orally effective for relief of

ARTHRITIS and allied disorders

BUTAZOLIDIN

brings quick relief and, often, functional improvement, to the majority of patients with rheumatoid arthritis, osteoarthritis, spondylitis, gout, arthritis with psoriasis, peritendinitis, fibrositis, and other painful musculoskeletal disorders.1-3

BUTAZOLIDIN

- Broad Therapeutic Spectrum
- Potent Therapeutic Effect
- Prompt Action
- Low Ratio of Serious Side Effects
- Oral Effectiveness

BUTAZOLIDIN

is well within the means of the average patient.

In order to obtain optimal results and to avoid untoward reaction it is highly desirable for the physician to become thoroughly acquainted with the characteristics of BUTAZOLIDIN before prescribing it. Physicians are urged to read the package circular carefully or to write for the BUTAZOLIDIN brochure, which will gladly be sent on request.

Availability: Butazolidin® (brand of phenylbutazone) is issued in yellow-coated tablets of 200 mg. and in red-coated tablets of 100 mg.

With The Editor . . .

The Interim Meeting of the American Medical Association in Denver last December 2-5 proved to be quiet and uneventful . . . Most of the fireworks came in the form of a Reference Committee report which asked the AMA to urge Congress to curtail hospital services to veterans with non-service connected disabilities . . . The report said that over 500,000 veterans were admitted to VA nespitals in 1951 alone, mest of which were for diseases and injuries of nonservice origin . . . After an emotional session of the House of Delegates, the report was adopted in substantially the same form as presented by the Reference Committee on Insurance and Medical Service . . . As a result the AMA will urge that provision of hospital and medical care for non-service connected ailments be discontinued and that such patients be referred to private practitioners . . . However, the House authorized further study of the problem in cooperation with veterans organizations, the VA, and other medical organizations . . . The expected fireworks over the military situation failed to materialize . . . It appears that an extension of the Doctor's Draft legislation beyond July 1, 1953, will be sought in the new Congress by the Armed Forces . . . The proposed new legislation will reduce the number of groups from four to two: those who have served and those who have not . . . Insofar as possible, the Armed Forces will call those who have not served first (up to and including age 45) on the basis of the youngest first . . . Ex-servicemen will be called on basis of least amount of military service . . . Act, if passed, will not affect the service status of any doctor . . . Plans for an Institute on Common Problems of Family Living are in the making ... It will be similar to the popular Institute on Emotional Problems of Children held last Spring . . . Tulsa County Medical Society will again co-sponsor with the Tulsa Council of Social Agencies, Tulsa Child Guidance Clinic, and Oklahoma State Department of Health.

New, Improved 'Homicebrin' with Vitamin B_{12}

'Homicebrin' now provides <u>six</u> essential vitamins in a smooth, palatable, homogenized mixture.

Each 5 cc. contain:

Vitamin A (Palmitate)3,000 U.S.P.	units
Thiamin Chloride 1	mg.
Riboflavin	mg.
Vitamin B ₁₂ (Activity Equivalent) 3	mcg.
Ascorbic Acid	mg.
Vitamin D 1,000 U.S.P.	units

Prescribe the 4-ounce or the economical 1-pint bottle. There is no increase in price.

> Eli Lilly and Company Indianapolis 6, Indiana, U.S.A.

For the prophylaxis or treatment of multiple vitamin deficiencies in infants and children.

TULSA COUNTY MEDICAL SOCIETY

John G. Matt, M.D., President W. D. Hoover, M.D., President-Elect Logan A. Spann, M.D., Vice-President W. R. Turnbow, M.D., Secretary-Treasurer Jack Spears, Executive Secretary

Vol. 19

TULSA, OKLAHOMA, JANUARY, 1953

No. 1

IN 1954 DB. HOOVER TO LEAD

Dr. John G. Matt Assumes Office as President of the Tulsa County Medical Society. Annual Dues Continue at \$135.00. Committee Reports Published.

Dr. Wilkie D. Hoover, Tulsa general practitioner and industrial surgeon, was named President-Elect of the Tulsa County Medical Society at the organization's annual business meeting and election of officers on December 8, 1952. He will serve in 1954, succeeding Dr. John G. Matt, who assumed office as President

on January 1st.

Other officers named by the Society include Dr. Logan A. Spann, Vice-President; Dr. William R. Turnbow, Secretary-Treasurer; Dr. Marshall O. Hart, named to a five-year term on the Board of Trustees; Dr. F. L. Flack, elected to a three-year term on the Board of Censors; and Dr. Horace H. Porter, Dr. Lowell L. Stokes, and Dr. Earl M. Lusk, named to five-year terms each as delegates to the Oklahoma State Medical Association.

Alternate delegates selected were Dr. L. A. Munding, Dr. Roger Q. Atchley, Dr. Felix T. Gastineau, Dr. O. C. Armstrong, Dr. Wendell L. Smith, Dr. Fred E. Woodson, Dr. William A. Walker, Dr. Harold J. Black, Dr. Walter F. Sethney, Jr., Dr. R. M. Wadsworth, and Dr

Herbert S. Orr.

The annual membership dues for 1953 were again fixed at \$68.00, the same figure as for 1952. The dues to the Oklahoma State Medical Association continue at \$42.00 and the American Medical Association dues will again be \$25.00. The total amount now due and payable is \$135.00. Members electing to pay their dues on an installment basis are required to pay \$75.00 in January and the balance of \$60.00 in July. Dues to the state and national organizations are paid through the Tulsa County Medical Society and statements have been sent to all members.

The new President-Elect of the Society, Dr. Wilkie D. Hoover, is a native of Wynnewood, Oklahoma. He received his medical degree from the University of Oklahoma School of Medicine in 1933 and interned for one year at St. John's Hospital of Tulsa. In private practice in Tulsa since January, 1935, he has been a general practitioner and industrial surgeon. Dr. Hoover served four years in World War II as a Commander in the United States Navy Medical Corps, seeing action in the South Pacific theater. He is a member of the Board of Directors of the Oklahoma Academy of General Practice, served in 1952 as Vice-President of the Tulsa County Medical Society, a member of the Military Affairs Committee of the Oklahoma State Medical Association, and as Chairman of the Public Policy Committee of the Tulsa County Medical So-

Dr. John G. Matt, Tulsa proctologist who assumed office as President on January 1st, is a graduate of the University of Tennessee School of Medicine. He interned at St. Vincent's Hospital of New York and subsequently was a chief medical officer for the United States Lines. Dr. Matt entered practice in Tulsa in 1941. During World War II he served as Major in the United States Army Medical Corps with service in the Philippine Islands and other South Pacific areas. He is review editor of "Proctology," national

SOCIETY HAS PROGRESSIVE YEAR IN 1952

Creation of Code of Cooperation With Press is Major Accomplishment of Year. Attendance at Scientific Meetings Shows 35% Increase.

Activities of the Tulsa County Medical Society continued at a high level of progress during Dr. Marshall O. Hart's administration as President in 1952, a study of the annual reports of twenty standing and special committees reveals.

The principal accomplishments of the year, as recorded in the brochure of annual reports published early last month,

include:

1. Establishment of a code of cooperation between medicine and the press in Tulsa as a means of insuring reliable medical and hospital news reporting.

 An all-time record high attendance at the Society's monthly scientific programs with a 35 per cent increase in attendance over 1951 reflecting the high

quality of program content.

- 3. Marked expansion of the facilities of the Medical Credit Bureau, official collection and credit agency of the Tulsa County Medical Society, both in terms of total collections and the number of doctors and dentists served as clients.
- Development of a strong program of malpractice control among the membership.
- Continued expansion of the Library of the Tulsa County Medical Society and increase in services.
- 6. A record year at the Tulsa County Red Cross Blood Center, co-sponsored by the Tulsa County Medical Society with the American Red Cross, with blood donations reaching 10,500 pints, an increase of 1,500 pints over 1951.
- 7. Formulation of a splendid scientific and social program of events for the 1953 annual meeting of the Oklahoma State Medical Association, to be held in Tulsa next April 13-15, 1953.
- 8. Participation of the Society in a study of the facilities and personnel of the Tulsa County Medical Clinic conducted in cooperation with the Health Division of the Tulsa Council of Social Agencies.
- 9. A general strengthening of the Society's participation in civic affairs and

in activities of various civic organizations.

10. Co-sponsorship of the immensely successful Institute on Emotional Problems of Children on May 15, 1952, a one-day postgraduate course for lay and professional personnel working directly with children. An estimated attendance of 175 neared 600 in the final count.

Criticisms voiced in the annual committee reports were few with two most worthy of serious consideration. Dr. W. D. Hoover, Chairman of the Public Policy Committee, criticized the separation of the principal facets of the public policy program — press relations, legislation, and publicity — from the Public Policy Committee and the creation of separate committees to handle each phase. While recognizing that the individual committees had done excellent work in 1952, the report expressed the belief that public policy activities "can best be accomplished by uniting the various phases of public policy under a coordinated committee." (A series of amendments to the By-Laws, introduced at the Society's annual business meeting of December 8, 1952, will pave the way for the legal combining of the Public Policy, Legislative, Press Relations, and Publicity committees.)

A second criticism of importance was voiced by Dr. W. A. Showman, Chairman of the Building Committee, who said the lack of general agreement among the membership as to the desirability of the Society purchasing or constructing its own building was handicapping the solution to the acute housing problem now encountered in the Executive Offices and Library. The report of the Building Committee noted a need for a definite plan of financing to be established in advance of actual negotiations for the purchase or construction of suitable property. Dr. Showman suggested in his report that members agree upon (1) a policy of rental versus purchase, (2) location of desirable property as to general area, and (3)

creation of a definite plan of financing prior to actual negotiations for property.

The Bulletin Committee reported advertising revenues at a record high for the year and noted an increase in size was indicated for 1953.

The Clinic Committee reported 19,000 patient visits in 1952 to the thirteen specialty and general medicine clinics of the Tulsa County Medical Clinic, now in its fourteenth year of operation as a joint project of the Tulsa County Medical Society and the Tulsa County Board of Commissioners. A detailed study of the Clinic, conducted by the Health Division of the Tulsa Council of Social Agencies, with the cooperation of the Committee, has made a wealth of statistical information about the Clinic available as a basis of study for further improvements. Dr. Robert E. Funk, Chairman, noted that opportunities for clinical study for interns and residents of Tulsa hospitals, existed at the Clinic. At present an inadequate number of interns and residents is hampering this program of participation, the report said.

Dr. John E. McDonald's Community Chest Committee reported that members of the Society contributed \$13,400.00 to the 1953 united campaign of the Tulsa County Chapter of the American Red Cross and the Tulsa Community Chest. The figure is a new record high for the Society, more than \$4,000 over the fig-

ures for the previous year.

The Program Committee noted that attendance at scientific meetings was up 35 per cent over 1951. A new record high attendance of 191 was recorded for the program of September 8th. Not included in the tabulation of attendance figures was a special inaugural program

A WORD OF THANKS

The Tulsa County Medical Society wishes to thank the following for their kindness in playing host to Tulsa doctors and dentists at the Society's Annual Christmas party on December 24th: Prather's Medical Arts Prescription Shop, Getman Drug Store, Professional Drug Shop, Curtain's Prescription Laboratories, and T. Roy Barnes Drugry.

in January featuring the Honorable Johnston Murray, Governor of Oklahoma, when lay guests swelled the attendance to over 300.

The Medical Credit Bureau, official collection and credit agency of the Society, reported annual collections would be in excess of \$50,000.00 with a record number of 137 doctors and dentists now referring five or more delinquent accounts to the Bureau each year. The collection figure represents an increase of \$8,000.00 over 1951. Dr. Berget H. Blocksom, Chairman of the Medical Credit Bureau Committee, said support of the Societyowned agency represented a major opportunity for new sources of income and noted that "it is not inconceivable that the Bureau could earn sufficient income to defray a sizeable portion of the Society's expense."

The report of the Press Relations Committee detailed how it had effected a working agreement with Tulsa newspapers, radio and television newscasters to insure reliable reporting of medical and hospital news. A series of meetings with representatives of all groups, including hospitals, encouraged a discussion of mutual problems and resulted in the creation of specific news contacts at the Medical Society and at major hospitals. Patterned along the lines of the West Virginia and Colorado codes of press cooperation and the American Hospital Association code (for hospital news reporting), the new agreement has insured a greater degree of cooperation and friendship between medicine, the hospitals, and the press. The report noted the need for some missionary work among individual doctors to acquaint them with the program and requested a 100 per cent support of the membership for the practical operation of the plan.

The Insurance Committee detailed its progress in promoting the sale of the official St. Paul-Mercury Indemnity Company group policy of malpractice insurance, efforts to educate the profession to avoid malpractice suits, and called for the creation of a permanent committee of physicians who have had experience

Guest Editorial

A Special Message By Mr. J. L. Shakely, President Tulsa Chamber of Commerce

Today, upon the occasion of the beginning of a New Year, it is with considerable pleasure that I, as President of your Tulsa Chamber of Commerce, extend New Year's greetings to the members of the Tulsa County Medical Society, and express the wish that 1953 may be a year of continued advancement in the humanitarian services which you, as individuals and as a society, perform in your day-to-day professional life.

I know that the more than 3,800 Tulsa business and professional men and women members of the Chamber of Commerce, all of whom are intensely interested in the

welfare of our community served by you, join me in this greeting.

Tulsa is experiencing a most rapid growth in population, and this is being directly reflected in every phase of business enterprise — in retail and wholesale marketing, in manufacturing, in the professional services, and in the continuous development of new residential areas and the construction of hundreds of new dwellings to house our new citizens.

This almost unparalleled expansion of Tulsa is posing many new problems daily in the orderly development of our fine city. They are acute problems which have and will require the very best leadership in planning and action by committees of your Chamber of Commerce, working in cooperation with your elected officials of city and county government. This planning will require the active support of an alert, loyal, and community-conscious citizenship in the successful promulgation of community plans.

Many of the members of the Tulsa County Medical Society for years have been giving freely of their time and money in support of the continuation of the community program of work planned and directed by your Chamber of Commerce. Many have accepted positions of leadership in important community projects and their efforts have won the heartfelt appreciation of the city. I am sure that each has enjoyed his

active participation in our "big job."

With this in mind, I wish to extend once again, an invitation to each member of the Tulsa County Medical Society to become actively identified as a working member of the Tulsa Chamber of Commerce, since through such active participation each of you may add strength and scope to the continuous program of the Chamber and the maintenance of a Free America—an America built upon the concepts of Freedom of Enterprise, Freedom of Thought, and Freedom of Religion.

It is our Country, and Tulsa is our home city — I urge that you lend your personal and cooperative effort toward building and maintaining these concepts throughout America, and accept them as the guiding principle in our continuous efforts toward

"Building a Better Tulsa."

Very sincerely,

President, Tulsa Chamber of Commerce

PRESIDENT'S PAGE

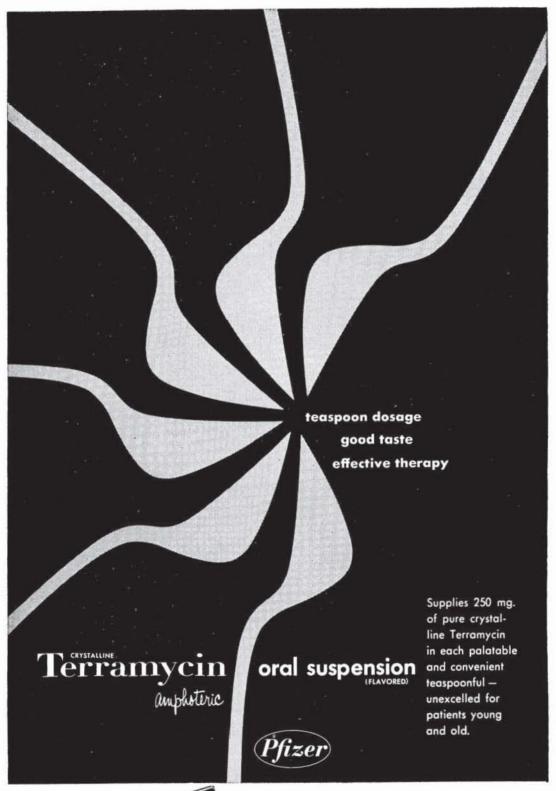

I am hopeful that in 1953 the Tulsa County Medical Society can accomplish an objective program of activity through the completion of a number of specific projects which have been suggested or actually begun in recent months. I have recommended to the Board of Trustees and to the committees of the Society the following projects for the year:

- 1. A successful solution to our critical housing problem through the construction, purchase, or rental of a property suitable to the needs of our Medical Library and Executive Offices.
- 2. The development of an emergency call system with a coincident consideration of the establishment of the Society's own telephone answering service.
- 3. The establishment of the Medical Library Endowment Fund as a legal trust fund.
- 4. Reorganization and development of our public policy program with emphasis upon public relations with civic organizations, labor, and education.
- 5. Creation of an indoctrination program for new memmers to acquaint them with established medical facilities and modes of practice in Tulsa.
- 6. Greater utilization of our splendid credit and collection agency, the Medical Credit Bureau, by a greater number of doctors and dentists.
 - 7. Organization of more postgraduate study facilities.
- 8. Completion of the telephone directory listing project began by the 1952 Telephone Committee as a means of assuring an equitable listing in the yellow sheets of the telephone directory.

I will appreciate your comments and criticisms of this suggested program and also your suggestions for any projects which are not included. With your support this useful program of activity can be accomplished.

Sincerely,

John B. Mesor President

DON'T MISS

APPEARING REGULARLY IN THE J. A. M. A.

TWO LEADING SURGEONS TO SPEAK HERE

Dr. J. Garrott Allen, Chicago Surgeon, to Open 1953 Series of Scientific Lectures for Tulsa County Medical Society. Meetings Moved to University of Tulsa.

Two outstanding medical programs featuring nationally known surgeons as guest speakers are scheduled for Tulsa doctors during January, 1953.

Dr. J. Garrott Allen, Associate Profes-

sor of Surgery at the University of Chicago School of Medicine, Chicago, Ilinois, will appear before the Tulsa County Medical Society on Monday, January 12, 1953, at 8:00 P.M. His subject will be "The Dynamics of Blood Coagulation in Thrombotic

Dr. Allen

and Hemorrhagic Disorders."

Two weeks later, on Monday, January 26, 1953, members and guests of the Tulsa Academy of General Practice will hear Dr. Carl A. Moyer, Professor of Surgery at Washington University School of Medicine, in a discussion of "Recent Advances in the Supportive Care of Trauma." The meeting will be open to all medical doctors, and will be at 8:00 P.M. at Hotel Tulsa.

The January 12th meeting of the Tulsa County Medical Society will be held at the Lorton Hall Auditorium at the University of Tulsa. The change of meeting place came at the recommendation of the Program Committee and was authorized by the membership at the annual meeting of the Society last December 8th. The Lorton Hall Auditorium is a beautiful tiered meeting room with cushioned theater seats, individual ash trays, and an optional desk attachment which permits the easy writing of notes during the progress of the lecture. Several large parking lots on the University of Tulsa campus, plus on-the-street parking, should permit a ready accessibility to the Auditorium. Lorton Hall is located on the South side of the campus. Members parking on 7th street may enter the rear door of the Hall for easy access to the meeting room. Telephone facilities will be available and all doctors will be furnished with the number of the telephone installation. The number is 92-9250.

If the Auditorium proves a more suitable meeting room, in the opinion of the membership, the meetings of the Tulsa County Medical Society may be permanently moved there.

Dr. J. Garrott Allen, speaker for the inaugural program of 1953, is a native of West Virginia. His medical degree was obtained at Harvard University Medical School in 1938. He interned at the University of Chicago Clinics in 1939 and subsequently served a four-year surgical residency at that institution. Following his entrance into private practice, he was appointed to the faculty of the University of Chicago Medical School in 1947 and rose rapidly to his present position. Dr. Allen has gained wide recognition for his studies in the nature of blood disorders and also for his techniques in abdominal surgery. He is a fellow of the American College of Surgeons, diplomate of the American Board of Surgery, member of the American Physiological Association,

and member of the Society for Experimental Biology and Medicine.

The January 12th program will be followed by a brief business meeting.

Dr. Carl A. Moyer, who will speak to Tulsa general practitioners on January 26th, is a grad-

Dr. Moyer

uate of the University of Michigan, Class of 1937. He also holds an A.B. degree from the Northern State Teachers College of Marquette, Michigan, and an M.S. degree from the University of Michigan. He was formerly Surgical Director of

TUESDAY, January 27th: St. John's Tumor Clinic, 8:00 A.M.

Final date to purchase 1953 automobile license tags through the Executive Offices of the Tulsa County Medical Society.

FRIDAY, January 30th:

Blue Cross hospital insurance, Medical Assistants Group, quarterly premiums due and payable at 1202 Medical Arts Building on this date. Final date for payment, February 10, 1953.

St. John's Tumor Clinic, Clinical Conference, 8:30 A.M.

Here's how new POLYSAL /CUTTER helps your patients:

Polysal prevents and corrects hypopotassemia without danger of toxicity.

- Polysal corrects moderate acidosis without inducing alkalosis.
 - 3. Polysal replaces the electrolytes in extracellular fluid.1
 - 4. Polysal induces copious secretion of urine and salt.1

sal, a single solution to build electrobalance, is recommended for electroand fluid replacement in all medical, ical and pediatric patients where saline or other electrolyte solutions would ordinarily be given. Write for literature and handy wallet-size mEq chart . . . Cutter Laboratories, Berkeley, California.

1. Fox. C. L. Jr., et. al.; An Electrolyte Solution Approximating Plasma Concentrations with Increased Potassium for Routine Fluid and Electrolyte Replacement. J. A. M. A., March 8, 1952.

437 51.8% The Tulsa County Red Cross Blood Center will observe its fourth anniversary on Monday, January 12, 1953, as a joint project of the Tulsa County Chapter of the American Red Cross and the Tulsa County Medical Society. Since the opening of the Center in 1949 approximately 33,800 pints of whole blood have been contributed by donors. The Center drew 6,800 pints in 1949, 7,500 pints in 1950, 9,000 pints in 1951, and 10,500 pints in 1952. The increase of 3,000 pints in donation and usage during the past two years has been attributed by Dr. Felix R. Park, Chairman of the Blood Center Committee, to four major factors: (1) improved methods of recruiting donors, (2) increased values placed on transfusions by Tulsa doctors, (3) increased numbers of patients which recent expansions of major Tulsa hospitals now permit to be served, and (4) the continued development of Tulsa as a specialty medical center drawing a constantly growing number of patients from the surrounding area.

It's a boy for DR. and MRS. SAMUEL L. FRENCH, born November 26th. Congratulations!

DR. ROBERT M. SHEPARD, JR. has developed a new defibrillater for use when the human heart stops beating during the course of surgery. The instrument is now being manufactured by the Coleman Instrument Company of Tulsa with the first two of the machines being presented to St. John's and Hillcrest hospitals of Tulsa.

ANTRENYL bromide is a new high potency anticholinergic agent indicated in the management of peptic ulcer and spasm of the gastrointestinal tract. Milligram per milligram, it is the most potent of the newer anticholinergics, recommended dosage being only about one-tenth that of certain commonly used agents. ANTRENYL has a marked inhibitory effect on gastric secretion and motility of the gastrointestinal tract. Side effects are generally mild, and there is usually no esophageal or gastric irritation. A recent report1 described the side effects as less pronounced than those of other drugs ordinarily used in the management of peptic ulcer. In this study, patients receiving ANTRENYL usually obtained relief from acute symptoms within 24 to 36 hours. Prescribe ANTRENYL as adjunctive therapy in your next few cases of peptic ulcer and note its advantages. Available as ANTRENYL Bromide Tablets, 5 mg., scored: bottles of 100, and as ANTRENYL Bromide Syrup, 5 mg. per teaspoonful (4 cc.); bottles of 1 pint. FOREMOST NAME DANCE BAND TO PLAY AT ANNUAL MEETING

Ralph Flanagan and His Orchestra, currently America's Number One Band, has been engaged to provide the music for the President's Annual Dinner Dance at the 60th Annual Meeting of the Oklahoma State Medical Association in Tulsa, April 14, 1953.

Flanagan's meteoric rise to fame in 1950 has been climaxed by record grosses in all of the major ballrooms of the United States, an annual sale of phonograph records in excess of four million, and sponsored commercial radio

Ralph Flanagan

shows on the CBS and ABC networks. Billboard Magazine, the bible of the entertainment industry, calls Flanagan "America's No. 1 Band."

Dr. William Orlando Smith, Chairman of the Social Events Committee for the 1953 convention, said that Flanagan and his Orchestra would provide four hours of dance music and entertainment for convention delegates. The Tulsa County Medical Society will be host at a social hour immediately preceding the dinner dance, and inaugural ceremonies following the dinner will be brief. To assure a maximum time for dancing, there will be no formal address. The place of the Dinner Dance has yet to be set. Complete information, including plans for an advance ticket sale for the Dinner, will be announced within thirty days, Dr. Smith said.

Thirty-three year-old Ralph Flanagan was formerly pianist and arranger for Sammy Kaye and His Orchestra, later staff arranger for Perry Como, popular radio and television star. Organizing his own 15-piece orchestra in 1949, Flanagan soared to the top of name bands in a matter of months. With the exception of the veteran Guy Lombardo, the Flanagan Orchestra outsells all other orchestras in phonograph records. His RCA Victor albums and singles are now selling more than 4,000,000 per year. Flanagan is

sponsored on radio for 44 weeks each year, has made numerous television appearances, and is now grossing over half a million dollars a year in personal appearances. He has just concluded a long engagement at the popular Edgewater Beach Hotel in Chicago.

CHILD GUIDANCE CLINIC MOVES TO NEW LOCATION

The Tulsa Child Guidance Clinic will be moved to the Junior League Children's Hospital for Convalescents on March 1, 1953, it was announced last month by Mr. James B. Diggs, Chairman of the supervisory board. The Clinic will be housed in the new wing of the Hospital and coordinated with other specialized clinics now being conducted there.

Dr. Paul C. Benton, Director of the Child Guidance Clinic, has also been named as Medical Director of the Junior League Children's Hospital and assumed these new duties on January 1, 1953. The Child Guidance Clinic will continue to operate under a separate Board of Trustees and with separate financing. Present quarters in the Community Welfare Building will be closed after the move.

CHICAGO GYNECOLOGIST TO SPEAK AT OKLAHOMA CITY

Dr. M. Edward Davis, Professor of Obstetrics and Gynecology, University of Illinois School of Medicine, Chicago, Illinois, will be the principal guest speaker at the Sixth Annual Review of the Oklahoma City Obstetrical and Gynecological Society on Saturday, January 17, 1953, at Oklahoma City.

The morning session will feature a television presentation of an operative clinic. The afternoon will be highlighted by Dr. Davis' lecture and by scientific papers presented by members of the Society. All meetings will be in the Auditorium of the School of Nursing, University of Oklahoma School of Medicine. The Review is open to all Oklahoma doctors. The registration fee is \$5.00. The program will begin at 8:45 a. m.

ANNUAL REPORTS

(Continued From Page 10)

in such suits to act as advisors to doctors who become defendants in malpractice actions.

The Military Affairs Committee added a sombre note with the observation that a substantial number of Class III registrants (physicians with no military experience) could expect to be called to duty in 1953. In respect to the recall of Navy reservists, the Committee admitted it likely that Navy reservists with a small amount of service would be recalled.

The Public Health Committee reported on various public health projects in which the Committee or representatives of the Society participated, notably the fluoridation of the city water supply project and the valuable Institute on Emotional Problems of Children conducted last May at the University of Tulsa.

The Library of the Tulsa County Medical Society continued to show a growing patronage and individual usage of library facilities. The Committee recognized the need for completion of legal details to make the Medical Library Endowment Fund (established seven years ago) as a legal trust fund.

The Postgraduate Study Committee reported on its Review of General Medicine study course held last Spring and criticized the membership for the small level of attendance.

The Legislative Committee noted a mild legislative year, occasioned by the Oklahoma State Legislature not being in session, and suggested that members take a particular interest in the Reed-Keough bill to establish tax-free pension plans for physicians. The measure is expected to be introduced into Congress shortly after January 1st.

The Blood Center Committee praised the personnel of the Tulsa County Red

The name of the Brookside Prescription Shop, 3409 South Peoria, was inadvertently omitted from the list of donors of golf prizes for the Doctors and Dentists Annual Golf Tournament published in the November issue of The Bulletin.

Cross Blood Center for a fine job and noted an all-time record donation of 10,500 pints of blood. Although beset by personnel changes during the year, the Center operated at the highest level of efficiency during its four years of operation, Dr. Felix R. Park, Chairman, reported. Details of the mobile blood program were also given in the report.

The Grievances Committee reported a small number of complaints were filed and noted the successful disposition of most. Much of its work was in acting in an advisory capacity on various questions posed by individual doctors and by the Blue Cross-Blue Shield Plans of Oklahoma.

The Cancer Committee reported that fifteen Tulsa doctors had participated in the mobile cancer clinics conducted in Northeastern Oklahoma during the year. Many also participated in scientific programs on various aspects of cancer presented before county medical societies in the area. The need for a radioisotope laboratory in Tulsa was noted by Dr. Lucien M. Pascucci, Chairman, who said plans for such a laboratory were now in progress at St. John's Hospital.

Dr. Joseph Fulcher's Telephone Committee presented results of a survey to determine the Society's attitude towards specialty listings in the yellow sheets of the telephone directory and recommended that listings be limited to one general and one specialty listing. Action on this proposal is expected to be taken at an early meeting in 1953.

Additional copies of the brochure of annual reports may be obtained in the Executive Offices of the Tulsa County Medical Society.

DR. EARL M. LUSK has been elected Chief-of-Staff for 1953 at Hillcrest Hospital. DR. D. L. EDWARDS will be Chief-of-Staff at St. John's Hospital for the current year.

DR. R. M. SHEPARD has been named Chairman of the Committee on Tuberculosis Among Indians of the National Tuberculosis Association. He will attend a meeting of the Committee in Chicago, Illinois, on January 10, 1953.

Happy New Year

As we enter our twenty-eighth year of experienced optical service, may we wish you and your patients a very Happy New Year in 1953. To serve you with the same high standards of perfection in optical manufacturing, to please you and your patients with the quality upon which our reputation rests is our aim for the new year.
