For new variety in flavor. . . for wider clinical usefulness

The PABLUM family now includes 4 precooked infant cereals

Now under the one trusted name PABLUM® you may prescribe four precooked infant cereals.

The original Pablum, world's first precooked enriched cereal, is now PABLUM MIXED CEREAL. Pabena® is now PABLUM OATMEAL. And two new Pablum cereals are available—PABLUM RICE CEREAL and PABLUM BARLEY CEREAL.

A new manufacturing process brings out the full, rich flavor of all the Pablum cereals.

New packages, designed for superior protection, safeguard flavor and freshness. Only Pablum cereals have the new "Handy-Pour" spout that opens and closes with a flick of the finger.

Pablum Oatmeal, Rice and Barley cereals provide welcome variety of flavor and are indicated when physicians prefer a single grain cereal.

If allergies are involved, Pablum Rice Cereal is especially valuable for patients of any age.

Behind all four Pablum Cereals are the experience and the reputation of Mead Johnson & Company, for almost half a century pioneers in nutritional research.

MEAD JOHNSON & CO. EVANSVILLE 21. IND., U. S. A.

CARBO-RESIN

(SODIUM REMOVING RESINS, LILLY)

begins a new era of edema control

Ordinary table salt, so necessary to the acceptability of food, may now be permitted more liberally to patients with acute congestive heart failure and to others whose retention of sodium is excessive.

The two cation exchange resins in 'Carbo-Resin' capture and effectively remove undesired sodium. One of them also prevents the depletion of potassium by making a supply available for absorption. An additional ingredient, a special anion exchange resin, helps the other resins to remove more sodium. Moreover, it is especially important because it lessens the hazard of acidosis that may occur when cation resins are used alone.

Edema may be controlled by 'Carbo-Resin' with only moderate restriction of sodium. This new regimen makes it possible for injections of diuretics to be given less frequently or often eliminated. In those cases in which mercurials are contraindicated, 'Carbo-Resin' can provide an alternate treatment.

Details on dosage and other important information on 'Carbo-Resin may be obtained from your Lilly medical service representative or by writing to

ADA UROLOGIST TO HEAD STATE GROUP

Success Of Annual Meeting Of Oklahoma State Medical Association Noted By House Of Delegates. Dues For 1952 Again Fixed At \$42.00.

Dr. Alfred R. Sugg, Ada urologist and prominent leader in Oklahoma medical circles, was named President-Elect of the Oklahoma State Medical Association at the organization's annual meeting in Tulsa last May 20-23. He will serve as President in 1952-53, succeeding Dr. L. Chester McHenry of Oklahoma City.

Other officers named by the House of Delegates include Dr. Allen G. Gibbs, Oklahoma City, Vice-President; Dr. John F. Burton, Oklahoma City, reelected as Delegate to the American Medical Association; and Dr. Clinton Gallaher, Shawnee, Speaker of the House of Delegates. The Tulsa County delegation renamed Dr. Victor K. Allen as Councilor from the Eighth District (comprising Tulsa County only) with Dr. John E. McDonald as Vice-Councilor. Nominated as Vice-President, Dr. Allen withdrew from consideration because of other professional responsibilities.

Dr. Sugg's election came as part of the 58th Annual Meeting of the Oklahoma State Medical Association in Tulsa at The Mayo. A record attendance of 905 gave the convention the greatest number of visitors in Association history. Dr. Robert E. Funk of Tulsa, General Chairman, attributed part of the record registration to a splendid scientific program sparked by a panel of distinguished visiting guest speakers and partly to a program of social events. Highlighting the latter was the President's Annual Dinner Dance featuring Dr. R. B. Robins of Camden, Arkansas, Vice-President of the American Medical Association, as speaker, and dancing

to the music of Dick Jurgens and His Orchestra. This event was attended by 413 persons.

In a comparatively quiet session of the House of Delegates, most business was routine and uneventful. Following an executive session of the House, it was announced to the press that the Association would seek a tightening of medical licensure laws to require a basic science certificate of all medical doctors and osteopaths entering the State by reciprocity. A standard examination in the basic sciences would be given by a single examining board. The plan would require sanction of the Oklahoma State Legislature at its next session in 1953. Proponents of the plan pointed out that a similar system is now in operation in many states.

Delegates voted down a recommendation of the Council that two sessions of the House be held each year. Annual membership dues in the Oklahoma State Medical Association for 1952 were again fixed at \$42.00. To this sum must be added, under requirements of the By-Laws, the amount of the annual dues to the American Medical Association. The latter were fixed by the AMA House of Delegates at its annual meeting at Atlantic City on June 11, but this information was not available at the early press deadline of this issue of The Bulletin. AMA dues were expected to be continued at the constitutional limitation of \$25.00 per year.

The House also commended the work (Continued On Page 20)

PRESIDENT'S PAGE

I am pleased to note a growing sympathy among Oklahoma doctors for the purposes and efforts of the Grievances Committee of the Oklahoma State Medical Association, and I believe this public relations project now bears the support of the majority of the members of the profession. Like all things which are new and untried, it was looked upon with some suspicion and uncertainty at the outset. This has gradually given way to an understanding of its objectives and an appreciation for what it accomplishes public relations-wise with the general public. Our doctors have found it means no sacrifice of individual privileges and that frequently it has been the means of creating harmony between doctor and patient where discord and bitterness may have existed before. There has been no wholesale use of the services of the Committee, and this in itself has illustrated that the majority of the people are completely satisfied with their doctor, his services, and his fees. The cooperation which has been given to the Committee has been generally excellent, and this has invariably been given in the interests of correcting a bad situation rather than through fear of any reprisals.

Our own Tulsa County Medical Society has such a committee now in existence, formulated at the direction of the Board of Trustees and consisting of the immediate five past-presidents of the Society. It is attempting to confine those grievances which may arise to the local level. The success of this Committee will depend essentially upon a same high degree of doctor cooperation being extended to its sincere efforts. To me, it is better that we handle these things ourselves, not only as a matter of policy but in the interests of own public relations here in Tulsa. For that reason I urge your sincere cooperation and support to this new project. I believe it will pay important dividends to our Tulsa profession.

Sincerely,

President

KEY TO SYMBOLS

For purposes of information physicians who practice a major specialty are so indicated in the foregoing roster. The symbol following the name indicates the specialty practiced. However, this listing does not necessarily mean that the physician named limits himself strictly to that specialty.

All—Allergy	I—Internal Medicine	P-Psychiatry
Anes—Anesthesia	Ind-Industrial Medicine	PH-Public Health
C & L-Chest and Lungs	NP—Neuropsychiatry	Path—Pathology
Derm—Dermatology	NS-Neuro-Surgery	Ped—Pediatrics
EENT-Eye, Ear, Nose and	Ob—Obstetrics	Proc-Proctology
Throat	Oph—Ophthalmology	R-Radiology
Gyn—Gynecology	Orth—Orthopedics	S—Surgery
	Oto-Otolaryngology	U—Urology

Bone and Joint Diseases, Pathology Correlated With Roentgenological and Clinical Features, by J. Vernon Luck, M.S. (Ortho.), M.D., F.A.C.S., F.I.C.S., Assistant Clinical Professor of Orthopedic Surgery, University of Southern California, published by Charles C. Thomas, Springfield, Ill., 1950.

This book began as a set of mimeographed lectures prepared at the request of graduate students, interns, and resident physicians in Dr. Arthur Steindler's Department of Orthopedic Surgery at the State University of Iowa. It begins with a chapter on the normal skeletal system and in each succeeding chapter discusses a separate phase of bone and joint disease. The subject is first presented from a clinical standpoint and is followed by a discussion of anatomic pathology, pathogenesis, and a roentgenologic and clinical correlation. There are numerous illustrations in black and white and in color and ample references at the end of each chapter. It can be recommended to all physicians and surgeons who have occasion to treat bone and joint diseases.

A POSITIVE APPROACH

In the face of well established facts it is difficult to account for the persistent belief of the public and press that the medical profession of America deliberately limits enrollment at American medical schools as a means of stifling competition. It is heard frequently in casual conversation and social gatherings, in magazines and newspapers (most recently in a Tulsa daily newspaper's editorial columns), and in loud repetitive blasts from the proponents of Socialized Medicine who see in the charges a potent ammunition. Investigation invariably discloses that an old story is being repeated by people who do not have the correct facts, and who apparently are not interested in the truth of the matter, but who gain some measure of enjoyment in berating and condemning. Sometimes, the charges are a product of sour grapes—the disappointment of some individual who has not been accepted for enrollment at a medical school. So much has the story been told, however, that it has come to be regarded as gospel.

Of course, it is true that not everyone who wishes to study medicine can do so, which is as it should be, and even more—it is true that some young men and women who would make good doctors cannot be accepted at medical schools because of limitations of facilities and faculty. It is questionable that a doctor shortage exists in the United States today; rather, there is a maldistribution of doctors in the

tendency of doctors to congregate in the larger centers and to overcrowd the various specialities to the neglect of general practice. The armed forces are taking some needed doctors from the home front, but at the same time there is a constant increase in the number of individual patients which any one doctor can treat, thanks to new techniques of diagnosis and treatment.

The American Medical Association, painted by irresponsible sources as a black villain in the matter of medical school enrollments, is openly advocating an increase in the number of medical students to be graduated yearly. It has, as proof of its intentions, set up the American Medical Foundation to provide funds to increase medical educational facilities in the United States; a half-million dollars of the money of the AMA has been voluntarily contributed to this cause. Many hundreds of thousands have already come in from individual doctors and other medical organizations.

A study of the operational pattern of the AMA will disclose no method by which the organization dictates medical school enrollments. It has fought for adequate facilities and teaching staffs in all approved medical schools. Too frequently the true cause of the difficulty has been the failure of such schools to obtain adequate financing. In the face of constantly rising costs many schools have been forced to get along on fixed incomes; others have been constantly penalized by penurious and narrow-minded legislatures. There is a regular fight every two years right here in Oklahoma to induce the State Legislature to appropriate sufficient funds to operate the University of Oklahoma School of Medicine; the requests for appropriations necessary to educate an adequate number of doctors are constantly cut. Maintenance costs go up, income remains the same or increases only slightly, and yet the hue and cry is raised that a deliberate control over medical school enrollments is in effect.

As doctors it is essential that we take a positive approach to this problem, individually combating this insidious propaganda, these half-truths and rumors. With the facts on our side so clearly indicated, we have the perfect weapon of offense.

W. M. JONES, M.D. 1875 - 1951

Dr. William Monroe Jones, 76, veteran Tulsa physician, died Monday, May 21, 1951, at his home. Death was attributed to heart disease.

Born in Washington, Iowa, Dr. Jones received his medical degree in 1905 from Creighton University School of Medicine at Omaha, Nebraska. Subsequently he did postgraduate study at the University of Vienna in Austria and in hospitals of London, England. He was formerly associated with the Wills Eye Hospital of Philadelphia and practiced at Chicago and Beatrice, Nebraska, before coming to Oklahoma in 1922. A specialist in ophthalmology and otolaryngology, he was associated with the Tulsa Clinic for the last several years.

Dr. Jones was a charter member of the Pilgrim Masonic Lodge of Tulsa and of the Cosmopolitan Club of Tulsa, of which he was a former President. He was a member of the Tulsa County Medical Society and at the time of his death had been nominated for Life Membership.

DR. SUGG ELECTED

(Continued From Page 7)

of the Grievances Committee and heard reports of widespread physician cooperation in the public relations project. Dr. John E. McDonald's Public Policy Committee also rendered a strong report reflecting a wide scope of activity.

The Councilor Report submitted to the House of Delegates commended Dr. Robert E. Funk, General Chairman, and Dr. John G. Matt, Chairman of the Scientific Works Committee, for their work as officials of the 1951 Annual Meeting. The efforts of the Executive Offices of the Tulsa County Medical Society were also commended in this respect.

Life Membership in the Oklahoma State Medical Association was conferred upon the following Tulsa doctors by the House of Delegates: Dr. P. N. Charbonnet, Dr. Thomas W. Stallings, Dr. Russell C. Pigford, Dr. H. Lee Farris, and Dr. J. W. Childs.

The 1952 annual meeting of the Association will be at Oklahoma City.

"Premarin"—a naturally occurring conjugated estrogen which has long been a choice of physicians treating the climacteric—is earning further clinical acclaim in the treatment of functional uterine bleeding.

The aim of estrogenic therapy in functional uterine bleeding is to bring about cessation of bleeding, and to produce subsequent regulation of the cycle. Once hemostasis is achieved, the maximum daily dosage of "Premarin" must be continued to prevent recurrence of bleeding. This schedule forms part of cyclic estrogen-progesterone treatment for attempted salvage of ovarian function.

While sodium estrone sulfate is the principal estrogen in "Premarin," other equine estrogens...estradiol, equilin, equilenin, hippulin...are probably also present in varying amounts as water-soluble conjugates.

An "estrogen of choice for hemostasis is 'Premarin' in tablets of 1.25 mg....

The usual dose for hemostasis is 2 tablets three times a day.

If bleeding has not decreased definitely by the third day of treatment the dosage level may be increased by 50 per cent."*

*Fry, C. O.: J. Am. M.Women's A. 4:51 (Feb.) 1949

"PREMARIN"

Estrogenic Substances (water-soluble)
also known as Conjugated Estrogens (equine)

Four potencies of "Premarin" permit flexibility of dosage: 2.5 mg., 1.25 mg., 0.625 mg., and 0.3 mg. tablets; also in liquid form, 0.625 mg. in each 4 cc. (1 teaspoonful).

AN APPEAL FOR HELP

After more than two years of operation the Tulsa County Red Cross Blood Center is functioning efficiently and successfully, annually providing blood to thousands of medical and surgical patients in Tulsa hospitals. The doctors of the Tulsa County Medical Society have come more and more to realize its value and appreciate the part which it plays in Tulsa Medicine. As evidence of this attitude there has been a constant increase in the replacement of blood, a factor stemming in many cases directly from the doctor's cooperative suggestions to the patient and his family. At this time there is one particular need which can be met through the cooperation of the doctor on the case — the replacement of blood given to out-of-town patients. While a substantial amount of such blood is replaced, too many patients are returning to their homes without arranging for the replacement of the valuable blood. This is frequently an oversight, a matter of convenience, or a lack of understanding as to the mannr in which the Blood Center operates.

A real service can be done by the members of the Tulsa County Medical Society if they will make a special effort to replace blood given to out-of-town patients in Tulsa hospitals. Blood which is not replaced for such patients must come from generous Tulsa donors. An undue burden is placed upon the local community, and it is not inconceivable that continued abuses of this character may result in unnecessary blood shortages.

An appeal is made to you, doctor, for your help in replacing blood given to out-of-town patients. A word from you to the patient or his family will frequently produce the needed results. Won't you give your further help to the Tulsa County Red Cross Blood Center—your blood center—for this purpose?

DR. DERRIC C. PARMENTER has taken new professional quarters at 1204 South Cheyenne, Tulsa.

It's a girl for DR. and MRS. E. MAL-COLM STOKES, born May 27th. Congratulations!

DR. R. M. WADSWORTH is taking postgraduate medical study in New York.
