is believed that his death was hastened by the unfortunate sanitary conditions existing at Fort Stanton, N. Mex., at the time he assumed command at the post. Very soon afterward Col. Offley, with others, sickened and died, traceable it is believed directly to the defective sewerage system which then existed.

His widow, the claimant, has for a number of years been a great invalid. She has no means, nor has she friends with the financial ability to give her the care which her physical condition requires.

In view of the long and meritorious service of the claimant's husband and his untimely death, and the helplessness of his widow, your committee recommend the passage of the bill with the following amendments: Amend line 6 by striking out the letter "Q" and insert in lieu thereof the letter "I." Amend the title to conform to amendment in line 6. Amend by striking out "one hundred" in lines 7 and 8 and insert "forty."

Statement of the military service of Robert H. Offley, late of the United States Army, compiled from the records of this office.
