2 new evaporated milk and Dextri-Maltose formulas for infants

- Liquid Formulas**
-
- Convenient**
-
- Simple to Prepare**
-
- Nutritionally Sound**
-
- Generous in Protein**

FOR ALMOST FOUR DECADES physicians have recognized the merits of infant-feeding formulas of cow's milk, water and Dextri-Maltose*.

In LACTUM and DALACTUM, Mead's brings new convenience to such formulas—for LACTUM and DALACTUM are prepared for use simply by adding water.

LACTUM, a whole milk formula, is designed for full term infants with normal nutritional needs. DALACTUM is a low fat formula for both premature and full term infants with poor fat tolerance. Both are generous in protein.

twice

as effective

More nearly complete relief of symptoms associated with hay fever and other allergies can now be provided with Pulvules

HISTA-CLOPANE*

This new preparation combines 25 mg. of the antihistaminic 'Histadyl' (Thenylpyramine, Lilly) with 12.5 mg. of the powerful sympathomimetic 'Clopane Hydrochloride' (Cyclopentamine Hydrochloride, Lilly). Clinical observations have revealed that these two drugs are synergistic and their combination is at least twice and often three times as effective as that of 'Histadyl' administered alone.

Ideal for daytime use, Pulvules 'Hista-Clopane' offer greater therapeutic effect with virtually no sedation or stimulation. The average adult dose of Pulvules 'Hista-Clopane' is one or two pulvules after each meal and at bedtime. When indicated, a fifth dose may be taken nocturnally.

*'Hista-Clopane' (Thenylpyramine and Cyclopentamine, Lilly)

ELI LILLY AND COMPANY • INDIANAPOLIS 6, INDIANA, U. S. A.

Complete literature on Pulvules 'Hista-Clopane' is available from your Lilly medical service representative or will be forwarded upon request.

AMA DRAWS NEAR-RECORD ATTENDANCE

American Medical Association Scores Practice of
Medicine By Hospitals. Dues for 1951 Again
Placed At \$25.00.

In an atmosphere punctuated by the outbreak of war in Korea, the American Medical Association held its 1950 annual meeting in San Francisco last June 25-30, a sprawling and crowded convention that drew a near-record attendance of 23,655 doctors and visitors. Scientifically it proved to be one of the best AMA meetings in recent years; in business matters it was comparatively quiet with none of the fireworks that marked the last two sessions of the AMA House of Delegates.

Briefly, the major actions taken by the national group were:

(1) Adopted the controversial Hess Report, a resolution designed to take hospitals out of the practice of medicine (principally radiology, pathology, and anesthesiology).

(2) Voted to include a subscription to the Journal of the American Medical Association as a benefit of the annual membership dues of \$25.00 now levied by the AMA, beginning in 1951.

(3) Received recommendations for the creation of a Student American Medical Association, functioning within the framework of the AMA with an Executive Secretary for the benefit of a membership composed of medical students.

(4) Reaffirmed the opposition of the AMA to socialized programs of medical care within the federal government and particularly to proposals advocating the creation of federal departments of health based on the personnel and policies of the present Federal Security Administration (such as was proposed by President Truman's reorganization bills number One and Twenty-Seven, both defeated

in recent Congressional action).

(5) Fixed the American Medical Association's 1951 annual dues at \$25.00.

(6) Voted to expand the Department of Public Relations of the AMA with a view towards that Department eventually assuming the functions now performed by the National Education Campaign.

(7) Again retained Whitaker and Baxter to direct the National Education Campaign for another year. Coincident with the meeting came the announcement of details of a program of newspaper and radio advertising to be conducted by the AMA.

(8) Criticized hospitals which make membership in specialty boards a requisite for appointment to or advancement in staff privileges.

(9) Refused to support the Association of Interns and Medical Students as presently constituted for its alleged leftish and communistic leanings.

(10) Named Dr. John W. Cline, San Francisco surgeon, as President; Dr. R. B. Robins of Camden, Arkansas, as Vice-President; reelected Dr. George F. Lull of Chicago as Secretary and General Manager. Dr. Robins' election came in tribute for a remarkable effort in opposition to socialized medicine by the small-town practitioner.

The AMA honored a number of physicians for their contributions to medicine. Dr. Evarts A. Graham, thoracic surgeon of St. Louis and a frequent visitor to the Tulsa County Medical Society, received the 1950 Distinguished Service medal; Dr. Lester R. Dragstedt, Chicago surgeon who spoke before the Tulsa County Med-

ical Society last year, was recipient of the AMA Gold Medal for devising an operative technique by which dogs' stomachs were completely isolated so that the secretion of gastric juices could be studied in a way heretofore impossible.

In the scientific sections, 300 papers authored by 1,492 authors were presented, 157 scientific exhibits displayed, 304 technical exhibits, 4,700 hours of lectures or demonstrations, daily programs of television (some in color), and numerous motion pictures of scientific content were shown.

Dr. James Stevenson of Tulsa and Dr. John F. Burton of Oklahoma City, official delegates to the AMA, were most active and attentive to their duties and both are growing constantly in stature and respect for their leadership in House of Delegates activities.

There were 74 Oklahoma doctors present, including the following from Tulsa: Dr. Ralph A. McGill, Dr. James Stevenson, Dr. Logan A. Spann, Dr. K. C. Reese, Dr. Homer A. Ruprecht, Dr. Marcella R. Steel, Dr. Sumner Y. Andelman, Dr. R. M. Wadsworth, Dr. Ralph F. Martin, Dr. Marshall O. Hart, Dr. Arnold H. Ungerman, Dr. John G. Matt, Dr. Thomas H. Davis, and Dr. W. Albert Cook.

The 1951 session will be at Atlantic City, the 1952 session at Chicago, and the 1953 convention at New York City. The 1950 meeting in San Francisco was the third largest ever held and the largest ever held in San Francisco. Hotel rooms were at a premium, eating places jammed by visiting doctors and their wives, but unusually beautiful weather and charming San Francisco hospitality compensated for any minor inconveniences.

ABOUT THE AMA DUES

The 1950 annual membership dues of the American Medical Association are now due and payable in the amount of \$25.00. Members should pay through the Tulsa County Medical Society. Effective January 1, 1951, members will receive the Journal of the American Medical Association as a benefit of AMA dues. Fellowship dues paid in 1950 are not deductible from the dues.

FUNK, MATT TO HEAD UP 1951 OSMA CONVENTION

Dr. Robert E. Funk, Tulsa internist, has been named General Chairman of the 1951 Annual Meeting of the Oklahoma State Medical Association, to be held in Tulsa June 3-6, 1951. The appointment was announced last month by Dr. W. A. Showman, President-Elect of the Tulsa County Medical Society. The scientific program will be under the direction of Dr. John G. Matt, Tulsa proctologist, recently appointed to head the Association's seven-man Scientific Works Committee.

Dr. Robert E. Funk

Dr. John G. Matt

Dr. Funk has announced the appointment of the following Tulsa physicians to assist him: Dr. I. H. Nelson, Commercial Exhibits; Dr. Edward L. Moore, Publicity; Dr. Berget H. Blocksom, Television; and Dr. John E. McDonald, Social Events. Additional appointments will be made later.

The meeting will be held for the first time in the Cimarron Ballroom of the Akdar Theater Building, 4th and Denver streets. It is estimated that 70 commercial exhibits and 35 scientific exhibits can be housed at the Ballroom. Two meeting rooms are available as well as an attractive lounge. It is only one block from three Tulsa hotels and within walking distance of all other hotels. Roundtable luncheons and business sessions are presently scheduled for The Mayo Hotel.

Virtually all arrangements for the meeting will be handled through the Executive Offices of the Tulsa County Medical Society.

DR. WILLIAM S. BIVENS has removed his practice to Holdrege, Nebraska, where he will be on the staff of The Brewster Clinic.

PRESIDENT'S PAGE

As is to be reasonably expected, the outbreak of war in Korea has created much unrest among the medical profession. Our veterans of World War II have a natural reluctance to leave their homes and families again, to sacrifice practices which are just now beginning to bloom in full flower, and to return to the uncertainties of war. Yet, most have expressed to me a willingness to again assume this obligation as our military situation warrants. Most have a feeling that they should not be again called into service until physicians of the same age and dependency status who did not serve in the last war are utilized.

As this issue of *The Bulletin* goes to press we do not know how many Tulsa doctors are going to be taken into the services. There is a report of a reasonably reliable character that twenty doctors will be asked of the entire State of Oklahoma. I would assume Tulsa would be asked to contribute perhaps six or seven of this number. I do not feel that we are yet to a point where we need become unduly alarmed over the situation and I want to urge a level-headed approach to this matter. Both the local and state medical associations are attempting to plan for the situation and we should be guided in large measure by these plans. A continued calmness and policy of conservative thinking is desirable at this time. In that way we will prevent some of the bitterness which marked the last war in the abuses to which the medical profession was subjected.

Sincerely,

President

A TIME FOR DECISION

The United Automobile Workers' Mr. Harry Becker is not likely to win any popularity contests with the doctors after his speech before the Conference of Presidents and Other County Medical Society Officers at the recent American Medical Association convention in San Francisco. Neither, for that matter, is the medical profession exactly unaware from his remarks that it is not a godchild of the UAW. Mr. Becker had a disconcerting ability to illuminate the truth about a lot of the shortcomings of the medical profession. At the same time he displayed a remarkable facility for disregarding the long-run best interests of the public for the sake of expediency, a certain degree of unreasonableness in evaluating the results of American Medicine's efforts to extricate itself and the public from the position in which they find themselves, and finally, a pettish resentment that Medicine, confronted with a choice of its own best interests and those of labor, has chosen to defend itself. Mr. Becker is to be complimented for his frankness and thanked for an address that jolted the complacency out of many doctors present. However disagreeable his views—and his views are those of American Labor—they left no doubt that organized labor has a bitter resentment against medicine that may well

lead to a state of socialized medical care.

We do not intend to debate in these columns the charges of Mr. Becker, however unreasonable to us they seem to be. Rather, we would express some considerable concern that the gulf between Labor and Medicine is so wide. We understand from some sources that many elements of Labor are not willing to sit down across the table for a discussion of mutual grievances with Medicine. This is unfortunate, for the basic aims of Labor and Medicine in this respect are the same—the provision of adequate medical care for the patient. We believe much is to be gained by a conciliation with Labor, though we do not propose to effect that conciliation by conceding the points at controversy. We suspect that a more intimate contact with Labor, mutual instruction in points of view of both parties, and a reasonable amount of concession by both groups, might produce a permanent and beneficial alliance to benefit Labor, Medicine, and most important, The Public!

The Tulsa County Medical Society has long felt that much is to be gained by a closer relationship with Labor. That we are at the opposite extremities of the pole of understanding is no reason why we must always remain that way. Certainly, only more bitterness is to be incurred by a continuation of the present restraints. We do not believe that Labor, fundamentally, wants socialized medicine; we believe it wants only adequate medical care for the patient. That objective may well be obtained through cooperation and understanding with Labor. It is less likely to be obtained as long as Medicine must labor to obtain it under the criticism and opposition of organized labor. Certainly, it is worth a try.

DR. ROBERT L. ANDERSON has returned to his offices after six-weeks of postgraduate study in thoracic surgery in Eastern medical centers.

DR. NOLEN C. RILEY, formerly on the staff of Tulsa Clinic and more recently in private practice at Duncan, Oklahoma, has taken temporary professional quarters at 507 Medical Arts Building, Tulsa.

New Method for Relief of Allergic Nasal Symptoms

This convenient plastic Nebulizer distributes a mist of minute droplets of PYRIBENZAMINE hydrochloride Nasal Solution throughout the nasal passages.

Relief usually is immediate—complete—prolonged. Side reactions rarely occur except for occasional transient stinging. It is convenient to carry in purse or pocket and may be used at any time in any place.

The Nebulizer provides several hundred applications of PYRIBENZAMINE hydrochloride 0.5% in an isotonic, buffered solution. One application in each nostril usually is a therapeutic dose and may be repeated as required.

OKLAHOMA DOCTORS MAP PLANS TO MEET WAR NEEDS

With the Korean War increasing in intensity day by day the Tulsa County Medical Society may well lose a number of its members to the Armed Forces within the next few weeks. Close on the heels of President Truman's call for a mobilization of the nation's economic and military resources came the following developments in the Oklahoma medical-military picture:

(1) Active reservists were momentarily expecting a call to duty as this issue of *The Bulletin* went to press. Dr. Nevin W. Dodd, Tulsa general practitioner, became the first local doctor to receive orders. Tulsa's Company B of the 20th Marine Battalion, to which Dr. Dodd is attached as surgeon, received standby orders on July 19, 1950.

(2) The Oklahoma State Medical Association has set up a committee of fifteen doctors, headed by Dr. F. Redding Hood of Oklahoma City, to "plan for an orderly withdrawal of physicians from civilian life." The Committee announced plans to survey the Association's 1,500 doctors to determine which can be best spared for military service. Members will be classified as to age, physical condition, past military record, dependency status, etc., as well as to their relative necessity to the area in which they practice. Later, the Association will "suggest" to selected doctors that they volunteer for military service. Meanwhile, the Committee will urge Oklahoma medical men to apply for military duty.

(3) The Oklahoma Physicians Veterans Association, a group of Oklahoma medical veterans, made no bones about its position in the call for medical officers. Said Dr. John A. Blue of Oklahoma City, spokesman for the group: "The great majority of reserve medical officers are willing to do their part when physicians of the same age and dependency status, who did not serve in the last war, join up."

(4) Department of Defense officials were conferring with Oklahoma State Medical Association officials during the week of July 24-30 for assistance of civilian doctors in examining inductees and

enlistees from the State. It was expected that regional induction stations will be set up as necessary.

(5) The University of Oklahoma School of Medicine was studying plans to keep a faculty adequate to train medical students.

Dr. Ralph A. McGill of Tulsa, President of the Oklahoma State Medical Association, said efforts were being made to avert the penalizing of undermanned areas in the State by withdrawing medical doctors from such areas. "We will seek to prevent doctors from being drawn from communities where they are essential and needed," Dr. McGill said. "Our object is to provide the best medical care possible for both the military and the civilian population."

DR. E. MALCOLM STOKES has been certified as a diplomate of the American Board of Obstetrics & Gynecology.

DR. HORACE H. PORTER has taken new professional quarters at 1419 East 15th Street, Tulsa.

DR. RAYMOND G. SHERWOOD has returned from a month's vacation in New England and Canada.

DR. HERBERT S. ORR has moved his professional offices to 1645 East 15th Street, Tulsa.

DR. D. M. MacDONALD has returned to the practice of obstetrics and gynecology in Tulsa after several years in Oregon. His offices are at 502 Medical Arts Building, Tulsa.

DR. BYRON L. BAILEY has completed his resident training at St. John's Hospital and is now associated with DR. ROBERT E. FUNK in the practice of Internal Medicine.

DR. JAMES STEVENSON has returned from a vacation in Colorado. Another Tulsa doctor enjoying the Colorado climate is DR. MABEL M. HART. During the absence of the latter her duties as Medical Director of the Tulsa County Red Cross Blood Center are being taken by DR. Elnora G. Miller.

The fishing in the Canadian Rockies is fine, reports DR. W. A. SHOWMAN after a recent vacation.

DR. RALPH A. MCGILL has been vacationing at Carmel, California.

News Briefs

A survey of child health in 24 counties of Eastern Oklahoma is now being conducted by a staff of five persons under the direction of Dr. Ira V. Hiscock, Director of Public Health Education at Yale University. Sponsored by the Tulsa Junior League and other organizations, the survey group will work for several weeks in quarters at the Tulsa City Health Department. Study has been endorsed by the Tulsa County Medical Society and Oklahoma State Medical Association . . . September will offer many events of interest to Tulsa doctors. The South Central Section of the American Urological Association will draw 350 midwestern urologists to Tulsa September 25-27. A two-state regional meeting of the American College of Physicians is scheduled for September 30 at The Mayo. The annual Cancer Symposium of the Oklahoma Division of the American Cancer Society will be in Tulsa September 29. The Oklahoma Society of X-Ray Technicians convenes for a two-day meeting in Tulsa next September 3-4. While exact dates are not yet set, the Oklahoma Tuberculosis Association will be in Tulsa in September. The Tulsa County Medical Society resumes its regular meetings on September 11 with Dr. Robert L. Anderson as speaker. On September 25, the Society will hear Dr. Harrison H. Shoulders of Nashville, Tennessee, nationally known surgeon and former President of the American Medical Association . . . Don't fail to hear the new radio series entitled "This Is Your Doctor", a project of the Public Policy Committee of the Tulsa County Medical Society. Sponsors of the 15-minute dramatizations, heard each Sunday at 9:45 P.M. over KTUL, are Getman Drug Store, Menkemeller's Drug Store, Medical Arts Prescription Shop, Curtain's Prescription Laboratories, Bob Evans Drug Store, Professional Drug Store, and the Tulsa County Medical Society. Many thanks to these sponsors for their interest and support . . . A check of Tulsa County Election Board records

indicates only eight members of the Tulsa County Medical Society are not registered to vote, excluding those not eligible by reason of residency requirements . . . The Tulsa County Medical Society has asked the Board of Commissioners of Tulsa County to make the office of County Physician full-time instead of its present half-time basis. Discussions on the proposal start this month . . . Participating Tulsa hospitals have agreed to continue the \$10.00 laboratory charge on each pint of blood supplied by the Tulsa County Red Cross Blood Center. The Center's old contract with the hospitals expired last July 1st. Due to the war situation and possibilities of rising hospital costs, the contracts will be reviewed quarterly instead of semi-annually as before. The hospitals have quietly borne the costs of bottles and tubing for several months without passing it along to the patient. A vote of thanks . . . From A. J. Lawrence, Tulsa Area Boy Scout official, comes a word of appreciation to the members of the Tulsa County Medical Society for their fine response to the appeal for vol-

With TRI-CALSATE there is no evolution of carbon dioxide during the reaction in the stomach, hence the distress from gastric distention and belching is eliminated. The possibility of alkalosis is minimized. It does not injure the kidneys. It is palatable and convenient to take.

Available on Rx in 4½ oz. and 18 oz. bottles. Write for trial package and literature.

unteer examiners at the Summer Scout Camp near Locust Grove . . . A gift of over \$300.00 from a civic group will purchase a 16 mm sound motion picture projector to be shared by the Tulsa County Medical Society and the Tulsa City Health Department. The equipment will permit more scientific motion pictures to be shown to the Society, and will be used by the Health Department in its public instruction program . . . In reply to many questions: The number of members of the Tulsa County Medical Society who entered the Armed Forces in World War II was 53. This includes only those in practice in Tulsa at the outbreak of the war in December, 1941. On the same basis, Tulsa would be expected to furnish 60 if a full-blown war occurs; however, in 1941 Tulsa's average age of physicians was much higher and it is conceivable that as many as 100 might be drawn from our present membership. Let's hope the necessity for this does not occur.

FOR SALE: One-fifteenth ownership and full membership in an exclusive hunting and fishing club 18 miles of downtown Tulsa on Highway 33. Good fishing, squirrel, duck, and bird hunting. Fine boating. Year around attraction for the entire family. Reasonable. Paul E. Craig, M. D., 413 Daniel Bldg., Tulsa. 4-4595 or 6-0479.

It's a boy, Bob Allen, for DR. and MRS. SAFETY R. FIRST, born May 25, 1950. Congratulations!

DR. DELMAS B. JONES was married last month to Miss Laura Green of Tulsa. The couple have returned from a wedding trip in the South. Congratulations!

DR. LEON H. STUART has returned home after several weeks in the East attending reunions of his high school and medical school classes in Pennsylvania and touring up and down the Coast.

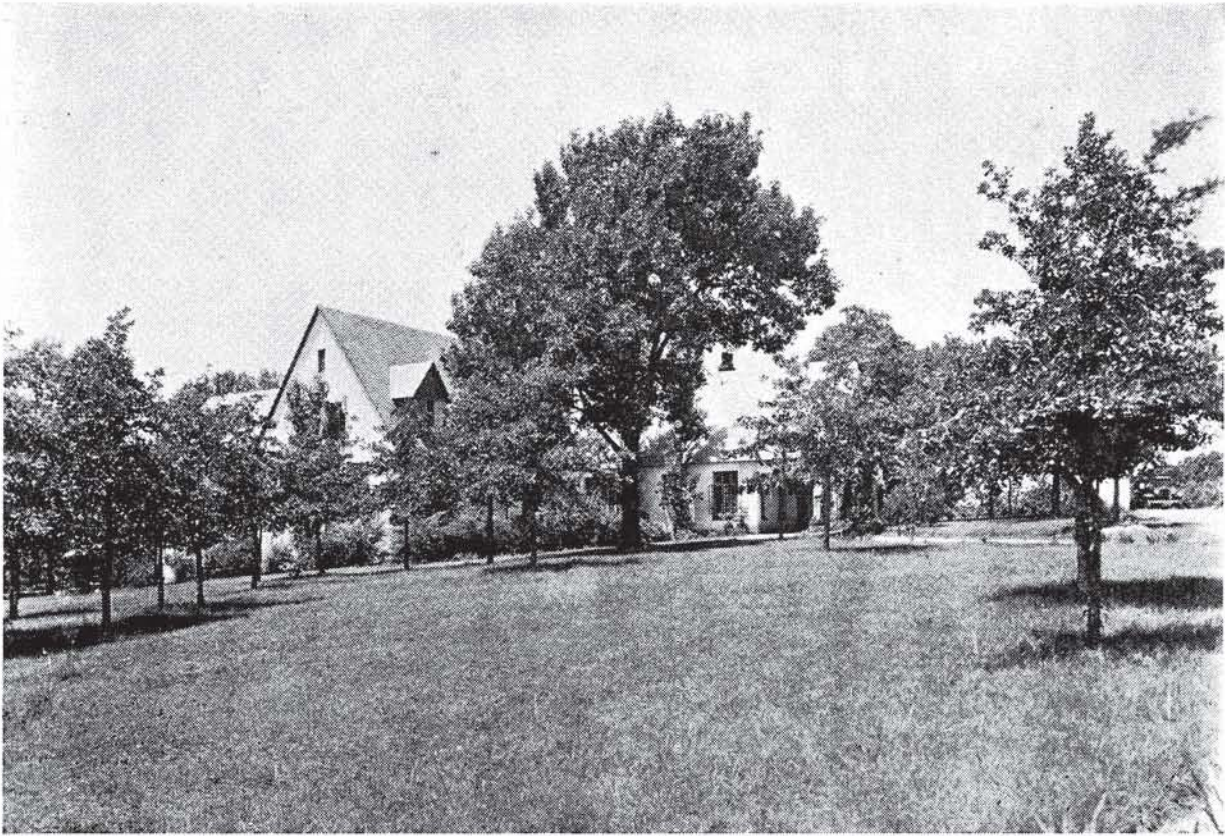

DR. WILLIAM H. HENDERSON has moved his professional offices to 1415 East 15th Street, Tulsa.

DR. ROBERT M. SHEPARD, JR. has taken offices at 902 Medical Arts Building, Tulsa, for the practice of Surgery.

DR. LEONARD KISHNER will be associated with DR. H. J. RUBIN in the practice of Pediatrics.

F. H. PAXTON & SONS, INC.

469 E. OHIO ST. Manufacturing Pharmaceutical Chemists CHICAGO 11, ILL.

Until 150 years ago—ice cream was considered a confection instead of a food.

Today—research shows that ice cream is high in calcium, and supplies significant amounts of other dietary essentials, especially protein, vitamin A, and riboflavin.
