OF THE TULSA COUNTY MEDICAL SOCIETY

VOL. 4

TULSA, OKLAHOMA, APRIL 1938

No. 4

With this issue of THE BULLETIN, we have grown to 24 pages in less than three months.

Annual Spring Golf Tournament. See page 11.

The Advertisers make the publication of THE BULLETIN possible. Take a look at their ads and then remember them.

Tune in on Radio Station K.T.U.L every Wednesday at 1 to 1:15 p. m. for a Tulsa County Medical Society program. Page 5.

The Medical and Dental Assistants have formed an organization and are planning their program. See page 9.

Do you know the details of Initiative Petition 166? You will find them on page 15.

Have you sent your past due accounts to the Medical Bureau for collection? Take a peek at page 6.

The Calendar of all Medical events is on page 3 again.

In the past a frequent complaint from mothers was the expense incurred when the large bottle of antiricketic was accidentally upset.

*"Busy fingers"
can't spill*

OLEUM PERCOMORPHUM

Even if the bottle of Oleum Percomorphum is accidentally tipped over, there is no loss of precious oil nor damage to clothing and furnishings. The unique Mead's Vacap-Dropper* is a tight seal which remains attached to the bottle, even while the antiricketic is being measured out. Mead's Vacap-Dropper offers these extra advantages also, at no increase in price:

Unbreakable

Mead's Vacap-Dropper will not break even when bottle is tipped over or dropped. No glass dropper to become rough or serrated.

No "messiness"

Mead's Vacap-Dropper protects against dust and rancidity. (Rancidity reduces vitamin potency.) Surface of oil need never be exposed to light and dust. This dropper cannot roll about and collect bacteria.

*Supplied only on the 50 c.c. size; the 10 c.c. size is still supplied with the ordinary type of dropper.

Accurate

This unique device, after the patient becomes accustomed to using it, delivers drops of uniform size.

No deterioration

Made of bakelite, Mead's Vacap-Dropper is impervious to oil. No chance of oil rising into rubber bulb, as with ordinary droppers, and deteriorating both oil and rubber. No glass or bulb to become separated while in use.

How to Use MEAD'S Vacap-Dropper

Remove both top and side caps. Wipe dropper tip. Regulate rate of flow by using finger to control entrance of air through top opening (see below). Oleum Percomorphum is best measured into the child's tomato juice. This is just as convenient and much safer than dropping the oil directly into the baby's mouth, a practice which may provoke a coughing spasm.

OLEUM PERCOMORPHUM
More Economical Now Than Ever

MEAD JOHNSON & CO. • EVANSVILLE, INDIANA, U. S. A.

Please enclose professional card when requesting samples of Mead Johnson products to cooperate in preventing their reaching unauthorized persons.

PRESCRIPTION SPECIALISTS

This is the day of specialists. And our specialty is the prompt and proper filling of prescriptions. To this important task we give our principal effort and consideration.

Because this is our principal business, our stocks are naturally larger, fresher and more complete. We employ only skilled, registered pharmacists who are in sympathy with our high ethical standards. Our large volume means lower overhead, and assures a fair price for every prescription.

NO. 4

Medical Broadcast over K. T. U. L.

Prevention of disease, sickness and suffering is one of the great goals which has been set for accomplishment by the medical profession itself and toward this end the Publicity and Public Relations Committee has just completed arrangements for one phase of its Public Educational Program with a series of weekly broadcasts over Radio Station KTUL, beginning April 13.

This series of 15 minute talks will be on the air from 1:00 to 1:15 each Wednesday afternoon and will deal with all phases of disease and medical practice. A Speakers' Bureau has been formed and these doctors will present educational talks under the supervision and censorship of the Publicity and Public Relations Committee.

Station KTUL, with studios in the National Bank of Tulsa Building, is a 5,000 Watt station operating on a frequency of 1,400 kilocycles. This station covers a primary area of 11 counties surrounding Tulsa with coverage of 59,200 homes according to audit figures compiled by certified public accountants. This gives every KTUL program a possible and probable quarter million listeners and indicates the great educational possibilities of this health program.

It is certain that the public is going to have "health information" one way or another. The public is seeking health education and it is highly important the medical profession maps out a sane, conservative health program which will

cause health education to be a benefit and not a curse. The place of the physician in a community health program must be a central one. Public health relies in the last analysis on medical science. The objective toward which physicians, health officials and voluntary health workers are attempting to lead the public is essentially an idealistic one. The conception of better health for all, with consequent economic, social and spiritual advantages to the healthy individual or group, is an ideal which was held by the medical profession as long ago as Hippocrates, whose aphorisms deal not only with the recognition and treatment of disease but with a philosophy of better health.

The medical or health broadcast represents a contribution of organized medicine to community welfare.

The committee members agreed in preparing this outstanding piece of work that the following principles would guide these radio programs: The health broadcast shall be solely educational; all interests will be served best if this educational program be conducted without profit to either profession or radio station; the program shall represent a contribution by organized medicine to community welfare, therefore all reference to type of practice, the accomplishments or affiliations of practicing physicians shall be regarded as personal advertising and shall be omitted.

List "Bad Credit Risk" Accounts

Do you ever have a new patient come to you for treatment and after talking to that patient have the feeling that he is a dead-beat or is just shopping around?

The Credit Bureau is compiling a list of "bad accounts" from all doctors who are society members. If you have a number of accounts that are definitely bad credit risks you will be rendering a service if you will report them to the Credit Bureau, 1202 Medical Arts Building, immediately. If you have some slow accounts you will improve the medical credit structure by reporting them also.

Blanks were sent out recently by the Credit Bureau Committee, of which Dr. Paul Grosshart is chairman, asking for your lists of bad accounts for the society credit records. **PLEASE HELP BY SENDING THEM IN AT ONCE.**

* * *

It is estimated that over 90 per cent of the patients who change physicians do so because they have not paid their accounts. Your new patient may owe another physician and in a substantial number of cases these "dead-beats" owe a number of doctors. You can readily see that by turning in all your dead or "uncollectable" accounts you are protecting others and as they turn in their old accounts they protect you.

Twenty years ago the collections among merchants was much the same. Now they have organized their central credit reporting systems and have eliminated a great majority of these cases. The dead-beat is checkmated before he starts. This same thing will happen to persons who make a practice of defrauding physicians, if every member will see that his old accounts are reported.

* * *

The Medical Credit Bureau is moving ahead steadily. Almost 50 doctors have sent in some of their accounts for collection. The Credit Bureau has started

working on these lists and is making actual collections. One doctor turned in 13 accounts; three have been paid in full and 5 others have started paying. One doctor turned in 25 accounts and five have paid in full or started monthly payments. Another doctor has turned in 38 accounts and has had eight make arrangements to pay. One doctor turned in one account and has collected it. One doctor turned in 28 accounts and has heard from but one. There are many more accounts which have become active. We mention these just to impress upon you that this Bureau has started functioning.

* * *

Right now is the right time to separate the sheep from the goats on your account ledger. Your bills are out of the way for April and your office girl can get onto your accounts now and send all of the slow ones to the Bureau for collection and all the bad ones for credit reference.

* * *

The MEDICAL CREDIT BUREAU is your collection department. It can render better service when it is used by a large majority of the members. If you do not have accounts for collection, send in all your bad or charged-off accounts for the credit file.

MEMBERS NAMED ON COMMITTEES

John Rogers, president of the Chamber of Commerce, recently appointed Dr. M. J. Searle, Dr. Fred Y. Cronk, Dr. W. A. Dean and Lloyd Stone, executive Secretary, as members of the Chamber of Commerce Committee on Public Health. John D. Finlayson is chairman of the committee. Lloyd Stone was appointed on the Publicity Committee also. The Tulsa County Medical Society is getting some recognition in civic affairs at last.

PRESIDENT'S PAGE

I was rather amused and really skeptical when I was told by your former president, of the number of complaints he had received and which probably would be received by me, in which some member of the Society had some actual or fancied grievance against another member.

He was indeed correct, for during the first two months of this year, it was necessary to act as arbiter in a number of petty disputes.

But a metamorphosis seems to be occurring; during the month of March there has been nothing of this nature presented.

This is truly gratifying and I believe is due, at least in part, to a better understanding of each other by the individual members. Because of the closer association resulting from co-operation in our new activities, committee meetings and the realization of our mutual problems, a great amount of bitter feeling and personal animosity seems to have been dissipated.

This is an encouraging sign, for I believe this to be one of our most important objectives, and that an era of better understanding is actually at hand.

Arts Building, Tulsa, Oklahoma.

VOL. 4 APRIL, 1938 NO. 4

EDITORIALS

The Membership Committee wants to call attention of 14 members of the Society to the fact that they have failed to pay their dues for 1938. These doctors are delinquent and as such are not members of the Tulsa County Society or the State Society and are subject to certain penalties. The A. M. A. Directory is now being compiled and will go to press within the next two or three weeks. Unless the dues are paid up before the date this publication goes to press the members will not be recognized as medical society members in the classification lists.

The membership committee is anxious to point out these matters so all delinquent members can protect themselves in all matters involving Society Membership.

Your Bulletin Committee again wishes to call your attention to this issue of THE BULLETIN. It has been increased to 24 pages and is now printed on fine enamel stock. This publication is being improved just as rapidly as possible and we believe that THE BULLETIN is rapidly taking its place as one of the outstanding society publications.

ITEMS OF PERSONAL INTEREST

All we know is what we hear, but it looks like the Auxiliary is carrying this business of meetings pretty far when they have a whole floor or at least a part of it, out at the hospital. Mrs. Paul B. Cameron, Mrs. R. B. Witcher and Mrs. T. H. Davis—all good members of the Auxiliary and true—are customers at St. Johns.

Among the Society Members who have appeared before other county society meetings recently are; Dr. J. C. Brogden who presented a paper on "Toxic Goiter" at the Okmulgee-Okfuskee Society meeting March 21st, at Okmulgee. Dr. E. G. Hyatt presented a paper on "Diaphragmatic Hernia," with X-Ray findings, at this meeting.

The Tulsa Society was represented in the western part of the state on March 29, when Dr. A. H. Davis presented a paper on "Carcinoma of the Larynx" and Dr. E. Rankin Denny read a paper on "Seasonal Allergy Caused by Factors Other Than Pollen" at the Alfafa-Woods County Medical Society.

Dr. Carl Simpson has joined the ranks of the immortals. On the menu that was handed us the other noon we find this item—"Hamburgers a la Simpson." If this doesn't mean that Dr. Simpson has joined hands with other immortals who have made history, we don't know.

Dr. Walter Larrabee spoke before the Osage County Society meeting at PaPwhuska March 14, on the subject "Cancer of the Breast." Dr. Joe Fulcher accompanied Dr. Larrabee, not on the piano but on the trip.

Office Assistants form Study Club

In order to develop more efficiency within the doctor's office and to create a better feeling between the new patient and the doctor, the office assistants in the Tulsa Doctors' and Dentists' offices have perfected an organization and made definite plans for a regular study program.

Miss Ruth Pray was elected president of the organization for the ensuing year with the following additional officers: First Vice-president, Miss Clayborn; Second Vice-president, Mrs. Dessa Waggoner; Treasurer, Miss Elowise Borden; Secretary, Miss Joyce Yeager. The following girls were named directors in addition to the officers; Miss Rhoda Johnson, Miss Maude Herrell and Miss Ruth McGinnis.

Meetings will be held monthly, on the third Tuesday night, in the Medical Society Assembly Room. Plans are being made to vary the type of meeting and some will be social, some purely business, with some dinner meetings. The program committee will prepare instructive programs and secure interesting speakers to appear before the group. Members of the organization will prepare papers on various phases of their work and will present a full-rounded course of study for the club.

In order to give some idea of the scope of the work to be embraced by the girls during their study course, the following extracts from an outline prepared by Miss Ruth McGinnis will be enlightening:

"Here are a few things about our work to keep in mind. I am not trying to cover the entire field, but just touch upon a few to give some idea of the scope of study we can present to this organization.

"The first trip a patient makes to your doctor is based on confidence gained through the recommendation of some friend who happens also to be a

patient or an acquaintance. It is highly important that the right impression is created, even before the patient meets the doctor. The girl who greets them must be neat, gracious and must make the patient comfortable and "feel at home."

"The first impression of a reception room is a lasting one. If your office desk is in the reception room, keep it neat. Have ample light for reading. Keep your magazines flat on a table and convenient. Watch the pictures on the walls. They should be cheerful and never suggestive of suffering or pain.

"Do you realize that 80 per cent of the patients in your doctor's office are women or children? Then why not have magazines in the reception room that will appeal to them.

"The operatory—this is an excellent word—is the doctor's domain but the office and reception room belongs to you. It is your job to make the patients feel at home; to make their visits as friendly and as free from worry as possible. It is your business to keep the appointments straight. You keep track of the charges. The collections are your responsibility.

"These are but a few of the things that a girl must keep in mind when she accepts the responsibility of this calling. This is a real responsibility and only by constantly studying to improve ourselves can we increase our efficiency."

Every office assistant in every doctor's and dentist's office in Tulsa County is urged to join this group and to take part in the improvement program. Plans are being made to sponsor a "post graduate study course" sometime during the fall. Prominent speakers will be secured to give a thorough course of training to improve their technique. The doctors and dentists are especially anxious to co-operate with this program and to lend their help to make the study profitable to the girls and to encourage them in their work.

ATTENTION ALL GOLFERS

The Annual Spring Golf Tournament of the Tulsa County Medical Society will be held at Indian Hills Country Club, Thursday, April 14.

The Golf Committee,—Dr. Silas Murray, Dr. E. L. Cohenour and Dr. W. O. Smith—have made all arrangements for golf, stag dinner, etc., etc., etc.

ATTENTION ALL GOLFERS

MAKE RESERVATIONS FOR STATE MEETING

It is very important that arrangements be made at once for hotel reservations for the three-day Oklahoma State Medical Association Convention which will be held in Muskogee, May 9-10-11. If you plan to make this trip, call the executive secretary's office immediately and reservations will be made for you. Muskogee is not over-supplied with hotel accommodations and it is imperative that you take care of this at once.

Tulsa County Society will be well-represented at this meeting and it is quite likely that our delegation will be the largest at the state meeting. Reports from Muskogee indicate that the hotel accommodations will be taxed to capacity and it is important that we make our reservations as far in advance as possible.

* * *

CONFUSION IN COURT TESTIMONY

The committee on ethic's finds that there is too much confusion over per-

sonal injury and other complaints which come before the courts and that the testimony by the various examiners is conflicting.

"We feel that if the members of this society would get together and confer over the case, that when they took the witness stand the condition could be greatly remedied. There is no reason why honest doctors could not confer and agree on the condition, which they are called upon to examine. We are only making a laughing stock of ourselves before court and juries and at the same time are doing an injustice to both employee and employer. To this end we, your Committee on Ethic's, would suggest and request that this society pass a resolution to embody these ideas. Until such a thing is done, the profession cannot hope to have a real standing before the courts. We realize that the society cannot make a dishonest doctor, honest, but we can certainly take some action, which will at least put the fear of God in his heart, and if he wishes to retain his good standing in the society he will surely agree that for the good of his profession he will finally see the error of his ways. Your Committee on Ethic's believes that some drastic action should be taken to remedy this situation."

* * *

IT'S OKLAHOMA CITY ON APRIL 26

- Time: April 26.
- Place: Oklahoma City.
- Event: Dinner Party.
- Guests of Honor: Us.

These are the bare facts about the case, but actually the Oklahoma City Medical Association has invited all members of the Tulsa County Medical Society to be their guests of honor at a dinner and meeting of their organiza-

tion in Oklahoma City on the night of April 26.

And what's more, Tulsa has accepted and a large number of Tulsa M. D.'s will take out from Tulsa Tuesday afternoon, April 26, headed toward the Capital. Your officers are anxious to have a goodly representation on hand when the dinner bell rings. If you can get away, you can be assured that there is a pleasant time in store for you. Call the Executive Secretary and let him know if you plan to make the trip. We want to let the Oklahoma City group know just about who and what to expect.

The Tulsa Program Committee has arranged the program for the Scientific portion of the Oklahoma City Society meeting.

**GOLFERS' SPECIAL
TO SAN FRANCISCO**

To All Fellows of the
American Medical Golfing Association

Dear Doctor

1. The San Francisco Golf and Country Club will be the scene of the 24th Annual Tournament of the A. M. G. A., Monday, June 13, 1938.

2. The "Golfers Special" will bring you to San Francisco the most pleasant way. This A. M. G. A. tour includes an ocean voyage from New York to New Orleans (six days) on the S. S. Dixie, sailing June 1. First game of golf will be played in New Orleans on June 7, followed by five games on excellent courses on the out-going trip, with stops and sight-seeing at Houston, Galveston, San Antonio, Los Angeles (including Hollywood), and Del Monte, Calif.

Non-golfers as well as golfers (and their ladies) are invited to take advantage of this wonderful trip.

Fraternally yours,
Walt P. Conaway, M. D.

Open Cancer Fight in Oklahoma

The Tulsa County Medical Society lined up with other forces as Oklahoma took its place in the nation-wide fight for the cure and control of cancer. Following the recommendations of the Cancer Committee, composed of Dr. Ralph McGill, chairman, Dr. W. S. Larrabee and Dr. W. A. Showman, the Society voted to lend its influence and active support in the fight against Cancer.

The nation-wide fight against this disease which claims the second largest number of fatalities annually in the United States is directed by The Womens' Field Army, an organization formed by the Federated Womens Clubs. This organization only works with the doctors in the state and county in their campaign efforts.

Plans for Tulsa's part in the present campaign were outlined recently at a meeting of state board of the Society for Cure and Control of Cancer at the Mayo Hotel. Among the leaders from out-of-town were: Dr. Wendell Long, chairman, and Dr. E. S. Lain of Oklahoma City; Dr. Paul Champlin of Enid; Mrs. William Van Divort of Nowata, state commander of the Society for the Control of Cancer and Mrs. G. K. Nusbaum of Enid, vice-commander.

Plans for a speakers campaign under direction of the Cancer Committee are being developed, Dr. McGill announced. Members of the Speakers Bureau, who will make talks to lay audiences, include Dr. V. K. Allen, Dr. Henry Browne, Dr. W. S. Larrabee, Dr. A. B. Carney, Dr. I. A. Nelson, Dr. M. O. Nelson, Dr. George Osborne, Dr. A. W. Pigford, Dr. W. A. Showman, Dr. D. O. Smight, Dr. James Stevenson, Dr. Leon Stuart, Dr. A. Ray Wiley, Dr. John Perry, Dr. Joseph Fulcher and Dr. Morris Lhevine.

Fifty per cent of the loss of life from cancer, second largest cause of American deaths, can be stopped with present medical treatments, the American Society for the Control of Cancer reported recently. The annual deaths are 150,000

in the United States.

The American Society for Control of Cancer laid the blame for much of the loss of life in cancer to fear, ignorance and public apathy. Cancer as a death cause is second only to heart disease, which takes more than 300,000 lives a year. Cancer kills twice as many as tuberculosis. Only seven states "have taken on themselves any real responsibility." Other states care for feeble minded, blind and tuberculosis, it was explained, but not cancer.

If, the Society pointed out, the agencies fighting cancer fully understood these measures, work harmoniously and "use the knowledge we now possess we can confidently expect a 50 per cent decrease in the annual death rate from cancer."

Following are the proposed seven steps to fight cancer.

1. Periodical examination.
2. End of the misconception that cancer is a single disease.
3. Quiet, scientific rather than emotional study of cancer.
4. Emphasis that speed of cure differs in various states.
5. New ways of approaching the nonreading masses.
6. More emphasis on prevention.
7. A readable cancer book for laymen.

AUXILIARY PARTY IS A "WOW"

You can be certain that lots of things happened out at the Auxiliary Party at St. Johns Hospital on the night of March 30 when the ladies were hostesses to the gentlemen of the profession at a box supper and et cetera. However this party came just "betwix and between." It came between the time we had to send THE BULLETIN to press and the time THE BULLETIN appeared off the press. So the horrible details must wait until next issue. However, if you were there you had a wonderful time and if you were not there you wouldn't believe that a party could have been so elegant.

THE MEDICAL CREDIT BUREAU IS PRODUCING RESULTS

We are glad to announce that this Collection Department is producing results in the first month of operation.

It will produce the same results for you.

There is one way to put a stop to the activity of patients who never pay their bills — report them to the Credit Bureau.

MEDICAL CREDIT BUREAU

The Tulsa County Medical Society

1202 MEDICAL ARTS BUILDING

PHONE 4-3323

Here is Initiative Petition 166

A number of doctors have made inquiries about the vicious Initiative Petition 166, which was filed with the State Department last fall and is designed to throw down the bars to many phases of medical and hospital practice in this state.

In order to furnish the doctors a copy of this proposed law, we are printing the text of Initiative Petition 166 in full:

The title, and proposed ballot title, and the full text of the measure or Act proposed is as follows:

TITLE

An Act Amending Sections 4625, 4646, 4652 and 4656, Oklahoma Statutes 1931 as amended by Article 7, Chapter 24, Session Laws of Oklahoma 1935; providing for the qualifications and appointment of the State Board of Medical Examiners; prescribing grounds and procedure to suspend or revoke the license or certificate of any physician or surgeon; defining "unprofessional conduct"; providing for appeals; repealing all Acts in conflict herewith; and making the parts of this Act severable, and, if any part hereof is declared by a final Judicial decision to be invalid, other parts hereof shall remain in full force and effect.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. Section 4625, Oklahoma Statutes 1931, is hereby amended to read as follows:

Section 4625. Within thirty (30) days after the passage of this Act, the members of the Board of Medical Examiners shall be appointed by the Governor from the schools of practice commonly known as the Regular, the Eclectic and the Homeopathic schools, who shall serve for a period of four (4) years or until their successors are appointed and qualified; provided that at no time shall there be a majority of one school represented on said Board; provided further, that no member shall be a stockholder in or member of the faculty or board of trustees of any medical college or school.

SECTION 2. Section 4646, Oklahoma Statutes, 1931, is hereby amended to read as follows:

Section 4646. The State Board of Medical Examiners may suspend or revoke the license or certificate of any physician or surgeon holding license or certificate to practice in the State of Oklahoma for un-

professional conduct, but no such suspension or revocation shall be made until such licensee be cited to appear for hearing; Provided that the License or Certificate of a physician or surgeon shall not be suspended or revoked on account of unprofessional conduct on the part of such physician or surgeon, until a hearing be had before the Board of Medical Examiners of the State of Oklahoma.

No such citation shall be issued except upon sworn complaint filed with the Secretary of said Board, charging the said licensee with having been guilty of unprofessional conduct and setting forth the particular act or acts alleged to constitute such unprofessional conduct. Upon the filing of such complaint, such citation must forthwith be issued by the Secretary of the Board over his signature, and seal of the Board, setting forth the complaint of said unprofessional conduct, and giving due notice of the time and place of the hearing thereof by the Board of Medical Examiners. The said citation shall be made returnable at the next regular meeting of the Board occurring at least thirty (30) days next after the service of said citation. The accused shall file his written answer thereto under oath with the Secretary of said Board within twenty (20) days after the service upon him of said citation and unless such answer be filed as herein set forth, the accused shall be considered in default and his license or certificate suspended or revoked, IF the charges be deemed sufficient by the Board; provided that the Secretary of the Board may extend the time of answer upon satisfactory showing that the defendant is, for reasonable cause, unable to make answer within the said twenty (20) days, but in no case shall the time be extended beyond the date of the next regular meeting of the Board, unless continuance thereof be granted by the Board.

SECTION 3. Section 4652, Oklahoma Statutes, 1931, is hereby amended to read as follows:

Section 4652. The words "unprofessional conduct" as used in this Act are hereby declared to mean:

First. Procuring, aiding or abetting a criminal operation or abortion.

Second. Advertising in any manner, either in his own name or under the name of another person, firm, association or corporation, in any newspaper, pamphlet, circular or other written or printed paper or document, the treatment of or the curing of venereal diseases, or the private diseases peculiar to men and women, or the advertising, or holding himself out to the public

in any manner as a specialist in the diseases of the sexual organs or diseases caused by sexual weakness, self-abuse or excessive indulgence, or in any disease of like nature produced by like causes, or the restoration of lost manhood, or the advertising of any medicine or any means whatsoever, whereby the monthly periods of women can be restored or regulated or the menses by re-established, if suppressed, or being employed by, or in the service of any person, firm, association or corporation so advertising.

Third. The obtaining of any fee or offering to accept any fee, present, or other form of remuneration whatsoever, on the assurance or promise that a manifestly incurable disease can or will be cured.

Fourth. Wilfully betraying a professional secret to the detriment of the patient.

Fifth. Habitual intemperance or the habitual use of the habit forming drugs.

Sixth. Conviction of a felony or of any offense involving moral turpitude.

Seventh. The employment of what is commonly known as "Cappers" or "Steerers" in procuring practice; Provided the term "Cappers" or "Steerers" shall not be construed to apply to: Bona fide Agents of Hospitals and Clinics legally organized. Provided further that such hospitals or clinics shall not be permitted to enter into contracts for hospital or medical services to be performed within thirty days of the date of said contract and provided further that said organization of clinics or hospitals shall be organized on a mutual or cooperative non-profit plan in connection with some recognized farm or labor union or church or charitable organization.

Eighth. All advertising of medical business in which statements are made which are grossly untrue or improbable and calculated to mislead the public.

Ninth. Conviction or confession of a crime involving the violation of the anti-narcotic or prohibition laws and regulations of the Federal Government, or the Board of Health Laws and Regulations of the State of Oklahoma.

Tenth. Dishonorable or immoral conduct.

Eleventh. Professional connection with, or lending one's name to any person engaged unlawfully in the practice of medicine and surgery; or engaging in the practice of medicine or surgery under any name other than the one specified in the license of the licentiate.

SECTION 4. Section 4656 of the Oklahoma Statutes of 1931, as amended by Section 2, Article 7, Chapter 24 of the

Session Laws of Oklahoma of 1935, is hereby amended to read as follows:

Section 4656. The State Board of Medical Examiners of the State of Oklahoma is hereby given quasi-judicial power, while sitting as a Board for the purpose of revoking or suspending the license of physicians and/or surgeons of this State, and appeals from its decisions shall be taken to the District Court of the county of the residence of the accused, where said appeal shall be tried de novo in the same manner as appeals from Justices of the Peace, and appeals may be taken from the action of the District Court in the same manner as appeals in civil cases generally.

No decision of said Board of Medical Examiners of the State of Oklahoma shall become final in any matter appealed from, pending final decision of the Supreme Court of this State, except as hereinafter provided in this Section.

The license of any physician and/or surgeon who has been convicted of any felony in or without the State of Oklahoma and whether in a state or federal court, and which conviction shall have become final, shall be suspended or revoked and cancelled by said Board upon the submission thereto of a certified copy of the judgment and sentence of the trial court and the certificate of the clerk of said court that said conviction has become final; Provided, that the revocation of the license of any person convicted of a felony on any other grounds than that of moral turpitude or the violation of the Federal or State Narcotic Laws, shall be on the merits of the particular case, but the court records in the trial of such case when conviction has been had shall be prima facie evidence of the conviction. Said Board shall also revoke and cancel the license of any physician and/or surgeon who has been charged in a court of record of this or other states of the United States or in the Federal Court with the commission of a felony and who is a fugitive from justice, upon the submission of a certified copy of the charge together with a certificate from the clerk of said court that after the commitment of said crime said physician and/or surgeon fled from the jurisdiction of the court and is a fugitive from justice.

SECTION 5. All acts or parts of acts in conflict herewith are hereby repealed.

SECTION 6. The provisions of this Act are severable, and, if any part hereof is held to be invalid by a final decision of any court of competent jurisdiction, the remaining parts hereof shall be valid.

(THE END)

This and That

DISILLUSIONED

The handsome young city girl went swimming in the "raw" in a secluded mill pond all by herself. Along came a young country lad who started to tie knots in her clothes. She flopped around, found an old washtub, held it up in front of herself and marched toward the little boy, saying "You little brat, do you know what I'm thinking?"

"Yes," said the little brat. "You think that tub has a bottom in it!"

DIAGNOSIS APPROVED

"How do you feel, dear? What did the doctor say?" he questioned his wife as she lay on the couch, her eyes half closed.

"Oh, he asked me to put out my tongue," she murmured.

"Yes?"

"And after looking at it he said, 'Overworked.'"

"I have perfect faith in the doctor, Mabel," said he firmly. "You will have to give it a rest."

HE BELIEVES IT

Farmer: "An' how's Lawyer Jones doing, doctor?"

Doctor: "Poor fellow, he's lying at death's door."

Farmer: "That's grit for ye: at death's door, an' still lying."—*Toronto Globe.*

DIDN'T SEE IT

"What happened, dear?" she asked her husband as he was getting out to investigate.

"Puncture," he said briefly.

"You ought to have been on the lookout for this," was the helpful remark. "You remember the guide warned you that there was a fork in the road."

Library Notes

Books may be sent to the Executive Officers or to 215 Medical Arts Building. The committee requests that before discarding books from your library that you see if they can be used in the Tulsa County Medical Society Library. It is anticipated that the former custom of each member donating one book or "going in with some one else" on the purchase of a new book for the library each year will be resumed.

The Tulsa County Public Health Association has presented the Medical Society with a sum for the establishment of an Endowment Fund for Public Health. This meets a very definite need and it is anticipated that the fund will assume considerable proportions within the next few years.

Donations may be sent to the Executive Offices or to any members of the library or endowment committee. When not stated that the donation is for a particular fund it will be credited to the General Endowment Fund.

Library Endowment Funds

Other donations to endowment funds since December 18, 1937, are as follows:

Dr. E. O. Johnson, Obstetrics and Gynecology	\$ 1.00
Anonymous, Urology	1.00
Beatrice Creamery Co., James S. McLester, Nutrition Fund	25.00
Dr. Gifford H. Henry, Surgery	1.00
Anonymous, Urology	1.00

Endowment Funds March 4, 1938

Paul C. Geissler, Memorial Fund ..	\$125.47
James S. McLester, Nutrition Fund ..	50.00
General Endowment Fund	30.20
Public Health Fund	8.00
Pathology Fund	6.02
Radiology Fund	6.02
Industrial Medicine Fund	5.10
Surgery Fund	2.00
Pediatrics Fund	2.00
Urology Fund	2.00
Obstetric and Gynecology Fund ..	1.00
