So inviting in flavor, color and aroma...

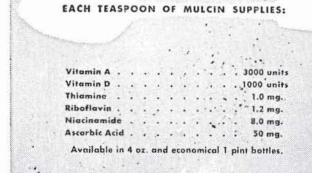

orange flavor, pleasant aroma and sunny yellow color of this vitamin emulsion bring smiles to their faces. Mulcin's texture is smooth and light, with no trace of stickiness.

Pouring is easy. Stable at room temperature, Mulcin needs no refrigeration. Children like taking Mulcin directly from the spoon. For infants, Mulcin may be mixed

with formula, fruit juice or water.

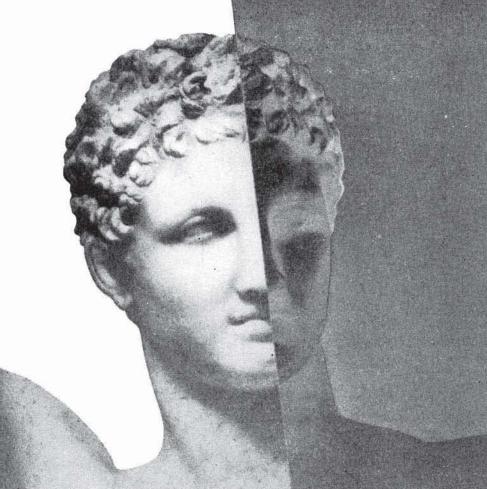

A product of true pharmaceutical elegance and maximum acceptability, Mulcin is a distinguished member of Mead's vitamin family.

MEAD JOHNSON & CO. EVANSVILLE 21, IND., U.S.A.

An achievement in pharmaceutical elegance

Therapeutic Test for the Male Climacteric

with ORETON®

(Testosterone Propionate U.S.P.)

When symptomatology suggests the male climacteric, but objective proof is lacking, a therapeutic test with ORETON aids in establishing the diagnosis.

Twenty-five milligrams of ORETON are administered daily, intramuscularly, for five days each week for a two-week period. Alleviation of complaints and the development of a sense of well-being will occur if the disorder is due to male sex hormone deficiency.

Also available for parenteral therapy—Micropellets® Oreton-F® (Testosterone U.S.P. in aqueous suspension), Oreton-F Pellets (Testosterone U.S.P.). For oral therapy, Oreton Buccal Tablets (Testosterone Propionate U.S.P. in Polyhydrol® base), Oreton-M® Buccal Tablets (Methyltestosterone U.S.P. in Polyhydrol base) and Oreton-M (Methyltestosterone U.S.P.).

TUMOR CLINIC COMPLETES FOURTH YEAR

Total of 4,548 Patients Seen Through December 31, 1951. Sixty Per Cent of New Patients Have Malignancy in One Form Or Another.

A total of approximately 4,800 patient visits to the St. John's Tumor Clinic will have been recorded as the diagnostic and treatment center for indigent cancer patients of Northeastern Oklahoma observes its fourth anniversary on March 2, 1952. Malignancies have been discovered in about 60 per cent of the new patients referred to the Clinic by area doctors.

Statistics released last month noted a total of 4,548 patient visits to the St. John's Tumor Clinic was recorded through December 31, 1951. Of this number 1,182 represented new patients with the remaining 3,366 as follow-up visits. Malignancies were found in 731 of the 1,182 new patients seen. A breakdown by years shows 187 new patients seen by the Clinic in 1948, 294 in 1949, 352 in 1950, and 349 in 1951. Followup visits numbered 330 in 1948, 800 in 1949, 808 in 1950, and jumped to a record high of 1,428 last year. New malignancies uncovered in 1948-49 numbered 228, with 209 recorded in 1950 and 294 in 1951.

Located in the attractive Waite Phillips Building of St. John's Hospital of Tulsa, the Clinic is staffed by seventy members of the Tulsa County Medical Society who contribute their services without cost. A diagnostic clinic is held each Tuesday morning with a clinical staff conference each Friday morning. Treatment schedules are held throughout the week with certain cases being admitted to the Hospital for a three-day diagnostic work-up and for necessary treatment. A total of 134 cases were admitted to the Hospital

in 1951. A breakdown of this figure by specialties is as follows: Gynecology, 35; Surgery, 47; Plastic Surgery, 7; Otolaryngology, 3; Medicine, 4; Urology, 8; Proctology, 44; Radiology, 5; Orthopedics, 2; Thoracic Surgery, 13; Ophthalmology, 4; and Neurosurgery, 2.

St. John's Tumor Clinic is financed primarily by grants from the Oklahoma Division of the American Cancer Society and from funds allocated by the Oklahoma State Health Department for certain purposes (principally the three-day diagnostic work-ups in the Hospital). Hospitalization costs are paid by the Board of Commissioners in the county from which the patient comes (except in a few instances where the commissioners have refused to perform this constitutional obligation) and by St. John's Hospital. The contribution of St. John's Hospital to the program of the Clinic amounted to more than \$20,000.00 last year. This was represented by x-ray therapy to 158 patients in the amount of \$7,809.00; x-ray films for 241 patients at a cost of \$4,156.50; 151 biopsies at a cost of \$1,510; and charity hospitalization and laboratory service in the amount of \$6,846.10. This totals \$20,321.60 contributed by the Hospital exclusive of Clinic quarters.

Patients are referred to the Clinic by private doctors and by the County Physician of the various counties of Northeastern Oklahoma. Only indigents are seen. Each new patient is interviewed by a social worker who renders other types of assistance—arrangements of necessary

hospitalization, nursing home care, and home care after hospital discharge. The Tulsa County Public Health Association renders home nursing care to referred patients and also assists in locating and visiting patients who fail to return to the Clinic for needed treatment of malignancy.

"The value of the St. John's Tumor Clinic can be counted in terms of human lives saved," said Dr. Ralph A. McGill, Medical Director. "Its further value in training medical doctors in the detection and treatment of cancer is directly reflected in improved care of private patients."

Miss Lois Taylor is Executive Secretary of the Clinic.

DR. CHARLES E. BRIGHTON was guest speaker for the Tulsa Cerebral Palsy Association meeting of February 18th.

GREGORY A. WALL, M. D. 1866 - 1952

Dr. Gregory A. Wall, 86, veteran Tulsa surgeon and former President of the Tulsa County Medical Society, died in a Tulsa hospital on February 17, 1952, after a long illness. He had been in retirement since 1938.

Born in 1866, Dr. Wall was graduated from Washington University School of Medicine at the age of twenty. He practiced in Missouri and at several locations in the old Indian Territory, including Oklahoma City, before coming to Tulsa around the turn of the century. Dr. Wall served in the Army Medical Corps during World War I. Shortly after his return to private practice he was elected to the presidency of the Tulsa County Medical Society and served in this position in 1919 and again in 1921, being the only member to hold the office more than one year. He was active in hospital and medical affairs in Tulsa until his retirement. Wall was a fellow of the American College of Surgeons. There were no immediate survivors. His wife, Sallie, died October 30, 1951. Entombment was at Rose Hill Mausoleum on Monday, February 18.

NEW MEMBERS

The following physicians are applicants for membership in the Tulsa County Medical Society:

William Benzing, Jr., M.D. 411 Medical Arts Bldg., Tulsa. Medical Degree, Rush Medical College, 1937. Interned Kansas City General Hospital, one year. Resident in Surgery and Pathology, Kansas City General Hospital, 1937-40; City Physician, Kansas City, Missouri, 1940-42; United States Army Medical Corps, 1942-46; private practice, Hamilton, Ohio, 1946-49; Resident in Radiology, U. S. Veterans Administration Hospital, Wadsworth, Kansas, 1949-52. Specialty, Radiology. Diplomate, American Board of Radiology, 1951. Recommended by Dr. Walter S. Larrabee and Dr. Charles G. Stuard.

Robert F. McCrary, M. D. 507 Medical Arts Bldg., Tulsa. Medical Degree, University of Arkansas School of Medicine, 1945. Interned Hillcrest Hospital, Tulsa, one year. United States Army Medical Corps, 1946-49; private practice, Forrest City, Arkansas, 1949-51. General Practice. Recommended by Dr. Ralph A. McGill and Dr. Roger Q. Atchley.

DR. H. O. LOYD has removed his practice to Marysville, California.

DR. D. C. PARMENTER has returned to his office after a brief illness at St. John's Hospital.

DR. M. V. STANLEY has been named County Physician and Medical Director of the Tulsa County Medical Clinic, succeeding Dr. J. J. Billington. He assumed his new duties on February 1, 1952.

DR. BERGET H. BLOCKSOM has been vacationing in Mexico.

DR. MAURICE P. CAPEHART is taking several months of postgraduate medical study in neurosurgery at the University of Oklahoma School of Medicine and Hospitals, Oklahoma City.

DR. WILLIAM A. BETTS has removed his practice to Ancon, Canal Zone.

Two new periodicals have appeared during the last few weeks, Metabolism and Laboratory Investigation. Metabolism, Clinical and Experimental, is a publication of Grune and Stratton, Inc., New York, and lists its interest in metabolic aspects of endocrines, genetics, dystrophies, diabetes and gout. The editor-in-chief is Dr. Samuel Soskin, Michael Reese Hospital, Medical Research Institute, Chicago. It will be published bi-monthly and the annual subscription rate is \$9.00. A sample copy of this journal is on file in the Medical Library.

Laboratory Investigation, the official organ of the International Association of Medical Museums, is a journal of technical methods and pathology. It will be issued quarterly—in March, June, September, and December — by Paul B. Hoeber, Inc., New York. The annual subscription rate is \$8.00. Dr. Thomas D. Kinney is editor and is assisted by Dr. Nathan Kaufman and a board of editors. Because of previous commitments which will absorb the budget allowance, the Medical Library has not subscribed to either of these journals.

Medical and surgical films will continue to be shown in the Medical Library at 3:00 P.M. each Wednesday throughout March. The tentative program is as follows:

March 5, Partial Resection of the Stomach for Duodenal Ulcer With Gastrojejunal Anastomosis, by Dr. Samuel A. Marshall; March 12, Total Abdominal Hysterectomy, by Dr. Philip Thorek; March 19, Abdominal-perineal Resection for Carcinoma of the Rectum, by Dr. Richard B. Cattell; March 26, Jejunostomy and Cholecystojejunostomy, by Dr. Philip Thorek.

The PRESIDENT'S MESSAGE

"Some Day We Shall Force The United States To Spend Itself Into Destruction."—Lenin, 1924

Should I designate what I consider the Number One problem of our profession, I would without hesitation say socialism. Socialism is, I think, synonymous with communism. It is a malignancy so deadly in its operation that once its tenacles are attached, like the octopus or the cobra, the jaws are snapped shut, destroying all.

It is folly to assume that one link of a chain can be destroyed and still have a chain. New Deal socialism has singled out health and medicine as the first point of attack, and should success be achieved, then public utilities, business, law, education, transportation, labor, communications—all the way down the chain, one link at a time, until it has gone all the way.

I think and believe that when our profession is resisting socialism it is not a selfish defense. It is a defense of our country and our system of government as a whole. An attack or assault of communism directed at any element of our country is a threat to every other element. If one of our states were attacked by a foreign foe the citizens of all the states would join in defense, realizing that the cause of one is the cause of all. If New York were attacked, does anyone believe the soldiers of the sister states would make jokes about New Yorkers having their "britches scared off"? Not on your life; they know they would be next.

If socialism or communism attacks medicine, can labor, business or law be so dumb as not to realize that they are next, and that aiding in defense is self-defense? "Resistance to oppression is obedience to God."

We need a unified defense, a common defense, all segments of society, profession, business, labor, and law harmoniously working together for the common defense. The "social tendencies" of our public health under the wing of Oscar Ewing is ever reaching out, invading the field of private enterprise, wanting to mortgage our children's future with tax burdens to support an impotent "Hiscock". Tax, tax, and tax; elect, elect, and elect; divide and destroy!

The most dispicable and moronic statement of the fair deal stooge is "we can get the money from the Federal Government, or we only have to put up some and get the rest from the Federal Government." That statement is insulting to the intelligence of an American Citizen, it intimates dishonesty, by taking without giving, consuming but not producing. Political parasites too lazy to scratch or cut bait. Who do they think the Federal Government is? This foe, my friend, is termiting our government within; it is far more dangerous than any foreign foe we have.

"W.P.A. chicks that chirp but cannot or will not scratch."

Your humble servant,

Marshall Q. Hard

LITTLE ROCK INTERNIST TO SPEAK HERE MARCH 10TH

Dr. Benjamin B. Wells, Professor of Medicine at the University of Arkansas School of Medicine, Little Rock, will be guest speaker for the Tulsa County Medical Society at its regular meeting of Monday, March 10, 1952, at 8:00 P. M. at the Mayo. His subject will be "Some Interesting Variants and Close Relatives of Rheumatoid Arthritus".

A native Texan, Dr. Wells received his medical degree from Baylor College of Medicine in 1935. He interned at the Scott and White Clinic of Temple, Texas, and later did postgraduate work in biochemistry at the University of Chicago. From 1936 to 1939 he was a member of the faculty of Baylor College of Medicine, leaving to accept a two-year fellowship with the Mayo Clinic Foundation. In 1941 he was awarded a research fellowship in endocrinology by the Carnegie Institution of Washington. Since 1942 he has been a member of the faculty of the University of Arkansas School of Medicine including a year as Dean in 1947-48. Dr. Wells served as a Lieutenant-Colonel in the Army Medical Corps for four years during World War II and was awarded the Legion of Merit.

A frequent contributor to medical publications, Dr. Wells is also the author of the new textbook, "Clinical Pathology: Applications and Interpretations", published in 1950 by W. B. Saunders Company. He was granted a Ph.D, degree from the University of Minnesota in 1941 for his work on steroid hormones of the adrenal cortex. Dr. Wells is a diplomate of the American Board of Internal Medicine and also of the American Board of Clinical Pathology. He is a fellow of the American College of Physicians and a member of the American Society of Clinical Pathologists.

Preceding the scientific meeting, there will be a buffer dinner served to members at 6:30 P. M. in the Terrace Room of The Mayo. Reservations may be made by calling 4-8161 or returning the reservation card to be sent with notices of the meeting. Price, \$4.25 per plate.

"Dr. Wells is a most entertaining speaker," said Dr. Albert W. Wallace, Chairman of the Program Committee, "and is being brought to Tulsa in answer to many requests. His splendid presentations at the regional meeting of the American College of Physicians at Hot Springs last Fall are warmly remembered by those present."

The Program Committee has also announced the details of three more programs to be held this year. They are:

Monday, April 14, 1952. "Emotional Development of the Child," Dr. Hale F. Shirley, Professor of Pediatrics, Stanford University School of Medicine, San Francisco, California.

Monday, May 12, 1952. A Symposium On The Diagnosis and Treatment of Peptic Ulcer. Speakers: Dr. Dave B. Lhevine, Dr. William C. Pratt, Dr. Arthur E. Hale, and Dr. William S. Jacobs, all of Tulsa.

Monday, September 8, 1952. "The Acute Abdomen", Dr. Philip Thorek, Associate Professor of Surgery, Northwestern University School of Medicine, Chicago, Illinois.

DR. P. N. CHARBONNET, an honorary member of the Tulsa County Medical Society, is now residing at Pass Christian, Mississippi.

Totals	0)0	334	41.0%

A problem of growing seriousness is being posed by the abnormal use of Type O, Rh Negative blood in the Tulsa hospitals. Based on the premise that 46% of all Americans are Type O and that 15% of these are Rh Negative, the Tulsa County Red Cross Blood Center took 25% more of this type of blood in 1951 than it could expect to find in normal distribution. In some months this rose to as high as 60% and in January, 1952, attained a record high of 80.6%. Many crises creating a need for Type O, Rh Negative blood have been met only through the willingness of a small group of faithful donors to give repeat donations at intervals of only a few weeks. This is not a desirable situation, both medically and in a public relations sense. It tends to create an unfavorable situation with the donor, who becomes reluctant to meet these repeated demands.

Based on national averages, these figures indicate that Type O, Rh Negative blood is probably being used in situations where other types would suffice. There is a definite need for conservation of this type through careful planning by physicians and hospitals. Since Type O, Rh Negative patients must receive only this type, it is necessary that an adequate supply be maintained for them. A serious breach of trust would occur if these faithful donors could not be served under emer-

(Continued On Page 20)

which child was given immune serum globulin to modify measles?

The use of Immune Serum Globulin—Cutter to modify measles minimizes the occurrence of such complications as otitis media, bronchopneumonia, mastoiditis, meningitis, encephalitis, etc. And there is ample clinical evidence that a sound, natural immunity follows modified measles.*

Immune Serum Globulin—Cutter is concentrated gamma globulin obtained from freshly pooled adult venous blood Each 2 cc. vial contains the antibody equivalent of 40 cc. of normal serum, permitting adjustable low dosage. With this crystal-clear, hemolysis-free Globulin, undesirable reactions are not likely to occur.

Write for comprehensive wall chart showing course of typical measles.

BLOOD CENTER NEWS

(Continued From Page 19)

gency conditions. Where patients undergoing elective surgery are known to potentially require large amounts of Type O, Rh Negative blood, the doctor is asked to notify the Tulsa County Red Cross Blood Center in advance so that necessary arrangements can be made to meet the demand. This is a problem requiring complete cooperation of hospitals and doctors with the Blood Center.

It's a son for DR. and MRS. JOE L. SPANN, born January 18th at Hillcrest Hospital. Congratulations!

Announcement has been made of the engagement and approaching marriage of Miss Cynthia Jenkinson to DR. HAYS R. YANDELL.

DR. EARL I. MULMED has been named President of the Tulsa County Heart Association for 1952-53. Other officers include DR. JAMES C. PETERS, Vice-President, and DR. HENRY A. BROCKSMITH, Secretary. They assume office July 1, 1952.

Speakers to the members of the Community Nursing Service for February included DR. EMIL E. PALIK, DR. SAFETY R. FIRST, DR. C. S. LEWIS, and DR. EARL I. MULMED.

DR. JOHN E. McDONALD was guest speaker for the Kay-Noble County Medical Society on February 14th at Tonkawa, Oklahoma.

DR. ROBERT L. ANDERSON has been apointed as a member of the Industrial Relations Committee of the Tulsa County Medical Society. DR. PAUL N. ATKINS, JR. has been elevated to Chairman of that Committee.

The Oklahoma State Board of Medical Examiners has announced the licensure by reciprocity of DR. GLADYS KINDRED DOLAN, 2532 S. Harvard Court.

DR. LORAINE SCHMIDT has assumed new duties with the Oklahoma State Health Department. She will work out of Tulsa in Wagoner, Creek, and Mayes counties.

DR. HERBERT S. ORR has returned from a vacation in Mexico.
