On every count... **superior**
 vitamin supplements for infants

the
 versatile
 "Vi-Sols"

3 water-soluble
 vitamin
 preparations
 for drop
 dosage

acceptability

The superior flavor of all three "Vi-Sols" assures patient acceptance. Mothers appreciate their convenience too.

dispersibility

With their clear, non-sticky texture, the "Vi-Sols" disperse instantly in fruit juice or water; mix readily with formula.

hypoallergenicity

Since all their vitamins are in synthetic form, the "Vi-Sols" are well tolerated even by allergic patients.

stability

Stable at room temperature, the "Vi-Sols" require no refrigeration. They may safely be autoclaved with the formula.

POLY-VI-SOL
TRI-VI-SOL
CE-VI-SOL

Available in 15 and 50 cc. bottles,
 with calibrated droppers

CLINICIANS SAY...

*"Best yet for control of
hay-fever symptoms."*

A majority of investigating clinicians preferred 'Co-Pyronil' (Pyrrobutamine Compound, Lilly) to any other antihistaminic. This record was achieved during the 1951 season, when ragweed pollen counts soared to their highest point in the antihistamine era. Four outstanding advantages—quicker onset, better control of symptoms, longer-lasting relief, and fewer side-effects—were repeatedly noted. Also, patients liked the convenience of fewer doses—usually only one or two capsules morning and night.

*Eli Lilly and Company
Indianapolis 6, Indiana, U. S. A.*

Each pulvule contains:

'Pyronil'	15 mg.
(Pyrrobutamine, Lilly)	
'Histadyl'	25 mg.
(Thenylpyramine, Lilly)	
'Clopane Hydrochloride'	12.5 mg.
(Cyclopentamine Hydrochloride, Lilly)	

PULVULES

Co-Pyronil

(PYRROBUTAMINE COMPOUND, LILLY)

NEW MALPRACTICE MASTER POLICY SET

**St. Paul-Mercury Indemnity Company Writes New
Protection For Oklahoma Doctors. Basic Premium
Set At \$52.00 Per Year.**

The Oklahoma State Medical Association late last month announced completion of arrangements for a new official master policy of malpractice insurance for its members to be written by the St. Paul-Mercury Indemnity Company of St. Paul, Minnesota. The new policy replaces the one formerly held by the London and Lancashire Company and cancelled without satisfactory explanation last April 1st.

The St. Paul-Mercury policy is effective immediately and Tulsa and other Oklahoma doctors may purchase the protection under terms of the master policy at once.

The new program will work in the same manner as the previous program with the London and Lancashire Company. Protection under the master policy will be limited to members of the State Association with clearance by local committees in each county. The Company may decline any application, however, if the applicant does not meet established underwriting principles of the Company.

The St. Paul-Mercury master policy, in contrast to the London & Lancashire policy, does not offer separate coverage for medicine and surgery. A basic policy of minimum limits of \$10,000-\$30,000 is written for both medical and surgical coverage at an annual premium of \$52.00. Extended coverage, which is highly recommended, is available at graduated rates. For basic coverage the premium is considerably higher than the London & Lancashire rates, but for extended coverage premium rates are actually lower. Differentials in premiums are required for coverage of physicians using x-ray, for plastic surgeons, and psychiatrists do-

ing shock therapy. The Company also reserves the right to assess an additional premium for physicians or groups employing a large number of nurses, technicians, and other medical assistants.

The same legal talent and advisory legal service will represent the St. Paul-Mercury policy as represented previous master policy-holders in the last thirteen years. Any policy-holder who has a situation which may develop into a suit is required to put the Company on notice by writing to either the agent or to the Company offices. Details of this procedure can be obtained from the Executive Secretary of the Tulsa County Medical Society. Stress is laid upon policy provisions requiring written notice of suit or possible suit.

Complete details of the new program were sent to all members of the Oklahoma State Medical Association by letter dated July 24, 1952.

The agents for the St. Paul-Mercury Indemnity Company in Tulsa County are Rich & Cartmill, the Howard Company, Philip Kramer, and Alexander & Alexander. Many other individual agents offer the policy for sale by brokering it through the general agents. Physicians are advised to make inquiry of the agent of whom they wish to do business. Premium rates are uniform.

The St. Paul-Mercury Indemnity Company will also offer hospital coverage and individual property damage and public liability coverage, although the latter is not required.

The new master policy was developed by the Insurance Committee of the Oklahoma State Medical Association.

The PRESIDENT'S MESSAGE

"When The Government Practices Preventive and Curative Medicine, Pediatrics, Obstetrics, Cardiology, Surgery, Geriatrics, Etc., What Is Going To Be Left For Private Medicine And Private Nursing?"

"It Is Hardly Lack of Due Process For The Government To Regulate That Which It Subsidizes."

—317, U. S. Reports.

Out to an early "basic" breakfast, gulped down fruit juice, ordered a salad to help "build me up", hesitated, looked at the stuff, which I really hate, rubbed my sleepy eyes which opened to survey a large, long, fat, brown-eyed worm crawling out of the lettuce. He bowed his back, gave me the eye, and crawled across the salad. I really believe the "early bird gets the worm."

Summer time, that time during which the more fortunate, professional and "the workers" vacation away from the heat, the push, the local setting, and fellers like me, by necessity, stay home, work a little, sweat like a "hoss" and pray for cool weather. There are a few vaccinations to do which have temporarily escaped the net of the "government workers" and an occasional baby to deliver who never learned of the "Planned Parenthood Clinic." Gripes of doctors who don't like me or the "pitch" in general. It is a nice time to observe the "angels of mercy" carrying on, attending the sick. I think those girls should be paid some kind of a wage during training. Millions for the "bums" of Europe, the ward healers, union bosses, and "the workers" but nothing for our student nurses. It just "ain't" right. Doctors' assistants standing by, attempting to help "hold the fort", loyal, courteous, and sympathetic, asking for a raise or else. Interns and residents working around the clock, not for "benefit", fringe or otherwise, but to serve humanity; another group who don't get a fair "shake".

I went for a drive yesterday in the district from which our objects of charity come. Plenty of TV antennae on "lean-to's" that look like the junk yard, electric refrigeration, radios, and a well-covered clothes line from the washing machine. In the front yard a big fat woman sprawled in a chair, dressed in shorts, knocking flies; a flock of fat kids, and one or two barking dogs; weeds and grass growing and a lazy fat man wearing a "Hollywood" shirt, sleeping on a "dog bed" under a tree. An auto will be in most of these places, but all of them "cases for the welfare department," they all need it, why?

Poor Jack Spears, he is sweating on the 12th floor; more work than he can do and no air conditioning. Blaring radios and TV of the political convention, each trying to out promise the other in give aways to Europe, more social benefits, more taxes, more police action. I wonder why one of them don't come out for America, not as a subject of the United Nations, a step-child of Britain, or errand boy for Russia? If Andrew Jackson were president, I think he would have the whole lot tried for treason and then shot. "They All Need It."

"Pay In A Little More Taxes, they urge, and we'll let you take out a little more security. But this form of 'security' is subsidy and subsidy is slavery."

— A. Lincoln.

Marshall Q. Hart

WHAT'S GOING ON IN THE TULSA COUNTY MEDICAL SOCIETY?

A Summary Of Recent Activities

What's going on in the Tulsa County Medical Society? Despite temperatures in the mid-90's and many members away on summer vacations the Society has continued with a full program of work. Here's a run-down of recent activities by the Society's committees and the Executive Offices:

Already at work on plans for the 60th Annual Meeting of the Oklahoma State Medical Association in Tulsa, April 12-15, 1953, are Dr. Gifford H. Henry, General Convention Chairman, and Dr. Berget H. Blocksom, Chairman of the Scientific Works Committee. Five distinguished medical personalities have already been secured as guest speakers and Dr. Blocksom expects to complete the scientific program, which will include papers, motion pictures, roundtable forums, and possibly color television, by December 31st. The prospectus for commercial exhibitors goes out in about 60 days. As in the past the Tulsa County Medical Society will handle all arrangements for the meeting. Dr. Henry expects to appoint additional convention officials this month. Due to the International Oil Exposition being held in Tulsa next May, doctors must advance their meeting a month earlier than the usual date . . . Dr. Robert E. Funk's Clinic Committee has been cooperating with the Health Division of the Tulsa Council of Social Agencies in a detailed study of the Tulsa County Medical Clinic. The survey, completed but still under study by a supervisory committee, is expected to develop more efficient methods in Clinic administration. To insure accuracy and a complete picture of Clinic operations, Dr. Funk and his group met on four occasions with Council survey officials in hours-long discussions . . . Dr. John E. McDonald is heading up a new liaison committee with the Tulsa Chamber of Commerce. An eleven-point program, developed in cooperation with a special committee headed by Chamber President

Verser Hicks, seeks greater active participation in civic affairs by Tulsa doctors. Continuation of the annual Doctor's Day at the weekly Chamber Forum luncheons has been set with the next tentatively scheduled in March. The Society will get a complete story of Committee plans at the first Fall meeting on September 8th

. . . Dr. Joseph Fulcher and his six-man Telephone Committee have been studying various methods of specialty listings in the classified section of the telephone directory. To determine likes and dislikes about the present method the Committee members personally interviewed fifty per cent of the members. Replies to five basic questions have been tabulated, along with many suggestions about the listings, and will be reported to the Society with recommendations at an early Fall meeting

. . . Dr. A. B. Carney's Hospital Relations Committee has been studying various private hospital insurance plans in an effort to determine how widespread the practice of paying for diagnostic services in hospitals has become. The Committee recently secured approval of the Board of Trustees to protesting to the Council of the Oklahoma State Medical Association of such practices. Committee seeks either elimination of this form of hospital practice or the granting of such privileges in the private offices of all doctors . . . The Medical Credit Bureau continues to make strong gains, both in the volume of monthly collections and the number of clients served. The latter has reached 140 doctors, dentists, and clinics. Dr. Berget H. Blocksom's supervisory Medical Credit Bureau Committee is now attempting to add some fifty Tulsa doctors not now using the service to the list of regular clients. Collections for 1952 are up over 400 per cent over the same period in 1948, a scant four years ago . . . The Medical Library Committee and Dr. David V. Hudson, in particular, have been developing the Medical Library Endowment

Fund. A number of small endowment funds established years ago for the Library have been consolidated into a single endowment. Many recent gifts from lay persons and doctors alike have been invested in shares of group investment funds with dividends to be used in increasing endowment principal or in the purchase of journal subscriptions. The Library has also been experiencing a record patronage by doctors and other authorized users . . . The Board of Trustees of the Tulsa County Medical Society huddled with the Tulsa City-County Board of Health on June 18th on plans for a new system of venereal disease treatment centers in Oklahoma. The Board okayed participation by the City-County Health Department in a new plan which will create a regional center at Tulsa operated in cooperation with United States Public Health Service officials . . . The Board of Trustees also participated in an evaluation of the Tulsa Child Guidance Clinic conducted by the Tulsa Council of Social Agencies. The Board rated the Clinic of top community value, recommended its continuation, and threw a bocquet to the Clinic Medical Director, Dr. Paul C. Benton . . . The Program Committee is winding up its work for 1952 with the setting of Mr. Samuel Alfred, United States Pure Food and Drug Administration official of Kansas City, as speaker for the November 10th meeting. Dr. Edward L. Moore has been added to the Program Committee personnel for 1953, succeeding Dr. Albert W. Wallace, who retires after three years of service. The Committee begins assembly of the 1953 schedule of scientific programs early in August . . . Dr. Fred E. Woodson's Insurance Committee is busy with local arrangements for establishing the new St. Paul-Mercury Indemnity Company's master policy of malpractice insurance in Tulsa County. For complete details of this activity see Page Seven of this issue of *The Bulletin* . . . Dr. W. A. Showman's Building Committee met recently with Tulsa real estate officials to learn some surprising and intricate details of real estate financing. Entrusted with the problem of finding some solution to the Society's acute housing problem, the Committee seeks to establish some plan

of financing preparatory to purchase of suitable building sites or structures . . . Dr. Felix R. Park's Red Cross Blood Center Committee met recently to evaluate the new medical standards governing the acceptance of blood donors as instituted early this year (and reported in detail in the April issue of *The Bulletin*). Satisfied with results of the first three months, the Committee voted to extend the trial period for the balance of the year. Also okayed were Red Cross plans to hire a full-time Blood Center Administrator whose principal duties would be in recruitment. Post has been vacant since the resignation of Mrs. Ruth S. Wells last May. Committee also directed continuation of efforts to locate a regional blood center in Tulsa . . . With its Review of General Medicine postgraduate course, conducted during the Spring months, now completed, the Postgraduate Study Committee reported average attendance at 25. Figure came as a disappointment to Committee officials who considered quality of papers by visiting lecturers excellent. Dr. Henry A. Brocksmith, Chairman, said last month the Committee hoped to sponsor a similar course of study this Fall . . . Progress towards the establishment of a code of cooperation between medicine and the press has been made by Dr. John E. McDonald's Press Relations Committee. Working with representatives of the Tulsa World, Tulsa Tribune, and Tulsa Association of Newscasters, as well as administrators of local hospitals, the Committee's several meetings have produced marked results in improving press-medicine relationships. Another meeting of the group, to be held in August, is expected to establish a workable system of news contacts at local hospitals . . . Three proposed amendments to the Constitution & By-Laws are undergoing revision at this time by the Constitution & By-Laws Committee and are expected to be presented to the membership for ratification in December. Most of the changes are designed to strengthen committee structure . . . In other routine activities, the Society's Executive Offices continues to answer dozens of calls from the public about medical services in Tulsa and elsewhere, publishes

Mr. James J. Morton, Principal of Jane Addams Elementary School of Tulsa, has been serving during the summer months as Acting Director of the Tulsa County Red Cross Blood Center. He will return to his duties with the school system on September 15, 1952. A permanent successor is expected to be named shortly after that time.

Beginning Thursday, September 25, the staff of the Tulsa County Red Cross Blood Center will make a series of Thursday afternoon visits to smaller towns of Tulsa County to draw blood from volunteer donors. One town will be visited each Thursday with Skiatook, Bixby, Collinsville, and Sand Springs presently on the schedule. Mobile equipment will be used although blood will be drawn at central centers. A publicity campaign to encourage donors will precede each visit. Due to the hot weather and lack of air conditioning in many of the centers visited, the mobile tours will be postponed until the Fall months.

DR. EARL I. MULMED and Mrs. Mulmed are the proud parents of a new daughter, born July 12th. Congratulations!

DR. CHARLES H. HARALSON has been seriously ill at St. John's Hospital.

DR. HUGH PERRY has returned from a vacation in New York City.

**TEN WAYS TO KILL AN
ASSOCIATION**

1. Don't come to the meetings.
2. If you do, come late.
3. If the weather doesn't suit you, don't think of coming.
4. If you do not attend a meeting, find fault with the officers and members.
5. Never accept an office, as it is easier to criticize than do things.
6. Nevertheless, get annoyed if you are not appointed to a committee. If you are appointed, don't attend the committee meetings.
7. If asked by the Chairman to give your opinion regarding some important matter, tell him you have nothing to say. After the meeting, tell everyone how things should have been done.
8. Do nothing more than is absolutely necessary. When other members roll up their sleeves and unselfishly use their ability to help things along, howl that the Association is run by a "clique."
9. Hold back your dues as long as possible—better still, don't pay at all.
10. Don't bother about getting new members, but if you do, be sure they are grouches like yourself.

*—Bulletin of the Hudson County
Medical Society.*

(It is not anticipated that this article will change anything). — *Editor*

DR. JAMES H. NEAL, JR. has joined the surgical staff of Tulsa Clinic.

DR. FRED E. WOODSON has been elected a Fellow in the American College of Anesthesiology.

DR. SAFETY R. FIRST has been elected a Fellow in the American College of Cardiology.

DR. F. L. FLACK was the principal speaker at ceremonies marking the opening of the new community hospital at Woodward, Oklahoma, last month.

DR. C. E. GILLILAND has removed his practice to Kansas City, Missouri.

DR. W. A. DEAN is vacationing in Europe. Just back from a three weeks vacation abroad is DR. K. C. REESE, who visited his son, William, now stationed with Army units in Germany.

establish maximum immunity

against Diphtheria, Pertussis and Tetanus...

Dip-Pert-Tet Alhydrox® produces superior antitoxin levels... with minimum reactions. Alhydrox, available only in Cutter immunizing agents, prolongs antigenic stimulus.

Dip-Pert-Tet Alhydrox provides 45 billion Phase I H. pertussis organisms per immunization course. Minimal dosage—0.5 cc. per injection, only 3 injections.

Try it,— compare it in your own practice. You will see that undesirable reactions are reduced to a minimum with purified

CUTTER / Dip-Pert-Tet ALHYDROX

CUTTER LABORATORIES • Berkeley, California

How Supplied: 1.5 cc. vial (1 immunization) • 7.5 cc. vial (5 immunizations)

Dip-Pert-Tet Alhydrox—purified Diphtheria and Tetanus Toxoids and Pertussis Vaccine combined, Aluminum Hydroxide adsorbed.

NEW APPLICANTS

The following physicians are applicants for membership in the Tulsa County Medical Society:

Emil M. Childers, M.D. 201 Stanolind Bldg., Tulsa. Medical Degree, University of Kansas Medical School, 1945. Interned Western Pennsylvania Hospital, Pittsburg, Pa., one year. Specialty, Surgery. Recommended by Dr. F. L. Flack and Dr. W. D. Hoover.

John William Denser, M.D. Tulsa Clinic, 915 S. Cincinnati, Tulsa. Medical Degree, Tulane University School of Medicine, 1949. Interned Charity Hospital, New Orleans, La., one year. Formerly in practice at Bogalusa, Louisiana, 1950-52. General Practice. Recommended by Dr. A. B. Carney and Dr. O. L. Hill.

SOCIETY ACTIVITIES

(Continued From Page 10)

the Bulletin, receives complaints, coordinates the programs of the state and national organizations on the local level, handles group insurance matters, supervises operation of the Tulsa County Medical Clinic, acts as liaison on military matters affecting its members, and administers a public relations program . . . What's that? Oh, yes, the Doctors and Dentists Annual Golf Tournament will be held in September or early October. Watch for dates.

Dr. Arthur F. Abt, nationally known Chicago pediatrician, was guest speaker for the Tulsa Academy of General Practice on June 23rd at the Tulsa Hotel. Among a large group of visiting physicians were Dr. E. Malcom Phelps, El Reno; Dr. F. W. Ewing, Muskogee; Dr. F. R. First, Checotah; Dr. M. B. Glisman, Oklahoma City; and Dr. Allen T. Gibbs, Oklahoma City, President of the Oklahoma Academy of General Practice.

DR. LAWRENCE A. DENNEY has taken new offices at 201 Stanolind Building, Tulsa.
