Project Name		Material	Date	Revision	Sheet
Allara Thermal Evaporator, Lin Hall 120		Steel	7/28/2020	1	1 of 2
Part Name		Quantity	Scale	Point of Contact	
Rail Pulley Mount		2	1:1	L.A. Bumm 405-364-7253, OU/Physics	
File Name					
C:\Users\bmboo\Documents\Inventor\HeatEvaporator\heater\cable driven cart actuation\rail base.iam					

The diagram shows an orthographic projection of a mechanical part with the following features:

- Top View:** A rectangle with a width of $.750$. It contains two circular features labeled **A1** and **A2**, which are section markers for a vertical section.
- Front View:** A T-shaped profile with a total height of 1.125 . The top flange has a width of $.500$. A circular feature labeled **B1** is located in the upper part of the profile. A section marker (a circle with a diagonal line) is positioned on the left side of the front view.
- Side View:** A rectangle with a height of 1.125 , matching the front view. It shows the profile of the part from the side.
