 vitamin
 preparations
 for drop
 dosage

acceptability

The superior flavor of all three "Vi-Sols" assures patient acceptance. Mothers appreciate their convenience too.

dispersibility

With their clear, non-sticky texture, the "Vi-Sols" disperse instantly in fruit juice or water; mix readily with formula.

hypoallergenicity

Since all their vitamins are in synthetic form, the "Vi-Sols" are well tolerated even by allergic patients.

stability

Stable at room temperature, the "Vi-Sols" require no refrigeration. They may safely be autoclaved with the formula.

POLY-VI-SOL

DORMISON

non-barbiturate hypnotic

*for safe, sound sleep
without drug hangover*

DORMISON is safe for prolonged use because

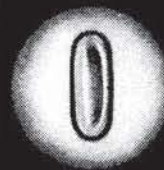

- 1 Evidence to date indicates that it is apparently free from habit-forming and addiction properties.
- 2 It does not appear to accumulate in the body.
- 3 It seldom produces side effects.

With DORMISON, there is no prolonged suppressive action. Patients enjoy natural, restorative sleep—awaken alert and refreshed with no barbiturate-like hangover. DORMISON's extraordinarily wide margin of safety permits the prematurely awakened patient to repeat the dose, if necessary, without hazard or penalty of mental depression upon arising.

Dosage: Two 250 mg. capsules taken with a glass of cold water or milk. Many patients will be found to respond to only one capsule.

DORMISON* (methylparafynol-Schering), capsules of 250 mg., bottles of 100.

Easy-to-Take Antibacterial for Infections in Children

When hypos frighten and tablets stick in reluctant throats, both child and parent welcome palatable Suspension 'Neopenzine.' In it the three "ideal" sulfonamides are combined with penicillin—G to provide broad-spectrum antibacterial action. The usual twenty-four-hour dose (one teaspoonful four times a day) provides 800,000 units of penicillin—G and 2 Gm. of the "diazine" sulfonamides. If the urinary output is normal, no alkalis are necessary. Prescribe the 60-cc. potency-protector combination package—available at pharmacies everywhere.

REGIONAL SURGICAL MEETING SCHEDULED

**International College of Surgeons to Meet in
Tulsa October 17th. Program to Feature Eleven
Visiting Guest Speakers.**

Eleven nationally known medical personalities will appear as speakers at a one-day regional meeting of the International College of Surgeons to be held in Tulsa on Friday, October 17, 1952, at the Tulsa Hotel.

The entire meeting will be open to all medical doctors in the area. No registration fee will be charged. All registrants, including those physicians who are not members of the College, will be guests of the Tulsa Chapter at a complimentary reception and buffet dinner which will close the proceedings.

The panel of visiting distinguished guest speakers will include:

Dr. Philip S. Thorek, Clinical Associate Professor of Surgery, University of Illinois School of Medicine, Chicago, Illinois.

Dr. Curtice Rosser, Professor and Head of the Department of Proctology, Southwestern Medical College, Dallas, Texas.

Dr. Willard Bartlett, Jr., Assistant Professor of Surgery, St. Louis University

School of Medicine, St. Louis, Missouri.

Dr. Arnold S. Jackson, Director of the Jackson Clinic and Chief of Staff, Methodist Hospital, Madison, Wisconsin.

Dr. Leslie V. Rush, Surgeon, Rush Memorial Hospital, Meridian, Mississippi.

Dr. Leo J. Starry, Professor of Surgery, University of Oklahoma School of Medicine, Oklahoma City, Oklahoma.

Dr. W. P. Callahan, Past-President of the Kansas State Medical Society, Wichita, Kansas.

Dr. Lawrence W. Long, Editor of the Journal of the Mississippi State Medical Society, Jackson, Mississippi.

Dr. Forrest M. Lingenfelter, Clinical Professor of Surgery, University of Oklahoma School of Medicine, Oklahoma City, Oklahoma.

Dr. Claude J. Hunt, President, Jackson County Medical Society, Kansas City, Missouri.

Dr. Neil W. Woodward, Assistant Professor of Surgery, University of Okla-

DR. PHILIP S. THOREK

homa School of Medicine, Oklahoma City, Oklahoma.

Arrangements for the meeting are under the general direction of Dr. A. B. Carney of Tulsa, regent for the Eastern Division of Oklahoma, International College of Surgeons. He is assisted by twelve other members of the Tulsa Chapter.

The program is as follows:

8:00 A.M. Registration, Mezzanine, Tulsa Hotel.

9:30 A.M. Invocation. Dr. Paul V. Galloway, Pastor, Boston Avenue Methodist Church, Tulsa. Addresses of Welcome by the Honorable C. M. Warren, Mayor, Tulsa, Oklahoma; Dr. Alfred R. Sugg, President, Oklahoma State Medical Association, Ada; and Dr. Marshall O. Hart, President, Tulsa County Medical Society, Tulsa.

10:00 A.M. "Diagnosis of Tumors and Cysts of the Neck." Dr. Arnold S. Jackson, Madison, Wisconsin.

10:30 A.M. "Closed Medullary Pin-

ning of Colles Fractures." Dr. Leslie V. Rush, Meridian, Mississippi.

11:00 A.M. "Bizarre Tumors of the Large Bowel." Dr. Curtice Rosser, Dallas, Texas.

11:30 A.M. "Electrolyte Balance in Surgery." Dr. W. P. Callahan, Wichita, Kansas.

12:00 Noon. Luncheon.

2:00 P.M. "Non-Calculous Obstructions of the Extra Hepatic Bile Ducts." Dr. Willard Bartlett, Jr., St. Louis, Missouri.

2:30 P.M. "A Resume of Clinical Findings in 300 Thyroid Tumors." Dr. Forrest M. Lingenfelter, Oklahoma City, Oklahoma.

3:00 P.M. "Formation of a Food Pouch from a Segment of the Jejunum as a Substitute for the Stomach in Total Gastrectomy." Dr. Claude J. Hunt, Kansas City, Missouri.

3:30 P.M. "Inguinal Hernia; Direct and Indirect, Then And Now, When and How." Dr. Lawrence W. Long, Jackson, Mississippi.

4:00 P.M. "The Surgical Peptic Ulcer." Dr. Leo J. Starry, Oklahoma City, Oklahoma.

4:30 P.M. "Surgery of the Left Colon." Dr. Neil W. Woodward, Oklahoma City, Oklahoma.

7:00 P.M. Buffet Dinner and Social Hour.

8:30 P.M. "Surgery of the Oesophagus." Dr. Philip S. Thorek, Chicago, Illinois.

The sessions will be presided over by Dr. Ralph A. McGill, Dr. A. Ray Wiley, and Dr. John E. McDonald. All meetings will be in the Topaz Room of the Tulsa Hotel.

The selection of Dr. Thorek as guest speaker marks his second appearance in Tulsa in recent weeks. Speaking at the Tulsa County Medical Society Meeting of September 8th, Dr. Thorek attracted an all-time record high attendance of 191.

DR. JOHN F. GRAY, JR. has taken new professional quarters at 506 Medical Arts Building, Tulsa.

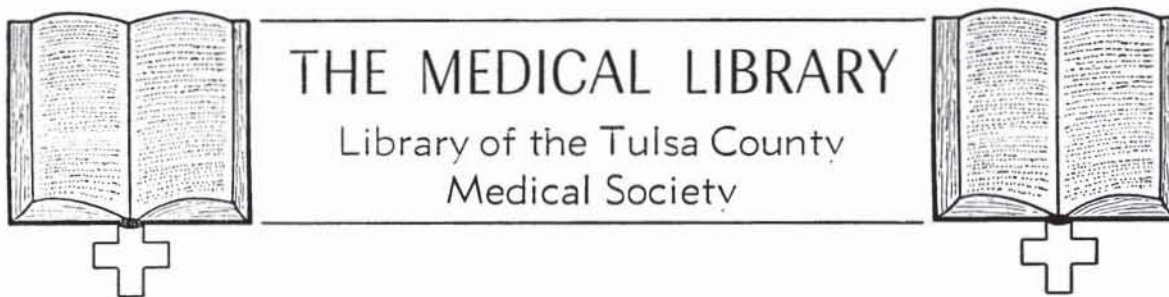

It's a girl for DR. and MRS. PAUL N. ATKINS, JR., born September 12th at Hillcrest Hospital. Congratulations

PETER G. MURRAY, M.D.
1880 - 1952

Dr. Peter G. Murray, 72, pioneer Tulsa physician, died at his home on August 25, 1952, a victim of cancer.

Born in 1880 at Sedgewickeville, Missouri, he attended Marvin College at Fredricktown, Missouri, and in 1905 was graduated from Barnes Medical College, St. Louis. He practiced for five years at Patton, Missouri, and for eleven years at Thomas, Oklahoma, before coming to Tulsa in 1921. Dr. Murray was the second physician to pass the medical licensure examinations after Oklahoma became a state in 1907. Since coming to Tulsa he specialized in obstetrics and gynecology, delivering approximately 200 babies each year. He was a member of the Tulsa County Medical Society and for many years was in charge of the Society's annual golf tournament. An excellent golfer, he won many amateur trophies.

Services were held August 27th. The widow, a son, and daughter survive.

The PRESIDENT'S MESSAGE

"We Must Choose Between Individual Liberty And Collective Coercion. We Have A Choice. Yet, Which Shall It Be?" — Blasingame.

It is my humble opinion that our profession, like other segments of society, does not realize the true national and international situation. They unintentionally condone and often participate in ventures the effect of which is destruction to our form of government and our liberty. We are adopting in every bracket of our social existence a philosophy of dependence, a practice of group collective action. The farmer subsidized, the teacher subsidized and used as the instrument of communistic indoctrination, the doctor and hospital practicing and teaching socialism through welfare quasi charitable nuclei of clinics. Nurses aiding and abetting, the U.S.P.H. agitating and promoting, the government financed home owner, government bureaucratic employment, the W.H.O. and the I.L.O. (you had better watch them), the wheels of this oiled with the blood of dying Americans and others in Korea, etc. We cuss socialism, yet lend our aid in socialistic practices. Congress has appropriated approximately \$1,700,000,000 for all functions of the Federal Security Agency for the fiscal year ending June 30, 1953. Is Oscar Ewing out of business? Are you aiding him? This is the medical and health budget of F.S.A.:

Vocational Rehabilitation	\$ 22,250,000
Food and Drug	5,600,000
Bureau of Public Assistance	1,000,000,000
Tuberculosis Control	8,240,000
Childrens Bureau	28,600,000
Venereal Disease Control	9,850,000
Assistance to States (General)	16,150,000
Communicable Disease Control	5,919,750
Engineering and Sanitation and Industrial Hygiene	3,700,000
Alaska, Disease and Sanitation	1,107,500
Hospital Construction	75,000,000
Grants For Hospital Construction, Obligation Cash	59,700,000
Hospital Construction Administrative Expense	1,200,000
Hospital and Medical Care	33,688,000
Foreign Quarantine	3,065,000
Office Surgeon General	3,170,000
National Institutes of Health	59,030,750
National Heart Institute	12,000,000
Dental Health Institute	1,650,000
National Institute of Health	16,598,750

State participation? Yes. Taxpayer participation all the way. Most of these are your competitor, not aide, and you are financing and aiding them. Try that on for size, then support the health centers under F.S.A., pay outpatient departments, private pay to public pay nurses, paid multitest and multidagnostic clinics, school health departments with social tendencies. It might prove more beneficial than popular to sterilize every relief client on filing his or her application, some exceptions. Now, doctor, won't you please come out and volunteer free your service to help crucify and communize your profession and country? Yes, and believe it or not the "son of a gun" will do it.

"Rubbing The Fur The Wrong Way May Be Irritating. But It Is One Of The Best Methods To Find Fleas." — Roscoe C. Baker, M.D.

Marshall Q. Hart

There is Only ONE Dip-Pert-Tet®

We are proud that the term "D.P.T.," as Dip-Pert-Tet* is commonly referred to, has become almost generic for combined toxoids. *However, only* Cutter produces Dip-Pert-Tet.

Be sure you get the advantages of the vaccine on which the clinical acceptance of combined toxoid immunization was established . . . specify Dip-Pert-Tet/Cutter.

Why only one Dip-Pert-Tet?

Only when you specify Dip-Pert-Tet do you get all these advantages:

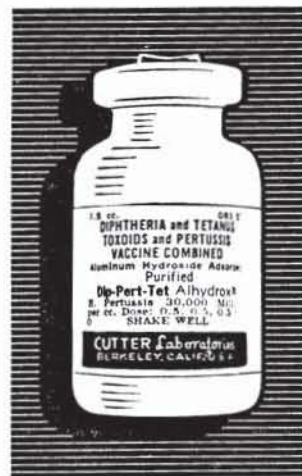

- Dip-Pert-Tet **alone** is available with Alhydrox® adsorption. Alhydrox (aluminum hydroxide adsorbed) is a Cutter exclusive that prolongs the antigenic stimulus by releasing the antigen *slowly* in the tissues to build more durable immunity.
- Maximum immunity against diphtheria, pertussis and tetanus with uniformly superior antitoxin levels.
- Fewer local and systemic reactions because of improved purification and Alhydrox adsorption.

- High pertussis count — 45 billion Phase 1 H. pertussis organisms per immunization course.
- Standard dosage—0.5 cc. per injection, only three injections. Supplied in 1.5 cc. and 7.5 cc. vials.

COMPARE IT

Try it in your own practice. Immunize five infants with Dip-Pert-Tet ALHYDROX. See why reactions and persistent nodules are not necessarily a corollary of combined toxoid immunization . . . see why there is **only one** Dip-Pert-Tet.

*Purified diphtheria and tetanus toxoids and pertussis vaccine combined.

CUTTER Laboratories

BERKELEY, CALIFORNIA

**OKLAHOMA CITY INTERNIST
TO SPEAK HERE OCTOBER 13**

Dr. Stewart G. Wolf, Jr., newly appointed Professor and Head of the Department of Medicine at the University of Oklahoma School of Medicine, Oklahoma City, will be guest speaker for the Tulsa County Medical Society on Monday, October 13, 1952, at 8:00 P.M. at The Mayo. His subject will be "Peptic Ulcer—Evidence for Pathogenesis and Rationals for Treatment."

A native of Baltimore, Maryland, Dr. Wolf attended Phillips Academy, Andover, Yale University, and Johns Hopkins University, receiving both his A.B. and M.D. from the latter school. He served his internship and a medical residency at New York Hospital, New York, N.Y., and later was a research fellow at Bellevue Hospital, New York, and at the Harvard Neurological Unit of Boston City Hospital, Boston, Massachusetts. During World War II he served as a Major in the Army Medical Corps, seeing service with the Ninth General Hospital unit in the South Pacific. In recent years he has been Associate Professor of Medicine at Cornell University School of Medicine.

Dr. Wolf has authored 79 scientific articles published in national medical journals, four monographs, and has contributed material to five books. His re-

search activities have included the fields of gastrointestinal physiology, diabetes, and cardiovascular diseases. In 1943 the American Gastroenterological Association awarded him its Distinguished Research Award.

On November 10, 1952, members of the Tulsa County Medical Society will hear Mr. Samuel Alfend, Chief of the Kansas City District, United States Food and Drug Administration, Kansas City, Missouri, in a lecture entitled "The Nostroms and Quackery Encountered by the Federal Food & Drug Administration."

The program of December 8, 1952, will be devoted to annual committee reports and election of officers for 1953. The first program of 1953 will be on January 12, at which time Dr. J. Garrott Allen, Professor of Surgery at the University of Chicago School of Medicine, will be guest speaker.

CLINICAL SOCIETY TO MEET

The 22nd Annual Conference of the Oklahoma City Clinical Society will be held October 27-30, 1952, at the Biltmore Hotel, Oklahoma City. Seventeen nationally known visiting distinguished guest speakers will highlight the program. Complete details appear in the advertisement on Page 25.

DR. A. B. CARNEY sailed from New York on the Queen Mary on September 10th, bound for England and a five weeks vacation in Europe. While in Scotland he will present a paper before the annual meeting of the Royal College of Surgery in Edinburgh. Dr. Carney also appeared on the program of the annual meeting of the International College of Surgeons in Chicago on September 4th. His suggestion that the immunity of the duodenum to cancer offered a challenge to medical research was the subject of a news story syndicated over the nation by the Associated Press and other national news services.

DR. M. V. STANLEY, who recently resigned as County Physician, has opened new professional quarters at 1632 East 15th Street, Tulsa.

EDITORIAL

A TIME FOR PLANNING

A Sunday afternoon drive through the lengthening outskirts of Tulsa can leave no doubt about the fast pace at which our City is growing. Where complacent cows grazed in meadowlands only a few weeks ago, now whole communities of homes and stores have sprung up. The same displaced cows are constantly beset by surveyors in their midst as plans for the next sub-division or community shopping center shape into being. Tulsans are happy about this mushroom growth; most of it is attributable to a high level of employment opportunities, which in turn open up expanding fields of commercial endeavor. The net result is a high standard of living in stable industry, an essential economic factor in the success or failure of any community. The prognosis is highly favorable.

There is a tendency in such times of rapid expansion for the elements of growth to get out of balance. Overcrowded schools, lack of sewer and sanitary facilities in many new areas, and inadequate downtown parking to serve the hordes of automobiles are typical examples. Naturally, it is difficult to plan in advance for such things, but once the definite needs have been clearly established it is essential that positive and well developed planning be inaugurated to correct these deficiencies.

What concerns Tulsa concerns Tulsa Medicine and the Tulsa County Medical Society. We should like to see our community develop along sound well balanced lines. There are a few specific suggestions which we should like to make, not in the nature of criticisms but as information helpful to our civic and government leaders. Accompanying these suggestions is our pledge of cooperation in any efforts which will be made by the community as a whole to bring these suggestions into being. It is only by a community-wide cooperation that these things can be attained.

Tulsa Medicine has most concern for

its children and their schooling. The long-range plans of the Board of Education are excellent, but every effort should be made to see that these plans are carried into prompt execution. Schools must be numerically and physically adequate, faculties must be qualified and large enough to meet the enrollment. This is one place where we cannot be niggardly. The whole future of the nation depends in large measure upon our children.

We should like to see the installation of a sewage disposal plant, elimination of faulty septic tanks, and extension of sewers in all areas. The smelly Arkansas River and its accumulations of rotting sewage in times of drouth adds another health hazard to Tulsa. The spectre of the polio epidemic will always loom large until this situation is corrected.

The Civic Center for Tulsa continues to be but a dream although bonds are voted and plans are made—but nothing happens. Doddering old Convention Hall, centered in the middle of the railroad tracks, reminds us that our cultural facilities are fully thirty years behind the times. We are expected to be satisfied with an inane plan to spend a few thousand dollars on a new foyer for the "Old Lady Of Archer." And so, the Metropolitan Opera plays Oklahoma City, the Broadway touring companies make Little Rock, the concert artists sing at Wichita. For Tulsa is left but the poorest crumbs, all for want of a decent auditorium.

Parking surveys come and go, but the construction of adequate downtown parking facilities are few. Chug-holes pockmark the unpaved streets in many of our best and most of our poorer residential areas. A multi-million dollar bridge of shining steel and concrete spans the Arkansas River at 51st Street, useless because the city and county governments have neglected to build approaches. Conventions shy away from Tulsa for want of adequate meeting facilities. Our public library years ago outgrew its physical facilities. Dangerous intersections pose a constant hazard to life and limb for want of traffic signals. Our city and county governments follow outmoded methods of operation which promote waste and

DOCTORS URGED TO SUPPORT RED CROSS-COMMUNITY CHEST

Members of the Tulsa County Medical Society will receive individual pledge cards for the 1953 combined Community Chest-Red Cross campaign by mail early in October. Dr. John E. McDonald, Chairman of the Doctor's Division, is urging all members to return their pledges within three days of receipt.

As in the past, solicitation will be done by mail and no solicitor will call to take up valuable professional time. Pledge cards should be completed at the convenience of the doctor and returned to the Tulsa County Medical Society, 1202 Medical Arts Building, Tulsa. Checks in payment of the pledge need not accompany the card but the donor should indicate the number of payments to be made and the dates upon which payment is to be made. Checks should be made payable to "Community Chest-Red Cross Campaign" if sent with the pledge.

Pointing out that the two organizations have combined their annual drives into a single campaign for \$1,045,000, Dr. McDonald urged all doctors to give a generous sum equivalent to at least the combined gifts of last year. "We had nearly a 100 per cent giving by our members last year," he said, "and it is hoped that every doctor will give this year for a perfect record."

DR. VINCEL SUNDGREN has been certified as a diplomate of the American Board of Internal Medicine.

DR. HAYS R. YANDELL has returned from New York where he attended the annual meeting of the American College of Surgeons.

DR. JOHN E. McDONALD appeared in behalf of the Oklahoma State Medical Association to testify at hearings held by the Committee on the Nation's Health Needs (the Magnuson Committee) at St. Louis last September 15th.

DR. ADOLPH N. VAMMEN was guest speaker at the bi-monthly staff meeting of Byrne Memorial Hospital on September 10th.

DR. WENDELL J. WHITE has removed his practice to Vinita, Oklahoma.

FIRST SIX GUEST SPEAKERS FOR 1953 CONVENTION SET

Six top nationally known medical personalities have accepted invitations to appear as visiting distinguished speakers at the 60th Annual Meeting of the Oklahoma State Medical Association in Tulsa, April 13-15, 1953, it was announced last month by Dr. Berget H. Blocksom, Tulsa, Chairman of the Scientific Works Committee.

Slated to headline the scientific program are:

Dr. Garfield G. Duncan, Professor

of Medicine, Jefferson Medical College, Philadelphia, Pennsylvania.

Dr. F. Bayard Carter, Professor of Obstetrics & Gynecology, Duke University Medical School, Durham, North Carolina.

Dr. Wendell G. Scott, Associate Professor of Radiology, Washington University School of Medicine, St. Louis, Missouri.

Dr. Paul H. Holinger, Associate Professor of Otolaryngology, Northwestern University School of Medicine, Chicago, Illinois.

Dr. James C. Sargent, Professor and Head of the Department of Urology, Marquette University Medical School, Milwaukee, Wisconsin.

Dr. Carl A. Moyer, Professor of Surgery, Washington University School of Medicine, St. Louis, Missouri.

Dr. Blocksom said that present plans call for the addition of an endocrinologist, psychiatrist, pediatrician, and pathologist to the list of guest speakers.

EDITORIAL

(Continued From Page 16)

inefficiency; many of the obvious, common-sense suggestions of the Griffenhagen Report are scorned because they threaten the identities of many city units. Dirty, ill-kempt Mohawk Park is a disgrace.

A Master-Planning Committee with an aggressive, objective program is highly desirable. Some steps were made in this direction in recent years but the plan is presently dormant. Careful planning of city growth can eliminate many of these problems and result in a more livable, enjoyable, beautiful city. Tulsa, like Topsy, "just grew" into its present stature. It is not a healthy pattern of progress.

It is not often that these editorial columns deviate from medical matters, but as doctors we are citizens and as citizens we have a civic responsibility. Let's work together to keep Tulsa apace with other cities in all respects. Let's keep it head and shoulders above our neighbors and always in the vanguard of progress.

DR. R. M. WADSWORTH has been appointed Chairman of the Public Health Committee of the Oklahoma State Medical Association. Other appointments announced by Dr. Alfred R. Sugg of Ada, President, include DR. J. D. SHIPP, member of the Public Policy Committee, and DR. S. C. SHEPARD, member of the Military Service Committee.

DR. W. J. BRYAN has been vacationing in Texas and Colorado.

DR. E. MALCOLM STOKES, now on duty with the Army Air Forces, is now stationed with the 2,500 Medical Group, Mitchell Air Force Base, New York, N.Y.

Elected to membership in the Tulsa County Medical Society on September 8th were DR. EMIL M. CHILDERS, DR. JOHN W. DENSER, DR. THOMAS A. McDOWELL, DR. ADOLPH N. VAMMEN, DR. HARRY B. WEINBERG, and DR. ROY K. GODDARD, JR.

DR. ERNEST S. KEREKES, DR. DIXON N. BURNS, and DR. C. M. HARTIG staffed the Cancer Detection Clinic conducted at Stillwell, Oklahoma, last month. Fifty-one patients were examined.

Announcing The 22nd Annual Conference Of
THE OKLAHOMA CITY CLINICAL SOCIETY
Oklahoma City — October 27-30

DISTINGUISHED GUEST SPEAKERS

JOHN B. BARTRAM, M.D., *Pediatrics*, Associate Professor of Pediatrics, Temple University School of Medicine, Philadelphia, Pennsylvania.
