# These are the VERSATILE "VI-SOLS"

## POLY-VI-SOL

Each 0.6 cc. supplies:

Vitamin A	5000 USP units
Vitamin D	1000 USP units
Ascorbic Acid	50.0 mg.
Thiamine	1.0 mg.
Riboflavin	0.8 mg.
Niacinamide	5.0 mg.

## TRI-VI-SOL

Each 0.6 cc. supplies:

Vitamin A	5000 USP units
Vitamin D	1000 USP units
Ascorbic Acid	50 mg.

## CE-VI-SOL

Each 0.5 cc. supplies:

Ascorbic Acid	50 mg.
---------------	--------

### *Flexible*

In the Vi-Sols the physician has *three* water-soluble liquid vitamin preparations from which to choose. Poly-Vi-Sol provides six essential vitamins, Tri-Vi-Sol vitamins A, D and C, and Ce-Vi-Sol vitamin C.

### *Pleasant-tasting*

The Vi-Sols are exceedingly palatable and make vitamin supplementation for both infants and children a pleasant experience.

### *Economical*

Highly concentrated, the Vi-Sols provide vitamin supplementation for infants and children at very low cost.

### *Convenient*

Supplied in 15 and 50 cc. bottles, each of the Vi-Sols is accompanied by an easy-to-read calibrated dropper to make administration easy and assure accurate dosage.

**MEAD JOHNSON & CO.**  
EVANSVILLE 21, IND., U. S. A.

Representative: Wm. M. Coulter, 1524 W. Pine, Wichita 3, Kansas, Telephone 2-1909

“Premarin”—a naturally occurring conjugated estrogen which has long been a choice of physicians treating the climacteric—is earning further clinical acclaim in the treatment of functional uterine bleeding.

The aim of estrogenic therapy in functional uterine bleeding is to bring about cessation of bleeding, and to produce subsequent regulation of the cycle. Once hemostasis is achieved, the maximum daily dosage of “Premarin” must be continued to prevent recurrence of bleeding. This schedule forms part of cyclic estrogen-progesterone treatment for attempted salvage of ovarian function.

While sodium estrone sulfate is the principal estrogen in “Premarin,” other equine estrogens...estradiol, equilin, equilenin, hippulin...are probably also present in varying amounts as water-soluble conjugates.

An “estrogen of choice  
for hemostasis  
is ‘Premarin’  
in tablets of 1.25 mg....  
The usual dose for  
hemostasis is 2 tablets  
three times a day.  
If bleeding has not  
decreased definitely by  
the third day of  
treatment the dosage  
level may be increased  
by 50 per cent.”\*

\*Fry, C. O.: J. Am. M. Women's A. 4:51  
(Feb.) 1949

## “PREMARIN”<sup>®</sup>

*Estrogenic Substances (water-soluble)  
also known as Conjugated Estrogens (equine)*

Four potencies of “Premarin” permit flexibility of dosage: 2.5 mg., 1.25 mg., 0.625 mg., and 0.3 mg. tablets; also in liquid form, 0.625 mg. in each 4 cc. (1 teaspoonful).

any form of epilepsy may now be treated  
safely with a single anticonvulsant

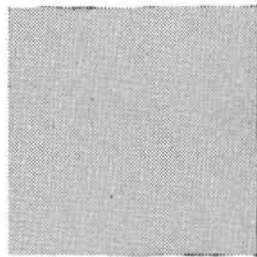

## THIANTOIN SODIUM

(PHETHENYLATE SODIUM, LILLY)

No longer is it necessary to run the risk of bringing a second type of seizure into prominence by the selection of a limited anticonvulsant.

'Thiantoin Sodium' is a more widely useful anti-epileptic and is far safer than related drugs of comparable potency. Many resistant cases are controlled with doses which have been elevated safely to levels that were previously unattainable.

Not only are there fewer side-effects, but there is often striking improvement of mental function in epileptic patients who receive 'Thiantoin Sodium.'

ELI LILLY AND COMPANY • INDIANAPOLIS 6, INDIANA, U.S.A.

Complete literature on 'Thiantoin Sodium' is available from your Lilly medical service representative or will be forwarded upon request.

TULSA, OKLAHOMA, SEPTEMBER, 1950

No. 9

## SEPTEMBER MONTH OF SPECIAL EVENTS

American College of Physicians, Urologists,  
 Tuberculosis Officials To Meet in Tulsa. Medical  
 Society Programs Resume September 11, 1950.

An unusual number of medical events are in store for Tulsa doctors during September including two regional meetings of national groups which are expected to bring physicians from a tri-state area to the City. Scheduled for the month are the following:

The South Central Section of the American Urological Association, September 24-27, with an estimated attendance of 300 urologists from a seven state area.

The Oklahoma-Arkansas Regional Meeting of the American College of Physicians in Tulsa, September 30, with prospects for an attendance of 250 members and guests.

The 1950 Annual Cancer Symposium of the Oklahoma Division of the American Cancer Society, September 29.

The annual meeting of the Oklahoma Tuberculosis Association, September 28-29.

Resumption of regular twice-monthly meetings of the Tulsa County Medical Society on Monday, September 11, with Dr. Robert L. Anderson of Tulsa as speaker. On Monday, September 25, the Society will be host to Dr. Edward F. Rosenberg, nationally known medical scientist for his studies in ACTH and Cortisone.

A one-day meeting to acquaint Tulsa doctors with the basic medicine of atomic warfare, to be held under the sponsorship of the Oklahoma State Medical Association on a mid-September date as yet unscheduled.

The annual meeting of the Oklahoma Society of Medical Technologists, Sep-

tember 3-4.

The South Central Section of the American Urological Association will meet on the 16th floor of The Mayo for a program including four days of scientific lectures by members of the Association and other guests, social events, scientific and commercial exhibits, motion pictures, and golfing. Dr. E. H. Fite of Muskogee is President of the Section. All arrangements for the event have been handled by the Tulsa Urological Society with the following doctors participating as chairmen of special committees: Dr. Joseph Fulcher, Dr. Henry S. Browne, Dr. K. F. Swanson, Dr. Howard M. Cohenour, Dr. J. W. Rogers, Dr. Berget H. Blocksom, Dr. E. N. Lubin, Dr. Jack O. Akins, Dr. Maxwell A. Johnson, and Dr. Charles A. Hulse.

The one-day meeting of the Arkansas and Oklahoma members of the American College of Physicians will be September 30th at The Mayo. Scientific sections will meet in The Ivory Room and the concluding banquet will be in the Emerald Room. Details of the program are to be found elsewhere in this issue of The Bulletin. All doctors are invited to attend. A registration fee will be charged. Dr. E. G. Hyatt of Tulsa is in charge of arrangements.

The Program Committee has announced that Dr. Edward F. Rosenberg, Chicago internist, will be guest speaker for the Tulsa County Medical Society meeting of Monday, September 25, 1950. His subject will be "The Clinical Aspects of ACTH." One of several physicians credited with research studies in ACTH

therapy, Dr. Rosenberg is a graduate of Jefferson Medical College, Philadelphia, Class of 1934. He interned at St. Luke's Hospital of Bethlehem, Pennsylvania, and subsequently served a fellowship in medicine at the Mayo Clinic Foundation of Rochester, Minnesota. Later he was affiliated with the Department of Pathology of Mayo Clinic, and since 1938 has been in practice in Chicago, Illinois. He is presently Chairman of the Arthritis Clinic of the Department of Medicine at Michael Reese Hospital of Chicago. During World War II he served in the Medical Corps with the rank of Major. Dr. Rosenberg is a fellow of the American College of Physicians, member of numerous

medical organizations including the American Rheumatism Association, of which he is Vice-President. He is also a diplomate of the American Board of Internal Medicine.

The Tulsa County Medical Society meeting of Monday, September 25th, will be preceded by the regular monthly buffet dinner in the Terrace Room of The Mayo. Reservations should be in by Noon of that day. The price will be \$4.00 per person with an attractive and appetizing menu of meats, breads, vegetables, salads, and dessert. Dinner will be at 6:30 P.M., the program at 8:00 P.M.

The Tulsa County Medical Society will

## AMERICAN COLLEGE OF PHYSICIANS REGIONAL MEETING — SEPTEMBER 30, 1950

Registration, North Mezzanine, The Mayo, 9:00 A.M.

9:45 A.M. Address of Welcome. Dr. E. G. Hyatt, Tulsa, Presiding.

10:00 A.M. "Recent Advances In The Diagnosis and Treatment of Cerebral Vascular Disease." Dr. R. E. Carpenter, Oklahoma City.

10:15 A.M. "Relationship of Vitamins to Disease." Mr. Paul Day, Professor of Chemistry, University of Arkansas School of Medicine, Little Rock, Arkansas. (By Invitation).

10:30 A.M. "Anterior Pituitary Insufficiency." Dr. Paul T. Strong, Tulsa.

10:45 A.M. "Pulmonary Emphysema; A Diagnostic and Therapeutic Problem." Dr. John J. Donnell, Oklahoma City.

1:00 A.M. "What's New In Medicine." Dr. Howard C. Coggeshall, Dallas, Texas, and Dr. Arthur A. Hellbaum, Professor of Pharmacology, University of Oklahoma School of Medicine, Oklahoma City. (By Invitation).

11:45 A.M. Intermission.

12:00 Noon. Panel on Gastro-Intestinal Diseases. Dr. Wann Langston, Oklahoma City, Moderator; Dr. Walter L. Palmer, Chicago, Illinois; Dr. Jerome S. Levy, Little Rock, Arkansas; Dr. S. C. Shepard, Tulsa; Dr. Harry A. Daniels, Oklahoma City.

1:00 P.M. Luncheon.

Afternoon Session. Dr. A. A. Blair,

Fort Smith, Arkansas, Presiding Officer.

2:00 P.M. "Steroids Other Than ACTH and Cortisone in the Treatment of Rheumatoid Arthritis." Dr. Ralph L. Patterson, Colonel, U. S. Army, Army & Navy Hospital, Hot Springs, Arkansas. (By Invitation).

2:15 P.M. "Diseases of the Esophagus." Dr. Bert E. Mulvey, Oklahoma City.

2:30 P.M. "Pulmonary Silicosis." Dr. Henry A. Brocksmith, Tulsa. (By Invitation).

2:45 P.M. "Role of Potassium in the Body." Dr. John B. Morey, Ada.

3:00 P.M. An Address by Dr. Walter L. Palmer, Chairman of the Board of Governors, American College of Physicians, Chicago, Illinois.

3:30 P.M. Intermission.

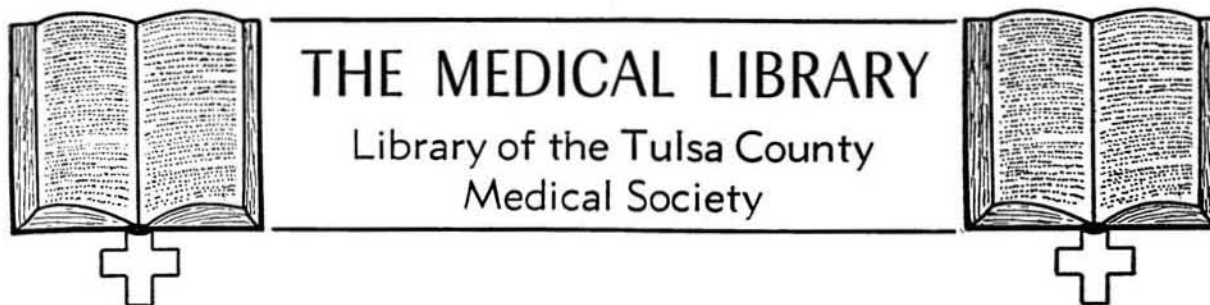

3:45 P.M. "Modern Concepts of Hepatitis in Cirrhosis." Dr. Alfred Kahn, Little Rock, Arkansas.

4:00 P.M. Clinical Pathological Conference. Dr. Robert H. Bayley, Oklahoma City, Oklahoma; Dr. Leo Lowbeer, Tulsa. (By Invitation).

7:00 P.M. Social Hour, Open Parlors, The Mayo.

8:00 P.M. Informal Dinner. Guest Speakers: Mr. E. R. Loveland, Executive Secretary, American College of Physicians, Philadelphia, Pa.; Dr. Walter L. Palmer, Chicago, Ill.

Bailey, Hamilton, F.R.C.S. (Eng.) assisted by Matheson, Norman M., F.R.C.S. (Eng.). **Emergency Surgery.** Part Three, 6th Edition, Williams & Wilkins Company, Baltimore, Maryland, 1950, pp. 556, illustrated, bibliography.

**RECENT PUBLICATIONS BY MEMBERS OF THE TULSA COUNTY MEDICAL SOCIETY—:**

Dr. Safety R. First, et al. Peri-infarction Block: Electrocardiographic Abnormality Occasionally Resembling Bundle Branch Block and Local Ventricular Block of Other Types. *Circulation*, 2:31-36 (July), 1950.

Dr. Vincel Sundgren. Developments in Treatment of Macrocytic Hyperchronic Anemias. *Journal of the Oklahoma State Medical Association*, 43:356-358 (August), 1950.

One of the more unusual volumes in The Medical Library is **The Ciba Collection of Medical Illustrations**, a beautifully prepared and printed compilation of pathological and anatomical paintings by Dr. Frank H. Netter. All of the several hundred illustrations are in color, a costly undertaking made possible by the Ciba Pharmaceutical Laboratories of Summit, New Jersey. Prepared in painstaking detail, the paintings are accompanied by a concise text written by seven nationally known medical doctors. The book should be invaluable to the busy practitioner and the undergraduate student.

## CREDIT BUREAU COLLECTIONS RISE

**First Twelve Months Since Reorganization Show Record \$25,000. List of Clients Reaches 118 Tulsa Doctors and Dentists.**

The Medical Credit Bureau, official collection department of the Tulsa County Medical Society, will record collections in excess of \$25,000 for the twelve months ending September 1, 1950, a report of the Bureau's supervisory committee indicates. With the Bureau's list of clients extended to 118 doctors and dentists, total 1950 collections may top \$30,000.

On September 1, 1950, the Medical Credit Bureau will mark the completion of the first year since its reorganization a year ago. Prior to that time, the Bureau was operated with the same personnel as staffed the Executive Offices of the Tulsa County Medical Society. With the employment of an experienced full-time Bureau manager and collection staff, the Executive Offices personnel were freed for other duties in connection with the Society.

"We are very pleased at the results which have been obtained by the Medical Credit Bureau in the past twelve months," said Dr. Paul Grosshart, Chairman of the Medical Credit Bureau Committee. "With an excellent response and support from the membership, the Bureau should make further progress during the next year. The results which have been obtained by this reorganization should encourage a 100 per cent support of the Bureau by the members of the Society."

A memorandum issued by the Bureau last month detailed ways and means by which doctor-clients can facilitate the collection of accounts referred to the Bureau. Some of these methods and points include the following:

1. Clients are asked not to make settlements with patients until first checking with the Bureau. While doctors have the privilege of making such settlements as they wish, the Bureau may have previously negotiated a more advantageous agreement. Patients sometimes seek to circumvent the Bureau by direct contacts. A call to your Bureau will give you reliable information about the progress of the ac-

count.

2. Please be careful in giving receipts marked "Paid In Full" for money paid directly at your office. If these are accounts upon which legal suit has been filed, court costs may have been assessed against the account. As no suits are filed without the permission of the doctor, each client should know which suits are in legal process. Again, a telephone call to the Bureau can clarify the status of any account.

3. Payments made directly to the doctor's office should be reported by telephone to the Bureau at once. If such payments are not reported, the Bureau may embarrass both itself and the doctor by further collection efforts on paid accounts. Collection fees on such payments are deducted from the net amount due the client and appear on monthly statements.

4. Some doctors have asked if collection costs—the fees charged by the Bureau, for its services—can be added to the face of the account. It has been established by legal precedent that such costs cannot be added; they are legally an expense of the doctor. Accounts which have been so elevated in amount cannot be handled by the Bureau under the rules of the supervisory Committee. Clients should note however that collection fees are a legitimate expense for deduction for income tax purposes.

5. Carelessness in the doctor's office in securing the correctly spelled name of the patient, residential address, place of employment, and the name of the person responsible for the account accounts for much unnecessary loss. Accounts bearing too little information may be permanently lost. While the Bureau is able to trace many such accounts, some are lost for want of sufficient leads.

6. By all means, post the payments from the Bureau's monthly statements to the office records. See that each patient-debtor is credited with the amount of his payment. Do not subtract the amount of the collection fee.

# Nupercainal Ointment

for prompt and prolonged relief of  
local pain and itching

NUPERCAINAL OINTMENT is indicated  
in Hemorrhoids, Anal Fissures, Pruritus Ani,  
Pruritus Vulvae, Fissured Nipples,  
Burns, Intertrigo, Decubitus, and Nasal Furuncles.

NUPERCAINAL OINTMENT contains 1% Nupercaine  
(dibucaine) in a base of lanolin and  
petrolatum available in 1 oz. tubes with  
applicator and 1 lb. jars.

**Ciba** PHARMACEUTICAL PRODUCTS, INC., SUMMIT, NEW JERSEY  
NUPERCAINAL® NUPERCINE® (brand of dibucaine) 2/1564M

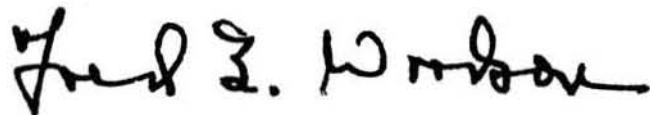

# PRESIDENT'S PAGE

The 1950 annual meeting of the Southern Medical Association will be held in St. Louis this Fall, November 13th to 16th. The Association has met several times in this city, always enjoying a very successful convention. Due to improved transportation facilities, the 1950 meeting is the first to take advantage of the ease with which doctors may now travel to St. Louis. It is only a comfortable night's ride from Tulsa and the surrounding area, and you can arrive early enough to secure your hotel accommodations and attend the first sessions. It thus becomes profitable to attend for only a day or for the entire meeting. The scientific program is shaping up and it is anticipated that the Fall meeting will be the most successful that the SMA has yet experienced.

Sufficient hotel rooms have been guaranteed to assure first class accommodations, although early reservations are advised through the Hotels Committee.

For several years I have been privileged to attend these annual meetings and to serve as a committee member and more recently, as Councilor from Oklahoma. It is my desire to render to the doctors of Oklahoma the best possible service that can be had at this great friendly meeting. You will meet a number of old friends, classmates, and make new worthwhile acquaintances. May I urge you now to put this meeting on your agenda. I look forward to see you in St. Louis, and if I can help you with reservations or with other information, please call on me.

Sincerely,

President

---

**A SERIOUS CHALLENGE**

Food, clothing, and shelter have long been regarded as the three essentials of life. These three items in any well ordered system of personal economics have first priorities on the family income. Without them in adequate amounts the basic well-being of the individual suffers. The determination of item number four is generally more difficult and there appears to be no well defined guide to it. A sampling of ten men in the street is likely to produce ten different answers. The automobile and its upkeep is probably the most likely candidate in this mechanical age. Many will name as number four some form of insurance or other protection against the uncertainties of the future. Labor-saving devices are always a popular item on which to spend money, usually money most of us do not have beyond the "small down payment." Some people we know think that Keeping Up With The Joneses ranks along with food, clothing, and shelter. And there are many proponents of pure old frivolous frittering away of money. Somewhere well down on the list of the average healthy American is to be found medical care. It usually occupies the slot immediately preceding the suggestion that we voluntarily increase taxes and pay off the huge national debt.

As doctors we are naturally prejudiced,

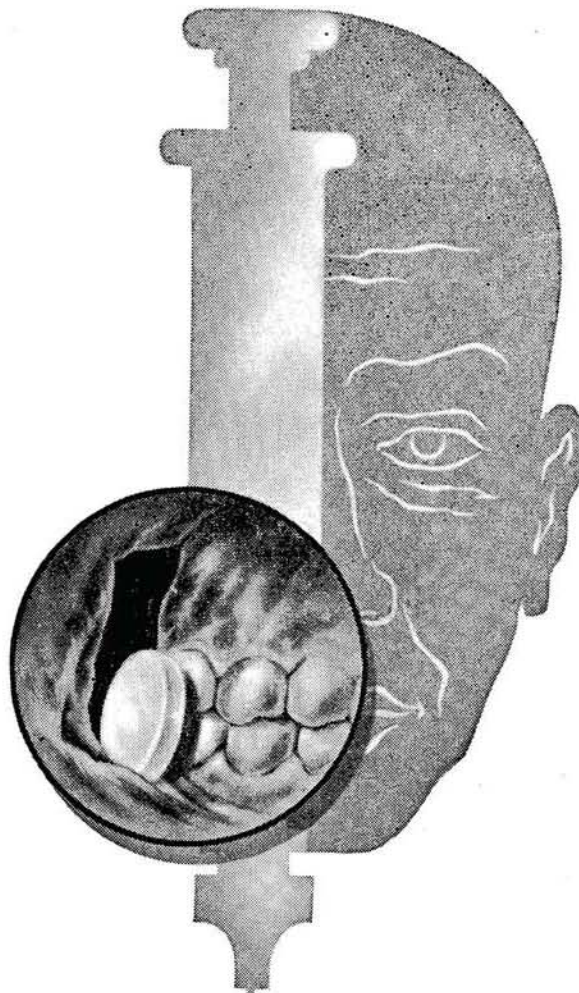

but it does seem that the most elemental common sense would place medical care in the same category as the three essentials of food, clothing, and shelter. Without competent medical care we cannot expect to attain a full measure of profitable living, and most of us would lie in an early grave if it were not for medical care. Yet, in our budgets it occupies an insignificant position if at all. According to the United States Department of Commerce Americans spend about \$395,000,000 for health and accident insurance; this is only a fraction of the estimated seven and one half billion dollars which is annually spent by American families from their incomes for personal medical and health services. In turn, this huge sum is only a fraction which the American People annually spend for such items as liquor, tobacco, cosmetics, and other types of non-essential consumer goods. As a matter of fact, our bill for health and accident insurance is equal to the sum expended each year for such essential—but often over-lavish—items as tombstones, monuments, and other burial services.

As we see it, the whole thing boils down to this: most Americans are not placing a proper value on medical care. Where prepaid medical and hospital insurance, or budgeted allowances for such services, should come in immediate order after food, clothing, and shelter, it is frequently relegated to last place or left entirely out of the budget. Small wonder, then, that medical care—the quality of which is demanded to be the best possible available—becomes a sudden burden in times of catastrophic illness. Even our social agencies tend to share this view with the result that doctors are contributing annually thousands of dollars worth of free medical care to the indigent sick.

It will not be an easy task to establish medical care in its proper niche in our economic order. Expenditures of this type are going to be resented as long as they interfere with the purchase of other items which the public considers so necessary. As long as this state of thinking prevails, so long will the American Public give

# ORAL ANDROGEN THERAPY

... via Nature's Hypodermic

*"Convenience at practically no sacrifice in effectiveness" sums up the many advantages of oral androgen therapy with "nature's hypodermic" . . . mucosal absorption. Mucosal administration of VANTOSTOL-M BUCCAL TABLETS (methyl testosterone) is highly acceptable to most patients because this form of therapy is easily administered, convenient—and eliminates the fear of injection—ideal for supplemental therapy too.*

VANTOSTOL-M BUCCAL TABLETS have the same indications in both male and female as parenteral testosterone, and are especially useful when moderate dosage is adequate for control and maintenance.

VANPELT & BROWN, Inc., Richmond, Virginia

VANTOSTOL (testosterone) crystalline is also available in the following dosage forms in multiple dose vials.

10 cc.—in aqueous suspension, 10 mg. per cc.

10 cc.—in aqueous suspension, 25 mg. per cc.

10 cc.—in vegetable oil, 10 mg. per cc.

VANTOSTOL-P in vegetable oil—10 cc.

(25 mg. testosterone propionate per cc.)

**DOSAGE:**

Five to 20 mg. in divided daily doses.

**SUPPLIED:**

Buccal Tablets (5 mg. methyl testosterone). Buccal Tablets (10 mg. methyl testosterone). Both supplied in bottles of 30 and 100.

## MEDICAL MILITARY PICTURE DARK

**Oklahoma Reserve Officers Face Call To Active Duty. Pending Congressional Legislation Advocates Enforced Draft Of Medical Talent.**

American Medicine had begun to gear itself for serious participation in the three months old Korean War as this issue of The Bulletin went to press. Familiar scenes of World War II were being relived by the nation's doctors as prospects of a full-scale struggle grew day by day.

On August 11, 1950, the Army announced plans to call up 734 reserve medical officers, 92 veterinary corps officers, and 343 reserve dentists. Additionally, some 455 medical service corps reserve officers will receive their calls. All groups are expected to be on active duty by October 1, 1950.

In Oklahoma it was expected that some fourteen of the State's Army reserve medical officers would be called to duty at once. Particular reserve officers will be called up in accordance with the Army's need for certain specified skills. Consideration is to be given to insure a fair and equitable distribution of call-up officers. Efforts will be made to avoid penalizing any areas where shortages of physicians occur, and consideration will be given to the extent of past military service of each reserve officer before call-up orders are issued. It is understood unofficially that the Army will require a sizeable number of psychiatrists, pathologists, and orthopedic surgeons. It is problematical how many of Tulsa's fifteen Army reserves would receive orders but estimates were for approximately three.

In Washington, two bills introduced into the National Congress, each providing for a draft of professional talent as needed by the Armed Forces. These bills (H.R. 9311 and H.R. 9294) each permit doctors to be drafted up to the age of 45 years. The first to be called are specifically set forth as former ASTP and V-12 men educated wholly or partially at government expense. This is in accordance with recommendations of the American Medical Association's Council on National Emergency Medical Service, and it is expected that the bills will bear the en-

dorsement of the Department of Defense. Hearings are being conducted on the bill as this issue of The Bulletin goes to press. It is uncertain how long Congressional red tape may delay a vote upon the proposal, but some estimates were for 30 to 120 days. Meanwhile, Selective Service will have no call upon doctors except those under the age of 25.

Army Air Forces reserve medical officers may also face a call to active duty although no information has been received to this effect. With all Navy medical officers members of the reserve, the Navy can call large numbers of former officers to immediate active duty. There has been no indications of action to this effect up to presstime in late August.

Meanwhile, in Oklahoma a survey of the State's 1,500 doctors was nearing completion by the Military Service Committee of the Oklahoma State Medical Association. Designed as a fact-finding survey, it is hampered by missing questionnaires from a sizeable number of Oklahoma doctors. Some 40 Tulsa County physicians who have not returned the questionnaire are urged to do so at once; duplicate forms are available in the Executive Offices of the Tulsa County Medical Society and may be secured upon request.

At the request of the Oklahoma State Medical Association, a local advisory military committee is being set up in each component county medical society. In Tulsa, the Board of Trustees of the Tulsa County Medical Society has named the following physicians to a Military Affairs Committee: Dr. Jack O. Akins, Dr. Henry S. Browne, Dr. Samuel J. Bradfield, Dr. D. L. Edwards, Dr. James Stevenson, and Dr. John E. McDonald. Dr. J. D. Shipp and Dr. W. D. Hoover, members of the State Association's Military Service Committee, will be advisory members.

Sentiment among physicians over the nation continued to point up demands for

Cancer Symposium, "Gynecological Cancer," Ivory Room, The Mayo, 4:00 P.M. For details see Pages 7-8 of this issue of The Bulletin.

### **SATURDAY, September 30th:**

Oklahoma-Arkansas Regional Meeting, American College of Physicians, Ivory Room, The Mayo, 10:00 A.M. For details see Page Eight.

**UNTIL her physician can observe and treat her symptoms, many a woman, even today, faces the failing fires of the menopause with confusion . . .**

Physicians who are no longer satisfied with the limited action of replacement therapy alone, are electing to use a **MORE COMPREHENSIVE TREATMENT** for menopausal disturbances. Specifically designed for this purpose, Tablet Phen-Orivan, Dorsey provides, in addition to estrogenic substances:

*Thyroid to stimulate metabolism and promote a feeling of well being; phenobarbital and hyoscyamus to hasten relief by sedative and antispasmodic action.*

To treat the entire symptom complex, and to avoid a tendency to overtreat which may prolong the menopausal syndrome, Tablet Phen-Orivan is proving an extremely useful aid to therapy. Have you prescribed it?

**EACH TABLET PHEN-ORIVAN, DORSEY CONTAINS:**

- Phenobarbital..... ¼ gr.
- Thyroid ..... ⅛ gr.
- Ext. Hyoscyamus..... ⅛ gr.
- Estrogenic substances from pregnant mares' urine, in their naturally occurring, water-soluble, conjugated form, expressed as sodium estrone sulfate..... 0.25 mg.

**MANY SEPTEMBER EVENTS***(Continued From Page 8)*

open its Fall schedule of meetings on Monday, September 11, 1950, at 8:00 P.M., when Dr. Robert L. Anderson, Tulsa thoracic Surgeon, will discuss "The Surgical Treatment of Cardiac Anomalies." A graduate of the University of Kansas School of Medicine, Class of 1942, Dr. Anderson was formerly a member of the faculty of Ohio State University School of Medicine before coming here to practice in 1948. There will be a brief business meeting following the scientific portions of the meeting. The meeting will be in the Ivory Room of The Mayo.

The annual one-day Cancer Symposi-ums, sponsored by the Oklahoma Division of the American Cancer Society, will again be held in ten centers throughout the State during the week of September 25-29. The Tulsa meeting will be on Friday, September 29, 1950, in the Ivory Room of The Mayo. The subject this year is "Gynecological Malignancies." Speakers for the session include:

**John A. Wall, M.D.**, Associate Professor of Clinical Gynecology, University of Texas School of Medicine, Houston, Texas. Subject: "Malignancies of the Adnexa."

**Joshua W. Davies, M.D.**, Associate Surgeon, Woman's Hospital, New York, N. Y. Subject: "Malignancies of the Uterus."

**J. R. Maxfield, Jr., M.D.**, Clinical Professor of Radiology, Baylor University Medical School, Southwestern Medical Foundation, Dallas, Texas. Subject: "X-Ray and Radium Therapy in Gynecology."

Further details of the Symposium will be announced later. The Cancer Committee of the Tulsa County Medical Society is in charge of local arrangements. Similar symposia will be held in other Oklahoma cities as follows: September 25th, Lawton and Ada; September 26th, Oklahoma City and Durant; September 27th, Clinton and McAlester; September 28th, Woodward and Muskogee; September 29th, Tulsa and Enid.

The annual meeting of the Oklahoma Tuberculosis Association is expected to draw 200 doctors and other persons interested in the control and treatment of tuberculosis. The sessions will be at Hotel Tulsa. Dr. L. J. Moorman, Oklahoma City, will be guest speaker at the group's annual banquet on the evening of September 28, 1950.

The schedule of scientific programs for the balance of 1950 has been announced for the Tulsa County Medical Society by Dr. Berget H. Blocksom, Chairman of the Program Committee. On October 9th, the Society will be dinner guests of Blue Cross-Blue Shield of Oklahoma at the Company's offices at 315 South Denver, Tulsa. Afterwards, the Society will meet at The Mayo to hear a paper by Dr. A. B. Carney. On October 23rd, Dr. Charles E. Dunlap, Tulane pathologist, will speak on the subject, "The Diagnostic Value of Biopsies." On November 13th, the Oklahoma State Vocational Rehabilitation Service will present a special program.

Details of the atomic medicine conference had not been finalized as this issue of The Bulletin went to press.

## **CONVALESCENT HOSPITAL FOR CHILDREN**

4900 South Lewis Road

Telephone 7-3311

# ULCER THERAPY

Rx Milk and Cream ..... 90 cc

Tri-Calsate ..... 2 to 4 grams

**Stir and drink slowly**

*The combination supplies both  
neutralizer and nutriment.*

TRI-CALSATE does not make the stomach contents alkaline, and its citrate content acts to break down the large curds, making the milk more easily digested and affording greater combining surface to the gastric Hcl.

Approx. percentage composition when  
in aqueous suspension:

Tri-calcium phosphate U.S.P. ....	35.5
Tri-sodium phosphate crystals ....	12.5
(arsenic free)	
Sodium citrate crystals .....	52.0
	100.0

With TRI-CALSATE there is no evolution of carbon dioxide during the reaction in the stomach, hence the distress from gastric distention and belching is eliminated. The possibility of alkalosis is minimized. It does not injure the kidneys. It is palatable and convenient to take.

*Available on Rx in 4½ oz. and 18 oz. bottles. Write for trial package and literature.*

## MEDICAL MOTION PICTURES TO BE SHOWN EACH WEEK

Beginning Wednesday, September 13, 1950, the Library of the Tulsa County Medical Society will hold weekly showings of medical motion pictures. The screenings will be in the main reading room of the Library, 1203 Medical Arts Building, and will begin promptly at 3:00 P.M. The time of the showings may be changed later if another hour proves to be more desirable.

The films will be shown on a new 16 mm sound motion picture projector recently given to the Society. Most of the films are in color and some are in sound. The schedule of showings for September is as follows:

September 13, 1950. "Pancreato-Duodenal Resection." For carcinoma of the head of the pancreas or carcinoma of ampulla of Vater. By Dr. Richard B. Cattell, Lahey Clinic, Boston, Massachusetts, 1946. Running Time, 45 Minutes.

September 20, 1950. "Subtotal Gastrectomy." For perforating duodenal ulcer with antero-colic anastomosis. By the Lahey Clinic, Boston, 1941. Running time 25 Minutes.

September 27, 1950. "Segmental Pulmonary Resection." For multilobar bronchiectasis. By Dr. Richard H. Overholt and associates, Boston, 1948. Running Time, 34 Minutes.

The showings are open only to members of the Society and their guests. Doctors are invited to suggest topics for other film showings. If the showings prove popular, they will continue indefinitely.

DR. E. W. REYNOLDS has taken new professional offices at 1307 South Main Street, Tulsa.

DR. E. MALCOLM STOKES and DR. WILLIAM H. HENDERSON are officing temporarily at the Oklahoma Natural Gas Building while their quarters at 1415 East 15th Street are being remodeled.

As this issue of The Bulletin went to press, DR. RUSSELL C. PIGFORD was seriously ill at St. John's Hospital.

DR. THEODORE S. WILLIAMS is recuperating from a broken hip.

## A BIG TIME-SAVER FOR EVERY DOCTOR

This handy booklet for new mothers was "built to doctors' orders". It contains blank forms for filling in your instructions and formulas.

It provides a permanent case-history record. A memo will bring you a sample...or as many as you want for your daily practice... without obligation.

Many doctors are prescribing "Daricraft Homogenized Evaporated Milk". It is always uniform, safe, sterilized, easy to digest, and high in food value and minerals. Daricraft contains 400 U. S. P. units of Vitamin D per pint.

PRODUCERS CREAMERY CO., SPRINGFIELD, MO.

## AMA SCHEDULES HUGE NEWSPAPER-RADIO CAMPAIGN

The American Medical Association will conduct an intensive campaign against socialized medicine during the first two weeks of October, 1950, utilizing 1,200 radio stations, 11,000 newspapers, and dozens of popular magazines. The "one-shot" campaign, subject of some criticism within medical circles, will utilize both Tulsa daily newspapers and a Tulsa radio station yet to be named.

The advertising budget for the campaign totals \$1,110,000, with \$560,000 allocated to newspapers, \$300,000 to radio, and \$250,000 to national magazines. It is estimated that the newspaper and magazine media have in excess of 94 million readers. Stress will be laid upon the desirability of voluntary health insurance for the public.

The campaign is financed by the annual dues to the American Medical Association, now levied on 144,500 American doctors. It represents a vital part of the 1950 program of the National Education Campaign of the AMA, which in the past two years has emphasized literature and other types of media.

### EDITORIAL

(Continued From Page 14)

serious thought to proposals of socialized medicine. When, through proper public education and a correction of abuses within the profession, it becomes possible to accredit medical care as a basic necessity, only then will Americans be freed of the lure of "free" medical care purveyed by the ambitious politician.

It is a serious challenge!

DR. LOUISE WILCOX has taken new professional quarters at 1645 East 15th Street, Tulsa, for general practice.

DR. H. B. STEWART has been elected Chairman of the Section on Anesthesiology of the American Medical Association.

Its twin boys for DR. and MRS. SIMON POLLACK, born August 18, 1950, at St. John's Hospital. Congratulations!

DR. ROBERT E. FUNK has returned from a week's vacation at Winnipeg, Canada.

utilization of doctors who did not serve in World War II or who were educated at government expense prior to calling up other classifications of veterans. The American Medical Association has already affirmed its support of such a policy. For reasons of expediency, however, it was doubtful that the Army could wait for necessary enabling legislation. Active and inactive reserves were expected to face more or less immediate calls for active duty.

DR. MORRIS B. LHEVINE is on a six-weeks tour of Europe.
