NOTES.—1. In cases where the accounts of defaulting officers embraced more than one period, the losses, unless known to have occurred in other periods, have been charged to the periods in which the accounts were opened in this Department. In cases of defaulting banks, however, for want of other information, the losses have been charged to the periods in which they are reported on the books, though, doubtless, in several instances, they actually occurred in previous periods. No losses of the latter kind, however, have been included unless known to have occurred within the period covered by this statement. 2. No deductions have been made for amounts which may be collected hereafter, though a large percentage of the recent losses will doubtless be yet recovered. 3. In preparing this statement, the receipts and disbursements since June 30, 1843, have been classified by fiscal years, as in the published official reports; the losses have in all cases been classified by calendar years, it not being practicable to separate the losses occurring in the fractional years of each period; but the periods compared being of the same length, the result is substantially correct.
